NATIONAL PROGRESSIVE PARTY IS NAME GIVEN TO C ROSS BENCHERS IN FEDERAL H OUSE BY DR. CLARK

ember For Red Deer Disclaims Any Class Legislation on Their Part; Declares His Intention of Supporting King Amendment Calling For General Election; Major Andrews Follows Suit; Announces That He Will Affiliate With Independents; Pays Tribute to Usefulness of Union in War

OTTAWA, March 5.—Cross benchers in the house acquired today a new name and a convert. The "National Progressive Party," so Dr. Clark referred to the movement led by Mr. Crerar; and speaking a little later, Major Andrews of Winnipeg announced his intention of voting for the opposition amendment, then of passing over to the cross benchers. On several occasions, last session, Major Andrews took his seat on the cross benches. He told the house today how, when last he cast a vote against the government, he placed his resignation in the hands of his constituents. They declined to accept it. They gave him a free hand. Now, therefore, although he "did not like this sort of thing," he would join the cross benchers.

He would feel freer there. Mr. Andrews, it may be added, is the first government member to announce his intention of supporting the amendment.

Previously Dr. Clark strongly disclaimed any intention on the part of the National Progressive party of class legislation. "Had there been no class legislation before?" Dr. Clark asked. Yet there was "holy horror" when farmers began to talk. What about the Canadian Manufacturers' association? Dr. Clark pressed. "So far as I have been able to see," Dr. Clark went on, "nine-tenths of the activities of that body were political activities."

Mr. Middlebro (North Grey) interposed a question. "Would you approve of the Canadian Manufacturers' association putting candidates in the field?" he questioned sharply as ministerial members cheered.

There were counter-choruses from the cross benches as Dr. Clark replied: "The Canadian Manufacturers' association always had candidates in the field and members in the house." Mr. Middelboro returned that the answer was no deply. On this Dr. Clark responded that certainly he was not in favor of the Canadian Manufacturers' association putting candidates in the field. But were there not already "interests" in politics. The battle of the farmers was the outcome of conditions under which they lived and "surely it is time for a little more honest democracy at home." Dr. Clark announced that he too would support the amendment.

Two other cross benchers, Mr. MacNutt (Saltcoats) and Levi Thompson (Qu'Appelle) also contributed to the debate before the house rose at 6 o'clock to adjourn until Monday.

Mr. MacNutt, in the course of his remarks, submitted a scheme for redistribution based on an estimated *increase of 1,178,718 in population.* Such an increase, Mr. MacNutt said, would give a total house membership of 247 with an increase of 18 seats for the four western provinces.

Referring to production, Dr. Clark agreed with President Wilson, who recently told the people of the United States that in order to sell one must buy, and that restriction of trade always meant restriction of production. "The government and public men in this country tell the people to produce and yet keep up restrictions, which was an absolute contradiction to economic principles."

Bouquet for Crerar

When Hon. Mr. Crerar addressed the house, Mr. Clark continued, there was a large attendance of members and the debate was immediately lifted to a higher plane. The best evidence that a man's politics are interesting the people of the country is that the attendance should suddenly rise in the house when he talks about them.

Dr. Clark did not agree that the Farmers' party was a class party. He agreed that no class should permanently rule the country. "I believe that the only logical and effective method for men entering the public life of the country is for them to combine upon a common policy in which they sincerely believe, as a policy, will redound to the public good in which all ought to participate."

He did not agree with Hon. Arthur Meighen in tracing cass policies to the origin of a givven policy. It was largely an accident that for those who supported the platform of the Canadian Council of Agriculture so many of them were farmers. But the farmers had been so hard hit by the tariff that they had been forced to study economics in practically the same way as workingmen, or women, or members of both front benches of the house, if the latter were placed in a like position. Moreover, there was nothing wrong with class politics until class selfishness crept in. No one can accuse the farmers of selfishness, for the first thing they ask for in their platform is, that all duties shall be taken off the things they produce so that all many benefit by such a measure," he said.

Not Selfish

Dr. Clark asserted that the farmers were free from any charge of selfishness. They had asked that the duties be taken off everything that they produced. This would be in aid to all sections of the people. That was a sample of unselfishness which other classes might well copy. If they did so, it would solve many of the tariff problems.

Those who stood in the trenches for Canada and the farmers in the west, said Dr. Clark, asked no protection. The high worthy example might well be followed by the manufacturers.

J. W. Brien (South Essex) asked Dr. Clark if he would take the duty off tobacco as well as off foodstuffs.

The member from Reed Deer said he thought it would not have been necessary to ask as to his position on the tariff. He did not expect to see free trade come by return post. He had seen many duties go on but they never came off. At the present rate, it could require a large part of eternity to bring free trade to Canada. Referring to the charges of class legislation, Dr. Clark asked if this was the first time a class movement had been heard of.

Class Legislation

Dr. Clark asked if this was the first time a class movement had been heard of.

Those who were tempted to hold up their hands in holy horror and cry out against class legislation must have forgotten the long fight of the common people on this and the other side of the Atlantic against class legislation. "Has there been no class legislation in Canada in the past?" Dr. Clark asked. He went on to ask about the Canadian Manufacturers' association activities. Nine-tenths of these, he declared, had been political. Dr. Clark said that the association had always had candidates and members in the house. "The battle of the farmers was the outcome of these conditions, under which they had been forced to live. Canada had sent soldiers overseas to fight for democracy in Europe, surely it was time for a little more honest democracy at home. We had had too long only a nominal democracy, which was really a very real tutocracy. It would have been a shame to have come back from Europe to bow the knee to Baal as in the past."

Advice to Drayton

He gave some advice to Sir Henry Drayton on becoming a successful minister of finance. "If," Dr. Clark said, "Sir Henry will go as far as he can in the opposite direction from his predecessor (Sir Thomas White) he will be a splendid minister of finance."

When President Wilson came into power he introduced what was really a large measure of free trade. The Canadian tariff was a monstrosity as compared with that of the United States. Of all the imports entering the United States only 30 per cent were subject to tariff at all. Boots and shoes and agricultural implements, for instance, were free in the United Staes, in Canada they had to pay a duty.

Dr. Clark said he disagreed with the ingenious suggestion of the member for Cape Breton (D. D. MacKenzie) that we wipe out our trade with the United States. We would only lose about $43,000,000 in doing so. He though that the exchange difficulty was a logical outcome of the government's extravagance and unlimited borrowing. The former minister of finance had admitted, when he was about to borrow $70,000,000 from the United States, that it twas bad business, but justified it under the plea of necessity.

Canada's credit had been lowered by extravagance and reckless borrowing and financial ruin was a logical outcome of inflated currency and reckless squandering.

The supreme condemnation of the finance department, said Dr. Clark, was to be found in the success of the last Victory loan. We were told, he said, that we could not raise a Victory loan if we taxed it. The last Victory loan taxed was oversubscribed. The Victory loan, he declared, condemned the government because it showed that there was lots of money in the country if the government had the backbone to put the taxes where they could be borne.

Turning to the Mackenzie King amendment, the speaker said that he would have liked it better had it called for an election on the grounds of policy rather than those of personnel. He objected to the reference to Sir Robert Borden. The prime minister, he said, was just as much a victim of the war as if he had been in the front line, and those who with him had formed the Union government had carried out their duties during the war well. He thought, however, that there was justice in the contention that the government had no tariff policy. If you had a government formed of gentlemen with divergent views on the tariff it was likely that the tariff would be laid aside and taken up as little as possible.

Dr. Clark failed to see any great light on tariff questions in the speech of the leader of the opposition. In fact he expressed the opinion that indications were that the opposition had gone back since *1896 in tariff matters.*

At that time there was hope of free trade at any rate between Canada and Great Britain. He wanted to know just how the opposition stood on the tariff.

While Dr. Clark was criticising Hon. Mackenzie King for sending lieutenants to Assiniboia, Mr. McMaster asked, "is not the Hon. W. R. Motherwell as low a tariff man as the man who now represents Assiniboia in this house?"

To which Dr. Clark replied—"Mr. Motherwell got lost in the early snowstorms last fall. I do know, however, that the man now in the house is in a vastly better position for carrying out the policy. I was

(Continued on Page Five)

DAY IN PARLIAMENT

IN THE COMMONS

First reading was given to a bill introduced by James E. Armstrong of Lambton, providing for an amendment to the railway act. The purpose of the amendment is to bring shipping on inland waterways under the jurisdiction of the railway commission.

Hon. J. D. Reid told MacKenie King that no decision had yet been arrived at as to appointments on the board of management, Canadian National Railways.

Sir George Foster said that such correspondence between Judge Robson and the government as could be tabled would be brought down on Monday.

Dr. Michael Clark, speaking on the address, said he would vote for the King amendment and an election. Other cross benchers speaking were Thomas MacNutt (Saltcoats) and Levi Thompson (Qu'Appelle).

Major Andrews (Winnipeg) announced his intention of going over to the cross-benchers.

The debate was adjourned by A. L. Davidson (Annapolis).

IN THE SENATE

Bills to amend the Industrial Disputes act and the Technical Education act were introduced by the minister of labor.

Senator Tanner was the only speaker on the address.

The debate was adjourned by Senator Porrier.

PLUNKETT LOOKS ASKANCE AT BILL

Sharply Criticizes New Home Rule Plan For Two Parliaments

LONDON, March 5.—The speech of Sir Horace Plunkett at Dublin last night, in which he sharply criticized the new Irish home rule bill, taken with Ian MacPherson's defence of the Irish administration in the house of commons, formed the basis of comment in some of the morning newspapers.

The Daily News severely condemns the new home rule measures, saying: "Can the insincere jugglers who are thus mocking the maddened victims of their own cowardly policy be relied upon to give real effect to the slight promise of happier development which may be hidden in its crooked promises?"

The Post charges Viscount French with responsibility for the present "shameful" position. The newspaper tells the viceroy his duty is to order that after a given date all proven guilty of a crime or violence be court martialled and shot. Otherwise, the Post says, he ought to resign.

"Viscount French was appointed to govern Ireland," the Post declares. "He has failed. He must know he has failed and it is inconceivable how he justifies his continuance in office."

FOREIGN EXCHANGE AGAIN ADVANCES

British Pound Valued at $3.65¼; Canadian Dollar Rises a Fraction

NEW YORK, March 5.—Foreign exchange continued to advance today, in the face of denials from foremost local and foreign interests of anyl immediate prospect of European gold imports, even in moderate volume. J. P. Morgan and company, financial agents of the British government here, declared they were without any knowledge of such a movement. Advices from London also pointed to the slight probability of gold shipments here in the immediate future.

There were further accessions to the gold movement in South America, but trade authorities believe exports to that country will soon cease. Several moderate imports from Canada are said to be without bearing on the reported Anglo-French situation.

