WINSTON CHURCHILL ACCEPTS INVITATION

First Lord of Admiralty Will Pay Visit to Canada

NOT POLITICIANS BUT AS KINSMEN

Canadian Ministers Guests of National Liberal Club--Premier Welcomed

(By Daily News Leased Wire.)

LONDON, Aug. 1.—Winston Spencer Churchill, first lord of the admiralty, will make a visit to Canada and it is *expected that he will proceed to the* Dominion on a warship.

The Canadian premier, Robert L. Borden, at a meeting of the committee for imperial defense yesterday, which was attended by the British prime minister and most of the members of *the cabinet, extended an invitation to* the ministers to visit Canada. Mr. Asquith said that he would not be able to go, but Mr. Churchill accepted.

Kinsmen Not Politicians.

(By Daily News Leased Wire.)

LONDON, Aug. 1.—"Not as politicians, but as kinsmen," was the phrase used by Premier Borden tonight to describe the attitude in which he and his colleagues had come to Great Britain. That too, was the attitude of the National Liberal club, revealed at the banquet. Lord Strathcona received a demonstration of affection at the close of the proceedings when, in response to repeated calls, he rose and spoke a few words.

A feature of the banquet was a speech of Attorney General Isaacs in which he characterized the visit of the Canadians as an object lesson and a distinct epoch in the history of the empire at a time when the watchword of all parties must be Britain's supremacy on the sea.

The big room of the club was completely filled when Mr. Borden rose following Sir Rufus Isaacs. The welcome was most enthusiastic when he declared that Canadian loyalty was more pronounced now than ever before and it caught the audience which applauded long and loudly. The Canadian premier suggested, amidst cheers, that it might be well for British ministers to visit Canada. In closing the noble chairman described the event as a glorious evening. "The club has been much honored in the Canadians' visit," said he, "and had done honor to itself and the cause it represented in having the illustrious statesmen as guests."

Voiceless in Empire Affairs.

Hon J. D. Hazen happily compared the position of Canadians in border towns with the Americans, but said, "while our institutions, laws and administrations, easily in my opinion, bear the palm, yet the remedy *should* be applied in removing the handicap on the Canadian who is voiceless in the affairs of the empire and thus unlike the American who participates in all that concern such matters."

No Division.

Sir Rufus Isaacs in proposing the toast to the visitors, said: "Although we are met as a political party, nevertheless, our welcome is from all parties. On questions arising from the visit of Premier Borden and his colleagues there is no division. We are animated by no political views but simply and solely by general desire for the good of the empire. I am quite certain we shall look on this period as a distinct epoch in the history of the whole empire. At the present time we are forced against our will, to expend huge sums on armaments more particularly on the navy. It is not of our seeking, but I am sure all Liberals agree with the first article of the political creed of all parties that we must be supreme at sea." (cheers.)

Family Visit.

"Let us not forget the significance of this visit. Mr. Borden in the speeches he has already made leaves little room for doubt what his views are. I think we may all describe this visit as a family visit to discuss family affairs. The Dominion of Canada is a proud gem in the empire; it is *difficult to speak of its recent* history without the imagination being kindled. We dwell in it with pride that we are all partners in one great firm. Canada like the other dominions, has recognized the responsibility of partnership. Other empires have crumbled and decayed, but this, I believe, is built on a more solid foundation. The British empire rests upon a union of its component parts. It seems to me as if they were held by a silk gossomer thread. You, sir, spoke of your ideals as of one king, one flag and one navy a navy which we should keep at its present predominance, not for purpose *of aggression but in order to protect* our own independence and shores and preserve peace wherever our influence may be felt. The great business you have been discussing with the ministers here and with the Imperial Defence committee, is, of course, for you and you only to disclose, when you think fit. We recognize thoroughly that it is for you to come to your decision and announce it in your own time, in your own way in your own country. We shall await it with confidence, knowing full well it will be worthy of the great Dominion you represent and add lustre to the statesmen who dictate her policy. We tender you on behalf of the National Liberal club, the heartiest and warmest welcome, and I am anxious that when you go back there will be kindled a glow in your hearts when you recollect this *meeting and you* will be able *to say* among all welcomes here, none was ... warm, earnest, sincere and heartfelt."

Premier Borden in replying to the toast expressed appreciation of the hearty and cordial manner in which it had been received. He said:

"We have come here, not as politicians, but as kinsmen; we come here representing the great Dominion which has been founded by two great races, which have been working side by side in unison and harmony in the brotherhood of development and progress of the vast territory."

After touching upon the development of the Dominion in the past 30 years, the premier declared, "No one more than myself rejoices at the great trend of immigration into the great Dominion from the British Isles. Fifteen years ago only 20 per cent of the immigration went to the Dominion, and 80 per cent to foreign countries; now the position is reversed."

On Enduring Foundations.

"I do want to point out to you that while the development of Canada has *been so phenomenal, it has also* been absolutely sound and safe upon enduring foundations. The British empire as organized at present is a very modern affair with increasing rights and powers. The constitutional changes between the mother country and the Dominion have resulted, not in lessening the ties which have been so eloquently characterized, but have strengthened those ties. I have a special right to speak for any great Dominion, but so far as Canada is concerned the tie is stronger today that is has ever been in the past."

Should Visit Canada.

Referring to the visit of the ministers from Canada, he said:

"I do not think it would be too audacious for me to suggest that from time ti time in the future it might be even worth while for members of *his majesty's government to visit the* Dominions overseas. We cannot know the empire by staying in Canada or similarly we may even suggest we cannot know this empire by remaining in the British Isles. Some of us by travel, observation and study, by visiting the great Dominions overseas could understand how great is the heritage the empire owns and realize by personal visits and observation the aspirations and conditions of the people of these great dominions."

In closing he said: "We shall go back feeling you have given us a greeting as kinsmen but never in all the welcome extended have we received a more warm and cordial welcome than has been accorded us on this occasion by the National Liberal club."

Hon. J. D. Hazen.

The Hon. J. D. Hazen made an eloquent reference to what the Liberal party has accomplished in British politics and statesmanship He believed the future would yield to them a field of usefulness equal to the past. He believed the mission of the Canadian ministers visit and the results would have an influence not only in the history of the empire but the whole world. Their mission rose high above party politics and therefore, they were glad to meet representatives of all parties in these islands. The ministry had received them courteously and dealth with them frankly. Referring to Sir Rufus Isaacs' declaration for British supremacy of the seas Mr. Hazen declared Canada was as anxious in that regard as the mother country. The imortant trade routes of the empire must be kept open during war as in peace. This could only be done by the mastery of the seas. The speaker made a noteworthy declaration in emphasizing the desire of the Canadian people to participate in imperial problems in return for any assistance they would extend in defence of the empire. He declared for a navy with no divided control and

(Continued on Page Five.)

Another distinguised citizen of Nelson is Willoughby John Astley, manager of the Nelson Boat & Launch company.

He was born in Cornwall, England, on the rocky storm swept shores of Mounts bay, something less than 50 years ago. Like the Cornishman of the days of the Crusades, 'Tristram who wedded Iseult, Astley felt the call of distant lands at an early age and he travelled a long way past Ireland.

Nelson's distinguished citizen when 20 years of age took the step for which his feet had been itching for many moons and embarked upon a seafaring life. Cruel fate decreed that it should be a sea of soil upon which he should sail for many years and beckoned him to the Canadian *prairies*, allowing him to learn much of Canadians and something of farming in Ontario en route. Homesickness and the kindness of the people with whom he lived on the Ontario farm are the outstanding memories of his sojourn of one year in the east.

Piles of money he made and piles of money he lost in the boom in Winnipeg, a city which he reached in 1891, one year after landing on Canadian soil. He took up land near Moose Jaw in 1882 and then traveled westward ahead of the Canadian Pacific railway with a land breaking outfit to the famous Bell farm. Squatters watched the outfit approach and threatened dire deeds if a plow were placed in the ground, but the rumblings ended in one bold spirit producing a rifle—and putting it away again.

From the Bell farm Astley stood and watched the C.P.R. construction train appear in the east one morning and disappear in the west in the evening. Nine miles of track were laid that day, establishing a new record for rapid tracklaying.

Pioneering and its charms by this time had seduced Astley from his old love, the sea, and he came farther westward to Banff, where he helped the C.P.R. to make money by aiding in the development of the place as a tourist resort. He was at Banff and Lake Louise until 1895, running resorts for the company at both places.

Then the long winters and lack of fruit and orchards began to pall upon him, even though the tourists resorts were honored by visits from many of the famous, the Duke of Connaught and Lady Macdonald being patrons, and he came to Nelson in 1896.

INVEST IN LARGE AREA OF LAND

Montreal Capitalists Secure Thousand Acres of Land Near Ottawa, to be Residential Site.

(By Daily News Leased Wire.)

OTTAWA, Aug 1.—A group of Montreal capitalists have secured about 1,000 acres of land fronting Lake Deschenes, eight miles west of the city on the Ottawa river and near the new *government rifle ranges. It is pro*posed to develop it on town planning principles as a model high class residential site. R. Smart, of Montreal, president of a large realty firm, is in the city and today closed the options on the property.

NELSON MAN STOLE MONEY IS CHARGE

Rupert Dyson Said to Have Left City With Substantial Sum—Mrs. Rudduck Is Loser.

That he has stolen $157.50, given him at various times by Mrs. Rudduck, manager of the lunch counter at the union depot, to take to the Royal bank for deposit, is the charge made against *Rupert Dyson, until a few days ago a* clerk in the office of the divisional superintendent of the C.P.R.

As Mrs. Rudduck is unable to get up town during banking hours it has been customary for one of the clerks in the superintendent's office to deposit the cash at the bank. Each day he would take the money and passbook and give a receipt to Mrs. Rudduck.

Between July 18 and July 29 it is alleged that Dyson failed to deliver $157.50 to the bank, the shortage being discovered when the passbook was not returned and the bank officials were questioned. Information was not given to the police until Dyson had left Nelson. He has been traced to a certain city, however, and the chief of police are expecting to hear of his arrest shortly.

BRITISH STEAMER GROUNDED ON RIVER.

(By Daily News Leased Wire.)

LIVERPOOL, Aug 1.—The British steamer Manchester Port, outward bound for Charlottetown, P. E. I., grounded in the river and will be surveyed befor proceding.

APOINTED ASSISTANT TO PRESIDENT OF SOO LINE.

(By Daily News Leased Wire.)

MINNEAPOLIS, Aug. 1—Henry B. Dickey, general solicitor of the Soo Line, was appointed assistant to the president today.

WILL SIGN AGREEMENT.

(By Daily News Leased Wire.)

PARIS, Aug. 1.—It is belived that Premier Poincare, whose departure for Russia has now been fixed for August 4 will sign the new naval agreement during his visit to St. Petersburg.

MURDERER EVADES MANHUNTERS

Slayer of Brakeman Blair is Still At Large

HIS COMPANION IS CAPTURED

Bush in Which Murderer Takes Refuge Surrounded, Net Tightens

(By Daily News Leased Wire.)

CALGARY, Aug. 1.—Brakeman Roy Baird is dead in Banff hospital. The gun man who shot him is still free, though the country is being searched by many parties. The Canadian Pacific railway is most anxious to capture the man who has killed their employe while standing in the doorway of a refrigerator car at Morley.

Companion Captured.

(By Daily News Leased Wire.)

CALGARY, Aug 1.—Despite strenuous efforts on the part of the 200 or more men engaged in the search for the murderer of Brakeman Roy Blair, who was shot down Tuesday night at Morley while ejecting atramp from a Canadian Pacific train, the man hunt has thus far been without result save for the capture of the murderer's companion. Eight suspects were arrested yesterday in the country around Morley and Canmore by the mounted police under Sergeant Ryan, but the authorities *have practically nothing* against the prisoners in the way of evidence connecting them with the crime, Dick Lyons, alias "Shorty" Reilly, is the man who killed Roy Blair, according to officers engaged in the hunt. The identity was established after the authorities had put N. Lawson, the men arrested on Wednesday and who admitted being one of the two men who did the shooting, through a severe questioning. The description given by Lawson tallies closely with that of Lyons. The latter is said to have served in the Boer war and in India and is an Irishman by birth.

N. Lawson, the confessed companion of the murderer is reported to have been brought to Calgary late yesterday by Constable Akrigg, of the Royal Northwest Mounted Police. This was not confirmed at the barracks last *night, however, Captain Dean* stating that he had not been appraised of the identity of the eight men brought in

Tracked By Indian.

Reports from Morley yesterday afternoon stated that an Indian had tracked the murderer to a spot two miles west of Morley. The country is covered with a large growth of underbrush and Lyons was believed to be in hiding there. The place was promptly surrounded and the net is being gradually tightened about the spot where the murderer is believed to be concealed. The mounted police, detectives, citizens posses and Indians worked untiringly yesterday in their efforts to apprehend Blair's slayer. The work is under the direction of Sergeant Ryan of the Royal Northwestern Mounted Police. All routes of escape are guarded. The Indians engaged in *the search are rendering the officers* excellent assistance They are thoroughly familiar with the country and they are working faithfully. The red men seem to take a keen delight in the hunt, their aboriginal instincts lending them a zeal that is akin to enthusiasm.

Details of Murder.

