VOL. 16 No. 142 NELSON, B. C., FRIDAY MORNING, OCTOBER 5, 1917 5Oc PER MONTH

BRITISH WIN IMPORTANT POSITIONS; CAPTURE OVER 3000 HUNS

MAIN WATER SUPPLY PIPE AT FERNIE WRECKED BY DYNAMITE

Outrage is Perpetrated in Culvert

TWO HOUSES ARE BURNED TO GROUND

Brigade is Unable to Get Water to Fight Flames

(By Daily News Leased Wire.)

FERNIE, Oct. 4.—At 4 o'clock this morning a terrific dynamite explosion totally wrecked the Darcy creek water main, the main water supply line of this city, and about five minutes later a fire alarm was turned in from the Fernie annex. The fire brigade responded quickly. No water could be obtained. On investigation it was discovered that someone had crawled under a small culvert through which the water main runs and had blown up the whole structure by means of dynamite.

A large force of men is now working swiftly to repair the damage and restore the water supply, but it will take some time. No arrests have been made.

(Special to The Daily News.)

FERNIE, B. C., Oct. 4.—The people residing in the Fernie annex and in some parts of this city were awakened at about 3 o'clock this morning by a terrific explosion. About five minutes later a fire alarm was turned in from the annex school alarm and the fire brigade turned out instantly. It was found that the large two-storey residence of William Cole was in flames.

The fire brigade tried its hose, but could not get a drop of water. Upon investigation it was found that a short distance from the suspension cable bearing the water main, at a point where the pipe line runs through a culvert, the pipe line had been blown up by dynamite, cutting off entirely the main water supply of this city. The brigade then endeavored to subdue the flames by using its chemical apparatus, which has a capacity of 1200 gallons, but this was used up in vain. Hurried arrangements were made and the Coal creek auxiliary water supply was turned into the city mains and the blowout was plugged, but only a force of five pounds could be obtained.

Houses Burned to Ground.

This was used to keep the flames from spreading to nearby houses. Luckily the wind was low and the fire was confined to the large house and a small cottage belonging to P. Vanicek. Both of these houses were burned to the ground, but the losses are partially covered by insurance amounting to nearly $4500. The fire is reported to have caught in the basement of Mr. Cole's house under a pile of cordwood. Fireman B. J. Smith sustained severe injuries to his back by falling into the basement while trying to get at the root of the flames.

Chief of Provincial Police Welsby and City Chief Brown are cooperating in an endeavor to locate the party or parties responsible for this dastardly plot, and at a special meeting of the city council this evening the council authorized the issuing of a notice that a reward of $500 will be paid to anyone giving information leading to the arrest of the guilty parties.

The city water supply has been limited to one hour per day until the main from Farry creek can be reestablished. The main force from Coal creek is being conserved for the city light and power system, and the Crows Nest Pass colliery pumps at Coal creek have been used almost entirely to prepare force for fire fighting purposes. It is estimated that four hours' fire service is ready should another outbreak occur tonight.

TORPEDO-PROOF ARMOR PLATE IS INVENTED

(By Daily News Leased Wire.)

LONDON, Oct. 4.—The Daily Chronicle's correspondent at Milan reports that the technical commission of the Royal Italian navy, after scrupulous tests, has approved the new type of torpedo-resisting armor plate against which, it has been found torpedoes discharged from undersea craft spend themselves in a vain effort in perforating. After concussion, the torpedo sinks at once.

ITALIANS WILL MAKE BIG DRIVE

Expected to Be Even More Important Than Plateau Offensive—Foe Attacks Repulsed

(By Daily News Leased Wire.)

WASHINGTON, Oct. 4.—Premier Bozzani at the convening of the Italian parliament, Oct. 16, is expected to give notice of a new drive by Gen. Cadorna's forces, even more important than the progress over the Bainsizza plateau, which is expected to have far-reaching results toward accentuating the Hungarian agitation for a separate peace.

Austrian Attacks Repulsed.

ROME, Oct. 4.—Further violent attacks by the Austrians against the positions held by the Italians on the slopes of Monte San Gabrielle, in the Gorizia sector, have been repulsed, according to the Italian official communication issued today. The text reads:

"From Tuesday evening to yesterday evening fighting continued on the western slopes of Monte San Gabrielle. Repeated enemy attacks, delivered with the support of numerous assaulting parties, were broken up by our fire. In a raid we captured four officers and 22 soldiers who were hiding in a cavern. In the Raccogleano sector a successful raid gained us 27 additional prisoners.

"On the remainder of the front there have been the usual artillery duels.

"An enemy airplane which was at Zaas, was forced to land inside our completed here and began operations lines. The crew was taken prisoner."

12,658 EXAMINED BY MEDICAL BOARDS

No Less than 7491 Placed in "A" Class in Dominion up to September 29.

(By Daily News Leased Wire.)

OTTAWA, Oct. 4.—Returns are to hand here which show the success attending the creation of medical boards prior to the formal calling up of the first-class under the Military Service act. Up to and including Saturday, Sept. 29, there were 12,658 men who submitted themselves to medical examination. This includes all the military districts in the Dominion. Of the 12,658, no less than 7491 were placed in medical category "A"—the category of men deemed to be fit for general service overseas. During last week, military district No. 2, with headquarters at Toronto, ranked first in the number of examinations. Military district No. 4, with headquarters at Montreal, came second, and military district No. 10, with headquarters at Winnipeg, came third.

STRIKE OF TELEPHONE GIRLS AT REGINA IS SETTLED

(By Daily News Leased Wire.)

REGINA, Oct. 4.—The strike of the telephone girls is over and a satisfactory settlement has been reached according to the officials of the Electrical Workers' union. Nine of the girls will return to work tomorrow and the others in the course of a few days.

HUGH GUTHRIE, LIBERAL, IS SOLICITOR-GENERAL

OTTAWA, Oct. 4.—Parliament is dissolved as from Saturday. Hugh Guthrie has been sworn in as solicitor general.

Mr. Guthrie has been the Liberal member for South Wellington for the past 17 years. He is a strong conscriptionist and supporter of Premier Borden's war policy.

Brewster Was Not Invited.

VICTORIA, B.C., Oct. 4.—Regarding the report that he had been invited by Sir Robert Borden to join the government, Premier Brewster today said he had received no communication whatever from Sir Robert.

"Possibly," he remarked, "the fact that I am leaving for the east on behalf of provincial interests, accounts for the story.

Leaves for Ottawa.

VICTORIA, B.C., Oct. 4.—Premier H. C. Brewster left Victoria tonight for Ottawa where he will confer with leading Liberals of the Dominion on the subject of cooperation with Sir Robert Borden in the formation of a union government. Mr. Brewster has been invited to attend the conference at Ottawa by N. W. Rowell, A. L Sifton and A. B. Hudson. He has not been offered a portfolio by Sir Robert Borden but the proposal is being negotiated and his entry to the union government will depend on the attitude of the Liberal conference. Information received here is that the western Liberal leaders will agree upon a policy of supporting the present prime minister.

BRITISH DEMAND RAID REPRISALS

Want Policy of Passive Defense Dropped

PRESS AND PUBLIC JOIN IN PROTEST

Claim That Measures Must be Taken to Cripple Hun Air Activity

(By Daily News Leased Wire.)

LONDON, Oct. 4.—The possibilities and importance of air warfare have been brought home to the British military and civilians by the campaign of the past 10 days, as only experience could bring them home. The result is that virtually the whole press and public opinion are now demanding that the policy of passive defense for England and the watchword "composure," which the government heretofore has urged upon the people, be dropped and that a strong air offensive against Germany be waged at once.

Even papers like the Manchester Guardian, which have taken the line that air raids accomplished little because they succeeded in killing only an infinitesimal number, have changed their policy.

What the German air raids have accomplished in a purely military way is known to the whole world, and to none better than the Germans. By the employment of some 50 machines and at the most 200 men, including aviators and mechanics, the enemy has forced England to detach several hundred valuable machines and several thousand men, including skilled gunners, for home defense, and also a large number of machinists, searchlights with operating staffs and other experts. The men and material devoted to this offensive is small compared with the men and materials the attacks compel England to maintain for the defense.

Industries Handicapped.

But, it is also the fact, which the London papers describe, that the normal life of the largest capital in the world and of important cities has been disturbed for 10 days and the industries and the working capacity of the people of London have been seriously handicapped.

What Londoners are asking is why they should undergo this experience and the Germans be permitted to go free, why it is that a few British aviators and machines could not compel the Germans to employ a large force for protection of its cities, and why should not the German population be threatened and harrassed.

Hence the general demand for a counter-offensive of retaliation or reprisal in order to pay the German in his own coin. The voicing of the sentiment, of which the Archbishop of Canterbury has been one of the conspicuous spokesmen, that because the Germans kill British women and children is no reason why the British should kill German women and children, seems now to be little heeded and has almost been stilled.

The English urge that they did not begin this form of warfare and that they did not wish to engage in it, but that they cannot be expected to submit to it, without taking measures which will cripple the German air activity.

Premier Lloyd George remarks that the Germans would be paid with compound interest.

Forced to "Eye for Eye" Policy

LONDON, Oct. 4.—Speaking with the authority of a member of the war cabinet, Lieut.-Gen. Smuts, former commander of the forces in German East Africa, in an address today to the presidents of the chambers of commerce of the United Kingdom, said the government had been reluctantly forced by recent air raids on London and other English cities to apply the maxim of "an eye for an

(Continued on Page Two.)

BIGGEST VICTORY SINCE THE MARNE

German Forces Scattered and Shaken by British

HAIG FORESTALLS ATTACK IN FORCE

Slaughter of Huns Worst Since the War Started

(By Daily News Leased Wire.)

LONDON, Oct. 4.—Via Reuter's Ottawa Agency.—Telegraphing this evening from British headquarters, Reuter's correspondent says:

"Today is already being proclaimed one of our greatest victories since the Marne, and it really seems as if the battle which has rolled onward at Menin ridges has gone on brilliantly. Germans are scattered and shaken, prisoners are streaming back in hundreds, many of them without a sign of fighting; but a large proportion of the wounded are officers. All are depressed and agree that it has been a disastrous day for Germany. Never have our troops fought more superbly.

"A new staggering blow in Flanders was launched this morning in unsettled weather, which, however, favored us and handicapped the enemy. Today's battle is a bid for a further grip on the great Menin ridge system. The enemy was unquestionably fully alive to the impending attack. The only points of which he was not sure were where and exactly when.

"That the enemy was thoroughly alarmed at the development of our strategic menace to his whole right flank, was sufficiently shown by the feverish haste with which he hurried up fresh troops and shuffled his reserves. Two divisions appeared from the Russian front within the last two days.

The Germans are now being driven beyond the zone of their long prepared positions, with the result that they have to depend more upon men and less upon protective works to resist our advance. As a consequence of this development of open warfare, the fighting is becoming cleaner, that is, there is more of the hand to hand element and less chemical frightfulness.

German Attack Forestalled.

"But another factor has contributed to our success; we forestalled a big projected attack with the object of recovering Zinnebeke ridge. No less than five divisions had been brought into position for this purpose. It is stated that their attack was fixed for 7 o'clock. Ours was launched an hour earlier and this was the enemy's undoing. Our terrible curtain of fire swept over the assembled masses of the German assault division. The slaughter was decidedly the worst of the war. Flesh and blood was unable to continue to face such an ordeal and when our attacking waves advanced, the Germans in many places were already bolting like dazed rabbits. The answer of our wounded on being asked the question whether they saw any Bosches, was the almost stereotyped one, "only their backs unless wounded."

British Irresistible.

"Up Broedseinde ridge surged waves of khaki and that commanding spur of bitter bygone memories, was once more in our hands. Our men were irresistible; the officers' greatest difficulty was to restrain them. The bayonet scarcely came into play, for the Germans seldom allowed our lads to get into grips. Here and there they made a stout stand in the concrete works, but the crushing defeat of their own attack before it was launched seemed to have affected them nearly all along the line.

"I hear that the Germans are withdrawing their guns. We shall probably never hear the truth of the German losses this day, but it is certain that these run into many thousands. Our casualties are again relatively light."

ALL OBJECTIVES WON BY HAIG'S MEN IN SMASH THROUGH LINES

Troops Swarm from Trenches at Daybreak and Fight Way Forward on Front of Over Eight Miles

POINTS OF OSTEND-LILLE RAILWAY NOW WITHIN RANGE OF HAIG'S GUNS

Main Ridge of Heights Affording Dominating Point for Launching Future Attacks Almost Entirely in British Hands--Germans Surrender by Hundred, Glad to Escape from Maelstrom of Battle

(By Associated Press.)

The anticipated renewal of Field Marshal Haig's big offensive in Flanders has begun, and all the objectives of the first day have been won and held. Like the preceeding attacks, the latest one was timed to the minute. The British forces at the given signal at daylight swarmed from their trenches over ground that had been harrowed by myriads of shells from the great array of artillery, and all along the front of more than eight miles from south of Tower Hamlets to the north of Langemarcq, they made notable new gains of terrain and inflicted heavy casualties on the Germans, while they themselves suffered slightly and took many prisoners, large numbers of whom gladly surrendered in order to reach a haven of safety from the maelstrom. The attack was delivered with all the dash of previous offensives and swiftly and surely the Britishers, notwithstanding heavy counter-attacks at various points, took positions that had been marked out for them, some of them to a depth of more than a mile.

Railway Within Range.

The main ridge of the heights running north and south to the east of Ypres, which affords a dominating point for the launching of future attacks, is nearly in the hands of the Britishers, and at several points the Ostend-Lille railway now is within the range of Haig's guns.

More than 3000 German prisoners had been passed behind the lines when the latest official communication concerning the day's fighting was sent, and large numbers of others were being gathered in.

Especially bitter fighting occurred to the east of Zonnebeke, the nearest point of approach to the desired railway line, which connects Ostend, Zeebrugge and other northern points of supply with the German line to the south. The efforts of the Germans to stay the British here were fruitless, however, as likewise were their efforts farther north in the region of Poelcappele, where the British gained ground to the depth of about two-thirds of a mile.

There has been no cessation in the extremely violent duel between the French and German artillery on the west bank of the Meuse and in the Verdun sector.

The Germans have made another infantry attack against the French north of Hill 344 in this region, but again were repulsed with heavy casualties.

French Airmen Bomb Cities.

French airmen are continuing to carry out reprisals on German cities and towns for the aerial bombardment of Bar le Duc by German aircraft. Frankfort-on-Main and Rastatt Baden, 14 miles southeast of Karlsruhe, have been effectively shelled from the air. In addition the British and French fliers are keeping up their raids over Grman points of military advantage behind the fighting lines, again having loosed large quantities of explosives upon them.

(By Daily News Leased Wire.)

