CLOUDBURST WIPES CITIES OFF MAP

Hundreds of Persons Swallowed by Floods

TWENTY MILLION DOLLARS DAMAGE

Feared That Thousands Will Die of Hunger--Houses Are Torn From Foundations

(By Daily News Leased Wire.)

MEXICO CITY, July 15.—Details of cloudbursts and floods which again destroyed several thriving cities and exacted a toll of hundreds of lives in the state of Guanajuato were received in this city today. The advices declare that the cities of Salamanca and Celaya have been wiped off the map. The number of victims cannot be foretold until the angry waters subside. The first of the series of cloudbursts and floods which have stricken the wealthy state of Guanajuato occurred several weeks ago when a large part of the capital was washed away with several hundred peons who were unable to reach places of safety.

A few days ago the bottom again dropped out of the heavens and quickly covered the valley of Santiago to a depth of two metres. The natural outlets became clogged and within half an hour nothing could be seen of two of the little cities but the roofs of the houses, severed with terror-stricken people praying for deliverance.

Darkness fell over the doomed cities as the electric light plants further down the valley were washed away and this tended to add to the panic. According to advices received from the correspondent of the El Imparcial, it is probable that more than 1,000 lives and at least $20,000,000 worth of property were destroyed before the vast body of water subsided. Every house in the path of the floods was torn from its foundations and left misery and ruin in its place. Owing to the unsettled conditions prevailing as the result of the rebellion and the fact that crops generally have been neglected, it is feared that thousands will die of hunger. Nearly 2,000 laborers have been collected in the city of Mexico and sent to the scene of the disaster to aid in the work of recovering bodies and restoring the city.

ELECTION WILL BE PROTESTED

Conservatives File Petition Against Return of C. W. Cross in Edmonton—Corrupt Practices

(By Daily News Leased Wire.)

EDMONTON, Alta., July 15—The return of Hon. C. W. Cross at the recent by-election in Edmonton will be protested by the Conservatives at the end of this week or the beginning of next. The petition was drafted today by C. F. Newell, Conservative election agent but it may not reach its final form for some days. The protest is to be made under the Corrupt Practices act. It will be alleged that persons not entitled to vote were placed on the list by the enumerators, that money and whiskey was given in consideration for votes. Irregular practices will also be alleged against the returning officers and it will be charged that rigs were hired to take voters to the polls in contravention of the act.

GOVERNMENT TO ENGAGE EXPERT ARCHITECT

OTTAWA, July 15.—While the prime minister is in England he will likely engage an expert of outstanding prominence to come to Ottawa and report as to the layout of the proposed government buildings on the Wellington street site. Two names were suggested by British authorities. One is an eminent architect named White and another named Irvine. Communications on the subject were being exchanged when it was decided to leave the matter in abeyance.

TO SUBSIDIZE STEAMSHIP LINES

Pall Mall Gazette Says Canada's Aid to Navy Will be Seven and half Millions

(By Daily News Leased Wire.)

LONDON, July 15.—The Pall Mall Gazette publishes an apparently inspired message which says that the naval arrangement will provide for $7,500,000 as Canada's minimum contribution to the navy. In return Canada has not put forward any requests but it is understood that the British government will do its best to meet Canadian requirements in regard to certain transportation matters, such as the granting of a subsidy toward a steamship line between Canada and the West Indies; also a subsidy toward the all-red steamship route which has already occupied public attention in both hemispheres. In the latter case the sum suggested was £250,000 a year. It would be a condition of the all-Red steamship route that the money shall not be given to any line now in existence and that it must have an entire scheme for fast steamers, not merely between Great Britain and Canada but also between Canada and Australia.

Mr. Churchill is expected to make announcement soonon the Gazette, on the naval aspect of the matter in the house of commons in the course of a few days.

PANAMA CANAL TO HOT FOR GRAIN

Grand Trunk President Minimizes Probable Effect of Canal on Transportation of Canada

(By Daily News Leased Wire.)

MONTREAL, July 15—That the question of rates through the Panama canal has little if any interest to Canadian railways was the rather surprising view expressed today by E. J. Chamberlain, president of the Grand Trunk, on his return from a visit to Winnipeg where he has been installing his successor in the office of general manager of the Grand Trunk Pacific.

"I don't think the Canadian railways have had anything to do with the protest made by the British government discriminatory rates through the Panama canal in favor of American ships," he said, "because in my opinion very little Canadian traffic will go by that route."

Mr. Chamberlain was reminded that the late C. M. Hays had used as one of the local arguments for the building of the Grand Trunk Pacific the necessity of another road through to the Pacific coast to carry out the grain which would be attracted that way by the Panama canal.

"Of course," said he, "nobody can tell what effect the canal will have on Canadian traffic. And nobody will know until the whole thing has been tested. But my belief is that very little Canadian traffic will go that way. The life blood of the Canadian Pacific is the traffic east and west and it will be the same with the Grand Trunk Pacific. I don't think the people in the east need fear the Panama canal a bit because I believe the traffic so far as we are concerned will continue to follow the present routes."

Asked if the Grand Trunk Pacific had ever contemplated running a line of steamers from Prince Rupert to Europe via the canal, Mr. Chamberlain replied in the negative, adding that he did not believe any other Canadian railway had contemplated such a move either.

As regards the transportation of grain, he remarked that the whole of the Canadian crop of last year would have had to be dried before it could be transported by such a hot route as the Panama canal where the temperature ran as high as 120 in the shade. The present route, he said, was much cooler and therefore, much more desirable, and the trans-shipping of the grain at Fort William, Georgian Bay, Montreal or other outlets all had the effect of drying it. It must be remembered that the Canadian farmer wanted to move his grain as soon as it was threshed; he could not wait to dry and store it.

In regard to the statement that the government had decided to economize on such portions of the transcontinental as remained to be built by altering the grades Mr. Chamberlain said he was not in a position to make a statement.

"I have heard the same story myself," he said, "but I have no official notification of it. Such an alteration might of course, have an important effect on traffic, but until I have investigated the matter I cannot say anything about it."

FIERCE THUNDER STORM SWEEPS OVER OTTAWA

(By Daily News Leased Wire.)

OTTAWA, July 15—Accompanied by a high wind and a terrific downpour of rain, the worst electrical storm that the city has seen in many years swept over the capital tonight and in its brief but mad career effectually demoralized part of the service of the Ottawa electric railway, brought poles and wires down ,extinguished lights, tied up a number of telegraph wires and put the telephone service out of commission.

PROSPECTOR SHOT IN MISTAKE FOR BEAR

Arm Must Be Amputated—Special Train Takes Injured Man to Grand Forks.

(Special to The Daily News.)

GRAND FORKS, B. C., July 15.—Shot at in mistake for a bear by his camp partner, Roland Blackholm lies in Grand Forks hospital with his arm so severely injured that amputation will likely be necessary. The accident occurred in a camp near Carmi, where with David Woodhead of this city he was doing some prospecting along the line of the Kettle Valley railway. The two men were sleeping together and Blackholm had got up to chase away some wood rats and was returning to bed when Woodhead awakened and thinking he was a bear, shot at him. A special train over the Kettle Valley railway brought the injured man to this city.

YEGGMEN MAKE GOOD HAUL IN CALGARY

Blow Open Safe in Grocery Store and Get Away With Eight Hundred Dollars.

(By Daily News Leased Wire.)

CALGARY, July 15.—Accoutred with nitro-glycerine, drills, jimmies and all *the paraphernalia of yeggmen*, expert thieves broke into the grocery store of Robert Wright, 328 Sixteenth avenue, north, blew the safe and got away with $800 in cash. The robbery took place some time between midnight Saturday and 6 o'clock this morning. The loss was not discovered until the clerks arrived this morning. Up to the present no clue which might lead to identification of the thieves has been secured.

FIRE HALL ON LATIMER SITE

City Council Goes Back to Former Decision

GAS BYLAW GETS FIRST READING

City Electrical Department Shows Increase in Receipts in Half Year

Rescinding their former decision to build the new fire hall upon the old site at Josephine and Victoria streets the city council, braving the displeasure of the board of underwriters, last night reverted to the Latimer and Ward street location and operations will be rushed immediately until the hall is completed. Although the council by motion decided that the old site was the proper one at their last meeting, a conference on the spot to settle the location of the new hall found them as much at variance as ever.

The bylaw for the purchase of the gas plant was brought up at last night's council meeting and received its first reading. The electric light and power department report for the last quarter showed an increase in receipts of more than $1,300. A deputation in connection with the proposed Houston memorial appeared before the council and received consideration.

Disagrees on Site.

Mayor Annable opened the discussion on the fire hall site. He announced that a meeting of the council and fire, water and light committee had been held on the old fire hall site to settle the design and layout of the building but it ended in disagreement. In face of the objection of the board of underwriters to the site at Latimer and Ward streets on the ground that it was too far from the business and heavily insured section of the city, the only other alternative was to build on the site suggested by the board of underwriters, namely, Ward and Silica streets.

Mayor Annable had been quoted by C. D. Blackwood as agent for David McBeath a price of $50 a front foot for the property on the northeast corner of the intersection. The site is 55 feet frontage on Ward street, running back 75 feet on Silica street.

Revert to Former Location.

Practically no consideration of this site took place but Ald. Gleazer set the ball rolling in favor of the Latimer and Ward location once more. Ald. Austin wanted to rescind the former motion to build on the old fire hall site, a move that stirred up considerable dissension. Finally on a vote being taken four of the aldermen present, namely, Ald. Gleazer, Ald. Keefe, Ald. Cunliffe and Ald. Austin voted to rescind and one, Ald. Houston, voted against.

Not a small factor in the decision was the statement of the chief of the fire department that the added distance to Latimer street would not mean a loss of more than 10 seconds in going to a fire. In addition to this, the southern location of the new hall will mean the doing away with hall No. 2 and permit the concentrating of the department with the consequent increasing of efficiency. It was also adduced that the city was growing in a southerly direction and the site at Latimer street would become more central as time went on.

Opposition to Scheme.

On the other hand, Ald. Houston contended as the insurance underwriters said, that the greatest values were in Baker street and needed the department to be on the spot. A fire might also occur on the waterfront and with the wind that usually comes from the lake it would spread southward through the town.

Fairview was also taken into consideration, for another hall would be necessary if that municipality were annexed. It was said that a vote would probably be taken soon upon the question of annexation by the Fairview people.

The rescinding motion passed finally, the council now stands upon its original motion to build upon the site at Latimer and Ward streets. City Engineer Mackay produced preliminary plans for the new hall and after discussion it was decided to place it upon the north end of the lot next the lane for several reasons. The new hall will have two places for fire rigs, a tower for drying hose and ample sleeping quarters above for the men and the fire chief.

Electric Light Increase

The receipts of the electric light and power department for the first six months of the year as shown in the quarterly report total was $30,747.06 as against $29,427.13 for the first six months of last year, an increase of $1,319.93. The expenditures by the department to date are $16,552.71 and the credit balance $15,383.19.

The financial statement of the city for the half year ending June 30 shows receipts to be $70,220.16. Cash on hand was $3,444.72. Payments to date were $97,474.58, making a net overdraft of $23,809.70.

J. W. Holmes, J. A. Irving and J. J. Malone composed a delegation to the council asking for support for the Houston memorial to be built in Nelson in honor of the late John Houston, first mayor of this city. The delegation stated that it was proposed to build a drinking fountain and monument at Vernon and Ward streets, to cost in the neighborhood of $1,800.

Want City Contribution

Of this amount they have already collected $600, all but $150 of which was subscribed by people outside of Nelson. They required $1,200 more and suggested that the city contribute at least $500, or such sum as they found it impossible to collect in the city. Mayor Annable appointed Ald. Gleazer as council representative to act upon the Houston memorial committee. The contribution was left for the present.

It is proposed to erect a monument upon one of the crossings at the intersection of Ward and Vernon streets. On one side of it will appear the inscription and a picture of John Houston. In front there will be a drinking fountain for men and women, while at the rear a trough will be built for horses' use. It was pointed out by the delegation that such a fountain was a necessity in Nelson in hot weather and that all progressive cities had one or more.

Permission Again Refused

Fred C. Moffatt appeared before the council on behalf of C. F. McHardy asking for permission to rebuild the block in Baker street damaged by fire a few months ago and which cannot be reconstructed under the fire limits by-law. Mr. Moffatt's request was based on an amendment to the bylaw, but the council refused to go back upon the verdict of the fire wardens, who decided that the building could not be repaired.

The amendment stated that the city had power to repair or pull down a building if the owner refused to do so, if it was a public hazard. Under clause 5 of the bylaw the decision of the fire wardens is supreme and the council could not go around it.

Needs Oil Switches

H. B. Thomas, city electrician, asked the council for oil switches for the substation to take care of 12,000 volts. During a recent thunder storm the wire became charged and although the switch was disconnected the current "arced" the foot distance between the terminals. It was only by telephoning the power plant at Bonnington that the flame was put out. The council referred it to the fire, water and light committee with power to act.

The use of the council chamber was granted to the convention of Alberta and Eastern British Columbia editors, *who come to Nelson on July 25.*

Fred C. Moffatt requested the council to reimburse a client of his $84 for constructing a sewer in a lane between Observatory and Josephine streets on the ground that a similar refund had been made recently. The council refused the request, not wishing to make any further precedents.

Street Improvements Pass

Requests for water connection on Cedar street between Observatory and Gore streets were received from H. A. Mason and W. A. Lackey and granted as regards domestic consumption, the construction to be done by themselves.

G. C. Mackay, *city engineer*, recommended that sidewalks be built on the east side of Ward street, Observatory to Innes, three blocks; south side of Innes street, Stanley to Ward; south side of Robson street, Ward to Josephine; south side of Gore street, Ward to Josephine; north side of Houston street, Stanley to Kootenay.

Bylaws Nos. 236 to 238, concerning taxes for the year 1912, were reconsidered, passed and finally adopted.

Those present were: Mayor Annable, Aldermen Houston, Keefe, Austin, Cunliffe and Gleazer.

The Weather

(By Daily News Leased Wire.)

