VOL. 15 No. 96 NELSON, B. C., SATURDAY MORNING, AUGUST 5, 1916 50c. PER MONTH

VERDUN AGAIN STORM CENTRE OF BATTLEFRONT IN FRANCE

Greater Part of Fleury Is Taken From Huns

THIAUMONT WORK IS CAPTURED BY FRENCH

Infantry Rests While Big Guns Thunder Along Somme Banks

(By Daily News Leased Wire.)

LONDON, Aug. 4.—Verdun, almost quiescent during the Anglo-French offensive in the Somme region, has again become the storm centre on the western battlefront. The French forces have taken the offensive on the right bank of the Meuse, and now have the Thiaumont work and the greater part of the village of Fleury, according to Paris.

The Thiaumont work, already the scene of many desperate combats, was twice in French hands during 12 hours today.

The forces of the German crown prince fought tenaciously, driving the French from the work once, but losing it again. German counter-attacks were of no avail, says Paris, and the work remained in the possession of the French. Fleury, which changed hands Thursday after the French had succeeded in taking it, is again almost entirely occupied by the French. Fierce fighting still continues in and around the village.

German wounded prisoners taken in the Verdun fighting number 400.

On the Somme front in northern France there has been little infantry activity, both the British and French official communications failing to report any moves on the part of their armies. London says the Germans bombarded the sections southwest of Pozieres, and also the southern portions of the Mametz wood.

British Statement

The following official statement was issued this evening:

"It was a quiet day. In the trenches which we captured last night west of Pozieres we are in close touch with the enemy. A large number of German dead is lying all around the trenches. We captured more than 100 prisoners.

"The enemy's artillery maintained a barrage southward of Pozieres nearly all day. It also shelled the southern portion of the Mametz wood. Near St. Eloi the enemy exploded a small mine, which only damaged its own trench. The enemy fired another near Auchy on its own side of a crater. This seems to indicate some nervousness among the miners.

"A patrol of four of our airships engaged enemy machines in a fight which lasted 45 minutes. Three of the enemy's aeroplanes were driven down, while two of ours are missing."

French Launch Offensive

PARIS, Aug. 4.—Attacking simultaneously from the northwest and from the southeast, French troops yesterday stormed the village of Fleury, three miles north of Verdun and captured several hundred Germans.

In the evening, however, the Germans launched a furious counter-attack and after several violent attempts succeeded in getting a footing in the south part of the village. The French today continued to hold the northern section of the place and heavy fighting is in progress along the Thiaumont-Fleury line. At one period of the fighting the French entered Thiaumont earthworks, but withdrew owing to the intensity of the German bombardment, taking 80 prisoners.

The French in their last three days of offensive regained all the ground that the Germans had taken several weeks to conquer.

Paris Statement

The following official statement was issued tonight:

"On the front of the Somme our artillery has bombarded enemy organizations. We destroyed near Eunemain, to the south of Peronne, a German captive balloon.

"On the right bank of the Meuse fighting continued all day in the region of Thiaumont and Fleury, and to the northwest and south of the

BATTLE PLANES OF FRENCH ARE ACTIVE

(By Daily News Leased Wire.)

PARIS, Aug. 4.—"During Wednesday night our battle aeroplanes dropped projectiles on the stations of Hem and Noyen," says a French official report today.

HUNS SUFFER HEAVY LOSSES ON SOMME

Account of Great Conflict Is Given by Paris Correspondent—News of Fleury Cheers Men

(By Daily News Leased Wire.)

PARIS, Aug. 5.—The correspondent of La Liberte in northern France sends the following account of fighting in the Somme region:

"While furious cannonading is going on night and day destroying the adversary's entrenchments, the Germans are trying desperately to take the allied positions in Delville wood and at the Monacu farm. Repeated attacks, however, have been in vain, and prisoners confirm the extent of the German losses.

"The 148th Bavarian regiment, which was seriously affected at Bethincourt, was re-formed and hastily sent to the Somme front July 10. One of its battalions was wiped out, while the second and third lost 50 per cent of their strength.

"A major and four officers of the third battalion were made prisoners.

"The 11th regiment also suffered heavy losses, which are admitted in a service note found on a prisoner. The note ended with these words: 'From this day, July 31, the second battalion ceases to exist. The men belonging thereto are ordered to join the 1st battalion.'

"One of the French machine gun companies was able to concentrate a flanking fire on the Germans debouching from the Maurepas road, and inflicted heavy losses on them. All day yesterday the Germans bombarded violently our work there and the adjoining sector, but French batteries replied energetically and reduced a number of the enemy guns to silence.

"The efforts of the Brandenburgians to retake Delville wood were futile in face of the courageous resistance of the South African troops. At one point the British allowed the Brandenburgians to come within less than 50 metres of the British positions. There they were met by the simultaneous fire of machine guns and only a few escaped the massacre.

"The news of the retaking yesterday of Fleury was received on the Somme front with much enthusiasm. Officers and men sang the Marseillaise, their voices resounding as far as the adversaries' trenches. At —— the soldiers hastily constructed with leaves a triumphal arch, placing on it the inscription 'We will get them.'"

PLANES DROP BOMBS ON SHIPS AT SUEZ

Town of Ismalia on Lake Border Also Is Attacked by Enemy—No Damage Is Done

LONDON, Aug. 4.—A bombardment of shipping on the Suez canal by hostile aeroplanes was announced today in an official statement. The attack was carried out by two machines over Lake Timsah, 45 miles south of Port Said.

The town of Ismalia, on the lake border, also was bombarded. No damage was done by either attack, according to official statements.

CLUB HOUSE OF WINNIPEG GOLF CLUB IS BURNED

WINNIPEG, Aug. 4.—The clubhouse of the Winnipeg Golf club was burned this afternoon and about 120 members lost personal belongings. The loss is estimated at $11,000.

A number of handsome silver trophies were destroyed.

SHACKLETON FAILS TO REACH ELEPHANT ISLAND

LONDON, Aug. 4—The Chronicle says Sir Ernest Shackleton has again failed to rescue men left on Elephant island, and returned to Port Stanley. He will await the arrival of the steamer Discovery from England for another attempt.

ENEMY REPORT TELLS OF RAID ON FIUME

Statement of Attack Made Recently by Italians Issued by Austrian Admiralty.

(By Daily News Leased Wire.)

BERLIN, Aug. 4.—Wireless to Sayville.—The following statement was issued by the Austro-Hungarian admiralty today.

"At 7:30 a.m. Aug. 1, an Italian air squadron comprising 14 battle planes, flew over Istria by way of Pirano. Lieut. Banfield, in a hydroplane pursued the leaders of the hostile squadron and reached a group of seven caproni machines over Fiume. At a height of 2700 metres he shot down one of the capronis. The pilot was killed and the two observers were taken prisoners. Lieut. Banfield and his hydroplane returned unharmed."

The Italian war office on Aug. 2 announced a raid by a caproni squadron upon the Whitehead torpedo and submarine works near Fiume, on which four tons of explosive were dropped.

It adds that one of the capronis was forced to land in Austrian territory.

DUKE OF CONNAUGHT TO LAY CORNERSTONE

Exercises in Ottawa at New Parliament Building Will Be Held September 1.

(By Daily News Leased Wire.)

OTTAWA, Aug. 4.—The cornerstone of the new parliament buildings will be laid by the Duke of Connaught Sept. 1. The date was fixed today by the parliamentary reconstruction committee owing to the fact that Sept. 1, 1860 the cornerstone of the old building was laid by the late King Edward.

The committee met for two days and adjourned this afternoon. Those present were Hon. Robert Rogers, Hon. Dr. Pugsley, Hon. Dr. Reid, Hon. R. Lemieux, Hon. P. Blondin and Hon. Senator Watson.

Consideration was given to all matters of detail incident to the work of reconstruction of the buildings. It was agreed that all supplies should be purchased by tender and a committee was appointed composed of Messrs. Pearson and Marchand, architects, D. Ewart, consulting architect, and Deputy Minister J. B. Hunter.

The architects have been called upon to prepare certain reports explaining the reasons for the complete removal of the old walls.

The committee will meet in a week or 10 days and will consider these reports and transact other business.

RULING IN VANCOUVER BANK CASE IS MADE

Registrar Announces Each of 600 Shareholders Must Pay Balance Due on Their Shares

(By Daily News Leased Wire.)

VANCOUVER, B. C., Aug. 4.—Registrar Pottinger today announced the settlement of the list of contributories of the Bank of Vancouver and as a result of the decision each of the 600 shareholders of the defunct institution will be responsible for the payment of the balance due on their shares. The shareholders own from one to 150 shares each.

All the contributories are, however, discharged from liability under the double liability clause, the registrar ruling that the action of the liquidator finding them liable under that clause was premature. All interest charges on overdue instalments of stock are also struck out.

KING GEORGE SENDS MESSAGE TO ALLIES

Conveys Steadfast Resoution to Prosecute War Until All Objects Are Attained.

LONDON, Aug. 5—King George yesterday telegraphed the heads of the entente allied states on the occasion of the second anniversary of the declaration of war against Germany as follows:

"On this side, the second anniversary of the commencement of the great conflict in which my country and its allies are engaged I desire to convey to you my steadfast resolution to prosecute the war until our united efforts have attained the objects for which we in common have taken up arms.

"I feel assured that you are in accord with me in the determination that the sacrifices our valiant troops have so nobly made shall not have been offered in vain and that the liberties for which they are fighting shall be fully guaranteed and secured."

King George also sent the following message to King Albert of Belgium:

"I desire to assure you of my confidence that the united efforts of the allies will liberate Belgium from the oppression of its aggressors and restore to it the full enjoyment of its national and economic independence.

"I also desire to convey my deep sympathy in the grievous trials to which Belgium is so unjustly subjected and which it has borne with such fortitude."

DANISH PARLIAMENT DISCUSSES SALE TO U. S.

(By Daily News Leased Wire.)

COPENHAGEN, Aug. 4.—The Danish parliament took up the question today of the sale by Denmark of the Danish West Indies to the United States.

ARE RESOLVED TO CRUSH GERMANY

Get Message From Haig At London Meeting

STIRRING ADDRESS MADE BY ASQUITH

Bonar Law Says War Most Wicked World Has Ever Seen

(By Daily News Leased Wire.)

LONDON, Aug. 5.—"We look forward with confidence to triumphant peace," was the conclusion of an inspiring telegram from Sir Douglas Haig, commander of the British armies in France, read at a packed meeting in Queen's hall tonight to celebrate the second anniversary of the war. The Earl of Derby, under secretary for war, presided at the meeting, which was most enthusiastic and representative of all classes of society. Earl Derby read a telegram from Admiral Sir John Jellicoe, the commander-in-chief of the British grand fleet, which was similar in tenor to that sent by Gen. Haig.

In a brief speech Earl Derby said:

"Notwithstanding our losses and the misery and anxiety caused by the war, the empire is just as desirous as ever to see German militarism crushed. Although the end of the war may not be in sight, never have we stood in so favorable a position as tonight."

Premier Asquith received a tremendous ovation when he moved a resolution expressing the inflexible determination of the people of London to continue the war to a successful end.

Was Costly Blunder

Referring to Germany's costly mistake and delusion in supposing that Great Britain would never join France and Russia in arms, the premier said that never in the tangled and bungled web of German diplomacy had there been an error so crude in conception and so disastrously fatal to its authors. Proceeding to review the two years, Premier Asquith said the war has breathed a new spirit into the British nation while there was nothing more remarkable during the last year than the success with which the entente allies had developed a common policy and a united plan, which had resulted in the present successful and vigorous offensive on three fronts of the theatre of war.

"Our navy," he continued, "with its ever-tightening grip is throttling the life of Germany and never in history has there been such demonstrative proof of the supreme importance of the command of the sea.

"The enemy is everywhere on the defensive. In no theatre has it attempted to regain the initiative and there are signs of material weakening and exhaustion. That is all the more reason why the allies should cooperate and maintain the struggle with increasing tenacity and unrelenting will.

"The recrudescence of deliberate and calculated barbarity on the part of Germany indicates its sense of desperation. The record of Germany's latest atrocities will blacken and has even besmirched the annals of the German army. Nor can we forget the great infamy directed against ourselves in the judicial murder of Capt. Fryatt, which has stirred the indignation and outraged the conscience of the whole world."

