TEUTONS BATTER WAY TO ROVNO--PETROGRAD LINE

Mass of Artillery Forces Russians to Lakes

GERMANS FORCED BACK IN GALICIA

Admit Muscovite Victories Have Compelled Them to Retreat

(By Daily News Leased Wire.)

LONDON, Sept. 13.—By one of those battering offensives which, although costly in men and munitions, have invariably been successful, Field Marshal von Hindenburg's army has at last set foot on the Rovno-Petrograd railway between Vilna and Dvinsk. The whole Austro-German front has been striving to gain this railway since the fall of the Polish fortresses.

The offensive, which began toward the end of last week, was carried on from three directions upon Dvinsk and the railway on either side of the town, while further south the invaders advanced toward Vilna. The Russians, before superior forces, supplied with the usual mass of artillery, were yesterday forced back to the lake district which the railway penetrates and are now making a stand there. Simultaneously the Germans made their way eastward toward Slonim and Pinsk, both of which are on roads which join the main railway line, while the Austrians, with whom there are many German units, are fighting hard to reach Rovno, the southern terminus of the line.

Teutons Admit Galician Defeat

With this railway partly in the hands of the Germans it is probable that the Russians will be compelled to make a further retirement, although their offensive in Galicia, which continues, might save them by compelling the Germans to send reinforcements to this region.

There is now no doubt of Russian successes in this district, as following the Austrian admission of their retirement the Germans tonight announce that after repulsing Russian attacks they occupied "favorable positions situated some kilometres west of our former position."

The conditions under which the troops are fighting in the marshy country in the centre and on the southern end of the line are described by German correspondents as most terrible. The country is practically under water everywhere, through which the Germans have to advance against well prepared Russian positions.

Russians Take 30,000

The eastern bank of the Sereth, from which the Russians are delivering their counter-attacks, is a veritable fortress, from which the Russians emerge every time their opponents approach, taking toll of them in killed, wounded and prisoners. According to the Russian accounts nearly 30,000 prisoners have been taken in the fighting along the eastern front.

Fighting Is Desperate.

PETROGRAD, Sept. 14.—The following official communication was issued last night:

"In the Riga and Friedrichstadt districts no essential change has occurred. On the front of the lower Kau and northwest of Mitau there have been minor engagements between small detachments.

"The artillery duels have appreciably increased in intensity from Linden as far as 14 miles northwest of Friedrichstadt.

"Desperate actions continue west of Jacobstadt and in the districts of Laos, Pinstern and Sanken. To the west and southwest of Dvinsk we have been carrying out vigorous offensive engagements in the district of Abel and Uziany and further south the fighting has been characterized by great desperation.

Enemy Reaches Railway.

"Near the station of Novo Sventsiany

SANTA ANNA LINER IS SAFE

(By Daily News Leased Wire.)

NEW YORK, Sept. 13.—The Fabre line steamship Santa Anna, which was on fire in mid-ocean, is safe and proceeding under escort to the Azores, according to a wireless message received at the lines' local office today.

MAY APPOINT IRISHMAN TO ST. BONIFACE DIOCESE

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—The question of a successor to the late Archbishop Langevin in the diocese of St. Boniface is engaging the interest of ecclesiastical circles in the east and especially in Ottawa, the seat of the papal oblegate, Mgr. Stagni. It is rumored in some quarters that an Irish Catholic would be appointed to succeed the late archbishop, who, it is felt, was unsuccessful in binding together the two elements in his diocese, the French and the English speaking Catholics.

The name of Bishop Mathieu of Regina is mentioned but it is doubtful whether he would consider the appointment a promotion, though it carries with it the title of archbishop.

MALE GERMANS RESTRICTED FROM LEAVING COUNTRY

(By Daily News Leased Wire.)

AMSTERDAM, Sept. 13.—The Handelsblatt learns that all males from 17 to 45 years of age have been prohibited from leaving Germany. Some who attempted to leave have been turned back at the Dutch frontier stations.

WHEAT AVERAGE NEAR 20 BUSHELS

Saskatchewan Department of Agriculture Makes Preliminary Estimate of Yield of Grain

(By Daily News Leased Wire.)

REGINA, Sask., Sept. 13.—The outstanding feature of the special weekly report of the Saskatchewan department of agriculture is the preliminary estimate of the yield of grain. The estimated average yield per acre of wheat and oats in the various districts will be found below. A preliminary estimate of the barley production for the province based on the average of 32.8 bushels per acre gives a total yield of 8,792,097 bushels, while the flax production will be approximately 5,000,000 bushels.

The cutting of wheat, oats and barley is completed in many districts but wet weather during the latter part of the week has interfered with threshing operations.

The temperature has also been considerably lower and frosts are reported.

Wheat yield for the province is: Acreage, 6,888,874; average yield, 19.38; total yield, 133,490,027 bushels.

Oats—For the province, total acreage, 2,846,949; average yield, 40; total yield, 113,848,821 bushels.

RAILWAY COMPANIES WELL PREPARED TO MOVE GRAIN

(By Daily News Leased Wire.)

WINNIPEG, Sept. 13.—H. N. Baird of Baird & Botterell, grain exchange operators, on returning from a tour of Saskatchewan and Alberta stated that cutting is practically finished and that the crop is wonderful. Threshing is general in Manitoba and eastern Saskatchewan but not in western Saskatchewan and Alberta. The railway companies, he says, are in excellent shape for handling the grain and soon there will be a tremendous movement eastward.

REACHES FRANCE.

(By Daily News Leased Wire.)

LONDON, Ont., Sept. 13.—A cable received here today from Capt. Gordon Cooper of the 4th Ontario brigade of the second contingent announces the brigade's arrival in France.

This brigade comprises the 18th battalion, mobilized here, the 19th and 20th of Toronto, and the 21st of Kingston.

ASKS DISAVOWAL OF ARABIC ATTACK

United States Also Demands Reparation

MAY ARBITRATE ON QUESTIONS OF FACT

Berlin Says Commander Who Fired at Orduna Violated His Orders

(By Daily News Leased Wire.)

WASHINGTON, Sept. 13.—Conferences today between President Wilson and Secretary Lansing and between Secretary Lansing and Ambassador von Bernstorff brought the situation growing out of the German submarine activities to the following status:

1. The German ambassador has been furnished with the evidence of officers and survivors of the Arabic, all agreeing that the liner was proceeding peacefully when torpedoed without warning and has been advised that the United States desires a disavowal of the attack and reparation for the American lives lost.

2. The evidence will be sent by Count von Bernstorff to the Berlin foreign office, to which it has not been available before.

Would Arbitrate

3. The United States has all information on the case as it now stands at hand and is ready to decide upon its course, but action may be delayed until Coun von Bernstorff has had time to exchange communications with his government.

4. While the United States will not consent to arbitration of a principle, nor of a question involving the safety of American lives, it has accepted Germany's assurances that peaceful liners will not be torpedoed without warning, and if Germany desires to arbitrate the amount of indemnity and the question of whether the Arabic actually attempted to attack the submarine and whether its action justified the submarine commander in believing he was about to be attacked, that probably would be agreed to.

Germany's explanation of the unsuccessful attempt to destroy the Orduna July 9 is that the submarine commanded violated his instructions, which were not to attack any liner but that because of the weather he was unable to make out the character or nationality of the Orduna.

CANNOT SEND CANADIAN PARCELS TO MEXICO

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—The postoffice department announces that owing to the unsettled conditions in Mexico no opportunity for the despatch of parcel mails for Mexico has occurred for some time past. Parcels now held by the department will be sent forward at the first available opportunity but it is not known when one is likely to occur.

The parcel post service to Russia, via England, Norway and Sweden, has been supended but the service via England and Sweden is still open and there is now a direct sea service from England to Archangel.

WAR FINANCES TO BE CONSIDERED

British Parliament to Discuss New Taxes—Cabinet Said to Be Divided on Conscription

(By Daily News Leased Wire.)

LONDON, Sept. 13.—The session of the British parliament, which opens Tuesday, will be chiefly occupied with arranging the finance of the war. This will include the levy of new taxes. However, under the British system, whereby ministers can be questioned and debates raised, many other matters will be discussed. Compulsory service is certain to come in for consideration and on this the cabinet is said to be divided.

BULGARIA CALLS IN RESERVISTS FROM ITALY

ROME, Sept. 13.—All Bulgarian reservists in Italy have been recalled to the colors. Transportation expenses are being defrayed through the legation here.

CLAIM TRUST LOSS $6,250,000

(By Daily News Leased Wire.)

VANCOUVER, B.C., Sept. 13.—Solicitors for Andrew Stewart, liquidator for the Dominion Trust, today filed their statement of claim against former directors of that concern, alleging misfeasance and claiming the return of $6,250,000 alleged to have been improperly invested and lost. Against this the liquidator has securities valued at several hundred thousand dollars but it will take a long time to realize on ther

BELGIAN RELIEF STEAMER SUNK?

(By Daily News Leased Wire.)

LONDON, Sept. 13—A despatch to Reuter's from Muiden, Holland, says:

"The steamer Pomona reports that at 10 o'clock yesterday morning it witnessed the sinking of a British steamer which was flying the signals of the Belgian relief commission. Ten members of the crew were rescued by steam trawlers."

The staff of Herbert C. Hoover, chairman of the American-Belgian relief commission, is investigating the report but has not been able as yet to confirm whether one of the commission's steamers has been sunk.

ITALIANS WIN ON UPPER ISONZO

Attempt of Teutons With Armored Trail to Rush Defenses Is Failure

(By Daily News Leased Wire.)

ROME, Sept. 14.—The following official statement was issued last night:

"On the plateau to the northwest of Arsiero the enemy's artillery persistently shelled our positions near Monte Maronia throughout the night of Sept. 12 but without any result.

"During the same night enemy forces made two attacks on our lines in the upper Rienz valley, but was repulsed on both occasions.

"On the upper Isonzo front our troops attacked strong positions still occupied by the enemy on the eastern slope of the Plezzo basin and acquired results notwithstanding the difficulties of the ground and the desperate resistance of our adversary, who was supported by numerous batteries.

"In the Plava zone enemy detachments brought from Morizia on an armored train attempted on the night of Sept. 12 to rush our trenches south of the Zagora tunnel. The tenacious defense of our troops and a few shots from our mountain artillery repulsed the assailants."

Repulse Italians, They Say

VIENNA, Sept. 13.—A war office report says:

"Italian theatre: Fighting in the regions of Flitsch, Plezzo and Tolmino continued yesterday with undiminished violence. All attacks were repulsed with severe Italian losses. In the region of Flitsch a hostile attack in the forenoon and an attempt in the afternoon near the slope of Rombon were unsuccessful. The enemy brought troops from the southwest against Javorcek and Golobar-Planina in the evening. This attack was also repulsed. The Italian artillery bombarded its own infantry with visible effect.

"In the Irsic region, where the enemy lost 500 men in an attack on Saturday, they yesterday afternoon made another attack which miscarried. The Italians attacked the bridgehead at Tolmino four times without result. Further southward quiet preaviled on the Tyrolean front.

"A renewed attack on our positions at Popena was without result."

GREAT ARTILLERY BATTLE CONTINUES

German Infantry Thrown Back When It Attempts to Storm French Positions.

LONDON, Sept. 13.—The preparations in the west are marked by the continuance of the great artillery battle from Belgium to the Argonne. A duel between guns of all colibres along the entire front has now been going on for nearly three weeks and during the weekend violent attacks around Arras and in the Argonne and Champagne have taken place. At several points the German infantry, after a heavy bombardment, attempted to storm the advance trenches of the allies, but the French report says that these attacks failed.

Cannon Disperse Infantry.