Trading in British bills during the day was quite extensive, with only moderate transactions on the French exchange. Operations were characterized as largely speculative and partly in the nature of the short covering. It was high at $3.70 for demand bills; the London rate was 12 cents to the pound over yesterday's maximum and 51 cents above the minimum record on Feb. 4. After the close of the stock market offerings of bills on London forced the price back to $3,65¼, with variable reactions in French and Italian quotations. Canadian dollars are now quoted at 88.25.

CLEVELAND, March 5.—Employees of a big stove company here, through their employees' congress, have awarded themselves a wage increase of 14 per cent.

SERIOUS FIRE IN TORONTO BUSINESS SECTION WIPES OUT FORTY-NINE CONCERNS; VALUABLE RECORDS BURNED

TORONTO, March 5.—The most stubborn fire to conquer since Toronto's greatest fire in 1904, raged during the greater part of last night, and sweeping over the whole top story of the McKinnon building in the very heart of the downtown section of the city, did damage estimated at $500,000 and left 49 business concerns homeless.

Among the outstanding losses were the destruction by water and fire of valuable financial records of Bradstreets, statistical records of the Victory loan and a number of paintings and documents of the Royal Canadian Yacht club

MOTION BY DEFENSE FOR WITHDRAWAL OF CASE DISMISSED BY JUDGE; CROWN COUNSEL ADDRESSES JURY AT LENGTH

WINNIPEG, March 5.—(Canadian Press)—With remarks leading to the general conclusion that the accused had taken part in a campaign aimed at creating discontent among the workers and inducing them to support the establishment of a Bolshevistic form of government in Canada, A. J. Andrews, K.C., senior counsel for the crown, started his address to the jury this afternoon in the case of the seven strike leaders charged with seditious conspiracy.

Mr. Andrews made a start following the summary dismissal by Mr. Justice Metcalfe of the motions made by the defense for the withdrawal of the case from the jury. He spoke for the full three hours of the session, but had not anything like concluded when the court adjourned. It is expected the remainder of the address will occupy the ful time of the court tomorrow.

A loud laugh by Alderman Queeen, one of the accused, while Mr. Andrews was speaking, an indignant outburst by Mr. Andrews, a protest and explantion by Queen and a dignified reprimand for the latter by the judge provided a dramatic incident.

Mr. Andrews was explating on the manner in which agitators had abused the privilege of freedom of speech and was declaring that the reasons they had put forward for getting the privilege was all "claptrap," when the accused alderman gave way to his merriment with a laugh that could be heard all over the court room.

Counsel up to this time had been speaking in quiet, dispassionate style, but the laugh made him flare up at once and, raising his voice to a high pitch, he turned the flow of his eloquence directly on Queen.

"All clap-trap," counsel exclaimed, "even like the laugh of the man who does not realize his position, of the gentleman who sits here laughing at the jury, and who, if the court liked to exercise its right, would be sitting in the dock instead of at the counsel table."

Queen rose to his feet to speak, but was cut short by Mr. Andrews with the remark. "My Lord, I call your attention to the unseemly conduct of the accused."

The defendant kept on his feet and declared, "My Lord, I want to take objection to Mr. Andrews' statement that I laughed at the jury. It was his actions that provoked the laugh."

This explanation brought the following retort from his lordship: "Very well, you had better not allow yourself to give way to merriment in the court. If you want to laugh, laugh to yourself. I do not see anything very humorous in the position of the accused myself." Mr. Andrews was about to enlarge on the point, but was told by the judge that the less said about it the better. The incident, however, made the air electrical.

At the outset of his address, Mr. Andrews commented on the exceptional importance of the trial, of the nature of the charges and the law relating to them, in the connection with the law freely quoting definitions by numerous authorities. He traced the activities of the "Reds" to meetings east and west, and claimed they were for the ultimate purpose of "transforming craft organizations into an organization that would paralyze industry and take it by the neck." Counsel went on to speak specifically of the accused and dwelt on the significance of the Walker theatre meeting.

The speeches were of a seditious nature, said counsel, who emphasized the part Queen had played in it by repeatedly stating that this defendant, who had presided at the meeting, had made seditious remarks and had not once voiced disapproval of anything said by other speakers.

Indications that further indictments may be preferred against Winnipeg labor leaders at the next sitting of the grand jury, March 15, were given when his lordship coupled the name of Alderman Ernest Robinson, secretary of the Trades and Labor Council, with a request as to the next meeting of the grand jury. Mr. Robinson's name was mentioned in connection with the evidence.

PRINGLE FOR NEWSPRINT MEN

Six Weeks Ago He Was Paper Controller; Now Manufacturers' Counsel

OTTAWA, March 5.—(Canadian Press)—A dramatic incident occurred at one of the hearings this week before the board of commerce, sitting as paper controller, when R. A. Pringle, K.C., who was paper controller from the creation of that office until six weeks ago, appeared before the board as counsel for one of the newsprint manufacturers. Both Commissioner O'Connor and Commissioner Murdock questioned the ethics of Mr. Pringle appearing in that capacity under the circumstances, and after a lengthy argument Mr. Pringle withdrew.

The two commissioners were visibly embarassed when Mr. Pringle, on the hearing being opened, proceeded to present the case for one of the manufacturers and referred to certain arrangements. He said he had concluded in his previous capacity as paper controller. Mr. O'Connor asked Mr. Pringle whether he was appearing before the board as counsel for the interested manufacturer and on receiving an affirmative reply asked whether he did not feel embarrassed. Mr. Pringle disclaimed any feeling of embarrassment and proceeded with his presentation of the case.

Mr. Murdock said that the board of commerce as paper controller had not received the co-operation it had reason to expect from Mr. Pringle as the former incumbent of that office and added that he thought it strange that Mr. Pringle should now appear as counsel for a newsprint concern to protest an order made by the board as paper controller. Mr. Pringle pleaded that his object was to assist the board. "You are embarrassing me," said Commissioner O'Connor. "You are saying things as counsel for a newsprint manufacturer that I feel I should take up with you as the previous paper controller."

Mr. O'Connor said that his guiding principle had been not to touch anything in one capacity that he had been connected with in another. Mr. Pringle then withdrew.

TAKE MILITARY MEASURES WITH CONSTANTINOPLE

PARIS, March 5.—Upon proposals by Premier Venizelos of Greece the supreme allied council has decided upon energetic action at Constantinople backed by military measures, says Pertinax, editor of the Echo De Paris. He says orders appear to have been given already to British naval and military forces in the vicinity of the Turkish capital.

UNITED STATES CITIZEN IS HELD BY MEXICANS

WASHINGTON, March 5.—Peter W. Hummers, a United States citizen, was kidnaped by Mexican rebels at Salina Cruz, Mexico, according to a dispatch today to the state department from that city.

PREMIERS' NOTE IS MADE PUBLIC

President Wilson's Reply Will Not Be Given Out Until Monday

WASHINGTON, March 5.—The text of the note from the British and French premiers on the Adriatic situation to which President Wilson's reply was delivered in London today was made public tonight by the state department. It conforms closely to the summary cabled from London Feb. 27 and emphasizes the importance attached by the premiers to the fact that Mr. Wilson had previously "expressed his willingness" to accept a settlement arrived at by direct negotiations between Italy and Jugo-Slavia.

It has been assumed here that the president's reply will be found on publication to deal mainly with the invitation of the premiers that he join them in formally proposing such negotiations to the Italian and Jugo-Slavia governments. No intimation of his answer, however, has been given out and owing to the fact that it was necessary for the president's recently written note to reach Premier Millerand in France it will not be made public until Monday.

The premiers' note, after reiterating that they "have never had the intention of making a definite settlement of the questions raised without obtaining the views of the United States government, adds that the further explanation of the views contained in the president's memorandum is for them "a matter of great interest and *importance.*" *"All the more so,"* the note continues, "since it shows that the United States government does not wish to disinterest itself from the general question of peace."

FREIGHT STEAMER DRIVEN ON BEACH

NORFOLK, Va., March 5.—The United States freight steamer Orient, 3058 tons net, was driven on Willoughby Beach, Chesapeake Bay, today and is resting broadside in a dangerous position, owing to the storm which was steadily increasing in intensity.

AUTHORITY TO BORROW EIGHT MILLION DOLLARS ON P. G. E. ACCOUNT ASKED IN HART BILLS

Measures Brought Down in Provincial Legislature by Minister of Finance; Four Millions Will be Used to Complete Construction of Railway to Prince George, as Well as to Purchase Equipment; Loans to be Floated at Rate Not Exceeding Six Per Cent.

VICTORIA, March 5.—Authority to borrow the net sum of $8,800,000 on Pacific Great Eastern account is contained in two bills brought down in the legislature this afternoon by Hon. John Hart, minister of finance. The Pacific Great Eastern note payment loan act calls for borrowing $4,800,000, the Pacific Great Eastern construction loan act $4,000,000. These borrowing powers are in addition to any the government now possesses under various acts.

The four million account will be devoted to providing for the completion of construction of the government owned railway to Prince George and for the purchase of necessary additional equipment. It will be secured by a mortgage upon the entire undertaking and assets of the railway. The loans will be floated at a rate not exceeding 6 per cent. and are repayable not later than June 30, 1945. The railway company will be charged a like rate by the province.

According to answers made on February 13 by Hon. Mr. Hart to questions put by Mr. Bowser the aggregate borrowings by the government since it took office in November, 1916, was $13,770,000 for all purposes. The two proposed loans will bring the total borrowings by the present administration to $22,750,000. There already has been borrowed on Pacific Great Eastern account $5,450,000.

LUMBER MANUFACTURERS ASK RETAILERS TO CONFERENCE

Propose That Latter State Their Requirements For the Year; While Prairie Alleges Lumber Shortage and Blames Manufacturers It Is Placing No Orders With Mills; Calgary Suggested For Meeting

Indignant at the charge that the lumber manufacturers are exporting *70 to 80 per cent of their lumber* to the United States and giving the United States consumers a preference over Canadian consumers, when their greatest export year only recorded 20 per cent, which allegation is also made the excuse for the prairie agitation for an embargo on the export of lumber, mountain lumber manufacturers, at a meeting held at Cranbrook Wednesday night, put the issue squarely upto those behind the prairie agitation, by inviting the Canadian retail lumber dealers' associations to a conference, at which they will be asked to state their requirements for the present year. Calgary is favored for the conference.

It was pointed out that while the prairie is voluble on an alleged lumber shortage, it is placing no orders to amount to anything, with the mountain mills, who would be in a bad way at this minute if they did not have an export market to look to.

