CHILDREN NEED NOT USE MOP NOW

School Board to Let Laundry Work By Contract

WINKS AGAIN PASS BETWEEN TRUSTEES

Miss Pettit Refuses to Draft Domestic Science Curriculum

Because objections have been made to children in the domestic science department at the public school washing towels, uniforms, etc., and mopping the floor of the class room, the board decided at a meeting at the school yesterday morning that the work should be let by contract.

Miss M. S. Pettit, the teacher, flatly refused to draft a curriculum for submission to the board when it was suggested by a trustee that she should do so, and made assertions to the effect that the members of the board had denounced her curriculum without knowing what it was. A motion asking for a copy of the course Miss Pettit has mapped out for the department was passed.

Differences of opinion were not infrequently expressed by members of the board regarding the laundry work and floor mopping. Dr. E. C. Arthur and William Irvine took issue as to how much of the washing should be done at the school.

Winks passed twice. Once Dr. Arthus placed the responsibility upon his eye, which he said was probably practicing, and on another occasion Mr. Irvine passed the "high sign" to Dr. Annie Verth Jones, who appeared highly amused when he and Dr. Arthur crossed swords.

A suggestion to Miss Pettit that she had better resign if she were dissatisfied came from Mr. Irvine.

The question of establishing night classes in domestic science and of allowing the Young Woman's club to use the room and the assembly room on certain nights during the week was left to a special committee.

A. D. Emory, chairman, presided. W. J. Labadie was unable to attend.

Gives Outline of Work.

Miss Pettit explained her time was practically fully occupied by classes except on Thursdays, when she had a class between 11 and 12 o'clock in the morning only. To Dr. Jones she said that she did not teach children from classes lower than division No. 8, where the average was probably 10 years. Children below that age were not taught.

Dr. Jones remarked that some mothers thought that little girls should be taught household art on the kindergarten system.

Miss Pettit remarked that she was a graduate in domestic science, but not in household art, Dr. Jones explaining that "art" was sewing and "science" cooking. She did not propose to attempt to teach any more little boys, said Miss Pettit.

Last term she had taught household art; this term the curriculum had included cooking, laundry work and house management, and in addition she and the children, to avoid expense, had done some of the janitor's work. Miss Pettit stated that she had lighted the stoves, while the children had washed the dish cloths, towels, etc. After each lesson the towels, etc., were washed out, but it was necessary to boil them once a week. All the children washed and ironed their own aprons. In other schools children in domestic science classes owned their own aprons. The method was for the school board to purchase the material, for the children to make up the articles and for the parents then to purchase them.

Dr. Jones—They haven't such a liberal school board as ours.

The children mopped the floors once a week, continued Miss Pettit.

Object to Floor Mopping.

Mr. Irvine contended that the towels, etc., should go to the laundry and that the floors should be mopped by the janitor. Parents objected to children going to school for such work, he said.

Miss Pettit said that she would much prefer that the board would arrange for the work to be done in the way suggested by Mr. Irvine.

Dr. Arthur thought that it was part of the domestic science work, Miss Pettit replying that it was usual to teach the children once a year to mop the floors.

Reading from a minute book Miss Pettit showed that the work carried out by the children in her class since the beginning of the present term included laundry, sewing, washing and ironing towels, etc., tea making, canning peaches, making cocoa, oatmeal porridge, cooking baked apples, apple sauce, apple compote, coddled apples, cream of wheat, chocolate-oatmeal-pudding, caramel pudding and cream toast. A large part of the first few weeks of the term appeared to have been devoted to washing and ironing.

Janitor Says He's Too Busy.

Dr. Arthur said that he had requested the janitor to do the floor mopping, fire lighting, etc., about two weeks ago and that he had yesterday morning practically stated that he had not sufficient time for the work.

Mr. Irvine—If he can't do it there are others who can.

Dr. Jones—He can do it if compensated.

Dr. Arthur — He's compensated enough.

Mr. Irvine—He's going to get nothing more as far as I'm concerned.

Chocolate Pudding Carbo-Hydrates.

Mr. Emory asked if chocolate pudding came in the curriculum before plain meat cooking. Miss Pettit replied that it was under the heading of carbo-hydrates and that one of the reasons for teaching the children how to make it was that there was more chocolate made than the children could drink and that the pudding was a "left-over" dish.

To another question relating to the curriculum Miss Pettit asked if any member of the board had ever had any experience in forming a curriculum.

Mr. Irvine replied with some heat that the members of the board were not present to be cross-examined. Dr. Arthur seemed to think that Miss Pettit's point was well taken.

Continuing, Miss Pettit stated that she had arranged the curriculum according to her own ideas, although, according to custom in this province, it was really within the province of the board.

Knew Nothing of Domestic Science.

"The members of the board who in-

BIG STRIKE OF NATURAL GAS

Pressure of Six Hundred Pounds to Square Inch—Larger Than Pelican Hole.

(By Daily News Leased Wire.)

CALGARY, Oct. 18.—A special to the Morning Albertan from Athabasca Landing says that the heaviest flow of illuminating gas ever encountered in the Peace River country was struck several days ago just outside the city limits. The well registers a pressure of 600 pounds to the square inch and a force of watchmen is guarding the well night and day to guard against accidental ignition. The new well is said to be larger even than the famous Pelican hole. Excavation work started yesterday on trenches for the gas mains in the city proper and within a few weeks Athabasca Landing will be lighted by natural gas The strike caused a big rush from Edmonton and nearby cities.

LEGISLATURE SUMMONED TO MEET IN JANUARY

(By Daily News Leased Wire.)

VICTORIA, B. C., Oct. 18.—The legislature has been summoned to meet on Thursday, Jan. 16.

DOUKHOBOR BRIDGE WILL BE BUILT

Government Has Agreed to Grant Twenty Thousand Dollars to Span River at Brilliant.

William Blakemore of Victoria, Doukhobor commissioner, has been advised that the provincial government has agreed to make a grant of $20,000 for the construction of the Doukhobor bridge at Brilliant, which will connect the settlement at that place with the trans-continental highway. When the road from two miles east of the city power plant has been built to Glade there will be a through route, via the bridge at Brilliant, along the south side of the Kootenay river, from Nelson to Rossland and Trail.

FRAME-UP IS DEFENCE PLEA

Claims Becker Had Nothing to Do With Murder

WITNESS ANXIOUS TO TELL STORY

Becomes Petulant When Checked By Judge--Belligerent to Counsel

(By Daily News Leased Wire.)

NEW YORK, Oct. 18.—Jacob Reich, known as "Jack Sullivan, king of the newsboys," indicted with the four gunmen for the murder of Herman Rosenthal, tried to unfold on the witness stand at today's session of Police Lieut. Becker's trial his version of an alleged conspiracy by gamblers to kill Rosenthal and "frameup" Becker for the murder. Through him the defence planned to go far in proving that Becker had nothing to do with the murder but was himself the victim of a conspiracy. But much of Sullivan's story was untold. That part which Justice Goff permitted him to relate was based upon testimony already given by the state's witnesses, Ross Webber, Vallon and Schepps. Sullivan not only denied portions of their testimony relating to Becker's participation in the alleged conspiracy to murder Rosenthal, but declared that after the murder, Webber and Schepps told him they were going "to frame Becker and turn him over to the district attorney."

These two men told Sullivan, according to his testimony, that they would "frame Becker, Waldo or the mayor, if necessary to save their own lives." They told him, he said, that the electric chair was staring him in the face and that their only chance to escape it lay in convicting Becker.

Sullivan became as petulant as a child when Justice Goff narrowed his testimony to contradictions of the previous witnesses. Again and again he begged the court to "give me 10 minutes to explain this thing." Once he asked for a chance "not only for myself, but for God's sake."

Counsel was wrangling or objecting to his testimony nearly every moment of the three hours he was on the stand. Sullivan tired of this and during a brief recess asked permission to "go out for a smoke."

When John T. McIntyre, chief of Becker's counsel, turned him over to the state for cross examination, Sullivan became belligerent, raised his voice to its highest pitch, objected to questions on his own part and pounded the desk beside him to emphasize his declarations. During one of these speeches he shouted that he was as innocent of the murder of Rosenthal as "Mr. Whitman's baby."

Sullivan placed his short, heavy fingers on the witness stand shortly after 3 o'clock, swept back his hair from his receding forehead upon which the prison pallor had not settled, and stretched his short neck forward for the first question. He rambled away from the subject so often that a uniformed court attendant was placed beside him and shook him vigorously whenever he went too far astray.

"Did you ever collect money from disorderly houses?" asked Mr. Moss on cross examination. "You might as well ask me," said Sullivan, "If I ever collected money from Standard Oil or Archbold."

After Sullivan had submitted that he associated with "all classes from millionaires down," he was excused.

District Attorney Witness.

District Attorney Whitman virtually was forced on the stand as a witness for the defence before Sullivan had testified. Mr. Whitman said he made stipulations with Rose and Vallon, the state's chief witnesses against Becker, before they had agreed to testify. Former District Attorney Jerome and Police Commissioner Waldo preceded him. Mr. Jerome who had been heralded as an important witness for the defence, was permitted to answer one question. He was not allowed to testify that he had heard Becker call up Rose at the Harry Pollock home the night of the murder. Rose testified that he had called Becker on the telephone at Becker's home and that the conversation was of an incriminating nature.

Mr. Waldo testified that he and not Becker, had ordered a policeman to be stationed in Rosenthal's gambling place after Becker had raided it. The state has sought to prove that Becker did this as personal revenge. Commissioner Waldo was not permitted to say whether Becker had requested a transfer from his post as head of the "strong arm" squad. The defence claims that Becker sought the transfer fearing that he would be killed by gamblers for his zeal, and that he did not relish the work.

BLOODSHED END TO GALICIAN WEDDING

(By Daily News Leased Wire.)

SASKATOON, Oct. 18.—Bloodshed marked the closing proceedings of a Galician wedding celebration in a hall on Avenue I and Fifteenth street last night and indications point strongly to three men having to face a murder charge. As a sequel to the fracas, an unidentified Galician lies in the city hospital in a critical condition, little hope being held of his recovery.

HUNDRED START LONG VIGIL

(By Daily News Leased Wire.)

Edmonton, Oct. 18.—Although townships 89 and 90, which include the townsite of Fort McMurray will not be opened to homesteaders until Nov. 9, there is *already a line of over 100 persons* outside the local land office, and the number is increasing. Land Agent Norquay has devised a plan to relieve the waiters of some of the hardships of the long vigil by allowing them to mark their positions on the sidewalk with chalk and then "guard" the spots from more sheltered points.

WHOLESALE MURDER PLOT REVEALED

Chinese Secret Society Pays For Murders if Gambling Places Fail To Pay Tribute.

(By Daily News Leased Wire.)

MONTREAL, Oct. 18.—Search warrants issued yesterday and acted upon by the police in Chinatown yesterday revealed a dastardly wholesale murder plot and an organized murder fund for carrying out the orders of the Chinese secret society known as Chick Long Tong, whose headquarters are at 78 Langauchetiere street. Inspector O'Keefe raiding half a dozen places in Chinatown yesterday, found papers in black and white laying down the indemnities to be paid for "killings" and woundings if the Chinese gambling places did not pay tribute to the secret society.

One contract in Chinese writing, signed by Lee Yick Sung, who some time ago escaped from Montreal after the shooting of Moon On, in a Chinese gambling joint, shows that Lee Young is entitled to $1,000 for the work he did in trying to shoot up a gambling joint in which tribute was not paid.

"I bind myself for life and death," is the condition which Lee Yick Sung agrees to in this contract, which is signed in red ink.

In case Lee Yick Sung merely wounded anybody in carrying out the orders of the society, he is to receive an indemnity of $10 a week with all his legal expenses paid, according to contracts which have now been found.

Leaves Court, Commits Suicide.

(By Daily News Leased Wire.)

MONTREAL, Oct. 18.—Sum Sen Sun, who was one of the best known Chinese in Chinatown, and especially among the gamblers, was found hanging by the neck to a tree in the mountain park late this afternoon. The deceased was in court this afternoon between 2 and 3 o'clock when certain papers seized by Inspector O'Keefe and Lieut. Savard in a raid on the rooms of the Chinese Republican club, 18 West Laguechetiere street, were exhibited before Judge Choquet. But whether anything he heard in court drove him to end his life could not be ascertained tonight. The deceased resided with his brother at 52 West Laguchetiere street next door to the resort in which Moon On was shot in a row between rival factions two months ago.

SCIENTIST'S FAITH DID NOT CURE GIRL

Died of Diptheria—No Medical Attention—Christian Scientist Said She Would Be All Right.

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—An investigation will be held into the death of May Davis, aged 22, a stenographer who died an hour after being admitted to the Isolation hospital suffering from diptheria. It is said the girl was left critically ill for two days at her room on Salem avenue without medical attention being secured. A Christian Scientist saw her and said she would be all right.

UNITED STATES ARSENAL DESTROYED BY FIRE

(By Daily News Leased Wire.)

Benicia, Cal., Oct. 18.—The Benicia arsenal, the government's principal storehouse for army supplies on the Pacific coast was destroyed by fire tonight. The loss is estimated between three and four million dollars. Spontaneous combustion or crossed electric wires is assigned as the cause. Sixty thousand stands of small arms and 12,000,000 rounds of ammunition were destroyed. Because of the explosions of the cartridges the work of fighting the first was extremely hazardous.

CREDITORS WILL BE PAID IN FULL

Reorganization of Dominion Sawmills Sanctioned by British Columbia Supreme Court.

(By Daily News Leased Wire.)

VANCOUVER, B.C., Oct. 18.—The proposed reorganization of the Dominion Sawmills was sanctioned by Justice Murphy in the supreme court this morning and will come into effect at once, the shareholders, debenture holders and the English courts having previously given their consent.

Douglas Armour, for the company, stated that while the scheme provides for a compromise with the debenture holders, all the unsecured creditors in British Columbia will be paid in full, and the scheme provides that the new company will not get legal possession of the assets until the unsecured creditors are satisfied.

HUNDRED GREEKS SAIL FROM CALGARY TO SCENE OF WAR

CALGARY, Oct. 18.—One hundred Greeks leave here tonight to sail for the scene of the war. A detachment of 50 arrived from Edmonton this morning and with others of Calgary are preparing for their long trip.

MICROBES AS WEAPONS OF WAR

Report That Turkish Doctors Take Germs to Frontier

GREECE ADHERES TO BALKAN UNION

Heavy Fighting Rumored--Adrianople Will Be Centre of Struggle

(By Daily News Leased Wire.)

LONDON, Oct. 18.—Turkey's efforts to detach Greece from the confederation of the Balkan states have failed. Greece declared against the Ottoman empire today, all the allied ministers leaving Constantinople and the allied states notifying the powers in a note detailing their complaints that a state of war with Turkey existed. Reports of fighting, such as the capture of Pristina by the Servians and a heavy battle at Mustapha Pasha, probably are in advance of the real facts. There has been for some time an active censorship of the military news in all the near eastern capitals and little is known of the disposition of the various forces. All further reports of the fighting therefore, must be received with a measure of caution as it is not impossible they are spread and allowed to be telegraphed abroad from interested motives.

The greatest struggle will be for the possession of Adrianople. Its capture by the Bulgarians would leave the road open to Contantinople. All that is known positively is that fighting by advanced guards is proceeding on all the frontiers. No further news has been received as yet from the Scutari region where the Montenegrins have been operating against the Turks.

According to a Berlin report three great Bulgarian armies have concentrated against Mustapha Pasha from which the Turks retreated to Adrianople with entrenchments stretching to Kirk-Killesseh, some 30 miles to the northwest of Adrianople.

Doctors Take Microbes.

A despatch received here and vouched for by the Greek minister makes the extraordinary statement that the Turkish army doctors have gone to Janina in the southern part of Albania near the Grecian frontier carrying with them typhus and cholera microbes.

Augustine Birrell, chief secretary of Ireland, referring in a speech at Bristol, to the war in the Balkans, said he was sure the time would come when intervention by the powers would become possible and advisable.

Heavy Fighting.

(By Daily News Leased Wire.)

CONSTANTINOPLE, Oct. 18.—Heavy fighting is reported to have been in progress, throughout the day in the region about Kirk-Kilessen, northeast of Adrianople. Large forces were engaged on both sides.

The departure from the capital today of the Balkan ministers was not attended by any hostile demonstration. M. Sarafoff, the Bulgarian minister and M. Gyparius, the Greek minister, embarked on the Austrian Lloyd steamer bound respectively for Varna and Piraeus, while Dr. J. Nenandovitch, the Servian representatives, embarked on a Roumanian steamer for Entinje. The other members of the diplomatic corps here saw the departing ministers off and a crowd of Greeks swarmed upon the quay. The behavior of the Turkish populace was commendable, for with the exception of a few windows being broken during the departure of the ministers, no disagreeable incident is reported to have occurred. Thousands of Greeks and other prospective combatants of the Turks were permitted to depart from the capital today to join their forces, but their leaving brought forth no unfriendly manifestations.

Doubt prevailed up to the last moment whether Greece finally would throw in her lot with her Balkan allies. It is an unquestionable fact that the Turkish government made serious efforts to have Greece withdraw her allegiance to the confederation. It seems probable, however, that Turkey was prompted in this respect chiefly by a desire to gain time in view of the superiority of the Greek fleet in the Aegean sea. Turkey also at the last moment offered to send a new minister to Athens—one who would be more acceptable to the Greeks than Mukhtar Bey—but this effort likewise proved futile in warding off Greece's declaration of war.

Stronghold Occupied.

(By Daily News Leased Wire.)

SOFIA, Oct. 18.—The Bulgarian army today occupied Kourtkala, an important strategic point near Mustapha Pasha, which is in European Turkey, 20 miles from Adrianople.

Greeks Attack Turks.

(By Daily News Leased Wire.)

CONSTANTINOPLE, Oct. 18.—An official report issued tonight says that the Greek army has attacked the Turks in the region of Meluna pass and that the battle continues. Meluna pass is on the northeastern frontier of Greece, just south of Elassona, Turkey.

Servians Rejoice.

(By Daily News Leased Wire.)

BELGRADE, Oct. 18.—There were great rejoicings here today over unconfirmed reports that the Servians had captured Pristina, a town of 15,000 inhabitants in the vilayet of Cossovo Turkey. But the only authentic information concerning the movements of the army received here was to the effect that the Servians had entered Old Servia and were advancing in the direction of Uskup. It is doubtful, therefore, that they have yet reached Pristina.

