

LITTLE DAMAGE TO GOOD TIMBER

Says W. A. Anstie of Lumber Association

RAILWAYS BLAMED FOR MANY FIRES

Violation of Bush Fires Act—
Though Little Merchant-
table Timber Lost

W. A. Anstie asked yesterday regarding the extent of the damage to timber limits of the mountain operators from forest fires, said:

Exaggerated Reports
"I consider it most unfortunate that so many inaccurate reports should have recently appeared in the press to the effect that timber holdings in the interior have been totally destroyed, etc. This sort of thing does the country a whole lot of harm in the way of causing a feeling of insecurity in our timber, and undoubtedly has a tendency to depreciate valuable assets which is unwarranted by the facts."

Fires Not in Merchantable Timber
No case person will wish to underestimate the fire menace in this province, and I do not for a moment want to minimize the danger to life and property from bush fires, but the fact is that this year the fires have been chiefly confined to cut over lands and tracts which were formerly burned."

Saved Property at Much Expense
"Many timber companies have been put to heavy expense through being forced to close down their mills and turn in all hands forest fire fighting—in some cases only saving their mills, buildings and stocks by the most strenuous efforts."

Sparks From Locomotives
The government and land department of the C.P.R. have both done splendid work this season in handling bush fires and it is regrettable that the cause in our bush fires not providing that locomotive engines shall be equipped with efficient spark arresters, which shall be kept in good order, is not removed. It is a common sight in the Crow's Nest district to see engines shooting forth showers of sparks, and apparently the keeping of an appliance on the smoke stacks which will prevent the emission of sparks would interfere with the draft particularly on the heavy grades, to such an extent that regulations are constantly being disregarded."

The fact that a large part of the territory between Kootenay Landing and Crow's Nest has been on fire at fairly close intervals along the line of railway this summer, demonstrates pretty well from what origin the fires spring."

MINISTER OF INTERIOR MADE RECORD JOURNEY

EDMONTON, Aug. 4.—Hon. Frank Oliver returned to the city today from Vancouver he having made the long journey to the Yukon via the Mackenzie river route, a total distance of over 3000 miles in two months and two days. The time made by the minister of the interior is the fastest on record. He had no statement to make in addition to that from Vancouver concerning the report of his retirement from the Laurier cabinet.

Gaily Decorated

The city will be as gaily decorated for the reception of Premier Laurier as it was on the occasion of Earl Grey's visit here for the laying of the corner stone of the parliament buildings. The decorations at that time cost \$5000. Prominent Liberals including Premier Hulton and other members of the cabinet Hon. Frank Oliver and Hon. C. W. Crooks will go to Lloydminster on Sunday night to meet the premier's special train at that point.

ITALY MAKES DEMAND FOR CHARLTON'S EXTRADITION

WASHINGTON, Aug. 4.—What is assumed to be Italy's formal demand for the extradition of Peter Charlton, the young American charged with having killed his wife, Mary Scott Charlton, at Lake Como, Italy, reached the state department today. As the case has not reached the jurisdiction of the department, the papers were returned to the Italian embassy, whence they came. Accompanying the papers upon its return was an explanatory note of the course taken, from Secretary Wilson, suggesting that as the case lay with the New Jersey court, the papers should be presented to the magistrate before whom the case was pending. Not until action has been taken by the court will the case of Charlton reach the state department, when Secretary Knox may be called upon the question of extradition.

BODY FOUND.

SANTA ROSA, Cal., Aug. 4.—The mutilated body of a woman, with the head and legs missing, was found late today in a canyon near the Kendall ranch. The body has not been positively identified, but it is the belief that it is that of Mrs. Thomas Kendall, who has been missing, with her husband, since July 25. Charles Denora, a Japanese, and a friend of Henry Yamaguchi, was arrested at Menards this afternoon. He has told the officers he had Yamaguchi in his house at Menards last Sunday night.

ATHLETE DROWNED IN LAKE ONTARIO

Tow
L.A.L.
breaks and Occupant of
Thrown into Water
Drowned.

TORONTO, Aug. 4.—Morton Kent and Al Payton, 21, this morning for the Canadian Hon. 30-foot motor launch of the Argosy. The engines bucked and the wind having driven up a heavy sea, they, in mid-lake asked the Garden City which was on its regular trip, for a tow. The tow rope, however, parted as the steamer got up speed and with the wash from the screw and the heavy sea the boat whirled about and threw Morton overboard. Morton was a strong swimmer but the launch was uncontrollable and before the steamer stopped and a boat was on the scene he was drowned. The steamer took Payton aboard and turned the launch adrift. Kent was on all round athlete, playing hockey with the Toronto Rowing club, and half back for the Argosy rugby team and his ultimate end will break up the Argosy's season four and eight, of which he has a brother as a member.

SEVENTEEN CASES OF MINERALS GO

First Consignment of Kootenay Specimens for Vancouver Exhibition Shipped.

The Nelson board of trade yesterday shipped 17 cases of minerals, between 3000 and 4000 pounds of ore, to the Vancouver exhibition. This is the first shipment of exhibits to go forward and it is expected that another fair sized one will leave today or tomorrow, as samples are now coming in steadily. Ed. Peters came in last night with about 300 pounds of samples from the Ymir district mines. Nelson district will be well represented with samples from most of the mines and prominent claims in the neighborhood; about 700 pounds having been received in samples from the immediate vicinity of the city. Salmo and Sheep creek are largely represented, with a great variety of samples from nearly every property of importance. A few specimens have been received from the Bayonne country, but the display from this important district will be disappointing unless more come to hand within the next few days.

The exhibit now going forward to Vancouver is probably the largest ever sent out from this district, and the committee in charge of it should be given every assistance possible to make it a big success.

FULL INVESTIGATION WILL BE MADE BEFORE START

Object of Balloon Expedition is Scientific Not Mere Pole Hunt—
Prince Henry Explains.

BERLIN, Aug. 4.—Prince Henry of Prussia, who is a member of Zepplin's preliminary Arctic expedition party now headed for Spitzbergen to study conditions for the proposed Zepplin dirigible balloon expedition stated today in a message from Tromsø, Norway, that it was not the intention of the promoters to attempt to reach the pole before a full preliminary investigation had been made. No start by balloon will be attempted until a most complete knowledge of conditions in the ice world bearing on the subject of expedition such as the nature of Polar air currents, the possibility of landing on the ice fields, etc., has been ascertained. The main object of enterprise is scientific not a mere pole hunt.

PEEPING SAILOR LOCKED IN HOLD; MUTINY FOLLOWS

CHICAGO, Aug. 4.—During a special trip from Duluth to Gary, Indiana, with young women relatives of officers of the United States steel corporation on board, the crew of the ore steamer Douglas Houghlin mutilated early yesterday off the Chicago harbor, it was learned today and it took Capt. John Parks one hour with a revolver, to quell the mutiny. It is said that the mutiny started because a deckhand had been locked in the ship's hold for peeping through a cabin window at the women passengers.

TRAIN CRASHES INTO HAND CARS; FIVE KILLED

VANCOUVER, Wash., Aug. 4.—West-bound train No. 5 on the Spokane, Portland and Seattle North Pacific railroad running eight and a half hours late crashed into three hand cars loaded with Hungarian railroad workers on a 1200 foot bridge over Burras canyon east of the Snake river today. Five Hungarians were killed, falling to the ground 300 feet below the bridge. A number of others were injured. It is said that the accident was the result of the alleged carelessness of the workmen in not properly guarding the approach to the bridge.

TYPHOID INCREASING

MONTREAL, Aug. 4.—Typhoid is increasing. The number of cases is growing rapidly and all the hospitals are filled to capacity with patients. Within the last five days the number of patients at the different hospitals increased from 50 to 68. In addition from 20 to 30 sufferers have been refused admission in the same time.

EXPLOSION IN OIL REFINERY

Port Moody Oil Refining Plant
Destroyed

BLAZING OIL BLOCKS RAILWAY

Twenty Tanks Explode—Fire
Consumes Oil and
Asphalt

(Special to The Daily News)
VANCOUVER, Aug. 4.—The plant of the British Columbia Oil Refining company at Port Moody was destroyed by fire early this morning. Night Engineer Conyers, about midnight went into the oil tank with an electric light bulb in his hand. It is supposed the glass became broken and the red hot filament ignited the gas. Promptly an explosion took place and Conyers was thrown 25 feet in the air, followed by a shower of blazing oil.

