

CITY GRANT TO THE APPLE SHOW

Aldermen Make It Over the
Mayor's Head

RATIFICATION ON HEELS OF VETO

Council Refuses to Pay Fees
of City Solicitor in Cow
Apeal Case

Unanimous vote to grant \$200 toward the Kootenay exhibit at the National Apple show at Vancouver—Aldermen Rutherford, McDonald, Mackenzie, Carr, and Emory.

Veto—Mayor Selous, Unanimous vote to over-ride the mayor's veto—Aldermen Rutherford, McDonald, Mackenzie, Carr, and Emory.

The session of the city council last night was remarkable in more ways than one, but the striking feature about it was the lining up of the four members of the present abbreviated board of aldermen, on one side of a concrete publicity issue, and the mayor on the other.

Committee's Letter.
The matter of this grant arose from the reading of the following letter, signed by F. A. Starkey and A. D. Emory, "delegates to the National Apple show committee."

"To his worship the mayor, city of Nelson, B. C.
"Sir—As the delegates appointed to the general committee for the purpose of obtaining proper representation of the Kootenay district at the National Apple Show to be held at Vancouver, during the week ending November 5, we beg to submit the following:

"The committee has forwarded what is considered an excellent collection of fruit from the whole district, having had the services of an expert manager and packer. Altogether the expenses in connection therewith are estimated at \$1500, of which \$500 has been apportioned to Nelson as its share. Of this latter amount there has been donated by the Nelson Agricultural association the sum of \$250, and the further sum of \$250 remains to be collected.

"The committee has put in hand a pamphlet to be distributed at the apple show, setting forth the merits of the district, and the cost of this is included in the foregoing estimate of expenses. One page of this pamphlet is given to each portion of the district, and a copy of what is proposed to be used for the Nelson portion is enclosed herewith. The committee therefore beg your worship and the council to favorably consider their request for a grant of \$200 towards the expense of this important exhibition, especially looking to the considerable amount of advertising which is afforded to the city of Nelson as the centre of a large and important fruit growing area. The number of pamphlets to be issued is 10,000."

Question of intention.

Mayor Selous stated that as soon as it became public that the council had granted \$100 to be used at the National Apple show at Vancouver for the purpose of advertising the name of Nelson, Mr. Starkey had called upon him in reference to getting the money. Mr. Starkey also saw Ald. Rutherford who, with the mayor, had the disbursement of the amount in question. The mayor's reply to Mr. Starkey was that the grant was made for advertising simply, and that he and Mr. Rutherford had no power to turn over the \$100 to Mr. Starkey and his friends.

Ald. McDonald said that as the man who brought up the matter in council, he wished to say that his intention was to advertise the apples of the Nelson district, not the city of Nelson, and bring the apple possibilities to the attention of business men elsewhere.

Mayor Selous stated the minutes to be looked up and they showed that the motion for the \$100 grant was carried to Aldermen Mackenzie and Carr, not Ald. McDonald, and that the purpose was to advertise Nelson at the show in some special way.

After directing attention to the alleged inconsistency of Ald. McDonald, and feeling with that gentleman a bit, Mayor Selous stated that the committee had arrived at no conclusion how to lay out the \$100.

Ald. Rutherford confirmed this and described an interview Messrs. Emory and Starkey had with himself, in which he represented himself as willing to expend the money in assisting the Kootenay exhibit. Failing any other disposal, he now favored that plan.

Ald. Mackenzie—I suppose the Municipal Council act allows us to do this.

Powers Under Act.

The following clauses were read: "65. The council may, by resolution: "Grant money in aid of agricultural or horticultural societies, which hold their exhibitions either within the municipal limits or in the provincial parks."

WILL TAKE OVER GREAT WATERWAYS

Canadian Northern Will Build Alberta Railway—Surveyors Inspecting Route—Purchase or Lease.

EDMONTON, Alta., Oct. 24.—That the Canadian Northern is going to take over and build the Alberta and Great Waterways railway, that is, the line from Alberta to the coast, is confirmed by the return of several parties of surveyors who have gone over the route or Mackenzie & Mann, presumably to estimate the cost and practicability of the original plan. Settlers along the line say that the Canadian Northern will either purchase it outright or obtain a long term lease from the government. Premier St. Louis has had several conferences with Mackenzie and Mann.

CATCH WHITEFISH IN OKANAGAN LAKE

Pregnancy of Fish Placed in Waters Thirteen Years Ago Provides Good Sport—First Appearance.

That Lake Superior white-fish are springing up in the Okanagan valley, was the statement made last night by Captain J. C. Gore, superintendent of the inland lake and river service of the C.P.R., who has returned from a trip of inspection in that district.

These fish are, it is presumed, the progeny of a quantity of this variety which were imported from Lake Superior in 1897 and placed in the Okanagan lake. Up to a few months ago, when local anglers caught two of them and were undecided as to their variety, it was believed that they had all been killed by the trout in the lake. On Sunday, October 23, the steward of one of the lake steamers succeeded in catching six of the fish which gave him good sport and fought as vigorously and gamely as trout, and since that time several schools of the fish have been seen on the lake. It is now established beyond all doubt that they are white-fish of the Lake Superior variety and there seems to be no doubt whatever that they are the progeny of the small fish placed in the lake 13 years ago.

These caught so far have varied in weight between one and one-half and three pounds. In appearance they are of a silvery color, and move in the water at a great speed.

Y.M.C.A. CAMPAIGN PROGRESSES WELL

Many New Members Will be Result—Grand Rally Tomorrow Night at Building.

The Y. M. C. A. canvas for new members is still in progress, but no results have as yet been announced. The leaders and members of the team are working hard and although they have not as yet many names to turn in as new members they feel confident that the seed sown will bring a bountiful harvest at the "open night" tomorrow evening, when a cordial invitation is extended to all members, prospective members and other friends to be present and see the actual work of the Y. M. C. A. in progress. The "open night" is to be held on Wednesday and not Tuesday evening as announced last week.

TORONTO SEES BALLOON

WINNIPEG, Oct. 24.—At 9:45 last night a balloon passed over Toronto going east by south at about 40 miles an hour. The balloon was seen at a distance of about 10 miles and its appearance light could be seen issuing from the basket of the balloon. It is thought to be one of the balloons that left St. Louis. The direction was straight for New York city.

ACCIDENT PROVES FATAL

RUSSELL, Man., Oct. 24.—Phyllis Powell, aged 18, who was accidentally shot on the farm of Ambrose Hoping near Blackearth on Friday morning, died last evening.

NO FALLING OFF IN REGISTRATIONS

Total Has Reached 541—How Citizens May Qualify for January Elections.

Householders are still registering in large numbers at the city hall. Although the voters list has been open for over three weeks and 541 persons have already qualified there seems to be no slackening of the interest which is being taken by citizens in making the necessary declarations so that their names will appear on the list of voters for the next municipal elections.

How to Qualify.
As repeatedly stated a householder is defined in the statutes as the occupier of a residence, hotel, boarding house, rooming house, dwelling or part of such. The other qualifications are that he shall be a resident of the city of the full age of 21 years, a British subject and that he shall have paid all taxes due to the city. Citizens may make declarations before any justice of the peace, commissioner for taking affidavits, notary public or magistrate.

Those who have registered since the last list was published are: Charles Norris, A. A. Roy, Alexander Stewart, G. H. Leachman, W. R. Wells, James Makins, J. C. Williamson, M. J. Mulrooney, G. C. Dowker, Thomas Mackenzie, R. McV. Hume, J. B. Miller, J. H. Hargrave, Robert McQuinn, B. M. Kelly, H. H. Marshall, Andrew Dickson, Benjamin Grubb.

NOVEMBER FIFTEEN DATE FOR DEATH SENTENCE

LONDON, Eng., Oct. 24.—It is announced that Crispin will be executed on Nov. 15, this is in accordance with the English practice of allowing three Sundays between sentence and execution.

ROUTE OF RAILWAY ON THE ISLAND

Will Be Hundred and Fifty Miles in Length

LARGEST MILL IN BRITISH COLUMBIA

Will Be Erected at Crofton—Make Surveys Along Fraser River

(Special to The Daily News.)
VICTORIA, Oct. 24.—Details of the route selected for the first important section of the island section of the Canadian Northern railway which while forming an important integral part of the new transcontinental system will at the same time be a first link in a railway from end to end of the island were announced on Saturday by Premier McBride at the termination of an interview with William Mackenzie. As adopted, this Vancouver Island section of the Canadian Northern Pacific which is provided for under the railway legislation of last session, contains approximately 153 miles but 100 miles having been completed in the plan first considered and upon which last session's legislation and bond guarantees were based.

The Route.
Victoria is the southern terminal, the line taking a course from this city apparently around Portage Inlet, the head of the gorge by way of Esquimalt harbor and crossing the Esquimalt and Nanaimo railway at the southeastern corner of Langford lake. Thence the line runs due south to the head of Paddar bay, making a curve at that point westerly and proceeding via Matheson lake to Sooke Inlet, the northern shore of which is followed to Sooke river, which is crossed near the mouth. Sooke river is ascended on the west bank to its origin in Sooke lake, the railway skirting the lake on the western side of its entire length, then swinging slightly to the east and touching Shawanigan lake at its extreme southern corner. Shawanigan lake is also skirted on the western shore, and this lake being left behind the line runs approximately due north and crosses the Kootenay river about eight or nine miles from its mouth. Swinging to the northwest the line reaches the Cowichan river four or five miles above Duncan and adheres to the Cowichan for six miles, then crossing and skirting the north bank until it reaches the lake near the mouth of Mend creek. Cowichan lake is followed on its northern shore the entire length of the line at the western end of the lake swinging southerly and then northerly to the Nitinat river which is then followed down on the western bank to within three miles of Nitinat lake. From this point the line swings northerly to the head of Coleman creek, the valley of which is followed to its outlet in Barclay sound whence the line follows the sinuities of the Alberca canal to Alberca.

Making Surveys.

Surveys are now in the field along the greater part of this route completing the necessary data which must be available before construction proceeds. Instructions have been given by President Mackenzie to T. G. Holt, financial and executive agent of the company in British Columbia to call for tenders just as soon as the imperative engineering data is available and to award contracts and see the work under way with the least possible delay.

Will Rush Construction.

The instruction of the Canadian Northern Pacific president to his representatives in this province are that the road from Victoria to the west coast is to be completed with all possible dispatch. In the selection of the route indicated above, the fact has been kept in mind that the line must be of transcontinental standard, in alignment, curves and gradient and rise and fall, the Victoria and Barclay Sound division being a part and an important part of the transcontinental scheme. Due consideration has also been given necessarily to the traffic producing capabilities of the line and its colonization possibilities and probable usefulness in the plan of industrial development for the island in which Mr. Mackenzie and his associates aim to play an important part henceforward.