LONDON, Oct. 4.—Thousands of prisoners have been taken by the British in the new drive against the Germans which was begun this morning east of Ypres in Flanders. All the objectives of the British were won, including positions characterized by Field Marshal Haig's report from headquarters tonight as of "great importance."

The text of the official report from British headquarters in France tonight reads:

"Our attack this morning was launched on a front of over eight miles, from south of Tower Hamlets to the Ypres-Staden railway, north of Langemarcq, and has been completely successful. All of our objectives have been gained: positions of great importance have been won and over 3000 German prisoners already have reached the clearing stations.

"We are now in possession of the main ridge up to a point 1000 yards north of Broodseinde."

French Repulse Attacks.

PARIS, Oct. 4.—The statement issued by the war office tonight reads:

"There were grenade engagements and artillery actions on the plateau south of Alles. An enemy surprise attack was repulsed west of Pompelle.

"There was very violent artillery fighting all day on the right bank of the Meuse. We repulsed this morning an enemy attack against one of our trenches north of Hill 344. Our artillery caught under its fire enemy concentrations in this region."

Berlin Minimizes Gain.

BERLIN, Oct. 4.—The German version of the battle in Flanders, as reported in the supplementary statement from German headquarters tonight, reads:

"On the battlefield in Flanders, the British during Thursday's great attack penetrated only about one kilometre deep into our defensive zone between Poelcappelle and Gheluvelt. Especially bitter fighting is still proceeding to the east of Zonnebeke and west of Becelaer.

"On the other fronts," the communication adds, "there is nothing of importance."

TOLL OF SUBMARINES RECENTLY IS HEAVY

LONDON, Oct. 4.—A high official of the admiralty said today that more German submarines had been sunk during the last three months than duringany similar period.

HUNS WANT RUSS TROOPS TO HOBNOB

Try to Bribe Them to Leave Their Trenches—Russians Reply with Gunfire.

(By Associated Press.)

Near Jacobstadt, which lies midway between Riga and Dvinsk, on the northern Russian front, a big battle apparently is being prepared for. Here Petrograd reports an intense artillery duel in progress, which probably indicates that the Germans are seeking to pave the way for an attempt to cross the Dvina river.

To the south the Germans again are endeavoring to fraternize with the Russians, begging them to come out of their trenches. The Russians, however, are answering them by fire.

(By Daily News Leased Wire.)

PETROGRAD, Oct. 4.—The Germans on the southwestern front again are attempting to fraternize with the Russians by throwing boxes of tobacco and cigarettes into the Russian trenches and calling to the soldiers to "come out of the trenches."

The Russkia Volya says, in connection with the German attempts, that "our soldiers are answering them with gunfire.

Germans Abandon Trenches.

PETROGRAD, Oct. 4.—An official report states:

"Northern front: In the region of Jacobstadt an intense artillery duel is proceeding. On the other sectors there have been fusilades and reconnoitering operations.

"West and southwestern fronts: There have been fusilades.

"Rumanian front: On the Poliani sector, eight miles northwest of Sotip, the enemy has left his advanced positions and retired to a more favorable position. On the other sectors of the front all is quiet except for feeble rifle and artillery duels.

"Caucasian front: There is nothing to report.

"In the Black sea, in the region of the Bosphorus, our torpedo boats have sunk two barges loaded with coal. A tug and a third barge were captured and brought into Sebastopol. Thirty-nine Turks were made prisoner.

"Aviation: An enemy aerial squadron has attacked the village of Krasno. Eighty bombs were dropped, and two soldiers were killed and four wounded. Several horses also were killed.

BRITISH CRUISER DRAKE TORPEDOED

One Officer and 18 Men Killed by Explosion—Remainder of Ship's Company Saved.

(By Daily News Leased Wire.)

LONDON, Oct. 4—The British cruiser Drake has been torpedoed and sunk, according to an admiralty announcement tonight. The Drake was torpedoed Tuesday morning off the north coast of Ireland. She reached a harbor, but then sank in shallow water. One officer and 18 men were killed by the explosion. The remainder of the ship's company were saved.

The Drake was a vessel of 14,100 tons. She was built at Pembroke in 1901, and had a speed of 23 knots. Her complement was 900 men. A sister ship of the Drake, the Good Hope, was sunk in the battle off Coronel, Chile, in 1914, with a loss of 887 men. The Drake was well known in eastern American waters, having several times visited the United States and Canadian ports. She was the flagship of the fifth cruiser squadron which attended the Hudson-Fulton celebration in New York in 1909.

GERMAN RAIDERS ROAM THE PACIFIC

Notorious Seeadler Strands on Island But Crew Embarks on Captured Vessel.

(By Daily News Leased Wire.)

WASHINGTON, Oct. 4.—Operations of German raiders in the southern Pacific were revealed tonight in a despatch to the navy department from Tutuila, Samoan islands, telling of the arrival there in an open boat of the master of the missing American schooner R. C. Slade, with a story of how the notorious Seeadler had stranded on Mopeha island after destroying three American schooners and how the members of the German crew had set out for further depredations on commerce on other captured vessels.

U. S. IS BUILDING 20,000 AIRPLANES

"Eyes" of Army Will Be Ready When Nation's Forces Participate in Fight

WASHINGTON, Oct. 4.—Twenty thousand airplanes for America's fighting forces in France authorized in the $640,000,000 aviation bill passed by congress last July, actually are under construction. The necessary motors also are being made, Secretary Baker announced, and the whole aircraft program has been so coordinated that when planes and motors are completed, trained aviators, as well as machine guns and all other equipment will be waiting for them.

"When this nation's army moves up to participate in the fighting," the secretary said, "the eyes of her army will be ready.

"Within a reasonable time, considering the period for preparation," Mr. Baker's statement said, "this country will send its first airplane to Europe. This airplane, from the tip of its propeller to the engine, machine gun and camera, will have been made in the United States."

COOPERATIVE ELEVATORS TAKE BIG PART OF BONDS

REGINA, Sask., Oct. 4.—The Saskatchewan Cooperative Elevator company has subscribed $20,000 of the provincial greater production bond issue.

WILL PREVENT DEPLETION OF LIVE STOCK IN CANADA

Hon. Martin Burrell Outlines Cooperative Plan Adopted—Concessions Made by Railways.

(By Daily News Leased Wire.)

OTTAWA, Oct. 4.—Hon. Martin Burrell, minister of agriculture, in an official statement issued tonight outlined a cooperative plan which has been reached between the department of agriculture and the railways to prevent the depletion of Canadian breeding and feeding stock, ensure the feeding of livestock in Canada, and result in the return of feeding and breeding stock to the farms.

The plan includes the undertaking of "a redistribution policy which would provide for the movement of stock from areas where feed is light to areas where feed is heavy," in other words, from western to eastern Canada.

A free freight policy has been adopted in connection with the transport of breeding cattle and breeding sheep. The railways will rebate 25 per cent of their charges, and the government will pay the remaining 75 per cent. The government also agrees to pay a rebate of 50 per cent on carload shipments of feeding cattle, sent from Winnipeg to country points in the eastern provinces. Carloads of breeding sheep will also be sent west free of charge, and other concessions in regard to freight rates are made.

Policy Explained.

Mr. Burrell's explanation of the policy and detailed announcement is as follows:

"Last week 2295 stockers and feeders and 11809 shepp and lambs were exported to the United States from Winnipeg, Toronto and Montreal stock yards. While it has been sufficiently ascertained that the large proportion of these exports is comprised of either heavy feeder or second class cattle,

(Continued on Page Two.)

AUSTRIA-HUNGARY MAY BREAK WITH GERMANY

Rupture Threatened if German Government Maintains Its Attitude on Peace Question.

(By Daily News Leased Wire.)

LONDON, Oct. 4.—The Daily Express correspondent at Amsterdam writes that there is an increase of signs indicating that, if Germany continues her present attitude on the question of peace, popular feeling in Austria will force the Vienna and Budapest cabinets to denounce the alliance with Germany and to try and secure as good a peace for Austria as may be possible.

The Daily News correspondent at Rome says that a report is current there that President Wilson proposes to place certain demands before the central empires, including the evacuation of invaded territories, full compensation for all damage, unconditional adhesion of the League of Nations, implying disarmament, and a realization of Franco-Italian territorial aspirations.

"The report is not credited," he adds, "but it is considered significant that instead of the proposal being of American origin, it is suspected of being an Austro-German attempt to ascertain whether the allies are disposed to accept such conditions of peace."

BRITISH TROOPS IN ANOTHER BIG DRIVE

Smash Way Through German Lines to Depth of Mile—Enemy Surrenders by Hundred.

(By Daily News Leased Wire.)

BRITISH FRONT IN FRANCE AND BELGIUM, Oct. 4.—Field Marshal Haig's forces in an offensive begun to the east of Ypres this morning, in some places have penetrated the German lines to a depth of one mile and have overrun the crest of Paschendaele and Gheluvelt ridges.

At an early hour the Germans were surrendering by hundreds. The British already have penetrated well beyond the hamlet of Broadseinde, in which lie the crossroads formed by the highways between Zonnebeke and Moorseld and Pachendaele and Beclaire. Further to the south, Cameron covert, where there had been much hard fighting, was left well in the rear.

The northern wing of the onrushing British troops was battling forward this morning within a shorter distance of Poelcappele. It had a footing on the famous Gravenstafel ridge, which juts out from the Pachendaele ridge to the west, and had crushed through the Zonnebeke-Broadnseinde ridge, which is an integral part of the Pachendaele-Gheluvelt chain.

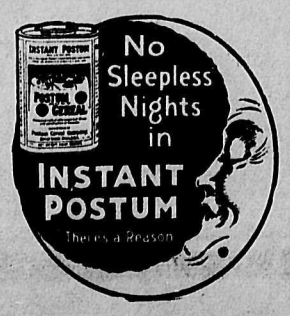
AT THE THEATRES.

At the Gem.

"The Captain of the Grey Horse Troop" is the first Hamlin Garland story to reach the screen. The photo-drama, which plays at the Gem theatre today and tomorrow, has unusually picturesque qualities. Writing with the purpose of presenting the problems of the American Indian, Mr. Garland hit upon a charming romance.

The story in brief follows: Captain George Curtis, of the Grey Horse Troop, is detailed to a Tetong reservation as agent to displace the cruel, oppressing Sennett. Curtis believes that the Indians can be developed, educated and made happy by kindness. He finds the settlers, cowmen and sheep herders antagonistic. They want the land for grazing their stock.

Elsie Brisbane, daughter of ex-Senator Brisbane, is staying at the agency to paint Indian pictures. The displaced agent, Sennett, is her uncle, and naturally she comes to think Curtis unfair in ejecting the man. But, as Curtis goes steadily forward in his plans, she is made finally to realize how right he has been. The settlers provoke trouble, an Indian kills a herder who attempts to insult his wife, and mobs threaten the reservation. Curtis arrests the murderer, convoys him to the nearby jail, averts the mob rule and, in the end, wins not only triumphant acclaim for his theories, but Elsie as well.



IMPLICATES HEARST IN BOLA PASHA CASE

Statements by New York Attorney General Challenged by Publisher, Who Threatens Action.

(By Daily News Leased Wire.)

NEW YORK, Oct. 4.—The investigation of Martin Lewis, state's attorney general, into the activities of Bola Pasha, under arrest in France as a spy and peace propagandist, disclosed that William Randolph Hearst, the newspaper publisher, attended a dinner in this city given by Bola Pasha in March, 1916, according to the attorney general. There were present at this dinner, Mr. Lewis told newspapermen, Adolph Pavenstedt, who figured as an intermediary for the transfer of German funds into New York banks to be sent to Paris for peace propaganda among French newspapers. It was explained, that the Hearst relations with Bola Pasha were purely social as far as he was aware.

The attorney general was busy today examining further witnesses in the Bola Pasha matter. Further disclosures are expected.

Hearst Challenges Lewis.

LOS ANGELES, Cal., Oct. 4.—William Randolph Hearst, the publisher, commenting on information made public today in New York by M. E. Lewis, attorney general of New York, concerning Mr. Hearst's social actions with Bola Pasha, alleged German spy, defied Mr. Lewis to "substantiate any one of his unwarranted implications," under threat of proceedings for slander.

51,435 PRISONERS TAKEN BY BRITISH

Gen. Maurice Speaks of Captures on Western Front in First Nine Months of Year

(By Daily News Leased Wire.)

LONDON, Oct. 4.—In their offensive in the Ypres sector today, the British gained all their objectives on a front of 16,000 yards and to a depth of 2500 yards, Gen. Frederick B. Maurice, chief director of military operations at the war office, announced today. They also captured the village of Broadseinde. Both the first and second objectives on the ridge have been captured by the British, Gen. Maurice said.

Gen. Maurice made his statement to the Associated Press today after a telephone conversation with headquarters in France. A map of the battlefield, with the day's objectives marked in colored crayons, lay on the desk before him, indicating the extent of the victory, and the positions on the crest of the ridge now held by the British troops. After pointing out the objectives, Gen. Maurice turned to the makeup of the Flanders army and said:

"The troops which have been engaged in the fighting from July 31 to the present are composed as follows: English, 70 per cent; colonials, 16 per cent; Scottish, 8 per cent; Irish, 6 per cent. The casualties in the same period were distributed as follows: English, 76 per cent; colonials, 8; Scottish, 10; Irish, 6."

Summing up the work of the army in the first nine months of the year, Gen. Maurice said:

"During that period we have taken on the western front 51,435 German prisoners and 332 field and heavy guns, while our losses have been 15,065 prisoners and no guns."

BRITISH DEMAND RAID REPRISALS

(Continued from Page One.)

eye and a tooth for a tooth," and carry out an air offensive of an unprecedented scale against German cities. In making his announcement, Gen. Smuts declared that the people of London, after the recent raids, are thinking less of peace than ever.

"It is almost unbearable to think that another chapter of horrors must be added to the awful story, but we can only plead it has not been our doing, and the blame must rest on the enemy, who apparently recognizes no laws, human or divine, who knows no pity or restraint, who sang over the sinking of the Lusitania, and to whom the maiming of women and children appear legitimate means of warfare."

Gen. Smuts concluded with an expression of the belief that the war had already been won and that the military, moral and economic forces marshaled against Germany would prove invincible.

"What is required of you is the determination to see the struggle through, not in a selfish, imperialistic way, but in the conviction that this is the Armageddon in which the power of militarism must be slain forever."

PRAYERS FOR THE DEAD DISCUSSED BY SYNOD

(By Daily News Leased Wire.)

MONTREAL, Oct. 4.—Should prayers for the dead be embodied in the revised prayerbook of the Anglican church? This question was debated long and earnestly this afternoon by he synod ofthe ecclesiatsical province of Canada, the proposition being to take the prayers from the Scottish liturgy, and it was finally decided, by a vote of 34 to 4, to memorialize the general synod for authorization to use such prayers.

