POLITICS SUBJECT OF SERMONS

Prayers for Deliverance from Civil War

MILLION POUNDS FOR AIRSHIP FLEET

Safety of St. Paul's Is Still Causing Anxiety.

(Western Associated Press Special Cable.)

LONDON, Dec. 28.—The churches throughout London today conducted special intercessions with prayer for the nation. References were made to the country's political leaders and the exhortation was made: "Let us pray that we may be spared the calamity of civil war."

The Archbishof of Canterbury, preaching in Canterbury cathedral, said the spirit which Christmas came to drive out was the spirit of faction and class hatred. The value of our certainty upon controversial subjects was in proportion to our real understanding and appreciation of the thoughts of those differing from ours. He urged regarding Ireland "that we should not drift into more anger and contempt of our opponents."

The Bishop of Litchfield said: "The men who were concerned with nothing except the fortunes of their own political party are the worst enemies of Britain and Ireland. Civil war was a danger, no matter whether the talk was a bluff or a real peril."

A special collect was used at Westminster abbey, praying God to "deliver us from the dangers of discord threatening us, particularly in Ireland, to take away all hindrances from Godly union and to give the needed wisdom to those in authority to guide us into the way of peace."

Dean Ryle, preaching in the abbey, said that nothing could justify a measure which would result in leaving an undying hatred among the people of the empire. The history of Ireland was full of terrible memories. The Protestants of Ulster genuinely believed that under a Dublin parliament they would not be allowed to enjoy equal justice and were prepared to resist the removal of the protection of the London government.

Airship Fleet.

The Daily Citizen claims to have substantial grounds for the statement that the naval estimates will be swollen by more than £1,000,000 for an airship fleet to number eight or 10 dirigibles. One rigid airship is now building in England, prior to the grant of money by parliament, but the others will be of foreign design. The year's contemplated expenditure on dirigibles alone will be $750,000. The Citizen points out that the current year's expenditure on aviation has been $1,500,000, against $1,610,000 last year. The war office will also make stipulation for an air service, but this will be made separately from the navy.

To Water Foundations.

The safety of St. Paul's cathedral fabric, which has caused a great agitation for several years, continues to exercise the minds of foreigners. A remarkable sign that the foundations of the cathedral had been emersed in a moist earth tank impels J. P. Miller to propose to use the blue London clay strata as a substitute for ferro concrete wall below the street level of the cathedral and then water the enclosed earth by vertical perforated pipes. It is argued that the recent alarming subsidiences are not due to traffic vibrations, but that the moisture has been drawn off the foundations, leaving the foundations parched and unstable and tending to spread. The cost of the proposed operation is not stated.

To Lecture in Canada.

Lieut. Evans, who assumed command of the ill-fated Scott expedition upon the discovery of the dead bodies of Scott and his comrades, will sail for the United States on a lecturing tour on March 4. The tour will be under the auspices of the Pond Lyceum bureau and the itinerary includes Canada.

The first lecture will be delivered on March 13 at the annual dinner of the National Geographical society in Washington. Lieut. Evans will go to New Zealand at the close of his American and Canadian tour. He will be accompanied by Petty Officer Mathews, another member of the expedition, who will act as his private secretary.

Want Pastor Back.

Many friends of the Rev. Dr. John Henry Jewett, who two years ago left the Carr Lane Congregational church in Birmingham to assume the pastorate of the Fifth Avenue Presbyterian church in New York, are anxious for his return to the English pulpit, and are discussing the possibility of inviting him to London. A vacancy in the chapel in Islington may possibly lead to important changes in another direction, leaving a great London pulpit open to Dr. Jewett if he can be induced to relinquish his New York ministry.

STRONG HAND SCORES VICTORY

Kitchener Wins Triumph in Egyptian Diplomacy

BRITISH FLEET IN MEDITERRANEAN

Difficulty Referred to Sultan and Khedive Submits.

(By Daily News Leased Wire.)

LONDON, Dec. 28.—Viscount Kitchener's strong hand has achieved another notable success by securing a satisfactory settlement of the vexed question of the religious endowments of Egypt. It has only just become known that this settlement was not obtained without serious friction with the khedive and the presence of a strong British fleet in the Mediterranean, too, may have been a strong influence in inducing the khedive to abandon his opposition.

The vaukfs are the estates left for the maintenance of the Moslems in Egypt and the Egyptians tried throughout [illegible] placed under a responsible minister. Lord Kitchener supported the proposition, but the khedive showed hostility to it, and a ministerial crisis appeared imminent. Finally a compromise was arranged, the khedive agreeing to refer the question to the sultan, who, in the ordinary, has control of all Moslem endowments and to abide by his decision.

Before referring the question to the sultan, Lord Kitchener had taken special precautions to insure a favorable reply from his majesty. This arrived within 24 hours, the khedive instantly concurred, and the affair ended.

ENGLISHMAN MURDERED AT SOUTH FORT GEORGE

(By Daily News Leased Wire.)

SOUTH FORT GEORGE, B.C., Dec. 28.—Murder was committed late on Friday night or early on Saturday morning in this district and it is believed that the murderer or murderers have attempted to leave the town and efforts to trace those responsible for the death of Harry Porter are centered in the area near which the body was discovered.

Porter's body was found yesterday morning in a pool of blood. His face and head were battered so that the body was almost unrecognizable. A bloodstained club and brick were found a short distance away. There are indications that Porter put up a fight for his life and it is practically certain that there were two or more assailants, one using the club and the other the brick.

All the pockets were turned inside out. Porter was not likely to have been carrying a large sum of money, as he was employed as a fireman at Bates & Rogers construction camp. The condition in which the body was found is strongly against the theory that robbery was the sole motive for the murder and it is the general impression that he was done away with for other reasons. Porter was a native of England and has been out here some time.

RAILWAY SCORES IN DISPUTE WITH TELEGRAPHERS

(By Daily News Leased Wire.)

SPRINGFIELD, Mo., Dec. 28.—In anticipation of the strike of 1,100 telegraph operators on its lines, which, in all probability, will be called tomorrow, the St. Louis & San Francisco tonight laid off indefinitely 400 telegraphers and began to transform its lines into a telephone system for railroad communication. This action laid bare the company's plans for resisting the strike, to the amazement of the telegraphers. Removal of all telegraph instruments from the company's offices began at noon today, and it is expected to be completed before the strike can be decided. Tomorrow the telephone operators will replace the telegraphers. The threatened strike will be forestalled by what practically amounts to a lockout.

GUARDS ARE SILENT WHEN INVITED TO CONFESS

(By Daily News Leased Wire.)

KINGSTON, Ont., Dec. 28. — The chairman of the prison reform commission states that if there are no confessions of those declared guilty in trafficking in tobacco in Portsmouth penitentiary, the commission will proceed to take evidence and there will probably be a long session to go into the charges. A confession will mean immediate dismissal while if a guard is found guilty, he will likely go to prison for six months. More guards who are known to have given wrong ages when seeking appointment, will be questioned by the commission.

WILD SCENES IN CROATIAN DIET

Trumpets Blown, Drums Beaten and Insults Shrieked—Deputy Declines to Vacate Chair.

(By Daily News Leased Wire.)

AGRAM, Croatia, Dec. 28.—The new Croatian diet was formally opened yesterday and was informally adjourned after a brief and riotous session because of the inability of the members to agree peaceably upon a date for the next meeting. Dr. Mileusenic, a member of the opposition, who presided by right of seniority, named next Monday as the day of meeting. This, however, provoked such angry protest that he hastily left the chair in favor of a deputy, member of the government party, who ordered that the house should meet again last night.

Several opposition members rushed to the platform and tried to drag the deputy from the chair. His colleagues hastened to his assistance. Blows were exchanged and the fighting soon spread to the floor of the house. The deputies finally vacated the place, finding that it was impossible to transact business.

In spite of Deputy Taskan's decision the diet reassembled last evening.

The opposition leader was in the chair. He read papers and conversed with friends until 7 o'clock. Amid a deafening roar Deputy Taskan advanced and took a position in front of the tribune, but the chairman declined to move.

The government deputy then announced that he had taken over the presidency and would begin the verification of the mandates of the deputies and reporters, which he proceeded to do, verifying all except four, in spite of the tumult of cat-calls from the opposition and cheers from the ministerials. Eventually the noise became so great that the sitting had to be suspended.

When the sitting was resumed at 9 o'clock Mileusenic still occupied the chair, which he had not left for the interval. Taskan tried to begin the business of the house, but was greeted with an inferno of noise, the opposition blowing toy trumpets, beating drums and shrieking insults. The diet was sitting at 11 in the evening and the noise was undiminished.

