IRISH BILL PASSES SECOND READING

MILITARY TRAINING FOR ALL CANADIANS SUBJECT OF DEBATE IN HOUSE

ur Weeks Training Is Advocated in Resolution; Members Favor Training Idea But Oppose on Grounds That it Might Give Rise to Militaristic Tendencies; Would Make Canadians a Physically Fit Nation; Federal Administration Adjourns Till Tuesday For Easter Recess

OTTAWA, March 31.—A quiet day in the house preceded e Easter adjournment. Discussion of a resolution by H. M. owatt, of Parkdale, for four weeks training of every Canian between the ages of 18 and 25, to the end that he ght be fitted for civilian life and to defend his country in ne of war, consumed the whole of the afternoon sitting. 6 o'clock the house adjourned until next Tuesday.

The debate on Mr. Mowatt's resolution brought out a large mber of speakers for and against.

Gen. W. A. Griesbach, Edmonton, in supporting the resolun, referred to the league of nations as "a pious hope." It is ed, he said, "that the nations which won the war will band ether long enough to secure as great an amount of comance with the peace terms by Germany as it is possible to get. ond that it does not go. Beyond we should not depend upon it a single moment. He favored principle of universal military ning.

A. Maharg, Maple Creek, ght it an inopportune time to g forward a motion of this naor the consideration of a war- y people. He suggested that ends which Mr. Mowatt was deis of achieving might be as well better obtained by encouragement he healthy spirit of rivalry in etic sports. He also expressed view that the women of Canada t be developed as well as the if a strong, virile race was to lt. Physical training should be ted in the primary schools.

ajor G. W. Andrews said he ld support the motion if there any reason to anticipate a war in the next 10 years. Regarding as unreasonable, however, he arked that it was more importfor Canada to do right by those had fought and suffered in the war than to be preparing for her.

e resolution was strongly opd by O. R. Gould, of Assiniboia, said the people of the western ns wished to defeat the princiof militarism which was not alther absent from the motion.

r. H. S. Beland was also dissatd with the spirit of the resolualthough not opposed to phystraining. It was its militaristic estion which displeased him. lly, on the suggestion of Sir ge Foster, acting premier, the te was adjourned to give absent bers an opportunity to partici- in it.

Stein Elected

efore the house adjourned this noon Hon. Mackenzie King anced that Adolphe Stein had been ted by acclamation for the conency of Kamouraska today. The osition members cheered the ancement vigorously. Sir George er rose to remark that this was first news he had had of Mr. 's election. I see many joyous enances on the Liberal side, George added with a friendly e, and they are accompanied, I no doubt, by as many joyous ts.

tails of the different war taxes ected by the customs under the per cent special tax, the amcollected by the inland revdepartment on paper, patent cines, liquor and tobacco; and amount collected by the postal orities by way of special stamps asked by J. E. Prevost (Terre e) in a question for the house day. Mr. Prevost also asks t the state revenues were from sources during the fiscal year ng March 31, 1919. Practically he ask about the custom taxa- income tax and war profits

A. MacKie, of Edmonton, ask- a the house if widows with chilor orphans received any share he $40,000,000 voted by parlia- t last session.

on. Mr. Sifton—"Widows with ren, or orphans are assisted by Canadian Patriotic fund when are eligible for a federal penand when the man has seen ce overseas. Under certain conns assistance is sometimes rend to widows even if they are in pt of federal pensions."

r. Mackie—"Do widows receive uch assistance as if the father returned?"

r. Sifton—"It is impossible to if widows receive as much asnce as if the father had reed as there is no way of telling amount he would have been able rovide in that event."

DAY IN PARLIAMENT

Bill to amend the Bankruptcy act, introduced by S. W. Jacobs (George Etienne Cartier).

H. M. Mowatt, Parkdale, introduced a resolution providing that men between 18 and 25 should receive physical training to increase their ability in civil and industrial life and to fit them to defend their country. the resolution urges four weeks training each year for seven years.

Debate on resolutions adjourned in view of many members who are absent but who wish to speak to the resolution.

The house adjourned at six o'clock until Tuesday, April 6.

WILL NOT LAY CARDS ON TABLE

Ontario Government Refuses to Give Definite Answer on Referendum Question

TORONTO, March 31.—A demand by Hon. G. H. Ferguson, leader of the conservative party for a definition of the government's attitude on the referendum question, brought about a clash with Hon. W. E. Raney, in the legislature this afternoon. The issue arose when Mr. Ferguson inquired concerning the action of H. McCreary, United States member for North Lanark, calling on the Dominion government to take a referendum and the bill of F. G. Sandy, of South Victoria to restrict liquor importations in the event of the referendum carrying.

"I notice two bills dealing with this problem are to be introduced by private members," observed Mr. Ferguson. "Are we to understand that as a declaration of policy on the part of the government or is this thing arising in the minds of the members personally?"

"The intention of the government is that every man in the house may be free to vote on his own sentiments in this matter," replied Hon. W. E. Raney.

Are the bills emanating from the government or at the request of the government?" Mr. Ferguson demanded; "Do they declare the government's policy?"

"Members may draw their own conclusion from what I have already said," the attorney-general answered.

Mr. Ferguson sought to get an announcement of the government's policy, but the attorney-general refused any further statement.

Financial assistance to the extent of $10,000 is to be given by the Ontario government to the University of Quebec, which was recently severely damaged by fire, Premier Drury announced.

FIGHTING BETWEEN JAPS AND RUSSIANS

SAN FRANCISCO, March 31. — Fighting between Japanese and Russians in Nikolaevsk was reported in a cablegram from Tokio received by a Japanese here today. The cablegram said the Japanese consulate at Nikolaesk had been burned and that Japanese Consul Ishba was missing.

STRIKE LEADERS NOMINATED FOR CIVIC OFFICES

WINNIPEG, March 31.—The Dominion Labor party will run six candidates for city seats in the legislature in the provincial elections in July, according to unanimous decision at a meeting held at the labor temple tonight.

It is quite possible that one or two of the candidates will be women, as three members of the fair sex were among the 20 persons brought forward for nomination. They are Mrs. William Kirk, Mrs. George Armstrong, wife of one of the strike leaders convicted of seditious conspiracy, and Florence Roe.

Among the men nominated were Rev. William Ivens and Ald. John Queen, two of the convicted strike leaders. It was also announced that R. B. Russell, another strike leader who is serving a two-year term at the penitentiary has been nominated by the Socialist party of Canada.

FLOUR PRICES TO RISE AGAIN

Delegation of Millers Asks Government to Modify Wheat Board Regulations

OTTAWA, March 31.—A material advance in the price of flour in Canada is indicated in an announcement made here on behalf of the Canadian millers by George A. MacDonald, representing the Quaker Oats company and head of a delegation of representative millers which waited on the government today to discuss the serious situation which Canadian mills are facing as a result of the action of the Canadian wheat board in continuing the restriction in the price of flour on the Canadian market and the lack of export markets for Canadian flour.

The increase will be necessary to meet the increasing cost of manufacture. The scarcity of mill feeds in Canada is directly traceable to the lack of a market for flour and the consequent decrease in the volume of domestic milling, the millers state.

They have asked the government to modify the regulations of the wheat board and to cooperate with the millers in inducing foreign buyers to take a reasonable proportion of Canadian wheat as flour rather than as wheat.

Vast quantities of flour are said to be available in the United States for export and this complicates the Canadian problem. It is said that more than 4000 men have been already thrown out of employment by the forced closing down of some of the mills, of which there are about 500 in Canada.

