ORGANIZED LABOR NOT ABOVE LAW

ALL POWER OF UNITED STATES BEHIND MANDATE OF COURT SAYS PALMER.

Gompers Declares Workers Are Free Men and Will Exercise Free Dominion.

WASHINGTON, Nov. 10.—Solemn warning was given the United Mine Workers of America tonight by Attorney General Palmer that resolutions of conventions and orders of officers of organizations are not above the law,

Formal and final declaration of the government's policy of dealing with the coal strike will be announced by the attorney general. While officers of the miners organization at Indianapolis here struggling with the resolution how to answer the courts' blunt and peremptory command to rescind the strike order, describing the strike as a plain violation of the federal law, Mr. Palmer, speaking with full authority of the government, announced that all the power of the United States will be used to force the mandate. Although no reference was made in the attorney general's statement to the announcement of organized labor, supporting the miners and demanding withdrawal of injunction proceedings, it was evident that Mr. Palmer had that document in mind and official Washington accepted his declaration to mean that refusal of the miners to cancel their strike order would mean a fight to the bitter end.

Abjuring[f loyalty to a temporary administration which violates the principles of democracy, Samuel Gompers, speaking for American labor at dinner tonight for delegates to the InEternational federation of trades unions declared that "We are tied to no administration but we are free men, and propose to exercise the free dominion of our judgment."

There was no attempt in official or labor circles tonight to conceal the feeling that the situation was extremely grave and getting beyond the question of a coal strike. This was due to the belief that the miners apparently were not of one mind on the question of making quick reply to the court.

Await Headquarters' Action.

All day word from the Indianapolis meeting was waited with intense interest and anxiety. Some labor leaders had predicted that the mandatory order would not be complied with and that the strike order would stand until passed upon by the same convention which arbitrarily decided the date of the national walkout, unless specific demands were granted by November 1. The action of the executive council of the American Federation of labor upholding the action of the strike, pledging support to the strikers, and denouncing the government's injunction suit, was variously interpreted. While officers of the administration refused to add one word by way of explanation or interpret its meaning in view of the feeling in some quarters that it was signed to back up the strikers it was attacked on the floor of the senate and emphasized there that, under the food control law, injunctions could legally be issued against strikers interrupting the nation's food or fuel.

Expect Formal Action Today.

INDIANAPOLIS, Nov. 10.—No agreement has been reached by officials of the United Mine Workers of America in conference here today to consider the order of the federal court Saturday to call off the strike of coal miners, when they adjourned at six o'clock this evening. Delegates said no vote had been taken.

The union heads, who include international officers, district presidents, and members of the executive board and scale committee resumed their deliberations at 7.30 tonight, but it was the general belief that no formal action would be taken before tomorrow.

In view of the provisions of the court order, instructing the miners' chiefs to present to the court for approval their order withdrawing the strike call of October 15, within 72 hours, it was predicted tonight that no announcement would be made by the miners before the expiration of that time. The court order was signed at 12.25 p.m. Saturday, therefore the union officials must report to the court by that time tomorrow.

Although today's meeting was closed and extraordinary measures were taken to prevent the proceeding from becoming public, it was ascertained from disconnected remarks dropped by delegates as they left the hall for lunch and dinner that the discussion brought out wide divergence of opinion as to what course the coal workers should pursue with regard to the order of the court.

The only action of the government today in connection with the strike was the serving of 33 copies of the temporary injunction issued Saturday. Those served were men whom federal agents failed to reach with the original restraining order. The writs served are returnable December 1 instead of November 22.

ILLUMINED CROSSES SHINE PEACE DAY MESSAGE AT CAPITOL

WAHINGTON, Nov. 10.—As darkness fell over the national capital tonight, the three huge illuminated crosses shone out from the high walls of the War Risk Insurance building across Lafayette Square, from the White House and the celebration of armistice day the first anniversary of the cessation of hostilities in the world war began. The giant symbols were formed by light pouring from selected windows in the otherwise facades of the great structure and one of them looked directly down on the square where official Washington will join tomorrow in celebration of the new anniversary.

To the country at large formal messages commemorating the day were sent out by President Wilson, members of his cabinet and general Pershing.

LIQUOR ORDERS SWAMP CITY

New Temperance Legislation Announcement Causes Rush to Montreal of Orders All Over Canada

MONTREAL, Nov. 10.—Local shippers of alcoholic liquors are almost snowed under with orders from every point in Canada following the announcement of new temperance legislation from Ottawa. Anticipation that the present order in council which prohibits the importation into "dry" provinces for personal use and which went into effect on April 1, 1918, will, as a war measure, be automatically null and void when Canada officially signs the peace treaty within the next few days, has also produced a tremendous lot of orders. Ontario is in the van with orders from every town and hamlet, a number, paradoxically enough, from Walkerville.

RAILWAY BILL IN U.S. SENATE

Will Be Principal Topic for Discussion Today; Final Vote Taken Saturday

WASHINGTON, Nov. 10.—The railway bill will have the right of way in the house tomorrow with final vote set for Saturday, under an agreement reached tonight by leaders. Action on the bill will be followed immediately by adjournment of the special session of congress. The agreement provides consideration of the measure by the senate going over until the regular session beginning in December.

Under a rule adopted tonight the house agreed to meet two hours earlier than customary and to begin night sessions immediately. General debate will end on Wednesday. The house program was framed after Representative Mondell, Wyoming, Republican house leader, had been informed by Senator Lodge that senate leaders hoped to dispose of the German peace treaty by the end of the week.

SUGAR SHORT IN WINNIPEG

Can Only Be Obtained as Great Favor; Small Dealers Are Entirely Sold Out

WINNIPEG, Nov. 10.—There is a serious shortage of sugar in this city and those who have stocks are doling them out to their customers as favors and will not sell unless something else is purchased with the sugar. This appertains in the larger stores, the smaller dealers seem to have no stocks at all. At any rate, the selling of sugar now goes by favor all over the city.

RECOMMEND PURCHASE OF DAYTON AIRPLANE PLANT

WASHINGTON, Nov. 10.—Final decision to recommend purchase by the government of the Dayton Wright plant and adjacent aviation fields at Dayton, Ohio and the Curtiss Elmwood plant Buffalo, N.Y., was reached late today by the house sub committee.

Representative Anthony, Kansas, sub committee chairman, said that the Dayton property would cost $2,000,000 and the Buffalo plant $1,800,000, in accordance to larger sums already expended by the government.

START TRIALS ON WINNIPEG STRIKE

WINNIPEG, Nov. 10.—An additional court had to be added to the two that have been hearing cases in the assizes. The first of the cases arising out of the strike last June were commenced against Henry Gourks and W. H. Jackson, charged with riot and unlawful assembly. The case was adjourned until tomorrow after some of the evidence had been taken. The grand jury brought in seven true bills in other cases arising out of the strike and three without bills.

HOUSE VOTES OUT SOCIALIST

Berger of Milwaukee Denied Seat in United States Legislature Because of Opposition to War.