PARIS, Sept. 13.—The following statement was issued last night:

"Cannonading continues along the Yser as well as to the north and south of Arras, in the sectors of Neuville, Rolincourt and Wailly. To the north of the Oise our artillery has carried out a destructive fire on the organizations of the enemy and the works at Beuvraignes.

"Several groups of German infantry have been again dispersed before Andechy.

"On the canal from the Aisne to the Marne, we have violently bombarded the trenches, batteries and contonments of the enemy in the environs of Sapigneu and Neuville, near Berry au Bac. Artillery actions and bomb fighting have occurred in Champagne, in the Argonne and between the Meuse and the Moselle. There has been an intermittent bombardment in the Vosges, to the east of Metzeral and Sudelkopf.

Aeroplanes Hit Station and Bank.

"In retaliation for the recent bombardment of Luneville and Compiegne by aeroplanes a squadron of 19 aeroplanes flew over the town of Treves this morning, dropping about 100 shells. The station and the Bank of the Empire were undoubtedly reached.

"The squadron, after having returned to its base in the afternoon dropped 58 shells on the station of Dommary and on Baroncour.

"Other aeroplanes bombarded from a low altitude the stations at Donaueschingen, on the Danube, and Marbach. In one region where the movement of troops were reported the efficacy of our fire against the objects aimed at was established, including a train in transit, which was obliged to stop."

BULGARIA HAS NOT MADE PACT

No Political Agreement Is Reached With Turks

SERVIA URGED TO MAKE CONCESSIONS

Future of Albania Declared to be One of Stakes at Issue

(By Daily News Leased Wire.)

SOFIA, Sept. 11, via London, Sept. 14—(Delayed in transmission.)—Premier Radoslavoff continues in touch with the ministers of the triple entente powers. He has informed them that Bulgaria has assumed no political obligations with Turkey or the central powers as a result of the cession by Turkey of territory to Bulgaaria.

Denial is given here to the report that the ministers of the triple entente powers have made new proposals to Bulgaria. It is stated that the entente governments are still working with Servia with the purpose of obtaining from it a satisfactory agreement to their demands that Servia cede to Bulgaria the territory desired by the latter country.

The German military attache here, Major Baron von der Goltz, is leaving his post. He will be replaced by Gen. von Lossow, who formerly was attached to the legation. It is stated that Baron von der Goltz is leaving voluntarily.

The statement was made in government circles here today that the reason urged by Greece why the Monastir district of southern Servia should not be ceded to Bulgaria (because Greece and Servia desire to have a common border) was not the real reason for Greece's attitude, owing to the fact that no strategic elements would be involved by such cessation.

The real object, it was asserted, was an understanding between Greece and Servia that they should prevent contact between Bulgaria and Albania, and make Albania the common prey of Greece and Servia.

If Albania were allowed contact with Bulgaria, it was added, the latter country would, in the interest of its national principle, work for the independence of Albania, which would be distasteful to Greece and Servia.

The Bulgarian government has called to the colors the Macedonian legions for a training period of 45 days. The training will begin Sept. 17.

Rumanians Mobilize

ATHENS, Sept. 14.—It is reported in diplomatic circles here that there has been a heavy mobilization of Rumanian troops, including several regiments of cavalry, to face the unexpected concentration of Austrians which is directed presumably against Rumania.

Railroad traffic in northwestern Rumania is declared to have been suspended in favor of the troop movements. All horses have been requisitioned. The second series of reserves is now with the colors.

It is asserted that the Austro-German explanation is that the concentration is called to suppress the systematic espionage in Transylvania, but that this statement is not taken seriously.

TURK MINISTERS CORNER SUPPLIES

Taalat Beyand Enver Pasha Make Money Fast at Expense of People.

(By Daily News Leased Wire.)

LONDON, Sept. 13.—Conditions in Constantinople are described as chaotic by Reuter's correspondent at Athens, who bases his despatch on statements made be persons arriving in Athens today from the Turkish capital. The correspondent telegraphs:

"The inhabitants of Constantinople are suffering greater hardships than is necessary because the committee of national defense, run by Enver Pasha, minister of war, and Taalat Bey, minister of the interior, has cornered all commodities and is selling them at high prices."

DUTY REDUCED.

OTTAWA, Sept. 13.—From now until the third month after the war the French government has authorized a reduction in the duty on news print paper, wood, mechanical and chemical pulp, of 95 per cent.

HUN AEROPLANE DRIVEN FROM KENT

(By Daily News Leased Wire.)

LONDON, Sept. 13.—An official statement issued by the press bureau says:

"A hostile aeroplane visited the Kentish coast this afternoon and dropped some bombs, which resulted in a house being seriously damaged and four persons injured. The aeroplane was driven off by two naval aeroplanes.

ALLIES ASK BILLION DOLLAR LOAN; BANKERS SURPRISED

Britain and France Propose Straight Bond Issue

U.S. CAN SELL GOODS IF IT GIVES CREDIT

If It Refuses Offer Allies Take Munitions Only and Pay in Gold

(By Daily News Leased Wire.)

NEW YORK, Sept. 13.—The present program of the joint Anglo-French financial commission, it was reported tonight, is to borrow $1,000,000,000 in the United States on straight government bonds without any collateral whatever.

If this vast sum of money is obtained, it was said, it is to be spent to the last penny in the United States in payment of wheat, cotton, meat and other commodities, including munitions of war. It will therefore, in the opinion of financial authorities, be classified as a commercial loan.

Whether the neutrality of the United States would be questioned in case the bankers financing the loan should accept straight French government notes as their security has been given serious consideration. It was stated that the financiers familiar with the plan had every reason to believe that the Washington administration would not interfere.

The foregoing was the unanimous opinion tonight of many of the scores of prominent bankers from New York and the chief cities of the country who have visited the commission here during the three days of its stay in this city. As to its correctness, the members of the commission declined positively to comment.

Lord Reading Gives no Hint.

All that the commission cared to publish as authoritative was voiced by Lord Reading, its chairman, who received newspaper men tonight for the first time.

"We are not in a position to make a statement at the present time," said Lord Reading, "because we are sudying the conditions in New York and elsewhere in relation to American exchange on London and Paris. We have received a cosiderable number of persons, prominent bankers and others who are interested in the stability of exchange.

"The one thing that is striking about it is that everybody is agreed, as one would expect, in the great importance to be attributed to regulating he exchange so as to provide more stable conditions than has been the case recently.

"The sudden and considerable drop in the exchange naturally disturbed and must disturb commercial relations between the countries—the United States and Great Britain and France—inasmuch as it makes it so difficult to see ahead what the rate of exchange will be; and moreover because naturally it makes such a material difference in the prices to be received by the American people and the prices to be paid by the British and French people. There is a concensus of opinion that it is eminently desirable that some step be made by which stability of this exchange can be secured. You have here in the States large surpluses of foodstuffs and other material which you want to export. We want to import these goods and to the commercial man nothing is more difficult than to arrange fixed prices when there is the instability such as we have had recently in exchange.

"We cannot say more than that at the present time but that outlines our views on the situation."

Plan Came as Shock.

Aside from he financial situation Lord Reading announced that his mission to the United States had nothing to do with the adjustment of any legal quesions between this counry and Great Britain, as had been reported.

The outstanding feature of the situ-

(Continued on Page Three.)

BORDEN APPEALS FOR MORE PRODUCTION

Transportation Difficulties Have Been Overcome—Canadians Should Realize Immensity of Task.

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—Sir Robert Borden declared the annual Central exhibition open today at the directors' luncheon. His speech was a direct appeal for more production. He declared that if the farmers of Canada did their duty and were alive to their possibilities there would be no fear for the future.

The transportation of troops, a problem which has caused considerable trouble in the past, he declared, had been satisfactorily solved and its solution paves the way for Canada's supplying the mother country with necessities. The prospects for a record-breaking harvest places Canada in a position where it can supply the allies with foodstuffs and other essentials.

"The only thing which remains is that Canadians generally will realize the immensity of the task before them and will realize their duty. If this is done there can be only one conclusion to the war, a victorious and honorable peace," declared the premier.

Preparation, he declared, was an essential to success. The great preparedness of Germany had forced the grudging admiration of its foes. Adequate measures must be taken in the future and it was necessary that the citizens should be aroused. The agricultural interests must be preserved and their efforts would tend toward solving the problem in a great measure.

The example of France was held as worthy of emulation. Sir Robert declared that he had witnessed fields being tilled even to the line of trenches by women, old men and children.

"The French people are realizing to the fullest measure the struggle they are engaged in and are making every provision to meet it. This spirit should also be shown by Canadians."

In conclusion he declared that with the full realization of the stupendous task and the determination which is being shown, the co-operation of the industries and particularly of the agricultural bodies there could be only an honorable issue from the war.

He also appealed for good roads and pointed out the urgent necessity along that line.

Hon. Martin Burrell, minister of agriculture, spoke along similar lines.

RUSSIAN PATROLS DRIVE OUT TURKS NEAR OLTI

(By Daily News Leased Wire.)

PETROGRAD, Sept. 13.—The following official statement was issued last night:

"In the coastal region on Saturday there was cannonading and rifle firing. In the direction of Olti our patrols dislodged the Turks from the rocks. There is no change in the remainder of the front."

ITALIAN CABINET TO CONSIDER WAR PLANS

(By Daily News Leased Wire.)

ROME, Sept. 13.—The next meeting of the Italian cabinet will deal with new measures upon which the quadruple entente allies have decided for the future conduct of the war, according to the correspondent in the city of Turin Stampa.

These measures are said to be analogous to those employed by the Germans to assure their recent military successes.

WHEAT CROP IS NEARLY DOUBLE OUTPUT IN 1914

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—In a bulletin issued today the census and statistics office publishes its annual preliminary estimate of the production in Canada of the principal grain crops—wheat, oats, rye, barley and flax—as well as a report on the condition of all field crops at the end of August.

The preliminary estimate of this year's wheat crop in Canada is a total of 308,839,800 bushels from 12,986,400 acres, representing an average yield per acre of 23.78 bushels. This total is 147,559,800 bushels or 91 per cent in excess of last year's inferior yield of 161,280,000 bushels, or 33 per cent in excess of the previous highest yield of 231,717,000 bushels in 1913 and 112,814,000 bushels or 58 per cent in excess of the annual average yield of 196,200,000 for the five years 1910-14. In acreage, the average yield per acre and in total yield the present estimate is the highest on record for Canada.

Of oats the total yield for 1915 is estimated at 488,000,000 from 11,365,000 acres, an average yield per acre of 42.94 bushels. The average of yield also constitutes a record never previously attained for the Canadian oat crop. Barley is placed at 51,655,000 bushels from 1,903,000 acres and the average per acre is 34.22 bushels.

Revised estimates of yield will be published in October and a final estimate after the completion of threshing at the end of the year.

A notable feature of past growing seasons has been the steady maintenance from month to month of high figures indicating the most favorable conditions.

From May 31 to Aug. 21 the figures for wheat, oats, barley and rye have been maintained at over 90 per cent of the standard representing a full crop. For the whole of Canada the figures of condition on Aug. 31 also exceeded 90 per cent. For mixed grains they were between that 90 per cent for

(Continued on Page Three.)

CANADA TO MANUFACTURE TWELVE-INCH HOWITZERS

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—Canada has done so well in the manufacture of shells that the British government is going to let it try its hand at the manufacture of big guns and field ordnance, including 12-inch howitzers and 18-pounders. It is a big contract in comparison with which even the difficult task of making completed shells looks simple. But over 100 of Canada's wizards of finance and masters of industry came to Ottawa today to give it consideration. At the conclusion of the conference, at which Major Mahan of the war office outlined the situation, a committee of 20 was appointed, comprising financiers, manufacturers and members of the shell committe to consider the practical and financial feasibility of the undertakling. The committee will meet at the call of the chairman, Sir John Gibson of Hamilton.