TORONTO, July 15.—Thunder storms have occurred very generally today in Ontario and a change to much cooler weather is now taking place. Scattered showers have occurred in the western provinces but the weather there has been generally fine.

DOMINION SAWMILLS TO BE RECONSTRUCTED

Scheme for New Company to be Formed and Capitalized at Two Million Pounds

LONDON, July 15—Details were issued today of a scheme for the reconstruction of the Dominion Sawmills which is to be considered at a meeting of debenture holders on Aug. 2. It is proposed to form a new company with a capital of £2,000,000 and to exchange the securities in the present company for shares and debentures in the new one. The new company is to be known as the United Sawmills & Timber company.

CHECKS READY FOR FENIAN VETERANS

Ottawa, July 15—It has been decided to take out of the consolidated revenue the sum required for the payment of the $100 grant to Fenian raid veterans authorized by parliament by a resolution last session, no specific item having been placed in the estimates. The checks for all veterans who have qualified are being sent out today. The total payments will aggregate about half a million dollars.

FAST SERVICE ON ATLANTIC

Question Will Be Taken Up With British Government

CANADA GIVEN REPRESENTATION

Believed Dominion Will Be Represented on Defence Committee

(By Daily News Leased Wire.)

OTTAWA, July 15.—It is believed that during his visit in England Premier Borden will take up a new question, that of a fast Atlantic service. The fact that the contract has been renewed but temporarily is taken as an indication that something on an improved scale is contemplated. Some time ago there were rumors that such an agreement was being negotiated with the Canadian Pacific on a basis of a greatly increased subsidy but at the time this was denied by Mr. Borden. As the existing contract expires, however, in the space of a year the subject is very much to the front and is being carefully looked into and following the premier's trip to England some developments may be expected. Whether the increased subsidy would be granted to one company or divided among several as has been advocated is a question to be determined. It has furthermore been suggested that the ships be of a cruiser type but it is stated here that the whole question has as yet reached no definite form.

Convinced of Danger.

(By Daily News Leased Wire.)

LONDON, July 15.—This statement of the progress of negotiations by the Canadian ministers and the imperial defence committee is given to the Canadian Associated Press by an apparently well posted informant:

"If the Canadian ministers were in a position to speak there is not the least doubt they would say that the aims of Great Britain with regard to the naval requirements are modelled to meet the German expansion at sea. That has been the keynote of representations made by the British ministers and has been made in such a convincing manner that the Canadians are absolutely convinced of danger in the prospect. Premier Borden particularly, it is understood put a series of questions in order to elucidate the real inwardness of the naval menace and the real requirements. He took nothing for granted and as a result has voluminous and vouched for facts now in his possession as well as technical explanations from naval experts dealing with the strategic position and structural recommendations with regard to the type of ships required.

"What form Canada's action will take has not yet been decided. This question will be submitted at meetings beginning tomorrow at which naval experts will be present. It is generally believed in the inner circles that the granting to Canada and other dominions of a place on the remodelled imperial defence committee has practically been settled upon as a matter of principle but the details have not been worked out.

"Just as the Canadian premier declared Canada would not be an adjunct of the empire so he has insisted on the assurance of the same as to representation.

"Much conjecture surrounds the Canadian ministers' visit to Paris on the 27th inst. No doubt while there will be unofficial enquiries made in regard to the relations of France and Germany, having in mind the entente cordiale between Britain and her cross-channel neighbor, and community of interest involved the Canadians are assured of a warm welcome. Their arrival in London has not been unheeded by the Quai d'Orsay and its importance and the significance of the moral force surrounding the prospective assistance of the British colonies to the mother country is fully recognized in French circles both in London and Paris."

BUSY WITH ENGINE PASSED DANGER SIGNALS

CORNING, N.Y., July 15—William Schroeder, engineer of the Lackawanna Express which crashed into the rear of the passenger train here on July 4, costing the lives of 40 people, admitted at the coroner's inquest here today that he had probably passed a block signal set at "caution" and the warning fuse placed beside the track by the flagman. Schroeder testified in defence of this that trouble with the injectors which sent the water into the boilers forced him to turn his attention momentarily from the watching for signals to the injectors and that in this moment his train shot past the stretch of 2,000 feet in which were said to be located both the caution signal and the fuse. Schroeder made an excellent witness and although he was on the stand for more than three hours, and was cross-examined at all points of his testimony, did not break down. Schroeder admitted that he had taken two drinks of gin the night before the wreck but denied that he was intoxicated.

VANCOUVER RACES CONDEMNED

Sir Montague Allan Says Meets Longer Than Two Weeks Degenerate—Has Changed Mind.

(By Daily News Leased Wire.)

VANCOUVER, B. C., July 15.—Sir Montague Allan, president of the Montreal Breeders association, now a visitor in Vancouver, threw a bombshell into horse racing in this city yesterday by giving an interview condemning the Minoru race meeting now running. He said:

"This providence is apparently undermining the work we are trying to do in the east, that is, improve the standard of tone in horse racing. Three weeks at a time is long enough for any meet. Both the horses and legitimate interests are played out long before the Minoru races are over. I do not know what the authorities out here are thinking of to permit a 60-day race meet. It simply means that a gambling crowd come here from the United States, take away all the money they can secure, the horses become played out and the better class of patrons refrain from going after two or three weeks. If a meeting lasts longer than two weeks it simply degenerates into a betting proposition and the 'wise ones' carry off the public's money.

"At Blue Bonnets and the Woodbine in Toronto there are spring and fall meetings and each lasts 10 days or two weeks, which is long enough for legitimate racing."

In reply Hugh Springer, managing director of the British Columbia Thoroughbred association, gave out the following statement:

"In the interview Sir Montague states that 'two weeks at a time is long enough for any meet.' Did Sir Montague Allan and his colleagues connected with the Montreal Jockey club take this stand in 1909 at Ottawa, when the Miller bill was being discussed? Within the short space of two years Sir Montague has apparently changed his mind."

RAILWAY COMMISSION IN SESSION TOMORROW

(By Daily News Leased Wire.)

FORT WILLIAM, Ont., July 15—Of particular interest to Fort William are several propositions scheduled for hearing during the sitting of members of the Dominion railway commission here on Wednesday. The opening board has nearly 100 western cases up for consideration with the initial sessions here. There are 11 local cases scheduled for hearing but two or three may be postponed. It is not likely that Fort William interests will insist on the board making a ruling on the anti-free storage application in view of the fact that the interstate commerce commissioner states he has delayed decision on a similar application made by Duluth to prohibit the free storage of goods and merchandise at that point. In this application Fort William and Port Arthur are jointly interested and the whole proposition is closely allied with the alleged discrimination of the railroads against the Twin Cities and far western cities in favor of Winnipeg.

JOSEPH WARD MAY LEAD AUSTRALIAN LIBERALS

(By Daily News Leased Wire.)

SYDNEY, N.S.W., July 15—The Liberals of the Commonwealth parliament have approached Sir Joseph Ward, ex-premier of New Zealand, with a view to his residing in Australia and leading the Liberal party there. Hon. A. Deakin, should Sir Joseph accept, says it is probable the Commonwealth naval policy will be altered and that the Australian warships will be placed under direct control of the British admiralty as in the case of New Zealand.

BRITISH PROTEST IS SUPPORTED

United States Senator Declares Bill is Unjustifiable Discrimination Against Other Nations

(By Daily News Leased Wire.)

WASHINGTON, D. C., July 15.—Great Britain's protest that the United States has no right, under the Hay-Pauncefote treaty, to pass its own coastwise vessels free through the Panama canal while it collects tolls from British and other foreign ships found empatic support in the senate today.

Opening the debate over the Panama canal bill sent to the senate by the house, in which the free provision is an important feature, Senators Burton of Ohio and Root of New York outlined the ground upon which the opponents of free tolls for American ships will fight their battle.

Both senators declared Great Britain had surrendered important rights at Panama held under the former Clayton-Bulwer treaty for the pledge of "equal treatment" to all ships giving by the United States in the existing Hay-Pauncefote treaty. The controversy hinges on the question of whether the United States in its pledge to treat the ships of "all nations" equally meant to include vessels owned by its citizens.

Senator Root, former secretary of state, unreservedly declared that The Hague court would be called upon to settle the issue finally if the United States passed the bill with the free provisions, which he characterized as "unjustifiable discrimination against other nations."

A decision against the United States by The Hague court, he said, would undoubtedly involve this country in the repayment of millions of dollars to the owners of foreign ships which might have been taken in as tolls of the canal.

It was expected by the state department officials today that the detailed British statement of protest to the canal legislation would arrive in New York within the next 48 hours. When it will reach Washington will depend upon whether Mr. Innis, the British charge, meets the mail steamer in New York and comes to Washington with his message or whether it will be necessary for it to come to Secretary Knox by the way of Kineo, Maine, the summer home of the British embassy.

The British argumentative statement probably will be submitted by President Taft to congress, perhaps accompanied by a special message.

AGREE TO USE SAME TRACKS

For Great Northern and Kettle Valley Lines

MILLIONS OF DOLLARS SAVED

Will Jointly Build and Operate Line Through Hope Mountain

(By Daily News Leased Wire.)

VANCOUVER, B. C., July 15.—Through the officials of the civil government an arrangement whereby the Great Northern and Kettle Valley lines, the latter crossing the Canadian Pacific railway will jointly build and jointly operate a single line of track from the summit of Hope mountain to Hope is being arranged. This will mean a friendly settlement of the dispute between the rivals which for months past have had applications before the Dominion railway board for approval of their respective routes down the Coquallaha river. It will obviate the building of two separate *lines and thus save several millions* of dollars as the construction work is of a very expensive character. Both roads are desirous of building separate lines, the Kettle Valley line having priority of location, leaving the worst side of the river to its rival. The carrying out of this program, however, would involve several sections on the lower reaches of the Coquallaha, a serious drawback on a mountain line from an operating standpoint. The Great Northern was willing to make a compromise by building its own line parallel to and on the same grade as the Kettle Valley line. The belief is *expressed that the single track line* will answer all traffic requirements for many years to come. The basis of settlement now about effected will probably be ratified by the railway commission during its coming western tour.

POLITICAL PRISONERS ON HUNGER STRIKE

(By Daily News Leased Wire.)

ST. PETERSBURG, July 15—A hunger strike has been going on for the past two weeks among the 200 political prisoners in Pskoff prison.

CANADIAN WINS TELEGRAPH CUP

Halifax Sergeant Winner of Two Hundred and Seventy-Five Pounds and Trophy.

(By Daily News Leased Wire.)

BISLEY, Eng., July 15.—Sergt. J. H. Armstrong of Halifax won the Daily Telegraph cup tie with five bullseyes, including the sighting shot. This is given for the best seven shots at 600 yards and is open to all comers, and besides the cup carries £275. The score also counts in the service rifle championship aggregate and in the all comers and grand aggregates.

SLEEPS AFTER DANCE HAS RUDE AWAKENING

(By Daily News Leased Wire.)

CORONATION, Sask., July 15—Word reached town on Saturday morning of an attempted murder at Brownfield, a district 18 miles north of Coronation. From the information it appears that J. A. Bernard, a farmer of that district attended a dance in the Brownsfield schoolhouse and on his return home was knocked on the head by an assassin and terribly beaten. The wounded man's story was to the effect that he returned home from the dance, laid down on a cot in his shack and dozed off. He was awakened by a blow on the head but was too dazed by the blow to recognize his assailant who beat him over the head and shoulders in a terrible manner.

NATIONALIZATION OF LAKE PORTS

Minister of Public Works Reaches Fort William—Amazed at Extent of Navigation.

(By Daily News Leased Wire.)

FORT WILLIAM, July 15.—On his first visit to western Canada Hon. F. D. Monk, minister of public works, for the Dominion, arrived here today. He came as far as the Soo on the government cutter Speedy and completed the journey across Lake Superior on the steamer Harmonic. Mr. Monk stated that he was much amazed at the extent of the inland navigation from the time he left Quebec until his arrival here and he fully realized the necessity of nationalizing all of these ports. He inspected the harbors this afternoon on the yacht Sigma and was accompanied by Mayor Graham, F. Babe, D. Hogarth, M.P.P., and F. S. Wiley, president of the Port Arthur board of trade.

MILITANT TACTICS MORE VIOLENT

Inflammatory Speeches at Hyde Park Suffragette Demonstration—Plot Fail of Home Secretary.

(By Daily News Leased Wire.)

LONDON, July 15.—England is getting seriously alarmed at the truculent attitude of the suffragettes, who have passed beyond the window smashing stage and even beyond mere assaults on cabinet ministers. Following the attempted bomb outrage at the home of Secretary McKenna and the supposed plot to fire Right Hon. Lewis Harcourt's residence come threats against Mr. McKenna and other ministers by male and female suffragettes. At yesterday's Hyde Park demonstration Mrs. Drummond said: "We have seriously considered the fall of the home secretary. He has to go. We are wondering where we shall send him. I see that explosives have been found in the home secretary's office. Perhaps if they had gone off he would have had his settlement and would be of no further trouble to us. Militancy carried on all over the country is carried on by women determined that something tragic shall happen to bring this to an end."

Keir Hardie, the Labor member of parliament, who also spoke in support of the women's cause, said: "There will be more than hat pins used, more than epaulettes torn from a man's shoulders."

Referring to the outrage on Premier Asquith at the political reception, he said the time has gone by for half-hearted measures. The cabinet as it is now composed is even more hostile than before to the enfranchisement of women. Therefore, greater pressure will have to be applied.

NEW CONCENTRATION MILL AT METALINE FALLS

Assurance That Line Through Pend d'Oreille Will Be Built—Smelter Also Proposed.

(By Daily News Leased Wire.)

METALINE FALLS, Wash., July 15.—Formal announcement of plans to build a 250-ton concentratig mill, requiring an expenditure of $250,000, was made by J. Jensen of the Lead & Zinc company, controlled by himself and Lewis P. Larsen, as a part of the observance of Metaline day at the concluding session of the Inland Empire Federation of Commercial Clubs and Logged-Off Land congress. Wealth, untold, inestimable, was shown the visitors in the form of mining properties in the infantile stage of development. These group around the falls, up and down the river on all sides for half a score of miles.

