THREE BLAZES FIREBUG'S WORK

uriosity Shop Gutted--Business Blocks Menaced

JOHN BRADSHAW UNDER ARREST

utbreak Under Milling Company's Warehouse Burned Out

Three fires, one of which gutted the d Curiosity Shop, while another maged the buildings on Baker street wned by Mrs. Thomson of Vancouver d C. F. McHardy of Nelson, were arted early yesterday morning by e firebug, believed by the police to John Bradshaw. The third outeak was in the Taylor Milling & evator company's warehouse and arned itself out without being disvered until yesterday afternoon, hen a hole in the floor of the buildg and a heap of kindling used to art the blaze were found.

The man under arrest, Bradshaw, as held by the police on suspicion ter the series of incendiary fires last ummer. He is now in jail awaiting a earing on an information laid by hn T. Black, chief provincial conable, who charges him with starting he fire which damaged the two Baker reet blocks yesterday morning.

Curiosity Shop First.

The first outbreak was at 4:10 yesrday morning at the Old Curiosity hop and when the brigade reached he scene flames were issuing from a mall lean-to building at the rear, unr which the firebug started the fire. wo loud explosions, heard by A. Lapointe of the Queen's hotel and others, ad to the view that some explosive aterial such as oil was used.

The brigade worked with a view to onfining the fire to the outside of the uilding but the flames crept up under he eves and then, fanned by the raught, made rapid headway under he roof. Holes had to be cut to let the streams of water and for nearly wo hours the brigade fought the blaze nd succeeded in obtaining control efore it reached much of the $9,000 ock in the building.

Second Alarm Calls Brigade.

Hardly was the Old Curiosity Shop re in hand when a second alarm alled the brigade to a fire which had en started between the buildings wned by Mr. McHardy and Mrs. homson. Investigation showed that set this fire the incendiary had ept under the buildings from the ar, apparently selecting a point beween the blocks in order that the fire ight be fanned and driven upward by e draught. The alarm for this outreak was received a few minutes fter 6 o'clock and as the brigade had fficient hose on the rigs to provide r two streams no time was lost in eaching the scene.

The flames were then creeping up etween the two buildings, and in a w minutes had found their way unr the roof over the offices occupied D. St. Denis and A. L. McCulloch the west and the upper story of ave Small's men's furnishings store the east. Under the offices of essrs. St. Denis and McCulloch in e Thomson building it was necessary cut through the wall of E. B. Mcermid's office in order to reach the ames which came from beneath.

Threatens Hotel.

The brigade's sternest fight with e flames was in the McHardy buildg, where the fire burned fiercely er Mr. Small's store and even ossed to the Nelson hotel, where a emical applied at a critical moment revented any danger.

It was difficult for the brigade to et at the fire owing to the fact that was chiefly in the cockloft of the uildings and it was constantly necesary for the hose to be moved from lace to place to catch the flames as ey licked along the woodwork in most every direction.

That the blaze did not spread to the osely adjoining frame buildings is garded by the owners of the propty and the tenants as being a strong ibute to the work of the fire briade.

The Damage.

The Old Curiosity Shop building was owned by Thomas Sargent. The damage is estimated at about $2,500, with insurance of $1,000. The stock, owned by the Standard Furniture company, was damaged chiefly by water and smoke, although in the north side of the store the flames reached some furniture and other goods. The damage to the stock, which is insured for $4,000, is estimated at about $5,000.

The loss in the McHardy block was: Building, about $2,000, with insurance of $1,600 in the Canadian Fire Insurance company, for which E. B. McDermid is the agent; Dave Small stock, from $4,000 to $5,000, insurance $3,000.

The damage to the Thomson building was several hundred dollars and the tenants, E. B. McDermid, D. St. Denis, A. L. McCulloch and Popoff & Crofts suffered practically no loss, as the fire was prevented from actually entering the building.

The work of the fire brigade was very strongly commended by W. A. Ward of the Nelson hotel, Dave Small, D. St. Denis and others in the damaged and adjoining buildings.

INQUIRE INTO TRADE RESOURCES OF COLONIES

(Canadian Associated Press.)

LONDON, April 12—Several questions will be put to Rt. Hon. Lewis Harcourt during the course of the next week regarding the preferential agreement between the West Indies and Canada. Sir George Parker is to ask whether the government has the legislative federation of the West Indian islands under consideration. He will also suggest the appointment of a separate empire trade commission to inquire into the resources, trade and commerce of the whole of the crown colonies.

TO PLACE MILITIA ON STRONGER BASIS

Duke of Connaught Has Welfare of Dominion Forces at Heart—Reorganization Scheme

(By Daily News Leased Wire.)

OTTAWA, April 12—It is said that his royal highness the Duke of Connaught intends to try and assist the militia department of Canada with some sum for placing the militia forces of the Dominion upon what he considers a stronger foundation. The governor general is vastly interested in military matters, has these concerns ever at heart, and has a laudable desire to see the Dominion forces upon a basis of general improvement. It is the intention of his royal highness unless something intervenes to assist in a scheme of reorganization next November. There is much speculation as to what the result will be. The minister of militia is likely to lend a ready ear to some scheme of organization, particularly if his royal highness shows his interest, and the recommendations of Gen. French come into more prominence in the fall.

TRAIN SMASH IS CAUSED BY FOG

Two Are Dead and One Injured as Result of Collision Between Freight Trains

(By Daily News Leased Wire.)

PORT HOPE, Ont., April 12—In a dense fog at about 4:30 this morning a heavy double head eastbound Grand Trunk freight train crashed into the rear end of another freight at Port Hope. Fireman Shaw of Mimico was instantly killed. Ernest J. Reid of 52 Springhurst street, Toronto, who was in the caboose of the first train, received serious injuries, including a compound fracture of the left thigh, which necessitated amputation. He was taken to the Cobourg hospital and later died. Eugene McNamara received severe injuries about the head, face and arms, but will recover. The freight train had stopped at the station for orders and the second freight crashed into the rear. The two engines of the second freight telescoped and were completely demolished, and five cars behind were likewise destroyed.

BROTHER AND SISTER ARE GRANTED DIVORCE

(By Daily News Leased Wire.)

CINCINNATI, April 12.—A strange story which resulted in John P. Ruch, Jr., aged 22 years, being divirced from his half sister, Helen Hoffman Ruch, 24, was related in the insolvency court here today. The brother and sister were married October 25, 1910, neither at the time knowing of the blood relationship between them. The discovery of the relationship was made a few weeks ago and the action for divorce followed.

It was explained to the court that the mistake had been possible because of the fact that the mother for a private reason, had kept from the children the fact that they were brother and sister, allowing them to believe that the girl was only an adopted child. The husband was given the custory of the two children.

WAITER KNEW BEATTIE NESBITT

Served Scotch and Soda at Albany Club

HAD SPENT PAST YEAR IN CHICAGO

Charged With Forgery and Making False Reports--Is Remanded

(By Daily News Leased Wire.)

CHICAGO, April 12.—Late in the afternoon Dr. Beattie Nesbitt, who was arrested here yesterday on a charge of forgery in Canada, in connection with the defunct Farmers' bank, was taken before United States Commissioner Foote. His case was continued to April 26 and he was ordered to be held without bail pending the arrival of the necessary papers from Canada to warrant his extradition. His attorneys conferred with him in the office of the United States marshal while he was waiting to be taken to the county jail.

A waiter took credit for the arrest of Dr. Nesbitt. Joseph Sadeco, employed in a restaurant at 840 East Sixty-third street, declares he recognized the physician and banker when he came there to eat and then notified the police of Toronto. During the day the police searched the city for a pretty blonde woman with whom the banker had been in the habit of taking his meals. The flat, in the vicinity of East Sixty-third street and Lexington avenue, where the physician was arrested, was also closely watched.

"I knew Nesbitt in Toronto, where I worked as a waiter at the Albany club for four years," said Sadeco, in telling of his part in the capture. "I used to get his Scotch and soda for him daily. In those days he did not wear a beard. Two weeks ago I was in the restaurant which my brother keeps when Nesbitt came in. I knew him at once in spite of his beard. He came in several times and I was positive. Then I wrote to the police in Toronto."

The former banker's attorneys, W. K. Pattison and William H. Holly, would not state what their course of action would be, but it is thought that Nesbitt will fight all attempts to extradite him.

Nesbitt at first denied his identity. A number of Toronto school teachers attending a convention here positively identified him, however, and later his attorneys gave out a statement admitting him to be the former Canadian banker, but denying he was guilty of any offence.

Attorney Pattison caused surprise by declaring that to his own knowledge Nesbitt had been in Chicago more than a year and frequently had dined with him at a downtown hotel.

"The president of a bank in Canada merely is a nominal figure," said Mr. Pattison. "The cashier and other officers have most of the power. The charge of forgery is not extraditable in any event. Mr. Nesbitt moreover, did not forge anything. He merely signed a false statement which resulted in the wrecking of the bank."

The charges against Nesbitt made known today are, making false returns to the government of Sanada under the banking laws of 1907; conspiring to exchange certificates from the treasury board under the banking laws; conspiring to steal $300,000 by means of forgery.

The hearing before Commissioner Foote was on a warrant charging Nesbitt with forgery under the "banking laws and with making false reports to the Canadian minister of finance." The warrant was issued at the request of Chicago detectives acting under authority from the Canadian government.

Nesbitt refused to talk except to say that he would plead not guilty and that the charge was a monstrous mistake. According to persons who knew him in Toronto, his appearance is greatly changed.

WILL RAID WEST FOR MERCHANTABLE ORE

WASHINGTON, April 12.—A prophesy that the ores held by the United States Steel corporation would be exhausted within 25 years and that the natural resources of the far west would be raided was made today before the house steel trust investigating committee by Joseph Sellwood, an ore expert, who says he had scoured the North American continent in search of merchantable ore.

Mr. Sellwood told the committee that in Utah there were known to be today 1,000,000,000 tons of merchantable ore. This ore can be used to make steel just as well as any other ore, but it is not near coke or coal or fluxing material, he said.

DECLARE OCEANA WAS RESPONSIBLE FOR COLLISION

HAMBURG, April 12.—The German naval court decided today that the liner Oceana was responsible for the collision with the German vessel, Pasaga, in the English channel, on March 16, when seven passengers lost their lives. The collision was attributed by the court to the careless watch kept on board the Oceana.

POWERS OFFER MEDIATION

(By Daily News Leased Wire.)

ST. PETERSBURG, April 12—It is officially announced that the powers today made proposals of mediation to Constantinople with a view to bringing an end to the war between Turkey and Italy in Tripoli.

PROVINCIAL POLICE TO SCENE

(By Daily News Leased Wire.)

Provincial Constables Wightman, Gunn and Sutherland left yesterday morning for Lytton in order to strengthen the forces of law and order in the Canadian Northern strike area.

WILL ELABORATE TARIFF POLICY

Government Likely to Revise Tariff Without Waiting for Appointment of Commission

(By Daily News Leased Wire.)

OTTAWA, April 12—The Ottawa Citizen discussing the situation which has arisen out of the death of the government's bill to create a tariff commission says:

"Gossip in political circles is to the effect that the government may not bring in next session a bill to establish a tariff commission.

"The course to be taken, however, is not definitely determined yet. The senate killed the bill this year and the Liberals will be in a majority in the upper house for some years yet, according to present prospects. As a consequence, the assumption that the bill next session would meet a similar fate is regarded as reasonable. Since the government came in there has been much correspondence and many representations on the tariff but all these matters were deferred pending the creation of the commission with its investigating functions. As the bill has failed to pass, however, the government itself may revise the tariff as there have been persistent claims of inequality in the present schedules. The West Indian agreement is concluded, negotiations with Australia are in progress and before next session the government will probably elaborate a general policy respecting the tariff in general."

ENGLISH ENGINEERS TO VISIT CANADA

Engineers and Students Will Visit Canada and United States—Financial Experts Aiso

(By Daily News Leased Wire.)

LONDON, April 12—A party of engineers and engineering students from the universities, polytechnics and great works throughout the country is leaving England on April 19 on a tour of the United States and Canada. Landing at Quebec, they will cross the continent to Vancouver, seeing and studying all that there is to be seen on the way. They will then make their way through Washington, Oregon and California, will visit all the chief attractions of the southwest and return east through Colorado and the middle west, ending the tour with visits to New York, Washington and Boston.

The bridges, railways, tunnels, steel works, breweries and latest buildings will receive attention from the engineers, while other experts will examine financial and banking arrangements.

AMERICA PROTESTS AGAINST AGREEMENT

Says Agreement Between Canada and West Indies Will Materially Decrease Export Sales

(By Daily News Leased Wire.)

CHICAGO, Ills., April 12—Proposed preferential duties between Canada and the West Indies on flour caused the board of directors of the Millers' National Federation in session here today to appoint a committee which will make an appeal to the state department at Washington to take action seeking to prevent the approval of the agreement. A. L. Goetzmann, secretary of the federation, read a report setting forth that the preferential duty would materially decrease the export sales of United States flour to the West Indies.

TRAIN PLOUGHED INTO ROCKSLIDE

Engine Plunged Down Bank—Fireman and Engineer Instantly Killed—Details of Wreck

(Special to The Daily News.)

VANCOUVER, B.C., April 12—A letter from Col. Gaskin of the Salvation army, who was on the train wrecked yesterday morning near Savona gives details of the wreck not sent in by wire. The train was running about an hour and a quarter late and plowed into a rockslide which had crossed and covered the track immediately around the curve which shut it out from the engineer's view. The engine went off the rails but remained on the track for about 40 feet, cutting the sleepers in two, then plunged down the bank. Three cars followed the engine, the day coach, tourist, diner and all the Pullman coaches remaining on the track. Some of the passengers received minor injuries.

Death apparently came instantaneously to the fireman and engineer, the only victims of the wreck.

