Berenbruck Defends William

PREMIER SAYS HE STAYS

Netherlands to Grant the Right of Sanctuary

(By Daily News Leased Wire.)

THE HAGUE, Dec. 11.—The former German emperor is entitled to the right of sanctuary in Holland and, therefore his return to Germany cannot be demanded according to a statement made today by Jonkherr Berenbruck in the lower chamber of parliament, during a deliberation on the visit of the former emperor to Holland.

The premier said the government would have preferred that the former emperor had not chosen Holland as a refuge, but that he came as a private citizen after renouncing his throne, without direct or indirect notification of his intended arrival. After renunciation of his throne, there could not be a question of internment nor could the former emperor's return to Germany be demanded in view of the immortal tradition of the right of sanctuary. The Netherlands government could adopt no line of conduct but that of granting "the right of sanctuary" and accepting it as a fact accomplished.

The government, the premier continued, must repudiate every effort to see in this step an unneutral attitude. Nevertheless, he said, the once emperor of Germany's stay in Holland was only regarded as temporary.

Up to the present no power had protested against his visit, but any eventual demand for extradition must pass the test of law and of treaty. The government, the premier, concluded, would not allow the former emperor to exercise any influence in another country.

William Hohenzollern crossed the Dutch frontier from Germany on Nov. 10. His formally issued notice of abdication was "made and executed and signed by our own hand with the imperial seal at Amerongen, Nov. 28. Amerongen is in Holland and therefore the former emperor had been in that country 19 days when he formally laid down the sceptre and relinquished the throne.

LABORERS VOTE IN CHEMNITZ

Capitalists Do Not Fill Out Single Ticket, Says Despatch from Berlin .

(By Daily News Leased Wire.)

BERLIN, Tuesday, Dec. 10.—By the Associated Press.—At Chemnitz, the people speak plainly, says the Vorwaerts, commenting on the result of the elections in Chemnitz to the soldiers' and workmen's council there, the Majority Socialists having polled 78,000 votes against 6600 by the Independent Socialists; in Dresden the old party polled 117,566 votes as compared with 8440 for the independents.

Vorwaerts points out that not a single vote by a capitalist was polled, the only votes being those of laborers.

The Vossische Zeitung declares that the result in Chemnitz "shows that the spartus group have no footing among the people."

An article in the Vorwaerts attacks Adolph Hoffmann, one of its former editors, and an independent socialist, for voicing a threat to disperse the national assembly when it is called. The newspaper believes it will be impossible for the bourgeoise to secure a majority in the election. If such happens, it says, then it will be an expression of the will of the people to combat which we would not choose the Russian method of dispersing the assembly, but would employ the Social Democratic method of enlightenment.

WINNIPEG, Dec. 11.—Four deaths from influenza and 109 new cases were reported to the local health authorities today.

WILL RETURN SOLDIERS UNDER NEW REGULATIONS

(By Daily News Leased Wire.)

OTTAWA, Dec. 11.—A new system of returning soldier to their homes in Canada, which will, it is hoped, eliminate the delays and difficulties met with, has been adopted by the militia department and will be in operation early in the new year. Under the system at present in operation soldiers are landed in Canada and immediately on landing if they so desire are given two weeks' furlough. The department in response to popular demand had made it a point to allow the men to return to their homes providing the money and railway transportation but it was necessary at the expiration of the furlough for the men to report at headquarters of their dispersal area for medical examination before being discharged. This system has caused a great deal of delay after the troops arrived in Canada because of the clerical work involved in giving the men their documents, tickets, etc., before they went on furlough.

Effective Soon.

The new system, which will be set in operation as soon as the necessary machinery can be established in England, provides for the issuing of all papers before the men set sail for Canada. Before leaving the old country, all soldiers will have to go before a medical board for examination, after which their discharge will be made out. This discharge, along with pay checks and other necessary documents will be placed in an envelope which will be given to the soldier. On arriving in Canada the men will be given no furlough. They will be disembarked from the vessel upon which they crossed and forwarded without delay to troop trains in batches of 500.

Twenty-one dispersal areas covering the Dominion, have been created by the militia department and in each of these areas an important centre has been chosen for a dispersal station—the soldier may proceed to the station which is nearest his home and he will be given no leave until he arrives at the dispersal station. On arriving there the envelope containing his discharge and other documents will be opened by the dispersal officer in charge and he will be discharged if everything is in order. This system will simplify the work of handling the men on this side of the water and will enable the railway and militia department to take care of them in a more satisfactory manner, from the time they arrive in Canada until they reach their homes.

Notifications.

The problem of sending notifications of the arrival of soldiers is engaging the attention of the militia authorities and it may be solved in the near future. It has thus far proved extremely difficult to make sure of getting notification of the arrival of trains through in a satisfactory manner. The new system of sending the men to their dispersal stations in batches of 500 and allowing none of them furloughs before their discharge, may help in the solution of this problem.

Saskatchewan Legislators Hold Brief Session—Corporations Must Pay More Taxes—Amendments

(By Daily News Leased Wire.)

REGINA, Sask., Dec. 11.—Forty minutes saw the legislature assemble and rise today when a number of bills were given first reading and notices of several bills were given.

A report of the special committee to assist Mr. Speaker in revising the rules of the house to simplify procedure in dealing with bills of a financial nature was approved. After the present session financial clauses in bills will be Italicized, following the English procedure.

In order to supplement the revenues of the province considerable increases are provided for in the taxes to be paid by corporations, in a bill which was given its first reading in the legislature today. Banks, insurance, trust and express companies are probably affected by substantial advances in taxes over those at present eligible. Other bills given a first reading included the following:

A bill to amend the Drainage act is a consolidation and gives wider powers than under the old Ditches act.

The bill amending the Highways act makes minor changes respecting dates of applications for automobile license grants.

Municipalities failing to report by June 1 will lose the grant for that year. The bills respecting Masters and Servants act, Chattel Mortgage act, and the law of Landlord and Tenant codifies the law and in respect to the latter puts on the statute books the common law regarding the relations between landlord and tenant.

New schedules of fees payable for distress and extra judicial seizure are provided for in another bill which received its first reading today.

A bill to amend the Legislature Assembly act, read a first time yesterday, provides that nothing contained in the act shall be held to vacate the seat in the legislature of a member who, having served overseas during the present war in the military forces of the empire, becomes a member of the legislative council.

The bill to amend the Theatres and Cinematographs act provides that the lieutenant-governor-in-council shall have power to make regulations for licensing in the use and operation of cinemetographs,, defining film exchanges, regulating the exhibition of pictures, providing for the seizure of films not sanctioned by the censors and for prescribing the terms and conditions under which machines shall be operated and films sold, leased or exchanged.

CHARLES PEASE TO HEAD FLEET CORPORATION

OUST FOE MEN ELECTION CRY

War Questions Appear to Be of Most Interest to British Electors.

(By Daily News Leased Wire.)

LONDON, Dec. 11—(Canadian Press Despatch via Reuter's, Limited)—The election campaign is generally keener with the near approach of elecmtion day. The subjects which most interest the electors are: Who is going to pay for the war? Will conscription be abolished? Will the kaiser and the crown prince be tried for their crimes? Will the perpetrators of tortures on prisoners be brought to justice?

There is a deep feeling that Germany should be made to pay to her utmost capacity the costs of the war, while the feeling is, if possible, even stronger on the point of bringing the German war criminals to trial and ousting the enemy aliens from Great Britain.

Of the non-coalitionist parties, Labor is making the biggest effort and probably is the most enthusiastically supported. It possesses no papers, but is making effective use of the substantial space placed at its disposal by the Daily News, the Daily Mail, the Evening News and the Star. It alleges today that the coalitionist assurance that conscription shall cease is hypocritical and it also maintains that the private capitalist system has broken down under the strain of the war and cites the recent statement of Andrew Bonar Law in the commons that state control of railways saved the country many millions, as an argument in favor of national ownership and control of industry. It can scarcely be said that the election has hitherto caused much excitement. Indeed, there is a good deal of apathy. A feature of the election meetings in London constituencies is the smallness of the attendance. As regards the result, election experts continue to predict a substantial coalitionist majority.

WEAVER LOPER IS PARDONED

Mining Broker Under Sentence of One to Ten Years Seriously ill.

(By Daily News Leased Wire.)

SPPOKANE, Wash., Dec. 11.—G. Weaver Loper, a mining broker under sentence of one to 10 years in the state penitentiary for alleged overissuance of stock in the Lucky Jim Zinc Mines, Limited, of Victoria, B.C., was pardoned today by Governor Lister. Loper, who was confined in the county jail here pending removal to the penitentiary, recently suffered a stroke of paralysis and his condition is declared to be grave.

WASHINGTON, Dec. 11.—Abandonment of 19 war projects, including a number of nitrate and other chemical plants, was announced today by the war department.

SHOT 12 SPIES IN TOWER OF LONDON

No Women Were Put to Death By the British During the War

(By Daily News Leased Wire.)

LONDON, Dec. 11, (British wireless service).—During the war 12 spies were shot in the tower of London, according to a report now current. Hans Lodi, alias Charle Ainglis, who at one time was a resident of Omaha, Neb., was the first to be executed. Two women spies were sentenced to death, but both were reprieved, the sentences being commuted to long prison terms. One of the women, Lizzie Werth, regarded as very dangerous, was tried in company with a man named Rowlands. Rowlands was executed. The couple made four journeys between London and Scotland and obtained information regarding the movments of the British fleet. This information, however, it is declared, never reached Germany.

The other woman spy was Eva De Bournouville, now undergoing penal servitude for life. One spy hanged himself in Brixton prison, while may others convicted of espionage escaped the extreme penalty.

CITY MAY TAKE OVER PRINCE RUPERT HOSPITAL

(By Daily News Leased Wire.)

