FOR COLONIES

Unionist Policy Should Be Unalterable

Archbishop of Canterbury Denies Rumor

Winnipeg's Victory Popular in England

LONDON, July 8—Mr. Balfour, who is suffering from a cold, wrote to the Women's Tariff Reform association regretting his inability to address them on tariff reform, especially on the imperial side which he says is becoming daily more urgent. He adds that it is of the utmost importance that the overseas states in framing their policy of commercial treaties should be assured that the ideas and convictions of the Unionist party will remain unalterably fixed.

Preposterous and Baseless.

LONDON, July 8—A letter is published from the Archbishop of Canterbury to the dean of Quebec on July 4, in reference to a paragraph in a New York paper reporting that King Edward had died a Roman Catholic. He says the report is preposterous and baseless.

Joseph Chamberlain's Birthday.

LONDON, July 8—Joseph Chamberlain has received thousands of messages, many of them from Canada, on the anniversary of his 74th birthday. The press here of all parties pays tribute to the veteran statesman.

Investigating Steel Properties.

LONDON, July 8—Another representative of Speyer Bros., the well known bankers, has been in Canada inspecting the properties of the Dominion steel corporation. It is understood to be highly satisfactory. The Speyers recently successfully placed a large issue of Dominion steel bonds among British investors and before doing so made an exhaustive study of the plant. It is presumed that this latest investigation means that the banking house contemplates increasing their interest in the property but nothing definitely is known.

Canadian Missions.

LONDON, July 8—The third annual review of the central board of missions has fifty pages devoted to affairs in Canadian dioceses.

Popular Victory.

LONDON, July 8—Winnipeg's victory is regarded as the great event of Thursday and was most popular. The sympathy of all on-lookers was with Canadians who were given the most flattering reception of the day. The result was regarded as a fitting reward for their good sportsmanship in coming all the way from Canada. All experts agree they are a singularly good, fast crew, although they do not row in anything like the English style. The time of the race was also fast. The Germans were most optimistic of winning but, as one expert says, the difference between the crews is aptly described by the expressions fat and fit, Canadians being decidedly the fitter of the two. It is hoped this success will lead to more frequent visits of Canadian crews to Henley. The Stewards' cup is not the only trophy to leave England and pleasure is felt that it is kept in the Empire by the plucky Canadian crew.

Winnipeg in Toronto.

A pleasant official geographical jog is being given to the governing body of the Henley regatta, because the Winnipeg crew was heralded on the official placard as "the Winnipeg crew, Toronto." One of the officials when chaffed about it, replied: "Why, what's the matter, that's all right, isn't it?"

DOMINION STEEL TO OPEN NEW COLLIERY IN CAPE BRETON

GLACE BAY, July 8—The prediction that the Dominion Steel corporation was to institute a policy of expansion is not only manifested at the Sydney plant of the company, but also at their collieries. The bustle and activity at their Nos. 11 and 14 collieries on the Lingan seam is well known and the latest piece of work is the opening of another new colliery on the same seam to be known as Dominion No. 17. The company's men have been engaged there locating the coal for some time and have just struck a fine seam at 34 feet, which is of excellent quality.

The work of sinking a slope will be started at once and the opening of the new mine will be rushed during the summer.

It is predicted that before very many months the company will have five new collieries on this seam producing coal, which, to say the least should furnish sufficient employment for all who desire it.

All the other collieries are working steadily and good outputs are being secured.

DR. WOLVERTON IS VICE-PRESIDENT

Provincial Baptist Convention Now in Session in Vancouver—Officers Are Elected.

(Special to The Daily News.)

VANCOUVER, July 8—The provincial Baptist convention organized last evening in Mount Pleasant church with 75 delegates present. This morning the election of officers for the ensuing year resulted as follows:

President, Rev. A. W. MacLeod, now of Nanaimo, but who leaves pastoral work shortly to become physical director of Okanagan university; first vice president, Rev. Dr. Wolverton, of Nelson; second vice president, Dr. Spencer, Vancouver. The third vice president is to be the nominee of the women's board. Secretary treasurer, Rev. F. Auvache, Penticton.

PORTLAND ENTRIES WIN AT NORTH PACIFIC REGATTA

(Special to The Daily News.)

VANCOUVER, July 8—The first day's regatta of the North Pacific Amateur oarsmen ended in a triumph for the Portland entries who won three out of four races. The course was laid out at the head of the North Arm of Burrard inlet at the mouth of the Indian river. The entire mile and one-half was this afternoon in ideal condition.

Results of the races are as follows: Junior singles, won by Kennedy of James Bay club, Victoria, time 10:04. Junior fours, won by Portland, time 8:53. Junior doubles, won by Portland, time 10:42.

Officers of the association were chosen as follows: President, H. E. Judge, Portland; vice president, D. O. Sullivan, Victoria; secretary H. W. Kent, Vancouver. It was decided to hold next year's regatta at Portland on some Friday and Saturday between July 3 and 25.

CONTRACTORS SHORT OF MEN

CALGARY, July 8—Owing to the enormous amount of construction work now being undertaken in Alberta, some contractors claim that they are finding great difficulty in securing a sufficient number of men to handle the work they have undertaken. Representatives of the contractors are endeavoring to pick up every available man. Mules are being imported in large numbers for work on the graders, scrapers, etc. From reports being daily received it now appears that central Alberta will harvest a crop that will set this year's record for western Canada.

BITUMINOUS COAL FOUND AT MIDWAY

One Seam of High Grade for Coke and Steam Uncovered—Going After Second Seam

High grade bituminous coal has been found at Midway. One seam was recently uncovered and prospectors are at work on a second one.

Experimental work has proved this coal excellent for steaming and for coke. The owners will try to prove the extent of coal available at that point and if they succeed in establishing the fact of quantity the mere location of the find will make it a success and the property will then be thoroughly developed. At the present time the coal which the C.P.R. uses in the Boundary district has to be brought from the Crow's Nest at no inconsiderable expense.

FARMER GORED TO DEATH BY FURIOUS BULL

HALIFAX, July 8—Daniel J. McDonald, a farmer of Loch Lomond, C. B., was in his field giving his bull water and was walking towards the gate of the pasture when the animal turned and gored him to death. Mr. McDonald was almost through the gate when the fierce animal came up with him and crushed him against the bars of the gate with its heavy body. McDonald endeavored to escape but was struck down as he attempted to rise and was terribly bruised. It took several men over an hour to beat away the infuriated animal, as apparently the prostrate form served to increase its anger. The terrible accident was witnessed by his wife who was too far away to render assistance. The remains were carried to the house but were so terribly torn that it was necessary that burial should be made at once.

INCREASED PAY FOR TRAINMEN

MONTREAL, July 8—President Hays of the Grand Trunk railway, this afternoon announced that the company proposed an increase of pay to its employees of the train and yard service equivalent to that recommended by the majority of the conciliation board which has already been accepted by the C.P.R. The average increase is about 18 per cent.

