MARCONI SYSTEM RECOMMENDED

Report of Committee on Wireless Systems

GOVERNMENT SHOULD ERECT STATIONS

Marconi Company Alone Has Practical Experience Necessary for Work

(By Daily News Leased Wire.)

LONDON, May 1.—The advisory committee appointed by Right Hon. Herbert Samuel, postmaster-general, to investigate regarding the merits of the existing systems of long distance wireless telegraphy, particularly as to their capacity for continuous communications over distances required by the imperial chain, has issued its report. According to the committee's findings, their investigation showed that the Marconi system is at present the only system of which it can be said with any certainty that it would be capable of fulfilling the requirements of the imperial chain.

"This must not be taken to imply," says the report, "that the Marconi company must necessarily be employed as contractors for all the work required for the imperial chain. Indeed, it might be better, this committee thinks, for the government to undertake the construction and equipment of the stations, acting for that purpose under the best technical and scientific advice which can be obtained. "On the other hand," the report goes on, "it may be said that there is no doubt of the fact, that at the present moment the Marconi company alone has practical experience in the sort of long distance work required, including experience in putting down stations, in organizing traffic and in coping with the difficulties that arise in the new industry; and the value of such experience and organization may well outweigh all other considerations if rapid installation and immediate and trustworthy communication be desired."

Having pointed out that wireless telegraphy is in a condition of rapid development, the committee adds: "In our opinion it is desirable that in constructing and equipping the stations of the imperial chain that the post office should not be pledged to the continued use of any apparatus now used in any so-called system or be subject to any penalty by way of continued royalties or otherwise for the use of any apparatus which may be installed. It is also imperative that in any contract which may be entered into the post office should reserve liberty of action."

The systems inquired into were the Marconi, the Telefunken, controlled by Messrs. Siemens Bros., the Poulsen, controlled in this country by the Universlay Radio Syndicate, the Goldschmidt, controlled by the Anglo-French Wireless company, and the Maletti, controlled by the Maletti company. The report is signed by Lord Parker of Waddington, W. Duddell, F.R.S.; Dr. Glassbrook, F.R.S.; Sir Alexander Kennedy, F.R.S.; J Swinburne, F.R.S., and E. H. Rayner.

COMMISSION TAKES EVIDENCE

Labor Commission Hears Witnesses at Lytton—Workmen Say Unable to Get Wages.

(By Daily News Leased Wire.)

LYTTON, B. C., May 1.—The labor commission heard evidence here on Thursday and Friday following its Tuesday and Wednesday interesting sessions at Merritt. There were several widows of victims of an explosion of some months ago, who testified that they had not received any compensation. Several workmen, also of the Diamond Vale Coal company, said they were unable to get wages claimed to be due them. These workmen were holding many meetings on the situation, but getting no satisfaction, they declared. J. A. Boyd, manager of the Diamond Vale Supply company, on being asked what prospects he thought there was of the widows getting the money claimed, said he thought they would be paid, as he knew an effort had been made by Mr. Smith to get the money.

"In what way?" asked the chairman.

"By selling property," replied Mr. Boyd.

"How much property have they around here?"

"About 2,200 acres of coal, somewhere in that neighborhood."

"What do you know about the other victims of this explosion?"

"None of them has been paid. They are all in the same situation."

He added that credit has been offered to the widows in the Diamond Vale Supply store, but the commission did not learn to what extent this privilege has been made use of.

KISSES GUARD WHEN RELEASED

Camorrist Priest Released From Prison—Another Prisoner Mad—Will be Transferred to Asylum

ROME, May 1.—The Camorrist priest, Vitozzi, who at the Viterbo trial was sentenced to six years hard labor, was released from prison today. Counting the five years spent in jail awaiting trial he had served his sentence.

Vitozzi, who had been confined in the Florence penitentiary kissed the guard when he was released and loudly proclaimed his innocence. He drove at once to a church, where he prayed for a long time. Afterwards he was escorted to the station and took the first train for Naples.

One of the Camorrists convicted at Viterbo Mattei, who is serving a sentence of 20 years, has gone mad, and will probably be transferred to an insane asylum.

SENSATIONAL SHOOTING AFFRAY

Young Girl Victim—Prominent Business Men of Alberta Town Said to Be Implicated.

CALGARY, Alta., May 1.—Word of a sensational shooting affray which occurred in Coronation on Sunday night, but which, owing to the prominence of the people involved has been kept secret, filtered through to Calgary last night and mounted policemen are now investigating the affair. As the result of the affray Edna Harris, a young girl, is said to be near death with a bullet through her shoulder and two prominent business men are being kept under surveillance pending the outcome of her injuries. The girl has given an ante-mortem statement, which exonerates the men, and refuses to talk, except that the shooting was accidental.

TENSION OVER SCUTARI SLACKENS

Danger of Hostilities Has Not Evaporated

COMPENSATION FOR EVACUATION

Montenegrins Preparing City for Siege -- Emperor Summons Council

(By Daily News Leased Wire.)

LONDON, May 1.—No date has yet been fixed for the reassembling of the peace conference here, but the powers are urging Turkey and the Balkan allies to send their delegates as soon as possible in the belief that the conclusion of peace will result from the settlement of other problems. Although the tension arising over the fate of Scutari has been loosened, the danger is not past. It is understood that Montenegro is willing to evacuate that town on condition that compensation be allowed, but Austria heretofore has insisted on unconditional evacuation, and if she persists in this attitude a peaceful arrangement will hardly be possible.

The Austrian emperor has summoned an extraordinary crown council for tomorrow, which will include the premiers and war ministers of both Austria and Hungary. Reports through Vienna say that the Montenegrins are preparing Scutari for a siege.

Russia Sends Threatening Note.

(By Daily News Leased Wire.)

CETTINJE, May 1.—The Russian minister of Montenegro today presented a curt note to the government urging immediate compliance on the part of Montenegro with the demand of the European power for the evacuation of Scutari and intimating that a policy of defiance was likely to lead to the ruin of Montenegro.

What Austria Fears

(By Daily News Leased Wire.)

LONDON, May 1.—A well known diplomat talking about the union of Servia and Montenegro to form a new "United States of the Balkans" outlined yesterday by the Journal, said: "For the present both states would be independent as regards us, but the whole diplomatic representation would be in the hands of Servia and the army would be united on the principle of a dual monarchy. This arrangement, however, is only a preliminary to a later absolute unification of the two kingdoms, not as a dual monarchy, but on the following lines: After the death of the present King of Servia the dynasty of Montenegro would be called upon to become a virtual dynasty of the Servians. Thus the present crown prince of Montenegro would become in the future the King of the United States of Servia and Montenegro. This explains why the Servians practically defied Europe and sent soldiers and guns to Montenegro because they look on Montenegro as an integral part of a greater Servia which is the dread of Austria.

"This is where the real trouble comes from, the Servians dream of a greater Servia, comprising 10,000,000 Serbs and containing Servia, Montenegro, Bosnia, Herzogovina, Dalmatia Croatia and Illyria. In order to prevent the possibility of such a unification, Austria occupied Bosnia and Herzogovina and drove the wedge between the eastern and western Servians as the Croatians and Servians speak the same language.

"If Servia and Montenegro unite they will have a very strong body of people facing Austria along the borders of Bosnia and Herzogovina and stretching along Dalmatia and further north. It is in the interest of Austria to keep up the separation because the dual monarchy is otherwise entirely surrounded. That is why Austria is now so restive.

"Independent Albania is part of the same program of separation of east and west and by carrying on a Catholic propaganda of relieving the Croatians from the Servians who belong to the orthodox Greek church Austria has been working on these lines for a long time."

Return Former Delegates.

(By Daily News Leased Wire.)

SOFIA, May 1.—The premier today informed the representatives of the powers that at the conference to negotiate peace, which is to be held in London, Bulgaria will be represented by the same delegates as at the first conference.

CAME FROM AFRICA TO FATHER AT KELOWNA

(By Daily News Leased Wire.)

VANCOUVER, B. C., May 1.—On board the liner Makura which arrived at 5:30 a.m. today from Australia and New Zealand were eight youngsters who have probably set a record for juvenile travellers, for they have come all the way from Umtali, Africa to join their father, who is at Kelowna. The name of this family is Schasnall, and Mrs. Schasnall came with the children, the oldest of whom is 12, while the youngest is aged two. The children stood their long journey very well.

SOCIALISTS PARADE IN MONTREAL

Large Crowd Listens to Speeches—Police and Workmen Clash at Wilhelmshaven.

(By Daily News Leased Wire.)

MONTREAL, May 1.—Following a procession of Socialists, in which close to 10,000 people participated, the doctrines of socialism and the wrongs of humanity which could be righted by those doctrines, were expounded in 10 different languages by some 40 orators tonight. The procession, which was probably the largest of its kind ever held here, was composed of about 5,000 members of Socialist bodies, but was later increased to almost double that number by crowds of sympathizers who joined the ranks, being mostly trade unionists. The procession was an orderly one and, arrived at the Champ de Mars, divided up into several groups. Each of the orators took up a position on the upper slopes of the Champ de Mars, being surrounded by their respective followers, red banners marking the vantage point of the speaker.

Perfect Tranquility.

ROME, May 1.—May 1 coinciding with Ascension day this year, workmen and traders generally took a holiday, but perfect tranquility was reported throughout the provinces. Even at Milan, where 25,000 workmen held a meeting, no disturbances occurred.

No Processions in Prussia.

BERLIN, May 1.—May day processions generally were forbidden by the Prussian officials, but the local authorities were not so strict in many of the other German provinces.

Police Attack Workmen.

WILEMSHAFEN, May 1.—The police attacked and wounded with their weapons a number of workmen participating in a May day procession in the grand duchy of Oldenberg. There were 2,000 men in the parade, and they disregarded the warnings of the boundary police and attempted to cross the frontier into Prussia. The police thereupon attacked them with drawn swords and dispersed them.

DUCHESS OF CONNAUGHT MAINTAINS IMPROVEMENT

LONDON, May 1.—The night bulletin on the condition of the Duchess of Connaught announced that she had maintained the slight improvement so favorable in the morning.

PLURAL VOTING BILL PASSES SECOND READING

LONDON, May 1.—The house of commons tonight passed the second reading of the plural voting bill without division. A motion to reject it was defeated, 314-227. This is a bill to abolish plural voting at elections in the British isles. It was introduced by the government on April 8, when it passed its first reading by a vote of 303-107.

GIVE GENEROUS AID TO FAMILY

Abbott Fund Approaches Three Hundred Dollars and Many Lists Are Still Out.

Response to the appeal for money to aid the widow and children of the late R. O. Abbott, who was drowned from the steamer Moyie last Saturday, has been generous, the amount collected to date totalling $275.25. Of this sum Canadian Pacific Railway Constable P. B. Carpenter has collected $239.25 and The Daily News has received $36. The amount already acknowledged by The Daily News is $29. New subscriptions received at this office yesterday were:

A Friend (M)	$1.00
A Friend (lady)	1.00
A Friend (C)	1.00

In a letter to The Daily News, Mr. Carpenter expresses thanks, on behalf of the widow and children, to all those who have generously contributed, and makes special mention of the officers and men of the railway in every branch for their splendid co-operation and assistance. He has paid in $150 to Mrs. Abbott's account at the Imperial Bank of Canada, and expects to receive many additional subscriptions, as a number of lists are still out.

Subscriptions received by Mr. Carpenter will be published.

WOMEN HAVE NARROW ESCAPE

Fire in Vancouver Young Women's Christian Association Building—Scene of Wild Excitement.

(Special to The Daily News.)

VANCOUVER, B. C., May 1.—Three young women, Miss Gertrude Lawson, Miss McGuire and Miss James, had narrow escapes from burning to death early this morning when fire broke out in the Young Women's Christian association almost at their bedroom doors and gained considerable headway before being discovered. The girls' rooms were all situated on the top floor of the east wing. The fire came through a defective chimney flue immediately beneath the frame roof.

Scenes of wild excitement followed upon the discovery of the fire and 74 residents of the institution poured into the halls in confusion. Had the fire been discovered a few moments later it is doubtful if any of the three named would have escaped. The building was partly damaged.

STRIKE TO CLOSE ISLAND MINES

Employes of Nanaimo Coal Area Called Out

TWENTY-FIVE HUNDRED MEN AFFECTED

Property Will Be Preserved From Damage and Deterioration

(Special to The Daily News.)

VICTORIA, B. C., May 1.—Acting under authority conferred by President White of the United Mine Workers of America, Frank Farrington of Seattle, representative for the Pacific Northwest of that international organization, has instructed Robert Foster of Nanaimo, the local president, to call out all employes of the Nanaimo coal mining area until matters in dispute between the owners and mine workers in the Cumberland and Ladysmith fields have been adjusted to the satisfaction of the United Mine Workers of America, and Mr. Foster has issued the strike order.

The strike declaration is alleged to be in violation of an agreement entered into with the new Vancouver coal company, which does not expire until September. The strike order promulgated today particularly effects the workers of the Nanaimo, Wellington and Jinglepot collieries to the number of approximately 1,500 in the Nanaimo mines and 1,000 in the others, and is designed to have the effect of tying up indefinitely the operations of all Vancouver Island. In his letter Mr. Farrington declares the strike order to have been issued only after long deliberation over the industrial situation in Vancouver Island by the United Mine Workers of America executive, and to have directly resulted from the non-attendance of representatives of the Canadian Collieries, Limited, at a conference announced by the International Labor organization for consideration of the Cumberland and Ladysmith situation.

The action now taken is based upon an alleged combination of the island mine masters to resist the demands of the non-working employes of the Canadian Collieries, Limited, it being the asserted intention of the United Mine Workers of America to "fight combine with combine."

Local President Foster's instructions from Mr. Farrington acting, he asserts, with full authority from President White, are to draw out all workers in every operating coal mine of the island, excepting a sufficient force to preserve mine property from damage or deterioration, and to assure the non-unionists, as well as members of the international, that they will receive maintenance allowance from the United Mine Workers of America so long as the strike continues, and this is ordered to be until such time as the owners enter into an agreement with the United Mine Workers of America assuring improved conditions in the mines and wage scale increases, "in harmony with the increased cost of living."

How many of the employes of the Nanaimo and neighboring mines will obey the strike order will not be known until tomorrow, today, a recognized old country labor day, having been granted as a holiday by the New Vancouver Coal company. It is anticipated, however, that at least 60 per cent will not report for duty in the morning. In Mr. Farrington's strike order the workers are cautioned against breaches of the peace, disorders or molestation of property of the company.

Another strike involving 250 metal workers is in progress at Bullens shipyards, where those still working are harassed going and coming, several serious conflicts having occurred. One man was set upon last night by 30 strikers, and so seriously injured that he is now in a hospital, a broken jaw being included in his hurts. The yard owners are asking special protection for their works and men.

FOREIGN CONTRACTORS SECURE CITY BUSINESS

(By Daily News Leased Wire.)

CALGARY, Alta., May 1.—Within the last six months city contracts aggregating $1,500,000 have been given to foreign contractors without giving local concerns an opportunity to bid on the work was the statement of President Brocklebank of the builders exchange at the annual meeting of that body. The matter has been referred to a special committee for investigation.

UNDERWRITERS CAN PLACE CITY TREASURY BILLS

(By Daily News Leased Wire.)

CALGARY, May 1.—London underwriters representing the Bank of Montreal, the city's fiscal agent, have cabled that they can place the city's treasury bills to the value of $2,000,000. No price is stated.

WILL VISIT ROME

ROME, May 1.—It is said here that King Alfonso of Spain will pay a visit to Rome some time in November.

FRUIT GROWERS IN CONVENTION

Formation of Central Selling Agency for Okanagan District—Will Appoint Manager.

(Special to The Daily News.)

VERNON, B. C., May 1.—The Okanagan fruit growers' conference, in session here to decide the constitution and bylaws for a central selling agency to handle this year's crop, will not conclude its labors until tomorrow. An executive is to be selected, who will appoint a manager. Many delegates from all parts of the Okanagan are attending.

"When you have decided what you want the government will back your plans," R. Robertson of Vancouver told the convention. He has been touring the whole district under the auspices of the government. F. A. Sterling, for the Canadian Pacific railway, also endorsed the scheme. The formation of associations for packing and handling fruit is proposed under the government plan, these to be incorporated under the Agricultural Associations act, under which the government may make loans. These local organizations in Okanagan are to be linked into a central selling agency this year. In another year the Kootenay, Boundary and lower mainland are to be similarly organized.

FRENCH FIGHT FIERCE BATTLE WITH TRIBESMEN

(By Daily News Leased Wire.)

RABAT, Morocco, May 1.—A French column, part of Col. Mangin's force, fought a fierce engagement on April 28 at Sidiali with a strong body of tribesmen affiliated with the revel El Hiba. The French troops were ambushed, but succeeded in repulsing the tribesmen after seven hours. The French lost 18 killed and 41 wounded. The rebel casualties were very large.

BIRTHDAY OF DUKE OF CONNAUGHT

Bells Rung and Royal Salute Fired—Kaiser Sends Autograph Letter of Congratulations.

(By Daily News Leased Wire.)

LONDON, May 1.—Today is his royal highness the Duke of Connaught's birthday. The bells of Windsor were rung and a royal salute fired in the Long Walk. The mayor sent his royal highness a message of congratulation, expressing the burgess' earnest prayer that the brave battle the duchess is making would lead to a speedy and lasting restoration to health. The duke was the recipient of many birthday congratulations, among which was a wire from his majesty from Newmarket. Queen Mary, Queen Alexandra and other members of the royal family personally visited Clarence house this afternoon. Col. von Baumbach of the Ziethen hussars, and Count Blucher, adjutant of the same regiment, presented his royal highness with an autograph letter from Kaiser Wilhelm, congratulating him upon the completion of 23 years' service in the regiment. The duke and Prince Arthur, who was with him, were in the uniform of the Ziethen hussars.

