TEUTONS LOSE 10,000 MEN DAILY IN EASTERN ARENA

Russians Are Very Cleverly Drawing Enemy Out

BATTLE FOR LEMBERG IS NOW RAGING

Austrians Announce Capture of Tarnogrod Across Muscovite Border

(By Daily News Leased Wire.)

LONDON, June 18.—In the east the Austro-German forces are not only near Lemberg, but claim to have driven the Russians further across the frontier of Poland in the vicinity of Tarnograd, as well as penetrating further into Bessarabia. The battle for Lemberg is now raging along the fortified line where it is predicted the Russians will give a final stubborn battle to save the day

The British press pending such time as the Russians stiffen their resistance, is finding solace in the reports of the colossal human sacrifices which the Austro-German drive through Galicia entailed.

It is claimed that the Russians, even if forced to retreat, by clever mangement have withdrawn the Austro-German forces perilously far from their rail communication, meantime so seriously sapping their vitality with losses of 10,000 men a day as to contribute materially to the successful outcome of the western organization.

Teutons Occupy Tarnograd

VIENNA, June 18.—The Austro-German troops in pursuit of the retreating Russians have crossed the Galician border to the north of Sieniawa and have reached the heights north of Krezow, Russia, and occupied the Russian town of Tarnogrod, according to an official statement issued by the war office tonight. The communication says:

"North of Zelnawa our pursuing troops have penetrated Russian territory and reached the heights north of Krezow and occupied Tarnogrod.

"The Russian forces between the lower San and Vistula have retired at several points. The heights north of Jesznakow (10 miles north of Lubaczow) have been taken.

"In the mountainous region east of Dimigow and in the rear of Jaworow strong Russian forces have appeared.

Fighting is Violent

"On the Wereszyca river the fighting continues. Our troops have gained a footing at some points eastward of the river.

"South of the upper Dniester the Russians after hard fighting were compelled to retire from positions near Pitynia toward Kolodrub. Our pursuing troops have reached the mouth of the Wereszyca. Elsewhere the situation along the Dniester is unchanged.

"The eastern groups of Gen. Pflanzer's army yesterday repulsed three Russian storming attacks.

"The enemy, making desperate attempts to throw our troops back in Bukowina, suffered heavy losses from our artillery and retired quickly. Eight officers and 1,000 men and three machine guns were captured."

ALBANIANS SHELL GREEK LEGATION

(By Daily News Leased Wire.)

ATHENS, June 18.—Albanian insurgents have shelled the Greek legation at Durazzo, Albania. One shell struck the Greek cathedral.

NORWAY ANGERED BY TEUTON PIRACY

(By Daily News Leased Wire.)

LONDON, June 18.—A Christiana despatch to Reuter's says:

"The press today demands a clear statement of the government's position regarding German submarine activity. The Morgenbladt says if the government persists in leaving its attitude doubtful parliament must make its voice heard."

An Exchange Telegraph despatch says:

"The Norwegian steamer Svink Jarl has been torpedoed. The Norwegian newspapers allege that German spies were aboard the Svink Jarl and other steamers which have been torpedoed before they left port."

HATES STEPMOTHER; MURDERS THREE

New York State Man Killed by Police After Shooting Aged Father, Young Bride and Officer

(By Daily News Leased Wire.)

JAMESTOWN, N. Y., June 18.—Fred Shaver shot and killed his father, Hudson Shaver; his stepmother, Ruth Shaver; badly wounded Policeman George Kendall and held the police at bay until shot dead through a window by officers early today.

The son's anger over the marriage of his father is believed to have led to the shooting. Shaver, who is a man of 67 years and well to do, was married June 7 to Ruth Campbell, who was 30 years his junior.

This afternoon the son engaged in a quarrel with his father and shot him. Officer Kendall, who heard the shot, rushed up the stairway. He was only half way up the stairs when Shaver shot him twice. He died an hour later. The shooting of his stepmother followed.

For the next hour Shaver stood before a window holding the police at bay and threatening to fire into the crowd of spectators before the house. At frequent intervals he drank whisky from a bottle. The police finally took desperate measures. Two officers stationed in a window across the street finally were ordered to fire. When officers broke in to the room they found Shaver lying on the floor with the right side of his head blown off.

MISS TURNER OF SALVATION ARMY BECOMES BRIDE

VANCOUVER, B. C., June 18.—Miss Ruth Turner, daughter of Col. Turner, head of the Salvation Army in the prairie section of Canada, was married here tonight to Bandsman Collier of Vancouver. Col. Turner himself officiated at the ceremony.

FRENCH TO BURN DEAD SOLDIERS

That Is Only Way in Which Contagion Can Effectively Be Prevented, Says Deputy.

PARIS, June 18.—The French chamber of deputies today adopted a measure proposed by Lucien Dumont to burn unidentified bodies at the front and to bury those which had been identified.

Dumont said the question was an urgent one on account of the heat, the military authorities not being in a position to bury all bodies promptly during heavy fighting. He discussed the religious and sentimental reasons against incineration and cited precedents established in other wars. Today the sole effectual measure of avoiding contagion, he said, was to burn the dead on the field of battle.

BOWSER ORDERS ENEMY ALIENS HELD

Will Not Consent to Release of Men Interned at Fernie—Coleman Miners Continue Work.

(Special to The Daily News.)

FERNIE, B. C., June 18.—The internment complications here continue. It is understood that the local military commandent has been advised to the effect that the internes should be released to which action the attorney-general will not consent and has further instructed the chief constable here to hold the internes and continue as originally instructed.

The habeas corpus proceedings were temporarily halted today, owing to the internes being loathe to subscribe the original amount of approximately $700 and withdrawal of the application was threatened. However, late today $200 was deposited with the understanding that if the litigation effected their liberation a further assessment of 50 cents per capita would be contributed. The existing method of disposition whereby federal and provincial authorities are at variance is expected to reach a satisfactory conclusion when the judgment upon the application for a writ of habeas corpus instituted by the internes is rendered at Vancouver Monday next.

A mass meeting of Coleman miners regarding the situation was held on Thursday, but the decision was that legally the enemy aliens could not be excluded or interned and consequently operations at mines there would not be suspended. At Hillcrest, the federal, provincial and local authorities are endeavoring to solve the problem, but this morning the company threw the mines open to any desiring employment, and this resulted in from 100 to 150 returning to work, these being almost entirely Austrians and Germans. No disturbances, however, have arisen at Hillcrest.

PROBE CAUSE OF WARNEFORD DEATH

Some Suggest Daring Young Aviator Was Careless—"Steeplechasing" When Disaster Happened

(By Daily News Leased Wire.)

PARIS, June 18.—The British royal naval flying corps today began an investigation of the aeroplane accident which yesterday resulted in the death of Lieut. R. A. J. Warneford, the aviator who recently destroyed a zeppelin airship, and Henry Beech Needham, an American writer.

The accounts of various persons on the scene at the time of the accident disagree as to the exact cause of the fatal drop. A defect in the tail of the aeroplane or in the propeller or imprudence on the part of Warneford are among the explanations. That the accident was not due to an explosion or to motor trouble, as the first reports said, was shown by an examination of the motor today. It was found to be in perfect condition.

Those who say that the aviator failed to exercise proper caution cite the fact that the machine fell when Warneford was steeplechasing. He was about 300 feet up at the time, according to several witnesses, who assert that he took unusual risks. It is said that he had been steeplechasing for some minutes with increasing speed and suddenly the machine, from a cause yet unexplained, was seen to tip over and dart downward. Witnesses of the accident were examined today by members of the royal flying corps.

The witnesses said that Warneford fell from the machine and that Needham tumbled out as it descended toward the earth. Needham had been strapped to the seat and had not the strap given way he might not have been killed as the machine at the time he fell from it was only about 50 feet in the air. It was at the maximum height when Warneford fell. In falling Needham hit the propeller blade and his death was almost instantaneous.

The flight was a preparatory one to sending the machine, a new one, to Dunkirk.

The bodies of Warneford and Needham remained today in the English hospital in the Trianon palace at Versailles. A British flag covers that of Warneford and the Stars and Stripes that of Needham.

The funerals will be held Sunday under the military tent in the hospital garden, which serves as a chapel.

THROW BOMBS ON GERMAN POSITION

(By Daily News Leased Wire.)

AMSTERDAM, June 18.—Aviators from the allied armies in Flanders have bombarded the German coast positions in the vicinity of Zeebrugge, Heyst and Knocke, doing serious damage.

GREAT BRITAIN TO POSTPONE ELECTION

(By Daily News Leased Wire.)

LONDON June 19. — "That there should be no dissolution of parliament" was the decision virtually arrived at by the cabinet at its meeting yesterday, says the Times today.

"The ministers decided in principle that the life of the present parliament should be extended 12 months and that no municipal elections should be held this year."

ITALIANS PUSH AHEAD STEADILY

Now Are Opposed by More Efficient Troops

ALPINE CORPS SURROUNDS FOE

Hungarian Force of 1,000 Killed or Captured--Roverto Shelled

(By Daily News Leased Wire.)

LONDON, June 18.—The situation in the Austro-Italian theatre continues uncertain. From all reports the Italians apparently are steadily progressing toward their various objectives but the Austrians have been strongly reinforced along the entire front, becoming more efficient.

The troops fighting for Francis Joseph in this zone were made up mostly of new levies. The Austrians are new steadying their lines with Hungarian and other units that have had many months' experience against the Russians or the Franco-British-Belgian forces and probably some from the Servian frontier. However, Italian ardor has overcome the stubborn resistance of the Austrians. The Italian war office reports that one Austrian battalion which attacked near Monte Nero was repulsed and annihilated. The war office also states that the Italian offensive is progressing methodically but surely.

Italians Advance Carefully

UDINE, Italy, June 18.—Reports from all the fronts state that strong bodies of first line troops, especially the emperor's own troops, Croatian, Behemian and Hungarian, have been substituted for the Austrian gendarmes, customs guards and soldiers of the landsturm.

All these first line soldiers have been hardened by over 10 months of war and are a formidable adversary. It is reported that Lieut.-Gen. Cardona said regarding these troops: "Now we have foemen worthy of our steel."

The Italian Alpine troops themselves realize the difficulties and fight with great circumspection, as was proved Wednesday afternoon, when over 1,000 Hungarians, commanded by a lieutenant-colonel, again tried to take revenge for the Austrian reverses on Monte Nero.

This time the Hungarians climbed Vrata mountain, hoping from that height to dominate the Italian positions and outflank them.

Alpine Troops Encircle Foe

Italian Alpine troops gradually surrounded Vrata, creeping through the undergrowth. For some time they did not reply to the Hungarian fire, it being a rule among the Alpine soldiers not to shoot unless they can kill at least one adversary. Finally the moment came when the Hungarians were within close range and the Alpine troops poured in a rain of bullets and then sprang out with fixed bayonets. The Hungarians were repulsed in confusian and tried to escape, but found the Alpine soldiers emerging from every side. Every member of the Hungarian battalion was either killed or taken prisoner. The Italian commander summed all this up by saying: "The Hungarian attacks were repulsed."

Austrians Take Offensive

UDINA, June 18.—The Austrians have now so strengthened their forces that they are taking the offensive both from Moria and Rovereto against the Italians who are camping at Brentonico, which lies at the foot of Mount Altissimo at Serravale, situated in the Lagarina valley and also in the Arsa valley. The result of the fighting is still in doubt.

Tolmino on Austria's battle front, to the north of Gorizia, is fast becoming a second Przemysl in strength. Already there is a garrison of some 30,000 men there and in addition it has very strong natural and artificial defenses. Tolmino is considered by the Italians

CANADA TO GET MORE WAR ORDERS

Sir Thomas Shaughnessy Arrives in London—Dominion to Be Given All Work It Can Handle

(By Daily News Leased Wire.)

LONDON, June 18.—"I was invited to come over and discuss with the war department a plan for the purchase of the largest possible portion of the army's needs in Canada," said Sir Thomas Shaughnessy in a statement in the Times today.

"It is also contemplated to employ the purchasing organization of the Canadian Pacific railway for this purpose. It is the manifest desire of the authorities in London to give Canada the largest possible share of the business and doubtless Canada, where large orders for munitions already have been placed, will receive as many more orders as the country is able to handle."

FRANCO-BRITISH FORCES BEGIN TERRIFIC OFFENSIVE MOVEMENT

Provincial Library 1-1-16

Victory for Allies in Desperate Battles Now Raging Would Force Germans Back to New Line from Lens to the Sea--Losses Heavy on Both Sides

HEAVY BOMBARDMENT IS FOLLOWED BY INFANTRY ATTACKS; SOME GROUND WON

Germans Regain Part of Trenches but Most of Counter-Attacks Break Down Under British Fire--Teutons Have One Machine Gun for Every Twelve Men--Censor Keeps Back News of Struggle

(By Daily News Leased Wire.)

