## MAKES STRIKE ON LUCKY BOY

Reach Big Vein After Encountering Fault.

### SMELTER ASSAYS GIVE GOOD VALUES

Manager Myers Expects to Begin Shipments After Road Is Completed.

News of a strike of 42 inches of solid carbonate ore on the Waffer claim of the Lucky Boy group, adjoining the second Relief mine, reached the city last night through S. L. Myers, manager of the company. The ore, he said carries good values in gold and silver with a high percentage of copper.

"No assay has yet been made," he said, "but an average sample taken across the vein four feet wide at the surface and sent to the Trail smelter gave returns of $32.40, with a freight and treatment charge from Erie of $6.60. Four other assays at various depths gave returns of $34.80, $58.60, $65.20 and $144, when a fault was met.

"The strike now is the finding of the vein in place beyond the fault and at a depth of 120 feet. The vein is six feet wide between free walls, with 42 inches of clean ore, with indications that the ore will soon fill the vein.

"We expect to begin shipping as soon as about 1,000 feet of road can be completed to the Relief road. The government built a portion last season and we are hoping they will complete this 1,000 feet as we have spent over $500 ourselves on the road."

## MINING MAN FROM AUSTRALIA HERE

William Jamieson, Director of Broken Hill Mines, is Interested in Refractory Zinc Ores

Deeply interested in the problem of the smelting of the refractory zinc ores of the Kootenay which are closely akin to some millions of tons of ore which are on the dump of the Broken Hill mines in Australia with which he is associated as a director, William Jamieson is taking the opportunity given by a tour through Canada to discuss the question with the mining men of this district and to examine the ore from some of the more important mines.

Mr. Jamieson has already gone into the question at great length with A. Gordon French who is preparing a plant here to demonstrate a new process which is considered likely to solve the problems and who was also at one time associated with the Broken Hill mines, which are among the largest in the world.

Mr. Jamieson, who is at the Strathcona, is on his way to Australia, after a visit to England.

## THINKS WAR CLOUD WILL PASS AWAY

Financial Interests Will Find Solution of Moroccan Difficulty, He Says —Sporting Bet.

(Special to The Daily News.)

VANCOUVER, B. C., July 28.—"The influence of finance on the present war cloud will find a speedy solution," said Thomas W. Lawson, the Boston millionaire and trust buster, who is here today with a party from southern coast cities enroute to Winnipeg. While the Morocco problem is apparently a war question, it is chiefly one or finance. The ablest brains are solving it. As a stock broker I am willing to bet one thousand to one that the whole matter will be arranged satisfactory to all concerned within the next two days."

Mr. Lawson favors reciprocity which, he said, did not mean annexation or political union.

## EMPRESS MAY BE TOTAL WRECK

Passengers and Mails Rescued by Japanese Warship—Ship is Still Aground

MONTREAL, July 28—A cablegram received by Vice-President G. M. Bosworth of the C.P.R. from Yokohama today, states that passengers and mails from the Empress of China which lies aground off the eastern coast of Japan were transferred from the ship to Yokohama by a Japanese warship on Thursday. The captain of the Empress reports the boat to be in a precarious condition and it is said in some quarters that the vessel will be a total wreck.

## SYSTEM FAVORS CORPORATIONS

A. Macdonald Talks on Railway Commission.

### HEAVY BURDEN ON SMALL MAN

Suggests Change—The Fuel Problem Serious One on Plains, He Says.

Under the existing system the corporations enjoy a great advantage over the city, association or individual which brings a case before the railway commission against a railway, express company or telegraph company, according to A Macdonald, the Winnipeg wholesaler, who at the Strathcona last night expressed the opinion that the burden of obtaining the complete facts and figures and of afterwards supporting them by argument, which at present falls upon the applicant in such cases, should be taken over by the railway commission itself and a finding given according to the information the commissioners obtain.

"The board of railway commissioners," he said, "are a body created in the public interest by the government. They are supplied with all the facilities for obtaining any data they may require; they can order a railway to divulge any information they may desire to have placed before them, and they have the means behind them to employ the best experts on the continent to assist them in coming to a conclusion in any case.

"Under the present system the city or individual must bear all the expense of fighting for fair freight rates, express charges or telegraph tolls against the enormous wealth of the great corporations with their special departments equipped to deal with such cases.

"It is most unfair—it is like putting a minnow up to fight a whale. And the result is that the corporations start out in every case with a great advantage in their favor.

"My idea," explained Mr. Macdonald, "is that the applicant for adjustment of charges should only have to make out what would in legal parlance be called a prima facie case and that the railway commission should then go ahead and obtain such facts and expert testimony as they may require in order to come to a fair decision.

"This would take the great burden of expense from the shoulders of the little fellow and give him a fair chance against the giant corporations," said the great wholesaler.

**Coal Shortage Menace to Plains.**

Concerning the wheat crop in the prairies Mr. Macdonald said that he thought that if the present favorable conditions continued the harvest would give the record production of over 200,000,000 bushels. "The increase in settlement and the consequent increase in the acreage under cultivation is, with the excellent weather conditions, responsible for this huge crop," he said.

"With such a crop as this the plains are on the even of the greatest era of development that any country has ever seen, I believe," said Mr. Macdonald.

"The only rift in the lute, as far as I can see just now, is the coal shortage. The situation as regards fuel supply is most serious. Everyone hopes to see the strike settled shortly, but even if a resumption of operations takes place within the next few days I do not see how great hardships can be averted, as the demand will be so tremendous.

"In a few weeks the carrying facilities of every railroad in the the country will be taxed to the utmost to move the crop eastward and it is no answer to the problem to say that the cars can bring coal west on their return journey, for experience tells me that the cars after they have been taken east with their load of wheat take many weeks, sometimes many months, to find their way back to the prairies again.

"What the plains will do without fuel I do not know. There will be no cars to bring the coal from the east, and there does not seem to be much chance of their being sufficient mined in the Crow's Nest, even with an early resumption of operations to meet the demand.

"This is a problem that requires the deepest consideration. There are many thousands of settlers in the prairies who have no other source of fuel supply than the mines; and if they do not get coal it seems that they must freeze."

**ELEVATORS BURNED**

WINONA, Minn., July 28—Fire starting at 6 o'clock this evening entirely destroyed a mill and several elevators of the Bay State Milling Co., The loss is $300,000.

"Just a Bloomin Imitation, It's Cracked."

## Quebec Storm Centre, Says Premier McBride

QUEBEC, July 28—"Quebec will be the storm centre in the next elections" said Hon. Richard McBride, premier of British Columbia, who arrived on the Allan liner Virginian this afternoon. Among the other passengers on board the steamer were Sir Mackenzie Bowell and Hon. George E. Foster. They were met on arrival by several of the leading Conservatives of Quebec.

In conversation Mr. McBride asked if there was anything new in regard to the dissolution. He said that there was the keenest interest taken on the other side in regard to the coming election in Canada which was looked upon as the most important which has been held in Canada for a long time.

## TWO ARE FINED FOR SETTING OUT FIRES

Heavy Penalty for Contravention of Fire Protection Act—First Conviction Here This Year.

The first conviction for a contravention of the provincial fire protection act in this district this year was obtained yesterday before W. H. Bullock-Webster, stipendiary magistrate, in the provincial police court, when two men were each fined $50 and costs with six weeks in jail as an alternative, for setting out fires without a permit. This is the minimum penalty under the act.

The guilty persons were Emil Caus of Fairview and a man named Dickender of Smelter flats. Both pleaded guilty.

The provincial government was represented by Fred C. Moffatt. Other prosecutions are expected to follow unless the act is more strictly observed in future, as the supervisor of fire wardens is determined that every possible effort shall be made to prevent the outbreak of forest fires in the district.

**EVIDENCE OF WHOLESALE ROBBERIES OF FREIGHT CARS**

WINNIPEG, July 28.—With $2,000 worth of goods, alleged to have been the proceeds of freight car thefts, and evidence of twice that quantity having been destroyed or disposed of, a north end storekeeper was tonight arrested by the police, who, however, refuse to divulge his identity. The arrest followed the investigations of the police concerning numerous freight car depredations and the presence in the store of tonight's arrest of partly destroyed merchandise betrayed to the police. Fear, inspired by other recent arrests, caused the storekeeper in question to proceed to destroy the evidence of his share in the transactions.

**REDUCES FREIGHT RATES ON PENNSYLVANIA COAL**

CALGARL, Alta., July 28—A local paper is authority for the statement that the C.P.R. has reduced the freight rate on coal from Port Arthur to Winnipeg by $2 a ton which will enable the west to get its supply from the Pennsylvania mines.

**WINNIPEG FIRE**

WINNIPEG, July 28—A fire starting in the office of the Courier Printing Co., and extending to several stores created damage to the extent of over $2,000.

## ASK PREMIER TO ACCEPT NOMINATION

Conservatives of Comox Atlin Want Premier McBride to Represent Them at Ottawa.

(Special to The Daily News.)

PRINCE RUPERT, B. C., July 28.—Premier McBride will be asked to accept the nomination for Ottawa, if the majority of Comox Atlin Conservatives have their way. Delegates met last night but another convention will be held in a few days when more representatives from the southern part of the district are expected. Editor Newton of the Prince Rupert Empire and Ald. Stephens are also mentioned for the nomination, while the three mentioned as Liberal candidates are Duncan Ross, Judge Young of Prince Rupert, and Judge McInnes of Vancouver.

## DEER RUSHES THROUGH CITY

Fine Antlered King of the Forest Makes Crowd Fly During Band Concert

Rushing down Vernon street from the direction of the city park a fine deer passed like a flash through the big crowd assembled for the band concert, and made its way through the brush to Baker street, then disappearing westward.

The animal was of the white tail variety and had a pair of remarkably fine antlers. It is thought that it must have made its way down Evening mountain, through the city park and down the trail to Vernon street.

Plentiful as are deer in this district such an occurrence as last night's is said to be without parallel in Nelson during the past 20 years.

Coupon No. 6.