Eye-witnesses to the murder related the details of the shooting to the authorities lyesterday. Knowlton Routledge, night operator at the C. P. railroad station at Morley, told the following story:

"I had just taken the mail from the Vancouver express, which arrived here at 10:54 I was sitting in the office when the shot was fired, and I immediately hurried outside where I met Conductor McConnell and Brakeman Andrews and Blair. I inquired what the trouble was.

"'Someone shot at us. Get the police,' replied McConnell.

"Blair seemed dazed for a moment and then he exclaimed: 'I believe I've been shot.' He held up a hand dripping with blood and upon examination we found a wound in his side. Shortly after the shooting he collapsed We hurried him to the hospital as soon thereafter as possible."

Work of Tramps.

When Brakeman Blair attempted to eject the tramps from the train they resisted and Conductor McConnell went to his assistance. The murderer exclaimed as McConnell came up: "I'm going to get you." With this he fired. McConnell was standing in front of Blair when the shot was fired. The bullet grazed the conductor's hand and buried itself in Blair's side

The body of the murderd man was brought back from Banff early yestrday and taken in charge by Undertaker Shaver.

No date will be set for the funeral until the arrival of the deceased's father from Kenora. Blair leaves a widow and three children.

Fugitive Surrounded.

(By Daily News Leased Wire.)

MORLEY, Alta., Aug. 1.—One of the parties of Indian trailers which has been on the lookout for Dick Lyons, the murderer of Brakeman Roy Blair, is thought to have the fugitive surrounded in the thick bush a couple of miles west of here on the Bow river The murderer's name is Dick Lyons, alias Rielly, alias Shorty, aged 35, clean shaven, height five feet three inches, weight about 150 pounds, hair light and parted in the centre, red face, served as soldier in the Boer war and in India served in 18th Mounted Rifles Winnipeg this summer in squadron A, and is a native of Dublin, Ireland.

LETHBRIDGE POLICEMEN SUSPENDED BY MAYOR

(By Daily News Leased Wire.)

LETHBRIDGE, Aug. 1.—Inspector Silliker and City Detective Pat Egan were suspended from the local police force late this afternoon by Mayor Hatch. A report was in circulation *that Chief of Police Joseph Gillespie* had also been suspended and that Sergeant Browne had been made acting chief, but this was denied at midnight by the chief, who stated that he was still on the job. The affair has a large amount of mystery connected with it as none of the parties implicated will talk for publication.

The suspended officers have engaged counsel and will make a fight for reinstatement before the city council at the regular meeting that will be held on Tuesday afternoon. No appointments have been made to fill the vacancies *as yet.*

JURY TO READ WORKS OF DARROW

(By Daily News Leased Wire.)

LOS ANGELES, Cal., Aug. 1.—A novel stipulation was made today by oppcsing counsel in the Darrow bribery trial. It was that all of the published works of Clarence S. Darrow be admitted into the evidence and copies of his novels, essays and lectures be furnished to the jurors to be read during their hours of leisure. District Attorney Fredericks later withdrew for the present his consent to the stipulation, The defendant again gave few direct responses. His most common reply was, "I don't recall, but perhaps I did," or something of like nature.

CAN LOBSTER BE CRUELLY TREATED

Humane Society's Accusation Against Chef Puzzles Philadelphia Lawyers.

(By Daily News Leased Wire.)

PHILADELPHIA, Aug. 1.—John Hardcuceau, chef in a well-known cafe, was up before a police judge today charged with cruelty to a lobster, but, as Philadelphia lawyers could not decide whether a lobster can be cruelly treated the judge held the case over until August 8, when experts will be called to enlighten the magistrate on that point, The charge was made by an agent of the Women's Society for the Prevention of Cruelty to Animals, because the chef placed a wooden peg or spike in the first joint back of the claw of the lobster on exhibition in the window of the cafe.

CONSULS LEAVE FOR PUTUMAYO

British and United States Governments Cooperating in Preventing Recurrence of Autrocities.

(By Daily News Leased Wire.)

LONDON, Aug. 1.—Sir Edward Grey, the foreign secretary, speaking in the house of commons today on the atrocities in the rubber industry in the Putumayo district of Peru, said that the British government did not desire to rest content with making the facts public, but had done all possible through diplomatic means to impress Peru with the undesirability of permitting such a state of affairs to continue. The British government, he said, is keeping in close touch with the *United States in* this matter and public opinion in the United States would undoubtedly prove a potent factor in preventing a recurrence. It has been arranged for the British and American consuls to leave together on August 5 for Putumayo and the consuls' presence in that district would be a guarantee that the horrors would not be repeated without the world knowing it.

SENATE RATIFIES FISHERY TREATY

(By Daily News Leased Wire.)

WASHINGTON, Aug. 1.—The senate today ratified the North Atlantic fishery treaty with Great Britain, settling questions involving the Newfoundland fisheries which have been in controversy for many years. The treaty was signed by the representatives of Great Britain and the United States on June 20 and carries out the decision of The Hague court, rendered September 7, 1910. It will become effective as soon as ratified formally by the two countries.

NAVY DISCUSSED.

(Canadian Associated Press.)

LONDON, Aug. 1.—The Canadian Minister attended today the meeting of the Imperial Reference committee, when the general navy situation was again discussed.

EMPRESS OF BRITAIN WILL START AGAIN

(By Daily News Leased Wire.)

MONTREAL, Aug. 1.—It was stated at Canadian Pacific railway headquarters today that repair work on the Empress of Britain had so far advanced that she would probably be able to sail next Tuesday. She will carry her original cargo and crew. Arriving at Liverpool she will go into drydock for permanent repairs.

AMMONIA FUMES POISON FIREMEN

Forty Fire Fighters Overcome At Montreal Blaze

COLD STORAGE PLANT DESTROYED

Entire Brigade Called Out to Fight Blaze--Men in Hospital

(By Daily News Leased Wire.)

MONTREAL, Aug. 1.—Forty firemen, including numerous officers of the force, were overcome by ammonia fumes and by the clouds of smoke from burning lard and meat during a fire which raged all afternoon in the premises of the Montreal Abbattoirs, Ltd., on the banks of the canal in Point Ste. Charles. Several recovered and resumed the fight, but many had to be transported to the city hospital, and tonight 11 men are still in various institutions. All are declared out of danger, but it will be several days before most of them can return to duty, while a few are seriously injured. The fire was not extinguished until nearly 6 o'clock. It started shortly after noon as the men were leaving for lunch and is thought to have originated from an overturned pan of boiling grease.

The entire brigade was called out to fight the flames and the fire was finally confined to the building in which it started, the packing plant, a four-story brick building, which was completely destroyed. The plant contained the cold storage department, and it was from this that the ammonia fumes came. The slaughter house was saved. Tonight it was said that no accurate estimate of the damage can be given but that it would probably approximate $200,000. There was a very large amount of meat stored in the building with great quantities of lard. Valuable machinery was also ruined.

LUMBERJACK PUTS UP UGLY FIGHT

Big Fellow Brandishes Knife at Railway Station—Uses Teeth and Spiked Shoes.

Brandishing a knife, pretending that it was a gun, and varying the proceedings by occasionally jabbing the weapon in the lunch counter, a drunken lumberjack last night at about 10:30 o'clock created consternation at the waiting room at the union depot and gave Chief of Police Young, Constable Reid and C. P. R. Constable Carpenter one of the stiffest tussles in their experience before he was finally locked in a cell.

Weighing probably 230 pounds and in splendid physical condition the lumberjack, who was wearing heavy boots with long spikes, was a difficult customer to tackle but he finally left the waiting room and went outside, lying down on the track, where he was found by the police.

Told that the man had a gun Constable Reid approached unseen by the lumberjack and grabbed both arms while Constable Carpenter put on the bracelets, the man fighting like a maniac.

Chief Young and the two constables succeeded in getting him into a hack, where he continued to fight, using his teeth and spiked boots.

Another tough fight occurred in the city jail, the lumberjack resisting the efforts of the police to place him in a cell and by gripping the door and *kicking and struggling vigorously* he managed to keep in the corridor about five minutes.

HUNDRED KILLED IN BRAZILIAN WRECK

(By Daily News Leased Wire.)

RIO JANEIRO, Aug. 1.—One hundred persons were killed or injured in a collision yesterday between suburban trains on the Central Brazilian railway.

ONLY FIVE TENDERS FOR TERMINAL ELEVATOR.

(By Daily News Leased Wire.)

OTTAWA, Aug. 1.—This was the last day for receiving tenders for the first government-owned terminal elevator at Port Arthur. Five were received, but they have not yet been opened.

REASONS ARE NOT DIVULGED

Board Accepts Resignation of Sergeant Ellis

REGRETS TO LOSE EFFICIENT OFFICER

Chief Advised Action--Call for Applications to Fill Vacancy

After some discussion the police commissioners last night accepted the resignation of Sergeant J. H. Ellis, to *take effect forthwith*, but with salary to continue to August 31. Tributes to his efficiency as a policeman were paid by the commissioners and Chief of Police Young, Mayor Annable, Ald. Keefe and Dr. W. O. Rose were present.

Upon the reading of Sergeant Ellis' letter of resignation, which stated briefly that he wished to tender his resignation to take effect at the end of this month, Ald. Keefe said that there seemed to be some kind of a mixup. He understood that the chief of police had asked for the resignation but Ser*geant Ellis did not seem to know why.* The sergeant did not seem to want to leave the force but if he had wanted an investigation he should not have resigned.

Dr. Rose thought that the commissioners should know the reason for the resignation.

Was Asked to Resign.

Sergeant Ellis explained that he had been requested by Chief Young a little over a week ago to resign. He had asked the chief for a reason for this request and had been told that it would be the best thing for him to resign. The sergeant said that he had told the chief that he did not know that he had done anything wrong and pressed him to give a reason for asking for the resignation. The chief had refused. He had resigned because he had thought that under the circumstances *it would be against the efficiency of* the force for him to remain. If there was anything wrong that he had done he thought it right that the commissioners should know it and that he should be given an opportunity to remove the stain from his character.

Ald. Keefe suggested that the proper procedure would be for the sergeant to withdraw the resignation if he wanted an investigation.

Dr. Rose said that he would like to know the reason that the chief had asked for the resignation.

The mayor remarked that the chief must have his reasons, and he supposed could give them, for asking for the resignation. The sergeant should not have sent in his resignation if he did not want to resign. He had done it off his own bat——

Dr. Rose—No, no; he was asked to resign.

The mayor—Evidently there is some friction in the police force or the resignation would not be before us.

Forced to Take Action.

In reply to a request for his reasons for asking for Sergeant Ellis' resignation Chief Young said that he had certain information in his possession which forced him to take this action. Before going to the mayor or police commissioners he had gone to Sergeant Ellis and told him that it would be best for him to resign. "He asked me what he had done and I told him that I did not care to discuss it with him; it was a great many things. I told him that I was not asking him to resign to please me but that I was giving him a chance to resign.

"If he had not put in his resignation I should have suspended him under the *circumstances," concluded the chief.*

Dr. Rose—You are satisfied in your own mind that you have good and sufficient reasons?

Chief Young—Yes, or I should not have taken this action.

Alleges Underhand Work.

Sergeant Ellis—I do not wish to cause any trouble; there is some underhand work somewhere, and I'd just as soon be out of the police force.

The mayor declared that the matter had gone so far that there certainly would be friction in the police force if it were allowed to continue; it would not be satisfactory to the chief; it would not be satisfactory to Sergeant Ellis. The police must work in harmony. He had thought for some time that the city police should work more in harmony with the provincial police as they could accomplish more together

(Continued on Page Five.)

Missing Lad Is Found-- Feared He Killed Horse

ROSSLAND, B. C., Aug. 1.—The lad George Petit, who has been lost since Sunday, was found by Chief of Police Long at a point two miles from Marcus, Washington, in great distress from want of food and exhaustion. The lad thought that he had killed the horse when it had fallen over a bank, and in his stupid condition from the liquor which he had consumed stripped the saddle and bridle from the horse carrying them to the place where he was found by the chief. The man who gave the lad the liquor will be charged with the same on Monday next.

Millions For Defence In Australian Budget

SYDNEY, Aug. 1.—The principal feature of the commonwealth budget is the proposal to spend almost £4,000,000 on new works and buildings from revenue. Details of the expenditure include the following: For fleet construction, £1,317,000; other naval work, £284,000; military works, £876,000; postoffice, including wireless, £1,055,000. Other defence expeditures amounts to £2,748,000, including provision for full complements for three cruisers, two submarines and a depot ship for the last four months of the year; ten wireless stations are to be constructed.

You Often Want

quick relief from biliousness—from its headaches, its sour stomach, *hiccoughs, flatulence, unpleasant* breath and the general feeling of good-for-nothingness it causes. Thousands—through three generations and the wide world over—have found, as you will find, that

Beecham's Pills

give the necessary relief quickly, safely, gently, naturally. This harmless family remedy is justly famous for its power to put the bowels, liver, kidneys and stomach in regular active working order. In every way—in feelings, looks, actions and in powers—you will find yourself altogether better after you have used Beecham's Pills

OPENS OFFICIAL INVESTIGATION

Master of Empress of Britain Witness in Inquiry Into Cause of Collision.

(Western Associated Press.)

