THAW SANE SAYS JAIL PHYSICIAN

Jerome Named to Act For New York State

ADVISED TO BECOME BRITISH SUBJECT

Gentleman Roger Thompson Says He Is the Goat--Wants Money.

(The Daily News Leased Wire.)

SHERBROOKE, Que., Aug. 22.—"Gentleman Roger" Thompson, the New York chauffeur, held under the Dominion immigration laws, as having aided Harry K. Thaw, legally a lunatic, to cross the Canadian frontier, announced from his cell tonight that he was "up against it" and that if the Thaw family did not come to his rescue he would perhaps, in justice to himself, be forced to tell all he knows about Thaw's escape from Matteawan and thus complicate the proceedings under which Thaw's lawyers hope to obtain his release on habeas corpus on Wednesday next.

Tonight Thompson removed the smoked eyeglasses he has worn since his arrest here and openly admitted that the name Mitchell Thompson he had given the authorities was fictitious and that in reality he is Roger Thompson, car salesman and daredevil chauffeur who drove the black machine which whisked Stanford White's slayer away from Matteawan on Sunday morning last.

"Sure, I'm Roger Thompson," he said. "I need money and help. Now it's up to the Thaws. I was framed up in getting into this case and they ought to stand by me now. I haven't a cent and if they admitted me to bail I could not raise the money. Even if I could, I would be arrested if I cross the New York state line. It's rough stuff. The other four fellows mixed up in the game made their getaway, but I stuck to Thaw to the finish, and I'm the goat. That's pretty hard."

"What about the details of the escape?" he was asked.

"Don't ask me," said Thompson. "I can't talk about that now."

Thaw, in a cell in a corridor above Roger Thompson, refused to admit even that he had ever seen him.

"Oh, that man," he exclaimed. "You know I can't talk about him."

Wants Hush Money

Thompson slouched in his cell, coatless and collarless. Counsel has been employed for him by the Thaw family and it was through their efforts that Thompson's arraignment today, as a violator of the immigration laws, was postponed until Friday next. His lawyer is Louis St. Laurent of Quebec. He is presumably acting for Thompson.

It was admitted by the chauffeur that "the Thaws" had retained St. Laurent and that they expected him (Thompson) to keep his mouth shut.

He added grimly that he thought they ought to do more than give him a lawyer. "All they want," he said, "is to keep my case separate from Thaw's. I wish I hadn't mixed up in it."

Angry With Canadian Newspapers

Thaw had a quarrel with his many attorneys today. They had warned him to issue no statements, but he insisted on talking about what he described as an omission in the present newspapers in Canada and the United States in not printing in full a recent statement of his lawyers, quoting William Travers Jerome as saying that Thaw was sane.

"That omission has outraged the British idea of fair play," said Thaw. "They believe in a square deal."

He fidgeted as he spoke, bit his nails to the quick and fussed with a pile of letters and telegrams on the pine table in his cell. On the window-sill stood a bouquet of wild flowers sent him by an anonymous woman sympathizer. Over the pine table sprawled the remnants of a meal served by a local hotel. Thaw's appetite apparently is good, for only bits of food remained.

"But I have not had a thing to drink but water," he smiled.

Sane, Says Jail Doctor

Dr. Jose Noel, the jail physician, who has examined Thaw daily, said this afternoon that he regarded him as sane. It was said that the doctor had been watching Thaw's actions at the request of the Dominion immigration authorities. Whether he submitted his findings to them formally, he declined to say.

During his varying moods today Thaw was reminded of the predicament in which his escape from Matteawan had placed Howard Barnum, the old gatekeeper, past whom he fled to freedom.

"That's too bad," said Thaw. "Barnum did not know a thing I was to do. He was a victim of circumstances. He is innocent and the charge against him should not have been made."

Thaw telegraphed instructions to William Vanamee, his attorney at Newburg, N.Y., to assist Barnum in any court proceedings at Thaw's expense.

New York state officers waiting here for Thaw's release on habeas corpus, and his seizure then by the immigration authorities, admitted tonight that they were at sea as to where he will be deported, in that event.

"It doesn't make much difference," said Franklin Kennedy, deputy attor-

ENLARGE SCOPE OF FEDERAL SURVEY

Dominion Will Carry on Hydrographic Works in All Parts of British Columbia

(Special to The Daily News.)

VANCOUVER, B.C., Aug. 22.—By an agreement signed in Victoria today by William Young, provincial comptroller of water rights, and J. B. Challies, chief of the hydrographic branch of the interior department, Ottawa, the federal government agrees to extend its hydrographic work now in progress in the Dominion railway belt to all other districts of British Columbia.

The agreement has already been approved by Hon. W. R. Ross and will become effective as soon as it secures the similar approval of the minister of the interior.

Both governments, prior to the negotiation of the settlement, had agreed to an arrangement on the terms mentioned in the agreement, hence approval is a purely formal affair.

This work will embrace reports on irrigation matters and the water powers of British Columbia. The Dominion government is now making detailed surveys in railway belt along the main line of the Canadian Pacific railway in British Columbia.

FEWER GALICIANS COMING TO CANADA

Order Restricting Emigration From Their Native Country Is Issued, Say Cable Advices.

(By Daily News Leased Wire.)

OTTAWA, Aug. 22.—The restrictive order against the emigration of natives of Galicia, which is announced by cable today, will have a marked effect upon Canadian immigration. For many years there has been a steady influx of the Galicians to Canada and large colonies of them in the west are augmented by new arrivals every year. In official circles it is said that any stopping of a further influx from that source will be a matter of regret and incidentally be at least small factor in retarding the growth of the country.

REPORT ADVISES WAGE INCREASE

Coast Electric Railway Men Vote on Strike Proposal—Board Finding Causes Delay

(By Daily News Leased Wire.)

OTTAWA, Aug. 22.—The report of the board established under the Industrial Disputes act to deal between the British Columbia Electric railway and its employes engaged in the operation of the street railway systems of Victoria and Vancouver and New Westminster, and also in the operation of the interurban lines on the Pacific coast, has been received by the department of labor and promptly transmitted to the parties concerned in the matter.

The report in question is signed by Mr. Justice Murphy, chairman, and P. O. Alexander, the company's nominee, both of Vancouver. It is accompanied by a proposed wage schedule signed by the foregoing and a statement of rules and working conditions, which were agreed upon by the board as a whole, and communicated last week to the company and employes.

The department of labor has wired both the British Columbia Electric Railway company and the employes' representatives, asking that they await the receipt of the board's report before taking any further action in this matter. The report comprises a statement of reasons for the decisions arrived at and deals with wage questions and other matters at issue.

The board recommends the adoption of a minimum wage rate of 27 cents per hour for the first year conductors and motormen employed on the street and suburban lines in place of a minimum wage of 22 cents an hour, which has been paid hitherto. The board leaves, however, the maximum wage rate of 35 cents unchanged.

Against Finding—Strike Uncertain.

(By Daily News Leased Wire.)

VANCOUVER, B. C., Aug. 22.—The street railway men's unions in Vancouver, Westminster and Victoria have voted on the question of acceptance of the conciliation board's terms, but the exact result is kept secret. It is understood, however, to be against acceptance of the finding. The question of whether a strike will result will be settled in a couple of days.

