BUSH BECOMES ATHLETIC HERO HOLDS NEW YORK HELPLESS

Third Game Easy Victory for Philadelphians

"BIG JEFF" TESREAU DRIVEN FROM MOUND

Even Greater Crowd Than on Tuesday See Giants Defeated.

(By Daily News Leased Wire.)

NEW YORK, Oct. 9.—A new star blazed forth in the world's series baseball firmament today when Leslie Bush pitched the Philadelphia Athletics to victory over the New York Giants in the third game of the championship struggle by a score of 8 to 2. Bush was materially aided in his rush to a pedestal in the baseball hall of fame by the savage batting of his team mates, but the major portion of the glory was accorded by both fans and players to the youngster who startled the diamond veterans with his speed and control in his debut in a world series.

While his pitching was not as spectacular as that of the veterans Mathewson and Plank yesterday, his box work was of the calibre that entitles him to a niche alongside Hugh Bedient of the Boston Red Sox and Adams of the Pittsburg club, who performed similar feats of twirling valor in past world's series.

So effective was Bush's pitching that the Giants secured but five hits, and three of these were of the scratch order. But three of the 27 putouts credited to the Athletics were made outside the infield, and there were innings in a stretch when the Giants never drove the ball out of the diamond.

Victory One-Sided.

Bush made his leap into the limelight under the most favorable circumstances, for his hard-hitting teammates tore into Tesreau with a fusillade of hits in the first two innings that netted five runs and relieved the youngster of the strain of pitching with the margin of safety narrow or entirely missing. This was particularly true of the first four Athletics on Connie Mack's batting list. Murphy, Oldring, Collins and Baker between them made nine of the 12 hits recorded for the Philadelphia club, and these nine hits scored seven of the eight runs that made the victory so one-sided. The marked contrast to this vigorous assault on the offerings of Tesreau and Crandall was the five hits, scattered through nine innings, that marked the Giants' efforts with the bat. Not a single National league representative secured two hits, and Shafer's double was the only double good for more than one base. The Athletics' latest twirling star, who will not be 20 years of age until November 27, did not pitch phenomenal ball, but his delivery had entirely too much speed and break for the Giants to grow familiar with in the first appearance of the Brainard, Minn., lad. Bush was just wild enough to keep the New York batters guessing and his quick change of pace and delivery was an added handicap to the Giants when at the plate. He walked four batters and hit a fifth, but each time he faltered his nerve and brilliant fielding of his team-mates soon lifted him back to safety.

Bullet Joe's Record.

The victory of Bush, who hails from the same town as "Chief" Bender, was exceedingly popular with the Athletic players and the club adherents. It has been known for some time that he had great possibilities as a pitcher, but until he stood today's test his status was simply that of any big league player. "Bullet Joe," as he has become nicknamed because of his great speed, broke into baseball as a member of an amateur team in his own home. During the season of 1910 he played in every position except catcher. His first professional engagement was with the Missoula, Mont., team of the Union association. Here he was spotted by one of the Athletics scouts and joined the Mackmen in September a year ago. Tonight his admirers are predicting for him a future record like those achieved by Christy Mathewson, Walter Johnson and Cy Young.

Downfall of Tesreau.

Disappointment among the Giants' contingent over the downfall of Tesreau was as keen as the elation among the Athletic rooters because of Bush's splendid work. The Ozark Mammoth was looked upon before today's game as the Giants' second best pitcher. When Marquard and Crandall were knocked out of the box in Tuesday's game the loyal adherents pinned their faith to Mathewson and Tesreau. The old master did more than was expected of him yesterday, but Tesreau fell just as heavily before the Athletics' vicious batting as did the Giant twirlers in the opening game. He had his moist ball delivery breaking at all kinds of angles, but he could not control its direction. The Athletic batting quartette refused to hit except when the ball was over the plate and then they laid against it lustily. In this lay the secret of their success. So viverous did they clout the ball that the defeat would have become an utter rout but for sensational stops and throws by Doyle, Fletcher and Herzog at critical stages of the play. Capt. Larry Doyle played desperately and his stops and plays in the second and seventh innings were of the brand that has made Hans Wagner's name famous wherever baseball is played. Eddie Collins carried off the fielding honors for the Athletics, although there were plays made by other members of both teams that would have been considered little short of remarkable in an ordinary league game.

The fact that only one error was recorded for each team testifies to the calibre of the third game, including four double plays.

Setback for Giants.

The defeat of the Giants was a severe setback to the New York club sympathizers, for Matthewson's wonderful work of Wednesday had increased the belief that the National league standard bearers were to continue the pace set by the "old master." Today 36,888 paid to pass into the Polo grounds, exceeding by several hundred the attendance at the opening game. Every seat in the grand stand and bleachers was occupied and standees gathered at every point permitted by the fire and police regulations. The gate receipts totalled $75,763.50, and the club owners saw thousands of eager fans with real money in their hands turned away because there was not a foot of space inside the park that could be sold them. Scores of speculators did business brazenly along Fifth avenue, selling ticket at many times their face value to prospective spectators who were willing to pay any price in order to gain access to the scene of battle.

The lines of fans who ultimately filed into the unreserved sections of the stands formed hours before the game and stood patiently until the gates were opened and the slow crawl to the seats began. When the game started every available spot inside the arena was packed and many hundreds tried to get a birdseye view of the game from points overlooking the park, although they were in some cases several blocks away.

Players' Share Ends.

With tomorrow's game in Philadelphia the players' division of the receipts will cease, but neither they nor the club stockholders have cause for complaint, since to date 93,750 spectators have paid for the privilege of seeing the Athletics score 14 runs to the Giants' nine in three games. The players have $108,355.59 accruing to their account, the owners of each club $36,118.53, and the national commission $20,065.85.

The players share of today's receipts was $40,912.29, each club's share $13,637.43, and the national commission's share $7,576.35.

Play by Play.

Connie Mack had both Bush and Shawkey warming up for the game, but the way the former was shooting them in to Ira Thomas it was not hard to determine that Bush was the first choice of the Philadelphia manager. As the game started Mack sent Brown and Lapp to the far corner of the grounds to keep warmed up. The vast crowd gave big Jeff Tesreau an encouraging cheer as he went to the pitching box and threw up four balls to Catcher McLean.

Eddie Murphy, the first batter up fc the Athletics, watched Tesreau get his spit ball lubricated and then watched the first strike shoot across the plate. The Giants' rooters shouted when Umpire Rigler's right arm shot up, indicating the strike. Tesreau's second offering was a ball, and the third he sent down was driven right at Fletcher, who threw Murphy out by an eyelash at first.

The first ball sent down to Oldring was a strike, the next was a foul strike and the third a ball; the fourth was apparently a good one, for Oldring laced it to centre field for a clean single, to the great joy of the Philadelphia contingent.

The first one pitched up to Collins was also a strike. After taking another strike the Philadelphia second baseman hit to centre field and Oldring never stopped until he pulled up at third base. Then came Baker. Tesreau's first two pitches to him were strikes down near Baker's knees. The next ball just suited the home-run hitter and he smashed a hard single to left field scoring Oldring with the first run of the game. Collins went to second. Collins and Baker worked the double steal, McLean in his anxiety to make a throw dropped the ball at the plate. McInnis struck out, McLean missing the third strike and throwing him out at first. Then the game was practically won when Amos Strunk shot a grounder at Fletcher, who threw over Merkle's head to the grand stand, allowing both Collins and Baker to score. Strunk kept on to second. Barry ended the inning by sending a high fly to Fletcher.

Leslie Bush was also given a cheer when he ascended the hurling mound. Getting two strikes on Herzog, Bush pitched three balls and a New York fan yelled "Take him out." Both pitcher and batter being in a hole, Bush sent up a straight ball and Herzog was compelled to it and he went out at first, Barry to McInnis. Doyle rammed a sharp hit at Bush, who batted the ball down but could not field it in time to first catch Doyle, and he did not throw it. Fletcher was hit by a pitched ball, Doyle moving to second. Burns brought groans from the stands when he sent a sharp fly to Collins, who doubled up Doyle trying to get back to second, Barry making the putout.

Batting Rally.

Two were out in the American leaguers' second inning before they started another batting rally. Schang struck out and Bush sent a high fly to Murray. Murphy hit sharply to Fletch-

FAIR REPORTS DANGER IN QUEBEC

Armand Lavergne Gets Damages From La Patrie

MONTREAL HERALD CHARGES CONSPIRACY

Claims Hundred Thousand Damages For Plot to Handicap Business.

(By Daily News Leased Wire.)

MONTREAL, Oct. 9.—Newspapers in this province which publish fair reports of public meetings in the course of which utterances of a libellous nature are made, do so at their own risk and their own responsibility. Such is the decision of Mr. Justice Pannonton, in a judgment wherein his lordship today condemned La Patrie to pay Armand Levergne the sum of $250.

Mr. Lavergne sued on account of certain accusations made by Albert Sevigny, M.P., in the course of a speech in the Hochelaga by-election campaign a year ago. La Patrie reported the meeting, gave a faithful resume of Mr. Sevigny's speech and maintained in its plea that the utterances made at the meeting in question, being a matter of public interest, formed a fair subject for a newspaper article.

Mr. Sevigny himself admitted that the report published was a good summary of his speech, but where the newspaper erred, according to the justice, was in drafting the heading, wherein the accusation of Mr. Savigny was made a sort of positive assertion.

Charge of Conspiracy

(By Daily News Leased Wire.)

MONTREAL, Oct. 9.—A suit for $100,000 damages on account of an alleged conspiracy to destroy the Montreal Herald and ruin its business was entered in the superior court today by the Herald Company, Limited. The defendants are the Montreal Star Publishing Company, Limited, the Montreal Standard Publishing Company, Limited the International News Service (a New Jersey corporation controlled by William R. Hearst), Sir Hugh Graham, owner of the Standard and Star, and F. Crandall, managing editor of the Star.

Particulars of the allegations upon which the suit is based are given in full in the plaintiffs' declaration, alleging a protracted and widespread conspiracy on the part of the defendants and other persons unknown to prevent the Montreal Herald from having access to certain sources of supply from which daily newspapers secure their circulation building features.

It is also claimed the Canadian defendants formed a so-called syndicate and induced the New Jersey defendant to break its contract with the Toronto World and transfer its services to their syndicate. The Toronto World was thereby prevented from delivering to the Herald the features and services which it had contracted to deliver. The Toronto World yesterday secured an interim injunction restraining the New Jersey corporation from delivering its service to the Star syndicate until further hearing.

PRESIDENT WILL BLOW UP DYKE

Will Send From White House Spark That Will Discharge Dynamite at Panama

WASHINGTON, Oct. 9.—Pressing the key at the White House tomorrow at two o'clock, President Wilson will release an electric current that will travel overland and under sea to the Panama canal to explode a charge of dynamite and destroy Gamboa dyke. This dyke is the last obstruction to the opening of water communication between the two oceans, although the wreckage of the dyke and two earth slides, one at Cucaracha and another at Gold Hill, must be cut through before the canal actually can be opened.

A fleet of dredges will attack the slides as soon as they have cleared the wreckage of the dyke and although Col. Goethals, in his telegram to the canal commission today, made no prediction, it is believed it will be possible to have the lighter boats used by the canal diggers pass from ocean to ocean in a few weeks.

WERE GRAND JURORS— COMMITTED FOR TRIAL

SASKATOON, Sask., Oct. 9.—Herbert N. Garrett and Ernest A. Matthews, co-partners of the Capital Investment company, arrested while they were active as grand jurors last week, were committed this morning to stand trial at the next criminal assizes on the charge of obtaining money under false pretenses in connection with real estate deals, the sum of $600. The contract was made out to the clerk of the land titles office in this city. The committal was made by Magistrate Brown in the police court at the close of the preliminary hearing.

TOLMAN GETS JAIL SENTENCE FOR USURY

Notorious Money Lender Given Six Months in Jail by New York Court.

(By Daily News Leased Wire.)

NEW YORK, Oct. 9.—David H. Tolman, the notorious loan shark, was convicted this afternoon of violating the state law against usury and sentenced to serve six months in the penitentiary. The complainant, a clerk, testified that he had paid interest at the rate of 200 per cent a year for the use of $10 for three months. The defendant said he had conducted between 40 and 50 loan offices through out the United States.

"This is the most flagrant case of usury that has ever come to the attention of the court of special sessions," said Presiding Judge Zellar. "Tolman, you are a most miserable usurer."

Warrants for Tolman's arrest on usury charges were issued some years ago in Montreal and Winnipeg, but he was careful to keep out of the jurisdiction of the Canadian courts.

PROBLEM OF SECURITY OF PACIFIC

Australia Proposes Conference on Imperial Naval Defence—Obstacles in Way.

(Canadian Associated Press.)

LONDON, Oct. 9.—Statements issued in London that the dominions have made no proposal for a conference on imperial naval defence are repudiated in Australia.

"As a matter of fact some three months ago," says the Daily Telegraph's Sydney correspondent, "the commonwealth government made a definite proposal to the imperial government. Minister of Defence Millen declares that in spite of Mr. Asquith's decision such a conference ought to be held."

The Times says: "The problem of the security of the Pacific is one that Australia shares with Canada and New Zealand as well as with the British government. It is obvious, however, that conditions at the moment are such as to make a conference impracticable.

"No British minister in the political state of British politics could undertake a voyage involving an absence of many weeks. It is very probable, moreover, that the Canadian government may desire to postpone attendance at such a conference until its own parliamentary situation is less equivocal."