The resolution adopted at the Cranbrook meeting reads as follows:

Text of Resolution

"Whereas statements have appeared in the press that the lumber manufacturers of western Canada are giving preference to United States consumers by exporting from 70 to 80 per cent of Canadian lumber, which it is claimed is detrimental to Canadian interests, that Canada needs the lumber and that building *operations are thereby retarded,* etc., the impression by inference being given that manufacturers are pursuing this policy from selfish motives; and

"Whereas statistics prove these statements to be incorrect, and it is desirable that the facts of the case be made known to the public;

"During 1919 the exports of lumber from western Canada to the United States amounted to 20 per cent of total shipments and the reason for that was Canada could not absorb or use the product, the demand being much below normal, largely on account of partial crop failures in the west, therefore producers were perforce driven to seek other markets or cease operations; if it is true that Canada suffers for lumber, the manufacturers desire to know why and where so that the remedy may be applied;

"Be it resolved, therefore, that the executives of the retail dealers' associations of Canada be invited to meet the manufacturers, so that provision can be made to supply the alleged shortage of lumber, and that at the same time the retail dealers be asked to assist in procuring all the data and statistics possible, showing the comparative advances in prices of other products besides lumber, and to ascertain the reasons therefor as far as possible."

DEMOCRATS WILL TAKE TREATY UP WITH WILSON

WASHINGTON, March 5.—With another failure to ratify the peace treaty impending Democratic senators decided today to seek personal consultation with President Wilson before the decisive vote is taken. They wished to know definitely how far he would go in endorsing a comprofise and also to have a clear understanding of his views on the treaty as a campaign issue, should another senate deadlock *force it into politics.*

GO SLOWLY IS CARSON'S ADVICE

Decision on Home Rule is One Needing Mature Deliberation

BELFAST, March 5.—At today's *meeting of the Ulster unionist council* Sir Edward Carson was re-elected president. He submitted and analyzed proposals for the future government as laid down in the home rule bill. Sir Edward said it was not proposed to make a decision for, or against the government's proposals at the present session. He declared the period was one of the greatest anxiety and that whatever decision was reached should be taken only after the most careful deliberation.

It was announced by Sir Edward that another meeting of the council would be held next Wednesday at which it was proposed to proceed to a definite decision.

MAKE NEW RULE IN OTTAWA HOUSE

No Stranger, Regardless of Rank, Will Be Admitted to Floor

OTTAWA, March 5.—A new ruling involving a distinct departure from custom and tradition has been made by Speaker Rhodes in connection *with the house of commons chamber.* It is said that in future no stranger, no matter how distinguished, shall be admitted to the floor of the house.

In the past the practice has been that in the case of a very distinguished stranger, such as the premier of a province or a lieutenant-governor, or the visiting statesmen of other portions of the empire were admitted to seats on the floor while the house was in session.

In the future this will be changed. All visitors, no matter what their rank or station or eminence, must be accommodated in the distinguished strangers' gallery, this being the unbreakable rule which exists in the British house. Also, no distinguished visitors are to be epermitted to address the house while it is in session.

VETERANS OPPOSE COMPULSORY TRAINING

SASKATOON, March 5.—Local war veterans tonight went on record as against establishment of a system of compulsory military training in Canada. It was decided to bring the matter up in the form of a resolution at the provincial convention of veterans to be held at Prince Albert next week.

MINERS INCREASE BOTH SIDES OF LINE

In connection with a recent dispatch from Spokane announcing an increase of 50 cents a day to the miners of the Coeur d'Alene, it is pointed out that the increase is the same as that which was recently put into effect at Rossland, Kimberley and other camps in this district by the Consolidated company.

NEW DENVER OLD-TIMER DIES

NEW DENVER, March 5.—Eli Provest, better known as Frank Provost, died in the hospital at Silverton yesterday, the 4th inst. Frank was an old-timer in the Slocan and made Slocan City his headquarters for over twenty years.

He was eighty years of age. The body is now at the undertaking parlor, New Denver. A funeral service is to be held at the Catholic church and the body is to be shipped to Slocan City for burial.

ACTOR AVIATOR HAS TURNED UP

LONDON, March 5.—Robert Lorraine, the actor-aviator for whose safety considerable uneasiness has been entertained has landed with his pilot, Comte, at Marburg, Germany, last night, according to advices received by way of Berne. Lorraine, who started from St. Moritz, Switzerland, for Hounslow, England, yesterday morning at 7 o'clock, lost his way in a fog.

FLORIDA SPECIAL DERAILED; TWO DIE

WILSON, March 5.—The Florida special on the Atlantic coast line northbound from Jacksonville to New York was derailed near Lucama today and the engineer and fireman killed.

A score of passengers were badly shaken up and some om them slightly injured. The cause of the accident is not known.

LIFT OFF CORNS!

Doesn't hurt a bit and costs only a few cents

Magic! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift the corn off with the fingers. Truly! No humbug!

Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the discovery of a noted Cincinnati genius.

GIRLS! GIRLS!

Cuticura Soap shaves without mug.

IMMIGRATION TO CANADA GREATER

Has Increased Hundred and Forty Per Cent. During Last Year

OTTAWA, March 5.—Figures for the first 10 months of the fiscal year, which ends March 31, show that immigration to Canada from all countries totalled 101,940, an increase of 140 per cent in comparison with the corresponding period for the fiscal year 1918-19, the report for which was tabled in parliament a few days ago.

British immigration shows an increase in these 10 months of 898 per cent as compared with the same time in 1918-19, the figures being 52,918 and 5,302. From the United States the increase is 35 per cent until the end of January of this year, 42,535 immigrants having been registered in Canada since last April 1 as against 31,606 in the same time in 1918-19. From all other countries the increase is 18 per cent. The comparative figures were 6,487 and 5515.

Immigration to Canada for the calendar year 1919 totalled 117,633, an increase of 67,63 over 1918, or 134 per cent. Of the 117,633 who entered the dominion in 1919, 57,251 were British, 52,064 American, and 5318 from other countries.

TO SELL QUANTITY OF GRAIN ON CREDIT

WASHINGTON, March 5. — Five million bushels of federal grain corporation soft wheat will be sold on credit in Europe soon unless congress authorizes $50,000,000 loans to finance the sales, Julius Barnes, the head of the corporation, told the house rules committee today. He said he now had authority to make the sales on credit but hoped the loans would be authorized.

AGED HALF-BREED SHOOTS HIS WIFE

WINNIPEG, March 5.—The provincial police today received word that Alex. Thomas, a half-breed, of Hole River, Lake Winnipeg, shot and killed his wife in their shack early Wednesday morning. Thomas is a trapper living nine miles north of Manigotagan, and it is believed the couple were both about 70 years old. The affair will be investigated.

HOUSE DEFEATS MEMBER'S MOTION

EDMONTON, March 5.—The third division of the week in the legislature took place this afternoon when the house defeated a motion by Dr. Stewart of Lethbridge to refer to the committee on the privileges and elections the right of Hon. Wilfrid Gariepy, member for Beaver River, to continue in his seat in the legislature because of a removal of residence to Quebec.

The debate attaching to the motion, and which ended with an amendment by Hon. J. R. Boyle, attorney-general, being proposed and passed by a vote of 26 to 16 to the effect that the legislature had not the right to override the court's interpretation of the statutes of the province, was somewhat prolonged and vigorously carried on

A SKIN TIGHTENER TO REDUCE WRINKLES

In beauty culture, as in the treatment of physical ailments, the tendency nowadays is to seek the removal of causes, rather than to treat symptoms or effects. In the matter of wrinkles, for instance, we know that the lines or furrows are caused by the skin becoming loose in places, so it does not perfectly fit the flesh beneath. The skin then "wrinkles" or sags. Naturally the proper thing to do is to tighten the skin—make it fit—then there's no room for lines, wrinkles and folds, and no surplus skin to sag or bag.

The best known formula for the purpose is: Saxolite, one ounce, dissolved in one-half pint of witch-hazel. Use as a wash lotion. The effect is truly remarkable, especially as results are almost immediate. Ask the druggist for the powdered saxolite, which dissolves very quickly.

YOUR FRECKLES

Need Attention in March or Face May Stay Covered.

Now is the time to take special care of the complexion if you wish to look well the rest of the year. The March winds have a strong tendency to bring out freckles that may stay all summer unless removed. Now is the time to use Othine—double strength.

This preparation for the removal of freckles was written by a prominent physician, and is usually so successful that it is sold by druggists under guarantee to refund the money if it fails. Get an ounce of Othine—double strength, and even a few applications should show a wonderful improvement, some of the smaller freckles even vanishing entirely.

The cascade skirt has been developed in a very light weight new taffeta and also in chiffon.

Saves Fuel and Food

The continued high cost of foodstuffs and household supplies require the strictest economy.

The most expensive foodstuffs are used in baking, so always be careful to use the right kind of Baking Powder, otherwise great waste may result.

Many thousands of people recommend

EGG-O Baking Powder

because it effects the greatest economy.

Its double action absolutely assures perfect baking at all times.

Egg-O also helps save fuel because it does not require so hot an oven as is required by other powders.

Always follow the directions—one level teaspoonful to one level cup of well sifted flour. You use from a *quarter to a half less powder* when you use Egg-O.

When buying Egg-O the larger tins are the most economical size for family use.

Egg-O Baking Powder Co., Limited, Hamilton, Canada

MAN IS KILLED AT NORTH BAY

NORTH BAY, March 5.—A fatal accident occurred here last night when Edward Doyle was instantly killed. He and a companion were driving across the Canadian Northern railway tracks and were struck by a passenger train. They were in a covered rig and did not see the train coming. Doyle's companion is believed to have serious internal injuries.

WEST INDIES WOULD STAY WITH BRITAIN

MONTREAL, March 5.—The Rev. A. E. Ardley, chairman and superintendent of the Methodist church in the Bahamas, is in Montreal today and he stated that the West Indies is strongly against the United States purchasing them from Great Britain. He also said that the people are anxious for a much freer trade with Canada.

EXPECT CODY WILL RESIGN

TORONTO, March 5.—It is understood Hon. Mr. Cody, minister of education in the late Hearst government, will resign his seat in the Ontario legislature in a few days.

CANADIAN SILVER IS AT DISCOUNT

Twenty Per Cent. Rate Ordered in Minneapolis; First Time in Years

MINNEAPOLIS, March 5.—Canadian silver is being discounted at Minneapolis banks for the first time in many years. Twenty per cent discount on all silver money from the Dominion was ordered today by the Minneapolis Clearing House association.

It is claimed that the Twin Cities have been flooded with Canadian silver. One reason, it is said, is that various persons traveling from here to Canada buy Canadian currency in the Unitede States, exchange it for silver in Canada and sell the silver at par when they return to Minneapolis.