Postpone Definite Action.

(By Daily News Leased Wire.)

VANCOUVER, B. C., Aug. 22.—On receipt of the message from Ottawa with regard to the majority report of the board of arbitration dealing with the British Columbia Electric company troubles, it was stated in labor circles that no definite action would be taken for some days. It is admitted, however, that the situation is a precarious one, but the men's leaders, it is believed, will be able to control them until such time as some concrete decision is arrived at. However, that there is a large percentage in favor of ceasing work is well known here.

STRICKEN WITH PTOMAINE POISONING ON TRAIN

(By Daily News Leased Wire.)

CHICAGO, Aug. 22.—When nearing Chicago on a Pennsylvania train early today a man, who gave his name as Teofil A. Harrison of Edmonton, Alta., was stricken seriously ill with ptomaine poisoning. He was given emergency relief by the police medical staff and sent to St. Lukes hospital on the train's arrival here. The police were unable to learn where Harrison had been or where he was bound for. Tonight it was reported that Harrison was still unable to talk.

ULSTER SITUATION BECOMES SERIOUS

Fear Martial Law to Enforce Home Rule

DRAFT TROOPS FOR MILITARY REGIME

Outburst Regarded as Inevitable--Anger Intense Against Police.

(By Daily News Leased Wire.)

LONDON, Aug. 22.—"Ulster is to be dragooned into accepting home rule, practically under martial law," is the assertion of the Unionist Standard. The Londonderry riots furnished the Unionist newspapers within the last few days with texts for many articles predicting grewsome doings if home rule should be enforced. The antagonism of religious creeds is now acute in Alster, as was shown in Londonderry, where the intense excitement and anger against the imported police was far from appeased by the open verdict yesterday at the inquest on Armstrong, the Unionist, who, the witnesses affirm and the Unionists all believe, was deliberately shot by a policeman without provocation.

Even if the situation is being exaggerated by the political press, it undoubtedly holds out the ugliest possibilities. This has been sufficiently shown in the rush during the last few days to insure commercial property in Ulster against damage by riot. Most of this business is done in London where Lloyd's underwriters have covered $50,000,000 worth of property for Belfast and elsewhere. The rates have been steadily rising to 5 per cent and will be doubled by next Monday. The underwriters are not eager for any more business and there is talk of fixing a prohibitive rate.

Predicts Military Regime.

The Standard today asserts that the government is preparing to check an outburst which all signs show is inevitable. It calls attention to something unusual in the fact that a number of troops are going to Ireland from England in September ostensibly for maneuvres but actually, as the paper says, "as part of the military preparations to coerce Ireland, for nothing is more certain than that a military regime will be established."

The Standard predicts that martial law will be declared in Ulster and says the government will raise forthwith a large force of military and mounted police. It is taking a hurried horse census and talk is current of a strong cavalry force being sent from England and the probability is that the marines will be employed to assist the police in Ireland as they did 30 years ago.

The Ulster Union council announces a series of meetings and conferences to "make final preparations for resisting the authority of the Irish parliament should the home rule bill become law."

TAMMANY TIGER IS AFTER GAYNOR

Organization Puts Edward E. McCall in Field for New York Mayoralty Contest

(By Daily News Leased Wire.)

NEW YORK, Aug. 22.—With Edward E. McCall's acceptance today of Tammany Hall's designation as its candidate for mayor and John P. Mitchell, collector of the port, already picked to lead the fusionists, Mayor William J. Gaynor was placed in the lists for re-election on an independent ticket by his friends this afternoon. They asserted emphatically that he would run.

MILLION FEET OF TIMBER BURNED

Losses Heavy in Forest Fires in Maritime Provinces—Conditions Improve in Ontario.

(By Daily News Leased Wire.)

HALIFAX, N. S., Aug. 22.—A despatch from Yarmouth says:

Forest fires are raging over this county. There is a serious one between Forest street and Argyle street near Acadian and the men have been ordered out by the wardens today with teams hauling water. Heavy fires are reported in the woods near Belleville, Lower Argyle, Edgeport and Lake Annis.

(By Daily News Leased Wire.)

BRUNSWICK, Vt., Aug. 22.—A forest fire on the property of the Connecticut Valley Lumber company broke away from 300 men tonight and was driven before a strong southwest wind through a valuable growth of green timber. By nightfall 1,000,000 feet of cut timber, much valuable standing timber, 1,000 cords of hemlock bark and 1,000 acres of scrub land had been swept by the flames.

The fire started at a camp of the lumber company, where a force of men has been engaged all summer in stripping hemlock bark. Within a short time several acres of the old cuttings were ablaze.

TORONTO, Aug. 22.—Heavy rains have checked the forest fires in most of the districts in Ontario, where they have been raging.

W. F. TEETZEL HAS IMPORTANT POST

Will Select Sites for All Federal Public Buildings Throughout Western Canada

(By Daily News Leased Wire.)

VANCOUVER, B. C. Aug. 22.—W. F. Teetzel former government agent at Nelson who resigned that position recently in order to accept a position with the federal public works department has been appointed to carry out the important duties of selecting and recommending sites for all Dominion public buildings throughout western Canada. He will make his headquarters at Victoria.

For nearly 30 years Mr. Teetzel was a resident of Kootenay spending about 20 years of that time in Nelson.

GIRLS JUMP SIXTY FEET TO LIFE NETS

Twenty Employes of Montreal Factory *Have Narrow Squeak*—Loss Hundred and Twenty-five Thousand

(By Daily News Leased Wire.)

MONTREAL, Aug. 22.—Driven by fire to the roof of the Rideau Shoe Manufacturing company's building in Maisonneuve this afternoon, a score of employes, including half a dozen girls, were forced to jump 60 feet into life nets. Many of them who took the leap were badly bruised, but only one, Patrick Keenan, was seriously injured. He was taken to a hospital.

All of the remaining 250 employes left the building safely by the stairs or were rushed by firemen from the fire escapes. The flames started from an unknown cause in the basement and quickly shot up the elevator shaft, filling the building with a blinding smoke. The building was completely gutted, entailing a loss of $125,000, fully insured.

ENJOY HOT FIGHT ON ARMORY SITE

Militiamen Capture Protest Meeting Called by Athletic Bodies in Calgary.

(By Daily News Leased Wire.)

CALGARY, Alta., Aug. 22.—The controversy on here between the local militia and the various athletic bodies of the city over the site of the proposed armory took a new angle tonight when the mass meeting called by the athletic people to protest against the action of the city council in voting away a portion of Mewata athletic park for armory purposes was captured by the militiamen. The election of Major Aitken to the chairmanship over the athletic candidate was the signal for the athletes to retire and organize a second meeting, at which proceedings were started looking to the enjoining of the city to prevent the transfer of the property to the government. In the meantime the militiamen, in control of the original meeting, passed resolutions endorsing the action of the city council. About the same time, in another hall a few doors away, the trades and labor council passed resolutions condemning the city council for its action, while at a meeting of the board of trade, held during the afternoon, the attitude of the council was approved of.