BETTING EVEN IN CHATEAUGUAY

Election Likely to Turn on Candidates' Records and Petty Local Issues.

By Daily News Leased Wire.)

OTTAWA, Oct. 9.—At the capital the feeling is that the betting on the Chateauguay election should continue to stand at about even money. While considerable optimism is expressed by some on both sides the majority of those in touch with the situation regard the contest as one the result of which cannot be predicted with accuracy. The Liberals think that the Laurier meetings of yesterday and today will do much to bring out all the party vote and insure a victory for Mr. Fisher, while the Conservatives think that the presence in the constituency at the close of the fight of Messrs. Pelletier, Codere and Burrill will counteract the influence of the Laurier meetings.

The Evening Journal in commenting on the election today in its news columns says:

"From reports received in Ottawa the naval question has been relegated to the background, neither Mr. Fisher nor Mr. Morris being strikingly anxious to discuss the respective policies of their leaders on this particular question.

Trade and other big questions take secondary place and the fight hinges upon the personal records of the candidates and petty local issues.

"Because of this feature of the contest the feeling is gaining ground here that a win for either side will not be of tremendous significance as indicating the trend of political sentiment in Quebec in regard to the big questions of the day."

It is announced that Hon. G. E. Foster, Hon. T. W. Crothers, Hon. Martin Burrill and Hon. Arthur Meighen will take part in the by-election campaign in East Middlesex and South Bruce. Mr. Meighen will be the principal speaker at the South Bruce nominations at Walkerton on October 23.

TRADE COMMISSIONERS WILL VISIT CANADA

(Canadian Associated Press.)

LONDON, Oct. 9.—Commercial quarters are betraying scepticism as to the ultimate result of the Dominion trade commission. It is officially stated that no further meeting will be held until November and no further evidence taken from this country. The commissioners are due to go to South Africa early next year and must subsequently visit Canada. They also will inspect the Panama canal.

There are rumors that the commission will collapse before completing its labors.

FORTUNE FOR WIDOW

(By Daily News Leased Wire.)

TORONTO, Ont., Oct. 9.—The will of the late Patrick Maher, well known liveryman and horseman, was filed today. He left $156,918, all to his widow.

LAURIER ON STUMP IN CHATEAUGUAY

Will Continue Fight Whatever Result of Election

HAS NEVER DECEIVED ANYONE

Conservatives Temporarily Obscure Brightness of Liberal Principles

(By Daily News Leased Wire.)

STE. MARTINE, Que., Oct. 9.—Sir Wilfrid Laurier visited Ste. Martine and Chauteaguay village today, addressing public meetings in the interests of Hon. Sydney Fisher, Liberal candidate in Chauteaguay constituency. The most important meeting was at Ste. Martine, the assembly taking place in the afternoon. In opening, Sir Wilfrid, while expressing confidence in the issue in Chateaguay, quoted a remark of the late Sir John A. Macdonald, anent the uncertainty of elections, and declared that no matter what the result the Liberal party would continue the fight they had commenced against "those whose campaign of duplicity in the election of 1911 deceived the people and temporarily obscured the brightness of the principles for which the Liberals fought."

The Liberal leader charged the Conservatives with being unfaithful to pre-election pledges, at the same time declaring that in the 40 years of his public service he had never deceived any one. Had not the Conservative speakers in the last election, he queried, promised that separate schools should be established in Manitoba? But when the opportunity offered in the settlement of the boundaries they had let it go, saying that the whole matter had been settled by Laurier and it would not be possible to do better than he. Taking up the navy question, Sir Wilfrid made reference to the 1911 campaign, affirming he had lost popularity on the question through falsehood and misrepresentation, by which the Conservatives had gained 15 seats. In defending his own policy, Sir Wilfrid talked of the dangers of British Columbia and Nova Scotia and the need for coastal defence. "Do not forget that if we have the rights of British subjects, we have also the duties of British subjects, too," he said. He told of his visits to England and of the pressure brought to bear upon him in regard to contributing to the admiralty and his refusal to yield. The speaker made several references to Mr. Sevigny, M. P. for Dorchester, stating that he and other Conservative speakers had declared that the $35,000,000 contribution was to make an end of all contributions and make an end of Canada's obligation to the motherland, which he repudiated as "a silly lie."

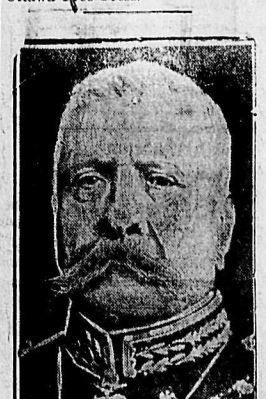
Other speakers were Hon. Rodolphe Lemieux, Hon. Charles Marcil, R. C. Smith, K.C., and R. L. Calder.

GOVERNMENT WILL NOT INTERFERE

Has Taken No Steps to Stamp Out Enlistment of Men for Ulster

(By Daily News Leased Wire.)

VANCOUVER, B.C., Oct. 9.—H. H. Stephens, M.P., today received a telegraphic denial from Premier Borden that the government proposed to stamp out plans for sending money or men from Canada to aid the militant Ulstermen. Hon. C. J. Doherty, who is here, said that he had never heard of the matter when shown the telegraphic despatch coming from the Ottawa Free Press.



PORFIRO DIAZ

Ex-dictator of Mexico, who will likely return to his fatherland to help his nephew, Felix, in the campaign for the presidency.

DECISION ON COMPANIES ACT

Supreme Court Judgment Expected at October Sittings—Compromise May Be Reached.

(By Daily News Leased Wire.)

OTTAWA, Ont., Oct. 9.—Judgment by the supreme court of Canada in the Companies act reference is expected during the October sittings of that tribunal. The argument was made last spring and the case has been under advisement by the judges during the long recess.

It will define the relative powers of the Dominion and provinces in respect to incorporating and licensing companies.

Whichever contention is upheld the case probably will go to the privy council. There is a suggestion, however ,that the question may be settled by the provinces waiving their rights shoud they be upheld, and being compensated by the Dominion to the extent of any revenue they may lose from extra provincial companies being incorporated only at Ottawa.

LOWER TARIFF WILL BE ADVOCATED

Sir Wilfrid's Speech Keynote of Opposition Policy—Please Prairies Without Alarming Manufacturers

(By Daily News Leased Wire.)

OTTAWA, Ont., Oct. 9.—The Evening Citizen says: "The declaration by Sir Wilfred Laurier at Ormstown yesterday favoring a tariff revision because there is a surplus of $50,000,000, is taken here to indicate the policy of the opposition to be enunciated for the next session of parliament.

"Last session a strong wing of the party advocated such a stand and suggested an amendment to the budget resolutions. After consideration, however, and in view of the fact that the party had spent itself pretty well on the naval debate, it was decided to hold back and await developments. It is apparent now that a plan will be evolved for demanding tariff revision. It will, it is believed, be so framed as to endeavor not to unduly agitate the manufacturing interests while at the same time appealing to the low tariff sentiment in the west.

"It is not to be expected that the government at this stage will make any definite announcement, but it may be stated that there are at present none of those activities which precede general tariff revision. It would hardly take place without an inquiry of a more or less extensive character. Hon. W. T. White is not given to talking on tariff matters and is not doing so at present. The working of the new American tariff is being observed carefully."

REINDEER TAKE TO TALL TIMBER

Efforts to Propogate Domestic Deer in Peace River Meet With Disappointment.

(By Daily News Leased Wire.)

OTTAWA, Ont., Oct. 9.—The efforts of the interior department to propagate the raising of reindeer in the Peace river country have not been attended with much success. The animals have stampeded and taken to the tall timbers. Fifty were brought from Labrador, the suggestion originating with Dr. Grenfell. It was thought they would be of utility for transportation and domestic purposes. A report just received states that 12 died en route and 26 broke away from the corrall last year and eight this year. Only four remain. Efforts are being made to catch some of the deserters and place them on an island.

SUITE SELECTED TO ACCOMPANY GOVERNOR GENERAL

(Canadian Associated Press.)

LONDON, Oct. 9.—It is officially announced that the following will comprise the royal suite sailing by the Empress of Britain:

Miss D. Yorke, acting lady-in-waiting to her royal highness the Duchess of Connaught; Hon. Catherine Villiers acting lady-in-waiting to Princess Patricia; Capt. Rivers Bulkley, comptroller of the household in Canada and equerry in waiting; Capt. H. O. Butler, aide de camp; Capt. G. Boseawen, aide de camp; Capt. A. Graham, aide de camp, and Major Sir Edward Worthington, medical adviser to his royal highness, the governor general.

The Queen has given permission to Hon. Catherine Villiers to act temporarily as lady-in-waiting to Princess Patricia in place of Miss Adams, who is unavoidably prevented from proceeding to Canada at present.

BODY OF DEAD BABE FOUND IN RAILWAY COACH

(By Daily News Leased Wire.)

WINNIPEG, Oct. 9.—Coach cleaners on opening one of the upper berths in a Canadian Pacific railway colonist car this morning found a brown paper package in which was discovered the dead body of a child about three months old. The corpse was in a badly decomposed state and had apparently been in the coach for several days.

PICKING RASPBERRIES IN ONTARIO GARDENS

(By Daily News Leased Wire.)

OTTAWA, Ont., Oct. 9.—The weather has been so fine in the Ottawa district this autumn that a second growth of raspberries is being picked in some gardens. Wild raspberries are also having a fair second crop.

CHINESE PEDDLERS ONLY PROBLEM

Must Be Regulated to Mak Public Market Success

BOARD OF TRADE SUGGESTS BYLAW

Committee Will Look Into Question--Project Meets With General Favor.

Before a public market can be established in Nelson with good prospects of success some means must be found of regulating pedding of produce by Chinese truck gardeners, declared members of the board of trade at the monthly meeting last night, when a committee of six was appointed to report on the legal aspect of the question. Passage of a city by-law which would permit the hawking of produce only after a certain hour each weekday was one means of accomplishing the desired end which was suggested. It had proved successful elsewhere, it was said.

Grocers, ranchers and consumers spoke in favor of the proposed market.

It was the intention that a meeting of all interested should be called in Nelson if the committee brings in a report which offers a solution of the Chinese truck gardener problem.

Petitions signed by the Kootenay Fruit Growers' Union and ranchers and secretaries of Farmers' institutes at many places in the surrounding district asked the board to take the matter in hand.

Merchan'ts Favor Plan

Telephone and delivery facilities would be an essential of the market, which might be established at the exhibition building, declared J. J. Campbell in a letter to the board.

Now that Nelson had some roads leading into the city the time had arrived for a public market, declared J. A. Irving, who strongly favored the proposal. Such a market would not only be of great benefit to ranchers and consumers, but would also bring business to the city generally, he declared, but it could only be made a success if some method of curtailing peddling from door to door by Chinamen was put into effect. In Vancouver peddling of produce was not allowed before a certain hour. Speaking as a grocer, Mr. Irving said that he was not anxious for the business. He did not believe that it would be practicable to establish a delivery system for the market as the cost of delivery to merchants in the city was one reason goods cost more in Nelson than they should do.

Wily Chinese Good Salesmen

In Montreal the peddling problem had been overcome by charging such vendors a license fee of $100, said R. G. Joy. His competitors in the vegetable and small fruit business were the Chinamen and he had not found it profitable and would be very glad to get rid of it. He kept vegetables in stock simply to supply customers who might happen to need them. He purchased vegetables from Chinamen, 25 or 50 cents worth at a time and then had to compete with them. On Monday of last week he had bought 25 cents worth of celery and still had it on Saturday, he said, as an instance of the way in which the business worked.

Women would buy from Chinese because John Chinaman, with his ready smile and cheerful manner was a pretty clever backdoor salesman. People paid more in buying from Chinamen in 5 and 10 cent lots than they would from ranchers, although they thought they were getting the stuff cheaply, continued Mr. Joy. He believed there was provision in the statutes of this province that prevented the charging of license fees to persons peddling their own produce, but suggested that there might be some other way of dealing with the problem.

Ald. James Johnstone remarked that ranchers could deliver produce sold at the market in their own rigs or could secure special rates for delivery.

Solve Difficulty for Ranchers.

Estimating that probably 90 per cent of the fruit trees which had been planted in the province had not yet come into bearing, Dr. N. Wolverton remarked that the growing of vegetables and small fruits was about the best way in which the rancher could make a living until the trees reached the producing stage. The establishment of a public market and the regulation of Chinese peddlers would do much to solve the marketing problem for them. At present ranchers could not market vegetables, but directly the means were supplied there would be ample production to meet the demand.

White men could not peddle in competition with Chinamen. All believed that they should, that it was their bounden duty as sons of the province and loyal citizens to preserve British Columbia as a white man's country, continued Dr. Wolverton, amid applause. A Chinese did nothing toward building up the province. He gathered up his wages and hung on to them until he could go back to China, "become a nabob and live in idleness and honor." The country, as far as

GRAND FORKS BOARD OF TRADE

Proposal to Appoint Paid Secretary Under Discussion—Permanent Rooms May Be Rented

(Special to The Daily News.)

GRAND FORKS, Oct. 9.—The regular meeting of the Grand Forks board of trade was held in the city council chambers last night. Among other business disposed of was an account of $75 for advertising in the Winnipeg Evening Post. Considerable discussion was given the matter as to whether or not the Post had fulfilled its agreement with the publicity committee of the board to supply a certain number of copies of the issue. On motion, however, the account was ordered paid.