QUEBEC, Aug. 1.—The official investigation into the collision between the Canadian Pacific steamer Empress of Britain and the Dominion Coal company's vessel Helvetia was opened here in the admiralty court today before the Dominion wreck commission. Captain George Lindsay was assisted by Captains Cliff and Nash of Montreal as the Helvetia's assessor. The Canadian Pacific was represented by A. R. Holden, K.C. Charles Portland, K.C., appeared for Captain Murray and the officers of the Empress of Britain and Messrs. Cool, K.C., and Barclay for the owners of the sunken Helvetia. Captain Murray, master of the *Empress of Britain, was the first* witness heard, who told of the collision, adding little to what is already known.

BRITAIN COULD HAVE ENDED WAR WITH WORD

(By Daily News Leased Wire.)

ROME, Aug. 1.—The Paris interview with Signor Gabriel d'Annunzio has been reproduced in all the newspapers here and has evoked much editorial comment. The Messagero agrees with Signor d'Annunzio's opinion that Britain could have ended the war with a word. On the other hand, the Vita, the chief organ of the radicals, in an article by Signor Lodi, this morning asserts Great Britain could not have intervened in favor of Italy without *seriously endangering her interests at* Constantinople and in her Mohammedan possessions.

UNLOADING VESSELS UNDER ARMED GUARD

(By Daily News Leased Wire.)

DULUTH, Aug. 1.—With armed guards at the approach of each dock, 300 men imported from Chicago, St. Paul and Minneapolis are loading and unloading packages of freight. They eat and sleep on the docks and are taken to the different docks where they are needed on a scow. The men were brought here to break the strike of the Duluth and Superior freight handlers, who struck for 35 cents an hour for handling package freight and 40 cents an hour for unloading cement. *Foremen on the Northern Pacific* properties stated that the boats now in the harbor will be unloaded soon.

Lord Charles Beresford Says Situation Is More Serious Than First Lord Admits.

(By Daily News Leased Wire.)

LONDON, Aug. 1.—That the article printed in the London Daily Express yesterday affirming that Germany is secretly building nine new battleships is regarded seriously by Admiral Lord Charles Beresford is evidenced by a letter to the editor of that paper printed this morning. He says: "Sir—Our position is much more serious than the first lord of the admiralty (Winston Churchill) dares confess. He cannot find crews for eight additional battleships; there are not enough men *now for active service in the fleet* alone. The first lord's statements on the subject are inconsistent with one another. On June 11 last he informed me in answer to a question that there was a deficiency in the navy's personnel on March 31 of 2,400 men. On July 22 following he told the house of commons that we started 2,000 short. He is now trying to recruit 5,000 men this year. It is exceedingly doubtful if he can get them, but if he does, and if he was telling the truth on July 22 and another thing on July 11, the actual increase will be only 3,000, and these cannot be sent to the fleet until they are trained,

"It is useless to build ships without entering men, but that is exactly what has been done for the past seven years. The results are colossal expenditure, a large collection of empty ships, and the immediate menace of great and increasing danger.

"There is one thing which can be done by means of *suspending the present* organization and by using all the men available, and that is to man the fleet and do it now."

SENATOR BEVERIDGE BULL MOOSE CANDIDATE

(By Daily News Leased Wire.)

INDIANAPOLIS, Aug. 1.—Former Senator Beveridge will be the Bull Moose candidate for governor of Indiana. He said as much tonight and indicated the terms on which he would consent to become the nominee. He must be urged by the third party in this state to head its ticket and if the urging comes in the form of an unanimous call, Mr. Beveridge will consent. It is apparent tonight that the former senator will be chosen without dissent when the subject comes up in the convention tomorrow. There has been much mystery as to Beveridge's whereabouts. It has been given out *that he was at Oyster Bay, but in the* inner circles of the Bull Moosers it is said he will appear in the convention some time tomorrow. The spectre of the liquor question made its appearance in the third party camp tonight. The rural element of the party wants county local option incorporated in the platform. Others of the party desire that this and similar questions shall be covered by the initiative and referendum plank. An effort is being made tonight at some of the district meetings to instruct members of the platform committee on the question. It is expected that the committee will make two reports.

BANK OF AGRICULTURE TO AID FARMERS

(By Daily News Leased Wire.)

BUENOS AYRES, Aug. 1.—There was a lively session of the chamber last night when the minister of agri*culture, Senor Mujica, answered an in*quiry about the agitation reigning among the farmers of the province of Santa Fe. The minister declared the uneasiness of the farmers is not due exclusively to high land rent, but to many other circumstances, such as lack of credit. The government, therefore, will propose the foundation of a bank of agriculture. Senor Mujica also spoke about the American beef trust and said its activity in the Argentine up to the present has been beneficial to stock breeders, as is shown by the increase in the price of cattle.

CURED OF CANCER

(By Daily News Leased Wire.)

BERLIN, Aug. 1.—Dr. Adolf Zeeler *has presented before a conference of* physicians 44 patients whom he declared he had already cured of cancer without operating. Ten of the original *57 are still under treatment and only* three have died. The method of treatment has not yet been divulged.

AMERICANS HANGED

(By Daily News Leased Wire.)

MEXICO CITY, Aug. 1.—Two Americans were hanged near Cananea, Sonora, within the past 48 hours. Their bodies were found yesterday and the incident reported to President Madero last night by the governor of Sonora. The governor has ordered an investigation. He believes the men were executed by rebels in order to precipitate American intervention. The victims have not been identified.

THE **LONDON DIRECTORY**

UNIQUE BIRTHDAY GIFT FOR EMPEROR

Moving Pictures Prove Emperor Francis Joseph Hale and Hearty at Eighty-two.

(By Daily News Leased Wire.)

VIENNA, Aug. 1.—That wonderful old monarch, Emperor Francis Joseph, will have the pleasure soon of seeing depicted before him proofs that at 82 years of age he remains vigorous and active. All unknown to her father, the Archduchess Gesela, the Emperor's eldest daughter, herself 56 years of age, had cinemetograph pictures taken *of the Emperor during a shooting* expedition he went on recently, mounted on his favorite English pony, "The Brat." The pictures show the aged ruler pursuing the sport with enthusiasm, bringing down a stag with fine marksmanship, sitting in his saddle with youthful elegance, dismounting and mounting with agility and eating an al fresco luncheon with appetite. These truly encouraging pictures will be shown as a surprise to the Emperor on his eighty-second birthday, which he will celebrate on August 18 at Ischl, his summer palace in the Tyrol. Although he has recovered his health, the Emperor has been making jocular references to his advanced years, calling himself "a poor old man," and so on.

GOLD WIRE AROUND HEART

Remarkable Operation Performed in New York in Presence of Fifty Surgeons.

(By Daily News Leased Wire.)

NEW YORK, Aug. 1.—An operation on the heart was performed this afternoon in Bellevue hospital by Dr. William C. Lusk, in which 36 feet of gold wire was wrapped around the aorta, the great artery leading from the heart, and a current of electricity sent through the wire, which reduced the swelling of the artery sufficiently to allow it to perform its natural functions. The operation took place in the Crane room, and was witnessed by the medical faculty of Bellevue and about 50 of the leading surgeons of New York. No anaesthetic was used during the operation, but the incision, which was made in the back of the patient between the fifth and sixth ribs was sprayed with cocaine. At the close of the operation, which lasted about four hours, Dr. Lusk expressed himself as satisfied, and while the operation is not expected to entirely cure the patient, it is expected to prolong his life.

The patient who underwent the operation is Oscar Neilson, 50 years old, *a cabinet maker, who was removed* from the Pennsylvania hotel on July 16. At the time of his entrance he was taken to ward No. 8 in charge of Dr. Cody. He was examined by several surgeons, who pronounced his case hopeless. Dr. Lusk was called and after an examination declared there was a chance. The patient was suffering from a swelling of the aorta, which had grown to such an extent that it was only a matter of a short time when the vessel would break and death follow. The patient was acquainted with the facts and told the risk of the operation, but readily consented, and the date of the operation was set for yesterday. Owing to the seriousness of the operation the regular operating room was not chosen, but inside the Crane room was decided upon and a supervising nurse was stationed at the door to prevent interruption. Only physicians were admitted to the room. The patient was *brought into the room on a stretcher,* weak and suffering. An examination was made by Dr. Lusk, who announced that the administration of an anaesthetic, such as ether or chloroform, would be a needless risk and he decided to use cocaine locally.

After the incision was made the gold wire, attached to a cannulated needle, was run through and wrapped around the aorta. The wire was thinner than a hair and after it had been wound around the heart in spring fashion the end of the needle was taken out and attached to an electrical machine, the current of which was turned on and sent through the wire. The electricity hardened the artery and in a short time the blood started to circulate freely through the aorta and at the same time the heart was allowed to perform its functions.

The patient was under observation for a period, after which the wound was closed.

This is the second operation of its kind performed in this country. The previous operation was performed in Bellevue by the same surgeon. The operation took place five months ago, the patient at the time being Henry Griffin. Twelve feet of gold wire was used on Griffin after it was said that he would not live a week. Two weeks later he left the hospital and is today well and hearty.

It was said at the hospital last night that Neilson had already shown improvement and that it was only a question of time when he would be ready to leave the hospital.

GALES ALONG COAST MOTOR BOATS MISSING

(By Daily News Leased Wire.)

*PHILADELPHIA, Aug. 1.—Consider*able anxiety was expressed here tonight at the non-receipt of news from either the Dream or the Kathemma, the two motor boats which sailed on Saturday in a race to Bermuda for the James Gordon Bennett trophy and $1,000. It was thought the boats would reach St. Davids, Bermuda, today and the absence of news, coupled with reports of gales along the coast, has caused much concern to the families of those on board, as well as yachtsmen here.

EDMONTON PERMITS GROW.

(By Daily News Leased Wire.)

EDMONTON, Aug. 1.—The total building permits issued in July were valued at $1,494,330 as compared with $474,909 for the corresponding month last year.

LOWER TARIFF TRAIN FARMERS

Presidential Candidate's Project for Lowering Cost of Living—Reduce Tariff Gradually.

(By Daily News Leased Wire.)

SEA GIRT, N. J., Aug. 1.—Revision *of the tariff should not be made at* one swoop, but should be gradual and thorough, in the opinion of Governor Wilson, as announced last night. The *governor so declared in his first dis*cussion of the question for publication since he wrote his speech of acceptance, after a long conference with Representative Redfield of Brooklyn, whom he considers one of the best informed men in the country on the tariff.

"We are all agreed on that," the governor said, when interviewed as to his views on a gradual reduction of the tariff.

After the conference Mr. Redfield told the reporters that he and Governor Wilson had talked on three topics—the tariff, the trusts and the scientific training of young farmers as a means of lowering the high cost of living. On the tariff, he said, the governor's views coincided with his own.

"We talked of the need of a general downward revision on almost every schedule in the tariff," Mr. Redfield said. "The revision should be thorough, but should be made by degrees. We should make progress slowly, in *my opinion, instead of trying to clear* too much at one jump. For instance, if a 30 point reduction is decided upon in any one schedule, it would be better *to make two 15 point reductions* at different times instead of a single reduction. We want to reform the tariff, but we do not want to do more harm than good. Business men have money invested in their plans and machinery and stock, and this money can not be turned over like a department store turns over its goods. A store gets rid of its stock quickly, a manufacturer slowly. The work need not be less thorough if done by steps, instead of by a single leap."

The governor was deeply interested, Mr. Redfield said, in scientific training of young men in farming. This, Mr. Redfield said, the governor thought would mean much in reducing the high cost of living, inasmuch as the farmers of other countries are producing no more and in some cases less than *they produced per acre years ago.*

"If the production per acre be increased," he said, "the farmer makes more money and at the same time the *price of his products is lowered.*"

WILL CONSIDER LOAN FOR REGINA

Expect Definite Answer After Premier's Return to Ottawa—Delegation Returns Home.

(By Daily News Leased Wire.)

Ottawa, Aug. 1.—The Regina delegation headed by Mayor McAra, which arrived in the capital early in the *week to ask the government for a* loan of $1,000,000 at a low rate of interest, to be used in rebuilding the *sideration of their request was prom*section of the city destroyed by the cyclone June 30, left for home today. While here they saw Acting Premier Perley, Hon. W. T. White, minister of finance, and other ministers. It is understood that the delegation received no definite promise, but consideration of their request was promised. A definite answer is likely not to be given until after Premier Borden's return to Ottawa.

NOT OPPOSED TO MAJOR LEONARD

Hon. Robert Rogers Declares There is No Conflict Regarding Administration of Transcontinental

(By Daily News Leased Wire.)

WINNIPEG, Aug. 1.—Asked whether he had seen newspaper gossip representing him as disapproving of Major Leonard's administration of the national transcontinental, Hon. Robert Rogers said today that he had.

"But," he added, "I have not seen the article as published in the Winnipeg Telegram some days ago which has apparently given rise to certain conjectures on the part of different newspapers. And further, I may say that I had no *knowledge of the article in question, and* you can add that there is no conflict of views as to the administration of the Transcontinental between Major Leonard and myself."

After characterizing as false a statement which appeared in the Regina Leader of himself regarding the trackage in the vicinity of Winnipeg, that would benefit certain real estate in which he was supposed to be interested, the minister continued: "What is true is that the Transcontinental railway commission, a few years ago, changed its line entering Winnipeg, with the cost of over $1,000,000 to the country, for the double purpose of trying to destroy the value of certain property in which I was interested, as well as to increase opportunities for additional plunder and graft, and in both cases success attended the manipulation. When the late Transcontinental railway commission was dismissed, the task of *cleaning the mass of* crookedness in which they had entangled the country was no easy one, and anyone familiar with the state of affairs which prevailed when Major Leonard took over the work must appreciate the great difficulty he had to contend with."