CHIEF JUSTICE BURIED

CHICAGO, July 8—The last rites over the body of the late Chief Justice Fuller were performed here today. Interment was at Graceland in a grave beside his wife. The funeral party which arrived from the east followed the casket to St. James church under the escort of a local delegation. All courts were closed.

INTO TRAILER

Train Runs Into Crowded Street Car

At Pembina Street Crossing in Winnipeg

One Killed and Several Are Injured

WINNIPEG, Man., July 8—Canadian Northern passenger train No. 43 which left the depot at 4:45 this afternoon for Oak Point, Lake Manitoba, ran into a crowded trailer on the Winnipeg Electric street railway at the Pembina street crossing in Fort Rouge, killing Mrs. Lawrence and seriously injuring her husband and three year old son, who are in the hospital in a critical condition. Mrs. James Lyon of Meade, St. John Urquhart, a student of Marion street and E. Jones, clerk, Spence street are also badly hurt and are in the hospital.

Flag Man Arrested.

The train was running at about 25 miles an hour at the time of the accident and Flagman McCoy who was on duty claimed he signalled the train to stop but the signal was unnoticed by the engineer. The flagman has been arrested.

Bound for River Park.

The street car was bound for River Park, a summer resort, about two miles from the city and was crowded with passengers many of whom received minor injuries. Mr. and Mrs. Lawrence and family came here from Toronto on a visit and were out sightseeing in the city.

Constructing Subway.

On account of the many narrow escapes at this crossing the railway commission last spring ordered a subway to be put under the railway tracks and work on the subway was well under way.

REAL ESTATE CHANGING HANDS AT THRUMS

Crops Looking Well But Rain is Required—Imports Goats From Fruitvale.

(Special to The Daily News.)

THRUMS, July 8—Mr. Clayton sold his ranch here last week to Joe De Machell.

Mr. Dehrin purchased 10 acres of J. De Machell and is building a house on the same. In the meantime he will reside in R. Power's house.

Miss Lydia Jackson's brother is here on a visit from Chicago.

R. Randall is back in the valley for a few days on business.

Two Goats.

Mr. Collins sent home two fine young goats to his ranch here from Fruitvale.

William Scott left here Monday for the coast.

Mr. Hooper of Alberta, is in the valley for a few days.

Crops in this locality are looking well but a good rain is very much needed.

PAYS VISIT IN AEROPLANE

ATLANTIC CITY, N.J., July 8—Six exhibition flights, three made by Walter Brookins in the Wright biplane and three by Glenn Curtiss made up the day's program of the Atlantic City aero meet and brought the Wright and Curtiss machines together in the air, it is said for the last time in aviation history. No attempts were made at records for speed or altitude during the day but daring evolutions of the two aviators created a sensation among the spectators. Curtiss created a sensation on his final flight by soaring down to Ventnor where he landed to make a call on Lieut. Hugh M. Willoughby and to examine the Willoughby machine which will have its first trial some time next week. Curtiss disappeared from view in the light haze over the ocean and when he failed to return to sight the excitement was intense. In the midst of the excitement Curtiss telephoned his whereabouts.

PICTURES PERMITTED UNLESS LEWD OR IMMORAL

ALBANY, July 8—Corporation Counsel Arthur L. Andrews today advised Mayor James H. McEwan that moving picture exhibitions cannot be prohibited in Albany unless, in his opinion, they were of a lewd or immoral nature. His opinion followed the filing of a protest with the mayor against the exhibition in Albany of the moving pictures of the Jeffries-Johnson fight.

Wants Fight Pictures Suppressed.

BINGHAMPTON, N.Y., July 8—Acting on behalf of the 600 members of the New York Christian Endeavor Union and with the approval of the officers, Dr. Bernard Clausen of this city, the state secretary today wired Governor Hughes urging that the Jeffries-Johnson fight pictures be suppressed in New York state. A similar telegram was sent to Mayor Gaynor of New York city.

STEAMER ARRIVES

CAPE RACE, July 8—The steamer Parisienis, Glasgow and Moville, for New York, was 1,154 miles east of Sandy Hook at 11:30 a.m., and will dock at 1:30 p.m. on Monday.

BISHOP WINS CHAMPIONSHIP

LETHBRIDGE, July 8—A. Bishop won the championship of Alberta and Eastern British Columbia today, winning the $150 cup. He broke 47 out of 50. He was also second highest on the whole day with 138 out of 150.

DETECTIVE LYNCHED AT NEWARK

Shot Saloon Keeper and Mob Takes Terrible Revenge—Victim Had Been Strike Breaker.

NEWARK, N. J., July 8—O. Carl Etherington, 32 years old, employed on Thursday night by the state anti-saloon league as a blind tiger raider, was lynched here tonight at 12:35 following a day of almost continuous rioting. The heavy doors of the Licking county jail were battered down and Etherington was dragged from his cell. He was shot, kicked and bruised before the street was reached and the finish followed quickly.

Mob Was Pitiless.

Etherington early in the evening confessed he killed William Howard, proprietor of the Last Chance restaurant, and former chief of police in a raid of alleged "Speak-Easy's" during the scuffle, and narrowly escaped lynching at that time. When the news from the hospital that Howard had died passed over the city at 9 o'clock tonight, the fury of the mob took definite form. Large battering arms were directed upon the doors of the Licking county jail and the deputies were powerless. The doors fell after nearly an hour's attack. Crying piteously, Etherington a curly headed Kentuckian who had been serving as a strike breaker since he was released from marine service three months ago, was dragged forth. "I did not mean to do it," he wailed but his cries fell upon deaf ears.

Fear More Trouble.

Fearing that the mob spirit would not be satisfied with one victim, Sheriff Link immediately asked Adjutant General Weybrecht for troops to protect six of the "dry" raiders held at the city prison in another section of the town. A hurried guard was thrown out in their defense. The mob after the first taste of blood seemed to quit, but it is feared that the rioters will storm the city prison before the night is finished. Etherington's last moments, while he heard the mob battering down the doors, were spent in praying and writing a note to his parents, farmers residing near Killisburg, Ky. "What will mother say when she hears of this?" he kept moaning to the jailer.

Attempted Suicide.

While the mob was battering down the doors, Etherington in his cell made an attempt to commit suicide. He smothered his head in his coat and set fire to it but was caught in time.

In the melee after the mob was leaving the jail, eight prisoners held for petty offenses escaped, one refused to leave. Etherington mounted the block ready for the swing he was asked to make a speech.

Women Present.

"I want to warn all young fellows not to try to make a living the way I have done—by strike breaking and taking jobs like this," he declared. "I had better have worked and I would not be now—" A swing from the crowd cut him short. He hung there for an hour while the crowd quietly left. After the first excitement there was no disorder. At the finish there were hundreds of women and little children in the crowd all eager to accomplish his death. No member of the mob was masked and no attempt was made to conceal their identity. The leaders were personal friends of the dead man.