A letter was read from the government dairy commissioner in regard to establishing a creamery at Grand Forks, in which he stated that from 400 to 600 milch cows would be required before a creamery could be established. Expressions of opinion from practical members present seemed to indicate that a creamery could be started with a slight addition to the stock which is already in this valley. In the opinion of the board, the question of a creamery for Grand Forks is a live one, and offers a splendid opportunity for some practical person to establish a very remunerative business.

During the meeting, Mark De Cew tendered his report to the board as returned delegate from the meeting of the associated boards and was the recipient of a hearty vote of thanks for the efficient service he had rendered especially in his efforts in securing to Grand Forks the next convention of the executive boards. A prolonged discussion on the securing of permanent board of trade rooms that could be kept open at all times during the day with a regular paid secretary in attendance resulted in the matter being left over till the next meeting.

The Ladies' Aid of Knox Presbyterian church met yesterday afternoon at the home of Mrs. McKie. The members of the aid are busily engaged in making up novelties for a bazaar, which they intend bringing off some time in December.

About 40 ranchers and landowners were summoned to appear before Judge Cochrane in the court room yesterday afternoon at 2:30 to answer the charge of allowing noxious weeds to grow on their lands. The gathering was dismissed with a caution.

RUNOVER BY TRAIN KILLED AT FERNIE

(Special to The Daily News.)

FERNIE, B.C., Oct. 9.—August Cost, a man about 40 years old, while walking on the Great Northern tracks was run over by the south bound passenger train and instantly killed on Saturday last.

C. E. Evleth, of the purchasing department, and J. A. Callahan, of the mechanical department, of the Great Northern railway St. Paul, have been spending the week in Fernie on business with the Crows' Nest Pass Coal company.

Fred Roo has been rounding up his old acquaintances in Fernie for the past two days.

Mr. and Mrs. John Pollock has returned from a three months' tour of the coast cities.

R. J. Smith passenger and traffic agent of the Great Northern railway, in stepping from a freight train at Elko was seriously injured yesterday and brought to the hospital at Fernie for treatment.

Owing to the drastic measures adopted by the city police Fernie has been rid of many objectionable characters.

A train of Great Northern empty coal cars ran over a cow near Waldo, causing the train to break in two and throwing a brakeman from the cupola of the caboose to the floor, breaking several of his ribs.

Rossland News

ROSSLAND, B.C., Oct. 9.—The regular meeting of the city council was held last evening with Mayor Deschamps in the chair and Alderman Armstrong, Embleton, Pitt, Robertson and Prest present. The offer of Hunter Bros. for the lots in block 28 was not accepted, but it was the feeling of the council that they could lease the lots wanted to Hunter Bros. for a term of years and the mayor and chairman of the finance committee were instructed to attend to this. A new four-foot sidewalk is to be built on Monte Cristo street from Fifth to Eighth avenue. The sidewalk on Georgia street is to be repaired and the road graded. In looking over the request of Rev. Mr. Simpson in regard to more burial ground for the St. George's church, it was decided that they had plenty to last them some time yet and nothing will be done this year in regard to it. The sum of $50 was donated to the city band. A dozen Tungsten lamps were ordered so as to try them for street lighting. The old boiler in the basement of the fire hall is practically worn out and a new one is to be put in by C. J. Miles, which, when installed, will cost about $28. The chief of police asked to have water put in the jail and the sanitary barn. This was referred to the fire, water and light committee in regard to the crossing on Davis street of the Great Northern track, the Great Northern company do not want to put a crossing there as it is too near a curve in the track, which would make it dangerous, so the city have decided that if they will give them a right of way beside the track from the crossing at Second avenue to Davis street, that they will accept that instead of the crossing at Davis street.

The following accounts were ordered to be paid: Board of Works payroll, September 27, $127.75; Board of Works payroll, Oct. 4, $136.50; Hunter Bros., $44.10; Co-operative Association $11.25; Albert Shephard, $15.00; Henderson Bros., $71.50; Henderson & Connors, $3.00; J. F. Charron, $9.40; Plester Livery company, $79.00; Robert Barrie, $518.05; West Kootenay Power & Light company, $186.00; Rossland Water & Light company, $38.90; B. & K. Milling company, Ltd., $66.10; Consolidated Mining & Smelting company, Ltd., 70c; C. J. Miles, $38.22; Rossland Miner, $36.00; British Columbia Telegraph company, $119; British Columbia Telephone company, $26.80; Goodeve Bros., $6.55; Hunt & Patterson, $10.00; City Treasurer (petty cash), $48.65; Bank of British North America, $300.00.

The dance given in the Odd Fellows' hall last night by the Girls' Athletic club was a great success. The hall was prettily decorated with red, white and blue streamers and a three-piece orchestra furnished the music. Supper was served in the banquet hall about midnight from daintily decorated tables and there was an abundance of good things to eat. After supper dancing was continued until two o'clock. Those in charge of the girls are Mrs. T. H. Long, Mrs. Post and Mrs. Gamble. L. A. Campbell, M.P.P., has given the girls permission to use the armory for their gymnasium and the proceeds of the dance will go towards buying their paraphanalia.

A tea will be given at the home of Mrs. T. H. Long on Friday, Oct. 17, for the members of the Eastern Star and their friends.

Mrs. Davidson entertained at a small bridge party this afternoon.

Mrs. Scott of Pembroke, Ont., is in the city visiting Mrs. Lafferty.

L. A. Campbell and his secretary, C. B. Smith, motored to Grand Forks this morning on a business trip

R. Dudley, grand master of the Odd Fellows, is in town on an official visit.

The charge against Mrs. J. D. Robertson of furnishing liquor to a woman having the reputation of a drunkard, was adjourned until 4:30 tomorrow.

Arvo Linna, aged 13, Arthur Haki, aged 13, and Siegfried Beckman aged 10, were charged in the police court this morning with breaking into the house of John Cumming and stealing a revolver ammunition and two knives. Their parents were also present. All elected to be tried summarily and pleaded guilty. Linna has been up for two previous offences of the same nature, for the last of which he was given a thrashing and Haki one, Beckman, as a first offender, and on account of his youth, was allowed to go with a warning. Linna was sentenced to two years in the reformatory and Haki to one.

A number motored up from Trail laast evening to attend the dance.

Mr. and Mrs. Lee of Winnipeg and Miss Irwin of Kamloops, who are visitors in town, attended the dance last evening.

W. J. Farmer of Castlegar is a visitor in the city.

The young people of St. Andrew's church are making great preparations for the parcel post and cobweb party to be given in St. Andrew's gymnasium on Oct. 17.

At the dance to be given on Thanksgiving night, Mrs. Doell and the Pythian Sisters will serve the turkey supper.

CHILD'S FACE KICKED BY HORSE

Another Child Falls Into Cellar and Splits Rib—Moyie House and Furniture Burned.

(Special to The Daily News.)

MOYIE, B. C., Oct. 9.—On Friday last the six-year-old son of Mr. McKay was hurt by a horse near the Porto Rico sawmill. The child was playing near the horse and in some way got within range of its heels and the horse kicked the little fellow badly on the head. The eyes and face were in a terrible condition. He was brought to Moyie at once by boat and that evening was taken to Cranbrook for treatment. The latest report is that the eyesight of one eye at least may be retained.

Little Gertrude Conrad, daughter of C. Conrad, seeing the outside cellar of J. W. Fitch's house was open, ran inside and began jumping on a board which was laid across the cellar. The board broke and the child fell into the cellar beneath. She was badly bruised and one rib was split.

On Friday night about 2 o'clock a fire broke out in the home of Marcus Martin, which completely destroyed the building and furniture. Mr. Martin and family were away camping at Green Bay and the fire had made considerable headway when Oscar Birch, a neighbor, noticed it. A fight was made to save the building, but the fire had got too much of a start. Seeing the case was hopeless the hose was turned on the neighboring houses, which had caught fire, and these were saved, although badly damaged. The roof of Mr. Therrian's house was burned through and considerable damage was done to the home of Michael Gill. On the following morning messengers were sent to Green Bay to notify Mr. Martin of his loss, and the family have returned to town.

Mrs. Nead, nee Miss Clara Whitehead, was here this week visiting relatives. She left on Monday, accompanied by her mother for Lethbridge, where she will make her future home.

A meeting of the Ladies' Aid society of the Methodist church was held at the home of Mrs. Pitman. There was a good attendance and refreshments were served.

Two of the sisters from the Cranbrook hospital arrived here on Thursday and left immediately for the Porto Rico sawmill. They were accompanied by Miss Verle Martin.

Mr. Adams, Canadian Pacific railway inspector from Lethbridge, spent the week-end here visiting friends.

Fred Smyth, formerly editor of the Moyie Leader, was here on Saturday.

George Ferolio, who had his hand injured by a gun going off accidentally, went to Cranbrook this week to have it treated.

An enjoyable dance was given on Saturday night in the hall.

Miss Martin entertained her class at her home on Thursday night, when an enjoyable time was spent.

Marcus Martin and family, who have recently lost their home by fire, have moved into Alex Cameron's house near the school.

On Thursday last Mrs. R. A. Smith entertained a number of her friends at her home on Tavistock street. Progressive whist was played. Miss Lily Conrad won the first prize, a mayonnaise set, while Mrs. Foote carried off the booby prize, a tiny duck.

The government inspector of lands arrived here on Friday and after securing R. A. Smith's launch proceeded at once to Aldridge.

Mrs. Martin's mother, from Spokane, arrived here on Thursday.

CHILD SUCCUMBS FROM FALLING INTO TUB

(Special to The Daily News.)

CRANBROOK, B. C., Oct. 9.—Leonard Williams, the infant child of Evan Williams, died this afternoon as the result of falling into a tub of water, in which he lay for some time, on Tuesday afternoon.

MOTHER! WATCH THE CHILDREN'S BOWELS

If Cross, Sick, Feverish, Bilious or Tongue Is Coated, Give Delicious "Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative physic should always be the first treatment given.

If your child isn't feeling well; resting nicely; eating regularly and acting naturally it is a sure sign that its little stomach, liver and 30 feet of bowels are filled with foul, constipated waste matter and need a gentle thorough cleansing at once.

When cross, irritable, feverish, stomach sour, breath bad for your little one has stomach-ache, diarrhoea, sore throat, full of cold, tongue coated; give a teaspoonful of Syrup of Figs and in a few hours all the clogged up waste, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well, happy and smiling child again shortly.

With Syrup of Figs you are not drugging your children, being composed entirely of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious fig taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

The Meaning of a Name

"SALADA"

means everything that is choicest in fine tea. "SALADA" means the world's best tea—"hill-grown Ceylon"—with all the exquisite freshness and flavor retained by the sealed lead packages.

KIRK AGAIN WINS ROYAL BANK CUP

Good Scoring on First Day of Kettle Valley Rifle Association's Annual Shoot.

(Special to The Daily News.)

GRAND FORKS, B. C., Oct. 9.—The weather conditions favored the Kettle Valley Rifle association on the start of their annual shoot on the rifle ranges yesterday just north of the city. There was a good attendance and some remarkable scores were made by the members. In the second event, a contest for the Royal bank cup of seven shots at 200 yards, S. G. Kirk duplicated the exact score which he made for the same trophy last year of a possible, 35, and now becomes owner of the handsome silver cup trophy.

In event 2 Mader and Sayer tied and on shooting off to decide the tie Mader made 28 and Sayer 27. Following is the score by events.

Event No. 1, tyro match, seven shots and sighter deliberate, 200 yards—Percy Clarke, 27; R. Rowell, 26; William Farmer, 23; Stanley Hull, 22; E. C. Coy, 22; R. Dinsmore, 13.

Royal Bank Cup.

Event No. 2, Royal bank cup, seven shots and sighter deliberate, 200 yards—S. G. Kirk, 35; Leo Mader, 33; R. Lamond, 31; D. Gue, 30; F. Hutton, 29; W. Liddicoat, 29; N. McCallum, 28.

Event No. 3, Fripp trophy, seven shots and sighter off-hand, 200 yards—D. Gue, 25; S. G. Kirk, 24; Leo Mader, 22; R. Lamond, 22; N. McCallum, 21; W. Liddicoat, 20.

Event No. 4, Burns cup, seven shots in one minute, 200 yards—Leo Mader, 31; S. Sayer, 31; S. G. Kirk, 30; R. Lamond, 28; Frank Hutton, 28; W. Liddicoat, 27; D. Gue, 24.

Event No. 5, Merchants' match, 10 shots deliberate, no sighter, 500 yards—S. G. Kirk, 47; D. Gue, 47; S. Hull, 46; R. Lamond, 45; F. Hutton, 43; W. Sayer, 42; L. Mader, 41; W. Liddicoat, 41; W. Dinsmore, 40; E. Harrison, 39; N. McCallum, 39; H. Talbott, 34. E. Coy, 32; R. Rowell, 28; E. Spraggett, 26; P. Clarke, 19; J. Frankovitch, 11; R. Dinsmore, 8.

Event No. 6, seven shots and sighter, deliberate, 500 yards—Leo Mader, 34; W. Sayer, 33; E. Spraggett, 33; W. Liddicoat, 33; R. Lamond, 31; D. Gue, 30; S. Hull, 29.

Event No. 7, seven shots and sighter in one minute, 500 yards—Leo Mader, 28; D. Gue, 28; W. Dinsmore, 27; S. G. Kirk, 25; Frank Hutton, 25; W. Sayer, 25; R. Lamond, 24.

The shoot is being continued today under favorable conditions and will be concluded this afternoon.

BASE ON BALLS WINS FOR CARDINALS

(By Daily News Leased Wire.)