Railway Destroyed.

LONDON, Oct. 18.—Many miles of railway between Uskup and Saloniki have been destroyed and bridges dynamited and the telegraph lines cut, according to a despatch to the Daily Telegraph from Sofia, Bulgaria.

Greece Refuses Turkish Bribe.

ATHENS, Oct. 18.—The foreign minister at the sitting of the chamber of deputies this afternoon announced that Greece had declared war against Turkey. He added that up to the last moment Turkey had made all kinds of efforts and held out all sorts of promises to have Greece break away from the Balkan confederation. Premier Venizelos read to the deputation a message from King George, in which his majesty stated that the sufferings of their oppressed brethren had forced the Balkan states to a recourse to arms. The premier also read a telegram from Crown Prince Constantine reporting that the Greek army had entered Turkish territory. When the premier had concluded the minister of war rose and announced the departure of the Greek fleet. He said it was the one great wish of the Greek sailors to see the Turkish fleet leave its moorings.

Amid cheering the president of the chamber asked the permission of the deputies to send greetings to the legislative chambers of the allies, "now that cannon are roaring in the name of civilization and Christianity is at war against barbarism."

BADLY INJURED IN WRECK JURY GRANTS LARGE AWARD

(By Daily News Leased Wire.)

OTTAWA, Oct. 18.—C. Roy, traveller for Bate & Sons of this city, who was badly injured about the neck and shoulders in the disastrous Canadian Pacific wreck at Hull last winter, was today awarded $21,075 by a jury in the Hull superior court. He claimed to have been permanently disabled.

TRIP ON FERRY FATAL TO THREE

Jump on Skiff When Ferry Tips—Boat Upsets—Three Drowned—Three Swim Ashore.

(By Daily News Leased Wire.)

LYTTON, B. C., Oct. 18.—A. R. Talmadge, superintendent for Armstrong, Morrison & Co., A. Colliery and J. Erickson, employes of the above company, were drowned here yesterday while trying to cross the Fraser river in a ferry. They were making the first trip with the ferry at the Canadian Northern railway bridge now being built about half a mile below Lytton. The ferry barge tipped and they jumped to a skiff that lay alongside. The skiff upset, throwing all the men into the water. Three managed to swim ashore, but the other three were drowned. One body has been recovered. The cable on the ferry slipped loose at one end and caused the ferry to tip.

YOUNG CANADIAN BRIDE OFF TO WAR

Accompanying Husband to Balkans—Will Offer Services to Red Cross Association in Greece.

(By Daily News Leased Wire.)

CALGARY, Oct. 18.—Married only two weeks ago and now on her way accompanying her husband to the seat of war in the Balkans, is the romantic story of a Canadian girl, Mrs. Olfron of Winnipeg. This young woman will offer her services to the Red Cross association in Greece to go to the front. She is an Icelander by birth and her mother resides at 738 Arlington street, Winnipeg.

DOCTOR MAY NOT BE WELL ENOUGH TO STAND TRIAL

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—Dr. Beattie Nesbit has recovered from his recent illness to such an extent that he was able to leave Linhurst hospital. Dr. Nesbit, however, is, according to his friends, far from well. His proportions have considerably decreased since his arrest and his appearance today shows the strain and mental worry he has undergone. He is now resting at his home on Grosvenor street. The assizes for which Dr. Nesbit's trial is listed open on Nov. 11, but it is doubtful whether he will be well enough by that time to undergo trial.

CONDITION STILL SATISFACTORY

PROVINCIAL LIBRARY

Roosevelt's Physicians Discontinue Issue of Bulletins

IMPRESSIONS OF MILWAUKEE SPEECH

Did Not Know if Wound Was Fatal — Still in Danger

(By Daily News Leased Wire.)

CHICAGO, Oct. 18.—Col. Roosevelt's condition was so satisfactory tonight that it was announced at 11 o'clock that the usual bulletins of the physicians would not be issued.

Roosevelt's Impression.

(By Daily News Leased Wire.)

CHICAGO, Oct. 18.—The first vivid impressions of Col. Roosevelt on the night of which he was shot in Milwaukee were related tonight from the colonel's own lips. The colonel said that on Monday he expected to leave for Oyster Bay and hoped to be back in the campaign making speeches again week after next.

"I feel as lively as a bulldog," said the colonel by way of preface. He was sitting in a huge leather chair at an open window in Mrs. Roosevelt's room adjoining his own.

What seemed to impress Col. Roosevelt most strongly was not the shooting itself—he seemed to accept that as a thing of the past to be dismissed once it was over—but rather his hour on the stage of the Milwaukee auditorium when he was speaking with a bullet in his side. He insisted that to make the speech was only what another man would have done under the circumstances.

"It was quite amusing," he went on, "when I reached for my manuscript to see that it had a hole in it from the bullet and there was a hole in my spectacle case too." The colonel chuckled as he recalled the surprise he had felt at the discovery.

"Amusing, did you say, colonel?" asked one of his hearers. "Well," he qualified, "it was interesting."

Col. Roosevelt said he had no means of knowing, as he delivered the speech, whether he was wounded fatally, but accepted as a matter of course that he should go on until he had finished, if his strength held out. But when it was all over and he had turned to go to the hospital, he said, he found it difficult to keep his temper when half a dozen scrambled over the edge of the platform and asked him to shakehands. "They wanted to shake hands," he said as though it still surprised him. "Didn't they know it was impossible for a man who had just been shot to shake hands with genuine cordiality?"

In a dispassionate way, Col. Roosevelt speculated upon the chance that he would have blood poisoning or some other serious complication. "Isn't that a curious thing," he said, "that a spot (he placed his thumb near the top of his forefinger to indicate how big a spot he meant) "can become infected and set the whole thing back? "Then," he said, "there was the possibility of pleurisy and pneumonia developing."

Dr. Alexander Lambert had spoken of going to New York today, but his associates had asked him to remain because they felt that all danger was not passed.

The colonel said he felt no pain at present.

OPPOSITION SHOUTS DOWN CHANCELLOR OF EXCHEQUER

(By Daily News Leased Wire.)

LONDON, Oct. 18.—In the commons tonight much excitement was evidenced when the chancellor of the exchequer, Lloyd George, attempted to answer a question on land taxation and the speaker was shouted down by the opposition. J. Rawlinson, a Unionist, sought to cross-examine the chancellor on the secret inquiries of the select committee investigating land taxation, and when Lloyd George rose to reply his voice was drowned by the shouts of the opposition, with the result that his explanation could not be given.

Propose Cannery For Grand Forks District

"I believe that some steps are being taken toward the erection of a cannery at Grand Forks where such a plant would undoubtedly receive a large quantity of fruit as the district is developing very rapidly," said Hon. Martin Burrell, minister of agriculture, who was at the Strathcona last night on his way to Lethbridge, where he is expected to deliver an address at the opening of the Dry Farming congress next week.

The fruit crop in the Kettle valley was heavy and the quality good, although some difficulties were experienced, as in other districts, in marketing the produce, remarked the minister who has been enjoying a rest in his constituency after a season of strenuous work at Ottawa.

"The whole district is looking very prosperous, building is active in Grand Forks and the Canadian Pacific railway is pushing forward the construction of the new shops. Many men are being employed on the building of the Kettle valley railway.

"I can say with assurance that the city of Grand Forks has a most promising future," declared Mr. Burrell. "My holiday has been a most enjoyable one," he concluded.

During the few hours that the minister was in Nelson, before going on board the Crow boat, he held a private conference with Mayor Annable, Ald. Cunliffe, E. K. Beeston and James Johnstone, members of the board of trade, with regard to the Columbia river navigation project and other matters of importance to this district. Mrs. Burrell is accompanying the minister.

Immigration Shows Substantial Increase

(By Daily News Leased Wire.)

OTTAWA, Oct. 18.—During the six months, April 1 to Oct. 1 of the current fiscal year, 273,649 immigrants arrived in Canada. Of this number 183,990 arrived at ocean ports and 89,659 from the United States. These figures show an increase of 13 per cent as compared with the number of arrivals for the corresponding months of the last fiscal year, which were 158,614 at ocean ports and 83,317 from the states, making a total for the six months, April 1 to Oct. 1, 1911, of 241,931. During the month of September this year, there were 35,077 arrivals, 17,484 arriving at ocean ports and 10,450 from the United States, as against 29,077 for September last year, 17,593 of whom were at ocean ports and 17,484 from the United States.

The immigration to Canada for the last half year is considerably greater than the entire population of Montenegro, the country which a few days ago, declared war against Turkey.

The electoral district of Carleton, Ontario, has according to the census of 1911, a population of 28,406; it will be seen that the immigration during the last six months is more than equivalent to the population of nine such districts.

Supposing that all the immigrants who arrived during the last six months were in line of march one pace apart Indian file the procession would reach from Toronto to Kingston, more than 150 miles.

You men who love outdoors ought to know our caps. There's so many kinds of weather when a hat doesn't belong—and a snug fitting, warm and good looking capis just exactly the thing.

If you have thought that there wasn't any such thing as style to a cap—guess again!

There's style and "*class*" in every Eastern Brand Cap. You certainly ought to see one—and when you see it, and try it on, you'll buy it.

EASTERN BRAND CAPS

Calgary's Prosperity More Pronounced Today Than Ever

Calgary is one of the greatest manufacturing centers of the west today, and when her age is compared with that of other civic centres, together with her population, Calgary is perhaps the greatest manufacturing city. The two western cities that surpass Calgary from a commercial standpoint are Winnipeg and Vancouver. Both these cities have a population of over 150,000. It is certain that when the car shops open in Calgary, and the many firms intending to locate in that city open their plants, Calgary will take the foremost position in the list of manufacturing cities in western Canada.

Buy while prices are low and next year's great developments will directly benefit you. A number of improvements are being put in at the present time which will directly benefit our clients.

SLOCAN BOARD WILL AFFILIATE

Will Join With Associated Boards of Eastern British Columbia—New Members Elected.

(Special to The Daily News.)

NEW DENVER, B. C., Oct. 18.—An adjourned meeting of the Slocan district board of trade was held in the government offices at 10 a. m. Those present were William Hunter, M. P., president, in the chair; Secretary J. W. M. Tinling and T. McNeish, Slocan City; S. J. Towgood, Sandon; J. B. Smith, M. McLean, C. F. Nelson and E. H. Grubbe, New Denver. Routine business was transacted and bylaws prepared for adoption at the afternoon meeting of the whole board. In the afternoon at the open meeting of the board the above members were present, together with J. C. Harris, J. W. Grier, J. E. Angrignon, C. J. Campbell and William Thomlinson. The bylaws were approved, and membership for the ensuing year fixed at $2.50. The following gentlemen were elected as members: Angus McInnes, H. S. Nelson, R. E. Allen, Thomas Avison, Dr. J. E. Brouse, W. Eccles, W. E. Finch, H. Clever, William Thomlinson and A. Jacobson, New Denver; O. V. White, Sandon; S. Y. Brockman, P. Swan, Sol Banks, John Finken, James Rae, H. Pendry, R. Cooper, Howard Parker, Slocan City; W. H. North, A. N. Taylor, G. M. Yuill, R. A. Hilton, F. J. Parsons, A. Peachey, Silverton, and H. N. Nixon, Perry's Siding. It was decided to affiliate with the associated boards of trade of eastern British Columbia at once, and W. T. McClurg of Sandon and W. E. Finch of New Denver were appointed delegates to the fifteenth annual session of the American Mining congress, which is to be held in Spokane November 25 and 26. The members present were urged upon to get in new members as rapidly as possible, in order that the newly formed board of trade may become a power for good in the advancement of the Slocan district generally. After some further discussion on various matters the meeting adjourned till the next quarterly meeting in December.

Mrs. Amos Thompson, who has been spending some time in Victoria, the guest of her son, has returned to town.

J. L. Retallack of Kaslo, O. V. White, Sandon; T. J. Procter, Victoria; A. J. Becker, Zincton; T. L. McAllister, Cody, and W. E. Zwickey, Kaslo, passed through on the up boat today en route to the different properties of which they are managers or directors.

A carload of potatoes arrived for T. H. Hoben on Monday.

MOTHERS NEED CONSTANT STRENGTH

To Care for the Growing Family and Her Household Cares.

When there is a growing family to care for and the mother falls ill, it is a serious matter. Many mothers who are on the go from morning to night, whose work, apparently, is never done, heroically try to disguise their sufferings, and keep an appearance of cheerfulness before their family. Only themselves know how they are distressed by headaches and backaches, dragging down pains and nervous weakness; how their nights are often sleepless, and they arise to a new day's work tired, depressed and unrefreshed. Such mothers should know that these sufferings are usually due to a lack of good nourishing blood. They should know that the thing above all others they need to give them now health and strength is rich, red blood, and that among all medicines there is none can equal Dr. Williams' Pink Pills for their blood-making, health-restoring qualities. Every suffering woman, every woman with a home and family to care for should give these pills a fair trial for then will keep her in health and strength, and make her work easy. Here is strong proof that these Pills do what is claimed for them. Mrs. Henry Thomas, Dryden, Ont., says: "When my second child was born I was so weak and run down that I could scarcely walk across a room. My baby was small and weak also, and cried and worried night and day until I discovered that the child was starving, as my nurse had turned almost to water. My husband got me a supply of Dr. Williams' Pink Pills, and I began taking them. The first beneficial effects were noticed in that my child began to thrive, as my nurse began to improve, and baby slept better and naturally. It was not long until I began to feel the improvement myself, and I daily gained new strength, and baby was growing very rosy and fat. I continued using the Pills while I was nursing him and found myself with all the vigor of good health, and able to easily do my housework, which had been so great a drag on me before. I am now never without Dr. Williams' Pink Pills in the house, and take an occasional dose when I feel tired. I can strongly recommend these Pills to all nursing women, especially if weak or run down."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WANT GREEN AS MINISTER OF MINES

Resolution Is Passed by Central Conservative Association of Revelstoke District.

(Special to The Daily News.)

REVELSTOKE, B. C., Oct. 18.—At one of the largest and most enthusiastic meetings of the organization ever held in this district, the Central Conservative association of Revelstoke district, in session at Arrowhead, passed resolutions urging upon the federal government the need for the creation of a portfolio of mines and the appointment of F. F. Green, M. P. for Kootenay, to the position. Following is the resolution: "Moved, by J. H. Armstrong of Revelstoke, seconded by W. R. Reed of Arrowhead, that, whereas, the mining industry has become the most important in the Dominion, and the said industry has shown a steady growth in the past few years, and whereas the growth and development of the whole mining industry for the Dominion of Canada can be materially aided by a greater attention being paid to the requirements and possibilities of the industry, and whereas the control of matters relating to the mining industry are at present under the control of a minister of another department, and whereas, judging from past experience in British Columbia, the industry would be stimulated were the questions relating to the protection and development of the industry in the hands of a special minister at liberty to devote his whole attention thereto, therefore, be it resolved, that in the opinion of this meeting of delegates from all over the riding, the time has arrived when the economic importance of the mining industry and its safe and proper control demand the creation of a portfolio of minister of mines for the Dominion of Canada. And, be it further resolved, that in the opinion of this meeting there is no more fitting person to fill the position of minister of mines, should such a portfolio be created, than R. F. Green, M. P. for Kootenay, whose former position as minister of mines in the provincial cabinet of British Columbia, as well as his 20 years' residence in this province, and his intimate connection during that time with the mining industry, eminently fits him for the position. And, be it further resolved, that a copy of these resolutions be forwarded to the Right Hon. R. L. Borden, K. C., M. P., and spread upon the minutes of this meeting."

Prominent local Conservatives are working double shifts in preparation for the great provincial Conservative convention to be held here next Thursday and Friday. Arrangements are being made to accommodate 500 guests.

PENTICTON MAY PETITION FOR COMPLETION OF LINE

(Special to The Daily News.)

PENTICTON, B. C., Oct. 18.—At the regular meeting of the Penticton board of trade a letter was read from the secretary of the Nelson board stating that they had discussed the question of the probability of getting the Canadian Pacific railway to undertake the early construction of the Proctor-Kootenay Landing connection.

In view of the fact that it is here understood that in consideration of the Balfour hotel being built the Nelson board of trade had foregone their privilege of urging and practically forcing the immediate construction of this portion of the line for three years, E. W. Mutch was of the opinion that the matter should be taken up with the Dominion government. He considered that the whole southern country was vitally interested in the building of this link in the new southern main line, and that irrespective of any agreement made with the Nelson board of trade by the C. P. R. the immediate construction of the road should be urged by the government. It was finally decided to await developments. Should the president of the C. P. R. not make a favorable announcement on the occasion of his trip through the Kootenay it is probable that the Penticton board will petition the government to take some action in the matter and ask the assistance of all boards of trade in southern British Columbia who may happen to be interested.

SLOCAN PARK PERSONALS.

(Special to The Daily News.)

SLOCAN PARK, Oct. 18.—A. J. Cowin of the Kootenay Slocan Fruit company was in Nelson on business yesterday, and so was Reginald Haigh. His business issued in a contract with an old friend just arrived from Filham, London, England, Miss Matilda Lomas. The young lady through the good offices of Rev. C. W. King, uniting with Mr. Haigh by marriage in all his future personal, domestic ,ranching and other affairs. The bridegroom brings his life partner at once to his ranch, home, which has been furnished and waiting this happy event for some time.

Mr. Haigh has ordered another lot of stumping powder and will finish the clearing operations on his ranch to be ready for ploughing and planting next spring. One hundred and eighty fruit trees, about half in apples, are to be planted.

The Kootenay Slocan Fruit company is clearing land for 1,500 trees, mostly apples, for the spring planting.

William Cribbin is building a large root cellar for his increasing crops. His apple crop was excellent this fall. He has of late done considerable fencing around his place.

Arthur Oldfields is shingling the roof of his new house into which he expects to move in the course of a few days. In connection with this there are rumors of an old fashioned "house warming" party. The house is to be finished with a coat of dark green paint with white facings.

Charles McLean is getting out his potato crop, two tons of which he has sold to Mr. Joy the Nelson grocer. He will also ship to Nelson a carload of cord-wood this fall. The Kootenay Ice & Fuel company are the buyers.