REFERENDUM ON SUFFRAGE OPPOSED

Labor Circles Disapprove; Proportional Representation Also Criticized

WINNIPEG, March 5.—Strong opposition to the proposed submission of adult suffrage to a referendum of the people of Winnipeg was expressed in labor circles today.

Proportional representation in Winnipeg on a three-ward system also came in for severe criticism. Robert *Ringland, secretary of the Dominion* Labor party, said that the proposition of a three-ward system was only avoiding the main issue. Nothing would satisfy the Dominion Labor party, he said, except adult suffrage as it is truly understood the granting of the vote to every male and female British subject over 21 years of age, having a reasonable residence in the city. In this he said the Dominion Labor party had the firm support of labor generally.

Mining and Markets

BIG MARKET FOR LEAD AND ZINC

Only Question Is Competitive Prices; Associated Boards Hear From London

Stating that "there is undoubted- ly a market for zinc and lead in the *United Kingdom*," and that Great Britain imported last year lead alone valued at $35,000,000, J. Henry, sec- retary of the Canadian Mission in London, has written to the Can- adian Trade Commission at Ottawa, in further answer to the represent- ations made on the *subject of im- perial* preference on Canadian metals, *by the* Associated Boards of Trade of Eastern British Columbia.

Secretary Henry's letter, which has been forwarded to Commissioner F. A. Starkey of the Associated Boards, is as follows:

"I have received today your let- ter *of Jan. 19, in which you enclose* copy of a memorandum from the Associated Boards of Trade of East- ern British Columbia in regard to zinc and lead.

"With reference to the request contained in the last paragraph of your letter, I may state that there is undoubtedly a market for zinc and *lead in the United Kingdom, and* that no less than 217,610 tons of lead of a total value of over £7,000,000 sterling were imported during the year ended Dec. 31, 1918. The zinc imports are not so large, yet they amounted during the same period to 94,226 tons, of a total value of ovver £4,000,000 sterling.

"I *enclose a cutting from the* week's Times Trade Supplement, which gives the latest information with regard to the lead and zinc market in the United Kingdom. You will observe that the prices in both cases are high. The only question is whether *it* is possible for British Columbia to send lead and zinc to *this market and European markets* at competitive prices.

Mr Warren's Visit

"In this connection I may explain that Mr. Warren of the Consolidated Mining & Smelting company of Can- ada, visited this country last autumn with a view to *seeing whether the* products in question are salable here. Mr. Warren *returned to Can-* ada some months ago, and we have not yet been favored wit hhis views on the subject. I would suggest that it might be of advantage to get into communication with him, as he devoted a great deal of time and *care looking into the situation*.

"I should perhaps ad dthat in the case of zinc the British government has entered into an agreement with the Australian government by which the available surplus of zinc in Au- stralian for the next 10 years has to be placed at the disposal of this country. I pointed out the fact to *Mr. Warren, and he was endeavor-* ing to find out how far this would affect the supply of zinc from other parts of the empire.

"I am endeavoring to get some in- formation as to the demand for lead and zinc in other European markets. You are, of course, aware that in the past Germany has been *a considerable producer of zinc*."

Commissioner Starkey has written President J. J. Warren of the Con- solidated company, enclosing a copy of Secretary Henry's letter.

CANADIAN PACIFIC OCEAN SERVICES

CREDITS HOLD MARKET INTEREST

NEW YORK, *March 5.—Interest* in the international credit situa- tion obscured all other events in the security markets today although reports of impending heavy gold imports from England and maybe France lacked confirmation.

Additions to the already large ex- ports of gold from this centre to South America were announced, but these were offset in part by the receipts of gold from Canada with prospects of further shipments from across the northern border.

Exchange on England, France and other leading European markets was *again very strong, a maximum of* $3.70 being quoted for demand bills on London before the close of the market. This is an advance of 12 cents from yesterday's highest ac- cepted trading rate of 51 cents over the low record of February. Dealers *in exchange described today's oper-* ations as chiefly speculative and based *not so much on prospective* gold imports as increasing signs that England will readjust her ad- verse trade balance in due course.

Stocks were generally strong. Popular shares of the motor and oil varieties dominated the dealings at *extreme gains of 2 to 8½ points.* Strength of these issues were coin- cident with further advances in prices of crude and refined oils, an increased dividend for Chandler mo- tors and rumors of an early rise in prices of motor tires. Steels, equipments, shippings and sundry specialties participated in the ad- vance, which *yesterday lost much of* its force in the later dealings. Ex- change then was strongest and call loans eased from the nine per cent opening rate to six per cent. Sales amounted to 875,000 shares.

Aside from the firmness of *for- eign issues, the bond market was* featureless, most domestic rails and industrials showing moderate irregu- larity with the Liberty group.

Sales, par value, aggregated $12,- 750,000.

Old U. S. bonds unchanged on *call*.

DISCOVER SOFT COAL MINE IN SASKATCHEWAN

WINNIPEG, *March 5.—A local pa-* per states that the discovery of a coal mine which, it is claimed, pro- duces a semi-bituminous coal, was reported today to the natural re- sources department of the Canadian National railway. The mine is lo- cated at Lampman, Sask. A good seam 12 feet deep has been re- vealed and farmers in the vicinity are forming a company, capitalized at $500,000, to operate the mine.

The taffeta suit is to share in the revival of that fabric this sea- son.

LIVESTOCK MARKETS

Winnipeg

WINNIPEG, March 5.—(Dominion Livestock)—Receipts into the Union Stock Yards up to week ending *Thursday, March 4, amounted to* 880 cattle, 71 calves 191 sheep and 1856 *hogs*, with 298 additional head of cattle and 189 sheep on through billing.

During the same period the fol- lowing stock left the yards: Local packers absorbed 350 cattle, 34 stockers, 807 hogs and 25 sheep, *and 23 feeders* made up the ship- ments to points east, while the only shipment south consisted of 25 breeding steers to St. Paul. Ar- rivals up to 9 a. m. this morning were made up of 694 cattle and 900 hogs. Trading on the market today *was slow, there being a liberal sup-* ply of cattle, compared with re- ceipts for the past few days and sufficient stock was on hand to meet requirements. Good quality butcher steers showed a decline of 25 cents, while other classes and grades of cattle *were slow sellers* at steady prices. Quotations:

Steers, choice, $11.50 to $12.50; fair to good, $9.00 to $11.00. Butcher heifers, choice, $10.00 to $11.50; fair to good, $8.00 to $9.50. Butcher cows, choice, $10.00 to $10.75; fair to good, $8.00 to $9.50; fedium, $6.50 to $7.50;; canners and cutters, $4.50 *to $5.50. Bulls, good, $7.00 to $9.00;* common, $5.50 to $6.75. Feeders, choice, $10.00 to $10.75; fair to good, $7.50 to $9.50. Stockers (steers and heifers), choice, $8.00 to $8.50; fair to good, $6.00 to $7.50. Calves, choice, $12.00 to $14.00; good, $10.00 to $11.00; common, $7.00 to $8.00. Hogs, selects, $19.00; heavies ,$17.00; lights, $15.50 to $18.00.

WINNIPEG, March 5.—Seven hundred delegates representing near- ly every labor body in Canada, will *attend the defense convention to be* held here Sunday to consider means *of defending labor men* charged with offenses arising out of recent strikes. James Law, secretary for the de- fense ,announced today.

His Death Expected

New Brunswick Man Saved

Mr. Isidore Thomas, of Tilley's Road, Gloucester County, N.B., while expect- ing death, availed himself of help that was offered at random. Here is part of a letter he wrote to us:—

"I beg you to publish my letter, so that people may know what Gin Pills did for me. My case was very serious. I was so sick every- body expected my death any day. Finally, on advice from friends, I tried Gin Pills, and in a short time was well again, and soon had gained 20 pounds."

Kidney and bladder troubles, very often, work *in secret ways*. A bad condition may exist, with only a *backache to indicate it*. That is why the slightest pains in back or sides should be investigated. These pains, along with sciatic neuralgia, rheum- atism, dizziness, constipation, lassi- tude, lumbago, highly-colored urine, headache, floating specks before the eyes, gravel, indicate kidney trouble. A course of Gin Pills, taken at once, will give relief, and prevent the pro- gress of the disease, enabling the organs to right themselves and restore good health. Gin Pills are the sure, *safe, quick remedy. Get a box from* your druggist or dealer—50c. Money *refunded* if no relief found. Send for free sample.

TORONTO March 5.—Hon. W. E. Raney, K.C., attorney-general, has been appointed president of the On- tario Bar association.

TALK OF COLBY AS M'GILL HEAD

MONTREAL, March 5.—Dr. C. W. Colby, *professor of history* at Mc- Gill university, who is now absent on a year's sick leave, will likely be the future principal of that in- stitution, it was said today in uni- versity circles.

CALGARY JUDGE GETS SUPREME COURT POST

OTTAWA, March 5.—The appoint- ment is gazetted of William Roland Winter, district court judge of Cal- gary, to be a local judge of the *supreme high court of Alberta.*

INCORPORATIONS

OTTAWA, March 5. — Western companies whose incorporation is gazetted this week include: Inter- *national Laboratories, Limited*, Win- nipeg, $250,000; Prairie Drug Com- pany, Ltd., Regina, $100,000.

AVOID POWDER WHEN BEING PHOTOGRAPHED

ATLANTIC CITY—Will H. Towles of Washington, D C., addressing the annual convention of the Proto- graphers' association of the Middle Atlantic States here declared that if girls want to look beautiful in a photograph they must not powder their faces

Powder flattens the expression and obliterates the lines necessary to bring out beauty and character when posing for a photograph, he said.

"They might look a whole lot bet- ter without a shiny nose to the hu- man eye, but not to the eye of the camera," he declared.

"Wee MacGregor" DRAG SAW

THE ORIGINAL LIGHT WEIGHT PORTABLE, GASOLINE OPERATED DRAG SAW & POWER PLANT.

(Frequently Imitated Never Equalled)

The "WEE MacGREGOR" Drag Saw is an inexpensive practical and proven machine, peculiarly adapted for the rapid and **accurate** cutting of wood under **any conditions**, on land or water. With *equal facility* and *proportionate rapidity it will cut the small or large log* up to seven feet in diameter. Depending upon size and character **it will cut from either green or dry logs, 20 to 30 cords of wood a day.**

So light is its weight it can easily be carried from one point to another. **One man can move it on the log** and two men from log to log. **It has sawn a 2-foot log in 50 seconds, a 4-foot log in 3 minutes and a 6-foot log in 6 minutes.** *Its operating cost* for gasoline, oil and grease is approximately **4 cents a cord.**

Full operating instructions are furnished with each machine, and **its mechanism is so simple** *it can be operated and kept in order* by any person. Its power can be harnessed to the feed cutter, the pump, the circular saw, the churn or the separator.