WASHINGTON, Nov. 10.—Victor L. Berger, Milwaukee, socialist, was denied his seat in the house today by an overwhelming vote, the house holding he was ineligible for membership because of his opposition to the war. The vote to unseat Berger was 309 to one, Representative Voight, Wisconsin, being only member to support the Wisconsin socialist, either during the debate or on the roll call. After denying the seat to Berger, the house declared that the seat was vacant holding that J. P. Carney, Democrat, who contested Berger's election did not receive a plurality in the election last year.

CABINET NOT YET COMPLETE

W. F. Nickle is Spoken of As Possible Attorney General in New Government.

TORONTO, Nov. 10.—Premier designate Drury is still working on the composition of his government, which is said to be still lacking one or two ministers. Just when the announcement of the names of the members of the cabinet will be made is a matter of doubt. Amid the guessing that is proceeding day after day as to whom Mr. Drury is calling, the names of W. F. Nickle, ex-M.P. of Kingston, continues to stand out as that of the probable attorney general in the new government. With reference to George H. Lock, chief librarian of Toronto who has been mentioned as the probable minister of education for Ontario it is understood that overtures have been made to Mr. Lock.

LAUNCH STRIKES SNAG; SINKS IN TEN MINUTES

PRINCE RUPERT, Nov. 10.—The launch King George sank off Metakata on Sunday through striking a snag, going to the bottom in 10 minutes. Fred Miller, who was on a prospecting trip, was her captain.

SEATTLE, Nov. 10.—With her log book carrying stories of new adventures, the famous old cutter Bear, of the United States coast and geodetic survey, arrived here today, completing her thirty-third annual summer patrol of the Bering sea and other northern waters.

Arctic ice came farther south in the Bering sea this year than ever before, officers of the Bear reported. Great ice floes off Point Hope, Alaska, blocked the Bear's route to the Arctic ocean and made it impossible for her to reach a settlement at Point Barrow, the "corner of the continent," with supplies. The supplies were landed at Point Barrow to be carried overland to Barrow.

SET HOT PACE FOR CLOSING OF CAMPAIGN

KASLO WINS HONOR FLAG; NELSON "BUSTS" VICTORY LOAN THERMOMETER

Armistice Day Incentive to Bigger Things; Small Investors Not to Be Missed

Armistice day sees the big victory loan thermometer in Nelson rendered useless and the reports arriving from all other points in the district indicate that what holds good in Nelson with respect to the loan campaign holds good in the remainder of Kootenay and the Boundary.

Another honor flag winner in the district was reported yesterday. This time it is Kaslo that has reached and exceeded its quota. The Nelson committee yesterday wired the coast for the city's second crest for the honor flag and C. E. Sampson, district organizer, stated last night that the feeling throughout the district was that every community would have reached its quota and won the honor flag before the conclusion of the campaign on Saturday evening next.

Armistice Day Incentive

Armistice day is being taken by committees throughout the district as an incentive to greater efforts and double energy, it is expected, will be put into the campaign for the remaining four days of the week. Particular attention will be paid so none of the small investors will be missed. It is pointed out that the success of all loans floated by the dominion depends to a large extent on the small investors. In the event of anyone who wishes to invest being missed by the canvassers in their tours of the district it is pointed out that they should send their applications to any one of the district headquarters or call on any of the secretaries, who will arrange for the issuance of their bonds.

There has been a considerable increase recently in the number of personal applications which have been made at the local office of the committee.

Nelson's Second Crest.

Nelson yesterday had reached the splendid total of $420,000 or an addition of something like $40,000 for the day. Immediately the figures were known Mayor J. A. McDonald, chairman of the local committee, wired provincial headquarters at the coast and asked that the second crest be forwarded immediately.

The big thermometer which had been placed in front of the local office was made to rise to the $400,000 point but the pace became too hot for it yesterday and last evening a bucket had to be placed in a handy position to catch the overflow. A strenuous effort will be made in the remaining four business days to reach the coveted half million mark. To date there are 578 subscribers to the Victory loan in Nelson.

Kaslo Wins Flag.

Kaslo whose winning of the honor flag was announced last night had a quota of $40,000. The committee in the main lake city which is headed by James Anderson has worked extremely hard and before the week is out it expects to have the quota left far behind.

On Sunday night Rossland had obtained the sum of $45,350 and last night Mr. Sampson who had been in telephonic communication with Mayor Pitt of the golden city stated that the $50,000 mark had been passed. A big effort is being made in the outlying districts of Rossland commencing today which will, it is expected, result in the quota of $104,000 being obtained.

Word from Creston states that the $50,000 quota of that place will be raised in a couple of days. It is expected that at least $75,000 will be raised before the campaign closes.

Trail Hits Hot Pace

Trail campaign has been hitting a hot pace during the past few days and Vancouver headquarters expects that the smelter city will reach the $200,000 mark. The quota there is $160,000.

Sandon committee, according to Mr. Sampson, is now optimistic as to obtaining its $65,000 quota before the campaign closes.

Fernie, with the remainder of Crow's Nest points is going strong. Mr. Sampson will leave by the Crow boat this morning for Creston after which he will visit the other Crow points in turn returning to Nelson on Monday next.

He stated last night that in his opinion it was a neck and neck run between Nelson and Silverton for the big German gun which was being offered as a district prize.

Members of the local committee will pay a visit today to the Eureka mine and this evening the entire committee will gather at the Memorial hall dinner in the Eagle hall when a real "get together" will take place preparatory for the closing days of the campaign.

In Vancouver a "Get Behind the Button" campaign is being inaugurated for the last days of the campaign in an effort to have as many as possible of the citizens wearing the investor's button before the campaign concludes.

WASHINGTON, Nov. 10.—Deportation proceedings have been instituted in a number of cities to rid the country of the violent radicals caught in the nation-wide raids which have been in progress since Friday, Attorney-General Palmer announced tonight. In the meantime the clean-up of the country will continue Mr. Palmer announced tonight, he said there must be "No let-up on the number actually held.

J. W. Baker Sits in Office and Receives Messages of Regret at His Own Demise

VANCOUVER, Nov. 10—J. W. Baker chief operator in Vancouver of the C.P.R. telegraphs, may today with propriety use the famous expression of Mark Twain, who, when denying a rumor of his death, declared that the report was "greatly exaggerated."

In some manner the report of Mr. Baker's death originated in Winnipeg. He is well known in that city, where he was for years connected with the C.P.R. in various official capacities and also was a member of the civic board of control. The report was telegraphed to Vancouver over Canadian Press wires Sunday night and was printed in the Monday morning papers.

At his desk in the C.P.R. telegraph offices this morning, Mr. Baker was in receipt of innumerable "Condolences," while Mrs. Baker, at her home, had to go through the same experience over the telephone.

DOMINION PARLIAMENT PROROGUES

DELAYED BY LAST MINUTE AMENDMENT TO PROHIBITION BILL

May Be Joint Delegation to Imperial Conference; Opposition Questions Government on Intentions

OTTAWA, Nov. 10.—Parliament prorogued at 5 o'clock this afternoon. The ceremony, which was scheduled to take place at 4:30, was delayed half an hour by a last minute amendment to one of the government prohibition bills. Business in the commons was practically concluded at 12 o'clock, and the house suspended until three. Owing to the reassembling it was found that the prohibition bills were not yet through the senate, so a further suspension was declared until 4 o'clock. An hour was spent largely in a discussion of generalities, exchanges of banter, and singing of old songs by the French Canadian members of the opposition side.