J. C. Hobson is busy blasting and burning his stump land. Charles Brockington is also pushing his work of land clearing. He has raised a fine crop of potatoes.

W. C. Frantz has imported a fine new team of horses. He will do considerable winter logging and cord-wood shipping with this team. He has built a stable and hay shack on his ranch.

Rev. Mr. Stevenson, the new Presbyterian minister, now settled in Slocan City, who is to supply the Gutillins Hill Sunday service here, preached his inaugural sermon last Sunday. There was a large and appreciative audience present to greet the new leader. He was accompanied by his wife, who it is understood, is a musician, and welcomed with delight by not a few in the Park who are students and lovers of the art.

Pastor Stevenson and Ed. Jamieson spent a couple of days this week in the mountains shooting. The date for the game banquet following has not been announced.

FEDERAL BUILDING AT GREENWOOD

Will Cost Thirty Thousand Dollars—Tenders Will Be Called for This Month.

(Special to The Daily News.)

GREENWOOD, B. C., Oct. 18.—Hon. Martin Burrell was in Greenwood for a few hours this week coming over from Grand Forks on a speeder. He states that tenders for the erection of the $30,000 federal building in Greenwood will likely be called for before the end of October.

James Petty has gone to Arizona to take up his permanent residence.

R. C. Hyde is building a block in Prince Rupert. He owns one of the best buildings in Greenwood.

The Greenwood Kink company will hold their annual meeting next Wednesday evening.

Several automobiles have recently been purchased in this city for deliv ery next week.

Mr. Brunton of Anaconda,, Mon tana, has been appointed assistant s perintendent of the Greenwood sme ter.

Wes Connell has the contract t build the skating rink in Phoenix. I will cost $9,000 and will be finished i 60 days.

The Greenwood Odd Fellows wi hold their fourteenth annual ball o October 31.

H. W. Farmer and Major Glasso have dissolved partnership. The bus ness will be continued as usual a Rock Creek by H. W. Farmer.

Charles Beck, a Canadian Pacifi railway brakeman, has had his righ foot amputated at the instep. It wa mashed under a car wheel last Mon day.

TO TRY MAGISTRATE FOR CONSPIRACY IN ELECTION

WINNIPEG, Oct. 18.—W. H. True man, counsel for the defeated candi date in the Macdonald by-election, thi morning entered an application in th court of appeals to bring up Magis trate McMicken for trial for conspir acy to defeat the ends of justice. The case will be heard next Friday morn ing in the court of appeals before th full bench, six days' notice being re quired. Notice together with severa affidavits, was served on the magis trate at the provincial police court.

The above case has arisen over th case of the two personators in th recent by-election, Tom Morris and Robert Stout, who were represented as being nominally fined instead o being fined and imprisoned.

Range Talks by the Housekeeper

No. 2 . Subject - "The Oven"

"ONCE convinced that the appearance of a range appeals to our sense of good taste, we want to know **all there is to know about the Oven**—because the Oven is **the important** range **essential.** If it is not a perfect cooker and baker, outward beauty counts for very little.

"The more you look into the 'Kootenay' Oven the more anxious will you be to own a 'Kootenay.' The oven of this beautiful range is made of nickelled sheet steel -one-eighth of an inch thick. I don't know how to explain this nickelled steel but the main thing to remember is that a 'Kootenay' Oven cannot rust—more than that you can wash it out just like an ordinary kitchen dish, and always have a fresh, clean Oven.

"The reasons for the 'Kootenay's' splendid cooking and baking reputation are very plain—The heat flues are broad and deep — surround the entire Oven so that it bakes and cooks evenly. The ventilation is thorough—a roast retains all its rare and generous juices when cooked in it.

"The construction of the Oven of my range was carefully explained to me—**shown me**—before I bought it. The inner body of the 'Kootenay' is protected with asbestos—the Oven walls cannot burn through—over the Oven-top a cast iron frame or guard holds a sheet of asbestos in place, while the bottom is braced with iron bars.

"The thermometer is a great convenience. Plain figures show the exact degree of heat necessary for baking pies, cakes, bread, etc., or roasting meat. No need to open the door—that only cools off the Oven. The thermometer costs a little more, but I wouldn't be without it. Of course there are other splendid features about the 'Kootenay.' All in all, it's the best range I've ever seen."

KID M'COY, "GENTLEMAN ADVENTURER," III.

(By "Gravy.")

In an Indiana hamlet some thirty-five miles from Indianapolis, on an October day thirty-nine years ago, the postmaster, justice of the peace and dealer in dry goods, hardware, agricultural implements, groceries, drugs and medicines, notions, hats and boots and shoes became the father of a husky boy, and for several days the loungers around the general store smoked on the proud papa. The good cash customers got five-cent cigars, the very best in the case, while, the slow pay, X to Z trade was regaled with three-for-a-nickel Old Carolina cheroots. Papa Selby named the boy Norman, which he considered an excellent monaker for a preacher, as it was already determined that the young hopeful should become a clergyman, another Moody or Beecher or Spurgeon. The boyhood of "Kid" McCoy was little different from that of the average country town youth. He attended the rural school, where he was a brilliant scholar, the facility with which he absorbed knowledge giving him plenty of time for sports and mischief. On winter nights, when the men of the town gathered about the red hot stove and spat tobacco juice thereon, their tongues wagging busily in between expectorations, the proprietor's son, in the intervals of selling Moon plug, read the illustrated weeklies which were the favorite literature of the rural "deestricks." Hoosiers are notably addicted to politics, and as a rule the loungers were conversationally engaged in saving the country, but often the talk turned to the exploits of John L. Sullivan, then in his prime, and to other lights of the pugilistic profession. On such occasions the Kid was an eager listener, and at a tender age he had decided, to the consternation of his deeply religious parents, to become either a pugulist, a baseball player or a billiard sharp. When he was so little that he had to stand on a box to make his shots he was the best man with the cue in the neighborhood, and he also played a heady game of baseball. The ministerial profession had no attractions for him, and he soon came to hate the country community in which he was born. He determined to see the world—and he certainly did so, from every angle.

WINNING HORSES DOPED; SENSATION ON FRENCH TURF

(By Daily News Leased Wire.)

PARIS, Oct. 18.—A sensation in racing circles was caused by the report of Prof. Kauffman to the French Jockey club yesterday wherein three horses which won events were disqualified on account of doping. Prof. Kauffman made an analysis of the saliva of several race horses. In a great majority of the cases he found no traces of stimulants or drugs, five or six cases were doubtful, while in three cases stimulants undoubtedly were administered. The stewards thereupon decided to disqualify three horses, Mobels, Bobno and Rose, and Trainer Tirlo, whose horse won the Coup d'Or at Maissones Lafitte; Michael Lazards of Hallebard, trainer for Shields, who won the Prix Saint Angela at Le Hrembay and Wadworth Rogers of Palo Alto, trainer for W. Flatman, who won the Prix Saint Simon. No decision was made regarding the trainers whose personal responsibility was not proved. It is probable the committee will alter the rules in order to fix the responsibility for future cases.

SHOOT DUCKS FROM AEROPLANE

(By Daily News Leased Wire.)

WASHINGTON, Oct. 18.—Riding an army hydro-aeroplane and carrying automatic guns, Lincoln Beachy, the aviator, and Lieutenant L. H. Brereton, U. S. A., went duck hunting on the marshes of the Potomac, below Washington, yesterday. Time and again the hunters swooped down on the marshes, banged away with their guns and then skimmed the surface of the water to bag the game. They returned to the army station at Washington barracks before dusk with their bag well filled.

NEW YORK CLUB ADOPTS ENGLISH METHOD

(By Daily News Leased Wire.)

NEW YORK, Oct. 18.—The English method of refereeing boxing bouts was inaugurated at the Forty-fourth Street Sporting club, which staged its first fights tonight. Young Corbett, the former lightweight champion, who was the referee, directed the boxers from a seat outside the ring. The plan appeared to work well for a first attempt as all the boxers obeyed their referee's commands to break from the clinches on the word.

The main bout was scheduled between Freddie Hicks of Detroit and Leo Houck of Philadelphia, but the former did not appear and the match was declared off. Young Brown of this city had a good lead on Ketchell of Bridgeport at the end of their 10-round match. Brown weighed 133 pounds and Ketchell two pounds less.

WILL PLAY FOR ARGONAUTS

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—Ross Binkley and Jimmie Dissetta both turned out with the Argonauts last night, and will be in uniform of the oarsmen in Saturday's game at Rosedale against Montreal.

CHAMPIONS SMOTHERED IN FINAL FOR CHAMPIONSHIP

(By Daily News Leased Wire.)

CHICAGO, Oct. 18.—Chicago's National league team was smothered in the final game for the city championship series, Comiskey's American league players winning, 16-0. The Sox won the series by tieing the first two games, losing the next three and then winning four in a row.

Today's slaughter so disgusted Manager Frank Chance that after the fifth inning he went to the club house with four pitchers who had been knocked out of the box and four substitutes, donned his street clothes and went home. The score:

	R.	H.	E.
Nationals	0	5	4
Americans	16	17	0

Batteries—Lavender, Smith, Reulbach, Leifield and Toney and Archer; Walsh and Schalk.

ISMAY'S CRAGANOUR WINS MIDDLE PARK PLATE

(By Daily News Leased Wire.)

NEWMARKET, Eng., Oct. 18.—The Middle Park plate £1,000 for two year olds over five furlongs, was won today by the favorite, C. Bower Ismay's Craganour, by Desmond-Veneration, who started at 11 to 8. Shogun, 100 to 15 was second and Louvois, 10 to 1, third.

VARSITY ON TOP; FINALS IN DOUBLES YET TO PLAY

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—With the exception of the finals in the doubles, the Inter-Collegiate Tennis tournament ended today with Varsity on top by one point. The contest has been the closest for several years owing to Varsity and McGill being so evenly matched. Owing, of Varsity, and Mills, of Varsity, were the stars, although Dashwood was also prominent.

The annual meeting of the association was held after the games and it was decided to hold next year's tournament at McGill.

SWEDISH ATLETE BEATS JAVELIN THROWING RECORD

(By Daily News Leased Wire.)

STOCKHOLM, Oct. 18.—A new world's record for throwing the javelin has been established by the famous Swedish athlete, Eric Lomming. He hurled it 62.71 metres, beating the previous record of 61 metres, held by the Finn, J. Saaristo. Lemming won the javelin throw at the Athens, London and Stockholm Olympic games.

PROVINCE WILL REGULATE RATES

Dominion Government Will Have No Control Over Canadian Northern Rates in Province.

(Special to The Daily News.)

VANCOUVER, B. C., Oct. 18.—W. A. Macdonald who represented British Columbia before the board of railway commissioners in connection with the freight rates question is back from Ottawa. He states that various representatives of the railway companies interested were examined regarding statements and exhibits filed before the commission. Adjournment was then taken till November 5 on which date the governments and municipalities interested are to have filed their statements in reply to the evidence put in by the railways. Mr. Macdonald says that D. B. Hanna, one of the vice presidents of the Canadian Northern, replying under cross-examination, said that the rates of that company in British Columbia would be solely under the control of the provincial government and that the Dominion authorities would have no jurisdiction over them. The rates of the Canadian Northern in British Columbia, he said, would be solely governed by local conditions and competition.

METHODIST FIELD OFFICER NOW ON WAY TO WEST

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—Rev. James Endicott, D. D., field officer of the Methodist Mission society, will take up his work forthwith. Dr. Endicott is now on his way west and while there will take part in several missionary campaigns speaking at centres such as Winnipeg, Saskatoon and Calgary.

SCHOOL FOR FOREIGNERS.

(By Daily News Leased Wire.)

EDMONTON, Oct. 18.—Hon. J. Boyle, minister of education, has just returned from Vegreville, where he made arrangements for establishing an English school for foreigners, he having secured the lease from Robert J. Link, of a building which will be suitable for temporarily housing the school

EIGHTY THOUSAND DOLLARS FOR BEEF STEERS

(By Daily News Leased Wire.)

CALGARY, Oct. 18.—Eighty thousand dollars for 800 head of Alberta beef steers is the price which George Lane, who has just returned from Chicago, received for topping the market. Mr. Lane will make several large shipments of cattle to Chicago this fall and estimates that the total amount of duty he will pay the United States government will be $50,000.

$3.50 Recipe Free for Weak Men

Send Name and Address Today—You Can Have it Free and be Strong and Vigorous

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains, or the follies of youth that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest-acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what I believe is the quickest-acting restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: Dr. A. E. Robinson, 4659 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge $3.00 to $5.00 for merely writing out a prescription like this—but I send it entirely free.

CHILDREN NEED NOT USE MOP NOW

(Continued from page one.)

terviewed me when I was engaged admitted that they knew nothing of domestic science—that being so, how can they denounce my work, I would like to ask?" said Miss Pettit.

Dr. Jones—Don't say "they."

Dr. Arthur and Dr. Jones agreed that Miss Pettit had gone ahead independently without any instructions to the contrary from the board. Mr. Emory was much of the same opinion. It seemed that the members of the board had left the department to Miss Pettit a little more than they should have done and in that way were responsible.

Miss Pettit—I think so, too. I wanted it all settled in June, as you all remember, but I was asked not to bring it up.

Dr. Jones and Mr. Irvine denied that they had ever requested her not to bring the matter before the board. The latter thought that in Miss Pettit the board had a teacher who would carry out the work if it were mapped out by the board.

Miss Pettit—My position was a difficult one. I came to British Columbia to accept a position in domestic science and found equipment only for domestic arts.

Criticizes Tables.

Returning to the question of teaching the little ones some of the more elementary household art work, such as sewing, Dr. Jones asked Miss Pettit if the children could do the work in their own classes under their teachers, and Miss Pettit's supervision, and received an affirmative reply.

Miss Pettit declared that she had never been satisfied with the tables in the domestic science room. In the first place they were warped, in the second the drawers at the back were not covered and in the third place the legs were very clumsy; the workmanship was not good.

Dr. Jones—They cost plenty.

"That the domestic science classes be under the control of the school board and that the teacher be placed in the same relation to principals as the manual training teacher" was a resolution moved by Mr. Irvine and seconded by Dr. Arthur and passed. It was explained that both departments properly came only under the jurisdiction of the principals of the high and public schools as regards the arrangements for the times of the classes.

Mr. Irvine and Dr. Arthur displayed a difference of opinion when action regarding the laundry work and floor mopping was discussed. The former moved that the laundry work be done outside, the secretary wanting to know "what are you going to do about the floors; are you going to send that to the steam laundry, too?"

Did He Wink Again?

Dr. Arthur's too flexible eyelid came into play at this stage of the meeting and drew from Mr. Irvine the remark: "She didn't see you wink that time, doctor."

Dr. Arthur—I'm not aware that I winked. Probably that eye was practicing a little.

Returning to the discussion, Mr. Irvine averred that the board had been losing valuable time with the domestic science class, a view in which Dr. Jones agreed. Dr. Arthur could not see where much time had been lost. "A year and a half," declared Mr. Irvine, Dr. Arthur denying that any such time had been squandered. There was another conflict of opinion when Dr. Arthur declared that the children should wash their own uniforms at the school. Mr. Irvine replied that the board might as well turn the school into a laundry and put up a sign.

Dr. Jones appeared amused at the argument. "It's my turn now," she remarked.

Dr. Arthur—I hope you enjoy it.

Mr. Irvine said that his object was to save time. It was all right to give the uniforms to the children to keep clean, but the work should be done out of class hours. It occupied half the time, apparently, to keep the aprons washed.

Mr. Irvine then moved that the laundry work be done outside the classes. Mr. Emory thought part of the work should be done at the school, and Dr. Arthur said that he could not get away from the opinion that the children should keep their own uniforms clean.

Dr. Jones, referring to a statement by Mr. Irvine that he would favor giving the children their first uniform and making them buy others, remarked that the board was putting all the expense on the people, who were not very anxious for it. It seemed that the board had to give uniforms to entice the children into the class.

Mr. Irvine wanted to avoid all laundry and janitor work as far as the pupils were concerned. Dr. Arthur continued to argue with Mr. Irvine regarding the laundry and janitor work and brought forth from the chairman the question, "What do you mean, doctor?"

Mr. Irvine—He's got another person up his sleeve he wants to give a job to.

He then moved that the floors be mopped and the aprons, etc., washed except four times a year by outside persons. Mr. Emory thought the present janitor should be able to do his part of the work. Dr. Arthur prepared a motion which read that the pupils were to wash their uniforms three times a year and that the rest of the washing was to be done by a woman.

Dr. Jones—Who's the woman?

The motion was changed to conclude, "by contract."

Mr. Irvine—That covers it. I don't know who she is, doctor, but I can't help it.

A motion was passed instructing the janitor to light the fires when Miss Pettit required them.

Refused to Draft Curriculum.

"I refuse to draft a curriculum. I made one and it has been publicly denounced," declared Miss Pettit when Mr. Irvine suggested that she should prepare a curriculum for the consideration of the board.

Dr. Jones remarked that the board was in charge of the school and as such was the supreme authority, and Mr. Irvine suggested that there were no places which could not be filled.

Miss Pettit—Before denouncing the curriculum you should have known what you were denouncing.

Mr. Irvine made a motion that Miss Pettit should draft a curriculum.

Dr. Jones—What is the curriculum?

Miss Pettit—You'll have to ask the board.

Dr. Arthur—She has already drafted one. How would it do to ask her to submit a copy of the course of work mapped out?

Dr. Jones—They are all just starting—just as if they were in the second reader.

Mr. Irvine—That's agreeable to me.

Miss Pettit—That seems to me to be the board's duty.

Dr. Jones—If they don't know about carbo-hydrates and fats how can they make a curriculum.

Mr. Irvine Winks This Time.

Miss Pettit—Well, they publicly denounce my curriculum.

About this stage in the proceedings, when Dr. Arthur put his idea into the form of a motion, one of Mr. Irvine's eyes moved slightly, a delicate wink passed in the direction of Dr. Jones, who seconded the secretary's motion, which passed.

Miss Pettit declared, when Dr. Jones reintroduced the question of teaching household art to children under 10 years, that she would do no additional work until she got more salary.

Dr. Jones remarked that Miss Pettit had made the mistake of accepting a salary that was too low. "The salary was specified at the time," said Dr. Arthur.

