UNIFORM MINING LAW PROPOSED

Will Include Best Features of Provincial Acts

TARIFF CHANGES WILL BE SMALL

Industrial Disputes Act to Be Extended-- Private Bills Fewer.

(By Daily News Leased Wire.)

OTTAWA, Jan. 13.—The list of government legislation for the session about to open includes, beside the redistribution bill and the highways and Intercolonial railway branch lines bill, the revision of the Merchants Shipping act and the Railway act. The latter will give municipalities more control over railways within their territory. No definite statement has been made yet as to whether the reform of the civil service, following the report of Sir George Murray, will be taken up this session, but bills will be introduced broadening the scope of the Industrial Disputes act, and establishing imperial naturalization, providing a uniform mining law including the best features of the various provincial acts, and regulating the manufacture of explosives.

Other legislation will have to do with trust companies doing a loan business, the management of insurance companies and co-operative companies, and possibly the capitalization of companies. It is expected that certain amendments will be made to the criminal code for the protection of women and other purposes, and that some of the recommendations of the interprovincial conference will be acted upon, including the change of the title, "lieutenant-governor" to "governor," and increasing the salaries for the position in the different provinces. It is possible that a few changes may be made in the tariff, but that is all, and it remains to be seen how much will be done in granting aid to railways and whether any relief will be voted for the depositors of the Farmers' bank.

Private Bills.

Private legislation, as well as that initiated by the government, gives promise of being unusually light in the session now opening. The financial depression is believed to be a material factor in reducing the list of concerns which are seeking legislative incorporation.

So far 113 private bills have been applied for, as against 206 last year. Of this number, 13 are new railway incorporations, 32 are amendments to existing charters, 10 are miscellaneous bills, 16 are amendments to bills of that character, three letters patent, and 39 divorce applications. Last year's numbered 50. Toronto has eight and Montreal seven divorce cases. The others are pretty well scattered over the country, with a considerable preponderance in the west.

DEATHS FROM COLD IN NEW YORK

One of Lowest Temperatures in Two Score Years—Keen Wind Adds to Misery

(By Daily News Leased Wire.)

NEW YORK, Jan. 13.—With the mercury standing at 3 below zero early tonight, this city lay in the grip of a cold snap of such severity as rarely is experienced here. Less than a dozen times in the 43 years of the local bureau's history has the thermometer registered a temperature so low. Notwithstanding this downward plunge of the mercury, which caused three deaths from exposure today, this was the warmest region of the state, reports from the north showing a drop of temperature running to a minimum of 47 degrees below.

A wind that at times blew 75 miles an hour added to the suffering.

Frank E. Berry, a chauffeur, of Detroit, died from exposure after waiting in his automobile for two hours in front of Carnegie hall. Henry Keifer, laborer, and Walter Haag, a grocer's boy, were overcome in hallways and died. Bernard Arnow, a contractor, was blown in front of a car and seriously injured. Several persons were removed to hospitals, suffering from exposure.

Weather and wind affected the harbor and river shipping and made navigation difficult.

Cold Causes Collision

(By Daily News Leased Wire)

TORONTO, Jan. 13.—Frost covered windows of an engine cab caused a rear-end collision between two Grand Trunk railway trains in the yards this afternoon. A train leaving for Hamilton ran into a northbound train waiting in the yard. The rear coach of the standing train was demolished, but no one was seriously injured, although several were badly shaken up.

CHICAGO, Ill., Jan. 13.—Three thousand men, who have been out of work since December 15, returned to work at the South Chicago plant of the United States Steel corporation today.

MARTIAL LAW IN SOUTH AFRICA

General Strike Proclaimed by Trades Federation

NATIVES TO BE RETURNED TO KRAALS

Engineer Leaves Passenger Train Stranded on Veldt-- Feeling Bitter.

(By Daily News Leased Wire)

CAPE TOWN, Jan. 13.—A general strike throughout South Africa was proclaimed tonight by the trades federation and the Rand miners, by a two-thirds majority, voted to join in the movement. Governmental retaliation was swift. It took the form of a proclamation of martial law.

This was the only step the authorities believed adequate to meet the situation, for the strike of the miners means not only the turning loose of the most turbulent spirits in the Rand, but raises the whole question of the position of the native workers.

If the miners actually obey the strike order the government will immediately take steps to send the natives under escort back to their kraals. This means that about 200,000 natives must be marched back by road to their homes at enormous cost. It will be most difficult, after the end of the strike, to recruit them again. In brief, such a step would mean disaster to the Rand for many years.

Tension is Great.

Although official reports from Johannesburg show improvement in train service, reports from other districts are less encouraging. In Natal the situation is one of great tension and it is feared the loyalty of the trainmen will not stand the strain much longer. An instance of the men's temper is shown by the action of the engineer who quit his engine on the veldt and left his train stranded.

Practically no information is at hand as to the conditions in the Orange Free State, but improvement there is not considered probable. From the government's standpoint, about the only ray of light today was the assurance from the Indian leader, Gandhi, that the passive resistance movement by the Indians against their grievances would be dropped during the present trouble.

The union government remains firm in its attitude. The premier, Gen. Louis Botha, is said to have declared that he would "guarantee that with the end of the present crisis there would not be another workers' strike in South Africa for a generation." Feeling runs high between the government supporters and the strikers, and the chance of mediation is practically hopeless. The supreme court has granted an application compelling the government to show cause why the strike leaders should remain in prison. Premier Botha has addressed a circular to the natives, ordering them to obey implicitly the compound managers and assuring them of the fullest protection, and the circular seems to have had an excellent effect.

The strikers are now making strenuous attempts to bring out the running staffs of the Cape Colony railroads, but the pickets are not allowed to approach within 100 yards of the quarters where the railway employes are housed.

All strike meetings today were remarkable for the moderate tone of the speakers, who addressed the men and advised them to proceed with the organization of their own police force and keep the peace so well that the tremendous display of force by the government would be made ridiculous.

The government is already threatening to institute a press censorship as strict as prevailed in war times.

Strike at Midnight.

(By Daily News Leased Wire.)

JOHANNESBURG, Jan. 13.—The general strike of all trades in South Africa was declared by ballot, which showed a majority of four to one. The strike is set for midnight. All street cars suspended service here this morning for an indefinite period. Employes of the banks are armed and sleeping in the buildings. No natives are allowed abroad after dark, and the members of the cabinet venture out only when accompanied by armed guards.

The martial law proclamation covers the principal districts in the Transvaal, the Orange Free State and Natal through which the main railway lines run and includes the cities of Durban, Pietremaritzburg, Johannesburg and Pretoria, but does not take in the Cape province.

The trades federation counted its strike ballots behind closed doors and when the result showing that the men favored a general strike was announced from a window, a scene of intense excitement ensued.

When the news that martial law had been proclaimed reached here, military activity became general. Patrols armed with ball cartridges were sent out in all directions. One of these patrols fired on a man who was placing dynamite on the railroad track. The man was not injured.

The president of the Bakers' union announced today that the baking of bread would continue, but that it would be distributed only to holders

PREMIER WHITNEY, OF ONTARIO, CRITICALLY ILL IN NEW YORK.

At the premier's bedside are his brother, E. C. Whitney, millionaire lumberman of Ottawa, and Hon. Dr. R. A. Pyne, minister of education for Ontario, and most intimate friends of the premier.

PRISONER'S APPEAL FOUND TOO LATE

Imprisoned in Fort Garry Two Score Years Ago by Hudson's Bay Traders.

(By Daily News Leased Wire.)

WINNIPEG, Jan. 13.—The pathetic appeal of a man imprisoned in Fort Garry in 1873 comes to light after lying dormant 41 years. The message was found in a bottle by an Elmwood school boy on the bank of the Red river, at the junction of the Seine. The message reads:

"Fort Garry, May 13, 1867.

"I am imprisoned in this fort by some Hudson's Bay traders. I tried to buy some furs from some Cree Indians when some men came and captured me: I secretly stole this paper and pencil from my guard. For God's sake please save me and you will save a wife and child. My home is in Montreal. Am here in a dungeon with only one window. I put this paper in this bottle so some one might pick it up and save me. This bottle was thrown in by a little Indian boy who I asked to throw it in the river.

"JEAN TAURAY."

NEW TAX ON FRENCH CAPITAL

Government's Proposal for Raising Money to Meet Heavy Military Expenditures—Income Tax.

(By Daily News Leased Wire)

PARIS, Jan. 13.—The French cabinet's project to meet the immense advance of military expenses of the country by an annual tax upon capital was laid before the chamber of deputies when it reassembled today. It had been anxiously awaited by the property class of France.

Joseph Caillaux, minister of finance, the author of the measure, estimates that it will produce $38,000,000 in the first year and more in the years following.

The new tax begins on fortunes amounting to $6,000. After deducting $1,000 for each child an assessment of 12 cents is to be made on each $200. The assessment then rises gradually up to 50 cents per $200 upon fortunes of over $2,000,000.

This tax is to be supplemented by an income tax.

The French government in drafting the bill kept two considerations in view—not to drive capital from the country, and yet to add considerably to the government revenue.

TWO ENGLISHMEN EQUAL TEN GERMANS

Teuton Can Only Make One Pot Boil, Says Science Master—Colonial Mistakes

(Western Associated Press Special Cable.)

LONDON, Jan. 13.—At a conference of science masters of the public schools, Prof. H. H. Armstrong described the German excellence in research as all moonshine. The Teuton he said, could only make one pot boil at a time. It takes 10 Germans to do the work of two Englishmen. A well educated Englishman is not cut out to take orders, but is much more capable of taking command of a situation.

The papers generally do not print the report, whereas if Prof. Armstrong had reversed the positions it would probably have been "scare headed," as a further evidence of British decadence.

Curiously enough, Prof. Bonn, of Munich, speaking at the Royal Colonial institute, admitted another Teutonic weakness, namely, colonial policy, and said that Germany had started on a wrong conception of colonial possibilities.

"We wanted to build up a new Germany and create daughter states like Australia and Canada. We carried the idea to its bitter end. We produced a huge native rising, causing the loss of much treasure and many lives. We tried to assume the functions of providence, we tried to exterminate the native race whom our lack of wisdom had goaded into rebellion. We succeeded in breaking up the native tribes, but we have not yet succeeded in creating a new Germany."

PREMIER LOSING IN FIGHT FOR LIFE

Sir James Whitney Growing Weaker—Takes Little Nourishment—Reports Give Small Hope.

(By Daily News Leased Wire)

NEW YORK, Jan. 13.—Sir James Whitney's condition has not shown any considerable change in the last 24 hours. What little alteration there has been, however, has been unfavorable, and those in attendance are keeping a close watch. They do not anticipate any fatal result for the present, but they admit he is losing slowly in the fight for life.

Both bulletins issued today were of the same general effect. That of the forenoon was not hopeful, but the bulletin issued at 9 o'clock tonight was even more discouraging. It read:

"Sir James Whitney's condition tonight is more unfavorable. He has taken little nourishment and is weaker."

For almost the first time since the party reached here four weeks ago Dr. Pyne did not leave the apartments at the Manhattan hotel, where his friend and patient is lying fighting what is considered his last fight.

Horace Wallis, the premier's secretary, was out for a short time tonight, but his errand was not merely to obtain air, but to secure some articles needed for the sick room. Dr. Pyne was resting, in preparation for whatever eventualities might arise. At the time of returning to the apartments about 11 o'clock Mr. Wallis declared that the bulletins told the story all too clearly. He added, however, that there was nothing to indicate dissolution within a few hours, as had been rumored possible. Beyond making this statement he said he could add nothing to what had already been announced. "It is quite apparent that he is growing weaker," said Mr. Wallis, "but he is by no means exhausted."

He was not inclined to discuss the matter further, and merely shrugged his shoulders when it was suggested that the strength and determination of the premier might still pull him through.

WHOLE BOARD IS DISMISSED

Edmonton City Council Makes Clean Sweep of Board of Commissioners—One Re-appointed.

(By Daily News Leased Wire)

EDMONTON, Alta., Jan. 13. — The city council tonight endorsed the recommendation of the special committee and dismissed the entire city commission board, composed of A. G. Harrison, A. J. McLean and John Chalmers. It was then decided to appoint new commissioners each with special duties. M. S. Booth, until now manager of the Hudson Bay store here, was chosen commissioner of public works. John Chalmers was re-appointed and given charge of operation. It was decided several days ago to do away with Mr. Harrison's services entirely, but there has been a big civic protest and no action has yet been taken as to whether he shall get a new job.

The New Colors For Spring

The stores are already beginning to answer the questions that so many women want answered.

As you read your newspapers today you will notice the new spring note creeping into the advertising. The stores are already beginning to show the beautiful cottons from which women will make their summer frocks.

The woman who expects to keep posted to the minute must be an advertising reader.

She must avail herself of the service her favorite newspaper provides for her.

It is the best fashion news in the world because it is based on actual merchandise and not on theories. It is up to the minute. It is written in a way that makes it clear to her.

But it seems almost unnecessary to remind Canadian women of the joys of advertising—for they are already the greatest readers of advertising in the world.

PREMIER BORDEN TO VISIT WEST

Expects to Make Tour on Completion of Session of Parliament—Many Invitations.

(By Daily News Leased Wire)

OTTAWA, Jan. 13.—Premier Borden will, in all probability, take a trip through the west after this session of parliament. He has not made any definite plans yet, but it is understood that he has assured some of his western friends that he will endeavor to visit that part of the country next summer. He has not been west since his political tour in 1911. That trip required a month, but was in the heat of a strenuous campaign when he had not a proper opportunity to see the country or get into touch with its varied interests. In the summer of 1912 he went to England to confer with the government on the question of naval defence and last summer he spent his vacation quietly at St. Andrew's, N. B. He has had many invitations since his last trip west and will doubtless have many more when it is known there is a probability of his making the trip.

ASSESSMENT IN VANCOUVER TOO LOW

Tax Rate Will Have to Be Raised—Increase in Assessment Only Six Millions.

(By Daily News Leased Wire)

VANCOUVER, B. C., Jan. 13.—Mayor Baxter is complaining bitterly at the failure of the assessment commissioner to properly increase the assessment. The tax rate in Vancouver will this year probably have to be slightly raised. Ald. Crowe, chairman of the board of works, thinks it inevitable that the city go back soon to the plan of a partial tax on improvements. Other members of the council are against this, so the chance is that the so-called single tax system will be continued in Vancouver just as long as possible.

The mayor thinks it an excellent advertisement. He thinks it would be a better advertisement if the assessment were raised so that a tax rate of, say 14 mills, would produce the same revenue as the proposed rate for this year of 21 mills. The increase of this year over last is less than $6,000,000, which the mayor thinks is ridiculously small.

FRAUD IN SALE OF COAL STOCKS

Unlawful Use of Mails Charged Against Spokane Promoter—Shipped Freight Free.

(By Daily News Leased Wire.)

SPOKANE, Wash., Jan. 13.—Indictments charging unlawful use of the mails in connection with the sale of stocks in various coal companies in British Columbia were returned here last night by a federal grand jury against R. C. Belden and A. E. Wayland, president and vice-president, respectively, of the International Development company of this city.

Indictments were also returned against Austin Corbin and G. H. Martin, vice-president and general freight and passenger agent, respectively, of the Spokane International railway, who are accused of violating interstate commerce laws in that about two years ago the defendants shipped freight free of charge from Mr. Corbin's ranch, a short distance north of Spokane.

ROYAL CHILDREN ARE LOCKED IN DUNGEON

LONDON, Jan. 13.—Norwich castle museum was the scene of another interesting royal experience in addition to the one in which the queen and her umbrella figured yesterday. Princess Mary, Prince Henry and Prince George descended into the historic dungeon which is reported to be haunted with the ghosts of "heretics" who languished there in the olden days until they were taken out to be burned. The equerry with the party locked the door and turned out the lights, imprisoning the royal children for several minutes. The young folks apparently enjoyed the joke and when they came out, said they did not see any ghosts but that was probably because the ghosts walked only at night.

CALL FOR HELP SUDDENLY CEASES

Fears for Fate of Royal Mail Liner

ENGINEROOM FILLING VESSEL SINKING

Hundred Persons on Board-- Rescue Ships Find No Trace.

(By Daily News Leased Wire.)

HALIFAX, N. S., Jan. 13.—Although the worst fears are entertained for the safety of the Royal Mail Steam Packet company's liner and her 100-odd crew and passengers, reported this morning as stranded on Brier island, there is yet a slender ray of hope.

It is that Capt. Hawson was wrong in his calculations and that instead of being ashore on Brier island he ran on a ledge on the west coast of Grand Manan island, known as Muir ledge. The reason for no word coming from that source throughout the day was the breaking of the cable between the island and the mainland several days ago, thereby cutting off all telegraphic or telephonic communication with St. John.

The steamers sent out from St. John to search the coast for the ship today were not equipped with wireless, and neither is the cable ship Tyran, operating in that vicinity. The only definite information received from any source was the message sent to the marine and fisheries department at Halifax from the signal station to the effect that the tug John Cannon, sent out at midnight to search the shore, had returned and reported no trace of the Cobequid or any wreckage.

May Have Foundered.

