VOL. 8 NELSON B. C. FRIDAY MORNING, JULY 30, 1909 NO. 86

ALL ANARCHY

Mobs in Spanish Cities are Raked by Cannon Fire

INSURRECTION SPREADS

SPAIN DEVASTATED BY SANGUINARY REVOLUTION—GOVERNMENT ATTEMPS TO SUPPRESS OUTBREAKS WITH IRON HAND—DIPLOMATIC ANXIETY

LONDON, July 29 — The desperate condition of Spain, both at home and abroad was disclosed today when the Spanish government officially admitted the defeat of the government troops in a great battle in Morocco and for some time reports showed that Barcelona was completely in the hands of the revolutionary mob, the streets running with blood, and that the Spanish were still using machine guns in a vain attempt to check the onslaught of the reactionary element. The battle in Morocco has brought a crushing defeat to the Spanish forces. The casualties on the Spanish side reach 3000, giving the defeat an aspect akin to that which the Italians met in invading Abyssinia. The Moors, flushed with their victory, are advancing to attack the Spanish at a strategic point, Alhusemas.

The latest despatches indicate that Melilla, the stronghold of the Spanish, is so hard pressed by the Moorish forces, that its safety is in danger and its capitulation to the Moors would not cause surprise. The internal conditions of Spain are bordering on anarchy. Barcelona, the second largest city of Spain, and the commercial center of Madrid, are centers of riot, pillage, the burning of public and religious institutions and continued bloody fighting between the Spanish troops and rioters, entrenched behind high barricades.

BIARRITZ, near Spanish Frontier, July 29—The desperate condition of affairs at Barcelona is shown in reports received from the disturbed city. It shows that the revolutionists hold the upper hand. The government troops are insufficient to get command of the situation. The streets of the city are barricaded with huge piles of stone and earth. Furniture and planks are heaped in these barricades to the height of the first storey of the houses. The arrival of reinforcements is certainly needed but the government force is retarded by the destruction to railroads. The revolutionists are heavily armed with muskets, knives and revolvers. They have an effective organization and hospital equipment which promptly looks after the dead and wounded. With the arrival of reinforcements, which the government succeeded in getting through yesterday, the inhabitants were warned to keep within doors for the succeeding 24 hours. The peaceably disposed heeded this warning, while the artillery of the government forces raked the streets where barricades had been erected, causing great havoc and in some cases demolishing them.

The government is now seeking to relieve the city by sea now that the land communication of the troops is interrupted. All available ships are being hurried to Barcelona. Whether there is an ulterior political purpose behind the revolutionary uprising in Catalonia is not yet clear. Outwardly the movement is thus far a protest against the government's policy in Morocco and its levy of a large reserve for war purposes.

LONDON, July 29 — Special advices from Biarritz, near the Spanish frontier, state that the situation at Barcelona is rendered desperate by the absence of a sufficient military force capable of putting down the revolutionists. This condition results from the disatch of all available troops to Melilla. The garrisons throughout Catalonia have thus been reduced to 6000 men, while the revolutionists at Barcelona and adjacent towns far exceed that number. The government forces are also scattered by the need of quelling outbreaks at many points. The isolation of the province, owing to the destruction of the railways, gave the revolutionary element and strikers 48 hours to make uninterrupted preparations to cut off the arrival of reinforcements. They are thus masters of the situation. The line from Madrid to Barcelona is a scene of desolation. Trenches many feet wide have been cut across railway embankments in the country districts. The small bridges spanning the streets in several towns, have been pulled down.

Fierce engagements are in progress throughout Barcelona. The military has been used against the barricades but the troops have made little progress in quelling the revolution. Attempts on the captain general continue as he disposes the position of the troops. The government forces, failing to make any headway, have been obliged to act on the defensive, attacking only when absolutely compelled by the menacing position of the revolutionists. The law abiding element is under orders to remain indoors. The artillery is in position along the avenues and central quarters. The terror stricken people are fleeing from the larger towns to the open country and the small villages, where there is less exposure to danger. The situation is further complicated by the general strike ordered by the labor organizations of Barcelona two days ago. The indications are that the strike will spread to the provinces of Lorna, Georna and Tarragona, but no definite news has been received from these points.

MADRID, July 29—In view of the grave situation in Barcelona, which is growing more serious, the naval infantry has been ordered to that city. Minister of the interior Treboff today ordered that any newspaper printing reports disagreeing with official information should be punished and editions suppressed.

A statement was issued this morning by the ministry of finance designed to stop the fall of Spanish securities. It says that the treasury balance is $18,000,000, of which $13,500,000 is in gold. Extraordinary taxes are contemplated.

Since the declaration of martial law throughout Spain yesterday the censorship over news has been more severe. The complete mobilization of the Spanish army has been ordered. All officers on leave have been recalled. The reserves of all classes have been summoned to the colors. The railroad lines in the north of Spain are strictly guarded and no one is allowed to enter Spain without the permission of the military authorities. The garrison at Burgos, Legriffo, Vittori and other towns are under arms. The censor forbids telegraphic communications with Bilbao.

Royalty is hastily returning to Madrid from San Sebastian. It is reported that premier Maura has tendered his resignation but king Alfonso has declined to accept it.

PARIS, July 29—The internal situation in Spain now completely overshadows the war in Africa in the eyes of Europe. Although official dispatches received here from Madrid predict an early restoration of order in the province of Catalonia, grave fears are entertained. The decision of premier Maura's cabinet yesterday to place the country under martial law and employ the army to repress the revolution is also causing much alarm.

Preparations now being made in Madrid to quell the disturbances include the dispatch to Catalonia of the entire third and fourth army corps and the Madrid cavalry brigade under command of prince Charles of Bourbon, who was about to leave for Melilla. Prince Ferdinand of Bavaria was one of the squadron commanders of this brigade.

Reports leave little doubt that the workingmen's organizations and revolutionists and anarchists have made a common cause in old Catalonia, and that thus far they have had the best of the situation. The withdrawal of troops for the campaign in Catalonia left less than 5000 men in Barcelona garison and the infuriated mobs after committing all kinds of excesses, including the burning and sacking of church property, everywhere erected barricades to hold their positions.

PARIS, July 29—Special despatches received here today say that the fighting yesterday at Barcelona was more sanguinary than previous dispatches indicated. Machine guns and grape were used against the rioters. The sidewalks and buildings are saturated with blood of victims. Everywhere women and children are wandering in search of their husbands and fathers. Immediarfess is rampant.

MADRID, July 29—The military governor of Barcelona today published a decree ordering the inhabitants of the city to return to their homes. After 24 hours any one found in the streets is liable to be shot on sight.

CERBERA, France, on the Spanishh frontier, July 29—Spanish couriers arriving here today report that artillery is battering the barricades behind which the insurgents are desperately fighting in Barcelona. Heavy firing is now in progress on the Rambla and the gutters are running with blood. The number of dead and wounded cannot be estimated, but it is believed to be very heavy. Five convents and several private residences have been burned at Lorca.

Grave events are anticipated at Figueras, a town 21 miles from Gerona. Comparative calm had been restored, when orders were issued to the recruits to report for duty. The entire population is preparing to resist. The Post Bou express left Figueras this morning but it was stopped at Llansona where the track had been blown up. At Junqueen, a small town, 38 miles northeast of Gerona, 60 poles have been cut down.

Business is at a complete standstill. The merchants are panic stricken and are placing their funds in foreign banks for safe keeping. Many instances of soldiers refusing to fire on the mobs are reported. A lieutenant of infantry threatened to shoot a policeman who was about to fire his revolver into the crowd. Reports from the interior say that the situation is constantly growing more alarming. A mob including many soldiers, is reported to have made a manifestation before the royal palace at Madrid, crying "down with the war."

LONDON, July 29—Information received through diplomatic channels in London, leads to accentuate the gravity of the situation in Spain. It is intimated that there is reason to fear the garrison at Madrid itself has been tampered with by the insurrectionists.

MADRID, July 29—The official despatches received here today admit that the battle between the Moorish tribesmen and the Spanish forces outside Melilla on July 27 was a disastrous defeat. The Moors cut off the communications with the Spanish outposts and the main force of the Spaniards were driven back under the walls of the city where fighting continued desperately. The Spanish killed and wounded number nearly 3000 which takes no account of the men at the advance posts who evidently were cut off and abandoned to their fate. Melilla is full of wounded men.

The extent of the disaster is plainly apparently from general Marina's despatch as given out at the war office

GREAT RECORD

List of Canadian Winnings at Bisley Meeting

ELEVEN MATCH VICTORIES

THE CASH WINNINGS TOTAL FOUR THOUSAND FIVE HUNDRED DOLLARS—SERGT. BLACKBURN IN LEAD WITH LIEUT. MORRIS IN SECOND PLACE

(Canadian Associated Press.)

BISLEY, July 29—The National Rifle association shoot, which has just been concluded here, has been, from a Canadian point of view, the most successful ever held. Trophy after trophy has been won by the Dominion marksmen, and their winnings in cash have totalled $4,540, a record which has never been equalled by any other aggregation of colonial rifle experts. Of this sum $2,525 has been won individually and $2,015 for the Canadian team.

The cups and other trophies won by Canadians in the various matches are 11 in number as follows: Mackinnon cup; Kolapore cup; the Jubilee, for highest aggregate in Mackinnon and Kolapore; Prince of Wales prize, won by Sergt. Blackburn, 90th, Winnipeg; Daily Graphic prize, won by Sergt. Smith, Ottawa; All Comers' Aggregate, won by Sergt. Richardson, Victoria; the Wimbleton, won by Sergt. Bayles, Toronto; Birmingham Metal & Munition company's silver cup, won by Sergt. Blackburn, 90th, Winnipeg; Standard of Empire, won by Lieut. Morris of Bowmanville; Wisgrave cup, won by Sergt. Blackburn, 90th, Winnipeg; Martini's Challenge cup, won by Sergt. Blackburn, 90th, Winnipeg.

The cash winnings in pounds and shillings are as follows:

	Indiv. Wins	Won for Team
Corp. G. Capping	£12 10s	£ 2
Sergt.-Major G. Creighton		4
Capt. W. H. Forest	15	12
Col.-Sergt. J. Freeborn	7 1s	10

THINK THEY ARE ROBBED

EXPLANATION OF INDIAN UNREST ON SKEENA

RED MEN PROTEST AGAINST THE WHITE INVASION

(Western Associated Press.)