The explosion brought Port Moody residents to the scene but the fire had already gained such headway that the destruction of the plant was a foregone conclusion. By strenuous efforts a big tank containing 25,000 barrels of oil and three smaller tanks were saved by the use of chemicals. Twenty tanks exploded, two cars of oil were consumed on the tracks and a shipment of asphalt on the wharf was destroyed with the plant. The loss is estimated at \$60,000. The burning oil ran along the ditch by the C.P.R. track for a long distance and all traffic over the road was blocked for nearly 12 hours. Telegraph communication was also cut off for a time. Conyers was brought to the city suffering from a broken arm and a badly cut head.

BLINDED BY BULLET.

REGINA, Aug. 4.—While standing near a shooting gallery at the fair today, a ricochet bullet struck the young son of Archie McLea of Regina in the eye. The boy will lose the sight of the eye that is affected.

START DELAYED IN SOUTH POLE RACE

Japanese Expedition Postponed for
Lack of Funds—Retired Officer
Selling Military Secrets.

VICTORIA, Aug. 4.—The Japanese expedition to the south pole which was to have started this month has been postponed until October, according to news received today by the steamer Kumeric, owing to lack of funds. Public meetings were being held to encourage public subscriptions. L. T. Shibusawa is asking for \$15,000. The government has not contributed. It is now planned to leave Japan on October 15.

Officer is Traitor.
Much excitement was occasioned at Osaka shortly before the Kumeric left Kobe owing to the discovery of 3000 maps of fortification zones in Japan, documents relating to the manufacture of shimos powder and other military secrets, under the floor of the house of Captain Naguchi, a retired artillery officer who was arrested on July 14 at Chang Chun, Manchuria. He was said to be on his way to St. Petersburg to endeavor to sell the documents.

Predicts Collision.
Japanese newspapers received by the Kumeric publish speeches by Takekoshi Yosaburo, a noted Japanese historian, who predicts that a collision between Japan and the United States is inevitable, and urges immediate expansion of Japanese armaments. He holds that the collision will be precipitated when the lease of the South Manchurian railroad expires, when he says China will insist on the return of the railroad zone and the United States will support China.

Cruiser Strikes Rock.
The Dutch cruiser Noord Brabant sent to San Francisco last year almost foundered recently off Java according to news brought by the Kumeric. The Noord Brabant struck an uncharted reef and was saved only by the quick shutting off of the water tight doors. She was towed to Sourabaya, where the captain complimented the officers publicly for having prevented an impending panic when the warship struck.

DEATH OF STEWARD QUANT DIVES IN SHALLOW WATER

Chief Steward Quant on the Okanagan steamer, on diving in two feet six inches of water at Pentstemon last Tuesday was fatally injured. It appears that Quant was in swimming with others and was warned not to dive in such shallow water, but deciding to take the chance, he dived off the upper deck and the result was that he struck his head on the bottom, which paralyzed him. He was taken to the Vernon hospital where he died yesterday.

WILLIAM PERDUE FOUND DEMENTED

Sad State of One of the Pioneers of
This District—Before a Seattle
Judge

The news that William Perdue, one of the very old pioneers of this district, has been pronounced demented by a Seattle court, will be read with much sympathy by many in Nelson. "Billy" Perdue was a well known figure in this district as early as 1883 and was about 70 years of age in connection with C.P.R. construction. In early days here he ran the butcher shop now conducted by P. Burns and company, being a partner of W. J. Wilson. Early in the 90's he had mail contracts in the winters between Marcus, Wash. and Nelson. He was one of the first men to take cattle into Dawson City, and on one trip was hung up on the Yukon river for a long period. He took cattle in three times. After returning from the north he ran a packing establishment in Spokane for two years. He left Nelson about ten years ago, becoming interested in some mining properties at Roseland.

The dispatch announcing his present condition is as follows:
William Perdue, a pioneer of the north, one of the first men to go over the old Chilcotin Pass, and said to have been the first man to take cattle into Dawson after the Klondike rush, but with bowed head and uncomprehending mind while he was pronounced demented before Commissioner Robert H. Lind.

Perdue was picked up by the police last week while sitting on a lumber pile in the lower part of the city. He was unable to give his name or place of residence and was sent to the municipal hospital. He came to Seattle from Long Beach, Cal., a few days ago. Old friends who accompanied him to court, said that he had a wife and daughter in this city, but that no trace of them could be found.

GALENA STRIKE IN YMR CAMP

Splendid Samples Brought in From
Free Silver Claim—Prosperity Has
Not Yet Been Developed.

News of an important strike on the Free Silver property, in the Ymir camp is brought to the city by Ed. Peters of Ymir. Samples of the ore which have been brought to Ymir are said to be of such value that they carry the highest lead values of any ever found in that camp, being especially heavy in galena. There are also veins of silver and gold. When the assays are made, it is probable that the lead will prove to be the predominant value. This news is especially interesting in view of Ymir being a gold camp.

The Free Silver property was staked years ago and once it was about to be transferred for \$30,000, but ultimately litigation prevented the sale being carried out, and the property is still a prospect. The owners are T. Bennett, O. Bennett and J. H. Schindler, M. P. R. The property is about two miles from the town of Ymir, and lies between Quartz and Boulder creeks.

GOATS BARRED OUT FOR THE PRESENT

Demolition Government Places Embargo
on Cattle and Other
Ruminants.

W. R. Haldane, general freight agent, has received a telegram from the importing freight agent of the C. P. R. company notifying him that owing to the prevalence of foot and mouth disease in Great Britain the Dominion government has placed an embargo on the importation of cattle, sheep and other ruminants.

As a result the importation of goats into the Kootenay from England will be delayed until the embargo is removed. Mr. Haldane has issued a circular letter to those who have ordered goats, stating the facts mentioned and that he expects a letter from the importing freight agent which may possibly inform him when the embargo is expected to be removed.

TAKES HOLIDAY TO GO TO PRISON

President of Russian Delegation Fights
Duel Contrary to Law—Got
Four Weeks.

ST. PETERSBURG, Aug. 4.—Alexander Guichkoff, who temporarily resigned his functions as president of the Imperial Delegation, in order to serve a sentence of four weeks' imprisonment for fighting a duel with Count Uvaroff, a rival leader in parliament began his term in the fortress of St. Peter and St. Paul today. In the duel, which was fought November 30, Guichkoff, then a private member of the Delegation, wounded Count Uvaroff, slightly in the shoulder.

INDIANS GET REWARD

(Special to The Daily News)
VANCOUVER, Aug. 4.—The remains of C. S. Wiley, the Seattle contractor, who was drowned in Jarvis inlet recently were brought down today. The body was recovered by Indians who will secure the reward of \$2500.

ASK GOVERNMENTS TO CO-OPERATE

Irrigation Convention Passes
Resolutions

WATER RIGHTS IN RAILWAY BELT

Amalgamation of Records for
Irrigation Projects—Next
Convention Calgary

(Special to The Daily News)
KAMLOOPS, Aug. 4.—The Western Canada Irrigation convention today considered a resolution calling upon the Dominion authorities to deal by special legislation with granting equitable rights on all water records in the railway belt should privy council decide the case on the point now before it in favor of the Dominion. The question aroused vigorous discussion in which the participants came dangerously near political lines time and time again. Martin Burrell declared there was no need for the resolution as in the stern necessity of things all claims for water rights in the railway belt would be justly dealt with by the Dominion if it was before the privy council. The resolution on the point finally passed called upon the Dominion and provincial governments to co-operate for the settlement of water rights in the railway belt.

Amend Water Act.

Another resolution passed unanimously asks the provincial authorities to amend the Water act so as to allow the separation of water rights from lands for which they were granted and permit of the amalgamation of records for irrigation projects. This action is desired to obviate the necessity of application of a company for a private charter if it desires to consolidate water rights for a general improvement scheme.

It is probable Calgary will be selected as the place of next year's convention.

