Saturday Is the Last Day of the Second Voting Period

PATRICK SELLS FOR A MILLION

Purchaser British Canadian Lumber Corporation.

CULMINATION OF DEAL YESTERDAY

Managing Director Buckley States Future Plans of Corporation.

For the consideration of $1,000,000, the Patrick Lumber Co., Ltd., yesterday conveyed to the British Canadian Lumber corporation with headquarters at Montreal, its sawmill at Crescent Valley and its 9000 acre tract of white pine, spruce and cedar timber on the east and west branches of the Little Slocan river, these timber lands which were conceded locally to be about the most valuable limits in the interior, having been owned outright. The sawmill's capacity on ordinary run is 30,000,000 feet per year, and the plant is claimed to have no superior in the interior.

The details of the transaction were given out at the Hume last night by F. L. Buckley, managing director of the British Canadian Lumber corporation, who had just returned with Joseph Patrick head of the Patrick Lumber company, from Crescent Valley.

"It is true," said Mr. Buckley, "that the British Canadian Lumber corporation has purchased the limits and mill of the Patrick Lumber company. Negotiations were first opened on Dec. 1, but the principal progress was made in the last few days, and the transaction came to a head and was put through today, the property passing into the possession of the corporation. The consideration was $1,000,000. We propose to operate the mill to its fullest capacity and in the future, if required we will in all probability acquire other limits to supplement those we are now taking over. We would very much like to retain Mr. Patrick as manager of the business and regret that, owing to his other interests, he could not see his way to meet our wishes. W. F. Boyer, who has been associated with him for several years, will probably assume charge."

Asked regarding the general plans of the corporation Mr. Buckley said:

"The British Canadian Lumber corporation is a tribute to the organizing ability of probably the largest financial brokers in Canada, Johnston McConnell & Allison of Montreal. It was organized with a capital of $20,000,000 drawn from Canadian, American and old country sources. The activities of the corporation are at present confined to British Columbia, and for the past year they have consisted in operating one of the largest mills in Vancouver, purchased from the Pacific Coast Lumber Mills, Limited, with a cut of 40,000,000 feet and in carrying on large logging operations on the west coast of Vancouver island, logging spruce off crown granted lands, which we are delivering to the United States market. In the season about to open we will be operating the Crescent Valley mill and limits, our latest acquisition.

"We will immediately commence the construction of two mills in New Westminster, which will be pushed to completion. In addition, we own 186 square miles of timber near Prince Rupert and as soon as the Grand Trunk Pacific is completed we will erect a large mill at that point also, probably, a large pulp mill.

"While the interests of the British Canadian Lumber corporation do not at present extend outside this province, in the course of time a line of retail yards throughout the prairie provinces will be established. The working offices of the corporation are at Vancouver."

Plans of the Patricks

The Patrick Lumber Co., which yesterday sold out its interests for the handsome figure named, acquired the timber limits in October, 1906, and erected the modern mill that has just changed hands. Before forming this company Mr. Patrick was for 14 years identified with the Drummond Lumber company, with limits on the St. Lawrence between Montreal and Quebec, in the latter part of that period being its president and managing director. Those limits being logged off they passed eventually into the sole ownership of Mr. Patrick, who has since shipped annually from them 12,000 cords of pulpwood to the pulp mills in the state of Maine.

Asked last night respecting his plans, Mr. Patrick said he had not yet made any, and for the present at all events, would not be leaving Nelson.

Mr. Patrick's sons, Lester and Frank, will give their energies in part at least, to the Western Canada Hockey league, which has just loomed on the horizon, and which will involve the erection of rinks at Vancouver, Victoria, Calgary and Edmonton.

Mr. Buckley will be here for a few days before returning to the coast.

POSTMASTERS WANT RAISE

OTTAWA, March 14—Representatives of the postmasters' association of Canada are in session here preparatory to waiting on the postmaster general with a number of requests for the betterment of the service. One of the things they propose to ask is for an increase in salary to meet the sharp advances in the cost of living. It is pointed out that the present schedule of salaries provides less remuneration per 1000 pieces handled than did that of 12 or 15 years ago, but that the cost of living has gone up very much in that time.

TYPHOID EPIDEMIC ABATING

OTTAWA, March 14—The typhoid fever outlook continues very hopeful. The number of patients at the emergency hospital is now only 76, the lowest for several weeks. Twelve new cases have been reported at the health office but these all came from three doctors and as usual cover several days. The total number is 92 to date.

INVESTIGATING CHARGE OF GRAFT

Large Attendance of Members of Privileges and Elections Committee—Lancot Gives Evidence

OTTAWA, March 14— Hearing of charges laid by P. E. Blondin, M.P. against Adelard Lancot was begun today before the privileges and elections committee. There was a large attendance of members. The charge is, in brief, that Mr. Lancot got barrels of paint and other goods from the marine department stores at Sorel and that with the paint government workmen painted his house inside and outside. They did this work during the time they should have been doing government duty. Mr. Lancot admits that the work was done as indicated but declares that he paid for it. N. F. Laflamme, K.C., of Montreal appeared for Mr. Lancot and J. M. McDougall, K.C., of Hull for Mr. Blondin, assisted by Messrs. Doherty and Barker.

Defendant First Witness

Mr. Laflamme produced a statement of account rendered to Mr. Lancot by the department of marine as well as a check for $365 paid by him. Mr. McDougall then asked that Mr. Lancot go on the stand as the first witness. Mr. Lancot's counsel objected and Messrs. Devlin and Geoffrion supported the objection. Messrs. Crothers and Barker contended that Mr. Lancot must go into witness box if asked. The chairman ruled that this was so and Mr. Lancot went on the stand.

Language Difficulty

The examination had scarcely begun when there arose a difficulty as to the language. The witness preferred to be questioned in French and half of the committee did not understand that language. Mr. Geoffrion said that if Mr. Lennox, who asked the question did not, know French, "then let him get out."

Mr. Lennox—I am not going to get out. Mr. Geoffrion did drive me out of a committee once but he won't drive me out of this one.

Mr. Lennox moved that questions be put in English and then translated into French. This was voted down.

Mr. Lancot under examination said that in June, 1910 he was building a house at Sorel and being unable to get painters in Sorel or outside, applied to the marine department for workmen. He also suggested that a separate account be kept of any paint and material he might require. He made arrangements with Mr. Champagne and Mr. Paget, two officials there, but did not see Mr. Papineau, the superintendent; he was away while the work was being done. He believed that employees of the department were in his house from June to November.

Mr. Lancot retired and George Cartier, a contracting painter was called. He said he had asked Mr. Lancot for the job in November, 1910. Mr. Lancot refused, adding that he "would not give it to anyone else without seeing him." He was in a position to do the work and valued it at $950. He admitted complaining that the government was taking away work from painters in Sorel. Cross-examined by Mr. Laflamme, he said he had painted Mr. Barrie's house, which was a little larger, for $250. He had seen ten men working at one time on Mr. Lancot's house. In reply to Mr. McDougall he declared that George Manion, Mr. Lancot's partner, had asked him for a valuation and told him to put it as low as possible. Manion had told him, he said, that Lancot was in a bad fix and asked him not to overcharge.

ANNUAL MEETING OF HOSPITAL HELD

Usefulness of That Institution Rapidly Increases.

IMPROVEMENTS TO BUILDING

Question of New Structure to Be Gone Into—Government Grant Appreciated.

A special committee was appointed at the annual meeting of the Kootenay Lake General Hospital association yesterday to look into the question of the building of a new wing or of a new hospital in order to meet the rapidly increasing demand for accommodation at the institution which was shown by the lady superintendent to be entirely inadequate to meet the requirements of the district. As was announced last year the provincial government has generously promised to donate dollar for dollar in proportion to the sum raised locally, if it is decided to go ahead and build the long talked-of new hospital. That is to say, if the directors can obtain $5,000 or $10,000 or $30,000, as the case may be, the government will put up an equal sum. It is calculated that it will cost $60,000 to erect and furnish an adequate building and it was hinted yesterday that it may be possible by obtaining a certain proportion of the $30,000 that would be needed to raise the balance by mortgage.

In his annual report, E. F. Gigot, the retiring president, dealt with the steadily increasing demand for accommodation at the hospital, the large average number of patients treated per day at the hospital during the year, the urgent necessity for a larger and more suitable building and the good financial position in which the institution now stands. In this connection Mr. Gigot paid a graceful tribute to Premier McBride, Hon. Dr. Young and Harry Wright, M. P. P., for their efforts in securing the sum of $4,000 to pay off the debts outstanding against the hospital. He also paid a tribute to the work of the Ladies' Hospital aid and to the medical fraternity of the city who had given their services free of charge during the year.

J. M. Lay, the retiring treasurer, presented a financial report which showed that the institution was now practically clear of debts.

The election of officers resulted in a number of new names being added to the list of directors to replace those who have left the city. E. F. Gigot was again elected president and Fred Irvine, J. M. Lay and George Johnston were reelected vice president, treasurer and secretary, respectively, at the meeting of the new board held after the general meeting.

Usefulness Steadily Increasing.

The president's report is as follows:

"On behalf of your board of directors I have the honor to submit herewith the 18th annual report, covering the year 1910. It gives me great pleasure to begin by stating that the work of the hospital, and consequently its usefulness, is increasing very rapidly, as shown by Miss Lumsden's, the lady superintendent's, report, which will be submitted to you.

"So great has the number of patients become that the accommodation afforded by the hospital building is now altogether inadequate to meet the requirements.

"Some of the private and semi-private wards have to be used as public wards, and frequently patients applying for private wards can not be accommodated. Even the reception room is now used as a ward. The operating room is much too small, and does not afford many much desired facilities.

Miss Lumsden's report gives the number of hospital days from the first of March to the 31st of December, 1909, as 3,589, and for the same period in 1910 as 6,690, an increase of 86 per cent, nearly double the work done in 1909.

Average Number of Patients.

"For the whole year 1910 the average number of patients per day was 20, while since the beginning of the year, up to now, the average number has risen to 28, which is much in excess of the number provided for when the hospital was built. There is no place for the storing of extra supplies, necessitating small purchases at consequently advanced prices, and there is absolutely no room provided for the storing of extra bedding, or patients' clothing. The kitchen is altogether too small, and inadequate to meet the requirements, and does not admit of the proper facilities for the cooking and serving of the patients' meals. The building is old and unfit to much longer serve its purpose. The constant repairs required, and the extra amount of fuel required to keep it warm, form a considerable item of annual expense which would be very much curtailed in a proper building.

Tribute to Government.

"It therefore goes without saying that to successfully operate the hospital more room is required, and it will be the first duty of your board to carefully consider this matter. The question of building a new hospital has had the attention and consideration of your board for some time back, but it was felt that so many appeals to the public for financial assistance had lately been made that it would be best to wait until a more opportune time before asking for subscriptions to raise a building fund for a new hospital. This conclusion was strengthened by the unfortunate fact that the hospital was heretofore heavily indebted for obligations contracted when the revenue was much less than the income, a result largely caused by inability to collect debts due by many of the patients. Through the kindness of the hon. the premier of this province, and the Hon. Dr. Young, provincial secretary, and our member, Mr. H. Wright, a special grant of $4,000, sufficient to pay off all the indebtedness, was placed in the estimates this year, and passed by the legislature, so that your directors can come before the public, not only with a clean sheet as far as debts are concerned, but also with the satisfactory knowledge and assurance that the hospital is now doing a paying business. There should hereafter be sufficient earnings over expenses to permit of making the different necessary improvements, which in an institution of this kind are sure to be required from time to time.

"At the first meeting of the new directors, after the election today, the important matter of raising means to provide for the construction of a new hospital, or for providing more room in some other way, will no doubt be taken up. Probably the advisability of taking active steps to call on the assistance of a generous public toward this worthy object will be decided on. Such an appeal will no doubt have the hearty sympathy of every one, not only in this city, but in the surrounding districts as well.

"It is well to state that the provincial government has signified its willingness to assist to the extent of one-half the cost of a new building.

"The financial statement, duly audited, will be laid before you, and I am

(Continued on Page Two.)

YALE-COLUMBIA MILL STARTS UP

Fifty-Two Men Are Employed at Local Lumber Factory—Big Year's Cut Expected.

The number of men employed by the varous manufacturing enterprises of the city was increased by 52 yesterday when the Yale-Columbia company's mill was put in operation for the season's cut after the usual winter close-down.

Logs are being taken out of the big boom lying in front of the mill, and other booms are to be brought down as required from the company's timber limits near Creston.

