DISINFECT CLOTHES EXPLODED THEORY

Persons, Not Things, Transmitters of Disease

CHEMICAL ACTION TO FERTILIZE EGG

Possibility of Production of Life Not Now Very Remote

(By Daily News Leased Wire.)

MOOSE, JAW, Sept. 4.—The Saskatchewan Medical association met in full session here today the feature of the meeting being an address by D. E. Mundell, professor of surgery at Queens University, Kingston. The subject of his address was "The Advance Made in Modern Surgery During the Past Quarter of a Century." Immediate operation after diagnosis of appendicitis was one of the emphatic points of his lecture. He also regretted that the young physicians of today had through the facilities of the X-ray, lost the fine diagnostic touch of the older physicians.

Addresses by other physicians were also delivered. Dr. Seymour, the commissioner of public health of Saskatchewan, in his address on infectious diseases, took a revolutionary standpoint with regard to the precautions incumbent on health officers. The theory of disinfecting the clothes of sick people had been quite exploded, he said. His maxim was that persons not things, transmitted disease.

In commenting on a paper delivered by Dr. Hart, superintendent of the Anti-tuberculosis league of Saskatchewan on the early signs of tuberculosis Dr. Seymour stated that a considerable percentage of the tuberculosis in western Canada was due to the dry air and fine climate attracting people who were weak lunged and predisposed to pulmonary tuberculosis.

The subject of admitting into the profession unqualified men, as was done at the last session of the provincial legislature, was brought up and commented on in adverse terms.

The medicos sat down to an elaborate banquet later in the evening, at the Royal George Hotel. Tomorrow close upon 100 physicians will motor out to Buffalo lake after holding a clinic at the local hospital.

Possibility of Producing Life.

(By Daily News Leased Wire.)

DUNDEE, Scotland, Sept. 4.—The most interesting feature of the opening session today of the British Association for the Advancement of Science was the presidential address this evening of Prof. E. A. Schaefer of Edinburgh university, which dealt with the nature, origin and maintenance of life. During the course of his address he said, "We may fairly conclude that all changes in living substances are brought about by ordinary chemical and physical forces."

Speaking of the properties of growth and reproduction he declared: "They are possessed not alone by living bodies for inorganic crystals grow and multiply and reproduce their like, given a supply of requisite substance."

Further on he said: "It has been proven that we can no longer consider such an apparently vital phenomenon as the fertilization of the egg as being the result of living material brought to it, since it is possible to start the process of division of the cell in the egg and the resulting formation of cells and ultimately of all the tissues and organs: in short, to bring about the development of the whole body, if a simple chemical reaction is substituted for the made element in the process of fertilization. We may even hope some day to see the material which composes the nucleus of cell life prepared by the combination of the proper substances."

In summing up his remarks he said that "research seems to point to the conclusion that the possibility of the production of life—that is of living material—is not so remote as has been generally assumed."

DETROIT ALDERMEN ARE ARRAIGNED; ONE ABSENT

(By Daily News Leased Wire.)

DETROIT, Sept. 4.—Ald. Thomas Glinnan, president of the common council and Ald. Louis Tossy, recently bound over to the recorders court to stand trial on charges of bribery, were arraigned today. Each furnished bail and the trial dates will be set later. Ald. Ostrowski was also scheduled for arraignment but failed to appear through a misunderstanding, his attorney stated. His case was continued until tomorrow.

EARLIEST SNOW IN QUARTER OF CENTURY

(By Daily News Leased Wire.)

CARSON CITY, Nev., Sept. 4.—Snow fell in the mountains west of here today, covering the range to a depth of several inches. This is the earliest snow in 25 years.

FORTY GIRLS LEAP FROM WINDOWS

(By Daily News Leased Wire.)

Chicago, Sept. 4.—Forty girls were forced to leap out of the second story windows to escape death today when an explosion caused by benzine vapor wrecked a building occupied by a dyeing and cleaning establishment. Rudolph Spinner, foreman of the place, was crushed to death. His body was dug out of the ruins by firemen. One girl who jumped out of a window was picked up unconscious and with both legs fractured. Others in rushing to reach the stairways were knocked down and trampled on.

PERMITS GROW NINETY PER CENT

Total Last Month in Nelson Was Nearly Thirty Thousand Dollars —To Build Garage.

Totaling $29,700 the building permits last month broke all records for a similar period this year and increased $13,420 over August, 1911, a gain of 82 per cent. For the year to date the total is $236,315, compared with $122,466 for the same period last year. This is an increase of 92 per cent. Permits issued during the month were:

To H. Korolak, residence, Vancouver street, $700.

J. Hurdle, additions to residence, Observatory street, $500.

H. L. Butchart, residence, Latimer street, $2,500.

West Transfer company, brick veneering stable and putting in cement foundation, Baker street, $5,000.

Paul Nipou, garage, Vernon street, $1,000.

G. Bennett, alterations to residence, Silica street, $500.

R. Holliday, residence, Falls street, $1,000.

A. McInnis, residence, Delbrouck street, $500.

City of Nelson, fire hall, $18,000.

Customs receipts in August were $14,829.44, compared with $16,839.81 in the same month last year. The decrease is due to several heavy imports of machinery and other articles in August, 1911.

TURNS OFF LIGHT TO END FIGHT

Lively Scenes at Prince Albert Council Meeting—Charges Against Hospital Management.

(Western Associated Press.)

PRINCE ALBERT, Sept. 4.—Wild scenes characterized last night's regular meeting of the council. Several aldermen indulged in particularly heated arguments, one of which, just after adjournment, led to blows between Alderman F. C. Baker and Alderman T. Robertson. Unparliamentary language flew fast and furious.

Most of the trouble arose over allegations made against the Victoria hospital, which was declared to be in a filthy state of disorder. One alderman offered to bet $500 he could prove disgraceful actions against members of the staff. Two other aldermen threw a good deal of dirt at one another and parted friendship. The timely snapping off of the lights by the city solicitor brought proceedings to a sudden ending.

CEMENT FROM CRUSHED ROCK

Engineers Discuss Prevention of Industrial Accidents—Standard for Steel is Proposed

(By Daily News Leased Wire.)

NEW YORK, Sept. 4.—"With safety first," as the keynote, the 700 engineers gathered from 27 different countries for the sessions of the international congress for testing materials delved deep today, the second of their discussions, into their task of devising means whereby deaths from industrial accidents throughout the world may be reduced. The fall of the Quebec bridge several years ago with a loss of nearly 100 workmen, was mentioned as one of the mysteries that should be solved through the tests of steel columns. As a further step toward safety, the international association, it was said, had been trying for the last 15 years to have the various countries of the world adopt standard specifications in the making of steel in order to assure the same quality no matter from what source it might be bought. J. Y. Jewett, the cement expert of the United States reclamation service, informed the members of a discovery in the making of concrete from crushed rock where sand is not available that may, it is claimed, have a far-reaching effect on the industry.

At the conclusion of the technical program the engineers left on a steamer for West Point.

OPINIONS DIFFER ON CHURCH UNION

Presbytery May Station Deaconess in Nelson

MINISTERS WILL BE BETTER PAID

Salaries on Augmented Charges to Be Raised to Twelve Hundred Per Annum

"What had happened at the general assembly and since still left the impression that there was a strong feeling against church union," said Rev. Dr. J. T. Ferguson when asked to express an opinion to the members of the Kootenay Presbytery, in session here, last night.

In making his report on the recent assembly at Edmonton Rev. Munro dealt briefly with the various subjects taken up and the vast amount of practical value derived by those who attended and concluded with a pointed reference to church union which dominated all other matters brought before the assembly.

"The finding certainly was a very remarkable one," said Mr. Munro, and he thought the Presbyterian church in Canada had reason to be thankful for what had been achieved. With few exceptions, indeed, there were unanimous expressions in favor of union and the resolution was received with general satisfaction.

Dr. Ferguson's Views.

While agreeing partly with this view Dr. Ferguson thought the question of union was very much where it was before the assembly and he emphasized the fact that although the dissenting party was greatly in the minority it *was still strongly opposed.*

Rev. S. Sarkissian of Rossland, presided as moderator throughout the three sittings yesterday.

At the morning session discussion was devoted to the obligations of some fields to the Manse building fund but no definite steps were taken. Student's reports on the work of their fields were submitted during the afternoon and passed without comment. Rev. Mr. Stevens of Wardner was appointed joint moderator with Rev. Mr. McLean of Waldo.

Discuss Million Dollar Budget.

There was a lengthy debate on the allocations of the $1,000,000 Budget fund with the result that the clerk was instructed to write the various congregations for their views in the matter. Arguments concerning the assessment rate for Presbytery funds for the ensuing year lead up to the appointment of Rev. Mr. Hackney and the moderator to act as a committee. Rev. T. T. Reikie submitted a report on the augmentation of salaries and as a result it was resolved that with the beginning of the new year, 1913, salaries of ministers on augmented charges will be raised to $1,200 per year and of this amount the field will be expected to raise $800.

Considerable discussion followed the report on "Social Service and Evangelism." The consensus of opinion was that the various denominations should work in unison in the interest of the communities throughout the Presbytery. Messrs. Logie, McKee, Munro, Hackney, Stevens and Reikie were appointed a committee to take the matter up immediately and report at the next meeting.

Last night the report of Miss Adelaide Sutherland, deaconess who has been working in the remote parts of the Nome mission field was received with great satisfaction and a resolution was passed instructing the clerk of the Presbytery to send her a letter of appreciation for the excellent work she had accomplished.

Dr. Ferguson pointed out that Miss Sutherland had done a most valuable work in Fernie and surrounding communities. She should now be given a much needed rest.

Suggest Nelson as Centre.

The extension of the Presbyterian welcome had been found extremely difficult in certain districts owing to the large foreign population in many parts of the mission field. She had however, accomplished her task with considerable merit and it was suggested that there might be scope for her good work in the Kootenay and Boundary districts. Nelson was mentioned as a suitable centre for headquarters so that the deaconess might extend visits to Rossland, Slocan, Grand Forks and other points where her services might be advantageously employed.

In making a grant of $150 out of the general building fund to the town of Athalmer in the Windermere district toward the cost of church building it was understood that there was a feeling that that point will develop into a pleasure resort of some importance in the near future.

Among the large number of ministers and students attending the session are Rev. S. Sarkissian, moderator, Rossland; Rev. J. A. Hackney, clerk of the Presbytery, Trail; Rev. T. T. Reikie, Kaslo; Rev. Dr. J. T. Ferguson, superintendent of home missions, Calgary; Rev. J. R. Munro, Greenwood; Rev. H. D. Bain, New Denver; Rev. M. D. McKee, Grand Forks; Rev. G. W. Blake, Creston; Rev. E. S. Logie of this city; and Students Taylor, Cascade; Kirkpatrick, Ymir; Elliott, Birdsville; Donaldson, Edgewood; Hartley, Nakusp; Buchanan, Slocan City.

The session will conclude today with meetings starting at 9 a. m. 2 and 8 p. m.

COULD CUT SIX TIMES AS MUCH TIMBER

(By Daily News Leased Wire.)

Vancouver, B. C., Sept. 4.—Provincial timber officials have just completed an estimate which shows that one billion feet of timber per year is cut in this province. The same officials figure that six billion feet could be safely cut without diminishing the supply. The rate of cutting could be therefore increased six times and kept up forever without depleting the supply.

DEPARTMENT BUILDING SITE WORTH OVER TWO MILLIONS

(By Daily News Leased Wire.)

OTTAWA, Sept. 4.—The valuators appointed by the government to determine the amounts to be tendered property owners for the Wellington street site of the new departmental buildings submitted their report to the minister of public works today. These figures will not be made public, being regarded as a private matter, but the total is understood to be in the vicinity of $2,500,000. The valuation has been in progress for some months and the report is awaited with interest by the property owners concerned.

ITALY DEMANDS ABOLUTE CONTROL

Willing to Compromise But Not to Give Up Hold on Its Possessions.

(By Daily News Leased Wire.)

CHIASSO, Switzerland, Sept. 4—Italy is determined to maintain its hold on Tripoli and Cyrenaca. No great advance has yet been made in *the unofficial negotiations for peace* which are now going on in Switzerland between the Italian delegation and representatives of the Turkish government. The former, while expressing their readiness to make concessions in behalf of Italy in secondary matters, have declared it impossible to give in on several points.

Italy demands absolute and complete sovereignty over Tripoli and Cyrenaca without, however, exacting its recognition from Turkey. It demands the evacuation of the Turkish troops and it is pointed out that the administration at Constantinople might find a way to meet these demands by proclaiming the independence of these territories entrusting the Arabs to govern themselves.

It is also proposed that Turkey shall immediately readmit Italians to the Ottoman empire under the same conditions as prevailed before the war. Italy will keep Stampalia as a naval station while she will return to Turkey the other islands in the *Aegean on condition that their nationality* shall be respected and that their political and administrative organization shall be conducted on the lines set forth in the proposal of Count Leopold von Berchthold, the Austro-Hungarian foreign minister. Finally, Italy will grant Turkey the same concessions as were granted by Austria when the latter country annexed Bosnia and Herzogovina.

WARSHIPS MUTINY; SEBASTOPOL BOMBARDED.

(By Daily News Leased Wire.)

London, Sept. 4.—A private telegram from Sebastopol reports a mutiny of the crews of the Black Sea squadron, according to the Constantinople correspondent of the Chronicle. The warships bombarded the forts which replied vigorously and sunk one of the attacking vessels. The heavy gunfire continued as the despatch left. It is stated that one cruiser escaped and reached Burghas, Bulgaria. No confirmation of this report has been received here from other sources.

FORMER ROSSLAND MAN IS NAMED

Edward Hooson Will Be in Charge of New Government Agency in Nechaco Valley.

(Special to The Daily News.)

VICTORIA, B. C, Sept. 4.—The growth of settlement in the Nechaco valley as a result of the opening up of the district through the building of the Grand Trunk Pacific railway, has made necessary the establishment of a new government agency, following the policy of the minister of lands to make it convenient for the new settlers to obtain information as to lands and to make entry for homesteads in the district where they wish to take up a home. The new office will be at Fort Fraser. Edward Hooson, formerly of Rossland, has been appointed government agent and will open the office on Sept. 16.

DEATH TOLL NOW REACHES SIXTY

Fatalities Nearly Double First Estimate—Several Died After Being Brought to Surface.

(By Daily News Leased Wire.)

LENS, France, Sept. 4.—It is officially announced today that the deaths from the explosion of fire damp yesterday in the Clarence pit near Bruay, number 60. These include several miners who died after being brought to the surface. Most of the bodies were so mangled as to be unrecognizable.

LANDSLIDES INTO PANAMA CANAL

May Delay Opening of Big Ditch

Y.M.C.A. SLIPPING INTO CANAL

Loss of Canal's Earning Power Will Fall on Foreign Shipping

(By Daily News Leased Wire.)

NEW ORLEANS, La., Sept. 4.—Twelve hundred thousand cubic yards of earth and gravel have been swept into Culebra cut, according to reports received here today, by two great slides. One, the largest, carried 900,000 yards of debris, is causing the canal engineers serious embarrassment and bids fair to add another extension to the time limit of the completion of the big ditch. The slide partly buried a steam shovel and endangered a number of workers. It also carried down a big observation platform. The earth settled to the bottom of the canal. The previous slide came six days earlier, north of Empire, damaging the diversion, or drainage canal, which is considerably higher than the big ditch, and letting in a big volume of water. Much of this had been pumped out when the second slide came.

The slides have had another effect which is causing much distress among canal workmen. The two-story Young Men's Christian association home, erected on Culebra heights, is sliding toward the canal and the commission has ordered its use discontinued. Already the structure is 18 inches nearer the canal than when it was built, and *there seems no way of stopping it.*

May Delay Protest.

(By Daily News Leased Wire.)

LONDON, Sept. 1.—Panama continues to absorb a great share of attention by the British press. The opinion was current today that the government is going to abstain from pressing its arbitration proposal until after the election with the hope that the United States will then amend the bill. A Washington despatch says: "It is believed that when *Great Britain fully understands that* free tolls apply only to the American coastwise trade in which British shipping cannot participate, all reasons for her desiring arbitration will disappear."