OTTAWA, July 29—Official investigation shows that the condition of unrest amongst the Indians of British Columbia is due to the protest of the red men against the invasion of the white man into his ancient land. One or two of the chiefs, led by a man named Capilano are endeavoring to convince the Indians that they are to be robbed of their lands, which have not all been mapped out as reserves.

Some years ago Capilano went to England to interview king Edward but did not see his majesty; since then the influence of the white men in northern British Columbia has greatly increased and the Indians are less able to understand their position. The Indian department accordingly has sent out two commissioners, Messrs Vowell and Stewart, and they are now at Hazelton completing the reserves. The department takes the ground that if the white men stake on Indian land the enforcement of the law against him lies with the provincial government. However, there is no anticipation of any serious trouble.

ELECTROCUTED

Touches Switch and 500 Volts Past Through Body

THREE RIVERS, Que., July 29—Philippe Bellefoullle of the Three Rivers Steam laundry company lost his life at the laundry at 7 o'clock this evening. For some months past this industry has been run by electricity. Mr. Bellefoullle accidentally got against the switch and 500 volts passed through his body and death was almost instantaneous. His young son, who tried to free him from the switch, was seriously burned about the arms.

Aerial Items

WASHINGTON, July 29 — Orveille Wright's cross country flight, has been postponed owing to unfavorable weather conditions.

CALAIS, July 29—Hubert Latham and count de Lambert, the French aeronauts, are shipping their machines to Rheims and it is understood that they have abandoned the idea of making any further attempts to cross the English channel until after "aviation week," which is in the latter part of August.

HE TALKS OF KOOTENAY

LEWIS HALL OF NEW YORK ON GENERAL PROSPECTS

IS GREATLY PLEASED WITH MINING CONDITIONS

"In 1890 I passed through Nelson and I am both astonished and delighted, after a visit extending over three months, to see today the tremendous improvements which have taken place in your city during the 12 years which have elapsed since my previous visit." This was the statement made last night by Lewis Hall of New York, who leaves this morning for the east after looking into the mining and timber prospects in Kootenay with a view to interesting American capital in this part of British Columbia. He further stated: "Personally I am charmed with Nelson, its situation, its people, and above all, with the prospects here for advantageous investment.

"In connection with mining properties my first trip was to Sheep creek, which, in my opinion, will certainly 'double discount' both Rossland and Cobalt as a mineral camp. Instead of exorbitant prices being charged as per the Cobalt scale for properties the prices asked, as far as I have seen, are most reasonable, and there is nothing to retard its rapid development except lack of capital, a difficulty which should be easily remedied. Personally I am interested in the Kootenay Belle, Columbia, Golden Belle and Twilight groups at Sheep creek, but since seeing the camp I have come to the conclusion, from investigations I have made of mining properties within a radius of ten miles of Nelson, that Sheep creek is only a beginning of what may be discovered and developed in the Nelson district.

"What strikes me as being one of the most pleasing features about the mining industry in the Nelson district next to the undoubted value of the properties is that so far there is little stock jobbing and company promoting by 'hot air' operators. The industry generally is on a good, sound financial basis, and I feel it safe to predict a great future for the country. All that the investor requires, once he gets acquainted with your mines here, is a reasonable time for the development of the various prospects before large payments are required.

"With regard to Nelson itself I can see no reason why the city should not double its population within the next seven or eight years, for when I was here before the population was not more than 1,500 and it is now 7,000. At that time there was only one small hotel, the Phair, and there was no means whatever, except by walking, to get to it from the Mountain station. Now there are two first-class hotels and a number of minor ones. I mention this growth in hotels because I consider that there can be no greater proof of a city's increasing prosperity than the quality of its hotels.

"One thing which surprised me very much, coming as I do from the east, is to see in this small western town that so many concrete sidewalks are being laid down. It is unnecessary for me to point out the air of prosperity which such improvements give to a city quite apart from their value as sidewalks.

"One of the industries which I have made a study of since coming here has been fruit growing. For that, in line with mining, I can safely prophesy a great and financially successful future. Next to mining I am convinced that the ranching in this vicinity will be quite the largest source, if not without exception the largest source, of revenue to Nelson.

"To return to the question of your methods of civic administration. I am more than delighted to find that the city has a municipally owned power plant and water system, but at the same time I would like to give forth a word of warning on this question of municipal utilities. In both the east and the west I have seen time after time that frequently such systems, even if not proving a failure, have cost the city as a whole far more than a privately owned enterprise would have done. Apart from this there is the question of politics. Frequently, in order to carry favor with certain sections of the community, the party in power makes use of municipal enterprises to give employment to men utterly useless as workers, but who own very valuable votes. As far as Nelson is concerned I have seen enough to know that nothing of this kind is going on at the present moment, but I merely wish to speak what I believe to be a timely word of warning against Nelson rashly embarking upon ill-considered municipal enterprises which could be infinitely more successfully and advantageously managed by private corporations.

"I express these opinions as a Yankee of the Yankees, as for eight generations my family has resided within ten miles of Boston.

"In conclusion I may say that it will not be many years before Nelson, as Spokane is the capital of the Inland Empire of the northwest states, will be the capital of an inland empire not less important and with an equally great annual income and production."

Entire Village in Danger

DANVILLE, Ill., July 29—The village of Pike, Ill., 25 miles from here, on the Wabash, is burning. The fire started in a building on the main street at 3 o'clock this morning and rapidly spread to the adjoining buildings. It is feared that the entire town will be destroyed as it is without adequate fire apparatus.

LUMBER DUTY

Is Definitely Fixed at $1.25 for Rough Material

UNITED STATES TARIFF

PRESIDENT TAFT WON IN FIGHT FOR LOWER LUMBER RATE—FAMOUS PAYNE-ALDRICH BILL NOW STANDS COMPLETE

WASHINGTON, July 29—The Payne-Aldrich tariff bill tonight stands complete. An agreement on all disputed points was reached this afternoon and at 4:55 this evening was signed by the republican committee. It will go to the house tomorrow and be voted on by that body on Sunday. The senate will begin consideration of the measure as agreed to by the conferees on Monday. Halted by the mandate of president Taft the tariff conferees were compelled to turn back and revise their rates on lumber and gloves. The former has now been fixed at $1.25 for rough lumber. In a communication to senator Aldrich and representative Payne the president demanded that high rates on lumber as fixed by the senate should not be made a part of the conferee's report and that hides should be free. After struggling over these questions throughout the entire day the conferees surrendered to the president's views and signed the report. The report will go in the house tomorrow at noon and will be ordered to be printed. The house may be called to meet at 1 o'clock Sunday, for it is the intention of the leaders that the measure be pushed through in one legislative day. Probably a week will be required to dispose of the conference report in the senate. When the conferees fixed the lumber and gloves rates yesterday by shading very slightly the higher rates on each they were so certain that the president would consent to the arrangements that notices were sent to the democratic members of the conference committee to be present at 1 o'clock today to approve or disapprove of the conference report.

FOUND DEAD IN GARDEN

AGED MIDGE CREEK RANCHER DIES AT LONELY HOME

REMAINS DISCOVERED BY MEN LOOKING FOR TIMBER LIMITS

G. W. DeWees, an old timer of the Kootenay, who for some years has lived alone on his pre-emption at the Meadows on Midge creek, near Kootenay landing, was found dead in his garden yesterday afternoon by A. D. Day and Charles Austin.

Mr. Day, who is a resident of Long Prairie, Minnesota, and who is in Kootenay with a view to purchasing timber limits, accompanied by Austin, a timber cruiser, who is travelling with him, left Nelson by the Crow steamer yesterday morning for the purpose of seeing DeWees regarding some timber lands. On arrival there they found DeWees' cabin vacant and looking around found in the garden the body of the proprietor clad in nothing more than a night shirt.

From the appearance of the body the two men concluded that DeWees must have been dead about ten days.

He was a French Canadian, about 75 years of age.

Returning to the city last evening Messrs. Day and Austin immediately notified the provincial police of the affair and coroner W. O. Rose and constable Jensen leave for Midge creek this morning to investigate the matter.

FERN MINE TO REOPEN

NEW LEASE IS TAKEN ON WELL KNOWN PROPERTY

WORK IS TO BE COMENCED ON IT TOMORROW

The news that the Fern mine at Hall siding on the S. F. & N. railway is to be reopened tomorrow by Henry Skaning and J. C. Moen, who have taken a lease and bond on the property from J. J. Campbell and W. C. Baily will be well received by residents of Kootenay.

The Fern is situated on Hall creek, about two miles from the railway, being only 11 miles from Nelson, and is a high grade gold property from which large quantities of ore have been taken in the past. It was first operated by the Fern Gold Mines, Ltd. and produced as high as $30,000 worth of gold per month. It has not, however, been worked to any large extent for seven or eight years.

The old lead is believed to be practically exhausted and it is the intention of the present bondholders to do considerable surface work and to open up a new lead. Much development work will have to be done before the property is again on the producing list and it is expected that it will be at least three months before the mill is running again.

There is a ten stamp mill on the property which will be put into operation as speedily as possible so as to allow of the bulk of the ore being milled. An aerial tramway about 2200 feet in length is also located upon the property connecting the mine with the mill.

The new lessees are sanguine as to the prospects of the new lead containing even richer ore than the old one and express themselves confident of having secured a good property.

A number of men are to be put to work tomorrow and the staff will be considerably increased in the next few weeks.

BIG LAND DEAL CLOSED

TWO THOUSAND ACRES AROUND WHATSHAM LAKE

BEAUTY SPOT FOR WEALTHY SETTLERS

What is probably the largest "spot cash" land deal which has taken place in the interior of British Columbia for many years has just been consummated whereby 2000 acres of land along the shores of Whatsham lake has passed from the hands of F. L. Hammond to those of J. H. Hilrsch of Nelson and P. Grim and S. P. Morse of Billings, Mont. The price was $45,000 and was fully paid up on the conclusion of the deal.

Whatsham lake really consists of three lakes joined by narrows and is situated parallel with the Arrow lakes at a distance of about 45 miles. For the past three years Mr. Hammond has made a practice of spending the summer vacation there, camping and fishing. He stated yesterday that the trout fishing in that district was the best he had ever experienced in British Columbia and that he seldom spent a day without catching from 30 to 50 fine fish. The scenery is said to be incomparable.

It is the intention of the new owners to colonize the land, which runs for 14 miles along the lake shore, with families who are sufficiently well financially situated to build up a great ranching settlement while at the same time depriving the country of none of its natural beauties. It is hoped that the present park like appearance of the lake will be retained, improved only by the addition of a prosperous fruit growing community with sufficient love of nature to wish to live amidst the fresh unspoilt wonders of the Whatsham lake and the timbered mountains surrounding it.