BADEN WINNER OF RICH OHIO STAKE.

(By Daily News Leased Wire.)

CLEVELAND, Aug 1.—The rich Ohio stake of $5,000, the classic of the North Randall track was won today by Baden, black son of Bingara, in *three straight heats.* The Jersey City horse was driven by Rodney. While he easily defeated his field, the best time he showed, 2:07 1-4, did not approach the mark for the classic.

Hasty Nervous Chewing of Food the Cause of Dyspepsia

If your teeth are fit, chew, chew, chew until the food is liquid and insists on being swallowed.

If teeth are faulty, soften Grape-Nuts with hot milk or cream, or allow to stand a minute soaking in cold cream.

"There's a Reason," as follows:

Grape-Nuts food is in the form of hard and brittle granules, intended to be ground up by the teeth; that work not only preserves the teeth but brings down the saliva from the gums so necessary in the primary work of digestion.

Many people say (and it is true) that when they eat Grape-Nuts they seem able not only to digest that food *but other kinds which formerly made* trouble when eaten without Grape-Nuts.

Chew!!

LACROSSE BOYS TO CROW'S NEST

Tour of East Kootenay is Expected—Rossland Will Probably Play Here Next Week.

The lacrosse team will practice this evening at the recreation grounds at 6:15 sharp. Manager Manhart states that as several games are anticipated in the near future, it is absolutely essential that all members turn out for this practice and others that will be held from now on. Final arrangements are expected to be made with Rossland within the next few days for a game, which will probably take place the latter part of next week. Negotiations are now being made with Cranbrook and Fernie, and it is expected that the Nelson team will bake a tour of the Crows Nest Pass district, the latter part of this month. Mr. Manhart stated that so far the Nelson boys had given a good account of themselves in every game played this season, and that with consistent practice he hoped to maintain this high standard.

STAR PITCHER IS FINED TWENTY-FIVE DOLLARS

Pitches One Inning for Port Chester Team—Commission Holds He Violated Rules.

(By Daily News Leased Wire.)

CINCINNATI, Aug. 1.—"Rube" Marquard, star pitcher of the New York Giants, was fined $25 today by the National Baseball commission for pitching one inning for the Port Chester, N Y, independent baseball team. In so doing, although not in uniform, the commission holds that he violated its ruling that no National agreement player can play with or against outside clubs during their contract period. Marquard had telegraphed for permission to attend the game and considered the commission's consent sufficient to pitch one inning.

OLD CY YOUNG'S 22ND BASEBALL ANNIVERSARY.

(By Gravy.)

It will be just twenty-two years tomorrow since Denton Tecumseh Young, generally known as Cy, pitched his first big league game. Old Cy started his career in the big show on Aug. 3, 1890, in a Cleveland uniform, by letting Chicago down with three hits. The Ohio metropolis was then in the National league. Tomorrow will be the first anniversary of Cy's advent into baseball circles that he has not been actively engaged in playing the game. This year the veteran attempted to get into condition to pitch for Boston, but discovered that his soup bone was hopelessly out of commission, so far as drawing a big league salary is concerned, and decided to retire. He has saved enough money to make him independent, and so has not had to go back to the bushes, but is using the good right arm that won so many games at Cleveland, Boston and St. Louis in writing baseball dope for a Boston newspaper, Cy was forty-five years old last March, and b ysticking to the game to that age broke all Oster limits for big league pitchers. Cy played his first professional ball with the Canton, O., Tri-State league team in 1890, and the same year was bought by the Cleveland Nationals for $500. He remained with Cleveland until 1899, going to the St. Louis Cardinals in that year. He jumped the National league when the American circuit was organized and joined the Boston club of Ban Johnson's league in 1901. He remained with the Bean City team until 1909 when he was traded to Cleveland. Just a year ago almost on the anniversary of his first game with Cleveland that city turned Old Cy adrift giving him an unconditional release. The same week he signed with the Boston Nationals, and this spring he made earnest efforts to get back to his old-time form. He couldn't do it, and so baseball lost its oldest veteran. Cy's name is gone from the box-score, but it is not forgotten. Bobby Caruthers, Amos Rusie Joe Corbett, The Breitenstein, Charlie Nicholas—these and many other great pitchers have come and gone during Old Cy's career. And now his time has come.

PIRATES WIN CLOSE GAME

(By Daily News Leased Wire.)

BOSTON, Aug. 1.—Hendrix bested Brown in a pitchers' battle today and Pittsburg won from Boston, 1-0. The Pirates' only tally came on a base on balls, McKechnie's single and an infield out. An unusual play occurred in the eighth when McDonald was out on a fly ball that Menser touched and failed to catch after a long run, Mile getting the ball 25 feet back before it touched the ground.

Score:	R.	H.	E.
Pittsburg	1	4	0
Boston	0	3	1

Batteries—Hendrix and Gibson; Brown and Kling.

PHILLIES WIN BY TRICK

(By Daily News Leased Wire.)

PHILADELPHIA, Aug. 1.—Philadelphia owed its victory today to an odd incident which occurred in the fifth inning. With the bases filled and one out, Manager Bresnahan jumped from the visitors' bench, gave a yell and ran toward the home plate. Sallee, who was in the act of pitching the ball to McGee, stepped off the rubber. The home team claims of a balk was allowed by Umpire Orth. Killifer scored and the other runners moved up. Paskert then scored the winning run on a sacrifice fly by Sherwood to Magee. Score:

	R.	H.	E.
St. Louis	3	10	0
Philadelphia	4	7	1

Batteries—Sallee and Wingo; Alexander and Killifer.

REDS LOSE TWICE

(By Daily News Leased Wire.)

NEW YORK, Aug. 1.—New York beat Cincinnati twice today, the second victory being the 13th straight game the champions have taken from Cincinnati. In the first game Marsans put the Reds in the lead in the eighth, when he hit a homer with Bescher on base. In the ninth a pinch hitter, Crandall drove in New Yorks' tieing and winning run with a single. Crandall started the second game for New York, but was knocked out of the box when the Reds made five hits in succession. Marquard relieved Crandall and finished strong. Suggs lost his game in the seventh, when with two out he forced two runs over the plate.

First game—

	R.	H.	E.
Cincinnati	4	11	2
New York	5	9	1

Batteries—Benton, Humphreys and McLean; Wiltse and Myers.

Second game—

	R.	H.	E.
Cincinnati	5	8	1
New York	7	14	1

Batteries—Suggs and McLean; Marquard, Crandall and Myers.

CUBS EASY WINNERS

(By Daily News Leased Wire.)

BROOKLYN, Aug. 1.—Chicago won another easy game from Brooklyn today, 9-3. Yingling was hammered out of the box in three innings and Barger's reception in the fourth was quite spirited, a pass, a batter hit and four singles sending four more runs in. After that he held the enemy safe. Reulbach held the locals blanked up to the ninth, when he eased up. Manager Chance rang in a number of substitutes after the sixth inning.

Score:	R.	H.	E.
Chicago	9	14	2
Brooklyn	3	8	1

IN TOWERING RAGE OVER LACROSSE ROW

Con Jones Disappointed Over Settlement of Difficulties—Declares Agreement Disadvantageous.

(By Daily News Leased Wire.)

MONTREAL, Aug. 1.—Con Jones, the western lacrosse magnate, arrived in Montreal at noon from Cornwall on the Moccasin train, and expressed himself as greatly disappointed in the arrangements made by Matt Barr for the settlement of the difficulties which have existed of late between the Vancouver and New Westminster lacrosse clubs. In fact, Mr. Jones was in a towering rage and immediately wired to his friend and henchman telling him if possible to break off the negotiations at once.

"The reason for this move," Mr. Jones said, "is that the proposed agreement was decidedly disadvantageous to Vancouver, as the newly arranged games would occupy all September and October. This would prevent the holding of any Minto cup games."

Mr. Jones denied that he was here in the capacity of a pirate to steal players from clubs either of the National Lacrosse Union or the Dominion Lacrosse Union.

(By Daily News Leased Wire.)

PHILADELPHIA, Aug. 1.—Cleveland-Philadelphia game postponed on account of rain.

VAST SUM FOR OLYMPIC GAMES

Proposed to Collect Hundred and Fifty Thousand Dollars to Train British Athletes.

(By Daily News Leased Wire.)

LONDON, Aug. 1.—The continued agitation over Great Britain's poor showing in the Olympic games in Stockholm brought about a meeting tonight of the athletic advisory club to consider the situation. Lord Desborough, who presided, said that if Great Britain competed at Berlin, were the next Olympic games are to be held, she must take the games as seriously as the other nations. He advocated a team representing the empire in the track events. Lord Desborough said that Britain had not done badly in her palmiest days, but could not do better against a marvel like Kohlemainen. "The Finn did so well," said he, "that I would not be surprised to see him running for the United States at Berlin."

Lord Desborough proposed that a fund of $25,000 should be raised in each of the next three years and $50,000 the fourth year, to be used for preparations. A letter from Sir Arthur Conan Doyle was read announcing that he will appeal to the public for $125,000 for the same purpose. The Rev. R. S. Decourcey Laffan, a member of the British Olympic committee, proposed that $150,000 be raised. He said that a Swedish trainer told him that if he had had the British athletes for three months the Americans would have stood no chance.

J. G. Merrick, president of the athletic union in Canada and secretary of the Candaian Olympic committee, declared that if the same care were taken in athletics as in rowing and football, and if the Olympic winners were held in as high regard as in the United States, Canada and England could produce as good a team as the United States.

The most exaggerated impression prevails in England regarding the American Olympic team. Enormous sums were spent and an army of trainers were carried, according to the British newspapers. Lord Desborough is quoted as saying that the running track and swimming tank constructed aboard the Finland for the Americans cost $100,000.

TULLIBARDINE WINNER OF GOODWOOD CUP.

(Canadian Associated Press.)

LONDON, Aug. 1.—The Goodowood cup, £750, two miles and five furlongs, was won today by J. Buchanan's four year-old colt, Tullibardine, 2 to 1. Lord Derby's King William, 2 to 1, was second and Captain Forester's Tootles, 13 to 8, third.

The Prince of Wales staks, £2,000 for two-year-olds, six furlongs, was won by the odds on favorite, Leopold Rothschild's chestnut colt Day Comet by St. Frusquin-Catgut, 8 to 1; J. B. Joel's Dories, filly, 20 to1, was second and the Duke of Westminster's Hornbeam, 8 to 1, third.

FRIDAY, AUGUST 2

ABOLISH THE CREDIT SYSTEM

One of the problems of merchandising, and in fact of all branches of business, is that of credit. People have got into the habit of having goods charged at their butcher's, their grocer's, the dry goods stores, and in fact at every business place where credit may be obtained. These accounts are, generally speaking, honestly incurred. The intention is to pay up everything when payday comes, or when the day of whatever other source of income a person may have arrives.

The system is one which leads to great abuses. In the first place it encourages over-expenditure. People will order things in the belief that when the time comes they will be able to pay in full all that they owe, but in many cases the sad discovery is made when the time for payment comes that the bills are much greater than the amount of income available for their liquidation. The customer pays what he can on his various bills in the hope that next month it will be possible to reduce the amount of the purchases and through the saving thus effected meet the previous arrears. But when the next month's purchases are totalled up, however, it is generally found that this has not been done and that the total liabilities are greater than ever. This goes on from month to month until finally the purchaser on credit becomes hopelessly involved.

Then there is the other class who will take advantage of the credit system to the last possible cent, spending their ready money on their pleasure or using it for speculative purposes along lines that amount to little, if anything, better than gambling. To tell those who constitute this class that, in the manner in which they take advantage of the credit system, they are absolutely dishonest, would be to raise a most vigorous protest. But that is the plain, unvarnished truth.

The result of the credit system is felt in financial and commercial life from one end of the country to the other. If the retail merchant, charging a reasonable price, cannot collect his money regularly from his customers, he cannot pay the wholesalers regularly, and if the wholesalers cannot secure their money regularly they cannot pay the manufacturers and others from whom they buy their goods. Then the retail merchant must figure on his losses under the credit system and he must add sufficient profit in the prices which he charges to cover all possible loss in this manner. The wholesaler must also take into consideration the possibility of the failure of the retailer through the operation of the credit system and the manufacturer or other source of supply must take the same chance into consideration in regard to the wholesaler when fixing prices.

Thus it will be seen the credit system affects prices from the source of supply to the ultimate consumer. A retailer handling goods on a cash basis knows exactly what profit he must make in order to continue successfully in business and the same applies throughout. But as matters stand the retailer is forced through the operation of the credit system to employ far more capital in his business than is necessary. In fixing his prices he must charge a fair rate of interest upon this and he must also add his percentage to cover bad debts. Thus prices are enhanced and those who pay their bills pay the piper and that, not only so far as the retailer goes, but also the added profit which the wholesaler and the producer charge in order to protect themselves against loss, consequent upon the operation of the credit system.

Of course while the wholesaler and the producer must take into account the existence of the credit system in fixing their prices, it is the retail man who is affected to, by far, the greatest extent. He is the man who has to charge the greatest percentage to cover his bad debts account and to pay the interest on the money over and above what he would be required to invest were he conducting his business upon a cash basis. It follows, therefore, that, if the credit system were abolished so far as the retailers are concerned, they would be enabled to cut their prices and not only still make as much profit as under the credit system, but in addition they would have the knowledge that they were conducting their affairs upon sound business principles.