A big year's cut is anticipated, according to Fred A. Estey, who stated last night that the company figured on turning out from 1,000,000 to 1,100,000 feet per month from now until the end of the year.

ARE SURVEYING FOR TUNNEL SITES

Bob Mabry and Associates Have Men at Work on Group at Ainsworth—Development Soon.

That a staff of men is at present surveying for tunnel sites on the Hobson and Hector group of claims at Ainsworth, which have been recently purchased from R. McLeod, Hamilton Byers and H. Dumas by Bob Mabry and associates of Spokane was the statement made at the Strathcona last night by Thomas Hawley, an associate of Mr. Mabry. He reached the city last night in company with A. T. Toney of Spokane and leaves for Ainsworth today.

Mr. Mabry already has an engineer, Ivan Delashmutt, on the property, which consists of seven claims, the Hobson, the Invincible, the I. C. U., the I. C. U. No. 2, the Hector, the Emerald and the Dumas, and proposes to put a staff of men at active development work on April 1.

"We propose to make a systematic geological study of the Ainsworth camp and expect to strike it rich at depth, as the veins in the camp have already been proved to increase in size and value as development is continued downward by reports made by prominent mining engineers during the past few years," said Mr. Hawley.

Mr. Mabry, said Mr. Hawley, leaves Spokane for his old home in Texas on March 23, and will return via Los Angeles and other large California cities.

BRITAIN HITCHES WAGON TO STAR

Sir Edward Grey's Speech Epoch Making Event

EXTENSION OF TERRITORIAL ZONE

Russian Proposal to Extend Fishing Limit from Three to Twelve Miles

LONDON, March 14—Sir Edward Grey replying in the house of commons to H. Staveley, Unionist, said he was unable to give any information as to the intentions of the Russian government introducing a bill extending the three mile territorial water zone to 12 miles, and as to whether it was intended that this bill should apply to the East Siberian fisheries He was, however ,enquiring into the effect of such a measure upon Canadian fishing interests in these waters. Sir Edward Grey added that Ambassador Bryce had not notified him of the receipt of an invitation from the United States government to a conference for the preservation of seal and sea otter in the Pacific. His majesty's government was communicating with the Canadian government as to the advisability of accepting this invitation.

The question and answer regarding the extension by Russia of the three mile territory water line, entry within which is prohibited to foreign trawlers had reference to a bill before the duma to that effect, but until this matter was raised in the house of commons today it was generally supposed that the extension from three to 12 miles would be confined to the Baltic sea, regarding which the Russian government has already made explanations acceptable to foreign governments. The extension of the limitation to the entire Russian seaboard might seriously interfere with the rights of foreign fishers in Behring sea.

Epoch Making Speech

Sir Edward Grey's epoch making speech, as every Liberal calls it, has aroused enormous interest throughout Europe and was again the absorbing topic in the parliamentary lobbies yesterday. By universal consent it is the most important pronouncement made in parliament in many years, and if some Conservative morning papers, taking the ground that the foreign secretary's ideal is almost impossible of attainment, comment somewhat coldly and point to the difficulties in its path, the Liberal organs hail it with unbounded enthusiasm and express strong resentment at the scoffing remarks heard from the Conservative benches while Sir Edward was speaking, such as "how about Mexico," and similar interruptions."

Hitched to Star

"The wagon of the English speaking people is now hitched to a star," said Sir Henry Norman. "The rest may come slowly, but it will come and it will date from 1911."

Similar opinions were expressed by the most progressive members of the house of commons. Indeed many members connected with the arbitration movement found it difficult to believe that Sir Edward Grey had made sure of his ground with regard to the negotiations with the United States before going so far in a public utterance.

Lord Reay, the British delegate to the Hague conference in 1907, in an interview heartily welcomed the idea and thinks that a general arbitration treaty between Great Britain and the United States might be the occasion for the establishment of a permanent arbitration tribunal and that the only possible opposition in America would come from the Irish section.

The Nationalist party in the house of commons discussing the matter are frank in declaring that it would be quite impossible to secure acceptance of the treaty until home rule has been granted to Ireland.

The Morning Post in an editorial says that such a treaty would involve on the part of both nations the sacrifice of what is called sovereignty.

The Morning Leader says that American diplomacy has often shown to advantage by the side of the elaborate European methods but such a treaty would make all former triumphs pale.

Some of the morning papers point out the difficulty in the way owing to Great Britain's foreign alliances. The Daily News remarks that incidentally this is the first time a British foreign secretary has recognized the right of parliament to share in the treaty making power.

The Times editorially declares that Great Britain is equally ready as at the time of the Pauncefote-Olney negotiations to accept an arbitration treaty provided it can be shown that the American people desire it, and that the negotiations will not prove abortive.

At his farewell reception at the Carry Lane chapel at Birmingham last night Rev. J. P. Jowett, who has accepted a call to the Fifth Avenue Presbyterian church of New York referred to Sir Edward Grey's speech and said he hoped that he might be able to help forward Sir Edward's ideal of Anglo-American unity.

Request Significant

The Times, speaking anent Sir Wilfrid Laurier's request for a revision of the most favored nation tariff treaties said that such a move as that contemplated is significant of the trend of Canadian opinion. Canada derives no particular benefit from the most favored nation clauses. It opens, however, a large question concerning the empire as a whole and leads to the sorrowful recognition that there is no imperial machinery at all adequate to deal with imperial questions. In its absence the different portions of the empire are in danger of being driven by force of circumstances to partial solutions which may be found difficult to reconcile with one another. This state of things is more fully realized in the dominions and brings home to us difficulties which the dominions have to face.

Arbitration of Rates

LONDON, March 14—The Times understands that all disputes between the lines constituting the Atlantic rate conference will be arranged by arbitration at a final conference to be called at Cologne next week. It is expected the new arrangement will be signed.

OCCUPATION FORCE TO BE INCREASED

Will Co-operate With Sultan of Morocco in Keeping Tribes in Order—Loan Arranged

PARIS, March 14—The cabinet at a lengthy sitting today considered the Moroccan situation and decided to take determined action for the purpose of protecting France's commercial relations in the Chaouia region. The French force of occupation will be increased from 500 to 6000 and will be instructed to co-operate with Mulai Hafid, the sultan, in keeping the turbulent tribes in order.

The cabinet also approved the financial agreement whereby the bank of Morocco is authorized to make advances to the sultan up to $2,000,000 to be devoted to the organization of a force of 5000 men to maintain authority and promote the economic development of the country. France on her part agrees to the suspension of the annual payment of $520,000 war indemnity due on account of the campaign at Casa Blanca in 1907 until the advances were repaid.

The transport Vien Long has been ordered to be in readiness to sail for Casa Blanca on March 16 with 500 men.

DEMONSTRATION TRAIN COMPLETE

Washington State College Experts Will Illustrate Lecture Here on Saturday Week

The Washington State college farming demonstration train which will be brought here by the Great Northern railway on Saturday week, will include a stock car, a car of horticultural machinery, a dairy car, a car devoted to scientific horticulture and another given up to domestic science. The various cars and their contents will be as follows:

Car one—Three dairy cows, three head hogs.

Car two—Horticultural machinery. One power pump, two hand pumps, one Universal orchard cultivator, one Clark Cut-a-Way orchard cultivator, one acme; one Kimball wooder, one fertilizer drill, several specimens of trees in tubs, one large tree hinged to flat car for spraying and pruning demonstration.

Car three—Dairy. Four hand separators, four cream testers, one McKay sampler, one butter printer, one model silo, one milk cooler, three milk cans two milk pails, twelve milk bottles, silo blocks, butter colors, charts, pictures, strainers, etc. Farmer's outfit, consisting of electric light outfit, gasoline engine and dynamo, model farm library, college and station bulletins, farm papers.

Car four—Horticulture. Orchard troubles, methods of grafting and pruning, diseased parts, insect pests and troubles, specimens of shade trees and ornamental plants, orchard heaters, pruning tools, properly and improperly pruned trees, collection of seeds, list of horticulture literature, landscape gardening plans, small garden and hand tools.

Car four—Poultry. Two model poultry houses, model perches, hoppers, litterboxes, samples of feed, rations, etc., four cages of fowl.

Car six—Domestic science. One coal range, one kitchen cabinet, one table, sewing exhibits, charts, women's magazines, pictures, one steroptican lantern and slides, farm wife's library.

No charge whatever will be made to those attending these lectures, which will be given on the same day at Waneta, Salmo and Ymir.

CHINA RECEIVES ULTIMATUM

Russian Force Within Hundred Miles of Frontier.

CHINESE TROOPS ARE UNDISCIPLINED

Number Two Thousand to Ten Thousand in Russian Force. No More Delay.

ST. PETERSBURG, March 14—Russia has sent an ultimatum to China insisting upon a closer adherence to the provisions of the treaty of 1881 which has been the subject of negotiations between the two countries for some weeks past. The Russian occupation corps is within 100 miles of the frontier and marching on Kulja. Only the immediate execution of China's treaty obligations towards Russia can interrupt the advance of the army which is to occupy Kulja. Two brigades, the sharpshooters, four Sotnias of Cossacks two batteries of field guns and eight batteries of machine guns were dispatched from Margalen in Ferghan Turkestan shortly after the report of China's second reply.

Force is Adequate

Advices to the war office last night say that the expedition is within 100 miles of Kulja and advancing in order to reach the frontier about the time of the presentation of the ultimatum. The Russian force is considered entirely sufficient to reoccupy and hold Kulja. The Chinese troops though nominally 10,000 in number, actually number a bare couple of thousand. They are undisciplined with diverse equipment and lack artillery.

The Russian minister, M. Kerostovetz, delivered Russia's ultimatum to the Chinese foreign board this afternoon. It caused much surprise among the officials who seemed to not realize the gravity of the crisis. M. Kerostovetz last week for the second time, requested permission on behalf of his government to establish observation stations along the Amur and elsewhere on the frontier. He desired also to place doctors and police in Chinese border towns for the purpose of effectively quarantining the frontier. The Chinese viewed the measure as an infringement on her integrity and the Russian minister was notified that a reply would be given today.

In the meantime the Russian minister was asked to obtain further instructions regarding the nature of the proposals whereupon the Russian government evidently decided there was no further use of delay. It is expected here that the Russians will now settle many outstanding matters including the plague quarantine the disputed, frontier, the protection of the railway from Hungtze Hu, as well as trade, consular and other differences in connection with the treaty of 1881.

It is pointed out that for many weeks the press throughout Asiatic Russia has been supporting the desire of the military for the annexation of Mongolia and northern Manchuria, but the Chinese foreign board does not anticipate a serious invasion.

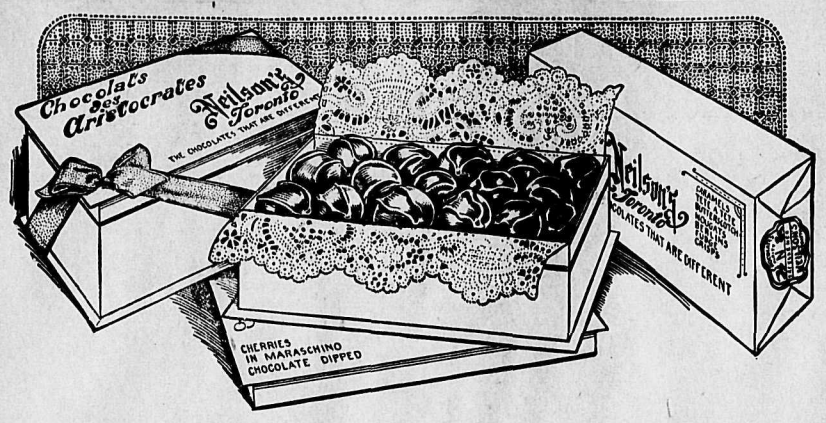
MORE RECRUITS FOR SALT LAKE CITY

Fourteen Girls Arrive in Montreal—Campaign in England is Having Effect

MONTREAL, March 14—The campaign now going on in England against Mormonism has had the result of considerably decreasing the number of girls passing through Canada from England on their way to the great Mormon headquarters at Salt Lake City. Formerly large numbers were constantly passing through the city, landing at Portland in the winter and coming up to Montreal by rail, and at Montreal in the summer. The traffic has not altogether been done away with, however, for today a party of 14 young women who have become Mormon converts, arrived at the Bonaventure station and later left with an emigrant special going west, their destination being Salt Lake City.