LUMBERMEN WILL MEET

WILL CONSIDER CASE FOR TIMBER COMMISSION

MR. LUND ON REDUCED UNITED STATES TARIFF

The semi-annual meeting of the Mountain Lumbermen's Manufacturers' association will be held here today. The meeting will take place in the county court room of the court house and will commence at 9:30.

The most important matter to be considered will be the case to be presented to the timber commission which is expected to sit in Nelson some time next month. This commission has been appointed to gather particulars of the state of the lumber industry throughout the country, and its recommendations to the government will be used as a basis for future legislation. The meeting to be held today will, therefore, have considerable bearing on the future of the industry, as the Mountain Manufacturers' association represents practically the whole of the large lumber interests in the interior of the province. The other business today will be the reading of the semi-annual reports of the prevailing conditions as to prices, etc. The meeting will, of course, be private.

P. Lund of Wardner, ex-president of the association, arrived in the city last night and is staying at the Hume. Seen by a representative of The Daily News, Mr. Lund expressed himself as being pleased to hear that the United States duty on rough lumber had been reduced to $1.25 per 1,000 feet and proportionately on manufactured lumber, but stated that at present the change would make little difference to British Columbia lumber manufacturers and lumbermen because, as a general thing, better prices could be obtained here than on the other side. The step was, however in the right direction.

Japanese Immigration

OTTAWA, July 29—A report from Canadian trade commissioner Harris at Yokohama shows that Japan is adhering strictly to the agreements made last year with Canada and the United States to restrict Japanese immigration to America. For the first five months of this year the total number of Japanese immigrants was 718 as compared with 2275 for the corresponding period of 1908. The number who came to Canada was only 181 and of these 56 were classed as non-laborers. During the five months 163 Japanese returned home from Canada, thus leaving the net increase only 21. Mr. Harris reports that a company of Japanese and British capitalists is being formed to establish an immense hydro-electric power industry in Japan. The company, he says, will be incorporated under the Canadian law.

Not Trunk Murder

PITTSBURG, July 29—A dog's mournful whines at his mistress' door resulted in the finding of Mrs. Annie Graham dead in her trunk in her home last evening. She was a widow, aged 55, and lived alone, and was last seen last Friday. The coroner's deputy reported that she fell accidentally and broke her neck and that her body tumbled into the trunk.

FOR DEFENCE

Imperial Conference Continues Its Sittings

PRINCIPLES SET FORTH

GENERAL CO-ORDINATION OF EFFORTS IS ESSENTIAL—MADAME NORDICA MARRIES NEW YORK BANKER—CANADIAN BOYS ENTERTAINED—CABLE RATES

(Canadian Associated Press.)

LONDON, July 29—The second sitting of the Imperial Defence conference was held in the war office today under the presidency of the earl of Crewe. Right Hon. R. T. Haldane explained the war office memorandums on the military defence of the empire. A general discussion on the general staff and other matters of importance took place, but no resolutions were put to the conference. A committee of experts was nominated to discuss certain technical details. They will meet in the war office tomorrow. After a two and a half hours' session the conference adjourned until Tuesday, when it is expected the admiralty memorandum on naval defence will be brought forward.

(Canadian Associated Press.)

LONDON, July 29—In the house of commons premier Asquith announced tonight that the members of the Imperial Defence conference would be asked to sit on the Imperial Defence committee before returning.

Right Hon. Balfour hoped that the invaluable assistance of the representatives of the self-governing dominions would grow. He considered that we were on the right path in these matters.

Sir Charles Dilke suggested that the best method of overseas assistance to imperial defence would be the provision of a squadron of fast cruisers in the Pacific.

LONDON, July 29—The Times, referring to imperial defence, lays down three principles: One, each dominion must develop naval resources of its own; two, training material for each naval force must lie as far as possible the same; three, all individual efforts must be coordinated to a common end.

The Times adds that the three principles mentioned are broadly accepted.

LONDON, July 29—George W. Young, the banker of New York, and Miss Lillian Nordica were married in Kingsweigh house church at 2:30 this afternoon in the presence of a few friends.

LONDON, July 29—Lord Strathcona yesterday received the Standard of Empire boys from Canada, who today will dine with Lord Roberts at Ascot.

LONDON, July 29—The British case in the North American fisheries dispute with the United States for The Hague tribunal has been practically prepared. The matter goes to the court in April or May next.

(Canadian Associated Press)

LONDON, July 29—The Eastern Telegraph company notify that under the agreement with the British South African administration the tariffs for press telegrams between Great Britain and the undermentioned countries will, on August 1, be reduced as follows: Cape Colony, Natal, Orange River colony, Transvaal, ninepence per word; Southern Rhodesia, nine and a half-pence a word; Northern Rhodesia and Nyassaland, tenpence halfpenny; Beira railway offices, via Capetown, nine-pence three farthings, and Portugese Africa tenpence three farthings per word.

WILL ACCEPT

Blériot Awaits Wright Brothers' Challenge for Seattle Race

PARIS, July 29—Louis Blériot, the French aviator, who successfully flew across the English channel in his monoplane last Sunday, appeared greatly pleased when informed this afternoon that the officials of the Alaska-Yukon-Pacific exposition would offer a purse of $25,000 for an aeroplane race between him and the Wright brothers. He said: "This is the first intimation that I have had of any such offer, but you can say that if either of the Wrights challenges me under the Seattle conditions I shall immediately accept."

Diamond Robbers

OTTAWA, July 29—Woods and Conrad, two New York thieves, who robbed McMillan's jewelry store of 100 diamonds last week, but subsequently restored them, pleaded guilty today and were remanded for sentence. Mayard, alias Howard, pleaded not guilty and will be charged with vagrancy.

For Military Training

BERLIN, July 29—Twenty-six Turkish officers arrived here today to enter the German army by permission of emperor William.

DEFENCE CONFERENCE

IMPORTANT GATHERING ABOUT TO ASSEMBLE IN LONDON

WHAT IT WILL CONSIDER AND WHO WILL ATTEND

The great invasion scare, which has lashed the people of England into a state of excitement and controversy for months past and the discussion which arose therefrom as to the ability of England to defend herself against the fast-growing armament of Germany, at length involved the entire British empire, and the empire, as represented by the chief executives and ministers of dominions overseas are going to see what they will do about it.

A meeting opened in London Wednesday at which the men who are entrusted with the defence of the empire are to talk over with the representatives of the outlying parts of that vast political organization what would be best for them to do to assist in its protection.

The imperial Defence resolution adopted by the Canadian parliament on March 29, 1909, on motion of Sir Wilfrid Laurier, was as follows, on which, it is understood, the Canadian representatives at the present conference in London will base their presentations of Canada's position upon the matter:

"This house fully recognizes the duty of the people of Canada, as they increase in numbers and wealth, to assume in larger measure the responsibilities of national defence.

"The house reaffirms the opinion, repeatedly expressed by representatives of Canada, that under the present constitutional relations between the mother country and the self-governing dominions the payment of any stated contribution to the imperial treasury for naval and military purposes, would not, so far as Canada is concerned, be a satisfactory solution of the question of defence.

"The house will cordially approve of any necessary expenditure designed to promote the organization of a Canadian naval service in co-operation with and in close relation to the imperial navy, along the lines suggested by the admiralty at the last imperial conference, and in full sympathy with the view that the naval supremacy of Great Britain is essential to the security of commerce, the safety of the empire and the peace of the world.

"The house expresses its firm conviction that whenever the need arises the Canadian people will be found ready and willing to make any sacrifice that is required to give to the imperial authorities the most loyal and hearty co-operation in every movement for the maintenance of the integrity and the honor of the empire."

Under the heading "Canada and the Defence Conference" the Canadian Gazette of London has the following leader in the issue received last week:

Mr. Brodeur and Sir Frederick Borden are in England to represent Canada at the Imperial Defence conference, which opens in London on July 28. They are accompanied by Rear-Admiral Kingsmill and General Lake, as expert Canadian advisers. At the conference they will be associated with ministers from New Zealand, Australia and South Africa, and the result of their consultations with British ministers will be awaited with the keenest interest.

In the motherland we want to know how far the statesmen here and overseas can carry into actual deeds the spirit of unity and the desire for co-operation which animates the peoples of every self-governing portion of the empire. Lord Crewe told us at the Dominion day banquet last week that he and his colleagues in the British ministery feel it their duty to put definite proposals of co-operation before the conference, and the decision is welcome.

We shall at least have done with pretty phrases and pious resolutions to "die" in the last ditch for the empire," and so on. Either the people of Canada and the peoples of the other dominions mean business, or they mean nothing much that matters at this juncture. They have surely had enough "taffy" from the old country to last them for a long while. It has been most pleasant to the taste, and we have all felt gratified by the knowledge that Canada's place of honor at the empire family table is now well assured. But these are times for practical men, and Canadians would feel the Imperial Defence conference of 1909 to be wasted opportunity if the admiralty and British ministers did not say quite plainly and exactly what kind of co-operation the overseas dominion can render in face of the immediate menace of foreign armaments, and wherein colonial naval plans, so far as any exist, are useless as a means of safeguarding the sea supremacy. It is sea supremacy which guards our cherished liberties throughout the empire, our British traditions and our best markets, and without it they are all placed in jeopardy.

Three Canadian ministers have touched on this naval question in recent speeches. At last week's Dominion day banquet at the White City, Mr. Fielding recalled the variety of local conditions which any Canadian naval policy must satisfy, and pleaded for deliberation and complete freedom of colonial action. We all appreciate that perfectly natural point of view. He and Mr. Oliver also spoke of the service which Canada had rendered to the empire by her bold policy of self-expansion and home protection.

"There are," said Mr. Fielding, "other things to be done for the empire besides defence," and Lord Grey doubtless spoke the views of his ministers when he asked whether the $100,000,000 of Canadian money put into the Canadian Pacific railway was not of greater value to imperial defence than ten 'Dreadnoughts.' The point is incontestable, and we do not suppose that any responsible British publicist would contest it. This vital question is—Having done so much, shall we do no more? Having created this treasure, shall we fail to guard it?"