THREATEN GENERAL STRIKE IN GERMANY

ROTTERDAM, March 31.—A despatch to the Rotterdam Courant from Essen says the representatives of the labor unions and of the three Socialist parties have issued an ultimatum to the government threatening a general strike in all Germany unless their demands are granted.

The demands are, first—binding the government to recognition of the resolutions, passed at Bielefeld; second—abolition of military measures, contrary to the resolutions, and third—the recall of Gen. Von Watter and granting of 48 hours in which to carry out the Bielefeld armistice terms.

PEACE RESOLUTION NOW UP BEFORE CONGRESS PROVIDES FOR TRADING WITH GERMANY UNDER CERTAIN CONDITIONS

WASHINGTON, March 31.—Peace with Germany through adoption of a joint resolution declaring the war at an end was put squarely before congress today by representatives in control of the house. Framed by Republican members of the foreign affairs committee and backed by party leaders the measure was thrown in the hopper with as little ceremony as if it had been a bridge bill, but instantly there developed a demand for speedy action.

A move to jam it through the house Friday took shape, but the Democrats, outspoken in their opposition, finally obtained an agreement to postpone consideration until Monday.

While trying to work out a resolution calculated to suit all factions of their party, Republican committeemen had arranged to call it up Friday, remembering that it was on Good Friday, three years ago, war was declared.

The resolution introduced by Chairman Porter of the foreign affairs committee provides for "termination of a state of war," as soon as it becomes effective. It provides for reciprocal trading with Germany under certain reservations and for a repeal of the pesident's war powers. Germany would be allowed 45 days "to notify the president that it has declared a termination of war," and waived all claims against the United States" that it would not have had the right to assert had the United States ratified the treaty of Versailles.

Upon Germany's failure to send such notification, trading, or the making of loans or credits would be prohibited, except with the license of the president.

Republican members of the foreign affairs committee, to which the resolution was read, without comment, worked in conference for more than 11 hours before they mapped out a measure designed to overcome all party objections. The committee will meet tomorrow and it is said will report on it to the house.

After Chairman Campbell of the rules committee had announced that the resolution would be taken up Friday, with four hours set aside for debate, Democrats objected and asked for more time in which to study and digest the full text. This resulted in a hasty conference between the Republican steering committee and minority leaders. It finally agreed to defer consideration in the house until Monday.

BOWSER SHOWS DISCREPANCIES IN PROVINCIAL BUDGET; DEFICIT LAST YEAR WAS OVER MILLION

Does Not Expect Anything Better in This Year's Account; Refers to Minister of Finance's Surplus as Bookkeeping Sugar Coats; Tells Him Not to Pat Himself on the Back Over It

VICTORIA, March 31.—Criticism of the budget by W. J. Bowser, opposition leader, was the feature in the legislature today. Harking back to the fiscal year 1918-19, he reminded the house there had been an actual deficit in the trading account of the province amounting to $1,181,006. He proceeded to show that in the year in question there had been expended on current account the sum of $9,887,744 and $2, 224,541 on capital account. To set against this sum he recalled to the house that the receipts for the same period did not exceed $10,931,279. On that account, he said, it was useless of the minister of finance to pat himself on the back in respect of surpluses which as a matter of fact were nothing more than bookkeeping sugar coats.

In connection with the 1918-19 discrepancy he emphasized, the government had been obliged to borrow to meet it. Nor could it be expected, he proceeded, that the year 1919-20 which ended today, would show any better results.

What fortune was in store for the year 1920-21, queried the opposition leader, as he proceeded to enumerate the various amounts to be expended and received during the twelve month period which commences tomorrow.

"You are going to spend the sum of $13,960,711 on current account, and you are going to spend another $3,449,961 on capital account," said Mr. Bowser, as he totalled up the amount to $17,410,961, as the record spending year in the history of British Columbia.

Against this sum your estimated revenue does not go beyond $13,978,245. In other words you will find a deficit at the end of the year amounting to $3,422,428," he declared. "You are going to spend the record sum of $17,000,000 in the next fiscal year," said the ex-premier as he asked the occupants of the government benches if they knew what the people were saying. "The people want to know where the administration is going, and your answer is 'We don't know where we are going, but we are on the way.' What will the people get out of this expenditure?" asked Mr. Bowser, "except a deluge of increased taxation."

There was nothing startling in Mr. Bowser's opinion, in the fact that the revenue this year had increased by one and a half million dollars. That had been made possible largely, he said, by the timber legislation passed by his own government before it left office. The opposition leader wanted to know how much of the taxation levied by the Oliver government was providing revenue from the natural resources of the province and he inquired how much of the increased taxation was being levied upon the people direct.

In reviewing the situation, too, continued the opposition leader, notice had to be taken of the fact that there existed a trade balance against this country of $500,000,000. On the assumption, therefore, that many years would elapse before that would be adjusted, Mr. Bowser believed that an average deficit of 12 per cent would not be setting too high a figure. That would be found that British Columbia being the case it would be liable for a semi-annual transference of $73,500 in interest payments while the cost to the province to discharge the principal at this rate would reach $249,000 the total reaching $367,500.

On this basis of reckoning, the leader pointed ou that the loan eventually would cost the province 9 or 10 per cent instead of 5½.

CZECHO-SLOVAK ARMY TO MOVE ACROSS CANADA

ST. JOHN, N. B., March 31.—Word received from Halifax that an army of 70,000 men is to be moved across Canada within the next few weeks. The men are Czecho-Slovak troops, who have been stationed in Asia and it is said that they are being sent to their homes in Europe by way of the dominion to avoid traveling through Bolshevik territory and neutral countries.

EIGHTY-ONE CATTLE KILLED IN TRAIN CRASH

OGDEN, Utah, March 31.—What is declared to be a record for such accidents was reported here today by the Union Pacific claim agent, who said that a passenger train ran into a herd of cattle near Evanston, Wy., killing 81 animals and crippling 68. The loss, he estimated at $10,000. Eight dead cattle were piled on the pilot of the engine.

ENTENTE HAS THE LAST WORD

THE HAGUE, March 31.—The entente's reply to Holland's last "Kaiser note" is regarded as ending the correspondence on the subject.

VOTE FOR MEASURE GOES APPROXIMATELY FOUR TO ONE; ASQUITH OPPOSES IT

Independent Liberal Leader Only Able to Muster Ninety-Four Followers of All Parties; Attendance for Division Was Largest During Present Session; Lloyd George Scathingly Criticizes United States Senate for Adopting Irish Resolution

LONDON, March 31.—Second reading of the Irish bill was passed by 348 to 94 in the house tonight. Those who voted against it included Mr. Asquith and his following among the Independent Liberals, the Irish Nationalists and a few Unionists. The attendance for the vote was the largest during the present session.

The United States was handled without gloves by Premier Lloyd George and Sir Edward Carson, the Ulster Unionist leader, in the debate today in the house on the second reading. The premier said it was action such as that taken by the United States senate in adopting the Irish resolution that fostered secession.

"De Valera is putting forth the same views in the same words that Jefferson Davis used," the premier declared, and added that such a movement had led to civil war.

"We are doing nothing more than the United States claimed for themselves," he continued, "and will stand no less."

Sir Edward Carson, in opening the debate, said he believed that the Irish murders were committeed, not by my own countrymen, but by ill-conditioned Americans, misled by Sinn Fein propaganda, which he exclaimed, pointing to the government, "you are doing nothing to counteract."