LONDON, June 18.—Although disagreeing as to results both the German official statement on the one hand and the French and British communications on the other indicate that the fighting progressing in the Arras sector and at the northern and southern parts of the short British front is as desperate as any the western theatre of war has developed. The area of hostilities is tiny as compared with the sweep of the Galician front, where the Austro-Germans are still driving forward, but the last few days have brought much hand to hand fighting, the British and French striving to hold the trenches gained and the Germans, with a preponderance of machine guns, as promptly initiating a counter attack.

Each side dwells on the losses of the other and each emphasizes its gains, all of which have been costly, although comparatively small as measured in distance. It is too early to say whether this means a serious Franco-British attempt to break through but it is patent that they are on the offensive.

British Take Offensive.

A despatch to the Times says that the British again have taken the offensive at Festubert and Hooge.

The attack, which began Wednesday evening at Festubert, is regarded as a continuation of the operations of a month ago. It started with a heavy bombardment in which artillery of all calibres was called into play.

After the bombardment infantry attacked at once and the troops were successful in occupying the German first line of trenches and in some cases pushing even into the second line.

The Germans were not long in instituting counter attacks. So heavy was their bombardment that by morning the British, except in a few isolated stretches of line, had been compelled to fall back to the first German line.

Later a much heavier bombardment was opened, the British apparently contemplating a further attack.

Affair at Hooge Successful.

The affair at Hooge has been successful and especially gratifying because since the beginning of the month the British troops here have suffered heavily from the bombardments the Germans have been able to carry on against them from three sides at once. The British bombardment began soon after daybreak yesterday. The attempt, made soon afterward, proceeded along a front of one kilometre, the British occupying the German first line of trenches, while nearer Ypres they captured also the German second line of trenches for some distance.

The Germans, who are still in occupation of the ruined Chateau Hooge, quickly instituted counter attacks, which completely broke down under the British fire. Their losses are said to have been proportionately heavy.

Franco-Belgian Pressure Steady.

Both of these affrays must be weighed in conjunction with the steady pressure the French are exercising in the region of Notre Dame de Lorette and the recent activity of the Belgians to the north.

The Mail correspondent at Rotterdam reports local activity in the western front from Ypres to the coast. The following night and day, he says, "the British progressed at various points east of Ypres and the enemy is concentrating with many machine guns, one for each twelve infantrymen on some parts of the line. He also reports that the inhabitants of Ghent are emulating the people of Malines in refusing to do military work for the Germans.

"The burgomaster and many citizens have been sent as prisoners into Germany."

British Make Small Gain.

The following report is from Sir John French:

"The fighting in the northern and southern portions of our front continued throughout June 16, in co-operation with the attack of our ally about Arras.

"East of Ypres all the German first line trenches which we captured are in our hands, in spite of two counter attacks, which were repulsed with heavy losses to the enemy. We were, however, unable to retain those of

(Continued on Page Two.)

RUSSIANS PUSH ENEMY BACK

(By Daily News Leased Wire.)

LONDON, June 19.—A Bucharest despatch to the Times says:

"Reports from the frontier state that the Russians have taken a counter offensive against the Austrians who invaded Besarabia under Gen. Planzer. The Austrians have been forced to retire hastily as far as Bojaw, to the east of Czernowitz, and are evacuating Novo Zelica, in Russia on the Pruth, and the rest of the occupied territory. The Russians have captured a great quantity of war material."

CALLS CANADIANS SECOND GHURKAS

Kaiser Makes Comment on Work With Bayonets—Captured Trench Which They Were After.

(By Daily News Leased Wire.)

OTTAWA, June 18.—Pte. Edward Giles of the 5th battalion in a letter to his mother says:

"The kaiser calls the Canadian troops the second Ghurkas and the Ghurkas certainly know how to fight. I have been in a bayonet charge and it is surprising how so many get through against a hail of rifle, machine gun fire and shrapnel from the heavy guns. But anyway we captured what we were after, and that was another trench. We drove the Germans out at the point of our bayonets. The enemy's infantry seems to be weakening. We were all pleased to hear of Italy declaring war against Austria. The more the better, because the sooner it will end.

"There is some talk of the second contingent taking our place. It is about time they had a try at the Germans. The Canadian papers seem to think they are much better than we. I hope so, but Gen. Alderson told some of them the other day that if they were half as good as the first contingent he would be satisfied."

AUSTRIANS SHELL ITALIAN COAST

Towns Are Bombarded by Flotilla of Scout Destroyers—Damage Is Trifling

(By Daily News Leased Wire.)

ROTTERDAM, June 18.—An official statement from the Italian naval headquarters staff, signed by Vice-Admiral Thian di Ravel, was given out tonight as follows:

"This morning Austrian destroyers on a scouting expedition shelled a section of the coast railway near Fano and Pesaro (on the Adriatic). No one was hurt. Trifling damage was done to a small platform.

"The cities of Pesaro and Rimini, although quite undefended, were bombarded. The damage, however, was unimportant. A few private houses were struck and three civilians were slightly injured at Rimini."

TELLIER ALMOST CERTAIN FOR CABINET VACANCY

(By Daily News Leased Wire.)

OTTAWA, June 18.—It is said to be practically settled that Hon. J. N. Tellier, former leader of the opposition in the Quebec legislature, will succeed Hon. Louis Coderre as secretary of state. There may be a definite announcement in regard to the cabinet change subsequent to a meeting of the cabinet to be held tomorrow.

12 MORE SAILORS ARE MURDERED

LONDON, June 19.—A despatch to the Post from Copenhagen says the crew of 12 men of the Norwegian steamer Svink Jarl, which was declared sunk by a German submarine, is missing. The captain of the steamer was rescued.

RUSSIA TO SPEED UP MUNITION WORK

BERLIN, June 18.—Reuter's correspondent "on the Russian border," who repeatedly has shown himself to be well informed, sends a despatch saying that the Russian war ministry has ordered the military expropriation of all factories capable of making ammunition.

The despatch says that despite the fact that Russian ammunition factories are working three shifts of men the production still lacks much of covering the needs.

SUBMARINE ATTACKS AROUSE SWEDES

Energetic Protests Are Made Against Destruction of Vessels Carrying Non-Contraband Goods

(By Daily News Leased Wire.)

LONDON, June 19.—The anger of the public and the press is rising daily over German attacks on neutral shipping," says a Reuter despatch from Stockholm. "Newspapers of all shades of opinion are protesting energetically against the capture of the Swedish steamer Torsten and the sinking of the Swedish steamer Verdandi, both of which carried certificates that they had nothing aboard which the Germans could consider contraband. Some of the newspapers are discussing the question whether, in addition to protests the Swedish government should not consider adopting some form of reprisal."

AVIATORS SMASH UP TURKISH CAMP

(By Daily News Leased Wire.)

ATHENS, June 18.—Allied aviators bombarded a Turkish encampment at Maidos, on Gallipoli peninsula, yesterday, inflicting heavy damage

5 DEAD; 20 HURT; $250,000 DAMAGE IN HEAVY STORM

(By Daily News Leased Wire.)

KANSAS CITY, Mo., June 18.—Fifteen lives were lost, a score of persons were injured and property damage estimated at $250,000 was done by wind, hail and electrical storm, which centered in Missouri and Kansas last night and early today.

The heavy fall of rain, ranging from two of five inches, turned many small creeks into turbulent streams and sent the rivers to which they are tributary on rapid upward spurts. To-night all points in the Kansas river valley and along the Missouri river from Kansas City to Jefferson City were in possession of government warnings of impending floods.

Many stories of narrow escapes came in as telegraphic comunication became better in the affected area.

Sixty-five cars were blown from the switch tracks in the yards at Fort Scott, Kas. One was a work train in which tracklayers were living. Three were injured.

The home of J. T. Wood was blown over intact, carrying the occupants with it. No one was hurt. Several farmhouses and many small buildings south of Fort Scott were blown away. At Great Bend more than 20,000 acres of wheat was destroyed. A tornado swept eight miles west of Hays City, killing several horses and unroofing farm houses.

Rain ranging from one to four and one-half inches was reported through central Kansas. Near flood conditions prevailed in northern Oklahoma, along the Santa Fe railroad.

Six inches of rain fell at Maryville, Kas., sending the Blue river up 12 feet. The Republican river valley was soaked.

There were four inches of rain in the Solomon valley. A half mile of Union Pacific tracks was washed out at Concordia.

A tornado struck Norway, demolishing considerable property and pounding ripe wheat to the ground.

DETROIT, Mich., June 19.—At least one person was killed, two other fatally injured, many were slightly hurt and thousands of dollars' worth of property was destroyed late yesterday by a severe wind and electric storm which swept over the southern and central section of lower Michigan. The storm caused damage of varying degrees at points more than 150 miles apart. The greatest destruction was wrought in the vicinity of Owosso and north of Grand Rapids. Near the latter city, Charles Summer was instantly killed and his wife was mortally hurt in the demolition of their dwelling.

BRITAIN SETTLES DOWN TO PREPARE FOR LONG WAR

(By Daily News Leased Wire.)

LONDON, June 18.—(By F. A. McKenzie)—The public is gradually realizing that this may be a long war. The government has now practically decided to prolong the life of the present parliament until 1917, or until the war is over. The departmental committee of the board of agriculture is considering what steps will be necessary in maintaining and increasing the British food supply if war continues beyond the harvest of 1916.

Optimists who anticipated an early finish have now mostly disappeared. Their main survivor, Col. Maude, gave a cheerful war lecture yesterday, declaring that Germany's resources are rapidly dwindling, its resources of men used up and its western position weakened and liable to a disastrous collapse. He estimated the German losses at 4,200,000.

Much interest is aroused over the unconfirmed report that the government will appoint Sir Thomas Shaughnessy principal director of the Canadian munition supply.

It is probable the government's representative, who will shortly reach Canada, will rearrange the contract with the Morgans, removing Canada from their field of control and will arrange greatly increased Canadian supplies.

Every day brings further details indicating the urgency and need of a further supply of high explosives at the front.

Labor Men Visit the Front.

Ben Tillett, notorious as a labor firebrand, comes back from the front urging the supreme necessity of concentration and speed.

Eight representative Clyde workmen after visiting Flanders, declare they interviewed hundreds of soldiers at the front and all told the same tale.

William Brodie, organizer of the Amalgamated Society of Engineers, told how wounded soldiers declared the British needed more shells and how a garrison artilleryman said they had been held upon account of a lack of shells; how men in the trenches are calling for more shells; (it is estimated that the Germans fire 10 shells to every one of the allies). Base officers said the same.

"We are going to Glasgow to let them know that the men at the front are at the mercy of the men at home," say the delegates.

WILL WE EVER WALK ON AIR?

Train Of Thought Inspired By a Letter About "Fruit-a-tives"

MR. D. McLEAN

Orillia, Ont., Nov. 28th, 1914.

"For over two years, I was troubled with *Constipation, Drowsiness, Lack of Appetite and Headaches.* I tried several medicines, but got no results and my Headaches became more severe. One day I saw your sign which read 'Fruit-a-tives' make you feel like walking on air. This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and *now I feel fine.* Now I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I cannot say too much for 'Fruit-a-tives', and *recommend this pleasant fruit medicine* to all my friends". DAN McLEAN.

"FRUIT-A-TIVES' is daily proving its priceless value in relieving cases of Stomach, Liver and Kidney Trouble—General Weakness, and Skin Diseases.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

ITALIANS PUSH AHEAD STEADILY

(Continued from Page One.)

indispensable to their operations.

Italians Gain More Ground

GENEVA, June 19.—"The Italians have gained more ground in the Buchenstein valley," says the Laibach, Austria, correspondent of the Tribune. Their batteries are bombarding St. Cassan. They have also occupied important strategic points around Monte Cristo. Italian batteries shelled the Austrians out of positions in the vicinity of Monte Croce.

"Southeast of Trent the Italians are concentrating strong forces to block any eventual Austrian offensive. In the Val Sugan the Italians destroyed many defensive works. At Fogari they were obliged to retreat before repeated attacks by the Austrians, but during the day of June 17 they recaptured their former positions and are now bombarding Roverto."

VIENNA, June 18.—The war office says:

"Italian theatre: On the Isonzo the Italians have had as little success as previously. Near Plava our Dalmatian troops repulsed an attack by an Italian brigade last night. The enemy once more attacked but again was repulsed. It is stated the 72nd Piedmont brigade and one mobile regiment participated in the attack. The Italian losses were heavy.

"Repeated hostile attacks on the Ploeken region and on Monte Cristo were repulsed."

ASSERTS ARCHITECT ADMITS WRONGDOING

Former Manitoba Minister Swears Horwood Told Him He Had Deceived Roblin Government.

(By Daily News Leased Wire.)

WINNIPEG, June 18.—Hon. G. R. Coldwell blamed V. W. Horwood, former provincial architect, for wrongdoing in connection with the Kelly contracts at this afternoon's session of the royal commission. He swore that one day after the close of the last session of the legislature Horwood confessed to him that he had deceived the government and expected to go to jail for it.

