KING'S ACCIDENT IS NOT SERIOUS

(By Daily News Leased Wire.)
LONDON, Nov. 4.—The Lancet says it is in a position to state with authority that the accident to King George resulted in severe shock, much bruising and pain.

"But there has been no more serious outcome to his dangerous mishap," adds the journal. "There is no evidence whatever of any visceral lesion or any fracture. Although his majesty is still confined to bed this is necessitated solely by the muscular stiffness following the bruising."

FRANCE IS FIGHTING FOR DURABLE PEACE

New Cabinet Wins Vote of Confidence 505 to 1—Briand Shows Mastery of Chamber

(By Daily News Leased Wire.)
PARIS, Nov. 4.—The ministerial declaration made by Aristide Briand, new premier, yesterday was most favorably received in both the chamber of deputies and the senate, and a vote of confidence of 505 to 1 was given the government amid great applause.

The premier's announcement that it was the government's decision to obtain guarantee of a durable peace before laying down arms also was greeted with enthusiastic cheers.

M. Renaudel, Socialist leader, in a speech declared that France should annex none of the territory captured from enemies of France. This was taken to mean that the Socialists were opposed to the recovery of Alsace and Lorraine, and the deputy's utterances brought forth tumult and violent protests.

Several interpellations, not essentially hostile to the cabinet, but more in the nature of requests for guarantees as to the policy of the government, gave Premier Briand the occasion to show once more his great mastery over the chamber, his broad grasp of all questions and his dexterity in meeting emergencies. The premier was never more eloquent than in his simple development of the government's views and in replying to the interpellations.

During his speech he created a scene of much excitement and brought all the deputies to their feet when he said: "France in this war is the champion of the world. France is fighting for civilization and liberty. A durable peace can be given the world only when France and its allies have reconquered the liberty of the peoples in the enjoyment of their autonomy. Then, why vain discussion? Grant us today unanimous confidence. Do not follow us blindly—judge us by our acts."

LEADERS DISCUSS EXTENSION OF TERM

Conservatives Favor Fixed Term—Liberals Likely to Suggest One Year's Extension.

(By Daily News Leased Wire.)
OTTAWA, Nov. 3.—While it is understood that Sir Robert Borden and Sir Wilfrid Laurier had a short conference yesterday at which the matter of the extension of the life of the present parliament was discussed, it is asserted that no definite agreement was reached. While both leaders are said to be in agreement as to the necessity for action being taken, it is not believed likely that formal agreement will be arrived at before parliament meets. Then formal proposals will be submitted and considered by the two parties in caucus.

Undoubtedly the Canadian parliament will be influenced to some extent by the action taken by the imperial house to prolong the life of the British parliament. Action must be taken within three months by the imperial government and it is quite probable that the measure to be introduced at Ottawa will conform closely to the legislation adopted by the British house. It is stated that while the Conservatives are likely to favor an extension of the parliamentary to be a fixed period after the termination of the war, the Liberals are likely to suggest a 12-month extension, such extension to be renewed at the end of the year.

90,000 RECRUITS STILL NEEDED

Expeditionary Force Now Numbers 161,000

BRITISH COLUMBIA HAS RAISED 17,500

Ontario's Total Placed at 62,000--Net Losses Are About 8,000 to Date

(Special to The Daily News.)
OTTAWA, Nov. 3.—While exact figures as to the total number of men recruited since the beginning of the war up to the present time for expeditionary service are not available from the department of militia, some detailed figures giving approximately the totals to date and the numbers recruited in each military district and division have been secured.

Since the last official statement was given out at the end of September, showing a total enlistment of all ranks and all branches of the service on that date to be a little over 150,00, approximately 14,000 men have been added to the strength. The total number of all ranks now under pay is therefore approximately 175,000 men, but of these some 15,000 are enrolled for home duties, such as guarding public edifices, bridges, canals, etc patroling the United States frontier and connected in various ways with the administrative business of the military department. The straight overseas army at the present time totals about 161,000 men, of whom a little over 100,000 are now either overseas or en route. This leaves about 61,000 men in Canada and about 90,000 men still to be raised before the authoried 250,000 for expeditionary service is reached. At the present rate of recruiting it will take nearly seven months to reach the required number.

It may be noted also that in the totals given above as to the numbers raised for expeditionary service no account is taken of the wastage by casualty. The total casualties are now approximately 16,000. Of these probably half are either dead, prisoners or unfit for further service. Canada's real fighting army is therefore at the present time no much more than 150,000 men and officers. The latter number nearly 7000.

Figures by Provinces.

The militia department has not kept a record of the enlistments by provinces, but it has compiled statistics as to the recruiting by military divisions and districts, which correspond roughly with the provincial areas. According to these figures Ontario which comprises the 1st, 2nd and 3rd military districts, has recruited approximately 623000 men. No. 1 division, western Ontario, has recruited about 10,000; No. 2 about 16,000; No. 3, Kingston, about 16,300.

The province of Quebec which comprises the 4th and 5th divisions, has recruited about 19,300, of which the

(Continued on Page Two)

HUNGER FORCES VILLA ARMY BACK

They Are Also Quite Thirsty and Ammunition Pouches Are Flat—Finds Carranza Fortress Strong.

(By Daily News Leased Wire.)
DOUGLAS, Ariz., Nov. 3.—Gen. Villa, forced by hunger, thirst and a scanty supply of ammunition to abandon his plan for an immediate assault on the strongly entrenched village of Agua Prieta, commenced withdrawing his army today and shortly after 9 o'clock most of his force was moving toward Anavacachi pass, 12 miles southeast.

Reinforcements from the east reached Villa's army early this morning, according to reports from watchers east of Douglas. Apparently it is the intention of the Villa forces thoroughly to equip and provision his augmented forces before comemncing the reduction of the defenses of Agua Prieta, which Villa now realizes is a far more serious undertaking than he believed.

FRENCH SUBMARINES JOIN BRITISH IN MARMORA SEA

(By Daily News Leased Wire.)
LONDON, Nov. 3.—Both French and British submarines are now in the sea of Marmora, where the French submarine Turquoise was recently sunk by the Turks

SENT PINK FORM TO EARL KITCHENER

(By Daily News Leased Wire.)
LONDON, Nov. 3.—Field Marshal Lord Kitchener early this week received one of Lord Derby's invitations to men of military age to join the army. This was disclosed today by Lord Derby, who, while addressing a meeting of middle-aged recruits said nobody should be surprised if they received an invitation, as one actually had been sent to the minister of war.

GERMANS ADMIT TWO REVERSES

(By Daily News Leased Wire.)
BERLIN, Nov. 3.—(Wireless to Sayville)—German reverses on both eastern and western fronts were admitted in an official statement issued from the war office here today.

After admitting that the allies had captured 100 yards of trenches in the Artois region near Souchez, that the Russians had occupied Mikulishki and that Field Marshal von Hindenburg had retired to a position between Lakes Sventen and Illsen, the statement tells of the occupation by the Teutons of Uscie (Usie) in the Balkans.

PACKERS' AGITATION BASED ON MISAPPREHENSION

(By Daily News Leased Wire.)
LONDON, Nov. 3.—Lord Robert Cecil, parliamentary under-secretary for foreign affairs, replying in the commons today to a question whether the British government's attention has been called to the agitation in the United States against the meat judgments as based on "orders in council and not on international law" made this statement:

"There have been attempts in the United States to create an agitation against the meat case judgments but as appeals are pending this point is not suitable for diplomatic or other discussion.

"In all four cases the judge held the goods to be condemnable as contraband according to established rules of war, independent of orders in council, and the agitation is, therefore, founded on misapprehension."

SWEDISH FERRIES CARRY NO FREIGHT

Agreement Said to Have Been Made with Great Britain Which Has Tightened Blockade.

(By Daily News Leased Wire.)
LONDON, Nov. 3.—Further progress in the blockade against Germany is noted by the Stockholm correspondent of the Morning Post, who said that although the Swedish ferries have resumed service with Germany they will carry only passengers and mail.

An agreement, he adds, has been reported with the British government that these boats should no longer transport freight.

HON. ARTHUR MEIGHEN WILL GO TO THE FRONT

Canadian Cabinet Minister Will Don Khaki As Quartermaster of Grenadier Regiment

(By Daily News Leased Wire.)
OTTAWA, Nov. 3.—Hon. Arthur Meighen, solicitor-general of Canada, is going to the front. Within a few days he will don a khaki uniform, turn his back upon his office in Ottawa and become an officer in the Grenadier regiment, which Gen. Meighen is now raising in Montreal for overseas service. The solocitor-general of Canada is to become a regimental quartermaster.

As Mr. Meighen has not enjoyed the advantage of military training, either as an officer or a private, he is going as the internal economist of the Montreal regiment. As quartermaster he will not require to have military training but to look after the business of keeping the regiment in supplies of food, clothing and ammunition. He will be the business man of the corps. Hon. Mr. Meighen yas recently admitted to the Borden cabinet, having a few weeks ago been made a privy councillor and admitted to a seat at the council board.

BRITISH PLUNGER BAGS GERMAN SHIP IN BALTIC

(By Daily News Leased Wire.)
LONDON, Nov. 4.—A despatch to the Exchange Telegraph from Copenhagen says:

"The German steamer Suoz was sunk by a British submarine yesterday off Karlskrona in Sweden, on the Baltic. The crew was landed in Sweden today. One of the men was wounded by a shell splinter."

Available shipping records contain no steamer Suoz.

G. T. P. POSITION IS NOT CRUCIAL

Government Will Talk of Operating it When Alternative Is Closing Down, Not Until Then.

(By Daily News Leased Wire.)
OTTAWA, Nov. 3.—The chief talk on Parliament hill yesterday was railways and the question everybody was asking was: "What is the government going to do about the Grand Trunk Pacific?"

Today there is little talk about railways and what the Grand Trunk Pacific wants and the government will do is easily summed up for the present, at any rate.

The Grand Trunk Pacific is a going concern. If it has difficulties they are not crucial, and do not call for government intervention of such a nature as taking over the railway.

"When the Grand Trunk Pacific closes down, if it ever does, then will be the time to talk of operating the railway," said an authority on these matters today.

The visit of A. W. Smithers and E. J. Chamberlin to Hon. Frank Cochrane yesterday is described as more of a social than a business call.