Wayne B. Wheeler, state superintendent of the state anti-saloon league, said the men who made the Newark raids today were not in the direct employment of the state league. They were hired by the Licking county law enforcement league, he said, through a Cleveland agency of which ex-representative Pierce D. Metzger is proprietor. At Granville, Licking county, 20 men were sworn in as special officers and furnished with warrants under the Wood's Search and Seizure act. It was planned to raid Newark places where liquors were sold illegally. Supt. Wheeler said he knew nothing concerning the special officers nor their home address.

NEWARK, Ohio, July 8—William Heard McKenna, an ex-policeman, is dying from a pistol shot wound inflicted by an unknown "dry" detective and the county jail was surrounded by a mob of 3000 men and women shouting for the lynching of the unknown detective who was chased for blocks and brought to the jail by an excited crowd of 500 men.

During the raid on a saloon a detective hit bartender Ed McKenna and severely injured him, and the crowd quickly gathered. The detective escaped but the crowd was augmented and when McKenna tried to arrest Detective James Henderson, he was shot by an unknown man. Mayor Atherton appealed to the mob to let the law take its course and the mob dispersed.

ANOTHER WIN

Canadians Win Colonial Prize at Bisley

Takes Second Place for Kolopore Cup

Most Exciting Finish in Many Years

BISLEY, July 8—Canada wins the Colonial prize for the best colonial team score. The best team score for the cup was 778 made by England in 1907.

Second in Kolopore Cup

BISLEY, July 8—The mother country won the Kolopore cup; Canada won second place.

The Kolopore cup match was fired today. The cup was won last year by Canada. The competition is open to teams of eight and is fired at 400, 500 and 600 yards. The number of shots at each range is seven for each man. The first prize was donated by the Rajah of Kolopore in 1871. A special commemorative silver bowl is given by the National Rifle association to the captain, adjutant and clerk member of the winning team. A prize of £8 is also donated by the National Rifle association and is awarded to teams exclusive of the mother country team, which makes the largest aggregate score in the competition.

The final standing of the teams follows: 400, 500, 600, mother country, 264 270, 264, 789; Canada, 267, 273, 256, 796; Australia, 253, 271, 243, 777; Malay States, 253, 256, 248, 757; Guernsey, 253, 265, 252, 770; South Africa, 253, 265, 239, 756; India, 249, 260, 236, 745; Singapore, 243, 264, 235, 742.

The scores of the Canadians were: 300, 500, 600, Crowe, 34, 35, 31, 100; Forrest, 33, 34, 32, 99; Freeborn 35, 34, 33, 102; McHarg, 34, 35, 33, 102; Morris, 34, 34, 33, 101; Mitchell, 31, 32, 30, 93; Russell, 33, 35, 32, 100; Stock 33, 34, 32, 99; totals, 267, 273, 256, 796.

Today's Kolopore competition was the most exciting in many years. The Canadians were leading when unfortunately Mitchell for his last shot got an outer. This raised the hopes of the mother country who had two shots to go after the Canucks had finished, when Gray with a bullseye and Runciman with an inner scored a victory for the mother country by two points.

LORD SHOLTO DOUGLAS WORKING ON SURVEY GANG

SPOKANE, July 8—Vowing he has spent his fortune on his wife, Lord Solto Douglas left Spokane yesterday to work with a Canadian Pacific railway survey crew for three months at $2 a day. Lord Sholto is a brother of the present Marquis of Queensberry and cousin of the Marquis who gained fame through the code of pugilistic rules. Lord Sholto married Miss Margaret Mooney, known on the variety stage as Lorretta Addis.

ROCKEFELLER CELEBRATES HIS 71st. BIRTHDAY

CLEVELAND, July 8—John D. Rockefeller celebrated his 71st birthday anniversary today in the same manner he spends practically every other day of his summers in Forest Hill. In the morning he took a short automobile ride into the country and during the afternoon he played a game of golf. There were several telegrams of congratulations from friends.

REVENUE AND EXPENDITURE HAVE BOTH INCREASED

OTTAWA, July 8—The total revenue for the Dominion during June was $9,612,677.28, compared with $7,978,822.42 in the same month last year. The expenditure on consolidated account last month was $9,612,677, as compared with $7,978,822 in June, 1909. In the first three months of the fiscal year the outlay was $8,830,107, compared with $8,816,756 in the corresponding quarter of last year. The revenue for the quarter totalled $26,734,851 as against $21,892,872 in the corresponding quarter last year. On capital account the June expenditure was $1,622,333, and for the quarter $3,150,051, as compared with $2,911,284 and $4,091,498 respectively.

THOUGHT BRANTFORD MAN WANTED TO SHOOT JOHNSON

CHICAGO, July 8—Richard McQuick, a St. Louis racetrikist, was arrested today after he attempted to force an entrance to the home of Jack Johnson, the negro pugilist, at 4344 Wabash avenue. McQuick was armed with a rifle. The police were called by excited neighbors of Johnson. They feared that McQuick intended to kill the heavyweight champion. McQuick is held in jail pending an investigation. When examined at the police station he said he had lost $25 on the prize fight at Reno. He denied that he intended to harm Johnson, and he said his home is in Brantford, Canada.

PRESIDENT TO PRESENT PRIZE.

BEVERLEY, Mass., July 8.—President Taft has been asked to present the Royal Bermuda cup to the winner of the international yacht race, to be sailed the week of July 25, under the auspices of the Manchester Yacht club. The race will be between Canadian and American yachts. The cup was won from Canada in 1906. The challenge is from the Royal Canadian Yacht club.

CATTLE POISONED BY BLASTING POWDER

Robson Farmers' Institute Discusses [illegible] Line to Arrow Lakes

(Special to The Daily News.)

CASTLEGAR, July 8—Several carloads of machinery for the mill of the Edgewood company, that have been delayed in transit, are now being unloaded.

All roads lead to Castlegar and on that account the Order of Railroad Telegraphers has adopted it as a good place to hold their regular meetings, a large number of the order meeting here a few nights ago, to transact business, all agreeing that Castlegar, or "C.G." as it is known in the telegraph code, was an ideal spot at which to foregather.

Owing to the length of time that the Boundary passengers have to wait at Castlegar to make the boat and Rossland connection, the station platform often presents a gay appearance as the ladies walk around or watch the local tennis club at their play.

Mrs. W. J. Farmer and children have been visiting at Cascade this week.

Cattle Poisoned

At the last regular meeting of the Robson Farmers' Institute attention was drawn to the fact that cattle have been poisoned by being able to get at blasting powder that was left exposed by some careless land clearers, Mr. Fowler of Robson having lost two valuable cows from this cause. It is intended to bring the matter before the Central Farmers' institute and to endeavor to have the boxes marked poisonous. At the same meeting a petition addressed to the minister of public works, re the appointment of a royal commission to enquire into the deepening of the Columbia river, so as to allow of the passage of grain boats, was endorsed and ordered sent to the Nelson board of trade. Mr. Osborne gave a practical paper on land cultivation and was listened to attentively, a long discussion following. The question of a fruit box label that would be suitable for the whole of West Kootenay was informally discussed. There are now 60 members of the institute.