Until this evidence was given by the ex-minister, the day's proceedings had not been productive of anything new. J. B. Coyne had examined Mr. Coldwell in detail with respect to various matters in connection with the parliament buildings, receiving for the most part non-committal replies. Finally counsel asked the witness when he first knew that something was wrong. Mr. Coldwell said that shortly after the adjournment of the house someone, he thought it was Kelly, told him the contractors said they had a lump sum contract for the caissons job. He sent for Horwood, he said, and asked him what this contract was that Kelly claimed he had.

"Horwood told me it was right; Kelly had a tender in," testified Mr. Coldwell. "I was thunderstruck and said some very impolite things, I'm afraid. The poor fellow felt very bad about it and said 'I deceived you.'"

Mr. Coldwell said he wanted to be fair to Horwood. It was only right that the commission should know Horwood said he had accepted the Kelly tender with the object of protecting the government. Horwood was quoted by the witness as saying, "I did not know what figure I could keep these caissons within."

The ex-minister further testified that Horwood repeated his confession before himself and Hon. J. H. Howden, the next day, adding on this occasion that he would likely go to jail over the matter. Counsel pressed Mr. Coldwell hard for an explanation of his conduct before the public accounts commission. He admitted having been practically in control of the government forces at the committee. He had helped to rule out certain evidence, because at that time he thought it ought to be ruled out. There has been no suspicion in his mind that all was not well, and he had entire confidence in Horwood, Salt and Elliott.

Mr. Coyle had just begun to examine Mr. Coldwell with regard to Salt's black book when the commission adjourned.

SHOEMAKER GONE; FRIENDS SEARCH

Hans Hermonson Disappeared From Nelson Nearly a Week Ago—Friends Fear Worst.

Since 5 o'clock last Monday morning, when he was seen in the Klondyke hotel, Nelson, Hans Hermonson, a shoe maker who had a shop on Hall street, has been neither seen or heard of, and his friends fear that some accident has befallen him. Considerable alarm is being felt for his safety by those who knew him, and although a search of the river and neighboring woods has been made, no traces of the missing man have yet been found.

FOREST DEPARTMENT AT NELSON ASKS PEOPLE'S CO-OPERATION

The Nelson forest branch of the lands department of the province of British Columbia has issued the following letter, the object of which is to bring to attention the more important points of forest fire law and to enlist co-operation on behalf of fire protection:

"*Burning Permits.*—The close season is now May 1 to Sept. 15, instead of May 1 to Sept. 30, as formerly. During the close season a burning permit must be obtained from a fire warden before setting out any fire for land clearing, brush burning, etc. Experience has shown that in the timbered countries undergoing settlement the permit regulation is the only means of ensuring adequate fire protection both to the settler and to the forests. This regulation, in one form or another, is in force today in every section of the west where fire protection is successful.

"It is our desire to place the least possible restriction on your land clearing work. Each fire warden has been instructed to see that all settlers are visited as often as possible so that permits can be obtained without difficulty or delay.

"We ask you to do your burning in the early and late parts of the season, when weather conditions are safe, and to use every reasonable precaution to prevent your fires from escaping control and causing forest fires. It is especially important that all slashes near railroads, public roads, etc., be disposed of, because they are particularly liable to be set on fire.

"Rules for Slash Burning.—The following rules are recommended for guidance in burning slashes:

"1. Burn in the early spring and fall, preferably when the slash is dry but the soil damp. When the soil is very dry a fire will destroy the humus or vegetable matter which enriches the top layer, and also is much more difficult to handle.

"2. If possible, have one or more neighbors assist in the burning so that the fire may be kept under control at all times.

"3. Always make a light fire-break around the slash by throwing any brush or litter in for say 10 or 20 feet. This will help to confine the fire and let you get round it quickly should it start to spread.

"4. If the slash adjoins timber, burn it if possible when there is a light breeze blowing away from the timber, and start the fire first on the leeward side. If the slash is on a side-hill, start fires first on the upper side and burn downhill. When a good guard has been backed along the top, fires may be set at the foot of the slope and allowed to burn up.

"5. If conditions are at all dangerous, never start a fire in the morning. The best time to start burning is after 4 o'clock in the afternoon of a calm day. The slash is then dry and burns readily, there is little danger of wind, and the fire burns out during the night, when it is least apt to escape.

"6. Burn over the area as quickly as possible.

"7. Keep close watch on the area until all fires are out.

Co-Operation in Fire-Fighting

"A forest fire is a menace both to private and public property and often to life. From the standpoint of good citizenship alone, every able-bodied citizen should in every way possible try to prevent fires and be ready and willing to assist in putting them out. Land-owners are required by law to do their utmost to prevent the spread of any fire (no matter how caused, even if set under permit) burning on their own property and must place themselves and their employees at the disposal of a fire warden for the purpose of fighting such fires. The Forest act states that such fire fighting must be done at the expense of the land owner and if he fails to take action he is required to pay any expenses incurred by his neighbors, or by the government, in fighting the fire.

"Thus every person in the province has a direct interest in the prompt and effective suppression of all forest fires. With the great forest area to be protected, taken in connection with the sparse population and limited means of transportation, fire wardens can only protect the timber resources of the province by having the willing assistance and hearty co-operation of every citizen. Your help in this matter is earnestly requested. All you are asked to do is this: First of all put out promptly any fires which may start on your own property. Next, watch for fires on your neighbor's land and if one is discovered warn him and help in extinguishing it. Lastly, if you discover a fire on crown lands, or if a fire threatens to spread to crown lands, notify the fire warden if you cannot yourself readily extinguish it. If you yourself extinguish a fire, please report your action to the fire warden.

Why Fire Protection Is Necessary

"The greatest aid to agriculture and to settlement in British Columbia is a flourishing and prosperous lumber industry. This industry contains half the invested capital in British Columbia and in ordinary times employs half the wage-earners and pays half the wages. Out of every dollar spent in logging and manufacturing lumber, over 80 cents goes directly to the community to employ labor and buy supplies and transportation. The annual revenue from the forests forms about a quarter of the total government revenue. It helps to build roads, schools, and all kinds of public works. It keeps the taxes down. The continuance and increase of this revenue is directly dependent on the prosperity of the lumber industry.

"Fire protection is necessary to ensure a permanent supply of raw material for the lumber industry. It is necessary to preserve the mature timber for cutting now and in the future. It is equally necessary to protect the second growth to provide saw-timber for the more distant future when the demand will be much greater than at present. It takes 100 years or more for a second crop of timber to grow after a fire or after logging. If repeated fires occur the young growth is destroyed, the soil injured, and the timber crop is delayed indefinitely.

"The public owns outright a large proportion of the standing timber and nearly all the forest land of British Columbia. Much timber is held in partnership with the public under leases and licenses. You, as a citizen, are therefore one of the shareholders in the forest resources of the province. You are urged to be careful with fire in the woods and to give every assistance in your power toward the prevention and suppression of forest fires."

FRANCO-BRITISH BEGIN OFFENSIVE

(Continued from Page One.)

the enemy's second line trenches which we had occupied in the morning.

"East of Festubert, as a result of a further attack on the afternoon of June 17, we made a slight advance and judging by the number of dead Germans in the trenches entered by us our artillery fire was effective."

Fierce Battle Rages.

PARIS, June 18—On an eight-mile front north of Arras a fierce battle is being waged between the trenches and the hillsides are strewn with corpses. This marks the centenary of Napoleon's defeat at Waterloo. The French are fighting desperately to surround a large enemy force at bay in a ravine east of the Lorette hills. From a hill near Souchez heavy artillery is sweeping the enemy lines with a circle of terrific shell fire. All around Souchez the fighting is going on with great intensity.

The French are pounding and smashing against a fortified stronghold with artillery, while infantry regiments are hurling themselves against 200,000 German troops, engaged in a desperate effort to hold their lines before Lens.

Put Lid on News.

Tremendous importance is attached to the conflict north of Arras. For the first time in many weeks the screen of censorship was drawn tightly over the operations today, indicating the seriousness of the gigantic struggle.

The war office stated this afternoon that no official bulletins regarding the progress of the battle would be made public for at least 12 hours.

This announcement only increased the tension here. For weeks rumors have gone out of a mighty smash against the German lines on the anniversary of Waterloo. Though officially discredited, Paris has been led to believe that the climax of the French thrust north of Arras was to be reached today, and the public feverishly awaited more news from the front.

Victory Would Change Long Line.

The Germans are counter attacking with great fury. Bombs hand grenades and bayonets are all playing their part in the great conflict. The loss of Lens would force readjustment of the German lines from Arras to the sea, and for this reason the Teutons are throwing their forces into the battle with utter disregard for lives.

No estimate of the loss of life has reached Paris. The belief is accepted here that heavy losses are occurring on both sides.

Unofficial reports said the French are making steady progress in the direction of the German military centre of Colmar, in Alsace.

French airmen attacked Colmar and Gebweiler in Alsace, Thursday.

Colmar is a link on Germany's Rhine defenses; Gebweiler is southwest of Colmar 17 miles from the Rhine valley.

Pamphlets bearing the following were thrown down by the airmen: "Alsatians: Italy is now helping to crush Germany. Long live France and Alsace."

Continue Progress in Alsace.

The following official communication was issued tonight:

"In the sector to the north of Arras a violent artillery duel has taken place. The front here remains unchanged. We hold all the ground we have captured.

"In Alsace we have fortified the positions which we took yesterday and continue to make progress here. Our advanced troops at the end of day had reached the outskirts of Metzeral. We have advanced along both banks of the Fecht. We hold under our fire the enemy's communication between Metzeral and Munster. Further prisoners, machine guns and a large quantity of war material, notably rifles and cartridges, have been taken by us.

"There is nothing to report concerning the situation on the remainder of the front."

REPORTED KILLED WRITES TO FRIEND

J. Stewart, Listed as Dead, Was Alive and Well on May 27—Casualty Lists

David Skelly, who was yesterday reported dead of blood poisoning, while a prisoner of, was the brother of Mrs. Fleetwood and enlisted from Nelson. Charles Dennehy of Nelson, late of the engineering department of the Canadian Pacific railway is unofficially reported wounded and missing.

A letter has been received by Dr. W. O. Rose from J. Stewart, who joined the second contingent at Vancouver and went fwth the reinforcements to the Princess Pats. Stewart's name has appeared at different times in the casualty lists, as wounded, missing and killed in action, but on May 27, when the letter was written, he was safe and uninjured. Six killed in action, five dead either of wounds or from illness, five missing and three prisoners of war, are part of the toll in the casualty lists reported by the militia department last night. The lists contain altogether 37 names, but are more scattered than usual. The men are suffering from shock and one from loss of sight. Three are wounded but on duty, two of the number being officers—Capt. O'Connor and Col. Watson of the second battalion. The lists:

3rd Battalion.

Wounded but returned to duty—R. J. Murdock, no address.

Killed in action—Edward Cooper, England.

Wounded—D. D. Wilson, England.

Missing—A. D. Aspinwall, England.
George Foster, England.

7th Battalion.

Killed in action—Harry Longdon, England.
Lionel Crippen, Scotland.
N. J. Benallack, England.
A. R. Bell, England.
C. P. Storey, England.
Edward Humphries, England.

Missing—H. Lowings, no address.

Died of wounds—A. George, England.

Wounded—R. Thomas, Toronto.

1st Battalion

Wounded—Lieut. F. W. Campbell, Mount Forest, Ont. (seriously).

A. L. Dean, Hyde Park Corner, Ont.

3rd Battalion

Wounded, but returned to duty same day—F. McDougall, Winnipeg.

4th Battalion

Wounded—H. E. Pannell, New Zealand.

7th Battalion

Killed in action—Lance-Corp. Rupert Nicholls, Vancouver.

Missing—Harold F. G. Sinclair, formerly 30th, New Westminster.

Wounded—E. C. Rowe, New Zealand.

Missing (between April 24 and 29)—J. D. Ludgate, Edmonton.

Previously reported missing, now with unit—T. H. Mankey, England.

Princess Patricias.

Died—G. Murray, Edmonton.

2nd Field Artillery Brigade.

Dead—Gunner Neil McIsaacs, Sourris, P. E. I.

2nd Field Company, Engineers.

Wounded—W. Jackson, England.

GERMANS SHIRK CANADIANS STEEL

Letter From M. M. Gibson Tells of Enemy Fear of Canadian Troops. Souvenirs Plentiful

Harold Brett has received a letter from M. M. Gibson, who was formerly a surveyor in Nelson and was also with the forestry department at the east. He is serving with the Royal Canadian Dragoons in France. The letter reads:

"Have just come out of the trenches two days ago and am now resting up as per custom in the Canadian division. We have had two trips to the trenches and have seen a good deal of fighting for a bunch of tender-feet. So far we have had nothing but successes and in our second offense we were able to put the Germans on the run. Hand to hand fighting among the Canadians is not so frequent as one might suppose for the simple reason that the Germans will not meet the Canadians with steel I believe they refer to the Canadians as the 'white Indians' only more ferocious. Personally I have a whole lot of respect for the enemy shooting, both with small arms and large. They gave us a couple of days bombardment, which was about the worst sensation I have ever had in my life. Their snipers are also very numerous, and every time a man showed a head above the trenches the 'spit' of a bullet could be heard. This, however, has but little effect on the boys as they seem to walk around the ground ebhind the trenches as if there was no battle raigng at all."

