FRANCHISE QUESTION CONSIDERED

Enumerator Method of Preparing Voters Lists Raises Opposition

CLAUSE CARRIED ON A DIVISION

Returned Men Disfranchised Have Dominion Vote Irrespective of Race

OTTAWA, June 21.—After a month in suspense, the franchise Bill was again to the front in the house today. During the previous weeks of consideration, practically all the hundred and one clauses of the bill were adopted. But a few remained with the bill still in committee. Today *they were subjected to a whole series* of technical amendments, adopted generally with little discussion. A declaration made by Hon. Hugh Guthrie, solicitor-general, however, aroused keen discussion.

It was on the clause relating to the preparation of voters lists. When last before the house, the clause gave rise to controversy. There were conferences between representatives of the two sides of the house, although they failed to result in a *satisfactory solution. Mr. Guthrie* frankly declared his intention of asking the house to adopt the principle laid down in the bill, as presented to the house. The system of preparing lists therein laid down, would involve some expenditure, but, in Mr. Guthrie's view, it would give as honest a list as it would be possible to get.

Opposition members strongly disagreed. Hon. Mr. King argued that it was perpetuating the enumerator method which had been so objectionable a feature of the War Times Election act. Hon. W. S. Fielding thought the government would be employing an army of enumerators for the purpose of making the election lists partisan.

Carried on Division

D. D. McKenzie declared that the minister would have control over the voting, lock, stock and barrel.

Eventually the clause carried on division. More important among the amendments made to the bill provide that:

1—The last provincial lists shall be used as a basis for preparing federal lists when such lists are not more than two years old, instead of not more than one year old, as the *bill originally provided.*

2—In Ontario, where no regular provincial list is available, but a list is on course of preparation under the provincial law of 1920, a list revised by a county judge, this latter list will be accepted as the basis.

3—One registrar is to be appointed in places of from 1000 to 4000 population with an additional registrar for each 4000 more of population.

4—Advance polls to apply only to railway employees, sailors and commercial travellers.

5—An elector disfranchised under provincial statute, by reason of race or color, is entitled to vote in Dominion elections if he served in the Canadian forces.

One Principle for Dominion

OTTAWA, June 21.—The committee turned to the clause dealing with the preparation of voters lists. This clause aroused considerable controversy when last before the committee. *A great many suggestions* in regard to the clause had been made at various times, said Mr. Guthrie. There had been a conference between both sides of the house, which, however, had failed to reach any satisfactory basis.

He was of the opinion that it was better to adopt one general

DISCOVER LAWS OF ANCIENTS

Clay Tablets in Pennsylvania Museum Show Civilization of Great Antiquity

PROPERTY MUST NOT BE IDLE

Personal and Property Rights Detailed; Translators Are Busy in Research

PHILADELPHIA, June 21.—The oldest known written code of laws in the world, probably antedating that of Hammurabi by at least a thousand years, has been discovered, in part, among the hitherto untranslated city tablets from Nippur, at the University of Pennsylvania museum.

The Hammurabi code was prepared about 2100 B.C., and was discovered about 20 years ago on a large diorite stone by French explorers.

The laws, which have just been translated by Abbe Schell of Paris, dealt with responsibilities of hired servants, with trespass on farms orchards, harboring of slaves, rentals, rights of slave women who have borne children to their masters, pu*nishment for adultery, etc.*

One interesting statute provides that rentals must run for three years, in case a man has taken over a house the owner does not know how to manage. This is somewhat *obscure and may mean that all* rentals were for that term. In any event property could not lie idle or be improperly used, if some one was willing to use it for private benefit.

In general, the laws show a high state of civilization 8000 years before Christ, and indicate milleniums of previous experience in settled communities.

They deal with personal and property rights on a basis somewhat like that of the Deuteronomic code. It is possible the tablets were textbooks used at the Great University of Nippur. The discoveries are considered of the highest importance, and search will be made for further tablets containing additional laws.

LOS ANGELES HAS AN EARTHQUAKE

LOS ANGELES, June 21.—An earthquake shook the city at 6.47 p. m. Several buildings were reported to have been slightly damaged.

Bricks falling from a building at Sixth street and Grand avenue injured a pedestrian. The buildings were so violently shaken that their occupants fled to the street.

The shock was felt in Long Beach, San Pedro, Santa Monica and Redondo Beach, according to reports to the Pacific Telephone and Telegraph company, Whittier, Covina and other inland points reported they had not noticed the quake.

A slight earth tremor was felt here Friday morning. Officials of *the fire and public works depart*ment, half an hour after the shock, said no serious damage had been reported. Several cracks were made in the walls of the city hall. Electric light and gas connections in the town of Inglewood, 10 miles southwest of here, were cut off by the earthquake.

In the business district of Los Angeles the damages consist largely of broken plate glass windows. The Edison building, an 11-story structure,, and the Laughlin building, formerly separated by a few inches, were jammed together by the shock.

FORMER GERMAN EMPRESS NOW SERIOUSLY ILL

THE HAGUE, June 21.—The former German empress is reported to be in a serious condition, and the former Crown Prince Frederick William has been called to his mother's bedside. He left Wieringen this morning for Doorn. Prince Joachim, the youngest son, is already there. The former empress is said to have taken a turn for the worse yesterday.

JAPANESE INDIGNANT AT MASSACRE

Blame Government for Bolsheyik Slaughter of Garrison at Nikolaievsk

TOKIO, June 21. —, Indignation caused by the recent massacre of the Japanese garrison at Nikolaievsk, Siberia, by Bolsheyik forces, has been voiced at almost daily mass meetings here. This culminated today in a reunion arranged by advocates of universal suffrage, at which 20,000 persons were present. Following speeches blaming the gov*ernment for the massacre, many of* the crowd tried to reach Premier Hara's residence, for the purpose of demanding his resignation.

The demonstration, however, was broken up by the police, who dispersed the crowd.

FEHRENBACH NEW GERMAN CHANCELLOR

PARIS, June 21. — Konstantine Fehrenbach, president of the German National Assembly, has been appointed chancellor, according to a dispatch from Berlin today.

INVESTIGATE CHICAGO RIOTS

Supposed to Originate With "Back to Abyssinia" Movement

CHICAGO, June 21.—With R. D. *Jonas, said by the police to be the* white leader of the organization advocating the return of negroes to Abyssinia, Edward Redding, and seven negroes under arrest in connection with a riot last night, in the Chicago black belt, that resulted in the killing of two white men, and the wounding of several negroes, police and federal officers began an investigation of the "Star order of Ethiopia," whose members were reported to have participated in the affair.

The police were still searching for Joseph Fernon, who is said to call himself "The Great Abyssinian," and his son. According to reports, they garbed in fantastic raiment, also were leaders of the parade. Jonas said that he had warned federal officers last week of the proposed parade of the Cult, and that they should be on the watch for trouble, but declared that no attention had been paid to his statement.

Packages of pamphlets explaining "Egyptian Secrets," were taken from Redding. He had concealed them under his clothing. They were held as evidence of his alleged activities among negroes in spreading the *cult.*

The inquest into the deaths of Charles Hoyt, a cigar store clerk and Robert L. Rose, a sailor, victims of the riot, was postponed until June 26, at the request of the police. Captain Caughlin of the Cottage Grove Police, declared that he had three of the men believed to be implicated in the shooting under arrest, and wanted more time to search for a fourth, said to be a negro former soldier.

While the police were quizzing the alleged leaders of the Abyssinian cult, Edward J. Brennan, chief investigator for the Department of Justice started an inquiry on behalf of the government. He said a searching investigation would be made to determine just how far the Abyssinian movement had spread, and what individuals are behind it.

Resolutions denouncing Jonas as a white leader, responsible for creating unrest *among the negroes,* were passed today by several negro soldiers. They say that the riot was not caused by racial feeling, but was the result of radical propaganda and that reputable negroes had no *part in the movement.*

Jonas was said to have been the chief speaker Sunday at a meeting to urge mayor Thompson to become a candidate for president on a third party ticket backed by the "Solid Irish and Negro vote."

Thousands of pieces of literature relating to the Abyssinian movement were seized by the police in a raid on a garret on the southside. According to the police, one leaflet boasted that a standing army of four million was among the papers. They were captioned "Star order of Ethiopia," and bore bible quotations.

WILSON APPOINTS GREEK MINISTER

WASHINGTON, June 21.—Edward Capps, New Jersey, was named today by President Wilson as minister to Greece. S. Parker Gilbert Jr. was nominated as assistant secretary of the treasury.

ADHERE TO TREATY OF VERSAILLES

Boulogne Conference Requires Germany to Comply With Disarmament Terms

NO EXTENSION OF TIME TO TURKEY

Reply Must Be Submitted to Peace Conditions on Date Already Fixed

BOULOGNE, June 21 (Associated Press).—Turkey will not be given an extension of time to consider the peace treaty, according to a communication given out by the delegates after their return from the conference at 8:30 o'clock tonight. The communication says: "The Turkish question has been considered, and it has been decided to maintain the date of June 26 for Turkey to submit her reply to the peace conditions."