Excursions to the nearby properties were made and C. E. Schwarz, superintendent of the Lead & Zinc company mines, held forth in the schoolhouse, where a large exhibit of ores was on display. There also were two booths of agricultural products, one taken from around Metaline and the other from Newport. The success of truck gardening, fruit raising and grain growing on logged-off lands was exemplified in these.

Expect C. P. Extension.

"We have assurances," said Mr. Jensen, "that the Canadian Pacific railway will extend its lines from Trail, B. C., here. That will offer easy transportation to the smelter there, it being just 41 miles by rail. It is our intention to construct a smelter when the production warrants it."

TO SUBSIDISE FAST CRUISERS

Montreal Guessing at Government's Defence Policy—To Improve Kingston Military College.

(By Daily News Leased Wire.)

MONTREAL, July 15.—The statement is made here today by people quite near the Ottawa government that the military and naval policy of the Borden government will be divided into three parts. The first will consist in subsidizing the Canadian Pacific railway at the rate of $1,000,000 a year, that company will build a number of very rapid steamers able to cross the Atlantic in four days and which in time of war can be turned into very effective cruisers. The second will be found in making the Kingston military school the finest in America, the graduates being attached to the British army, and finally, a series of drydocks sufficient for warships of large size, to be built at different points on the Atlantic and the Pacific.

STEAMER SUNK

(By Daily News Leased Wire.)

SARNIA, Ont., July 15.—The steamer G. K. Brammer of Cleveland was sunk opposite here at noon yesterday, after a collision with the steamer Northern Queen. All of the crew were rescued.

TRAIN PLUNGES INTO SWAMP

Oriental Limited Dashes Over Embankment—Five Cars Consumed by Fire—Fireman Killed.

(By Daily News Leased Wire.)

FARGO, N. D., July 15.—The Oriental Limited, the Great Northern's crack coast train, was wrecked between Ashby and Melby, Minn., 75 miles east of here, at 4:15 o'clock yesterday afternoon. Fireman Campbell of St. Paul was instantly killed, crushed by the tender as he attempted to jump from his engine. As the train rounded a sharp curve, flanked on one side by a high bank and by a deep swamp and a 30-foot embankment on the other, the engine left the rails and was half buried in the steep bank of earth. The train was traveling at a good rate of speed and the two day coaches, the smoker and the diner, two Pullmans and a baggage car plunged over the embankment straight ahead and landed in the swamp 30 feet below. Passengers were uninjured by the fall, aside from minor bruises and cuts, the force of the fall being reduced to practically nothing by the water and mud of the swamp. Men and women scrambled through the coach doors and windows and windows and walked to safety through mud and water.

Coaches Catch Fire.

Shortly after the coaches landed in the swamp one of the acetylene tanks exploded and the gas caught fire, spreading to the coaches. Flames spread to the other coaches, while passengers and crew fought them, while standing knee deep in mud and water. All of the five coaches and the baggage car were entirely destroyed by the flames. As much baggage as could be saved was taken from the baggage car. But three coaches remained on the track, the parlor car and two Pullmans. These cars collided with the engine tender, but were not damaged. Occupants of these coaches gave aid to those who were thrown into the swamp.

A terrific wind and rain storm swept the country near Ashby this afternoon. Telegraph and telephone wires were put out of commission. In many places portions of the roadbed were washed away. Slippery rails are held accountable for today's wreck by officials. Two heavy freight trains were run over the main track just before the Oriental Limited was due and officials say the trains may have damaged the roadbed, already weakened by excessive rains.

SIDEWALKS WILL BE TORN UP

Contractors for Work in Calgary Face Ruin—Work Was Skimped—Bad Material.

(By Daily News Leased Wire.)

CALGARY, July 15.—That contractors involved in the scandal which has stirred the city government to its foundation may be compelled to tear up miles of bad sidewalk and curbing and replace it according to specifications is the gist of a statement given out by City Solicitor D. S. Moffat. The council investigating committee, which recommended the dismissal of City Engineer J. T. Child, with other city officials, for laxity in administration, is now probing into the possibility of the city recovering for the imperfect work. Estimates of the loss sustained vary, but few put it under $750,000. The solicitor says that as all the contractors were under heavy bonds, the city, if necessary, can replace the bad sidewalks and curbing and charge it against the contractor. The threat, if carried out, will mean financial ruin for a number of the contractors. A number of those who took large contracts have been holding anxious consultations with the accused engineer, but there seems to be no loophole of escape.

The most serious charge against the contractors, outside that of the use of cheap materials, is that they skimped on the concrete work, eliminating as much as 15 cubic inches per lineal foot of curb, according to the report of an expert engineer employed to investigate the work.

SERVICES WITH NO CONGREGATION

Octogenarian Rector Boycotted by Parishioners—Preaches Sermon to Congregation of One.

(By Daily News Leased Wire.)

LONDON, July 15.—An extraordinary condition of affairs exists in Holten, a Somerset village, where the church is being boycotted.

The Rev. Joseph Sorrel, the rector who is 80 years old, came to the village 11 years ago, but the churchgoers developed a dislike for him and ceased to come to the church and now for some months not a soul attended the services. The consequence has been that there are no funds for upkeep. The wooden gate of the church yard is rotting and held closed by a piece of rope, the grass has been overgrown by weeds, the graveyard is neglected and the tombstones are almost hidden by rank vegetation. There are 21 services each week, which the aged rector scrupulously keeps. At least twice a day he rings the church bell himself, as no one else will do it, and whether or not anyone comes the services are held. Sometimes a stranger in the village goes to the church and then, though the congregation is composed of only one person, the rector delivers a sermon as though the church was crowded. As there is no organist, he starts the hymns himself.

The rector lives in the rectory alone.

PANAMA DISPUTE SUBJECT FOR ARBITRATION

(By Daily News Leased Wire.)

LONDON, July 15.—In an editorial on the Panama canal bill, the Daily News, the principal ministerialist organ, says that apparently the United States senate means to pass the bill without heed of the British government's protests, adding: "Perhaps the senators think that in its present form the bill makes no distinction and it certainly is obscure enough to stand very different interpretations. That, however, is not a satisfactory attitude, for if the senators do not wish to discriminate surely they ought to make their intention as clear in the bill as possible.

"It is more probable that they think congress has the right to discriminate under the Hay-Pauncefote treaty. That is not the British view, and we have a conflict of opinion as to the meaning of the international agreement.

"There is only one permissible way to dispose of this conflict, and that is by arbitration. Neither America nor Great Britain wishes to violate any engagement and both countries are anxious to carry out its agreement in the spirit and in the letter where there is a difference of opinion as to their true character.

"The obvious solution is to submit the issue to an impartial judge. That course should be taken if the bill as it leaves congress turns out to be in conflict with the British view bearing on the Hay-Pauncefote treaty."

American and Canadian Scientists tell us the common house fly is the cause of more disease and death than any other agency.

WILSON'S FLY PADS

kill all the flies and the disease germs too.

MIDSUMMER DULLNESS ON STOCK EXCHANGE

(By Daily News Leased Wire.)

LONDON, July 15.—Business on the stock exchange last week showed signs of reaching its absolute summer minimum and on Saturday only a few members appeared. Americans closed slightly lower, a feature on Saturday being a drop of three points in Chicago, Milwaukee & St. Paul, on reports that its next dividend would be smaller than last year. Money ruled slightly easier at 2½ per cent for advances to Monday and 2¾ per cent for weekly fixtures. Discounts remain unchanged from a week ago. About $4,000,000 is going to be in the market, for which a little continental and Indian demand is expected. Consols fell off to 75⅝ on the failure of the chancellor of the exchequer definitely to state the surplus to be used to reduce the debt.

REGIMENTS READY TO JOIN RISING

Lisbon Garrison in League With Monarchists—Losses Indicate Rebellion Is of Magnitude.

(By Daily News Leased Wire.)

LISBON, July 15.—(via the Frontier.)—The government is now in possession of the complete plans of the royalists. These show that several regiments in the Lisbon garrison were in league with them and it was arranged that these troops should march into the streets and proclaim the re-establishment of the monarchy on the night that Captain Couceiro, the royalist leader, crossed the frontier. The rivalry between Couceiro and one of the principal leaders at Lisbon, however, caused the conspiracy to fall through.

Although the royalists have been defeated, the republican forces apparently are not having all their own way and the government is exercising the most stringent censorship on foreign press dispatches. It is estimated that up to the present the royalists have lost 250 killed and 170 wounded. The republican loss is heavy, but is not known exactly, as the minister of war refuses to make public the casualties.

Telegraph wires continue to be cut and bridges blown up, and troops are being dispatched by the government for the north daily.

CHINESE MINISTERS RESIGN

(By Daily News Leased Wire.)

PEKING, July 15.—The minister of finance, Hsiung Hsi Ling, and four other ministers resigned yesterday. The finance minister is retiring in order to devote himself to the rehabilitation of the financial situation. He, together with the premier and Chow Tszchi, comprise a special commission to deal with foreign loans. When the situation is cleared up Chow Tszchi, who was formerly acting finance minister, will become financial minister. The other retiring ministers have resigned under pressure by their supporters in the provinces.

Right Food Works Wonders

It is often the case that people drift into wrong habits of food, although they should know better.

When one gets into trouble of this sort it's a fine thing to know how to get out of it. The "food route" is the common sense way back to health and comfort.

Grape-Nuts
FOOD

is made of wheat and barley, so perfectly cooked that it is partially pre-digested and contains the vital tissue-making elements required for the daily rebuilding of body and brain.

A dish of Grape-Nuts and cream for breakfast regularly, helps mightily to put one in mental and physical condition for the day's work.

Canadian Postum Cereal Co., Ltd., Windsor, Ontario, Can.

One Hundred Dollars Reward

We will pay $100 in gold to the person who will send us the most suitable name for our subdivision which is at present being surveyed into lots and garden tracts, and which is known as the Farwell Lot.

The conditions of the contest are as follows:

1. One "name for subdivision" only will be allowed to each contestant.

2. All "names for subdivision" must be sent by mail, and will be opened on a day to be decided on at an early date (a careful record will be kept of date and order in which letters received).

3. All "names of subdivision" must be accompanied by a letter, of not less than 50 and not more than 250 words, giving reasons for selection of name by contestant. (The best reasons for giving the subdivision the name suggested will be considered when awarding the prize.)

4. Out-of-town contestants' letters will be filed if received by us one day after date mailed by contestant.

5. A committee of Nelson business men will be selected to choose "name for subdivision" from names submitted, and any and all disputes that may arise will be decided by them, and their decision shall be final.

6. Should two or more contestants choose name decided on by judges, the best reasons for choosing name will be considered and if reasons given are considered by judges as sufficient the first in order of receipt will be awarded prize money.

7. All letters giving "name for subdivision" must be addressed to McQuarrie & Robertson, and marked on envelope, "Name Contest."

GET BUSY. This looks like "easy money" for somebody. Visit the property, choose a name, and send us your reasons.

Prizes Bestowed On Olympic Winners

(By Daily News Leased Wire.)

STOCKHOLM, July 15.—The standing tonight of the various teams in the events of the Olympic is as follows: United States, 128; Sweden, 104; Great Britain, 62; Finland, 43; Germany, 34; France, 23; South Africa, 16; Denmark, 14; Italy, 13; Canada, 13; Australia, 12; Belgium, 11; Norway, 10; Hungary, 8; Russia, 5; Greece, 4; Austria and Holland, 2.

In the track and field events the final standing is as follows: United States, 85; Finland, 27; Sweden, 24; Great Britain, 14; Canada, 7; South Africa, 5; France, 4; Germany, 4; Greece, 4; Norway, 2; Hungary, 1; Italy, 1.

The last day of the track and field sports in the stadium brought no sensation. The games reached their culmination in the Marathon. The curtain falls on the Olympic with the United States well in front in the total points in all sports to date and with a sweeping victory in field and track events which for years have constituted *the programs at meetings in* America and Great Britain and to which athletes of those nations devote their energies.

The bestowal of the prizes by the king, who placed laurel wreaths on the heads of the victors and shook hands with all the winners, took place in the stadium this afternoon. The *American team led the* march of triumph, which, when arrayed before the king, formed an assemblage of men and women of the world of sport such as was never seen in one body before.

The procession into the arena was a remarkable sight. Every sort of civil and military costume figured from full dress military with plumed and shining helmets and much gold lace to simple khaki, and from frock coat and silk hat to running tights. The women swimmers and tennis players wore pink and white dresses, while the women gymnasts made a very charming appearance in sailor frocks. King Gustave in grey frock coat mounted the rostrum from behind the tables loaded with trophies, wreaths and medals.

Ralph O. Craig (Detroit Y. M. C. A.), the double winner of the 100 and 200 metres, was the first victor called. He stepped forward to the platform and the king placed the wreath on his head and shook hands warmly. Several other Americans followed. The Marathon winner, McArthur of South Africa, received the greatest cheer. He appeared in green tights with bare arms and legs. In addition to other laurels he was presented with a big bronze statue of the original Marathon hero falling at the finish. The king applauded him and held his hand for a long time.

Sports Continue.

The sports will continue three weeks. The military riding competitions are not yet finished and the Olympic regatta with entries from England, Canada and most of the European countries is about to begin. Then comes the Olympic yachting.

A controversy has arisen over the rowing program, which puts the eight-oared boats down for two trials in one day, Canada against Leander in the morning and against Austria in the afternoon. Canada, England and other nations have entered a protest.

Pole Vault.

Eugene L. Mercer, University of *Pennsylvania, cleared 3 metres 60* centimetres (11 feet 9 3-4 inches) in the Decathlon pole vault contest today. James J. Donohue, Los Angeles A. C., was second with 3 metres 40 centimetres (11 feet 1 4-5 inches), while James Thorpe, Carlisle Indian school and three others cleared 3 metres 25 centimetres (10 feet 8 inches).

The standing of the men in the Decathlon is recorded according to the highest number of points aggregated in the 10 events.