RIOTS AND DISTRESS PREVAIL IN CHINA

Crop Failure Followed by Disturbances
—Revolutionary Plots Aimed
Against Prince Regent

VICTORIA, Aug. 4.—News was received by the steamer Kumeric which arrived today from the Orient, that much alarm has been occasioned at Peking by the discovery of revolutionary plots aimed at the assassination of the prince regent. Bombs have been slipped as merchandise from Japan. The police guards arrested a supposed revolutionary lurking in the palace and the following day found a threatening letter wrapped about a dagger which had been thrown over the wall addressed to the prince regent stating he would be killed unless a payment was granted. Guards of soldiers have been sent to the residence of each Chinese minister.

Many Riots

From Shan-tung news of disturbances were brought. Following the failure of the crops there was a rising at Tai-yang and about 2000 troops were sent to suppress the rioters, while Germany sent a cruiser to Hai-yang, the nearest accessible port and the German railroad in conveying Chinese troops to the neutral zone. Other disturbances are also reported from Yuz-nan and Anhui and Kwang-si provinces. The French are assisting the Chinese authorities in Yuz-nan where many insurgents recently crossed from Tonkin to augment the anti-dynastic forces. In the south the most severe riots are reported from Anang, Wu-chow and Lin-chow, where fighting continued for many days, the rioters being well armed, opposed the military resistance, killing 40 and wounding 140 in one engagement.

No further news was brought regarding the fighting between Portuguese and Chinese at Colowan. According to officers of the steamer this place is in the neutral zone between Chinese and Portuguese territory and has consequently furnished a haven for many pirates for years.

Much Distress
Much distress is reported from He-bei and Hunan where families are now threatening, more than 4000 refugees reaching Ying-kow shortly before the Kumeric left Japan. They had no means of subsistence and the government officials were arranging to forward them to the Amur district in accordance with a scheme to settle the Russian frontier with Chinese.

OUT OF THE GAME

(Special to The Daily News)
VANCOUVER, Aug. 4.—Ed. Leighton, the famous lacrosse player today received a shock on a light pole on which he was working and fell, breaking his arm. He will be out of the game for the balance of the season.

MONTREAL POLICE FIND MANY INSANE

Residents of Montreal Suffer From
Melancholia—Physician Cannot
Account for Outbreak.

MONTREAL, Aug. 4.—Ten persons under examination as to their sanity, five more sent to Longue Pointe as lunatics and six more gathered up by the police is a state of affairs for a day and a half, but Dr. Picotte, city mental disease expert, says it is extremely abnormal. In fact, he said it is a veritable outbreak that he cannot account for. "There were fifteen in the jail under my observation as to their sanity male and female," said the doctor. "I came to the conclusion that I could pronounce five of them insane last night. The others who had not spent the usual eight days in jail I had not observed long enough to come to a conclusion. It was a surprise to me to come down today to police headquarters and find that the police had picked up six more people showing signs of a weak mind. There is nothing particular in these six new cases. They all resulted from melancholia."

RIFT WIDENS IN SPANISH AFFAIRS

Fearful Action of Vatican Will Force
Premier Into Hands of His Ex-
tremist Supporters.

ROME, Aug. 4.—Monsieur Vico, the papal nuncio to the Spanish court, was given instructions from the Vatican to be ready to leave Madrid at a moment's notice in case of an unfavorable issue to the negotiations. This preparation for a complete rupture of diplomatic relations between Spain and the Vatican would indicate that little is hoped from the answer which Cardinal Merry Del Val is now drafting. Although the Vatican is earnestly trying its best to avert a complete break with Spain, Cardinal Merry Del Val fears that Senator Canalejas, the Spanish premier, will be forced, in order to satisfy his extreme supporters, to still further accentuate his anti-Catholic policy, and the cardinal is preparing for the worst. The note which will be submitted from the papal congregation of extraordinary affairs, will not be known to the press here before its delivery to the Spanish premier at Madrid, to comply with the usual courtesies of diplomatic intercourse.

Insurrection Breaks Out.

SAN SEBASTIAN, Spain, Aug. 4.—An insurrectionary movement it is reported has started in the Basque provinces and in the adjoining province of Navarra. The government is dispatching troops to the scene of the trouble.

OTTAWA NEXT MEETING PLACE OF POLICE CONVENTION

VANCOUVER, Aug. 4.—With the selection of Ottawa as the next meeting place and the election of officers, the Chief Constable association of Canada closed its business session here today. Officers chosen are: Chief Clark of St. John, N. B., president; Chief Chamberlain, Vancouver, vice president; Deputy Chief Stark, Toronto, secretary and treasurer. The executive committee consists of Chiefs Kimmins, Niagara Falls; Champness, Montreal; Col. Sherwood, Ottawa; Chief Detective Carpenter, Montreal, and Chief Langley, Victoria.

The principal business of the final session of the convention in Vancouver was the reading and discussion of different paragraphs of the executive committee's report. The convention spent some time in debate upon the subject of care of children who show criminal tendencies and delinquent children generally. The convention expressed itself somewhat strongly on the too free use of petitions for executive clemency on behalf of prisoners. A copy of resolutions covering the whole matter will be sent to the department of justice. The association delegates left this afternoon for New Westminster and St. John and will spend tomorrow in Victoria.

SHOT STEAMER

VANCOUVER, Aug. 4.—Per neglect of the crew the battery commander, before a 12 inch mortar was fired, resulting in the projectile striking the American steamer Evan Thomas, damaging the vessel greatly and endangering the lives of all on board, first Lieut. R. F. Anderson has been court martined and ordered confined to the post for two months and fined \$100.

ONTARIO LUMBERMEN ARE REDUCING THEIR PRICES

TORONTO, Aug. 4.—Perry Sound advice state that lumber dealers throughout Ontario have reduced prices one dollar per thousand all round in anticipation of a slump in business. Some are storing their supply and others will not make a big cut this winter.

TO DEVELOP PORT MANN

(Special to The Daily News)
NEW WESTMINSTER, Aug. 4.—D. D. Mann today visited the site of Port Mann and examined plans for the development of the place. He said that work would be rushed and 250 men started there shortly. It is intimated that the Canadian Northern will spend a large amount of money on an extensive wharf system at the location.

RECIPROCITY AND PREFERENCE

Sir Wilfrid Laurier Speaks at
Prairie Towns

GRAHAM CRITICISES HOUSE OF LORDS

Prefers Method of Appointment
to Senate—Premier
a Gladstonian

MOOSE JAW, Aug. 4.—Sir Wilfrid Laurier and party were accorded a hearty welcome this afternoon on their arrival from Weyburn, brief stops were made and short addresses given to interested audiences at Yellow Grass, Lang, Wilcox and other places. To-night the Canadian club gave a dinner whereat Premier Scott, Hon. Graham and Pardee and McDonald, M.P.P., were the principal speakers. Tomorrow a civic reception will be held in the afternoon and a public meeting at night which with slight seeing is the modest program.

At Yellow Grass the premier addressed himself particularly to American settlers, exhorting them to take part in the public life of their new home and identify themselves with one of the great parties. "Better you should join the wrong party," said the premier with a smile, "than no party at all." The premier impressed on them that they could do much to improve the relations between the nations of their birth and of their adoption declaring that an alliance defensive and offensive between the British Empire and the American republic would in his (the premier's) opinion result in a state of world affairs under which not a single gun could be fired without their joint permission.

Preference and Reciprocity.
The premier reiterated that the British preference would remain part of the government policy, but said he could conceive a wide field for reciprocity.

Hon. G. P. Graham said he considered the Canadian constitution preferable to Great Britain's. The method of appointment to the senate may be faulty, but he objected to a man being born to the legislature and insisted as discreditable some of the peers who recently came to vote and did not know their way into the house. Before leaving Weyburn the premier congratulated them that politics did not absorb in municipal matters. To the Moose Jaw grain growers, the premier reaffirmed his personal adherence to English Liberal fiscal policies and professed himself a strong Gladstonian. He assured the grain growers that their views were the government's ultimate end and regarding patronage that the civil service commission and reforms were only beginning and "we intend to extend it to all parts of the service."

BADEN POWELL COMING WEST.

MONTREAL, Aug. 4.—General Sir Robert Baden Powell who arrived at Quebec on the Empress of Ireland today passed through tonight en route to Vancouver. He will organize the Boy Scout movement on the Pacific coast and in various other cities en route east. The Empress broke all Canadian records on this voyage making the run from Liverpool to Rimouski in five days and thirteen hours.

MILLION IN GRAFT.