TRIANGLES BEAT STARS

At the Y.M.C.A. gym on Saturday the Triangles won their basketball game with the Stars by a score of 6-4. The Crescents will play the Stars on Thursday.



HERE is something probably that you did not know about Chocolates. The most expensive part of them is the chocolate coating itself. The *thinner* the chocolate coating, the less expense to the makers, and naturally the less enjoyment *to you.*

Most makers thin the chocolate with some substitute, so that the cream or hard centers will take up only a very thin jacket of chocolate when dipped.

You will find every piece of Neilson's Confectionery has a thick, heavy coating of the richest, most delicious chocolate—in its absolute purity—you ever tasted.

The centers *are coated individually* and special care is taken to have the chocolate of just the correct proportion to give that delicate, original flavor so quickly recognized by the connoisseur

You get something worth eating—something different—something you will always remember with pleasure—when you eat Neilson's Chocolates.

"Chocolats des Aristocrates"—"Cherries in Maraschino" — and "*Hard Centers*" are only three of the different chocolates that Neilson's make.

30 other kinds, in different packages—and each the best of its kinds.

Neilson's Chocolates

The Chocolates That Are Different.

FOR SALE IN NELSON BY THE POOLE DRUG CO., LTD.

If you are unable to obtain Neilson's Chocolates in your neighborhood, send us 80c. for a pound box of the most delicious assorted Chocolates you ever tasted.

COAST LUMBER COMPANY GETS VALUABLE CONTRACT

(Special to The Daily News.)

VANCOUVER, B. C., March 14—The Western Lumber company, whose big plant is located at Frazer mills near New Westminster, has just been awarded the contract for supplying 6,000,000 feet of mixed lumber to be used in building 125 stations on the line of the Grand Trunk Pacific railway in Alberta and Saskatchewan. Delivery will be made at Edmonton. The amount of the contract is about $140,000.

ANNUAL BALL OF THE KNIGHTS OF PYTHIAS

(Special to The Daily News.)

MOYIE, B.C., March 14—The annual ball of St. Eugene lodge No. 37, Knights of Pythias, will be held on Wednesday, March 29. All the funds above expenses will be donated to the Tranquille sanitorium near Kamloops.

GUILTY OF MANSLAUGHTER

MONTREAL, March 14—Rosario Gasaunt was today found guilty of manslaughter in the court of Kings bench on a charge of having killed Ernest Bigares on Dec. 23, by hitting him with a stick. Sentence was deferred.

ANNUAL MEETING OF HOSPITAL HELD

(Continued from page one.

sure that you will consider that the administration has been as economical as is consistent with the welfare of the work. You will note that some $750 has been expended for furniture and repairs.

Doctors Gave Free Services.

"On April 12 last, at a meeting of the board, it was decided that the retention of the services of a resident medical superintendent was not absolutely necessary, and conseuqently since May 31 there has been no doctor resident on the premises. Whilst Dr. McKinnon, the gentleman who occupied this important position, had given excellent services and the greatest satisfaction, this change resulted in the clear saving of about $2,200 a year to the hospital. I must, however, state that this could only be effected by the generous offer of all the local physicians to take turn about in assuming the duties of medical superintendent, free of charge. Dr. Arthur kindly undertook this duty during June, July and August; Dr. Rose succeeded him, and Dr. Hartin is now attending to this. The thanks of the hospital are due to the medical fraternity of this city for so kindly coming to its assistance.

"The maternity branch is being well patronized and is doing good business, fluctuating but satisfactory. The building has been completely renovated from top to bottom and is in first class condition.

"Your board of directors wish to express their sincere appreciation of the noble work done by the ladies of the Women's Hospital Aid society. They have been unremitting in their kindness, and have practically entirely supplied the necessary bedding, linen and patients' bed clothes, besides very many other contributions, such as furniture, carpets, telephones, a sewing machine, etc., and their total expenditure during the year for the hospital amounts to nearly $1,400. They have gladdened the hearts of both the patients and staff by their thoughtful remembrances at Christmas time. I would again thankfully acknowledge their generous contribution last year of $1,000 in cash toward the purchase of the Home hospital.

"As there is no resident physician, the lady superintendent has prepared a statement showing the different diseases treated during the year, and giving such details as are usual in such reports. This is open for your inspection.

Training School.

"This has been carried on successfully and with satisfactory results. For this we are indebted to the care devoted to it by the lady superintendent, and our thanks are due to the medical gentlemen who have shown the great interest that they took in it by delivering regular lectures during the year. Four young ladies—Miss Scott, Miss Baxter, Miss Harrison and Miss McKenzie—finished their training and obtained their certificates this year.

"The board desires me to record its appreciation of the efficient services rendered by the secretary, the lady superintendent and all the nursing staff, which alone made possible the success with which the hospital has been conducted under rather adverse circumstances.

"The thanks of the board are due to the hon. gentlemen who so kindly exerted themselves to procure the grant referred to above.

"The board also desires to express thanks for the many generous contributions to the hospital by friends of the institution."

The report of the Women's Hospital aid, which has already been published was received with applause.

Financial Report.

J. M. Lay read the financial report for the past year, which showed that the hospital was in a good position as far as funds were concerned, though he pointed out that the institution could hardly be successfully conducted much longer unless a more commodious and otherwise satisfactory building were erected, owing to the heavy cost of operation under the present conditions.

The profit and loss account showed that the expenditures during the year totaled, including an estimate of $1,500 for good will, $17,026.75. Of this one of the largest amounts was $1,892.44 for bad debts. Drugs cost $1,081.96; groceries, $1,973.72; laundry, $1,298.66, and salaries, $3,920.14.

The profit side of this account showed that the amount received from annual subscribers was $657.70; donations, A. Larson, $100 and W. C. E. Koch $35, $135; government patients, $2,692.15; hospital dues, medical and surgical, $10,499.90; maternity, $1,207.05; operating room, $253.38; tag day collections, $552.30, and hospital account (loss), $1,014.37.

The balance sheet showed that the liabilities of the institution were $22,309.80, made up as follows: Accounts payable, $3,393.02; bills payable, $552.17; Imperial bank, overdraft, $1,336.38; Women's Hospital Aid society, loan, $200; deposits by patients, $25.70; capital account, $16,802.53. The assets totaled $22,309.80, divided as follows: Accounts receivable, $2,545.80; ambulance, $800; textbooks, $55.10; chickens, $17.50; furniture, $4,000, instruments, $300; insurance, unexpired, $81.40; real estate, $14,500; cash, $10.

The report of the lady superintendent, Miss E. E. Lumsden, which appears in another column, was read and adopted.

New Board Elected.

The retiring members of the board of directors were J. M. Lay, William Waldie, W. G. Gillette, W. J. Wilson, Hamilton Byers and George C. Wells. Of these Messrs. Wells, Byers, Wilson and Gillette have left the city.

The incoming directors elected were J. M. Lay, Leslie Crawford, J. A. Irving, George Kurtz, H. Amos, A. G. Lambert and William Waldie. The two last named were elected for one year and the others for two years. George Motion and W. R. McLean are members of the board, being nominated by the provincial government. The four remaining in office from the past year are E. F. Gigot, George Johnstone, T. G. Proctor and Fred Irvine.

A motion was passed asking the city council to appoint one alderman to act on the board of directors.

Change in By-Laws.

It was decided that the new board of directors should draw up new by-laws to be submitted to a special meeting of the association.

During the discussion of this resolution it was indicated that the recommendations of the board would include a change as to the rules governing patients who are admitted on the annual membership basis. It was pointed out that in some cases the hospital was saddled with the care of an incurable patient who happened to have paid the $10 yearly subscription, and it was suggested that a limit of two months should be placed upon the time which any annual subscriber could enjoy hospital advantages during any one year.

Regarding the necessity for a new building it was moved by E. K. Beeston and seconded by George Kurtz that a special committee of five should be appointed to look into the matter of the cost of a new building and make a report to a general meeting of the association, to which the public should be invited, at an early date. The committee appointed were Messrs. Lay, Johnstone, Irving, Kurtz and Beeston.

Votes of thanks were passed to the doctors, to the matron and staff for their services during the past year, to the Ladies' Hospital Aid, to Premier McBride, Hon. Dr. H. E. Young and Harry Wright, M. P. P., for the grant of $4,000, to George Johnstone for his energetic work during the past year in the interest of the institution, to Mr. Gigot for his able services as president and to those who generously contributed to the hospital, and to the press.

Those present were E. F. Gigot, the retiring president; George Johnstone, secretary; Leslie Crauford, George Kurtz; J. M. Lay, treasurer; E. K. Beeston, Paul Nipou, J. A. Irving, W. R. McLean, T. G. Procter and Dr. McKinnon.

Officers Reelected.

At a meeting of the new board, held after the general meeting, E. F. Gigot was reappointed president; Fred Irvine, vice president; J. M. Lay, treasurer, and George Johnstone, secretary. The finance committee was appointed as follows: George Kurtz, T. G. Procter and Leslie Crauford.

From the Heart of the Corn Comes This Perfect Food

Of all the kinds of cereals to be had to-day Kellogg's Toasted Corn Flakes alone combines deliciousness, healthfulness and digestibility.

It is just a good, common-sense food that contains as much nutritive value as meat or eggs, at much less cost.

It gives strength and vitality to children—is ideal for invalids. 19

Kellogg's TOASTED CORN FLAKES

SEAL OF ALBERTA—the Faultless Flour—is one prime essential for making perfect bread. With ordinary care you can always have a good loaf if you use SEAL OF ALBERTA flour.

But of course it would be foolish for us to say that there are not other factors in the making of good bread. If you seek for perfection and uniformity you must seek to control the temperature. A good baker will determine the temperature of his flour, then use sufficient warm water to raise the whole dough mass to the desired point. He will then seek to control the temperature during the time the bread is rising, for temperature

is one of the greatest factors in the securing of absolutely uniform results even from so excellent a flour as SEAL OF ALBERTA.

But there are times when do what you may you cannot have everything exactly right. Then you must depend upon the quality of your flour, and SEAL OF ALBERTA is more carefully made, more absolutely uniform—and because it is a known, definite flour, you will always get better results with it under adverse conditions, than you would with any other flour. There is reason in this argument, and you can prove it by a constant use of SEAL OF ALBERTA flour.

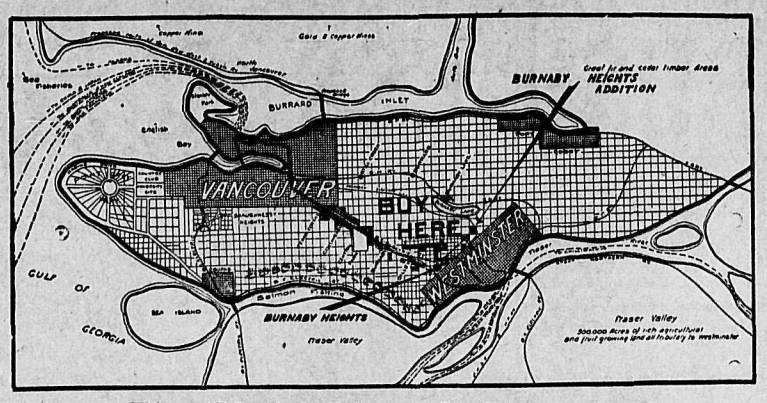
"A Few Dollars Invested Monthly in the Right Place Will Earn More Than Any Man Can Save from Labor."



The Right Place Is Burnaby

We do not believe there is another place in North America where values will increase as rapidly.

Last year the building permits alone on the peninsula amounted to almost twenty million dollars. Add to this the amount expended by the cities and other municipalities, government, railway, electric lines, power companies and great manufacturing enterprises and it would exceed thirty millions.

One hundred and fifty millions in five years, only figuring present rate of expenditures.

This immense amount will be invested in improvements immediately surrounding the lots we are now offering you at only $350, $20 down and $10 per month.

Population and development make values. Those who are especially qualified to judge, estimate the increase in population on the peninsula at 200,000 in five years.

Now study the position of these lots. Not away out on the edge of a prairie town spreading in all directions, but right in between the two fastest growing cities in Canada Only three miles between the two city limits. Right in the course of the greatest development. What will they be worth in five years? At least ten to twenty times the price they are today. It will be solidly built up in this locality by that time.

Are you going to be one of the winners? Or are you going to be telling what you might have made?

Do not wait. In six months, at the rate things are now going there will be nothing available for subdivision between the cities. We can never offer you the same terms and prices again.

NOW IS THE TIME

THE WRIGHT INVESTMENT CO., LTD. Nelson, B. C.