URGES NEED FOR NATIONAL IDEAL

Prosperity Has Its Dangers, Says H. H. Stevens

QUEBEC NOT AGAINST NAVY CONTRIBUTION

Representation On Imperial Board of Defense Meets French Canadian Wishes

With all her magnificent natural resources, her growing industries, her wealth and prosperity, Canada yet lacks the greatest factor in the upbuilding of a nation, and that factor is a common ideal, the spirit of justice and liberty, declared H. H. Stevens, M.P. for Vancouver, in an address before the Canadian club at the Strathcona hotel last evening. The subject of Mr. Stevens' address was "The necessity in the Dominion of Canada today for a national ideal.'

No one conversant with the greatness and grandeur of Canada could fail to be impressed with the magnitude of her possibilities and the greatness of her future, said Mr. Stevens. From the Atlantic to the Pacific the Dominion was teeming with possibilities unequalled anywhere on the globe in a country of Canada's compactness.

"During the past few years we have begun to discover Canada,' he said. Great areas of land were being opened up in the prairies which were destined to be the granary of the world, while in the east Ontario and Quebec were being developed into a manufacturing territory, which he compared to the New England states. Waterpowers, under rapid development already, indicated the immense possibilities of these two provinces while in British Columbia was the mineral wealth, fruit growing, fisheries and above all the timber resources—182,000,000 acres of timber, the greater part of which was merchantable. British Columbia, he declared, had the greatest compact area of timber in the world.

Factors in Development.

As factors in the development of Canada he named education and immigration, describing the latter as a problem of very prime importance. The conservation of natural resources was another important factor, while the manufacturing industry was steadily growing.

"We have these factors and yet lack the most important factor, a national ideal," he averred. "If we are not enthused with a common ideal, we lack, after all, the greatest factor."

Nations were very much like individuals. A man might be respected and yet lack character; some men were respectable and were yet nonmoral. There was a great and growing tendency to disregard morals, said Mr. Stevens. One of the greatest dangers of the present age was materialism, "a bitter individualism," which was sweeping through every class, permeating every element in society.

Too Much Local Sentiment.

There was lack of harmony between the different elements and sections of Canada, a bitter feeling on the part of one section against another section. Problems were viewed from the local standpoint and solutions were sought from this viewpoint. "And we on the Pacific are not free from this tendency," said the member for Vancouver.

Materialism was the fruit of prosperity; usually the greatest movements in civilization had risen from adversity. Where prosperity existed there would be found selfishness and less patriotism, while adversity seemed to be the quick which reminded men of their duty toward each other.

He quoted the Roman empire as an example, pointing out that the empire had been built up on a spirit of justice and liberty and had fallen when these ideals had been disregarded. Spain had declined through her arrogant desire for more power, and France under Napoleon had fallen through the selfishness and lack of national ideal on the part of the French.

Up to the present time the development of the British empire had rested on the secure base of liberty and justice and the freedom of speech and faith upon which the empire had been built. As long as these ideals were maintained so would the empire retain the high place she now held.

But he had been told by a prominent physician of this province, who had just returned from England, that patriotism was dying out in the old country. He believed that there was more patriotism in Canada than in England.

Send Best Men to Parliament.

"And as far as Canada is concerned we must see to it that a high national ideal permeates our thoughts and actions," urged Mr. Stevens.

The Canadian parliament reflected the spirit of the people, the moral, intellectual and commercial condition of the country and it was the duty of the electors to choose from among them not men who were seeking office but men who would serve them well, he said. "We have got to divorce ourselves from the office-seeking politician. Unless you choose your best men you cannot expect to get a good parliament."

Foresees Political Affiliation.

Predicting that Canada was destined to become the controlling centre of the empire, Mr. Stevens declared that the Dominion must always remain an integral part of the British empire and that he believed that political affiliation or confederation of the self-governing colonies of the empire was not far away.

The first step to be taken by Canada, he believed, was to join the proposed imperial board of defense and for Canada to make a direct contribution, not necessarily in cash, toward the defensive forces which guarded the trade of the empire. Quebec, he explained, was not opposed to direct contribution if the Dominion were granted representation on the imperial board of defense. What Quebec opposed was contribution without representation.

One Great Family.

"Let us combine our forces, our finances and our brains with the idea of building up an imperial navy. The imperial board of defense will be an organization on which all the self-governing colonies will be represented and the contribution will be based on the proportion that the trade of each dominion bears to the rest of the empire. We are one great family and if one part of the family is forced into a struggle the other parts must support it,' said Mr. Stevens, who in conclusion again urged a national ideal as the greatest factor in the progress of the Dominion.

A vote of thanks to Mr. Stevens was passed on motion of Mayor Annable, seconded by G. O. Buchanan.

The speaker was introduced by Fred Irvine, vice president.

WORSE THAN BLACK HOLE OF CALCUTTA

Smallpox Patients Isolated Without Necessities of Live—Investigation Will be Held

(By Daily News Leased Wire.)

CALGARY, Alta., April 12—Eleven unfortunates infected with smallpox are housed in one of Calgary's isolation hospitals under conditions that rival the Black Hole of Calcutta. Without clean bedding, medical attendance of any sort, without heat, sewer or water supply, they are quarantined in a bleak barracks on Crescent Heights, known as the pest house. Three women, three little children, all under three years of age, and five men comprise the unhappy party which now occupies the house. With absolutely no provision made for their comfort and without even having the necessities of life provided, they are there trying to recover from smallpox. Absolutely no precaution is taken to prevent patients leaving or the public entering the premises. An investigation is expected at an early date.

NEWSPAPERMEN FIX MEETING DATE

Sixty Editors Will be Here at End of July—Splendid Roads Around Cranbrook

July 26 and 27 will be the dates of the annual meeting in Nelson of the Alberta & British Columbia Press association when about 60 of the leading newspaper men of this province and the prairies will be visitors to the city.

The announcement of the date of the meeting was made last night by W. F. Roberts, chairman of the publicity committee, on his return from Cranbrook where a conference to make arrangements for the meeting was held and at which among those present were W. A. Buchanan, M.P., editor of the Lethbridge Herald; M. R. Jennings, editor of the Edmonton Journal; F. J. Deane, editor of the Cranbrook Herald, and W. G. Foster, editor of The Daily News.

An automobile trip from Cranbrook to Wasa along the splendid roads in the vicinity impressed Mr. Roberts very strongly with the desirability of roads leading from Nelson. "The roads in the Cranbrook district are excellent," he said, "and considerable money is being spent on their improvement."

EXTEND TELEPHONE SERVICE

(By Daily News Leased Wire.)

LETHBRIDGE, Alta., April 12—Thousands of dollars will be spent in improving and extending the telephone service in southern Alberta this summer and the city of Lethbridge will receive a goodly share of the expenditure in the form of an addition to the present telephone exchange building and an extension of the present automatic plant to keep pace with the growth of the city.

STRIKERS RAID RAILWAY CAMP

Police Present but Workers Fear Revenge

RE-EMPLOYMENT WILL BE REFUSED

No Striker Who Has Remained Along Grade Will Be Given Job

(Special to The Daily News.)

VANCOUVER, B. C., April 12.—Not a single Industrial Workers of the World striker who has remained along the grade of the Canadian Northern since the outbreak of the trouble will be re-employed by the contractors. This announcement was made today by one of the contractors. He stated that his fellow contractors had all tacitly agreed to this effect. The agitation, he believes, will collapse as soon as these men run out of money and that they will be obliged to move into Vancouver.

The contractors have no quarrel with the men who left the camps for the coast. These laborers, they say, were forced to join the Industrial Workers of the World and have no sympathy with its aims or alleged grievances against the contractors. Work will be offered them at an early date. Confidence is also expressed that owing to better wages prevailing in British Columbia many laborers will soon flock from the south to seek work on the Canadian Northern.

Strikebreakers to the Front.

(By Daily News Leased Wire.)

YALE, B. C., April 12.—Forty strikebreakers bound for Saddle Rock, where they had been engaged to work on the Canadian Northern railway grade, passed through here on the Canadian Pacific railway eastbound train at noon. Strikers to the number of 150 gathered at the depot, but none of them were allowed to board the train. Two constables proceeded to Saddle Rock to join the force already there. Unusual activity among the leaders of the union here indicated that they have been informed by Vancouver pickets of the departure of the strikebreakers and were prepared to prevent them from going to work. The strikebreakers were engaged by an Italian station man who has a subcontract from Burns, Jordan & Welch.

Strikers Invade Camp.

(By Daily News Leased Wire.)

VANCOUVER, B. C., April 12.—Reports from the strike zone today state that yesterday at Wallachin, on the main river, members of the Industrial Workers of the World invaded a camp and induced a steam shovel gang to stop work. The news was conveyed in a dispatch received today from T. H. White, chief engineer for E. F. Handy, engineer on No. 7 division. The telegram was as follows:

"Callaghan's shovel stopped at noon today. About 130 strikers came down from Savona and though there were lots of mounted police the men quit when they knew they had protection, but were afraid the strikers would take revenge in future."

INVITE PLANS FOR KING EDWARD MEMORIAL

(By Daily News Leased Wire.)

OTTAWA, April 12—The government is inviting designs for a monument to be erected to his late majesty King Edward VII. It is provided that the new memorial when completed is not to cost more than $35,000. The competition is open to artists throughout the empire. The monument when completed will be placed in position on Parliament Hill. The author of the best design will be awarded the commission for the work and the second will be given a prize of $1,000.

BIG PAY-ROLL ON CANADIAN NORTHERN CONSTRUCTION

(Special to The Daily News.)

VANCOUVER, B.C., April 12—The Canadian Northern's British Columbia payroll for March is $1,100,000. Of this $840,000 is to contractors and the balance to the engineering staff of over 700 persons. April payroll will be about half owing to the strike.

Suffragettes Again Start Hunger Strike

LONDON, April 12.—By resorting to hunger strike and impairing their alth to such an extent that the jail ficials feared fatal consequences, Frances Ede and four other suffragettes who recently were sentenced imprisonment for window smashing tained their release from Aylesbury l today before their terms expired. Dr. Ede says that 25 of 28 suffragettes imprisoned in the Aylesbury l started the hunger strike April 4, and that it was not discovered by the jail officials until April 9, when a system of forcibly feeding the women was instituted.

"Far more terrible than my personal sufferings," said Dr. Ede, "was hearing the agonizing cries from other cells as the prisoners in turn were subjected to the painful treatment."

A demonstration will be held in Hyde park tomorrow to protest against the forcible feeding of the suffragettes.

West Arm Ranch Has Artificial Rain Plant

Artificial rain will raise three crops where previously only one full crop and a portion of a second grew annually on three acres of land across the lake in the opinion of James Johnstone.

On overhead irrigation system was completed yesterday by Mr. Johnstone who believes from experiments he had carried out that the plant will result in a double production from the land.

Through pipes placed at regular intervals in the ground water, at a pressure of 300 pounds will shoot out in a fine spray in all directions so that Mr. Johnstone can have a rainstorm on his land whenever he desires.

"Artificial rain is not, of course, any more necessary for fruitgrowing than ordinary irrigation in this district," said Mr. Johnstone, "but I believe that in the growing of clover and similar crops good results can be obtained by the aid of the overhead system I have just completed."

TRAINMEN STOLE BOX OF BUTTER

Sentenced to Three Months in Nelson Jail—Enjoyable Festivities at Cranbrook

(Special to The Daily News.)

CRANBROOK, B.C., April 12—E. H. Small, the pioneer hotel man of Cranbrook, who recently sold the Cosmopolitan hotel to Mr. Cameron of Spokane, will leave with his family this week for Vancouver, where he expects to make his future home. He has resided in Cranbrook for many years.

Dave Elmer, a pioneer citizen of Cranbrook, is leaving in a few days for Vancouver to make his future home. His family will follow about June 1.

George Miller, a C.P.R. freight conductor and Ole R. Sykes, a brakeman, were both sentenced to three months each in Nelson jail at hard labor for stealing a box of butter from a box car. They pleaded guilty to the charge. They were apprehended by a C.P.R. detective who found the butter in the caboose. Conductor Miller has been in the employ of the company for many years and used as a spare conductor on passenger runs and was in direct line for promotion. On account of an accident several years ago he was guaranteed life long employment by the company which will be made void on his conviction for theft. A number of small thefts between Crow's Nest and Cranbrook have been made for some time.

A large crowd of young people were present on Tuesday evening at the Y.M.C.A. at the event of a social evening under the auspices of the young people of the Methodist church. The following program was rendered:

Piano duet, Misses Ruth and Grace Stephens; song, H. S. Stephens; violin solo, S. Dickens; song, R. A. Rekylefft; recitation, Miss Ada Hickenbotham; song, J. F. Broughton; address, M. C. R. Stayer. Mr. Sayer is district secretary and his address was much enjoyed. Following the program refreshments were served and bowling and other games indulged in until a late hour.

The dance given by the Overseas club at Carmen's hall on Tuesday evening was well attended and greatly enjoyed.

Fred Simpson of Kamloops, the pioneer newspaper man of Cranbrook, is in town this week renewing acquaintances.

John W. Crowe and Mary Caroline West were married at the home of the groom's parents, Mr. and Mrs. James B. Crowe at Slaterville on Tuesday evening at 10 o'clock by Rev. E. P. Flewelling.

The dance given by the Knights of Columbus on Monday evening at the Auditorium was a largely attended and much enjoyed affair. The new hardwood floor was especially good and the music furnished was freely complimented by the dancers. The hall was freely decorated in the official colors of the order. Young ladies waited on the tables which were filled several times before the crowd was all accommodated.

GUTELIUS NEWS NOTES

(Special to The Daily News.)

GUTELIUS, B.C., April 12—Rev. J. A. Gillam, the Presbyterian minister, who has had charge of the mission field in the Slocan valley for the past two years, is leaving for his old charge at Windermere.

Miss M. Campbell and Miss L. Howard who have been visiting their aunt and uncle, Mr. and Mrs. John Jamieson, for the past few weeks leave for their home at Addie, Idaho today. They will spend a few days in Nelson the guests of Mr. and Mrs. G. A. Brown.