Cowichan Line.

Construction will be immediately commenced from Crofton of the Cowichan lake branch of the E. and N. railway. This announcement follows the completion of the agreement between the officials of the Canadian Pacific railway and the American Securities company whereby a subsidiary company of the latter organization constructs a mill to cost \$1,000,000 at Crofton to exploit the 53,000 acres of timber land in the Cowichan valley purchased by the Securities company from the

KOOTENAY EXHIBIT ARRIVES

VANCOUVER, Oct. 24.—(Special.)—J. W. Cockle was a welcome visitor to the apple show headquarters this morning coming as he did with the list of exhibits from the Kootenay which bids fair to make that district the banner exhibitor in importance at the fair. He filed 336 entries and explained to the management that additional entries would be filed later. The management of the show believe that the careful and painstaking efforts of the Kootenay district to collect comprehensive and perfect exhibits will enable such showing as will make the section the leader in prize winners and thus spread the fame of the district as an orchard country. Mr. Cockle will be given ample space and a good location in the horse show building for his exhibit.

NARROW ESCAPE FROM DROWNING

Boat Capsizes Throwing Occupants into Duck Lake—Rescued by Crew of Passenger Train.

(Special to The Daily News.)
SIRDAR, Oct. 24.—What might have been a fatal drowning accident occurred in the vicinity of Sirdar on Sunday evening, while John Qualife, accompanied by two Italians and a Japanese was attempting to cross to the opposite shore of Duck lake, his boat suddenly capsized throwing the occupants into about thirty feet of water. They succeeded in keeping afloat for almost two hours but the chilly water of the lake would soon have elapsed them to its bosom had it not been for the arrival of a C. P. R. passenger train. The train arrived in the nick of time and the crew rescued the exhausted men. When taken ashore, the Italians were in a state of utter collapse and would certainly not have survived but for the kindly assistance rendered by the employees of the C. P. R. A doctor was hastily summoned from Creston and at latest reports the men are progressing favorably.

RAILWAY WILL BRING IMMIGRANTS

Canadian Northern Will Find Employment for Three Atlantic Steamships Next Spring.

(Special to The Daily News.)
VANCOUVER, Oct. 24.—Col. T. Howell, formerly of the Immigration branch of the Salvation army and now Canadian Northern immigration agent passed through Vancouver today en route to Victoria to consult with Premier McBride. It is said the plans of the company for next season's work contemplated steady employment for three Atlantic steamships during the spring. Some immigrants would settle in eastern Canada but by far the larger number would come to the prairie and west of the mountains. He hoped to arrange with the government for the bringing of a large number to British Columbia. Edward Asar, formerly of Revelstoke, but now living here, will not act as provincial agent for the bureau.

HOME RULE ISSUE GROWS IMPORTANT

Much Discussed in Bye-Election—Will Figure Prominently at Next General Elections

LONDON, Oct. 24.—In view of the extraordinary prominence given to Ireland's aspirations in the Westminster by-election campaign there can be no doubt that the home rule issue will be a large figure in any general elections than in the last. And it is more evident, when the arguments and apparently inspired utterances on home rule for Scotland and Wales, being discussed by party leaders are considered. Of course these are too vague to be of real use in the Westminster campaign but they will most probably loom large on the horizon in the next general election.

Y.M.C.A. LEADERS TO MEET

TORONTO, Oct. 24.—Advises received by the committee in charge of arrangements for the international convention of the Y.M.C.A., which will convene in this city the latter part of this week, point to a large and representative attendance. The indications are that the gathering will be attended by upwards of 2000 delegates, representing the half million members of the organization throughout Canada and the United States.

Bernst Thompson, Boston of New York; John B. Mott, international secretary; Dr. George L. Robertson of Chicago; Dr. Clarence A. Barber of Rochester; Rev. J. L. Gordon of Winnipeg; L. C. Warner of New York; J. A. Macdonald, Toronto; Dr. Porter, New York, and Fletcher S. Brockman, the national secretary of China, will head the list of convention speakers.

HIGHER WAGES COME TO STAY

Annual Meeting of Grand Trunk Railway

FAVORS ISSUE OF BEARER BONDS

Stock Depressed as Result of Report—Foreigners Better Than Englishmen

LONDON, Eng., Oct. 24.—At the half-yearly meeting of the shareholders of the Grand Trunk railway, which was largely attended, Alfred Smithers, chairman of the board, gave a sketch of his recent tour through Canada. In every place that he visited, he said, he found satisfactory conditions.

Have Come to Stay.

In the course of his remarks he referred to the persistent demand for higher wages. "There is no use," he declared, "in attempting to sail against that demand there is no use in thinking that wages will go back to the old levels. High wages have come to stay." With reference to reports of mining at Stewart, British Columbia and easy conditions prevailing there, Mr. Smithers insisted that expensive machinery was required for mining operations in that district. Exaggerated reports had been published by speculators in the hope of interesting English investors.

Better Than Englishmen.

Employers of labor in Canada said foreigners did their work better than Englishmen. Mr. Smithers warned English workmen going to Canada to adapt themselves quickly to the Canadian way of doing things. The chairman found that wherever he turned evidence showed that the wealth and prosperity of Canada broadened from year to year. Mr. Smithers highly commended the work of President C. M. Hays and his staff and also of the directors. He favored the issue of bearer bonds. The report and accounts were adopted.

Gleam of Satisfaction.

LONDON, Eng., Oct. 24.—The Financial Times observing that the market is fastening on the big increase of wages to put the prices of Grand Trunk stock down says the only point where satisfaction was expressed was the promise of the chairman to obtain powers for the issue of bearer scrip.

DEPUTY MINISTER ACKLAND HAS CONCUSSION OF BRAIN

TORONTO, Oct. 24.—Deputy Minister Ackland of Ottawa was alighting from an Avenue Road Hill car on Saturday night, when the car, owing to wet rails started to slip down hill and Ackland was thrown violently, striking the back of his head. He was removed to the residence of his brother-in-law, where he lapsed into unconsciousness. He is suffering from concussion of the brain. He was somewhat better on Sunday evening and is expected to recover fully.

DEMAND THAT NO PROVINCE LOSE REPRESENTATIVES

TORONTO, Oct. 24.—It is expected that as a result of the conference of provincial representatives here Saturday the provinces will ask that the British North America act be so amended that instead of making Quebec the pivotal province, no province be given fewer members than at the time of confederation. Other questions will be taken up at future conferences.

FIRE AT WARREN.

WARREN, Oct. 24.—Tarasch's department store was totally destroyed, the city hall partly burned and a whole business block threatened today. The Argyle fire department arrived in time to save the day and by heroic work had the fire under control by the time the Third River department arrived. There were no deaths as far as can be learned. The loss is severe, \$75,000 with insurance of \$10,000.

CELEBRATION AT PRINCETON

PRINCETON, Oct. 24.—Princeton university Saturday observed the 15th anniversary of its founding. As a result of a movement set on foot by the synd of Philadelphia in 1759 to establish a college to rank with Harvard and Yale, a charter for such an institution was granted by the province of New Jersey, October 22, 1744.

TRI-STATE VEHICLE DEALERS

CHICAGO, Oct. 24.—Members of the Tri-State Vehicle and Implement Dealers' association, covering the states of Indiana, Ohio and Kentucky, assembled in Cincinnati today for their annual convention.

SHOULD DOUBLE ADVERTISING

Additional Cutlay Would Bring Good Returns to Province—Britons Looking to Canada.

(Special to The Daily News.)
VANCOUVER, Oct. 24.—Arthur McRory had just returned from an extended trip to the old country when he went to interest minded men in various provincial enterprises. He resorts good assets, stating that London men of means were ready to give an attentive ear to every promising field in the colonies and are extremely anxious to hear facts about the Canadian west from men direct from the field. He believes, however, that British Columbia could double its advertising plans in the British Isles with resultant gain in the province.

YMR MINES WILL OPEN NEXT SPRING

Mr. Headington Makes Statement Before Leaving for Coast—Will Sink on No. 10 Level.

The Ymr mines will resume active development work next spring according to a statement made last night by Percy F. Jaynes of that property. Mr. Jaynes was given this information last week by H. R. Headington, of London, England, director of the Ymr Mines, Limited.

It is proposed, said Mr. Jaynes, to sink on the present No. 10 level with a view to opening up the wide ledge upon which this tunnel was driven in for a distance of 2160 feet.

The No. 10 tunnel is the lowest on the property and also the longest and the wide ledge mentioned has never yet been thoroughly prospected. The values are not as high as on the narrower veins nearer the surface but the width of the ledge would, if the new development is successful, be sufficient to make the property once again a paying proposition.

MEAT TRADE IN GOVERNMENT HANDS

New Zealand Feared Control by United States Beef Trust—More Flour From Canada.

OTTAWA, Ont., Oct. 24.—W. A. Redde, Canadian trade commissioner for New Zealand, in a report to the department of trade and commerce says that in order to expand control of the meat business by the American beef trust, the government of New Zealand is considering the advisability of nationalizing the meat business of New Zealand.

Export of Flour.

From Manchester comes the report that during the past three years the export trade of flour from the United States to Great Britain has decreased by 15 per cent, while the export from Canada has, during the same period, increased by 25 per cent.

REMAINS IDENTIFIED

MONTREAL, Oct. 24.—The remains of the young girl found at Westmount yesterday were today identified as Miss Cecile Michaud who disappeared from her home on Aug. 30. Two men, Albert Cheyrie and Ludger Tremblay, already under arrest charged with abduction, were re-arrested this afternoon on a charge of murder.

ILLINOIS CHARITIES CONFERENCE

HALESBURG, Oct. 24.—The prevention of tuberculosis and the methods of caring for the irresponsibles of the state are the chief topics to be discussed at the fifteenth annual meeting of the Illinois state conference of charities and correction, the sessions of which begin in this city tonight and will continue three days.

ACCIDENT AT KASLO SAWMILL

Left Leg Broken—Another Man Loses Thumb and Finger—Cutting Last Boom

(Special to The Daily News.)
KASLO, Oct. 24.—Two serious accidents occurred at the sawmill on Saturday, one man, W. Cameron, having his right thumb and first finger almost severed by the 10 foot saw of the trimming machine and shortly afterwards Walter James, aged 45, slipped from his wagon and the wheels passed over his legs, breaking the left leg just above ankle.

Mr. Christie, manager of the B.N.A. at Greenwood, is spending a few days in town.

Mr. Jones leaves for New Zealand, via Vancouver on Monday. Since January he has been with D. P. Cochrill, baker.

The mill started cutting their last boom of logs this week and expect to complete it by the end of the month, when most of the crew leave for the bush. Manager Standish expects to cut this winter about 10,000 000 feet.

Rev. C. H. Reynolds preached his farewell sermon last evening to a large congregation and leaves next Saturday.