Ernest Lapointe, Quebec East, took advantage of the lack of business in the last hour to question the government regarding the proposed imperial conference. It would be important to Canada, he said, as questions of policy were to be discussed. The country should be represented by a government which has the full force of public opinion behind it. The present government, he declared, was not representative of public opinion and he thought it should resign and go to the people.

Hon. C. J. Doherty, who was leading the government, assured Mr. Lapointe that his "pathetic appeal" would not go unheeded. The government would devote very careful consideration to the matter in question.

As to the conference in question the Canadian delegation would in all probability be composed of members from both sides of the house so that public opinion should be very well represented.

J. A. Maharg, from the cross benches remarked that the government should not forget that there was now a third party in the house.

Mr. Doherty: "We all realize that in the middle way lies virtue."

Mr. Mawter: "Since the third party has been voting so consistently with the government, we don't wonder that the minister forgot its existence."

Supply Bill Passed

At the morning session the commons passed the supply bill, amounting to $62,000,000, and put through some minor bills. A certain amount of time was devoted to answering minor questions.

Mr. F. L. Davis, Neepawa, asked Hon. C. K. Doherty if it had been decided when the house would meet again. Mr. Doherty replied that, while the date obviously could not be stated now, the house would meet again early in 1920.

Mr. Ernest Lapointe, Quebec East, asked if Admiral Jellicoe was coming to Ottawa to settle the naval policy, or if the government already had one which he was to approve.

Mr. Doherty replied that the government would set Canada's naval policy and parliament would approve of it. Admiral Jellicoe's suggestions, however, would undoubtedly be of great value in drawing up a naval policy.

Hon. MacKenzie King expressed the regret of members of that side of the house that illness had compelled the absence of Sir Robert Borden during the greater part of the session. He asked Mr. Doherty if he could give any information as to the prime minister's condition.

Premier Recovering

Mr. Doherty replied that so far as he knew, Sir Robert was recovering strength and it was only a matter of time until he would be well again. He could not say, however, when the prime minister could be expected to return to Ottawa.

At 5 o'clock,following three resounding knocks on the door of the commons chamber, the gentleman usher of the black rod arrived to summon the members to the senate, where His Excellency gave assent to the bills which had been passed, delivered the speech from the throne in English and French and dismissed the members. The speaker of the senate then declared parliament prorogued.

Senator Turriff characterized the vote of $20,000,000 for soldiers land settlement as a foolish expenditure, he advised the government to go slow along these lines. He commended the vote of $40,000,000 for soldiers civil reestablishment, strongly opposing a cash gratuity to the men. He argued that the men had been more than fairly treated and was glad that the government had decided not to give them more cash.

Senator Power said the amount of $60,000,000 provided for in the supply bill for soldiers—forty million for reestablishment and twenty million for land settlement was very large. He regretted that some of the returned men appeared determined to sully the glory of Canada's achievements at the front by making excessive money demands at home. The bill was given third reading.

BALFOUR MEN WILL ATTEND 54TH REUNION

At least seven former members of the 54th battalion will be in Nelson from Balfour for the big reunion dinner which the former members of the Kootenay regiment are holding on Nov. 18. Intimation to this effect was given at a meeting of the program committee held yesterday.

There are assurances also that there will be a considerable delegation of former 54th men from nearly all other points in the district.

The program for the event is being outlined and will probably be ready in a couple of days. The committee in charge of arrangements include: Major Gilbert Anderson, D. F. Peters, president of the 54th battalion reunion club, W. Fairbairn, D. O. Thomas and William Holmes.

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

A Simple Way to Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently, with the finger tips.

By morning most, if not all of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, silky, glossy and soft and look and feel a hundred times better.

HOW TO REMOVE WRINKLES QUICKLY

If the average woman only knew it, it is not at all difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or baggy, and practically every one has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off.

As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a moment's time. Let her take one ounce of pure powdered saxolite, which she can purchase at any drug store, and dissolve it in a half pint of witch hazel. Apply this harmless and refreshing solution to the face every day for awhile. The results are surprising, to say the least. Even after the very first application a marked improvement is apparent. The wrinkles are less in evidence and the face has a comfortable, smug feeling of firmness that is most delightful.

BIG INCREASE IN FERRY PASSENGERS

Figures for November 1918 and 1919 Are Compared—Castlegar Ferry Returns

In November 1919 the Nelson ferry carried 1919 more passengers than were carried during the corresponding month of last year. During the month 3582 passengers were carried as compared with 1663 last year. The figures of George Clerihew, master of the ferry, show that there were substantial increases in nearly all vehicles carried. Following are the figures for November 1919:

Autos, 345; single rigs, 235; double rigs, 157; passengers, 3582; freight, 121 tons; horses, 70; cows, 15.

The 1918 figures were: Autos, 136; single rigs, 134; double rigs, 102; passengers, 1663; freight, 59½ tons; horses, 20; cows, 51; pigs, 11.

The returns from the Clumbia river ferry at Castlegar for November were: Autos, 158; single rigs, 17; double rigs, 68; passengers, 1451; horses, 26; cows, four; cycles and motor cycles, 32.

NEW SUPERVISOR FOR PHONE SERVICE

Miss L. E. Gregg of Victoria to Succeed Miss M. A. Harvey on Dec. 1.

Miss L. E. Gregg of Victoria has reached the city to assume the position of district traffic supervisor for the British Columbia Telephone company which is being relinquished by Miss M. A. Harvey of Nelson. Miss Gregg will assume charge of Kootenay district after Dec. 1 and will make her headquarters in Nelson.

Miss Gregg for the past three years had made her headquarters in Victoria where she has been in charge of the company's island district.

Miss Harvey has been with the telephone company for about nine years for the greater part of which time she was attached to the Nelson exchange. Prior to assuming the position of district traffic supervisor she was chief operator here.

Miss Harvey formerly had charge of considerable coast territory for the company as well as the Kootenay distict but her district has now been divided and two supervisors will administer, one with headquarters in Nelson and the other with headquarters in Vancouver. Miss E. Walker has been appointed district traffic supervisor for the Vancouver district.

Miss Doris Johnston is now chief operator at the Nelson exchange.

ERIC RANDELL GIVES RARE PERFORMANCE

A very real treat was enjoyed by the lovers of the best in music, who heard Eric Randell, under the auspices of the Sons of England, at the Eagle hall last evening. Although suffering under the handicap of a severe cold the artist's performance was a veritable triumph, from the first full tones of "The Trumpeter" to the last lingering notes of Tosti's "Good-Bye."

In the former number Mr. Randell displayed a power and brilliance of tone such as have not been heard in Nelson for a very long time. In "Absent," his second number, the versatility of the singer was shown in the wonderful control of his marvelous voice, producing an effect of great sweetness and feeling.