The fruit ranches in this locality are looking especially well this spring. Great improvements are being made. Several ranchers are building or contemplate building new houses. Much new land has been cleared and will be cultivated.

Robert Horrie is making a big showing on his ranch since he bought his new team.

A very enjoyable dance was held in the hall a short time ago. Much credit is due Mrs. Wilton and Miss Hunter for the entertainment and refreshments.

J. Jamieson is in town for a day or two.

Deer are very plentiful this spring. Several have come down within a short distance of the station.

COMMERCIAL CLUB IS ORGANIZED AT COALMONT

(Special to The Daily News.)

COALMONT, B.C., April 12—The Coalmont Commercial club was organized on the 8th inst.

L. W. Shatford, M.P.P., and Road Superintendent Turner were in town Sunday and Monday.

About $10,000 will be spent on the Coalmont streets during the summer.

The postoffice department is asking for tenders to carry his majesty's mail from Coalmont depot to Granite Creek and Tulameen daily.

The printing office is about completed and the Coalmont Courier will soon make its debut.

DRAINAGE SCHEME FOR MEADOW CREEK

Proposal to Get Ditching Machine from Calgary—Land Is Rich Alluvial Deposit.

(Special to The Daily News.)

KASLO, B. C., April 12.—George Stott is improving his grounds by the addition of a concrete walk.

Victor Anderson has sold his property in Allen's addition and bought another in the same vicinity.

The tenders for the ditching for the extension of the Kaslo City water system will be opened on Monday. Thirty-one hundred feet of digging is to to be done.

The steam launch "Edelweiss" has been overhauled and put in ship shape. The bunkers have been steel lined, the hull painted and she is now ready for the water.

Settlers for Lardo.

Settlers are flocking into the Lardo valley this summer. A party of 11 arrived this week, bringing a complete farming outfit with them. They brought ducks, turkeys and hens with them.

The bachelors will give a dance at the drill hall under the auspices of the R. M. R., on Friday, the 19th.

Official word has been received here from W. H. Cullen, grand master of the I. O. O. F., that owing to business pressure he will be unable to visit the Kootenay this year, as his itinerary provided for.

Five Land Sales.

Five recent land sales have been made by Miss Alice Alexander, the purchasers for the most part being men of means. The land was originally taken up by J. D. Moore as a preemption about 10 years ago. It is now worth $100 per acre, as it lays nicely and every 10-acre farm contains enough timber to provide fencing and firewood for its owner for the next 10 years.

Kaslo will celebrate this year on May 24.

The farmers of Meadow Creek are in communication with parties in Calgary to see if a workable scheme to drain the meadows cannot be put into effect. Two years ago they addressed a petition to the provincial government asking a long loan of a sum of money sufficient to dig a ditch which would carry off the surplus water in the spring time. They would pledge their land as security to the government and repay the loan in 20 years, with interest, together with taxes on the increased value of the drained land. The government sent an engineer to report on the practicability of the scheme. The engineer found a maximum fall of 14 feet in the meadow. The land to be reclaimed is a rich alleuvial deposit which Meadow creek has borne down from the mountains during centuries. It lies like a billiard table and one could not find a stone the size of a hen's egg on a quarter section of it. A pole could be pushed down 10 feet into the rich black soil. For years the rank vegetation has grown up in the summer and resolved itself into soil. In fact, the land is too valuable an asset for even a rich country like British Columbia to neglect. Drained, the land is worth $300 an acre, but at present is not fit for vegetable crops and is used for a cattle range. A ditching machine in use at Calgary was brought to the notice of the farmers and they are trying to arrange to have it brought here to try it. But the scheme is one requiring capital and none of these farmers are capitalists. Dr. Wolverton of Nelson, although he owns none of the land and will only derive indirect benefit from its improvement, is lending his influence towards having the work done, as are others in Nelson and Kaslo.

The quarry at Marblehead is employing a force of seven men at present and is developing its proposition by a tunnel and is prospecting it with a diamond drill. The result of the investigation thus far shows that the farther in they get the better the marble becomes.

PREDICT HEAVY DEMAND FOR LEAD PROPERTIES

(Special to The Daily News.)

KASLO, April 12.—Those who are wise to the mining situation predict that there will be a rush for mineral claims that can show substantial lead deposits, and that many new and expired claims will be staken or revived.

DRIVE RAISES AT COAL PROPERTY

(Special to The Daily News.)

COALMONT, B. C., April 12.—The Columbia Coal and Coke company is busy putting in raises from the main drifts to the surface on the coal seam, where an engine and fan will be installed for ventilation purposes.

RARE BIRDS THAT WE HAVE KNOWN

THE COCKATOO (sometimes pronounced Cu-Cu)—Most remarkable of the talking species. Its plumage, of a beautiful sandy pink, is very profuse about the head, giving it a ferocious aspect, while in reality it is one of the mildest and gentlest of birds. Habitat any old place where there is a chance to talk and strut and blow—nothing to it. This Bird of a Sale is no Cu-Cu, but the genuine article.

THE CHICKEN—This remarkable fowl has the strange quality of reincarnation in large cities. In its living state it may have been a coot, a mud hen, or one of the small varieties of crane; but once cooked and served with the proper dressing and garnishment in any of our leading hotels or restaurants it becomes a chicken and is eagerly devoured and lavishly paid for by our leading citizens. The chicken used to be a common article of food, cheap as beef shank, now very rare; used only by the very wealthy families. Its eggs were common years ago, now used as ornaments instead of pearls. The chicken's name is to be changed by the government to Sir Chicken, giving it more tone. The eggs are to be called De Eggs. This Bird of a Sale will make chicken as a food open to many families who have not tasted it for years. The money Hall & Jessup will save you will buy the chicken. Our Mr. Jessup has chicken once a year, on his birthday. If he has a notion for it the balance of the year he just looks at the bill and the taste for chicken dies.

HOLD INQUEST ON DEAD BRAKEMAN

Fractured Skull When Train Suddenly Stopped—New Hospital at Revelstoke.

(Special to The Daily News.)

REVELSTOKE, B. C., April 12.—At a meeting of the directors of the Revelstoke Hospital society, held here a couple of evenings ago, the contract for the erection of the new hospital addition was awarded to Contractor O. W. Abrahamson, on a commission basis of 5 per cent. As it is desired that the new hospital shall be fully completed before the coming winter, the directors considered the time too short to call for tenders in the usual way and so let the contract to Mr. Abrahamson as above mentioned. The total cost of the new addition to the hospital will be approximately $70,000 and work will be commenced at once. W. H. Wallace, the local architect, has just completed the plans and specifications for this new structure.

Coroner Dr. Hamilton held an inquest on Monday last to enquire into the cause of the death of the late Otto Ostermeyer, accidentally killed at Salmon Arm by a train on the C. P. R. on Saturday last. The jurymen were Walter Bews, foreman, R. Smith, R. M. Smythe, F. E. Sine, J. B. Cressman and K. G. McRae. The evidence showed that the freight train of which deceased was a brakeman had just reached the mile board at Salmon Arm. The deceased, with the conductor of the train, was sitting in the caboose and the signals for "orders" was out. The engineer made one application of air and the train was gradually slowing down when all at once the train went into "emergency." The deceased pitched forward having just got up out of his chair. In moving across the car he struck his head on the right temple, fracturing the skull. He was taken to the hospital at Salmon Arm, where he expired about an hour and a half afterwards. The verdict was "that the deceased came to his death by losing his balance and fracturing his skull when the train accidentally went into emergency." Deceased was 39 years of age and leaves a widow residing in Revelstoke. He was a member of the Brotherhood of Railway Trainmen and a thirty-second degree Scottish Rite Mason. He was also a Mystic Shriner. The Trainmen and Masons accompanied the remains to the station yesterday morning, they being shipped to Ashland, Wis., for interment. Conductor John Beck accompanied the remains east. The pall bearers were Conductor Hugh Bruce and L. A. Warner, as well as Shriners J. B. McKenzie, T. E. L. Taylor, R. Howson and J. H. Hamilton.

The dance in the opera house, under the auspices of the ladies auxiliary of the Brotherhood of Railway Trainmen was a grand success.

W. H. Bohannan, an American newspaperman, has been in town the fore part of the week. He intends starting a newspaper at Chase, B. C., the first issue of which will appear in about two weeks' time.

Mr. and Mrs. S. Carter returned home today from a week's visit to Edmonton.

Superintendent C. F. Lindmark of the Dominion Sawmills company made a business trip to Arrowhead and other lake points where the company have several sawmills, this week.

CHINESE SUBSCRIBE TO INDUSTRIAL LEAGUE

(By Daily News Leased Wire.)

SASKATOON, April 11.—There is $140,000 to be raised still to reach the total aimed at in the $1,000,000 Industrial league campaign and there is little doubt but that the goal will be reached before tomorrow night. Sixty thousand dollars was raised today, but there are a number of subscriptions which were not turned in. A feature of today's returns was $2,500 subscribed by Chinese residents.

Clean Within!

Dr. Morse's Indian Root Pills Purify the Blood and Prolong Life

Vigorous health at 70 due to Dr. Morse's Indian Root Pills.

If as much intelligent care were given to keeping the body clean and pure within as well as without we would see more healthy, vigorous old men and women. The daily bath does its part by keeping the pores of the skin open so that they throw off much of the body's impurities, but it is even more important that the bowels and kidneys should be kept regular and active.

If the bowels fail, as they often do late in life, to move regularly at least once a day, the waste matter from the food accumulates, decays, poisons the system and upsets the stomach.

If the kidneys are sluggish the impurities which they should filter from the blood remain and cause rheumatism.

Dr. Morse's Indian Root Pills regulate the bowels, stimulate the kidneys and open up the pores of the skin. The result is a body clean within—pure, red blood—good digestion—and a hale and hearty old age.

Three generations have proved the value of Dr. Morse's Indian Root Pills, and their sale is steadily increasing all over the world.

BASEBALL GAME THIS AFTERNOON

High School Will Play C. P. R. Team and Good Game is Expected—Railroad Men Strong

The high school nine will play a game with the C.P.R. team at 3 o'clock this afternoon. The railway team is a strong aggregation and as the high school team has won every game so far a good snappy game is anticipated. The battery for the high school will be Pitts and Clarke, the latter taking the place of W. Ferguson whose finger was damaged while playing the Barnstormers. The C.P.R. battery will be Johnson and Turner. Admission will be free. The line up is:

High School—Pitts, Clarke, Curran, Gibbs, Graham, Cummins, Brusch, J. Ferguson, Johnstone.

C. P. R.—Johnson, Turner, McCandlish, Bishop, Waters, Brown, Greyerbiehl, Long and Jones.

AGAINST PRO. BALL AT PRESENT

Local Fans Think Season is Too Late and Transportation too High

In connection with the proposal to *form a professional* baseball league to include towns between Medicine Hat and Nelson, several of the baseball enthusiasts of the city have expressed themselves.

C. F. Walmsley, president of the Nelson club, stated that he did not think the idea was at all practical just now on account of the lateness of the season, the distance between the towns and the necessarily large item of transportation.

George Lapointe stated that he did not consider that the suggested district was sufficiently well populated to warrant a professional league.

Scotty Williamson was of the opinion that Nelson would be unable to *support a professional team for some* time to come and that it was far better to show every encouragement to the local boys who would do their best to give the district a good clean exhibition of ball.

Walter Shackleton, secretary of the Nelson club stated that the people are not yet sufficiently versed in baseball and that a paid team would not be appreciated as well as a local team that was known to everybody

SHAFER DOES POOR WORK

(By Daily News Leased Wire.)

BROOKLYN, N.Y., April 12—Brooklyn evened up matters with New York today, winning by 4-2, mainly on the poor work of Shafer at short. He had three fielding chances and fozzled them all. The bungling offset Tesereau's good pitching, the youngster allowing only three hits. The game was called at the end of the eight on account of darkness. Score:

	R.	H.	E.
New York	2	6	4
Brooklyn	4	3	3

Batteries—Tesereau and Meyers; Knelzer, Schardt and Erwin.

BOSTON WINS AGAIN

(By Daily News Leased Wire.)

BOSTON, Mass., April 12—Philadelphia fought hard to avert defeat today but Boston won again 4-2. Bunched hits in the fourth and eighth inning gave the locals their runs, while Tyler held Philadelphia to a lone tally until the last innings. Then two passes and a single by Ludus filled the bases, and Walsh singled bringing Pasker *home. With none out and the bases* still filled Dooling hit into a double play and Graham fanned. Score:

	R.	H.	E.
Boston	4	8	1
Philadelphia	2	5	2

Batteries—Tyler and Kling; Kellihe and Graham.

CINCINNATI BEATS CUBS

(By Daily News Leased Wire.)

CINCINNATI, O., April 12—McIntyre weakened after nine innings and by allowing three hits in the tenth permitted Cincinnati to win the second game of the series with Chicago today, 3-2. Benton was hit harder early in the game but kept the hits well scattered. With the exception of Tinker all players fielded well. Score:

	R.	H.	E.
Chicago	2	8	2
Cincinnati	3	7	2

Batteries—McIntyre and Archer; Benton and McLean.

LACROSSE WILL BE POPULAR SPORT

(By Daily News Leased Wire.)

SASKATOON, Sask., April 12—With Saskatoon out of the Western Canada professional baseball league, lacrosse has been given an added impetus after a rather weak start this spring and promises to become a po*pular sport th's summer. A meeting* was held in the city tonight at which two Saskatoon teams and Battleford and Watrous were represented. The hope is that the league may be extended to embrace Prince Albert, Rosetown, Hanley and other towns but in any event the four clubs referred to will play a double series, Saskatoon Centrals and Battleford and Watrous and the Nutanas. A double or triple schedule is proposed, the winners to play off and the triumphant team to challenge the southern Saskatchewan champions. In addition, Saskatoon will see a series between the two local teams for the city championship and the Love cup.

PITCHERS' BATTLE

(By Daily News Leased Wire.)