MINERAL EXHIBIT WILL COME BACK

Will Form Nucleus of Permanent Display Here

FAIR DIRECTORS DISCUSS MATTER

Mr. Moore Reports—Financial Results of Fair Were Highly Satisfactory

It was unanimously decided at the meeting of the directors of the Nelson annual fair held yesterday that the mineral exhibit which was sent down to Spokane in charge of W. H. Moore, and left there in the care of the management of the Interstate fair should be brought back to Nelson and form the nucleus of a permanent mineral display in the city. The secretary reported that the fair had proved a financial success, the credit and debit accounts about balancing.

Mr. Moore Reports.

The first matter up for discussion was the mineral exhibit and Mr. Moore was asked to report. After touching upon the success achieved by the display sent to Spokane by the fair directors, which carried off two silver cups and 11 silver medals, Mr. Moore explained that he had left the exhibit in Spokane because the boxes in which it was sent were destroyed and because he had none to assist him in packing it. He denied that he had prevented the display to the management of the Spokane fair.

The exhibit, he said, was now in the mineral building on the fair grounds at Spokane. Cards, giving the name of property from which it came, were under each specimen of ore. He considered that he had done his duty to the best of his ability.

H. H. Pitts, chairman of the mineral display at the Nelson fair, pointed out that the directors owed it to some of the mine owners who had sent specimens to have the display sent back. Many of them had been given to understand that it would be made a permanent exhibit in Nelson. He considered that Mr. Moore should have made arrangements for securing the safety of the boxes and thought that he had not fulfilled his mission by leaving the display in Spokane.

To Arrange for Return.

After some discussion the directors instructed the secretary to write to R. H. Coover, secretary of the Spokane Interstate fair, with a view to having the exhibit packed and returned to Nelson. If Mr. Coover cannot undertake this the directors may find it necessary to send a competent man to Spokane to carry out the work.

Letters were read from the secretary of the Merritt and Nicola valley boards of trade and from Frank Bailey, M. E., of Princeton, in which surprise was expressed that the Nicola valley exhibit had been made part of the display sent by the directors to Spokane and stating that it had been understood that it would be exhibited as a special Nicola valley display.

Mr. Pitts produced copies of circular letters which he had sent to the various mines and boards of trade in British Columbia. In these the persons receiving them were asked to assist in getting together a representative exhibit for the Nelson fair and it was mentioned that the intention was to send the whole display to Spokane at the conclusion of the local exhibition.

Exhibit Given Prominence.

In answer to this a letter had been received by Mr. Pitts from Mr. Bailey in which the latter had expressed pleasure at hearing that the display would be sent to Spokane. There was no mention in this correspondence of the Nicola valley exhibit being given special prominence at the Interstate fair or being displayed as a separate exhibit. It appeared, however, that the exhibit in question had been given special prominence by being grouped together under a card designating the district from which the ore samples were collected.

The secretary was asked to write to the Nicola valley and Merritt boards of trade and inform them of these circumstances.

The much discussed mineral display having been satisfactorily disposed of the directors turned to general business. The secretary read a letter from an amusement company asking for an engagement for next year and the directors ordered it filed. George H. Playle was appointed to audit the books of the association.

The secretary, upon a suggestion from President J. E. Annable stated that with the exception of a few prizes which had not yet been called for by the winners, and the rest of the building all accounts had been paid. The prizes would not exceed \$40 and there was about \$200 to come in from subscribers. He thought that the excellent financial showing made was a matter of recovery.

Come and See Our Specials in Boys' Suits and Reefers This Week

We are giving particularly good values in our boys' wear this week. Those interested will kindly note our quotations below and see our window display.

MINING NEWS

ROSSLAND MAN MAKES STRIKE

Stamp Mill in Operation at Wilcox—Compressor for Dundee Mine—Development of Life.

(Special to The Daily News.)
ROSSLAND, Oct. 24—Charles Rose, a Rossland old timer, one who has been here since the town started has just returned from a prospecting trip, undertaken in company with William Farley, along the coast north of Vancouver. At a spot only about 60 miles north of Vancouver, in a spot which must have been prospected scores of times before they came upon a ledge right at the seashore. The surface showings ran 2 per cent. copper with about \$1.10 in gold and silver. This is taken as a good sign by experts. The ledge was more than 400 feet wide. In some parts it was fully 600 feet and lay between two formations where the change from granite to slate was made. One and a half miles from the shore the mountain was fully 3000 feet high. It will be tunnel work from when they begin operations. Mr. Rose is of the opinion it will turn out a valuable property. A very short distance from the ledge they discovered a big bed of gypsum, which they intend for a quarter of a mile and found to be 40 feet wide. It is of such excellent quality that it can be used in the manufacture of plaster of paris, Portland cement or lime.

(Special to The Daily News.)
GRAND FORKS, Oct. 24—Mining operations at the Pile mines, a few miles west of the city, were practically stopped this week. The company is installing more and larger machinery, and it is expected it will all be in place in about three weeks, when active mining operations on a much larger scale will be undertaken by the company.

(Special to The Daily News.)
ROSSLAND, Oct. 24—The rumors that have been rife in the district that Lyman Carter has located the Blue Bird mine in the South Belt to Pasty Clark of Spokane have not as yet been fulfilled. The big mining man's son came over a short time since and examined the property in company with an expert but nothing further has yet been done in the matter. Lyman Carter has great faith in the mine where he is erecting a new shaft house and where he intends to set a few more men to work shortly.

(Special to The Daily News.)
MOVIE, Oct. 24—James Lemmon and William Ryans are down from the claims on White Fish creek, in which, besides themselves, L. B. Orchard and other capitalists are interested. They report that the claims are looking very promising. The ore is principally copper, but carries values in gold and silver, with a trace of nickel. They are purchasing ore cars and rails.

(Special to The Daily News.)
YMER, Oct. 24—A carload of six pipes for the Yankee Girl Gold Mines arrived Saturday from Hamilton, Ont. The work of installing their compressor will soon be completed.
Installing Compressor.
The Dundee mine under the management of C. W. Riley are installing their compressor and erecting necessary buildings for the extensive operation of the mine.
Mill in Operation.
The Wilcox now have their stamp

LE ROI MINE IS OFFERED FOR SALE

Has One of Most Complete Mining Plants in Existence—Much Low Grade Ore.

(Special to The Daily News.)
VANCOUVER, Oct. 24—The historic Le Roi mine, once the hammer producer of Rossland and its smelter at Northport, Wash., just south of the international boundary are for sale. Anthony J. McMillan, managing director of the Le Roi Mining company, a British corporation made the announcement at the Hotel Vancouver today. Mr. McMillan at a recent meeting of the directors held in London, England, was appointed sole liquidator and authorized to dispose of the property to the best advantage. He arrived here yesterday direct from New York where he landed a week ago. He will leave tomorrow for Rossland.

Balance in Bank.
A small working force is still at work. Extensive exploratory work carried out during the last two years has failed to locate any new rich ore bodies. Thousands of dollars were expended in diamond drilling and other underground work. Mine has large ore reserves on various levels but the values being low and the cost of extraction and treatment being considerable the question of securing a profit was considered very problematic. The affairs of the company are not in bad shape. It does not owe a cent and there is a balance in the bank. Assets, exclusive of the mine, comprise one of the most complete mining plants in existence, costing as it did probably nearly \$1,000,000 said Mr. McMillan today.

PROSPECTORS ARE STAKING CLAIMS

List of Latest Locations—Properties for Which Assessment Certificates Have Just Been Issued.

The following new mineral claims have been recorded at the office of Stephen H. Hoskins, the Nelson mining recorder:
Emperor, adjoining Golden Pave group on Sheep creek, by E. C. Wragge.
Paragot, on Dundee mountain, 1 1/2 miles northwest of Yankee Girl mine, by Harold Girwood.
White Grouse, at head of Wolf creek three quarters of a mile south of Wolf creek; Kokanee, adjoining Kangaroo claim on north, by James Van Hook.
Kangaroo, adjoining White Grouse claim on west, by William Kennedy.
Rosebud Fraction, on Donaldson mountain adjoining Yixen claim, by William Connolly.
Last Chance Fraction, on Donaldson mountain near Rosebud Fraction, by Joseph Harrison.
The following claims are credited with statutory work:
Eccleston, on Jubilee mountain, by Nelson Everson.
Valley View, Athens, on Salmon river, by William A. Talbot.
Summit No. 2, Birgeon, on Goat creek, by Ivy Holland.
Garnet, Zinton, on Brisbane mountain, by P. F. Harton.
Lucky Jim, on Vernon mountain, by James Miller.
Uncle Sam, Black Prince, on Kokanee creek, by J. E. Bigham.
Minard's Liniment Cures Dandruff.

DEVELOPMENT OF POWER NEAR CRESTON

Sixty-five Thousand Horse Power Can Be Developed at Upper Site—Soon to be Creston.

(Special to The Daily News.)
CRESTON, B. C., Oct. 24—Following on the recent visit of an hydraulic engineering expert to the Creston valley, as reported recently, comes the important news that a company known as the International Electrical Company, Limited, has offices in Nelson, B. C., and Portland, Ore., have filed upon the vast water powers of the Pend d'Oreille river and that in a short time a development scheme will be inaugurated with a view to utilizing these powers.
The Power Site.
The river runs in the United States some 50 miles before reaching the boundary line where it enters the province of British Columbia. It is a series of rapids. At a point some six miles on the Canadian side of the border, the river is adapted for the necessary works has been staked and here it is expected that a large city will be located to be known as Pile City. This is the point where the great power plant will be erected. W. E. Moore, hydraulic engineer of Spokane, has made an elaborate investigation and report on these river sites and the following extracts from same will be of interest. This upper site is equivalent to a total development of some 50,000 horse power and the lower site, which is the most rapidly developing markets for power in the west.

It will be seen from this that Creston has right at its very door a vast power source which will very shortly be exploited and the electricity from which will be available in the near future for city and district purposes. With the water of the Great river available for domestic and general purposes and the power of the Pend d'Oreille being conveyed by direct service right into town the prospects for the development of Creston are exceedingly bright. It is understood that the provincial government is considering the matter of preserving the waters of the smaller British Columbia rivers for domestic uses and irrigation purposes. This will not affect Creston so seriously as might have been the case, as with the growth of the town Creston will benefit from the fact that the waters of the Great river and Duck creek are available for these purposes while it gets its electricity at a reasonable cost in unlimited quantities from the big scheme on the Pend d'Oreille river. The establishment of manufacturing here becomes a simple matter when these vast powers are available, and the prospect of an unlimited supply of electricity for all purposes must be reckoned as the least among those advantages which will make Creston great.

