SPEEDING UP FORMULATION PEACE TREATY

Commissions Are to Report Soon

CLEMENCEAU IS WORKING

General Document to Cover All Subjects

(By Daily News Leased Wire.)

PARIS, Feb. 23.—(Associated Press)—Results of far reaching character were obtained at the meeting of the council of the great powers Saturday when resolutions were adopted requiring a speeding-up of all important branches of the work of the peace conference as to permit the formulation of a preliminary peace treaty by the time President Wilson returns to Paris in the middle of March.

To accomplish this all commissions dealing with the big questions of reparations, boundaries and economic and financial issues must report to the supreme council within the next two weeks or by March 8 at the latest. These reports, in turn, will form a basis for the drafting of the treaty.

Extensive Program.

An extensive program has been carefully matured within the last few days and it was brought to a culmination Saturday afternoon when A. J. Balfour of Great Britain, and Colonel E. M. House of the United States, called on Premier Clemenceau in his sick room shortly before the council convened. They found the wounded statesman dressed and sitting up and keenly alert concerning the work of the conference and fully agreed on the plan for rapid acceleration of work on all subjects.

This brought together the British, American and French viewpoints for a rapid course of action, assuring the earliest possible peace. Shortly afterward the supreme council met and ratified the program. The official statement issued after the meeting announced that:

"The meeting decided on proper steps to be taken in order to accelerate as much as possible the labors of the conference."

Back of this, the formal announcement is the speeding up of the plan, which now goes into effect, for an early drafting of the peace treaty. The main feature of this plan is to embody all subjects, non-military, as well as military, in the preliminary peace soon to be framed and to have this broad general document take the place of a separate military treaty for disarmament which has been prepared for the supreme war council under the direction of Marshal Foch, was was to present it within the next few days.

One General Document.

But instead of this limited action on all military questions, yesterday's question broadens the action so as to include all important subjects within the scope of the preliminary peace treaty, thus making it embrace economic, financial and all other subjects, including reparations in addition to disarmament and other military and naval features.

It will be this broad general plan which will be drafted by the time the President returns and which will soon thereafter go before the peace conference.

The foregoing relates only to Germany, as the conclusion of this preliminary peace is regarded of chief importance. But similar action may proceed at the same time concerning Austria Bulgaria and Turkep, although is not sure that action on these countries can be affected within the same period.

Although the proposed document is designated as a preliminary peace treaty, it is expected to embody virtually all main questions and to correspond to the treaty of Versailles, which closed the Franco-Prussian war, though a supplementary treaty was signed later at Franfort.

Little to Say Now.

PARIS, Feb. 22.—(Special Cable from J. W. Dafoe)—Apart from the new armistice terms with their inclusion of the preliminary naval and military terms of peace, there is not likely to be any announcement of great public interest from the peace conference for the next two or three weeks. The armistice terms may be looked for during the first week of March. There is need for urgency for both the allies and the central powers. The reports of special commissions of investigation indicate the possibility of very serious food conditions in Germany and adjoining territories in the course of a few weeks. If these coun-

POLAND SAYS GERMANY WILL NOT KEEP PROMISE

(By Daily News Leased Wire.)

PARIS, Feb. 23.—The Polish authorities, according to a Havas agency dispatch from Warsaw, have obtained absolutely reliable information from Berlin that Premier Ebert, Chancellor Scheidemann, Foreign Minister von Brockdorff-Rantzau, War Minister Noske and Herr Landsberg at a secret meeting adopted a plan to deal with the Polish question by which Germany, while promising to make peace with Poland, would give orders to the German troops on the frontier to continue their operation against the Poles.

In addition, it is declared the German leaders agreed to get in touch with the Russian Bolsheviki government with a view to joint action against Poland. It was planned also, the dispatch continues, to let the German troops remaining in Lithunia infected with Bolshevism so as to facilitate action against Poland. It was agreed that it would be announced that the loaders no longer had control over these troops.

200 SOLDIERS REACH HALIFAX

Many Western Officers and Men on Ship Canada at Eastern Port

(By Daily News Leased Wire.)

HALIFAX, N.S., Feb. 23.—The Canada, with about 1200 returned soldiers and 50 or 60 women passengers, arrived Sunday from Liverpool. The steamer entered port about 3 o'clock and at 5:30 the quarantine flag came down and the work of disembarking began. The troops were a happy lot and their cheers resounded back over the waters in answer to the sounds from the shore. The Canada had a smooth and pleasant voyage of nearly eight days and it passed without special incident. Major Shorgold, officer commanding troops on board, just before the steamer docked had a signed letter of which the following is a copy handed to the captain of the ship:

"To Captain Davis,
commander of H.M.S. Canada:

"On behalf of the officers and troops I beg to convey to you the appreciation of all concerned for the courtesy and cooperation shown by yourself and the whole ship's staff during the voyage from Liverpool to Halifax. The arrangements made for the supply of food and rations left nothing to be desired and I am conveying the views of all concerned in wishing you every success and good luck for the future."

The officers who returned included: Capt. S. C. Cresley, Vancouver; Capt. G. G. Aitkin, Victoria; Major K. Alexander, Vancouver; Lieut. H. Boyd, Vancouver; Lieut. Calder, Nanaimo; Lieut. Sprinkling, Victoria; Lieut. A. E. Watkins, Victoria; Lieut. C. E. White, Victoria; Lieut. J. Bushfield, Vancouver; Lieut. H. S. Ferguson, Vancouver; Nursing Sister Essie D. Collis, Victoria.

The Empress of Britain is expected to arrive here at midnight Monday and should dock at 8 o'clock on Tuesday morning.

16 OF CREW DROWNED WHEN BARQUE SINKS

(By Daily News Leased Wire.)

NEW YORK, Feb. 23.—The French barque Helene sunk early Saturday morning in a collision with the Norwegian freighter Ganefjord off Winter Quarter light, Va., and 16 of her crew perished.

Eighteen survivors, including her skipper, Captain Maisoneuve, were brought there Sunday.

BELIEVED FOUR DIED WHEN SHIP ON FIRE SANK

(By Daily News Leased Wire.)

NEW YORK, Feb. 23.—The army refrigerating ship Skola was sunk at her pier in Hoboken Saturday night to save her from flames which were raging in the holds. Two members of the crew, an officer and a boatswain's mate, who were helping fight the fire, are missing and are believed to have perished. The vessel was loaded with beef and lard and was about to sail for Brest. The missing men were not seen after they donned gas masks and entered the hold to open sea cocks to sink the ship.

The cargo, valued at $3,000,000, will be a total loss. The origin of the fire has not been determined.

NAB 2 GERMAN SHIPS AT SEA; HAD NO PASSES

Take Prizes Into Kiel Canal

HUNS CLOSE THE LOCKS

French Commander Gets Boats Released

(By Daily News Leased Wire.)

PARIS, Feb. 23.—The French destroyer Oriflame, captured on Feb. 19 in the Baltic the German steamers Elbe and Gerger which were navigating without permission. The destroyer took her prizes into the Kiel canal on the way to the nearest French port, but the German authorities closed the locks at Brunsbuttel and endeavored to prevent the passage of the destroyer and the steamers on the ground that the captures were illegal.

After the commander of the destroyer had made an energetic protest, the Oriflame and its prizes were allowed to proceed to Dunkirk.

Under the terms of the Armistice, German vessels are liable to capture if they go to sea without special permission.

PARIS IS GLAD PREMIER BETTER

Clemenceau Does Not Joke as Much But Condition Continues to Show Improvement.

(By Daily News Leased Wire.)

PARIS, Feb. 23.—By the Associated provement in the condition of M. Clemenceau was received with joy in Paris which has been worried over the tone of the official bulletin issued this morning. The premier partook of a hearty breakfast and then was examined by the doctors, but did not joke with the doctors as much as usual. The official bulletin issued this morning said that the premier showed continued improvement.

M. Clemenceau asked his doctors for permission to take a drive in the Bois de Boulogne this afternoon. His request was not granted.

Premier Clemenceau this morning received Foreign Minister Pichon, General Mardacq, the chief of his military cabinet, and M. Mandel, his chief clerk. It is unlikely that he will see any other visitors today.

Has Good Day.

PARIS, Feb. 23.—By the Asosciated Press)—At 6 o'clock Sunday evening the following official bulletin was issued concerning the condition of Premier Clemenceau:

"M. Clemenceau had a good day. His temperature was 37.2 (contigrade) 98.9 (Fahrenheit), pulse 68. Henceforth only oneb ulletin will be issued daily."

THRELKELD RESIGNS; M'GUIRE SUCCEEDS HIM

VICTORIA, Feb. 23.—J. J. Threlkeld, who has rendered gratuitous services as chairman and supervisor of the soldier settlement board in this province, since May last has resigned, and Major M. V. McGuire has been appointed by Ottawa as supervisor.

NEED NOT WEAR MASKS IN AUSTRALIA NOW

(By Daily News Leased Wire.)

SYDNEY, Feb. 23.—(Reuter's.)—In connection with the influenza epidemic which has been abating all over Australia, the government is relaxing the drastic mask-wearing regulations.

BUDAPEST NEWSPAPER ATTACKED; 31 KILLED

(By Daily News Leased Wire.)

PARIS, Feb. 23.—An attack was made on one of the newspaper offices in Budapest today by communists and employees, with the result that many persons were killed, according to advices reaching here.

A storm of bullets issued from the houses opposite, whereupon national guards and police opened fire with machine guns, rifles and pistols. It is officially stated that 31 persons were killed.

Eye witnesses declare that they counted from 50 to 60 dead in the streets. Fifteen communists were taken to the hospitals in a dying condition.

FUNERAL OF LAURIER WAS STATELY AND NOBLE

(By Daily News Leased Wire.)

OTTAWA, Feb. 23.—Ottawa rose adequately to the height of the occasion for the funeral on Saturday of Sir Wilfrid Laurier, the great tribune and the Bayard of his race in the Dominion. There will be no reproach when posterity asks if the closing honors were commensurate with the life service and its lofty character. Nothing that should have been done was left undone. Nothing was added that would mar the charm and fair dignity of a good life. The closing scenes were such as those privileged to behold them will not willingly erase from their recollection.

Stately and Noble

The program of the state funeral was minutely carried out. It was stately and noble. These were its deepest characteristics. Yet there was no sign of undue sorrow. "Not a drum was heard, not a funeral note," even, except within the cathedral church. But there was a rather grand unbidden spontaneity of homage and of that reverendal grienf as of members of a vast family.

Almost everywhere along the mile and a half route from the Victoria museum to the Basilica, where the funeral service was held, there were drapings of black and purple, graced here and there with the Grecian tribute of unfading laurel. The postoffice and Chateau Laurier, bearing a name *already historic*, were exceptionally striking. Over the portico of the latter there were half-masted the flags of the allied nations. At the Basilica, too, the facade was heavily draped in black but the tri-colors of old France and the blue and gold flag of the papal see flew on church buildings adjacent.

Two Orations

The requiem mass of the Roman Catholic church sung in all the elaboration of ritual was to music composed by the Abbe Porosi While unfamiliar compared with some masses, it was full and resonant and was admirably suited to the fine bass and alto voices of the choir and antiphony. Its marvelous dignity was fully apprehended by the large number of Protestants in the nave. The celebrant was the papal emissary in Canada, Monsignor Di Maria, with Monsignor Routhier as priest assistant and three canons of office and of honor. Two funeral orations were pronounced, that in French by Archbishop Mathieu of Regina and that in English by the Rev. Father John Burke of Toronto. The latter compared Sir Wilfrid to a being from a superior world only sojourning on earth.

Few people attended the actual interment at Notre Dame cemetery, Lady Laurier with the nearest mourners and accompanied by a nursing sister was at the closing scene. The bereaved woman bore her grief with dignity and reserve. The ritual was performed by Rev. Father Lajeun of Ottawa.

It was observed that just as the casket was borne from the church the sun shone out resplendently. A dozen movie cameras reeled on their records to be screened for those to whom the name of Laurier is a household word in the remotest corners of the Empire.

PRESIDENT WILSON ARRIVES FROM EUROPE

(By Daily News Leased Wire.)

BOSTON, Mass., Feb. 23.—President Wilson's ship arrived in Boston harbor early this even- President's party remaining arad ing and anchored with all the presidential party remaining aboard. Tomorrow, sometime before noon, the President and those accompanying him on his flying trip from the Paris conference, will come ashore for brief ceremonies of welcome and a short speech by the President in Mechanics hall and the whole party will leave for Washington by special train at 4:30 Monday afternoon, arriving in the capital Tuesday morning.

The President still plans to return to France on the George Washington, sailing from Hoboken about March 5, unless some*thing unforseen occurs.*

ALLIES ADVANCE 35 MILES MORE

Fifty Prisoners and Considerable Railway Material Is Captured—Quiet on Archangel Front

(By Daily News Leased Wire.)

ARCHANGEL, Friday, Feb. 21.—(By the Associated Press.)—Canadian, Italian, Serbian and Russian Karelian troops, in an offensive movement southward along the Murmansk railway on Feb. 19, pushed forward 35 miles, capturing considerable railway material and 50 prisoners and inflicting heavy losses on the Bolsheyists. While other troops moved through the woods on skis, outflanking the enemy at a bridge near the village of Cegishi, the Serbians attacked frontally along the railway and drove the enemy beyond the bridge after considerable fighting. The allies now occupy the village of Cegishi, which is approximately 80 miles south of Sorotaka.

All sectors on the Archangel front so far as reports to the headquarters indicate are quiet. Not one shot has been fired in the last 10 days. The weather has been intensely cold.

Peasants coming into th allied lines from Bolsheviki territory declare that several Bolsheviki commands have mutinied and refused to stay at the front.

BASKET FACTORY BURNS IN THOROLD, ONT.

(By Daily News Leased Wire.)

THOROLD, Ont., Feb. 23.—Fire broke out about 6 o'clock this morning and totally destroyed the Thorold basket factory, including a large two-story brick structure, two large warehouses and a pattern building owned by Edward C. Bradley of Cincinnati, Ohio, and not recently in use. The loss is estmiated at about $20,000.

SAYS GERMAN CROPS DO NOT LOOK GOOD

BERLIN, Saturday, Feb. 22.—By the Associated Press.)—Herr Ramm, under-secretary of the ministry of agriculture, gave a gloomy picture of the prospects of the coming harvest at the meeting of the German agricultural society today. He said that nothing better than half a normal crop could be expected this year. This was due to the lack of fertility and the impoverished condition of the soil.

LIBERAL CAUCUS THIS MORNING

Not Likely That Permanent Leader Will Be Appointed Until Convention This Fall

(By Daily News Leased Wire.)

OTTAWA, Feb. 23.—The most interesting political question of the hour is the policy which the Liberal party may adopt with regard to the leadership made vacant by the death of Sir Wilfrid Laurier.

While, of course, there are conflicting opinions as to what should be done, the general opinion seems to be that no permanent successor will be appointed until the national convention meets in the capital next autumn. Meanwhile, there is the question of the house leadership.

A Liberal caucus called for tomorrow morning will deal with this and it is probable that a committee of management will be appointed to take charge of affairs for the session.