PRINCE RUPERT, B.C., Dec. 11.—A movement for the taking over of the Prince Rupert hospital by the city has begun with a recommendation that the staff be managed by a board of five directors to be elected by the citizens. Miss Carmichael, matron for the last 12 months, has resigned.

JOHNSON IS COMMISSIONER

W. C. Findlay, Prohibition Executive, Relieved of Office on Representation of Hon. J. W. deB. Farris

(By Daily News Leased Wire.)

VICTORIA, B. C., Dec. 11.—On representations made by Hon. J. W. deB. Farris, attorney-general, to the provincial executive council this morning, W. C. Findlay, prohibition commissioner, was relieved of his office and in his stead Deputy Attorney General A. M. Johnson was formally appointed commissioner.

It is stated that the government has reason to believe that a recently imported carload of rye whisky failed to reach the government store and the department of the attorney-general is conducting investigations in relation thereto.

Warrant Issued.

A warrant has been issued for the arrest of W. C. Findley, the charge against him being that of illegally importing liquor into the province. The charge is based on the federal order in council which prohibits importations from one province to another. The provincial government has information which shows a recently imported car of rye whisky failed to reach the government store.

Deputy Attorney General A. M. Johnson has been appointed acting prohibition commissioner pending a successor to Mr. Findley being chosen.

Is In Vancouver.

VANCOUVER, Dec. 11.—Former Prohibition Commissioner W. C. Findlay, for whom a warrant of arrest was issued today, arrived in Vancouver at a late hour tonight in custody of a Blaine police officer, who took him in charge at the international boundary line there, on the United States side and taken to city police headquarters here. At police headquarters it was said there was no warrant there for his arrest and in company with other officers he left for provincial police headquarters.

BRUSSELS WILL NOT TOLERATE HUN GOODS

(By Daily News Leased Wire.)

BRUSSELS, Dec. 11.—The board of aldermen today approved a motion to insert in city contracts a clause barring the use of any product of German origin. For infraction of the new law, the holder of the contract may be fined one-quarter of the total amount involved.

The aldermen also recommended that the city services should not ask estimates for work from citizens of enemy countries or from persons who have worked for, or dealt with the enemy.

TOO MUCH EFFICIENCY, SAYS HUN MINISTER

(By Daily News Leased Wire.)

COPENHAGEN, Dec. 11.—Dr. Schiffer, the German finanemе minister, in a statement issued in Berlin, says that if peace had actually come this fall, the amount of money required from imperial taxes for the coming year would have reached 14,000,000,000 marks and that the taxation from the various states would have totaled 5,-000,000,000 marks.

These calculations, however, he said, have been upset by recent events.

"If we continue as we have been going, ruin is inevitable," the finance minister declared. "We squander money on irrelevant details of state administration. There is lack of employment and, consequently, our credit at home and abroad is failing. A new bill for war taxation will be introduced at once and will be retroactive as far back as 1914."

WOULDN'T WEAR UNIFORM GETS 40 YEAR SENTENCE

(By Daily News Leased Wire.)

CAMP DIX, N.J., Dec. 11.—Pte. Isadore Curzon of Philadelphia, who deserted from here and when recaptured refused to put on a uniform, was today sentenced by court martial to 40 years imprisonment with hard labor at Fort Jay, Ky. The sentence, approved by Maj.-Gen. Hugh L. Scott, is the longest ever imposed here.

J. H. BRODIE DEAD.

(By Daily News Leased Wire.)

Mr. Brodie was for many years a director on the board of the Bank of British North America, in London.

AUSTRALIA TO ACT CAREFULLY

Return to Peace Conditions Will be Brought About Without Hurry Says Acting Premier

(By Daily News Leased Wire.)

MELBOURNE, Australia, Dec. 11.—Australia will alter the war functions of her government gradually, permitting an unhurried return to peace conditions, according to an official statement made by Acting Premier Watt. Mr. Watt, in the course of an announcement to the federal parliament, said he agreed with the view that it was not a sound policy in normal or peace times to allow the executive to usurp the functions of the legislature. He said that all were desirous of returning to the constitutional form of government.

Some of the responsibilities and powers of the executive, which had grown under the War Precautions act, he pointed out, could not suddenly be terminated without tremendous danger. As instance of this he dwelt on phases of the moratorium and the control of wheat, butter, cheese, sugar, wool and other commodities. Regarding the censorship, he said that it must still be enforced to prevent ill-considered publications of news likely to injure the returns between Great Britain and the allies during the peace conference and utterances calculated to injure Australian finances. In reference to other executive powers, such as the control of aliens and interns, these must be maintained, Mr. Watt said, until the peace terms were settled. The ministry could not say how long these powers would be retained, but it was prepared to assure the commonwealth that no power would be used for politics. The censorship would be removed gradually.

Mr. Watt's statement was well received by both sides of the house.

WANTS DOCK AT STEWART; GOOD MINES THERE

(By Daily News Leased Wire.)

PRINCE RUPERT, B.C., Dec. 11.—Immediate construction of a dock at Stewart is urged in a resolution made to the board of trade by George Clothier, resident mining engineer for this district, who says that the district at the head of Portland canal is destined to become one of the most active and permanent mining areas in British Columbia.

VANCOUVER WIRE PLANT BURNS; $150,000 LOSS

(By Daily News Leased Wire.)

VANCOUVER, B.C., Dec. 11.—Fire wiped out the extensive nail and wire plant of the Morrison Steel & Wire company tonight, with a loss, estimated by F. Wilkinson, one of the owners, at $150,000. The place was fully insured, according to Wilkinson.

WHOLE WEALTH OF GERMANY NOT ENOUGH TO PAY ALLIES, SAYS PREMIER LLOYD GEORGE

British Statesman in Speech Recalls and Explains Why He Said That Germany Should Pay to "Limit of Capacity"---Empire Navy Must Not Be Given Up ---Conscription Should Go

(By Daily News Leased Wire.)

BRISTOL, Dec. 11.—The war bill of the allies against Germany is £24,000,-000,000, according to the British premier, David Lloyd George, who presented this and other interesting facts before a large gathering here today. The cost of the war to Great Britain was £8,000,000,000.

Before the war the estimated wealth of Germany, said the premier, was between 15 and 20 billion pounds sterling.. So if the whole wealth of Germany were taken, there would not be enough to pay the account. Therefore, he had used the words: "Germany should pay to the utmost limit of her capacity.

When the prime minister was addressing an overflow meeting he said Great Britain would be guilty of a great folly if she gave up her navy.

A voice interrupted, "Then watch Wilson."

The premier replied: "Well, I hope to see him in a fortnight. I will tell him what you said."

"Wherever the request comes from, we are not going to give up the protection of our navy so far as Great Britain is concerned."

Speaks at Bristol.

Premier Lloyd George, speaking today at Bristol, said the English Military Service act was passed in order to meet a great emergency. When that emergency was passed the need was passed and the act would lapse. He added there was no intention to renew it. Whether Great Britain would require conscription in the future in any shape or form, he said, depended not upon the opinion which he now expressed, but upon the peace terms which were made. Continuing, the premier said: "What drove us to conscription was the existence of conscript armies on the continent that inevitably rushed the world into war. They could not have great military machines there without tempting the men at the head of them to try their luck with those machines. The Germans always felt there was nothing to resist their perfect military machine.

"If you want a permanent peace; if you want to prevent the horrors of this war being repeated, you must put an end to constreption on the continent of Europe. The first thing to do is to prevent the repetition of blunders of the past, by making it impossible to have those great conscript armies in the future.

Defensive Navy.

"We did not have the machinery for an offensive war. Our navy is a defensive weapon and not an offensive one; and that is why we do not mean to give it up. We have kept these islands free from invasion for centuries and we mean to take no risks in the future." Mr. Lloyd George declared the decisions taken in the next few months in the peace conference was going to leave a mark upon the world. The ages to come, he said, would be able to reap the fruits of it.

The premier next dealt with the question of indemnity. He declared the war had cost Germany less than it had cost Great Britain. It had cost Great Britain, he declared, £8,000,-000,000, a gigantic sum. The German bill, he believed was £6,000,000,000 or £7,000,000,000. He contended it was indefensible that the person who was in the wrong and had lost should pay less than the person who was in the right and had won.

Committee's Report.

The premier said a British imperial commission had been appointed to investigate the capacity of Germany "to pay" and that he had received its report. He summarized his remarks on this point as follows:

"First, as far as justice is concerned, we have a right to take the whole cost of the war from Germany.

"Second, we propose to demand the whole cost of the war from Germany.

"Third, when you come to the exacting of it, we must exact it in such a way that it does not do more harm to the country that receives than the country that is paying it.

"Fourth, the committee appointed by the British cabinet believes that that can be done.

"Fifth, the allies are in exactly the same boat. We shall put in our demands all together and whatever they are they must come in front of the German war debt."

The premier continued:

"The first consideration in the minds of the allies will be the interests of the people upon whom the Germans have made war and not in the interests of the German people who have made war and have been guilty of that crime."

Give Kaiser Trial.

With regard to the former German emperor, the premier said:

"There is absolutely no doubt that he has committed a crime against international rights and there is absolutely no doubt that he ought to be held responsible for it so far as the European allies are concerned."

The premier said he hoped that America would take the same view when President Wilson arrived as to the demand put forward on the part of the European allies "to make the kaiser and his accomplices responsible for this terrible crime."

Referring to a letter said to have been written by a British general to a French general in which the British officer was quoted as saying it was proposed to establish a British national army of 20 divisions based on conscription, but that "the cabinet would not touch this until after the election and then not until this league of nations nonsense had been discussed at the peace conference," Premier Lloyd George declared:

"The cabinet never heard of the scheme. So far as the cabinet is concerned, it is purely an expression of opinion of some general."