"Do you suppose that if I worked against the bill and if it was killed and the 1914 act becomes effective I could call upon my followers to get their rifles to maintain our position in the six Ulster counties, when this bill gives us the right to control those counties," asked Sir Edward Carson.

He declared that Mr. Asquith, by his proposals for amending the 1914 measure, "killed his own child" which was so distasteful to Ulster. He promised that Ulster would do the best it could under the two parliament plan.

Attacks Asquith Plan

Premier Lloyd George also attacked the Asquith plan, saying that it was leading to the proclamation of an Irish republic and secession.

William Adamson, Labor leader, said he was opposed to the bill and that his followers had adhered to his decision in a vote, but he did not outline any definite plan for a solution. He stated his personal views which, he said, should not be confused with the views of his party, as he had not placed them before the leaders of Labor. He was for one parliament with full powers for everything, except defense and foreign affairs, and for immediately calling a constituent assembly.

Gives Wider Scope

LONDON, March 31.—The London Times considers that the very substantial majority secured by the government on the second reading of the home rule bill, gives it "wider freedom to frame and pursue in accordance with the high principle a great measure of constitutional reform."

"In its present form," The Times continues, "the bill is far from an equitable settlement and it will require cogent evidence than parliamentary division list to persuade the Irish people to the contrary. Nevertheless, we hold that it is within the powers of parliament, vastly to improve it. Now that Ulster has given her grudging assent, there remains to be fulfilled the paramount duty of securing for the nationalists of Ireland a measure which will at least be a fair installment on the hopes."

STREET RAILWAY UNION DEFENDS STRIKE LEADERS

WINNIPEG, March 31. — The 1400 members of the Winnipeg Street Railway company union, in a resolution passed Sunday and made public today, are of the opinion that the strike leaders were convicted owing to the lack of understanding of the workers' conditions and demands. They had no seditious intention, the resolution reads, other than the bettering of the living conditions of the working classes. The mass meeting expressed confidence in the convicted men and want every legitimate means available used to have them freed from the charges.

STOCKYARDS MAY BE CLOSED DOWN

Strike of Livestock Handlers Cripples Packing Companies; Meat Advances

CHICAGO, March 31.—Oscar F. Nelson and Carl Spangler, department of labor mediators, arrived today from Washington to attempt a settlement of the strike of 900 members of the livestock handlers union, which has thrown nearly 10,000 men out of work and brought about a cessation of butchering at the stockyards. Dennis Lane, international secretary of the Meat Cutters union, with which striking workmen are affiliated, was expected to arrive tonight to aid in bringing about a settlement.

Denial that the union had asked for federal mediators was made by Martin Murphy, president of the stockyards labor council, who declared the men would "stand by their guns and fight."

Packing companies today found themselves with scant material to keep their plants in operation and faced the prospect of closing before Saturday unless the strike ends. A shortage of fresh meat in the Chicago area brought about a sharp advance in prices.

Patrick Griffin, a union official, today declared if the controversy was not settled in a few days, stock handlers in packing houses in all parts of the country would be called out. Meantime, stock normally destined for Chicago was routed to other packing plants in the west. Chicago packers usually send out $3,000,000 a day at this time of the year for livestock, and this business has stopped.

ONE BIG UNION TAILORS TO STRIKE

WINNIPEG, March 31.—About 300 tailors who are members of the Winnipeg unit of the One Big Union decided tonight to go on strike tomorrow. They are demanding a wage of $45 for a week of 44 hours.

TORONTO CUSTOMS REVENUE INCREASES

TORONTO, March 31.—An increase of more than $10,000,000 in customs revenue over last year is reported by J. H. Bertram, collector of customs for this city, in his report covering the year just ended.

POLISH OFFICER IS TO BE SHOT

WARSAW, March 31.—Lieutenant Stanislaw Zebrowski, of the Polish army, tried by court martial and found guilty of a charge of having misappropriated 10,000 marks belonging to his regiment, has been sentenced to be shot, it was announced recently. At the present rate of exchange, 10,000 marks is the equivalent of about $135 in Canadian money. The prosecution contended at the hearing that Zebrowski lost the money betting on horse races.

PARIS TO FLOAT LOAN IN CANADA

PARIS, March 31.—The municipal council today voted to float a loan of $20,000,000 in Canada, repayable in 10 years. The proceeds will be used to purchase merchandise in Canada.

WOMEN'S VOTING STRENGTH IS LESS

WASHINGTON, March 29.—Ballots cast by women in the coming presidential election will fall short of the potential men's vote by over 2,500,000, provided the suffrage amendment is ratified and state registration laws enacted in time to permit women all over the country to participate, according to estimates by the National Woman's party.

With the 1910 census as a basis, the Woman's party estimates the number of men eligible to vote at 29,577,690, and the possible woman voters at 26,883,566. In 1916, however, the actual vote cast for all various presidential candidates was 18,528,743, omitting ballots thrown out for cause, which leaves over 11,000,000 possible votes unregistered. If as large a proportion of the men voters remain indifferent in the coming election, women political leaders here say that the eagerness of women to exercise their newly acquired privilege may more than offset the disparity in numbers between the sexes.

In five of the states, moreover, women of voting age outnumber the men. Massachusetts has the greatest preponderance of women voters with 58,264 more women than men, North Carolina is next with a women's majority of 15,288, and South Carolina with 10,307 is third. In Rhode Island women of voting age outnumber the men by 3196, and in Maryland by 1292.

FIVE CHICAGO FIREMEN QUIT

CHICAGO, March 31.—Five Chicago firemen voted unanimously to resign in a body April 7, in protest against the $192 a year wage increase carried in the revised city budget passed by the city council. Firemen on duty tonight will meet tomorrow to decide their course. Officers of the Chicago Firemen's association said today that the vote reflected the mood of the entire force and that unless demands of $300 a year increase were granted the city would be without fire fighters after April 7.

The resignations signed today were dated April 2, giving five day's notice, as required by law.

Salary increases asked by all city employees total $5,000,000. Nearly 1500 employees were on strike today for higher wages and several hundred others were forced out of work through the tieing up of municipal activities. One thousand clerks, shippers and bookkeepers, window washers and garbage handlers who walked out yesterday were joined by 78 food inspectors and 12 steam roller engineers. The 10 per cent increase met with little approval among employees on strike, and 18,000 municipal workers who had asked for wage increases, union officials say.

Don't wait until it begins to spark le before starting to lay in something for a rainy day.

TARIFF BILLS BEFORE SENATE

WASHINGTON, March 31.—(Canadian Press)—A number of bills calling for tariff readjustments which affect Canadian interests are now before the United States congress. Owing to the pressure of other business these measure have received but little attention from the members of the United States house this session and it now appears likely that most of them will be sidetracked. Nevertheless their introduction indicates that the United States has not abandoned its high protection principles and it is generally believed that had it not been for the favorable balance in trade with Canada, some of these measures might have been pressed more strongly than they have been.

Two of these bills propose to put a duty on wheat and flour. One, introduced by Representative Young, of North Dakota, calls for a duty of 25 cents a bushel on wheat, and $1.32½ per barrel on flour, with a 10 per cent ad velorem duty on semolina and other products of wheat not specifically mentioned in the act. This bill has met with a good deal of opposition and it is not likely to be passed. Mr. Young has a second bill, which is now before the Committee of Ways and Means, and which proposes, a duty of 10 cents per bushel on wheat and 45 cents per bushel on flour and other wheat products, as well as 25 per cent ad velorem upon potatoes. These bills indicate that Canada is still regarded as a competitor of the U. S. in wheat and flour.