PRICES LOTS FOR HUGE INDUSTRIAL COLLEGE

Edmonton Citizens Give Ear to Extraordinary Tale—Promoter Disappears Leaving Debts Behind

EDMONTON, Oct. 24—Local police are looking for a man by the name of H. E. B. Davin of Pittsburg, on several charges. Davin is the alleged representative of the great American Industrial college. Three weeks ago he landed in Edmonton and asked the city council for a permit to erect an eight story fireproof building on Jasper avenue, to cost a million and a half. He said he was here for the purpose of promoting a great industrial college to cost four million dollars. According to plans which were shown by Davin the college was to consist of 14 buildings, the whole having a frontage of 1000 feet. In addition there were to be about 50 trade shops, each one being a small industry where practical work would be taught. The college would occupy 1500 acres. According to the promoter the college was to accommodate 1500 students, boys and girls, who would be received for instruction and boarded without charge. The college would be self supporting, the rent being obtained

ed from the marketing of products of the apprentices.

Priced Lots
For a while the gentleman got busy and priced lots, offering cash payments. He left town last Monday with out paying two board bills, the draftsman's bill and several other items. According to papers found in his vehicle, the man has been operating at St. Paul and Great Falls. He offered shares at 10 cents each, but did not succeed as well as here.

Drunk or Criminal
EDMONTON, Oct. 24—The following was later received from Thomas McQuill, superintendent of police, Pittsburg:
"Regarding the Great American Industrial college; investigation shows it a figment of the imagination put forward by an man unknown in Pittsburg. He is either drunk or a criminal promoter and six months ago the same man with the same proposition was reported to us by a small western town with the same press agent story. While we have no grounds to prosecute him here, we believe him worthy of public investigation wherever found."

COMMONWEALTH TAKES WIDE POWERS

MELBOURNE, Oct. 24—The house of representatives has passed the second reading of the constitution amendment bill without division after an amendment limiting the scope of the alteration of the industrial provisions of the constitution had been rejected 30-25. The bill gives the commonwealth wide control over trade, commerce, corporation and industrial matters including combinations and monopolies.

TO BE OR NOT TO BE

WINNIPEG, Oct. 24—The terms of agitation for a new city hall is still working here. A proposal for a structure involving the immediate expenditure of \$1,000,000 and an eventual outlay of \$2,000,000 is to come before the city council at the next meeting, but there is opposition to the scheme, already, from those who consider that Winnipeg needs some other things more than a new city hall.

LIABILITIES ARE LARGE ASSETS ARE SMALL

MONTREAL, Oct. 24—Wilkes and Burnett, assignees for the business of O. D. Sheldon, the missing "blind pool" operator, estimate liabilities at \$300,740.32. The assets are not yet known, but will probably be small.

OREGON "DRYS" IN PARADE

PORTLAND, Ore., Oct. 24—A monster parade was given in Portland as a feature of the statewide campaign now on to secure the adoption of a prohibition law in Oregon. The anti-saloon league and other temperance societies, the good government organizations and the churches of nearly all denominations participated in the demonstration.

GENEROUS SUBSCRIPTIONS AT SUNDAY SCHOOL CONVENTION

(Special to The Daily News.)
VANCOUVER, Oct. 24—The provincial Sunday school convention in session here last week has closed. One of the announcements made at the closing meeting was that \$388 had been subscribed for the work at that session and that \$15,000 was guaranteed for work during the coming four years.

HIS SUCCESS DEPENDS ON HIS HEALTH

Gin Pills Guard Both

Think of being stricken down by illness at a lonely ranch—or all alone, in the great north woods! Many times, this has happened to these hardy pioneers who "blazed the trail" to new fields. Mr. James is one of these brave men who is making a name and a fortune for himself in the far West. Unfortunately, Mr. James overtaxed his strength and for a time, it looked as if he would have to give up his claims and his work.

"I have much pleasure in testifying to what Gin Pills have done for me. I divide the year about equally, working on the ranch and on various logging claims, being consequently entirely dependent on bodily fitness for a living. At times, I have suffered like many others in this country from Backache and Weak Kidneys, sometimes to the extent of being laid off for weeks altogether. Having tried many remedies, I have pleasure in stating that your Gin Pills are the only remedy from which I have received any permanent benefit. I had been using Gin Pills only a short time when the pain and trouble left me and have not returned since."

I take care to always have Gin Pills by me, though my present condition does not require medicine. I have recommended Gin Pills to other men with similar results."

J. EDWARD JAMES
Gin Pills have proved a friend in need to thousands of those suffering from Kidney and Bladder Troubles, Lame Back and Rheumatism, and the Constipation and Biliousness that usually accompany these diseases.

So great is our confidence in the merits of Gin Pills that we let you try them before buying the regular 50c. boxes at your dealer's. Write the National Drug & Chem. Co. Limited, Dept. E. C., Toronto, and you will receive a sample box, absolutely free, by return mail.

HOUSEHOLD NOTES

Put a deep pan or small boiler of water containing a medium sized sponge inside your bread box. Change the water often, replacing with clean, cool water and your bread will keep fresh as long as it is needed.

If cold steak is cut into scalloped pieces, marinated and then rolled in egg and crumbs and fried in deep fat, it will be as tasty a dish as one could wish. Garnish the cutlets with lemon and parsley.

Linen that has become yellow with age may be made beautifully white by boiling it in a lather made of one pound white soap to one gallon of milk. After boiling, rinse in two waters and add bluing to the last water.

An orange peel placed on a hot stove makes a fine deodorizer. If the stove is hot enough it will burn like cellulose. However, if the stove is not hot enough just touch a match to the peeling (after it has been heated through).

To wash lace curtains haste a narrow strip of muslin along each outer edge and let it remain until the washing and drying process is completed, and you will find your curtains straight and they will not sag in the least.

To remove ribbons which have been creased by frequent tying, lay the ribbon on the ironing board and place over it a clean sheet of brown paper. Then take a hot iron and hold firmly with the right hand and with the left hand draw from under the iron. The result will surprise anyone.

This Oven Bakes Perfectly

because it is evenly heated—because it is thoroughly heated, always. The heat-flues, broad and deep, encircle the entire oven so that it bakes as well at the top as at the bottom, and in the corners as well as the centre. The bottom is doubly stiffened so it can't warp and tilt pies. The inner body of the Kootenay is thoroughly protected with asbestos—the oven walls can't burn through. Besides, the Kootenay oven is thoroughly ventilated. No food can be tainted by fumes or steam. You get perfect baking results. Ask the nearest McClary agent to show you the many other advantages found exclusively in a

Write to the nearest McClary branch for booklet and detailed information. It will show you why your range money will be best invested in a Kootenay.

MACHINERY FOR PROPOSED NEW SAW MILL

(Special to The Daily News.)
YMER, Oct. 24—A. B. Buckworth and wife spent a part of this week in Nelson visiting friends and relatives.

Little Gracie Stewart, daughter of Mr. and Mrs. William Stewart, has been placed in the convent at Nelson where she is attending school.

Mrs. W. B. Salisbury of Salmo is a patient at the Ymir general hospital. The work of remodeling the old Palace hotel into a meeting place for the Ymir Miners' union and also a hall for general purposes, is being rapidly pushed forward and will soon be completed. D. Anderson is doing the work and a better mechanic has never shown up in these parts.

B. G. Williams of Seattle, Wash., was in town this week in conference with Paul Victor Loth, secretary of the Active Gold Mining Co. about machinery for their proposed new saw mill. Mr. Williams is sales manager of the Tracy Egan Co. of Cincinnati, the largest manufacturers of hand saw mills in the world.

BIG SHOW TAKES TO THE ROAD

NEW YORK, Oct. 24—A 35-car special train is required to carry the great show from the New York Hippodrome, which left the city today to begin its first road tour. It is said to be the biggest theatrical production that has ever traveled over the country, the company consisting of 600 persons. In addition there are nearly 100 horses and a large amount of paraphernalia required for the gorgeous spectacles which have made the Hippodrome famous. The tour will continue through the season and will extend as far west as Denver.

SEVEN YEAR SENTENCE FOR MOVIE HOLD-UP

(Special to The Daily News.)
MONTREAL, B. C., Oct. 23—Fred Munroe, who was arrested by Constable Brown on Wednesday, October 12, on the charge of holding up George Allen at the point of a revolver, was sentenced by Judge Wilson at Cranbrook to seven years in the New Westminster penitentiary. It is believed that Munroe was a member of an organized band who have been causing considerable trouble lately throughout East Kootenay, and doubtless the heavy sentence imposed will have its effect in subduing their lawlessness.

Anheuser-Busch's

Budweiser

Has earned its reputation of being the most popular bottled beer in the world solely because of its superb **Quality and Purity.** Its absolutely in a class by itself.

Bottled only at the
Anheuser-Busch Brewery R. P. Rithet & Co., Ltd.
St. Louis, Mo., U. S. A. Distributors Nelson, B. C.

**Would You
Like to Win
\$1,000 in
Cash or This
Home Costing
\$1,500?**

We have just 25 lots left in our Burnaby Heights Addition. We guarantee every one to be on high level ground with good soil, no rock or gravel, close to two carlines, with streets and buildings going in the immediate vicinity. Size of lots 33x132 feet.

About a year ago we put on an addition of 238 lots and decided to offer the above prize. We had the Nelson Daily News print in plain figures cards numbered 1 to 238, placed them each in a separate envelope and sealed same. They were then taken to a Nelson bank and the manager drew one sealed envelope from the 238 and placed it in the vault, having the remaining envelopes destroyed. We expect to close out these lots before ten days and the manager of the bank will then open the envelope and notify us regarding the number. We will send each purchaser a copy of his letter to us.

No city in Canada of 15,000 people has anything like New Westminster's prospects in the immediate future. Real estate is still low, but a rapid advance is certain.

The price of the lots is only \$330, \$330 down and \$10 per month. Each one carries one chance to secure the money which is now lying in the bank awaiting the event.

You may be the lucky one. There has been such unusual development during the past year that we could not possibly make such an offer with another addition.

SPORTING NEWS

'VARSITY CINCH CHAMPIONSHIP

Beat McGill 5-1—Sticky Going Too
Much for Lighter Team—Inter-
provincial Matches

SATURDAY'S RUGBY

At Toronto: Argonauts 16,
Montreal 15.
At Ottawa: Ottawa 17, Ham-
ilton 7.
Inter-collegiate at Montreal:
Toronto University 8, McGill 1.
At Kingston: Queen's 25, Ot-
tawa College 5.

McGill Goes Down

MONTREAL, Oct. 24—Varsity Satur-
day practically settled the inter-colle-
giate championship when they beat Mc-
Gill 5 to 1 on the McGill field here. The
game was played in a quagmire, in
which the players slipped and wobbled
around like kids in a street puddle. The
uneven footing made the game any-
thing but a first class one from an ar-
tistic point of view, but it was a desper-
ate battle all the way through.