MUSKOGEE, Okla., Aug. 4.—Vice President Sherman was named by Senator Gore as the man "higher up" in connection with the McMurray contracts in which \$2,000,000 in land sales were involved. Over \$1,000,000 is said to have gone in graft to various senators and politicians.

STEAM PIPE EXPLODES.

BOSTON, Aug. 4.—Two persons were killed and several injured by the explosion of a steam pipe on board the fishing excursion steamer Satellite as she was proceeding down the harbor today. The dead are two firemen. There was no panic among the passengers.

MURDERER'S PARTNER ARRESTED

EDMONTON, Aug. 4.—Wm. Parkos, partner of King, the murderer, was arrested today on a charge of horse stealing. King tried to implicate Parkos in the murder of Joseph Hindahl for which he was hanged.

WEALTHY MAN'S SUICIDE.

PASADENA, Aug. 4.—Collin Stewart, builder and former owner of the Hotel Maryland, founder of the Andale Golf club and considered one of the wealthiest men of the city, shot and killed himself today. It is believed that ill health was responsible for the act.

ANN NONYMOUS

THE BRITISH ARMY IN FINE STATE

Never in its history has it been more ready for any emergency.

Despite much that has been said and written regarding the British army of today, the fact is that it has never in its history been better, more efficient, or more effective, says W. E. Grey, a London Daily Mail correspondent, stated by that paper to be well informed as to the aims and views of British military authorities. These brave words, he continues, but they should be fully justified. That there should be any doubts on the subject is due to ignorance of the conditions which now exist under Mr. Haldane's regime at the war office.

The army council, with Mr. Haldane as president, have re-created a real general staff and at the same time have taken adequate measures to keep it in touch with the administrative staff.

The changes brought about since 1904 have met with bitter opposition from some sections of the service itself. This was particularly so with the militia. Sentiment was strongly in favor of the old constitutional force, which had done much for the country. But a national policy was settled, and the interests of the army as a whole had to be considered, with the result that the special reserve, which is a real reserve for the regular army, has replaced the militia.

The militia and the volunteers. Till Mr. Haldane entered the war office both the militia and the volunteers were mobs of armed men, the former, especially in Ireland, showing an overwhelming mass of garrison artillery of no possible use. Neither force had any war organization. They had no supply train, no field artillery. The territorial force with its organization perfect in every detail forms a striking contrast to the state of affairs prior to 1904.

The chief questions with which the military administration, or rather the

statesmen of the empire generally, are confronted have been concisely summarized as follows:

1. To provide adequate forces for the defence of the various self-governing portions of the empire.
2. To furnish in peace, sufficient garrisons for India, for Egypt, for colonial stations abroad, and for certain crown colonies.
3. To place in the field immediately on the outbreak of war in the highest state of efficiency as large as expeditionary force as is possible compatible with the peace military expenditure.
4. To maintain both that force and existing garrisons abroad, throughout the continuance of hostilities, undiminished in numbers and efficiency.
5. To provide powers of expansion for service overseas outside the limits of the expeditionary force.

The General Staff.

Since then the best brains in the army have worked upon the task and with admirable results. First, the general staff had to reach the stage essential to its existence of "thinking alike on all matters of principle." It was the general staff which devised the divisional organization in place of our former army corps which proved so unsuitable a formation in South Africa and gave way there to a divisional system. India has adopted the same formation as the basis of her military reconstruction. The general staff after mature deliberation recommended the division of three infantry brigades with a due proportion of other arms and services as the most suitable pattern towards which the military administration of the empire should be asked to work in future.

Now we have six infantry divisions, with the cavalry division—a more perfect body of cavalry than we have ever had before—certain army troops, and troops and services for the lines of communication, all forming an expeditionary force of some 160,000 to 170,000 officers and men. But it is pointed out by a member of the general staff:

"The size of this expeditionary force is not decided by war. It is decided by the state of affairs prior to 1904."

which may in the near or distant future necessitate employment at short notice for the defence of imperial interests of a much larger force; and the hope may not be vain that other states of the empire besides the mother country will some day hold a portion of their military forces as bodies organized for this special purpose, in constant readiness for operations overseas."

To bring that about is part of the work of the imperial general staff which shall be dealt with in another article.

Splendid Expeditionary Force.

Meanwhile we have that splendidly trained expeditionary force ready. For it 106,577 warrant officers, non-commissioned officers and men are required on mobilization, and the estimated number wanted to replace wastage during the first six months of a war is 41,427. The normal number available after the usual deductions have been made is: Serving 12,534; regular reserves, 110,608; special reserve 56,545; a total of 265,685. There is, besides, the territorial army for home defence. Further, it is noted that under the new arrangement seventy-four reserve battalions whose main function it would be to train drafts for battalions in the field would automatically come into being on mobilization.

In addition twenty-seven extra reserve battalions are called upon for home defence or to reinforce overseas garrisons or the army in the field. The number available for service overseas has increased by some 110,000 officers and men. In fine, says the army council in a brief explanation presented to parliament last year, their measures have been directed to the organization "of the strongest expeditionary force that can be maintained in the field with our existing resources in men and money, consistently with the obligation to maintain the overseas garrisons." They also aim at maintaining that force throughout the continuance of hostilities undiminished in numbers and efficiency. They believe they can do this, but that does not end the tale of their achievements.

I want agents in surrounding towns to represent the Nelson Steam Laundry, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

HIGH SCHOOL HAS GOOD LABORATORY

One of the Best in the Province—Selected by C. M. Fraser—Brief Description of Apparatus

The Nelson high school of 1910 is equipped with one of the best laboratories in the province. In the year 1902 the school was devoid of any apparatus that could be used to experiment in physical or chemical science. On the arrival of C. M. Fraser as science master in 1903 one of the rooms was fitted up with a few chemicals and a sink was installed. From that time up to the present the trustees have spent considerable sums for apparatus and materials. The selection of the apparatus was left to Principal Fraser.

Projectoscope.

The most extensive piece of apparatus to be found in the science room is a projectoscope. This is a lantern which will project ordinary lantern slides, microscopic slides, or opaque objects, such as post cards, cuts from books, newspaper clippings and live plants or animals that can be placed in a glass cylinder filled with water. It is placed on a special stand, made for the purpose which is on rollers, so that it may be moved out of the way when not in use. The end wall of the laboratory is especially whitened to serve as a screen and shutters are used on the windows so that it can be used for class work in the day time. The room is supplied with two 250 watt Tungsten lamps so that the room can be used for class work without taking off the shutters.

Optical Use.

For experiments in light the optical disk is especially useful either in connection with the direct sunlight or the light from the lantern. It is adjustable so that the light may be received at any angle and reflected by mirrors, or refracted by lenses or prisms, so that the whole course of the ray of light may be shown.

Weights and Measures.

The laboratory is supplied with scales for weighing, the best of these weighing accurately to a half milligram. In addition there are weights and measures to illustrate the metric system. The air pump in use is strong and easily worked.

Sonometer.

Besides these larger pieces of apparatus there are several others of importance: the sonometer for carrying on experiments with sound, tuning forks, organ pipe, sirens, rotating machine, color disks for experiments in color, apparatus to show expansion of solids when heated, to show conduction, convection and radiation, chemical thermometers, physical thermometers and differential thermometers.

Respiratory Tubes.

The building is not connected with the gas mains so that a gasoline blow pipe is used for supplying heat for the purpose of bending glass and other substances.

Supplies.

Besides these there are 75 different kinds of substances to carry on experiments in chemistry.

One Cabinet.

There are two large cabinets supplied for exhibiting ore. In the one is the collection sent out by the department at Ottawa and in the other a number of fine local specimens.

Besides the laboratory the school is the proud owner of a library unequalled by any school in the province. Mr. Fraser has given the school a large collection of books gathered from both the Atlantic and Pacific coasts. In conclusion it might be said that in many respects the Nelson high school is the best equipped school in the province.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It saved me from the heat and the train or steamship. Change of water and climate often causes sudden attacks of diarrhoea, and it is best to be prepared. Sold by all druggists and dealers.

FIND EVIDENCES OF WHOLESALE MURDER

Family of Three Disappeared—Charred Bones Found—Japanese Boy Suspected of Crime

SANTA ROSA, Cal., Aug. 4.—By the apprehension of a Japanese boy, Henry Yamaguchi for whom a vigorous search is being made Sonoma county officials hope to obtain the key to the gruesome triple murder enacted on a lonely ranch near here, the elements of which parallel in certain respects the tragedies of the Gunheer farm in Indiana.