President Re-elected.

AGRAM, Croatia, Dec. 28.—The riots which began on Friday did not end until 3 o'clock this morning. Comparative peace had been restored at that time, and Deputy Nedakowitzsh was re-elected president. He served as president of the last diet.

Croatia-Slavonia is a trans-Leithan kingdom, subject to the crown of Hungary, but enjoying complete local autonomy and represented in the Hungarian parliament by 40 members. Its own diet has jurisdiction over all its international administration, judicial, religious and educational. The population of 2,500,000 is mainly Hungarian and German.

COMMISSION GOVERNMENT FOR CANADIAN CITIES

Within the last three years over three hundred American cities have adopted what is called the commission form of municipal government.

The reform may be said to have for fundamental principles: Fixed responsibility, quick action and expert service. It sprang out of the exigencies following the great flood at Galveston, Texas when that city was nearly effaced and required to be rebuilt without delay. The movement is spreading rapidly and from time to time new improvements are devised as different cities take up with it.

Lethbridge is the first city in western Canada to adopt commission government and professes to have excelled all previous efforts in forming a city charter.

The Lethbridge charter provides for three commissioners. The mayor who is also the commissioner of finance and safety, will have a salary of $4,000. The commissioner of public works and the commissioner of public utilities will each receive salaries of $3,500. Each department is clearly defined and each commissioner is responsible for its administration. The commissioners sit as a council to enact bylaws, etc.

The initiative referendum and recall are included in the plan as are also woman suffrage and preferential voting.

The first election for commissioners was held on December 8 resulting in the choice of the above. There were altogether 15 candidates for the three positions. To win a candidate must receive a majority of all votes cast. In case the first choice of the voters does not elect then the second choices are regarded and so on until one has the required number. In this election it was necessary to count to the fourth choice in two of the three cases.

Those elected are all engineers. The mayor is a civil and mining engineer. The commissioner of public works is a civil engineer. The commissioner of public utilities is an electrical engineer.

The new Lethbridge government will become effective on January 1, 1914.

FINDLAY RETIRES FROM MAYORALTY CONTEST

(By Daily News Leased Wire.)

The polling day is Jan. 8.

JAPAN'S INTENTIONS PEACEABLE

(By Daily News Leased Wire.)

VANCOUVER, B. C., Dec. 28.—It is unreasonable to suppose that there will be war in the near future between the United States and Japan, is the statement made today by J. R. Kennedy, the well-known war correspondent of the Associated Press, who is staying in Vancouver. Japan has an export business of $350,000,000 a year with the United States and she would't jeopardize this. Japan does not want the Phillipines and she is not building many battleships in comparison with other countries.

On the question of Japan labor, Mr. Kennedy stated that labor agents are maintained in Japan and receive $5 a head for the Japanese they get for employers on this side. When he went to Tokio there were 22 of these agencies all getting rich.

BAPTISM SERVICE IS POSTPONED

Lack of Water in Montreal Makes Organs Silent—Bucket Brigade Serves Hospital

(By Daily News Leased Wire.)

MONTREAL, Dec. 28.—The water situation remains unchanged though it is officially stated that the city service will probably be resumed by Tuesday, if not sooner. Already the necessary excavation work about the broken main conduit has been completed and only one more section of steel piping has to be received before the whole can be bolted together and the pumps again set going. The absence of water seriously interfered with church services today.

St. James Methodist church found it impossible to keep the edifice warm. In most of the churches it was impossible to get water for the organs and pianos were substituted. At the First Baptist church a baptism service had to be postponed as it was impossible to fill the tank for the ceremony of total immersion.

The hospitals have been fairly well served. The Western hospital on Friday drew its fires as a precaution, but heating has since been resumed. The fire department of the city of Westmount has been supplying the institution by means of a hose laid across the boundary separating the two cities. The Montreal Maternity hospital is a sufferer. At first a bucket brigade managed to get a fair supply from St. Martin's church, opposite, but as pressure fell, it had to rely on the city water carts. The Hotel Dieu has a spring and well in its grounds, and is not seriously inconvenienced and the Royal Victoria by the same means is managing to get along, running its own boilers for the production of power and light. Not since the break in the city main has the temperature of the wards been under 70 degrees.

The children's hospital has [illegible]ect line from one of the reservoirs, and the tank on the premises is full all the time.

The Notre Dame and Alexandra hospitals have the same supply though the pressure is poor and the St. Paul hospital has to rely on the water carts.

Since this morning water carts have delivered to up-town citizens about 1,000,000 gallons of water, the advent being heralded by a bell. The statement of the controller is that there will be water by Tuesday of not sooner. He also pointed out the necessity of considering arrangements for having an alternative source of supply.

VOTE EARLY ON BYLAWS TODAY

Committee of Citizens Is Ready for Work

THREE-FIFTHS MAJORITY NEEDED

Want Heavy Vote to Ensure Continued Operation of Cares.

"Vote early on the street railway bylaws and vote for both, because neither can pass without the other. Both must be carried to ensure the continued operation of the cars."

This was the final word last night of the committee of citizens which is in charge of the arrangements for getting out the vote on the bylaws for the purchase and municipal operation of the Nelson street railway today.

Polls will be open from 9 o'clock in the morning to 7 o'clock at night. The polling booth for the east ward will be at the city hall and for the west ward at the band room on Kootenay street.

As the bylaws must receive a three-fifths majority in order to carry the committee will make a great effort to get out every possible vote. The earlier that citizens cast their ballots the more readily will the committee be able to do its work of getting out the large vote which is desired in order to ensure the continuation of the operation of the cars.

Everyone who is on the 1914 voters' list as an assessed owner is entitled to vote.

The board of trade rooms have been secured by the committee for use as headquarters during the voting, and information regarding the voters' list or other matters in connection with the voting may be secured from those in charge.

The committee will be glad to receive the assistance of all citizens who are anxious to see the cars continue in operation.

SHERIFF DEFEATS MOB OF LYNCHERS

Life of Negro Murderer Saved—Leaders of Mob Ordered to Jail

(By Daily News Leased Wire.)

CHESTERTOWN, Md., Dec. 28.—The mobs of men who last night battled with Sheriff Brown and his deputies at the Kent county jail in an effort to lynch Norman Mabel, colored, self confessed murderer of John R. Coleman, a farmer, dispersed early today after making another ineffectual attempt to rush the jail. The determined stand of the officers turned back the crowd at the jail which was a vicious one.

The crowd began to gather about the jail early yesterday morning and grew steadily.

At midnight the crowd renewed the attack and broke down two doors of the jail but they were driven back by the posse with drawn revolvers. After the midnight repulse, the mob opened fire with revolvers and shotguns on the upper windows of the jail where the negro was held but no one was injured.

The mob began to dwindle after the second attack and at 2 o'clock this morning 200 remained. They determined to make another attempt to reach the prisoner. Accordingly, about 20 men dashed over the broken doors and rushed up the stairs. They were met by Sheriff Brown and Deputy McKee and ordered to disperse. They refused; McKee fired one shot over the heads of the invaders, and a second into the floor at their feet. Sheriff Brown then warned the would-be invaders that the third shot would be into their midst. He then gave them one minute to leave the jail.

The men slowly filed out. State Attorney Vickers and Sheriff Brown followed and recognized half a dozen men, who appeared to be the leaders, and ordered them to come into the jail. The men selected obeyed, although unwillingly.

Apparently demoralized by this desertion, the remainder of the mob began dispersing. By three o'clock the jail yard was practically deserted.

BURIED EIGHT YEARS DIAMONDS ARE RECOVERED

(By Daily News Leased Wire.)

BRANDON, Man., Dec. 28.—A package of diamonds stolen from the jewelry store of Mallett and Matthews eight years ago, were recovered today after having remained safely cached away four inches below the top of the grounds at a spot 200 yards east of the Canadian Pacific railway roundhouse here.

Edward W. Murphy was found guilty of the theft and sentenced by Judge Cumberland, to 14 years in Stony Mountain penitentiary. After having served eight years, Murphy, a short time ago, informed the authorities that he would locate the stolen jewels for them. Accordingly he was brought here last evening and today accompanied by the police and jail officials, walked to the spot and revealed the hiding place of the gems.

The jewels were in good condition, but the gold was tarnished. In all, there were between 30 and 40 diamonds in the package.