WARM SUNSHINE IS BENEFICIAL TO POPE

ROME, May 1.—The pope is decidedly better. The physicians ascribe his improvement to the warm sunshine. The pontiff has improved to such an extent that Professor Marchlafava has decided to discontinue his two visits a day and instead will make three or four visits a week.

Dr. Amici remains in constant attendance on the pontiff, however.

SEVEN PROPOSALS IN SEVEN WEEKS

Impossible for Women to Escape Matrimony in West

FORTY MARRIED ON RAILWAY JOURNEY

Speaker at Immigration Board Meeting Criticises Canadian Law

(By Daily News Leased Wire.)

LONDON, May 1.—Presiding at the annual meeting of the Central Immigration board yesterday, Sir E. Durning Lawrence spoke in stirring terms of the anomaly provided by the Canadian immigration laws, which, he said, prohibited the entry of any person whose passage had been wholly or partly defrayed by any public body or charitable organization, yet if he wanted to send a "waster" to Canada he could do so with impunity. It told hard upon the board or any similar body that, after careful inquiry into a man's fitness and assisting him out, he should be refused entry.

Some details of the opportunities for matrimony were then given by Miss Teelgen, who spent the greater part of the last four years in Canada. She said that if women went out to the west they were married inevitably. She herself had had seven proposals in seven weeks, and she did not know even the names of some of the men, one of whom was a cook. In a Canadian Pacific railway train a party of 45 girls went from Montreal to Vancouver. Forty of them got married on the way, and only five arrived at their destination. (Laughter.)

J. O. Smith, immigration officer, said one of the objects of the Central Immigration board was that it professed to encourage and promote the emigration of desirable and suitable persons from the United Kingdom to the dominions overseas. It was a matter of regret, he said, that this policy had not been fully recognized years ago. Twelve or 13 years ago 67 per cent of the total emigration from this country went to foreign lands. Last year this state of things was reversed, and 82 per cent of the total emigration went to places within the empire.

FIRST DOUBLE TRACK WORK—CALGARY TO WINNIPEG

(By Daily News Leased Wire.)

CALGARY, Alta., May 1.—George Bury, vice-president and general manager of the western lines of the Canadian Pacific railway, arrived in the city today on a tour of inspection. He states that the double tracking of the line will first be completed between Calgary and Winnipeg, after which the work of double tracking between this city and the coast will be taken up.

IS NEW PRINCIPAL OF COLUMBIA COLLEGE

VANCOUVER, B. C., May 1.—Rev. A. M. Sanford, formerly of Sandon, will be the new principal of Columbia college, New Westminster.

British Commons To Debate Woman Suffrage

(By Daily News Leased Wire.)

LONDON, May 1.—The debate on the second reading of the woman suffrage bill will begin in the house on Monday. Both sides of the controversy are canvassing for and against the bill. The opinion prevails that it will be defeated by a small majority.

In order to avoid a repetition of the heated scenes which occurred last session between Louis Harcourt and Chancellor Lloyd George, the cabinet has decided that only two ministers shall speak on the bill, the prime minister against and the foreign secretary, Sir Edward Grey, for the measure.

The authorities are making a strong effort to follow out all the ramifications of the militant campaign and today began a search of the private residences at Kingsway of the suffragettes now under arrest. Among the documents seized is said to be a list of subscribers to the suffragette funds, and it is asserted a sensation will be created if it becomes public. The Duchess of Beresford, in a published statement, expressed the opinion that a much larger body of English women than is supposed want the franchise, but are afraid to declare themselves publicly for fear of being identified with the militants.

Another Arrest.

(By Daily News Leased Wire.)

LONDON, May 2.—Another arrest took place last night in connection with the campaign for the suppression of the militant suffragettes. An analytical chemist named Clayton was taken into custody at Richmond. He will be charged with conspiring with "General" Mrs. Flora Drummond and other militant leaders.

Various stories of a sensational kind appear in the London morning papers. One of these is to the effect that the police have found a document indicating a plan to set fire to every large timber yard in London and at the same time to cut all the telephone wires in the vicinity of the yards to delay the fire department. Another story describes attempts which have been made to engage an aviator to convey Mrs. Pankhurst out of the country. It is also rumored that Christobel Pankhurst was in London yesterday.

Real War.

(By Daily News Leased Wire.)

LONDON, May 1.—"From now on it will be war—real war."

This was the deliverance of the presiding officer, Miss McCaulay, of the militant suffragettes weekly meeting in Essex hall tonight. The women cheered the announcement lustily.

That the belligerent suffragettes are not daunted by the capture of their stronghold and the arrest of their leaders was evidenced by the attendance which over-reached the capacity of the hall. Hundreds of women who were unable to get in remained outside the gates throughout the meeting. In attempting to suppress the militants union, Miss McCaulay declared the government had tackled a bigger job than it was able to carry through. No amount of coercion, imprisonment of its members or torture by forced feeding would make them abandon the fight until victory had been won.

Cannot Upset Market Basket Reductions

(By Daily News Leased Wire.)

WASHINGTON, May 1.—All efforts of the opposition to disturb the "market basket" reductions in the Democratic tariff bill failed in the house today despite the fact that the Republican orators sounded warnings of ruined industries, enforced idleness and empty cupboards to follow the enactment of the Underwood bill. Still championing the bill as the greatest that has ever been written for the benefit of the people, the Democrats were deaf to the pleas of the representative Republicans of beet sugar states against free sugar in three years; unmoved by the charge that they legislated into the hands of the beef trust by placing duties on live stock while free listing their products, and determined to rush the passage of the bill at the earliest possible moment.

The break from the solid front of the majority came, however, when Louisiana Democrats, led by Representative Broussard, appealed to Republican Leader Mann for further time in which to speak on the sugar schedule, and Representative Kinkaid, a New Jersey Democrat, uttered a prediction that the senate would strike out the ways and means committee's 10 per cent rates on live stock. When Representative Sloan of Nebraska introduced an amendment on the increase of the time rate on cattle from 10 to 15 per cent after a 25 per cent amendment by Fordney of Michigan had been rejected, Mr. Kinkaid declared that he believed the ways and means committee had kept the platform pledges to the people when they had reduced live stock rates to 5 per cent, but he felt that the committee should have placed live stock on the free list.

"I believe and hope," said Mr. Kinkaid, "that when it comes back to us from the senate the duty will be cut off and that every Democrat on this floor will support it."

This aroused prolonged applause from the Republicans, who earlier were stirred to enthusiasm when Mr. Broussard declared that the sugar rates proposed by his party would redound only to the benefit of the sugar trust. The test vote on sugar came on an amendment offered by Mr. Mann to strike out the provision placing sugar on the free list in three years. It was lost, 88-186. Representative Hardwick of Georgia defended the rates for the majority, describing America's sugar industry of the "hot house" variety, unable to stand on its own feet and taking excessive taxes from the people. Mr. Mann opposed the rates and Mr. Underwood closed the debate.

Amendments Rejected

(By Daily News Leased Wire.)

WASHINGTON, May 1.—Among the rejected amendments of the agricultural schedule were:

By Mr. Kent of California, to put cattle on the free list; Willis of Ohio, sheep from 10 per cent to $1 per head; Woods of Iowa, meat from the free list; Sloan, Nebraska, meats from 10 to 25 per cent; Steenerson, Minnesota, potatoes from the free list to 25 cents a bushel of 60 lbs.; Helgeson, Minnesota, barley from 15 cents to 25 cents a bushel; Morlean, Oklahoma, broom corn from the free list to $35 a ton; Forney, Michigan, malt, 10 per cent; Brown, New Jersey, macaroni from 10 to 100 per cent; Fordney, oats from 10 to 15 cents a bushel.

MAIDSTONE WILL PRESERVE ANCIENT TITHE BARN

(By Daily News Leased Wire.)

LONDON, May 1.—At a meeting of the Maidstone town council yesterday the mayor announced that the local board had empowered the council to borrow $10,000 to be repaid in 60 years, to enable it to purchase the famous Tithe barn which a wealthy American was reported to have contemplated moving to the United States. The council intends using the building as a fire building.

Belgian Scares Neighbors—Believed to Be Insane—Fined for Taking Clothes

(Special to The Daily News.)

FERNIE, B. C., May 1.—A man named R. W. Chapman was given a sentence of 15 days on Monday for infringement of the Railway act. He was caught in the act of jumping on the evening local after it had started, and was found to be without a ticket. He had on his person the sum of $3.50 which he said he was saving for meals.

The police have in the toils one, Adrian Patris, a Belgian. It is believed that he is insane as he has lately been visiting his compatriots nightly and placing crossed sticks in the windows, leaving axes arranged in such a way as to arouse their superstitions and make them feel generally uncomfortable. They finally visited the police station and informed the officers that they would not go to bed until the man was in custody. He is held pending examination.

Another case which came before Judge Thompson was that of John Guidoccio of Coal Creek, who was charged with taking a suit of clothes belonging to a neighbor at the mines. He was fined $25.

CLEARING ROADS ON PROCTOR TOWNSITE

(Special to The Daily News.)

PROCTOR, B. C., May 1.—A gang of five or six men are busy clearing up the lateral roads on the Proctor ownsite under the direction of A. E. Walton, and another gang under John McKay of Balfour has started to repair the Proctor to Harrop road, commencing at the Harrop end.

G. F. Brown, who has been renting a shack in Proctor for some months has recently bought a small piece of land from R. Walton and is going to build a shack upon it, with the assistance of A. E. Walton.

Orlando P. Appleton left Sunshine Bay on Tuesday by the Moyie for Eight Mile, where he and his brother O. B. Appleton, have some land. He expects to be away about a week.

Capt. W. H. D. Haig-Smellie has accepted the post of mate on board the Canadian Pacific railway tug Ymir.

J. T. Tyock of Greenwood has been spending a few days looking round this neighborhood on behalf of a friend who wishes to buy land and settle here.

Mrs. E. Nicoll, who is at present staying with Mr. and Mrs. P. Pigueron at Balfour, has decided to rent S. Blackmore's house at Proctor, and she and her daughter will be moving into it shortly.

T. G. Proctor came in on the Kuskanook on Tuesday from Winnipeg and stayed at the Outlet hotel, and is leaving for Nelson today.

There will be a general meeting of the Conservative association at Galbus hall on Saturday, May 10, at 7:30 p.m.

BAYNES AND WALDO NOTES

(Special to The Daily News.)

BAYNES, B. C., May 1.—Work on the pumping station of the Baynes Lake Land company's irrigation scheme, began a fortnight ago, and about 2000 acres can utilize the water when connections with the main supply are put in. The company is aiming this year to cover the needs of the whole 6000 acres before bringing out any more large parties of settlers.

A fortnight ago the two Waldo Lumber mills, Ross', Saskatoon, and the Barker company, began work in earnest with time and a quarter, and this week the Adolph Lumber company followed suit. It is anticipated that the 7 ft. of snow still on the mountains will mean heavy June floods on the Kootenay. This not only means a shut down for the Waldo mills of indefinite length, but also a severe trial of the new wooden beds there, quietly opened for traffic week or two ago, costing $11,000.

A new 32-ton logging engine made a first trip across the Waldo bridge. It is the second for the Ross Saskatoon mills and reflects credit on their energy and enterprise.

The Presbyterian Sunday school scholars had an enjoyable picnic (illegible) same day under the direction of the pastor, Rev. W. L. Cowan, though the weather was rather bleak part of the time.

F. Bartram, who was burned by the bursting of a steam pipe at the Adolph Mills, on the head and body three weeks ago, returned from Cranbrook hospital on Thursday last, but will not be able to resume his post for a month or two yet owing to the shock to his system.

W. J. Wright, the popular Baynes station agent, returned on Wednesday last looking fit and well, after a well earned holiday of a month in San Francisco and Omaha.

The Anglican congregations at Baynes and Waldo have hardly had time to rejoice over the return of their rector, Rev. J. Ross Colquhoun, after absence through illness since last November, before they are again mourning his absence. He left on Monday for Rochester, Minn., to undergo a very serious operation for internal trouble under Drs. C. and W. Mayo. He leaves with every reason to hope for a thorough and final restoration to health.

The Anglican Ladies' Guild for Baynes and Waldo organized an exceptionally fine concert and dance which was a musical and financial success. The program given below combined strength, variety and quality in an unusual degree—the humor, especially of the three duets, "Our Farm," by Mrs. Taylor and Miss Evelyn Lea; "The Two Cousins," by Mrs. Stirling and Mrs. L. A. Smith, and "A. B. C. D," by Mrs. Madden and Mrs. J. Brooks, which delighted the large and representative audience; the vigor, dash and finish of Mrs. C. Wright in "The Three Beggars," and Mrs. Nutt in the "Three Jolly Sailor Boys"; the sweetness and expression of Mrs. Wright's "For All Eternity," with violin accompaniment by Mr. Wright; the "Lost Chord" by Mrs. F. Welsby; the tense feeling of Mrs. Aye's "Heartsease"; Mrs. Taylor's "Promise of Life,' were all strong items in a high class program.

The orchestral pieces merit also a special word of praise, and Baynes may reckon itself fortunate in such musical talent so ably led by L. A. Smith. The program follows:

Part 1.

Selection ....."A Viscayan Belle"
Baynes Orchestra
Song ..... "The Scout Law"
Master H. Harris.
Spanish Guitar Song,...Mrs. Barnard
Duet ..... "Our Farm"
Mrs. Taylor and Miss E. Lea
Song ..... "Go to Sea"
Mr. Marshall
Clarinet Solo.... "Overture Cavalier"
Mr. Smith
Song ....."The Lost Chord"
Mrs. F. Welsley
Duet ....."Two Cousins"
Mrs. Stirling and Mrs. Smith
Song ....."For All Eternity"
Mrs. Wright

Part 2

Selection ....."A Dream of Spring"
Baynes Orchestra
Song.. ....."Promise of Life"
Mrs. Taylor
Recitation ..... "Heartsease"
Mrs. Aye
'Cello Solo ....."Chanson Triste"
Mrs. J. Welsley
Song ....."The Three Beggars"
Mrs. Wright
Duet ..... "A. B. C. D."
Mrs. Madden and Mrs. J. Brooks.
Song ....."Three Sailor Boys"
Mrs. Nutt
Trio ....."Rule Britannia"
Tableau ....."The British Empire"

T. Toule acted as an efficient and humorous chairman. The countries represented in character in the tableau were England, as Britannia; Ireland; Scotland, Wales, Canada, by a Snow Shoe girl and a Royal North West Mounted Police; India, Australia, New Zealand, Africa, Hong Kong Straits Settlements, West Indies, Burma, Fiji Islands, Malta.

Just now the deepest sympathy is felt throughout the district for Mr and Mrs. W. H. Griffiths of the Adolph Lumber company for the very serious and critical condition in which their only child and daughter lies from an attack of pneumonia. There is reason to hope, however, for her final restoration to health under the skilled hands of Dr. Green of Cranbrook, Dr. Lasl of Waldo and Drs. T. F. and Mrs Saunders of Baynes.

EDGEWOOD ARRANGING CELEBRATION

Committees Are Selected for Twenty-Fourth of May Picnic—Children's Prizes

(Special to The Daily News.)

EDGEWOOD, B. C., May 1.—Last Thursday a public meeting was called under the auspices of the Farmers institute to make arrangements for the annual picnic to celebrate May 24. W Sayer took the chair and the meeting was very well attended. After some discussion it was unanimously carried that the picnic be run on the same lines as formerly, namely by committees chosen by the public and not by any one particular club or institute. Votes followed for the formation of the finance, sports, catering and general work committees as follows:

Finance committee—W. Sayer, W. Boothby, J. Caldwell, W. Jowett.

Sports—W. A. Calder, D. Donaldson, A. Williams, Miss Mary Murton, Mrs. Williams, W. Schepmaker, Miss Betty Timaens.

Catering—Mrs. Jordan, Mrs. Morrison, Walter Bull, Mrs. Jowett, J. W. Ford, D. Calder, W. J. Williams.

General Work—W. Schepmaker, H. York, H. DeGans, W. S. Johnston, W. Sayer, J. Burns, A. Williams, J. W. Ford, J. McGuire, G. McCulloch.

The first named in each committee to be chairman and to call his or her committee at an early date and make preparatory arrangements. The four committees to meet two weeks hence and report progress. It was further decided that the children's prizes this year should not take the form of money, but that small awards should be purchased and prepared beforehand for the occasion.

Invitations to all the surrounding settlements have been sent out asking them to join in the celebration. The meeting adjourned after a vote of thanks to the Farmers institute had been passed.

The Womans auxiliary met at Mrs. Murton's house last week. Miss Hilda Jowett became a member, making a total roll-call of 16, which is very encouraging to a newly formed branch.

W. A. Calder is now busy getting his tie-loader in order for the summers work. He has a contract for 22,000 ties for the Canadian Pacific railway, and will load some 4000 to 5000 here at Edgewood and 17,000 at Lascelle's Landing.

Mr. De Gans' sister and her husband and brother-in-law have lately arrived from Holland.

Two Italians with through tickets from Montreal to Kelowna, arrived, through some mistake, in Edgewood on April 29.

Mr. Blair has almost completed his slashing contract on Dr. Church's lot and Mr. DeBois will at once take his donkey engine and start stumping operations there. About a quarter of an acre has already been prepared for garden produce. Dr. Churchs' three gardeners just out from the old country are busy there at work.

Benjamin Nash has been busy this last week fencing his orchard on his ranch down the lake. His eldest son, Egbert, has been busy aiding him in the work.

Walter Jowett is busy fencing Rankine Ellis' ranch on the Edgewood estate. Mr. Ellis and family are expected to arrive very shortly.

Percy Coates is drawing up plans for Dr. Basil Church's large residence.

On Tuesday David Donaldson, accompanied by E. Macpherson, left on the afternoon boat for Nelson. Mr. Donaldson is still suffering from the effects of his late accident and is obliged to seek treatment at the Kootenay Lake General hospital.

W. S. Johnston has issued a challenge to Joe Paul of Burton City for a pony race on May 24 at Edgewood. Mr. Johnston's "Buster" still remains unbeaten.