Found Charred Bones
The crime was revealed yesterday when the county authorities investigating the disappearance of a family of three discovered the charred bones of Snook Kendall, Mrs. Urs Kendall, their wife, and Thomas A. Kendall, their son, in the yard of their home on the Starbuck ranch, just north of Santa Rosa. The finger of suspicion, according to the authorities is turned toward the missing Japanese as the perpetrator of the wholesale crime.

Yamaguchi occupied a cabin on the ranch and is known to have had violent quarrels with Kendall, the manager of the place, who is said to have beaten and shot at the boy. Nearing a grievance against Kendall, Yamaguchi is said to have noted like one demented. The ranch on which the Kendall family lived is owned by Mrs. Margaret Starbuck, a prominent Oakland architect, who resides in this city. On Monday, July 25, Yamaguchi called at the Starbuck home and told Mrs. Starbuck that he had a fight with the elder Kendall and his son. On the same day a guest at the summer resort accompanied by two boys, visited a cabin on the Starbuck ranch and entering by a window came upon Yamaguchi crawling over from under a tree with an open knife in his hand. The Japanese fled but was seen again on the ranch the day after.

A few days ago neighbors noticed that nothing had been seen of the Kendalls for more than a week and believing that something was amiss called the attention of the authorities to the matter.

Animals Starving.

Yesterday Sheriff Smith, accompanied by two officers visited the place. At the ranch the investigators found everything in order. On the dining room table dishes had been set for a meal and had not been touched. In the barn the family horse was tied in his stall perishing of thirst and hunger. Pigs were starving in a pen. No light was seen on the mystery until the kitchen stove was opened. In the ashes of the stove fragments of bones were found revealing the first hint of foul play.

It was then a trail of evidence led them through the door to the yard. Following this trail to a point some distance from the house the searchers came upon an ash pile which was found to contain large numbers of human bones and several blackened pieces of jewelry, among which was a plain gold ring that bore the initials "T.A.K." Those of the younger Kendall. Later in the ash pile was found concealed human skulls, a pair of gold spectacles and many charred bones lying on the grass, nearly as a breast pin that held a miniature of Thomas Kendall and which was identified by neighbors as having been recently worn by Mrs. Kendall.

Bloody Stone.

A search for the instrument with which the murder was committed brought to light a heavy stone covered with blood and which lay in an adjoining garden under a fence. It is the belief of the authorities that the crimes were actually committed with knives or axes, and that the stone was subsequently used to dispatch the dying victims. And because of the magnitude of the tragedy it is the theory of the district attorney, Clarence Weaver, that two or possibly three men were implicated in the murder.

Snook Kendall was 60 years old, his wife 55, and their son Thomas about 23. A year ago last March they took possession of the Starbuck ranch. Quarrels between the Kendalls and the land were frequent. Mrs. Starbuck frequently had gone into court seeking injunctions to prevent the sale of her live stock and had asserted it is said her intention to oust the tenants from the place.

Beaten by Kendall.

Regarding the Japanese, Mrs. Starbuck has made a lengthy statement to the district attorney from her home in Oakland. She says that Yamaguchi had secured permission to cut her bark. "About two weeks ago," she narrates, "the boy came to my home in Oakland and told me that the Kendalls had attacked him. His face was cut up and he had been beaten and shot by Kendall who had tried to drive him from the place. He said that Kendall's bullet struck a small mirror in his pocket and had been deflected. He did not tell me what he had done to the Kendalls nor did he express a desire to get even. He threatened to kill himself, however, and acted so strangely that I called up the chief of police at Oakland and asked him to look after the boy. When I returned to resume my conversation with the boy he had gone and I have not seen him since."

MURDER AND SUICIDE.

OAKLAND, Cal., Aug. 4.—Despondent because he believed he was about to be turned out of the house of friends with whom he had lived for some time, William Cooper formerly of New York, this morning shot and killed Mrs. Hurley Russ, dangerously wounded her husband and fired a bullet into his own head that will cause his death.

Cooper slept on a mattress in the kitchen. When Mrs. Russ came into the room to prepare breakfast, Cooper fired two shots into the woman's head. She fell dead. Russ received a bullet in the neck and the murderer fired the last shot in his weapon into his own head.

CURED OF CONSTIPATION

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes:

"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many diseases that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c. a box.

SPORTING NEWS

Cranbrook Team Preserves Unbroken Record—Lacrosse Practice Tonight.

The Cranbrook club has not yet been defeated on their present tour, having won victories over Moyle, Nelson, Trail, Rossland and Northport. They won from Nelson by the scores of 4 to 3 and 11 to 3. They won from Trail at Rossland on the 20th by the score of 7 to 5. In this game, Sullivan, Mulligan and Stenson, all of Cranbrook, put the ball over the fence. The batteries were Keene and McCreary for Trail, Galvin and Peterson for Cranbrook. Rossland was defeated on the same date 8 to 0. Malloy and Peterson were Cranbrook's battery. Only one hit was made off Malloy.

The game played in Northport was won by Cranbrook by 6 to 1. Crisler, who pitched for Cranbrook, allowed only two hits.

Return Trip.

Cranbrook on their return to Rossland played another game in that city. Rossland was defeated in a well played game 5 to 1. Lumberg was the star pitcher for Cranbrook.

The Cranbrook team played in this city yesterday defeating the Nelson boys 11 to 2. They will play another game today at 3 o'clock. The Cranbrook club leave tonight for Colville, where they will play three games. The Cranbrook lineup contains the following men: Catcher, Peterson (captain); pitchers, Malloy, Galvin and Crisler; first base, Potter; second base, Lumberg; third base, Sullivan; short stop, Mulligan; left field, Nelson; right field, Stenson; centre field, Jones; Lindsay and Pigeon, business managers.

Track Practice.

The Y. M. C. A. Track and Field club held a successful practice yesterday evening. On the high jump Culmine showed good form clearing 4 feet 8 inches. The 440-yard run was won by W. Fish in 45 seconds. This is one of the trial runs for the field day in September.

Lacrosse Practice.

There will be a lacrosse practice tonight at 6:30 at the recreation grounds. Manager Hawkins has a game in sight with High River and requests that all lacrosse players turn out so as to get in shape for their next game.

Tennis Semi Finals.

OMAHA, Aug. 4.—The semi-finals in the championship singles were on the program for this afternoon at the national clay court tennis tournament at the Omaha Field club. W. T. Hayes of Chicago, met M. Hall of New York, and Drummmond Jones of St. Louis went against M. H. Long of San Francisco. In the doubles two or three matches in the first round remained to be played when darkness put an end to the sport last night.

Saratoga Handicap.

SARATOGA, Aug. 4.—Muggy weather was the promise for the opening day of the Saratoga racing season. The \$1000 Saratoga handicap, one mile and a quarter, brings together some of the best horses of the year.

FRIDAY, AUGUST 5.

THE KING'S TITLE.

There is a good deal of discussion at present as to the title to be assumed by King George at his coronation. George III was crowned "King of Great Britain, France and Ireland." His successor was designated "King of the United Kingdom of Great Britain and Ireland." Queen Victoria, during the premiership of Lord Beaconsfield, was proclaimed "Empress of India." King Edward was styled "King of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the seas, Emperor of India."

Now it has been suggested in one quarter that King George shall be crowned "Emperor of the British," and in another quarter that he shall be entitled "King of Canada," of Australia, of South Africa and of New Zealand, as well as of the United Kingdom. Still another suggestion is that the new part of the title shall be "British Emperor."

There does not seem to be much real distinction between "Emperor of the British" and "British Emperor." Who is the British emperor to be emperor of, if not of the British? There is a distinction between these titles and a territorial title such as "Emperor of Great Britain and of all British Dominions." There is no Emperor of Germany though there is a German Emperor—not the German emperor of some people or country outside of Germany, but the emperor in Germany or of the Germans.