CHICAGO, Ills., April 12—Chicago made it two straights from St. Louis today, winning an extra inning game, 2-1. The game was a pitchers' battle between *Scott and Powell*, and the winning run resulted from a double, a sacrifice and a single. Score:

	R.	H.	E.
Chicago	2	7	2
St. Louis	1	1	1

Batteries—Scott and Block; Powell and Kritchell.

CLEVELAND DEFEATS DETROIT

(By Daily News Leased Wire.)

CLEVELAND, O., April 12—Cleveland defeated Detroit today 4-2. Delehanty was put out of the game for arguing with the umpire. Detroits first run was the result of hits by Gainer, Stanage and Pitt. The other was scored by Perry on his double, a pass ball and Gainer's fly. Score:

	R.	H.	E.
Cleveland	4	7	1
Detroit	2	6	4

Batteries—Baskette and Easterly; Willett and Stanage.

TWO STRAIGHTS FOR BOSTON

(By Daily News Leased Wire.)

NEW YORK, April 12—Boston made it two straights over the Highlanders today, Dick O'Brien outpitching Russell Ford. The feature of the game was the batting of Stahl who in four times at bat made four singles. Boston won the game in the first inning when they scored three runs on two passes. Speaker's home run and Lewis' double. Score:

	R.	H.	E.
Boston	5	10	0
New York	2	6	2

Batteries—O'Brien and Carrigan; Ford, Warhop and Street.

PHILLIES WIN

(By Daily News Leased Wire.)

PHILADELPHIA, Pa., April 12—Morgan pitched wonderful ball against *Washington this afternoon and Philadelph'a* won 3-1. Only one hit, a single by Moeller, which Barry held in the infield, was made off Morgan. The latter struck out 11 batsmen, fanning the side in the fifth and eighth. *Philadelphia won by bunching hits in* the fourth inning. Score:

	R.	H.	E.
Washington	1	1	2
Philadelphia	3	7	0

Batteries—Walker and Williams; Morgan and Thomas.

FIGHT DRAW BATTLE

EDMONTON, Alta., April 12—A 15 round boxing bout here tonight between Jimmy Potts of Minneapolis, and Charlie Riley of San Francisco was witnessed by the biggest crowd ever attending a bout in Edmonton. The fight was declared a draw by the referee.

RELEASE RECRUITS

NEW YORK, April 12—The New York Giants tonight announce the release of two infielders, Bues and Stock and Pitcher Munsell to the Buffalo club of the International league.

WRESTLING MATCH NOT MARATHON RACE

LETHBRIDGE, April 12.—The wrestling match between Jack Ellison, claimant of the middleweight championship of western Canada, and Jack Taylor, which was pulled off in the Morris theatre here this evening, proved a fiasco. After 45 minutes during which time Ellison repeatedly ran off the mat, Police Chief Joseph Gillespie announced that if he repeated the trick he would stop the match. Within a minute afterward Ellison again did the Marathon stunt and the chief ordered the referee to call the bout.

CALGARY, April 12.—The horse show closed tonight with a record attendance. *It has been one of the most* successful affairs ever occuring in Canada, exciting interest all over the Dominion, and the association will consider the proposition of constructing a much larger building. Attendance totalled about 15,000. Total entries not quite 1,100.

HANDICAP PLAN FOR TENNIS GAMES

Players Will be Graded and Tournaments Will Extend Over Monthly Periods

The season just opening promises to be a good one in the tennis line. The committee of the local club is hatching out a scheme, which it is believed will greatly improve the individual playing of the club members as well as afford a stimulus to tennis here in general. It is proposed to grade each player according to his abilities, handicapping the better players to such an extent that upon their meeting the poorer players chances of winning will be equal.

In addition to the mixed American tournament to be held every two weeks a tournament played in this style consisting of ladies' and gentlemen's singles only, and lasting over about a month is proposed. The secretary thinks from a social standpoint *the mixed double game is all right*, but it is detrimental to very rapid improvement in the game. Socially inclined players will have their opportunity in the mixed American tournament to be held every other Saturday.

That the players may be graded it is necessary that a full list of members and intending members be in the hands of the secretary, A. H. Carson of the Bank of Montreal as soon as possible. The handicaps of course will be changed as the players improve, the idea being to keep everybody on an equal footing, and making it necessary that every player work to win his game, which will result in improvement of all players concerned.

1909—Al Kaufman and Tony Ross, 10 rounds, no decision, at New York.

1910—Al Kaufman and Jack O'Brien, 6 rounds, no decision, at Philadelphia.

1911—Porky Flynn, American, knocked out Gunner Hewitt, English, in 3 rounds, England.

A JEW WAS ONCE WORLD'S HEAVYWEIGHT CHAMPION

"Did you know," asked the Old Sport, "that a Jew was once heavyweight champion of the world? No, of course you didn't. What do they teach you young fellers in the schools nowadays, anyway? Of course, everybody knows that there have been a lot of Hebrews who have shown class as boxers, and there have been several of championship calibre, including little *Able Attell, who recently lost the* featherweight title, and who in his prime was about as clever as they make 'em. Hebrews make mighty good boxers, but there have been few who have been real pugilists, in the old*time bare-knuckle sense of the word.* The exception was an English Jew, Daniel Mendoza, who was the first of his nationality to take up fighting as a trade. It will be just 117 years ago Monday since Mendoza lost the *championship* to John Jackson. What's that? No, I wasn't there. That was even before my time, and I'm no spring chicken, but I can read and I don't waste my time on trivial novels and such rot. Ben Brain, who was the champion before Mendoza, died in 1794, and Mendoza was the only fighter in sight fit to wear the belt Ben *had left vacant, so to speak. So the* bugs elected him champion by acclamation. Like Attell, Mendoza won his fights by cleverness rather than the rough work. In those bare fist days rough and tumble, foul blows, gouges *and hair-pulling were the rule*, but Mendoza didn't indulge in such practices. A huge human mastodon called Harry the Coal Heaver was Mendoza's first victim. Although the fuel heaving party was a third bigger than the Jew he didn't stand a chance to win. Dick Humphries was another big fellow who contested Mendoza's right to the title. They met three times, and the first two fights were 'hoss and hoss,' but in the third Mendoza won all the way. Despite the racial hatred that was rife in those days, the champion became a great favorite with the fans. The game was then in its infancy, and, until Mendoza appeared on the scene, the scrappers might as well have had no heads for all the use they put 'em to in following their trade. Mendoza may be said to be the father of scientific pugilism, and as such he deserves a monument."

SIGNS LACROSSE PLAYERS

(By Daily News Leased Wire.)

OTTAWA, April 12—A. N. Payne, secretary of the Capital lacrosse team announced that he had signed two defence players and a goal keeper for *the Capitals. The men will be in early* next week.

Two of the men are from the west and another from the lower province and their names will be given out next week. The Caps are on the hunt for two home players. Already negotiations are under way for two fast men and it is likely that they will be landed in a few days. Herb Ralphs will take a trip west on a scouting expedition after the annual meeting of the lacrosse union tomorrow at Cornwall. When these men are signed up the Caps expect to have the strongest team it has had in many years.

$3.50 Recipe Free for Weak Men

Send Name and Address Today—You Can Have it Free and be Strong and Vigorous

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, *brought on by* excesses, unnatural drains, or the follies of youth that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have *determined to send a* copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the *quickest-acting* restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4659 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free.

SATURDAY, APRIL 13

THE SPRING PROMISE

The spring opens with high promise for all of Canada, and in a special degree for the West. There is no diminution in the tide of immigration. The rush to Canada is increasing. Activity in development is not lessened. Railways are under construction and projected at an unprecedented rate.

Wages are good and work is plentiful. Difficulties arise from time to time. They must, because as the buying power of money decreases, and it is decreasing, the earning power of labor as measured by money must increase, and disputes as to the fair ratio are unavoidable. But rapid adjustment is the rule in Canada, which shows the essential prosperity of the country.

Mercantile trade is good. All reports are that demand for all classes of goods is excellent. The credit of Canada and of all its provinces and cities was never higher than it is today. Capital is pouring in for enterprise, with settlers and in the form of loans and, if it is not wasted in profitless speculation, the volume will go on increasing.

THE CHRONIC LOAFER

British Columbia is happily, comparatively free from the chronic loafer, nevertheless it may gain useful hints from the methods that other countries have adopted to deal with the problem of the pauper and the shiftless.

A scheme has lately been presented to the Prussian parliament which in the drastic rounding up of these worthless characters and making them contribute to their own upkeep and the support of those who may be dependent upon them, appears to be an improvement on the penalties in vogue in Canadian courts. Those who refuse or neglect to support their relatives are to be confined in labor homes or found compulsory work elsewhere. The cost of the delinquent's own maintenance is to be covered by the products of his work. If he earns enough in addition to support those whom he is reckoned to be morally obliged to support, the offender may secure his release after the stipulated term expires. If he buckles down to work and earns more than this combined maintenance costs, it is handed to him as so much surplus.

In these provisions there is every incentive to lead the shiftless father to brace up. He may not only pay his way and support his family by working in some institution of detention but he may by applying himself to his work, emerge again into the outside world with a comfortable surplus—an invaluable prop to such a man until he can plant his feet firmly upon the social groundwork. All this makes for an independent spirit, if the offender will consent to be helped.

In addition to the salutary stimulus upon the self-respect of the prisoner, the Prussian bill covers an important point which American and Canadian social workers have long urged, namely, that after deducting their own maintenance the earnings should go to the support of their families.

BRIEF NEWS OF OLD ONTARIO

Many Items of Interest from Towns and Villages of Eastern Canada.

Ben Cook, an Orangeville farmer, had four ribs fractured in trying to stop a runaway team which was endangering a little boy's life.

Reeve Shortreed of Morris township has purchased the old American Presbyterian church at Walton, paying the sum of $150 for it.

An unfortunate cat made its way down a hot air pipe in the Aylmer public school and was burned to death.

The old gray bus team which has been for 12 years a familiar sight at the Walkerton station, has been sold to Hank Irwin of Paisley.

The Strathroy canning factory is building an addition to its present premises.

Kingston medical doctors have decided to raise their fees from 25 to 50 per cent. This is the first advance Kingston doctors have made in 30 years.

When a 40-acre farm to be used for market gardening sells for nearly $6,000 near St. Thomas, it seems to show that Elgin county is coming into her own.

A woman north of Wiarton is reported to have gone away from home for three days and left her nine months' old baby almost totally neglected. When the infant was almost dead a kind neighbor took charge of it.

Bird fanciers of Meaford are much exercised over a disease which is taking off large numbers of their best fowl. S. McClain had the misfortune to lose 80 out of 100 birds in one week. The cause of the disease is a mystery.

Some samples of Wiarton zinc were recently sent to South Porcupine, and the mining men there have been greatly excited over them. They were taken to the assayer's office there and they tested up to 60 per cent pure zinc.

The recently organized Huron Medical association held its first annual banquet at Wingham on Wednesday of last week, when almost the entire medical profession of the county was present. The gathering marked Dr. Tamblyn's fiftieth anniversary in the medical profession.

The old gown worn by wardens of Victoria county has been discarded for a new one. It was worn for 50 years. It was presented in 1861 to William Cottingham of Omemee, the first warden of Victoria county. It cost $50.25 originally, and thus the robing of the county official has averaged $1 a year The old gown will be kept as a relic to commemorate the beginning of the wardenship of Victoria county.

Fourteen Acres With Lake Frontage

This is a very desirable property situated east of Nelson, with the advantage of lake frontage to the extent of seven and a half chains. Of the 14 two are cleared and planted with 100 of the best variety of apple trees, grown especially to suit local markets, in addition to which there is an acre of strawberry plants, from which a good crop of fruit was obtained last season.

Good water is obtained from stream and lake, so there is quite an abundance for irrigation and domestic purposes.

There is a well designed bungalow built near the beach and landing stage, which contains two bedrooms, one sitting, one dining and useful sized kitchen, also a good chicken house.

The present owner is living on the place and would sell the furniture by arrangement with buyer, if required.

As a lakeside ranch the price asked of $3,000 is exceptionally low, and will double its value in three or four years and in addition it is beautifully situated and the owner has the additional advantage of every kind of sport, including swimming, fishing, boating ,shooting and bear hunting.

On account of the many advantages and low price this property will appeal to many buyers and suggest as a means of securing the holding of same, pending further negotiations that an immediate inspection be arranged.

KENTUCKY DELEGATION WILL VOTE FOR TAFT

(By Daily News Leased Wire.)

LOUISVILLE, Ky., April 12.—Kentucky's four delegates from the state at large to the Republican national convention were instructed to vote for President Taft by the state convention here today, but the Roosevelt leaders in Kentucky will carry a contest to the national convention in an effort to unseat them. The action of the convention completes the Kentucky delegation of 26, of which 23 are instructed for Taft and three for Roosevelt. Four of Taft's district delegates and two of Roosevelt's are contested. The delegates from the state at large are Senator Bradley, James Breathitt, Hopkinsville; W. D. Cochrane, Maysville, and J. E. Woods, Danville.

The convention adopted resolutions reciting specific accomplishments of the Taft administration, endorsing the president's policies and instructing the delegates unqualifiedly to support him in the convention.

Contrary to expectations the convention proved to be one of the quietest ever held in the state. The anticipated bolt of the Roosevelt faction did not take place.

PRIESTS AND PROPHETS

There is a fundamental distinction between the prophet and the priest. It is the prophet who flashes new truths upon humanity and deepens the conscience of mankind; the priests conserves and guards, not always too faithfully, not always as loyal to spirit as to the word, the work of the prophet. It is the prophet who creates the new atmosphere; it is the priest who endeavors to save it from dissipation.

From the nature of the case a church is primarily an organization of priests; prophets do not lend themselves to organization. We cannot, therefore, expect the churches to be dynamic originating forces.

What we can expect of them, however, is that when the true prophet comes they shall be ready to receive his message and spread it through the world. They may be deficient in originating new movements but they have immense power to retard or to hasten them. Therein lies the key to their duty.