To Deal With Atrocities

The premier was greeted with an outburst of applause when he repeated the statement he made in the house of commons that the allies were considering how to deal with German atrocities. He concluded by stating that all the allied army staffs are agreed that the prospects for an allied victory have never been so bright and that the final result of their victory would be "a great partnership of nations in the joint pursuit of a freer and fuller life for the countless millions who, by the efforts and sacrifices of generations after generations have made progress and enriched the inheritance of humanity."

Andrew Bonar Law, secretary for the colonies, characterized the war as the most wicked the world had ever seen and declared Germany has forever lost the advantages which the years of preparation had given it.

"The toils are closing around them," the minister said. "It is useless to talk about the latest German atrocities. We must do something as a wild beast is at large. There is no good in appealing to the civilized world about it. There is only one thing to be done, and we can do it—shoot it."

Bonar Law read messages from Premier Botha of South Africa, and Gen. Smuts, commander of the South African forces, urging the continuance of the war with determination.

The resolution moved by Premier Asquith was carried by acclamation.

30,500 TROOPS TRAINING IN MILITARY DISTRICT

(By Daily News Leased Wire.)

WINNIPEG, Aug. 4.—There are now more than 30,500 troops in training in military district 10. Of these 29,000 are at Camp Hughes, while the remaining 1500 are in various centres, according to official figures.

MERCHANTMAN SINKS GERMAN SUBMARINE

Master of British Steamer Strathness Arrives in Baltimore—Tells of Engagement.

(By Daily News Leased Wire.)

BALTIMORE, Md., Aug. 4.—Capt. David Thomson, master of the British steamer Strathness, which arrived here today from Mediterranean ports, told of an engagement which he declared his vessel had with a German submarine July 15 in which the submarine was sunk. Two gunners from the British navy who were in charge of a six-pound gun mounted on the after deck of the Strathness for defensive purposes, sank the submarine, according to Capt Thomson, when a ball struck it amidships, causing an explosion. He said the underwater boat dived suddenly and was not seen again While the Strathness was struck several times, once, according to the captain, by a torpedo, no great damage was done and the freighter escaped with several dented plates and portions of its superstructure demolished.

COAL MINERS HEADED FOR HARVEST FIELDS

May Mean Labor Shortage After Trouble Is Adjusted—No Developments at Calgary Meeting

(Special to The Daily News.)

FERNIE, B. C., Aug. 4.—There were no new developments in the local strike situation today. The regular meeting of the Fernie local union will be held Sunday, at which it is announced important business is to be transacted.

Many of the miners are already departing from here and Michel, the passages being almost entirely booked to Alberta and Saskatchewan farming centres. With this continued exodus even if the war bonus is granted, it will mean when operations are resumed that the already limited number engaged in the coal mining industry will be further depleted and a serious shortage of mine labor will result.

Meetings at Calgary

CALGARY, Alta., Aug. 5.—There were no developments in the coal situation yesterday. Committees of the opposing sides were in conference and the situation is not entirely hopeless.

It is understood that the operators have let it be known that they would be willing to make a compromise offer of 7½ per cent war bonus. Neither side would make any statement tonight. Negotiations will be continued today.

NEGRO BURGLAR IS TAKEN IN MOOSE JAW

Is Caught in Act of Entering Dwelling and Is Shot in Leg in Chase by Policemen

(Special to The Daily News.)

MOOSE JAW, Sask., Aug. 4.—Andrew Lott, colored and residence unknown, was captured early this morning by city detectives after being shot in the leg while in the act of fleeing from the scene of a burglary he was committing.

Lott, who is suspected of several recent burglaries, was caught in the act of attempting to enter a dwelling. Four members of the city police force gave chase and as they gained on the fugitive one of the detectives fired, the bullet striking the negro in the leg. Lott was taken to the hospital, where he will remain under guard until his trial.

BELGIAN OFFICIAL BALKS AT BIG FINE

Tells German Governor Penalty of $250,000 Recently Imposed Is Illegal and Inadmissable.

(By Daily News Leased Wire.)

BRUSSELS, Aug. 4.—Acting Burgomaster Lemonnier of Brussels, says a despatch, has sent a letter to Gen. von Bissengen, German governor of Belgium, flatly declining to pay a fine of $250,000 which was imposed on a Belgian committee in charge of a recent art exhibition. A bust of the kaiser that was exhibited at the request of the German authorities was removed from the exhibit after a hostile demonstration on the part of visitors.

In his letter to von Bissengen the acting burgomaster declares the fine was imposed on the public because of its patriotic sentiment and therefore is illegal and inadmissable.

OVERLAND RUNS 117,000 MILES

Ed St. Pierre, taxi owner in Wolcott, Ind., owns a Model 59 T Overland which he has driven 117,000 miles in livery work of all kinds. In writing to the Overland factory recently of its performance he says that his repairs for the entire period have not aggregated $100. "And it is still in fine condition," he says. "I have not missed a single day on account of the car."

WASHINGTON TOLD OF AUSTRALIAN BLACKLIST

(By Daily News Leased Wire.)

WASHINGTON, Aug. 4.—The commercial attache at Melbourne cabled the state department of commerce today that the Australian government had published and would follow the British blacklist of certain American firms under the Trading With the Enemy act.

HUNS FIGHTING DESPERATELY TO CHECK RUSSIAN ADVANCE

Fierce Conflict is Raging Along Stokhod

SAKHAROFF MOVING ON TOWARD LEMBERG

Line is Advanced and Many Prisoners Are Taken South of Brody

(By Daily News Leased Wire.)

LONDON, Aug. 4.—Desperate counter-attacks by the Germans in the region of the Stokhod river, east of Kovel, have resulted in the retirement of the Russian forces which had seized the village of Rudka-Miryanskai.

The fact that the village is only 19 miles from Kovel, the Russian objective on this part of the Volhynian front, probably accounts for the intensity of the fighting there.

The Russian general Sakharoff's troops continue to advance south of Brody and toward Lemberg. Petrograd reports the capture of 1300 Austro-Germans in a "hot attack" on the line of the Sereth and Graberki rivers.

Petrograd Statement.

PETROGRAD, Aug. 4.—The following official statement was issued tonight:

"On the outskirts of the Rudka-Miryanskai, which forms a salient on the river Stavok, a tributary of the Stokhod, there was desperate fighting the entire night, the enemy having approached the village from three sides and launched repeated counter-attacks Having repulsed these attacks we toward 3 a. m. evacuated the village and retired from 400 to 600 yards farther east.

"South of Brody, Galicia, on the line of the rivers Sereth and Graberki, Gen. Sakharoff's troops made a hot attack and took 1300 prisoners.

"An explosion of heavy shrapnel in Bordy killed Father Ouspinski, a regimental chaplain.

Berlin Statement.

BERLIN, Aug. 4.—The following official statement was issued today:

The text of the German statement reporting operations on the eastern front says:

"Army group of Field Marshal von Hindenburg—Northwest of Postavy we forced the enemy to abandon some advanced trenches and we repulsed, in the region of Spiagla, between the Narocz and Wisziev lakes advances against our field positions.

"On the Serweth, east of Gorodische, and on the Shara, southeast of Baranovichi, there was lively hand grenade fighting.

"Near Lubiewsbo strong enemy attacks again failed.

"In the Sitowiczeielich sector firece battles are developing, during the course of which the enemy penetrated the village of Rudkamirynskaia. During a counter-attack Germans and Austro-Hungarian battalions, together with parts of the Polish legion, completely recaptured the lost territory. They took 631 prisoners, captured several machine guns and completley repulsed the renewed Russian attacks.

"Farther south and near Ostrov and in the region to the east of the Svinuchy enemy enterprises did not proceed beyond the initial stage as the result of our fire.

"Front of Field Marshal Archduke Karl—There were no special incidents to report. In the Carpathians German troops gained some ground in the region of Kopilas.

"Balkan front—In positions south of Bitolj engagements took place with Servian detachments, which ended in favor of the Bulgarian advance posts."

U. S. ASKS CLEMENCY FOR IRISH OFFENDERS

(By Daily News Leased Wire.)

WASHINGTON, Aug. 4.—Ambassador Page advised the state department today that he had presented at the British foreign office yesterday the senate resolution requesting President Wilson to urge Great Britain to extend clemency to Irish political offenders.

He said the resolution was received without comment.

GAIN IS MADE BY BELGIANS IN AFRICA

(By Daily News Leased Wire.)

HAVRE, Aug. 4.—Belgian troops have occupied Kigoma and Ujiji, German East Africa, according to official despatches received here today.

CITIES CELEBRATE WAR ANNIVERSARY

Opening of Third Year of Great Struggle in Europe Marked by Holding Patriotic Exercises

(By Daily News Leased Wire.)

MONTREAL, Aug. 4.—Inflexible determination to continue to a victorious end the struggle for the maintenance of those ideals of liberty and justice which are the common and sacred cause of the allies was the keynote of a resolution presented tonight by Sir Robert Borden, and seconded by Hon. R. Lemieux, before an audience of 7500 people on McGill campus here tonight. The resolution was carried with a cheer. Inflexible determination was the keynote of the whole meeting and the strong emphasis of the premier, as he presented the resolution, which he knew was being presented and adopted tonight in towns and cities throughout the British Empire, was reflected by his audience.

"I am proud to come to the metropolis of Canada tonight," he said, "to present this resolution similar in terms to resolutions which will be adopted in a thousand British cities and towns throughout the Empire today. This day our men and women throughout the Empire are meeting to concentrate their energies toward the victory for liberty and justice to which our whole Empire has devoted itself during the last two years. For two years we have fought and prepared. This third year will be the one to fight in good earnest and I, for one, do not doubt that our cause is assured."

No Political Lines.

Mr. Lemieux, who came as representing Sir Wilfrid Laurier, made an eloquent speech in which he dealt with the manner in which the war had broken down political differences. He paid a warm tribute to Sir Robert Borden as a worthy successor to many noble statesmen from the maritime provinces.

"I think I voice the views of my French-Canadian compatriots and I say in their behalf," said the ex-postmaster-general, "'Can there be any thought of neutrality or peace while the enemy is in Belgium, France, Servia?' I say a thousand times, no."

Messages from Sir Douglas Haig and from Admiral Jellicoe breathing confidence in the final result, were read to the gathering by A. E. Holt, president of the Canadian club, who presided.

Haig's Cable.

Gen. Haig cabled:

"The second anniversary of the war now sees British units from all parts of the Empire acting on the offensive. The great army of working men and women at home and overseas has contributed greatly to this result. Their continued hard work and decision to take no general holidays until the objectives have been attained will certainly affect the issues of the war in the coming year of the struggle. Two years of desperate warfare in the trenches have still further increased the feelings of comradeship which bind us to our allies and have made us still more inflexible in our determination to carry through to victory this war, which was none of our choosing. We look forward with confidence to success and a triumphant peace."

Sir John Jellicoe cabled:

"The second anniversary of the commencement of the war finds the British Empire full of confidence in the final result. This confidence is due to the fact that the cause for which we are fighting is a just one and also to the knowleige we possess of the fighting qualities displayed by the fighting forces of the mother country and the Empire beyond the seas, equally with those of our gallant armies."

Demonstration in Vancouver.

VANCOUVER, B.C., Aug. 4.—Great enthusiasm prevailed at a patriotic demonstration this afternoon when a mass meeting of several thousand people representing all parts of greater Vancouver passed a resolution expressing determination to carry the war to a successful issue.

Messages were received from Gen. Haig and Admiral Jellicoe showing optimism of the ultimate success of the allies and pointing to the fact that now

(Continued on Page Two.)

COMMANDER OF JAPANESE NAVY VISITOR IN OTTAWA

(By Daily News Leased Wire.)

OTTAWA, Aug. 4.—Commander Denzo Mori of the imperial Japanese navy is a visitor to Ottawa today and in an interview talked enthusiastically of the war.

Commander Mori went through the Russo-Japanese war as a lieutenant and took part in the famous blockade of Port Arthur.

"There is no doubt in my mind," said he, speaking of the Jutland battle, "that the British gained a victory and an important one, too. One of my friends, a member of the Japanese navy, left Japan at the same time as did. He went to England and I went to the United States. He went down on the Queen Mary."

Speaking of the early days of the war, Commander Mori said that the Japanese battleships did much work of which we in Canada had not had the full story, in guarding the coast of British Columbia and Australia, when the German ships were still at large.

Much of the munitions now being used on the eastern front by the Russians were produced in Japan, said Commander Mori. Just as in Canada and England, new factories had sprung up so it had been in Japan and the workers were turning out rifles, ammunition, guns and even battleships to aid the allies.