WOULD BONUS WAR VETERANS

Provincial Members Say Supplement Existing Pensions to Returned Soldiers—Telegraph Burrell.

(By Daily News Leased Wire.)

VICTORIA, B. C., Dec. 11.—The necessity of supplementing existing pensions to returned soldiers with an immediate war bonus to be made retroactive to the time of the last increase of separation allowance with particular reference to widows and dependents of men who have given their lives, was the unanimous decision of the British Columbia members of parliament today. Demobilization and pensions were the chief topics discussed. The opinion of the conference on pensions has been telegraphed to Hon. Martin Burrell. On the question of demobilization the government will be asked to retain the men in service with the usual pay and allowance until such time as they can be properly reabsorbed into civil life. The conference also concluded there should be provisions made immediately for some definite authority in each province to deal with the returned soldiers' problems and with power to act. The conference felt that there was a lack of information and guidance for the returned men and it was most desirable there should be the fullest cooperation between them and the governments in solving their problems.

MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If Tongue is Coated, Breath Bad, Stomach Sour, Clean Liver and Bowels.

Give "California Syrup of Figs" at *once—a teaspoonful today often saves* a sick child tomorrow.

If your little one is out of sorts, half-sick, isn't resting, eating and acting naturally—look, mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative" because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

CALGARY CITY MAY CALL FOR MASKS

(By Daily News Leased Wire.)

CALGARY, Dec. 11.—Twenty new cases of influenza were reported this morning with the same number on Tuesday. A special meeting of the board of health was held this afternoon to consider the situation. It was decided that while the outlook was not serious at present, precautions be taken by securing a building for a temporary hospital and fitting it up to receive any special cases. The question of closing the schools and other public places was discussed, but it was decided to take no immediate action. It is likely the mask order will be the first move of the health officer.

Four deaths from the disease were reported today.

WOULD POOL VOTES OF ALL LABOR UNIONS

(By Daily News Leased Wire.)

WINNIPEG, Dec. 11.—At the regular meeting of the trades and labor council tonight the following resolution was adopted:

"Whereas in the past individual unions must have a majority vote in favor of a strike before going out on strike, be it resolved that in future votes of the unions be pooled and that a clear majority of the whole be sufficient to call a general strike."

A copy of this resolution was sent to every union affiliated with the council.

WANTS FREE MEDICAL ATTENTION FOR PUPILS

(By Daily News Leased Wire.)

REGINA, Sask., Dec. 11.—Labor will ask the Saskatchewan legislature to pass legislation for free medical and dental inspection in the schools, the expense to be raised by the levying of a tax similar to the patriotic fund tax. The conference between labor and the government will take place on Friday. Questions of interest to be discussed include demobilization, the attitude of labor being, it is said, against the dumping of too many men seeking employment.

FOOD BOARD ARRANGES FOR 25,000 TONS MEAL

(By Daily News Leased Wire.)

OTTAWA, Dec. 11.—The Canada food board has arranged for an allotment of 25,000 tons of cotton seed meal from the United States to relieve the feed shortage. Allocation has been placed in the hands of the feed division, livestock branch, department of agriculture, and prospective purchasers must make application direct to that department, which has been empowered to purchase and to distribute this allotment.

WINNIPEG PROTESTS $15,000 GRANT TO NAVY LEAGUE

(By Daily News Leased Wire.)

WINNIPEG, Dec. 11—Property owners of this city, represented chiefly by members of the new Building Owners' association, will move immediately for an injunction to prevent the city of Winnipeg from paying over the grant of $15,000 voted to the Navy league on Monday evening by the city council for dependents of the deceased members of the mercantile marine.

WASHINGTON, Dec. 11.—Many appeals for government relief are reaching the senate mines committee from western producers of chrome, manganese and tungsten, who say that in response to the government's appeal they invested large amounts of money to increase the production and now find themselves unable to dispose of their stock.

SEATTLE MORE OPTIMISTIC; 415 NEW FLU CASES

(By Daily News Leased Wire.)

SEATTLE, Wash., Dec. 11.—Reports of only 415 new cases of Spanish influenza today led health authorities to hope that the peak of the second epidemic of the disease had passed. There were 21 deaths from pneumonia following influenza reported.

MINE WORKERS' VOTE NOW COMING IN

(By Daily News Leased Wire.)

INDIANAPOLIS, Ind., Dec. 11.—Scottering returns from the biennial election of international officers of the United Mine Workers of America, held last Tuesday, arrived at the headquarters here today showed Frank J. Hayes leading John H. Walker for president.

According to a statement given out at readquarters, the complete returns probably will not be received for a month, as each of the 4000 locals counts its own vote before making a report.

The few returns reported sho John Lewis for vice-president, William Green for secretary-treasurer, leading. Both sought reelection.

DEPRECIATES HEATING QUALITIES OF ELECTRICITY

(By Daily News Leased Wire.)

BOISE, Idaho, Dec. 11.—Electricity for heating purposes, even where there is plenty of water power, is not feasible, experts of leading power companies testified before the Idaho public utilities commission here today. Transmission difficult would present the principal obstacle, it was said.

"Electric heating is from an economic standpoint, a sort of alchemist's dream," declared Dr. Joseph H. Merrill, dean of electrical engineering of the University of Utah, a witness.

Experts from 11 northwestern power companies have been ordered to appear for the hearing, which is the first of its kind ever held in the United States. Upon the outcome will depend the decision of the utilities commission as to whether the companies operating in this state will be requested to furnish electricity for heating purposes to Idaho towns.

SIX DEAD; 30 HURT, IN WARSHIP EXPLOSION

(By Daily News Leased Wire.)

WASHINGTON, Dec. 11.—Six men of the crew are dead and 30 others more or less seriously injured as the result of an explosion of coal dust on the armored cruiser Brooklyn at Yokahama last Monday. The navy department's announcement said the Brooklyn was not damaged and that a court of inquiry had been called to investigate the explosion. The Brooklyn has been stationed at Vladivostok since the American expeditionary force landed in Siberia.

FIRE BREAKS OUT IN BUTTE COPPER MINES

(By Daily News Leased Wire.)

BUTTE, Mont., Dec. 11.—Fire broke out at 7 o'clock this evening in the Neversweat mine of the Anaconda Copper Mining company and it is believed has spread to the Anaconda mine. The blaze is on the 700-foot level. John Gillie, manager of mines of the Anaconda Copper Mining company, said tonight that all men had been gotten out of both of these properties and that there would be no loss of life. The Anaconda and Neversweat each hoist approximately 600 tons daily. Both mines will be down for several days.

CROWN PRINCE OF BAVARIA TRIES TO REGAIN POWER

(By Daily News Leased Wire.)

PARIS, Dec. 11.—A despatch to the Temps from its Geneva correspondent says that a German newspaper announces that Crown Prince Rupprecht of Bavaria, accompanied by several high personages of the former Bavarian kingdom, are now at Cerre, in the canton of Grisons. The newspeper, the correspondent adds, says Rupprecht is preparing to attempt the restoration of the house of Wittelsbach, the ruling house of Bavaria.

BARGE WHISTLE CALLS BIRDS TO DINNER

A striking example of wild bird intelligence has been observed on the Panama canal in connection with the underwater blasting that is carried on there. A barge has been especially equipped for drilling blast holes below the water and depositing charges in them. When a blast is ready the craft moves off to a safe distance and before setting off the dynamite the barge whistle is blown several times to warn all vessels in the vicinity. Instantly numbers of wild birds may be seen coming from all directions, says Popular Mechanics magazine, the reason being they have learned that many dead and stunned fish rise to the surface of the water following each explosion. To them this particular whistle is like a dinner gong. More remarkable still, they readily distinguish between this whistle and others. Canal workmen and natives also share in the harvest.

THE VOICE OF THE KHAKI DEAD

The guns are hushed in Flanders,
Their foour years' hymn is o'er;
The shriek of the leaden bullet
Is heard in the land no more.

There's a hush on the field of carnage
Where the earth is dies with red
And a dirge is wafted upward—
'Tis the voice of the khaki dead.

The guns are hushed in Flanders,
Their brazen voice is still,
No more the roar of cannon
Echoes from hill to hill;
But out of the hush of victory,
Solemn and grave and dread,
There issues the dirge heroic—
The voice of the Khaki Dead.

'E crucified my pal out there.
And 'e calls me Kamerad.
You lowdown, sneakin', 'opund of 'ell,
I've seen the work you do so well,
Don't call me Kamerad.
You, wot shells a helpless crew,
Wot rapes and murders women, too,
A blasted bluebeard through and through,
And you calls me Kamerad.
You bloomin', bleedin', blinkin' 'un,
After wot you've been and done,
Don't call me Kamerad.

Agreeable Surprise

The traffic officer raised his hand and the motorist pulled up abruptly.

"Just a minute," he said. "Ugh, Could I sell you a ticket to the policemen's picnic?"

There was a long pause, and then: "Well, I should say you could," chirped the motorist. "I thought I was pinched!"—Judge.

WORK ON IDEA OF TRANS-OCEAN AIR SERVICE

(By Daily News Leased Wire.)

LONDON, Dec. 11.—Immediate commencement of preliminary work looking toward aerial transport communication between the United Kingdom and the British dominions throughout the world is urged in the report of the civil aerial transport committee of the air board. The report says inquiries should be made regarding routes, airplanes, landing grounds and airdromes.

It is emphasized in the report that parliamentary discussions with the dominions and the allied countries on broad questions of principle is necessary. The report adds that full powers to regulate aerial transport should be given the air ministry. In dealing with overseas traffic, the committee points out that the dominions and India owing to their great areas, offer a fruitful field for the development of civil aeronautics.

U. S. DOCTOR SAYS WATCH FOR FRESH OUTBREAK

(By Daily News Leased Wire.)