DIVERSE VIEWS ON HOME RULE BILL

Liberals Laud, Conservatives Condemn—British Press Comment on Great Constitutional Measure.

(By Daily News Leased Wire.)

LONDON, April 12.—Commenting on the home rule bill, the Standard (Unionist) says:

"Concerning the third home rule bill introduced by Mr. Asquith, the best criticism is the term which Sir Edward Carson opened his trenchant attack upon the prime minister's statement, 'the scheme is absolutely unworkable, a budget of fantastic proposals which would inevitably go to pieces in practice.'

"*It is worse than its predecessors* for it is more complex than either. Gladstone's first bill is crudely simple in comparison. Mr. Asquith's is equally dangerous, quite as inequitable and so clogged and hampered by the involution of imperial and local authority that it must break down in hopeless confusion.

"Human ingenuity could hardly have conceived a project more likely to embitter the relations between two portions of the kingdom or to weaken and humiliate one without producing the smallest benefit to the other."

Disorderly Scurrility.

The Manchester Guardian (Liberal) says, in part:

"There is an obvious lesson to be drawn from the fact that while the home rule bill was introduced by the premier and discussed by his supporters with the seriousness and dignity exacted of British politicians engaged in such a task, it was received by the *Ulster party in a spirit of frivolousness* which bordered more than once on disorderly scurrility. The cables will place vivid pictures of this contrast *in temper and demeanor before* the readers in every part of the empire and will strengthen the expressed conviction of all the self-governing dominions that our past delay in giving to Ireland what they already enjoy has been hurtful to the possessors as well as to the victims of minority ascendancy."

Fantastic Finance.

The Daily Mail (Unionist), in an editorial says:

"The finance of the bill is extraordinary, even fantastical. The English taxpayer is to make over a sum and about £2,000,000 for purely Irish may purely local expenditure. of the grope in all the constitution this arworld for any precedent people of one rangement. Here are money for the state required to another state to spend. parliament of a It contradicts the principles of Anglo-Saxon government and indeed, of common sense.

"No contribution of any kind is made by Ireland to the imperial service. She is released from all payments to the army and the navy, to the diplomatic service and to the civil list. She is not even required to pay interest on her own debt incurred in the past, and loans for land purchase are to be raised for her by England.

"*The manifest injustice* of the bill is accentuated by the remarkable provisions that 42 Irish members shall remain in the imperial parliament to interfere with English and Scottish affairs and determine the imperial policy, though Ireland is not to pay one halfpenny for the prosecution of that policy.

"The bill is a mere makeshift. It has 'provisional' written large upon it. It solves no difficulty, creates fresh grave complications in the Ulster question and contains in almost every clause the germs of perpetual strife and friction. It is a surrender to Mr. Redmond's dictation, not a serious *measure of federal reform.*"

Variations for the Worse.

The Times says:

"The scheme which the prime minister unfolded is not one that will be received in any quarter with much enthusiasm. It will disappoint the hopes of the Nationalist Ireland, it will not *allay the fears nor diminish the hostility* of Unionist Ireland, and, if we are not much mistaken, it will swell the rising tide of opposition in Great Britain to a level high enough to submerge the government and their bill *in the not far distant future.* It will not even satisfy any of the various schools of theoretical home rulers.

"The bill is in all essential points the old impossible bills of 1886 and 1893, with variations for the worse, necessitated by the greater complexity of the problem that has now to be solved."

Skillful Workmanship.

The Daily News (Radical) in an editorial headed "A Great Bill," says:

"The first impressions of the measure are, on the whole, entirely favorable. It is a skillful piece of workmanship based on liberal lines. It is not shadow but substance. It gives Ireland, if not full satisfaction, at least, a substantial fulfillment of her demands. It preserves inviolate the unity of the empire and gives to the minority in Ireland the fullest possible protection against any form of injustice.

"Its passage into law will mark the *beginning of a new and happier chapter* in the dark history of John Bull's other island, will remove one blot upon the records of our external rule *and will convert* that bride whom we have wedded but never won into a willing member of the household. Ireland, happily regenerated and self-respecting, will cease to be a weakness and a shame to the empire and will become a strength and a glory."

NEW STRENGTH IN THE SPRING

Nature Needs Aid in Making New Health-Giving Blood

In the spring the system needs a tonic. To be healthy you must have new blood just as the trees must have new sap to renew their vitality. Nature demands it, and without this new blood you will feel weak and languid. You may have twinges of rheumatism or *the sharp stabbing* pains of neuralgia. Ofter there are disfiguring pimples or eruptions on the skin. In other cases there is merely *a feeling* of tiredness and a variable appetite. Any of these are signs that the blood is out of order—that the indoor life of winter has lessened your vitality. What you need in spring is a tonic medicine to put you right and in all the world of medicine there is no tonic can equal Dr. Williams' Pink Pills. These pills actually make new rich, red blood—your greatest need in the spring. This new blood drives out the seeds of disease and makes easily tired men, women and children bright, active and strong. Mrs. Murray Marshall, Zephyr, Ont., says: 'I do not believe I would ever have been well and strong again but for Dr. Williams' *Pink Pills.* I was so weak and nervous that I could not be left in the house alone. I would take weak spells with my heart and think I was going to die. I tried doctors and electric belts, but they did me no good. Then a friend urged me to try Dr. Williams' Pink Pills. To my surprise I soon noticed my appetite improving and from that on I improved rapidly until I was enjoying the best of health and I have not been troubled with weakness or nervousness since." These pills are sold by all medicine dealers or can be had by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Millions of Folks Use Only Cascarets

They Never Have Headaches, Biliousness Sluggish Liver or Bowels or a Sick, Sour Stomach

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets and quickly too.

Don't let your stomach, liver and bowels make you miserable another moment; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress; cleanse your inside organs of all the poison and effete matter which is producing the misery.

Take a Cascaret now; don't wait until bedtime. In all the world there is no remedy like this. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a good, gentle cleansing, too.

TRADE CONDITIONS STILL CONTINUE SATISFACTORY

Distribution of Spring Merchandise in Large Volume—Outlook Favorable—Weather Backward.

(By Daily News Leased Wire.)

NEW YORK, April 12.—General conditions through the Dominion of Canada, according to dispatches to Duns Review from branch offifces of R. F. Dun & Co., in the leading trade centres, continue satisfactory in the extreme, *distribution of spring merchandise* being in large volume, with the total volume of transactions making a favorable comparison with those *of this period a year ago.*

Montreal reports that the holidays occasioned some interruption to business but that there is nothing special to note in the situation and the outlook is generally favorable. Orders are being received quite freely and much merchandise is being held back for the opening of navigation, which will be later than usual. Wholesale trade at Toronto was somewhat less active, owing to the holidays, and the backward weather has not been favorable for expansion in business, but building materials are in good demand, hardware is moving freely and trade is fair in groceries. Manufacturers are busy and the outlook in every direction is encouraging. All lines of trade are doing fairly well at London, but warmer and *more settled* weather would stimulate the demand for many kinds of merchandise.

SENATE CONDEMNED BY ONTARIO LEGISLATURE

(By Daily News Leased Wire.)

TORONTO, April 12—Resolutions condemning the senate at Ottawa for killing the highways bill and the Temiskaming railway subsidy bill were passed by the legislature this afternoon on straight party divisions of 71 to 19. Opposition amendments endorsing Ontario's claim in the matter of the two bills, but omitting censure of the senate were defeated.

The bill providing for the expenditure of *$5,000,000 in developing new* Ontario was passed after vigorous criticism by the opposition. The house is expected to conclude its business tomorrow.

REPORTED PURCHASE OF TERMINAL SITE

ST.PAUL, Minn., April 12—A report that the Great Northern, through J. J. Hill, has purchased ten miles of lake front near Fort William, Ont., as a site for steel works and blast furnaces and as an eastern terminus for a new *railroad through western Canada* could not be confirmed at the offices of the Great Northern railway company today. "Only one man *knows whether that is true,*" said one of the officials, referring to James J. Hill who is on his way from New York to St. Paul, and is expected home tomorrow.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a *wash of wintergreen,* thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist, writes: "I am convinced that the D. D. D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D. D. D. remedy for years."

We ourselves vouch for the D. D. D. Prescription for eczema and absolutely believe that it will take away the itch the instant you apply it.

Of course other druggists have D.D.D. Prescription. Go to them if you cannot come to us, but don't accept some big profit substitute.

But if you are suffering from any form of skin trouble we would like to have you come to our store, for we have had the agency for this remedy for so many years that we can tell you all about D. D. D. Prescription and how it cures eczema. Or you can get a free trial bottle by writing the D. D. D. Laboratories, 49 Colborne St., Toronto. The Poole Drug Co., Ltd., Druggists.

MODERN MARTYRS!

The age of martyrs is not passed. There are thousands of women all over the country enduring physical torture and mental anguish almost beyond description. They are not victims of persecution, like the martyrs of old; they are not called on to face the scaffold or the stake, but their sufferings—borne in silence and hidden from the world at large—are scarcely less intense.

These ladies, as a rule, are women and girls of refined and sensitive temperaments. Knowing that their sufferings are due to a disordered condition of the female functions, their native modesty deters them from seeking relief in the earlier stages; and when they do consult a physician, they usually get some drug mixture to take internally, which is not more effective for troubles of this kind than it would be for a toothache, a bruise, or any other strictly local ailment.

The seat of the trouble being in some one of the female organs, the remedy, to be effective, must act on this portion of the anatomy.

This is the secret of the success which always follows the use of ORANGE LILY in derangements of this kind. It is a strictly local treatment. It is absorbed directly into the parts that are inflamed and congested and its beneficent, soothing influence is noticeable from the start. The irritation of the delicate membrane is relieved, the congestion is overcome by the discharge of the watery matter which served to oppress the nerves and cause mental depression; the nerves are toned and invigorated; and the sunshine and joy of life again becomes part of her being. Read the following letters:

Archer, Ont., Feb. 1, '09.
Dear Mrs. Currah:—I received your kind letter some time ago, but was feeling so well, and not needing medicine, that I neglected replying sooner. I must say I have more confidence in ORANGE LILY than in any other thing I have ever used. Before I knew or found out anything about this medicine, I doctored away hundreds of dollars, and when I thought I was dying with inflammation of the womb, a box of ORANGE LILY was sent me through the mail from a friend. The first suppository I used I was greatly relieved, and in a few months completely cured. That was nine years ago this winter, so you can imagine with what esteem I hold the ORANGE LILY. I am thankful there is such a relief for poor, suffering women, for I have been one of them and can sympathize with others. Your sincere friend, MRS. NORMAN WEAVER.

Trenton, Ont., Dec. 4th, 1909.
Mrs. F. E. Currah, Windsor, Ont.—
Dear Friend,—I feel it my duty to write you a testimonial as to what Orange Lily has done for me. Last winter I was feeling very miserable indeed. I could scarcely do my housework during my menstrual period, and for two months or more I was never free from pain in the womb and ovaries. The pain would run down the groin, so I would frequently nearly double up. Then the pain began going up the back of my neck to my brain until I hardly knew what I was doing at times. Life was a burden indeed. I finally could endure it no longer, so went to our leading town doctor and had an examination. He pronounced it (I forget the word) a rigid condition of the generative organs, produced by repeated attacks of inflammation. He said I would have to take a course of treatment, and if that failed to overcome the rigid condition I might, in time, be compelled to have the ovaries removed. I objected to that, so filled out Dr. Coonley's symptom blank and forwarded it to him, and he diagnosed the disease the same as my local doctor, so I decided to take Dr. Coonley's Treatment. I have used two jars of Cerate Massage, two packages of Herbal Womb Tonic and six boxes of Orange Lily. It is eight months since I began the treatment, but I feel like a new woman. I work right through everything now. Hardly know a pain, even during menstruation now. I often say, "I would not take $100 and be in the state that I was last March." I feel that Dr. Coonley's Home Treatment is a Godsend to suffering womankind, and shall continue to sound its praises whenever I have an opportunity.

Yours gratefully, MRS. T. H. HATTON.

ORANGE LILY as a remedy for these ills, as well as for leucorrhoea, painful periods, irregularities, cancers in their earlier stages, tumors, displacements, lacerations, and all ovarian troubles, has long since passed the experimental stage. So confident am I of this that I will send ten days' treatment, which is worth 35 cents, to any sufferer ABSOLUTELY FREE. The treatment is inexpensive, used at home, and no physician is necessary. Send at once for the

which will demonstrate that ORANGE LILY will cure you. Enclose stamps, and address MRS. FRANCES E. CURRAH, WINDSOR, ONT., Can. Rep., Coonley Med Inst.. Delays are dangerous. 11

Various Topics of Interest to Women

WEEKLY THOUGHT

Work is only done well when it is done with a will. —Ruskin.

NELSON BEAUTIFUL

"Beautify, then beautify some more."

The above is the slogan the women of Nelson should adopt, in conjunction with the Nelson Improvement association, which is endeavoring to place Nelson on the map as one of the most beautiful cities on the continent. And this can be done if everyone will do his or her share, and it is up to her to see that he does his share.

There is a great work in this direction for the women of Nelson, and who indeed are more capable of carrying to a successful end this pleasant undertaking? I should also add healthful and invigorating occupation. It is not only healthful recreation for the worker, but it is also exhilarating and cheering to the observer, be they citizens or visitors. It gladdens the heart of the most happy or degraded of human beings to see nature in its most beautiful garb. Here in our own fair city of Nelson nature has given us one of the most scenic spots and fairest climes on the continent, and with very little exertion or work on our part we can make ourselves, if not the most, beautiful this from a floral point of view in the country.

Not only do our homes and our gardens require attention. Our business houses can be made to look beautiful. Just imagine what a change would be made to look beautiful, of Baker and adjoining appearance ness thoroughfares downtown business, from ground floor each window there were sitting a long top floor, filled with green foliage plants. Hangers could also be blooming ized to good advantage. It could not only help to make an impression on the visitor and tourist and in a very short period Nelson would be advertised broadcast.