FISHING SHACKS ARE PREPARED

Proctor Lady Thought to Have Hooked Salmon and Engine Recently Lost at Char Bay

(Special to the Daily News.)

PROCTOR, May 1.—A large party of members of the Outlet Sports club took advantage of Capt. Fred Cogie's offer to take the fishing shacks to Wilson Creek and Midge Creek on Sunday with his tug, the Ondot, and a regular picnic was arranged. The party started at 8:30 a.m. and included several ladies. Several boats were taken by the party, and whilst some members were busy putting up the shacks, others enjoyed themselves fishing in the big lake. The shack at Wilson Creek was finished and is ready for use and the one at Midge Creek is in position, but not quite finished for use. The fishing parties did not have very good sport, only one rainbow trout weighing 1½ lbs. coming to hand. But one lady, Miss Ross of Balfour, hooked a very large fish, which the other people in the boat with her now think must have been the salmon and engine lost by L. Clark of Char Bay, but unfortunately, after a tremendous fight, the fish escaped. The party got back to Proctor at about 10 p.m., having spent a very jolly day.

H. Severn caught a nice 6 lb. char on Sunday when trowling near Irving creek.

WHAT HAPPENED TO JONES ON VICTORIA DAY

(Special to The Daily News.)

KASLO, B. C., May 1.—At a business meeting of the Victoria day celebration committee it was decided, after considering other forms of entertainment feasible to offer the many visitors expected here on May 24 to stage "What Happened to Jones", This, it was thought, would be more appreciated by the visitors from Nelson than a dance or fire works as this play is sure to please, as it abounds in witty dialogue and humorous situations.

An old townsman, J. W. Power, accompanied by A. D. Millar, spent nearly a week in town securing stock subscriptions to an industrial scheme located in Vancouver. They sold stock to the amount of $9000 here. They left here on Tuesday.

A sale of fancy work was held in Miss McKenzie's ice cream parlor on Tuesday evening by the ladies of the Roman Catholic church. Refreshments were served, and a very pleasant evening was spent. A large doll was awarded by raffle to Mrs. G. Scott.

Rev. Dr. Calvert delivered to an interested audience a very instructive lecture on Yorkshire. It was illustrated by magic lantern pictures.

Three buildings on Front street are being torn down by O. Strathearn to make room for progress. C. Lundburg is tearing down the store building adjoining the Nelson house to make room for the extension which he intends to put to that building. The new building with the old, will contain 30 rooms.

Sunlight Wash-day

Think of WASH-DAY as a day of SUNLIGHT. Forget all about old time trials and troubles—look forward to wash-day as to other days. Other days, too, you need Sunlight just as you do on wash-day, for besides washing clothes easily and quickly

Sunlight Soap

keeps home sweet and clean. When in doubt—think of the $5,000 Guarantee of Purity that rests upon every bar of Sunlight.

THE NAME LEVER ON SOAP IS A GUARANTEE OF PURITY AND EXCELLENCE

BRYAN TO INSPECT JAPANESE COLONIES

California's Best Argument in Favor of Anti-Alien Land Ownership Bill

(By Daily News Leased Wire.)

SACRAMENTO, Cal., May 1.—Secretary of State Bryan, who came from Washington to protest the passage of an alien land law by the California legislature, has read and listened to many arguments since he came here, but the best argument of all, in the belief of Governor Johnson, is yet to be presented. Today the secretary will be taken for a spin in the government's automobile to the towns of Florin and Walnut Grove, a dozen miles from the capital where the typical colonies of Japanese farmers have been started. Governor Johnson and Assemblyman Bradford who represent that district, will accompany Mr. Bryan. They will point the concrete facts out for his observation.

There are more than 5000 Japanese subjects in Sacramento county, according to Mr. Bradford's computation from the 1910 census.

There are more than 1500 Japanese in the Florin colony, where scores of big farms are owned and hundreds of acres are leased.

There are 42 Japanese children out of a total enrollment of 67 pupils in the Florin public schools.

In Walnut Grove, Isleton, Sierra neighboring towns in the same district the number of Japanese children in the schools ranges from 40 to 50 per cent.

Governor Johnson says that he is pleased that Secretary Bryan had accepted the invitation to see for himself California's best argument for an anti-alien act.

RECIPROCITY TREATIES FOR LOWERING TARIFF

(By Daily News Leased Wire.)

BOSTON, May 1.—In accordance with a request of Governor Foss recently expressed in a special message, both branches of the legislature yesterday adopted a resolution memorializing congress "in support of the principle of protective reduction through reciprocity in all tariff matters".

While not accepting all of the arguments and conclusions of the governor the legislature is in full accord with him, the resolution says, as to the importance of the subject. The resolution declares:

"The policy of opening the markets of the United States to the unrestricted competition of the rest of the world recommended by the president in his message and the pending bill which is a long step toward the complete establishment of that policy, appeal to the legislature to be in direct contravention of the wishes of the voters of the United States and especially of this commonwealth as expressed at the last election."

It is urged that any tariff legislation undertaken by congress be based upon the protective principle; that a tariff commission of disinterested experts be re-established and that reasonable opportunity be given those interested to be heard before the final action is taken.

MILITIA CAMP AT VERNON IN JUNE

(By Daily News Leased Wire.)

OTTAWA, May 1.—Particulars have become available of the arrangements for militia camps during the coming summer. It is expected that between 45,000 and 50,000 militiamen will be under arms at one time during the months of June and July. The Petawawa camp ground will accommodate the active militia from early June to the end of July. It will be attended by four regiments of cavalry, 10 brigades and an imperial battery of field artillery, heavy brigades and a single heavy battery and the regiment of garrison artillery from Montreal, five field companies of engineers and one cavalry field ambulance. The infantry and cavalry will camp at Sewell, Man., June 26 to July 4. The artillery camp will run from June 24 to July 6. The city corps of Manitoba will camp at Sewell June 29 to July 5. The camp at Battleford will be held June 26 to July 4 and the camp at Vernon, B. C., which will be for cavalry and auxiliary services only will be from June 26 to July 1. The camp at Calgary will be from June 17 to June 2

PIRATES SUFFER FIFTH CONSECUTIVE DEFEAT

(By Daily News Leased Wire.)

PITTSBURG, May 1.—Pittsburg lost the fifth straight game this afternoon, St. Louis winning in a slugging match. Camnitz's wildness in the first inning, when he walked three men, and a triple by Oakes netted St. Louis four runs at the start. Pittsburg rallied strongly in the last two innings.

INDIAN TWIRLER CREDITED WITH ALL THREE VICTORIES

(By Daily News Leased Wire.)

CHICAGO, May 1.—Joe Johnson, the big Indian twirler of the Cincinnati Reds, had everything his own way today and Cincinnati defeated Chicago, 8-4. Today's victory is the third of the season for Cincinnati, and the honor of winning fell to Johnson in all three. Johnson had the locals baffled until the ninth. Brown, with the bases full and one out in this inning, showed his old-time skill and retired the Chicagos without further damage.

McGRAW'S TEAM SHUT OUT BY SPEEDY PHILADELPHIAN

(By Daily News Leased Wire.)

PHILADELPHIA, May 1.—Alexander, who last week pitched an 11-inning scoreless tie against New York, shut out McGraw's team here this afternoon, 1-0. Killifer threw two men out trying to steal second and broke up a batting rally in the third inning by catching Snodgrass napping off second base. Four hits were made off Tesreau in seven innings, he being taken out to permit McCormick to bat for him.

	R.	H.	E.
New York	0	6	1
Philadelphia	1	4	1

Batteries—Tesreau, Wiltse and Myers; Alexander and Killifer.

BROOKLYN CENTRE FIELDER HERO IN YESTERDAY'S BATTLE

(By Daily News Leased Wire.)

BROOKLYN, May 1.—Charles Stengel was the hero of Brooklyn's victory over Boston today. The final score was 4-2, and Stengel was responsible for three of the four. On his first time up he drove the first ball pitched by Hoss to the centre for a home run. Stack pitched an erratic game, but was saved several times by sensational fielding. Gervais finished the pitching for Boston and disposed of six batsmen that faced him in the last two innings.

	R.	H.	E.
Boston	2	7	1
Brooklyn	4	9	1

Batteries—Hess and Whaling; Stack, Gervais and Miller, Rariden.

COBB REINSTATED AND FINED FIFTY DOLLARS

(By Daily News Leased Wire.)

CHICAGO, May 1.—Tyrus Cobb today was formally reinstated in organized baseball and fined $50 by the National baseball commission. A decision by the commission, given out in answer to the Detroit player's appeal for reinstatement, condemned Cobb severely for his actions while holding out. The Detroit club was condemned for its recent stand and censured for its former passive policy regarding Cobb.

Notice was served on other clubs that in case of their failure to discipline players whose actions are "detrimental to the game," the commission itself will act. The commission reserved news of any other action it may have taken and if the proposed congressional investigation into the alleged baseball trust were discussed at all, as reported, it was ignored so far as a formal report is concerned.

SEVENTH DEFEAT FOR TIGERS FIVE OF THEM BY WHITE SOX

(By Daily News Leased Wire.)

DETROIT, May 1.—Barry Lord, ably assisted by the other members of the heavy end of Chicago's batting order, pounded Mullin to all corners of the lot today and the visitors defeated Detroit, 8-5. It was the seventh straight defeat for the locals and five of them were sustained at the hands of Chicago.

Chicago	8	12	1
Detroit	5	10	3

Batteries—Russell, Klawitter and Schalk; Mullin and Stanage.

ST. LOUIS PITCHER GOES TO PIECES IN SIXTH

(By Daily News Leased Wire.)

ST. LOUIS, May 1.—Weilman's wildness in the sixth today caused his own downfall and Cleveland won, 3-1. Falkenberg was steady in the pinches, holding St. Louis safe when runners were on bases. In the sixth three infield hits filled the bases and Cleveland won out.

	R.	H.	E.
Cleveland	3	9	2
St. Louis	1	7	1

Batteries—Falkenberg and Carisch; Weilman and Agnew.

SENATORS FIND RED SOX EASY VICTIMS

(By Daily News Leased Wire.)

BOSTON, May 1.—Boston easily defeated Washington today, 8-2. O'Brien went the entire distance and kept the visitors' hits well scattered. Four pitchers were used by Washington, Hughes lasting but four innings, during which time Boston scored four runs. Engel captured a liner from Ainsmith's bat in the second and doubled up Morgan, who had reached first on a single.

	R.	H.	E.
Washington	2	10	4
Boston	8	12	1

Batteries—Hughes, Boehling, Engel, Dorhan and Ainsmith; O'Brien and Cady.

ATHLETICS WIN FIRST GAME OF SERIES

NEW YORK, April 1.—The New York Americans were defeated again today, the Athletics winning the first game of a four-game series, 4-2. Keating, the only New York pitcher who has won a game this season, went well for five innings, not a man reaching first base, until McInnes singled in that frame. Brown pitched well for Philadelphia, the first of New York's two runs being scored on errors by Baker and Collins.

	R.	H.	E.
Philadelphia	4	5	3
New York	2	7	3

Batteries — Brown, Bender and Thompson; Keating, Hoff and Sweeney.

MEMBERS BEATEN BY NEWSPAPERMEN

Baseball Match Between Commons and Press Gallery Draws Large and Interested Audience.

(By Daily News Leased Wire.)

OTTAWA, May 1.—The press for once triumphed over parliament when the press gallery baseball team this afternoon defeated the nine picked stars of the house of commons by a score of 22-19 in a full nine inning game. With 12 runs to their credit in the first two innings it looked like a walkaway for the members, but the men who wield the pen showed they could also use the "big stick," and they gradually drew up on the legislative solons, tieing them in the seventh and drawing away from them in the eighth, making a total of eight runs in the one inning. Neither side scored in the ninth. The members made a rally in their half of the eighth, leaving the score 22 to 19.

Samuel Sharpe of North Ontario captained the house, and was resplendent in white ducks and a blue sweater, which was as long as a frock coat. The costumes of his team-mates were equally varied and resplendent. F. B. McCurdy of Halifax looked like a British lord in his knickerbockers, and Boyes of Simcoe and Rhodes of Cumberland affected a similar uniform.

Capt. Sharpe sent in his professional pitcher, Albert Sevigny of Dorchester, to start the game. He looked like a real ball player and had all the actions of a real pitcher. While he lasted the press was absolutely at sea, but he blew up in the third, and McCurdy was sent to the rescue. Three innings was enough, and Samuel Sharpe entered the breach himself. He was knocked out of the box in the eighth and H. B. Morphy of North Perth wound up the game for the commoners with a deceptive ball that he has inherited from cricket days, and that was half pitch and half bowl. It did the trick, however. The legislators started off with a terrific batting streak, and in the first two innings ran up an even dozen.

Ford of the Winnipeg Telegram pitched the full nine innings for the press gallery. At the end of the second it looked as if victory was ahead for the members, but Ford held an even pace and pulled his team through to victory.

The game was witnessed by a big audience that lined the whole terrace of Parliament hill and spread out over the lawns.

Premier Borden, Hon. W. T. White and several other ministers were present. Dr. Beland of Beauce and H. F. Gadsby were umpires.

For the commoners, William Martin of Regina batted strong and gathered in every strike that came near third base. The lineup and detailed score was as follows:

House of commons—Boyes, right field, two runs; Morphy, shortstop, one run; Sevigny, pitcher and first base, three runs; Martin, third base, no runs; Sharpe, second base, two runs; Edwards, centre field, one run; Rhodes, first base, four runs; McCurdy, left field and pitcher, three runs; Turcott, catcher, three runs.

Press gallery—Hannay, second base, two runs; O'Leary, third base, one run; Anderson, shortstop, three runs; Lee catcher, four runs; Granger, left field, five runs; Joy, right field, two runs; Clarke, centre field, one run; Paisley, first base, three runs; Ford, pitcher, one run.

House of com....6 6 0 1 0 0 6 0 0—19
Press gallery....0 1 2 4 2 4 2 7 0—22

Errors omitted from the official score by discreet contract.

REPORT PREMATURE, BUT PENDING DEAL ADMITTED

(By Daily News Leased Wire.)

NEW YORK, May 1.—George Stallings, manager of the Boston Nationals, while admitting a trade was pending, declared that the report from Toronto that he had acquired Pitcher Rudolph of the International league club in that city in exchange for Pitcher Brown and another consideration was premature. The deal has been under way, he said, but there is a hitch because of the intention Rudolph has expressed to go into business in New York.

FIGHT STOPPED IN EIGHTH ROUND

(By Daily News Leased Wire.)

CALGARY, Alta., May 1.—By reason of his good showing against Andy Morris of Boston at Manchester arena tonight, Arthur Pelkey looms up as the formidable opponent for Luther McCarty when they meet here May 24. For seven rounds Pelkey made Morris appear like a novice, and in the eighth Referee Tommy Burns had to stop the bout to prevent a knockout. Pelkey made good use of his right, which was not in service in the previous bout, and in the seventh round landed 13 successive right swings to the face and jaw. Pelkey began by jabbing Morris almost at will and about the third round began to swing the right to the jaw. Thereafter it was only a question of how long the Bostonian would last.

FIFTEEN ROUNDS TO DRAW

(By Daily News Leased Wire.)

REGINA, Sask., May 1.—Jack Williams of Regina and Young Maxwell of Moose Jaw went 15 fast rounds to a draw tonight.

BELIEVED THAT POLO TEAM IS STRENGTHENED

(By Daily News Leased Wire.)

LONDON, May 1.—Although the loss of Walter Buckmaster from the English team is regarded as a great misfortune in some quarters there seems to be a growing idea that the team will be really strengthened by the substitution of Capt. Lockett. One of England's best polo players said when questioned today: "I would not for a minute make a reflection upon Buckmaster or Freake but I really believe the team as now constituted, will be superior to the former pair. Buckmaster and Freake have long been known as splendid players, but youth will be served and Capt. Ritzon, Capt. Edwards and Capt. Cheape are full of action.

"Capt. Locke, even if not so brilliant as Buckmaster, is a reliable man, and I feel that the chances of winning are much better today following the changes, than yesterday and expect to welcome the cup back to England."

Sporting Comment

Every club in the West Kootenay Divisional Football league expresses the opinion that Kootenay should send a representative team to the coast to compete for the People's shield.

A purely local team will probably represent Ne'son in the baseball game at Kaslo on May 24.

Larry Lajoie beat out a bunt the other day, which feat called for full faced type. But there are bunts and bunts. A Lajoie bunt is anything that stays inside the fence.

The local ball team will have its first workout on Sunday morning next.

The swimming class at the Y.M.C.A. for juniors who wish to become efficient in the aquatic art will open at the association building this afternoon at 4:30 o'clock.

Cornwall is fostering lacrosse in schools, churches and factories. About 1920 there will be another grand crop of Cornwall lacrosse players.

The "hidden ball" trick has been tossed into the discard by the American league. Umpires have been instructed not to call base runners out when they fall victims of the ancient stuff.

BERRY PICKERS BECOME QUAKERS

(By Daily News Leased Wire.)

SASKATOON, Sask., May 1.—It has been decided to change the name of Saskatoon's baseball team in the Western Canada league from Berry Pickers to Quakers. This announcement was made by J. F. Cairns, president of the club, tonight.

TO ORGANIZE JUNIOR BALL LEAGUE HERE

For the purpose of organizing a junior baseball league in the city there will be a meeting of all the juvenile baseball enthusiasts of the city in the Y.M.C.A. this evening at 8 o'clock.

REGINA CITIZENS MAKE WAR ON FLIES

(By Daily News Leased Wire.)

REGINA, Sask., May 1.—Regina observed a civic half holiday this afternoon and gave the city a thorough cleaning up, in accordance with a well laid out campaign. The idea was to blot out the breeding places of flies and other carriers of disease. Citizens entered into the project with enthusiasm.

Water Application Notices:—Four insertions up to 100 words, $6; over 100 words in proportion.