10 FOR VICTORIA IN PARTY OF RETURNED MEN

(By Daily News Leased Wire.)

WINNIPEG, Oct. 4.—Another party of returned soldiers passed through Winnipeg tonight in charge of Major Coates, C. A. M. C., 14 for Regina, eight for Calgary and 10 for Victoria.

ENEMY WORKS BOMBED BY BRITISH AVIATORS

(By Daily News Leased Wire.)

LONDON, Oct. 4.—Naval aircraft on Wednesday bombed St. Denis Westerm, the Zeebrugge lock gates, the Bruges docks, the Thorout railway junction and other targets, says today's report on the British aerial operations over Belgium. All the machines returned safely.

DREADED NIGHTMARE IS REALITY FOR HUNS

Continuous Successes of British Prove They Are Being Defeated at Own Game.

(By Daily News Leased Wire.)

LONDON, Oct. 4.—Via Reuter's Ottawa Agency.—Telegraphing last evening from British army headquarters Reuter's correspondent emphasizes that we retain all gains made in the recent pushes.

"This," he says, "is the true test of military strength; for in this war the taking of a position is one thing and the retaining of it is quite another. Apropos of this, the following incident is characteristic:

"Following a great burst of gunfire, the Germans succeeded in rushing a little outpost of ours in the Scarpe valley, where there was much bitter fighting. It was a small affair, garrisoned by a mere handful of men, but the Huns made a great fuss over it, as they do nowadays over any of their rare successes. Their vauntings, however, were premature, for on the following night our lads returned and cleared out the post.

"The moral is that what we take we keep nowadays, even although the enemy effects a temporary reentry. The side which never recovers its losses is the beaten side. The Germans are being surely defeated on the is the one nightmare from which Prussian militarism shrinks.

"So, don't trouble about the map. We have done all we wanted in the western front and defeat on the field way we wanted and that is what really matters."

WILL PREVENT DEPLETION OF LIVESTOCK IN CANADA

(Continued from Page One.)

and of wether lambs, still the figures given are so significant as to indicate the need of the utmost vigilance being exercised to prevent the loss to Canada of useful feeding and breeding stock. The heaviest export movement in cattle was from Winnipeg stockyards, while in sheep and lambs the greatest movement was from Toronto and Montreal. During the same week 3534 stockers and feeders were returned to country points in eastern Canada, but the movement back to the country in sheep and lambs was comparatively insignificant.

"While it is true that a careful analysis of the market movement in both sheep and cattle will indicate that the numbers of high class feeding and breeding animals which are either being returned to or are retained at country points are very considerable, it is also true that there is danger of serious leakage, week by week, from the central yards, both into the United States and into Canadian packing establishments. Under existing circumstances, this material represents so important an asset that Canada cannot afford to let it slip through her fingers without an earnest and aggressive effort being made to retain it, for its proper use on Canadian farms."

Redistribution Necessary.

In recognition of this fact, Mr. Burrell, through the livestock branch has made a careful investigation of the whole situation, as a result of which it was ascertained that varying feed conditions throughout the country were necessitating heavy liquidation from certain areas, while from others a satisfactory demand was being developed for both feeding and breeding stock. Generally speaking, feed conditions in eastern Canada are particularly promising, while in many portions of western Canada, pasture, hay, and fodder crops are much below normal. It has become apparent, therefore, that increased production would largely be dependent upon and could most profitably be stimulated by the undertaking of a redistribution policy which would provide for the movement of stock in areas where feed is light to where feed is plentiful. It was decided that assistance in a movement of this kind would do more to maintain and stimulate production than, under existing conditions, anything else that could be undertaken. To attain this object the minister has sought the cooperation of the Canadian railways, with which he has been in close communication for several months. As a result of the negotiations which have taken place, cordial support has been secured for the undertaking of a policy in this direction, and it is now possible to announce several important tariff concessions, which, it is believed, will prove effective in preventing the slaughter or export of useful young feeding and breeding stock and returning them to the farms.

Concessions Stated.

The Canadian railways have agreed to issue a special tariff in connection with the transportation of carloads of breeding cattle and of breeding sheep. Under this tariff the railways will rebate 25 per cent of the regular freight rate, while the minister, on behalf of the government, has agreed to pay the remaining 75 per cent. The tariff will be applicable in both eastern and western Canada, but not between eastern and western Canada, in connection with the return of carloads of breeding stock from the central stockyards to country points. The shipper will be required to make out a declaration that he is a bona fide farmer and that the stocks returned is for his own use or that of his neighbors and is for breeding purposes only. On presenting this certificate, embodying this declaration and approved by the officer of the livestock branch at the stockyards, to the railway company, he will be entitled to the free shipment of the stock to its destination. The railway companies have agreed to forward such shipments direct, that portion of the freight which the minister has agreed to assume. Further inquiry regarding this special tariff on breeding stock should be addressed to the representative of the Dominion livestock branch, located at the several stockyards throughout Canada.

Nervous Breakdown Averted

No Appetite, No Energy, Sleepless and Weak, But Soon Cured by Dr. Cassell's Tablets.

Mr. G. C. Inman, 330 Harcourt street, Sturgeon Creek, Winnipeg, says: "I was in a very weak, rundown condition. I ate little, frequently missed meals because I had no appetite and suffered if I forced myself to eat. My nerves were in bad way and my sleep very disturbed. Everything pointed to a nervous breakdown. Then I got Dr. Cassell's Tablets, and it was astonishing how my strength came back." Mr. Inman is now in England as manager of A. W. Inman and Son, printers, Leeds.

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address Harold F. Ritchie & Co., Ltd., 10 McCaul St., Toronto.

Dr. Cassell's Tablets are the supreme remedy for dyspepsia, Kidney Trouble, Sleeplessness, Anaemia, Nervous ailments and nerve paralysis and for Weakness in Children. Specially valuable for nursing mothers and during the critical periods of life. Price 50 cents per tube, six tubes for the price of five from druggists and storekeepers throughout Canada. Don't waste your money on imitations; get the genuine Dr. Cassell's Tablets.

Proprietors, Dr. Cassell's Co., Ltd., Manchester, Eng.

GIANTS ARE BEATEN IN PRACTISE GAME

Defeated by Chicago Nationals in Match to Prepare Players for World's Series.

(By Daily News Leased Wire.)

CHICAGO, Ill., Oct. 4.—The New York Giants limbered their muscles today in preparation for their coming struggle with the Chicago Americans for the world's championship. They were opposed by the Chicago Nationals who won the game, 9 to 5. The league leaders, however, did not exert themselves after a few innings, and Chicago easily took the lead. Manager McGraw sent his regular lineup with the exception of his batterymen, into the game today at the start. Burns, Herzog, Kauff, Zimmerman, Fletcher and were given a rest after they had played a few innings. Herzog played at his regular gait. He showed much speed in scoring. On one occasion he slid under O'Farrell after a sacrifice fly to short centre. The other regulars also benefited by the workout.

Manager Mitchell started Vaughn and the champions touched the left hand offerings hard. Zimmerman and Kauff hit for a double each, while Fletcher was credited with a home run when the ball rolled through the fence. The New Yorkers, however, were unable to solve Carter's delivery. Demaree went the route for New York. Sallee, Perritt and Schupp were warmed up before the game.

Score—	R.	H.	E.
New York	5	8	3
Chicago	9	15	1

Batteries: Demaree and Gibson, Onslow; Vaughn, Carter, Hendrix and O'Farrell.

BROOKLYN FINISHES SEASON BY TAKING SEVENTH PLACE

Practically Ties With Boston by Winning First Game in Doubleheader But Loses Second

National League

BROOKLYN, N. Y., Oct. 4.—The champion Brooklyns finished the 1917 season here today in seventh place. They practically tied Boston by winning the first game 5 to 1, but lost the second 4 to 2.

American League

BOSTON, Mass., Oct. 4.—Boston and Washington closed the American league season here today with the visitors winning 5 to 4.

MIKE O'DOWD KNOCKS OUT LAUGHLIN IN SECOND

(By Daily News Leased Wire.)

NEW YORK, Oct. 4.—Mike O'Dowd of St. Paul, knocked out Willie Laughlin of South Bethlehem, Pa., in the second round of a 10-round bout in Brooklyn tonight.

INTEREST INTENSE IN WORLD'S SERIES

Price of Box Seats Soars to $75—Scalpers Routed by Drastic Action of Comiskey.

CHICAGO, Ill., Oct. 4.—With fair weather promised for the opening game of the world's series Saturday between the New York Nationals and the Chicago Americans and the ticket scalpers apparently routed, the invaders were defeated in a practise game with the Chicago Nationals today. The season being over no one paid any attention to the score, but much to the batting. The attendance was small but this was no criterion of the interest felt in the big series. It is intense. The recent announcement of those who as brokers were to stand between the boxoffice and the ultimate consumer that they would have plenty of tickets went into eclipse during the day, but their prices soared. The brokers paid back thousands of dollars in deposits, and it was learned that none of them had more than a dozen of the three-game tickets for sale. The price of box seats accordingly soared to $75, and even the mere reserved seats, made of hardwood slats, and worth at the factory maybe $3, were quoted for three sittings at $35 each.

The paucity of scalpers' tickets was attributed to the energy which Owner Comiskey displayed in seeking to circumvent the practise He held back distribution until this morning; he numbered the tickets and indexed the names of purchasers; he obtained the aid of the state attorney and the chief of police and promised full publicity in the advertising columns of the newspapers wherever he found that a purchaser had transferred his ticket to a broker.

The lines at four ticket offices at the ball parq began forming at 7 o'clock this morning and the procession continued until all of the 15,000 reserved seat tickets had been given out.

In the matter of betting, the locals talked loudly of 6 to 5 on the Comiskey team and New York adherents talked the same odds to their men, but what betting could be located was at even money on the result.

While the crowd was clamoring for tickets outside the White Sox park, the American league champions put in several hours of practise. The diamond was a little soggy due to recent rains, and it was covered tonight so as to be in shape for the final practise tomorrow.

"Kid" Gleason, the coach, was in charge of the practise. Later Manager Rowland addressed the players in the clubhouse. There will be a meeting of the National baseball commission on Friday.

TORONTO, Oct. 4.—Manager Lajoie of the Toronto Baseball club has been given a bonus of $1000. In all, the club gave out over $2000 in bonuses.

U. S. WILL CONTROL COAL FOR NEUTRAL SHIPS

(By Daily Nems Leased Wire.)

WASHINGTON, Oct. 4.—A final movement to prevent supplies from reaching Germany from the outside world was taken up today by the American government in deciding to refuse to coal neutral ships carrying supplies from South America to the northern European countries, unless their cargoes are inspected in American ports.

In making known the decision today, the exports administrative board announced that it would apply povisions of the exports control law which gives the government the same supervision over bunkers it has over the exportation of goods generally.

LORDS NORTHCLIFFE AND READING REACH OTTAWA

(By Daily News Leased Wire.)

OTTAWA, Oct. 4.—Lord Northcliffe, head of the British mission in the United States, arrived in Ottawa today. Lord and Lady Reading and members of the mission reached Ottawa by the noon train from New York. Conferences with a view to securing coordination of war effort between the United States, Great Britain and Canada are expected to open Friday. Matters which will be particularly under discussion are finance and employment to the fullest of Canadian resources.

BREWSTER ADDRESSES LIBERALS AT VICTORIA

(By Daily News Leased Wire.)

VICTORIA, B. C., Oct. 4.—Premier Brewster addressing a meeting of the Men's and Women's Liberal associations here tonight said he would consider it his duty to sacrifice his comfort here to further any great movement for the advancement and consolidation of the interests of Canada. In any such move on his part he believed the people of British Columbia would back him up.

VANCOUVER SHIPYARDS MEN DECIDE TO STRIKE

About 700 in the Employment of John Coughlan & Sons Are Affected

(By Daily News Leased Wire.)

VANCOUVER, B. C., Oct. 4.—With only three dissenting voices, the employees of the John Coughlan & Sons' shipyards decided to go out on strike for higher wages at a meeting held at the Labor Temple today. The decision of the men represents the culmination of several days' negotiations between representatives of the union and the heads of the shipyard, the meeting having been called to consider a proposition made by the company. Approximately 700 men are affected.

Watchful Waiting Is Policy.

VANCOUVER, B. C., Oct. 4.—Both sides in the Coughlan shipyard strike, which began here today, will apparently adopt a watchful waiting attitude, especially as to what may develop in the wards on Puget Sound, where the men also want higher wages.

J. J. Coughlan, head of the company, and representatives of the men late tonight said there had been no new developments during the afternoon or evening. Many of the men have gone out fishing. They express confidence that their demands will be met.

Mining and Markets

33 MINES SHIP TO TRAIL SMELTER

Total for Year to Date Is 277,664 Tons Black Prince Sends Out First Shipment This Year.

Thirty-three mines shipped a total of 10,544 tons of ore to Trail smelter during the last week of September, bringing the total for the year to date to 277,664 tons.

A new shipper for the year was the Black Prince mine in the Slocan district, which shipped 17 tons.

Sullivan shipped 2685 tons and brought its total for the year to above the 100,000-ton mark. Rossland shipments for the week were 4561 tons. The total from this camp for the year has reached 72,347.

Another Yukon mine, the Cariboo at Carcross, joined the list of shippers to Trail. It sent 24 tons.

DOMINION ISSUES MAP OF SLOCAN MINING DISTRICT

The geological survey branch of the department of mines at Ottawa has issued a geological map of the Slocan district, whic hshows the geological formation and the location of the various mineral properties. It is the work of the late Dr. C. W. Drysdale and O. E. LeRoy.

MAY SHIP MANGANESE.

A. J. Curle of Kaslo has received word from Ottawa to the effect that he has permission of the government to ship for export 200 tons of ore from his manganese claims. On account of the quantity being so limited he has decided for the present not to export any of the manganese ore, as it would not be worth while.

GALLAGHER TO SHIP.

A. D. Wheeler has been working the Gallagher at Ainsworth and states that he has about one car out and ready for shipment. The ore was taken out by a crew of men in about two months' work.

Mining Stocks

Within a few days now we hope to be able to be in a position to give you all the details of the property and the personnel of the company whose stock we are to offer for sale.

C. P. R.

We think from an investment point of view that this stock at the price it is selling at today offers an exceptional opportunity. Heavy sales during the last two weeks have had the effect of hammering the price down as low as it reached when war was first declared. We do not think it can possibly go any lower.

LIQUIDATION MORE SEVERE AT NEW YORK

Affects Shares of All Descriptions—Conditions Are Heavy in Bond Market.

(By Daily News Leased Wire.)

NEW YORK, Oct. 4.—On a pronounced accession of offerings, liquidation of stocks assumed wider proportions today, taking in shares of all descriptions. At no time did the decline meet with more than casual opposition.