This belief finds no echo in the English press. The effect of exemption of coastwise vessels has been fully discussed. The Times which is publishing a series of articles on the canal, replying to a letter by Lafayette Young, former United States senator, now in England, who wrote to the same effect, says: "He forgets that the cost of maintaining the canal is to be met by the dues levied. If American vessels are not contributing their share the amount to be borne by vessels of other nations will be so much the heavier. In other words American coastwise shipping will be using the canal mainly at the cost of foreign steamers."

Several shippers have advanced a similar argument. The British foreign secretary, Sir Edward Grey, in a letter to the Gateshead chamber of commerce, says that the government is making representations to the United States government concerning the Panama canal bill. He adds that there seems no doubt that the adoption of the bill providing for free use of the canal by American coastwise vessels as well as American ships in foreign trade under certain conditions is a violation of the Hay-Pauncefote treaty as the canal will not be open on terms of entire equality to the ships of all nations. It followed that if a large part of this trade is allowed to pass free, the total amount of tolls collected will be diminished to a large extent and as a consequence, the secretary concludes the foreign trade of the future will be unduly taxed on account of this suppression of part of the canal's earning power and the loss will fall on the shoulders of foreign ship owners.

CANADIAN TRADE GROWS FIFTY-FIVE MILLIONS

(By Daily News Leased Wire.)

OTTAWA, Sept. 4.—Official figures of exports and imports for the first quarter of the current year to June 30 show a total Canadian trade of $237,212,799, an increase of $55,332,350 over a like period last year. Imports for the quarter, exclusive of coin and bullion, totaled $152,975,545 as against $117,319,627. Exports totaled $76,266,776 as against $54,624,700 for the first quarter of 1911.

REPORT DENIED BY RAILWAY COMMISSIONER

WINNIPEG, Man., Sept. 4.—A. S. Goodeve of the railway commission, has sent from Rossland, B. C., an emphatic denial of the report published in a local paper that he considered that the Canadian Northern railway has made out a good case for the much debated cut off in south Winnipeg. The commissioner adds that he does not pass opinions on matters *under consideration by the board.*

EXCHANGE OF PUPILS WITH OVERSEAS SCHOOLS

(By Daily News Leased Wire.)

Ottawa, Sept. 4.—Notice has been received at Ottawa of a scheme for scholarships at secondary schools and colleges in Great Britain for pupils for similar institutions in the overseas dominions. The object of the promoters of the scheme is described as cultivation of mutual knowledge and unity of sentiment between rising generations in Great Britain and the dominions. Scholarships are open to boys and girls in any of the colonies. The promoters also propose an exchange of pupils in overseas schools.

LIFEBOATS FOR ALL ON BOARD

British Board of Trade Issues New Rules—Sequel of Titanic Enquiry.

(By Daily News Leased Wire.)

LONDON, Sept. 4.—As an outcome of the Titanic inquiry the board of trade has issued revised rules for increasing the safety of lives at sea. The rules become effective on Jan. 1, 1913. They provide that foreign going passenger ships and emigrant ships and foreign going sailing ships carrying passengers shall be required to furnish lifeboat accommodation for all on board; the lifeboat equipment which has been increased must be in the boats as soon as the ship leaves the harbor and there remain throughout the voyage.

The number of persons to be carried in each boat must be marked on it. Sidney Buxton, of the board of trade, in issuing the new rules makes the statement that it may be necessary to obtain further legislative power to make adequate boat drill compulsory and secure crews to man the boats properly. The rule is abrogated which permitted ships with bulkheads to carry a lesser number of boats.

THREE HURT IN CALGARY SMASH

Street Car and Trailer Run Away and Pile Up at Bottom of Grade.

(By Daily News Leased Wire.)

CALGARY, Sept. 4.—The first serious accident of the week occurred this afternoon and that it was not attended with more serious consequences is a miracle. When the fans were returning from the Burley-Allen fight the street cars were taxed to their utmost and a number of improvised work cars had to be used in order to accommodate the thousands. One of these cars with a trailer behind was proceeding down the hill at Park View when the brakes proved insufficient on account of the additional weight, and the car ran away, piling up at the bottom. Only three men were injured badly, though the wreck had all the features of a fatal accident.

LAKE WATER BURSTS INTO MINE

Cave in at Porcupine Mine as Results of Shots—Traders Bank Toppling Into Chasm.

(By Daily News Leased Wire.)

SOUTH PORCUPINE, Ont., Sept. 4.—This morning at five o'clock the waters of Pearl lake broke into a drift of the Schumacher mine and 60 feet of roadway disappeared. Several buildings were undermined. The branch of the Traders bank almost fell into the chasm and is now tilted at a dangerous angle. The cave-in was the result of a first round of shots fired by men. Fortunately, the men had left the drift before they put the shot or they would certainly have been drowned, for water and sand burst into the drift, filling it up with water and burying the pumps and derricks under many tons of debris. The mine is of course lost for the present and it is estimated that $10,000 in development has been wasted.

PREMIER BORDEN ACCEPTS RECEPTION

QUEBEC, Sept. 4.—Mayor Drouin this morning received the following wireless from Hon. R. L. Borden in response to the message sent him inviting him to a civic reception: "S. S. Victorian, via Cape Race, Newfoundland, Sept. 4.—Mayor Drouin, Quebec: Pray accept warm thanks. We sincerely appreciate great honor of civic reception, which we are delighted to accept. (Signed) Borden." Great preparations are being made at the city hall for the reception.

AFTER PRIZE FOR DISTRICT EXHIBIT

Coast and Island to Show Ores at Nelson Fair

DESIRES TO FORM MINING MENS CLUB

Starkey and Widdowson Say More Space and Bigger Prizes Should Be Given

Mining districts in Kootenay and Boundary and other parts of the interior will have to look to their laurels at the Nelson annual fruit fair this year, H. B. Brown, director of the mineral section of the Vancouver exhibition, having announced that a display of ores from the coast will be sent to this city and will be placed in competition for the big district prize.

News of this decision on the part of the coast people to make a display at Nelson has been received by E. W. Widdowson in a letter from Mr. Brown.

Suggests Mining Men's Club.

Discussion with the Nelson board of trade and publicity bureau regarding a proposal to establish a branch of the Mining Men's club here is planned by Mr. Brown who will accompany the exhibit. He stated to Mr. Widdowson that he believed a branch of the club should be opened in Nelson and while here he will go thoroughly into the question.

That the fair directors this year are not offering sufficiently valuable prizes for mineral exhibits when the work and cost of collecting such displays is considered is Mr. Widdowson's opinion. "I do not think that the *directors should begrude a few good* prizes for ores when we have such great mineral wealth in this section of the country," he said.

Promise Ore Specimens.

Mr. Widdowson remarked that the publicity bureau had received promises from many mining men of ore specimens and expressed the hope that those who have offered to give specimens will endeavor to let the secretary have them in sufficient time for them to be shown at the fair at the end of this month. Later they will form part of the permanent publicity bureau exhibit. This collection will be carefully protected against loss and will, it is planned, be sent to many of the principal fairs in provinces next year.

Mr. Widdowson is anxious that plenty of space should be allotted to the mineral displays at the fair and points to Spokane and Vancouver exhibitions as showing how great an attraction a good mining exhibit has proved.

Wants Plenty of Space.

The need for good prizes in this section and for adequate space in which to display the specimens is also urged by Fred A. Starkey. "Although the exhibition is known as the fruit fair, it seems to me that more attention should be paid to mining, which is still the premier industry of this section. There is no other opportunity offered in Nelson for the public exhibition of ores representing the enormous potential wealth which lies in the mountains all around us and I sincerely hope that we shall see a representative exhibit, properly displayed *in a prominent position in the exhi*bition building this year," he said.

EXPECT NO ANNOUNCEMENT OF NEW NAVAL POLICY

(By Daily News Leased Wire.)

OTTAWA, Sept. 4.—It is officially announced that at the banquet to be given in his honor on Monday next by the Conservative club of Ottawa, no definite announcement as to the naval policy of the government is to be expected.

MANCHESTER ACCEPTS TENDER FROM UNITED STATES

(By Daily News Leased Wire.)

MANCHESTER, Eng., Sept. 4.—The city council after much opposition, today voted for the acceptance of an American tender to supply tram rails. Many of the councillors wanted the higher British tender accepted.

Calgary Constable Murdered By Tramps

(By Daily News Leased Wire.)

CALGARY, Sept. 4.—Special Policeman Robert G. Macintosh of the Canadian Pacific railway was murdered about 10 o'clock tonight, presumably by tramps in the Canadian Pacific railway yards. Macintosh was found lying in the shadow of some box cars about five minutes after the shooting, unconscious, with his revolver still tightly clasped in his right hand. All the chambers of his gun were loaded. The assassin's bullet entered the right side under the arm and passed through the body. The unfortunate man died without regaining consciousness. The police have absolutely no clue as to the identity of the murderers. Macintosh was about 25 years of age and has a wife and two children in England.

Cooper Disappears Mysteriously At Fernie

(Special to The Daily News.)

FERNIE, B. C., Sept. 4.—William Nell, a German, who has worked in the coopering department of the Fernie-Fort Steel Brewing company's brewery here for over four years, has been missing since the afternoon of Aug. 13, and fears are being expressed that foul play may have been the cause of his disappearance.

"Bill Nell," as he was familiarly known to his comrades and friends, was a remarkable figure, being over six feet tall, well built, and of a happy, good-natured disposition.

On the afternoon of Tuesday, Aug. 13, Nell went to his shack, where he lived alone, and slipped off his overalls and went up town. The sales book at the P. Burns butcher shop shows an entry of the sale of a pound of boiled ham charged up to Nell that afternoon, and James McMasters, head salesman in the shop, remembers Nell being in the shop.

That is the last trace of him, and it seems strange that a man so well known and remarkable in appearance should drop so completely out of sight.

Nell left two suits of clothes in his shack and had not called at the brewery office to receive his check for wages which had been made out the day before and was ready for him. It is stated that Nell has a good bank account in a local bank, and he has a married sister living in Chicago, but her address is not known.

CANADIAN PACIFIC RAILWAY

SUMMER EXCURSIONS

Return Fares from Kootenay Points TO

Winnipeg	$ 60.00
St. Paul	60.00
Chicago	72.50
Toronto	91.50

OHIO AGAINST WOMAN SUFFRAGE

All Other Amendments Have Probably Carried—Vote Decisive Against Woman Suffrage.

(By Daily News Leased Wire.)

COLUMBUS, Ohio, Sept. 4.—Ohio women yesterday lost their fight to have equal suffrage incorporated in the constitution of the state. Although less than half of the returns in yesterday's election on 42 proposed amendments to the constitution had been returned by midnight, the majority rolled up against suffrage was so great that it was plain the final result could not be changed. Indications were that all of the other amendments, with the possible exception of a $50,000,000 bond issue for good roads, had been carried. The cities of the state uniformly voted in favor of all amendments but suffrage. The farming community voted against the amendments a whole, but there was considered little likelihood that they could offset the big urban majority About half the state vote was cast. The initiative and referendum has been adopted, according to the first 950 precincts out of 5,197 in the state. It received 63,093 votes for and 33,850 against. The liquor license had been carried by 55,341 to 20,942. Corresponding majorities were credited to all of the amendments except suffrage and the good roads. The suffrage vote from 950 precincts shows 36,063 for and 55,139 against. The good roads vote was 37,299 for and 38,210 against. The country districts were expected to change this result, however. All the labor proposals received good majorities. An amendment providing for the passage of laws establishing a minimum wage and fixing and regulating hours of labor was in the lead, receiving the largest vote, according to the early count. An amendment providing for a compulsory primary election was second. A municipal home rule bill received a large vote in the cities.

ISMAY GIVES EVIDENCE

(By Daily News Leased Wire.)

LIVERPOOL, Sept. 4.—J. Bruce Ismay, head of the International Mercantile Marine company, today concluded his testimony before Charles E. Pickett, master in the inquiry instituted by the United States to take evidence in connection with the American government to dissolve the alleged shipping trust. The examination of Mr. Ismay was private and his testimony will not be disclosed until it is reported to the United States court in New York. The examination of Mr. Ismay ends the work of Mr. Pickett here.

PRICELESS MINIATURE STOLEN

(By Daily News Leased Wire.)

PARIS, Sept. 4.—An Italian miniature of the fifteenth century entitled "Invocation to All the Saints" has been stolen from the Cluny museum in this city. The loss has caused consternation in artistic circles, as the miniature, which was bequeathed to the museum by Baron Adolphe de Rothschild, was priceless. The theft was noticed a month ago, but the news only became public today.

Snaps In Houses

$300 cash will handle the neatest five-roomed house in town, well situated with all conveniences including gas range. Price $2,100, terms $300 down, balance $25 a month.

ICE IN AUGUST IN HUDSON BAY

Outlook for Navigation Not Bright—Icebergs and Pack Ice Plentiful in Midsummer.

(By Daily News Leased Wire.)

OTTAWA, Sept. 4.—Reports have at last reached the naval service department concerning the summer trips made by the Beothic, owned by J. H. Clergue, and the government steamers Minto and Arctic. Primarily sent to ascertain the conditions prevalent in Hudson bay during the summer season, the reports show that the outlook for navigation in parts of the bay even in the summer season is bad. As late as August 10 the Beothic, while on her way from Nelson to Moose Factory, met pack ice for eight days along the southern shore of Hudson bay. The Beothic left Montreal on July 6 and carried provisions for the mounted police at Fort Churchill and freight and three survey parties for the Nottaway. The Beothic went through the Straits of Belle Isle and found icebergs. Field ice was met off Labrador and ice was prevalent all the way to Cape Chidley. In Hudson straits numerous icebergs were found and in the eastern and western end of the straits the Beothic ran into pack ice. In Hudson bay, on the way to Churchill, ice was met. Churchill was reached July 22 and Nelson on July 25. Leaving the latter port for Moose Factory on August 10 the Beothic was in pack ice for eight days along the southern shore of Hudson's bay. At Nelson Mr. Hazen, engineer for the department of railways and canals, was landed to study the plan of the harbor. He was left there with a survey party and also two parties sent by the Quebec government for railway work. The Minto of the government hydrographic survey of the naval service department reached Nelson August 6, while the Arctic arrived there two days later. The Minto dropped the schooner Chrissie Thomy, which she had towed all the way with a survey party for James bay. The Minto, after towing her half way across Hudson bay, left her to find her way to the Nottaway. The Minto reports a good trip and kept away from the Labrador coast, making the trip from Halifax in 13 days. Both she and the Arctic were on their annual trip, the latter carrying a magnetic survey party across the Hudson bay. The Minto was engaged on a survey of the entrance to Port Nelson. The Chrissie Thomy is engaged making a survey to find out the possibilities of a harbor at Nottaway and met a party sent by the government overland.

The Beothic was signalled at Belle Isle at 11 o'clock this morning and reported in a damaged condition. So effective is the work of the hydrographic survey party that the Beothic entered Port Nelson under the guidance of an officer of the hydrographic staff, though the Beothic crew had never been there before.

The presence of ice along the southern shore of Hudson bay so late as August 10 is taken as a bad indication for the possibilities of the Nottaway railway scheme as a means of transporting grain from the west via Port Nelson and James bay to Montreal, but later details will be forthcoming when the survey party arrives here.

SIR HERBERT TREE'S PRODUCTION MAKES HIT

(By Daily News Leased Wire.)

LONDON, Sept. 4.—"Drake," Louis N. Parker's three-act melodrama which idealizes the character of the Elizabethan admiral who vanquished the Spanish Armada, was produced last night by Sir Herbert Tree at His Majesty's theatre. It was splendidly mounted and superbly acted and it teaches the lesson that Britain's greatness depends upon the mastery of the sea. The play was cheered to the echo by the pit, and like Tenny's "Brook" may run for ever here, but it will never be popular at Potsdam. While the morning papers here gave "Rebecca of Sunnybrook Farm" a kindly reception, the evening newspapers say the sweetness is cloying.

CONTROL OF PARTY IS STILL UNDECIDED

(By Daily News Leased Wire.)