A bill which has attracted a good deal of attention in view of Senator Underwood's campaign to force the cancellation or modification of Canadian provincial regulations limiting the export of pulpwood to the United States, was introduced by Representative Hull, of Tennessee. Senator Underwood's proposal was to appoint a commission to study the question with a view to discovering what measures could be adopted to induce the provincial governments to let down the bars on pulpwood and his resolution merely contained a hint of retaliation. Mr. Hull goes him one better.

His bill includes a provision intended to penalize Ontario and Quebec for their export prohibition on wood used for the manufacture of wood pulp. It calls for a duty of 12 per cent on printing paper valued above 8 cents per pound, "provided, however, that of any country, dependency, province, or other subdivision of government shall impose any export duty export license fees, or other charge of any other kind whatsoever (whether in the form of additional charge or license fee or otherwise) upon printing paper, wood pulp, or wood used in the manufacture of wood pulp, there shall be imposed upon printing paper, valued above 8 cents per pound, when imported either directly or indirectly from such country, dependency, province, or other sub-division of government, an additional duty equal to the amount of the highest export duty or other export charge imposed upon either printing paper or upon an amount of wood pulp or wood for the manufacture of wood pulp necessary to manufacture such printing paper."

The effect of this would be to force the American customers of Canadian mills to pay extra duty upon imported from the provinces which have pulpwood exportation restrictions, and would mean the penalizing of United States newspapers, which are forced to look to Canada for a large percentage of their print paper supply. The bill is now before the Ways and Means committee. The general opinion is that it has but little chance of being enacted.

Other bills still under consideration which affect Canada include the following:

A bill providing for a duty on magnesite ore of one-half cent per pound and a higher duty on manufactured magnesito. In the year 1918-19 Canada sold the United States magnesito to the value of $796,236.

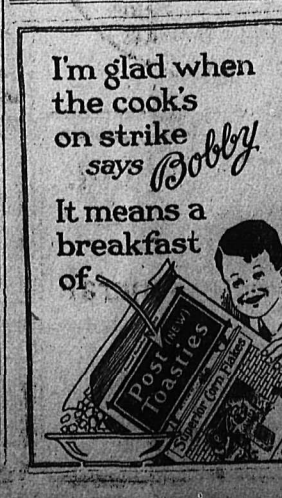
A bill proposing to regulate the importation of coal-tar products by prohibiting the bringing in of any of these products if they can be secured in the the United States. This will affect Canadian exports only to a comparatively small extent.

A bill providing for a duty on shell and pearl buttons.

Bills calling for duties on tungsten ores and zinc ores. Both of these have passed the house of representatives and are now before the senate committee.

An anti-dumping bill which provides extra duties on goods the importation of which is likely to injure any United States industry or prevent an industry being established.

The bill to repeal the Reciprocity act of 1911, which was passed by the house last October is still before the Senate.



TENTATIVE WAGE CONTRACT APPROVED

NEW YORK, March 31.—A tentative contract was approved today at a meeting of a sub-committee of bituminous coal operators and workers appointed to negotiate a new wage agreement and it was considered later by the general scale committee.

John L. Lewis, president of the United Mine Workers, said that the scale committee might alter some provisions of the tentative contract. If no alterations are made it will be signed today and be in force for two years. In general its terms follow the award of President Wilson's coal commission.

Central Field Agrees

NEW YORK, March 31.—The negotiations for an agreement for the bituminous coal miners were brought to a close this afternoon when the general scale committee of operators and miners of the central competitive field ratified a contract embodying the award of President Wilson's coal commission. This new agreement which involves wage increases of 27 per cent, became effective Thursday morning and will continue in force for a period of two years.

The new agreement also condemns the bonus system now used by operators in competing with each other for employes.

AUSTRIA IS DOWN IN THE MOUTH

VIENNA, March 31.—A wave of pessimism has swept over the country since Baron Koranyi, minister of finance and food controller, returned from Paris with empty hands except for some small food credits. Newspapers express regreat at the delay of the hoped-for American loan and publish warnings of approaching exhaustion of food supplies and of another crisis.

Depression prevails in business circles. Manufacturers declare that these driblets of loans for food purchases are futile and that only credits sufficiently large to enable business to get on its feet by the purchase of coal and raw materials will postpone the complete breakdown of Austria.

One of the basic causes of the country's paralysis is lack of coal due to the failure of the coal supplying nations to live up to their agreements. For this reason industries are idle.

Austria's natural and logical coal supply lies in Bohemia and Prussia, or Upper Silesia. Under present arrangements coal is secured what there is of it, under agreements between state governments and upon arrival here is distributed by government officials. The supply is so small that virtually all of it is needed for limited railways operation, the gas and electric plants and limited private domestic use.

None remains for industries and no factories except those producing the necessities of life are in constant operation. For instance, the great Florisdorf locomotive works, with a capacity of 150 locomotives a year, have been idle for four weeks while all Europe is crying for railway motive power. The demand for freight cars is insistent and yet the Graz car factory with a potential capacity of 300 cars a month produces less than fifty because coal is not to be had and consequently they cannot secure wheels, axles and structural iron for bodies.

Vienna is surrounded by a forest of factory stacks, but smoke issues from but few of them. This has been true ever since the revolution fifteen months ago. Manufacturers say that if coal can be assured in sufficient quantities, they will manage to find raw materials enough to start with and slowly build up credits for more.

Commission after commission has vainly tried to obtain deliveries of the coal for which contracts were made with Czecho-Slovakia. The reason for this failure is unknown here. One expert says that unless Austria is allowed to get coal from the Upper Silesian fields, whence has always come the bulk of Austria's supply, her population must be deported or the country will perish under starvation and anarchy. This solution, he says, lies in the hands of the powers.

BRYAN LOOKS FOR ANOTHER WAR

DENVER, Col., March 31.—William J. Bryan in an address here today, said President Wilson brought back from Europe a better peace treaty than the country had a right to expect, but that developments were leading to another war in Europe.

TIZ PUTS JOY IN SORE, ACHING FEET

"My, How 'Tiz' Gladdens Tired, Swollen, Burning Feet— It's Glorious!"

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so's you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for a few cents. Think of it.

Easter Buying

The Blouse Department offers many delightful new styles for Easter—Fine Voile, Georgette Crepe, Crepe-de-Chene, etc—plain or embroidered, some with lace, others with frills. Prices $7.50 and upwards.

MARABOU CAPES

Choice new models of generous width and very fashionable. They come in the popular colors. They make a stylish finish to your spring outfit. Prices $10.50 up to $22.50.

SILK HOSIERY—We are featuring a line in black and colors which are good value. Price $2.90.

NEW SKIRTS

in Silk and Serge, very smart and stylish. Prices $7.50 and upwards.

OUR DRESSES, SUITS and COATS are the very acme of style, and are wonderfully good buying for this year of high prices.

PRICES TAKE UPWARD TURN

NEW YORK, March 31. The session of the stock exchange today was dull and professional but the trend of prices was unmistakably upward, though easing generally on realizing for profits in the final hour. There was no visible change in the money situation, demand loans again opening at eight per cent and rising to 12 per cent toward the close. Time funds were virtually unobtainable, except for renewals into the year's second quarter.