ELBOW RECTOR WEDS

LONDON, Aug. 22.—Rev. Robert Wilson, rector of Elbow, Sask., was married yesterday to Catherine Davison of Fulwell, Sunderland. The honeymoon will consist of the journey to the bridegroom's parish.

AVIATOR FALLS MILE TO DEATH

(By Daily News Leased Wire.)

HALBERSTADT, Prussia, Aug. 22.—*Lieut. Schfidt of the army* aviation corps was killed here today in a fall of more than a mile. He was completing an aeroplane flight from Goslar 30 miles west of Halberstadt, and had begun a spiral descent when one of the wings collapsed and the machine plunged to the ground.

"Know-How-Itiveness Stick-to-it-Iveness"

These two words embrace the motto of the most successful manufacturing drug man in the country.

He is one of the largest advertisers in the daily newspapers in the United States.

He began using them after a careful study of the best means of reaching the consumer and interesting the retailer. He knew how.

And he stuck to it.

He has got rich in a few years and he has the most loyal following of retailers of any manufacturer in the world.

The retailers swear by him, because he has made money for them—and taught them how to sell goods.

That manufacturer and his retailers all over the continent are *planning one of the greatest* co-operative advertising campaigns ever undertaken.

And newspapers like The Daily News will be the medium used in that campaign.

INSULTED MILITIA IS CHARGE MADE

To Take Proceedings Against Labor Speakers

RECRUIT RANKS FOR MORE TROUBLE

Open Stations to Secure Men For Coast Regiment--Search for Arms.

(Special to The Daily News.)

VANCOUVER, B. C., Aug. 22.—For alleged insults to the militia immediate proceedings are to be taken against John Kavanaugh, president of the British Columbia Federation of Labor, and George Pettigrew, an official of the United Mine Workers of America. The proceedings will be commenced under a clause in the Militia act.

Kavanaugh, who was a speaker at a labor mass meeting held here last night, at which a resolution was passed urging the government to withdraw the militia from the Vancouver island strike zone, said he had had the "hishonor" to serve his majesty in South Africa and added: "I apologize for it." He called the militia reptiles.

Pettigrew, in his address, which was much to the same effect, said: "Any man who allows his sons to join the navy or army is a traitor to his cause."

A military officer, who is also a lawyer, has left Nanaimo for Vancouver to commence proceedings.

Fear Further Trouble

(By Daily News Leased Wire.)

VANCOUVER, B.C., Aug. 22.—Further searches are being organized for the purpose of bringing to light any ammunition or explosives that have been cached by the miners. Beyond that found a few days ago there have been no further discoveries. That the *authorities anticipate more trouble is* indicated by the fact that recruiting offices have been opened and every inducement is made for the purpose of adding to the ranks.

May Prosecute Speakers

(By Daily News Leased Wire.)

VANCOUVER, B.C., Aug. 22.—Representations will probably be made to the mayor to set the law in motion against some of the speakers who spoke at the labor meeting on Thursday night in connection with the Nanaimo strike. It is pointed out that the chief magistrate last year instituted vigorous measures against the I. W. W.'s and that the remarks at the meeting mentioned were even of a more seditious nature. Under these circumstances, the opinion is expressed that there is no alternative but to prosecute though at the same time some declare that the attorney-general should take the initiative.

STORMS SWEEP SOO DISTRICT

Boy Drowned—Launch and Tug Are Lost—Electric Light Service Disorganized.

(By Daily News Leased Wire.)

SOO, Mich., Aug. 22.—Considerable damage was wrought in the city and surrounding territory by a furious gale which swept this section last night. One life was lost by drowning, *while 10 had narrow escapes from a* similar fate. A launch and tug were lost. The electric light service was cut off from the buildings.

A 10-year-old boy named McDonnell was drowned off a launch off Iroquois when the rough weather set in. They had taken the boat for shelter around the island. When they got to the turn they feared the boat would capsize and both jumped overboard. Bothier, the engineer, escaped. The boy's body was washed ashore this morning.

The tug Clare Hickler foundered off Bay Mills last night. She was towing a loaded scow to the Soo. The crew of nine escaped to the scow, which later was blown ashore.

A travelling derrick car used by the Pennsylvania Steel company in the construction of the new draw bridge over the canal, now in construction, was blown from the tracks down an embankment. Vessels arriving at the Soo report that the storm did not show much on Lake Superior, however, appearing to have followed the shore.

Storms Severe.

(By Daily News Leased Wire.)

PORT ARTHUR, Ont., Aug. 22.—A wireless despatch from Sault Ste. Marie reports severe electrical storms last night, with a heavy gale and rain. Steel bridges were blown down, the New Ontario dock blown away and damage done to telephone wires.

MILLION DOLLAR SILK SHIPMENT GOES EAST

(By Daily News Leased Wire.)

MOOSE JAW, Sask., Aug. 22.—Two special silk trains passed through the city this afternoon en route for New York. The shipment was valued at over $1,000,000.

REVOLVER EMPTIED AT HELPLESS MAN

Murder Mystery Occupies Attention of Victoria Police—Emanuel Campbell Is Victim.

(By Daily News Leased Wire.)

VICTORIA, B.C., Aug. 22.—What has been undoubtedly a murder took *place on the old Indian reserve* some time during the past week and was discovered yesterday. The victim is Emanuel Campbell, about 42 years of age, who lived here for many years. He was last seen alive on Friday evening. It is not known how he came to his death, but the police are investigating.

While walking across the reserve yesterday afternoon a man named Monty noticed what appeared to be a man asleep a little way off the track he was following. He subsequently discovered that the man was dead, and notified the police. Everything about the scene and the way the body was found goes to prove that the wounds found on the body were not self-inflicted, and at the same time, fail to afford any indication of a motive. There are seven or eight wounds all in the upper part of the body. It looks as if a revolver had been emptied at the man as he lay sleeping or helpless from the effects of liquor.

THOUGHT REALTY MAN WAS BANKER

Regina Policeman in Trouble Over Sale to Foreigner of Subdivision Lots

(By Daily News Leased Wire.)

REGINA, Aug. 22.—Police Constable Cook this afternoon pleaded not guilty before the police commission to the charge of directing a Russian to the *real estate office of Walker & Stubbs*, where the stranger, thinking he was in a bank, was sold four lots in Factoria, a subdivision of Medicine Hat. A thorough investigation will be made by the police on Aug. 29. Walker claims the foreigner could speak English and knew what he was doing.

FEARS OF FROST PROVE GROUNDLESS

Average Temperature Raises—Ontario Farmers Fail in Attempt to Prevent Hands Coming West.

(By Daily News Leased Wire.)

WINNIPEG, Aug. 22.—*There was no* indication of the feared frost in the temperatures recorded at principal points throughout the Canadian prairie west at midnight, the average being higher than last night's recordings. While high temperatures were recorded at Winnipeg in the east and Edmonton and Calgary in the west there was a somewhat lower average in the district between Brandon and Moose Jaw.

Harvesting General.

(By Daily News Leased Wire.)

PRINCE ALBERT, Sask., Aug. 22.—Harvesting is now practically general in this district and a considerable area of the crop is now in stook. Following rains and cloudy weather in the early part of the week the weather his now cleared up and there has been sunshine and light winds during the *past three days.* Most of the wheat and barley crop is ripe and it is admitted by farmers generally that it is the heaviest seen here for many years.