Marshal Foch and Field Marshal Sir Henry Wilson obtained approval of the text of the allied notification to the German government regarding disarmament, the destruction of war material, and the reduction with the least delay of troops, as prescribed by the treaty of Ver*sailles, the clauses* concerning which have not been executed or which have been incompletely fulfilled thus far.

The conference of the premiers will tonight or tomorrow send to *Germany a letter demanding* execution of clauses of the Treaty of Versailles relating to disarmament.

The text will not be given out until it is received in Berlin, but the letter is understood to be a categorical refusal to allow Germany to maintain an army of 200,000 men.

This letter, which Marshal Foch and Field Marshal Wilson finished drafting at their hotel, while most of the delegates attended a picnic lunch was taken up by the council immediately upon re-convening this afternoon.

Experts Assess Indemnity

The conference also discussed preparations and the Turkish situation at this session, which was prolonged until a late hour. The premiers considered the reports of the financial experts as well as the reports of the reparations commission, which, for the first time is sitting here concurrently with the peace conference. *The experts fix the max*imum total sum Germany is to pay, with interest in annuities, at a minimum of 3,000,000,000 marks gold which is susceptible of increase in properties to Germany's *economic recovery, and increased* capacity to pay.

While the members of the conference seem agreed as to the amounts and conditions of payment they do not agree as to the division of the reparations among themselves because of Italy's demand for 20 per cent of the amount instead of 7 per cent as already allotted. Both the reparations and Turkish questions will be considered tomorrow.

Although the Hythe meeting resulted in agreement regarding Greek military activites in Turkey, the conference has not yet reached a decision on this subject. The delegates hope to conclude the conference so that they may be able to leave Boulogne Tuesday evening.

THE DAY IN PARLIAMENT

The House

OTTAWA, June 21.—Further consideration was given to the franchise bill in committee. Progress reported.

Bill to amend the Naturalization act of 1914 considered in committee.

The Senate

By a vote of 23 to 10 the senate recorded its opinion that the work of reorganization of civil service should be performed by Canadians.

Motion to increase the rate of interest paid to depositors in government savings banks from 3 per cent to 4 per cent lost on division.

Bill to amend the customs tariff and business profits war tax acts reported from committee.

TRADES UNIONS BOYCOTT HUNGARY

Allege That Budapest Government Is Persecuted by Hungarian Workmen

VIENNA, June 21.—The boycott against Hungary, proclaimed by the executive committee of the International Trades Unions, because of alleged persecution of Hungarian workmen by the government at Budapest, commenced today. Postal and telegraph communication with Germany has been almost completely interrupted.

PRINCE RUPERT HIT BY HURRICANE

PRINCE RUPERT, June 21.—Stewart was hit by a hurricane during the weekend. It came up suddenly and passed in half an hour. Tree snapped, A. McPhee's house was blown from its foundations, a cabaret was shifted sixty feet, launches were torn from their moorings, and Marshall Green, of Hyder, who was helping to prevent a piledrived being blown away, was upset from his boat and rescued with difficulty.

CRANBROOK LADIES DROWNED IN MOTOR LAUNCH ACCIDENT

FERNIE, June 21.—A boating accident has been briefly reported by wire 22 miles north of Cranbrook last night, when a launch upset in a heavy current there. The dead are stated to be: Mrs. A. G. Blaine, Mrs. A. Moe, both of Cranbrook; Miss Faith Ewing, Kimberley and Miss Thelma Herriott, St. Marys.

No further details are available at present.

VANCOUVER FIRE VICTIMS IDENTIFIED

Heroic Janitor Gives Life to Alarm Tenants in Burning Building

VANCOUVER, June 21.—With the establishing of the identity of two charred male bodies found on the fifth floor of the ill-fated Balmoral *Apartments, as being those of* S. A. Spencer and Theodore Hanson, of Long Beach, Cal., the police believe that the death list of Sunday's disastrous fire is now complete. Eleven persons, first reported missing, have now been located, and the fire officials announce that they are satisfied that no other bodies remain beneath the debris, which litters the interior of the building.

"The body of the heroic janitor, S. A. Spencer, who sacrificed his life when caught on the fifth floor, while alarming the tenants, and to whom many owe their lives, was identified by his daughters. It was through a statement made by John Halland, who was injured when attempting to escape by way of the roof, and was carried to safety by a fireman, that the police were able to identify the body of Theodore Hansen.

Discovery that the Balmoral Apartments were lacking in the fire protection equipment required by law has led to a request to Provincial Attorney General Harris that he order an inquiry to be held.

DOCTORS ADVOCATE LARGE HOSPITALS

VANCOUVER, June 21.—The importance of developing large and fully equipped hospitals to serve a larger area than at present, was emphasized by Dr. H. E. Young, of Victoria, president of the Canadian public health association, at that organization's annual convention here this afternoon. This plan, he said, was more economical and efficient than the present system of many small hospitals inadequately supplied with necessary apparatus and laboratories. Others who spoke on the subject were Dr. John Amyot, deputy minister of the federal department of public health; Dr. McCullough, representing Ontario; Dr. Gordon Bell, Manitoba; Dr. Baudoin, Quebec, and Dr. Whitla, Edmonton.

WIRELESS MEN NOW ON STRIKE

Seamen and Firemen Will Not Sail Unless Union Operators Are Aboard

LIVERPOOL, June 21.—Permission has been granted by the Wireless Operators association for the steamers Havorford and Belgic to sail without union operators on board. This decision was taken so as to not inconvenience passengers already at Liverpool.

Ten or twelve other steamers due to sail within the next few days, will be held up, unless the strike of wireless operators is settled, the stewards, seamen and firemen having today decided to refuse to board their ships unless they were provided with union operators.

Similar action was taken at Gravesend and Tilbury.

ROBBED MERCHANT OFFERS A REWARD

TORONTO, June 21.—A reward of $10,000 has been offered by Abraham Rosenthal, diamond merchant, for information leading to the arrest of the bandits who held him up in his store on King Street, Friday evening, and stole diamonds and jewelery estimated at from $50,000 to $75,000, on which there was insurance of $20,000.

DISAPPEARANCE IS INEXPLICABLE

Mayor of Iroquois Falls, Ont., Missing for Five Weeks Without News

IROQUOIS FALLS, Ont., 21.—Samuel G. McCoubrey, mayor of this town for six years, left Toronto for Montreal May 14 last and has been missing ever since. Members of the town council and his relatives have heard nothing of him and his continued absence is inexplicable.

VOLLEY FIRING CONTINUES IN LONDONDERRY; FACTORY GIRLS TERRIFIED IN STREETS

Normal Life Entirely Suspended; One American Killed and Many Persons Wounded; Plans Laid to Combat General Railway Strike; More Troops Land at Dublin

LONDON, June 21.—Dispatches from Ireland are evidently undergoing heavy delays. Telegrams to the news agencies filed at midday occupied five hours in transmission. They confirm that the normal life of the city has been suspended in Londonderry, all vehicles have been withdrawn from the streets and shops and banks are closed. The quays, being under fire, employees have been obliged to cease work and seek their homes. Thousands of factory girls likewise during the firing were seen fleeing terrified along the streets.

No mail was delivered today. Organized groups of men were observed kneeling and firing volleys at the word of command.

LONDON, June 21.—A message from Londonderry to the press association timed 9:50 p.m. reports the city quiet at that time. The military is in charge of the streets. In addition to the killing of an American named McKay, the message says, several persons were wounded in today's firing.

Another man was shot dead in Londonderry this evening. Harold McKay was the victim. He was cycling from the railway station when struck. His pockets were rifled and his bike was stolen as he lay dead.

LONDON, June 21.—Plans for a motor lorry transport system, covering the whole of Ireland, in case the trouble over the handling of troops and munition trains results in a general strike, have been worked out by the government. It promises as effective a system of transport as was inaugurated during the railway strike in England.

DUBLIN, June 21.—Today's addition to the number of troops reaching Ireland was 700 men, with material, which the railroad men and dockers refused to handle. The supplies were unloaded at Dublin by troops.

DUBLIN, June 21.—A railway strike is now considered inevitable. Most of the railway companies hitherto have turned a blind ear to the refusals of the men to handle munitions trains, and thereby avoiding a strike, but Premier Lloyd George's attitude makes it plain the government will press the companies to accept munitions traffic, and as the men outside Ulster will not handle munitions and troop trains, a conflict is looked for.

The driver of the train which was held up at Cloughjordan, because the railwaymen refused to take it further with armed police aboard, has been summoned to Dublin, and the expectation is that this will lead to trouble.