Where any of the above applications contain more than one application or notice, each application or notice will be charged for as a separate advertisement.

FRIDAY, MAY 2.

THE POWERS AND MONTENEGRO

The Balkan situation, chiefly as a result of Montenegro's defiance of the powers and Austria's declared intention of enforcing the latter's wishes in respect to Scutari, continues decidedly unsatisfactory, although not yet by any means hopeless

While the sympathy of the casual observer may be with Montenegro there will at the same time be a feeling that any move on her part that would mean a continuance of war would be against the world's interest. This appears to be recognized even by Russia, whose representative at Cettinje *yesterday made it plain that* Montenegro can hope for no assistance from that quarter.

But while this is so, there is nothing as yet to show that the other Balkan allies will not sink their personal differences and come to Montenegro's assistance in case of an attack on that country by Austria.

It may be hard for Montenegrins to give up their dreams of territorial aggrandizement, including particularly the retention of Scutari, but, if the powers are unanimous that this should not be, they should make this so plain that Montenegro will realize that it would be useless to resist.

With this point disposed of it should be possible to bring about a satisfactory settlement of other differences through mediation and arbitration.

CRITICIZING PARLIAMENT.

Sir Edmund Osler says that he has been in parliament seventeen years and has only heard a dozen speeches that were worth hearing, says the Toronto Star. According to another report, the only good speeches he ever heard were those of Sir Wilfrid Laurier and Mr. Borden. All we have to say is that the fault is in Sir Edmund Osler's hearing, not in the speeches. In seventeen years there have been scores of speakers, Liberal and Conservative, who were worth hearing, if for no other reason than that they presented the views of the people of Canada, all the way from the Atlantic to the Pacific.

We have a good deal of sympathy with the men who are doing the working and the fighting in parliament, no matter to which party they may belong. And we believe they are often misjudged by business men and others who only take an occasional and spasmodic interest in public affairs.

No one finds fault with business men for being busy with their own affairs, and for not understanding everything about other affairs. But business men ought at least to try to understand the point of view of men who are not always dealing with railways and banks and stocks and bonds. There are specialists in parliamentary institutions just as there are specialists in banks and railways and in agriculture and in wholesale and retail selling, and in all kinds of manufacturing industry, and in playgrounds for children, and in all kinds of social reform.

Either you must rely upon these specialists, or you must be one of them, and take an active part in their work.

Many persons who criticize public men and parliament will not adopt either course. They criticize, usually adversely, but they will not take the trouble to study the history of Canada, or the institutions of Canada. If there is a long debate in parliament they think it is a nuisance, because it is so much trouble to read the report. If bad temper is shown they are shocked. They do not take the trouble to inquire into the merits of the question. We confess that our sympathy is rather with the men who are threshing out the merits of the question than with the occasional spectators.

Sir Edmund Osler takes altogether too low a view of the quality of the parliamentary debates. The debaters make many mistakes. All men who are working and fighting make mistakes. But we venture to say that if any impartial reader, Liberal or Conservative, will read the official reports, he will be surprised by the amount of solid information and sound argument which they contain. All we have to say to Canadians is this: Either study Canadian history and Canadian parliamentary institutions, or give fair credit to those who do.

What the Press Is Saying

Chance For Fish Stories.

The mayor suggests fish for the park lake. Won't Lethbridge boosters have a great time telling fish stories when the finny specimens make their appearance? That Nelson fish that grunts like a pig will have to take to the backwoods swamps.—Lethbridge Herald.

The Public Schools.

Seeing that the great majority of pupils receive only the public school education, and are turned out into the world at 14 years of age to earn their living, it is plain that the greatest attention should be paid to their requirements.—*Kingston Standard.*

Maxims of an Experienced Housewife.

A man that can't replace a missing button on his trousers ought never to marry. If your husband belongs to a fraternal order, make him attend the meetings once in a while. In case he dies there ought to be somebody who can identify him. Call a doctor for the children if you think they need one, but don't call him merely to keep the neighbors from talking. They'll talk about you anyhow. I know a woman who has more closets in her new house than she has things to put inside them. You can overdo anything. Sometimes a wife can cure her husband of smoking coffin nails in the house by smoking a clay pipe herself—but not often.—Chicago Tribune.

Cold Storage

"Then you weren't always a black sheep?"

"No, mum. I started my career as a Wall street lamb."—Washington Herald.

"Young man, we need brains in our business."

"I know you do. That is why I am looking for a job here."—Baltimore American.

"I know all his wife's faults."

"Acquainted with her?"

"No. Just been introduced to his mother."—Detroit Free Press.

"What is your attiture on the tariff?"

"Something," replied Senator Sorghum, "like that of a man who is walking a tight rope."—Washington Star.

Old Lady (watching moving picture photographer taking a street scene)—"I must be getting deaf. That man's grinding his hand-organ, and I can't hear a note."—Puck.

"You know Kelly, the cubist?"

"Little man with stubby pipe and sourdough coat? Sure."

"He's painting 'Washington Delivering His Farewell Address.' Doing it all models."

"What kind of models?"

"Three bundles of laths and a soap box."—Cleveland Plain-Dealer.

"It is vulgar to dress so as to attract attention on the street."

"Isn't it?"

"I saw Miss Knobby going down the street yesterday in a gown which caused every man she passed to turn and look at her."

"Sure enough! I wonder who is her dressmaker?"

"I asked her, but she wouldn't tell me."—Houston Post.

This Day in Canadian History

This is the hundred and thirty-fourth anniversary of the birth of John Galt, at Irvine in Scotland. As a young man he attempted with little success, to make his way in business, then he tried the law. This he forsook for the literary life; and in his day (though it was when the "Great Magician's" Waverley novels were first delighting the world) he was famous as a novelist for his delineations of Scottish life and character. But it is for another reason that he is especially interesting to us. In his autobiography he tells how as a little child a picture of Niagara falls fascinated his imagination; and he was destined to play for a few years a notable part in the history of Upper Canada. Being appointed agent for Canadians who were endeavoring to obtain compensation for losses incurred during the war of 1812, he suggested a scheme for the selling of the crown lands of Canada to raise a fund for the "satisfying of the claims of his clients." Indirectly this suggestion led to the formation of the "Canada Company," and Galt was sent out as commissioner to make investigations, but he was ill-supported in his efforts for the good of the settlers bought out, and was soon superseded.

The Weather

TORONTO, May 1.—Pressure remains highest from the great lakes to the Gulf of Mexico, while an important trough of low pressure extends from Ontario to the southwest states. Decidedly warmer weather prevailed today in parts of the great lakes, while in the western provinces there has not been much change in temperature.

BRITISH MINE MANAGER KILLED

Enforced Loan by President Carranza —Issue of Paper Money Must be Accepted

(By Daily News Leased Wire.)

WASHINGTON, May 1 — Consul Bonney at San Luis Potosi, Mexico, reported to the state department today that Matehuala had been captured by the rebels and that a British mine manager there and several others had been killed. No details were received beyond this statement. The department has a despatch outlining a plan announced yesterday by proclamation at Piedras Negras by President Carranza for enforcing a loan of five million pesos, about $2,500,000. To effect this loan Carranza declares that he will issue and force the circulation of paper money to the amount named, and that the money will be *guaranteed by the constitutional government.* Persons who refuse to receive or circulate this paper money will do so at the peril of a month in prison.

Carranza promises that when constitutional order is restored laws shall be passed that will provide a way to redeem the paper money and fix a date for its redemption. The majority of the merchants at Ciudad, Porfirio Diaz and Piedras Negras, are foreigners and the prospects have created much alarm.

FLOOD PLAYS HAVOC WITH SEEDED FIELDS

(By Daily News Leased Wire.)

Alexander, Man., May 1.—The biggest flood due to the rise of the Assiniboine river that has taken place in this district for the past nine years has played havoc with thousands of acres of wheat seeded land and destroyed seed in granaries and hay in stacks and other property to an extent, the value of which is impossible to estimate. At some points the river is anywhere from two to two and a half miles wide and still rising, though not at a rapid rate.

TO ARRANGE EARLIER REDUCTION IN RATES

"Have seen Mr. Stout of Dominion Express as to small fruit rates. He is going west and will arrange for reduction for this season's harvesting if possible."

Above was the telegram received by E. K. Beeston, secretary of the board of trade, yesterday from Hon. H. L. Drayton, chairman of the board of railway commissioners, dated Toronto, in reply to the telegram forwarded by J. A. Irving, vice-president of the Nelson board of trade, urging upon the board of railway commissioners the necessity for putting the reduction on express rates into force at an earlier date than July 15 for small fruits.

WAGONS SOLD AT THREE TIMES COST PRICE

(By Daily News Leased Wire.)

MOOSE JAW, May 1.—In a district court case today it transpired that when John F. Lindsay of the Massey-Harris company went to collect a bill of some $200 from a Mrs. Harris, she replied that there were better times coming. "When?" asked Mr. Lindsay. "Do you mean that there will be more money?"

"No," replied the witness, "when the good Lord takes me to heaven."

"That would not greatly help the creditor," said the judge, and he eventually reserved judgment. Mr. Lindsay admitted that his company bought wagons for $30 or $40 and sold them for $108.

CONAN DOYLE WILL SELL COIN COLLECTION

LONDON, May 1.—It is not generally known that Sir Arthur Conan Doyle is a collector of coins. The fact is made public by the announcement that Sothebys will sell a portion of his collection May 9.

FORMAL RECOGNITION OF CHINESE REPUBLIC

PEKING, May 1.—The United States will recognize the Chinese republic tomorrow. The Chinese government will testify to its appreciation by an elaborate reception to the legation staff at the palace.

"SALADA"

Fresh from the Choicest Gardens of Ceylon.

CONFER DEGREES UPON STUDENTS

First Convocation of Saskatchewan University—Notable Gathering of Prominent Men.

(By Daily News Leased Wire.)

SASKATOON, Sask., May 1.—A notable gathering assembled at the first convocation of the University of Saskatchewan today, when 20 degrees were confirmed upon students. Among those who were present and took part were: Hon. George W. Brown, lieutenant-governor; Premier Walter Scott, Chief Justice Haultain, Hon. W. R. Motherwell, Hon. J. A. Calder, Hon. A. P. McNab, Hon. W. C. Sutherland and Presidents Falconer of Toronto university, Maclean of Manitoba and Murray of Saskatchewan.

Those who received degrees were:

Bachelor of science—John R. Bunn, Saskatoon.

Bachelor of arts—Katherine Hodle, Saskatoon; Charles Cameron, Saskatoon; Mary Cathart, Rouleau; Florence Elliott, Saskatoon; May Canty, Saskatoon; Eugene M. Follens, Delisle; Richard Homer, Unity; Georgina E. King, Regina; Olive Pearl King, Saskatoon; T. F. Marshall, Star City; John McCartney, Moose Jaw; John McDonald, Guernsey; John A. Rae, Winnipeg; Ashley M. Walker, Ashford; Osman J. Walker, North Battleford; Thomas S. Watson, Saskatoon; Archibald R. Weir, Saskatoon; Thomas Hunter Wells, Saskatoon.

PRIZES AWARDED BY SASKATOON UNIVERSITY

(By Daily News Leased Wire.)

SASKATOON, Sask., May 1.—The university senate held their annual meeting today and decided that the university prizes for 1913 would be awarded as follows:

Entrance scholarships: King Edward scholarship to A. J. Loeppky, Regina; King Edward scholarship to Retta Brubacker, Moose Jaw; university scholarship to Annie Mackay, Prince Albert; university scholarship to Elorion Plante, Saskatoon; university scholarship to Flora Ferge, Moose Jaw; university scholarship to C. Boville Clark, Saskatoon; university scholarship to Marion H. Dawdney, Prince Albert; university scholarship to W. J. Burnett, North Battleford; university scholarship to Lila McDermid, Borden; university scholarship to D. Sayer, Grenfell. Undergraduate scholarships: First year to Spencer Hall; second year to F. J. Greer; third year to R. C. Moir. Undergraduate prizes: Essay prize to R. M. Locke; first Biblical literature prize to F. F. Marshall; second Biblical literature prize to W. Greenwood; third Biblical literature prize to A. C. Grucny. Undergraduate medals: Governor-general's medal to F. J. Freer. Graduate honors and distinctions: Honors in English history to A. R. Weir; honors in English and Latin to C. N. Cameron; honors in mathmatics and chemistry to O. J. Walker.

COMFORTABLE LOUNGING ROBE

Ladies' kimono or lounging robe.

White silk and wool crepe cloth was used for this design, with a finish of feather-stitching. The model is suitable for silk, lingerie fabrics, lawn or cashmere. It will also develop well in flannelette, iden cloth or elderdown. The waist and sleeve portions are combined and the skirt and waist are gathered in the joining at empire waist line. The design is easy to develop and will be found comfortable and attractive. The pattern is cut in three sizes: Small, medium and large. It requires four yards of 44-inch material for a medium size.

Each pattern can be obtained by sending 10 cents to the office of this paper. In some cases the illustration contains two patterns, each number representing a different pattern. In such cases 20c should be enclosed.

Pattern No. 9525.

BRITISH HOSPITALS IN NEED OF RADIUM

Sir David L. Salomons, a leading British electrician and scientist, has recently called attention to an opportunity for charitable work of a novel and highly beneficent character. Practically all the London hospitals, he says, are short of radium. Many of the patients have to wait weeks or months for their turn at "raying" because of the miserably limited supply of this expensive drug. He quotes Dr. Lazarus-Barlow, director of the cancer research laboratories of the Middlesex hospital, as follows: "The huge majority of our unfortunate patients have to die simply because we have not the radium, which would at least relieve their pain, and might, in all probability, affect a cure in a good proportion of the cases". The cancer hospital needs an additional supply of at least 800 milligrams. The metropolitan hospital asks for 1250 milligrams; St. Johns hospital calls for a minimum addition of 160 milligrams, and the other hospitals, without being so specific, say they are "badly in need of more," and could relieve much more pain and save more lives if they had it.

According to Sir David the price of radium in London is about $5300 a grain. There are between 66 and 67 milligrams in a grain, so that the price per milligram figures out at about $80. The particular reason for this appeal appears to be the fact that 800 milligrams of radium obtained from a Cornish radium mine are now lying idle in a safe in London, or soon will be. Application for it has already been made from Japan, and Sir David thinks it will be a great pity if this priceless material is allowed to leave *the country. If no rich man can be* found willing to save it to the British poor, he holds, the general public should start subscriptions for the purpose.

The only blemish on this plan, and it is more apparent than real, is the fact that Sir David is financially interested in the Cornish radium mine He frankly notes the connection in his letter. On the other hand, there seems to be very little doubt that radium is actually curative to some forms of cancer, and a most valuable agent for the relief of pain and the promotion of comfort in most of the other varieties of this dread disease If it is true that the hospitals generally are insufficiently supplied with it the application of some of the surplus money of our millionaires to make up the deficiency, seems an almost ideally useful piece of philanthropy.

It is stated that there are now about 30,000 milligrams of radium in the world—of radium that is separated from its ores and available for use The total supply, therefore, has a value of less than $2,500,000—not too much for a single one of our modern multimillionaires to devote to saving life and lightening the sufferings of the poor.

Board of Methodist Church at Rossland Favors Closer Union With Presbyterians—Pastor Leaving.

(Special to The Daily News.)

ROSSLAND, B. C., May 1.—A meeting of the quarterly official board of the Methodist church was held in the church parlors on Wednesday, April 30. The business of the meeting was confined to clearing up all unfinished business for the year, as this was the last meeting of the conference year. The various departments of the church presented their annual reports which showed that all departments had paid all bills for the year, and had balances on hand. The following officers were elected for the ensuing year: Recording steward, Edward Job; treasurer and envelope steward, Martin S. Morrell; assistant treasurer and envelope steward, Stanley John, Stewards, Messrs. Job, Robson, Morrish, Morrell, Patriquin, Norton, and Mrs. James Graham.

Rev. George Kinney informed the board that he would not return to Rossland next year, and the secretary was instructed to communicate with the stationing committee at the conference and secure a minister to fill the pulpit for the coming year.

A congregational meeting will be held during the month of May to elect social representatives. These, with the officers elected at the last meeting, will form the board of management for next year.

The board also went on record as favoring closer union with the Presbyterian church in Rossland, recommending the exchanging of pulpits by the ministers of Presbyterian and Methodist churches, the details of which will be left to the ministers.

William Costella went to Nelson on Wednesday on a business trip.

G. Waldroff and T. Timms of this city went to Nelson on Wednesday to witness the football game between Nelson and Trail.

Trail News

(By Daily News Leased Wire.)

TRAIL, B. C., May 1.—Mrs. James Buchanan and her niece, Miss Margaret Blaylock, left on Wednesday for Mrs. Buchanan's home in Quebec. Mr. Buchanan accompanied them as far as Nelson.

C. Bickle left on Thursday night for the Fort Fraser district.

G. Castell and wife left on Thursday for their ranch near Edmonton, Alta., where they will reside in the future.

H. M. Bailey, representative for McQuarrie & Robertson, Nelson, made a short visit to Nelson on Wednesday.

F. C. Townsend, outside left of the Trail football team, is now under the doctor's care, suffering from a painful shoulder, which was dislocated on Wednesday while playing against Nelson.

The death occurred in the local hospital on Wednesday night at 11 o'clock of K. Khat, after a short illness. He leaves a wife and son to mourn his loss.

Visitors to Trail on Thursday were: F. Bascom, Spokane; P. Wagner, Seattle; J. Wilson, Spokane, and Miss J. Carlson of Detroit, Mich.

MALE VOICE PARTY SOCIAL PROVES GREAT SUCCESS

Enjoyable Musical Program Provided—Over One Hundred Attend Dance in Odd Fellows Hall.

The Nelson Male Voice choir, in conjunction with the lady members of the mixed chorus, held a most successful social and dance on Wednesday evening in I.O.O.F. hall. The occasion was in recognition of the closing of the present musical season and was also intended to foster and encourage a growing mutual united effort to bring the various members of the kindred musical associations of the city into closer harmony and for the purpose of promoting a proposal to enlarge the membership of the choral society.