WASHINGTON, Dec. 11.—Warning the country that the influenza epidemic is by no means ended, and that all possible precautions against the disease should be taken was issued tonight by Surgeon Blue of the public health service.

Reports received by the service showed recurrence of the disease practically from one end of the continent to the other and in his statement Dr. Blue advised the closing of public schools on the first sign of the reappearance of the epidemic. He said the disease apparently now tended to occur more frequently among school children.

PRUSSIANS REFUSE TO DISARM IN BERLIN

COPENHAGEN, Dec. 11—The Prussian Guard entered Berlin Tuesday and was welcomed by thousands of people. Outside the city the guard was stopped by representatives of the Independent Socialists who vainly invited the troops to disarm.

Commenting on this incident one paper says that the guard thereby pledged itself to the disposal of the counter revolution.

JAPANESE VINE GROWS 40 FEET HIGH

Why is it that one so seldom sees the chaste Japanese moon vine? On account of their rapid growth and luxurious foliage, these plants make an effective curtain for a veranda, when planted in a row. Though but annuals, during the summer they will climb as high as 40 feet, if assisted with string ladders.

The big heart-shaped leaves form a soft background for the lovely, pure white disks that open their perfumed corollas only after the dew has fallen and twilight has wrapped everything around in a purple mist. Then, like tiny moons from behind the clouds, they silently disappear. But if one is standing very near, he can hear faintly the silken snap made by the opening of the stick little umbrellas Then the cool night breeze stirs up the delicate fragrance carrying it out over the lawn for a considerable distance. Like their small cousins, the morning glories the tender blossoms will not bear the full glare of the sun, for they droop and wilt. The vine blooms prolifically, however, and there are always fresh flowers to take their places the next night.

Answered Promptly

During the concert tour of the late Theodore Thomas and his celebrated orchestra one of the musicians died, and the following telegram was dispatched to his relatives:

"John Blank died suddenly today. Advise by wire as to disposition."

In a few hours the answer was received:

MUNITIONS BOARD THANKS SMELTER

Sir Joseph Flavelle Sends Letter to Consolidated Company—Pleased with War Effort.

On behalf of the imperial munitions board, the representative of the British war office in Canada, Sir Joseph Flavelle, has written to the Consolidated Mining & Smelting company at Trail, expressing thanks to the company and its staff and all other employees of the smelter and mines for their work in supplying metals for the carrying on of the war. Sir Joseph's letter states:

"I have to confirm the terms of telegram sent you under date of Nov. 11 with regard to the cessation of munitions production, of which copy is attached.

"In giving you this notice, as directed by the ministry of munitions, I have to thank you on behalf of the ministry and the imperial munitions board for the cooperation and assistance which you have given in the all-important work of producing munitions, a full supply of which was absolutely essential to the successful carrying on of the war which has now been so gloriously and so happily terminated. Canada has as much reason to feel proud of her accomplishment in this direction as of her splendid military effort. Both were necessary and though the first place of honor belongs to the soldiers, the workers who have supplied them with the material of victory have shared the same inspiration and may share the same consciousness of having played their part.

"I will be glad if you will as far as possible communicate this expression of thanks on the part of the ministry and the board to the whole of your staff and of your employees for whom they are equally intended."

TRADING QUIET AT NEW YORK

Oils, Motors and Specialties, However, Make Gains During Day—Steel Is Steady.

(By Daily News Leased Wire.)

NEW YORK, Dec. 11.—Aside from oils, motors and other speculative specialties, which registered gross gains of 2 to 6 points, today's stock market represented no feature of interest. Trading was light, easier money conditions failing to stimulate public support.

The petroleum group contributed far more than its usual quota, Mexican recording a gross gain of 8 points, after an early setback, while Royal Dutch, Texas company and Pan-American common and preferred made extreme advances of 2 to 4 points.

United States Steel and associated issues were steady to firm during the early period but fell back later. Rails were apathetic throughout, even the secondary or low priced shares of that division evincing none of their recent activity or strength. Shippings rose and fell within narrow bounds, advices from London anent the American Mercantile Marine deal occasioning more restraint.

Motors were very irregular, mainly in consequence of the uncertain movement of Studebaker, which suffered from further selling pressure in connection with the company's proposed financing.

Metals, tobaccos and the distilling issues lacked definite tendencies on greatly reduced operations. Total sales amounted to 540,000 shares.

Dealings in bonds were without special feature. Both domestic and foreign issues showed moderate irregularity. Liberty bonds eased again but held heavy above recent low records. Total sales, par value, aggregated $9,560,000. Old United States bonds unchanged on call.

CORN PRICES UP.

(By Daily News Leased Wire.)

CHICAGO, Ill., Dec. 11.—Corn advanced in value today on the correct assumption that a cut in the government estimate of the 1918 yield might be made. The market closed firm, ¾ to ¾ cents net higher, with January at $131⅞ to $132 and May at $1.30⅝ to ½. Oats finished ⅛ cent off to ⅜ cent up and provisions varied from 12½ cents decline to 10 cents advance.

NEW YORK, Dec. 11.—The New York coffee and sugar exchange which was closed to trading in futures Oct. 1 by the food administration, will be reopened for that purpose on Dec. 26.

MARKET TONE STRONG ON MONTREAL EXCHANGE

(By Daily News Leased Wire.)

MONTREAL, Dec. 11.—Although movements in specialties displayed a good deal of irregularity, the general tone of the Canadian stock market was strong today under the leadership of steel and paper stocks.

Laurentide Paper became the outstanding feature of the trading as a result of the action of the directors in increasing the dividend from a 10 to 12 per cent basis. This stock, which had been selling around 178 on the eve of the announcement during the morning, rose rapidly to 182¾ and held a net gain of 4 points at 182 in the final transactions

Spanish River issues also showed strength, the preferred finishing with a net gain of 4 points at 61, following a rapid rise to 62, while the common closed a small fraction up at 17½.

Dominion Iron rose ⅞ to 63⅛, and Steel of Canada 1½ points to 65¼. Iron receded to the opening level of 62½ leaving a gain of only ½ point. At 64½ Steel of Canada retained a net gain of ¾. Stocks associated with the steels were variable, Car common finishing point higher at 35, while Cement at 63 and Locomotive at 64 were down 2 points for the day.

Milling shares were variable, Ogilvie Milling ruling strong at 200 bid, while Maple Leaf receded 1 point to 133, and Lake of the Woods 2 points to 152.

Other changes included a 2-point decline in Asbestos, which sold at 38, a 2 point decline in Price Brothers at 147½ and a 3-point advance in Canners at 85.

In the bank list, Union was a feature, with sales at 160, a rise of 6½ from last board lot transaction and 2 points above the quotation for broken lots.

The third war loan held firm at 96¾ but the first was under some pressure, relapsing 1½ points on sales of $24,100, par value.

Sales: Shares, 8244; bonds, $24,100.

LIVESTOCK MARKETS.

(By Daily News Leased Wire.)

Butcher steers, 7 to 15.50; heifers, 7 to 12; cows, 5 to 10.25; bulls, 4.50 to 7; oxen, 4.50 to 7; stockers and feeders, 6 to 10.75; veal calves, 5.50 to 9.50.

Sheep, 10 to 11; lambs, 14 to 1450.

Hogs: Selects, 17.75; sows and heavies, 11.50 to 13.75; stags, 10 to 12; lights, 14.

Chicago.

CHICAGO, Ill., Dec. 11.—Hogs: Receipts, 31,000; market mostly 10 cents higher; closing weak, with part of advance lost; butchers, 17.50 to 17.75; light, 17 to 17.60; packers, 16.60 to 17.40; throwouts, 16 to 16.50; pigs, good to choice, 14.25 to 15.50.

Cattle: Receipts, 14,000; good beef steers, canners and calves strong to higher; other classes steady; one load of extra fine Christmas beeves, 20.50, a new record; beef cattle, good, choice and prime, 15 to 19.50; common and medium, 9.25 to 15.

Sheep: Receipts, 15,000; market steady.

TRADING AT TORONTO TENDS TO BE SRONGER

(By Daily News Leased Wire.)

TORONTO, Dec. 11.—The tendency in the local stock market today was again toward higher prices, although several issues which had recently been leaders were thrust into the background to make way for new favorites. Spanish River preferred was on offer two days ago at 55, but today's opening was at 50, and the upturn was continued to 61½, at which price the stock closed. The steels received more attention than of late, Steel of Canada being to the fore with an advance of 1¾ points, all the gain being held, while Dominion Iron sold up ¾ to 63. The reaction in Cement was carried further, the stock dropping to 64, and closing at the low, a net loss of 1½ points. The Steamship issues also gave ground, the common stock coming out ¾ lower at 48, while the preferred weakened ¾ to 79¼; Dominion Can continued in strong demand and advanced an even point to 73½. The first sale of Crow's Nest Coal in some time was made at 55, an advance of 5 points. Dominion Bank at 224 was up 2 points and Imperial bank sold 2 points higher at 202.

"TIRED BUSINESS MAN" ONLY IMAGINES IT

In American Magazine an author says:

"The thing that makes the 'tired business man' tired is his belief that he is tired. Believe the contrary. There have been times when you worked all day and all night on a stretch. It did not kill you. Work itself, as the modern business world is organized, cannot possibly 'tire out' the man of average normal health. If it could Edison would have been dead at the age of 35, Bell would never have produced the telephone. Henry Ford would not now be king of the automobile business, Herbert C. Hoover would not be controlling and directing the nation's food supply today. Woodrow Wilson would be in a sanitarium and General Pershing would be taking a rest cure instead of commanding American soldiers in France."