SAN FRANCISCO, Sept. 4.—Control of the Republican party in California by the Roosevelt or Taft factions, the main issue in yesterday's state-wide primary, will not be determined until an analysis of the vote discloses the strength of the contending factions in senatorial and assembly nominees. Under the primary law the legislative nominees will constitute the party conventions at which Republican and Democratic electoral candidates will be chosen. The Roosevelt Republicans went into today's primary with the advantage of 14 out of 20 holdover senators. Meagre returns received up to 10 o'clock last night gave no indication of the general result in the legislative contests. In a majority of the 11 congressional districts, stalwart and progressive aspirants contested for the Republican nominations, but the personal popularity of the candidates largely obscured the national issue.

ROOSEVELT DECLANES WAR ON STANDARD OIL

(By Daily News Leased Wire.)

ST. LOUIS, Mo., Sept. 4.—Colonel Roosevelt in concluding his speech last night launched into a denunciation of John D. Archbold.

"Archbold when before the senate committee complained that the Standard Oil company had been subjected to Abyssinian treatment by my administration,55 he said, "That is right. They needed Abyssinian treatment and I gave it to them, and if I am president again I am going to use those same Abyssinian methods of punishment whenever they are needed. That's why Archbold is shedding tears and that's why he made that wail before the senate committee. He knew what he could expect from me if he and his corporation violated the law."

PANAMA CANAL HAS NEW DANGERS

Awkward Situation if Earthquake Deranges Mechanism of Huge Locks—Question of Insurance.

(By Daily News Leased Wire.)

LONDON, Sept. 4.—British shipowners, according to the Times, are confronted by several problems in their consideration of plans for dealing with the new situation that the opening of the Panama canal will create. First among these problems is the question, "Is the canal safe?"

"Of course," it is said, "it is recognized that as far as human skill can guarantee its safety the canal will be safe, but the canal, with its huge locks, is the first of its kind, and earthquakes are not unknown in Central America. Were the mechanism of the locks one day put out of gear by a seismic disturbance a 12,000-ton liner might find itself in an exceedingly uncomfortable position. This question of safety will certainly have to be considered very carefully indeed by shipowners and it will be further considered when the rates for insurance come to be discussed. The underwriters will have to take a new factor into consideration, one that has never arisen in connection with the Suez canal."

NAVY QUESTION SHOULD BE KEPT OUT OF POLITICS

(Special to The Daily News.)

SASKATOON, Sept. 4.—The party of British financiers under A. M. Grenfell of the Canadian Agency, Limited, fiscal agents of the city of Saskatoon, arrived in Saskatoon yesterday and left this morning at 5 o'clock. While here Mr. Grenfell tendered a dinner to the council and prominent citizens of Saskatoon. J. Hill, M. P. for Durham, who is a member of the party, said in proposing the speech to the province of Saskatchewan, that the people all the way across Canada he noted appear to feel prosperous and secure; but while he was a western admirer, yet he believed that while there was the sense of security yet back of it all there was felt by the people of this country that considerable of that security was due to the British navy. He had listened to Premier Borden in England before he left and had heard him say that in case of troublesome times the Canadian navy would be present to help the mother country.

He pointed out that in bringing up a new country such as was brought forward so rapidly in Saskatchewan, there was a great opportunity to overcome the defects that had been disastrous to older countries. Slums should be avoided and industrial unrest should be guarded against.

He did not believe in feeling secure in the so-called everlasting peace, but believed the country should be always ready. He pointed out that in the old country the question of navy was not allowed to be a party question, and he considered that it was far more effective to have it kept out of politics. He understood that in Canada today there was a movement along similar lines, and while he did not desire to dictate as to political movements in this country, he believed that the move was a good one and one that he would highly recommend to the people of this country.

EVERYBODY ON STRIKE IN LIMA

Street Car Traffic Tied Up and Large Portion of City in Darkness.

(By Daily News Leased Wire.)

LIMA, Peru, Sept. 4.—A general strike in Lima is threatened. Already the street car employes and the electric light workers have gone out and tomorrow the employes of the Central railway will suspend work. Traffic by the street car lines in the city and suburbs is at a standstill and owing to the strike at the electric light plant a large portion of the city is in darkness tonight. The government has made strong efforts to bring the strike to an end, but thus far these have proved futile. The strikers have not as yet committed any acts of violence.

CATTLE MAIMING OUTRAGES AGAIN IN STAFFORDSHIRE

Victim of Miscarriage of Justice Pours Hot Shot Into Police—Condemns Methods.

(By Daily News Leased Wire.)

LONDON, Sept. 4.—There has been a recrudescence latterly of horse and cattle maiming outrages in Staffordshire, and George Edalji, the victim of the famous miscarriage of justice has written a letter to the papers pouring red hot shot into the "blundering police, who have admittedly got an awkward task before them and one which they themselves made 10 times more difficult by their ludicrous methods and hopeless failures extending over more than nine years."

OBSTRUCTING IMPORTATION OF RUSSIAN CAVIAR

(By Daily News Leased Wire.)

ST. PETERSBURG, Sept. 4.—The latest issue of Russian consular report contains the following statement from the consul at Melbourne:

"I forward information regarding Australian agricultural machines suitable for import into Russia, when American machines are excluded."

The Russian department of commerce also publishes the assertion that the American authorities are wilfully obstructing the importation of Russian caviar into the United States. The department is asked to take the proper measures to defend the Russian exporters, for whom, strangely enough, the Russo-British chamber of commerce is acting officially.

HEART STITCHED UP GIRL IS RECOVERING

(By Daily News Leased Wire.)

ROME, Sept. 4.—Professor Mori of Brescia has succeeded in removing a needle two and a half inches long, which an X-ray examination showed transfixed the heart of a 10-year-old girl. The wound was stitched up and the girl is recovering.

ONLY ONE GRAFTER WAS DISCOVERED

No Wholesale Mismanagement or Misappropriation of Funds in Grenfell Mission.

(By Daily News Leased Wire.)

NEW YORK, Sept. 4.—Cecil S. Ashdown, a public accountant of this city, who has just returned from St. Johns, Newfoundland, where he has been at work on a plan of reorganization of the various missionary enterprises on the coasts of Newfoundland and Labrador established by the Rev. Wilfred Grenfell, said yesterday that he regretted very much that the report that he made to the Grenfell association in America had given rise to misstatements. He said there was no basis at all for making it appear that there had been any general mismanagement or misappropriation of funds. Instead of condemning in his report the use of vessels for other than religious purposes, he, on the contrary, commended it. "These boats," said Mr. Ashdown "perform all the mission service for which they are intended, and then when they would otherwise lie idle, they are chartered and the proceeds go toward paying for their maintenance. There is no criticism by anyone in or out of the mission who understands the situation."

Mr. Ashdown, because of his great interest in the work of Dr. Grenfell, feels keenly any unjust criticism of the conduct of the missions. He has no interest whatever in the work when chosen by his firm to prepare a new plan of accounting and organization His enthusiasm has grown with his acquaintance. Hitherto the Grenfell missions have been supported by four different organizations, representing the United States, Great Britain, Canada and Newfoundland. Under the plan proposed by Mr. Ashdown, which has been accepted by the various bodies, the entire enterprise will be in the hands of an international board of management.

Charles F. Karnoppin, whom every one connected with the mission at St Johns placed the utmost confidence, proved to be a real grafter, Mr. Ashdown said, but that was the only case

DOMINION NOTES TO FINANCE CROP MOVEMENT

Well Laid Plans of Minister of Finance to Avert Repetition of Former Currency Famine.

OTTAWA, Sept. 4.—The Dominion government last winter resolved to make preparation in time for the western harvest of 1912. In the course of the winter the ministers concerned prodded up the railways, as a result of which the transportation system of Canada is better equipped than last year by 500 locomotives and over 20,000 cars, besides extensive improvements in roadbed, terminals and other facilities. Simultaneously, the minister of finance began to plan to avert the currency famine which gave so much trouble last year during the crop moving season.

The first move made was the extension of the period during which the emergency circulation of the banks is permissible. This was extended a month each way; it was allowed to begin on September 1 instead of October 1, and the banks were given till the end of February instead of the end of January to get it back.

In the renewing of the contract for printing the Dominion notes the fact that it would be necessary to meet this autumn's rush was kept in mind, and the recent issue of $5 notes was designed as an expedient whereby the banks could replace their "legals" of large denominations, which are not available for public circulation, by these notes, which they could pay out when their own notes ran short. As a result, the prospect in respect of currency now is greatly improved.

Figures of Circulation.

The Dominion notes in circulation at the end of July amounted to very nearly $113,800,000. Of this large sum less than $23,000,000 is in actual circulation among the public as small bills. About $750,000 is abroad as fractionals and obsolete currency which has not come in. There are about 12,000,000 of $1 notes, nearly $9,000,000 in $2 notes and not quite $1,000,000 in $4 notes—a denomination which is not viewed with favor and which is being withdrawn as rapidly as possible. All told, these categories amount to somewhat more than $22,800,000. In addition, the $5 notes out amounted on July 31 to $6,078,000; they since ther have run up to over $9,000,000.

The rest of the Dominion currency is in the form of bills ranging from $500 to $5,000, which in reality are certificates that the banks have th corresponding amount of gold on deposit with the government. The bank hold $77,877,000 in special "legals," and there are out some $6,000,000 in $500 and $1,000 bills payable to "bearer."

Altogether, there is in circulation $84,500,000 in notes available for use by banks, and some $29,000,000 in forms of service for the general public.

Working Under Old Act.

The banks are working today practically under the revision of the bank act of 1891, the amendments made since then being few in number. In the 21 years which have elapsed banking business generally has grown enormously. The resources of the banks have increased sixfold, the circulation issued by them and required for the business of the country has increased over threefold, while the volume of free circulation authorized by the act has increased slightly over twofold.

GOVERNOR JOHNSON PAYS TRIBUTE TO WOMEN

(By Daily News Leased Wire.)

LINCOLN, Neb., Sept. 4.—A nonpartisan committee yesterday welcomed Governor Johnson of California to Lincoln. Governor Aldrich entertained him at his home, William J. Bryan came down from Fairview farm to attend a reception and luncheon tendered the candidate by the commercial club and Dr. Lucille Evans, a widely known Nebraska suffragist, introduced him at the night meeting. The governor made only two speeches during the day, one at the state fair in the afternoon and the other at the convention in the evening. He was somewhat exhausted on his arrival and during the forenoon he rested at the executive mansion. His address at the fair grounds dealt with the plans of the Progressives to "conserve the human resources of the country."

While Governor Johnson was at the fair word was brought that enough voters had signed Progressive petitions to legalize a state ticket in Nebraska. "Fine," said the governor. "We are going to win in November."

At last night's session of the convention 50 women occupied seats on the platform and many were in the audience. The governor paid the women a high tribute. He declared the scene which followed the appearance of Miss Jane Addams when she seconded Colonel Roosevelt's nomination was the most wonderful in the entire gathering.

"When 15,000 persons cheered her they realized at last there had come into this work of ours the same sort of doctrines for which she has striven so nobly," Governor Johnson said.

PREMIER'S ENEMIES ARE GROWING IN STRENGTH

MADRID, Sept. 4.—The Liberal faction, which is opposed to Premier Canalejas and which is agitating for his removal, is gaining ground. The leaders in the so-called conspiracy are Senors Cobian, ex-minister, Burrell, Gassett, Mataix, Luis Silvela and Count Sagasta. A curious feature of the matter is that Senor Cambo, the Catalmist leader, is strongly agitating in support of Senor Canalejas, contending that the latter's policy alone would benefit Catalonia.

How To Keep Your Hair Free From Dandruff

Parisian Sage
Banishes Dandruff or Money Back

Parisian Sage
Stops Falling Hair or Money Back

Parisian Sage
Makes Hair Radiant or Money Back

A Delightful and Refreshing Hair Dressing

People who desire to preserve the hair can gain some valuable information from the following.

Have your own brush and comb at home and at hair dresssers.

Never use a brush or comb in public places they are usually covered with dandruff germs.

Wash your hair brush once a week with soap and warm water to which is added a disinfectant.

Shampoo the hair once a week with pure soap and water.

If You Want a Boat

Now or Next Year

IT WILL PAY YOU TO COME DOWN TO OUR FLOAT AND SELECT YOUR LAUNCH, ROWBOAT, CANOE AND ANY SUPPLIES SUCH AS OARS, PADDLES, ETC., THAT YOU WANT OR ARE LIKELY TO NEED.

The Big Sale With the Little Prices Is Now On

and you can buy any launch, row-boat or canoe at such ridiculously low prices that it will pay you to buy now for future use. In other words, it's your chance to buy at actual factory cost. The saving is big—the time is now—the opportunity is yours.

$1500 Launch—30-foot, 15-12 H. P. engine; speed 12 miles; sale price $1150

$1100 Launch—27½-foot, 15-18 H. P. engine; speed 18 miles; sale price $850

$275 Motor Canoe—18-foot, 2½ H. P. engine; speed 9½ miles; sale price $195

We have other launches, come down and see them. Then there are row boats. Eight row-boats, the good Peterboro make; regular price, $87.50; sale price $55.00

It's like giving them away but we must have the room. So they're yours at the price quoted.

CANOES—New, June last, Peterboros, too; 6 only left; regular $75.00; sale price, $48.00. Act quickly.

OARS—New oars, complete, with oar locks and leathers; regular $6.50; sale price ..... $4.00 Pair

New oars without locks and leathers; regular $5.50; sale price, $4 Pair

Everything will go out quickly at these prices, so move quickly.

The Elford Boat Co.

NEW ZEALAND TEAM MAKES CLEAN SWEEP

Imperial Cadets Secure First Honors in All Events at Canadian National Exhibition.

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—The imperial cadets of New Zealand made a clean sweep of the prizes in the military competitions at the Canadian national exhibition. The rewards for physical drill will not be announced for a day or two. New Zealand's sweep includes marching and manual, and appearance. For marching and manual they secured the Empire club trophy; for appearance the Daughters of the Empire trophy and for the clean sweep the Earl Grey trophy. The next four in the order of excellence in military accomplishments are: Australia, Newfoundland, Woodstock, Ontario and Mont St. Louis, Quebec.

BREAK EVEN.

(By Daily News Leased Wire.)

PHILADELPHIA, Sept. 4.—New York and Philadelphia broke even in the first of three successive doubleheaders to be played between the home team and the Giants. The visitors landed the first game 5-2, and the home team the second by 4-2. In the first New York won by bunching five singles and a double off Moore's delivery and in the second and fifth innings while Tesreau kept his opponents' hits scattered. In the second Chalmers returned to the game after a long layoff and did excellent work, Marquard was hit for a double by Paskert, two sacrifices, a single by Luderus and a homer by Walsh in the first inning. These runs decided the game, but Devore contributed two muffs after two were out in the sixth.

First game—	R.	H.	E.
New York	5	10	3
Philadelphia	2	8	0

New York	2	5	2
Philadelphia	4	9	1

Batteries—Ames, Marquard and Wilson; Chalmers and Dooin.

PITTSBUG GAINS GROUND.

(By Daily News Leased Wire.)

CHICAGO, Sept. 4.—Wilson's home run drive won today's game for Pittsburg, 5-2, and incidentally widened the margin between Chicago and New York to six full games for the pennant.

Chicago took a two run lead in the sixth. Leach walked, Sayer fanned and Evers singled too hot for Wagner, and Zimmerman scored. Needham then singled, filling the bases. O'Toole made a wild pitch and Leach scored. O'Toole retired after this inning and Robinson held the locals safe. The visitors made one run on Miller's double, an infield hit, which Zimmerman let pass down the third base line thinking it would roll foul. On a double play Miller scored. After one was out in the eighth Carey singled, Donlin popped-out and Wagner was purposely walked. Miller then singled and Carey scored. With two on, Wilson hit the ball over the right field fence for a home run scoring both runners ahead of him.

	R.	H.	E.
Pittsburg	5	10	0
Chicago	2	6	0

Batteries—Robinson, O'Toole and Simon and Gibson; Lavender and Needham.

ST. LOUIS TAKES FINAL.

(By Daily News Leased Wire.)

CINCINNATI, Sept. 4.—St. Louis won the final game of the series from Cincinnati today by 3-0. Salee was in excellent form and was effective with men on bases. Magee, Mowrey and Bresnahan batted well.