The highest possible is 10 000 and *the leader this morning was Thorpe,* Carlisle Indian school, with 6,884 points followed by Lemberg, Sweden, 6,183; Wieslander, Sweden, 6,095; Mercer, University of Pennsylvania, 5 951; Phillbrook, Notre Dame, 5,900; Donahue, Los Angeles A. C., 5,814 and Holmer, Sweden, 5,813.

Finn First.

Cross country race of about 3,000 metres (nearly five miles)—H. Kolebmainen, Finland, first; H. J. Anderson, Sweden, second; J. Eke, Sweden, third.

Wrestling Finals.

Wrestling finals, featherweight—Hoskels, Finland, first; Lezenon, Finland, second; Gerstackers, Germany, third.

Wrestling finals, lightweight—Ware, Finland, first; Matiaso, Sweden, second; Malstrom, Sweden, third.

M'GOVERN-ERNE BATTLE WAS ONE-SIDED MATCH

(By "Gravy")

"One of the most one-sided matches that any supposedly sane fighter ever entered into was that which resulted in the defeat of Frank Erne by Terrible Terry McGovern, 12 years ago tonight, July 16, 1900," declared the old sport. "Madison Square Garden, in New York was the scene of the battle which was pulled off under the old Horton law. It was a sweltering hot night and the heat put the finishing touches on Erne's chances. Frank, who was a Buffalo boy, had won the lightweight championship of the world a little over a year before by defeating Kid Lavigne. He was anxious for a whack at Terrible Terry, who then *held the featherweight title and* McGovern's manager took advantage of Frank's eagerness to impose conditions that no man who didn't have bats in his beifry should have accepted. These articles forced Erne to make 128 pounds ringside, and as Frank was a fully developed lightweight his agreement to scale 128 pounds ringside was *foolhardy. More than that Erne had* to agree to hand the clever Terry a sleep potion inside of ten rounds, or lose the bout. Erne would have found that a difficult job when fighting at his normal weight. For a week before July 16 Erne took the 'fast' cure in an effort to rid himself of surplus flesh. He ate practically nothing, drank only a little wine and made himself generally miserable. At the last he got so weak that he could not run or box. Still he was determined to go on. When he went into the ring on that sultry, suffocating night he was so thin that his bones rattled and he could hardly cast a shadow. Terry was in the pink of condition, his lithe body rosy with health. Despite his great handicap Frank put up a great battle while it lasted. The boys mixed things from the clang of the gong. In the first round Erne put every ounce of strength he had into a blow that stretched Terrible Terry on the canvas for the count of nine. In the second they exchanged fierce wallops but it was evident that Erne had shot his bolt. In the third Erne went down twice before terrible slugs to the body and the second time he couldn't get up. A couple of years later Erne lost his title to Joe Gans. It was probably the punishment he inflicted on himself in training down to 126 for McGovern that ended his pugilistic career so early.

AUTOS BREAK RECORDS AT MONTREAL MEET

(By Daily News Leased Wire.)

MONTREAL, July 15.—The first two days of the automobile races at Delorimer park Saturday and yesterday were inaugurated with exciting races and some exhibitions of sensational driving by Louis Drisbow, that in two cases established world's records for the mile at 1:07 4-5 and the two-mile at 2:20 on a circular track (half mile dirt track) if the official timekeepers were correct.

ENGLISH CRICKET RESULTS

(Canadian Associated Press.)

LONDON, July 15.—The cricket match between the Gentlemen and Players, which started Thursday at the oval, ended on Saturday in a draw.

The Australia-Scotland game also was a draw. Scotland first innings, *289; second innings, 126 for seven* wickets declared; Australia, first innings, 152; second innings, 200 for three wickets.

Northamptonshire beat Somersetshire by 10 wickets.

Yorkshire defeated Kent by an innings and 45 runs. Yorkshire in their first innings scored 543, of which Den*ton was responsible for 310 runs; Kent,* first innings, 284; second innings, 214.

In the fifth test match, South Africa vs. Australia, which started today at Lords, the South Africans compiled 234 runs with the loss of eight wickets.

At the drawing of stumps in today's cricket match the score was South Africa 263, Australia 86 for two wickets.

AMERICAN POLO TOURNAMENT

(By Daily News Leased Wire.)

NEW YORK, July 15—At the office of the Polo association today the following entries were given out for the three national championships of 1912 *to be played at the Point Judith Polo* club, Narragansett Pier, during the tournament beginning July 22:

Junior championship for teams not handicapped over 20, but played from scratch—United States Army Polo club, Kansas City Polo club, Myopia Hunt club, Great Neck Polo club, Long Island Cooperstown Polo club, Dedham, Mass. Polo club, Philadelphia Country club, Bryan Mawr Polo club, Piping Rock Country club, Long Island and Jack River Polo club, Montreal.

Senior championship, open to all association teams—Bryn Mawr, Piping Rock, Cooperstown, Meadowbrook, Lond Island and Myopia.

Open championship, free for all—Bryn Mawr, Piping Rock, Cooperstown and Westchester.

There are no English teams entered but three English players, W. Baldwin, C. Craddock and A. Balding are to play for the Perroquets.

BELLEVUE LEADS CROWS NEST PASS LEAGUE

(Special to The Daily News.)

COLEMAN, Alta., July 15.—At Flumerfelt park Coleman met Fernie in one of the fastest matches ever witnessed on home grounds. The game *was Coleman's* at every stage and the score ended 2 to 0 in their favor. Robert Levitt of Bellevue acted as referee and his decisions were fair and impartial throughout. The clever work of Kellock and Struther featured. The following is the correct standing of the league to date:

	Won.	Lost.	Drn.	Pct.
Bellevue	5	2	2	12
Fernie	5	4	1	11
Michel	4	3	2	10
Coal Creek	3	3	3	8
Coleman	3	3	1	7
Hosmer	0	6	0	0

For assaulting Con Bilik, an Austrian named John Ponjuk appeared at the R. N. W. H. P. barracks and was *assessed one dollar* and costs.

S. Paris, the cattle king of Sentinel, was a business visitors to Coleman today.

OROVILLE BALL TEAM COMING HERE SOON

The next ball game scheduled be*tween Nelson* and an outside team will be played on July 29 and 30 between this city and Oroville, who are coming here for the occasion. The Nelson team has been strengthened by the addition of Larry Keene, who played here two years ago and who is well known among baseball fans.

THREE CANADIANS IN FIRST PLACE

With Two Others Must Shoot Off for Prince of Wales Competition—The Winnings.

(Canadian Associated Press.)

BISLEY CAMP, July 15.—Today opened the final week of Bisley and was a busy one for the Canadians. While there was no team showing, individual members of the team shot in the two stages of the Alexandra, an open service rifle competition, seven shots each at 200 and 600 yards, the Prince of Wales, seven shots at 300 and 600 yards each, and in the Corporation of the City of London, 10 shots at 800 yards.

The feature team work is the Kolapore cup, open to teams of eight representing constituent parts of the empire, and the chief all comers event is the Duke of Cambridge at 900 yards.

The Prince of Wales is confined to N. R. A. medal holders and no less than three Canadians, Corporal Mortimer, Lieutenant Forster and Private Mitchell, tied with an aggregate of 31 with two others for first place and will shoot off tomorrow.

Money winnings of the Stock Exchange, shot on Saturday by Canadians, are as follows: Mortimer, sixth, £5; Smith, eighth, £5; Armstrong, ninth, £5; Stoddard 20th, Forrest 40th and Maggs 15th, each £2; Smithson 115th and Bayles 117th, each £1.

Canadian Scores.

Following are scores of Canadians today at the 200 yards range of the Alexandra and the 800 yards range of the City of London: Capt. Andrew, Winnipeg, 34-45; Sergt. Armstrong, Halifax, 33-47; Private Aud, Winnipeg, 32-42; Sergt. Mattersill, Winnipeg, 31-46; Staff Sergt. Bayles, Toronto, 33-44; Lieut. Blackburn, Winnipeg, 31-49; Private Davison, Winnipeg, 32-46; Sergt. Major Dymond, Winnipeg, 28-48; Capt. Forrest, Vancouver, 33-49; Lieut. Forster, Ottawa, 32-48; Capt. Kennedy, Picton, 32-41; Sergt. Major McDougall, Victoria, 33-47; Sergt. McInnis, C. P. P. I, 30-; Private Macpherson, Stellarton, 34-47; Lieut. Maggs, Vancouver, 38-48; Corporal Mortimer, Quebec, 30-30; Private Mitchell, Toronto, 32-46; Staff Sergt. Richardson, Victoria, 33-46; Corporal Regan, Edmonton, 32-47; Capt. Schlater, Vancouver, 30-49; Sergt. Smith, Ottawa, 32-44; Lieut. Steele, Guelph, Ont., 33-44; Col. Sergt. Stoddard, Hamilton, 33-45.

Prince of Wales.

Following are the scores of Canadians in the two stages of the Prince *of Wales, which is confined to N. R. A.* medal winners, being seven shots each at 300 and 600 yards: Andrews, 34-; Armstrong, 34-47; Auld, 30-34; Battershill, 33-48; Bayles, 34-39; Blackburn, 33-38; Davidson, 28-37; Dymond, 32-42; Forrest, 32-43; Forster, 32-49; Kennedy, 29-42; MacDougall, 29-42; Maggs, 33-44; Macpherson, 33-45; *Mitchell, 34-47; Mortimer, 32-47;* Regan, 26-; Richardson, 34-44; Schlater, 29-47; Smith, 32-46; Steele, 31-40; Stoddard, 31-44.

Mortimer Fourth.

The Corporation of the City of London was won by W. A. Nalle, London; Norton, London, second; Gower, Staffordshire, third; Mortimer, Canada, fourth; Allen, East Anglia, fifth; Kertie, Argyle, sixth, each winning £5. Of the remaining Canadians Forrest was 12th, Blackburn 21st, Schlater 22nd, Dymond 30th and Forster 48th, each winning £2; Maggs 63rd, Armstrong 67th, Regan 79th, Macpherson 91st and MacDougall 101st, each winning £1.

Alexandra Competition.

Following are scores of Canadians today at the 600 yards range at the Alexandra cup competition: Capt. Andrews, Winnipeg, 30; Sergt. Armstrong, Halifax, 34; Private Auld, Winnipeg, 28; Sergt. Battershill, Winnipeg, 35; Staff Sergt. Bayles, Toronto, 30; Lieut. Blackburn, Winnipeg, 25; Private Davidson, Winnipeg, 30; Sergt. Major Leymond, Halifax, 30; Lieut. Forster, Ottawa, 31; Capt. Kennedy, Picton, 31; Sergt. Major Macdougall, Victoria, 29; Sergt. McInnis, P. E. I., 30; Private Macpherson, Stellarton, N. S., 33; Lieut. Maggs, Vancouver, 32; Corporal Mortimer, Quebec, 32; Private Mitchell, Toronto, 34; Staff Sergt. Richardson, Victoria, 28; Corporal Regan, Edmonton, 27; Capt. Sclater, Vancouver, 32; Sergt. Mith, Ottawa, 30; Lieut. Steele, Guelph, 32; Col. Sergt. Stoddart, Hamilton, 31; Rev. A. R. Simpson, Rossland, 31.

In the Prince of Wales Blackburn was 22nd, Battershill 23rd, Macpherson 27th, Mortimer 44th, Smith 45th, Richardson 55th and Maggs 56th, each winning £2.

ROSEDALE LEADING

(By Daily News Leased Wire.)

PHILADELPHIA, July 15.—The Rosedale Cricket club of Toronto outplayed the Merion Cricket club's eleven today in the beginning of their match at Havreford. Merion was all out in the first innings for 161, while the visitors scored 200 for a loss of only three wickets before stumps were drawn for the day.

KALAMAZOO RACES

(By Daily News Leased Wire.)

KALAMAZOO, Mich., July 15—The Grand Circuit racing opened here today under most favorable track and weather conditions. It was a bad day for favorites. Sunny Jim and Jack London were especially disappointing. Queen Worthy had little difficulty in landing the 2:18 trot. Nut Line, *driven by Hoffman crowded the win*ner in the first heat but at no time was she in danger of being passed. It was in the 2:07 pace where Sunny Jim met his fate. Played heavily as a favorite Sunny Jim never even took a first place. Braden Direct took the first heat and the last heat, losing the second as a result of a bad break before the first quarter pole was reached.

It required four heats to decide the 2:14 trot, Pearl Patch and Henry H. contending closely for first honors in every heat. The race was one of the prettiest ever run in Kalamazoo. Nose to nose Pearl Patch and Henry H. came from the last quarter pole to the wire, Pearl Patch winning by a hair. Derby Boy had to go five heats to win the 2:12 trot. Defeated in the first two heats by London, the favorite, by a length each time, Derby Boy, in the last three heats displayed remarkable speed at the finish taking one of the prettiest races of the day. Dandy Wood and Jack London were within half a length of the winner under the wire.

BRUSSELS, July 15.—Seamen yesterday set fire to the steamship Zeeland at Antwerp. The managers of the seamen syndicate have been arrested.

All the Printing

in plain view all the time, in easy reading range—that is the test of visible printing.

On the Burroughs Visible adding machine all the work is directly before the eyes of the operator — never obscured by fixtures or paper carriage—even the bottom of the paper is visible while still gripped by the pressure rolls.

This Burroughs "Visible," like the other 85 Burroughs models, is backed by the Burroughs Guarantee of perfection and Burroughs stay-in-use Service.

TUESDAY, JULY 16

MUNICIPAL CLAUSES ACT AMENDMENTS

It is learned indirectly that the provincial government intends to submit the Municipal Clauses Act to a Royal Commission, with a view to remedying whatever defects the measure, as it at present stands, may contain. There is no doubt that there are many ways in which the Municipal Clauses Act might be improved, and incongruities, which make many a fat fee for the lawyers, removed.

