RETAIN OLD TRADITIONS OF BATTALION

IS SENTIMENT OF FIRST ANNUAL REUNION OF KOOTENAY REGIMENT

Hundred Members of Unit From All Parts of District Attend Gathering; Big Success

"From Ypres to Valenciennes" was the chord struck last night at the first annual reunion of the 54th Kootenay battalion. Former members of the Kootenay regiment to the number of close to 100 from all parts of Kootenay and the Boundary gathered in Knights of Pythias hall and commemorated the "first time over the top as a unit." It was a grand reunion and from the moment Bugler Robert Lundy sounded the "fall in" until the "dismiss" was sounded some time early this morning there was a good time and a "general all round swapping of stories," such as is enjoyed by any regiment only on occasions.

Excellent Repast

Sharp at 8:30 o'clock the men of the 54th sat down to a bounteous repast which was served by the Mothers' club of St. Saviour's church. At the conclusion of this portion of the program the gathering enjoyed a toast list and musical program of the highest order.

Speeches were made and response given to the speeches which ensured in the years to come big things from the gatherings of the Kootenay battalion.

D. F. Peters of Appledale, president of the 54th battalion association, was in the chair, and on his right was Major Gilbert Anderson, officer commanding "A" company of the original 54th.

In the opening address of the evening Mr. Peters dwelt on the necessity of keeping together. It was the aim of the association, he said, to keep forever alive the traditions which had been made by the Kootenay battalion during the period it was in France and Belgium. This could in no better way be done than by such gatherings such as was held last night. He urged the former members of the 54th to "stick together" and make a force throughout the community which would have to be reckoned with at all times.

Proud Traditions

Major Anderson, in responding to the toast to "The Colors," spoke eloquently on the duties of the returned soldiers as citizens of the Dominion. He referred to the recruiting of Canada's citizen army and to the fact that that army had left the shores of Canada without the traditions which had been enjoyed by the members of the imperial army. The 54th had been a unit in that "now famous" citizen army and during the four years of war had created a tradition of which any district might be proud. The colors of the regiment were sufficient proof of that. He hoped and felt sure that those traditions would never be forgotten.

Dr. L. E. Borden spoke of the early history of the 54th battalion. He felt sure that a better body of men never left the shores of Canada and in this respect he stated he spoke from first hand knowledge, as he had examined and passed upon the majority of Nelson members of the original 54th battalion.

The musical program was contributed to by Edgar Mason, Nelson; George Craft, Needles; Major F. D. Arundel, Leslie Craufurd, William Fairbairn, P. G. Morey and C. Hansen, Nelson, and E. J. Uhthoff, Crawford Bay.

Wire From Colonel

Letters of regret at inability to attend the gathering were read from Lieut.-Col. A. B. Carey, C.M.G., D.S.O.; Capt. J. H. Hamilton, of Revelstoke; Capt. R. B. Hicks, Cranbrook, and Bandsman Webber of New Denver.

The menu: S. R. D. Cocktail; soup, cream of tomatoes; fish, Kootenay boiled salmon with egg sauce; salad, shrapnel, hard tack; roast, roast beef, brown gravy and horseradish; vegetables, potatoes, cream mashed; boiled onions with drawn butter; dessert, deep apple pie and whipped cream, plum pudding and sauce, rolls and butter; tea, coffee and cheese.

Those present were: D. F. Peters, Appledale; Dr. L. E. Borden, F. D. Arundel, T. Keith, Nelson; George Craft, Needles; J. T. Waters, Edgar Mason, Fred Moore, R. Smith, D. D. McDonald, A. S. MacLennan, A. Bartholemew, W. G. Mills, H. W. Crowe, J. Clarke, H. Richardson, G. H. McKean, S. Miles, D. O. Thomas, M. McCandlish, H. H. Currie, Sydney T. Ball, W. A. Curran, T. Middleton, William Sutherland, Thomas E. Bush, S. J. McDonald, A. D. Oliver, N. Jackson, A. Stubbs, P. D. McNaughton, T. Dolphin, J. H. Jones, L. Longden W. Pascoe, R. A. Howe, R. Harris, T. Madden, C. Miller, W. Moore, F. O'Genski, S. Langill, F. D. Cummins, J. R. Humphries, A. C. Speirs, James Lundie, A. Kinahan, R. Lundie, L. W. Humphreys, L. A. Gillis, F. J. McAvinn, H. C. Baker, W. J. Waters, P. G. Morey, Leslie Craufurd, C. W. Hansen, A. C. Dee, Alex Smith, W. Jasper, Dr. A. H. Wallace, C. W. S. Bigney, William Fairbairn, J. W. Dougan, L. A. Watson, W. Swannell, Robert Bell, Fred Dalrymple, Hugh

LADY JELLICOE RECEIVES NEWS OF MOTHER'S DEATH

VANCOUVER, Nov. 18.—Deep sympathy is being extended to Lady Jellicoe who has received cabled information from England of the death of her mother. As a result her appearances at many of the functions arranged in her honor will be necessarily curtailed.

SCREENINGS TO BE SUPPLIED

TORONTO, Nov. 18.—An amicable settlement of the difficulty between the Canadian Feed Manufacturing company and the alleged pool or combine of terminal elevators at Fort William, which has been under investigation by the board of commerce in Winnipeg, Toronto and Ottawa for some time, was arrived at here this afternoon. The board adjourned for half an hour to enable the contending parties to get together with a view to the Canadian Feed Manufacturing company being kept supplied with the screenings it needs in its business.

When business was resumed Hon. A. B. Hudson, of Winnipeg, who represented the terminal elevator companies, announced that he had had a talk with his clients with the result that the latter had agreed to sell screenings to the Canadian Feed Manufacturing company at the market prices.

"That method ought to be tried out," said Judge Robson. There is no use intensifying the difficulty of the feeling developed by the question of a combine, or thinking there is anything wrong in the pooling arrangements. The pooling arrangement is a legitimate process of getting rid of this elevator offal. I do not think that you yourself, referring to counsel for the Canadian Feed Manufacturing company, would contend that there was any case made out against them on that ground. You have not shown yet that you have tried to buy screenings in the usual way. The other point mentioned was discrimination. My opinion is that the larger question being swept aside, there should be practical tests of this proposed arrangement. The matter should be worked out on that basis. If it fails you are at liberty to come back again later and apply under clauses 17 and 18 of the Combines and Fair Prices act for relief. The incorporation of the Superior company (the alleged pool) by these terminal elevator companies, for the purpose of getting rid of elevator offal, was not of a criminal or improper type.

Mr. White, counsel for the Canadian Feed Manufacturing company, said, "They have brought themselves within the law."

Judge Robson—"That is more regulatory than punitive. I think we should leave the matter open for an indefinite time. I expect to be in Winnipeg in two weeks and we can take it up again if the proposed arrangement fails."

J. D. Murray, assistant general manager of the United Grain Growers, was asked if he agreed to the arrangement mentioned by Mr. Hudson. He replied that he was not at the moment prepared to say if he could sell unscaped screenings direct to a broker to go to the Canadian Feed Manufacturing company. The board then adjourned to meet again tomorrow.

The big terminal elevator interests had been accused by the Canadian Feed Manufacturing company of refusing to sell to them, with the result that their industry was being starved for raw material, while thousands of tons of screenings were being exported to build up the stock food industry of the United States. They claimed that existence of a pool was disclosed by a government audit made by Price, Waterhouse and company.

At this morning's sitting the Canadian Feed Manufacturing Association put in a long statement on the case and urged that an embargo against the export of screenings to the United States be imposed by the board of commerce in order that Canadian industry might be protected.

BLIND ROBBER PLEADS GUILTY TO CHARGE

TORONTO, Nov. 18.—John Putwain, who was shot and severely wounded while attempting, along with a companion who was killed, to rob the branch of the Bank of Nova Scotia at the village of Agincourt, York county, last spring, pleaded guilty today at the assizes here to a charge of shooting with intent to kill, and of taking part in the attempted robbery of the bank. He was sentenced on Friday. He is blind and incapable of taking care of himself as a result of his injuries.

BARON KONDO AVERTED JAPANESE SEAMEN'S STRIKE

VICTORIA, Nov. 18.—The return of Baron Rempei Kondo to Japan avoided a strike of Nippon Yusen Kaisha seamen, according to word brought by the Japanese liner Katori Maru. It is reported that the demands for better conditions of the seamen, have been granted with but slight modifications and the danger of a Japanese seamen's strike apparently has come to an end.

Francis at New York from Havre. Lapland at Southamton from New York.

Stavenjerfjord at Bergen from New York.

MAY AVOID DEADLOCK ON PEACE TREATY

HAS MORE THAN EVEN CHANCE FOR LIFE—FINAL VOTE THURSDAY

Two More Reservations Added to Thirteen Already Adopted—Labor Qualification Offered

WASHINGTON, Nov. 18.—At nine o'clock tonight after the senate had been in continuous session for 11 hours consideration of amendments in committee of the whole was completed and the treaty was formally reported to senate. The question of approving the 15 reservations adopted in the committee of the whole was then taken up, each reservation being considered separately.

Compromise moves to rescue peace treaty from threatened deadlock made progress today that its friends declared that it has more than an even chance for life. So far as it has taken definite form tonight the compromise program called for a final vote Thursday and pointed to acceptance of the reservations of the foreign relations committee without the requirement that they must be assented to affirmatively by the other powers. The way to compromise was opened by the mild reservation Republicans who served notice on the Republican and Democratic leaders that they would not put up the bars entirely to modification of the committee reservations, but would stand out against and defeat the administration parliamentary program. Meantime in the senate, two more reservations were added to the 13 already adopted. The two reservations adopted to date relate to the labor provision in paragraph 13 of the treaty and to voting equality in the league of nations.

The labor qualification, offered by Senator McCumber, Republican, of North Dakota, was accepted 54 to 35, with nine Democrats supporting it. A proposed substitute by Senator King, Democrat, of Utah, which would have excluded the United States unconditionally from the labor provisions, was rejected 48 to 43, the mild Republicans joining the administration senator to avoid the votes of the irreconcilables and nine Democrats.

The proposal relative to voting equality, presented by Senator Lenroot, Republican, of Wisconsin, won 55 to 38, on a motion to substitute it for a less sweeping proposal by Senator McCumber.

It then was formally adopted without a roll call. Previously a resolution on the same subject by Senator Johnson, Republican, had been rejected 46 to 43, with eight Democrats voting for it and the mild Republicans lining up solidly in opposition.

CANADA WILL BE REPRESENTED

Is Likely to Gain Point on Representation on Governing Body of International Offices

WASHINGTON, Nov. 18.—Canada is likely to win her point and secure direct representation on the governing body of the international labor offices.

The issue is one of some weeks standing. The governing body controls the international labor offices and direct representation in its membership is considered of prime importance. It consists of 24 persons. Twelve are to represent the government, the other twelve consist of representatives in equal numbers, of the employers and workers delegates at the conference, and chosen by these delegates. Of the 12 governmental representatives on the body eight represent the eight states judged to be of chief industrial importance. The other four governmental representatives are chosen by the international labor conference on its nomination of the committee of selection.

When the organizing committee of the conference prepared a list of eight states of chief industrial importance Canada was excluded. The Dominion government immediately filed a protest. That protest is still on record and is due to come before the council of the league of nations at its first meeting. But so prominent has been the part played by the Canadian delegates at the conference, that it is understood, there is every likelihood of Canada being nominated as one of the four which the conference appoints. The matter is now in the hands of the committee of selection and the committee has not yet reported. Its nominations, however, are expected to include the dominion. Should this be the case, the protest before the council of the league is unlikely to be pressed.

TO LOAD LUMBER FOR UNITED KINGDOM

VICTORIA, Nov. 18.—The French steamer Vancouver is soon to proceed to the Fraser river to load lumber and she will complete her cargo at Vancouver for the United Kingdom.

REPORT OF RED CAPTURE OF OMSK IS CONFIRMED

WASHINGTON, Nov. 18.—Bolsheviks claim the capture of Omsk on Nov. 15, and were confirmed by official despatches received today at the state department. These said the soviet forces had advanced 15 versts beyond the Kolchak capital and had destroyed bridges and railroads.

TO LIMIT AGE OF CHILD LABOR

Labor Conference Will Take up Question of Children's Charter at Today's Session.

WASHINGTON, Nov. 18.—A children's charter comes before the international labor conference Wednesday. It will be submitted to conference in the form of a convention proposed by a special committeed representative of government employees and workers, which has been meeting under the chairmanship of Sir Malcolm Delavigne, delegate from the goverment of Great Britain. The convention provides that children under the age of 14 shall not be employed or work in any industrial undertaking other than an undertaking in which only members of the family are employed. Industrial undertakings are deemed to include the following:

"A"—Mines and quarries.

"B"—Industries in which articles are manufactured, altered, repaired, ornamented, finished or adapted for sale, or materials are transferred, including the generation and transformation of electricity, ship building and laundry work.