THIS MAN WAS A JACK OF ALL TRADES

There were some cute advertisements in the old days Impressions, an English business magazine says, and for their investments they tried to say something more than the main message. Below is given a copy of a hand bill printed and circulated just 100 years ago in Cumberland by a man of many trades:

I, James Williams, parish clerk, saxtone, town crier and bellman, make and sell all sorts of haberdasheries, groceries, etc., likewise hair and whig drest, and cut on the shortest notice. Also—

N. B.—I keep an evening school, where I teach at reasonable rates, reading, writing, singing and sums.

Took Severe Cold ON HIS LUNGS.
COUGHED PHLEGM AND BLOOD.

On the first appearance of a cough or cold, do not neglect it, but get rid of it at once before it has a chance to grow worse and gets settled on the lungs, causing bronchitis, pneumonia and other serious lung troubles.

Dr. Woods Norway Pine Syrup will cure the cough or cold on its first inception and perhaps save you years of suffering.

Mrs. G. F. Stratychuk, Canora, Sask. writes: "Last winter I took a most severe cold on my lungs and was coughing up phlegm and blood most of the time. I had the cough for two months and took a great deal of different medicines, but found no relief from them. At last a friend advised me to take Dr. Wood's Norway Pine Syrup, which I did, and it gave me great relief in a very short time and today I am enjoying good health again."

The marvelous results that Dr. Wood's Norway Pine Syrup has achieved in its cures of coughs and colds has caused many so-called "pine" preparations to be put on the market, which do not contain any pine whatever. See that you get the genuine when you ask for it.

Put up in yellow wrapper; three pine trees the trade mark; price 25c and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A GOOD MAN FOR THE JOB

H. B. Thompson is an excellent choice for the new Canadian trade commission which is to take charge of the tremendously important work of building up Canadian overseas commerce.

Mr. Thompson is a hardheaded business man. He knows Canada and Canadian industry. He has a broad grasp of commercial conditions in the country. He understands the difficulties and problems which Canadian manufacturers and other producers have to face, and he is essentially practical.

The former chairman of the food board can be depended on to make good in his new job. And it is certain that he won't forget British Columbia when any apportunity arises to assist the industries of this province.

LET GERMANY PAY THE TAXES

Germany would not be expected to pay the war debts of the allies in five years. The allies would not be as harsh with Germany as Germany was with France in 1871.

The method by which Germany should be compelled to pay the war debts of the allies should be that the government of Berlin should be forced to accept as a German national obligation the payment of interest and sinking fund on every issue of war bond which has been issued by any of the allied countries. Germany is quite capable of bearing this burden, great though it may appear.

It is true that the payment o fthese war debts will increase taxation in Germany, and that this would increase the cost of production in Germany of articles for export.

This would mean that Germany would be handicapped in bidding for world trade. But the Germans have no right to complain of that. A private individual cannot walk into another man's house and smash up his furniture and murder his wife without suffering punishment for it. Neither should the great nation.

HANDLING THE BOYS WHO ARE COMING HOME

Robert Fulton's steamboat wasn't as good as the boats of these days, and Louis Stevenson's locomotive wasn't as good as the moguls of today. For the first time Canada has faced the problem of demobilizing a big body of men in uniform. As may be expected, difficulties have been experienced which are probably better understood by those who have the work to do than those on the outside. In this regard, however, it is gratfying to know that the authorities have found a better way. A new system of handling the men coming home has been announced to take effect on the first of the year.

Under the new way of handling the men it is expected that there will be less delays and that it will be possible to notify relatives of the homecoming of the boys several days before their arrival.

It is less than two weeks to Christmas.

The news these days will look more important when it appears in histories.

Dr. Shiffer, German finance minister, says that money is being squandered on irrelevant details of state administration. It is one of the practice that is taking Germany to ruin, he declares. Then there must be such a thing as too much efficiency.

McAdoo has recommended that the United States keep control of American railways for five years. Later, when McAdoo steps out of his government job, if he finds other business dull, he might be able to get the job of talking the U. S. into handing the control back to the companies.

WHAT THE PRESS IS SAYING

France is fully avenged. What happened to it in 1871 has in turn happened to Germany, though the latter has not been invaded by an allied soldier. If M. Thiers and Jules Favre had been alive Sunday at midnight, and in Marshal Foch's quarters, they would have appreciated how Time deals out justice.—Mail and Empire.

Britain's Part.

On no less than even major battlefronts she sent her men into the vortex of war, and today her dead lie not only in France and in "Flanders' Fields," along the western front, but in Egypt, Palestine, Italy, Greece, Bulgaria, Mesopotamia, Africa and at the Dardanelles. Wherever the enemy was to be found there England's flag was flying, and in her armies was the very best blood of her Empire; her finest manhood, her men of letters and science as well as her laborers.—Manchester Mirror.

COLD STORAGE

Here are two facts as singular
As well can be desired:
Fast colors do not run at all,
And wheels run best when tired.

Father—Can you support her in the manner to which she has been acustomed?

Suitor—Er— there will have to be a transitional period.

Puzzeled income tax official—And is the separation from your husband official?

Munition Kate—I dunno about "official." All I know is as when 'e comes to our 'ouse we calle the police and they chucks 'im out.

"Much bothered with tramps out your way?"

"I was until I tacked a sign on my gate."

"Ah! 'Beware of the dog,' I suppose."

"Oh, no. Simply 'Farm help wanted.'"

Sergeant—Now, then! Line up alphabetically for pay. What's your name, my lad?

Private—Phillips, sir.

Sergeant—Well, what yer doing up here? Get back amongst the F's at once.

"This morning I dropped my watch on the floor."

"Did your watch stop?"

"Certainly. Did you think it would go through?"

TOLD IN RHYME

WHAT HAS ENGLAND DONE?

Strange, that in this great hour, when Righteousness
Has won her war upon hypocrisy,
That some there be who, lost in littleness,
And mindful of an ancient grudge, can ask:
"Now, what has England done to win this war?"
We think we see her smile that English smile,
And shrug a lazy shoulder, and—just smile.
It were so little worth her while to pause
In her stupendous task to make reply.

What has she done! When with her great grey ships,
Lithe, lean destroyers, grim, invincible,
She swept the prowling Prussian from the seas;
And heedless of the slinking submarine,
The hidden mine, the Hun-made treacheries,
Her transports plied the waters ceaselessly!
You ask what she has done? Have you forgot
That 'neath the burning suns of Palestine
She fought and bled, nor wearied of the fight
Till from that land where walked the Nazarene
She drove the foul and pestilential Turk?
Ah! what has England done! No need to ask!
Upon the field of Flanders and of France
A million crosses mark a million graves;
Upon each cross a well loved English name,
And, ah! her women! On that peaceful isle,
Where in the hawthorn hedges thrushes sang,
And meadow larks made gay the scented air,
Now blackened chimneys rear their grimy heads,
Smoke-belching and the frightened birds have fled
Before the thunder of the whirring wheels.
Behind unlovely walls, amid the din,
Seven times a million noble women toil—
With tender, unaccustomed fingers, toil,
Nor dream that they have played a hero's part.
Great-hearted England, we have fought the fight
Together, and our mingled blood has flowed.
Full well we know that underneath that mask
Of cool indifference there beats a heart,
Grim as your own gaunt ships when duty calls,
Yet warm and gentle as your summer skies;
A Nation's heart that beats throughout a land
Where kings may be beloved and Monarchy
Can teach republics how they may be free,

Ah! What has England done? When came the call,
She counted not the cost, but gave her all!

M. R. M'QUARRIE—AN APPRECIATION

(By W. B. Willcox, in the Trail News.)

Those Trail people who attended the funeral of the late mayor of Nelson last Sunday, Mungo Robert McQuarrie, state that it was the largest funeral ever held in Kootenays, hundreds and thousands being there to pay their respects to one of the best friends that this entire district ever had. In his offical and private capacity he had done everything humanly possible to fight the influenza epidemic in his city, and was himself a victim of the dread malady. He fought a good fight, and we believe that his reward will be equally certain—though he was the last man to do anything with a thought of what it might bring.

Mr. McQuarrie was a prince in every way and always to the front in all good works, whether patriotic or for the general benefit of the community or district in which he lived. It was his peculiarity not to let his left hand know what his right hand was doing. His son, Capt. Don McQuarrie, who died for his country in France on Sept. 30, was a chip from the old block and one of the finest, upstanding of young men. Showing the esteem in which the late mayor of Nelson was held, it required six columns of testimonials in Saturday's issue of the Nelson News to take care of some of the heartfelt tributes that were offered by his numerous friends, from near and far, to his memory—a rare testimonial.

Now that he is gone the editor of the Trail News wishes to relate a single incident, showing one side of Mr. McQuarrie's character—a little thing in itself, perhaps, but typical of the man. It was a year ago last July when Mr. McQuarrie spent several days in Trail. We met and chatted with him, and he related to us the story of Lieut. Horsfield, the Trail-Nelson soldier, who had returned from France with 57 shrapnel wounds and incapacitated to do much of anything.

That Gasolene Launch

Mr. McQuarrie made the suggestion to the writer that as Lieut. Horsfield had, with his wife, taken over the ranch of another man who had gone to the front, he should have a gasoline launch to go back and forth on Kootenay lake to the ranch, having had the experience of falling into the lake in debarking from the steamer in his crippled condition. But for Horsfield's wife being there and helping him out of the water the returned soldier might have drowned—and Horsfield stated it would have been a great note had he been drowned in Kootenay lake after going through that hell in Flanders.

And then "Mac" remarked to the writer, after telling the story, "We could easily get the amount needed—$150—by seeing a few people in Nelson. I have done it before for boys who have returned, but do not like to be hitting the Nelson people up all the time." Then we decided that it would be a simple thing to get a dollar each from 150 people in Trail for one of our returned soldiers—for Trail was in reasonably prosperous condition. So we decided to send the appeal through the columns of the Trail News, making no personal applications whatever, but let printer's ink do the job. We announced it, told the story, and invited subscriptions of a dollar each. The list grew gradually up to $30, $40, $50, $75 and then up to $92 and $111. When it started McQuarrie came to us, handed us a $10 bill and asked us to put it down to a friend. It was just like him and we did as he requested.