ENGLAND AFTER TENNIS CHAMPS

Britishers Challenge for Davis Cup—Three Cornered Contest for Trophy

MELBOURNE, Australia, March 14.—There will be a three-cornered contest for the Davis championship tennis trophy this year, both the United States and England having forwarded challenges, and the Australian tennis team is now preparing to defend the trophy. The Americans sent in a challenge a month ago, but some doubt was expressed whether a team would come, as at that time England had not decided whether to compete, but a cable was received from England today informing the Lawn Tennis association that a team would compete this year for the Davis cup. The personnel of the team was not disclosed in the cable.

This will be the third time that the Australian tennis champions have been called upon to defend the cup, although it will be the first three-cornered contest on the local courts. The Australians won the trophy in London in 1907. The following year the Americans competed, but were easily defeated in a series here, and again in 1909, when the matches were played at Sydney. This year the matches will again take place in this city.

Breaks Australian Record

Comedy King, one of the best known race horses in this country, which ran well up in the Melbourne Cup last year, broke an Australian record this year, running one and a half miles in 2.31½, carrying weight for age.

Team for England

The selection of a team which will represent Australia in the big empire athletic meet at London during Coronation week, will be made this week by the committee in charge. It will be composed of the best athletes in Australia and New Zealand. The team may return home via Canada, although this has not yet been definitely decided.

THESE ARE ELIGIBLE FOR CANADIAN BISLEY TEAM

OTTAWA, March 14.—Those on the Bisley team this year are: J. Freeman, colorsergeant, 13th regiment; P. Armstrong, staff sergeant, 13th; W. J. Clifford, Pte., 10th Grenadiers; F. H. Morris, Lieut., 48th regiment; H. R. Roberts, corporal, 10th; W. L. Ross, major, 2nd Dragoons; A. J. Melklejohn, Lieut., 43rd D.C.O.R.; A. R. Carmichael, Pte., 103rd regiment; T. S. Bayles, Sergt., 10th; F. Bibby, Pte., 77th regiment; H. W. Peterson, Sergt., 43rd; C. D. Spittal, Lieut., No. 5, C.A.S.C.; M. Hall, staff sergeant, G.G.F.G.; J. I. McLaren, major, 91st Highlanders; G. W. Russell, Sergt., G.G.F.G.; J. Trainer, lance corporal, R.C.R.; A. Martin, Sergt., 103rd.; W. O. Morris, Lieut.; 18th M.R.; C. Milne, Lieut., 6th D.C.O.R.; J. Moscrop, O. R. Sgt. 6th D.C.O.R.

The team will sail about the 10th of June from Montreal. The Bisley matches start early in July.

EXCITING BOUT

BATTLE CREEK, Mich., March 14.—George Hackenschmidt, the Russian lion, defeated Charles Olson, of Indianapolis, in an exciting bout here, winning two straight falls.

SCHOLES-BRITT BOUT AT PHOENIX CALLED OFF

Joe Murdock has come through with another letter. This time it concerns Bob Forshaw. He says that Bob stood George W. Bates off in a ten round go at Phoenix on March 11, and wants to match Forshaw with Carl Roberts or Jack Lester to box for a substantial purse.

He states that the go between Scholes and Britt has been called off owing to some disagreement over the weight proposition.

REGINA NOT ENTHUSED OVER PROFESSIONAL BALL

REGINA Sask., March 14.—Doubt still enshrouds the immediate future of Regina as a factor in this year's western Canadian baseball league season. Tom Letcher, who took over the franchise, now admits that he bit more than he can conveniently chew in face of the chilliness shown by Regina citizens toward professional baseball. The two past disastrous seasons have resulted in the people looking dubiously at the proposition. Another meeting has been called for Wednesday and a few enthusiasts still claim that Regina will have professional ball this year. Many, however, claim that unless some kindly disposed millionaire happens along to shoulder the financial burden of the team, the chances of Regina going through the season as a member of the six team Western Canada league are decidedly slim.

JEANETTE AND BARRY THURSDAY

NEW YORK, March 14.—One of the most interesting bouts of the present week will be that between Jeanette, the negro heavy, and Jim Barry, the Chicago fighter. It is scheduled for ten rounds and will take place Thursday night.

SPORTING SPOTLIGHTS

Leslie Craufurd, president of the Kootenay Rugby Football club, is going ahead with the moulding of the iron challenge cup, which was suggested at the annual meeting on Saturday.

Nice dope on Manusha's hitting is coming from Marlin, Tex. The young Giant looks good.

Chris Mahoney, an extra outfielder with the Boston Red Sox, is also said to be a clever pitcher.

The world's champions look good to repeat this season, now that Jack Coombs is in line again.

Pitcher Jess Baker of the White Sox says his best fooler is the "Fog Ball." Years ago Miller, the "Fog Horn" catcher, performed in the major league, and now we have the "Fog Ball" pitcher. T-o-o-t! T-o-o-t!

When Pitcher Wyatt Lee was asked why so many wonderful minor league twirlers fall in the big show, he remarked: "It's this way. They find their fast balls a mite too slow, and their slow ones just a bit too fast."

Bartley Connolly is running a fight club in Portland Me., and getting his share of the good performers.

Champion Wolgast and Owen Moran have been offered a $12,500 purse to box in Tia Juana, Lower California.

The latest new blow in the boxing game is the "molar snap." It was pulled in Boston recently when Kid Wilson fastened his teeth on Joe Stein's ear. The inventor has been blacklisted.

NA-DRU-CO LAXATIVES

act gently with no irritation or discomfort, but none the less effectively. - Children like them. - 25c. a box at all druggists'.

Her Secret

Why She Always Looked So Young

Everyone refers to her as one of the most attractive women in town. It wasn't her features, for while regular, they were not unusual. But the charm lay in the head of splendid, vigorous hair that made a veritable crown. It had that peculiar lustre and the sun gave it an added brilliance —you couldn't look at her without unconsciously commenting on the beauty of her hair.

When asked how she kept it so beautiful she replied that it was no secret, simply proper shampooing, regular combing and the conscientious use of Hirsutone. She admitted it had not always been in that condition, but that she found Hirsutone the best thing she ever got for the hair. It gave the scalp such a cool, refreshed feeling, and the hair was so much easier to dress after its use.

There are plenty of heads that would be just as attractive for Hirsutone soon brings the hair and scalp into good condition.

Your Nyal Drug Store will cheerfully guarantee Hirsutone to do all that is claimed for it, and every woman owes it to herself to try it.

Sold and guaranteed by The Poole Drug Co., Ltd., and W. Rutherford, Nelson.

MASTERLY SPEECH OF MR. GOODEVE

Addresses Largely Attended Meeting at Brockville—Baneful Effect of Reciprocity

At a largely attended meeting held at Brockville on March 3 a resolution was passed condemning the reciprocity agreement as a serious menace to the best interests of Canada and the British empire. The resolution was unanimously adopted after listening to addresses by three able lieutenants of R. L. Borden, the opposition leader at Ottawa, Richard Blain, M.P. for Peel; A. S. Goodeve, M.P. for Kootenay, and Dr. Reid, M.P. for Grenville. A few words were also added by A. E. Donovan, M.P.P. and John Webster.

Referring to Mr. Goodeve's speech the Brockville Times says: "The peroration of Mr. Goodeve was a particularly splendid effort when he pleaded for a strengthening of the ties that binds Canada to the mother country, rather than to allow ourselves to drift away which will ultimately follow the operation of the reciprocity pact.''

The Times gives special prominence to Mr. Goodeve's splendid speech which it reports as follows:

Mr. Goodeve

Mr. Goodeve, MP. for Kootenay, B.C., followed in a rousing speech. This is Mr. Goodeve's first term in the Canadian parliament where he is making his mark as a strong debater. Previously he had a long association with provincial politics in British Columbia and had the honor of being provincial secretary in the first Conservative government of that province. He dealt with reciprocity in a masterly way, not in a party sense, but rather from a broad, national standpoint, showing how it will affect Canada as a whole. He traced in an interesting way the history of British Canada from the landing of Champlain in 1660 up to confederation in 1867, dividing it into four periods; (1) from 1608 to 1760, French rule; (2) from 1760 to 1791, when representative and legislative institutions were established; (3) from 1791 to 1840 when these institutions slowly developed into responsible local self-governments; (4) from 1840 to 1867 when representative government was fully established and federal union finally accomplished the natural result of the extended liberties of the people. Mr. Goodeve took for his text a quotation from the speech of President Taft, delivered in placing the bill of reciprocity before congress, in which he said Canada had reached "the parting of the ways." Continuing the president said: "They (Canadians) must soon decide whether they are to regard themselves as isolated permanently from our market by a perpetual wall or whether we are to be commercial friends." This was not the first time, stated Mr. Goodeve that Canada has come to the parting of the ways. In the long tussle for confederation there were men then as now, not having the broad grasp or national spirit who preferred to trade locally with the United States . Some favored annexation or commercial union but the broader minds triumphed. Again in 1870 when British Columbia was invited to come into confederation and thus form an outpost on the Pacific ocean, there was the optimist and pessimist the one looking far into the future, believing in the destiny of Canada as a nation; the other ready to take the line of least resistance and the easier road, viz., trading with the United States. Again the broad principles and the great pioneering principles of the great pioneering sense of the Anglo-Saxon people, when appealed to, triumphed and British Columbia, one of the largest and richest of our provinces, was added to Canada. There were men who felt that the cost would be too great; men who declared that the small population of British Columbia and the heavy burdens that would be imposed by the building of the C.P.R., was too great an undertaking and it was held that British Columbia was a sea of mountains. That was true, but nature was so lavish in her gifts that she had no room for the great natural resources in that province and thus these mountains proved to be the great storehouses containing the wealth of precious metals, gold, silver and copper. The black diamonds which were to become the future source of vast industries. These mountains with a score of beautiful lakes and mighty rivers and waterfalls gave an unlimited supply of electricity. A rich mineral soil filled their valleys. Their slopes are covered with the largest and most compact area of merchantable timber on this continent. Her fisheries account for 30 per cent of the total value of the fisheries of Canada and today she furnishes a home market for over $14,000,000 of dairy and agricultural products for the other provinces of Canada in addition to what she herself raises. Mr Goodeve declared that reciprocity would ruin this market for the rest of Canada by United States competition, besides killing its natural development. The speaker traced the history of the National policy and its beneficial effect upon Canadian trade and commerce. He noted the failure of the reciprocity cry of the Liberals in the election of '91, when once more the policy of progress and nationalism triumphed. Today in 1911, Canada once more comes to the parting of the ways. From the tone of American newspapers and the speeches of their public men there can be only one meaning from their standpoint, viz., the complete commercial and political union of Canada and the United States.

Mr. Goodeve reverted for a few moments to some of the arguments that have been advanced by the government on behalf of this remarkable, unexpected and almost complete reversal of the fiscal policy of Canada. There was no general demand for this change. It was true that owing to our vast and ever growing trade, particularly in western Canada, there developed certain difficulties and abuses in connection with the handling of that trade, particularly with regard to grain and cattle and meat, but if proper action had been taken when the matter was brought to the attention of the government by the enactment of strict regulations, rigidly enforced, in regard to grain elevators and the establishment of public abbatoirs or in the encouragement of private abbatoirs under government inspection with an extension of refrigerator and cold storage service, these abuses might have been remedied. Sir Wilfrid declared to several delegations who interviewed him during his recent western trip that there would be no alteration in the tariff until after the appointment of an expert commission to make a thorough enquiry and the hearing of all interests to be affected. Mr. Goodeve carefully analyzed reciprocity, showing its baneful effect upon the fruit industry of British Columbia and the grave possibilities of materially lessening the price of Manitoba wheat. The value of the British Columbia fruit crop in 1910 was 2,500,000 The imports of nursery stock was 3,770,470 trees and plants. The acreage in fruit had grown in ten years from 10,000 acres to 100,000 acres. We have all the difficulties usual to a new country and the establishment of markets for a new industry. At one blow the entire protection is swept away and the fruit growers placed at the mercy of the well established fruit growers of California, Oregon and Washington. No consideration was given in the matter of protection to the raw materials. He held that the American states would be enabled to undersell British Columbia in the markets of our western prairies. Last year British Columbia imported $14,962,904 worth of dairy and agricultural produce, which should be supplied by the other provinces of Canada. Under the reciprocity agreement our fruit, he said, will be forced out of our own market and we in turn will buy all the above agricultural products from the American states. This is one instance of the great loss of interprovincial trade, upon which we have expended such large sums of money from east and west to north and south? Shall Boston, New York, Chicago, Minneapolis and San Francisco take the place of Halifax, Montreal, Winnipeg ,Edmonton and Vancouver? Mr. Goodeve's plea for imperialism concluded a magnificent speech.