"C"—Constructions, reconstruction, maintenance, repair, alteration or demolition of any building, railroad, tramway, harbor, dock, pier, canal, inland navigation, road, tunnel, bridge, viaduct, sewer, drain, well, telegraphic or telephonic installation, electrical undertaking, gas work, water work or other work of construction and preparation for and laying the foundation of such.

"D"—The transport of passengers or goods by road or rail, including the handling of goods at docks, quays, wharves and at warehouses, but excluding transport by hand.

"The national law, the convention provides, shall define the line of division which separates industry on the one side and commerce and agriculture on the other side."

The convention will not be deemed to apply to work done by children in technical schools, provided such work is approved and supervised by the authorities in accordance with the national law of each country.

In order to facilitate the endorsement of provisions of the convention every employer in an industry will be required to keep a register of children employed by him and of the dates of their birth.

The proposals were made in committee that the age limit should be raised to 15 and 16 years. These proposals were defeated by large majorities and the minority joined even tally with the majority to make the recommendation of 14 years unanimous. The minority did so on the understanding that they regarded the convention as a transitional measure towards the adoption of a higher age limit later on.

Other proposals were made to extend the scope of the convention to commerce, agriculture and all other kinds of employment. Discussion in committee made it clear however that these proposals would not be generally accepted. It urged too, that the matter could not be satisfactorily considered at the present conference, as no representatives of agriculture were pesent. The committee divided equally on the point but finally unanimously agreed to recommend that the convention should be limited at present to industrial undertakings, that the conference should pronounce in favor of the limitation of the age of admission to agricultural, commercial and other occupations, and that the question should be referred to the international labor conference for consideration next year.

ROYAL BANK EMPLOYEES TO GET ANNIVERSARY BONUS

HALIFAX, Nov. 18.—The Arcadian Recorder announces today that the employees of the Royal Bank of Canada to the number of 5000 will receive a bonus of 20 per cent on their salaries, in commoration of the fiftieth anniversary of the foundation of the bank. The bonus will be payable December 15. Recently it was announced that the shareholders would receive a bonus of two per cent.

TO BE TRIED FOR HOLDING UP MAILS

QUEBEC, Nov. 18.—J. B. Proteau and L. E. Levasseur were today sent over to the court of king's bench for trial on the charge of holding up the mails on the Ocean Limited and stealing $71,000. The trial will take place in April next. The co-accused, George Topping, has already been sent to the court of king's bench for the same offense.

CANADA ALIVE TO SOLDIER PROBLEM

LONDON, Nov. 18.—Information reaching here shows that the Canadian government is alive to the problem concerning soldiers who took their discharge here and now find themselves stranded. An announcement regarding the future is probable soon.

NEW YORK GAILY GREETS BOY PRINCE

STREETS LINED WITH SEVERAL MILLION PERSONS ALL EAGER FOR GLIMPSE

Royal Visitor Drives Up Crowded Broadway While Bands Play British National Anthem

NEW YORK, Nov. 18.—In the friendly, eager crowd which lined the streets of New York today for miles to greet the Prince of Wales, there must have been several million souls showing incharactristic American fashion their cordiality toward the heir to the throne. The prince's visit to Washington was without demonstration from any but official circles, so it remained for New York to show the Prince how highly Britain and the British reigning house is held in the esteem of the U. S. people. Coming into New Jersey at the Hudson terminal, the royal party was able to step at once into barges from H. M. S. Renown, in which it crossed the river to the battery. Thus the prince came into New York by water and he was greeted at the battery by official New York accompanied by soldiers and a guard of honor of marines and blue jackets. The official welcome over, the prince started up town, through the eager crowds which filled Broadway. The prince was guarded only by a motor cycle policeman, who rode beside his car. The orderly throng on the sidewalks left a lane for the procession of cars which travelled slowly up town, the Prince saluting incessantly. Here and there bands were playing the British national anthem, men in the vicinity baring their heads in recognition. Several feet in the air men and women threw confetti from the windows of the sky scrapers, while far up in the sky, parachutes released fro maerial bombs floated, carryin gthe British and United States flags.

In the business districts of lower Broadway, the crowds were dense but very orderly, while up town on Fifth avenue only the traffic policemen were needed to watch the crowds which had gathered in the shopping districts. Perhaps the biggest crowd of all was one which watched the prince put out across the North river to embark on his ship.

The Prince of Wales received about everything New York had to offer today, from a royal welcome from her citizens and the official freedom of the city to a book containing newspaper clipping records of his journey through Canada and the United States.

Other gifts presented to him include a silken stars and stripes, a bible given by the New York Bible society and gold medal donated by the representatives of 30 races who have contributed to the building up of America. From the moment the Prince's special train arrived in Jersey City until midnight when the royal guest retired to his quarters on the British battle cruiser Renown after a gala performance at the Metropolitan opera house, the young British heir had scarcely a moment to call his own.

The chief conversation about Madison Square gardens where the horse show is being held is the coming visit of the Prince of Wales, who will attend the show tomorrow afternoon. Every box and practically every reserved seat for tomorrow afternoon's session has been sold, and the prince is assured of a generous reception. Canadian horses were to the fore again today. The Enniskaire farms took one, two, three in thoroughbred green or qualified hunters. Seven of the Enniskaire farm hunters were among the 20 entries. The entire four places were awarded to the Canadian entries.

WINNIPEG SUGAR SHORTAGE ACUTE

Board of Trade Appeals for Relief; Says Thousands of Homes Are Without Sugar

WINNIPEG, Nov. 18.—The Winnipeg board of trade has sent a wire to the Hon. Arthur Meighen on the serious situation here created by the sugar shortage. The text of the telegram is as follows:

Sugar situation in Winnipeg extremely bad. Thousands of homes without sugar. Manufacturers cannot get any granulated sugar.

One firm has orders for $40,000 worth of marmalade. Purchasers demanding shipment. Competitors in east getting granulated sugar. Unless immediate action is taken to relieve situation in this city consequences will be serious. Can you not do something to have a quantity of granulated sugar headed for Winnipeg at once?

TORONTO, Nov. 18.—Lloyd Harris, Canadian trade commissioner, is in Toronto and says he is going to take a prolonged vacation.

REVOLUTION HAS BROKEN OUT AT VLADIVOSTOK

WASHINGTON, Nov 18—Revolution has broken out at Vladivostok, according to information received by the state department today from Siberia. Thus far only Russians are involved, the advices said.

RAILWAYS MOVE WHEAT SLOWLY

Chairman of Board Declares Many Mills May Be Compelled to Close Altogether

WINNIPEG, Nov. 18.—James Stewart, chairman of the Canadian wheat board, this evening gave out the following statement: The fact that the railways in the west this year, with a crop season commencing fully three weeks earlier than last year, have failed to move the farmers' grain to the head of the lakes in anything like a satisfactory manner, in time for delivery to the board by water, will mean an extra charge to the farmer, and to the country, or between three and four million dollars. The amount of money will be represented in the extra cost of carrying stocks through the winter at country points, and of shipping by rail. Much wheat would have gone east by water had the railways been able to move it to the head of the lakes before the close of navigation. Indeed, it may be said that the failure of the railways in this respect has prevented the Canadian wheat board from disposing of a considerably larger proportion of the wheat crop of 1919 up to date than has been disposed of.

A reasonable amount of wheat to have bee nmoved to the head of the lakes from the prairies before the close of navigation would be at least 70,000,000 bushels, but from present indications the railways will have fallen short of that figure by fifteen to short of that figure by 15,000,000 to 20,000,000 bushels at country elevators, and shipping all rail to the seaboard will mean an expenditure of $3,000,000 or $4,000,000, all of which, as usual, comes out of the farmers' price.

This season, to the end of October, the number of cars of wheat moved to the head of the lakes was 37,633.

In comparison with the slow movement this year, the record of the fall season of 1915 stands out in vivid contrast. During the month of October alone in 1915, the railways moved 53,000 cars of wheat, which is more than they will be able to move during the entire period this year before the close of navigation, judging from present indications. As an example of the slow movement this season the wheat board has had to investigate many instances. In one case it took a car of wheat 30 days to travel eight miles.

If the present rate of movement of wheat from country points in the west is not increased the situation affecting millers of flour in the east will shortly become serious.

The fact of the matter is, that if the volume of wheat moving eastward is not increased materially many of the mills in the east will be obliged to close down their plants.

Efforts have been made to secure more efficient service from railways through the board of railway commissioners, who, however, have been unable to get results up to the present time.

RAILWAY BOARD ON WAY WEST

Commissioners Decide Demurrage Rates Accrued During Strike Must Be Paid at $1 a Day

WINNIPEG, Nov. 18.—The board of railway commissioners today took the stand that the recent strike in Winnipeg was in effect a revolution and that the demurrage rules on the railways during the strike period might be set aside without creating a precedent in the case of future strikes. It was decided that the demurrage charges which accrued during the general strike must be paid at the reduced rate of $1 per day as already assessed by the railways. The board left the city for western points, where the application of the telegraph companies for increased rates and other matters will be heard.

Only one case of purely local interest was before the board of railway commissioners this morning. The last sitting of the board in Winnipeg until the return of its members from the west about December 2, was held this afternoon.

RETURN TRUE BILLS AGAINST STRIKE LEADERS

WINNIPEG, Nov. 18.—The grand jury today returned true bills against the eight strike leaders charged with seditious conspiracy. Those against whom the bills were returned are R. B. Rusell, Wm. Ivens, Richard Johns, George Armstrong, A. A. Heaps, John Queen, Wm. Pritchard and R. E. Bray. It is probable that they will come up for trial toward the end of the week.

The grand jury, in their report in accordance with a return of a true bill of seditious conspiracy, declared the men were a public nuisance.

During the course of the hearing over 70 witnesses were called.

WINNIPEG HAS THIRTEEN CASES OF SLEEPING SICKNESS

WINNIPEG, Nov. 18.—The thirteenth case of sleeping sickness developed in Winnipeg today.

GOVERNMENT WILL FORCE AGREEMENT

TAKES STEPS TO MAKE MINERS RETURN BEFORE FAMINE GRIPS COUNTRY.

Fuel Administrator Garfield Calls Joint Meeting at Order of Cabinet, to be Held Today.

WASHINGTON, Nov. 18.—The government stepped to the front today to force miners and operators to negotiate a new wage agreement and resume work in the bituminous fields before the country is in the grip of a coal famine. Clothed with all of his war time powers as fuel administrator, and acting by direct authority of the president's cabinet, Dr. Harry A. Garfield called a joint meeting of scale committees, at which he was expected to give final notice that the time had come to resume mining operations on a normal scale. While the joint conference was set for this afternoon, Dr. Garfield found that a full attendance could not be obtained, so it went over until tomorrow.

Urges Judicious Administration

VICTORIA, Nov. 18—Unless the embargo imposed by the federal authorities on the export of British Columbia coal is judiciously operated, and utilized more in the nature of an agency to gather information, Hon. William Sloan, minister of mines, sees the possibility of injury resulting to the export business of the Vancouver Island collieries. Mr. Sloan stated that when the question was mentioned to him a week ago he approached the operators of the island and was assured by them that strike conditions affecting the industry in the United States would in no way endanger local support. In these circumstances he saw no reason for the necessity to impose anything more than a normal vigilance for the means to satisfy local needs.

Mr. Sloan points out that during the year 1918 sales of British Columbia coal for consumption in Canada amounted to 1,010,938, while 752,821 tons were sold for export to the United States and for export to other countries, 78,417.

JELLICOE URGES PREPAREDNESS

Does Not Mean Militarism but Simply to Face the Facts—Sea Power Necessary.

VANCOUVER, Nov. 18.—In addressing the Canadian Club here today Admiral Viscount Jellicoe, referring to his present mission, said it was to advise the people of Canada only on subjects on which his advice was asked. He said he had noticed that questions had been asked as to his presence in Canada. It probably was feared that he was going to suggest to much militarism and the spending of too much money. Such was not the case. He was only here, he said, in an advisory capacity, and it was Canada's right only to suggest how much money should be spent.

Admiral Jellicoe emphasized the necessity of British sea power if the empire is to live and the advisability of being prepared for any emegency. It was not necessary, he declared, to build up a spirit of militarism but simply to face the facts. The empire's existence depended on sea power and preparedness and he instanced how the temporary control of the sea was lost through the submarine menace due to Great Britain's unpreparedness in meeting a new danger.

ORGANIZATION AIMS TO BAN CLOTHING STRIKES

TORONTO, Nov. 18.—An organization which aims to ban strikes and lockouts from the men's clothing trade has been completed by the Toronto manufacturers with the cooperation of the unions and gives promise of working out to the satisfaction of all parties concerned. Arbitration is the keynote of the scheme and both sides have entered into an agreement to accept the verdict of arbitrial machinery.

This agreement involves 20 clothing manufacturerqs of the city and 2000 operators of men's and boys' clothing. These 2000 are members of the Amalgamated Clothing Workers of America, but are not affiliated with the American Federation of Labor. A. A. McIntosh, recently news editor of the London Advertiser and for some years previous city editor of the Toronto Globe, has been appointed to the position of labor manager and has already taken up his duties in Toronto.