MINERS BURY VICTIMS OF FIRE

Supply of Hearses Proves Inadequate

HYMNS CHANTED BY CORNISHMEN

President of Federation Shot in Back and Expelled From Hancock.

(By Daily News Leased Wire.)

CALUMET, Mich., Dec. 28.—The Western Federation of Miners buried its dead today. Fifty-nine bodies, including those of 44 children, were carried through the streets today, down a winding country road and laid in a snow-enshrouded cemetery in sight of Lake Superior. Thousands of saddened miners formed the escort of the funeral parties and passed between other thousands, who, as spectators, testified to the grief that has oppressed the community since 72 men, women and children were killed in the Christmas eve panic in Italian hall.

For hours the Sabbath calm was broken by the tolling of bells and the sound of voices intoning burial chants. Half a dozen services were held early in the day and the mourners went about the streets, passing from their homes to the churches, back to their homes after brief respites, and again to the churches to prepare for the last sad trip to the gravesides.

Delegations of strikers began coming into Calumet early in the day. A special train of nine cars brought hundreds of federation members from Negaunee and Ishpeming and every town and mining location in the copper union sent members and friends to swell the ranks of the marchers.

By noon the union host was assembled. Months of experience in demonstrating their numbers by parading had taught them to form ranks quickly and with little delay they lined up four abreast.

The supply of hearses was inadequate and there were only 14 of these vehicles in the van. Then came three undertakers' wagons and an automobile truck, the latter carrying three coffins. These vehicles contained the adult victims and the older children. Beside one marched eight women, who acted as pallbearers and were members of the women's auxiliary of the federation.

It was this women's organization which was distributing gifts of candy, shoes, caps and mittens to the children of the strikers when the panic broke out.

Behind the hearses was a section of a procession which brought tears and sobs from onlookers. Thirty-nine white coffins, their size testifying to the short life of the little forms within, were carried by rows of strikers. Four men bore each coffin and as their arms grew weary or feet stumbled on the slippery roadway companions relieved them of their burden.

Persons drawn to Calumet solely by curiosity became mourners as this contingent passed. Men turned away to brush tears from their cheeks. Women, especially the mothers in the crowd, sobbed openly and others, unable to bear the sight, rushed from the street.

Fifty singers chanted hymns in the wake of the children carriers. Most of these men were English miners, who had learned in Cornwall to chant Christmas carols in the streets, and years ago brought this old custom to the copper country. Today, however, they did not sing songs of a new life born. "Jesus, Lover of My Soul," "Rock of Ages," and "Nearer, My God, to Thee," came from throats thick with emotion, but the harmonies were full and rich. As the singers turned into Pine street, which leads to the cemetery, the open ranks of the marchers wheeled into line. Ishpeming and Negaunee came first, followed by a brass band and the members of the copper country locals.

The last marcher had scarcely started from Calumet before the head of the procession had reached the cemetery gates, two miles away. All but half a dozen of the burials were in common graves, dug by members of the union. The ground belongs to the federation and it was said a monument would be erected there.

Only brief addresses were delivered in the cemetery. All the speakers termed the victims of the Christmas eve disaster martyrs to the cause of unionism. They argued that had the mine managers not refused to recognize the union, the warfare would have been settled months ago and there would have been no need for the celebration in Italian hall. Nineteen of those killed have not yet been buried. Fathers and husbands who left the copper country to seek work in Arizona and Montana have not yet arrived in Calumet, but it is said Tuesday will see the last of the funerals. Four were held yesterday. The coroner's inquest into the circumstances of the tragedy is to convene tomorrow.

According to the statements of the investigators for the county officials, witnesses will be produced to show that the cry of fire which started the panic came from near the centre of the hall instead of from the doorway, as the first accounts had it.

In the evening a large crowd met at the Miners' Union hall to engage in dancing pleasures, the musicians that had been engaged from Spokane were promptly on hand and were assisted by Miss Baker of Ymir as accompanist. The music was first class in every respect and fit for any ball in the country.

The hall was rather too full for a good dance, but this was more than made up by the good cheer. James Gill, of the Vancouver, provided the supper, which was all that could be wished. The success of the affair was largely due to the efforts of the committee on arrangements, Messrs. Chisholm, Jackson, Clark, Murray and Turner.

The Misses McLeod of Nelson spent Christmas with their sisters, Mrs. J. McLeod and Mrs. Grobe, a family reunion was held in the evening at the residence of the former.

Miss Olive McLeod spent a few days in Nelson this week with relatives.

Much merriment was caused by the observance of the old time mistletoe while musical games and stories contributed to a very pleasant and old fashioned time.

GOOD PROGRAM GIVEN AT NAKUSP ENTERTAINMENT

(Special to The Daily News.)

NAKUSP, B. C., Dec. 28.—Christmas tree entertainments were held in two places on Wednesday night at the K. of P. hall. The members had an excellent display of seasonable gifts for distribution to the children of the members of the lodge. The hall was crowded and a good program was enjoyed. Among the artists were Miss Doris Edwards, pianoforte selections; Misses Hobbs, Abbie, Aalton, Hamer, Wensley, McDougall and Levegue; Masters McDougall, Hobbs, Levegue, Aalten, Wensley and Messrs. Harlow, Robinson, Crosbie and Hobbs. I. S. Morrison was chairman and delivered an appropriate address to which he stated that it was determined to make the tree an annual event. He referred to the arbitration of the jubilee of the inception of the K. of P. order to be held on Feb. 19 and that it was intended to entertain the Nakusp people in a manner the equal of which had never before been attempted. Santa Claus made his appearance and divested the tree of its presents.

At the Glenbank Methodist church an equally good time was had, the presents being made to the children of the Sunday school.

Christmas day was uneventful except that the weather was particularly mild, with just a thin carpet of snow lying on the ground. Many households entertained their friends at dinner and in the morning a part of about 20 formed an excursion to West Demars by tug, where a dance was held.

Mrs. McPherson and child arrived on Christmas day from England, being met at Revelstoke by her husband.

Holy communion was celebrated at St. Mark's church on St. Stephen's day, the event being appropriate by the fact that the returning vicar, Rev. Stephen S. Phillmore is named after that saint and being the last ceremony at which he would officiate in the parish. He left for England accompanied by Walter Thompson, on Saturday.

At a meeting of the Nakusp school board on Friday there being present Chairman Abriel and Trustees Edwards and Hennidge, it was reported that the alterations and additions to the building permitted by the government were completed. The secretary was instructed to obtain particulars from the government as to delinquent tax payers, there being nearly $1,000 due the board from the taxes of 1913 not yet due. As arranged at the time by their appointment, the salary of the principal was increased by $5.00 per month and that of second teachers the same amount.

Mr. Bastin, teller of the Canadian Bank of Commerce will be transferred to Vancouver in a few days.

E. V. Yoder spent Christmas at Revelstoke.

J. Parent and Mrs. Parent of Nakusp were the guests of their daughter, Mrs. Lee, at Revelstoke Christmas.

A. C. Yoder is on a combined business and pleasure trip to Spokane and Portland and may go east to Iowa before returning to Nakusp.

The "Men of the Forty Fifth" will hold their annual old time parade on New Year's day. The brigade, however, has so increased in numbers during recent years and the territory so enlarged that it is possible they will be divided into companies and use conveyances instead of the usual marching afoot.

ONLY TWO WHEELS LEFT AFTER RUNAWAY

(Special to The Daily News.)

BLAIRMORE, Alta., Dec. 28.—A runaway occurred here on Christmas day. While crossing Lyon creek bridge a lumberjack dropped his bundle of blankets, which he was carrying, in front of the horse belonging to Valantine Romeo, which became frightened and turned sharply into the river. The man who was driving was thrown out, leaving a companion in the rig, who caught at the reins, but only managed to secure one of them, leaving the other trailing. The horse then dashed up Victoria street and on toward the mine, where it came in contact with an empty car standing on the track, causing the occupant to lose his seat, after which the horse made a home run, stopping at its stable. The two men escaped any serious injury. Considerable damage was done to the buggy, only two wheels remaining when it reached the barn.

CHRISTMAS ENTERTAINMENTS AT GRAND FORKS

(Special to The Daily News.)

GRAND FORKS, B. C., Dec. 28.—A Christmas entertainment in connection with the Methodist church Sunday school was given in the opera house on Friday night. The hall was well filled and the program was excellent. The manner in which the children presented their parts in singing and recitations would have done credit to many of older years. A tableau given by the young ladies of the congregation called for an encore, while the comedy, "Christmas on Flannigan Flats," took the house by storm. The principal comedians in this dramatic composition showed the result of long and careful training.