Electric Road

The project as outlined in the Inland Sentinel of Kamloops of recent date re the building of an electric road from Kamloops to Grand Prairie, thence to Vernon and out to the Arrow lakes is of interest to the people here as to get a rail connection it would have to come to Castlegar to connect with the various C.P.R. lines radiating from here. The line is to be built for the purpose of opening up the large gypsum beds at Grand Prairie and is being promoted by H. Pearce, a former co-worker of the late Cecil Rhodes.

WESTERN TRADE IS SATISFACTORY

Flour Millers Have Advanced Prices Fifty Cents in Past Fortnight—Crop Reports Optimistic.

NEW YORK, July 8.—Bradstreet's statement of trade tomorrow will say: Retail trade runs from fair in the east to very satisfactory in the western section of the Dominion. Crop returns are more favorable and grand rains have fallen in Manitoba. Wholesale grocers in Montreal report a large demand for sugar, this being due to heavy receipts of strawberries and other fruit. Flour millers advanced prices 25 cents per barrel, thus making a gain of 50 cents in the past fortnight. Pork products are easier owing to larger offerings in hogs. Money is firm. Toronto states groceries are moving freely and country trade is fairly brisk, while there are few complaints heard regarding collections. Reports from the centre also indicate that crop returns are most optimistic and that an average yield is expected.

Bank Clearings.

NEW YORK, July 8.—Bradstreet's weekly bank clearings are as follows:

		Inc.	Dec.
Montreal	$23,189,000	....	6.8

AWAKENED WITH BOATHOOK.

NEW YORK, July 8—James Madden, a young man from Brooklyn, was floating down the North river shortly after midnight this morning enjoying a refreshing sleep when the crew of the tug Interstate sighted him. Naturally thinking it to be a dead body, they thrust a boat hook into the body and hauled him aboard, apparently unconscious at the time but he came to shortly before the tug reached her pier and began to abuse the captain for having spoiled his (Madden's) sleep.

LUCKY LAWYER.

CHICAGO, July 8—Two hundred and fifty thousand dollars is the fee demanded and may be paid to Attorney Clarence Knight for service rendered in straightening out the estate of Charles T. Yerkes, the late traction magnate.

TO RESTORE HORSE RACING.

JEFFERSON CITY, Mo., July 8—A bill is to be presented to the next legislature for the restoration of horse racing in Missouri according to John D. Knapp of St. Louis, in a communication to the secretary of state.

MODEST CITY

Traveller Talks About Grand Forks

Kettle Valley Well Worth Advertising

Residents Confident of Bright Future

"A modest city." This was his opinion of Grand Forks epitomized yesterday when a modest traveller returned from a visit in the Boundary district and was asked about his impressions of the Kettle valley metropolis.

"I believe my characterization of the place is fully justified by the facts as I found them," continued the traveller. "Down there is one of the most beautiful valleys I ever saw; a veritable garden spot with its great acreage of level fruit orchards and green fields. They have a modern city with hotels, schools churches, waterworks, electric light, fire department, department stores, banks and three railroad systems, of 2000 inhabitants. The Granby smelter, the largest copper smelting plant in the British empire and having from 700 to 800 men on its payroll, is located there. Tributary to Grand Forks there is no less than 2500 people outside the city. Yet, with all its superior advantages for becoming a large prosperous city Grand Forks is not nearly as well known as it should be."

Sure of Future

Continuing the speaker stated as his opinion that owing to its location and varied interests Grand Forks was beyond the danger of retrogression. They seem to be so sure of the future that the leading citizens are content to wait for outsiders to come voluntarily. Railroad extension work which is under way or contemplated by both the C.P.R. and Great Northern and which will connect the valley with Vancouver by direct line, is relied upon for some free advertising. The Kettle Valley lines are building toward Franklin camp up the north fork and this means more business tributary to Grand Forks. Heretofore the feeling has prevailed that the city was located on stub railroad lines and that this was detrimental, but all that is being changed.

Heavy Fruit Shipments

"Sixty carloads of fruit will be shipped from there this season," he continued, "and next year they will have 80. One rancher, Mr. Honsberger, will have eight carloads of prunes alone." The visitor described a drive through the orchards which he greatly enjoyed and stated that the well known Covert ranch was a picture worth going many miles to see. Apples, prunes, plums, cherries and other fruits are successfully grown in quantity. The plum crop will be particularly heavy. The fruit forms on the tree in clusters like grapes and has to be thinned, which is expensive.

Two New Banks

A general air of quiet prosperity impressed me," continued the speaker. "Two new bank buildings have been erected, one by the Royal Bank of Canada and one by the Eastern Townships bank, both practically completed. General Tennant, an American rancher, was looking at lands in the valley with a view of making it his home. And I was informed by Mr. Knight that shipments of ore would start very soon from a mine he owned near the city which was known as the Bertha.

"I was talking with the mayor and some of the other prominent citizens as to the advisability of more publicity and having a salaried secretary do such work. It would not be a surprise if they acted on the suggestion.

Fifty Thousand Fruit Trees

"An aggregate of no less than 50,000 fruit trees were set out in the Kettle valley this spring. One lot of 20,000 were placed on a single property. These yearling trees are obtainable at the Grand Forks nurseries, also a local enterprise of growing proportions. Dry farming methods have played an important part in the development of agricultural lands in the Kettle valley but good water is abundant. Beneath the soil from 40 to 50 feet water may be found all through the district and the rivers are deep and from 50 to 100 feet in width. For the purpose of demonstration, the Boundary Trust company is erecting a pumping station on a tract of land west of Grand Forks. This involves a considerable expenditure and will be used to irrigate the property.

N. L. McInnes, formerly of Nelson, conducts one of the two large departmental stores in Grand Forks, the other being that of Jeff Davis and company.

"One thing they ought to do down there," said the traveller, as he concluded his cigar and chat at the same time, "and that is get after the railroads to move their stations nearer the business center and in my humble opinion this would be both feasible and desirable."

CALL FOR TROOPS.

COLUMBUS, Ohio, July 8.—Adjutant General Weibrecht has received a telephone call from Newark asking for troops. He is seeking to mobolize a company of the Fourth regiment and troop B, which are stationed here.

THE FORMULA OF "FRUIT-A-TIVES"

Is On The Outside Of Every Box For All The World To See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now state clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

Everyone knows that fruit juice is healthful—but perhaps some do not understand why this is true.

Fruit juice consists of about 91% water, 8% of sweet principle, and 1% of a bitter substance. It is the quantity of bitter principle in fruit that gives the fruit value as a medicine. An eminent physician of Ottawa, after years of experimenting, found a method of increasing the bitter principle in fruit juice, thus increasing the medicinal or curative qualities.