ST. LOUIS, Oct. 9.—The Nationals defeated the Americans, 1 to 0, in the opening game of the series to decide the championship of the city. The run was a result of a base on balls to Whitted. O'Leary hit Wellman, who threw to centre field trying to get Whitted at second and the latter took third. Wingo was tossed out at first, while Whitted crossed the plate.

Score:	R.	H.	E.
Nationals	1	1	0
Americans	0	4	1

Batteries—Sallee and Wingo; Wellman and Agnew.

WELSH SCORES VICTORY

BUTTE, Mont., Oct. 9.—Lightweight Freddie Welsh of England last night won the decision in a one-sided 12-round contest with "Fighting" Dick Hyland of San Francisco. Welsh outboxed and outpointed his foe.

COAST LEAGUE

San Francisco 6, Sacramento 8.
Los Angeles 4, Oakland 0.
Venice 1, Portland 0.

HOCKEY ANNUAL THIS EVENING

Kootenay Hockey League Will Meet Here Saturday, October Twenty-fifth.

Tonight in the parlors of the Hume hotel it is expected that the Nelson hockey team will receive an auspicious sendoff for the year 1913-1914. The annual meeting of the club will be held this evening, when officers and committees will be appointed to guide the club through what is expected to be even a more successful season than last year, when the club won the West Kootenay championship and were runners-up for the interior honors.

The meeting this evening is called for 8 o'clock.

On Saturday evening, October 25, the annual meeting of the Kootenay Hockey league will be held in this city. Rossland, Trail and Nelson clubs are again active and will be seen competing in the West Kootenay circuit while the Boundary clubs have already organized and are being ably prepared to defend the honors won by them last season.

BUSH BECOMES ATHLETIC HERO

(Continued from page one.)

er and beat the throw to first. Oldring then came to time with his second single, the ball shooting out to right field, and Murphy raced around to third base. Oldring promptly stole second. Collins, who seemed to have no trouble with Tesreau's pitching, sent a smoking drive into centre field and Murphy and Oldring deposited two more runs at the plate. The crowd looked for McGraw to take Tesreau out, but the big pitcher was kept on his job. Baker smashed a terrific drive, which Doyle managed to get after a great effort and forced Collins at second for the third out.

Five Run Lead.

Full of confidence by reason of the five-run lead, Bush went in and pitched fine ball in New York's half of the second inning. Shafer sent a slow bounder at Collins and he was tossed out. Collins waved the other fielders away as he backed into short right field and caught Murray's fly. McLean ended the inning by sending up a high foul, which fell into Schang's mit.

The visitors failed to count in the third inning, going out easily and quickly. McInnis and Strunk both gave Burns chances, which he accepted, getting both their high flies. Barry flied out to McLean.

It was also one, two, three for the home club in the third. Merkle lifted a high fly to Strunk in right centre field. Tesreau went out on strikes and Herzog ended the inning by shooting a drive into Collins' waiting hands.

There was not much to the fourth inning for either side, both Bush and Tesreau pitching good ball. Schang went out for the second time by the strike route. Bush started the Athletics' partisans cheering when he hit to left field for a single. Burns made a hard run to get up to the ball and it looked as if he caught it, but he only managed to scoop it up after it struck the ground. His stop of the ball probably prevented Bush going to second and possibly to third. The runner was left stranded on first, however, when Murphy raised a high fly to Shafer and Oldring went out, Doyle to Merkle.

For New York, Doyle fouled out to Baker in the fourth, but Fletcher ripped a single over second base. Burns struck out and in taking the third strike, Schang shot the ball to McInnis and Fletcher had a close call on being caught napping. Fletcher managed to get a good lead and stole second. He was left on the middle sack, as Shafer was an easy out at first on Collins' throw.

Collins almost got a long extra base hit in the fifth, when he hit the right field stand, but the ball was foul. He then went out on a hard drive to Murray. Baker put up a high fly which Fletcher gathered in and McInnis was the third out on a fly to Murray. Tesreau's pitching continued to be good, and he was given a hand by the New York rooters as he walked to the bench.

In Run Column.

The National league champions got into the run column in their half of the fifth, Murray drew a base on balls, the first in the game. He stole second cleanly and Schang, in trying to head him off, threw the ball into centre field and the player hot-footed to third base. The crowd cheered this real break in the Athletic's defence. The crowd cheered after McLean came to bat and there was an easier demonstration when the tall backstop hit a hot one that Baker could not stop on which Murray scored. Cooper was sent in to run for McLean, and after Merkle sent up a fly to Murphy, the substitute runner made a fine steal of second base. Tesreau went out, Baker to McInnis, on which play Cooper moved up to third. Herzog ended the inning by chopping the ball in front of the plate, Schang pouncing on it and throwing him out.

Wilson here went in to catch for New York. Strunk, the first man up in the sixth, flied out to Burns. Barry singled to right and was left there, Wilson taking Schang's high foul and Bush raising a fly to Doyle.

The New Yorkers were quickly killed off in their half of the sixth, a double play figuring in the retirement of the side. McInnis picked up Doyle's grounder and touched first. Fletcher, who appeared to be giving Bush trouble during the afternoon, worked the pitcher for a base on balls. Burns hit to Bush, who threw to Barry, forcing Fletcher at second and Burns was out at first on the Philadelphian's quick throw.

End of Tesreau.

The seventh inning saw the end of Tesreau. Murphy opened up with a drive to right field for a single, but he was forced at second on Oldring's smash to Fletcher, Doyle making the out. After fouling off several balls Collins brought the Philadelphia rooters to their feet by a terrific smash that struck the right field wall and he flashed around to third, Oldring scoring. Baker brought Collins home on a hard-hit single to centre field. Crandall, who had been warming up, relieved Tesreau at this stage. McInnis, the first man to face the rescue pitcher, drove a liner right into Doyle's hands and the latter touched Baker coming down the path. It was a pretty unassisted double play.

New York got its second and last run in the seventh on Shafer's slashing two-base hit to left field and Murray's single in the same direction, on which the former scored. Wilson struck out as Murray tried to steal. Schang whipped the ball down to second with lightning speed and got Murray, completing a double play. Collins took the throw. Merkle was given a base on balls, Crandall going out, Collins to McInnis.

Wiltse went to first base in Merkle's place when the eighth opened. Neither Strunk nor Barry could do anything with Crandall's pitching, both hitting weakly to the rescue pitcher, who threw them out at first. Schang then stepped to the plate and gave the ball a mighty wallop, which sent it into the right field stand for a home run. It was as long as any of Baker's home runs on the Polo grounds and as the young catcher went to the Athletics' bench Baker ran out and warmly shook his hand. Bush ended the inning by striking out.

New York went out in order in the eighth. Herzog sent a fly to Baker. Doyle's grounder was scooped up by McInnis at first and Fletcher fouled out to Schang.

The crowd started to leave the grounds as Murphy came to bat in the ninth inning, with the Athletics in the lead 8 to 2. Murphy flied to Murray. Oldring went out on a foul fly to Herzog and Collins ended the Athletics' inning by raising a fly to Shafer.

For the Giants in the ninth inning Burns flied out to Murphy. Shafer waited for four bad ones and was forced at second when Murray grounded to Barry, who tossed the ball to Collins for the out. Wilson ended the game by sending up a high foul to Baker.

Time: 2:11. Umpires: Rigler, Connolly, Klem and Egan.

OPPOSITION LEADER HAS APPENDICITIS

Waterways Bill Will Be Reported on Monday—Michener in Serious Condition.

(By Daily News Leased Wire.)

EDMONTON, Oct. 9.—After a week's discussion on the Waterways solution bill in committee of the whole in the legislature, including a sitting yesterday which lasted till 3:20 this morning, the government and opposition whips reached a compromise on the debate tonight. It has been decided that the bill will be reported on Monday next. The arrangement was largely the result of the sudden illness of Leader of the Opposition E. Michener, who developed appendicitis this afternoon. He was rushed to his hotel and the medical men called in report that he is in a serious condition this evening. S. Bacon Hillocks, one of the opposition leaders, is also confined to his home by an attack of sciata.

The main objection of the resolution urged to the bill today was that it should not provide for guarantees of sidings.

TROUSER LEGS STUFFED WITH COAL

Body Found in Burrard Inlet—In Water Six Weeks—Murder or Suicide.

(By Daily News Leased Wire.)

VANCOUVER, B. C., Oct. 9.—With the trouser legs tied fast around the ankles and the trousers stuffed from top to bottom with coal to make a sink weight in the water, the body of an unknown man was found in Burrard inlet this morning. The corpse was first seen by Capt. Bess of the tug Point Grey. The man had been fairly well dressed and his body had been in the water for six weeks.

The fact that coal had been placed in the trouser legs in order to sink the body in the water has led to a suspicion of foul play, although as yet no marks have been found on the corpse to lend further color to the suggestion that the dead man had been done away with and then thrown into the inlet. It is believed possible that he might have filled his trousers up with coal himself in order to insure death in an attempt to commit suicide by drowning.

TOOK THREE HOURS TO ROB BANK

Five Shots of Nitro-Glycerine Used in New Westminster Burglary—Trial Nears End.

(By Daily News Leased Wire.)

VANCOUVER, B.C., Oct. 9.—The last witness for the crown in the charge of robbing the Bank of Montreal of $271,000 on September 14, 1911, was heard this afternoon. Tomorrow the first witness for the defence will be called and the trial may possibly finish at the end of the week. Three witnesses called today by the prosecution told of having seen Dean and McNamara in New Westminster and in the vicinity of the bank they are charged with robbing, a week or so before the robbery. D. G. Young, a safe expert, told the court this morning that the bank vaults were blown open probably with five shots of nitroglycerine and that the job probably occupied at least three hours.

VACANCY IN PEEL FOR ONTARIO LEGISLATURE

(By Daily News Leased Wire.)

TORONTO, Oct. 9.—Samuel Charters, M.P.P. for Peel county, has sent in his resignation. The reason given for vacating his seat is ill health. Mr. Charters is to be appointed registrar of Peel county. The resignation necessitates a by-election. The date named for nomination is October 27, and the election November 3. A Conservative convention, it is understood, will be held at Brampton on October 18.

HUNDRED THOUSAND PEOPLE IN SERIOUS WANT

(By Daily News Leased Wire.)

NEW YORK, Oct. 9.—A Dublin cable says: "The labor strike pursues its course of misery and ruin. It is estimated that the loss of trade to the city represents $360,000 a week. More than 100,000 people are in more or less serious want."

WILL RESORT TO FORCIBLE FEEDING

Home Secretary's Announcement Rude Shock to Militants—Includes Minor Offenders.

(By Daily News Leased Wire.)

LONDON, Oct. 9.—On behalf of the militant incendiaries that under the "Cat and Mouse" act they were assured of speedy release from prison by "hunger strikes" and could then repeat the offense, received a rude shock today by the announcement of the home secretary that Miss May Richardson, who has been in prison since October 4 on the charge of arson and who has been refusing food since her arrest would not be given her freedom. The prison authorities have been instructed to resort to forcible feeding if necessary to prevent the incendiaries from starving themselves to death.

The home secretary says the act will continue to be applied as heretofore to minor suffragette offenders whose crimes do not include acts of serious violence.

SOLDIERS SET FIRE TO MILITARY COLLEGE STABLES

(By Daily News Leased Wire.)

KINGSTON, Ont., Oct. 9.—For setting fire to the military college stables two former members of the Royal Canadian Dragoons of Toronto, who were on duty here, were sent to the penitentiary, Fred Gabriel for two and a half years and Alex Wains for two years.

IS PASSENGER AGENT FOR BRITISH COLUMBIA

EDMONTON, Alta., Oct. 9.—J. T. Hamlin, formerly of the Winnipeg general office of the Canadian Pacific railway, has been appointed travelling passenger agent in Alberta and British Columbia, with headquarters here.

Deal Gently With That Corn

Don't pare it. That's but temporary. And a slip of the blade often leads to infection.

Don't apply liquids. They often cause soreness.

Apply a Blue-jay plaster, and the corn pain stops at once. Then a wonderful wax—the B & B wax—gently loosens the corn. In 48 hours the entire corn comes out.

Not the slightest discomfort. One simply forgets the corn.

This invention makes it folly to have corns. A million corns monthly are now being removed by it.

Stop and think of that.

Why suffer from corns—why pamper them—when 15 cents will end them.

A in the picture is the soft B & B wax. It loosens the corn.
B stops the pain and keeps the wax from spreading.
C wraps around the toe. It is narrowed to be comfortable.
D is rubber adhesive to fasten the plaster on.

Blue-jay Corn Plasters

Sold by Druggists—15c and 25c per package
Sample Mailed Free. Also Blue-jay Bunion Plasters.

Nelson Assessment and Collecting District

Sale of Mineral Claims for Unpaid and Delinquent Taxes in the Nelson Assessment and Collecting District, Province of British Columbia

I hereby give notice that on Monday, the 3rd day of November, A.D. 1913, at the hour of 10 o'clock in the forenoon, at the Court House, Nelson, I shall Offer for Sale by Public Auction the Mineral Claims in the list hereinafter set out, of the persons in said list hereinafter set out of which Crown Grants have been issued for taxes remaining unpaid and delinquent by said persons on the 30th day of June, 1913, and for costs and expenses of said sale, if the total amount is not sooner paid.

LIST ABOVE MENTIONED.

LEGAL AND OFFICIAL ADVERTISING.