We carry in stock at all times in our Vancouver Warehouses a full line of service parts. In case of emergency there is no long wait for delivery.

Soviet Plan Reduces Russian Labor to Slavery

From no less a person that M. Shliaprickor, commissary of labor under the soviet government, comes what is perhaps the most striking coincidence of the ghastly failure of the attempt to give practical effect in Russia to communistic principles that has yet been supplied. M. Shliaprickor's testimony is particularly impressive because he is a member of the Bolshevist regime, he could not have gained his present position unless strongly for Bolshevist principles, and he has a better opportunity than any other to gather information upon the subject with which his recent report on the labor situation in Russia deals.

Reporting on labor conditions he says the average output of all industries in 1918 declined by 50 per cent. from prewar conditions, while the period from January to August, 1919, shows a further decline below the 1918 figures, of 35 per cent. Individual industries fell off as much as 60, 73, 78 and 83 per cent. As a result adequate supplies cannot be obtained at any price.

The workers, says the Bolshevist commissioner of labor in seeking for a cause, have no discipline and their number has been reduced by three-fourths. The whole industrial fabric, he says, toppling to ruin.

A 12-hour day and an 84-hour week are to be enforced as remedies. The right to strike is removed and striking is made a penal offense. Industrial conscription is to be applied. The bolshevist commissary says that 20 per cent. of the increase in production is due to the maladministration and pigheadedness of the factory councils. They—the very backbone of sovietism—are to be suppressed and, says the decree, "at the head of important concerns dictators with absolute power of life and death over the employees" are to be established.

A 12-hour day, the right to strike denied, forced labor with dictators having power of life and death over employees ordered to force men to work—these are the drastic methods Lenine and Trotsky have been forced by the failure of their Bolshevist doctrines to adopt. Russia under the Romanoffs, galley-slavedom of sixteenth cenutry France, middleage serfdom know of no such bondage and misery for the workers as the attempt to apply the false and impractical doctrines of communism and the abolition of property have brought upon Russia.

FOSTER'S WEEKLY WEATHER BULLETIN

WASHINGTON, D. C., March 6.—Warm waves will reach Vancouver about March 8, 13, 18, 24 and temperatures will rise on all the Pacific slope. They will cross crest of Rockies by close of March 9, 13, 19, 25; plains sections 10, 14, 20, 26; meridian 90, great lakes, middle Gulf States and Ohio, Tennessee valleys 11, 15, 21, 27; eastern sections 12, 16, 22, 28, reaching vicinity of Newfoundland near March 13, 17, 29. Storm waves will follow about one day behind the warm waves and cool waves about one day behind storm waves.

These disturbances will control the weather of the provinces and state from near March 8 to 29. Most severe storms and most precipitation is expected the week centering on March 12. Most precipitation is expected where most has occurred and least where least has occurred since first of last December, because no material change has occurred in the causes.

High temperatures are expected to cross continent during weeks centering on March 6 and 27 General low temperatures are expected during the ten days centering on March 13.

Fair crop weather is expected for March, east of Rockies, excepting in rived valleys that extend east and west with high ridges south of them. Crop weather of March in the southern part of the cotton belt and on Pacific slope does not promise best results There are two dangers that the crops of 1920 must contend against. Too much rain in large sections and the cutworms that such weather favors and a shortage of rain in other sections together with the bugs that dry weather favors.

These extremes of wet and dry will not continue all through the crop season and therein lies our best hopes Then excessive rains are sometimes followed by a deficiency of moisture and thus the farmer worries along between hawk and buzzard But no worse mistake could be made than to flee from the evils you know on the farm into the evils you do not understand in the cities The best investment anyone can make at this time is to buy a good little farm and keep it as a nest egg.

The most difficult thing for readers, that are not skilled scientists, to learn is that the storms do not move with the wind. I receive many letters denying that the storms move eastward and claiming that they move westward. There is no hope for intelligent and useful results coming to those who try to study the future of the weather so long as they take it for granted that things are what they seem to be. Even if your dealings with other people are based upon what people seem to be you will be in danger of some sad failures.

At the very beginning you must realize that within the organized storm the wind blows in a circle around the centre of the storm and when you are outside of the active storm the wind blows toward the storm centre Outside the storm organization the clouds are moving from the place where the moisture is evaporated toward the storm centre. If there is a strong wind and no clouds the wind is blowing from a dry high into the storm centre, except that within the high, organized body the wind blows the other way around from what it does in the storm centre.

TEN YEARS AGO TODAY

(From The Daily News, Mar. 6, 1910)

Rt. Rev. A. Dontenwill, archbishop of Ptolemais, who is on his way to Rome, came to Nelson last evening to bid farewell to the congregation of the Church of Mary Immaculate.

* * *

D. A. McKenzie, foreman of the Ruth mine at Sandon, came to the city last night from Kaslo.

* * *

A rich body of ore has been struck on the Society Girl mine, here, says a dispatch from Moyie.

COMMUNICATION

KOOTENAY LAKE ROAD

To the Editor of The Daily News:

Sir:—Your issue of yesterday contained a letter from Mr. Lymbery of Gray creek, which I think is so far the most practical suggestion concerning the Kootenay lake road.

As far as I can gather, everyone concerned is in favor of a road, while some think that the Kuskanook wharf will eventually lead to the road being constructed.

In Mr. Lymbery's letter we surely have the solution of the problem.

I would like to point out that a road from Kootenay Landing to Boswell would not only open up hundreds of acres of the finest fruit land in the Kootenays, but it would also enable those ranchers who have planted orchards and developed their ranches to haul their produce to a shipping point by other means than that of a rowboat, which at present is their only possible way.

W. LAWSON HEPHER.

Boswell, B. C.,
March 2, 1920.

FIERCE STORM IN NORTH ONTARIO

NORTH BAY, March 5.—One of the worst storms the north has ever known raged all Thursday night and not a train has been able to move on lines up north.

WHEN MEALS HIT BACK

"Pape's Diapepsin" instantly Ends Indigestion, Sourness, Stomach Acidity

Are lumps of undigested food causing you pain? Is your stomach acid, gassy, sour, or have you flatulence, heartburn? Then take Pape's Diapepsin.

Just as soon as you eat a tablet or two of Pape's Diapepsin all that dyspepsia, indigestion and stomach distress caused by acidity ends. These pleasant, harmless tablets of Pape's Diapepsin never fail to make sick, upset stomachs feel fine at once, and they cost very little at drug stores.

REBEL LEADER IS EXECUTED

MEXICO CITY, March 5. —Circil Arenas, a rebel leader, woh was captured less than a week ago when he entered the city of Puebla disguised, was sentenced to death on Wednesday night and executed yesterday in Puebla, according to advices received here.

ARE PLANNING TO REFORM THE MOVIES

NEW YORK, March 5.—The Presbyterian board of moral welfare plans to reform the movies. They will issue a "white list" of approved pictures from time to time. They declare a canvass among wardens and chaplains showed that most of the juvenile delinquency was due to moving pictures which exploited crime.

BLAMES CHURCH FOR LIQUOR LAWS

MONTREAL, March 5.—In a mass meeting which was the closing function of the Quebec Prohibition convention here the Rev. George Adam threw something like a bombshell into the proceedings by practically condemning the church for finding it necessary to have recourse to legislative measures and a negative policy to meet the drink evil. His view was that the saloons had undoubtedly a strong attraction for men and this being so the church should have been able to provide equally strong counter attractions.

JOYFUL EATING

Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living.

KI-MOIDS

are wonderful in their help to the stomach troubled with over-acidity. Pleasant to take—relief prompt and definite.

"The Little Nurse for Little Ills"

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex (50 cents worth) from any druggist, pour it into a 16-oz bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disapointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

The Original and Only Genuine

Beware of imitations Sold on the Merits of Minard's Liniment

The captured machine gun No. 5658 has been allotted to the city of Chatham, and it is now in Toronto waiting shipment to the western Ontario city. This is the machine gun which was captured by the late Corporal Miner, V.C., the Chatham hero, who has placed the name of that city among those deserving the highest honor for war achievements.

Along with the gathered and shaped flounce has come into prominence also the pleated flounce in cascade form and in graduated tiers.

PREVENT INFLUENZA — INTERNAL BATHING THE BEST METHOD

Did it ever occur to you that if the system is kept perfectly clean, both inside as well as out, how much easier it would be to keep yourself free from contagion? It is only when the blood is not kept clean and pure that you are unable to throw off disease.

The great cause of impure blood is constipation, allowing accumulated waste to remain in the system, especially the colon, where the entire blood circulation passes every twenty-four hours. There, poisons are taken up by the blood and the system becomes a prey to any infectious disease that may be prevalent.

The only method of properly keeping the colon and intestines clean is by bathing internally. The J.B.L. Cascade is the only perfect appliance for this purpose, and only purified warm water is used. It positively removes constipation and keeps the system as clean and healthy as nature intended it should be.

If you want to avoid being sick or to regain your health, keep your system clean and your blood pure. Thousands of Canadians have proven this wonderful health-giving method, and scores have been restored to perfect health by using the J.B.L. Cascade without taking drugs of any kind.

There should be a J.B.L. Cascade in every home. It is being shown and explained by Canada Book & Drug Company.

Ask for free booklet all about Internal Bathing.

MENNEN'S BORATED TALCUM

TREATMENT FOR INFLUENZA CASES

Simple Home Treatment to Ward Off Attacks in Early Stages

The appearance in last year's epidemic of influenza taught us that the disease should be fought in its early stages. Here the symptoms are similar to a cold in the head and the same treatment should be used, usually with effective results.

Any physician will tell you that the drugs to use in such cases are Cascara, Phenacetine, Quinine, Salol, Caffein Citrate and Camphor Monobromate. The action of these is to quickly break up the cold and even conquer an advanced stage of Grippe.

These drugs are offered the public in Grip-Fix, a preparation for use in the home. It has been on the market for ten years and did wonderful work during the 'flu epidemic of last year. It comes in capsule form, convenient to take and giving quick action. It relieves a cold in a night and usually breaks up an attack of grippe in 48 hours. There is nothing in Grip-Fix which works injury to the system. On the contrary, it has a general toning up effect.

Grip-Fix is for sale by all druggists. Get a box today and have it in the house. Prompt treatment of colds is half the battle. When asking your druggist for it be sure to get Reid's Grip Fix as there is no preparation "just as good" for colds. It sells at 35 cents a box.

NATIONAL PROGRESSIVE PARTY IS NAME GIVEN CROSS BENCHERS

(Continued From Page One)

only trying to find out where my honorable friend stood on the tariff." The government leader said there never had been a policy before the government but that they had agreed upon it. That would give us the impression that policies they could not agree upon were not introduced, he said.