The juices are first extracted from fresh, ripe oranges, apples, figs and prunes. By a secret process, some of the sweet atoms are replaced by the bitter principle. Then tonics and antiseptics are added, and the whole made into tablets, now known far and wide as "Fruit-a-tives."

"Fruit-a-tives" is the only medicine in the world that is made of fruit juices, and is one of the few remedies that have let their composition be known from their introduction to the public.

"Fruit-a-tives" is nature's stimulant for the liver, bowels, kidneys and skin. In cases of obstinate Constipation, Liver Trouble, Indigestion, Backache, Rheumatism, Headaches and Impure Blood, this wonderful fruit medicine cures when everything else fails.

"Fruit-a-tives" is sold everywhere at 50c. a box, 6 for $2.50, or trial box, 25c., or will be sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

BUILDING ACTIVE AT FERNIE

Thirty-Five Houses Already Erected—Fergie Alderman Elected by Acclamation

(Special to The Daily News.)

FERNIE, July 8—Nominations were held today to fill the vacancy in the city council caused by the resignation of Ald. L. B. McDonald. There was only one candidate nominated, James A. Broley, who was therefore declared elected.

Building operations still continue active, over 35 houses having been already erected this year in the Annex and several large structures being in course of erection in the centre of the town. The new court house is rapidly nearing completion and will be ready for occupancy before the fall assizes.

The athletic association is preparing an attractive program of sports for the Labor day celebration and it is expected that athletes from all the neighboring towns will compete in the various events as the prizes to be offered will be the best ever put up here.

WOMAN AEROPLANIST DYING

Second Fatal Accident at Rheims—Baroness Lost Control of Machine

RHEIMS, July 8—Baroness Delaroche the French woman aeroplanist, was fatally injured here this afternoon by falling from a height of 50 metres.

The baroness had flown around the field at a height of 80 metres when suddenly in front of the applauding tribunes she appeared to become frightened and confused at the approach of two other aeroplanes. She started to descend but while still 20 metres from the ground lost control of the machine. The aeroplane turned over and fell like a log. The baroness' legs and arms were broken. Her mangled body was extricated from the wreckage and conveyed to the hospital where she is dying. At the hospital it was found that her skull was fractured. This is the second fatal accident at this meeting, Wachter having been killed last Friday. While momentarily conscious the baroness explained that the rush of air from a motor passing overhead had frightened her. She lost control of her machine.

Broke Records

BETHANY PLAINS, July 8—Two aviators broke the record for 150 kilometres at the meeting here today. Hubert Latham covered the distance in 2 hours 1 minute and 6 seconds and afterwards the Belgian, Ollestagee did it in 1 hour 58 minutes and 5 seconds.

Fancy Flying

ATLANTIC CITY, N.J., July 8—Glenn H. Curtiss made a ten minute exhibition flight here this afternoon covering eight miles along the Boardwalk. He left the ground at 10:26 this morning near one of the ocean piers in the central section of the city, swung up to the inlet over the five mile course and then after a beautiful turn shaved his course down the boardwalk. Returning he made a perfect landing at the starting point. Signals that Curtiss would go aloft were set and a great crowd was on the beach and boardwalk to see the flight. Aviator Brookins in a Wright biplane failed in his first attempt to leave the ground half an hour after Curtiss had made his flight. At noon Brookins made another attempt to go aloft and this time succeeded. He was followed a few moments later by Curtiss in his Swift machine and both gave an exhibition of fancy flying over the ocean that brought cheers from the spectators. Brookins almost turned his machine on its end making short circles in a little over 100 feet between two big ocean piers. Brookins was in the air about 10 minutes and Curtiss five.

BRAVE PRIESTS PUT BURGLARS TO FLIGHT

NEW YORK, July 8—Three masked burglars, intent on cracking a safe and getting $500 in cash and other valuables belonging to the church, were caught at work in the rectory of St. Leonards Roman Catholic church in Brooklyn today.

Three priests bravely sprang to the defense of the church treasures and attacked the robbers. The men and churchmen battled for more than a quarter of an hour before the issue was decided in favor of the priests. The burglars fled. As a result of the encounter, Fathers Kelly and Oppel are suffering from severe bruises on their heads and arms, and Father Sanders has a long knife cut in the hand, received in a final grapple with the marauders when one of the masked men held the pursuers at bay near the window while his two companions escaped.

Each grate bar has three sides—long wear

When only *one* side of a grate bar is continually next to the fire all the wear is *concentrated* on that one side. The life of the grate bar is thus naturally just *one-third* as long as when the wear is *distributed* on *three* sides.

That explains why Sunshine grates have *three lives*. Each of the four grate bars has *three* sides. Each time the ashes are "rocked down" (no shaking with Sunshine) the side next to the fire can be changed. Thus the life of the grates is greatly prolonged.

When desired, the heavy bull dog teeth on the grates will seize hold of clinkers, grind them up, and drop the particles into the ash-pan.

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives **no outside heat.** All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking — none in outside heating.

New Perfection 3 WICK BLUE FLAME Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is **no surrounding heat—no smell—no smoke.**

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot.

It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at *forty* or *forty-five* ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce, Pres., Buffalo, N.Y.

First Sale of Lots in the Salmon Rapids Townsite

situate at the junction of the South Fork with the Salmon river, eight miles south of Salmo, and five miles north of the Pend O'Reille river at the International boundary. Here are the points which insure the future of the town.

1. It is the centre of what will undoubtedly be the largest and most remunerative fruit raising district in the province, as the elevation is lower and the climate milder than any other fruit district in the Kootenays. Over 10,000 acres of fruit land with the finest soil in the province have already been taken up for settlement.

2. Over 1,500,000,000 feet of timber are held by various large lumber concerns in the immediate vicinity and the contour of the country makes it necessary that all this timber must be cut at Salmo Rapids.

3. The Idaho & Washington Northern railway is to be extended northwards from Metalline, 21 miles south of the boundary and will reach the town shortly, when the lumbering industry will immediately be established on a large scale and provide a big pay roll for the town.

4. There are a number of valuable mining properties being worked within a short distance of the town.

5. There is now a good wagon road to Salmo and another is under construction to connect with the Pend O'Reille road to Waneta. The latter will be part of the automobile road which the Hon. Minister of Public Works has guaranteed will be built in two years through from the Coast to Alberta. It forms the main street through Salmon Rapids.

The townsite is level as a billiard table and the streets are all cleared. Here is a town in the making which will shortly rival Creston where lots have recently sold at ten times their original price. For a short time lots are offered at $75, and upwards, but this opportunity will not last long. The moral is to get in early.

FRENCH CROPS ARE SUFFERING

Heavy Rains do Damage, and Floods Are Feared—Mildew Attacks Grapes.