The cost of all this is the smallest item to be considered. It only requires a small amount of energy and willingness (principally willingness) on the part of all. The Nelson Improvement association is ready to supply at an extremely low price shrubs and bushes, and I feel sure they will even go further if the citizens show an interest in this noble work. There is no reason whatever why Nelson should not be known as "the Flower City" the world over, and this can be attained if a combined effort is put forth. It is proposed to make the first week in July "Rose Carnival" week. When we are at it, make it a memorable one. Ample cash prizes should be offered as an inducement for the best displays, and for all beautifying efforts, as well as those already offered for best gardens.

It is a good and noble work; do not let it wane. Following is a list of rose bushes that can now be secured at a low figure upon application to the Nelson Improvement association. Address P. O. box 825.

PERSONALS

Mrs. Boyers, the pioneer of the movement for the higher education of women in Ireland, died in Belfast last week at the age of 79. She was the founder of the Victoria college, Belfast, one of the most successful ladies' educational establishments in Ireland. Mrs. Boyers was the mother of Sir John Boyers, the leading Belfast surgeon. She was a member of the senate of the royal university, who conferred the honorary degree of LL.D.

To Miss S. C. Harrison belongs the distinction of being the first woman member of the municipal council of the city of Dublin. One day recently a number of Miss Harrison's friends met at her house in Harcourt street to present her with an address, and an official robe, in honor of her election. Mrs. Haslam said that for the first time in the history of Ireland a woman had been elected upon the corporation of the city of Dublin, one of the most important bodies existing in the country. Miss Harrison was known throughout Ireland not only as one of our most distinguished artists, but as one of the most devoted helpers of the poor of Dublin.

Foulards in lovely shades of blue and rose are to be much in favor for the one-piece gown so practical for spring wear.

Since the disappearance of the Mona Lisa from the Louvre Mona Lisa belts, bags and other belongings are springing up like mushrooms on every hand. A new notion is the Mona Lisa waist, built of fine lawn, with insertions of Val. lace, pin tuckings and tiny crochet buttons added in modish style. The feature of the blouse is a removable peplum, which, when desired, may be adjusted under a shorter peplum of Venice lace which finishes the blouse at the waist line.

HOUSEHOLD SUGGESTIONS

To remove grease spots from wall paper, sprinkle a piece of blotting paper with baking soda and hold it. The blotting paper will absorb the grease and the soda prevents injury to the colors of the wall paper.

* * *

Steel knives that are not in general use can be kept from rusting if they are dipped in a strong solution of soda.

* * *

Heat your plates before putting hot pies on them when first taken from the oven. The hot pies on cold plates cause a sweat that makes soggy undercrust.

* * *

When you are picking beans, or in fact any kind of dry fruit, you will find that it makes your work considerably lighter to put the fruit to be picked into a colander. The finer dust and chaff will go through and save you the trouble of picking it out and the danger of having it stay in.

* * *

Ordinary wall papers may be cleaned with a soft clean flannel dipped in fine oatmeal.

* * *

To prevent old potatoes from getting black put one or two tablespoonfuls of milk into the water in which they are boiled.

* * *

To keep blue clothes from fading, add blueing to the starch.

* * *

An old-fashioned Irish stew is much improved by adding some stuffed olives, a dash of paprika and teaspoonful of minced parsley just before serving.

* * *

A pair of scissors take the rind from ham or bacon better than a knife does.

After a bottle of glue has been opened rub a little fat of some kind around a sound cork before inserting it in the bottle, and the cork will pull out easily. The fat excludes the air. Glass stoppers should be treated the same way.

* * *

Curtains stretch when hung up by the edge. Try hanging them double over the line.

BONCI JOINS ANVIL CHORUS

Some critic recently said of Bonci that he sang like Caruso. Bonci retorted: "Like Caruso! Why he screams. I sing." There you have a unique case of the jealousy that exists among musicians, and a sample of the vitrolic manner in which they vituperate one another's accomplishments. In view of this fact the following belated, but still eloquent and sensible piece of advice by John Philip Sousa, is worth republishing. He said:

"There is no better time to swear off knocking your brother-professional than the gladsome days of Yule-time.

"Let us conclude that all singers, except ourselves, are not putrid; that all players, except ourselves, are not punk; that all composers, except ourselves, are not pifflers; and, in the words of the Saviour, 'Let your light so shine before men that they may see your good works, and glorify your Father which is in Heaven.'"

IS A WOMAN WORTH HER KEEP?

Is the American woman worth her board and keep? Frequently not, says Marian Fairfax, the author of "The Talker."

"We've evolved a new type," said she, "the woman who wants to do nothing to justify her existence. The country is full of such negative creatures. They are restless, discontented, uninterested in their husband's affairs, ready to accept everything."

CARE OF FURS

Before packing away furs let them have all the fresh air and sunlight possible. In fact if you have valuable furs and store them yourself give them an airing and sun bath every few weeks. Then wrap them up in brown paper and hang away in a dark cupboard. When they are taken out they should be shaken and beaten lightly to keep them soft and fluffy. Never pack furs closely, as it flattens down the hair. The practical girl will find that it pays to take a little additional time and care in putting away her furs.

BABY'S LITTLE ILLS

Baby's little ills are many and need close attention. Worms are among the most common of these ailments — there being scarcely a child who is not afflicted by them at some time or other. These, though, can be readily banished by the frequent use of Baby's Own Tablets—the only remedy sold under the guarantee of a government analyst to contain no opiate or other harmful drug. Concerning them Mrs. Jos. Daigle, Ste. Perpetue, Que., writes: "My baby was troubled with worms; he was nervous and had no appetite. I gave him Baby's Own Tablets and he was soon well again." The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

TRIED EVERYTHING WITHOUT RELIEF

Until I took "Fruit-a-tives"

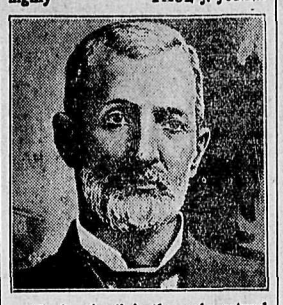
SARNIA, ONT., Feb. 5th, 1910.

"I have been a sufferer for the past 25 years with Constipation, Indigestion and Catarrh of the Stomach. I tried many remedies and many doctors but derived no benefit whatever.

Finally, I read an advertisement of 'Fruit-a-tives'. I decided to give 'Fruit-a-tives' a trial and found they did exactly what was claimed for them.

I have now taken 'Fruit-a-tives' for some months and find that they are the only remedy that does me good.

I have recommended 'Fruit-a-tives' to a great many of my friends and I cannot praise these fruit tablets too highly" PAUL J. JONES



"Fruit-a-tives" is the only natural cure for Constipation and Stomach Trouble, because it is the only medicine in the world that is made of fruit juices and valuable tonics. Hundreds of people have been cured, as if by a miracle, by taking "Fruit-a-tives", the famous fruit medicine.

50c. a box, 6 for $2.50, trial size, 25c. At dealers, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

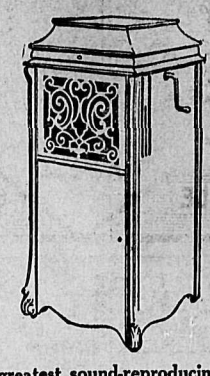
The Amberola



—not only the greatest sound-reproducing instrument—not only the greatest MUSICAL instrument—but the greatest

Edison Phonograph

THE Amberola brings to your home not only all of the extreme pleasure to be derived from *all* of the very best of every kind of entertainment, but a *further* pleasure in the possession of an exquisitely designed and beautifully finished piece of furniture that will take its place in your home in harmony with your other precious possessions.

You have your choice of four finishes—Mahogany, Circassian Walnut, Golden Oak and Mission Oak. The Amberola is the only "concealed" horn instrument *that is an Edison*—Thomas A. Edison's highest development of his own invention, the Edison Phonograph. That means that it is the instrument with exactly the right volume of sound for the home, that has the sapphire reproducing point that does not scratch or wear the records and lasts forever—no changing needles; that it plays both Edison Amberol (four-and-one-half minute) Records and Edison Standard (two-minute) Records as well.

See and hear the Amberola and the many other styles of Edison Phonographs at an Edison dealer's today. Every Edison Phonograph has the definite Edison advantages. And there is an Edison at almost any price you wish to pay.

Edison Phonographs, $16.50 to $240.00. Edison Standard Records, 40c. Edison Amberol Records (play twice as long), 65c. Edison Grand Opera Records, 85c. to $2.50.

PREPARE FOR OPENING OF LAKE NAVIGATION

PORT ARTHUR, April 12.—Although no open water is in sight, the ice breaker Whalen has the ice in the harbor so cut up that boats can be moved anywhere and none will be delayed getting into this port after passing the Soo even if the ice is not moved out. It is not expected locally that any boats will be seen from the east before the first week in May. Crews are busy fitting out the many steamers which wintered in the harbor.

CONTRACT LET FOR MONSTER LINER

Will Be Six Thousand Tons Larger Than Olympic or Titanic—Others Planned.

(By Daily News Leased Wire.)

NEW YORK, April 12.—A contract for building a 54,000-ton transatlantic liner, which means a ship that will be 4,000 tons larger than the Hamburg-American liner Imperator, now in process of construction, and nearly 8,000 tons bigger than the Olympic and the Titanic, was let by the North German Lloyd line yesterday and it is stated that the letting of this contract, which will mean that by 1915 the great German company will own a fleet of these giant liners. The exact tonnage of the new liner, which is designed to be the speediest of its type afloat, is not given, but it is stated that her tonnage will be about twice that of the George Washington. The George Washington is a 27,000-ton ship.

JOE AFTER PRINTERS WHO SET UP KIPLING POEM

(By Daily News Leased Wire.)

LONDON, April 12.—Joseph Martin, the well known Liberal member of parliament, has announced his intention of asking the attorney general in the house of commons if he intends to prosecute Rudyard Kipling for the offense of sedition for the verses entitled "Ulster?"

Mr. Martin will also ask if the government intends to prosecute the publishers of the verses and the printers who set them up in type. Mr. Kipling's poem was published in the London Morning Post. The last lines are:

"What answer from the north,
One law, one lord, one throne.
England may drive us forth;
We shall not fall alone."

DOCTORS AFRAID TO OPERATE

Could Not Remove Stone From The Bladder. Gin Pills Enabled Him To Pass It.

JOLIETTE, P. Q.

"During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone In The Bladder. He decided on an operation and was assisted by another doctor. They said the calculus was larger than a bean and too hard to crush, and that they could not take it out.

I returned home suffering greatly, and did not know what to do, but was recommended by a friend to try GIN PILLS. I bought a box and found relief from the pain at once. I took a second and third box of GIN PILLS after which I went back to the specialist.

THEY COULD DO NOTHING FOR HIM

He told me the calculus was reduced in size, still he could not relieve me of it, although he tried for two and a half hours.

I returned home and continued to take GIN PILLS as they reduced the pain very much, but I did not expect they would relieve me of the stone, but to my great joy, I passed the stone on October 3rd, and am now a well man and very happy.

I am sending the stone to you so that you can see for yourself what a great work GIN PILLS did for me. GIN PILLS are the best medicine in the world and because they did so much for me, I will recommend them all the rest of my life".

J. ALBERT LESSARD.

Isn't it wonderful? Just think of these simple pills, that even children can take, being able to perform what the greatest specialists in Canada could not do. Surely, the days of the miracle have not passed away, as long as we have Gin Pills. These wonderful pills dissolve stone in the bladder or kidneys because they are a natural solvent for uric acid, which causes calculus. If GIN PILLS are not sold in your neighborhood, send us 50c. for a box or $2.50 for 6 boxes. Sample free if you write us mentioning this paper. National Drug and Chemical Co. of Canada Limited, Dept. They Expressed Their Wishes

¶ One hundred and fifty merchants wrote in to the makers of "Semi-ready" for prices and particulars in a single month.

¶ Fifty merchants were acceptable and accepted.

¶ Fifty were not acceptable.

¶ Fifty others were, but they argued that the Semi-ready label prices were too low, and did not offer them sufficient profit. They wanted to fix their own prices.

¶ It is well for the Buyer of Clothes to know this last reason, for when he finds a Semi-ready store like ours he can know that we are content to do a large volume of business on a small profit basis.

¶ Semi-ready Clothes are the only clothes sold at standard, fixed and close-to-cost prices—marked by the makers—and guaranteed worthy. This is the only store selling

Labor Column

(By R. P. Pettipiece)

The Trades and Labor Congress of Canada will hold its 1912 convention at Guelph, Ont., in September next.

A federal labor union has recently been organized at Lethbridge, Alta., and the tailors and bakers are on the way.

A revival of organization work has struck Ottawa; no less than four new unions having been chartered during the past six weeks.

Sydney, N. S., unionists report membership increasing and union participation in a municipal campaign.

Winnipeg Trades and Labor council has an organization committee that seems to be doing good work; in spite of the tremendous odds against them owing to the thousands of imported job-seekers.

Organizer B. D. Grant intends putting in a branch of the Brotherhood of Carpenters and Joiners at Chilliwack, B. C., next month.

The May Day celebration proposed in New Westminster for this year is not under the auspices of labor, but in the hands of "citizens," boy scout trainers, the militia and civic and provincial government machinery.

Vancouver unionists are arranging for a suitable "opening" of the new labor temple.

"It is an error for any one to complain of the high dues of the American Federation of Labor. The local and national trade unions fix their own dues; hence the workers in the skilled and the unskilled occupations have the matter entirely in their own hands on becoming organized. There are now a number of national organizations in the unskilled trades, the dues of which are not more than 50 cents per month. As to the dues of the A. F. of L., the affiliated organizations pay two-thirds of a cent per month for each member thereof; that is, eight cents a year for each member. Is that excessive?"—Samuel Gompers.

Another presidential election being in sight in the United States, President Gompers of the A. F. of L. is out with his annual threat to go into politics, or "to take such action as in its judgment the situation may warrant. . . ." But as usual nothing definite will be done. Words, words, words.