Mr. Brodeur, as Canada's minister of marine, carries the Canadian ministerial view a step further when, as in his farewell speech to the chambre de commerce at Montreal, on June 21, he declared for "a Canadian navy," and asserted this to be also the policy of R. L. Borden and the Canadian opposition. Mr. Borden will no doubt find occasion to give the British public his views before he brings his British visit to a close. In any case, we may be sure that neither Canadian ministers nor the leader of the opposition desire to trifle with the present naval situation. They can have no desire to put off the Canadian demand for a real and effective contribution to imperial defence by giving "a little nickel, steel and gun metal to play with."

Concentration is the new word of admiralty policy, and the fact that the British navy is no longer scattered over the seven seas from New Zealand to Halifax, but is concentrated in home waters, is conclusive proof of the way in which the new situation must be met according to the views of the best naval experts. The coming conference must elucidate this point and give Canadian public opinion the guidance it seeks. We believe it to be Canada's intention to aid the striking power of the empire in time of need—whether it be by the gift of capital ships or in other ways must depend upon the advice of the experts; but Canada unquestionably means the part she takes to be real and effective.

A Canadian navy will, in any case, come in time—it is a necessary adjunct of Canadian national development—and when it comes it will, as Donald Macmaster showed in our columns last week, provide an excellent means for the training of Canadian youth, and also, we would add, a stimulus to Canadian industrial expansion. But, so far as authoritative naval opinion has yet shown, the need of the empire during the next decade is not a need that local navies can do anything to meet. The menace to us all is here in waters adjacent to the British Isles.

The conference now in session is in many ways a remarkable gathering. Sir Frederick Borden, minister of militia and defence, and Hon. L. P. Brodeur, minister of marine and fisheries, are representing the Canadian view, while from Australia will come Col. Foxton, representing the recently appointed Deakin government, who is expected to be more in sympathy with the motives underlying the conference than would a representative of the former administration of Hon. Mr. Fisher, whose government was virtually overthrown at a cost of Mr. Deakin that the empire might be better served. From the Transvaal comes that picturesque figure, general Botha, and from the Orange River colony, one of his old time neighbors in the day of independence, Hon. Abram Fischer, who, although not a fighter like Botha nevertheless played an important part in the Anglo-Boer war.

From Cape Colony comes Dr. Jameson's successor in the premiership, Hon. J. X. Merriman, whose attitude towards the British idea at the Cape was at one time considered none too friendly but whose loyalty is now beyond question. Only a few days ago he was made a privy councillor of Great Britain. Hon. P. B. Moor, who represents Natal, is no stranger to imperial conferences, having taken part in the colonial conference a couple of years ago. Hon. E. P. Morris, the premier of Newfoundland will go to the conference fresh with the laurels of his recent victory on his shoulders, while from far off New Zealand comes sir John Ward, the living embodiment of the colonial Dreadnought idea, whose government led the van in offering a Dreadnought to the mother country, or two if need be, to defend the empire.

Lt.-Col., the Hon. sir Frederick W. Borden, K.C.M.G., M.D., minister of militia, of the Canadian delegates, has been at the head of Canada's defences since 1896. Sir Frederick started life as a doctor and was then appointed surgeon to the 68th battalion King's County militia and he is now surgeon-colonel of the Canadian army medical corps. Eight times he has been elected to parliament and only on one occasion was he defeated and then just by a narrow margin, which is something of a record.

Within the past few years sir Frederick Borden adopted a scheme for increasing the strength and the efficiency of the militia. Under this scheme the force was raised to 100,000.

Hon. Louis Phillipe Brodeur, former speaker of the house of commons, now minister of marine and fisheries, was born at Beloeil, Que., in 1862. He was educated at St. Hyacinthe college and Laval university, being admitted to practice in 1884.

Mr. Brodeur formerly practiced with the Hon. senator Dandurand.

The proposed adoption of the Canadian government steamer and fishery protection service as the nucleus of a Canadian navy, which he supports, brings the minister of marine and fisheries prominently into the discussion.

The right Hon. Louis Botha, premier of the Transvaal, will be an interesting figure at the conference. After the bad time he gave the British forces as commander in chief of the Boer forces in the South African war, he ought to be in a position to talk defence from experience. He was born in Greytown, Natal, in 1863 and was a member of the first volksraad of the Transvaal in which he represented Vryheid and acted as veldt cornet for that district at the beginning of the Anglo-Boer war. He succeeded general Joubert as commander of the Boer forces, which he commanded at the battle of Colenso and during the rest of the war. General Botha represented the Transvaal at the colonial conference a couple of years ago where he attracted a great deal of attention in view of having so recently become the chief executive of a British colony. He and sir Wilfrid Laurier formed a warm friendship during the conference.

Sir Joseph Ward, premier of New Zealand, has taken the lead in making on behalf of the New Zealand government, the munificent offer to defray the cost of a new Dreadnought or, if need be, two, for the British navy. He sent this offer through the governor of New Zealand, to the secretary of state for the colonies, a day or two after the great debate in the house of commons arising from the navy estimates. Sir Joseph, who was born in 1857, has served in most of the chief offices of state in New Zealand and became premier in 1906.

Hon. sir Edward Morris, has had 23 years' experience of parliamentary affairs in Newfoundland, having been elected from St. John's in 1885 and continuing to represent that seat ever since. He has been at different times member of two governments, that of sir William Whiteway and of sir Robert Bond, the leader of the late government he fought in the recent campaign. Sir Edward was born in St. John's in 1859. He has represented Newfoundland in conferences on many important matters, notably, the French Shore dispute in 1901, and the confederation conference at Ottawa.

Hon. John Merriman has been premier of Cape Colony since last year, when he succeeded Dr. Jameson. He went to South Africa—the scene of the labors of his father, bishop Merriman—exactly 60 years ago, and 20 years later entered politics, subsequently occupying some of the principal offices in the colony with distinction. He is now on his way to England to attend the imperial conference. Mr. Merriman is a native of Somersetshire, having been born in 1841. He was made a privy councillor last month. At one time he was considered antagonistic to British rule in South Africa.

Hon. Frederick Robert Moor, prime minister of Natal and minister for native affairs, represented the colony at the colonial conference a couple of years ago. He succeeded the Hon. C. J. Smythe in the premiership, having previously been leader of the opposition for some years. He was born in 1853 and educated at Hermannsburg school, Natal. He commenced work as a diamond digger at Kimberley in 1872 and owned several claims in the Kimberley mine. He was twice elected by his fellow diggers as a member of the Kimberley mining board. Returning to Kimberley in 1882 he settled down as a farmer in Weenen county and has become a recognized authority upon agricultural matters. A South African to the backbone, his views are moderate and commend themselves to many of his fellow colonists, especially in the country districts. He entered the legislative assembly in 1886, and has been a member now for over 20 years. He was one of the party who carried responsible government for the colony. He entered sir John Robinson's government as minister of native affairs in 1893 and continued in office under the Escombe ministery to 1897. Refusing office under sir Henry Binns the same year, he was reappointed minister of native affairs under the Hime ministry in 1899 and was acting prime minister during sir Henry Hime's visit to England for the coronation ceremony.

Hon. Abram Fischer, premier of the Orange River colony, was one of the officials of the old Orange Free State prior to the Boer war, having been a member of the volksraad since 1878 and member of the executive council since 1896. After the war, when the old Free State became a British colony, he became premier. An advocate by profession he was born at Cape Colony in 1850, his father being a member of the Cape civil service. He was chairman of the Transvaal and Orange Free State joint deputation to Europe during the last Boer war. He has been a member of various interstate and colonial conferences on railways, customs, etc.

Town Lots for Sale in Nelson

It Takes TWO--Are You One of Them?

If, of the two people it takes to make a bargain, you are ONE, how much would it be worth to you to find the other one. Would it be worth the cost of a classified ad? Would it be worth the cost of a small—but determined—"campaign of want advertising?"

The "other one" necessary to "make a bargain" is found, in nine cases out of ten, through advertising—often through want advertising, and, in this city, USUALLY through want advertising in THIS newspaper.

"The other one" watches the want ads. pretty closely—but, of course, has to be convinced. If your offer is "right," that will be an easy task.

One cent a word will tell your story to readers of

"THE DAILY NEWS"

A ten-word classified advertisement costs only 40 cents for six insertions, when paid in advance.

Paul's Instructions to the Thessalonians. I Thess. v:12-24.

Golden Text—See that none render evil for evil unto any man; but ever follow that which is good. I Thess. v:15.

Verses 12-15—What is the dominant note today between officials of the church and the pastor; is it official and business, or is it spiritual, that of tender love and warm esteem?

Do ministers, as a class, "labor" as hard, and suffer as their master did, and thus compel this tender love and esteem of the church.

Does the average minister or not, actually "labor" as hard as the average mechanic, farmer, business or professional man, and practice as much self-denial as these?

What is generally the real character of those who will not support the church because they do not like the minister?

What is the only way by which to have "peace" among brethren in a church or in a community?

Verse 14—If you know anything against a fellow Christian what is the right thing to do, (1) say nothing about it; (2) talk about it to others; (3) correct him in the presence of others, or (4) see him alone and in love tell him what you have to say?

Jesus went about lovingly helping people, in their bodies, in their souls, and circumstances; if you and I are not doing that have we any right to conclude that we are not following in the steps of Jesus?

Is it your duty as a Christian to take pains to "comfort" everybody with whom you come in contact, and if you are so doing, what is the effect upon your own life?

Verse 15—If my neighbor sets his dog on my sheep, pulls down my fences in the night, shoots my chickens when one gets into his yard, is constantly slandering me and my family and will not pay me a long standing just debt, what would Jesus do if He were in my place? (This question must be answered in writing by members of the club.)

Verse 16—It is easy, Paul, for you to say "rejoice evermore," but is it practical for ordinary mortals, and if so how?

Verse 17—If a man is really in love with God and his fellows, does he not necessarily pray all the time, either consciously or unconsciously?

Is it necessary, or helpful to have set times for conscious prayer?

Verse 18—Are we to be thankful alike for pain and pleasure, for loss and gain, for enemies and friends, if we are "in Christ Jesus?"

Is it not an actual fact, based on the truest philosophy, that every sort of experience which comes to a true man, is in the highest possible sense for his good?

In the light of external existence, are there any such things as accident, casualty, misfortune or even regrettable circumstances, in the life of a man of God?

Verse 19—Can any man retain the peace of God, who is not absolutely obedient to the leadings of God's Holy Spirit?

Verse 20—Prophesying here means preaching, is there any sign in these days that it is being despised?

Why should a love for the preaching of the gospel be cultivated?