Effective on and After Jan. 1, 1913

Legal Advertising (includes municipal and government notices)—12c per line for the first insertion and eight cents per line for all subsequent insertions.
In certain cases, however, for the convenience of the public, flat rates have been set, as follows:-

Applications for Liquor Licenses:—Once per week for four weeks $5; daily for month, $30.

Applications for Transfer of Liquor Licenses:—Once per week for four weeks, $7.50; daily for month, $45.

Land Purchase Notices:—Once per week for 60 days, $7.

Land Lease Notices:—Once per week for 60 days, $7.

Certificate of Improvement Notices:—Once per week for 60 days $12.50.

Delinquent Co-ownership Notices:—Once per week for 90 days, $25.

Duplicate Certificate of Title Notices—Four insertions, $8; eight insertions, $14.

Water Application Notices:—Four insertions up to 100 words, $6; over 100 words in proportion.

Where any of the above applications contain more than one application or notice, each application or notice will be charged for as a separate advertisement.

FRIDAY, OCTOBER 10

UNION LABEL

THE GAS PLANT PURCHASE.

The more the matter is looked at the more apparent becomes the fact that the bargain which the city council has been able to make with the bond holders of the Nelson Coke & Gas company for the purchase of the plant in this city is about the best that could have been expected. If the plant is worth anything and if the people of Nelson desire the benefit and convenience of a gas plant the price agreed upon must be acknowledged to be extremely reasonable. The gas plant is either worth $50,000 to the people of Nelson or it is worth nothing to them; that is, they do not want to see a gas plant in operation in the city.

The question before the people therefore, really resolves itself in one as to whether Nelson should possess a gas plant. About this there can surely be no question. A gas plant in itself is a valuable asset to any town or city. The closing down of the plant here would be a distinct setback to the city as a whole and would result in heavy loss and inconvenience to many householders and industries.

In saying this The Daily News desires to say that it is not advocating the purchase of the gas plant from selfish motives, although it is one of the largest consumers of gas in the city. Gas is a convenience to The Daily News in the operation of its linotype machines, but not a necessity. On very short notice The Daily News could replace gas as a means of heating the metal for the linotype machines. At the time it was thought the plant was about to close The Daily News arranged for other means of doing this work. It is only a matter of applying certain parts, which are on hand. In this connection it may be said that the use of electricity instead of gas is impracticable so far as The Daily News is concerned and that it is not electrical installation for which The Daily News has arranged.

The equipment which The Daily News has ready for installation in case of necessity will do the work required quite as efficiently as gas. The Daily News can, therefore, look at the situation from a disinterested standpoint and, doing so, feels that it is distinctly in the interests of the city of Nelson that the gas plant should be acquired and operated as a municipal enterprise. There seems no reason to doubt but that, managed in conjunction with the electrical department, the gas would, at least, pay running expenses and interest and debenture charges from the start, and that with the growth of the city it would become a profit-producer as are the city's present public utilities.

This Day in Canadian History

Upon this day 49 years ago the "Quebec conference" met in the capital of old Canada to draw up a plan for confederation to be submitted to the several legislatures. There were 33 delegates in all, including two from Newfoundland, the colony which to the present time has remained aloof from its sister provinces. Of these, 12 were members of the coalition ministry of United Canada, whilst the remainder represented the opposition as well as the government of each of the other colonies interested. No reporters were admitted to hear the deliberations, but it is told that the first resolution was passed unanimously. It ran as follows: "Resolved, that the best interest and present and future prosperity of British North America will be promoted by a federal union under the crown of Great Britain, provided such a union can be effected on principles just to the several provinces." It proved exceedingly difficult to formulate a scheme upon which the representatives of all the provinces could agree, but by means of many compromises a plan of confederation was at last devised, leaving to each province control of its local affairs and creating a central government with jurisdiction in matters concerning all or several of the provinces.

OKLAHOMA GIANT DEFEATED BY GUNBOAT

(By Daily News Leased Wire.)

NEW YORK, Oct. 9.—Gunboat Smith, of California, defeated Carl Morris of Oklahome in the fifth round of their 10-round fight here tonight. The referee disqualified Morris for fouling. The Californio heavyweight had the better of the match in every round except the second.

COMMISSION TO REGULATE ISSUE OF DEBENTURES

REGINA, Sask., Oct. 9.—The introduction of special legislation at the next session of the provincial legislature that will result in the appointment of a commission to investigate the finances of the municipalities of the province and to regulate the issues of bonds and debentures was promised today by the members of the provincial cabinet.

MANY ENTRIES RECEIVED FOR CRESTON FRUIT FAIR

(Special to The Daily News.)

CRESTON, B. C., Oct. 9.—A large number of entries and applications for floor space have been received by Joseph Health secretary of the Creston district fruit vegetable and poultry show to be held on Wednesday October 22.

R. L. T. Galbraith, Indian agent of Fort Steele, is in town on official business.

Mr. and Mrs. E. Mallendaine have returned to town after spending the summer months in the Windermere district.

A car of cutters arrived on Tuesday, consigned to H. S. McCreath.

John Hayden and J. S. Smith returned from a hunting trip to the White Grouse country, bringing back a caribou and a mountain goat.

Inspector Wynn and Constable Forrester of the provincial police made an inspection of the various hotels in the Creston district during the week.

The Indian commission will sit in Creston about November 1

Frank Putnam shipped 2,000 crates of tomatoes this season.

Another blacksmith shop has been opened on Gura street by Fred Shortenlib of Bonners county, Idaho.

Mr. and Mrs. John Bevan of Spokane are spending a few days in town, the guests of Mr. and Mrs. R. S. Bevan.

SOUTH SLOCAN NOTES

(Special to The Daily News.)

SOUTH SLOCAN, B. C., Oct. 9.—A large gathering assembled in the hall for the harvest festival on Sunday afternoon. The hall was beautifully decorated and the east end of the building was partitioned off for the service by a screen and archway, which was made by Gerald Ashby. It was gracefully festooned with trailers of hop vines and covered with autumn leaves and sunflowers. Rev. J. R. Kennedy preached an eloquent sermon on Thanksgiving. The following ladies assisted in decorating: Mrs. J. R. Kennedy, Mrs. T. A. Wheildon, Mrs. G. Ashby, Miss Holmes, Miss M. Killough, Mrs. M. Bonnier. Flowers and fruits were sent by Mrs. J. W. Moore. Mrs. C. Patey, Mrs. T. Skatbo, Mrs. G. Ashby, Mrs. B. Belneulk, Mrs. T. Wheildon, Mrs. Willard Moore and Mrs. O. W. Humphry.

Mrs. Gerald Ashby entertained the young ladies of the district to tea on Tuesday afternoon. Among those present were: Miss Kennedy, Mrs. Boomer, Mrs. R. G. Long, the Misses Roberts, Mrs. T. Davidson, Mrs. R. G. Long, Miss Bennett, Miss D. Bealby, Miss E. Long, Mrs. H. Skinner.

The Rev. J. R. and Mrs. Kennedy left for Slocan Park this morning.

The past few days have been marked by the closing up of many summer camps and the departure of their occupants.

A. A. Willey, manager for the West Kootenay Power & Light company at Bonnington Falls, returned on Monday after a two weeks' vacation spent at the coast cities.

HEAR LECTURE ON CHRISTIAN SCIENCE

Clarence C. Eaton of Board of Lectureship of Mother Church at Boston Speaks Here.

The Christian Science church was last night filled to its capacity when Clarence C. Eaton, C.S.B., a member of the board of lectureship of the mother church, the First Church of Christ, Scientist, Boston, Mass., delivered a lecture on Christian Science.

William Irvine occupied the chair at the meeting and in introducing the speaker said:

"It is my pleasant privilege to be permitted this evening as chairman of this meeting, gathered here for the purpose of listening to a lecture on Christian Science by one who represents the mother church. On behalf of the managing committee and the members of the First Church of Christ, Scientist, I bid you welcome.

"While not personally a member of the Christian Science church myself, yet I beg leave to state that some of my warmest, true friends and some of our most esteemed citizens are affiliated in its work.

"From close observation one must concede that the work since its organization has prospered wonderfully and since first the late Mrs. Mary Baker Eddy, in the year 1866, discovered and founded this movement, it has spread and been established almost universally.

"The tenets of the Christian Science church, we are informed, are that of love and truth founded purely from the teachings of our Lord and Savior Jesus Christ, always seeking to do good and to spread that good to others, making the work one of love and progress, overcoming sorrow, healing the sick and destroying sin, thus the uplifting of fellowman. And there glows upon the altar of innumerable hearts of those who have been benefitted through their efforts, and is proof that the members do not and have not lived for self alone, but have bordered the path of life with kind deeds and flowers of love."

It has been argued and urged that all are included in the Adamic or material belief of man. Christian Science protests that we are subjects of a divine sovereign, and that mortality affects us only to the extent that we ignorantly or intentionally believe in and submit to its theories and practices. Material sense has long imposed its tyrannical beliefs, customs, and laws upon the world and intimidated nations with its plan of mutual murder and assimilation. In example and precept its substitution of the mortal for the spiritual man has been foist upon succeeding generations for many ages, and the suffering, misery and desolation which have followed in its wake are ample proof of the iniquity of a fact which is responsible for the decline of spirituality and the consequent presence of a widespread hatred of good. But a righteous revolt has come which is destined to shake mortality to its very foundation and utterly destroy and remove it from the face of the earth. This reformation accomplished, we shall behold the real man, the divine offspring or spiritual idea, who is more than a statesman, patriot or priest; more than a chemist, an astronomer, a mathematician, or musician; more than a servant, merchant, or mechanic; a physician, lawyer philosopher, teacher or poet. He is the image, likeness, reflection of the All-good, and is endowed by his creator with inalienable and unalterable dominion over earth and sky. In the kingdom of God's man there are no vassals, no peers; no strikes, no lockouts, no bars of condemnation, no courts of appeal. There is naught to condemn, to appeal to or from, since here infinite good is supreme.

Healing of Sick

The healing of the sick, the cleansing of thought by means of the truth, spiritual understanding, is possible of accomplishment today as at any time in the world's history. Ministering to the sufferings of mankind is the most legitimate evidence and expression of true Christianity which we can possibly conceive of. It is, moreover, the inevitable experience because it is in fulfilment of prophecy. The Christian Scientist does not see in his patient what the physician or chemist sees in mortal man, therefore he makes no pretence of healing matter as substance, but as belief. To the Scientist sickness is a mental thought. God who made everything good and without whom, as St. John says, "was not anything made that was made," is not the author of such thought disturbances as produce sickness, they do not enter into the divine consciousness and hence their appearing is illegitimate in all respects. It has been discovered that God's law rightly understood and applied will antidote every phase of error or discord which might take possession of the human mind. Indeed Christian Science has repeatedly demonstrated the great truth that all that is needed for the expulsion of sin and disease from human experience—all that is necessary for humanity's complete liberation—is here and now.

Fake Material Laws

Christian Science proves that the false material laws which by common belief and consent operate through fear, ignorance, and superstition to incapacitate mortals and cause invalidism, are rendered null and void by the higher law of Mind. The individual knowledge of this and its application naturally effects the eradication of the discordant conditions which may be held, in thought or externalized on the body. There is nothing mysterious or miraculous about the modus operandi, since an infinite and irrevocable law provides for reconstruction, restoration, recovery, or redemption in accordance with the supreme wisdom and power of the Principle which established the law. The changes wrought in consciousness and which result in the healing of the sick according to the practice of Christian Science, are in no sense due to the use of hypnotism or suggestive therapeutics. The latter is in a class by itself and is a remnant of the condemned necromancy or occult practices of the past which the critics and enemies of Jesus failed to convict him of when they were testifying falsely against him. The domination of a submissive mentality or consciousness by an imperative one is recognized as a dangerous practice, the maximum of results therefrom being evil rather than good. Moreover, the practice is unchristian, because contrary to the teaching of Jesus, who denounced and repudiated such healing methods as equivalent to casting out devils by the prince of devils.

The remarkable betterment wrought in the temperament, character, habits, and deeds of men by Christian Science are the direct result of the casting out of evils or devils. This evidence of obedience to the Master's command is attracting more attention today, perhaps, than mere physical healing. The latter is an incidental experience on the way to the ultimate of reformation and transformation. The most precious gifts of Christian Science are to be designated as peace, contentment, satisfaction, joy—experiences and conditions for which we crave and which can become ours only through the casting out of evil and the acquirement of enlarged spiritual understanding. By a proper application of scientific and demonstrable knowledge of spiritual truth, errors in belief which throng one's consciousness are cast out, dissolved, and dissipated, as naturally, scientifically and inevitably as light destroys the darkness. Usually the first errors to yield in one's mentality are those which have found expression in physical infirmities, but this is not the goal which Christian Science urges us to seek. We should strive for and win a consciousness thoroughly purged of evil, and so we press forward, as Mrs. Eddy has so aptly put it in our textbook, 'until boundless thought walks enraptured, and conception unconfined is winged to reach the divine glory." (Science and Health, page 323.)

Mental Therapeutics Not New

For sixteen centuries mental therapeutics as instituted by the Master remained dormant, but in these latter days Christian Science represents the restoration and reestablishment of its practice. Less than fifty years ago only one person on earth realized what Christian Science in this respect means to the world. Today many thousands are vividly conscious that it is wholly due to its teaching and practice that they are alive and able to say they are healthy and happy. If in less than half a century, much of which time was necessarily spent in overcoming the prejudices of mortals and dealing with the many problems incident to the formative period of all earthly undertakings; if during these trying years of the reestablishment of a religious practice which had been entirely neglected and in disuse for upwards of sixteen hundred years; if notwithstanding the almost universal and persistent practice of ignoring God as the healer of the sick and seeking material means for relief and healing, no matter how utterly inadequate or futile—if in the face of all this Christian Science has adequately proved equal to the task of releasing from the bonds of sin, suffering, and disease hundreds of thousands of people, are we not justified in saying there has come to their realization the fulfilment of Jesus' prophecy: "He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father." "And these signs shall follow them that believe; in my name shall they cast out devils; they shall speak with new tongues; they shall take up serpents; and if they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover."