Miss Pettit—It was not specified that I was to teach household art. I wasted six months teaching household art. That was time lost to me that you can never make up. I will not teach the boys, as it is not my work to teach sewing.

This was a small city, explained Dr. Jones, and an ambidexterous person who could teach domestic science with one hand and household art with another was needed.

"You'd Better Resign."

Mr. Irvine, to Miss Pettit—It seems to me that you are dissatisfied.

Miss Pettit—I have been.

Mr. Irvine—Then you'd better resign.

Miss Pettit—Why not have the matter straightened out?

Mr. Irvine—We can get lots of other teachers.

Dr. Arthur—Not so many.

Mr. Irvine thought that it was not very nice for Miss Pettit to say to the board that she would not do the work suggested without an increase in salary.

To Dr. Jones, Miss Pettit said that she would be glad to do as the trustees suggested with regard to the children under 10, allowing their own teachers to supervise the work in the different rooms. Dr. Arthur remarked that kindergarten work was not recognized by the department in this province.

Young Woman's Club Petitions.

Mr. Irvine, W. J. Labadie and the secretary were appointed a committee, with power to act, with reference to a petition from the Young Woman's club for the use of the assembly hall two nights a week for physical culture training and of the domestic science room for one night a week for a class in that subject. The club suggested that it might arrange with the city regarding the electricity used. Miss Pettit's suggestion that night classes should be opened was also referred to this committee. Miss Pettit explained that her idea was that the classes should be conducted as in the east, the board supplying the teacher and collecting the fees. She presented a scale of charges, which discriminated in favor of the Young Woman's club. She admitted to the chairman that such discrimination might meet with objection. The teacher would be paid extra by the board for the night work.

Dr. Jones—I certainly think that the classes should be under the control of the school board.

Mr. Irvine, with regard to the use of the assembly hall, remarked that there were other places in the city which the club could secure for the purpose.

Dr. Jones voted against the motion to appoint a committee with full power to act.

RECIPROCITY DEAD AS QUEEN ANNE

Walter Hume Long Speaks of Tour of Canada—Canadians Proud People.

(By Daily News Leased Wire.)

LONDON, Oct. 18.—Right Hon. Walter Hume Long arrived in Liverpool last night and was met by a number of reporters desirous of gathering his views on his Canadian tour.

"My greatest surprise during my whole visit," said Mr. Long, "was the great concern shown with regard to the navy and the desire that Canada should be a partner in the imperial defence. The shopkeeper and the man in the street are just as keen as the men at the head of the great business undertakings. Everywhere you met the same imperial instinct. Whatever may have been the attitude of the Dominion in its young days, Canada not only claims her share in our fleets but means to help pay for them.

"The Canadians are a proud people. They resent any suggestion of meanness or niggardliness on their part in assisting to keep up the navy. Any politician who suggested such a thing would stand a poor chance of representing the people in the Dominion parliament."

"What about free trade in the Dominion?" he was asked. Mr. Long replied: "All I can say is that I could not find such a party anywhere in Canada. There is a certain amount of feeling in favor of a reduction of the tariffs but as for free trade it is a figment of the imagination."

"Does Canada advance any specific plan of preference?" "Canada has been aiming at this for years, the next move is with us. There are people in the Dominion who cannot comprehend why we are so slow in making it. She is ready to treat with any reasonable scheme of preference."

"Is there any danger of any other power taking advantage of what Canada has to offer?" "Canada makes her offer to us as part of the imperial plan, but there is the danger that she may become a little weary of her long deferred wait. At the same time, the feeling of Canadians toward the old home land is more than skin deep—it is a profound and enduring passion, almost a religion. It stirred our blood to hear them talk as to the idea of a preference with the United States. It is dead as Queen Anne and buried without honor."

HUNDREDS KILLED IN TYPHOON

Philippines Swept by Disastrous Storm—Ships Wrecked, Crews Drowned and Houses Levelled.

(By Daily News Leased Wire.)

MANILA, Oct. 18.—The typhoon which swept several islands of the Philippine group on October 16 caused many deaths and heavy damage to property. A telegram received here by the military authorities estimates that 400 persons were killed and damage amounting to $5,000,000 was done by the storm. The typhoon was of hurricane force and levelled thousands of the houses, vessels were swept ashore and sunk and their crews drowned. Many Americans and Filipinos are homeless. Warwick barracks was entirely destroyed and the military hospital stores damaged. In addition to the many vessels lost near Cebu, several also were sunk in the harbor. The lighthouse there was badly damaged. It is feared that in addition to the loss of life and the wrecking of property that severe damage was done to the sugar, rice and hemp crops.

LETHBRIDGE CROWDED WITH DRY FARMING VISITORS

(By Daily News Leased Wire.)

LETHBRIDGE, Alta., Oct. 18.—Dry Farming congress visitors are pouring into the city in hundreds and are having no difficulty in finding accomodation, so well has the entertainment committee done its work. Men and women today are busy getting the various exhibits in shape preparatory to the grand official opening on Monday.

The new buildings at the fair grounds are nearing completion and the exhibits from the Canadian government and the city of Cranbrook will not be in place before tomorrow evening. Alberta is there, likewise Saskatchewan, her sister province; so is British Columbia and so is Manitoba. That is not all, for the states across the line have felt that they could not afford to let Canada steal the congress and exposition both for this year, so Washington is on hand, backed up by Oklahoma and Oregon, California, Idaho, Arizona, Utah and Colorado, with some individual exhibits from several of the other states. They are all making the best possible showing.

TWO WINNIPEG WIVES WILL APPLY FOR DIVORCE

OTTAWA, Oct. 18.—Notice has been received that Mary Kitson of Winnipeg will apply to parliament this session for a divorce from her husband, Charles Antoine Kitson, of London, England. Another Winnipeg woman, Mae Lillian Rugh, who now lives in Montreal, will apply for a divorce from her husband, Herbert Bell Rugh, architect, Winnipeg.

BRITISH AMBASSADOR RETURNS TO WASHINGTON

WASHINGTON, Oct. 18.—British Ambassador Bryce returned to Washington tonight after an absence of six months. The ambassador and Mrs. Bryce left last April on a trip to Australia, New Zealand and New South Wales and other British possessions. They returned to the United States on Sept. 14 and since then have been stopping at their summer home in Kineo, Me., and visiting friends.

It is expected that one of the first matters to occupy the attention of Mr. Bryce will be the protest of his government against the action of the United States in relieving its own shipping from Panama canal tolls. It was announced some time ago that a further representation of this subject would be submitted soon.

Would you, busy man, know real refreshment? Then treat yourself to a Gillette shave when you dress for the evening.

What a welcome break it makes between the hustling, bustling day and the evening's social enjoyment! How the cool, clean Gillette shave transforms the face of the wearied worker into that of the fresh, well-groomed man of pleasure!

Yes, **you have plenty of time,** for it won't take you five minutes. With the Gillette Safety Razor there's no preliminary honing or stropping—no gingerly fussing around for fear of a cut. You simply lather up and SHAVE, without loss of time or temper.

If you would always look your best, however urgent the demands on your time may be, **you really need the Gillette Safety Razor.** Ask your Druggist, Jeweler or Hardware Dealer to show you the different styles of Gillette Sets—as handsome as they are efficient.

Standard Sets $5.00—Pocket Editions $5.00 to $6.00—Combination Sets $6.50 up. 407

SATURDAY, OCTOBER 19

NELSON—A MEMORY TO HONOR.

As long as history is read and the British Empire remains, October 21 will be observed as an anniversary of first importance. It was on October 21st, 1806, 106 years ago Monday, that Nelson, England's greatest naval hero, met at Trafalgar and defeated, crowning his success with his life, the combined fleets of France and Spain, joined together by Napoleon to assist him in the most cherished project of his life, a descent upon the English shores and the subjugation of the people of the tight little island, who, alone of European civilization, had been able to block his way to a continental dictatorship. It was English men and English money which kept the fight going against his dominance when others were ready to quit and in many cases had quit.

Napoleon's resentment toward the English may easily be imagined. Had he been able to land in England the force which in the year of Trafalgar he had assembled on the shores of France near Boulougne and had that force been able to accomplish its purpose, subsequent history would have been very different and Napoleon would have died happy, no matter under what circumstances or surroundings.

To the success of this descent upon the shores of the country which he hated above all others, the support of a strong fleet was necessary. This he had gathered together and all that was necessary was its juncture with the army and the transport service, and an immense armed flotilla, all of which had been assembled at Boulogne. There was only one thing that threatened the success of his plans and that was the fact that Nelson, with England's walls of oak, was on the watch. Napoleon's problem was to get this fleet out of the way, and his naval transport and land forces in operation together, *even if only for a few days.* With this end in view, Nelson was decoyed across the Atlantic, but, learning that the French and Spaniards had escaped him and were on their way back to Europe, he followed them back, coming up with them at Cadiz.

Of how Nelson enticed the enemy out of there and induced them to give battle by separating part of his fleet from the main body in order that Villeneuve might be given confidence because of superiority of numbers, of how he met a noble death and of the result of his last fight, it is not necessary to speak here. They are matters of history with which every Britisher must be familiar, in which every Britisher must glory, and of which no man of any other nation, at all familiar with the world's history, can fail to be conversant.

As a result of Nelson's victory, England was saved from the ravishing hands of her bitterest enemy. It is, therefore, but meet and right that Britishers of today and Britishers of the years to come, should honor his name and should, on the anniversary of his death, pay tribute, however inadequate, to his memory and his services, as Britishers have done for the past hundred odd years.

A BARGAIN

55 ACRES of first class land, situated on Government Wagon Road, one hours ride from Nelson, close to School and Post Office.

10 acres of the above is cultivated, in clover and partly planted to commercial winter apples, all fenced, abundance of running water for all purposes, new frame shack 20x24.

The 10 acres alone will produce 60 tons of potatoes.

This fine property which we consider the best buy in the district is offered for the first time at the very low figure of $65 per acre. Terms to suit you.

Be advised in time and lay the foundation for your future independence. The above property purchased now will make you independent of landlords for all time to come.

Ask us to show you this property. It will be a pleasure to do so.

419 Baker Street, Nelson, B. C.

MR. MONK'S RUMORED RESIGNATION.

It appears from despatches that, on the eve of the anniversary of Nelson's victory and death at Trafalgar, the Borden government is face to face with a crisis on the navy question. Hon. F .D. Monk, report says, either has resigned, or will resign, because he does not approve of his leader's policy on the naval question.

In the absence of any announcement of the government's intentions in the matter and of any confirmation of the rumors of Mr. Monk's resignation, it is manifestly impossible to intelligently discuss either. This, however, can be said, that if Mr. Monk cannot follow his leader on the naval question his duty is to resign. As an honorable man no other course is open to him.

Why he or any other Canadian should object to Canadian contribution to the navy that protects the shores and the commerce of this Dominion is hard to understand. The country looks to Mr. Borden for a strong and a definite policy on this question. It may be, however, that it is only to the terms and conditions, or to the extent of that contribution to which Mr. Monk objects. In that case his resignation, if it is presented, will require some explaining.

But whatever course Mr. Monk may pursue in furtherance of any views he may hold on the naval question, Mr. Borden owes it to himself and the country to present his policy as decided upon, uninfluenced thereby. And that that policy will be worthy of Canada and Canadians must be the wish of every self-respecting resident of the Dominion.

What the Press Is Saying

Small But Potent.

An analysis of the human body shows that it contains 0,1476 per cent sulphur. From the language some men emit when they are mad the percentage of brimstone seems absurdly small.—Vancouver Province.

Others Also Suffer from Over-Crop.

British Columbia peach growers were not the only ones who experienced difficulty in marketing their crops this year. In the Niagara district of Ontario, conditions were very little better. So abundant was the supply of peaches in the east that a considerable part of the yield went unmarketed because of scarcity of baskets and of pickers.—Calgary Herald.

And If She Doesn't They'll Be Cross.

One thousand Maltese laborers will be sent to British Columbia—if, when they come to the boundary line, Canada lets the Maltese cross.—Ottawa Journal.

Going Was Bad.

After the disaster in Macdonald one can quite understand the charges made by the Liberals that the Conservatives have been fixing the grades. —Moose Jaw News.

It's to Be Hoped She Profits.

Miss Wylie says that she finds all the Montreal women in favor of equal suffrage, but most of them opposed to militant methods. This missionary has something to learn from Montreal women.—Vancouver News-Advertiser.

Cold Storage

He—"What do you consider the best way to propose?"

She—"Promptly."—Boston Transcript.

"Two negatives are equal to an affirmative."

"Not if they are the girl's and her father's."—Baltimore American.

Feudist—"Yip! I reckon I got old man Peevy this morning for fair."

His Son—"Did ye shoot him, pop?"

Feudist—"Course not. Better'n that. I got him on my note."—Puck.

"Have you noticed the astonishingly mussy way in which Mrs. Delaney Brown dresses her hair?"

"Mussy! Why, that's the Marie Antoinette."

"Is it? No wonder they cut off her head."—Cleveland Plain Dealer.

Little Hoosier (to little Boston boy who is visiting him)—"D'yuh like movin' picher shows?"

Little Boston Boy—"If you mean photographic illustrations of animated nature displayed on a screen, why, I have witnessed them with some satisfaction."—Judge.

"You don't go into the tariff question very deeply."

"No," replied Senator Sorghum; neither do I go into a logical discussion of public questions. I rely on plain oratory. You can't undertake to appeal to a man's emotions, his reason, and his pocketbook all at the same time."—Washington Star.

"So you want to marry my daughter?"

"Yes, sir."

"Got any money savedup?"

"Yes, sir."

"Could you let me have $5,000 on my unsecured note?"

"I could, but I wouldn't."

"I guess you can take care of her all right. She's yours, my boy, and here's a five-cent cigar."—Washington Herald.

This Date in History.

The first aerial performer to attempt to walk from the main to the mizen mast of a steamship in motion was Blondin, the celebrated tight-rope walker, who successfully performed that difficult and dangerous feat 37 years ago today. The ship was the Poonah, bound from Adon to Point de Galle, and running at the speed of 12 knots an hour. A strong cable was stretched from mast to mast and tightened by guy lines, but sagged considerably in the middle. The constant vibrations of the engines and the roll of the vessel in a heavy sea, as well as the blowing of a stiff wind, added to the difficulties of the project. Blondin made the first trip with apparent ease, but on the return an unexpectedly heavy swell caused the ship to roll in an alarming manner. Blondin swayed from side to side, while the onlookers held their breath in horror. Yet he kept his nerve, waited till the rollers had passed, and completed his journey in safety.

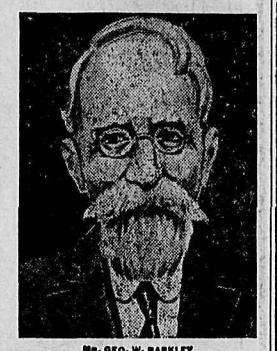
DOCTORS COULD NOT HELP MY KIDNEYS

"Fruit-a-tives" Cured Me



MR. GEO. W. BARKLEY

CHESTERVILLE, ONT., JAN. 25th, 1911

"For over twenty years, I have been troubled with Kidney Disease and the doctors told me they could do me no good. They said my case was incurable and I would suffer all my life. I doctored with different medical men and tried many advertised remedies, but there was none that suited my case. Nearly a year ago, I tried "Fruit-a-tives". I have been using them nearly all the time since, and am glad to say that I am cured. I have no trouble now with my Kidneys and I give "Fruit-a-tives" the credit of doing what the doctors said was impossible. I am seventy-six years old and am in first class health."

GEO. W. BARKLEY.

The Weather

(By Daily News Leased Wire.)

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—The disturbance which developed yesterday over the western provinces has moved westward and is centred tonight to the northward of Lake Superior. Rain is falling tonight over western Ontario, but the weather today has been for the most part fair and warm from the great lakes to the maritime provinces. In the west it has been cool with local showers.

ANOTHER BANK IN FIRST PLACE

Canadian Bank of Commerce Deposits and Assets Greater Than Bank of Montreal.

(By Daily News Leased Wire.)

OTTAWA, Oct. 18.—The monthly bank statement showing the condition of Canadian chartered banks on September 30, issued today, contains two unusual features. The Bank of Montreal drops from first place as regards total deposits and total assets and the Canadian Bank of Commerce takes first place in these particulars. Call and short loans elsewhere than Canada show a great increase over a year ago and a deacrease of over two millions over the last monthly statement. The total *deposits of the Bank of Montreal* on Sept. 30, as shown by the statement, were $183,423,686; total deposits of the Bank of Commerce $188,572,345. Total assets of the Bank of Montreal, $209,134,429; of the Bank of Commerce, $211,025,397. The total liabilities of the Bank of Montreal were $202,341,401; of the Bank of Commerce, $211,887,702. On Sept. 30 the eleven Canadian banks making call and short loans outside of Canada had such loans outstanding to the amount of $112,767,036, which was 19 1-4 millions more than they had loaned a year ago. The principal figures for the month are:

Demand deposits, $374,368,917; notice deposits, $640,536,652; call and short loans in Canada, $75,205,261; call and short loans elsewhere, $112,767,036: current loans in Canada, $59,341,193; current loans elsewhere, $39,440,472.

MONEY PACKAGE MISSING DUMMY WAS REGISTERED

(By Daily News Leased Wire.)

HAVANA, Oct. 18.—Francisco Mayos, who had charge of the vaults of the National Bank of Cuba was arrested yesterday in connection with the inquiry into the disappearance of a package containing $200,000. This package was supposed to have been sent on Sept. 27 by registered mail to the National Park bank of New York. Mayos was arrested on evidence of the secret police that he was implicated with the bank messenger, Antonio Ayala, also under arrest, and a woman clerk in the vault department who is yet at liberty. The police charge that they substituted for the package containing the money a similar package containing valueless papers addressed to the bank in New York which they registered in the Havana postoffice.

YOUNG GERMAN NOBLEMAN CHARGED WITH SWINDLING

(By Daily News Leased Wire.)

PARIS, Oct. 18.—Baron Clement von Radowitz, the young German nobleman who is charged with swindling Paris tradesmen of over $100,000 was released on $3,000 bail yesterday. It is the general impression that he is the victim of money lenders, who knowing him to be of a wealthy family, took advantage of his prodigality.

CHURCHILL'S VISIT MAY BE POSTPONED

(By Daily News Leased Wire.)

