COVENANT CRITICISED AT OTTAWA

OPPOSITION CENTERS ATTACK AROUND THE TENTH CLAUSE

McKENZIE SAYS SUBMISSION OF TREATY "TICKLES FANCY"

Hon. A. L. Sifton Replies for Government; Says Canada Has Reached Status of Nation

OTTAWA, Sept. 8—Strong opposition criticism of the league of nations was voiced in the house today. Generally, as was expected, the criticism centered around the tenth article and the obligation thereunder placed on members of the league to preserve against external aggression the territorial integrity of all members of the league.

"Are we bound henceforth to take part in outside affairs?" queried the acting leader of the opposition, D. D. McKenzie.

Hon. H. S. Boland feared Canada was assuming more international obligations, without increasing her international status. "Under this covenant," Dr. Beland declared, "under the council the leage is given the right to dispose of Canadian troops for the quelling of disorders in any of the five continents."

Mr. McKenzie took the view, too, that Canada had not yet reached the full status of nationality. "We are not," he argued," able to declare war and peace. If Canada, as a separate nation, bound herself to observe the league covenant, she might have to fight even the mother country. Nor would Canada's action on the treaty alter it in the slightest degree."

Submitting it to the Dominion parliament merely "tickled the fancy" of some members and made them feel more important.

Replying for the government, Hon. A. L. Sifton, minister of public works, took the view that Canada was fully entitled to sit in the peace councils. In regard to Article 10, the view was also taken by speakers on the government side that Canada having reached the status of a nation, could be prepared to play her part with other nations.

The debate was adjourned by Ernest La Pointe, of Kamouraska.

Sinclair Refutes Charges

Rising to a question of privilege, J. H. Sinclair, of Guysboro, referred to a statement made in the house by Dr. J. W. Edwards, Frontenac, on Friday, of Mr. Sinclair's alleged connection with the Carmichael Shipping Company.

Mr. Sinclair declared that the statements were without foundation. There could be no question of profiteering because the rates paid were admiralty blue book rates.

The leader of the opposition stated that Premier Lloyd George, speaking in the British house on July 3 last, had declared that the peace treaty discussion requires ratification. Ratification save in one or two particulars were for the King.

W. F. MacLean, South York, asked if it was not the case that Premier Lloyd George had asked the government to ratify the treaty.

Mr. McKenzie replied that he thought not. He stated that the prime minister had promised ratification to His Majesty, the King. However, be that as it may, Canada's action would not alter in the slightest degree the force of the treaty.

Turning to the league of nations he said that it was conceivable that Canada would be brought into a position where she might even have to fight the mother country. If Canada, as a separate nation, bound herself to observe the league covenant, and Great Britain without receiving authority from the league, started a war, Canada would be bound to take part against her. Canada, if she were to be accepted as a nation, must be prepared to play the part of a nation as require' by the league.

The leader of the opposition closed by declaring that the treaty should be considered and discussed without party feeling.

Sifton Disagrees

Hon. A. L. Sifton said that he might disagree with the leader of the opposition on certain constitutional points. So far as the ratification of the treaty was concerned, he had no knowledge that it had yet been ratified by the British parliament. The ratification of the treaty for the Dominion of Canada by the King, would depend upon whether the Canadian parliament approved or disapproved of the treaty.

It was a departure from the established rule to submit such a treaty to parliament for ratification, but surely it was better to do this instead of ratifying it by order in council which would have been quite constitutional.

Mr. Sifton said that while the great powers had done the bulk of the work and made the chief decision in the peace treaty, the delegates from the British Dominions had been called upon to occupy a much more important position than was held by those of the smaller powers. All the British delegates were not able to attend and ministers from the Dominion worked hard to assist in drawing up the treaty to the advantage of the British empire and to make it an honorable treaty for the world at large.

Big Powers Objected

E. B. Devlin, Wright, asked what

(Continued on Page Five)

FLOOD OF MESSAGES DEMAND BIG GRATUITY

OTTAWA, Sept. 8.—The G.W.V. A.'s demand for increased bonus was in evidence in the house of commons today. In addition to the letter from Secretary McNeill, sent by special delivery to every member of parliament, there was one or more telegrams from nearly every constituency, each for its special members. Pages with arms filled with letters and telegrams, were circulating the corridors and the commons chamber during most of the afternoon and evening, attempting to deliver the flood of messages.

TORONTO EDITOR FACES VETERANS

Third of Crowd at Queens Park Prevents Stewart Lyon from Speaking Against Gratuity

TORONTO, Sept. 8.—Stewart Lyon, chief editor of the Globe, tonight in Queens park faced an adverse crowd of several thousand returned soldiers and their friends and defended a Globe editorial in opposition to the demands for a gratuity of $2000 for each of the war veterans. A committee of the agitators for the gratuity waited on Mr. Lyon in his office this evening, but his statement of his attitude on the question did not satisfy the committee. Thereupon Mr. Lyon decided to face the music by addressing a gathering in the park.

Crowd Would Not Listen

It was an exceedingly noisy crowd. Possibly two-thirds of the men present would have listened to the editor, but the other third made this impossible by keeping up a noise and shouting with tiresome repetition, "The Globe is on the bum."

The inability of the country to bear the additional burden that would be imposed if the wished-for gratuity were granted, was pointed out by Mr. Lyon, who cited figures to prove his contention that Canada is already staggering under the burdens caused by the war. That is, Mr. Lyon tried to point this out, but he was interrupted so much and the noise became so great that even he could scarcely hear himself. After a vain attempt to make his position clear, except to a few people in his immediate vicinity, he gave up the struggle.

Having prevented the explanation which they had demanded, the crowd left the park almost in the tracks of Mr. Lyon, although no violence to him had been attempted.

Veterans "Booed" the Globe

They followed him to the Globe office, where they halted for a minute or so and "booed" the Globe. A few policemen were at the Globe's front door, but the crowd did not show any disposition to enter. They resumed their march up Yonge street, continuing their shouting against the Globe, and finally dispersed without having engaged in any violence.

During the meeting in Queens park, R. Flynn, president of the newly-formed Returned Soldiers Gratuity league, presided and asked for fair play for the editor. Mr. Flynn was the chief denouncer of the Globe editor at Sunday's meeting in Queens park, and suggested then that the paper be boycotted.

MINERS MAY ASK 30-HOUR WEEK

Sharp Increase in Basic Wages to be Considered at Cleveland Convention.

CLEVELAND, Sept. 8.—A sharp increase in the basic wages of all coal miners in Canada and the United States, the six hour day and the 30 hour week, are written large on the program for the initial convention of the United Mine Workers of America, which opens here tomorrow.

Recommendations that these demands be submitted to the operators at the coming conference at Buffalo Sept. 10, will go before the delegates upon assembling tomorrow, and the temper of the arriving delegates, nearly all of whom are already here, presages an acceptance of the recommendations. Unless granted by September 10, the date contemplated in the resolution, a strike is recommended.

Problems of the high cost of living will be before the convention. The opening report of Acting President John L. Lewis, who presides owing to the illness of President Hayes, will be largely devoted to the high cost of living and exhaustive statistics to prove the impossibility of continuing under the wage agreement drawn in Washington in 1917. One of the big questions to come up before the convention is the nationalization of the mines. The coal miners of America look forward to nationalization as an ultimate solution of the coal problems according to W. Green, secrtary-treasurer of the organization.

CLASH WITH POLICE

COPENHAGEN, Sept. 8.—Reports from Breslau say that the food disturbances in the last few days there culminated Monday in an attempt by the mobs to plunder the shops, which resulted in a clash with the police and troops.

BELGIAN ROYALTY TO VISIT SPANISH KING AND QUEEN

BRUSSELS, Sept. 8.—The visit of the King and Queen of Belgium to the King and Queen of Spain has been definitely arranged to take place after the return of the royal couple from their trip to the United States in October.

ASK A BOARD OF COMMERCE FOR PROVINCE

MAYORS AND REEVES OF 27 MUNICIPALITIES MEET AT VICTORIA.

WOULD HAVE BODY NAMED BY FEDERAL GOVERNMENT

It Is Argued That the Existing Body Is Too Far Distant to be Effective.

VANCOUVER, Sept. 8. — The mayors and reeves of twenty-seven British Columbia municipalities met here today with Hon. J. W. DeB. Farris, attorney-general, to discuss masures for relieving the cost of living and adopted a resolution suggesting the oppointment of a provincial board of commerce for British Columbia, with full judiciary powers, to be appointed by the federal government.

It was argued that the existing board of commerce working from Ottawa was too distant to be fully effective on the Pacific coast, and the feeling was that this federal board should be supplemented by a body with provincial jurisdiction but equal powers. The gathering asked the board of commerce to establish a legal business profit "spread" as an initial basis upon which profits could be figured where the essential commodities were concerned.

Attorney-General Farris is leaving for Ottawa immediately to attend the labor conference, and will present the sentiment of the local meeting to the government and to the local members in parliament.

SHOULD ALLOT SUGAR SHIPMENT

Secretary of Dominion Trade Commission and Judge Robson Control Movement

CALGARY, Sept. 8.—"Buyers of sugar in the western provinces should note that 1400 tons of sugar are coming west, and if they or their agents have not made arrangements for their allotment they should communicate with the secretary of the Dominion Trade commission or with Judge Robson, who is now in Winnipeg.

S. S. Savage, president of the Western Fruit Jobbers' association, made the above statement last evening at the conclusion of a meeting in the city between the wholesale grocers, R. M. Winslow, secretary of the Fruit Jobbers, association, and himself.

Mr. Savage expressed the opinion that in every jobbing centre some one person should be responsible for the equalizing of the sugar consigned to each centre. He also urged that parties interesting themselves in the campaign to increase the supply of sugar should get together and make a fair allotment of the sugar now rolling west to the jobbing centres on a basis of population.

From information submitted by the wholesale grocers at the meeting yesterday it was apparent that they had no definite confirmation of the quantity of sugar they are actually going to receive, other than the reported allotment.

As the result of the meeting Mr. Savage last eveinng wired Judge Robson to instruct the refineries to distribute the 1400 tons on a basis of 80 tons each to Calgary and Edmonton, and 45 tons each to Red Deer, Camrose, Lethbridge and Medicine Hat. The allotment for the western provinces as announced by Mr. Winslow is 45 per cent to Saskatchewan, 35 per cent to Manitoba and 20 per cent to Alberta.

NATIONAL TRAIN DELAYED

TORONTO, Sept. 8.—A statement has been issued by the Canadian National railway to the effect that train No. 2, or the Canadian National railway eastbound, due at Toronto 4.30 p.m. on Sunday, was partly derailed near Capreol at 4.10 Sunday. Only one passenger, Mrs. Dan Campbell, of Port Arthur, was slightly injured. A few other passengers were slightly shaken up.

WATLING ARRESTED FOR ALLEGED PART IN FUR THEFT

MINNEAPOLIS, Sept. 8.—Charles Watling, aged 37, alleged to have been implicated in the big fur robbery recently in Canada, was arrested by the Minneapolis police late today and is being held for the Canadian authorities.

WOULD WORK IN FRANCE

BERLIN, Sept. 8 (Associated Press) —Four hundred thousand German workers have volunteered for work of restoration in northern France, according to the Vorwaerts.

GOMPERS' FATHER DIES

BOSTON, Sept. 8.—Solomon Gompers, father of Samuel Gompers, president of the American Federation of Labor, died at his home in the Dorchester district tonight.

"POP" GEERS BREAKS LEFT COLLAR BONE IN CRASH

SYRACUSE, Sept. 8.—Edward "Pop" Geers, dean of the Grand Circuit racing drivers, who was removed unconscious from the state fair grounds to the hospital yesterday after his horse had crashed through a fence, had regained consciousness early this morning. According to his physician, he suffered a broken left collar bone, several bruises about the left arm, shoulder and back, and a slight concussion of the brain.

GLASGOW UNION CONGRESS OPENS

Indications Are That Men Will stand Firm Behind Demand for Nationalization

GLASGOW, Sept. 8.—(Canadian Associated Press)—The trades union congress, with a large number of delegates present, began its session today. Questions dealing with the labor union in all branches of industry are to be taken up and discussed ranging from increases in pay and reduction of hours of work to nationalization of coal mines, railways and shipping

The applause which punctuated the opening address of C. H. Stuart Bunning, the presiding officer, when he touched upon the question of nationalization of coal mines, probably the most important of the questions to be dealt with by the congress, seemed to indicate that direct action by the miners to secure nationalization was unpopular. On the other hand the sentiment was considered as clearly registering the determination of the congress to give all possible assistance to the miners in their fight for bringing their industry under government control, but that nothing that would be likely to endanger the realization of the workers dream of a labor government in the near future would be risked.

There were evidences that the apparent differences between the extreme direct actionists and those approving more conservative methods for bringing about a realization of the miners' desires would be amicably adjusted through a decision of the congress to proceed along parliamentary lines for obtaining political reforms.

Mr. Bunning's condemnation of the warfare in Russia as "unpopular with the British working classes," was cheered, as also was his arraignment of the British government for its alleged temporizing attitude relative to the abolishment of conscription and the drafting of a new industrial policy. In concluding his address, Mr. Bunning exhorted his hearers to eliminate trivial inter-union disputes and hatreds, declaring that "our function is to construct." This utterance was loudly acclaimed.

After the speech of the presiding officer the congress proceeded to preliminary routine.

Direct Action Dangerous

Later, the discussion taken in connection with the president's address, seemed to indicate that it was the disposition of a majority of the delegates to regard general direct action by the triple alliance—the railway workers, the coal miners and the transport workers—as fraught with possibilities too dangerous to justify further experiment and that the congress would record its adhesion to parliamentary means for securing the desired ends.

Persons high in labor councils said it was less easy to forecast the outcome of the agitation for the nationalization of industries. It was believed this matter would be forced to a decision tomorrow on a special delegation or miners inviting the convention to declare that "the fullest and most effective action will be taken" to secure the nationalization of mines. The congress had been pledged year after year to the nationalization of mines, railways and land, and hence the belief prevailed tonight that this resolution would be adopted.

Among the resolutions adopted today was one in favor of the policy of free trade. Another resolution pledged the congress to support the unionized actors in their efforts to unionize all British amusements. The sponsor for this resolution argued that its passage was necessary in order to secure better living conditions for, and to protect the morals of chorus girls.