Verse 21—Why should we not as Christians encourage the most absolute free thought, the most critical research and welcome the teachings of true science?

Can the real truth ever be a hurt to a true man, and is not such a man as glad to change his opinion when he finds he is wrong, as to change a worn out garment for a new one?

Verse 22—If we desire the right only and are obedient to God's spirit, need we ever fear even the "appearance of evil?"

Verses 23-24—Does God mean his children to live "blameless" lives and is the 24th verse not a promise that God will give the power to do so?

Lesson for Sunday, Aug. 15th, 1909—Paul's Third Missionary Journey—Ephesus. Acts xviii:23 to xix:22

August 1, 1909

Close of Paul's Missionary Journey. Acts xviii: 1-22.

Golden Text—In the worlds ye shall have tribulation; be of good cheer; I have overcome the world.—John xvi:33.

Verse 1—What remarkable thing had immediately preceded Paul's start for Corinth?

There is no record of a vision or any special Divine instruction for Paul going to Corinth; but is a good man as much guided by God when he is not conscious of it, as when he is, and why?. (This question must be answered in writing by members of the club.)

Verses 2-3—What was the attraction between Aquila and Paul?

How do you account for it that there is an affinity between men of the same trade?

Have labor men a perfect right to band themselves together for mutual protection, against the undue demands of capital?

Has capital a moral right to protect itself against labor?

Have business men a right to protect themselves against undue competition?

Paul worked at his trade as a tent maker for a living, is there any suggestion in this that modern preachers should do a similar thing?

A large proportion of the membership of the present day Christian church have the latent ability to preach; ought not this ability to be developed, thus giving to every local church several preachers and the work being divided among them, would be better done than at present, and each preacher make his own living?

Verse 4—Is it the duty and privilege of every adult Christian to be engaged at least every Sunday, in some specific spiritual work?

Why did Paul in the beginning at Corinth confine his work to the Sabbath day and to the Jews?

Verses 5-6—What effect did the visit of Silas and Timothy have upon Paul?

If a good man is ever so much in earnest, may the visit of another good man intensify his spirit?

Did Paul blame himself for his failure and that the Jews resisted and blasphemed; and ought a man of God always take a similar position in like circumstances?

Verse 7—Has it ever been in the past, and is it today, sometimes necessary for a good man to leave the church and start a meeting of his own?

Verse 8—Is belief in Jesus an intellectual, effect, or is it spiritual and supernatural?

Verses 9-11—What method did God take in this instance to talk to Paul?

Why is it that so few Christians have any experience of any special message from God?

Do Christians speak as much as they ought for Christ today and is there any fear of being hurt by speaking for him?

Verses 12-17—Can anyone expect, even in these days, to be unflinchingly faithful to God, and not make some people angry?

How do you estimate the character of this man Gallio, and what is there in him worthy of imitation?

Verses 18-22—Sum up the efforts of Paul's efforts as revealed in this lesson.

Lesson for Sunday, Aug. 8th, 1909—Paul's Instructions to the Thessalonians; I Thess. v.:12-24.

NEWS OF THE DOMINION

MONTREAL, July 29—Armande Lamarre, a bricklayer, 23 years old, fell from a scaffold today and was killed.

QUEBEC, July 29—Telesphore Labe, a young farmer, was struck and killed by lightning today at St. Aubert de l'Islet.

OTTAWA, July 29—Benjamin Price of Battleford, has been appointed to the senate in place of the late senator Perley.

MONTREAL, July 29 — The bank clearings for the week ending today were $14,291,767. In 1908 they were $25,784,208, and in 1907 $27,584,459.

WINNIPEG, July 29—Motorman Chas. Tayler of the Winnipeg street railway, is charged with manslaughter in connection with the fatalities on Logan avenue Sunday afternoon.

SHELBURNE, Ont, July 29—Samuel Tweedle, a prosperous young farmer, was killed a short distance north of here last night. He was operating a hay fork and when drawing it back to reload a truck struck the block, slipped the hook and fell, striking Tweedle on the head

TORONTO, July 9—Albert W. Barber, superintendent of the Ontario division of C.P.R. telegraphs, died at his home last night, after a long illness, death being due to a complication of diseases. He was 54 years of age and had been with the C.P.R. since 1886, first as local manager.

MONTREAL, July 29—Circulars issued by president Hays of the G.T.P. announce that the office of the vice-president and general manager of that railway have been permanently located in Winnipeg and all communications to that officer should be addressed to him at that point.

PETAWAWA MILITARY CAMP, July 29—"I cannot say when the official test will be made. It will be a week or ten days before we have things in shape for flights," said Baldwin last night. "We are getting new engines for the Silver Dart. Apart from that there is nothing really new. There will be no official tests for several days yet," he said. Baldwin and McCurdy think that the coming tests will be successful and hope to get a speed of 40 miles an hour out of the new engines. Mr. McCurdy, the young Canadian aviator, said this afternoon that it was the intention to have an endurance test with the Silver Dart.

OTTAWA, July 29—The Transcontinental railway commissioners today announced that the section of the N.T.R. between Winnipeg and Lake Superior Junction will be ready to lease to the G.T.P. early in September thus enabling the company to carry at least a portion of this year's wheat crop.

MONTREAL, July 29—Burned so badly that there is no hope for her recovery as a result of a blaze that broke out early this morning, Mrs. Ferdinand Theerien, 46 years old, has been taken to the hospital and her husband, also badly burned about the face, hands and arms, has also been taken to the hospital.

TORONTO, July 29 — With western Canada clamoring loudly for farm hands and railways planning to carry about 25,000 in response to calls, the farmers of Ontario have prospects of experiencing a serious dearth of laborers before the summer is over. Lack of sufficient help is already marked and it was gathered yesterday from remarks made by several farmers who were interviewed that farm helpers would have no trouble in getting a job in any place.

GLACE BAY, July 29—The county of Campbeton is offering $1500 reward for evidence leading to the conviction of the persons who attempted to blow up manager Simpson's residence and also for the person who set off a bomb at the Gardiner mines yesterday. President Ross of the Dominion Coal company offers $1000 reward for the conviction of the persons who assaulted a man named McPherson, 77 years of age, while on his way to his sister's funeral at Waterford.

OTTAWA, July 29—The dominion census bureau from its report from the various centres of Canada is able to announce that in the case of all grains except fall wheat, the conditions indicate a higher crop this year than last. Hay, clover and pastures are lower. The areas of late spring crops surpass those of last year. Buckwheat, corn, beans, potatoes, turnips and sugar beets are somewhat less than last year, as the weather interfered with planting operations. But the conditions of these crops at the end of June were very satisfactory.

PORT ARTHUR, July 29—More than 30 men are now engaged in the search for George Horrigan, a prominent citizen of Port Arthur, who on Sunday last became separated from a fishing party and has been lost in the woods in Black Bay peninsula. A systematic search commenced on Monday as soon as word of the disappearance reached the city. Yesterday the tug Whalen took up a whole militia company and returning in the afternoon brought word that no trace of the missing man had been found. Unsuccessful efforts had been made to get bloodhounds.

MONTREAL, July 29—Surprise and disappointment was evinced in various circles on the street today when it was announced that the directors of the Lake of the Woods company had decided not to make the anticipated increase in the dividends on the common stock. The company declared the usual dividend of 1 3-4 per cent on the preferred stock and 1-2 per cent on the common. It is understood that the surplus, which is now close to a million dollars, will be applied at the October meeting to retiring the $1,000,000 bond issue. Despite rumors to the contrary it is stated that Robert Meighen and his friends are still in command of the situation with the Lake of the Woods company.

The Hudson's Bay Stores

Special Clearance Sale

Of Hurley's and Burt's High Grade American Boots

The excellent quality of these goods is well known but, for many people, they come a little too high, and consequently they are not moving off our shelves as fast as they should. However, we imported them to sell and if we cannot get what they are worth, they must go for what we can get. For the balance of this month we offer them at about what they cost:

Ladies' Boots, all styles, in Black and Chocolate Vici Kid, Tan Calf and Brown and Grey Suede.

Regular Price $6, now offered at $4.50

Regular Price $5.50, now offered at 4.00

Hurley's American boots for men, Patent and Velour Calf Blucher

Regular Price, $7, now offered at $5.50

Patent Blucher, Regular price $4.50, now offered at $2.95
Plain Patent Lacod, regular price, $5.50, now offered at $4.00

This is a genuine clearance sale and had best be taken advantage of at once and while we have all sizes.

CANADIAN INVESTMENTS

In an interview published in yesterday's issue of The Daily News Mr. Muir Wilson of Sheffield, England, drew attention to a matter which deserves serious consideration by those who are interested in the development of Canada. This is the financing of Mexican and South American enterprises by Canadian capital. Already millions of Canadian dollars have gone to the Latin countries of the south to develop enterprises about which the investors know nothing, but concerning which they take the word of the promoters without the slightest question. While this money is being taken out of Canada for the purpose of developing countries in which such investors can never hope to have any real interest, many parts of Canada are languishing for want of capital. If the money which is being sent to Central and South America were invested in Canada instead, Canadian industry would be just that much ahead and the investors would at least have an opportunity of knowing how their money was being spent by those to whom they had entrusted it and would also be in a position to learn exactly how the enterprise generally was being conducted. Their money would, to say the very least, be as safe as if invested in enterprises in Latin America and would bring equally satisfactory returns, and they would in addition have the satisfaction of knowing that, by investing at home, they were doing something to develop this Canada of ours, whose possibilities no man yet begins to realise.

There is also another feature to the situation as pointed out by Mr. Wilson. The floating by Canadians of Central and South American securities of more or less doubtful value, generally more is hurting Canadian credit in the money markets of the world. Canadians should confine their efforts to developing their own country. No part of the world today offers the same opportunities for safe and, at the same time, profitable investment as does Canada, and this fact is becoming more generally recognised by the investing world, but more particularly by the moneyed men of the old country. If, however, some Canadians in their desire for easy money take advantage of the present favor with which securities offered by Canadians are regarded in the old country to unload the questionable bonds and stocks of enterprises in South and Central American enterprises upon unsuspecting investors, difficulties are liable to arise in securing capital for legitimate undertakings in this country. This is something to be avoided at all cost.

At the present stage of her development Canada needs every dollar of Canadian and of outside money that she can get to enable her people to take advantage of the great natural resources with which this country has been endowed. Any money diverted from the country is so much loss to Canada. This is something which Canadian banks and Canadian investors would do well to keep in mind when promoters come around to look for financial assistance for the development of water powers, the building of railways, electric or steam, or for other enterprises of like nature in foreign countries, but particularly in Mexico and the various other countries of Central and South America.