The Sunday school entertainment in the Baptist church attracted a gathering of over 200 people. A social supper was provided by the lady workers in the schoolroom. A very complete program was afterwards provided by the members of the school, which included Christmas carols, dialogues and recitations. Father Santa Claus was very much in evidence, attended by four elves dressed in white, and distributed generously to all the little ones. The place was beautifully decorated for the occasion.

On Christmas eve an entertainment was given in the parlor, which was decorated with a handsomely festooned tree and Santa Claus, in the person of one of the guests, distributed a bountiful supply of gifts. (By Daily News Leased Wire.)

WINNIPEG, Dec. 28.—The officials of the Ontario varsity hockey team who made serious allegations of professionalism while in this city a few days ago against the Dominion hockey team of Edmonton, has authorized a local sporting editor to give his name to any responsible official of the Alberta amateur union, so it is evident that he is prepared to substantiate his charges if the amateur authorities see fit to hold an investigation into the way in which some of the Alberta hockey teams have been built up.

Nelson colors of green and white are still adhered to, but on the sweaters this season will appear the insignia "Chah ko Mika, 1914." This is expected to stand as an invitation from the people of Nelson to the cities in which the club plays this season to attend the big carnival week, which will be held here in July of next year.

The spirit of the hockey club in boosting for the Chah ko Mika is also shown in the club letterheads, which contain the invitation "Chah ko Mika, Nelson, 1914."

TINKER SIGNS WITH OUTLAW LEAGUE

Brooklyn Club Will Carry Matter to Courts—Federal League Grabs Several Stars

(By Daily News Leased Wire.)

CHICAGO, Dec. 28.—Joe Tinker, former manager of the Cincinnati team, and Mordecai Brown, a Cincinnati pitcher, today signed three-year contracts with the Federal league.

Tinker will manage the Chicago club. Brown will be a pitcher with the St. Louis club.

Larry Schlafley, with the Jersey City club of the International, will manage the Boston club, and William Phillips, a former Cincinnati player, but out of baseball for several years, will go to Indianapolis as manager.

James Gilmore, president of the Federal league, announced that each Federal league club would contain at least five players who appeared last year with the National or American leagues.

The amount any player is to receive from the new league was not made public by Mr. Gilmore.

It was reported that Tinker was to receive $36,000 for three years.

Will Restrain Tinker

(By Daily News Leased Wire.)

NEW YORK, Dec. 28.—Tinker will not be allowed to play with the Federal league if the powers of organized baseball, invoking the aid of the courts can prevent it, it was said here last night by Edward H. McKeevers, vice-president of the Brooklyn National league club.

McKeevers said the Brooklyn club would take immediate steps to have Tinker restrained from associating himself with the so-called outlaw organization. "We will get out an injunction restraining Tinker from playing with the Federal league," said McKeever. "Tinker is the property of the Brooklyn club. He has been purchased in the regular way and we will resort to the courts to convince him and the Federal league that he belongs to us."

QUEBEC OPENS WITH WIN AT OTTAWA

Quebec's Defense Proves too Strong for Splendid Ottawa Forwards—Clean Game

(By Daily News Leased Wire.)

OTTAWA, Dec. 28.—Professional hockey enjoyed a genuine revival Saturday night when the opening game of the National Hockey association took place at the Laurier avenue rink.

Ottawa and Quebec supplied the excitement, and the visitors were victorious by three to two. Ottawa took the lead in the first period when Broadbent scored after seven seconds and the teams were tied for the balance of the opening session and throughout the second. Ottawa had the better of the play, Ronan, Dawragh and Broadbent doing the bulk of the attacking but the strong defense of the Quebec team was invulnerable and it turned out that Quebec won a victory on two fluke goals.

Roman and Merrill loomed up as the best men on the Ottawa team, while Hall and Smith were Quebec's most useful men, next to Moran, who was largely responsible for the win.

FRANK HOCKEY TEAM SURPRISES BLAIRMORE

(Special to The Daily News.)

BLAIRMORE, Alta., Dec. 28. — The Blairmore hockey team journeyed to Frank on Christmas day and played their first league game. From the first one could see that the Blairmore boys had not been seriously contemplating such a hard opposition and took things too easy which gave Frank the opportunity of springing a few surprises on them.

At the end of the game the score stood at 9-3 in favor of Frank which, it is said, shows that if Blairmore wishes to do anything with the puck this season they will have to get right down to work in the practice matches. Wilfred Goddard of the Blairmore team had the misfortune to get in the way of Ford's stick, injuring his ankle.

NEWSY LALONDE LACKS HIS ACCUSTOMED SPEED

Canadiens Beaten by Torontos Three to One—Game Fails to Draw Full House.

(By Daily News Leased Wire.)

TORONTO, Dec. 28.—In the local game of the National Hockey association season last night, victory rested with Torontos, who beat the Canadiens 3 to 1. It was expected that the big rink would be crowded, but there was considerably less than a packed house to see the game. Neither team scored in the first period. The Torontos got two in the second and one in the third. The local team appeared to be in better condition than the visitors. The contest provided the usual six-man variety of hockey. There was little or no combination and none of the goals was attributable to team play. One-man rushes were the features. The game was rough at times, but there was no deliberate slugging or use of the "butt-end."

"Newsy" Lalonde appears out of condition or to have lost his speed. Laviolette showed his accustomed speed in centre ice, but, like most of the other Canadiens, he succumbed when he entered the Toronto defence. He and Dubau were the fastest men on the opposing team. Vezina played a big part in holding down the Toronto score, the goalkeeper handling a great many shots from all angles.

Daily News Want Ads Bring Results

The pulling power of Daily News Want Ads is well illustrated by the following letter from Mr. Harry Anderson, manager of Birchbrook Orchards, Birchbank, B.C., who has been a regular user of them for some years:

"I would like to express my appreciation of the efficiency of the service rendered by your advertising colums. I get inquiries every day from all over the Kootenay in regard to my ad in your paper. Have made over 20 sales of Berkshire pigs in the last three weeks, all in response to your ad.

"Yours respectfully,
"HARRY ANDERSON.

What the Want Columns of The Daily News have done for Mr. Anderson they will do for you if you give them the opportunity.

The Cost of Living Is a Problem

That affects, in a greater or less degree, every member of the community.
It presses hard on some, while on a few its effect is a negligible quantity

THE enterprising merchant is thoroughly alive to the fact that the high cost of living is in many cases an oppressive burden. He knows that the margin between income and expenditure is often a very narrow one. He buys newspaper space to let people know that he knows. In short, he advertises.

The merchant who advertises has something worth while to tell. That stands to reason, doesn't it, because newspaper space costs money? It will pay you, therefore, to watch carefully the announcements of the stores that advertise. You'll find all the good stores advertising in

The Daily News

THE persistent reader of newspaper advertisements has discovered the best way to combat the high cost of living. His dollar has a greater buying power than that of the non-reader—or spasmodic reader—of ads because he employs it with more knowledge and more discrimination. It is an easy matter to cut down your living expenses by fifteen, twenty or twenty-five per cent---and even more---by being a careful student of the daily store ads. In this way you will get "wise" to values. You will ask for the advertised article at the advertised price, and you will know before you go shopping what you are going to pay.

MONDAY, DECEMBER 29

TODAY IS THE DECISIVE DAY.

The fate of the street railway will be decided today—whether its continued operation, as a municipal enterprise, is to be guaranteed, or whether the people of Nelson are willing to assume the risk of the system being closed down temporarily, if not permanently.

The people will today declare their views in the matter by the way they mark their ballots. There are few residents of Nelson who will not agree that the closing down of the system would be in the nature of disaster for the city. The city is already interested in the enterprise to the extent of $35,000, and shareholders, all residents of Nelson or people interested in the city, have $32,000 invested in the company, while there is also a large amount of money owing to local unsecured creditors, which would likely be lost were the system to be closed down. But more important than these considerations is the inconvenience and hardship on the people of the city which would be occasioned by a closing down.

The proposition is being submitted to the people in the shape of two by-laws, one for an issue of bonds to the shareholders to the extent of $16,000 for the extinguishment of their rights and the other for $30,000, the proceeds of which will be devoted to paying the debts of the system and to provide for improvements and additions necessary to safe and successful operation. Neither bylaw is effective in itself. Both must carry if the system is to be taken over by the city. This is specially provided for in each bylaw. Everyone should remember this in marking their ballots today.