The tug had gone as far out as Fall rock, southwest ledge automatic buoy, but her search was fruitless other than to raise the hope of those who looked toward Grand Manan as the likely spot for the ship to have stranded or to further confirm the belief of those who fear that the Cobequid foundered in the deep water off Brier island ledges with the loss of her passengers and crew.

High gales and blinding snow storms were sweeping the south coast and Bay of Fundy shore, making the work of searching very difficult and dangerous. Pickford & Black, the local agents, were in receipt of a message tonight from Yarmouth to the effect that the tug Hugh Cann, which had gone out from that port to search the coast, was compelled to return to harbor for shelter and to give up her work temporarily, owing to the blinding blizzard. Since early this morning when the "S.O.S." messages from the doomed ship were picked up by wireless stations along the coast, nothing has been seen or heard from her.

At 8:30 a.m. Cape Sable island Marconi station reported that communication with the ship had ceased. Suspense and fear, alternating with the faint hopes that among the islands of Grand Manan the stranded ship might be still above water and her complement of 100 men safe somewhere along the shore, have filled the hearts of the many who know the treacherous nature of the Bay of Fundy.

Out of the whole day's frantic search, when ships from Halifax, Yarmouth and St. John were rushing to the aid of the stricken ship, nothing more definite than what the early morning messages conveyed was gathered, except the hopeless despatch from Brier island signal station.

The last definite information received from the Cobequid was that her engine room was flooded and that she had a bad list. This would not account for her wireless being out of order, as she was equipped with emergency storage batteries giving a radius of 150 miles, which would be workable long after the engines were out of order.

Cry for Help

(By Daily News Leased Wire)

HALIFAX, N. S., Jan. 13.—A wireless cry for help from the Royal mail steamer Cobequid, fast on the dreaded ledges of Grand Manan, just before daybreak today was followed by a final flicker of her radio saying that the ship was filling, has caused grave concern for the 120 persons on board.

The Cobequid was bound for St. John, N. B., from the British West Indies, in command of Capt. Hawson, completing her first round trip over this route. She had a crew of 102 men, a number of second class passengers, and the following in the first class cabin:

L. D. Navarro, L. Botta, W. C. Somner, Mrs. Somner and child.

She had called at Bermuda, but most of her passengers were from points south of there.

Whether the Cobequid had survived an all day battle with the hurricane and would hold together until one of the fleet of nearly a dozen rescue boats could reach her was a matter of increasing hourly fear tonight.

Up to darkness, nothing had been found on the east shore of the bay of Fundy, where she was first reported aground, through the vapor which surrounded the west side of Grand Manan, on one of whose numerous

(Continued on page seven.)

EARTHQUAKES AND FAMINE IN JAPAN

Volcanic Discharge Carries Death and Destruction

TERROR INCREASED BY TIDAL WAVE

Thousands in Death List-- Fugitives Crawling on All Fours.

(By Daily News Leased Wire)

TOKIO, Jan. 13.—Japan is heroically meeting a double affliction—famine in the north and earthquakes and volcanic eruptions in the south.

Ten million people are in need of food in northern Hondo and Hokkaido, and there have been many deaths from starvation. In the south the islands of Kushi and Shikoku are in the grip of seismic disturbances. Craters have suddenly discharged flaming rocks and ashes, carrying destruction and terrifying the southern empire. Ashes are falling as far north as Osaka.

Although the fate of the inhabitants of Sakura island is not certain, it is believed the great majority of them have escaped in boats to the mainland. Many have escaped in a maimed and burned condition.

This morning the foreign office received a despatch from the former minister to China, Mijuin, now a resident at Kagoshima, sent from there only a few hours before, saying:

"About 10 persons have been killed and 30 injured. The whole city is in great confusion."

The foreign office thinks this indicates the early reports were vastly exaggerated. A steamer which succeeded on Monday in touching the eastern coast of Sakura reports that it rescued 300 persons, but was unable to take more. The police and soldiers of Kagoshima made many heroic rescues. The men and women, accustomed to participation in the festivals to commemorate the eruption of 1779, did not realize the extent of the disaster, and it is feared that many of them were killed before reaching the seashore. Thousands, pursued by a rain of fiery stones, knelt on the beach half submerged in water and gesticulated wildly to the steamers and fishing boats. The heat is described as infernal.

The refugees from Kagoshima fled across the heaving land caused by the rapid succession of quakes. The whole southern half of Kiushu is enveloped in ashes and smoke. Sakurajima, however, appears to be the only volcano being active at present.

The government is profoundly distressed and has ordered additional warships to patrol the affected district.

Asama Yama, in the island of Hondo, reports great eruptions. Asama Yama is a lofty volcano a few miles northwest of Tokio, with a crater 1,000 feet in diameter. The scene is described as awful, and flames shot thousands of feet into the sky. In the Utsunomi Ya district the sky is overcast and every roof is covered with white ashes.

Many crevasses formed at Kagoshima, and owing to the movement of the surface of the earth the fugitives were forced to proceed on all fours. Thousands took refuge on top of the famous mount Shiro Yama, fearing a tidal wave. Many of the houses at Kgoshima collapsed and there are three feet of ashes in the streets. They are said to contain poisonous gases.

Thousands Dead

(By Daily News Leased Wire)

NAGASAKI, Japan, Jan. 13.—Indications today are that the death list from the earthquakes and volcanic disturbances around Kagoshima will run into thousands. Government authorities declare that any official estimate of the death list would be impossible for several days. The population of the city of Kagoshima, which is almost completely buried in volcanic ashes and stones, was 60,000 at the last census. The population of the adjoining island of Sakura, the centre of the disturbance, is given as 15,000.

On this island hundreds are reported to have perished beneath the streams of molten lava from the volcano of Sakura-Jima. Many more were undoubtedly drowned while attempting to escape.

Terror of Tidal Wave

(By Daily News Leased Wire.)

TOKIO, Jan. 13.—A tidal wave added its terrors to the earthquake and volcanic eruptions which struck Kagoshima, in southern Japan, yesterday, according to official advices today.

It is believed here that the Kagoshima disaster will prove to be one of the most serious in the history of Japan.

BARON GRAVES DEAD

(Western Associated Press Special Cable)

LONDON, Jan. 13.—Hon. Henry Cyril P. Graves, the fifth Baron Graves, died today at North Sandfields, Gainsborough. He was born Sept. 10, 1847. The title was created in honor of Capt. Graves, who led the van in the victory of Earl Howe on the glorious first of June, 1794.

LABOR UNIONS START NEW CLUB

Series of Provision Stores Also to Be Established — Food at Cost Price.

(By Daily News Leased Wire.)

LONDON, Jan. 13.—A counterfoil to the society all-night club is proposed by the labor unions with the additional advantage that their club will be a centre of industrial organization activity instead of mere centres in which the spider of folly spins her web, and it is intended that this great centre shall be built in Drury Lane, right in the centre of the Covent Garden property secured from the Duke of Bedford by Mallaby Deely, M. P.

Th- scheme is to provide a workman's palace right alongside the fashionable clubs and thus bring the workers more into the aristocratic section of the west end, not that Covent Garden is either in the fashionable club district, or in the west end, but it will be sufficiently near the fashionable clubs.

Fifty trades unions propose to combine to erect a hall at the cost of $300,000, which will provide a restaurant and amusement hall, etc, with dining rooms and smoking lounges. Arrangements will be made with the trades unions on the continent of Europe for the interchange of courtesies just as the aristocratic clubs do.

It is also proposed to establish a series of provision stores from which supplies may be furnished during strikes, the calculation being that the unions will save one-third of their present strike allowances by being able to supply food at cost prices.

TRAIL NEWS

(Special to The Daily News.)

TRAIL, B. C., Jan. 13.—N. W. Burdette, accountant for the Consolidated Mining & Smelting company at Marysville, returned home on Tuesday evening after spending a few days in town.

F. G. Hawkes, accompanied by his bride, returned home yesterday after a three weeks' visit to the coast. Mr. Hawkes was married in Vancouver on New Year's day. They will make their home in the Allison residence on Spokane street.

Walter Truswell left on Sunday evening after a two weeks' visit to his home here. He will stay in Victoria for a few days and from there will go to Port Alberni.

A special train left Trail with a number of members of the local I.O.O. F. lodge to attend a joint installation of officers.

Messrs. Stewart and Douglas Riddle of High River, Alta., are spending a week at Smelter hill.

Owing to the late hour set for the hockey match between Rossland and Nelson at the Golden City on Tuesday evening a large number of fans were disappointed in not being able to attend the first league game of the season.

At the regular monthly meeting of the Ladies' Aid of Knox Presbyterian church, which was held on Monday afternoon, officers were elected for the ensuing year as follows: President, Miss Dixson; vice-president, Mrs. G. F. Weir; secretary, Miss E. McKay; treasurer, Mrs. N. Binns.

McQuarrie & Robertson report the sale of a lot on Bay avenue adjoining the News office, to an outside investor who is heavily interested in other realty here.

Frank Quimby, a builder from Spokane who has recently come to reside in Trail has been successful in securing several contracts. He is just completing the new store on Rossland avenue for the Italian Co-Operative society, this structure having been built of brick and concrete and the builder has established a record for quick building here, having almost finished his contract in five weeks. Mr. Quimby is also erecting a modern residence for Angus Halliday on Tarrarac avenue. It is certain that the building activity in Trail will continue all during this year and will probably beat the record of 1913.

DON'T SCOLD CROSS, IRRITABLE CHILDREN

If Tongue is Coated, Stomach Sour, Breath Feverish, Bowels Clogged, give "Syrup of Figs."

Mother! Look at the tongue! see if it is coated. If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat heartily or is cross, irritable out of sorts with everybody, stomach sour, feverish, breath bad; has stomach ache, diarrhoea, sore throat, or is full of cold, it means the little one's stomach, liver and 30 feet of bowels are filled with poisons and clogged up waste, and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs, and in a few hours the foul, decaying constipated matter, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well and smiling child shortly.

With Syrup of Figs you are not drugging your children, being composed of luscious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.

MANITOBA STUDENT AS RHODES SCHOLAR

(By Daily News Leased Wire)

WINNIPEG, Jan. 13.—Simon Abrahanson, a student in law at Manitoba university, was today selected as Manitoba Rhodes scholar, for 1914. He is 22 years of age and took his B. A. in 1912, winning high honors in his class and being ranked as one of the best debaters in the university.

Mr. Abrahamson was born in Mile End, London, but came to Winnipeg as a boy. His parents are Hebrews and his father is prominen tin the city, being a member of the Winnipeg school board.

FISHING STEAMERS MISSING

(By Daily News Leased Wire.)

BERLIN, Jan. 13.—Two large fishing steamers, the Lloyd and the Porely, which left Geestemuende in the middle of December for Iceland, have not been reported since. Their owners, fearing they may have foundered or been frozen in the fords of northern Iceland, today requested the admiralty to send a German cruiser in search of them.

PUGILIST ACQUITTED

(By Daily News Leased Wire.)

LOS ANGELES, Cal., Jan. 13.—Jess Willard, the heavyweight pugilist, on trial charged with prize fighting, was acquitted by a jury today after an all-night deliberation. The charge was the result of the death of John Young, after a bout at the Vernon arena, with Willard, Aug. 22.

PIGS SHOW HOMING INSTINCT

Swim Across Columbia River to Reach Ranch on Which They Were Born.

(Special to The Daily News.)

ROBSON, B. C., Jan. 13.—One day last week two seven weeks old pigs swam across the Columbia river. The pigs, which had been sold to a resident on the West Robson side of the river, had been taken over in a crate and had in some manner during the night escaped. Inquiry being made the following day resulted in their being found on the ranch from which they were sold, they having successfully breasted the current of the Columbia river, which for pigs under two months old is considered a difficult feat.

At the Church of England vestry meeting held on Monday, January 5, the following officers were elected: H. G. Slater, vicar's warden; A. F. Mitchell, people's warden; A. Hurtford and E. Watts, sidesmen. H. G. Slater was also elected delegate to the synod, with E. Watts as substitute.

A meeting of the Robson Farmers' institute was held on Thursday evening last, the subject of live stock being considered.

John Horn returned on Friday from a week's visit in Nelson, the guest of his daughter, Mrs. John Bliss.

Dr. A. P. McDiarmid was a recent Nelson visitor.

The first regular meeting of the Robson Women's institute for the new year will be held on Saturday next at the home of Mrs. A. D. Clyde. The subject for discussion will be "Winter Vegetables and Different Ways of Cooking them."

The Canadian Pacific railway has had a gang of men repairing the floating dock.

Mrs. Thomas Cowley of Castlegar died on Saturday morning last. Mrs. Cowley was a former resident of Robson.

MANY FESTIVITIES AT THITREEN MILE

(Special to The Daily News)

THIRTEEN MILE, Jan. 13. — The new year was heralded in by a large party at the residence of Mr. and Mrs. C. Bourke, where an enjoyable evening was spent playing trump whist. The first ladies' prize was won by Mrs. Eskrigge with a score of 180. Mrs. Hill soming second with 177. Among the gentlemen, B. A. Smith won the first prize with 192 and Mr. Cooke-Hurle, the second with 178. Owing to the snowstorm and wind some of the guests were unable to be present. Among those present were Mr. and Mrs. Cooke Hurle, Mr. and Mrs. Gordon Hallett. Mrs. Eskrigge, Mrs. Hill, Mr. and Mrs. B. A. Smith and Messrs. Hudson, Crozier, Smith, R. and B. Stratton and R. A. Shore.

Mr. and Mrs. Biber, from Nelson, were the guests of Mr. and Mrs. C. W Bourke for New Year's eve.

On Sunday evening there was a dance at Reylston ranch, an d about 20 couples turned out although it was a very bad night. Supper was served at about 12 o'clock. Mr. Shannon from Five Mile supplied the music on his violin. Among those present were Mr. and Mrs. Cadzow; Mr. and Mrs. Wilson and Miss Barnes; Mr. and Mrs. Brown; Mr. and Mrs. Harron; Mr. and Mrs. Resden; Mrs. C. W. Bourke; Mrs. Crozier Smith; Mr. and Mrs. Ogilvie; Mrs. Barcendale; Mr. and Mrs. Mackereth and Messrs. H. Lownshend, R. and B. Stratton, T. Young, E. Ramsden; R. A. Short, J. Jerram, B. Creasy. In the middle of the evening two turkeys were raffled by Mr. Harrop, the first being won by J. Jerram and the other goin to A. Mackereth.

Mrs. Bourke gave a children's party on Saturday afternoon to which most of the children of the settlement went and thoroughly enjoyed themselves.

It was pouring with rain on Monday afternoon so all the guests did not turn up at the children's party given by Mrs. Crozier Smith. Tea was served in the dining room and after tea there was a Christmas tree, all lighted up and presents, sweets and oranges for the children. The party broke up early as the children all had distances to go.

Mrs. Crozier Smith was successful in winning the stylish Perry & Dame hat raffled by R. A. Shore, the winning number being No. 1. In future there will only be two mail days at the Moyie Gibson post office, Mondays and Wednesdays. Mr. Kitto has taken on the post office instead of Frank Scott.

EAST ARROW PARK NEWS

(Special to The Daily News.)

EAST ARROW PARK, B. C., Jan. 13. —The logs for the floating stage of the new Dominion government wharf at East Arrow Park, which is to be built this winter, were brought to town this week by J. Ion, who secured the contract for them some time ago. Owing to the size of the logs they were towed up from Graham's landing by the tug Dorothy Symons and Mike Yingling's launch.

Robert Sims returned this week from his farm on the prairie for the winter. He reports that the crops around Coronation, Alta., were very good last fall and that the weather up to the time of his return was very open.

William Graham, vice-president of district No. 18, United Mine Workers of America, left his ranch this week to resume his duties in Coleman and elsewhere, after spending Christmas and New Year's with his family.

ROSSLAND NEWS

(Special to The Daily News.)

ROSSLAND, B. C., Jan. 13.—A joint installation of Deborah Rebekah lodge No. 13, Rossland, Rossland lodge No. 36 I. O. O. F., and Trail Enterprise lodge No. 43 I. O. O. F. was held on Monday night in the Oddfellows hall. A special train brought a large number of people from Trail. The installing officers were: William Haskeith, Trail, D. D. G. M.; D. R. Macintosh, D. D. G. W.; R. D. Mitchell, D. D. G. Secretary; P. R. McDonald, D. D. G. treasurer; Emil Johnson, D. D. G. chaplin; Thomas Embleton, D. D. G. M.; F. Lemieux, D. D. I. G. After the installation, Mr. Haskeith spoke and then the carpet was rolled up and dancing was indulged in until 11 o'clock, after which supper was served in the banqueting hall by Mrs. Doell, dancing continuing until 1 p.m., the special train returning to Trail at 1:15. During the evening a presentation was made to Mrs. E. Campbell by District Deputy Mrs. J. A. McLeod.

Following were the officers elected:

Deborah Rebekah Lodge No. 13—Chaplain, Mrs. Long; warden, Mrs. Hamilton; conductor, Mrs. Tretheway; R. S., Mrs. J. A. Morrison; L. S., Miss Millicent Evans; R. S. S., Mrs. Junkin; L. S. S., Mrs. Hunt; inside guardian, Mrs. Merry; outside guardian, Miss Dewar; pianist, Mrs. Evans; R. S. V. G., Mrs. Langdon; L. S. V. G., Mrs. Cross.