DEMANDS HEAD OF PREMIER ASQUITH

Lord de Broke Uses Grand Duke as Precedent

ONE NOBLE LORD WHACKS COALITION

Worse Than Liberals, He Says--Morley Defends Prime Minister

(By Daily News Leased Wire.)
LONDON, Nov. 4.—Cabinet responsibility, the conduct of the war and the censorship were discussed, criticized and defended at a short sitting of the house of lords last evening. The session proved a somewhat tame affair, after the great debate in the commons Tuesday.

Baron St. Davids, who has gained a reputation for outspokenness since he became a member of the upper chamber, started the discussion by demanding that a full meeting of the privy council, which is composed of some hundreds of members from all parts of the Empire, should be called to discuss the present position of affairs. Unlike most of the ministers of the government he believed that the war would have been better conducted by the late Liberal government than by the present coalition. The late government, he said, carried on the war with great vigor, while after the coalition was formed no extraordinary vigor was noticeable. He declared that those who have made mistakes should be "scrapped" and hereafter no man should be given office merely because of former services, or rank or wealth.

Would Get Rid of Asquith.

Lord Willoughby de Broke declared that Premier Asquith should be held responsible for all mistakes.

"If Russia could get rid of Grand Duke Nicholas in the middle of the war," he said, "England could get rid of Asquith."

Viscount Morley deprecated the attacks on the premier and pointed out that when he left the cabinet he did not trouble the lords with any reasons, which he considered good practise, especially when the country is at war.

Speaking of the censorship, Lord Morley asked the government to take steps to prevent official interference with the publication of intelligence unless calculated to prejudice military and naval operations. The freedom of the press he declared to be as important as the greatest constitutional issue and he agreed with Lord Selborne when he spoke of the stupidity of the censors' actions.

The Ostrich-like Censor.

Lord Morley deplored the effect on neutrals of "the ostrich-like activities and childish insincerities" of the censorship and added that he had never seen a government or an administration less in need of a censored press than the present one. He had never been addicted to undue glorification of

(Continued on Page Two)

MIGHT AND RIGHT NOW WITH ALLIES

Russia Issues Statement Concerning Greece—Still Is Friendly to Bulgarian People

(By Daily News Leased Wire.)
PETROGRAD, Nov. 4.—The Russian foreign office has issued the following statement with respect to Balkan affairs:

"The reproaches in the German press against the allies for violating Greek territory are not justified. The allies had been invited by Greece to send troops through its territory to help Greece's ally. Greece had even mobilized with that object in view. A change in the cabinet in Athens has brought about no modification in the Hellenic policy respecting the passage of troops, although it has resulted in a decision to maintain neutrality.

"The imperial government, as also its allies, would have considered not only disloyal but morally criminal any action contrary to the principles of right and justice which have determined Russia to come to the defense of signed treaties and of the independence of peoples.

"To divest war of all its moral strength would be folly, if not a blunder. We want a strong and independent Greece, and we are ready to recognize in its behalf the territorial en-

(Continued on Page Two)

CAPTURE GERMAN SUPER-SUBMARINE

(By Daily News Leased Wire.)
LIVERPOOL, Nov. 3.—The Daily Post publishes a report of the capture of one of Germany's super-submarines, 250 feet long, and carrying, in addition to torpedo tubes, four guns of fairly large calibre. The submarine was launched at Stettin two weeks ago.

The Post states that within a few hours after leaving its base it was caught in the "traps we have so skilfully laid for these craft somewhere in the German ocean."

ALLIES LAND MORE TROOPS TO ATTACK BULGARIANS

Latest Force Goes Ashore at Kavala

SERVIAN ARMIES MAKE GOOD RETREAT

Rumania Expected to Allow Russian Troops to March Through

(By Daily News Leased Wire.)
LONDON, Nov. 3.—The vigorous support which Premier Asquith and Aristide Briand, French premier, have promised Servia seemingly is about to be realized. Besides the Anglo-French troops, including British cavalry which already are in southern Servia, British ad French transports are arriving daily at Saloniki and troops from them are being sent up the country immediately to attempt to check the Bulgarian march from Veles toward Monastir Other transports are arriving daily, according to a Sofia depatch and have landed troops at Kavala, a port on the Aegean sea. At the same time diplomats continue their efforts to secure the support of Greece and Rumania for Servia.

As time passes, however, Servia's position grows more critical. The Austro-German drive from the north is proceeding slowly but surely. Two Bulgarian armies are approaching Nish, from which place the Servian government has moved to Mistrovitza, over near the Montenegrin frontier. The Servians nevertheless are fighting hard and from the German accounts it is apparent that the Servians' main armies are making good their retreat.

Optimistic About Rumania.

Even the copper mines are being flooded so they cannot be worked by the Teutons.

There is no further news of the Russian expeditionary force, which several days ago was reported off Varna, Bulgaria's chief port. The opinion is held in the entente allied countries that Rumania, where there is continued agitation in favor of intervention, will allow the forces of Emperor Nicholas to move across its territory. If this decision is reached it is believed that it will be influenced by the victories of the Russian army in Galicia.

Good Offensive Strategy.

LONDON, Nov. 3.—Reports of the landing of the entente allied troops at Kavala in Bulgaria are approved here as the operation is believed to be good offensive strategy. Kavala, nominally, is a great tobacco port of Turkey and is the terminus of three important highways by one of which the Greeks in 1913 outflanked the Bulgarians and forced them to retreat out of Macedonia and virtually won the war.

The occupation of Kavala by the allied troops will necessitate, it is believed here, several new and distinct defensive concentrations by the Bulgarians.

Denies Monastir Taken.

LONDON, Nov. 3.—Denying recent rumors that the Bulgarians had reached Monastir, the Daily Mail's Athens correspondent declares it is unlikely that the Bulgarians will attempt to capture the city, on account of the danger it would involve of serious friction with Greece.

Serbs Destroy Arsenal.

AMSTERDAM, Nov. 3.—Before leaving Kraguyevatz the Servians blew up all buildings of military importance, writes the Berlin Tageblat's correspondent at the front.

"The Servians fought with unexampled bravery, defending their flattened trenches to the last," he says.

French Repulse Bulgarians.

PARIS, Nov. 3.—Announcement was made by the war office today of the repulse of a Bulgarian attack on the French troops in southern Servia near Krivolak. In the region of Strumitza the French troops are advancing on the mountains near the frontier.

Capture 2000 Servians.

BERLIN, Nov. 4.—(Via Sayville)—

(Continued on Page Two)

RYAN OVER INDULGED A LITTLE IN FRANCE

(By Daily News Leased Wire.)
OTTAWA, Nov. 3.—The minister of militia was asked today as to the reasons for the court martialing in England of Lieut.-Col. Ryan of the 6th mounted rifles.

"I have received no official details," he said, "but I heard that Ryan over indulged a little in France on one occasion. I want to say that he was a particularly fine officer and at Lilliefontein, South Africa, he distinguished himself as few men have done."

WEATHER SLACKENS WESTERN FIGHTING

Germans Make Slight Progress in Offensive But Lose Ground in Artois Region.

(By Daily News Leased Wire.)
LONDON, Nov. 3.—In the west unfavorable weather is interfering with the operations. But the Germans undertook another offensive movement in Champagne, where they managed to wrest from the French a few advanced trenches, but lost a trench in the Artois region. At other points activity was confined to artillery and mining efforts.

Shatter German Trenches.

PARIS, Nov. 3.—The following official statement was issued tonight:

"On the Somme near Fise we shattered by small mines fired at an opportune moment, important mine works of the enemy. Farther to the south in the sector of Beuvraignes the action with artillery and trench guns was particularly violent.

"In Champagne ,a German attack, preceded by the usual bombardment of suffocating shells, attempted to reach our positions to the south of Chausson farm, in the sector of Massiges. The assailants were able to penetrate only some parts of the advanced trenches at Hill 199. We repulsed them everywhere else, inflicting on them material losses.

"In the Vosges our artillery concentrated effective fire on the enemy trenches and works in the region of Violu."

The Belgian official statement records the usual artillery engagements.

Bag British Plane.

BERLIN, Nov. 3.—The text of the official statement dealing with the operations in France reads:

"Western theatre: There is nothing important to report.

'East of Peronne an English aeroplane was forced to descend. The pilot and officers were made prisoners."

BRITAIN TO CATCH FOREIGN PROFITS

McKenna Removes Technicality Which Enabled Outside Firm to Escape Income Tax Payments.

(By Daily News Leased Wire.)
LONDON, Nov. 3.J—The house of commons today agreed to the proposal made by Reginald McKenna, chancellor of the exchequer, for a modification in the income tax bringing within its cope foreign firms doing business in this country through agents. Under present procedure the agent escapes by a techicality from paying an income tax on profits. This new act of Mr. McKenna's also will catch the foreign exporters who invoices goods to an apparently independent firm at prices showing nominally little or no profits. The real profits, it is contended, go abroad and escape the tax collector.

Under the new scheme the income tax on transactions will be based on a percentage of the output or turnover.

ITALIANS CONTINUE THEIR ATTACKS, SAYS VIENNA

(By Daily News Leased Wire.)
VIENNA, Nov. 3.—The war office report tonight says:

"The Italians continued their attack against Gorzia on the front from Piava and Doberdo. The attacks failed everywhere.

"An Italian aircraft has dropped bombs on Gorizia.'

CANADA'S WAR BILL WILL BE $350,000,000 NEXT YEAR

(By Daily News Leased Wire.)
TTAWA, Nov. 3.—According to a ement issued by the department of nce today the financial returns of first seven months of the present l year, that is to say, until the of October, show an increase in ipts of $6,700,000 over the corre-nding period of the previous year a reduction of nearly $3,000,000 in nary expenditures and of $2,500,-on capital account.

anada's war expenditures for next r will be large. About $1000 per n per annum is calculated as the of raising, equipping and mainng Canadian troops at the front under arms in Canada. In this this estimate will probably be exed on account of the enormous exditure of ammunitio and the heavy in upon artillery and rifles. Canada's war expenditure next year on the basis of a force of 250,000 will aggregate from $20,000,000 to $350,000,000. The interest charges in connection with this and past war expenditures will probably amount to over $15,000,000 per year.