In "Thora," Mr. Randell's voice never failed to satisfy the utmost expectation of the most exacting music lover present. "Nirvana," with its Hindu mysticism, raised the listener to the highest pitch of enthusiasm, while "The Little Grey Home in the West," was rendered with a simplicity and tenderness seldom found in a voice of such power.

"Until" was another brilliant number of Mr. Randall's, greeted, as were all his numbers, with delighted applause. "The Veteran's Song," sung by request, and given with a contagious enthusiasm, proved exceptionally popular.

The strong program of this talented singer was brought to a close by a sympathetic and powerful rendering of Tosti's "Good-Bye."

It is doubtful if Nelson has heard a singer of Mr. Randell's ability for many years.

Stuart Kyle performed the difficult task of accompanying Mr. Randell on the piano with great brilliance and discrimination.

Other numbers on the program of the evening were a solo by Master Springer, and several songs and readings by Mrs. Radley Liversidge.

Master Springer sang very sweetly, "Mother Macree" and responded with an encore, "The Sandman." He was warmly applauded by the audience, including Mr. Randell from the wings.

Mrs. Liversidge recited "The Last Message," with much pathos, responding to an encore with a sprightly number, "The Little Irish Girl." "Liza Brown" and "Mighty Lak a Rose," were the songs sung by Mrs. Liversidge in a very delightful manner.

Miss Alice Campbell accompanied both Mrs. Liversidge and Master Springer.

A. S. Horswill, president of the Sons of England, was chairman of the evening.

BIG PROGRAM IN EAGLE HALL TODAY

Luncheon, Dinner and Dance in Aid of Memorial Hall Fund of St. St. Saviour's Church

One of the feature events of Nelson's Armistice day program will be the luncheon, dinner and dance which are being given in the Eagle hall today in aid of the memorial hall building fund of St. Saviour's church.

The object of the fund is the erection of a memorial hall in commemoration of those who paid the supreme sacrifice in the war in which hostilities ceased just a year ago today. St. Saviour's church had an enviable war record as 200 members of the congregation responded to the call and served with the colors during the war. Of this number 37 paid the supreme sacrifice.

For the affair today one of the features will be the excellent musical program which has been arranged. Master Benson, considered one of Nelson's musical prodigys, will entertain on the piano while Major F. D. Arundel, whose ability as a singer is well known, will also entertain. Major Arundel is a professional singer who has included London, New York and Boston in his tours. He has received tempting offers to proceed east for the coming winter to fill engagements in the larger centres of the east.

In addition to these items the G. W. V. A. orchestra will play during the meal hours and for the dance which is to follow.

Lunch will be served from 11:30 o'clock this morning until 2 o'clock in the afternoon and dinner this evening from 5 o'clock until 8 o'clock.

At the conclusion of the dinner the hall will be cleared for dancing which is expected to commence about 9:30 o'clock and proceed to 2:30 o'clock tomorrow morning.

CHINESE GAMBLING CASE AGAIN ADJOURNED

The trial of the Chinese on the gambling charges proceeded in the city police court yesterday before Magistrate Crease. Further evidence for the prosecution was heard, Sergt. Alex. Stewart of the local police force and Fred Moore who had been sworn in as a special constable for the raid on the Wing Lee's store being called.

The case for the defence was opened. Wing Lee, owner of the premises ,was called as were also Gee Lee and Chong Kee of Trail who were arrested in the raid. Their testimony was in the main an astute denial of any allegations that gambling was going on on the premises in any form.

The case was further adjourned until this afternoon at 2 o'clock. Charlie Chow is acting as interpreter in the case. James O'Shea is appearing for the prosecution and Fred C. Moffatt for the defence.

REBELLION IN STOMACH

"Pape's Diapepsin" at once ends Indigestion and Sour, Acid Stomach

Lumps of undigested food cause pain. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food—just take a tablet or two of Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the pain, acidity, indigestion and distress.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help; remember the quickest, surest, most harmless stomach antacid is Pape's Diapepsin, which costs so little at drug stores.

IF THIN AND NERVOUS TRY BITRO-PHOSPHATE

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well known fact that the lack of phosphorous in the human system is very largely responsible for this condition.

It seems to be well established that this deficiency in phosphorous may now be met by the use of Bitro-Phosphate ,which can be obtained from any good druggist in convenient tablet form.

In many instances the assimilation of this phosphate by the nerve tissue soon produces a welcome change — nerve tension disappears, vigor and strength replace weakness and lack of energy and the whole body loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

CAUTION:—White Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

COAL STRIKE AFFECTS MART

Drastic Depreciation Is Experienced in Nearly Whole List—Losses From Two to 12 Points

NEW YORK, Nov. 10.—Stringent money and the more acute coal strike situation governed the stock market again today. The list almost as a whole experienced further drastic depreciation, extreme losses extending from two to 12 points among important issues. Although last week's bank statement carried actual excess reserves to the largest total of the year, further indications of increasing rigidity were shown in all quarters of the money market. Call loans opened 10 per cent mounting in the last few minutes to 18 per cent, that being the final quotation of the loan. Bidding for time money at 7½ per cent, most loans being timed to the shorter maturities.

Attention was directed anew to the steel strike by the publication of United States Steel tonnage figures in October. These disclosed a nominal gain of 188,000 tons in unfilled orders, a total which probably would have been several times increased but for labor conditions.

Liberty bonds continued to weaken and other domestic issues were irregular with internationals.

Total sales par value, $16,450,000.

LONDON, Nov. 10.—(Canadian Associated Press)—J. A. "Standards of the World"

ARMISTICE DAY

A year ago today the Armistice was signed. The standards of the victorious nations floated in the breeze. Mad joy ran riot.

Then, the welcoming of the troops—Now, re-adjustment and the return to pre-war standards.

There is no call for change in the standard of Gillette. Before the war and through the war, its measure of excellence was maintained. It is firmly entrenched today as a shaving standard for the world.

THE FIRST ANNIVERSARY OF THE ARMISTICE

This is the first anniversary of the signing of the armistice. One year ago today the Germans were scrambling helter skelter in disorderly rout in a hunt for safe places across their own borders. Only the signing of the armistice prevented the German armies from annihilation. Only the signing of the armistice saved the German cities from the destruction which the German artillery had wrought in its advance through Belgium and France.

The signing of the armistice represents the greatest victory in the most gigantic war of history. It left Germany, which had started out with supreme confidence in its ability to bring the world beneath its heel, a broken and disorderly wreck. It left the cause of liberty for which the allied nations fought for five years triumphant and places on record for all time the fact that though Right may at the commencement of a struggle appear weak and inefficient it will in the long run defeat all the legions that Might may bring against it.

Today Canada reverently pays honor to the dead, expresses its appreciation of the sacrifices of the living and celebrates with glad hearts the anniversary of the great victory for the cause of civilization.

NO BED OF ROSES FOR NEW ONTARIO PREMIER.

E. C. Drury, who has been called to the premiership in Ontario, has a difficult job ahead of him. The farmers' party of which he is the leader will not have a majority in the house and Mr. Drury will be in the unfortunate position of heading a government which will have to depend for its term of office upon the will and possibly the whims of the members of the parties elected in opposition to him. Ontario seems to be in for a period of government by groups, which in the past has not proved to be in the public interest.