"The Japanese people feel a great sympathy for Britain and Canada in this war," he added. "We all feel sorry at such a terrible war but have no doubt as to final victory and earnestly hope that it will come shortly."

ENEMY'S TRENCHES ARE RAIDED BY CANADIANS

(By Daily News Leased Wire.)

CANADIAN HEADQUARTERS, in the field, Aug. 4, via London and Ottawa.—During the last week several successful minor operations were carried out by Canadian battalions.

One night at 11 o'clock a listening post occupied by Privates Donovan and Ward of a Nova Scotia battalion, was approached by an enemy patrol. Two of the enemy were allowed to get within bayonet distance, when a band to hand encounter took place. One of the Germans was bayoneted and captured. The other managed to break away. The prisoner died shortly after being brought into our trenches.

Another night an enemy patrol of 10 men came within a few yards of an advance post held by Corp Thurgood and five men of the same battalion. The Germans were at once attacked with bombs and quickly forced to withdraw, carrying with them two wounded men and abandoning a quantity of grenades.

Under command of Lieut. Wise two parties of this battalion each consisting of five men, made a reconnaissance of the German trenches.

Lieut. Wise and one party cut their way through the enemy's entanglements. Several Germans were seen manning the parapet, but once clear of the wire entanglements our men threw bombs and rushed forward. At this moment they were attacked.

In the meantime Lieut. Wise, followed by Sergt. Anderson and Pte. Johnson, entered the enemy trenches,

ASQUITH COMMENTS ON PARIS CONFERENCE RESOLUTIONS

(By Daily News Leased Wire.)

LONDON, Aug. 4.—Premier Asquith stated in the commons Thursday in the course of the debate on the resolutions adopted by the Paris economic conference, that the resolutions, although drafted by Walter Runciman, had been approved beforehand by Sir George Foster and the Australian premier, as well as by Andrew Bonar Law, all of whom had attended the conference.

The government, he added, further than that, in communicating direct with the governments of the overseas dominions and of India, in the same regard, and when Lord Balfour's committee reports, it is intended, he announced, to hold a conference here with representatives of the Dominions and India and inquire into the whole question of the Empire's trade policy as considered in the light of these resolutions.

The Red Cross prisoners of war bureau at Berne, Switzerland, sends weekly parcels to over 14,000 prisoners. Each individual parcel contains four pounds of bread.

To Reduce Your Weight Easily and Quickly

If you are overstout the cause of your overstoutness is lack of oxygen-carrying power in the blood and faulty assimilation of food. Too little is being made into the hard tissue of muscle and too much into little globules of fat. Therefore you should correct the mal-assimilation and increase the oxygen carrying power of the blood. To do this go to any good druggist and get oil of orilene, only sold in original packages and in capsule form and take one capsule ofter each meal and one at bedtime till your weight is reduced to what it should be on all parts of the body. The effect of oil of orilene in capsule form is remarkable as a weight reducer and it is perfectly safe.—E. J. T.

Any druggist can supply you or a large size box will be sent on receipt of $1.00 postal note or money order. Address D. J. Little Drug Co., box 1240, Montreal, Can.

CITIES CELEBRATE WAR ANNIVERSARY

(Continued from Page One.)

from all parts of the Empire and has assumed the offensive.

Premier Bowser spoke of the splendid manner in which British Columbia had sent men to the front, saying with a population of less than 400,000 there was recruited in the province up to the middle of June 31,309 men. More than one in five of military age had been recruited and one in 10 of the whole population.

Among other speakers was Maj. C. C. Owen, who recently returned from the front.

EDMONTON, Aug. 4.—Today, the second anniversary of the declaration of war by Great Britain against Germany, will be observed here by a public meeting this evening in the McDougall auditorium. Patriotic addresses wil be delivered by Dr. Michael Clark, M. P., Hon. A. C. Mackay and Bishop Gray.

Celebration in Regina

REGINA, Aug. 4.—Regina celebrated the second year of the great war today, hundreds of people taking part in the memorial services held in Wascana park. Addresses were delivered by Mayor Cowan, Hon. J. A. Calder, W. M. Martin, M. P., and others.

Saskatoon Meeting

SASKATOON, Sask., Aug. 4.—In celebration of the second anniversary of the war, Dr. W. C. Murray, president of the University of Saskatchewan, put a resolution to nearly 4000 people on the stands at the exhibition ground here today, the gist of which was: "Are we ready to carry the war to a victorious end and are we all ready to help in this effort to the best of our ability?"

The crowd replied: "Yes."

Other speakers addressed the people along similar lines.

Meeting in Calgary

CALGARY, Alta., Aug. 4.—A mass meeting held tonight in a local theatre to commemorate the second anniversary of the entrance of Great Britain into the war, passed a resolution expressive of the inflexible determination of its citizens "to continue to a victorious end the struggle in maintenance of those ideals of liberty and justice which are the common and sacred cause of the allies."

The resolution was supported in earnest and eloquent addresses by R. B. Bennett, M. P., T. M. Tweedie, M. L. A., and Bishop Pinkham of the diocese of Calgary.

Cablegrams were received from Admiral Jellicoe and Sir Douglas Haig, British naval and military commanders, respectively.

VERDUN AGAIN STORM CENTRE

Thiaumont work. All attempts to dislodge us from conquered positions failed. We not only broke the enemy's efforts, inflicting heavy losses upon it, but in the course of a second offensive our troops succeeded in capturing for the second time in 12 hours the Thiaumont work, which remains in our possession despite several enemy counter-attacks.

"Fierce fighting is going on at Fleury. After having evacuated the whole of the village this morning, as a consequence of several German attacks, our infantry this evening carried with the bayonet the greater part of the village. The enemy is still resisting energetically. The number of unwounded prisoners made by us today is more than 400.

"In the region of Vaux, Chapitre and Chenois violent bombardments took place, but there was no infantry action.

"Thirty-four of our aeroplanes carried out several bombardments in the region of Verdun. Thirty-two bombs were dropped on the Stenay station and 84 on the Montmedy and Sedan stations and bivouacs in the region of Damvillers."

Belgian Statement

The Belgian statement follows:

"In the region of Dixmude the artillery fighting continued all day. Some local artillery actions took place at other points."

Berlin Statement

BERLIN, Aug. 4.—The village of Fleury, north of Verdun, was regained by the Germans this morning, it was officially announced today by the German headquarters. The official statement says:

"Artillery activity was again of great intensity north of the Ancre and the Somme with undiminished violence. Strong enemy attacks were repulsed north of Ovillers, west of Guillemont and north of Monacu farm.

"South of the Somme a night attack of the enemy near Barleaux failed."

"Last night," says another official Berlin report, "the French succeeded in taking possession of our positions in the village of Fleury and south of the Thiaumont work. Our counter-attack delivered early this morning put us in complete possession again of the village of Fleury and the trenches northwest of this village.

"Enemy attacks northwest of the Thiaumont work and against our positions in Chapitre and the mountain forests were repulsed last night with heavy losses to the enemy. The situation is now again exactly the same as before the French attack, which was carried out with strong forces.

"Lieut. Mulzer put his ninth enemy machine out of action in an aerial battle near Lens and Lieut. Frankel his sixth enemy machine near Beaumetz, Wednesday.

"Furthermore, one enemy plane was brought down Aug. 1 southwest of Arras and one near Lihons, respectively.

"Our anti-aircraft guns brought down one enemy aeroplane near Berles au Bois, southwest of Arras, and another near Namur, the latter being one of a squadron which attacked Namur with little material damage."

MEDICINE HAT HOTELS ARE AGAIN OPEN

MEDICINE HAT, Alta., Aug. 3.—Hotels in this city announce that they will all reopen Aug. 8. They have been closed for about a month because it was claimed they could not be run at a profit under a temperance policy.

BRITISH PLANES RAID STATIONS OF ENEMY

Attacks Made on Ghent Ammunition Depot and on Aerodrome and Sheds of Austrians

(By Daily News Leased Wire.)

LONDON, Aug. 4.—British naval aeroplanes Wednesday carried out a successful raid on a German aerodrome and ammunition sheds in the town of Ghent, Belgium, says an official statement tonight by the admiralty. The statement says:

"Wednesday successful attacks by a naval aeroplane squadron of bombing and fighting machines were carried out on an enemy aerodrome at St. Denis, on Westrem and on the enemy's Austrian sheds at Meirelbeke. About two tons of bombs were dropped and considerable damage was done.

"One of our fighting machines, with Flight Lieut. Baudry, is missing and is believed to have been shot down. The rest of the machines returned undamaged."

17 Machines in Raid.

AMSTERDAM, Aug. 4.—Wednesday's air raid by 17 allied machines, according to the Telegraaf, was directed against Ghent. Three groups of the invading aeroplanes attacked simultaneously three military points—the aerodrome at St. Denis, the supply station at Meirelbeke and the arsenal at Ghent.

A great conflagration was observed at St. Denis and it is believed many were victims of the attack as the speedy arrival of Red Cross cars was noticed. According to the Echo Belge, 30 aeroplanes bombarded the arsenal at Ghent and other points and several dead are reported.

CANADIAN OFFICERS GIVEN APPOINTMENTS

(By Canadian Associated Press.)

LONDON, Aug. 5.—Capt. Greene of the Canadian rifles has been promoted temporary major of a Calgary battalion. Col. Bridges of the Medicals has been appointed temporary inspector of the Canadian hospitals in England, with rank as director of medical service.

OSTERMOOR OSTERMOOR OSTERMOOR OSTERMOOR

"My OSTERMOOR MATTRESS is as good today as when I bought it thirty years ago."

¶ Tens of thousands of enthusiastic users are behind the public conviction that the word "OSTERMOOR" is synonymous with *supreme and lasting sanitary sleep comfort.* Ostermoor quality is the standard of comparison for all competition.

¶ However, OSTERMOOR quality at the familiar price of *$15.00* has now become *utterly impossible.* The constantly-increasing cost of *all* materials used in manufacturing the OSTERMOOR MATTRESS has compelled us to do one of two things; either to lower the famous OSTERMOOR standard—which means casting OSTERMOOR reputation to the winds—or to increase the price. The former is unthinkable, and is not desired by the public; therefore, we are taking the other course.

On and After August 1st, the Ostermoor Mattress sells at $18.

¶ The first cost of the OSTERMOOR MATTRESS is the *only cost;* unlike other mattresses, it requires no renovation. You willingly pay $18—often much more—for a labor-saving device or a home comfort; then why not for an evenly buoyant, sanitary OSTERMOOR MATTRESS that will give you a *lifetime* of the refreshing sleep comfort *so vitally important to health?*

¶ You can buy this Mattress only from an OSTERMOOR dealer. You can always identify the genuine OSTERMOOR by the binding around the edges similar to the border round this advertisement. Do not accept any substitute.

Mining and Markets

WILL WORK CLAIMS IN GREENWOOD CAMP

D. C Corbin and E. J. Roberts Decide to Open Up King Solomon and Queen of Sheba.

D. C. Corbin and E. J. Roberts were in Greenwood last week. As a result of their visit E. H. Kelly came in this week to reopen the King Solomon and Queen of Sheba. These properties adjoin the Big Copper, and have not been worked for a dozen years.

Claims Bonded at Chesaw.

The Ramshorn and Cariboo copper properties near Chesaw, have been bonded to the British Columbia Copper company. The bond runs for 24 months and the first payment falls due in November. Harry L. Morgan, Roxy Lind and Ewing Keightly are interested in the ownership of these claims. These claims are four miles from the Great Northern railway, and a tram probably will be built. The properties will be extensively developed at once. Pat Crane will oversee the work and appoint a local superintendent.

CAPITALISTS ARE LOOKING OVER THE MOLLY GIBSON

ROSSLAND, B. C., Aug. 4.—It is reported here that several capitalists have been here for some days conferring with John B. Singer and others of this city regarding the Molly Gibson claim held by them near Grand Forks.

A company was in process of formation, but it is now said that the property may pass into other hands, in which event it will be fully developed.

The Molly Gibson is among the claims in the Grand Forks section which is rated as being unusually good, and it is to be hoped that the local men who have done considerable work on the property will now realize upon their labor.

TAKES OPTION ON MOLYBDENITE MINE

Renfrew, Ont., Company Will Explore Sheep Creek Property—Plans to Build Concentrator

The International Molybdenum company of Renfrew, Ont., has taken a 60-day option for examination on the Molly group of molybdenite claims in the Sheep creek district, which is under bond to Merton A. Merrill and associates of Vancouver. Development work is to begin at once. J. R. Rutherford, formerly manager of the Mother Lode mine at Sheep creek, will be the engineer in charge. S. N. Ross, H. C. Bennett and J. A. Benson of Salmo are the original owners of the property.