The proposal, it is understood, involves the establishment of a central plant at which parts made by a variety of firms will be assembled. The plant will probably be under government control and Canadian banks will probably finance the establishment of the plants primarily.

The proposal follows upon the visit of D. A. Thomas, representative of David Lloyd George, and Major Mahan of the war office, to Canada.

Mr. Thomas investigated the Canadian shell factories and has apparently been well satisfied with the work and convinced that even larger work can be accomplished in the Dominion. In a short speech to the conference Gen. Sam Hughes declared that when the first order for 120,000 shells was received it seemed like a tremendously formidable task, but that a week or so was now all that was required to turn out such a consignment.

Gen. Hughes expressed the opinion that Canada was capable of doing anything it turned its hand to.

SPORTING NOTES.

Night baseball is to be introduced in Brooklyn on Sept. 29, when the Buffalo and Brooklyn clubs of the Federal league will begin a series with the aid of strong electric lights. Washington park has been equipped with five steel towers 80 feet high.

The proposed 500-mile automobile race on the Twin City motor speedway has been called off. Four drivers, Dario Resta, Bob Burman, Ralph De Palma and Eddie O'Donnell were to have taken part in the race.

Barney Dreyfus, president of the Pittsburg National league baseball club, announced that Fred Clark, manager of the club, had resigned, to take effect at the close of the season. Clark has been anxious for some time to give his entire attention to his business interests in Kansas.

Walter Breymier, 18-year-old pitcher for a semi-pro team, pitched 34 innings in one day. In the morning he pitched a 0—0 game, which was called at the end of 11 innings. In the afternoon he pitched again and won his game with a timely hit in the twenty-third inning by a score of 6 to 5.

Tommy Burns, former heavyweight champion and now a boxing promoter in New Orleans, is in Chicago on the hunt for glove talent. Mike Gibbons has promised to make a 20-round fight for him, and Burns probably will get Young Ahern for the phantom. Burns is figuring on bringing Les D'Arcy from Australia for an international middleweight battle later on.

BREAD NOW DOWN TO PRE-WAR FIGURE IN OTTAWA

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—Announcement was made by the president of the Ottawa Bakers' association today that the price of bread will fall to the pre-war price of 6 cents for a 24-ounce loaf. Flour is now selling here at $5.75 per barrel, or 5 cents cheaper than before the war.

BOXERS MAY GO TO TORONTO TO FIGHT

Pugs to Assist in Raising Sportman's Patriotic Fund—Willing to Go Without Pay.

(By Daily News Leased Wire.)

TORONTO, Sept. 31.—On his return tonight from New York, where he was a spectator at the McFarland-Gibbons bout Tom Flanagan had an interesting announcement to make in connection with the Sportman's Patriotic fund, of which is an officer. He interviewed the leading promoters of New York with a view to having the champions of several classes come to Toronto and box.

Harry Pollack, manager of Freddie Welsh, world's lightweight champion; Dan McKittrick, manager of Young Ahern, who recently beat Al McCoy; Jimmy Ryan, who handles Gunboat Emith; Billy Gibson, the manager of Kid Coffey, and other pugilistic stars, were all interviewed and their replies were invariably the same. All are willing and even anxious to bring their boxers here without one penny of remuneration to assist in raising funds for the sportsman's patriotic fund.

SYRINGA CREEK FISH BIGGER THAN FISH STORIES

(Special to The Daily News.)

SYRINGA CREEK, B. C., Sept. 13.—On Saturday, J. Cummings of Springa Creek caught a fish estimated by different people at weights varying from 45 to 50 pounds, although having no scales handy it was impossible to say exactly. It was four feet long and 30 inches in girth. This is the biggest fish caught up to now in the district, although from time to time fishermen bring back reports of big fish hooked and getting away. But now at last ground is given for the belief that at least in this locality the fish are bigger than the "fish stories."

Rev. A. E. Vert, president of the British Columbia Amateur Athletic union and vice-president of the Canadian Amateur Lacrosse association, has informed New Westminster friends that he will retire from amateur sport this autumn.

PHILLIES AND RED SOX HOLD LEAD

Detroit Americans Are Trying Hard for First Place—Brooklyn 33 Points Behind

The Phillies and Red Sox kept up their sensational work in the National and American leagues today, but their rivals, Brooklyn and Boston in the National and Detroit in the American, kept pace with the league leaders by pulling off brilliant victories, though a double victory for Boston gave the American league leaders a gain of a full half game over the Tigers. The Phillies had to travel 11 rounds before Pittsburg yielded up the ghost to the great Alexander, while the Braves just nosed out a hard earned victory from the Cubs and Brooklyn defeated St. Louis quite handily in the National league.

In the American league the Red Sox were aided by some spectacular pitching to beat the White Sox in two games, thus giving them a lead of three full games over Detroit. The Tigers won from New York, so they still can be reckoned upon as contestants for the flag.

The Philadelphia Nationals, whom baseball critics have been expecting to crack since they started off with a string of victories at the beginning of the season, have failed to develop the forecasted slump and now find themselves three full games ahead of Brooklyn and four games ahead of Boston, which Manager Moran considers his most formidable opponent. This lead has been gained largely at the expense of the Giants, who for the first time in five years find themselves not only out of the running but in undisputed possession of last place. The Phillies have started out strong against the western clubs but what they will be able to show in the next few series is the question that is now interesting followers of the game.

OTTAWA IS READY TO PULL OFF N. H. A. NEXT WINTER

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—L. N. Bate, president of the Ottawa Hockey club, announcedl tonight that the champions would be ready to resume operations in the N. H. A. next winter.

Reports have been current that the hockey magnates had decided to suspend for a year, but Mr. Bate has been in touch with the various clubs, all of which seem ready to continue.

BONSPIEL TO BE HELD IN PHOENIX

Carson to Be President This Season—More Rinks Expected to Come In.

The decision of the British Columbia Curling association to hold its nineteenth annual bonspiel in Phoenix has resulted in early action on the part of the Phoenix club, whose members met for reorganization and to formulate schemes in connection with the approaching big event. There was a large and enthusiastic attendance, and amongs the business transacted was the election of executive officers and a committee charged with the duties of compiling a prize list, which thanks to the generous offers already made, promises to be an exceptionally attractive one. The president for the new season is N. J. Carson and W. X. Perkins, who was the secretary last term, was re-elected again. The following comprise the committee: J. A. Morrin, Joseph Strutzel, J. G. Mullen, O. D. Bush, N. J. Carson, R. K. McCammon, W. Biner and D. J. McDonald.

The bonspiel is the principle event of the British Columbia curling fraternity, and the results of the contests will be eagerly watched from all the curling centres of the west. The last one was held in Nelson, when 21 rinks were in attendance, but it is expected that more than that number will be welcomed by the Phoenix clug in January next.

BRILLIANT AVIATOR FOUGHT TO THE LAST

LONDON.—A correspondent of Paris has sent the following, which gives details of the death of Pegoud, the famous French aviator, told of in a brief official statement recently.

It was while in a fierce battle with a German aeroplane that Adolphe Pegoud, the world's most daring aviator, was killed. Thus after destroing many German aeroplanes and killing or capturing their operators in the most brilliant individual work of the French aerial campaign, Pegoud met a glorious death, fighting the enemy valiantly far above the earth until a bullet ended his life.

Pegoud, whose daring feats of looping the loop, time after time, and flying upside down proved he knew no fear was making a reconnaissance unaccompanied in his aeroplane when he was attacked, gave battle and was killed.

He had ascended to reconnoiter the enemy's lines near La Petite Croi While inside the German lines he w attacked by a German aeroplane.

Being without an assistant in t aeroplane to fire the machine gun, P goud was compelled to operate t aeroplane and at the same time wo the machine gun. That he continue firing the gun at the enemy machi is indicated by the fact that he ha run several bands containing hundre of cartridges through the machine g before a bullet fired by the Germ struck and killed him.

It is believed that he could have e caped from the German aeroplane h he devoted his entire attention to t operation of his aeroplane, as the was no more skilful aviator than and his machine always was the fas est. Instead he chose to face his fo high in the air, above his compatrio in the trenches and give battle to t attacking German aeroplane.

When the bullet struck Pegoud probably was killed instantly. Soldie in the trenches, who had watched t uneven battle far above them, sudde ly saw Pegoud's craft get beyond co trol and then tumble straight down the earth inside the French lines.

Until Death.

Soldiers hurried to the wrecked aer plane and found Pegoud dead. T bullet in the head and the empty car ridge bands that had been run throug the machine gun indicated only t plainly that the daring Frenchman h fought until death and that his aer plane dropped only when his lifele hands and feet failed to operate t controling levers.

Pegoud was regarded by the Fren people as a hero long before he m his brilliant death. Although only years old he had served five years the French cavalry, fighting in t Morocco campaign, before he achiev distinction as an aviator, with "stunts" of looping the loop and fl ing upside down.

When the present war began he w easily the leading aviator of France, not of the world. He enlisted as a p vate in the aviation corps and sin then has done remarkable milita work. For his feats in the air again the Germans the military medal a the military cross were awarded to h and he soon won a sub-lieutenan commission for his bravery.

On July 11 he brought down his six German aircraft, and between th and his death it is believed his reco had been increased. While he was great service to France in his fig against the Germans, it was believ that his work as an instructor of a men was of almost equal value. H was considered perhaps the leading i structor of aviators and since the b ginning of the war he had added ma aviators to the French corps.

ASK BILLION DOLLAR LOAN

(Continued from Page One)

ation that overshadowed by its tremendous importance everything else that has influenced the foreign exchange rates since their recent slump began, was the reported plan of the commission to establish its hoped for credit here without offering any collateral whatever. Some of the financiers who called upon the commission with vague or pronounced ideas that Great Britain and France would not only give their notes for whatever sum they would borrow but would put up a huge collateral, dollar for dollar of the loan, composed of approved American securities, were startled by the radical proposal that the money should be borrowed absolutely without collateral. Still other financiers were prepared for the proposal and were not surprised.

Generally, the commission's reputed plan came as a shock to the financial world.

Here is the reputed attitude of the commission, as gathered by bankers who have talked with the commissioners durin gtheir stay here:

The credit of Great Britain and France has never been questioned.

They are able to pay for anything they promise to pay for.

Their bonds are the standard of world investment.

These countries require only one thing from the United States—munitions of war. True, they would like to have a great many ther things—wheat, corn, cotton and other commodities. But for the one thing these countries need—war munitions—they are prepared to pay in gold, if they have to. And they will pay in gold rather than submit to terms that they think are onerous in establishing a credit here.

FIGHTING DESCRIBED FROM GERMAN SIDE

A despatch from the western German front says:

I have seen them and talked to them, the men fighting out there in the trenches of Souchez. Just now they are resting, but tonight they will be fighting again like demons. The roads and paths for miles around are under a fearful fire. Almost every second a shell bursts with a deafening roar.

What is Souchez? A small village which nobody knew a few months ago and which now will never be forgotten again. The little hamlet is marked for all time, like Gravelotte and Woerth.

There is nothing left of the village but a heap of ruins. The houses left their places, jumped to the street and collapsed. A little creek runs through the hamlet, the brook of Carency, but its banks are destroyed and it has left the bed through which it peacefully ran for centuries. With a sad murmur the yellow, dirty water flows into the craters formed by explosions of hundreds of thousands of shells.

Their uniforms were all field-gray at one time, but nobody is able to distinguish their color now. Only the first sergeant looks as if he just came from the tailor shop. With the long nails of his little finger he traces the position on the map. Before the war he was a high school professor.

"This is our trench," he said, explaining the map to me. "Over there on the heights of Doretta, the artillery of the enemy stands. Yesterday we were under heavy fire from 7 o'clock in the morning till 9 o'clock at night. Our trench looked as if a giant steamplow had run through it. Of course we had losses, but that cannot be avoided. A 25-centimetre shell burst near me. The trench was destroyed and we were buried.