EDITORIAL NOTES

Mr. George Bernard Shaw's play, "Press Clippings," which the censor refused to pass, has been produced in private, and if The Daily Graphic's criticism of it is even a reasonably fair one, the censor did Mr. Shaw a service by refusing to allow its presentation to the public.

Reports from Spain show that the trouble there is becoming more serious with every passing hour, and as it does King Alfonso's position becomes a more and more delicate one, although there is nothing whatever in the dispatches to show that it is yet a hopeless one.

It is not often that the editor of a daily paper is presented with a bouquet, but that is what happened to the editor of The News yesterday. The donor was Mr. Robert Main of Thrums, and to say the least his gift was appreciated. The sweet peas which comprised the bouquet were exceptionally fine specimens and show what good soil, a beneficent climate, and a little experience and care on the part of the cultivator will produce.

Several attempts have been made to blow up buildings at Glace Bay, Nova Scotia, within the past few days, the inference conveyed in the dispatches being that these outrages have some connection with the coal strike which is at present under way there. Unless some reasonable evidence is forthcoming in support of the charge it would not be fair to accuse the strikers of having committed these crimes, but at the same time the authorities should leave no stone unturned to bring the guilty parties, whoever they are, to justice, and the punishment meted out to them should be the most severe the law provides. Hanging would be almost too good for anyone who would commit a crime of this kind.

The News-Advertiser says of the operations of the Consolidated Mining and Smelting company for the year ended June 30: "The report of the operations for the past year at the Consolidated Mining and Smelting company's smelter at Trail is a very satisfactory proof of the steady progress being made in the mining industry in this province. The tonnage of ore treated exceeded that in any previous year. This is particularly so in view of the unfavorable market conditions for metals which existed during a considerable part of the year. Not less gratifying is the fact stated in the report that the refinery treated nearly one-half of the company's total production. Had the capacity of the refinery been larger, it could have handled the whole of the lead bullion produced by the smelter during the last three months of the year. Plans are now under consideration for the enlargement of the refinery. When these are carried out there will be no need for the shipment of any base bullion, and the production of pure gold, silver and lead will be largely increased. This will mean the disbursement of larger sums for labor and the retention in the province of the amount that would otherwise go elsewhere in the shape of the expenditure required for the treatment of the base bullion. Reports also come from the Sheep creek district, in Kootenay, that very satisfactory mining development is going on there. The prospects for a good year in the mining industry in the Kootenay district are so far very favorable."

People sometimes have to go far afield to secure information about their own particular district. The following is from The Victoria Daily Post: "The sensational and interesting story of the race of Father McKinnon from Nelson to Trail in order to administer the last rites of his church to a dying man is probably correct in every particular but one. There are many people who know that even an "air line" between Nelson and Trail would measure much nearer 14 miles than seven, and therefore the time given, 19 minutes, requires revision. Paul Revere's historic ride, or the one which tells how the good news was brought from Aix to Ghent would not be in the same category as the one which the worthy father is credited with performing between Nelson and Trail." The people of Nelson all along have had an idea that an "air line" between Nelson and Trail would measure even much more than 14 miles. Perhaps, however, The Post is better informed.

AFTER FOUR YEARS OF MISERY

Cured by Lydia E. Pinkham's Vegetable Compound

Baltimore, Md. — "For four years my life was a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been given me, and I am recommending it to all my friends."—Mrs. W. S. Foxd, 1808 Lanslowne St., Baltimore, Md.

The most successful remedy in this country for the cure of all forms of female complaints is Lydia E. Pinkham's Vegetable Compound. It has stood the test of years and to-day is more widely and successfully used than any other female remedy. It has cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, and nervous prostration, after all other means had failed.

If you are suffering from any of these ailments, don't give up hope until you have given Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice write to Mrs. Pinkham, Lynn, Mass., for it. She has guided thousands to health, free of charge.

THE NEWS' DAILY PATTERN

CHILD'S ENVELOPE APRON

Paris Pattern No. 2981

All Seams Allowed

This dainty little apron is developed in cross barred muslin and may also be developed to advantage in Persian lawn, linen, chambray, Indian-head cotton or gingham, either in plain colors or figured, dotted or striped design. The full body portion is gathered to the yoke band of the material, scalloped and hand embroidered with white mercerized cotton, but, if preferred it may be cut from allover embroidery. The closing is at each side under the arms, and is held in place by medium sized pearl buttons. The pattern is in five sizes, 3 to 11 years. For a child of seven years the apron requires 3 yards of material 24 inches wide, 2 1-2 yards 27 inches wide or 2 yards 36 inches wide.

Patterns may be secured through The Daily News. Price 10c.

France to Participate

PARIS, July 29—The cabinet has decided to send a battleship squadron, in command of an admiral, to represent France, to the Hudson-Fulton celebration to be held at New York the coming autumn.

GROW MORE FLOWERS

THRUMS MAN'S ADVICE TO KOOTENAY RANCHERS

GIVES SOME ADVICE REGARDING CULTIVATION OF SWEET PEAS

The suitability of Kootenay for the growing of flowers, coupled with some timely suggestions regarding the cultivation of sweet peas, is the subject of an interesting letter addressed to The Daily News by Robert Main of Tarrys. Accompanying the letter were beautiful little bouquets of each of the nine varieties of sweet peas which he finds are the most desirable for those cultivating this particular kind of flower. Mr. Main's letter is as follows:

"Editor of The Daily News:

"Sir,—Allow me to add my humble testimony to the fertility of the land in the Kootenays in general and in the hamlet of Thrums in particular. So much has been written and is being written on the fruits of British Columbia that the culture of flowers is in a way overshadowed. Nevertheless the little patch round the house of the rancher is a source of pleasure, if not of profit, and for is a too-busy rancher indeed who cannot spare a half hour now and again to look after it.

"By far the best thing to grow for a show is the sweet pea, and I will take upon myself the passing of a few remarks on their culture. In the first place there are far too many varieties; new types are appearing, such as Spencer varieties and a few of those grown ten years ago are found in the collection of today. It would be difficult to select the best twelve of twenty-four varieties, but unless you are a specialist or an enthusiast, the following twelve varieties will be found useful, giving a good range of shades: Nora Unwin (white), King Edward VII. (crimson), Gladys Unwin (pink), Frank Dolby (lavender blue), Mrs. Walter Wright (mauve), Helen Pierce (marbled blue), John Ingman (navy carmine), Helen Lewis (orange scarlet), Black Knight (maroon), Honorable Mrs. Kenyon (cream), Dainty (white, pink edge), Prince of Wales (bright rose).

"The general fault is in sowing and I will dare to say that if a quarter of the seed were sown, four times the amount of flowers would result. The ground should be dug at least two feet deep and filled with good barnyard manure to within eight inches of the surface.

"Most people prefer growing sweet peas against a fence or wall, but the best results are obtained when grown right in the open. You can then cultivate all round them, which is impossible when grown on fence or wall. The peas should be sown at least four inches apart (I prefer six inches.) When in England I had the opportunity of seeing and inspecting the trial grounds of the principal growers and two of their rules were: dig deep, and plant thin. I have only twelve varieties growing, nine plants of each and I can pick from 200 to 120 blooms every day. The pity of it is that there seems to be no market for them, which gives the rancher no inducement to grow more than is necessary for home use.

"ROBERT MAIN."

EARL GREY LEAVES

Starts on His Journey West—Visit to Windermere

(Western Associated Press.)

OTTAWA, July 29—Earl Grey left on a trip west this evening, accompanied by Lord Lascelles, lady Sibyl Grey and lady Sibyl Broderick. The governor general will visit the Yukon, accompanied by Hon. William Templeman and Hon. Frank Oliver. Countess Grey who is now convalescent, will meet him at Vancouver along with lady Evelyn Grey and the whole party will take in the Seattle exposition, afterwards visiting Windermere in East Kootenay. Earl Grey travels by way of Toronto.

MANY HOMESEEKERS

Already About 6000 Settlers Have Gone Through Winnipeg

WINNIPEG, July 29—Five hundred home seekers from the east passed through the city today, arriving at the C.P.R. station at 11:15 by a special train and leaving at 1:35. Some of them stopped off in the city but the majority continued their journey west. Mr. Walker, dominion immigration officer, speaking of the general run of homeseekers, said that they usually arrived in the west with considerable money with the intention of taking up homesteads eventually. For a time they will work in the harvest fields and then locate. This year between 5000 and 6000 have already arrived.

HAVE NARROW ESCAPE

EXCITING ACCIDENT TO FERNIE BRIDGE BUILDERS

FERRY BOAT CAPSIZES, THROWING MEN INTO RIVER

(Special to The Daily News.)

FERNIE, July 29.—An exciting accident, which narrowly escaped having a fatal termination, happened today at the bridge which is being constructed across the Elk river to convey the pipe line to the city from Fairy creek for the new waterworks system. Owing to the swiftness of the stream a ferry boat worked by a cable is used to convey the workmen backwards and forwards. This afternoon, shortly after 2 o'clock, a gang of five men attempted to cross in the usual manner and when a few feet from the shore the boat capsized and threw the occupants into the swiftly running current. Four of them managed to regain the shore but the fifth clung to the upturned ferry and was carried rapidly down the river, and to the onlookers it appeared that nothing could be done to save him from a watery grave. He floated down for about a mile and a half till the sand bar in the centre of the river immediately above the government bridge, opposite the Elk Lumber company's mill, was reached, where he managed to land. A rope was thrown to the marooned man which he managed to fasten around his waist and willing hands soon drew him to a place of safety little the worse for his perilous ride.

SHEEP CREEK NEWS

Activity in Great Gold Camp Continues—Big Deal

(Special to The Daily News.)

SALMO, July 29.—Another mining deal was made on Wednesday for a Sheep creek property to American capitalists for $10,000.

Mr. and Mrs. H. M. Billings returned home on Wednesday morning's train from Nelson.

Mrs. A. Longhurst and Master Charles Longhurst have returned home from Nelson after spending a few days holidaying in Nelson with friends.

Charles Lindow has sold his two bear cubs to a private zoo at Portage La Prairie, Man.

A. H. Gravey is on a trip of inspection to Sheep creek.

More prospectors left this morning headin for Summit creek, where the latest strike is reported from.

Leslie Scraggs of Erie was a visitor in town on Wednesday last.