"ABSOLUTE ROT," COL. SMITH'S REPLY TO GRAFT CHARGE

WINNIPEG, Nov. 3.—"Absolute rot." This is Lieut.-Col. H. D. Smith's cabled characterization of the allegations made by Dr. W. Hinman before the Davidson commission to the effect that Dr. Smith accepted a bribe of $175 in connection with government horse purchases last summer. Hinman swore that he sold a number of horses to the remount department through Dr. Smith and paid him $5 a head on all the horses thus purchased.

SERVIAN PEOPLE PITIABLE SIGHT ON GREAT RETREAT

(By Daily News Leased Wire.)
LONDON, Nov. 3.—A story of the Servian tragedy received from Nish by way of Milan from Lucian Magrini, an Italian war correspondent, is printed by the Evening News. The writer characterized the clearance of northern Servia as "the retreat of the people not an army."

In his account of the retreat the correspondent describes the scene on a muddy road leading to the south over which was strung an unending procession of gun carriages, carts loaded with war material, conveyances of all sorts bearing women, children, old men, the sick and wounded, with, at intervals, flocks of sheep and droves of pigs and of soldiers walking side by side with the peasants. At the sides of the roads stood groups of peasants waiting until they were able to take their places in the procession.

"The great stream is flowing outward," says the writer, "whither nobody knows."

The wounded were a pitiable sight. Some, swathed in bandages, were carried on stretchers, while others, also bandaged, were walking because no stretchers were available for them. Still others who had been wounded but whose hurts had not even been bandaged trod the road with the procession. At Tropolika King Peter, ill and weak, was waiting to retire with the rear guard of his troops. Arriving at Nish the correspondent found the city nearing a squalid aspect. Almost all the shops were closed and many of the inhabitants had fled.

On the main street were still flying the flags which had been hoisted in honor of the allies, who had been expected but who had never come.

The price demanded for carriages

WHIP TEUTONS ON STRIPA RIVER

(Continued from Page One.)

but was repulsed. On both sides of the Licowoch-Zartorysk high road the Russians again were forced to retreat. Five officers and 660 men were made prisoners and three machine guns were captured.

"The troops of Gen. von Bothmer are still fighting for the northern part of Sienkowoe."

Russians Reinforced.

VIENNA, Nov. 4.—The following official statement was issued last night:

"Fighting on the Stripa continues; the Russians are being reinforced; north of Buczacz a Russian attack collapsed under our fire. Fierce fighting north of Bieniewa for the possessoin of Sienikowce lasted the whole day.

"The Austro-Hungarian counter-attacks mentioned yesterday resulted, after a veritable battle, in the ejection of the Russians, toward afternoon from the village. During the night new Russian counter-attacks were delivered, in consequence of which some of the houses were lost. Austro-Hungarian and German forces under Gen. von Linsingen penetrated the main Russian position near Beilegow west of Czartorysk. Five officers and 660 men were taken prisoners. Three machine guns were captured."

PITIABLE SIGHT ON GREAT RETREAT

(Continued from Page One.)

for transporting refugees was enormous, $200 being asked for the hire of a carriage for two to Pristina.

"Nish is isolated," continued the correspondent.

M. Yuovanivitch, Servian minister of justice, said to me: 'We lived through the tragic hour when Bulgaria mobilized. In vain we besought the entente powers to allow us to act and attack Bulgaria before its mobilization was complete. The entente was still under the deluction that Bulgaria would march against Turkey. We obeyed and that is our ruin. The situation is now terrible. If the allied troops do not come in time you will on your return find Servia no more. The fate of Belgium will have been ours.'"

ALLIES LAND TROOPS TO ATTACK BULGARS

(Continued from Page One.)

The announcement from the war office yesterday concerning the Servian campaign follows:

"Usice has been occupied.

"Booty taken at Kraguyevatz consists of six cannon, 20 cannon tubes, 12 mine throwers, several thousand rifles and a large quantity of ammunition and other war materials.

"The army of Gen. von Koevess captured 350 Servians and four cannon. The army of Gen. von Gallwitz during the last three days has captured 1100 Servians.

"The army of Gen. Boyadjieff is advancing west of Planinica and has captured 230 Servians and four cannon in this district. It has made further progress southwest of Kuyacevac, capturing 300 Servians and two machine guns Troops advancing in the Nisava valley gave way before superior forces of the enemy."

VIENNA, Nov. 3.—A war office report says:

"In the Balkans the Austro-Hungarians fighting on the Monte Nero front have stormed the strongly defended Bobiya height and captured a 12-centimetre Italian gun.

"An Austro-Hungarian column operating in Servia entered Uzicy. Other Austro-Hungarian forces are operating south and southeast of Cacak. South of the road between Cacak and Kraguyevatz on the heights southeast of Kraguyevatz and to the north and northeast of Jagodina, the Austro-Hungarian and German forces have gained ground, despite the enemy's stubborn resistance.

"At Kraguyevatz, 20 gun barrels, 12 bomb mortars, several thousand rifles and much war material were captured."

Want Plenty of Help.

MILAN, Nov. 3.—The Rumania opposition, led by Take Jonescu and M. Philipseco, is doing its utmost to overthrow the Bratanio cabinet and form a new national ministry favorable to the allies, says a Budapest despatch to the Secolo.

It is semi-officially stated, however, that Rumania would enter the war only after the allies had landed 500,000 men, otherwise it would be impossible for it to carry on a war on two fronts.

90,000 RECRUITS STILL NEEDED

(Continued from Page One.)

Montreal division has more than 15,000.

The maritime provinces, where recruiting is now considerably brisker than it was previously, have passed the 15,000 mark, for the three provinces, which are all included in the sixth division.

Manitoba and Saskatchewan, which with the districts of Thunder Bay and Rainy River in Ontario comprise military district No. 10, have contributed about 28,000 recruits. British Columbia and the Yukon, included in district No. 11 have enlisted 17,500 men and Alberta, which is in military district No. 13, has raised about 14,000.

The figures given above are for non-commissioned officers and men only. To get the approximate totals of all ranks for each province about 5 per cent will have to be added to the numbers given above for each province in order to include the officers.

LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

Take no chances! Move poisons from liver and bowels at once

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels and you have a well, playful child again. Children simply will not take the time from play to empty their bowels and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it and it can not cause injury. No difference what ails your little one—if full of cold or a sore throat, diarrhoea, stomach ache, bad breath, remember a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

DEMANDS HEAD OF PREMIER ASQUITH

(Continued from Page One.)

the infallibility of public opinion, but it was not half as fallible as the opinion of monarchs and ministers, even prime ministers. They leaned on public opinion, good or bad, and how in the world were they to lean on free, full and correct public opinion unless the public had free, full and correct information as to the facts on which that opinion rested.

It seems, he said, as though the censors had a standing order to "keep the barometer nailed fast and set at fair."

The Marquis of Crewe, lord president of the council, who replied to Lord St. Davids and Baron Willoughby de Broke, pointed out the difficulty of calling together the privy council and declared that Premier Asquith, while he might be considered responsible, was not responsible departmentally, and promised at the proper time the government would not shirk inquiry into the conduct of the war.

Vigorous Censorship Necessary.

The lord chancellor, Sir Stanley O. Buckmaster, replying to Lord Morley, said he believed a strict and vigorous censorship was required for the safety and protection of the troops. The censorship was designed to prevent imprudent war cables from being sent abroad and to prevent home newspapers from printing anything that might be of assistance to the enemy. Because of lack of experience the early history of the press bureau, he said, was deplorable and its actions were often unjust and unreasonable but never intentionally unfair. The statement that the London editors were dissastified with the press bureau as it existed today was absolutely contradicted by the facts. In his experience had news was never kept back but he did obejct to cables passing through this country which "disseminated Germanl lies."

After Viscount Bryce had pleaded for speedier and fuller recognition of gallantry of the troops, the debate was adjourned until Monday.

MIGHT AND RIGHT NOW WITH ALLIES

(Continued from Page One.)

largements which it needs to this end in Europe and Asia Minor. We hope that force of circumstances will lead Greece to the conclusion that not only right but might is on he side of ahe entente.

"The relations between Russia and Rumania which during the last decade had been placed on the basis of good neighborly relations and common interests, became stronger still during the second Balkan war, and by reason of the Bucharest peace treaty. Rumania is a great country, which has a right to realize its natfonal ideals. Russia has declared itself prepared to recognize the justice of these ambitions.

Understood Bulgaria's Game

"Several Rumanian statesmen recommend action by Rumania on the side of the entente. When the hour for a confraternity of arms is sounded we are certain that thought will be shared by all Rumania and that it will be crowned with the same success as attended the last war with Turkey.

"The entente powers from the beginning of the Balkan crisis understood the real game of Bulgaria and all their efforts were directed toward avoiding a fratricidal war between two Slavic nations. The efforts met with a setback owing to the policy of King Ferdinand, who, notwithstanding he is a king of a Slavic people, has remained German in sentiment.

"Russia, as proclaimed in the imperial manifesto, does not confound King Ferdinand and the Bulgarian people and will always be ready to proffer a friendly hand to the Bulgarians when they understand to what an abyss King Ferdinand's policy has carried them and when they come to range themselves on the side of the allies."

TENDER WAS PUT IN AT LAST MOMENT

(By Daily News Leased Wire.)

WINNIPEG, Nov. 3.—Having concluded the examination of the two most important officials of the National Construction company in the law courts inquiry—C. H. Simpson, president, and James M. Kelly, secretary-treasurer—I. Pitblado, for the crown, devoted this afternoon to the evidence of John Barter, a stockholder in the company and a member of the staff until he enlisted for active service some months ago.

Lieut. Barter's evidence dealt almost entirely with details of points brought out by previous witnesses. He told of assisting in estimating on the tender of the National Construction company for the main contract. When President Simpson saw this tender, he said, he declared it was too low and Simpson and Barter added roughly 15 per cent to this tender and a new tender was sent to the department under the name of C. H. Simpson & Co., and was finally accepted. Though it was almost the closing hour of the receiving of tenders when this was ready, the Simpson tender, witness said, was sent to the parliament buildings by a messenger boy.

The witness said that he had no authority in the National Construction office; he was under the orders of Simpson and Kelly and he was not necessarily consulted on contracts and tenders. Lieut. Barter will be on the stand tomorrow afternoon and will be followed by other members of Simpson's staff.

BROCKVILLE AND CORNWALL TO WINTER BATTALIONS

(By Daily News Leased Wire.)

OTTAWA, Nov. 3.—Brockville and Cornwall have been added to the winter training depots for overseas battalions. Two companies of the 52nd battalion will be quartered at Brockville and two companies at Cornwall. Arrangements for this were made by the military department today.