SECOND VICTIM OF NORTH BEND SLIDE DIES

VANCOUVER, Nov. 18.—The second death as a result of the slide on the Canadian Pacific railway at North Bend Sunday afternoon occurred when Mike Stoke, section man, died at Kamloops hospital.

LIBRARY DANCE WILL BE NOTABLE AFFAIR

Reviving the teachers dances which were formerly so popular in Nelson, the Library dance, which the teaching staff of the Nelson schools will give Friday night in Central school, will be one of the affairs of the season. The floor of the big auditorium is now beyond criticism, having been planed, smoothed and polished.

The committees, whose work will ensure that the dance will in every way be a success, are made up as follows: Advertising: H. McArthur, Miss Ella Smith; floor and finance: G. Macdonald, E. Celle; music and program: Misses Phyllis Whitebread, Marjory McArthur, Helen Hodgson; refreshments: Misses Mulhern, Mildred Irvine, Olive Bradley, Eileen Long; decorations: Misses Greta Steeves, Catharine Wallach, June Ink, Mabel Astley, Eva Doherty, Clara Bloomer and Enid Etter.

The refreshments will be a special feature, and will illustrate the loftiest heights of light cookery, as taught in the domestic science department, Miss Mulhern, the presiding genius of that department, being head of this important committee.

OPERATING MINES IN THE LARDEAU

Development Work on the True Fissure—Cavanaugh Ships Ore From Silver Cup

FERGUSON, Nov. 18.—David Morgan has secured a contract for development work on the True Fissure for the Ohio Mines, Ltd.

S. H. Cavanaugh has a lease on the Silver Sup, and will work it this winter. He recently sent a shipment of 20 tons to the Trail smelter, which appeared in the smelter returns as from the "Cavanaugh" mine.

An inch of smile is better than a yard of frown.

One Great Essential To a Woman's Health Is Her Nerves.

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system in unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flushes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health.

Mrs. P. H. Ryan, Sand Point, N.S., writes:—"I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A Woman's Trouble

Stratford, Ont.:—"I do think Dr. Pierce's Favorite Prescription one of the best medicines I have ever known for the ailments of women. I had for quite a long time been having woman's trouble which caused me to become all run-down, weak and nervous. I doctored but nothing seemed to give me relief until I began taking 'Favorite Prescription.' This medicine gave me such wonderful relief that I am glad to recommend it to others."—MRS. A. GODWIN, 60 Brant St.

NERVOUS AND RUN-DOWN

Brampton, Ont.:—"A few years ago I was in a nervous and run-down condition and felt greatly in need of a tonic. A friend who was being helped by Dr. Pierce's Golden Medical Discovery advised me to try it, too. It helped me from the very start and eventually restored me to perfect health. I feel in a position to praise the 'Golden Medical Discovery' very highly and take pleasure in recommending it to all those who are at all nervous, weak or run-down."—MRS. ESTHER PEATSON.

Dr. Pierce's medicines are made of vegetable growths that nature surely intended for backache, headache, pains, irregularities, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root, Oregon grape root and Viburnum. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in liquid or tablets. It is without alcohol.

REVISION COURT SITS IN SILENCE

No Applicants Appear Before Registrar Cartmel; List of Nelson Riding Is Large

Not a single individual put in a personal appearance at the court of revision of the provincial voters' list for the Nelson riding, held Monday by John Cartmel, government agent and registrar of voters.

A few applications for placing names on the list had been filed previously, and there are a still smaller number of names to come off. With the fair sex possessing the franchise the voters' list for this riding is now a formidable document, running into thousands of names.

BOARD OF TRADE LUNCHEON AT HUME

At today's conference between the board of trade and visiting statesmen and experts, the B. C. Telephone company will not be represented, a wire from General Manager McGougan last night announcing that it was not feasible for him to send a representative.

The luncheon given by the board of trade to the visitors will be at 1 o'clock at the Hume.

At 3 o'clock this afternoon, a conference will be held at the board rooms, on district matters.

Hon. J. H. King and Hon. J. W. DeB Farris will address a public meeting at the opera house tonight at 8 o'clock, on political topics.

YOU WILL BE PERFECTLY SAFE IN LEAVING HOME TODAY OR TOMORROW, "RAFFLES THE AMATEUR CRACKSMAN," WILL BE KEPT IN STRICT CONFINEMENT AT THE GEM THEATRE, WATCHED CLOSELY BY A LARGE NUMBER OF PEOPLE.

INVITE MINISTERS TO VISIT HOSPITAL

At the session of the hospital board, held last night, it was decided to extend an invitation to Hon. J. W. DeB. Farris, Hon. J. H. King and Hon. J. D. MacLean to visit the Kootenay Lake General hospital during their visit here.

A. S. Horswill and A. D. Emory were appointed visiting members of the board.

The question of a new building to house the fuel supply for the institution was gone into at length, attention being drawn to the location of the present building necessitating too much inconvenience in handling the fuel. A committee was empowered to go into the matter and to have a small structure built to obviate this inconvenience.

Towards the close discussion centered around the financial position of the institution, it being pointed out that though many improvements and new appliances are needed, and though the board are quite willing to sanction the various innovations asked for the necessary financial support is not forthcoming.

After a little discussion certain members were delegated to wait on the provincial ministers, with a view to having them pay a visit of inspection to the institution.

CONSCIENTIOUS OBJECTOR TO WED POETESS OF PEACE

LOS ANGELES, — A brand new kind of "war romance" came to light here with the issuance of a marriage license to Harold H. Story, the notorious pacifist, late of a "conscientious objectors" camp, and Miss Ruth Le Prade, poetess of peace, protege of Edwin Markham and with Story, one of the pacifist group that was escorted to the city limits of South Pasadena by the home guards of that city during the war and warned not to return. Miss Le Prade resides at Whittier and Story has been spending the summer with his parents at Belleflower, near Artesia. His mother said that they will be married at once and both will go to Barkley, where Story expects to enter the University of California this fall.

URGES INCREASE OF INCOME TAX

Hon. T. A. Crerar Speaks at Grain Growers' Meeting—Tells Farmers to Watch Dominion Politics.

BRANDON, Mn., Nov. 18.—Advocacy of direct taxation to make up any loss in revenue occasioned by removing the customs tariff from the necessities of life, an increase of the income tax, and federal adoption of the inheritance tax, were advocated tonight by Hon. T. A. Crerar at a meeting called by the Grain Growers for the purpose of educating Brandon people in the political platform of the Canadian Council of Agriculture.

Hon. Mr. Crerar made a plea that the farmers concentrate on dominion politics for one year at least as it is there that the things that concern them most lie, such as questions of revenue, immigration, transportation and conditions of development.

The city hall was filled with people from town and district, and the ex-minister's speech was thoughtfully received. "The Canadian Council of Agriculture has formulated a platform which contains the best set of political principles before the Canadian people today," said Mr. Crerar, after explaining that the farmers having the leisure pondered matters and are making a valuble contribution to the public life and the responsibility for misgovernment in the past is directly due to the lack of interest taken in public affairs by the electorate.

"A developing sense of responsibility is stirring the hearts of men today as never before," he said. Again and again the ex-minister stated that the platform is not a class platform or class movement, but is a national platform, a new national policy for the whole Canadian people. The Canadian national debt before the war was $335,000,000, and now, since the successful flotation of the new Victory loan it is over two billions, for eight million people. There must now be raised annually for federal government purposes $325,000,000 where before the war $140,000,000 was required annually. Some of the expenditures must be maintained or increased, such as those for men broken in mind or body during the war, and because of a question of foolish railway policy ten to twelve millions must be raised annually."

The national policy announced in 1879: The protective tariff, stands today with few changes. In an agricultural country a protective tariff is a barrier to development. Is it wise or sane to add to the expense of things necessary to production? The farmer under present conditions, must buy implements in a restricted market because it is a protected market, and sell his output in open competition with the world. It is not the way to develop an agricultural country.

"The policy of protection is the greatest curse and drawback we could have in Canada. In Ontario, the finest agricultural province in Canada, it has driven people off the land into the cities. The protected industries of Canada have been one of the greatest sources for the corruption of government this country has had because it paid them to have protection, and they paid the price."

Elections cannot be run without expenses, and the Hon. Mr. Crerar extolled Assiniboia, where the electors put their hands in their pockets and subscribed the funds. There are many calls on the purse of a member of parliament, and if representatives have to buy the support of the people you cannot blame them if they sell you out when they get into office.

"If a man digs up two dollars for an election fund, he will be a better citizen therefore."

The protective tariff has bred corruption in government. The Canada Cement company was held up as a horrible example of a combine loaded with watered stock, the earning power of which is capitalized—a form of dishonesty roundly condemned, and said to be possible because of the growing tendency of people to get so nothing for nothing. Planks in the platform of the Canadian Council of Agriculture that were commended were the proposal to take off the tariff duties on farm implements.

Spent Time in Jail

Story and his Colleagues, the Rev. Floyd Harden and the Rev. Robert Whitaker, spent some time in jail here during the war. They claimed to be members of "Fellowship of Reconciliation" and said they were "Christian Pacifists." They tried to expound their doctrines in October, 1917, and were arrested for disturbing the peace and ordered to jail by Police Judge White. It was not until May, 1918, until the circuit court of appeals having finally refused to interfere, that the three men were started to work at the farm at the East Side jail, where all served full terms but Story, who was caught in the draft, Board No. 5 at Huntington park called him and the young man was released form jail and ordered to Camp Kearny. He claimed there that he was a "conscientious objector." There were 29 other objectors and all but Story and three others agreed to accept noncombatant military service.

Shorn of Poetical Hair

Story, who went to Camp Kearny wearing poetical long hair and a flowing tie, said that while he would not fight, he would also not attempt to spread his ideas among the others in the camp. While he and the other objectors were waiting shipment to Fort Leavenworth, Kan., where many conscientious objectors were confined during the war, ruthless army barbers eliminated Story's flowing hair and the tie also disappeared. At camp Story claimed that he was a Quaker and socialist. He refused to wear the uniform of a soldier, so he was given a suit of denim overalls and for seven months dug trenches, peeled potatoes and did general "kitchen police" at Camp Kearny. After the armistice was signed he was discharged and returned to Los Angeles, where he has again resumed his poetic attire and his hair is now long and wavy. He has spoken at a number of I.W.W. meetings telling of the "horrors" he experienced in an army camp.

Police officers of the "war squad," who ran Story and his crowd into jail, were not surprised to learn of Story's intention of marrying Miss Le Prade, as the officers said they were members of the same radical group throughout the war and were close friends then. Miss Le Prade is said to be a protege of Edwin Markham, who wrote a preface to Miss Le Prade's last book of verse.

As Influenza

is an exaggerated form of Grip, LAXATIVE BROMO QUININE Tablets should be taken in larger doses than is prescribed for ordinary Grip. A good plan is not to wait until you are sick, but PREVENT IT by taking LAXATIVE BROMO QUININE Tablets in time.

RASCALS

Biliousness, Headache, Colds, Constipation, driven out with "Cascarets"

Why take nasty cathartics, sickening salts, or stomach-turning oils to drive these rascals out? Let gentle, harmless Cascarets remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your skin sallow, your breath offensive, and your stomach sour. Get a box of Cascarets at the drug store and rid your liver, stomach and bowels of the excess bile, poisons, and waste which are keeping you miserable. Cascarets never gripe, never sicken, never inconvenience. They cost so little and work while you sleep.

BLOUSES

What Nuxated Iron Is Made From

Sworn Statement of Composition of Its Formula

It increases the strength and endurance of delicate, nervous, run-down folks in two weeks' time in many instances.

The Board of Directors have authorized the broadest publication of the sworn statement of the composition of Nuxated Iron, one of the most widely used tonic, strength and blood builders in the world, so that the public may examine it for themselves and judge as to its merits.

It is conservatively estimated that this remarkable formula is now being used by over 3,000,000 people annually in America alone. Among those who have used and strongly endorse it are many physicians formerly connected with well-known hospitals, former United States Senators, members of Congress, and former Health Officials.

Newspapers everywhere are invited to copy this statement for the benefit of their readers. It is suggested that physicians make a record of it and keep it in their offices so that they may intelligently answer questions of patients concerning it. Everybody is advised to cut it out and keep it. A copy of the actual sworn statement will be sent to anyone who desires such. It is as follows:

Iron Peptonate (Special specific Standard) Quantity given below.
Sodium Glycerophosphates U.S.P. (Monsanto.)
Calcium Glycerophosphates U.S.P. (Monsanto.)
P. E. Nux Vomica U.S.P.
Cascarin Bitter
Magnesium Carbonate
Po. Ginger U.S.P.
Oil Cassia Cinnamon U.S.P.
Calcium Carbonate Precip. U.S.P.

Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptonate of a special specific standard which in our opinion possesses superior qualities to any other known form of iron. By using other makes of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost; but by so doing we must have most certainly impaired their therapeutic efficacy. Glycerophosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power, as glycerophosphates are said to contain phosphorous in a state very similar to that in which it is found in the nerve and brain cells of man.