This coupon, with one from each of the other issues of The Daily News of the week ending July 29, and 10 cents, entitles the holder to a photogravure reproduction of the great historical picture "Founders of the Dominion." If pictures are to be mailed 5 cents must be added to cover postage.

## Cargo Shifts, Steamer Plunges Beneath Waves

HALIFAX, N. S., July 28.—The steamer John Irwin reported yesterday to be overdue on a trip from Port Morien to Halifax foundered and out of her crew of 11, 10 perished. The only man saved is W. L. McLeod, the mate, who, on reaching Sherbrooke today told the following harrowing story: "The steamer John Irwin at 5:15 o'clock foundered six miles off Beaver light. At the time the sea was running high, with a heavy off-shore gale. In the gale the cargo shifted badly, and the ship listed and the water, sweeping over everything, tore away the hatches and in a moment it was evident the ship was doomed. The captain ordered the boats cleared, but before the covers could be cut away, the steamer plunged under head first, carrying all hands down with her. The second engineer, I believe, was still below and could not reach the deck."

Mate McLeod went on to say that when he came to the surface he secured a cork fender. A moment later one of the hatches and then part of a bunkhead appeared, out of which he constructed a raft. He picked up the cook and shared his raft with him. He saw the chief engineer on another of the hatches and spoke to him also. He saw Alex McIntosh, one of the firemen, on some wreckage, but they soon disappeared. The terrible battering of the storm soon told on the cook and he lost heart and despite Mr. McLeod's repeated rescues he was unable to save the unfortunate cook, who died of exposure that evening. Mr. McLeod drifted ashore at eastern Red Hold at the entrance to Liscombe harbor, between six and seven o'clock on Wednesday night. He was in a state of utter exhaustion. He slept under a tree all night and in the morning managed to make his way over the unbroken country to Marie Joseph, where he was cared for, and on the arrival of the Dufferin he came to Sherbrooke. Asked for further details, McLeod replied that "it was all too sudden to leave much to tell. The cargo shifted and she went down within a minute."

McLeod did not know the names of all the members of the crew, who numbered 11 all told.

## CONFERENCE ON NAVAL DEFENCE

Naval Status of Dominion Is Defined

### EXCLUSIVELY IN CONTROL OF CANADA

Training Uniform With That of British Navy—Naval Stations Defined

OTTAWA, July 28—When the house met this morning Sir Wilfrid Laurier read a cable from the colonial secretary in reply to one sent by Earl Grey acceding to his request that the Canadian government be allowed to make public the report of the conference between Canada, Australia and the British admiralty on naval defence.

The report defines the naval status of the Dominion. The chief features of the agreement were that the navies of Canada and Australia will be exclusively in control of the respective governments and that the training will be generally uniform with that of the imperial navy.

In defining naval stations Canada is given the north Atlantic and part of the north Pacific.

The Australian station will be across the south Pacific and extends to the Antarctic circle. It is decided that the Dominion naval vessels will fly the white ensign at their stern and their distinctive flag at the flag staff.

In international affairs the colonial offices will be under the control of the admiralty and in time of war when the naval service of the dominions has been put at the disposal of the imperial government it will form an integral part of the British fleet.

Detailed provisions are made for the control of vssels of the Dominion forces when in other parts of the empire or off their stations or in foreign ports.

**Detailed Report**

The detailed report tabled by Sir Wilfrid is as follows:

1. Naval services and forces of the Dominions of Canada and Australia will be exclusively under control of their respective governments.

2. The training and discipline of the naval forces of the dominions will be generally uniform with the training and discipline of the fleet of the United Kingdom, and, by arrangement, officers and men of the said forces will be interchangeable with those under control of the British admiralty.

3. The ships of each dominion naval force will hoist at the stern the white ensign as the symbol of the authority of the crown and at the jack-staff the distinctive flag of the dominion.

4. The Canadian and Australian governments will have their own naval stations as agreed upon from time to time.

5. In event of the Canadian or Australian governments desiring to send ships to a part of the British empire outside of their own respective stations, they will notify the British admiralty.

6. In the event of the Canadian or Australian government desiring to send ships to a foreign port they will obtain the concurrence of the imperial government, in order that necessary arrangements with the foreign office may be made, as in case of ships of the British fleet, in such time and manner as is usual, between the British admiralty and the foreign office.

7. While the ships of the dominions are at a foreign port, a report of their proceedings will be forwarded by the officer in command to the commander in chief of the station or to the British admiralty. The officer in command of a dominion ship so long as he remains in a foreign port, will obey any instructions he may receive from the government of the United Kingdom as to the conduct of any international matters that may arise, the Dominion government being informed.

8. The commanding officer of a dominion ship having to put into a foreign port without previous arrangements on account of stress of weather or danger of any unforeseen emergency will report his arrival and the reason for calling to the commander in chief of the station or to the admiralty and will obey so long as he remains in a foreign port any instructions he may receive from the government of the United Kingdom, the Dominion government being informed.

9. Whenever a ship of the British admiralty meets a ship of the Dominion the senior officer will have the right to command in matters of ceremony or international intercourse, or where united action is agreed upon, but will have no power to direct the movements of the ships of the other service unless the ships are ordered to co-operate by mutual agreement.

10. In foreign ports the senior officer will take command, but not so as to interfere with orders that the junior may have received from his own government.

11. When a court martial has to be ordered by a dominion ship and a sufficient number of officers are not available the British admiralty if requested will make the necessary arrangements to enable a court to be formed. Provision will be made by order of his majesty in council and the dominion government to define the conditions under which the officers of the different services are to sit on joint court martial.

12. The British admiralty undertakes to lend to the dominions during the period of development of their services under conditions to be agreed upon, such flag and other officers and men as may be needed. In their selection preference will be given to officers and men coming from or connected with the dominions but they should all be volunteers for service.

13. The service of officers of the British fleet in the dominion naval forces or of officers of these forces in the British fleet will count in all respects for promotion, pay, retirement, etc., as service in their respective forces.

14. In order to determine questions of seniority that may arise, the names of all officers will be shown in the naval list and their seniority determined by the date of commission, whichever is earlier in the British, Canadian or Australian services.

15. When it is desirable in the interests of efficiency and co-operation that arrangements should be made from time to time between the British admiralty and the dominions for ships of the dominions to take part in fleet exercises, or any other joint training is considered necessary it shall be under the senior naval officer while so employed; the ships will be under command of that officer, who would not, however, interfere in the internal economy of ships of another service further than absolutely necessary.

16. In time of war when the naval service of a dominion or any part thereof has been put at the disposal of the imperial government by the dominion authorities the ships will form an integral part of the British fleet and will remain under control of the British admiralty during the continuance of war.

17. The dominion governments having applied to their naval forces, the King's regulations, admiralty instructions and naval discipline act, the British admiralty and the dominion governments will communicate to each other any changes which they propose to make in these regulations or that act.

18. The Canadian Atlantic naval station will include the waters north of 30 degrees north latitude and west of the meridian of 40 degrees west longitude. The Canadian Pacific naval station will include waters north of 30 degrees north latitude and east of the meridian of 180 degrees longtitude.

**COUNT RAILWAY MEN.**

On account of the difficulty of tracing men who work on railway extra gangs, the assistance of the public is asked, in order that all members of extra gangs, as well as other railway employees, who may be entitled to be enrolled in Nelson's census, may be properly enumerated. The lists of Enumerator Ebbs are now being checked up, and there will be opportunity for two or three more days for names to be added. Persons who may have been missed, through being overlooked, or through being away, should be reported to the publicity bureau.

## DISCUSSION OF NEWMARKET CANAL

Motion of Censure Rejected—Manitoba Not Getting Share of Appropriations

OTTAWA, June 28—Most of the morning and afternoon sittings of the commons was taken up with discussion of a resolution moved by Capt. Thomas Wallace of Centre York, condemning the government for its expenditure of money on the Newmarket canal. A division was taken shortly before 6 o'clock the motion being rejected by a vote of 79 to 45, a government majority of 34.

Capt. Wallace in making his attack on the government put on record the report of E. J. Walsh, a former engineer of the railways and canals department condemning the expenditure.

Sir Allan Aylesworth said that he had nothing whatever to do with the construction of the canal. It was built before his day in the house and had been justified by the electors of North York at two general elections.

Major Currie argued that the construction had been commenced at the request of a large deputation which included many Conservatives.

The debate was continued by E. B. Osler, W. D. Staples, Arthur Meighen, Glen Campbell and W. B. Smith. Western members complained that Manitoba was not getting its share of appropriations for public works. After the division anti-reciprocity talk was resumed. Major Beattie of London and Mr. Maddin of Cape Breton were the speakers.

**NAKED CHINAMAN ARRESTED WANDERING IN BUSH**

(Special to The Daily News.)

CRANBROOK, B. C., July 28.—A Chinaman named Wung See was found wandering in the woods between Wycliffe and Marysville yesterday. He had become insane and wandered around naked until arrested and brought here by Provincial Constable Barnes today. He suffered from the hallucination that he had met God.

## MAY TAKE VOTE OF MINERS

Executive Board in Session at Fernie.

### ACCEPTANCE OF BOARD'S FINDINGS

Operators Will Carry Out Report of Conciliation Board if Miners Agree.

(Special to The Daily News.)

FERNIE, B.C., July 28.—The executive board of district No. 18 have been in session all afternoon and tonight, being still in the committee room at this writing.

The afternoon session was devoted to a consideration of regular routine work connected with relief distribution and other matters of a business nature. It is thought that tonight's session is being taken up with the question of putting the report of Chairman Gordon before the different locals in the district for their consideration, and the manner in which this is to be brought about. It is probable that the miners will be called upon to record themselves for or against the findings of the board, but no definite statement as to what the verdict will be can be made at this time. The desire to have the mines opened as soon as possible grows stronger each day, whether this will go far to effect miners is to be determined. The executive seem to favor putting the question to the locals direct.