Rossland Lodge No. 36 I. O. O. F.—Warden, William Cross; conductor, K. Martin chaplain, Mrs. Talbot; R. S. S., H. Stewart; L. S. S., T. Mills; R. S. N. G., P. R. McDonald; L. S. N. G., E. Campbell; R. S. V. G., Harvey Lynn; L. S. V. G., C. Campbell; inside guard, F. Lemieux; outside guard, J. Jarvis; N. G., R. Anderson; V. G., J. Sweeny; secretary, W. S. Murphy; treasurer, Thomas Embleton.

Trail Enterprise Lodge No. 43—N. G., W. E. Morgan; V. G., W. McPherson; secretary, E. Cockroft; treasurer, F. Dockerill; warden, P. Jones; conductor, H. Woodburn; R. S. N. G., J. Melross; L. R. N. G., W. J. Evans; R. S. V. G., H. Stone; L. S. V. G., W. Holgate; R. S. S., H. Jones; L. S. S., E. Fowler; I. G., E. Kerr; O. G., J. Ford; chaplain, Mr. Andrews.

Owing to there being no ice in Trail an invitation has been extended to the Trail curlers to use the ice here on Saturday next.

Following are the officers of the Rossland Aerie No. 10, who will be installed on Thursday night: Junior past worthy president, R. A. Anderson; worthy president, P. R. McDonald; worthy vice-president, J. B. Hamilton; worthy chaplain, A. M. Thomas; secretary, F. J. Harding; treasurer, A. W. Sprague; worthy conductor, Hugh Wilson; inside guard, Fred Parker; outside guard, James Laity; trustees, R. J. Coulter, Dan Thomas, A. Smith; aerie physician, Dr. J. W. Coffin.

Archdeacon Beer of Kaslo is in the city.

Last evening, when the Ladies' club entertained the gentlemen, was a delightful one. The Conservative rooms were lent to the ladies for the occasion and were beautifully decorated with hearts. The banqueting hall looked very pretty with hearts of all sizes strung about the room and the refreshment table was decorated in red. Fourteen tables of hearts were played until 11 o'clock, when refreshments were served after which dancing was indulged in. Those winning the honors of the evening were: Mrs. Ternan, Mrs. Gilmour, Mr. Lamont and Mr. Maclachlan.

Last night was the literary meeting of the St. Andrew's Y.P.S. The vice-president of the literary department, Mr. Crosscomb, was in the chair. Impromptu speeches were given by all the members, which proved very interesting. The meeting on Monday night next will be missionary.

A quarterly meeting of the official board of the Methodist church will be held on Wednesday evening in the church parlors.

The Epworth league of the Methodist church was in the hands of the Missionary department last evening. The subject of the evening was "Temperance." Those taking part were: Messrs. Couch, Morrell, Johns, Nixon, Moir, Harris and Christie.

On Thursday evening the teachers and officers of the Methodist Sunday school will meet at the Methodist parsonage.

The annual vestry meeting of the congregation of St. George's church was held on Monday. The rector read his review of the year, emphasizing particularly the fact that the church had been supported during the year entirely by direct giving. The wardens' report showed that all debts were cleared off and all liabilities met up to date, and a balance had been placed in the building fund. After the presenting of the other reports the usual votes of thanks were passed and afterwards the election of three lay delegates to synod, who would take part in the election of the first bishop of Kootenay took place. The following were elected: Messrs. Beames, Denison and Langford; substitutes: Messrs. Corbett, Ollis and Bloy. The election of churchwardens then took place, the rector again asking the congregation to elect both Messrs. Langford and Sharpe who were elected. The following were elected as sidesmen: Messrs. Corbett, Ollis, Goodeve, Morgan, Atkinson, Bloy, Beames, Wadds and Bitton.

REESTABLISHMENT OF POLL TAX IS RECOMMENDED

Nakusp Conservative Association Elects Officers—Pansies Being Picked in Nakusp Gardens

(Special to The Daily News)

NAKUSP, B. C. Jan. 13.—The Nakusp Conservative association held its annual meeting on Monday evening at the Exchange Assembly rooms, there being a representative attendance. E. R. Vipond occupied the chair and gave the presidential address on the work for the past year which included the opening up of streets, construction of sidewalks, removing dangerous snags at foot of lake and preparations for new public wharf. The election of officers for the ensuing year was then proceeded with resulting as follows: Hon. president, R. F. Green, M. P.; Hon. vice president, Wm. Hunter, M. P. P.; president, L. J. Edwards; vice president, R. H. Baird; secretary, A. E. Haigh; treasurer, L. H. Rawlings; executive, R. L. Rothwell, D. T. Bulger, Thomas Abriel, J. H. Westrup, E. R. Vipond, Dr. Lavell, Thomas Reid, T. H. Bohart.

The delegates to the provincial convention to be held at Victoria on Jan. 23 and 24, L. J. Edwards and H. L. Rothwell, had been elected at a special meeting.

The new president then occupied the chair and in his remarks outlined the work required of the new executive during the coming year. A vote of thanks was tendered the outgoing executive.

Suggestions as to the necessary public works were invited from the audience and the following program was approved: Sidewalks: Broadway south, Lake avenue to Nelson avenue, Pine avenue, Broadway to Bay street; Columbia avenue, Broadway to Lane; Bay street, Lake avenue to Nelson avenue, 8 feet; Lake avenue, Broadway to Lane.

Streets: Grade Broadway, Lake avenue to Nelson avenue; Grade Slocan avenue, Hotels to Graham street; open up Edith avenue, Broadway to Francis street; open up road to pole yard; open up Graham street, Edith avenue to Nelson avenue and Brouse road; open up road Glenbank to Rogers, 33 feet; repair curve at Methodist church; gravel Shakespeare avenue, Bay View road and Brouse road; survey road Nakusp to Hot Springs.

The executive were instructed to keep the wharf question alive and the building of a high school in conjunction with the school board, and the delegates were instructed to support two resolutions to be presented by the Arrow Park association at the convention to exempt ranchers from payment of gun licenses within a radius of five miles from their holdings and to urge on the government the granting of loans to farmers at low interest repayable in 20 years.

The delegates were also instructed to frame a resolution urging the government to re-establish the poll tax on those who do not already pay taxes in some other form to the provincial exchequer.

On motion of E. R. Vipond the delegates were also instructed to interview the government re loan for a water works system for the town and district.

Mrs. D. D. Horne entertained a party of 34 to whist. Various other games were indulged in and an excellent time was enjoyed by the guests. Prizes were distributed to the assistants and refreshments partaken of. The party was one of the largest numerically ever given in the town in a private house.

R. A. Quance is on a business visit to Nelson.

A. C. Yoder returned from a trip to Revelstoke yesterday.

E. R. Vipond is extending his pole yard, installing a steam engine for his tie mill and expects to considerably increase his output during 1914. The engine and boiler is being installed at present.

The present winter season is one of the mildest in the history of the town. The ground is almost bare of snow pansies were picked yesterday in the garden of Walter Scott, not a particle of ice has formed on the lake, skating is impossible and hockey games which were earlier arranged for have been cancelled.

Miss Jesse Milne has arrived to take charge of Box Lake school, succeeding Miss Middleton. Miss Milne is recently out from Scotland and has high testimonials of her efficiency as a teacher and is an accomplished musician.

The Brouse Rural Telephone company have formally taken over the town telephone system, having purchased it from L. J. Edwards, who installed the system.

A new company known as the Nakusp Dairy and Produce company has purchased a lot on Bay street and will erect a suitable building soon for their business.

HAD TO STOP WORK FROM THE PAIN

Suffered Ten Years Until "Fruit-a-tives" Cured Him

ST. THOMAS, ONT., May 22nd, 1913. "I was troubled for ten years with the most distressing Constipation and Indigestion of the worst form.

No one could have been worse with these troubles than I was for this long time.

The pain from Indigestion was so severe that many times, I have had to stop work and lie down until the acute spasms passed away.

I took a lot of medicine—in fact, I guess I took about everything that was advertised—and gave them all a fair test—but got no relief. About a year ago, however, I was advised to try "Fruit-a-tives". I am mighty glad I did so for they seem to be made exactly for me.

They gave results in a very short time and I am now free from these diseases and enjoying perfect health.

My wife also used "Fruit-a-tives" and we both think they are the best medicine ever made."

Z. J. EDGEWORTH.

50c a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

PITTSBURG PRESIDENT TO DRAW UP SCHEDULE

(By Daily News Leased Wire)

MEDICINE HAT, Alta., Jan. 13.—In response to the demands of the Western Canada League club owners that a competent experienced schedule man draw up the schedule for the coming season, President Fleming has secured the services of the greatest authority on schedule making, no other than Barney Dreyfuss, president of the Pittsburg National league club, and the man who drafts all the National league schedules. Mr. Fleming, after collecting all the data for the preparation of the schedule, is today in receipt of a reply that Mr. Dreyfuss consented to take over the task, and asking that the different data regarding the season, jumps, etc., be forwarded to him.

In closing his letter of acceptance he also thanks Mr. Fleming for the compliment of considering him a past master in the art of schedule making.

ENGINEER OF RAILWAY COMMISSION IS DEAD

OTTAWA, Jan. 13.—Albert J. Nixon, chief operating engineer of the railway commission, died suddenly at his home here a few minutes after arriving from Quebec. He was 38 years old.

BIG BARGAIN OFFER BY THE DAILY NEWS

20 per Cent. Discount on Subscriptions, Subject to Terms Below. No Premiums of Any Kind Included With This Offer. It's a Straight Cash Proposition. Pay Now and Save

The Nelson Daily News offers a cash discount of 20 per cent to all old and new subscribers who, between Jan. 5 and 22 inclusive, pay their subscriptions up to or beyond Jan. 1, 1915. After Jan. 22 subscriptions will be payable strictly in advance anyhow.

This will apply on all arrears as well as on subscriptions for the current year. But in order to secure the benefit of the 20 per cent. discount on arrears it is necessary that sufficient money accompany the amount of these arrears to pay for the paper up to at least Jan. 1, 1915. Otherwise the discount will not be allowed on the arrears. No discount will be allowed anyone on the current year's subscription unless the payment carries the subscription forward to Jan. 1, 1915. In other words payment in full must be made up to at least Jan. 1, 1915, in order to secure the 20 per cent discount.

This offer positively and absolutely will not hold good after Jan. 22, after which date all subscriptions will be payable strictly in advance, so that by paying during the bargain period you will save yourself money.

All subscribers who receive their copy of The Daily News by mail can tell how their accounts stand by looking at the label which tells the date to which the subscription is paid. Compute your subscription from that date to Jan. 1, 1915, and you have the amount upon which you can secure the 20 per cent. discount. City subscribers may find out how their accounts stand by inquiry at The Daily News office.

Remember this offer will not hold good after midnight of Saturday, Jan. 22, 1914. The date will not be extended a day. After Jan. 22 it will not be possible to secure The Daily News or to pay up arrears except at the regular rate of $5.00 a year. By taking advantage of the 20 per cent discount a saving of $1.00 a year can be effected. Is this not worth taking advantage of? Send or bring your money to The Daily News office without delay.

Save 20 per Cent. On Your Subscriptions

Where any of the above applications contain more than one application or notice, each application or notice will be charged for as a separate advertisement.

WEDNESDAY, JANUARY 14

PREMIER BORDEN WILL BE WELCOME.

It is announced from Ottawa that Premier Borden will tour the west after the coming session. This decision should be welcomed, irrespective of any political consideration. It is in the interests of Canada that the powers that be at Ottawa should keep themselves thoroughly posted as to the development that is taking place in western Canada and as to the needs of this section of the Dominion.

In saying this there is no desire to encourage any sectional feeling in the west as against the east. Canada is Canada from the Atlantic to the Pacific and from the American border to the limits of land in the north. This fact must be recognized in the east and in the west and in every part of the Dominion.

But in the rush of government business, premiers, leaders of oppositions and cabinet ministers are apt to give their first direct consideration to the parts of the Dominion closest to the seat of government and where by all odds the greater portion of Canada's population at present lies. But the west is young and growing and after the coming session will have at least one-quarter of the total seats in the house of commons.

From political reasons, therefore, it is expedient that the party leaders should keep in touch with the west. But beyond this is the fact that the west is growing more rapidly than any other portion of the Dominion and that as this growth takes place new problems arise and new situations are created. There is only one way in which political leaders can become acquainted with these problems and these situations, by visiting the west and meeting its people and studying conditions.

If Premier Borden visits the west, as it is announced he will during the coming summer, he will not only be serving his party's interests, but his trip should also redound to the benefit of Canada as a whole.

THE COMING SESSION.

According to the forecast of the legislation to be submitted, the forthcoming session of the Dominion parliament will be an interesting one. There will be many measures of general importance, but perhaps from a party standpoint greatest interest will attach to the proposed redistribution measure.

As is generally known a redistribution bill must be introduced after every census. The election of 1911 was called without waiting for the census returns of that year, so that there has been no object in hurrying the passing of a redistribution bill which could not in any case become effective before the next Dominion election and there is no pressing reason why this should take place for another year or even two years. But the adoption of such a measure before another appeal is made to the people is imperative.

That there will be a party fight over any measure of the kind which may be submitted may be expected. Redistribution measures have always been the subject of fierce conflict in parliament, no matter which party happened to be in power at the time.

But while the redistribution measure may be the most hotly debated of the coming session there will be other legislation submitted of far-reaching importance. Included in this is the proposed measure relating to Imperial naturalization, through which it is intended to give effect to the demand that a person naturalized as a British subject in one part of the empire shall be regarded as a British subject in every other part of the empire. At present a man may be a full-fledged British subject in Canada, for example, and still be an alien in every other part of the empire. That this is an undesirable and an unsatisfactory state of affairs no one will attempt to deny.

Other measures as outlined will give parliament lots of real work to do this session. It is hoped that legislators on both sides of politics will give their first attention to the country's interests rather than to those of their respective parties, as so often happens, and that the session may be remarkable not for the number of partisan speeches made, but for the amount of business transacted in the interests of the Dominion as a whole.

EDITORIAL NOTES

The poor old senate has its usual work before it. There are a number of divorce cases down for hearing.

One more day of the civic campaign then voting and then all can settle down to forget their differences and work together in the city's interests.

WHAT THE PRESS IS SAYING

The Unrefined Tango

Bishop Clark, of Hamilton, says that from what he can learn of the tango it is not a dance for refined people. Our objections are thus immediately explained. Refinement is our long suit. —Toronto News.

Less Costly

Many a friend will shed a tear who will not shed a dollar.—New Orleans Picayune.

What Kipling Did Not Foresee

When Rudyard Kipling wrote that "East is east and west is west, and never the twain shall meet," he did not foresee that an Indian prince would marry a suffragette.—Edmonton Bulletin.

They Got Their Man

Word comes that two of the Royal Northwest Mounted Police are getting back to Saskatoon after a two months' hunt to the northern wilds for a man who kidnapped a girl. They have the man. This is the sort of work which has always ensured a great respect for law and order throughout the vast west—and helped incidentally to maintain it in the east, too. Enforcement of justice may come high at times—but in every case it pays.—Ottawa Journal.

THIS DAY IN CANADIAN HISTORY

In the autumn of 1874, E. W. Jarvis and C. F. Hannington, surveyors for the Canadian Pacific railway, were asked to make a winter exploration of the Smoky River pass, to the north of the Yellowhead, to see if it would offer a more advantageous route than the passes already explored for carrying the railway across the Rocky Mountains. It was a difficult and dangerous journey, for as dog-trains were the only means of transport it was needful to cut down the supplies to absolute necessaries. The party left Fort George on this day in 1875, knowing when they started that they would have "some small rations" before they got through. They had to explore in succession two branches of the Smoky river only to learn that the pass was useless from the engineer's standpoint. Owing to deep snow, storms, and the difficulties of the way, it was "a hard trip from first to last." They lost many of their dogs and were forced to kill some of the poor starved brutes for food. Towards the last, they almost expected to leave their own bones in the wilderness, but as has been the case many a time with the pioneers of our Canadian railways, pluck and endurance won the day."

COMMUNICATION

NOT DOLLAR RECEIVED FROM CITY FUNDS

To the Editor of The Daily News.

Sir: We have heard that a report is being circulated to the effect that the Rosemont syndicate, whom we represent, has been receiving considerable assistance from the city financially during the year 1913, and we request that you give this letter space in your valuable paper.

On behalf of the Rosemont syndicate and ourselves, we now wish to contradict flatly any rumor of this kind, and may state that we have not received from the city of Nelson one dollar as assistance in making improvements on Rosemont. There is now in the neighborhood of three-quarters of a mile of water mains which have been paid for entirely by our syndicate. Some $900 was paid for water pipe and $685 as wages. We might also note that $550 was paid in wages. The electric light was installed by the city on petition from parties wishing this service, and when this petition was presented the resolution was moved and seconded in the usual way and the work ordered to be done. We are safe in saying that there is already a revenue sufficient to pay interest on the amount of outlay.