Canadian Divisional Signal Company.
Wounded—Sapper W. H. Nott England.

1st Field Company C. E.
Slightly wounded—Sapper Karl Gordon, Calgary.

SHE SUFFERED 30 YEARS

Zam-Buk Cured the Ulcer in a Few Months.

If Mrs. Jeffrey of 31 French street, Methuen had known about Zam-Buk thirty-three years ago, she would have saved herself just thirty-two years and some months of pain! Think of it! She says: "Thirty-three year ago an ulcer appeared on my ankle, which in spite of treatment, continued to spread almost to my knee. I tried remedy after remedy, atd was treated by various doctors for over 25 years, but only got temporary relief!

"The pain I suffered day and night was terrible; in fact, as I recall those days, I do not see how I was able to stand it! For years I could hardly walk, and was unable to leave the house. The ulcer extended from my ankle to my knee and was an open sore.

"One day I saw an account of a very bad ulcer having been cured by Zam-Buk. While I had become sceptical of all so-called remedies, I determined to give Zam-Buk a trial. I applied Zam-Buk freely every day, and the sore soon showed signs of healing. The inflammation went away, the pain was eased and I was soon convinced that after thirty years of suffering I was on the road to recovery. I realized that a complete cure could not be affected in a day, and persevered with Zam-Buk. Finally the terrible sore was quite healed. I have waited over a year before writing you but there has been no trace of the ulcer returning."

For ulcers, abscesses, eczema, scalp sores, piles, cold sores, chapped places, baby's sores, eruptions, cuts, burns, bruises, and all skin injuries and diseases Zam-Buk is without equal. Sold everywhere, 50c. a box, or postpaid, from Zam-Buk Co., Toronto, upon receipt of price. Refuse imitations.

WANTS INQUIRY INTO CANADIAN GUNNER CHANGES

(Canadian Associated Press.)

LONDON, Nov. 4.—On Oct. 27 there was made public in London a long list of changes in Canadian artillery commands at the Shorncliffe base. This week's Truth expresses surprise that so many changes were made with no apparent reason.

Truth recommends that the Canadian military authorities make inquiry into statements which are current at Shorncliffe regarding recent wholesale changes in the artillery commands which, says the paper, were apparently made without warning and with no reason given.

All these officers, some of whom, if not all, have come out from Canada in command of their batteries, are transferred to reserve brigades, which means that for them prospects of getting to the front are closed for an indefinite time, in favor of new sections. Such a wholesale shunting of men at such short notice will require a good deal of justification, declares the newspaper.

L. D.
AFTER

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need. This simple remedy has never been known to fail.

Kootenay and Boundary

GALLANT ROCK CREEK OFFICER IS KILLED

Major Anderson Loses Life on Gallipoli Peninsula—Had Splendid Record of Service

(Special to The Daily News.)

ROCK CREEK, B. C., Nov. 3.—Official news has been received that Major Anderson has been killed while fighting with the expeditionary force in the Mediterranean. Major W. F. Anderson was born at Bagswada, India, in 1861. He was the son of Col. John Cummins Anderson, R.E., who went through the siege of Lucknow. Major Anderson received his commission in 1881, served in India, Malta and on the general staff in Crete during the Turkish troubles in 1898-9. He served in Asiatic Turkey as military vice-consul from 1899 to 1903. He constructed road survey maps of all the principal roads in central Asia Minor, from the Black sea to Mosul. He was official interpreter in the French and Turkish languages and passed the higher standard in Persian and Hindustani. For the last five years of his service before retirement he was on the general staff in India. Since retirement in 1909 he has been interested in starting an orchard near Kettle Valley, which he left last January to offer his services. He was placed on the headquarters' staff of an army corps, which landed at Sulva bay. He met his death there during the attack of the Turks on Oct. 19. Major Anderson was married in 1900 to Laura, daughter of H. G. Ellsworth, barrister.

Mrs. Anderson, who is left with two daughters resides at Kettle valley.

FORT STEELE PEOPLE MOVE TO CRANBROOK

(Special to The Daily News.)

CRANBROOK, B. C., Nov. 3.—Mr. and Mrs. G. F. Pownall of Fish lakes, near Fort Steele, will reside in this city for the winter in Gus Erickson's house. Their little daughter is still very ill in the hospital here.

Mr. and Mrs. Gus Erickson will leave shortly for an extensive visit in California and other southern points.

David H. McKay left today for Trail and may engage in business there.

George Muir has taken the position of accountant with the Cranbrook meat market, succeeding D. H. McKay.

Kilburn K. Lunn of Bull River was in the city today making arrangements to start clearing and breaking his recently purchased 120-acre farm at Kingsgate. The original owner, Mr. Carrier, slashed and partly cleared 15 to 20 acres and it is Mr. Lunn's intention to complete the burning and clearing of this block and add about an equal amount to the cleared area. Mr. Lunn will leave the first of the week with four or five men, horses, tents, supplies and clearing equipment and personally superintend the work. If the weather continues favorable Mr. Lunn will plow 15 or 20 acres this fall for seeding in the spring. In the early spring a modern house will be erected facing the main road.

Alex Fisher, lawyer, of Fernie spent yesterday in the city.

James Kenny, formerly of this city, returned from his ranch on the prairie the beginning of the week. He will return to the prairie shortly.

Miss Bate of Fort Steele, in company with Mrs. Cann and Mrs. Binmore, were in the city yesterday making arrangements for the big dance to be held in aid of the Red Cross tonight.

TRAIL NEWS NOTES.

(Special to The Daily News.)

TRAIL, B.C., Nov. 3—The committee of the Red Cross society is today collecting throughout the city, it being tag day.

R. Helme and O. E. Ford of the Dominion Express company are in the city today.

Miss Weir returned last evening from a two months visit to Spokane.

Dr. H. Perdue of Victoria is in the city today.

Miss Smiley of Hosmer has arrived in the city and has joined the post-office staff.

The subscribers to the machine gun fund met last evening in the city hall and after some discussion it was decided to allocate the money to various funds, details of which will be announced later.

A concert will be held in the Baptist church on Friday evening, Nov. 12 in aid of the church funds. A fine program is being prepared. The Cecilia Octet will take a prominent part. There will be other singers and short speeches and humorous recitations.

MOYIE NOTES

(Special to The Daily News.)

MOYIE, B. C., Nov. 3.—Mrs. John Fitch returned from Goderich, Ont., Saturday.

James Roberts left for San Francisco, Cal., Tuesday as a delegate from the Western Federation of Miners to the American Federation of Labor.

Mrs. William Bremner visited her husband in St. Eugene hospital last week.

The annual school meeting was held Oct. 30. R. A. Smith and E. J. Sylvestre were elected to fill the two vacancies on the board.

TROUT LAKE HAS FIRST SNOW OF WINTER

(Special to The Daily News.)

TROUT LAKE, B. C., Nov. 3.—The first snow fell here Tuesday morning and it looks as if winter has come in earnest.

Alex Biggar and Napoleon Amos left last week to join the 54th at Vernon.

A party consisting of Mr. and Mrs. Craig, Mr. and Mrs. Cummings, Mr. and Mrs. Daney and Miss Courson went to Arrowhead to a dance given for the Red Cross.

Lindsay & Kennedy have taken a lease on the Horseshoe.

Miss McDonald and James Lindsay were married at Lardo on Thursday by Rev. Dr. Calvert. They will live here.

ROSSLAND NEWS

(Special to The Daily News.)

ROSSLAND, B. C., Nov. 3.—A public reception will be held on Wednesday, Nov 10, in the armory in honor of F. Nation, who will visit here in connection with the patriotic fund. A good program is being arranged for the evening.

J. Humphreys of the 54th battalion returned last night from Vernon, being physically unfit.

George Urquhart has returned from a trip to the prairie.

Miss Edna Hartrup entertained about 24 little friends on Sunday evening to a Hallowe'en supper.

The monthly meeting of the St. Andrew's Woman's guild will be held on the first Monday of the month instead of Tuesday, the latter being its day at the Red Cross rooms.

Alex McPherson has returned from a two months' visit to his old home in Prince Edward Island.

The Choral society met last night in the Conservative rooms.

Tuesday and Thursday evenings are working evenings at the Red Cross rooms.

The annual dance of the local Knights of Pythias will be held at Miners' union hall on Nov. 25.

W. Y. Williams, superintendent of the Granby company at Phoenix, is at the Allan. He was formerly in charge of the California here.

James Lamont, who was employed in the Le Roi No. 2 office here prior to his enlistment, has been rewarded with promotion to the rank of lieutenant for distinguished service at the front.

WANT TO CONTINUE BRITISH DEBATE

Critics of British Government Will Raise Issues Again—No Election During the War

(By Daily News Leased Wire.)

LONDON, Nov. 4.—The critics of the government will take advantage of the credit vote to raise another debate on the political and military situations, as they are disappointed at the brevity of the debate secured on Premier Asquith's statement on the war situation in the commons last Tuesday.

The present parliamentary session is expected to terminate at the end of November, and the new session to begin about the middle of January. There is no likelihood now of a general election. A bill to postpone elections until after the war has long ago been drafted and only awaits the cabinet's sanction to be submitted to parliament. The delay in presenting it has been due to the pressure of the war.

The credit, as was expected, amounts to $1,250,000,000 and will bring the total war credits parliament has voted up to $1,550,000,000. The present British expenditure in war is at the rate of $25,000,000 daily. The new credit when voted will suffice to carry on the expenditures until January.

FIND HOLE IN BOY'S SKULL; ACCUSE FATHER OF MURDER

(By Daily News Leased Wire.)

PRINCE ALBERT, Sask., Nov. 3.—Joseph Jakubsen, arrested yesterday for assaulting his son, Joe, probably will be charged with murder tomorrow when an inquest will be held on the exhumed body of his 11-year-old son, Mike, said to have been murdered three years ago. A cursory examination of the body by police authorities today disclosed a hole in the skull near the left ear. Jakubsen declares the boy met his death by falling from a wagon which passed over his head. The body was found a mile from Jakubsen's house and is in a fair state of preservation.

Jakubsen is held in fear by his neighbors, who feared to notify the police at the time of the alleged murder.

Jakubsen is said to have greatly abused his children, one child four years of age having been ill-treated to an extent that he will likely be a cripple for life.