Foreign exchange retained all of its uncertain characteristics, the London rate rallying briskly probably as a result of further gold imports, but French and Italian bills were heavy, lires declining to the new discount of 20.75 net dollar, but advancing slightly at the close.

In its main essentials, the stock market was quiet. Stutz led at a gain of 21 points to the new high of 391. Crucible Steel was next, rising seven to 269½ but forfeiting all save a fraction at the end, and Vandadium, at a net gain of 5⅝ to 73⅝ which registered a new high quotation.

Additional features of strength embraced General Motors, Baldwin Locomotives, International Motors, sugars, oils, and tobaccos, also the stocks of the various express companies, but these offered less resistance to the late realizing pressure rails especially secondary issues, were backward throughout and Atlantic Gulf was the only member of shipping group to display strength. Sales 800,000 shares.

Trading in bonds was larger, but the expansion was mostly at the expense of values, rails showing heaviness. Liberty bonds were irregular, the 3½'s reacting rapidly, but Internationals held steady.

Total sales, par value $11,275,000.

Old United States bonds were unchanged on call.

SUGAR MOST ACTIVE STOCK AT MONTREAL

MONTREAL, March 31.—Trading in listed stocks on the Montreal stock exchange today amounted to 8808 shares as compared with 10,105 yesterday and 4973 for corresponding day a year ago.

Sugar was again the most active stock in the market the turnover in that issue amounting to 2,975 shares. Selling was again much in evidence with the buying power small the stock declining 1½ points to a new recent low of 83¾. Closing bid was at 83¾, which was also the low price for the day.

Next in activity to Sugar was Detroit, which was in active demand today, some 1100 shares changing hands. The price mounted to 133, which was ½ point under the year's high, closing bid was lowered to 112⅞. The remainder of the list showed little activity and at the close there was an irregular trend to prices. The largest gains were made by Goodwins preferred whose financial statement was made public today, up from 85 to 90, closing at the latter price, which was advance of 13 points over the previous sales here. Provincial Paper sold at a new high of 128, three points above the previous last sale, Dominion Steel up 1⅛ at 71⅞, but closing bid was back to 70½, and Spanish River stocks advanced one point, the common to 93 and the preferred to 131.

CLEMENCEAU'S FOURTEEN TROUBLES

Mr. Clemenceau is an irreverent old man. On his recent arrival in Egypt he refused to be interviewed, and would only say that the ship's vermicelli was excellent. "I am taking a vermicelli cure," he said. "I have to take all sorts of cures as I have fourteen maladies, the same number as President Wilson has points; one malady, one point, everybody has what he can."—Toronto Star.

"Pa, what is a bosheviki?"

"A bolsheviki is a man who has the same idea as your mother."

"What idea, pa?"

"That money can be picked off bushes."

ODD LOTS TRADED IN AT TORONTO

TORONTO, March 31.—Activity on the Toronto exchange today was confined to Atlantic Sugar and Brazilian of the listed stocks and the North Star Oil issues in the unlisted division. With a four-day suspension of trading in prospect lack of animation is not to be wondered at, and odd lots trading characterized most of the stocks which figured in the day's business.

Sugar was under heavy pressure for the most part and the closing figure, 82⅜ showed a net decline of 4½ points.

Brazilian sold off ½ point with the closing bid at 45¾.

North Star Oil common, which began its career in this market with a big bull demonstration Tuesday, was gain very active but failed to maintain the strength shown in the early trading, opening at $9.10, it sold up to $9.25, dipped in the afternoon to eight, closing there for a net loss of 50 cents a share.

REAL CHRISTIAN MAN

At Niagara Falls, Ont., they have a real Christian man, according to Rev. Thomas Todd, Methodist minister of that city. A widow out in Stamford had a fire and lost practically everything she had and the Falls Methodist Church decided to help her with donotions of money and goods. One good lady confided in Mr. Todd: "I had always wanted a new nickel-plated tea kettle," she said. "The one we used was a granite one and pretty old. We had used it a long time. I thought there was a good chance to get rid of it and get the new nickel one my soul craved. I would donate the old one to the widow's fund. When my husband came home I told him about my plans. He immediately put his foot down on the idea. He asked me if I hadn't read in the Bible how God required that the best lambs of the flock, without blemish or fault, be given as a sacrifice to Him. 'Well,' he said, 'here is a chance to test your religion. You go and buy a nickel-plated tea kettle and give it to the widow. We'll make the granite kettle do.' I did as he said and I tell you I felt better, realizing there is no real giving without sacrifice."

CANADIAN DOLLAR JUMPS TO 92

NEW YORK, March 31.—Sterling echange strong at 3.84¾ for 60 day bills and 3.88¾ for demand.

Canadian dollar, 92.00.
French franc, 7.40.
Belgian franc, 7.90.
Italian lire, 5.40.

LIVESTOCK MARKETS

Winnipeg

WINNIPEG, March 31.—(Dominion Livestock Branch)—Yesterday's sales were composed of 279 cattle, 136 hogs and 90 sheep. Disposition of stock from the yards was as follows: 56 cattle and 125 hogs were shipped to local points, while local butchers accounted for four calves, 54 cattle and 38 hogs. Shipments west were made up of 28 stockers, 48 feeders and 90 sheep. Receipts to 9 a.m. today were 289 cattle 397 hogs and four sheep. Little activity was experienced to the market today, there being only a limited number of cattle for disposal.

Steers, choice 11.50 to 12.75; fair to good 9.50 to 11.25.

Butcher heifers, choice 10.50 to 11.25; fair to good 8.50 to 10.00.

Butcher cows, fair to good, 8.00 to 10.00; medium 6.50 to 7.50; canners and cutters, 425 to 5.50.

Bulls, good 7.00 to 8.25; common 6.00 to 6.50.

Feeders, choice 10.00 to 11.00; fair to good 7.50 to 9.50

Stockers (steers and heifers)—choice 8.50 to 9.50; fair to good 6.00 to 8.00.

Calves, choice 15.00; good 12.00; common 7.75.

Sheep and lambs, good lambs 15.65; Hogs ,selects 20.50; heavies, 18.50; lights, 16.00 to 18.50.

Montreal

MONTREAL, March 31.—(Dominion Livestock Branch)—There were 772 cattle, 2930 calves and 1569 hogs for sale during the week, compared with 1276 cattle, 1996 calves and 2181 hogs during the previous week. Receipts of sheep and lambs have not shown much variation in numbers during the month of March. The top price for selected animals were, one heifer, weighing 1100 pounds for 14.00; four steers averaging 1275 pounds for 13.75. Choice cows and heafers 13.00; fat bulls brought from 11.00 to 12.00.

The top calves during the week was 17.00 paid for a selected lot. There are not nearly as many light calves offered this year as last and most calves sold around top figures, 15.00 to 16.00. Very common calves 10.50.

Despite the fact that there were about 30 per cent less hogs on the markets than during the previous wek, prices ruled 50 cents lower. Nearly all sales were made at 20.00 off cars. Market closed unsettled.

Toronto

TORONTO, March 31.—(Dominion Livestock Branch)—Cattle, receipts 926. Prices slightly firmer. Choice heavy steers 14.00; poorer quality 12.50 to 13.25; handy weights butchers 11.00 to 12.00; cows and bulls sold up to 11.50 per hundredweight.

Calves, receipts 707. Trade hardly steady. Best calves sold up to 22.00.

Sheep receipts 56. Trade steady, ewes selling as high as 16.00; yearlings 19.00 and spring lambs 10.00 to 18.00 each.