Fund of $455

One Friday, as we were nearly ready for press we answered the phone and S. G. Blaylock of the Consolidated was talking, asking how the Horsfield fund was coming on. We told him. "Well," said he, "that fund should be closed up and the office staff of the company has decided to supply the cash to do so." Horsfield had been an employee of the smelter. And so the members of the staff generously and gladly sent along several hundred dollars, the draft which it was our pleasure to forward to Lieut. Horsfield at his ranch being for $455.04, $340 of which came from the smelter staff.

And it all originated from an idea of Mr. McQuarrie which he spontaneously helped along at the start and with the request not to publish his name among the acknowledgements. Similar stories could doubtless be duplicated many times.

As has been said already, Nelson and the Kootenays will appreciate more and more, as time goes on, what a force for genuine, lasting good Mr. McQuarrie's personality was in the community and district.

Among other things one of his great desires was to see the new Kootenay Lake general hospital finished and in use—being a splendid institution that it is a credit to entire Kootenays. When we were in Nelson for the last fair with our family it was a great pleasure for Mr. McQuarrie to take us to the hospital, after a several mile spin up and down the valley in his car, and, lame though he was, he escorted us up the four flights of stairs of the stone and brick building, through the private and public wards, operating rooms, and even to the cellar, the elevators not then being in use. It was all but complete then, and was occupied shortly thereafter. The work which he did for the institution was but one way in which he worked for the general benefit of the Kootenays.

Mayor McQuarrie has gone, but his works, always done without thought of self of any kind, will live long.

FREDERICK'S REPLY

Frederick Wallace Grayston, aged four, astounded and delighted his parents, Dr. and Mrs. F. W. Grayston of Huntington one morning recently when he quoted Scripture to them.

The family was having pancakes for breakfast and Frederick Wallace's plate was empty. His mother had two cakes, was going to share with him, when his father suggested that he wait for the cook to bring in the warm cakes.

"Daddy," the small son questioned, "do you remember what they told us in Sunday school?

Of course daddy wanted to know what was in the youthful mind, so he professed ignorance.

"Be thou kind one to another," was the astonishing rejoinder.

Dr. Grayston hastened to assure F. W. Jr. that he was not scolding and got his answer:

"Yes, I know, daddy, but mother was going to be kind to me."

We Like Such Suggestions

It has been called to our attention that all the recipes we give seem to point to these as the only things particularly good made with our milk.

The lady who mentioned it said she had found six recipes of ours that were real good, but that she had found Pacific Milk made any of her own recipes better than fresh milk.

"And," she adds, "I didn't think I should like Pacific Milk at all because *I had a horror of tinned goods, but I* must admit it is better for cooking."

There are lots of interesting things come up that we would not think of.

La Tausca Pearls

of all jewels—the most sought for

Whatever the character of your attire—richly ornate, delicately ovanescent or severely simple and practical, the necklace of pearls is its appropriate and most harmonious accompaniment.

This is the charm of the pearl La Tausca—its universal appropriateness at all times. And this, too, explains its perennial vogue with all women. Differing ever so widely in their choice of other things, women unite enthusiastically in admiration of the pearl. La Tausca pearls give you all the pearl beauty found in necklaces costing thousands of dollars.

WOULD FORM NEW RUSSIAN GOVERNMENT

(By Daily News Leased Wire.)

STOCKHOLM, Dec. 11.—By the Associated Press.—According to the Dagenz Nyheter, the formation of a new Russian government in Stockholm is contemplated. It is asserted that this government will be headed by former Premier Alexander Feodorvitchtripoff, who is said to have recently arrived in Stockholm. Prince Vladimir Volonsky, former assistant minister of the interior, Baron Taube and Senator Jassiadko also are mentioned as members of the new cabinet, which it is declared, the entente will support and which temporarily will carry on matters of state in Stockholm, while awaiting the fall of the Bolsheviki.

MILITARY POLICE TO BE DOMINION BODY

(By Daily News Leased Wire.)

TORONTO, Dec. 11.—After having been recently disbanded, the civil section of the Canadian military police corps is being reorganized by Capt. Tom Flanagan and will now be under the Dominion police at Ottawa, instead of the militia department. This reorganization of the old Dominion police would tend to show that Ottawa has no intention of granting amnesty to deserters and defaulters. Capt. Flanagan, who was the chief inspector of the organization, has his Toronto force at full strength and it was quietly working for some days.

ESCAPED DEATH IN SEA; INFLUENZA PROVES FATAL

(By Daily News Leased Wire.)

SEATTLE, Wash., Dec. 11.—After escaping death by cancelling his reservation on the ill-fated Princess Sofia an hour before she sailed, J. Austin Fraser, a prominent lawyer of Dawson and formerly a member of the Yukon legislature, died yesterday morning at 3 o'clock at the home of his sister-in-law, Mrs. J. N. McLean, 2852 67th street west, of pneumonia following influenza. Fraser had come to Seattle to take his family to Vancouver, where he contemplated practicing law. He was 52 years of age, His mother and two sisters reside in Calgary.

FOUR VERNON SKATERS DROWN

Quartette of Young Persons Fall into Holes in Ice on Goose Lake

(By Daily News Leased Wire.)

VERNON, B.C., Dec. 11.—Four young persons, Miss May Leatherdale, Miss Ella Johnston, William Southam and Leslie Dodd, met death by drowning here last night, when they skated into two separate holes in the ice of Goose lake, a body of water near here. All the bodies were recovered today. All are under 20 years of age.

The quartette formed a skating party to go to the lake last night. Their absence from home in the morning alarmed friends and relatives and a search party was sent out. The searchers found the ice broken and two caps floating in the water. The preceding night was cloudy and the supposition is that they skated into the openings in the dark.

LAMONT WINS IN COMMISSION CASE

In the case of Lamont vs. Hunt which was an action for commission on the sale of some land at Kitchener, B.C., Robert Lamont of Creston was awarded judgment for $250 and costs. A. Donaghy was counsel for the plaintiff and C. R. Hamilton, K.C., appeared for the defense

The land, which belonged to Hunt was sold through Robert Lamont, real estate agent at Creston, to Isaac Wenger, who came from the prairie with the intention of settling in the Creston valley. On the witness stand Hunt said that at the time of sale nothing was said as to payment of the customary 5 per cent commission, but that some time later Lamont had come to him and asked him to sign a note for $250, which was the commission on $5000, the price of the land. Hunt said that he had refused to pay $250 but that if the agent would take $100 he might consider taking it. Lamont had then said he would take all or none, or else he would make it a test case, witness stated. "Go ahead," was Hunt's reply.

After summing up the evidence Judge Thompson found in favor of the plaintiff.

LIEBKNECHT TRIES TO STIR SWITZERLAND

(By Daily News Leased Wire.)

PARIS, Dec 11.—The Swiss police have arrested a courier of the Stuttgart Socialist council on his way to Munich, according to the Tageblatt of Berlin. In the man's baggage was a large number of pamphlets signed by Dr .Karl Liebknecht, the German radical socialist leader.

Questioned as to the object of his journey, the courier declared that his mission was to inform the Swiss working classes of the real objects of the German revolution. He is being detained pending an investigation.

BIG PRESBYTERIAN CHURCH CONFERENCE

(By Daily News Leased Wire.)

ATLANTIC CITY, N. J., Dec. 11.—A great pan-Presbyterian conference opened here today with delegates present from the Presbyterian church in the United States, the Southern Presbyterian church and the Presbyterian church of Canada, with the object of Uniting on a reconstruction program for the Presbyterian church. At the opening session it was decided to hold three great meetings setting forth what the Presbyterian church had accomplished in the war as a preliminary in the movement of reconstruction. One of these meetings will be held in Toronto, another in Philadelphia and the third in some southern city yet to be named.

The proposal has been made that all the churches of the faith unite their energies and their resources generally for the reclamation of church property in the war zone.

WAR REVEALS FAULTS IN EDUCATION

Within the last week two men of great authority, Dr. Charles W. Eliot and Dr. Nicholas Murray Butler, have presented their views on the improvements needed in education as revealed by the war. These gentlemen come into a field already crowded with a multitude of disputants; irresolute is the thinker who has not decided that the processes which led him to his present state of mind were wholly wrong, and pusillanimous is the writer who has not admitted that the schools of his day were utterly unable to teach anybody to write, or to do anything else. The revolutionary zeal of the advocates of the "Modern School" and what Dr. Butler calls the "intolerant endlessness of H. G. Wells" have popularized the theory that whatever is is wrong, but there is unfortunately little agreement as to just how and why it is wrong.

Two Strong Voices.

Now, says the New York Times, above this tumult of sounding brass ad tinkling cymbals come the voices of two men who have made long and honorable contribution to American education; their views should cany weight. But even between these gentlemen there are grave differences. They agree on some things—the need of more training of the senses, of coordination of the hand and eye, of additional attention to public health and preventive medicine; on the teaching of science, so far as it is intended for the education of the general student, as an interrelated whole and note a collection of discreet "studies;" on the urgency of recognition of the individual pupil's aptitudes, preferences, and abilities. But their disagreements are profound, even fundamental. Dr. Eliot insists on the inductive method; Dr. Butler *thinks that things found to be true* in human experience should be taught by people familiar with that experience, even at the cost of the pupil's failing to realize why they are true and how they were so proved.

Experts Differ.