In the last quarter, the sticky going
told on the lighter varsity team. They
weakened gradually, but did game, and
though McGill had the Toronto side on
the defence the best portion of the last
quarter, a rouge was the best they could
get. Time and time again, with McGill
in the 15 yard zone, the blue line stiff-
ened up and either side the ball in the
scrummage, threw McGill line back for
a distinct loss, or held them for downs.

Ottawa College Slaughtered.

KINGSTON, Oct. 24—Queen's uni-
versity rugby team walloped Ottawa
college here yesterday afternoon to the
tune of 25-2. It was Queen's game all
the way through and a cruel slaughter.
Ottawa's only score consisted of two
rouges forced in the second quarter.
Ottawa lacked strength and simply
could not break through the Queen's
line.

T. A. A. C. Licks St. Michaels.

TORONTO, Oct. 24—The T. A. A. C.
won from St. Michaels in a fast senior
O. R. F. U. game here Saturday after-
noon and incidentally provided the
snappiest exhibition that has been seen
in the league this season.

St. Michaels held the lead for the
greater part of the game. In the fourth
quarter, however, Mat Gontier's ankle
was broken and his brother "Dutch"
was so badly hurt that he had to quit.
This disorganized the team and the T.
A. A. C. went ahead and made the score
eighteen to nine in their favor.

Argos Beat Montreal.

TORONTO, Oct. 24—The inter-provin-
cial rugby game on Rosedale field Sat-
urday afternoon was a closely fought
one and was somewhat of a surprise in
that the Argos won from Montreal by a
score of sixteen to fifteen. The game
was a seesaw from start to finish. The
score at quarter time was seven nothing
for the visitors.

The Argonauts did all the scoring in
the second quarter and made a tally at
half time of ten-seven in their favor.
The third quarter belonged to Mont-
real. They had the wind and played a
kicking game, making the score four-
teen-ten. The Argos came back in the
fourth quarter with a goal, and a few
minutes later with another, raising
their score to sixteen. Montreal forced
just before the end, making it six-
teen to fifteen.

ATHLETICS ARE WORLD'S CHAMPIONS

Win Fifth Game of Series at Chicago—
Cubs Lose Through Weakness of
Pitching Staff

The Philadelphia team won
the fifth game of the world's
series on Sunday by a score of
7-2, thus becoming world's cham-
pions.

Out of the six games sched-
uled, the Cubs only came out
ahead in one; one was abandon-
ed on account of rain, and the Ath-
letics won four.

The score by innings was:
Philadelphia . . . 100 810 650-7-3-1
Chicago . . . 010 050 015-2-0-2
Coombs and Lapp, Brown and
Archer.

Umpires Shortland and O'Day.

CHICAGO, Oct. 24—The baseball
championship of the world belongs to
Philadelphia. They clinched the big
pennant last yesterday by 7-2 against
Chicago and there was none in the big
overflow crowd to say that they had
not won it fairly and squarely. The
day was bright and the weather of the
Indian summer variety. Ground rules
as usual were necessary.

Philadelphia took the lead at the out-
set when Hartzel, who went to left
field while Lord played centre in place
of Strunk, singled. The Philadelphia
fans present cheered, for that was the
reason that "Topsy" was played in-
stead of Strunk.

Topsy Steals Second
He stole second while Lord was
striking out, and brought the first run
in when Collins hit to centre for one
base. Brown struck out Lord and Da-
vis in this inning.

Cubs Score
Chicago came right back in the se-
cond when Coombs doubled to left, cut
third on a sacrifice and scored when
Steinfeldt delivered a belted hit.

In the third and fourth stanzas the
Philadelphians were threatened but
Coombs did some stellar pitching to
save himself from trouble in Chicago's
half of the fourth. Two hits and a pam
had filled the bases with one out, but
the Philadelphia settled to his work
and fanned the always to be feared
Tinker and Archer.

The easterners assumed the lead in
the fifth and were never headed there-
after Steinfeldt's tumble gave Mur-
phy a life at first. Barry sacrificed
and Lapp who donned the catcher's
glove in place of Thomas, sent him
home with a single.

Lord Scores
The Chicago team went to pieces in
the eighth. Brown held Coombs too
lightly and the latter singled, but later
was forced by Hartzel, Lord doubled
and Hartzel scored, following which
Collins rapped out a two bagger and
Lord crossed the plate. Collins, taking
advantage of the confusion in the Chi-
cago camp, stole third, but was out at
the plate when Baker hit to Zimmer-
man.

Davis, Too
Davis was at Baker's heels and Hoff-
man who retired the hit threw a block
away from Archer and Davis scored.
Murphy had reached second and stop-
ped but umpire O'Day invited him to
take another base under the ground
rules. Hoffman's wild throw having
bumped the grand stand. Just to top
the farce, Brown delivered a wild pitch
and Murphy came home.

Chicago Gets One
A moment later Brown gave Barry a
base on balls, but Lapp ended the hili-
lity with an easy grounder. In their

half of this innings the Chicagoans
look a desperate brace and added a
run to their score but that was all.
Shepherd, heading the batting list,
doubled and went to third on Schille's
hit. Hoffman missed three good ones
but Capt. Chance produced the needed
hit, and Sheppard scored.

Cub's Weak Pitchers

Zimmerman ended the opportunities
of this inning with a long fly to left.
Coombs lightened up in this inning
Steinfeldt and Tinker belated to Lord
and Archer made his first hit but was
forced at second for the last out of the
series, when Kling who batted for
Brown sent an easy grounder to Barry.
Chicago's failure in the series can be
laid to one cause, the weakness of its
pitchers.

ENGLISH RUGBY

LONDON, Oct. 24—The following are
the results of Saturday's rugby football
matches:
Bristol 8, Blackheath 7.
Richmond 3, London Scottish 0.
Watlington 6, West Scotland 0.
Cardiff 5, Gloucester 0.
Edinburgh University 9, Academi-
cans 5.
Devon Albion 31, Torquay 4.
Northampton 31, Moseley 0.
Swansea 19, Aberystwyth 0.
Postponed 14, Llanelya 0.
Newport 8, Leicester 6.
United Services 5, Harlequins 0.
Medford 12, London Welsh 5.

WELSH-WOLGAST GO.

MILWAUKEE, Oct. 24—In accepting
terms offered by English promoters for
a match in England with Freddie Welch
the lightweight champion, Ad Wolgast
has agreed to meet the one man of the
lightweight division dangerous to him.
Over the 20-round route which prevails
in England, if the championship hinges
on the verdict of the referee no given
on points scored, it is feared that the
championship will change hands and
become the property of an Englishman.

Any man clever enough to outpoint
Abe Attell in 15 rounds, as Welch did
in Los Angeles, has demonstrated him-
self a wonderful boxer. Wolgast did
not fare nearly as well against Attell
as Welch, and is free now to confess
that he was baffled by the cleverness
of the elusive Hebrew. Welch beat
Attell in every round of their 15-round
session in Los Angeles.

QUEBEC WILL HAVE
SENIOR HOCKEY TEAM

QUEBEC, Oct. 24—The events that
transpired in hockey circles last ses-
sion, which necessitated the retirement
of Senior Quebec, as a factor in the big
league, has by no means dampened the
order of enthusiasts here, and, if one
can judge from appearances, it certainly
looks as though a very strong ag-
gregation of players are about to be
pushed into business once more, and
with funds to back them, expect to
figure where they should be. In the
best senior professional organization that
can be gathered together in the
country.

With the first appearance of cold
weather, and the fact that such men as
Rocket Power, Paddy Moran, Macdon-
ald, Maloney, Chubby Power, Dodd-
ridge, and the return of Geo. Leonard
from Ottawa, also the possibility of
Joe Power again donning a uniform,
and the prospect of an importation;
this, together with a team like the city
champions, the Laval, to draw from,
on whose line up are such men as
Labrecque and De Lery, who tip the
scales at 165 or thereabouts, and have
speed to burn, it certainly looks as if
there would be something doing.

In addition to such available ma-
terial for the playing end, it is the inter-
action of the present executive to have

further aid by the contribution of
good ability added to their ranks, as it
is well known here that several well-
known business men are willing to give
a hand in an effort to manage the club,
and give the necessary financial back-
ing that is required.

As to the league they will figure in
it is not yet known, but it can be
safely expected to see them battle with
Wanderers, Ottawa, Renfrews, Sham-
rocks, and some other teams whom it
is presumed will be a combination re-
presenting the French-Canadian asso-
ciations of Montreal.

The executive is already at work,
and though it may appear early, they
consider that their time is limited
enough, and that when the time is
called and the "big ones" get together,
Quebec will answer to the call.

SPORTING SPOTLIGHTS

Hail to the world's champion baseball
team, the Philadelphia Athletics.

The result of the world's champion-
ship series after the conclusion of the
first three games which were won by
the Phillies was a foregone conclusion.
With three wins behind them they
could hardly fail to gain the lone vic-
tory necessary to give them the pres-
ent honours in the world's baseball.
Looking back at the five games played
the vast superiority of the Quaker City
team over the Cubs stands out in re-
lief like a halo at a court reception.
They outplayed the Windy City boys
in speed, in hitting, in batting and in
fielding. It was only in the fourth
game, played at Chicago, that the
Cubs showed anything like the form
which had been expected of them by
the fancies of the great lake city. The
result in brief is but another instance
of the triumph of youth over long ex-
perience, age and prestige. Compared
with the Chicago nine the Philadelphia
were as Jack Johnson to Jeffries. And
in their turn they, too, will have their
honours wrested from them by a young-
er and more virile team.

By beating McGill on Saturday at
Montreal Varsity practically clinched
the intercollegiate Canadian Rugby
championship.

VARVITY AND M'GILL
PROVIDE FAST GAME

Toronto Win by Score of 5-2 in First
Intercollegiate Soccer Game of
Season

TORONTO, Oct. 24—McGill and Var-
sity met at the Varsity Oval before a
small crowd of spectators Saturday
afternoon in the first intercollegiate
soccer game here this season. McGill,
kicking against a strong south wind
in the first half scored two goals to
Varsity's one. In the second half there
was some warm and to end play but no
scoring until about 10 minutes before
the end of the game when the Varsity
men rushed in four goals in quick suc-
cession, making the final score 5-2 in
Varsity's favor.

INTERIOR B. C. LACROSSE
LEAGUE NEXT YEAR

Provincial Member for Kamloops Of-
fers Cup for Competition—Nelson
Team Will Compete

Another instance of the renewed in-
terest that has been aroused in Cana-
da's national game this season
throughout the interior of the prov-
ince is afforded by the following let-
ter received by James J. Hawkins,
manager of the Nelson lacrosse team,
from W. H. Edwards of Kamloops:
"I have been requested by Mr. Shaw
M.P.P. to get in touch with all lac-
rosse teams in Yale, Cariboo and
Kootenay electoral districts so as to
advise them of a cup which he will put
up for competition under strictly
amateur rules."