Refuse Permanent Jobs for West.

(By Daily News Leased Wire.)

TORONTO, Aug. 22.—Ontario farmers are competing with the "golden west" for harvest hands. Among the crowds of sturdy young manhood which thronged the union station today, waiting for the making up of the prairie bound special, enterprising Ontario farmers threaded their way. They were "picking them out" and several likely young fellows were confronted with alternative offers to stay in this province and take permanent jobs on Ontario farms. Comparatively few of the "stay-at-home" solicitors were successful, however. Practically all the excursionists had purchased their tickets and were lending eager ears to the lure of the great wheat fields of the west.

This is the vessel's first trip for months, owing to extensive repairs. There is, in fact, a remarkable exodus for Canada this week end. The Empress of Britain carried in addition to Right Hon. H. S. SEVERE ELECTRICAL STORM SWEEPS OVER VANCOUVER

(By Daily News Leased Wire.)

VANCOUVER, B. C., Aug. 22.—Vancouver and district were tonight visited by one of the severest electrical storms for years. For several hours vivid flashes of lightning were seen, but there was an entire absence of thunder. No damage is so far reported.

HUERTA CABINET IS NEAR CRISIS

Funds Give Out--Federal Army Becomes Mutinous

REBEL FORCES MAKE HEADWAY

Government Supports Army in Campaign of Destruction.

(By Daily News Leased Wire.)

WASHINGTON, Aug. 22. — The Huerta administration in Mexico may reconsider its rejection of the American proposals to restore peace in Mexico and arrange a new basis for negotiations with the United States before next Tuesday. Strong intimations to this effect reached official Washington tonight, along with the information that the financial condition of the Huerta administration was such that a crisis was imminent. Should the Huerta government decide to enter into the new basis of discussion withdrawing its contentions as expressed in the Huerta note replying to the proposals communicated by Mr. Lind, President Wilson, in all probability, will not read his message to congress on Tuesday, as he intended. The president made no effort today to prevent the senate from adjourning until Tuesday. It had been supposed that he would read the message on Monday and would ask the leaders in congress to arrange a joint session. Failure to send any word to the leaders was interpreted as meaning that the United States had practically given the Huerta government until Tuesday to make up its mind finally as to what it would do.

It is positively said that the United States will continue to insist upon the resignation of Huerta, or an announcement of his intention to do so, as well as his elimination from the presidential race in the subsequent election.

Army Mutinous—No Pay.

European diplomatic pressure, it is known here, is quietly at work in Mexico City in an effort to convince Huerta officials that the policy of the United States is being approved abroad.

The failure of the Huerta government to obtain funds in Europe through the non-recognition of the United States is pointed out by the diplomats as likely to continue pending a more respectful consideration of the American proposals.

It is learned from authoritative sources that the Huerta government is facing a mutinous army, dissatisfied because no pay has been forthcoming for weeks.

Government Censors Battle News.

(By Daily News Leased Wire.)

MEXICO CITY, Aug. 22.—Nine fights between the federals and constitutionalists are reported to have taken place during the past 24 hours. All are recorded as federal victories.

According to the official reports the military situation throughout the republic is greatly improved. The rebels are said to be generally disheartened and on the defensive in all quarters. These reports are practically the only source of information on which news for local consumption is based. The other side of the story rarely reaches the capital, because of interruption and censorship of the despatches at points outside the capital. In three of the fights reported 175 rebels are said to have been killed, while the *federals lost eight.*

Federal Forces Hemmed In.

The situation about Torreon is now admitted to be slightly worse. It is understood that the rebels control much of the country in that section and that 1,000 more are marching southward from Cuarataro Cienegas, Coahuila, to reinforce those already there. Eastward from Cuarataro Cienegas Gen. Pinas' headquarters at Monclove has reported a portion of his men to be cut off by the rebels and in need of help. Gen. Joaquin Maas, who is marching northward from Monclove to Ciudad Porfirio Diaz, has been instructed to delay his movements in order to co-operate with Gen. Pinas. The government expresses confidence that Penas and Maas will be able to check the southward movement of the rebels.

Great improvement in the situation in the state of Chihuahua is reported by the government. Admissions are made, however, that the rebels are gaining headway in Sinaloa, south of Sonora. The government insists that this headway is not important. One of the recent exploits of the rebels in Sinaloa was the destruction by dynamite of a Southern Pacific railway bridge, 625 feet long.

Destroy Rebel Towns.

Increased activity has been displayed lately in the state of Morelos, where the federal general, Juvenicio Robles, has been given a free hand to destroy the followers of Zapata. The newspapers today quote official reports from Morelos saying that the state is free from rebels at last. The government is displaying keen satisfaction over its energetic campaign of extermination. Scores of small towns have been destroyed, hundreds of families dispossessed and a large number of young men shot. Since the fol-

Crop of Peaches Is Good—Chicken Fanciers Raise Wheat for Feed —Hay Plentiful.

(Special to The Daily News.)

WANETA, B. C., Aug. 22.—Wheat grown by several ranchers for feeding chickens is ripening fast and will be a good crop.

There is promise of a fine crop of grapes this year and peaches will shortly be ripe for gathering. Ripe apples have already been gathered and are of good quality.

So heavy has the hay crop been this season that several ranchers are still busy cutting.

Mr. and Mrs. Drake and family, from Columbia Gardens, were visitors to the valley on Tuesday.

Mrs. Fred Adie and Miss Kingwell have returned from their trip to the Adie ranch on the Salmon river, where they had been spending some days gathering berries.

Mr. and Mrs. W. Cooper are visiting Nelson.

William Reith has left the valley for the south.

Several bears have been seen here again lately. They are feeding on the plentiful crops of wild berries.

ELKO NOTES

By Fred Roe.

ELKO, Aug. 22.—Eddie Dingman left Nelson on the last two boats for Elko. Teas and coffee as black as your hat and strong as sin.

James Cameron of Calgary was in Elko and immediate vicinity looking for tie timber, but couldn't see any for trees.

Mrs. McAllister of Kalispell and Mrs. W. H. Bernard of Minneapolis are visiting friends in Elko this week.

The following social event that took place recently near here will show that we are right up to date with New York's "400." In the typical picturesque village of Squaw Town, Siwash flats, four miles northwest from Roosville, Tobacco Plains, B. C., the marriage was on Sunday solemnized of young Chief Standing Bull, eldest son of Bobtail Wolf and grandson of the famous old War Eagle Chief Always-in-Trouble, with Miss Amelia Son-of-a-Gun, Godmother to the big Bull Elk. The weather was delightful and the village looked its best. As the bride left her tepee on the arm of her father the sun shone brightly and they were respectfully greeted by the rest of the siwashes that lined the route. The bridegroom stood by the sanctuary as the dashing bride walked with her father up the aisle. The service, which was fully choral, was conducted by old Father Smile-on-his-Face. The hymns were: "She's the Nicest Baby in the Bunch" and "You Told Me You Had Money in Your Buckskin Shirt," and the parties left the church to the music of "We'll Drive the Yankee Cattle From the Plains" (march). The floral decorations were exquisite and the occasion made the happiest possible. There were three arches with cauliflower, ferns and string beans. A large bridal bell covered with white clover and timothy, a background banked with huge sagebrush and thistles. The altar was covered with ladies' slippers and old shoe blossoms and was banked on either side with pie plant. These were the leading fetures of the decorations in the church. The bewitching and charming bridesmaids stepped out from behind the rhubarb, did a brief war dance and walked down the aisle to meet the bride, who is said to have had the most beautiful and costly trosseau that has been seen since cats were created. The bride was charming in a handsome gown of gunnysack silk, and she carried a bouquet of early radishes. After the ceremony the guests were entertained at dinner in the spacious tepee of the bride's uncle, Old Eagle Feather, which was decorated inside and out, and Miss Millie-No-Eat-Dog received the guests and dished the mulligan out of a big 50 shilling pot.