If the exploration work brings good results the Renfrew people, who operate molybdenum plants at Orillia, Ont., and Renfrew, Ont., will build a concentrator at the mine. The Renfrew Molybdenum company is the only concern in Canada which reduces molybdenite into the forms in which it is used commercially.

J. F. McKenzie of Orillia, who is at the Hume, represented the Renfrew company in the negotiations for the deal.

NOTES OF THE MINES.

At Republic a deal is on with Chicago men for the old Republic mine. At one time it was worked by Patrick Clark.

Unwater Shaft.

Granby officials are unwatering the shaft of the Swede group of mines near Princeton.

Works the Bell.

The showing on the Bell, near Beaverdell, is stated to be the best ever seen in that camp. Robert Perry has a lease on it, and will ship a carload of high grade next month.

NEW EQUIPMENT FOR COALMONT COLLIER

President Parish Decides on Tipple and Tramway—To Ship 500 Tons of Coal Daily.

Decision to install tipples and a 1200-foot tramway to carry the coal from the Coalmont collieries to the railway has been reached by W. L. Parish, M.P.P. of Winnipeg, president of the company, who was at the Hume last night on his way home after having made an inspection of the property. Mr. Parish is a member in the Manitoba legislature for one of the South Winnipeg seats.

Approximately 1,000,000 tons of coal has been bocked out at the colliery. The coal is bituminous and is stated to be of excellent quality. The coal area at Coalmont has been estimated by engineers to contain 100,000,000 tons.

When the new equipment has been installed the company will be in a position to ship 500 tons daily. It has a freight rate of $1.10 a ton to Vancouver over the Kettle Valley railroad.

SPOKANE MAN HERE TO INVEST IN MINES

G. P. Mulcahy, a Spokane financial man, will leave this morning for Sheep creek and Erie camps to inspect mining properties with a view to investment of capital. He was at the Hume last night.

STOCK PRICES SAG AT DULL SESSION IN TORONTO

(By Daily News Leased Wire.)

TORONTO, Aug. 4.—The stock exchange displayed nothing more than a sagging tendency today and as no great amount of selling was in evidence the trend is due more to lack of buying power than to anything more definite.

Fractional declines in Toronto Rails, Cement, Brazilian and Maple Leaf were among the incidents of the market and on the curb there was a sale of National Steel Car at 25. Renewed weakness in Canada Cement was the feature of the afternoon session, the stock selling off to 55, which is lower than it was last month.

BUTTER AND CHEESE.

MONTREAL, Aug. 4.—Cheese: Finest westerns, 16½ at ¾; finest easterns, 15¾ at 16.

Butter Choicest creamery, 31½ at 32 seconds, 30½ at 31.

Eggs: Fresh, 35.

Pork: Heavy Canada short mess, 34 at 35; short cut back, 32 at 33.

MARINES LEADERS IN LIFELESS MARKET

Factors Ordinarily of Importance Are Received With Indifference by Wall Street Traders.

NEW YORK, Aug. 4.—Dealings in today's listless market differed in no essential particular from those of recent sessions. Except for the first hour, which witnessed a fair average of transactions at moderately higher levels, the record was one of increasing apathy.

Conflicting crop news, labor conditions, which offered little encouragement, additional excellent railway earnings and the further easing of money rates—all factors of importance in more normal times were ignored or received with indifference. Sentiment among traders lost little of its pessimism but the scant supply of certain stocks available for short covering made for greater caution.

Shipping shares were the leaders, so far as activity was concerned, the turnover in Mercantile Marine, common and preferred, at moderate gains, far exceeding any other issue. Marine 4½ per cent bonds also were active at the new high price of 107 and United Fruit reflected further accumulation.

Other shares rallied slightly from their low levels of yesterday but the inquiry for these issues lacked its former spontaneity. Petroleums were slightly more steady, although trade conditions were without change and munitions were apathetic with metals, except Tennessee Copper, which again lost ground.

Sugars suffered from further attrition, but the additional depreciation in quoted values among this group was attributed to over bull accounts.

United States Steel which was relatively inconspicuous, held steady with rails most of the day, but the latter shaded in the final hour, though only nominally. Local tractions were utterly neglected, despite various rumors pointing to a crisis in the situation. Total sales of stocks, 220,000 shares.

The irregular bond market followed the course of stocks and lacked special feature. Offerings of international issues, showed steady diminution. Total sales, par value, $3,480,000.

CEMENT AGAIN UNDER PRESSURE AT MONTREAL

(By Daily News Leased Wire.)

MONTREAL, Aug. 4.—Selling broke out afresh in Canada Cement today and attained some volume in the afternoon when the price fell to 55¼, a new low for the movement, and 1¾ below the closing level of Thursday. The rest of the market continued extremely dull, and featureless with a heavy tone in the munitions stocks and moderate firmness in other industrials and public utilities, but business was too light to give price changes much significance.

Of the total transactions in listed securities, Cement, with 1650 shares, was responsible for slightly more than half. Dominion war loan bonds continued active but unchanged at 97⅝, the low of the recent decline.

Cement's activity centered largely in the afternoon trading. Selling of 600 shares in the morning resulted in a drop to 56½, against 57 at the close Thursday. Offerings in the afternoon session were in larger volume and the price fell off quickly to 55¼ before support was met. Upward of 900 shares were taken at that level and there was a bid of55¼ for more stock at the close. Weaker features elsewhere in the munitions group were Car, which sold down to 45 in small lots and closed at 44¾ bid and Bridge, which sold 2 lower at 208.

Detroit was firm, among the public untilities and there was also a continuance of recent buying of civic investment in unlisted stocks.

Total business 3221 shares and $13,200 bonds.

WHEAT HITS HIGHEST PRICES OF SEASON

Values Sent Soaring by Widening of Black Rust Area in Canadian Provinces.

CHICAGO, Ill., Aug. 4.—Widening of the black rust area in Canada, as reported through the ordinary trade channels, sent the wheat market soaring today to the highest prices this season. Denials by Canadian government officials appear to have no influence.

The outcome was a strong close at 2 to 4⅝ advance, with September at $1.34½ and December at $1.38¾. Oats gained 1⅛ to 1⅝ and provisions 10 to 22½c.

Broad demand characterized the wheat market almost uninterruptedly throughout the day, with foreign purchasers taking the lead in export buying for immediate shipment as distinguished from European acquisition of pit contracts for deliveries in future months. The sales amounted to 700,000 bushels, mostly domestic wheat, at the topmost figures realized so far in 1916. Exporters said it was not so much the price as getting the wheat. At lease one foreign government seemed to be directly in the market as a buyer. The burst of selling strength that began the instant trading opened, and that reached the acme before the close, was due in the main to despatches from a leading expert who telegraphed from Regina that northward from Estevan the fields were all infected with black rust.

Assertions from Canadian government officials that the rust in Saskatchewan wheatfields was the comparatively harmless red variety and not the dreaded black kind, received but scant attention from wheat traders here. The largest holders stood firm in their bullish views, especially as to the crop outlook in Manitoba as well as Saskatchewan seemed, according to unofficial despatches, to be growing distinctly worse.

Oats were in active demand. There was a liberal export call, influenced apparently by continued unfavorable reports concerning yields.

Higher prices on hogs gave strength to provisions. Offerings were scarce.

Have you smoked "NOBLEMEN" Cigars lately?

PRICES STEADY IN LOCAL STORES

Old Potatoes Now off the City Market —Washington Pears at Two Pounds for Quarter.

Few changes were noted yesterday in the price of produce quoted in the city stores. Fresh vegetables of all kinds, with the exception of old potatoes, which are now over and cauliflowers which are temporarily off the market, were shown in large variety and brought the same prices as for the past week.

New potatoes were quoted at seven pounds for 25 cents.

Washington Bartlett pears may now be had at two pounds for a quarter and Okanagan Yellow Transparent apples were selling in good demand at three pounds for 25 cents.

THE MONUMENTAL STUPIDITY OF THE BARBARIAN

Because Belgian visitors to a Brussels exhibition made a hostile demonstration against the display of a bust of the kaiser and the bust was then removed by the exhibition committee Berlin has ordered the collection of a fine of $250,000. The burgomaster of Brussels has refused to pay it.

"Of course, the imposition of the fine is part of Germany's policy of trying to milk Belgium dry but the incident of the bust is typical of the policy which has been tried and proved a ghastly failure in German colonies. The German idea is to force the people of a captured or occupied territory to be loyal to Germany by inflicting punishment on them for being loyal to themselves and their country.

The British policy is the direct opposite and it has succeeded as signally as Germany's has failed, and must always fail.

The British policy in South Africa resulted, 13 years after the Boers had been at war with Great Britain, in Gen. Botha leading armies against the Empire's enemies. The German policy in Alsace and Lorraine for 40 years has kept the two provinces loyal to France and hostile to Germany.

Germany's colonial policy is barbarous both in its cruelty and its monumental stupidity.

FOR PAYROLL, PRODUCTION AND PROSPERITY.

The welfare of labor in British Columbia depends chiefly on the demand for labor. The demand for labor depends upon activity in the industries and the development of natural resources. Upon that activity, which represents payroll and production, depends the prosperity of the people of the province as a whole.

A government which bends its energies toward formulating and making effective policies for increasing activity in the industries and developing provincial natural resources is the government which will advance the interests of the people it represents. That is what the Conservative administration is doing.

What have the Liberal leaders offered to take the place of the Bowser government policy of progressive, constructive legislation? Their appeals to the people contain not even the promise of definite policies to increase activity in provincial industries.

VERDUN AGAIN BUT THE FRENCH ATTACKING.

Verdun has again become the centre of the fiercest fighting on the western front. But the offensive has passed into the hands of the French.

If Gen. Joffre can retake the ground won by the Germans in the months during which they sacrificed hundreds of thousands of men in futile efforts to capture the fortress of Verdun the enemy, from the viewpoint of the neutrals it sought to influence by proving its military strength in that area, will indeed be in a sorry position.

Germany attacked Verdun for political rather than military reasons. It desired to impress neutrals and its own people and to delay the expected entente offensive. The result was a drawn battle that was really a German defeat, but that the German press called a victory because a small area was won. It is impossible to say if it postponed the Franco-British attack.

Now the entente offensive has begun with disastrous results to the portions of enemy line at which the attacks were directed. When the Germans are also driven back from the Verdun region even the German people must realize the truth.

LAND SETTLEMENT BY RETURNED SOLDIERS.

It has been recognized that there must be cooperation between the imperial and dominion authorities in the settlement of ex-soldiers on the lands of the overseas dominions. By far the most important work will fall to the overseas countries and provinces which are bidding for the soldier-settlers. The number of Canadian and imperial ex-soldiers who settle on British Columbia lands, for example, will depend in a very large measure upon the preparations which are made to receive them. Plans cannot be completed at this time, but preparatory measures can and are being taken.

British Columbia has a vast area of land which is suitable for settlement. Some is fruit land, some is suitable for mixed farming on a comparatively large scale. Two million acres of such land is being set aside for returned soldiers by the land act passed last session. It consists of some of the best land in the province which is being taken back from applicants to purchase who have failed to complete their payments. Ont of the most important provisions is that which enables loans for development purposes to be made to the returned soldiers who desire to take up land.

The benefits of the measure are very properly confined to ex-army and navy men. All British Columbians will agaree that they are entitled to this special treatment that the government's policy provides for them.

Applications to the British Columbia Telephone company for many new telephones in Nelson shows the trend of business conditions in this city and district.

If the Belgian troops which have invaded German East Africa from the Congo continue to advance at their present rate of progress they will soon control as large a territory in this German colony as the kaiser's forces occupy in Belgium.

Germany has informed Austria that just as soon as it has defeated the British and French on the western front it will send reinforcements for the Teutonic line in the Russian theatre of war. Austria may feel encouraged by this announcement, but—

Two New Jersey representatives in congress have demanded that the United States should place an embargo on munition shipments because of the explosion of $25,000,000 worth of ammunition and other supplies while stored at the National Dock & Storage warehouses. German "frightfulness" seems to have been effective in this case.