In the ministry of Christian Science the endeavor is to exemplify all that is possible for the human to comprehend and express of true charity, even that concept of genuine love which Paul has so comprehensively embodied in the 13th chapter of 1st Corinthians. The benefactions of Christian Science extend to all classes without distinction as to nationality, rank, or caste; and included in the scope of its teaching and practice the investigator will find a remedy for every undesirable condition to which mankind are subjected. In association, fellowship, and conduct Christian Science urges men to a strict observance of the golden rule, and that new commandment which the Master gave and which forms the basis of true brotherhood: "That ye love one another, as I have loved you." The promises of Christian Science are to be found in the Scriptures as well as in the literature especially devoted to its teaching and practice. As these promises must all be fulfilled, the mission of Christian Science will not be completed until "the earth shall be filled with the knowledge of the glory of the Lord, as the waters cover the sea."

APPLEDALE TO HAVE YOUNG PEOPLE'S SOCIAL

APPLEDALE, B.C., Oct. 9.—The annual meeting of the Appledale Ladies' Progressive society for the election of officers was held in the hall on Saturday, October 4.

The president, Mrs. Fink, spoke of the splendid work done by the society during the past year in organizing dances and entertainments, and in raising large sums of money toward the cost of the hall. She hoped that in the coming year even more might be done for the social welfare of the community.

Plans for future work were then discussed, and in particular, a suggestion that a Sunday school should be established, made by Mrs. Funk, and warmly supported by Mrs. Godfrey, met with hearty approval from the meeting.

The subject of the entertainment to be given on Thanksgiving day was taken up, and it was resolved that the evening was to be devoted to the children and young people, and given the name of 'the young people's social. Dances, games and other amusements were to be provided, and a gramophone was kindly offered for the occasion by Mrs. Winters and Mrs. Chase.

Provision was made for the entertainment of adults and a refreshment committee appointed.

A resolution was passed to the effect that the Ladies' society would assist as much as possible in paying for the piano which is to be installed in a few weeks.

The regular business being disposed of, the meeting proceeded to the election of officers. The ladies who held office last year were unanimously re-elected. Mrs. Frink as president, Mrs. Cork as vice-president and Mrs. Winters as secretary-treasurer. Many members rose to express warm gratitude to Mrs. Frink for her able and tactful management during the past year.

VEHICLES MUST NOT USE RAILWAY BRIDGES

H. D. Birkbeck has written to the Canadian Pacific railway company, regarding his recent auto trip from Trail to Nelson, stating that he did not realize at the time that in crossing the company's bridges at Castlegar and Granite he was breaking the law. The company cannot allow its bridges to be used for such a purpose on account of the danger from freight and passenger trains.

STOMACH SOUR? GOT INDIGESTION ALSO?

"Pape's Diapepsin" Will Make Your Disordered Stomach Feel Fine in Five Minutes—Time It!

If what you just eat is souring onyour stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now this minute, and forever rid yourself of stomach trouble and indigestion.

V.V.O.O.

THERE IS NEW STRENGTH AND VITALITY IN EVERY DROP OF V.V.O.O.

Were every person to make OLIVE OIL OF THE HIGHEST QUALITY as important a part of their daily diet as is meat or vegetables the general health of the human race would show a marked improvement.

The best physicians prescribe GOOD OLIVE OIL for those physically weak. It is of the greatest importance that the OIL be of the HIGHEST QUALITY and it is because of the PURITY and EXCELLENCY of V.V.O.O. that it has gained such a POPULARITY everywhere and is being recommended by so many physicians.

PEND D'OREILLE NOTES

(Special to The Daily News.)

WANETA, B. C., Oct. 9.—Fred Newham, a late resident of this valley writes from Tampico, Mexico, to say that the big British oil company for which he is working has carried on operations steadily, undisturbed by the revolution. He intends shortly to join a prospecting party bound for Bolivia, a country which is said to be richly mineralized.

Mr. Shallenberger, the owner of various iron claims, has been here from Spokane.

At Hartbauer's ranch on Cedar creek, where the orchard has suffered lately from the depredations of bears, three cubs were shot one evening last week.

Two cars of feed have just come to Waneta to the order of Galbraith Bros.

The fine favorable weather has given ranchers the opportunity to continue their fall activity. Much stumping, breaking new land, erecting new buildings and fall plowing being carried out everywhere in the valley.

Matthew Hill has ordered and received a considerable quantity of lumber this week.

A. Sodja last week, while working on his trail a short distance from his house, with two of his young children with him, happened to look into the brush and there within 15 feet distant saw a big bear. He had his rifle close at hand and with a short killed the bear.

Mr. Enderby has been in the valley looking for beef cattle.

CHURCH CONFERENCE ON MISSIONS

Average Contribution Per Month Only Thirty Cents—Sessions Held in Secret

(By Daily News Leased Wire.)

SASKATOON, Oct. 9.—The principal subject of discussion today at the missionary conference of the Church of England in Canada, held in St. John's hall, was the relationship between home and foreign missions. Canon Gould of Toronto and Canon Mathewson of Winnipeg gave forceful addresses on the subject enlarging on the vision which less experienced men might have of the subject.

A letter from Right Rev. Bishop White of Hunan, China, was read, asking that a deputation from the church in Canada visit China early next year to study conditions. It was decided that Canon Gould the general field secretary, should go. Bishop Williams thought, speaking on the relationship of home and foreign missions, 'that the time had come when the whole question of the policy of the society should be reconsidered.

Canon Mathewson of Winnipeg deprecated the idea which he felt was in the air that the foreign missionary was more heroic than the worker on the plains. Dr. Lofthouse, Bishop of Keewatin, thought that work among the Indians was not sufficiently emphasized and he had been obliged to appeal to the church in England for assistance he could not get from the church in Canada.

Archdeacon Hogbin dealt with the foreign problems and considered that it was a question for the individual but for the whole church. In his province the demands of the Ruthenanians for representation in the local legislature were the difficulties of the educational department in dealing with Galicians. He thought the church should do something to solve the problems of these people.

Hon. H. S. Blake called attention to the needs of the work as ascertained by the apportionment committee, showing that $191,000 would meet the amount asked for the present work in Canada and foreign fields. All Christian bodies, he contended, were doing far less than might be expected, the average given per month for missions last year in all the churches being only 31 cents. He urged that the matter be pressed definitely and clearly on all the people and the needs plainly set forth. If that were done there would be no difficulty in raising the amount needed.

The whole of the evening session was devoted to a discussion of the Jewish question in Hamilton, Toronto, Montreal and Ottawa.

No definite line of action was decided upon. The sessions are held behind closed doors, Archdeacon Dewdney furnishing the press with the information which the conference desires to make public.

SHOT THROUGH STOMACH ON MOOSE JAW STREET

(By Daily News Leased Wire.)

MOOSE JAW, Sask., Oct. 9.—Harry L. Bascom, Canadian Pacific railway freight brakeman, of Missoula, Mont., lies on the operating table of the city hospital tonight, while surgeons are striving to save his life. He was shot through the stomach by an unknown adversary at a late hour in River Street East, outside the Brunswick Hotel, where both had been drinking all evening. The assailant, who used a revolver for his deadly work, doubled up a nearby lane and disappeared. A dozen policemen are beating the railway yards and every train is being searched as it goes out. Bascom's condition is precarious.

IMMENSE VARIETY OF NORTHERN FISHERIES

(By Daily News Leased Wire.)

VANCOUVER, B.C., Oct. 9.—The immense growth and variety of northern fisheries was shown today in the cargo of the steamer Vadso, which arrived from Price Rupert. She had 10,000 cases of canned salmon, 100 tons of frozen fish, and 50,000 pounds of fresh fish.

WOMEN WORKERS SPLIT BY SUFFRAGE QUESTION

(By Daily News Leased Wire.)

LONDON, Oct. 9.—The suffrage question has caused a split in the National Union of Women Workers, which has been sitting in conference at Hull this week. Mrs. Humphrey Ward led the protest against the union advocating women suffrage and as a result there have been numerous secessions by the anti-suffragettes minority and a decision to form a rival union.

Winston Churchill, speaking at Dundee, was repeatedly interrupted by suffragettes, a dozen of whom were ejected from the meeting.

VANCOUVER SELLS DEBENTURES

(By Daily News Leased Wire.)

VANCOUVER, B.C. Oct. 9.—City Comptroller G. F. Baldwin was today notified by Brown, Shipley & Co., the city's London brokers, of the sale of $2,240,000 worth of 40-year 4½ per cent. debentures at 95. The sale will enable the city to retire an issue of treasury notes put on the market two years ago and will also provide money for the commencement of a fairly large program of civic work during the winter.

Mining Opportunity

FOR SALE OR REALIZATION AT A LOW FIGURE.

Silver lead and zinc blende mines, situated in the West Kootenay District, Slocan Mining Division. The property consists of the Bosun and Monitor and Ajax groups of mines, comprising sixteen mineral claims, a concentrating mill, with a capacity of about 160 tons per diem, worked by water power; townsites, forest and other lands, containing together several hundred acres, some of the lands having a lake shore frontage. A branch of the Canadian Pacific Railway runs through the Monitor property. The mines have been considerably developed and have in past years shipped large quantities of very rich ore, but for want of capital have not been worked since the year 1907. A large sum has been spent upon the purchase of the properties and upon the mill and in development. They afford a good opportunity to investors with a limited amount of cash at their disposal, as, apart from the fact that they can be acquired on easy terms, the mines can be worked with a comparatively small capital. The mines can be taken on lease and bond with an option to purchase, provided that a substantial and sufficient sum in cash be paid down on the signature of an agreement, or on the grant of a lease, or on giving possession. The properties can be treated for as a whole or in portions, and the mill and certain of the lands can be acquired separately from the mines.

Application should be made to:

Mr. R. N. Macdonald, Barrister and Solicitor, 901-912 Metropolitan Building, 837 Hasting Street West, Vancouver, B.C., where a copy of a report of a leading firm of London mining engineers can be seen and from whom further particulars can be obtained.

Vancouver, B.C., September 24th, 1913.

NOTICE TO CONTRACTORS.

Salmo Lockup.

Sealed tenders, superscribed "Tender for Salmo Lockup," will be received by the Honorable the Minister of Public Works up to noon of Monday, the 13th day of October, 1913, for the erection and completion of a single constable's quarters and lockup at Salmo, in the Ymir electoral district.

Plans, specifications, contract, and forms of tender may be seen on and after the 23rd day of September, 1913, at the office of the government agent, Nelson; the provincial constable, Salmo; or the department of public works, Victoria.

Intending tenderers can for the sum of ten dollars ($10) obtain one copy of the plans and specifications by applying to the undersigned. This sum will be refunded when the plans are returned in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honorable the Minister of Public Works, for a sum equal to 10 per cent of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied signed with the actual signature of the tenderer and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.
Department of Public Works,
Victoria, B.C., Sept. 19, 1913.

NEWS OF THE MARKETS

STOCKS

NEW YORK PRICES MOVE UP AND DOWN

(By Daily News Leased Wire.)

NEW YORK, Oct. 9.—The stock market today was a contradictory affair. Prices moved up and down in abrupt swings during the fore part of the day, although there was nothing in the way of definite news to account for the fluctuation.

After a decline at the opening the market picked up and gave a mild display of strength during the morning, with Union Pacific, Canadian Pacific and Steel showing to the best advantage. Around the noon hour the list dropped abruptly, reaching the lowest prices for the long decline.

The following New York stock market quotations are supplied by Osler, Hammond and Nanton, Winnipeg:

	Open.	Close.
Amalgamated Copper	73¼	73⅝
American Car Foundry	43⅛	43
American Locomotive	30¼	30

BANK STATEMENT SHOWS GENERAL DECREASE

(By Daily News Leased Wire.)

LONDON, Oct. 9.—The weekly statement of the Bank of England is:

Total reserve decreased £1,482,000.
Circulation decreased £404,000.
Bullion decreased £1,885,492.
Other securities decreased £2,677,000.
Other deposits increased £1,385,000.
Public deposits decreased £3,750,000.
Notes reserve decreased £1,457,000.
Government securities increased £1,200,000.

Proportion of bank's reserve to liability 52.79 per cent; discount five.

BRAZILIAN RALLIES

(By Daily News Leased Wire.)

MONTREAL, Oct. 9.—After touching a new low of the movement of 86 in the early trading, bringing the decline on the week thus far to approximately seven points, Brazilian experienced its first rally on the current slump, recovering to as high as 87½ in the late morning and opening in the afternoon more than a point higher at 88 5-8. The stock closed steady at 88 bid, showing a recovery of two points from the morning low, a gain of half a point on the day, sales totaling 1,300 shares.

Trading in Canadian Pacific railway amounted to less than 300 shares, but the wide fluctuations of the stock held the close attention of the market throughout the day. From an opening at 232½, or three-quarters down from the previous day, the price worked off to 230, and in the afternoon rally recovered to 231¼.