DUBLIN, June 21.—An authoritative contradiction is given to the widely published statement that the government contemplates a general roundup of Sinn Feiners and extensive operation of martial law. Raids and arrests will only be relative to specific crimes. An official statement issued at Dublin Castle says that a train was stopped at Cloughjordan owing to the railway workers refusing to continue with armed policemen aboard. It is believed the government intends to make this a test case in order to determine its action towards striking railwaymen. All rail raffic between Nenagh and Dublin has been suspended.

END CONFERENCE ON WEST INDIES

Trade, Steam Service, Transport and Cable Communications Dealt With

OTTAWA, June 21.—The labors of the Canada-West Indies conference have been brought to an end after a session of several days. All the colonial governments have been represented, which marks a notable advance over the conference of 1912, when some of the most important *administrations were not includ*ed. The conference was also attended by the Hon. Lieut.-Col. Amery, M.P., on behalf of the secretary of state for the colonies, and by Major Edwards, British trade representative in Canada. The subjects considered divided themselves into three, on the following order of importance: Trade, steam service, transport and cable communications.

Committees were instructed to deal with the second and third of the subjects named. On transport, Hon. Mr. Ballantyne and Sir Geo. Foster represented Canada and on the subject of cable service Hon. Mr. Burroll assisted the work of the committee. In both these committees *valuable assistance was rendered by* Admiral Allen Everett and some of his staff, who happened to be in Ottawa.

An arrangement touching the three subjects named was concluded and signed by all the representatives of the governments represented. This agrement is subject to the consideration and approval of the different legislatures and the approval of the secretary of state for the colonies.

Lieut.-Col. Amery's advice and counsel contributed very materially to the success of the conference.

On the whole it is said that the outcome of the 1920 conference will mark a distinct and significant view *in the development of trade and* social relations between these two divisions of the British commonwealth.

CANADA SENDS GOLD TO STATES

NEW YORK, June 21.—The branch of the Bank of Montreal here today, acknewledged the receipts of $4,000,000 of gold from Canada. There is no justification for reports that this gold is for account of the Anglo-French loan expiring next October, it was said. The consignment probably is to be used in payment of commercial transactions originating in this market, it was stated.

WILL PRESENT CASE ON SUGAR

OTTAWA, June 21.—(Canadian Press)—The case for the retail grocers as regards the sale of sugar will be presented to the board of *commerce of Canada within the next* few days. E. M. Trowern, secretary of the Retail Merchants association of Canada, is here from Toronto, and is preparing a memorial to be read before the board. A hearing will be appointed as soon as Mr. Trowern is prepared to go on with it and will be held in Ottawa.

ATTEMPTED TO MURDER

Manitoba Veteran Found Guilty Is Recommended to Mercy

WINNIPEG, June 21. — George Locke, of Argyle, Man., returned veteran, charged with attempting to shoot and kill his sweetheart, Miss Myra Fidler, of Selkirk, at Winnipeg, April 12, when she refused to marry him, was today found guilty. The defense claimed that Locke had *merely tried to frighten the girl* when he drew a revolver and fired four shots. The crown claimed that murder and suicide were deliberately planned on the basis of a letter written by Locke, which said: "I *am giving Miss Fidler one more* chance, and that is marry me this afternoon or die."

At the time of the shooting of Miss Fidler, Locke shot himself in the temple and only recovered after an operation. The jury recommended mercy. Sentence was deferred.

BOARD CHARGE TORONTO FIRM

Cite Instance of Sugar Speculation for Attorney-General's Action

OTTAWA, June 21. (Can. Press).—The board of commerce will shortly submit to the attorney general of Ontario, its opinion that the firm of H. B. Reckhart & company of Toronto, are guilty of an offense under section 17 of the Combines and Fair Prices act, by keeping in stock an unreasonable amount of granulated and yellow sugar beyond what is reasonable for the purposes of business, and also in selling sugar at gross profits of approximately 13.8 per cent in the case of granulated sugar, and 23.6 per cent on sales of yellow sugar. The board has already recorded its opinion that an average *of 5 per cent over refiners prices* is all the profit that should be taken on sugar sales.

SENATE DECIDE REORGANIZATION OF CIVIL SERVICE SHOULD BE CARRIED OUT BY CANADIANS NOT OUTSIDERS

OTTAWA, June 21. (Can. Press)—In the opinion of the senate, the work of reorganization of the civil service can be done by Canadians. By a vote of 23 to 10 the upper chamber today approved a motion introduced by Senator Turriff reading as follow:

"That, in the proposed reorganization of the various departments of the government, it is the opinion of this house that men with expert ability of a high order can be secured in Canada who are capable of doing this work in a thoroughly satisfactory manner."

Senator Turriff, in moving his resolution, said he believed in reorganization of the service, but the work should not be performed by an imported firm. It was unfortunate that the government should advertise Canada as lacking in citizens with capacity to perform the work.

Re-classification had been put through by this incorporated firm, and it could not have been more poorly performed by any possible group of Canadians. Senator Fowler supported Senator Turriff, and stated that there would be found in the senate a committee willing and able to reorganize the service *without remuneration.*

Senator Robertson minister of Labor, defended the government, saying that leading business concerns in Canada had gone to other countries for experts when they were not obtainable at home. An organization with special experience in the work to be done did not exist in Canada. Senator McLellan agreed with Senator Robertson, and stated that there was no efficiency business firm in Canada. He stated that in many instances the United States secured accountants in Great Britain while many American efficiency experts found employment in England.

Senator Bostock said that Arthur Young & company had promised to reclassify the civil service in five months, but had taken two years and at a much greater expense than anticipated.

LONDON IS NOT OVERCROWDED

LONDON, June 21.—(Can. Assd. Press)—Many journals are featuring stories about the alleged overcrowded state of London hotels for the present season. London is certainly full, but the information of the Canadian Associated Press is that with the exception of the swagger places, there is room for the less ambitious visitors, while flats are rentable for a period, and are actually slumping. A well known Canadian traffic manager informs the Canadian Associated Press that *real tourists are not as numerous* as expected, the majority of the visitors having definite business other than mere sight seeing.

STATES EDITORS TO VISIT OTTAWA

OTTAWA, June 21.—(Canadian Press)—Newspaper editors from the United States will spend a day in Ottawa, when 135 delegates to the National Editorial association, are to be entertained by civic and government authorities.

CANADA HAS MANY SYRIANS

OTTAWA, June 21.—(Can. Press). There are 4,632 Syrians in Canada, *according to figures* given in the house of commons this afternoon, in answer to a question by Fernand Rinfret.

principle for the whole Dominion, in the preparation of voters lists, than to make exceptions here and there, in this or that province. The principle laid down, was that provincial lists should be adopted as the basis for the franchise, where there were provincial lists in existence not more than one year old. That, he thought, was a good principle. It has, however, been pointed out that in one particular province, Quebec, there were five or six cities where there was no anhual list, but a list prepared every two years. Mr. Guthrie thought this situation might be met by providing that provincial lists be adopted as a basis, when not more than two years old.

The system laid down would entail some little expenditure but would give as honest a list as it would be possible to get.

Mr. King said all agreed on the necessity of a general principle being laid down of the Dominion.

Condemns War Election Act

The system proposed by the government was that of having lists prepared by enumerators. It was the system adopted under the War Times Election act, and provides a most objectionable feature in that legislation. The government was now preparing to make it part of its permanent electoral machinery. The proposal would create thorough dissatisfaction, and the complete want of confidence in the government. Mr. King declared that the government appeared to be anxious to employ the same machinery as it used under the War Times Election act, one of the most iniquitous measures which the government had forced through.

The opposition regarded this as absolutely unfair. Such legislation had undermined public confidence in the government, and in parliament, and the members should unite in trying to restore this confidence. The only reasons which he could see for the government's refusal to accept the municipal lists, were that it wished to make a lot of petty appointments at election time, and that it desired to confuse the elector.

When Mr. King suggested that the amendments be drawn up, the minister said that Mr. King himself would have to draw it up. The clause was still under discussion when the house rose at 6 o'clock.

League of Nations Today

When the committee rose consideration of the bill was still uncompleted, the committee reporting progress. The house subsequently discussed the bill to amend the Naturalization act, which passed committee stage and received third reading.

The house adjourned at 12:30 a.m.

Tomorrow pensions will be considered. n In the evening Sir Herbert Ames will speak on the league of nations.

BRIGHTER NEWS FROM BULGARIA

Canadian Representative in Balkans Indicates Return to Prosperous Basis

OTTAWA, June 21 (Canadian Press).—Return to normal conditions in Bulgaria and an ambitious program of foreign trade with allied countries, is indicated in a communication to the Canadian trade commission from the representative in the Balkans of a big Canadian industry.

Sofia bankers have transferred £1,000,000 sterling for purchases abroad, some of them in Canada.