Friends From Nelson.

"Last night I saw our friend Reynolds, from Nelson. I learned from him that George Revell, also of Nelson, was only a short distance away from me. Their unit certainly does some of the greatest work in this war. They are in the trenches practically every night of the week.

"It might interest you to know that souvenirs are very plentiful o the battlefield. Among other thing that can be picked up there are he mets, rifles, bayonets, badges and bu lets, both explosive and otherwise. had picked out a helmet and a bay onet along with some bullets, but u fortunately was not able to carry ther away, as I was called upon to hel with the stretcher bearers. Next tim I may have better luck."

"We are now all hoping to get ou horses back. Indeed if we don't g our horses soon we are likely to b short of me nto make up our brigad I suppose we should feel lucky, as th cavalry over here have been doin mostly police work and have seen ver little fighting.

"Before I forget, I must tell you th I discovered the Nelson men afor mentioned by picking up your loc paper. It certainly brings one rig back to old surroundings. The Dai News was about the last thing I e pected to see within three miles of t trenches."

LONDON PAPER DEALS WITH ZINC QUESTION

In view of the efforts which are being made toward the establishment in Canada of plants for the reduction of zinc ores, statements which appear in the May 29 issue of the London Mining Journal are particularly worthy of attention.

In an article dealing with the supply of war munitions the Journal declares that "the supply of metals, fuel and chemicals is perhaps the greatest material problem of the day," and that, while antimony is growing scarcer and has reached an almost fantastic figure "the spelter situation may speedily develop from an inconvenience to a danger."

The Journal goes on to state that not merely has the price of the metal quadrupled but the supply is so limited that the delivery of any considerable quantity would be a matter of considerable uncertainty. It points out that Great Britain has endeavored to cut off Germany's zinc supply and asks: "What more natural than that she, through the great German interests in the metal industry of America—especially in spelter—seek to embarrass us in return?"

The Journal concludes by urging upon the British government sympathetic consideration of the difficulties under which zinc producers labor and of plans which would overcome obstacles which the Journal thinks are easily surmountable.

QUEEN MARY GIVES INTERVIEW TO NEWSPAPER WRITER

Many cherished traditions have, as a result of the war, been discarded. Not the least significant of these has been the custom of royalty and many of the foremost statesmen in Europe to refuse to be interviewed for the newspapers.

Twelve months ago the idea of a newspaper sending a representative to interview Queen Mary would have been considered preposterous. Yet in this week's issue of an American periodical appears an interview accorded by her majesty to Mary Roberts Rinehart, a clever newspaper writer who had previously interviewed the King of Belgium and the Queen of Belgium.

The international situation and the tremendous power of the newspapers and the more important of the periodicals as a means of placing the truth before the people offer the explanation for the change which has been brought about. It has been recognized that the newspaper interview brings personalities and opinions before the people in the vivid, flesh-and-blood spirit which is lacking in a formal statement or a royal proclamation.

Mrs. Rinehart's interview with Queen Mary, for example, pictures her majesty engaged in the work of providing comforts for soldiers and quotes an expression of the royal gratitude for the assistance which American women have rendered. It is an interview which will strengthen the bonds of sympathy which bind the majority of the American people to the cause of Great Britain and its allies.

CREMATION OF DEAD BECOMES MILITARY NECESSITY

The decision of the French government that many of the bodies of soldiers who die on the battlefield must be burned instead of buried will cause some pain to relatives of the men of France who are fighting for their country but the step which is to be taken is obviously a military necessity.

The arrival of hot weather has made this necessity all the more acute and the French government has had to decide between the adoption of cremation and the almost certain outbreak of disease. It has become a question of removing an avoidable risk to the health of the allied soldiers at the expense of the natural sentimental feelings of relatives at home.

The people of France will accept the decision in that spirit of unselfish recognition of the supreme importance of the welfare of the commonwealth which has marked their conduct since the beginning of the war. The sorrow which will be induced in many by the thought that the bodies of their loved ones may be burned instead of buried will be repressed by the knowledge that the maintenance of good health among the living must be the first consideration.

WHY NOT THROW RUBBISH INTO PROPER PLACE?

Some years ago the Nelson city council installed rubbish receptacles at points on the main streets. They should be more generally used, especially for orange and banana peel, which not only makes the sidewalks unsightly but is dangerous to pedestrians.

Many accidents have occurred through persons slipping on rubbish of this kind. It would give the members of the public who are responsible for the condition complained of in Nelson very little trouble to observe the regulations by throwing refuse into the boxes which have been provided for it.

Neither is there any excuse for the amount of waste paper which is sometimes to be seen on Nelson's main streets. That, also, should be thrown into the rubbish receptacles.

Help to keep Nelson's main streets tidy and the sidewalks free of slippery matter by throwing orange and banana peel and other rubbish into those little green boxes at the street corners.

President Wilson has not replied to William Jennings Bryan. The American public has made it unnecessary.

Sir Thomas Shaughnessy, who is to replace J. P. Morgan, as far as Canada is concerned, as purchasing agent for the allies, is the right man for the job.

The United States proposes to prosecute German sailors from the Prinz Eitel who broke their parole and to ask Germany to return them for trial. The kaiser will probably ask America to go and get them.

The anger of Sweden and Norway has been aroused against Germany by the repeated destruction of their ships by Teuton submarines. Their best protest is to jump in and help the allies to put the pirates out of business.

The fighting yesterday which marked the centenary of Waterloo makes the struggle of a hundred years ago look like a street riot, when the number of troops, the losses and the expenditure of big gun ammunition are considered.

"Enthusiasts in Joplin," says the Joplin Globe, "circulated a subscription list to engage the Carthage band to play on Main street Friday night, June 4, in celebration of the arrival of $100 zinc. By the time the band had been engaged the price had gone to $102 a ton. By the time the uniformed players, instruments in hand, arrived in Joplin it was learned $105 had been paid. By the end of the second selection it was $106. When the program was half over it was reported $110 had been paid and before the closing march it was learned on reliable authority that a base price of $112 had been paid for local ore." Mining men in British Columbia will never forgive the pikers who hired the band for not putting up enough money to keep it playing for ever.

WHAT THE PRESS IS SAYING.

Two of a Kind

The Toledo Blade says that a brainstorm and a gun are a bad combination. Glaring examples are Harry Thaw and the kaiser.—London Advertiser.

Nails the Lie

Premier Borden has given the lie direct to a statement made by Hon. Rudolphe Lemieux to the effect that the governor-general refused to sign an order for the dissolution of the Dominion parliament. It will now be up to Mr. Lemieux to blame it all on the reporters and swear that he was misreported.—Calgary Herald.

Conscription

If miltary conscription were universal the government could put any work it desired under military control, as Briand did in France several years ago when the railroad employes went on strike and were called to the colors to give compulsory service. But industrial conscription in only certain work is a partial remedy that proves how reluctantly any British government is, whatever the stress of circumstances, to sacrifice to the national needs the principles of personal liberty. Unless conditions rapidly mend, the Coalition may soon find itself face to face with a situation where the national defense requires the ultimate course in time of war.—New York World.

A Conclusive Refutation

The most conclusive answer of the British government to the charge that it was in any way responsible for precipitating this war, and that the effort to avert it was not made in good faith, is the conspicuous fact that it was not in the least prepared for it. Its army was utterly inadequate for any such contest, and the nation lacked not only the necessary equipment but the means of providing it. On the other hand, the evidence was conspicuous and beyond denial that Germany had been assiduously preparing for it for a quarter of a century and launched into it because it was ready and a favorable occasion was offered.—New York Journal of Commerce.

STEAMER ARRIVALS.

At London—Sicilian, New York.
At Malta—Patria, New York.

Bridegroom (on railway train)—What makes you think I don't love you any more?

Bride (pouting)—When we passed through the tunnel you never kissed me.

COLD STORAGE.

"I wonder who it is that puts up the price of meat?"

"That's easy—the man who wants to get it."

"I'll be pretty busy on this trip," he began.

"I know," interrupted his wife; "here are 40 or 50 love letters you wrote me when we were engaged. Take them along and mail me one every day."

Wife—John, I saw in the paper that a nautical mile is nearly a seventh more than a land mile. Why is that I wonder?

Husband—Well, er, you know, my dear, that things swell in the water.

A MOST RIDICULOUS RESOLUTION

It may be that the tobacco "interests" are encouraging Canadian newspapers to inaugurate campaigns with the idea of sending cigarettes and tobacco to the soldiers at the front, thus swelling the profits of the tobacco trust.

It may be that the owners of certain corporation newspapers are also stockholders in the tobacco trust, which profits by these newspaper tobacco funds.

And it may be that tobacco has a very immoral and demoralizing effect not only upon men at home, but upon soldiers at the front.

But, granting all that, what in the world is the sense of passing such fool resolutions of censure as that of the Methodist conference at Toronto yesterday, against the raising of such comforts for the Canadian soldiers? If these ministers desire to attack the tobacco trust for alleged selfish purposes in encouraging these funds for the sake of the profits which the trust will make, or if they want to expose the tactics of certain stockholders in the tobacco trust in exploiting these funds through the newspapers they own, let them do it. But why, in the name of common sense, do they insist on treating Canadian soldiers like a kindergarten class and regarding them as mental incapables?

What do these ministers know about the needs of soldiers at the front? Is it not a fact that every other letter which reaches Canada from her soldiers abroad asks for cigarettes or tobacco? Chewing tobacco, it will be admitted, is not a habit that either the minister or the young man of the church usually indulges in during prayer meeting; yet is it not a fact that ten days ago the war dispatches told us that it was ONLY chewing tobacco that saved the lives of hundreds of British soldiers who were threatened with asphyxiating gas of the Germans? And is it not also a fact that scores of ministers have themselves used tobacco for years without contaminating "those lips which were pure before the habit" was acquired?

Let us, indeed, pray that God will be merciful to the poor Canadian boy in the water-soaked trenches of Flanders if, in the midst of his dangers, his sufferings and his miseries, there is added to his other mental afflictions the knowledge that, if he pops his head high enough to tempt the bullet of the German sharpshooter, he is doomed to everlasting punishment in the hell preached by the average minister simply because he has taken some comfort, during those long hours which have provided a hell on earth, out of a pipe, a cigar or a cigarette. That is a terrible thought to implant in the mind of the average Methodist mother who has given her son as a sacrifice to the humanity and civilization of the future. Yet it is just what is intimated in this resolution of Ontario Methodist ministers.

What harm—if not absolute good—is tobacco going to do to the young Canadian soldier who acquired the smoking habit before he enlisted? And what faith—what confidence—have these ministers in their own training and their own teachings if they cannot trust the young man who was brought up in the church, and who never smoked before enlistment, the moment he gets beyond the shadow of the church?

Slowly but surely, it seems, people are being driven from the church by the extremes to which some of its teachers are permitted to go. Must the man who uses tobacco now consider himself among those whom the church would ostracise, and must he also take himself away from that institution which has so many opportunities to do things for Christians, but which is neglecting so many of them?—Calgary News-Telegram.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied a fee of $5 which will be refunded if the rights applied for are not available, ut not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa or to any Agent or Sub-agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

Pla-Mate Shoes

are made to fit growing feet and not to misshape them.

It's a crime to put ill-fitting shoes on children's feet. Their feet can never grow straight and strong in ill-fitting shoes.

The correct shape for children must be broad of sole to allow for expanding feet.

R. Andrew & Co.
Sole Agents for PLA-MATE.

Ask for a ticket with your purchase. Pair of $5.00 Shoes given away each week.

TONE UP YOUR SYSTEM

This is the time of the year when a great many people require a tonic for their health's sake. Some resort to medicine and the doctor's advice, while others desire a much-needed rest.

For the benefit of those who are seeking relaxation from work and worry we invite you to **The Springs.** The medicinal value of the waters is unrivalled and will put you in shape to resume your labors, whatever they may be. Every care and comfort will be given you during your stay at the Sanitarium.

Come and be convinced.

Rates: $12 and $15 per week, or $2 per day and upwards.

BOUNDARY GERMAN BROKE HIS PAROLE

Adolph Bergler in Charge of Grand Forks Soldiers—Talks Disloyalty About the War

GRAND FORKS, B. C., June 18.—Adolph Bergler, a German, who resided up the north fork, and who has been on parole since last fall, is now in charge of the soldiers here. He will be sent to Vernon on the charge of having broken his parole in addition to which he has been doing considerable talking as to the ultimate result of the war from a German point of view.