Belgian Demands

BRUSSELLS, Sept. 8.—The miners' federation at Charleroi has adopted a resolution in favor of the nationalization of mines, a minimum wage scale, free fuel for all miners, control of production, and the creation of an organization representing both the miners and the government.

The decision of the miners is considered an important prelude to the approaching miners' convention to be held in Brussels.

ASSAILANT IS CAUGHT

SASKATOON, Sept. 8.—Mike Kernicke, an Austrian, was remanded for eight days yesterday by Inspector Tait of Prince Albert, on a charge of having stabbed Metro Zubikons Sunday afternoon at Davis, Sask. Some Austrians who had been working around Davis were quarrelling on the street when the 2.30 train pulled into DaDvis. Kernicke picked up a sharp instrument from a garage and stabbed Zubikon in the head and then ran and caught the train as it pulled out of the depot at 2.40. The injured man was conveyed to Prince Albert and his wounds attended. While in the doctor's office a message yas given to the provincial police. By this time the train had got near Melfort and Corporal Fieldhouse was instructed by the inspector to hold up the train and make the arrest.

PRINCE WINS ALL HEARTS IN FORT WILLIAM

TEN THOUSAND PEOPLE AT THE STATION TO GREET ROYAL VISITOR

SCHOOL CHILDREN TAKE A PROMINENT PART

Native Son of Lake Port is Decorated —Prince Drives Through the Streets

FORT WILLIAM, Sept. 8. — His Royal Highness the Prince of Wales won all hearts in Fort William today when he faced a crowd of 10,000 cheering people at the Union station, and after receiving the formal civic address from the mayor mingled with the populace, greeting every class in a simple, unaffected manner. The station grounds were adorned with hundreds of flags with the Royal Standard carried by the guard of honor, which was made up of one hundred picked men from overseas battalions, under command of Capt. Skinner, himself a veteran of the war.

Children Cheer Prince

Thousands of massed school children had a special place of their own and their cheers almost drowned the Kiltie band which played the National Anthem as the Prince stepped from the train, the guard saluted and the Royal Standard was broken at the head of its mast.

On a platform overlooking the crowds gathered on the lawns and in the amphitheatre formed by the subway, Mayor Murphy presented the official address, which was read by City Clerk McNaughton, and this was followed by the presentation of a silver cigar case by Mrs. J. M. Sherk, on behalf of the ladies of Queen Mary Needle Workers. The case was beautifully engraved and a handsome Lake Superior greenstone was set in the cover.

A picked choir of school children under the leadership of Norman T. Ives sang patriotic songs and attracted the kindly attention of the Royal visitor, who asked to meet the choirmaster and spoke to the children.

Decorates "Native Son"

A highly interesting feature was the decoration with the Military Medal and bar of Sergt. Ted Cracknell, of the Machine Gun corps, the young man being a native born son of Fort William. The cheering was renewed when after Sergt. Cracknell had saluted and was turning away the Prince caught him by the arm and turned him around again in order to speak further with him.

At the last moment it was requested that the Prince would drive through the streets of the city so as to give more of the people a close up view of him, to which he graciously consented, and the spectacle of the Prince's car, driving from the station surrounded by cheering children, some of them even hanging to the steps of the car as the Prince smiled at them and raised his hat, typical of the democratic nature of the British monarchy and of the young man who will carry it on.

On the return of the party to the station the Prince was taken on board the train and proceeded to inspect the mill and elevator of the Ogilvie Flour Mills company, this being the only opportunity he will have during his trans-Canadian tour of seeing the methods of handling the western grain at a terminal point.

ONTARIO TO VOTE ON DRY ISSUE ON OCTOBER 20

TORONTO, Sept. 8.—The referendum on the prohibition question will be taken on Monday, October 20. Sir Wm. Hearst, premier of Ontario, made this announcement this afternoon.

He did not state when the provincial general elections would take place, but it seems to be generally believed that the members of the government desire to have the double event on the one day. However, there are conflicting interests, one of which is that the majority of temperance workers wish to keep the referendum vote separate from politics. Farmers are said to prefer to have the referendum and election on the same day.

Premier Hearst handed out the following statement on the matter this afternoon:

"There has been some unexpected delay in the preparation of the voters' lists, but the work has progressed enough to enable the government to fix the date for the vote on the referendum and this will take place on Monday, October 20. There has been consideration yet of the date for the provincial elections."

HOLD COOLIES AT COAST

VICTORIA, Sept. 8.—The Chinese coolies, who are returning home to China across Canada, from France, will be kept at William Head while they are awaiting their transports. The local military authorities today received instructions to prepare for the thousands of natives on the ground at the quarantine station, where they were encamped when bound for France several years ago to work behind the battle lines in France. Tents will be erected and preparations made for about 5000. More than 800 Chinese are expected through here during this month, and the military authorities have orders to have the encampment ready for occupation by September 23.

30,000 ANTHRACITE MINERS ON STRIKE

SCRANTON, Pa., Sept. 8. — Thirty thousand mine workers in the Lackawanna Valley will be out on strike tomorrow morning, Delaware, Lackawanna and Western employees at 14 collieries having decided tonight to go out. About 15,000 men are employed at these collieries, and as an equal number of Delaware and Hudson mine workers went on strike today, the situation in the northern anthracite field is serious. Both strikes are authorized by the district union officials.

LEAGUE MAY NOT MEET IN STATES

First Session of Organization May Be Delayed Unntil January of Next Year

WASHINGTON, Sept. 8.—It is now practically certain that the first meeting of the League of Nations will not be held in Washington in October, as originally planned. The exact date depends upon the action of the United States in regard to ratification of the peace treaty containing the covenant which creates the league. Should the senate ratify the treaty in time to permit delegates to arrive for a meeting in November, it probably will be held then, but if the discussion is much prolonged the meeting is expected to go over until some time in January, 1920.

The first meeting of the league covenant, however, can be called any time after three of the principal powers have ratified the treaty. It is expected that this will be immediately after such ratification. Unless the senate has ratified the treaty by that time the United States would not be represented at the meeting, which would be held in Paris or London.

Germany already has ratified, and France is expected by some observers to ratify some time during September. Italy is generally expected to be next in line and Japan is expected to act during the next three months.

Great Britain has enacted legislation carrying the treaty into effect, but has not formally ratified it, probably waiting until after the Canadian parliament, now in session, has acted. Premiers Lloyd George and Clemenceau both have promised to attend the first meeting, if domestic conditions warrant their absence from home. Lord Robert Cecil is regarded as certain to be one of the British delegates. Meanwhile delegates from all over the world have been making tentative arrangements to come to Washington in October, on the basis of the first announcements, and they are now awaiting to hear of a definite meeting time.

PREDICTS RATIFICATION OF TREATY BY THURSDDAY

WINNIPEG, Sept. 8.—In a special dispatch the staff correspondent of the Manitoba Free Press at Ottawa says: "It would appear that the parliament of Canada is generally agreed on the main part of the treaty and the documents which accompany it, and that it will show its approval by adopting the resolution embodying that before the time limit set for the debate, namely, next Thursday, is reached."

RATIFICATION WAS URGED BY RENNER

Told Colleagues That Peace Was a Hard One, But Best That Could Be Expected

VIENNA, Friday, Sept. 5 (Delayed). —Dr. Renner, head of the American peace delegation, speeded up the consideration of the action to be taken by the national assembly with regard to the peace treaty, when he arrived here today from St. Germain, by saying it was his intention to start on the journey to France on Sunday.

Dr. Renner explained to the members the clause in the peace treaty which the telegraphic summary had not left clear. He also told his colleagues that the peace offered by the entente, although a hard one, was the best that could be expected under the circumstances.

He urged immediate acceptance of the conditions as the best policy, saying he placed hopes in the reparations committee for modifications in the peace terms later on.

As a result it was decided that there shall be no debate and no speeches at tomorrow's (Saturday) meeting of the national assembly, but the government shall submit a motion for the acceptance of the treaty, protesting that it was done under compulsion.

A Vienna dispatch dated Saturday announced that the Austria national assembly by a vote of 37 to 23 decided that Austria should sign the peace treaty, although protest was made against "the right of Austria for free disposal of herself."

QUEBEC EDITORS PROMISE TO SUPPORT NEW LOAN

MONTREAL, Sept. 8.—After a series of meetings with about 80 leading newspapermen of Montreal and Quebec province, Sir Henry Drayton, minister of finance, launched the final Canadian domestic loan tonight at the Ritz Carleton hotel. Characterized as the last sweep of the broom in cleaning up the war, both the French and English-speaking journalists promised the full support of their papers in making the 1919 loan a complete success.

NOVITIATE RAID CASE IS OPENED

SIX WITNESSES TESTIFY REGARDING AFFAIRS AT GUELPH INSTITUTION

COMMISSION COMPOSED OF MIDDLETON AND CHISHOLM

Instructions for Action Were said to Have Been Received From Military Headquarters

OTTAWA, Sept. 8.—Six witnesses were examined at the first day's session of the hearing into the matter of the raid on the Guelph Novitiate, which was opened this morning by Justice Middleton and Mr. Justice Chisholm, sitting as a royal commission. As the result of the first day's hearing it was shown that the officers who conducted the raid were instructed to use the utmost discretion and care, that when the circumstances were reported to the minister of justice he made strong protest to General Ashton, adjutant-general, and that Captain MacAulay, who commanded the party visiting the Novitiate was called upon for an explanation. Major Hirsch, of London, who instructed Captain MacAulay, was questioned from military headquarters as to who authorized the visit to the Novitiate and he replied to the effect that he had received instructions to clean up the situation in Guelph from headquarters.

After Two Alleged Evaders

These instructions were said by Major Hirsch to be contained in a letter from Captain Burroughs, of Colonel Godson-Godson's staff, which letter also contained a memorandum initialled S.C.M., advising that steps should be taken to get after two men, Newman and Craig, said to be harbored in the Jesuit Novitiate at Quelph and who, it is said, were evading military service.

Major Hirsch swore he had the letter and the memorandum on his private file in London, but they disappeared. Enquiry made by him revealed that they had been removed by Colonel Godson-Godson and taken to military headquarters at Ottawa. The reason for their removal was not brought out in today's evidence.

Two members of the party visiting the Novitiate, Sergeant Wilson, of the Dominion police, and Harry Davidson, an officer assigned to that duty, told of the circumstances of the raid. The house was in darkness when the party approached and the men used care in going to the house that they should not make themselves conspicuous. They both swore to seeing two men, clad in gowns, in the vicinity of the house, but were not clear as to whether they were running away. Sergeant Wilson swore the men went into the cellar under the house, and that he fastened the door, preventing their escape.

Reports Were Presented

Rev. Kennedy Palmer, who preached a sermon and afterwards made the charges in connection with alleged conditions at the Novitiate was also in the stand. He said that reports as to conditions said to exist were so persistent that much feeling was stirred up, as the people thought inmates of that institution were illegally evading military service. He told of steps taken by himself to endeavor to get at the truth of the situation, of going to a newspaper office and being informed there that on the orders of the press censor from Ottawa no reference to the Novitiate was to be printed.

Rev. Mr. Palmer then preached a sermon in which he referred to the situation as disgraceful. To Deputy Minister of Justice Newcombe, Mr. Palmer admitted that the purpose of his sermon was to persuade the people of his congregation that men were being harbored at the Novitiate who were escaping military service.

During the evidence of Sergeant Wilson it developed that a young man referred to as a son of Hon. C. J. Doherty was taken in the raid on the Novitiate, that young Mr. Doherty made no effort to escape, merely asking if he might telephone and that he did not appear to be at all frightened at the turn of affairs.

The enquiry will be resumed tomorrow morning. Quite a number of witnesses remain to be called.

TELLS WINNIPEG UNION TO CONFESS THEIR FAULTS

WINNIPEG, Sept. 8.—Judge H. A. Robson, at the re-opening of the strike probe today, called upon the members of unions in Winnipeg who were being refused employment by the employers of Winnipeg to repudiate the strike leaders, confess that they were misled and to come out and state that in future they would not repeat the history of the past. Mr. Robson made this statement to witness appearing on behalf of the employees of the government of the Canadian National railways, but also included all men who had not been reinstated. If such a confession were made, he intimated the possibility of reinstatement of all those shut out being re-employed was not very remote.

PASSES HUNDRED THOUSAND MARK

Sullivan Shipments of Zinc Ore Reach High Figure—Silverite Joins List of Shipping Mines.

Shipping to the Trail smelter during the last eight days of August, 6537 tons of zinc ore, the Sullivan mine at Kimberley, owned by the Consolidated, passed the hundred thousand mark for zinc ore shipments for the current year. The figure actually credited is 105,216 tons. In addition to this tonnage of zinc ore the Sullivan during the same period has shipped 16,389 tons of lead ore, bringing its total tonnage this year to 121,605.

The next largest shipper of the Consolidated company is the Centre Star, of Rossland, whose gold veins have contributed this year 60,010 tons of smelter feed, almost exactly half the Sullivan tonnage.

A new shipper added to the list is the Silverite, of Alamo, recently taken over by Clarence Cunningham from a syndicate company composed of Geo. Petty, Jack Thompson and W. A. North.

Shipments to the Trail smelter for the eight days mentioned, and for the year to date, were as follows:

	Week	Year
Rossland		
Centre Star, Rossland	1804	60,010
Josie (Le Roi No. 2) Rossland	265	10,167
Le Roi, Rossland	199	442

MINERAL CLAIM IS STAKED UPON BLUFF

John McIntyre Locates Prospect Along Selwyn Street—Formerly Owned Mine at Renata

A silver claim staked in the city of Nelson sounds like a story of the city's early days, when the site of this urban community was graced by only a shack and two tents.

But, however unreal it sounds, it is a fact that mineral in place has again been staked in Nelson. John McIntyre, of Fairview, yesterday locating a mineral claim partly in the city park on the bluff and partly in Hume addition to the east. The road that passes behind the Kootenay Lake General hospital, and Selwyn street in Hume addition, into which it runs, cross the claim.

Mr. McIntyre, who was formerly a identified with a property in the Renata district, which he sold for a large sum, is no amateur in the mining game.

Some years ago, when platinum was discovered in the Granite-Poorman mine, all the ranches along the Granite road and much private property in Fairview was staked for molybdenum.

VETERANS TO EXHIBIT PRODUCE AT THE COAST

Arrangements have been completed for the allottment of space at the New Westminster exhibition for a Soldier Settlement board exhibit. The plan is to have each district represented by the particular produce of that district. Settlers who have been established for some little time are being requested to prepare exhibits of their best produce. Assistance is being given by the board to prepare and ship the exhibits which must reach New Westminster before Sept. 27. Prize lists and entry forms for the exhibition may be obtained from the local office in Nelson.