As will be seen from the above, two important ingredients of Nuxated Iron (Iron Peptonate and Glycerophosphates) are very expesive products as compared with most other tonics.

Under such circumstances the temptation to adulteration and substitution by unscrupulous persons, is very great and the public is hereby warned to be careful and see every bottle is plainly labeled "Nuxated Iron," by the Dae Health Laboratories, Paris, London, and Detroit, U. S. A., as this is the only genuine article. If you have taken other forms of iron without success, this does not prove Nuxated Iron will not help you. We guarantee satisfaction to every purchaser or your money will be refunded.

In regard to the value of Nuxated Iron, Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says it has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves and strengthening the muscles. Dr. J. W. Armistead, Grove Hill, Ala., graduate of the University of Alabama School of Medicine, Mobile, 1883, says: "In the cases I used Nuxated Iron I have found more beneficial results than from any preparation I have ever used in 34 years' practice." Dr. R. B. Baugh, Pottsville, Miss., graduate of the Memphis Hospital College, Memphis, 1898, says: "I always prescribe Nuxated Iron where a reconstructive tonic is indicated." Nuxated Iron often increases the strength and endurance of delicate, nervous, rundown folks in two weeks' time.

Manufacturers' Note: Nuxated Iron is not a secret Remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. Nuxated Iron is not recommended for use in cases of acute illness, but only as a tonic, strength and blood builder, the case of illness always consult your family physician and be guided by his advice. If in doubt as to whether or not you need a tonic, ask your doctor, as we do not wish to sell you Nuxated Iron if you do not require it. If you should use it and it does not help you, notify us and we will return your money. It is sold by all druggists. Dae Health Laboratories, Detroit, Mich.

Mining and Markets

SILVER $1.26 7-8 AT NEW YORK

NEW YORK, Nov. 18.—Silver: New York, $1.27; London, 70d.

Copper easier; electrolytic spot and last quarter 20 to 20½. Iron steady and unchanged. Antimony 9.50.

Metal exchange quotes lead easy, spot 665 bid, 675 asked. December 670 bid, 675 asked. Zinc steady, East St. Louis delivery spot 780 bid, 785 asked.

At London—Copper, spot £98 17s. 6d., futures £100 7s. 6d. Electrolytic, spot £112. Tin, spot £283, futures £284 6d. Lead, spot £34 7s. 6d., futures £34 5s. Zinc, spot £47, futures £47 10s.

C. N. R. EARNINGS

TORONTO, Nov. 18.—Canadian National Railway gross earnings for the week ending November 14, 1919, were $1,961,003, and for the period from January 1 to date $77,868,526.

The corresponding periods last year were $1,719,030 and $68,408,623.

Increases $241,973 and $9,459,903.

LOAN QUOTATIONS

MONTREAL, Nov. 18.—Dominion loans—War loans—1925, 97¾; 1931, 98¾; 1937, 99¾.

Victory Loans—1922, 100⅛; 1927, 102⅛; 1937, 104½; 1923, 100¼; 1933, 103¾; 1924, 100; 1934, 100.

WALL STREET HAS VIOLENT REACTION

Another Liquidation Movement Dominates Session—Extreme Declines in Many Issues

NEW YORK, Nov. 18.—The stock market was in the throes of another violent liquidation movement today, the reaction attacking its full force in the final hour when extreme declines in the more vulnerable issues extended from 10 to 30 points.

Stringent money conditions as indicated by the maintenance of 12 per cent rate for call loans, 7½ to 8 per cent bid for time funds, and the utter collapse of foreign exchange with the London rate at a new discount contributed to the further reversal. Minimum quotations made by a number of favorites in today's session placed some of those issues under lowest prices touched in the sweeping setback of last week, and more than cancelled recent substantial gains made by high grade rails.

Crucible Steel which more than any other stock brought about slumps at the end, was almost the only issue to evince a reactionary trend during the morning, when it broke 27 points ,losing five points between sales.

Partial recovery of this loss was accomplished by a brisk rally in related issues, but all this was dissipated when Crucible became the centre of another selling movement. At the low level the stock fell 31½ points to 178½ ad closed at 186. Final prices of several other steels, oils, motors and equipments showed net losses of three to 10 points.

Tobaccos, Textile and Motors specialties were similarly depressed and early gains in food, shippings and metal issues were mostly replaced by moderate losses.

Sales amounted to 1,150,000 shares.

Bonds were irregular to heavy, Liberty issues eased and internationals were steady.

Total sales $15,850,000.

Closing Quotations

	High	Low	Close

LIVESTOCK MARKETS

Winnipeg

WINNIPEG, Nov. 18.—(Dominion Livestock Branch).—There were 3666 cattle, 48 sheep and 410 hogs which made up the offerings for yesterday and 781 head of cattle were shipped to eastern packers, while 588 head of cattle, 161 hogs and 19 sheep went to the local packers; 84 stockers and 50 feeders were shipped to points west, while south St. Paul shipments were made up of 21 butcher cattle, 30 stockers and 739 feeders.

Today's receipts were very light, only 360 head of cattle, 200 hogs and 48 sheep being received up to 9 a.m. The decided falling off in receipts may be accounted for by the embargo placed on the arrival of cattle into the Union Stock Yards last week. Owing to the limited supply of cattle today, the market was quiet, but prices generally held firm.

Sixty-eight cars of stock are reported to arrive in the yards tonight and early tomorrow morning being reported over the C.P.R.

Steers, choice 10.50 to 11.75' fair to good 9.00 to 10.25, medium 7.50 to 8.50, commons 6.00 to 7.25. Butcher heifers, choice 8.75, fair to good 9.00 to 10.25, medium 7.50 to 8.50, common 6.00 to 7.25. Butcher cows, choice 8.50 to 9.75, fair to good 6.75 to 8.25. Canners and cutters, 4.50 to 5.50. Bulls, good 5.50 to 6.25, common 5.00 to 5.25. Oxen, good 7.50 to 8.50, medium 6.50 to 7.25. Feeders choice 9.00 to 10.00, fair to good 6.50 to 8.50. Stockers, choice 7.50 to 8.00, fair to good 5.50 to 6.50. Calves, choice, 8.00 to 9.50, good 6.00 to 7.50, common 5.75 to 6.25.

Sheep and lambs: Good lambs 12.00 to 13.00; good sheep 8.00 to 9.00.

Hogs, selects 16.00; heavies 14.00; lights 15.00 to 15.50; sows 12.00 to 13.00.

Montreal

MONTREAL, Nov. 18.—(Dominion Livestock Branch).—Cattle receipts 1152. No good cattle were offered. Prices for common butcher cattle remained unsteady. The price for canners were a little firmer there being a steady demand from outside sources. There was a good demand for bulls. Calf receipts 675. Grass calves strong, selling in some cases, up to 7.50.

Sheep receipts 1150. Lambs sold readily at yesterday's prices, showing considerable firmness.

Hog receipts 885; market strong. Selects sold off cars 17.25.

Toronto

TORONTO, Nov. 18.—(Dominion Livestock Branch.)—Cattle receipts 1862. Trading quiet, few really choice cattle being offered, but best qualities offered sold at 11.00 to 11.50 Cows and bulls were steady and a good demand existed for stockers and feeders. Calf receipts 179. Trade quiet at slightly easier prices.

Sheep receipts 1986. Lambs had a good steady trade with best quality selling at 14.00 per 100.

Hogs, receipts 654, market unsettled and no sales were made, but packers are standing out for a cut of 50 to 75 cents per 100.

LEGAL NOTICES

IN THE SUPREME COURT OF BRITISH COLUMBIA

In the Matter of the Estate of Bruce White, Deceased

TAKE NOTICE that by Order of His Honour, Judge Forin, dated the 2nd day of December, 1918, Letters Probate of the Will of the Late Bruce White, of Sandon, B.C., deceased, were granted by this Court to Mary Elise White, the Executrix therein named ,and all parties having claims against the said estate are hereby required to furnish same properly verified by Statutory Declaration on or before the second day of December, 1919. AND FURTHER TAKE NOTICE that the said Executrix will after the said last mentioned date proceed to distribute and administer the said estate according to law, having regard only to the claims of which she shall then have received notice.

Dated at Nelson, B. C., the 1st day of November, 1919.

DONAGHY & DONAGHY,
Solicitors for Mary Elise White,
(4963) Administratrix.

IN THE SUPREME COURT OF BRITISH COLUMBIA

NOTICE TO CONTRACTORS

Highway Bridge, Over Goat River, Near Erickson

SEALED TENDERS, superscribed "Tender for Goat River Bridge, Erickson" will be received by the Honourable the Minister of Public Works up to noon of Tuesday, the 25th day of November, 1919, for the erection and completion of a Highway Bridge over the Goat River, near Erickson.

Plans, Specifications, Contract, and Forms of Tender may be seen on and after the 4th day of November, 1919, at Department of Public Works, Parliament Buildings, Victoria, B.C., at the office of the District Engineer, Court House, Vancouver, B.C., and the office of the District Engineer, Nelson, B.C.

Plans may be obtained from any of the above mentioned upon payment of a deposit of $5.00 which will be refunded upon return of plans.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works for the sum of ten per cent of the amount of the tender for the due fulfilment of contract, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.
Public Works Department, Victoria, B. C., Oct. 29, 1919. (4962)

THE PRINCE AT VERNON, B. C.

ACTIVE TRADING IN STEEL AT MONTREAL

MONTREAL, Nov. 18.—Outside of the active trading in Steel and the sudden easiness in the closing prices on the break in New York there was little feature to the market here today. In the early trading Iron made a new high for the year at 73¾ but eased to 72½ at the close, unchanged from Monday. Closing bid was advanced to 72⅞. Steel of Canada sold up to 76 and closed at 75⅞ Ontario Steel made a net gain of 1¼ points at 49¼. Canada Steam ships which sold up 1½ points to 73 at the close, was offered at 71½, without bids. Ames Holden made a new high at 121½, then broke sharply at the close to 117½, a net loss of 3½ points. The preferred finished the day one point up at 114, but eased to 113 bid.

Detroit dropped sharply to 106½ at the close, a net loss of 1½ points but firmed to 106¾ in the final bid. Asbestos gained 1½ at 85 with 84 bid. The preferred lost a point. Sugar was down a small fraction for the common but advanced one point to a high of 123 for the preferred. The bond list was irregular but inclined higher. In the industrial list Quebec fives rose 1½ to 64½.

Total sales, stocks 17,412; bonds $335,400.

GRAIN MARKETS

CHICAGO, Nov. 18.—Fear that the extended railway freight embargo might continue indefinitely the coal strike continued much longer, did a good deal today to lift the price of corn. Closing quotations were at one to four cents higher, with December 134 to 134½ and May 160 to 162½. Oats finished ⅜ to ½ cent up and provisions varied from 45 cents decline to a rise of 40 cents.

STERLING EXCHANGE

NEW YORK, Nov. 18.—Sterling exchange again weak at 4.01½ for 60 day bills and 4.06 for demand.

WINNIPEG GRAIN QUOTATIONS

DOMINION STEEL GAINS ON TORONTO EXCHANGE

TORONTO, Nov. 18.—There were two features of the local stock market today, Dominion Steel, which made a gain of 2¾ points, and McIntyre, which scored a new high at 210. Steel of Canada was active to the extent of 210 shares, opening at 75, reaching 76 and closing at 75¾, a net gain of ¾ points. McIntyre, on the standard exchange, closed at 211. Hollinger was unchanged at 25. Canada Bread Common made a net gain of 2¾. Thirty shares of Twin City came out and scored a net loss of 3½ points. Canadian General Electric lost ½ and Consumers Gas gained ½.

MONTREAL PRODUCE

MONTREAL, Nov. 18.—Eggs firm and unchanged. Potatoes strong and advanced. Butter in demand. Cheese heavy.

Cheese, finest easterns 28.

Butter, choicest creamery 65.

Eggs, fresh 80; selected 65; No. 1 stock 58; No. 2 stock 53.

Potatoes, per bag, car lots $2.00 to $2.30.

YOU WILL BE PERFECTLY SAFE IN LEAVING HOME TODAY OR TOMORROW. "RAFFLES THE AMATEUR CRACKSMAN," WILL BE KEPT IN STRICT CONFINEMENT AT THE GEM THEATRE, WATCHED CLOSELY BY A LARGE NUMBER OF PEOPLE.

RECIPE CORNER

Put in a cup one egg, half fill cup with melted butter (or half butter and half chicken fat, fill cup with milk; put in mixing bowl, then add one cup sugar, 1½ cups flour, 1 ½teaspoon salt, one teaspoon vanilla. Beat well. Put all to one side of dish but about two tablespoons of mixture. Into that put two teaspoons of cocoa Mix well ,then stir into the rest by pulling spoon through two or three times. Don't hurry.