Purely domestic issues continued heavy, but price changes were little more than nominal. Among the encouraging news of the day was the announcement that the profits of the Ogilvie Flour mills for the year ended August 31 last amounted to $576,734, an increase of $55,000 over the previous year.

LONDON PRICES DECLINE

(By Daily News Leased Wire.)

LONDON, Oct. 9.—Money and discount rates were steady today. The stock market declined under the lead of consols, which lost ⅝ owing to realizing and the weight of new issues, which are being left in the hands of underwriters.

Paris was also a source of weakness. Forced liquidation from that quarter depressed Kaffirs, Rio Tintos and the Brazilian issues and also affected other sections of stocks. The close was depressed.

American securities opened quiet and steady.

The market hardened in the late trading and closed comparatively steady.

GRAIN

GRAIN REPORT HAS BEARISH TENDENCY

(By Daily News Leased Wire.)

WINNIPEG, Oct. 9.—The market was draggy all day, waiting for the result of the United States government report. Cables were lower. Cash demand was only fair all morning. Decline in Winnipeg for the day was ⅛c to ¼c for wheat. Oats were unchanged ⅛c lower. Cash prices were off ¼c on all contract grades of wheat.

When the United States government report was published it showed an increase in wheat of 32,000,000 bushels over last year and a decrease in corn of 751,000 bushels. This is a slight improvement in the situation over the first of September report and is regarded as bearish.

Winnipeg, wheat, close: October, 81⅜c; November, 81⅝c; December, 81c; May, 86⅝c.

Oats: October, 34¼c; December, 34⅝c; May, 38⅝c.

Flax: October, $1.39¼; November, $1.28½; December, $1.20.

Minneapolis, wheat close: December, 9c; May, 89⅛c.

Chicago, wheat, close: December, 86⅝c; May, 91⅛c.

METALS

NEW YORK METAL MARKET

(By Daily News Leased Wire.)

NEW YORK, Oct. 9.—Copper dull. October to January, $15.62½ to $16.35; electrolytic, $16.75 to $16.81; lake, $17.00; casting, $16.62½ to $16.75. London, dull, spot £72 7s 6d; futures, £72 7s 6d.

Tin steady. Spot, $40.30 to $40.60; October, $40.40 to $40.70; November, $40.50 to $40.75. London, dull. Spot, £185 10s; futures, £186

Spelter easy, $5.30 to $5.40. London, £20 15s.

Iron quiet and unchanged. Cleveland warrants in London, 53s.

NEW YORK, Oct. 9.—Silver, 60⅞.
LONDON, Oct. 9.—Silver, 28⅛.
Lead, £20 5s.

MONTREAL PROVISION MARKET

(By Daily News Leased Wire.)

MONTREAL, Oct. 9.—The trade in butter and cheese is quiet. Eggs active and firm.

Cheese—Finest westerns, 13¾c to 13¼c; easterns, 12⅞c to 13¼c.

Butter—Choicest creamery, 27¾c to 28c; seconds, 27¼c to 27½c.

Eggs—Selected, 29c to 31c; No. 1 stock, 26c to 28c.

Pork—Canada, short mess barrels, 30c; short cut back, barrels, 29c.

VANCOUVER MAY PURCHASE STREET CAR LINES

(By Daily News Leased Wire.)

VANCOUVER, B. C., Oct. 9.—It was decided today by the mayor and aldermen of the city to make overtures to the British Columbia Electric company for the purchase of the city lines. The matter arises out of the increase of fares by the company, against which there are strong protests being entered. The franchise of the company enacts that the city may purchase in 1919, but it is considered, in view of recent events, that it would be to the advantage of the citizens if the property were to be acquired within the next 12 months.

CAESAREWITCH BETTING.

(Canadian Associated Press.)

LONDON, Oct. 9.—Slight changes are noted in the betting on the Caesarewitch, Fantasio now being quoted at 9 to 1 and Nighthawk at 100 to 9.

STRIKERS PLEAD GUILTY TO RIOTING

Fifteen Others Elect for Trial by Jury —Eighteen Ask for Speedy Trial.

(By Daily News Leased Wire.)

VANCOUVER, B. C., Oct. 9.—Contrary to all expectations 19 of the union men charged with rioting in the recent labor troubles at Nanaimo pleaded guilty this morning when they were brought before Judge Howey for trial. All of these were young men, mostly English miners, and none were officials of the union.

The courtroom was crowded to capacity when the proceedings opened. Fifty-two cases were called. Of these 15 elected for jury trial and will have their cases heard probably before the end of this month at the conclusion of the bank robbery case in New Westminster. Of the 37 remaining and asking for speedy trial, 19 entered pleas of guilty. Late this afternoon a start was made in hearing the evidence against the last 18. No sentences will be announced until these are concluded.

PAID ORGANIZER IS RECOMMENDED

Federation of Labor Condemns Industrial Workers of World—Advocates Suppression.

(By Daily News Leased Wire.)

BROCKVILLE, Ont., Oct. 9.—The Canadian Federation of Labor today decided to appoint a paid organizer and to meet the expenses of his salary by a raise in the per capita tax to be outlined by the committee on ways and means. The question of publication of an official organ was left in abeyance. A resolution was passed calling upon the Dominion government to include all classes of employes of the government when dealing with matters of superannuation and retiring allowances.

The meeting unanimously endorsed another resolution condemning the Industrial Workers of the World in its methods of strikes and called on the federal and provincial governments to prevent the establishment of the order in Canada as being opposed to the best industrial life of the Dominion.

TORNADO WRECKS NEBRASKA TOWNS

Sweeps Across Country for Twenty Miles—Lodi and Broken Bow Devastated

(By Daily News Leased Wire.)

OMAHA, Neb., Oct. 9.—A tornado, which originated near Oconto, in Custer county early this evening, swept across the country to the northeast for nearly 20 miles, spending its force near Sargent.

Details of the extent of its results are hard to secure, wires being down. It is known, however, that great damage was done in the path of the storm and that the towns of Lodi and Broken Bow were sufferers. First reports stated that Broken Bow had been struck squarely but railway officials here believe that only a portion of the town suffered.

PLAGUE INFECTED RAT KILLED IN SEATTLE

(By Daily News Leased Wire.)

SEATTLE, Wash., Oct. 9.—A bubonic plague infected rat was killed on the waterfront several days ago, the first in years, and the health department immediately spread poison in the neighborhood and took other steps to exterminate rats. For many years Seattle has paid a bounty of 10c on each rat brought to the health department dead and has employed rat catchers besides.

The danger of plague is always present because rats jump overboard from Oriental boats and swim ashore, sometimes a mile.

CHIEF OF POLICE DYING

VANCOUVER, B.C., Oct. 9.—All hope for the recovery of Chief of Police Charles Mulhern has now been abandoned. It was thought that the second operation that was found necessary would have a beneficial effect, but the chief has been unable to withstand the strain and, in the opinion of his medical advisers it is now only a question of a short time till the end comes.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan, and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of [illegible] the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

SIX MILLION DOLLARS AT STAKE

Suit to Quash Tax Sale in North Vancouver Before Supreme Court at Ottawa.

(By Daily News Leased Wire.)

VANCOUVER, B. C., Oct. 9.—A British Columbia appeal of wide interest is scheduled to be heard by the supreme court at Ottawa on October 22. The case is entitled C. H. Temple vs the municipality of North Vancouver. The plaintiff is a Canadian Pacific railway master mechanic at Winnipeg. He is seeking to set aside a tax sale which occurred in 1910 and which disposed of lands now worth $1,000,000. Other land valued at $5,000,000 largely depends upon the Temple decision.

Temple lost before the trial judge on the ground that he had wilfully allowed the tax sale to proceed. A majority of the British Columbia appeal court was also against him on the ground that by a section of the registry regulations Temple was barred from bringing any action when a year elapsed after the sale. Mr. Justice Martin of the British Columbia appeal court, however, agreed with the contention of Temple's counsel that no bona fide tax sale had ever been held and that therefore the land had never passed out of Temple's hands.

CHINESE PEDDLERS ONLY PROBLEM

(Continued on Page Seven.)

ranching was concerned, could be built up only by white men. He believed that means of regulating Chinese peddlers could be found.

Chinese Methods Filthy.

Touching upon unsanitary methods of Chinese gardeners, Dr. Wolverton said he had seen them gather old berry boxes from garbage cans and take them away to refill; anyone who knew much of the Chinese would know that they did not disinfect them very thoroughly before using them again. He had also been informed that they used nightsoil for fertilizing vegetables such as celery, lettuce and radishes, which were eaten without cooking. Picturing the horrors of the possible results of such methods he remarked that they might have been the means of disseminating some of the epidemics which had passed over the city during the past year. In Brandon he as a rancher, had found the market of the utmost value, and in Ontario public markets had become indispensable. In the east the problem was less acute than in British Columbia, as Ontario did not have the Oriental problem. The time was ripe, he concluded, to press the matter to a successful issue; there were no difficulties which could not be removed.

Another factor which would tend toward the success of a public market was that ranchers were going in more and more for mixed farming in this district, said Fred A. Starkey, who moved that the board call a convention of ranchers in Nelson for discussion of the project. Ald. Johnstone seconded.

Suggests Inspection.

E. K. Beeston stated that the old Municipal act gave cities power to license, regulate and govern hawkers and peddlers in such manner as might be deemed expedient, but he was not in a position to speak of the provisions of the new act. He had been unable to find any provision that the farmer was entitled to peddle his own produce without a license, but it was generally understood that there was such a law.

Proper inspection would compel the Chinese gardeners to be less unsanitary in their methods, declared R. W. Hinton, who spoke of the convenience to the housewife which the Oriental system of marketing provided. Delivery would be essential if the market were established, he thought.

Education of the people to buy from white ranchers only was the solution of the problem offered by J. E. Annable. An agitation against the Chinamen might be worked up, he thought, but Messrs. Joy and Irving were skeptical of the good results of such a campaign. The legislative method was the only one which would prove successful, they declared.

W. G. Foster moved as an amendment to Mr. Starkey's resolution that a committee of six should be formed to go into the question and R. G. Joy seconded. The amendment carried.

Those present were: W. F. Roberts, in the chair; E. K. Beeston, secretary; H. W. Robertson, H. W. Rust, Fred A. Starkey, Thomas Gough, W. G. Foster, W. H. Jones, R. G. Joy, J. E. Annable, Dr. N. Wolverton, J. A. Irving, R. W. Hinton, G. A. Brown, Ald. James Johnstone, Dr. F. E. Morrison.

D. H. Nellis of Wampsha is a guest at the Hume.

All music lovers should hear Mr. Harold Jarvis, Oct. 17, in St. Paul's church. Admission 50c and 75c. 150-3

GOODFELLOWSHIP SOCIAL TONIGHT

Doors of Y.M.C.A. Will Be Thrown Open to Men of Nelson—Interesting Program.

Something new and novel will be provided for the senior members of the Y.M.C.A. at their first stag social of the season this evening. The social committee of the association has completed arrangements for a parlor field meet and it is expected that a continuous round of mirth and fun will be provided throughout the whole evening. Among the events billed for the parlor meet are: 20-yard dash, running broad grin, continuous glum, long under swing changeable horse laugh, shot put, long, lean whistle and a floating exhibition.

The early part of the program, from 8 to 8:45 o'clock, will consist of the free use of the pool and billiard tables and bowling alleys, and a general get-acquainted time among the members and visitors.

From 8:45 to 9 o'clock selections will be given on the piano by Mr. Otto, a talented musician recently arrived in the city.

From 9 to 9:30 o'clock the president, Fred Irvine, and Taylor Statten, national boys' secretary for Canada, will address the gathering. From 9:30 to 10:30 the parlor field meet will take place, and from 10:30 to 11 o'clock refreshments will be served.

The social, exclusively for men, whether members of the association or not, is being prepared by the social committee of the institution and an invitation is extended to any man in the city to be at home in the Y.M.C.A. this evening.

GOVERNMENT TO SEND DRESSMAKING TEACHER

The regular monthly meeting of the Nelson Women's Institute will be held in Knights of Pythias hall on Saturday afternoon at 3 o'clock. The meeting will be a social one, and a question drawer will add to the interest of the occasion. A communication from the department promises the institute an instructor in dressmaking. Madame Grohe of the Anglo-Parisian School of Dress, Victoria, will have charge. She will hold a morning and afternoon class of pupils for 12 days. Her system is by charts, which members of the institute may purchase at a very reasonable figure. Those wishing to take part in these classes, who are not already members, may do so by joining the institute tomorrow. All who join now will be members until December, 1914.

STILL THIRTY-SEVEN DAYS OF TROUT FISHING

The trout fishing season this year closes on November 15. This date was set by order-in-council of March 23 last, which states that "no one shall fish for, catch or kill trout of any kind from the 15th of November in each year to the 4th of April following, both days inclusive. This applies only to territory in British Columbia each of the 120th meridian.

The monthly meeting of the Nelson board of trade will be held at 8 o'clock on Thursday evening.

NELSON NEWS OF THE DAY

J. J. Threekeld of Deer Park is at the Hume.

There will be a sewing meeting of St. Paul's Ladies Aid this afternoon at 2:30 o'clock in the church parlors.

J. N. Pennock of Brilliant, C. Hitchcock of Farron and H. A. Nichols of Grand Forks arrived last night on the Boundary train and are guests at the Hume.

The usual monthly meeting of officers and teachers of St. Paul's Presbyterian Sunday school will be held this evening at 8 o'clock in the church hall. Conveners of committees will present reports of their work during September.