While all this may be generally applied, the effect of the credit system in Nelson is such that the matter is one of particular interest here. There is no excuse for the existence of the credit system in this city, at least to the extent to which it is in force. Were the people of Nelson generally to consider for a moment the affect of the present system on prices it is more than probable that the merchants would be asked by the consumers to put their businesses upon a cash basis. Those who now pay regularly would then get the benefit of lower prices, while those who do not now pay promptly would either have to do without some of the luxuries which they at present enjoy at others' expense or they would have to do without some of the necessities. They would not be allowed through their failure to meet their bills regularly to enhance the price of the necessities of life to their neighbors.

In the opinion of The Daily News the credit system is a matter which should be taken up by the merchants of Nelson and which should be dealt with by them once and for all in a manner which will put business in Nelson on a proper footing to the advantage of the retailer, the wholesaler, the producer, but more than to any of these to the honest consumer.

EDITORIAL NOTES

It is gratifying to know that Great Britain and the United States are taking joint action to put an end to the Peruvian rubber atrocities.

Philadelphia courts have been called upon to decide whether a lobster can be cruelly treated. If any one wants to know they should ask the first lobster they meet.

Right Hon. Winston Churchill announces that he is coming to Canada on a warship. The last time Mr. Churchill was here was shortly after he left a Boer prison on a coal train.

"Not as politicians but as kinsmen" is the way in which Premier Borden says he and his colleagues went to the old country to discuss the question of imperial naval defense. This attitude is the only correct one.

The indications are that, as a result of the looseness of the contract made by the late government with the Grand Trunk Pacific railway in regard to the leasing of the line from Winnipeg to Moncton, the company thinks it has the government on the hip. While this bears out the criticism directed against the Grand Trunk Pacific at the time it was entered into, it also is in keeping with the complete indifference to public interest and public rights shown by that company in other important matters.

What the Press Is Saying

The Deadly Revolver.

"The pistol is a curse in time of peace, and now of practically no use in war. Does any good reason exist why all civilization should not prohibit its manufacture and sale? Does any good reason exist why any country should not prohibit it within its own borders? Does any good reason exist why Canada should not taboo it."—Ottawa Journal.

Another Joshua Suggested.

"Mr. Bourassa should emulate the example of the Portuguese monarchists, and, like another Joshua, lead forth his compatriots into the promised land. At least he might go himself and lure them on. Some of them at least would be sure to follow. Henri would be likely to do very well on the other side of the line, where his picturesque style of political agitation finds favor with many. Maybe he would be appreciated more highly there than he has been in his native land. He had better consider it."—Hamilton Herald.

A Lucky Audience.

Charming is the story of a concert given somewhere in Hungary by Brahms and Joachim, at which there was only one person in the audience. Joachim was inclined to return the man his money, but Brahms insisted on going through the whole program, and afterward playing for the happy man whatever he chose to name.—London Times.

Say, Who Shoots the Squirrel?

John Taylor, totally blind, of Pineville, was the first person in Bell county to procure a hunter's license. Taylor is an ardent hunter and probably kills more squirrels than any one hunter in his county. He is always accompanied by his wife; when the game is found he holds the gun, his wife takes sight, he pulls the trigger, and he rarely misses the squirrel he shoots at.—Hazel Green Herald.

Cold Storage

Townley—"How's the new cook getting on?"

Subbubs—"I don't know. She didn't leave her address."—Boston Transcript.

Old Scribbler—"I hear you have given up fiction writing."

Young Scribbler—"No; merely changed my style. I've become an advertisement writer."—Judge.

She—"Didn't you say you'd go through fire and water for me?"

He—"Yes, but I'm blowed if I'm going through bankruptcy for you!"—Yonkers Statesman.

"John, am I all right for the theatre?"

"My dear, I hardly know what you can consider all right. You have a dab of powder on each ear, but none on the tip of your nose."—Washington Herald.

"Why did you emit that feeble yawp when our candidate's name was mentioned?" asked the master of ceremonies.

"Why," replied the conscientious man, "I am one of those delegates with half a vote. I though maybe I was only entitled to half a cheer."—Washington Star.

"Of course," said the energetic campaigner, "you understand that I am for the uplift of the people."

"Yes," replied the blunt citizen. "But I'm not sure you don't regard the people somewhat as you do the elevator man. He is always going back and forth to uplift somebody, but he never gets a chance to get off anywhere on his own account."—Washington Star.

This Date in History.

The first library in America was opened at Harvard college 274 years ago today, Aug. 2, 1638. For over 60 years the Harvard collection of books was the only one of importance on the continent, but in 1700 a public library was founded in New York. In the following year the Yale library was founded, and in 1731 Benjamin Franklin started a subscription library in Philadelphia, the first of its kind in America. The library of the United States, now called the Library of Congress, was established in 1800, but was burned by the British in 1812. In 1851, when the collection numbered 50,000 volumes, the edifice was again almost destroyed by fire, although about a third of the books were saved. The Library of Congress at Washington now contains nearly 2,000,000 volumes, and it is one of the finest in the world. The first public library recorded in history was founded in Athens in the 540 B. C. England's first important library was that at St. Andrew's, established in 1411. The famous libraries at Cambridge and Oxford were founded in 1475 and 1598 respectively.

The Weather

(By Daily News Leased Wire.)

TORONTO, Aug. 1.—The weather continues fine and warm in the west, while from the Great Lakes eastward it has been cool with showers in the maritime provinces.

MISSIONARY FALLS UNDER TRAIN

Fatal Accident to Presbyterian Student at Revelstoke—Merchants' Picnic—To Open Auto Road.

(Special to The Daily News.)

REVELSTOKE, B. C., Aug. 1.—T. Davis, Presbyterian student and missionary at Taft and Three Valley, after taking breakfast at Three Valley Tuesday morning went to Taft and took the logging train to travel to the camp some four miles away. The train consisted of some five empty cars. Davis went to the head end of the train and sat on the front car, with one foot hanging over. The train commenced to mount a steep grade and in taking up the slack the cars came together with a sudden jerk, throwing Davis beneath the train. A brake beam struck him on the head, the blow proving fatal, he only living for some 10 minutes after the accident. Deceased was about 30 years of age and unmarried. He was a native of Yorkshire, England, and has a brother in Winnipeg, who is being communicated with. Mr. Davis had travelled all over the world and had been a missionary among the soldiers in India. He was a student of Manitoba college and had recently filled the pulpit of the Presbyterian church at Revelstoke during the vacation of Rev. Stevenson, the regular pastor.

The Retail Merchants' association intend holding their annual picnic on Wednesday, August 14, at Cairns creek. The steamer Revelstoke has been chartered and will leave at 8 a. m., returning to Revelstoke the same evening.

Hon. Thomas Taylor, minister of public works, will arrive in Revelstoke on August 10 to perform the ceremony of the cornerstone laying of the new wing of the Victoria hospital here, and on the same day will perform the ceremony of turning the first sod on the Mount Revelstoke Alpine auto road. A holiday will be proclaimed. A picnic has been arranged in connection with the festivities.

AMBASSADOR MAY NOT RETURN TO STATES

(Special to The Daily News.)

WASHINGTON, Aug. 1.—Rumors of the retirement of Mr. Bryce, the British ambassador, have been current here for a week or more. Inquiry at the state department brought the reply that the department had no official advices concerning the retirement of Mr. Bryce or the appointment of a successor. The fact that Mr. Bryce was 74 last May and has confided to fellow diplomatists that he is looking forward to literary work with keen relish when he retires from public life, lends color to the report that he may not return to the United States.

It Has Been Proved

That Machela, Nature's Scalp Tonic, has a record for growing hair—95 cases out of 100. It is the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. DOMINION PUBLIC HEALTH DEPARMENT

Typhoid Epidemic at Ottawa Revives Interest in Proposed New Department.

(By Daily News Leased Wire.)

OTTAWA, Aug. 1.—The present typhoid outbreak and the apparent inefficiency of the city authorities here to effectively cope with the situation has given an impetus to the movement in government circles looking toward the creation of a Dominion public health department with a deputy minister, and competent corps of medical men in charge. This matter was brought to the attention of the government some months ago and while, owing to the fact that any move in the materializing of such a scheme so vastly important to the country generally must necessarily be given mature consideration, nothing definite could be accomplished for some time. The question, however, was received in a favorable light. With the recurrence of an epidemic here which threatens to become even as disastrous in effect as that which caused more than 75 deaths in the winter of 1911, the urgency of the creation of such a department has not been forced upon the attention of the federal authorities.

CAN WEAR MEDAL PERMANENTLY NOW

Archie Bishop Has Championship of Interior of British Columbia—Chingren Shot Splendidly.

Wearing a medal which is the emblem of the trapshooting championship of the interior of British Columbia, Archie Bishop returned last night from Revelstoke, where he won this event for the third year in succession, thus becoming permanent owner of the trophy.

During the two days' shoot at the main line city annual clay bird festival Mr. Bishop broke 290 out of 310 targets, this splendid total being exceeded only by that of E. J. Chingren, the Spokane amateur, who had 294 hits to his credit at the same number of targets.

MORRIS KNOCKED OUT IN SECOND ROUND

(By Daily News Leased Wire.)

NEW YORK, Aug. 1.—Gunboat Smith, the California heavyweight, knocked out Andy Morris of Boston in the second round of what was scheduled to be a 10-round bout last night. Smith knocked Morris to the floor with a right swing and a left hook to the jaw. The Boston man took the count of nine and came up staggering. The referee was about to stop the fight when Morris rushed at Smith, only to receive a right swing to the jaw that put him out.

ONE ROUND HOGAN WINS

(By Daily News Leased Wire.)

SAN FRANCISCO, Aug. 1.—"One Round" Hogan won the decision over Tommy McFarland after 15 rounds of hard fighting here last night.

REASONS ARE NOT DIVULGED

(Continued from page one.)

han if they were working against each other.

Ald. Keefe thought that if there were friction in the police force it would be better to pay a month's salary and for Sergeant Ellis to leave right now as otherwise there would be friction for the next 30 days. Sergeant Ellis had been a long time on the force and it would not be more than fair to pay him to August 31.

Some Insinuations Unfounded.

Dr. Rose did not like accepting the resignation without knowing a little more definitely why the chief had asked for it. The chief must have some good reason for his action but on the other hand Sergeant Ellis had been on the force a good many years and his character had been above reproach. Some insinuations had been traced and found to have nothing in them.

Regarding an investigation the mayor remarked that the evidence *might be inconclusive and that it* would increase the friction in the force. He considered Sergeant Ellis a friend of his; he had been appointed while he, the speaker, was on the council, but he agreed with Ald. Keefe that it would be best to accept the resignation.

Sergeant Ellis said that the way he looked upon the matter was that if there were an investigation a lot of stories would be brought up and although *they were not true people* would make much of them. "People make a mountain out of a molehill," he said.

Sorry to Lose Good Officer.

Dr. Rose then seconded Ald. Keefe's resolution to accept the resignation. He thought that the city was losing a very competent and efficient police officer and he regretted his decision to resign, said the commissioner. He then moved the following motion, which was seconded by Ald. Keefe and passed: "That the board in accepting the resignation of Sergeant Ellis does so with regret and feels that the *city is losing a good officer and* is sorry that circumstances have arisen which make it necessary for him to retire from the force."

Chief Young said that he would like to endorse what Dr. Rose had said. Sergeant Ellis had been a very good and very efficient police officer and he was very sorry that he, the chief, had been forced to ask for the resignation. Sergeant Ellis had done his *work as an officer well.*

The mayor endorsed the remarks of Dr. Rose and the chief. Sergeant Ellis in expressing his thanks said that his only reason for resigning was that he did not wish to cause any trouble in the police force.

The city clerk was instructed to call for applications for the position of city constable, to be in by August 20.

A COOL SUMMER BLOUSE

Ladies' sailor blouse with or without "dicky" and with long or three-quarter length sleeve. This attractive model has many good features. It may be finished in low neck style, and with sleeves in full or three-quarter length. *The collar is shaped* with round edges and the tucks over front and back of body portions give ample fulness. The pattern is cut in six sizes: 32, 34, 36, 38, 40 and 42 inches bust measure. It requires 3¼ yards of 36-inch material for the 36-inch size.

A pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

Please send the above mentioned *pattern, as per directions given below* to

WINSTON CHURCHILL ACCEPTS INVITATION

(Continued from page one.)

which would fly to any part of the empire which was menaced.

Amongst those attending were G. J. Desbarats, deputy minister of Canadian naval service; Admiral Kingsmill, Earl Brassey, Lord Swaythling, Albert Spicer, M. P.; Sir R. Perks, Joseph Martin, M. P.; Hamar Greenwood, M. P.; Sir G. Scott Robertson and Robert Harcourt, M. P.

Guests of Canada Club.

(Canadian Associated Press.)

LONDON, Aug. 1.—Premier *Borden* and his colleagues were guests at luncheon today in the ancient hall of the Merchant Taylors company of the Canada club. Lord Strathcona presided over a large gathering very fairly representative of the financial interests of the city.

Replying to the toast of his health, the Canadian premier opened with a warm eloogy of Lord Strathcona, than who no man in the empire was a greater imperial figure or had been more closely associated with the growth and development of Canada.