Cranbrook, B. C., unionists have organized a Trades and Labor council, in which the typos and railway men took an active part. The retail clerks have also organized a local, and the teamsters are lining up for similar action.

A local of the Bartenders' league has been reorganized at Calgary, Alta., by Mark C. Rogers.

Galt, Ont., street railway employees have organized a division.

Victoria Sheet Metal Workers' union have mailed $25 to the secretary of the British Columbia Federation of Labor, to be used in the defense of victims of the recent free speech fight in Vancouver.

Every union in the province affiliated with the British Columbia Federation of Labor has been mailed a copy of the referendum on the question of endorsing the principles of Socialism, also the referendum on the constitution and bylaws. Any union that has not received same can obtain copies upon application to Secretary-Treasurer Midgley, P. O. box 1007, Victoria. The returns of the vote on these two referendums will shortly be published in The Federationist.

The strike of the Machinists and Boilermakers and Helpers on the Grand Trunk Pacific railway in western Canada is still in full force, being now in the sixth month. The men are standing firm and putting up a good fight for their rights.

The Toronto Trades and Labor council has issued an appeal to the public of the entire Dominion, in aid of the striking cloakmakers at T. Eaton's Toronto factory. The official protest of the joint board of the cloakmakers is at hand. We think that if they dropped protesting about the manner in which the old employees have been discharged, "without conference or reasonable notice," and got down to study the actual position of the modern wage earner in the typical large industry, they would couch their appeal for aid in different language. That used in the circular would have been fitting enough 50 years ago, when there was some human contact between employer and employee, the former being in daily touch with the latter, but in these days of impersonal corporations, with no "soul to be damned or body to kick," it is a curiosity.

C. M. O'Brien, Socialist member for the Rocky Mountain riding in the Alberta legislature, is the beau-ideal of a Socialist representative. Always on the stump, in season and out of season, whether an election is in sight or not, he would rather be talking Socialism than have his breakfast. When he thinks it time to give the Alberta farmers a rest he drops across to the coal miners in the Crow's Nest and puts in time there. Then he takes an idea that he is wanted in Saskatchewan and the far west hears rumors of his activity that usually form the first intimation that it receives that he was thinking of taking the trip.

"Joe" Adair, Edmonton, a well known typo of the Canadian west, has signed on for life with Miss Tremblay, a member of the Edmonton Bulletin editorial staff. They are spending their honeymoon 'mid the soft salt sea breezes of the briny Pacific. May they never have to turn a rule for a meal is the wish of British Columbia unionists.

The Nelson Daily News and the Edmonton Daily Capital have added leased wire news service to their equipment, as well as new presses and other evidences of the growing time of the west. Both are manned with union men throughout—and they look it.

The Central Labor Council of Alameda county, Cal., requests that special attention be called to the following condition of affairs in King Capital's domain:

All trades, skilled or unskilled, are overcrowded. Last year the building trades did not average more than half time. About 40,000 mechanics are walking the streets of San Francisco; in Oakland there are 15,000 more, who have been attracted by the lies circulated as to contemplated local improvements. The improvements are to be made, but the law provides that only citizens can be employed on the work of a public character. There are 500,000 people in striking distance of Frisco ready to start on the exposition buildings, and 25,000 in Oakland waiting for the harbor improvements to start up. In the iron trades a fight has been in progress in Los Angeles since September 30, 1910, and in the Puget Sound since June 26, 1910, and there are 900 of the Southern Pacific shop men out in Oakland.

Cost of living is much higher than in the eastern, northern or southern states. Clothing costs 100 per cent more in Oakland than in any Canadian city, and 40 per cent higher than in the eastern states. The poorest kind of accommodation costs from $6 to $8 per week (rising), cottages rent from $18 to $30 a month, to which daily carfare has to be added.

MANITOBA UNIVERSITY SITE

(By Daily News Leased Wire.)

WINNIPEG, April 12.—"We hope that the council will be able to remain where they are and if they do the government is willing to provide additional land for the additional buildings necessary to equip the university in every way possible. We would certainly like if you could agree on a general reorganization, but I think in any case, rather than have the university go out four or five miles, which I think would be a mistake, we might in any event, be willing to buy this land and allow you to do as you please to modernize your institution."

This was the reply of Premier Roblin to a deputation representing the University of Manitoba that waited upon the members of the government yesterday in reference to the site on Broadway for the buildings required for the widening of the operations of the institution. The deputation was led by Archbishop Matheson, chancellor of the university, and it was received by the premier, the minister of education, the minister of public works and the provincial treasurer.

AMERICAN WHEAT REACTS

(By Daily News Leased Wire.)

NEW YORK, April 12.—The forces of reaction were again conspicuous in today's operations on the stock exchange. The opening here was irregular, with another spectacular rise in Canadian Pacific, its 2-point advance being in response to a similar gain in London. New York Central was more active and strong in the initial dealings, as were also American Can, common and preferred. These were more than offset, however, by pressure against Steel and Union Pacific.

London bought and sold upward of 30,000 shares here with a small balance of sales, chiefly Union Pacific, Amalgamated Copper and Steel. There was a better inquiry for money in London with a resultant stiffening of discounts. Domestic bank clearings gained over 9 per cent over the corresponding week of last year but were practically the same as in the same week of 1910. The gains are due chiefly to operations of local financial institutions in connection with stock market activity.

MONTREAL MARKET DULL

(By Daily News Leased Wire.)

MONTREAL, April 12.—Under the influence of the weakness in New York the Montreal market became dull and uninteresting today, business being considerably lighter in volume and with few changes of any consequence in prices. C.P.R., after opening at a new record level for Canadian markets of 253½, an overnight gain of 1¾ points, the price worked off with few rallies to 251 before noon. The decline continued on further weakness in New York until the price was off to 249¾. From this low level for the day there was a small recovery to 250 in the last transactions, leaving the stock 2¾ points off the opening and with a net decline, the turnover in the afternoon being only some 350 shares. Soo made a new high ground on the present movement at 143 in the morning but reacted a half point later. In the afternoon it was inactive and the last sale of the day left it with a net gain of one-half point. Cement common contributed the largest individual total to the day's business. Both common and preferred made gains, the common equalling its high market of the year at 30½ and holding the advance at the close. The preferred was up ¾ point to 90¼. The common stocks were also on the strong side. Dominion Textile common making new high ground for the year of 70½. Richilieu was off ¾, Rio ⅛, *Toronto Ralls ½ and Dominion Steel ½.* Total, 11,400 shares, of which 320 were mining and 32,200 bonds.

LONDON CLOSES WEAK

(By Daily News Leased Wire.)

LONDON, April 12.—Money was in demand and discount rates were firm today. The settlement was concluded satisfactorily on the stock exchanges, with the exception of dullness in the gilt-edged section, due to politics. The markets were cheerful and active. Home rails closed higher under the lead of Southeastern railway shares, which advanced 5 points. Marconi touched 4¼ on American buying and Mexican rails and oils were buoyant. There was an outbreak of speculation in the tin shares. Canadian Pacific was strong at an advance of 2%. The list relapsed sharply in the afternoon under New York selling. Canadian Pacific was especially weak and led the decline. The closing was weak.

CHICAGO WHEAT MARKET

(By Daily News Leased Wire.)

CHICAGO, April 12.—Excited competition for wheat today resulted in a net advance of 1⅛ to 3⅛@3⅝c a bushel. This means that since Monday the price of the cereal has risen 7¼ to 8c. Disasterous impairment of crop prospects all the *way from Ohio to Missouri* was what put force into the buying. Largely as a result of the wheat bulge, corn reached a new level for the year and closed 5⅝@5⅞c to ⅞@1c higher than last night. Notable gains were 5⅝@5¾c to 1¼@1⅜c for oats and 25 to 37½c for provisions.

KASLO CHIEF OF POLICE IS DEAD

Had Occupied Position for Twelve Years—Health Failed During Past Two Years.

(Special to The Daily News.)

KASLO, B. C., April 12.—The Union Jack flung at half mast this morning from the city offices proclaimed the passing of Edward J. Cody, chief of police here, who died on Friday morning at 1:50 o'clock of a complication of ailments, among which heart failure was a determining factor. The late Mr. Cody was 57 years old and a man of powerful physique. He was born in Prince Edward Island, and moving to Nova Scotia he lived for 20 years in the colliery district of Westville and Stellarton, where he married. His family consisted of a daughter and a son. Coming to Kaslo in July, 1897, he became chief of police in November, 1900, during the incumbency of G. A. Carlson as mayor. His record during the 12 years of his tenure of office was that of a faithful officer. His health was failing for the last two years, but he stuck to his post and used a horse to ride on lengthy missions to the head works of the water system, the superintendence of the water having been attached to his other duties. He applied for and got leave of absence on January 15 last and spent some time in consultation with specialists in Nelson and elsewhere. He did not appear to entertain any idea that his end was near, and was able to move around almost to the end. He is survived by his wife and son Lawrence, electrician for the Kootenay Electric company here, the daughter having died nine years ago; and a brother, Henry Cody, lives here. He was a member of the Roman Catholic church.

The funeral will take place on Sunday at an hour which will be duly advertised.

STEAM SHOVEL AT WORK CLEARING MUD SLIDE

(Special to The Daily News.)

THREE FORKS, B. C., April 12.—A steam shovel from the main line arrived on Thursday to assist in clearing out the big mud slide that is blocking the railway track above here. Phil Wade, general roadmaster, is personally superintending the work.

G. H. *Murhard has decided to build* a large addition to the Slocan hotel. John Brennan of Silverton will have charge of the work.

J. F. Martin and bride have returned to town and taken up their residence on Anderson avenue.

Dr. Frank, veterinary surgeon, of Nelson, is here making an inspection of the *Rambler-Cariboo horses.*

Unless exceptionally warm weather sets in shortly the ice will not be off Bear lake in time for the opening of the trout fishing season, which commences on May 1.

A Little Beauty

Contains five acres and is without doubt the snuggest, most compact, best located little fruit farm along the West Arm of Kootenay lake. It is situated on the south side of Kootenay Lake, one mile west of Proctor, and is within five minutes' walk of the lake. Slightly elevated on a fine bench, it commands a fine view of the main Kootenay lake, the West Arm of Kootenay lake and the new C.P.R. tourist hotel on the lake shore directly opposite.

This farm fronts on the main government wagon road and also has good graded road leading to the lake shore and steamboat landing. It is situated in the centre of a large and prosperous community, and has church, schools, stores, postoffice, and first class class daily transportation and mail.

This is a level, rich piece of fruit land, well watered by Narrows creek, which flows along the south boundary line, and from this stream water can be piped at a very nominal cost to any part of the farm. The land is easy to clear, and when put into shape would certainly make a swell farm. Less than $250 ought to put it into shape for planting to orchard. Anyone contemplating fruit farming on a moderate scale among pleasant surroundings will find this proposition almost all that could be desired.

Summing up, its good rich soil suitable for growing all kinds of fruits and vegetables, splendid location in the centre of one of our most prosperous districts, the beautiful view, fine surrounding scenery, government roads, daily mail service, first class transportation, the very best of trout and salmon fishing practically at your door, placing you on a farm which surrounding orchards have thoroughly demonstrated will produce the highest class of fruits and vegetables grown in the British colonies, on a farm in a portion of the Kootenay district where values will increase with more rapid strides than elsewhere, we submit it to you as the best property ever offered in this district. Within one year this farm will be worth $350 per acre.

Price $800 cash, or $1,000 on terms.

BRITISH COLUMBIA is Canada's largest and richest province and is being opened up with tremendous rapidity by three trans-continental lines of railroad, as well as numerous other railroads. The British Columbia government has undertaken to build a north and south railroad, running from Vancouver to Fort George, and from Fort George through the Peace River district, a distance of 900 miles. It is estimated that Three Hundred Million Dollars will be spent in railroad building in British Columbia during the next five years, and this work will open up a virgin country of fruit and farm lands as well as timber and mineral resources. You can buy large or small tracts of farm lands now at 90 per cent less than the same land will cost you within five years. Let us send you information in regard to the vast empire which is being opened up. The climate is the best in Canada. Write quick for full information. SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon territory, the North-west Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

FOUND THAT LEPER WASHED DISHES

Miss Isabel Hatch, Missionary, Will Arrive Here From India This Evening.

A distinguished visitor to Nelson will arrive on this evening's coast train in the person of Miss S. Isabel Hatch. At the accession of King George this lady received from the governor general of India the Kaiser-i-Hind silver medal in recognition of her many years of work among the lepers of the Teluga district. Miss Hatch is the first woman to receive this decoration from the British government. Just before sailing for home she was presented with a solid gold medal "From the Public of Ramachandrapuram," with her name and the dates "1895-1911" on the face side, as a recognition of her valued service to the country.

Miss Hatch is the superintendent of the Ramachandrapuram leper asylum. She is now home for a year's rest and will be the guest of Dr. and Mrs. Wolverton while in Nelson. Dr. Wolverton was principal of Woodstock college, Ontario, when Miss Hatch studied there in preparation for her lifework. The story of how this missionary became interested in the lepers of India and their redemption is an interesting one. Her attention was first called to those wretched and hopeless people in 1895. In her itineraries she continually met lepers in various stages of the disease, from the all but spotless and unrecognized leper to the wretched limbless victims of the terrible disease. In one place she discovered her milkman to be a leper, and later on her waterman, who helped to wash dishes and attend to other household duties proved to be a leper.

Hosts of others besides herself were living in those unsafe conditions, while the situation appealed to her strongly from the standpoint of the lepers, many of them in a pitiable condition. Miss Hatch, confronted with great obstacles, but with a supreme faith and courage, soon had the joy of opening a leper mission and later founding the Dr. Kellock Home for Lepers, in memory of the late Dr. Kellock of Perth, Ontario, whose widow gave the bulk of the money with which to furnish the work. Under Miss Hatch's high ideals and wise guidance, steady progress has been made. There are now three compounds, splendidly equipped with hospital, dispensary, chapel with homes, one for male lepers, one for the women, and one for untainted children. To this refuge no leper sufferer is denied admittance so long as there is room. All lepers of India are outcasts in the eyes of society, no matter if they are of the high cast class by right of birth and station before contracting the disease.