In the neighborhood of 100 took advantage of the invitations of the choir and mixed chorus and a splendid impromptu program formed part of the evening's entertainment previous to dancing being engaged in. During the interval following the social element of the evening's program E. Lupton, president of the choir, welcomed the strangers and expressed the thanks of the choir committee to those who had so generously contributed toward the evening's enjoyment, while the secretary, R. C. Teviotdale, complimented the mixed chorus on the encouraging advance in the study of music the choir had made under the able leadership of the conductor, F. Warner Smith, and their talented and painstaking accompanist, Mrs. W. J. Astley. Thanks were extended to the orchestra for its services.

The choir contemplates opening a patrons' list to provide funds to meet the heavy expenses incurred in the purchase of new music and the renting of halls necessary for the various rehearsals.

NASOOKIN TAKES COAL ABOARD FOR TRIAL RUN

Yesterday the new Canadian Pacific railway steamer Nasookin ran down from the shipyards to the city wharf and took aboard coal in readiness for her trial run.

RIFLEMEN PLAN TO HOLD SPOON SHOOTS

Will Present Trophy for Highest Score in Each of Three Classes in Every Contest.

At a meeting of the executive of the Nelson Legion of Frontiersmen Civilian Rifle association last night it was decided to divide the membership into three classes for a series of "spoon shoots" to be held on dates which were arranged. The classes will be "A," "B" and "C."

"A" class will consist of members who have successfully competed in any provincial or Dominion competition; "B" class of members who last year averaged between 80 and 90 at the various shoots, and "C" class of those who averaged below 80 points.

A spoon, engraved with the name of the association, will be presented for the highest score in each class at each shoot of the series. The dates arranged are May 5, June 3 and 8, July 6 and 13 and August 10.

New members of whose score there is no record will be in class "C" until they pass into the higher classes by virtue of their scores. Members in class "C" making 80 three times in succession will automatically jump to class "B" and those in "B" will be promoted to class "A" when they make a score of 90 three times concurrently.

Lists of the names of those in the three classes are being prepared by the executive and will be announced tomorrow by the secretary, Denis St. Denis, who is anxious to secure the names of new members at the earliest possible date.

PROVINCIAL POLICEMAN SHOOTS WHISKEY SMUGGLER

(By Daily News Leased Wire.)

TETE JAUNE, B. C., May 1.—Provincial Policeman Speedy yesterday shot and killed Harold Nagruson, while attempting to arrest him and Edward Nideral on the charge of smuggling whiskey.

Mining News

LE ROI TWO MINE MADE GOOD PROFIT

Receipts During March From Ore and Concentrates Were Over Twenty-five Thousand Dollars.

The following is the manager's report of the Le Roi No. 2 company for March:

Josie mine report for March—Shipped 1,789 tons of ore and 192 tons of concentrates. The receipts from the smelter are $21,906, being payment for 1,776 tons of ore shipped and $2,267, being payment for 197 tons of concentrates shipped; in all, $25,173.

Estimated costs for corresponding period; Development, $9,500 ore production, $8,500; milling, $1,500; total, $19,500.

South Rodney drift, 1,550 ft. level: Besides the production last referred to, two more lots have been shipped, as follows: Lot 265, dry weight 197 tons, assayed 0.74 ozs. gold and 5-16th per cent copper; lot 270, dry weight 52 tons, assayed 13 dwts. gold and 13-32nds per cent copper.

37 raise, 700 ft. level: Advance 24½ ft., of which 15 ft. averaged 3 dwts. gold and 7 per cent copper, across an average width of 3 ft.

36 drift, 300 ft. level: Advance 35 ft., of which 35 ft. averaged 9 dwts. gold and 1½ per cent copper, across an average width of 22 in.

28 drift, 400 ft. level: Advance 48 ft., of which 42 ft. averaged 8 dwts. gold and 4 per cent copper, across an average width of 32 in.

Annie drift 500 ft. level: Advance 99 ft., of which 89 ft. averaged 3 dwts. gold and 3¼ per cent copper, across an average width of 14 in.

37 intermediate drift, 700 ft. level: Advance 20 ft., of which 20 ft. averaged 12 dwts. gold and 11 per cent copper, across an average width of 4 ft. Total width is not shown. The same ore shoot, discovered 56 ft. below this to the foot-wall, 700 ft. level; 40 dwts. gold, 11 per cent copper, over 9 ft.

MILLION TONS OF ORE BLOCKED OUT

President of British Columbia Copper Company Issues Report—Values Highest on Record

The British Columbia Copper company has a greater reserve of ore in sight in its properties in the Copper mountain region of British Columbia than ever before, according to a recently issued statement by Newman Erb, president of the company, in connection with the announcement that more extensive development and operation is planned for the coming summer than at any time in the corporation's previous history.

"We now have approximately 1,000,000 tons of ore blocked out in our different mines, more than at any one time before," said President Erb in a report from New York. "Assays show an average value of 1 5-10 per cent copper, the highest values for an extensive quantity of ore ever reported from the mines."

NELSON MAN ACCOUNTANT AT MOTHER LODE MINE

William L. Paterson of Nelson has been appointed chief accountant in the British Columbia office at Sheep Creek of the Mother Lode Sheep Creek Mining company.

MOTHER LODE OUTPUT HEAVY

Over Fifty-Two Thousand Dollars Produced During Quarter—Weather Hampered Operations

The production of the Mother Lode mine at Sheep Creek for the quarter ending March 31 amounted to $52,493.32. Operations were considerably hampered by the very severe weather which resulted in a serious shortage of power necessitating running the mill at approximately half capacity. During the quarter a normal amount of development was done with satisfactory results and the outlook for the present quarter is good, according to a report furnished by George E. Farish, manager.

QUITS TEACHING FOR MINING BUSINESS

Robert Smillie Will Resign From High School Principalship at End of Present Term.

Robert Smillie, principal of the Nelson high school for the past three years, will resign at the end of this term in order to devote his attention to his business as a partner in the new mining agency firm of the British Columbia Mining Exchange Agencies, which opened offices in the Spokane house block yesterday.

Mr. Smillie announced that he would resign when asked regarding the matter last night. A graduate of Toronto university and holding the degree of bachelor of arts, Mr. Smillie has been in the teaching profession for 12 years. Before coming to Nelson he was for four years in Dawson City, Y. T.

Yesterday the exchange was visited by a number of mining men, who inspected the fine display of mineral specimens which have been secured by the firm, of which the other members are Edward Peters and A. Taylor Eyton.

SELLS INTEREST IN CLAIMS NEAR WYNNDELL

Mike Joseph Walsh of Kaslo has sold a three-fifths interest in the Creston and Skylark claims, on Lizzard creek, near Wynndell, to Mary Walsh of San Francisco.

LUCKY JIM MINE BOARD ELECTED

Prominent Winnipeg Men Are Among Directors of Slocan Mine—Financial Report Received.

Directors of the Lucky Jim Zinc Mines, Limited, elected at the annual meeting of stockholders at Kaslo yesterday were: Hon. Hugh Armstrong, Hon. G. R. Coldwell, W. B. Lanigan and John R. Botterell of Winnipeg, G. Weaver Loper of Spokane, T. G. Procter of Victoria, and T. H. Montgomery of St. Paul, Minn.

Officers will be named at the first meeting of the directors. The only other business of the meeting was to adopt the financial report.

Mr. Armstrong will return to Winnipeg on this morning's boat.

BADLY TANGLED.

CALGARY, May 1.—That the tax system of Calgary is badly tangled is disclosed in a preliminary report of McIntosh & Hyde, the auditing firm employed to go over all the city's accounts.

Play With Corns

They daub them with liquids. They pare off the top. They apply just a felt protection.

The corn remains, and twice a week the treatment is repeated. That's playing with a corn.

A Blue-jay plaster takes the whole corn out—root, callous, everything.

One applies it in a jiffy, and the pain stops instantly. In 48 hours take off the plaster and lift out the loosened corn.

No pain, no soreness, no inconvenience. You simply forget the corn.

When it is gone it's gone for good. That corn won't come back.

The inventor of Blue-jay spent years on corns. And now a million corns a month are taken out this way.

A in the picture is the soft B & B wax. It loosens the corn.
B stops the pain and keeps the wax from spreading.
C wraps around the toe. It is narrowed to be comfortable.
D is rubber adhesive to fasten the plaster on.

Blue-jay Corn Plasters

Sold by Druggists—15c and 25c per package
Sample Mailed Free. Also Blue-jay Bunion Plasters.

OTHER PENSIONS ARE ANNOUNCED

Admiralty Allowance for Widow and Children of Petty Officer Evans—Grant From India

(By Daily News Leased Wire.)

LONDON, May 1.—In addition to the supplementary annuities announced yesterday by Premier Asquith for the families of Captain Scott and Dr. Wilson the British government will pay the following:

To the widow of Petty Officer Evans, in addition to the regular admiralty allowance of about $175, an annuity of $160, and 75 cents a week for each of her children, until they reach the age of 18. The government of India as an employer of Lieutenant Bowers of the royal marines before he started with the expedition will give to his mother and sisters $600 a year. The premier, in sending this notice to the lord mayor recommends that the annuity "will leave room for suitable augmentation" of the Mansion House and other funds, which total $278,800.

The family of Captain Oates of the Inniskilling dragoons, who practically committed suicide when he went out in the blizzard rather than be a drag on the party because his hands and feet were frozen, is not included in the official grant. It is understood that the reason for this is that the family is wealthy.

KINGS SECOND SON TO VISIT NEWFOUNDLAND

(By Daily News Leased Wire.)

ST. Johns, Nfld., May 1.—Prince Albert Frederick, the second son of the King, will reach this city on June 28, according to an advice from the British admiralty received by Governor Walter Davidson. The prince will come on board the warship Cumberland. He will remain in Newfoundland for two weeks spending the last week in salmon fishing on the west coast of the island.

Ex-Hero—"Ah, my boy, when I played 'Hamlet' the audience took 15 minutes to leave the house."

Vicious Ex-Comedian (coldly)—"Was he lame?"—New York American.

Gossip From a Mountain Garden

I have just been for a ramble through the bush to gather some moss and some branches of hardhack and birch for arranging with my bow's of daffodils. It is so easy to let oneself be lured on and on by the myriad interests of the woods that I almost expected to find on my return that a search party had been organized to find out what had become of me. I returned laden with spoil, and cheered in spite of the cold weather by the evidences on every hand that the birds and bushes were going about their business without a doubt that spring is really here. I must admit that we poor humans looked very blank on Tuesday morning when we found the hillsides white with snow and a cold wind blowing that sent one shivering into the house.

In the woods today I found three different shrubs in full bloom. The hardhack stems, simply crowded with tawny yellow stars, make an excellent combination with daffodils arranged in brown wicker baskets. I am always at a loss for greenery to put with my daffodils, as the leaves of the flowers themselves are never plentiful enough unless one sacrifices to some extent the vitality of the bulbs, which need the leaves to help store nourishment for next year. They should be left untouched until they turn quite yellow and give signs of drying off, when they may be cut off close to the ground. Of course, if you find the yellowing leaves too unsightly, the bulbs can be lifted carefully after blooming and replanted in some out of the way place to ripen their foliage, but if you are at all like me, you will find that a rather risky thing to do, for the "out of the way place" may be completely forgotten until your bulbs have begun to make roots again in the fall, when to disturb them is almost fatal.

Another pretty little shrub now in full bloom in the woods is one of the little evergreen bushes with shiny oval leaves, so common all over these mountains. Some years ago I noticed an enquiry from Rossland regarding this shrub, which was answered in the "Plant Life" of the Montreal Herald. The scientific name reaches half way across a line, and it seems to have no common name, but belongs to the staff tree family. In Victoria I noticed it used as a substitute for box, and it made very pretty low hedges or edgings. Anyone wanting a permanent edging for formal beds could not do better than try this little shrub, which can be had anywhere for the trouble of digging. Just now the bushes are covered with tiny red four-pointed stars, and the contrast with the shiny rich green of the leaves is beautiful.

I also found some flowering currant in bloom, its sticky leaves and drooping racemes of pale pink flowers exhaling a most delightful perfume. The jays were furious at my invading their sanctum and followed me about, scolding most vociferously. I sat down in a little pine grove to watch a robin, who seemed to be in search of building material, and the jays became quiet, hopping here and there quite close to me, and to my surprise, in the stillness I found that they were carrying on a low-toned conversation, so soft and musical that for a long time I could not believe the evidence of my ears until it was corroborated by my eyes. It seemed incredible that such sweet cooings and chirping could emanate from the throats that a minute before had been calling "sneak! sneak!" at me in the harshest gutturals. I watched them for a long time, but finally rose to go home, when a startled jay emitted a shriek right above my head that nearly made me jump out of my boots.

Yesterday we went up to Willow point and striking into the bush behind the schoolhouse we followed a winding trail up through the groves of budding larch and poplar to the bench away above the lake. It was a bit of a pull, and we were gasping by the time we reached the top, where what little breath we had left was snatched away at the magnificence of the view. It was the first time I had ever been back on that bench and I was simply overcome. Surely nowhere in the world could one find a more beautiful outlook. Away over the tops of the green trees the various curves of the Outlet lay in bluest splendor, while everywhere the banks were clothed in a thousand shades of green and misty violet. Farther along on the next bench a peach orchard furnished great globes of purest rose color, the stems taking on such a rich tint at this time of year that the rows of trees seen in perspective looked like a row of pink lanterns against the green. It seems to me if I lived there I should be tempted to spend most of my time on the veranda, feasting my soul on the perfect beauty all around. A cleverly arranged vista had been opened through the forest to the west, through which one caught most delicious glimpses of the lake. The sun had hidden behind the mountains, as we passed along the shores with their serried ranks of tufted larches, lit up here and there by a tall white candle of a poplar with its shivering flame of yellow leaves. Altogether it was a most delightful trip and quite consoled me for the loss of several hours that should have been devoted to the garden.

My beloved daffodils, under which name I class the half dozen different varieties of narcissi I grow, are about at the zenith of their beauty, tossing their golden heads most nonchalantly to the coldest breezes. I have never known them to bloom in the order they have this year. Usually the Emperor and Empress make a most impressive entrance on the scene, as royalty always does, quite late in the season, whereas this year they are in the height of their bloom before the smaller early sorts have opened. No words can tell you how lovely they look—great slopes covered with their gorgeous color and in some places growing behind a rampart of snowy rockcress touched up here and there with pale pink and purple hyacinths. The whole garden is perfumed with the breath of these flowers, along with the double violets, which are just now at their best. What delicious things they are and how quickly they respond to kind treatment. Last fall the chickens picked my violets almost bare, and I despaired of having any blossoms this spring, but I had some chicken manure dug in around the roots and scattered a little nitrate of soda along near the rows and am now reaping my reward in great bunches of purple delight. The stems are a little short still, but a little warm weather will help that. One of my violet beds will have to be turned under this year, as it has been neglected so long that it is all overgrown with clover and seedling alders. The best time for replanting violets is soon after blooming, when strong runners can be set out and with good cultivation will form blooming plants by next season.

Rather a queer thing happened just now. When speaking in the first part of this letter I mentioned that I did not know any common name for the little evergreen shrub belonging to the staff tree family. A few minutes ago a book was given to me as a birthday gift, which contained the common name and it is so pretty that I simply had to tell you. The name is "Mountain Lover," which is certainly more appropriate and pleasing than "Pachystima Myrainites," which is the botanical name. I could not resist putting that in for the poor printer to wrestle with. It is really taking an unfair advantage of the average man to ask him to decipher names of unknown plants in a mere woman's handwriting.

The book is one I have long coveted—"Alpine Flora of the Canadian Rocky Mountains"—and is beautifully illustrated. Already I have dipped into it enough to identify many of the wild flowers I have puzzled over. The skunk cabbage is described as belonging to a very numerous family of tropical plants, and is the only representative we have. What a pity it has such a disgusting odor. We saw some in bloom yesterday and really it is a noble plant, its fine broad leaves and immense blossoms giving it quite a tropical effect. But alas! it is like a pretty woman with a bad temper, pleasant to look at but safer at a distance.

New arrivals in the garden this week are the tiny ferns transplanted from among the rocks, which year after year uncurl their little fingers in a shady corner, and the gold bells of the Forsythia, which surprised me yesterday when I caught sight of them against a background of evergreens. They are so light and airy that they are apt to be overlooked unless thrown into relief by something of the sort. This shrub is a great favorite of mine and I find it propogates very easily, for the other day while working at the foot of the terrace on which it grows I found a great many of the tips of the branches had taken root and made strong plants.

I have been dividing tall larkspurs and, realizing how very much they needed it when I noticed what a lot of semi-dormant buds are on the roots, which would not grow so crowded were they. I also dug up a lot of day lilies—those fragrant yellow ones, whose scent I love, and was more than surprised to see what peculiar roots they have, long fibres with thick fleshy swellings about midway of each. The weather, though cold and dull, is not very suitable for transplanting, owing to the high winds that prevail. Seeds are making very slow growth, my sweet peas only poking their noses through the soil now, though they have been sowed for weeks. It is too cold yet to sow seeds of nasturtium and canary vine, though they might germinate, but are better sowed after the ground has become warmed.

Someone told me yesterday that some renowned weather prophet had foretold a cold April, with a beautiful May to follow, so let us all cheer up and hope for better things.

CARDINAL OPPOSES WOMAN SUFFRAGE

Showing to Perpetuate Prerogatives of Sex—Pleads for Dignity of Women

(By Daily News Leased Wire.)

BALTIMORE, Md., May 1.—A letter from Cardinal Gibbons opposing woman suffrage was read at a mass meeting here tonight under the auspices of the Maryland association opposed to woman suffrage. The cardinal said in part: "Equal rights do not imply that both sexes should engage promiscuously in the same pursuits, but rather that each sex should discharge those duties which are adapted to its physical constitution and are sanctioned by the canons of society. When I deprecate female suffrage I am pleading for the dignity of woman. I am contending for her honor. I am striving to perpetuate those peerless prerogatives inherent in her sex, those charms and graces which exalt womankind and make her the ornament and the coveted companion of man.