A chairman will be named and there is little doubt that he will be James A. Robb of Chateauguay-Huntingdon, *the chief whip of the Liberal party.* He will be the official spokesman and there is also a possibility that in addition to him, a house leader for the session may be chosen. The plan of appointing an organization committee was adopted by the Liberals when Sir Wilfrid Laurier became leader of the party and this system continued for a long time. Indeed, such an organization committee had been arranged for, it is staaetd, during the last three weeks by Sir Wilfrid Laurier, after consultation with the leading men of the party. It was stated to the Canadian Press tonight that the attitude of the opposition will not vary from the policy which was laid down by Sir Wilfrid Laurier shortly before the assembling of parliament. That attitude, to which it is proposed to adhere is helpful, rather than critical, it is asserted, with regard to the matters pertaining to the war and reconstuction until demobilization has been completed. However, it is also stated in Liberal quarters that the attitude with regard to financial matters will call for criticism.

The general impression in both political camps is that unless something unexpected happens the line-up of the two political parties will remain practically intact throughout the session, there being no apparent decision on either side of the house to disturb existing political conditions at least until peace has been signed and the Canadian forces fully demobilized.

SENATE WILL ADJOURN AFTER ADDRESS DEBATE

(By Daily News Leased Wire.)

OTTAWA, Feb. 23.—When the senate concludes the debate on the address it will follow its usual practise and adjourn for a fortnight, when legislation passed in the meantime by the commons will be ready for consideration of the upper house.

TO KEEP UNDESIRABLES OUT OF AUSTRALIA

(By Daily News Leased Wire.)

MELBOURNE, Feb. 23.—(Reuter's.)—The federal government is taking measures to prevent the landing of Bolsheviks and other undesirables.

The federal government has dismissed 500 Belgian employees on Cockatoo island owing to the men's "go slow" policy.

WITTELSBACH DYNASTY TRIES TO DESTROY WHOLE BAVARIAN REPUBLIC: UNREST EVERYWHERE

Slayer of Premier Eisner Was Not Acting Independently, It Is Learned--Socialists and Spartacans Sign Pact--Archbishop Arrested--Regiments Offer Aid to Munich--Death Penalties for Plundering

(By Daily News Leased Wire.)

PARIS, Feb. 23.—Count Arcovalley, the slayer of Premier Eisner, of Bavaria, was not acting independently, according to a Zurich dispatch to the Petit Parisien, and it is becoming more *and more evident that the Wittelsbach* dynasty and its adherents are behind an organized movement to destroy the Bavarian republic.

The dispatch adds that it was in anticipation of an armed attack against the national assembly and existing institutions that the majority Socialists, independent Socialists and Spartacans of Munich signed a pact to stand together. The action of the Muich Socialists and Spartacans ,the correspondent adds, will not be pleasing to President Ebert and Chancellor Scheidemann, whose policy it is said, takes another direction. The correspondent recalls that some time ago he interviewed Baron Stengel, a high official of the former Bavarian court and asked him if he thought the monarchy had definitely fallen.

The baron with a smile answered:

"Who knows? Many things can happen. We have fallen, but we are not dead. The present situation obliges me to act prudently, but we hope that we shall be able to do something effective."

Communication between Munich and Switzerland has been severed, the dispatch adds, and news reaching Switzerland by way of Berlin is vague.

Chaos in Munich.

BERLIN, Saturday, Feb. 22.—(By the Associated Press)—Chaos is prevailing generally in Munich and the free transmission of news to Berlin has been interfered with. The press, therefore, for the past 15 hours, has been wholly dependent upon contradictory *rumors.*

The latest despatches from the Bavarian capital indicate that the central soviet council is in absolute control and has proclaimed a proletariat dictatorship. One of the leaders of the German Bolsheviki movement, named Levine, is said to be a member of the council, which consists of 11 representatives and has among its members delegates from the soldiers, workmen's and peasants' councils.

The general strike will continue until Monday. The government has ordered that three days of mourning be observed in honor of Kurt Eisner.

Great Disturbances.

COPENHAGEN, Feb. 23.—A dispatch to the Berlin Lokal Anzeiger stys that at Mannheim during the demonstrations following the assassination of Kurt Eisner, the Bavarian Premier, there were great disturbances. Numerous buildings among the law courts were broken into. The law courts building was partially destroyed.

Count Was Lynched.

MUNICH, Feb. 23.—(Associated Press)—Count Arcovalley, the young student who shot and killed Premier Eisner, was lynched by an angry crowd.

Previous reports of the assassination of the premier said Count Arcovalley was shot and wounded by a naval guard who accompanied the premier. A report received in London through Berlin said that the count had died of his own wounds.

Archbishop Arrested.

BERLIN, Feb. 23.—(Associated Press)—Archbishop Faulhaber, of the diocese of Wuerzburg, who has been especially obnoxious to radicals, has been arrester by Muich rioters, according to a telephone message from Munich to the Zeitung Ammittag. All Munich newspapers have suspended publication temporarily.

Herr Auer, minister of the interior, and Count Arcovalley, the young student who shot and killed Premier Eisner, were said to be alive at noon yesterday, but both are in a critical condition.

Archbishop Faulhaber ,headed the Catholic bishops who last December protested formerly against separation of the church and state and abolition of religious oversight of the schools.

Previous reports concerning the fate of Count Arcovalley have varied. One stated that he had been lynched by an angry crowd, while another said that he had been shot and wounded by a naval guard *who accompanied the premier* at the time of the assassination.

Saw Death's Hand.

PARIS, Feb. 23.—(By the Associated Press)—Deputy Jean Longuet in his nowspaper Populace, says that after the speech of Kurt Eisner, the late Bavarian premier at the Socialist congress at Berne, he congratulated Eisner on the bravery he had shown.

Eisner replied:

"Yes, returning to Bavaria, I shall be killed."

Regiments to Aid.

BERLIN, Feb. 22.—(Associated Press)—(Saturday)—A special dispatch to the Lokal Anzeiger says the Bavarian regiments outside Munich have offered to come to the aid of the city if the Spartacans attempt to terrorize the capital and also have placed themselves at the disposal of the newly elected diet, which was to have met Friday, but which was dispersed by the soviet government.

Count von Luxburg, brother of the former minister to Argentina, the newspaper says, has been arrested on suspicion of being implicated in the assassination of Kurt Eisner, the late premier.

According to the dispatch, squads of looters invaded the residential districts. The palace of Field Marshal Prince Leopold was entered by looters, who, however, were forestalled by the hurried arrival of the soldiers.

The government of Bavaria, the *dispatch continues, has fixed a penal*ty of death for plunderers.

Says Auer Is Dead.

WEIMAR, Feb. 22—(Saturday)—(By the Associated Press)—The entire Bavarian delegation to the national assembly left for Munich this morning on receiving reports that Herr Auer, minister of the interior, had died from his wounds received in the shooting in the landtag and that a state of chaos existed in Bavaria.

Their absence may postpone still further committee consideration and debate on the constitution, which was scheduled for the next week, as it is considered more important to restore order in Bavaria than debate the proposed constitution on a date arbitrarily set.

Says Only Two Killed.

BASEL, Feb. 23.—A semi-official dispatch from Munich, quoting a foreign ministry note, says the only persons killed in Munich were Premier Kurt Eisner and Deputy Osel. The dispatch says that Minister of the Interior Aeur was seriously wounded, as also were two others. Minister of War Rosshaupter was taken to a place of safety and the other reports of killing were unfounded.

The Frankfort Gazette says that 200 soldiers and civilians Friday evening stormed the hotel Regina, unaware that it had been occupied during the afternoon by communists whose appeal not to shoot had been misunderstood. The dispatch adds that fighting began which resulted in three persons being killed and 18 wounded.

Many Deputies Arrested.

COPENHAGEN, Feb. 23.—A dispatch from Berlin says the first president of the Bavarian soviet republic is Herr Simon, chairman of the workmen's and peasant's council. The dispatch adds that many deputies, including Professor Quidde, of the University of Munich, have been arrested.

The Berlin Freiheit correspondent at Munich says the commission for restoration of unity among all the Social Democrats has decided on the following program:

The soldiers, workmen's and peasant's councils will be recognized by the constitution and *enjoy immunity and* a member from each will be attached to the new cabinet in an advisory capacity.

The cabinet will transact business until the constitution is settled by the popular assembly. The diet will be summoned as quickly as circumstances permit.

The present military force will be disbanded and superceded by a republican defense militia.

Freedom of the seas will be restored in principle, but until normal conditions exist, the press must avoid every utterance calculated to disturb the unity of the people or promote civil war.

Soviets Are Planning.

BERNE, Feb. 23.The constitution of a new soviet republic was profoundly disturbing to the Bavarian government, according to advices received here. The government is trying to minimize the affair in the eyes of the public and has issued the following note:

Phillip Scheidemann's announcement in the Weimar assembly that civil was has broken out in Munich is utterly false. It is true that certain buildings have been occupied provisionally, but that was for the purpose

2 BOYS RETURN TO HOME CITY

Spencer and Wilton Arrive Back from Overseas—Soldiers for Other Points in Party

Six returned soldiers came in on the Crow boat last night from overseas. Two of them are Nelson boys and the remaining four are for outside points.

The Nelson men were Sapper Cyril Spencer and W. J. Wilton. Those for other points were G. Ross of Fruitvale, T. Selwyn of Vancouver, F. Watts of Riondel and C. Oxley of Phoenix.

The party was met at the boat by the president and secretary of the returned soldiers aid committee and three hearty cheers were given by the assembled crowd when the men stepped on the wharf.

Sapper Cyril Spencer is a son of Mrs. R. Spencer. He enlisted in Nelson with the 225th battalion in March, 1916, and went overseas in June of the same year with the British Columbia pioneers. He served with the Canadians through many of the big battles, among them the first battle of the Somme in 1916, Arras and Passchendaele in 1917. During 1918 he served as a despatch rider with the Canadian railway troops.

He reports a good trip back to Canada both on the liner and on land. He says that splendid receptions were given the boys at the stations of Moncton, N.B., Fort William, Winnipeg and Medicine Hat. "In fact it was good all the way through," he said.

C. Oxley left Toronto for this district on Jan. 4, but was delayed at Winnipeg through sickness. He was in the battle of the Somme and in that engagement sustained the loss of a leg. He is on his way to his home in Phoenix.

T. Selwyn is a Vancouver soldier and is in the city on his way to visit relatives at Erie.

CALGARY MEETING WANTS CENSORSHIP REMOVED

(By Daily News Leased Wire.)

CALGARY, Feb. 23.—Mayor Marshall presided at a meeting this afternoon, which filled every seat in the Grand theatre, at which a strong resolution was passed demanding the orders-in-council which put a ban on literature and a censorship on the press be removed. R. J. Deachman, editor of the Commercial Review; Commissioner Sammis; David Rees, vice-president of the trades and labor congress of Canada; and Alex Susmar of the United Mine Workers, now in convention here, were the speakers.

MINEWORKERS WILL RESUME UNION DEBATE

(By Daily News Leased Wire.)

CALGARY, Alta., Feb. 23.—On Monday morning the United Mine Workers will resume a debate on the motion to endorse idustrial unionism and the use of the general strike when necessary. Three international officers of the organization are present urging the delegates to weigh carefully their utterances and intimating that the endorsation of the general strike will endanger their connection with the international body.

HAIG RETURNS TO HIS HEADQUARTERS IN FRANCE

(By Daily News Leased Wire.)

PARIS, Feb. 23.—(Havas Agency.)—Field Marshal Sir Douglas Haig has returned to British headquarters in France. He came to Paris during the discussion concerning the renewal of the armistice, which was signed by the Germans last Sunday.

3½ MILLION STERLING, AUSTRALIAN EXPENDITURE

MELBOURNE, Feb. 23.—(Reuter's.)—The policy of the war service leave gratuity to discharged soldiers will involve an expenditure of three and a half million sterling.

Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still continue to toss night after night on a sleepless bed, and it is impossible for them to get a full night's refreshing sleep.

Some constitutional disturbance worry or disease has so debilitated and irritated the nervous system that it cannot be quietened except by the pernicious use of opiates or narcotics. Or again, you have heart palpitation and sensation of sinking, a feeling you are going to die, or perhaps you wake up in your sleep feeling as though you were about to choke or smother, and the only way you can get relief is to sit up in bed.

To all who suffer in this way, Milburns Heart and Nerve Pills offer an inestimable boon. They bring back the much needed night's rest by improving the tone of the nerves, strengthen the heart, enriching the blood and making the whole organization act in harmony—then you sleep as peaceful as a child.

Mrs. James Latimer, 39 Leinster St., St. John, N.B., writes: "At night I could not sleep. I had to sit up in bed, my heart beat so fast and when I walked upstairs I would get all out of breath. A friend recommended Milburn's Heart and Nerve Pills and after using two boxes, I can sleep all night and am not out of breath after walking."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

STARKEY GIVES RESUME OF WORK FOR THE YEAR

Delegates to Associated Boards Conference Return to City—Report of President.

Local delegates to the associated boards conference at Revelstoke returned to the city yesterday.

Resolutions as presented to the convention by the district boards were as follows:

It was resolved to ask the provincial government to take immediate steps to make feasible the reclamation of the Kootenay flats. It was pointed out by Guy Constable, representative of the Creston board of trade that the land, being the most fertile in the province, would be ideal for the settlement of returned soldiers.

J. R. Hunter, representing Nelson board of trade, presented a resolution asking for free entry on certain imported machinery which is necessary for the equipment of mining, concentrating, smelting, and metallurgical work.

Proposed by the Nelson board that the prime minister of Canada place before the British government at the peace conference the advisability of the British dominions and colonies be given a preference in the purchase of supplies for the reconstruction of devastated Europe and for making good stocks of raw and manufacturer material which have been depleted as a result of the war.

Proposed by the Nelson board—To petition the dominion government to erect a plant in the Kootenays for experimenting upon, testing and concentrating ore with the object of finding the most economical processes for treating complex ores.

Proposed by the Nelson Board—That the daylight saving act be kept in force.

Proposed by the Nelson board to the department of public works of the provincial government—That the government purchase and operate motor trucks for the more economical hauling of gravel for road repairs.

Proposed by the Nelson board—That the provincial government change the rule of the road from the left to the right to conform with the rule in other provinces of the Dominion and in the United States.

Proposed by the Revelstoke board—That the appointment of a senator to fill the vacancy in the senate of Canada should be given to a resident of Kootenay and that the appointment should be made forthwith.

Proposed by the Rossland board—That the Rossland board of trade protest against the proposed introduction of the Public Utilities act by the provincial government; pointing out that it might hamper industry, retard investment of capital in British Columbia ventures and add further to the heavy burden now carried by the tax payer.

Proposed by the Revelstoke board—That the vital necessity for the construction of certain connecting links in the road system of the interior be strongly urged upon the provincial and Dominion government.

Proposed by the Revelstoke board—That the Dominion of Canada be urged to continue the present war tax on lumber, either as a war tax or incorporate same with the regular tariff as a duty.

Proposed by the Revelstoke board—That the Dominian government develop the navigable waters of the Columbia river in British Columbia and Kootenay district, to the extent and place that would make it as useful and practical a factor in the country's present and future trade wealth.