Sentiment was preponderantly bearish and the shorts had no difficulty in extending their operations. There was again no news to explain the acute depression. Some of the day's advices were distinctly hopeful, notably the review of the federal reserve board. This was neutralized by August returns by some 50 railroads, which reported an increase of about $13,000,000 in operating revenues, all of which was lost in greater cost of operating. Conditions were heavy in bonds, liberty 3½s varying from 99.89 to 99.98.

MONTREAL STOCKS FAIRLY ACTIVE AND PRICES DROP

Some Speculative Favorites Show Declines of from ½ to 1½ Points—Bonds Quiet.

(By Daily News Leased Wire.)

MONTREAL, Oct. 4.—The sharp break in New York prices today resulted in a general lowering of values in the local stock market and some increased activity on the decline. Some stocks fluctuated considerably during the session. As quotations weakened, a substantial demand made its appearance sufficient to hold prices within fairly narrow limits and the tone of the market became heavy rather than weak. In the more active speculative favorites the declines ranged from ½ to 1½ points. The market closed steady around the low prices of the day. While active in comparison with the stagnant markets of the earlier part of the week, the market gave little indication of urgent selling pressure.

Bonds were quiet with the first war loan ⅛ lower at 96¾, and the third ¼ lower at 94½.

Total business for the day was 2908 shares and $40,000 bonds.

DELIBERATE SHORT SELLING DESCRIBED AS UNPATRIOTIC

President of Toronto Exchange Tells of Functions of Market Regarding War Loan.

(By Daily News Leased Wire.)

TORONTO, Oct. 4.—The protracted period of liquidation of domestic stocks in broken lots continued in a desultory way in the local stock exchange today. There was little selling pressure, but neither was there any disposition to take stocks, so the modest total of the day's business was mostly at declines varying from fractions to 3½ points.

The president of the exchange advised the members before the opening and referred to the function of the market in connection with the coming war loan. Liquidation of securities was quite permissible, he said, but deliberate short selling could not be described as otherwise than unpatriotic.

Investment business was on broader lines than earlier in the week. The 1931 loan, with transactions amounting to $23,100 par value, was the leader in the bond section, with the close unchanged at 96. The 1937 issue was also moderately active and steady at 94½.

BOTH MOTHER AND DAUGHTER

Relieved From Pain and Suffering by Lydia E. Pinkham's Vegetable Compound.

Brooklyn, N.Y.—"For three or four years I suffered a great deal of pain periodically, so I would have to lie down. My back would ache and I would feel very weak and miserable. I remembered how my mother had found relief from pain by using Lydia E. Pinkham's Vegetable Compound and I decided to try it, and thanks to the Compound it helped me just as it did my mother, and I am free from pain, backache and that general weakness that was so hard to bear. I am able to do my work during such times and am recommending Lydia E. Pinkham's Vegetable Compound to my friends who suffer as I did."—Miss META TIEDEMANN, 1622 Jefferson Ave., Brooklyn, N. Y.

To know whether Lydia E. Pinkham's Vegetable Compound will help you, just try it. For advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

BRITISH SUCCESS LOWERS CORN PRICES

Is Taken as Indicating Speedy Elimination of German Submarine Bases.

(By Daily News Leased Wire.)

CHICAGO, Ill., Oct. 4.—Reports that British military success in Belgium bore promise of radical developments such as soon wiping out the German submarine bases near at hand, did a great deal today to induce free selling of corn. The close was nervous, 1 to 1⅞ net lower at $1.18⅝ to $1.18¾ for December and $1.15⅛ to $1.15¼ for May. Oats lost ¾ to ¼. Provisions finished 32 to 57 cents down, except October ribs, which gained 42 cents net.

Bear pressure on corn reached the maximum shortly before the end of the session, after word was circulated of a big British victory. At the same time reports were current of an embargo on grain shipments to Baltimore and that new difficulties were being encountered in getting permits at Washington for exports. Even from the outset of the day's trading, however, prices had a downward slant most of the session. Ideal weather for maturing of late planted corn was also a bearish factor. Falling off in export business made the oat market more than unusually sensitive to weakness in corn. Deliveries of lard on October contracts pulled down nearly the entire provision list.

CASH WHEAT $2.21.

WINNIPEG, Oct. 4.—Cash wheat: No. 1 Northern, $2.21; No. 2 Northern, $2.18; No. 3 Northern, $2.15; No. 4 Northern, $2.07; No. 5, $1.94; No. 6, $1.85; feed, $1.75.

Oats: May, 67; October, 68; November, 66⅝; December, 65.

Flax: October, $3.06; November, $2.98; December, $2.94.

CONCESSION MADE BY ROADS TO LIVESTOCK MEN

Adopt Government's Plan for Transferring Stock to Points Where Feed Is Abundant.

WINNIPEG, Oct. 4.—The livestock branch of the Dominion department of agriculture has completed arrangements with the railway companies with regard to the movement of feeder cattle, sheep and swine from points where feed is scarce and livestock abundant to points where livestock is scarce and feed abundant.

For some time it has been possible for livestock men in the west to ship feeder stock from central markets, such as Winnipeg, Calgary and Edmonton, to points in the country at a reduction of 25 per cent of the regular freight rates; this privilege, however, did not exist for the east. Now, however, the railway companies have agreed to grant the reduction on shipments from central markets in the west to feeding points in the east. The railway companies also are willing to grant the settlers' rate on sheep coming west.

BUTTER MARKET FIRM.

MONTREAL, Oct. 4.—Butter was quiet but firm. Cheese unchanged. Eggs fairly active, with a firmer undertone.

Cheese: Finest westerns, 21¾; finest easterns, 21¾.

Butter: Choicest creamery, 45 to ½; seconds, 44½.

Eggs: Fresh, 53 to 54; selected, 47 to 48; No. 1 stock, 43 to 44; No. 2 stock, 40 to 41.

Pork: Heavy Canada short mess, 35 to 45; Canada short cut back, 45 to 55.

(Additional Market News on Page 8.)

"Made in Canada"

For thirty-two years Giant Powders have been made in Canada. They were the first explosives manufactured in the Dominion.

For years the Giant chemists studied the needs of British Columbia land clearers. They prepared an explosive especially for stump blasting—Giant Stumping Powder, the first of its class. Hundreds of tons of this improved explosive are used every year by British Columbia farmers, lumbermen, and contractors.

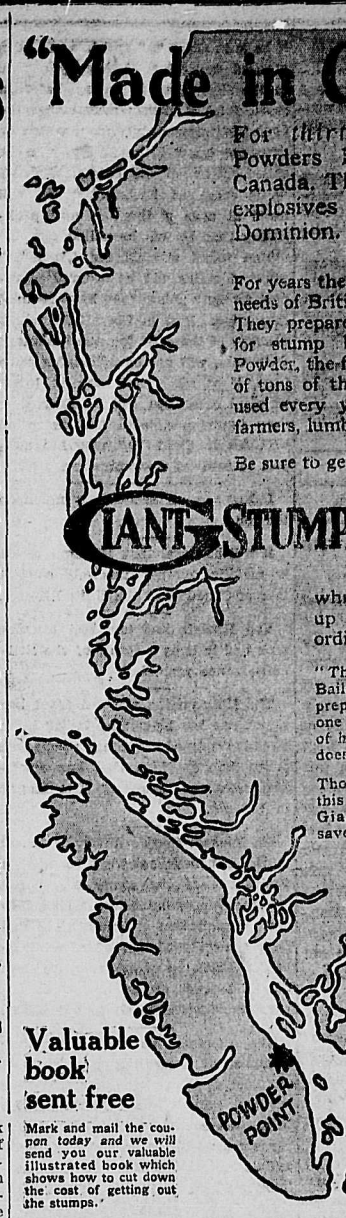
Be sure to get the genuine

GIANT STUMPING POWDER

which goes further and breaks up the stumps better than ordinary explosives.

"The farmer," says Prof. G. E. Bailey, "should use an explosive prepared especially for his work, one that stands all ordinary shocks of handling and transportation and does not easily freeze."

Thousands of farmers have taken this advice and have found that Giant Stumping Powder always saves them money, time and labor.



Valuable book sent free

Mark and mail the coupon today and we will send you our valuable illustrated book which shows how to cut down the cost of getting out the stumps.

CANADA

Pay Will Be The Same

Men selected under the Military Service Act will receive the same pay as those now on active service receive. Pay will start from the time a man reports for duty. Money from the Patriotic Fund and Separation Allowance will also be available for selected men.

Canadian soldiers are well paid. The fact that wages in Canada are generally higher than those paid in Europe is recognized in the system of remuneration for men on active service. Clothing and all equipment in addition to food is also supplied to the Canadian soldier, leaving him with no expense except personal incidentals.

The rate of pay for men in the Canadian Expeditionary Force, other than commissioned officers, is as follows:

	Pay	Field Allowance
Warrant Officers	$2.00	30 cts.
Regimental Sergt.-Major, if not a Warrant Officer	1.85	20 "
Quartermaster-Sergeants	1.80	20 "
Orderly Room Clerks	1.50	20 "
Orderly Room Sergeants	1.50	20 "
Pay Sergeants	1.50	20 "
Squad., Batt., or Co. Sergt-Major	1.60	20 "
Colour-Sergeant or Staff-Sergeant.	1.60	20 "
Squad., Batt., or Co. Q.M.S.	1.50	20 "
Sergeants	1.35	15 "
Lance-Sergeants	1.15	15 "
Corporals	1.10	10 "
Lance-Corporals	1.05	10 "
Bombardiers, or Second Corporals	1.05	10 "
Trumpeters, Buglers, and Drummers	1.00	10 "
Privates, Gunners, Drivers	1.00	10 "
Sappers, Batmen, etc.	1.00	10 "

As in the case of those already gone overseas, Separation Allowances will be available for those dependent for livelihood upon selected men. The Separation Allowance is $20.00 per month for the rank and file, $25.00 for sergeants and staff-sergeants and $30.00 for warrant officers. The experience is that many men can afford to assign half their pay to dependents, in addition.

A considerable number of men who have enlisted in the Canadian forces have found themselves better off under the army rate of pay, which is granted in addition to board, lodging, clothing, equipment, transportation, etc., than they were while in civilian positions. Their wants are provided for, and they receive a steady addition to the bank account each month.

Issued by
The Military Service Council.

FRIDAY, OCT. 5, 1917.

HUGH GUTHRIE ENTERS THE BORDEN CABINET

When Hugh Guthrie, the Liberal member for South Wellington, stated last week: "I have not turned my political coat; I have taken it off altogether and I intend to keep it off till after the war," he spoke no empty words. He has shown his sincerity of purpose by accepting Sir Robert Borden's invitation to join the union war government. He is one of the leading Liberals, representative of thousands throughout the country, who care less for party than for war policy and who are prepared during the war to sink all party considerations and devote their efforts to ensuring that Sir Robert Borden's policy of vigorous prosecution of the war will be carried out until victory for the entente cause has been won.

Mr. Guthrie has represented South Wellington, Ontario, as Liberal member for 17 years and comes of a well known Liberal family. He is a son of Donald Guthrie, who represented South Wellington in the house of commons from 1876 to 1881.

The new solicitor-general is, of course, a strong supporter of conscription and other war measures which were passed during the session that has just closed.

THE LATEST BRITISH VICTORY IN THE WEST.

Command of parts of the Ostend-Lille railroad, which has been gained by the British artillery as a result of yesterday's victory does not isolate either Ostend or Lille, but it will add immensely to the difficulties experienced by the German general staff in moving troops and supplies for the defense of these sectors of the front in Flanders and France. Trains will have to travel by a longer route, which means that the length of time troops will be out of action while traveling and the number of trains and the amount of equipment absorbed in moving a given tonnage of supplies or a given number of soldiers will be increased.

But of even greater moment than this tactical advantage is the fact that the British have once more shown the enemy that he cannot prevent the advance of General Haig's army. German troops in a threatened area are now in the position of having to lie for weeks under the death-dealing hail of fire, with the knowledge that sooner or later the British will go "over the top" and capture the objectives marked out. No wonder that many German soldiers yesterday were glad to surrender.

HUN MILITARISM SHRINKS FROM ITS DOOM

"Defeat on the field is the one nightmare from which Prussian militarism shrinks," states a Reuter's despatch from the British front. It expresses a great basic truth. Prussian militarism knows that nothing but complete defeat in battle can destroy it. Out of all the bonds of "associations to prevent war," "leagues to ensure peace" and other propositions of that kind Prussian militarism, if it survived this war, could break just as easily as it stamped, with sabres rattling, over the pledge to honor its word to respect Belgian neutrality.

Prussian militarism can only be killed on the field. On the field it was born, and on the field it must be buried. There is no way in which to destroy Germany's faith in the power of its military might to express and carry out Germany's designs than by inflicting upon it crushing military defeat.

To achieve that end is the great fundamental of entente purpose. Conclusion of any peace before the Prussian military machine has been beaten and discredited would involve defeat of the allies' purpose, which is to ensure their future security against Teuton aggression.

NOTHING GAINED BY DELAYING MEDICAL EXAMINATION

Bachelors and childless widowers between the ages of 20 and 34 years, the first class, have nothing to gain by delay in going before a medical board and ascertaining their physical status. Whether a man in the first class under the Military Service bill goes before a medical board for examination today, or delays until the last moment, it will make no difference to the date upon which he may be ordered to report for military duty, if he is in Class "A" and has not been granted exemption. Delay by a man in the first class in going before a medical board simply means that the period of uncertainty during which he does not know if he is likely to be called out or not will be extended. If he is examined immediately he will learn at once if there is any probability that he will be called out.

Men found elegible for Class "A" physical status will be ordered to report for duty unless they have secured exemption. Men in Class "B," which consists of those fit for noncombatant duty only, will not be called for some time, if at all. That men in lower physical categories will be drafted is very improbable, with the exception of those in Class "D," who are subject to medical reexamination later.

Indian summer seems very much on the job.

It will be noted that Madame Melba is making another farewell concert tour of Canada and the United States.

Von Hindy's line has had another kink tied in it as a result of the British advance yesterday.

The Haig on the western front has struck another blow that is far more effective toward winning permanent peace than anything that has emanated from the temple at The Hague in Holland.

Dr. Michael Clark's difficulty is not to find a constituency but to make a choice out of the many which are offering him nomination. The Liberal organization machine at Red Deer strengthened instead of weakened Dr. Clark by steam rollering him out of the convention last week because he supports Borden's war policy.

The American National Automobile Chamber of Commerce says that 40 per cent of the automobiles sold thus far this year in the United States have been bought by farmers. About the same condition exists in Canada and it indicates a class in the community which is profiting from war-time prices. And it is well that this should be so, because there is no more effective stimulant to greater farm production than high prices for produce.

Reports from Ottawa say that a "two-headed" election fight with Laurier as leader in Quebec and someone else who will speak in favor of conscription as leader for Ontario and the west is being planned by the Liberal organization at Ottawa. That wouldn't be surprising. A "two-faced" game has been played all along by some of the opposition win-the-election strategists.