CORNSTALKS MEET THE ALL-AMERICAN TEAM

(By Daily News Leased Wire.)

TORONTO, Aug. 22.—Only an hour and a half's cricket was possible in the match between the all-American and the Australian cricket teams at Rosedale today, the heavy rain of the morning rendering the wickets unplayable until after 4 o'clock. The Cornstalks, however, made good use of their time and piled up 83 runs for the loss of two batsmen. Macartney was again the star performer and during his stay at the wicket there was not a dull moment. He compiled 45 runs and when the rain suspended play for the day he was still undefeated. Features of the game were the splendid wicket keeping of Stewart and the wonderful fielding of Morris at overpoint. Both are Philadelphians.

A. E. HANNINGTON DROWNS

(By Daily News Leased Wire.)

WINNIPEG Aug. 22.—A. E. Hannington, a surveyor, was drowned today in the Winnipeg river not far from the Winnipeg power plant at Lac du Bonnet. Hannington was out with a Dominion government party and, in some manner not yet known, fell into the rapid waters of the Pinnawa channel from a canoe. The drowned man is the only son of Rev. Canon Hannington, rector of St. Bartholomews, New Edinburgh, Ottawa, and a brother-in-law of Lawrence Burpee. His father is well known, being the secretary of the Anglican synod, and former chaplain to Lord Methuen. Six sisters survive.

Of course you can judge a cigar by its ash, Mr. Smoker! A connoisseur will tell you that. When a cigar holds its ash well, *like the B-NAT-CO*—and when that ash is clean and white—it's safe to say the cigar is a good one. Even if you *could get a good* ash in other than the best cigars, simply for the sake of more enjoyable smoking, a dependable ash would be something to find. A B-NAT-CO won't deposit its ash in your lap without warning—spot your clothing—and spoil your peace. You can count on it to hold almost 'till the last puff. Its good ash is a fitting supplement to the rich, full-flavored, Havana sweetness and the steady, slow, even-smoking qualities of the B-NAT-CO. What more can you ask of a cigar? *Here*, then are reasons enough why you should *at least try* a B-NAT-CO, Mr. Smoker. They're made in five popular shapes and sizes to fit the individual fancy: Earls, 3 for 50c.; Majestics, 2 for 25c.; Barons and B. Panetelas, 3 for 25c.; Knights, 4 for 25c. OIL FUEL FOR THE NAVY.

When Mr. Winston Churchill announced that oil will supplement coal in the case of large as well as small ships of war, he called attention to another of the long series of changes that have revolutionized ocean transportation, says the St. John Standard. The use of oil will bring with it not only increased speed, but a much larger radius of action and easier and faster replenishment. The admiralty has not come to this decision without full assurance that it is justified, for more than a hundred destroyers are built or under construction dependent entirely on oil fuel, and the experiment of building battle cruisers and a number of light cruisers burning oil fuel, Mr. Churchill affirmed, has proved successful.

The immediate policy of the admiralty, as announced by Mr. Churchill, is to make contracts for oil five years ahead, and one contract, for a substantial proportion of the quantity required, is being placed with the Mexican Eagle company, which is a British concern. This will be only an interim arrangement, enabling the government to have for a time the certainty of being able to buy a steady supply at a steady price. In Mr. Churchill's words, "the ultimate policy is that the admiralty should become the independent owner and producer of its own supplies of liquid fuel." It is to do this by building up an oil reserve sufficient to keep the navy supplied in time of war, and to be above price fluctuations in time of peace; by acquiring the power to deal in crude oil as it comes cheaply to market, afterwards distilling it as needed; and by becoming the owner or controller at the source, of a proportion of the natural oil that will be required.

The use of oil as fuel will effectively meet the increasing difficulty of securing stokers in sufficient numbers to feed the boilers of the great modern battleships, and thus will make possible a considerable reduction in a ship's complement. Larger and healthier living quarters can be provided for the men, because of the lesser space required for the storage of oil fuel, and the hard and dirty work of coaling ships will become a thing of the past. But of greater consequence than any of these are the strategical advantages which the use of oil will offer—greater speed and secrecy of movement.

Coal will not be entirely abandoned because, as Mr. Churchill explained, it is only required in ships when an exceptional speed has to be reached. Whatever may ultimately happen, coal will continue to be the main basis of British sea power in battleships at present. But the stake in oil ships is already so important that Great Britain must have the certainty of a steady supply of oil at a steady price. The admiralty recognizes that it must become the independent owner and producer of its supplies. In the United Kingdom are great potentialities, since the Scottish shale deposits alone, if developed, can supply a large quantity of oil for many years. There are also many other sources of supply available in various parts of the world besides Mexico. The problem, Mr. Churchill stated, is not one of quantity, but price.

What the Press Is Saying

Nothing Wrong With Regina.

To the citizens of Regina the howls about hard times and business depression is amusing. In this city business was never better; building up to the present is greater than during the same period last year; bank clearings are exceeding all previous records; retailers point with pride to the expansion of their business, and, generally speaking, conditions are sane and yet buoyant. If conditions are as bad as painted in the homes of the calamity howlers, they should come to Regina, see the progress and prosperity, and return home and adopt the policy of sane expansion which has made this the best city on the prairie.—Regina Province.

Canadian Municipal Credit.

A London financial house is prepared to furnish the city of Edmonton with $1,000,000 a month. This ought to help to silence all the Horne-Paynes calamity howlers who have striven so hard to give the credit of Canadian municipalities, particularly of those in the west, a black eye.—Montreal Herald.

Unauthorized Unions.

Unless the official bodies of the Presbyterian and Methodist churches hurry up there will be nothing to unite by the time the official nuptials are arranged. The colleges and many individual churches are coupling up and eloping.—Winnipeg Tribune.

This Day in Canadian History

In the spring of 1711, 5,000 regular soldiers, besides sailors and marines, left England for America on 15 men-of-war and 46 transports, to attack Quebec. The English colonists were to give them help, and it was intended that at the same time an army should march on Montreal. The command of the fleet was given to Sir Hovenden Walker, and that of the land forces to "Jack" Hill, the brother of a favorite of Queen Anne; and both of these proved singularly incompetent. After spending a month at Boston to complete preparations and take in additional men and supplies, the expedition set sail for Quebec, but hardly entered the St. Lawrence when, on a foggy night, the unskilful admiral—many miles out of his course—headed straight for the north shore of the river. Unsuspicious of danger, he was in his berth, but was roused from his slumbers to find his vessel amongst the breakers. It was turned just in time, and eight ships following his lead were dashed on the rocks of Egg islands, and about 1,000 lives were lost. The disaster occurred very early in August 23, and two days later at a council of war it was decided to abandon the enterprise.