The letter states that 80 per cent of the population of Bulgaria are peasants and agrarian and are opposed to Bolshevism.

Good harvest is in sight for this season. The reduction of its army to 44,000 men is proving an economic blessing to Bulgaria, and the people are working peacefully and energetically to put the country on a prosperous basis.

PULP MILL ASKS TWO DOLLAR RATE

Power Requested Referred to Committee; Fixed Rates for Hotels

A request from J. E. Annable, chairman of the industries committee of the board of trade, for a $2 rate on power fo rthe proposed local pulp mill, was referred by the city council last night, to the fire, water and light committee, for study in the light of comparative figures.

This action wa staken after Mayor J. A. MacDonald had declared that $2 was not an excessive request from the promoter, considering it was often given to very small users; after Ald. Mrs. W. G. Foster had declared she did not want the city to tie up its power for a project that was only on paper; and after Ald. A. A. Perrier declared he would put into this proposition and into every other that would benefit Nelson.

Mr. Annable's letter read:

"The indications are that a local company will be formed to operate a pulp mill in Nelson or vicinity, and in order to arrive at th ecost of material and production it will be necessary to know if the city con supply from 800 to 1200 horsepower, and what the rate would be per annum per horse-power, and is an inducement to get the company started, we think that a rate of $2 pre horse-power per month, with a discount of 20 per cent for cash, would be a good deal for the city, and satisfactory to the investors. An early reply will oblige."

The board of works and the mayor were appointed a committee to look into the matter of the retaining wall at St. Joseph's convent.

Authority was given to the city clerk, W. E. Wasson, to secure favorable bids on a car of lumber for the street department.

The question of the hold-up price of $4 per room per night, charged to some delegates to the Odd Fellows convention here, was aired, on a letter from the board of trade.

Ald. C. F. McHardy suggested that the licensing bylaw should require hotels and rooming houses to charge fixed rates.

Ald. W. G. Foster said she understood in the case in question the landlady concerned did not want to take any more guests, and put up the rate for the purpose of turning them away.

Those present were Mayor J. A. McDonald and Aldermen C. H. Bean, C. F. McHardy, A. A. Perrier and Mrs. W. G. Foster.

CARELESS SHAMPOOING SPOILS THE HAIR

If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulsified cocoanut oil (which is pure and greaseless), and is better than anything else you can use.

One or two teaspoonsful will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulsified cocoanut oil at any pharmacy, its very cheap, and a few ounces will supply every member of the family for months.

The Friendly Smoke

THERE is something mighty comforting and satisfying about "OLD CHUM" Tobacco; a sort of soothing restfulness that pipe smokers have come to associate with this friendly smoke.

"OLD CHUM" is an old, old chum with all pipe smokers.

It has the perfect tobacco taste—the mellow richness—and men know that they can be chummy with "OLD CHUM" all day long and that the "good night pipeful" will be as sweet and cool as the one enjoyed just after breakfast.

For years and years "OLD CHUM" has been Canada's favourite pipe tobacco and today is more popular than ever.

MONEY RATES HARDEN UP

NEW YORK, June 21.—An unfortunate bank statement, a sudden hardening of money rates, resumption of the railway strike, and signs of fresh complications in the eastern European situation were among the burdens imposed upon the stock market. Although the deficit revealed in last Saturday's statement of the clearing house was primarily due to heavy tax payments, and therein subject to speedy correction, the loss of reserves was directly responsible for today's money flurry.

Call loans rose to 11 per cent in the last hour, when the market was most reactionary. The strength of sterling exchange was almost the only constructive development of the session, although still unsupported by evidence of immediate gold imports from London or the Far East.

Financiers with important international connections attached little credence to reports that recent accessions to the bank of England's bullion holdings represented French gold. More likely it was believed the gold came from the British provincial institutions.

Shippings, steels and food issues, as represented by the sugar group, contributed mainly to the occasional upward trend of the market, with a sprinkling of chemicals and textiles. A 12 point advance in D. L. W. was reduced to 2 points at the close. Sales amounted to 475,000 shares.

Liberty bonds were irregular but internationals and the domestic list as a whole, eased fractionally. Sales par value $11,150,000.

Old U. S. Bonds fours rose ¼ on call.

CHICAGO, June 21.—Breaking of high price records for the season continued today in the corn market despite aggressive selling. The new upturn of values appeared to be due chiefly to the fact that receipts were much smaller than had been looked for. There was an unsettled finish at ½ to ¼ cents net advance, with July $1.82½ to $1.82¼ and September $1.72 to 172¼. Oats closed unchanged to ¼ cent higher. Provisions lost⅛ 5 cents to 10 cents

TORONTO BOARD

TORONTO, June 21.—Prices were irregular on the local exchange today, and except for the papers, trading was on narrow lines. Wayagamack had a turn of strength, and on an odd lot advanced 4 points to 120. Laurentide and Brompton moved up between 1 and 2 points and Abitibi and Spanish River advanced a fraction each. Riordan reacted, losing 2½ points to 198.

Brazilian was one of the most active stocks here, but closed with the loss of a fraction.

More trading took place in MacKay preferred than for many a day, the turnover being 232 shares, but the advance was fractional. Quebec Railway had a strong market and was said to be under accumulation by Montreal interests. The gain here was 1¼, carrying the stock to 28¼. The merger stocks played little part in the day's trading and both issues of steamships were down a fraction.

Dominion Steel had no sales. Steel of Canada was slightly stronger in both issues, while Dominion Foundry was ½ point down. Pressed Metals sold at 230 in the forenoon and 225 in the afternoon.

The Irish Situation

The struggle in Ireland is no longer a fight for home rule or over the principles or details upon which home rule is to be granted and applied. It has developed into an attempt to gain independence from Great Britain and the British Empire.

The Sinn Fein seeks an Irish republic, entirely free of British control or British influence, the ground taken in the main being that the Irish people are not British and are entitled to "self-determination," though the Sinn Feiners would deny this same "self-determination" to their opponents in the north of the island.

The case against establishment of an Irish republic is exceptionally well put by the Earl of Meath, one of the southern Unionists, in a letter to the London Spectator. He speaks of the attempt of what is apparently a majority of the Irish people to cut themselves adrift from Great Britain, a policy which he describes as "the offspring of passion and of ignorance." He continues: "Ireland is far too small and poor a country to be able to afford to deprive itself permanently of the protection, resources, and goodwill of its rich, populous, progressive, and powerful neighbor.

"On the other hand, Great Britain could not afford to permit Ireland to be conquered by, or become the tool of, some powerful and, perhaps, hostile power, as might easily occur if she were separated politically from the Empire, nor could she permit Ireland to become a safe center for her enemies of intrigue, or or disorder, outside her influence and control. Ireland is geographically too close to Great Britain for the latter to be able to be indifferent to any of these possibilities. Self-preservation renders it impossible for Great Britain to grant complete separation to Ireland. If Ireland were removed some 3000 miles from our shores, like Canada, it would be a matter of deep regret if she chose to separate completely from the Empire, but it would not be a matter of life and death to Great Britain. But with Ireland only separated by some 25 miles from Scotland, and some 60 to 70 from Wales and England, separation could not be thought of for a moment. Complete separation would entail risks which no sane statesmen could be expected to face.

"The United States fought a long and bloody war to a successful conclusion to avoid these risks, and if it be said, 'Yes, but the United States were a federation united by constitution, and the Empire is not thus united,' the answer is, 'True, but though the Empire may not be united in such a formal manner, the late war has proved that the spirit of union is strongly embedded in the hearts of the people of the Empire, and any separation of its units, or threatened danger to the heart of that Empire, would certainly be resented, and would easily lead to as bloody and stubborn a war against the recalcitrant unit, or units, of the Empire on the part of the loyal units as that of the American Civil war did, and probably with the same result.'"

The earl believes the solution will be found ultimately in federalism, arguing that because even a civil war would be less disastrous than the breaking up of a federal union of the United Kingdom, no federal state would dare attempt to break away.

TOLD IN PROSE

"THE WEST"

(By W. C. Motley)

In the land of the far, far west, lad,
Where the snow-clad mountain peaks,
Rise up in all their grandeur,
There's a treasure for him who seeks,
In the lofty, pine-clad mountains,
By the rushing mountain creeks,
Comfort and rest are there, lad,
For the weary soul who weeps.

Where the rock-strewn canyon hides, lad,
Romance of days long past,
Where the mighty did wonderful things, lad,
And the first was on par with the last.
Where the chance of a lifetime is waiting
The grasp of a youthful hand,
And the stars shine on in their beauty
For the man with the heart of sand.

Go out to the boundless west, lad
With a purpose high and clear,
Where the world is great and free, lad,
Where the infinite is near.
'Tis a land made from God's own pattern—
No place for the ones who sneer.