PARIS, July 8—The continuous cold and wet weather is beginning to cause serious alarm. There has been daily rain for six weeks and the precipitation since the first of January has already exceeded the average rainfall. A recurrence of floods is threatened. Many streams are full and some are out on their banks. The grape crop is suffering heavily and mildew has made its appearance in the champagne district. The hay crop is almost destroyed. Meteorologists attribute the rainfall to continuous hot westerly winds from America which absorb moisture in crossing the gulf stream that is precipitated as soon as it comes in contact with the broad land of the continent.

PORTUGAL REVISES TARIFF.

LISBON, July 8—The government is preparing a general revision of the tariff. It will lower the duties against countries which have no commercial treaties with Portugal and will increase them from thirty per cent. against others.

GERMANY INTERESTED IN RUSSO-JAPANESE AGREEMENT

BERLIN, July 8—Lively interest is felt in official circles regarding the Russia-Japanese agreement, the text of which has not been forwarded to the German government. The maintenance of the status quo which the agreement is ostensibly intended to secure is considered most desirable. The most delicate point in the agreement refers to the understanding by third powers in Manchuria, which still belongs to China. The agreement therefore cannot be directed against China. It is pointed out that America obtained a concession for the Again Chin Chow railroad for China and the question is now raised here whether the agreement is intended to oppose America's unwelcome intrusion in the Russo-Japanese sphere of influence. If so, the agreement is taken to mean the closing of the open door.

GOING TO EUROPE.

SANTIAGO, Chili, July 8—President Monte, who has been suffering from angina pectoris will go to Europe to recuperate and leaves Elias Fernandez, vice president at the head of the government.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Cholic, Cholera and Diarrhoea Remedy. FIRE! FIRE!

Talks to the Business Men of Nelson

The following is the first of a series of pamphlets entitled "Burning Subject," issued by the Fire Insurance Committee of the National Association of Credit Men of New York. It will interest you, no doubt—read it.

To you as a fair minded business man, I desire to put two simple questions which in self-interest you cannot put off answering.

Is our property so insured that in case of its destruction by fire you could pay dollar for dollar to your creditors?

Again, in case of fire upon your premises would your savings, perhaps of a lifetime be safeguarded by enough and sound insurance to keep them intact?

If you cannot give me an emphatic "yes" as your answer, then you are taking longer chances than anyone has a right to take.

With the hazard of fire always present, not to mention the hazard of conflagration—with property losses in the United States steadily mounting, having averaged during five years ending December 31, 1907, $250,000,000 annually, almost $690,000 daily, does it speak well for the common sense and honor of the American retail merchant that a credit man for one of the largest hardware houses in the land can say that "of the great number of property statements coming under his observation, not one in fifty shows that the trader is carrying sufficient insurance."

It may be that you, like hundreds of other business men, consider yourself comparatively free from danger of fire loss, because, perchance, your town or city has thus far escaped a scorching, a fact that is more likely due to good fortune than to any inherent advantages for conditions similar to those all about you have contributed again and again to widespread and disastrous fires.

You owe it to yourself, your family and your creditors to surround your business with safeguards that will reduce to a minimum your chances of being embarrassed by a fire which may begin in your premises, or perhaps in the premises of a fellow townsman several blocks away. This means not only insurance but adequate insurance.

In most lines, stocks are larger in certain periods of the year than in others, so with changes in the value of your stock, do not overlook changing the amount of your insurance.

To take a chance with your insurance is not business. It is just as important to charge into the selling price of your goods the cost of insurance as rent or interest or taxes.

No one can afford to sell you on time or lend you money if you are not fully insured, for your ability to pay when the debt is due would be destroyed by fire and your creditors in that case would find that they had been your insurers without the compensation which a prudent insurance company would have charged for the service.

I am not writing as an insurance man but as a business man. My only interest so far as insuring companies are concerned is that they be strong enough to meet their losses and that they sell insurance at a fair price.

My purpose is to see my customers protected against disaster. That's why this leaflet is written and that is why it is to be followed by others which will point out some other matters on insurance almost as important as that you fully insure. Perhaps you will be able to handle your insurance more understandingly after you have read them.

Insure, and do it now—otherwise your assets today may be cinders tomorrow.

Are you fully insured? Are your policies properly written? Are the companies now carrying your risk able to pay up promptly in case of loss? If in doubt about all this, see us. We represent none but the best companies. We know the business—have been at it all our lives.

COMMISSIONER METCALFE'S MARKET REPORTS.

The provincial department of agriculture did an excellent thing when it appointed Mr. Metcalfe market commissioner and sent him out on a tour of investigation last year. It has still further improved upon this in securing from him and giving to the press the weekly market reports which have been published in our columns. They are much valued by fruitgrowers of the province and deservedly so.

Few things are perfect however and on one important point this market news service can be much improved. Mr. Metcalfe's reports do not reach us for a week or more after they are written. For instance the report dated June 22—sixteen days ago—is only now to hand. Obviously this lessens their value a good deal as compared with what that would be if the reports were printed here on the same day that they are written.

Is there any reason why this should not be done The cost of telegraphing in each day's report would be very small,—a mere trifle compared with its value. A step further in the same direction would be for the department to arrange with the Associated Press to include in its service to the British Columbia papers daily market reports from half a dozen of the chief prairie points. The department might appoint a correspondent at each of these points to furnish the reports to the telegraph office.

SHOULD USE THE BEST POSSIBLE MATERIAL.

In a recent eloquent address Earl Grey has spoken of the work of building up a great nation upon which Canada is engaged. That sort of a structure is not one in which poor material can be used. The chief greatness of a nation must always be in the sort of human life, the quality of men and women it produces. The amount of wealth our immigrants bring with them is of comparatively little importance. More often than not, perhaps, those who have come with very little have been the best. But what they are in themselves is of the utmost importance. A great structure should be built of good material; it should have no rubbish in its walls. The farmer who breeds from scrub stock is not likely to have a herd in which he can take much pride. The Canadians of the future, let us hope, will be able to look with pride upon the stuff from which the nation has been built up,—not upon the social rank of their forefathers, for that is of no account and tells little or nothing of their intrinsic metal which is the real thing that commands esteem.

Even with every care in selecting immigration, Canada will have problems enough. Our politics are not always all that might be desired. There are tasks enough in any case. The measure of our success in performing them will depend mainly upon what sort of people we have in the country,—what sort of an electorate, for instance, shall chose our governments. This is something that seems to be lost sight of by some English critics who would make Canada a sort of dumping ground for any one they do not wish to be burdened with over there. The aim of the Canadian nation is not to provide a dumping ground for Great Britain but to build up a nation in which every Canadian may take a just pride and in whose high standard of life he may rejoice,—not only now but in the time of his children and his children's children. That is the sort of heritage he wants to bequeath to them.

POLICE REGULATION OF THE AIR.