Three trustees are to be appointed
who will make all rules governing the
game and all details will be left to
them to arrange. I would feel greatly
obliged if you would lay this matter
before your club at an early date as
possible so they may be able to make
any suggestion to the trustees when
they are appointed, which will be very
soon.

During the present year many names
have been played between the Nelson
and Roseland teams, all of which have
been keenly contested and have proved
of great interest. The presentation of
the cup by Mr. Shaw, M.P.P. of Kam-
loops for open competition among all
amateur lacrosse teams in the electoral
districts of Kootenay and Yale-Cariboo
will, however, not only tend to create
keener interest in lacrosse in the in-
terior, but will probably result in a
series of games next season between
all the teams in the district mentioned,
with the formation of a league com-
posed of the majority of teams in the
interior.

IRISH FOOTBALL

BELFAST, Oct. 24—The following are
the results of the Irish football games
played Saturday:
Bohemians 0, Distillery 2.
Cliftonville 1, Linfield 3.
Derry Celtic 1, Glenavon 2.
Belfast Celtic 2, Shelbourne 2.

TELLS THRILLING STORY
OF PERIL AND PRIVATION

MONTREAL, Oct. 24—A thrilling
story of peril and privations endured
in their adventurous balloon voyage
from St. Louis to a spot 60 miles above
Lausanne, was told by August Hanne-
kers, assistant pilot of the balloon Ger-
mania, who arrived here last night to
secure medical treatment, leaving his
chief, Capt. von Abscon behind at La-
usanne to see about the shipment of the
balloon.

EAST TAKES LARGE
PROPORTION OF IMMIGRANTS

MONTREAL, Oct. 24—The steam-
ship and railway reports for the 15
months ending March 31, 1910, show a
total emigration from Europe to Can-

News of the Night.

Have you wrestled with a bedstead on moving-day? Then you
know what a job it is to get an ordinary metal bed apart—
and put it together again. You will never have that
trouble with an "Ideal" Metal Bed.

We make "Ideal" Metal Beds so well that we can safely put our
trademark guarantee on every one. And so you will find it
there, this bed-insurance policy, right on the footrail—
even on the "Ideal" Metal Bed that costs as little as \$4.00.
It is every bit as good a bed, this \$4.00 style, as any of its
higher-priced sisters. For there is only ONE QUALITY in
"Ideal" Metal Beds.

Turn a Draught to Good Account

Often in winter you dare not
open a window, even though the
room be warm, because the cold
air makes a draught that is dan-
gerous. With a Perfection Oil
Heater there need be no danger
from draughts.
Open the lower part of the
window a little, put the Perfection
Oil Heater in front of it, and the
cold draught will be turned into a
pleasant, healthful current of fresh
air. The

PERFECTION
SMOKELESS
OIL HEATER

Absolutely smokeless and odorless

gives just as much heat as you desire. It is safe, odorless and
smokeless. Has an automatic-locking flame spreader,
which prevents the wick from being turned high enough to
smoke, and is easy to remove to clean and drop back. Burner
body or gallery cannot become wedged, because of a new device
therefor; it can be easily and quickly unscrewed for re-wicking.

An indicator shows the amount of oil in the font. Has a cool
handle. Filler-cap is put in place like a cork in a bottle, and is
attached to the font by a chain. Finished in japan or nickel,
strong and durable, well-made, built for service, and yet
light and ornamental.

odn of \$4,800 persons of which number
\$7,709, or 50 per cent were destined
for the older provinces of Ontario, Que-
bec, New Brunswick and Nova Scotia.
The total emigration from Europe, the
United States and other countries was
208,774 persons, 85,309 or 40 per cent
being destined to the eastern provinces
including Ontario and Quebec, the bal-
ance going to the western provinces.

For the two months of April and May,
1910, out of the total of 50,300 persons
arriving from Europe, 20,755 were de-
stined to Ontario and 9,470 to Quebec
or 50 per cent to these provinces alone

SIR WILFRID IN MONTREAL

MONTREAL, Oct. 24—Sir Wilfrid
and Lady Laurier arrived at noon to-
day from Ottawa to attend the recep-
tion given this afternoon for them by
Major and Mrs. G. W. Stevens. Lady
Laurier is the guest of Mrs. J. C. B.
Cairns, Dorchester street west.

PUMPMAN KILLED

CAMROSE, Alta., Oct. 24—Allan La-
toma, pumpman for the Canadian Pa-

cific, was killed at midnight on Friday
night in the C.P.R. yards here. He
was riding on the top of a car and fell
off. The train backed up and he was
run over and killed instantly. He was
unmarried.

BIRTHDAY OF GERMAN EMPRESS

BERLIN, Oct. 24—Berlin displayed a
profusion of flags Saturday in honor of
the birthday of the Empress Anna
Victoria, who was born October 22
1858. The imperial family celebrated
the day with a large gathering at the
palace. One of the features of the en-
tertainment was the singing of Miss
Geraldine Farrar.

RETIREMENT OF LIEUT. BARNEY

WASHINGTON, Oct. 24—Frog Lieut.
James P. Barney, until recently on duty
with the Eighth Cavalry at Fort Huachu-
ca, Arizona, was placed on the retired
list today. Lieut. Barney is from
Ohio and served as first lieutenant of
the Third United States volunteer en-
gineers during part of the Philippine in-
surrection.

If You are Not at Your Best

don't worry about it—there's no good in worry. Get better!
If your stomach is wrong, your liver and bowels inactive—your
nerves are sure to be on edge and your blood impure. Be
cheerful and hopeful. As they have helped in thousands of cases,

BEECHAM'S PILLS
will help you and will give your system the natural help it needs.
A few doses will make a great difference in your feelings and your
looks. They will help you all along the line—to a clear head,
free from sores—to bright eyes—to healthy active organs. This
sure, quick and tonic family remedy will help Nature to
Restore Your Full Vigor

TUESDAY, OCTOBER 25.

WHY NOT HERE?

Within the last few years the population and wealth of Victoria have been increased by the coming of a large number of prairie farmers to reside in that city.

The prairie of today is very different from that of ten or fifteen years ago—a fact which its ex-residents are apt to forget. Lower freight rates and much higher prices for wheat and other products of the farm have made many wealthy farmers.

Many of these men and their wives leave the prairie to find a milder climate elsewhere. They have enough money to live on for the rest of their lives and they want to spend the remainder of their days where they can get as much good out of them as possible. They do not want to go east again—what westerner does? So they go west. Victoria has a better climate than Vancouver and they are looking for a good climate. So they go to Victoria by preference.

All of them have heard of Victoria's climate and a good many of them have heard of the Okanagan. Victoria is preferred as a rule because they do not care for irrigation. Yet they are not old men; they are still men in their vigor, and would prefer to have some occupation. Cleared fruit farms in the Kootenay would suit them, if near a town or city, but comparatively little is known of the Kootenay on the prairie, at least in the older settled portions of Saskatchewan and Manitoba where most of these men are to be found. If the attractions of the Kootenay were as well known as those of Victoria or of the Okanagan many of them and their families would come here.

CHANGES IN GAMES.

The rules of American football have again been changed so radically as to make a new game. It is not for the first time. Indeed so frequently have these changes occurred that one might speak of the American rugby rather than of the American football. As played this year it is almost a new sport, and last year it was equally different from what it was three years ago. Ten years ago it was something else again.

It is not because it is an American game that it is changed so frequently. Baseball has been evolved and crystallized in a single generation. The changes in its rules from year to year are but of minor significance. In tennis and golf, also, changes are few and of a minor nature. As played in the United States they are virtually identical with the same games in Great Britain.

Some sports seem to have found themselves almost at once. Others are peculiarly unstable. Rugby may not vary much in England but as soon as transplanted it begins to develop all sorts of new forms. The English game is retained in the maritime provinces and on both sides of the line on the Pacific coast. But in central Canada it has evolved into something else, which again has become something different from what it was a short time ago. In Australia, still another variation is played.

Eventually, perhaps, an ideal rugby may be devised. The United States which is experimenting the most may be the first to find the way. It seems more likely, however, that two or three games may be derived from the original sport. The American game, through

W. G. THOMSON Phone 24
Nelson, B.C.
Bookseller and Stationer

all its transformation has kept one characteristic of its own,—the "interference" and all the resulting strategy. The Australian game has also fundamental characteristics of its own.

Some countries, as well as some games, are more likely to seek for improved forms than others, and to exhibit ingenuity in the search for perfection. Rounders was played for generations in England but when transplanted to America it became baseball. Even on cricket sacrilegious hands have been laid in Toronto. Indians probably played lacrosse for generations but with little improvement in the rules. The game of today has been made by the white man. Grass hockey and shinny are of long standing in Great Britain but the hockey that is the king of winter games was evolved in Canada. Even in England, however, most games are comparatively modern in their present forms. Wrestling, racing and "playing catch" with a handball, alone are ancient.

ADMIRATION OR VITUPERATION?

The Victoria Colonist speaks of the address recently delivered by Mr. O'Connor as "admirable" and in the course of the reasons it gives for its admiration it says:

On questions upon which there could be little or no difference of opinion he was direct and forceful; upon those upon which there are or may be two sides, he skillfully evaded the direct issues, concentrating the attention of his hearers upon other personal considerations or else befuddling the real point with rhetoric.

This reads like sarcasm but the Colonist apparently intends it for eulogy, if one may judge from the context. The

article goes on to say:

This is the consummation of successful oratory, and the style is worthy of study by the younger generation of Victorians who may contemplate public life.

Is this a joke or does the Colonist really mean it? It reads like obvious irony, but the tenor of the article as a whole suggests that it was written in sober earnest.

It is only fair to Mr. O'Connor to say that his speech was not as tricky and disingenuous as the description quoted may seem to indicate.

MINERAL EXHIBIT
WILL COME BACK

(Continued from page one.)

for congratulation among the directors. If it were not for the expenses of sending the apple exhibit to Spokane last fall, the mineral exhibit this year and the grant made to assist in the collection of a West Kootenay exhibit for the Canadian Apple show at Vancouver it would have been possible to show a surplus. And this good result had been achieved in the face of wet weather during the three days of the fair which had resulted in much smaller gate receipts than had been expected.

Votes of Thanks.

A vote of thanks was passed to the Y. M. C. A. for the highly successful field meet held on the last day of the fair, which proved a big attraction to visitors and to the Women's Institute who provided a rest room for ladies and children.

Discussing the arrangement of the main building, which was this year changed by placing the fruit on the south side and the manufacturers in the centre the directors expressed the opinion that while it had been a change from the monotony of previous years there was still room for improvement. In this connection the secretary made the suggestion that the directors elected at the annual meeting on November 11, should offer a prize early next summer for an attractive arrangement of the building. The directors agreed that Mr. Hornstead's idea was an excellent one and would probably result in some good designs being sent in for competition and possibly in a completely satisfactory planning of the interior of the building.