OTTAWA, Oct. 18.—There is good reason to believe that the much talked of visit of the Right Hon. Winston Churchill, first lord of the admiralty, has been abandoned. In view of the present European situation it is improbable that he come. While Premier Borden was in London it was suggested that Mr. Churchill should cross the Atlantic in a warship, to be present during the coming parliamentary debate on the question of naval aid.

CAMPAIGN AGAINST SOCIALISTS

(By Daily News Leased Wire.)

ROME, Oct. 18.—A campaign against Socialists in the army is engaging the attention of the cabinet. The minister of the interior has issued a circular to the commander of each regiment with instructions to watch every soldier who receives any money from a labor union and to notice the character of the journals read by the men.

SERIOUS CHARGE AGAINST MOTHER

(By Daily News Leased Wire.)

MOOSE JAW, Oct. 18.—On the charge of living on the avails of prostitution of her 11 year old daughter, Mrs. E. Hebert was today committed for trial. Her hearing comes up tomorrow. The evidence is particularly nauseating.

FIFTEEN MONTHS FOR CRIME PUNISHABLE WITH DEATH

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—Justice Kelly passed sentence this morning on the eight respectably connected youths who pleaded guilty to indecent assault on Lena Holmes, aged 18. The assault occurred last summer on the mountain. Justice Kelly sentenced each prisoner to 15 months in the central prison with 15 lashes. In passing sentence he said: "The charges upon which you were indicted by the grand jury is punishable by death or life imprisonment. The crown prosecutor thought fit to accept your plea of guilty to a minor but nevertheless, serious offense. The laws of this country are made to punish those who break them, to warn the public about breaking them. It is the duty of the court to protect the public."

Some of the boys, who ranged from 14 to 18 years old, wept bitterly.

SAYS PLATINUM EASILY TREATED

Problem Not Difficult One and Has Been Solved, Declares R. J. Elliott —May Build Plant.

"I went east laboring under the delusion that the problem of treating platinum ores was a difficult one, but my visit, during which I conferred with the leading metallurgists interested in the industry, has convinced me not only that treatment is comparatively easy but also that the problem has been solved," declared R. J. Elliott, who has returned to the city from a two months' visit to New York, Philadelphia, Toronto and other points where platinum is treated, refined and marketed. With a number of associates he is the owner of a number of claims in the Rover creek district.

"I went east with the one object of discovering what I could regarding the treatment of the platinum ores and, although not in a position just at this time to go into details, I may say that the results of my trip are particularly satisfactory.

"With regard to the treatment of the ore I can announce that two companies are so confident that they can erect a mill that will achieve the desired object that they have gone as far as to offer to install the necessary plant with the promise that if they do not treat the ore successfully it will cost us nothing. Each of these companies has a different process.

"The high specific gravity of platinum and the kindred metals, palladium and iridium, make their treatment much less difficult than is believed in Nelson," declared Mr. Elliott.

"We have not yet arrived at any definite decision as to our future plans, but there is the probability that we shall proceed to erect a small plant to treat the platinum ores with a view to demonstrating that we have a commercial proposition.

"At one of the plants which I visited, that of the Bremen Reduction company of New York, they are treating sand from the sand hills of the New England states and are not only saving the gold values, which run from $3 to $4 per ton, but are also securing the platinum values, which do not run very high, at no extra expense whatever. And this is not in any way a placer proposition. The sand is dry and is treated just as if it were rock with the exception that crushing is practically obviated. The process is a chemical one.

"I learned that ore from a platinum district in Arizona was being treated by Mr. Bates in that state by the Australian oil process.

"While in the east I visited Thomas A. Edison's metallurgical department at Orange, N. J., where some of our ore was tested with satisfactory results. I also visited the White Dental company at Prince Bay, N. Y., Ricketts & Banks of New York and Baker & Co. of New York. The White Dental people and Baker & Co. are the so-called platinum trust of America. I visited numerous smelters and refineries. At Toronto I was shown over the Island Reduction company's plant where platinum values are being saved from the Sudbury nickel ores. I paid a visit to Sudbury and saw the mines.

"In every place that I went I was royally treated and the leading metallurgists that I met not only showed the greatest interest in the platinum discoveries in the Nelson district, but gave me every opportunity to learn all that was possible of the industry and the methods of treating the ore and refining platinum. There is no question but that there is a very lively interest in the industry; this is due very largely to the high price of the metal, experts in the east predicting that it will reach $50 per ounce by the end of the year."

MINING ACTIVE ON TEN MILE CREEK

Operations Resumed on Enterprise—Good Ore at Westmont—Bird Claim Looks Promising.

Mining operations on Ten Mile creek in the Slocan district are becoming active, according to H. Beckett, manager of the Bird property, who was at the Hume last night. Work has been resumed, he stated, on the Enterprise, which is under lease to S. S. Fowler. At this property, he said, three cars of ore were in sight and were being taken out in readiness for shipment to the smelter. Good ore is also being mined at the Westmont group, he stated.

At the Bird claim Mr. Beckett has just finished the erection of a blacksmith's shop and other mine buildings and last week commenced work on the drift, which was in 75 feet when the former owners of the property stopped work. Already a new stringer has been struck and the property looks very promising, he said. Values run between 40 and 50 per cent lead and about 60 ounces in silver.

MAKES IMPORTANT STRIKES ON QUEEN

Big Ore Body is Found in Number Five Level—Get Ore in West Drift, Too.

On the No. 5 level of the Queen mine at Salmo ore has been struck which in values and extent is very similar to the 14-foot ore body opened up in No. 4 tunnel, said W. B. Pool, manager of the Nugget mine, last night at the Hume. He has just returned from a visit to the Nugget during which he was shown over the Queen by E. V. Buckley, manager.

"This strike demonstrates beyond all doubt that the ore body continues and is, in fact, getting better at the greater depth of 125 feet," he declared, "and is one of the best things that ever happened to Sheep creek."

"On the No. 4 level the big ore shoot been proved for a distance of 300 feet," said Mr. Pool, "and is so situated that two drills on two shifts are getting 60 tons of ore per day for the mill.

Another very important discovery made by Mr. Buckley, to whom much credit is due for the success which has attended his development of the mine is that ore has been struck in the west drift of the No. 4 level, as it has always been believed that the ore did not run very far westward. It has now been proved, by the strike in the west drift, that the ore body runs westward as well as to the east.

"No. 5 level gives a depth of about 700 feet, 400 feet below the creek level."

Mr. Pool announced that while at the Nugget he made preparations for development of that property during the winter. It is proposed to run a No. 5 tunnel which will give a depth of 700 feet. The work will be done by contract.

HEAVY FINES FOR SUPPLYING LIQUOR TO MINORS

(Special to The Daily News.)

ROSSLAND, Oct. 18.—The cases against A J. Holmes and his two bartenders, Ingrarson and Bostock adjourned from Wednesday for selling liquor to minors came up this morning before Police Magistrate Plewman. Ingrarson was fined $50 or two months in gaol. Bostock was also fined $50 or two months in gaol. Messrs. Green and Smith, the proprietors of the Hoffman house, although having nothing to do with the case on hand further than renting the Hoffman house to Mr. Holmes, were fined $100. A. J. Holmes was fined on three charges, $100 for each, making in all $300 or nine months in jail. The police magistrate gave Mr. Holmes a lengthy lecture on the seriousness of supplying minors with liquor and also told him that he had brought Messrs. Green and Smith men who were innocent of any wrongdoing in this case, into it and had their license endorsed. All the fines were paid. E. S. H. Winn represented the prosecution and C. F. E. Pincott defended Messrs. Green and Smith.

Mr. Oddy of Betts & Oddy of Trail, was in town today.

L. H. Mosher left on tonight's Canadian Pacific train for Calgary.

W. F. Macneil was in Nelson on business and returned this evening.

The Rossland Christian Science association have issued invitations to a lecture on Christian Science in the Miners' Union hall on the evening of Tuesday, Oct. 22. The lecturer is Virgil O. Strickler, one of the cleverest lecturers the Christian Science church has. Mr. Strickler is a C. S. B. and a member of the board of lectureship of the Mother church, Boston, Mass.

There will be a sacred concert at the St. Andrew's Presbyterian church on Sunday evening when some of the leading soloists of the city will perform. The Rev. Mr. Hackney of Trail will occupy the pulpit.

At the St. George's church bazaar last night the Rev. Mr. Simpson guessed the correct weight of the doll and won it. Mrs. Harry Fry and Charlie Adams both guessed the correct weight of the cake and had it divided between them. C. E. Adams won the picture.

The soloists for Sunday evening's sacred concert at the Presbyterian church are as follows: Mrs. Deagon, Mrs. Wallace, Mrs. Innis, Mr. Sherman, Mr. Cox. Accompanist, C. Bostock. Mr. Bostock will give two organ solos.

Mrs. E. Guenette of Nelson is in town visiting Mrs. C. F. R. Pincott.

Harry Richardson is in town from Phoenix.

Through a typographical error the dance of the Knights of Columbus reported in yesterday's News was reported as the Knights of Pythias.

VANCOUVER BROKER IS GUILTY OF FRAUD

VANCOUVER, Oct. 18.—Found guilty of four of the five counts preferred against him, David Oppenheim, a young broker, was this morning convicted at the assizes of faud in connection with his dealings with Mrs. Lucy Grove's property at Burnaby. He was remanded till the end of the assizes, for sentence. Under the pretense that he wanted her to sign papers in connection with an application for a mortgage, Oppenheim induced her last February to sign a deed of the property. Five days later he sold the property for $14,000 and fled to England. He was arrested in England and brought back for trial.

HIT NEIGHBOR ON HEAD WITH BEER BOTTLE

(By Daily News Leased Wire.)

CALGARY, Oct. 18.—The trial of Henry Berri, who is charged with the murder of Alfred Glenn, commenced in the criminal court today. According to the statement of the crown attorney, Berri, while intoxicated, quarreled with his wife. He went out of the tent in which he was living and announced that he was ready to fight anyone. Glenn, a neighbor, who lived in an adjacent tent, and had nothing whatever to do with the family quarrel, stuck his head out the flap of the tent to ascertain the cause of the trouble. Berri smashed him on the head with a beer bottle. His death followed about ten days later. The case will probably be concluded tomorrow.

SUPERINTENDENT OF MISSIONS RETURNS TO WEST

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—Rev. J. M. White of New Westminster, superintendent of the Methodist Home missions in British Columbia and Yukon left tonight for the west to resume his duties. Mr. White said that the work is going rapidly in the west and that the number of missionaries they have which is 90, are being taxed to the utmost. A great deal of work is being done along the route of the Grand Trunk Pacific right through from Fort George.

If Your Fall Hat Comes from Meagher's

You Will Be Absolutely Certain That It Is the Very Best Obtainable at Whatever Price You May Wish to Pay

Some Fads and Fashions

Many one-piece dresses have the waist line slightly high.

Neckruffs of tulle or chiffon will be seen this fall.

The white or black effect still captivates the heart of Paris.

Plaid ribbons are seen to a slight degree in new neckwear.

Bordered fabrics have by no means lost their popularity.

Every imaginable kind of beaded and silk ball fringe is in fashion.

No novelty is too extreme to be favored in this year's trimming.

The transparent tunics for evening are holding their own.

The ideal model for an evening gown of brocade is the Princess.

Velour ribbons are among the richest of ribbon-kind this season.

Girdles of soft silk, satin or leather are fastened with huge buckles.

Khaki color and white is a favorite combination for the linen trotting suit.

In millinery the tendency to fancy ornaments, the odder the better, is increasing.

The draped skirt is the most significant feature of the styles for the next six months.

A combination of black and gold is especially favored in the new velvet day dresses.

If your Fall hat comes from this store you'll never be assailed by any doubt concerning its style or value. We know "what's what" in the realm of fashionable millinery. We buy carefully and we enjoy advantages beyond the reach of the average millinery store. Our business relations with the best manufacturers and importers are of the closest and most intimate character. We are thus in position to secure choicest styles and to place them at your disposal at most moderate prices.

In selecting our present assortment we were unusually fortunate in our purchases and are today able to offer you choice of the very finest Fall styles at exceptionally modest prices.

Special Sale of Ladies' and Misses' Suits

$22.50 Values for

$14.95

Our leading attraction for Friday and Saturday will be a Special Sale of ladies' and Misses' suits in Navy Serges and Tweeds. These are chiefly in the popular plain tailored style, very smartly and attractively cut. You will like the styles, you will like the goods, you will like the cut and the fit, and perhaps most of all you will like the big value you are getting, as we are putting in all at the one price of $14.95 suits worth up to $22.50.

There is a complete range of sizes, so we can fit most everybody. Won't you come in and let us try some on you?

Happenings In The Heart Of The British Empire

At the conclusion of the autumn military meneuvers, which have taken place in East Anglia, King George attended a conference in the hall at Trinity college, Cambridge, and in his speech to his soldiers he made the following remarks: "I have listened with the greatest interest to the proceedings and to the remarks made by the commanders of the two forces, as well as by the chief of the imperial general staff, Sir John French. It was a great pleasure to me to spend three days among my troops and to witness in person the zeal and energy displayed by all under field service conditions. The first experiments in practical aerial reconnaissance at our maneuvers have been made successfully, although I regret exceedingly the loss of four officers, whom the nation also mourns. The aerial work, the rapid concentration of troops by railways and the greater use of mechanical transport have been the special features of this year's maneuvers."

King's Norfolk Estates.

By the purchase of the Sherborne hall farm, consisting of about 600 acres of arable land and costing £12,000, King George has completed a work commenced by the late King Edward, and the royal estates of Sandringham are now practically surrounded by a ring of farms all owned by the King. The shooting on the King's Norfolk estates is some of the finest in England and is generally enjoyed by the royal sportsmen about Christmas time.

Prince of Wales Goes to College.

Another step in the life training of the future ruler of Great Britain took place on the 10th inst., when his royal highness, the Prince of Wales, went into residence at Magdalen college, Oxford, and became an undergraduate. A suite of 12 rooms have been set apart for his use and will be occupied by the prince, Mr. Hansell, his tutor, one member of his household and his valet, the only specially introduced luxuries for the prince's use being the installation of electric light and the provision of a private bath room.

Biplane Carries Maxim.

The very latest thing in the flying world is a special type of biplane that is being made at the royal air craft factory at Farmborough, England. This biplane, which is slightly larger and stronger than those already in use by the British army, is to be fitted with a .303 Maxim quick firing gun. The gunner will be accommodated with a seat in the front part of the biplane, with the gun fixed on a swivel in front of him. Preliminary trials have recently been made by Mr. De Havilland and Mr. Wilson, government experts, with perfect success. Another novelty is the introduction of a specially delivered lever by which the motor can be started by the pilot without leaving his seat.

Extensions of London Docks.

Vast as is the extent of the present docks on the Thames, they are insufficient for the ever-growing wants of London, as is shown by the tenders just accepted by the port of London authorities for dock extensions. A sum of $11,750,000 is to be immediately expended in extensions and improvements to the Albert dock, the East and West India dock and the London & Hilbury dock.

Admiral Sir Richard Vesey Hamilton, K. C. B., who so far back as 1852-1854 took part in the search for Sir John Franklin, the Arctic explorer, and led a sledge party for upwards of 100 miles, has just died at Chalfont, St. Peter, Buckinghamshire, at the age of 83. He joined the royal navy 69 years ago and amongst the appointments he held were the commander in chief on the Chinese station, lord of the admiralty and president of the royal naval college, Greenwich.

John Leighton, F. S. A., one of the original proprietors and founders of The Graphic and the founder of the Ex Libus society, died on his ninetieth birthday at Harrow-on-the-Hill, England.

Record Prices for Cows.

All previous records in the price paid for dairy cows were recently surpassed when the famous herd of Shorthorn cows and heifers was brought under the auctioneers hammer by direction of the executors of the late George Taylor of Crauford, Middlesex. In all, 187 head of cattle realized $77,475, and the record price was paid by Sir George Greenhall, when he purchased the seven-year-old cow, Waterloo Baroness, for $2,625. No fewer than 46 of the animals realized between $500 and $1,500 each, and the average for the 187 head worked out at $420 apiece.

London's Fire-Fighting Innovations.

London is usually slow in adopting modern inventions and so it has been with the London fire brigade (one of the finest in the world), with regard to the use of horses instead of the motor. The London county council has now decided that all horses are to disappear from their fire brigade and the latest type of motor engines will be adopted. This means that steam engines will give way to the motor driven pump and the same motor that drives the car is used by switching off the road wheels and on to the powerful pump. One of these modern fire engines has just been supplied to Walthemstow fire brigade. It has a four-cylinder engines and can develop a speed of 50 miles an hour. It will pump a jet of water 200 feet high.

It is interesting to note that Mr. Simon, a Liverpool architect, has won the prize of $10,000 in the empire competition for the best plans for the new Manitoba parliament buildings. If the plans are carried out and the whole of the building erected his fees will amount to a further sum of $100,000.

By the death of Sir Whittaker Ellis London has lost its third ex-lord mayor in the short space of one week (the report of the deaths of Sir J. T. Ritchie and Sir Horatio Davies appearing in last week's happenings). Sir Whittaker Ellis was born in 1820 and during the year of his mayoralty, 1881-1882, Epping forest was thrown open to the public in the presence of the late Queen Victoria. He took an active part in London's civic life for 45 years and was member of parliament for the Kingston division of Surrey from 1885 to 1892.

At the autumn meeting of the Royal and Ancient Golf club, held at St. Andrews, Scotland, the King William IV. medal was competed for by no less than 136 of the leading English and Scottish amateur golfers. H. E. Taylor, a member of the Mid-Surrey Golf club, was the winner, with a score of 76, which is a brilliant performance on the old course, while for the second prize the club gold medal, seven players tied at 81.

The Calcutta cup tournament, which this year was played on the new course at St. Andrews, the end of September, instead of the usual date at the beginning of August, drew a larger and more representative entry, among whom there were eight plus and seven scratch men. The competition is by match play and the final round was not reached until six rounds had been played. In the semi-finals F. G. Tulloch (4) beat Walter Blackwell (plus 1) by 3 and 2, and F. H. D. Vickerman (6) beat Colonel O. Rowe (6) by 5 and 4. The final was very closely contested at the ninth hole. The match was all square, Mr. Vickerman eventually winning on the seventeenth green with two up and one to play.