CRAWFORD BAY ITEMS

CRAWFORD BAY, Sept. 8. — A dance was held at the home of Mrs. J. Houghton in aid of St. Dunstan's hospital for blinded soldiers, in which institution Miss Phyllis Houghton is keenly interested. Dancing was kept up until 2 a.m., and twenty-seven dollars was collected.

The bachelors' picnic and sports were held on the 30th in Dales' meadow.

WORK COMMENCED ON SECOND RELIEF ROAD

Foreman Bremner with Crew of Men Is Clearing Windfalls—Inspection of Rock Bluff

Work has commenced on the restoration of the Second Relief wagon road, burned over on July 16, between Erie and the Second Relief mine, A. B. Bremner, the local road foreman, going to the scene last week with a crew of men. The first eight miles from Erie is now passable for autos, but from that point up to the mine there are windfalls to be cleared away.

There are also three bridges to be rebuilt, two of the stringer type and one about 100 feet long, which used to hug the side of a big rock bluff. P. J. Gallagher, district road foreman, has been making an inspection of this, and will report to William Ramsay, the district engineer, as to whether it is desirable to rebuild this structure or *make a rock cut.*

ROAD THROUGH TO CALIFORNIA MINE

Upper End, However, Not Yet Full Width—Ore Will be Trucked to Athabasca Mill.

The 6000-foot wagon road being built from the Athabasca mill to the California mine by the California Mining company, is now through to the mine, but is not yet of full width at the upper end.

With a 31-2 per cent grade, this road will in future be the popular route to the California, the old trail being very steep. The company expects to employ motor trucks to convey the ore from the stopes to the Athabasca mill.

MUCH LOGGING IN GERRARD DISTRICT

Extensive Cutting of Ties for Railway Company—Mr. Mobbs Believes in Future of the Lardeau

Lumbering operations are going on actively in various parts of the district centreing about Gerrard, according to E. Mobbs, the well-known hotel man of that community, who arrived in Nelson Saturday for a stay of three or four days.

Daney & Brandon are logging at Gold Hill, and have installed a machine for sawing ties, in connection with a contract with the C.P.R. for 100,000 ties. They are going to put in a portable sawmill to convert the butts into lumber.

John Rady, at Gerrard, is also running a tie camp, having a contract with the C.P.R.

Harry Newcombe is also logging extensively on Meadow creek.

"The Lardeau is the country of the future," Mr. Mobbs stated as his conviction last night, adding that this applied to both the mining and lumber industries.

TO SETTLE LACROSSE CLAIM

MONTREAL, Sept. 8.—There will be a meeting called shortly, probably on Thursday, of the National Lacrosse Union, to arrange the program for the remainder of the season. This is necessitated by the tie for championship honors, which now exists between the Shamrocks and Cornwall. *The latter claims that its games* with the Indians should be counted two points, but is ridiculed by the officials and all the members of the union who claim that it was officially decided to have all the games counted as one, although originally some one suggested that the games with the Indians should be counted as two. The chances are that at the request of the Indians, the match between them and Ottawa will be permitted to be played at *Caughnawaga Saturday.*

PRO-GERMANS FIGHT TREATY SAYS WILSON

IS CLEAN CUT ISSUE BETWEEN OLD GERMAN ORDER AND THE NEW

"EVERY ELEMENT OF CHAOS" OPPOSES STEADYING HAND

President Declares Document Was Drawn Up for Benefit of the Common People

SIOUX FALLS, S.D., Sept. 8.—Declaring that pro-Germanism again had lifted its head in this country, President Wilson declared at an address here tonight that "every element of chaos" was hoping there would be no steadying hand placed on the world's affairs.

"I want to tell you," said the president, "that within the last two weeks the pro-German element in the United States again has lifted its head."

Old Hun Order vs. the New

This element wants a chance by keeping their nation out the League of Nations, to make possible again what Germny hd tried to do in the gret war. It was a clean issue, Mr. Wilson declared, between this new order or the old German order.

Declaring the peace treaty provision for an international labor conference would give labor a new bill of rights, the president declared the treaty was a "laboring man's treaty," in the sense that it was a treaty drawn up for the benefit of the common people.

BIG CONVENTION FAVORS STRIKE

Maintenance of Way Employees to Reach Definite Decision This Week

DETROIT, Sept. 8.—Definite action by the end of this week on the threatened strike is expected of the convention of the United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, which *opened its session here today* with more than 2000 delegates from Canada, the United States and Panama present. The membership has already voted power to the executive committee to call a continent-wide strike of the 600,000 men in these crafts unless wage demands and working agreements asked of the railways administration of the United States and the Canadian government are granted.

On Friday the convention, after hearing the report of the national committee which presented the demands of the brotherhood to Director General Hines, will discuss the wage question from every angle, including its relationship to living costs and likely will take decisive action on the proposed strike. Sentiment of the convention is overwhelmingly in favor of a walkout unless the demands are granted.

An answer from the railroad administration to the demands presented is expected by Friday.

CARDINAL MERCIER TO REACH NEW YORK TODAY

NEW YORK, Sept. 8. — Cardinal Desideratus Mercier, primate of the Roman Catholic church in Belgium, "the priest who defied the German army," is expected to arrive here at 5.30 o'clock tomorrow afternoon.

A wireless message from the S.S. Great Northern, upon which the cardinal is a passenger, said the liner would arrive at Ambrose channel at noon Tuesday.

Cardinal Mercier is coming as the guest of thousands of Americans who, admiring his interpidity during the war, invited him overseas. He will pay a brief visit to Archbishop Hayes, after which he will go to Baltimore to see Cardinal Gibbons and then visit several larger cities in the United States and the Canadian northwest, returning to Washington in October to meet President Wilson.

SLOCAN CITY ITEMS

SLOCAN CITY, Sept. 8.—A public reception was held in the I.O.O.F. hall Friday evening in honor of Lieut. A. L. Champion, who has just recently arrived home from overseas, where he served during the greater part of the war. Lieut. Champion failed to pass the Canadian military authorities, and immediately left for England, where he was successful in enlisting with the Imperial forces, gaining his lieutenancy after nine months' service. The hall was filled and an enjoyable evening was spent with progressive whist and dancing. Refreshments were served at midnight after which Mayor Swan on behalf of the citizens, presented Lieut. Champion with an address of welcome.

Pte. L .N. Milward, of Moose Jaw, Sask., arrived in town on Saturday to visit his sister, Mrs. Howard Parker and family. Mrs. Parker went to Nelson to meet her brother.

Miss Eva Grant returned to Vancouver to resume her high school studies after spending her holidays at her home here.

Mrs. W. G. Elsdon returned from Nelson on Friday.

BISHOP AT ARCHANGEL FEARS "RED" HORRORS

LONDON, Sept. 8.—The Archbishop of Canterbury has received a despatch from Archangel signed by the bishop and clergy, appealing to British Christians against the withdrawal of the British troops, which *they assert* would leave Archangel to the horrors of Bolshevik rule.

THE BEST IN FOOTWEAR

TO RENEW COMPLEXION WITHOUT COSMETICS
If the excessive user of cosmetics only knew the impression her artificiality really makes upon others, she would quickly seek means of gaining a natural complexion. Let her acquire the mercolized wax habit, *discarding make-ups entirely*, and she will soon have the kind of complexion that women envy and men admire. It's so seasy to get an ounce of mercolized wax at any drug store, use nightly like cold cream and wash it off mornings. And the results are so remarkable. Gradually the lifeless cuticle peels off, in almost invisible flaky particles. In a week or so there's brand new complexion clear, velvety, soft, of girlish color and texture.
The treatment is so simple, harmless, and so marvelously effective, the wonder is that every woman whose skin is withered, discolored, rough, freckled or pimpled, has not already adopted it.

THE pleasure of choosing suitable hosiery need not be marred by uncertainty as to the lasting qualities either of color or material.
Although *Penmans* now means everything in hosiery that the *toilette* of the smartly-gowned woman dictates, there is still the underlying quality that has been associated with the name Penmans for generations. For daintiness without extravagance—simply remember the name—Penmans.
Penmans HOSIERY

Mining and Markets

WALL ST. LAPSES INTO DULLNESS

Absence of Bullish Activity Causes Early Activity to Fall Off

NEW YORK, Sept. 8.—Stocks were active and strong on the resumption of trading today, but the market soon lapsed into dullness with a heavy undertone, owing mainly to the absence of bullish incentive.

United States Steel fluctuated between 102¾ and 104⅜, closing at 103⅝; unchanged, but allied shares, notably Crucible, were inclined to strengthen later, finishing mostly at gains.

Trading in rails was negligible, even after the fairly favorable crop report, the moderate reaction in standard transportations becoming more apparent after publication of Southern Pacific's July earnings, which disclosed a heavy decrease in net operating costs.

Among specialties, Industrial Alcohol was noteworthy for its advance of over six points, and several of the motor specialties, particularly Fisher Body, were strong. Tobaccos also becoming firm to strong. Utilities, as represented by American Telephone, Western Union, and Montana Power, were distinctly heavy.

Sales amounted to 675,000 shares.

Firmer tendencies were manifested in the money market, call loans closing at 8 per cent, after opening at 5½.

Liberty bonds were strong, foreign issues steady and the general list little changed, though slightly better. Total sales, par value, $14,500,000. Old U. S. bonds unchanged on call.

Closing Quotations

	High	Low	Close
U. S. Steel, Com.	104⅛	102¾	103⅝

BROADER MARKET FOR LOCAL ISSUES AT MONTREAL

MONTREAL, Sept. 8.—Trading assumed broader proportions in today's market for local securities, with the paper stocks again leading. Howard Smith, opening with a net gain over the weekend of 3½ points, at 90, next sold at par, and closed at 97, with 96 bid at the close, a net gain of 10½ points.

Price Brothers at 207 was seven points net higher. Laurentide added two points at 216; Spanish River common one point at 46½, while Brompton and Riordan closed unchanged. Public utility and power stocks were steady to strong. Lake of the Woods was the only representative of the milling group recovering its two-point loss at the weekend by selling up to 202.

The steel stocks were not particularly active, only 600 shares of Iron changing hands at 68 to 67½, with the close at the latter, a net loss of a point, and 150 shares of Steel of Canada selling down ½. Canada Foundries sold at 187 to 191, with the close at the latter price, a net going of seven points. Dominion Glass added a further 2½ points at 60½, with closing bid at 60¼, and National Breweries added one point at 74½.

WINNIPEG LIVESTOCK

WINNIPEG, Sept. 8.—Cattle trading at the Union stock yards today was steady to slow at easier prices on most butcher stuff. Steers suffered the most, while the female butcher stuff held about steady. Bulls were slow at easier prices. Oxen were also off. Stockers and feeders about steady with last week's close. Butcher steers sold at $8.00 to $12.00; bulk, $9.50 to $11.00; heifers, $5.50 to $10.00; canners and cutters, firm; top butcher cows sold at $8.50 to $9.00; bulk, $6.50 to $8.50; range, $4.00 to $9.00; bulls, $4.50 to $6.50; oxen, $5.00 to $7.25; bulk of the stockers sold from $6.75 to $7.50; top, $8.50; range, $5.25 to $8.50; feeders, $6.00 to $10.50; bulk, $7.50 to $9.75; veal calves, $6.00 to $12.00; sheep, $6.00 to $12.00.

Hog receipts were again light; market weak; prospects lower for the week; prices today were steady at last week's close.

Receipts today totalled 21000 cattle, 40 calves, 96 hogs and 405 sheep.

TORONTO EXCHANGE

TORONTO, Sept. 8.—While trade in the Toronto exchange was only of moderate volume the tone was fairly strong. Dominion Steel closed at 68, the highest for the day having been 68¼. Canada Bread sold 1¼ points up at 21¾. Steamships preferred closed at 84¼, lower than the high of the day. The common was steady at 54½. Maple Leaf milling, firm at 197 to 199. Brazilian was not dealt in, but the bid at 52 showed no reactionary trend following the annual report. Riordan sold at 143 for a 12 share lot, and Canadian Locomotive was steady to firm at 41½.

Steadiness ruled in the various war loans, with the chief activity in the long date Victory bonds.

MONTREAL PRODUCE

MONTREAL, Sept. 8.—Eggs, very firm; potatoes, easy; butter, quiet.

Cheese—Finest easterns, 25.

Butter—Choicest creamery, 54¼ to 54½.

Eggs—Fresh, 64; selected, 60; No. 1 stock, 53; No. 2 stock, 50.

Potatoes—Per bag, car lots, $1.70 to $1.80.

It is easier to protect oneself from an enemy than from a fool friend.

SILVER 112 1-2 AT NEW YORK

NEW YORK, Sept. 8.—Silver: New York, 112½; London, 61d.

Saturday's quotations: New York, 111¾; London, 60¾d.

NEW YORK, Sept. 8.—Copper, steady. Electrolytic, spot, 23 to 23½; September, 23½; October and November, 24. Small lots of September, second-hand, 22¼.

Iron steady, No. 1 Northern, $30.00; No. 2 Northern, $29.00; No. 2 Southern, $28.50.

Metal exchange quotes lead firm; spot, 535 bid; October, 580 bid, 610 asked. Spelter dull; East St. Louis spot, 725 bid, 750 asked; October, 760 offered.

London: Spot copper, £101 7s 6d; futures, £102, 7s, 6d; electrolytic, spot, £110; futures, £120. Tin, spot, £282, 10s; futures, £285, 7s, 6d. Lead, spot, £25, 2s, 6d; futures, £25, 17s, 6d. Spelter, spot, £40, 5s; futures, £41, 5s.

STERLING EXCHANGE

NEW YORK, Sept. 8.—Sterling exchange, $4.11½ for 60-day bills.

CROP REPORT PROVES MORE BEARISH THAN EXPECTED

CHICAGO, Sept. 8.—Precautions against a surprise in the government crop report monopolized list of the energy of the corn trade today. Official estimate of the 1919 yield of corn has proven much more bearish than had been generally looked for. The market closed weak, ½ cent to 1⅝ cents net lower, with September, $1.62¾, and December, $1.31 to $1.31⅛.

Oats gained ½ to ⅝ cents. Provisions were slightly lower.