Among the nations of north Europe, territorial titles originated with the feudal system. King Alfred was styled "King of the English," and so were his successors down to the time of William the Conqueror. Under the feudal system the King was the Lord of the land, formerly he had been the leader of the people. The word "duke" originally meant leader but it came to mean the feudal lord of a certain territory. The feudal theory—that the king owned all the land in the kingdom—is no longer held in the old sense, but is still held in the sense of "eminent domain," by virtue of which powers of expropriation are exercised by governments or are, for instance, delegated by them to railway companies. All private ownership is constitutionally subject to the supreme rights of the nation.

There is a good deal to be said in favor of describing the King as "King of Canada, King of Australia," and so on. For instance, the name "King" is in accord with the history of the English speaking people of the empire and that of "emperor" has a new and rather foreign sound. But he is not only king of each of the self-governing countries; he is also the head of the British empire as a unit, and it would seem that his title should indicate that. Perhaps, in addition to being entitled King of each of these countries, he might also bear the designation, "Sovereign of the British Empire."

MACKENZIE AND MANN ON VANCOUVER ISLAND.

The coming of the C. N. R. to Vancouver Island is having a wonderfully revivifying effect upon the development of great resources long dormant. Coal mines, timber areas, fisheries are to be turned to account as never before. It has been a matter of comment with many visitors that with such wealth on sea and land so little should be done to utilize it. Capital was required in

You Will Admire

many things about a box of writing paper "Made in Berkshire by Eaton, Crane & Pike

First, the purity, fineness of texture and smooth, even writing surface of the paper.

Second, the air of correctness and style about both paper and envelopes. Eaton, Crane & Pike

papers are always just right as to size and shape.

Third, the manner in which the paper is boxed. An Eaton, Crane & Pike paper box always bespeaks refinement and good taste.

Fourth, the price. Eaton, Crane & Pike papers are not expensive, although they are of the highest quality. Won't you come in, look round and find these things out for yourself?

We have them for as low as 35c. a box.

EAST KOOTENAY NEWS

The store of the Crow's Nest Trading Company at Fernie is being remodelled by Arthur Watson, contractor. An additional story is being built and other improvements made. This will make this establishment one of the largest and most up to date in Kootenay.

Choosing "Socialism" as his subject, C. M. O'Brien, member of the Alberta legislature, well known throughout the Kootenay as the "soap box orator" delivered an address in Michel a few evenings ago.

A most complete and varied program is being prepared for the celebration to be held at Homers on Labor Day, Sept. 5, under the auspices of the Kootenay local union, No. 2487 U. M. W. of A. The sports will include pony races, football, basketball, foot races, tug of war, jumping, log rolling, sawing, the making, hammer throwing, shot putting and various other events, while a baby show will be a feature of the celebration and the affair will conclude with a ball in the opera house. Some \$1500 will be given in prizes and a band will be in attendance.

Thomas Bligg of Fernie has purchased a 25 acre ranch at Burton City. Rev. Robert Hughes, pastor of the Cranbrook Methodist church, will attend the general conference of the Canadian Methodists at Victoria.

W. H. Aldridge of Trail, managing director of the Consolidated Mining & Smelting company of Canada, Limited, is inspecting the company's property in East Kootenay.

Arrangements are being made for an excursion to Elko by members of the Michel lodge of Oddfellows. The picnic will probably be held Sunday, Aug. 14. The Anglers' association of that town will cut their lines at Morrissey the following Sunday.

The proposed moonlight excursion to Moyie of the members of the congregation of the Cranbrook Methodist church has been postponed until a date in September, not yet decided upon.

The Moyie volunteer fire brigade has received a communication from W. J. Wren, superintendent of the Cranbrook division of the C.P.R., stating that the railway company will reimburse the brigade for the effective service it rendered a short time ago when the freight shed at Moyie was burned.

A number of men are steadily employed at the Sullivan mine at Kimberley, which is being operated by the Consolidated company, and it is expected that regular shipments from that property will commence shortly.

Mr. and Mrs. J. R. Marland of New Michel will take up residence at Arrow Park shortly.

The annual picnic of Selkirk lodge A. F. & A. M. will be held next Thursday, when Missions and their friends will spend a day at Swans, travelling to the upper Moyie lake and up Moyie river in launches.

More pictures of the Missio cup in cross matches between the Westminsters and the Montvaleers are, it is expected, to be displayed in East Kootenay shortly.

At New Michel the need is felt of an additional teacher and enlarged school accommodation. When school closed for the summer vacation 50 pupils were on the roll.

Arrangements for the reception of Sir Wilfrid Laurier at Golden on Aug. 15 are completed. The premier will spend one hour in that town during which time he will deliver an address from the balcony of the Queens hotel. Senator Hewitt, Rosstock and Ralph Smith, M.P. for Nazario, will accompany the premier's party throughout the province.

Miss Jessie Stewart of Grand Forks has accepted the position of teacher of the primary division of the Moyie public school.

An incident which suggests a drowning accident is reported from Golden. Some days ago a canoe belonging to E. McLennan of that town was found in a back channel at Spillimacheen. Nothing is known of the whereabouts of McLennan and it is feared that he has met a watery grave.

A dance was given at Moyie on Tuesday evening in honor of the visitors from Fernie who are camping at the shores of Moyie lake. The members of the party while the vacation is proving a most enjoyable one and that Moyie lake affords most desirable boating and fishing.

Harvey Mackenzie, a machinist employed at the concentrator of the St. Eugene mine at Moyie, was married in Hazelton on Tuesday to Miss Annie Innes of that city. The honeymoon is being spent in Nelson and Spokane, after which the happy couple will take up residence in Moyie.

ADDITIONAL SPORT

Manitoba Has Option on Cricket Championship—Eastern Baseball Games

WINNIPEG, Aug. 4.—Manitoba penitently clinched the western cricket championship today by defeating Saskatchewan in one of the closest and most exciting games ever played in the west. As it was Manitoba only succeeded by seven runs in two innings. The game was full of thrills from start to finish. Saskatchewan owed their loss to two bad catches at critical times although otherwise both teams fielded cleanly and well.

Close Game

Manitoba won the toss and going in first scored 86 runs. Saskatchewan followed with 90. Vidal being top score with a well played 29. Goldie 14 and Hawke 12. Manitoba in the second inning could not nothing with the Saskatchewan trundlers which looked easy for Saskatchewan. However Reynolds and Smith, Manitoba's bowlers were even more deadly and Saskatchewan only responded with 38 runs in their second inning, seven runs in winning. Saskatchewan being eight wickets down for but 24, when the last two batsmen made a desperate but unavailing effort to put the game out of the fire.

The Alberta and Winnipeg match was equally exciting, the city finally winning by ten runs, the final being 144 to Alberta's 134. McIntosh for Winnipeg played a magnificent 40, the top score of the week, while Wright hit 25. Out side of McIntosh and Wright Winnipeg could do little with Spick's bowling. The standing of the tournament is: Manitoba 4, Saskatchewan 2, Winnipeg 2, Alberta 0. Had Saskatchewan won today they would have tied Manitoba, but as it is the championship will almost assuredly remain with Manitoba.

Law Wins Handicap

SEATTLE, Aug. 4.—J. J. Law of Aberdeen, won the Pacific Coast handicap, the big card and final event of the Interstate association trap shoot today. His score was 17 targets broken out of a possible 100. F. A. Dryden of Walla Walla was second with 92 and P. A. Nelson of Yakot third with 90. The handicap is for amateurs only but professionals are allowed to shoot for exhibition records. The leading professional was R. Clancy of Chicago who broke 93 targets. The events which preceded the handicap brought out really the most sensational performance of the three days shoot. Mrs. Ad. Tupperman, a professional of San Antonio, Tex., turning in a score of 106. This performance it is said has only once been equalled in a regular tournament.

Grand Circuit Meeting

DETROIT, Aug. 4.—The free for all race at the grand circuit meeting today was an easy win for Griffiths. The time was disappointing. Walter Hal took the final heat in the postponed race. Alfonso, the favorite in the 3:16 trot which had 15 entries, drew the pole for the first heat but was back in fourth place at the finish and was then withdrawn on account of lameness, all bets being declared off. Annette R. won the race by taking three heats after Dora had captured the first two.

Regina Wins

REGINA, Aug. 4.—Regina won the first of the Saskatoon series by knocking Nelson out of the box in the first and then winning off Walsman in the eighth by timely swatting.