The Weather

TORONTO, Aug. 22.—Since last night rain has been general and heavy in Ontario, attended by a number of thunder storms. The rain now promises to spread over Quebec and the maritime provinces. In the west the weather has been fine and warm.

RIFLE MEET WILL BE DRY NEXT YEAR

There Will Not Be Any Wet Stuff on Grounds at Dominion Rifle Association Shoot.

(By Daily News Leased Wire.)

OTTAWA, Aug. 22.—The question has been asked frequently of late whether the order of Col. Sam Hughes, minister of militia, forbidding canteens in the military camps of the country would apply at the Dominion Rifle association meet, where several hundred militiamen will be gathered. In the past there has been no law against hard beverages and after Col. Hughes' active campaign this year many wondered if his attitude toward drink would have any effect on the Dominion Rifle association.

However, it is pointed out that the Dominion of Canada Rifle association is an organization having no connection with the department of militia. Although Col. Hughes is an honorary officer his position is about similar to what it would be if he were chosen as an honorary officer of any other athletic organization. Any person is eligible to shoot at the Dominion Rifle association meet in nearly all of the matches. No uniforms or connection with any military body is required.

Next year, however, there will be no "wet stuff" at the big shoot. The reason is that the matches will be held at the new government rifle ranges, which are now under construction in March township. March, it is pointed out, is a dry municipality, and it will be against the law to bring in intoxicants notwithstanding the ranges are government property. This will be the first time the Dominion Rifle association meet has been dry.

PROCTOR RIFLEMEN TO SHOOT AT CRAWFORD BAY

(Special to The Daily News.)

PROCTOR, Aug. 22.—On Sunday the Outlet Sports Club Rifle association will take a party of shooters to Crawford Bay for a practice shoot on the range there, which has been placed at its disposal by the Crawford Bay Rifle association. Any member wishing to join the party is asked to communicate with F. J. Sammons at his store, or with the secretary of the association, R. Holmes a Court. A launch will leave Proctor wharf at 8 o'clock in the morning.

About 300 officers of the army from Brandon, Regina, Saskatoon, Prince Albert, Moose Jaw, Edmonton, Calgary, Medicine Hat and other prairie cities, as well as from Vancouver and Victoria, will journey to Winnipeg to meet the new chief and attend the week's conference.

How About Your Housework?

Noted doctors have said that housework is the best form of physical exercise for women—for it not only DEVELOPS but BEAUTIFIES.

The healthy woman ENJOYS her housework—she takes pleasure in keeping things spick and span—and it costs her practically no effort to do so—because she is HEALTHY.

Are you healthy? Do you find your housework pleasant and invigorating? Or do you dread it because you don't feel "just right"? That "don't feel just right" sensation may NOT be worth seeing a doctor about—but it is a pretty certain indication that you are suffering from Indigestion, Constipation, Biliousness or Dyspepsia.

Next time you don't feel "just right" just try 15 drops of Mother Seigel's Curative Syrup. You'll get relief—quickly.

England has TESTED and PROVEN, for over 40 years, its worth. There it is recognized as a standard remedy. It is almost purely herbal—Nature's own remedy for disordered stomach.

THAW SANE SAYS JAIL PHYSICIAN

(Continued from Page One.)

ney-general of New York. "We have arranged to expediate extradition in either Vermont or New Hampshire. We will get him sure. It does not matter where they send him so long as it is across the border. *Once in the* United States the road to Matteawan is practically clear. We have been in negotiation with officials in every state to which there is a probability of his being sent."

Thaw to Become Naturalized?

(By Daily News Leased Wire.)

SHERBROOKE, Que., Aug. 22.—Thaw has been *advised by certain of* his counsel, it was learned today, to buy property in Canada and take steps to become naturalized as a British subject. This, it was held, would *prevent* his deportation.

May Land Him in New York

(By Daily News Leased Wire.)

OTTAWA, Aug. 22.—A change in the status of the Thaw case developed today when it was intimated by an official of the immigration department that there was a possibility that the fugitive may be handed over to the New York state authorities by the Dominion immigration officials and taken to the asylum should Thaw win out in the extradition proceedings, which will come up before Judge Globensky next Thursday. If he does *not win then the New York state* authorities will, of course, lose no time in starting the machinery of the law that will, through extradition, land Thaw back in the asylum at Matteawan without any delay.

E. Black Robertson assistant superintendent of immigration, has gone done to Sherbrooke to get posted in the case at first hand. W. D. Scott, chief superintendent of immigration, will be back from his vacation tomorrow and will likely take hold of the proceedings at once.

Jerome Named to Fight Thaw

(By Daily News Leased Wire.)

ALBANY, Aug. 22.—William Travers Jerome, former district attorney of New York county, was appointed by Attorney-General Carmody today a *special deputy attorney-general, specially* to represent the state in the return of Harry K. Thaw to New York's jurisdiction. He was selected because of his entire familiarity with the Thaw case, gained in the two murder trials and as special counsel in cases when Thaw tried to establish his sanity. It is not the present intention to send Mr. Jerome to Canada, where Deputy Attorney General Kennedy is directing the state's case, but to employ his services in procuring the extradition of Thaw from any state to which he may be deported from Canada.

Attorney-General Carmody said tonight he had reason to believe that Vermont would be the state to which the fugitive would be returned and that the date would be next Wednesday.

Arranges for Thaw Arrest.

(By Daily News Leased Wire.)

ALBANY, N. Y., Aug. 22.—Acting Governor Glynn today requested Governor Fletcher of Vermont to have Harry K. Thaw apprehended to await requisition in case the Canadian authorities deported Thaw to that state.

No Discrimination Against Thaw

(By Daily News Leased Wire.)

OTTAWA, Aug. 22.—Instructions have been sent to the immigration officers at Sherbrooke to the effect that when Thaw comes into their hands *there must be no discrimination* against him. There is reason to believe that this means he will not be sent to New York state, but on rejection will be returned by the Vermont route as would an ordinary person coming in by the way Thaw did and subsequently denied domicile in Canada.

GOVERNMENT CANNOT HOLD BIG RACE MEET

(By Daily News Leased Wire.)

NEW YORK, Aug. 22.—There will be no grand circuit meeting at Yonkers. The text of the bankruptcy laws has has been interpreted and will prevent the government from conducting its horse racing enterprise which was scheduled for the Empire City track next week. The court had injoined all creditors from attaching the receipts or interefering with the meeting in any way.

QUEBEC PROVINCE HAS HALF MILLION SURPLUS

(By Daily News Leased Wire.)