"We must remember that though woman does not personally vote she exercises the right of suffrage by proxy. So powerful is the influence of a sensible matron over her husband and sons that they will rarely fail to follow counsel which comes from inspired, rather than labored reasoning."

The letter was read by Rev. P. C. Cavan, chancellor of the diocese.

WANT INTERIM REPORT OF MARCONI COMMITTEE

(By Daily News Leased Wire.)

LONDON, May 1. — Winston Churchill's vigorous protest before the Marconi committee has brought to a head the prevalent dissatisfaction with the methods of the inquiry and steps were taken today to put an end to what is generally agreed to have degenerated into a farce. A member of the committee will move today for an interim report and it is expected that attention will be called to the fact that the committee for some time past has disregarded its terms of reference. It was appointed to investigate the circumstances of the completion of the Marconi contract and to report whether the agreement was desirable and should be approved. As even the Unionist Pall Mall Gazette admits, the committee long ago lost all sense of proportion, while the Liberal organs assert that its proceedings have been as absurd as anything in Alice in Wonderland. Mr. Sherwell, a Liberal member, tonight handed in a motion in the house calling upon the Marconi committe to report by July 2. Mr. Sherwell asks the premier to grant facilities for a discussion of the motion on Thursday., The belief is that no day will be found available but there is no denying the fact that the motion expresses the general opinion of the lobbies. The reason for thinking that the Conservative members of the committee will not resist the proposal to issue an interim report, which will mean that the report will appear before the house adjourns for the holidays is that the issue of such a report would unmuzzle the committee on matters so determined and among experienced members there is a strong conviction that a debate in the house of commons should immediately follow an interim or other report.

SIR CHARLES TUPPER LEAVES FOR ENGLAND

(By Daily News Leased Wire.)

ST. JOHN, N. B., May 1.—Sir Charles Tupper arrived last night from Amherst on the government official car which was attached to the regular Canadian Pacific railway Halifax express and he will sail on the Empress of Ireland today. Sir Charles was accompanied from Amherst by his nephew, C. T. Hillson and Mrs. Hillson, with whom he stopped during his stay in Amherst. Despite many demands made upon him in the last two days, the veteran statesman is in the best of health and spirits, in fact, the wonderful vitality that he displays at his advanced age is the marvel of all who meet him. At different stations along the way large crowds had gathered and many old friends were not satisfied until they had gained admittance to the car and shaken hands with Sir Charles. Since his arrival at Amherst a week ago Sir Charles has hardly had an idle moment. The people of his old home left nothing undone to make his visit memorable. Liberals vied with Conservatives in doing honor to the sole surviving father of confederation whose career has reflected glory on his native province.

POLICE CALLED OUT TO DISPERSE JOB HUNTERS

(By Daily News Leased Wire.)

WASHINGTON, May 1.—Hungry job hunters, among them many who have despaired of gaining the official pie counter through official influence gathered in such numbers last night in the vicinity of the civil service commission offices that the police reserves were called out. The gathering was inspired by the fact that on May 1 the examination blanks for appointments to minor positions are given out.

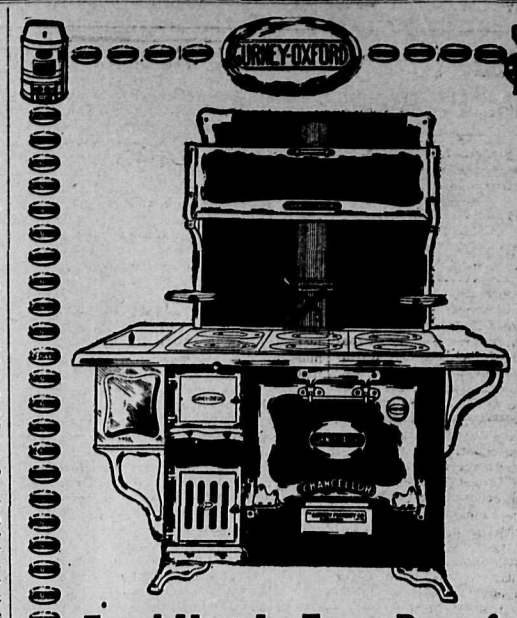
IT'S GOING TO BE A HUMMER



Equal Heat In Every Part of The Gurney-Oxford Oven

Every woman well knows the bad results from constantly opening the oven door to move a cake to another shelf or turn a pan of biscuits. Often the shifting or the cold air striking in proves utterly disastrous to her baking.

The Divided Flue on the Gurney-Oxford range equally distributes the heat to all parts of the oven which is regulated to the exact temperature required by means of the Economizer.

This wonderful time-labor-and-money-saving device controls the heat of the whole range.

It is worked by a small handle which moves around a series of six notches. The housewife soon learns that by moving the handle to No. 1 she has a very hot oven, to No. 3 a moderate oven, and that No. 6 checks the fire so as to burn scarcely any coal while she goes out shopping On her return she simply moves the handle to the number that gives the required heat and the result is prompt.

Of inestimable value also is the Broiler Attachment and the Special Grate.

But a most delightful feature about the Gurney-Oxford is its constant bright and shining appearance.

It has a smooth polished top that never requires black lead and is thoroughly sanitary.

For years stove experts have been working out woman's problem in the kitchen and the Gurney-Oxford range is the solution.

PREPARED TO STAND BY EMPIRE

ew Zealand Prepared to Support Mother Country—Minister Speaks to Canadian Club.

(By Daily News Leased Wire.)

MONTREAL, May 1.—In a speech livered before the Canadian club sterday Col. Allen, minister finance and defence in the New aland government, dealt with the road issues of imperial defence, ma- ng more special reference to the ovements in his own country in that rection. The speech was very warm- received. To himself as a New Zea- nder passing through Canada, said , it seemed strange that Canadians ould be divided into easterners and esterners, and when national prob- ms faced the country they would find stinctions between the two. "I am eaking," he said, "from a non- artisan point of view, and it would be rong of me to do otherwise. I do ot know what is in your minds and shall not try to make out. I am ncerned with a much larger ques- on, if one day you will stand by us. an we, gentlemen of Canada, depend you? I can give you and the em- re as a whole this assurance, that e shall be prepared to stand by the mpire. We already have taken one ep in that direction and we shall be ady to do it again if the mother untry finds it necessary to ask for rther help."

Col. Allen went on to speak of the nportance of preserving British su- remacy in the Pacific and to protect ade in that ocean. "We cannot alone New Zealand and Australia," he id, "protect the Pacific. The trade utes must be kept open if the em- ire is to stand. They are the bonds f empire and we are determined, so r as possible, to make necessary sac- fices to keep them open."

Another Luncheon.

(By Daily News Leased Wire.)

OTTAWA, May 1.—Col. James llen, minister of defence, finance nd education in the government of ew Zealand, was the guest at a uncheon given in the Parliament estaurant today by the Canadian ranch of the Empire Parliamentary ssociation. Hon. T. S. Sproule, peaker of the house of commons, pre- ided, having on his right the guest f the occasion, and on his left Sir harles Fitzpatrick, chief justice of he supreme court and administrator f the government of Canada. The ight Hon. R. L. Borden and Sir Wil- rid Laurier were present, besides Col. am Hughes, minister of militia; Hon. . E. Kemp, Hon. W. T. White, Hon. ouis Coderre, Hon. George H. Perley, Hon. J. D. Hazen, Hon. T. W. Croth- rs; H. B. Ames, Hon. James Lough- ed, W. B. Northup, Senator Power, Major Edward Chambers and many embers of the senate and house.

Mr. Sproule proposed the health of he King and welcomed Col. Allen to anada on behalf of the parliamentary ssociation.

Right Hon. R. L. Borden, in propos- ng the health of the guest, referred o the inspiration of his presence in anada and to the splendid progress which had been made by the dominion f New Zealand. The prime minister aid that in common with the other portions of the empire, a great task ay before the island dominion.

Sir Wilfrid Laurier complimented Col. Allen on having followed the ex- mple of his predecessors in taking he Canadian route on his homeward ourney from the motherland. He aid the problem of today was to bridge distances, and if possible to nnihilate them. In this connection e referred to the All-Red steamship roject which his government had nder consideration, and which he oped the present administration would carry out. It was Sir Wilfrid's pinion that direct lines from Van- ouver to Australia and New Zealand were a necessity.

All British Cable.

Col. Allen's health was drunk with nthusiasm. After alluding to the varmth of his welcome to Canada ince he landed in Quebec, he express- d his concurrence in Sir Wilfrid's iews as to the importance of improv- d communication upon the Pacific, dding that when the new ship Nia- ara arrived at Vancouver from New ealand the people of Canada would e proud of her. A grand work unit- ng Australia, New Zealand and Can- da under the seas has been accom- lished by the all-British cable which ad met with such success that before ong it would be necessary to dupli- ate portions of it. Col. Allen ex- lained at some length the military system of New Zealand with special reference to the organization of the expeditionary force, which he describ- ed as a system of universal training so constituted as to fit in with the imperial army or the Australian forces. It was purely a voluntary move- ment, but had been taken up in such an enthusiastic spirit that it promis- ed to include every man in the Dom- inion capable of bearing arms. The Labor organization of New Zealand had been referred to, and he said that he felt bound to admit that it had been, on the whole, a realization of the expectations which were at the outset formed concerning it.

The problem of defence had been based upon the necessity for the pro- tection of New Zealand. Australia, more close to the menace of hostility, had undertaken the problem in a practical way, and strange as it might seem, it was a Labor government that had instituted the system of compul- sory training. Imperial defence was the problem which New Zealand felt more forcibly than other dominions, because of its lesser size. Canada, with its magnificent extent of terri- tory and possibilities of great popula- tion, might feel that some day it would want to stand alone. New Zealand did not. The Pacific ocean was as important to England as was the Atlantic, but such were the de- mands of the mother country for home defence and protection of the Atlantic trade routes that Great Britain must have a larger naval or- ganization than she has at present if imperial interests were to be safe- guarded.

Councils of Empire.

Dealing with the problem of par- ticipation in a common scheme of im- perial naval defence, Col. Allen de- clared that conditions of today could not prevail very long. Some more satisfactory system of direction must be devised. If the solution was to be a grand imperial conference and a committee of imperial defence, a great good would come from future confer- ences if they became councils of the empire.

"We cannot remain satisfied with participation in a conference or or- ganization that has no executive func- tions," he said, "but is only an ad- visory body. We are no doubt all looking forward to participation in a more practical organization. This is the capital of the great Dominion of Canada, of a territory embracing more than half of the North American con- tinent, and we look to you Canadian statesmen to give us a leader."

Canada's eastern shores, he said, owed more to the British empire than did New Zealand, but New Zealand also looked to the maintenance of battle strength of the British fleet in the North sea. The western shores of the Dominion were more closely allied with Australia and New Zea- land, and protection of the Pacific ocean should be the mutual concern of all these. New Zealand was prepared to make sacrifices in the accomplish- ment of that end. But in that also New Zealand looked to Canada for a lead.

Col. Allen concluded with a cordial invitation to Canadian statesmen to visit his country, where, he assured them, they would meet with a hearty welcome.

The visiting minister was taken to the experimental farm this afternoon, and escorted to several points of in- terest. Tomorrow the Canadian club will give Col. Allen a luncheon at the Chateau Laurier.

FOUR HUNDRED THOUSAND IMMIGRANTS THIS YEAR

VANCOUVER, B. C., May 1.—Vice- President Dalrymple and other offi- cials of the Grand Trunk Pacific back from the north and Victoria, are here today, and will go east tomorrow. All are greatly impressed with the British Columbia tour, but state no announce- ments as to its result will be made until they have submitted their report to the president. General Passenger Agent Hinton predicted that no doubt several millions would be expended in British Columbia in the next two years in building branch lines, making improvements to the main line and steamship service and construction of hotels. Victoria would have a fine hotel on the company's site purchased some time ago on Belleville and Gov- ernment streets, and one at Mount Robson park also. Assistant Passen- ger Traffic Manager Bell predicted 400,000 immigrants for Canada this year.

"A man of large calibre, isn't he?" "Yes, he is a big bore."—Judge.

The Inventor—"That machine can do the work of ten men." Visitor— "Gee whiz. My wife ought to have married it."—Puck.

SUCCESS OF WORK SHOWN BY REPORTS

Woman's Auxiliary Holds Annual Meeting and Hears Addresses by Prominent Members.

The seventh annual meeting of the diocesan branch of the Woman's auxili- ary to the M.S.C.C. commenced yester- day morning with service of holy com- munion in St. Saviours church at 10:30 o'clock, which was attended by 50 mem- bers of the Woman's auxiliary, with the addition of Mrs. Armbrister's young pupils and some of the choir. Rev. F. H. Graham celebrated and preached the sermon, taking for his text the words from Gal. III, 28th verse, "There is neither male nor female, but all are one in Christ Jesus."

After a few words of commendation and thankfulness with regard to the progressive work in this diocese of the Woman's auxiliary, Mr. Graham pointed out that the keynote of St. Paul's idea was co-operation, the fellow-working of men and women along the same lines for the same Master, Jesus Christ. The part that women had taken during the life of Christ on the earth was shown in the incarnation, the great and essen- tial linking together of God and man in the blessed virgin Mary. The Lord, in speaking of the day of judgment, said that two men would be in the field, two women at the mill, the one be taken, the other left, an entirely new view of women's position to the Jew of that day. "When all His deciples forsook Him and fled" many women were left, and to a woman the resurrection was first an- nounced, and women were in the upper room when the holy ghost was given to the apostles; and today woman had cause to hold fast to the faith that had emancipated her. There was a tre- mendous womans movement in the world at this present time, a great change of the object and aim of woman, not a renouncement of domestic duty but it was done no longer as the work of a handman but in the spirit of the "help-meet."

Woman now took her part in forward- ing the higher aims, and the things that counted most in the world, and so also in the aims and work of the church of Christ. Her sympathies were broadened, her intelligence widened in forwarding this work, if the work was done in the spirit that ensured the presence of Christ, whole-heartedly and in response to the Saviour's teaching to "deny him- self and follow me." The number of communicants was 48. The offering amounted to $11.15.

The afternoon session was opened in the parish hall at 2 o'clock when the Woman's auxiliary litany was read by Mrs. de Pencier, who was welcomed by all the members. There was a gather- ing of 36 officers, delegates and repre- sentatives, several new branches sending delegates. Letters of greeting were re- ceived from Bishop de Pencier, the gen- eral corresponding secretary, Mrs. Bo- gert, from the general board and from the general dorcas secretary, Miss Hal- sen; Mrs. Dumoulin and Mrs. Cameron from Kelowna; Miss Symonds, Boswell, and Mrs. Morgan of Armstrong also sent words of greeting, and a letter was read from the secretary of the synod, Rev. Fred H. Graham, regarding the printing of the report of the diocesan Woman's auxiliary in the Synod Journal, and conveying the good wishes of the synod for the annual. The correspond- ing secretary, Mrs. Applewhaite, was instructed to acknowledge these letters.

The president read her address, which opened with word of gratitude to Mrs. de Pencier for so kindly arranging to be present at the annual meeting and also expressed welcome to the delegates from the various branches, and especially to Mrs. Beer, the honorary president. The work of the year showed progress and development, not so much in this diocese as in the work as a whole. The various resolutions of the general board were widening the scope and field of work. The need for each one to realize the in- dividual responsibility that rests upon her was emphasized. The success of all meant individual effort, one weak mem- ber, or half-hearted member was a dis- tinct drawback to success. The reports of officers would bring out the work done during the year, especially that of the treasurer, which would show that the obligations had been more than ful- filled, and "as we give generously of our means, we must also be willing to give our thoughts and prayers that God's blessing may rest on our efforts. The power for good of the united work of 40,000 women should surely bring about the forwarding of Christ's kingdom, though it is not for us to anticipate re- sults, but to do our share in a prayerful and humble spirit," she said.

"India, China, Japan—far reaching in- deed. Certainly it is a privilege to take our part in the work."

The address concluded with words of gratitude for the helpful work of the executive, always so cheerfully given, and always appreciated by the presi- dent.

Rev. F. H. Graham endorsed the hearty vote of thanks unanimously passed by the meeting to Mrs. F. A. Starkey for her helpful and excellent address.

The reports of officers were then read. That of the recording secretary, Mrs. W. J. Astley, showed that five board and nine executive meetings had been held during the year and that Senior branches are now 23, Junior eight, being eight new Senior and two Junior formed during the year. One girls branch was formed at Armstrong, one dissolved at Vernon one reorganized as a chancel guild. Two Senior branches were disbanded, at Rossland and Grand Forks, though these would be reorganized shortly. The Senior membership was 365 with nine life mem- bers, and Junior membership 156 and Babies 130.

The corresponding secretary, Mrs. Applewhaite, reported a large amount of correspondence in connection with the work, most ably carried out. Eight new branches, at Fruitvale, Bonnington, Bos- well, Nakusp, Summerland, New Den- ver, Slocan City and Edgewood were corresponded with, and 174 membership cards had been distributed during the year.

Mrs. R. M. Bird gave the treasurer's report. It was most fully made out and showed that the total amount received during the year was $618.35. Pledges were not only fully paid up but over- subscribed. Donations amounted to $139; cash balance in hand, $6,367, amount to be voted on $67.40.

The report of Miss Nellie Steel, the Junior secretary, showed good progress among the branches and great interest taken in missions, especially in the blind school gifts.

The secretary of babies branches, Mrs. F. C. Moffatt, showed a membership of 130 among three branches. There was no report from two branches; $46.95 was contributed.

The dorcas secretary, Miss Connie Brett, had a most interesting report of her branch of the work to read to the meeting. Nine outfits were now under- taken, which is three more than last year, the various branches contributing to St. Peters mission at Hay River, the school at Yale, B.C., Shulus hospital, Fort Vermillion, and Miss Riddell's Leper home in Japan.