The accused came here from Missouri five years ago.

C. N. R. MUST ACCEPT AWARD OR FACE STRIKE IN EAST

(By Daily News Leased Wire.)

OTTAWA, Nov. 3.—If the Canadian Northern railway does not accept the award of a board of conciliation in the case of its engineers and firemen there is a possibilit yof a strike of these men on the eastern lines. The men have accepted the award of the board presided over by Judge Coatsworth, but the company so far has not intimated its decision, though the minister of labor has been in consultation about it with Sir William Mackenzie and has endeavored to secure acceptance, especially as the finding was unanimous.

WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness.

Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs. Sold at drug stores—always get the genuine.

Scott & Bowne, Toronto, Ont. 15-28

When Wanted They Are Badly Wanted

Umbrellas and Raincoats

Don't be caught in the rain without them. Good clothing is easily ruined for want of "rainy-day protection."

We offer a special purchase of Best Quality Umbrellas with attractive handles in sizes for men, women and children, some costing as little as $1.50 and from that up to $10.00 for our very best.

Good Quality Gloria Silk Umbrellas
ON PARAGON FRAMES
WITH LONG NATURAL WOOD HANDLES
Sale Price $1.50

Umbrellas of the Better Sort
WITH SMART HANDLES FINISHED WITH STERLING SILVER
GOOD STRONG FRAMES AND GLORIA SILK TOPS
Sale Price $2.50

Smart Styles in
Raincoats
Low Prices

Well tailored in good quality cloths. A variety of styles, belted or with loose backs. Some have set-in sleeves, others raglan sleeves. High or convertible collars. All sizes from 14 to 40.

Sale Prices from $8.75 to $15.00 Each

HOME GUARD FIGHTS FIRES IN PRAIRIES

Seven Thousand Dollars Worth of Damage Is Done to Crops in Lethbridge District

(By Daily News Leased Wire.)

LETHBRIDGE, Alta., Nov. 3.—Prairie fires which have been prevalent in this district have become less dangerous with the dropping of high winds. Great damage, however, has been caused at Burdet, east of here. Seven thousand dollars' worth of crops have been burned in the last few days during the high winds. One man lost his entire crop and granary. Sunday last the city home guard sent 100 men southeast of the city and helped to save thousands of dollars' worth of crops from destruction.

GRAND FORKS MAN INVALIDED HOME

J. Brewer of 48th Highlanders Arrived in Nelson Last Night on His Way Home.

J. Brewer of Grand Forks, who is the first man to be invalided home of the first contingent from Kootenay and Boundary, arrived in Nelson last night on his way to his home in Grand Forks. After leaving Canada with the first contingent he was drafted into the 15th battalion of the 48th Highlanders with other Kootenay and Boundary men in England, from where they were shipped to France and to the trenches. Brewer had been in the trenches for three months before he was wounded. It was the night of May 20, when the Canadians took part in the glorious charge at Festubert that Brewer was wounded. He said that when the word of command was given he was up and out of the trench with the rest of the fellows "going like the dickens" for the enemy's trench, when suddenly a tremendous explosion occurred right beside me and my next idea of what was happening was when a few days later the doctor said: 'Here, sit up and take this.'"

He was wounded in four places—in the cheek, the head, neck and thigh. The gashes are still quite distinguishable. He had previously been subjected to asphyxiating gas.

Has No Use for Huns.

Brewer says he has no use for the Huns, who are the meanest fighters there are, always waiting to take a mean advantage or spring some inhuman surprise.

He spoke of the Red Cross and its good work on the field. He says when he was recovering they would do all they could for his benefit and any other poor fellow who happened to be in the same plight. After his recovery Brewer was given an honorable discharge, owing to his wounds and proceeded on his way home to Grand Forks, arriving in Nelson last night on the Crow boat. After staying over in this city today he will continue his journey to the Forks.

THE NUTRITIOUS, REFRESHING INVIGORATING TONIC

TO DESIGNATE CARDINALS AT FUNCTION AT ROME

ROME, Nov. 3.—The Osservatore Romano, official organ of the Vatican, announced today the holding of a secret consistory Dec. 6 to designate several cardinals.

The designations will be Mgr. Tonti, papal nuncio to Portugal; Most Rev. Amistrangelo, archbishop of Florence; Mgr. G. Camliero, Costa Rict; Mgr. A. Frushwirth, Bavaria; Count T. Capinelli, Vienna; Archbishop Gusmini, Bologna.

A public consistory will be held on Dec. 9.

WAR IS CHANGING FACE OF THE ALPS

The European war which has already laid in ruins some of the most unique of architecture and art,, is now changing the face of the Alps mountains.

The scenery of the Alps all along the Italian frontier is being changed every hour by the pneumatic drills and the howitzers and dynamite of the Austrians.

Swiss guides who have returned turned from the Dolomites and Carnic Alps, say the mountains are honeycombed with mines, especially on the Tyrolese and Carnic frontiers.

All the parapets on the steep road where in former summers tourists passed in motor cars, have been demolished by Austrian sappers in order to allow artillery full play in the event of an Italian attack. For the same reason beautiful pine and fir forests have been cut down, leaving the Alpine routes perfectly bare.

Large areas in the Alps have been mined by the Austrians, who, by pressing a button, can hurl an avalanche of rocks and boulders against the advancing Italians.

THURSDAY, NOV. 4, 1915.

INCREASE BOY SCOUT TROOP TO ONE HUNDRED

It is to be hoped that the effort which it is proposed to make to increase the membership of the Nelson Boy Scouts will meet with success and that there will be a representative attendance at the meeting tonight when plans for the "recruiting" campaign are to be discussed.

Nelson should have a Boy Scout troop of at least 100 members. To make a showing equal to that of some other points in British Columbia it should have 200.

The campaign should be directed toward awakening the interest of the boys themselves in the Boy Scouts and the advantages which the Scout training, the Scout amusements and the Scout learning offer. If the boys themselves take the initiative toward joining the Boy Scouts the parents will not stand in the way. The right kind of appeal to the boys should bring much more satisfactory results than if the appeal is made in a general way to the parents to take the initiative.

WAR TAXES ARE BRINGING IN INCREASED REVENUE

The increase of $6,700,000 in Dominion revenue in the seven months of this fiscal year, ending with October, is highly satisfactory. It is the more so when it is considered that four of the seven months in 1915 are in comparison with four pre-war months in 1914. The increase is, of course, due to the war taxes imposed in the last budget.

During the seven months there has been a decrease of $5,500,000 in ordinary expenditures, as distinct from war expenditures, which makes a balance on the credit side of the ledger of $12,200,000.

Expenditures for war purposes, including pensions and other outlays, will be doubled, or possibly trebled, during the coming fiscal year. Increased taxation to meet expenditures, over and above those provided for by loans, may be regarded as inevitable. The new levies will be paid as ungrudgingly as the war duties, the war stamps and other taxes of the 1915 budget are now being paid by the people of the Dominion.

BULGARIA IN A DIFFICULT MILITARY POSITION

It was pointed out when Bulgaria entered the war that it was open to attack at so many points that it would be compelled to spread its armies over a large area. That situation has been brought about and will be accentuated within the next few weeks.

The French and British force landed at Saloniki is hammering at the Bulgarians in the Strumitza region and Servia, the Servians are holding back a large Bulgarian force further to the north, the British fleet by demonstrations along the Aegean coast is compelling Czar Ferdinand's general staff to keep the trenches in that region manned, Enos is reported to have been occupied by the allies and yesterday it was announced that a Franco-British army had landed at Kavala. The last named port is between Saloniki and Enos.

Along the Black sea coast the Bulgarians are compelled to be prepared to withstand an attempt by the Russians to effect a landing and the prospects of intervention by Rumania, with the consequent exposure of Bulgaria's whole northern frontier to attack, are improving.

The Bulgarians should soon awaken to the nature of the mess into which their pro-German ruler has thrown them.

ENSION SHOULD BE UNTIL AFTER THE WAR

Sir Robert Borden and Sir Wilfrid Laurier have held an informal discussion of the proposed extension of the term of parliament. It is said, however, that no definite decision will be reached until the session opens and the two parties have discussed the matter in caucus.

The length of an extension should be governed by the length of the war and not by an arbitary period, which in another year might produce exactly the same situation as exists today and bring about a renewal of the whole discussion. If there is to be an extension it should be until a resonable time after the war.

If the duration of the war is the basis of an extension the whole question will be settled definitely, whether the war ends next year, the year after, or in 1918.

Might and right are a winning combination.

Canada needs 90,000 new recruits. The recruiting office in Nelson is open daily.

Russia's statement to the people of the Balkan nations is timely. It is forceful and direct and does not hesitate to impress upon Greece that might as well as right is now on the side of the entente allies.

Premier Briand's new cabinet has received a vote of confidence by a majority of 515 to 1. The deputy who refused to make it unanimous certainly had the courage of his convictions, even if they are nothing to be proud of.

Rumania wants the entente allies to employ 500,000 troops against Bulgaria and the Teutons in the Balkans. If it will open its arms to the Russian troops which are ready to march across its territory the required number will quickly be in action.

Hon. Arthur Meighen, the brilliant young member of the Borden cabinet whose recruiting speeches have been some of the most effective which have been delivered in Canada, is now setting a personal example by himself going on active service.

Military district No. 11, which is practically British Columbia, has recruited 17,500 men since the war commenced, according to the official figures. If men who have gone from this province to enlist elsewhere are included the total is nearer 22,000.

Sir Edmund Walker, president of the Canadian Bank of Commerce, makes an interesting comment upon the effect of Canada's great crops and generally improved economic position. "We are confident of our financial stability. We have been borrowing from the United States and Great Britain in the past but this will not be necessary in the future, because of the splendid grain crops; present and prospective," he says.

WHAT THE PRESS IS SAYING

Who Should Be Believed?

Bernstorff is out with affidavits charging that the British warship Baralong sank a German submarine after refusing to give quarter to the crew. Dr. Banks, a distinguished American physician, who is named as having stated he witnessed the incident from the decks of a nearby liner, declares he made no such statement.—London Advertiser.

The Zeppelin Problem.

The public is grumbling at the apparent ineffectiveness of our anti-aircraft guns, which Londoners saw in action, and many thought had hit the enemy. But this artillery of necessity is light and of small power for such work, and the zeppelin commanders can keep out of range of them. If heavier and more powerful artillery were used it is obvious that they might easily cause more damage than the zeppelins do. Shells that go up must come down somewhere. — London Sphere.