A mushroom of record weight has just been sent to Covent garden market, London. It grew in a meadow at Chadwell heath, 10 miles from London, and weighed seven pounds and four ounces. Its circumference was three feet and four inches.

An unusual record of 11 weddings in one family has taken place at the parish church of Godalrung, Surrey, Mr. and Mrs. Harfield Edington and all their family of 10, five sons and five daughters, having been married there.

INTERVIEW WITH KING OF MONTENEGRO

Will Hang Anyone Guilty of Arson or Murder—"My People Are Splendid."

(By Daily News Leased Wire.)

LONDON, Oct. 18.—An exclusive interview with Nicholas, the King of Montenegro, obtained by Alphonse Courlander, the London Daily Express correspondent, and telegraphed by permission of the King, follows:

At Krusevatz, when I arrived at the palace, which stands among the rugged hills, the Montenegrin standard, a golden eagle on a white background edged with red, was waving against the blue sky.

The palace is as simple as an English villa. In a large room the King stood, a picture of splendid, rugged strength. He wore a long coat of pale blue, reaching to his knees, and jack boots over dark blue trousers. His red waistcoat, richly braided with gold, showed medals and kingly insignia, while his round Montenegrin cap was set at an angle above his forehead.

"Be seated," he said, smiling, after a handshake like an iron grip. He sat with his back to the window. His hand rested on a pile of telegrams. He said: "It gives me pleasure that you are sent here to see things for yourself. The causes of this war are known. They are not things of days, but of years. I tried my utmost to avoid war, telling the powers that things would end badly if our just demands were not granted. Turkey irritated us to the last extremity, even building block houses on Montenegrin territory."

His majesty discussed allegations made against Montenegrin troops of burning houses and killing women.

"I have seen our men," he said, "and they are thoroughly disciplined, but the Malissori and the irregulars may in isolated cases have done such things. I told a Catholic priest last night that I would hang anyone guilty of this in the future."

The face quivered as he continued: "I have given orders for every Albanian to be registered."

When the King spoke of the prowess of his soldiers his face changed.

"My people are splendid," he said. "Nowhere could you find more self-denial, greater valor than among my Montenegrins. Our discipline is perfect; the only undisciplined men among them are those who are impatient for battle and would throw themselves on the enemy's guns. I am not taking part in the fighting this time, though I have been present on the field."

He praised his son, the crown prince, with the pride of a father, adding: "He has earned the medal of Obilitch I gave him."

This medal, the highest military distinction, is coveted by every true Montenegrin, for Obilitch lives eternally in the national folk songs as the hero who killed the Sultan Amurat in the battle of Kossowe, six centuries ago.

Regarding the duration of the war the King said: "It is in the hands of God. We are fighting a great power. So far God has given us victory."

He arose to his full height and held out his hand and said, with that friendly smile that sets everyone at ease: "You will come again. We shall meet after the war."

WESTERN FLOAT

By R. T. Lowery.

Mrs. Hendy of Dot, died last week.

Potatoes are $9 a ton at Okanagan Falls.

Gus Haller will build a sawmill at Chicken lake.

Hong Lee has bought the Majestic cafe in Vernon.

Noel Lishman of Vernon is hunting grizzlies in the Rockies.

T. E. Crowell has the contract to build the $50,000 school at Penticton.

Late strawberries raised at Mission City are being sold for $6 a crate.

During August there were two deaths and nine births in Prince Rupert.

It is twenty years ago since Louis Moranod built the Ram's Horn hotel at Lumby.

During September there were nineteen cases in the police court at Merritt.

The Chinese organizer, Wong Took, receives a salary of $6 a day for his services.

Mr. Bohalt of Wardner has bought the Leland hotel in Nakusp from J. Snedden.

Harry Tweddle and Mrs. Frank Richter were married at Keremeos Centre last week.

The Board of Trade Journal has been started in Enderby. It comes out twice a month.

At a cost of $10,000, the Bank of Commerce has put up an office building in Rupe.

The first public school in the Bulkley valley was opened at Telkwa last week.

For the next six months, James Cronin will manage the Standard mine at Silverton.

Port Essington may be the terminus of a railway from Hudson Bay to the Pacific coast.

The railway reached New Hazelton this week, and there is a building boom in that town.

Fred Simpson is leaving Kamloops for Victoria, where he will open a real estate office.

The Empress theatre in Vernon has engaged a four piece orchestra for the pleasure of its patrons.

This year 57,320 people visited the New Westminster fair, an increase of 25,000 over last year.

No man who drinks over one glass of liquor a day should be allowed to steer an automobile.

In Vancouver twenty years ago butter was twenty cents a pound, and potatoes from $12 to $14 a ton.

This year the C. P. R. has bought 206,147 tons of steel rails, tieplates and fastenings, at a cost of $7,700,000.

This month an average of seven million bushels of grain have been threshed daily in the prairie provinces.

Leach's survey party has gone to Copper river to do some work on the coal claims, 25 miles from Aldermere.

During the past fiscal year Canada imported 3,139,844 pounds of butter from New Zealand and about half that amount from the United States.

The Islander says that the chief industry in Cumberland is cutting wood, although it is possible for the mines there to produce 50,000 tons of coal a month.

The receipts of the second annual fair in Greenwood were $4,000. Of that amount about $2,000 was for subscriptions put up by the citizens of the city.

The Hindus burn their dead. It took ten cords of wood to cremate one at Revelstoke last week. The ashes of the dead one, mixed with the wood ashes, were sent to his relatives in Punjaub.

Baron von dem Hagen, who owns a ranch in the Okanagan has gone to Germany to take up his duty as a soldier. He received a telegram to come back from the German government.

This year there was not a case of sickness amongst the 1,800 Indians who picked the hop crop at Sardis and Agassiz, and only ten cases of misconduct. The misconduct was caused by whiskey.

Jesse Britton has arrived in Masset on his way to England to get married. He came down the Yakoun river from Nash's survey camp part of the distance on a cedar log. He says that black bear are plentiful around Nash's camp and often came around the cooking tent in search of a handout.

Recently A. D. Ross, with the assistance of a man and a dog, drove 2,000 sheep from Lewiston, Idaho to [illegible] way. From Midway he drove 60[illegible] them west over the Hope trail to coast. The sheep were driven at rate of five miles a day. It took weeks to drive the flock from Hop Chilliwack, in order to give the s a chance to get fat for the coast ket.

MANY brands of Baking Powder contain alum, which is an injurious acid. The ingredients of alum baking powder are never printed on the label.

Magic Baking Powder contains no alum and is the only baking powder made in Canada that has all the ingredients plainly printed on the label.

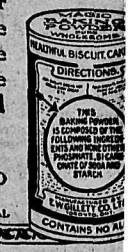
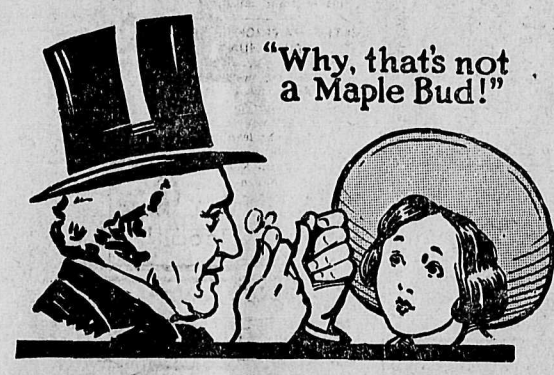
WINNIPEG MONTREAL



"Grandpa, I know Where we can Get more Maple Buds for a Cent."

"LET'S go get some. This little store on the side street has them."

Grandpa is a willing victim, but is a little skeptical about this drop in the price of Maple Buds. When they reach the little store he picks up one and examines it.



"Why that's not a Maple Bud. Cowan's name is not stamped on it. That's an imitation. We'll buy a few though sonnie, because I want to show you the difference. Now come along, and we'll get some real Maple Buds."

This is a big day for sonnie. The demonstration makes a hit with him. Grandpa is quite serious about it, however. They step into the next grocery and make the purchase.

"This is a real Maple Bud. See how it's formed.

No imitation looks just like it, although you might be fooled if you did'nt look close. The real Maple Buds are a little larger, too.

But just try them.

Taste one of each.

There's the difference. Notice how smooth and velvety the real Maple Buds are—how rich and creamy.

COWAN'S taste so much better because they're made of the best chocolate, pure milk and pure sugar.

That's why they're good for little chaps like you.

"Taste One Of Each"

Now listen, sonnie. Next time you buy Maple Buds see that you get real Maple Buds. Look for the name "COWAN."

211

"They're Not Maple Buds Unless They're COWAN'S MAPLE BUDS

News, Views and Activities of Those Who Do the World's Work—Local, Provincial, Dominion and International Events Indicative of Industrial and Political Growth and Development.

The coal miners at Cumberland and Ladysmith are still idle. The coal company got sore because two union men kicked about too much gas in the mine workings and proved their contention by calling in the provincial mine inspector to corroborate their findings, and fired them. The miners want the laws relating to coal mines enforced. The coal company wants no interference, nor will it permit union men to work in "our" mines. And there the lockout stands. The coal company has the bank roll; the miners have empty stomachs, but a determination to act like men. The U. M. W. of A. will come to the assistance of the miners. The selling agents are already out of coal in Vancouver and the trouble gives promise of spreading unless there is a settlement.

If the union did nothing more than spare its membership the humiliation of hunting up the foreman or contractor and, with hat in hand, asking for a job, it would have justified itself. A union man drops into the union secretary's office, in a union labor temple, is freely informed of the condition of the labor market, escapes having to be fleeced by an employment agency shark, and goes like a man direct to the job, under no obligation to anyone.

"A man without a purpose is like a ship without a rudder; a waif, a nothing ,a no man."—Cariyle.

A social system that requires a "creche" to care for the children of "working class mothers" while the latter are engaged in one of the donor's factories for 10 hours a day at $7 a week is nothing to be very proud of, let alone made the subject of a Sunday morning illustrated page in a daily paper. A widows' pension, provided monthly by the federal government along similar lines to that of the old age pension in other countries, would at least be more humane. It would permit the mother to remain home, where her children need her and "keep the family together." If there is anything in the value of homes, it is a wonder capitalists wouldn't encourage the making of homes.

The Vancouver Daily World is now located in its new building, "the tallest in the British empire." It has the finest equipped print shop in Canada, and is the only newspaper office in the Dominion where the employes will work a seven-hour day after January 1, 1914.

A Vancouver official of the Electrical Workers' (Reid) International union informs the British Columbia Federationist that "he" believes the membership of both the Reid and McNulty factions will soon compel a unity of forces. In fact, there are now one or two plans under consideration that will almost make such a desirable result a certainty.

The Miners' Federation of the United Kingdom, in convention at Swansea, Wales, passed a resolution favoring the adoption of a five-day week. The proposal will be submitted to a referendum vote, and if it meets with the approval of the membership will be enforced. The object is to absorb some of the unemployed. "Dividing up"—the work.

R. A. Stoney, president of New Westminster Trades and Labor council, has been appointed as a representative of the International Typographical union, of which he is an old-time member on the Pacific coast, for the province of British Columbia.

The New Westminster Bartenders' union received an awful slam last week. A telegram that Attorney General Bowser had addressed to the New Westminster Bar association reached the bartenders' officers in due form. After reading "Assizes adjourned till October 28" the secretary became excited and lit out to the telegraph office for an explanation. Naturally enough the message was intended for a bunch of lawyers. The bartenders' assizes will continue to meet twice a day as usual.

Shortly before the last provincial elections there was a bit of an outbreak of smallpox at Rossland. One of the hotels, at which Andy Shilland, secretary-treasurer of district 6, W. F. of M., was stopping for the day was quarantined. But somehow or other Andy made a getaway. A week or two later the writer happened to be in Silverton, along with Percy Johnson and other members of the Socialist party campaign committee for the Slocan riding. We met Andy at one of the joy-water hostelries shortly after his arrival from some Godforsaken bunkhouse upon the mountain peak, as cheerful as a robin. He was advised by the committee that he would be expected to speak that evening. This seemed to be too much for Andy. As he drew himself together and invited the bunch to adjourn, he was heard to soliloquize: "My God, why didn't I stay quarantined at Rossland?" Andy was the candidate.

There is said to be a moye on in certain political quarters in British Columbia, not far from Vancouver, to breathe the life of breath into a sort of Bull Frog party, a la Rusevelt. Naturally enough it is destined to croak.

Every trades and labor council on the American continent, over 1,000, has been circularized by Vancouver's central labor body, asking for their cooperation in developing the industrial union idea to existent trades unions, by a process of amalgamation and federation into fewer and larger unions, covering their respective industries. Judging from the replies now being received by the score Vancouver has received a good deal of publicity and industrial unionism has been discussed as never before. The answers are varied, most of them declaring in the affirmative, and when tabulated will make interesting reading in the labor world.

Rumor sayeth that President Short of the building trades department of the A. F. of L. is to be shelved and the retiring president of the brotherhood, Bill Huber, placed on the job.

ON WITH THE FIGHT, SAYS ROOSEVELT

Progressive Cause Will Be Advocated Despite Leader's Incapacity—Agrees With Bryan.

(By Daily News Leased Wire.)

CHICAGO, Oct. 18.—Campaign activities should not cease because of Colonel Roosevelt's attempted assassination, so far as he is concerned, he said last night.

In a statement issued by Colonel Roosevelt at Mercy hospital, in answer to what Mr. Bryan said in his speech at Franklin, Ind., he says:

"I wish to express my cordial agreement with the many and proper statements of Mr. Bryan at Franklin, Ind when in arguing for a continuance of the discussion of the issues at stake in the contest he said: 'The issues of this campaign should not be determined by the act of an assassin. Neither Colonel Roosevelt nor his friends could ask that the discussion should be turned away from the principles involved. If he is elected president it should be because of what he has done in the past and what he proposes to do hereafter.'

"It is, of course, perfectly true that in voting for me, or against me, consideration must be paid to what I have done in the past and to what I propose to do. But it seems to me far more important that consideration should be paid to what the progressive party proposes to do.

"If I had been killed the fight would have gone on exactly the same. Governor Johnson, Senator Beveridge, Mr. Straus, Senator Bristow, Miss Jane Addams, Gifford Pinchot, Judge Ben Lindsay, Raymond Robbins, Mr. Prendergast and the hundreds of other men now on the stump are preaching the doctrine that I have been preaching and stand for and represent just the same cause.

"So far as my opponents are concerned whatever could with truth an propriety have been said against me and my cause before I was shot, can with equal truth and equal propriety be said against me now, and it should be said, and the things that cannot be said now are merely the things that ought not to have been said before.

"If my broken rib heals fast enough to relieve my breathing I shall hope to be able to make one or two speeches yet in this campaign. In any event, if I am not able to make them, the men I have mentioned and the hundreds of men like them will be stating our cause right to the end of the campaign, and I trust our opponents will be stating their cause."

LESTER PATRICK IS STILL HUNTING PLAYERS

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—Lester Patrick, representing the Pacific Coast Hockey League, is in town. He failed to make his threatened cleanup of players at Montreal. The only signatures he secured were from Kendall, Jimmie Gardiner and Johnson. He came to Toronto to see Miller, who showed great form last season. He will also interview some of the local amateur players.

WILL RESPECT HUMAN LIFE

Suffragette's Tactics to Be More Violent Than Before—Not Split in Ranks.

(By Daily News Leased Wire.)

LONDON, Oct. 18.—It is announced that Mr. and Mrs. Pethick Lawrence's withdrawal from the Woman's Social and Political union was at Mrs. Pankhurst's request, because they disagreed with her on the nature of the new fighting tactics, which are too militant for them. Mrs. Pankhurst, interviewed regarding the proposed new militant methods, said they would be stronger and more violent than before, adding: "We have been grossly betrayed by the government and that warrants militancy. It is our only weapon. Alarmist rumors are afloat to the effect that we intend to make attacks upon human life. To that we give an absolute and uncompromising denial. Our militancy consists in defiance of legal enactments and in attacks upon property. The only limit set is that human life shall be respected.

"We accept responsibility for all that we intend to do. I do not foresee any split in the ranks. I know of no rival organization that is to be set up. All that has happened is a change in the officers of the Woman's Social and Political union. I succeeded Mrs. Lawrence as treasurer of the union and all the fighting funds remain with us."

DEMANDS RELEASE OF ROUMANIAN STEAMSHIPS

(By Daily News Leased Wire.)

BUCHAREST, Oct. 18.—The Roumanian government has instructed its minister at Sofia to demand the immediate release of the Roumanian steamship Princess Marie. The ship, with many Turkish refugees aboard, has been detained by the Bulgarian authorities. The vessel and passengers are now at the Black sea port at Varna.

ITALIAN THREATENS TO SHOOT WOODROW WILSON

(By Daily News Leased Wire.)

WILMINGTON, Del., Oct. 18.—A large number of policemen were distributed among the crowd at the opera house here last night when Governor Wilson spoke. This was the result of a threat made by an Italian to "shoot him the same as Roosevelt was shot."

The governor and the members of his party knew nothing of the affair. The Italian, whose name is known, but who has not been located, is alleged to have exclaimed: "Wilson is here today and he will get a bullet through him the same as Roosevelt did. I will put one in him. I will shoot him myself, the ———," according at Mrs. Hattie Whitson, who overheard the remark as she was leaving her place of employment yesterday. Governor Wilson left shortly before 10 o'clock last night for West Virginia.

PATHFINDER ENDS JOURNEY

ALBERNI, B. C., Oct. 18.—Thomas W. Wilby, the Canadian national highway pathfinder, motored here from Nanaimo yesterday and was welcomed by the people of Alberni and was the guest at a luncheon of the board of trade. James R. Motion, president of the board was in the chair. He extended a cordial welcome to the western tourist of the highway and spoke of the importance of Mr. Wilby's tour. He was followed by J. F. Bledsoe, who made an appropriate speech.

The Gurney-Oxford Enthusiast

The housewife who owns a Gurney-Oxford—who has daily experience with it—who knows the way it works—the economy and efficiency of it—is a Gurney-Oxford Enthusiast.

The Gurney-Oxford Range is the sum total of 70 years experience in stove construction. It is a big, up-standing, handsome stove, that works constantly and unfailingly for its owner's satisfaction. It stands guard over her interests, conserving her time and energy, effecting a daily saving in coal, adding to the household economy and increasing the pleasure which comes from a smooth-running and well-ordered household.