	R.	H.	E.
St. Louis	3	9	0
Cincinnati	0	9	0

Batteries Sallee and Bresnahan; Harter, Benton and Clark.

BROOKLYN WINS IN GREAT PITCHER'S DUEL

(By Daily News Leased Wire.)

BROOKLYN, Sept. 4.—Hummel's single in the 13th with a man on third beat Boston today in the greatest pitcher's duel of the year in Brooklyn, the locals winning, 2-1. Stack and Dickson allowed but three hits each up to the 12th inning. Boston scored its run on a triple by Titus and a single by Devlin in the second inning. Brooklyn tied the score in the ninth on Northern's single and Campbell's fumble of Daubert's single.

	R.	H.	E.
Boston	1	4	3
Brooklyn	2	6	0

Batteries—Dickson and Rariden; Stack and Miller.

WASHINGTON'S CHANCES FADING

(By Daily News Leased Wire.)

BOSTON, Sept. 4.—Washington came to town today declaring it was still possible for the mto win the pennant, but they lost to the locals by a score of 6-2, the opening game of a series which will have an important effect upon their chances. Manager Griffith sent a relay of four young pitchers against Boston but with poor results. Collins for Boston was in fine form and received good support from Gardner, Lewis and Yerkes. The locals clinched the game in the second inning when they piled up four runs. Two passes which Engle gave among four hits assisted in the scoring. Gallia who succeeded Engle, was also wild, Musser, who followed was both wild and ineffective, Boston scoring two runs off him, and Herring, who finished, showed little better. Gandil knocked in both of the Washington runs with a triple and a single.

	R.	H.	E.
Washington	2	6	2
Boston	6	10	1

Batteries—Herring, Musser, Gallia, Engle and Ainsmith; Collins and Carrigan.

COOMBS HIT HARD.

(By Daily News Leased Wire.)

NEW YORK, Sept. 4.—New York hit Coombs hard today and won easily by the score of 6-1. Daniels broke up the game in the sixth when he tripled with three men on bases. Chase's hitting, a wonderful stop by Barry and a great catch by Lelivelt were the features. Lelivelt robbed Baker of a home run in the eighth with two on base when he jumped into the air and pulled down Baker's drive with one hand.

	R.	H.	E.

SON OF DAN PATCH HANGS UP NEW RECORD

(By Daily News Leased Wire.)

HAMLIN, Minn., Sept. 4.—Dazzle Patch, owned by M. W. Savage, of Savage, Minn., and the two-year-old pacing son of Dan Patch, world's champion pacer, in the feature event of the day's Great Western races here made a mark of 59 1-2 for the half mile, the lowest mark ever officially made by a two-year-old pacer, officials declare.

HOSMER CELEBRATES FESTIVAL OF LABOR

(Special to The Daily News.)

HOSMER, B. C., Sept. 4.—The Labor day celebration at Hosmer, under the auspices of the United Mine Workers of America, district No. 18, was a success in every sense of the word. Much credit is due the committees for the way in which the different events were carried off. The Fernie prize Italian brass band attributed much toward the success of the day.

The baseball match between Fernie and Hosmer was of five innings and was won by the visitors, the score being 8-5.

The main attraction of the day was the lacrosse match between Fernie and Cranbrook. Each team brought a lot of boosters and the interest was keen throughout. Cranbrook won by a score of 8-4. The line-up:

Cranbrook—		Fernie
Botha	Goal	Caddon
McLean	Point	Smith
McPhee	C. Point	Black
Duff	1st Defence	Wright
Leitch	2nd Defence	Wallace
Chambers	3rd Defence	Todhunter

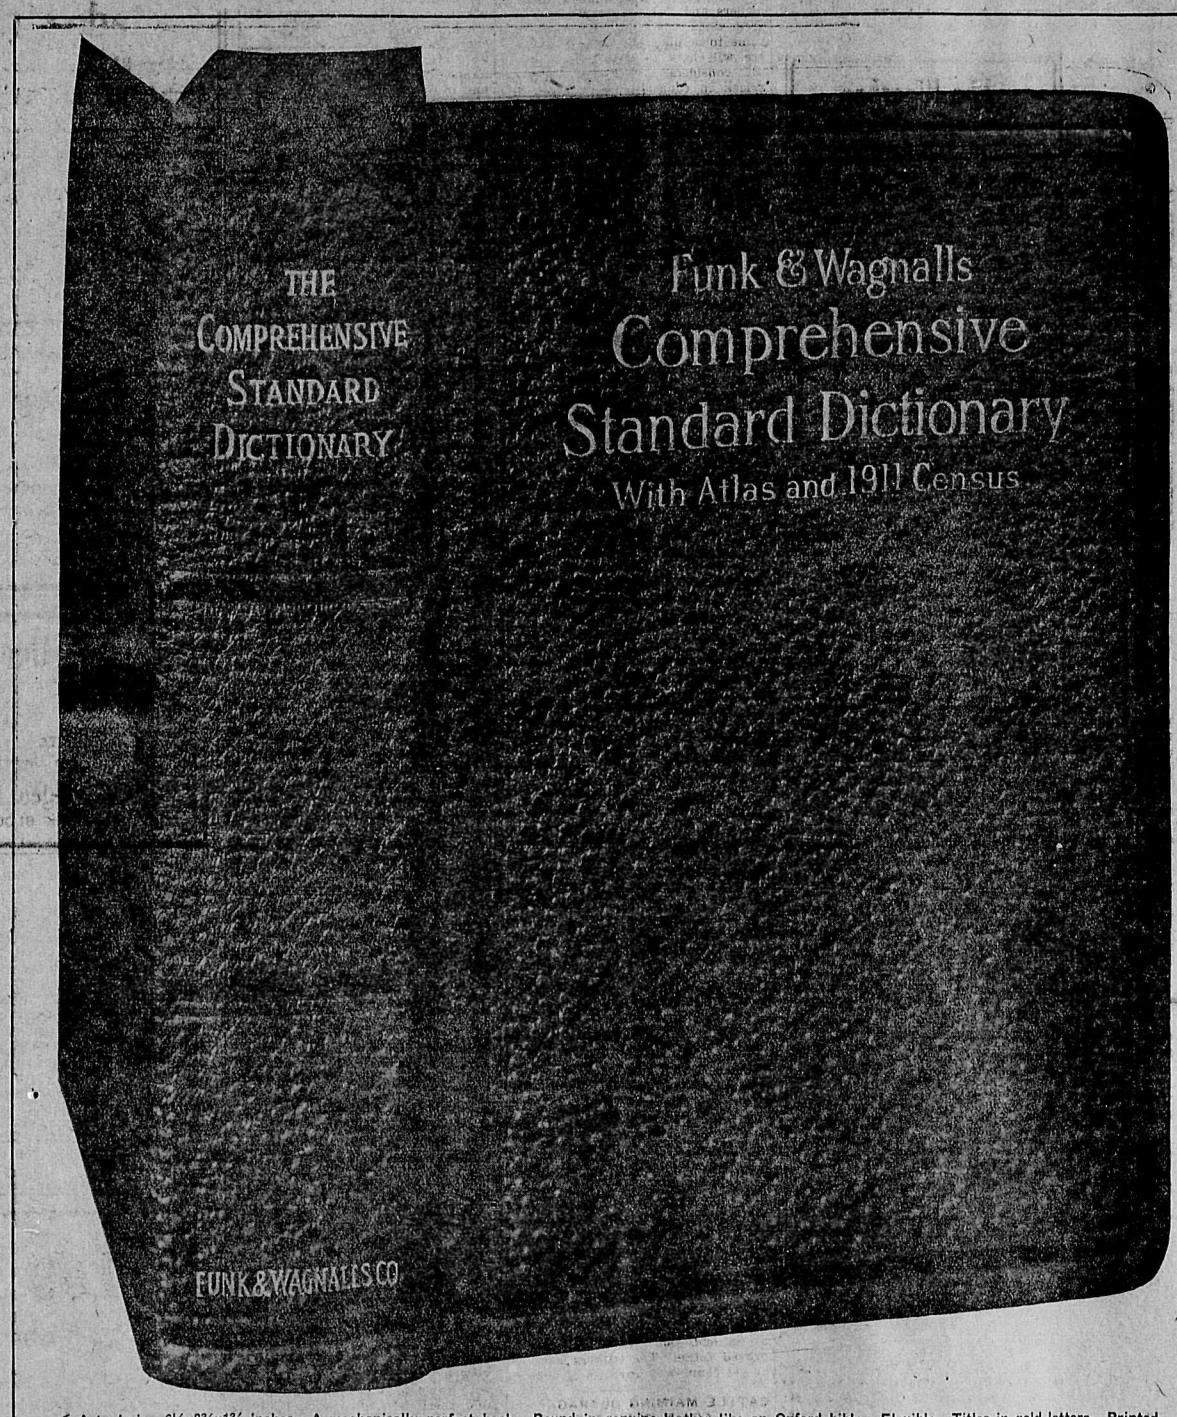
A Million Dollar Dictionary

Funk and Wagnall's Comprehensive Standard Dictionary, Designed to Give the Orthography, Pronunciation, Meaning and Etymology of About 40,000 Words and Phrases in the English Language

THE DAILY NEWS, after months of effort, has consummated a deal with Funk & Wagnalls Company of New York, the publishers of the famous STANDARD DICTIONARY, for a Special Edition of the COMPREHENSIVE STANDARD DICTIONARY. This valuable work has been compiled from the great unabridged Standard, which required the services of 257 of the world's greatest experts, cost over a million dollars, and is the acknowledged authority of the world. In addition, a complete ATLAS OF THE WORLD has been combined, showing in separate maps every province of the Dominion, every state in the Union, and every country in the world. It also contains the complete Canadian census for 1911 and the 1910 census of the U.S.

The Daily News subscribers are entitled to the best, and we feel sure that no better premium could be offered them than the Standard Dictionary. Don't let a word of this announcement escape you. Study the special features of this Dictionary. None can compare with it.



Actual size, 6½x8¾x1¾ inches. A mechanically perfect book. Bound in genuine leather like an Oxford bible. Flexible. Titles in gold letters. Printed on high grade paper; wide margins. Just the size for constant use.

A Few of the Unmatchable Features

- More than 40,000 Dictionary terms with their definitions accepted as the supreme authority.
- 3000 new words including the latest form of new inventions and scientific achievement. No obsolete or useless words.
- More than 800 exclusive illustrations artistically accurate, which help to impress definitions.
- 96 colored maps showing all the countries of the world and every province and state in North America.
- Latest census of Canada and United States.
- Rules for spelling, pronunciation, capitalization and compounding of words as applied in the work itself.
- Foreign words and phrases current in English literature.
- Signs used in the sciences, commerce, etc.
- A summary of the world's coinage intelligently presented and easily understood.
- Two keys for pronunciation, scientific and conventional, side by side.
- Etymologies given in clear and condensed form.

Further Special Features

- Symbolical meanings of flowers and gems.
- Chief rulers of the world.
- Sovereigns of England and dates of accession.
- Presidents of the United States.
- Forms of address, proper phraseology in addressing officials, etc.
- Poisons and their antidotes.
- Weights and measures of various nations with supplementary information.
- The metric system converted into ordinary weights and measures.
- Interest tables, rules and laws.
- The moon in relation to the earth.
- The magnetic poles.
- The Gregorian calendar.
- Latest map of Panama canal zone.

A Few of the 3,000 New Words Defined

Adenoid	Elevator (Aero)
Adrenalin	Etherize
Aerometer	Fan—Baseball
Airman	Glider
Apache	Grouch
Autoboat	Half—Leather
Autobus	Kitchenette
Autohypnosis	Kinetoscope
Autosuggestive	Marathon
Biplane	Night-rider
Carabao	Submarine
Cattalo	Tonneau
Diplodocus	Wireless

All so concisely presented and so clearly printed as to tempt the eye, fix the memory and inform the mind.

These dictionary pages are remarkable for comprehensiveness and for compression so far as the typography is concerned, without trial to the eyes.

In the Office

It tells you how to divide each word into syllables, how to pronounce it, whether it begins with a capital or small letter; gives abbreviations and legal and commercial terms. It will be found indispensable to employer, stenographer or clerk.

In the Home or School

Its simple arrangement and clear definitions admirably fit it for the use of children. The bold type and the vast amount of general information it contains commend it to teacher, parent and child.

This Comprehensive Standard Dictionary Free to Subscribers

Those not already on our lists, by subscribing to The Daily News for 14 months, are entitled to one of these Dictionaries absolutely free of cost. Those on our list but in arrears must pay up to date, then take out a 14 months' subscription in order to obtain the Dictionary.

Those paid in advance can secure the Standard Dictionary FREE by either securing one new subscriber to The Daily News for 14 months or by renewing their own subscription.

W. G. FOSTER, Editor and Manager.

THURSDAY, SEPTEMBER 5

MAKING A GOOD START.

The Borden government, although hardly yet settled into harness, has shown an inclination and capacity to deal with matters which touch the general well being, and it has shown already that its administration is likely to leave a distinct impression upon the internal economy of the country. It is not only in great questions of imperial and international importance such as naval defence, that Mr. Borden shows that he divines accurately the sentiment of Canada; in matters of purely domestic interest his government has already demonstrated that it is alive to the needs of the country and that it has its hand on the public pulse.

Nothing could be more beneficial or more nearly touch the interests of the people than the government's desire to foster the creation and maintenance of good highways throughout the length and breadth of Canada, and the proposal that the federal authority should co-operate with the provinces in an effective scheme for the promotion of the progress and welfare of the agricultural industry is an instance of a ready appreciation of existing deficiencies and of the needs of a fundamental source of wealth and prosperity. The cadet movement, under the auspices of Colonel the Hon. Sam Hughes, although it may have critics among those who would prefer to see Canada unarmed and defenceless, seems likely to meet with warm approval and support, and cannot fail to benefit the country by providing wholesome discipline and training for the youth of the Dominion, apart from its value as a field for recruiting the defensive force of the land.

The efficiency and contentment of the civil service is of vital importance to the smooth working of the public business, and to the civil service the government has already directed its attention with a view to effecting needed reforms Mr. Borden has declared himself in favor of eliminating the patronage system and of extending the scope of the civil service commission, and legislation with that object in view will no doubt be presented in due course. In the meantime the government is investigating conditions in the outside service with the intention of remedying abuses and injustices and of increasing efficiency.

Mr. R. S. Lake of the public service commission, has just returned from a tour of Canada during which he made enquiry into the cost of living, the rate of salaries paid in the civil service and the general conditions prevailing. He found that in the west the rate of salaries, compared with those paid by private corporations, is low, that there is difficulty in retaining efficient men and that there is considerable discrepancy in the remuneration in different departments. His report will doubtless recommend an improvement in conditions and it is expected that a reorganization of the western civil service will be advised.

The government will no doubt give careful attention to his suggestions and it is to be expected that reforms will be put into effect. In this the government is again showing its regard for the needs of the country and its attention to the details of domestic administration. Its reorganization of the public service with consequent increase in efficiency will benefit not only the civil servants who have been laboring under inequitable conditions, but also every member of the public whose business it is that the civil service transacts.

EDITORIAL NOTES.

Sir Edmund Walker, one of the foremost financial authorities of Canada, in a recent address, pointed out the extent to which Canada is dependent upon the Mother Country for the capital necessary for development He said: "We get 83 per cent of our borrowed money from England. The spine of Canada in the hour of need is England. No other country has trust in us but she, and our securities stand second to her most bona fide debentures." He added: "What other country in the world would have the confidence in us to extend us such credit? Our financial future rests on our British connections." And that is only one reason why we must help the British navy to safeguard England's shores.

What the Press Is Saying

Horrible Evample.

The Ottawa Citizen is to have a Unitarian minister as editorial successor to Lieut. Col. E. W. R. Morrison. Well, it may be all right, but when one considers the Horrible Example of the Toronto Globe it chills the atmosphere of the distant prospect.—Brockville Times.

Beneficial Carrots.

Prof. Metchnikoff, the great savant of Paris, proclaims that carrots confer a beautiful complexion and contain a sugar that kills the bacilli which prevent our attaining the age of a hundred years or more.