On behalf of the Rosemont syndicate we defy anyone to show where a dollar of the city's money has ever been used by us in the development of Rosemont. We have already spent $2,500 in improvements and expect that at least $5,000 will be spent during the coming year, and we are quite sure the city clerk or the city engineer would be very pleased to confirm our statement that we have not received one dollar of the city's money, if some of our kind friends who are circulating these reports will take the trouble to make inquiries.

We enclose statement made by Mayor Keefe bearing on this subject, which we would also be pleased to have you publish.

McQUARRIE & ROBERTSON,
Per HUGH W. ROBERTSON.
Nelson, B. C., Jan. 13.

To Whom It May Concern:

It has been brought to my notice that a report is being circulated amongst the citizens of Nelson that Messrs. McQuarrie & Robertson, during the year 1913, obtained from the corporation of the city of Nelson financial assistance towards extending the city's water mains to Rosemont, and I hereby declare and certify that these rumors are false, and the persons circulating the same know it to be untrue, and that McQuarrie & Robertson or no other party received any financial or other assistance from the city towards the improvement of Rosemont.

Messrs. McQuarrie & Robertson did purchase from the city some $600 worth of water pipe, and this account was paid by them in cash, and these mains have since been handed over by McQuarrie & Robertson to the city and are now the property of the city. All parties connected to this water main are paying the regular water rates to the city. The electric light service was installed by a resolution of the council, a petition having been presented by parties on Vancouver street and Rosemont. All parties using the electric light are also paying the regular rates.

These statements can all be verified at the city office, and I defy any person to show that McQuarrie & Robertson received one dollar of financial assistance for Rosemont during my term as mayor.

H. KEEFE,
Mayor of Nelson.
Nelson, B. C., Jan. 13, 1914.

COLD STORAGE

The Botanical Old Gentleman (in public gardens)—Can you tell me, does this belong to the Arbutus family?

The Custodian—No, sir; it belong to the corporation.—The Sketch.

"You are the manager here, eh? Well, years ago I dined here, and, being unable to pay my bill, you kicked me out."

"Very sorry, sare; but, business, you know—er—"

"Oh, that's all right, old chap—but—might I trouble you again?"—The Tatler.

Wife—I think we are going to have a dreadful thunderstorm.

Husband—What! Is the old lady going to visit us again?—Sydney Town and Country Journal.

Mother—There were two apples in the cupboard, Tommy, and now there is only one. How's that?

Tommy (who sees no way out of it)—Well, ma, it was so dark in there I didn't see the other.—Sydney Town and Country Journal.

Lawyer—Of course, madame, in a case of this sort, it is of the utmost importance to put forward something that will appeal to the jury.

Lady Litigant—Oh, I shall change my costume every day.—Melbourne Weekly Times.

"SALADA"

Being all pure tea leaves, you don't have to submit to the annoyance of dust and dirt floating in your tea cup and injurious to your health. Costs no more than common-place teas.

Sealed lead packets only.—Never sold in bulk.

MONEY PLENTIFUL—CARRY-OVER IS EASILY ARRANGED

(Western Associated Press Special Cable.)

LONDON, Jan. 13.—The stock brokers arranged the "carry-over" easily, the fortnightly settlement money being plentiful at 4½ against 5¼ per cent last time, causing easier contangoes. The markets were depressed and narrow today. The South African situation is reported to be darkening. Buying was checked all 'round and South African shares were flat.

Gilt-edged securities were the best feature of the day. The Saskatchewan scrip is quoted at 3-8 premium. the Dominion of Canada at ¼ and the Montreal scrip at one. This movement is encouraging bankers and underwriters to lighten their loads before pressing forward further. The Saskatchewan old fours were marked back three points with adjustment in connection with the convertible rights attached to the new loan.

Canadian Pacific railway was flabby with American rails and closed down one point at 212 5-8. Dealers express the belief that the contraction of Canadian railway receipts will persist and probably be accentuated.

Grand Trunk railway was unsteady. South American tractions weak and utilities mixed.

Call money was easy at 2¼ per cent, but bill rates again advanced to 3 3-4 for three months, owing to the South African situation and the impending heavy tax collections.

The gold influx is unchecked. The Bank of England got most of the $3,300,000 of South African gold which arrived today.

WOMEN WANT VOTE

(By Daily News Leased Wire)

BERLIN, Jan. 13.—A petition from the Berlin Women's Suffrage association asks to be given the vote at the elections for the imperial parliament. They were referred to the government without any recommendations by the reichstag.

A petition asking that the franchise be given to women and that they be allowed to vote at the elections for the imperial parliament, and also to sit as deputies, was introduced in the imperial parliament today by the German Women's Suffrage union, and although it was not directly rejected, it was referred to the consideration of the government without any recommendation.

A Socialist deputy moved that the government be recommended to take action in the matter and most of the Radical members supported his resolution. On the other hand, the national Liberals voted for a counter resolution, moved by the Conservatives, that the motion be placed on the table of the house and be virtually ignored. The house ultimately adopted the suggestion of the committee to send the petition to the government without recommendation of any sort.

The violent tactics of the English suffragettes was referred to in the course of the debate, a clerical member sharply condemning them and uttering a warning against the adoption of similar methods in Germany, although his net phrase was, "German men won the franchise by sharp conflicts lasting for decades."

DELICATE CHILD

Made Strong and Healthy by Vinol.

Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly we guarantee Vinol, our delicious cod liver and iron tonic, will build them up, create a hearty appetite, sound flesh and muscle tissue, pure, healthy blood, and make them strong.

Mrs. L. L. Bertrand, New Iberia, La., says: "My little one was weak and run-down in health, and was continually taking cold. Different medicines failed to help, but when Vinol was recommended I found it a wonderful help to my child. It broke up the cold, and quickly restored health and strength. Vinol is a most excellent tonic for children."

If Vinol fails to do just what we say, we will give back your money. Wm. Rutherford, Druggist, Nelson, B. C.

HOSPITAL TO HAVE ORDERLY

Directors Find Additional Help Is Needed by Nurses—To Press for Fifty Thousand Grant

Decision to employ an orderly to assist the nurses in the heavier work at the hospital was reached by the directors of that institution at the monthly meeting last night and the appointment was left to the president, the secretary and the matron, who will confer with the medical superintendent on the matter.

That the per diem grant from the government was insufficient on account of the marked increase in the cost of operation of hospitals since the amount of the grant was fixed was the substance of a resolution from the directors of the Vernon hospital, which was forwarded to the Kootenay Lake General hospital board for endorsation. In view of the fact that the local hospital is pressing the government for a grant of $50,000 toward the cost of the construction of a new building it was decided to take no action on the Vernon resolution.

Hon. H. E. Young, provincial secretary, will be urged to give favorable consideration to the request for the appropriation and the local members in the district which benefits from the hospital will be asked to aid. Resolutions in support of the application for $50,000 have already been passed by Conservative associations, among which are those at Proctor and Fairview.

D. G. Kurtz and William Wilson were appointed visiting directors for the month.

Those present were: J. A. Irving, president; George Johnstone, secretary; E. H. Smith, Ald. I. A. Austin, Ald. Edward Kerr, D. G. Kurtz, George F. Motion, A. S. Horswill and William Wilson.

JURY DISAGREES IN TRIAL FOR RIOTING

(By Daily News Leased Wire.)

NEW WESTMINSTER, Jan. 13.—After an absence of five hours from court, the jury in the trial of William Bowater, a 17-year-old boy, returned tonight and announced they had failed to agree. There were six charges against Bowater of rioting at Extension during the coal strike on Vancouver island.

Judge Morrison refused to consider the question of bail, pending the next trial, which may take place before the end of the present assizes.

PIONEER METHODIST MISSIONARY IS DEAD

(By Daily News Leased Wire)

VANCOUVER, B. C., Jan. 13.—Rev. Dr. Thomas Crosby, pioneer Methodist missionary, who left his home in Woodstock, Ont., over 50 years ago to labor among the Indians on the northern coast of British Columbia, and continued in that work until about four years ago, died at his home here tonight at the age of 73. His headquarters for more than 25 years were at Port Simpson, near Prince Rupert, where he established the Crosby home for Indian girls.

The Methodist Missionary society built for him two gospel ships, the last the Thomas Crosby, was launched here in 1912, in which year he celebrated his jubilee in ministry. The vessel cost $22,000.

ARGONAUTS BEAT TORONTO

(By Daily News Leased Wire.)

TORONTO, Jan. 13.—Argonauts and Toronto Rowing club were the contestants in an Ontario Hockey association senior game at the arena tonight Argonauts won by 4 to 3.

STOMACH SOUR? GOT INDIGESTION-ALSO?

"Pape's Diapepsin" Will Make Your Disordered Stomach Feel Fine in Five Minutes. Time it!

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and save sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula printed on these fifty-cent cases, when you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides it makes you go to the table with a healthy appetite; but what will please you most is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

The city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.

Beware Young Man

It's the Little Dandruff Germs That are Causing Your Hair to Thin Out.

Parisian Sage Stops Falling Hair and Does Not Contain Poisonous Lead or Dyes.

The clever young man of today doesn't take any chances on losing his hair. A man who is baldheaded at 30 looks like 45, and is placed at a disadvantage when seeking employment.

If you have dandruff it means down near the roots of your hair an army of dandruff germs are attacking the hair root and destroying its vitality.

Then hair falls out; grows thin and baldness results. Young man, put your faith in delightful PARISIAN SAGE, it will stop falling hair, kill dandruff germs, abolish dandruff and itching scalp, or money back.

PARISIAN SAGE is only 50 cents a bottle at the Poole Drug Co., Ltd., and dealers everywhere. Girl with Auburn hair on every carton. Ask for PARISIAN SAGE.

STATES OPPOSED TO ARBITRATION

Conference on Safety of Life at Sea May Be Wrecked by American Attitude

(By Daily News Leased Wire.)

LONDON, Jan. 13.—The international conference of safety of life at sea, which has been holding sessions here since last November, is in danger of splitting on the same rock that wrecked the first international commission called in 1899 to settle the complications arising from the Alaskan boundary.

In the boundary case the American, Canadian and English commissioners foundered on the question of arbitration, and the same disturbing element menaces the fate of the present commission. With the Panama tolls question in her mind, England has demanded that all disputes under the proposed convention and all violations of the shipping laws shall be arbitrated between the parties in dispute.

United States Senator J. H. Lewis, of Illinois, and Prof. A. B. Alexander, of Washington, on behalf of the American delegation, unqualifiedly opposed the proposal as it was contrary to the policy of the United States to allow any foreign nation to arbitrate the right of the courts of America to execute the laws of that nation or of its states.

Lord Mersey, the presiding officer, then proposed that all disputes be sent to the international court of arbitration at The Hague, but this also was opposed by the Americans, because of the distance of the Netherlands capital from the United States and the delay in reaching a settlement.

The French and German representatives also opposed this plan on the ground that "America always wins her contest at that tribunal through the desire of the other nations to preserve peace and harmony with her."

The French and Belgian committeemen suggest a conciliation board, reserving to America the right to resort to the courts if the results established seem to be purposely or violently wrong. This middle ground for a compromise now is under debate, but its progress practically is barred by the American opposition to the arbitration feature and by the insistence of the United States delegates that any violations of the convention or treaty must be treated by the American courts as a violation of American law and punished accordingly.

PRINCIPLE OF PLAN FAVORED

General Superintendent and Other Officials of Railway Discuss Medical Board With Employes

Endorsation of the general principle of the proposal to form a general medical board for the benefit of the employes of the Canadian Pacific railway in British Columbia was given by representatives of the various organizations present at a conference here yesterday afternoon with F. W. Peters, general superintendent of the Pacific division, local doctors and officials of this division. It was explained that the endorsation was given by the organization representatives personally and that they would have to submit the matter to their unions before it could be officially approved.

The plan is that the money which is now paid monthly by the employes of the company to doctors or hospitals should be paid into the administration by a general medical board, which which would make arrangements for medical attendance and hospital service, this board being, of course, controlled by the employes.

One of the advantages of the proposed change which is being urged is that if the general medical board were established an employe of the company who happened to be injured or to be suffering from sickness while outside of the district in which he was paying medical and hospital fees would be cared for in the same manner as those actually living in the district. Under present conditions, it is stated, an employe who needs medical or hospital aid at a time when he is outside his own district where he is paying fees has no one to go to.

OVERSEAS DOMINIONS HAVE ATTRACTIONS FOR LABORERS

(Canadian Associated Press Cable.)

LONDON, Jan. 13.—The dominions royal commission has resumed its sittings. R. H. Rew, C.B., assistant secretary to the board of agriculture, paid a tribute to the activity of overseas emigration agents when, in replying to a question by Hon. George E. Foster, he confessed that the overseas dominions would always prove attractive to the agricultural laborer desiring to settle with his family, unless he was offered the same advantage of free land and state assistance at home.

COMMISSION ON MINING ASKED

Technical Education for Miners Also Discussed by Alberta Opposition With Premier.

(By Daily News Leased Wire)

OTTAWA, Jan. 13.—The Alberta opposition waited upon Premier Borden, Hon. Robert Rogers Hon. Dr. Roche, and other members of the cabinet this morning, the conference lasting over two hours. At the conclusion of the conference from which the press was excluded, Edward Michener, leader of the Alberta opposition, who headed the delegation, declined to discuss the matter under consideration. Premier Borden gave out an official statement, however, in which certain of the questions discussed were enumerated.

Tomorrow the deputation, accompanied by a number of representatives of the livestock interests, will meet Hon. Dr. Roche when the question of grazing lease regulation will be discussed at length.

The questions discussed by the deputation before the premier include naturalization, natural resources, the control by the Dominion of special grants to agriculture, technical education, etc., the chilled meat industry, homestead and preemption regulations, technical education for miners and the appointment of a Dominion mining commission. It is understood the question of the reduction of duty on agricultural implements was also discussed, though no definite reply was made.

The wheat duties, it is said, did not enter into the discussion and there is no indication that the Alberta deputation took any definite stand on the question.

Questioned as to the result of the conference tonight, Edward Michener stated that he was well satisfied with the manner in which the proposals had been received.

"We believe," he said, "that the government has the interests of the province at heart and that full consideration will be given to the proposals which we have advanced."

CRIMINOLOGISTS BAFFLED BY LONDON TRAIN MYSTERY

(Western Associated Press Special Cable.)

LONDON, Jan. 13.—The North London train mystery continues to baffle the police. The famous council of seven of Scotland Yard has met several times and discussed the case, but now publicly admits that nothing but luck is likely to produce a solution of the mystery. Theorists, like Sir Arthur Conan Doyle, the creator of Sherlock Holmes, confess their inability to see any clue or suggest any line of intervention which has not already been worked out. George R. Sims, the noted journalist and playwright, who is a criminal student of vast experience, suggests that the crime was committed by an elder playmate of the murdered boy, but the police have exhausted all inquiries in this direction and are utterly at a loss.

REFERENDUM DEMANDED ON ABOLITION OF BAR

(By Daily News Leased Wire)

WINNIPEG, Jan. 13.—Two important resolutions were introduced in the Manitoba legislature today. One asked the government to submit a referendum to the people of the province on the question of abolishing the bar and the other for the introduction of direct legislation. Both were brought in by opposition members, J. B. Baird of Mountain and C. D. McPherson of Lakeside, respectively. Mr. Baird in dealing with the liquor question made a sharp attack on licensed clubs in Winnipeg, charging some of them with flagrant violation of the law. He asked for a stricter supervision and greater care in the granting of licenses. Neither resolution was debated at length.

The legislature gave second reading to a bill granting authority to municipalities to guarantee the bonds of housing companies that shall not earn greater profits than 6 per cent. The bill is modeled after recent Ontario legislation.

COMPANY MUST SPEND TWO MILLION DOLLARS

VANCOUVER, B. C., Jan. 13.—It is said on good authority that the Dominion government has made a grant of practically all the foreshore at Newport, at the head of Howe sound, to the Pacific Great Eastern railway for a seaport. The stipulation is that the company spend $2,000,000 in making harbor improvements.

GRAFT CHARGE AGAINST CITY

French Newspaper Says Finance Minister Made Deal to Get Large Sum for Party Fund.

(By Daily News Leased Wire.)

PARIS, Jan. 13.—On the eve of the opening of the last session of the present chamber of deputies interest is absorbed in serious charges brought by Gaston Calmette, editor of the Figaro, against Joseph Caillaux, the minister of finance. M. Calmette asserts that M. Caillaux offered to pay $1,200,000 to M. Schneider, the legal representative of the heirs of Marcil Prieu, who have entered a claim against the government, on condition that 80 per cent of that amount be turned over to the radical party's campaign fund for the coming elections.

M. Caillaux has issued three sweeping categorical denials of the charges against him. The editor of the Figaro, nevertheless, persists in his assertions.

M. Schneider tonight denied that he had ever seen or spoken to M. Caillaux on this subject or that he had commissioned anyone to do so. He calls on M. Calmette to produce the proofs of his affirmations and announces that he will take legal proceedings against both Calmette and the Figaro.

Marcel Prieu was a French merchant of Brazil. Thirteen of his ships were seized by the Brazilian government in 1880 on the charge that the customs regulations had been evaded. Eventually Brazil paid to the French government an indemnity of $3,000,000. Prieu claimed this money on the ground that his ships had been unjustly seized. His claim was rejected and has been repeatedly rejected by every minister of finance. Since Prieu died in poverty in 1899 his heirs have formed a syndicate to prosecute the claim.