The annual Sunday school picnic of the Baptist church will be held on Saturday afternoon at Stafford Park. Sunday at the Baptist church will be patriotic and children's day at both morning and evening services. The church will be decorated with the flags of the allies. At the morning combined service, Superintendent A. S. Matheson will give a flag address. At the evening service Rev. C. W. King, pastor, will preach on "The Flag of Three Crosses and the Crisis of Our Country."

A meeting of the citizens of Grand Forks will be held in the Empress theatre on Sunday at 3 o'clock to organize a branch of the Red Cross society. The meeting will be addressed by prominent citizens.

Mr. Coleman brought into town some strawberries of very large size, six of them weighing half a pound.

DEER PARK WHARF IS DAMAGED BY STORM

DEER PARK, B. C., June 18.—During the recent storm the wharf here was badly damaged and is now being repaired.

Messrs. Weirs and Carse are laying a concrete foundation for their new store and house.

A meeting of the ratepayers was held recently to consider the advisability of taking advantage of the generous proposition of the government as to the improvement of the school grounds. On motion of Mr. Schwartzenhaner it was decided that it would be in the interests of the ratepayers to have the work done by day labor, appointing two overseers at $4 a day, other workers to rective $3 per day.

Another meeting is being called further to deal with the matter. It is thought that the ratepayers who pay about 80 per cent of the taxes and are unable to participate in the work may be heard from.

The cattle here have been annoyed of late, according to a notice which appears in the post office.

It is expected that a picnic of the Rossland Relief society will be held here shortly.

Mrs. Douglas gave a delightful tea on the beach yesterday.

ROSSLAND GIRL RECEIVES SHOWER

Miss Minnie Morrish Gets Many Gifts —Is Soon to Become Bride— News of City

(Special to The Daily News.)

ROSSLAND, B. C., June 18.—A shower was tendered Miss Minnie Morrish, whose wedding will take place shortly, last evening at the home of her sister, Mrs. Acorn. A large number of friends were present and an enjoyable evening was spent. Following is the list of gifts received:

Hand painted picture, Mrs. Bothwick and Mrs. Davis and Irene, Beth and Elaine Morrish; mayonnaise set, Mrs. J. Murray; china plate, Miss M. Michaely; china cream and sugar set, Miss M. McLean; cut glass bonbon dishes, Miss F. Brawn and Miss F. Allan; cut glass jelly dish, Mrs. Ritta Allan; cut glass mustard jar, Pearl Stanton; china plate, Miss Margaret Barnes; marmalade set, Mrs. Young and daughter, Patterson, B. C.; brass candlestick, Mrs. J. C. Robson; cut glass flower basket, Mrs. P. O'Brien; bath towels, Mr. and Mrs. Matthews and Lois Black; tea spoons, Mrs. Patriquin; lunch set, Mrs. Trembath and family; tray, Stella Morrish, tea spoons, Mrs. F. Graham; fruit knives, Mr. and Mrs. T. Stout; cut glass salt and pepper, Mrs. J. Barnes; cold meat forks, Miss Corkill, Mrs. G. Moir, Miss Olson and Miss Hawkins; sugar shell and butter knife, Mr. and Mrs. Page; fruit spoon, Mr. and Mrs. Dingwall; sugar spoon, Agnes and Jennie Inches; cut glass bowl, Mrs. Doell, Mrs. Gundel and Miss Doell; pillow slips, Mr. and Mrs. Morrell and Mrs. B. Hamilton; table napkins, Ethel Stephens and Albert and F. Acorn; lunch cloth, Mrs. Rogers; sheets, Mrs. Langdon; table napkins, Mr. and Mrs. J. Morrison; centre piece, Mrs. W. Bridgeman; lunch cloth, Laura Jewel; towels, Mildred Gelling, Priscilla Baxendale, Mrs. and Miss Pitt, Ruby and Pearl Dorrey, Mrs. Beverley, Miss Helen Murphy, Mrs. Seraphine, Lois Gamble and Alice Jewel, and Mrs. W. Cross.

The subject of Rev. W. Robertson's sermon on Sunday morning at St. Andrew's Presbyterian church will be "The Best Leadership" and in the evening "An Accredited Historical Declaration Which Is of Momentous Importance to All."

The subject of the sermons at the Methodist church next Sunday will be morning, "A Wedge of Gold" and the evening "Feasting and Faith."

Monday night the Rossland Epworth league will give a literary program. Mrs. Nute, vice-president of the literary department, will have charge of the program. The meeting will begin at 8 p.m.

It is expected that during the coming week a junior league will be organized. Mrs. R. Hooper and Mrs. T. G. Barlow are in charge of the starting of the new league and already some 30 boys and girls have made application to become charter members. While the junior league will have its own officers and conduct its own business it will be under the supervision of the senior league. All boys and girls between the ages of nine and 14 years are eligible to become members. After the members of the junior league become 14 years old they will be advanced to membership in the senior league. Any boys or girls who would like to join and have not as yet handed in their names may do so to Mrs. Hooper or Mrs. Barlow.

SLOCAN NEWS NOTES

(Special to The Daily News.)

SLOCAN CITY, B. C., June 18.—C. B. Taylor, one of the lessees of the Meteor mine, who went to Seattle a month ago, returned on Saturday, and on Monday, C. E. Barber and Mr. Taylor went up to the mine to continue work.

R. E. Macmillan was a visitor to Nelson this week.

William Cotterill was home from the Standard mine for a few days.

James Holt came home on Thursday from the Lucky Thought mine at Silverton.

William Hicks went to the Meteor mine on Thursday to work.

AINSWORTH NOTES

(Special to The Daily News.)

AINSWORTH, B. C., June 18.—A service on Sunday evening was conducted by J. A. McMillan, higher student of Franklin college, Ohio. The preacher took for his text "Excuse Me." Mr. McMillan intends spending the summer in Kaslo and district.

Word has been received by A. Cullen, principal of the school here, of the death of his mother in Kent, England. She is survived by four daughters and five sons, one of whom is suffering from severe wounds received in action. Another son is still at the front.

BISHOP OF KOOTENAY TO VISIT WEST ARM

(Special to The Daily News.)

PROCTOR, B. C., June 18.—The bishop of Kootenay will visit Balfour and Proctor June 24 and 25, when he will be the guest of the vicar, Rev. F. P. Hughes.

A garden tea, with competitions, will be given by Mesdames Bourne, Haig-Smellie and Major on June 26, from 3 till 6 p.m., in aid of the Women's auxiliary. Mrs. Haig-Smellie has given the use of her garden for the occasion.

J. F. Armstrong, J. S. F. Alexander and J. R. Mountain, secretary, held a sitting of the water commission at the Kootenay Lake hotel, Balfour, on Wednesday in connection with the adjustment of water rights in the Balfour and Queen's Bay districts. W. J. E. Biker, the water surveyor, was also present. Among those who attended the commission were J. P. Harris, J. R. Edmondson, Harry T. Cherry, S. S. Fraser, J. J. Wilson and J. D. Kerr of Harrop, and Mr. Attree of Queen's Bay.

Additional Kootenay and Boundary News on Page Ten.)

Fernie Beer

The beer that sells on its merits. Try it once, you will never use any other.

Mutz Fernie

"What's on the carpet today, my dear?" asked Mr. Wombat, who is flowery of speech.

"More mud that Johnny has tracked in, I s'pose," responded literal Mrs. Wombat.

"Your name, please, miss?"
"Iona Carr."
"Oh, do you? What make?"

The Spring brothers of the New Westminster professional lacrosse team lead in individual scoring in the Minto cup games. "Doughy" is at the top with 11 goals scored, and "Grumpy" comes second with 10 tallies to his credit.

VANCOUVER PLAYERS LEAVE CLUB ROSTER

When President Brown Suspends Pappa Eight Beavers Go on Strike—Places to Be Filled.

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 18.—Seven of the Vancouver Northwestern league players, sympathizing with Outfielder Pappa, who was fined and indefinitely suspended by President Brown of the Vancouver club at Victoria Wednesday, refused to play today in the game scheduled with Victoria, unless Brown either lifted the suspension or remitted the fine. Brown refused and Players Coleman, Gislason, Moore, Kramer, Reuther, Barham Pappe and Wotell declined to play and left the grounds. As a consequence there was no game with Victoria today.

Players Brottem, Check, Colwell, Brand, Brinker and McCarl are still with the club.

President Brown announced tonight that he will fill the places of the striking players at once and that a team will be fielded for the game tomorrow. He will carry the incident up to the national commission.

HARVARD WINS BASEBALL SERIES FROM PRINCETON

NEW YORK, June 18—Harvard won a long drawn out, listless baseball game from Princeton here today, 8 to 3. The victory gave Harvard a clean sweep of the Princeton series as the Crimson had won the two preceding games.

SPORTING NOTES.

After playing English rugby for the past six years, California university has decided to return to the American game and will compete against the university of Washington. Leland Stanford, the other exponent of the English game, will continue the old style.

Benny Kauff, the hard-hitting outfielder of the Brooklyn Federals who jumped to the New York Giants last May only to find that he had to return to the Brooklyn club, is now looking for the $5,000 bonus which McGraw was to give him the day he signed a New York contract.

Calgary is still awaiting word from Joe Lally, eastern lacrosse magnate, with respect to the Mann cup challenge issued to Calgary by the Brampton Excelsiors. Brampton arranged to play for the cup on June 28 and July 1 in Calgary, but so far no official word is forthcoming.

Nabors, a pitcher in the Alabama-Georgia baseball league, established an organized baseball record on June 15, when he pitched 13 innings in a league game without giving a base on balls and held his opponents hitless.

HIGH SCHOOL TEAM WILL PLAY IN YMIR

League Leader Expects to Contest Double-Header—City Game Postponed to Next Week

The high school baseball team, leader of the city baseball league, will journey to Ymir this morning to engage in a double-header with the senior Ymir nine. The game will be played in the afternoon and the boys will return to Nelson in the evening.

Harry Gibbs will be on the mound for the students and Brasch will do the receiving. The team will be further strengthened by the addition of R. Corey and Harry Pitts of the Y. M. C. A. team. The following players will make the trip:

Brasch, c.; H. Gibbs, p.; H. Robinson, 1b.; H. Nagle, 2b.; E. Anderson, 3b.; H. H. Pitts, s.s.; R. Corey, l.f.; C. Wilkinson, c.f.; G. Elliott, r.f.; Shuttleworth, spare.

On account of the game taking the school team out of town, the city league game scheduled between the school and the Hungry Nine will be held over to next week.

COAST MILLS HAVE BIG SHINGLE OUTPUT

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 18. —Shipments of many millions of shingles are now being made from Vancouver to San Francisco for trans-shipment to eastern United States points by way of the Panama canal.

TREND OF BUSINESS IS TOWARD IMPROVEMENT

NEW YORK, June 18.—Despatches to Dun's Review from branch offices of R. G. Dun & Co., in leading Canadian trade centres report that while there has been no great expansion in general business the trend is apparently toward improvement and confidence in the future is becoming quite pronounced.

In the far west and northwest a better feeling is becoming apparent owing to the better crop outlook.

Gross earnings of all Canadian railroads reporting to date for the first week in June show a decrease of 18.7 per cent, as compared with a year ago.

Commercial failures in Canada this week numbered 54 as compared with 61 last week and 50 the same week last year.

MONTREAL STOCK BUSINESS FALLS IN VOLUME

MONTREAL, June 18.—Prices barely moved in the regular market here today and the volume of business fell off 50 per cent compared with the previous day.

The regular market provided no feature, even the war order group being unchanged in quotations.

Business in bonds was dull. Apart from Tram Power the unlisted department provided some interest by a demand for Carriage Factory common, which recovered half of its recent 2-point reaction, selling at 34 and closing that bid.

Markets - Mining - Finance

SOME WAR SHARES RISE, OTHERS FALL

Issues Show Quality of Effervescence. Federal Mining Loses 34 Points Since Monday—Metals Lower

(By Daily News Leased Wire.)

NEW YORK, June 18.—Aside from its more irregular movements, which later gave way to general heaviness, today's stock market was largely a repetition of the preceding sessions of the week. Trading was again in moderate volume, the early hours recording a series of confusing advances and recessions. For example some of the war shares rose 1 to 3 points, with a new high record for Baldwin Locomotive at 64¾ points, while others of that class, particularly Bethlehem Steel and Lackawana Steel, were that much lower.

The effervescent quality of some of the issues, which for one reason or another have come to be ksown as war contract stocks, was illustrated in the case of Federal Mining. This stock added another 8 points to its decline of recent days, selling at 26 against 60 Monday.

Coppers were under constant pressure as was to be expected from another sharp break in the metal abroad together with indications of lower prices in the domestic market.

Ottawa sent another $2,500,000 gold to this city and London exchange stiffened on purchases of bills to that centre.