Hogs, receipts 1114. Packers bought at 18.75 with some outside sales at 19.00.

GRAIN MARKETS

CHICAGO, March 31.—Corn touched new high records on all deliveries except May today. March rose to 1.67, where it closed three cents higher than yesterday, while July, after touching 1.53½, declined to 1.52⅛ to 1.52⅝, where it closed 1¼ to ⅞ cents above the previous close. May ascended to 1.60½ and closed at 1.59 to 1.59⅛, a gain of two cents above yesterday's final figures.

Minneapolis

MINNEAPOLIS, March 31.—Cash grain, No. 1 Northern, $2.90 to $3.00; No. 2 white oats, 89¾ to 91¾. No. 1 dark Northern $3.00 to $3.25.

TO STRIKE AGAINST DANISH MINISTRY

COPENHAGEN, March 31.—(Associated Press)—It has been learned on the best authority that a general strike in protest against the new ministry will begin at noon Wednesday. It is not expected, however, to become general before Thursday morning.

NATIVE SILVER IN RIONDEL PROPERTY

New Ore Body Found in Phyllis and Gwennie; Opened Out in Drift

A new ore body, at present 12 inches in width, carrying native silver and ruby silver, has been opened out in the drift on the Phyllis & Gwennie property at Riondel, R. D. Hearn, one of the owners, who is at the Hume, stated last night.

The find is about 70 feet from the portal, and just under where the open cut 80 feet higher up begins. The open cut of 35 feet exposed in its last 12 feet a shot of ore three feet wide, and after developing that discovery for a distance of 12 feet, it was decided to look for the same ore body below.

At the point where the high grade ore was opened out in the drift, no ore was expected, the vein having been barren up to that point, and the ore body of the open cut not being due for another 30 feet at least, and still further, if Mr. Hearn's theory of an incline is correct.

The two ore bodies are entirely distinct, with quite different ores.

Work at the face has been suspended for a few days, to permit of three months' supplies being put in. When B. L. Eastman, the other partner, returns from the Slocan, the partners will start up operations again, and will pobably put on a couple of men, to enlarge their working force.

Equipped with a gas engine and small compressor, furnishing air for one drill, and with 45 feet of snowshed over the outer part of the drift, the property is in good shape for the development work to be done. When the drift comes under the foot of the inclined shaft of former workings, now full of water, a raise will be made, and the power outfit will be moved down from its present location and stationed in the workings for convenience.

A shipment of ore will soon be made to the Trail smelter, a couple of tons having been sorted and sacked. The ore being taken out will pay for the development.

ARMY GUN MUZZLE WRECKS A BRIDGE

PROVIDENCE, R.I. March 31.—The muzzle of a 10 inch army gun, projecting over a flat car, tore away 11 iron pillars supporting the Atwells Avenue bridge today and practically wrecked the structure.

THUNDER BAY NAVIGATION OPENS

PORT ARTHUR, March 31.—Navigation is expected to open here tonight with the arrival of the Great Lakes Transportation company's ice breaker Strathmore.

Ice breaking operations were started from outside Thunder Bay on March 18. The Strathmore has made its way through more than 20 miles of solid ice, ranging from 18 to 24 inches in thickness.

APPOINT LABOR LAWS COMMISSION

TORONTO, March 31.—(Canadian Press)—In accordance with a decision reached at the recent international labor conference at Washington the Ontario government has appointed a commission which will confer with similar commissions from other provinces with a view to coordinating and unifying the labor laws of the Dominion and the provinces.

Spotted hyenas are found only in South Africa.

TODAY LAST DAY FOR ORE EXHIBIT

Last of Fifteen Boxes For Seattle to Be Closed Tonight; Nuggets Wanted

Fifteen boxes of ore samples constitute to date the representative exhibit of ore samples which will be shown at the international mining convention at Seattle, from the Kootenay district.

The last box is still open, to receive some samples from outside due today. Fred A. Starkey, who has assembled the exhibit, states that the various sections of the district are very fairly represented, but that the home section has not contributed its fair share of samples. Local prospectors have still today in which to get their showing represented before one of the best and richest constituencies of investors in the country.

It is intended to leave the ore samples in Seattle, as a permanent exhibit, to attract attention to the Kootenay district. On the other hand, prospectors who have nuggets or small samples of value which they do not wish to lose, are guaranteed their safe return. These will be separately packed and exhibited, and will be in Mr. Starkey's possession at all times.

EMPLOYERS WOULD PROMOTE UNITY

WINNIPEG, March 31.—The Employers' association of Manitoba held an organization meeting Tuesday night, at which 51 directors were elected and principles of the constitution set forth. The main objects are:

"To promote, on a fair and equitable basis industrial peace and commercial prosperity in the community and the steady employment of labor.

"To discourage lockouts, strikes, and unfair demands by either employer or employee, and to secure for employer and employee freedom of contract in the manner of employment."

It was declared in many of the speeches made that employers were not organized to combat unionized labor but as long as labor organized for the purpose of assisting their members by honest effort to improve conditions in general the association would work with it in every possible way.

Twenty-five different groups of industry and trade were represented.

AN EFFORT AT TRUE REALISM

Some day we intend to write a book in which the villian passes on from wickedness to wickedness, happy, cheerful, contented, successful and increasingly prosperous and respected.—New York Sun.

CLOSE RELATIONSHIP

One day when our insurance man came in he asked how old the dog was, and when he was told he turned around to ask how old my little sister was, and before my brother had a chance to answer him my sister said: "The dog is as old as me, Me and him is twins."

LINEN FROM NETTLE FIBRE

A company has been formed in Denmark for the manufacture of linen from the fibre of nettles. At a recent exhibition every one was struck by the whiteness and suppleness of the table cloths and napkins made of this nettle fibre.

There are 174,466 licensed automobile drivers in New York city.

JOSHUA SHIPPING A CAR TO TRAIL

Small Concentrating Plant of Donohoe Corporation to Increase Capacity

According to word from Merritt, the Joshua mine at Stump Lake, owned by the Donohoe Mines corporation, has a car of high grade ore at Nicola, awaiting shipment to the Trail smelter.

The ore of the Joshua, which runs from $20 to $600 in value, is mined with the aid of machine drills, from the 300 foot level, two shifts being worked.

Additional concentrating machinery is to be installed, which will bring the capacity of the present small plant up to 25 tons of ore per day.

HUNS GOOD SPRINTERS

It has become a habit in German rulers to turn tail and flee when confronted with difficult situation, Wilhelm has set an example for the guidance of his successors, whether kings or presidents.—Victoria Colonist.

LIVER TROUBLE AND HEARTBURN

All liver diseases of whatever character are diseases of the highest importance and demand close attention.

The liver is the largest and one of the most important organs of the body. Its duty is to prepare and secrete bile, and serve as one of the filters of the body, clearing it of all impurities and poisons. Therefore when the liver gets out of order it is the starting of trouble in nearly every part of the body.

Keep the liver active by using Milburn's Laxa-Liver Pills and you will have no heartburn, constipation, biliousness, sick or bilious headaches, dull, yellow eyes, brown blotches, sallow complexion, coated tongue, jaundice, catarrh of the stomach, or the painful protruding internal or bleeding piles.