FRANKLIN HAD HIS TROUBLES

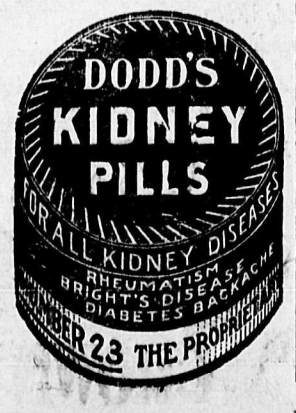
PHILADELPHIA.—Our own philosopher and diplomat, Benjamin Franklin, having concluded with the English delegates the peace which ended the Revolutionary War with England, remarked that "the blessing promised to the peacemakers, I fancy, relates to the next world, for in this they seem to have a greater chance of being cursed." The somewhat extraordinary series of incidents at Washington, which in the past three months repeated much of what must have happened in the American Congress during 1783, has made up part of the history of the present period, says Alexander Dana Noyes in the September Scribner. It might have affected the ideas and expectations even of financial markets if the markets had taken the demonstration altogether seriously; indeed, it was possible to show that, if attacks on the treaty were likely to defeat the peace, it was being roughly handled by other beligerents than the United States. But even this did not appear to impress either the people or the markets.

PEACE PATRIOTISM.

We had during the war a great illustration of the power of the people in the voluntary reduction of consumption and the elimination of waste for the advancement of national interests. That power is not lost. In the midst of unexampled prosperity we are sorely in need of a great thrift movement, as truly for the advancement of the national interests as that other. For the price situation is a serious menace, worse in some respects than that of war, for then we were united in a common cause, while the tendency of the present condition is to divide us and set us one against another. Then we were fighting a foreign foe, a palpable one; now we are menaced by a foe within, an insidious, impalpable thing, that is none the less real and none the less dangerous. Patriotism is not necessarily an accompaniment of war alone. There is such a thing, we are sure, as the patriotism of peace, and it can be made active in individual service and sacrifice, not to battle among ourselves, but to co-operate among ourselves for a common object.—St. Louis Globe-Democrat.

The average man thinks it is up to him to purchase a larger hat every time he has ten cents worth of fame thrust upon him.

Spencer Dafoe, of Cookston, aged 15, was drowned at Tweed.



KOOTENAY METALLIFEROUS MINING DURING YEAR 1918

ANNUAL REPORT OF A. G. LANGLEY, RESIDENT ENGINEER FOR EASTERN DISTRICT

Installment 12

Slocan City Mining Division

There has apparently been more activity in this Division than last year. Generally speaking, the ores are "dry ones" containing high silver values, with small percentages of lead.

Meteo—J. C. Buchanan, who is also interested in the Lily B. mine, recently took an option on this property. The results obtained from preliminary development work are reported to be of a highly satisfactory nature. Preparations now being made for the immediate installation of a compressor plant, while it is possible that a mill will be erected at a later date.

Lily B.—This season's work was confined to driving a crosscut to tap the vein at a depth. Work was discontinued this fall.

Arlington—M. Davys, of Kaslo, who has secured a lease of the mine and ore-dumps, has started to make shipments from the later to the Trail smelter. It is estimated that there are approximately 10,000 tons in the dumps, and he proposes to erect a concentrator to treat the second-grade ore, which will not stand shipment.

Enterprise—Situated on Ten-mile creek. Work has recently been started on this property by Earle Hyde, who is confining his attention to the development of a parallel vein to the one which was worked previously. About seven men are employed at the property.

Ottawa—This property has been mined by the Consolidated Mining & Smelting company and a small shipment made to Trail.

Black Prince—F. Tipping, put in a season's work on this property during the summer.

Republic—G. E. Laird was in charge of the mining at this property during the summer.

Westmount—Situated on Ten-mile creek. Worked under lease by H. Lee.

The following shipments were made Arlington, 375 tons; Ottawa, 48 tons; Black Prince, 30 tons; Republic, 14 tons; Westmount, 49 tons; Lily B. 15 tons.

Nelson Mining Division

Southern Belle—This claim was originally staked by C. E. Wilson, of Salmo, in 1895. It is situated on Wilson creek at a distance of 12 miles from Salmo, the nearest shipping point. Recently a company was incorporated at Trail, called the Trail Mining company, in which Joe Rozeck, Cavin Hicks, and others are interested. This company acquired the property and adjoining claims with the intention of driving a long crosscut to tap the vein a a depth, but beyond building a new cabin near the proposed tunnel-site did not make much progress this year. It is reported that there is some dispute regarding the ownership of one of the claims, and that work has been suspended until settlement is arrived at.

The quartz vein, which occurs in a crushed zone of dark slate and schist probably belonging to the Carboniferous period, is not well defined and is only found in broken segments, none of which yet developed is large enough to demonstrate the existence of an ore-body of commercial importance; hence the property is still in its prospective stage. Geological conditions appear favorable for the existence of ore, or, as the prospector would say, "it is good-looking ground," and further development at a depth may possibly disclose more ore.

Briefly, the principal workings consist of two crosscuts and a little drifting. At the lower workings a crosscut has been driven for a distance of 137 feet. At a distance of 98 feet from the portal, ledge-matter was struck, which was drifted on in a westerly direction for 43 feet. No ore was encountered. At 130 feet from the portal a drift was started in a north-easterly direction and run for a distance of 29 feet. This exposes a short length of a small quartz vein, a sample across 12 inches of which ran: Gold, 0.20 ounces; silver, four ounces; lead, 3.5 per cent; zinc, 1 per cent.

The upper workings are situated at a distance of about 900 feet in a westerly direction from and approximately 150 feet higher than the lower tunnel. Here a crosscut intersects a narrow quartz vein at a distance of 136 feet from the portal, and was drifted on for a distance of 50 feet in a westerly direction; the end of the drift terminates in an inclined winze, which gains a depth of 31 feet on the vein. At the bottom of the winze a small section of the vein has been uncovered, which showed a width of about 20 inches, with a paystreak of four inches of clean galena. Near the intersection of the crosscut and this drift a 20-foot raise exposes a width of 17 inches of vein-matter, a sample across which ran: Gold, trace; silver, 2.4 ounces; lead, 6.5 per cent; zinc, 1.2 per cent. This drift was also continued for 73 feet in an easterly direction from the crosscut but no ore was found. Silver, 27.3 ounces; lead, ore which was shipped early in the 20 per cent; zinc, 0.8 per cent.

Nevada Group—This property, consisting of six claims—the Jumbo No. 2, Climax, Gladstone, Boulder, and Chief—is owned by D. M. Mowat and W. McIntosh, of Salmo. The claims are situated on the Lost creek slope of Nevada mountain, at a distance by trail of four miles from the Emerald mine. The elevation of the main tunnel is 5000 feet. At the upper tunnel, which has been driven for a distance of 93 feet, gold and silver values have been found in a quartz vein which occurs in a crushed zone along the contact of the ganite and slate. The crushed material and vein-matter is highly mineralized with iron pyrites, which in places has been altered by oxidation to a soft, dark-brown omorphous material. Very little backs are obtained by this tunnel, and not sufficient work has been done to prove the continuity of the vein. A sample of a 6-ton pile of sorted ore from this tunnel ran: Gold, 0.48 ounces; silver, 2.1 ounces; while a sample across a width of 27 inches at the face of the drift ran: Gold, 0.2 ounces; silver, 4.5 ounces.

A lower tunnel was driven some years ago along a quartz-filled fissure in the granite. The length of this drift is 75 feet and the vein can be traced for its entire length. A sample across a width of 24 inches ran: Gold, trace; silver, 0.4 ounces. There is a good cabin on the property within convenient distance of the workings.

Gold Hill Group—There are six claims in this group; those on which the work has been done belong to Alex. McDonald, while some of the adjoining claims are held by L. Gallagher. The property is situated near the headwaters of 49 creek, at an elevation of 4960 feet, and at a distance of eight miles and a half from Granite Station, which is the nearest shipping-point. The road leading to the claims passes the May & Jennie mill on the way up 49 creek. This mill has recently been dismantled. The workings principally consist of a long crosscut tunnel which strikes the vein at a distance of approximately 500 feet from the portal. At this point the vein has been stripped on either side, leaving a pillar of ore 12 feet long by six feet and about 12 inches thick. At the northerly end of this showing the ore is exposed in a 17-foot raise, where it shows a width of 15 inches, and across which a sample was taken, which ran as follows: Gold, 8.5 ounces; silver, 4.4 ounces; copper, 4.4 per cent.

Just beyond the raise the vein is cut off by an intrusive dyke, and work has not been continued for any distance in this direction. At a short distance from the raise in a southerly direction a 15-foot winze was sunk on the vein and exposes ore in the bottom, while just south of the winze a small lens of ore having maximum width of seven inches gave the following values from a sample taken across same: Gold, 6.88 ounces; silver, 4 ounces; copper, 4.2 per cent. The vein which has a brecciated structure, occurs in a dark schist and has a strike of N. 10 degrees W. and an almost vertical dip. The mineralization consists of iron pyrites, arsenopyrite, chalcopyrite, and chrysocolla. The gold values are probably associated with the iron pyrites and arsenopyrite. The above-mentioned workings develop the vein at a vertical distance of about 300 feet below the surface.

Sheep Creek Camp

Emerald—Mining and development work have been steadily carried on with satisfactory results. This property is the largest producer of lead-silver ore in the district. Between 20 and 30 men were employed. According to information received, the mine closed down temporarily on Dec. 7.

Ore Hill—Mining operations have been carried on under the management of W. De Witt. Four or five men were employed.

Aspen—A few men have been working at this property. A new trail was built between the H.B. camp and the mine.

Reno—Situated on Fawn creek, above the Nuget mill. W. B. Pool put in a season's work on the property and reports the finding of two new veins. The ore is gold quartz.

The sheep Creek gold camp, in which are located the Motherlode, Nugget, Kootenay Belle, and Queen mines, is one of the most important gold-bearing areas in the Kootenays. The gold-bearing quartz veins are of the true fissure type and traverse a quartzite and schist formation. The values occur in well-defined shoots. All the properties have been closed down during recent years, which may be partly accounted for by the increase in the cost of labor and supplies during the war under which conditions the mining of low-grade properties could not be carried on to advantage. Recently, however A. W. McCune, of Salt Lake City, bonded the Queen and some of the adjoining properties, and a long crosscut tunnel is now being driven to tap the vein system at a depth.

The Nugget Gold Mines, Ltd., has been organized to develop the Motherlode, Searchlight, and Nugget properties, and I understand that the preliminary development work will consist of driving a 1200-foot crosscut to connect the Motherlode and Nugget workings. This undoubtedly is the most economic manner in which to develop and operate the Nugget mine. Should results come up to expectations, we will shortly see a substantial gold production from this camp, which up to the end of 1915 produced about $2,530,000 in gold.

Spokane Group—This property, which is situated on the easterly side of the Sheep Creek divide has been developed by the Laib Brothers, and 20 tons of high-grade ore has been packed out.

Yankee Girl—Situated near Ymir. This mine has been steadily operated during the year from which the mine received very favorable smelting rates. Mining operations temporarily ceased early in December, which may partly be attributed to the closing-down of this smelter.

Other Properties

Relief—Situated near Erie. The season's work has been principally confined to the building of a new flume. Plans are being prepared for reorganization, with a view to obtaining more capital in order to continue operations on a larger scale. A. D. Westby is manager.

California—Situated near Nelson. Development work is being continued. About six men are employed.

Monarch Group—Situated near Beasley. Development work has been carried on during the year. Four or five men employed. The principal values are in copper.

Silver King—The Consolidated Mining and Smelting company has had a small crew of men employed during the season.

Eureka—Now being operated by the Inland Mining company, of Walla Walla, with head office at Nelson. W. M. Myers is mine manager. Work done by the previous owners during the early part of the year consisted of erecting a 1100-foot two-bucket tram, new bins, and extending the Granite-Poorman tramway for 3000 feet across Kootenay river to the railway. The ore carries values in gold, silver and copper. Twelve men are employed.

Jolly Gibson—This mine has been operated by the Consolidated Mining and Smelting company. Motor-haulage from the mill to Kitto Landing was used for the first time this year, and is reported to be considerably more economical than the use of teams.

Iva Fern—Situated on Cultus creek This mine is owned by J. Mullholland and is being developed under a bond by the Consolidated Mining and Smelting company, who are now driving a crosscut to intersect the vein at a point below the surface showings.

Good Hope and Nelson claims, on Bird Creek, are reported to have had development work done on them by J. B. Baxter and associates. The ore is gold quartz, and the season's work is said to have produced satisfactory results.

The following is a list of shipments made from the district: Emerald, 3176 tons; Aspen, 7 tons; Eureka, 2092 tons; Lost Cabin, 13 tons; Monarch, 170 tons; Ore Hill, 37 tons; Queen, 14 tons; Spokane, 20 tons; Yankee Girl, 8847 tons.

WE WANT TO FINISH THEIR JOB

We need peace in Russia and a strong and rational government, on a democratic footing, to reorganize the country. It is well that the allies should have come without delay to a friendly understanding with the parties who will rule Russia in the no distant future. Germany dare not ally herself with Bolshevism, but she is biding her time. If the Western Powers left Russia to her fate, not even lifting a finger to rescue her from anarchy and ruin, they would play the German game, which, despite the League of Nations, is undoubtedly to establish a new balance of power in Europe by an alliance with Russia at the earliest possible date.—Adelaide Chronicle.

TUESDAY, SEPTEMBER 9, 1919.

WHAT ABOUT THE THRUMS-BRILLIANT ROAD?

Early last spring it was announced that work would begin on the Thrums-Brilliant road on June 1.

It is now nearing the middle of September and apparently nothing has been done towards starting this work outside of the survey.

The suggestion has been made that the road is to be built during the winter months, on account of the fact that much of the work is in rock. That may be so, but if the road is constructed during the winter it will be found that the cost is higher than if it were done before the snow falls.

There is time now to get the heaviest of the work done before snow, and it is to be hoped that the department of public works at Victoria will authorize the immediate commencement of construction.

Passing votes at Victoria and then talking about roads which are to be built are a poor substitute for the roads which this district so urgently needs.

LORD FISHER FOR A SMALLER NAVY.

Times indeed have changed. Lord Fisher has come out as an advocate for a reduced expenditure on the British navy. He argues that the government in Great Britain is wasting money on half the navy because it has been made obsolete by the immense development which has taken place in the construction of big fast ships and huge armament. He says that the other half will be obsolete in a few years because of the development of the internal combustion engine.