The idea of appointing a Royal Commission to investigate the working of the act, is very good, and probably would result in many improvements to the law. There is, however, another method of securing public opinion on the act, which in the opinion of The Daily News, would be much more effective. That would be for the government to call together representatives from every municipality in the province, laymen, not lawyers, to consult together and to decide what changes experience has shown, are necessary. The recommendations of such a gathering could be put in form for legislation by the attorney generals' department.

The Daily News does not for a moment wish to suggest that its views on this matter are original. The course suggested has already been followed elsewhere. In Manitoba, for example, previous to 1900 there was dissatisfaction with the Municipal Act of that province. In that year the government called together representatives from every municipality who remained in session at the government's expense for several days discussing the weaknesses in the Municipal Act and what additions and improvements thereto should be made. The government acted upon this report and the result is that Manitoba today has one of the simplest and most workable systems of Municipal Government to be found in any part of Canada.

There is no reason why the same result might not be obtained in British Columbia through a similar conference.

THE ATTEMPTED VANCOUVER RAID

The Vancouver Sun ,which lays claim to being the real Simon Pure Liberal paper of that city, continues its attempts to force the provincial government to hand over to Vancouver the old court house site. Following the course of the Sun in this matter it is hard to say which motive actuates it to the greater extent, a desire to make political capital at the expense of the five Conservative members of the legislature from Vancouver, or a desire to secure as a free gift for Vancouver a piece of land belonging to the people of British Columbia as a whole and valued at from three-quarters of a million dollars up.

Perhaps it is a case of mixed motive. There is no question but that the Sun is trying to make the most politically of the government's failure to meet its wishes by attacking Hon. W. J. Bowser and his four colleagues for betraying Vancouver's interest in not joining with it in its attempt at what would be little, if any, better than highway robbery.

In addition the Sun, throughout its discussion of the matter has shown callous disregard for the rights and the interests of the people of British Columbia as a whole. Its attitude has been to get the land in question for Vancouver regardless of the fact that the people of that city have no more claim to it than have the people 'of Nelson, or of any other part of the province. The land in question is public property and should be dealt with as such.

The Sun, however, sees fit to disregard this view of the matter. It feels apparently that if the agitation which it is fathering should by any chance succeed, it can take credit to itself and its friends for this among the people of Vancouver, while if it does not, it will be free to devote itself to showing how the Conservative members from Vancouver have failed in their duty in the matter, and how the government has done Vancouver an injustice through refusing to rob the province as a whole for the benefit of the people of that city.

EDITORIAL NOTES

The good old summer time is here again, after a few weeks' absence.

An exchange offers this sage advice: "Switch your order to buttermilk and keep cool." Which follows that when a man complains of the heat it is evidence he has not been drinking buttermilk. Lemonade, maybe.

One of the issues in the recent Saskatchewan campaign was whether the people of that province desired control of their crown lands. In the face of the verdict the government at Ottawa has no option but to retain control of these lands.

Another Dominion cabinet minister, Hon. F. D. Monk, is now on his way west and others are to follow. It can be taken for granted that these trips will result in a better understanding of the west and its needs in government circles at Ottawa.

What the Press Is Saying

Is It So?

One reason why pretty women are seldom sensible is that they don't have to be.—Chicago Record-Herald.

Beyond a Doubt.

They are talking of erecting a statue of Dick Turpin, the famous highwayman, in England. Well, there are many greater rascals than Dick who have had monuments erected in their honor.—Hamilton Herald.

Or a Sideshow Attraction.

This Date in History.

The Mahometan calendar, by which time is reckoned in Turkey and all lands adhering to the religion of Islam, had its beginning on this date in the year 622. The Moslems date their era from the Hegira, or flight of their prophet from Mecca, July 16, 622. The Mahometan calendar is divided into 12 months, named named Muharrem, Saphar, Rabia I., Rabia II., Jomhardi I., Jomhardi II., Rajeb, Sheban, Ramadan, Schawall, Dul Kaeda and Dalheggia. The first month has 30 days, the second 29, and so on alternately through the calendar, except that the eleventh and twelfth months both have 30 days. The present Mahometan year, 1330, the tenth of the forty-fifth cycle of 30 years, commenced Dec. 22, 1911, and will end Dec. 10 on this year. Today is the first day of the eighth month of the year, Sheban.

SLOCAN JUNCTION TRUSTEE ELECTION

Three Trustees Are Chosen—Juvenile Angler Finds Grasshoppers Good Bait for Trout

(Special to The Daily News.)

SLOCAN JUNCTION, B.C., July 15.—The voting for the election for the trustees for the school at Slocan Junction took place yesterday and the following were elected: C. Patey, O. W. Humphry, C. Gray.

A very successful dance took place on the same evening in the public hall. T. A. Wheildon was elected auditor.

Bill Vanderburgh, the juvenile angler of Slocan Junction, says the fish positively refuse to take the fly. He landed 19 dandy rainbow trout yesterday with grasshoppers.

James Walker and family are leaving for a three months' vacation. They will visit many points in eastern Canada during that time. Mr. Melneruk of Winlaw will be entrusted with Mr. Walker's duty during his absence.

The latest developments in business enterprises in the Slocan country is that J. D. Yateman has joined partnership with O. W. Humphry, the local merchant of the Slocan. The building is under renovation so that adequate accommodation will be in readiness for a fresh stock of groceries.

Mr. and Mrs. W. D. Ridge have just returned from their wedding trip and are taking up their residence at Bonanington.

M. Anderson has an excellent crop of cherries this season. He very kindly gave a quantity for desert at the dance.

Mr. and Mrs. F. Tarry of Tarry's have been the guests of Mr. and Mrs. Yateman, of Bayside ranch this past week. Miss D. Bealby of the Wellant ranch was also the guest of Mr. and Mrs. Yateman.

Mrs. M. Anderson had a visit from here sister, Mrs. L. E. Nelson of Heroult, Cal., and her son and niece on their way home from Minneapolis, where she had been to attend the graduation of her son Wilfred, who accompanied her.

The people of Slocan Junction had a musical treat in hearing Master W. Nelson play the violin.

SCHOOL HOUSE TO BE IMPROVED

Trustee and Auditor Elected at Mirror Lake—Missionary Launch Doing Good Service

(Special to The Daily News.)

MIRROR LAKE, B.C., July 15.—The annual school meeting was held here in the school house on Saturday. A. Milton was re-elected to the the vacant place on the board of trustees, and W. J. Read to the place of auditor. The ratepayers decided to make some considerable improvements on the school house and to increase the appropriation for that purpose accordingly.

Miss Lucia of Nelson is spending a few days' vacation here with Miss Katie Milton.

Rev. Dr. Calvert preached his first sermon here two weeks ago, and took the service again yesterday. He comes out on the missionary launch "I Will," which he is using to good purpose in visiting the various settlements along the lake. Dr. Calvert is a strong preacher and a very energetic worker.

Mrs. K. K. Bjerkness returned here a few days ago after an extended visit to Chicago and Minneapolis and other eastern cities.

Norman Link, Harry Morris and J. Stafford arrived here on Tuesday from Lethbridge. They have been busy fishing and enjoying themselves since and express themselves as delighter with the climate, scenery and surroundings.

A. T. Davis was home a few days from Calgary, looking after his ranch and building operations here. He left for Calgary again on Saturday.

Miss E. Ward of Seaman, Sask., is spending a part of her holidays with here aunt, Mrs. W. H. Jekill. She intends teaching in British Columbia the coming year.

Messrs Link & Simmons have wound up their business in Lethbridge and returned here permanently for the future.

MURDERED IN BED

(By Daily News Leased Wire.)

ST. CATEHINES, Ont., July 15.—A robbery and brutal murder was disclosed this morning at an Armenian boarding house on Ontario street, the victim being Arakil Harpimian, the cook, aged 55 years. A fellow countryman, Solomon Depariciap who was Tarpimian's bedmate, has disappeared. The victim was found in his bed with his throat cut from ear to ear and sundry other slashes.

VERDICT IN MANSLAUGHTER CASE "NOT GUILTY"

(By Daily News Leased Wire.)

REGINA, Sask., July 15.—Samuel Sydney, a farmer near Biggar, convicted in a lower court of manslaughter for permitting his wife and 10-year-old son to leave his roof on a cold night last winter, when they lost their way and froze to death, was found not guilty by their lordships in cont en banc here this morning and the conviction against him was quashed.

Fort Fraser

And Its Circle of Certainties

An imaginary line drawn around Fort Fraser and its 10,000,000 acres of tributary farm lands could well be called the "Circle of Certainties."

Natural conditions have insured the certainty of Fort Fraser's great future as a city.

With these millions of acres of productive soil at her door, with a great railroad rapidly approaching from both east and west and with water-power, mineral deposits and water transportation all available in wonderful abundance, can you not see how certain Fort Fraser's development must be?

Look ahead five years and think what a lot selling at $200 today will be worth then. Present prices are from $200 up.

Act now—before prices are forced up by further developments.

Call and get our booklet—it will interest you. If you can't call, write. Make up your mind and do it now.

NEW UNIFORMS FOR FRENCH TROOPS

Climax to Revival of French Patriotism—Colors Presented to Aeronautical Corps.

(By Daily News Leased Wire.)

PARIS, July 15.—The national fete was celebrated yesterday with enthusiasm unequaled in many years. A great review of the garrison of Paris was held at Longchamps race track. President Fallieres, whose term of office expires this year, attended, and the spectators numbered more than 300,000. It was the climax of the past year's remarkable revival of French patriotism, which so strongly impressed Europe. The stands were filled with a brilliant assemblage. In addition to the president, there were present the Bey of Tunis, ex-Queen Ranavalo of Madagascar, with members of the French cabinet and parliament and the diplomatic corps, among whom was the American ambassador, Myron T. Herrick.

Two dirigibles and several spherical balloons and a large number of aeroplanes maneuvered over the grounds during the review. A third dirigible broke away. One of the principal features of the review was the presentation before the French public of the new uniform, consisting of mignonette-colored tunic and breeches, puttee leggings and helmets. The crowds were quick to appreciate the practical military advantages of the new dress—its invisibility and neatness, and to accord the detachment thus arrayed an ovation.

The spectacle was brought to a fitting termination by the ceremony of the presentation of the colors to the newly organized aeronautical corps by President Fallieres amid thunders of applause.

WILL SUBSTITUTE WOMEN FOR MEN

(By Daily News Leased Wire.)

BERLIN, July 15.—Woman suffragists, the Socialists and other advocates of the equal pay for equal work doctrines are much wrought up over a plan of the imperial postal department, just announced, whereby 8,600 male employes are to be replaced by women on the score of economy. It is estimated that a yearly saving of about 6,000,000 marks, or practically $1,500,000, will be effected. The salary of some 3,600 of the posts to be filled with women will be 750 marks a year. This makes $14.88 a month.

STANDARD OIL FAT ON SUPREME COURT DECISION

NEW YORK, July 15.—There have been substantial rises during the last week or so in some of the former subsidiaries of the Standard Oil company of New Jersey, which have brought the quotation of the old shares, "all subsidiaries on," up to daily new high records, the offered price reaching the $1,000 mark. The quotation was $980 bid, offered at $1,000, although it was said it was doubtful if any stock could be obtained at the nominal "offered" price.

This price compares with the high record price before the dissolution of $842, reached in 1901, and the low of $390, made November 4, 1908. At the time of the announcement of the supreme court decision in 1911 the price was $675. Figured at today's offered price the 983,383 outstanding shares of the old company may have been said to have appreciated in market value by $319,599,475, or nearly three and one-fifth times the par value of the company's capitalization. John D. Rockefeller was the owner of 244,145 shares of the old company, and on the basis of the rise since the dissolution it might be said that the supreme court decision has added some $79,000,000 to the market value of that part of the fortune tied up in Standard Oil stocks.

"MY STOMACH IS FINE

Since Taking Na-Dru-Co Dyspepsia Tablets"

Mrs. J. Merkhuger, Waterloo, Ont., enthusiastically recommends Na-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why.

"I was greatly troubled with my stomach", she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of Na-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give Na-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat any food."

One of the many good features of Na-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take, The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.

PRIESTS ENTHUSIASTIC FOR BISHOP'S SCHEME

(By Daily News Leased Wire.)

LONDON, Ont., July 15.—Bishop Fallon, who returned last night from the retreat at Sandwich, announced that the priests there were enthusiastic over his plan for a seminary for London and promised him the heartiest support. His lordship said that one reason for the seminary was his profound conviction of the great educational future of the western Ontario peninsula and his desire to take part in it. Bishop Fallon announced that the 50-acre site already secured was *a gift to the Episcopal corporation.* He declined to give the name of the donor.

NEW HOTEL BEING BUILT AT BURMIS

(Special to The Daily News.)

COLEMAN, Alta., July 15.—A. Manuel, the popular proprietor of the Frank hotel, Frank, has commenced active operations on his new edifice at Burmis, to be known as the Burmis hotel. Joseph Merino of Blairmore has secured the contract for the excavating of the basement and the erection of the foundation and the work is proceeding under his supervision. The building will be a two-story frame, 113 by 75 feet, and will be fitted with the best furnishings money can command and all modern conveniences. It is Mr. Manuel's intentiond to excel in his new hotel the high standard of the present hotel at Frank.

A force of men are at present employed in excavating at the site of the new C. P. R. depot at Burmis.

J. T. Stirling of Edmonton, provincial mine inspector, is a guest at the Rocky mountain sanatorium, Frank. Mr. Stirling is engaged in making an exhaustive and thorough investigation of the condition of Turtle mountain and his report on the subject is awaited with much interest by the citizens of Frank.

The International Coal & Coke company, limited, of Coleman, is installing a high pressure Rand drill compressor at its York creek property. Development work in this mine is proceeding rapidly and the output steadily increasing.

It is the intention of the citizens of Coleman to petition the government to have the customs department designate this town as an official port of entry. Fourteen thousand dollars is the annual amount of duty paid by three firms of the town alone, not taking into consideration numerous smaller concerns. A largely signed petition will be forwarded in the course of a few days to the minister of customs, requesting that the claims of the citizens of Coleman in this regard be speedily recognized.