Mrs. John Kadey, Chipman, N.B., writes:—"I have used Milburn's Laxa-Liver Pills for some time and can recommend them to any one suffering from heartburn and liver trouble. I tried other remedies, but they only relieved me for a short time. I always recommend Laxa-Liver Pills to all sufferers as I think they are a valuable remedy."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THURSDAY MORNING, APRIL 1, 1920

The Ex-Kaiser

Holland, according to a despatch from Amsterdam, prefers to keep the ex-kaiser prisoner rather than to deliver him to the allies for trial.

This is the effect of the reply which it is reported will be made to the second note from the entente on the question of the extradition of Wilhelm for trial by a court of international justice.

The allies are said to have accepted the Dutch proposal. There does not appear to be any other course open. Certainly they are not disposed to go and get him.

From the ex-kaiser's viewpoint it would not appear to matter much whether he is kept in ignominous imprisonment on his own estate at Doorn or whether he is held a prisoner at some point outside Europe on a judgment of an international court. Perhaps his chances of escape and of causing more trouble are a little better, but at the present time Wilhelm is hardly likely to attempt an escape into Germany. There are many there who would welcome him with something other than the glad hand.

Hoover For President?

It will be interesting to see what sort of a run Herbert Hoover will make for the presidential nomination by the Republican party in the United States.

From this distance it looks as if nomination by the Republicans will be nearly equivalent to election, though there may be vital changes in the situation before voting day next November.

Hoover has some doughty opponents. Hiram Johnson of California, for example, and Senator Poindexter of Washington are men of long experience in American politics and both have a large following.

Hoover is being put forward as a business man who will save the country during the reconstruction period. He has a magnificent record as an organizer and business man and stands high in the eyes of the commercial world.

But big successful business men do not always make a success in public life. Nor do men who have made great successes in politics often prove successful if they leave politics and devote their whole efforts to business. It is natural that the average man should be a greater success in his chosen occupation than in some other. That is the reason that so many men successful in business have failed badly in politics It requires experience, training and natural aptitude to be successful in politics, in public life, just as it requires similar qualities to be successful in business. One does not choose a lawyer if one desires an efficient blacksmith, or a blacksmith if one has need of counsel at law. One naturally chooses a blacksmith to shoe a horse and a lawyer to aid one in court.

But Hoover has had some semi-political experience and might make almost as successful a president as his friends expect.

The Power of the Doctor

As an ambassador Sir Auckland Geddes will enjoy more privileges than as a cabinet minister, but not more than he could have enjoyed by sticking to his original profession, the Manchester Guardian remarks. When distributing the prizes at the Middlesex hospital some years ago, Mr. Kipling told the students that doctors belong to the privileged classes. "One privilege they share with kings. Policemen would not prosecute them if they exceeded speed limit on their cars. A visiting card would take them through the densest, most turbulent crowd. By flying a yellow flag they can turn a center of population into a desert, and by flying a red flag they can turn a desert into a center of population towards which men, as I have seen them, will crawl on their hands and knees. They can forbid any ship to enter any port in any part of the world, and, for the success of any operation in which they are interested, can, if necessary, stop in mid-ocean the fastest Atlantic liner with her mails. They can tie up traffic, and without notice order houses, streets and whole quarters of a city to be pulled down, calling, if need be, on the nearest troops to see that their prescription is carried out."

COLD STORAGE

Tailor (to mother who is buying a suit for her boy): "Do you want the shoulders padded?"

Little Boy: "No, mamma; tell him to pad the knickerbockers."

Friend—Is her father the kind of man that would pursue you if you eloped?

Jack Poore—No, he's the kind of man who'd move, so that you couldn't find him when you came back.

Brown: "Did you hear of the accident that happened yesterday?"

Smith: "No."

Brown: "Jones fell off a sixty-foot ladder and escaped unhurt."

Smith: "Heavens! How was that?"

Brown: "Well, he fell off the bottom step."

Arthur (bitterly): "I suppose you consider it a triumph to make a fool out of me?"

John: (sweetly): "Oh, no! A triumph means accomplishing something that was very difficult."

Invalids apparently dying of tuberculosis often regain their health on going to Queensland.

WIRELESS TO MARS

Marconi, Edison, Tesla and many of the greatest men science are today testifying that they have received wireless signals they cannot account for or explain. These signals show a definite code of some sort, but not the morse code! They have also received in various parts of the world at the same time seeming to show that some outside scource is sending these messages. Another argument in favor of this belief is the fact that these wireless waves are so long that no station on this earth would be big enough to generate and send them. Thus, M. Marconi says that in order to send such wireless waves a station carrying antennae wires approximately two miles long would be necessary—and we know we have no such station on our earth. There is today, therefore, serious discussion as to the possibility of communicating with Mars, or other planets, by mean of wireless messages, or light beams or some other means of communication.—Hereward Carrington, in Leslie's

Motor traffic trucks are now operating in 26 foreign countries.

IS AURORA WIRELESS FROM THE STARS

The appearance of an extraordinary aurora recently aroused much curiosity in this strange and fascinating phenomena of the heavens Anything that can make people look upwards in these days when mankind's gaze is so much in the opposite direction, is to be welcomed as a benediction, writes J. Lewis Mulligan in the Toronto Globe.

Indeed the aurora which appeared on Monday evening was not in the form of the usual Northern Lights; It spread out northwest to southeast from a point at the zenith like a pair of ethereal wings, radiating in a southern direction. The centre of radiation did not change, for it was observed to keep constantly in the region of a brilliant star, a little south of the zenith. At times this centre, or nucleus, seemed to swirl or writhe as if a puff of smoke had been blown into the atmosphere from without. It would them radiate in a wing-like form acress the whole of the sky in the direction above described. The edge of the "wings" were sharply defined as if the rays were prevented from completing a circular fan-like movement.

These facts should be interesting—if not valuable—to scientists, in view of the mistry that surrounds this beautiful phenomena. Of one thing we are certain; that these luminous rays are electrical. This is very obvious to the unimaginative telegraph operator, whose business of sending out electric waves is seriously interfered with by these ethereal communications. It is not suggested here that the aurora is a visible demonstration of an attempt on the part of one of the planets to communicate by wireless with the earth, though there is an excellent opportunity for the more fanciful to work out a theory along these lines The present writer has no doubt that the aurora was not of a terrestrial origin, but that it was projected into the atmosphere from some near or distant outside source. The sky was perfectly clear, and the stars could be seem even through the thickest parts of the aurora, so that the electric energy could scarcely be generated by any disturbance in the atmosphere itself, as is the earth with an electrical storm.

This theory finds some definite support from Dr. Ronald Campbell Macfie, the poet, in his remarkable book, "Science, Matter and Immortality." In a chapter dealing with "Electrons and the Aurora Borealis," Dr. Macfie says that the spectrum of the aurora shows that it is largely produced by vibrating molecules argon, krypton, xenon, neon and other rare gases of the air which collect in the upper layers of the atmosphere. The presumption is, therefore, very strong at the Aurora Borealis is caused by electic discharges — dicharges of electrons through the upper layers of the atmosphere. But where do the electrons come from? After explaining the effect of sun-spots in sending out showers of electrons into space, Dr. Macfie concludes: In brief, the Aurora Borealis is due to the bombardment of the rarefied gases of the outer atmosphere by electrons ejected by the sun and borne across space by light pressure."