**Operators' Position.**

OTTAWA, July 28.—The minister of labor has received a telegram from Mr. Lewis Stockett, president of the western coal operators' association, in which the operators announce their acceptance of the majority report of the board of conciliation and investigation, of which C. W. Gordon was president. The telegram is as follows: "We feel that the majority report of the board is anything but a fair proposition taking into account the financial standing of a large number of the companies involved, and also taking into consideration the large financial interests at stake. We also feel that the acceptance of the same will work a hardship on the large capital involved which may take years to overcome. In this connection we might refer in passing to the fact that the report states that one of the facts disclosed by the investigation of the board was that probably two-thirds of the mines in the association have operated during the past 50 years at a loss. We realize, however, that the public have to a very large extent been considered, and while, if we considered only the interests of the companies involved, we would be forced to decline to accept the findings of the board, we feel that rather than precipitate a coal famine and consequent troubles we should accept the same. In doing so we wish it to be understood that we are signifying our willingness to negotiate an agreement with the United Mine Workers of America along the general lines suggested by the board in its majority report. This we understand to mean an absolute open shop without discrimination, a clause to be conceded to the operators that we retain absolutely the management of the mines and control all employees connected with the management and safety of the same. We also understand that the increase in the day scale is to be based on the existing scale of wages as provided in the last agreement between the United Mine Workers of America, district No. 18, and the Western Coal Operators' association. Beyond this we absolutely refuse to go."

## MANY FAMILIES ARE DESTITUTE

French Canadians North of Sudbury in Need of Assistance—Without Supplies

NORTH BAY, Ont., July 28—Late advices received from the townships of Hanmer and Caproal, north of Sudbury, reveal distressing conditions among the settlers there. Twenty-nine families were burned out in the recent fires and lost everything. The families are all large and mostly French Canadians. Supplies have been sent in from Sudbury but the people are destitute and in urgent need of assistance, as women are sleeping on bare boards, with only one blanket to cover them. About 200 human beings are in need of immediate assistance and the condition of the settlers is pitiable as supplies furnished thus far do not begin to meet pressing needs.

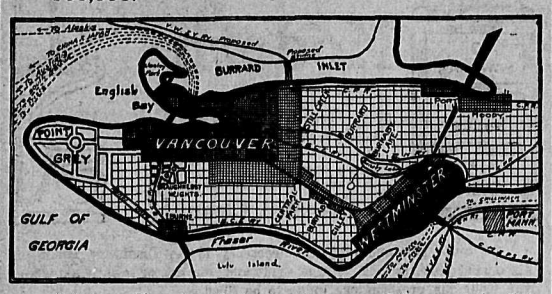
**Last Year Nearly $50,000,000 was Expended on this Peninsula. Over 40,000 was Added to the Population, and According to the Last Revised Assessment over $50,000,000 was Divided in Profits by the Owners of this Land. 26 Years Ago it had Practically No Value. Today the Assessed Value is $234,000,000.**



Statesmen, Financiers, Captains of Industry and Transportation link Vancouver with London and New York as the three great world cities of the future. The area of London is quoted as 734 square miles, New York has 640 square miles. The total area of this peninsula from Point Grey to the easterly limits of New Westminster is only 100 square miles.

On account of being surrounded by water the struggle to secure a foothold on this limited area will become more strenuous year by year, until, like Manhattan Island, it will become the highest priced real estate on the earth's surface.

We would like to show where our experience leads us to believe the fastest development will take place and a corresponding advance in values.

Do not delay. The prices and terms we can offer now will soon be gone and the greatest opportunity you will probably ever have to place a few dollars per month where they will secure you against want in the future.

Note where the arrow points. Those lots are bound to occupy a central position in one of the world's greatest cities. Procrastination is your worst enemy.

## SAYS ENGLISH BOXERS LADYLIKE

**Owen Moran Thinks He Can Beat Wolgast in England—Doesn't Like Infighting Practice.**

PLYMOUTH, Eng., July 28.—"Wolgast is more of a wrestler than a boxer, and I am willing to bet $5,000 that I can beat him if he will fight me in England," declared Owen Moran, whom Wolgast knocked out in San Francisco on July 4, as he arrived here.

Moran said that English boxers were "ladylike" as compared to the American fighters and expressed the opinion that as a result of English referees discouraging infighting America would easily retain the championship titles until the English referees become less strict. Moran said he made $50,000 on his American tour.

### MANY GOING AFTER RAINBOW THIS WEEK-END

Many local fishermen are going out to the big pool below Slocan Junction today and tomorrow. The weather is expected to be a trifle hot for fishing during the day time but is considered ideal for evening angling.

J. Killey, keeper of Creel Lodge, phoned in yesterday that some good catches were being made and that a couple of experts landed 16 pounds on Thursday evening.

### LANG-LESTER FIGHT EARLY IN SEPTEMBER

CALGARY, Alta., July 28.—Tommy Burns has received a cablegram from Jack Lester, the American heavyweight in Australia, to the effect that he and Bill Lang are going to fight for the Australian title on Sept. 2.

The last time these two men fought the fight was stopped in the sixth session when Lester appeared to have at the least an even chance to win. The American went to the floor without receiving a blow, the Australian landing on Lester's elbow and paralysing the "funny bone."

On Sept. 23, McCue, an Australian unknown, and Lester will come together for the honors.

Colin Bell, another unknown and apparently a lemon, was stopped in dig time by Lester a few days ago. Lang is the only man in the Antipodes who can give Jack a scrap and the chances are that the betting will be about ten to seven when they step into the ring with the odds on the American. He himself is absolutely confident that he can lick Lang. This notice is the first sign of the coming world's white hope received in America.

### TODAY'S LACROSSE GAME.

VANCOUVER, B. C., July 28.—According to New Westminster advices Pat Feeney may be given a rest today, Wintemute going back on the home. Murray will play again on the home end.

Newsy Lalonde is a certainty for the inside home job in today's match. He is showing great form and will be a hard man for the champions' defence to hold. Newsy led the league in scoring when he played inside home out here two years ago.

### SPORTING SPOTLIGHTS.

It is expected that there will be a big crowd of fans at the lacrosse game on Wednesday next between Nelson and Rossland. Manager Blackwood has had his aggregation, which includes many of the well known old-time players of the city in addition to plenty of new blood, practicing hard since the beginning of the season and he hopes to see the boys in green even up for the defeat at Kaslo on Empire day.

Nelson's trapshooters will meet for the weekly contest at the Gun club butts this afternoon.

Thomas Parker's six-pound rainbow trout, which he caught a day or two ago at the Slocan pool, provided a meal for six of his friends at the Hume hotel. Angling experts agree that it was a magnificent specimen of the rainbow. It is by some pounds the largest fish of the kind caught at the pool this year.

### ENGLISH FOOTBALL TEAM COMING

LONDON, July 28.—With the cheers of many enthusiasts ringing in their ears, 16 members of the Corinthian Football club sailed away on the Canadian Pacific liner Empress of Britain today for America, where they are to engage in a series of gridiron contests during the next two months. The team will land in Quebec, and will cross Canada to the Pacific, playing in a number of the principal cities, such as Montreal, Toronto, Winnipeg, Calgary and Vancouver. On the return journey the team will make a digression into the United States, where matches have been arranged at Chicago, Philadelphia and New York.

Additional Sport on Page Five.

**$3.50 Recipe Free for Weak Men**

**Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous**

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4659 Luck Building, Detroit, Mich, and I will send you a copy of this splendid recipie in a plain ordinary envelope free of charge. A great many doctors would charge $5.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free. 96

### POLITICS AND JUSTICE

By A. E. Watts, Wattsburg.

The relation of the two is sometimes as wide apart as the poles. Justice has to give place to the exigencies of the political situation. As an instance of this, one of the most important industries of Canada, which provides subsistence for a large number of her citizens and a market for the product of the prairie provinces, is at the present time a victim of the voracious politician who loves place and power better than justice.

Even the politician admits that it is not fair that one great industry should be singled out to bear the brunt of foreign competition when every other industry in the country is protected by a tariff, and some industries fed with the pap of bounties

Why does this condition exist? When two parties are striving for power one might imagine that one of the political parties would champion the cause of fairplay. The explanation is simple. British Columbia, which is and has been since confederation the victim of the politician's ambition, is a large territory sparsely inhabited and although enormously rich in natural resources from a political point of view she is of little value to the politician owing to the fact that she will be represented in the federal parliament by about eleven members, whereas the adjoining provinces of Alberta, Manitoba, and Saskatchewan will have probably sixty members who must of necessity bid for the votes of the farmers who think or who are taught by politicians that they receive some benefit by permitting the slaughter of the lumber industry of British Columbia, by the dumping of the surplus lumber from the United States, whilst if the situation is analyzed it will be found that the consumer really receives no benefit, any saving in the purchase price going into the pockets of the middlemen.

At the present time twenty to thirty million feet of American lumber per month is being dumped on the Canadian market. At this rate in the course of the year over $5,000,000 (five million dollars) of Canadian cash will be extracted from the prairie provinces and the full benefit given to Americans. British Columbia will be short of that amount which should be distributed amongst the wage earners and merchants of this province, as it is a well known fact that in the production of lumber the greater part of the receipts are spent in labor and supplies. A great proportion of the latter coming from the prairie farmers who are now sending their cash to the other side of the line, thereby destroying their largest and most profitable home customer, strangling one goose that lays their golden eggs.

If some great saving or adequate return was received there would be some reason or method in the madness.

British Columbia imports butter, meat, eggs and other farm produce valued at $14,000,000 per annum.

The lumber industry pays out more in one year in the shape of wages than do all the farmers of the prairies combined in two years. The wheat farmer works but a few months each year and with average crops grows rich. The lumberjack has one ceaseless round of toil, in the winter's snow risks his life in the roaring mountain torrents, sometimes on the logs and many times under them, and his work continues under the broiling sun, and his recompense is paltry compared to the farmers, the votes of whom in fear and trembling quaking stand the puerile politicians who appeal to the cupidity of the farmer class instead of appealing to their manliness and love of justice and fairplay.

Where is the Canadian statesman who has pluck enough to dare to suggest that the only unprotected industry in Canada should be placed on an equal footing with other industries.