The fact that 59 outbreaks of fires in the forests of this district have occurred this season and that all were caught before damaging valuable timber speaks volumes for the worth of the forest protection service which the provincial government has established. Any one of these fires, if the district had lacked an adequate forest protection service, might have involved the loss of hundreds of thousands of dollars in timber.

WHAT THE PRESS IS SAYING.

Even the Lions Cheered.

Those who recollect the extreme gravity, not to say utter detachment, of Landseer's famous lions at the foot of the Nelson column in Trafalgar Square, London, will be the more surprised at an extraordinary incident which seems to have attended the recent march of the Anzacs through London. "Masses of spectators"—so runs a description of the scene—"crowded every inch of space, even to getting astride the lions in Trafalgar Square, all of whom cheered themselves hoarse and flung flowers at the stalwart, hard-set Anzacs as they swung past." Changed times, indeed! Not even a hint that an explanation was thought to be necessary.—Christian Science Monitor.

How Germany "Worked" the Empire.

It was the Germans who really discovered the possibilities of the British Empire, and down to the eve of the war they were using them for their own ends. They had obtained control of practically all its base metals; they were getting a firm grip on its coal and oil; they were influencing its financial policy and its politics. German agents, it is now known, were the agents of the imperial government, which subsidized and encouraged their activities and was not above consulting them in moulding the fiscal and commercial policy of the Empire. These conditions, inimical to the health, safety and independence of the British peoples, ought not to be renewed when the war closes.—London Telegraph.

RED CROSS NOTES.

The following contributions have been received: Miss Hamar, old linen and $1; Hudson's Bay company, $3.40, proceeds of heather sold; Miss Oliver's sewing class, five books, three towels, 10 fracture cushions, 22 fomentation wringers, 62 triangular bandages, eight pairs bed socks, six hospital slippers, 22 hot water bottle covers; six operation stockings, four surgical jackets, four sleeping jackets, 25 personal property bags, Mrs. Guthrie, monthly collections, $10.50; Mrs. Cobbett and children, scrap book and cushion; Women's institute, Nelson, 18 ambulance cushions, six pairs hospital slippers, two pairs bed socks, three pairs socks. Ten-cent collections, Mrs. Whitehead, Mrs. H. Bird and Mrs. Cooper.

The amount realized by raffle of silver fish knives and forks was $18.30. The winner was Miss Coffey with No. 31.

ENGLAND'S PART IN THE WAR

David Lloyd George said in a public speech last week "The British navy until recently has absorbed more than half the metal workers of this country. The task of building new ships and repairing old ones for the gigantic navy, and fitting and equipping them, occupies the energies of a million men." The enemies of England, and to a greater extent, perhaps, her friends, are constantly criticizing the work of England in the war. They say she has been inert; that she has left it to France and Russia to fight her battle for her, etc. Those who indulge in this criticism forgot some important facts. For one thing, in August, 1914, England was wholly unprepared for a great war on land—as unprepared almost as we should have been England at the beginning, undertook to hold command of the sea; the maintenance of the British navy against such an opponent as the navy of Germany was in itself a huge task. As a matter of fact England has done far more in this war than at the start she expected or contracted to do. She has held control of the sea; she has played a leading part in financing the entente cause; she has raised a larger army by the volunteer system than any nation ever raised. Today England has conscription and a huge army; she has speeded up her industrial organization until she is producing munitions at a tremendous rate.—Cincinnati Times.

THE HUNS MISLEAD RUSSIA.

Russia has long since repented the too credulous ear which she lent to Germany in the years immediately preceding the Russo-Japanese war. If ever Machiavellian counsel was given by one power to another, it was that which the German government at Berlin assiduously supplied to the ministers of the tsar, when they encouraged them in their Far Eastern adventure. They gladly saw Russia committed to a most costly and unpopular war, which weakened her military strength for a whole decade and left her at the end of it obliged to accept a commercial treaty which could hardly have been more onerous had Germany herself been the victor. This was Bismarchianism of the authentic type and for some years it seemed to have succeeded to perfection. But it planted the seeds of the war which is now raging, and the result is that Germany now beholds Tsing-tau lost to her forever, and Russia and Japan on terms of complete understanding and amity.—Daily Telegraph, London.

In the big Canadian nospital at Treport, France, where treatment has been gievn to nearly 11,000 soldier patients, the death rate has been only three-fifths of one per cent.

HUN INFLUENCE IN RUSSIA.

Vice-president Protopopoff of the Russian duma, says, in an interview in the London Morning Post:

"Since Peter the Great brought Germans into our country, we have, until lately, been ruled by them and their influence. That is the reason why the nation is not as strong as it ought to have been. They did all they could to keep us back. One of their objects was to prevent the development of Russian industry. They knew well that industry meant wealth, that wealth meant leisure and that without leisure there could be no instruction, from which Russia would derive strength. Therefore, for 200 years German policy directed Russian on the road to poverty.

"When Bismarck was ambassador to my country, he was actually asked by Prince Gortschakoff to become a Russian minister of state and help to rule the land. The fact shows what an immense idea of German ability was entertained in Russia not very many years ago. We do not view Germans with the same admiration now. Their self-sufficiency is colossal. They think that they only are wise and brave and cultured and strong, but they are a stupid people after all. The Russian respect for them has all gone. I think that they are beginning at last to suspect that, after all, they will not be victors in the war. Their full awakening will be terrible to them, and it will be our most precious ally."

How long did the vice-president expect the war to last? was a question put by the journalist and the answer was "More than another year, but the turning point of the war has come. The change in our favor may be slow but it will be sure."

CANADA AFTER THE WAR.

It is most desirable—in fact, it is almost vital—for Canada's economic well-being that she should receive a great influx of immigration at the same time as her own war-scarred soldiers return to her if a serious period of inactivity in her economic development is not to take place. Canada has a good deal of leeway to make up. Railways, factories, municipal enterprise—everything, in fact—were planned on the anticipations of an annual tide of immigration of a minimum half a million. It is not sufficient for Canada to want half a million new citizens a year. The country must be organized and prepared so as to make use of them to the best industrial advantage. If the towns are to be flooded during the long winter by men who are incapable of supporting themselves in the country it would be far better for Canada to receive smaller numbers and assimilate them to advantage.—Canada, London.

Dr. Hastings, medical health officer of Toronto, says there are no cases of infantile paralysis in that city.

TRENCHES RAIDED BY CANADIANS

(Continued from Page One.)

Five dead Germans were seen. Shortly afterward Sergt. Anderson was wounded. Lieut. Wise attempted to lift him out of the trench, but was himself wounded in three places. Pte. Johnson threw bombs until his supply was exhausted and then returned to our lines for reinforcements.

Put up Wooden Cross.

All our wounded were brought back with the exception of Sergt. Anderson, who could not be found. The next day the Germans put up a wooden cross on their parapet and it is feared they wished by this means to signify that Sergt Anderson had been buried .

Fifteen bombers and 10 scouts, under Lieut .Ellen, scout officer, and Lieut. Clinton, bombing officer of a London battalion, left our trenches after dark for the purpose of raiding the German lines and by 1 o'clock had cut a four-foot path through the wire entanglements. Nineteen of the party entered the German front trench without meeting any of the enemy. Our men then attempted to reach the German second line, but were held by heavy wire entanglements. By this time their presence had been discovered and a bombing encounter took place in which one of the enemy was shot and kiled. Our party then retired

Daylight Raid.

One morning in cooperation with the artillery, a daring and most successful daylight raid was carried out by a Toronto battalion. During the preceding week a careful reconnaissance of the ground had been made by Lieutenants Hooper and Burnham. Shortly before daylight the enemy wire was cut by Privates Headon and Rule.

A covering party of machine gunners and snipers, under Lieut. Burnham and Sergt. Jackson, took up positions from which they obtained command of the trench which it was intended to attack.

At 9 o'cock the raiding party, consisting of Capt. Kimer, in command; Lieut. Peppler and 18 other ranks, left our ines and crawled to within 40 yards of the enemy parapet.

This distance was covered with a rush and our men were able to jump into the German trench before being discovered. Eight of the garrison were shot.

Two parties of five men each under Sergt. Hoeck and Corp. Brisbin then bombed their way to the right and left; Corp. Lynch and five other men remaining in support. Bombs were thrown into four large dugouts crowded with Germans. Our party remained in the trench about four minutes, inflicting casualties upon the enemy estimated at 40.

The hostile machine guns were put out of action, one by bombs and one by a direct hit by a high-explosive shell.

Captain Is Wounded

Having given the order to retire, Capt. Kilmer was himself the last man to leave the German trench. In scrambling over the parapet he was badly wounded in the ankle, but managed to crawl into a shell hole eight yards in front of the hostile lines. A rescue party, consisting of Lieut. Burnham, Lance-Corp. Wilson and Pte. Newton, was quickly organized and in spite of heavy rifle and machine gun fire, directed upon them by the enemy, succeeded in reaching Capt. Kilmer and carrying him back to our lines. In this raid our only casualties were three wounded.

Early in the night a large mine was exploded by the enemy north of the Ypres-Comines canal. A portion of our line affected was held by a Vancouver battalion. Within half a minute of the explosion our artillery opened a furious fire on the German lines opposite and heavy machine guns and rifle fire was brought to bear on them. The enemy attempted to advance, but could not face our fire. Parties of our men organized counter-attacks then went forward. A crater was seized and consolidated. Little damage was done to our trenches and our casualties were comparatively few.

During the week several organized artillery attacks were carried out upon selected points of the German defenses. Our bombardment was particularly successful. Messages like these were thrown into our trenches: "Are you hungry? We are not." "Do you want peace? We don't, except under German field grey."

A German sap was destroyed by means of a box containing explosives which was placed by a party from a mounted rifle battalion, commanded by Lieut. Parks. A likely exchange of bombs took place at the same time. Our party returned safely to its trenches.

UKRANIAN STUDENTS MEET AT SASKATOON

(By Daily News Leased Wire.)

SASKATOON, Sask., Aug. 4.—The Ukranian students' convention opened its first session here this morning with delegates from Manitoba and Alberta in attendance.

The dominant note in all the speeches was loyalty to Great Britain, the English-speaking speakers laying more stress on the advantages and facilities of British institutions, the Ukranian speakers on the duty of Ukranians to their new native land.

ENEMY PLANES FLY OVER LEMNOS; ARE DRIVEN OFF

ATHENS, Aug. 5.—Two German aeroplanes from the Dardanelles yesterday flew over the island of Lemnos and dropped bombs on the aerodrome of the entente allies. The aircraft were driven off by the fire of British vessels.

Housekeepers

WOMEN who do their own work usually find it hard to keep their hands soft and white. The reason is, they use ordinary yellow soap which almost always contains free alkali and other harsh materials.

As soon as they begin to use Ivory Soap, not only for bath and toilet but for fine laundry work, dishes, woodwork, windows and general cleaning, they no longer are troubled with unsightly, smarting hands.

You will find Ivory Soap no more harmful to your tender skin than pure, clear, sparkling water.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. No more than 2560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the agent or sub-agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantamble output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acres.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

FORT STEELE NEWS

(Special to The Daily News.)

FORT STEELE, B. C., Aug. 3.—Miss Doris Kershaw spent last weekend at "Wild Horse", the guest of Mrs. L. G. Clarke.

Don MacKay returned this week from a prospecting trip.

Mrs. L. G. Clarke and Mrs. E. Howard are spending a few days in town.

The Misses Doris and Muriel Wallinger of Cranbrook spent Wednesday in town.

Mrs. Crowe and two sons spent Wednesday in Cranbrook.

BENTON SIDING NEWS.

(Special to The Daily News.)

BENTON SIDING, B.C., Aug. 4.—William Barbour, Summit creek, has been here this week investigating some mineral claims for Spokane capitalists.

Mrs. Wohlford Hansen was here Monday. Mrs. Hansen's nephew, Lieut. Colin Morris, is with the mining contingent of the Anzacs.

Mrs. S. L. Springer returned today from a visit to friends in Ymir.

Miss Barkley and Miss M. Barkley have left for a visit to Fruitvale.

ARROW PARK NOTES

(Special to The Daily News.)

ARROW PARK, B. C., Aug. 3.—Mrs. J. Marsland and children are visiting Mr. and Mrs. Fairhurst at Silverton.

Mrs. J. Campbell has been appointed postmistress of East Arrow Park, as Mr. Naylor, the last postmaster, is shortly leaving for the prairie.

A special meeting of the Women's institute was held Wednesday. Mrs. T. Grace was elected vice-president, and Mrs. J. N. Pennock delegate for the coming convention at Nelson. Final arrangements for the forthcoming flower and fruit show were made. It will be held in the town hall Aug. 24.