Green Bros. & Burden's survey party have returned from Wolf lake district, where they have been for the past three week surveying mineral claims.

CRIMINAL CODE

Chief Constables' Association in Convention, ask for Change

NIAGARA FALLS July 29—The executive committee of the Chief Constables' association of Canada, which concluded its convention here this afternoon, will ask the minister of justice to amend the criminal code so that search warrants may be executed by any police officer. It is said that in the west the present code calls for the execution by the chief constable alone. Officers were elected as follows: President, Emil Trudel, Quebec; secretary, W. Starrell, Toronto; treasurer, Inspector McLelland, Toronto.

Vancouver was chosen as the next convention city.

ROYAL TOUR

Nicholas on Imperial Yacht Passes Through Kiel Canal

KIEL, July 29—The Russian imperial yacht Standart, with emperor Nicholas and empress Alexandria and one of their children on board, started through the Kiel canal today with both banks of the canal picketed with marines and a squadron of cavalry patrolling the country side.

Meagher's

Eagle Block : Baker Street

Everything for summer wear is going at very low prices now as we want to clear it all out to make room for fall goods which will soon be arriving. Today we especially draw your attention to

Children's Cotton Vests for 10c.

Vests for girls from 1 to 10 years old, real nice ones and only 10c. There aren't so very many of them so be quick.

$30 Silk Suits for $15

We've a few Ladies Silk Shirtwaist Suits left in navy, brown, black, fine swell suits that regularly sell at $25 and $30. They've got to be cleared, so down goes the price to half. Come and see if they're not the biggest bargains you ever saw for $15

Remnants

Have a dip in the remnant box. There are prices for everybody; Silks, Dress Goods, Muslins, Flanelettes, Tabling, in fact nearly everything in good generous lengths too. The prices, about half the ordinary.

HE ENDS HIS OWN LIFE

PRESIDENT OF NATIONAL BASE-BALL LEAGUE SUICIDES

SHOOTS HIMSELF THROUGH HEAD BUT LIVES FOR HOURS

NEW YORK, N. Y., July 29—Harry C. Pulliam, president of the National league of professional baseball, died at 8:10 this morning after shooting himself through the head in his room in the New York Athletic club last night. Although a bullet from his revolver passed entirely through his head, severing both optic nerves and causing instant blindness, Mr. Pulliam lived from 9:30 last night until this morning. He became unconscious soon after the shooting was discovered and was unable to make any statement as to his reason for committing suicide, but it is generally attributed to ill health.

Mr. Pulliam was in his office yesterday attending to the business of the league and went to his room at the athletic club last evening. The first indication that anything was wrong with him came when at 9:30 o'clock a signal from the telephone in his room was thrown upon the switchboard of the club rooms. The operator responded, but receiving no call, sent a messenger to Mr. Pulliam's room to ascertain the trouble. Mr. Pulliam was found lying on the floor, dressed only in his underclothing and with a bullet wound through his head. The telephone receiver apparently had been knocked off its hook when he fell after firing the fatal shot. A revolver lay on the floor near his hand.

The club's physician was summoned, but there was little he could do to relieve his patient, and it was evident that death would ensue within a short time. A coroner was summoned and he attempted to obtain a statement from the dying man, but without avail. To all questions as to how he was shot Mr. Pulliam, who was then in a semi-conscious condition, replied that he did not understand and asked "What shot!"

He soon became unconscious, but later revived a little and complained that his head ached and asked the attendant to rub it. No note or other explanation of the suicide was found in the room. A nurse was summoned and the wound was bandaged. As usual, in cases of attempted suicide, the police stationed a man at the rooms and technically the wounded man was under arrest. Throughout the night Mr. Pulliam lingered in a semi-conscious condition. His mother in Louisville, Ky., was notified of the affair last night.

President Pulliam's health, and particularly his nervous condition had been so poor for several months as to cause much alarm to his friends and admirers in baseball circles. Last February he was granted an indefinite leave of absence and was said to have spent several months in Tennessee and Florida. He returned to his duties about a month ago and seemed to be considerably improved by his long vacation. His health soon again gave away, however, and recently he spent a week in a sanitarium. He was born in Scottsville, Ky., 39 years ago, and was successively reporter and city editor of the Louisville Commercial, president of the Louisville baseball club, secretary and treasurer of the Pittsburg club and president of the National league, to which office he was elected in 1902.

Victoria Tennis Tourney

VICTORIA, July 29—The following is the result of yesterday afternoon's play in the tennis tournament:

Men's singles—Preliminary round, Cambie beat Keefer 6-3, 6-3. First round, Andrews beat Wilbur 6-4, 6-1; Bird beat James 6-0, 4-6; Tyler beat Lowry 6-2, 6-1; Cardinal beat Hope 6-1, 6-2; Thewaites beat Williams 6-8, 6-4; Jukes beat Darcy 6-3, 6-1.

Men's doubles—First round, Rhodes and Cardinal beat Martin and Pooley 4-6, 6-3, 6-3; Tyler and Macrae beat Leeming and Wilson 6-1, 6-2; Schwengers and Goward beat Hopper and Marshall 6-4, 7-5; Schwengers and Goward beat Bird and C. Schwengers 6-0, 6-1; Kirkbride and Keeler beat Hewitson and Matterson 6-1, 6-2; Gillat and Jukes beat Grossley and Darcy 6-4, 6-1.

Ladies' singles—Preliminary round, Miss M. Pitts beat Miss Pooley 4-6, 6-2, 6-4.

Ladies' doubles—First round, Miss Hotchkiss and Miss Ryan beat Miss Weedler and Miss Pitts 6-0, 6-0.

Mixed doubles—First round, Macrae and Mrs. Talbot beat Dr. Nelson and Miss Pitts 6-0, 6-1; Gillat and Miss Jukes beat Rhodes and Miss Hobson 6-6, 6-3, 7-5; Tyler and Miss Ryan beat Cardinal and partner by default; Hopper and Miss Hotchkiss beat Faulker and Mrs. Crow Baker 6-0, 6-0; Futcher and Miss Ricahy beat Andrews and Miss Weedler 9-7, 10-12, 9-7.

Goodwood Park Races

GOODWOOD, Eng., July 29—The Hunnaker Plate of 200 sovereigns for 2 and 3-year-olds, distance five furlongs, was run here today and won by Galatons. Persuade was second and Farnday third. Ten horses started.

The Goodwood Cup of 20 sovereigns each, with 1,000 sovereigns added, distance two and a half miles, was won by Carousal. Sir Harris was second and Haytor third. Five horses started.

Says There'll Be No Fight

DENVER, Col., July 29—Gov. Shafreth declares that the law against prizefighting will be enforced during his term and that there will be no fight tomorrow night between Philadelphia Jack O'Brien and Flynn in the Auditorium in this city. While considerably concerned over the announcement of the governor, the promoters of the bout say they do not expect any interference by officers of the law.

Weekly Launch Races

The regular weekly launch races, held on Wednesday afternoon, resulted as follows:

Class A—First, L. B. de Veber's Laugha-Lot; second, K. Henry's Calypso.

Class B—First, W. Elford's Reliance; second, G. A. Hunter's Three Sisters.

Class C—In this class Rutherford's Skidoo and Wales' Princess tied for first place, which was drawn for, Wales taking first and Rutherford second.

Murray Won't Resign

NEW YORK, July 26—William Murray, manager of the Philadelphia National league club, whom the new interests seek to depose, telegraphed here yesterday that outfielder Magee will not be traded for Mike Donlin of the New York club. Murray sent word that while Felix Isman, a stockholder, wanted him to resign he had no intention of resigning. Until the matter of Murray's retirement is settled by the board of directors of the club it is not likely that any further move will be made to secure Mike Donlin.

NELSON NEWS OF THE DAY

The Dixie Troubadours open their engagement at the opera house tonight.

The Dollar grocery, on the corner of Baker and Hall streets, is being remodelled.

Mrs. L. V. Roberts of the Royal hotel, yesterday let a contract for the building of two cottages on the lots adjoining the hotel.

Officers and members of Kootenay lodge No. 35, I. O. O. F., will meet this evening at the lodge room at 8 o'clock sharp for rehearsal.

In the absence of E. A. Crease, police magistrate, who has left for a trip to the east his place will be filled by His Worship Mayor Selous.

The Nelson Iron Works have received so many new orders of late that they are compelled to keep their plant running night and day in order to get the work out.

The members of the Cricket club have arranged to hold a dance in the armory on Monday, August 9, at which Wilkinson's orchestra will furnish the music. Tickets can be had from W. A. Wilkinson, E. Lupton, A. H. Cappen and any member of the committee.

The work of laying the cement for the new sidewalk around the post office was commenced yesterday and W. G. Gillett, contractor, is rushing the work along as speedily as possible so as to necessitate only inconvenience that is essential being caused the public. He expects that the walk will be ready for use again in the course of a few days.

The death occurred July 21 at St. Joseph's hospital, Victoria, of John Spencer, aged 57, a native of London, England. Deceased, who was a farmer at Findlay creek, East Kootenay, went to Victoria four weeks ago for medical treatment. He leaves a wife and young daughter, both of whom are at present in Victoria. The funeral which was in the hands of the B. C. Funeral and Furnishing company, took place on July 26 from the parlors of the undertaking firm, Rev. Dough Allen officiating.

Tonight the Arcade is showing an entire change of pictures as follows: "Canada's Winter Carnival," a splendid film showing one week's sports as played at played at the great winter carnival in Montreal. "A Coon's Loving and Wedding" is a great comic, as is also "Caught With the Goods." "Heart of a Lover" is a touching dramatic picture. Miss Mackenzie will sing. The management duly expects the arrival of the latest film on "Hunting Big Game in Africa With Roosevelt." This film has only been shown in the large cities and has only been secured for Nelson at great expense. It is 1,000 feet long and shows Roosevelt shooting his first lion, and many other interesting scenes of the trip.

The new change of program being offered at the Empire tonight and tomorrow is an exceptionally good one, the abstance being of a high order. "Whale Fishing" shows the sighting and chase of the monster fish and its capture and subsequent dismemberment. The scene of operations is the Indian ocean, off the Natal coast, and the heavy seas on that coast are realistically shown. "Shrove Tuesday" and "Spanish Blood" are two good dramatic subjects, the pictures being beautifully handcolored. "Fighting Bob" is a good naval drama. "Stuffin Wins the Prize," "Rag Tag's Bull" and "Faithful Little Doggie" are splendid comics and will cause lots of fun. E. Lupton will sing. Tomorrow the usual Saturday afternoon matinee will be given.