"In the old days before confederation," *went on Mr. Borden*, "the situation was such that we Canadans of today can hardly realize the difficulty, the men who undertook the foundation of Canadian confederation were possessed of supreme faith and courage, while the work they accomplished has been justified by the marvelous success attending it."

"It seemed to me that the task before the statesmen of the Mother Country and the *Dominions today is on a* greater and grander scale, but has something akin to the task which was surmounted by the men who laid the broad, deep and enduring foundations of Canada confederation.

Empire Bold Experiment.

"The British empire as constituted today, is a very bold experiment indeed but an experiment justified by the strength of the ties now binding together the mother country and every dominion across the seas into one great empire. It is perfectly true, organization may not be, indeed most of us consider it is not, all that it might be, for certain purposes (cheers), but the empire, unorganized in some respects as it is today, has proved itself a mighty force in the time of need or danger.

"*There are men who may be forgiven* for suposing that the immense and rapid development of Canada during the past 14 or 15 years gives ground for some misgiving, but those who know, the country and even those who have traveled it for but a few weeks and caught but a glimpse of the marvellous heritage of the Canadian people will agree that although her progress has been marvellous, so marvellous as to attract *not only the attention* of the whole empire, but of the whole world, it has been none too great considering her resources.

Education First.

"We all realize that the *greatness* of any dominion or nation within this empire cannot be founded securely on purely material considerations and I would like to remind you that even in that portion of Canada, where development has been most rapid, in the western provinces, the most conspicuous building in any little western town is the school house.

Problems of Empire.

"The empire presents many problems which can only be solved by great statesmanship. The means of intercommunication between the mother country and the dominions and between *the dominions themselves, is as*suredly the most prominent consideration. We have come from our dominion to consider measures of cooperation by which the path across the seas, so absolutely essential, not only to the well-being, but to the very existence of this empire, shall be secured at all times under all circumstances. (Cheers.) I can only say that I hope, more than that, I believe, that the missions my colleagues and myself have undertaken in that regard, will not be devoid of results and trust that these results may be of advantage not only to Canada and the mother country, but to every one of the dominions.

"We *Canadians* are *sometimes* described as too optimistic; it is a good thing and I trust we shall always preserve that spirit and if the occasion arises we are prepared to share any *surplus of it with the other dominions* of the empire (cheers)."

Hon. J. D. Hazen then proposed the health of Lord Strathcona, paying a warm tribute to his long years of service to the empire.

(By Daily News Leased Wire.)

EDINBURGH, Aug. 1.—Suffragettes cut many of the telephone wires connecting the public call boxes in Edinburgh today.

I Have for Sale

A Few Specially Selected
-- ORCHARD TRACTS --

In the Slocan Valley

In blocks of 10, 15, 20, 30 and 40 acres each. These blocks are ideally located. Some of them have railway frontage and the government wagon road runs through or near them. Close to railway stations, schools, etc. The timber has been cut off these lands. The cost of clearing is not excessive. Good deep soil. No rock. The price per acre is reasonable. Good terms. Full particulars given on request.

D. St. Denis

505 Baker St. Nelson, B. C. P. O. Box 497.

You Only Begin to Live

When you begin to live in your own home. It's so homelike and all the little "fix-ups" you do are for yourself and your family. The extra value added through your efforts belongs to you, too. Let us help you to begin to live. Here are two houses that will make homelike homes, cozy and comfortable, and on such easy terms that anyone can handle them.

HOUSE $2,800—4 rooms and bath; cellar full size of house; city water; woodshed; chicken house and run; lawn; all in good condition; 5 lots, all in fruit, mostly bearing. Only $300 cash, balance very easy terms. A snap. Act quickly.

HOUSE $1,600—10 rooms and bath; first-class condition throughout; cellar and good furnace; gas and water. This is a very complete house and an exceptionally cheap property at the price offered. Cash $500, balance as rent. You pay the rent, same as you do now, only in this case you'll own the home. Good plan, isn't it?

MARKETS

WHEAT MARKET QUIET.

(By Daily News Leased Wire.)
WINNIPEG, Aug. 1.—There was no news to sway the wheat market either way and speculative trading was almost nothing. Option prices were steady, October opening ⅛c higher and December ¼c lower and changes were not wide during the session. American markets were weaker and Liverpool closed steady, ¾c lower for October and ⅝c lower for December. Minneapolis closed ¾c lower for September and ¼c lower for December. Chicago closed unchanged for September and ¼c lower for December. The cash demand here was good for all grades, with offerings light and an improved enquiry for export, prices being on a suitable basis. Oats were a shade firmer, while flax was offered at 7c lower and closed 6c down. American coarse grains were unchanged to 1⅝c higher.

Receipts were light, only 80 cars being in sight for inspection.

STRONGER TONE ON NEW YORK MARKET.

(By Daily News Leased Wire.)
NEW YORK, Aug. 1.—Dealings in stocks today were more active, the distribution wider and the tone stronger than in any recent session. At times, especially in the first hour when transactions aggregated almost 200,000 shares, the market assumed an air approaching buoyancy, which was temporarily arrested by profit taking. In the final hour following the declaration of the regular dividend on St. Paul common, activity was resumed and higher prices were established. The movement today derived no small part of its impulse from abroad. London sending over a list of general advances led by C.P.R. That stock opened here with a new high record and a gain of 4 points or more. A few specialties shared in the rise which was most significant, however, from the fact that it had its leadership in the northwest group. Steel held its place in respect of activity and sold at its best price in several weeks. The action of the St. Paul directors could hardly have been based upon financial returns, which have been altogether discouraging, so Wall street interpreted the maintenance of the dividend as an indication that the very powerful interests *controlling that system are hopeful of* the immediate future, a feeling which probably has its basis on the crop outlook. Various important railways publish earnings today for June, those of the Pennsylvania being most favorable, without effect upon its stock, however. New York Central, Atchison and *Atlantic Coast line also made material net* increases.

Bonds were firm with gains in convertible issues. Total sales, par value, $2,142,000. United States government bonds were unchanged on call.

BOOM IN KAFFIRS.

(By Daily News Leased Wire.)
LONDON, Aug. 1.—Money and discount rates were steady today. The stock market developed a few interesting features, the chief of which was a jump of 6⅜ in Canadian Pacific on large New York and Berlin buying. The price reacted 2 points. Trunk lines and Mexican rails were active and dearer and Kaffirs and Diamond shares developed a miniature boom. Consols, in which a settlement was concluded, declined 3-16 and home rails were weak, while Coppers declined on rumors of increasing stocks. American securities opened steady and a fraction higher. During the early trading prices advanced on covering and later the market gained under the lead of Union Pacific. The closing was firm.

POWER HIGHER.

(By Daily News Leased Wire.)
MONTREAL, Aug. 1.—C.P.R. mounted higher in the afternoon, touching 276¾, but Soo only held its advance to 151¼. C.P.R. reacted to 275¾. Power went up a couple of points to 233¾, equal to 236 with the dividend. Detroit was steady at 73½. Shawinigan at 150¾. Steel 63½ and Cement at 28½. Steel of Canada was off to 28.

WORK ON WELLAND CANAL IS DELAYED.

(By Daily News Leased Wire.)
OTTAWA, July 31.—It is possible that work on the new Welland canal will not be started for about 16 months. At the present time, the borings and other work neccessary to prepare the specifications for this big *work is being done.* This work, however, will not be finished till late in the fall. It will take a great part of the winter to get the information so obtained in shape and to get the tenders ready for advertisement. Thus, the tenders will likely not be called for till late next spring.

The government has decided to call for the tenders for this work in separate sections. While the contractors may tender for more than one section they will have to get each section by separate tender.

It is thought that the delay in starting the work will not necessarily mean any delay in finishing it. That is, the government engineers say that the more information got in advance as to the *character of the ground* whether earth, rock or quicksand, will mean that the tendering can be done in a more intelligent manner and that the work can be rushed with greater speed once the contractors get under *way.*

It is thought that the delay in the work beginning has no significance with the Georgian Bay canal proposition. The government engineers say that the delay is necessary and that the work will go on as soon as the information can be obtained. Part of vote for the preliminary work has already been passed by parliament.

HOLLAND IMPOSES DUTY ON BANANAS

(By Daily News Leased Wire.)
THE HAGUE, Aug. 1.—The government has withdrawn from the tariff bill the proposed duties on flour, hides dried fish, oranges and lemons. The duties on textiles, salt, clothing, sugar, tobacco and spices will be retained. A new duty of one florin (40 cents) per 100 kilograms (220 pounds) is proposed on bananas, and the specific duty on paper is replaced by an ad valorem duty varying from 6 to 10 per cent.

COMMUNICATION

THE DOUKHOBORS

To the Editor of The Daily News.

Sir: In looking over your columns of July 3, I found an article signed by one A. Hirst of Syringa Creek.

I read it over carefully and prayerfully, *when suddenly I began to feel* dizzy in my head. I was truly delighted, but it seemed as though my head got as big as one of our mountains; then I remembered no more, seemingly I went unconscious, and not until three Doukhobor nurses worked over me for three-quarters of an hour did they discover that I had a swelled head.

Now, Mr. Editor, it may seem funny to you, but the way Mr. Hirst boosted me up, giving me the credit of closing the first Doukhobor land deal and a deal of $137,000 at that, was too much for me to have made public, and I can't see how it can end any other way only with a monument in my memory when these bones return to *dust, and this spirit waits in purga*tory.

But I feel sure that Mr. Hirst will sympathize with me when he learns that I had a swelled head, for he has the same affliction, the only difference being that he got it in the neck and never got over it. There is some truth in some of his statements, but not all. He is altogether wrong about Fisher, Hamilton & Co. selling land to the Doukhobor society at Brilliant, as they did not sell an acre. Mr. Hirst should know what he is talking about before he makes it public. I was instrumental in closing the deal, so should know what I am talking about, and whose land it was.

Your correspondent states that I *know nothing about the Doukhobors* previous to their coming here from Saskatchewan. Then why does he find fault with me for selling a block of land to people whom I did not know, as to whether they were good or otherwise? Surely, Mr. Editor, I was innocent, let them be ever so bad. Mr. Hirst states that I sold the Doukhobors all my holdings except three acres, which is quite true; but here is where the shoe pinches. Mr. Hirst tried very hard to sell his place to the Doukhobors (although seemingly he did know them), and why in the name of goodness, if he knew them to be so undesirable to the Kootenays, did he want to be instrumental in getting them here, and be so sore at them? I think the general public will agree with me when I say it is a case of sour grapes, and a very bad one at that.

As to the Pass Creek lands which we sold to the Doukhobors, there was no land grab about it, and his statement is absolutely false. We never staked that land with the intention of selling to them. We staked it according to law, and bought and sold it exactly the same as Mr. Hirst did his Castlegar ranch, the only difference *being that we sold to the Doukhobors* and he did not, although he did his level best to do so, and was sore because they did not buy it. When Mr. Sherbinin denied having bought 2,000 acres he told the truth and he can still deny it as we never sold the 2,000 acres at Pass Creek. Why does not Mr. Hirst tell the truth as he knows so much about it? What he does know is that they looked over our holdings at Pass Creek, and he was so anxious to sell them his place that it almost drove him crazy, as they did not buy it. Mr. Hirst talks about closing a deal before we had a title. Let him try that on with the Doukhobors and he will find they know business methods probably bet*ter than he does.*

Surely Mr. Hirst does not expect any reader of The News to believe him when he says that any Doukhobor asked him if Mr. Verigin would ever die; that is going too strong. Mr. Hirst also states that councils are held to listen to Mr. Verigin talk. As a matter of fact Mr. Verigin does not attend one meeting out of 10, and as all business is discussed at these meetings it is obvious that everything is not in Mr. Verigin's hands. I have been present *at these same meetings,* which are held on Sundays, and combine business discussion and worship.

Your correspondent states that the Doukhobors would not educate their children but for the agitation kicked up outside. I myself have bought a number of school books, mostly Canadian primers, and given to them, and many families were trying to teach their children English before the school started. I admit they are backward with education, and they themselves know this and are trying to remedy it, and are very eager with their studies.

I have not heard of any agitation against the Doukhobors except a few chronic kickers, of which Mr. Kerr *and Mr. Hirst are samples. Mr. Hirst* is evidently scared of the Doukhobor competition in fruit growing. What will it be when they have the education that he is so anxious about? He will have to hump some then to keep up with the people that he is so anx*ious to knock.*

Your correspondent stated that Landis does not think it matters much whether they observe our marriage laws or not. In this statement he is trying to place me in a false light, and is evidently trying to invent a lie. That is what he would call it if I said it to Kerr. But never mind, Mr. Editor, he won't tumble he has not sense enough and the public know what I said and what Mr. Hirst said. He further alleges that members of the Doukhobor society earned some $25,000 and brought this money to Peter Verigin. This is another misrepresentation, as all moneys are handed in to the society's office, which is in charge of Mr. Sherbinin, where *it is entered in the books and dis*tributed for the use of the whole society, and if Mr. Verigin wants money he gets it from there, where a record is kept of same.

Mr. Hirst states that the Nelson Jam Factory is run by Englishmen as a blind. How strange that the name of Brilliant should appear so prominent on the labels if they are trying to hide their identity. Surely Mr. Hirst would have us believe him to be a prophet like his side-kicker, Mr. Kerr. When he can see the *whole* Kootenays owned and controlled by the Doukhobors, I am wondering where these poor unfortunates will get their potato patch, their pitiful calamity cry is enough to make the angels weep. The old proverb is still true: "Misery likes company," and some people will look through their warped glasses and see their neighbors all out of shape, then set up a howl, when after all they have seen nothing but their own crookedness. After living next the Doukhobors for nearly four years I cannot but say they are the best of neighbors; they are honest, *and and merciful.* Even Messrs. Hirst and Kerr will have to admit that they are kind to man and beast.