That's why she enthusiastically recommends the Gurney-Oxford whenever the question comes up.

She wants her friends to learn, what she knows to be a fact, that a Gurney-Oxford Range is a good housewife's most valuable and cherished possession.

What Salt Do You Use?

Few of us realize how much salt we eat. Food without Salt would not keep us alive—in fact we would quickly starve to death on food that contained no salt. The fact that we put salt on all meats and vegetables—in bread, cake and pastry—soups and sauces—butter and cheese—goes to show the importance of using an absolutely pure Salt.

Salt in its natural state is impure. By our method of treating brine, and by evaporation, we are able to remove this impurity, the most dangerous ingredients being gypsum, sulphite of lime or plaster of paris.

WINDSOR SALT

is made in the most modern Plant in America, equipped with the latest special machinery for refining to the highest degree of Purity. There's nothing in it but salt—just PURE CLEAN SALT.

Ask any grocer for his best salt, and he will give you WINDSOR SALT every time, not because it costs more—it does not—but because the grocer knows that Windsor Salt pleases his customers. It is the standby in all Canadian Homes.

REGAL FREE RUNNING SALT

Always Dry—Always Free Running

Canada's leading table salt put up in an air-tight, germ-proof paraffin-coated pure wood fibre carton. This carton is the most sanitary on the market, protects the salt from dust, dirt, moisture, and odors which contaminate bag salt and which any exposed salt will absorb. The salt is the finest grain of the famous WINDSOR SALT with a small percentage of carbonate magnesium to make it free running and dry at all seasons of the year.

THE CANADIAN SALT CO., LIMITED

MARKETS

CELERY NOW OF BETTER QUALITY

Frosts Give Desired Crispness—Case Eggs Now Forty Cents—Many Vegetables Are Scarce.

Celery, on account of the light frosts in this district during the past week, is rapidly becoming of better quality and has gained that crispness which is so much desired in this vegetable, say local merchants. It is cheaper, now selling at three bunches for 10 cents instead of 5 cents straight per bunch.

Very few green peppers are on the market and tomatoes are becoming less plentiful although the price remains practically unchanged. Very few boxes of local peaches remain.

Cauliflower shipments from local ranchers are nearly over.

"Candled" case eggs are now selling at 40 cents per dozen.

PRICES STIFFEN

(By Daily News Leased Wire.)

WINNIPEG, Oct. 18.—Prices started ¼ @⅜c weaker on the lower Liverpool cables but stiffened later on the stronger American markets, caused by rumors of complications with Russia and Turkey and unfavorable weather conditions on both sides of the line. The advance of the day was ⅞ on all months but was not fully maintained. Winnipeg closed ⅜@⅝c higher. Minneapolis closed ½c higher on both months. Chicago closed ½c higher on all months.

NEW YORK MARKET DULL AND IRREGULAR

(By Daily News Leased Wire.)

NEW YORK, Oct. 18.—Dullness and irregularity were the dominating features of today's operations on the stock exchange. Revival of the recent unsettlement on the foreign exchanges was a contributing factor. London's level of prices at the close showed a number of very material declines, especially Canadian Pacific, the coppers and smelting stocks. The feature here at the opening was the heavy offerings of Amalgamated Copper, these outpourings probably representing realizing for profits as a result of yesterday's announcement of the increased dividend. Early weakness was shown also by Union Pacific and a few other issues of speculative importance, but the market turned strong at Midday on urgent buying of United States Steel, which scored its best price of the week.

This movement impelled short covering in the list after which the market lapsed into extreme dullness, except for spasmodic advances in specialties, chiefly the tobaccos.

STOCK MARKET CLOSES DULL

(By Daily News Leased Wire.)

LONDON, Oct. 18.—The stock market developed weakness in the forenoon on dear money and realizing on stocks bought during the recent depression. Kaffirs and speculative home rails were the most affected. Fresh light buying later helped in a moderate recovery but the spread of the war induced caution. American securities were steady and a fraction higher. Realizing depressed values during the forenoon but Wall street buying hardened prices in the late trading. Money was scarce and discount rates were easy. The close was dull.

NO ACTS WILL BE DISALLOWED BY OTTAWA

(Special to The Daily News.)

Victoria, B. C., Oct. 18.—There will be no disallowance of any of the acts of the British Columbia legislature by the federal government this year. Notification has been received from Ottawa that all the acts passed by the legislature at its last session have received the approval of the minister of justice and that, therefore, they will not be interferred with. The British North America act provides that the federal government may disallow any provincial act within 12 months of its passage, if it is considered as infringing in any way upon the federal jurisdiction and the fact that the 75 bills passed by the provincial legislature last session have in every case passed the censorship of the department of justice at Ottawa is regarded with considerable pride by the officials of the attorney-general's department here.

REFORM OF LAW POSSIBLE

SALISBURY, England, Oct. 18.—The revising barrister, Thornton Lawes, declared it was possible to frame a reform bill acceptable to both parties which would sweep away 50,000 political inconsistencies and stupidities. He had $125 worth of law books which could be put into the fire immediately the government bill became law.

LABOR DISPUTES 'ARE FEWER

Twenty-one Last Month—Coal Miners and Carpenters Strikes Most Important.

(By Daily News Leased Wire.)

OTTAWA, Oct. 18.—An improvement is shown in labor conditions in regard to disturbances through industrial disputes during September. There were 21 disputes in existence during the month though an increase is still maintained over the corresponding month last year. Ten disputes in all commenced during September, the most important of which were those of the coal miners on Vancouver Island and carpenters at Moose Jaw. The former involved a cessation of work on the part of about 3000 miners employed in the Cumberland and Ladysmith coal mines and was not terminated at the end of September; that of the carpenters at Moose Jaw affected 450 workers, but was not of long duration. About 5,000 employes were thrown out of work by disputes in existence during September.

BANK BRINGS SUIT AGAINST ATHLETIC CLUB

(By Daily News Leased Wire.)

TORONTO, Oct. 18.—The Bank of Toronto has launched in Toronto a court action against the Cobalt Curling, Skating & Athletic association. In a writ issued at Osgood hall the bank seeks to collect $3,724 alleged due on a note.

ASKS VOLUNTEES FOR CANADIAN NAVY

LONDON, Oct. 18.—It is understood that the admiralty has invited 20 petty officers and men on active service to volunteer for the royal Canadian navy cruisers Niobe and Rainbow, which are expected next month. The men will be drawn from the Chatham port division.

HOLD BAZAAR IN LONDON FOR CANADIAN DIOCESE

(By Daily News Leased Wire.)

LONDON, Oct. 18.—The Bishop of London today opened a bazaar at his house in St. James square in aid of the Moosomin-Keewatin diocese. His lordship said that the believed that Canada was destined to be one of the greatest nations the world has ever seen, the population of which he expected would reach 100,000,000—those millions he wanted to belong to the British Christian church.

SOUTH AUSTRALIA WILL DOUBLE AREA UNDER WHEAT

(By Daily News Leased Wire.)

ADELAIDE, Aus., Oct. 18.—During the last few years an area totalling millions of acres has been added to the previously recognized wheat growing lands of South Australia. Some of this has already been served by railways and profitably settled, but there are arrangements to be made for more to be accomplished. Last season the wheat, hay and grain crop was valued at £5,410,005, and as a result of the government's vigorous policy of development, it is anticipated that within the next few years the area under wheat will be doubled. Speaking at a public function the commissioner of crown lands and immigration, Hon. F. W. Young, M. P., said the ministry rejoiced in the continued prosperity of the state and hoped by prudent and progressive legislation and by sound administration to enable the people to obtain full advantages of the conditions that existed. They were not handicapped by want of faith in the soil. South Australia was a land of great opportunity, owing largely to what has been done by some of the grand pioneers. The government hoped, by wise laws and by affording such assistance as would stimulate and not destroy individuality, to encourage the people to full advantage of the splendid opportunities presented before them. In that direction parliament was putting to account vast areas of crown land, which in the past had been of little value, and was also attempting to conserve the waters of the state.

If I Had Eczema

I'd simply wash it away with that soothing liquid, D. D. D. Prescription. The very first drops instantly stop that awful itch. We have sold many other remedies for skin trouble, but none that we could personally recommend as we do the D.D.D. Prescription.

Better try a bottle at once on our personal advice. The Poole Drug Co., Ltd., Druggists.

Price And Demand For Canadian Grain May Be Materially Increased By Hostilities In Balkans

(By Daily News Leased Wire.)

LONDON, Oct. 18.—London newspaper writers are discussing quite generally now the effect that the Balkan war will have on the cross currents of the world's trade. All agree that the interference will be widespread. The export trade of cereals from the numerous important sources of supply on the Black sea is just now at its height.

Western markets are very largely dependent upon the grain which southern Russia and the Danube states should continue to ship for some weeks to come through the Dardanelles and through the Mediterranean to Atlantic channels and North sea ports.

Greek Ships Bottled Up.

A development in recent years has placed a very considerable share of this trade in the hands of the Greek houses whose vessels sail under their own flag, says a correspondent of the Financial News. Turkey has already, according to trustworthy reports, ventured upon the significant step of refusing passage of the Dardanelles to Greek merchantmen and this prohibition is said to involve the bottling up of about 150 boats in the Black sea. The result has been an immediate material advance in freight rates from Black sea ports. It has to be borne in mind that both shores of the sea of Marmora are Turkish territory and well fortified. The commencement of war naturally not only involves the exclusion of Greek vessels from access to the Aegean sea, in order to deprive the Greek army of a large number of contingent military transports, but the exigencies of the situation also call for discrimination on the part of Turkey against water-borne exports from Bulgaria, which has placed itself at the head of the Balkan confederation. It is still open to considerable doubt whether Roumania will be able to maintain an attitude of neutrality when other Balkan countries are engaged in combat with the Turks. The mere possibility of a further adversary may provide the Sultan's advisers with an excellent excuse for the refusal of the passage of the Dardanelles to cargoes from Roumanian harbors on the Black sea.

Closing of Dardanelles.

Still another consideration in connection with the importance at the present moment of Black sea exports has, the correspondent shows, to be taken into account: Turkish diplomacy which has so often and skilfully dealt with western chancellories is quite sufficiently wide-awake to seek a way out of the Balkan imbroglio by invoking intervention on the part of Russia in favor of the restoration of peace. Here, again, it is the reason of the war that would place a weighty weapon in the hands of the porte, which could bring forward a host of arguments in favor of the temporary closing of the Dardanelles. Already there are whispers of protests on the part of Russian merchants against the interference of Turkey with that part of the Black sea trade which is in the hands of the Greek shippers. It needs little imagination to appreciate the strength of the pressure which would be brought to bear upon the Russian foreign office, if, as would seem only too likely, the authorities at Constantinople decided to close the straits which lead from the Black sea to the Aegean. Russian commercial interests are very intimately bound up with the export trade in cereals and oil, for which Odessa and Batoum are respectively the principal ports.

Western European merchants, notably those interest in the maintenance of the regular commerce with the Black sea, must, however, not fail to reckon with the contingency of a stoppage of the grain supply from that quarter. South Russian, Roumanian and Bulgarian foodstuffs may be locked up, not temporarily, but for a prolonged period. Taking Russia alone we find that the total wheat crop in 1910 amounted to fully 102,800,000 quarters, of which 27,245,000 were exported, by far the greater portion through the Black sea ports. Last year when a poor harvest yielded only about 64,200,000 quarters of wheat, a similar percentage was exported, close on 17,500,000 quarters. It would, therefore, appear safe to assume that the exportable surplus of this year's wheat crop of not far short of 80,000,000 quarters would be in the neighborhood of 20,000,000 quarters. If only a half of this surplus were arrested in the Black sea the deficiency, so far as western Europe is concerned, would nevertheless be not much below 20,000,000 quarters, and Bulgarian and Roumanian wheat has also to find its way through the Turkish straits.

The meaning of such a shortage however temporary, will be apparent from the fact that the Argentine wheat harvest has in recent years been more often below than above the 20,000,000 mark.

Rise in Foodstuffs.

What would be the effect of a cessation of shipping trade with the Black sea? A rise in foodstuffs and a serious diminution in the supply of oil fuel, principally from Batoum, would be felt from one end of Europe to the other. The powerful Shell-Royal Dutch combine and the Standard Oil group as well as the Pearson interests in America may be relied upon to safeguard the oil fuel industry, but as the new Argentine wheat crop cannot become available until January, the deficiency in foodstuffs, especially wheat must be made good almost entirely by British overseas growers, of whom the Canadian farmers might be the first to profit.

Vessels not required in the trade to and from the Black sea would, whenever suitable, be diverted to the northern Atlantic route in order to hasten the delivery of the Canadian grown grain at the European ports. A still greater strain than usual will be thrown upon the railways and elevator owners in the Dominion, and such a development might easily become reflected in the earnings of the Canadian traffic undertakings. Tank steamers engaged in the trans-Atlantic trade would in such an event also find increasing employment, so that the present scarcity of vessels of this class would be accentuated. Finally, the diversion of the western European imports from eastern sources to Canadian and American producers would affect the balance of the trade and react very speedily upon the international money market, while large groups of concerns engaged in transportation would derive very tangible benefits from the demand for goods in which the new world might have to redress the diminished balance of the old.

RESOLUTION

Whereas, there are now employed at the Cinderella and Silverite mines, near Three Forks, Chinese cooks, and

Whereas, through the loyalty of its friends and the fidelity of its membership, this union has hitherto been successful in maintaining a "White B.C." in so far as its local jurisdiction extends, and

Whereas, every friendly overture to secure a continuance of this state of affairs has been unsuccessful in persuading the management of the properties in question to dismiss the Chinamen, therefore be it

Resolved, that this, Sandon Union No. 81, of the Western Federation of Miners, vigorously condemns the employment of Asiatic help, in any capacity, and calls upon its friends and members to use every lawful and honorable effort to secure the banishment of the present Orientals, and prevent the future introduction of a class of labor that can only result in lowering our present standard of living, and injury to the moral, social and civic tone of the community, and be it further

Resolved, that the sense of this resolution, and a history of the reasons responsible for its adoption, be circulated as widely as possible amongst the membership and friends of organized labor, in this portion of the province of British Columbia.

Sandon, B.C., May 28, 1912. 39-tf

Commencing at a post planted on the north bank of Salmon river, about one mile from its junction with the Pend d'Oreille river and joining Lot 9755 on the easterly boundary, thence north about 3 chains more or less to the boundary of Lot 9752, thence east about 40 chains to the boundary of Lot 9756, thence east about 40 chains to the boundary of Lot 9756, thence south 6 chains more or less to Salmon river, thence about 40 chains west along Salmon river to the point of commencement, containing 10 acres, more or less.

Dated this 12th day of September, 1912.
130-1a.w-8 ELIZABETH CHAPMAN.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Warmth Without Wealth

Attend to your house heating now. Don't wait until winter winds blow. It's safer and cheaper now. Our facilities for reparing or renovating steam or hot-water heating, radiators, pipes, valves, etc., are exceptionally good. We are experts at new installations, changing from stoves to furnaces rapidly, cheaply and effectively. Steam or hot-water heating saves coal, health, labor. It's safer, quicker to heat, gives a steadier heat and removes the dangers of fire. If we do it, it's right and guaranteed.

CITY CIRCULATION AGENT

Of Leading Montreal Daily Endorses GIN PILLS

FIVE long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and it's all gone. That has been the experience of Mr. Eugene Quesnel, Chief City Circulation Agent of La Patrie, of Montreal. He describes it feelingly:

Montreal,
May 3rd, 1912

"I have been suffering from Kidney Trouble for over five long years. I had also Rheumatism in all my bones and muscles, could not sleep nights and on some occasions could hardly walk. I had been treated by some of our best Physicians but without relief and I lost over fifteen pounds. One day I met one of our leading hotelkeepers, who had been cured by your famous GIN PILLS, and he advised me to try them. So I bought two boxes at my druggist's and before I had used one box I felt a big change. Before I finished the second one I was completely cured.

I can assure you I can hardly believe it for if I had only known what I know now I would not have spent over One Hundred Dollars for nothing when two boxes of GIN PILLS cured me."

EUGENE QUESNEL.

GIN PILLS are gaining a world-wide reputation, by the way they conquer the most obstinate cases of Rheumatism and all kinds of Kidney Trouble.

50c. a box, 6 for $2.50. Sample free if you write National Drug and Chemical Co. of Canada, Limited, Toronto. 149

CHECKS GIVEN FOR DYNAMITING

Stenographer Identifies Check Book from Which Expenses of Dynamite Campaign Said to Be Paid.

(By Daily News Leased Wire.)

INDIANAPOLIS, Ind., Oct. 18.—Search for new witnesses in the "dynamite conspiracy" trial today was extended to the Pacific coast. Seattle agents reported that at the time James B. McNamara was in Seattle, when, studying new ways of causing explosions, and when an office building under construction there was blown up on Aug. 31, 1911, another man, known as Petervitch, was in Seattle. Petervitch, "according to the man from whom he rented a room," was some other than McNamara, but he kept in his room clocks, fuses and bomb attachments similar to those used by the dynamiter. He is being traced on a theory that he was one of McNamara's accomplices who was indicted in Los Angeles county, California, but who never has been found. Word was sent to Seattle for a full story of the man who says he rented the room to Petervitch with a view of subpoenaing him to testify at the trial here. The resident of Seattle already has told the authorities that Petervitch's visit was coincident with that of McNamara's, while in Seattle McNamara sought from a teacher of a technical school how to make a spark set off a bomb without the use of a cap.

Miss Mary C. Dye, former stenographer for J. J. McNamara in the office of the Iron Workers' union, was the chief witness today. She identified the sub on a check book from which, it is charged, checks given to McNamara for $1,000 a month to pay the expenses of dynamiting were issued by the union's executive board. The identified one stub reading, "By order of the executive board, setting aside for organization purposes $1,000," as being a record of a check signed April 13, 1910, by McNamara and John M. Ryan, president of the union. The witness also identified stationery of "George J. Clark, contractor," found in the iron workers' headquarters which the prosecution asserts was used by J. J. McNamara and Herbert S. Hockin, now secretary-treasurer, in travelling around the country on dynamiting jogs, under that name.

BISHOP OF JAPAN CONSECRATED BY CANADIAN PRIMATE

(By Daily News Leased Wire.)