DIXIE TROUBADORS TONIGHT

"A Trip to New Orleans" Will be Presented at Opera House

The Dixie show has made a hit with society in New York, Newport, Saratoga, Lakewood, Tuxedo, Washington, Boston, Philadelphia and Baltimore. The smart set in these social centres were completely captivated by recent performances by these merry troubadours, who are now on their twelfth American tour, and it has given them the stamp of fashion. The swell specialties whirlwind sensational dances, Weber & Fieldsonian chorus trained choristers, comic characters and sweet-voiced soloists so completely captivated society that its leaders have ordained that the correct thing for a theatre is a Dixie Troubadours' Tuesday People' Matinee, or above the sighting and chase of the monster fish and its capture and subsequent dismemberment. The scene of operations is the Indian ocean, off the Natal coast, and the heavy seas on that coast are realistically shown. "Shrove Tuesday" and "Spanish Blood" are two good dramatic subjects, the pictures being beautifully handcolored. "Fighting Bob" is a good naval drama. "Stuffin Wins the Prize," "Rag Tag's Bull" and "Faithful Little Doggie" are splendid comics and will cause lots of fun. E. Lupton will sing. Tomorrow the usual Saturday afternoon matinee will be given.

HUDSON CELEBRATION

Japan Will Be Represented by Prince and Princess

TOKIO, July 29.—Japan will be represented by royalty at the tricentennial of the discovery of the Hudson river, according to the belief current here. The Japanese court probably will be represented by Prince and Princess Kuni, who are now touring Europe. The couple will leave London for New York on August 25.

Ask any of the good dressers you meet anywhere. You'll find they favor this store. Anything particularly nice you want to wear you'll be apt to find it here. It will be right too.

PERFECT FITTING TROUSERS

Now we're ready for our regular summer trouser sale. We've pants by the ton or by the pair.

We're Over-Panted

We are going to give our patrons a pant benefit.

We've pants of all kinds—good ones, the best ones and for all purposes.

Imagine the feelings of our pants when they are being sold at these prices.

Now, Sir, Is the Time!

Men's Tweed and Worsted Pants.....$2.50, now $1.90 and $2.00

Men's Flannel pants .....$2.50, now $2.00 and $1.00

Men's Imported Tweed pants.....$4.00, now $2.15

Men's Imported Worsted pants.....$5.00, now $4.00

Men's Imported Worsted pants.....$6.00, now $5.00

And so on down the line. To see is to know the value. We invite you.

NELSON NEWS OF THE DAY

W. E. Truesdale leaves tomorrow for the coast.

Constable J. Y. Black came in last evening from New Denver.

S. S. Fowler came down yesterday morning from Blondel.

Misses H. and L. Giegerich of Kaslo are guests at the Home.

Mrs. George M. Gunn and Miss Ida and Isabel Gunn leave this morning for Mayie.

Miss Edith Anthony of Moose Jaw is visiting Mr. and Mrs. R. A. Pyne, Baker street.

Mrs. H. Anthony and daughter of Moose Jaw are guests of Mr. and Mrs. J. W. Ashcroft of this city.

Constable Ellis has resumed his duties after being confined to his home for about ten days with pneumonia.

On account of the numerous other attractions the regular dance at Lindsay's pavilion this evening has been postponed.

The advertising committee of the board of trade held a meeting last evening at which various sub-committees were appointed to make arrangements for the collecting of the exhibit which is to go forward from Kootenay to the Toronto exhibition. It is hoped that a generous [illegible] will be made by the boards throughout East and West Kootenay so that the display sent from this district may be thoroughly representative.

The city band played selections in the band stand on Front street last evening which were taken advantage of by a large number of residents.

Mrs. Harold Chapman, who has been the guest of Mr. and Mrs. George M. Gunn for the past three weeks, returns to Moyie this morning.

Mrs. A. Middleton, accompanied by her daughter, Miss Sarah Middleton, left yesterday for Spokane where she will spend a few days visiting her daughter, Mrs. Rowlings.

J. C. Moen, foreman at the Mother Lode mine, Salmo, is spending a few days in the city. Mr. Moen says that the mine is being worked extensively and that 20 men are being kept steadily at work.

Fred. P. Drummond leaves this morning for his old home at Prescott, Ontario. From there Mr. Drummond will go to Cobalt where he will make an inspection of mine mining properties of which he is the owner.

The members of the senior lacrosse team have in view a match with Revelstoke to take place during the fair. The game has not yet been finally arranged but it is thought probable that it will materialize. The management, therefore, hope to get the boys out for practice regularly from now on.

A letter was received yesterday by Archie Bishop, secretary of the Eagles' baseball team, from the Moyie team requesting the Nelson nine to stop over in Moyie on their return from Cranbrook for a game with the Moyie men. It was not known last night whether or not the Nelson boys would be able to stay over in Moyie but it was thought probable that a game would be arranged.

Mr. and Mrs. Rothchild of St. Paul, Miss F. E. Rothchild of Minneapolis and W. W. Rothchild of St. Paul are touring Canada. They have spent the last few days in Nelson as guests at the Home. They expressed themselves yesterday as being delighted with the city, considering it by far the most picturesque place they have seen during their tour. The party left last night for the Arrow lakes whence they will go to Revelstoke and the coast.

James Cooper of Creston is a guest at the Hume.

John L. Retallack of Kaslo is among the guests at the Strathcona.

Thomas Mitchell died at the Kootenay Lake General hospital at 5 o'clock last evening from cancer.

M. S. McCarthy, M. P., of Calgary, accompanied by Mrs. McCarthy, came in on the coast train last evening and registered at the Strathcona.

Mr. and Mrs. F. W. McLaine of Greenwood are guests at the Strathcona. Mr. McLaine is secretary of the Greenwood board of trade.

Green Bros. and Burden's new building on Ward street is now nearing completion and will be ready for occupation in the course of a couple of weeks.

Alfred McMillan of Rossland reached the city last evening from the Sheep creek country where he has spent the past few days. Mr. McMillan is a brother of A. J. McMillan, manager of the Le Roi mine at Rossland and the Le Roi smelter at Northport.

Allen Purvis, divisional superintendent of the C. P. R., left yesterday morning for Greenwood to ascertain the exact amount of additional rolling stock and locomotives will be necessary in the Boundary in order to cope with the increased traffic caused by the opening of the B. C. Copper company's mines and smelter.

The moonlight excursion held last evening under the auspices of the Eagles' band and orchestra proved a complete success, over 200 Eagles and their friends being aboard the steamer Kaslo when that boat steamed up the river as far as Proctor and back. The sail was prolonged over a period of four hours and was much enjoyed by all present. During the journey the orchestra played dance music and dancing was the main feature of the outing.

Keen interest is centred in the baseball games to be played in Cranbrook this evening and tomorrow between the Nelson Eagles and the Cranbrook nine. Nelson is sending a fairly strong team, thanks to the strenuous efforts of W. E. McLean, the president of the team, Nap Mallette, manager, and A. Bishop, secretary, and there is little doubt that the matches will be well contested. The Nelson team, with the exception of Harry Bishop who is in Fernie and will double back, leave by the Crow steamer this morning, expressing themselves confident of victory. The Nelson nine will line up as follows: H. Bishop, catcher; Loring, pitcher; Stevens, first base; Lapointe, second base; A. Bishop, short stop; Childs, left field; Ferguson, centre field; Mason, right field. The team will return to the city Sunday evening.

J. T. Arundel, superintendent of the C. P. R., with headquarters at Winnipeg, who has been in Kootenay on a tour of inspection for the past couple of days, returned east via Kootenay Landing on Wednesday evening. Mr. Arundel reached the city on Monday evening. On Tuesday he spent the day fishing at Sloan Junction and on Wednesday went over to Rossland.

The intermediate lacrosse team has arranged a game with the Rossland intermediates to take place in this city on Wednesday afternoon, August 11, while a return game will be played in the Golden City on Labor day. A game has also been arranged with Cranbrook to take place here during the fair. The members of the intermediate team are therefore requested to turn out regularly for practice.

Indications point to the weather being more favorable this evening for the moonlight excursion to be held under the auspices of the local lodge of the Knights of Pythias than it has been on the two former occasions on which they have attempted to hold their outing, and it is expected that a good number of citizens will be on board the steamer Kaslo when that boat leaves the city wharf this evening at 7:30. The city band will be in attendance.

Word has been received by those in charge of the Gun club tournament to be held here on August 5 and 6 that Lee Barclay, one of the best gun shots on the continent, will be here to take part in the contests. Mr. Barclay, who is at present western representative of the Winchester Arms company with headquarters at Seattle, made the third highest professional record in the United States last year, being only one point or so behind the two leading men. Mr. Barclay's presence at the local shoot should lend interest to the occasion.

Ambassador Sails

NEW YORK, July 29—The French ambassador to the United States, J. J. Jusserand, and Mrs. Jusserand sailed for Europe today on the steamer La Lorraine.

ALL ANARCHY

(Continued From First Page.)

today. He says: "On July 27 the Moors cut the railroad, severing communication with our outposts. Our batteries held the Moors in check but the advance posts were endangered and had to be abandoned to their fate. The situation at Melilla is grave, despite the desperate bravery of the troops, who are now fighting under the walls of the city. Our losses in the regiment were, general Pintos, a colonel, two lieutenant-colonels, five captains, many officers and subalterns, and about 1000 men. The wounded number at least 1500 including many officers. The hippodrome is full of wounded soldiers. Two generals were mortally wounded.

PARIS, July 29—French army officers familiar with the topography of the Riff country, consider the official report of the Spanish defeat by the Moors at Melilla spells a complete disaster and they would not be surprised if the next news told of the fall of the city. They point out that the tribesmen evidently succeeded in their tactics which they twice tried unsuccessfully, of descending from Mount Gurugua and cutting in half the Spanish front which was four miles long, extending from the land forts at Melilla to the extreme left at Mount Allayou, a promontory on the shore of the Mar chica lagoon. The Spanish left was probably cut off without communication with the main body while the effective forces went on fighting the battle with desperation under the walls of the city.

LONDON, July 29—A special despatch from Gibraltar says that the Spanish regiments stationed in that vicinity have received hurried orders to embark at once for Melilla. More than 100 wounded Spaniards were landed this morning and taken to the hospitals.

ALHUSEMAS, Morocco, July 29—An army of 6000 Moors is now attacking this place. Alhusemas is a small island fortress and settlement belonging to Spain.