"I COULD NOT LIVE"

WITHOUT "FRUIT-A-TIVES"

Writes The Treasurer Of Caledonia Township

FENAGHVALE, ONT., Jan. 29th, 1910.

For thirty-five years (and I am now a man over seventy) I have been a terrible sufferer from Constipation.

No matter what remedy or physician I employed, the result was always the same—impossible to get a cure.

About two years ago, I read the testimonial of Hon. John Costigan regarding "Fruit-a-tives" and I decided to give this fruit medicine a trial. I have used "Fruit-a-tives" ever since. They are the first and only medicine that suited my case. If it were not for "Fruit-a-tives", I am satisfied that I could not live." JAMES PROUDFOOT.

The liver controls the bowels by giving up enough bile to make the bowels move. The only possible way to cure constipation is to make the liver active and healthy and thus store up sufficient bile to move the bowels.

"Fruit-a-tives" acts directly on the liver—ensures an abundance of bile—and causes the bowels to move regularly and naturally. 50c. a box, 6 for $2.50, trial size, 25c. At dealers, or from Fruit-a-tives Limited, Ottawa.

TOTAL TREATMENT MUCH INCREASED

Report of Lady Superintendent of Hospital Shows Work Nearly Double That of Previous Year

In the annual report of Miss E. E. Lumsden, lady superintendent of the hospital, made to the annual meeting of that institution yesterday it was shown that the number of days' treatment last year indicated a heavy increase over that for the previous year, the total being 6690 days as against 3589 for the previous year. Miss Lumsden emphasized the necessity for better accommodation in the building and mentioned that the increased number of patients had resulted in making an increase in the staff to 11 necessary The report is as follows:

"I have the honor to report that the work of the hospital has nearly doubled during the 10 months ending Dec. 31, 1910. The number of days' treatment from March 1, 1909 to Dec. 31, 1909 was 3589 days while the number of days' treatment from March 1, 1910 to Dec. 31, 1910 was 6690 days.

"The great increase has been in the public ward patients, to accommodate whom we have had to encroach upon the already too limited number of private wards, placing two more beds in the larger.

"The increased daily number of patients in the hospital has also severely taxed the kitchen accommodation, the small amount of space available making it extremely difficult to serve the meals to the best advantage. Storage room for supplies and the clothing of the patients is very badly needed.

"The increase in the number of patients has occasioned a corresponding increase in the staff which I have dealt with under the head of the training school.

The Training School

"The staff at present consists of a matron, one head nurse, one head maternity nurse, three senior pupil nurses, three junior maternity nurses, two probationers, a total of 11. During the year 60 applications for entrance to the training school were received. Nine were accepted as probationers and three have been retained as pupil nurses, and two are still on probation.

I wish to thank the Woman's Hospital aid for their generous assistance, their contributions to the comfort of the patients being very highly appreciated.."

A detailed report of the cases received shows that there were 29 obstetrical cases; 162 surgical cases; 150 medical cases; 15 eye, ear, nose and throat cases. There were 15 deaths during the year. Operations for appendicitis numbered 15, only one patient dying from the disease. There were two deaths from cancer during the year, four from tuberculosis and two from typhoid fever.

Spring Millinery Opening

Ladies' Imported Pattern Hats

Thursday, Friday and Saturday

We will exhibit in millinery department, second floor the advanced showing of ladies' trimmed and pattern hats for spring wear.

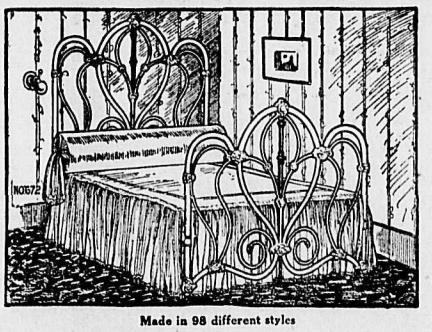
Latest shapes, latest colors and combination shades, with best styles from some of the best makers and trimmers.

We invite your attendance and inspection of these new creations of headwear.

Fred Irvine & Co.

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.



Made in 98 different styles

Maybe you think all metal beds are more or less alike in quality, if not in design. But that is not so. You should learn to discriminate before you buy your metal bed. If you choose wisely, it will last you for many years.

Select the design you like from the 98 different styles of "Ideal" Metal Beds—and you can be sure its snowy, glossy finish will never discolor, never flake off, but stay pure white.

You can buy an "Ideal" Metal Bed for $4.00 or more, according to the style you select. There is only one "Ideal" quality—the best we know how to produce.

"The Philosophy of Sleep" is the title of a little book which you would like to read. May we send you a copy, also the name of the dealer in your locality who sells "Ideal" Metal Beds? Ask for Booklet No. 142

WEDNESDAY, MARCH 15

120,000,000 JAPANESE.

It has been estimated that in fifty years the number of Japanese will have increased to 120,000,000. The estimate is a reasonable one and is likely to be below the mark. The present number is more than 60,000,000. It will probably double in much less than fifty years. The birth rate is high and the causes which formerly tended to a high death rate are disappearing.

This increase in the numbers of the Japanese race is the text for the latest Japanese scare. It is plain that Japan can not provide a livelihood for all these people. Where are they to go? Count Okuma is said to hold that instead of settling in territory under the Japanese flag the policy would be to have them spread abroad instead of keeping under the Japanese flag.

But the count is a rather irresponsible opposition politician and is not to be taken too seriously. He is merely attacking what is the policy of any other government. It is of vital importance to Japan to keep the growing population as much as possible under the Japanese flag.

Had all the emigrants who left Germany during the nineteenth century settled in neighboring territory under the German flag, Germany would be a nation not of 60,000,000 people but of at least 100,000,000 people, and her power would correspond. She had no neighboring territory; she was not even united until late in the century; and she had no territory anywhere suited to colonization by the white race.

If the Japanese increase were to be scattered abroad, the result would be that in a decade or two Japan, still little stronger than at present, would be confronted by a Russia of vastly greater strength, to say nothing of possible development in China, and of the growth in the strength of the European and American powers with whom she must deal—a growth in strength due to growth in population.

Japan, unlike Germany, has neighboring territory which she can colonize with her surplus population, just as the United States colonized the Mississippi valley with the surplus population from the Atlantic seaboard. Formosa, Korea and parts of northern China will provide a field for the settlement of tens of millions of Japanese in the course of time. And it is the settled and necessary policy of Japan to devote her energies in that direction. It is her only hope. She does not want to intrude in North America; all she asks is that North America shall not attempt to prevent her from finding in Asia a home under her own flag for her surplus population.

TEN YEARS AGO

Extracts from the Nelson Daily Tribune of March 14, 1901.

"Bill" Herring, the city poundkeeper, is on the warpath and will strictly enforce the dog ordinance.

George Gordereau of Crawford bay, who is charged with assault, was brought to the provincial jail last evening.

The C. P. R. officials, who have so long occupied the frame building on West Baker street, were busy yesterday in moving into their new quarters in the Union depot.

George Johnstone of the present Nelson school board does not take kindly to the suggestion which has been made that when the city takes over the management of the public schools the proposed expenditures of the school trustees be subject to the revision of the city council.

SHERIFFS MUST IN FUTURE CONDUCT HANGINGS

That the department of justice at Ottawa does not propose to appoint a public executioner to fill the position left vacant by the death of John Radcliffe and that in future the sheriffs of the various districts must act as their own lord high executioners or obtain some other person to do the unpleasant work for them is the information contained in a dispatch sent out from Ottawa. The telegram reads as follows:

"No appointment has yet been made and no applications have been received for the position of public executioner, left vacant by the death the other day of John Radcliffe, who has filled the position for so long. It is understood that the department of justice does not propose to appoint another, and that such duties will be left to sheriffs or such persons as the sheriff can secure for the work."

NEW SETTLERS FOR BAYNES LAKE

Military Officers, Professional Men and University Graduates—Towns Will Be Established.

MONTREAL, March 14.—As a result of a series of lectures illustrated by lantern slides and cinemograph films delivered in England under the auspices of the Grand Trunk railway and White Star Dominion line of steamships a party arrived in Montreal this morning from the White Star Dominion line steamer Canada destined to Baynes Lake, B. C.

The party consists of retired military officers, professional men and university graduates, with their wives and families, in charge of J. A. Tormey. On arrival at Baynes Lake it is intended that the party, who are only the first of several, and are bringing out capital to the amount of about $200,000, will purchase specially selected fruit farms and towns will be established.

GAS, HEARTBURN AND DYSPEPSIA VANISH

Settles Your Out-of-Order Stomach and Ends All Indigestion Five Minutes Later

You can eat anything your stomach craves without fear of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach, if you will take a little Diapepsin occasionally.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes Belching, Dizziness, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Biliousness, Heartburn, Water brash, Pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. A single dose will digest all the food you eat and leave nothing to ferment or sour and upset the stomach.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking now, and in a little while you will actually brag about your healthy, strong Stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

Should you at this moment be suffering from Indigestion or any stomach disorder, you can get relief within five minutes.

OTTAWA, March 14—At the evening sitting of the senate the bill to provide for fortnightly payment of railway employees was killed after a discussion. The motion for the second reading was defeated by a vote of 15 to 12. The bill, which was fathered by Martin, Montreal, had passed the commons.

The First Shipment of Strawberries

Grown In This District

will arrive from the Pend d'Oreille valley, which is three weeks earlier than other points.

A former expert on soils for the Ontario government, who has had many years experience in B.C., says:

"The soil in the Pend d'Oreille valley is unquestionably the best and the richest I have seen anywhere in B.C." We say further: "The climate in this valley is the mildest and most equable in B.C., and stock feed out all winter. And furthermore there is no better land in the Kootenays than this we are offering at from $10 to $25 per acre.

And yet further: That now is the time to buy because the new railroad from Metalline will traverse the valley from end to end paralleling the government wagon road.

INTERNATIONAL BOARD IN ABEYANCE

Proposal No Longer Under Discussion —Bitter Attack on W. F. MacLean —Control of Capitalization.

OTTAWA, March 14.—The government expected to make some headway with debate on the reciprocity agreement today but owing to the introduction of other topics only one speech was made or, speaking more correctly, the speech commenced on Thursday last by Mr. MacKenzie of Cape Breton was concluded. George Bradbury of Selkirk moved the adjournment and will speak on Wednesday.

The most important subject introduced in the early part of the sitting was a motion by W. F. MacLean declaring that control of capitalization should be placed in the hands of the railway commission. He said that such action on the part of parliament would do more than anything else that could be done to contribute to an early reduction of railway rates in Canada.

Hon. George Graham said that the suggestion was worthy of consideration but he doubted if the time had yet arrived for parliament to take such a step. He said he had discussed the matter with Chairman Mabee of the commission but had not made up his mind about it.

Just before the discussion was brought to a close Major Beattie, Conservative member for London, made a violent attack on Mr. MacLean. He said that the member from South York was not in earnest and that the Canadian Pacific Railway could buy him if they wanted to.

Mr. MacLean could not find enough supporters for his proposal to call for a division.

A. S. Goodeve of Kootenay justified his quotation of Lord Strathcona's alleged utterances in reference to the reciprocity agreement on the ground that the news had been carried to Canada by the subsidized Canadian Associated Press and had been printed generally in Canadian newspapers, therefore he thought it was correct.

MacLean Resolution.

When the government moved the house into committee in order that the debate on the reciprocity agreement might be continued, W. F. MacLean moved an amendment substituting for the Morion declaration that "the control of the capitalization of railways should be within the jurisdiction of the board of railway commissioners." In support of the resolution he made a speech which, while containing a good many arguments already used by Mr. MacLean in a former speech on railway subjects, covered new ground in so far as the subject matter of the proposed motion was concerned. He started by declaring that the transportation question was of more vital importance to the people of the west that the tariff question. After quoting statements from the Winnipeg Free Press to show that railway rates in the western states are lower than those in western Canada Mr. MacLean launched out on his argument that the control of capitalization should be in the hands of the railway board. He said that if the C. P. R. was compelled to submit increases of capitalization to the board it would result in smaller capitalization and ability on the part of the company to reduce freight and other rates.