THE CANADIAN BANK OF COMMERCE

The fact that there has been a financial stringency in Canada during the present year is not apparent from the annual report of the Canadian Bank of Commerce just issued, which is the best in the institution's history. The net profits totalled $2,992,000, as against $2,811,000 for the previous year, an increase which speaks for itself.

The balance from profit and loss brought forward from the previous year was $771,000, thus giving a total of $3,764,000 available for distribution. From this amount the regular 10 per cent dividend with two bonuses of 1 per cent each was paid the shareholders, making $1,800,000 so disbursed. Of the remainder $500,000 was transferred to bank premises account, $80,000 to officers' pension fund and $1,000,000 to rest account, leaving $384,000 to be carried forward in profit and loss account.

One of the features of the report is the large proportion of the bank's assets shown as being in quickly available form. Dominion notes and bullion held by the bank, for example, totalled $30,415,000, an increase of $3,000,000 over the previous year. Notes and checks on other banks, call loans, and government and municipal securities brought the total assets in quickly realizable form up to $97,300,000, or 42 per cent of the bank's total liabilities to the public. The total assets of the bank at the close of the year were $260,030,000, as against $246,571,000 twelve months previously. The bank's deposits show a slight falling off, due to the extraordinary demands for money during the year.

A perusal of the report indicates that the business retrenchment proclaimed in money quarters as prevailing in Canada has been to a very large extent a myth and should be read with general interest and with a very great measure of satisfaction by all interested in the Dominion's welfare.

Vote early but not often.

If you want the street railway to continue in operation vote "yes" on both bylaws.

There is every indication that there will be ice at the skating rink for New Year's day, when the winter season in Nelson will be formally ushered in with a hockey match between Nelson and Phoenix. Everyone should turn out and give the season a proper welcome.

WHAT THE PRESS IS SAYING

More than One Month
(Montreal Herald)

Our national autonomists still harp on New Zealand's decision to establish a local navy squadron; but with one accord they ignore the most significant passage in the recent speech of New Zealand's minister of marine: "The clause giving the admiralty the disposition of the vessels in time of war is an intimation that New Zealand regards unity of imperial control as essential."

Divorce Court Needed
(Montreal Gazette)

Between thirty-five and forty divorce bills will be presented in parliament at the coming session. The applications belong to Quebec, Ontario Manitoba, Saskatchewan and Alberta The other provinces have courts which deal with the severing of marriage; a growing number of people who will think that what applies in their case should be the rule. Parliamentary committees are not satisfactory tribunals for the trying of matrimonial cases at best, and when, as has been noted in the past, efforts are made to lobbying to effect the members' judgment, they become less satisfactory still.

THIS DAY IN CANADIAN HISTORY

Very early in last century a Pennsylvanian of Irish descent settled in the almost unbroken woods near Uxbridge, in Upper Canada, and there, on December 29, 1808, was born his son, Joseph Gould, who proved ready in many respects to make the best of the somewhat limited opportunities that came in his way. He learned his letters by the glow of the great fires burned on his father's hearth, but never had the chance to go to a good school. He read everything within his reach down, or up, to Blackstone's "Commentaries on the Laws of England," amused himself by writing rhymes, and ultimately published an interesting account of the experiences of himself and his pioneer neighbors. He earned his first pair of boots by cutting seven cords of wood. Later he worked at carpentering, milling and farming, yet had energy to spare for various kinds of diversion and for politics. In fact, his interest in the latter got him into trouble, for he joined Mackenzie's little army at Montgomery's Tavern, was captured and narrowly escaped transportation to Van Dieman's Land. He was pardoned, however, and, wedding a pretty Quakeress, settled down to become a leader of the people about Uxbridge, which he represented in the assembly in 1854.

COMMUNICATIONS

A WORD FOR THE BYLAW

To the Editor of The Daily News.

Sir—Having been a citizen of Nelson for the past 20 years I feel that I should endeavor to write some matter as to why we should vote for the tramway bylaw. I have seen Nelson grow from a small mining camp of 500 souls to a city of its present size, and have seen a good many changes in the making of Nelson and many changes in its citizens. Some of your readers may remember that I endeavored to advise the shareholders of the company to retain their stock, also to hold on and keep the tramway in the present company's hands, feeling sure that Nelson's future progress would fully compensate them. I also pointed out the danger municipal owned plants were in of being run by political favorites. But I was in the minority and now the bylaw is before the people for the purchase of said plant, and I feel sure the people will not regret voting for same.

The prosperity of a country depends on the enterprise and industry of its inhabitants. "Your life is what you make it." Nelson city will be no better than what we make it. We are all shareholders in its future and it is up to us to make or mar its progress. Our climate is as good as ever. The mining business is better than it has been for years, and we are again going to see our stores full of the hardy prospectors getting their supplies to develop their claims. We will again hear the remarks on Baker street corners, such as, say: "Bill, this is the finest rock I ever saw; it is over 40 per cent copper," as well as the remarks: "Well, I got a hen that can beat the spots off any hen in the country for laying eggs; she made me in three months—etc." Nelson district is an assured fruit growing centre. We have also great possibilities in the tourist traffic. This is one thing we do not realize enough. Then we have the hills teeming with forests, water power in abundance, an electric plant that is of the greatest value, and Nelson will at some future date by supplying power to more mines in the vicinity. Say, the possibilities of Nelson are boundless. Look at the progress made in Nelson since I walked up Baker street in '93 and was handed a Nelson Tribune for nothing. The paper was red-hot with optimism. I made up my mind that the Kootenays was the place for me and "we are here not because we are here," but because we are going to stay, "because it looks good to me." Yes, what a difference in Baker street the nand now. I remember standing on Baker street bridge, where Ward street now is, and looking down upon the creek which flowed past where the Hume hotel now stands. But that was nothing to the old-timers—we will fill it up and build blocks, etc., build retaining walls. I wonder how many "Johnnie come latelies" know of the 12-foot retaining wall on the west side of Ward street, and it must be 70 feet from its base to its crown. Nelson has been a hard town to fix up in the way of streets, but don't think you have a prairie town to handle. It is not so smooth, it takes a little longer to fix a road in the hills than on the plains, but the road has a good foundation. I was talking to an old-timer the other day, a man who has seen Winnipeg, Edmonton, Calgary and other places grow from hamlets to their present proportions, but who has made Nelson his home. He said: "Say, Joy, I wish I could live another 50 years." I said, what for, and a light came into his eyes as he said: "So that I could see the progress this Canada of ours is going to make in that time."

Let us get back to the tramway. Some talk of foreclosure. Is it progressiveness to play the part of a Shylock and demand the pound of flesh? No! No! Let us vote for the passing of the bylaw, then with the ownership of our own water and electric light plans, gas plant and tramway system we can show an example in city business that will be the envy of our neighbors. The curse of modern business is the large trust system, whose head offices are at some great centre, with various feeders in smaller towns. The profits derived from the operation of the companies, instead of staying in the communities where the company operates, go to the great centres. I fully believe the reason Nelson has been able to stand the so-called financial stringency so well is because of the individuality of its citizens. Abraham Lincoln once said: "The way to make a country prosperous is to produce and manufacture, as far as possible, everything the people need in its own boundaries." Common sense, aye! To make Nelson prosperous let us encourage home industries and public utilities. Nelson people have the chance of few to show what up-to-date citizenship can do. Come, don't be a pessimist. The old hills surrounding us are full of minerals and some day Nelson will be the Denver of British Columbia. I remember when Spokane was no larger than Nelson, and we have as many opportunities. Life is what you make it. A city's progress depends on its citizens. A machine without an operator is of no use. We are the operators. Let us wake up out of our sleep and put men in office who are public spirited and have love of country and home, whose ideals are above selfish motives. Some say we have no such men. Shame on you. Don't lose faith in your fellow men. Try to think well of him and you will feel better for it. Pour oil into the machinery, help it to work more easily. Don't throw in sand to clog and stop its progress. Turn out and vote with a will. The greatest danger to any community is the indifference of the people. I often wonder if the Baker street merchants realize the advantages that accrue to them by means of the tramway. We up town merchants have noticed the difference in the drop in trade since the operation of the tramway. But then we can move to Baker street if we want to. We also have those to consider who have built their homes at the edge of the city limits, with their gardens, a class of citizens who are of value to any community. Are they not worth considering? Come, let us all vote and vote right.