While everyone employed in any war industry is not necessarily exempt from selective draft, everyone whose work is essential to any essential industry is to be exempted. To make blanket exemptions would obviously result in abuses. A clerk in the office of a fishery concern, for example, is working in an essential industry, but he is doing work which might be carried out by someone not fit for military service.

WHAT THE PRESS IS SAYING

A German Tribute.

The kaiser's renewed outburst against England is the sincerest tribute to the military efficiency of that nation.—Chicago Herald.

Mastication Conserves Food.

The process of proper mastication as an element of food control, to which we have alluded before, is being tried in England with successs. It has been proved on 7000 school children in Darwen, Lancashire, that lessons controlling food waste by "bolting" lessen consumption of bread by 25 per cent and produce at the same time increased nutrition. The Chittenden method (dry feeding with complete mastication) is a long step towards food conservation. Germany has adopted it, one pamphlet issued by the quartermaster-general of the German army entitled "Germans, Fletcherize!"—Victoria Colonist.

Use of White Coal Extends.

The increasing use of "white coal" for light, heat and power affords an increased sense of security for the future. The water which, for instance, by the millions of gallons annually flows from the Green mountains and the Berkshire hills into the Connecticut is now being caught in vast reservoirs and required to labor a bit for the inhabitants before it passes out past Saybrook light into Long Island sound. It is, therefore, perhaps only a question of time when New England will be able to tell Pennsylvania and Virginia they may keep their black fuel, and to turn to its own hills for all it needs as a substitute,—Christian Science Monitor.

SOUL POWER SAVED THE DAY

Give France and Belgium all the credit that these valiant nations deserve, and still it is true that Germany was turned back when nothing stood between Germany and victory but the soul of the British infantry.

Germany is unable to build up an infantry that can await the issue of man-for-man battle with the British infantry. The boast that "one Britisher is worth a hundred Germans" was made good more than once when Germany tried to submerge the defensive lines of British infantry with oceans of man-power and gun-power.

German tyranny drills the soul out of Teutontic conscripts, and thus deprives them of the thing that free men fight with when they have nothing else left. The miracle of this war will be recorded in the deeds of men who proved that the soul power of the British infantry, unaided by artillery, could hold the lines against the devilries of German science, the might of German guns and the might of German numbers.—Toronto Telegram.

JAPAN'S MONROE DOCTRINE

It is doubtful if a more important *pronunciamento has ever been made* in relation to oriental policies than that proclaimed by Viscount Ishii in the course of a speech delivered in New York recently.

This head of the Japanese mission to the United States declared in behalf of his government that Japan had adopted what is virtually a Monroe doctrine for the far east, which guarantees the territorial integrity of China and the open door in that vast empire.

There is no reason why the United States should not endorse this policy if it is honestly carried out, for this country desires no further possessions in the Orient and is only awaiting a time when the Philipinos show an ability to govern themselves to make the Philippine islands free under an American protectorate.

Then as far as the open door in China is concerned, that has been the accepted policy in the United States ever since Secretary Hay announced it and bound the other great powers to it after the boxer trouble.

Germany was reluctant to agree to this principle, but could not very well hold out alone when the great American secretary of state had secured the pledge of every other interested nation to the doctrine.

In recent times Japan has loudly *advocated the open door policy*, but has been charged, whether truthfully or not, the Miner is not prepared to say, with insisting upon being the doorkeeper and upon occasionally shutting the door in the face of the commercial interests of some other nations, when the representatives of these other nations sought to enter.

The world now has Viscount Ishii's word for it that his government has no desire for Chinese territory nor does it desire rights in China that all other nations may not share.

If Japan lives up to these pledges its Monroe doctrine should be recognized by all nations that have no dishonest designs upon China and that are opposed to the partitioning of that great empire.

There appears to be no good reason why Japan's Monroe doctrine should not stand the test of time as well as the American Monroe doctrine has done, if the Japanese brand is as honestly and capably enforced as the American has been.

The permanancy and success of this new Japanese policy will depend entirely upon the manner in which Japan intends to carry it out.

Under the original Monroe doctrine the United States has not attempted to capture all the foreign trade of this western hemisphere, and as a *matter of fact has enjoyed only* a small part of the commerce of its sister republic, and if Japan is equally unselfish in upholding its Monroe doctrine that nation will undoubtedly have the support of this government in enforcing it.—Butte Miner.

INCREASE HOG PRODUCTION

While there have been decreases in the number of all classes of live stock in Canada, save horses, in the last four years, the greatest decrease of all has taken place in hogs. The total decline has been greater in swine than in any other line; the relative falling off has been greater still because the total number of hogs was comparatively small to begin with.

It appears from the case of Denmark where hogs have fallen off to the extent of nearly 21 per cent, probable that the same holds true of European countries. Hogs are, with the possible exception of sheep, the most profitable line of live stock that can be maintained on Ontario farms today, and this condition is likely to continue for years to come. Swine production is a line of industry peculiarly adapted to Ontario conditions. The animals are comparatively free of disease; the labor called for in attending to them is not great; they form a *natural side* line for dairying, and our farms yield in abundance the class of grain that furnishes the raw materials necessary to produce the finest quality of bacon.

There should be a general increase in the numbers of meat and milk producing animals in Ontario, and this is more particularly true of swine.—Toronto Globe.

REVEALING THE LOCATION

Early in the war J. B. Adopted a French soldier and furnishes him with a monthly allowance of tobacco. Incidentally, he is also lubricating his rusty French by carrying on a correspondence with his "fi leul de guerre," who writes him from the trenches, "Somewhere in France."

Is a recent letter, the soldier informed his American benefactor that "hier j'ai tue deux Boches. Ils sont alles a l'enfer." (Yesterday I killed two Boches. They went straight to hell.) The censor wrote between the lines, "Il est defendu de dire ou est l'enemi." (It is forbidden to tell where the enemy is.)—Life.

The scandalmonger has it all over the chauffeur—she is never arrested for running people down.

Powder she bought and rouge, did Grace,
And then she camouflaged her face.

SAYS DATE FOR CALL TO COLORS NOT FIXED

Statement Made by Major Stiff—Volunteer Recruiting to Continue in Alberta

(By Daily News Leased Wire.)

CALGARY, Alta., Oct. 4.—Major G. U. Stiff of the staff of the department of militia, who with Brig.-Gen. Gwynne held a conference here, in conversation with J. M. Carson, provincial registrar, stated that the date of the military service proclamation had not been decided upon. He stated that certain authorities in Ottawa knew the exact date of issue, but for important reasons it would not be divulged at present. Gen. Gwynne and Major Stiff left for the coast tonight.

CALGARY, Alta., Oct. 4.—J. M. Carson, provincial registrar, after a conference with Brig.-Gen. Gwynne and G. U. Stiff, militia department, Ottawa, here today, announced that volunteer recruiting would continue in the province until such a time as the period expired in which all drafted men may claim exemption, probably Nov. 5 or 10. This means, that even men who are medically examined now in anticipation of being called to the colors, and are classified as Class A, may join a volunteer corps and have the additional advantage of choosing a certain branch of the service. The registrar further stated that all men registered under the conscription law reporting for service, not claiming exemption, will be given return railway fare and subsistence when ordered to appear before a board and those claiming exemption will travel at their own expense.

U. S. GRAPPLES WITH LABOR UNREST PROBLEM

Output of War Material Curtailed by Strikes and Shifting About of Workers.

(By Daily News Leased Wire.)

WASHINGTON, Oct. 4.—The government is working to develop some comprehensive system of dealing with the labor unrest which threatens to hamper war production. It is concerned over the pronounced upward movement of wages, disproportionate for various industries and the difficulty of stabilizing conditions without doing injustice to workers or employers. Nearly all production now is directly or indirectly necessary for the prosecution of the war, and the output of war materials is curtailed by strikes, extraordinary movement of workers from one industry to another or from plant to plant, and other unsettled conditions.

POCKET BILLIARD CHAMPION, TABERSKY, RETAINS TITLE

(By Daily News Leased Wire.)

BUFFALO, N. Y., Oct. 4.—Frank Tabersky of Schnecvtady, pocket billiard champion, defeated Joseph Concannon, New York, challenger for the title, 450 to 392, in a three-block series of games which ended today.

CALM PREVAILS ON FRONT IN MACEDONIA

(By Daily News Leased Wire.)

PARIS, Oct. 4.—"Calm prevailed along the whole front in Macedonia," states an official report dated Oct. 3.

WAR VETERANS TO HOLD CONVENTION AT REGINA

(By Daily News Leased Wire.)

REGINA, Sask., Oct. 4.—Twenty-delegates from various Great War Veterans' associations in the province met today and decided to call a convention here on Nov. 1 and 2 to organize a provincial association.

BOYCE APPOINTED TO RAILWAY BOARD

(By Daily News Leased Wire.)

OTTAWA, Oct. 4.—A. C. Boyce, K, K., Conservative member of parliament for Algoma west, has been appointed a member of the Dominion railway board.

OTTERTAIL COUNTY BAR MEETINGS OF LEAGUE

(By Daily News Leased Wire.)

FERGUS FALLS, Minn., Minn., Oct. 4.—Recent developments in connection with the Non-partizan league, particularly the meeting at which La Follette spoke, have aroused the Ottertail county safety commission which has given notice that no meeting of the league will be tolerated here. A meeting of the league was scheduled for Oct. 20.

23 PLACED IN "A" CLASS AT SASKATOON

(By Daily News Leased Wire.)

SASKATOON, Sask., Oct. 4.—Forty-seven men were examined today by *the mobilization* board. Twenty-three of these passed in "A" class, four in "B" class, three in "C" class and 17 were put in "E" class.

FRENCH FLIERS BOMB TWO GERMAN CITIES

(By Daily News Leased Wire.)

PARIS, Oct. 4.—Another aerial raid over Germany was made last night by French aviators. The cities of Frankfort and Rastatt were bombed.

FARMERS NOMINATE SEVEN CANDIDATES

(By Daily News Leased Wire.)

WINNIPEG, Oct. 4.—There are now seven federal candidates in western Canada in the field as supporters of the Canadian Council of Agriculture's platform. They include: J. A. Maharg, Moose Jaw; R. C. Hendeis Macdonald; J. S. Wood, Portage la Prairie; Thomas Beveridge, Souris; P. Broadfoot Neppawa; R. Mackenzie, Brandon.

WIRELESS STATION IS OPENED AT CURACAO

WILLEMSTADT, Cufacao, Oct. 4.—A wireless receiving station has been completed here adn began operations today. Communication was established with various important stations. The daily newspaper today publishes news from Nauen, Germany.

The station at Nauen is the principal distributing point for German wire propaganda. From this station is sent the service of the Overseas News agency, which was received at Sayville, N. Y., *until the United States* entered the war.

BANKERS ARE INVITED TO MEET LORD READING

OTTAWA, Oct. 4.—Sir Thomas White, minister of finance, has invited the officers of the Canadian Bankers' association to lunch at the Rideau club Friday to meet Lord Reading. Sir Robert Borden and Sir George Foster will also be present.

MADAME MELBA SINGS TO BIG VANCOUVER AUDIENCE

(By Daily News Leased Wire.)

VANCOUVER, B. C., Oct. 4.—Madame Melba opened her American concert tour here tonight when she sang to a crowd at the horse show building estimated at 10,000. Part of the proceeds go to war charities. She leaves here for Chicago.

OPPOSES CONSCRIPTION BUT WILL NOT FIGHT IT

(By Daily News Leased Wire.)

CALGARY, Alta., Oct. 4.—Capt. C. B. Reilly, Liberal candidate in East Calgary for the federal house, has announced that though opposed to conscription, if elected, he will make no effort to repeal the act.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. No more than 2560 acres will be leased to one applicant.

Application for lease must be made by the applicant in person to the agent or sub-agent of the district of which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall he furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any agent or sub-agent of Dominion lands. W. W CORY,
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

GERMAN PASTOR IS CHARGED WITH SEDITION

(By Daily News Leased Wire.)

MINNEAPOLIS, Minn., Oct. 4.—The federal grand jury here today returned 26 indictments, 13 against alleged slackers and seditionists. Among those indicted is Rev. C. L. Lehnert, former pastor of the Central German Methodist church here, who is charged with treasonable utterances against the president. Mr. Lehnert also has been indicted for violation of the postal laws. He will be arraigned on the latter charge on Monday.

DEATH OF FAMOUS FRENCH FLYER DEFINITELY CONFIRMED

(By Daily News Leased Wire.)

PARIS, Oct. 4.—The death of Capt. Geo. Guyenmer, the famous French aviator, has now been definitely confirmed. Information received by the Red Cross says Guynemer was shot through the head near Poelcappele, on the Ypres front. He was identified by a figure on his pilot's license. The aviator was buried with military honors.

URGES UNITY IN WIN-WAR MOVEMENT

Rev. W. G. Fortune, Vancouver, at Trail Church Banquet, Makes Rousing Appeal

(Special to The Daily News.)

TRAIL, B. C., Oct. 4.—The "bean banquet" held at the Methodist church Tuesday evening was one of the most enjoyable functions ever held in Trail. The bountifully spread tables were decorated with autumn flowers. After the supper a brief address was made by Rev. James Black of the Baptist church. Mr. Black expressed his gratification at the coming to Trail of Rev. Tanner and his hope that the coming winter would see all the churches cooperating for the building up of the city—particularly in the establishing of a Y. M. C. A.

Rev. W. G. Fortune of Vancouver spoke on the coming in of prohibition and of the new win-the-war movement. He expressed the hope that the coming campaign might see the best and brainiest men of both parties standing side by side with the common aim of winning the war, and that Canadian national life should be so regenerated that those boys who come back from France would find a Canada cleansed and made worthy of the lives that had been given for her.

Mr. and Mrs. Savage have returned from their honeymoon trip and will reside in Trail for the winter.

Mrs. M. B. Dolan has returned from a week's visit to Spokane.

Mrs. L. L. Bloomer entertained the "Five Hundred" Whist club Tuesday evening at her home. The first prize was won by Mrs. Walter Douglass, while Mrs. A. Hector carried off the booby prize.

Mr. and Mrs. Walter Kennedy are receiving congratulations on the birth of a son.

The Ladies Aid of the Baptist church met at the home of Mrs. De Gans on Columbia Heights Tuesday afternoon.

Mr. and Mrs. George Kinnis have returned from a vacation at the coast.

ROAD BETWEEN SANDON AND NEW DENVER WANTED

Petition for Funds to Be Sent to the Provincial Government—Claimed to Be Essential.

(Special to The Daily News.)