Dr. Elliot's article covers so wide a range that it might borrow the title "A Study of Twentieth Century Multiplicity." The reader gets the impression that we all like sheep have gone astray; that humanity in general is deficient as uniformly as the one-hoss shay was efficient. He sees the need of more and better teaching of subjects ranging all the way from the elements of a scientific diet to the religion of democracy and fraternity. Dr. Butler appears to feel that there is too much detail; that what is needed is coordination of the details of individual experience with the generalities of the experience of the past and of others. Where the President Emeritus of Harvard demands better teaching of the sciences the president of Columbia calls on us to remember that the sciences were made for man and not man for the sciences—still less for any particular science. Dr. Elliot values the daily theme, oral or written, as discipline in accurate observation and intelligent narration; Dr. Butler holds that much reading is better than much writing, so that a man may be able to write well when, and only when, he has something to write about.

The Ideal Religion .

More than half of Dr. Elliot's argument is devoted to things purely physical, though naturally he regards them as of far more than immediate physical value. Illiteracy, ignorance of the national language, disease, malnutrition, physical frailness must be overcome; the child must be taught to observe accurately and act quickly, to reason from its observations and to express the result of its reasonings. Above all, our schools must teach, what the nation had apparently almost forgotten, the individual's duty to the community both in peace and in war; and this will grow into the teaching of a religion of unselfishness and brotherhood and help, based on the practical experience gained by the soldiers of democracy.

What Knowledge Is Needful .

Dr. Butler appears to be concerned less with the how than with the why. We have forgotten what we study for, he says; there has been, for instance, to much study of the machinery and details of government and not enough comprehension of the principles on which good government is based. "The war has taught the lesson that the proper place of efficiency is as the servant of the moral ideal. . . . We shall made a criminal blunder if the war teaches us to imitate Germany in any particular." Even more strongly than Dr. Eliot he suggests that the shortcomings of education are due chiefly to the inefficiency of educators; but where the great champion of the elective system wants teachers better equipped to train the children in methods by which they may acquire knowledge, Dr. Butler would have teachers who keep steadily in mind what knowledge is worth acquiring.

ARGENTINE CITY FAILS TO PAY WAGES; STRIKE

(By Daily News Leased Wire.)

BUENOS AYRES, Dec. 11.—Rosario, one of the principal ports in Argentina, is in the throes of a strike by the policemen and firemen, who quit work owing to the fact that they had not been paid their wages for several months.

Some disorders have occurred, including a fight between striking policemen and soldiers. Two persons were killed and a score were wounded during the battle in the streets. A general strike which is to include the railway workers, probably called for tonight. The health of the city is endangered owing to a strike of the garbage movers.

LIEUT. STEPHENS OF PRINCE RUPERT KILLED

(By Daily News Leased Wire.)

PRINCE RUPERT, B.C., Dec. 11.—News of the death in action of Lieut. James E. Stephens, a son of Col. G. N. Stephens of the imperial army, has been received here. Lieut. Stephens formerly was employed in the Prince Rupert postoffice and first came here in 1913. He joined the Canadian forces in 1915 and was sent to Saloniki where he was chosen for service with an Indian regiment. Later he was sent on service through Beulchistan with reinforcements for the East Persia Gordon field force. News of his death was cabled to London.

Early one Monday a smartly dressed woman entered the big draper's.

"I am sending back those coats you let me have on approval Saturday," she told the manager blandly. "I find that none of them really fit me."

Then, with a gracious smile, she sailed out of the place. But she didn't smile so blandly that night when she received a little parcel and a letter which read:

"Madam,—We are returning the pair of gloves and the hymn book which you inadvertently left in the pocket of one of our coats which didn't fit."

NO CHANGE IN HOCKEY PLANS

National League Will Open Winter Season Dec. 21—Special Meeting Is Fruitless.

(By Daily News Leased Wire.)

MONTREAL, Dec. 11.—A special meeting of the N.H.A. was held this evening but no change in the hockey situation resulted and the National league will open its season Saturday, Dec .21, when Canadiens play either Toronto or Ottawa. The meeting was stormy. Canadiens, Ottawa and Toronto took sides against Livingstone, Quinn and Wall, who claimed ownership of Toronto, Quebec and Ontarios.

The promoters of the proposed new association claim the majority vote because they said they controlled shares of Canadien club stock. On a vote President Calder held the deciding vote and Canadiens retain a full privilege. A storm arose at one point when George Kennedy called Percy Quinn a liar. Finally an order was issued that the clubs pay the debt of the N.H.A. This Ottawa, Wanderers and Canadiens offered to do, but the other clubs refused

The meeting was not regarded seriously by most of those in attendance. Delegates of Wanderers, Ottawa, Toronto and Canadiens retired and the others remained in session and decided to operate the N.H.A. this season.

Those present included Frank Calder, president; Percy Quinn and V. McArce, Shamrocks; J. Livingstone, J. E. Mercier, Toronto; George Kennedy, Canadiens; Thomas Wall, Ontarios; S. E. Lichtenstein, Wanderers; T. P. Gorman, Ottawa; Fred Barbour, the Brunswick-Balke-Collender.

INTERALLIED BOXING TOURNEY IN LONDON

(By Daily News Leased Wire.)

LONDON, Dec. 11.—An interallied boxing tournament in which men from the British and American forces participated, was held here today. In the bantam weight class Jimmy Wilde, the British flyweight champion, representing the British army, won from Joe Lynch of the American army.

In the lightweight class Joe Miller of the British army defeated A. R. Mitchell, United States navy.

In the welterweight class A. Wilkinson of the British army won from Jake Abel of the United States army.

Groves of the British army defeated Callender of the American navy on points in a flyweight contest. In another flyweight bout, Joe Percival of the British army knocked out Sims of Canada in the second round.

In the light heavyweight division H. C. Grebb, American navy, beat Baker of South Africa; White Joe Beckett of the British army, heavyweight, won from Joe Cox, American navy, the decision in both contests being awarded on points.

Pal Moore, American navy, was awarded the decision on points over Pattern, British navy, in a bantam weight bout.

The contests were staged in Royal Albert Hall and the tournament was the largest ever held there. United States, England, Canada, New Zealand and South Africa were all represented in the bouts at the eight championship weights. The men fought in teams and the trophy for the winning teom is a silver shield, the gift of King George.

The competition is to be conducted on the elimination principle and the final bout will take place Thursday night.

It is expected that King George will then be present and personally hand the trophy to the winning team.

Admiral Beatty, commander in chief of the grand fleet, was present today and received a great ovation.

Sick Headache and Constipation

Cured by MILBURN'S LAXA-LIVER PILLS.

When your liver becomes sluggish and inactive the bowels become constipated, the tongue becomes coated, the breath bad and the stomach all out of order.

Then come those terrible sick headaches. They take out every bit of life and ambition, bring on depression and often end in complete mental and physical prostration.

To keep the liver active, and your bowels moving regularly is the only way to get rid of the constipation and the distressing sick headaches. Milburn's Laxa-Liver Pills will do this for you by stimulating the sluggish liver into manufacturing sufficient bile to act properly on the bowels, thus making them active and regular.

Mrs. Winslow McKay, Jordan Beach, N.S., writes: "I have been sick for a number of years with sick headache and constipation. I tried all kinds of doctors' medicines but none did me any good. I tried Milburns Laxa-Liver Pills, and after using four vials I am completely cured. I would heartily recommend them to all sufferers.

Milburns Laxa-Liver Pills are small and easy to take and do not gripe, weaken or sicken as so many pills do. Price 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WOULD BAR ALL BALL DESERTERS

Resolution is to be Brought up at the American League Meeting Refusing War Workers

(By Daily News Leased Wire.)

CHICAGO, Dec. 11.—Baseball players of the American league who deserted their clubs last season for positions in ship yards would be barred from playing in the league, if a resolution to be introduced at the annual meeting of the league tomorrow should be adopted. President Johnson tonight said that a resolution should be prepared for submission of the meeting, but he withheld the name of the club-owner who drew it up.

Radical retrenchment will be the policy adopted for the 1919 season. President Johnson said that while the club owners did not favor reducing the present player limit of 25, they would not carry any more players than absolutely necessary on the road trips, and that club trainers probably will be left at home.

The American league executive favors joint committee meeting with a meeting of the National league to consider problems confronting the future of baseball, as proposed by President Heydler of the National league today. He said committees of three or four to a joint meeting of the two leagues would answer.

The 1919 schedule and the date for opening the season will be among the important questions to be considered tomorrow. While President Johnson favors a 140-game schedule, the usual program of 154 games probaly will be adopted. Definite action probably will not be taken until after the proposed joint meeting with the National league.

Replying to the statement of John Farrell, secretary of the National association of minor leagues, said that he had no authority to negotiate with the National baseball commission for the minor leagues. President Tearney of the Three I league tonight said he was appointed chairman of the committee at the annual meeting of the minor leagues in Peoria, Ill., at which Farrel presided.

CONTINUE NATIONAL SAVING POLICY, PLAN

(By Daily News Leased Wire.)

OTTAWA, Dec. 11.—The conference of the members of the national war savings committee which was begun on Tuesday afternoon was continued at the Chateau Laurier today. The dominant note of the discussions was that the national war savings plan should be made permanent, the general opinion being that the movement would fail to realize its full purpose unless this was done. Pierre Jay, representing the United States treasury, remarked that the evidence of a desire for the strong steady pull was good and, in the long run, would undoubtedly produce the best results.

Publicity generally, the educational and women's work, features of the movement, received very full consideration, it being recognized that the success of the undertaking would depend very largely on the thoroughness with which the work of education was done. It was decided by the head office that a nightly bulletin should be issued, to begin early in the year. A special bulletin for teachers and educational institutions generally, will also be issued under the direction of W. J. Dunlop, B.A., Toronto.

DRAFTEES SEEKING DISCHARGE TO APPLY TO OFFICERS

(By Daily News Leased Wire.)