"About 9 o'clock in the enemy the shells began to fly over us. The enemy was trying to drive back a relief column and to storm what was left of our trench. Our lieutenant, a young man of 19 years, shouted a command and in a moment our trench resembled an ant-heap. We dug ourselves out. Most of our guns had become useless, but we had hand grenades.

"The section of the trench for which we fought had become useless to us. We gave it and slowly retreated, keeping to enemy at a respectful distance by a heavy rifle fire.

"For a short while the enemy took possession of our destroyed ditch, but he could not hold it. We quickly dug ourselves in again, but tomorrow the repaired trench may be in the hands of the enemy once more. Then we will have to retake it again, and so it goes on."

MANY ATTEND KASLO MAYOR'S FUNERAL

D. C. Macgregor Buried With Full Masonic Rites—Many Floral Tributes Sent from Outside Points

(Special to The Daily News.)

KASLO, B. C., Sept. 13.—A large number of citizens and friends from Nelson, Greenwood and other points attended the funeral of Mayor Macgregor on Sunday afternoon. The obsequies were conducted under the impressive ritual of the Masonic order, of which Mr. Macgregor was a member. Alex Menzies of New Westminster and Mrs. Menzies, a sister of the deceased, arrived by motor boat Sunday in time for the funeral. Many floral tributes from far and near were carried to the grave. The funeral was one of the largest ever seen here.

Dr. Gilbert Hartin of Nelson was a visitor to Kaslo Sunday.

John Simpson, chief of provincial police at Greenwood, is a visitor in town.

J. A. Gibson, G. A. Hunter and Fred Irvine arrived here Saturday.

CASCADE NOTES

(Special to The Daily News.)

CASCADE, B. C., Sept. 13.—Mr. and Mrs. E. Reading were visitors from Christina Lake on Wednesday, and on Friday Mrs. R. G. Ritchie, with her daughters, Eileen and Ethel, returned home from Wellwin, Sask., after a month's stay with her sister, Mrs. Clair.

CUTS FOOT.

ROSEBERY, B. C., Sept. 13.—While engaged in cutting a trail to G. S. Vanstone's Fairy Queen mine, near Rosebery, J. Tier cut his foot badly on Saturday, the great toe being almost and the next one entirely severed from the foot. Mr. Tier was taken by launch to New Denver, where Dr. Brouse attended to his injuries, after which he was brought to his home here.

Mrs. S. Y. Brockman returned on Saturday from Nelson.

J. N. Pennock, agent for the Canadian Pacific railway, has returned from a visit to Medicine Hat and other prairie cities. D. E. Swanson, who has been acting as agent during his absence, has gone to Phoenix.

HALCYON NOTES

(Special to The Daily News.)

HALCYON, B. C., Sept. 13.—David Currie, Hedley, arrived Sunday, R. Laughton, Revelstoke, on Saturday and T. E. Kirkpatrick, Grand Forks, on Friday. Mr. and Mrs. J. T. Laurie left on Sunday. Mrs. R. L. Lipsett, Summerland, left today for Revelstoke to visit friends there before returning home. Mrs. W. A. Huntor, Kelowna, went to Nakusp on Saturday for a weekend visit.

T. P. Rogers, Rossland, H. Anderson, Paulson, and A. Johnson, Revelstoke, left on Saturday.

ROSSLAND NEWS.

(Special to The Daily News.)

ROSSLAND, B. C., Sept. 13.—George Treverrow leaves on Tuesday to spend a few days in Spokane.

A. S. Farris left last evening to spend a few days at his home in Chase, B.C.

Stanley Smith and H. Valentine went to Spokane this morning to attend the fair.

Miss Esther Warson left this morning to spend a few days in Spokane before returning to Nelson.

Mrs. Blaylock and her parents, Mr. and Mrs. Riddle of Trail spent the afternoon in the city.

Mrs. Kelly of Trail is visiting Mrs. George Hunter.

Arthur Wheeler, Jr. spent the afternoon in the city.

Mesdames Trafford and Lane returned today from a short visit to Spokane.

H. M. Tuck has returned from a trip to Nelson.

FLOWERS BLOOM AMID SNOW IN FERNIE GARDENS

(Special to The Daily News.)

FERNIE, B. C., Sept. 13.—The first snow storm of the season visited this city on Sunday, when snow fell more or less all through the day, and by nightfall the ground was thoroughly covered. A peculiar feature in connection with the storm is that owing to there having been no frost as yet this year, flowers are still in bloom in the local gardens, with the result that one strolling around the residential district is confronted with the unusual spectacle of seeing sweet peas, nasturtiums, astors, pansies and even roses protruding from a bed of snow.

J. P. McLeod, deputy attorney general, who arrived in the city from the coast on Thursday, left on Saturday for Cranbrook and Victoria.

A unique funeral was held here on Sunday when Gong Tong, a Chinese gardener from Coal Creek who died in the Fernie hospital on Friday as a result of internal injuries sustained a month ago, when the horse he was driving became frightened and running away threw him out and the wagon passed over his body, was buried. The mourners were exclusively Chinese, of whom over 50 were in attendance.

Capt. C. O. Moffatt of B company, 54th battalion, but formerly a resident of long standing in this city, arrived in the city on Sunday on the return journey from Ottawa, where he has been taking a musketry course. Capt. Moffatt will remain in the city a few days and then proceed to Vernon.

A. Dunn is in receipt of a letter from his brother, Pte. William Dunn of No. 1 company, 14th battalion, France, wherein he states that they were recently visited by Premier Borden and Sir Sam Hughes. The latter reviewed the troops at which time Pte. Dunn states "the German artillery was pretty busy and a few 'coal boxes' were dropped pretty handy" in honor of the occasion.

BOY FATALLY SHOT WHILE HUNTING

Accidental Discharge of Comrade's Shotgun Kills Herbert Curtis of Slocan City.

As the result of the accidental discharge of a single-barreled shotgun in the hands of a 15-year-old lad which he received in the abdomen on Saturday afternoon Herbert, the 14-year-old son of H. B. Curtis of Slocan City, died at 4:30 o'clock on Sunday morning.

Young Curtis and a party of boys were out shooting about 2½ miles from Slocan City on Saturday afternoon when the gun carried by William Greenwood, 15 years of age, was accidentally discharged, the full charge striking Curtis, who was standing about five feet away, in the abdomen. The injured boy was carried to his home and Dr. W. C. Rose of Nelson and Dr. J. E. Brouse of New Denver were summoned and worked over the boy in an attempt to save his life. The wound inflicted by the gunshot, however, proved fatal and at 4:30 o'clock on Sunday morning he died.

An inquest was held yesterday morning and evidence was taken which showed that although Greenwood, in whose possession the gun was when the accident occurred, was only 15 years of age, he was the possessor of a gun license. The jury consisted of P. Swan, foreman; William Clough, James Rae, J. Pinchbeck, W. A. Hicks and James Holt. A verdict of death from accidental discharge of a gun was rendered together with a strong recommendation to the government to issue instructions that more care be exercised in the issuing of gun licenses to minors.

CONTRACT LET AT TRAIL SMELTER

Monthly Payroll Soon to Reach $100,000—Chinaman Jailed for Theft of Money.

TRAIL, B. C., Sept. 13.—H. A. McKowan of Cranbrook is in the city today and has secured an important contract at the smelter for his firm.

The progress at the smelter is so steady in its development that the monthly payroll should before long reach the $100,000 figure.

A new sidewalk is being laid down in front of the Miners' hall.

Toward the end of the month W. E. B. Moneypenny, city clerk, leaves for his annual holiday.

A large gang of Canadian Pacific railroad men is engaged in alterations in connection with the bridge at Rock creek.

J. Bryans last week shot a fine buck near his rainch near Honey creek.

There was a severe hail storm here yesterday which did some damage to the crops of the ranchers in the district. In one instance the cucumbers suffered considerably.

The Italian dance yesterday was a great success, resulting in a substantial amount being handed over to the Italian Red Cross society. There was a very good attendance in Columbus hall, where the gathering was held.

Mrs. Wileman arrived last evening from Edgewood and is visiting the Airedale ranch.

The Women's auxiliary of the Canadian Patriotic fund of Trail forwarded four cases of Red Cross supplies on Friday last. The contents were as follows: Thirty hospital shirts, 15 pairs pyjamas, 14 dozen slings, four triangular bandages, two dozen hot water bottle covers, 14-12; 100 cup covers, one dozen pads, 16x12, eight dozen pads, 12x9; 11 dozen pads, 7x6; 12 dozen compresses, one dozen dressing bundles; 500 wash cloths, 10x10; 66 dozen cheesecloth handkerchiefs; 2000 mouth wipes, 20 towels, three sheets and pillow cases; one dozen fomentation wringers.

Among the amusements at the fair there will be concerts by a double quartet under the direction of Arthur Wheeler, Jr., of the Trail Choral society. The Y. M. C. A. of Nelson will give performances by its gymnastic acrobatic and pyramid team. There will be an open weight-lifting contest. The Kettlewell troupe will give a display of fancy pyramids. Howell and Schwartz will give hand balancing and feats of strength.

On Saturday last Lee Wee, a Chinaman of the Castlegar district, was sentenced by Noble Binns, Trail stipendiary magistrate, to four months imprisonment for the theft of $133, a watch and some clothes from another Chinaman. Lee Wee was charged with stealing $133, but $60 was his own property, which the other man had the care of and it was naturally assumed that some one else was the culprit. Provincial Police Constable Johnston made the arrest and obtained the conviction. The theft was traced through Lee Wee depositing money in the Trail bank in another man's name.

WHEAT CROP NEARLY DOUBLE OF 1914

(Continued from Page One)

peas, beans, buckwheat, flax and root and fodder crops and were below that per cent only for corn for husking and hay and clover, 71 per cent.

Conditions for harvesting in the west were described by correspondents as generally favorable during August. Toward the end of the month severe frosts did some injury but, fortunately, they came too late to cause widespread damage to grain.

In the maritime and other parts of eastern Canada excessive rains delayed harvesting as well as ripening.

"I was telling Titowad this morning that shells for a 12-inch gun cost $500 each." "Well, what about it?" "He said he wouldn't shoot one of those shells at his worst enemy."

TEUTONS BATTER WAY TO RAILROAD

(Continued from Page One)

(to the northeast of Vilna) the enemy has cut the railway. Under the pressure of enemy attacks between the Novo Sventiasny and Vilna districts our troops retired to the vicinity of the railway station of Podbrodze.

"In the region west of Vilna and to the eastward as far as the Orany district there is no change in the situation.

"On the front of Orany we have engaged in a fierce battle with the enemy, which has been considerably reinforced in the region of Skidel and farther east. The enemy is developing its attack east of Skidel.

Retirement Is Orderly.

"In rearguard actions to restrain the enemy's pressure our artillery succeeded in developing a powerful fire on the route of the line of Wolkowysk-Kartovskai-Bereza. Toward the east the enemy cautiously advanced. Its attempts to assume a more decided offensive were resisted and had no influence on the orderly, premeditated retirement of our troops.

"Southeast of the station of Sarny our troops continue to hold the enemy, which is endeavoring to advance chiefly along the rivers Styr and Goryn. Further east in the Kolki and Derazno districts the fighting is stubborn. West of Rovno, in the Dubno-Kremenetz region, the Austrians are making unsuccessful attacks.

"In the Tarnopol district our troops under the enemy's hail of artillefy fire, made progress again, taking prisoners and machine guns. We drove back the Germans who are retiring to the north.

"On the lower Sereih in the Zaleszcayki district the enemy attempted by an attack to arrest our advance westward but after a stubborn engagement was again beaten and overthrown. Generally speaking the Austro-German effort is directed to maintaining their efforts in conducting offensive operations which are costing them losses utterly disproportionate to the results achieved."