Proposed by the Creston board—That all lake and river services of the Canadian Pacific railway in the province should be declared a work for the general advantage of Canada and thereby within the jurisdiction of the railway commission.

The associated boards of trade passed the following resolution with reference to the alien enemies in the province: The convention of the associated boards of trade of eastern British Columbia places itself on record as of the belief that it is in their best interests of the province and its citizens that all aliens who have shown themselves by their actions enemies now in British Columbia should be deported as soon as possible and that Canada's doors should be locked forthwith against further undesirable immigration.

Other resolutions passed by the associated boards were:

(1) Urging that all classes of machinery for the expansion and development of present industries, and for the establishment of new industries, and which are not obtainable from Canadian manufacturers, should be admitted free of customs duty.

(2) That the Dominion government be requested to make a reconnaissance of the main passes through the mountains of British Columbia with the object of ascertaining the best practicable route for the transcontinental highway.

(3) That the associated boards of trade place on record an expression of their deepest regret at the loss which Canada has sustained through the death of the Right Hon. Sir Wilfrid Laurier, and that a message of condolence be forwarded to Lady Laurier.

(4) Whereas it is reported that the Doukhobor community refuses to obey the laws of the land, especially in regard to the registration of births, marriages and death and education.

And whereas the Dominion government has provided machinery for dealing with objectionable enemy aliens,

Therefore, be it resolved, in the opinion of this association that if it be established that the Doukhobors are violating the laws referred to that they be dealt with by the Dominion government as objectionable enemy aliens and undesirable citizens, and that their lands be purchased by the Dominion government for the purpose of the soldier land settlement scheme.

(5) That it be a condition in advancing all moneys voted by the Dominion government in connection with the proposed housing scheme that same be used for the purchase of material manufactured in Canada, and that a similar condition be attached to the expenditure of all other monies by the Dominion government.

(6) Whereas at various times cabinet ministers of the Dominion government visit the province of British Columbia, and

Whereas it has been noticed that such cabinet ministers when visiting this province make a prolonged stay at coast cities but pass over the interior with its vast potentialities, and

Whereas this portion of the province has given more in men and money in proportion to population than any other portion of the province, and whereas recently no less than five members of the Dominion cabinet when in the province for over two weeks at one time without giving the slightest recognition of these facts,

Therefore be it resolved that such a condition is deeply regretted and it is urged that all matters and especially those concerning the interior of the province, the people thereof shall be recognized and consulted as to their immediate interests whenever a minister of the crown comes to this province.

(7) Votes of thanks were passed to the following: The Revelstoke board of trade and citizens; the press, including the Revelstoke Review, The Trail News and The Daily News; to F. A. Starkey, president of the associated boards of Eastern British Columbia; to Jesse Kemp, secretary treasurer; to the Canadian Pacific railway, including W. O. Miller, J. S. Carter and Capt. D. Brown.

With reference to naming Trail as the next meeting place it was pointed out that if the Golden representative had spoken earlier, before the vote was taken, the convention would have gone there in 1920 as East Kootenay had a claim in that respect.

F. A. Starkey's address took up a larger part of the entire morning session of the convention. With reference to district mines, he said, in part:

"A considerable quantity of gold is used for industrial purposes, such as the manufacture of jewelry and in den-

SUPREME COUNCIL REVIEWS METHODS OF COMMISSION

(By Daily News Leased Wire.)

PARIS, Feb. 23.—The supreme council at its session yesterday, reviewed the methods of work employed by the commissions which have been entrusted with investigating the different territorial, economic, financial and judicial problems in order to decide on the proper steps which should be taken to accelerate as much as possible the work of the peace conference.

CONFERENCE ON PRINKIPOO ISLANDS NOT ABANDONED

(By Daily News Leased Wire.)

PARIS, Feb. 23.—(Associated Press)—While the idea has seemed to prevail in some quarters during the last few days that the proposed conference with the Russian faction leaders on Prinkipoo Island has been definitely abandoned, it is understood today that nothing has been abandoned except the first invitation issued by the council.

Another invitation for a conference is said to be under consideration and will be issued after assurances are obtained that it will be accepted.

QUEEN OF RUMANIA FLEES FROM BUCHAREST

(By Daily News Leased Wire.)

GENEVA, Feb. 23—(Associated Press)—The queen of Rumania and her daughter, the Princess Elizabeth, have fled from Bucharest to England, fearing a revolution, according to a dispatch received here from Vienna.

BUSY TIMES.

(By Daily News Leased Wire.)

WASHINGTON, Feb. 23.—The final week of the sixty-fifth congress will be ushered in tomorrow with the busiest seven days in all congressional history in prospect.

JAIL [illegible] I. W. W. IN NEW YORK CITY

(By Daily News Leased Wire.)

NEW YORK, Feb. 23.—Fourteen members of the Spanish branch of the I. W. W. were arrested by secret service men and members of the police bomb squad in two raids late Sunday night. While they are charged formally with having seditious literature in their possession, government agents claimed to have evidence that they were hatching a terrorist plot.

Frank Franc'sco and Edward J. Dowd of the secret service, as well as New York detectives, who assisted them in the raids, declared they had obtained evidence which would be used in an attempt to prove the prisoners had planned to assassinate President Wilson in Boston tomorrow, but this assertion was discredited by Captain Peter Rubino, of the secret service, who directed the raids.

TENANT FARMERS MAY STRIKE IN BUENOS AYRES

BUENOR AYRES, Feb. 23.—Argentina is threatened with a strike or tenant farmers throughout the republic, according to the newspapers. The farmers declare that they will not plant until rents are lowered, because the price paid for their crops is lower than the rent of the land.

Maise is selling at the graneries for 81 cents gold per 100 kilos (220 pounds) As it is unprofitable to reap at this price the grain is left to rot in the fields.

The farmers argue that if the government is able to loan $200,000,000 to the allies it can loan them a few million dollars to live through the present crisis.

Grand Prairie now claims a population of 956.

For The Eye Of The Tea Or Coffee Drinker

Those who are wise these days are seeing not only better health, but *Economy* in a

Change *from* Tea *or* Coffee *to* POSTUM

Neither the war nor pre-war conditions have as yet increased the price of POSTUM CEREAL or INSTANT POSTUM.

POSTUM—both forms—has always been economical. Besides, it contains no "caffeine" or any other harmful substance.

POSTUM is good for the health—the delight of young and old—an economical, nourishing, delicious beverage. *Every day*—

"There's a Reason" for Postum.

NE ORE FOUND IN LATEST HORN SILVER MINE STRIKE

VICTORIA—The Colonist says: inging some fine samples of the ld-silver ore found in the well-own Horn silver mine of Similka-een Valley, Mr. E. W. Condit, mana-r, is in the city on business.

The Horn Silver is the largest gold-ver mine in British Columbia, and ork has been going on there for three ars. While development has been rried out at the same time the mine s paid well, producing 45 cars of ore, hich was shipped to the smelter at and Forks.

The ore obtained at the mine, sam-es of which Mr. Condit has with him, ntains many argentite, otherwise own as silver glace, which is 86 per nt silver. The gold values in the ore nount to one ounce of gold to every 0 ounces of silver. The ore extracted date is valued at $69,000.

The depth of 300 feet has been reach-l in the development work, and the lues have increased with the depth. atest work has uncovered a four-foot ein which contains exceptionally rich re. The vein increases in size as de-lopment progresses.

Government Mining Engineer Free-an, who examined the workings some ime ago, stated that it is one of the ost promising properties in the dis-rict.

Mr. Condit yesterday stated that a oncentration plant is to be installed t the mine. In this way the precious metals will be extracted from the ore before being shipped. This will mean that one car will suffice where twenty were needed before.

Practically no snow has fallen at Similkameen this winter, Mr. Condit stated. New settlers are constantly coming into the valley to engage in growing fruit and vegetables for the company there, which is about to in-crease its plant so that it will produce 50,000 tins of tomatoes a day.

WHAT ROYAL FAMILIES DO WITH THEIR MONEY

The Kaiser's civil list was a large one, about £700,000 a year, but since he possessed nearly fifty different residences and kept a host of retainers, he did not save much.

He had however, considerable private means. His grandfather, the first Emperor, was a saving man, and left him a large fortune; while later Baroness Cohn-Oppenheim bequeathed to him half a million pounds. He invested a part of this money in Venezuela in South America and part in Russian bonds. The latter, he is, however, believed to have sold before the Great War.

The late Austrian Emperor, Francis Joseph, was paid by the state twenty-two million crowns yearly, or rather over £800,000. He too, spent his whole revenue. His great family of nephews, nieces, grand-nephews and grand-nieces were a constant drain upon him, and in 1904 he was actually selling the produce of the royal vineyards to help make ends meet.

The late Czar was by far the most wealthy of sovereigns, and the only one who kept the crown property in his own hands. His income approached eighty millions of pounds annually, and his landed property covered a million square miles. But it must be remembered that he paid many expenses which, in other countries are paid by the state. Hospitals, asylums, schools, palaces even his own regiments of guards, were paid for out of his private purse.

The Czar was a most generous man. On the occasion of his last visit to England he left £20,000 to be distributed in gratuities.

Ferdinand of Bulgaria was as foxy in his financial as in his other dealings. His civil list was a small one—£50 000 a year—but he was allowed another £30 000 for the upkeep of palaces. He let the palaces slide, and invested most of this money abroad, mostly, it is believed in England and America. Of course, it is not in his own name.

Germans hail the retreating army as the vanquished victors and may yet be in a position to welcome home their wandering Kaiser as the "Headless Hun."

Copper nominal. Electrolytic, 15¼ to 16½. Iron nominally unchanged.

At London, standard spot copper, £74 10s. Spelter, sp £45.

DEPARTMENT DEALS WITH SWEET CLOVER

OTTAWA, Feb. 23.—During the last few years so much has been written in the agricultural press eulogizing sweetclover that, in many quarters, it has gained a reputation for superiority which, to say the least, is misleadingly exaggerated. A few unbiased remarks on its real value, especially in comparison with alfalfa, may therefore not be out of place.

The reputation for superiority which sweet clover has gained is to a large degree due to the fact that it is able to do surprisingly well in naturally poor soil or worn-out land deficient in plant food, and in soil lacking moisture to such an extent that neither red clover nor alfalfa can be grown to satisfaction.

No one who has seen sweet clover flourish in places where, to use a common expression, "nothing else will grow," can deny that sweet clover might be employed as a remunerative crop on the type of land just referred to. However, it should be clearly understood that, though realizing the value of sweet clover as a revenue-producer on poor soil, it by no means follows that sweet clover is, or even equal to, other crops of its type, especially alfalfa, on superior to, good land. This should be clearly emphasized because many uncritical sweet cuover enthusiasts have made the error of concluding, from the behaviour of sweet clover on very poor land, that it is also of outstanding superiority on good land suitable for growing such crops as alfalfa. The sooner such a conception is corrected, the better.

If alfalfa can be grown with reasonable success, it surely will prove superior to sweet clover in practically all respects. Alfalfa, when once established, will last for a great number of years and will continue, without reseeding, to yield crops of high quality year after year, whereas sweet clover, being a biennial plant, will have to be re-seeded ever second year unless it is given a chance to mature seeds and thus automatically re-seed itself.

Alfalfa may be grown for pasture, hay, silage and soiling, whereas sweet clover is not likely to make as good hay as alfalfa; neither can it be cured into good hay as easily as the latter. As a forage crop, its chief asset lies in its ability to furnish nutritious pasture, but even as a pasture plant it is hardly equal to alfalfa where the latter can be grown successfully. As, furthermore, sweet clover has some distinctly objectionable characteristics which are not found in alfalfa, for instance its peculiar flavor and its tendency to become a weed if not properly looked after, there is no valid reason why it should be grown in preference to alfafa, if the latter can be grown with reasonable success. However, on land too poor to grow alfalfa, sweet clover may be used either as a forage crop or as a green manure crop for the purpose of improving the fertility of the soil.

KOOTENAY GOLD TO REOPEN SOON

Company Puts Up Thousand Dollars Toward Paying Creditors—To Make Monthly Payments.

The Kootenay Gold Exploration company, which operated the Granite-Poorman mine, is expected shortly to resume operations.

The company, which is composed of Spokane, Butte and New York mining men, has deposited $1,000 in a Nelson bank toward paying off local creditors and has offered to deposit $1000 monthly until they are paid off.

J. J. Malone of Nelson is liquidator for the old Kootenay Gold company, which bonded the mine to the Kootenay Gold Exploration company.

BOURSE TRADING STEADY

PARIS, Feb. 23.—Trading on the Bourse Saturday was steady. Three per cent renters were quoted at 64 francs 75 centimes. Exchange on London, 25 francs 97¾ centimes.

PTE. JOSH MILLER SAYS ENGLAND CAPTURED HEART

TORONTO—Josh Miller, a thoroughbred darky, standing over six feet without his boots, spent much of his convalescence in London town, saw something of the sights and absolutely "fell" for the people. One day Josh was sauntering down Pall Mall when a rolling palace drew up beside him, and a man as aristocratic looking as his motor-car accosted Josh. The darky saluted with all the regimental smartness he had learned down at Valcartier camp, and the next minute Pte. Josh Miller, of No. 2 Construction Battalion, 17 months in France, found himself rolling along the busy Strand with no less a personage than Lord Roberts—not the famous "Bobs," but a surviving bearer of the title.

Josh was motored down to the Roberts' mansion, where he met Lady Roberts, the charming daughter of his lordship, and was "treated like a prince," to use his own expression.

And to commemorate the occasion, Lady Roberts gave Josh a quaint little *souvenir named "Fumsup,"* which the soldier carried about carefully rolled in a card of grey darning wool.

"Fumsup" is a spruce young person about one inch in height and made of real silver. Not unlike her Kewpie friends, but on a much higher plane. "Fumsup" can indeed swing her arms over her head and down again, while all the time her "Fums-is-up." Her head is of darkest brown, with eyes of real diamonds, and needless to say "Fumsup" means more to Josh Miller than all the army pay in the C. E. F.

"No, I wouldn't stay in this country one minute after living in England," says Josh, "although I'm a Canadian born and bred over there they know how to treat you and make you feel at home.

"Yes, I'm going straight back to my friends in England when I'm well," he promised.

Pte. Miller is a patient at Spadina hospital, suffering from asthma and rheumatism. He is 57 years of age, and says that his parents were born under the Stars and Stripes.

VICTORIA SOLDIER DIES AT BRAMSHOTT CAMP

VICTORIA,—News was received here yesterday by relatives of the death at Bramshott Camp, England, of Sapper Samuel Lorimer, who was awaiting an early return home after nearly three years' service overseas. The brief cable did not mention the cause of death.

WHOLE TRUTH.

An Irish country gentleman well known for his geniality, happened to visit a court of justice at the moment when the judge was asked to pronounce sentence on a peasant youth for his part in some serious riots.

The judge seemed really anxious to discover extenuating circumstances and asked the boy whether there was any one present who could give him a good character. The prisoner replied mournfully that he saw no one in court whom he knew, whereupon the visitor, perceiving how matters stood, called from his seat in the gallery, "Well, now, yourself's a queer boy that doesn't know your own friends when you see them."

Quick to take the hint, the boy promptly responded, "Indede, then, it's proud and happy I am to see your honor here this day."