Much of what he says is undoubtedly true. Navies quickly become obsolete, and during the war Great Britain rapidly built up an enormous auxiliary fleet in addition to keeping in service practically every old ship which would float. Every one was needed and every one did its part in helping to keep open the ocean highways and preventing Germany from winning the war.

Equally true would appear to be his assertion that expenditures can be cut down. The British government has made it clear that it is cutting them down. But the British Empire cannot afford to be without its navy. The obsolete ships of which Lord Fisher speaks must be replaced with the most modern of modern warships. British naval supremacy must be maintained, but that can probably be accomplished with fewer ships and at lower expenditure than in the past.

The time has not yet arrived when it will be safe to leave the seas unguarded. The millenium is not yet here.

DODGING TO AVOID PUNISHMENT

The Liberals appear to have decided that with Hon. MacKenzie King and his war record as leaders there is little chance of their making headway in Ontario and the west, says the Toronto Telegram.

Consequently they are hinting that when a farmer has the field they will not put up a candidate.

They know that Mr. King can, under existing circumstances, make almost a clean sweep of Quebec, and that he can emerge with a goodly following from the Maritime constituencies.

But west of the Ottawa river it is different. Even sitting Liberal members in Ontario are feeling that the handicap of anti-conscriptionist leader is too much for them to carry, while even the addition of the Austro-German voters in the west does not promise a rich harvest of Liberal members.

Under the circumstances, they will throw their support to any candidate opposed to the government, and thus hope to make "a solid Quebec" more than ever the predominating influence in the next parliament.

Mr. King will thus be able to prove his loyalty to the province that made him a possibility as a leader.

It is reported that ex-Emperor Karl of Austria has decided to leave Switzerland, but his proposed new address is unknown. Perhaps he is going to take a job in the movies.

The waster is the foe of the commonwealth, says the St. Thomas Times-Journal. No one, be his dollars few or many, can afford to waste anything. Canada is not confronted with famine. But city people will do well to remember that average crops this year are so exceptional, even among our best farmers, that when such a crop is found it is a matter of comment. Not only is this true, but in many localities crops are practically a failure. A word to the thoughtful is sufficient

Police Magistrate Hunt of Elgin County, Ont., has the world's record as a judge at baby shows. He recently officiated at his fortieth exhibition. And it is said that he has come through the ordeal without a single scar.

TWENTY YEARS AGO TODAY

(From The Daily Miner.)

Capt. and Mrs. Seaman, of Slocan City, are spending Sunday in the city.

• • •

Grouse are fairly plentiful this season in the woods near Nelson.

• • •

A large timber wolf was seen crossing the Mines road yesterday, a short distance above McLeod's ranch.

• • •

J. E. Miller, collector of inland revenue, was in Nelson yesterday. He leaves this morning for Rossland, where he will install H. B. McCraney as deputy collector, and will then proceed to Greenwood to introduce H. McCutcheon as collector there. Inspector Gill of the inland revenue is with him.

• • •

J. Coxshead, the well-known building contractor of Nelson, took a trip to visit his group of claims back of the Silver King mine yesterday.

TEN YEARS AGO TODAY.

(From The Daily News.)

Mrs. I. G. Nelson is visiting friends in Vancouver.

• • •

Capt. C. T. Partington has returned to the city from Ottawa, where he attended the D.R.A. shoot.

• • •

Gilbert Anderson, Alex Carrie and R. L. Douglas have returned from a two days' fishing trip to Midge creek, bringing with them 106 brook trout, the largest of which weighed two pounds.

• • •

Richard Burbidge, accompanied by Mrs. Burbidge, Miss Rudd and A. H. Doe of London, Eng., are registered at the Strathcona. Mr. Burbidge is an official of the Hudson's Bay company and is touring the west visiting the many branches.

• • •

H. Crozier-Smith was yesterday married to Miss Dorothy Mary Agnes Reynolds by Rev. F. H. Graham.

TOLD IN RHYME

ENGLISH HISTORY

The Roman threw us a road, a road,
And sighed and strolled away;
The Saxon gave us a raid, a raid,
A raid that came to stay.
The Dane went West, but the Dane confessed
That he went a bit too far:
And we all became, by another name
The Imperial race we are.
Chorus

The Imperial race, the inscrutable race,
The invincible race we are.

Though Sussex hills are bare, are bare
And 'Sussex weald is wide,
From Chichester to Chester
Men saw the Norman ride:
He threw his sword in the air and sang
To a sort of a light guitar:
It was all the same, for we all became
The identical nobs we are.
Chorus

The identical nobs, individual nobs,
Unmistakable nobs we are.

The people lived on the land, the land
They pottered about and prayed.
They built a cathedral here and there
Or went on a small Crusade;
Till the bones of Becket were bundled out
For the fun of a fat White Czar;
And we all became in spoil and flame
The intelligent lot we are.
Chorus

Tte intelligent lot, the intuitive lot,
The infallible lot we are.

O, Warwick woods are green, are green,
But Warwick trees can fall;
And Birmingham grew so big, so big,
And Stratford stayed so small;
And the hooter howled to the morning lark
That sang to the morning star;
And we all became, in freedom's name,
The fortunate chaps we are.

Chorus:

The fortunate chaps, felicitous chaps,
The fairy-like chaps we are.

The people they left the land, the land,
But they went on working hard;
And the village green that had got mislaid,
Turned up in the squire's back yard.
But twenty men of us all got work;
On a bit of a motor car;
And we all became, with the world's acclaim,
The marvellous mugs we are.

Chorus:

The marvellous mugs, miraculous mugs,
The mystical mugs we are.

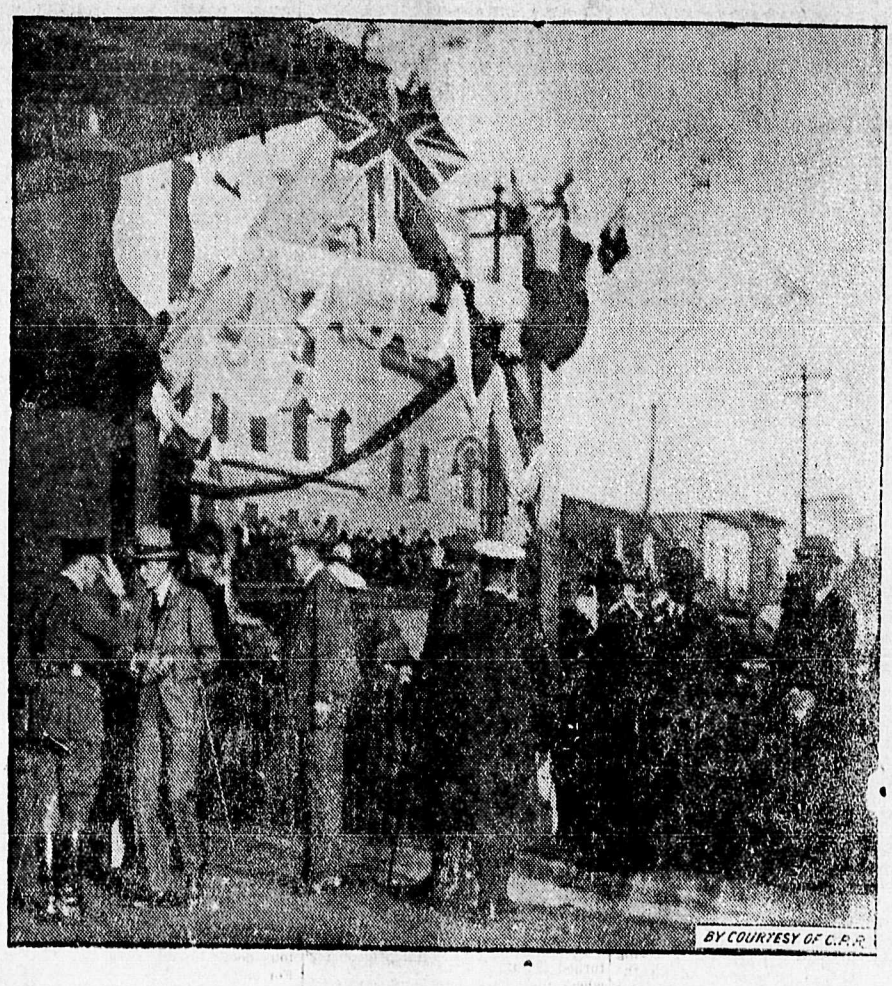
—G. K. Chesterton, in the New Witness.

LIFT OFF CORNS!

Freezone is magic! Corns lift off with fingers without pain

Hurt? No, not one bit! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift that bothersome corn right off. Yes, magic! Costs only a few cents.

Try Freezone! Your druggist sells a tiny bottle, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the mysterious ether discovery of a Cincinnati genius.



PRINCE SAYS GOOD-BYE TO QUEBEC AT C.P.R. STATION

ALIENS AND EMPIRE.

Most people will be surprised to read that Winnipeg, like Johannesburg, has had its soviet experiences. Canada has rightly been regarded for a long time as a nation peculiarly sane and level-headed, and not at all liable to any species of "red, fool fury" such as sweeps periodically over the Rand. Curiously enough, too, Canada has an almost negligible Labor party, as far as numbers go ,so that even if its extremist "tail" should wag the party dog, the potentialities for mischief are still not normally very ominous. So far as Winnipeg is concerned, it is undoubtedly a virile urban centre. But the state of Manitoba, of which it is the capital, is as conservative as any prosperous farming community could be. The Middle West of Canada is not given to revolutionary doctrines, and whatever vicissitudes Winnipeg may recently have gone through, they could only have been in the nature of an episode.—Natal Advertiser.

SIR WILLIAM IS SEVENTY

Sir William Osler recently celebrated his seventieth birthday and not a few newspapers have seized upon the occasion to quiz him on his remark a few years ago concerning the uselessness of men after forty and the desirability of administering a lethal dose to them when they reached sixty. Sir William spoke jocularly at the time, but he was taken seriously all over the world and was deluged with evidence from many quarters to show that he was quite mistaken.

If there was any ground for argument on the subject his own case would furnish a striking refutation of his theory, assuming it was earnestly set forth. At seventy he is still a great power in the medical world. He is Regius Professor of Medicine in Oxford University and in that capacity continues to maintain his prestige. Indeed, Sir William did much of his best work after he had passed the dead-line of sixty set by him in his celebrated remark, while he was really just on the highway to renown at forty.

The recent war, however, completes the case against the views attributed to him, for not only the great majority of the military and naval leaders, but of the statesmen and other national figures as well, have passed the limits which he prescribed for human usefulness, *in some cases, notably* those of Foch and Joffre, by many years.—Victoria Times.

NOTHING NEW UNDER SUN

The very drastic measure of punishment which is being advocated by two deputies of the Pas de Calais as the only sufficient deterrent to profiteers is apparently no new thing. It is, in fact, just a modern edition of a demand which was made some two thousand years ago and more in Athens, and acceded to. One of the brilliant orations of Lysias deals with this very subject of profiteering, and advocates, with all the persuasiveness of the Greek orator, punishment by execution. The French press treats this proposal by the Pas de Calais deputies as something of a joke, abeit an unpleasant one. Paris of today is not Athens two thousand and some hundred years ago, and as a French paper wisely remarks. "Once erect the guillotine and it would take a wise man to say whose head would escape the basket."—Christian Science Monitor.

LOVE OF THE SEA

Love of the sea, a hankering for it that will not down and that inhabits individuals and families and races. Perhaps love is a poor word. Your seamen may hate the sea and curse it out, but he can't resist signing up for a new voyage. The sea stirs farmer boys on the prairies and sends them around the world. Its grip on certain humans is the strongest fact in their lives, and whatever else the scientists may prove as to its inheritance and its pedigree, it is one of the fates that control the lives and destinies of men and nations.—New York Times.

If some people would make it a rule to pay as they go, they would never get very far from home.

THE NEED FOR THRIFT

At the bottom of the solution of the cost of living problem is willingness to work in the production of essential things; to go without for a time, if needs be, the unessential ones. A great deal would be accomplished if every individual would take counsel with himself, as he would do if we were still at war, as to whether he is contributing his share to production. Perhaps this is too much to expect, human nature being what it is. But hoewevr much we may theorize, and however far we may seek for the remedy in the nostrums of economic quacks, we shall get no necessary article more cheaply until we have produced more.—Portland Oregonian.

"The Home of Fine Diamonds"

Visitors to Vancouver are cordially invited to visit our establishment. We shall be pleased to show you round our workshops, our offices, our store, our Mail Order Department, our shipping room, etc. Come and enjoy a pleasant half-hour with us —our establishment is one of the finest of its kind on the Continent.

A CLERGYMAN'S RECOMMENDATION

The Zam-Buk Co.

Dear Sirs:

Appreciating what your balm has done for me, I should like an opportunity of recommending it to others who may be similarly afflicted.

For the last forty years I have had a patch of eczema on my right hand. I tried in every possible way to get rid of it—had treatment from several doctors and tried innumerable remedies, but received no lasting benefit. If a remedy eased it or cured it for a time, it always returned as bad as ever. One of my friends is a great believer in Zam-Buk, so I decided to give it a trial and sent first for a sample. You can imagine my amazement when even this small quantity brought me more relief than anything I had ever before used. I continued the use of Zam-Buk for two weeks, by which time the eczema, although of forty years standing, had entirely disappeared. That was one year ago, and there has been no return of it.

Yours sincerely,

(Name of clergyman, from whom the above letter was received, will be given upon request)

ZAM-BUK FREE BOX

Send this advert, name of paper and 1c stamp (for postage) to Zam-Buk Co., Toronto, for free trial box.

Use More Corn Syrup For Preserving

Real home-made preserves, and the woman who puts them up—how they're both appreciated. Preserving is not difficult to-day. The LILY WHITE way has removed the uncertainty. Most of your preserving troubles have come from using sugar alone. Even the beginner can count on success if she will use half LILY WHITE and half sugar. LILY WHITE blends the sugar with the fruit and makes preserves that will never crystallize.

LILY WHITE and CROWN BRAND are both Dandy for Candy.

Your grocer sells Crown Brand and Lily White Corn Syrup in 2, 5, 10 and 20 pounds tins.

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A French scientist has discovered an organic phosphate which should be a very effective remedy for weak nerves, sleeplessness, thinness and lack of strength, energy and vigor.