Hon. George Graham said that interesting remarks made by Mr. MacLean applied with equal force to all companies. He observed that railway rates and the tariff frequently bore a relation to one another.

International Board.

Houghton Lennox: "Is it true that the proposal for an international railway board has been abandoned?"

Mr. Graham: "That is a pointed question which I would not like to answer 'yes' or 'no.' I will say, however, that the question is not being actively discussed at the present moment."

Continuing, he said that he was of the opinion that the farmers of the Canadian west have a cheaper rate to the Great Lakes than Americans have to Duluth. The rate on coal from Fort William to Winnipeg is lower than the rate from Duluth to Winnipeg.

In conclusion he said that Mr. MacLean's proposal merited consideration. He was at liberty to say that he had discussed the matter with the chairman of the railway board and with railway men, but had not been able to arrive at the conclusion that the time had come in Canada when it would be desirable to make a change. He assured the house that the question of cheaper rates is now and will continue to occupy the attention of the government.

Bitter Denunciation.

One of the bitterest denunciations in parliament in recent years fell from the lips of Major Beattie of London, who said:

"I have no sympathy with the resolution. It seems to me that it has been moved by the hon. member for South York to suit his own purposes. I have the best opinion of the C. P. R. We have reason, as Canadians, to be proud of the railway. That stock within my recollection sold for 38 cents, and the member for York would not dare to and did not buy 38 cents' worth of it, but he comes forward today and finds fault with the C. P. R. We in Canada and the British empire have reason to be proud of the C. P. R. No railway has attained the same high position it has, and I venture to predict that if the C. P. R. would buy that man for a small sum he would not open his mouth on it."

The speaker called Major Beattie to order, but he continued his attack on Mr. MacLean and expressed himself so forcibly that the speaker had to interfere. He characterized as a falsehood the statement made by Mr. MacLean that he was opposed to public ownership. He declared himself in favor of public ownership when it was in the hands of honest men.

The speaker called for ayes and nays but as only Dr. Sproule and Mr. Russell stood there were not enough to force a division. The speaker then declared the resolution lost.

Mr. MacKenzie of Cape Breton continued the debate on the reciprocity agreement. He said the people of the west should take note that they could not get any tariff reductions from the Conservative party.

Wash Those Pimples Off

EQUESTRIAN STATUE FOR THE PLAZA LAURIER

OTTAWA, March 14—A magnificent equestrian statue of the late King Edward VII is to adorn the centre of the proposed Plaza Laurier at Ottawa. This is understood to be the wish of the majority of the Dominion cabinet who have just approved of plans for the merging of Dufferin and Sappers Bridges into the broad expanse of a plaza. It has been announced that a statue of the late Thomas d'Arcy McGee would be given a place of honor on the plaza but as there are movements afoot in other cities to erect statues to the late King, the government is said to feel that the capital city should not be behind in this respect, in honoring the memory of the deceased sovereign.

ERICKSON-CRESTON RIFLE ASSOCIATION

Captain President Is Elected—Shooting at Ranges on Saturdays and Sundays.

(Special to The Daily News.)

CRESTON, B. C., March 14.—By courtesy of the Mercantile company the Erickson-Creston Rifle association held its meeting in their store a couple of evenings ago. There was a goodly number gathered when the meeting opened. J. Stocks took the chair. A letter from Captain A. S. Fitzgerald, resigning the position owing to his being unable to attend regularly was read and on motion his resignation was accepted. Mr. Dickson proposed and J. H. Hyde seconded that J. Stocks be offered the position of captain president. After some hesitation and in view of the fact that the request was unanimous, Mr. Stocks decided to accept it, amid loud applause. Mr. Stocks, the newly elected captain, stated that the practice that had grown up during the year of all the shooting being done on Sundays was detrimental to the club and that if some arrangements could be made to guarantee a marker on Saturdays some very desirable members would be secured for the association. At present, he said, it was optional on which day (Saturday or Sunday) the members shot, but the practice had resulted in the Saturday shooting being dropped and the range being crowded on Sundays.

J. H. Hyde moved and R. G. Scruton seconded that the committee arrange for a marker to be present on Saturdays and Sundays during the season, to be paid at the rate of 50 cents per day from the club funds in addition to 10 cents per club member shooting.

The service roll, which now consists of 31 members, will be closed on March 15.

O. J. Wigen, the strawberry king of this district, was very optimistic when seen by your correspondent the other day. He states that in spite of the somewhat unfavorable season of last year the berry crop will be of good quality so far as appearances go.

The ladies of the Altar society of the Roman Catholic church will give a musical entertainment on the evening of the 17th of March in the Creston auditorium.

P. W. Foot of Sutton, near London, England, and who has an interest in the property purchased by Messrs. Mann & George from Mike Glaser, has arrived in Creston and will make his home on the ranch. Mr. Foot is an experienced horticulturist and the three partners intend to transform their property into an orchard and garden second to none in this valley.

M. McCulloch of Erickson, who was the victim of an accident while working in the woods some time ago, is recovering and can get around again with the aid of a crutch.

The ladies' auxiliary of the Presbyterian church will give an apron bazaar and social afternoon and evening on March 24.

T. Ogg, of the Bank of Commerce staff at Penticton, is filling the vacancy in the Bank of Commerce staff at Creston caused by the illness of Paying Teller Smith, who is fast recovering.

PERRY SIDING FERTILE DISTRICT

Branch of Farmers' Institute Is Formed —Splendid Samples of Apples Are Grown.

(Special to The Daily News.)

PERRY SIDING, B. C., March 14.—A meeting of the ranchers of this neighborhood was held here last Saturday to consider the opening of a branch of the Farmers' Institute at this point. The meeting was quite successful, and before it concluded 22 signatures were affixed to the petition. Winlaw, which will join with Perry Siding for this purpose, for a year or two at least, will probably supply another 20 names.

This is the first step in the organization of a district destined in a very few years to be one of the largest producers in the Kootenays, containing as it does from 8,000 to 10,000 acres of fertile land. Hundreds of these acres will this year be cleared and planted to fruit trees; hundreds more will have clover seed sown between the stumps, and as this is a wellwatered country and clover grows rank as a weed, there is good prospect that this will make one of the finest dairying districts in British Columbia. Two thoroughbred bulls are owned here now, an Ayreshire on one side of the river and a Jersey on the other. Even now Perry butter is famous in Nelson, the only trouble being that the demand so far exceeds the supply. Hay, eggs, pigs, vegetables and berries are other lines of produce that Perry excels in, but the chief industry this year will be that of clearing land. The 200 or 300 bearing fruit trees in this district show that for color, size and flavor the Slocan valley can raise an apple that need not fear competition with Hood River itself.

A week ago an entertainment was given in the schoolhouse by the children of the neighborhood for the purpose of raising funds to equip the Sunday school. The boys and girls were nicely costumed and gave great pleasure by their display of marching and posing, tableaux, singing and recitations. The boy scouts of the neighborhood, equipped with their rifles, gave a good display of drill, finishing with "Soldiers of the Queen." This item received an encore. Mr. Schonberg was present with his excellent phonograph and discoursed music during the intervals. To judge by receipts the entertainment was a great success and reflects great credit on Mrs. Denny, who trained the children and organized the show.

"Dr. Miles' Nervine Completely Cured Our Little Boy of Fits."

A family can suffer no greater affliction than to have a child subject to fits or epilepsy. Many a father or mother would give their all to restore such a child to health.

"I am heartily glad to tell you of our little boy who was completely cured of fits. He commenced having them at 10 years of age and had them for four years. I tried three doctors and one specialist but all of them said he could not be cured, but Dr. Miles' Restorative Nervine and Dr. Miles' Nerve and Liver Pills made a comptete cure. He is now hale, hearty and gay. It has been three years since he had the last spell. I shall give Dr. Miles' medicines praise wherever I go. You are at liberty to use this letter as you see fit and anyone writing to me I will gladly answer if they enclose stamp for reply."
F. M. BOGUE, Windfall, Ind.

Dr. Miles' Nervine

is just what it is represented to be, a medicine compounded especially for nervous diseases, such as fits, spasms, St. Vitus' dance, convulsions and epilepsy. These diseases frequently lead to insanity or cause weak minds. Dr. Miles' Nervine has proven most effective in relieving these dreaded maladies.

Sold by all druggists. If the first bottle fails to benefit your money is returned.
MILES MEDICAL CO., Toronto, Can.

NEW WESTERN HOCKEY LEAGUE AMBITIOUS SCHEME

Frank Patrick Confirms Report—Artificial Rink at Coast and Natural Ice in Alberta.

Frank Patrick last night confirmed the report which was received from Vancouver on Saturday that artificial ice rinks would be built at Vancouver and Victoria and natural ice rinks at Edmonton and Calgary, all of which will be of the most modern type of arenas. Many prominent men in Vancouver and the capital are behind the scheme, including Harry Wright, M. P. P., and a number of ex-residents of Nelson, among whom are: W. G. Gillette, John Dewar and Dr. G. A. B. Hall.

A site has been purchased in Victoria on Fort street, near the exhibition grounds, and on Georgia street, near the horse show building and in the heart of the city of Vancouver. The scheme involves the expenditure of $400,000 and is by far the most ambitious sporting enterprise ever launched in Canada.

It is bound, also, to have its effect on eastern Canada hockey, as there is no question but that a number of eastern stars will be attracted to the new western league teams.

ANOTHER SOCCER MEETING AT Y NEXT WEEK

An enthusiastic meeting of association football players was held in the Y. M. C. A. building last night, at which plans for the coming season's play were discussed. It was finally decided to hold another meeting next week to make definite plans for the year.

NEW Y. M. C. A. BASKET BALL LEAGUE IS FORMED

At a meeting at the Y. M. C. A. last night it was decided to form a senior basket ball league, for which the trophy will be a shield instead of a medal as first suggested. The four teams are the Young Men, the High School, the Business Men and the Professional Men. The first game of the series will take place on Friday night between the High School and the Young Men.

Chronic Bronchitis—Nervous Debility

The sincere words of praise of Miss Sarah G. Bates, who was cured after she had given up all hopes of recovery, are certainly encouraging to all sufferers.

In her letter she says: "I had been sick several years with chronic bronchitis, liver disease and general nervous debility, but could not get any relief until I commenced taking Duffy's Pure Malt Whiskey. Now I am much better and know your valuable medicine is what has caused it. I can recommend it to all sufferers from chronic diseases."—Sarah G. Bates, Arctic, R. I.

When you feel weak and run down and all out of sorts, you need a pure tonic stimulant that will build you up, enrich your blood, quicken your heart action and restore your strength in a healthy manner.

Duffy's Pure Malt Whiskey

the world's greatest medicine, has been doing all this for the past fifty years. It is an absolutely pure, gentle and invigorating stimulant and tonic. It overcomes all weakening, wasting and run-down conditions of the body, brain and muscle, giving the system power to throw off and resist coughs, colds, grip, catarrh, bronchitis, asthma and lung troubles; it is a wonderful remedy in the prevention and cure of consumption, pneumonia, malaria, low fevers and all weakening and wasting conditions if taken as directed.

All liquor dealers, or direct, $1.50 a large bottle. Refuse substitutes and imitations; they are impure and dangerous. Send for medical booklet and doctor's advice, both sent free.
The Duffy Malt Whiskey Co., Rochester, N. Y.

Fertilizer Talk

Swift's Animal Fertilizer adds humus to the soil, furnishes plant food to both young and old orchards, increases the yield of your berries and gives them better flavor; adds to the richness of your apple crop, also increases the yield of potatoes, and gives them a well matured, mealy body.

Remember Swift's Animal Fertilizer in addition to increasing your yields and profits, also strengthens and gives new life to your land. Extensive tests have proved this.

We Have Several Houses to Rent

For Exchange

Some choice lots in Calgary, the fastest growing city in Alberta.

Population now 55,000.

Will exchange for fruit lands.

WINNIPEG MARKET IS JERKY AND ERRATIC

WINNIPEG, March 14.—The morning market was jerky and erratic, opened practically unchanged, but gaining firmness until it closed strong. Winnipeg May sold at 93c to 93⅝c, an advance of ⅜c over yesterday's close, but dropping to 92⅝c at the finish. Cables came ¼d lower at the opening and declined to ⅝-½d lower at the close.

American markets closed strong from an almost unchanged opening. This, despite the fact that foreign crop reports were decidedly optimistic and that United States crop conditions are such that nothing short of a calamity will be expected to cause a shortage.