Austrians Admit Retreat.

VIENNA, Sept. 13.—The following official statement from general headquarters was issued tonight:

"The Russian attacks on the East Galicia fronts continue. On the Sereth strong hostile attacks were repulsed at several points. There has been hand to hand fighting in the trenches. Northwest of Strusow some Russian attacks broke down under the crossfire of our batteries; others were repulsed with the bayonet.

"During the night the allied troops fighting near Tarnopol took up a position prepared east of Kozlow and Jezierna, which joins our front on the east bank of the Stripa, a move not hindered by the enemy.

"Near Nowo Alexinies violent fighting is proceeding. East of Dubno our troops have advanced to the railway. In the region of Derazno we repulsed the enemy at several points, the Vienna landwehr infantry especially distinguishing itself.

"The Austro-Hungarian forces during the storming of the village of Szuraty on Sept. 11 captured nine officers, 1000 men and five machine guns."

WARNS TEUTONS NOT TO MAKE MUNITIONS

Consul at St. Paul Issues Proclamation —Threatens Imprisonment or Death as Punishment.

ST. PAUL, Minn., Sept. 13.—Acting under orders received today from Dr. Dumba, the Austrian ambassador, whose recall has been requested by President Wilson, Edgar L. Prochnik of St. Paul, consul in Minnesota for Austria-Hungary, today issued a proclamation to Austro-Hungarians in this consular district about the same as similar proclamations from the Austrian embassy in Washington which figure in the strained relations growing out of the acts of Dr. Dumba in the United States. Mr. Prohnik presented the proclamation as follows:

"Official publication: Acting on high order, the imperial and royal Austro-Hungarian embassy herewith notifies all Austro-Hungarian citizens as well as all citizens of Bosnia and Herzegovina that, according to section 327 of the Austro-Hungarian military penal code, they are committing a crime against the military forces of their colntry if they are working in plants which are manufacturing arms and ammunition for the enemies of their fatherland. This crime is punishable by imprisonment from 10 to 20 years, and under aggravating circumstances even by the death penalty. On their return to their native country they are exposing themselves to the full severity of this law."

Mr. Prochnik says this proclamation is to be published in pamphlet form and in Slavonian, Croatian, Polish and German papers in the district under the St. Paul consulate by direct order of Ambassador Dumba.

She (viewing the flagship)—What does he blow the bugle for?

He—Tattoo.

She—I've often seen it on their arms but I never knew they had a special time for doing it.

A Popular Line of
FALL SUITS

Popular Styles and Popular Prices

There is a sufficient variety of styles to meet the tastes of all of our customers. The styles are so eminently practical, so smart and so becoming that everyone who sees them is pleased with them.

Since we opened our first display of suits this Fall, we have received many new fashions, and the assortment is thus kept abreast of the times.

We are showing the most recent styles that are popular with smart dressers in the larger cities.

The splendid values we offer are without superiors hereabout.

At $18.50
We Show a Splendid Range of Suits in Navy and Black Serge

Coats are plain tailored and are lined with silk, serge throughout. Skirts are full cut and show sides and back plain.

Another Line of Suits Range from $27.50 to $35.00

These are more or less plain tailored. Some of the coats the flare and others are finished with belts. All are satin lined and beautifully tailored. Skirts range about 3 1-2 yards wide and mostly show the box pleated backs. Materials used are cheviot, serge, tweeds and gaberdines.

Suits at $42.50 to $65.00 Show the Season's Latest Novelties

Many of these have the new long coat reaching to the knee, though a number of shorter ones are included. Some, too, show trimming of grey lamb, which is considered a very smart idea.

There is a splendid variety of skirts, plain or with half yokes. Colors are navy, black, Russian green, and plum. The cloths are fine serge, broadcloth, gaberdine. These are specially priced at $42.50, $45.00, $50.00 and $65.00.

SASKATCHEWAN HOLDS BACK PART OF PATRIOTIC FUND

(By Daily News Leased Wire.)

REGINA, Sept. 13.—"In this matter of complaints alleged to have reached us concerning the new regulation, which went into effect Sept. 1, as to the payments from the patriotic fund, I can say that we have received no complaint from any individual against the ruling itself and only one of the local executives has not seen fit to agree with the ruling, which will be upheld," said T. M. Bee, secretary of the Saskatchewan Patriotic fund, this evening when his attention was drawn to statements appearing in certain Saskatchewan papers concerning the new ruling which came into effect Sept. 1.

The ruling establishes for the soldiers and their families a trust fund account which will be paid over at the conclusion of hostilities. This has been done to meet a condition which will probably be hard to meet when the soldiers are sent back to their homes when the reconstruction period commences.

The ruling has received the commendation of the recipients of allowances all over the province. Some of them have asked for a suspension to allow them to clear a few debts and provide for the winter necessities.

The greatest commendation of the ruling is from the federal secretary, Sir Herbert Ames, who called attention to the fact that Saskatchewan has not drawn from the Dominion central fund but on the contrary has at present a credit of $130,000 with which to start the payments for the second year. Ottawa authorities are well pleased with this province, according to the secretary's statement.

MAYOR OF LILLE REFUSES GERMAN DEMAND

PARIS, France.—The Temps gives further detailes of the recent occurrences at Lille when, owing to a refusal by the French workers to manufacture sand bags for the German trenches, a fine of f.350,000 was imposed on the town. The Temps reproduces the letter of M. Delesalle, the mayor of Lille, in reply to the demands of the German governor-general. "To compel a workman or a manager to work," he wrote, "is quite outside my province. You yourself recognized the justice of our point in view when, at the commencement of the occupation of the town, the question of finding workmen for the trenches arose, and you did not insist that I should act on your behalf in the matter. My reasons today are the same. As to the solution which you propose, that of giving to the town the task of manufacturing the bags, it cannot even be considered, for my duty as a French mayor absolutely forbids it. Whatever risks I may run, I regret I am unable to give you satisfaction. You are a soldier, excellency, and you thing too highly of duty to expect me to betray mine. Were I to act any other way, you could only despise me." As the mayor persisted in the refusal either to get the sacks made or to pay the sum required by the Germans, the municipal safe was forced by German officers and the sum of f.350,000 seized.

"I have often stood in a slaughter house," observed the man from Chicago, "while the butchers were killing hogs on all sides of me."

"Oh," exclaimed the tender-hearted girl, "weren't you dreadfully afraid?"

MOTHERS

REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always.

TUESDAY, SEPT. 14, 1915.

CANADA AS A PRODUCER OF WAR MUNITIONS

It is to the credit of Canada that, at the suggestion of Sir Sam Hughes, this country took the lead in adapting to the manufacture of shells factories hitherto engaged in businesses which had no relation to warfare and it is to the credit of the companies and their workmen that within a short period from the commencement of the war Canada had an output of shells greater than that of all the plants in Great Britain, outside of those regularly engaged in making munitions.

Canada has since commenced the manufacture of high explosive shells and all their component parts and of many other munitions of war for which existing machinery had to be adapted or new machinery manufactured and installed. Altogether Canada has to its credit about $400,000,000 in war orders, although this figure, of course, includes supplies which are also used in times of peace.

Now it is announced that Canadian industry is to turn its hands to the manufacture of big guns and field artillery. A few months ago about the heaviest armament produced in Canada was a .303 rifle. It is a far cry from that to a 12-inch howitzer but Canadian business men and Canadian workmen are equal to the undertaking and the time when the Canadian troops will march into action supported by Canadian-made artillery, as well as Canadian-made shells, is not far distant.

NOT FIRST TIME PROVINCE HAS GIVEN ASSISTANCE

The provincial government's action in giving financial assistance necessary to the establishment at Nelson of the French process plant for the treatment of zinc ores is additional evidence of the desire of the government at Victoria to do all in its power to promote the welfare of the mining industry.

This is not the first occasion upon which the administration of Sir Richard McBride has given direct aid in an endeavor to find a solution of the problem of smelting complex zinc ores. Some years ago the province made a large expenditure to encourage the development of a thermo-electric smelting process at the Fairview smelter, which has also been used by the Dominion government for a similar purpose and is now to be the site of the new French plant. The results of this work were disappointing but the government has wisely refused to permit the failures of the past to discourage it from aiding a process of a different type and which reports by competent authorities show has good prospects of helping to remove the chief obstacle which has stood in the way of the development of one of the great sources of wealth in Kootenay.

LEAVE THE PATRIOTIC FUND ALLOWANCES ALONE

In Alberta and Saskatchewan the provincial patriotic fund executives have decided that a portion of the monthly allowance to dependents of soldiers shall be set aside as a trust fund for the use of soldiers and their families after the war. No such action has been taken in British Columbia and if it were proposed it would meet with strong opposition.

To make such deductions is to violate a pledge which is given by the people to every soldier who enlists. When a recruit joins the army he is given to understand that his dependents, if any, will receive not less than a certain definite monthly allowance upon a scale which has been formulated on the basis of what is considered sufficient to protect from want those whose breadwinners join the army.

To make any deductions from these allowances is to pay dependents of soldiers less than the amount decided upon as sufficient, and no more than sufficient, to support them.

If it is necessary to provide for soldiers and their families after the war, adequate provision must be made, but there is no sound justification for reducing the monthly scale which has been agreed upon.

TO CHALLENGE SUPREMACY OF ALLIES IN AIR

London military writers believe that next month will see the beginning of a titanic struggle in the west for supremacy in the air, which has so far been held by the allies. It may have been that Germany commenced the war with a larger number of planes than Great Britain, although it probably had less than France, but individually the airmen of both the allied armies soon established their ascendancy over the enemy.

For months Germany has been inferior in the air, a disadvantage which might prove decisive in a great battle, and it is said to have been constructing a number of aeroplanes of a new type in an attempt to place itself upon an equality with its enemies.

Great Britain and France have also been active in building new machines and have the advantage of having commenced to construct new types of aeroplanes four months before the enemy.

That great fleets of air machines will participate in the predicted battles for supremacy is expected by experts in this branch of the service.

One of the most satisfactory features of the grain harvest is that not only the total output but the production per acre is a record.

Prize fighters are to give an exhibition in Toronto without exacting a big purse. Lest they may lose their reputations it is explained that the object is a patriotic one.

Canadians will be able to talk back effectively to "Big Bertha" when the factories of the Dominion begin to send along the new 12-inch howitzers. Why not call them the "Little John"?

Sir Robert Borden struck the right note when he yesterday urged the people of Canada to still greater production. It is the producer and the fighting man who count in this war.

Official estimates show that Canada's wheat crop is 91 per cent greater than last year and 33 per cent greater than in 1913, when the previous high mark in production was reached. And for a crop one-third greater than ever before in the history of the Dominion prices at the present time, despite the recent fall in quotations, are higher than in 1913.

"Let us postpone any disputes with the belligerents until after the war is over," urged William J. Bryan at a "Friends of Peace" convention at Chicago a few days ago. That's the idea, William; let Germany slaughter all the Americans it pleases. It would be a shame to interrupt the sport while Germany is so busy with other matters. Besides, if the discussion is postponed until after the war there will less interruptions and more Americans to make funeral orations over.

Sir Percy Scott, who has been appointed to take command of the anti-zeppelin guns in London, should prove a good man for the work. He was the inventor of the night signalling apparatus adopted by the navy and also of various appliances for improving heavy gun shooting. For his services in the Ashanti war, the Congo expedition, the Egyptian war, the South African war and the China expedition of 1900 he was repeatedly mentioned in despatches. It was Sir Percy Scott who invented the gun carriages which enabled the 4.7 and 6-inch naval guns to be used in South Africa.

WHAT THE PRESS IS SAYING.

Fine Training.