A big increase in the number of exhibits next year was predicted owing to the general satisfaction expressed by prize winners, some of whom had carried off as much as \$10 for fruit and vegetable exhibits. It was pointed out that the prizes given in Nelson were proportionately larger than those awarded at such places as Vancouver and New Westminster.

The full report of the exhibition and its finances will be presented at the annual meeting. The next meeting of the directors will be held on November 1, 1910.

Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief. Sold by all druggists and dealers.

ROUTE OF RAILWAY
ON THE ISLAND

(Continued from Page One.)

railway corporation. The deal was made some time ago but arrangements for the erection of the mill at Crofton have only recently been completed. One hundred and fifty acres of land have recently been purchased on the north boundary of Crofton township adjoining the old smelter property on Osborne bay. Docks will be constructed along the long tidal flat which occurs at this point and a large area will be piled and used for yards and sidings. The mill which will be the largest in the province and one of the largest in the world. Construction of the 25 miles of railway to Cowichan lake will be commenced from the Crofton end. The 32,000 acres of timber land in the Cowichan valley is accounted as the choicest timber on Vancouver island.

Alternative Surveys.

(Special to The Daily News.)
VANCOUVER, Oct. 24.—An engineering party of fifteen men under charge of C. Heard of Victoria has just returned after completing for Engineer C. E. Cartwright, the extensive surveys ordered by the railway commission as the result of the application of the Canadian Northern to share the right of way with the C. P. R. along the Fraser river. The party ran trial lines paralleling the C. P. R. lines from Claco bridge to a point three miles east of Lytton and also lines involving no invasion of C. P. R. territory. The latter starts where the Canadian Northern originally planned to bridge the Thompson. Instead of making a crossing, the engineers ran the line further down the Thompson and at Lytton swing across to the north side of the Fraser following its bank as far as Claco bridge. This plan would mean bridging the Fraser at two points. A detailed report of the surveys and estimates of cost will be prepared for the railway commission.

AT THE THEATRES.

Miss Felton's "Zaza" Dramatic Event of Season. "Dad's Girl" Tonight.

Miss Felton's "Zaza" at the opera house last evening was warmly applauded by one of the largest and most critical audiences that ever filled the theatre to the doors notwithstanding the stormy weather.

Withal, bewitching ignorant Zaza, the child of circumstance without a conscience, who climbs from the gutter and storms the heights of success on the stage until she attracts all Paris only to find that she has a heart, that her life, passionate dream of love with Dufrenoy is only a dream and quickly over, her wild scheme of revenge turned aside by a little child, her successful resistance of the strongest temptation to return to the old life she hates and at the end a glimpse of the real woman with a heart of gold who has learned to the full the meaning of self-sacrifice. All this in turn Miss Felton most faithfully portrayed last evening, showing as the play turned along from comedy to tragedy, an intensity of feeling and an appreciation of the plot worthy of the highest praise for dramatic art. Miss Felton's performance would have scored on the stage of any metropolitan theatre as an entirely first-class production and her success with the audience last night was never for a moment in doubt. The support given by the company was acceptable and the play was well staged.

The management of the opera house have arranged with the Allen players to extend their original engagement and this excellent company will play here for the balance of the week, producing "Dad's Girl" this evening, "The Second Mrs. Tanager," played here so successfully by Miss Felton last season on Wednesday night, "The House of a Thousand Candles" from the well-known novel by Meredith Nicholson on Thursday, "Hello Girl" on Friday and "What We Were Twenty-one" on Saturday night, an exceedingly good line of decidedly interesting plays, that in such good hands cannot fail to attract crowded houses all week.

A Special Meeting

of the members of the Nelson Board of Trade will be held in the board room on WEDNESDAY, the 26th inst., at 8 p.m., for the purpose of considering "Publicity" matters.

Others interested in the progress and development of the city and district are invited to be present to discuss this and other questions in the same connection.

By order

E. K. BEESTON

Secretary

MADE
WELL AND
STRONG

By Lydia E. Pinkham's
Vegetable Compound

Dovedale, Sask.—"I was a sufferer from female weakness—monthly periods irregular and painful and a bad discharge, backache and a wretched headache, and had felt weak ever since the birth of my twins. I tried doctors but got no relief. I began to take Lydia E. Pinkham's Vegetable Compound, and after three weeks I was feeling much better, and now I am well again."
—Mrs. Bessie Bily, Dovedale, Sask., Canada.

Another Woman Cured.
Christiana, Tenn.—"I suffered from the worst form of female trouble so that at times I thought I could not live, and my nerves were in a dreadful condition. Lydia E. Pinkham's Vegetable Compound cured me, and made me feel like a different woman. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold to suffering women."
—Mrs. Mary Wood, R.F.D. 8.

If you belong to that countless army of women who suffer from some form of female ill, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

For thirty years this famous remedy has been the standard for all forms of female ill, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, irregularities, backache, and nervous prostration.

GREENE AND GAYNOR
WANT PARDON

ATLANTA, Ga., Oct. 24.—The parole board of the federal penitentiary here, which was created by a recent act of congress, began its first meeting today for the consideration of applications for paroles and pardons. Among the 300 applicants for pardons the most notable perhaps are Greene and Gaynor, the former a millionaire contractor of New York city, who was convicted of implication in the great Savannah harbor improvement fraud, for which former Captain O'Brien, Chief of the United States army served a prison sentence. The sentences of Greene and Gaynor, who were convicted only after their cases had been carried to the petty court in England and the supreme court of the United States, will expire within the coming year.

Charles W. Morse, the former ice king and bank owner, who is serving a 10-year sentence for wrecking the Bank of North America, is not entitled to make application to the parole board at the present time owing to the fact that he has not yet served one year of his term.

Minard's Liniment Co., Limited.

Send a customer of mine cured a very bad case of dizziness in a valuable home by the use of MINARD'S LINIMENT.

Yours truly,

VILANDER PRERER.

We have had placed in our hands for sale one of Nelson's fine homes. The house is situated on four lots, all in bearing fruit trees. There is a stone foundation with cement floor basement. House has double parlor, dining room, kitchen, three bedrooms, etc. A good stable on property.

Price \$4200, easy terms.

Old Age
and Poor
Sight Are
Poor Com-
panions

Do you ever come in contact with people who will tell you that their sight is commencing to fail them and they are of the opinion that if they start to wear glasses they will always have to wear them. The majority of people do not realize the fact that the sight changes with age, just the same as any other part of the anatomy changes. If you believe that an ounce of prevention is worth a pound of cure, you can realize at once that where you have your eyes attended to when the first symptoms manifest themselves, it will mean better sight for the future. Don't say you can't afford to have your eyes attended to now as delays are dangerous. If your eyes are worth having they are worth preserving.

Fine watch repairing a specialty.

J. J. Walker 403 Baker St.

Graduate Optician and Jeweler

Spend \$70,000 on Sidewalks

This is what the bylaw carried by the ratepayers of Burnaby for the purpose of building sidewalks calls for. Surely this is enough indication that the municipality is going ahead at a tremendous rate. This is what the Vancouver Province says:

ENLARGING MILL YARDS

Canadian Western Lumber Company
Has Large Stock on Hand

NEW WESTMINSTER, Oct. 11.—The yards of the Canadian Western Lumber Company's mills at Fraser Mills are being enlarged to accommodate the immense amount of lumber of all kinds the company has on hand. The expert demand for lumber has been so small for the past three months that the company has shipped but very little lumber.

In all about \$500,000 worth of lumber is stored in the yards, the immense capital stock of the company making it possible to carry the large quantity. The fact that American lumbermen can undersell Canadians in the Northwest market is said to be responsible for the prevailing low price of lumber.

The company is experiencing no difficulty in getting logs and about 150,000 feet of them are now at the mills ready to be sawed. Approximately 400,000 feet of lumber is stored in the yards.

When a city goes ahead at this rate property is bound to advance rapidly in price and the man who gets in on the ground floor always comes out ahead. GET IN NOW!

We have a choice subdivision situated on 3rd avenue, Burnaby adjoining the city limits of New Westminster just four blocks from 8th avenue, referred to above and overlooking the Fraser Mills Lumber company's plant, the B.C. Distillery and the new C.N. terminals on the Fraser river. The property is directly between the Vancouver-New Westminster interurban and the Vancouver-Sapperton interurban lines, and in just four blocks from the New Westminster car line. The property is all cleared, lots are 50x160 feet and each lot has from nine to twelve bearing fruit trees thereon. They are situated on a graded street which is the most populous one in East Burnaby. We can confidently recommend the lot as a good sound investment, sure to make you money, and in the very near future.

Prices: \$500 to \$650. Terms: \$25 cash; balance 3, 6, 9, 12, 18 months. Call at our office and let us show you.

Your prompt action will secure you the choicest of the unopened lots only 22 available. Cut out and mail today to the Western Canada Investment Co., Nelson, B. C.

Please find enclosed \$1.00 first payment on lot..... in VANMINSTER Subdivision, situated on 3rd avenue, Burnaby district. It is understood that you will select for me the best unopened lot and if found upon inspection to be other than represented, any amount paid on same to be promptly refunded.

NELSON NEWS OF THE DAY

(Additional local news notes on page 4.)

The annual meeting of the Nelson
Circle of the Baptist church will be held
tomorrow evening.

Mrs. Hugh Hyland and family leave to-
morrow morning for Ottawa, where they
will take up their residence.

The sessions of the supreme court at
Nelson for the hearing of civil cases
close on December 1.

Mrs. B. G. Robinson and her daughter,
Mrs. H. Bogue of Calgary are visiting
Mr. and Mrs. W. R. McLean.

John Bowman, of the West Kootenay
Power company's staff at Bennington,
was in the city yesterday.

W. B. Kearney left yesterday afternoon
for the Kootenays for the popular country,
to join Fred Hime's hunting party,
which is out for big game.

Mrs. Mary Foster Bryner will teach a
model lesson to the junior class of the
various Sunday schools next Sunday after-
noon in Trinity Methodist church.

M. H. Galloway of the Crow's Nest Pass
Lumber company at Wardner is a guest
at the Strathcona. Mr. Galloway, who is
well known in Nelson, is here for a vaca-
tion.

J. D. Anderson, H. C. A. Cornish, J. H.
Gould and J. W. Turnbull were among
the visitors to the city from Trail yester-
day and Sunday. They were all
guests at the Strathcona.

Mr. and Mrs. C. W. McBride of Nelson
were down to their ranch at Blowers
on Sunday. Their son, Chester McBride,
who has been managing the ranch for the
past two years, is about to leave for a
prolonged holiday on the prairie.