Shoal Lake Sees Baseball

SHOAL LAKE, Man., Aug. 4.—The league game between Calgary and Brandon was transferred to Shoal Lake today owing to the big commercial travellers' picnic which left the wheat city this morning. The afternoon game went to the league leaders by a score of 4-1, the game being won by timely hitting and fast fielding.

Tennis at Regina

REGINA, Aug. 4.—The fourth day of the provincial tennis tournament provided some good games today, the feature of the day being the splendid playing of Miss Shaw of Weyburn. The finals will be pulled off tomorrow.

Trap Shooting at Regina

REGINA, Sask., Aug. 4.—The provincial trap shooting tournament opened today. In the team shoot Regina defeated Moose Jaw with a score of 73 to 75. Chief interest centres in tomorrow's shoot when the provincial championship will be decided.

Signs New Pitcher

SEATTLE, Aug. 4.—President Dugdale announced tonight that he had signed Pitcher Dickinson, formerly of Lexington, Ky. Dickinson was with Seattle in the early training season but went to Mount Vernon, where he has been pitching great ball. Jack Connor, the new Spokane shortstop came from the same team.

New Team for Ottawa

OTTAWA, Aug. 4.—Even though the Capitals are resting at the foot of the N.H.L. league standing, lacrosse is enjoying unusual activity in Ottawa and following these on the heels of an offer of a trophy for the city championship comes the story that a new lacrosse team will spring into existence this summer. Ever since the Caps had friction with their players last summer, there have been rumors of all desertions regarding the possibility of another team being formed here. It is said that the new Ottawa professional lacrosse team will take the field before the season is over.

Maroons Have Easy Victory

WINNIPEG, Aug. 4.—Winnipeg ran away with an easy victory by 13-3. Skifford held the enemy safe all the way and though they got more hits off him than the locals did off Hickey and Cox they were scattered so well that only two of them figured in the scoring. Norse pulled off three straight drives.

The Maroons played winning ball all the way, hitting in pinches and their during base running simply bewildered Dwyer's crew. Double steals and the hit and run play were pulled off nearly every time tried by the Winnipeg team.

Hopefully Beaten

MOOSE JAW, Aug. 4.—Moose Jaw took advantage of Lethbridge and Cy Fox yesterday and did as they pleased. The game was called in the seventh, partly on account of darkness and partly on the wishes of Lynch, as the visitors were hopelessly beaten.

DECLARE CRIPPEN HAS MADE NO CONFESSION

Question of Possible Marriage to Ethel Leneve Becomes Important—Prisoner Changed.

QUEBEC, Aug. 4.—The Quebec provincial justices insist today that Dr. Crippen has not made a confession. They maintained this attitude in the face of persistent rumors that some sort of a statement had been obtained from the prisoner. This much is known, that Inspector Dew and the Canadian detectives have not visited Crispin's cell or had any direct communication with him since yesterday morning. Dew breakfasted early today at the boarding house and disappeared. Whether he left town could not be determined, but members of the provincial justice express the belief that he had sought seclusion in order to avoid the annoyance of being obliged to deny frequently erroneous statements attributed to him.

Changed in Expression.

Crippen has changed much in facial expression since he arrived here on Monday. He is not allowed to move and after a few days his growth of beard gives him quite a different look. The jail governor said the precautions against an attempt of self destruction are so strict that the prisoner neither would be allowed to have a razor nor be trusted in the hands of the jail barber.

The rumors of statements made by Crispin as to the crime with which he is jointly charged with Miss Leneve have reached here usually from Montreal, New York and London. The time set by law for the detention of the pair in Canadian soil will be the middle of August. The first English steamer sailing after that date will leave on Aug. 26, but a faster boat will leave on the 26th, and the deportations of Crispin and Miss Leneve may await the latter date.

They have been remained until Aug. 5, but on that date it is proposed to again remand them until the 26th, and on that date to once more remand them until the day in which they sail.

Marriage Important.

The question of whether Dr. Crispin and his companion have been married has been revived because of its bearing on the duties of the woman as a possible witness against Crispin. It is known that the police are hoping that Miss Leneve will make a witness for the crown, but if it is proven that she is the wife of the man she may refuse absolutely to take the stand against her husband. Discussing this feature of the case, Superintendent Forest said an exhaustive official investigation had failed to produce any evidence of such a marriage.

Alleged Confession.

QUEBEC, Aug. 4.—The story of Crispin's alleged confession will not hold. Inspector Dew had a long talk with him yesterday afternoon. The inspector will not speak, however. When not at jail, Dew keeps himself very much to himself at his home in St. George's house. Neither

This is to certify that I have used MINARD'S Liniment in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh.

the governor of the jail, the prison chaplain, or physician, or Mr. Rocher, who is representing Attorney General Lanctot during the latter's absence in Montreal, know anything of the confession. As Governor Morrill says, Dew knows his business thoroughly. Whatever confession he may have will be known only to himself in this country. The police magistrate declares that the confession has no interest for the local authorities, who could take no action on it. It would be only of service in England.

LISTING CANADIAN BONDS

LONDON, Aug. 4.—The London stock exchange has listed £208,000 city of £25-million 4 1-2 per cent, and £37,800

Victoria, B.C., 4 per cent. Application is made to list £105,160 4 1-2 per cent and £21,500 Grand Trunk Pacific 4 per cent.

INCREASING THE POPULATION.

OTTAWA, Aug. 4.—One hundred and sixty thousand immigrants came into Canada in the six months of the calendar year up to June 30. The total figure are not yet ready at the department but the above is the approximate total. Of this number the American proportion is about 30,000, and 70,000 British and from the continent. NELSON NEWS OF THE DAY

(Additional local news notes on page 8.)
T. Ough, part owner of the Poorman mine and mill, is in the city on a business trip.

Thomas Phelan of Slocan Junction is in the city on a visit. His wife and son live in the city.

John H. Moore, proprietor of the Kootenay hotel, Slocan Junction, was in the city yesterday. He has closed a contract with the C.P.R. for 10,000 lbs.

M. A. Birman, merchant and rancher of Thrums, is in the city on a visit. He reports that he is meeting with much success in his rabbit breeding enterprise.

Joe Kisel, commonly known as "Joe the Turk," purchased a one-fifth interest in the Elton mine, situated three miles above the Ymir mine, from George Walker of Ymir. He will begin shipping at once. The

mine contains high grade ore of gold-silver.

Third class certificates have been granted to Ames Allan, Edith Middleton, Edith Manson, Naomi Butchart and Nora Peterson, by the provincial educational department.

The regular meeting of Court Kootenay, I.O.F., will meet in I.O.O.F. hall this evening at 8 p.m. A good attendance is requested. Visiting members are cordially invited to attend.

The Royal Hotel luncheon and evening dinner at 25 cents cannot be cancelled. Try them and be convinced.

The Davenport Cafe is under changed management. Messrs. Moore and Roberts being the new proprietors. Wilkinson's orchestra is in attendance every night. 8-4

A fast launch to Fernside from Arley or Balfour's landing every two Sunday. Morning trip at 1 o'clock, afternoon 3 and 5 o'clock; last return trip leaves Fernside at 7 p.m.

Lindsay's large fleet of launches are for hire by the hour or day at reasonable price. The Dauntless, Matchless and Fearless are in charge of capable men. The Nautilus, Peerless and Winkles are for parties to run themselves. For prices and

further particulars call phone A33 or Lord-May's boat house.

I have just received from the factories of Manro & Mcintosh Carriage company, Alexandria, Ont., one carload of demountable delivery wagons, buggies and carts, which I now have for sale. In stock, blacksmith and harness, Vernon street. 25-47.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys are overtaxed, causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all druggists and dealers.

FISHING WATER.

Boats for hire on post at Slocan Junction, most famous fishing water of British Columbia. Fly fishing and trolling. Try grasshoppers for the big fellows. All conveniences at C.P.R. Great Lodge. J. Killey, lodge keeper. 25-47.

A COMMA IN THE

"LORD'S PRAYER"

Change Made in Punctuation by King's Printer Alters Meaning—Debate in Commons.

In the British house of commons the other day Lord Hugh Cecil asked whether the attention of the house necessarily had been drawn to the alteration made in 1894 in the punctuation of the Lord's Prayer in the Book of Common Prayer, and whether there was any authority in the "Authorized Book" of 1662 or otherwise for the punctuation now used by the king's printers and the University press.