So far as this war shows, the most useful military training for schoolboys would be a couple of earnest hours spent in digging ditches.—Springfield Republican.

Ireland's Charter.

Ireland's charter has been made law, and bears the sign manual of the king. It is a great and solemn treaty between two nations, between two great democracies. It can never be repealed so long as Ireland is determined at all costs and hazards to keep and hold it good. It is a work for all Ireland.—Dublin Freeman's Journal.

The Great Failure.

The fact which most stands out still is the failure of the original German attempt to crush France. War is proverbially uncertain, and may yet have its surprises. But since that failure one has been on the whole justified in holding that the allies' problem is rather to secure victory than to avoid defeat. We have not yet solved it; but with the continued steady expansion of our supply, both of munitions and trained men, we have no reason whatever to despair of doing so. The outlook is one which demands our utmost energies; it is not one which justifies ay depression.—London Daily Cronicle.

The Spirit That Will Win.

Clarence Jamieson, the Conservative member for Digby, Nova Scotia, took the money that he had been saving for the purchase of an automobile and bought a machine gun for our soldiers. Mr. Jamieson is a very capable and industrious member of parliament, but he is not a wealthy man and his decision in this respect constituted a real sacrifice. It is this spirit that is going to eventually win the war for the allies. Mr. Jamieson's conception of his duty as a public man is to practise as well as preach patritism. It is gratifying to know that this splendid example has not been without its effect, as since his generous gift was publicly announced, no less than 100 machine guns have been offered to the government by individuals and corporations in various parts of Nova Scotia, while recruiting has also been considerably stimulated. —Ottawa Free Press.

"Dr. Duck has a new way to get rid of an annoying patient."

"What is that?"

"Cure him."

Perfect Tea must be used for a perfectly satisfactory infusion.

"SALADA"

Tea is the acme of perfection, being all pure, delicious tea. Black, Mixed or Green.

AN EXCELLENT APPOINTMENT

The Week has seen occasion to criticize some of the appointments made by the governors of the University of British Columbia, it is therefore all the more gratifying to be able to compliment them upon their latest appointment, that of J. M. Turnbull of Trail, to the chair of mining. It would have been impossible to make a more excellent selection. Mr. Turnbull had a distinguished career at McGill, where he graduated 16 years ago with honors. He was at once snapped up by the Canadian Pacific railway and attached to their newly formed mining deprtment. Later on when this branch passed under the direction of the Consolidated Mining & Smelting company Mr. Turnbull was retained, and for the last 10 years has acted as their mining engineer. During this time he has visited almost every metalliferous mine in British Columbia, and no man is better posted on the technical side of our greatest industry. To the most expert knowledge and ability Mr. Turnbill adds an attractive personally and a convincing manner which are bound to make him a popular and successful incumbent of the chair of mining. Dr. Brock and he represent the highest standard in the professional world, and that it has been possible to find two Canadians of such calibre to champion the mining industry must be a matter of satisfaction throughout the province.—Victoria Week.

THE BLOND BEAST.

(By Harold Begbie.)

Everything which is desperately immoral, being in its constitution monstrous, is of itself perishable.—Wordsworth.

The stars standing over the sea
In the depths of the night,
The moon making darkness to be
More lovely than light,
The sun surging upward in flame
From the waves and the sky,
Endure as the legions of shame
Go bloodily by.

For the patience of God is above,
And the beauty of life;
The stars know the lasting of love
And the passing of strife;
And there shall be joy in the way,
And delight in the hour,
And their hosts shall be dust in that day,
And their seed without pow'r.

They are trampling on cities and lands
To the guilt of their goal,
There is innocent blood on their hands,
And a lie in their soul;
The sea is made foul by their breath,
And the earth is a tomb;
But the stars are their coursers to death
And the sun to their doom.

They have chosen the charter of rage,
They have taken the sword;
They have torn from God's writing the page
Of the love of the Lord;
They are Murder and Rapine and Lust,
They are Madness and Pride
And Him who wrote love in earth's dust
They have jostled aside.

They are rushing from slaughter to God
Like the swing of a bell,
Each beat of the clock is a rod
That fast flogs them to hell.
They shall find not one hour of all time
Nor one point in all space
To escape from the anguish of crime
And the loss of God's grace.

No joy evermore in the day,
And no peace in the night,
Shall be theirs as they tremble away
From humanity's sight,
As they reel from the light of the sun,
And the welcome of man,
And drop from the web they have spun,
To eternity's ban.

And the earth shall return to her peace
And mankind to their goal,
And the love of the heart shall increase
And the strength of the soul;
And the world shall be glad with great glee
In the goodness of right
With the stars standing over the sea
In the depths of the night.

LEARNED TO RAG AND LIKES IT.

The Baintree correspondent of the Strathmore Standard supplies the following shocking expressions of his impression of "rag" dancing. It almost makes the Gleichen Call man regret he never learned to dance especially now that his wife is in Ontario:

"We attended the sports at Rockyford, and say, kind sir, didn't we have some time? We just let loose all holds and cast away into the whirling vortex of fun and frolic and willed ourselves up on red lemonade, peanuts and lemon soda water, and we don't give a cuss who knows it. Some evil-minded people say we were tipsy. We deny it. We have drunk twice as much soda water and like refreshments and our wives never suspicioned us. Anyway, wife had gone to the States and we just had to celebrate.

"We took in the dance, too, and talk about ragging. We never did before, but we did this time and we are going to again, by Heck. Why, it's the greatest thing ever invented. We are crazy about it. So is everybody in Rockyford. And those Calgary girls—oh my, peaches and cream and all the fixings are not in it. What is it like? Why, you just grab the dear, sweet maiden, or married woman, to your manly bosom, fold her closely and hold her so, she playing the part of the clinging vine; then you start down the hall and you wobble and hug and twist and kiss and trot and hop, while her beautiful head rests upon your shoulder and your feelings are one continuous round of rapsodic bliss. Ah me; oh my. The music must be clanging away on Casey Jones or Finnegan's Wake but it sounds like the melody of angels played on a thousand harps as you gaze down into the face of aforesaid lovely maiden or some other man's wife who smiles up at you with half-parted lips, cheeks aflame with the heat and excitement of the dance, and eyes sparklin glove into eyes that speak love again. And you close your eyes and wobble along and think and think and think. And they do it in all styles at Rockyford, then do it over again and answer encore. There is but one exception to this beautiful picture. It was a tall slim young man from over Tudor way, who was doing the 'Bunny-cuddle' with a wee maiden whose auburn curls nestled in the vicinity of his waistline. Really he may have felt as we felt, and like all the others looked like we felt, but by gum, he didn't look the part. We only wish we had a dozen daughters so we could go and see them engaged in this divinely beautiful and artistic dance. Don't you, fathers and mothers? When wife comes home we would teach it to her, only somehow there don't seem to be the same inspiration in one's own kitchen, especially with one's own wife."

THE WAR ONE YEAR AGO.

On Sept. 14, 1914, the Russians were continuing their successes in Galicia and Poland.

The German submarine which sunk the British cruiser Pathfinder has itself been sunk.

The Germans have been ranged round Brussels in numbers approximating 100,000, while the greater part of the Belgian army, about 80,000 strong, has taken shelter under the guns of the Antwerp forts.

The Montenegrin troops have joined the Servians and, fighting under Servian generals, headed by Gen. Vokotich, have repulsed the Austrians all along the Bosnian frontier.

There are in Hungary at least 150,000 Servian troops successfully pushing an offensive movement against the forces of the dual monarchy.

Calculations based on the official returns show the cost to Great Britain of 43 days of war has been about $166,500,000.

The Austrians have lost 70 per cent of the total available troops, including 250,000 men taken as prisoners by the Russians and Servians.

STEAMER MOVEMENTS.

COLD STORAGE

She—Will you love men when my hair grows gray?

He—Certainly—, but not when it grows green, as is likely to happen unless you change the treatment.

"I see a man has just been arrested for a crime committed in 1870."

"That kind of makes me nevrous."

"Why so?"

"When I was a young man I played the cornet."

"Dubbins is a singularly unfortunate man."

"What makes you think so"

"He's the sort of person who is always caught with his mouth open when a photographer takes a group picture."

A FISH CAMPAIGN.

Last year the departments of Sir George Foster and Mr. Burrell carried out a successful apple campaign. They persuaded people to eat more fruit and to eat the Canadian produce. It is a mission which should be continued until the habit is confirmed.

But the fish habit is also worth encouragment. Mr. Hazen addressing the Toronto exhibition directors last week said that the people of Canada had a home supply of the best fish in the world, but most of them had not learned to use fish as part of their regular diet ,and most housewives had not learned the art of cooking fish in the best way. Here is room for a great national education campaign.

The minister of marine also pointed out that the German submarines had interfered with the British fisheries to such an extent that the British catch was greatly reduced and a British market had been created for imported fish He hoped that the packers and dealers would take account of this situation That is a message to British Columbia as much as to eastern Canada.—Vancouver News-Advertiser.

RED CROSS NOTES.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

HONEY AND GLUCOSE PRICES INCREASE

Cause Apparent Rise in Cost of Living in Canada—Woolens Also Are Up.

(By Daily News Leased Wire.)

OTTAWA, Sept. 13.—A slight rise in the cost of living during August is indicated by the department of labor's index number of wholesale prices in Canada. The index number stands at 147.6 for August, as compared with 147.1 for July and 136.3 for August, 1914. This is the highest since 1890, when the department first made a systematic calculation of the cost of living. It is based on 272 commodities, the average price of which from 1890 to 1899 is placed at the index figure of 100.

The chief reason for the slight rise over last month is the higher prices for certain miscellaneous groceries, such as honey, glusoce and cream of tartar. Textiles are higher, especially woolens and jutes. Oil cloth is also up. Flax, sewing twine, made in Canada, is higher in price, owing to the increased price of flax.

Drugs and chemicals also affected the number slightly, these recording advances.

FOREIGN SITUATION RULES WALL STREET

Market is in State of Suspended Animation for Greater Part of Session.

(By Daily News Leased Wire.)

NEW YORK, Sept. 13.—Wall street's absorbing interest in the diplomatic situation and the outcome of the impending foreign exchange negotiations was reflected in the dulness of today's trading. The market was in a state of suspended animation for the greater part of the session but became active and strong in the final hour on reports that Washington and Berlin had agreed to submit the main points of the Arabic incident to arbitration.

Another feature was the announcement of the placing of additional large orders for steel and iron by foreign interests. These orders, it was declared, are likely to be considerably augmented should a large Anglo-French war loan be made by American bankers. Metal stocks also made decided improvement, their advance being associated with a better inquiry for refined copper. United States Steel was not only the most active issue but most potent in effecting the late rise, selling up 1¾ points to 75⅞ on the usual large individual transactions. War shares again contributed largely to the total but this group gathered its momentum from familiar professional sources.

Railway shares repeated their variable or reactionary tendencies of recent days, every marked gain being soon effaced on profit taking or bear pressure.

The uncertainty attending credit conditions between this centre and London was seen in the unsettled state of demand sterling, which fluctuated between 4.64¾ and 4.67¼.

Bonds were irregular, a condition ascribed to further foreign offerings. Total sales, par value were $2,470,000. United States bonds were unchanged on call.

CANADIAN CAR GETS $52,000,000 ORDER

(By Daily News Leased Wire.)

NEW YORK, Sept. 13.—Negotiations for the purchase for the Russian government from the Canadian Car & Foundry company of 3,000,000 shrapnel and high explosive shells at a cost of $52,000,000 have been successfully completed, it was stated at the local offices of the company today.

CANADIAN PACIFIC MAKES TWO-POINT RISE IN TORONTO

(By Daily News Leased Wire.)

TORONTO, Sept. 13.—The local market for securities today was mainly made up of small lots, chiefly for investment. Prices as a rule were steady, with a smaller trade in the war issues. The total number of shares dealt in, exclusive of mining issues, was 1049, against 375 Saturday.