The prudent Germans with their bent for regulating everything have already prepared police rules for air navigators. What these are, precisely, the cable has not said, but to a certain extent they may be conjectured by any one who has watched passengers on an excursion. Persons taking their lunch on board will be fined, let us hope, if they drop lemon peel or tomato cans upon unoffending pedestrians below. Hilarious young men who empty lemonade bottles and then throw them away, will doubtless be rigorously prosecuted by any householder whose window panes or flower pots suffer damage. Trailing anchors that rip up flower beds or remove chimneys should be liable for substantial damages.

Of course there will have to be an aerial police to look after these things. With a number of by-planes, monoplanes and dirigibles circling about overhead, the pedestrian or the householder who finds unwished for things falling from the skies will experience some difficulty in identifying the offender, and much more in following him up. As there are now police mounted on motor bicycles to chase automobiles, so there will no doubt be seen occasionally a portly gentleman in the official blue mounted on a police aeroplane of speedy build, and waving a club, at an altitude of several thousand feet, at offending tourists from the Balfour hotel.

NO DISCRIMINATION AGAINST THE FRENCH

Night Letter Messages Will Not Be Taken in French—The Reason Explained by Companies.

MONTREAL, July 8.—Inquiry respecting the complaint made in the city council against the telegraph companies of discriminating against the French language in refusing to accept night messages in that language, elicits the fact that the determination to accept only messages in English was first imposed by the Western Union and Postal companies in the United States, which started the service.

These companies will not take letter messages in French from the Canadian companies. The discrimination in the States was not so much against the French as the German language. It is urged that English is the better understood in both countries by operators, and foreign languages have a tendency to delay their work. The companies say they will have to stick to the rule although it gives an appearance of discrimination which is not intended.

BUCKET SHOPS LOSE WIRES.

ROCHESTER, July 8.—The Western Union Telegraph company has cut off its wires to several brokerage offices here. The companies deprived of the service are known as bucketshops. The local manager of the telegraph company says he received orders from the head office and does not know what is the matter.

SPORTING NEWS

Toronto Golf Competition

TORONTO, July 8—Dan Kenny, professional of Buffalo, making his first appearance at a Canadian meet, headed a list of 28 competitors in the first 36 holes of the open championship played at Lambton yesterday. Kenny was in front in the morning round with a score of 74 and retained his position with 75 in the afternoon, giving him an excellent 144 for the first 36 holes. Close at his heels is George S. Lyon, runner up in this year's amateur championship. Lyon was tie for fourth place with Locke of Rosedale at the end of the morning round, his card showing 78. Between Lyon and the leader were J. Munro, formerly assistant to Percy Barnett at Lambton and now with the Warren, Pa., club who had 76 and Harley Murray of Montreal who had 78.

Prohibits the Pictures

HAVANA, July 8—The government has prohibited the exhibition of the Jeffries-Johnson fight pictures. The interstement of racial animosities was feared.

Montreal Team Coming West

PORT WILLIAM, July 8—The Montreal lacrosse club en route to New Westminster in search of the Minto cup, passed through here this morning. The players are all wearing a special uniform provided for the trip consisting of red and blue sweaters, white caps bearing a small winged wheel and white shoes. They look like a university foot ball team and appear to be in fine condition. In conversation with a member of the executive it was learned that the trip so far has been very pleasant and that the team was being kept in condition by Coach Elliott with regular physical training work. Hogue is improving and will likely be in condition to play in the first cup game. They play at Winnipeg tomorrow.

Developing the Pictures

NEW YORK, July 8—The negroes of the "Black Belt" of New York are planning a big reception for Jack Johnson when he arrives here Monday. Permits will be applied for today for a parade of 100 automobiles from Grand Central station across the town and down 8th avenue. The fistic champion will lead the procession, while two brass bands will enliven the line of march. The moving pictures of the Jeffries-Johnson fight reached here today and are now being developed.

Will Not Buck Law

CHICAGO, July 8—Stirred by the growing sentiment throughout the country against the exhibition of the Jeffries-Johnson fight films, George Klein, William Selig and George A. Sheoar, representatives of the motion picture syndicate, issued this statement last night: "No effort will be made to show the pictures in any city where contrary legislation has been taken. It is not intended to buck the law in any city or state. We do not think these pictures are any different from those which have been displayed of the Johnson-Burns and Johnson-Ketchell fights. If we find that popular sentiment is against them we will lay them on the shelf and not show them at all."

UNITED STATES ARGUMENT BEFORE HAGUE TRIBUNAL

THE HAGUE, July 8—Continuing his plea on behalf of the United States before the fisheries tribunal, Mr. Warren, yesterday declared that prior to 1905, when the dispute arose regarding the laws of Newfoundland, Great Britain never claimed that the treaty of 1818 excluded United States fishermen from all bays, but only from those bays under British jurisdiction. This was in accordance with the United States interpretation of the treaty. Mr. Warren pointed out that the treaty of American independence in 1783 accorded unreservedly to United States fishermen the right to fish along the coasts of British possessions. He argued that in the correspondence preceding the negotiations which led to the treaty of 1818 Great Britain maintained that the United States had a right to fish within British limits. This was tantamounts to exclusive British jurisdiction and explained the meaning of clauses in the treaty in which United States renounced the right forever to fish within three nautical miles of the coasts, bays, harbors and inlets of British possessions not included in the treaty. At the time of the conclusion of the treaty, however, it was a generally recognized rule that the jurisdiction of the country extended as far as a cannon shot out to sea, or three miles. Therefore it was sought by treaty to exclude American fishermen from territorial waters properly so called not from great bays which being more than six miles broad at mouths could not be considered territorial waters.

We have the neatest portable typewriter on the market. Send for descriptive pamphlet. $25 express prepaid. Small & Glaister, Vancouver, B.C. 69-3

The person who was seen to take a launch cover from the wall of the barn near Mr. Whidowson's office is requested to return it at once, and prevent further trouble. (2)-2

Everything is now in shape for the best dance of the season, to be given at Lindsay's large pavilion on Saturday evening, July 9. Professor Wilkinson will furnish the music with his famous orchestra. Everybody cordially invited. Tickets, gentlemen 50 cents, ladies free. 68-2

Campbell's Stains and Floor Finish are guaranteed by the makers to give perfect satisfaction. You can refinish floors, furniture and interior woodwork with these stains and the results will come up to your expectations. Prepared in all colors. Dry hard over night. The Nelson Hardware company will tell you all about them.

Lindsay's large launch, the "Dauntless," will leave Lindsay's wharf, 2.15, 3.45 and 6.15 p.m. for City park and Fernhale park. The boat will leave Fernhale at 2.55, 5.30, 6.55 for Nelson, calling at City park en route. Last boat will leave Fernhale at 7.35. Fares: Fernhale return, 50 cents; City park, 25 cents. 68-2

THE CHARLTON CASE.

NEW YORK, July 8—New Jersey's legal machinery was set in motion again today in the case of Porter Charlton, the confessed murderer of his wife the former Mrs. Mary Scott Castle.