ROBIN HOODS BEATEN

(By Daily News Leased Wire)

MELVILLE, Sask., Jan. 13.—In a fast and exciting game of hockey here tonight the locals kept their hold at the top by defeating the Robin Hoods of Moose Jaw by a score of 4 to 3. It was a great game and very clean, marked by excellent goal tending on the part of the locals.

FIRES BLAZE IN ZERO WEATHER

Seven Firemen Injured in Montreal Fires—Losses Over Quarter of Million Dollars.

(By Daily News Leased Wire.)

MONTREAL, Jan. 13.—With the thermometer registering 25 degrees below zero, Montreal's fire brigade was called to face four fires today, two of them of a serious character. The first blaze occurred about 4 o'clock this morning in the north end, and destroyed the premises of Robinson, Oliver & Co., gristmill and grain elevator, at Park avenue and Van Horne avenue, entailing a loss in the neighborhood of $60,000.

Two other alarms were turned in about 11 a.m. for small fires, and about noon the fourth alarm, which was the most serious, was turned in for a fire which broke out in the premises of Frothingham & Workman, wholesale hardware merchants, in the wholesale section of the city. This fire caused a loss of $200,000. Seven firemen were injured.

While the big fire on St. Paul street was doing more than $250,000 worth of damage, 18 other more or less serious outbreaks had to be coped with in different parts of the city.

From midnight Monday to midnight Tuesday 31 alarms of fire were rung in, and practically the entire fire-fighting force of Montreal was actively engaged for a large portion of the 24 hours. To the fact that it was the busiest day the city's fire department has had in years must be added the additional fact that its work was performed under the most trying weather conditions.

Fire in Toronto.

(By Daily News Leased Wire)

TORONTO, Jan. 13.—Three buildings were destroyed and five firms put out of business in a fire at Dundas street and Sheridan avenue tonight. The loss is placed at $80,000. C. G. Miles, whose woodworking factory was one of the buildings destroyed, was overcome by excitement while watching the fire and dropped dead.

The firms affected were: Excelsior Packing company, W. J. Smith, Novelty manufacturers, Packer Brothers' wood turning shop, J. W. Woolnough's show case factory.

With the temperature at 18 below, the firemen worked under distressing conditions.

Belleville Building Burned.

(By Daily News Leased Wire)

BELLEVILLE, Ont., Jan. 13.—Fire this evening destroyed the three-story brick Schuster building at Bridge and Pinnacle streets, causing a loss of about $30,000.

The ground floor of the premises were occupied by the Schuster Coal company's offices, the Canadian Pacific railway telegraph office, the Canadian Northern railway ticket office and Sam Domenico's fruit shop. The second floor contained the office of the Canadian Pacific railway for construction work, the head office of this district for all the surveying offices for the new line.

Blaze at Edmonton.

(By Daily News Leased Wire)

EDMONTON, Alta., Jan. 13.—Fire tonight gutted the furniture store of Dawson & Kennedy, south side, with a loss of between $15,000 and $20,000. The cause is unknown. The stock and building are owned by A. G. Baalim. The building is well covered by insurance.

In Dreaded District
(By Daily News Leased Wire.)

MONTREAL, Jan. 13.—Fire invaded the dreaded down town danger zone this afternoon and gutted the seven-storey building near the corner of St. Paul street and Place Royale, owned by the Seminary St. Sulpice and occupied by the wholesale hardware firm of Frothingham & Workman. Intense cold weather conditions added to the fact that the blaze was right in the heart of the congested warehouse district, made the task of the firemen doubly difficult.

Cartridges Explode

The fire, which is said to have been caused by the upsetting of a plumber's lamp in the shipping room on the ground floor, quickly spread upward through the other floors. The firm employes number about 85, 20 or so of them being girls. All got out safely. Another danger to the fire fighters was the presence in the building of a considerable quantity of ammunition, but a large part of this was contained in a fireproof vault that escaped injury. Upon the top floor, however, were a number of cases of cartridges, and an hour after the fire started these commenced to explode. The stock and property of the firm were covered by insurance to the extent of $285,000, and it is calculated that their loss by fire and water will amount to around $200,000. The loss to the seminary St. Sulpice, which is also insured, will be, roughly, $50,000, making the total damage about $250,000. A report sent out today to the effect that Notre Dame cathedral was on fire was erroneous.

Fireman Killed

(By Daily News Leased Wire)

BOSTON, Mass., Jan. 13.—A fireman, thought to be Lieut. Thomas Carleton, was killed, and 75 families were turned out into the street in a temperature of 9 degrees below zero by a fire which destroyed the department store of W. W. and A. Bacon, a four-story building on Washington street at Ruggles street early today. Sparks set fire to the roofs of a score of dwellings on Harrison avenue, and other nearby streets.

All these secondary fires were extinguished with slight damage but the occupants of many of the buildings suffered from exposure, having fled panic stricken from their beds. The fatality occurred when a wall collapsed, crushing a chemical wagon. Fireman Philip Ferrin was slightly injured at the same time.

The loss is estimated at $150,000.

NEWS OF INTEREST TO AGRICULTURISTS

(By J. T. Bartlett.)

VANCOUVER, B. C., Jan. 9.—It is claimed that Indian Runner ducks are as profitable as hens in the coast climate.

The Canadian offical records of Ayrshires, recently issued, contains the performances of 20 cows of the Chilliwack district.

In the crop of her New Year's turkey, a Nanaimo housekeeper found gold, which she sold at a jewelry store for $1.40.

The South Sumas milk condensory is paying 50c per butter fat pound at present.

Matsqui Farmers' institute has a membership of 128, and starts the year with a balance to its credit of $225.50.

The Surrey Poultry association has taken an option on a hall and warehouse site. This association is now selling stamped and guaranteed eggs.

The British Columbia Milk Condensing company is erecting a condensory at Ladner. The building is 80x150 ft.

William H. Tucker and W. H. Gilmore, of Vernon, have invented a meter to measure irrigation ditch flows and assure an equitable distribution of water in acre feet.

The farmers' institute at Nakusp has decided to purchase an incubator, 1,200 egg capacity, for the joint use of members. It will be placed in a central location and in charge of a responsible man. The cost of the outfit will be $250.

Kelowna fruitgrowers have forwarded a petition to Martin Burrell, minister of agriculture, asking that research work be undertaken in connection with the apple disease known as "fruit pit" or "biter pit."

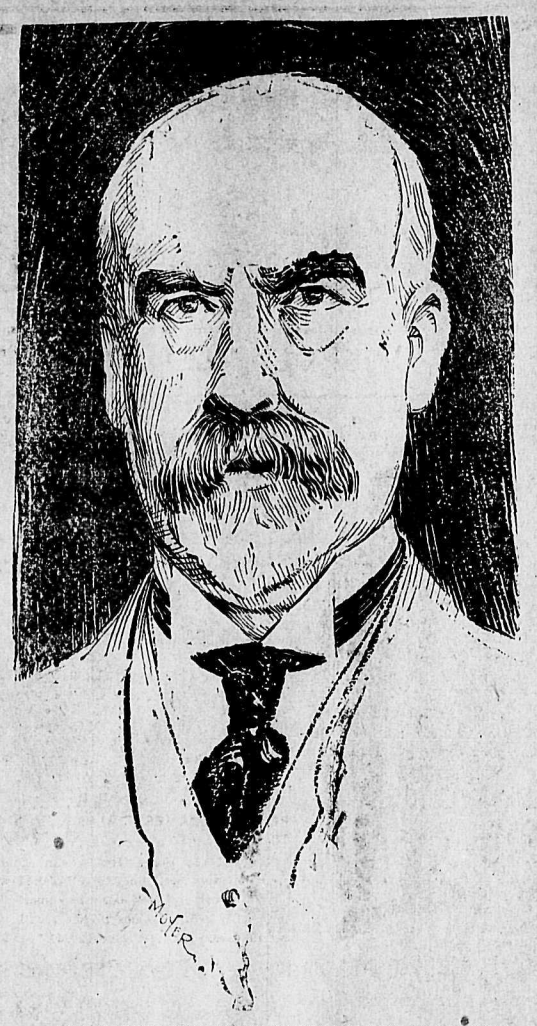
Thomas Abriel, of Nakusp, and W. F. Foggo, of Vernon, have been appointed by the executive of the British Columbia Fruitgrowers' associations to visit points on the prairies and confer with producers and wholesalers there with the purpose of creating a closer interprovincial trade in farm produce with British Columbia.

New Westminster has now in operation a comprehensive milk by-law. All vendors of milk must take out licences and every day farms contributing to the city's milk supply must submit to a rigid periodical inspection. Score cards will be issued at regular intervals, covering the health of dairy cows, the cleanliness of cows, the cleanliness of the stable, its location, ventilation and light, the condition of the stable yard, the cleanliness and hygienic conditions of the milk house, the system of cleansing all utensils used, the cleanliness of the employes about the dairy, and the general conditions of the farm.

For poultry, sprouted oats are a deservedly popular winter green food, for oats are comparatively cheap. Sprouting is a simple process and the results of feed are eminently satisfactory. It is not necessary to buy special frames for the sprouting. The oats should be soaked in warm water for 12 hours and then hung up in a sack to drain, where they should remain until somewhat heated. Then they should be spread in any convenient place, on the floor or in shallow tins, from one-half to an inch thick. The temperature of the room should not drop below 50 degrees and the nearer 70 it is the better. Daily warm water should be sprinkled over the oats. When the sprouts are three to six inches high, the mat should be cut into squares and fed to the layers.

After reaching the $25 mark, potatoes on the Vancouver market have sagged to $22. At the New Westminster market the quotation is $18 to $22. There is also a noticeable downward movement in eggs.

Farmers along the Grand Trunk Pacific in northern British Columbia are reported as having made fabulous profits this year, with prospects exceedingly bright for next season.



THE LATEST SKETCH OF MAYOR HOCKEN OF TORONTO

Mayor Hocken on New Year's day election was returned to office for a second term. The election was made particularly interesting by the fact that several other men, both for and against the purchase of the Toronto Street railway, were running in competition with Mr. Hocken, and up till the last minute it was doubtful which way the time would turn. Mr. McBrien, a mere boy, running for mayor, was a competitor for the chair, his policy being against the purchase of the street railway.

TO MOVE RAMESES STATUES

Will Be Taken to Cairo and Erected in Station Square.

CAIRO, Jan. 10.—It has been decided to transport the two giant statues of Rameses II. from ancient Memphis to Cairo, where they will be erected in the new station square that has recently been made.

Considerable repairs will have to be done to one, if not both, of the statues as it is feared that the legs will not be strong enough to support the bodies. Special arrangements are being made for the transport to Cairo and the state railways are constructing special trucks and adjusting the line at various points, such as the stations, where it is not wide enough.

The total cost of erection and transportation is at present estimated at $50,000. There is no doubt that Lord Kitchener's idea was to move them to the station square, and it is far better to erect these statutes on a site where they can be appreciate than to leave them lying at Memphis, which is not the original site, and where one of them, at any rate, is at present on its back.

WHITES POOR PEARL DIVERS

Six Tried in Australia Died or Were Paralyzed.

Efforts have recently been made to employ white men as pearl divers off the coast of Australia, and legislation for the purpose has been adopted, in order to more fully open that industry to Europeans.

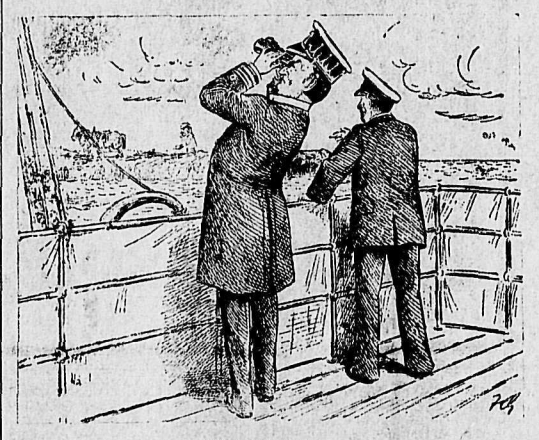
But it now appears that the experiment has been by no means satisfactory. A very interesting statement on this subject has recently been made by Captain Talboys, who has had wide experience of pearling on the Australian coast. He says emphatically that white divers are an impossibility.

He had hoped that the white man would have proved a successful diver, but he says that after a very lengthy experiment the idea has been abandoned.

The divers, six or eight of them who were brought to Australia by the master pearlers from Siebe, Gormar and Co. and Kenkie & Co., submarine engineers, about two year ago, were all either dead or paralyzed.

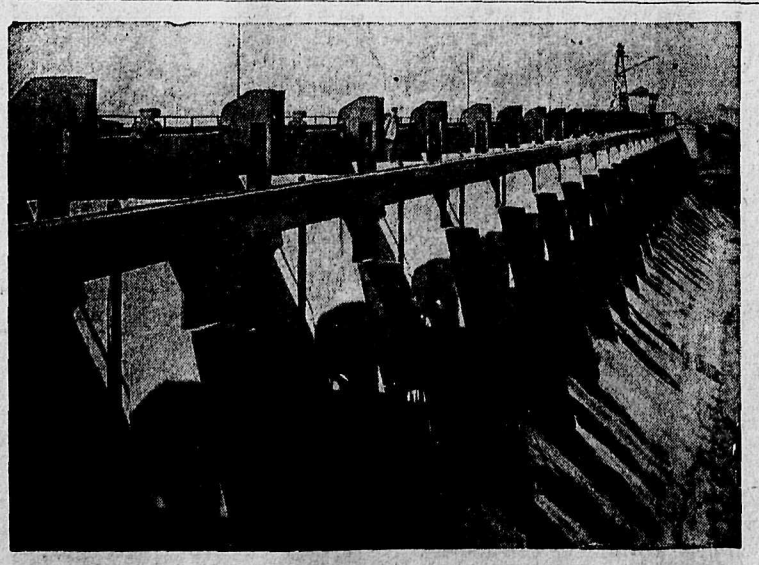
In view of the further facts alleged there appears to be no scope for white pearl divers in Australian waters. For as the result of a year's diving, say Captain Talboys, the best returns of the white divers did not exceed a ton while the average yield of an Asiatic's work was between four and five tons.

Besides, the Asiatic worked for $10 to $15 per month, plus a commission on the shell raised, while the white man received $70 per month, with a similar commission, in addition to which the cost of keep for the white man was about three times that expended on the Asiatics.



AN OBSESSION.

Petty Officer: "We're close to the land, sir!"
Capt. Curzon: "Do you mean Ulster?"
Petty Officer: "No, sir, the other sort of land—"
Capt. Curzon: "There is no land, except Ulster!"
Petty Officer: "We shall run ashore, sir!"
Capt. Curzon: "There is no shore—except Ulster!"
(Lord Curzon in his speech at the United Club on Tuesday night refused to recognize that there is any other question in view except Ulster).



A SECTION OF THE IMMENSE IRRIGATION DAM AT BASSANO, ALBERTA

Erected at a cost of $13,000,000. It will develop 5,000 horsepower. This is the second largest engineering feat in America, ranking only second to the Panama canal. It will assist in the irrigation of the dry belt in Southern Alberta.

THE BIND-THE-MOUTH "BONNET"—BEAUTY'S LIPS GEMMED

The above picture shows Miss Clara Beck, who was Vice in the "Everywoman" play, appeared in "Come Over Here," and is the principal boy in "Old King Cole." She is wearing a head-dress suggesting in shape a baby's bonnet—with its gemmed ornaments so arranged that they are strung across the lips.

PROTEST AGAINST WINNIPEG'S PROPOSED WATER SUPPLY

(By Daily News Leased Wire.)

WASHINGTON, Jan. 13.—Arguments were made today before the international joint commission against granting authority to the city of Winnipeg, Canada, to obtain its water supply from the Lake of the Woods, which has a watershed of some 26,000 square miles in the United States and the Dominion.

Both the Canadian and the United States governments have assented to the Winnipeg water project, but under the treaty the commission has the right to overrule these decisions if it finds the plan detrimental to boundary waters or to the people who live upon them.

Kenora Objects.

Objection was made to Winnipeg's request today by representatives of the city of Kenora, at the mouth of the Lake of the Woods. They asserted that if Winnipeg was granted permission to tap the lake their municipal plant would be injured. The Winnipeg plant would take about 100,000,000 gallons of water a day from the lake and transport it 90 miles to the city. Opponents of this argue that the project will tap Shoal lake, a distinct body of water from the Lake of the Woods, entirely within Canada, and therefore not subject to the authority of the commission.

THE CANDLING OF EGGS

As regards quality, an egg is one of the most difficult food products to grade. Fortunately an egg is semi-transparent when held before the light and permits, if carefully rotated, of even minor defects being seen. Many appliances for commercial and private use have been invented for the detection of bad eggs, and it is now possible for anyone with a little practice to tell at a glance the main points between good and bad eggs.