*The good book says there is no judg*ment against mercy, and again mercy overrideth judgment, and I do not believe there is a Doukhobor in the society who would stoop so low as to slander his fellow man. I have come to the conclusion that your correspondent has a grudge against humanity, and I must say that I find the Douk*hobors much better neighbors than I* found your correspondent.

H. B. LANDIS.

AMNESTY TO EXILES

(By Daily News Leased Wire.)
CONSTANTINOPLE, July 31.—The government introduced in the chamber of deputies today an amendment to the constitution whereby the sultan is empowered to dissolve the chamber under exceptional circumstances with*out the consent of the senate, provided* he summons a new chamber within six months.

An irade has been issued granting amnesty to 130 exiles, who include all the dignitaries of the old regime.

STOCKS

WE HAVE FOR SALE

100 Standard Silver Lead $1.65
1,000—2,000 Kootnay Gold ..... Bid

E. B. McDermid

Baker Street, Nelson B. C.

Twenty Acres at Proctor

This farm comprises a block of land of the very choicest quality and we submit it as being first class in every respect.

The location is the very best, being situated on the south side of Kootenay lake, close to the lake shore, facing on government wagon road, and being in the centre of a very prosperous settlement.

Partly improved and with a quantity of fruit trees planted, there is a water right with water laid on the farm.

We consider it good value at $200 per acre, but for quick sale it may be purchased for a total price of $3,000.00. Terms arranged.

We would be glad to submit full particulars and plans to any parties interested in securing a strictly first class farm with good location.

Toye & Toye

Dealers in High Class Fruit Lands. P. O. Box 147, NELSON, B.C.

Baker St. Nelson

MAKE IMPROVEMENTS AT WATER INTAKE

New Head Works to be Constructed on Cottonwood Creek—May Increase Supply.

In order to obviate the swell of water and to prevent silt getting into the pipe line a dam and settling and screening chambers are to be constructed at the intake on Cottonwood street, and a gang of men is now preparing for the improvement.

It is believed that these additions to the waterworks system at the intake will, by preventing the water from rushing against the mouth of the pipe in too great a volume, ensure that the pipe will be filled to capacity. For some time it has been suspected that the pipe was not carrying its full volume of water and the dam will make it possible to investigate the correctness of this theory.

NELSON NEWS OF THE DAY

M. S. Middleton, assistant provincial horticulturalist, will spend today at Harrop.

The new cement mixer is in operation on Mill street where concrete sidewalks are being put in on both sides, between Hendryx and Cedar streets.

E. D. Elsion of Ottawa, a member of the geological survey branch of the department of mines, is in Kootenay for the purpose of investigating clay deposits.

All property owners in Hume addition, Fairview and other suburbs of the city are invited to the public meeting in the Hume school at 8:30 o'clock this evening when the question of union with Nelson will be discussed.

J. C. Theiln, the cigar manufacturer, yesterday commenced to move into his new quarters in the Annable block which is nearing completion. Delay in the arrival of galvanized iron for the roofing and plate glass for the windows on the ground floor is holding up the final work.

Ask or write for the Hudson's Bay company's grocery price list. 161-tf.

MODERN METHODS.

Why not use modern business methods in the home?

Housewives should not be disconcerted because the cook, the waitress, the serving girl or other domestic servants are leaving.

A Want Ad will quickly and easily solve such such household problems.

The replacing of home helpers is readily accomplished, and at but trifling expense, by making use of the Wants.

Don't let confusion reign in the home—use The Daily News Want Ads.

AT THE THEATRE

Included in the subjects being shown at the Gem theatre this evening is "Pathe's Weekly." Perhaps the most noteworthy and interesting items contained in this weekly topical are a very intimate and good view of the Crown Prince and Princess of Prussia, and the French army manoeuvres as seen from an airship. "The Tin Can Rattle," Lubin, is a very amusing farce comedy set in Tin Can, a western "city." On the same reel is "The Turtle Industry in Florida," and "A Woman's Way," Melies, a picture opening in a burlesque vein and closing with a bit of comedy.

FREAK OF NATURE IN PEND D'ORIELLE ORCHARD

(Special to The Daily News.)

WANETA, B. C., Aug. 1.—A curious freak of nature may be seen in an orchard on the Pend d'Oreille. In a row of apple trees bearing fruit is a tree in full bloom, while in an adjoining row is another tree in bloom bearing at the same time well-grown fruit.

J. Falls has passed through the valley on his way to and from Falls City.

A quantity of beef and veal has been shipped from the valley during the past week, the result of visits from buyers in search of fresh meat from Trail and Rossland. Cabbage, carrots and turnips have also been sent out, good prices being obtained for the fine specimens sold.

W. F. Loveland, acting supervisor of fire wardens, together with R. J. Long, divisional fire warden, has been in the valley making extensive tours in all directions.

Mrs. Macfarlane has gone to visit friends in Trail.

Mr. Withey is again holding services in the valley. The service he held in the schoolhouse on Saturday afternoon was much appreciated by those able to attend.

Sweet corn, grown on one of the ranches, is already ripe and fit for table use and it is expected tomatoes will be ripe in a few days.

BURTON NOTES

(Special to The Daily News.)

BURTON, B. C., Aug. 1.—Mr. Kidlell, school inspector, from Kaslo, was in town last week.

T. Miller has sold his horses to C. Rheims of Nakusp and bought a lighter team, which he shipped in from Trout Lake.

Mr. Eades of Kenaston, Sask., has been appointed schoolmaster for the new school here.

Mr. Teye, Jr., of Nelson was a visitor here this week.

All the poles for the construction of the telephone line between Nakusp and Needles are now cut and lying on the ground. It is hoped that the work will be pushed forward, so that the line will be ready for public use before fall.

R. Allen of New Denver and R. Baird of Nakusp, district fire wardens, were in town on Tuesday.

Mr. Dubar and wife of Frank, Alta., have arrived to make their permanent home here, having bought land adjoining Mr. Holmes' property.

Large shipments of spring cauliflower and cabbage have been made by P. Guidon and A. Valayer, who have land admirably adapted for this produce.

INTERNATIONAL BRIDGE OFFICIALLY OPENED.

(By Daily News Leased Wire.)

INTERNATIONAL FALLS, Minn., Aug. 1—The international steel bridge which connects the United States with Canada was opened today. Citizens of International Falls and Fort Frances, Ont., took part in the celebration.

KILLED BY TRAIN.

(By Daily News Leased Wire.)

CALGARY, Aug. 1.—John Hurley, an ironworker, whose home is in Detroit, Mich. was run down by a westbound freight in the Canadian Pacific railroad yards shortly after midnight last night and died this morning of his injuries.

OPEN VERNON TO ITS FULL WIDTH

Vehicles Will be Able to Travel Over Hundred Foot Thoroughfare—Debris Cleared Away.

Vernon street, when improvements now in progress have been completed, will be open to traffic for its full width of 100 feet.

A new sidewalk is being constructed on the north side of the street between Josephine and Hall, and for 16 feet out from the walk planks are being laid so that the whole street can be used for vehicular traffic.

Trees are being removed and broken down wagons and other debris are being cleared away from the sides of the thoroughfare.

WESTERN FLOAT

(By R. T. Lowery.)

There are 104,000 Indians in Canada.

There are 32 licensed dogs in Port Alberni.

Dogs are not allowed in the meat shop at Kalso.

Dr. Quinlan now has a dental office in Hazelton.

There are more than 50 blind pigs in Vancouver.

A roller skating rink is being built at Mission City.

More than a dozen residences are being built in Port Alberni.

Port Edward is the name of a new townsite, close to Rupe.

Frank Bailey is manager of the Princeton Heights townsite.

Andy Good and others are building a church at Crows Nest.

Nearly all the yards are occupied in the new hospital at Armstrong.

The G. T. P. rails are now laid for 180 miles east of Prince Rupe.

Trains are now running 285 miles west of Edmonton on the G. T. P.

The Hazelton Herald is driving its big press with a new gasoline engine.

An oil-burning engine now hauls the trains between Vernon and Sicamous.

Live chickens in numbers are being shipped to the towns up the Skeena river.

The steamboat fare from Skeena Crossing to Hazelton has been cut down to $1.50.

An auto stage line now makes three trips daily between Old and New Hazelton.

Five acres of land in New Denver were recently sold to W. A. Cue for $1,000.

George Henderson of Slocan City has gone north to look at his land on the frontier.

This year 400 prospectors and landseekers have gone into the Stickine country.

Improvements costing $16,000 have been made to the Knox hotel in Prince Rupert.

Twenty years ago a salmon was caught in the Fraser river that weighed 65 pounds.

On July 22 in New Denver there was born to Mr. and Mrs. Hermann Clever a daughter.

It is reported that the Okanagan district will ship this year 1,500 carloads of fruit and vegetables.

The Colonial Oil company expects in a short time to be drilling for oil, gas or coal in the Chilliwack valley.

D. J. Elmer has moved from Cranbrook to Victoria. One by one the boosters are leaving East Kootenay.

A lunch counter called Panama has been opened in Port Alberni. The name is bound to spread all over the west.

In Cumberland Ed Woods was fined $5 for unlawfully having on his person caps and fuse while at work in a coal mine.

Sir George Doughty is putting up a $200,000 steel and concrete building at Alliford bay, to be used for a fish plant and cold storage purposes.

Large numbers of miners and others are leaving Fairbanks to take up land and settle down, near the many new towns along the line of the G. T. P.

Wonders never cease. At a recent big fire in Vancouver water was scarce. It would not be surprising if some day that live town ran out of hot air.

In Cranbrook the Prospector is calling for the merchants to paint their buildings. The editor of that paper slung the paint brush long before he grabbed the pen.

The boy scouts in Enderby have formed a fire brigade. The boys may yet be of some use, beyond reading dime novels and fighting Indians in their imagination.

Palma Angrignon has built a blacksmith shop and new barn at Silverton. He has lived more than 20 years in New Denver and ran a batteaux on the lake in early days.

E. N. Clark, editor of the Coalmont Courier, was tried in Princeton upon the charge of unlawfully carrying a gun. He was discharged, and the crown paid the costs.

A few nights ago in Mission City Chuck Lee's joint was raided by the police and 21 Chinamen arrested for gambling. The police secured a large amount of Chinese money, chips and five outfits for smoking opium.

Recently two of the hotels in Alberni and Port Alberni were fined $200 each for having supplied liquor to an auto driver when he was under the influence of drink. This is the sequel to the accident that killed W. N. Clarke.

Recently a gasoline fishing boat caught fire in the Alberni canal. Fearing an explosion the crew got to shore in a small boat. The blazing launch finally bumped into the wooded shore and started a forest fire that took a small army of men to extinguish.

After being in Moyie for 15 years the plant of the defunct Leader is being taken to Athalmar, where Charles Johnson will publish a paper, to be called the Columbia Valley Herald. It is to be regretted that the editor could not find a more original name, as already there are half a dozen Heralds in this province, and one in New York.

In Chilliwack the hotels must supply travelers with meals up to 10 o'clock at night, although if they give meals after that time they will not be fined. The bars in that town are only open between 7 a. m. and 10 p. m. for six days in the week. On Sundays the thirsty have to rely upon finding a private cache. To not open the bars until seven causes much distress to those in search of an early Collins.

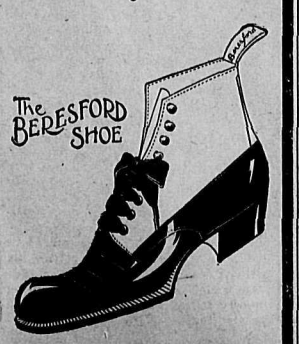
BAKER ST. NELSON



TIMBER LIMITS WILL BE SOLD

Land Will Be Opened for Settlement After Timber is Removed—Drains Kootenay Flats.

(Special to The Daily News.)

CRESTON, B. C., Aug 1.—The Sayward timber limit of 2,400 acres in the heart of the Creston orchard district, purchased by the British Columbia government, has been scaled; and, following the report of the cruisers just made at the department at Victoria, is to be put on the market, first for its timber and then in small blocks for fruit land development. There has been considerable fear of injury to the surrounding fruit interests, should fire break out in these limits and get beyond control.

Creston is shaking hands with itself over the bright prospect of an early reclamation of some 30,000 acres of the richest kind of meadow land to be found in British Columbia, absolutely free of stones and level as a prairie. This, the Kootenay Flats, are at present flooded every spring. H. T. Meuling is the chief engineer on the project. He has run a line of levels near Indian Mission and will return in the course of a fortnight or so to continue his work of investigation. It is proposed to run a line of levels up to Bonner's Ferry. Mr. Meuling has engaged in reclamation work in several countries and is a man of practical experience. It is understood that the west arm of th Kootenay will have to be deepened together with the bed of the river at Nelson and locks placed, similar to those of Rideau canal to control the over flow. The tract of land extends from Kootenay Landing to Port Hill on the international boundary.

The Canyon City lumber mills were forced to shut down owing to a bad belt breakage.

Both Canyon City and Alice Siding settlements are to have new public school houses.