Referring to the demand for an election, Dr. Clark said the man who wanted an election now must be fond of adventures. The present administration had been elected purely on a win-the-war platform, and the duties for which this government was elected had been carried out.

Referring to the need of redistribution, Dr. Clark doubted whether a promise from the government on this score would be worth very much consideration. If the present system of ministers retiring was to be continued there would soon not be any government left. If an election were held now, Dr. Clark declared there would be sufficient progressive men returned to enforce their views and policies. The minister of the interior had asked the leader of the opposition what was wrong with Canada. Dr. Clark wanted to know if the government had no conception of public feeling today. The people of Assiniboia and Carleton, N.B., had shown that they felt there was much wrong with the government.

Mr. Meighen said, Ask the veterans." They had come back and found men who stayed at home occupying the best positions. A sense of injustice was at the root of the whole world movement today. Returned men in Canada had said that the government had not the right take a fair amount of profits from the men at home while they were in the trenches being paid $1.10 per day.

"Is this what the men went to fight for?" Dr. Clark asked. "They fought for democracy, freedom and justice. A little of the same would go very well at home. Dr. Clark declared that he would support the amendment on the grounds which he had outlined. He declared that he had enjoyed the struggle between the political youth and the barnacle-like tenacity of the veterans. He was proud of the leader of the farmers' movement, this national progressive party which represented the people who had come to think for themselves on national questions.

Andrews for Free Trade

Major Andrews (Winnipeg) declared that he believed in free trade absolutely as he believed in Christianity. But you could not throw pearls before swine, nor could a tiger or a Hun be tamed with Christian tenets. He regretted that the speech from the throne contained no mention of further re-establishment measures. He had hoped to find something constructive along the lines of re-establishment, but there was mention neither of insurance nor of students. There was no comprehensive plan to meet unrest.

Major Andrews declared his intention to vote for the amendment. About everywhere in his constituency he found a majority of the people desirous of a change. All classes without exception had brought up this "confounded thing" of taxing wealth. There was a distinct feeling that the government had failed to tax war profits, and in Major Andrews' view something would have to be done along these lines before there was in the country a feeling of satisfaction. On the last occasion when he voted against the government, Major Andrews proceeded, he notified his constituents of his willingness to resign; but they would not accept his resignation.

"I may tell the house," Major Andrews proceeded, "that my constituents gave me an absolutely free hand. I am, therefore, going over to the cross benchers. I shall feel freer. I do not like to do this sort of thing; it goes against my grain. If a man gets his chance in caucus and in the lobbies, even though he finds himself in the minority I cannot see how the business of the country is going to be carried on if he jumps the fence every time he fails to get his own way."

Thomas MacNutt (Saltcoats) favored waiting until after the redistribution for an election, if the government could assure him that a caucus and redistribution would take place shortly. Wanting such an assurance from the government he declared his intention of supporting the amendment. Basing his calculations on an estimated increase of 1,718,738 in the population of Canada over the 1911 census, Mr. MacNutt gave the following as the membership by provinces in the event of redistribution:

Alberta 16, British Columbia 20, Manitoba 17, New Brunswick 10, Nova Scotia 14, Ontario 79, Prince Edward Island 4, Quebec 65, Saskatchewan 21 and Yukon 1.

This would mean a total membership of 247, with an increase of 18 seats for the four western provinces and a decrease of 3, one New Brunswick and two in Nova Scotia.

Tax Land Values

The income tax, said Mr. MacNutt, should not apply to the farmers. Few farmers kept track of their expenditure and income. It would be better, he thought, to tax the land values of the farmers.

Unless the government could promise an election next year he would have to vote for the amendment.

Levi Thompson (Qu'Appelle) declared that he must commend the government for most of its work since it took office, but he believed that the 1917 election was purely a war election and that the government returned by a war time election had fulfilled its duty. He had always held that an election should not be held until the men were back from the front and had had a chance to size up the situation. This time had come and failing the government's undertaking to bring on an election next year, he would vote for the amendment. He wanted redistribution and believed there could be another election within two or three years even if one were held next year.

IRELAND SEETHES WITH REBELLION

Situation Extremely Dangerous Is Chief Secretary's View

LONDON March 5,—Ian MacPherson, chief secretary for Ireland, rebutting the house of commons' attacks on the Irish administration, said: "It is obvious we are up against a tremendously dangerous situation in Ireland." He added that the Sinn Fein had at least 200,000 men prepared to commit murder at any hour of the day or night.

Secretary MacPherson asserted he had received letters from Loyalists in the west and south of Ireland begging the government to take steps to get them out of the country. The Easter rebellion of 1916 had not been stamped out, he said, and had left behind it a spirit more malignant and revolutionary than Ireland had ever known.

Fear Fresh Tragedy

The Graphic today features a Dublin dispatch saying that the Irish situation is changing remarkably. The dispatch declares that nothink can avert a fresh tragedy except the utmost coolness on the part of the authorities and that any increase in the rigor of martial law will inevitably precipitate such a tragedy, causing dangerous complications for England in America.

The chief danger, according to the Graphic, is the widespread conviction that as all Dublin castle clique is bent on getting Ireland's youth into the open so that the morale of the Sinn Fein may be shaken by bloody suppression.

Another Murder

TORONTO, March 5.—The Toronto Telegram has the following cable from Belfast, Ireland:

"Irish crime is increasing in volume and audacity and will till the government recognizes that Ireland is in a state of rebellion and takes measures to combat it.

"The Sinn Feiners' latest victim is Frank Shaw-Taylor. He was shot dead while motoring to Galway fair yesterday morning. He was a brother of the late Capt. Shaw-Taylor, so prominently identifed with the devolution scheme some years ago. The murder took place at Glosha, a mile from Moorfield Athenna, the residence of the victim.

"Last night some arrests were made by the police in connection with the affair. It transpired that Shaw-Taylor's life had been attempted on previous occasions but he had gone about his business unperturbed."

AFTER INFLUENZA

The Grip, Fevers and Other Poisoning, Prostrating Diseases.

It is absolutely necessary that the blood be thoroughly cleansed, germs of disease destroyed or driven out, appetite restored and the kidneys and liver restored to perfect regular action.

Hood's Sarsaparilla has been before the people for 46 years as a general blood-purifying alterative tonic medicine and it has given perfect satisfaction. Men and women whose grandmothers gave them Hood's Sarsaparilla are now giving it to their own children and grandchildren with perfect confidence. It is the ideal family medicine, for a wide range of ailments, always ready, always does good at any season of the year. Prepared by educated pharmacists. Nearly 50 years of phenomenal sales tell the story of its remarkable merit. For a mild, effective laxative, take Hood's Pills.

SENATOR EXTOLS UNION GOVERNMENT

Declares It is Greatest Administration in Canada Since Confederation

OTTAWA, March 5.—The present government was the greatest government, supported by the greatest party, that had existed in Canada since confederation in the opinion of Senator Tanner, who was the sole spaekre

speaker on the address in the senate this afternoon

Senator Tanner objected to remarks by Senators Dandurand and Schaffner in the course of their speeches. He took issue with the former on the ground that he was trying to keep alive the differences between Ontario and Quebec, in which the other provinces were not interested. He did not agree that French-Canadian Quebec was not represented in the government and declared that this province had not been bedeviled by Sir Robert Borden, but by men of the partizan type of Senator Dandurand.

SOLDIERS TELL OF SINISTER FORCES

Canada and Britain are feeling assured of a greatly enhanced freindship with the United States. That certain forces are working with some success at promoting anti-British sentiment in the United States is the statement of Sergt. Arthur Gibbons, one of the 3rd Battalion, Canadians, who has been engaged for over a year and a half in lecturing in the United States.

These forces, says he, are the Hearst newspapers and magazines, the Irish-American political organization and German and radical forces that regard Britain as their natural enemy.

And certain American troops of divisions that got no further in the war than the British Isles have come home full of denunciations of the British, whom they accuse of attempting to starve the American troops, and of rooking the soldiers in their shops.

Sergt. Gibbons, who is a Toronto man, original Third, who was wounded and captured at St. Julien and who has lectured in 1400 American cities and towns on his experience as a prisoner of war, was in an excellent position to observe this anti-British propaganda. O none lecture tour last November and December, he was just one week behind De Valera, the Irish Sin Finn "president." He made enquiries as to what De Valera's arguments and charges were, and on his tour, refuted and denied as many as possible.

His most telling weapon against De Valera was his description of the attempt of the Germans to recruit an Irish legion from the hundreds of Irish prisoners of war in Giessen camp.

Sergt. Gibbons, who was in Geissen camp at the time of this Casement affair, described to the American audiences who had just recently listened to De Valera, how the Germans, out of hundreds of Irishmen in the camp, got seventeen volunteers for the Irish legion. And how, later, when they called these men's names on parade to be sent on to their new quarters, not one answered, "nor would be able to answer for several weeks," added Sergt. Gibbons, "the way the rest of the Irishmen had handled them."

The anti-British propaganda calls for some active counter propaganda by Britain and Canada, Sergt. Gibbons says. The Hearst newspapers go quietly ahead, making little and big veiled slurs upon Britain, which no one but a Britisher would detect as deliberate. It is being cleverly done.

"One of the commonest things said to me in my travels," says Gibbons "was—of course, you are a Canadian. But what did the British do? Didn't they leave you and the Australians to be slaughtered?'"

"My answer to this question was to advise the questioner to ask some of the American soldiers who had actually seen fighting with the British for an estimate of the British soldier, and not to accept the piffle of that large army of Americans who saw no part in the war at all."

In one New England town, Sergt. Gibbons was shot at by a German who was sitting in the box seat of the theatre, and in another Montana town, a German mounted the platform armed with a knife to revenge the insults heaped on the Vaterland. At Krupp, Montana, a completely German town, and at Odessa, Montana, a Bolshevik centre, ESergt. Gibbons prefaced his lecture by placing a large fat automatic pistol on the table beside him.

AFRICAN ELEPHANTS SCARCE

One of the many after-war shortages that the world will have to suffer, but which will not prove the hardship that other lacks have imposed upon the people, is that of African elephants. It is all because the "mighty pachyderms," as the circus bills say, have appropriated the irrigation canals in Southern Africa for their own particular bathtubs, and when they plunge into the cooling water to enjoy their dips they are not particular about the manner in which they tread about the dams and banks. As a result much damage has been done and the agriculturists have been waging a relentless war on the ponderous and destructive animals. Many housewives who have male nmbrs of the family of the "splashing" variety can appreciate the feelings of a South African farmer when he views the clutter left by the elephants.

OBSTINATE COUGHS

When resistance is lowered and you come down with a cold that runs into an obstinate cough, your trouble is more than surface deep. You need

SCOTT'S EMULSION

an easily absorbed tonic-nutrient, mixed with your blood to nourish and enable you to get a fresh hold on strength.