The known movement of money for the week points to another accession of cash by local banks. If today's forecast of the gain is fulfilled New York banks will show an excess reserve of $7,000,000 in tomorrow's statement.

Bonds were irregular, some of the minor issues showing material gains. Total sales, par value, $2,688,000. United States bonds unchanged on call.

LEAD MARKET IS WEAK, UNSETTLED

New York Official Quotation is 5.83. Trust Places Price at 6. Montreal is 6.74.

(By Daily News Leased Wire.)

NEW YORK, June 18.—Lead was weak and unsettled at 5.83 in New York today. The trust quotation was 6. Lead was quoted in St. Louis at 5.75. Montreal was 6.74. The price at London was £2 6d.

Spelter not quoted; London £110.

Copper dull—Electrolytic 20.25 to 20.50.

At London—Spot copper £82; futures £83; Electrolytic £95 15s.

Silver at London 23⅝; at New York 49⅛.

CAN BUY LEAD CHEAPER IN LONDON

Montreal Quotation Has Been Based Recently on Cost of Metal Laid Down at Wharf

(By Daily News Leased Wire.)

MONTREAL, June 18.—Since May 25 the laid down cost of pig lead at Montreal has been lower based on the London market than on the St. Louis market. The list below shows the daily laid down cost at Montreal, for each market day since May 25, and, for the purpose of comparison, the laid down cost at Montreal based on the St. Louis prices:

May	F.O.B. London	On wharf Montreal	St. Louis basis
25	£20 1s 3d	$5.25	$5.34
26	£20 5s 0d	$5.30	$5.34
27	£20 8s 9d	$5.35	$5.46
28	$20 5s 0d	$5.20	$5.61
June			
1	£21 10s 0d	$5.61	$6.10
2	£22 15s 0d	$5.93	$6.10
3	£23 8s 9d	$6.10	$6.22
4	£23 7s 6d	$6.09	$6.47
7	£24 10s 0d	$6.37	$6.84
8	£25 15s 0d	$6.69	$7.14
9	£26 12s 6d	$6.91	$7.45
10	£27 12s 6d	$7.16	$7.75
11	£27 17s 6d	$7.25	$8.06

NEFF OBTAINS DRAW OVER CHARLIE BURNS

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 18.—Newspaper writers gave Chet Neff of Seattle a draw with "Rough House" Charlie Burns, claimant of the Canadian lightweight championship, in their 10-round bout here tonight. Neff had a shade in the early rounds of the bout but Burns had the Seattle boy in bad shape near the close.

MILLION BUSHELS FOR NEW ZEALAND

Second Huge Supply of Wheat Purchased by Canadian Government Will Be Shipped.

(By Daily News Leased Wire.)

OTTAWA, June 18.—One million bushels of Canadian wheat will be turned eastward to Montreal during the next month from points in the west.

This is the second huge wheat supply purchased by the department of trade and commerce for the dominion of New Zealand to relieve the shortage in that country. The grain will be sacked in Montreal and loaded on shipboard for transportation to the antipodes, the ocean transportation having been arranged by the government of New Zealand.

During the winter 300,000 bushels of Canadian wheat went to New Zealand via St. John and 100,000 bushels via Vancouver.

PRINCE OF WALES EXPRESSES THANKS

Farmers' and Women's Institutes of British Columbia Donate $4,048.55 to National Relief Fund.

A letter has been received by the governor-general of Canada from the treasurer to the Prince of Wales expressing the prince's appreciation of the gift of £891 1s 5d contributed to the national relief fund, and another has been received from the colonial secretary for a gift of £500 contributed to the Belgium relief fund. Both of these gifts were made by the farmers' and women's institutes of British Columbia, and together total £891 1s. 5d. ($4,048.55.)

KIDNEY TROUBLE CURED AT 82.

Intense Power of Dr. Cassell's Tablets again Proved.

Back pains so severe as to be like knife-thrusts.

Operation said to be the only chance of Cure.

So Weak and Wasted he could hardly drag about.

Now in Splendid Health through

DR. CASSELL'S TABLETS.

Age makes no difference to the extraordinary curative power of Dr. Cassell's Tablets; they cure old or young, from the infant in its mother's arms to the white-haired grandparent bowed with the weight of years. That is the one conclusion to be drawn from the testimony to Dr. Cassell's Tablets, which grateful people in the Mother Country are constantly giving to their Canadian brothers and sisters.

Here, for example, is Mr. Benjamin de Grey, of 2, Clifton-terrace, Queen-street, Sparkbrook, Birmingham, England, telling how Dr. Cassell's Tablets cured him of acute kidney trouble when nothing else tried could even relieve. And Mr. de Grey is 82 years of age. He says:

"A few years ago I began to have a dull, heavy feeling after everything I ate, and this was very soon followed by gnawing pain across my back and other indications of kidney trouble. At all times this pain was with me, but it became sharp as knife thrusts when I had to straighten up from a sitting or stooping position. I was told it was kidney trouble. I knew that, but no sort of medicine I had did any sort of good. I cannot describe the suffering I underwent. I could not rest anywhere, and I was so

Mr. B. de Grey.

weak by this time that I could hardly drag about. I had lost flesh terribly, too. Often I was bathed in perspiration from the torture I had to endure. I would have given the world for a little relief, but nothing at all helped me.

"I was told that an operation was the only thing left for me. But at my age I did not like the idea of that, so again I took medicine, which again proved useless.

"I was worn out with pain and want of rest, when at last I got Dr. Cassell's Tablets; yet almost from the first they relieved me. I got better and better, till now I am cured and in splendid health."

Dr. Cassell's Tablets put new life and vigour into the kidneys by strengthening the nerves that control kidney action. That is why Dr. Cassell's Tablets cure even most severe cases.

LADY OF 67 CURED after 30 years' suffering.

Here is yet another instance of the intense revitalising powers of Dr. Cassell's Tablets. Mrs. Walker, of 49, Kelburn-street, Barrhead, Glasgow, Scotland, says:—

"I am glad to tell you that my mother, Mrs. Cairns, and myself have derived very great benefit from Dr. Cassell's Tablets.

Mrs. Cairns.

My mother is now sixty-seven years of age, and has suffered for about thirty years from a functional complaint which used to make her unable to move sometimes. About two months ago she caught a chill, which affected her kidneys, and laid her up altogether. She was in frightful pain all round her body, and in her back, and to move at all caused her intense suffering. We tried all sorts of things for her, but she got no better; in fact, I thought she was never going to be well again. However, reading about Dr. Cassell's Tablets, I decided to get her some, and from that time she improved wonderfully. She is now better than she has been for years, and it is all due to Dr. Cassell's Tablets. She was very run-down in health as well as suffering from kidney trouble, and the Tablets simply worked wonders.

"I have taken them myself for severe backache brought on by strain, and they soon cured me, too."

BRITAIN'S FINEST REMEDY
Popularity Now World-Wide.

The world-wide reputation which Dr. Cassell's Tablets have achieved, as a really reliable Nerve and Body Restorative for young and old, must be due to merit and merit only. Mere advertisement will sometimes ensure a reputation of a sort, but it is true worth that tells, and particularly is this so with Dr. Cassell's Tablets. This famous medicine is a true and tried remedy for Nervous Breakdown, Nerve Failure, Infantile Weakness, Neurasthenia, Sleeplessness, Anæmia, Kidney Trouble, Dyspepsia, Stomach Disorder, Wasting, Palpitation; and they are specially valuable for nursing mothers, and girls approaching womanhood. All druggists and storekeepers throughout the Dominion sell Dr. Cassell's Tablets at 50 cents. People in outlying districts should keep Dr. Cassell's Tablets by them in case of emergency. A Free Sample will be sent on receipt of 5 cents for mailing and packing, by the sole agents for Canada, H. F. Ritchie and Co., Ltd., 10, McCaul-street, Toronto, Ont.

NOTICE.

Pound District Act, and Pound District Act Amendment Act.

Whereas notice has been duly given of the intention to constitute the following district as a Pound District under the provisions of Section 3 of the above act, namely, that portion of the County of Kootenay known as Burton and comprised within the following boundaries, namely, bounded on the north by the north boundary lines of Block 8 of Lot 7695 and Block 23 of Lot 8687, Group 1, Map 845; on the west by Lower Arrow Lake; on the east by the Scalping Knife Mountain; and on the south by the south boundary of Blocks 4 and 5 of Lot 6919, Group 1, Map 923, in the County of Kootenay.

And whereas, objection to the constitution of such proposed Pound District has been received from 26 proprietors of land within such proposed Pound District;

Therefore, notice is hereby given that the majority of the proprietors of land within the above mentioned district must within thirty days of the posting and publishing of this notice, forward to the Hon. the Minister of Finance and Agriculture a petition in the form in Section 5 of the Act, or otherwise such Pound District will not be constituted.

Dated this 1st day of June, 1915.

W. J. BOWSER,
Minister of Finance and Agriculture.

NOTICE.

Tenders will be received by the undersigned up to June 25th, 1915 for the purchase of Lot 1299-S, Similkameen Division of Yale District, known as the Clevenger Ranch, situate on the Kettle river about nine miles east of Grand Forks, B.C., and said to contain 238 acres more or less, excepting therefrom right of way conveyed to the V., V. & E. Railway & Navigation company and also right of way agreed to be conveyed to the South Kootenay Water Power Co. Terms of sale cash. The highest or any tender noe necessarily accepted. Sale to be subject to the approval of a Judge of the Supreme Court British Columbia.

Dated this thirteenth day of May 1915.

DONALD M'CALLUM,
Official Administrator,
Grand Forks, B.C.

NOTICE.

Land Registry Act.

In the matter of an application for the issue of a duplicate Certificate of Title to Lot 5 and the westerly 20 feet of Lot 6, Block 81, Nelson City.

Notice is hereby given that it is my intention to issue at the expiration of one month after the first publication hereof a duplicate of Certificate of Title to the above mentioned lots, in the name of George A. B. Jackson, which Certificate is dated 27th February, 1912 and numbered 15883-A.

SAMUEL R. ROE,
District Registrar.
Nelson, B.C., 1st June, 1915.

WATER NOTICE

Diversion and Use

Take notice that B. Contini, whose address is Postoffice Box 261 Trail, B. C. will apply for a license to take and use 1-5 cubic foot per second of water out of an unnamed creek which flows south-westerly and drains into Columbia river about 3-4 mile south of Bear Creek.

The water will be diverted from the stream at a point about 1,360 feet north-east from the north-east corner of applicant's land, and will be used for irrigation purposes upon the land described as Anderson Block, portions 31 and 36, T. P. 7 A.

This notice was posted on the ground on the 8th day of June, 1915.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Nelson, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., with thirty days after the first appearance of this notice in a local newspaper.

BERNARDO CONTINI,
Applicant.

The date of the first publication of this notie is June 19, 1915.

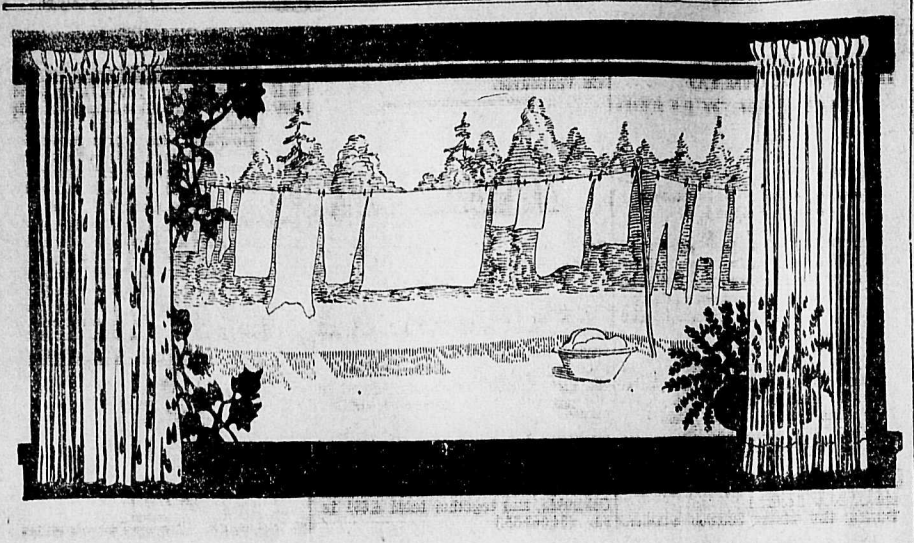
LAND REGISTRY ACT

To Thomas C. Collins, one of the owners mentioned in the Crown Grant of all minerals, precious and base, (save coal) in Lot 3586, Group 1, known as the "Free Coinage" Mineral Claim.

Take notice that an application has been made to register James Henry Grant as owner in fee simple of the above minerals under Tax Sale Deed from the Deputy Assessor of the District of Nelson, and you are required to contest the claim of the Tax Purchaser within Thirty (30) days from the first publication hereof.

Dated at the Land Registry Office at Nelson, B. C., this 17th day of June, 1915.