His honor, Judge Forth, left on Sun-
day night for Vernon, to attend the pro-
vincial Sunday School convention. He will
not return till Saturday night. Conve-

quently, there will be no sittings in
chambers until a week from today, next
Monday being Thanksgiving day.

At the court of revision of the voters'
list that will be held on November 21 by
Stephen H. Hopkins, 35 applications came
up for hearing. A number of applica-
tions made since the closing of the list
go over to the May court of revision.

A few days ago a stranger walked into
the office of the Cranbrook Herald and
asked to be allowed to subscribe his dollar
to the Kootenay memorial fund. He
had never met John Houston, he said,
but had heard of him while mining in
Alaska and wished to participate in the
movement to perpetuate the memory of
the pioneer journalist of Nelson.

Hon. Thomas Taylor, minister of pub-
lic works, arrived in Nelson on Sunday
night from Fernie, where he took part
in the campaign which resulted in the
return of W. R. Howe, M.P., the minister-
elect, by a huge majority. Mr. Taylor
left yesterday morning by the steamer
Moyie for Kaslo, from there is proceed-
ing by the steamer Kootenay to Larso, and
on to the coast by that route.

Errol L. Wright, the popular local man-
ager of the Wright Investment company,
and his brother, named Errol, were re-
scued from drowning through the capsi-
ng of their canoe in the rapids below
Grouseman creek on Sunday. The whole
outfit, including blankets, provisions and
fishing tackle, was lost, and the brothers
are thinking their lucky stars that they
are alive to tell the tale.

Royal Hotel, here's your home for the
winter. Best board in the city. 106

Bulbs for fall planting, both for the
garden and house, have now arrived at
the Hudson's Bay Store. They are di-
rect from one of the very best firms in
Holland. See advt.

For Thanksgiving Day, October 21, 1920,
the Canadian Pacific Railway Company
are authorizing a sale of fare and sec-
ond third for the round trip. Tickets will be
on sale October 28 to 31 inclusive, final re-
turn limit November 2, 1920.

EAST KOOTENAY

The new through telephone line between
Cranbrook and Spokane was completed
Saturday as far as Moyie. From that
place to Kingsgate the line will be ready
for use in a few days. This completed
East Kootenay will have telephone con-
nection with the entire Rocky mountain
bell system at Spokane, extending as far
east as Salt Lake City, Utah. Connection
between East Kootenay and Nelson will
also be possible.

The present output of the Hommer
mines, Limited, is about 100 tons daily. The
management expect this to be increased
in the near future to 150 tons per day.

It is J. Ward of Vancouver has been ap-
pointed as the new chairman. He first
entered upon his career as a fireman in
Montreal where he served on the salvage
department with Chief Donald Guthrie
of Nelson.

Born, on October 24, to the wife of Rob-
ert Kearney, Hommer, a daughter,
Lana, was born. She is the daughter of
the late J. Ward, installed by the Vancouver
mines, Limited, for working black coal.

CHRISTIANS SHOULD
READ LITERATURE

Else They Will Not be at Home in
Heaven—Striking Sermon by Rev.
Mr. Cornish.

From the saying of the Prophet Hosea,
"Ephraim is a cake not turned," Rev.
Thomas H. Cornish, who is spending a
fortnight's holiday in Nelson, from Cal-
ifornia, preached a striking sermon
in the Baptist church, on Sunday
night. The point that the eloquent
preacher particularly enforced was that
man had inclinations and aspirations that
found their co-ordinating only in heaven
and in eternity. A man might be a mag-
nificent animal physically, and he might
make the very best use of his intel-
lectual powers, bringing them to the high-
est development, and yet be wanting in
the moral attributes that constituted an
essential part of manhood.

While laying the foundation for his
main conclusion, the scholarly preacher
incidentally insisted that every human
being was bound to make the most of
himself both physically and mentally,
else he was a partial failure in life.
Many professing Christians would not
feel at home in heaven, he remarked, if
trashy novels were not there available.
When the world's best literature was
available everywhere in 25-cent form, there
was no excuse for those who should read
only the highest and best, preferring the
lowest and worst. A book that was not
worth reading again and again was not
worth reading at all. Another point
was to the purity that both parties to
marriage should be able to bring to the
marriage altar. The preacher made a
striking plea for a fully rounded manhood
and womanhood.

Mr. Cornish's subjects next Sunday are,
"Some Fundamentals of Christian Truth"
and "Baptized-Up People."

GAS, HEARTBURN AND
DYSPEPSIA VANISH

Settles Your Out-of-Order Stomach and
Ends All Indigestion Five Minutes
Later.

You can eat anything your stomach
wishes without fear of indigestion or Dys-
pepsia, or that your food will ferment or
sour on your stomach. It will take a
little Diapexin occasionally.

Your meals will taste good, and anything
you eat will be digested—nothing can fer-
ment or turn into acid or poison or cause
gas, which causes belching, flatulency,
a feeling of fullness after eating, Nausea,
indigestion (like a lump of lead in stom-
ach), Bloating, Heartburn, Water
breath, Pain in stomach and intestines or
other symptoms.

Headaches from the stomach are abso-
lutely unknown. Where this effective
remedy is used. Diapexin really does all
the work of a healthy stomach. It di-
gests your meals when your stomach
can't. A single dose will digest all the food
you eat and leave nothing to ferment or
sour and upset the stomach.
Get a large 50-cent case of Page's Diapexin
from your druggist and start taking it
now, and in a little while you will
actually brag about your healthy, strong
stomach, for you then can eat anything
and everything you want without the
slightest discomfort or misery, and every
particle of impurity and gas that is in
your stomach and intestines is going
to be carried out without the use of laxa-
tives or any other assistance.
Should you at this moment be suffering
from indigestion or any of those dis-
tressing ailments, you can get relief within five min-
utes.

GIRLS TAKEN TO STATES

WINNIPEG, Oct. 24—Two girls aged
15 and 18 years, daughters of well
known Winnipeg people left the city
for the south last week in company
with a rogue who advertised for girls
for a theatrical company. The police
suspect the man is a white saver.

A GENEROUS OFFER

To Whom It May Concern,
There are hundreds of people in this
vicinity at the present of the year who
need a blood-making, body-building and
strength-creating tonic.

It is in all cases, which comprise all
rheumatism, indigestion, constipation, run-
down and enervated, and all those
who suffer from chronic coughs and colds,
that we ask to come to our store and get
a bottle of our delicious and liver
and iron tonic (without oil).

If it fails to build you up, create
strength and restore your health, we
will cheerfully refund the money paid as
for it. We take all the chances—you take
none. As a matter of fact, we don't take
much chance either, because Vinol rarely
disappoints us. Come in and get a bot-
tle on these terms. W. Rutherford,
Druggist, Nelson.

Minard's Liniment cures Neuralgia

A POSITIVE CURE FOR INDIGESTION

If you have indigestion, your food fer-
ments in the stomach and bowels. It does
more; it delays, and the nutritious matter
which should go to make new blood dis-
cays with it, and this leads to an im-
perfect condition of the blood, in ner-
vousness, ill-humors, constipation, sick
headache, bad breath which disgusts your
friends, and other disagreeable and un-
pleasant conditions.
And all this trouble is caused by the
food that you eat, but ferments and
decays in the stomach.
And fermentation is caused by the
stomach not being strong enough and
energetic enough to thoroughly mix the
food with the digestive juices.
Mi-O-NA is responsible for tons of thou-
sands of cures. In fact, it is such a pos-
itive cure for indigestion and all stomach
troubles that it is guaranteed by the Poole
Drug company to cure or money back.
The price of a large box of Mi-O-NA tak-
lets is 25 cents, and they are sure to
promptly relieve the worst case of indig-
estion or guarantee. Try them.

NELSON NEWS OF THE DAY

Additional local news items on page 7.

There will be no drill parade of the First Nelson Company Boys' Brigade this week.

The maximum temperature yesterday was 45 degrees and the lowest recorded was 27 degrees.

H. Perry Leake, of Revelstoke, Dumbarton government engineer, spent yesterday in the city.

B. C. Hay and wife reached the city last night from Spokane and are guests at the Strathcona.

A. Conelans, manager of the Athabasca mine, returned on Sunday night from a visit to Spokane, Seattle and Vancouver.

The Misses Toye will receive tomorrow afternoon at 313 Vernon street and afterwards on the third Wednesday of each month.

The Canadian Order of Foresters will hold a social in their lodge room tomorrow night. A special program has been arranged for the occasion.

The Knights of Pythias are giving a social in the K. of P. hall this evening. A good program for the entertainment of members and visitors has been arranged.

The committee in charge of the Boat Club ball on Thanksgiving day have decided to hold the affair in the Eagle hall instead of the Armory as at first intended.

Captain Robertson caught a 24-pound salmon at Kootenay on Saturday morning. The fish was a beauty, and provided plenty of sport before Captain Robertson succeeded in landing it.

Among those who left on Sunday evening to attend the convention of Sunday school teachers at Vernon was Miss Lillian Poole, who is the accredited representative of the Fairview Sunday school.

Dr. William Paterson, well known in the Canadian and American ministry, accompanied by Professor Weaver as general starer, are due to arrive in Nelson on Saturday evening and will begin their evangelistic mission in St. Paul's Presbyterian church next Sunday.

The military class under the auspices of the Nelson and District Women's Institute will be opened tonight in the Eagle hall at 8 o'clock.

"Woe in the Fifth" is the title of a most interesting picture at the Empire theatre this evening. Others are "Building Carts in Sleds," "A Fresh Start" and "Carle's Portrait."

The body of the late Charles Y. Duke, who died at Prince Rupert on October 12 as the result of an overdose of an opiate which had been prescribed to induce sleep, reached the city on the coast train last night. The date of the funeral has not yet been announced.

The subjects to be shown at the Gem theatre are excellent. The feature film (an Imp), entitled "The Widow," is a sequel to "Fruit and Flowers." Is this we see Miss Lawrence at her best. "Woe in the Fifth" is a very fine drama, after Goethe's novel "For Her Son's Sake," and on the humorous side is shown "His Wounded Heir."

The funeral of the late Mrs. A. J. Laviolette took place yesterday afternoon from St. Paul's Presbyterian church, Dr. J. T. Ferguson officiating. The pallbearers were N. J. Hawkins, W. H. Sharp, J. McPhail, John Kay and Messrs. Norrose and Sharp. The funeral was largely attended by friends on the Grand road, nine or ten miles following the hearse from the church to the cemetery.

The funeral of the infant daughter of Mr. and Mrs. E. C. Wragge will take place this afternoon at 2 o'clock from the family residence Observatory street.

The New England Cafe, opposite the Barker's hall, reopens today under the management of Mrs. B. Matthews, who promises the very best service. Dinner from 12 to 3 p.m.; supper from 4 to 8.

Minard's Liniment is good for Sprains.