The gentleman came forward as a witness and testified as follows: "I can tell you, my lord, that from the very first time that I ever saw the boy to this minute I never knew anything of him that was not very good."

As he had never before set eyes on the defendant, his evidence was certainly the truth and nothing but the truth as far as it went, and the boy was discharged after a caution.

AMERICA'S GREATEST SUCCESS WILL BE INTRODUCED HERE

Facts About Tanlac

Ten million bottles sold in three years.

At present rate of sales grand total will reach 12,000,000 bottles by end of present year.

Large and modern laboratories at Dayton, Ohio, occupy 60,000 square feet of floor space.

Capacity of plant recently doubled to take care of rapidly increasing business. Present capacity 30,000 bottles daily.

Branch plant recently established in Canada, with a capacity of 8000 bottles daily.

Demand for preparation has broken all world's records for same length of line, and is constantly increasing.

Publicly indorsed through the daily press by men of prominence throughout the United States and Canada, including supreme court judges, mayors of leading cities, lawyers, doctors, bankers, state and government officials, prominent educators and well known ministers of the gospel.

Now sold from coast to coast and from Gulf to Great Lakes, throughout the United States and Canada.

Tanlac is purely vegetable and is composed of the most beneficial roots and herbs known to science. Formula complies with all national and state pure food health laws of United States and Canada.

Absolute merit responsible for unprecedented success.

Tanlac, the Celebrated Medicine Which Has Been Accomplishing Remarkable Results in the United States and Canada, Will Now Be Sold in Nelson and Throughout the Entire West--Remarkable Sales Record of Ten Million Bottles Phenomenal and Unprecedented.

Tanlac, the celebrated medicine which has been accomplishing such remarkable results throughout the United States and Canada, and which has been having a phenomenal sale in leading cities of the East and South, will now be sold in Nelson, the exclusive agency having been awarded to Canada Drug & Book Store. The amazing success achieved by this medicine in only three years' time is not only phenomenal, but unprecedented.

The discovery of Tanlac, the beginning of its manufacture, the establishment of the large and modern laboratories at Dayton, Ohio, occupying more than 60,000 feet of floor space, reads more like fiction than facts from latter-day commercial history.

TEN MILLION BOTTLES SOLD IN THREE YEARS

Although placed on the market but little more than three years ago, over ten million bottles have been sold, and its sales record probably has never been equaled in the history of the drug trade in America.

From coast to coast and from the Gulf to the Great Lakes, Tanlac is known and honored. Millions have taken it and have pronounced it the greatest medicine of all time. No matter where you go throughout the United States, whether East, West, North or South, Tanlac is a household word and is now unquestionably the most widely talked-of medicine in the world today.

Briefly, this is the record of the truly marvelous medicine which will now be placed within the reach of every one. In only a few weeks' time it will be placed on sale in practically every large city, town, village and hamlet throughout the entire West.

To use the words of L. T. Cooper, noted health expert and millionaire manufacturer of Tanlac, there is only one explanation of the nation-wide popularity and record-breaking demand, and that is very simple. The inherent purity and wholesomeness of the medicine has confirmed it in the minds of the people and made it a household word. That, and that alone, is the secret of the marvelous expansion of the Tanlac business.

Mr. Cooper's unique theories of health and right living have attracted attention all over the country and have been the cause of considerable scientific discussion. It is conceded by all well-informed persons that he is a man of extraordinary ability and wonderful insight into the fundamental principles of physical hygiene. This new preparation, which promises to mark a new era in medical science, was perfected only after years of study and experimenting in the Cooper laboratories.

BIG DRUG FIRMS TELL ABOUT SALES

Enthusiastic Communications Received From Dealers All Over America.

The following are extracts from letters and telegrams from prominent dealers all over the United States and Canada, telling in plain, cold figures of the remarkable growth and development of Tanlac throughout America.

Memphis, Tenn., June 5, 1918.

We have handled the Tanlac account more than a year and our sales have amounted to 270,900 bottles. April was our twelfth month, and we sold five carloads during that month alone.

HESSIG-ELLIS DRUG CO.

Nashville, Tenn., June 5, 1918.

Our books show that we have bought and disposed of over fifteen carloads of Tanlac (180,000 bottles) in this immediate territory, setting a record as the largest sale by us in given time of any proprietary medicine in the history of our business.

These sales were made with no effort on our part and without a single complaint from any of our patrons or sub-agencies.

SPURLOCK-NEAL CO.,
C. S. MARTIN.
Vice-President and General Manager.

St. Joseph, Mo., June 20, 1918.

Dear Sir: We note the very high esteem with which you are held by jobbers and the drug trade generally throughout the United States and Canada and feel certain that the retail druggists of Missouri, Illinois and Kansas will welcome your taking over his territory, which was formerly controlled by Messrs. Bailey-Gaines.

Tanlas with us has been a phenomenal seller, in fact, the very best proprietary we have ever handled. It gives general satisfaction and is wonderful repeated. It gives us pleasure to renew contract relations, and again taken the agency.

We have sold as high as 350 to 400 bottles Tanlac a week.

W. S. KINNISON.

Salt Lake City, Utah, June 5, 1918.

We are now distributing our third car of Tanlac, consisting of 1070 dozen. The first car was received December 20th, and since that time we have distributed to the agents about 30,000 bottles. The sale is certainly unusual and it is the best we have ever had on any proprietary medicine. All the dealers seem to be well satisfied and are taking agencies very rapidly.

SMITH-FAUS DRUG CO.

Denver, Colo., June 5, 1918.

I find, upon reference to our records, that since we became distributors for Tanlac in this territory last April, we have sold to the agents 75,648 bottles of Tanlac, and this in a section long on territory and short on population. I consider that no dealer will make a mistake in taking on the Tanlac agency in his territory.

Yours very sincerely,
W. A. HOOVER & CO.,
Per W. A. Hoover.

Dallas, Tex., June 5, 1918.

We have handled Tanlac since January 1, 1917, and have sold to date 121,908 bottles. Our dealings with Mr. Willis highly satisfactory.

GREINER-KELLY DRUG CO.

Atlanta, Ga., June 5, 1918.

On one Saturday alone we sold through our eleven Atlanta stores, approximately 700 bottles of Tanlac at retail, direct to customers.

Have had the exclusive agency since September, 1915, and have sold over 75,000 bottles.

JACOBS PHARMACY CO.

Toronto, Ont., Canada, June 5, 1918.

We have sold 64,485 bottles of Tanlac since accepting the agency, June 11 of last year.

This shows an average of eight thousand bottles per month.

LYMAN BROTHERS.

MANY PROMINENT MEN COME OUT FOR TANLAC

Leading Citizens in Every Walk of Life, Including Well Known State and County Officials Endorse It.

It is seldom, indeed, that men of prominence, especially men holding high public office, willingly express their indebtedness publicly to a proprietary medicine. Many prominent men, however, including supreme court judges, mayors of our leading cities, prominent state and county officials, bankers, lawyers, doctors, editors, leading educators, government officials and even ministers of the gospel have deemed it their duty to come forward and tell the people what Tanlac has done for them.

These well known men of affairs have recognized in this medicine a new *discovery and a scientific triumph* in the medical world. It is a well-known fact that these splendid endorsements have been given Tanlac time and time again, and they will continue to be given just as often as new tests of its powers are made; and it also explains why numbers of the big drug firms of the country are ordering it exclusively in carload lots.

Appearing below are a few indorsements from the large number that are continually being given to the public.

HIGH SHERIFFS OF SOUTH ENDORSE IT

Officials From Four Southern States Tell of Benefits From Tanlac.

Four of the leading sheriffs of the South, in widely separated states, have given their unqualified endorsement to Tanlac.

Hon. C. W. Mangum, who was for three terms sheriff of Fulton county, Ga, residing in Atlanta, said: "Tanlac *has certainly helped me. My condition* is now that of a well man. Tanlac put my system in shape and all my disagreeable symptoms of stomach trouble have disappeared."

Hon. Chas. I. Lewis, ex-sheriff of Crittenden county, residing at Marion, Ark., said: "Tanlac has entirely relieved me of biliousness and malaria and has almost made a new woman of my wife, who has suffered for ten years with stomach trouble."

Hon. A. R. Anderson, who was re-elected seven times to the office of sheriff of Harris county, Texas, residing in Houston, said: "Money couldn't buy the good Tanlac has done for me. I suffered from indigestion of the worst sort and had severe neuralgic pains. I have taken three bottles of Tanlac, my trouble is gone and I am like a different man."

Hon. S. A. Kelly, sheriff of Ector county, Texas, residing at Odessa, Texas, says: "I needed a general all-round building up for over seven years and Tanlac has done that very thing for me."

PASTOR OF WESLEY MEMORIAL CHURCH TALKS

Rev. W. C. Norton, former pastor of the Wesley Memorial Church, 528 Estell street, Jacksonville, now residing at Pery, Florida, which large charge he has held for many years, is not only a leader in his church, but is exceedingly popular and widely recognized as a leading citizen and a man of thought and action. Rev. Norton said:

"I suffered from chronic indigestion for eight or ten years. . . . . The benefit I have derived from this medicine is nothing sort of wonderful, for I really feel as well now as I ever felt in my life. In short, Tanlac has simply restored my health, and I feel it my duty to recommend it."

Among other well known ministers who endorsed Tanlac are: Rev. W. T. Roby, pastor of the West Lonsdale Methodist church, 800 Leroy street, Knoxville, Tenn.; Rev. John M. Simms, Baptist minister, and Rev. A. L. Tall, Methodist, both of Atlanta; Rev. J. A. Wells, pastor of Oak Ridge Methodist church, Oak Ridge, Miss.

EX-MAYOR OF BIRMINGHAM RECOMMENDS TANLAC

Hon. Frank V. Evans Says He Weighs More Than Ever in Life Since Taking It.

One of the latest additions to the large and rapidly growing list of prominent men who have publicly endorsed Tanlac for the good it has done them is the name of Hon. Frank V. Evans, former mayor of Birmingham. Mr. Evans is one of the best known men in public life in Alabama today, being at one time editor of one of the South's greatest newspapers, the Birmingham Age-Herald. He was also examiner of public accounts in Alabama. In telling of the benefits he has derived from Tanlac, Mr. Evans said:

"For years I suffered with gastritis and indigestion in the worst form. I was habitually constipated and had pains in my shoulders and headache continually. My appetite left me almost entirely and everything I would eat hurt me. Finally I got to having awful attacks of acute indigestion, palpitation of the heart and smothering spells. For a long time I would have one or more of these spells every night and I would wake out of my restless sleep gasping for breath.

"I bought a bottle of Tanlac, and to my surprise and gratification I began to feel relief after the first few doses. I kept taking the medicine and now I weigh more than I ever did in my life, and my recovery is simply the talk of Birmingham."

BIG BANKERS ENTHUSED

Officers of Two Leading Institutions Praise Tanlac Highly.

Among the countless thousands of prominent people all over America who have taken Tanlac and praised it for the benefits they derived from it, none are more enthusiastic than the two well known southern bankers whose statements follow:

E. J. Henry, president of the Hawkinsville Bank and Trust Co., Hawkinsville, Ga., says: "Last spring I was all wrong some way or other and couldn't get right. I took a bottle of Tanlac and began to improve. Two more bottles put me in good shape and I felt perfectly well. A few weeks ago I took the grippe and was getting down and out again. I bought another bottle of Tanlac and I am well again. I unhesitatingly recommend Tanlac to anyone who is sick and worn out."

W. C. McElveen, cashier Bank of Hornbeck, Hornbeck, Louisiana, says: "I have taken five (5) bottles of Tanlac and have gained fifteen pounds in three weeks. I think it is a great medicine."

TANLAC TO BE SOLD OVER ENTIRE WEST

In only a few weeks' time Tanlac will be placed on sale in practically every large city, town, village and hamlet in the state.

A number of agencies already have been established in a very limited time, but it is desired by the manufacturers that the distribution be made more complete and far-reaching.

Druggists and dealers who are interested should write or telegraph G. F. Willis, Fourth National Bank Bldg., Atlanta, Ga.

(Advt.)

THE DAILY NEWS

Published every morning except Sunday by The News Publishing Company, Limited, Nelson, B.C., Canada.

Business letters should be addressed and checks and money orders made payable to The News Publishing Company, Limited, and in no case to individual members of the staff.

Advertising rate cards and sworn detailed statement of circulation mailed on request or may be seen at the office of any advertising agency recognized by the Canadian Press Association.

Subscription Rates: By mail 50 cents per month; $2.50 for six months; $5 per year. Delivered 60c per month; $3 for six months; $6 per year, payable in advance.

The News reserves the right to refuse any copy submitted for publication.

MONDAY, FEBRUARY 24, 1919.

AWAKE TO THE NEEDS OF THE TIMES.

Decision by the Associated Boards of Trade of Eastern British Columbia to appoint a commissioner who will give his time to the work of the boards is the first move in the important program of the boards to throw even more energy than in the past into the wide field of endeavor in which they operate.

There are great opportunities for the associated boards to assist in the development and in maintaining the prosperity of the district they represent, and Commissioner Starkey, who has been president of the associated board for many years, possesses a broad knowledge of the needs of the district and its industries which will prove invaluable in enabling the associated boards under their plan of reorganization to fulfill the purposes into which they are throwing their energies.

The associated boards have accomplished much in the past, but the opportunities for beneficial work on behalf of the district are growing by leaps and bounds. It is gratifying to note that the boards are awake to the possibilities of progress which face the interior of the province during the reconstruction period which is now commencing.

THE REAL LEAGUE OF NATIONS.

Prudence, and the lessons of all history, impel the nations, in such a situation as the present, to go forward by steps on the road toward better things, and not to o'erleap themselves in impossible attempts at conquering space and slow time. The Cecil plan, thinks the Boston Transcript, insures the League against wreck on the rocks of interference with the legitimate right of the component states. It excludes Germany, as Germany ought to be excluded, until she has made herself worthy of admission—until she has been purged of her crime of aggression. It provides the machinery of arbitration for all justiciable questions, leaving each state the liberty of deciding the question of justiciability, but providing, and in fact enforcing, a council or conference of the League as the proper organ for the consideration of non justiciable questions. The League is obligated to apply coercion by the whole League in a case of non-compliance with a unanimous judgment of the conference or council—that is, to assist the complying state if the other offers violence. It is also required to act against any power which insists upon going to war without allowing the League time to discuss the case. It is needless to say that the very first plank in this platform is a means of defending the integrity and inviolability of member states such as Belgium.

FEDERAL AND PROVINCIAL HOUSING SCHEMES

Offer of the federal government to lend money for erecting houses for working men in Canada opens up an entirely new field for government activity. Notwithstanding that the offers are made primarily as a result of the conditions created by the war, and are therefore in a sense post-war measures, they are not without significance as a revelation of a new attitude of our governing authorities towards social questions. If the movement now inaugurated proves a success, it is difficult to see where it will end and what importance it will have in improving the housing conditions of the country.

There has been little criticism of the action of the governments and a great deal of favorable comment. This is also significant in view of the fact that the entrance of public enterprise into a field heretofore left entirely to private enterprise introduces the possibility of far-reaching changes in economic and social conditions, which might be regarded with apprehension by those who believe in the virtues of free competition.