SAMUEL R. ROE,
District Register.
Date of first publication June 19th.



Early Morning Sunlight

YOU will find your washing finished earlier—and better—and your work will become far easier by using Sunlight Soap, for it cleanses and purifies clothes more quickly and thoroughly than ordinary soap.

Sunlight is the most efficient Laundry Soap sold on the Canadian market today—It is pure beyond compare.

You try Sunlight Soap according to directions, and you'll see the early morning sunlight shining on a line of the whitest clothes that ever spoke of housewife's pride.

Sunlight Soap

It's kind to the hands.
Follow directions.
Sold at all grocers.

A $5,000 guarantee says there is not a particle of adulterant or impurity in Sunlight Soap.

MANY MEN ENLIST FROM RAILROAD

Canadian Pacific Railway Train and Boat Service Well Represented Among Soldiers.

Railway men from this district have figured largely in the contingents which have been made up since the war broke out. From both the railway and the steamer branches of the Canadian Pacific railway a number of men have enlisted. Some of those who went with the first and second contingents have lost their lives, others have received wounds and some are prisoners. R. H. Campbell, who acted as checker at Smelter, was wounded and invalided home in April and rejoined the forces with the 54th battalion and is now in camp at Vernon. C. Dennehy, a rodman in the engineering department at Nelson, has been reported killed, and Leslie C. Smith, also in the engineering department, was recently reported wounded and missing.

Frank Paddon went to England and joined the Royal Fusiliers during the early stages of the war and has since received a commission. Others who were on the railway staff are:

H. T. Hume, trainman, of Nelson; G. Phillips, trainman, Nelson; A. F. Cleeton, shed foreman at Rossland, reported missing; William Wellspring, fireman, Nelson; A. H. Euerby, fireman, Grand Forks, with the Royal Field artillery; John Kelly, fitter, Nelson, joined the British Columbia horse; H. R. Maynard, clerk in the superintendent's office. Those who are in the ranks of the 54th battalion at Vernon are: R. J. C. Halliday, fireman, Nelson; John Pike, fireman, Nelson; L. W. Humphrey, engineer, Nelson; W. E. Euerby, fireman, Grand Forks, a younger brother of the Euerby whose name appears in the preceding list; A. Beer, fireman, Grand Forks; E. Kinnahan, switchman, Nelson; Thomas Horner, section foreman, Kaslo; L. A. Gillis, wiper, Kaslo; D. J. McLennan, bridgeman, Nelson; John Lowen, boilermakers' apprentice, Nelson; — Silverton, bridegman, Nelson, and Conn Harkness, trainman, Nelson.

The boat service department has also supplied a number of men, ranging all the way from pursers and mates to coal passers. Those who left with the first contingent, or went to England to enlist there, are: E. Bonnier, engineer on the Arrow lakes service; T. Fleming, engineer on the Okanagan, joined the Canadian navy at Halifax; H. Hughes, fireman, enlisted in England; J. Hurst, purser on the Kokanee, prisoner of war; W. G. Mellon, clerk, enlisted in England; B. C. Higgins, engineer; G. S. Rees, chief clerk in the Nelson office, enlisted with Frank Paddon in England; H. Gordge and T. Barnett, both waiters on the Okanagan; A. McLeod, stevedore on the Arrow lakes; J. W. West, deckhand.

A number of others left later with the 54th battalion. They are: A. Thomas, waiter on the Kuskanook; F. W. Broughton, mate on the Kuskanook, Nelson; D. J. Morrison, mate on the Minto, Arrow lakes service; W. H. Ahier, second engineer on the Slocan, Slocan lake service; W. J. Wilson, deckhand on the Kootenay, Arrow lakes service; F. W. Nilson, fireman on the tug Valhalla, Kootenay lake freight service; P. S. Dewar, deck hand on the Slocan, Slocan lake service; A. Watson, purser on the Kootenay and Arrow lakes service; H. Andrews, deckhand on the Kokanee; J. H. Masters and J. H. Donaldson, coal passers on the Kootenay, Arrow lakes service.

QUEEN OF ITALY FOR WAR; DEFEATED BOSS GIOLITTI

She Is Daughter of King of Montenegro and Worshipped by King of Italy.

ROME, May 26 (by mail)—Behind the diplomatic plots and counterplots which have placed Italy in the most precarious position of its recent history a struggle had been going on which was not chronicled in the nation's green book. It was the struggle between a man and a woman.

The man was Giolitti, former prime minister, who at the "thirteenth hour" plunged Italy into a surging sea of neutralism, a coup d'etat culminating his work of nine long months.

The woman was no other than Queen Helena herself—the queen of Italy, the princess of Montenegro, who has been using all her influence over the king to counteract the machinations of Giolitti, the neutralist.

Queen Longed for War.

All the world knows that to the king of Italy the dearing thing in all the world is this beautiful Montenegrin princess, the daughter of the indomintable King Nicholas. All the world does not know that this same queen and princess of Montenegro has from the first hour of the nation's indecision longed and prayed for the moment when Italy would join forces with the allies. For her country by marriage to take up arms against her father's country to fight against national freedom, to aid the destroyers of Belgium, the would-be destroyers of Servia, has been a tragedy hanging over the head of the lovely queen.

To just what extent the pleading of Queen Helena have infuneced Victor Emmanuel in the hours when the German-Austro-Italian accord seemed imminent no one knows.

King's Love Decides Fate.

Love of a woman has decided the fate of nations many times, and the Italians, who realize the perfect love existing between the king and queen of Italy, do not believe that Victor Emmanuel could wound her whom he adores most in all the world.

While diplomats were working for the fall ,or the reforming of the cabinet, according to their desires, the woman's direct and honest influence was at work in the Villa Sovoia. Never tiring of giving her moral support to the king in the dark hours when he was beset with innumerable visits from conflicting diplomats, the queen sounded her one demand:

"For the love of humanity let Italy enter the war against Germany."

The queen's sentiments known to all the Italian people have endeared her to them more than ever this princess whom Victor Emmanuel married for love. Italy's entrance into the war means the triumphs of a woman's love based not upon selfish interests, but upon devotion to the "patria and to humanity."

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by the Poole Drug Co., Limited or any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

ONE CANADIAN BODY MAY BE BROUGHT FROM FRONT

LONDON, Ont., June 18.—The body of Lieut.-Col. Campbell Beecher of this city, commander of the 7th Fusiliers, 1st battalion, who has been killed in action in France, may be brought home for burial despite the standing regulations against such procedure. In response to inquiries, Gen. Hughes wired relatives here today that he had cabled instructions to the front with a view to having the body of the London officer located and brought back to Canada for burial.

COULD PITCH WELL WITH EITHER ARM

Ambidextrous Hurlers, However, Have Been Very Scarce in History of Baseball.

Followers of baseball have often heard of the fellow who could pitch a ball with either hand and made it curve also, but very few have seen one of these pitching freaks, says an eastern exchange.

Baseball history tells of a chap named Owen Keenan, who pitched for Youngstown, Ohio, in 1885. Keenen could pitch equally well with either arm. On the 4th day of July of that season this wonder pitched two games of ball against New Castle and beat that team in both contests. He worked his left arm in the first game and used his right wing in the second contest, with the odds slightly in favor of the right whip.

The famous Larry Corcoran of the Chicago team in the early 90's was one of the great hurlers of the period. Larry lost the use of his wonderful right arm during the season of 1885. This almost broke his heart, for Larry was not old in years. It dawned upon him that he was always clever at throwing with his left hand and used to practise frequently. In the season of 1886 Corcoran signed with a southern league as a left handed pitcher and reported for practice as such. He worked hard to gain control, for he developed rare speed. Larry pitched a few exhibition games and in one of them he kinked his remaining wing so badly that he was released, so he had to quit the game, for he had run out of pitching arms.

Windham, originally a right-handed pitcher, lost the use of his pitching arm through an accident. He made a shift and began practising with his left arm. He was very successful and made a splendid record with the Worcester team of the Easton league during 1903, so good, in fact, that he was signed with the St. Louis Americans for the season of 1904. However, his pitching from his right side was not natural for him, and instead of his arm getting stronger and better he weakened his whole left side and finaly had to give up pitching.

So the ambidextrous hurler is more or less of a myth. The pitching game is too strenuous for any kind of an arm but the good natural wing.

The Winnipeg Tennis association will hold the Canadian Western Tennis championships at Winnipeg on July 1. The association went on record in barring all enemy aliens from participation in the events.

COOMBS IS AGAIN A STAR PITCHER

After Being Released Outright by the Athletics Makes Good as Heaver for Brooklyn

BROOKLYN.—Up out of the misty murk of oblivion emerges one Jack Coombs, former world's series star, and long the mainstay of the Athletics' great pitching staff in their palmy days. With Squire Ebbett's Brooklyn Trolly Dodgers, ably manned by Your Uncle Wilbert Robinson, Coombs is once more battling his way over the rough roads that lead to fame and glory.

Released outright by the Athletics and generally regarded as being one of baseball's "has beens," the "iron man" of other days has flashed a brand of twirling in the National league this season that bids fair to put him at or near the top of the circuit's winning hurlers. Robinson has sent him to the mound several times this spring, and to date the ex-Athletic has turned in more victories than defeats. His victories have been hard won battles, too, his team mates making but two and three runs behind him.

Coombs' return to the top of the heap is one of the most remarkable ever recorded in the annals of baseball. The big twirler severely wrenched the muscles of his back in a world series battle while with the Athletics. At that time it was thought he was through for all time as an athlete. But Coombs was determined to stick in the game. He employed specialists to work on him and a "harness"—something on the order of a steel jacket, was rigged up for him. Wearing this he was able to work on the mound though under great difficulty.

The injury made itself manifest in his work, however. He twirled lots of good games, but he couldn't pitch with the effectiveness that had once marked his efforts Connie Mack was loath to let him go, and it was not until last fall, when he "cleaned house" for fair, did the Athletic manager part with him.

Coombs, then a free agent, went to Manager Robinson of the Dodgers. To him he made the proposition that if he didn't return to his old form his services were not to cost a cent. Judging by his work so far Coombs is meeting the Dodgers' paymaster regularly.

CANADIAN CLUBS STAY IN CIRCUIT

Arrangements Made Whereby Vancouver and Victoria Northwestern Teams Will Receive Support.

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 18.—After indications that the Vancouver and Victoria clubs might withdraw from the Northwestern league owing to indifferent support, satisfactory arrangements have been made in both cities whereby the clubs will be carried for the balance of the season. President Blewett and Owner Dugdale of Seattle made hurried trips to the Canadian cities and following several conferences with different organizations sufficent backing was secured to insure the teams filling out the schedule. The Victoria club is now being carried by the league.

TRAVERS WINS OPEN GOLF PROFESSIONAL HONORS

(By Daily News Leased Wire.)

SHORT HILLS, N. J., June 18.—Jerome D. Travers, four times former amateur champion, won the national open golf championship here today with a score of 297 strokes for the 72 holes. Tom McNamara, Boston professional, was second.

BASEBALL RECEIPTS IN THE OLDEN DAYS

That the high cost of baseball is not confined to the present is proved by the report that the Boston club of 1875. The figures of 40 years ago show that the expenses of the team for the season were $34,509.99, and the receipts $37,767.06, leaving a profit of $3,261.07, which was less than 10 per cent. of the gross receipts.—Vancouver World.

FIRST LETTER TO COME FROM CAMP

Mud in Baker Street, Canvas-Town, Sticks Like Glue—Troops Encamp in Rain.

The following letter, written by Sidney McDonald to a friend in Nelson is among the first to come from from the camp at Vernon. He says: "This is sure a great life. We are up at 5:30 o'clock, and have physical drill for 45 minutes, breakfast at 7 o'clock, then drill from 8:30 until 11:30; dinner comes at noon, and drill again from 1:45 until 4:30 o'clock.

"The food is pretty good, considering. Some of the boys have been given out fatigue suit. Andy Stuart and Evans look like a couple of old farmers. They have overalls and shirts to match, and big straw hats. You would hardly know the rest of us, we are all sunburnt. The second day here I met Lindsay Macintrye and W. Fish, who was with he Daily News at one time. He is with B company, from Golden. Macintyre is with the 47th battalion.

"There are all kinds of mascots here—a goat, a crow, a St. Bernard dog and two other dogs and the bear of the gallant 54th. When we arrived and got to camp it began to rain, and we had to stand in the wet until we got our blankets. Talk about mud—Baker street, as we have named our row of tents, is simply fierce. You would imagine you were walking in slush, only it sticks to you like glue."

John Bull: "Huh! Zeal for the Empire not visible."

THE PRESS AND THE WAR.