If such a statesman exists he has an excellent opportunity to demonstrate his manliness and thereby win the esteem instead of the contempt of the farmers, most of whom desire a manly man far more than they do the cringing self-seeking political Charlatan through whose cheap veneer "ego" only shines.

If the politicians are the real friends of the class to whom they cringe why not give them some tangible benefits they can feel, give them tariff free machinery, hardware, clothing. Why not? Because the wealthy manufacturers of those and other commodities can afford to contribute more to the political campaign bag than can the indigent lumberman.

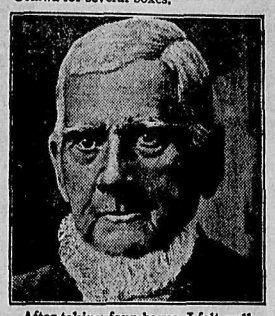
**A GRAND MEDICINE FOR OLD PEOPLE**

**"Fruit-a-tives" Restores The Health and Strength of Youth.**

GRANDE LIGNE, QUE., Jan. 2nd, 1910.

"I heartily recommend "Fruit-a-tives" to all who suffer from constipation and the painful consequence, Piles. I am now over 80 years of age and suffered for more than 10 years with Constipation and Piles. I tried all kinds of remedies, but nothing cured me.

About four years ago, I received a sample of "Fruit-a-tives". After taking a few doses, I felt that "Fruit-a-tives" were doing me good. As "Fruit-a-tives" were not sold here then, I wrote to Ottawa for several boxes.



After taking four boxes, I felt well—my Bowels were regular—and the Piles had disappeared". N. JOUBERT.

By taking one "Fruit-a-tives" tablet half an hour before meals—or one or two at night—old people can correct all Stomach, Liver and Kidney Troubles.

"Fruit-a-tives" the famous fruit medicine is mild and gentle in action—pleasant to the taste—yet no other remedy has been found to be so effective in keeping old folks in good health.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

**Sure Signs**

**Of Kidney Trouble**

If your back is constantly aching and if you experience dull shooting pains, your kidneys are out of order. If your urine is thick and cloudy or your passages frequent, scanty and painful, your kidneys and bladder are out of order. Neglect quickly brings on rheumatism, diabetis lumbago, sciatica, etc.

Mrs. John Wagner of 110 Hollis street, Halifax, N. S., says: "Dull shooting pains would catch me across the small part of my back and extend into my shoulders and neck, often causing me to suffer with severe headaches and spells of dizziness. Spots would dazzle before my eyes and everything would turn black. I would fall to the floor and be unable to get up again without assistance. A friend told me of Booth's Kidney Pills and I began their use. The first box gave me relief and I am now well and strong."

Booth's Kidney Pills

All druggists sell Booth's Kidney Pills 50c a box with a guarantee to relieve or your money back. They are the world's greatest specific for Kidney and bladder trouble. Postpaid from the proprietors, The R. T. Booth Co., Ltd., Fort Erie. Sold and guaranteed by the Poole Drug Co., Ltd.

**Everyone Can Have**

**Beautiful Hair**

Having a head of nice hair is a blessing within the reach of anyone who will use Newbro's Herpicide before the dandruff germ has denuded the scalp and left a condition of chronic baldness.

Herpicide imparts that snap and luster to the hair which is so attractive.

Having a subtle fragrance Herpicide appeals directly to persons of refinement. It has been sold for years, and boasts of more satisfied users than all other hair dressings combined.

Newbro's Herpicide is recommended and used by the best barbers and hair dressers.

Send 10c in postage or silver for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.

One dollar size bottles are guaranteed by all druggists. The Poole Drug Co., Ltd., special agent.

**The Hudson's Bay Stores**
The Stores of Satisfaction for Value and Quality

**Complete Price Lists**
For
**Groceries and Provisions**
And Separate Ones for
**Wines, Liquors and Cigars**

are now at your service. Special prices are quoted on each list for small quantities, for dozen lots and for case lots.

On orders up to certain amounts we pay the freight charges throughout the district.

Last week requests for 39 of our price lists were received, and they were followed, so far, by 30 orders from people who had not dealt with us before. This is the best advertising we can get as it proves that our prices as well as our goods are right.

The conditions on which we pay the freight charges are stated at the back of each list.

Requests for information about our other departments, dry goods, men's clothing and furnishings, boots and shoes, camping equipment, crockery and glassware, etc., etc., are solicited and will have prompt attention.

A postcard mailed today will bring the price list to you at once.

## SIR WILFRID AND THE ELECTION

Judging by dispatches it is now only a matter of days until the present Dominion parliament is dissolved and an appeal made to the people with reciprocity as the issue. On this, rather than on the government's record of graft and incompetence, will the discussion centre in the present campaign. There will be a big question before the people and they will be asked to deal with in a big way.

There is undoubtedly a strong feeling throughout Canada against reciprocity on national and on Imperial grounds. In addition the bringing into force of the trade arrangement entered into between the government of Sir Wilfrid Laurier and that of President Taft of the United States will work a hardship on many sections of the country. On the other hand it is urged that the proposed agreement, if carried into effect, would greatly benefit the farmers of the prairies. Whether or not it would is a debatable question, but for years the western farmer has been educated into the idea that it would mean additional dollars and cents to him, until now some people assume that the people of the three prairie provinces are a unit on this question. The Daily News believes that this is very far from the truth, and in support of this belief would point to the fact that in no election in which the tariff was an issue has there been any declaration in favor of the free trade tendencies of the present government, with the exception perhaps of that portion of its policy which embraces the British preference. This is not mere hearsay—the records show it to be a fact and there is nothing to show that there has been a wholesale conversion on the prairies in respect to the tariff question.

The prairie section, it may be pointed out, is the only part of Canada in which the government can possibly hope for any additional support on account of its policy in regard to reciprocity, and, unless The Daily News is very greatly mistaken, it will not prove anything like the vote-getter there that some people appear to think it will. But granting that there is a strong feeling in favor of reciprocity on the prairie as a matter of dollars and cents, there are other portions of Canada which are likely opposed to it on exactly the same grounds. Take Quebec, Sir Wilfrid Laurier's stronghold, for example, and it will be found that reciprocity will be fought to the last ditch by a large section of the people. The same is true of Ontario, where many of the leading Liberals of Toronto have come out openly and unhesitatingly against Sir Wilfrid Laurier on this question. It is not necessary perhaps to say that British Columbia is strongly opposed to the government's policy in this respect, on national and Imperial grounds, as well as to a large extent from the dollars and cents standpoint, for no other part of Canada will suffer so much proportionately as will this province if the proposed pact goes into effect.

It will be seen, therefore, leaving the maritime provinces out of consideration for the moment, that outside of the prairies the government stands to lose heavily in an election in which reciprocity is the issue. Even if the government were to win every seat in the three prairie provinces at present held by supporters of the opposition, eleven in all, it would not make up for the loss which it is almost certain to sustain in Ontario and Quebec, and possibly even in British Columbia, where it at present has only two supporters. As far as the maritime provinces are concerned it is impossible to see how reciprocity will win the government a single additional seat, while the opposition is quite as likely to make gains there, as is the government.

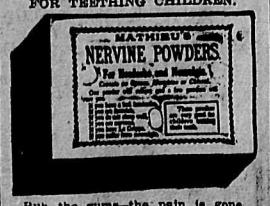
In reviewing the situation thus, The Daily News is forced to the conclusion that for the first time since he assumed the reins of power in July, 1896, Sir Wilfrid Laurier is in danger of defeat should the house be dissolved and an election held forthwith. It is only right that the people as a whole should have the right to pronounce on a question fraught with such great consequences to Canada's future as is reciprocity. The only regret is that if Sir Wilfrid Laurier carries out the program upon which dispatches would indicate he has decided, it will mean that a large section of the west will be disfranchised during the next parliament, for there will be no redistribution of seats before the contest. It is a well known fact that when the next redistribution is made the four western provinces, but perhaps more particularly British Columbia, will be entitled to a very much greater representation in the house of commons than they now enjoy. Just why Sir Wilfrid Laurier should have refused to accept the proposal of Mr. Borden, leader of the opposition, that consideration of the reciprocity arrangement should be left over until after the report of the census had been known and a redistribution made possible, it is impossible to say. For reasons best known to himself, however, Sir Wilfrid refused to act on this suggestion and is now apparently to make an appeal to the country on one of the greatest issues that has ever been presented to the Canadian people in a manner that will be grossly unfair to the west.

The Daily News does not make election predictions but it believes that in respect to reciprocity Sir Wilfrid Laurier has absolutely mistaken the views of the great majority of the people of this country and that this fact will be demonstrated to the satisfaction of all by the defeat of his government when the contest comes off, whether or not the west gets its proper representation in the meantime.

## GANG OF THIEVES

WINNIPEG, July 28—The police have under arrest here five men as the nucleus of a gang of alleged railway thieves, whose operations have continued over a period of 10 months. More arrests are promised.

FOR TEETHING CHILDREN.



Rub the gums—the pain is gone.
If your dealer does not keep them we will mail you a box (12 powders) on receipt of 25 cents.
J. L. MATHIEU Co., Props, Sherbrooke.

## SETTLEMENT OF COAL STRIKE

**Calgary Delegate to Macleod Hopeful of Amicable Agreement—Offer of Montana Coal.**

CALGARY, Alta., July 28.—"There is only one way that we could possibly get a supply of coal this winter and that would be for the mine operators to open their mines and operate them according to the suggestions in the report of the conciliation board," said E. A. Dagg, vice-president of the board of trade, who represented that body at the conference of boards of trade, mine operators and miners at Macleod recently. Mr. Dagg expressed the opinion that it is very probable that an amicable settlement will be reached immediately between the miners and operators. He said that if the mine operators would open their mines many of the miners would go back to work, provided the terms of the conciliation board report were adhered to.