The literary secretary, Mrs. H. C. Cummins, in her report showed that 245 leaflets had been taken, and increase in the sale of books and pamphlets suit- able for mission study.

The Leaflet editor, Mrs. Harry Bird, read a very interesting letter regarding parochial branch notes from the editor- in-chief, Mrs. Willoughby Cummings.

The reports of branches were read in the following order and showed a great growth and interest in the work:

Armstrong parochial branch, read by Mrs. G. A. Spink.
Balfour, by Mrs. Christopher Reed, president.
Enderby, by Mrs. Cobbett, representa- tive.
Bonnington, by Mrs. Gerald Ashby, delegate.
Boswell, no report.
Edgewood, too lately formed to report.
Fruitvale, Mrs. Neilson, secretary.
Grand Forks, no report.
Harrop, no report.
Kaslo, by Mrs. Harrison, president.
Kelowna, by Mrs. Cobbett.
Nakusp, only lately formed.
Nelson, by Mrs. Macdonald.
New Denver, no report.
Okanagan Centre, no report.
Phoenix, no report.
Penticton, no report.
Queens Bay, by Miss Pafford.
Salmon Arm, read by Mrs. R. M. Bird.
Slocan City, by Mrs. Pendry, secretary.
Summerland, by Mrs. Drew, represen- tative.
Trail, by Mrs. Wade, president.
Vernon, by Mrs. Cunliffe, representa- tive.
Rossland (Juniors), Grand Forks (Juniors), by Mrs. Applewhaite.
Salmon Arm, (Juniors).
Kaslo (Juniors), by Mrs. Harrison.
Greenwood (Juniors), by Mrs. H. C. Cummins.
Nelson (Juniors), by Mrs. R. M. Bird.

Reports of babies branches were de- ferred until Friday morning.

Mrs. de Pencier read a report on the united thankoffering fund, bringing the duty and privilege of supporting this fund to the attention of the delegates in a very striking and forcible manner. At the last triennial an offering of $13,- 353 was presented, which sounded a truly magnificent sum to have been gathered during the three years, but it really rep- resents the sum of 10 cents per member for three years. The fund was used for the training and maintenance of mis- sions, which deserved every support.

If each member during the next three years only put in 25 cents a year the total of $2,250,000 would result, and be a worthy offering. The many causes for thankfulness were enumer- ated in the increase of the offers of men and women for service in the field, she said, and the coming appointment of a bishop for the diocese of Kootenay. The great strength of the organiza- tion was unity, and if all were moved with the spirit of thankfulness what a power they should be. With an elo- quent appeal for more prayerfulness on the part of each member, Mrs. de Pencier concluded a splendid address.

The meeting was adjourned to 10 a.m. today, when the pledges and other business will be considered and the election of officers, followed by a clos- ing address at 3 o'clock by Rev. S. St. G. Smythe, to which all members of the parochial branch are invited, and which will be followed by afternoon tea, given by the Nelson parochial branch.

POLICE MAGISTRATE CHARGED WITH BIGAMY

(By Daily News Leased Wire.)

OSHAWA, Ont., May 1.—Police Magistrate Watson of Oshawa, who was arrested here on Sunday night on information laid by his first wife, who came all the way from Long Beach, Cal., to charge him with big- amy, came up for a preliminary hear- ing before Justices C. R. Crysdale and Bothersill, and was committed for trial at the June assizes.

Friedmann Satisfied With Condition of Patients

(By Daily News Leased Wire.)

MONTREAL, May 1.—Dr. F. F. Friedmann, the much discussed Ger- man physician, whose sale of his se- cret treatment for tuberculosis has drawn upon him the criticism of the medical profession generally, returned to Montreal today and administered a second injection of the turtle serum to 15 of the 56 patients whom he treated on his first visit to this city on March 11 last. The authorities of the Royal Edward institute, on whose invitation Dr. Friedmann first visited Montreal, had 12 hours' notice of his coming, and energetic measures had to be ta- ken to collect the patients for their second treatment. Of the 56 original- ly treated, 44 gathered at the institute this afternoon, and Dr. Friedmann spent the whole period from 2:30 un- til 6 p.m. in examining the patients orally as to their condition. Twenty- nine of them, including all but one of the female patients, were informed that no second injection was necessary or advisable at the present time and they were sent away. The remaining 15 were given the injections in expedi- tious fashion, the last injection being concluded before 7:30.

Dr. Friedmann expressed himself as well satisfied at the condition of the patients, as disclosed by the questions put to them. The heads of the insti- tute were expected to make a state- ment regarding the results so far ap- parent, but would say only that while improvement had been shown in some cases, the results were not conclusive, and that it would be necessary for further time to elapse before a definite judgment could be formed. On Dr. Friedmann's first visit his demonstra- tion was witnessed by more than 50 physicians of Montreal and other cities. No invitation had been sent out and only six physicians were present to watch the doctor's proceedings, all of them being connected professionally with the institute. Dr. Friedmann will spend part of tomorrow in Montreal in order to see some patients who were unable to come to the institute today.

Dr. Friedmann will leave at 4 o'clock tomorrow for Ottawa, going to Toronto and London before returning to New York. He stated that business mat- ters would prevent his returning to Germany as soon as he had expected.

ARE THE SUFFRAGETTES MAD?

"I believe Annie Kenny to be actu- ally Joan of Arc herself come to life again."

So said one of the suffragette lead- ers in all seriousness not long ago.

Annie Kenny is, of course, the one- time Manchester mill-girl who by getting herself arrested—together with Christobel Pankhurst—at Sir Edward Grey's meeting in the Free Trade hall in October, 1905, started the militant Suffragette movement that today finds expression in blowing up the houses of cabinet ministers and burn- ing down public buildings.

Now to compare such a woman to Joan of Arc is permissable—or not; according to one's point of view. But to assert that she is Joan of Arc living again in the flesh, seems to the or- dinary man or woman to savor of insanity.

And, indeed, it is hard to resist the conclusion that a considerable propor- tion of the militant Suffragettes are afflicted by a form of hysteria that is very nearly akin to madness.

They have bottled up their emotions too long and too tightly, and just as a volcano is the more dangerous the longer it has been quiescent, so is it with these highly strung women.

Babies Fling Bottles

Many of them have never known a mans love, and they have grown, con- sequently, to hate that to which they have been unable to attain—to hate it with insane hatred. This is per- haps the most pitiful part of the whole pitiful business, for surely no more dreadful misfortune could overtake the human race than that the sexes, in- tended by nature to mutually support and help one another, should be per- manently antagonized.

There is no madness more terrible than the madness of sex. Nor is it at all extraordinary that it should take the form of destroying property, be- cause this is an instinct that is inher- ent in the uncontrolled human animal.

A baby will fling its bottle furiously on the floor long before it can speak, and crow with delight at the result. The small boy, if a pebble is anywhere handy can rarely resist the temptation afforded by an unguarded window in an empty house.

Later on in life it is much the same. Irate husbands have been known ere now to sweep the mantlepiece of orna- ments or the breakfast-table of finished describing that particular *speech of his. Notice any uneducated* person talking and you will quickly realize what is meant.

COPPER MINING GOES ON YET IN EGYPT

Metals Were Mined in Days of Pha- roahs and Old Workings Still Yield Ore.

Some interesting information respect- ing the minerals of Egypt has been pub- lished by M. Polle, a French mineralo- gist, in the Bulletin de la Societie d'Encouragement. Copper and gold were mined in the time of the Pharoahs, and explorations are being made in the de- posits anciently exploited. The mining companies created since 1905 appear to have progressed since that epoch. Cop- per, which appears in the form of silicates and carbonates, was worked ex- tensively, and the deposits known were almost exhausted by the ancient Egyptians.

The principal gold districts are to the south of Assouan, where the Nile Valley company is much embarrassed with transport difficulties. The quartiz con- tains 150 to 190 grams (gram equals 0.03527 of an avoirdupois ounce or 0.03215 of a troy ounce) per ton. At Barramiah mine, in the Arabian desert the ores yield generally from 60 to 90 grams, and the richer portions from 190 to 345: there is a six-head stamp mill. The lack of water, the difficulties of communication, and lack of labor are factors which have a tendency to im- pede the development of mining in Egypt.

Coal is extremely uncommon; there is a bed in of four inches in Sinai in Upper Egypt a layer or lignite 10 inches thick. Petroleum is found at Gems-all in the Gulf of Suez. There is much iron ore, but of a quality too inferior to be exploitable. Important deposits of man- ganese exist in Sinai promonotory, which could compete with the Caucasian ores if a railway 90 miles long were con- structed. On the coast of the Red sea near Djebel Roussas are four beds much mineralized with lead and zinc ores.

Sulphur mixed with gypsum is found along the Red sea littoral. Phosphates have been recognized at Esneh in the Nile valley, at Safadja on the Red sea and at Rachid in the oasis of Dakiah. On the coast of the Red sea are found a few emerals, turquoise, peridots and rough pearls.

Liquor Appetite Is Not Inherited

It is acquired through Alcoholic Poisoning which Neal Treat- ment eradicates in three days.

Ethical aid which takes away liquor appetite. Given at the Neal Institute.

INTERNATIONAL DIFFICULTIES AFFECT NEW YORK MARKET

(By Daily News Leased Wire.)

NEW YORK, May 1.—The stock market was laboring under international difficulties today. The market was broad and vigorous on the upturn and while the demand was keenest for the speculative favorites all classes of stock benefitted by the movement. The reason commonly ascribed for the change was the decidedly helpful tone of the cable advices following the ambassadorial conference at London. Montenegro's reply to the powers was believed to have done much to clear the political atmosphere. The European markets did not do much because of the holiday and traders were deprived of the barometer of the conditions abroad, but the manner in which the market responded to London cables showed there was no hesitation here in placing a bullish interpretation upon them. It was probably true, however, that the technical condition of the market was largely responsible for the extent of the movement. Selling had been so long that the short account apparently was inflated to an abnormal degree. The strength of the leaders at times yesterday and their resiliency early today before receipt of the news from London indicated that the market would be bound up on any favorable development of sufficient importance to move bull traders. When the turn in the market came, bear traders were compelled to cover hastily, bidding against each other for stocks and running up prices on themselves. The upward tendency of the leaders was held in check during the early part of the day by renewed liquidation of the recent weak futures. Over 30 new low records were made during the forenoon. B. & O., New York Central and Illinois Central included. While this movement was on the market was unsettled. Bonds were easy.

Total sales, par value, $2,230,000. United States bonds were unchanged on call.

CANADIAN PACIFIC MAKES SPECTACULAR ADVANCE

(By Daily News Leased Wire.)

MONTREAL, May 1.—A spectacular advance of nearly 6 points in C.P.R., carrying the price back to the point at which the decline started, infused a strong tone into the stock market today. The exception was Iron, which was depressed to a new low record. Practically all the active stocks of the day closed with gains ranging, apart from Pacific, up to 2 points, and closed at the best prices of the day. The movement was not broad and dealings remained small but the influence of C.P.R. strength could not get otherwise than to promote a cheerful feeling in the market. Prices responded readily to light buying and little was apparently offering at the current prices. The market was without the guidance of London prices, both the London and Berlin exchanges being closed. Early trading in C.P.R. in New York showed a firm tone. In view of the uncertainty of the European situation cautiousness was observed by international dealers. The noon close here was at 237½, 2 points above the opening transactions and 1¾ above the close on Wednesday. During the luncheon interval New York became a big buyer of C.P.R. on the favorable reports from Europe, and initial transactions in the second session here were at 239¾ and the market moved steadily upward to 241½, 4 points higher than the morning close, before the demand slackened. One point of the 5¾-point rise was lost before the close, leaving a gain of 4¾ as the net change for the day.

Montreal Power and Ottawa Power, each of which scored 1-point gains, were the principal stocks to feel the effect of the C.P.R. movement. Brazilian and Toronto Rails each rose 1¾; Textile rose ½ to 86 and closed at 86¾ bid; Detroit rose ¾ and Richelieu closed higher at 113 bid. Illicrest, common, recovered 2 to 28.

Sales: 8,323 shares; $10,500 bonds.

GRAIN

WHEAT MARKET UNSETTLED

(By Daily News Leased Wire.)

WINNIPEG, May 1.—The wheat market was somewhat unsettled, prices opening lower on the American markets and in Winnipeg caused by lower Liverpool cables, following which there was a rapid advance from opening points of ⅞@⅞c on the local market; later there was a reaction on the rumor of Minneapolis flour mills closing down. Winnipeg opened unchanged to ¼c lower, sold ½c up for May and closed ⅜@⅝c lower. Minneapolis opened ½@¾c lower and after a spread of 1¼c between the high and low closed ⅝@⅞c lower. Chicago opened ⅞@⅝c lower and with a fluctuation of ¾c between high and low closed unchanged. Continental markets were unimproved.

Cash prices were ¾@1c down on contract wheat, lower grades were 1½@1¾c lower.

Oats and flax were both easier. Oats closed ⅛c down to unchanged on the options and ½@¾c lower on cash. Flax closed ⅜@⅝c lower on options and ½ @¾c lower on cash flax.

Inspections on Wednesday were 385 cars and in sight on Thursday were 150 cars.

Winnipeg wheat, closed—May, 92⅞c; July, 84⅛c; October, 85¾c.

Minneapolis, close—May, 88c; July, 90⅝c; September, 91⅜c.

Chicago, close—May, 91½c; July, 91⅝c; September, 91¾c.

Winnipeg oats, close—May, 34⅜c; July, 36¾c.

TERMS OF ANTI-ALIEN LAND ACT

(By Daily News Leased Wire.)

SACRAMENTO, May 1.—The principal features of the anti-alien land bill passed by the senate tonight are as follows:

1. All aliens eligible to citizenship may acquire and hold land in the same manner as citizens of the United States.

2. All other aliens may acquire and hold land "in the manner and to the extent and for the purposes prescribed by any treaty now existing between the government of the United States and the nation or country of which such alien is a citizen or subject".

3. Corporations composed of aliens other than those who are eligible to citizenship may acquire and hold, only according to the terms of existing treaties, land within the state of California.

4. Present holdings of aliens regardless of their rights to citizenship are protected.

5. The state specifically reserves its sovereign right to enact any and all laws relating to the acquisition or holding of real property by aliens.

Attorney-General Webb worked upon the theory that there could be no objection to writing into the statute the specific limitation of the Japanese treaty of 1911. Under the terms of this treaty, Japanese subjects are permitted to own houses and lands for residential purposes, factories, manufactories and ships, according to Mr. Webb. Another clause permits Japanese subjects to lease land for "residential and commercial purposes".

These are the only stipulations made and it is the belief of the attorney-general that the rights of the Japanese subjects to land ownership in the United States should stop at this point. Under his construction of the treaty, no land can be owned by or leased by a Japanese for agricultural purposes, except that which is already owned, or for any other purposes except those set forth in the agreement between the nations.

Explaining the wording of the substitute bill, Mr. Webb said: "Our theory is that the treaty as it now stands, represents all that Japan asked, and all that the United States was willing to grant. This act does not draw the line upon aliens who are ineligible to citizenship. Those words are not used. It gives not only to *Japanese, but to every nation whose* subjects are ineligible to citizenship under the laws of the United States, the full right to ownership of land in California that the treaties between the United States and such nations give."

CONTRACT FOR NEW RAILWAY HOTEL LET

WINNIPEG, May. 1.—The contract for the erection of the new hotel of the Grand Trunk Pacific in Regina has been let. Morley Donaldson, vice-president and general manager of the company, returned from Montreal or Monday and took up the final consideration of the matter. The tender of the Lyall Mitchell company, limited will be accepted and the work will be done by this Canadian firm. All the plans are now in the hands of the successful bidders and the work of excavation will begin immediately. It is unlikely that the hotel can be finished in 1913 and it is quite probable that the greater portion of 1914 will be required to complete the undertaking. The structure will be of cut stone. The architects are Rose & Macdonald of Montreal. The plans show a very fine building corresponding closely to the Chateau Laurier Ottawa, and the Fort Garry of this city.

CO-OPERATIVE CREDIT SOCIETIES

OTTAWA, May 1.—Arthur Meighen of Portage La Prairie has given notice of intention to introduce an act respecting co-operative credit societies.

PRETTY FROCK FOR GIRL

Girl's dress.

This pleasing design was developed in blue linen embroidered in white. The closing is at the side front, a practical and convenient feature. A jaunty sailor collar finishes the neck edge. The dress is cool and comfortable, and will develop well in any of this season's dress fabrics. In percale, galatea, linene, linen, corduroy, voile, lawn, challis or cashmere. In tan linen with trimming of red it would be very effective, or figured percale in blue and white, with white linene for the collar, sleeve bands and belt. The pattern is cut in four sizes—4, 6, 8 and 10 years. It requires 3¼ yards of 40-inch material for a 6-year size.

Each pattern can be obtained by sending 10 cents to the office of this paper. In some cases the illustration contains two patterns, each number representing a different pattern. In such cases 20c should be enclosed.

Pattern No. 9545.

Pattern Department,
Daily News:

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalties thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

ASSOCIATION TO PLANT SHADE TREES

Decides to Employ Two Men to do Work Where It Can Be Carried Out Cheaply.

Today two men employed by the Nelson Improvement association will commence the work of placing a number of the shade trees purchased with the grant made to the association by the city on boulevards where no grading is required.

Decision to employ men for this work was reached by the executive of the association because of the small number of the trees taken up by citizens, it being considered advisable to expend some money for this purpose rather than set the trees out in nursery rows until next year.

Trees will be planted only in places where no grading is required, and where the work can be carried out at a low cost.

W. N. Scott, secretary, will be glad to hear from citizens, at an early hour today, who have residence, in front of which shade trees can easily be planted.

BUILD LINK IN LINE TO KASLO

Telephone Company Completes Additional Two and Half Miles East of Nelson Along West Arm.