Potato Croquettes

Beat the yolks of two eggs until light and add them to two cupfuls of mashed potatoes, then add two tablespoonfuls of cream, one tablespoonful of salt, a grating of nutmeg, a dash of cayenne ,one tablespoonful butter the size of a walnut. Mix the ingredients and turn into a small saucepan, stir over the fire until the mixture leaves the sides of the pan, take from the fire and when cool form into cylinders. Roll first in egg and then in bread crumbs and fry in boiling fat. For bean croquettes cut the beans into pieces an inch long and lay them in clear, cold water for 30 minutes. Drain them, put into a saucepan, cover with boiling water and boil one hour. Drain and press the beans through a colander; then add one tablespoonful of molasses, one tablespoonful of vinegar, one tablespoonful of butter and salt and cayenne pepper to taste. Mix well and stand away to cool. When cold form into small balls, dip first in egg and then in bread crumbs and fry in boiling fat.

Bean Croquettes

One pint of white soup beans, one tablespoon of vinegar ,one tablespoon of molasses, one tablespoon of butter, salt and cayenne to taste. Boil the beans as directed in preceding recipe. When done, drain and press them through a colander, then add the other ingredients, mix well and stand away to cool. When cool, form into small balls, dip first in egg and then in bread crumbs, and fry in deep hot fat.

Boston Roast

One pound can kidney beans, or an equivalent quantity cooked beans, one-half pound grated cheese, breadcrumbs, salt.

Mash beans or put through a meat grinder. Add cheese and enough breadcrumbs to make a stiff roll. Bake in a moderate oven, basting occasionally with butter and water. Serve with tomato sauce. The dish may be flavored with onions chopped and cooked in butter and water.

For kidney beans with brown sauce, put one tablespoon of butter in a saucepan and brown, but do not burn it. Add one tablespoon flour; stir and brown again. Add cup good stock (beef is best); season with salt and pepper. Cook one pint fresh shelled beans in salted water until tender. Add the sauce, and cook one minute longer.

MARRIAGE PORTION IS DERIVED FROM EARLY CUSTOM

Among far older civilizations than that of the Anglo-Saxons the system of wife-purchase hall ceased before Britain was a real country. The Indian law-giver, Manu, strictly forbade it, and said: "A man who, through avarice, takes a gratuity, is a seller of his offspring." In the historical times of the Greeks they no longer bought wives. In Rome "coemptio" was only a symbol of the ancient custom. In the Jewish Talmud the purchase is also symbolic ,as is frequently the Mohammedan "mahr". Withal, the bride price, "foster leans' and marriage gifts, when returned, were converted into dowry and became at first the bride's property. Thus marriage portions chiefly derived their origin from the habit of purchase, and dowry often became, as with the Hebrews ,a religious duty. Not less than the tenth of the father's property was considered a just dowry. In Aristotle's time nearly two-fifths of all Sparta belonged from this cause to the women. Sir Henry Maine considers that the amazin gthrift of the French is also owing to this custom, which probably descended to them from the marriage law of Augustus Caesar. It was only by an anachronism that Euripides made Medea lament that women were abliged to purchase husbands at a great price. And it is often as true today as when the Latin poet sang.

When marriage ceremonies first did arise it was by degrees and in many ways, and customs such as capture when superseded became by symbolism a part of the suceeding legal form of contract. To eat maize pudding from the same plate or to eat in any way together is a widely distributed marriage ceremony. In Brazil a couple may be married by drinking brandy together; in Japan by so many cups of wine; in Russia and Scandinavia it used to be one cup for both. The joining of hands among Romans and Hindus is common in many parts of the world. In Scotland it is called "hand fasting," and couples live together after. To sit on one seat while receiving friends or to have the hands of each tied together with grass, or to smear with each other's blood, or for the woman to tie a cord of her own twisting around the naked waist of the man constitutes marriage in one place or another. In Australia a woman carries fire to her lover's hut and makes a fire for him. A Loango negress cooks two dishes for him in his own hut. In Croatia the bridegroom boxes the bride's ears, and in Russia the father formerly struck his daughter gently with a new whip—for the last time—and then gave the weapon to her husband.

FIRST BRITON IN JAPAN

Travelers may see at the Japanese port of Yokosuka two stone lanterns which perpetuate the memory of William Adams, said to have been the first Englishman who ever settled in that country. Adams was an Elizabethan who had ben apprenticed to a shipbuilder, served later in the Queen's navy a d reached Japan in 1600, with a few companions on the only surviving vessel of a small Dutch trading fleet.

He was taken under the protection of the Emperor and remained in Japan although he had opportunity some years later to sail for England on a British trader. The English seaman became shipbuilder and foreign counsellor to the Emperor and was also instrumental in the remote beginning of trade relations between his native and adopted countries. Historically one might plausibly trace a sequence of events from his arrival in Japan, 319 years ago, to the relations between British and Japanese representatives at the council board in Versailles.

WORK MUCH MORE EFFECTIVE THAN WRANGLING

Canada has a lot of problems on its hands. So has every other country.

Whether these problems will be solved satisfactorily will depend upon how they are tackled.

There is not a difficulty before Canada at the present time which cannot be overcome.

But difficulties are best overcome by hard work. Grousing does not get one very far, and it hampers the fellow who is trying to do something.

That is a lesson which needs to be taken to heart by the peoples of most countries.

One ounce of real work is worth a ton of wrangling.

LORD FISHER ON ROYAL CHARM

Prince Edward, in his departure from Canada, has taken the affection of all Canadians with him. Endowed with a very peculiar charm of personality which has captured the hearts of the people everywhere he has gone, had he done nothing more while in this country than treat us to that rare smiles of his he would have gone away perhaps the most popular prince that ever visited Canada. But he has displayed wherever he has been two other qualities which have increased our regard for him to the very last possible degree—the qualities of kindness and wisdom. His last act before leaving Ottawa was typical of his conduct while in the Dominion—his visit to the sick room of Captain Leonard Askwith, whose illness had prevented him from attending the recent investure at Government House to receive his military cross. His wide knowledge of affairs and his remarkably acute views on them have been indicated in his addresses throughout the country.

Prince Edward has frequently been likened to his illustrious grandfather, the "Peacemaker," and his career promises to be altogether as influential in promoting good will among the nations. Edward VII had the same personal charm and the same instinctive kindness. It has been said of him that the people of France, which country he visited so often, regarded him almost as belonging to them, entertaining the deepest affection for him. Lord Fisher, who accompanied him on many of his journeys, relates in his memoirs, chapters of which are now appearing in the London Times, several instances of the intense kindness which inspired this regard. One of these is quite characteristic. Lord Fisher writes:

I mention another excellent illustration of King Edward's fine and magnanimous character, though it's to my own detriment. He used to say to me often at big functions, "Have I missed out anyone, do you think?" for he would go round in a most careful way to speak to all he should. Just then a certain Admiral approached—perhaps the biggest ass I ever met. The King shook hands with him and said something I thought quite unnecessarily loving to him; when he had gone he turned on me like a tiger and said, "You ought to be ashamed of yourself!" I humbly said, "What for?" "Why!" he replied, "when that man came up to me your face was perfectly demoniacal! Every one saw it! and the poor fellow couldn't kick you back! You're First Sea Lord and he's a ruined man! You've no business to show your hate!" and the lovely thing was that then a man came up I knew the King did perfectly hate, and I'm blessed if he didn't smile on him and cuddle him as if he was the long-lost brother, and then he turned to me afterwards and said with joyful revenge, "Well, did you see that?" Isn't that a great heart? and is it wondered at that he was so popular?

It was these qualities of personal charm, kindness and wisdom by which King Edward was instrumental in promoting good feeling among the nations and earning for himself the title of the "Peacemaker."

It is a certainty that the visit of the Prince of Wales to the United States will very materially further the desired unity between that country and Britain.

PRODUCTION FROM FARMS CAN HELP SOLVE PROBLEM

Hon. S. F. Tolmie, Canada's new minister of agriculture, has summed up the outstanding facts of Canada's agricultural position in an article appearing in the November number of the Agricultural Gazette. He presents statistics showing the growth of Canada's financial burden during the past five years and points out means by which its national debt will be reduced.

He says, in part: "I am confident that this Dominion, through the development of her natural resources, will in time wipe out her debt. Forests, fisheries and mines all contribute their part of the revenue but by far the greatest returns will be derived from agriculture, which industry we must continue to establish in permanency and increase in magnitude.

"One of the greatest responsibilities that falls on either the federal or provincial department of agriculture is the conservation of the great wealth that lies in the virgin soil. Innumerable considerations are involved in this one problem, but the whole affair can be accomplished if we engage in mixed farming with livestock as a basis. This is the fundamental principle underlying success in agriculture."

The minister's conclusion is eminently sensible. Canada's debts can be easily paid by increasing production.

COMMUNICATIONS

DOUKHOBORS AND VICTORY LOAN.

To the Editor of
The Nelson Daily News—

Sir,—The Christian Community of Universal Brotherhood, Ltd., had completed the year of 1918 very hard in so far as the living is concerned, also in cash transactions. But the year of 1919 is terming little better. The Christian Community of Universal Brotherhood have had a good crop at Saskatchewan, but I should say that the community has only limited amount of land there for the reason that practically all people have settled in British Columbia, in Kootenay district, around Nelson and Grand Forks, and for ten years the people are unable to succeed so far to make their living on the land where they live in British Columbia, and therefore, I, Peter Verigin, as leader of the Christian Community of Universal Brotherhood, Ltd., express by this letter to Canadian and provincial government, also people of Canada, an apology that the Christian Community of Universal Brotherhood, Ltd., had been unable to give large sum for Victory Loan toward the general help against the past year.

I have had a meeting at Brilliant, and all people, men and women, had expressed their hearty regret that the Christian Community of Universal Brotherhood, Ltd., had been unable to make a larger investment for Victory Loan and had set aside rather a small amount, namely: Two thousand dollars for Trail, two thousand for Grand Forks, three thousand for Nelson and three thousand dollars for Veregin, Sask., altogether, the sum of ten thousand dollars. All the people of the Christian Community of Universal Brotherhood are deeply regreted that this is only a small amount for such large community of the Christian Community of Universal Brotherhood, a settlement of about seven thousand. But I must explain that the Christian Community of Universal Brotherhood, Ltd., has about 700 men from 18 years of age to 50, and the balance are all elderly men, women and children, and in such heavy timbered and stony place as British Columbia it is very difficult to make a living, but I can say in two or three years time the land in B. C. is going to bring a considerable amount of profit. The community has over 3000 acres of good orchard under the best possible cultivation, which after few years of time is going to bear.

I can say with pleasure to the Canadian government and all the people of Canada that the Doukhobors are very solid with British nation, this could be proved by the fact as the Doukhobors are living safely in Canada for twenty years and there seems to be very few cases that had been existed of criminal charges. The fundamental principal of the Doukhobors is toil and peaceful life.

The designated amount of $10,000 had been regretably loaned from the bank in order to purchase the Victory Loan bonds, because this year the community has ben unable to cover their own payments for many and many thousands of dollars for the reason that the land in British Columbia so far is not giving any profit, but I trust that in time yet to come the Doukhobors at any rate will help to the needed people of Canada.

Yours truly,
P. VERIGIN.
Brilliant, B.C., Nov. 17, 1919.

BRIDGE DESIRABLE

To the Editor of The Daily News:

Sir:—Allow me, through your valuable paper, to express the pleasure I have derived from a three months' visit to your glorious country.

You certainly have some of the grandest scenery it has been my lot to see anywhere, and I have traveled a great deal. The natural resources, too, of the country are to a stranger simply wonderful. The wealth of minerals and timber will, I am sure, in time tend to make this district one of the richest and best developed in the west.

Especially was I interested in the fruit growing possibilities of the country and am fully convinced that the fruit industry here when fully developed will, both in production and quality of fruit, surpass any other district in British Columbia.

I may say I visited a number of ranches in the district and made searching inquiries into existing conditions and most everyone visited was distinctly optimistic. You have along the West Arm of the lake some ideal locations for home sites and orchards, and in most places around the country a good supply of cool, pure, sparkling mountain water is available both for domestic and irrigation purposes.

You will pardon me if, in closing, I mention (what appears to me, a stranger), your antiquated ferry service, which I consider is a distinct drawback to a glorious and otherwise progressive country.

It appeared to me as I have looked down the river toward the city that a well built modern bridge tastefully designed would add much to the attractiveness of your city and district and would be a great help in the development of the country.

"TRAVELLER."

MYSTERY SHIP SANK WITHOUT LEAVING TRACE

The graves of the freighters which go down in the storms of the Great Lakes are not always undisturbed, and the sandy bottoms of Erie and Ontario do not always become the last resting place of the ill-fated vessels which fall prey to the gales. Even when boats are lost without a trace to show where they sank it is not infrequently that they are discovered by chance and raised to further usefulness by the application of science on the part of engineers and energy on the part of the great wrecking companies of the lakes. Such is likely to be the case with the lost car ferry Marquette and Bessemer II, which after ten years on the bottom of Lake Erie is now believed to have been located.

Ever since the Bessemer disappeared in the storm of 1909 there has been a continuous search for her. The ferry is a steel built vessel several hundred feet in length, and of modern construction with her cargo of many cars of coal she would be a prize well worth the effort of a long search and consequently an effort has been made to locate her.