The object of the governments is to promote the erection of small dwellings to enable workingmen and returned soldiers to acquire their own homes at actual cost.

The Dominion government has offerred to lend $25,000,000 at 5 per cent to the provinces. The administration of the fund will be in the hands of the provincial governments, most of which, it is hoped, will add a contribution of their own to the fund.

The $25,000,000 will be divided among the provinces pro rata to the population. This means that the approximate ratio of distribution apparently will be as follows:

Prince Edward Island	$ 326,000
Nova Scotia	1,716,000
New Brunswick	1,225,000
Quebec	6,980,000
Ontario	8,781,000
Manitoba	1,586,000
Saskatchewan	1,716,000
Alberta	1,304,000
British Columbia	1,366,000

By lending two million dollars, Ontario is providing nearly one-fourth additional to the federal amount, making the total about $10,781,000. If each province could contribute on the basis of $1 per head of population, as against about $3.48 being provided by the federal government, the total sum available for the Dominion would be over $32,000,000. Allowing for an average loan of $3200 per house, the number of houses which could be erected would be 10,000, occupied by 50,000 inhabitants. This will not solve the problem of shortage of houses but will be a substantial contribution to its solution.

During the war gold mining had its troubles, but already the gold properties are being opened up again.

The war is over, but the Hun is still a Hun.

The mining industry has done well during the war. It is going to make an even better showing during 1919 and 1920.

COMMUNICATION

MAKING OF EGG CRATES.

To the Editor Daily News:

Sir:—Through your paper I would like to call the attention of the public that eggs from the prairie and United States are being sold in the city.

The law requires that all cases containing imported and local eggs should be marked in large letters, Alberta Fresh, U. S. Fresh, or B. C. Fresh. Nearly 200 dozen local fresh eggs were sent to the market on Saturday to be sold and it was found impossible to sell all of them because of the large quantity of imported eggs for sale locally.

This is not fair to the local chicken-raiser, who pays a much higher price for feed, labour, etc.

R. G. JOY.

Nelson, B. C., Feb. 23, 1919.

WHAT THE PRESS IS SAYING

Haughty Now?

They say some of the German leaders are already becoming arrogant and haughty, but what will it be when their beer gets back to strength.—Ottawa Journal.

Mileage Question.

The war is over and life seems to have settled down again to a struggle for the purpose of getting more mileage out of motor tires, brooms and safety razor blades.—Kingston Whig.

TWENTY YEARS AGO TODAY

(From The Daily Miner)

Mr. W. A. Macdonald, Q. C., leaves this morning for Spokane.

• • •

Theodore Madson, proprietor of the Nelson Tent and Awning factory, the largest of its kind in the interior of British Columbia, is in Victoria on business.

• • •

One of the finest mountain sheep heads ever seen in Nelson is to be raffled at The Office tonight or tomorrow night.

• • •

J. Roderick Robertson, resident manager of the London and British Columbia Goldfields, limited, leaves this morning for London.

• • •

Postmaster Gilker yesterday received 200 letter boxes from the east, which will be placed in the postoffice in a few weeks.

TEN YEARS AGO TODAY

(From The Daily News.)

Harry Wright left for Spokane yesterday morning, en route to Victoria, where he will spend a week on business, afterwards proceeding with Mrs. Wright to California, where they will spend a month or so.

• • •

W. W. Bradley is acting government gold commissioner in the absence of Harry Wright.

• • •

Arrangements are being made for the organization of a chess tournament in Nelson.

• • •

Barney Crilley, foreman of the Nugget mine at Sheep Creek, brought in a gold brick last night weighing 280 ounces, and of an approximate value of $4,340.

• • •

J. L. Warner leaves this morning for New York to confer with his eastern associates.

STARKEY GIVES RESUME OF MINES BY DISTRICTS

(Continued from Page Two.)

tistry. The quantity of new gold used is difficult to determine, as a large quantity of old gold is constantly being reused. It lies however somewhere between 10 per cent. and 30 per cent. of the annual output of new gold. In ordinary times there is a free market in this "commodity" or "industrial" gold. During the war, in the United States the sale of gold except by permission of the government was prohibited, and there was a strong outcry against it. In England, "commodity" gold, when the war ended was selling at 115 per oz., instead of the standard 85. There was a great deal of illicit melting up of 85 sovereigns by the public and selling of the gold obtained from them at the higher price of 115, before the authorities took measures to prevent it. The South African mines could not sell their output in the open market, because the government and Bank of England had stolen a march on them. At the beginning of the war the producers were got together and largely by appealing to their patriotism they consented to turn over their whole outnut at the standard rate to the Bank of England. They did not realize at that time that costs would eventually be so high and mining so unprofitable and that in some cases it would be conducted at an actual loss.

"What I propose is that the government should fix the price of this 'industrial' gold at a very much higher figure, and that the surplus over the mint price shuold be divided among the gold producers, who are making an insufficient profit. The fixing of the price by the government would be regulated by the law of supply and demand. If there were a larger demand the price would be raised and if there were too large a supply the price would be lowered, as is the case with any other metallic commodity.

"By a device of this nature the right person would be made to pay and not the general public. There has been a great deal of profiteering during the war; wages have been excessively high and naturally there has been an excessive demand for jewelry. Jewelry is a luxury and the first thing to be taxed should be luxuries. The quantity used for dentistry is considerable and although dentistry can hardly be considered to be within the category of luxuries, still the cost of the gold used in each individual case is so very small in proportion to what the dentist exacts for his labor that the extra cost should be inappreciable.

"Had a regulation of this nature been in force during the war, I have little doubt that our Rossland mines would not have been out of action for so long.

"A larger production of gold in Canada is of paramount importance. Our war debts to other nations are of great magnitude. The payment of the interest alone will be a drag on us and will demand that all our energies be devoted to the task of exporting a larger amount of goods than ever before in the endeavor to overtake it. Let us then impress on our people and legislators the desirability of encouraging and fostering the gold industry, in order that we may in the soonest possible time wipe away the incubus of our indebtedness in gold.

Mining

The total amount of dividends paid by the metalliferous mines to date is $33,179,754. This includes the 1919 dividends, all of which came from the four following companies: Granby company (including the plants and mines at Anyox and Grand Forks), $1,499,848; Consolidated Mining and Smelting company, $1,047,744; Nickel Plate mine, Hedley, $144,000; Howe Sound, Surf inlet, Vancouver, $99,207. The total amount of dividends are credited to the following companies: Granby company, Granby and Grand Forks, $10,198,976; Consolidated Mining and Smelting company, Trail, $4,995,495; Standard Silver Lead company, Silverton, $2,700,000; Nickel Plate, Hedley, $2,448,000; Le Roi, Rossland, $1,547,577; Canada Copper company, Greenwood, $615,399; Rambler-Cariboo, Rambler, $542,500; Mother Lodge, Sheep Creek $137,500; Howe Sound, Surf inlet, Vancouver, $99,207; Utica Mines, Limited, Kaslo, $64,000; properties absorbed by and now included in other companies $9,831,000.

"The amount of dividends shown is not by any means the total of profit made by the metalliferous mines, either in the grand total, or during 1918, which will readily be seen from the tonnage of shipments and the estimated income of the several properties hereinafter mentioned. The Granby Mines, Phoenix, shipped to their smelter at Grand Forks 445,500 tons of ore, this being less than 1917. The explanation given as to the cause is the epidemic of influenza, which affected the employees at the mine as well as at the smelter.

"Nevertheless it is pleasant to know that while the mother Granby had a reduced tonnage at Grand Forks, the baby at Anyox had an increase of 3,000,000 pounds of ocpper over 1917. The total amount of copper smelted from ores produced at the Hidden Creek mines, was 30,394,109 pounds, with an additional value of $107,000 in gold and $282,000 in silver.

"Maple Leaf mine, Grand Forks.—Considerable development was carried on during the year. This property was the centre of interest in the matter of platinum. An examination was made by a representative of the munitions board, but up to date we are not aware of any report as to the result of their findings.

"Rock Candy group, north fork of Kettle.—This property has been bonded by the Consolidated company with a view to developing a valuable body of fluorspar. Already a further addition to the branch line, which runs up the north fork, has been made and the company has done diamond drilling and other development work; 100 tons has been shipped.

"Molly Gibson, Paulson.—This property has been worked by the Molly Gibson company for some months. The company sold considerable stock with a view to carrying out further development to tap the ore shoot.

"Berlin, owned by the Inland Mining company, is situated near Paulson. This property has been a shipper and it is now leased to Messrs. Griswold and Billingsley, who have lately shipped and it is now leased to Messrs. Griswold and Billingsley, who have lately shipped two cars of ore to Trail. It runs well in silver and gold.

"Waterloo mine, situated on Lightning creek, Edgewood.—A good sleigh road was constructed during the summer which allowed several small shipments to be made by using pack horses until the wagon road was reached. Development will be continued through the winter.

"I foresee the possibility of some movement in this section in the spring, for several claims have been staked this last season with high grade silver ore in many of the properties. It is further said by those who have done any development that the veins are fairly large notwithstanding their high grade. All that may be against the quick development of this section is the transportation facilities, which should be overcome if the properties warrant the construction of a wagon road to connect with the railway or steamer.

"The British Columbia mine was held under lease, resulting in the shipping of 2250 tons of copper ore.

"The Mastoden group, Cascade.—This is known as the chromite property, which caused much interest to the prospectors during the year. Angus Cameron and associates were credited with having found several other deposits at Rock creek, Rossland and Greenwood, but I have only heard of the Mastoden shipping and which has to its credit for 1918 some 800 tons, which carried 30 to 45 per cent chromic oxide.

"The Trail smelter shipped from the Emma mine, Eholt, some 20,000 tons of low grade copper ore. The Canada Copper corporation, Greenwood, ceased operations at the end of November. During the operating period they shipped from the Mother Lode mine 168,382 tons, and from the Sunset, 2697 tons. Both of these are now closed. The Big Copper mine, shipped 350 tons of copper ore to the Grand Forks smelter. Surprise No. 3, under lease and bond to J .E. Thompson, carried on development, resulting in a shipment of 90 tons of ore, carrying good values in copper and silver.

"Sally mine shipped to the Trail smelter 71 tons of ore with values in silver. Bell mine, under bond to Messrs. McIntosh and Oliver, has had considerable work done on it during 1918, which enabled the bondees to ship 320 tons of high grade silver ore to Trail.

"The following properties made small shipments: Kokoma, 21 tons of silver ore; Bounty claim, 39 tons of silver-lead to Trail; Rambler B., five tons of silver-lead ore; Standard fraction, 58 tons of silver-lead to Trail; Black Diamond, two tons to Trail. Sunnyside shipped ore, besides driving a tunnel some 700 feet. The ore carries good values in silver and deal. Stemwinder shipped 41 tons of ore to the Greenwood smelter. Sudbury claim, Deadwood camp, shipped a trial five tons of copper ore to Greenwood smelter. Aftermath, Deadwood camp, shipped to Greenwood smelter, 85 tons of ore carrying gold and copper. Sappho, Greenwood, shipped 20 tons of ore carrying copper-silver.

"The Providence mines, under lease to J. A. Morrison, Greenwood, have received considerable attention during the year through sinking of a shaft and drifting on the lead, resulting in finding some high grade ore bodies, of which 100 tons were shipped. The Lake view claims shipped five tons of silver-lead ore to Trail. The Nickel Plate Mines, Hedley, a gold property which, in spite of the excessive costs of labor and supplies, has operated throughout 1918, mining some 71,000 tons of ore, which produced about 35,000 ounces of gold.

East Kootenay

"The Couverapee mine, Golden mining district, shipped 979 tons silver-lead ore to the Trail smelter. Paradise mines, Windermere district, have been operated steadily during the year, shipping 2500 tons to Trail. Silver Belt, Spring creek basin, below the Paradise mine, made a 50-ton shipment to Trail. Sitting Bull, Boulder Creek, considerable development work was carried on, resulting in sacking, ready for shipment, some 300 sacks of high grade silver-lead ore.

"The Trojan group, Boulder Creek.—During the year much development work has been done on the surface and the continuation of the old tunnel. They expect to ship during the winter some 300 tons of ore, which carries values in copper, gold and silver.

"The Lead Queen mine, on Francis creek, has had a small crew working resulting in the sacking of 80 sacks of ore ready for shipment. The ore carries 30 to 40 ounces in silver and 65 per cent lead.

"The Sullivan mine, Kimberley, the largest lead and zinc mine on the American continent and possibly in the world, owned by the Consolidated company, shows a tonnage production during 1918 of 30,554 tons of lead ore, 97,946 tons of zinc ore and 4582 tons of iron pyrites. The completion of the adit tunnel, which is now some 7600 feet in, will facilitate the working of the mine to its possible capacity. In addition to this, ore bins and crushing plant required for the preliminary treatment before shipping to the smelter, to undergo treatment by the process now being installed at Trail quoting the assistant general manager, when completed, will reduce the cost of producing zinc very much further and will also eanble the lead and silver in the Sullivan ore to be reclaimed, making it possible to produce lead and zinc at a profit on any market that has existed in recent year, provided that the cost of labor and supplies falls with the price of these metals.

"North Star mine, which is under lease, shipped 2500 tons of Trail. St. Eugene, Moyie, one of the great producers in former years, shipped some 1200 tons during 1918. A prospectus says, "We've found a second Klondyke, on claims on Wild Horse creek, East Kootenay. "We see no good reason why these placer claims should not come into the producing class once again. Those responsible for the development will have the advantage of using up-to-date machinery manufactured for placering. Wild Horse Creek has a past record of production which, if properly estimated, would reach the grand total of $40,000,000. We wish the Wild Horse Creek promoters success.

Lardeau.

"Triune-Ferguson, Trout Lake and Lardeau Division, made a shipment of two cars of high grade ore to Trail. The list of shipments to Trail are as follows: Towser, 85 tons; True Fissure, 46 tons; Ethel, 13 tons; Nettie L, 31 tons; Foggy Day, 9 tons; Fidelity, 6 tons.

"The Multiplex group, Kitsap, Mammoth and Scout, made no shipment, yet there was considerable development work carried on. These properties are situated around Camborne, Lardeau.

Kaslo and Ainsworth Division.

"The Blue Bell mine, Ainsworth division. On account of the lower workings being flooded, and the delay in the delivery of a larger pump, the development was carried on near the surface. 5 000 tons were shipped to Trail, the ore being oxidised silver-lead.

"Whitewater, which is controlled by J. L. Retallio company, shipped 150 tons to Trail.

"Bell operated by the Jackson Basin Zinc company, made shipments to Trail of 225 tons.

"This famous zinc property made some 1,843 ton shipment to Trail. This was during the earlier part of the year. Since then very little has been done on the property, but we are given to understand that Mr. A. G. Larson on his last trip to the property entered into arrangement to have the ore milled. We may expect, therefore, to see the Lucky Jim on the shipping list again.

"Lavina Butte, Duncan River District, shipped some 35 tons.

"St. Patrick's group, Argenta. Report states that they have two cars of ore ready for shipment.

"Steady development was done on the following properties, in the Duncan River District: International group, Bannockburn group, Superior group, Wagner and Jewel, properties which are owned by G. T. Porter and associates of Spokane.