There was every indication however, that Charlton, after being removed from his cell to an adjourned hearing, would be taken back to prison to await a formal demand from Italy for his extradition. Charlton killed his wife in Italy, placed her body in a trunk, threw it into lake Como and fled to this country being arrested on landing in Hoboken.

FOR SALE

There has been placed in our hands for sale, 100 acres of fruit land in the Creston district, along the Canadian Pacific railway, and government wagon road. The land is about two and a half miles west of Kitchener, and is surrounded by improved ranches and fruit farms. There is about 60 per cent of the land level and free from stone, the balance rolling hills. The soil is a sandy loam with clay sub-soil, and abundance of water.

Price, $40 per acre. Very reasonable terms. This is an ideal block for subdividing.

A 5-acre block, along the Granite road, one mile from city. A good 5-roomed house, chicken house, and 30 fruit trees. This is a very convenient location for a chicken ranch.

Price, $850, on terms.

WE WANT AN OFFER

For 76 acres of fruit land, situated along the Slocan river, adjoining Winlaw. This tract is sub-divided in three 20-acre blocks, and one 16-acre block, with small clearing, and 30 bearing trees. There is plenty of water available, and the land easy to clear. Close to depot, school, and postoffice. We will sell this en bloc or sub-divisions.

Kidney Troubles Attack Nelson Men and Women, Young and Old.

Kidney ills attack young and old.
Come quickly with little warning.
Children suffer in their early years.
Can't control the kidney secretions.
Girls are languid, nervous, suffer pain.
Women worry can't do daily work.
Men have lame and aching backs.
The cure for man, woman or child.
Is to cure the cause—the kidneys.
Booth's Kidney Pills cure sick kidneys.
Cure all kinds of kidney suffering.

Mrs. N. Good, of 76 Sudacona street, Moose Jaw, Sask., says:

"I am pleased to state for the benefit of any person suffering with weak and painful back, that they will find Booth's Kidney Pills a most excellent remedy. I have suffered for months with a very weak back and severe pains and aches in the kidneys, and felt very much depressed. There was also a swelling under my eyes. When I learned of Booth's Kidney Pills, I procured a box, and found them the best remedy I have ever used, as they were very quick in giving me relief. The pains have left my back and it has strengthened. They have also helped to build up my health." For sale in Nelson by the Poole Drug Co., Ltd.

NELSON NEWS OF THE DAY

(Additional local news notes on page 1.)

Miss Nellie Haggarth was a visitor to the Calgary exhibition.

Born, July 8, at Nelson avenue, Fairview, to the wife of David S. Dickson, a son.

The depth of the water at Lindsay's boat house is now reported to be 31 feet 1 inch.

Born, July 8, at Kootenay Lake Maternity hospital, to the wife of George A. Furrer, a daughter.

The annual picnic of the Sunday school of St. Saviour's church will take place on Wednesday, July 27, at Proctor. Tickets may be obtained at the store of Messrs. Fred Irvine & Co.

Stewart Williams, who will conduct the sale of Coleman townsite property next month, left on the morning's boat to look over the property which he will handle. He will make Nelson his headquarters and return to the city in a few weeks.

Nelson L. O. L. 2082 will attend divine service at the Baptist church tomorrow evening at 7.30 o'clock. The Nelson city band will accompany the lodge. Members of the lodge and visiting members are invited to meet in the lodge room at 7 o'clock.

Tomorrow morning there will be a children's flower service in St. Saviour's church at 11 o'clock. Not only the children but also others are requested to bring flowers, which, after the service will be distributed among the hospitals in Nelson and the surrounding towns.

In consequence of a visit paid last week by W. J. Brandrith, assistant exhibition commission for British Columbia, to the ranch of J. T. Bealby, the provincial government has ordered from Mr. Bealby 41 cases of fruit for exhibition at the fairs to be held at Winnipeg, Brandon, Regina, Saskatoon, Medicine Hat, Edmonton and Toronto between July 23 and September 2. The shipments will consist of cherries, apples, pears, plums and crabs.

The Scandinavian Aid and Fellowship society, No. 81, of Nelson, had an enthusiastic meeting last night. The following officers were installed for the next term of six months: President, Hans Christenson; vice-president, Mrs. J. P. Swedberg; recording secretary, S. B. Jonsson; financial secretary, L. P. Nelson; treasurer, J. C. Thelin; Marshal, Mrs. W. Johnson; chaplain, A. Anderson; inside guard, T. O. Stalin; outside guard, Miss Tora Holin. A hearty vote of thanks was unanimously extended to The Daily News, Mayor Selous, J. J. Walker, and the committee in charge of the Scandinavian picnic.

Two children were lost and later found in Nelson yesterday. A three-year-old son of Mrs. P. Roberts, Hall street, was found playing at the wharf and brought up to the postoffice corner, where Constable Reid took him in charge. He was unable to tell his name but by inquiry of children on the street his home was located. At 9 o'clock yesterday morning a boy of Mrs. F. Duck, Observatory street, was missing and reported to the police. He was found at 9 o'clock last night near the home of Ald. McKenzie, on Water street, and returned to his widowed mother by Constable Reid.

DETECTIVE LYNCHED AT NEWARK

(Continued from First Page.)

to avenge the probably fatal injury to one of their fellow soldiers, Private Scott, of Battery D, third artillery, U. S. A., between 40 and 50 white troopers and artillerymen from Fort Myer, Va., early today made an attempt to storm the Alexandria county jail and to lynch Robert Jackson, a negro.

A clever subterfuge of Jailer Harry Crack in inducing the soldiers to believe that Jackson was not within the jail, was the only thing that saved the negro from lynching.

Slashed With Razor.

Private Scott was slashed across the abdomen with a razor during a fight between a crowd of negroes and a number of soldiers on a trolley car bound for Fort Meyer the night of the Jeffries-Johnson prize fight. The soldiers learned that their companion had been removed to a hospital and death might be expected at any hour, acute peritonitis having developed as a result of the wound.

Colonel Gerrard, commanding the garrison at Fort Meyer, has ordered an investigation into what he termed "an incident savoring too strongly of the Brownsville affair."

MINING NEWS

Mill for Aurora.

(Special to The Daily News.)

MOYIE, July 8.—Plans are practically perfected for the erection of a mill on the Aurora mining property on the west side of Moyie lake. There is no question about the concentrator being built and if the plans are carried out as now outlined the plant will be ready to handle ore this fall. Superintendent Dimock has just returned from Denver, Colorado, where he was inspecting several different mills that are treating ore similar to that found in the Aurora. Not only did he inspect the mills, but he had a thorough test made of the ore taken from the Aurora. This ore runs higher in zinc than any found in East Kootenay.

At a meeting of the shareholders held in Moyie a few days ago the following board of directors was elected: J. W. Fitch, president; J. D. McBride, vice president; H. H. Dimock, A. D. Cameron, James Ryan, P. F. Johnston and D. J. Elmer. W. L. Reid, secretary of the company was re-appointed to fill that position.