Picturesque little Crows Nest, the Lucerne of the American continent, is to have a church. Formerly religious services were held in a tent or not at all, but a few of the more enterprising brethren got together and decided that a permanent place of worship was necessary. As a result of their efforts the C. P. R. is granting a site and Andy Good, the mayor, will give a handsome donation. The structure will be completed in the course of a few weeks and will be controlled by the presbytery of Alberta.

Joe Merino, contractor of Blairmore, was a business visitors to Coleman.

A regrettable accident occurred at the Hillcrest mines on Thursday last, when Lias Litherland, a miner, was seriously injured about the hips and thigh by a premature blast. The unfortunate victim was conveyed to the hospital, where his injuries were attended to by Dr. Ross. His condition is critical.

MINING EXPERT VISITS AINSWORTH CAMP

(Special to The Daily News.)

AINSWORTH, B.C., July 15—Fred Grant, *mining expert of Butte, Mont.,* made the camp a visit this week looking over the Silver Hoard property which promises to be one of Ainsworth's *greatest shippers in the near* future.

Alex Grant returned to town on Tuesday after spending several months at Hall siding.

J. J. Scott paid his parents a visit, returning to Kaslo Thursday.

Mrs. J. McCallum and family of *Meadow ranch, near Lardo, spent a* few days in town attending the golden wedding of her parents, Mr. and Mrs. J. Scott.

Peter McElroy *of the No. 1 mine,* met with a painful accident Friday while pulling down the old mill. While in the act of pulling down some *old fixtures the crossing where he was* standing suddenly tilted throwing him to the ground. Fortunately he escaped with a slight cut on the head *and a shaking up. He left for the* Kaslo hospital this evening.

LARGE GATHERING AT DEER PARK FUNERAL

(Special to The Daily News.)

DEER PARK, B. C., July 15—All work, *private and public, was abandoned* on Thursday in honor of the late Mrs. William Burgh, who was buried in the afternoon. People from Syringa creek, Nekon, Renata and Edgewood attended the funeral. It was the largest gathering on a similar occasion in the history of Deer Park. The deceased was assistant postmaster and an old-time resident of this place, was known and held in high esteem by young and old. Her kind face and busy hands, which handed out the morning mail for a number of years, will long live in the memory. The funeral service was held by Rev. Mr. Phillimore from Nakusp, who arrived on the down boat. Flowers were contributed: A cross of white roses by Mrs. V. A. Linquest, a cross of rambling roses by Mr. and Mrs. C. R. Hamilton, a garland of white roses and pansies by Messrs. H. Gibson and G. Briggerman, a wreath of sweet peas by Mr. and Mrs. Stirling, bouquets by Messrs. Schmicht, Briggerman Bros. and Mrs. Massey. The pallbearers were Messrs. I. P. Miller, P. Knabe, E. H. Down, G. Briggerman, Jr., F. J. Goossin and Paul Knabe.

COLUMBIA GARDENS ITEMS

(Special to *The Daily News.*)

COLUMBIA GARDENS, B.C., July 15—A meeting of the citizens of this district was held in the school house *to discuss the saloon question as it* stands in this community and to elect a delegate to go to the attorney general in Victoria and see if he can*not get him to* look into the affair. The settlers have tried to get the saloon out by petition and an officer was sent here to inquire into it.

Mr. Hay, the representative of the Sayward syndicate in Nelson, was here with a couple of prospective buyers to look at the orchards. The people were very favorably impressed with the place in general.

James Hunter of the Sayward syndicate is here now, looking after the interests of the company. While he expects to stay but a few days, his son William, expects to spent his summer vacation here.

While the late rains have been universally beneficial it is hoped the weather will stay clear as the rains now are detrimental to the fruit crops.

YMIR NOTES

(Special to The Daily News.)

YMIR, B.C., July 15—The compressor parts for which the Hobson Silver Lead company has been waiting for some time have finally arrived and will be put in place at once and work resumed as formerly.

J. C. Buchanan, manager of the Yankee Girl mining interests here and elsewhere, and who has been spending some weeks at his home in Texas is expected here shortly with his family and will make Ymir his permanent home for at least some time to come.

Ivan Delashmutt, who succeeded W. Leete as superintendent of the Hobson Silver-Lead company, is arranging to move here with his family.

W. J. Ager, assistant road master, sustained severe injuries recently by falling from one of the unprotected sidewalks during a very dark night. His collar bone was fractured and he was otherwise severely bruised and shaken up. His injuries were promptly attended to by Dr. Rehberger of the Ymir hospital and he was removed to the hospital at Northport where his family resides.

Mr. and Mrs. McEwen sailed for Australia on the *10th inst. from Vancouver* on the Zelandia and will arrive in Sidney on or about Aug. 4.

Mrs. Lyon returned to the Dundee *mine yesterday after several weeks* illness in the hospital.

Mr. Atcheson, the school teacher, spent several days in Nelson this week *returning home on Friday.*

Mr. and Mrs. James Gille take this opportunity of extending sincere thanks to their many friends for their *uniform kindness* and help during the illness and death of their infant son.

Dr. Rehberger of the Ymir hospital is a very busy man these days. The hospital is pretty well filled up with patients and he has many in Fruitvale and Salmo who require his attention.

Born, to Mr. and Mrs. W. J. Turner, a son on July 10.

A TERRESTIAL PARADISE

To the Editor of The Daily News:

Sir—I notice in Friday's issue of your valuable paper a paragraph concerning Christina lake. About two years ago we spent the month of July in Fife—my husband, Rev. James Black, M.A., late of Didsbury, Alta., myself and family and we considered the place a veritable little paradise. We had bought a farm up on the upper bench, about five minutes walk from the station, a farm of 132 acres *with a nice young orchard planted and* about 35 trees in bearing, only a mile from the beautiful Christina lake. It seemed strange to us that such a lovely country place should be so little known. The quiet, restful beauty of the place reminded us of the good old country places at home (England.) It did not seem fair to me that a few foreigners, Italians mostly, should monopolize so fair a place. There is a fine road right through to Grand Forks. We sold our orchard and a part of our farm a year ago. We have a fruit ranch here in Trail, but we still love Fife and hope to spend many a happy holiday there. If any place deserves to be boomed *I think Fife* is certainly in that position.

MRS. JAMES BLACK.

Trail, B.C., July 9.

SUPPLIES FOR TRAINS BOUGHT AT REVELSTOKE

(Special to The Daily News.)

REVELSTOKE, B. C., July 15.—Revelstoke Progress club held their regular meeting on Tuesday evening, at which the, president, Dr. Hamilton, presided. Among the interesting items made public at this meeting was the information from the Canadian Pacific railway that in future all through and local trains between Calgary and Vancouver, both ways, would obtain their supplies at Revelstoke. It was also reported that work on the Mount Revelstoke Scenic auto road was proceeding satisfactorily, that a grade not exceeding 8 per cent had been obtained and that the final surveys for the last leg of the road would be completed within two weeks.

B. R. Atkins made his report regarding his attendance as delegate at the Calgary Panama conference, where the Revelstoke-Columbia river grain route received the endorsation of the conference.

The matter of suitably entertaining the Duke of Connaught during his forthcoming western tour was discussed and laid over to the next meeting.

Meadow Lake farm at Craigallachie has recently become famous for producing giant vegetables, early cauliflower weighing 13 pounds being brought to town.

Reports continue to reach town almost daily of great activity and rich strikes in the French creek placer mines, and this, combined with the recent visit of Hon. W. R. Ross to the northern country, is stimulating interest in the Big Bend region generally.

Tuesday is the C. P. R. pay day, when $140,000 will be distributed amongst the employes of the company *in Revelstoke,*

General Superintendent Peters of the C. P. R. arrived in town in his private car.

MEMBER HAS NARROW ESCAPE ON YACHT

(By Daily News Leased Wire.)

PORT HOOD, N.S., July 15.—H. B. Amas, M.P. for St. Antoine division of Montreal, and a party of friends had a narrow escape last night when his yacht Manona struck a header in a heavy sea and went down. Mr. Ames and his friends escaped in a small boat with difficulty.

HUNDRED DOLLARS IN PUZZLE PURSE

First Golden Wedding at Ainsworth—Popular Couple Honored by Relatives and Friends

(Special to The Daily News.)

AINSWORTH, B. C., July 15.—Ainsworth, the oldest camp in the Kootenay district, was the scene of a very happy event, on July 10, when Mr. and Mrs. John Scott celebrated their golden wedding anniversary. This is the first celebration of its kind since the camp was *founded. Although Mr. and Mrs. Scott* have reached the three score years and ten yet they are both hale and hearty and able to attend to household duties and to take upon themselves the care of a large garden.

Mr. and Mrs. Scott and family came from Perth, Ont., about the year 1900 and have ever since contributed to the social life of the town, of which fact cognizance was taken by the citizens *and the men of No. 1, Silver Hoard,* Bluebell and Highland mines in presenting a very unique puzzle purse which contained $100 in gold.

In a few well chosen and appropriate words the presentation was made by Dr. Henry, which was responded to by Mrs. F. Jerome in the midst of the friends assembled.

Among other presents were: $25 in gold from J. J. Scott, $5 from from Mrs. F. Jerome, $5 from Mrs. Whitehead, Mrs. Wynn, Mrs. J. T. Brown, $5 from Mr. and Mrs. Becket, Spokane, Wash., A gold-headed umbrella from Mrs. Grant King and family, silver tea strainer *from Mrs. L. B. Luther,* a pipe from L. B. Luther, two cups and saucers from Mrs. William Elder and Mrs. Elliott, a china sugar bowl and pitcher with gold edging from Mr. and Mrs. Halliwell.

Mr. and Mrs. Scott are blessed with two sons, three daughters and 17 grandchildren. The only son remaining at home is John J. Scott. Those of the family present were Mrs. F. Jerome and five children, of Nelson; Mrs. J. Mc*Callum and four children of Lardo, and* John J. Scott. Mrs. Leslie was unable to be present. A few out-of-town friends were Mr. and Mrs. Ebbs, Mrs. E. Elliott, Ernie Elliott, Mrs. James Foote, Miss Lillian Foote, all of Nelson, formerly of Perth, Ont. Mr. and Mrs. Halliwell, Mrs. Brown, Mrs. Wynn, Mrs. Whitehead, all of Nelson; Miss Robertson of Kaslo; Alex. Grant, Charles Sherwin, superintendent of the Bluebell mine at Riondel, and George Lingard, assistant superintendent of the Bluebell mine; Mr. Buchanan, student at Slocan City; J. J. Greenlee, student at Proctor; T. G. Loudon, student at Ainsworth, be*sides a large number of others* who were present to rejoice in the happy celebration.

After the presentation, Mr. and Mrs. Scott and all present adjourned to the Ainsworth hall where a few merry hours were passed to music supplied by Mr. and Mrs. Clarence Harmon and Charles Sherwin and R. Evans, after which the company reassembled at the house to partake of supper. The house was very prettily decorated in harmony with the occasion, gold being the prevailing color. A bell, presented by Miss A. M. McKinnon, which hung over the centre of the table, contributed largely to the decorations. The table, which extended the length of the room, groaned beneath the weight of good things.

Some more amusements having been indulged in and having been favored with several songs by Charles Sherwin, the happy guests, bestowing showers of congratulations and, good wishes upon the bride and groom, and declaring that they had enjoyed one of the best times of their lives, dispersed to their several homes.

BIG BREAK IN WHEAT PRICES

(By Daily News Leased Wire.)

WINNIPEG, July 15.—There was a big break in prices on all wheat markets, particularly in September, futures in Minneapolis and Chicago markets, on the big crop reports and no rust in Dakota. The former declined for the day 3⅞c for September, while the latter was 4⅛c down at the close for September. On the Winnipeg market prices declined in sympathy with the American markets. There was no bull news, the demand was poor and Liverpool cables were unchanged for the present month and ⅜c lower for October. The closing figures were 2⅛c for July and 1¼c for October.

Minneapolis closed 2@4⅛c lower, and Chicago closed 3¾@4⅛c lower. The Winnipeg cash demand was poor for all grades, while offerings were liberal and exporters were resellers, causing prices to decline all round generally, contract grades declining 2½c. Oats were quiet with prices barely holding their own, while flax olds were much lower.

Chicago coarse grains were weaker in sympathy with wheat. Receipts were heavy, 600 cars being in sight for inspection today.

NEW YORK STRONGER

(By Daily News Leased Wire.)

NEW YORK, July 15.—Steady and consistent strength was manifested by *the market today the result primarily* of last Saturday's strong bank statement, which rectified the adverse conditions of the preceding week when a deficit in the actual reserves was reported. Prices moved in leisurely fashion throughout the session but gains were general, especially in stocks of speculative importance. St. Paul, which was the weakest feature of the market in the closing days of last week, recovered over 2 points from its low level of that period despite increasing belief that the approaching semi-annual dividend may suffer further reduction. Union Pacific, Norfolk & Western and other dividend payers reflected moderate absorption with a fair demand for some of the specialties comprising the electrical and equipment groups. There were virtually no transactions in the securities of the several express companies, whose *earnings are likely to be somewhat impaired* by reason of the new rate system ordered by the interstate commerce commission. Best prices were recorded in the final dealings when American Tobacco scored a sharp advance.

Another beneficial effect of the bank statement was the money market, which showed relaxation in call loans, although *the demand was somewhat in excess of* recent days. Western money markets were firmer, however, a condition arising directly from business revival and increased trade activity. Traffic managers in that section report a larger freight movement than a year ago.

Bonds were steady but dull. Total sales, par value, $2,530,000. United States *government bonds were unchanged on* call.

LONDON MARKET INACTIVE

(By Daily News Leased Wire.)

LONDON, July 15.—Money was scarce today. Discounts were firm. The Bank of England bought the bulk of the $4,000,000 South African gold offered in the open market. The stock market was inactive. British securities generally were *heavy under the lead of consols, which* fell⅛ to a new low record on actual and prospective new issues. Mexican rails and mines and rubber shares closed firmer. American securities were quiet and steady. During the early trading prices advanced a fraction on covering and later additional gains were made on New York support. The closing was *steady.*

WILD BULL MARKET IN POWER

(By Daily News Leased Wire.)