NEW DENVER, B.C., Oct. 4.—The citizens of New Denver held a meeting on Oct. 2 for the purpose of discussing the getting of a wagon road between New Denver and Sandon. J. B. Smith was appointed chairman and J. C. Dawson, secretary. It was decided that this road was an absolute necessity and they resolved to lay a petition, signed by the people of the district before the government for funds to build it. The committee of three appointed for this work was T. H. Hoden, J. B. Smith and T. L. Lloyd. Besides this O. V. White was appointed to lay the matter before the people of Sandon, P. Angrignon to do likewise in Silverton, W. A. Cameron in Three Forks and A. Watson in Rosebery.

As all in this district are very desirous of the road being built it should not be a difficult matter to get a government grant. This is regarded as but the beginning of the road system which will link the Slocan district with the outer world.

C. F. Nelson, M.P.P., was present and addressed the meeting.

KASLO BRANCH OF RED CROSS ELECTS OFFICERS

(Special to The Daily News.)

KASLO, B.C., Oct. 4.—The annual meeting of the Kaslo branch of the Red Cross society took place Wednesday afternoon. The following officers were elected: President, Mrs. J. Anderson; first vice-president, Mrs. A. T. Garland; second vice-president, Mrs. S. H. Green; treasurer, Miss E. Murphy; secretary, Mrs. J. H. Stubbs; executive committee, Mrs. G. Stott, Mrs. O. Strathearn, Mrs. S. A. Hunter, Mrs. W. H. Burgess, Mrs. E. Latham, Mrs. C. Patey, Miss M. Mackenzie. Committees: Sewing, Mrs. W. H. Burgess; cutting, Mrs. C. H. Goodwin; knitting, Mesdames Hunter, MacAndrew, W. J. Green, Taylorson; buying, Mesdames Latham and S. H. Green.

R. F. GREEN, M. P., VISITS ROSSLAND

(Special to The Daily News.)

ROSSLAND, B. C., Oct. 4—R. F. Green, M. P. for Kootenay in the Dominion house, spent a few hours in the city today.

Mrs. J. Binns, who has been visiting in the city left this evening for Nelson.

The funeral of the late Victor Herbert Querio took place this morning from the family residence to the Sacred Heart church, where services were held by Rev. Father McIntyre. The pallbearers were S. Hannah, A. Bridgeman, E. Leduc, J. Destefano, J. Coello, R. Woody. The interment was at the Catholic cemetery.

James Hunter of Spokane arrived in the city this afternoon.

Miss Millicent Evans, who has been spending a couple of months in Spokane, has returned.

MEDICAL BOARDS IN DISTRICT ANNOUNCED

Names of Doctors in Kootenay-Boundary Who Examine Recruits Under Service Act Given Out.

Orders issued by Major-General R. G. Edwards Leckie, C. M. G., general officer commanding, contain the personnel of the British Columbia medical board centres appointed to examine recruits under the Military Service act, which are as follows:

Fernie—President, Capt. J. A. Urquhart, C. A. M. C., C. E. F.; member, Capt. D. Corsan, C. A. M. C.

Grand Forks—President, Capt. N. E. Macdougall, C. A. M. C.; members, Dr. C. M. Kingston, Dr. W. Truax.

Nelson—President, Major L. E. Borden, C. A. M. C.; members, Lieut. M. J. Vigneux, C. A. M. C.; Lieut. W. H. Willson, C. A. M. C.

Revelstoke—President, Capt. B. E. Lang, C. A. M. C.; members, Capt. J. H. Hamilton, C. A. M. C.; Dr. J. E. H. Kelso.

Vernon—President, Capt. B. F. Boyce, C. A. M. C.; members, Capt. G. E. Duncan, C. A. M. C.

HALCYON NOTES.

(Special to The Daily News.)

HALCYON, B. C., Oct. 4.—Alexander Cameron, Coleman, Alta., returned home today after a stay of three weeks entirely recovered from a very severe attack of muscular rheumatism.

William Boyd was here this week from Trout Lake.

T. McNeish, Slocan, and J. F. McMaracher, Midway, left on Tuesday.

Miss M. Maceachern, from Lake Louise, was here for a day on her way to Los Angeles for the winter.

AUDITOR BROWN OF TRAIL RESIGNS

Is Succeeded by George Wilson—Contract for Victoria Street Bridge Is Let.

(Special to The Daily News.)

TRAIL, B.C., Oct. 4.—The meeting of the city council on Monday evening was presided over by Acting Mayor Morin, Aldermen Stone, Dockerill, Deloise and Evans being present. G. C. Brown resigned as city auditor and George Wilson was appointed to fill the vacancy. It was voted that the auditor bring in a detailed statement of receipts and expenditures every three months and a financial statement once a year. E. P. Combie was appointed plumbing inspector.

The following water applications were referred to the fire and water committee: E. Toknotti, W. H. Jones, N. Wilmes and D. Deloise.

Tenders were called for the Victoria lake dam, and clearing of the necessary land, bids to be in by Oct .10, with certified check for $500 on the dam and 10 per cent on clearing of land.

Contract for the Victoria street bridge was let to V. Bianco for $285.40, the city to furnish gravel, cement and reinforcing iron.

The city clerk was instructed to write Mr. Cornish regarding the progress being made in the Arlington hotel arbitration.

The additional debenture bylaw was read a first time.

The corporation of the city Trail sewer construction bylaw received its first and second readings.

The Trail Dancing club held a masquerade dance last evening. The costumes were all so good that the judges, C. E. Crowe and W. Beattie had hard work in reaching a decision. The prize for the best dress went to Miss Oliver and that for the best comic dress to Miss Pearl McArity. Mr. Glass was the best dressed gentleman and O. B. Peers the best comic. Among the other costumes attracting special attention were Paul Larson, as The Devil, in a scarlet rig; A Goodwin, Chinaman; Miss Gavilik, Russian national costume; Miss M. Fortin and Miss Ruth McKinnon, early Victorian costumes; Elsie Waite, as Mary Fuller; W. Kinear, colonial costume; Mrs. Barchard, Turk; Mrs. A. Johnson and Miss Edith Johnson, bride and groom; Miss Quinn, the floor manager, was dressed as a Japanese.

ONTARIO WIN-WAR MEN PRESS DR. CLARK TO RUN

(By Daily News Leased Wire.)

TORONTO, Oct. 4.—The win-the-war organization of Ontario has communicated with Dr. Michael Clark of Red Deer, Alta., urging him to accept the offer made by Frank R. Lalor, M.P. for Haldimand, who offered to retire in Dr. Clark's favor.

CANADIANS GIVE HUNS ANOTHER DOSE OF GAS

CANADIAN HEADQUARTERS IN FRANCE, Oct. 4.—By the Canadian Overseas Correspondent.—Gas in considerable volume was again projected into Lens this morning. The enemy retaliation took the form of a trench mortar bombardment, but this was not long maintained. The artillery duel still continues and the Germans are making more use of their long range high velocity guns in the bombardment of the area behind the front.

ARABS IN PALESTINE JOIN WITH BRITISH ARMY

NEW YORK, Oct. 4.—Interesting military possibilities in Palestine are forecasted in advices from Mecca, as reported in Arabic newspapers reaching New York to the effect that the Arabs in Arabia in a revolt against the Turks, have effected a junction with the British army in southern Palestine.

It is pointed out that the reported Arab junction with the British whose advance in Palestine is now in the vicinity of Gaza, is likely to prove of importance as regards the occupation of Syria.

SAYS BUSINESS IMPROVES IN BRITISH COLUMBIA

Sir William Mackenzie Satisfied With Conditions—Western Crop Exceeds Expectations.

OTTAWA, Oct. 4.—Sir William Mackenzie, who arrived in the city from the west this morning, was in an optimistic mood.

"Business conditions throughout the west, more particularly in British Columbia, are steadily improving," he said.

Sir William added that the western crop was exceeding expectations and that an average of 1,000,000 bushels of wheat per day was being delivered to the Canadian Northern railway alone. Asked when the arbitrators would be named to fix the valuation of the 600,000 shares of C. N. R. stock to be purchased by the government under the terms of Canadian Northern railway legislation, Sir William said that the matter of the appointment of arbitrators to determine the value of the stock had not been taken up with the government.

"I expect that something will be done in the course of a few days," Sir William added.

CITIZENS OF QUEBEC CARRY PROHIBITION

It Is Estimated That Final Result Will Show Majority of Over 3000.

QUEBEC, Oct. 4.—By an overwhelming majority the citizens of Quebec today supported the petition for the enforcement of the Scott act in the plebiscite. The result was not altogether unexpected, in view of the activities of the clergy of all denominations, who played an important role in the campaign and to them is largely due the victory scored by the advocates of temperance. There are still six polls to be heard from.

It is estimated that the final result will show a majority of well over 3000. The majority now stands at 3251.

GERMANS INVENT NEW TYPE OF MACHINE GUN

(By Daily News Leased Wire.)

OTTAWA, Oct. 4.—The Times' correspondent at British headquarters in France says he has in the last few days seen some specimens of a new type of German light machine gun. These are of the Vicker-Maxim type, water-cooled and weighed 28 or 30 pounds. One man can carry one under his arm.

BROKEN RAIL THROWS FREIGHT CARS OFF TRACK

WINNIPEG, Oct. 4.—A broken rail caused the derailment of 15 cars of freight on the Canadian Northern railway at Oak Point today. Nobody was injured.

5 YEARS OF SUFFERING ENDED

The little son of Mrs. W. Adams of 489 La Salle Rd., Verdun, Montreal, suffered for over five years with the worst form of eczema. Mrs. Adams tried everything—took the child to various hospitals, where he received the best possible medical treatment, but it was of no avail. The doctors said the case was incurable. Then she heard of Zam-Buk and used it, with the result that to-day the child is completely cured of the terrible disease.

Mrs. Adams writes: "The eruption started on my little son's neck and spread rapidly until his body was entirely covered. It was terrible to see how he suffered with the burning and irritation. I took him to a hospital for treatment of the skin, but instead of getting better the sores became worse. I then took him to another hospital, where he remained for some time, and although at first he seemed to be getting better, the improvement was only temporary, and the doctors finally pronounced the disease incurable.

"Five years had now elapsed since the sores first appeared, and I was beginning to fear the doctors were right, when I was advised to use Zam-Buk. This balm was so highly spoken of that I determined to give it a trial, and a few weeks after commencing its use I noticed a decided improvement. This was so encouraging that I continued. Gradually my boy got better and better until after four months of Zam-Buk treatment he was entirely cured and his skin absolutely clear.

"Although it is now six years since this wonderful cure was effected, there has not been the slightest trace of the disease returning."

Zam-Buk is unsurpassed for eczema, chronic sores, ringworm, bad legs, blood-poisoning, pimples, boils and piles, as well as for cuts, burns, scalds and all skin injuries. All dealers, or Zam-Buk Co., Toronto. 50c. box, 3 for $1.25.

Zam-Buk

FREE. Send this coupon, name of paper and 1 cent stamp (for return postage) to Zam-Buk Co., Toronto, and free trial box will be sent you.

EGYPTIAN ACADEMY OF LETTERS FORMED

LONDON, England—The Cairo correspondent of The Near East has an interesting note on the formation of an Egyptian academy of letters. The necessity of overhauling the Arabic language in order to provide it with proper terms to meet the requirements of modern national science, he says, has been occupying the earnest attention of the leading Egyptian scholars for some time, with the result that an Egyptian academy of letters has been formed, and has already started on its labors.

"The new academy," the writer continues, "consists of Sheikh Selim El Bishri, rector of Al Azhar university, president; Sheikh Mohamed Bekhit, Grand Mufti of Egypt, vice-president; Ahmed Bey Loutfi Sayed, director of the Sultania library, secretary; and 22 members, amongst them some of the most distinguished Arabic scholars in the country. It has been laid down that the membership of the academy is to be limited to 28 members, three of whom must possess a knowledge of the Hebrew, Persian and Syrian languages, as well as Arabic. The need for some such overhauling of the Arabic language as is now proposed, has long been felt. Editors, men of science and schoolmasters have been greatly handicapped in their work by the lack of expression adequately rendering in the Arabic language the scientific and other modern terms currently used in the west. To meet the requirements of the situation phrases have had to be coined to represent these terms, or the latter have been given an Arabic form, and in this guise have been introduced into the Arabic language, which has consequently suffered in clearness and elegance of expression. The new academy will endeavor to remedy this state of affairs, and, while regularizing by their inclusion is the Arabic vocabulary those newly coined terms which can be at once accepted, it will find for others phrases which, while leaving no doubt as to their meaning, will at the same time not affect the elegance of diction and expression for which the Arabic language is so justly famous. In view of the fact that the academy includes amongst its members such well known scholars as H. E. Ahmed Zaki Pasha, the secretary of the council of ministers; Dr. Faris Nimr, whose renown as a stylist is known throughout the Arabic-speaking world, and Dr. Yacoub Sarruf, who is equally well known as a scientific writer, there should be little fear of the academy not finding a satisfactory solution to its labors."

"CASCARETS" BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED

Best for liver and bowels, bad breath, bad colds, sour stomach

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poison in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

HOW YOU CAN QUICKLY REMOVE HAIRY GROWTHS

(Aids to Beauty.)

A well known beauty specialist advises this treatment for the removal of hair from the face: Mix into a paste some powdered delatone and water, apply to hairy surface and after about 2 minutes rub off, wash the skin and every trace of hair has vanished. This method is quick and entirely safe. To avoid disappointment, however, it is well to make certain you get genuine delatone.

Dandruff Soon Ruins the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning most, if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

ARTIFICIAL ENTITY CALLED AUSTRIA-HUNGARY MUST GO

NEW YORK, N. Y.—"In order to make life happy for untold millions, and to insure permanent peace, the artificial entity known as Austria-Hungary must go, even as the last remnants of Turkish misrule in Europe must be destroyed," said Charles Pergler, vice-president of the Bohemian National Alliance of America, in an address before thousands of Slavs in Omaha recently.

"The famous allied note to President Wilson," he continued, "declaring for liberation of the Czechoslovaks among others, presupposes this. The president's repeated declarations, that no people should be forced to live under alien rule, mean the same thing. It is not to be believed for a moment that the president's statement in his note to the pope, that dismemberment of empires cannot furnish a proper basis for a peace of any kind, relates to Austria-Hungary. This cannot be. It would be an absolute denial of the fundamentals of democracy and popular rule which he has so frequently enunciated.

"It would mean not only that the Czechoslovaks must remain under an alien domination, but that the Rumanians of Transylvania and Bukowina must continue to suffer under the unspeakable cruelties of the Magyar regime; that Poland cannot become united; that the Italians of Trentino cannot be joined to their brethren of Italy; that the question of Alsace-Lorraine must remain unsolved.