At various times reports have been given credence to the effect that the last resting place of the great car ferry had been discovered, but every time this was proven to be wrong. On the night that the Bessemer disappeared she was seen off the harbor of Port Stanley, trying repeatedly to gain entrance. Each time, however, she was carried to the south by the terrible gale, her siren sounding the distress signal as she disappeared in the storm.

Fishermen and villagers gathered at the pierhead to watch the repeated efforts of the coal boat to get through the harbor mouth. Late at night she disappeared to the southwest for the last time, and soon afterwards her signals of distress were heard no longer. In the morning she was gone from the lake, and not a board or rope ever gave evidence of where she sank. Not a survivor ever appeared, nor was a body ever recovered. The mystery of the vessel's disappearance was relegated to the long list of similar mysteries of the Great Lakes, and after a time it ceased to be a matter of wonder.

Then came the efforts to locate the hulk. From Port Stanley dredging boats and search parties went out in every direction to try to find where the wreck lay. The bottom for miles around the port was literally combed without result. Farther out the vessels went and continued their cruisings for years. A few months ago a plan was proposed by which an airman should fly over the lake and make observations where he could see bottom, and in this way try to find the Bessemer. The plan was given up after the first two hours' flight, and the searchers went back to their tugs and grapnels.

A few days ago while cruising between Port Stanley and Rondeau, Capt. Stevens, on one of the tugs of the Midland Steamship company, picked up a bit of wreckage from a considerable depth of water, which he believed to be from the hull of a boat. Investigation indicated that a vessel of some kind lay below, but further efforts failed to bring up any evidence of the name of the lost ship. A spar and rope that finally came to view seemed to suggest that the hulk was not that of the Bessemer, and it was agreed by many that it would be either the Mereda or the Colgate, sister ships lost on Lake Erie in the September storm of 1917. However, such was the distance between places where bits of wreckage appeared, that it was concluded that a bigger boat than either the Mereda or the Colgate lay below. Nothing was left to believe, then, but that the Bessemer was found, and accordingly Capt. Stevens called in the other tugs and left for Toronto.

The next step will be the bringing of diving apparatus to the scene, which has been carefully marked. It is probable that after a couple of descents to the wreck, the diver will be able to state definitely what vessel it is that the searchers have located.

The announcement that the Bessemer is probably found after her long unchartered residence with Davy Jones has roused the greatest interest in lake ports everywhere. The story of the big car ferry had been a tradition widely known, and word of her discovery was on the lips of sailormen from Port Colborne to the Soo.

There are other wrecks of the lakes that have defied discovery, and nearly every port has a story of some freighter which foundered off that part of the Coast with all hands. There was the Chas. S. Price, too, the "mystery ship" which finally floated after being under the surface for days, then keeled over again and sank for good just when the divers were beginning to get in their work on her. There was the Wexford, a victim of Black Friday, like the Price, which went down somewhere off Goderich and never sent a sliver ashore to indicate her whereabouts.

THE BAOBAB TREE

The gigantic baobab tree of Central Africa, the trunk of which sometimes attains a diameter of 40 feet, often serves as a natural cistern, retaining rain water in large quantities in a cavity formed at the top of the broad trunk. Taking the hint thus afforded by nature, the Arabs artificially hollow out the huge baobabs and fill them with water during the prevalence of rains, as a provision against the dry season. These cisterns are in many cases 20 feet in height and eight or 10 feet in diameter.

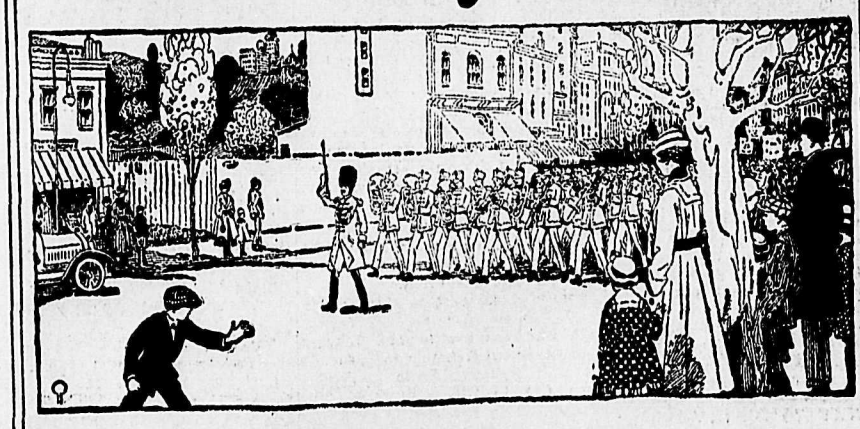
"Here They Come!"



It is the cry of the children when a band is heard far down the street. Nearer and nearer it draws until each note becomes clearer and clearer.

To those in the city this is a familiar picture. But to those residing in suburban towns stirring strains of band music are more rare.

The NEW EDISON

"The Phonograph with a Soul"

in your home makes it possible for you and your children to have at all times the wonderful march music that has inspired the world.

Wherever you live—on the farm or in town—let the New Edison bring the parade, with all its glamour, into your living room, every instrument, every note as clear as a real band—thanks to the genius of Thomas A. Edison.

We tell a wonderful story about the New Edison in a beautiful book that you should have. It is called "Edison and Music". Ask for it; and also for "What the Critics Say".

GUNPOWDER

Black powder is the original gunpowder. It consists of pulverized charcoal, sulphur and saltpetre mixed together. Both sulphur and charcoal are inflammable, and if they are ignited they will burn as fast as air can be supplied to complete the combustion. When saltpeter is heated it gives off oxygen. By mixing with charcoal and sulphur enough saltpetre to supply the necessary oxygen for complete combustion, we obtain a mixture than can burn without the aid of air.

As soon as sufficient heat is applied, the saltpetre gives off oxygen which burns the adjacent sulphur and charcoal, forming more heat, which decomposes the surrounding saltpetre, thus continuing the process. As the combustion does not have to wait for air to be supplied, it spreads through the mass with practically instantaneous speed.

MENTAL WORK NEEDS A STOMACH

Great Mistake to Imagine You Can Work Better and Faster on the Starvation Plan. Eat What You Like But Follow With Stuart's Dyspepsia Tablets

Mental work uses up energy fast. And energy comes from food. To eat little or nothing in order to do more work is a fallacy that has created an army of dyspeptics. A better plan is to eat the regular portions of food such as make up the average meal and follow each meal with Stuart's Dyspepsia Tablets.

You will then get a double benefit—energy from food and socialibility with meals, for as a rule, the light eater, or those who skip meals, get into a bad habit, a rut, of hermit-like isolation. Do not be afraid of gassiness, sour stomach, heartburn, heavy feeling or coated tongue after meals. Stuart's Dyspepsia Tablets arouse the stomach to secrete the juices necessary to relieve these troubles that so frequently distress the mental worker. They contain harmless ingredients which act with an alkaline effect, so you may eat the rich things of the banquet or the savory sausage for breakfast with utmost freedom.

Get a 50-cent box of Stuart's Dyspepsia Tablets at any drug store, eat freely of what you like and you will do more and better work than on a skimpy diet. Try this plan.

Mrs. Mitchell spent a few days in Nelson during the week.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

GRAND FORKS MAN IN DIFFICULT STRAITS

GRAND FORKS, Nov. 18—Ole Everson, an old man, 72 years of age, who has been living alone in a shack on Morrison creek, was brought into Grand Forks Hospital Friday by Provincial Constable George Stanfield. Everson was in a weak, neglected condition. Not a scrap of firewood to use for cooking or heating the shack. He is reported today to be slowly recovering.

Harvey Griswold, manager of the Inland mine at Paulson, has sold his store, some time ago acquired from the Paulson Brothers.

The Molly Gibson mine at Paulson is putting on a larger crew for the mine and also some teamsters to rawhide ore to Paulson.

Miles Barrett, who has been general foreman of the Granby smelters in this city since it was first blown in, left Tuesday with his family for Anyox, where he will be employed in a similar position by the Granby Company. Before coming to Grand Forks Mr. Barrett was connected with the Hall Mines smelter at Nelson.

Mrs. J. C. Taylor and daughter are visiting with Mrs. Taylor's sister at Vancouver.

J. A. Sutton, of Lethbridge, was a Grand Forks visitor Saturday.

L. C. O'Dell left for Rock Candy mine, where he expects to put in the winter.

J. P. Flood, of Greenwood, will open a butcher shop in Grand Forks in the near future.

An enthusiastic meeting of those interested in curling was held in the city hall Friday evening when the Grand Forks Curling club was reorganized. The following officers were elected: President, P. A. Z. Pare; Vice-President, N. L. McInnes; Secretary-Treasurer, S. T. Hull. The ice committee is composed of C. H. Niles, William Bontheon, R. L. Hodgson and Don Manley. A great deal of interest was taken in the proceedings of the meeting and the impression appeared to prevail among those present that there was splendid sport ahead for the coming winter.

Snow in the valley is disappearing fast on account of the soft spell with occasional showers. sleighing on the city streets is already a thing of the past. Potatoe growers are in hopes that it will remain soft for awhile to enable them to finish digging their spud crop.

The city is preparing to dig a well in the city park near the power house, to be used for domestic purposes.

Lewis Johnson, principal owner of the Union mine at Franklin camp, was in Grand Forks Saturday for provisions. He stated that the bond acquired on this property some time ago by the American Mining and Smelting Company had not been taken up. Four men are now working on the property and will be employed all winter to get out ore and prepare the mine for more extensive operation in the spring. A half car of ore is now on the dump of the company at Lynch creek. Sufficient ore to ship another car before winter will be hauled out on sleighs. The company is preparing to purchase several trucks by spring to haul ore from the mine to Lynch creek.

Paddy Smith is in the city from the Rock Candy mill at Lynch creek, for the week end.

Dan McKinnon, accountant at the Jeff Davis & Company store, left for his old home in Ontario.

J. Dorman, timekeeper for the Great Northern construction camp at Phoenix, was in town Friday and Saturday. He says that the work of dismantling had to be stopped at Phoenix on account of the deep snow. The extra gang is now working tearing up the smelter tracks.

YOU WILL BE PERFECTLY SAFE IN LEAVING HOME TODAY OR TOMORROW. "RAFFLES THE AMATEUR CRACKSMAN," WILL BE KEPT IN STRICT CONFINEMENT AT THE GEM THEATRE, WATCHED CLOSELY BY A LARGE NUMBER OF PEOPLE.

EVERY MAN WHO WEARS BUTTON NOT ALL HE SEEMS

Sergt. Aldons of the battalion was supposed to be armorer-sergeant. He was not efficient; never ought to have come along at all. The colonel fancied him though, back in Toronto during the formation period, and although told by the ordnance people that "the man was not fit for the job," persisted in his desires. It is a way colonels have at times, and a mighty awkward way it is, too. The sergeant reached England with his inefficiency, also France with the same incubus. Here, his brave front went to pieces, and he was a burden to all concerned. Never saw the front, never tinkered a rifle, never earned his passage, was only a nuisance. So, back he came to talk largely of his experiences, always growing larger, to get a button and become a veteran.

Late in 1918 the last batch of draftees went forward; they naturally included many of those who through no fault of their own had not got over before. The batch also included many who were quite unwilling and quite the last lot one would pick for heroics. Bill Fouiks was a sample of the latter. His general makeup and character shoved him into the cook-house help class. These are generally men who, husky enough, do not yearn for drill and smartness, but rather for easy-going jobs about camps and such. He reaches France about November, 1918, is attached to a celebrated Toronto unit, does his share of cookery chores, still craving the fleshpots, and comes back in the spring of 1919 quite a hero, by the cheers which greeted him; gets a button, too.

The captain in this salade had been a captain for some years before the war. He was the very sort you would think useful. The colonel fancied him muchly and you have been told that colonels' fancies are to be thoroughly respected. So, in spite of the warnings of those higher up, the persistency of the colonel told, and the captain went over to England with the battalion. Here his usefulness was found to be quite a minus quality, and when the battalion went to France, he stayed behind. By this time the colonel has seen light. The captain worked in a way for a while, had a trip to Canada on some vague grounds, came back to England, loafed some more, got sent to France on what is called Town Major's work, called "house-keeper's" by the men, came back to Canada and got a button.

All salades have four parts if properly made. The fourth part of this one concerns an ordinary private who never did anything, never got anywhere, never had any great desires or ambitions, or if he had certainly kept them to himself. Eventually he came along to the demobilization period. He had had a couple of years' work as a soldier and had been duly paid, fed, and clothed. In spite of there being a war on of real bigness, no one had ever contemplated for a moment sending this man forward. He wasn't good enough to send, and so quietly loafed away here at home. There are quite a lot of these. When he came up for discharge, "Got your button?" No sir!" "All right, here you are,' and he gets his button.

Now put the dressing on the salades and make up your minds, that every man who has a button is not all he seems. It is a worthy badge and an honorable one, but there are tares in most wheat.