In contrast with many scientists whose greatest effort is directed towards discovering bacilli so fast that to sit down to table becomes almost a horror, Prof. Metchnikoff works to supply ammunition for killing off the bacilli as fast as the other fellows discover them.

The humble, common or garden carrot is found to be a great source of good.

Don't despise the little things.—Ottawa Journal.

An Inter-Imperial Step.

The attempt of Hon. Mr. Hazen to have the British government accept the Canadian inspection of Canadian ships is another of these inter-imperial bits of reciprocity that, while not of profound importance in themselves, nevertheless emphasize the oneness of the Britsh Empire and the British people.

The mutual acceptance of each other's inspection by Britain and Canada is something which while of benefit to both, will be of greatest benefit to Canada. In matters of shipping, in safety regulations, in inspections and the like, the British system and practice is the best and most careful of any in the world. Owning, as she does, almost half of the mercantile shipping of the world, Britain cannot afford to be careless. Thus, if Britain accepts the Canadian inspection, it will be a proof that she considers these equal in care and in demands made upon vessel owners, to her own.

Hon. Mr. Hazen is to be commended in his latest attempt for inter-imperial reciprocity in shipping inspection.—Ottawa Free Press.

Cold Storage

The Girl—"There goes mother."
The Boy—"How do you know?"
The Girl—"Stupid! Can't I recognize our dog?"—Puck.

Suffragette—"We believe that a woman should get a man's wages."
Married Man—"Well, judging from my own experience, she does."—Judge.

"Say, you can't join this club of authors unless you've written something, and you've done nothing but raise pigs."
"Well, isn't that making my living by Pens?"—Baltimore American.

"How does an alienist manage to secure leniency for a prisoner in so many cases?"
"Owing to a peculiar trait of human nature which makes crime seem less offectionable when presented under a scientific name."—Washington Star.

"Do you think it would be wicked to go fishing on Sunday?"
"Well, that would depend on whether the fish were biting or not. I don't see how it would be any more wicked to watch a cork floating on a stream on Sunday than it would be to watch a cloud sailing in the sky."—Birmingham Age-Herald.

"Did the story he made up to tell his wife pan out right?"
"Nope, it was a complete failure."
"It sounded good to me."
"Yes, but he invented it when he was sober, and when he got home and started to try it out he found there were so many big words in it that no man in his condition could pronounce that he had to give it up. His next effort will be in words of one syllable."—Houston Post.

Pointed Paragraphs

It is never too often to kiss a pretty girl.

The faults a man boasts of show what a fool he is.

Money is a splendid substitute for brains in some cases.

Parsimony is a vice that dries up the charity in the heart.

Yet the wife of a self made man isn't always satisfied with the job.

A man wants a hat to fit his head; a woman wants one to fit her face.

Will the burning campaign issues make more work for the smoke inspectors?

Life is too short to make an enemy of a man by refusing to laugh at his jokes.

Look out for the man who tries to avoid trouble. He is apt to be dangerous.

Children require a lot of patience to enable them to get along with their parents.

When a young man is engaged to a girl he doesn't necessarily have to make love to other girls unless he wants to.

It is difficult for a woman to preserve her respect for her husband when she sees him get rattled making a public speech.

This Date in History.

The first exclusively commercial newspaper in America was issued in Boston 117 years ago today, under the title of The Boston Prices-Current and Marine Intelligencer, Commercial and Mercantile. The New York Journal of Commerce was founded in September, 1827, and was the first paper to establish pony expresses and swift schooners to get the commercial news and get it first. The Journal of Commerce and its rival, the New York Enquirer, were probably the first papers to be called "blanket sheets" because of their efforts to surpass each other in size.

The first theatre in America was opened at Williamsburg, Va., 160 years ago today. That place was then the capital of Virgina. Permission to open the "playhouse was granted by Governor Dinwiddie, and on Sept. 5, 1752, a company of English actors was seen in a performance of "The Merchant of Venice."

The Weather

(By Daily News Leased Wire.)

TORONTO, Ont., Sept. 4.—Fair, moderately warm weather has prevailed today from the lake region to the maritime provinces, while in Saskatchewan and Alberta it has been cool, with showers in many localities. In Manitoba it was fair and moderately warm.

EDGEWOOD MILL HAS DRYING KILN

Capacity of Plant at Castlegar is Thirty Thousand Feet Daily—Ship Many Bricks.

(Special to The Daily News.)

CASTLEGAR, B.C., Sept. 4—The Edgewood Lumber company's mill still continues to ship an average of three cars of lumber per day to Saskatchewan and Alberta points. This company has just installed a drying kiln with a capacity of nearly 30,000 feet of lumber per day. This improvement now makes this company's mill one of the most up-to-date plants in British Columbia.

Quite a number of sportsmen from Rossland and Trail came here for the opening of the hunting season, but owing to disagreeable weather none of them secured very large bags.

J. M. Jordan and A. T. Collis of Rossland spent Monday in town.

T. Beisly, Mrs. Beisley and Miss Beisley of Trail are spending their holidays in Castlegar. Miss H. D. Truswell of Trail is also spending a few days in town.

Mr. and Mrs. Lawrie have returned from Spokane after spending a pleasant holiday with friends at that point.

Taking advantage of the fine day on Saturday, the Tennis club came out in force and a number of games were played between Trail and Castlegar members. For the visitors Miss K. Beisly, Miss H. Truswell and T. Beisley played exceedingly well, and Mrs. Laurie, Mrs. W. J. Farmer and Messrs. George and Deakman for the home team.

T. W. Binggy and Mr. Warren of Trail are camping for a few days at the mouth of the Kootenay river.

Harry Gibson, fire warden, is spending a few days in town.

The Castlegar brick yard has shipped a large number of bricks the last month or two, and has a large number of orders on hand. The continued wet weather is causing the owners a lot of trouble and they are anxiously looking forward to a change.

M. Ferro and family arrived here from Italy last week and have taken up their residence in one of the cottages overlooking the Columbia.

Mr. McCoy, of the heliographic service, Ottawa, arrived in town tonight and will be here for the next two or three weeks, engaged with a number of men looking after some work in connection with this branch of the service.

W. Ramsay, operator for the C.P.R. at this point, is contemplating taking a trip to Valdez to look after some mining interests he has there.

Rossland News

(Special to The Daily News.)

ROSSLAND, B. C., Sept. 4.—The Canadian highway surveyors are in town today, registered at the Allan hotel.

The Rossland Progressive association is taking up the matter of sending a shipment of fruit and vegetables to the Trail fruit fair.

Miss Lean McFadden is visiting Miss Maud Michaely from Duncans on Vancouver Island.

A shipment of silver bullion passed through here this morning enroute to New York per the Great Northern.

The Rossland boy scouts have received an invitation from the Nelson city council to act as guard of honor for His Royal Highness the governor general.

Joe Kloman left for Norway mountain this morning, where he will do a little hunting.

Jimmy Fox has moved into his new cigar factory at the Corner of Spokane and Columbia streets. The new factory is a nice light place and much larger than the old one, which was too small for Mr. Fox's increasing business.

Mrs. Lane has returned from the coast, where she was attending the millinery sales.

Fay Cusick and family have returned from the Boundary, where they had been on a fishing trip.

A. A. Paul has returned from Grand Forks, where he had been on business.

Rev. S. H. Sarkissian sent a large box of brook trout to town from Creston, where he is on a fishing trip.

GOVERNMENT OFFICIAL DIES AT KASLO

(Special to The Daily News.)

KASLO, B. C., Sept. 4—At the age of 62 years, John Riddell died of a complication of ailments in which heart failure was a determining factor, at his home in Allen's addition last night at 10 o'clock. He took to his bed about two weeks ago and grew worse daily until the end. Mr. Riddell was born in London, Ont., and came to Moosomin among the early prairie settlers, and moved to Kaslo in 1897, where he and his family have lived since. He was clerk of the works under the provincial government up to the time of his passing. He is survived by a wife and four children, all of whom were with him during his last illness. The children are J. A. Riddell, Mrs Chas. Webster, Mrs. H. A. Rainbow and Miss Vera Riddell. The funeral will take place tomorrow.

E. E. Chipman left for the coast today.

Born, to the wife of John McPherson, a son, Sept. 3.

Born, to the wife of William Whitaker, a son, Sept 1.

Hugh Gilles has transferred his gang of workers on the government road from Argenta to Meadow creek.

EXCLUDE SETTLERS BROUGHT BY STEAMSHIP COMPANIES

Democratic Presidential Candidate Speaks in New York—To Maintain American Standards.

(By Daily News Leased Wire.)

NEW YORK, Sept. 4—Governor Woodrow Wilson spoke for the first time tonight in New York city as the democratic nominee for the presidency. His first political address in the metropolis was delivered at the dollar dinner at the Woodrow Wilson Workingmen's league. Before going to the dinner the governor met two score editors of foreign language newspapers at the National Arts club and talked immigration to them.

"If we can hit upon a standard which admits every voluntary immigrant," he said, "and excludes those who have not come of their own motion with their own purpose of making a home and a career for themselves, but have been induced by steamship companies or others to come in order to pay the passage money, then we have what we will agree upon. I am speaking to you as also Americans with myself and just as much Americans as myself and if we all take the American point of view; namely, that we want American life kept to its standards and that only the standards of the American life shall be the standards of restriction, then we are all upon a common ground. I am not saying that I am wise enough out of hand to frame the legislation that will meet this ideal. I am only saying that that is the ideal and that is what we ought to hold ourselves to."

WALTER HUME LONG SPEAKER AT CALGARY

(By Daily News Leased Wire.)

CALGARY, Sept. 4.—"It is a singular coincidence that at the last meeting of this club one of the guests of honor should express the hope that members of the British house of commons should tour the overseas dominions before taking their seats and that at this meeting we should have present no less than four of the most distinguished members of the imperial house," said C. F. Adams, secretary of the Canadian club, in introducing the Rt Hon. Walter Hume Long, the speaker at today's luncheon.

The guests of honor were Col. Gibb, Col. Mackie, Sir George Armstrong Bart., Sir Henry M. Pellatt and Major Morrison-Bell.

Mr. Long who met with a most hearty reception, in the course of an address, said he appreciated the honor they had conferred upon him in singling him out to address the gathering. He did not think that it was mere curiosity that had prompted that invitation. The only difference between the British subject whether in Canada, Australia or in South Africa, or in this part of the Dominion, was the difference which was to be found between all men wherever they existed.

EYES

Tearful Eyes

There is a great variety of causes along the way from the cradle to the grave. Generally the further from the cradle the fewer the tears. Sometimes this is not the case and we see some people much distressed by a continuous or intermittent flow of tears entirely independent of any sentimental causes. This is due to two causes principally. One is nervous irritation or spasm, the other follows the first and is nervous exhaustion. The one hinders the flow of tears from the eye by proper channels, and the other allowing too much blood to pass through the lachrymal gland, thus causing too great secretion of tears. Drugs and operations are worthless and dangerous. Only the removal of the nerve strain causing the irritation or the building up of the supply in case of weakness is permanently effective.

MUCH BUTTER IMPORTED FROM NEW ZEALAND

(By Daily News Leased Wire.)

OTTAWA, Sept. 4.—The department of agriculture has made public the report of J. A. Ruddick, the dairy and cold storage commissioner, for the year ended March 13, 1912. Mr. Ruddick in the course of his summory of the features of the year, makes some interesting remarks on the success of the home market. After noting that the unfavorable weather of 1911 caused a shortage of butter and cheese, Mr. Ruddick says:

"It became apparent early in the winter that the stock of stored butter in Canada, plus the winter production, would be insufficient to supply the demand until the new season's output would be available. As a result a large quantity of butter was imported, principally from New Zealand, the total quantity covering from that winter down to date (March 31), being 2,139,944 pounds. There has also been imported during the year 929,318 pounds from the United States."

PRESIDENT GREETS DELEGATES TO CONGRESS

(By Daily News Leased Wire.)

WASHINGTON, Sept. 4.—The president of the United States today greeted the delegates to the eighth international congress of applied chemistry which was opened here this morning, to be continued in New York beginning on Friday. The principal event of the day was a garden party on the White House grounds in honor of the delegates from foreign nations. There President Taft welcomed his guests. Later in the day the president spoke briefly to the delegates.

The opening session of the congress was presided over by Dr. Wm. R. Nichols of New York, president of the congress. At this session Dr. Rudolph Wegschneider of Austria, declared that American chemists had accomplished in the last 100 years as much as European chemists have in 2000 years. Rapid strides made by American chemists also were alluded to by Dr. E. W. Morley, honorary president of the congress. President Nichols in his address predicted that the serious work of the congress to begin in New York on Friday would be helpful to the scientists of all nations. Sir William Ramsay of England, Dr. Jockichiro Emoria of Japan, Prof. Walden of Russia, Commandi tore Claicien of Italy, Dr. Emmanuel Eyado of Norway and other scientists made brief addresses.

Tomorrow the scientists will spend in sightseeing, leaving late in the day for New York.

STAMPEDE MARRED BY MANAGERIAL INEFFICIENCY

(By Daily News Leased Wire.)

CALGARY, Sept. 4.—Ed Echols of Dragoon, Arizona, riding Ribbon, the premier cow pony at the Stampede today established a mark of 23 4-5 seconds for roping and tying a steer. This beat the best previous time of Joe Gardiner by 2 4-5 seconds, made on Tuesday. Echols beat his previous record of 28 seconds, made when he *won the championship some years ago* in Arizona.

Clay McConigall, former world's champion, failed to get within the one minute mark.

Thirteen thousand persons attended the third day's meting and the record crowd is expected tomorrow when the Duke of Connaught and party will be in attendance. The Stampede has been marred by bad weather and poor management, each day's program being cut owing to managerial entanglements.

Miss Hazel Walker of Oakland, Cal., while riding a bucking horse was compelled to jump when the animal collided with a fence, and suffered minor injuries. Her sensational riding has been a feature of the Stampede.

SEVENTEEN HUNDRED LOOMS IDLE OWING TO STRIKE

(By Daily News Leased Wire.)

LOWELL, Mass., Sept. 4.—Seventeen hundred of 2362 looms in the Appleton cotton mill were idle today because of a strike of 300 weavers. The strike was ordered by the Industrial Workers of the World to compel the company to recognize the organization. Sixty weavers, who are not members of the I. W. W., remained at work A detail of police was sent to the mill gates in anticipation of a disturbance but no disorder occurred. The plant employs 1300 men.

REBELS ATTACK TRAIN.

(By Daily News Leased Wire.)

CORINTO, Nicaragua, Sept. 3.—(Delayed.)—Rebels today attacked a train in which the members of the Central American court of justice of Cartago, Costa Rica, were traveling in the vicinity of Leon. The train engineer was killed. The province of Leon has now become the centre of the revolution.

BRITISH BOAT WINS HARMSWORTH CUP

Beats America's Fastest Craft in Most Spectacular Race of Meet at Huntington, N. J.

(By Daily News Leased Wire.)

HUNTINGTON, N. J., Sept. 4.—The Royal Motor Yacht club of England today lifted the Harmsworth trophy. In the most spectacular race since the Americans brought the trophy across the ocean the British built a hydroplane, Maple Leaf IV., won the deciding race of the series on Huntington bay. She covered the 30 miles in 47 minutes 46 seconds, defeating the only American entry then running, Baby Reliance III., by 1 minute 5 seconds. Another of the American defenders, the 32-foot Ankle Deep, had led the race about half a mile for 25 miles when in sight of the goal the propeller snapped off. The remaining pair furnished an exciting race, but American hopes were severely set back by the Ankle Deep's mishap and when the *Maple Leaf finally* scored her triumph, the second in successive days, it was a stunning blow to the American enthusiasts. Sportsmanship asserted itself, however, and the British victor, her crew and her owner, E. Mackay Edgar, were given a lusty ovation by those aboard countless yachts assembled near the finish.

CADETS COULD NOT SHOOT.

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—The cadets who went to Long Branch this morning to shoot the final stage of the competition for the King's cup were not permitted to shoot in this competition as the weather was unfavorable.

HUNT CLUB DEFEATED.