MONTREAL, July 15.—The market for Power and Shawinigan today was more sensational in character than any that has gone before, and that is saying a good deal. Jumping from 226⅝@227 at the opening, there was a wild bull market from the outset and in the first *hour it had advanced to 239½. In an incredibly* short time it sagged to 232 and later sold within a point or two of that level. The highest on Saturday was 225⅝, after opening at 221. This represents a jump of 18½ points in the two days, a showing that has seldom been equalled in the local market. Shawinigan, which sold up to 143 on Saturday, opened *around 145 and advanced rapidly* to 155. It later reacted as sharply as it advanced to 150. There was a variety of rumors to account for the display of fireworks, one being that shorts interests had started in a somewhat frenzied manner to cover.

It was also jocularly suggested that the market was suffering from the heated spell and *that some buyers were not* quite accountable for what they were doing. It was generally agreed that the market had abandoned conservative principles and was plunging in a most reckless manner as the result of previous speculative successes and that no calm reasoning could account for today's outburst. If a plan should be solved of advantage to the shareholders it is believed to be somewhat remote yet, and *such wild speculation as was witnessed* today is liable to court trouble for many.

Detroit was strong around 68 but the balance of the list, while most mostly firm, was dull. Richelieu and Steel afforded the only instances of issues out of tune with the prevalent bull music, Richelieu selling at 116¾ and Steel to 63½. Cement was strong at 29, Toronto *Rails at 142½, Sao Paulo 254½, Rio 150* and Scotia 93. Power and Shawinigan were active in the afternoon, Power going to 236⅛ and off again to 233¾ while Shawinigan was active around 152.

CONSOLS SLUMP AGAIN

(By Daily News Leased Wire.)

LONDON, July 15.—Consols touched a new low level of 75¼ today. Apart from the general tendency of British financiers to discard home securities in favor of foreign stocks, today's slump was partially due to rumors of a treasury bill issue of $50,000,000 in connection with the national telephone purchase and the congestion at the same time of the new issue market. No fewer than eight prospectuses of new concerns this morning invited subscriptions aggregating nearly $15,000,000.

A Safe, Sensible Investment

An improved fruit farm comprising 93 acres of strictly choice fruit land and with one-half mile frontage on Kootenay lake. Fifteen acres cleared and under cultivation, 10 acres of which are in bearing orchard. One acre of strawberries; one acre of small fruits; registered water right and water ditched over farm. Could be sub-divided into smaller tracts to advantage. Considering this location and the very fine quality of the land and improvements (the orchard being in first class condition and of standard varieties) we consider this farm one of the best buys *in the district today.*

Price $10,000. Terms arraged.

INSURANCE ACT VAST MUDDLE

England Today Becomes Nation of Stamp-Lickers — Employers Cut Wages.

(By Daily News Leased Wire.)

LONDON, July 15.—The national insurance act goes into effect today and England is thinking of little else. One *of the most extraordinary features of* the matter is that with all the discussion no one seems to understand clearly what it is all about. Only one of two points are settled, one of these being that some 14,000,000 people are promised various sick benefits, doctors and hospital treatment, and particularly treatments and sanitarium for consumptives, while as a matter of fact, *the doctors with one accord have refused* to treat patients for the sum the act provides they be paid, and no sanitaria are yet available for consumptives.

The country is to have 76 tuberculosis sanitariums, with 2,500 hospitals and something like 50,000 tuberculosis workers are ready to take immediate advantage of the act. As the *Daily Mail expresses it, the only* advantage the workers will receive for their tax will be compulsory cod liver oil. The government has been hard put to it in the house of commons these last few days explaining its hope to have sanitaria within 18 months and suggesting that in the meantime, why not be optimistic and see if the act will accomplish any good without them?

Another feature on which there seems to be no doubt is that the English become today a nation of stamp lickers. Every man or woman who has a servant will have to keep a little book in which to paste the penny stamps each week for each servant kept, under a penalty of a $50 fine for each stamp missing. Servants must likewise keep a book and lick stamps. *These points being settled and that* all the benefits to be derived under the act are deferred six months with the exception of the benefit of the sanitaria that do not exist, employers have already begun informing their men *that wages will have to be cut to make* up for the new tax. This means that employes will not only have to pay the tax, but will have their wages cut as well, in order to provide for the employers' share of the tax, and while the employers' tax is four pence a week, wages will be cut a shilling. The insurance companies meanwhile are rushing to form sick benefit societies *and are taking new members by hundreds* of thousands, as the act provides that the government allow the societies three shillings and eight pence a week for each member cared for during sickness, and statistics show an average cost to societies of sick benefits of two shillings and eight pence a week.

Lloyd George, the framer of the measure, naturally is the man of the *hour. When entering the Kensington* theatre on Saturday for a celebration, arranged by supporters of his policy, he was attacked by an opponent of the measure. The chancellor of the exchequer was somewhat roughly hustled but was not hurt.

Chancellor's Speech.

In his speech afterward he said he recognized that the act did not herald the millenium, but he was confident that it brought it nearer, "for the first time in the history of Great Britain as a state, employer and worker are now to co-operate to maintain and to increase the efficiency of the *individual and of the nation. The workman's* insurance act aims to make provision for keeping the household from poverty, to keep the worker and his family from pauperism in the dark days of sickness which come to every household in turn, and to guard against suffering from unemployment for which the workman is not responsible.

"It will help the mother at *childbirth and will inaugurate a great national* campaign against consumption. Instead of devouring our strength altogether to fighting our neighbors abroad we are organizing to fight social evils at home.

"Although the act has been the subject of unscrupulous attacks and deliberate misrepresentation I am convinced that it will be hailed through *the whole country as one of the most* beneficial measures ever given to the people.

"And now that the workmen's insurance act will be in operation next Monday," he concluded, "we intend to put our hands to the great work of freeing the land which was meant for the use of the many, but which has drifted into the hands of the few, freeing it *for the people and for their children* forever."

Two weeks ago every occupant of a house in England received a circular from the insurance commission setting forth the classes affected by the act, the contributions to be paid and the benefits to be received.

PORTLAND CANAL MINE JOINS SHIPPING LIST

(Special to The Daily News.)

STEWART, B. C., July 15.—After three ears' continuous development the Redcliffe mine, one of the Bonanza copper-gold properties of the Portland Canal mining division, *has joined the* shipping ranks. The initial shipment of 10 cars of ore came down from that *mine on the Canadian Northeastern* railway and a total consignment of 700 tons will be sent south on the Amur route to the Ladysmith smelter. Citizens of Stewart celebrated the occasion, as the Ratcliffe is the second property to enter the category of commercial producers. Premier Sir Richard McBride, Attorney General Bowser and William Manson, M. P. P., are due *on Thursday and will be taken up the* railway to the Redcliffe mines, besides being given a public reception and banquet. It is anticipated that the premier will make formal announcement of his government's intentions regarding financial assistance towards the extension of the railway to Edmonton, making Stewart the Pacific terminus of another transcontinental railway.

NOTICE TO CONTRACTORS

Lock-up at Silverton

Sealed *tenders, superscribed* "Tender for Lock-up, Silverton," will be received by the Honorable the Minister of Public works up to 12 o'clock noon on Friday, the 2nd day of August, 1912, for the erection and completion of a lock-up at Silverton, in the Slocan electoral district, B.C.

Plans, specifications, contract, and *forms of* tender may be seen on or after the 12th day of July, 1912, at the offices of the Constable in charge, New Denver, B. C., the Government Agents, Revelstoke, Kaslo and Nelson; and the Department of Public Works, Parliament Buildings, Victoria, B.C.

Each proposal must be accompanied by an accepted cheque or certificate of *deposit on* a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of $200, which shall be forfeited if the party tendering decline to enter into *contract* when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to *them* upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and *enclosed in the envelopes* furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
Department of Public Works,
Victoria, B.C., July 10, 1912. 77

NOTICE TO CONTRACTORS

Sealed tenders, superscribed "Tender for School-house, Crescent Valley," will be received by the Honorable the Minister of Public Works up to 12 o'clock *noon, of Friday, the 26th day of July,* 1912, for the erection and completion of a small one-room frame school house at Crescent Valley, in the Ymir District, B.C.

Plans, specifications, contract, and forms of tender may be seen on and after the 8th day of July, 1912, at the office of C. F. McHardy, Esq., *Secretary of the School Board, Slocan, B.C.;* the Government Agent, Nelson; and the Department of Public Works, Victoria.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for the sum of $200, which shall be forfeited if the party *tendering decline* to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon territory, the North-west Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be *described by sections, or legal sub-divisions* of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable *coal mined* and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the *rate of $10.00 an acre.*

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for. 282-161

SEVEN THOUSAND FEET OF PIPE

Elaborate Irrigation System Being Installed at Ranch at Riondel—Gives High Pressure.

G. B. Mathews returned on Saturday evening from Riondel, where he has been superintending a gang of men laying a pipe line for the purpose of irrigating his ranch there. Mr. Matthew says that he already has 4,000 feet of six-inch steel flanged pipe laid and within the next week intends adding another 3,000 feet to this, making a total of 7,000 feet of air pipe line, which will be capable of giving a pressure of 120 pounds and distributing water into every corner of his farm.

When this is completed Mr. Matthew will have one of the best irrigated ranches in the district and one *that will be a credit to Kootenay lake.* This is probably the most extensively irrigated piece of land in the district and the work will prove of interest and value to other ranchers.

NELSON NEWS OF THE DAY

The regular meeting of the Knights of Pythias will be held tonight at 8 o'clock when the first rank will be conferred.

Mrs. O. B. Appleton arrived in Nelson last night on the Crow boat, coming in from Gateway, B.C., to be the guest of her sister, Mrs. H. H. Pitts, Vernon street.

The choirs of the Baptist, Presbyterian and Methodist churches are invited to attend a joint rehearsal to be held this evening in the Methodist church. It is expected that every member will make an effort to be present.

Queen City Rebekah lodge No. 16, I.O.O.F., will meet tonight at 8 o'clock. Installation of officers for the ensuing term will take place. After the meeting refreshments will be served and the balance of the evening will be spent socially. A cordial invitation is extended to visiting members.

Ali Ho pleaded guilty in the police *court yesterday morning to a charge of* supplying liquor to an inmate of a house of ill fame and was fined $100 and costs or nine months' imprisonment, the minimum penalty. The fine was paid. James *O'Shea, defending him,* made an appeal for his release with a warning. The magistrate, however, imposed the fine. A warrant has been issued, the police say, against Mar Hi, the proprietor of a Chinese restaurant, on a charge of selling liquor. They also say that they have a warrant to arrest the woman who took the liquor from Ali Ho.

Choquette Bros. require an experienced baker at once. 68-tf.

NOTICE

The half-yearly shareholders' meeting of the Citizens' Co-operative Association will be held at Eagle hall Thursday, July 18th, 1912, at 8 p.m. A full attendance is requested. 78-3

TWO LAUNCHES ADDED TO NELSON'S FLOTILLA

W. J. Toye's new mahogany launch was put through her paces for the first time yesterday and proved to be a speedy craft. The boat is 28 feet long and is fitted with a 55 horsepower Mercury engine, which is expected to drive her at the rate of nearly 20 miles an hour.

William Thurman's 25-footer also saw the water for the first time yesterday. It is fitted with a six-cylinder engine of 20 horsepower.

LIVE IN TERROR DIE IN DESPAIR

Horrible Tales of Atrocities in Rubber Forests of Bolivia—Mutilation and Death.

(By Daily News Leased Wire.)
RENO, Nev., July 15.—Horrible tales of atrocities committed in the rubber growing region of Bolivia have been *brought here by Charles E. Meyers of* Oakland, Cal., who has just returned from a trip through Bolivia, Peru Chile and Colombia, where he has been *examining the mining prospects for a* syndicate of capitalists. He declares that the condition of the natives is infinitely worse than that of the inhabitants of the Congo rubber region in Africa. Francisco Suarez, Mr. Meyers declares, has established himself as the undisputed ruler of 400 square miles on the east side of the Beni river, one of the headwaters of the Amazon. Here are forests fabulously rich in rubber trees, from which Suarez has amassed a large fortune at the expense of terrible human suffering. With an army of 200,000 natives he has been able to make himself independent of all properly constituted authority. He demands from every native a stated quantity of rubber at regular intervals, and when it is not forthcoming he subjects the natives to a process of progressive amputation and torture, culminating, if the failure persists, in decapitation. Neither women nor children are exempt from his actions and they live in terror and die of despair as they are butchered without the smallest chance of escaping. Those who offend Suarez are executed at his slightest whim or are thrown into jail and manacled to *walls to perish slowly of heat and star*vation. Even the tyrant's own brother was put to death, as Suarez fancied that he was plotting treason against *him.*

INGERSOLL CREAM CHEESE

YOU will actually be surprised at the number of delicious and appetizing dishes you can prepare with **Ingersoll Cream Cheese.** *Try this one and see how* really good you will find it:

CHEESE STRAWS

GERMAN FLAG WILL FOLLOW COMMERCE

(By Daily News Leased Wire.)
BERLIN, July 15.—Emperor William has just made a speech designed *to curb the too aggressive spirit of* those Germans who wanted to see the German flag raised over a part of Morocco last year. This speech, which was made at a yacht regatta banquet at Hamburg and was largely addressed to Hamburg merchants, contained a pointed reference to the Agard incident. The passage in question was as follows:

"As you all know, gentlemen, the flag must wave in honor and it must not be recklessly spread to the breezes or hoisted where we are not sure that we can defend it. You will understand why I have practiced self-restraint in spreading the German flag at places where many persons perhaps long to see it floating. I was governed by an old Hanseatic principle graven on the town hall at Lubeck: 'The little flag is easily bound to the staff, but it costs much to haul it down again with honor.'"

The Emperor went on to say that he could claim that, during his reign, the honor of the German flag had never been insulted from any quarter, and then addressing himself to the Hamburg merchants he added: "I pledge you and I stand for it, that my flag will follow you wherever you lead the way." The latter remark shows that the Emperor does not believe in the old political maxim that trade follows the flag. He is less aggressive and is content to have the German flag follow trade.