"The Whitewater and Comstock groups, situated on Cascade Creek, had much surface work, besides a tunnel 120 feet in length driven, with a view of striking the vein at depth.

Slocan Mining Division.

"The Queen Bess, Idaho-Alama, Sovereign, Wonderful, Van Dio, Wakefield and Hewitt properties are under operation of Clarence Cunningham, whose progressive policy has added so much to the brinnig about of the prosperous state of the Slocan district. Mr. Cunningham will have, I am sure, the well wishes of all who are interested in a greater development of our mining industry.

"It has been published that Mr. Cunningham's income from the Queen Bess alone reached the sum of $750,000. This amount will help materially in the cost of construction of his 200-ton capacity will which is now nearing completion at Three Forks. The cost of the mill will exceed $200,000, and it will be used for treating the ores from Mr. Cunningham's properties, with the exception of the Hewitt and the Van Roi, both of which are well equipped with splendid mills. May the 1919 income of Clarence Cunningham reach the million mark.

"The Roseberry-Surprise Mining company, Sandon. It is not known what the actual income of the company's mines is, but it is stated to be near $500,000, which would be reasonable to suppose when we consider the joint production of the Surprise and the Bosun mines, amounted to 16,500 tons, and which until recently required the capacity of the Roseberry and Surprise mills. All of the product has been shipped to the United States for reduction, with the exception of 1,142 ons of Surprise ore.

"The same company has acquired the Ivanhoe, Canadian and Adams group of claims, which are now under extensive development.

"Slocum Star (Silversmith Mines, Ltd.), Sandon, are now under the management of R. H. Stewart. A large shoot of ore was encountered in July and since then a portion of the debenture bonds have been paid off and it is understood the treasury still carries a gold balance on hand. The continuation of the newly developed ore shoot should make it possible for liquidation of all indebtedness in a short space of time. The ore runs high in silver, so it is easy to foresee that it is very probable that the old Slocan Star, with her 120-oz. silver ore, will be talking dividends. 2,940 tons of ore were shipped.

"Noble Five, Sandon. Much work has been carried on since the ore was found at depth. Most of the present work has been done with a view of connecting the lower workings and the adit tunnel with the upper workings. 1919 should see the property almost amongst the producing mines.

Carnation group, Sandon. The steady development of the property which has been done during the year has shown up some very promising ore shoots.

"The old Payne, Sandon, shipped 46 tons of ore to Trail. This shipment was made by the leasers.

"There has been a great deal of development work carried on during the year. Amongst the properties that have received attention are the Silver Bow group, Silver Reef and Majestic, all of which are situated on Payne Mountain.

"Mountain Con, Sandon, will be associated with the name of William Bennett, who met his death through a slide when at the property. Mr. Bennett was an old timer, and will leave a blank amongst those grand old timers of Slocan. The owners of this property found it only necessary to make a shipment once every two years on account of the richness of the ore, the value of a car running into the two score figure.

"Rambler-Cariboo has been steadily

REGISTRATION OF W-S. S.

(War-Savings Stamps)

BUY W-S-S WAR-SAVINGS STAMPS

The Dominion of Canada offers you every safeguard for your investment in War-Savings Stamps.

Affix your W-S.S. (costing $4.01 each this month) to the Certificate provided, and ask the Postmaster at any Money-Order Post Office to register the stamp or stamps for you.

The stamps are then absolutely useless to anyone but yourself. If your registered W-S.S. are lost by theft, fire, or other cause, the interest continues to accumulate and you can obtain your money at the office where the stamps were registered.

Remember, that at the rate of interest allowed on W-S.S. four dollars would grow to $361.39 in 100 years.

EVERY time you are tempted to spend money needlessly, buy Thrift Stamps instead, at 25 cents each. Sixteen of these on a Thrift Card represent $4.00 in the purchase of a W-S.S.

SPEEDING UP FORMULATION PEACE TREATY

(Continued from Page One)

tries are not fed by the allied world, there will be famine.

For prudential military reasons the great powers will not permit any large importations of food into Germany until she has accepted the conditions as to naval and military strength which are to be set out in the forthcoming document.

Germany Must Accept.

Notwithstanding reports to the contrary, Germany is apparently unable to withstand either military or economic pressure and will have no option of accepting the demands that will be made.

Meanwhile committees are hard at work and the council of 10 is hearing claims for the adjustment of boundaries. Within the next fortnight preliminary consideration will be given to all these issues, except those which are of the deepest and most serious character. These include the disposition of Syria, the Adriatic east coast, Constantinople and the German territory west of the Rhine. These will not be seriously dealt with until the full council reassembles. Lloyd Harris, the head of the Canadian trade mission, has been in Paris for the past week, partly on business in connection with the Lyons fair. Canada has been in some danger of losing the chance of exhibiting her wares at the fair through transportation delays. Congestion of French railways is so serious that it was feared that there was little chance of getting the exhibits from Havre to Lyons in time. In the emergency the Canadian organization was called upon and the staff proceeded to Havre, where they expedited the trans-shipping and are now accompanying the car containing the exhibits to Lyons, where they will assist in putting them in place under the direction of Mr. Bruce of the Canadian Pacific railway, who has undertaken the work of installing the exhibits. Many of the exhibits will be shown by the Canadian Exporters' association. Mr. Thynne, the manager of the association, is now here on his way to Lyons.

The Canadian military band will be in attendance at the fair. Sir George Foster will attend during the last week.

Commissioners Busy.

Dr. W. J. Robertson, Norman Lambert, secretary of the Canadian council of agriculture, and Mr. Arkell, Dominion livestock commissioner, left Amiens this morning in charge of a Canadian officer to go over the devastated countryside in France and Belgium for the purpose of acquainting themselves with the probable damage in these district in milk cows and livestock generally as a part of the work of reconstruction. After the trip Dr. Robertson will return to Paris, where he has been looking after Canadian agricultural interests by keeping in touch with Sir John Beale and Herbert Hoover, who are the directing minds of the new supreme economic council.

Hon. C. J. Doherty goes to London early next week. He will officially represent Canada at the memorial service to Sir Wilfrid Laurier, to be held on Wednesday at Westminster cathedral and on the following day at the wedding of Princess Patricia.

IGHT OPERATOR--A L IN

inol Made Him Feel Better, Look Better, Sleep Better.

Springfield, Mass.—"I am a night erator—was all run-down, couldn't eep, had no ambition—I had tried ood and nerve tonics without help and thought I would try Vinol and must say it has built me up so I feel tter, look better and sleep better." Charles T. Harder.

The reason Vinol was so successful Mr. Harder's case, is because it ntains beef and cod liver peptones, on and manganese peptonates and ycerophosphates, the very elements eded to build up a weakened, run-own system, make rich, red blood d create strength.

EAT FIGS LIKE THIS IF BLUE, NERVOUS, SLUGGISH

You're bound to feel sluggish when ur liver or bowels are sluggish. You ve a tired, depressed, worn-out feel-g, dull headache, lack ambition and e inclined to be irritable or grouchy. u can easily overcome that condition eating plenty of figs. "Nature's cative." Better still, eat "figlits," d you will have the beneficial elements in concentrated and palatable m, at small expense. A quarter's rth of figlits will work wonders for u. They will quickly set your wels, liver and stomach in good rking order, you'll lose your head-he and the fagged-out feeling, your es will become more lustrous, your mplexion clearer. You will feel like ew being, full of "pep" and energy, d life will seem more worth the ing. Figlits, of course, are perfectly rmless. Get some from your drug-t today, follow the simple directions he result will astonish and delight u.

POLISH FORCES ARE STEADILY ADVANCING

(By Daily News Leased Wire.)

WARSAW, Feb. 23.---(Associated Press)—The Polish forces are steadily advancing along the railways with Grodno, Slonim, Pinsk and Lutsk as their temporary objectives. Their aim is to establish order and prepare the way for civil government with the finally occupying Poland's historic frontier. Thus far they have met with no determined resistance from the Bolsheviki.

J. K. BATCHELDER VICTIM OF FLU

Superintendent of Refinery at Trail Dies After Three Weeks' Illness.

(Special to the Daily News.)

TRAIL, B. C., Feb. 23.—John K. Batchelder, superintendent of the refinery at the Trail smelter, died on Saturday afternoon at 4 o'clock, of influenza, after about three weeks' illness. He was a graduate in electric chemistry of Boston Institute of Technology, and came to Trail in 1913 to take a position as assayer in the smelter assay office. In 1917 he was appointed superintendent of the refinery. He took a prominent part in the recent Victory Loan campaign, and was a member of the curling club.

He was a son of George Batchelder of Winton, N. H., and was 29 years of age. Besides his father, four brothers and three sisters survive him.

Definite arrangements for the burial had not been announced tonight, but the body will probably be sen east for burial. If it is, services will be held in Trail tomorrow under the auspices of the Masons.

DR. WARNOCK IS DEPUTY MINISTER OF AGRICULTURE

(By Daily News Leased Wire.)

VICTORIA, B. C., Feb. 23.—Dr. David Warnock, O.B.E., M.P., V.S., has been appointed deputy minister of agriculture, recently rendered vacant by the retirement of W. E. Scott.

During the war Dr. Warnock was appointed to the British remount commission of Montreal, and was attached to a large remount depot at Lachine, Que., until June, 1917. Dr. Warnock is a native of Scotland and came to Canada in 1899. He was local manager of the High River horse ranch in Alberta until 1902 and then managed the Walrond ranch, later becoming associated with Dr. J. G. Rutherford, C.M.G., under whom he acted as veterinary inspector under the Dominion health of animals branch.

DYNASTY TRIES TO DESTROY REPUBLIC

(Continued from Page One)

of preventing devastations until the government could take fresh steps.

A general strike for three days was declared but the city is calm and work will be resumed on Monday. The people's republican guard is protecting all big banks and hotels.

The executive committee of the soldiers' and workmen's council met the cabinet again this morning. Negotiations are progressing for the formation of a new popular government.

The Berlin press, according to the advices, refuses to admit the existence of a counter-revolutionary plot. The newspapers seem to have received an order, the advices say, to represent Count Arcovalley, the slayer of Kurt Eisner, as an irresponsible person.

Committee Meets.

PARIS, Feb. 23.—The Frankfort Zeitung says the Munich committee of eleven met the remainder of the old ministry Saturday morning and informed them that the new government should be on the Bolsheviki model, and that the committee would assume supreme power. Only three of the ministers were retained. Herr Frauenderff Jaffi and Unterleithner.

Nothing, says the newspaper, has been revealed since Friday evening as to where Minister of War Rosshaupter and Minister Hoffmann have been imprisoned.

The newspaper adds that manifestations similar to those in Munich are reported from Graz and Bierruth.

Soviet Troops Fight.

GENEVA, Feb. 23.—(Associated Press)—As the soldiers and sailors have seized the telegraph lines radiating from Munich it is considered here that news from the Bavarian capital must be accepted with caution. Street fighting is reported to be continuing, specially around the hotel region where three persons were killed and 18 wounded Saturday. Several officers who fired on the crowds are reported to be killed.

The general strike, according to advices, has met with little success. The soldiers and workmen are in possession of all the munition factories.

A dispatch from Munich says that Count Arcovalley, assassin of Kurt Eisner was a disolute person and that it is believed the crime was committed under the influence of the pan-Germans.

Siveit Troops Fight.

BERLIN, Feb. 23.—(Associated Press)—The Augsburg soveit issued a statement today regarding the riots of Friday, showing that the radical demonstration resulting from the assassination of Kurt Eisner, the Bavarian premier, rapidly degenerated into an ogry of destruction and loot of such ramifications that the soviet troops were compelled to make use of their weapons.

The statement says the mob raided the artillery depot and armed itself with machine guns, rifles, revolvers and munitions, but that the disorder ultimately was suppressed late at night. Large numbers of plunderers who were armed were arrested and are being executed as fast as sentences are passed on them by the revolutionary drumhead courtmartial, which is now sitting permanently, according to the statement.

Action is begun to recover money spent by the Burford township council on a deputation of farmers to Ottawa to protest against conscription.

Kingston requires to erect two new public schools, Inspector J. Russell Stuart tells the board of education.

STARKEY GIVES RESUME OF MINES

(Continued from Page Four.)

operated, shipping some 550 tons of concentrates to Trail. The company has decided to pay a 1 per cent. dividend on 1,750,000 shares, which will reach $17,500. After the amount of the dividend has been paid, there will be a surplus of nearly $50,000 in the treasury.

"Noonday. Mr. Bruce White was the guiding haid in the development of the property. Only a small shipment was made in 1918. Bruce White will be missed; his familiar figure could almost be met with in any portion of the Kootenays. Whenever a new discovery turned up, you would always be safe to speculate on meeting Bruce, and when you had met him you were always glad to do so again The Kootenay has lost much through Bruce White's death.

"Jo-Jo, Three Forks, shipped 10 tons of high grade silver ore to Trail.

"The Standard Silver Lead mine, Silverton, which has paid near to $3,000,000 in dividends, took a breathing spell as regards paying further dividends in 1918, although 45,000 tons of ores were milled during this period. The company's report shows a surplus of something over $300,000 in the treasury. While the company has only a few men working, they have leased a portion of their former workings to former employees. The mill is running full time for the purpose of carrying out an agreement entered into between the company and the owners of the Echo mine, to treat the Echo ores.

"Galena Farm, Silverton. After the closing down of this property by the owners, a lease was given to foreman J. Casey and his associate, J. E. Armstrong, Seattle. Shortly after the leasers took possession, a new shoot of ore was found, which is reported by Mr. Beaudette, E. M., to contain sufficient tonnage to keep the mill running over a long period, without taking into consideration the result from the new development being carried on. The new vein is about 13 1-2 feet wide, with 2 1-2 feet of clean ore, running 119 oz. silver and 62 per cent lead. Concentrates 95 oz., silver 61 per cent. lead, 46 per cent zinc. The leasers have shipped several cars to Trail smelter. P. W. Clark, who had charge before the closing, shipped 11,215 tons of ore to Trail.

"Echo Mines, Silverton, lying above the Standard and on the same lead, makes promise of another standard. A tramway has been constructed to connect with the Standard tram, with the object of having the Echo ore treated at the Standard mill, and paying so much per ton for the treatment. While the Echo only has to its credit some 90 tons shipped during 1918, it is fully realized that ere the close of 1919 the property will be making records.

"Molly Hughes, New Denver, owned by H. Cleaver, shipped 19 tons of ore to Trail.

"Lucky Thought, New Denver, shipped 129 tons of ore to Trail. For most part of the year the property was closed.

The Hewitt and Van Roi, Silverton, Clarence Cunningham operating, shipped 8,000 tons to Trail.

"The following mines shipped tonnage during 1918: Canadian group, Sandon, 11 tons; Freddie Lee, Sandon, 40 tons; Gem, Sandon, 70 tons; Idaho-Alama, Three Forks, 127 tons; Ivanhoe, Sandon, 53 tons; Richmond-Eureka, Sandon, 66 tons; Sovereign, Sandon, 84 tons; Wonderful, Sandon, 32 tons; Best, Best, Rambler, 37 tons; Wonderful No. 1, Sandon, owned by J. M. Harris and Fred Kellie, shipper some 230 tons, mostly through letsers, who are working the property on a development basis, under the direction of the owners. It is said this property has a very promising future among the large and rich mines in Slocan.