Speaking to the members of the Newspaper Press Fund in London on May 7th, Mr. Lloyd George said journalism had in some respects been hit by the war. So had all the enlightened professions, including that of the law. He believed there had been a heavier draft upon the resources of society than usual during the past few months, and he thought it was a good thing, amidst the horrors, the cruelties, and he might add the infamies—(hear, hear) perpetuated in this war, to know that kindness, sympathy and tenderness for the unfortunate had not altogether been quenched from the human heart. "The press never had a greater responsibility cast upon it than at the present time," went on Mr. Lloyd George. "It is not for me to engage in any lecture on the functions of the press. I don't mind criticism myself—in fact, I rather miss it. I am so accustomed to it that I take it there is something wrong with the weather if it is not forthcoming, and therefore I do not mind very much the press engaging in a little criticism." But after all, the function of the press in this great struggle was a very exalted one. It was to inform the nation, to sustain the nation, to stimulate the nation, to inspire the nation.

"It was a war of nations. It was nations that would win. It was nations that would lose; and it was the heart of the nation that had got to be kept right, and there was no more potent agency for that purpose than the press. "There will be, there must be in a great war, some moments of weariness and boredom. It is the great function of the press to sustain the courage and spirit of the people, and carry them through, that they shall endure to the end. For in this war it is the nation that endures to the end that will win.

"How long will the war last? That is a question asked me repeatedly. That question was put to Abraham Lincoln in another war, full of triumphs and vicissitudes, full of moments of depressions; and this is the answer. 'When will this war end?' said some one to him, and his answer was 'We accepted this war for an object, a worthy object and this war will end when it is attained.' (Loud cheers.) And," added Mr. Lloyd, "this must be the sentiment of every true-hearted Britisher today. Under God, I hope it will never end until that time comes." (Cheers.)

The donations to the fund amounted to £3,350.

OFFICIAL NOTICE TO BEE KEEPERS

Care Should Be Exercised to Prevent Spread of Foul Brood, Says Department of Agriculture.

The department of agriculture at Victoria has issued a notice with regard to "foul brood in bees." It states that this question is one which is giving rise to some uneasiness among the officials of the department, and should be considered seriously by all bee keepers in the province. The notice says:

"Foul brood, the highly contagious germ disease affecting bees, having made its appearance in different parts of this province it is important for the welfare of the growing industry of beekeeping that all beekeepers should exercise every possible care to prevent its spreading. It is also advisable that all persons intending to buy bees should write to the department of agriculture, Victoria, or to one of the provincial apiary inspectors, (1) Mr. L. Harris, Vernon, for the Okanagan district; (2) Mr. F. Dundas Todd, Victoria, for the lower mainland and Vancouver island; (3) Mr. W. J. Sheppard, Nelson, for the Kootenay and Boundary districts; for information as to where the danger exists. The inspectors will be prepared to examine and report on hives it is proposed to move from one district to another."

SOLDIER IN INDIA WANTS NEWSPAPERS

Kootenay-Boundary Man Serving in Lahore, Expresses Wish for Canadian Local Newspapers.

The following letter has been received from Corp. H. Ellis, 6th Devon regiment, stationed in Lahore cantonments, Punjab, India. Ellis is an old Kootenay-Boundary man, and is anxious to keep in touch with old friends in this district. He says:

"Allow me through your valuable columns to ask any of your readers if they would care to exchange Canadian newspapers for Indian photographs. There are several men serving in this regiment who have spent some time in B. C. and still have interests in the Kootenay, including myself.

"So if any of your readers would care to exchange they would help us to pass the next three hot months more quickly, as we hope to move to France in the early fall."

GET MUCH LINEN FOR HOSPITALS

Imperial Order Daughters of Empire Holds Successful Canvass of City Will Meet Monday.

The Imperial Order Daughters of the Empire was very successful in its canvass of the city yesterday for old linen and woolen goods, which will be used in making hospital supplies, gathering an amount which fully came up to the expectations of the order. The cloth was gathered in an automobile, which it was found necessary to empty five times.

The order passed a vote of thanks to the women who made donations. The sum of $10 donated to the association by Mr. Justice W. A. Macdonald was acknowledged.

A meeting of the order will be held Monday afternoon in the McCulloch block at 4 o'clock at which the women will work on the linen.

Arthur Lakes, jr., of the Wilcox mine, Ymir, is a guest at the Hume.

W. S. Hawley of Spokane is making a visit to the city on mining business and is a guest at the Strathcona.

The Fairview-Hume Improvement association will meet to adopt a constitution and bylaws Monday night at 8 o'clock in the Hume school. This will be an open meeting to all residents of Fairview.

G. N. BARNES TO COME TO NELSON

Letter From Labor Man Read at Meeting of Unemployed—Delegate for Vancouver Leaves.

zAt the meeting of the unmeployed labor men held last night in Miners' hall, to receive the applications of the men who wish to obtain work in the British munition factories, a letter from W. Wyndham, of the British mission of enquiry, armament labor supply, was read, stating that George N. Barnes, M.P., would visit Nelson on his way east fro mthe coast, but that it might three weeks before the party including Mr. Barnes would reach the city.

The chairman, W. Moulton, raised the question as to whether in view of the fact that Mr. Barnes had decided to visit Nelson, John Notman, the delegate, should go to Vancouver to see him, but went on to say that if he did so, he would be able to get a great number of facts which would be of vital importance to the men who were anxious to know whether there would be a chance of men other than those specified in the official note, being employed.

H. M. Corbett pointed out that the money advanced by the city was given for the purpose of sending a delegate to urge Mr. Barnes to come to the city, and that it would not be fair to use it now that he had signified his intention of coming, without consulting the mayor. He also said that if it was found to the advantage of the men and Mr. Notman were sent he would be able to urge upon certain parties in Vancouver—with a reasonable hope of success—the necessity of giving work to the men who will not be engaged for the British factories.

It was unanimously agreed that Mr. Notman should be sent to Vancouver, and it was suggested that if the consent of the mayor could not be had to spending the money in this cause, they should make an effort to raise the money by private subscription.

The mayor not being present, the secretary telephoned to him, and he arrived in a few minutes, and the question was put to him. In reply he said he left sure that had the letter been received previously to the meeting of th city council, at which the money was granted, and had it known that Mr. aBrnes would visit Nelson, the money would not have been given; but i fthe men felt that it was in their interests to have Mr. Notman go to Vancouver, the city would be perfectly willing for them to use the money for that purpose. The men voted to send Mr. Notman and he will leave tonight.

Sixty applications have been handed in from Nelson and the immediate vicinity and a number of others have been sent directly to Vancouver. The secretary urged upon all present to notify their friends who purpose sending in applications of the necessity of having them in his hands in tme to catch the Monday mal to the coast, and that if that were impossible to send them addressed to John Notman, postoffice, Vancoluver, to reach hi mnot later than Wednesday, June 23.

KOOTENAY AND BOUNDARY

ROSSLAND MAN IS GIVEN ADDRESS

H. B. Crow Honored on Departure for Montreal—Social Evening Held —Friends Make Presentation

ROSSLAND, B. C., June 18.—A social evening was given in St. Andrews Presbyterian church hall tonight for H. B. Crow, who leaves Saturday morning for Montreal, where he will join the staff of the Montreal Herald. Rev. Mr. Robertson of St. Andrew's church acted as chairman and a short program was given as follows:

Solos by Miss Anna Smith, Miss Lois Gamble and Mrs. F. E. Armstrong; reading by C. W. Steele, and impromptu speeches by J. T. Moir, Chief W. J. Devitt, C. B. Smith, Rev. Mr. Barlow and J. B. Robson. The evening's entertainment closed with the singing of "Auld Lang Syne."

Mr. Crow has lived in Rossland for the past two years and as a mark of the high esteem in which he was held his friends presented him with an address in which he was paid high tribute for his untiring efforts on behalf of the welfare of every branch of the church work in which he had interested himself. As a member of the Young People's society, as a member of the session, as a Sunday school worker and outside the church in his daily lie as a citizen the address expressed high praise and commendation.

H. H. Johnson read the address and W. F. O'Neill made the presentation.

MISSING SOLDIER FOUND IN RIVER

Frank Curtis, Who Disappeared May 28, Drowned Near Granite—Watch Stopped at 10:30 O'Clock

Jammed between two logs near the river bank just below the Canadian Pacific railway bridge at Granite, the body of a man, which has since been identified as that of Frank Curtis, who disappeared from Nelson on May 28, was found by Tom Palermo and Charlie Maccagno. The provincial police department at Nelson was notified and Constable King, accompanied by Coroner W. O. Rose, at once went out, and had the body brought into the city on the coast train.

The body was found lying face downward between two logs in a few inches of water. It was badly battered through having been in the water among the rocks for some time before being washed up on the shore. In the shallow water close by was found the dead man's watch, which had stopped running at 10:30 o'clock and it is supposed that the watch was jarred out of the pocket when the body was washed up between the logs.

When last seen Curtis was walking west along the Canadian Pacific railway tracks just outside the station at about 5 o'clock on the afternoon of May 28. When he failed to return to Nelson every effort was made by the provincial and civic police to locate him. Every town and station on the railway line was notified, but without success.

Coroner Rose states that the body must have been in the water for several days before it was washed up on the bank where it was found. It has been suggested that it was wedged between the rocks below the rapids and only came to the surface recently, which would account for it not having been found before.

Curtis was born in Brighton, England, and came to Nelson about nine years ago. He was employed on extra gangs of the Canadian Pacific, doing bridge and mason work. When recruiting for the 54th battalion began, he was one of the first to enlist. His nearest relative is Mrs. F. J. Barnard, Brighton, Sussex, England. No arrangements have yet been made for burial. Coroner Rose pronounced an inquest unnecessary and gave as his verdict: "Death by drowning through misadventure."

RECRUITING AGAIN BEGINS IN NELSON

Two Applicants Fill Out Attestation Papers—Recruiting Depot at Capt. L. E. Borden's Office.

A recruiting depot has been established in Nelson at the office of Capt. L. E. Borden, Baker street, who has been appointed to pass on the fitness of applicants for enlistment and then send them on to the camp at Vernon at the expense of the government. Capt. Borden is at present awaiting further instructions from headquarters regarding the number of men who will be needed from this district, but in the meantime he will continue his examination of recruits, and take their attestations. Two men entered their names and were examined yesterday. Four men were passed before the 54th battalion left Nelson and who have been on leave, will go on to Vernon tonight.

A large number of men are wanted.

VILLA STATES HE IS READY FOR PEACE

Willing to Make Agreement With Carranza—Replies to American Warning.

(By Daily News Leased Wire.)

WASHINGTON, June 18—The United States government was informed today in a note from Francisco Lagos Chazaro, president of the Villa-Zapata convention government at Mexico City, that if President Wilson's recent statement warning the Mexican factions to compose their differences should signify "pressure or threat" the conventionalist government, "still harboring the conscience of its sacrifices, will maintain the dignity of the Mexican people."

The communication, transmitted by the Brazilian minister at Mexico City, states, however, that the convention continues "to conjecture that the general idea of the government of the United States is to help us in a friendly way to bring to an end our fratricidal struggle, which would be for the greatest good of the country," and declares a willingness to make peace with the Carranza faction.

As yet no definite word has been received from Carranza.

CHAMPION DEFEATS LUSTIG

NEW YORK, June 18.—Freddie Welsh, lightweight champion of the world, easily outboxed Johnny Lustig of Brooklyn tonight in their 10-round bout. Welsh weighed 136½ pounds and Lustig 137.

CROSS LOSES TO DUNDEE

BROOKLYN, June 18.—Johnny Dundee had the better of Leach Cross in their 10-round bout in the open Athletic baseball field at Brooklyn today. Dundee had eight out of the 10 rounds and had Cross bleeding from the nose and mouth after the fifth round. Dundee weighed 130 and Cross 136 pounds.

ACQUITS MANAGEMENT OF BLAME FOR DISASTER

(By Daily News Leased Wire.)

VANCOUVER, B. C., June 18.—The coroner's jury which inquired into the mine explosion at Nanaimo tonight brought in a verdict stating that the cause of the men's death was an explosion which was the fault of no one and that everything possible had been done by the mine management to render the mine perfectly safe.

Picture Dealer (showing a Raphael)—The painter died at 38.

Real Wonder-Worker For Wrinkled Faces

Those who have tried all sorts of so called "wrinkle-removers" in a vain effo to lose those unwelcome traces of ag illness or worry, can scarcely find word to express their delight with the wonde ful saxolite formula, once they have give it a trial. The success of this method i due not alone to its marvelous effectiv ness—upon the deepest lines and crow feet, as well as upon the very fine ones but also to its surprisingly quick actio and its entire harmlessness. Its simplic ity and its inexpensiveness are other con mendable features, for one needs only di solve an ounce of powdered saxolite in half pint witch hazel, and bathe the fa in this solution. At once a remarkal transformation is beheld.

It is not only the effect on wrinkles a creases that is so noticeable, but fac contour is remarkably improved and t face looks much younger. One should sure to ask the druggist for the powde saxolite. The lotion, being so refreshi is particularly grateful to tired faces th warm, depressing days.