QUEBEC, Aug. 22.—The statement *of the receipts and expenditures of the* province of Quebec for the fiscal year ending June 30, 1913, shows that the Gouin administration has a surplus of $429,892.85, receipts being $8,383,877.84 and expenditures $7,953,984.99. An important item in the receipts is the Dominion subsidy of $2,025,705. The next productive source of revenue is the province owned forests, $1,760,466, and the duties on commercial successions, which amount to more than $1,000,000. It is said that there are still one or two large sums to come from estates.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during hot weather than at any other time of the year. Diarrhoea, dysentry, cholera infantum and stomach disorders *come without warning, and when a* medicine is not at hand to give promptly the short delay too frequently means that the child has passed beyond aid. Baby's Own Tablets should always be kept in the home where there are young children. An occasional dose of the Tablets will present stomach and bowel troubles, or if the trouble comes suddenly the prompt use of the Tablets will cure the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Moose Jaw

Real Estate never goes back, it can't. It moves one way only—upward. The tremendous pressure of new population creates new and higher levels of value. To buy and to hold is to amass wealth.

Moose Jaw's increase in population:

1901	1,558
1906	6,250
1911	20,623
1912	25,500
1913	35,000

Estimated by compilers of directory.

The Greatest Growth Is Now North-East

The best residences built last season were erected in the northeast part of Moose Jaw; $100,000 School Building now 4 blocks from Hillhurst; $250,000 Armory building now seven blocks from Hillhurst.

Hillhurst

lies on the crest of the north hill just east of Main Street, commands a beautiful view of the City. Will you come with us now? Will you make money without effort or risk by simply waiting for the onward march of the City. We own hundreds of lots. By selling some for $200 we can hold others until they sell for $500 or even $1,000 apiece. We offer Moose Jaw City lots in Hillhurst, 1½ miles from Post Office, for $200.00 per lot, $25.00 cash, $10.00 per month. Every lot sold on guarantee included in contract. We guarantee Hillhurst lots to be high, dry and good building lots or all money refunded with 8 per cent interest.

Better Buy Today

Announcements will be made shortly re C.N.R. and G.T.P. railways that will make real estate values soar in the northeast part of Moose Jaw, the sections where our properties lie.

Secure a lot now—the chance won't last long. Get the best choice by sending us $25, the first payment on one lot, with the distinct understanding that if you are not satisfied with our selection we will at once refund your money. But write anyway, asking us to send you booklet. It's free.

Land Values Are 30 per Cent. Below That of Other Cities

There are unlimited opportunities for the careful investor in Real Estate. From 1913 Board of Trade Booklet.

Money Back If Not Satisfied

Visit Moose Jaw at any time within a year after your purchase. Visit our property. If you find it has been misrepresented in any way go to our cashier's desk and get back every dollar you have paid. We would prefer to have you a good friend and not a customer, rather than a customer and not a good friend. But a decision is required at the time of the examination of the property and the offer extends only to those who visit Moose Jaw within the year. We give you twelve months to examine your property and get your money back if not satisfied.

NEW YORK DISINCLINED FOR MUCH SPECULATION

(By Daily News Leased Wire.)

NEW YORK, Aug. 22.—A slow recession which carried down a dozen or more stocks from 1@2 points today was succeeded by an equally slow recovery and at the end of the session the leading shares were close to yesterday's close. The day passed without important news concerning the affairs upon which most emphasis is placed and there was, consequently, a general disinclination to do much in the way of speculation. Selling on the decline was concentrated on Steel, Union Pacific and Reading and the heaviness of these shares affected the remainder of the market. There was no signs of weakness, however, and with the appearance of scale buying orders on recessions shorts grew uneasy. It was due principally to the short covering that the market recovered its loss. Rain in sections of the corn and cotton belts helped to bring about the recovery.

Affairs in Mexico upon which chief emphasis is placed just now, increased the influences at work on the market. Reports of a record breaking foreign trade for July and the last year passed almost unheeded.

Prices of bonds were shaded slightly. Total sales, par value, $1,150,000. United States bonds were unchanged on call.

SPECIALTIES WEAK.

(By Daily News Leased Wire.)

MONTREAL, Aug. 22.—Further weakness in a certain group of the specialties was again a disturbing feature of the Montreal market today. Weakness centred in Macdonald which broke 10 points to a new low of 26, and Spanish River which broke to 15, also a new low record. Liquidation, mixed probably with a certain amount of short selling, was sufficient to cause the 10-point break in Macdonald in the morning. Spanish likewise slumped on a light volume of trading. In the late morning both stocks began to score a moderate recovery, which was continued in more pronounced form in the afternoon. Macdonald rallied to 24¾ and closed there with the net loss reduced to 4⅝ points. Spanish regained 1⅝ of the early decline.

GRAIN

WHEAT DECLINES.

(By Daily News Leased Wire.)

WINNIPEG, Aug. 22.—With temperatures holding much higher than predicted over the Canadian west and forecasts more favorable, good reports from Saskatchewan by Lecount, and corn markets easier, wheat declined on the local exchange and American markets. Minneapolis opened ¼@⅝c lower and closed ⅛@⅝c lower. Minneapolis opened ¼@¼c lower and closed ¼c lower for all months. Liverpool closed unchanged, Paris unchanged to 1c lower; Berlin ⅝c lower, Budapest ¼c higher and Antwerp ⅝c higher. The cash demand for wheat was practically nil, while there was a fair demand for cash oats and barley. Cash wheat closed unchanged to ½c higher. Cash oats closed ¼c higher and cash flax closed 1¼c lower for all grades.

Inspections on Thursday were 86 cars as against 83 last year.

Winnipeg, wheat, close—October, 90¼c; December, 88¼c; May, 93½c.

Minneapolis, wheat, close—September, 87⅛c; December, 90⅝c; May, 95⅜c.

PRODUCE

BUTTER STILL QUIET.

(By Daily News Leased Wire.)

MONTREAL, Aug. 22.—The trade in butter continues quiet but there is a good demand for cheese and especially for colored goods, which are scarce and firmer. The demand for eggs and provisions is good.

Cheese, finest westerns, 13⅛@13⅜; finest easterns, 12¾@13c.

Butter, choicest creamery, 23¾@24; seconds, 23¼@23½c.

MONEY EASIER IN LONDON.

(By Daily News Leased Wire.)

LONDON, Aug. 22.—Money and discount rates were easier today. The nearness of the settlement and the holiday tomorrow restricted business on the exchange and the tendency was undecided. Mexican securities declined on the latest reports from Mexico. Marconi shares sagged and Paris offered its shares.

American securities opened quiet and moved irregular within narrow limits during the forenoon. Later the market declined on realizing and in sympathy with the weakness in Mexican shares. The close was steady.

MONEY STRINGENCY WORLDWIDE

(By Daily News Leased Wire.)

WINNIPEG, Aug. 22.—The financial situation in western Canada has never been any more acute than has been the case in the old countries of the world, according to the opinion expressed this morning by H. C. Meredith, vice-president and general manager of the Bank of Montreal. Mr. Meredith is making a tour of inspection of western Canada and is accompanied by Mrs. Meredith, J. B. Allan K.C., and L. Meredith of London, Ont. "There has been no greater stringency here," he said, "than there has been in Berlin, Vienna and London. It is a worldwide condition. At all times there have been spells when money has been tight and there is no particular significance in this one."

Mr. Meredith is highly gratified to hear reports from all sides that the crop conditions are so favorable in western Canada.