OTTAWA, Dec. 11.—Some time ago the minister of agriculture appointed agricultural representatives in the various military districts throughout the Dominion for the purpose of obtaining leave of absence to draftees when it was shown that such draftees were bona fide farmers or farm laborers and that their services were urgently needed on the farm in the interest of production. Now that the war has ended, the services of these agricultural representatives are no longer required and they have all been notified to this effect. Draftees seeking for an early discharge should not apply to these agricultural representatives for assistance, but should presumably make application to their commanding officer.

THEATRICAL PROFESSION WANTS REIMBURSEMENT

(By Daily News Leased Wire.)

WINNIPEG, Dec. 11.—The Trades and Labor council of Winnipeg sent a delegation to the city council today in the interests of the theatrical trades federation to demand that the city reimburse theatrical employees of Winnipeg for their losses during the period when theatres were under a ban in Winnipeg owing to the influenza epidemic. The total amount which the theatrical employees are out of pocket in unpaid wages is $23,651.

Mayor-elect Gray pointed out to the delegation that it would take more than a million dollars to pay to the various industries affected the sum lost through the same cause.

It appears from a casual survey of society at large that the war has brought cussing and cooties into the politest conversational circles.

M'ADOO WANTS U S. TO HOLD RAILWAYS FIVE YEARS

(By Daily News Leased Wire.)

WASHINGTON, Dec. 11.—Continuance of government control of railways for five years, or until Jan. 1, 1924, was recomended today by Director-General McAdoo in a letter to the chairman of the senate and house interstate commerce commission. This would permit a fair trial of government operations, said Mr. McAdoo and eliminate the next year or two if their status is not changed materially by legislation.

WOMEN ON BARGES DO FOOD TRANSPORT WORK

"Of the many different openings provided for women by the exigencies of the war, not the least attractive is that of barge work," says the London correspondent of the Glasgow Herald. "A few weeks ago an advertisement appeared in a London newspaper stating that women were required for canal boats in connection with food transport. On inquiry by the women's service bureau, it was found that the boats in question travel between Hayes and Liverpool, a distance of 300 miles by canal, that the trip takes about 10 days either way and that the girls who 'man' them live entirely on board. The barges generally work in pairs, one motor boat or horse barge towing a butty boat with four girls in charge of the two. These barge girls attend to the engine, steer the boats and work the locks along the canal. They also look after the cabins and cook their own meals, etc During the summer the life is almost ideal for a strong healthy girl. But the work is of national importance and must be carried on during the winter also.

In Case of Another Attack

Two men related their "flu" experiences.

"My doctor ordered me to stay in bed, loaded me with rotten medicine and gave me nothing but water and beef tea," said one.

"Mine told me to lay up a while and drink all the good whisky I could manage," said the other.

"Who's your doctor?" demanded the first speaker eagerly.

The other told him and he carefully wrote it down.

"I'm going to change doctors right away!" he declared.

Brothers Plead Guilty to Stealing Shoes Worth $185—Suspended Sentence, Court Decision

Four brothers, William, Alex, Alfred and George Shaw pleaded guilty in the district court yesterday to a charge of stealing one carton containing 25 pairs of tan calf shoes, valued at $185.25, from a C. P. R. box car at Arrowhead. After a severe reprimand by Judge G. H. Thompson the men were allowed to go on suspended sentence. Jams. O'Shea acted for the crown and A. Donaghy was counsel for the defense. The men were arrested at Arrowhead and after preliminary trial were brought to Nelson and elected for speedy trial,

John Dedoosenco, a Russian who speaks very little English, and who has been a school trustee at Galena Bay, for eight years, was charged with receiving the shoes, knowing they were stolen. He pleaded not guilty in court. According to his evidence and that of Alex and Alfred Shaw, the accused saw the men coming towards his ranch with the shoes in sacks which were dripping with water. He said he thought they had caught a bunch of fish.

Accused stated that he had bought two pairs of the shoes in exchange for two boxes of strawberries, valued at $3.50 to $4 each; he later bought another pair. He said that he did not know that the goods were stolen.

The judge explained the seriousness of the offense and told the accused his actions were suspicious, but as he said that he was a little in doubt as to whether the man was guilty, he dismissed the case, thus vindicating Dedoosenco.

Funeral of Victim of Influenza Held at Standard Parlors—Rev. D. T. McClintock Officiates

Angus McDonald, who died last Monday morning at the emergency hospital of Spanish influenza, was buried yesterday afternoon from the Standard undertaking parlors. The services were conducted by Rev. D. T. McClintock.

Those who acted as pallbearers were T. R. Wilson, Kenneth Campbell, Malcolm McKinnon, Dan Johnson, John McKinnon and John McDonald.

Among those who sent flowers were Miss Christy Campbell, New Westminster; Dan McLeod, Sandon; Mr. and Mrs. Alex Campbell, Mr. and Mrs. Allan McInnes and family, Mr. and Mrs. John McLeod, Mr. and Mrs. Kenneth Campbell, Mr. and Mrs. D. Ritchie.

SOLDIERS SPEAK IN PRAISE OF COL. PECK

Returning soldiers in Vancouver speak in high appreciation of the qualities of Lieut.-Col. Cyrus Peck, M. P. of Prince Rupert, who was recently decorated with the military cross. Mrs. Peck, wife of Lieut.-Col. Peck, is a niece of Mrs. W. Fotheringham of Nelson.

In the Vancouver Province Sergt. McRae says:

"Col. Peck is a good man any place you put him. You never find Cy Peck send a soldier where he is not willing to go first. The battalion was delighted when he received the Victoria Cross. As a matter of fact we all thought he should have got it long before he did. Take it from me, Col. Peck was right there all the time, and the 6th and the whole province of British Columbia have reason to be proud of him."

Sergt. McCrae is a Victoria man who has been serving with Col. Peck in France for the past three years. He was wounded at the Somme.

Sergt. Leslie, also of the 6th, holds a similar opinion of his commanding officer, with whom he served several years in France.

J. H. Dawson has been apopinted stipendiary magistrate for Wainwright and district.

GIBBS LEAVES FOR THE SOUTH

Former Reporter for The Daily News Writes "30" to Nelson for a While

Harry Gibbs, formerly reporter for The Daily News, will leave the city this morning on his way to California, where he expects to spend the remainder of the winter.

He left the staff of The Daily News late in October, intending to leave for the south at that time, but contracted influenza and consequently was forced to postpone his trip.

Mr. Gibbs is one of those who answered the call to arms and enlisted with the 196th university battalion. In France he was wounded and gassed, resulting in his discharge after about eight months' service. In April of this year he joined the reportorial staff of The Daily News and since that time, as he says, has contracted the "fever" from the smell of ink which may call him again when he sees a newspaper sign on some tall building "somewhere in the South."

SID LONGHURST DEAD AT OUTLOOK, SASK.

W. S. Longhurst, at one time accountant at the Canadian Bank of Commerce in Nelson, died recently at Outlook, Sask., a victim of Spanish influenza. Longhurst was a prominent hockey player in the city and was well known in Grand Forks and throughout the Boundary.

MORE TAKE ADVANTAGE OF INOCULATION

The influenza situation was again unchanged yesterday. Two new cases were reported in the city, but none were taken to the hospital, which now has 14 patients.

An increasing number of persons present themselves every day for inoculation at the office of the medical health officer, Dr. Isabel Arthur.

DISCONTINUE MINING CASE IN COURT

At the county court yesterday the case of Wolbert vs. Gibson Mining company was discontinued, following the filing of an application to that effect by A. Donaghy, counsel for the plaintiff. In doing so counsel for the plaintiff stated that he desired to call an expert in handwriting who was at Spokane and ill with influenza. Adjournment was not, however, allowed on this score, but the case was ordered discontinued and the jury dismissed by Judge G. H. Thompson.

RED CROSS GIVES MONTHLY REPORT

Members Make 557 Articles During October—Receive Several New Life Members

The local branch of the Red Cross has during the past month completed 557 articles—192 pairs of socks. These will shortly be shipped to headquarters.

The finance committee has handed in the sum of $1000, and $43 was received during the month from outside points.

The secretary has received an acknowledgement of the receipt of the branch's report sent to Toronto from the honorary recording secretary as follows: "We have not yet had time to go carefully through your report, but it seems to be a most satisfactory statement of excellent work done for the society during the past year, and on behalf of our executive committee I beg to tender to the members of your branch our cordial thanks for the generous and practical support you have given to the work of the Red Cross."

During the past two months the following have become life members of the society: Mrs. Kenney, Mrs. J. J. Walker, Mr. R. J. Steele, Mrs. Tyler, Mrs. J. Gibson, Illingworth, Mrs. W. J. Meagher.

The Brazilian city of Bahia has replaced its old telephone service with an American system.

Miss Grace Redpath, arrived on the coast train last night from Victoria. She has been compelled to return home for the second time on account of the closing down of the normal school owing to another outbreak of influenza. Miss Redpath states that there are about 50 cases at the school but the only Nelson girls ill are Miss Florence Rutledge and Miss Muriel Smyth.

In spite of the fact that C. A. Waterman, who recently left the city to spend the winter in Texas, took the precaution to get inoculated before leaving, he was taken ill with an attack of Spanish influenza in Salt Lake City and had to postpone his trip. He was getting along favorably a few days ago.

"Those shrimps we had for dinner weren't fresh."

"How do you know?"

"I have inside information.'

Influenza

Has cost the Life Assurance Companies a huge amount, but they are strong. Let them carry your risk. Protect your wife and family with a Policy in the Monarch Life Assurance Company. This company writes the most up-to-date Policy written. Financially strong; fair in its settlements.

The Monarch Life's assets are larger, when compared to its liabilities, than any other Company doing business in Canada, and its investments are such that the rate of interest obtained is larger than any other Canadian Company. Call and let us talk the matter over anyhow.