Reasons for Change.

In reply Mr. Winston Churchill said that he had noted the change, that he had carefully considered various authorities about it, and that he was advised that it would be inconvenient and confusing to reproduce in modern type the exact punctuation of the "Authorized Book." He added that the punctuation has varied in different editions of the Prayer book, and that it varied even in the different places in which the Lord's Prayer occurred in the "Authorized Book." In deciding which punctuation they should adopt in the new edition, they will be guided as far as it is in heaven. Mr. Churchill presumed that the king's printer and the University press considered the structure of the Greek original. Personally, he said, he agreed with Lord Hugh Cecil, but had no power to issue instructions for a return to the former punctuation. To bring that about would be necessary first that the king issue Letters of Business to Convocation; second, that Convocation pass a recommendation in conformity therewith; and third, that parliament pass an act.

Reasons Against Change.

This letter and question in the house drew a letter to the Times from Canon Beecroft, of Westminster Abbey, concerning the alteration made in the Conference of the Three Princes in the punctuation of the petition given above. The insertion of the comma after "done" is, he says, an "ecclesiastical and wanton change," as it "runs in rhythm." The scholarly editor of Milton's Poetical Works and of Tennyson's "In Memoriam" is very competent to pronounce on questions of rhythm.

The Difference in Meaning.

Mr. Charles Alfred Billett, however, points out in a letter to the Times that the new punctuation helps in bringing out that meaning of the prayer shown by the following arrangement, given in Moulton's "Literary Study of the Bible":

"Our Father who art in Heaven,
Hallowed be Thy name,
Thy kingdom come,
Thy will be done,
In earth as it is in Heaven."

This arrangement is intended to show that the last line modifies each of the three stresses immediately preceding it, and not simply the last of those stresses. For, Dr. Geddes, an honorary canon of Peterborough, who also is well qualified to speak in such controversies, likewise differs with Canon Beecroft. He addresses the fact that the "Vulgata" reads, "Pat voluntas fiat in terra et in cœlis," which corresponds to the Greek order of the words. Canon Beecroft, of 319, another highly educated scholar with a trained ear, does not agree with Canon Beecroft that the "writer of uneducated syllables" is disagreeable, and in the discussion of the matter he shows a precise knowledge of the numerous matters and points. In another letter to the Times, Canon Beecroft takes notice of these points, emphasizes his main objection, that the alteration was made without authority, and says that the admitted fact that the sense is affected as well as the rhythm only strengthens the case against the proposed change. "Pat voluntas fiat in terra et in cœlis," which corresponds to the Greek order of the words. Canon Beecroft, of 319, another highly educated scholar with a trained ear, does not agree with Canon Beecroft that the "writer of uneducated syllables" is disagreeable, and in the discussion of the matter he shows a precise knowledge of the numerous matters and points. NELSON NEWS OF THE DAY

(Additional local news notes on page 7.)

A. H. Grady, the well known mining engineer, arrived last night from Seattle.

There will be a band concert this evening from the bandstand on Vernon street.

Born, on Tuesday, Aug. 2, to the wife of Rogerick McDonald, Victoria street, a son.

Born, at the Kootenay Lake Maternity Home, to the wife of A. E. Chambers, of Wenatchee, a daughter.

W. O. Miller, C.P.R. superintendent, and W. E. Hadden, general freight agent, are leaving this morning on a visit to the boundary country.

Tore & Tuva, real estate brokers, have purchased a fine motor boat. They are now well able to extend to their prospective customers all courtesies.

N. D. Stewart of Skeena Junction was in the city yesterday with a large number of fire fighters. He reports the fire in John Burns & Son under control.

John Burns & Son have received the contract for the erection of a warehouse 220 feet by 25 feet, on Front street, from B. F. Ford & Co.

C. H. Humphrey, rancher and merchant of Skeena Junction, is in the city on a business trip. Mr. Humphrey reports that business is good and the crops progressing favorably.

The body of J. Wilcox, who was drowned about three weeks ago near the bridge across the Skeena river, above Xenia's mill, was found yesterday by one of Patrick's river driftnet on a bar, the body having floated down the river about three miles. The police have been asked to attend to its removal.

The wedding cards have been received in Nelson, at Francis Freeman Payne and Miss Ruby Virginia Irving, who were married at Portland on Aug. 1. The young couple will be "at home" in Nelson after Aug. 15. Mr. Payne was formerly on the editorial staff of The Nelson Daily News, leaving this city about a year ago.

AT THE THEATRES.

The subjects being shown at the Arcade tonight are: "The Brothers' Feud," (an epic feature), "The Valiantine de Borgia," (a play), and "The Great Escape," (a play).

sufragista question, and "Trained Birds," a highly educational subject.

An excellent change of pictures will be shown at the Gem theatre tonight, including "The Miniature," a strong drama by the Edison company; "The Highlanders' Delancey," one of the Best Polytechnic company's famous war stories, and a quartette of comedy subjects, "A Trip to Mars," "The Lost Tea," "In the Hands of the Enemy," and "A German Hunter's Story."

The change of program at the Empire theatre this evening includes: "The Happy Widower," history of a Sardine Sandwich, "Beautiful Snow," "A Family Feud," "Gumbo's Sojourn," Children 10c, Adults 15c.

CRANBROOK PLAYS AGAIN TODAY

Cranbrook Defeated Nelson by Score of 11 to 2—Heavy Hitting Wins for Visitors.

Cranbrook defeated Nelson yesterday afternoon in an interesting game by the score of 11-2. The Nelson boys were unable to do anything with Galvin, Cranbrook's crack Southpaw. Nelson often got into an bases but failed to make hits in the pinches. The batting features were three-base hits by Milligan and Potter, home runs by Ketch, two-base hits by Nelson, Sullivan and Gould. The defence of the Cranbrook outfield was exceptionally good. The battery work of the Nelson club was not up to its usual mark and many unearned runs came in.

The game play again this afternoon at 1:30 o'clock sharp. The clubs lined up as follows:

Nelson	A.B.	H.	R.	E.	P.O.	A.	E.
Galvin	1	2	3	0	0	2	0
Phillips	0	0	0	0	0	0	0
Ketch	0	0	0	0	0	0	0
Gould	0	0	0	0	0	0	0
Chapman	0	0	0	0	0	0	0
Reese	0	0	0	0	0	0	0
Wilkinson	0	0	0	0	0	0	0
Battell	0	0	0	0	0	0	0
Houston	0	0	0	0	0	0	0
Matthew	0	0	0	0	0	0	0
Total	0	0	0	0	0	0	0

Cranbrook	A.B.	H.	R.	E.	P.O.	A.	E.
Nelson	1	2	3	0	0	2	0
Galvin	0	0	0	0	0	0	0
Phillips	0	0	0	0	0	0	0
Ketch	0	0	0	0	0	0	0
Gould	0	0	0	0	0	0	0
Chapman	0	0	0	0	0	0	0
Reese	0	0	0	0	0	0	0
Wilkinson	0	0	0	0	0	0	0
Battell	0	0	0	0	0	0	0
Houston	0	0	0	0	0	0	0
Matthew	0	0	0	0	0	0	0
Total	0	0	0	0	0	0	0

Summary.
Home run, Ketch; three-base hit, Milligan; Potter; two-base hits, Nelson, Sullivan and Gould; struck out by Galvin, 12; by Ketch, 9; hit by pitched ball, Battell. Time of game, 4½ hours. Umpire Al Glavin.

The ROYAL

R. ANDREW, Prop.

been received of the termination of the strike. Much uneasiness is felt by the men, more particularly as regards their pensions of which no mention was made in the agreement.

Report for Duty.

LONDON, Aug. 4.—The 350 men out on strike here have all reported for duty, except about 40 who went over to the C. P. R. where they expect permanent employment. None of the strikers have as yet started work and all trains today went out in charge of strike-breakers.

Talk of Another Strike.

TORONTO, Aug. 4.—Much dissatisfaction is evident among local Grand Trunk men who are waiting about the station and yards for reinstatement to work, which in their opinion is too slow. One group noticed that the Montreal train pulled out in charge of a Pullman conductor and angry expressmen broke out. The attitude of certain officials to the men tends to increase this feeling and it is said that the local leaders have written to the effect that if matters are not improved more speedily another strike may be expected.