Yes, go to the West to learn, lad,
The lessons that life should teach.
Go out to a land of grandeur
Defying the powers of speech;
Where nature will show you her wonders
And you'll live your three-score and ten;
The land made for those who live, lad,
The land made for gods and men.

OLYMPIC RETURNS TO PASSENGER DUTY

NEW YORK, June 21.—After an absence of nearly a year, the White Star liner Olympic, one of the largest passenger carriers in the world, will be restored to the New York-Cherbourg and Southampton service, within a few days. She served as a transport during the war.

WORK BIG LEDGE ON TOBY CREEK

New Mining Company Now Operates Maple Leaf and Silver King Groups

INVERMERE, June 21.—Amongst other mining development which is being vigorously prosecuted within the Windermere mining division is the work which is being carried on by the Toby Creek Mining company of Vancouver, recently formed with a capital of $300,000. This company has acquired the interests of the old holders in the Maple Leaf and Silver King properties on the Jumbo fork of Toby creek, situated about 25 miles west of here. These properties will be easily accessible by automobile as soon as the road, which, has been in bad repair, is completed, on which the government has a gang of men working. About five miles requires to be re-constructed or re-built in addition to the completion of a trail already used.

The properties named have a tremendous ledge of silver lead ore of about 75 feet in width. At present there is a gang of eight miners at work. The tunnel of 121 feet has been cleared up and more tunnelling with crosscutting is being carried through, the intention being to catch the rich bodies of ore which lie hidden in the depths. About 100 tons of concentrating ore are now lying on the dump ready for shipment, and it is more than likely that a number of cars will be sent to the smelter once shipping is commenced.

W. L. Smith of Seattle, is the local manager, and has complete charge of the supervision.

LAKE TRANSPORTS TO CARRY GRAIN

WASHINGTON, June 21.—Use of government owned transports on the great lakes as grain carriers to relieve the car shortage, and to increase grain transportation was suggested to the interstate commerce commission by Clifford Thorne, of Chicago, representing the National Farmers' Grain Dealers association. Mr. Thorne was advised that the government had a fleet of fifty or sixty transports on the lakes capable of carrying grain to New York by of Buffalo, and asked that the commission investigate the feasibility of the plan. Discussing the proposed freight rate increase, Mr. Thorne said the farmers urged a very careful check to keep the rate of increase on grain within the bounds of traffic as a whole, because the ultimate burden must be borne by the consumer.

ADVOCATE BILINGUAL TRAINING IN SCHOOLS

ST. JOHN, N. B. June 21—Resolutions advocating the compulsory teaching of both English and French in the public schools, and also a freer entry into Canada for British school teachers, and protesting against trained animal acts, were adopted at a special session of the National Council of Women which was held on Saturday evening, to enable the council to catch up with the pre-arranged program which was considerably behind the schedule.

It contained the following suggestions:

That a uniforms teacher's certificate for the Dominion might be established. That there should be more kindergartens; that the academic school age should commence at seven years; that scholarship for free education in high schools and later in colleges should be founded, and vocational training in schools be compulsory for those not able to take the entrance examination for high schools; that less valuable subjects might be eliminated from school curriculum, in order that French and English might be both taught, although the case of the rural school might have to be considered specially, that the school curriculum should be unified as much as possible, and that women graduates immediate be invited to serve as deaconesses in the home mission schools.

NOT SUBJECT TO THE DOUBLE TAX

MONTREAL, June 21—Word was received Saturday by the secretary of the Canadian Manufacturers' association that goods imported for use in the manufacture of goods in Canada would not be subject to the double sales tax amounting to 2 per cent. but only to the importers sales tax of one per cent. The information comes direct from George Slayter, deputy minister of inland revenue. This ruling has particular importance for Canadian railways, steamship companies, and utilities companies which imports enormous quantities of material.

MINING AND MARKETS

(Continued from Page Three)

MONTREAL LIST

MONTREAL, June 21.—The spectacular trading in Wayagamack was the feature of today's business on the local stock exchange. The issue opened 2¼ points up at 118½, and sold as high as 124, closing 123¾.

These levels represent new high ground for the stock. The general cause of the advance in the issue, is attributed generally to negotiations now rumored to be proceeding, which will lead to the taking over of Wayagamack timber limits by prominent paper concerns.

Laurentide was another feature of the trading, selling up to a new high level of 109¾ and closing 109.

Among the other paper stocks Brompton closed 1½ higher at 136½ Riordan at 199, up 2½; Spanish River; stocks were irregular, the common gaining, and the preferred losing fractionally.

The utilities were again featured by Quebec Railway which was active but not particularly strong, gaining a small fraction on a turnover of 2180 shares. It closed 28½.

The steels and merger stocks were more or less neglected. Stronger issues include Lyall, up 3 points at 68, and Shawinigan 117½.

British Columbia fishing failed to maintain the advance of the week-end, and dropped back 4 points to 46. Dominion Canners lost 2½ at 60⅝; Dominion Glass lost 2 points at 61.

Total trading-listed 14,681 bonds $33,300, vouchers, 30.

DOMINION LIVESTOCK

TORONTO, June 21.—Cattle receipts 2789. Market opened steady to stronger in butcher. There was a decided weaker undertone to grassers and unfinished cattle. A HOME MILK

There is now only one kind of milk canned in British Columbia. It is PACIFIC MILK. Were it not for the fact that Pacific Milk commends itself for quality and natural flavor, it would not be right to ask people to use it in preference to milk canned in the East. But as it stands, Pacific Milk is preferable to most people on its merits. In addition, it is a British Columbia product which helps to keep money at home.

Extra Years of Easy Riding

Many a bright, shiny-looking bicycle is a gay deceiver! It is merely built to sell. In a few short months it becomes a chipped, rusty-looking object that runs as hard as it looks.

On the other hand, C. C. M. Bicycles retain their looks and continue to run easily for years and years. Many in use for 10 to 20 years are still running well.

C. C. M. Bicycles depreciate more slowly than ordinary bicycles because they are made of better materials.

For example, C. C. M. case-hardened bearings are so hard a file cannot cut them. That is an assurance of extra long years of easy running.

C. C. M. smooth, highly-polished nickelling over rust-proof copper and C. C. M. brilliant, waterproof, triple enamelling mean a sparkling, bright finish with years of durability.

When you decide to buy a new model you can always obtain a good allowance for your used C.C.M.

BROUSE SCENE OF PRETTY WEDDING

BROWSE, June 21.—The prettiest wedding in the history of Brouse church took place on Monday, June 14 when Miss Rose Hamling, only daughter of C. B. Hamling of Box Lake, was married to Oscar Salstorm, a prominent K. P. of Nakusp. A gaily decorated automoblie lent by W. Waterfield of Crescent Bay, conveyed the bridal party, and many of the guests to and from the church, which was beautifully decorated for the occasion by the members of the Ladies' Aid. F. Wensley and H. Thurgood were ushers.

The bride wore a charming simple dress of white crepe de chene, veil and orange blossoms and carried a boquet of roses and lilies, and her cousin, Miss Enid Wensley, was bridesmaid, gowned in white voile. Vera Wensley, was the little blue and white clad flower girl, and Ernest Hamling in white linen was page boy. Hymns were played by Miss Winnie Wensley, the bridal party leaving the church to the strains of Mendelssohn' wedding march, played by Mrs. Wyrill. After the ceremony, the whole party of about 50 guests adjourned to the Hamling residence at Box Lake where ample justice was done to the wedding feast. The many valuable presents received by the bride and bridegroom, testified to the popularity of the happy pair, the festivities being kept up until an early hour of the monring.

On Saturday evening, a shower party, arranged by the members of the Ladies' aid in honor of the bride, was held at the home of Mrs. Wyrill, of Box Lake, when the bride received many useful gifts in appreciation of her work as secretary of the Ladies' aid, after which an enjoyable time was spent in cards and music.

M'CULLOCH SURVEYS NAKUSP PIPE LINE

Nakusp, June 21.—A. L. McCullough, hydraulic engineer, of Nelson, has arrived in town to survey the route of the new water system for the Nakusp district. The source will be on 7-mile creek near Box lake, and will supply domectic water to farmers on the route as well as the townspeople. The scheme is being assisted by the provincial government, and the prime mover has been A. Harvey Smith who has worked untiringly to bring it to a successful issue.

Dr. McLean was called to West Demars on Thursday to attend Mr. Sutherland, a poineer school master in the province, who has been taken ill. Mr. Sutherland was the first teacher in Donald in 1886, and has taught throughout the province ever since.

A large boom of telegraph poles were brought in to Nakusp on Friday morning by the tug Yale for Lindsley Bros' yard.

Louis Orr, a logger of Reilly's camp, opposite Nakusp, was brought in to the local hospital with a fractured thigh on Thursday. He was standing at the foot of a chute when a log hit him.

J. S. Carter, C. P. R. district passenger agent of Nelson, renewed old acquaintances at Nakusp last Thursday en route to Banff.