Its substance is described by specialists as identical in composition with certain vital elements naturally found in brain and nerve cells and one which when taken into the human system is quickly converted into healthy living tissue.

This phosphate is already widely known among druggists in this country as Bitro-Phosphate and some physicians claim that through its use strength, energy, vigor and nerve force are frequently increased in two weeks' time.

Dr. Frederick Kolle, Eritor of New York Physicians' "Who's Who," says it should be prescribed by every doctor and used in every hospital in the United States. As there are a great variety of so-called phosphates, those who wish to test this substance should be sure to get the genuine Bitro-Phosphate.

WHEAT PRICES ARE DISCUSSED

Grain Dealers, Millers and Farmers Appear Before the Grain Board.

TORONTO, Sept. 8.—Representatives of grain dealers, millers and farmers gave their views on the fixing of the price of wheat before the Canadian Wheat Board, which held an open session today at the city hall here. Most of the discussion centred about the methods of putting the board's regulations into effect, but many of the witnesses touched on other topics.

The chairman of the board, James Stewart, of Winnipeg, in reply to a suggestion by Wellington Hay, M.L.A., a witness representing elevator interests, that accurate registers be kept by the dealers in the larger centres, and that at the end of the season a full list of the names of farmers delivering wheat and the quantity delivered be made to the board, said that they had in mind the establishment of a registration office in Toronto.

D. A. Campbell presented the recommendation of the committee of the Canadian Millers' Association, that the control of the price be by the millers, rather than the grain dealers. He pointed out that there were about 550 millers to deal with, while the number of grain dealers was nearly three times as great. Under the committee's scale the price of flour should remain the same as long as the price of wheat did not change, and there should be restriction of sales to 30 days, to prevent the accumulation of large stocks, which would be influenced by the changes in price.

J. A. Robb, of the Western Millers' Association, warned the board that the maintenance of prices established and restrictions will throw the business of the smaller millers into the hands of the large.

R. A. Thompson, of Lyndon, president of the Dominion Millers' Association, submitted a uniform ticket prepared by that association. He expressed the view that control might be maintained best through the millers.

Kootenay and Boundary

WELCOME IS TENDERED SOLDIERS AND BRIDES

BOSWELL, Sept. 8.—A most delightful evening was spent in the schoolhouse on Friday last, when a welcome social was tendered to two returned soldiers and their brides: Lieut. W. L. Hepher, M.C., and Mrs. Hepher; and Pte. C. S. Bourne and Mrs. Bourne. Tht early part of the evening was devoted to a concert, those taking part being Mrs. Hepher, Miss Kennedy, Miss Spence, C. S. Bourne and Rev. J. S. Mahood, the latter rendering "In Flanders' Fields" and "The Call of the Kootenay" and also a cornet solo. Mrs. Bourne accompanied the various singers. B. Holiday Smith, who acted as chairman on behalf of the residents, extended a most hearty welcome to the guests of the evening, wishing them all the happiness and friendship that was possible to obtain through life. Mr. Hepher and Mr. Bourne both spoke in reply. Dainty refreshments, including peaches, strawberries and cream were served at the residence of Mrs Harry Johnstone whcih adjoins the schoolhoouse, and then the gathering enjoyed dancing until well into the early hours of the morning.

Mrs. Desereaux, of Nelson, has been the guest of Mrs. W. Mitchell for some days.

Miss Alice Barker of Calgary, who has been visiting Mrs. Charles Allen, left for home again during the week.

Miss Annie Allen, of Cluny, Alta., arrived on Tuesday evening to spend a week's vacation.

Mrs. W. O. Rylett and two children spent last Saturday in Boswell, leaving on Sunday morning for Cranbrook en route for Athalmer, having been called hurriedly owing to the illness of W. O. Rylett, who went there recently.

Miss Agnes Allen of Nelson is acting as substitute for Mrs. Rylett at the Boswell school.

Capt. C. G. Westhead of Nelson is the guest of Capt. Roland Ellis for a few days.

Miss Dorothy Hall of Kaslo came in on Tuesday morning's Crow boat and is staying with Mrs. Charles Allen.

During the week a wedding present consisting of a cheque for a handsome sum subscribed by Boswell friends, was handed to Mr. and Mrs. C. S. Bourne.

Miss Eileen Spence was the guest of Mrs. Kennedy for a few days during the week.

GRAND FORKS ITEMS

GRAND FORKS, Sept. 8.—W. Tomlinson, the well known mining engineer of New Denver, and Ivan DeLashmutt, manager of the Standard mine, at Silverton, are inspecting several groups of claims at Franklin camp.

R. J. Muir and wife were visitors in Grand Forks Thursday from Allenby.

Jack Plant, who served with the Princess Pats, returned to Grand Forks this week. He was married while in England, and was accompanied home by his wife and baby.

Three new real estate offices were opened here during the week.

A very good exhibition of broncho busting was given at the Columbia stock yards Wednesday afternoon, when the Mounted Police broke to the saddle some of the remounts recently purchased. The spectators enjoyed a free show that was said to surpass the Calgary Stampede.

Mrs. E. McKewen of Vancouver is spending a few weeks in the city, the guest of Mrs. W. Murray.

Jeff Davis returned Tuesday from a business trip to Chewala and Spokane.

Murray McKenzie and family returned Friday from New Denver where they have been staying during the summer months.

Enrollment at the Grand Forks public schools on Tuesday numbered 355, which number has since increased to 370, thirty-seven beginners and twenty-six students who had not before attended school here, being enrolled.

GENERAL PERSHING REACHES GOTHAM

Arrives on Leviathan; Big Liner to Re-enter the Passenger Service.

NEW YORK, Sept. 8.—With the arrival here today of the transport Leviathan, bringing home General Pershing and troops of the first division, the giant transport brought to a close her important service in helping win the war. According to information at the headquarters of the troop and transport force in Hoboken the big ship is now to be relieved as a transport and after being fitted for passenger service, is to be turned back to the United States shipping board, the agency which seized her when the United States entered the war.

The Leviathan, formerly the Vaterland, the second largest ship in the world, was interned in New York by the Germans in 1914, and "wilfully damaged" to the extent of more than $1,000,000. She proved after she was reconditioned by the United States engineers to be the greatest single unit in taking the United States fighting men to France and bringing them back. Including the voyage ended today, which was her 19th round trip under the United States flag, she carried 155,000 soldiers overseas through submarine infested areas.

"Bolshevism on Trial" at the Gem. You be the judge. (4209)

BULGARIANS MAY RECEIVE PEACE TREATY TOMORROW

PARIS, Sept. 8.—It is thought probable that the Bulgarian peace treaty will be handed to the Bulgarian delegation Wednesday afternoon. There will be no ceremony in connection with the turning over of the document.

There ought to be some method of restraining people who dodge in order to avoid getting what is coming to them.

MILITARY CONVOY NEAR FERMOY, IRE., ATTACKED

LONDON, Sept. 8.—It is reported that a large party of armed civilians atacked a military convoy near Fermoy Sunday evening. The civilians captured 25 rifles and escaped in automobiles.

This is aparently distinct from an atack Sunday upon a party of 18 soldiers returning from church, which was reported from Belfast.

LESS SPRING WHEAT BUT MORE CORN IN STATES

WASHINGTON, Sept. 8.—Further decline of the spring wheat crop reduced the prospective production 17,000,000 bushels during August, but corn had a good month and showed a prospective output of 70,000,000 bushels larger than indicated last month, acording to the United States government's September crop report issued today.

The condition of the corn crop was described as irregular ranging from extremely good to extremely bad, but for the country as a whole a fair sized crop of good quality is in prospect, totalling 2,858,000,000 bus.

The loss in the spring wheat crop was caused by blight, rust, scab and grasshoppers. The total crop of spring and winter wheat now is placed at 923,000,000 bushels, which is more than 300,000,000 bushels below the crop as forecasted from conditions prevailing in June.

MARKED INDICATIONS OF COMPROMISE IN STATES

WASHINGTON, Sept. 8.—Marked indications of a compromise in the senate controversy over reservations to the league of nations covenant came today from both Democratis and Republican sources after Republican Leader Lodge had announced that the treaty would be reported to the senate Wednesday and probably taken up fo consideration next Monday.

Probably the most important development of the day was a statement to the senate by Senator Simmons, declaring some concessions in the way of reservations will have to be made to secure ratification.

Although uterly opposed to some of the reservations, Senator Simmons said he was suggesting a compromise on reservations of an interpretative character. Republican senators continued efforts to compose differences over a reservation to article 10 of the league of nations.

TO CLEAR NORTH SEA OF MINES BEFORE AUTUMN

LONDON, Sept. 8.—The North Sea will be cleared of mines before the rough autumn weather forces the mine sweepers to quit work, according to a statement made to an Associated Press corespondent today by a naval authority. Completion of the work this year had not been expected a month ago. "Cleared" means, the officer said, as far as it reasonable to expect sweepers to do the work. Undoubtedly many mines will oe missed and the navy men expect to hear of ships striking isolated mines for some time.

WANT COAL CARS RELEASED

WINNIPEG, Sept. 8.—The Canadian Railway war board has communicated with the fuel administrators of the three western provinces requesting that coal dealers throughout the west be urged to release cars placed for unloading without delay in order that the railways, by thus getting a fuller use of their equipment, may in some measure be enabled to overcome the handicap resulting from the necessity of handling the bulk of the winter's coal supply from the western mines at the same time and in the same direction with a heavy grain traffic.

COVENANT CRITICISED AT OTTAWA

(Continued from Page One)

nations in particular had objected to Canada taking part in the deliberations.

"All five powers," replied Mr. Sifton.

Mr. Sifton outlined the manner in which the work of the peace conference was carried out, and said that in the meeting of the full conference practically the only discussion had come when Sir Robert Borden held them up for a few minutes to discuss the rights of Canada in regard to labor. Referring to Mr. McKenzie's argument that Canada had no right in the League of Nations, Mr. Sifton read a letter signed by Premier Clemenceau of France, Premier David Lloyd George and President Wilson, taking the directly opposite view.

In regard to the labor clause, Mr. Sifton said there were thousands of people who agreed that they and the covenant of the League of Nations should be separate documents, but he asserted it would have taken many months longer to have concluded the peace treaty without these two documents being made part of it, and it was not until the day before the treaty was signed that Canada finally was given her rights in regard to labor. As to what would happen if the treaty were not ratified by the Canadian parliament, Mr. Sifton said the question would remain whether or not Canada was still technically at war with Germany. He felt that it was not in the interests of Canada and the British Empire to raise questions of that nature at this time.

Beland Praises Treaty

Hon. Dr. H. S. Beland, Beauce, the next speaker, said he regarded the treaty of peace as the most momentous document in the world's history. For one who had been an eye witness, and in many cases a victim of Prussian militarism, for the past four years, there was a deep satisfaction in reading the clauses of the treaty. It was a striking demonstration that, as far as the allies were concerned, the war had reached a victorious and happy conclusion, and while the terms might appear severe they would need to be so that Germany's ambitions would not again oppress the world.

He said he felt that the treaty which had ended the war would be unreservedly endorsed by this parliament if in any way that endorsation was necessary to give validity to the document. But he asked if the Canadian parliament refuses to sanction the acts of its delegates are the British Empire's signatures to the treaty to be questioned or impaired?

He could see no consequence, international or national, that could result from Canada's abstention any more than if India refused to sign. He said he feared Canada was gradually assuming more international obligations without increasing her international status. Referring to imperial federation, he said this was a retrograde rather than a forward step.

Hypothetical Objections

Under the covenant a council of nine men was given the right to dispose of Canadian troops to quell any eventual disorder in any of the five continents. Suppose, after the League of Nations was constituted, the council of nine ordered that Canada should send soldiers to the Antipodes. The dissatisfaction, Dr. Beland continued, would be so great in Canada as to border on revolution, and such a condition did not make for the consolidation of the British Empire, but rather for its disintegration. He did not think that Canada would be represented on the council of the league.

Dr. Beland gave another hypothetical case. "Suppose Great Britain and Italy had a disagreement and the council decided in favor of Italy. Suppose Great Britain then decided to go to war, what would be the position of Canada? Would she side with the League of Nations or would she go to the assistance of Great Britain?"

As Dr. Beland was referring to objections raised to Canadian membership of the peace conference, Mr. Sifton interposed that Great Britain had favored Canadian representation all through. Dr. Beland concluded with the hope that approval would be given to the Polish treaty, emphasizing the clause in the treaty guaranteeing to minorities in Poland rights of religion and language.

Consider the Huns

General W. A. Griesbach, Edmonton, thought it important in discussing the treaty, to remember the methods adopted by Germany in waging war. He described atrocities committed by the Germans which had come under his own observation. In considering the peace treaty, it was well to remember the nature of the people with whom we were dealing.

The League of Nations was an integral part of the treaty, he said, without a league the treaty would become a mere scrap of paper because the nations who had allied to defeat the might of Germany would no longer be a unity. Membership in the League of Nations would give Canada an opportunity to decide for herself as to the justice of the war before participating in it. **The ratification of the peace treaty conferred upon Canada the statue of a sovereign power and a world nation.**

At 9.50 the debate was adjourned by Ernest LaPointe, Kamouraska, and the house adjourned until 3 p.m. Tuesday.

WE HAVE NEVER Shown Prettier SUITS THAN THESE

You'll surely want one of these handsome **SUITS** when you see how Smart they are. You can wear the Suit you choose now until the very coldest days arrive, because they are made to fit so snugly. MEAGHER & CO.

THE STORE FOR STYLE THE STORE FOR QUALITY

SAYS WINNIPEG FAILS TO GET FAIR SHARE OF TAXES

WINNIPEG, Sept. 8.—That the province is gradually taking away from the city all its sources of revenue from taxation and leaving the city high and dry was the gist of a charge made by Thos. A. Hunt, city solicitor, at a meeting of the city's legislation committee this afternoon.

Council for the city urged that a re-valuation or re-asessment of the whole of the land in the province should be made with a view to arriving at a more fair basis of taxation as between the city and the remainder of the province.

It was also argued at the meeting that the city did not get nearly what was coming to it from the taxes on automobiles, from the amusement tax or from the telephone system.

REPEATS CHARGE THAT ARMY PAYROLLS WERE PADDED

WINGHAM, Ont., Sept. 8.—R. J. McMillan, of Seaforth, this afternoon before a meeting of the United Farmers of North Bruce, repeated his charges that the payrolls of the Canadian overseas force had been heavily padded. He had obtained his information, he said, from a pamphlet which had been public property in this country for some time.