MONTREAL, Oct. 18.—With all the solemnity and ceremonial attached to the sacred office, the Rev. Heber J. Hamilton was consecrated as bishop of Japan by the primate of all Canada in Christ Church cathedral this morning, in the presence of a large congregation of clergy and laity. The service was a most impressive one.

NOW WHISTLE ON SUNDAY IN TORONTO

British Member of Parliament Shocked at Change in Good City—Canker in Canada.

(By Daily News Leased Wire.)

LONDON, Oct. 18.—A remarkable indictment against Canada was made by Alfred Eddson Hutton, ex-M. P., at the assembly of the Congregational union, now being held in Manchester. Twenty years ago, he said, he found Toronto resembling a good-sized Scottish town, such as Aberdeen. He did not think anyone would then have dared whistle on the Sabbath. He wished he could say that was the worst thing today in Toronto. There was now a feverish state of affairs and as much excitement, pleasure-seeking and general disregard of the conservative Scottish instinct as in any American city. This change was noticeable throughout Canada. The desire to get rich quick pervaded Canada like a canker, he said, and religious work was 10 times more difficult than in England. It may be noticed incidentally that Hutton himself is not a poor man. He has apartments in fashionable Arlington street, two houses in Yorkshire, besides being a member of the exclusive Brooks and Devonshire clubs.

FOURTEEN HOUSES ERECTED FOR DOUKHOBOR ARRIVALS

(Special to The Daily News.)

CASTLEGAR, B.C., Oct. 18—Conductor Joe Kinney spent the last two days on his Pass creek ranch, and also did a little hunting. Mr. Kinney reports that grouse are very scarce, but he says deer and bear are very numerous a few miles from his ranch. He also reports that the Doukhobors, who have extensive holdings in the Pass creek valley, are making splendid progress the past summer in clearing and getting their land ready for next spring's work. They have erected 14 large houses within the last few months, and these are nearly all occupied by the majority of the large pary of their people which arrived the past few days. Mr. Kinney also reports the road between Castlegar and Summit meadows in rather bad shape but from there on to Crescent Valley an ideal road has been kept in condition by Mr. Landis. He says the bridges over the numerous creeks on this road are the equal of any in the province. This, in a few years or less, will be the scene of lots of travel, as much if not more than any of the adjoining roads, not alone for its scenic beauties as for the convenience to the settlers living nearby.

The Doukhobors are now freighting apples from Brilliant on the Columbia to Glade on the Kootenay river.

Sydney Dickerson, late of Farron, is now working as operator for the Canadian Pacific at this point.

Mrs. J. T. Laurie and Ion Barrey are visiting friends in Trail.

The Edgewood Lumber company are still busy shipping timber to Alberta and Saskatchewan points. An average of nearly two cars per day for the past three weeks has left this mill. The management has put in a logging camp on the limits on Pass creek flats and have a large number of men employed at this camp. They also have completed putting in a number of camps on the Arrow lake.

Samuel Walker and wife are preparing for a trip to the old country in a short time.

The new Canadian Pacific station at Brilliant is to be opened by the company in a few days, the business done by the Doukhobors at this point necessitating an agent there to look after it.

O. Fers, of the Castlegar Brick works, reports a very brisk demand for his bricks. Mr. Fors was successful in securing a large contract from the Canadian Pacific railway to supply all the brick for their extensive building operations at Grand Forks.

Chief Constable Black of Nelson spent the day here on official business.

R. J. Long, chief fire warden, was also a visitor. Mr. Long intends going in for thoroughbred stock raising at his Creston ranch, and has purchased the thoroughbred Holstein bull "Jake" from Mr. Proctor's Westley ranch.

TRIED TO KILL CRANE; BLACKSMITH IS SHOT

(By Daily News Leased Wire.)

WHEATON, Ont., Oct. 18.—James Howe, a young blacksmith here, lies in a critical condition, as the result of accidental discharge of a shot-gun yesterday while trying to kill a wounded crane with the stock of the weapon.

NELSON NEWS OF THE DAY

Mr. and Mrs. Frank Coomber wish to thank their friends for their kindness and sympathy in their recent bereavement.

The "Cum-Baks" will make their next run tonight, leaving the Y.M.C.A. at 9:30 o'clock. It is the intention to have a "run out" at least four nights a week.

Division No. 579 Brotherhood of Locomotive Engineers will meet in K. of P. hall tomorrow afternoon at 2:30 o'clock. The assistant grand chief, A. Kennedy, will be present.

At the Overseas smoker on Monday, Dave Cunningham, Harry Gardner, George Drewitt and William Davis will contribute to the vocal part of the evening's entertainment. C. J. Archer, chairman of the organizing committee, states that it has been found necessary to hire the larger hall in the Eagle block on account of the demand for tickets, and wishes the public to understand that tickets are not limited to members but that all citizens are heartily welcome.

There will be an undenominational meeting in the Baptist church on Monday evening at 8 o'clock, under the auspices of the British Columbia Sunday School association. A program consisting of short speeches, solos and quartettes will be given by: Rev. C. R. Fisher, general secretary, California; Rev. W. A. Brown, international missionary superintendent; Rev. G. T. Pratt, general secretary, Washington; Rev. I. W. Williamson, general secretary for British Columbia, and A. Crowcroft, soloist.

Ask or write for the Hudson's Bay company's grocery price list. 161-tf.

Miss G. B. Choquette, 406 Latimer, teaches French and music. *156-6

Go to King George Cafe, Hall St. Get a square meal, 25c up. White cook. *155-6

W. G. Thomson's sale will mean a great saving to the people of Nelson and vicinity this year on their Christmas shopping. Purchases should be made early, before everything you want is snapped up. 160-2

Yes, if you want some oyster shell, wheat, oats, bran or shorts for your stock, or if you require some perfect roofing paper to protect them properly, we carry it. Call, write or phone to A. S. Horswill & Co., Nelson, B.C. 154-tf.

NOTICE.

I have sold the Semaphore Cigar store to Mr. A. G. Gelinas of Cranbrook and desire to thank the many customers who have favored me with their patronage in the past and to ask them to continue their favors to the new proprietor. All accounts now due are payable to D. R. McDougall, who will also meet bills against the business prior to the sale.
D. R. M'DOUGALL.
October 16, 1912. 153-tf.

AT THE THEATRES.

Lovers of music, comedy and real novelty will be satisfied if they visit the Nelson opera house on Monday evening, where the Otto Weis Royal Novelty company will hold forth. The entertainment is in a class by itself. It embraces comedy, opera, musical comedy and vaudeville. It lasts for about two hours and a quarter without any intermission, and it is a continuous flow of melody from beginning to end. None of the instruments played by the Hawaiian is of American make nor European in character; they were furnished by the late king of Hawaii, to whom the Kankas were royal entertainers. Otto Weis, the director of the company, has the distinction of being the only German-American who has served enlistment in the German army as an entertainer to royalty instead of with the colors, and all won by that insignificant musical instrument, the German accordian, which Mr. Weis manipulates and renders the music of all nations in a manner to attract the attention of the very highest of musicians in every country in which he has appeared, and which embraces all the countries of the world. Mr. Weis speaks fluently 10 different languages, and renders the songs and music of all nations in the language of the respective country—at the same illustrating these songs, displaying the rulers of each and every nation by electrial effect that is more novel than any other feature on the bill. Lovers of music and admirers of special scenic effects, as well as the rendering of the songs of all nations, together with the music, will find a rare treat in the Hawaiian entertainers.

At the Starland tonight and matinee Leonard and Phillips will appear in a new comedy sketch, entitled "The Soubrette and the Actor." By special request the favorite song "Oh You Dream," in which Mr. Phillips' extemporaneous song-making of the different people in the audience will be repeated. In this song the bald-headed man comes in nicely for a joke. With a complete change of songs and talk "The Irish Swede" will close tonight, and those who fail to see this funny act will miss a treat. The Great McGlin will furnish more thrills than any half a dozen other acts. The young man, after giving a spot light performance, will balance himself near the ceiling on six chairs. The pictures will include "The Animated Weekly"; the the comedies, "For a Straw," "Bill and His Friend," and the exciting drama, "Young Wild West Trapping a Tricky Rustler."

NELSON NEWS OF THE DAY

Archdeacon Beer of Kaslo is at the Hume.

G. Porteous of Queens Bay is at the Madden.

R. M. Clarke of Fernie is at the Strathcona.

J. W. Beckett, the Spokane mining man, is at the Hume.

Mr. and Mrs. H. L. Fife of Slocan City are at the Grand Central.

John T. Black, chief provincial constable, spent yesterday in the Trail district.

A. B. Bremner of Sheep creek, who was at the Tremont yesterday, will return home this morning.

F. C. Merry, manager of the Silver Cup mine at Ferguson, is among the guests at the Strathcona.

E. E. Lloyd of Hall Green, England, came in on the coast train last night and is at the Strathcona.

C. D. Goepel of Victoria, formerly of Nelson, came in last night from the coast and is at the Hume.

A male quartette, under the leadership of I. W. Williamson, will take part in the union Sunday school mass meeting on Monday evening in the Baptist church.

Provincial Constable Simpson of Kaslo came in last night to attend the assizes, which will open on Monday morning at 11 o'clock, and is a guest at the Queens.

Charles Johnson and Andrew Hogberg, the new managers of the Grove hotel, Fairview, were hosts at an opening dance and supper at which music was supplied by the Starland orchestra, on Thursday night.

Mr. Justice Gregory will preside at the fall assizes which will open on Monday, instead of Mr. Justice Murphy as recently announced. It will be the first occasion upon which the former has presided in a Nelson court.

The Church Helpers of St. Saviour's church will hold a sale of useful and fancy articles in the parish hall on the afternoons and evenings of Oct. 29 and 30. Tea will be served each afternoon. There will be a dramatic entertainment each evening.

The funeral of the late Mrs. G. O. Buchanan will take place at Kaslo at 1 o'clock on Monday afternoon, an hour which will permit residents on the west arm, main lake and of Nelson to go up on the Kokanee and return on the same steamer, according to a communication received yesterday by Fred A. Starkey.

The death took place at 11 o'clock last night of Edith Emily Roekel, wife of Thomas Jenkin of Greenwood, at the residence of Mr. and Mrs. William Roe, 315 Latimer street. Deceased, who was 40 years of age, has been visiting in Nelson for two weeks and died of heart failure after a long period of illhealth.

Miles Custer, J. E. Moore, H. E. Douglas, Frank Unfried, Romano Vito, J. M. Fraser, Fred C. Moffatt, W. D. Sutherland, I. G. Johnson, A. S. Robinson, I. C. Schermerhorn, G. H. Fisher, Edward Openshaw, A. D. Papazian, L. H. Poole, George Taylor, G. A. Johnson, John Norlin, Arthur Seward, Harry Cain, E. E. Robinson, William Brown, T. A. Robley, James Stewart, H. W. Fesser, E. Whittemore, W. H. Hoare, G. A. Gilchrist, G. B. Wickes, G. A. Roy, A. W. Munro, Thomas Moore, George Petetta, George Curtis, B. P. Steeves, F. L. Boyd, M. O'Donnell and James Grant were added to the city voters' list yesterday.

AT THE THEATRE.

Another crowded audience greeted Miss Verna Felton and the Allen Players at the opera house last night when the pleasing comedy drama "Alias Jimmy Valentine," a play with plenty of comedy in it and an attractive love story as well. Like all the plays given here by the Allen Players during the week, last night's production was a most creditable one and thoroughly enjoyed by the large audience, who were generous in their applause. The Royal Hungarian quartette supplied excellent music, and the solos between acts by Miss Hugars were well received. At the matinee this afternoon the drama that made Margaret Angli famous, "The Great Divide," will be given, and this evening a roaring farce, "Whose Baby Are You?" with three live Nelson babies in the cast, will conclude the company's most successful engagement here. Miss Felton and the Allen Players pen a week's engagement at Cranbrook on Monday night, and are *assured of great houses for the entire* week, as they are well known and appreciated in the Pass city.

CHILDREN'S DAY AT ST. SAVIOR'S TOMORROW

Tomorrow will be observed at St. Saviour's church as children's day. The observation of this day as a day of special intercession for Sunday schools has the authority of the general synod and the emphatic endorsation of all the bishops of the Church of England in Canada.

At St. Saviour's church there will be a special celebration of Holy Communion at 8 a.m., at which it is expected that there will be present all Sunday school teachers and officers, all communicant members of the Sunday school and Bible classes, the parents of children attending the Sunday school, and all others who are interested in the progress and efficiency of this department of the church's ministry. There will be a second celebration of the Holy Communion at the 11 o'clock service. The rector will preach both morning and evening and his sermons will have special reference to the work of the Sunday school and to the matter of the religious education and moral development of the children of the church. Special collections will be made on behalf of the Sunday school commission of the Church of England in Canada.

In the afternoon at 2:30 o'clock there will be a children's service to which all parents and guardians of the children are particularly invited.

CHURCH SERVICES TOMORROW

All changes for church service announcements must be handed in or phoned to The Daily News office before 6 o'clock on Friday. If not received by this time the notices will be omitted from Saturday's issue.

ANGLICAN—St. Saviour's, corner of Ward and Silica streets. Twentieth Sunday after Trinity. Children's day. 8 a.m., Holy Communion. Annual corporate Communion of the members, teachers and officers of the Sunday school. 11 a.m., Matins and Holy Communion; 2:30 p.m., children's service; 7:30 p.m., Evensong; 9 p.m., Churchman's club. Special sermons on religious, educational and Sunday school work. Rector, Rev. Fred H. Graham.

ROMAN CATHOLIC—Corner Ward and Mill. Low Mass, 8 a.m.; High Mass, 10:30 a.m.; evening service, 7:30 p.m. Rev. J. Althoff.

PRESBYTERIAN—Church, corner of Victoria and Kootenay streets. Services at 11 a.m. and 7:30 p.m.

METHODIST—Rev. A. E. Smith, pastor. Services will be conducted by the pastor at 11 a.m. and 7:30 p.m. Morning subject, "The Language of Personality." The pastor will preach a short sermon to the juniors. Evening subject, "The Prophecy of a Perfect Race." The choir will furnish special music. Gordon Keatly will sing at the evening service. Sunday school and Bible class at 2:30 p.m. All people welcome.

BAPTIST—Public service at 11 a.m. and 7:30 p.m. Pastor, Rev. C. W. King, residence 524 Hoover street, corner of Josephine street; telephone L469. P. O. Box 396. Sunday school and Bible class, 2:30 p.m. Morning subject, "Our Overseas Courtship." Evening subject, "The Skeptic's Conundrum." In view of the Trafalgar day celebration both services will be of a patriotic nature.

CHRISTIAN SCIENCE—Morning service, 11:30; evening service, 7:30 o'clock, both in the K. of P. hall, Baker street east. Wednesday evening service at 8 p.m. Visitors cordially welcome.

SALVATION ARMY—Victoria street. Morning service, 11 a.m.; Sunday school, 1:30 p.m.; praise service, 3 p.m.; evening service, 7:30. Capt. H. Jackson, commanding officer.

BONNINGTON PARISH—St. Mary's, Bonnington, at 9 a.m.; Robson, at 11:15 a.m.; Castlegar, at 7 p.m. Rev. J. P. Kennedy, vicar.

GUARD BABY FROM COLD

The mother can guard her little ones from colds during the damp, cold fall days by the use of Baby's Own Tablets. The Tablets act as a gentle laxative, keeping the bowels working freely and the stomach sweet—that is the secret of preventing colds. The Tablets will not only prevent or banish colds, but will cure constipation, indigestion, expel worms and make teething easy. They are sold under the guarantee of a government analyst to contain no harmful drugs and may safely be given to the newborn babe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

TO GO TO BALKANS WOULD BE DESERTION

Nationalist Leader to Stay in Canada to Fight for Political Principles.

(By Daily News Leased Wire.)

QUEBEC, Oct. 18.—As soon as he learned of Mr. Monk's intended resignation, Armand Lavergne, the Nationalist leader, wrote a letter to the Hon. Sam Hughes, withdrawing his application to be sent by the department of militia as a military envoy to the war in the Balkans. In his letter he says that he stands by Mr. Monk and he stays in Canada to offer his services to the latter in his fight for Canadian autonomy. He thinks that under the present circumstances, his departure for the Balkans would be considered a desertion by his fellow citizens and he cannot accept what would be considered a favor from the present government.

Mr. Lavergne finds another reason for his decision in the fact that he has been requested to do his share in the actual fight for the rights of the French Canadian minority of Ontario.

Interviewed today, Mr. Lavergne said he was very sorry to abandon his idea of going to the Balkans but he could not possibly leave the battlefield here at the moment of battle.

"The liberty of the Christians in the Balkans is very important," he said, "but the liberty of Canada is still more to me. A plebiscite seems the only reasonable solution of the controversial naval question.

"The Nationalist program is the surest guarantee of Canadian prosperity and union and the integrity of the empire. I still believe in territorial defence as the sole obligation of Canada until we have representation in imperial affairs."

At Cabinet Meeting.

(By Daily News Leased Wire.)

OTTAWA, Oct. 18.—The cabinet met both this afternoon and evening to consider matters in connection with the opening of parliament which all the members agree in stating will be on Thursday, Nov. 21. Hon. F. D. Monk attended the afternoon session of the cabinet and this indicated that his resignation has not yet been accepted by the premier, if, indeed, it is yet in his hands. After the meeting was over, Mr. Monk said he had no statement to make but did not deny that his resignation would be in and take effect in the course of a few days. There is a general impression that following the formal resignation of Mr. Monk the portfolio of public works will be placed under the care of Hon. George Perley, minister, without portfolio, until such time as a new minister is named and secures election.

LAST OF GANG CAPTURED.

(By Daily News Leased Wire.)

EDMONTON, Oct. 18.—Chief of Police Carpenter received a telegram this afternoon from Chief Davies of Lethbridge, saying he has caught James O'Brein, the last of the gang still at large who are supposed to have assaulted and almost killed Constable Allan of Wetaskiwin a short time ago. O'Brein was going under the name of John McKay.

Timely Warning
If your eyes tire easily take timely warning. This is a certain indication that they are called upon to do more than they can perform without assistance, and that assistance can only be obtained from correctly fitted glasses. Optical work has been my life study and the great success that has attended my work in Nelson is sufficient guarantee that you will receive perfect satisfaction at my hands.