FRUITVALE MILL BEING IMPROVED

FRUITVALE, June 21.—A. Waters and family have arrived with a carload of furniture from Calgary.

A gang of men is at work building a flume and making other improvements at the local sawmill. It is expected that the mill will be running full blast in a week's time.

Local weather conditions are ideal, with prospects of a heavy hay crop and abundance of fruit.

Evelyn Barrett, Kathleen Varseveld, Marguerite Rushton and Jack Greenwood, of Fruitvale, have left for Trail to write on their entrance examinations.

Mr. and Mrs. Swanson and family have arrived at Fruitvale from Calgary. Mr. Swanson intends to take up a position at the sawmill.

KASLO NOTES

KASLO, June 19.—A. J. Jack, of Vancouver, was in Kaslo Monday.

M. J. Halpin came in from Zincton Monday and will be in town for a few days.

R. Sinclair Smith, of Creston, was here for a few days this week.

Dan McCallum of Three Forks is spending a few days here.

Gus A. Milne, of Sandon, arrived in town Monday.

H. H. Hollis was a business visitor to town Tuesday.

Mr. and Mrs. A. L. Levy, of New Denver, arrived in the city by train Monday.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Lumbago, Stiffness, Rheumatism, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada.

Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

BLAZE SCORCHES BOSUN TERMINAL

Alarm by Boy Scout and Girl Guide Leads to Quick Action

NEW DENVER, June 21.—About half an hour after the men had quit work at the Bosun mine Friday, the lower terminal roof was found to be on fire by a boy scout, who immediately gave the alarm.

Foreman Kirk was soon on the spot. Superintendent Moore and P. Angrignon rushed men from New Denver in their autos, and soon had the fire under control. The roof of the lower terminal was destroyed.

But for the prompt action of the boy scout and a girl guide, who assisted in giving the alarm, there was nothing to prevent the destruction of the compressor buildings, the wharf, and the tresle work; in fact the whole of the lower workings.

BOSWELL PLANS TO CELEBRATE FIRST

BOSWELL, June 21.—Mr. and Mrs. Albert Hepher and Stanley Hepher, together with Mr. and Mrs. W. Lawson Hepher, paid a visit to Nelson last week.

H. Johnstone and James Johnstone spent a few days in Nelson last week, returning home Sunday morning.

Mrs. G. H. Bartley and Mrs. Mitchell returned Thursday evening from Cranbrook.

Mrs. Reid and small son left for Toronto and eastern points on Monday morning.

Frank Cummings, of Goat Creek, left for Nelson on Saturday and is a candidate for the entrance examinations.

F. E. Loveday, manager of the Creston Fruit Growers' union, paid a visit to Boswell on Tuesday and made the acquaintance of the various shippers. He was much impressed by the set of fruit here, particularly the cherries, apples and plums, and predicts heavy crops.

Miss May Kennedy left for Nelson Saturday evening. Miss May Kennedy is a candidate for the entrance examinations.

The local returned soldiers are tendering a picnic to the residents here on July 1. Captain F. J. Oatts is chairman, and a strong committee, which has all the arrangements in hand, and Kenneth Wallace is secretary-treasurer. An enjoyable outing is promised.

Ranchers are all busy spraying their orchards. Most of them will give not less than three, and possibly four sprays this summer.

TRAIL NOTES

TRAIL, June 20.—Arthur Burton, of Burton, was here on a visit on Friday.

Rupert Haggen, P.L.S., of Quesnel, was a visitor in Trail yesterday.

Harry Johnston, postmaster and merchant, of Arrowhead, was here on Friday.

Miss I. McAlonie, of the smelter office staff, entertained a number of her friends at her rooms in the Duchess block, on Friday evening. Cards music and dancing were enjoyed, and dainty refreshments served.

R. V. Venables, of the smelter office, left Saturday for a week's vacation, which he intends to spend in and around Nelson, joining Mrs. Venables and family, who went to Nelson a week ago.

James J. Warren, president of the Consolidated Mining & Smelting company, returned to Trail on Wednesday from a business visit to the coast.

MRS. KELSALL OF NEW DENVER DIES

NEW DENVER, June 21.—Mrs. E. Kelsall, wife of B. Kelsall, of Silverton, died at the Slocan hispital Friday noon. She leaves a husband and two daughters, Gladys, aged 14, and Edith, aged 10. Mrs. Kelsall has a mother and a brother and sister living in Leeds, England. The funeral takes place this afternoon at New Denver from St. Stephen's Anglican church. Rev. B. Hall will conduct the services.

Arrangements are being made with the C.P.R. by the New Denver town committee for an excursion to Nakusp from New Denver siding on July 1.

CROP REPORTS ARE MOST PROMISING

EDMONTON, June 21.—Crop conditions have never been better in this district and the handicaps of the late spring have been phactically overcome. There has been ample moisture in the Edmonton district, and in the north and south country. The rains have been very heavy, causing landslides on some of the railway grades.

So much moisture causes a luxuriant growth of pasture and the cattle are regaining the condition they lost during the long hard winter. Cattle coming to the stockyards are not, however, in any condition for killing being too soft off the grass.

Wheat and oats are doing particularly well, and rye is heading out. Potatoes have been hoed a couple of times and all growth shows a thick heavy blade. Some of the hay meadows are under water since the two days rain of last week.

REGINA, June 21.—A crop report covering the southern part of the province was issued by the bureau of statistics of the provincial department of agriculture today. Grasshoppers are reported generally throughout the districts covered, but they are being controlled by the measures adopted by the government. Very effective results are being obtained from the use of poisoned bran. Cut worms were reported to have appeared in a few places in the Vonda district.

Weather conditions continue to be ideal with plenty of moisture on all sides.

IS SEVERE ON POLITICS

Harvard Law School Told That States Fall Short in Art of Government

CAMBRIDGE, Mass., June 21.—A severe criticism of the United States political system was presented by Charles E. Hughes, in an address at the centennary of Harvard law school here today. He declared that in the art of governing themselves Americans not only fall short of what should be expected in a free people of so great an intelligence, but frequently present "a sorry spectacle."

"A passion for legislation is not a sign of democratic progress," he said, adding that in the mass of measures introduced in the legislatures of the United States, "there is too little evidence of perspective, and an abundance of elaborate and dreary futilities.

"We are constantly impressed with the lost motion, and vast waste in the endeavor of democracy to function wisely," he said.

"The regrettable thing is that the tendency to enact uncertain laws seems to be increasing, and, what is still worse, that the people tolerate it, and that there are but faint demands for improvement. Our material progress seems to have created complexities beyond our political competency."

PAY DRAWBACKS TO MANUFACTURERS

OTTAWA, June 21.—(Canadian Press)—A return in the commons today in answer to questions filed by J. F. Reid, MacKenzie, states that the amount of drawback paid to textile manufacturers during the fiscal year ended March 31 last was: On raw cotton, $120,636.28; cotton yarns, $11,483.42; raw wool, $45,342.76; woollen yarns $157,912.20.

General News of the City

PROPOSE COTTAGE NEAR SANATORIUM

Ald. Foster Urges Action Regarding Tubercular City Patients

One of the few resolutions to pass the present city council unanimously with everyone voting was adopted last night, when the council, after receiving recommendations on the subject from Dr. Isabel Arthur, health officer, directed W. E. Wasson, city clerk, to continue corresponding with the government on the subject of making proper public provision for the treatment of advanced tubercular cases.

This being one of the fields in which Ald. Mrs. W. G. Foster is an expert, she was in her element, and had the center of the stage.

The selection of Dr. Isabel Arthur's annual report dealing with tuberculosis which gave rise to the discussion, was as follows:

"Three women that I know of died of tuberculosis in the city this year. These women, each had four children, who were all exposed to the disease. One woman was taken to the hospital a week or two before her death, but far too late to prevent infection of the children. Twelve children have therefore been exposed to this disease. One has already contracted it, and is in our general hospital. Some others of them are not strong and are ailing all the time.

"I wish to draw the attention of this council to the great need of some action being taken to get hospital accommodation for these patients. The Tranquille sanatorium is only for incipient cases, and is not nearly large enough to treat that class of case. The only other place is our general hospital, which has a very limited accommodation for tubercular cases. As things are at present the disease is being spread, and the death rate increased. This is not as it should be."

"Cannot something be done to start something," asked Ald. C. F. McHardy, after the report had been read.

Ald. A. A. Perrier said these patients could not be in the same hospitals with other patients, as it would not be fair to the others. The only thing to do was to see if the towns of the district could be induced to cooperate.

"There is a splendid opportunity for this at present," declared Ald. Foster. Mrs. McLachlan spoke in Nelson, she said, with the precise object of securing cooperation between the various towns in the matter of health inspection. The provincial health department would like to do something, but professed not to be able to bring sufficient pressure on the legislature.