"Reco Mine, Sandon, owned by Messers. Harris and associates, made a 19 ton shipment.

"Meteor, Slocan City. W. A. Buchanan, who is in charge, states they are shipping ore to Trail, which runs very high in silver. There are about 400 tons ready of this class of ore, carrying large values in silver.

"Arlington, Slocan City, is under lease and bond to M. S. Davys. It was at first thought Mr. Davys intended to erect a mill to treat the ore on the dump, but several cars have already been shipped, which possibly has been sorted. Much of the large tonnage is supposed to carry good values in silver.

"Enterprise, 10-Mile Creek, has been bonded by Spokane capitalists and development done with a view of prospecting a parallel vein to that of the one worked previously.

"Ottawa, Slocan City, made a small shipment to Trail.

"Black Prince, Slocan City, shipped 30 tons to Trail.

"Republic, Slocan City, shipped 15 tons to Trail.

Nelson Mining Division.

"The Emerald, Sheep Creek, the largest lead producer in the district, shipped during 1918, 3,176 tons, and but for the inability of the Trail smelter to take the mine's output for a period near to the end of the year, the Emerald would have shown a much greater tonnage. Ore Hill, Sheep Creek, operated under lease by W. DeWitt, shipped 37 tons to Trail.

"Reno, Fawn Creek, has been developed by the owners, Messrs. Poole Kilpatrick and O'Donnell, the result of which warrants the belief that the Reno group will ere long be numbered among the rich gold producing mines.

"Queen Mine, Sheep Creek. This property has produced sufficient value in gold to greatly overrun the million dollar mark. W. A. McCune, Salt Lake City, has the Queen, together with the Vancouver and the Kootenay Belle groups, under bond. Mr. McCune has commenced driving a crosscut tunnel, with a view of tapping all of the several veins of the above properties.

"With the advent of Mr. McCune, we may reasonably look forward to a distinct revival in Sheep Creek, through the development of the many valuable gold properties, which have been lying dormant during the last two years of the war period, owing to the high cost of labor and supplies.

"The Nugget and Mother Lode. These two properties have been consolidatel and the stock of the newly organized company is now quoted on the exchange at 25c. These properties should be able to supply sufficient ore to keep the mill, which was erected at a cost of $200,000, to treat the ore of the Mother Lode, when under the control of the late John Martin McMartin. It is rightly understood that the mill in question proved to be one of the best ever constructed for the treatment of gold ores.

"Spokane Group, Bayonne District. Owned and operated by Laib Brothers, who have steadily for years been carrying on a progressive policy of development, resulting in showing up ore bodies in each of the tunnels. The No. 3 tunnel gives a depth of 350 feet odd. A small shipment of 24 tons was made to the Trail smelter in 1918, and this had to be packed out from the mine to Salmo, over a very ordinary trail, at a cost of $35 per ton. The ore carrier hight values in gold, silver and lead, at the present time there are some 60 tons of ore ready for shipment, but the owners have decided to construct a mill for temporary use, until such time as the government makes an attempt to give some facilites for transportation of ore and its product, in the way of a wagon road. Such a consummation would be the medium of opening up one of the most extensive gold-bearing sections of the country.

(To Be Continued Tomorrow)

BALLANTYNE BETTER.

(By Daily News Leased Wire.)

MONTREAL, Feb. 23.—Hon. C. C. Ballantyne, minister of marine and fisheries and naval service, who has for several weeks been a patient at the Royal Victoria hospital, was considered well enough to leave the institution on Saturday.

Children Love Cascarets---10c
Candy cathartic is harmless to tender stomach, liver and bowels
Your child is bilious, constipated and sick. Its little tongue is coated, breath is bad and stomach sour. Get a 10-cent box of Cascarets and straighten the youngster right up. Children love this harmless candy cathartic and it cleanses the little liver and thirty feet of bowels without griping. Cascarets contain no calomel and can be depended upon to move the sour bile and poison right out of the bowels. Best family cathartic because it never cramps or sickens like other things.

Hookings, 25 cents; Jack Thomas, 25 cents; Arthur Pascoe, 25 cents; Tom McDonald, Jr., 25 cents; Earl Kitchener Hilton, 25 cents; Molly Thomas, 25 cents; Margery Thomas, 25 cents.

ALMOST BLIND FROM HEADACHES

It is hard to struggle along with a head that aches and pains all the time. Headache seems habitual with many people; indeed, some are seldom, if ever, free from it, suffering continually, and wondering why they can get no relief.

In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels.

The reason Burdock Blood Bitters makes permanent cures of all cases of headache, is because it starts the organs of elimination acting freely, and the poisons and impurities are carried off from the system, purified blood circulates in the brain cells and instead of pains and aches there is revived mentality and bodily vigor.

Mrs. Geo Monck, Arden, Ont., writes: 'I have been troubled a great deal with sick headaches, and at times would almost go blind, and have to go to bed. I tried different kinds of medicine without any benefit until I was advised to use Burdock Blood Bitters. After taking it I have not been troubled since."

B. B. B. is a purely vegetable remedy and has been manufactured for the last forty years by the T. Milburn Co., Limited, Toronto, Ont.

General News of the City

JUNIOR SOCIETY ENDS ITS WORK

Social at St. Saviours Parish Hall Marks Close of Girl Red Cross Work in City

After nearly four years of work spent both in sewing and in raising money, the Junior Red Cross auxiliary formally disbanded at a social held on Saturday evening in St. Saviours parish hall.

Between 50 and 60 members were present and after the reports for the year were read and the routine business concluded, the evening was concluded with games, music and refreshments.

In her reports, Miss E. S. V. Blackie, acting president, stated that the work during the year had been encouraging. There had been an increase in membership of 35 and there had also had been a considerable increase in the amount of work turned out compared with the previous year. During the nine working months of the year, 4570 articles were made. During the other three months the room had been closed on account of the Spanish influenza epidemic.

Miss Blackie spoke in appreciation of the work done at home by many of the members. On thousand three hundred and thirty-eight articles had been made in the homes, consisting chiefly of bed socks, day socks, towels, pillow slips, trench caps, stretcher caps, comfort bags and other small articles necessary for soldiers in hospitals.

For the last six months the members instead of paying the usual fee, had been contributing to the prisoners of war fund. A resolution was passed at the meeting on Saturday night, deciding that the organization would turn over the money it had on hand for the prisoners of war to the Balfour sanitarium for its sports club.

BADEN-POWELL TO VISIT CANADA NEXT MAY

(By Daily News Leased Wire.)

OTTAWA, Feb. 23.—Word has been received that Lieut.-Gen. Sir Robert Baden-Powell, chief scout and founder of the Boy Scouts association, will visit Canada during the month of May next, accompanied by Lady Baden-Powell, who is the chief guide of the girls branch of the Girl Guides association. This announcement was contained in a letter received by His Excellency the Duke of Devonshire, chief scout of the Boy Scouts association in Canada.

What Russia and Germany would like is a league of rations.—Brockville Recorder and Times.

M'KENZIE WILL LECTURE TONIGHT

Famous War Correspondent to Speak at Luncheon at Hume—Lecture in Evening—Matinee for Children

Incidents grave and gay which go to make up the story of soldier life on the battlefield is what F. A. McKenzie has to tell of his experiences with the Canadian corps during the European war. It was the heroism of the ranks and the strategic planning of those in command that won a great struggle in all of which ran a touch of human interest more fascinatingly vivid than the most graphic writer could describe. At the Hume

F. A. McKENZIE,
The War Correspondent.

hotel yesterday afternoon, Mr. McKenzie, the war correspondent, was writing, as he has been writing for years, telling of what he has seen during what, he says, has been the "uncivilized" war.

He was in Europe when war was declared and since September, 1914, has spent practically all of his time with fighting forces in Belgium, France and Flanders. Sometimes in a shell hole in No Man's Land, sometimes in a captured pill box, sometimes watching from a central point two or three miles behind the lines, Mr. McKenzie helped to keep the world informed of how the tide of battle was going. Working under the worst of conditions the news of the fighting was hurried from the front lines to the world's newspapers in remarkably short time. Reports reached Nelson on The Daily News leased wire many times within a 10-hour period and the difference in time made that appear still more rapid.

In his books and in his newspaper correspondence, Mr. McKenzie holds high the work of the Canadians with whom he was with for many months.

"I am very much interested to learn that Gen. Victor Odlum was a former editor of The Daily New he said in his hotel room yesterday. Gen. Odlum was an officer who planned; the routine details he left to the officers under him. On one occasion a heavy barrage had been sent over. Suddenly it had stopped. The Germans expecting an immediate attack rushed out of their dugouts and then as suddenly the barrage was put on again with the result that the enemy was mowed down with great loss. This was an idea formulated by the Kootenay general.

With reference to the Americans, Mr. McKenzie said that he had once referred to them as "just like Canadians." The way that they had poured into France had been marvelous to the Germans. And now that the fighting had ceased the Germans were directing their attention to the work of getting the sympathy of the American people, intending to play that end to the limit, hoping in that way to edge back into their former standing.

The films which illustrate the lecture to be given by Mr. McKenzie at the Starland theatre tonight come from the British government offices and were taken on the battlefields. The war correspondent was given his choice of the pictures which were to be released at that time.

"This is almost a holiday to me," Mr. McKenzie said, "and Nelson is to me a sort of a pausing place in my itinerary. The city is wonderfully beautiful" He will probably be in Nelson until Wednesday, when he will leave for Revelstoke, Kamloops, Penticton and Vernon. After speaking at those places he will return to the prairie, later going back to the coast and going on south from there.

SOCIAL AND PERSONAL.

Among the guests at the Strathcona last night was J. Dean of Cranbrook.

J. W. Jowett, who was in the city to attend the session of the board of railway commissioners as representative of the farmers in his district, has returned to Edgewood, B.C.

T. W. Bingay of the Trail smelter was a guest at the Hume last night on his way home from the Associated Boards of Trade convention at Revelstoke.

DISTRICT WAR VETERANS ARRIVE IN NELSON

G. Ross of Fruitvale, Fred Watts of Riondel, A. Gilpin of Cranbrook and H. McInnis of Erickson, all returned soldiers arrived on the Crow boat last night from overseas and registered at the Queens.

WAR VETERANS ARE GUESTS AT PARISH HALL

The war veterans were the guests of the Churchmens club of St. Saviours church at the parish hall last evening. The question of employment was discussed. A committee has been formed by the Churchmens club to aid in getting employment for returned soldiers.

She Took Her Father's Advice

And Dodd's Kidney Pills Soon Helped Her Backache

How Mrs. Beaudoin Found Complete and Permanent Relief from Her Kidney Trouble.

FISHERTON, Man., Jan. 27.—(Special.)—"I have taken your Dodd's Kidney Pills for kidney trouble, and they have completely cured me."

These are the words of Mrs. Arthur Beaudoin, a well-known resident of this place, and it is no exaggeration to say she voices the sentiments of a large number of the people of Manitoba. They have had kidney trouble; they have used Dodd's Kidney Pills; they have found them good.

"Yes," she says, in speaking of her case, "I suffered from kidney disease for six months before I was married in October, 1917, and two weeks after I was married was laid up. The doctor gave me no relief. My father advised me to take Dodd's Kidney Pills. I commenced to take them at once, and a few days after I felt better. I continue to take them until I was perfectly cured. I will always keep them in the house, as they are my best friends."

Dodd's Kidney Pills have been used to treat rheumatism, sciatica, diabetes, dropsy, sore back, gravel and other similar ills. That they continue to give satisfaction is evidenced by their ever-growing popularity.

If you haven't used Dodd's Kidney Pills, ask your neighbors about them.

CANADIENS WIN FIRST OF FINAL

Ottawas Go Down to Defeat in First Game of Play-Off for National Championship.

(By Daily News Leased Wire.)

MONTREAL, Feb. 23.—Canadians defeated Ottawas in the first game of the play-off for the National hockey league championship at Jubilee rink Saturday night when they outscored the visitors 8 to 4, in a fast and interesting exhibition. Both teams played fast, and it was by outguessing and outplaying their opponents that Canadians won.

The match was refereed by Jack Marshall and Harry Hyland, president Frank Calder sticking to his choice. Ottawas had expressed themselves as dissatisfied with Marshall and it was understood on Saturday morning that they would refuse to start if another man was not selected to act with Hyland. Before the game, however, things were adjusted, and the president's position was upheld and Marshall officiated.

Line-Up.

Canadians	Position.	Ottawas
Vezina	Goal	Benedict
Hall	Defense	S. Cleghorn
Corbeau	Defense	Cameron
Lelonde	Centre	Darragh
Pitre	Wing	Broadbent
Berlanquette	Wing	Denenny

Substitutes — Canadiens, Malone, Cleghorn, McDonald and Couture.

Ottawas—Gerrard and Boucher.

Referees—Jack Marshall and Harry Hyland.

SUMMARY.

First Period—Canadiens, Pitre, 2:25; Ottawas, Denenny, 1:20; Ottawas, Cameron, 1:30.

Second Period—Canadiens, O. Cleghorn, 5:05; Canadiens, O. Cleghorn, 2:25; Canadiens, Lalonde, 11:55; Ottawas, Darragh, :55.

Third Period—Canadiens, Lalonde, 1:00; Ottawas, Darragh, 10:05; Canadiens, Malone, 2:45; Canadiens, Malone, :45; Canadiens, Lalonde, :35.

WINNIPEG BOWLING TOURNAMENT ENDS

(By Daily News Leased Wire.)

WINNIPEG, Feb. 23.—With the conclusion of the special events in singles and doubles on the late Saturday night shifts, the fourth annual tournament of the Winnipeg Bowling association came to an end.

The final results leave the Cubs of Winnipeg, first in the five-man team open event with 2,852; the Camp Hughes team, Winnipeg, second with 2,713 and Regina third with 2,688. Saratogas, Winnipeg, are fourth with 2,746; Mineralites, of Chicago, fifth with 2,672; Argonauts, Winnipeg, sixth with 2,638; Club No. 1, Winnipeg, sevents with 2,614; Eaton Printing, Winnipeg, eighth with 2,599, Eaton's AAA, Winnipeg, and Garrys, Winnipeg, tied in next position with 2,583. The prizes in this event are approximately as follows:

First, $115; second, $85; third, $65; fourth, $50; fifth, $35; sixth, $20; seventh, $15; eighth, $12; ninth, $10; tenth, $10.

In the open doubles event, the standing of the first nine teams remains as it was at the end of Friday's shifts, but Ledingham and Wise, Winnipeg, rolled into tenth place Saturday with 1,105, replacing McDonald and Mitchell.

There is no change in the open singles from Friday's standing, Sutherland, Winnipeg, leading with 630. Hughes is in second place with 622; Gale third with 620; Fogg fourth with 611, and McKean fifth with 607.

All he high men in this event are Winnipeg bowlers.