A good deal of uncertainty is arising with regard to the future of United States securities. Dealings in Steel of Canada amounted to 350 shares and the stock sold at 32¼ to 32½, or a net gain of ½.

The greatest advance was in National Steel Car, which rose 5 points on a trade in only 60 shares. It closed at 41 and the preferred at 89½. Canadian Pacific advanced 2⅛ to 154⅝, in sympathy with the advance in New York. Crow's Nest Coal was firm with sales at 62½ to 63½.

PRICES RESPOND EASILY TO SMALL DEMAND

(By Daily News Leased Wire.)

MONTREAL, Sept. 13.—The upward tendency of the New York list encouraged some buying of stocks here today and prices responded easily to a demand of comparatively small proportions. Declines in the late trading last week recorded by a number of stocks like Iron, Steel of Canada and Scotia and notable strength was shown by Canadian Car common, which sold up to 18 and advance of 7 points from Saturday's close and finished at the best.

Iron rose from 42¼ Saturday to 43¾; Scotia from 85 to 85¾; Steel of Canada from 31¾ to ¾, with best prices marked at the final trading. Bridge was quiet and closed 140¾ bid or unchanged. General Electric was active and sold at 98¾, with 99 bid at the close.

The rest of the market showed few changes. Laurentide was firmer at 167, ½ higher, but Power sold at 215 against 218 in the last trade. Shawinigan was also off from 119 to 118¾. Cement common was dealt in at the 28 minimum.

TWELVE MILLION IN GOLD BOUGHT FROM LONDON

(By Daily News Leased Wire.)

LONDON, Sept. 13.—Announcement was made today by the Bank of England that gold to the amount of $11,950,000 had been engaged for export to the United States. The exchange market showed its customary variations today. Cable transfers opened at 4.67 at 4.67½; the rate hardened to 4.68, at which point there were several transactions and then the rate eased to 4.67.

Operators virtually closed their books until a large buyer appeared and forced the rate to 4.65½ at 4.66. Such erratic fluctuations probably will continue until the plan of the Anglo-French commission is made known.

CHICAGO STOCKYARDS.

(By Daily News Leased Wire.)

CHICAGO, Ill., Sept. 13.—Hogs, receipts, 31,000; easy to 5c decline; bulk, 6.80 at 7.70; light, 7.40 at 8.25; mixed, 6.55 at 8.20; heavy, 6.30 at 7.75; rough, 6.30 at 6.50; pigs, 6.50 at 7.65.

Cattle—Receipts, 19,000; weak; native beef cattle, 6.10 at 10.30; western steers, 6.6 0at 8.75; cows and heifers, 2.90 at 8.30; calves, 8 at 12.

Sheep—Receipts, 22,000; weak; wethers, 5.25 at 5.85; ewes, 3 at 5.40; lambs, 6.25 at 8.85.

WET WEATHER MAKES WHEAT GO HIGHER

Pit Fears That Deliveries Will Be Delayed—Big Terminal Receipts Cause Sag.

(By Daily News Leased Wire.)

CHICAGO, Ill., Sept. 13.—Fear that wet weather in the northwest might prevent timely deliveries on contracts made the wheat market today average higher. The close was unsettled at an advance of ⅜ to ½ at ⅝, with September at 99¾ and December at 95¾.

Oats were off a shade to ⅜, and provisions varied from 2½ decline to a rise of 12½. Wheat prices showed a decided bulge soon after the opening but not until a burst of selling at the start had carried values sharply lower. The temporary sag was chiefly due to big receipts at the leading spring crop terminals. Reports quickly became current, however, that such large amounts of spring wheat had been contracted for that a few days' delay from wet weather or otherwise might make it physically impossible to fulfil bargains. Assertions that the ensuing advance had given a serious check to export business led afterward to reactions in which most of the gains disappeared.

Stocks of wheat failed to enlarge as rapidly as many traders seemed to have looked for. In this connection a good deal of notice was taken of the fact that supplies afloat for Great Britain and in store at Liverpool showed a decrease unusual at this season. In the domestic visible supply the increase was considerably less than half the gain at the corresponding period a year ago.

Oats sympathized with the bearish action of corn. The government ruling against sulphured shipments apparently tended somewhat for the time being to restrict demand.

Trading in provision futures was at a standstill the greater part of the session. The cash demand nevertheless remained fairly active and exports showed a heavy increase compared with previous weeks and a year ago.

METAL PRICES.

(By Daily News Leased Wire.)

NEW YORK, Sept. 13.—Silver, 48⅝; at London, 23 9-16.

Lead: At St. Louis, 4.55; at New York, 4.65; at London, £23 2s 6d; at Montreal, 5,76.

At London: Spelter, £71.

Copper quiet; electrolytic, 18; at London, spot copper, £68; futures, £69 10s; electrolic, £82.

BUTTER PRICES ADVANCE.

(By Daily News Leased Wire.)

MONTREAL, Sept. 13—Butter prices advanced slightly today. Cheese was quiet but firm. Demand for eggs was fair and prices firm.

Cheese: Finest westerns, 14¾; easterns, 14¼ at ½.

Butter: Choicest creamery, 28¾ at 29; seconds, 27¾ at 28.

Eggs: Fresh, 29 at 30; selected, 28; No. 1 stock, 23; No. 2 stock, 20.

Pork: Heavy Canada short mess, 28; short cut back, 27 at 27½.

EXCHANGE N CANADA.

(By Daily News Leased Wire.)

WINNIPEG, Sept. 13.—The Royal bank gives the following approximate sterling rate of exchange in Canada today:

Cables, 4.67¼; demand, 4.66¼; 60 days, 4.62¾.

New York exchange on Canada is at ¼ premium.

GOOD WOOL IN DEMAND.

(By Daily News Leased Wire.)

LONDON, Sept. 13.—A moderate selection was offered at the wool auction sales today. There was a fair demand at steady prices for good sorts but lower grades were neglected. Americans bought a few lots of cross breeds.

NELSON, B. C.

700,000 FEET OF LUMBER CUT FOR RAILROAD USE

VICTORIA, B. C.—The minister of lands is in receipt of advices from the Tete Jaune Cache district, reporting that during August there were 700,000 feet board measure, scaled, being timber cut by the Canadian Northern Pacific railway during its construction through the timber limits in the North Thompson valley, and representing the addition of $2,600 to the provincial revenue in stumpage and royalties.

While its lumber industry is quiet, it is believed that much development will take place in that district as soon as economic conditions permit.

Fifty-five fires have been reported this season, some 60 acres in all having been burned over, with damage to rather less than 300,000 feet of standing timber. Ten of these outbreaks affecting 20 acres, and damaging about two-thirds of the timber mentioned, were due to lightning. Hot, dry windy weather for the past few months rendered the position one of great hazard, and it is a tribute to the efficiency of the fire-wardens that the losses and fire fighting expenditures have been kept within comparatively small limits. The splendid spirit of co-operation existent throughout this large district has been a valuable asset, several instances having occurred of settlers walking or riding many miles in order to report the outbreak of a fire.

Land clearing by settlers has been extensively undertaken this year, and good crops are reported generaly, especially in view of the fact that many areas are virgin ground, and have been broken up for the first time this year.

HEAD OF REVELSTOKE SAWMILLS COMPANY DEAD

S. H. Bowman Dies Suddenly in Minneapolis—Was Former President of Yale-Columbia Co. at Nelson.

Advice nas been received from Minnepalis of the somewhat sudden death of S. H. Bowman, president of the Revelstoke Sawmills company, at the age of 62. Although Mr. Bowman had not been in very good health during the past few weeks, his death came as a surprise to his business associates and friends.

The late Mr. Bowman was very actively connected with the lumber business, both as a retail lumberman and as a manufacturer, not only in Minneapolis and the middle and southern states, where he has very extensive financial interests, but also in British Columbia, Alberta and Saskatchewan.

Mr. Bowman was, up to a few years ago, largely interested in timber and the manufacture of lumber in British Columbia, having been president of the Bowman Lumber Co., Ltd., Revelstoke Sawmills Co., Ltd., at Revelstoke, B. C., and the Yale-Columbia Lumber Co., Ltd., at Nelson, B. C., which companies operated some seven sawmills in the interior of British Columbia, and in which district Mr. Bowman still held at the time of his death very extensive timber interests.

During the past few years the late Mr. Bowman was largely identified with the retail lumber business in Alberta and Saskatchewan, having been president of the Revelstoke Sawmill Co., Ltd., Atlas Lumber Co., Ltd., Globe Lumber Co., Ltd., and Alberta Lumber Co., Ltd., being associated in business with his former associates in the lumber manufacturing business in British Columbia, F. W. Hess and F. E. Stine. These companies operate nearly 100 retail lumber yards in Alberta and Saskatchewan.

Mr. Bowman is survived by his wife and one son, S. H. Bowman, Jr., also two brothers, B. C. Bowman of Minneapolis and W. C. Bowman of Kansas City.

SPECIAL PRIZES FOR VEGETABLES

Extra Awards Offered by Nelson Fall Fair for Display of Home Garden Produce

Three special prizes have been announced by the directors of the Nelson fall fair, open to members of the Nelson and Fairview Improvement associations who competed in the garden competitions this summer, the judging of which has just been completed by M. S. Middleton, provincial horticulturist.

The competition will be for the three best displays of vegetables grown in the exhibitor's garden, the space of 4 feet by 4 feet being alloted to each exhibit in the fair building. Mr. Middleton states that the gardens judged by him were, on the average, excellent examples of what can be done with home gardens, considering the fact that the competition did not begin until late in the year and the competitors had little opportunity to make preparations.

The prizes offered for the fair exhibits will be $5, $3 and $2.

HOTEL MAN FINED FOR SUPPLYING INTERDICT

Minor Accuses Hotel Man of Making Him Intoxicated—Cases in Police Court.

For selling liquor to John Norlieu, an interdict, John McLeod, proprietor of the Royal hotel, was sentenced to pay a fine of $50 by Police Magistrate William Irvine in the city police court yesterday morning. Alsid Desireau, who was charged with the wilful destruction of property, having broken an electric barber's pole valued at $100, outside the New Grand hotel on Saturday night, was fined $20 or 60 days. Desireau, who is a minor, pleaded that he was drunk and not responsible for his actions. He claimed he obtained liquor in several hotels in the city. The proprietors of the hotels named will appear before Magistrate Irvine this morning.

NEW TROLLEY WIRES FOR CAR LINES

City Council Orders Installation of New Overhead System on Down Town Streets

Instructions were issued by the city council to H. P. Thomas, superintendent of the city's electrical department, at the meeting held in the city hall last night, to file an order for sufficient copper wire to replace the overhead trolley system between Front and Ward streets and Stanley and Baker streets.

Mr. Thomas, in a report placed before the council, stated that the cost of the installation would be about $750 and that it would take four weeks to have the order filled. He also advised the removal of the city's poles on Baker street and the replacing of them with new poles in the lanes in the rear of the street. The material for this work, he reported, is all on hand in the city's stores, including poles, crossarms and other necessary parts. He estimated that if the work were done at once and in conjunction with the removal of the telephone company's poles the cost of the work could be kept down to an outside figure of $4000.

A suggestion was made by Ald. A. Larson that the city adopt and equip the street cars with a device for taking the current from the wire known as the pantograph connection. He maintained that this device was in use in a number of European cities and had proved a great success. The suggestion was laid upon the table.

GUNS OF BOER WAR AWAKE SEATTLE MAN

Heard Them for Thirteen Years Before Regaining His Memory.

SEATTLE. — Troop-Sergt. William Tait, formerly a British soldier in the Boer war, woke up at the King county hospital today after 13 years of unconsciousness. Of events that have occurred since 1902 Tait is absolutely ignorant and a returning memory found him still recalling scenes and incidents that transpired 13 years ago.