It was a big question, Ald. Foster declared. All over Europe there were consumptives, who eventually came to this coast, and those who did not go to California came to this province. Many people were on the lakes here for their health, and if they did not state why they were here, the genuine cases of tuberculosis often went unsuspected. There would never be a really satisfactory state of affairs until there was some system of medically inspected newcomers.

All sanitaria, Ald. Foster said, accepted incipient tubercular cases, but not advanced cases. All these institutions had independent directorates, like the institution here, which exercised control. The Tranquille institution, even, was independent, and was able to avoid taking advanced cases.

Ald. McHardy interjected that this was a wrong principle. The Tranquille institution ought to be a government one, he claimed, and the government should not let it evade responsibility.

Ald. Foster said there was one concrete thing the city could do. It could arrange to maintain a cottage at Balfour in association with the sanitarium, for city patients. Even with this, there would still be the vexatious question of whether the patients the city was taking care of were properly city patients or outside patients.

On motion of Ald. McHardy, the city clerk was directed to diligently follow up this matter in correspondence.

Annual Health Report

The balance of Dr. Arthur's report was as follows:

"I submit my report as medical health officer for the year ending June 30, 1920, as this is the time when the provincial board of health wishes this report to be in.

"The health of the city was fairly good during the year. We had a epidemic of measles with probably about 400 cases. This was mostly among the school children, but a number of adult cases occurred. No deaths from it were reported.

"Two cases of diphtheria were reported. These were put into quarantine, and all in the house were given anti-toxin. Both cases recovered.

"Two cases of lethargica incephalitis (sleeping sickness) were brought in from outside points and treated in our hospitals. Both recovered.

"An epidemic of a mild type of influenza occurred. There were no deaths reported from this cause.

"A number of cases of mumps have been reported. The disease has been epidemic in some of the surrounding towns, and if those having the disease in their houses would report any cases that are suspicious, it would probably prevent on outbreak.

"The dairies were notified that they must put their places in a condition to comply with the bylaw. The six months time given them will soon be up, and the dairies will be inspected again, and licenses issued to those conforming with the regulations."

QUICK ACTION ON SHARE STAMP TAX

Apparently Finance Minister Influenced by Representations from Nelson

"Your suggestion has been noted, and I expect the act will be framed in accordance therewith."

This highly satisfactory reply has just been received by the Nelson board of trade from the federal tax commissioner, R. W. Breadner, in reply to its representations that the two cent stamp tax on share transfers ought to be on a percentage basis if the low value shares are not to be put out of business.

The board made its representations direct to the minister of finance, and sent R. F. Green an identical wire, on June 11. On the same date it also sent the minister of public works representations on the requested appropriation for the Proctor wharf, in this case also sending Mr. Green a copy.

Mr. Green's letter, dated three days later, covers both these matters as follows:

"Yur night letter of June 11 received, and I may say insofar as the matter of the Proctor wharf is concerned, I have been hammering away at this all session, and believe that when the supplementary estimates comes down, an appropriation will appear in them, either for the repair of the present wharf, or the building of one of the government floats, to take its place.

"I also interviewed the minister of finance re the two cent tax on each share of stock, and he informs me that he proposed to change this and make it an ad valorem tax, as he quite agreed with me that a straight tax of two cents per share would be a very unfair one.

"Trusting that these matters will be straightened out satisfactorily."

Writing one day later than Mr. Green, and apparently on behalf of the finance minister, Tax Commissioner Breadner says:

"In reply to your letter of June 11, I may state the resolutions provide that a stamp tax be imposed, levied and collected on each share of stock transferred.

"Your suggestion has been noted and I expect the act will be framed in accordance therewith."

These replies were to the following night letter sent by Secretary E. F. Gigot:

"Is report correct that a stamp tax of two cents on each share of stock is imposed? If so, this board, considering the fact that many shares of mines and other undertakings sell at 25 cents per share, and even as low as two cents, and that consequently such tax would in many cases mean 100 per cent or nearly so on the value of such shares, ask that such tax be amended and modified so as to bring it to a resonable percentage on shares of low value. Kindly reply."

In regard to the Proctor wharf, Secretary Gigot's wire to the minister of public works was:

"This board learns with regret that no provision has been made in the estimates for the necessary repairs to the Proctor wharf, and strongly urges that this work be provided for in the supplementary estimates."

The reply of Hon. J. D. Reid is: "Supplementary estimates have not been submitted. Representations re Proctor wharf will have careful consideration."

BOWSER PUTS IN DAY AT LISTER

Opposition Leader Meets Men of Soldier Settlement; Now at Fernie

CRESTON, June 21.—W. J. Bowser, leader of the provincial opposition left today for Fernie, where he is due to speak tonight, in the course of his tour of the Kootenay.

Mr. Bowser spent yesterday at the Lister soldier settlement, meeting the men, and investigating the conditions under which they are trying to make themselves homes. After supper at the community bunkhouse, the opposition leader was called on for a speech and made a brief non-political address. James H. Schofield, M. P. P. for Trail, and J. Kemmis, M. L. A. for Pincher Creek, Alta., were present with Mr. Bowser.

WOULD CULTIVATE THE FISH HABIT

WINNIPEG, June 21—The fisheries of Canada represent an asset of $50,000,000, and are capable of enormous development if the people of Canada could be educated to eat more fish, was a statement made by A. H. Brittain, ex-president of the Canadian Fisheries association, and vice-president of the Maritime Fish corporation, who passed through here recently on his way home from the fisheries convention at Vancouver.

Mr. Brittain stated that if Canadians would eat more fish, a considerable stride would heve been taken to fight the high cost of living. "Fish," he declared, "is the the cheapest food in Canada to-day, and only a small percentage of the fish products of Canada are consumed in the Dominion. The majority is sent to the United States, South America and West Indies.

TRAIL NINE WILL PLAY A RETURN

Local Seniors Have Strong Lineup for Wednesday's Ball Match Here

A return baseball match will be played with Trail seniors at 3 o'clock tomorrow afternoon, when the Trail nine will meet a strong aggregation of the local seniors at the Recreation grounds.

Of late the local boys have been going strong on the diamond, practising four nights a week, and putting in an extra lick on Sundays, and at present are in such fine shape to put on an exhibition that tomorrow's match should exhibit some good ball playing.

The batting order of the local lineup will be: H. O'Neil, right field; E. C. Hunt, center field; Dick Whitehead, first base; Roy Maurer, short stop; A. J. Hedland, second base; J. Wolverton, third base; Henry Svoboda, left Field; Frank Lunn, catcher; Ed Langill, pitcher; R. Pickering and Ed. O'Neill will be substitutes for catcher and pitcher respectively. W. D. Burlingham will be umpire.

AT THE THEATERS

A thrilling mystery narrative, entwined with an entrancing love story of old Hawaii, the island Paradise, is "A Night in Honolulu," by Howard McKent Barnes, which comes to the opera house for two night, Friday and Saturday next. From the opening scene to the end of the play, the spectator feels that he is really living among these fascinating natives, sharing with them their sorrows and joys of their picturesque life. The author has reproduced these quaint people and their manner in an atmosphere that is most realistic.

The native Hawaiians who appear in a "Night in Honolulu," are in America but a short time, having recently arrived. They are all accomplished musicians, and educated young men. The leader of the troupe, Duke Kanakanui, is a descendant of one of the island chieftains, Marri Kamaka.

These boys will render a number of their native harmonious melodies, that wonderful fascinating music that one never tires of.

An added feature attraction is Miss Una Carpenter, a sweet pretty girl, who will give her artistic conception of the native Hula Hula, an instructive and entertaining terpsichorean exhibition. She is considered and acknowledged one of the stellar lights in Hawaiian native dancing.

Owing to the long jump for this company, coming from Fernie, they will arrive on the 8.30 o'clock boat, so the curtain will rise at 9.30 o'clock, but on Saturday at the usual time.

WEATHER STOPS YACHT TRIALS

NEWPORT, R. I., June 21—Fog and lack of wind combined to prevent the tenth trial race between the cup defence candidates, Resolute and Vanitie, today. Postponement was announced after the commitee had waited some time later than the starting hour for conditions to improve.

SANDY HOOK, N. J., June 21.—A bad rain squall caused the postponement today of the second trial race between Sir Thomas Lipton's Shamrock IV, challenger of the America cup, and the 23-metre yacht Shamrock.

INSTITUTE OF SCRIBES GROWS

Sixty-Five Members Enrolled; Will Welcome Imperial Press Conference

VANCOUVER, June 21.—Although placed on a permanent footing only in April last, the B.C. Institute of Journalists already has a membership of approximately 65, comprising the majority of the active newspapermen in Vancouver. The institute has been formed largely on a fraternal and social basis, but the underlying motive is to maintain and raise the standard of journalism in British Columbia to the highest possible plane. From the enthusiastic way in which the movement has been taken up, it is evident that there is much useful work to be done by such an organization.