W. Y. Brown, representing big coal interests in the vicinity of Billings, Mont., called at the office of the city commissioners and made a proposition whereby he would agree to deliver to the city before October 1 any amount of coal up to 200,000 tons. On a rough estimate he figured that the fuel, which is of the high grade bituminous variety would cost, laid down in Calgary, $8 per ton exclusive of duty and about $8.35 with duty paid. The Montana coal man offered to sell the city three grades of coal, the best to cost about $3.00 per ton the second to cost $2.00 per ton and the third to cost $1.50 at the mine. He stated that he could not enter into any contract to supply the city unless it ordered some of each grade. The coal, he promised, would be thoroughly cleaned. He further assured the committee that there would be no difficulty about cars, for the fuel would be loaded on Great Northern, Burlington and Northern Pacific cars, which would bring it right through to Calgary. All that would be required would be locomotives to haul it over the Canadian Pacific lines. He thought that this advantage should enable the city to reach a special agreement in regard to reduced freight rates over the C. P. R. lines.

The committee asked Mr. Brown to *furnish definite figures.*

## LENGTH OF SECTIONS WILL BE REDUCED

**To Remove Grievance of Maintenance of Way Men—May Effect Whole Line.**

OTTAWA, July 28.—The principal grievance existing between the maintenance of way employees of the C.P.R. and the company in the recent difficulty between the two, which it was feared at one time would result in a strike, has now been removed by the C.P.R. voluntarily shortening its sections. The change affects the Ottawa division in common with the whole eastern division at least, and may affect the whole road. The men are now at work on the local division, and all along the route the men are making preliminary arrangements for shortening up the sections. From an average length of nine miles they will be again reduced to six or seven miles. While the shortness or length of the sections might seem at first sight a purely technical matter, it is one that closely affects the amount of work the maintenance of way men have to do in as much as in future a section gang, usually consisting of a foreman and three others, will have to look after six instead of nine miles of track. The lengthening to nine miles was tried some time ago by the C.P.R. and has been a matter of constant agitation ever since.

Ask for Minards' and take no other.

## CRANBROOK NEWS

(Special to The Daily News.)

CRANBROOK, B.C., July 28—Provincial Officer Morris received word last night that a Japanese had suddenly become demented at Marysville and Constable Barnes of Marysville will bring him into the city today.

Giovanni Tabbo, the Italian brought in from Wardner on Wednesday night is still in the cells here. He had only been in Canada three months and he may be deported. He refuses to eat, only barely tasting the food that is brought to him. He will probably be taken to New Westminster.

The Spokane flyer was over three hours late owing to being held up by a bridge which was washed out just across the border yesterday.

Peter Lund was up yesterday from Wardner.

City Solicitor G. H. Thompson went to Proctor yesterday and will be away over Sunday.

A. L. Mutz, manager of the Fernie-Fort Steel Brewing company, Fernie, was in Cranbrook yesterday on business.

Miss Bertie McDonald has accepted a situation in the office of P. DeVere Hunt.

R. L. Brown of the McBride Hardware company, went to Wardner yesterday afternoon.

Superintendent Uren returned from Okanagan yesterday. He had been in attendance at a conference of the superintendents of the British Columbia division of the C.P.R.

A pleasant surprise was given Mr. and Mrs. John Reid when a number of Mr. Reid's fellow workmen gathered Wednesday evening and presented them with a handsome set of silverware in an oak case. Mr. Reid is provincial road superintendent and the presentation testified to the esteem in which he is held.

Mrs. Hayward and Eva Conley leave today for a trip to the coast. They expect to be gone about two months and will visit various points while on their vacation.

The scholars and teachers and a number of their friends drove out northeast of the city yesterday afternoon and held the annual picnic of the Methodist Sunday school. A pleasant time was enjoyed by all, the afternoon being spent in sports, games and various ways. Refreshments were also served.

Rev. Mr. Westman, former pastor of the Methodist church here was in town yesterday.

I. W. Mouat of Nelson came in from the west yesterday afternoon.

Chester Staples and Mrs. Staples were in the city from Wycliffe yesterday.

S. C. D. Baker of Wardner was in the city yesterday.

The baseball team leave again tomorrow for Kalispel to play the Montana town nine, and will also play several other games while away. Those who will take the trip are J. C. Pidgeon, manager, Petersin, captain, Burr, Lundberg, Sullivan, Adamson, McWha Morgan, Potter, Gelvin, Orr and O'Neil.

## SENTENCE OF THREE YEARS

KENORA, Ont., July 28—A sentence of three years in Kingston penitentiary was the punishment allotted to Louis Dupers, one of the perpetrators of the burglary at Stewart's in Keewatin in the early morning. Dupers who is 22 years old was born in France and claims to have come to Canada quite recently from Rhode Island state to Calgary, where he worked as a farm laborer for a short time before coming east. He took his sentence quite coolly. He gave the name of his companion in crime as Clem Dufford and every effort is being made to bring him to bay.

MAGIC BAKING POWDER

CONTAINS NO ALUM

COSTS NO MORE THAN THE ORDINARY KINDS

Irrigated Orchard Land

35 acres close to railroad, water piped right through land. Good roads, school, postoffice, etc in thriving community.

15 acres, wire fenced, are planted to apples and there are over 1,050 good healthy trees some now bearing besides a lot of small fruit.

Two good six roomed houses on the land which can be divided conveniently into two separate holdings. Barns, chicken houses, etc. Water under pressure in the buildings. The owner is forced to realize and offers this property which is easily worth $10,000 at $6,000 with $4,000 cash down.

This is an exceptional snap. Come in and see photo of it.

Improved Ranches

58 Acres on West Arm

On the West Arm between Nelson and Harrop we have a first class property of 58 acres. There is a splendid orchard including about 600 apple trees, mostly bearing; 160 cherry trees, about half bearing; also over 100 pear, quince and peach

A good many of these trees are 8 years old and the youngest 4 years.

This property is well looked after and given the proper attention consequently the fruit trees are healthy and making good growth. In addition to the fruit trees there are over 1,000 strawberry plants and a quarter acre of blackberries both a big asset.

For irrigation and domestic purposes there is a 50 inch water record goes with the land. A frame house and stable constitute the buildings.

The owner has consented to divide the property if required and we can offer you 13 1-2 acres, with 4 1-2 acres orchard, or 34 1-2 acres with 8 1-2 acres of orchard and the strawberries and blackberries.

You had better call and get full particulars.

The price of the whole property is

$10,000

on good terms or for all cash we can allow a discount of $1,000.

This is a good property and if properly looked after will be easily worth double the price in a few years.

27 Acres on Granite Road

This neat little property is less than 4 miles from Nelson and only about 1 mile from Granite station. There are at least 5 acres cleared and about 300 fruit trees planted mostly 6 years old and doing well. Besides the fruit trees there are 4,000 small plants principally strawberries. The house is a small frame in good repair. Water is piped to the house and also laid through the orchard making irrigation very easy.

This is a cheap buy, the price being

$2,500

less than $100 per acre, improvements and all. Terms are also easy: $500, the balance in small payments every six months. Let us show you the property.

## VETO BILL CRISIS WILL BE OVERCOME

LONDON, July 28.—A solution of the veto bill crisis without the creation of peers may be predicted tonight with tolerable certainty. Premier Asquith had a final interview today with King George, who goes with Queen Mary tomorrow to Cowes for the week end. The "no surrender" movement is dying of ridicule, its leaders not daring to publish the names of alleged adherents. Lord Lansdowne, leader of the opposition, on the other hand, has received written pledges of support from more than 300 peers in his efforts to save the bill.

**2 in 1 SHOE POLISH**

Shines easily.

## FALL TRADE IS IMPROVING

**Bright Crop Prospects Makes Trade Revive in West—Grain Ready for Reaper**

WINNIPEG, July 28.—The Commercial, in its weekly review of the business situation will say tomorrow: "There is a decided improvement in the fall trade outlook. Thousands of harvest hands are already arriving for work on the western farms and the grain is ready for the reaper in some sections. Having reached this stage, merchants are ordering more liberally for fall and winter and the cautiousness reported in previous issues is not so pronounced. There is no extravagance, however, and business generally is on a very solid, healthy basis. Last week the Commercial mentioned that country merchants were taking no chances on some last moment climatic damage, causing a setback in some districts or other, but now with cutting of grain started at some points, the retail dealers are awakening to the necessity of making all haste to prepare for the fall demand. The volume of business at wholesale during July has been quite satisfactory, being much larger in the aggregate than in the corresponding month of last year, or any previous year. The loaning business in the country is quiet this month. This is usually the quiet season in the west in that respect, loan companies explaining that farmers hold off in July and August until they have a good idea of the actual grain output before arranging to undertake more liabilities in extensions or improvements. If the crop is large enough to enable them to liquidate their local debts and general expenses, they borrow money to buy more land or to make improvements on their present holdings. The demand for loans in the cities is active.

## MILITARY CAMP AT PETAWAWA

**Permanent Militia to Gather for Course of Hard Training—General MacKenzie Commands.**

OTTAWA, July 28.—For the first time in three years, and for the second time in their history, the permanent militia force of Canada will gather at a place of concentration for hard training. The regulars will assemble at Petawawa camp on Aug. 1. General MacKenzie, now chief of the general staff, will be in command of the camp, and men will be brought from all over eastern Canada and as far west as Winnipeg. Among the places from which the men will be brought are Fredericton and St. John, N.B., and St. John's, Newfoundland, and Montreal, Que., and Kingston, Toronto and London, Ont. The Strathcona Horse will come from Winnipeg. The camp will be one of the largest ever held in Canada, as 1,800 to 2,000 men will be under canvas the coming training. It is expected to strike a higher note in military work for Canada than has been heard up to the present time. General Mackenzie is one of the most efficient imperial officers that ever came to this country and under him the soldiers will receive instructions which, it is expected, will increase their efficiency by leaps and bounds.