Germany's Shame.

Of all the crimes that the German military authorities have perpetrated themselves, or allowed to be perpetrated, there is not one more hideous than the execution of Miss Cavell, and one more calculated to disgust neutral nations with German methods of war. The kaiser, who professes unceasing pride at the success of his arms, is he so disgusted on the subject of the final result of the war, that he takes offense against a woman? It he possessed of the madness that usually precedes a fall?—La Presse

THE WAR ONE YEAR AGO

Turkey has definitely broken off diplomatic relations with Great Britain, France, Russia and Servia.

Alternate gains and losses by each side marked the great struggle between the allies and the Germans along the extended battle front in France and Belgium.

The British admiralty has stated that there is no confirmation to the report that the British cruisers Monmouth and Good Hope were sunk off the coast of Chile yesterday.

The German cruiser Yorck struck a mine in Jad bay today and was sunk.

On the Russian front the Germans, who have been on the offensive for the past few days, have again continued their retreat before the strenuous advance of the Russian troops.

COLD STORAGE

Things to worry about—The German foreign office does not maintain a secret service. The foreign minister says so himself.

"Why don't you quit work and go fishing?"

"I tried that once," replied Mr. Restagin. "If getting up at 5 o'clock in the morning and traveling out to a fishing place and falling into a boat, and maybe out of it, and sitting in suspence by the hour in order to land a two-ounce fish are what you call rest and recreation, give me the work."

"My ancestors," haughty little Heloise Aldyne told her nine-year-old playmate, Hermoine McGuire, "came over before yours did. They came over in the first boat, the Mayflower."

"Well, mine came over," Hermoine said stoutly, her blue Irish eyes flashing with spirit, "in the very next boat, the Juneflower."

THINKS BOAT SCHEDULE GOOD FOR UNDERTAKERS

To the Editor of The Daily Nesw:

Sir: To those who are endowed with the quality of endurance, and in search of real value for their money, in the line of traveling I would commend them to take a trip upon the steamer Kuskanook, leaving Nelson upon a Monday or Friday at 4 p. m. for Kaslo. The mail boat scheduled to leave Nelson at 4 p.m. yesterday arrived here between 1 and 2 o'clock in the morning, consequently the people of Kaslo received no mail from Saturday night until about 9 o'clock this (Tuesday) morning. A person could make about as good time as that traveling in a rowboat.

When the steamer Kuskanook was tied up at the wharf here a few weeks ago, with the Spokane mining men on board, the writer heard a railroad official reply, in a jocular manner, to a party who was inquiring about boat schedules, "Please don't mention boat schedules to me, or I will jump in the lake."

I think that a person would be safe to assume that if the author of the present boat schedule did jump in the lake the displacement of the water would be imperceptible.

It is a hard matter to arrange boat schedules to please everybody. I cannot imagine who the present boat schedule would benefit unless it would be the undertakers. It should be a good run for killing deckhands.

If a committee of deckhands were selected to arrange a new schedule I think that they would have to get up early and stay up late to figure out a worse schedule than the present one.

P. McGREGOR.

Kaslo, B. C., Nov. 2.

UNMARRIED LAGGARDS.

It is rumored that compulsion may be applied to unmarried men in the British Isles who so far have failed to volunteer for active service. Should the government arrive at this decision it will be applauded for making one of the most determined steps it has yet taken in the conduct of the war. If more men are needed and they do not come forward voluntarily, why should they not be forced to take their places in the ranks? It is difficult to escape the conclusion that more men are urgently needed in view of the King's recent personal appeal, and the statement of an under secretary that Britain must raise another 3,000,000 men before the end of the war. While the exact number of men raised by Lord Kitchener is not known, it would appear that the resources of the voluntary system are about exhausted. The man who has lived in England for the past year and whose patriotism has not been fired by the events he has passed through is not likely to be deeply stirred by any other events short of an actual invasion; and should the actual invasion come it would be too late for the laggards to take up arms.

The only argument against conscription is that it is unnecessary and it does not need to be demonstrated that a man who will do a thing for the asking ought not to be forced to do it. The assertion that conscription would strengthen the British armies at the expense of British war industries will not stand examination, for nobody who advocates conscription believes that every able-bodied man, regardless of his occupation or usefulness at home, will be sent to the front. Those who are needed at home will be kept at home; those who are not needed will be sent to the trenches. It is under the present voluntary system that the vital home industries have been disrupted and we know that thousands of miners and mechanics who went to France and Belgium have been sent back to man their places in the industrial system, whose maintenance is vital to the success of British arms. There was no such misdirected effort, no such bungling under the German system, which had a place for every made citizen the moment war was declared. Before we beat the Germans we must have as good a military system as they have evolved whether we like the word conscription or not.—Toronto Mail and Empire.

When the New York National league ball club was playing in Boston, a local clergymen called at the hotel where the players were stopping one Sunday to congratulate Matthewson on his stand against playing on the Sabbath.

The clerk made a few mysterious inquiries and then said: "Sorry, sir, but Mr. Mathewson is out playing golf.'

LORD HALDANE NEVER A PACIFIST.

Lord Haldane was never a pacifist, and never willing to sacrifice the interests of his country to those of Germany. His fault was to believe in the existence of a peace party in Germany, or, rather, to believe that its influence was worth a moment's consideration. To regard this miscalculation as unpatriotic is, however, grossly unjust. It is equally unjust to forget the excellent work done for the army by Lord Haldane. It is to him we owe the territorial organization, and also the organization of the expeditionary force. Again, it is to him we owe the system of voluntary aid detachments—institutions without which we could not have dealt with our wounded. Lastly, it is to him that we owe the national reserve. If he did not originate that force he made it a living thing by his recognition and encouragement. It added some two hundred thousand men to the army. To forget all this, and to pursue him with what Burke called "a hunt of obloquy,' is ignoble, a cause of shame to all self-respecting men.—London Spectator.

LAST LEAVE.

Hard as nails from the training camp,
sturdy and clear of eye,
With his C.O.'s pass for a forty-eight
—his last before he ships;
A thoughtful look on his sun-browned face—
It's a good-bye stroll round the dear old place,
And there may be thoughts in the mind of him that never reach his lips.

The grey stone church in the village street, trees which he used to climb,
The football field, and the silent pool where the giant perch would lurk;
They are all old friends when the parting comes,
At the rat-a-tat of the martial drums
And the blare of bugles calling men away to Honor's work.

"Farewell, Jim," from the lads who stay, shyly, as children speak,
They bid a truce to their noisy fun, yet none could answer why;
But there lies a world of eloquence
In the handclasps lingeringly tense.
It's a mute "Good luck! Come back again," and the Last Leave minutes fly.

Mother's hug, and a strangled sob, smiles from the lad who goes;
The happy look on his brave young face paints Duty as a joy.
"I'll be sure to write when we've landed there,"
A thrown-back kiss, then a mothers pray'r
To the Lord of Hosts in Peace and War: "God guard and bless my boy!"
—F. Fitzgerald in London Chronicle.

THEY LOOK LIKE CRUSADERS WITH STEEL HELMETS

Thev Are Warm and Light and Give Added Sense of Protection.

LONDON.—On some parts of the Flanders battlefront the British army authorities have begun serving out to the men in the first trenches steel helmets similar to those intrdouced by the French. The British helmet is perfectly plain and not decorated with the French crown, which has a grenade crest and a rigid crown.

The British helmet exactly resembles a pudding basin. It is lined with soft leather and while light, is very warm The men are said to be delighted with the new equipment because of the added sense of security ag.inst splinters, bullets and bomb fragments. One report says that in a small section of the trenches 30 men were saved from serious head wounds during the first four days of the experiment. The helmet lends a bizarre air to troops who wear it over the Balaclava wool helmet, giving them the appearance of crusaders.

Mabel—You and Harold seem inseparable.

Gertrude—We are together a good deal. You see, Mabel, I take a peculiar interest in him.

Mabel—Oh, do you?

Gertrude—Yes. I was engaged to him at one time in in love with him at another.

Does full justice to your cooking skill.

CANADA'S LOSSES SINCE WAR BEGAN

Total 11,705 of All Ranks Says Sir George Perley at London.

LONDON.—Sir George Perley, high commissioner of the Dominion in London, furnished the following statistics regarding casualties in the Canadian contingent to Sept. 30:

Killed in action—Officers, 96; other ranks, 1557.

Died of wounds—Officers, 27; other ranks, 650.

Died of disease, etc.—Officers, 6; other ranks, 99.

Wounded—Officers, 275; other ranks 6675.

Prisoners of war—Officers, 38; other ranks, 1246.

Missing—Officers, 22; other ranks, 1014.

Total—Officers, 464; other ranks, 11,241; grand total, 11,705.

Old Eben was walking along the street one morning and one of his arms was in a sling. Mrs. Horton, who had often employed the old fellow for odd jobs, happened to meet him and asked:

"Why, Eben, have you met with an accident?"

"Yes, ma'am,' replied Eben, "I did. I'se done up now, fer sho'! You see dis arm in de sling, maa'm, don't you?"

"Yes, Eben," replied the woman sympathetically, "what has happened?"

"Well, ma'am,' the old colored man answered. "I'll be 71 years ole nex' harvest. I done see lots of trubble in my day, ma'am but by de grace of God I miss de Kuklux an' I miss de Whitecaps' ma'am, an' I miss de Vig-lance committee, an' de Regulators, an' now, ma'am, in my ole age dem waxinators kotched me."

SELLING OFFSETS BULGE IN WHEAT

Conditions in Winter Wheat Belt Unfavorable for Next Year's Crop, Declares Expert.

(By Daily News Leased Wire.)

CHICAGO, Ill., Nov. 2.—A selling movement was started today that more than offset an early bulge in the price of wheat. As a result the market closed heavy 1 to 1¼c down with December at $1.03½ and March at $1.04⅝. Oats lost ½. Provisions were unchanged to 10c lower. Weakness developed in wheat as soon as trading began but a sharp upturn quickly followed. Unresponsive cables and a report of big receipts at Minneapolis were the chief reasons for the sag at the outset. The advance that followed seemed to be due in the main to active buying on the part of a number of strong commission houses acting on the opinion of a prominent crop expert who declared conditions in the winter wheat belt had not been of a character to give fall sown wheat the vigor needed to withstand severe cold weather.