R. G. JOY.

AT THE THEATRES

The fact that the theatre going public are tiring of the so-called race and problem plays which have been sprung up so recently is being demonstrated by George B. Howard, who comes to the Nelson Opera House on Friday in that masterpiece of wholesome comedy "David Harum." Capacity house is the rule with Mr. Howard proving that this great character of American fiction has many admirers. The story of David Harum is so well known that it needs no introduction. David Harum as a book was on the shelf of the booksellers for over five years, as a play it is even wider in its appeal. The production that will be seen here is replete with local color and contains all the natural simplicity which made the book's story interesting.

Among the capable cast supporting Mr. Howard will be seen the well known Canadian actor, Frederick Clarke, Miss Elsa Johnson, Gertrude Stone, Arthur Elton, one of the most popular leading men on the Pacific coast, and others of equal prominence.

POLITICS SUBJECT OF SERMONS

Switzerland for the holidays, but the premier himself is spending his holiday at Easton Grey, a remote village in Wiltshire.

Right Hon. Winston Churchill is indulging in boar hunting with the Duke of Westminster and a party of friends at the duke's estate in France.

Right Hon. David Lloyd George goes to the continent this week for a brief rest, prior to the meeting of parliament in February.

R. H. Harrow of Lalybout, Brecknockshire, has purchased the collection of British postage stamps gathered by the late Earl of Crawford, for $100,000, a record price for one collection.

James K. Larkin, in a speech in Dublin last night, referring to his alleged intention to visit America, said he would not go without the consent of the transport workers' union.

The Daily Telegraph's Dublin correspondent says a New York despatch intimating that Larkin is not likely to receive either a warm welcome or much money in America, has been read in Dublin with much interest.

It is especially gratifying to the Nationalists, who have bitter memories of the recent by-elections and who are thirsting to get their own back.

AINSWORTH MINES SEND ORE TO SPOKANE EXHIBIT

Secretary Bailey of the Spokane mining men's club has received several new displays of ore, among which is a 50-pound sample carrying native silver, from the Silver Hoard mine of Ainsworth, B.C.

The United Copper mine of Chewelah has supplied a sample of gray copper weighing 200 lbs., assaying 300 ozs. silver and 35 per cent. copper.

A sample from the Florence Silver in Ainsworth camp, weighing 50 lbs., carrying 22 ozs. silver and 60 per cent. lead, is also on exhibition.

Mr. Bailey would be pleased to receive samples from all producing mines or those under actual development, also photographs and description. These will be placed with the display and for publication in newspapers and prominent mining journals, through the chamber of commerce publicity bureau.—Spokane Chronicle.

POSSIBLE CANDIDATES FOR REVELSTOKE MAYORALTY

(Special to The Daily News.)

REVELSTOKE, B. C., Dec. 28.—For the office of mayor W. I. Briggs, a local solicitor, is a possible candidate, while Ald. H. J. McSorley has been requested to run. Ald. Howson, who, it was thought, would likely run, is leaving shortly on a prolonged trip for his health, while the present mayor, T. Kilpatrick, has decided not to stand for re-election. Ald. McKinnon, the present chairman of the finance committee, is another possible candidate.

Mr. Gibson, manager of the Canadian Bank of Commerce, has gone to Saskatoon for three months, where he assumes charge of the bank in that city during the temporary absence of the manager. Mrs. Gibson and family accompany Mr. Gibson to Saskatoon.

Mr. and Mrs. Grubbe of Golden spent Christmas with Mrs. Grubbe's parents, Mr. and Mrs. C. E. Paget. Miss Mary Paget returned with them to Golden for the remainder of the holidays.

Mr. Brunell succumbed on Saturday to the illness from which he had been suffering.

CLINTON, Ont., Dec. 28.—George Macewan, ex-M. P., of South Huron died today in the Clinton hospital in his 65th year, as a result of a stroke of apoplexy, about 10 days ago. Mr Macewan has lived 45 years in the village of Hensall, being engaged in the manufacture of salt and flax as well as a leading dealer in grain and was considered one of the fathers of the village. He was also reeve of the township for a number of years and was an ex-warden of the county of Huron. He was elected to the parliament of Canada for one term. He was unmarried.

ANOTHER EXPEDITION TO SOUTH POLE PROJECTED

(By Daily News Leased Wire)

LONDON, Dec. 28.—Sir Ernest Shackleton, the explorer, in a letter to the Times, announces his intention to lead another expedition to the south pole in 1914. He will start from a South American port, with the object of crossing the south polar continent from sea to sea returning by way of New Zealand. He adds:

"I have been enabled to undertake this expedition through the generosity of a friend and I have taken the liberty of calling the expedition 'The trans-Antarctic Expedition', because I feel not only the people of those islands, but our kinsmen in all lands under the Union Jack will be willing to assist toward the carrying out of the full program of exploration to which my comrades and myself are pledged."

ARTERY IN BRAIN RUPTURED BY FALL

(By Daily News Leased Wire)

MEDICINE HAT, Dec. 28.—Coroner Boyd considered no inquest necessary into the death of Andrew Hudds, the homesteader who died at his homestead south of Winnifred on Wednesday. A post mortem examination showed he had ruptured an artery in his brain by a fall from a wagon, while riding home from that city.

SMALLPOX AMONG HALFBREEDS

(By Daily News Leased Wire)

DEVILS LAKE, N. D., Dec. 28.—Smallpox which has caused such activity among Manitoba police, was caused largely by halfbreeds in the Turtle mountain district, St. John, according to information obtained by state health authorities, who are making a determined effort to stamp out the pest.

Dakota have established stringent quarantine regulations in the St. John district, but the ignorance of many of the victims of the disease makes the work of combatting the disease, more difficult. None of the cases in this state, though there are about 50 of them, have proved fatal.

ACID AS CHASER

MOOSE JAW, Sask., Dec. 28.—Jame Miller, a homesteader from Wilcox committed suicide in a Chine rooming house here last night by swallowing a quantity of carbolic acid. The man, whose identity was ascertained by letters in his pocket, had gone to bed, drunk the contents of a bottle of Scotch whiskey and then topped it with the acid. Nothing known of Miller here.

WANDERERS OPEN SEASON WITH WIN

Ontarios of Toronto Prove Easy Victims—Numerous Chances to Score Thrown Away

(By Daily News Leased Wire.)

MONTREAL, Dec. 28.—Playing tag with their opponents from start to finish, the Wanderers ushered in the local hockey season at the arena last night with a 10 to 3 victory over the *Ontarios of Toronto. The winners* never left any doubt in the minds of the 3,000 persons who witnessed the match as to which was the better team. They assumed a commanding lead in the early stages and maintained it to the end to win.

*Both teams made many chances dur*ing play. The Ontarios played in a in an unfinished manner and when the play was carried into their opponent's territory, there was no one to help out. Their shooting was weak and lacked the accuracy of their opponents *which accounted for numerous chances* to score being tossed away. The Ontarios' line had never played together and depended altogether on their individual rushes. Kendall and O'Grady, who were tried out for the first time with the Wanderers, are both promising players and will serve as good substitutes for the regulars this season.

HOTEL TEAMS PLAY TONIGHT IMPROVEMENTS TO RINK

(Special to The Daily News.)

CRANBROOK, B. C., Dec. 28. — A hockey match will be played at the Arena rink on Monday night between teams from the Cranbrook and Cosmopolitan hotels. This will be the second time this winter that these teams have met, the last game being a tie of 6 goals each, the game Monday night being to *play off the tie.*

Considerable improvements have been made at the Arena rink this year. The ladies' and gentlemen's waiting rooms have been thoroughly renovated and the ladies' room now contains wash bowl, towels and other *such improvements. Some fifty lock* boxes have been placed for skates, the boxes backing on the manager's office where a fire is kept constantly so that a skater will always find his or her boots warm and dry. The tea room has been overhauled, and is now *better heated and lighted* than ever before, and is in charge of Mrs. W. H Johnson, the manager's wife. Hung at the lower end of the rink are three large Union Jacks. The fence around the rink has been painted in blue and white.

At the north end of the rink is a shooting gallery of three targets and 65-foot range. R. Sturton won the turkey shoot on this range on Christmas day making 19 points out of a possible 25.

Mrs. Wallinger's orchestra, with piano accompaniment supplies the music to the skaters.

FOUR WINTERS OF RHEUMATISM

Cured of Sciatica And Muscular Rheumatism By "Fruit-a-tives"

RIDGETOWN, ONT., May 21st. 1913.

"Fruit-a-tives" cured me of Rheumatism. It was the only medicine that made any impression on me. I was a terrible sufferer from Rheumatism. I was laid up for four winters with Sciatica and Muscular Rheumatism, and was completely crippled.