### DISSOLUTION OF HOUSE EXPECTED NEXT WEEK

OTTAWA, July 28.—There is practically no change in the political situation and indications still point to a dissolution of the house next week, either on Wednesday or Thursday. Some of the members who left for their homes tonight will not come back to take part in the proceedings of this parliament and will return to Ottawa as members again only by the grace of their constituents. All signs indicate that there will be no members of parliament in Canada a week hence and that the governmental machinery will be confined to his excellency and his advisors. Owing to the impossibility of any supply being voted the government will have to provide money to carry on the country's business by the issue of governor general's warrants. As it will be considerably over two months from the date of adjournment until the new parliament will meet, a large sum of money will be raised in this way. The general rule is that after dissolution the government may raise money to pay salaries or to continue any work already initiated but that no work can be started, unless it is of great urgency. In the present instance most of the salaries have been voted in full, but for such undertakings as the transcontinental railway and other public works large and small money will be raised by the issue of warrants.

### RUSH OF HARVESTERS FROM EASTERN CANADA

TORONTO, July 28—The call by the C.P.R. for 50,000 farm laborers to gather the western harvest promises to induce many citizens of Ontario to go west. R. L. Thompson, district passenger agent is already in receipt of hundreds of applications for tickets on the first train which leaves the Union station on Aug. 3. It is expected that about 10,000 will leave Ontario for the west on that date.

### CHILD BURNED TO DEATH

GRAND POINT, Man, July 28—While his father was at work in the field and his mother was tending to her garden, William Alexander Matthew aged five years was burned to death today when the home was completely destroyed, his body being found in the ruins of the completely demolished house. The cause of the blaze cannot be ascertained as no one was in the house but the dead child. Nothing was saved from the conflagration

### NO BLACK RUST IN SASKATCHEWAN

REGINA, Sask., July 28.—A. F. Mantle, deputy minister of agriculture, denies the report recently attributed to him to the effect that black rust had appeared in Saskatchewan. It was true, Mr. Mantle stated, that he had said that continuance of wet weather would be favorable to rust, but that was all.

As a matter of fact no complaints of rust have so far been received by the department and up to the present time remarkably little damage has been reported from rust, hail, frost or any other causes. The present fine weather is just what was required and its continuance will insure an exceptionally fine crop, ready for harvesting at about the usuay date.

Black satin is very fashionable for long coats.

# *Page for Wage Workers*

*By R. P. Pettipiece.*

News, Views and Activities of T ose Who do the World's Work—Local, Provincial, Dominion and International Events Indicative of Industrial and Political Growth an Development.

James C. Watters, president of the British Columbia federation of labor, Victoria, has been in Vancouver and New Westminister during the past week or so as a representative of the trades and labor council of Canada. Coast unions are being visited in the interests of the congress, and urged to send delegates to the Calgary convention which convenes in September, a "call" for which has been forwarded from Secretary Draper's office at Ottawa to affiliated unions, provincial federations and central labor bodies throughout Canada. Proper representation from British Columbia is somewhat uncertain owing to the Crow's Nest coalfields strike and the recent fight put up by Vancouver unions against the imposition of "open" shop conditions at the hands of the Pacific Coast Federated Employers' association.

Lethbridge, Alta., Trades and Labor council has elected officers for the ensuing term as follows: president, Donald McNab (United Mine Workers); vice-president, W. Wakeling, (United Brotherhood of Carpenters); financial secretary, F. S. Chasey, (Retail Clerks) recording secretary, Bro. Smitten, (Bricklayers); treasurer, D. J. McCormick, (Brewery Workers); sergeant-at-arms, H. Dullfly, (Teamsters); warden, Bro. Earle, (Bracklayers). The officers were installed by the local A. F. of L., organizer, J. M. Ritchie. The Southern Alberta Labor Bulletin reports a spirited and well contested election, indicative of the healthy condition of the organized labor movement in that locality.

Vancouver Trades and Labor council held its semi-annual election of officers on July 20, which resulted as follows: president, J. W. Wilkinson, (Amalgated Society of Carpenters); vice-president, S. Kernighan, (Brotherhood of Carpenters); general secretary and business agent, R. P. Pettipiece, (Typographical union), re-elected by acclamation; secretary-treasurer, Jas. Campbell, (Brotherhood of Carpenters), re-elected by acclamation; statistican, Mrs. R. L. Gardner, (Waitress); sergeant-at-arms, Fred A Hoover, (Street Railway Employees), re-elected by acclamation; trustees, John McMillan, (Painters); James H. McVety, (Machinists); Victor R. Midgley, ((Lathers). For the offices 10 candidates were in the running, seven ballots being required to elect.

Ottawa, Ont., unionists adopted the socialist plan of open-air meetings to reach wage-workers still outside the ranks of unions. According to William Lodge, (Free Press), splendid results have been secured. The lesson seems to be that more "open," if not open-air meetings should be held by unions. The great trouble with too many members of organized labor is a lack of understanding of their own proposition. "Open" meetings, well-informed speakers and a general discussion by the entire membership can only be conductive to "good and welfare" of unionists. It would add to the sum total of knowledge. Knowledge is power. Power is the thing the workers must have to get anything.

Rossland Miners' union, W. F. of L., recently held its sixteenth annual celebration. During the day a rousing address was delivered by H. L. Hughes of Spokane, embracing the subject of industrial unionism and independent political action on the part of the working class.

"Nothing in the empire is so cheap as brains and genius; nothing so easily despised by the vulgar rich; nothing so tragically misunderstood and disregarded."

P. W. Dowler, of Tacoma, district organizer for the United Brotherhood of Carpenters and Joiners, has been in Vancouver for the past couple of weeks, representing the International.

"In the centuries to come the wealth, the power and the education of the human race will have made this planet of ours what it really ought to be, and no longer what it is today, a quarreling cage of monkeys, cheating whereever possible. Men will live on mountain tops and work in the valleys, like the eagles, and men's minds will live in the high places also, above the mud and the meanness of the past."

James Duncan, delegate to the International Secretariat, which meets at Buda Pest, sailed in the steamship Carmania at 10 o'clock a.m., on July 12. Mr. Duncan has mapped out an itinerary in order to come into personal contact with the representatives of organized labor in Europe.

Edmonton Trades and Labor council has decided to celebrate Labor day in a fitting manner, and committees have already been struck to undertake the work. The question of whether a parade will be held or not has been submitted to a vote of affiliated unions. With a householders' franchise secured unionists of the Alberta capital city have also decided to take a hand in municipal affairs at next election.

United States statistics just to hand go to prove the contention that poverty is the cause of drunkeness and crime, rather than the reverse. During the panic year of 1907 more liquor was consumed than for any year since, and police records show that infractions of law reached a maximum during the same period.

One way of "settling" strikes would be for employers to pay a decent living wage.

The International Machinists' union has secured an agreement with the Canadian Northern railway company. It covers a period of three years, providing all other northwestern railway systems are not asked for a universal eight-hour workday, in the event of which the Canadian Northern railway will be included as to length of workday only. The present sign-up provides for a compromise in the way of the eight-hour day, namely a 50 hour week. The minimum rate of wage is fixed at 45 cents per hour.

The Letter Carriers association of Canada will hold its 1911 convention at Quebec, opening Aug. 10. Winnipeg will be represented by three delegates, Victoria by one, Christian Sivertz, secretary of the Capital city labor body, and Vancouver by possibly two delegates. That "government ownership," with the present ownership of the government, has little to distinguish it from corporate ownership is evidenced by the nature of the questions which will receive consideration at the hand of the Letter Carriers' convention.

A big bakery establishment in Vancouver is now a part of the recent $5,000,000 "merger," launched at Toronto. Like the bread trust in Yankeeland it employes only "hands" who have no business of their own to attend to.

The striking Brewery Workers have secured a signup with all the breweries at Winnipeg, with the usual increase in wages, and betterment of working conditions which beget strikes.

The Bricklayers' unions of Calgary, Edmonton and Winnipeg respectively, have got trade agreements patched up for this season, and official reports indicate the membership fairly well employed.

Italy has taken over all the life insurance business of the country, native and foreign. And not a word about "confiscation!"

## *Afraid of Ghosts*

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs *can't be avoided. They are* in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine OF KNOWN COMPOSITION and with a record of *40 years of cures.* Accept no substitute—there is nothing "just as good." Ask your neighbors.

## NOTICE

The firm of O'Donnell & Thompson of Sheep Creek, no longer exists. The business has been taken over by Lorne Thompson.

## The Corporation of the City of Nelson

**Notice of Rules and Regulations Governing the use of Water by the Inhabitants of the City of Nelson and Localities Adjacent Thereto.**

1. These regulations shall come into force on the 20th day of July, 1911, and remain in force until further notice.

2. The hours between which water may be used for any of the purposes following shall be as follows:
(a) For the sprinkling of lawns and gardens, between the hours of 6 o'clock p. m. and 9 o'clock p. m.
(b) For the sprinkling of streets, alleys and sidewalks, between the hours of 7 o'clock a. m. and 9 o'clock a. m.
And no person shall use water for any or all such purposes beyond the time and outside the said hours.

3. No person shall, with a lawn sprinkler or otherwise, water any adjoining or other premises to or than that for which he has paid the regular garden or lawn rate.

4. All water used for any of the above purposes shall be used by garden hose or lawn sprinklers only.

5. When any alarm of fire has been sounded and during the continuance of any fire within the corporate limits of the city of Nelson, or during the progress of any fire in any of the localities adjacent thereto, any person using water for any of the purposes mentioned in paragraph 2 hereof shall at once cease using same until such time as the fire has been extinguished.

6. Any person guilty of an infraction or violation of any of the foregoing regulations shall, in addition to all other penalties imposed by bylaw or statutes, be liable to have his water supply cut off without notice.

By Order,
W. E. WASSON,
City Clerk.

## NOTICE TO CONTRACTORS

STEEL BRIDGE, COLUMBIA RIVER, TRAIL—SUPERSTRUCTURE METAL.

Sealed tenders, superscribed "Tender for Manufacture and Delivery of Superstructure Metal, Bridge at Trail, B. C.," will be received by the Hon. the Minister of Public Works up to noon of Thursday, the 31st day of August, 1911, for the manufacture and delivering f. o. b. cars at Trail, B. C., the steel superstructure of a bridge over the Columbia river at Trail.