For nearly fifty years Scott's has been helping break up colds by building up strength. Try It!

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the *only genuine Aspirin,—the Aspirin* prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

The Cook's little helps

Oxo Cubes are little wonders of convenience and economy. In the hands of the cook they are something to conjure with—they save meat—they save fuel—improve the cooking—increase nutrition—and make for better health and well-being all round.

Tins of 4, 10, 50 and 100 Cubes.

OXO CUBES

The little money-time-and-trouble-savers

General News of the City

MRS. MATHESON DIES AT COAST

Wire Received by Her Brother-in-law Gives News; Lived Here Eleven Years

According to a wire received received yesterday by A. L. Wilson from his brother-in-law, J. H. Matheson, now a resident of Victoria, Mrs. Matheson died at Victoria Thursday night.

Mrs. Matheson was formerly Mrs. Margaret Fish, coming from Ontario to Nelson. She married Mr. Matheson about 11 years ago. She is survived by her husband and three children.

Mrs. Matheson moved to the coast a year or more ago, being joined last fall by Mr. Matheson, who had resided in Nelson for 30 years.

WILLOUGHBY ESTATE

An application made yesterday by E. G. Matthew, before Registrar T. M. Bowman, in the estate of Cadet William Vernon Willoughby, who died on Dec. 5, resulted in letters of administration being granted, to issue to Vera Willoughby, sister of the deceased. Miss Willoughby is on the *nursing staff of the Kootenay Lake* General hospital.

KILTIES FACE A SPLENDID HOUSE

Large Audience Enjoys Scottish Concert at Opera House; National Dances

From the moment the curtain rose on the pipers and drummers of the Kootenay Kilties in the opera house *last night till it fell again*, the full house was entertained to one treat after another.

Mrs. J. T. Andrews delighted the audience with a group of songs by Cadman: "At Dawning," "The Heart of Her," and "From the Land of Skyblue Waters," and Mrs. C. W. Tyler rendered most sweetly the song, "Love Is Meant to Make Us Glad." Miss Ivy Holt's fine contralto was heard to great advantage in "My Dear Soul," "When the Great Red Dawn Is Shining," "*Daddy's Sweetheart*," "*Friend of Mine*," and "Coming Home." The duet by Miss Agnes Lawson and A. W. Graham ,"Why Will Ye Gang, Laddie?" was finely rendered.

The humorous element was in the safe hands of Edgar Mason, Leslie Craufurd and A. W. Graham, while Ernest Welsh danced the Highland Fling and Sword Dance, and the Kilties dancers gave a Highland reel. Much favorable comment was heard on the playing and dancing of the boys, which showed the results of great patience on the part of their pipe major, W. McLeary.

At the interval Mr. Craufurd announced that owing to the ravages of the prevailing sickness, the leading lady in the sketch "Divorce," Miss Edna Parker, was unable to play, in consequence of which the skeetch was abandoned. In its place *Miss Grace Brett and Rene J. Bray* gave their graceful dance entitled "The Storm," and this, with a final Highland march by the pipe band, brought a most successful concert to a close.

The pipers taking part in the performance were R. Byres, G. McLeary, J. Wallace, B. Wallace, E. Welsh and Pipe Major W. McLeary. The drummers were R. Clarihew, W. Byres, C. Driscoll and J. Young, while those taking part in the Highland dances were W. and R. Byres, R. Clerihew, C. Driscoll, H. Fleming, G. McLeary and E. and F. Welsh.

METHODIST CHOIR FOR TOMORROW'S CONCERT

Many popular local artists and Johnston's orchestra, will assist the Methodist choir at the G. W. V. A. concert at the opera house tomorrow afternoon.

The choir will render several sacred songs and choruses, and the lighter parts of the vocal program will be filled by Mesdames Allen, Andrews, Elliott and Fye. Miss Freda Hume will give a reading and Mr. Pitner and Master Arthur Stringer are also on the bill

WEDDINGS

JONES-JONES

At St. Saviour's Church, Nelson, B. C., on Thursday, March 4th, by Rev. Fred H. Graham, rector, William Edward Jones of Nelson was married to Miss Sarah Louise Jones of Ramsbury ,Wiltshire, England.

TWO DAYS' WATCH OVER BOY'S BODY

PHOENIX, Ariz.—How a shepherd dog stood watch over her master's body for two days and three nights to protect it from prowling animals and birds of prey has been revealed here by Humane Officer J. W. Canning.

Ermos F. Williams, son of J. H. Williams, of Phoenix, died July 15, while herding goats and sheep in the mountains 56 miles north of here. He fell over as though from *heart disease, his father heard afterwards.*

A Mexican herder called "Lady," the dog, to the body and said "Stay with him." The Mexican walked towards Phoenix until he met an American who telephoned news of the death to the youth's father.

J. H. Williams started from Phoenix at once. Because of hard rains and washouts he had difficulty in getting into the mountain fastnesses where the flocks pastured. Finally he reached the spot where the body lay, the dog still on guard. She growled viciously as he approached, he said, but *as soon as she saw that* he meant no harm, she licked his hand. She was worn out by her long vigil, half starved and gaunt with thirst, but when he tried to drag her to a place to drink, she resisted fiercely and ran back to the boy's body. There she stayed until neighbors had been summoned from miles away to take the body to Phoenix. Then she consented to be turned over to the head shepherd of the Williams flocks, who had instructions to see that she received the best of care.

At a training camp during the war the officer of the day was making the rounds of the post. It was during challenging time. He asked himself on the corner post of a fence and waited for the sentry. The sentry ,a raw recruit from the woods, came slowly up and stopped only a few feet from the O. D. After waiting in silence for a few moments the officer asked: "Well, what are you going to say?" Durned if I know what to say," drawled the recruit. "If you were walking I'd say 'Halt'!"

NELSON NEWS OF THE DAY

Phone 19 for messenger, where the Spokesman Review is sold, at The Bungalow, Baker Street. (6473)

CONSTIPATION OR COSTIVENESS

Constipation, although generally described as a disease, can never exist unless some of the organs are *deranged, which is generally found* to be the liver.

There is nothing more productive of general ill health than constipation of the bowels and a regular action is absolutely essential to general health. One of the most common, painful and troublesome troubles caused by constipation is piles, and unless the bowels are kept open by the use of a good laxative such as Milburn's Laxa-Liver Pills, the whole system will be poisoned and many different complications of disease arise, so if you would be well, keep your bowels regular.

Mr. A. Roder, Hastings St. E., Vancouver, B. C., writes:—"I desire to express my thanks for what Milburn's Laxa-Liver Pills have done for me. I had been suffering from constipation for two years, and also had a bad cough and headaches. I tried all sorts of cures and remedies, but got no relief until I was advised to try your pills. I got great relief after the first few doses."

Get Milburn's Laxa-Liver Pills *when you ask for them* or send 25c and they will be sent by return of mail by The T. Milburn Co., Limited, Toronto, Ont.

his Is Better Than Laxatives

ne NR Tablet Each Night For A Week Will Correct Your Constipation and Make Constant Dosing Unnecessary. Try It.

Poor digestion and assimilation ean a poorly nourished body and w vitality. Poor elimination means logged bowels, fermentation, putri- faction and the formation of poisonous ases which are absorbed by the blood nd carried through the body.

The result is weakness, headaches, izziness, coated tongue, inactive liver, ilious attacks, loss of energy, nerv- usness, poor appetite, impoverished lood, sallow complexion, pimples, skin isease, and often times serious ill- ess.

Ordinary laxatives, purges and ca- artics—salts, oils, calomel and the ke—may relieve for a few hours, but eal, lasting benefit can only come hrough use of medicine that tones p and strengthens the digestive as well as the eliminative organs.

Get a 25c box of Nature's Remedy NR Tablets) and take one tablet each ight for a week. Relief will follow the very first dose, but a few days will elapse before you feel and realize he fullest benefit. When you get traightened out and feel just right gain you need not take medicine very day—an occasional NR Tablet will then keep your system in good ondition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well. Nature's Remedy (NR Tablets) are sold, guaranteed and recommended by your druggist.

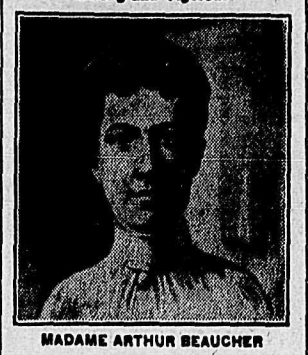
BECAME SO THIN SHE WAS AFRAID

"FRUIT-A-TIVES" Made Her Well, Strong and Vigorous



MADAME ARTHUR BEAUCHER

805 Cartier St., Montreal.

"I suffered terribly from *Constipation and Dyspepsia* for many years. I felt pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

At last a friend advised me to take 'Fruit-a-tives'. I did so and soon I felt some relief. I continued with 'Fruit-a-tives' and in a short time, the Constipation was banished, I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. *Now I am well, strong and vigorous.*"

Madame ARTHUR BEAUCHER.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or from Fruit-a-tives Limited, Ottawa, Ont.

Nearly Insane From Leg Ulcers

She tells of suffering and brief story of her cure.

Read these two letters from Sarah D. Lawrence of Roebuck, Ontario. "I can't sleep at night from leg ulcers. I am in pain most of the time. I have doctored but no use. A lady from Winnipeg says that D. D. D. cured her of a bad case of eczema. That her sores are all healed. Can you help me?"

Now a few words from a later letter. "I have used D. D. D. as directed, and my leg is completely well."

Why not be convinced and try this remedy today for any form of skin disease? One application and the itch is gone. Your money back if relief doesn't come from the first bottle. $1.00 a bottle. Try D. D. D. Soap, too.

SPORT

NEW DENVER PUTS IT OVER NELSON

By Score of Eleven to Four Slocan Lake Hockey Team Takes Fast Game

NEW DENVER, March 5.—In the of the best hockey games ever played in New Denver, the local hockey team defeated Nelson 11-4 Thursday night. The game was exceptionally fast, and there was some brilliant combination and exceptional individual work on the part of both teams. In the first period Ray Blumenaeur was playing a tip-top game and scored in five minutes, and followed with two more goals in rapid succession. Nelson in the meantime doing their utmost, but were unable to penetrate New Denver's defense. The old warrior, J. Tier, was playing exceptional hockey and H Blumenaeur, although somewhat lamed from previous games, was right there every time, the forwards, too, were onto their job.

Denver, in the second period ,took the ice confident of the game, while Nelson showed an equal determination to win. C. Towgood took the place of H. Blumenaeur this period. Nelson made things lively, and Ferguson scored in five mintes, and Miller five minutes later did "like". Towgood then scored for New Denver. This period was a display of fine, clean hockey.