"It is most gratifying and will be of immense value to the country," he said.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

HUERTA CABINET IS NEAR CRISIS

(continued from page one.)

lowers of Zapata invaded the federal district Gen. Robles has destroyed seven towns within a few miles of the capital, including Ajurco, which was almost within sight of the city. In these destroyed towns only churches were left standing and they were abandoned by the priests, whose congregations have disappeared. Three more towns near the capital were ordered destroyed today. In the capital's suburbs there are arriving daily hundreds of dispossessed refugees from destroyed towns, who carry on their backs their personal effects.

Zapatistas Torture Victims.

The followers of Zapata are more active than ever in their campaign of destruction and personal outrages. They are raiding numerous villages and ranches and subjecting their victims to torture in the states of Mexico and Hidalgo, west and north of the capital. The government papers describe these outrages as "the last struggle of a wounded beast." For some days the badly informed public believed that Pachuca, capital of Hidalgo, was in danger of attack, but they have been reassured by the government, which announced today that it was sending 500 reinforcements thither.

Around Pachuca are a number of mines. Americans and Englishmen are prepared to defend them.

There has been some improvement recently in railway communication. The area in which actual traffic is still restricted is limited to the centre of the republic.

Soldiers Murder Madero Deputy.

(By Daily News Leased Wire.)

CITY OF MEXICO, Aug. 22.—Deputy Bordes Mangel was shot to death tonight by federal soldiers near Atzcapotzalco, a suburb of the capital. Mangel was a friend of the late President Madero and recently was subjected to an investigation on a charge of sedition. The explanation of the shooting, as given by the local newspapers, is that a detachment of soldiers came upon Mangel and that Mangel, single handed, attacked the soldiers with stones. The soldiers, the newspapers say, found it necessary to fire in self-defence and Mangel was killed. It is added that Mangel must have been insane.

Says Wilson Aiding Financiers

(By Daily News Leased Wire.)

LONDON, Aug. 22.—The Saturday Review, in a leading article today, savagely attacks President Wilson's Mexican policy. It says President Wilson "unconsciously is playing the game of those in the United States who want control of Mexican politics in order to fill their own pockets."

Concluding, the article says: "If he wishes to plunge his own country into a war that would last for years, drive Mexico back into anarchy and play the game of his own political enemies, he will continue his present policy and try to break down the Huerta regime. On the other hand is the alternative of accepting the trifling reverse politically. Recognizing facts he will have to adopt one policy or the other. Neither may be pleasant, but there can be no doubt which one is recommended by humanity and common sense."

SAYS BANK BILL AIMED AT TRUSTS

W. J. Bryan Aids Democratic Majority in Fight to Force Measure Through Congress.

(By Daily News Leased Wire.)

WASHINGTON, Aug. 22.—Supporters of the administration currency bill scored an important victory in the house Democratic caucus today when they brought to their aid an unqualified endorsement of the measure from Secretary Bryan and defeated proposed insurgent amendments that would have prohibited interlocking directorates in national or state banks incorporated under the proposed law. Secretary Bryan in a letter addressed to Chairman Glass, of the currency committee, approved the bill as it stands, declaring President Wilson had recognized fundamental rights of popular control in its provisions. He asserted that the plank of the Democratic platform against interlocking directorates was aimed chiefly at trusts and he urged Democrats to stand by the president and not to load down the currency bill with any amendment that might endanger its early passage.

BARTENDERS TO ENJOY PICNIC

Annual Outing Will Be Held at Luna Park Tomorrow—Good Program of Sports

Tomorrow the annual picnic of the Bartenders' and Brewery Workers' Unions, which was postponed from Sunday last on account of the inclement weather, will be held at Luna park.

The bartenders' picnic usually proves one of the most successful of its kind of the summer season, and it is expected that the picnic this year will be no exception to the rule.

Many are expected to go over to Luna park to enjoy the long program of sports that has been arranged, the feature of which is the baseball game between the bartenders and brewery-workers team and a team picked from the other teams of the city.

Launches will run over to the park at intervals throughout the day, and tickets will be obtainable at the Nelson Boat & Launch company's wharf. Tickets purchased for last Sunday will be good tomorrow.

The committee in charge wish it to be understood that a portion of the ticket must be retained and presented upon demand on the grounds at Luna park.

A delightful flannel dance was given last evening by the members of the Kootenay Launch club in the dancing pavilion of the club house on the waterfront.

IMPRESSED WITH FLOWER SHOW

J. W. Holmes Delighted With Display at Rossland—Looks for Much Friendly Competition

Greatly pleased and very surprised at the excellent exhibits of small fruits, vegetables and flowers displayed at the first annual Rossland flower show was J. W. Holmes, president of the Nelson Rose festival, who visited Rossland to attend the flower show on Wednesday last.

Mr. Holmes was greatly surprised at the display which was almost entirely grown in the high altitude around Rossland, some of the exhibitions of small fruits and vegetables being really marvellous. He consulted with the officers of the Rossland show, giving to them the results of his experience with the first Nelson display, and receiving from them many suggestions which he hopes will be of value to the next local rose festival.

Mr. Holmes feels that with a flower show now organized in the Golden City some friendly competition in displays are sure to came about, and he is positive that it will prove added stimulus to the floral devotees of both cities and the entire district.

There is nothing to prevent these two cities, he believes, from fostering such splendid displays and encouraging such beautiful gardens among Kootenay homes that will make for this section of the province a widespread reputation in respect to its floriculture.

As well as the permanent exhibit of the board of trade several specimens were loaned by E. Peters. The mineral display was tastefully set off by floral decorations including a beautiful collection of sweetpeas.

AT THE THEATRES

Billy Clifford, the comedian, is headed this way. He is blazing a trail of laughter across the continent and in so doing has been wonderfully successful. He will be seen in his merry laugh-creating vehicle, "Believe Me" at the Opera house tonight. This clever play is a musical satire in which the central figure is a rollicking young Englishman. Naturally he gets himself into all manner of scrapes and his actions during this time furnish many a hearty laugh. Mr. Clifford plays the role of the gay young man, and he not only affords much fun, but he also sings many good songs which are really new.

The Gem theatre management wish to thank the patrons of the Gem theatre for their patronage during the diamond ring competition, and announces that it is putting on another competition, starting on Monday.

Arrangements were completed yesterday between George Horstead, manager of the Nelson Opera house, and the Canadian Provincial Theatres, Limited, whereby Nelson is to be included in the all-Canadian vaudeville circuit. This fact means that commencing in November next Nelson theatre-goers will have a chance of seeing first class vaudeville three nights of every week, and acts will be presented that will compare favorably with anything seen in the big circuits, says Mr. Horstead. The shows will be staged on Thursday, Friday and Saturday of each week.

CHINESE THREATEN TO BOMBARD GERMAN CONSULATE

(By Daily News Leased Wire.)

BERLIN, Aug. 22.—Advices received by the German foreign office today from Nanking, China, indicate that trouble is pending between the German naval officers and the southern revolutionists, who threaten to bombard the German consulate and the German cruiser Emden. The insurgent leader sent a letter to the German consul at Nanking declaring that the Emden had bombarded the rebel positions on Lion hill and announced his intention of retaliating on the cruiser. The consul denied the allegation. In the meantime the German armored cruiser Scharnhorn has been sent to Nanking.