Erickson citizens have sent Walter Avesque as a delegate to interest the railroad commissioners, now at Calgary, in moving the Erickson station from its present out-of-the-way position to a point near the Canadian Pacific railroad and Canyon City road crossing.

Rev. Mr. Westman, superintendent of the Young People's department of the Western Methodist conference, addressed a well attended meeting in the Methodist church on Monday evening. The ladies of this church held a very successful garden party on the parsonage grounds yesterday evening. Rev. C. W. King of Nelson and Prof. R. P. Baker vice principal of Okanagon college, Summerland, B. C., gave brief addresses on Christian education and citizenship.

Creston school board has secured a new teacher to take charge of the high school work here, but the name has not been announced. The regular school classes have become crowded beyond the capacity of the building.

The recent heavy rains did very little damage and a vast amount of good to the Creston orchards. A little cut clover was blackened and a few strawberries spoiled, otherwise, raspberries and other small fruits were greatly helped, and the second growth of clover, of which there is a large crop, is quite in advance of last year, and there is a fine showing of apples, peas and plums on every hand.

J. W. Dow has just sold 15 acres of his property to an English solicitor, Mr. Murdock, at $750 per acre. The purchaser it is understood has returned to the old country, it is understood for his family. He intends to develop the place and live on it shortly.

A jolly aggregation of Cranbrook junior baseballers got on the C. P. R. 4 p. m. train here yesterday, having defeated the Creston boys 4 to 9.

R. S. Bevin of the Creston Garage company recently sold 20 acres of fruit land to Murdock Coleman for $14,000. About nine acres of this are improved. Mr. Bevin is conducting a prosperous livery with two double seated touring cars. He includes in his business an auto sales and real estate department.

BOSWELL ROAD IS PROGRESSING FAST

(Special to The Daily News.)

BOSWELL, B. C., Aug. 1.—Construction of the new road is progressing fast and will, when finished, be of enormous benefit to the ranchers. G. Renney, road superintendent, was down last week inspecting the work.

H. Beaumont and W. L. Hepher have secured a contract from Major Rigby for the erection of a new house. The building is already well under way.

Mrs. W. Nichol, together with her two children and Miss Harriet Kennedy, arrived from Estevan, Sask., last week. They are staying with Mr. and Mrs. Kennedy.

Miss Maud Heap of Macleod is paying a visit of some few weeks duration to Mrs. A. R. Wilson.

A meeting of the Boswell Kootenay Lake union was held on the 28th inst. The vice president, G. H. Bartley, was in the chair. Several matters of importance were discussed. The construction of the new wharf and the likelihood of a telephone service in the immediate future were thoroughly gone into.

W. Baker of Vernon is spending a holiday at Westmoreland ranch.

Mr. and Mrs. Bainbridge of Creston and Mrs. Spence of Calgary have been visiting Mr. and Mrs. Kennedy.

A meeting of the taxpayers was held a short time ago in the schoolhouse in order to elect trustees for the school. G. H. Bartley and D. A. Davidson were re-elected while W. L. Hepher was appointed trustee in place of M. J. Quinn.

On Saturday next sports and a regatta will be held. The program is long and interesting. It is expected that there will be a large attendance of visitors. The ladies are providing tea and ice cream in the schoolhouse.

MARRIED MEN WIN AINSWORTH MATCH

(Special to The Daily News.)

AINSWORTH, B. C., Aug. 1.—A number from here attended the football match at Riondel on Monday night last between the married men and the single men of the Bluebell mine. The game was a scene of excitement from beginning to end, neither side scoring until near the end, when more by good luck than good management the married men chanced to pass the ball through the goal of their single opponents. Everything was carried on in a good-natured manner and was enjoyed thoroughly by the onlookers. Notwithstanding all the hard coaching carried on by the single girls, their young men were not able to withstand the strong forces of the married kickers. After the game refreshments were served.

RESIGNATION IN HANDS OF CHIEF.

(By Daily News Leased Wire.)

EDMONTON, Aug. 1.—As the result of a squabble that has arisen between the city council and chief of police over Detective Seymour facing a charge of assault causing grevious bodily harm, the plain clothes man has placed his resignation in the hands of Chief Lancey. The council demanded Tuesday night that Lancey suspend Seymour, and the cheif answered that he would stand by his decision to keep Seymour on the staff despite the council, the commissioners or anybody else.

SUMMER SCHOOL IS GROWING

Number of Students Increases to Forty —Mayor Annable Will Speak This Evening.

Despite the handicap of most unfavorable weather conditions the second day of the West Kootenay summer school was a decided success. Although the pleasure seeking element was kept away, there was a noticeable increase in the number of serious-minded ones, who went there for the sole purpose of furthering the interests of the summer school, which has now a membership of over 40.

The concert which was to have been given last night had to be witadrawn and, weather permitting, will be added to the already elaborate program of tonight. G. E. Hartwell, M.A., for 20 years a missionary in western China, and who is now superintendent of Oriental work in British Columbia, at Vancouver, arrived yesterday and will endeavor to give tomorrow evening an illustrated talk on the conditions in the far east.

Mayor Annable, who was to have given a short address of welcome last night, but on account of the weather was unable to do so, will speak this evening.

REGINA FAIR SUCCESS

(By Daily News Leased Wire.)

REGINA, Aug. 1.—With upward of 15,000 in attendance yesterday and 11,000 paid admissions today, the provincial fair continues its successful career and promises to establish a new record if the remaining two days maintain the same good showing. Today saw judging practically complete in the cattle and horse exhibitions and tomorrow should see the judges finish their work. In Percherons Judge Dennan awarded both the championship and ribbon to Beattie & Colquhoun of Brandon, Jannie, 3 years old, securing the gold medal, and Gaston, 2 years old, the reserve.

INTERPRETATION OF AGREEMENT

Grand Trunk Officers Object to Taking Over Winnipeg-Superior Section of Road.

(By Daily News Leased Wire.)

OTTAWA, Aug. 1.—The declaration of officers of the Grand Trunk that they object to taking over the Winnipeg-Superior Junction section of the National Transcontinental railway until the whole Winnipeg-Moncton section had been completed has caused some talk here, but so far as can be learned the government has not been officially advised of the company's objections. If the Grand Trunk Pacific insists that under the terms of the contract it cannot be compelled to take over the completed section of the line it is likely the dispute will be settled either by arbitration or a reference to the courts. Under the terms of the contract entered into between the late government and the company provision is made for the arbitration of any dispute which may arise in connection with the interpretation of the contract. Under this section of the act an arbitration board of which Mr. Collingwood Schreiber was the chairman was named to deal with a dispute which arose as to the classification of excavated material.

Briefly, the facts of the present case are that the chief engineer of the Transcontinental, Gordon Grant, has reported that the sections in question are completed. They are now being operated by the Grand Trunk Pacific, but as contractors for the construction work rather than as lessees. On the strength of the engineer's report an order in council was passed last week calling upon the Grand Trunk Pacific to take over the section and stipulated that "in the event of the Grand Trunk Pacific not exercising within 30 days from August 1 its right under clause 3 of the statutory agreement to take a lease of the said portion of the line the commissioners be authorized to make such arrangements as they think best."

The whole thing apparently centres around an interpretation of clause 3 of the agreement. This provides that "pending the completion of the eastern division by the government, the company shall be entitled to lease from the commission and to operate such portions of the eastern division as may be from time to time completed."

The section further states that, "the terms shall be such as may be agreed upon but not to be more onerous than those governing the lease of the whole line, and at all times subject to the paramount rights of the commission to use and operate the same without payment of tolls or other compensation."

Last week's order in council was prepared by the justice department on the strength of the engineer's certificates and the provisions of the act. Two things seem reasonably clear, namely: That the company "is entitled" to lease the section if so desires to lease it, and, secondly, that if it fails to do so the commission itself can operate the section or presumably arrange for some one else to do it. Whether the Grand Trunk Pacific can be compelled to take over a part of the line till the whole is completed is something to be settled later. It is to the advantage of the company to defer taking over the section, as the longer the delay the further is postponed the date upon which interest shall be paid. From the time of taking over this will be seven years of free rental. The sooner the lease is entered into, therefore, the sooner the rent will begin. The company also would have to assume all maintenance and operation expenses and be subject to the jurisdiction of the railway commission in respect to tariffs. If there has been official protest by the Grand Trunk Pacific it has been addressed to the commissioner, who is out of the city, and not to the acting premier or acting minister of railways.

An Excellent Orchard and Garden Property

WITH EXCEPTIONAL CONVENIENCES AND UNSURPASSED FOR BEAUTY OF ENVIRONMENT.

On wagon road close to railroad station, steamboat landing, stores, post-office, churches, schools, best markets., etc., in well settled district. Quarter mile lake frontage.

This lot contains over 13 acres. Free from stone. Gentle slope from railroad and wagon road to water front. Soil is a first-class clay loam; 3½ acres planted to apples and small fruits one year ago. Thriving and well cared for. Land between trees planted to garden and clover. Three more acres are logged and burnt. Balance of land slashed and burnt over.

On the orchard part there is a three-roomed bungalow, with cellar; excellent poultry house; four large colony houses for chickens. Good stable and loft. All buildings are only two years old.

There is a water record on a never failing stream. Water flumed across property.

Price $2,800. Terms, one-quarter cash; balance spread over three years.

If interested let us show you this splendid property.

MINING TROUBLE IS UNSETTLED

Union and Mine Officia's Visit Fillar In Effort to Arrive at Settlement.

(Special to The Daily News.)

COLEMAN, Alta., Aug. 1.—J. O. Jones, vice-president of District No. 18, United Mine Workers of America, and William Graham, secretary of the Coleman local, accompanied by General Manager Whiteside and Superintendent Davidson, paid a visit of inspection to No. 131 pillar in the No. 2 mine of the International Coal & Coke Company, Limited, yesterday, in an effort to arrive at some settlement of the differences between the company and the miners drawing the pillar, which has so far resulted in the loss of a week's wages to the employees and to the company about 12,000 tons of coal output and a loss of about 2,000 tons in the production of coke.

No settlement was reached, however, and Vice-President Jones left this morning for Fernie to consult with the other members of the district board. It is generally understood that both the representatives of the miners and the officials of the company will make a further effort to arrive at a satisfactory settlement before placing the matter before the conciliation board.

The miners are still working and it is unlikely that they will take any definite action unless instructed by the district officials.

Thomas Harries of Michel, international board member for District No. 18, United Mine Workers of America, was in Coleman yesterday in connection with the recent layoff.

William B. Powell, ex-president of District No. 18, United Mine Workers of America, returned from Calgary a few days ago.

Charles Faure, of the Coleman Liquor Company, Limited, has gone on an extended visit to his old home in France.

Among the list of successful candidates at the recent grade eight examination appears the name of Harry Clark, son of our popular and efficient school trustee.

Mrs. C. P. Willimott and family left this morning for a few weeks' outing at Creston.

J. Davies, a miner employed by the McGillivray Creek Coal & Coke Company, Limited, was severely cut about the head and face by a fall of coal a few days ago.

George A. Clair, of the Grand Union hotel, was a business visitor to Blairmore yesterday.

GOLDEN FAWN STRIKE IS RICH

W. G. Burnham Tells of Discovery in Letter to Nelson Friend—Wide Vein.

An exceptionally rich strike has been made, on the Golden Fawn group of mineral claims in the Sheep Creek district, according to W. G. Burnham, one of the owners of the mine. This group is located near the Mother Lode mine and is almost directly above it. The Golden Fawn property is owned by T. Gallon, M. Burnham, Charles Bennett and F. P. Drummond, and has been developed for some time but upon a lead which has up till now not shown any great values. A short time ago, however, a very rich vein, showing exceptionally high values in gold, was discovered on the ridge of the mountain, about 1,000 feet above No. 5 tunnel of the Mother Lode mine. This rich vein runs across the summit of the mountain parallel and to the north of those of the Mother Lode, Kootenay Belle and Nugget mines, and has been uncovered for a distance of 400 feet down the Fawn creek side of the mountain and is being traced as far as possible down the Sheep Creek side.

The particulars of this rich strike were furnished in a personal letter from Mr. Burnham to Thomas Brown of this city, which is as follows:

"We have made a new and very rich strike on the Fawn in a newly uncovered vein which runs across the ridge of the mountain and down each side. It is about six feet wide with a pay streak from 2 to 12 inches, carrying exceptionally high values. During my mining experience in this district I have panned ore from nearly every vein on Sheep creek but never dreamed of seeing such as we got on this new vein. We got visible free gold in every cut and we have the vein opened up with cuts for a distance of over 200 feet down the east side. There is pay streak all the way and in places goes over $300 per ton. Those who have seen the vein say they have never seen anything like it in Sheep creek.

"Another vein on the Mountain View claim of this group has been uncovered and shows values up to $50 per ton."

Mr. Brown states that this discovery means much for Sheep creek and in all probability means adding another great gold producing property to that district, as it is the intention to start extensive operations as soon as possible.

EXPECTS CONTINUED HIGH METAL PRICES

Byron N. White Foresees Great Prosperity for Mining Industry of Kootenay.

That the present high prices of metals will be maintained for some time to come is the opinion of Byron N. White, the Spokane mining man, who is a guest at the Strathcona.

Mr. White expressed the view that the mining industry of this district was destined to see great prosperity during the coming two or three years.

While in Kootenay he will inspect several properties in which he is interested. He is accompanied by Mrs. White.