"Furthermore, such construction would make the reply to the pope self-contradictory and inconsistent, for in another part thereof, the president maintains that the American people believe that peace should rest upon the rights of peoples, not the rights of governments—the rights of peoples, great or small, weak or powerful—the equal right to freedom and security and self-government, and to a participation upon fair terms in the economic opportunities of the world, the German people, of course, included, if they will accept equality and not seek domination. What the president unquestionably wanted to do was to assure the German people that their national state would be left intact; that there would be no attempt to disrupt Germany as a national state.

"Austria is not a national state; it is not a nation even in the political sense of the term; it has become a wholly artificial entity, without a solid foundation in the facts of international life. Nor could the president intend to guarantee to Germany the booty gained in previous wars, such as Alsace-Lorraine and Posen.

"But in any event the signing of a peace proctocol does not necessarily mean peace in the real sense of the term. A state of war may exist without an actual clash of arms, and without bloodshed. Austria-Hungary has been the scene of what in its effects was real warfare ever since the rise of the spirit of nationality. Because of this warfare parliamentary life in Austria was impossible and the state brought to impotency and the very verge of bankruptcy.

"Indeed this warfare without bloodshed led to the present bloody struggle; was one of its proximate causes. Therefore, if there is to be really permanent peace, this bloodless warfare must be stopped, and it can only be stopped by complying with the demands of the Rumanians, Italians, Czechoslovaks and Jugo-Slavs, all of whom are anti-Austrian. Only a minority of Austrian peoples, the Germans and Magyars, care for the preservation of Austria, and even then only if they can maintain their hegemony.

"Speaking for the Czechoslovaks—I hope this will not be considered presumptuous—they will never again voluntarily submit to Austrian sovereignity and Hapsburg rule. The Czechoslovak people demand complete and absolute independence and will not cease their warfare upon the house of Hapsburg and Austria until their ideal absolute independence, is realized. This is the position of the whole nation, as is best evidenced by recent declarations in the Austrian parliament, by a recent manifesto of Czech authors and artists, and by repeated declarations of Czech workingmen. Permanent peace is possible only when nations are satisfied in their legitimate desires."

RELATES WORK OF WAR CORRESPONDENT

LONDON, Sept. 11.—Up where the guns are roaring along the Canadian front, one may chance to see, as did the writer, a short, stocky, middle aged man dressed in officer's uniform sans stars or badges. This man, whose voice proclaims his Scottish nativity, is Stewart Lyon, resident representative of the Canadian Press at the front.

Familiar Figure to Troops

Old friends in Toronto would scarcely recognized the bronzed man in khaki the whilom assistant editor of the Toronto Globe. Life on the edge of war has taken off any surplus flesh. Hard and continuous tramping in all kinds of weather has toughened his muscles. Today no fitter man of his age exists throughout the Canadian forces.

Lyon's industry amazes even the soldiers. He is indefatigable in his search for news. With a newspaper man's instinct he insists upon eye-witnessing, and whenever humanly possible Lyon is on the spot himself. Indeed Canada's representative has been present at every Canadian fight of the least importance since he crossed to France eight months ago.

Provided Transportation

The Telegram's correspondent met Mr. Lyon last May, and journeyed with him toward the trenches in automobile until danger from shell fire forbade further passage of the motor. (For long Mr. Lyon had no car and had to tramp even along the roads.) Then jumping out and insisting upon helping me with my much too superflous baggage (a brace of heavy suitcases is no equipment for a holiday on the battlefield) he started off at leisurely pace across the shell-holed plain to guide me to a general invisable subterranean bungalow.

In Danger

Just at the moment, right overhead a Boche plane was fractically essaying to dodge our anti-aircraft shells whose spent brazen noses were dropping to earth with alarming screech. Not far away Hun heavy shells were "crumping" upon what the deluded German gentlemen in the air had signalled their artillery as targets. But Lyon paid little attention to it all, merely adjusting his shrapnel helmet and relating a pleasant little yarn of how one of such shell noses had driven clean through a man's helmet, right through his body, and then several feet into the ground.

Strange Contrasts

Cached in artillery observation posts and hiding in shell holes with gas masked muffled face, up in trench dugouts awaiting raid or bigger operation, traversing the battlefield at all hours of day and night, risking shells and snipers' shots, from one of which later they had a pretty close call they say soon after arriving, Stewart Lyon has been always on the job and his rambles take him into queer places.

Some days he dines on bully beef and broken bread in hot corners of the trenches, others he sits at the mess of some general in the stately dining room of an ancient chateau. Strange beds he encounters, too, in his peregrinations. It may be that the dozes in a dugout 50 yards from the enemy front line, or perhaps he will repose in a bunk in the Egyptian darkness and fustiness of a cavern 40 feet under the ground. Another night he may stretch out in a bell tent or slumber soundly in an ancient canopy four-poster, old as the nobleman's erstwhile country seat in one of whose tapestried chambers it stands. Lyon has had many adventures and not a few close calls, though never a word of himself do his despatches contain.

Can't Mention Names

Some very unfair complaints have been made by people at home that Mr. Lyon was omiting names and places from his despatches. Surely the critics must have been ignorant of the rigid rules which govern all correspondence from pressmen at the front. Every line must be submitted to the military censor at general headquarters. Regulations, for excellent reasons, forbid the publication of names and places. Mention of such things would be promptly conveyed from the Canadian papers, perhaps even cabled across the Atlantic to Germany. Mention of seemingly trivial matters has been proved to have been furnished the Germans with valuable intelligence.

Mr. Lyon labors under other disabilities. For while the British correspondents, distinguished writers, are backed by the wealth of the world's greatest papers and news associations, Mr. Lyon is employed by a less opulent press and must necessarily keep close check upon his verbiage. Every word he cables costs 7 cents. Consequently the descriptive stuff, so useful an embellishment of bare facts, devoid of the interest of names he cannot afford to much indulge in. Mail stories are out of the question. Letters conveyed by special courier reach London papers in a few hours, but such news is stale two weeks, and more, ere it reaches Canada.

Sorry to Lose Him

It is reported that Mr. Lyon has asked to be relieved of his post. Eight months' campaign, hard as any soldier's, has been his lot—and he is 51. The Canadian army will be sorry to lose him—this rugged Scots-Canadian with the burr in his speech, a welcome visitor to any mess. Many a story will he have to relate in the editorial rooms when he returns to Canada, happy in the knowledge of work well done in the face of daily hardship, danger and difficulty.—Toronto Telegram.

FRESH WATER FISH FOR FOOD SUPPLY

EDINBURGH, Scotland—The committee appointed last April to consider the question of increasing the available supplies of fresh water fish for food, have issued an interim report, which is signed by the Marquis of Breadalbane, J. Duncan Miller and W. L. Calderwood. The committee believe it possible to get a considerable quantity of fish from the lochs and rivers of Scotland to increase the food supply, and that the Scottish fresh water fisheries could be considerably extended in the future. The principal recommendations made by the committee are that systematic netting for the capture of non-migratory salmonidae and netting and set lining for coarse fish should be proceeded with during the war. That the committee should be granted powers, under the defense of the realm act, for the institution, supervision and regulation of netting and set lining. That skilled netsmen be provided to man those salmon netting stations which have been abandoned since the beginning of the war. That such skilled netsmen as are essential for carrying on the work be temporarily released from military or national war service work; and that a sum of £2000 should be provided by the treasury to carry out the committee's recommendations.

The committee consider it desirable that in the first instance netting arrangements should be made by voluntary agreement, but that the conduct of all fishing operations should be subject to some official supervision and regulation.

As regards netting for trout, the committee consider that at present it should only be undertaken near railways, or where special transport facilities exist. They are of opinion that the large commercial fisheries for salmon and sea trout are already working to their full capacity, while eel fishing, which is at present a neglected industry in Scotland, would justify the commencement of fishing operations on an extensive scale.

PROHIBITION CARRIED BY 2500 MAJORITY IN QUEBEC

QUEBEC, Oct. 4.—Prohibition carried by a majority of 2500 up to 7 p. m. this evening. Returns are incomplete.

HOSPITAL FARE PUTS HOME COOKS TO TEST

Tommy's Travel-Educated Taste Introduces New Dishes Into Canadian Homes.

OTTAWA, Oct. 4.—The dietitians of the military hospitals are setting a new standard of cooking for Canadian housewives, a standard that the best of cooks will find a test of their skill, and the indifferent ones a shame to them. Culinary art is coming into its own.

The thousands of Canadian soldiers returning from the front to the military hospitals for convalescence are being fed under the direction of women who take the art of cookery so seriously that they even take the temperature of the prunes before they put them on the table.

Catering to Fancy.

These women have discovered that there is an affinity between a fall wind and a baked potato, that the whole morale of a hospital population may be raised on a dull day by the promise of apple sauce and hot biscuits for supper, and that the tint of a pudding may even prove the turning point in a man's recovery. That the eye has a direct influence on the palate, and that digestion waits upon both is one of the first principles of their profession.

A man who has been fed flaky white potatoes will never be content again with a Murphy scorched in the cooking, for his palate has been pampered like a princling during his convalescence. Everything he ate had been tasted before he was served, gravy too salt never was allowed to reach him, and his pudding sauce never varied from perfection.

Travel Educated Canadian Taste.

The menus nave variety, and the fault of many housewives will be found in the same unvaried round of dishes. Economy will make its appearance in many homes inadverently when the returned men ask for macaroni dishes, rice and soups which in the average Canadian home had no place on the menu before the men went to war.

Travel has educated the Canadian taste for new dishes, and the substitutes which the French and English have taught him to like will prove much cheaper than many of the Canadian dishes whose place they take. European economy coupled with the economic astuteness of the dietitians whose whole training is built on the principle of economy, will become part of Canada's domestic life.

Disciples of Thrift.

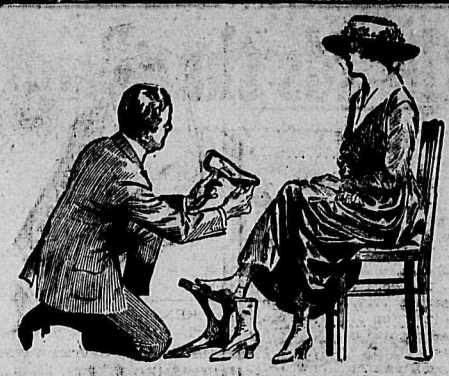
Not only is the dietitian a disciple of thrift in food, but in food preparation, and the art of saving time and work will soon be apparent to the women who take domestic arts seriously. Not an elbow is flexed unnecessarily in the great hospital kitchens. Every article in use is spotless and so situated as to economize motion.

The work of even the lowest helper has been taken into account, and not one useless inefficient move is made. System allots every task and the close of the day sees everything in order and everything on the day's calendar done.

GERMAN INDUSTRIAL CENSUS TO BE MADE

BERLIN, Germany, via Amsterdam—General von Groener, the head of the German war office, has issued a proclamation announcing that a census is to be taken of all those engaged in any industrial employment. The proclamation reads as follows:

For the economic prosecution of the war, and the secure transference of our economic system to a peace basis, fresh statistics as to German industrial labor are necessary. I have, therefore, ordered, in consultation with the minister of the interior, a census of industrial employees. The census will be taken throughout the empire. I assume that the heads of all communal associations will devote all their powers and authority in making this important census a complete success. I expect that municipal and communal administrations, their statistical officers, their officials and teachers ill afford me the support required with intelligent, ready cooperation. I also trust, however, that every German industrialist, whether a manufacturer, independent trader, merchant, home worker and so on, will fill in the papers distributed conscientiously and carefully. The questions are limited to the minimum necessary for the purposes of the military authorities. If the undertaking is to be a success, volunteers must be forthcoming to seek out industrial concerns of all kinds, and to see that the forms are properly filled in. To men and women, young and old, therefore, goes forth the summons: Let every one who can wield a pen and spare a day render valuable service to the fatherland in placing himself as a teller at the disposal of the communal authorities.



Don't Avoid Corns But Don't Keep Them

With dainty footwear, corns can hardly be avoided. But they matter little when you know the way to end them.

As soon as a corn starts, attach a Blue-jay and forget it. The corn will never pain. In two days, if it is a new corn, it will disappear. Sometimes old corns need a second application.

It is almost as simple as removing a dirt spot. Blue-jay is applied in a jiffy. It fits the toe like a glove. When you remove it—in 48 hours—the whole corn is done for. Blue-jay is a scientific method. A noted chemist invented it, and a famous laboratory prepares it.

It is not mussy, it is not harsh. It centers action on the corn alone, so it doesn't lead to soreness. And it is sure. No corn can resist it. Its millions of users have no dread of corns. For your own sake, prove it on one corn. See how easily these kill-joys can be ended.

B&B Blue-jay Corn Plasters

Stop Pain Instantly
End Corns Completely
25c Packages at Druggists

BAUER & BLACK, Limited, *Makers of Surgical Dressings, Etc.* Toronto, Canada

How Blue-jay Acts

A is a thin, soft pad which stops the pain by relieving the pressure.

B is the B&B wax, which gently undermines the corn. Usually it takes only 48 hours to end the corn completely.

C is rubber adhesive which sticks without wetting. It wraps around the toe and makes the plaster snug and comfortable.

Blue-jay is applied in a jiffy. After that, one doesn't feel the corn. The action is gentle, and applied to the corn alone. So the corn disappears without soreness.

Link Economy with Production.

The great bounding West is playing and will play an enormous part in winning this world war. With its wonderful production and resources the Allies are dependent on it to a large extent for food supplies. Be careful then, and economize while you produce. Buy for your table suitable economical articles full of food value. Don't overlook the fact that Cocoa has great body building propensities. It is nourishing and sustaining and within the reach of every purse. For the best results be sure you ask for this great Canadian food drink.

HOW SPAIN DEALT WITH RAILWAY STRIKE

MADRID—As has been cabled to the press, there can no longer be any reasonable doubt that the Spanish strikes are the work of secret agents, acting in the most insidious manner. The government was satisfied on this point when the minister of the interior gave the official warning that he knew of the efforts that were being secretly made to bring about immediately a general strike throughout Spain, and there was some confirmation of the truth of this statement in the fact that a few hours later, men engaged in various trades in Madrid, including bricklayers, carpenters and printers, began to leave their work on receiving mysterious orders to do so. The men, however, received but scant encouragement from others, and in some sort of excuse for themselves, said the strike would only last a day or two, and was meant as a token of sympathy with the railway workers. The latter's union issued a notice declaring a general strike for the whole of Spain. What with the fact that a large proportion of the employees on the Northern railway are, at the time of writing, still at their work, and that these have been reinforced by army men, the company expects to be able to carry on a satisfactory service, both for food and passengers. It is acting firmly and has issued a statement that all its employees who have gone on strike, and who do not return to their work within 48 hours, will be definitely dismissed. The premier, Senor Dato, is also displaying firmness, and a notable proceeding is the issue of a decree in the official Gaceta, mobilizing all railway workers who are liable to service, and regarding as being in the armed service all who are now so liable, whether they are in uniform or not. Any attack upon such a workman will be regarded as an attack upon the armed forces of the crown.