MOYIE NEWS

(Special to The Daily News.)

MOYIE, B. C., Aug. 3.—Joe Whithead is very ill with inflammatory rheumatism.

Miss Conrad spent the first part of the week visiting friends in Kingsgate.

Mr. Moore will conduct service here in the Methodist church in future.

During the past month John McKay and family have moved to town and are occupying the A. S. Monkhouse residence on Victoria avenue.

Kootenay and Boundary

WILL SHIP SINGLE GRADE OF TOMATOES

Decision Is Reached by Growers in Creston—Raspberries Capture Prairie Market

(Special to The Daily News.)

CRESTON, B C., Aug. 3.—At a meeting of the valley tomato growers at Erickson this week it was decided that for this year there should be only one grade of tomatoes shipped through the local union. These will be known as the standard pack, and it will be necessary to secure a couple of competent men to superintend the packing at this point as well as at Erickson. Last year there were two grades—a home pack as well as the standard, but this was found to work unsatisfactorily. In the green and ripe varieties last season the valley had a total tomato export of almost 18,000 crates, but it is not expected the 12,000 mark will be reached this year.

Creston raspberries have captured the prairie market this year, and the growers cannot begin to bring in enough to supply the demand. The fruit is going out in fine shape. To date but one complaint has been received of fruit arriving in poor shape—and close to 4,000 crates have gone out. There was an unprecented demand for currants this year, orders totalling 300 crates coming in one day.

A. Bauamies of Natal, who has an electric light plant at that town, which he is anxious to move to a more promising centre, has been in Creston this week investigating the possibilities of establishing here. If he can secure contracts for 500 lights he will locate in Creston.

It was sock week with the Creston Red Cross workers and as a result 146 pairs of hosiery will be forwarded to the Nelson depot next week. Many of these were donated, while quite a generous supply was purchased from the local stores. At this week's meeting the ladies also decided to donate $25 to purchase food for the prisoners of war in Germany.

The Great Northern wrecking train and a crew of some 75 Italians are busy at present taking up the steel at the western end of the line. From present appearances it looks as if only the rails and the very best of the bridge timber will be salvaged.

The Women's institute will hold its August meeting Saturday. The papers to be read will have to do with rose culture, the making of rose beads, and the manufacture of rose jam. At this meeting a delegate will be elected to attend the Nelson convention. Mesdames Reid, Jackson, Hayes and Boyd are serving the institute tea, and the proceeds will go to Servian relief.

R. J. Long, Conservative candidate in this riding, attended the Kaslo nominating convention. Mr. Long was at the northern end of the constituency all last week and after sizing up the situation there is confident Kaslo will still be found in the Conservative column after Sept. 14.

Rev. R. E. Pow officiated at a pretty house wedding Wednesday afternoon, at the home of Mr. and Mrs. J. W. Dow, when their eldest daughter, Jessie Kathleen, was united in marriage with Thomas W. Bundy. The young couple left on the afternoon train on a three weeks' tour, after which they will reside at Wardner, where the groom is Canadian Pacific agent.

Mrs. Manders and daughter of Medicine Hat, Alta., and Miss May Johnson of Vancouver, who was on the Creston school teaching staff in 1912, are visitors with Mrs. A. L. Cameron.

Although it will be at least the middle of the month before the tomato export commences, quantities of ripe ones are being gathered.

July payments to the Creston branch of the Canadian Patriotic fund totalled $54. There is still over $600 due the fund by guarantors in the valley, which is payable before December 1.

The associated board of trade resolutions committee will bring in reports at the meeting of the Creston board of trade Tuesday night.

J. W. Gilpin is here from Kitscoty looking after the ranch for his aunt, Mrs. T. W. Gilpin.

Father Kennedy, who is on a short vacation at the coast, will return in time to take the usual services in Holy Cross church Sunday.

Miss Andrews arrived from Winnipeg Monday, and has taken the position of stenographer at the fruit growers' union office.

The local waterworks company has notified water users who have been getting their supply at less than schedule rates, that commencing with this month the regulation tariff will be charged in every case. Automobile owners, during the summer months, will be assessed 25 cents per month extra—for the water used in car washing.

Mrs. Pow and children spent some days with Sirdar friends this week. Miss Merle Reid is home from a three weeks' holiday at Nelson.

Three of the four rural schools in the valley are engaging new teachers for the term opening August 28. There will be but one change on the Creston staff.

The mosquitoes are the worst this year than for several seasons. In the Kitchener country they are so numerous that several prospective camping parties have had to postpone their outings.

HALCYON NOTES

(Special to The Daily News.)

HALCYON, B. C., Aug. 3.—R. D. Fetherstonhaugh and George Brown, Edmonton, arrived Wednesday and the former went up to Beaton with Mr. Boyd to examine his mining property in the Camborne district.

Mrs. Boyd, wso has been visiting with relatives in California for nine months, returned Tuesday.

R. S. Roe, Nelson, arrived Wednesday.

P. A. O'Farrell and Miss Finola O'Farrell have left for Rossland.

Mrs. Jack Colvin and children, Nelson, have returned home.

Bill Dooley, Rossland; J. M. Hurley, Trail, and J. R. Choquette, Nelson, also left Thursday.

LUMBER INDUSTRY AT CRANBROOK IMPROVED

Mills Damaged by Floods Repaired and Orders Numerous and Collections Are Good—Few Fires.

Advices from the Cranbrook district speak of the encouraging conditions in the lumber industry, orders being numerous and collections good. The high water during June and July did considerable damage to mills located in close proximity to the rivers and streams, and at the height of the floods all of these were compelled to close. The damage sustained and the time lost has inflicted considerable loss upon the mills affected, the trouble arising just when orders were hard to fill. As has been already reported, the sawmill of the East Kootenay Lumber company at Jaffray was destroyed by fire early in July, but the planing mill and yard stocks were saved.

There is a good demand from the prairie for piling, posts and poles, considerable quantities going forward at the present time.

While at the present time it is difficult to forecast, the fire season thus far has been all that could be desired, the few fires reported being small and causing but little expense to extinguish. Among the improvements now being carried on by forest guards is the cleaning out and rebuilding of the Hartley creek-Bull river trail, which will make penetrable the heavy forests on either side of the divide, in addition to the heavy maintenance work on existing trails. Two lookout stations have been constructed and a third is in process of erection.

MILL AT WALDO TO OPEN IN ABOUT MONTH

(Special to The Daily News.)

WALDO, B. C., Aug. 4.—The Baker Lumber company's sawmill, which was closed down several weeks ago on account of a shortage of logs, is still inactive and in all probability they will not be able to saw for about another month. Some time ago work commenced on a new spur track from the Great Northern railway into their mill pond, over which they intend bringing logs from their new camps between Waldo and Baynes Lake, but work on this has been suspended on account of delay in the arrival of steel.

Mr. and Mrs. C. E. Kline have left on a visit to Spokane and other points.

T. T. McVitte, provincial land surveyor, from Fort Steele, is surveying across the river from Waldo on the old Ross-Saskatoon timber limits, which have been logged off. He is laying the land off in 80-acre blocks for the government, which it is understood will shortly be thrown open for pre-emptions.

The government bridge crew is at work replacing the planks on the suspension bridge across the Kootenay here, which were taken off at the time of the recent flood.

The Ross-Saskatoon Lumber company has resumed shipping again and started to saw in their mill Monday.

ROSSLAND NOTES

(Special to The Daily News.)

ROSSLAND, B. C., Aug. 4.—Miss Drake is expected in the city shortly from London, England, to visit at the home of her brother, P. Drake.

Mrs. F. Harding is spending the day in Trail.

Mrs. Cross and two children of Trail spent Thursday in the city.

Mrs. H. R. Townsend entertained at a children's party Thursday afternoon.

A. J. Snyder of Victoria is a business visitor in the city.

A. O. Thomas of Winnipeg spent Thursday in town.

Mrs. L. E. Chrichett and two grandsons of Northport are spending a few days in Rossland.

Miss Evelyn Wallace went to Nelson Thursday evening to spend a week visiting friends.

A meeting of the Sunday school teachers and officers of the Young People's societies of the Methodist and Presbyterian churches met in the parlors of the Methodist church Wednesday evening to discuss the union basket picnic which will be held Aug. 23 on the Spitzee grounds. Committees were chosen and will report at a meeting to be held Aug. 16.

Mr. and Mrs. Charles Griffith have returned from a visit to Sweet Grass, Mont.

Dr. Donovan, who has been visiting in the city for the past week, has returned to his home in Wallace, Ida.

Mrs. Lamond of Nelson and Mrs. Green of Vancouver are in the city.

C. H. Wallace spent Thursday evening in Trail.

George Wallace of this city, who enlisted with the 225th battalion, has been transferred to the signal section and is now at Beacon Hill, Victoria.

NEW DENVER NEWS.

NEW DENVER, B. C., Aug. 4.—The Ladies' Patriotic society whist drive and dance Tuesday evening was well attended, a large crowd coming up from Silverton. Mrs. Bruce Kirk won the ladies' prize and George Schubert of Silverton the men's, and the booby prizes went to Mrs. Cleverly of Silverton and William Ferguson. Over $100 was cleared on the affair.

Corp. William K. Gunn and Pte. Hugh Gunn of the 231st Seaforth Highlanders came in from the coast Thursday evening to visit their father, G. A. Gunn.

A very pleasant garden party was given by Mrs. Homer Falding and Mrs. C. J. Campbell on Mrs. Campbell's lawn Wednesday evening. The guests of honor were Pte. and Mrs. Colin Harris, Mrs. T. T. Rankine of Armstrong and Mrs. Brouse of Hamilton.

Mr. and Mrs. Ballantyne and Mr. and Mrs. Ironside of Silverton were in town Wednesday evening.

The union Sunday school picnic was held Friday at the Bosun picnic grounds.

Have you smoked "NOBLEMEN" Cigars lately?

PREMIER BOWSER TO VISIT CRANBROOK

Message Is Read at Meeting of Young Conservative Association—Plan Big Gathering.

(Special to The Daily News.)

CRANBROOK, Aug. 4.—The Cranbrook Young Conservative association held a meeting Wednesday night when matters of importance were brought up. Road conditions and needs of farmers throughout the district were discussed. T. D. Caven, M. P. P., gave a lengthy address on conditions and also outlined his campaign in the coming election.

A wire was read at the meeting from Premier Bowser to Mr. Caven saying he would arrive in Fort Steele Wednesday night, August 9 and would speak there that evening. On the evening of August 10 he will speak in Fernie and on Friday evening, August 11 he will speak in Cranbrook.

Preparations are being made for a large gathering at this meeting here. Posters will be sent out to all parts of the district so that every person may have a chance to come in and hear the premier and the men accompanying him. Dr. J. H. King, the opposition candidate of this district, has been sent an invitation to speak at this meeting.

A. E. Watts of Wattsburg gave a lengthy address on the conditions in the different farming communities. Mr. Watts has made a close study along this line and gave some very valuable suggestions as to how conditions could be improved.

The meeting throughout was one of the most enthusiastic and optimistic held in this district for some time.

Returning Officer Shankland announces that there will be polling booths at the Sullivan mine (Kimberley), Kimberley, Marysville, Wycliffe, St. Eugene Mission, Westport, Ta-ta creek, Mayook, Wardner, West Gateway, Kingsgate, Yahk, Moyie, Wattsburg and Cranbrook at the coming election.

The pulpit in Knox Presbyterian church will be occupied on Sunday at both services by Rev. A. Sinclair of Manitoba college, Winnipeg. Rev. W. K. Thompson will preach at Elko, Jaffray and Wardner on Sunday, exchanging with the Rev. Sinclair.

LIE IS PASSED AT EX-MINISTERS' TRIAL

WINNIPEG, Aug. 4.—There were a few moments of tension in the trial of the ex-ministers this afternoon when R. A. Bonnar, K. C., chief crown counsel, told F. M. Burbidge, one of the defense lawyers, that he was a liar. A dispute arose when the defense tried to put in a letter from Auditor Fearnley to C. H. Dancer. The crown objected that the document was a copy and the judge ruled that when an original was available a copy could not be used. A. J. Andrews, K. C., chief defense counsel, said the crown had the original. Mr. Bonnar replied that it was not in the files and Mr. Burbidge intimated that if the crown would search its files it would find it.

"Then you are a liar," retorted Mr. Bonnar.