The institute is represented on the official committee which will entertain the distinguished visitors to ths province who will be in attendance at the imperial press conference in Ottawa in August. Plans are under way to bring out about Christmas time the western counterpart of the well known English "Printers' Pie" with the object of building up a benevolent fund for the institute and of putting the organization on a sound financial basis.

Membership is open to newspapermen in any part of British Columbia now actively engaged, or who have previously been engaged therein, provided they have had not less than three years' experience an are in good standing.

The first officers of the institute are as follows: President, Major Lukin Johnston, formerly news editor of the Daily Victoria Colonist, and now of the Daily Province, Vancouver; secretary-treasurer, G. J. Ashworth, of the World, Vancouver. The executive committee includes Messrs. McGregor, McPhillipps and Burde, all of whom are well-known newspapermen in Vancouver.

The constitution is so framed as to allow for expansion into a provincial organization, and members are sought from all parts of the province.

CONDEMNED MEN TO BE HANGED

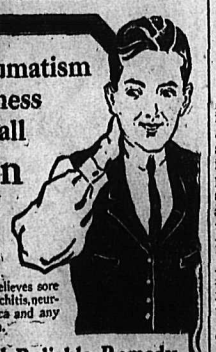
Rheumatism Stiffness and all Pain



Minard's Liniment has given satisfaction for three generations. It quickly relieves sore throat, bronchitis, neuralgia, sciatica and any kind of pain.

An Old Reliable Remedy

Mrs. S. Fawcett, Hamilton St., Collingwood, Ont., writes.—Minard's Liniment surely is an old reliable remedy. I always keep a bottle in the house and have recommended it to quite a number of my friends, to whom it gave great relief. In most cases it was used as a cure for rheumatism.

LIVER TROUBLE AND HEARTBURN

All liver diseases of whatever character are diseases of the highest importance and demand close attention.

The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile, and serve as one of the filters of the body, cleansing it of all impurities and poisons. Therefore when the liver gets out of order it is the starting of trouble in nearly every part of the body.

Keep the liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn, constipation, billousness, sick or billous headaches, dull, yellow eyes, brown blotches, sallow complexion, coated tongue, jaundice, catarrh of the stomach, or the painful protruding internal or bleeding piles.

Mrs. John Kadey, Chipman, N.B., writes:—"I have used Milburn's Laxa Liver Pills for some time and can recommend them to any one suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers as I think they are a valuable remedy."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SEWING EXHIBIT IS MUCH ADMIRED

Many Useful Articles from Deft Fingers of Domestic Science Pupils

A striking exhibition of needle work fabricated by the nimble and deft fingers of the pupils of the domestic science department of the public school, under the instruction of Miss Mulhern, head of the department, occupies a prominent space in the Baker street windows of the Hudson's Bay company's store, and is attracting much attention. The bulk of the work exhibited was produced during the half-hour per week period, which constitutes the time allotted to this group of studies, though certain of the articles were made by the girls in their own homes.

While most of the articles shown are quite simple in construction, owing to the large number of beginners in the class, there are many much more ambitious, such as dresses, middies, and skirts. Aprons, bags, and other extremely utilitarian articles predominate in the term's work.

About 25 princess slips are shown, those made by Mary Pickford, Marjorie Brown and Ethel Smith attracting special notice. Dresses made by Vera Walley, and Gladys Mankin, a middy and a pique skirt made by Marjorie Brant, a petticoat made by Elyne Forde, and middies made by Ada Spencer, Barbro Kilberg, and May Haggart also deserve special mention. There are also numerous bungalow aprons, and fudge aprons made by the beginners classes, using the blanket stitch to finish the edges.

In determining the piece of work to be done, the choice of material, type of garment, and method of decoration is left to the pupil, so long as the principle under consideration by the class is brought into the making of the garment. Thus, a girl may learn to use a pattern, to make a French seam, to sew a long seam on the sewing machine, to whip on lace, to turn hems, and to featherstitch on a princess slip as well as on a nightgown.

All the classes are taught to make buttonholes, and to use patterns, beginning with a pattern for a doll's nightgown made to the individual measurement of a particular doll. The large garments are cut by a pattern that is brought and altered to fit owner. The class time is too limited to permit of making lace, but the girls are allowed to bring lace after it is made, and to put it on garments.

The fundamental idea of the sewing classes of the domestic science department is the making of practical garments, and utilitarian qualities come before decorative.

Half of the school year in the domestic science department, is devoted to the study of foods and cookery, and half to sewing. The present exhibition of sewing work from the department is the first to be shown for some years.

PUBLICATION FOR FARMERS

The new list of publications of the department of agriculture at Ottawa issued by the publications branch contains titles of nearly 350 bulletins, circulars, and other pamphlets that deal with agricultural practices.

These cover the whole range of agricultural and horticultural pursuits, including dairying, field crops, live stock, orchard and garden crops, poultry, insects and plant disease, farm building construction, farm machinery and many other topics. The subjects are arranged alphabetically under general titles.

CITY WILL HUNT FOR NEW QUARRY

Superintendent Alves Suggests Rossland Rock But Idea Is Vetoed

Recommending that the city discontinue the use of the quarry at the rock bluff at the east end of Vernon street, and either purchase crushed rock at Rossland or Trail, or move the city rock crusher to some better location, Robert Alves, city street superintendent, precipitated a lively discussion at last night's session of the city council.

None of the members of the council liked the idea of going away from home for crushed rock. The discussion, however, seemed to establish that the crusher could not give satisfactory results in its present location, and the mayor was authorized to appoint a committee to look up a new quarry. The mayor announced that he would put the whole council on the job, remarking that the exercise would do the members good.

As soon as Mr. Alves's report was read, Ald. Mrs. W. G. Foster remarked that it was amusing to talk of bringing rock to Nelson.

Mayor J. A. McDonald said the quarry ought to be moved to where a shot could be put in.

At the request of Ald. C. F. McHardy, Mr. Alves went into the question of the cost of crushed rock at present. The drilling cost $2 per yard, the breaking $1 to $1.25 per yard, and the crushing 50 or 60 cents per yard, coming to roughly $3 per yard crushed. Against this, crushed rock could be had at Rossland, loaded on the cars, for 60 cents, freight would be $1.65, and loading into the truck at Nelson, 45 cents, coming to $2.70.

It was impossible, he said, to put in a shot that would bring down a creditable amount of rock, on account of the quarry being in proximity to dwellings. Further, the layout of the plant and the veining of the rock was such that sometimes a day's break came down as just one huge block, and had to be drilled again. He said that at Rossland they had a huge quantity of rock and either the government or the city would be willing to put in a crusher and screen, and deliver the rock to the city of Nelson any desired size.

Ald. Foster—That would mean scrapping our plant.

Mayor McDonald said he knew enough by working with rock to know that a man was up against it in trying to get rock out of this quarry. The trouble was that the wrong location for the quarry had been selected in the first place.

On motion of Ald. McHardy and Ald. A. A. Perrier, it was decide to have a work report on a possible quarry site, whereupon the mayor named the council as the committee.

Street Work

Mr. Alves' report for the street work was as follows:

"Since the last meeting of the council weather conditions have delayed the Ward street work. A few days' fine weather and Ward street will be ready for traffic.

"Baker street will receive attention on completion of this other work.

"Rock is being hauled on to the west end of Vernon street. A surface water drain has been laid for this piece of road.

"Surface water drainage has been extended in the lane below Vernon, at the west end.

"The sewer on Latimer street can be extended, but cost of same will be prohibitive. A deep gulch separates the present sewer and premises to be drained.

"The council will have to consider the rock for the streets question. Under present conditions the rock is too expensive, and the quantity procurable each day so uncertain. I suggest that the council consider the buying of rock from Trail or Rossland, or a new quarry where blasting operations can be carried out to a paying end. It is impossible to use a day's drilling to its fullest extent. If rock is procurable under favorable conditions from Trail or Rossland, the supply would be more constant than ever."

Mr. Alves' reference to the prohibitive cost of the Latimer street sewer extension evoked some cross-examination by Ald. McHardy, who held that an extension along Hoover street would be possible.

It was decided to have Mr. Alves report on this, giving levels. Mr. Alves stated the property owners concerned expressed content with the present arrangement on larning that the proposed Latimer street extension would cost at last $1500.

Ald. Perrier, on behalf of the board of works, reported that the request of J. A. Gilker for a change of sewer level in the alley adjacent to his store was not possible, and that he would have to connect his new block with the Baker street sewer.

He also recommended laying the section of concrete sidewalk on upper Stanley street, planned for last year.

Another recommendation was that the sidewalk in front of the J. Fred Hume property be constructed, the type to be left to the judgment of the street superintendent.

All these recommendations were adopted.

It was decided to take up the licensing bylaw at an adjourned session, to be held Friday night.