The case of Tait is one of the most remarkable that has ever been brought to the attention of the Seattle medical fraternity. It rivals that of S. Chandler Roberts who for years traveled about under a mistaken idea of his identity.

During a skirmish in South Africa in 1902 Tait was rendered unconscious when he fell beneath his horse's hoofs and until he awoke in Seattle no single event of the intervening years had made the slightest impression on his mind. When he regained consciousness he was still mentally on the field of battle scouting for companions from whom he believed himself separated.

Tait was found two weeks ago lying on the banks of the Duwamish river, near death and was taken to the hospital where careful medical attendance restored him to health.

RECRUITS LEAVE FOR VERNON CAMP

Fifteen Men Respond Instantly to Call of Commander of 54th Kootenay Battalion.

In reply to the request of Col. Arnold Kemball, commander of the 54th Kootenay battalion, for 15 recruits, the following men at once came forward and have gone to Vernon to join the regiment: H. T. Aitken, a miner from Salmo; A. E. Almond, of the Royal Bank, Nelson; W. Hoare of Sandon; Rev. George Turpin, of Nelson; A. F. Clease of the Arrow Lakes boat service; W. G. Mills, A. Patterson, who saw active service in the South African campaign; H. C. Mitchell, a store keeper of Ymir; William Clarke, of Ymir; H. Colebrook, of Fruitvale; J. H. Dronsfield, of Kokanee, who saw service in South Africa; A. Bartholemew, of Nelson, and D. Dale of Crawford Bay.

The following Crawford Bay men left several days ago to join the army service corps at Vernon camp; A. C. Deo, J. Derbyshire and S. Webb.

ATTRACT SHOPPERS DURING FAIR WEEK

Nelson Merchants to Offer Special Inducements While Visitors Are in City.

On Sept. 23 and 24, the two days of the Nelson fall fair, the merchants of Nelson will make special offers to interest the purchasing public from districts outside the city who will be here to attend the big exhibition.

Special bargains and lines of goods which will make a strong appeal to visitors will be advertised in The Daily News before the fair opens in order that intending purchasers may secure an idea of what is being offered before they commence their actual shopping expeditions.

A single fare rate on all railroads and steamer lines is in effect for the exhibition and the Nelson merchants believe that the occasion will present a splendid opportunity for people living outside the city to do their fall and part of their winter buying.

Social and Personal

Mr. and Mrs. L. Wade of Victoria are guests at the Strathcona.

C W Harper of Slocan City is visiting the city and is registered at the Hume

Mr. and Mrs. Murphy will leave this morning on the Great Northern for a visit to Spokane.

Major A. J. Budd of Queen's Bay visited the city yesterday and was a guest at the Hume.

Miss B. B. Betts of the provincial government offices has returned from a vacation at the coast.

Alex Dove, school inspector, Victoria, arrived in the city last night and is staying at the Strathcona.

L. B. DeVeber, manager of the Bank of Montreal, will leave this morning for Spokane via the Great Northern.

Miss Florence Bretburg will leave today on the Great Northern for a visit to Seattle and other coast cities.

Mr. and Mrs. David Wade will leave this morning on the Great Northern on a visit to the Spokane fall fair.

W. P. Tierney, railway contractor of Vancouver, arrived in the city last night and is registered at the Hume.

Walter Jordan of Robson has been appointed foreman of the Medicine Hat News and has left for that city.

F. W. Smith left yesterday morning on the Crow boat for Montreal where he will sail for England on the steamship Corinthian.

Pte. Lawrence Amas of the 54th battalion, who has been visiting his parents, left last evening for camp accompanied by his sister, Miss Beatrice Amas, who will visit relatives in Vernon and Revelstoke.

Mrs. T. A. Weeks and sons who have been spending a few days in Nelson left last night for a visit to East Robson. They will return to Nelson, remaining for the fall fair, before returning to their home in Vegreville, Alta.

At a gathering of the pupils of the Nelson high school, held in the school building yesterday afternoon, a wrist watch was presented to Charles H. Bradshaw, one of the pupils, who left last night for Vernon camp to join the 54th battalion. The presentation was made by the principal on behalf of the pupils who united in wishing him a speedy and safe return.

CHILDREN SHOULD HAVE HARD FOODS

Mushy Food Given Children Bad for Their Teeth, Says Dr. E. G. Smyth.

The importance of taking proper care of the teeth was urged upon the members of the Nelson and District Women's institute by Dr. E. G. Smyth in an address delivered by him at a meeting held on Saturday afternoon on the lawn of Mrs. Mohr's home at Fairview.

Beginning with the child of two, he said that the proper care of the teeth should be a matter of first importance with the parents of children and gave it as his opinion that the cause of a great deal of trouble, not alone with the teeth, but with the child's general health was due to the use of soft and mushy foods. Hard foods should be given the child just as soon as it has sufficient number of teeth to make mastication possible, in order to strengthen the roots and give the teeth the proper amount of work to develop them.

The doctor emphasized the necessity of seeing that the teeth are properly cleaned at least three times a day. He stated that in this connection he had found that the best cleanser for the teeth was simply cold water and castile soap. He laid great stress on the cleansing of the teeth before retiring for the night, as it was during the night that any particles of food lodged in or between the teeth were most apt to decay and produce acids which are injurious to the teeth.

The general health of children as well as adults, he claimed, depended greatly on the condition of the teeth. Many ills, he said, could be traced directly to bad or defective teeth and that when cavities were first noticed no time should be lost in having them properly attended to, as the injured tooth decayed with great rapidity when once the enamel went and exposed the soft under surface of the tooth.

PIGS ARE KEPT IN SANITARY CONDITION

Report of Medical Health Officer on Complaint of Alleged Public Nuisance—City Council Meeting.

That no bylaw exists which prohibits the keeping of pigs within the city limits, unless they become a nuisance, was the statement made in the report of the medical health officer in the case of the complaint of Mrs. Jeffries and neighbors, which was placed before the city council at the regular meeting in the city hall last night.

Several weeks ago a complaint was made in a letter signed "Mrs. Jeffries and neighbors," which stated that they believed a bylaw had been put in force several years ago prohibiting the keeping of pigs within the city limits and asking that this law be enforced. The matter was placed in the hands of the medical health officers who, in addition to the statement quoted above, stated that in company with the chief of police he had visited the premises complained of and had found that the animals were being kept in a clean and sanitary condition. He said, however, that he believed it to be impossible to keep pigs without their giving off an offensive odor under certain circumstances and recommended that a bylaw be passed which would make it unlawful to keep pigs in the city.

It was felt by the council that the matter ws fully covered in the city's statutes dealing with public nuisances and that if the official had reported the enclosure or surroundings in which the animals were kept as being in an unsanitary condition the police would have the power to act. The report of the medical health officer was filed.

The application of The News Publishing company for an adjustment of the rate on its electric power and gas was referred to the gas committee and the fire, water and light committee for a report. On the proposal of Ald. A. S. Horswill it was decided to send letters of condolence from the city of Nelson to the relatives of the late D. C. Macgregor, mayor of Kaslo and to the city council and citizens expressing the regret and sympathy of the Nelson people in their loss. The council then adjourned to meet on Monday night, Sept. 27, at 8 o'clock.

REINFORCEMENTS ARRIVE FOR PRINCESS PATS

(By Daily News Leased Wire.)

REGINA, Sept. 13.—Word was received in the city today by cable from England of the safe arrival there of the boat carrying the members of the 3rd university company, reinforcements for the Princess Patricias, recruited from this city.

NURSING EXPERT TO ADDRESS INSTITUTE

Women Will Hear Lectures on Nursing by Fannie Steel—Cases Wanted for Home Cooking Exhibit

It was announced at the meeting of the Nelson and District Women's institute held on Saturday that Miss Fannie Steel, an expert on nursing, will address a series of meetings in Nelson on Oct. 4 and 6. Miss Steel, it was stated, received her training in several English hospitals and has had a wide experience in district nursing, as well as having served as nursing sister through the South African war. Some of her subjects were announced as follows: Prevention of sickness and the cure of sickness; practical nursing, including first aid in minor and serious accidents.

It was decided at the meeting to request the board of directors of the fall fair to provide glass show cases for the exhibits of home cooking as in preceding years the food, it was claimed, had been ruined through handling by visitors and rendered unfit for further use as well as for exhibition purposes. It was stated that the women themselves hired a case last year, but that they feel that it is the duty of the directors to make adequate preparation for these exhibits as in many cases great trouble is gone to to make this department a success.

BRYON N. WHITE BURIED YESTERDAY

First Owner of Slocan Star Dies After Lingering Illness at Home in Spokane.

The death of Byron N. White at his home in Spokane on Saturday night removes one of the best known mining men in the Kootenay-Boundary district, Mr. White having been associated with mining interests throughout the district and particularly with the fortunes of the Slocan Star, for many years. Mr. White was the brother of Bruce White of the Noonday mine and Oscar V. White of the Slocan Star.

Mr. White's illness dates back three years and he had been seriously ill for the last 18 months, when he suffered a stroke of paralysis. Since that time he was confined to his home. On September 4 he suffered the third stroke and was in a state of coma thereafter.

Born in Michigan.

Mr. White was born in northern Michigan 65 years ago and came to Spokane a quarter of a century ago from Ontonogan, Mich., where he was engaged in iron and copper mining. He was one of the original owners and opened up the celebrated White Pine mine, one of the great copper producers of the United States.

Upon arriving at Spokane Mr. White engaged in mining and continued in this business till taken ill. He was one of the original owners of the Slocan Star mine in British Columbia and was heavily interested in it at the time of his death. He was also interested in the Yukon-Pueblo mine at Whitehorse, Yukon territory, and in mining properties in Oregon. He operated in Mexico for a time.

Widow and Son Survive.

Mr. White was married to Miss Sarah Blackwood at Chatham, Ontario, in 1884. Mrs. White survives. Prosecuting Attorney White is their only child. Two brothers, Bruce White and O. V. White of Slocan, B. C., and sisters, Mrs. Charles Culver of Seattle, and Mrs. T. Sharp, Spokane, survive.

Mr. White was a member of the various Masonic bodies and expressed the wish that he be buried under the auspices of this order.

The funeral was held at the residence at 2 o'clock yesterday.

Canton Corona No. 7, I.O.O.F. will meet tonight to discus important business.

The board of directors of the Kootenay hospital will meet this evening at 8 o'clock.

The officers and members of Queen City Rebekah lodge will meet Wednesday night at 8 o'clock for practise.

The Boy Scouts will parade at the armory this evening to arrange details for the Camp Fire entertainment on Sept. 17.

A meeting of the committee in charge of the Nelson and District machine gun fund will be held this afternoon at 2 o'clock in the council chamber at the city hall.

Through a typographical error the price of Galt coal in C. F. McHardy's advertisement yesterday morning was given at $6 instead of $6.50, which is the correct price.

CONDUCTOR FALLS UNDER WORK TRAIN, LOSES LEG

VANCOUVER, B. C., Sept. 13.—Conductor William Abbott fell under a work train at Port Moody Sunday afternoon and was so badly hurt that his left leg was later amputated between the knee and ankle.

A guest called upon to return thanks for the distinguished strangers at a public dinner said:

"This is quite unexpected; in fact when I came into this room I felt much like Daniel in the lions' den. When Daniel got into that place and looked around he thought to himself, 'Whoever's got to do the after-dinner speaking, it won't be me.'"

Fit-Reform Style Book

If you want to know what is new and good in Fall Suits and Overcoats, call or write for a copy of the FIT-REFORM STYLE BOOK. It shows what well dressed men are wearing these days—and helps a man to make wise selections in choosing his fall and winter wardrobe.