GERMAN WOMEN QUICK TO SEIZE SUFFRAGE RIGHTS

Germany's suffragettes who are not militant have been quick to seize the opportunities for equal rights with men that are offered by the new constitution. Greater Berlin gained the honor during the last week of September of choosing a woman as alderman, the first to hold the place. Kolesieck a Berlin suburb, made famous by the laughable exploit of William Voight, the cobbler, elected as alderman Frau Emelie Ehm, an ultra-radical Independent Socialist. Potsdam, too, has elected its first woman town councillor. Fraulein Krosn, an employee in a telegraph office there.

A statistical investigation disclose the remarkable fact that nearly seven per cent of all Germany's legislators are women. One hundred and fifty three women are sitting in German parliaments. The heaviest representation is 38 in the National Assembly, and there are 21 in the Prussian Assembly. The highest percentage of women is in the miniature parliament of the little principality of Reuse, where there are three women to 18 male legislators. In the Gotha Assembly, also, where there are two women to 19 men, and in the Hamburg Assembly, which numbers 17 women out of 184 legislators. Eighteen state parliaments in Germany have women, only seven have not. It is significant that of Germany's women legislators, 64 are Social Democrats, 37 belong to the Democratic party, 13 to the Catholic Centre, 13 are Independent Socialists, nine are Reactionary Conservatives.

BRANCH AT NELSON RETRAINS FIFTY MEN

Twelve Doing Vocational Work Here —Names Wanted of Employers With Openings

Between 40 and 50 men have taken up courses in vocational retraining under the local branch of the department of soldiers civil reestablishment in the last 10 months. Ten other applications for re-training have passed through the local office and are awaiting approval by the board.

Of the men who are already undergoing retraining about 12 have been placed in Nelson with various firms, business houses, and schools, each position representing as far as possible, the student's own choice of profession.

The vocational courses offered are so elastic as to fit almost any class of work a prospective student can demand.

Twelve Training in City

For example, of the men being retrained in the city two are taking courses in assaying, two in motor mechanics in a local garage, one is placed in the local power station, one is being trained in newspaper work, and two more are learning store keeping with city business men. Three others are taking commercial courses and a fourth is continuing his studies at the high school preparing for his matriculation examinations.

Of the remainder from this district, some are as wildly scattered as Toronto, Montreal, and Vancouver. Two are at Toronto University taking courses in dental mechanics. One is at McGill university studying medicine. Two others are learning gas tractor operating in Calgary. Several more are at the Trail smelter in the assaying and electrical department. By far the largest number are at Vancouver, taking courses in various lines, such as, vulcanizing, telegraphy, both commercial and wireless, motor mechanics, massage, electrical engineering, stationary engineering and general store work.

Among the applications not yet approved are enquiries for such widely differing vocations as beekeeping, navigation, and show card writing, in addition to some courses already mentioned.

A very large numbr of men have applied and are applying for training in motor mechanics and in electrical engineering, so many in fact, that the classes are over-crowded, and future applicants will have to wait a considerable time before gaining admission to classes in these two professions.

Much has been done in the way of placing men with local employers for retraining thereby relieving somewhat the congestion of students in the larger training centres like Vancouver. J. Burton, local representative of the department of soldiers civil reestablishment, adheres to the policy of placing men locally whenever possible. Such men would receive the regular vocational pay from the department, and would have the added advantage of being trained in their home town. Men from other localities no doubt could also be placed with local firms, and for this purpose employers, who are willing to give some tuition in a recognized branch of trade or business in return for the services of the student are asked to communicate with the local office on the matter.

LOCAL POULTRYMEN TO SECURE SPECIALS

Will Have Nelson Represented on District Show Prize List—President Harbinson Removes

At the request of the Grand Forks Poultry association, which stages the district fair this season, the West Kootenay Poultry & Pet Stock association last night decided to have Nelson well represented in the list of donors of special prizes. George Horstead and A. Wallach were appointed a canvassing committee to secure the specials. Secretary Wallach was named Nelson representative on the district show committee.

It was decided to offer the usual $10 special prize at the provincial show at Vancouver in January. In this connection, it was reported that utility pens at the provincial show will consist of a male and three females, instead of a male and four females as in previous years.

President F. J. Harbinson, of P. Burns & Co., who moved to Cranbrook about three weeks ago, forwarded his resignation, which was accepted with regret. Mr. Harbinson having been a hard and consistent worker in behalf of the local poultry industry. Mr. Harbinson's letter was in part as follows:

"I may say that I regretted leaving Nelson at this time, as everything seemed to be on the right way of furthering the poultry industry to a point where the results would be lasting, and I think that the material you have in your district will work with one accord to secure the end that we had hoped to find.

"Although I will not be among you, yet I will hope to help you along at all times should you want any assistance, financially or otherwise. Thanking you all for the assistance which you kindly gave me in trying to perform my duties."

Vice-President J. Armstrong will fill the chair for Mr. Harbinson's unexpired term.

POPULAR OFFICER IS LEAVING FOR LONDON

Capt. Rennie, Lately of 225th Battalion, Will Join Staff of War Office; Old Resident Here

Capt. R. S. Rennie leaves tomorrow morning for London, where he intends to join the British regular forces, and expects to be appointed on the staff of the war office. Mrs. Rennie will join him in the early spring, when he has decided in which port they will live.

Captain Rennie, after a period of residence at the coast, moved to Nelson about 12 years ago and is well known in this city and the district. He also lived at Bonnington Falls for several years and was one of the keenest of fishermen and shots, many a rainbow trout having fallen to his rod on the famous Slocan pool. He has also hunted over most of the mountains in the district and knew most of the trails. Captain Rennie was one of the officers of the 225th battalion, only returned from overseas last August.

Among his many friends were A. M. Johnson, deputy attorney general; J. Cartmel, government agent at Nelson, who was in the same battalion. Captain Rennie has been associated with the provincial civil service in this city.

NELSON TOTAL NOW COMPLETE

Increased by Another Twenty-Five Thousand; Grand Total for District Just Under $3,000,000

Final figures for Nelson and district in the Victory loan drive, all points being heard from, show the magnificent total of $642,000, nearly $90,000 more than last year, whose total was $555,550. This is a gain of $25,000 over yesterday's figures.

Trail's final figure is $220,000, instead of $223,000, as given yesterday.

New Denver's total, which includes Rosebery, is $81,600, an increase of $1600.

The grand total for the Kootenay, with final figures yet to come from the majority of points, is $2,960,500.

METHODISTS HAVE ANNIVERSARY FUN

Supper Served in Relays, Followed by Program of Toasts and Musical Numbers

Methodism was rampant last night, on the occasion of the anniversary supper of Trinity Methodist church. From 5:30 to 8 o'clock successive tables were set and cleared, as the Methodist cohorts appeared, in relays, for refreshment, the ladies' aid being in charge of the department of comestibles.

Following the supper the evening was devoted to an ambitious toast list, over which Rev. J. P. Westman, the pastor, presided. After the toast to "The King" had been fittingly recognized, N. R. Fallis proposed the toast of "The Country," Dr. W. G. Rose, M.P.P. for Nelson, responding. "The City" was proposed by C. W. Tyler, and replied to by Alex. Leith. F. J. Boles proposed the toast to "The Church," which was responded to by A. Higginbotham. W. E. Wasson proposed a toast to "The Ladies' Aid," to which Mrs. A. T. Walley replied. Mrs. J. S. Haigh tendered a number of pleasing solos during the evening.

MISSIONARY WILL RETURN TO CHINA

Was in Charge of Chinese War Workers in France; Farewell Reception on Thursday Evening

Dr. and Mrs. Fred Auld expect to leave Nelson on Monday on their return to China to take up once more missionary work for the Presbyterian church of Canada in that country.

Dr. Auld spent several years in France during the war, where he was in charge of a contingent of Chinese coolie war workers. He was in charge of the natives with whom he had long been associated in China, and to him, it is stated, they were particularly devoted.

Upon his return from France he came to Nelson, thence returning east from here to attend the general assembly of the Presbyterian church of Canada, which was held during the summer in Hamilton. He was voted the sum of $20,000 for a new hospital in connection with his work at Wei Hai Wei, China.

After the meeting of the assembly, Dr. Auld spent some time in Toronto and Rochester, N. Y., taking a post graduate course in surgical work.

During the absence of Dr. Auld in France, Mrs. Auld and daughter made their home in Nelson.

They will be tendered a public farewell reception by the missionary society of St. Paul's Presbyterian church on Thursday evening next.

YOU WILL BE PERFECTLY SAFE IN LEAVING HOME TODAY OR TOMORROW. "RAFFLES THE AMATEUR CRACKSMAN," WILL BE KEPT IN STRICT CONFINEMENT AT THE GEM THEATRE, WATCHED CLOSELY BY A LARGE NUMBER OF PEOPLE.

SUCCESSFUL PUPILS IN COMMERCIAL WORK

The following pupils of the high school commercial department made 50 or over in the recent examinations:

Third Year—Clara Graham, 64; Wilbert Manson, 61; Josephine Elsdon, 57; Norman Dunn, 51.

W. W. Cant, who enlisted in Manitoba in 1916, returned to Nelson last night on his way to Appledale, where he has a fruit ranch. His brother, Andrew Cant, who was lieutenant-quartermaster in an Imperial unit, has arrived from Glasgow, Scotland, and will join him.

FLORENCE MINE RESUMES OPERATIONS

The Florence mine at Ainsworth resumed operations yesterday after having been closed down for some time owing to lack of water.

The Plague of Pimples.

Body Covered With Them.

The primary cause of pimples arises from the blood not being in a good condition. When the blood becomes impure you will find that pimples will break out all over the body, but more particularly on the forehead, nose and chin, and although they are not a dangerous trouble they are very unsightly. What you need when pimples or boils break out is a real good blood purifying medicine such as Burdock Blood Bitters.

This preparation has been on the market for over 40 years and is the most reliable remedy for all troubles arising from a bad condition of the blood. It removes all the impurities from the system, and will leave a clear, healthy skin.

Mr. Emerson G. Goodwin, Cambride, N.B., writes:—"For nearly two years I suffered from boils and pimples on my face and neck, and nearly all of my body was covered with the pimples. I tried most everything, but got no relief. One day a friend advised me to try Burdock Blood Bitters, and after using three bottles the pimples and boils left me and there is no sign of them returning. I can strongly recommend B. B. B. to anyone who is troubled with skin disease."

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

NERVES ALL GONE TO PIECES

"Fruit-a-tives" Conquered Nervous Prostration.

R. R. No. 4, Gilbert Plains, Man.

"In the year 1910, I had *Nervous Prostration* in its worst form; dropping from 170 to 115 pounds.

The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-tives".

I began to mend almost at once, and never had such good health as I have enjoyed the past eight years. *I am never without "Fruit-a-tives" in the house*". JAS. S. DELGATY.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

FEELS FINE IN MORNINGS, NOW

J. M. Cameron's Troubles All End After Taniac Builds Him Up

"I hate to think of the awful condition I was in before I took Taniac and was restored to health," was the statement of J. M. Cameron of Vancouver B.C., when he called at the Owl Drug Co., the other day. Mr. Cameron is a well-known employee of the J. Coughlan and Son's Shipbuilding Plant No. 2, and lives at 1050 Eleventh Avenue, East, Vancouver.

"My bladder and kidneys were out of order and the misery I went through was something awful," continued Mr. Cameron, "and hardly a single night passed that I didn't have to be up two or three times. Of course, under conditions like that I didn't know what it was to enjoy a good night's rest and I felt draggy and weak all the time. Finally I lost all interest in everything and didn't care what was going on for it looked like my case was hopeless and I would never be able to take part in anything. My nerves went to pieces and I had no appetite at all hardly and sometimes just the smell of food would turn my stomach.

"I heard so much about Taniac that I commenced to take it to see if it would help me. Well, sir, the way I have improved is certainly a surprise to me for my kidneys and bladder are not only in fine shape now but I have been built up in every way and feel better and stronger than I have in years. You ought to come out and see me eat and when I go to bed at night I sleep like a log till morning and when I get up I feel just fine and I don't know when I've had more life and energy about me than I've got right now. My nervousness has left me ,and to me Taniac is the only medicine and I'm a booster for it all the time."

There is not a single part of the body that is not benefitted by the healthful work of Taniac, which begins its action by stimulating the digestive and similative organs, thereby enriching the blood and invigorating the whole body. In other words it relieves rheumatism and other constitutional troubles by removing the cause. Taniac is a powerful reconstructive tonic, and contains certain ingredients which purify the blood, and renovates the entire system. Next, it enables the stomach to thoroughly digest its food, thereby permitting the assimilable products to be converted into blood, bone, and muscle.

Taniac is sold in Nelson by Canada Drug & Book Store, and by the leading druggist in every town.

PETERBORO, Ont., Nov. 18.—Jas. Edgar, postmaster in Peterboro during the last seven years, died of heart failure this afternoon at his home.

SPORT

VICTORIA AND VANCOUVER ANNOUNCE RUGBY DATES

VICTORIA, Nov. 18.—November 29 and December 13 in Vancouver were agreed to as the new dates for the representative rugby games between Victoria and Vancouver at the meeting of the Victoria rugby union last night.