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—The Toronto Hunt club today met their first reverse of the polo tournament, when they were defeated by the Back River club of Montreal in a very fast game by a score of 4-2. The Hunt club played two first team men while Montreal played only their second team. In the first, Chukka of Montreal scored on a nice shot of F. T. Beardmore. Toronto evened up in the second when Case put the ball between the posts. No more scoring was done in the third or fourth, Chukka's count *remaining one all at half time.* In the sixth Case put the locals in the lead, but one by Watson and another by Beardmore in the seventh gave the visitors a lead of one. In the final period McLennan added another tally to his team's list, leaving the count at the finish Montreal 4, Toronto 2.

EIGHT TO CONTEST FOR GOLF CHAMPIONSHIP

(By Daily News Leased Wire.)

WHEATON, Ill., Sept. 4—Four Chicagoans, *three easterners and one Englishman* tonight remained competitors for the national amateur golf championship. The second elimination round of 36 holes played today brought the curtain down on G. Waldo, Jr., of Brooklyn, who yesterday beat Harold Hilton of the Royal Liverpool club, the title holder. Waldo was put out by Paul Hunter of Midlothian. W. J. Travis, former British and national champion, was eliminated by Jerome Travers, metropolitan champion, and twice national champion.

EASY FOR KILBANE.

(By Daily News Leased Wire.)

NEW YORK, Sept. 4.—Johnny Kilbane of Cleveland, holder of the featherweight title, easily outpointed Johnny Dundee in a 10-round bout here tonight. Dundee rushed from the start but was met unvaringly with left jabs for the face that rendered his efforts futile. At no time did Dundee have an advantage, while Kilbane apparently did not at any time extend himself, easily outpointing his man. Abe Attell was introduced at the ringside and issued a challenge to the winner.

RAIN AT MOOSE JAW.

(By Daily News Leased Wire.)

MOOSE JAW, Sask., Sept. 4.—Harvesting in the immediate vicinity of Moose Jaw was interrupted by light rains which fell all day. It is still coming down. Reports from outside points say that the weather has not interfered with cutting. Whenever the weather clears a little, bright sunshine will set *all the binders going* again as there has not been sufficient moisture to saturate the ground.

ALLEN-BAYLEY MILL IS FARCE

Lightweight Champion Lands Knockout Blow in Third Round— Defeated man Nervous From Start.

(By Daily News Leased Wire.)

CALGARY, Alta., Sept. 4.—The theory that once licked always licked was again proved to be true when Joe Bayley, lightweight champion of Canada, with a short hook to the jaw put the former champion, Billy Allen, of Ottawa, down and out for the count in the third round of their scheduled 15-round bout here this morning. The sudden termination of the bout came as a disappointment to the crowd of 5,000 fans who gathered in Calgary's new arena to watch these two *men who upon their former meeting* had put up the fastest mill in the history of the game in Canada.

Allen was a beaten man before he entered the ring. Not once during the two and a half rounds did the former champion exhibit championship form. He was nervous at the start and kept appealing to the referee not to allow Bayley to hit in the breaks. Even before the bout started he showed symptoms of having lost his goat. When Referee Tommy Burns, in introducing the boys, failed to mention that there would be no hitting in the getaways, Allen took his arm and reminded him of this ruling.

Before the first round was finished it was easy to see that it was simply a case of how long. Allen was considerably heavier than at his last appearance. The burden of extra weight seemed to make him slower on his feet. The Victoria lad directed but very few of his blows to the face, but seemed content in delivering hard body blows. This method of attack was what made the bout so short. A hard hook to the stomach sent the former champion to his knees. He went down for the count of seven, when he arose only to be met with a short hook to the point of the jaw which sent him sprawling. At the count of eight he made a feeble effort to get up but instead of getting to his feet he rolled over on his back and the bout was over.

Tommy Burns picked him up as soon as the count was finished but it was a full minute and a half before Allen came to his senses. His first impulse was to go over to Bayley's corner but the champion was already being carried away from the ring upon the shoulders of his enthusiastic admirers.

BRITISH COLUMBIA HORSES WIN CHAMPIONSHIPS

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—In one of the greatest showing of horses ever seen at one exhibition in Canada, British Columbia represented by Colony Farm today, won a noted distinction at the Canadian National exhibition, capturing no less than six championships, seven first prizes, three second prizes, one third and one fourth prize, as *well as the special gold medal* presented by the British Hackney association for the best female under 14.2 hands and both the gold medals and silver medals for Shire females of any age. The Colony Farm exhibit includes Shires, Clydesdales, hackneys and ponies.

NEW ZEALAND CADETS CARRY ALL BEFORE THEM

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—The Imperial cadets from New Zealand carried all before them in the marching manual and general appearance competition at the exhibition, and the scores given out today show that they were given 97 points out of a possible 100, while Australia's representatives were a close second with 90 2-5 points. Newfoundland was third with 88 2-3 and the first English team fourth with 86 points. Ridley college and Mont. St. Louis, Quebec, tied for fifth place with 85. The contests were divided into three section—marching, for which 40 points were given; manual exercise and general appearance, valued at 30 points each. Following are the scores made by the other teams: Woodstock, 84 1-3; Manitoba, 83 2-3; Scotland, 78; Ireland, 74 2-3; Trenton, 71 2-3; Toronto Collegiate, 69 2-3; Nova Scotia, 68 2-3; St. Catherines, 67 2-3; British Columbia, 66 2-3; Belleville, 64.

BISHOP CONSECRATED.

(By Daily News Leased Wire.)

ANTIGONISH, N. S., Sept. 4.—With all the pomp and ceremony of the Catholic church, the Right Rev. James Morrison was today consecrated bishop of Antigonish. An unusually large number of high church dignitaries and clergy were present at the ceremonies. Among those present were the archbishops of Halifax and Vancouver, assistants in the consecration; the archbishop of St. John, Newfoundland, the bishops of Rimouski, Sherbrooke, St Georges and the representative of the bishop of Nicolet.

PAY THREE MILLION FOR COAST BREWERIES

(By Daily News Leased Wire.)

VANCOUVER, B. C., Sept. 4.—The British Columbia Breweries, owned by Vancouver people, and including the plants in this city and on Vancouver island, have been sold to an English syndicate for a sum approximating $3,000,000. Half a million will be spent on improvements and in the erection of a plant at Prince Rupert.

CAR FERRY TO PRINCE EDWARD ISLAND

(By Daily News Leased Wire.)

OTTAWA, Sept. 4.—The department of railways has received several tenders from British and American firms for the construction of the car ferry to be installed from Cape Tormentine, N.B., to Cape Traverse, Prince Edward Island. The tenders, which closed on Aug. 30, will be opened at once and it is expected *the contract will be let at an early* date. It is said the number of tenders is not as large as expected. As a matter of fact, the date formerly set for the closing of the tenders was July 30, but so few were the tenders then received for the work that it was extended a month.

The plan will involve the taking over of the small branch line between Moncton and Cape Tormentine and the increasing to standard guage of the Prince Edward Island railway.

CUSTOMS TRACKS TO FACILITATE HANDLING TRAFFIC

(By Daily News Leased Wire.)

WASHINGTON, Sept. 4.—A plan to facilitate the handling of customs traffic by the setting aside of certain railroad tracks as "customs tracks" at the station of every customs town was virtually assured as the result of a conference at the treasury department today. The conference was between Acting Secretary Curtis and *representatives of the Canadian Pacific railway*, Grand Trunk, New York, New Haven & Hartford, Central Vermont, Rutland, Boston & Maine, Michigan Central and other railroads.

STOCKBROKER DEAD.

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—E. Strachon Cox, a well-known member of the Standard Stock exchange, died this morning after a long illness. He suffered a paralytic stroke three years ago. He was the eldest son of Rev. E. Gregory Cox and was born in 1849. He leaves one daughter, Evelyn. He was a member of the Toronto club, the Jockey club and the Albany club.

BITTERNESS DIMINISHING.

(By Daily News Leased Wire.)

CONSTANTINOPLE, Sept. 4.—The congress of adherents of the committee of union and progress has decided that the party will participate in the forthcoming elections. This is a reversal of a previous decision and indicates an amelioration of the political bitterness.

STANDPATTERS' HOPES CENTRED ON WILSON

(By Daily News Leased Wire.)

DES MOINES, Iowa, Sept. 4.—Upon Woodrow Wilson the hopes of the standpatters are gradually being centred, Col. Roosevelt told the state Progressive convention here today. He asserted that the reactionaries of both parties were now turning to the Democratic candidate. Col. Roosevelt also called for speedy downward revision of the tariff and denounced the Payne-Aldrich tariff law as containing "sham and humbug."

"This is only nominally a three-cornered fight," he said, "In reality the fight is between the party of the people on the one side and on the other the bosses and the beneficiaries of the privileges, who will throw their weight to whichever of the old parties they think can beat us."

ANARCHISTS ARRESTED.

(By Daily News Leased Wire.)

VIENNA, Sept. 4.—Four anarchists have been arrested at Muggia near Trieste on suspicion of plotting against the life of Archduchess Josefa. The archduchess is the widow of Archduke Otto who died in 1906.

BOARD OF EVANGELISM.

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—The board of evangelism of the Presbyterian church in session here today adjourned at 5 o'clock to accept the invitation of the Toronto Woman's Social Service council to attend the formal opening of the Redemptive house on Yorkville avenue. A large crowd was present to witness its dedication. In the evening a request received from the Alberta government department of neglected children that the board establish an industrial school for girls in that province, to be supported by the government, was discussed and granted. The co-operation of the Methodist and other churches will be invited to work of this kind.

ARRESTED IN MONTREAL.

(By Daily News Leased Wire.)

MONTREAL, Sept. 4.—George Crowley, who is wanted by the police of Winnipeg on a charge of fraud, was arrested yesterday by Detectives O'Donnell and Laberg. The accused, who has been in the city for two weeks, admitted his identity, and Donald Macpherson, chief of police of Winnipeg, has advised Chief Carpenter that an officer will come after him.

We Are Now Showing a Complete Line of the

NEW FALL COATS

Prices Range from

$15 to $42.50

It is certainly a case of the materials making the Coats this Fall. The new materials being so handsome and attractive that coats are bound to sell largely. A great feature is the light weight of the new fabrics, though they are heavy enough in appearance, as all the cloths used are rough and shaggy, they are also decidedly comfortable.

The Coats are cut on straight lines; some have full and some half belts and set in sleeves. As a rule the only trimming is the wide or tucked seams and the handsome matching buttons.

Colors are Brown, Grey, Navy and Mixtures.

RESOLUTION

Whereas, there are now employed at the Cinderella and Silverine mines, near Three Forks, Chinese cooks, and

Whereas, through the loyalty of its friends and the fidelity of its membership, this union has hitherto been *successful in maintaining* a "White B.C." in so far as its local jurisdiction extends, and

Whereas, every friendly overture to secure a continuance of this state of *affairs has been unsuccessful* in persuading the management of the properties in question to dismiss the Chinamen, therefore be it

Resolved, that this, Sandon Union No. 81, of the Western *Federation of Miners,* vigorously condemns the employment of Asiatic help, in any capacity, and calls upon its friends and members to use every lawful and honorable effort to secure the banishment of the present Orientals, and prevent the future introduction of a class of labor that can only result in lowering our present standard of living, and injury to the moral, social and civic tone of the community, and be it further

Resolved, that the sense of this resolution, and a history of the reasons responsible for its adoption, be circulated as widely as possible amongst the membership and friends of organized labor, in this portion of the province of British Columbia.
Sandon, B.C., May 23, 1912. 39-tf

Monte Christo Consolidated Mining & Development Company, Limited. Non-Personal Liability.

Notice is hereby given that a meeting of the creditors of the above company will be held at the registered office of the company, at the southwest corner of Columbia avenue and Queen street, Rossland, B.C., on Friday, the 6th day of September, 1912, at the hour of 5 *o'clock* in the afternoon, pursuant to section 232 of the Companies act.

And take notice that the said company is being wound up voluntarily.

Dated at Rossland, B. C., this 20th *day of August,* 1912.

JESSE KEMP,
Liquidator.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

MARKETS

WHEAT MARKET FEATURELESS.

(By Daily News Leased Wire.)

WINNIPEG, Sept. 4.—The wheat market today was dull and featureless with prices stronger on the unfavorable weather for harvesting and threshing operations. American markets were steady to firmer, due to the same cause. Liverpool markets closed ¼c lower to ¼c higher with steady undertone. Winnipeg opened ¼@⅝c higher and holding steady at the high point during the entire session, closed ⅝c higher for October, ¾c higher for December and ⅝c higher for May.

Minneapolis opened unchanged to ¼c higher and closed ¼c higher for September, ⅝c higher for December and ⅝c May. Chicago opened unchanged to ¼c higher and closed ¾c higher for September, ⅝c higher for December and cc higher for May.

In cash wheat Bluestem and Velvet chaff are now selling almost at parity for Nos. 1 and 2 and a spread of only 3c on No. 3. The cash demand at Winnipeg was good for all grades with very few offerings. New No. 1 B. & I. was quoted 5¾c under old. Oats were in better demand at firmer prices while flax was unchanged. American coarse grains were also stronger in sympathy with wheat, September corn advancing 1¾, December and May being also higher. Receipts were light, only 35 cars being in sight for inspection today.

DULL AND IRREGULAR.

(By Daily News Leased Wire.)

NEW YORK, Sept. 4—The most notable feature of today's dull and irregular stock market was the growing importance of money as a factor. For a time the list gave signs of an inclination to shake off the heaviness of the previous day, although opening prices were generally lower, *but this was followed by a* buying movement and short covering which soon established gains of a point or over in some of the more representative issues. In the early afternoon when *call loans were quoted at 4 per cent and* time rates went higher the market sagged until little was left of the rise except in certain of the higher priced specialties, notably the tobaccos which *repeated some of their former spectacular* performances.

Yesterday's elections in Vermont and Ohio were naturally the subject of general discussion. Opinions varied regarding the *significance or importance of* the outcome. The most cheerful note sounded during the day was contained in a statement dealing with the operations of leading equipment companies, *showing steady increase of business.* Earnings of these companies for the first half of the current year are well ahead of the entire previous year. Private advices from Berlin, where *private discounts* were higher, indicate an early advance in the bank rate. Moneys plentiful in London but that market was somewhat depressed because of the continental political situation. London shipped a large amount of gold to Turkey, and Italy was reported to be negotiating for money in Paris. The bond market was again heavy with pressure against some of the tractions. Total sales, par value, $1,850,000. United States government bonds were unchanged on call.

SPECULATIVE ISSUES WEAKER.

(By Daily News Leased Wire.)

LONDON, Sept. 4.—Money is more plentiful and discount rates were firm today. Further profit taking weakened speculative issues on the stock exchange while the dearer money outlook and the continental political situation caused depression in consols and foreign securities, but Peruvians and Marconi shares and home rails made good recoveries in the afternoon. American securities opened steady and during the forenoon prices advanced a fraction on Illinois covering. Then New York selling caused a reaction but buying from the same source strengthened values in the late trading and made the closing steady.

MONTREAL PRODUCE MARKET.

(By Daily News Leased Wire.)

MONTREAL, Sept. 4.—Butter, fairly active and firm. Cheese, strong and active. Cheese, finest westerns, 14½@14¾; finest easterns, 13½@13¾. Butter, choicest creameries, 27@27½; seconds, 26@26½. Eggs, selected, 28@29. No. 2 stock, 19@23. Pork, heavy Canada short mess, barrels, 35@45; pieces, 27; short cut back, barrels, 50@55; pieces, 27.

MONTREAL MARKET DULL.

(By Daily News Leased Wire.)

MONTREAL, Sept. 4.—The afternoon market was dull and featureless. Richelieu and Power, the leaders of the past few sessions on the exchange, ruled steady although the former eased off a point to 111½ *before the bell rang.* Power's last sale was 228¼, a fraction above the morning close. Cement common was steady at 29. Bie figure of the earlier trading. Laurentide was easy at 204½. Canners was *firm at 63½. Soo* was softer at 149 on small buying. Tram debentures was dealt in at 85@85¼. Another lot of Quebec Railway bonds changed hands at 55, the low level mark of the issue.