RESOLUTION

Whereas, there is now employed at the Cinderella mine, near Three Forks, a Chinese cook, and

Whereas, through the loyalty of its friends and the fidelity of its membership, this union has hitherto been successful in maintaining a "White B.C." in so far as its local jurisdiction extends, and

Whereas, every friendly overture to secure a continuance of this state of affairs has been unsuccessful in persuading the management of the property *in question to dismiss* the Chinaman, therefore be it

Resolved, that this, Sandon Union No. 81, of the Western Federation of Miners, vigorously condemns the employment of *Asiatic help, in any* capacity, and calls upon its friends and members to use every lawful and honorable effort to secure the banishment of the present Oriental, and prevent the future introduction of a class of labor that can only result in lowering our present standard of living, and injury to the moral, social and civic tone of the community, and be it further

Resolved, that the sense of this resolution, and a history of the reasons responsible for its adoption, be circulated as widely as possible amongst the membership and friends of organized labor, in this portion of the province of British Columbia.

Sandon, B.C., May 28, 1912. 39-tf.

TRIAL OF KOREANS IS MYSTIFYING AFFAIR

(By Daily News Leased Wire.)
SEOUL, Korea, July 15.—The direct examination of 123 converted Koreans charged with plotting against the government and the life of Count Terachui, the Japanese governor general of Korea, developed a most confusing situation. The preliminary examination began June 28 and a majority of the prisoners set up a denial of all the charges. In answer to the judge's questions they said their previous statements made before the police examiner were false. They explained that they had made them because they were beaten or threatened. A few of the prisoners admitted connection with an organization which had for its purpose the independence of Korea. Baron Yunchiho, a former member of the Korean cabinet, openly admitted having made false statements at the preliminary trial in order to save himself. A majority of the prisoners are probably not converts. Yunchiho is a *Methodist. At the preliminary hear*ing many of the prisoners made alleged confessions, implicating a number of missionaries, asserting that the *missionaries were cognizant with the* plans and approved the conspiracy. The chief judge's questions were largely devoted to this phase of the case. He probed deeply into the alleged connection of the missionaries in the conspiracy, but the prisoners emphatically denied that the missionaries were implicated in any way.

The name of Bishop M. C. Harris was mentioned once by the judge, but the authorities assert that they have not the slightest idea that any of the missionaries, especially Bishop Harris, has any knowledge of the plot.

The trial continues, but up to the present it is impossible to arrive at any definite opinion except that possibly a conspiracy existed, but was entirely abortive. It is believed that some of those concerned construed certain sympathic utterances by the missionaries into encouragement of the plans *looking to the independence of Korea.*

TO STRENGTHEN SQUADRON IN MEDITERRANEAN

(By Daily News Leased Wire.)
LONDON, July 15.—The cat has been let out of the bag in the matter of the Mediterranean naval scare and it is now announced authoritatively that parliament will be requested to make a special naval appropriation to carry out a new program designed to meet the requirements in the inland sea. A squadron, slightly superior to either the Italian or the Austrian squadron, will be stationed in the Mediterranean and new ships will be built to take their place in the waters nearer home. This arrangement, it is announced, is independent of any proposals the Canadian ministers may make, as it is extremely improbable that they will come to any immediate decision.

Nature's Scalp Tonic

Machela, Nature's Scalp Tonic, con*tains one ingredient that supplies nour*ishment to the hair root, one that kills the dandruff germ and another that puts life and lustre into the hair. BREAKS WRIST WHILE CRANKING MACHINE

(By Daily News Leased Wire.)
VANCOUVER, July 15.—E. A. James former manager of the Canadian Northern railway, who reached here a *few days ago from Winnipeg, is laid* up at the Hotel Vancouver with a broken wrist. The accident occurred Saturday while cranking the engine of an automobile and was due to his failure to adjust the timer.

OLYMPIC SUCCESS MERE MATTER OF MONEY

(By Daily News Leased Wire.)
LONDON, July 15.—Much correspondence is appearing in the English newspapers concerning England's poor showing at Stockholm. The opinions expressed, however, are too various and conflicting to permit of any decided lesson to be drawn. The Rev. Robert Stuart de Courcy Laffan, a member of the British Olympic committee, has cabled a statement from Stockholm. He insists that it is merely a question of money and says that if the British Olympic council had been provided with the necessary funds, a comprehensive scheme of training extending over four years could have been carried out. It still can be carried out in readiness for the next Olympic, he adds, if England will wake up.

NELSON NEWS OF THE DAY

E. E. Greenwood of Proctor is among the guests at the Hume.

D. Matheson of Ainsworth is a visitor in the city, being registered at the Hume.

Mrs. and Miss Healy are stopping at the Madden house and are on their way to Spokane on a pleasure trip.

Mr. and Mrs. Zwicky, A. Curney, J. Riddell, C. F. Caldwell and R. J. Stenson were Kaslo visitors at the Strathcona yesterday.

There will be a general meeting of the Nelson Boat club this evening at 7.30 at the club house. All members are requested to attend.

Dr. J. T. Ferguson, former pastor of St. Paul's Presbyterian church, and family left yesterday morning for Calgary, where he will resume his duties as superintendent of home missions.

After the next regular meeting of Clan Johnstone, which takes place on Friday evening, there will be a social evening with music, dancing and ice cream. Clansmen are invited to bring their friends. Ladies are especially welcome.

Miss Ola Cavanaugh, formerly of Nelson, came in on the Crow boat from Lethbridge on Saturday night. Miss Cavanaugh is staying with her uncle, J. R. Walton, of Four-Mile, and will remain throughout the summer.

Many guests attended the dance in the Alice roller rink last evening, given under the auspices of the Nelson Lacrosse club, and the music furnished by Meyers' orchestra was excellent, and with the floor in perfect condition the evening passed most enjoyably. At midnight a supper of many delicacies was served extra numbers the dance broke up about 1.30 o'clock.

J. Barrett, manager of the Creel lodge at Slocan Junction, came into town yesterday. He reports the fishing there very good, especially in the big pool, after sunset. Mr. Barrett says that all improvements to the lodge for this season have been made, and there are now, besides the regular lodges, three large tents and a bathing house for the comfort of disciples of Isaac Walton.

On July 12 W. G. Thomson, who has lately returned from a visit to England, received news of the death of his eldest daughter, Buela, at Margate, England, which occurred on July 5.—Mr. Thomson has just returned from a visit to Margate where his children are attending school. During his stay at Margate his eldest daughter had an attack of appendicitis, but had apparently recovered when Mr. Thomson left, about 10 days later. In letters received since his return to Nelson it was said that his daughter was in good health, and Mr. Thomson was unaware of any return of the attack until he received news of her death. Mr. Thomson has left for the coast to stay with relatives awaiting the arrival of Mrs. Thomson from England with the body.

NELSON REPRESENTED AT MINERS' CELEBRATION

Nelson will be well represented at Rossland on Wednesday at the Miners' Day celebration. Three teams are going over, baseball, lacrosse and football. The lineup of the football team is as follows: Goal, F. Williamson; full backs, J. V. Wilkinson, J. Ellis (captain); half backs, J. Holland, Guille and R. Hadden; forwards, E. Bennett, Parks, H. Brown, G. Brown and J. Ramsden. Spares, J. P. Griffith, J. Cose.

The following players will represent Nelson in the lacrosse match: W. Curran, J. Curran, G. Williamson, L. Steele, J. Ferguson, Grizzelle, Pearce, H. Ferguson, McMillan, F. Grant, H. Manhart, W. Ferguson, Cummins.

Efforts are being made to run a special train over on Wednesday morning. If it is arranged, the teams will go on this, otherwise they will leave on the 7.45 train this evening.

MERRY GO ROUND CAUSES COMPLAINT

Council Decides That It Must Not Provide Amusement on Sunday Afternoons.

Although providing heaps of fun for the little ones on Sunday, the merry-go-round in Connaught park is a bone of contention and caused a deputation to wait upon Mayor Annable yesterday requesting that its practice of running on the Sabbath day be stopped.

Discussed at the city council meeting last night, it was decided to have it stopped on Sunday afternoon when children, otherwise in the habit of attending Sunday school when open, are frolicking in the park. Otherwise it will be free to run all night if it likes.

"Probably it was the sample of music they turned out on Sunday," remarked Ald. Gleazer.

Report has it that the organ played "There Will Be a Hot Time in the Old Town Tonight" and "The Holy City" indiscriminately.

The ladies of the Methodist church were allowed the privilege of having an ice cream booth in the park from July 31 to August 5, while the summer school is in session. The Presbyterian ladies are to have a similar privilege for every Wednesday afternoon.

WANTS MORE EXTENSIVE POWER

Provincial Health Act To Be Enforced —Health Officer Wants to Condemn Houses.

Dr. F. C. Arthur, medical health officer, apropos of the fever epidemic, requested the city council last night to have the provincial health act put in force in the city to give him more extensive powers in trying to eradicate disease from Nelson. After consideration, the council complied and the secretary of the provincial department of health will be written to in this regard.

Dr. Arthur requires power to condemn several houses in town which he finds it impossible to fumigate. The city act does not give him such powers but the provincial act does. Hence his request. Dr. Arthur stated to the council last night that in two cases he has found the houses in such bad repair that it was impossible to fumigate them even with fumes of several times the required strength. Until they are repaired they are unfit for habitation by persons liable to take fever, he says.

BOYCOTT PROPOSED

(By Daily News Leased Wire.)
OTTAWA, July 15—The Ottawa Evening Free Press claims to have discovered that the people of the west are making plans to boycott the manufacturers of the east if their demands for a wider market are not acceded to.

HALF HOLIDAY AT ROSSLAND TODAY

Miners' Union Celebration Expected to Establish Record—Rossland Defeated by Republic.

(Special to The Daily News.)
ROSSLAND, B. C., July 15.—Mayor Tanner has declared two half holidays for Tuesday and Wednesday on account of the Miners' Union celebration.

The Rossland Progressive association has received a letter from the attorney general regarding the protection of fish in local waters and has intimated that he will take the matter up with the deputy commissioner on his return.

In a well-contested game here yesterday between Republic and Rossland baseball teams the Republic men won, 7 to 6. The teams were even at the ninth inning, till the visitors scored. Rossland led by 7 to 1 at the sixth, but bad field work set in with disastrous results. The home team felt the want of Mace, who is laid up with scarlet fever, and Newton, who was otherwise engaged.

John E. Hooson, who leaves for Fort Fraser on August 1 to take the position of government agent and stipendiary magistrate there, was born at Halifax, Yorkshire, England, and has been in British Columbia 24 years. He has been for 17 years in this camp and came here as constable and clerk in the government office. He has been in the employ of the government for the whole time he has been in the country. He is going to a land full of promise and his many friends wish him all the good luck possible. Mrs. Hooson and family leave for the old country shortly, where they will remain until Mr. Hooson has everything in readiness for them.

All is now in readiness for the Miners' Union celebration, which, if the weather clerk does his duty, bids fair to be the record one of the camp.

H. Maxwell Clark of Victoria, the good roads representative, is in town and registered at the Allan hotel.

W. A. Thomson and wife are at the Allan from Montreal.

J. A. Loudon of Montreal is at the Allan.

The Palace moving picture theatre has changed hands and will be under new management from now on.

J. L. Suhr of Vancouver is in town and is at the Allan.

Rev. F. V. Harrison from Kaslo is at the Allan.

H. Q. Lyall and Elmer Waldrip are at the Allan from Nelson.

L. P. Hennes is at the Allan from New York.

Miss Helen Gordon has returned from her vacation at Spokane, where she had a most enjoyable time visiting Miss Maude Hughett. While there she visited the Coeur d'Alenes.

H. H. Claudet has returned from Vancouver, where he had been on a business trip.

The Republic baseball team left by th's morning's C. P. R. train.

J. A. Armstrong, principal of the public school here, has accepted the position of teacher of mathematics in one of the Victoria schools and will go there after vacation.

Mrs. Tanner and Miss Tanner are on a visit up the Arrow lakes. On their return they are going east for the summer.

Below is a summary of the program of talent to be seen and heard at the St. Andrew's church banquet and concert on Wednesday night: Mr. Bostock comic, selected; Miss Twaddle, solo; Mr. Waltho, solo; T. Caldwell, solo; Miss Twaddle and Mr. Roddu, duet; Mr. Bostock, reading; Mr. Morrish, solo; Mr. Sherman, solo. Accompanist, Mrs. Trembath.

AUSTRALIA KEEN AFTER EMIGRANTS

Gaining in Favor With People of Great Britain Says Railway Traffic Manager

(By Daily News Leased Wire.)
MONTREAL, July 15—That emigration from Great Britain to Australia was rapidly gaining on emigration to Canada in the same source, and that this could be to a certain extent attributed to the fact that the immigration policy of Canada was confined largely to certain classes, was the opinion given today by G. McL. Brown, European traffic manager of the Canadian Pacific railway, who is at present in Montreal on his annual visit to confer with officials. Mr. Brown declares that the trouble with Canada's immigration is that the government is confining it largely to the agricultural and domestic servant classes whereas there are also any amount of fine English people anxious to enter business, not farming in this country. They receive more encouragement from Australia and other colonies than they do from Canada and are lost to the Dominion.

Speaking of emigrants from Great Britain carried on Canadian Pacific railway steamers he stated that the campaign being carried on by Ontario in that country is resulting in greatly *increased emigration to that province*, while the Maritime provinces' campaign is proving successful especially in attracting settlers to New Brunswick. The great bulk of emigrants from Great Britain is of course to the west. Few English people can be persuaded to come to Quebec which is still thought to be practically exclusively French but many settlers from Belgium are coming to this province and a few from Europe.

He also said that in the exhibits at the various big shows in the old country, which were great advertisements for the colonies, Canada was far behind Australia both in the size and the attractiveness of its exhibits. He endorsed the opinion given by Sir Edmund Oster that the British appetite for Canadian securities was pretty well glutted, especially as several very questionable propositions had been floated.