Mr. Burbidge stepped to the crown attorney's side of the table, where Mr. Bonnar was sitting and took the senior crown counsel by the shoulder.

Mr. Bonnar stood up and an officer hurried in their direction as the two lawyers faced each other. Then Justice Prendergast applied soothing words. He said that the present case was one in which the defense should be allowed the fullest latitude in cross-examination and he added that he was sure an expression of regret would be forthcoming from Mr. Bonnar. Mr. Bonnar replied that the statement of Mr. Burbidge was to the effect that he (Bonnar) was not telling the truth. His lordship declared the incident closed.

A little earlier Mr. Andrews and R. W. Craig, K. C., of the crown counsel, participated in a somewhat similar incident. Mr. Andrews devoted considerable time in seeking to have V. W. Horwood, under cross-examination, do a little arithmetic to ascertain the yardage cost of concrete. Horwood refused, saying he could not make the division accurately in court. Mr. Craig remarked that he would not like to do it himself in court.

Mr. Andrews declared that "this man is ready to come along and tell any sort of a disgraceful lie to help out the witness."

"Are you talking of me? Then you are no gentleman," retorted Mr. Craig.

"Well, you are not," said Mr. Andrews, and he proceeded with his cross examination.

It was the eleventh day of the trial and the eighth day Horwood has been on the stand. Horwood at the opening of the session apologized to J. P. Foley, former member of the legislature for north Winnipeg, for having used his name by mistake.

Lashing a Lazy Liver with pills may give temporary relief—but the pill habit is not a health habit. It will put the liver out of business in time—and then everything else goes out of business. Get the health habit by eating **Shredded Wheat Biscuit,** the ideal hot-weather food, which contains more digestible, brain-making, muscle-building material than beefsteak or eggs. The tasty, delicious crispness of the baked wheat gives palate joy and stomach comfort. It supplies the maximum of nutriment in smallest bulk, and its daily use keeps the bowels healthy and active. For breakfast with milk or cream, or for any meal with fresh fruits.

GOOD SHOWING MADE BY STOCK OVERLAND

Model 86 Travels 17.83 Miles on Measured Gallon of Ordinary Gasoline.

W. T. Foley, assistant secretary of the Cincinnati Automobile club recently conducted a gasoline test of a Model 86 Overland. A car was taken from the stock of the Citizens' Motor Car company. The main tank was disconnected from the carburetor and a small tank which held a gallon of gasoline was connected. The carburetor was then set so that the engine ran freely both on low and high speed. The speedometer reading then was taken and the car was run over a prescribed course, until it stopped for lack of fuel.

The speedometer reading was then taken again, and it was found that the car had traveled 17.83 miles on one gallon of gasoline. This gasoline was not high proof, but an ordinary grade, of which the hydrometer test showed a reading of 59 degrees. This feat was considered very remarkable for a car of the size of the Overland Model 86, especially as the car had just been taken out of stock and had never been run before. The switch was not thrown nor the clutch disengaged during the trip. In other words, the car was not coasted at all.

Lieut. "Bobbie" Campbell, a student of Toronto university, and an officer in the British expeditionary force, is reported missing.

"I FEEL LIKE A NEW BEING"

"FRUIT-A-TIVES" Brought The Joy Of Health After Two Years' Suffering

MADAM LAPLANTE

35 St. Rose St., Montreal. April 4th.

"For over two years I was sick and miserable. I suffered from *constant Headaches, and had Palpitation of the Heart* so badly that I feared I would die. There seemed to be a lump in my stomach and the Constipation was dreadful. I suffered from *Pain in the Back and Kidney Disease.*

I was treated by a physician for a year and a half and he did me no good at all. I tried "Fruit-a-tives" as a last resort. After using three boxes, I was *greatly improved* and twelve boxes made me well. Now I can work all day and there are no Headaches, no Palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and *I feel like a new being*—and it was "Fruit-a-tives" that gave me back my health".

MADAM ARTHUR LAPLANTE.

An Unparalleled Victory

About a month ago we announced to the world our newest value—the $890 Overland.

In twenty-four hours and from every section of the Dominion we had received more orders than we could fill in several weeks.

So we immediately increased the production—filled the orders and notified our dealers not to push the model too hard as we were going night and day to catch up with orders.

Before the end of the first week orders were pouring in so rapidly that we decided to again increase the production so that there would be no disappointments.

But still bales of business continued to flood the factory.

Now we are shipping 500 of the new cars every single day and are fairly breaking our backs to keep pace with the great demand that now looks as if it never would cease.

We anticipated a great success, but we did not look for such a daily avalanche of definite shipping orders.

Such is public opinion—the strongest force, the greatest asset, in the world.

Never before has any automobile enjoyed such an unparalleled victory.

Step in and see this extraordinary car yourself today.

Will the Prohibition Act Tend to Lessen the Consumption of Liquor

? ? ?

CLAUSE 57 OF THE ACT PROVIDES FOR THE UNLIMITED, UNRESTRICTED AND UNCONTROLLED IMPORTATION OF LIQUOR FROM POINTS OUTSIDE THE PROVINCE.

WITH THE ABOVE CLAUSE IN MIND, THE READER IS ASKED TO HONESTLY ANSWER THE FOLLOWING QUESTIONS:

Does not importation of liquor necessarily mean its purchase in quantity?

Does not the importation clause provide for a person placing unlimited orders for liquor without any restriction as to the frequency of the orders?

Is it not human nature for a man to use anything more freely when he has an ample supply on hand?

WILL NOT THE ACT HAVE THE TENDENCY TO ACTUALLY INCREASE THE INDIVIDUAL CONSUMPTION OF LIQUOR BECAUSE OF THE FACT THAT IT MUST BE PURCHASED IN QUANTITY AND KEPT IN THE HOME RATHER THAN PURCHASED BY THE SINGLE GLASS OR BOTTLE?

EVERY ELECTOR SHOULD THOROUGHLY READ THE ACT

Copies of the Prohibition Act may be obtained on application to Merchants' Protective Association, Room 24, Canada Life Building, Vancouver.

That boy of yours Overseas, amid the strain of battle and the dearth and danger of poor drinking water. What more acceptable creature comfort than a box of

ADAMS' TUTTI FRUTTI GUM

contains twenty packages of thirst-quenching refreshment in the five mellow fruit flavors our boys overseas have come to admire. The voyage cannot harm Tutti Frutti. Each package opens up as fresh and full-flavored as it left the factory. For each stick is wrapped in wax paper and tinfoil. The package slips nicely into the soldier's pocket. Ask your dealer for Tutti Frutti by the box.

DEMAND FOR TRAINED WOMEN.

GLASGOW, Scotland.—The governors of the Glasgow and West of Scotland Royal Technical college congratulated their chairman, Sir George T. Beilby, on the honor recently bestowed upon him by the King. Sir G. T. Beilby has devoted his life to the development of technical chemistry and the invention of useful appliances. Since the war he has given practically all his time to the service of his country.

A. S. Biggart reported that there was a great demand for the services of the women trained for munition work in their college. The demand was greater than the supply and greater also than the demand for men.

The munitions department had realized to the full the value of women and of partially trained men and also the value of having them further trained to make them even more useful. These men could be used for gauge-making and for supervision of semi-skilled women workers and for the training of women as fitters in the simpler classes of fitting.

These women belonged to the more intelligent classes of the community, which explained their rapid progress and success. The textile committee's report showed that the college apparatus had been very useful for testing the strength of cloth for government work. They had done quite a lot of work of this kind.

Twenty-five thousand pairs of socks were sent out in one day from the Canadian Red Cross depot at Boulogne.

Have you smoked "NOBLEMEN" Cigars lately?

Leckie Shoes

NO other shoe in the world is superior to the genuine LECKIE. That statement is a strong one but its truth is borne out every day in the year—in all kind of weather—under all conditions.

The banker, lawyer, professional men in all walks of life agree with the man of the farm that LECKIE is real shoe economy. The boys in Khaki have found, through experience, that LECKIE IS THE SHOE OF COMFORT and satisfaction.

Look for the name "LECKIE" It's your protection

D. G. MACDONALD APPOINTED SECRETARY OF Y.M.C.A.

At a meeting of the directors of the Y.M.C.A. Thursday evening it was unanimously decided to appoint D. G. Macdonald, acting general secretary of the Victoria association, to the posi- tion of secretary at Nelson. He will take charge Sept. 1. The following of- ficers were elected: William Irvine, president; A. T. Walley, vice-presi- dent; A. B. Godfrey, secretary and J. R. Hunter, treasurer.

Far more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

F. B. HAWTHORNE 16 YEARS IN CITY

Funeral Will Take Place This Afternoon Privately From His Former Home, Hall Mines Road

Franklin Bond Hawthorne, whose death occurred early yesterday morning after a long and painful illness, at his home, 202 Hall Mines road, was born in Liverpool, England, in 1874.

He came directly to Nelson from England in 1900 and had made his home in the city ever since. Mr. Hawthorne came to the city in the employ of the London and British Columbia syndicate and later entered into partnership with Sydney A. Kelly in the Kootenay Cigar company. For the past 11 years he had been asso- ciated with the Hudson's Bay com- pany.

In 1910 he married Miss E. Fern Dowswell of Regina, who survives him. Beside his widow he leaves a four- year-old son, Robert Bond Steuart, and two brothers, George Steuart Hawthorne of Nelson and Charles Robert Hawthorne of Vernon.

The funeral will take place privately at 4 o'clock this afternoon from the home at 202 Hall Mines road, where the service will be conducted by Rev. Fred H. Graham.

FIRST OF THREE NEW KEELS LAID AT VICTORIA

Rapid Progress Is Being Made at Cameron-Genoa Mills Shipbuilders - Limited Shipyard.

The keel of the first of the three ships under construction by the Cam- eron-Genoa Mills Shipbuilders, Limit- ed, was laid down at the new plant on Saturday, says the Victoria Colonist. The keel is 225 feet in length over all. The work is now approaching its most interesting phase and when the first square frame is placed in position today, the length, breadth and height of the vessel will be in evidence. It may be explained that what the ship- builder refers to as a frame is gener- ally termed by the landlubber, a rib.

A vast quantity of heavy timber is now on the ground, and to this was added 100,000 feet of framing timber which was brought from the Genoa mill and delivered Saturday. A derrick has been erected on the wharf for the handling of the big timbers. It is 60 feet in height and has a lifting ca- pacity of five tons. The piles are now being driven for the slip which is being constructed directly in front of the bandsaw mill. A planer mill is also to be erected adjoining the slip. The whole area on which the plant is being erected is now surrounded with a new high board fence.

The air compressor has been install- ed and everything is in first-class shape for the work which is being steadily carried on. The plant is well worth a visit and the extent of the de- velopments will prove a surprise con- sidering the comparatively short time since the first nail was driven in Vic- toria's new shipbuilding yards.

CELEBRATED ACTORS IN KALISPELL ROUND-UP

Dell Blancett, an all-round wild west showman and trick rider, with his wife, Mrs. Bertha Blancett, has already ar- rived in Kalispell, getting ready for the big round-up, August 16, 17 and 18.

Mr. Blancett was national bucking- horse champion in 1904 and is an all- round performer, riding bucking stock, bull dogging and trick riding. He is a national character in this line, hav- ing pulled down many of the big purses in arenas.

Mrs. Bertha Blancett rides bucking horses, rides in relays, enters the Roman races and holds the world's record for woman champion ship-riding bucking horses. She has participated in all the big national ring events and will ride in all the principal Kalispell events.

Herman Rettig of Pendleton, Ore., is here and will ride in relay, Roman and bucking horse contests. He is a great relay rider and was at one time a cele- brated jockey on the eastern race tracks.

Ben Corbett of Pendleton, Ore., will be here and will ride in all the relay races and chief events.

Bob Anderson of Los Angeles, who has been riding at the big western ex- hibitions where big purses were hung up, will enter at Kalispell round-up arena and be a central figure. He is the most remarkable rider that has ever shown in a round-up arena, as he rides a palo or flat, English saddle on any bucking horse the management may please to lead out. He is in a class by himself and an arena perform- er that elicits great applause. He will ride anybody's bucking horse, bulldog any steer and enter any contest.

Sid Seale is another successful con- testant known to all the big programs and billboards. He rides any horse led into the arena and does a fine roman race as well as other specialties.