BOSTON POLICE STRIKE

BOSTON, Sept. 8.—The Boston policemen's union voted tonight to call a strike effective at 5.45 o'clock tomorrow afternoon.

PLAIN SPEAKING

Let us have peace. Let us begin the works of peace. Let us set our house in order. Let us stand on a firm basis of international amity as we turn to the needful business of readjustment. Let us have a free hand to deal with our profiteers; let us have a clear brain to grapple with the problems of labor and economics. And let us, at the same time, give the rest of the world a chance to get on its feet. Let us clear the way for the great recovery instead of blocking the path of those in darkness who are struggling toward the light. Let us have our interpretations; volumes of them, if necessary; but let us cease to stand as a nation of gabblers playing at oratory while all the world cries for our help and our leadership.—Cleveland Plain Dealer.

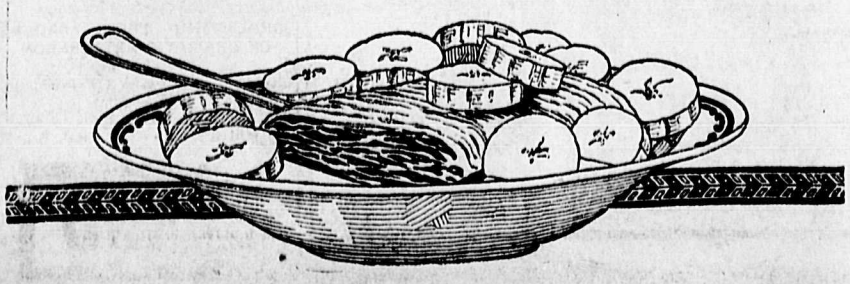
GREAT MEN AND LITTLE MEN

It is a great thing to be a senator—to have your name in print and on men's tongues? That is a brief and trivial glory. It is a greater thing to dignify an obscure position by the excellence and integrity of one's service. To do that is to wear invisibly the jewelled emblem of a high office which flashed and gliteted on the breast of him who came garbed in the coarse garb of a monk, but with spiritual authority in his eye. The world is far better served by a great man in a small job than by a small man in a great job.—Boston Globe.

Victor Medland, London, was sentenced to the Ontario Reformatory for forging a cheque.

THE CALL OF HUNGER

is answered by Nature with abundance of food-but be sure you eat the food that Nature intended for human beings. The whole wheat is king of all foods. Shredded Wheat Biscuit is the whole wheat, nothing wasted, nothing thrown away -the most real food for the least money. Two or three of these crisp, brown little loaves of baked wheat with sliced bananas, sliced peaches, or other fruits, make a wholesome, nourishing meal at a cost of a few cents. Ready-cooked, Ready-to-eat.



CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"

Made in Canada.

General News of the City

RAISE FUNDS TO PREPARE FOR PRINCE

Want Approximately Thousand Dollars For Event—Finance Committee Appointed

An effort will be made by the committee in charge of arrangements for the visit of the Prince of Wales to raise a sum of approximately $1000 for decorating and preparing the city for this event. This was the decision of the committee at a meeting last night, when it was decided to approach the city council for half the amount. The other half will be raised by public subscription.

The finance committee for the reception will be Mayor J. A. McDonald, J. A. Irving, F. J. Boles, A. Leith, F. W. Sterling and L. H. Choquette, chairman of the finance committee of the city council.

J. R. Hunter was in the chair at the meeting, in the absence at the coast of Mayor McDonald. A committee composed of Rev. J. P. Westman, F. J. Boles, John Cartmel and Mrs. A. L. McCulloch was appointed to wait on the city council at its meeting last night.

WANTS OVERSEER FOR LAKE NAVIGATION

Coroner's Jury Recommends the Appointment of Officials by Government—Verdict of Inquest.

A strong recommendation that the government should take steps to place in the vicinity an official or officials to oversee the carrying out of the marine laws as they affect Kootenay Lake, and particularly as they apply to the carrying of lights by craft of all types plying the lakes, was yesterday brought in by the coroner's jury which presided at the inquest on Joe Chow and Go Tin, the two Chinamen who met with a mysterious death on the West Arm of Kootenay Lake near Proctor a few weeks ago. The finding of the jury stated:

"That the said Joe Chow and Go Tin came to their death while crossing the West Arm of Kootenay Lake from Balfour to the C.P.R. wharf at Proctor. Death was caused by their rowboat being struck by some powerful moving object cutting their boat in two parts, instantly killing Joe Chow and causing the drowning of Go Tin. This jury do recommend for the future safety of the public that the Dominion government be requested to have some official or officials appointed to see that the marine laws, especially with regard to the placing of all lights and the keeping of a proper lookout on all boats and vessels are strictly enforced.'

Despite the efforts of the provincial police, who dragged the lake in the vicinity of the C.P.R. slip at Proctor, no sign of the lantern which, it was thought, was carried by the Chinamen on the night in question, was found.

"Bolshevism on Trial" at the Gem. You be the judge. (4209)

COUNTY COURT SITS THIS MORNING

Six Cases to Come Up—Chamber Applications Heard by Judge Forin Yesterday

County court will sit at the court house this morning at 10.30 o'clock. Six cases are set down for hearing. The court will be presided over by Judge J. A. Forin.

In chambers yesterday morning H. C. Irving (James O'Shea) was granted permission to renew plaint and summons in La Brash vs. McDonald et al.

In the Consolidated Mining & Smelting company of Canada Limited vs. Lamb and Annable, E. G. Matthew (Hamilton & Wragge) was granted leave to serve the defendant at Moose Jaw, Sask.

ASPHALT EXPERT ARRIVES TONIGHT

Will Supervise Surfacing of Baker Street—Material for Job Reaches the City

The expert from the coast who will oversee the laying of the asphaltum on the portion of Baker street which is being remade, is expected to arrive in the city tonight. Intimation to this effect was given at the meeting of the council last night. It was also stated that the asphaltum for the job had reached the city. It is therefore probable that the laying of the surface will commence this week.

Ald. John Burns and the city clerk were last night deputized by the council to meet the expert and take up with him the furtherance of the work.

Clean to handle. Sold by all Druggists, Grocers and General Stores

ESSAY WRITERS GET HANDSOME PRIZES

Presentation Made by J. P. Forde—Dr. Arthur Speaks on History and Development of Local Schools.

The high school was the scene of a fitting ceremony yesterday afternoon when J. P. Forde, president of the Nelson branch of the Navy League of Canada, made the presentation to Helen Fowler, John Hoyle and Elsie Lee of the prizes which they had won in the recent essay writing competition conducted under the auspices of the League. The essays were written on the "Blocking of Zeebrugge Harbor." The prizes were parchment certificates together with books on patriotic subjects.

All classes of the school were gathered in the assembly hall for the presentation and Mr. Forde after being introduced by the principal, B. P. Steeves, recalled the circumstances which had prompted the league in offering the prizes and the success which had attended its efforts. He congratulated the winners on their excellent efforts.

Dr. E. C. Arthur, who was some considerable time overseas, was then called. He addressed the pupils on the history of the public schools of the city, recalling the establishment of the first public school in Nelson 21 years ago. He then touched on the first high school of which the city had boasted. It consisted, he stated, of 20 pupils and one teacher crowded into the already inadequate public school. The gradual expansion of the work and increased attendance resulted in the building of the present school building, which itself, had had to be extended and would require further extension if the increased attendance and popularity of the institution continued.

He had always taken the keenest interest in the schools of the city and when overseas had not forgotten the work in which he had for so many years taken such a keen interest. He had been pleased to read of the progress which had been made, but when he saw it with his own eyes on his return he could hardly believe it was possible.

H. P. Thomas, secretary of the Navy League, also attended the function.

DELINQUENT LIST IS SHORTER THAN USUAL

Assessor Ferguson States Taxes Are Still Coming in in Surprising Volume—Sale in October

"The list of properties delinquent in taxes, in the Nelson assessment district, is not more than half as large as last year's list," stated E. Ferguson, district assessor, yesterday.

"Tax collections are remarkably good," continued Mr. Ferguson. "June, the last month of the discount period, doubled the record of any previous June in tax receipts, but July, which normally is light, was also a good month.

"I have just completed the roll for advertising, for the tax sale on Oct. 8, and before I can get it into the mail more money comes in, and I have to strike certain properties off the list."

When Your Liver is out of Order

You know the signs—a heavy head, sick stomach, bad taste in the mouth, latent dyspepsia. Pay strict attention to these symptoms and get prompt relief by using Beecham's Pills. A few doses will stimulate the liver, help the stomach, regulate the bowels and make a great difference in your general feeling. Nothing will put you on your feet so quickly as a dose or two of

HOSPITAL AID PLANS REFRESHMENT BOOTH

Committees Appointed to Have Charge on Various Days of Fair—Proceeds for Hospital

In accordance with their custom the Women's Hospital Aid society will have charge of the refreshment booth at the Nelson fair building during the three days of the fruit fair this month.

The arrangements were partly made at a meeting of some of the members of the organization, held in the Y.M.C.A. yesterday afternoon.

The following members were delegated to look after the matter of collecting articles of food for the stall: Mrs. C. V. Gagnon, Mrs. E. F. Gigot, Mrs. William Waldie, Mrs. Thomas Bennett, Mrs. H. M. Cobbett, Mrs. C. D. Blackwood and Mrs. W. Thurman.

Mrs. Cobbett, Mrs. Thurman and Mrs. N. M. Cummins were appointed convenors of the refreshment stall for the three days of the fair. They will add more members to their committees. Mrs. C. D. Blackwood will be convenor of the ice cream stall.

The money obtained from the stall will be used to buy ward supplies, in the way of linen, dressing gowns and other necessities, for the Kootenay Lake General hospital.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

TITION TO REDUCE SENTENCES OF SOLDIERS

LONDON, Sept. 8.—A petition is ng promulgated here for a reduc- n of the sentence of 12 months upon eral Canadian soldiers in connec- n with the Epsom riots. When tice Darling passed sentence, he used the prisoners from hard labor account of their war service, and ied that there seemed to be no ference between their conduct and he of the people belonging to this ntry, except that the latter were, if thing, worse. Arguments were sequently addressed to the court of minal appeals for a reduction of the tence, but without effect.

AMERICAN ADMIRAL TO MEET PRINCE OF WALES

VANCOUVER, Sept. 8.—A telegram received by Mayor Gale today, from Hon. Josephus Daniels, secretary of the United States navy, stated that Admiral Rodman, commander-in-chief of the American Pacific fleet, would be in Vancouver during the visit of His Royal Highness, the Prince of Wales, on September 22. Although the message did not say so, it is said that some of the United States warships also will be in the harbor on that occasion.

News of Sport

NATIONAL LEAGUE

PITTSBURG, Sept. 8.—Boston and Pittsburg divided a double header here today, the locals taking the first game 10 to 0 and losing the second game 4 to 3.

First game:	R.	H.	E.
Boston	0	5	3
Pittsburg	10	14	2

Demaree and Gowdy; Miller and Schmidt.

Second game:	R.	H.	E.
Boston	4	9	2
Pittsburg	3	12	3

Fillingim, Causey and Gowdy; Wilson, Ponder and Blackwell.

No other games scheduled for today.

AMERICAN LEAGUE

NEW YORK, Sept. 8.—Boston defeated New York in both games of a double header here today, the scores being 3 to 1 and 3 to 0. In the eleventh inning of the first game Ruth hit a home run into the right field stand for his 26th home run of the year, breaking the established major league record. In the third inning he crashed into the left field fence in catching a difficult foul. The impact knocked him down and injured his right elbow. He was put out of commission for five minutes. Ruth's hitting also decided the second game. His double in the fourth inning scored Roth and Ruth scored on McInnes' single. Hoyt, a former Brooklyn school pitcher, shut out the Yankees with three hits.

First game:	R.	H.	E.
Boston	3	8	0
New York	1	7	1

Jones and Schang; Quinn, Thormanlen and Ruel.

Second game:	R.	H.	E.
Boston	3	10	1
New York	0	3	1

Hoyt and Walters; Mogridge and Hannah.

Only one game in American league scheduled today.

TEAMS ARRIVE TO PLAY FOR BIG LACROSSE TITLE

WINNIPEG, Sept. 8.—The Foundation team of Victoria, B.C., champions of British Columbia, and the St. Simons, of Toronto, Ontario representatives, arrived here during the day to take part in the amateur lacrosse championship of the world which opens on Wednesday and continues on Thursday, with the final on Saturday. The coast boys look much heavier than the eastern lads, but it looks like an interesting battle if they happen to meet. The Edmonton team, champions of Alberta, and the Lawson team, representing Saskatchewan, are due here tomorrow. A meeting to organize a new Canadian lacrosse body starts tomorrow morning and will continue during the week.

DETROIT PROTESTS PLAYING OF TRANSFERRED GAME

NEW YORK, Sept. 8.—Word was received from B. H. Johnson that the Detroit club protested the second game of the double-header between New York and Boston here today, on the ground that it was a game transferred from Boston. Under the league constitution one club can prevent the transferring of games of one city to another.

HILLHURSTS VICTORIOUS

VANCOUVER, Sept. 8.—In one of the best games of the season, Hillhurst football team of Calgary, this evening defeated the Longshoremen, local champions, by a score of 2 to 1.

"Bolshevism on Trial" at the Gem. You be the judge. (4209)

APPRECIATION OF BOTHA'S CHARACTER

MONTREAL.—The following appreciation of the character of the late Premier Botha, of South Africa, appeared in a recent issue of the Montreal Star:

A cloud of copper colored dust fanned out on both sides of the veldt road as eighteen tired oxen dragged their weary way along the road from Utrecht to Vryheid one scorching January afternoon, just a quarter of a century ago. The voor-looper, a young Zulu of not more than twelve summers, who trotted in front of our typical African equipage, seemed the only member of the travelling party that knew neither heat nor fatigue, for the driver had ceased walking alongside his trudging beasts and had perched himself, somewhat insecurely, on the axle boom from which point of vantage he urged his team forward with shrill and violent imprecations.