MINING NEWS

CONSOLIDATED METAL OUTPUT IS HEAVY

During July the Consolidated Mining & Smelting company of Canada, Limited, received 24,783 tons of ore and smelted 26,095 tons. The gross value of the output for the month was $426,307.

SILVER HOARD MINE MAKES FIRST SHIPMENT

Force of Men to Be Doubled—Build *Trail to Hope Property Where* Ore is Ready.

(Special to The Daily News.)

AINSWORTH, B. C., Sept. 4.—Saturday last the Silver Hoard mine shipped its first car of ore. The mine is expected to continue on the shipping list for some time. There is sufficient ore in sight to ship a car regularly every week. This ore runs very high in silver and is being taken from the different levels in the lately discovered natural cave.

W. S. Hawley, manager of the property, left Saturday last for his home in Spokane. He is very enthusiastic about the mine. Another team of horses arrived on Thursday last to make a four horse team which is making daily trips, hauling ore from the Silver Hoard.

The road which is being constructed by the provincial government and F. R. Wolfle to the Hope mine, is nearing completion. A team of horses has arrived and will be used in hauling ore from the mine to the landing at Princess creek. This camp expects to be very busy this coming winter, as *it is understood that over 100 tons* of ore are ready for shipment at once Mr. Wolfe now has a large gang of men working at his mine, and expects to increase the force in the near future.

The Silver Hoard mine is asking tenders for the building of a larger cook house, to be erected immediately at the camp. On the completion of this work the force of miners will be doubled.

PUBLICITY BUREAU RECEIVES HIGH-GRADE COPPER ORE

Two large boxes of samples of ore from the Eureka copper mine on Forty-Nine creek, which was recently bonded by the British Columbia Copper company, have been received at the publicity bureau. Several varieties of ore, some of which are very high-grade, are represented by the specimens which will be displayed at the fruit fair and which will afterwards form a portion of the permanent ore exhibit at the bureau. In order to accomodate new specimens which are being secured additional cases have been constructed.

CECIL B. SMITH LEFT LARGE ESTATE

(By Daily News Leased Wire.)

TORONTO, Sept. 4.—The will of Cecil B. Smith, the electrical engineer who died recently, was probated today. He left over $126,000.

DR. CHOWN TO HEAD NEW METHODIST COLLEGE

(By Daily News Leased Wire.)

VANCOUVER, B. C., Sept. 4.—Rev. Dr. *Chown has been formally* named as the head of Ryerson, as the proposed Methodist college will be called.

DROWNED IN BATHTUB.

(By Daily News Leased Wire.)

WINNIPEG, Sept. 4.— Barney Roy, a *Winnipeg blacksmith,* was *drowned* tonight in the bathtub at his rooming house, 190 James street. It is believed that he fainted while in the water as when found an hour after he entered *the bathroom* his head was under water and he had been dead for some time. Roy was 25 years of age and unmarried.

BARRISTER DEAD.

(By Daily News Leased Wire.)

ST. JOHN, N.B., Sept. 4.—James Stratton, barrister, formerly of Saskatoon, died here tonight.

WHO GETS THE FRUIT?

A politician who has been in office and on the city pay roll for many years was addressing a meeting of his fellow citizens. It was a labor meeting.

"You men must know," he spouted, "that you are the great body politic in this city. You are the roots and the trunk of our great municipal tree, while we who represent you in office *are merely the branches on that mag*nificent tree."

"True for you," piped a man in the back of the hall; "but did ye ever notice all the fruit grows on the branches?"

SHRINES ARE IN ECLIPSE

Places Held Sacred by Chinese for Centuries Now in Oblivion—Young Republic Ruthless.

SHANGHAI, China, Sept. 4.—The destructive policy of young China today and the disregard of the Republican majority for things that have always been held sacred in the middle kingdom could scarcely be more clearly illustrated than in the latest request by the ministry of agriculture and forestry in Peking. This ministry has asked the permission of the cabinet to convert the Temple of Heaven into a model farm, the Temple of Agriculture into an experimental station and the Temple of Earth into a cattle breeding establishment.

During past centuries thousands of lives have been cut off in order to maintain the privacy of these three temples and innumerable imperial edicts have regulated the conduct of those officials who were from time to time *permitted* to enter the forbidden city. China has ever held sacred these temples and now those in power are removing every trace of the Manchu *regime and even temples that* were erected centuries prior to the advent of the late rulers in China.

Curio Hunters Everywhere.

Similarly all the art treasures in the country are going to Europe and America and, except for the porcelains laid away in the tombs of the emperors, every piece of value may be obtained if curio hunters can produce the necessary funds. At the moment there are *agents buying up all the old treasures* in almost every city of the land, whether the Republican government will later on, in the extremities in *which it will probably find itself* if it does not conclude the big loan with the six powers, sell the treasures from the tombs it is impossible to say, although for the sake of future generations it is sincerely to be hoped that they will be kept to form the nucleus of a national museum.

There is nothing in Peking to compare with the beauty of the Temple of Heaven. There are no terrifying images; everything is in harmony. The temple is a model of proportions and pleasing design, delicate yet massive, simple yet all sufficient. Its triple *roofs of deep blue, gold* flecked tiles rise from marble courtyards in the midst of silent glades that extend throughout a vast park. This temple has, by its former uses, *attained to a* place of supreme importance in the life of the nation. Here it was that the former emperors at stipulated times sacrificed to heaven, and at the winter solstice it was here that they rendered an account of the chief events of the year. Here the "Son of Heaven" did obeisance before "Heaven and his ancestors." As he lived in the hope of "mounting the dragon and ascending on high," so he must perform the strictest ritual without any personal considerations.

Receding Into Oblivion.

The president of the republic does not include sacredotalism in his functions, and the manner in which everything of this nature, which was always held to be vital to the national existence, has been quietly allowed to recede into oblivion, would suggest that *perhaps, after all these rites and cere*monies were nothing more than Manchu contrivances to overawe the nation. Certain it is that if this was *their object* they were very successful Now that they are gone the temples are becoming overgrown with weeds and provide a shelter for birds; and every possible contempt is being heaped upon these practices everywhere in China.

At no distant date we must consider carefully whether or not China is following the path of the Republicans of France after the revolution, though in a more general manner, and whether it is drifting into skepticism if not atheism. Whatever may be said against Confucianism and the teachings of Mencius, *there can be no doubt that* the doctrines of these sages did much towards keeping the nation together, and when they disappear from the *daily* walk in Chinese life, giving place to skepticism, this nation will demand the most serious attention from the great powers if it is to be saved from self-destruction.

Twenty Acres at Proctor

This farm comprises a block of land of the very choicest quality and we submit it as being first class in every respect.

The location is the very best, being situated on the south side of Kootenay lake, close to the lake shore, facing on government wagon road and being in the centre of a very prosperous settlement.

Partly improved and with a quantity of fruit trees planted, there is a water right with water laid on the farm.

We consider it good value at $200 per acre, but for quick sale it may be purchased for a total price of $3,000.00. Terms arranged.

We would be glad to submit full particulars and plans to any parties interested in securing a strictly first class farm with good location.

NELSON NEWS OF THE DAY

Rev. J. R. Munro of Greenwood is attending the meeting of the Presbytery here this week.

Mrs. Holbrooke of Nelson is making a two weeks' visit to her daughters at Salmon Arm, B.C.

Lewis & Birkbeck, the real estate brokers, will move from their offices on Baker street to the Green block on Sept. 15.

Nelson L.O.L., No. 1692, will meet in the K. of P. hall tomorrow night at 8 o'clock. J. W. Whitley, grand organizer, will be present.

The quarterly board meeting of the Kootenay diocesan branch of the Woman's auxiliary is to be held on Tuesday afternoon, Sept. 17, at 2:30 o'clock, at the residence of the president.

M. R. McQuarrie leaves this morning on a business trip to Grand Forks. Mr. McQuarrie will be out of town two or three days on business in connection with a large tract of land adjoining the Boundary capital.

At the residence of R. A. Bell, Taghum, B.C., *on Monday, Sept. 2, 1912*, by Rev. Fred H. Graham, rector of St. Saviour's church, Nelson, Robert John Cunningham of Winlaw, B.C., was married to Miss Phyllis Melita Bell.

Margaret Harrigan has written to The Daily News from Saranac Lake, N.Y., seeking information as to the whereabouts of her brother, Hugh J. Harrigan, who disappeared from Hope, B.C., on Jan. 4 last in company with another man who she declares gave the assumed name of Kelly. The missing man is a Roman Catholic and was born in Pendleton, Ont. His description is: Age, 36; weight, 140; height, 5 feet 10 inches; light blue eyes, dark brown curly hair, streaked with grey. She says he is addicted to the use of alcohol. When he *left Hope he is supposed to have had* in his possession $50, which was telegraphed him by his sister to pay his expenses home.

Ask or write for the Hudson's Bay company's grocery price list. 161-tf.

Miss Maud Fletcher will resume her *lessons in pianoforte on Sept. 8. 114-tf.*

Twenty-five cent dinner at the King George cafe, Hall street. Short orders a specialty. White cook. *108-6

Housecleaning. Under new management. Window cleaning, carpet cleaning, chimney cleaning. Estimates on housecleaning. *Agents for F. O. Berg's* awnings. Nelson Vacuum Cleaning Co., Stanley street, Phone 19, Box 166, M. Campbell, prop. *93-26

NOTICE.

$50 reward will be paid to anyone giving information leading to the conviction of any party or parties cutting up or taking away logs with the following brands: P. W. C. Wattsburg Lumber Co.

NOTICE.

All accounts owing to W. G. Thomson are requested to be paid by Sept. 10. 121-6

NOTICE.

A general meeting of the Oddfellows Building & Investment Co., Limited, will be held in the lodge room, Friday, Sept. 13th, at 8:30 p.m.
R. L. DOUGLASS,
122-8 Secretary.

AT THE THEATRES.

At the Starland this evening will be shown the interesting feature, "Votes for Women," in two reels. This feature comes as a distinct novelty, in which Dr. Anna Shaw and Miss Jane Adams and a score of other prominent suffragette *leaders of national prominence* actually play parts. By those who have seen this picture, "Votes for Women" is regarded as a very gripping and picturesque offering which will score an undoubted success. "The Making of Silver Plate" is an interesting industrial picture. "Up Against It" is an amusing story of a young man who suffers much agony of mind through being unable to *conceal a tear in his clothing. Finally* the tear is repaired by the girl whose heart he is bent on winning.

DANGER TO POTATO CROPS IN CANKER

Poster Warns Farmers Against Permitting Disease to Spread—Penalty for Concealing Outbreak.

"Potato Canker, Danger—Warning to *Potato Growers*—Prompt Action Only Will Avert Serious Damage—Concealment of an Outbreak of This Disease Severely Punishable by Law."

Above are some of the large type lines in the poster which has been issued by direction of Hon. Martin Burrell, federal minister of agriculture, calling the attention of potato growers to the importance of examining their crops to ascertain whether or not they are infected with "potato canker."

The hanger shows in natural colors a potato plant the whole yield of *which is affected by the disease.* It also shows the appearance of individual tubers in which the canker has started to work. Growers who discover suspicious symptoms of the disease in their crop are requested to send affected specimens to the Dominion botanist, experimental farm, Ottawa.

THIRTEEN YEARS

Unlucky Number for Dakota Woman.

The question whether the number "13" is really more unlucky than any other number has never been entirely settled.

A So. Dakota woman after thirteen years of misery from drinking coffee, found a way to break the "unlucky spell." Tea is just as injurious as coffee because it contains caffeine, the drug in coffee. She writes:

"For thirteen years I have been a nervous wreck from drinking coffee. My liver, stomach, heart—in fact, my whole system being actually poisoned by it.

"Last year I was confined to my bed for six months. Finally it dawned on me that coffee caused the trouble. Then I began using Postum instead of coffee, but with little faith, as my mind was in such a condition that I hardly knew what to do next.

"Extreme nervousness and failing eyesight caused me to lose all courage. In about two weeks after I quit coffee and began to use Postum, I was able to read and my head felt clear. I am improving all the time and I will be a strong, well woman yet.

"I have fooled more than one person with a delicious cup of Postum. Mrs. S. wanted to know where I bought my fine coffee. I told her my grocer had it and when she found out it was Postum she has *used it ever since*, and her nerves are building up fine.

"My brain is strong, my nerves steady, my appetite good, and best of all, I enjoy such sound pleasant sleep." Name given by Canadian Postum Co., Windsor, Ont. Get the little book in pkg., "The Road to Wellville." "There's a *Reason*."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

SHIRLEY RESIDENTS HOLD SUCCESSFUL CONCERT

Despite the condition of the weather the social held for the purpose of raising *funds for the enlargement of the* Shirley hall at the residence of A. G. Shaw, was in every respect a huge success. Mr. Devine occupied the chair, and in a few fitting words mentioned the cause of the gathering and extended hearty thanks to the friends who so kindly assisted, to the business men of Nelson, and also to Mr. and Mrs. Shaw, who had thrown open their home to the visitors. The program was:

Piano and banjo duet—Messrs. Openshaw and Cunningham.
Solo, "It's Great to be a Soldier"—D. Cunningham.
Stump speech—E. Openshaw.
Solo, "Eilleen Allana"—Mrs. Irvine.
Duet—Messrs. Smith and Richards.
Duet—Messrs. Menzies and Cunningham.
Sermon parody, "Old Mother Hubbard"—Mr. Irvine.
Solo, "Alice Where Art Thou?"—Mr. Smith.
Swede song, "Afraid to go Home in the Dark," "Big Night Tonight"—A. Renmark.
Solo, "Skippers of St. Ives"—F. Wilson.
Violin and piano duet—Messrs. Renmark and Cunningham.
Solo, "Not in Vain"—Mr. Openshaw.
Recitation—Mr. Fosberg.
Quartet, "Drink To Me Only With Thine Eyes."
Solo, "The Old Rustic Bridge by the Mill"—Mr. Menzies.
Character sketch, "Reuben and Rachel"—Messrs. Clark and Wilson.
"The Gold Dust Shovelers"—Mrs. Devine and Denmark.

The accompanists were Mrs. Logie, Mr. and Mrs. Renmark and Mr. Cunningham.

SHIP TAKEN BY GANG OF PIRATES

Bosses Would Have Turned to Roosevelt if He Held Out Finger, He Says.

(By Daily News Leased Wire.)
OTTUMWA, Iowa, Sept. 4.—If he had made terms with the bosses at the republican convention, Col. Roosevelt said today, they would have turned to him with the presidential nomination. Speaking at Mount Zion, the colonel said: "Our opponents did not steal the nomination from me at Chicago last June. They stole it from you. They do not like me, but it is you they are really afraid of and they opposed me because they believed I really represented you. If I had been content at any moment to stop representing you, the bosses would have turned to me with a whoop of delight. All I would have had to do would have been to stretch out my little finger and they would have come to me if I had stopped representing you. I want to say a word to those republicans who are in doubt as to what position they ought to take. I occasionally run across republicans who say they don't want to desert the old ship. I say to them that when a gang of pirates take possession of the ship they have got to fight. You cannot be true to the memory of Lincoln except by refusing to go with the Barnes and Penroses who have scuttled the Lincoln ship."

Col. Roosevelt's day tour through Iowa was in blistering heat. The warmth was of benefit to his throat which was irritated by speaking in the open on cold days in New England. Much of his speeches were made in small towns. The farmers drove from miles around to hear him and his audiences were large. On receiving returns from Vermont, Col. Roosevelt said he was pleased with the progressive vote.

Turn to Wilson.
(Western Associated Press.)
DES MOINES, Iowa, Sept. 4.—The reactionaries of both parties are turning to Woodrow Wilson, Col. Roosevelt said, in speaking here today before the political state convention of Iowa. The standpatters of both parties are now turning to Mr. Wilson, he said. "Those in the republican party are convinced that President Taft is beaten and are for the democratic candidate to beat the progressives. It is anything to beat us."

Col. Roosevelt received a demonstration when he reached Des Moines. The streets were lined with shouting crowds and when he reached the convention hall he was cheered for several minutes.

GOOSE HUNTERS MISSING

(By Daily News Leased Wire.)
EDINBURGH, Sept. 4.—Ten fishermen in sail boats left here in fine weather three weeks ago for goose shooting off Sniliskeir islet, 36 miles distant. A landing could only be effected at high tide, and on the first night a northeaster arose. Since then nothing has been heard of them. Torpedo boats were sent out, but after circling the neighboring isles they were unable to find any trace of the fishermen.