Winnipeg May closed ½c higher than yesterday, July ⅝c higher and October ¾c higher. Minneapolis showed strength, May closing ⅞c higher, July ⅝c higher and September ⅞c higher. Chicago May closed ⅞c higher, July ⅝c higher and September ¾c higher. Export bids in wheat were out of line though some oats were worked in of line though some oats were worked in 1 to 2 points. The indifference with which the market yesterday received word of the supreme court decision, upholding the corporation tax law, encouraged bull operators. Conditions in the money market continued to favor flotation of new capital, and the readiness with which several new issues were absorbed gave further impetus to the day's activities. The metal stocks, which of late have lagged behind, were active and strong today. United States Steel was in steady demand at higher prices, and Amalgamated Copper was the best gain of several days. Canadian Pacific again made a new high record. Pittsburg reported another advance in the price of tin plate. Some grades of pig iron also are being held for higher rates. The bond market was firm. Total sales par value $2,554,000.

WANTS TO PURCHASE COURT HOUSE PROPERTY

(Special to The Daily News.)

VANCOUVER, B. C., March 14—Tenders for the purchase of the old court house property here are now being asked for by the provincial government to be in by April 22. Payment of the property will be accepted in installments, the first to be paid within 40 days of the acceptance of any particular tender. The property fronts on four streets. It is stated that the prospects of the city securing the site are still bright and that efforts will not be relinquished by the special committee.

WINNIPEG ELECTRIC ADVANCES

WINNIPEG, March 14.—The Montreal market gave more attention to Winnipeg Electric today, when an advance of 2½ points was registered in the sale of a small lot. Yesterday's high points was 190¼, so that the advance represents a gain of more than four points. The presumption is that eastern brokers look upon the negotiations with the city as furnishing to the company an easy way out of its difficulties.

BULLS ENCOURAGED AND PRICES ADVANCED

NEW YORK, March 14.—The stock market awoke today from its long period of inactivity and under the inspiring influence of an aggressive movement prices advanced almost buoyantly. The movement was broader and more active than for some time past. Orders came from quarters which are peculiarly associated with some of the most important factors in financial affairs and there was some revival also of investment demand. Most of the buying seemed to be for the long account, although as the day wore on there were increasing symptoms of distress among the traders on the short side who were forced to cover extensively at constantly advancing prices. The ease with which prices were marked up and the contraction in the supply of loanable stock apparently bore out the assumption that the market had been oversold. Demand slackened in the afternoon and the market became comparatively dull. Prices eased off somewhat toward the close in response to profit taking but soon recovered and the greater part of the day's gains were maintained, advances of the better known issues ranging usually from

EXECUTIVE BUSY

TORONTO, March 14—Preparatory to the opening of the A.O.U.W. grand lodge tomorrow the executive put in a busy day considering and deciding on recommendations of the standing committees, that are to come before the lodge. The grand officers' reports show that 566 death claims were paid during 1910, amounting to $1,032,9441. The average of members who died was 61 years, 2 months and 2 days.

Corporation of the City of Nelson

NOTICE

Notice is hereby given that under the provisions of Bylaw No. 80, "Pound and Dog Tax Bylaw," it is unlawful for any person to suffer any horse, mule, bull or cow, sheep, goat, pig, or other cattle, or poultry to run at large within the limits of the city of Nelson.

Every owner, possessor or harborer of a dog in the city of Nelson is required to pay annually a tax of two dollars for each dog, and a tax of five dollars for every bitch owned by him.

No person shall suffer or permit his dog to run or be at large in the city of Nelson for which such person has not paid the tax required by him unless such dog shall have round his neck a collar or strap to which shall be attached a metallic plate to be supplied by the city on payment of the said tax.

Warning is hereby given that any person guilty of an infraction or violation of any of the provisions of the above named by law is, in addition to the fees and charges set forth herein, liable upon summary conviction to a penalty of One Hundred Dollars and the costs of prosecution, and in default of payment to imprisonment for a term not exceeding two months.

By order,

W. E. WASSON,
City Clerk.

Nelson, B.C., March 14, 1911.

YANKEE GOLD MINES, LIMITED,
Ymir, B.C.
FIRST
SECOND

The name of this corporation shall be, Yankee Gold Mines, Limited.

The purposes for which this corporation is formed are: To acquire by purchase, lease, location or otherwise, all classes of mines and mining properties containing copper, nickel, gold, silver or other precious or base metals. To acquire by purchase, lease, location or otherwise properties containing deposits of clays, stones, coal, oil and other substances.

To develop and operate mining properties and mines; to carry on the business of mining, converting, milling, reducing, smelting, treating, preparing for market, manufacturing, buying, selling and otherwise producing and dealing in ores of gold, silver, copper, iron, zinc, nickel and lead; to acquire by purchase, lease, location or otherwise mineral claims, metalliferous lands, mining and water rights and privileges, mill sites, timber lands, lime and stone quarries, lumber yards, brick yards, and coal lands of every class and description. To build, equip and operate mills and other plans for the smelting, reduction and treatment of ores of all kinds and description. To buy, sell, manufacture and deal in machinery, blasting powder of all descriptions, dynamite, fuses, caps, candles, implements and conveniences suitable to or convenient for use in connection with the business of the company.

To purchase, construct, erect, lease, own and operate pumping plants, pipe lines, reservoirs, canals, water ways and ditches for the transmission of power, sewerage and conveyance of water for use of the company in conducting its business and for the sale and delivery of such water to others.

To build, purchase, sell and operate electric, steam or other plants for the production of power and light, together with the necessary wire lines and other means of transmission of light and power, the same to be generated for the use of the company, or for the sale of such light and power to others. 22-2-11-30d.

NOTICE TO CONTRACTORS

Court House, Grand Forks

Sealed tenders, superscribed "Tender for Grand Forks Courthouse," will be received by the Honorable the Minister of Public Works up to noon of Monday, the 3rd day of April, 1911, for the erection and completion of a new courthouse at Grand Forks, B.C.

Plans, specifications, contract, and forms of tender may be seen on and after the 13th day of March, 1911, at the offices of the Government Agents at Grand Forks and Nelson, and at the office of Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of $2,000, which will be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer shall furnish a bond of a guarantee company satisfactory to the Minister of Public Works, in the sum of $5,000 for the due fulfilment of the contract.

Tenders will not be considered unless made out on the forms supplied, signed by the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer.

Department of Public Works,
Victoria, B.C., March 8th, 1911. 279

NOTICE.

Tenders will be received by the undersigned up to the 22nd day of April, 1911, at 5 p.m. for the purchase of Block 27, Subdivision of Lot No. 541, Group 1, New Westminster district, situated in the city of Vancouver, and being the site of the old municipal courthouse. Each tender must be enclosed in a registered letter and must be addressed to the undersigned, and plainly marked "Tender for old Vancouver Courthouse Site," and must be accompanied by an accepted cheque for 10 per cent of the first payment of the purchase money. Payment for the property will be accepted in instalments of one-quarter of the purchase money. The first of such instalments to be paid within 30 days after the acceptance of the tender, and the other three annually thereafter, with interest at the rate of 6 per cent per annum. In the event of the person whose tender is accepting failing to complete the first instalment within 30 days of the notice of such acceptance the sale to him will be cancelled and his 10 per cent deposit forfeited. The cheques of the unsuccessful tenderers will be returned. The highest or any tender will not necessarily be accepted. No commission of any kind will be allowed.

WILLIAM R. ROSS,
Minister of Lands.

Department of Lands,
Victoria, B.C., March 7, 1911. 279

Application for Transfer of Liquor License

Notice is hereby given that on the first day of April next application will be made to the Superintendent of Provincial Police for the transfer of the license for the sale of liquor by retail in and upon the premises known as the Leland Hotel, situated at Nakusp, British Columbia, from Ogilvie & McKitrick to James Snedden, of British Columbia.

Dated this 28th day of February, 1911.

Signed, OGILVIE & McKITRICK,
268-30d JAMES SNEDDEN

Gasoline Engines

MARINE AND STATIONARY

If you want an engine with the power, high class material and first class workmanship, call and inspect the Barber. They are in a class by themselves. You don't know the pleasure of boating until you install a Barber engine. They are built in all sizes from 1 to 6 cylinder, 2½ to 100 H. P., high speed, medium or heavy duty. Call or write for catalogue, and let me quote you prices on either a marine or stationary. They are a high grade engine, at a reasonable price, and they are guaranteed to do their duty.

I keep a full supply of dry batteries, direct from the factory. I test and guarantee them to register over 20 amperes before leaving the store; also a variety of pocket flashlights and batteries, and everything for motor boats.

CENSUS MAN IS APPOINTED HERE

A. B. Docksteader is Commissioner for This portion of Kootenay Riding —De Jure System

A. B. Docksteader, the well known insurance man of Nelson, has been appointed census commissioner for the western division of the Kootenay riding. He will proceed immediately to appoint some seven or eight assistants to help in carrying out the work which will commence on June 1 next and continue for about one month.

Copies of Hansard just to hand contain the information that, as on former occasions, the de jure system of obtaining census figures will be adopted. The de jure mode means that the census commissioners and assistant commissioners will personally visit each residence in the district and during the month of June collect all necessary information. The de facto system is that in use in England whereby forms are distributed the day before the date appointed for the taking of the census, the commissioners calling the next day and taking the forms filled in by the various persons to whom they have been given.

While the de facto system is generally considered to be the best means of obtaining correct figures as to the population the de jure system is said to be necessary in Canada owing to the large amount of other and more general information required.

TRY MARSH GRASS ON WATER FRONT

Ex-Ald. Rutherford Would Convert Mud Banks Into Grassy Slopes—Will Suggest it on Friday

"Every citizen should attend the meeting called for Friday night at the city hall, to consider the question of a scheme of beautifying the city," said W. Rutherford, yesterday afternoon. "There is ample scope for the efforts of all concerned.

"At the city park last year, when I was a member of the city council, and chairman of the parks and cemetery committee, we planted out 100 shade trees in clumps, filling up the bare spots and leaving a good open space in the centre as a sports ground. These trees were foreign varieties of maple.

"One of the sections of the city on which we could concentrate the powers of our united brains, is the water front. Look at the expanse between the approach to the city wharf and where the boathouse locality ends and the C.P.R. property begins, and the ugly appearance it presents in the low water season. There is no doubt that some kind of marsh grass or other vegetation could be found which would transform these unsightly mud banks, so that the water would recede only to reveal banks of green. With grassy slopes filling up the area from the railway track down to and among the boat house walks, the water front would have a distinct scenic effect. It is one of our most valuable assets today.

"One does not have to rack his brain particularly to find spots that might be improved. Both public and private enterprise, if brought to bear on this problem, would result in improvement that would be ample return for any slight outlay."

NELSON NEWS OF THE DAY

(Additional News Notes on Page Eight.)

Mrs. F. E. Morrison will not receive today.

Mrs. Sydney Haydon will not receive today, nor again this season.

The winning number in the draw at Weir's store on Saturday was 2006.

The annual meeting of the Sunset Mills will be held today at the office of Wolverton & Co.

The regular review of Aberdeen Hive No. 12, L.O.T.M., will meet in the K. P. hall this evening at 8 o'clock.

There will be a meeting of the Retail Merchants' association in the board of trade rooms this evening at 8 o'clock.

The first annual ball of the Ancient Order of Foresters will be held on March 27 in Eagle hall. Participation will be by invitation.

A special meeting of the Charity organization will be held in the Y.M.C.A. parlors on Friday at 3 o'clock. Important business is to be discussed.

Miss Ellen Lapointe, who suffered a broken leg through being run into by an unknown party of bob-sleighers about six weeks ago, is completely recovered.

B. A. Isaac, of the Nelson Iron Works, who has been in the old country for the past few months, is expected back to attend the annual meeting of the company next month.

General interest is being manifested in the meeting of the citizens called for Friday night at the city hall, to consider plans for beautifying the city. All interested are desired to attend.

At the monthly meeting of the Nelson Liberal association, on Friday night, the reciprocity question will be under discussion. W. B. Farris and E. Ferguson have been appointed to lead the respective sides.

Ald. George Ferguson of the Nelson Transfer Company, Limited, is proposing to make a second trip to the prairies for the purpose of puchasing another carload of horses about the beginning of next week.

Our Sale will continue until every yard of dress goods is sold. Mr. and Mrs. Flint, 612 Baker street. 201-tf.