Drawings, specifications, contract, and forms of tender can be seen at the offices of the Government Agents at Rossland, Nelson, New Westminster; E. McBride, Esq., road superintendent, 39 Fairfield building, Granville street, Vancouver; and at the office of the Public Works Engineer, Parliament buildings, Victoria.

Intending tenderers can, by applying to the undersigned, obtain one copy of the drawings and one copy of the specification for the sum of twenty-five dollars ($25).

Each tender must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Hon. the Minister of Public Works, for the sum of $1,000, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

The successful tenderer shall furnish a bond of a Guarantee Company satisfactory to the Minister of Public Works in the sum of five thousand dollars ($5,000) for the due fulfillment of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
Department of Public Works,
Victoria, B. C., 19th July, 1911.

### HON. ROBERT ROGERS CANDIDATE IN WINNIPEG

WINNIPEG, July 28—It is rumored here that Hon. Robert Rogers, minister of public works for Manitoba, will contest Winnipeg at the next federal election and that Alex. Haggart, K.C. the present member, will be given the position of police magistrate.

Minard's Liniment Cures Colds, etc.

## MARKETS

### BLACK RUST SCARE CAUSES SENSATIONAL JUMP

WINNIPEG, July 28.—The markets made a sensational jump today, Minneapolis leading. Talks of black rust in the northeastern states of America have been on the markets for some time past, but the trade did not take much notice of it for some time. Today, however, the dull influence at Minneapolis set the ball rolling and prices soared rapidly for the future months. The situation was aggravated very largely by the unfavorable political situation in Europe.

Winnipeg July opened at 96⅜c and rose to 96¼c, but closed at 96¼c, or ¼c advance, after a range of ⅜c. October opened strong at 92¾c and rose from the start till it reached the 93⅞ point, closing at 93⅞c, or 1¼c higher. December behaved in the same manner, opening at 92¼c, and finally closing at 93¼c, or 1⅜c higher. Oats also moved higher in sympathy with Chicago prices, and July closed ½c higher, October and December ½c higher.

In the American options Minneapolis, which were the leaders in the sharp but steady advance were up in all months. July advanced 2⅜c after a range of 1⅞c, closing at 99⅝c. September advanced 2⅛c split, closing at 99½c split, and December no less than 3c split, closing at 100¾ split asked.

Chicago was, of course, not so much affected by the scare, July closing 1¼c higher. September at 90¼c or 1⅛c higher, and December at 94c or 1½c higher also. The map of the west showed moderate temperatures had fallen with scattered local showers.

### STOCK MARKET SHOWS REACTIONARY TENDENCY

NEW YORK, July 28.—The reactionary tendency which characterized operations in the stock market during the early part of the week was again displayed today, though to a lesser degree than on the preceding two days. The list moved irregularly on the early session, during which time there were several incipient bear raids. Opening prices were generally higher, gains in many cases being a point or more over yesterday's close.

This was a natural sequence to the higher range for American securities in London and less harm seemed to be felt as to the outcome of the Moroccan negotiations. The feeling was confirmed by international bankers, whose advices from various continental sources were mostly of a reassuring character. The improvement of the first hour apparently was used as the basis for heavy selling. The market receded slowly and by noon nearly all the early gains were eliminated, with a few new low records for the present movement. During the remainder of the day the market was slow and dragging, with no changes of importance.

The tone of the market for money was somewhat stronger, bearing out recent indications that the tendency was toward a moderately higher range. Rates for time loans are slightly above those of the end of last week. The recent change in the tone of the market is seasonable in the light of an expected earlier movement of the crops this year, and an increase in the demand for accommodation from financial interests and for the mercantile community. Bonds were steady. Total sales, par value, $1,880,000.

United States bonds were unchanged on call.

### METAL MARKETS.

NEW YORK, July 28.—Silver, 52; standard copper, 12@12.25; dull.

LONDON, July 28.—Silver, 24; lead, £14.

## NELSON NEWS OF THE DAY

The school board will meet at 7:30 on Monday evening.

Mrs. C. Roberts will sing a solo at St. Paul's Presbyterian church on Sunday evening.

Born, at Kootenay Lake Maternity hospital on July 25, to Mr. and Mrs. George D. Bell of Salmo, a daughter.

The next sitting of the county court, his honor Judge Wilson presiding, will be held on Monday. It is expected that there will be no cases heard, those set down being probably postponed.

Launches will leave the Nelson Boat & Launch company's float at frequent intervals after 9 o'clock tomorrow for the annual picnic of the Nelson Bartenders' union at Luna park.

J. D. McNiven, of Ottawa, fair wages officer for the department of labor, spent yesterday consulting with Frank Phillips and others concerning the rate of wages paid for various classes of work in the city and district.

J. C. Parker and Sol F. Giles, two gamblers charged under the vagrancy act, appeared before William Irvine, police magistrate, in the city police court yesterday morning and were given 24 hours in which to leave the city.

Andrew Johanson, who jumped off the boat at West Robson on Thursday and who was rescued by some of the crew, was arrested by Provincial Constable Wightman and yesterday morning charged with insanity before W. H. Bullock-Webster, stipendiary magistrate. He was remanded until Monday morning. Johanson comes from Vancouver and it is thought that his attempt to take his life may have been the result of over indulgence in alcohol.

Be convinced of the superior quality of Curlew ice cream. The strawberry ice cream is flavored with the fresh fruit. C. H. Bean, the Palace Confectionery. 64-tf.

Do you want a real treat for afternoon tea? Try Scott's home made Scotch shortbread. On sale at Elford's Boat company.

The Nelson Boat & Launch Co., successor to Lindsay Co., has just opened its ice cream parlor, in charge of Miss Wilkinson, insuring the very best service. Try us. 78-tf.

### FISHING WATER

Boats for hire on Pool at Slocan Junction, most famous fishing water of British Columbia. Fly fishing par excellence. Try grasshoppers for the big fellows. All conveniences at C.P.R. Creel Lodge. J. Killey, lodgekeeper. 37-tf.

If you delight in seeing a good comic don't miss "A Well-Swept Chimney," and if a great military drama, "Across the Mexican Line," which is being shown at the Gem theatre this evening. "The Tale of Two Cities," Dickens' famous story, shown on Monday, should be seen by everybody, it being one of the greatest films ever produced.

### AT THE THEATRES.

As a rule, the cowboy of the stage is a rather hopeless and unconvincing creation at the best, but in "The Squaw Man" which will play at the opera house on Tuesday next, after a run of over 1,000 performances at Wallack's theatre in New York, the same individual is a type that is startlingly accurate, if one is to believe the critics of the country. Edwin Milton Royle, the author of the play, was brought up in this territory in which the scenes of the play are laid, and he has labored to good advantage in placing before the members of the company the necessary atmosphere and quality by which a real cowpuncher will be distinguished from the artificial product.

## CONTRACTS LET FOR TRAIL SCHOOL

Go to Nelson Firms—Boy Scouts of Trail Go Into Camp for Two Weeks.

(Special to The Daily News.)

TRAIL, B. C., July 28.—On Monday last the board of school trustees awarded the contract for the erection of Trail's new public school to John Burns & Son of Nelson, the contract figure being $36,455. The B. C. Plumbing company of Nelson were awarded the heating contract at $4,908.

The building will be of solid brick with concrete foundation, and will contain eight rooms and basement and will be heated on the direct indirect system. The plans for the building were drawn by A. Carrie, architect, of Nelson, who will supervise the construction. Construction work will start on the first of the month and will be rushed through while the good weather lasts and it is expected that the building will be ready for occupancy by the first of the year. When completed Trail will have one of the most handsome and up-to-date schools in the interior.

James H. Schofield, M.P.P., and family left Tuesday evening on a two weeks' camping expedition to Shields on the Arrow lakes.

H. Bird of Republic, Wash., an old time resident of Trail, is renewing old acquaintance in the city.

W. J. Stanton, a brakeman employed on the ore run between Smelter Junction and Rossland, while coupling cars on Saturday afternoon last had the misfortune to lose three of the fingers on his left hand.

Trail Boy Scouts, in charge of Scoutmaster Alexander, to the number of about 25, will go into two weeks' camp on the estate of Abraham Hirst, at Westley, on the Arrow lakes. The boys will leave Trail on Monday morning's train. Mr. Hirst has very generously placed his launch and barge at the disposal of the Scouts and is doing everything in his power to make the trip a success. The site of the camp at Mr. Hirst's is a splendid one and is exceptionally safe for boating and bathing.

### WELCOME QUEEN WILHELMINA

BRUSSELS, July 28—The arrival of Queen Wilhelmina of the Netherlands, accompanied by Prince Henry and the infant Princess Juliana at the Belgian capital today for which preparations had been made in advance, was the occasion for an immense and cordial demonstration of good will toward the neighboring state. From the time the royal visitors crossed the frontier, huge crowds welcomed them at every station and arriving here they were met by King Albert and practically the whole of the official body. Several days will be given over to the entertainment of the visitors. In political circles the visit of the Dutch queen and her consort is regarded as of no little significance, especially at the present time when unusual efforts are being put forth to bring about a good understanding between Belgium and the Netherlands. The aggressive policy of Germany, silently but steadily pursued, will, it is believed, lead the two countries to establish a defensive alliance for their common safety.

### VIENNA ENTERTAINS AMERICANS

VIENNA, July 28—The delegation of the Boston chamber of commerce engaged in a tour of Europe has reached Vienna and met with a hearty reception. The municipal government of Vienna has joined with the commercial organizations of the city in arranging for the entertainment of the visitors. The program covers four days and provides for the inspection of the leading commercial and manufacturing establishments of the city together with dinners, theatre parties and automobile trips to nearby mountain resorts.

### RAMPANT IMMORALITY

WINNIPEG, July 28—A deputation from the W.C.T.U. waited upon the board of control this morning to complain of rampant immorality in the city parks. They were referred to the parks board.

# Fit-Reform Styles Are at Least Six Months in Advance of the Merchant Tailor's

Honestly, now men, do you know of a single merchant tailor in Canada who has even one style to his credit?

Of course you don't.

And Fit Reform has hundreds.