In the aggregate open, J. Smith, Chicago, leads with 1,803; J. Mitchell, Minneapolis, second with 1,780; J. Jenkins, Winnipeg, third with 1,739; McBeth, Winnipeg, fourth with 1,736; Hughes, Winnipeg, and Collier, Chicago, tied for fifth place with 1,725; Sutherland, Winnipeg, seventh with 1,721; Kernahan, Winnipeg, eighth with 1,705, and McKean, Winnipeg, ninth with 1,704.

DENTALS DEFEAT TIGERS IN 2-1 SCORE GAME

(By Daily News Leased Wire.)

TORONTO, Feb. 23.—In the first of the home games to decide the winner of group No. 1 in the senior O. H. A., Toronto Dentals defeated Hamilton Tigers Saturday night by the score of 2 to 1; and thus carry a one-goal lead to Hamilton for the return game next Wednesday.

BOUT A DRAW.

(By Daily News Leased Wire.)

NEW ORLEANS, La., Feb. 23.—The 15-round bout here Saturday night between Kayo Mars, of Cincinnati, and Pal Palmer, of New Orleans, was declared a draw, though many ringside spectators expressed the opinion that Mars should have been given a decision.

BURNS—LAHN

(By Daily News Leased Wire.)

MONTREAL, Feb. 23.—Joe Burns, the local featherweight, showing improvement in his fighting, fought a 10-round draw with Battling Lahn of Brooklyn on Saturday. Burns carried the fighting to his opponent in four of the 10 rounds, divided the honors in two and was outpointed by Lahn in the remaining four rounds.

CUBS BEAT TRAIL JUNIORS

Trail Loses to Nelson in Tight Race for Honors in 3-2 Score Game.

Trail was defeated by the Nelson Cubs on Saturday afternoon at the Nelson rink, by a score of 3-2.

The game started with one of O'Genski's characteristic rushes, but he was robbed of the puck before he had a chance to shoot.

The rest of the period was marked by heavy checking, but near the end of it Cryderman beat the Trail goalie with a swift shot that landed in the corner of the net.

In the second period the puck traveled from end to end until O'Genski slipped one past the Trail custodian.

The third period was by far the swiftest and most exciting one in the game. In the first part of this period Trail scored twice. Howard and Dovey did the trick. This made the score 2-2. Then O'Genski got the puck and, raising it from middle ice, found the net, making the score 3-2 with two minutes to go.

Trail then made a desperate effort to even the score, but Nelson's defense proved impenetrable and the game ended with Nelson the victor.

Cryderman and O'Genski showed up well, as did Scanlan in goal. Dovey and Lougheed also put up a good showing for Trail.

The line-up was:

Trail—Goal, Clerk; point, Lougheed; C. point, W. Dovey; rover, Howard; centre, B. Dovey; R. wing, Williamson; L. wing, Brown; spare, McCuaig.

Nelson—Goal, Scanlan; point, Diserau; C. point, Hinton; rover, S. O'Genski; centre, Cryderman; R. wing, Ingram; L. wing, Curran; spares, Dill, McLain, Benwell.

Referee—F. O'Genski.

YOUNG JEWTRAW WINS ALL SKATING RACES

(By Daily News Leased Wire.)

SARANAC LAKE, N. Y., Feb. 23.—Charles Jewtraw, 17, of Lake Placid, finished first in every senior event in the eastern outdoor championships at Lake Placid yesterday. Many of the fastest skaters in the United States and Canada competed.

Jewtraw, who won the 220 yard and half mile finals Friday, added the 440 yard, one mile and 3 mile titles to his credit. The events were skated in fast time. In the 440 yard, Russell Wheeler, of Montreal, was third.

PEMBROKE WINS

(By Daily News Leased Wire.)

MONTREAL, Feb. 23.—By defeating Caledonia by a score of 32 to 31 in a two-rink curling match for the historic Quebec challenge cup, Pembroke lifted the trophy yesterday after one of the most interesting games of the season.

MUNICH, Feb. 23.—(Havas)—Ministerial councillor Jahries has been killed and several officers of the war office gravely wounded in the rioting here. The radical element have threatened with death entire classes of the population as a reprisal for the assassination of Kurt Eisner.

WOMEN EVERYWHERE

Praise Lydia E. Pinkham's Vegetable Compound as the Greatest Remedy for Woman's Ills.

New Haven, Conn.—"For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased." —Mrs. CHARLES E. MORGAN, 37 Sea Street, New Haven, Conn.

The reason Lydia E. Pinkham's Vegetable Compound is so successful is because it contains the curative, strengthening properties of good old fashioned roots and herbs, which act directly on the female organism.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years' experience is at your service.

ROSSLAND WINS TUCKETT EVENT

Bonspiel Continues at Golden City—Curlers Getting Down to Finals and Competition Keen.

ROSSLAND, B. C., Feb. 23.—Curling results to Saturdday night were:

Rossland won from Trail in the Tuckett closed event.

They play the winner of Walley of Nelson and Finch of Penticton in the finals.

Walley won the Rossland cup from Stephens in an extra end.

Smyth of Nelson won from Patterson of Rossland in the first game of the Cammell Laird closed event.

Guthrie and Lafferty play out the finals in the Grand Challenge this morning.

Atkinson will play the winner of Walley vs. Penticton in the final of the Nelson competition.

Finch of Penticton plays H. H. Johnstone of Rossland in the final of the Trail competition.

Mitchell of Rossland will play the semi-final in the Consolidated competition.

Archibald of Rossland will play the final in the Boundary competition.

TO RESUME SPORTS OF INTERCOLLEGIATES

(By Daily News Leased Wire.)

KINGSTON, Ont., Feb. 24.—At the annual meeting here on Saturday afternoon of the Canadian Intermediate College League association, it was decided that inter-collegiate sports which were cancelled during the war, should be resumed. In order to arrange the details for the resumption it was further decided to call a meeting here for March 15 of the various athletic unions of the different universities.

Spring Waists

The Vogue *in Smart Silk Waists*

OF WHITE FOR EARLY SPRING WEAR

Early arrivals open up in a selection of particularly chic and select models. Touches here and there of neat pin tucks and the wide Puritan styles are noticeable. Never before have we been able to present such a showing in these lines.

One style is prominent in its simplicity by the large sailor collar, round open yoke with neat rows of pintucks and small pearl buttons at $4.95

Another style features the large square pintuck collar and cuffs, V yoke finished pintucks and large pearl buttons at $5.75

Then there is the lines of Habutai Silk with the new style of convertible collar fastening in front with holeless pearl buttons of superior quality, fastening into loops of self in rows of three. The large collar is prominent in these lines at $6.50

AT THE THEATRES

Skill Counts.

"With Neatness and Dispatch,"—that is the way all tasks should be handled. It's skill that counts in this world—with skill and sincerity, moral fibre and cheerfulness, you can't lose.

Francis X. Bushman as Paul Donaldson in this brilliant Metro photoplay, to be seen at the Gem Theatre tonight, certainly handles the job he undertakes to do "with neatness and dispatch." The story has surprises every minute,—both for the hero and for the audience. But of course there's nothing a man with red blood in his veins wouldn't do if pretty Geraldine Ames ordered him to. (Beverly Bayne plays Geraldine.)

Much of the scene of "With Neatness and Dispatch" is laid on a great estate where no man is permitted to enter. The maiden aunt of Geraldine and Mary calls it "Eden." But neither of the girls is disconsolate when the right kind of a man succeeds in "breaking into Eden," even if he has to use a jimmy to do it. Romance and excitement abound in "Neatness and Dispatch."

LONDON, Feb. 23.—(Canadian Associated Press)—In a football game played Saturday, English league players defeated a Scottish league team by the score of 3 goals to 1.

SCOTTISH FOOTBALL

(By Daily News Leased Wire.)

GLASGOW, Feb. 23.—(Canadian Associated Press.)—Scheduled Scottish league football games, played Saturday on the grounds of the first mentioned clubs, resulted as follows:

Celtic 2, Partick Thistle 1.
Rangers 1, Clydebank 0.
Queen's Park 4, Morton 2.
Motherwell 1, Third Lanark 0.
Ayr United 4, Falkirk 0.
Kilmarnock 2, Hearts 5.
Dunbarton 1, Clyde 0.
Hibernians 1, Hamilton Academicals 2.
St. Mirren 0, Ayrdrienoians 0 (tie).

COAST FANS MAY SEE LEONARD IN ACTION

(By Daily News Leased Wire.)

VANCOUVER, B. C., Feb. 23.—Vancouver boxing fans may have an opportunity soon of seeing the world's champion lightweight, Benny Leonard, who is now on the coast, in action in a local ring. Leonard's manager, Billie Gibson, has expressed a willingness to have the champion come here to meet the winner of the Anderson-Ingle bout, which Tommy Burns will stage in the Dominion auditorium next Friday evening, under the auspices of the Army and Navy athletic club.

Gibson wired Burns today and asked him to rush particulars, which Burns did, and definite arrangements for the champion's appearance here may be made in a day or two.

More than 10 coal mines in the Ruhr district of Westphalia have been closed on account of the general strike called by the Sparatcans.

OBJECT TO MEASURE FOR SUPPRESSING COMMUNISTS

(By Daily News Leased Wire.)

LONDON, Feb. 23.—The proletariat has organized a strike against the energetic measures taken to suppress the communists, which include the arrests of 42 radicals, according to Budapest advices received by way of Basel.

The minister of war denounced the communists in an address delivered in Parliament square to many thousands of workmen who adopted a resolution calling upon the government to use all the means at its disposal to end the communist plots.

SIR GUY CALTHROP DIES OF INFLUENZA

(By Daily News Leased Wire.)

LONDON, Feb. 23.—Sir Guy Spencer-Calthrop, controller of coal mines since 1917, died today of influenza.

Sir Guy Calthrop was created a baronet in 1918. He was born in 1870 and was general manager of the London and Northwestern railway. He was general manager of the Caledonian railway in 1908 and general manager of the Buenos Ayres and Pacific railway in 1910.

Premier Murray and Attorney-General Daniels will be among those representing the Nova Scotia government at the state funeral of Sir Wilfrid Laurier at Ottawa on Saturday.

BALFOUR BOYS COMING TO TOWN

Present "A Quiet Spot on the Rhine" and "A Terrible Frost," March 3

The Balfour Returned Soldiers Dramatic society will present "A Quiet Spot on the Rhine' 'and "A Terrible Frost" in the Nelson opera house, Monday, March 3.

The proceeds will go to the Balfour Golf club, the most unique golf club in all Canada in that all its members are enlisted soldiers who are at present patients at the sanatarium. Golf is the only game they are allowed to play and every purchaser of a ticket will have the satisfaction of knowing that indirectly he or she has made it possible for the committee to supply a patient with the necessary clubs and golf balls.

A particularly strong cast will be seen in the program, including four professionals. Mrs. Guthrie and the City Drug store, which has the plan of the house, are selling the tickets.

Miss Madeline Gallagher entertained a number of her friends at her home on Saturday at a birthday party. Among those present were: Irene Herbert, Edna Marquis, Miriam Hughes, Yvonne Lapoint, Louise Peebles, Tena May McLean, Elvera Gustafson, Annabela Dunk, Madeline Gallagher, Bert Peebles, Frank Stringer, Fred Cooper, Stanley Crysler, Charlie Gallagher.

FULL HOUSE AT THE Y.M.C.A.

Increased Seating Capacity Saved Situation When Another Big Crowd Turns Out to Entertainment

Had it not been for the increased seating accommodation provided, many would have been turned away from the "Y" entertainment on Saturday night. The "bleachers" under the gymnasium gallery, however, added 60 odd to the capacity of the gymnasium. The program of the evening consisted of basketball, boxing, pyramids, tumbling and scrimmage ball.

The entertainment opened with a basketball game between the high school girls and the "Y" Girls Athletic club. From the start it was evident that the practises and coaching of the "Y" Girls had tremendously improved their playing ability; but had it not been for the phenomenal shooting of Charlotte Notman the score would have been very close. The game, however, resulted in the "Y" Girls trebling the score on their opponents, the final figures being 18 to 6. The teams were:

High School—Forwards, F. Hunter and P. Cummins; centre, G. Jelfs; guards, M. Moore and H. Whitmore.

"Y" Girls—Forwards, E. Long and D. Whitmore; centre, C. Notman; guards, O. Bealby and M. Shuttleworth.

Vaulting

During the interval between the halves of the game, Norman Brown, Kenneth Young, Hugh Horswill and Tom Macdonald put on an exhibition of vaulting and diving over the German horse, the somersault and free flip drawing great applause from the spectators.

Pyramids

Following the girls' game the junior class put on several pyramids and postures. While none of them were very difficult in performance, the accuracy and precision with which they were executed spoke of hard work on the part of Physical Instructor Morris and the boys.

Scrimmage Ball

At the request of some visitors from out of the town an impromptu scrimmage ball game was put on by the boys present. As usual this game kept the audience tense for a few moments while the struggling group of youngsters pushed and swayed in their efforts to get the medicine ball to the end of the gymnasium.

League Basketball

The most exciting part of the program was the intermediate league basketball game, between the Beavers and Tigers. During the first half it looked as though the blue shirted Beavers were to have an easy win as Dill and Ferguson both seemed to be able to locate the basket at every try, while the white clad Tigers' shots rolled around the edge of the basket and dropped out. At half time the score was 12—22 in favor of the Beavers. In the second half Maurer, at left guard for the Tigers, took more chances and went up into the forward line, where he managed to score eight points. Nagle and Blanchard were also able to locate the basket better and Nagle also made a couple of neat shots following fouls.

The game all through was fast and clean, although time had to be taken out for a twist to Nagle's ankle, while Scanlan had to go in in Walley's place when the latter strained a muscle in his leg. It was evident throughout that the Beavers had had more team practise than their opponents, as they played good combination and used every man on the team to advantage. For the Tigers, Nagle and Maurer, as in the old days, worked well together, but seemed at times to forget that there were others on the team.

In the middle of the second half the Tigers ran their score up to the place where one more basket would have made a tie. Then the Beavers got a couple more lucky shots and pulled away again. The final score was: Tigers, 26; Beavers, 32. The teams were:

Tigers—Hinton and Blanchard, forwards; Nagle, centre; Maurer and Houston, guards; Ingram, spare.

Beavers—Dill and Walley, forwards; Ferguson, centre; Young and Shuttleworth, guards; Scanlan, spare.

E. C. Hunt, referee.

Boxing

Following the basketball, three exhibitions of boxing were given. The first was between two 12-year-old boys, Harry Bishop and Stewart Smillie. These boys are of equal size and weight and they put up a good exhibition, Smillie being usually on the defensive but landing one or two good blows in each round. His opponent was more active and had slightly the best of the argument.

This bout was followed by two more members of the prep. class, Alex Ioanin and Robert Waldie, Ioanin being taller and slighter, had some advantage in the reach, but Waldie proved much more active, having the best of it in each of the three rounds. There was to have been an exhibition by two intermediates one of whom failed to maetrialize to the disappointment of Ross Young, who was hoping to try out his new acquirements in the manly art at this time.

The program closed with a bout between Physical Director Morris and A. H. Whitfield. Both these men have had considerable experience and being of equal size and weight a good exhibition resulted.

Finlay Campbell acted as referee and as it was not intended that points should be awarded, he had an easy time, for there was no tendency to rough it in any of the bouts.