JAM COMPANY DECIDES TO MOVE TO THE COAST

Find Supply of Fruit Insufficient for Growing Concern—Good Opening for New Factory

In order that they may enlarge their operations and increase their output the Kootenay Jam company has decided to move to the coast and have sold their factory to members of the Doukhobor settlement at Brilliant who will use the building as a warehouse. The chief reason for this change is, that while the operations of the company during the past two seasons have shown a very satisfactory financial return it is thought that the supply of small fruit to be obtained at the coast would be much larger than that for sale here. The rapid development of the ranches of the Kootenay since the Kootenay Jam factory commenced operations has resulted in many of the growers turning their attention, as their orchards came into bearing, to apples instead of to small fruits such as strawberries and raspberries. The company also state that they propose to shortly commence the manufacture of other products such as cocoa and chocolate, the raw materials for which can be more advantageously obtained near a seaport than in the interior.

It is thought likely that a new factory will be placed in operation here shortly as during the time that the Kootenay Jam company has been in business in Nelson the financial results have been most encouraging and although the supply of small fruits may have diminished somewhat it is believed by those well acquainted with local conditions that sufficient raw material could be obtained to keep a factory of the capacity of the present one fully engaged for the greater part of the year. A statement given out yesterday by the company reads as follows:

"In announcing that preparations are being made whereby the factory and business of the Kootenay Jam Co., Ltd., will in the near future be transferred to the coast, the company desire to give expression to the regret with which they contemplate departing from the city of Nelson. Such a departure, however, is dictated by reasons which the company is unable to ignore and amongst the chief of which is the fact that the company has not been able to obtain all the supplies of raw material necessary for a growing concern; this more particularly refers to small fruits, the tonnage of which instead of increasing has, since the company started operations in this city somewhat decreased; owing to the fact that the fruit growers are confining their attention more and more to larger fruits, such as apples, in preference to berries and other small varieties; but as 75 per cent of the trade in preserves consists of demands for those goods made from small fruits, the company is obliged to locate where a constant supply of such material is more readily obtainable.

"Apart, however, from the question of the fruit supply, that of general charges in operation and cost of transportation are materially influencing the company in this matter, as, by virtue of their position, the coast cities naturally possess certain advantages for manufacturing purposes to which the interior has not yet attained, but which the company must secure. The company also intends to immediately extend their operations to a considerable extent and are about to enlarge their activities by adding a branch for the manufacture of cocoa and chocolate, and lay down a plant for making card boxes of all descriptions, to which will be added an import and export department. In carefully considering all these plans, however, the company reluctantly decided that a fresh location for the factory was necessary in order that all imported raw materials might be landed at the factory doors without trans-shipment and as economically as possible, and it is therefore strictly in accordance with these first business principles of lowering cost of production as much as possible, that is inducing the Kootenay Jam Co., Ltd., to make arrangements to move their premises from Nelson to the coast."

The Strength of Fit-Reform Is the Weakness of the Tailor

Specialization in Tailoring is at once the strength of Fit Reform and the weakness of the custom tailor.

Every man in the Fit Reform corps is a skilled tailor—a master tailor—who devotes his talents to doing one individual part of the work of designing, cutting, shaping or hand stitching.

It is but natural that a number of experts—each doing one part of the work—will complete the garments quicker and better than one tailor who must measure, design, cut, sew, wait on customers and keep books.

The Morning Coat and Frock Coat shown above, exemplify the perfection and economy of the Fit Reform system.

NELSON NEWS OF THE DAY

(Additional News Notes on Page Seven.)

The Y.M.C.A. pyramid group will meet at noon today.

D. St. Denis of Slocan City is at the Hume.

The drill team of the Rebekahs are asked to meet in the lodge room this evening at 8 o'clock.

The Nelson Male Voice party will meet again this evening at the Y.M.C.A. at 7.30 o'clock, instead of Thursday night.

David Little, superintendent of the Second Relief mine at Erie, is at the Strathcona.

Charles O. Rogers, manager of the Canyon City Lumber company, near Creston, is a guest at the Hume.

G. H. Aylard went out to New Denver yesterday, returning on the evening train and registering at the Hume.

The temperature yesterday reached its maximum figure for the year to date ,the extremes being 29 and 58.

There will be no practice for the "Patience" chorus this evening, but a rehearsal will be held on Thursday evening instead, at the Y.M.C.A.

The Nephetos Bible class will hold their business meeting this evening at 8 o'clock, at the Baptist church. All ladies are welcome.

There was a large crowd of dancers at the Rebekahs ball given in the I.O.O.F hall last night, and the event proved one of the most successful lodge affairs of the season.

A. McRae, manager of the Dominion Sawmill company's mill at Revelstoke, reached the city last night and is a guest at the Strathcona. He leaves this morning for Spokane.

Frederick John Minett was quietly married at Trinity parsonage on Monday night to Miss Lena Rodsett, Rev. J. P. Westman officiating. The happy couple, who were both of Nelson, left yesterday morning for Lethbridge, where they will make their home.

The Ladies' Aid of the Baptist church are holding a St. Patrick's social on Friday evening at the home of Mrs. Graves, corner of Latimer and Ward streets. A musical program has been arranged, and refreshments will be served, the proceeds to be in aid of the organ fund.

Everybody come to the St. Patrick's social on Friday night at the home of Mrs. Graves, Latimer and Ward streets. Admission 25 cents. 281-3

AT THE THEATRES

Some excellent subjects are included in the change of program at the Gem theatre this evening, amongst them being another series of "The Italian Army," pictures which have been highly spoken of. "The Last Laugh" is a Reliance feature, taken in the wilds of Alaska. The picturesque elements contained in this film are of more than ordinary interest. "Maid or Man," an Imp farce comedy of the best type, with a series of very funny situations, and "The Troubles of a Trip."

The change of program at the Empire theatre this evening includes a most exciting film entitled "In the Czar's Name." "Trials of Bud Brown" is an excellent Bison Western film, and "Only in the Way" is a picture that appeals to one and all.

BIG CROWD ATTENDS ROLLER RINK CARNIVAL

The carnival at the roller rink last evening was patronized by a large number of skaters and spectators and proved most successful in every particular. The judges were three commercial men, entire strangers in the city, Harry Passono, representing C. P. Walker, Winnipeg; George C. Taylor, representing R. G. Dun & Co., and J. F. Venables, representing the John Vittucci company, Vancouver. The costumes in general were good and in consequence it was a difficult task for the judges to decide. To pick the ladies' comic costume was most difficult as there were none in that line, most of them being rather original than strictly comic. The winners were: Ladies' first prize for best costume, ladies' hair dressing set, Miss Daisy Thompson, as Cupid. Honorary mention, Miss Ronmark, as Sorority girl. Ladies' second prize, the most comic dressed lady, a handbag, Miss Violet Wilson, as Nelson Daily News. Honorary mention, Belle Lucia, as Dutch girl. Gentlemen's first prize for the best costume, a gold-mounted umbrella, A. McGill, as Spanish cavalier; honorary mention, Pat Gilmour, as Scotchman. Second prize, for best comic gentleman's costume, a detachable handled umbrella, M. Toll, as a Dutchman; honorary mention, R. J. Campbell, as a scarecrow. The band played till 10:30 and will be in attendance again on Friday evening.

TO REVISE BALL RULES

CINCINNATI, March 14.—The National baseball commission made a recommendation to the National and American leagues of the National association today to arrange section one of article seven of the National agreement so as to make it compulsory for teams to render a contract to its players previous to Feb. 1 of each year. Heretofore this date has been fixed at March 1, and in case no contract is tendered a player by that time the player is declared a free agent. Until such change is made, however, the commission rules that the player does not necessarily have to receive his contract by March 1, but the contract must be in the mails by that time.

SPOKANE INAUGURATES COMMISSION GOVERNMENT

SPOKANE, Wash., March 14.—The commission form of government for the city of Spokane was today inaugurated, when the first board of five commissioners elected last Tuesday assumed control. Rev. William J. Hindley, a Congregational minister, was elected mayor, and former comptroller Robert Fairley was made commissioner of finance, Seora L. Hayden, a lumberman, took charge of public safety, Charles M. Fassett, president of the chamber of commerce, will direct utilities. David Coates, formerly governor of Colorado, now a Socialist editor, will have charge of public works.

AVIATOR'S BODY FOUND

OSTEND, Belgium, March 14. A body was brought to the surface in this harbor today which is thought to be that of Cecil Grace, the aviator, who was lost last September while attempting a return aeroplane flight from Calais to Dover. Although greatly disfigured, the body is said by those who examined it, to resemble that of the luckless English aviator.

TEMPLEMAN READY TO TESTIFY BEFORE COMMISSION

VANCOUVER, B. C., March 14—Hon. William Templeman arrived in Vancouver from Ottawa today to testify before the royal commission on Chinese immigration. The commission will resume its sessions on Friday morning. It is probable that F. C. T. O'Hara, chief controller of Chinese, who came with Mr. Templeman will also testify.

KOOTENAY VERSUS CALIFORNIA SPORT

Herbert Lindsay Moralizes on Advantages of This Locality After Six Winters in Balmy Clime

"Six seasons I have gone to California for the winter holiday. I have taken in all its famous resorts, and three different seasons I have fished for tuna, yellowtail, and barracouta off Santa Catalina island. I have seen the vaunted marine gardens. I have picked the abalone shells from the sea-bottom. I have seen the holiday attractions the cities, both coast and interior, have to offer. The plain truth is, California has the name, and gets the tourists, and the game of playing the tourist for a sucker has been worked down to a fine finish."

Herbert L. Lindsay, who spent the winter in California, principally at Los Angeles, Santiago, and Santa Catalina island, returned to Nelson on Monday night, and yesterday, in the course of a conversation, intimated his views as above. With all its faults, it must be said that California agrees with Mr. Lindsay. However, he continued:

"No one who has seen the marine gardens of Santa Catalina, and those near Victoria, can say that in that feature the *British Columbia city is one whit inferior* to the famous California resort. Yet to the southern one the holiday-seekers flock, and pay 25 cents apiece for Abalone shells which divers bring up from the bottom said Abalone shells having previously been dumped there for that purpose. If all the abalone shells brought up for visitors had rightfully belonged on that particular stretch of sea-bottom, there would be no industry left, the bottom would be so deep. Everything else is on the same scale, everything is graft, the tourist is stuck at every opportunity. While there are honorable exceptions, the general idea is to make the visitor pay an exhoribant price for his fun, and, more or less, this principal prevails in the various cities and smaller communities that cater to the tourist trade.

"It is sport in a way to land a tuna—after a fight of hours that consists in the tuna hauling you around as a dead weight, no action to it. But it is several times the sport to land a Kootenay lake landlocked salmon or lake trout. I tell you, the Kootenay is the place where the tourist gets real value for his money, and splendid value at that. What finer sport *is there in the world than is to be had in* Kootenay waters during the fishing season, and where can it be so cheaply indulged in The Kootenay is a paradise for the sportsman, and he has to spend no fortune, either, to enjoy it."

Mr. Lindsay will resume his real estate business, have subdivisions at Crawford Bay and Argenta, on Kootenay lake, which are on the market.

CONCERT PROGRAM NEARS COMPLETION

Many Special Features Are Being Prepared for First Appearance of Male Voice Party

The program for the grand concert of *the Male Voice Party on Wednesday evening*, March 29, is near completion. The event will certainly be one of the musical features of the season. Half a dozen stirring choruses will be rendered by a body of 45 excellent voices. This will also be the occasion of the first appearance in Nelson of the Anglo-Canadian quartette, which will be heard in delightful melody. The soloists will also be worthy of the occasion, and one of the features of the evening will be the rendering by a talented young soprano of two beautiful old songs, set to a humming accompaniment, by the choir, the result, it need hardly be said, being very effective. Tickets for this concert are now on sale.

LOCATE BIG STEEL PLANT AT PORT MANN

TORONTO, March 14—Negotiations are being conducted by the Canadian Northern railway and the British Columbia Steel corporation, capitalized at *$10,000,000 for the location* of its big steel plant at Port Mann. P. Gillies, who is conversant with the details of the plan, stated yesterday that work would be commenced at once. Sufficient capital has been subscribed for the first unit of the plant. Eighteen months will be required to put the works in running order. Water power will be generated on a large scale and a great deal of smelting will be carried on by electricity. The corporation has secured coal and iron deposits within a radius of 30 to 60 miles of the plant.

DON'T WANT CANADIAN CITIES IN THE MINNIE LEAGUE

ROCHESTER, Minn., March 14—At the organization meeting of the Minnie league here today no attention was paid to overtures on the part of two Canadian cities for admission, all the old clubs retaining their franchises.