A government of groups is almost inevitably a weak government. It has to depend for its power upon pleasing more or less antagonistic elements. It is not in a position to go ahead and put into effect one simple definite line of policy which has been approved by the electors.

A group government makes for instability in public affairs, and for frequent changes in policy. Neither is good for the public generally or for public business. British Columbia in the early days experienced somewhat this form of government, and it took it a long time to get over the effects of the experiment, but it is to be hoped Ontario will be more fortunate.

TRYING TO REDUCE WASTE IN COAL.

The Canadian commission of conservation is doing great work along the line of reducing waste. It is work of peculiar importance at this time as not a little of the high cost of living is due to the manner in which our resources are wasted or only partially utilized.

Coal is a case in point. One of the most criminal forms of waste arises out of the manufacture of coke in the old bee-hive style of oven which caused all the byproducts, at the present time of a value about equal to that of coke, to be lost and the commission of conservation is calling attention to this and is gathering valuable statistics and other information to bring about the abolition of this waste.

The commission of conservation is also going into the question of the use of pulverized coal.

Under this process the coal is first dried, to reduce the moisture content to approximately 1 per cent. It must then be thoroughly ground until 95 per cent will pass through a 100-mesh screen and 85 per cent through a 200-mesh screen. The coal is then transferred usually by screw conveyors, to the furnace supply, whence it is blown into the firebox by means of compressed air. Consumed in this way the coal burns like a gas and the flame has the characteristics and appearance of a gas flame. Results of tests have shown that there is no formation of slag in the furnace or on the tubes, there is no shower of cinders or ashes emitted from the smokestack and there is no damage done the boilers from heavy overload conditions.

Both at the pit head and underground in the collieries of Canada is a great tonnage of coal dust and slag, unmarketable except for use in a plant which could use pulverized coal.

HE WENT WITH SPEED

The trial was in the Marion circuit court, on appeal from the police court where the defendant had been guilty of violating a city ordinance prohibiting the throwing of rubbish in the streets, relates the Indianapolis News. The charge had been preferred by a neighbor, who filed his affidavit setting forth that the defendant had willfully, unlawfully and maliciously thrown certain particles of glass into the street in front of affiant's residence.

During the hearing of testimony in the county court the defendant's lawyer, with all sails set, let loose his best line of cross-examination of the complaining neighbor.

"You say, Mr. Witness," the lawyer snarled, "that you saw this defendant throw some glass in front of your house and then run back to his front door—you mean to tell this court that he ran or just simply walked fast?"

"I guess I know when I see a man run," the witness hal fanswered.

"I say, did he run or just walk fast?" the attorney thundered.

"Judge, your honor," the witness excitedly replied, as he turned and faced the judge. "This here same lawyer made me a liar in police court. He might for all I know gone sixty miles an hour. I ain't no judge of human nature."

CLIFF SWALLOW HAS BIG APPETITE FOR BUGS

A cliff swallow will eat a thousand flies, mosquitoes, wheat midgets or beetles that injure fruit trees in a day and therefore are to be encouraged, says the American Forestry Association, of Washington, which is conducting the nation-wide campaign among school children for bird-house building. This bird is also known as the cave swallow because it plasters its nest on the ontside of a barn or other building up under the eaves. Colonies of several thousand will build their nests together on the side of a cliff. These nests shaped like a flattened gourd or water bottle are made of bits of clay rolled into pellets and lined with straw or feathers. This bird winters in the tropics.

MONTREAL WILL MAKE MOST OF BREATHING SPACE

VANCOUVER, Nov. 10.—A special to the Province today from its Ottawa correspondent says:

"Montreal firms are preparing to do an immense business soon in the export of liquor to various provinces of the dominion. It is thought there will be an interregnum during the period between the signing of the federal proclamation and the taking of a referendum by any province which wishes to prohibit importation of liquor.

"During this period it will be permissible to import liquor for private use. It is said that the federal proclamation will be issued shortly."