St. Paul's church hall will be open this evening from 7:15 o'clock to 8 o'clock for the members of the First Nelson Company Boys' Brigade, when an indoor baseball match will be played between the two half companies. Uniforms will not be worn on club nights. The next drill parade will be Monday evening at the usual time.

On Tuesday last Leslie Bealby, who is this season packing for the Grand Forks Fruit Growers' association at Carson, packed 107 boxes in the usual working day. The variety was Baxter and the number of apples in a box ranged from 56 to 120. Every apple was wrapped. This is said to probably be the record day's packing for the Kootenays and Boundary.

FLOWER BULBS of all kinds received direct from the grower in Holland are now on sale at the Hudson's Bay Store. See our ad. 145-tf.

The installation of a continuous hot water system and a new heating plant in the K.W.C. block has been completed. A few furnished rooms are for rent at reasonable rates. 136-3t

MAKE PRESENTATION TO REV. CHRISTOPHER REED

Nelson Rural Deanery Gives Token of Regret at Resignation of Secretary.

At the quarterly meeting of the ruridecanal chapter of Nelson at St. Saviours rectory on September 24, Rev. C. Reed, vicar of Kokanee who has been the secretary of the chapter from the time of its organization, and who is leaving the rural deanery to become vicar of Enderby, tendered his resignation.

Mr. Reed said in part: "It is with no small regret that I place before you my resignation of the office of secretary of this rural deanery. Whatever of work has been associated with it has been a genuine pleasure and the hardest part of leaving is the necessary separation from those I have learned to love as friends."

On behalf of the chapter the rural dean, Rev. Fred H. Graham, presented Mr. Reed with a study clock, the gift of the members, a testimony of their appreciation and a souvenir of their friendship.

The presentation was accompanied by the following resolution:

"We, the members of the rural deanery of Nelson, having heard with deep regret of the approaching departure of Rev. Christopher Reed, desire to place on record our appreciation of the way in which he has at all times acted in the interests of the rural deanery. As secretary of the deanery he has never failed in any of the qualities essential to important issues, and his organizing capacity, especially shown in his able management of the retreats at Balfour, together with his unfailing courtesy, humor and common sense, have endeared him to us all. In parting with him we wish to express to him our gratitude for his past services and to wish him Godspeed and every blessing in his new work."

Rev. H. W. Simpson, rector of St. Georges, Rossland, was unanimously elected secretary in Mr. Reed's place.

Cosy Comforts

for the right enjoyment of reading a novel, or for any other indoor amusement during the cold weather, can be only assured by having steam heat in the house. It is clean and comfortable, easily regulated and really economical. We are prepared to fix your home up with steam heat throughout in first-class style for a very moderate price. What do you say?

E. K. STRACHAN
Baker St. Nelson

FALL! FALL! FALL!

At a time when women are most critical and exacting in their selections of fashionable apparel, here are broad assortments of exquisite Millinery, lovely Costumes, distinctly Tailored Suits, beautiful Glovewear, exquisite novelties in Neckwear, rich Dress Goods, Silks and Furs—a choice that Paris and New York would approve and commend. And then, the assurance that Fall and Winter necessities at the Hudson's Bay are so carefully assembled as to establish and maintain an unquestionable style supremacy. What does that mean to those who have to make their Fall preparations? Everything that reduces worry to a minimum and assures satisfaction. Everything towards making the Fall outfit a success, a delight and a pleasure. Such a service would be welcome at a premium. Such a service awaits you here at this store. And share in values that are nothing less than generous aids to economy.

Unmatched Collection of Women's Suits and Coats

And when we say unmatched we say it advisedly, for nowhere can you see values like these. Every Suit is correct in every particular. The style and material are Fashion's latest mandate, and the finish is to your liking. You will do yourself an injustice if you do not get one of these.

WOMEN'S FALL COATS .....$12.95 to $40.00
WOMEN'S FALL SUITS .....$18.50 to $35.00

FURS

Every style that's new and fashionable will be found here in broader choice than any previous season. The rich quality of all our Furs, for which this store is famous, is still maintained. Of course the mere fact of the Furs being here is proof of their superior quality. Furthermore, the immense amount of Furs handled by the Hudson's Bay Company naturally tends to splendid values. And remember, that in every instance, qualities can be absolutely depended upon.

PRICES TO SUIT ALL POCKETS.

CIVIC UTILITIES PAY IN REGINA

Builds New Electric Power Plant—Prepares to Construct Gas Works —Tramway Profitable.

Regina, which has an electric power plant which last year had a surplus of revenue over all expenditures of $71,200 and which it is now constructing a new power house at a cost of $425,000, in addition to setting aside early this year $250,000 for service extensions, is preparing for the construction of a municipal gas plant and with hardly a vote cast in opposition passed a bylaw to authorize the expenditure of $25,000 for laying gas mains where new pavements are being put down, states the Canadian Municipal Journal in an article on the civic utilities of the Saskatchewan capital.

After referring to the power plant surplus of over $70,000 last year the Journal says: "During the year a substantial reduction was made in the charge for light and power, but still earnings were very large. For large consumers of power a special rate of 1.1 is now available.

"At the time the city of Regina purchased the electric light plant from a private concern the charge made for power was 25 cents per kilowatt—an almost prohibitive price. Now the rate ranges from 1 3-4 cents to 7 cents, with special rates as stated above for large consumers." Since 1907 the annual surplus has grown from $20,833.75 to $71,200.

Tramway Increased Assessment.

Speaking of the Regina municipal street railway the Journal says:

"Although it is but two years since the construction of the street railway system by far the greater portion of the area within the city limits is now served with street cars within the distance outlined and by the end of the present year practically all this property will be so served. As the property in question is valued at over $15,000,000 the extent to which this system has benefitted the city at large may readily be seen." The increase in the amount of taxes that have been derived from this property through the construction of the street railway will far more than pay the cost of construction of the lines out into the annexes, it says.

The Journal continues: "The street car lines, too, have affected the value of the property considerably within the past year and a larger assessment has resulted.

"The street railway system was put in operation at the time the Dominion fair was held in Regina—July, 1911. At that time there were but seven or eight miles of track. By the end of that year 10½ miles of track had been constructed. During last year but very little was laid, only about 15 miles all told being in operation at the end of the year. During the present year about 14 miles of track will be laid, making almost 30 miles of track in service by the end of the year. The rolling stock has also been considerably increased during the past year, over 30 cars now being in operation, in addition to flat cars required in construction work.

Operated at Loss First Year.

"The street railway, though but a big baby utility, as it were, is already paying a good dividend and it is expected during the present year the surplus of receipts over expenditures, including debenture payments and interest, will amount to about $50,000. As was to be expected, the cars were operated at a loss for about a year. The loss in 1911 was considerable. For about five months in 1912 the city continued to lose money on the operation of the cars, but at the end of one year's operation the city was able to announce that the cars were more than paying their way. The deficit was gradually wiped out and at the present time there is a considerable margin of earnings over expenditures."

The article states that it is expected that during the present year the revenue above all charges from the street railway, power plant and water works will amount to about one-fifth of the entire amount of money required to carry on the general business of the city.

Black Opals Are Lucky Stones

Opals for the October Born

Black opals are gems darker in color than the usual opal—a stone that is never the same, but changes with every angle of light and has the strength that the ordinary opal has not. The black opal not only is not unlucky, but invariably brings good fortune to the possessor.

These can be mounted in our own exclusive styles.

TO HOLD INQUEST INTO DEATH OF J. L. JOHNSON

This morning at 10 o'clock an inquest on the body of the late John L. Johnson will be held. Jurymen and witnesses were served yesterday.

With two bullet wounds in his body Mr. Johnson was found after three days' search in the bush at Forty-Nine creek on Wednesday afternoon.

TO END LIQUOR TRAFFIC

(By Daily News Leased Wire.)

STRATFORD, Ont., Oct. 9.—The feature of the Women's Christian Temperance union convention yesterday was the address of the president, Mrs. A. E. Stevens of Toronto.

The near approach of the celebration of 100 years of peace between Canada and the United States was heralded as an opportune time for the temperance people to end the liquor traffic. Touching on prohibition, Mrs. Stevens remarked:

"It is just possible that a forward step may be taken at the coming session of parliament in the shape of an opinion on Dominion-wide prohibition if the all important naval bill does not crowd it out."

Nelson Messenger Co. Prompt and reliable. Phone 242. Open nights. 114-tf

SENATOR APPLES GOOD VARIETY

William Stubbs Thinks Highly of This Variety—Fruit of Good Color and Shape

Highly colored, of splendid keeping qualities, of good commercial size and shaped well for packing purposes is the Senator apple, a variety which has been introduced to this district from North Yakima by William Stubbs of Fairview, who has 300 trees of this kind.

While on a visit to Vancouver, Mr. Stubbs two years ago saw some of the fruit at a large department store where a carload was sold at considerably more than the prevailing market price for other apples of a similar grade so rapidly that they were disposed of within a few minutes of the arrival of the consignment at the store.

Grafts which he placed in trees here two years ago are now commencing to bear fruit and Mr. Stubbs was yesterday showing some excellent samples of fruit. One thousand Senator scions have been ordered by the Doukhobors, he stated.

NANAIMO DOCTOR MISSING

VANCOUVER, B. C., Oct. 9.—Dr. W. F. Drysdale, 43 years old, one of the most prominent physicians of Nanaimo, is missing. Several days ago he returned to Seattle from San Francisco and then left for his home in Nanaimo. Since then he has not been heard of.

DIES FROM INJURIES

SASKATOON, Sask., Oct. 9.—John Viner, a laborer in the employ of the Saskatoon Construction company, working in a trench on Lorne avenue, was so badly injured this morning when a section caved in while he was working that he died within a quarter of an hour after he was rushed to the hospital.

NELSON NEWS OF THE DAY

Judge Forin will hold chambers this morning.

Mrs. S. Thorpe and Mrs. Bertram of Castlegar are visiting Mrs. R. J. Campbell.

A. E. Rand, who has been visiting in the district, will leave on the Great Northern this morning for New Westminster.

The city cement mixer was at work on Front street yesterday where a concrete gutter between Ward and Josephine streets is being laid.

Classes today at the Y. M. C. A. are as follows: High school, 4 to 5 o'clock; professional men, 5:15 to 6 o'clock; young men, 8.15 to 10 o'clock.

Carl E. Anderson will preach in the miners' union hall on Sunday afternoon at 2:30 o'clock. The address will be open to all speaking the Swedish language.

The "Streets of Paris" and amateur vaudeville will be produced in the opera house by local talent under the auspices of the Association of Church Helpers of St. Saviour's Church on Wednesday and Thursday, October 15 and 16.

The joint committee composed of six business men, six aldermen and six directors of the street railway, which was formed at the public meeting on Tuesday night to consider the tramway question, will meet at the city hall at 8 o'clock tonight.

At the last meeting of the Woman's Hospital Aid society a vote of thanks was extended to all those who in any way assisted the ladies in making the hospital booth at the fair the success which it proved to be. As the list of donors is a very lengthy one the secretary hopes the ladies will accept this notice of appreciation.

W. Mark De Cew of Grand Forks is at the Strathcona.

Mr. Justice Macdonald arrived last night from Revelstoke, where he presided at the assizes, and registered at the Strathcona.

Among the guests at the Strathcona last night was C. J. Westhead, who has been camping for some months at Kokanee.

C. H. Burgess wishes to extend his thanks to the members of the Odd Fellows and Rebekahs lodges, the machinists union and to the many friends for sympathy shown in his recent bereavement.

This afternoon there will be a meeting of the newly elected board of the Y. W. C. A. in the association rooms at 3:30 o'clock. Committees will be appointed this afternoon to carry on the various branches of the association work and much business of importance relevant to the newly established institution will be dealt with.

Inspector Wynn of the provincial police and license departments is on a tour of inspection in the interior. He has been on a visit to Salmo, Ymir and Erie in company with John T. Black, chief provincial constable, and spent yesterday in Nelson. He will make an inspection in the Boundary district before completing his work here.

OVERCOATS

Men have come so fast for fancy overcoats that we are away ahead of the overcoat game. But we expected a rush.

We knew the attractive fabrics being made for us in England and Scotland as well as in Canada.

Provision for a ripping big season was never greater. We were never in better overcoat shape than right now.

More Overcoats—More Models—than ever shown in Nelson before. For example, coats of fine imported Chinchillas, cut in the newest styles; collar, belt and cuffs all piped; first-class materials. They are very smart in cut and finish, and are light enough for comfort, while giving perfect protection against chilly winds and frosty weather.

Better Clothes

"Once upon a time"—and not so many years ago at that, Men would n't buy Ready-to-Wear Clothing at any price.

Their reasons were that they couldn't get a fit; that the workmanship was poor and that the Garments didn't keep their shape any length of time.

Their objections were not without foundation at that time, but times have changed. You can get as good a Suit of Ready-to-Wear Clothes, Overcoat, or Pair of Trousers nowadays as any Man would want to wear for just about half what you would have to pay the Exclusive Tailor.

That is why so many well-dressed Men patronize our store.

What Tailor will furnish you, for the same price, such Suits or Overcoats as we are selling for—

$18.00, $20.00, $22.00 to $30.00.
"Nit!" The Tailor Can't Do it!

Take half the money you have been paying the Tailor—and come here and see what you can do with it.

Don't Neglect Your Watch

A watch is a delicate piece of machinery. It calls for less attention than most machinery, but must be cleaned and oiled occasionally to keep perfect time.

With proper care a Waltham Watch will keep perfect time for a lifetime. It will pay you well to let us clean your watch every 12 or 18 months.