YOU WILL BE PERFECTLY SAFE IN LEAVING HOME TODAY OR TOMORROW. "RAFFLES THE AMATEUR CRACKSMAN," WILL BE KEPT IN STRICT CONFINEMENT AT THE GEM THEATRE, WATCHED CLOSELY BY A LARGE NUMBER OF PEOPLE.

JOHN OWEN WAS WRECKED

Tugs Sent on Search Identify Wreckage of Missing Steamer—No Trace of Bodies Found.

SAULT STE. MARIE, Ont., Nov. 18.—The tugs Iowa and Alabama which left here Sunday evening to search for traces of the steamer John Oowen and establish the identity of some wreckage sighted by steamers, returned to the Soo this evening and confirmed the message telephoned yesterday by the finding of part of a cabin floating about 10 miles southwest of Caribou island, marked John Owen. This leaves no doubt of the total loss of the steamer in the big gale of a week ago. No trace of any bodies were found.

G.W.V.A. MUST ENTER POLITICS SOONER OR LATER

TORONTO, Nov. 18.—The feeling that sooner or later the G. W. V. A. must enter the political arena is becoming marked in eastern Ontario, according to Dougald McClean, organizing secretary of the provincial command G. W. V. A., who has just been on a tour among the eastern branches. He says members of the association are dissatisfied with the action of the government at Ottawa in refusing to accept the scheme of soldiers' reestablishment put forward by the dominion command.

ALLESGED I. W. W. SLAYER LANDED IN JAIL

CENTRALIA, Nov. 18.—Bert Bland, notorious I. W. W. and suspected slayer of Lieut. Warren O. Grimm, one of the four American Legion paraders killed here armistice day, was taken without a fight late today by Sheriff John Berry ,and a company of deputies. Bland is in the jail at Chenalis.

SEIZE CHAMPAGNE OF COUNTRY CLUB

Consignment for Exclusive Quebec Institution Is Nabbed By Authorities at Ottawa Station

OTTAWA, Nov. 18.—Thirty-five cases of champagne and Sauterne, consigned to the county club, an exclusive institution on the Alymer river, Quebec, were seized by authorities and the Central station, Ottawa, on Saturday last. On instructions today, license Inspector J. C. Enright, ascertained from Miss Lynch who was in charge at the club ,that the liquor had been ordered from Montreal, but it has been expected the shipment would have been made via Dominion Express through the province of Quebec, instead of Canadian Express to Ottawa, as had occurred.

Mr. Enright returned the liquor to the express company this afternoon and it was immediately seized again by Inspector Thomas McLaughlin, of the Ottawa police force, under the order in council of February 24, 1919, which provides that no liquor shall be transported in a prohibition province.

It having been claimed that liquor could be transported through Quebec, Inland Revenue Inspector Laflamme, of Hull, communicated with Quebec, today ,and ascertained that this was not the case, especially as the county of Hull, in which the club is located is under local option. An action will be taken in the police court tomorrow against the Canadian Express company under the dominion order-in-council.

John Bassett, honorary secretary treasurer of the country club, denied any knowledge of the matter, and refused to comment on the action of the authorities.

GERMAN WILL WAS BROKEN

Hindenburg Tells Subcommittee That Defensive Strength Was Unfavorable at the Start

BERLIN, Nov. 18.—Field Marshal Von Hindenburg declared before the subcommittee of the National assembly investigation war responsibility:

"I know with absolute certainty that neither the people, the Kaiser, nor the government desired war, for the government knew better than others Germany's difficult position in a war against the entente. Germany's defensive strength, said the Field Marshal was as unfavorable as possible from the start. It might be left to history to decide why Germany's peace policy had failed. If there had been solid, united cooperation between the army and homeland, we could have attained victory," continued Von Hindenburg.

"While with the enemy, not withstanding his superiority, all parties were united everywhere firmly in the determination to be victorious. With us, although we were numerically inferior, interests at home made their influence felt, and this state of affairs led to the breaking of the will to victory.

In all great decisions Ludendorff and himself were of one mind and had worked in full accord from August 29, 1916, to the end.

"We considered unrestricted submarine war imperative immediately we entered the command," said the field marshal. "When 1917 came we could not longer permit our gallant soldiers to be bombarded with American ammunition and their wives and children starved by the blockade. The U-boat war was the only means to oppose these conditions."

Von Hindenburg and Ludendorff found the corridors leading to the committee rooms crowded to the doors with admirers and others, who by diverse means had secured admission. On the witness stand reposed a boquet tied with the German colors.

Deputy Gothtin, president of the subcommittee, held a reception and thanked the field marshal, who replied that he was glad to come, because it was his duty. "Especially to appear with my true comrades," he said.

In his testimony General Ludendorff said that the high command first refrained from beginning the U-boat campaign because the chancellor at that time feared an attack by Holland and Denmark, owing to the pressure of Great Britain and there were then no troops to meet new enemies.

MISSING FREIGHTER GRIFFIN TURNS UP

TOLEDO, Nov. 18.—The freighter Griffin, which cleared Ashland, Wis., Nov. 10, with a cargo of ore for Toledo, and which was reported lost in a storm on the lakes Sunday, docked here today. The storm, which is believed to have sunk the steamer John Owen of Cleveland, with a crew of 22 men, struck the Griffin 100 miles out of Ashland. Captain J. H. Gallagher probably saved the Griffin by turning back and heading for Apostle Islands, where he anchored for two days during the storm.

EXPLAINED HIS STATEMENT ON ONE BIG UNION

TORONTO, Nov. 18.—Rev. Dr. Ernest Thomas, of the department of evangelism and superintendent of the Methodist church in Canada, has issued a statement denying that he lauded the O. B. U. The Globe, which published the original statement, now publishes Dr. Thomas' statement with expressions of regret to the Doctor for the injustice done him in its report, which conveyed the wrong impression of his utterances. The occasion was in the course of an address to the students of the Toronto university on Sunday. What Dr. Thomas actually said about the O.B.U., according to his statement, is: "For instance, the idea behind the O.B.U. is beautiful, but the thing itself is not. The idea is one of fellowship workers from unskilled labor to newspaper editors. That is a beautiful idea, but the thing in which this idea is supposed to be expressed gives us the power of paralyzing the industry of the whole country concentrated in the hands of a very small number of men, and this constitutes a menace."

Dr. Thomas said that no mention whatever was made of the government's attitude to the Winnipeg strike.

TWO OLD TIMERS DIE AT VICTORIA

VICTORIA, Nov. 18.—Panmure A. P. Babbington, pioneer lumberman and sealing schooned owner, died today at the age of 68. He was a native of Cape Breton and was a prominent oddfellow. William Henry Huxtable, who came to Vancouver Island in 1862, and for 44 years was head janitor of the city central and high schools, died today. He was known to hundreds of pupils and leader in the Oddfellows.

CANADA TRADE SHOWS DECREASE

Difference Between Figures This Year and Last Amounts to $33,000,000

OTTAWA, Nov. 18.—A decrease of approximately $33,000,000 in the grand total of Canadian trade for the seven months of the fiscal year ending with October, as compared with the same period last year, is shown in the trade statement for October. The total trade for the seven months' period amounted to $1,259,648,374. For the same period last year the total was $1,249,493,885. For October alone Canada's trade amounted to approximately $204,000,000, as against $207,271,005 in October, 1918.

Exports of domestic products for the seven months' period reached a total of $688,889,909. For the same seven months in 1918 domestic products were sent out of Canada to the value of $720,139,952. For October alone domestic exports valued at $109,446,814 were sent out of Canada, as compared with $129,554,438 in October. 1918. Agricultural products exported were in first place, being to the value of $177,550,247, were second with exports to the value of $118,559,518. Imports of dutiable goods for the seven months were to the value of $354,633,741, on which customs collections amounted to $98,016,495. For the seven months' period of 1918 dutiable goods worth $315,856,345 were imported, on which $94,743,530 were collected by way of duty. Free goods to the value of $354,633,741 were imported to the end of October as against importations worth $344,217,682 in 1918.

W. C. T. U. WAGE WAR AGAINST "LADY NICOTINE"

GUELPH, Nov. 18.—Intimation that a big campaign would be begun shortly, having for its aim the driving out of cigarettes from the public was made at the opening session of the 42nd annual convention of the Ontario W.C.T.U. at Norfolk street, Methodist church today. Several of the speakers of the evil of cigarette smoking and the "fags" received a scathing denunciation from Mrs. Jennie Walters, of Hamilton, head of the anti-narcotic department. She advocated an immediate campaign for legislation which will drive cigarettes out of the province.

REVENUE BOARD TO HOLD SITTING HERE

VICTORIA, Nov. 17.—Hon. John Hart, minister of finance, announced today that the municipal inquiry into the question of civic sources of revenue will be held in the city of Nelson on Nov. 27 and in Vernon on Nov. 29.

Sittings will be held here in the executive council chamber at the parliament buildings on Nov. 20 and 21, and in Vancouver on Nov. 24 and 25. The proceedings in Victoria will commence at 10 o'clock in the morning.

HEAR REPORT ON CLOTHING PRICES

Overhead on Suits 19 Per Cent of Total Cost of Manufacturing

HAMILTON, Nov. 18.—The board of commerce sat here today to hear the report of the local fair price committee on which Lieut.-Col. Morrison is chairman. Lieut.-Col. Morrison presented reports concerning the local investigation into clothing prices, and a long statement was made by H. C. Beckett, speaking in behalf of the wholesale grocers. The report of the committee gave figures of the cost of making five grades of suits and the item of "overhead" came in for considerable attention.

It was shown that the overhead on some suits was much higher than on others, but Vice Chairman O'Connor, after a little figuring, stated that it represented 19 per cent of the total cost of manufacture. He intends to analyse the figures further with a view to ascertaining if this is excessive.

Lieut.-Col. Morrison said in the case of a representative firm, the name of which he would not divulge unless ordered to do so by the board, its total turnover in 1918 was $374,381.55 and the net profits $72,000.53.

EXPERT WANTSE UNIVERSAL FINGER PRINT COLLECTION

"Identification is of supreme importance in many fields far removed from crime and criminals, and it is not too much to say that it is desirable to have on file somewhere the fingerprints of every man woman and child. Such a universal finger print collection would make mistakes of identity impossible."

The opinion is that of an expert on the New York Times Magazine, who believes that the system is bound to become universal at no distant date. It is unfortunate indeed that the modern use of finger prints for the identification has begun with the detection of criminals, as the association is now so close that the taking of a finger print is regarded as a disgrace.

Yet the finger print of every soldier and sailor of the United States are on record and the same is true of most bank employees, says Tit-Bits. In Argentine it is true of every civilian.

In cases of unidentified dead, of kidnapping, of loss of memory, of babies exchanged in hospitals, of forged documents of masqueraders, and pretenters for romantic or criminal purposes, consider the value of the finger print.It is scientifically conceded now that the little ridges at the tips of your digits afford the most conclusive system of personal identification known, and that in all human probability they are infallible.

"The Store with the Xmas Spirit"

The Hudson's Bay Company

Miss Gertrude Meredith Sullender, the only woman finger print expert holding a civil service position in New York, says: "Finger printing have been valuable chiefly in the detection and conviction of crime, and people as a rule thonk that it is all it is good for.As a matter of fact it is valuable as much for protection as detection, It has saved criminals, for instance, when they were falsely accused on account of their bad records.

I remember when I was finishing my studies at Washington in the Navy Bureau, a man came in and asked that his finger prints be made He was going to the Far East and thought that something might happen to him there. It was an unusual request in those days, long before the war, and it happened that the man had no occasion to identify himself; but it was evidence even then of an intelligent attitude towards the system.

We hope some day to see a general appreciation of the advantages of the system.If documents were signed with the finger prints as well as the ame, for instance, forgeries would become impossible. It was so that the Chinese used them. A Chinese when he was ready to make his will would call in all the beneficiaries and read it to them, and then ask them to finger print it as evidence that they acquiesed in its terms. It was a kind of ritual, but it was an identification also."

"I have crossed the rubicund," murmured the woman who had just quarreled with her red-faced cook.

Movie Manager—I wish you would not do so much vamping.

New Pianist—How dare you, sir? Oh, pardon me—I suppose you mean in a musical way?

Matrimony is a great institution; it makes a man forget his other troubles.

We have never heard of anyone who regretted changing from some other Coffee to Chase & Sanborn's "SEAL BRAND" COFFEE But we have heard of a great many who were sorry they did not change sooner.

In ½, 1 and 2 pound tins. Whole—Ground—Pulverized—also fine ground for Percolators. Never sold in bulk.

CHASE & SANBORN, MONTREAL.

The public generally does not appreciate the worth of perfect eyes. We have been educated to the importance of sound teeth, but teeth or no teeth, we get along the same. We have not been educated to the importance of perfect eyes—the eyes that we are constantly using during our waking hours, and on whose functioning depends our livelihood, and on sight once gone can never again be recalled. Consider this, it is important to you.

Consult us, we have made a study of it for the last thirty-five years, and it is our motto to keep up-to-date.