Some neighbor of mine told me that "Fruit-a-tives" helped him, and I started in to take them. I used "Fruit-a-tives" faithfully for two years, taking them every day as I saw they were doing me good, and the results were marvellous.

For over two years, I have been completely free from any Rheumatic Pains whatever, and I give "Fruit-a-tives" the credit." W. H. RACHER.

Shot in Back

(By Daily News Leased Wire.)

CHICAGO, Dec. 28.—M. J. Riley, Chicago representative of the Western Federation of Miners, today received a telegram from Charles A. Moyer, president of the federation, in which Moyer charged that he was shot in the back in his notel room and drag*ged out of Hancock, Mich., by a mob* of guards and members of the citizens' alliance. The telegram reads:

"Iron Mountain, Mich., Dec. 26.

"Tanner and myself were brutally assaulted in my room at the Scott hotel in Hancock tonight. I was shot in the back and dragged more than a mile and a half through the streets of Hancock by a mob of Waddell-Mahon thugs and citizens' alliance men, put aboard a Milwaukee train and threatened with death if I dared to return. But have the press say this for me: 'That the cause is well worth the sufferings which I have undergone. The cause of the striking miners is just and they will win.'"

Charles H. Moyer, president of the *Western Federation of Miners*, driven from Hancock, Mich., after he had been shot and assaulted last night, slept well under the care of physicians in a hospital here tonight.

The train ride of 600 miles, a bullet still in his body, and his wounds having received only temporary care, so weakened the director of the copper miners' strike that he was unable to speak when he entered the hospital.

Physicians said the ease with which Moyer dropped asleep would prove a factor toward his speedy recovery, and the indications were that his wound would not prove serious.

Assault to Be Investigated

(By Daily News Leased Wire.)

CALUMET, Mich., Dec. 28.—The deportation of Charles H. Moyer, president of the Western Federation of Miners and leader of the copper miners' strike, who was escorted from Hancock last night after being shot and clubbed, will be investigated by the special grand jury when it resumes its session next Tuesday.

Sheriff Cruz today began an inquiry into the facts of Moyer's departure in response to telegrams from Governor Ferris and George Nichols. Both requested him to make a full statement of the result of his investigations. Many of the circumstances of Moyer's *departure did not become generally* known in the strike region until Moyer had reached Greenbay, Wis., and told *of his injuries.*

Warrants were served tonight on the business manager and a dozen or more employes of a Socialist paper in Hancock, the charge being "conspiracy to publish misstatements calculated to incite riot."

The warrants were sworn under the statutes relating to felony and the men were held in bonds of $1,000 each. The complaints were made by Sheriff Cruz, and were a sequel to an extra published yesterday, in which charges of grave misconduct were made against some of the deputies and others who tried to assist the victims *of the Christmas disaster.*

The article, according to the translators, accused the rescuers of slugging mothers and fathers who tried to reach the hall where their children were dead or in peril, and used the Finnish equivalent of "murder" in its description of the disaster.

John Nuomauvari, business manager of the paper, was taken from the editorial room after the paper had gone to press today. Two members of the editorial staff were taken from their desks and a service was made upon a dozen others as they were found on the streets this evening. Because the *charge on which they were held, a* felony, it is probable that their cases will be considered by a special grand jury. The grand jury was called to investigate "acts of lawlessness arising from the strike."

Intimations from union sources that the grand jury was "hand picked" and "packed" against their cause are denied in official circles. A survey of the personnel of the body shows A. F. Heidecamp, a brewer, as foreman, and George Williams, a railroad official, as clerk.

Among 18 other members of the jury is Edgar Bye, a chauffeur, James Mc*Naughton, general manager of the* Calumet and Hecla Mining company, and two superintendents of stamp mills. A few merchants and a number of mechanics make up the rest of the membership. No mine managers or other executive officers of the corporations are in the list.

Won't Work

(By Daily News Leased Wire.)

BIG RAPIDS, Mich., Dec. 28.—"It won't work." This was the comment of Governor Ferris tonight here to the Associated Press after the latest proposal for the settlement of the copper strike made by Charles H. Moyer, in Chicago, was read to him. The governor said he was positive the mine owners would never consent to an arrangement which compelled them to employ, without discrimination, men who were at present on strike.

TURNKEY KNOCKED DOWN PRISONER MAKES ESCAPE

(By Daily News Leased Wire.)

KENORA, Ont., Dec. 28.—Turnkey Wood was the victim of a murderous *assault last night at the jail, being* struck just below the base of the skull and knocked unconscious by an iron rod in the hands of J. O. Babe, a prisoner. The six or seven prisoners had just completed the evening meal in the corridor outside their cells and as the turnkey turned to leave Babe struck him across the back of the neck with the rod. The turnkey dropped to the floor unconscious and Babe dashed through to an adjoining room and out through the window to liberty, carrying a portion of the sash with him.

Another prisoner, James McKenzie, *saw an opportunity for freedom also*, and dashed down the hall, and was met by Jailer McCall. Before McCall could draw his gun, McKenzie seized him. One of the prisoners came to McCall's aid and McKenzie was put in his cell again.

Babe had by this time secured a good start and in the darkness it was impossible to follow him. He was sentenced about three weeks ago to one *year for stealing a watch.*

Women's and Children's Stockings

Some children always look well dressed because in getting our com*parative opinion of their clothes we look at their legs first.* A *slovenly* misfit in their hosiery spills the beans. No matter what else they wear, *neat stockings atone for much that may* be lacking otherwise. We are interested in neat fitting, sturdy wearing, fast washing colors in children's stockings, and we have those winning qualities only.

For women not only good, but shapely, regular made hosiery that commend themselves for appearance as well as firmness—they look well and wear well and they fit. You know the comfort of a perfect fitting stocking. Curious how some women overlook *this, but you will appreciate* the difference when you try these.

CANADIAN PACIFICS LESS POPULAR

Bankers Hopeful for Outlook of Dominion—Grand Trunks Firmer in London

(Western Associated Press Special Cable.)

LONDON, Dec. 28.—The stock markets were cheerful on Saturday and specialties were strong, but there was no business, the year end settlement serving as a restriction. Settlement money was dearer at 5¼ per cent. Prices advanced owing to the sustained confidence in the outlook.

C. P. R.'s were inactive, the decrease in the traffic returns being disliked. It is feared that the forecasted revival in American rails may displace Canadian Pacifics unless future events remove the unpopularity bred of the recent financing. Grand Trunks were narrow but a little firmer. The buying of Pacific rights continues. Utilities were weaker.

Canadian bankers here again express caution, but are hopeful for the outlook for the Dominion. The situation in the Canadian west is described as a mixed one, involving much liquidation of indebtedness, which is stated to be causing pressure upon the farmers and is rendering buyers of Canadian wheat here hopeful for lower prices because of the necessity of the farmers selling their wheat as rapidly as possible.

Paris advices state that Russian and Turkish loans are almost certain to be floated there within a fortnight and thus relieve the anxiety of the bankers. The French finance minister admits at present a deficit of $158,000,000 and expects one of $90,000,000 next year. Loan rates were firm. Call money at 4½ per cent., with 5 per cent. for weekly loans. Bill rates are weakening. The bank returns showed a decrease of $14,400,000 in the reserve, but the position is considered as seasonably strong. The week's borrowings at the bank totalled $45,000,000.

The Bankers' Magazine estimates that the value of 387 representative securities decreased by $30,000,000 during the year.

HOLIDAY TRADE GENERALLY GOOD

Winnipeg Complains of Result of Mild Weather—Business in Calgary Reported Brisk.

(By Daily News Leased Wire)

NEW YORK, Dec. 28.—Despatches to Dun's Review from branch offices of R. G. Dun & Co., in leading trade centres of the Dominion of Canada report that, while Christmas trade has been in generally satisfactory volume conditions in wholesale lines show a quietness at the end of the year.

Montreal reports no particular change. Sorting business in drygoods is liberal but deliveries of spring goods are already in fair amount. Holiday sales were well up to those of a year ago, but staples are moving slowly and not much improvement is expected in the advent of the cold weather.

Business in Quebec is not very heavy and there continues a complaint regarding unfavorable weather conditions.

Wholesale trade at Toronto is not especially active but the conditions at this period are not expected, and improvement in the near fueure is indicated by a somewhat more confident feeling among the leading merchants. Christmas sales have been in good amount but buying was confined largely to the medium and low priced lines. Future orders for drygoods are rather below expectations and the demand for leather and hides continues low. Hamilton reports that the trade in Christmas goods was about the same as last year and wholesale business is quiet as most of the travelers are off the road for the holidays.