PUNCH AND THE CANAL

(By Daily News Leased Wire.)
LONDON, Sept. 4.—Punch this week has a cartoon on the Panama canal situation. Mr. Taft is standing over an open carpet bag of "election baits," from which he has taken out a roll labeled "Repudiation of treaty." He is saying to America: "Here, swallow this." America, typified by the bird of freedom, which is flapping its wings with indignation, responds: "Thanks, I'm an eagle. I'm not a vulture."

THREE SOLDIERS FALL TO DEATH FROM AIRSHIPS

(By Daily News Leased Wire.)
BUDA PEST, Sept. 4.—Three soldiers were instantly killed by a fall from an airship which was engaged in military maneuvers. The airship was being prepared for an ascent and was held down by more than 100 soldiers. A heavy wind prevailed at the time and a sudden gust carried the airship away. It rose rapidly and all the men released the ropes but three. They held on until exhausted and fell, one after the other.

PLURAL WIVES ONLY REMEDY

Will Stop Falling Birth Rate and Decadence of Nations.

BERLIN, Sept. 4.—The German newspapers are making the most sarcastic *fun of the Mittgar society*, which has been holding a congress at Jena. After a very long powwow they came to the conclusion that the only remedy for the falling birth rate and general decadence of nations was plural wives. The members of the society justified their position by the ancient laws and usages, as well as by the Bible. The Mittgars do not advocate general polygamy, but are in favor of it when restricted to men and women who are picked for their mental and physical strength.

The society considers the great cities the poison centres of modern civilization, where humanity is devoured and destroyed, and proposes to establish colonies where the right men will have several right kind of wives far from the cities, where they can bring up a race that will not be touched by the poison of civilization. These spots are to become "regeneration cradles," and serve as "power reservers" for the regeneration of nations."

NEW WHEAT ARRIVES.

(By Daily News Leased Wire.)
WINNIPEG, Sept. 4.—Arrivals of new wheat were six cars winter and four spring wheat. Of the spring wheat two cars were No. 1 Northern, one car No. 3 Northern and one car N. G. No. 2 Northern, tough. Last year's receipts were 123 cars for the same day of which 39 graded No. 1 Northern and one car was winter wheat.

Opening of Autumn Millinery

Wednesday and the Following Days of the Week the Hudson's Bay Company Cordially Invite All Women of Nelson and the Vicinity to Attend the Exhibition of New Modes

WEDNESDAY starts our New Fall Millinery opening and continues until the end of the week. Here you will see a tremendous variety of different shapes and styles, from the simplest of stiff tailored hats to the fluffiest and daintiest of dress hats; all are in a wide profusion of loveliness. The styles are appropriate for all occasions, receptions, theatres, street wear, etc. The finest French collections will be seen in the models from Madam Germaine, Esther Meyer, Georgette and Marie Louise.

Our Mrs. Carpenter has just returned from her visit to Chicago, New York, Boston, Montreal and Toronto where she attended the Millinery Openings of the leading houses and personally selected the hats which we now offer.

A brief survey of the styles that will reign this year does not give the preference to either large or small hats, but small ones are being worn mostly for street wear while the larger ones are worn for teas and afternoon wear. Almost every color is being shown, copper, gold, black and white is being used very extensively, *while fuchsia is undoubtedly the favorite.*

Come and See Them--You Will Be More Than Delighted

There are hats of every description, from plain tailored styles to the latest French pattern hats, fashioned in velvets, plush, moire, beaver, velour and French felts. WE HAVE DESIGNS TO SUIT EVERY FACE and you will find a complete selection of the daintiest accessories in shadow veils, scarfs, feathers, ornaments and millinery findings.

We have secured the services of Miss Miller from Boston, who has had several years' experience with the *best houses in that city, to attend to the TRIMMING, ALTERING AND MAKING OVER OF HATS.*

Special Showing of New Fall Suits and Coats

Models of unusual style, fashionable materials and of unquestionable quality. You are urged to see them while they are fresh and new. Many shown now will not be duplicated as the season advances. Following are a few descriptions:

Splendid Suit
in black and navy imperial serge, well tailored and perfectly cut in 32-inch length coat, long narrow revers, finished with white satin vest piping, fastened through four buttons. High waisted skirt, panels back and front ending in pleats. Extraordinary value at **$15.00**

Striped Hopsack Suit
Semi-fitting coat with square fronts, tailored collar and sleeve, breast pocket fastened with four fancy buttons, girdle skirt cut in six gored style with overlaid seams; lined satin. In shades of brown, Copenhagen, mole, navy and black and white. Price only **$17.50**

Useful Suit
In semi-tailored style, sleeves and rever trimmed, plain cloth and small fancy buttons, skirt carried out in similar style, with small pleats at side. This suit is fashioned from heather mixed tweeds in rich shades of reseda, moss, brown and grey. Lined satin. Price only **$25.00**

Blanket Cloth Coat
With reversible revers, cuffs and patch pockets. Self buttons and piped button-holes are used for trimming, with three large fancy buttons for fastening. In useful colorings of browns, grays, greens, blues, etc. Our *Special Leader* at **$10.50**

Splendid Wrap
in light weight blanket cloth, sacque shape, with *shawl collar and large revers* of contrasting shades finished with wide band of self color, buttoned through with fancy buttons; similar effect carried out on cuffs and patch pockets. Price only **$15.00**

Elegant Coat
in brown Chinchella cloth, with fawn for the reverse side, showing on large collar and cuffs brown fringe outlines the collar and revers and is seen on the hem of coat. Other shades are navy, green and grey. Price only **$25.00**

The Hudson's Bay Company

Incorporated 1670 Incorporated 1670

NELSON NEWS OF THE DAY

James Marshall of Phoenix is a guest at the Hume.

H. A. P. Glossop of Rock Creek is at the Strathcona.

E. R. Vipond, the Nakusp lumberman, is at the Madden.

G. Wallace of Boswell is registered at the Grand Central.

A. W. Robinson of Winnipeg is in the city and is staying at the Hume.

Aberdeen hive No. 12 Ladies of Maccabees will meet this evening at 8 o'clock.

R. J. Long, divisional fire warden, came in last night from Creston and is at the Queens.

Capt. Parber of London, England, came in on the coast train last night and is at the Strathcona.

T. E. Levasseur, manager of Swift's Canadian company, returned last night from a visit to the east.

Mrs. R. L. Douglass will continue her canvass for exhibits for the Nelson Fruit Fair in Fairview today.

There will be a sale of home cooking and candy on Saturday afternoon in aid of the organ fund of the Presbyterian church.

Miss Mellish and J. R. Edmondson were visitors to the city from Balfour yesterday and registered at the Strathcona.

R. W. Mifflin of Salmo was married here yesterday to Miss Shrum of Ymir. The newly married couple are guests at the Hume.

The investigation into the Doukhobor society which is being conducted by William Blakemore of Victoria was continued today at Brilliant.

An enjoyable social evening was spent last night at the residence of Mr. and Mrs. C. W. King by the Ladies Nephetos Bible class of the Baptist church.

Preliminary work in connection with the installation of the new lighting system on Baker and Ward streets will be commenced within the next few days.

Proof that beautiful peaches are being grown near Keremeos is given by a sample of fruit received by The Daily News from the ranch of O. H. Karl in that district.

J. J. Roots, recently sentenced to two years in jail and 36 lashes by Judge Forin for a serious offence against young children, was yesterday in the provincial police court committed for trial by Adl. P. J. Gleazer, J.P., on a similar charge.

The Young People's union of the Baptist church will unite its meeting tonight with the midweek meeting at 8 o'clock. Addresses will be given by Messrs. Crawford and Pauley on "The W. S. J. of Every Young People's Society."

Mr. and Mrs. R. S. Lennie and Miss Eunice Bowser of Vancouver, and Mr. and Mrs. C. E. Burdick of Victoria, who have been guests at the Strathcona, left yesterday for Balfour where they will visit the Kootenay lake tourist hotel before returning to the coast via Sookane.

There will be a meeting on Saturday afternoon at 3 o'clock of those interested in the young women's residential club for the purpose of appointing a committee of management. The meeting will be held in the club rooms on Carbonate street, opposite the public school. Mrs. E. S. Logie is anxious to receive donations of furniture and furnishings from ladies of the city in order that the club may be ready for occupation as soon as possible. Several of the rooms in the club have been engaged and for the others Mrs. Logie would like to receive applications.

See Kerr's new $100,000 apartment block for furnished and unfurnished suites. Prices reasonable. *92-26

Wilkinson's orchestra will play at the Hudson Bay stores today from 2:30 to 6 p. m., in the millinery show rooms.

CHARMING HATS DELIGHT MANY

Crowds Attend Fall Millinery Opening at Hudson's Bay Store—Models Are Striking.

The fall millinery opening at the Hudson's Bay Company's store yesterday attracted a great number of visitors throughout the day. Perhaps never before in the history of millinery art in Nelson has such an exquisite variety of models been displayed as those exhibited here. Particularly alluring is the dainty touch of the imported Parisian productions. Chief among these are models by Julia Meyer, Reboux and Pourjanne. The first, a charming hast, simple in design, yet luxurious both in quality of material and coloring, is a black plush drop shape, with two fancy shot wings at each side finished with ribbon and fancy jet and gold ornaments. Another exceedingly handsome hat is a model by Meyer in grey pressed beaver edged with grey chenille, under brim of fuchsia plush, trimmed with fancy aigrette of grey and fuchsia on curled ostrich, finished around the crown with chenille and moire ribbon. The model by Reboux is very striking. The shape is made of brown hatters plush, trimmed with brown marabow, gold lace, pheasant feathers on edge of brim fastened with a fancy lace and gold ornament. Another exquisite creation which attracted much attention is the model by Pourjanne, made up with grey hatter's plush with gold under brim, trimmed with fancy grey shot wing and moire ribbon.

In fact the whole floor is a panorama of beautiful coloring, presenting a picture of style and newness. It would seem as if ingenuity, cleverness, art and the picturesque effects of ages past as well as the clever modern experts had been called upon to contribute to the charming productions.

Exigencies of space precluded but a very small portion of the new fall arrivals being displayed in the window and although a general idea may be formed from the models here shown, intending purchasers will find among the larger variety in the show room something to satisfy even the most fastidious tastes.

Throughout the afternoon Wilkinson's orchestra supplied incidental music which enhanced the pleasure of the visitors. The orchestra will be in attendance again this afternoon.

Fred Irvine & Co. have not definitely decided on which day they will hold their opening for fall millinery, but in all probability it will be about the middle of this month.

Meagher & Co. expect to be ready for their fall opening of millinery some time next week.

BURTON CITY NEEDS DOCTOR

Government to Be Asked for Grant—East Arrow Park Fruit Fair Great Success.

(Special to The Daily News.)

BURTON, B. C., Sept. 4.—A meeting of the Burton Improvement society, was held last Saturday, S. Walker in the chair, supported by L. Porter, secretary. Correspondence was read relating to having a doctor here, and it was decided to await the arrival of a doctor, who is expected in the course of a few days, to look over the district with a view of settling here. The government is to be asked to give a grant of money toward this object.

Great credit is due to L. Porter, the secretary, for the trouble and time he has expended, visiting all parts of the lake, getting subscriptions and promises of help toward this worthy object. His efforts have been met with unqualified success.

The fruit fair held at East Arrow park was a great success. It attracted many visitors from here. Among the prize winners for fruit were J. H. McCormick, E. Hubert, P. Shea and S. Hall. A. A. Burton easily took first honors with his splendid turnips and mangolds. The directors of the fair are to be congratulated on the splendid show.

The visit of the business men of Revelstoke last week proved quite a success and they were much impressed by the large improvements that had taken place since their previous visit of twelve months ago.

Some beautiful samples of peaches have been seen in the local store grown by S. Walker.

A meeting of the Women's Institute took place last week at which officers were elected and a program was drawn up to the end of the year. Mrs. C. Marshall was chosen president, Miss McDevitt, vice president and Mrs. R. Islip, secretary treasurer.

The first social meeting of the institute was held at the home of Mrs. Pearce, where demonstrations on preserving were given by Mrs. McCormack. The institution should prove a decided success as it will be the means of bringing together the ladies of the district to enjoy an instructive as well as a social afternoon once a month.

The subscription list opened on behalf of Mon. Cherot, who was unfortunate enough to break his leg, has reached over $100, which speaks highly of the generosity of the people of Burton. Mon. Caillott made the collection.

Mrs. R. L. Jane has returned from visiting her parents at Calgary.

Mrs. Robt. Sanderson returned last week from Seattle.

Robt Stevens left on Sunday for a business trip to Grand Forks and Boundary points.

Mrs. Austin of Nakusp is visiting her sister, Mrs. Lane.

DUKE TALKS WITH EVERY VETERAN

Meets Many at Edmonton Who Have Fought for Empire—Reviews Cadets, Boy Scouts.

(By Daily News Leased Wire.)

EDMONTON, Sept. 4.—To make amends for yesterday's downpour the sun shone upon the second day of their royal highness' visit to Alberta's capital. The duke, in accordance with his wont, was out bright and early for a constitutional in the neighborhood of the royal train. The condition of the road outside the city as the result of yesterday's deluge made it necessary to abandon the intended motor boat run out to St. Albert, which is surrounded by an interesting old district of French settlers and where Father Leduc, who has been in this country 46 years, and with whom the duke had quite a long chat after the state dinner last night, is located. By way of compensation the royal party was taken for a couple of hours' drive around town.

This afternoon the duke reviewed the veterans, of whom there were more than 200 lined up, with the cadets and the Boy Scouts. He talked with every one of the veterans, as he always does, and was greatly pleased to find among them a former member of the Scots Greys, the regiment in which Prince Arthur of Connaught is an officer. The cadets and Boy Scouts made a fine appearance and as the duke, who was accompanied by the duchess and the princess, departed from the platform before the court house, one small Boy Scout called out for three cheers for Princess Patricia, which were given again and again. The duke expressed his pleasure in the splendid showing made by the veterans, cadets and Boy Scouts and especially in having met so many veterans who had served in such widely scattered portions of the empire.

At 4 o'clock the duchess and Princess Patricia went to the residence of Premier Sifton for a reception by the Women's Canadian club. This evening the legislative buildings are again brilliantly illuminated.

At the close of the reception, the royal party had supper in the speaker's chamber with Mayor Armstrong, Mrs. Armstrong, Lieutenant-Governor Bulyea and Mrs. Bulyea, Premier and Mrs. Sifton, W. R. Baker and others.

RAISE FUNDS FOR FERNIE AMBULANCE

(Special to The Daily News.)

FERNIE, B. C., Sept. 4.—Col McKay reports receipts of more than $350 from the concert given for the purpose of raising funds for the purchase of an ambulance for emergency cases. The concert was given under the auspices of the Fernie Veterans' association.

The colonel also reports the receipts of an unsolicited donation of $100 in cash from one of the largest corporations in the country. The purchase of the ambulance is thus assured, but further efforts will have to be made to secure the remaining portion of the necessary funds.

Rain has been the prevailing element in the weather for the past week, and snow has fallen on the tops of the mountains, but up to date no damaging frosts have occurred.

WORKMEN TO CONTEST PROPOSED INCREASED RATES

(By Daily News Leased Wire.)

GUELPH, Ont., Sept. 4.—Dissenting members of the Order of United Workmen at a district meeting held today, decided to proceed with a legal action to prevent the grand lodge from putting into force on Oct. 1 the new and greatly increased rates adopted at the last meeting of the grand lodge. An injunction will be sought and the case will be fought to a finish. A fund for expenses was pledged by the representatives present. Grand Master James McEwin, ex-M. P. P., and several members friendly to the grand lodge's attitude asked for admission to the meeting but were excluded.

I Fit Eyes
with glasses that will correct any form of defective vision. Don't be afraid of looking conspicious; thick, heavy glasses are not necessary to the short sight. I can remedy your trouble with neat looking glasses that will be comfortable and in a short time hardly be noticeable.
CONSULTATION FREE.