Mrs. Richard Elliott died at Dyer's Bay, on the peninsula, recently, at the age of 100 years and 20 days. The old lady retained her mental faculties up to the end.

REPORT OUTLINES PUBLICITY WORK

Arrangements for Entertaining Newspaper Men and Winnipeg Business Men

Following is the monthly report of the publicity committee of the board of trade:

A party of 100 business men of Winnipeg will tour British Columbia for a fortnight in May. On this announcement being made, an invitation was extended by the publicity bureau on behalf of this board, the city and the Kootenay, for the party to make Nelson a base from which to cover thoroughly the southern interior. Indirect information indicates that the draft itinerary includes the Kootenay and efforts are now being centered on inducing the party to take the Crow's Nest route for the inward trip instead of the outward.

In association with the Nelson Press club, the bureau is promoting the coming convention of the Alberta-British Columbia Press association. The dates for the convention will probably be announced tomorrow from Cranbrook, where an executive session is being held. At the invitation of the association, the chairman of the committee, Mr. Roberts, is attending that meeting, and assisting in shaping an attractive program. About 60 newspaper proprietors and editors may be expected if the charms of this region are sufficiently set forth during the intervening months.

Intimation has been received that the West Kootenay, on account of its superior rainfall, can hardly compete in the competitive exhibition of the dry farming congress at Lethbridge next October. Further assurances have been received however, that a West Kootenay exhibit not entered in competition, is thoroughly in order, and will be given all the space required, even to the extent of a whole building if needed. The bureau in this matter will work in co-operation with the fair board and the Kootenay Fruit Growers union.

SUBMITS PLANS FOR NEW BLOCK

Fine Brick Building Will Be of Two Stories—New Type of Loading Platform.

Alex Carrie has submitted a set of plans to the Brackman-Ker Milling company for the erection of a fine brick building of two stories and basement. The building is to be 70 feet by 107 and will be a very substantial structure. There is to be an electric hoist and crusher and a special kind of loading platform, which was suggested by G. A. Brown, the Nelson manager of the Brackman-Ker company.

Mr. Brown states that he is forwarding the plans to Vancouver for approval and as soon as he receives a favorable reply work will be commenced.

NELSON NEWS OF THE DAY

Dr. N. Wolverton returned on Thursday evening from a business trip to Ontario.

Rev. E. S. Logie will address the men's meeting tomorrow afternoon at the Y.M.C.A. at 4 o'clock.

With the commencement of the gardening season the city police announce that the owners of chickens found running at large will be prosecuted.

The members of the Nelson Male Voice choir are reminded of the special meeting convened for Sunday afternoon at 2.15 o'clock in the Oddfellows' hall.

Those who have not returned their copies of the part song used in the concert of March 26, are requested to mail them to H. Treby Heale, postoffice box 484, Kaslo B.C.

Next week the Nelson Street Railway company will commence overhauling their cars for the summer traffic, and for about two weeks there will only be one car in operation.

The luncheon clock, which was donated by Mrs. J. J. Walker to the Pythian Sisters, was raffled at last night's meeting and was won by No. 60, held by R. Hamilton of Hamilton, Ont.

McQuarrie & Robertson state that the report of the sale of Mrs. Vicar's house on the corner of Gore and Ward streets, which appeared in a recent issue, was included in their list by an oversight.

In honor of Mrs. W. J. Goepel and Mrs. Wright, who are leaving the city shortly, St. Saviour's Women's Auxiliary will be at home on Monday afternoon from 4 to 6 o'clock, at the residence of the latter.

The proceeds from the matinee at the Starland theatre today will be given to the Ladies' Aid of the Presbyterian church. Special pictures have been secured. Solos will be rendered during the afternoon.

Miss S. Isabel Hatch of Ramachandrapuram, Teluju, India, will address the Sunday evening service of the Baptist church. In view of this the subject announced for this service will be postponed.

E. J. Cody, chief of police of Kaslo, died on Tuesday from heart disease. Mr. Cody had been ailing for the past six months but was able to perform his duties until two months ago. His death is greatly regretted for he has been in Kaslo for 14 years and was a much respected member of the community. He leaves a widow and a son.

The sale of tickets for the grand concert to be given on the evening of April 18 in Trinity Methodist church by the Toronto Glee club is going forward with great rapidity. All lovers of good music will regard this event with keen anticipation and delight at the thought of hearing once more H. Ruthven McDonald, who captivated his auditors last year in the same church.

AT THE THEATRE

At the opera house last evening Miss Verna Felton and the Allen Players produced the well known play, "Camille," to a crowded audience. Miss Felton has played "Camille" in Nelson before and on the occasion of her last visit to this city she appeared in "Zaza," and in both these plays thoroughly established herself in Nelson as an emotional actress of the first class. Her portrayal of "Camille" last night was a really most excellent and perfect one in all its lights and shades; difficult as the part is she did it full justice. She swayed her audience from first to last and displayed rare and dramatic talent. "Camille" is the only heavy play that Miss Felton has treated Nelson to during the present engagement, the rest of the productions being of a lighter character. In the third and fifth acts last night Miss Felton was most dramatic and tragic in the extreme. Her whole performance was beyond praise.

Miss Hudars' sang most charmingly again last night and elicited very warm applause for here rendition of "My Wild Irish Rose."

The Royal Hungarian quartette, who have long ago become great favorites in Nelson, aga'n played last night most tuneful selections. These musicians have added greatly to the plays given by the Allen Players. They are most accomplished performers and have rendered great aid in the accompaniment of Miss Hudars' songs.

The matinee this afternoon will be "The Lottery Man," and this evening the brief engagement of Miss Felton and the Allen Players will close with "The Transgressors," said to be a strong play, given here for the first time.

At the Starland a matinee will be given for the benefit of the Presbyterian Ladies' Aid, who will have entire charge. A lively and interesting program will be shown, principally comedies and scenes. Good music and songs are included. "Brother Bob's Baby" is a sparkling comedy with no end of ludicrous situations. This particular baby caused his uncle many difficulties and finally forced him to sail for Europe. The picture of the Hudson river steamer and the one of the New Pennsylvania station in New York are both excellent. "Fun on the United States ship Vermont" is a pleasant, well photographed picture of Jack Tars having a good time. There's a three-round mill in it. "A Troublesome Picture" is a very troublesome picture of an Egyptian girl; it is a good comedy picture. The Gaumont Graphic with all its latest news photographs will be shown.

LONDON SOCIETY ATTENDS WEDDING

Heir of Duke of Sutherland Is Married to Daughter of Lord Lanesborough.

(By Daily News Leased Wire.)

LONDON, April 12.—The most important wedding of the London season was solemnized at St. Peter's, Eaton Square, yesterday afternoon, when the Marquis of Stafford, elder son of the Duke and Duchess of Sutherland, was married to Lady Eileen Butler, elder daughter of the Earl and Countess of Lanesborough.

Both the bridegroom and the bride are very young. The marquis will not be 24 until the end of August, while Lady Eileen completes her twenty-first year in November.

The church was beautifully decorated, while flowers and two giant palms formed an archway beneath which the couple stood during the first part of the service, which was performed by the Archbishop of Armagh.

Nearly everybody in society now in London seemed to be at the service. Several members of the royal family attended, these being the Duke and Duchess of Argyll, Prince Arthur of Connaught and Prince and Princess Alexander of Teck. Others present included the Duke and Duchess of Sutherland, Blanche, Countess of Rosslyn, Lord and Lady Castlereagh, the Countess of Warwick, Lord and Lady Brooke, the Duchess of Westminster Mr. and Mrs. Whitelaw Reid, Mrs. Asquith, the Marchioness of Dufferin, Mrs. Winston Churchill, the Countess of Lanesborough, Earl and Countess Grey, and the Marquis and Marchioness of Hamilton.

GENERAL GRANT DEAD

(By Daily News Leased Wire.)

NEW YORK, April 12.—Major General Frederick Dent Grant, son of the famous general of the Civil war and himself commander of the department of the east of the United States army, died at the Hotel Buckingham in this city at midnight. The end was sudden. It came barely an hour after the first alarm had been sounded that General Grant was even seriously ill. The alarm itself had come before it had been generally learned that General Grant was even in the city, his presence here having been kept secret. The first information as to the cause of death was choking, but later it was stated that the cause was heart failure, following diabetes and attended by digestive disturbances. Mrs. Grant and a nurse were alone with the general when he died.

PAY RECORD PRICE FOR MONTREAL LOT

(By Daily News Leased Wire.)

MONTREAL, April 12.—One hundred dollars a square foot was paid today to the Boxer estate for the lot at the corner of St. Francois Xavier and St. James streets, the total figuring out $503,000 for a block about 53 by 100 feet, the highest price in the history of the city's real estate. The purchase was made by a syndicate which will erect a big office building.

HEALTH TO MILLIONS

Ever since two noted French chemists, after years of scientific work in their laboratory announced their important findings the health of millions of people has been improved as one result.

This gives some idea of the great good that is constantly being done by scientists for the public. Our delicious cod liver and iron tonic, Vinol, which resulted from their investigations into the chemistry of cod liver oil, has made it unnecessary for people to dose themselves with vile tasting and ill-smelling cod liver oil, for now all the good effects can be had from Vinol. It is a splendid thing to restore health, strength and vitality to all who are weak, pale, thin and, as it contains a very strengthening form of iron, it enriches the blood. We say "Try Vinol—it must please you or you get your money back."

WILL BE RIOTING AND BLOODSHED

Effect of Home Rule Bill—Orange Lodges to Suppress Disorder at First.

(By Daily News Leased Wire.)

LONDON, April 13.—It is difficult to obtain from the London papers an impartial account of how the home rule bill has been received in Ireland. The Unionist papers represent the Dublinites as generally indifferent and showing no perceptible enthusiasm. The Daily Mail's Belfast correspondent says:

"Orders have been issued to all the Orange lodges that public disturbances must be suppressed for the present, but nobody in touch with the Orangemen has a doubt that ultimately there will be rioting and bloodshed. Arrangements are being made by the Unionist organizers for special meetings a fortnight hence to formulate methods for keeping the peace during the early stages of the bill and for organizing a campaign of resistance.

"The bill is not only the third, but the greatest and boldest and most ge-

Public opinion and public information with regard to the Irish demands have widened since Gladstone brought forward the question in 1886, and this advance in sympathy and knowledge has enabled the prime minister and his colleagues to go far beyond the limits of Gladstone's first proposal."

HOSPITAL DANCE WAS BIG AFFAIR

Alice Roller Rink Was Gay Scene Last Night—Good Music—Floor Gave Every Satisfaction

Over three hundred people attended the hospital dance held in the Alice rink last night. The hall was beautifully decorated, a feature being the very picturesque lanterns and the Gem orchestra of seven pieces occupied a draped stand in the centre of the floor which made the music sound to the best possible advantage.

A splendid supper was served by the ladies of the Hospital aid. After supper dancing was continued until 2:30. The floor was in excellent condition.

MINERS COMMITTEE REPORT PROGRESS

Early Settlement of Strike Is Looked for—Union Recognition Question of Policy

PHILADELPHIA, April 12.—The subcommittee of miners and operators which is endeavoring to agree upon a working arrangement between the anthracite mine workers and coal companies, held two long sessions today and when it adjourned to meet tomorrow morning, the committee reported that good progress had been made. Nothing has occurred to indicate that a peaceful and early settlement will not be reached. The committee gave out nothing officially and may not have anything to say until a report is made to the full committee of miners and operators.

Today's discussion it was learned, had largly to do with the demand of an eight hour day for all men in and about the mines, the wage question, some of the phases of the demand for recognition of the union and modifications of the methods of the conciliatory board.

Good feeling prevailed throughout the sessions. Both the miners and operators took luncheon together in one of President Baer's private offices and all expressed themselves as very hopeful of an agreement next week. The three district presidents of the miners union on the committee during the sessions presented data showing the wages of the men, averaging hours of labor and working conditions in the mines.

The question of recognition of the union may not be settled by the subcommittee. The four representatives not coal operators on the committee are general managers and practical mining men who are in and about the collieries every day.

Recognition of the union is a question of policy and may be left for final discussion between the miners and the presidents of the companies. The impression still prevails in some quarters that the operators will not grant straight out recognition but will concede increase in wages and other improved conditions to lead the miners to waive the demand for the recognition.

The committee will meet again tomorrow.

FINED FOR PRAIRIE FIRE

(By Daily News Leased Wire.)

SASKATOON, Sask., April 12—At the Royal Northwest Mounted police court today W. H. Ramsay was fined $25 for allowing a prairie fire to spread off his property. The flames, fanned by a high wind on Wednesday swept in on the city and gave the fire brigade some hard work.

REINSTATE RAILROAD FREIGHT HANDLERS

(By Daily News Leased Wire.)

WINNIPEG, April 12.—The Canadian Pacific railway freight handlers, who have been on strike since the beginning of the year, as a result of the work of the conciliation board, have all been reinstated. The matter of dispute was the wearing by the men of buttons of the union which they had formed. No matter of wages entered into the strike.

MUTINOUS TROOPS LOOT VILLAGES

Sky Bright With Blazing Fires—Severe Fight Between Loyal Soldiers and Mutineers

(By Daily News Leased Wire.)

NANKING, April 1—A mutiny of 1,500 troops started suddenly at midnight here last night. The soldiers marched in bodies north and south and looted villages in the suburbs extending over two miles. The sky was bright from the reflection of the blazing fires and there was heard constantly the sound of rifle firing. No damage was done foreigners or their property. Early this morning troops drove back a crowd of mutineers to their barracks and disarmed them. At noon 10,000 troops surrounded the disturbed area and during the day a severe fight occurred between them and 500 of the mutineers still at large. A large number of the mutineers were killed. The others escaped and are still at large.