The last period, faster than either of the previous, was where the locals got away, H. Blumenaeur scoring three goals in rapid succession, and Cecil Dawson three more. Nelson scored two goals this period, Ferguson and Desireau one each, while Sandy Harris also scored for New Denver.

The local forwards showed up as never before, and their defense was a stone wall. Johnson, in goal, played a sensational game.

Walton in goal for Nelson played remarkably well while Ferguson and Desireau starred for Nelson .

The Nelson boys were entertained by the rink committee, after the game, to a supper and dance.

The lineup was:

Nelson—		New Denver—
Walton	G	Johnson
Simmons	D	J. Tier
Desireau	D	H. Blumenaeur
Ferguson	C	C. Dawson
McKinnon	R W	A. Harris
C. Miller	L. W	R. Blumenaeur

Spares—C. Towgood.

Timekeepers—Nelson, ; Wilkinson; New Denver, C. Nelson.

Referee—R. S. Nelson.

SANDON VICTORS AT NEW DENVER

Wins Hockey Match by Nine to Six; Visiting Teim is Entertained

NEW DENVER, March 5.—By a score of 6—9, the visiting Sandon hockey team defeated the New Denver team Wednesday, in an exciting game witnessed by a big crowd, including a large contingent of enthusiastis from Sandon.

Scoring was distributed through the three periods, Sandon securing four goals to New Denver's three in the opening session, one apiece being registered in the second, while in the third Sandon bettred its lead securing four to New Denver's two. The visitors appeared to have a champion goal—keeper in E. Johnstone; J. Hume and D. Patterson deserve special mention; and Dr. Topliff was a surprise with the puck.

The line up as follows:

New Denver—		Sandon—
D. Shannon	G	E. Johnstone
H. Blumenaeur	P	J. Hume
J. Tier	C	D. Patterson
C. Towgood	L.W	F. Wilkinson
A. Harris	R.W	H. Bray
C. Dawson	Ctr	Dr. Topliff
R. Avison	S	F. Hufty

Referee—H .Nelson.
acopening f.m A

After the match, the visiting team were entertained and supper provided at the Bosun hall, the hosts being the New Denver hockey club.

QUEBEC TEAM BEATS OTTAWA

MONTREAL, March 5.—Sons of Ireland of Quebec defeated Munitions of Ottawa 5 to 1 tonight in the elimination contest for the Allan cup.

HOCKEY TEAM RETURNS

Reporting that they had had the best of treatment at New Denver Thursday night, the members of the Nelson senior hockey team arrived home last night.

The Hudson's Bay Company
INCORPORATED 1670

VICTORIA TEAM BEATS VANCOUVER

VICTORIA, March 5.—If the outcome of the last remaining games on the Pacific Coast Hockey association schedule is that the Aristocrats are nosed out of any chance to get in the play off, it will not be without their having made a really great effort in their last game on home ice.

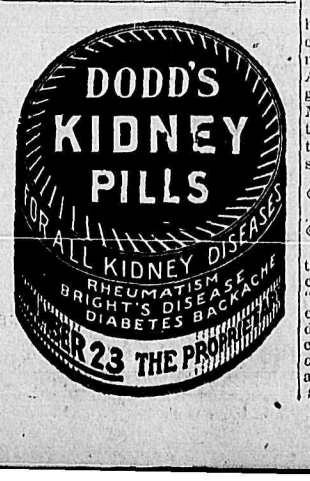
Tonight they beat Vancouver in one of the most strenuous games played this year and beat them well although the goal score only showed a margin of one in their favor. The combination which the locals have been showing more or less irregularly throughout the season was working at its best tonight and the visitors had all they could do to keep Victoria from piling up a big score on them. The final score was 3 to 2.

No one could fairly say that the breaks of the game were with Victoria as the first Vancouver goal was a decidedly flukey one, gained with a long shot which just made the corner of the net, and the second was obtained when Victoria was at the disadvantage of having six men on the ice against seven.

Lineup

Victoria — Fowler, Johnson, C. Loughlin, W. Loughlin, Oatman, Dunderdale, Kerr. Subs, Meeking, Genge and Patrick.

Vancouver—Lehman, Cook, Duncan, Harris, Skinner, Roberts, J. Adams. Sub., Taylor.



SWITZERLAND TO ENTER AIR RACE

NEW YORK, March 5.—Switzerland today cabled a challenge for the international balloon trophy now held by the Aero club of America. Challenges already have been received from England, France, Belgium and Italy.

JOE BECKETT IS BRITISH CHAMPION

LONDON, March 5.—Joe Beckett, the heavy weight pugilist, knocked out Dick Smith, light weight champion of England, in the fifth round tonight. The fight was for the championship of Great Britain.

SELKIRK JUNIORS CHAMPS OF CANADA

REGINA, March 5.—Selkirk's junior hockey team are the undisputed champions of western Canda, and tonight are the proud possessors of the Abbott Memorial cup. In the second game of the play-off with the Calgary Monarchs the score ended in a tie, three to three, but as Selkirk won the first game 8 to 2 they win the series 11 to 5.

At THE THEATRES

"Biff, Bing, Bang!" is the catchy title of the original overseas musical comedy revue which the famous "Dumbells" are offering here at the opera house on Monday and Tuesday. The "Dumbells," as they were called in France, where they gave over 500 performances to our Canadian soldiers, is an organization of soldier-actors, who were chosen by Capt. M. W. Plunkett from practically every branch of the service. Every member of the cast and chorus has a record of at least 16 months service to his credit before joining the entertainment corps.

Thei performance, while given entirely by soldiers, is along similar lines to the big musical revues, so *much in vogue in London and New* York, and the boys play everything from chorus girls to prima donnas. The costumes and scenery are the last word in gorgeousness, and the many song and dance numbers, most of which were written especially for them by some of England's best composers, are brilliantly sung and executed.

STEAMER ASHORE OFF DELAWARE COAST

NORFOLK, Va., March 5.—The United States shipping board steamer Marsodak is ashore off the Delaware coast. The coast guard cutter Manning has put to sea in answer to the calls.

UPPER HOUSE VOTES FOR SWEDEN IN LEAGUE

STOCKHOLM, March 5.—The first chamber of parliament today voted 86 to 47 in favor of Sweden entering the league of nations. By a vote of 152 to 97 the lower house of the Swedish diet on Thursday voted in favor of Sweden's membership in the league of nations.

JEWS' WAR RECORD

The Lord Chief Justice surprised the Lord Chancellor theother evening. It was at a dinner of the Jewish community to celebrate peace and honor the semi-jubilee of the Jewish Historical society of England ,a festivity in which the American ambassador and the Chinese minister joined. Lord Reading estimated the number of Jews in the United Kingdom at 250,000; Lord Birkenhead was astonished to hear there were so few. The total for the whole Empire is only 420,000. "If I were a Jew," said Lord Birkenhead, "I should be proud of nothing more than that so infinitesimal a proportion of the population had played so immense and so determined a part in the restinies of our national life." The Jewish war record justified the remark. Over 50,000 belonged to some branch of the forces, and among the hundreds of honors they won are five Victoria Crosses.—London Times.

SERGEANT KILLED IN PISTOL BATTLE

INDIANAPOLIS, March 5.—Sergeant of Police Murphy was fatally injured yesterday in a running revolver battle with "Hellat" Thomas, a negro burglar and bad man. The negro was killed after he had exchanged 35 shots with the policeman.

THE HACKING COUGH Strains The Lungs

The terrible, hacking, lung-wracking cough that sticks to you in spite of everything you have done to get rid of it is a great source of danger to your health, and the longer it is allowed to stick the more serious the menace becomes.

You can easily get rid of the cough or cold at its inception by using Dr. Wood's Norway Pine Syrup, a remedy that has been universally used throughout Canada for the past 30 years.

Mrs. Samuel Matthews, Portage, P.E.I., writes:—"Last winter I caught a heavy cold, and was laid up for sometime. I had such a hacking cough I could not sleep at night, and did not think I could ever get over it. One day a friend dropped in to see me, and was surprised to see how bad my cough was. She advised me to use Dr. Wood's Norway Pine Syrup, so the next day I sent for a bottle and soon got relief, and by the time I had taken two bottles, my cough was all gone. I doubt there is anything to equal it."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; 3 pine trees the trade mark; price 25c. and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

TO KNOW WHAT!

Is the question. Anyone may ask: "Where can I get a positive statement concerning my eyes?"

It is a serious point to anyone who feels the need of intelligent attention.

We realize this and know our responsibility.

After thirty-five years of continuous practise with the, then up-to-date instruments, which we have discarded, and are now equipped with a complete set of Scientific Instruments and are in a position and feel confident to give the answer positively.

We have the Best and the BEST you will get.

CHASE & SANBORN, MONTREAL. 2

Social and Personal

J. Mulligan of Phoenix was in the city yesterday.

Archie McQueen of Kaslo registered at the Hume yesterday.

C. R. Casley of Slocan City was a Nelson visitor yesterday.

J. H. Hoyle of Queens Bay was a business visitor to the city yesterday.

Mrs. G. B. Matthew returned Thursday night from her visit to Spokane.

J. T. T. Tipping, owner of the Black Prince property, is a visitor in the city.

Mrs. Neville Cooper (Miss Ivy Holt) of Trail, is the guest of Mrs. William Irvine.

Mrs. J. Collin, Silica Street, has undergone a serious operation at the Kootenay Lake General hospital.

L. H. Biggar, the Montreal metallurgist, who is investigating the opening for an ore testing and sampling plant here, paid a visit to the Emerald mine yesterday.

Dr. L. E. Borden, who has been ill at the Kootenay Lake General hospital for the past few days, is progressing favorably, and expects to be out and around in a few days.

Capt. Harold E. Minton, of the Royal Air Force, who went overseas in 1914 with Major Rigby's draft, has arrived at Halifax by the Royal George and expects to reach his home at Fernie about Tuesday.

Frank H. Strieby, of the firm of Turner, Dennis & Lowry Lumber Co., of Kansas City, Mo., who is making a round of the various lumber mills in the interior of the province in connection with the purchase of lumber for export to Kansas City, is in the city getting into touch with local lumbermen. The concern for which Mr. Strieby is travelling is an amalgamation of the three largest lumber dealers of Kansas City, who do a considerable business with coast lumbermen.

FALSE ALARM

Considerable uneasiness was evidenced in the opera house last evening toward the close of the evening performance by the noise of the city fire fighting apparatus passing the building, bound for Water street, on what proved to be a false alarm call. A number of the audience left the building uneasy in mind as to the whereabouts of the fire but were reassured by the return of the fire motor about three minutes afterwards, when word was given out that the call had been a false alarm.