There has been little change in conditions in the west and northwest, and the situation, as a whole, is abnormal.

Much complaint is heard at Winnipeg regarding the effect of the mild weather, but trade in Christmas merchandise was good, and staples are moving in fairly satisfactory volume.

Business at Calgary compares favorably with that of a year ago especially in holiday goods. An active demand for groceries, provisions, etc., is noted at Regina, but colder weather is needed to stimulate the movement in certain lines.

Holiday trade has not been so good at Saskatoon as a year ago owing to the scarcity of money, but country merchants are carrying light stocks and the outlook is considered promising.

Gross earnings of all Canadian railroads reporting to date for the first two weeks of December show a gain of 1.5 per cent compared with the earnings of the same roads a year ago.

Commercial failures in Canada this week numbered 26, as against 35 last week and 25 the same week last year.

SPECULATION SLACKENS ON NEW YORK EXCHANGE

(By Daily News Leased Wire.)

NEW YORK, Dec. 28.—Speculative activity diminished yesterday and there was on sign of demand which characterized the advance of the past week.

Resumption of the trading in London after the holiday had little influence on this market, except in the case of C. P. R., the decline was due largely to foreign selling. The price dropped to 207⅜.

New Haven was prominent in the dealings by reason of its strength. At one time it sold nearly three points above yesterday's close.

FINANCIAL STANDING IN GERMANY IS CRITICAL

(Western Associated Press Special Cable)

LONDON, Dec. 28.—A prominent financial man who has just returned from an extended visit to Berlin and other important German cities, says that the outlook commercially and financially in Germany for 1914 is extremely bad.

Although the Reichsbank has been greatly strengthened in its gold reserve, the general banking situation is discouraging. These banks have very little money and it is scarce and hard to get, with prospects of being rapidly scarcer. Loans are being refused on all sides, and it is almost impossible to get loans to start new enterprises or extend old ones.

The trouble, according to this authority, is largely due to the over extension of German commerce on borrowed capital in the past.

The business men are now unable to collect debts, and are therefore unable to pay the banks, while the banks dare not call loans through fear that a universal smash would follow such a course, but on the contrary still must seek to find money to keep afloat the enterprises they have already financed.

HUERTA TO TAKE FIELD NEW PRESIDENT SUCCEEDS

(By Daily News Leased Wire.)

MEXICO CITY, Dec. 28.—That Enrique Grostieta, minister of justice, will become president of Mexico early in the new year and that Gen. Huerta will take the field against the rebels who refuse to conform to this arrangement is the report that has been received with credence by some of the diplomatic representatives. Grostieta is to be named minister of foreign relations, according to the report, and Gen. Huerta will retire from the presidency, in which case the foreign minister succeeds. Senor Grostieta is well along in years.

PARIS, Dec. 28.—The French commissioner resident of the New Hebrides announces that it is now possible to approach Abrim island, where a series of volcanic upheavals recently occurred. The commissioner also reports that, in addition to many changes in the coast lines, a small island has sprung up off Dipper point, on the west coast.

HUNGARIAN GOVERNMENT WARNS AGAINST EMIGRATION

(By Daily News Leased Wire.)

VIENNA, Dec. 28.—The Hungarian minister of the interior has sent a circular to all municipalities in Hungary warning intending emigrants to delay their departure to the United States until economic conditions in that country improve.

The circular states that American manufacturers, particularly those identified with the steel and iron interests, have reduced their output, and as a consequence there are many men at present out of employment.

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

RIDEAU HALL BALL FIRST FUNCTION SINCE RETURN

(By Daily News Leased Wire)

OTTAWA, Dec. 28.—Probably the last affair of its kind at the government house during the present regime was the brilliant children's fancy dress ball at Rideau hall Saturday afternoon. It was noteworthy because of the fact that the Duchess of Connaught made her first appearance as hostess since her return to the capital, assisting his royal highness and the Princess Patricia in receiving the hundreds of little guests and their parents. There were many guests from Montreal and Toronto, in addition to those from the capital and the event proved a wonderful success.

MERRY MAKING ALONG THE MID INETTES.

The festival of Sainte-Catherine in Paris. The festival of St. Catherine is a day of great rejoicing among the working girls of Paris, especially in the great millinery establishments. The day is given up to dancing, singing, and drinking champagne, and those who "Passing-Catherine" or in other words have entered upon their twenty-fifth year, and are still unmarried, are presented by their comrades with bonnets. On appearing in these in the streets they are assailed with offers of compliments, bon bons, and even kisses.

JEWISH COLONY FOR WEST CANADA

Discrimination Against Jewish Students in Canadian Universities—Canadian Colony in Palestine.

(By Daily News Leased Wire.)

MONTREAL, Dec. 28.—The universities of Canada and the United States, while placing no official restrictions upon attendance of Jewish students, as was the case in Europe, none the less observed certain unofficial restrictions against such students, was the statement of Lois Fitch of Montreal, a graduate of McGill university, at the Zionist banquet on Saturday evening. Those restrictions, he said, were not officially recognized and were not published abroad, but were still a fact. As a McGill man himself, he felt that there had been a closed door beyond which Jewish students could not pass.

They were not wanted in the Greek *letter societies or frats, and were* seldom or never allowed a hearing in the dates at the McGill Literary society meetings. There was no sympathy for the Jewish student shown by those connected with the university. They were not treated as were others. In order to have any say at all in the affairs of the university they had been compelled to form a society of their own, and even this was not recognized by the student body, and was ignored altogether in the last issue of the McGill calendar. It was furthermore very difficult for a Jew to be elected to any office at the college.

These conditions, stated Mr. Fitch, were not confined to any one university, but were fairly common, and the young Jew who would obtain advanced education had pretty near no place to go where he could obtain fair and equitable treatment.

W. W. Jacobs, K.C., president of the Baron de Hirsch institute, in proposing the health of Canadian federation, made the announcement that the Jewish colonization society of Paris, of which he was Canadian representative, was shortly to found a Jewish colony in western Canada, similar to that which had already been founded with so great success in the Argentine. A second Canadian colony for Jews in Palestine was decided upon today in the closing hours of the Zionist convention and $8,000 of the $10,000 necessary for the purchase of land was subscribed by societies and individuals before the convention arose.

This came as the result of an announcement of the work being done in this colony, founded since the 1911 convention. This had been named "Canadia" and consisted of 300 acres of land, a large tract in that country, and had plantations, buildings and complete equipment. An offer to stock the land with the necessary cattle, horses and the like, made by a German society, had been refused, and the money was now ready to do this and maintain the colony as one founded and supported exclusively by Canadian Jews. It was already equipped with a number of refugees from Kiev, Russia, affording these people a much needed place of safety, where they could earn their own livings unmolested.

The question of what the federation should do was next answered by President de Sola, who made a strong appeal for the foundation of Canadia No. 2, suggesting that another $10,000 worth of territory should be purchased and the subscription for this started at once. Subscriptions totalling $8,000 were made.

The nominating committee suggested re-election of all the chief officers of the federation, including the president, vice-presidents, treasurer and secretary, and made a few slight changes in the council of 30 members.

How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada

But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—'phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise.

The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—*If the name Brown was as synonomous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?*

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

PIONEER RAILROAD BUILDER DEAD

Lockie McQuarrie, Uncle of Nelson Man, Dies at San Diego—Here in Early Days

Lockie McQuarrie, of New Westminster, an uncle of M. R, McQuarrie of Nelson and one of the best known contractors and financiers in British Columbia, died on Friday at the age of eighty years at San Diego, Cal., according to a telegram received in Nelson.

The late Mr. McQuarrie was a pioneer railroad contractor in the province, having carried out several contracts on the Canadian Pacific main line and having constructed the first 25 miles of the Great Northern out of New Westminster. He also built the gas and water works at the Royal City.

In the early days he was in Nelson and built the trail from this city to Ward's ferry on the Kootenay river. He was in California during the gold rush of 1849 and followed the argonauts up the coast to British Columbia.

He leaves five sons: one who was city clerk at New Westminster for 15 years; William McQuarrie, a Vancouver lawyer who was in partnership with Joseph Martin, K.C.; D. J. McQuarrie, superintendent of the British Columbia Electric railway between Vancouver and New Westminster; and Dr. McQuarrie, who is practicing at New Westminster.

The Cinderella club will hold an extra dance on Friday night. Only those holding membership tickets or invitations will be admitted to the club dances.