Nineteen million bushels increase in the world's available stock was perhaps of considerable significance in view of the fact that the European visible supply is now about 5,000,000 bushels larger than the corresponding period last year. However true this might be, longs did not wait for other news before attempting to realize profits. Hedging pressure and short selling added to the weakness which prevailed during the rest of the session.

Oats gave way with other grains. The export demand was not so keen as heretofore. Provisions appeared to respond more closely than usually to changes in the value of grains. Lower prices for hogs were also effective to some extent.

WAR SHARES FALL ON NERVOUS MARKET

Speech of Asquith, Progress of Teutons in Balkans, Seizure of American Ships Factors.

(By Daily News Leased Wire.)

NEW YORK, Nov. 3.—Unfavorable foreign developments over the holiday were chiefly responsible for today's nervous and unsettled market. The frank utterances of the British premier, including virtual admission of the failure of the allies in the Dardanelles and the continued progress of the Teutonic forces in the Balkans, caused additional liquidation in London. The feeling of pessimism was heightened by Great Britain's further seizure of ships of American register.

Efforts to associate today's heavy trend with yesterday's elections were not taken seriously. All issues connected with these returns were regarded by Wall street as having little, if any, relation to or bearing upon national affairs.

War shares exercised a depressing influence from the outset. Bethlehem Steel opened with a 4-point gain at 465 but fell violently and closed at 430. General Motors scored a loss of 29 points at 365 and Crucible Steel fell 7¾ to 74½.

Baldwin Locomotive made an extreme decline of 6 to 125. Other industrials and equipment issues including New York Air Brake, American Can, General Electric and Westinghouse were heavy. United States Steel suffered from steady pressure, declining 1 point to 86, with only partial recovery. Railroads of high and low degree were the mainstay of the market. Canadian Pacific was the only standard issue in that division to show a reactionary tendency, declining 5 to 188. This was fully offset, however, by the strength of the coalers, including Norfolk & Western, which rose 2⅛ to 122⅜, a record quotation. Total sales amounted to 945,000 shares.

United States bonds were strong on a heavy volume of trading, especially in speculative issues. Total bond sales, par value, were $6,735,000.

BUTTER TRADE QUIET.

(By Daily News Leased Wire.)

MONTREAL, Nov. 3.—Trade in butter continues quiet and the market is easy. Cheese is fairly active and the market is firmer. Eggs are active and firm.

Cheese: Finest westerns, 16 at ¼; easterns, 15½ at ¾.

Butter: Choicest creamery, 32 at ¼; seconds, 31½ at ¾.

Eggs: Fresh, 40; selected, 32.

Pork: Heavy Canada short mess, 28½; short cut back, 27...

SMELTERS ROAR IN FULL BLAST

Reports Received by C. P. R. Official at Coast Tell of Heavy Ore Shipments.

VANCOUVER.—Heavy shipments of ore from the Kootenay and Slocan districts of British Columbia are recorded in advices received by F. W. Peters, general superintendent of the Canadian Pacific railway, from the intreior. So substantial is the traffic that it is estimated that engineers and railwaymen who are being taken off the regular runs on the inception of the winter time tables, will practically all be provided with employment this fall and winter.

Trail now has four copper and three lead furnaces in full operation, and last week handled 9625 tons of ore. This was as against 9100 tons for last year; but the importance of the comparison is only made manifest when it is stated that the Trail smelter now has two active competitors at Granby and Greenwood which last year were closed down. Granby has eight furnaces working and last week handled 23,340 tons of ore, Greenwood last week looked after 5700 tons.

Big Increase Noted.

'Last week Canadian Pacific ore trains carried 16,500 tons more than for the corresponding week of last year," osberved Mr. Peters. "This new smelter will mean a great deal to the upper country, as up to the present all zinc has had to be shipped to the United States.

Lumber Shipments.

"My division during last week handled double the amount of forest products than was carried during the corresponding week of 1914," pursued the railway official. "This means that a considerable amount of lumber is being shipped through the province.

Commenting upon the increased fruit production in the Okanagan this year, Mr. Peters said:

"The fruit business out of the Okanagan valley this fall has shown a 25 per cent increase over last year's. This is notwithstanding the falling off in the shipments of vegetables owing to the limitation of the Alberta market—once quite a profitable one—through the growing of vegetables this year on the prairies in large quantities.'"

Said Mr. Peters:

"Reports I have had from the prairies, where a year ago people were importing eggs, butter and cold meats, show that from the some districts these products are now being exported. In fact, there is this year a good deal of mixed farming in the Northwest, and prospects for the future are excellent."

LEAD AVERAGE, LAID DOWN AT MONTREAL, IS 5.70½

(By Daily News Leased Wire.)

NEW YORK, Nov 3.—The average laid down price of lead at Montreal in October was 5.70½; the average at New York was 4.59¼.

Lead prices today: At St. Louis, 4.77½; at New York, 4.90; at Montreal, 6.04; at London, £24 10s.

Silver: At New York, 49⅝; at London, 24¼.

At London: Spelter, £76.

Copper steady; electrolytic, 18.12 at 18.25; at London, spot copper, £74 10s; futures, £75; electrolytic, £89 10s.

CHICAGO STOCKYARDS.

(By Daily News Leased Wire.)

CHICAGO, Ill., Nov. 3.—Hogs: Receipts, 29,000; weak, mostly 5 to 10c lower; bulk, 6.65 at 7.25; light, 6.50 at 7.50; mixed, 6.40 at 7.65; heavy, 6.35 at 7.35; rough, 6.35 at 6.55; pigs, 4 at 6.90.

Cattle: Receipts, 19,000; unsettled; native beef, 6 at 10.40; western steers, 6.5 0at 8.65; cows and heifers, 2.80 at 8.25; calves, 7 at 10.75.

Sheep: Receipts, 1900; unsettled; wethers, 5.8 5at 6.35; ewes, 3.75 at 5.70; lambs, 6.70 at 9.

MINING REVIVAL ON SOUND BASIS

Boom Conditions of Early Days in British Columbia Changed, Says Mining Man

"The present mining activity in British Columbia has never been exceeded, even in the palmiest days when Whittaker Wright took over the Le Roi mine for British associates and thereby donated to Spokane many millions of dollars," says a Spokane mining man. "It is true, of course, that former conditions have been radically changed, but whereas in the past an inevitable boom atmosphere pervaded the industry, it is now on a sound, commercial basis, appreciably more satisfactory all around.

"Trail, the smelting centre, is enjoying a veritable boom, due to increased activity at the plant, while Rossland mines are working full handed with good results. Since 1894 the Centre Star, War Eagle and Le Roi groups alone have produced 3,889,192 tons of ore, worth $51,986,669, and underground development has reached no less than 50 miles. In spite of this great record, it is said there is more ore in sight than at any previous time and it seems safe to predict heavy production for many years.

"The conditions at Rossland and Trail find partial duplication in all other camps in West Kootenay. Mines long shut down are being opened up and inquiry for investment is general. In this revival United States energy and capital are again taking part, as they did in discovery days.

"Spokane owes as much to British Columbia as she does to the Coeur d'Alene district and that is saying much. The wealth from northern mines was poured into the arteries of trade when financial conditions on this side of the line were at their worst."

Gin Pills FOR THE KIDNEYS

How They Relieve

Hardfield, N. B.

"It affords me great pleasure to convey not only to you but to all sufferers from Backache and Rheumatism, the great relief I have obtained from the use of Gin Pills. I feel thankful to you. I recommend Gin Pills to everyone suffering as I did."

National Drug & Chemical Co. of Canada Limited, Toronto.

FARMERS WOULD LOSE IF WHEAT WERE FREE

Winnipeg Prices Went Full Three Cents a Bushel Above Minneapolis on Tuesday.

(By Daily News Leased Wire.)

WINNIPEG, Nov 3.—The free wheat agitation received another blow on Tuesday when the Winnipeg wheat market went a full 3 cents a bushel over Minneapolis prices. According to the free wheat advocates the Winnipeg price would be regulated by the Minneapolis price and if this were the case free wheat would mean a loss of 3 cents a bushel to the Canadian farmer on the 3,000,000 bushels which were marketed in the west that day

EXCHANGE AT NEW YORK.

(By Daily News Leased Wire.)

NEW YORK, Nov. 3.—Mercantile paper, 3 at 3½. Sterling: Demand, 4,63.50; 60-day bills 4.60; cables, 4,64.25. Francs: Demand, 5.94; cables, 5.92. Marks: Demand, 81½; cables, 81⅝. Lires: Demand, 6.44; cables, 6.43. Rubles: Demand, 32½; cables, 32¾.

Sterling exchange closed at 4.63.50 on demand.

SELLING IS LIBERAL ON TORONTO EXCHANGE

(By Daily News Leased Wire.)

TORONTO, Nov. 3.—Business was again active on the Toronto stock exchange today with the volume equal to that of the previous day. The selling generally was liberal, a natural consequence of the late rapid advance in prices. In a few cases, however, there were gains. Steamships, Locomotive and Steel of Canada preferred were among these. The undertone of the market was good. The check to the advance was presumably due to the weakness of the war stocks in New York. The total trade, exclusive of mines, was 10,655 shares.

Cement, Steel of Canada and Steamships were the most active issues. The latter showed a net gain of ⅞ for the day, while the others were irregular. Canadian Pacific was especially weak, in sympathy with New York, where it declined to 188, or a loss of 5 points. It, however, closed at 188¾. A few odd lots of bank stocks were taken for investment.

COL. H. H. M'LEAN APPOINTED A RECRUITING OFFICER

(By Daily News Leased Wire.)

OTTAWA, Nov. 3.—Col. H. H. McLean, M.P. for Queens-Sunbury, who received word last night that his son now at the front had been awarded the D.S.O. for conspicuous bravery in holding the trenches against an enemy attack, has been appointed by the minister of militia as a special recruiting officer for the maritime provinces during the next few weeks. A little later on he will probably be sent to the front in command of a brigade of the new Canadian division which is to be organized from among the troops now in England.

Bronchial Cold

Yields to Delicious Vinol.

Philadelphia, Pa.—"Last fall I was troubled with a very severe bronchial cold, headaches, backache and sick to my stomacn. I was so bad I became alarmed and tried several medicines, also a doctor, but did not get any relief. A friend asked me to try Vinol and it brought relief which I craved, so now I am enjoying perfect health."—Jack C. Singleton.