Then comes Ed. McCarty, known all over the big northwest, and south, as a relay champion and an all-round show- man with a big string of horses that have been winners in some of the larg- est exhibitions. He will be accompan- ied by 10 or 12 performers of national reputation, and among these will be Johnnie Judd from Las Vegas, New Mexico, who rides in all the big events, and has many victories to his credit.

The Indian features in the program will draw to the Kalispell round-up a large array of Indians from the Black- feet, Flathead and British Columbia Indian reservations. At least twelve hundred are expected to be present.

The parade will be resplendent with 300 Indians in paint and feathers and ancient war trappings. It will be a big show.

Cuba Crutchfield, one of the world's famous rope artists, is among the early arrivals of the Kalispell round-up. Mr. Crutchfield has not only made an en- viable record in the arena but has ap- peared on some of the biggest vaude- ville circuits. He is also a familiar figure in moving picture reels in ar- tistic rope work and athletic feats. He will be one of the attractive big fea- tures of the show.

The entire program will be an aggre- gation of star performers who will illu- minate the arena of the big Kalispell round-up.

A 10,000 Red Cross club has been formed in Montreal. Its aim is to secure 10,000 members who will sub- scribe $1 a month to the Red Cross.

The Hudson's Bay Company.

Take as many as you can while you have the chance at this price.

REPORT ISSUED ON CANADIAN FISHERIES

Although Prices Have Risen Commission Finds Quantity of Catch Has Not Increased.

OTTAWA, Aug. 4.—The commission of conservation has been conducting an investigation into Canadian fisheries and it finds the industry is not pro- gressing. A report says:

"The excessive rise in prices which has characterized practically all staple commodities during recent years has had the effect largely of impairing the usefulness of statistical records, in so far as the monetary standard, as re- liable indication of progress or decline in respect to the output of any indus- try.

"This is particularly true with re- gard to the fishing industry. A glance at the statistics representing the mor ey value of the output of Canadi- an fisheries shows a gradual but steady increase every year for the whole of Canada.

"It will be found, however, on con- sulting the index number maintained by the department of labor, that the substantial increase since 1890 in the value of the annual output of our fish- eries is largely a matter of a rise in prices and that the actual increase in the quantity of fish caught is insignifi- cant.

"In applying this test particularly to the Atlantic provinces, it will be found that the increase in the value of the total production is apparently accom- panied by a decrease in the value of the catch."

WANTS MEXICAN ROW SETTLED IN VANCOUVER

OTTAWA, Aug. 4.—Mayor McBeath of Vancouver has urged the govern- ment here that a letter be forwarded to Washington suggesting that Van- couver be the meeting place for the impending conference between repre- sentatives of Mexico and the United States. Mayor McBeath urges the ad- vantage of the Pacific coast city for the coming gathering. The request is under consideration.

HANDS PAINED AND CRACKED BADLY

Healed by Cuticura Trial Free

"My son got his face and hands chilled and then they began getting rough and they pained and smarted. His skin was very sore and red and his hands were swollen and inflamed and they cracked badly.

"I got Cuticura Soap and Ointment and before he had finished one cake of Soap and two boxes of Ointment he was healed." (Signed) Mrs. Charles Bown, R. D. No. 3, Bury, Que- bec, December 22, 1915.

Sample Each Free by Mail

Don't SCOUR Your Teeth

USE a tooth paste that cleans and polishes in a natural way—get Mennen's.

Mennen's is free from grit and all injurious substances. It thor- oughly cleans the teeth and re- moves stains and tartar.

And then there is the fresh cool after-taste that is so agreeable compared with the "druggy" sickly taste of so many dentifrices. Mennen's with its zip and tang is the man's favorite.

MENNEN'S CREAM DENTIFRICE

Sold by Druggists. If unable to obtain it readily, send 10c. and we will send you a Demonstrator tube containing enough to enable you to give this Dentifrice a thorough trial. Write today.

KEEP MANY FIRES FROM SPREADING

Forestry Service Efficiency Keeps Loss to Timber in Big District Down to Nothing.

Fifty-nine forest fires have occurred in the territory of the Nelson forestry department this season and all have been caught and put out before doing any damage to standing timber. Seventeen fires have been caught by Canadian Pacific railway patrolmen.

The cost of preventing fires and catching those which occur before they get sufficient headway to do any damage has been practically nil over and above the salaries of the regular forestry officials. A few dollars would cover all the extra help that has been employed.

BEGIN CUTTING LUMBER AT GERRARD NEXT WEEK

The Western Canada Timber company's mill at Gerrard is ready to begin operations next week, G. Fred Robinson, manager, announced yesterday.

Realize the Difficulty of Quitting Liquor

MEN FIND IT IMPOSSIBLE TO QUIT WITHOUT ASSISTANCE

All drinking men realize the fact they cannot quit alcohol without assistance, and if they were certain they could be treated privately without the loss of time and money, required under the old systems of treatment, they would be only too glad to take advantage of the opportunity and have all craving for alcoholic drinks permanently destroyed. The Neal Three-Day Liquor Cure destroys all appetite for drink in three days' time, and without the use of painful and dangerous hypodermic injections or injurious drugs. During the time the Neal Institute has been located in Cranbrook, B. C., hundreds of patients have been treated without a single failure or bad after effect. It makes no difference what the patient drinks, or how long he has been drinking, the result is always the same—a cure in only three days' time. Call or write for information concerning the Neal Treatment.

Nelson News of the Day

JOHN BURNS DIES SUDDENLY AT HOME

Veteran Contractor Succumbs to Apoplectic Stroke, Aged 62 Years—Had Been Ailing.

John Burns, aged 62 years, died suddenly yesterday afternoon at his home, 423 Silica street, as the result of an attack of apoplexy.

Mr. Burns contracted an attack of bronchitis about three weeks ago and had been confined to his bed, but had apparently recovered almost completely several days prior to his death. Since Wednesday he had been up and about as usual and his death therefore came quite unexpectedly yesterday afternoon. In the morning he rose as usual and spoke of feeling much improved in health. About 3 o'clock he complained of a feeling of dizziness which was followed by an immediate collapse. He was beyond medical aid before his physician could be summoned.

Mr. Burns was born in Belfast, Ireland, and came to Canada about 35 years ago, following his trade of a carpenter in several eastern cities before coming to Nelson 18 years ago. For the past 12 years, he had been engaged as a contractor and had beenactive in building operations in the city and throughout the district, the firm of John Burns & Son, of which he was the senior partner, having constructed a number of residences and public buildings. He is survived by a widow and three sons, John Burns of Nelson, Henry Burns of Blairmore, and Robert Burns of Humboldt, Sask. Although not actively associated with, any religious body he attended the Presbyterian church.

No arrangements have been definitely made regarding the funeral, pending the arrival of his sons.

NEW PHONE LINE TO REACH PENTICTON

Company Will Build Line From Rock Creek—Copper Wires Through Slocan and to Kaslo.

Construction of a telephone line between Rock Creek and Penticton will be commenced by the British Columbia Telephone company about Sept. 1, announced A. B. Godfrey, district superintendent, last night. Completion of this line will give Kootenay and Boundary first class telephone connection with Penticton. The line will be another section of the proposed all-British Columbia Kootenay-coast connection There is connection with the coast now, but it is via Spokane and Seattle.

The new copper wire between New Denver and Kaslo has been strung and is being tested. A construction gang is building a copper wire system between Balfour and Kaslo. It is working from the Kaslo end and has the poles up nearly to Ainsworth. Connection between Kaslo and Balfour at the present time is secured over a Canadian Pacific railway wire. The New Denver-Kaslo-Balfour-Nelson system, which is shortly to be in operation, will provide a copper wire service for this territory.

THEY LIKE BRITISH COLUMBIA BONDS

Says United States Investors Recognize Strong Financial Standing of Province.

American investors are eager buyers of British Columbia bonds, as they recognize the strong financial position of the province and its municipalities, stated Arthur N. Cantril of the Spokane and Eastern Trust company, who was at the Hume last night. This company recently purchased a $30,000 issue of Nelson hospital debentures and Mr. Cantril is in Kootenay and Boundary with the idea of securing further issues from the cities in the district.

"Spokane investors have the greatest confidence in financial conditions in British Columbia and regard the security behind its bond issues as gilt-edged," said Mr. Cantril. "The Spokane and Eastern Trust company takes a similar view as a result of the investigations it has made."

War loan issues by nations of the entente are being rapidly absorbed, said Mr. Cantril, and investors are looking forward to securing slices of the new British loan which it is expected will shortly be floated. The $100,000,000 Canadian loan last fall was also popular and Spokane investors absorbed a substantial part of it.

Mr. Cantril while in British Columbia visited the Coalmont collieries, in which he is interested.

MANY NEW PHONES ARE BEING PUT IN

Telephone business in Nelson is increasing rapidly. The company added a new subscriber for every day of July and at the present time has 30 applications in hand. New phones are being put in as quickly as the construction gangs available can do the work and equipment can be secured, stated A. B. Godfrey, superintendent, last night.

The new motor license reciprocity pact between Ontario and some states of the union has entailed the construction of some good roads in Essex county.

RED CROSS REPORTS GOOD MONTH'S WORK

Treasurer's Statement Shows Credit Balance of $470—Many Gifts Acknowledged.

The monthly meeting of the Red Cross society was held yesterday afternoon in the city hall, at which it was reported that the following materials had been purchased, cut and prepared for distribution by the society's workers during the month of July: Flannelette, eight bolts; towelling, one bolt; linen, 12 yards; total, 500 yards and 24 pounds of wool. Six hundred and twenty-nine articles have been completed and 65 pairs of socks knitted.

The treasurer's statement showed a balance in hand of $470.73, receipts for the month being as follows: Members' fees, $9; 10-cent collections, $19.20. Outside points: Fruitvale, Bonnington, Willow Point and Longbeach, $101.25; raffles and other donations, $99.63; total, $229.08.

Expenses for the month amounted to $228.51. The sum of $300 was sent to headquarters from Nelson and the surrounding branches. Contributions of work have been received from Willow Point, Miss Oliver's' sewing class, Nelson and district Women's institute and a case forwarded direct to Toronto from the Nelson branch Independent Order Daughters of the Empire.

ROSE COMMITTEE ROOMS OPEN DAY AND EVENING

The committee rooms which have been opened by the supporters of Dr. W. O. Rose, Conservative candidate in Nelson, are open all day and every evening. Voters who desire to obtain information as to voters' lists may obtain it at the rooms, which are in the Annable block. The telephone number is 422.

MRS. S. SUTCLIFFE DIED LAST NIGHT

Wife of Christopher Sutcliffe Passes Away at Her Home After Lingering Illness, Aged 70 Years

Mrs. Susanna Sutcliffe died last night at 11:30 o'clock at her home on Vernon street, after having been in poor health for several months.

Mrs. Sutcliffe, who was the wife of Christopher Sutcliffe, veteran of the Crimean war, was born in Acrington, Lancashire, England, Feb. 3, 1846, and came to Canada with her husband more than 30 years ago. She and Mr. Sutcliffe had made their home in the city for the past 17 years. The funeral will take place tomorrow afternoon at 4 o'clock from Knights of Pythias hall and will be under the auspices of the Pythian Sisters and the Knights of Pythias. Mr. Sutcliffe is the oldest member of the Pythians in Canada.

W. H. Brown of Vancouver, a son of the late William Brown who started the first newspaper published at the terminal city, was a visitor to Nelson yesterday, registering at the Hume.

BIG DAY'S BUSINESS EXPECTED AT MARKET

Big day's business expected at market

Large Assortment of Local Grown Ranch Produce Promised for Weekly Trading

Prospects are said to be bright for a splendid morning's trading at the regular Saturday market, both for the housewives and the ranchers.

A large and varied supply of local ranch produce is promised, including fresh honey, fowls, fruits and vegetables. Raspberries are expected to be in good demand for preserving and it is thought that there will be a limited supply of old potatoes. These are expected to sell early at $1.50 to $2.00 per 100 lbs.

The large numbers that have apparently got the market habit and do a good deal of their buying on the sidewalk on Vernon street and in the market building, it is felt, indicates the growing popularity of the weekly event. Recently the stalls have been cleared before the morning's trading came to an end and it is felt that with the advantage obtained by the quick turnover of produce without recourse to the middleman that is made possible by the market, cleared stalls will continue in spite of the ever increasing supplies that are reaching the city every Saturday morning.

Have you smoked "NOBLEMEN" Cigars lately?

Wheatlets for Breakfast

It's the cream of the wheat, granulated, and makes a delightful change for summer breakfasts.. Economical, too.