In order to teach the proper methods of examination, there has been prepared, under the direction of the live stock commissioner, a pamphlet entitled "The Candling of Eggs," by W. A. Brown, B.S.A., chief of the poultry division. This pamphlet, which is No. 3 of the live stock division, points out clearly that the size of the air cell, the consistency of the albumen, the color and mobility of the yolk, and the general transparency of the whole egg are the factors most generally recognized as determining the quality. It also explains the construction of a simple home-made device which gives excellent satisfaction in the testing of eggs.

This pamphlet, which can be secured by making application to the publications branch, department of agriculture, Ottawa, concludes with the following paragraph: "Storekeepers will find it to their advantage to acquire facility in candling and it is recommended that every housewife should provide herself with a simple candling appliance, by the diligent use of which she may safeguard her family from many unpleasant occurrences at the breakfast table."

OHIO COPPER PROFITS

Ohio Copper Mining company November profits were $20,000, against $20,500 in October. Net after charges showed but little change at $13,500.

Production last month totaled 796,000 pounds of copper, thereby establishing a new high record.

Tons treated were 66,424 against 66,600 tons in the preceding month. Ore averaged slightly better at 1.105 per cent.

Mining costs for the month were practically unchanged at 96.32 cents per ton, dividend: Mining, 28.76 cents; milling, 51.52 cents; transportation, 16.04 cents.

TORONTO ALDERMAN LEFT FIFTY-EIGHT THOUSAND

(By Daily News Leased Wire.)

TORONTO, Jan. 13.—An estate valued at $58,846 was left by the late Ald. George McMurrich, who died at his home here. The estate is to be held in trust by his executors, the income paid to his wife, and after her death the estate is to be divided between his children. The late alderman's will was probated today. He left $58,000 to his family.

MUCH WANTED FLEET PAYMASTER IS ARRESTED

(Western Associated Press Special Cable)

LONDON, Jan. 13.—Fleet Paymaster Lowry, for whom Scotland Yard has been looking since the end of November, was arrested at New Milton, Hampshire. He was the paymaster of H. M. S. Ganges stationed off Harwich, and at the time of his disappearance it was said that between $50,000 and $75,000 of the ship's funds were missing. He was the third on the senior list of naval paymasters and entered in 1893. He is 53 years old.

CLERGYMAN DEAD

VANCOUVER, B. C., Jan. 13.—Rev. J. B. Johnson, formerly of Vancouver, died yesterday at Denver, Colo.

GERMANY'S PRINCES ARE ALL HARD UP

Demand that Civil Lists Shall Be Greatly Increased.

BERLIN, Jan. 10.—The continual increase of the cost of living does not only trouble the German working people; it is causing no little uneasiness among the German rulers. For the past three years most of these princes have been asking for "an increase of pay," the kaiser himself being the first to lodge his complaint with his people, and the few who have not hitherto dared or thought it advisable to ask for a higher civil list are now busy preparing public opinion in their realm for the unpleasant and unavoidable necessity of giving more money for the keeping up of the chief of the state.

Still more significant, the two or three German Federal princes, who have so far had no civil list at all think very seriously of having one established, as their income, which is either derived from their own (or their wives') fortune, or from the sale of titles, dignities and decorations, cannot suffice much longer to "keep them going." One can therefore, safely assert that all the German princes are hard up. If the clause of last year's army bill, forcing them all to pay their share of the war tax, had been passed, they would have been nearly ruined. Only exemption from taxation keeps them out of trouble.

This matter is regarded as serious, as one can see no satisfactory outcome. On one side, the princes state that everything now costs so much that the expense of court life has grown 60 per cent in the last twenty-five years.

On the other side, the Liberals and more especially the Socialists, sternly oppose any increase of civil lists on the ground that the German taxpayers have to pay every year $625,000,000 for armaments and the like.

RHEUMA WILL STOP URIC ACID DEPOSIT

Rheumatic Complications Checked and the "Human Sewers" Restored.

The Kidneys, Bowels, and Skin are the "human sewers" which carry off the impurities in the blood. When these are clogged Uric Acid sediment lodges in the muscles and joints and Rheumatism follows. RHEUMA, the great remedy for all forms of the terrible disease, checks the deposit of Uric Acid.

"For many years I suffered with Rheumatism. I am 71 years old, but am proud to say that after using one bottle of RHEUMA the Rheumatic pains are entirely gone. I daily recommend RHEUMA to my friends."—Willis Goff, Bridgeburg, Ont.

The Poole Drug Co will return your money if it fails, 50 cents a bottle.

Will You Accept This Invitation?

MARTIAL LAW IN SOUTH AFRICA

(Continued from page one.)

of permits, which will not be issued to members of the defence force.

Deplorable Conditions.

(Western Associated Press Special Cable.)

LONDON, Jan. 13.—A rapid succession of the most important events in South Africa has been conveyed to London by telegrams so greatly delayed that the leading writers are unable to comment upon the news, which fills many columns of their papers. The Daily Citizen, the labor organ, however, feels sufficiently informed to commit itself to the statement that the policy of intimidation by armed force has utterly failed.

In a brief pen picture of the South African situation, the Citizen says:

"With the railways paralyzed, with its hitherto teeming population idle, with martial law proclaimed, South Africa faces a general strike in which chaos vies only with injustice for first magnitude. Serious disturbances may be created by the natives. Famine threatens the land because the government expects the workers to toil for an inadequately wretched reward. Trades unionism has previously produced nothing like this strike. Its solidity of action is resplendent and inspiring. Its aspect is dimmed only by the deplorable conditions which render the movement necessary."

The Daily News sees in the South African situation, which is steadily darkening, all the conditions of a conflagration which, there is little doubt, cannot be avoided.

The Daily Telegraph characterizes the strike as a revolution, declaring that this is the first time the state has been called upon to combat a serious attempt to put the general strike theory into practise. "The trades federation challenges the Union government for control of the state. It is a strike for a social, economic and political revolution."

Loaded Train Abandoned.

(By Daily News Leased Wire)

LADYBRAND, Union of South Africa, Jan. 13.—A train full of passengers was deserted today on the open veldt by the crew, the members of which struck some time after the train left Durban at midnight. The train, besides passengers, was carrying a heavy mail. It was taken to Allendale siding, where the engineer uncoupled the locomotive and returned to his home, leaving hundreds of people many miles from the nearest town.

On War Footing.

JOHANNESBURG, Jan. 13.—Gen. Jan Christian Smutz, the minister of defence of the Union of South Africa, addressing a committee on public safety here today, said as a warning to the strikers:

"If the citizens' defence force has to be called into Johannesburg they will not show the same Christian spirit that the imperial troops displayed when they refrained from firing after they were attacked by mobs during the labor disturbances of last July. The burghers will not tolerate an attack without using their rifles in retaliation."

A column composed of 200 war veterans has been concentrated here in readiness to suppress any rioting.

Precautions everywhere are practically on a war basis.

ANOTHER SECTION OF KOOTENAY CENTRAL FINISHED

(Special to The Daily News.)

VANCOUVER, B. C., Jan. 13.—Reports of progress of construction work on the Kootenay Central received here stated that an additional 14-mile section has just been completed on the new route, which will eventually afford traffic connection between the Crows Nest and the main line at Golden. Another eight miles of track is expected to be laid by April 1, making 22, in addition to 40 miles already being operated by the Canadian Pacific railway south of Golden.

Today they are just as effective, just as reliable as ever, and nothing better has yet been devised to

Cure Common Ills

CALL FOR HELP SUDDENLY CEASES

(Continued from Page One.)

ledges it was later believed she rested.

The Cobequid was formerly the steamer Goth, and had been pressed into the winter service from the maritime provinces to the tropics. She sailed from Halifax on Dec. 5 for West Indian ports, and started north again on Dec. 30 from Grenada. She called at Bermuda on the 9th and then cleared for St. John.

Runs Into Blizzard

Approaching the Bay of Fundy, a blizzard descended upon the steamer. Capt. Hawson was heading for Gannett rock light the guide to the western side of the bay, and a warning of the ledges which stretch 10 miles to the southward of Grand Manan. It was about sunrise when the operator at the wireless station at Cape Sable, across the bay, picked up the Cobequid's cry for help. The message said that the vessel had struck a ledge off Briar island, which is on the east side of the bay and needed immediate assistance. For the next few hours fragmentary messages were received from the stranded steamer, one of which said that the forward hold was filling. At 9:40 a.m. came the last gasp of the fading wireless to the effect that the engine room was flooded, the batteries were exhausted and the operator was unable to get any spark.

Ships to Rescue

In the meantime both Canadian and American governments had begun active measures for rescue. The German steamer Kronprinzessin Cecilie, off Sable island, on her way to New York, was urged to change her course and head for the Cobequid, 200 miles to the northward.

The government steamer, Lady Laurier, was started out from this port for the run of 150 miles to Grand Manan. The steamers Belvidere, Helena and Lansdowne, were asked to help, and the United States revenue cutter Woodbury, on her way from Portland to Rockland, was ordered to steam full speed ahead for the scene. Toward night it was discovered that the cable steamer Tyrian was at anchor behind Campo Bello, only 40 miles from Gannet rock light, and a message was sent to her skipper urging him to proceed immediately to the aid of the Cobequid.

When the keeper of the Briar island light was notified of the accident in the hope that he might give some information regarding her, he replied that he saw no traces of the Cobequid. This was subsequently confirmed by the steamer John L. Cann, which made a circuit of the island during the day. On a re-reading of the first message from the Cobequid, the opinion was reached that the navigator was at a loss as to the real position of the steamer and that she was in reality on the west of the bay.

Unfortunately, communication with Grand Manan had been cut off some time before through the breaking of the cable, so that no information could be obtained from there. It was said that some of the steamers would be off Gannet rock light by midnight and that the Woodbury would reach the scene by 5 a.m. Hope was felt that they would be able to sight the Cobequid as there is a bright moon and the gale tonight seemed to be subsiding.

Many Disasters

The Grand Manan ledges have been the scene of many disasters, but loss of life has been comparatively small. Twelve years ago the steamer Warwick struck on Maur, one of the most extensive of the ledges, and eventually went to pieces, but not until all on board had been brought ashore and much of the cargo, including hundreds of cases of whisky, had been lightered by fishermen. The steamer Hestia was lost on Old Proprietor ledge four years ago, but without loss of life.

The Cobequid was built for the Union Castle mail line at Belfast in 1893. She is of steel and registered 4,700 tons gross and 2,970 tons net. She is 400 ft. in length and equipped with twin screws.

Vessel Sinking

ST. JOHN, N. B., Jan. 13.—At 8:40 a. m. today the wireless operator at Partridge island, at the mouth of the St. Johns harbor, was in communication with the Cobequid. The ship was asking for help and said the engine room was filling with water and they believed the vessel was sinking. Then the message was broken off and it was thought that the wireless was put out of business. On the Cobequid were two girls, the Misses James, daughters of the late Senator James, formerly mayor of St. George, Bermuda. They were coming to visit in this city for a few days before going to Edge Hill ladies' college at Windsor.

Late tonight word was received from Beaver harbor, saying the ocean-going tug Helena, which left here this morning to search for the Cobequid, had got no further than that place, having been forced to put in there by the heavy sea and gale.

GENERAL CHARGED WITH COWARDICE

Cavalry Detachment Escapes from Ojiniga and Report Location to Federal Government

(By Daily News Leased Wire.)

MEXICO CITY, Jan. 13.—Gen. Pascual Oroszco and Gen. Marcale Caravo, two of the federal commanders who escaped with a body of cavalrymen after the disastrous battle of Ojiniga, reported to the government today their arrival at Cuatro Cienegas, a town 42 miles west of Monclova, in Coahuila. The generals added that they would continue to San Luis Potosi.

"With the fall of Ojiniga has disappeared the military division in the north and with it all the federal authority in the state of Chihuahua. Anarchy completely dominates that unfortunate region," says El Pais, the only Spanish daily newspaper maintaining a semblance of independence in the federal capital.

The newspaper condemns Gen. Salvador Mercado, the commander of the federal troops, in severe terms for his evacuation of Ojiniga. It charges him with evacuation of the city of Chihuahua in a cowardly manner and seeking only a safe refuge at Ojiniga with no desire to meet the enemy.

Of Gen. Oroszco, Gen. Marcelo Caravo and Gen. Ynez Salazar, all high federal officers, El Pais says that upon learning of the determination of Gen. Mercado to show the white feather, they, "preferring to die fighting to fleeing in humiliation to the American side of the frontier, broke through the rebel circle and took refuge in the hills at the head of a handful of men."

Of Gen. Mercado, El Pais says that while he was in command of the city of Chihuahua, a group of capitalists of that place had paid him a large sum to escort them to the frontier and adds that the "valiant" general, if he was unwarlike, had mercantile sagacity, since he had no hesitation in permitting the glorious division of the north to act as an escort to a group of millionaires.

The other Spanish dailies endeavor to uphold the valor of Gen. Mercado and his soldiers at Ojiniga, alleging that the men had been reduced to their last cartridge.

New York Puzzled.

(By Daily News Leased Wire.)

NEW YORK, Jan. 13.—None of the local banking houses with Mexican connections had received any direct advices today regarding the reported decree of the government suspending financial obligations for one year. The National Railways of Mexico also was without information on the subject. The news was puzzling to the bankers in this city for the reason that they have information to the effect that the Mexican government's obligations December 31, 1913, and January 1, 1914, had been paid. The next interest payments are not due for several months.

Mexico's external obligations are estimated at between $300,000,000 and $350,000,000, payable in foreign currency. The internal debts probably approximate $150,000,000. The foreign debt includes the £22,700,000 loan negotiated in London in 1899 and the $40,000,000 gold bond loan contracted through Speyer & Co., in 1904. There are also many other direct and indirect loans of comparatively small amounts for which the government stood sponsor, not to mention the interest of the National Railways of Mexico and affiliated properties, which are under government control through majority stock interest.

In comparison with England, Germany and France, bankers are agreed that the holdings of Mexican securities in the United States are relatively small. England probably ranks as the largest holder of these issues, and the English, French and German investing public have engaged extensively in the purchase of the Mexican industrials, including oil securities.

WIFE OF MONTREAL EDITOR IS DEAD

(By Daily News Leased Wire.)

MONTREAL, Jan. 13.—Brenton A McNab, vice-president and editor of the Montreal Daily Mail, with the body of his wife who died, left this morning for Wallace, N. S. The funeral will be held there Thursday. Mrs. McNab was Catherine Helen Macquarrie, who was 50 years old. She was taken ill on Jan. 4, while at their home in the Laurentain mountains for the week-end, and they returned to the city the same evening.

Pneumonia developed the next day, and in spite of exceptional medical precautions the disease made head way until Mrs. McNab lost consciousness at 8 o'clock on Monday evening. The end came at 2:30 Tuesday morning.

REBEKAHS TO GIVE "SPOOK" DANCE

The Rebekahs are arranging to give a sheet and pillowcase masquerade. All members of the order wishing invitations for their friends are asked to send in the names at once to any of the following committee: Mrs. C. M. Dunn, Mrs. C. Longhurst, Miss Grace Lucia, W. Swannell.

SASKATOON PROTESTS

SASKATOON, Sask., Jan. 13.—Saskatoon city team in the northern division of the Saskatchewan Amateur Hockey association has protested the game in which they were defeated on Monday night at Battleford. Incompetent refereeing is the gist of the complaint.

Make Your Own Dustless Dusting Cloth for 5c

This way: Sprinkle a little 3-in-One on two-thirds of a yard of cheese cloth. Let it stand until the oil has permeated every part of the cloth. Then you have a real dustless dusting cloth for 5c. Why not save money?

Feather dusters and common dusting rags scatter particles of dust all over the house. But cheese cloth moistened with a little 3-in-One oil collects every atom of dust right on the cloth. None can fly around. No grease, no acids; nothing to injure the finest surface.

Get the oil and the cheese cloth today!

For sale at all good hardware, drug, grocery and general stores. 1 oz., 10c; 3 oz., 25c; 8 oz., ½ pt., 50c. Handy 3½ oz Oil Cans 25c

NEWS OF THE MARKETS

STOCKS

NEW YORK MARKET FIRM

(By Daily News Leased Wire.)

NEW YORK, Jan. 13.—After overcoming an early tendency toward a lower level, stocks held firm today. The market at times felt the effect of free selling in spots, but offerings were well taken.

While the standard shares moved narrowly, some of the stocks which ordinarily are classed in the inactive list, were strong. Securities of the Independent Steel companies again made a good showing and there were further advances in fertilizer, petroleum and local tractions issue. Texas company, however, had a sharp relapse from its high level on denial of the report that the Standard Oil interests were seeking control of the company. A feature of the trading was the further loss in New York Central, which brought down the price of that stock temporarily to 88¾, its low point since 1896.

The following New York stock market quotations are supplied by Osler, Hammond & Nanton, Winnipeg:

	Open	Close
Amalgamated Copper	72⅛	72¼
American Car Foundry	46 ½	46
American Locomotive	33¼	33¼
American Smelting	63¾	64

PRICES EASIER ON MONTREAL STOCK EXCHANGE

(By Daily News Leased Wire.)

MONTREAL, Jan. 13.—The advance of the local market through Sunday was not maintained today, leading issues for the most part being inclined to ease off under smaller offerings. The movement, however, was slight and nigget changes at the close were confined largely to small fractions. Brazilian closed offered at 81⅝, or 1 point below the final bid of Monday.