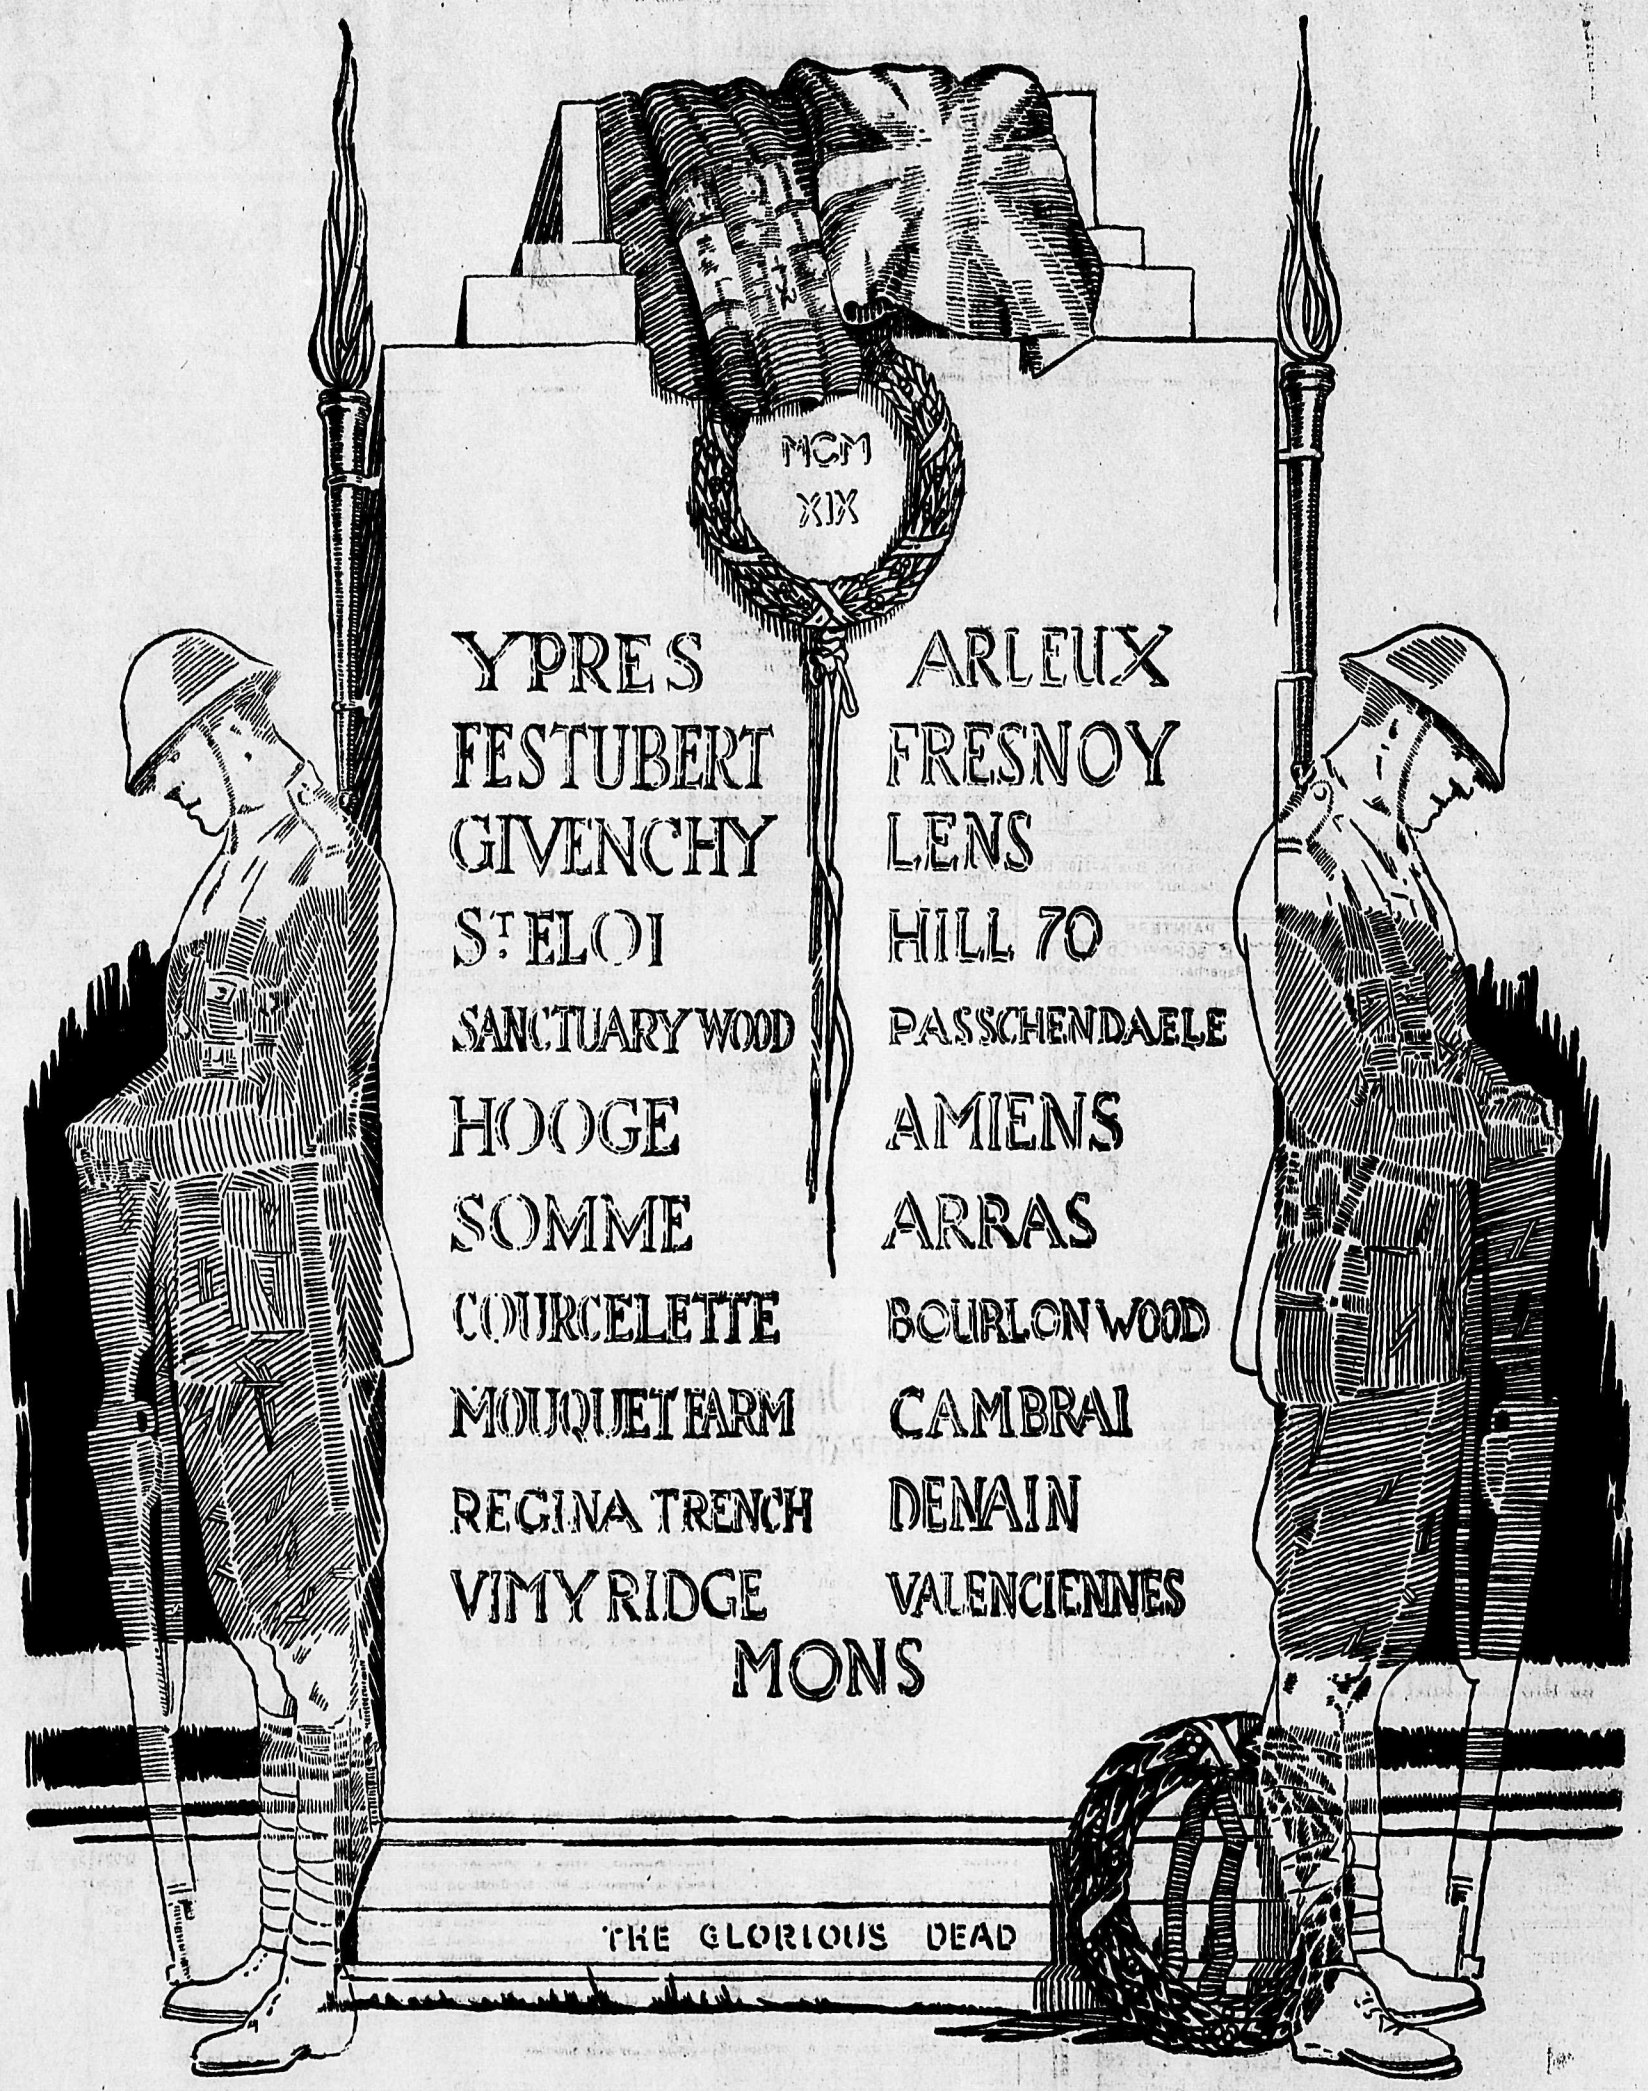
HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada



"Lest We Forget"

Whoever you may be, go into your room to-day and sit quietly for a few minutes. Canada asks you for these minutes in Meditation upon Her Immortals.