At the back of the wagon the writer and a fellow traveller sought what shade was possible and fought an unequal battle against the plague of flies that swarmed around in their tens of millions. At sundown, after nearly five hours of discomfort, we "outspanned" and two disgruntled Englishmen, too tired to shoot, although breakfast depended on our guns, too irritable to talk, lest the friendship of school days might be broken, and too sunburned and dust-covered to ever expect physical comfort again, walked towards a Dutch farmhouse that was sheltered from the burning sun by groves and avenues of Eucalyptus As we came near the house the owner rose from his chair on the "stoep," and came forward to greet us with that natural courtesy that the Boer inherits from his Holland ancestry, ushering us into a cool, plainly furnished room, while a native servant set coffee before us. I shall never forget the contrast between the dust and the blistering sun and the burnished skies of that afternoon and the droning quiet, the peace and the sympathetic hospitality of that short twilight.

Our host was Louis Botha, at that time a member of parliament for his district, and a man held in high repute. Looking back over those years my recollections of the man who was afterwards to be the premier of all South Africa, and a mighty power in the welding of the British Empire, are summed up in his strength and his smile. I suppose he stood about two inches under six foot, but above a pair of broad shoulders there was a head that was leonine. There was a set look of quiet determination in his eyes and a firmness of jaw that not even the straggling beard that he then wore could hide. He had a subtle suggestion of panther strength in his movements. Although not taciturn, he never wasted words, and when he gave an opinion it was with the settled conviction of the man who has thought out the problem for himself. He never intruded his views on others, unsought, and when he differed he neither sought to convince his interrogator nor did he seek to probe into the causes of difference. He rarely smiled, but when he did so it was the smile of sympathy, of infinite courtesy. Cynicism was absolutely foreign to Louis Botha and broad humor made no appeal.

* * *

Louis Botha was a fighter all his life, and in the quiet of his home that evening and again in London in 1305 he told me stories of his early battles and his hunting exploits. We were within easy reach of the Drakensberg Mountains, which he had crossed to found a new home, and to set up a new republic twenty years before and with his "roer"—his trusted gun—he would in those days make five-day pilgrimages on horseback to the junction of the Blood and Buffalo rivers, where the old Voortrekkers had annihilated the savage hordes of Dingaan, the Zulu chief.

Before we left I got an insight into the real Louis Botha. It was still early evening when the big lamp was brought in and all the family settled round the great table while Louis read a chapter from the Bible, as his father and grandfather had done every evening before for scores of years. Louis Botha was no Puritan, but he was a God-fearing man, and when the reading was over he said a long prayer in the "taal." Quietly he brought his appeal to the Almighty to a close, and for nearly an hour more he recounted the deeds of some of the pioneers of the country, their bravery, their privations and their confiding trust in the Great God.

* * *

It is a saga of the veldt, a homesong so striking and as appealing as the songs of the Crusaders, of the minstrels of Scotland or the wandering rhymesters that sang their history in old English homes.

The next time I saw Louis Botha was in the distance. War had flamed on the African veldt and passions ran high. From the British side on the afternoon of the Battle of Colenso, the figure of Louis Botha on a white charger was plainly visible. It was Louis Botha who had led the British into the trap that had brought the loss of our guns and the defeat of our arms.

Once more I saw Louis Botha as he came down the marble steps of the Colonial office with General De La Rey and General De Wet, after peace was signed. How incongruous seemed the confines of a government department to these fighters of the veldt. They were dissatisfied for they had come to demand terms and concessions which at that time it was impossible for the British government to grant.

Louis Botha loved his home and he loved his country. He delighted in the society of his handsome Irish wife and his splendid family of three sons and one daughter. He hated junkettings and fetes and even in London he would sneak off for a tramp through the streets that would last for hours. It is this love of home and its expansion into a love of country that is the keynote of his life. Because he loved his home he loved South Africa and because he loved South Africa he gave to her his best talents, his best energies, his best years. Good-bye, Louis Botha, fighting man and friend.

"He ocarce had need to doff his pride
or slough the dross of earth.
E'en as he walks this day to God so
trod he from his birth."

—G. F. W.

Printed Butter Wrappers

Either With Your Name or With the Words

Dairy Butter

According to the Dominion government regulations all farmers who sell butter either to stores or privately are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words

"DAIRY BUTTER"

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces and in default of same a fine of from $10 to $30 for each offense is imposed. Whey butter must be so labelled even when mixed with dairy butter and dairy butter retains its label even though it be mixed with the creamery product.

If you have your own name or brand on your wrappers you gain valuable advertising for your butter. It causes people to ask for the same brand again.

DON'T POSE WHEN YOU TELEPHONE

There was a picture in the papers recentl of Enid Bennett, movie star, using the telephone. Miss Bennett is a fine actress and she surely knows how to use a telephone, but in this illustration she had her face turned away from the transmitter. Perhaps she was posing, but it might have suggested to some one that her method was the proper one when telephoning.

When you telephone, talk directly into the instrument, with your lips an inch or so from the transmitter. Then you will have to talk in an ordinary tone, and the person at the other end will be able to hear you distinctly.

BRITISH COLUMBIA TELEPHONE COMPANY PROGRESSIVE POLICY

Third Dose Relief! Fifth Dose! Diarrhoea Stopped

Diarrhoea does not need to persist for any length of time until the whole system is weakened and debilitated. No other disease so quickly undermines the strength and brings about a condition of prostration and very often total collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effectual in checking the diarrhoea, but at the same time acts as a stimulant, strengthens the heart and braces up the whole system, and one of its principal points is that it does not leave the bowels in a constipated condition.

Mr. W. H. Arnold, Fort Qu'Appelle, Sask., writes:—"A few years ago while out threshing, I had a severe attack of diarrhoea. Nothing I took seemed to do me any good. I was getting worse all the time. Hearing that Dr. Fowler's Extract of Wild Strawberry was good for diarrhoea, I want into town and procured a bottle. After the third dose I felt relief, and after I had taken the fifth dose the diarrhoea had stopped. I always keep it in the house, and would not be without it."

See that you get the original "Dr. Fowler's." It has been on the market for the past 74 years. Substitutes may endanger your health. Price 35c. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

THREE MEALS A DAY FOR $2.90 A WEEK

New York Jail Sets Low Food Record for Inmates; Prisoners Are Well Fed.

NEW YORK. — Snappy foods are barred, but it still doesn't seem possible that $2.90 will buy three square meals every day for a week in New York City. And yet that is what the official report turned in to the city from the Ludlow street jail, where the Alimony Club has its hang out, and where a few enemy aliens and political prisoners have been incarcerated.

As a matter of fact city officials have very little to do with this miracle, for a woman does the cooking. It is due to her that the price is kept down, according to Sheriff Knott.

That woman is Mrs. Rose Taylor, who, for thirty-one years, has presided over the kitchen back of the jail. Mrs. Taylor is 75 years old, but says she is just as spry and healthy as a youngster. Only her wrinkled and hardened hands give evidence that she has cooked, with the help of one assistant, three meals a day for an average of thirty-one prisoners a day, not to speak of the keepers and prison employees.

The Ludlow street jail kitchen is a big, bare room with a stone floor. A coal stove sixty years old is at one end and a cupboard graces the side wall, and a long kitchen table occupies the centre. It is spotlessly clean, for Mrs. Taylor's life centres around that kitchen. She has neither family nor friends. Her home is in the prison.

If you ask Mrs. Taylor how on earth two hundred and ninety pennies can cover a grown man's three "squares" seven days in the week, she discreetly refers you to Warden Johnson and Sheriff Knott, who order the food and spend the money. Her part, she says, only consists of "managing to get along."

"It isn't hard to cook for a lot of people," she added, cutting the frankfurters (Monday is frankfurter day at the jail) "if you have plenty of stuff, and they're not stingy with me here. I don't have to skimp, I wish I could hav a gas stove, though."

"No, I haven't any modern conveniences around my kitchen. I have to make the coal stove do every day, and you certainly have to wash that stone floor to keep it clean, but I don't find the cooking or the cleaning hard, not a bit of it, though I'm seventy-five."

You notice Mrs. Taylor still hasn't explained about that $2.90 and she won't. This is how Sheriff Knott says it is done.

The daily morning menu consists of cereals, coffee, bread and butter. At night the inmates get tea, bread and butter and prunes or apple sauce. The noon meal is the big meal of the day, and it proceeds according to generally unvaried schedule:

Monday — Frankforts, sauerkraut and potatoes.

Tuesday — Hamburger steak, potatoes and beans.

Wednesday—Goulash with beans.

Thursday — Corned beef and beans.

Friday—Pea soup, fish and macaroni.

Saturday—Beef and mutton stew.

Sunday—Roast beef and potatoes.

And we have it on the authority of Warden Johnson that the portions are a lot bigger than one gets in a restaurant.

Neither does the jail get its foodstuffs at low prices. The warden buys his provisions from stores in the neighborhood and pays for it the same price that every housewife on Ludlow street must pay.

RE ESTATE OF STEPHEN DARBY, DECEASED

Tenders for the purchase of the mineral claim, known at "The Canadian Queen" (Crown granted), Lot 3240, G.I. K.D., situate N. Fork Salmon River, will be received by me up to noon Thursday, the 11th day of September, 1919, he sum of $10 is due for taxes on same.

HANDICAPS in life's work or its pleasures caused by accidents or injuries, are now fast being overcome by scientific methods.

Many people, however, carry a handicap that is not the result of accident, but carelessness and neglect of eyes. These people wonder why they feel tired or nervous and have headaches. We make, fit and design glasses to overcome such troubles.

Learn to Dance Now

PROF. LEON B. HELMAN

Dancing Master, is in Nelson for four weeks to instruct the latest ballroom dances, and offers beginners the opportunity they have been waiting for to learn privately how to dance with that grace and ease which banishes all self-consciousness common to the novice on the floor. Private instruction eliminates the embarrassment of being observed by others while learning—makes teaching easier and ensures more finished results.

OUR LESSONS ARE STRICTLY PRIVATE

You will enjoy learning. We teach you the popular dances and make you proficient in the new steps after a few lessons. Every lesson will be pleasant and interesting.

IF you can dance, you should learn the latest dances, such as the American One Step, National Fox Trot, Cuban Waltz and other new dances.

FAIR SHOULD HAVE BIG HONEY SECTION

Generous Response Expected from the Beekeepers of Kootenay—Yield of Honey This Season Good

A large honey section at the fruit fair is looked for by Secretary George Horstead, who has just mailed copies of the prize list to 70 members of the Kootenay division of the British Columbia Beekeepers' association, with Revelstoke in the north, Grand Forks in the southwest, and Wymdel on the Crow, as the extreme points.

"W. J. Sheppard, director in charge of this section is now at the coast with the Kootenay honey exhibit," said Mr. Horstead yesterday, "but there is every indication of a big response from our beekeepers. Three factors enter into it. There are more persons in the industry than ever before, there has been an unusually fine yield of honey this season, and the prize list, with the trophy and silver and bronze medals, is unusually attractive."

CATHOLIC SCHOOL OPENS SESSIONS

Enrollment of Hundred and Seventy-five—New Building Only Partially Occupied as Yet

With the opening of the St. Joseph's Catholic school yesterday for the fall term, a marked increase in the number of students attending was noticed in some of the classes, the total enrollment being 175. The increase was principally in the kindergarten classes, the entrance class and the high school class. Two more teachers have been added to the staff, to cope with the larger number of students.

In the high school class 25 pupils reported yesterday compared with only 10 attending last year. There were 42 in the entrance class compared with 32 last year. In the first and second primer 40 pupils were registered; in the first and second reader there were 25 and in the third reader there were 36.

It is expected that these figures will be added to considerably by the end of this week.

Only two classes occupied the new school yesterday as the building was not quite ready for entire occupancy. The junior and senior entrance classes took their studies in the two large class rooms downstairs. The high school classes had to study in the parish hall.

PROPOSED NEW GAS RATES MADE PUBLIC

By-law Given Three Readings—Vote Money for Visit of Prince of Wales —Telephone Improvement.

The first step towards the proposed raise in the gas rates in Nelson was taken by the city council at its meeting last night when three readings were given the amendment to the gas bylaw. By the proposal the price for the first 3000 cubic feet of gas consumed in any one month will be $2.75 instead of $2.50 as at present. For the next 5000 cubic feet of gas consumed in any one month the rate will be $2.60 instead of $2.10. For all gas consumed in a month over 8000 cubic feet the rate will be $2.25 as compared with $1.85 as at present. Where gas is used as the sole agent for the heating of buildings the rate will be $1.70 instead of $1.40 as at present. No change is proposed in the rate of discount for prompt payment nor in the meter rental.

It was explained at the council meeting last night that if the proposals were carried out it would probably be a matter of four or five months before the new rates would be effective owing to the fact that the changes must receive the assent of the lieutenant governor in council. The new bylaw will receive its final reading at the next council meeting. The new proposals are fathered by Ald. C. F. McHardy.

The council last night decided it would go sponsor for one half the cost of preparing for the visit of the Prince of Wales to the city, that amount not to exceed $500. Rev. J. P. Westman addressed the meeting on behalf of the entertainment committee.

A communication and plan from the superintendent of construction for the B. C. Telephone Company dealing with a proposed pole line in the Silica street lane from Kootenay to Hall street was referred to the city electrician for investigation and report.

The city electrician was authorized to make expenditures to the extent of $300 in connection with lighting at the fall fair.

A request from Walter Poole to thin out poplar trees in the city park was referred to the parks committee, with power to act. During the discussion it was pointed out by several of the aldermen that steps should be taken to prevent the cutting down and destruction of shade trees on city property.

Ald. I. A. Austin occupied the mayoral chair last night in the absence of Mayor McDonald. Others present were Ald. W. O. Rose, Ald. L. H. Choquette, Ald. C. F. McHardy and Ald. R. Andrew.

A mail boy said it was impossible to judge the effect of a slipper by its size.

SHORT COURSES FOR SOLDIER-FARMERS

University of British Columbia to Assist Settlers at Their Homes.

It is the intention of the University of British Columbia, department of agriculture, to carry out a series of short courses throughout the province during the coming winter, with the cooperation of the soldier settlement board. These courses will do a double service in reaching the ordinary farmer, and at the same time our returned soldier settlers. It is planned to have these courses at various points upon the request of the local offices, under whose management all arrangements will be made.

In order to determine as to the advisability of various points in the East and West Kootenays where courses might be arranged for, Capt. W. A. Townsley, field supervisor of the board at Nelson, is arranging a special tour of the Kootenays for this purpose, and has made a request that any of the local farmers and soldier settlers in the district who would be interested in a course of instruction during the winter months, will communicate with the Nelson office.