The trading was light on C. P. R. reaction in New York, only 50 shares changing hands at 207⅛, or ⅞ down from the previous day. In New York the price fell to 206¼, but the late rally brought back the closing level of quotations to 207 bid, 207¼ asked, a range about ⅞ lower on the day.

The balance of the market was irregular but with a slight drop.

GRAIN

WHEAT MARKET QUIET PRICES ARE HIGHER

(By Daily News Leased Wire.)

WINNIPEG, Jan. 13.—The wheat market was quiet, the volume of business in options being light. Prices were slightly higher in sympathy with American oats. There was no news of importance from any of the wheat exporting countries.

Winnipeg opened unchanged to ⅛c higher and closed ⅛ to ¼c higher. Minneapolis opened unchanged to ¼c lower and closed ⅛ to ¼c higher. Chicago opened ⅛c lower to ⅛c higher, and closed ¼c higher.

The cash demand for wheat was fairly good and offerings light. Export bids are out of line.

Cash wheat closed ¼ higher for all contract grades.

Cash oats and flax were quiet and oats prices lower.

Cash oats closed ½ higher.

Cash barley closed unchanged.

Winnipeg wheat close—May 90¾; July 92¼.

Oats—Jan. 32⅝; May 36¾; July 37⅞.

Flax—Jan. 1.29¼; May 1.35⅝; July 1.37⅝.

Minneapolis wheat close—May 88¼; July 89⅞.

Chicago—May 92⅛; July 88.

METALS

NEW YORK METAL MARKET

(By Daily News Leased Wire.)

BANK OF VANCOUVER CONTEMPLATES AMALGAMATION

(By Daily News Leased Wire.)

VANCOUVER, B. C., Jan. 13. — It was announced at the annual meeting of the Bank of Vancouver today that a proposal for amalgamation with another bank was proceeding. It was unanimously decided that the matter would be dealt with by a full meeting of the shareholders on March 15. No announcement was made of the identity of the bank with which negotiations were proceeding, but it was thought it was the Royal.

MILK PLANT BURNED

(By Daily News Leased Wire.)

CALEDONIA, Ont., Jan. 13. — The plant of the Laurentia Milk company near here was burned early this morning causing a loss of $20,000 partly covered by insurance.

STATISTICS TELL TALE OF HORRORS OF WAR

SOFIA, Jan. 13.—A striking illustration of the terrible human waste in war is furnishing by the census just taken of the new Bulgarian territories acquired by conquest. The male population of that portion of Macedonia allotted to Bulgaria was reduced during hostilities from 175,000 to 42,500. In Bulgarian Thrace only 225,000 males remain out of a total before the war of 494,000, while in the district of Mustapha Pasha, where fighting waged long and fiercely only 4,000 males are left out of 33,000.

DOLLAR FOR WIFE; SIX THOUSAND FOR HUSBAND

VANCOUVER, B. C., Jan. 13.—John Simpson was today awarded one dollar in the supreme court for the loss of his wife when the steamer Cheslake went down a year ago, off Vananda harbor. This award is in strong contrast to the verdict given in the same court the previous day, when a woman was given $6,000 for the loss of her husband.

RICH CARLOAD OF ORE

PHOENIX, Ariz., Jan. 12. — What promises to be the richest gold strike ever made in the southwest, and what will undoubtedly be the reawakening of Bouse, if it pans out, was unearthed recently when a carload of ore shipped from that point to the Shelby smelters at San Francisco, by Pease, Des Paines & Adams, brought the remarkable price in returns of $11,500 in bullion. The shippers of the rock have done their work on the quiet, not telling of the strike they have made, and for some months they have been working in a rich body which they have uncovered, unknown to those even closely intimate with the mining conditions in and about Bouse.

DAILY SERVICE RESUMED

Quicker even than it was taken away the daily train service on the run was restored by the G. N. R., says the Hedley Gazette.

That this was caused by the prompt decisive action of the Canadian railway commission there is no reason to doubt, and the people of the Similkameen have good reason to appreciate the prompt and effective attention given to the matter by their representatives at Ottawa and Victoria.

The daily papers showed that the railway commission had cited the Great Northern to appear before them at Ottawa on January 7th, but the fact that the railway company restored the service on the first of the month bears out the opinion generally held that the move for curtailment had not come from St. Paul but from a minor official, and that as soon as St. Paul was apprised of the situation by the Canadian railway commission they did a little bit of family disciplining on their own account and the speedy restoration was part of it.

Mining News

BETTER SHOWINGS ON CANADIAN SIDE

Dawson Sheriff Says There Has Been Only One Strike at Shushanna Diggings

(By Daily News Leased Wire.)

VANCOUVER, Jan. 13.—Sheriff Ellbeck, of Dawson, formerly well known in eastern Canada, came from the north yesterday and declares that there is nothing in Shushanna and that reports of strikes other than the original one are false. Sheriff Ellbeck declares that better gold bearings exist on the Canadian than on the American side of the line and he adds that anyone who recommends the American trail into the district should be prosecuted.

ZINC ORE OUTPUT EIGHT THOUSAND

Total for Year from Slocan District Was Heavy—Standard Had Largest Production

Shipments of zinc ore and concentrates from mines in the Slocan district during the year just closed totaled 8,328 tons, according to the official figures which have been made public. Shipments from the various properties were:

Noble Five, 65 tons; Rambler-Cariboo, 1,371 tons; U. S., 98 tons; Surprise, 30 tons; Lucky Jim, 1,241 tons; Utica, 40 tons; Van Roi, 773 tons; Hewitt, 30 tons; Standard, 4,680 tons.

GOLD OUTPUT FOUR HUNDRED AND FIFTY-FIVE MILLIONS

The "gold value" of the year 1913 to the world was $455,000,000. The production of the previous year exceeded this total by $11,000,000. This estimate is made by Director of the United States Mint George E. Roberts.

According to this announcement the United States gold production for 1913 amounted to $88,301,023, a decrease of $5,030,000. The Transvaal's total was $5,000,000 below 1912, and Australia showed a decrease of $1,000,000.

Mexico's production fell off about $5,000,000 as the result of the revolution. Canada exceeded its output of 1912 by about $2,700,000 and British India showed an increase of $1,000,000.

Nevada led the silver-producing states of the United States, yielding ore to the commercial value of $9,123,229; Montana was second, with $7,880,166; and Utah, Idaho and Colorado were among the five leading states.

California was first among the states of the Union in the production of gold with a total of 972,601 fine ounces, valued at $20,105,447. Colorado came second with a production valued at $18,420,031; Alaska third, $14,782,512; Nevada fourth, $12,279,131; South Dakota fifth, $7,197,498; Arizona sixth, $3,803,039; Utah, seventh, $3,400,103; Montana eighth, $3,078,202.

The production in the leading states is as follows:

State or Territory.	Gold.	Silver.
Alaska	$14,782,512	$ 229,453
Arizona	3,803,039	2,049,766
California	20,015,447	923,087
Colorado	18,420,031	5,536,837
Idaho	1,366,605	5,787,077
Montana	3,078,202	7,880,166
Nevada	12,279,131	9,123,229
New Mexico	844,086	921,943
North Carolina	111,442	1,371
Oregon	1,370,987	95,870
South Dakota	7,197,498	101,696
Utah	3,400,103	7,416,664
Virginia	3,514	14,330
Washington	692,021	159,038
Wyoming	30,491	2,254

The production of silver amounted to 67,601,111 ounces, valued at $50,648,871. The production in 1912 was 63,766,500 ounces.

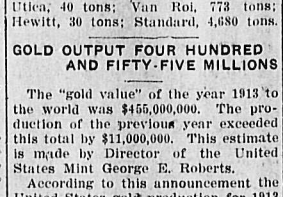
quickly stops coughs, cures colds, and heals the throat and lungs. 25 cents.



SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

CORPORATION OF THE CITY OF NELSON

NOTICE

Public notice is hereby given to the electors of the Municipality of the City of Nelson, that I require the presence of the said electors at the City Hall on Monday, the 12th day of January, 1914, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Mayor and Aldermen and on the Public School Board as Trustees.

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer any time between the date of this notice and 2 p. m. of the day of nomination and in the event of a poll being necessary, such poll will be opened on Thursday, the fifteenth day of January, 1914, between the hours of 9 o'clock a. m. and 7 o'clock p. m., at the City Hall for the East Ward, at the City Hall for the West Ward, at 509 Kootenay street (the City Band Room) for the West Ward, and in the City Hall for that portion of the school district included in subdivisions No. 98, 132, 304, 619, 5180, 5290, 5291, 5549, 8349, 9013, 683, 393, 6585, 370, 372, 7672, 3212, 909, 908, 3690, 7873, 7705, of which every person is hereby required to take notice and govern themselves accordingly.

The persons qualified to be nominated for and elected as mayor of such city shall be such persons as are male British subjects and the full age of twenty-one years, and are not disqualified under any law and have been for the six months next preceding day of nomination, the registered owner in the land registry office of land or real property in the city of the assessed value on the last municipal assessment roll of one thousand dollars or more, over and above any registered judgment or charge, and who are otherwise duly qualified as municipal voters.

The persons qualified to be nominated for and elected as aldermen for such city shall be such persons as are male British subjects of the full age of twenty-one years, and are not disqualified under any law and have been for the six months next preceding the day of nomination the registered owner in the land registry office of land or real property in the city of the assessed value on the last municipal assessment roll of five hundred dollars, or more, over and above any registered judgment or charge and who are otherwise qualified as municipal voters.

The persons eligible to be nominated for and elected as school trustees of the Nelson School District shall be any person being a British subject of the full age of twenty-one years and having been for the six months next preceding the date of nomination the registered owner in the land registry office, of land or real property in the City School District of the assessed value, on the last Municipal Assessment roll, of five hundred dollars or more over and above any registered judgment or charge, and being otherwise qualified to vote at an election of school trustees in the said school district.

Given under my hand at the City of Nelson aforesaid, the fifth day of January, 1914.

W. E. WASSON
Returning Officer

CIVIC ELECTIONS

To the people:

Not being connected with any party, clique or individual, in my campaign for election as Mayor of the City for 1914, and being of the opinion that a candidate for the office of chief magistrate should be free from any such party, clique or individual, so that he will not be bound by any promises and will be free to exercise his mind and deal with each and every question having to do with the affairs of the city, in a strictly business way, to the best of his ability I have in order to practise this opinion, organized no election committee and secured no committee room, but I wish the electors as a whole to act as my committee with the City as our headquarters and work together for the best interests of the whole city for the future.

Should I have the honor of being the next chief magistrate of the City I will be in a position to give my whole time and undivided attention to the management of the city's affairs.

Respectfully asking for your votes, not only for myself, but my aldermanic candidates, Messrs. Horstead, Horswill in the East ward and Messrs. Bell and Jones in the West ward,

I am
Yours faithfully
J. J. MALONE

News of Sport

Nelson Hockey Team Wins From Rossland

(By Staff Correspondent.)

ROSSLAND, B. C., Jan. 13.—Nelson last night stepped out in the front of the race for the championship of the West Kootenay league for 1914 when they met and defeated the local septet by the score of seven goals to five. Though both teams showed the lack of sufficient practice, their work was all that could be desired and the game was punctuated here and there by lightning-like plays that kept the spectators interested at all stages.

The Rossland boys played a hard game, but their rushes were futile against the strong defensive work of the Nelson boys. McKay on the Nelson defence was the target of the critics in the earlier stages of the game and he acquitted himself very creditably, relieving time and time again when the Nelson nets were in danger. Ross, too, played a strong game and with Cadden and McKay proved a tower of strength. The forward line lived up to its reputation of being strenuous back checkers and they held their men effectively as well as being alive to almost every opportunity to get at the opposing nets.

For Rossland Sexsmith was the bright shining star, while McCammon played a strong game. Jewell and Griffiths played strenuous games, but their work did not always meet with the favor of the referee and Griffiths in particular decorated the fence on several occasions.

The game opened with the Nelson team assuming the aggressive, which they held for some few minutes, much to the delight of their supporters, who arrived on a special train some 100 strong, but breaking away from a scrimmage in front of the Rossland net Sexsmith raised the hopes of the local supporters by raising a long shot past Cadden for the first goal of the evening. The play now was very even for some time.

In about nine minutes Taylor secured the puck for Nelson and tried a long shot from near centre, which fooled Cooke and tied the score. The game waxed very warm and there was no scoring until but one minute before the end of the period, when Harry Bishop placed Nelson in the lead.

At the beginning of the second period the Rossland team began to look dangerous for a few minutes and it took them but one minute from the face-off to tie the score, Jewell turning the trick after a neat rush from centre ice. Sexsmith, who appeared now to be getting nicely warmed up, also executed a pretty play and in three minutes he placed his team in the lead, amid deafening applause. It was here that the Nelson boys bucked up, particularly on the defence, and some of the plays of McKay and Ross brought the Nelson contingent to its feet. The play became pretty strenuous and the referees were called upon to exercise their right and benched a couple of the players for dirty work. In seven minutes Charlie Taylor, who was being closely checked by the local team, who were apparently very much aware of his wicked bullet-like shot, got away from the bunch and tied the score again. This was closely followed by a brilliant individual rush by Ross, who passed every man on the Rossland team and scored. Rossland then pressed, but McKay relieved and with Ross essayed a rush down the ice, which they were successful in executing and Ross, taking a neat pass from his fellow defence man, beat Cooke, putting Nelson two goals to the good.

At the first of the last period of the game Nelson put the game on the ice, Oliver and Ross each scoring a goal and making the score board read Nelson 7, Rossland 3. But the local team were nothing daunted and they continued to press and press hard. The Nelson team seemed willing to lay back and depend upon defence work, and in this they succeeded, for the period was 18 minutes gone before Cooke scored for Rossland and a minute later Sexsmith added another, but the whistle blew and Nelson, last year's champions, had annexed another victory.

Paddy McDonough of Trail was referee and Alf Saunders acted in the capacity of judge of play, both acquitting themselves very creditably and to the satisfaction of the players and spectators. The timekeepers were C. H. Wallace of Rossland, C. F. McHardy of Nelson and William Reese of Trail.

Penalties, first period—Ellis, Rossland. Bishop, Nelson.

Second period—Griffith, Ellis, Griffith, Rossland.

Third period—Griffith, Rossland; McKay and Hacking, Nelson.

The lineup:

Nelson		Rossland
Cadden	Goal	A. Cooke
Ross	Point	Ellis
McKay	C. Point	McCammon
Oliver	Rover	Sexsmith
Bishop	Centre	Jewell
Taylor	Left Wing	Griffiths
Hacking	Right Wing	W. Cooke

GUNBOAT SMITH

The Yankee heavyweight pugilist, who put Arthur Pelky away in 15 rounds at San Francisco on New Year's day.

JURY FORBIDDEN TO INSPECT PENITENTIARY

(By Daily News Leased Wire.)

VANCOUVER, B. C., Jan. 13.—A grand jury at New Westminster today objected strenuously in its presentment to the fact that its members were denied permission to inspect the British Columbia penitentiary. The warden apparently did not think a visit to his premises necessary, but the jury complained very bitterly about being unable to get in.

WORKMEN KILLED BY FALL OF CLAY BANK

(By Daily News Leased Wire.)

TORONTO, Jan. 13.—Suffocated under an immense clay bank on which they had been working, two men, George Woodhouse, 47 years of age, and Glen Martin, 45 years of age, of Eglinton avenue, both married men with families, were almost instantly killed today. Both were employed at the Pears Brick works on Eglinton avenue, and it was while working for the company that they met their death.

COOKS AND HOUSE MAIDS HAVE AN

ever-ready friend, who never grows weary and is always at hand to keep them in a good position.

PREPARE FOR BIG BONSPIEL

Rossland Will Have Seven Sheets of Ice—Nelson Club Hopes to Send Many Rinks.

Rossland Curling club will have seven sheets of ice in readiness for the opening of the big bonspiel of the British Columbia Curling association at that city on January 20. Good curling conditions prevail in Rossland at the present time and it is expected that the ice will be in splendid condition when the provincial bonspiel opens.

The Nelson Curling club hopes to be represented by a large number of rinks and several have already been made up. Any curler who is willing to attend the bonspiel is asked to leave his name at Thurman's cigar store in order that he may be allotted to a place on a rink.

VICTORIA CHAMPIONS WIN OVER NEW WESTMINSTER

(By Daily News Leased Wire)

VICTORIA, B. C., Jan. 13.—Playing hockey such as they alone can play the Victoria champions triumphed over New Westminster in a mixture of the six and seven men game tonight and are now tied with Vancouver for the league leadership. The score was 5 to 3. There was about 2,500 spectators present, and they witnessed a clean, fast game.

MOOSE PLAYED TO STANDSTILL

(By Daily News Leased Wire)

MOOSE JAW, Sask., Jan. 13.—The Regina Victorias played the Moose to a standstill here tonight and handed them their fourth defeat of the season, winning by a score of 7 to 2.

MUNICIPAL STRIKE IN LEEDS IS AT END

(By Daily News Leased Wire.)

LEEDS, England, Jan. 13.—The citizens of Leeds, who have been acting as amateur lamplighters, gas and electric workers, street car drivers and street sweepers, since December 23, today won their fight against the striking municipal workers. The strikers agreed to accept unreservedly the terms offered by the municipal council.