Their spirit, the spirit of devotion to duty, of love of Canada and of home that illuminated their lives and made glorious their death, still lives. May it live in you and in me. May we be so inspired that from now onward, constrained by the love of Canada, we may ever advance her interests, ever work for a greater and more glorious Canada.

To-day is a day of memory, of thanksgiving, and to-day Canada has indeed the right to require from you a thanks offering. But no such demand is made. Canada simply asks you to the fullest extent of your capacity to advance her trade, production, and prosperity, and by so doing help yourself, protect your family, increase your income and all without risk.

CHAMPION CUBS ARE OUT TO WIN AGAIN

Junior Hockey Stars Have Team Lined Up For Coming Season —Les. Steel Manager.

The Nelson Cubs, junior hockey champions of West Kootenay, are lining up for the coming hockel season. Les. Steel who will once more manage the aspiring world beaters has all his material lined up and is figuring on having a much stronger aggregation on the ice than he has had during the past few seasons when the boys romped home the winners in the vast majority of their encounters.

The Cubs have now been four seasons together and in 28 games played have won 20. Two years ago they won the cup emblematic of the West Kootenay junior championship, and last season they successfully defended the title against Trail and Kaslo teams.

C. Cryderman who has captained the boys for several seasons will again pilot the champion junior team and he states that he has assurance from all of last years players with one exception. Scanlan, last year's goalkeeper, is in Trail and will probably figure in the lineup of one of the smelter city aggregations this year. Other new material is also in view.

Among those who are lined up for the coming season are: L. Choquette, D. Hinton, L. Desireau, S. O'Gorski, F. Ingram, J. Curran, G. Dill, G. Marquis and C. Cryderman.

FOYSTON AND HOLMES PLAY WITH SEATTLE AGAIN

SICK HEADACHES CONSTIPATION

If you have suffered from constipation for years, tried doctors and all the remedies you ever heard or read of, without getting relief, if you have been subject to all the miseries associated with constipation, such as sick and bilious headaches, biliousness, specks floating before the eyes, water brash, heartburn, jaundice and the painful, troublesome, internal bleeding or protruding piles, etc., wouldn't you consider it a blessing to be able to keep the bowels in a good healthy condition and prevent disease getting a foothold on your system.

Milburn's Laxa-Liver Pills are indicated just for this purpose; their regular use relieving the worst cases of constipation.

Mrs. Malcolmn McDermid, Cranton Station, N.S., writes:—"I have been sick for a number of years with sick headaches and constipation. I tried all kinds of doctor's medicine, but none did me any good. I tried Milburn's Laxa-Liver Pills, and after usuing four vials I am completely cured and would heartily recommend them to all sufferers."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

DOMINION PARLIAMENT PROROGUES

(Continued From Page One)

bills were successful in running the gauntlet of the upper chamber before the prorogation of parliament today. The bill to amend the Canada Temperance act by making provision for provincial plebiscites on the petition of the legislature to decide on the matter of importation of liquor came in for the most criticism. An amendment moved by Senator Ross, of Middleton, N. S., to defer consideration of the matter until the next session of parliament was negatived on a vote of 18 to 12, and the second reading declared carried on the same division, the vote being as follows:

Senators Ross, Milne, McDonnell, White (Montreal), Pringle, Bostock, Powers, McSweeny, Prouse, McHugh, Desaulniers and Gloran—twelve. Nays—Lougheed, Bouldoc, Gordon, Murphy, Sharp, Foster, Turriff, Blain, Tanner, Girroir, Webster, White (Pembroke), Proudfoot, Thompson, King, Beith, Yeo and Watson—eighteen

Senator Ross also moved, the six months hoist for the second government bill to amend what is known as the Doherty act, by providing that liquor may not be manufactured for use in contravention of the laws of a province, making it possible to prosecute the sender as well as the receiver of the liquor illegally shipped.

The vote on this question was as follows: Yeas—Ross, Milne, Gordon, Murphy, McDonnell, White (Montreal), Bostock, Powers, McSweeney, McHugh, Cloran and Desaulniers—12. Nays—Lougheed, Foster, Turriff, Sharpe, Blain, Tanner, Girroir, Webster, Whitel (Pembroke), Proudfoot, Thompson, Yeo, Watson, King, Beith—15.

Both divisions were along non-partizan lines. Senator Ross was strong in his condemnation of the second bill, more particularly the second clause providing for the prosecution of the shippers. He said a man could be prosecuted thousands of miles away from the district in which he resided. He said that such legislation would not have been tolerated in Russia in the days of the czar, although it would be quite in keeping with the regime of Lenine and Trotsky. His objection to the other bill was not based upon the principle of the measure, but on the contention that it should not have been brought into the senate at a late stage of the session and should be held over until the next session in order that everybody could be heard.

Sir James Lougheed in reply took the view that this would be futile because of the strong temperance wave which was sweeping over Canada and the world. In brief, he contended that it was the duty of the upper house to give the people what they wanted. The bill to amend the Doherty act was so amended as to provide for the sale of liquor for medicinal and sacramental purposes. When the senate reassembled after the noon recess, Sir James Lougheed introduced the supply bill amounting to $62,000,000. Senator Bostock criticized the bill as being a large one in view of the fact that it was a special session of the house.

Speech From The Throne.

The speech from the throne was as follows: Honourable Gentlemen of the House: In relieving you from further attendance on this session, I thank you for the diligence and efficiency with which you have discharged your duties. Measures of great significance and importance have engaged your attention. The treaty of peace conclused by the allied and associated powers with Germany and signed at Versailles on the June 28, 1919, and the treaty of peace between the same powers and the republic of Austria, signed at St. Germaine-En-Laye on September 10th, 1919, have been presented to you and received your approval. These treaties, which have now been approved by Germany and Austria, on the one hand, and by at least three of the allied and associated powers on the other hand, await only the exchange of ratifications to enter into full force and effect.

I fervently trust that the provisions of these treaties, marking as they do the termination of hostilities, may usher in for humanity an era in which great wars may be prevented and the blessings of world peace effectually secured.

Canada bore a large part in the operations of the war and contributed notably to its successful completion and it is therefore gratifying to be able to note the distinguished position accorded to her in the conduct of the negotiations in the peace conference at Paris.