The government has other decrees in readiness to cope with other eventualities, but it does not wish to adopt a provocative attitude. There have been some disturbances at the Northern station. In one case a railway guard on strike made an alarm signal which stopped a train that was just leaving the station. It was quickly started again, however, and the guard was arrested. A number of women, wives of strikers, have made threatening attacks upon the men who remained at work, but these women have also been arrested. The government continues to receive letters and telegrams from a great number of work people's societies, expressing their disapproval of the strike and the methods being employed, which they consider will seriously prejudice the cause of labor in the future. In general there is tranquility in Madrid, and it is not expected that the strike will be prolonged, but the newspapers say that the government will only succeed in its endeavors if it maintains the very firmest attitude. In consequence of the danger to the food supply of the city, the Governor and the Alcalde have taken many precautionary measures.

YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save your hair! Make it thick, wavy, glossy and beautiful at once

Try as you will, after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment. A 25-cent bottle will double the beauty of your hair.

PUBLIC URGED TO AID FUNDS OF RED CROSS

Lieutenant Governor Calls for Generous Contributions to Society on "Our Day."

An appeal has been issued by the joint war committee of the Order of St. John and the British Red Cross society for contributions for the great work of the British Red Cross on "Our Day," Thursday, Oct. 18.

In forwarding a copy of the appeal to The Daily News F. S. Barnard, lieutenant governor of British Columbia, states:

"This appeal, which has the approval and support of their majesties the King and Queen and of her majesty Queen Alexandra, is being made simultaneously throughout the British Empire.

"The two former appeals for the same cause resulted in total collections in Canada of $1,858,088.56 and $1,705,000 in 1915 and 1916. The burden of our offensives on many fronts and the number of our casualties is so heavy that there is again urgent need of money.

"This year the collection throughout Canada is in charge of the Canadian Red Cross society through its various provincial and local branches, but the money will be kept apart from the funds for its own great regular work and will be remitted specially to the joint war committee in London.

"I earnestly commend to all the people of British Columbia the Empire-wide appeal of the British Red Cross society for help. British Columbia has responded magnificently to every demand of patriotism since the war began and I believe can be depended upon to "carry on" until the victory is won.

"This request is being mailed to all mayors and reeves in the province, to government agents or other officials in unorganized districts and to the heads of public and patriotic associations.

"Wherever there are branches of the Canadian Red Cross society they are being asked to make the collection and all those who this letter reaches are requested to assist.

"At the very many places where such Red Cross branches do not exist those who have been circularized and any others who can be interested are requested to take steps immediately by calling a public meeting or otherwise to assist the cause and the following procedure is suggested:

"To appoint a strong committee to take charge, with a chairman and an hon. secretary-treasurer to receive the money in the first instance.

"To take all measures possible to enlist and maintain public sympathy, and to publish this circular and the appeal in the local newspapers.

"To organize for the collection of money on Oct. 18 either by tag days, entertainments, the soliciting of subscriptions or by any combination of these or other methods.

"The Canadian Red Cross society having established three district centres covering the province, I am advised that the committees in places north of the 53rd parallel should report progress to or ask further information from the hon. secretary, Canadian Red Cross society, Prince Rupert; south of that parallel, if on the mainland, from the hon secretary of the society at Vancouver, and if on Vancouver island or other islands, from the hon secretary at Victoria.

"Similarly, as quickly as possible after Oct 18 remittances should be made to the same Red Cross officers."

Joint War Committee's Appeal.

Following is a copy of the joint war committee's appeal:

"It becomes necessary for the Order of St. John and the British Red Cross society to appeal once more to the generosity of their friends and supporters at home and overseas for funds to carry on their work of mercy for the sick and wounded of his majesty's forces.

"The joint committee has decided again to make such an appeal on Oct. 18, and we earnestly beg your assistance in making it known to the people of the Dominion.

"Our Red Cross is now costing £8000 a day and increases rather than diminishes.

"Our help is given in every part of the war and to troops from every part of the Empire, and will have to be continued for some time, even when victory has been achieved.

"We are deeply grateful for the munificent help received from sympathizers in all parts of the world, and we trust that with your assistance the appeal made on "Our Day" will meet with a response which will enable us to continue to do all that is humanly possible to lessen the sufferings of those on whose behalf we plead.

"Their majesties the King and Queen and her majesty Queen Alexandra have graciously given us their patronage and support.

(Signed) ARTHUR, Grand Prior of the Order of St. John of Jerusalem.

(Signed) LANSDOWNE, chairman of the council of the British Red Cross society."

USE OF AIRCRAFT AFTER THE WAR GETS ATTENTION

NEW YORK, N. Y.—To study the possible application of aircraft for economical purposes and outline plans for the employment of the thousands of military airplanes and aviators after the war, the Aero club of America is planning to organize an international commission on civil aeronautics. In France the commission on civil aeronautics was formed in January and in England the civil aerial transport commission was organized in May. M. d'Aubigny, member of the French chamber of deputies, is chairman of the French commission, and Lord Northcliffe heads the English commission. A report prepared by Lieut. Col. Marvin O'Gorman, late superintendent of the royal aircraft factory, cites among other provisions for the use of aircraft in peace times, transit of letters, goods and persons, labor of transit service, finance of transaerial companies, government subvention of aerial transports, private, sporting and domestic use, and use for surveys, etc.

"Aeronautics is to be the most important factor in reconstruction," says Alan R. Hawley, president of the club, "just as it is the most important factor in the war and will decide the war in the air."

NELSON NEWS OF THE DAY

Don't forget the Cafeteria Supper at St. Paul's tonight. (7125)

The high cost of living is banished for tonight. Eat at St. Paul's Cafeteria Supper and forget your troubles. (7125)

Clan Johnstone No. 212, will meet this week on Friday, 5th instant, at 8 p.m., instead of Thursday. (7095)

The Annual General meeting of the Ymir Waterworks Co., Ltd., will be held at the company's office at Ymir on Oct. 12 at 7:30 p.m. (7089) S. F. ROSS, Sec.

To those whom it may concern: On and after Nov. 1, 1917, the Carpenters' union will demand $5 for eight hour day, owing to the high cost of living and the advance in price of tools. (7129)

BLINDED CANADIAN'S OVERCOME HANDICAP

M. H. C. Finds Positions For Men Who Have Learned to See With Their Fingers

Blindness need no longer be the death knell to ambition. The Military Hospitals commission has proved this by placing all of the blinded soldiers who have returned to Canada and sought its aid in securing positions in paying work.

In all, there have been only 13 men blinded in the Canadian army, a number much smaller than was anticipated when the war began, and of these nine have returned to Canada at this time. Of the nine, five have been placed, the other four not desiring to be assisted by the commission in any way.

One young lieutenant, a hero of Ypres, is a splendid example of what the modern attitude toward blindness, and the training for independence that is given in the "Light Houses," established by Miss Winnifred Holt, for the blinded French soldiers in France, and St. Dunstan's hostel, the national institute for the blind in Regent's park in England, can do.

Canadians Overcome Handicap

This young Canadian lost his sight permanently, but after a few months' training in St. Dunstan's, in which he learned to read and write in Braille (asystem of raised dots read by finger tips,) and to operate a typewriter by the touch-system, he was able to return to Toronto, where he was formerly engaged in the insurance business and carry on without difficulty.

Another Canadian is returning from the same institute in England to become one of the masseurs in the Military Hospitals commission work with crippled soldiers. This is one of the best and most profitable professions for a man who has lost his sight, according to the authorities.

A third man, a graduate electrical engineer, is employed by the Hydro-Electric commission in Hamilton; another is being employed in Montreal and still another in Winnipeg as a stenographer and dictaphone operator.

Soldiers Learn Rapidly

Sir Arthur Pearson, the blind editor who established the school at St. Dunstan's, says: "The men are learning with unexampled rapidity and facility to get the better of their handicap. In addition to reading, writing and shorthand in Braille, they are learning to make all sorts of useful and saleable articles with carpenter's tools. They repair boots and shoes with the skill of the best sighted shoemakers, learn to make baskets and doormats, to run poultry farms and simple market gardens. Telephone operating, diving for salvage companies and massage are other occupations for which they can qualify themselves.

Many Amusements

In addition to this they are learning to play, to find life again. They row, dance, roller skate, play push ball and even ride horses in some cases. Dancing is one of the favorite amusements and the men dance exceedingly well.

For quieter games, they have cards, dominoes, and checker boards, especially devised for the man who must see with his fingers, and these games occupy their evenings when there is no concert given by the institute's own talent. A debating society is one of the livest organizations of the institute in which all the current topics of the day were discussed by the students.

EIGHT OUT OF 11 PASS CLASS A TEST

Men Coming in Slowly and Prompt Reporting For Examination Urged.

Out of 11 men rendered liable for service under the first draft who were examined by the Nelson medical board during the past two days, eight qualified for class A, one for class B, and two for class E. While the number of men applying was small the average of qualifications for Class A was the highest since the medical board has commenced examinations.

Major Boredn, chairman of the board, stated that men were coming in very slowly for examination. He urged the desirability of all men liable for service in the first draft reporting for examination immediately. He said that many local men who should have been examined before this had neglected to call upon the board and said that congestion was threatened when the government call for compulsory examination comes and when men start coming in from outside districts.

TAG DAY FOR THE BLIND SOLDIERS

W. E. Cowen Here to Appeal for Funds for National Institute for Blind.

W. S. Cowen comes to appeal for funds for the National Institute for the Blind, which established and is maintaining the famous St. Dunstan's Hostel, "The House of Good Comfort," in which soldiers and sailors rendered blind by wounds are trained in vocations which make them physically and financially independent. St. Dunstan's now an imperial institution caring for blind soldiers from every part of the Empire, needs funds to carry on its work. Because of the imperial character of the institution, the national institute felt that the people of Canada would be glad of an opportunity of contributing to its support, and to give them the opportunity sent W. E. Cowen, who is totally blind, to tour Canada.

Mr. Cowen has met many prominent citizens here who have stated they would welcome the opportunity of contributing to the support of an institution accomplishing such wonderful work as St. Dunstan's. There is always a special appeal in blindness and to vigorous, plucky men such as the British soldiers, blindness comes as a double shock. An institution which takes these men, heartbroken and hopeless, and turns them into contented active workers to whom blindness is a small handicap, deserves a great deal of the people, it is pointed out.

A tag day has been arranged for today and Mr. Cowen feels quite sure that Nelson will maintain the reputation she holds as a ready giver to patriotic appeals.

ROCK SLIDE DELAYS PASSENGER TRAIN

Trestle Bridge at Jessica Swept Away and Kettle Valley Train Held Up.

Owing to a blockade caused by a rock slide on the Kettle Valley line at Jessica about 10 miles east of Hope the Kettle Valley train, which was due here at 10:15 Wednesday night did not arrive till 1 o'clock Thursday afternoon, 14 hours late. The rock slide swept away a trestle bridge and the train was stalled at Hope from shortly after midnight on Tuesday till after 6 o'clock on Wednesday morning.

The run to Nelson was completed via Spence's Bridge.

ODDFELLOWS GIVE WARM WAR SUPPORT

Decide at Sovereign Grand Lodge Not to Cancel Nonpaying Soldiers.

No Oddfellow can be hereafter suspended for nonpayment of dues during military service or lose any right or privilege that he now has, the Sovereign Grand Lodge I.O.O.F. decided at its annual meeting Sept. 17 to 21 at Louisville, Ky. Detective R. A. Perry of Vancouver, who with W. A. Johnstone and William Hogg also of Vancouver, were British Columbia delegates to the meeting was in the city yesterday on his way from Louisville to the coast city.

"The gathering of 10,000 delegates showed itself to be thoroughly in sympathy with the war and its vigorous prosecution," stated Detective Perry at the Hume. "A request for endorsation of its plans of the League to Enforce Peace was not given consideration, the meeting going on record as being in favor of peace on terms suitable to the allies, but was not for cessation of hostilities on conditions that would not assure the downfall of German autocracy."

Detective Perry, who is department commander for the patriarchs militant branch of the order transacted business of importance in connection with the local branch.

Discussing conditions in the parts of the United States he passed through on his trip, Detective Perry said that conditions in the middle west were excellent, but not so good in the south.

RED CROSS DAY AT HUME HOTEL

Society Anticipates Raising Large Sum of Money Through Today's Activities.

A Red Cross day will be held at the Hume hotel today. Home cooking, candy and other refreshments and afternoon tea will be served.

A dance will be given in the dining room from 9 to 12 o'clock.

The society anticipates the raising of a large sum of money.

COLLECTING TAX ON AMUSEMENTS

Amusement Proprietors and Provincial Police Report Sales to Government.

Provincial Police Chief Black has been collecting war tax on moving picture theatre tickets since the first of the month. The stamps are forwarded to him by the provincial government and he sells them to picture house managers and other amusement proprietors coming under the act.

The picture show proprietors are required to take an affidavit before a justice of the peace as to their daily ticket sales, and the chief also reports to the government.

UNION CARPENTERS WILL DEMAND WAGE INCREASE

The union carpenters at a special meeting Wednesday, unanimously decided to demand an increase in wages to $5 per day. The present wage is $4.50 per day. The reasons given for this action being taken are the high cost of living and the advance in prices of tools.

Social and Personal

E. Walker, Grand Forks, is a guest at the Hume.

A. C. Johnson, New Denver, is a guest at the New Grand.

J. A. Hull, Fruitvale, is a guest at the Queens.

W. R. Wetmore, Calgary, is registered at the Strathcona.

Miss Verlie May Odger, daughter of Mr and Mrs. S. W. Odger, Eholt, was married to Robert Stewart Walker, Denora, at the residence of the bride's parents on Tuesday.

R. C. Crowe of Trail was a visitor to Nelson yesterday.

Mrs. A. W. Hodgson returned on the Crow boat last night from a trip to St. Paul, Minneapolis and other eastern cities.

Miss Amy Killmartin of Spokane was married last night to Joseph Earl Aldridge of Ainsworth, Rev. W. W. Abbott officiating.

Mrs. C. W. Tyler, who has been visiting Vancouver since June, is expected to return to Nelson tomorrow.

Capt. B. T. O'Grady, a mining engineer from Kootenay and Boundary, who won the Military Cross some months ago, has now been decorated with the Serbian order of the White Eagle.

Col. R. A. Perry, Vancouver, of the I. O. O. F., conferred the decoration of chivalry on Rebekahs last night. The Rossland Canton branch also attended the ceremony, which was open to the public. A dance was held after the ceremony and refreshments were served and a collection taken up for the benefit of the Red Cross fund. Col. Perry, accompanied by Major W. H. Watkins and Capt. D. P. Graham left this morning for Rossland on a trip of inspection of the Patriarch Militant branch of the I. O. O. F.