SARAH BERNHARDT ADDED TO LEGION OF HONOR

NEW YORK, Jan. 13.—From Paris comes the news that at last the name of Sarah Bernhardt has been added to the roll of fame of the Legion of Honor. Her claims have been put forward several times before, but the influence of a strong element in French society prevented the French actress from obtaining the decoration.

QUEEN ALLOWED TO KEEP UMBRELLA

Refuses to Enter Museum if Deprived of Umbrella—Bishop as Peacemaker.

(By Daily News Leased Wire.)

LONDON, Jan. 13.—Because she refused to give up her umbrella, the Queen of England was refused admittance to Norwich castle museum yesterday. Queen Mary was accompanied by the Bishop of Norwich. As it was a purely private visit, no notification had been given. The attendant, failing to recognize the Queen, stubbornly refused to admit her with the umbrella, which she, with equal stubbornness, refused to surrender.

The bishop intervened, but without effect, until he disclosed the identity of the royal visitor. Profuse apologies followed and the Queen entered bearing her umbrella in triumph.

HOME RULE NEGOTIATIONS ARE BROKEN OFF

Situation of Great Gravity—Opposition Rejects Premier's proposals —Wants General Election

(Western Associated Press Special Cable.)

LONDON, Jan. 13.—The Daily Mail publishes a record of the futile negotiations regarding Ulster between Mr. Asquith, the premier, and Bonar Law, leader of the opposition, remarking that the situation has become one of far greater gravity than generally imagined.

Mr. Asquith proposed to reserve the control of a number of public services. Bonar Law rejected these offers, stating that the best course was a general election, the verdict of which the Unionists would accept. Mr. Asquith rejected that suggestion and indicated his unwillingness to exclude Protestant Ulster from the home rule bill, the Nationalists refusing to accept such a proposition.

There the matter rests without any prospect of negotiations being resumed prior to the reassembling of parliament.

COLDEST DAY IN LAST FORTY YEARS

(By Daily News Leased Wire)

MONTREAL, Jan. 13.—Not since 1875, nearly 40 years ago, when McGill university started to make meteorological observations, has there been so low a temperature in Montreal as was recorded today. At 7 a. m. the mercury had dropped to 27.1 degrees below zero. The nearest coldest day previously registered was Jan. 24, 1888, when it was 26.0 below.

BAYNES NOTES AND NEWS

(Special to The Daily News.)

BAYNES, B. C., Jan. 13.—In common with the rest of the Dominion, unusually mild weather still prevails in this district. Logging transport from the camps is largely blocked on account of the unusually small snow fall and many thaws.

A big landslide between Swinton and Elko, on the Great Northern line, occurred early in the morning of Jan. 3 and traffic was held up for a day. About 600 feet of mud and rock debris got on the line.

The insurance injuster of the Phoenix Fire Assurance company, of Calgary, has not yet been to investigate the fire at Dunn Bros.' store which took place Jan. 2, on account of having to attend to the company's interest involved in the $500,000 fire at Didsbury, Alta. Dunn Bros. recently adopted the McCaskey register system of accounts. In spite of losing all the store accounts in the fire, they were able to replace them by the slips issued to their customers under that system. There was only one life lost in the fire—that of the store cat.

The fortnightly practise dance at Adolph hall, Baynes, was held on Friday, Jan. 9, and was well attended.

The Foresters' annual dance was held at Waldo Old hall on Friday, Jan. 2 with the Cranbrook Ladies' orchestra. The clubmen mustered in such force with their friends that only about half the dancers present could be accommodated on the floor at one time.

On Saturday Jan. 3, the Baynes and Juvenile hockey teams met on Baynes Lake when the latter inflicted a heavy defeat of 5 to 0.

Mrs. Waddell, of Winnipeg, who has been visiting her only daughter, Mrs. W. L. Cowan, wife of the Rev. C. L. Cowan, pastor of the Presbyterian church, of Baynes and Waldo, left for her home on Thursday, Jan. 8.

The Ladies' Anglican guild of Baynes and Waldo, met on Wednesday at Old Waldo hall when Rev. A. E. Bruce, the newly appointed rector in charge, was present. They have arranged for a "Hard-Times" dance on Friday, Feb. 6 in aid of the church funds. At this meeting the annual report was read and passed, showing a total in hand for the projected new church of $600.

UTICA MINE GIVES BRIGHT PROMISE

"During the last two years we have transformed the property from a prospect of which two companies had failed to make a success into a well developed and equipped mine. We have connected it with the railroad by a splendid wagon road, installed compressor, sawmill and power plant; erected two-story mine buildings, stables at both ends of the wagon road, ore houses and a shipping depot; purchased two four-horse teams, sleighs and wagons and added to our holdings three mineral claims of great prospective value and 640 acres of timber adjoining the mine, which is easily worth $40,000 alone.

"I estimate the value of these improvements and new holdings, without allowing anything for mine development work, which has been continuously prosecuted during the two years, at not less than $100,000.

"During 1912 we shipped ore which yielded net smelter returns of $50,000, and last year, despite almost impossible railroad facilities for a very short season, our shipments netted $44,000. We propose to install as early as possible in the spring a rock crusher, small concentrator and a zinc separator. These will enable us to increase our output materially and keep our teams busy hauling ore and concentrates. We have supplies on hand at the mine sufficient to run a crew of 25 men until the railroad resumes operation."

POWER PLANT PROFITS SHOWN

Four Thousand Dollars—Meters Put City in Good Position to Meet Large Consumption

Profit on the past year's operation of the city power plant amounted to $4,271.52, in addition to free light for buildings, schools, hospital and streets, which amounts to $7,500, according to the report of H. P. Thomas, city electrical engineer, which gives details of the work carried out and a complete list of detailed expenditures in itemized cost sheets attached. In addition the plant supplied free power to the street railway.

Revenue for the year was $62,000. Expenditures were: Interest on debentures, $17,750; sinking funds, $14,200; operating costs, $25,778.48.

With regard to the capitalization, the report points out that, while the debentures issued against the system as a whole amount to $355,000, a valuation gives a value of $375,000 at conservative prices, showing that from year to year extensions and additions have been charged to current expenses so that in this department the city has an asset of $375,000 plus the sinking fund paid to date, the depreciation having been taken care of from year to year in current expenses.

"The power plant at Bonnington has been running extremely well this year and has not at any time to date failed in furnishing power to the city, although there have been some heavy lightning discharges," says the report.

"Each unit in turn has been overhauled and the bearings rebabbited where necessary, so that these machines are now in good condition."

The report refers to the fact that the power plant building has been strengthened by the construction of a cement wall on the south side and calls attention to the inferior quality of the brick used in the wall which the cement is designed to keep dry.

Improvements designed to prevent accidents to the power line are mentioned and it is recommended that a switching tower be constructed at the substation.

Regarding meters the report states: "The introduction of meters has made a difference already to the peak load of 17.4 per cent., so our position for accepting a heavy consumer is bettered to that extent and the extra expense of another unit is deferred to a further date by this saving. Former average maximum peak load was 64.4 per cent., present 54.5 per cent.

"With regard to comparative cost of light in Nelson and elsewhere, Nelson ranks fifth lowest on an average monthly account of $2.95 in a list of 15 cities of Canada, while for larger amounts Nelson ranks third lowest. The cities taken are as follows: Red Deer, Cranbrook, Grand Forks, Fernie, Rossland, Revelstoke, Westmount, Peterborough, Sault Ste. Marie, Lethbridge, Brandon, Calgary, New Westminster, Victoria and Nelson."

New street standards and clusters which have been erected, improvements to the lighting system on the waterfront, the acquisition of the LX Lite Powder company and the government zinc smelter at Fairview as power users, new wiring and new extensions are among the other matters dealt within the report.

IMPROVEMENTS MADE IN CITY

Report of City Engineer Gives Details of Work During Past Year and Its Cost.

"An electrically driven rock crushing plant was erected at the end of Vernon street at a cost of $1,544, the average daily output of crushed rock being 35 cubic yards, at a cost of $1.37 per cubic yard, not including maintenance and depreciation of plant. This cost would be reduced by using the machine drill, which is at present at the power plant; a suitable compressor would have to be purchased," says the annual report of the city engineer.

"The following streets were surfaced with macadam:

"Baker street, north side, Ward to Stanley, patch 4 in. thick, 8 ft. wide, 300 ft. long.

"Baker street, south side, Ward to Stanley, average thickness 8 in., 19 ft. wide, 300 ft. long, 200 square yards of this being treated with crude coal tar, one gallon per square yard, applied hot; cost 17c per square yard. Very satisfactory results at low cost are being obtained elsewhere by the use of refined coal tar applied to broken stone roads during favorable weather conditions. Baker street, Falls to Railway, 8 in. thick, 42 ft. wide, 300 ft. long, was unfinished on account of weather. Front street, Ward to Josephine, average thickness 8 in., 16 ft. wide, 225 ft. long. Cost of above work, including grading, $2,830.

"Total cost of work done on streets, $18,494.32.

The report gives details of the work carried out in the department during the year. In the city 1,898 ft. of water piping was laid and in Rosemont, where the whole cost was borne by the owners of the subdivision, 2,900 ft. was laid. The dam at Cottonwood creek was extended and an additional spillway was constructed. About 2,500 ft. of the 14 in. intake pipe was found to be seriously pitted through corrosion where the protective coating had been worn off, states the report. This pipe had been in use 14 years. During the year 50 new connections were made, bringing the total number of services to 1,279. The total cost of waterworks construction was $2,052.49 and of maintenance $2,246.74. Sewers laid totaled 420 ft. Grading operations were carried out on 16 different sections of the city streets.

Seven monolithic street crossings, two concrete alley crossings and one street crossing of reinforced concrete slabs were laid.

G. O. Buchanan Arrives to Make Up Annual Report of Production and Amounts Payable

G. O. Buchanan, supervisor of lead bounties, arrived in Nelson on Monday and registered at the Strathcona. He is here for the purpose of making up his annual report of the lead production of the district and the bounty payable for the past year. He will spend about a week in the district.

SCAVENGING DEPARTMENT MADE GOOD SHOWING

In Spite of Cheap Rate for Residences Loss During Year Is Small, Says Report.

At the end of 1913 the number of places from which the city scavenging department was removing garbage under the contract system was 561, states the report of G. C. Mackay, city engineer.

Although the city is now removing garbage from residences at a rate of 25 cents per month the loss on operation during the year amounted to only $173.13, a figure which the council or Monday night considered very satisfactory. The expenditure was $3,-$15.25.

The loss is due to the excessive cost of hauling to the nuisance ground. The road formerly passed over private property, which has now been fenced in. The new road on Richar street has a very steep grade which materially increases the cost of hauling, says the report.

SCHOOL BOARD SHOWS SURPLUS

Is About Five Hundred Dollars to Good and Has Coal and Other Supplies on Hand.

Of the funds at its disposal, totaling $35,806.73 the Nelson school board during the year just closed, spent $34,-921.74, leaving a balance to the good of $884.99 but of this amount about $300 is owed for salaries which leaves a net balance of about $500, according to the annual financial statement which was presented to the city council on Monday by F. L. Irvine, secretary. It was stated that the board had on hand $400 worth of coal and sufficient scribblers and foolscap supplies for the balance of the present school year. Expenditures summarized were:

High school $6,998.85; public school $23,706.12; domestic science $865.60; manual training $1,060.45; medical health officer $654.40; general $1,336.32

Detailed accounts showing the various items upon which money was expended were available.

SEVEN THOUSAND KEGS IN GIGANTIC BLAST

(By Daily News Leased Wire)

PRINCE RUPERT, B. C., Jan. 13.—What will be the most gigantic shot ever fired on the Pacific, will be let off next Monday when 7,000 kegs of powder will be exploded here to remove a rocky bluff along the waterfront, in connection with the harbor development scheme.

THE GREEN BLOCK, NELSON, B.C.

FIRE LOSS IN NELSON SMALL

During Past Year it Amounted to Seven Thousand Dollars—Danger On Waterfront.

In Nelson during 1913 the total loss from fire was only $7,270 covered by insurance to the amount of $162,000, the loss being $3,800 less than in 1912, according to the annual report of Donald Guthrie, fire chief, which was presented to the city council at Monday night's meeting.

"We had plenty of water and the average pressure is good except in the southern part of the city where the pressure is very poor for fire protection purposes. The city is in a fairly safe condition from a large conflagration with the exception of around the boat houses on the waterfront. I find the public very careless in that district with matches, candles, lamps, cigarettes, cigars and live smoking pipes," states the report.

"Many of the boat houses have not electric lights in them and other lights are often used in the evenings.

"I again draw your attention to the fact that no heed is payed to the curfew bell and that nothing has been done toward revising the building by-law. I also suggest to the incoming council that something be done to give the residents of the west side of Cottonwood creek some fire protection and that the police commissioners be requested to prohibit coasting on Ward and all intersecting streets on account of the danger to children by the fire apparatus when responding to an alarm. I recommend that two new fire alarm boxes be purchased and installed as none were ordered this year and that the firemen be granted 15 days' leave of absence each year with full pay," says the chief.

During the year there were 39 alarms of which nine were false. Thawing water pipes, matches, hot ashes, overheated stove pipes, defective chimneys, furnace, gas heater, gasoline candles, lamp explosion, tar pots and cigarettes are some of the causes of outbreaks which are stated.

"You will note," remarks the chief, "that from the above causes nearly all fires were started by carelessness."

OUTLOOK FOR FISHERIES IN THIS PROVINCE GOOD

W. H. Greenwood Is Optimistic About Fisheries in Northern Waters of British Columbia.

W. H. Greenwood, president of the Skeena River Fisheries, Limited, has returned from a trip to the company's plant at Haysport. He stated that extensions are being made to increase the capacity for storing frozen fish from 400,000 lbs. to 1,500,000 lbs. The work will be completed by March 1 next. The company purchased 300,000 feet of lumber for the new buildings in Vancouver, and had it shipped north on scows. He said that recently the English capitalists interested in the enterprise had purchased the stock of the Canadian holders and now owned it outright.

He takes an optimistic view of the fisheries industry in northern waters and believes that ultimately most of the American fishing boat owners will purchase wharfage space in or near Prince Rupert and ship their fish in bond from there instead of taking them to Seattle. He is in favor of removing the duty on bait as an additional incentive to American boat owners to trade in British Columbia ports. —Vancouver News-Advertiser.

CRESCENT VALLEY BAND ARRANGES TO GIVE BALL

The first anniversary ball of the Crescent Valley band will be given at Crescent Valley on Friday. A four-piece orchestra has been secured. Supper will be served in the dining hall.

NELSON NEWS OF THE DAY

Mrs. J. E. Taylor will not receive today, and not again this season.

Mrs. H. Colin Cummins passed through the city last night on her way to England where she has been called by the serious illness of her mother.

Mrs. T. Palmer and son of Manitoba, left this morning for Lethbridge after visiting the coast cities, and her son Oscar Palmer, of Willow Point.

The officers and members of Queen City Rebekah Lodge No. 16 degree team, will meet in the lodge room at 8 o'clock tonight for degree practise.

F. W. Peters, general superintendent of the Pacific division of the Canadian Pacific railway, who was at the Strathcona yesterday left last night for the main line in order to meet George J. Bury, vice-president of the system, who is on his way to the coast.

Polling booths for the civic elections tomorrow will be at the city hall for the east ward and for residents of the suburban portions of the Nelson school district and at the band room on Kootenay street for the west ward. The poll will open at 9 o'clock in the morning and will close at 7 in the evening. Voters must vote for not more than one candidate for mayor, three for aldermen and two for school trustees.

The most modern dairy in the province, with the exception of that at Steveston, which would probably take first prize in a competition, is the description given the new Pioneer dairy at Harrop which was yesterday inspected by Dr. B. R. Ilsley of the provincial department of agriculture, who was at the Hume last night. Dr. Ilsley is expected to visit this district in April in order to carry out tubercular tests in cattle.

WANT AD HOROSCOPE

JANUARY 14

You are inclined to live too much in the external and you are proud, ambitious and passionate.

You give with a lavish hand, but not wisely. You are either in high spirits or you are very morbid and blue.

These are faults easily overcome when you understand that Saturn, your governing planet, only awaits your determination to rise above this tendency, when it will point the way to happiness and success.

If you would have good health, you must stop fretting and worrying. Study yourself daily with a determination to be "the master of your fate."

You should marry a person whose birthdate falls between August 22 and September 23.

The Want Ads are well-famed for business changes during the coming week.

NEUROPATHIC PHYSICIAN APPEALS AGAINST CONVICTION

(By Daily News Leased Wire)

MOOSE JAW, Sask., Jan. 13—A case of interest to qualified medical practitioners, chiropractors, osteopaths and neuropathics, commenced in the district court here before Judge Ousley today.

Dr. Jones, neuropathic physician of this city, is appealing against conviction and fine secured here against him last fall for treating a local youth for typhoid fever and charging a fee for the same without being a qualified medical man. The mother of the boy who was cured of typhoid fever by the appellant, denied in court that any bill was ever presented for services rendered, that any mention was made of payment, or any medicines administered. Judgment was reserved.