The visit of His Royal Highness the Prince of Wales to Canada has been a source of deep and widespread satisfaction. The universal welcome which has been extended to him is an evidence of the devotion of the Canadian people to the throne and the British institutions. This welcome so wholehearted in character is undoubtedly a tribute to the high personal character and qualities of His Royal Highness who, in peace and in war has closely identified himself with Canada, and shown his earnest desire to promote the welfare of the people of this dominion. The acquisition of the Grand Trunk properties and their addition to the existing national railways will materially promote the successful and economic administration of the whole system, and greatly aid in the solution of important problems of Canadian transport.

The adoption of the report of the committee of the house on bill number 10 will extend the scope and application of the important measures already taken for meeting the needs of returned soldiers and their dependents.

The adoption of the classification of the civil service of Canada will make it possible for the commission to proceed at once with the further organization of the service. The success which has greeted the inauguration of the victory loan is a tribute to the patriotism and organizing capacity of Canadian business men and fully demonstrates the determination and readiness of the country to fulfil its obligations to its soldiers, maintain the credit of Canada, and strengthen its trade posit on.

In a servey of the economic and social conditions throughout the world, it is satisfactory to note that Canada's position compared favorably with that of any other country and is far more favorable than most With the accordant action of labor and capital, aided is it has been by the industrial conference, lately held, and with the continued application of our people to productive pursuits, accompanied by rigid adherence to thrift and saving, we can face the coming years of reconstruction and adjustment with hopeful confidence.

Gentlemen of the House of Commons: I thank you for the provisions made for the public service along the lines of reconstruction and aid for the returned soldiers.

Honourable Gentlemen of the senate, Gentlemen of the House of Commons: I devoutly pray that Almighty God may incline our minds to sane and prudent counsels, may inspire all our people with the will to work and to save, and continue the lessons of peace and prosperity within our borders.

SOLDIERS WILL MEET TO FORM PARTY

WINNIPEG, Nov. 10.—The matter of forming a political party will be put squarely up to returned soldiers at a mass meeting here on November 20. There is little doubt that a khaki party will be started and the chief matter of speculation is the platform and the choice of leaders.

Robt. Carroll, the 17-year-old Sarnia boy who was accidentally shot while out hunting, had his arm amputated two inches below the shoulder.

Got Rid of The Cough That Sticks

Some coughs seem hard to shake off—stick right to you in spite of all you do to get rid of them.

Those are the kind of coughs that are dangerous—that weaken the lungs so that the germs of consumption find a ready foothold.

We know of no remedy that will cure stubborn coughs—coughs that won't let go—like Dr. Wood's Norway Pine Syrup.

Mrs. Geo. Allen, Petite de Grat Bridge, N.S., writes:—"Last winter I had an awful cough that kept me in the house for over two months. I tried several cough remedies, but got no relief. I was almost discouraged when a grocer here offered me a bottle of Dr. Wood's Norway Pine Syrup. After taking that one my coughing began to cease. I took two more and they cured me completely."

Get the genuine Dr. Wood's Norway Pine Syrup; put up in a yellow wrapper; 3 pine trees the trade mark; price 25c. and 50c.; manufactured by The T. Milburn Co., Limited, Toronto, Ont.

MULHOLLAND WANTS MAPS UP TO DATE

To the Editor of The Daily News:

Sir—I wish to draw the attention of the board of trade, through your paper, to one of the most essential needs, in connection with assisting the mining industry by improving the conditions surrounding it. It is a point htat has been much discussed the past year or so, and it is, that the province needs a new geological survey.

A small amount of work has already been done, but this is insufficient. In fact, nearly all those districts are incorrect. In one district alone five miles of sedimentary rocks lie in between granites, which the map shows all granite.

No blame can be attached to the engineers who did the work, for they had not the time to cover the whole district. It appears that the backbone of the ranges, and the main waterways, were their general route of travel, and they surmised at what lay in between.

What we need is thoroughly reliable information, with maps giving full details and these maps should be in every government office for purchase.

Nearly every day someone is asking me for information regarding certain districts, with a view to prospecting, but I cannot always give the information required, although I have personally covered a large area, there is a lot yet that I have not seen. And this information should be where it belongs, and that is, in the government office.

This subject, I believe, could be taken up by your board of trade, which could request the British Columbia department to co-operate with the dominion government in obtaining the results so much needed.

J. W. MULHOLLAND,
Prospector.

POPULAR VETERAN OFF FOR THE OLD COUNTRY.

To the regret of his very many friends in Vancouver and Nelson, says the B.C. Veteran's Weekly, Comrade B. C. Tyler leaves Canada on Sunday next for the Old Country, where he will make his home in future.

Since his return from overseas, where he served with the C.E.F. in Flanders, attached to the 5th Battalion, Comrade Tyler has been a tower of strength to the G.W.V.A., the honor of a seat on the provincial executive being conferred on him at the last convention.

Comrade Tyler takes with him to his old home the best wishes of his comrades here, and a fine endorsement of the work he has done from the provincial executive.

Two rats will increase in twelve months to 4,000.

GREAT NORTHERN FINDS PREMISES

Telegraph and Ticket Office Will Be Housed in Part of Old Premises in Griffin Block

Word has been received from the head office of the Great Northern Railway company in St. Paul, confirming the choice of the premises at 421 Baker street, at present occupied by the John Dunlop company, in the Griffin block, for the new quarters of the company's local ticket and telegraph office. This is the west half of the stand occupied by the company some years ago.

E. L. Buchanan, ticket agent of the company, expects to move into the new quarters from 509 Ward street, within the next fortnight, by which date, probably, a telegraph operator will have been secured.

PROCESS IS DECIDED FOR CALIFORNIA ORE

Stamps Will Be Retained But Ball Mill Ball Will Be Added—Ninety Per Cent Recovery

The process by which the ore of the California mine, on Morning mountain, Nelson, will be treated, has been decided, and the California Mining company is now about to place its order for the necessary new machinery, John R. Cassin, president of the company, who is up here from Spokane, stated yesterday at the Hume. Experimentation carried on at the Athabasca mill, by Cecil E. Crossley, provided the basis on which the process was determined.

At present the mill, which was built to treat Athabasca ore, is purely a stamp mill. To the 10 stamps, will be added a ball mill which will be used for primary grinding and which will operate in a close circuit with the classifier. The product will pass over Senn amalgamating tables, and will finally be treated by oil flotation. The experiments indicate that 90 per cent of the values can be saved by the treatment outlined.

No extension of the mill building will be required. The capacity of 25 to 30 tons may be increased by putting in additional grinders and tables, as the output of the mine may require.

Speaker of Legislature Feels Younger than Ever on Emerging From Hamilton Hospital.

Sheriff Doyle yesterday received a telegram from Hon. John Keen, of Kaslo, stating that he had been moved from the Hamilton hospital to the Toronto General hospital, and that he expected to leave there next week. The telegram says: "Doing well in hands of expert. Hope to get out of here next week. Feel younger than ever, but had a hard time after four operations."

The speaker of the British Columbia legislature left for Ottawa in the summer as a delegate to the Dominion Liberal convention, and was taken ill practically on his arrival.