It is the big tailoring business like Fit Reform that really creates the styles. Merchant tailors merely try to copy what Fit Reform originates.

Fit Reform is the whole parade—band and troops. The merchant tailor is the small boy who tags behind.

Walk with the leaders—wear Fit Reform.

There's cool comfort in a Fit Reform two-piece suit.

**Emory & Walley** Clothes, Hats and Toggery . . . .

# Hand Bags

Let us show you a good line of leather hand bags with metal frames, ranging in price from $3 to $15. We have also a line of mesh bags which we are offering at reduced prices. Mail orders promptly attended to.

**J. J. Walker**
OPTICIAN AND JEWELER

# Plumbing

It pays to have your plumbing fixtures gone over now before the fall rush comes. Let me figure on your requirements.

## NELSON NEWS OF THE DAY

G. F. Attree of Queen's Bay is at the Hume.

There will be a bachelors' dance at Willow Point this evening.

Captain H. A. Johnstone of London, Eng., is at the Strathcona.

O. E. LeRoy of the geological survey department came in tonight and is a guest at the Hume.

Rev. J. A. Dow of Rossland will preach at both services in St. Paul's Presbyterian church tomorrow.

There was a small bush fire at Cultus creek yesterday, but it was well under control by nightfall.

"I. N. R. I., a Prisoner's Story of the Cross," by Peter Rosegger, has been presented to the library.

There will be a meeting of all Boy Scouts and Patrol Leaders at the armory at 12 o'clock noon today.

It is reported that D. S. McVannell, census enumerator at Slocan City, is on the sick list and that the work in that district has not yet been completed.

The water fell three inches yesterday and is now nine feet 10 inches above low water mark, according to the guage of the Nelson Boat & Launch company.

Mrs. N. L. McGinnes and son Harold, who have been visiting Mrs. F. A. Starkey for some weeks at Willow Point, return to their home in Grand Forks this morning.

There was a large attendance at the dance given by the Boat club in the Nelson Boat & Launch company's pavilion last evening and the affair proved a great success.

John L. Retallach came in from Kaslo yesterday and registered at the Strathcona. This afternoon he proposes to take his large new launch, which has just been completed, up to the main lake city.

P. Chapman, inspector for A. Macdonald & Co. in this province, with headquarters at Vancouver, reached the city last night and is at the Strathcona. Fourteen years ago Mr. Chapman opened the company's branch in Nelson.

### CHURCH SERVICES TOMORROW

All changes for church service announcements must be handed in or phoned to The Daily News office before 6 o'clock on Friday. If not received by this time the notices will be omitted from Saturday's issue.

ANGLICAN—St. Saviour's, corner Ward and Silica. Seventh Sunday after Trinity; 8 a. m., Holy Communion; 11 a. m., matins; 7:30 p. m., evensong. Rev. Fred H. Graham, rector.

PRESBYTERIAN—St. Paul's corner of Victoria and Kootenay streets. Services 11 a.m. and 7.30 p.m.; Sunday school, 12.15 p.m.

ROMAN CATHOLIC—Corner Ward and Mill. Low Mass, 8 a.m.; High Mass, 10.30 a.m.; evening service, 7.30 p.m. Rev. J. Althoff.

CHRISTIAN SCIENCE—The Sunday morning service at the Christian Science church will be discontinued until Sept. 1. 7.30. Church, corner Stanley and Silica streets. Reading room open daily 3 to 5.30. Visitors welcome.

METHODIST—Corner Josephine and Silica. Services 11 a.m. and 7.30 p.m.; Sunday school and Bible classes 2.30 p.m.; people's meeting 3 p.m.; 7.10 p.m., orchestral program. Pastor, Rev. A. E. Smith.

BAPTIST—Opposite Stanley street public school. Pastor, Charles W. King; residence, corner Hoover and Josephine streets. Morning subject, "Josiah, the Boy King, or the Life That Needeth No Transplanting," a special sermon to the young folks. The Sunday school members are asked to co-operate by attending the service. A "sure foundation" song service will be held in the evening. Public worship, 11 a. m. and 7:30 p. m. Strangers always welcome.

SALVATION ARMY—Victoria street Sunday school, 10 a. m. Morning service, 11 a. m. Praise service, 3 p. m. Evening service, 7:30 p. m.

SWEDISH EVANGELICAL LUTHERAN—Service will be held by Rev. J. A. Levin tomorrow at 8 o'clock in the evening at the Miners' union hall, 332½ Baker street. Sunday school at 1:45 p. m. All are cordially invited and welcome.

## SOUTH AFRICAN EX-OFFICIAL HERE

### W. Windham After Twenty Years Service for Imperial Government May Locate in Kootenay

After 29 years service for the imperial government as head of the department of native affairs in South Africa, W. Windham has decided to locate in British Columbia and will in all probability purchase a fruit ranch in the Kootenays.

He came in last night after a visit to the Okanagan and will be in Nelson for several days, during which he will visit the chief fruit growing centres of the district.

In South Africa he was stationed for the greater part of the time at Pretoria and Johannesburg and said last night at the Strathcona that after the arid veldt on which he has been accustomed to live for so many years Kootenay's mountains were a particularly delightful change. "I think," he remarked, "that Nelson is the prettiest place I have ever seen."

### FIFTEEN KILLED

BANGOR, Me., July 28—Fifteen persons are reported killed in a head on collision late tonight between a crowded excursion train on the Bangor & Arostook railroad and the midnight express from Van Buren to Bangor. Between 30 and 40 persons are known to have been injured and it is thought several others are beneath the wreck.

## BOY SCOUTS IN CAMP MONDAY

### About Thirty to go Under Canvas at Kokanee—Will be Taught Much Valuable Knowledge

In preparation for their trip to Kokanee point where the annual camp will be held the Nelson contingent Boy Scouts in charge of Scoutmaster Thompson, will parade at Elford's boat house at 8:45 on Monday morning and will leave by launch at 9 o'clock for the camping ground which has been lent for the purpose by C. W. Busk. All baggage, tents, blankets and similar impedimenta must be at the boat house by 8:30 o'clock.

At the camp the Nelson boys will be joined by the Balfour contingent under the command of Scoutmaster Watson. The following is a rough program of the work planned for each day during the camp.

Morning, 5:30—Reveille with tea and biscuits immediately afterwards; bathing parade and ten minutes gymnastic work, 7:45; breakfast, 9:00 o'clock; parade and drill at 10 o'clock; semaphore and Morse signalling, 11 o'clock.

Afternoon—Dinner, 12:45; knotting and scout law, 2:30 to 2:45, when there will be a break-off for recreation; tea, 4:15; ambulance instruction, 5 o'clock to 5:30.

Evening—Supper, 7 o'clock; first post 9:30; last post 10 o'clock; "lights out," 10:15.

This program will be varied as the work progresses and the boys will be taught how to locate trails and instructed in the treatment of persons suffering from injuries by fire, water and poisons. This part of the training will be carried out by Scoutmaster Watson of Balfour.

It is expected that there will be fully 30 boys at the camp.

Minard's Liniment Cures Distemper.

## CONDITIONS ARE SATISFACTORY

### Wind Has Damaged Fruit Crop in Hamilton District—Business Brisk in West.

NEW YORK, July 28.—Satisfactory conditions continue to be reported in the dispatches received by Dun's Review from branch offices of R. G. Dun & Co.'s from leading trade centres of the Dominion of Canada. Good rains and plenty of sunshine in many sections have been of great benefit to the crops.

Montreal reports that the general wholesale trade shows little change, but groceries are moving in fair volume, with sugar, canned fruits and vegetables tending higher. Hides are steady at last week's advance, and tanners are trying to obtain higher prices, but boot and shoe manufacturing is indifferent and there is not the demand for leather usual at this season. Cheese exports continue liberal, shipments to date amounting to over 700,000 boxes, and there is some revival of exports of butter.

Wholesale trade at Quebec continues in satisfactory volume for this time of the year, staple merchandise being in fair retail demand and conditions in the country districts being improved by more favorable weather.

Toronto reports continued activity in the wholesale trade. Fairly good trade is reported by jobbers of dry goods with indications of lower prices for cottons. In hardware and metals there is a satisfactory movement, and groceries are active with staples very firm in prices. Leather is in good demand, while hides are unchanged.

Building is active at Hamilton and lumber is in strong request. The volume of general trade is well maintained, although some quietness is noted in country districts where winds have damaged much of the fruit crop. Both wholesale and retail business holds up well and indications point to a steady and profitable trade.

In the far west and northwest crop reports continue favorable. Winnipeg notes satisfactory conditions in practically all lines with the volume of trade good for all kinds of merchandise and wholesale.

Calgary reports that labor troubles have resulted in large loss of business, but the splendid crop conditions that prevail throughout part of the province, it is believed, will insure a good fall trade. Business at Edmonton is a little slow but increase in building operations and improvement generally is looked for in the near future.

The gross earnings for all Canadian railroads reporting to date for three weeks of July show an increase as compared with the corresponding period last year of 11.9 per cent. Commercial failures in the Dominion during the past week numbered 23, as compared with 25 last week and 32 in the same week a year ago.

## VALUABLE HORSES KILLED BY STRYCHNINE POISON

BRANDON, Man., July 28.—Thomas Chambers, Brandon first prize champion Hackney mare, was found dead in her stall at the exhibition grounds this morning. After the dead animal was pulled from the stable Chambers driving horse was put into the stall and it is also dead, both from strychnine poisoning. Al Arrion and Sam Colwell, both giving Winnipeg as their homes, are in jail charged with being implicated in the poisoning, but both deny the accusation. The men were employed at booths at the grounds. It is said the accused with an exhibitor from Carberry, whose horse was in the stall next to Chambers' mare, were in a game on Thursday night at the barns. The Carberry man was a heavy loser and the game ended in a fight, in which one of the accused was badly beaten by the Carberry man. The man who was beaten threatened to use a knife and finally swore he would get even. The supposition is that the poison was intended for the Carberry man's horse but was put into Chambers' mare's stall by mistake. The police are making a full investigation. The mare poisoned was a fine young animal and was worth between $600 and $700.