We guarantee Vinol, our delicious cod liver and iron tonic without oil, for chronic coughs, colds and bronchitis.

Nelson News of the Day

ANNUAL MEETING OF THE BOY SCOUTS

Plan to Raise Strength of Nelson Troop to 100 to Be Discussed Tonight.

At the annual meeting of the Nelson Boy Scouts, to be held at the city hall tonight a plan to raise the strength of the troop to at least 100 will be brought before the meeting, in addition to the regular business and the election of officers.

It has been felt for some time, by those who are in charge of the Nelson body that an effort should be made to enlist new members in the city and that a united effort must be made by all who have the welfare of the movement at heart, to induce the boys to avail themselves of the advantages obtainable by association with the scouts.

It is claimed that no course of training that a boy can have covers such a wide field as that contained in the manual of the scouts. It is pointed out by those intmiately connected with the movement that the work of the boy scouts is not one of reclaiming bad boys, as it is said, many seem to think, but rather an endeavor to take young and growing boys and give them a course of training under teachers specially schooled to the work, in many of the things which it is impossible for them to learn at home. This course of training, it is claimed, covers a wide field and includes many phases of self aid, intended to render the boy independent and resourceful and is given them in a manner that appeals to all that is truly boyish and healthful.

At the annual meeting tonight, to which an invitation has been extended to all interested in the scout movement, a plan to raise the strength of the Nelson troop to at least 100, in which the boys themselves may be given an opportunity of participating, will be proposed and laid before the meeting.

Social and Personal

Mrs. F. R. Newton and Mrs. David Neilson of Trail visited the city yesterday and registered at the Hume.

A. J. Paddock of Rossland is registered at the Strathcona.

P. McGuire is in the city from Slocan. He is registered at the Madden.

The bugle band will hold its weekly practise in the armory tonight at 7:30 o'clock. A full turn-out is asked for.

SECRETARY TO TELL NEEDS OF FUND

F. Nation of Provincial Patriotic Fund to Address Public Meeting in Opera House Saturday

It is expected by those in charge of the patriotic fund public meeting, to be held in the opera house on Saturday night, that there will be a large attendance to hear the addresses to be delivered by F. Nation ,provincial secretary of the organization, and Bishop Doull of Kootenay.

It is felt by those closely connected with the administration of the fund that there are many persons who do not understand the purpose of the fund, or the manner in which it is being handled and that these will be much interested in hearing a full account of the immense work that is being done to provide for the wives and children of the men who have gone to the front in the cause of the allies. It was, therefore, decided to bring Mr. Nation to Nelson in order that the needs of the work might be explained by one who is in a position to speak authoritatively on the subject. The meeting will begin at 8:30 o'clock.

KILLED AT POST UNDER HEAVY FIRE

Lance-Corp. G. Blanchard Johnstone of Nelson Meets Death During Bombardment on Oct. 12.

That Lance-Corp. George Blanchard Johnstone was killed while sticking to his post under heavy artillery fire was the news received by his father, George Johnstone, customs collector, Nelson, in a letter written by one of his comrades who was present at the time.

According to the letter which was written by Sergt. G. R. Stevens, H company of the Princess Pats, Lance-Corp. Johnstone, was on observation duty with a party of men, in a shelter known as a "crow's nest," on Oct. 12, when the Germans began a terrific bombardment which demolished the trenches for 50 yards on each side of his station. Notwithstanding the furious rain of shell poured in on them, the party held fast until the enemy succeeded in dropping a large mortar shell into the observation post, killing the entire party. The letter which was dated the day following Lance-Corp. Johnstone's death and was written from "somewhere in France," reads as follows:

"I have been his platoon sergeant ever since he enlisted with the regiment in Montreal. Last night we were moved into a particularly dangerous section of the trench, our lines being only 40 yards from the Germans along this part of the front. In the allotment of our positions, your son was stationed with Corp. McQueen, a University of Alberta student, in a lookout, or crow's nest, a well protected and well built observation station.

Lookout Struck by Shell.

"Shortly after dark we surprised a working party of the Germans beween our lines and wiped them out. This aroused the enemy and through the night he made his preparations. Just as dawn was breaking, about 5.45 o'clock, the artillery commenced a tremendous bombardment of our trenches for about 50 yards on either side of the crow's nest. The German trench mortars dropped immense shells with unerring aim into our lines and our trenches disappeared in a very few minutes. It was here, while grimly sticking to the long scar on the hillside where our trench had been, that your son died. A heavy mortar shell dropped squarely into the crow's nest and everyone in the lookout station was put out of action."

The letter further states that Lance-Corp. Johnstone was given a military burial, with full honors, in a little cemetery close to the scene of the action The writer says that owing to the restrictions placed upon the giving out of information of all kinds he is unable to give the exact location of the action or the cemetery but that he has written out the full particulars and placed them in his haversack, so that in case of his being put out of action the information may be forwarded.

Lance-Corp. George Blanchard Johnstone was in his twenty-seventh year and was living in Brooklyn, N.Y. when war was declared. He returned to Canada and enlisted as a private with the 2nd McGill regiment at Montreal, which was recruited largely from McGill university students and graduates. The regiment went overseas early in the summer and was used to reinforce the Princess Pats.

ROSSLAND HUNTERS BAG DEER FOR BANQUET

ROSSLAND, B.C., Nov. 3.—Martin Gant shot a fine 300 pound buck on Granite mountain and brought it in yesterday. J. S. Deschamps also brought one in from China creek. Others of the local nimrods are also on the hunt, for a big feed for the Rod and Gun club dinner, shortly to be pulled off. There will be no shoot on Sunday, so that the hunters shall have no excuse to stay in town

STOCKS

UTICA—At the present time Utica is low, being quoted 6 bid, 6½ asked. From information we have regarding both mine and management we would recommend Utica as a good, safe investment with good prospects of doubling your money by Spring

CANADA COPPER is quoted at $2.15—$2.50, an advance of over $1.00. Naturally B. C. Copper will also advance as the former can only be valuable when its holdings of B. C. Copper appreciate.

B. C. COPPER has not been quoted for a few days but has been holding at from 75c to $1.00. We look for a good stiff advance.

SPORT

TO MATCH JOHNSON AND LANGFORD, PLAN

International Promoter Hopes to Arrange 20-Round Battle Between Two Negro Heavyweights.

MONTREAL, Nov. 3.—The much talked of and heartily desired pugilistice battle for supremacy between the two negro heavyweights, Jack Johnson, and Sam Langford, may be held before long, either in Montreal, Sydney, N. S. W., or London, England.

Richard Klegin, of international renown as a sport promoter, is in the city. Mr. Klegin in an interview admitted that he is looking over the field here after having already investigated possibilities in London and Sydney. It was his intention, he said, to pose merely as a tourist till such time as he could have properly investigated conditions here, after which he intends to return to New York and compare the advantages of the three cities, before coming to a final decision.

The match, Mr. Klegin stated, would be of 20 rounds' duration, for a definite share of the gate receipts, this latter amount to be divided so that the winned would receive 75 and the loser 25 per cent of the net receipts. Part of the receipts might go to the Prince of Wales fund.

TRAIL HOCKEY CLUB PREPARES FOR SEASON

TRAIL, B. C., Nov. 3.—The annual meeting of the Trail Hockey club was held last evening in the city hall at 7:30 and was largely attended. The following officers were elected: Hon. president, J. Buchanan; president, L. F. Tyson; vice-president, M. H. Sullivan; manager, F. W. Brown; secretary and treasurer, R. Swartz; executive committee, Walter Murray, G. R. Thompson and Art Martin.

BREAK DEADLOCK

TORONTO, Nov. 3.—The deadlock in arrangements for play to decide the championship of the senior Ontario Rugby Football union—resting between Toronto Rowing and Athletic association and Hamilton Rowing club—has been broken. An agreement was reached to play home and home games, the first to be staged in Toronto, total points to count. Dates have not, however, been definitely selected.

"Has anybody here seen Bickle?" The lost half back is with the British army "Somewhere in Canada," but at this writing is marked "missing" by the T. R. and A. A. squads.

EASTERN HOCKEY MAGNATES TO MEET

Will Discuss Pacific Coast's Declaration of War Next Week—No Raid Apparent Yet.

(By Daily News Leased Wire.)

MONTREAL, Nov. 3.—T. E. Quinn, president of the N. H. A., states that the meeting of the N. H. A. to consider the schedule and discuss the controversy with the P. C. H. A. will be held early next week. It had been understood that the meeting was called for the latter part of this week.

One of the directors of the N. H. A. is credited with the statement that this season's schedule would probably show an innovation for the N. H. A. An effort will be made to arrange it so that each team will play alternately at home in the territory of another club, which plan, it is thought, will add considerably to interest in the championship race.

No further developments have come to light in the hockey quarrel between west and east. If the P. C. H. A. is going after eastern players the matter is being kept quiet here. The mutual denunciations of Lichtenhein and Kennedy, leaders of the two local clubs, the Wanderers and the Canadiens, also have ceased.

Kennedy After Coast Players

MONTREAL, Nov. 3.—The first retaliatory stroke since the Pacific Coast Hockey association declared a player war on the National Hockey association has been struck, it was learned tonight. George Kennedy, manager of the Canadiens, is, it is said, after "Skinner" Poulin and Rochon, who have spent several seasons in the coast league. He also has a line out for another westerner, whose name could not be learned. Both Poulin and Rochon are regarded as useful men and an acquisition to any hockey team.

LORE BEATS COSTICA

MONTREAL, Nov. 3.—Johnny Lore, well known local heavyweight, broke into the welterweight class tonight when he earned a decision over Alex Costica, the Rumanian welterweight, in a 10-round bout under the auspices of the Canadian Athletic club. Costica had the advantage in weight, height and reach, yet Lore had the better of the argument throughout.

Ottawas are reported all crippled up for their game with Hamilton Tigers. But that's just running to form. Ottawas are generally crippled going in and the other fellows coming out.

This way, Gentlemen, for the Overcoat!

How'll you have yours?

Top Coat, medium length, Balmacaan, Belt Coat, Button-through, Shawl Collar, Ulster or what?

Name it and you shall have it.

Best of its class, too.

Best Tailoring, best cut, best fabric, best of everything. Best prices too.

Best, because it's in your favor not too high.