The British Columbia Telephone company has just completed two and a half miles of new line on the north side of the west arm of Kootenay lake. This line is another link in the through line between Nelson and Kaslo.

The equipment for the new line to Castlegar is expected to arrive in the city daily, and the construction work will be commenced as soon as it arrives. The line to Castlegar will greatly unload the now overburdened line from here to Rossland, it is said.

NELSON NEWS OF THE DAY

H. W. Tarling of Proctor is at the Strathcona.

A. Hood of Victoria registered at the Strathcona last night.

Among the guests at the Hume is Frank T. Abey of Kaslo.

P. C. McWha, the Grand Forks baseball player is at the Hume.

Dr. G. E. Rehberger of Ymir came in last night and registered at the Hume.

James Fisher of Rossland is a guest at the Hume. He will spend today in Nelson.

R. Wallace of Milwaukee arrived in Nelson last night and is a guest at the Strathcona.

W. W. Baer, Liberal organizer for this province, will deliver a lecture on Monday night in Nelson upon "The New Liberalism."

A stereoptican slide of the city's police force and the police magistrate was thrown on the screen at the Gem theatre last evening.

During the absence of R. L. Douglass from the city E. E. Robinson will be acting financial secretary of the Canadian Order of Foresters.

Mrs. H. M. Bailey, who was operated on at the Kootenay Lake General hospital on Wednesday evening, is progressing favorably toward recovery.

R. L. Douglass will leave this morning for Winnipeg where he will take a post graduate course in optics. While away Mr. Douglass expects to visit his old home in Nova Scotia.

A meeting of officers and teachers in connection with St. Paul's Presbyterian church Sunday school will be held this evening in the church hall at 7:45 o'clock. Conveners of committees are asked to present reports for the month of April.

J. W. Curran, late of Nelson and now of Vancouver, arrived in the city last evening accompanied by his bride. Mr. and Mrs. Curran will probably be in the city for a week or ten days and during their stay will be the guests of Dr. and Mrs. W. B. Steed.

In order to fittingly commemorate the birthday of their pastor, Rev. Father Althoff, vicar general of the archdiocese of Vancouver, the members of the Children of Mary Sodality of the Church of Mary Immaculate intend to present the drama, "The Chinese Mother," in the parish hall on Monday evening at 8 o'clock. To further the undertakings of the society an admission fee will be charged and the young ladies hope the affair will be well patronized.

Agents for F. O. Berg's awnings. Vacuum Cleaning Co., Box 106, Phone 19. 301-tf.

Choice baking will be for sale by the Presbyterian ladies tomorrow afternoon at J. A. Irving's store.

For service, fine Clyde Percheron stallion, weight 1700, fee $10 at time of service. Could pasture mares that come from a distance. John Graham, Perry Siding. *14-2

CANADIAN SHIPPING IS SHOWING EXPANSION

(By Daily News Leased Wire.)

OTTAWA, May 1.—The total number of vessels on the register book of the Dominion, according to a report just issued by the department of marine for the year ending December 31 last, was 8,380, measuring 836,278 tons, being an increase of 292 vessels and 65,832 tons as compared with 1911. The number of steamers was 3,667, with a gross tonnage of 641,225. The value of vessels of all kinds is placed at $25,083,340. It is estimated that 42,485 men and boys, inclusive of masters, were employed on ships registered in Canada during the year 1912.

BANKS MUST PAY INTEREST TO GOVERNMENT

(By Daily News Leased Wire.)

WASHINGTON, May 1.—Secretary McAdoo has increased the government's deposits in national banks by $10,000,000, and announces that government depositories must pay 2 per cent interest on all government deposits. This is the first time in history that the government has charged interest on what are known as active deposits.

SUPPLY OF POWDER AT COLUMBIA GARDENS

Fruitvale Conservative Association Will Hold Public Meeting on Wednesday.

(Special to The Daily News.)

FRUITVALE, B.C., May 1.—The South Kootenay Farmers' institute, having located their powder magazine at Columbia Gardens, have now a supply of powder, caps and fuse on hand at that point. Members of the institute can get their supplies through Mr. Dunton, who has charge of the magazine.

The executive of the Fruitvale Conservative association are preparing to celebrate on Wednesday evening, May 7, when J. H. Schofield, M.P.P., and W. R. Maclean, M.P.P. for Nelson, are expected to be in town. It is hoped that the residents will avail themselves of this opportunity to listen to these gentlemen's interesting discourses on the government's policy.

The Fruitvale Athletic association held a special meeting on April 28 when, owing to lack of support, the members present decided to dissolve the association and formed a Cricket club in its place. The new club hopes to have a successful season and play many matches. W. Neilson is the new president.

Mrs. Brewster and Mrs. Neilson left for Nelson on Wednesday to attend the seventh annual meeting of the Womens auxiliary at Nelson.

The wardens of the English church are arranging the services for Sunday, May 11, to take place at 7 o'clock p.m. instead of 5 o'clock p.m., as at present, and will in future be conducted by the new clergyman, Rev. H. H. Gillen. There will also be a children's service in the afternoon.

The ranchers are very busy planting out their new orchards, as many thousands of trees have been distributed at this point, and they are looking forward to having a good season.

R. J. Bush has had news that his brother-in-law, C. Meyer of Johannesburg, South Africa, has left for Fruitvale to take up his residence here.

SLOCAN CITY NEWS

(Special to The Daily News.)

SLOCAN CITY, May 1.—A good meeting of the Slocan womens auxiliary took place at the vicarage on Thursday last, when the president, Mrs. Parnham, was welcomed to her place again. Sewing was the order of the day. The president and two delegates, Mrs. Herold Gurney, vice-president, and Mrs. Pendry, secretary, were elected to attend the conference held this week in Nelson. They left on Wednesday and will be absent until Saturday.

Mr. Stevinson returned on Monday from Nelson, where he had been since the previous Thursday working in the interest of church services to be held in the new hall at Slocan park. He was one of the speakers at the hall opening on Saturday evening, when there were 150 guests present. At midnight the special Saturday night stopped for 10 minutes to gather up the guests from this end, those from the lower end of the valley waiting for the return of the train. Owing to delay at Slocan city it was nearly 7 o'clock on Sunday morning before the train reached the hall on its down trip and gathered up the weary revellers of the night before.

Mr. Soutire was taken to the hospital at New Denver on Monday, suffering from an acute attack of rheumatism in the feet and legs.

Mr. Cotterill, whose leg was so badly broken two weeks ago, has been steadily improving at the New Denver hospital, and returns to his home here this week. He will be some time convalescing.

The Literary club met at the home of Mr. and Mrs. Anderson on Wednesday evening to enjoy a couple of hours with Emerson. The study was in charge of Mr. Stevinson, who gave a short introduction of the early life and character of the eminent American author, and then called on members for their selections. Mrs. Stevinson read from the essays a couple of pages on "Self-reliance," "The Independence of Solitude," and "A Foolish Consistency." Mr. Parker read some thoughts on "Friendship"; Mrs. Anderson on "Gifts," showing that Emerson's feeling was "the only gift is a portion of thyself." Miss Nilson read from "Spiritual Laws," touching on the thoughts "Each Man Has His Own Vocation," "Prematare Ideas," and "Character Publishes itself." Miss Winterbotham read from "Compensation," dealing with Emerson's ideas on "The Cushion of Advantages." Mr. Holt took "Conduct of Life," dealing with thinkers, "A Man of Force," etc. "The Conduct of Life" was touched on by Mr. Smyth, and at the close Mr. Stevinson gave a short impromptu outline of "The Oversoul." Lively discussions took place on each reading and a very instructive evening closed with the vote to have "In Memoriam" on Wednesday evening, May 14, also by Mr. Stevinson, as he leaves next month for a lengthy trip east.

Joseph Law received a nasty cut on the head on Tuesday from a piece of falling timber. He was felling trees across the river at the time.

Mr. Stevinson will preach a special spring sermon, "Christian Evolution," in the Presbyterian church on Sunday evening at 7:30 o'clock.

A meeting of the school board was held on Saturday evening when routine business was transacted.

Station-master Garrett went to Nelson on Wednesday afternoon to interview the superintendent of the line.

The Rifle club will hold its practice on Friday afternoon this week instead of Saturday to accommodate several of its members.

Mrs. Buskat, the Russian Socialist, held a meeting in the miners' hall on Wednesday evening and gave an interesting talk on existing conditions in Russia.

This month 49,000 tons of steel rails have been shipped from Sault St Marie to Prince Rupert.

At South Fort George Tommy Williams has been committed for trial upon a charge of theft.

It is expected that this year, the canneries in British Columbia will pack more than a million cases of salmon.

The value of the fishing industry in the state of Washington for the past two years was $8,000,000.

In Ontario hotel bars cannot be opened until 8 a.m., and hotels cannot sell liquor by the bottle.

The Yukon council will discontinue the grant to the Catholic separate school in Dawson after July 1.

Efforts are being made to have the Great Northern railway run a Sunday train between Marcus and Grand Forks.

The old government office in Ainsworth is to be torn down. It was built in 1885 during the regime of Henry Anderson.

There is a store in Philadelphia that occupies a floor space of 45 acres. Its owners made such a store possible by liberal advertising.

Mrs. Mortimer-Lamb is leaving Montreal for England where she will reside in the future. Her mother, Mrs Lindsay died a short time ago.

Arthur Noel of Lillooet and J. J. Farrell of Lytton have put up a wager of $1000 each upon a series of three games between the baseball teams of Lytton and Lillooet.

In time the Canadian Pacific railway expects to run a train from Montreal to Vancouver in 72 hours. Allowing 12 hours for stops this means an average speed of 50 miles an hour.

The $26,000 Empress hotel in Fort George was refused a liquor license, because it is against the policy of the government to grant liquor licenses within a certain zone of railway construction.

The Deering Plough company of Chicago recently paid $2,100,000 for a timber limit on the lower Lillooet river. It is estimated that the limit contains 700,000,000 ft., principally fir and cedar.

John H. Gerrie, who came from New York to assist in launching the Vancouver Sun, and who acted as news-editor of that paper for a year, has left Vancouver to take an editorial position upon the San Francisco Call.

The Chilliwack Progress says that a rich strike of oil at Harrison Mills by a gang of men engaged in constructing the double track on the Canadian Pacific railway, caused quite a rush to that place last week of oil seekers, and the staking out of all the prospective lands on the north side of the river. The strike was made by the pile driving gang, who in driving an especially long pile found crude oil to be oozing up along side of the pile. The fact of oil being found so near the surface has caused real estate to go soaring at Harrison.

In supreme court chambers, during the forthcoming assizes, E. A. Crease will make an application in Colonial Investment company vs Innis for an account as a preliminary to foreclosure proceedings. L. H. Hallett of Greenwood represents the defendant.

There was a great demand for fire permits at the forestry department office in the courthouse yesterday, the regulations making it necessary to secure a permit before lighting a fire to burn brush or for similar purposes coming into effect on May 1.

Georgie, the seven-year-old son of Mr. and Mrs. F. Gillett of Fairview, returned to his home yesterday from the Kootenay Lake General hospital where he had been confined for several days, making a quick recovery under the care and attention of the nurses of that institution.

Miss Hazel Macmillan, who has been a resident of Nelson during the past eight months, left on the coast train last evening for Rosetown, Sask. Miss Macmillan will visit friends at Calgary and Edmonton en route and will be accompanied as far as Nakusp by Mr. and Mrs. D. Smeaton.

Those in charge of the entertainment which will be given in the Hume school this evening for the benefit of Mrs. Spencer expect that seats will be at a premium. A splendid program has been arranged in which some of the best local talent will take part. Those in charge of the sale of seats report a splendid response on the part of the public.

AT THE THEATRES

On Monday, May 5, "The Retreat from Moscow," a Pathe masterpiece, will be the chief feature at the Gem theatre. The historical retreat of Napoleon's army from Moscow in 1812, reconstructed with the aid of 1,000 soldiers of the imperian Russian army. Every phase of the epoch-making incident is shown with an accuracy which makes this production one of the most remarkable motion pictures ever released. The burning of Moscow after Napoleon's arrival, and the pathetic plight of the retreating army are re-enacted in all the grim tragedy of war. The scenes were photographed on the actual sites of their original settings and the ensembles were modeled after the famous paintings by Verestchaguine.

MRS. WM. ARCHER
Tells Mothers What to Do For Delicate Children.
"My fourteen year old daughter was very thin and delicate. She had a bad cough, so that I became very much alarmed about her health. She was nervous and did not sleep well, had very little appetite and doctors did not help her. Having heard so much about Vinol, I decided to give it a trial. It has helped her wonderfully. She can sleep all night now without coughing once, in fact, her cough is gone. Her appetite is greatly improved and she has gained in weight. Vinol is a wonderful medicine and I will always keep it in the house. I wish every mother knew what Vinol will do for delicate children." Mrs. Wm. Archer, Long Branch, N. J.
This delicious cod liver and iron preparation without oil is a wonderful body builder and strength creator for both young and old. We promise to give back your money in every such case where Vinol does not benefit. This shows our faith in Vinol. Rutherford's Drug Store.

MAKE PRESENTATION TO MISS BULGER

Shipyards Employes Give Jewelry and Coffee Percolator on Occasion of Launching of Nasookin.

A pleasant feature in connection with the christening ceremony of the steamer Nasookin on Wednesday afternoon was the presentation made by the shipyard employes to Miss Bertha Bulger, who christened the steamer. Immediately after the boat had taken the water and before the guests had retired to the dining room for refreshments the presentation was made by Miss Winnie Keys and Miss Margaret Carson, accompanied by a few appropriate words on behalf of the employes by D. R. Thomas.

The gifts were two in number, one being a gold brooch, necklace and pendant set with pearls, peridots and tourmalines, and the other an electrical coffee percolator, the latter being the gift of the electricians.

After Miss Bulger had expressed her thanks to the donors in a few well-chosen remarks the party retired to the dining room.

SCOTCHMEN WILL MARCH TO CHURCH

Clan Johnstone to Parade to St. Pauls Next Sunday Evening—Piper McCleary to Lead.

The services in St. Pauls Presbyterian church next Sunday evening will be of unusual interest to Scotch people. Clan Johnstone No. 212 will march to the church in regalia, headed by Piper McCleary, who is the present chief. Rev. E. S. Logie, hon. chaplain, will conduct the services, preaching a suitable sermon, and special music will be rendered by the choir, under the leadership of F. Warner Smith. As a very large attendance is anticipated the centre will be reserved for members of the clan.

GRAIN SEEDED IN GOOD CONDITION

Large Proportion of Wheat in Ground —Land Too Soft for Traction Plows

(By Daily News Leased Wire.)

WINNIPEG May 1.—According to reports received from over 200 points in the Canadian prairie west seeding is well on the way to completion. At 114 points over 75 per cent of the wheat area is reported seeded. Taking into account the acreage surrounding the points with a less amount seeded, it is reasonably safe to assume that fully 75 per cent of the land intended for wheat this year has already been sown to that cereal. Fifty-five points report the acreage to be seeded the same as 1912. Seventy-five points reported the acreage as less than last year while 44 points report an increase of acreage running from 5 per cent to as high as 25 per cent, though this last figure occurs but seldom, thus indicating that there probably is no increase in wheat acreage this year and possibly a fractional decrease. With reference to the seeding on stubble land without replowing the figures would indicate that from 25 to 30 per cent of the wheat crop had gone in on land in this condition. Very many points reported the ground as too soft for the use of the motor tractors. These reports almost en masse declare that while seeding is on the whole considerably later than last year, the condition of the ground is so good that there have been very few drawbacks, that the seeding is actually far in advance of what it was on this date last year, with a better general outlook for the season. Taken as a whole, the report is a very satisfactory one, the fact that the acreage in wheat is not materially increased is really a very healthy and satisfactory sign, as it shows that the farmers are slowly, but surely awakening to the danger of seeding wheat late and have confined themselves largely to land that was prepared last season. Only three points report an actual need of rain. Wet snow has fallen very generally in southern Alberta about the only section where additional moisture was needed.

FORTY CARS LOADED WITH CONTRACTORS' MACHINERY

(By Daily News Leased Wire.)

WINNIPEG, May 1.—A train of 40 cars loaded with locomotives, steam shovels, boarding cars, ledgerwood, flat cars, ballast, plows and innumerable other necessary articles for use in a construction camp left the Canadian Northern railway yards last night for the J. D. McArthur company in its work on the Hudsons Bay railway, between Le Pas and Port Nelson. The train will arrive at the former town on Saturday. Between 200 and 250 men left also. Later in the season possibly 2,500 altogether will be employed.

SELL TRACT OF FRUIT LAND ON ARROW LAKES

Coast Capitalists Purchase Three Hundred and Fifty Acres Through Hunter & Annable.

Three hundred and fifty acres of fruit land near Burton City, on the Arrow lakes, have been sold by Hunter & Annable, the local real estate firm, to coast capitalists. The purchasers propose to subdivide the land into 10-acre ranches.

The Nelson-Kootenay Fruit Lands company owned the tract.

INLAND REVENUE AN CUSTOMS COLLECTIONS SHOW GROWTH

Revenue at Nelson for Last Month Increases Substantially Over Same Period Last Year.

Customs receipts at the port of Nelson last month totalled $13,572.37, compared with $12,768.10 in April, 1912.

There was also an increase in inland revenue receipts at Nelson, the total last month being $3,777.20, compared with $3,486.28 in April last year.

Last month's total was made up as follows: Spirits, $3,233.52; malt, $375; raw leaf tobacco, $283.08; cigars, $85.60.

VERNON CHAPMAN IS MARRIED AT GOLDEN

(Special to The Daily News.)

REVELSTOKE, B. C., May 1.—A quiet but pretty wedding was solemnized at the residence of Mr. and Mrs. J. F. Nattrass at Golden, B. C., today when their daughter, Bessie Lou was married to Vernon Chapman, editor of the Golden Star, by Rev. W. Macrae. After touring West Kootenay and visiting Lethbridge and Calgary Mr. and Mrs. Chapman will take up their residence in Golden.