This explanation, while it is interesting, does not quite satisfy us, so far as the aurora is concerned. The idea of the "bombardment" is all, but if there was such a bombardment it was directed at one definite point in the atmosphere, and the projectiles were of an explosive nature, as indicated by the central swirling movement and the ever-shifting, fan-like rays. If the aurora were caused by the "pelting" of our atmosphere with electrons the illumination of the rare gases would be of a nebulous or cloud-like character. This theory does not account for the ray formation of the auror, which is an important discrepancy. It should also be noted that the recent display was not colored, but was pure white in every part. This may have been due to the fact that it appeared in the zenith and that the prismatic effect usually seen in the Northern Lights is caused by the location on the horizon, like he georgeous coloring of clouds and amosphre at sunset.

REAL HARDSHIP

When the paper shortage causes the newspapers to suspend publication, what are we going to do—

About lighting the furnace?

For something to line the shelves in the jam closet?

For another excuse at breakfast, when one is too grouchy to converse with the wife?

In the summer for a fly swatter?

About a substitute wrapper for little Johnny's school lunch?

For a screen to conceal oneself behind, when lady enters crowded street car and rather pointedly stands in front of the seat one is occupying?

About something to put under father's feet, when he will insist on taking those afternoon naps on the best bedspread?

For something to read?

Earliest history represents the Slavs as living around the Carpathian mountains.

Scorpians live only in warm countries.

MANY TRADITIONS ON HIRAM ABIFF

More legend than fact, has been woven around the character of Hiram, the widow's son, of Tyre, or as he is more generally known, Hiram Abiff. This last name, however, does not occur in the English Bible. It is first met with in the German translation, which was the work of Martin Luther. He translated the words "Hiram, his father," in II. Chronicles ii., 13, and iv., 16 as "Hiram Abiff," and the same reading is now to be found in the Swedish version. Calmet, in his dictionary of the bible, has pointed out that the word "Hiram" signifies "high intelligence," and says that Hiram was called "father" by Solomon and the King of Tyre because he was the chief director of the work on the temple.

It is clear that Hiram could not have been the father either of David or of the King of Tyre. It is of interest to recall that Khurum or Hurum is idential with the Egyptian Her-ra, Hermes or Hercules. The word Abi or Abiff, regarded by some writers as a surname, was a title bestowed by the Hebrews as an honor upon their chief advisers and the intimate friends of the reigning monarch.

The story of Hiram is given in the Old Testament, I. Kings. vii, 13-45 and II. Chronicles, ii, 11-14. In the first place Hiram is described as the son of a widow of the tribe of Naprtalli, and in the second as the son of a woman of the daughters of Dan, an obvious impossibility, as a woman could not belong to two tribes. The Rev. Morris Rosenbaum, a well-known Hebrew and Masonic scholar, maintains that the two Hirams are spoken of, and points out that they were engaged upon different work in connection with the building of the temple. One was a brass-smith only, but the other was an all round workman, skillful in every kind of metal work, also in stone and timber; consequenty, a builder and a master of device, an architect.

One Masonic tradition runs that about four years before the building of the Temple Hiram Abiff, as the agent of Hiram, King of Tyre, purchased some curious stones from an Arabian merchant, and upon enquiry where he met with them he was told that they had been found upon an island in the Red Sea. King Hiram at once sent his agent to investigate and he had the good fortune to discover many precious stones, and among the rest an abundance of the topaz, with which the King of Tyre adorned his palaces and temples, as we read in Ezekiel, xxviii, 13 Subsequently, according to Pliny, the island was called Topaz, from the abundance of this stone found there.

The story familiar to Free Masons is that Hiram Abliff was slain before the temple was completed, but if only one Hiram was referred to in the Old Testament, this story lacks corroboration either there or in Josephus. Masonic tradition asserts that he met his fate within the precints of the Temple before the work was completed, which is at variance with I. King vii, 40, and II. Chronicles iv. II.

According to Mr. Rosenbaum, the legend of Hiram Abiff's murder can be substantiated by the Scripture narrative, although there is no mention of it in the Old Testament. "Huram, his father." he contends. refers to the father of Hiram, the second, who said in verses immediately preceding to have carried out the casting of the hugh brass articles, and that the proper interpretation of the passage in Chronicles: "And Huram (the father) made the pots and shovels, but Hirum (the son) finished all the work which he made for King Solomon," viz., the two pillars, the sea and the lavers.

In the history of the Masonic degree of architect we are told that on the stoppage of the work in consequence of the passing of the chief architect of the temple, King Solomon assembled all the masters, who were distinguished for their talents, and formed them in a lodge or council to supply the place of Hiram Abiff and conferred on them the privilege of entering the Sanctum Sanctorum, on the portal of which had been engraved the letter "G" inclosed within a blazing star. From this period the plans and designs of the temple were placed at the disposal of the Lodge of Architects.

The Ghiblim, or stone squarters, polishers and sculptors, says Dr. Oliver, a high Masonic authority, were the Dionysiacs, a society of architects, who built the temple of Hercules at Tyre and many magnificent edifices in Asia Minor before the temple of Solomon was projected. They were the masters and wardens of the Lodge of Masons during the erection of the famous edifice; to them was intrusted the execution of those works of art and genius which were projected by the chief architect, Hiram Abiff; they maintained order and regularity throughout the vast number of inferior workmen and laborers.

Hiram Abiff lived towards the end of the tenth century, B. C., at which time, and many centuries later in the time of Tutmes III. (about 1600 B. C.) Hiram's countrymen were renowned for the productions of works of art. Dr. Anderson, in his "Book of Constitutions," issued in 1738, says "Solomon had laborers of his own; but was much obliged to Hiram, King of Tyre, for many of the Ghiblim and Bonan who lent him his best artists and sent him firs and cedars of Lebanon; but above all, he sent his namesake, Hiram Abiff, who, in Soomon's absence, filled the chair as deputy grand master and in his presence was the senior grand warden or principal survey and master of work."

ALWAYS SOMETHING TOLD IN TYPE.

(By C. Bickerton, Bonnington Falls)

This world is full of care and strife no matter where you live your life. There's always someone, friend or foe, who seems to spoil the blooming show. You meet a fellow who seems nice; next time you meet him he's like ice. You meet a woman—she's alright; next time you meet, her hat seems tight. You meet a girl, she seems a dream; next time you meet, she doesn't seem. You do your shopping at a store, they take your change and then feel sore, you didn't buy a lot of things you didn't need much more than wings. If you are married, sure as life, there's just this to it, if your wife should take a notion for a dress, you must get busy and confess that her last one is in the shade, so hurry, dear, and have one made. It's nicer far to pay the bills if you're decked out in fancy frills; your friends they sure make quite a holler if you go dressed in turned down collar. And when you're feeling pretty small, your next door neighbor's sure to call to borrow 5, or 10 or 20, and you must lie and say you've plenty; although perhap's your pocket's flat and you should have a decent hat, and your rent is due and you haven't got it, and you have a thirst, oh, how you've fought it!

Sure, Mike, there's always something doing, to keep your little brains a-stewing; and so it goes all down the line, and always will, so you onine. The things you have aren't worth a sou; what you can't get makes you feel blue; the things you want are hard to get; the things not looked for, you can bet, fall in your way as if by chance, like an awkward partner at a dance. But say, my friend, that's up to you. Whose fault is it if you feel blue? No one's to blame if you are here, and perhaps no one will shed a tear when your last square cut overcoat of one-inch boards has "got your goat." Get busy now and act the man, and live up to your little plan. Don't think your neighbor is a fool. Stick closely to the Golden Rule. Then all your woes will disappear, and you'll have nothing more to fear.

TEN YEARS AGO TODAY

(From the Daily News, April 1, 1910

Edward Peters, of Ymir, was in the city yesterday. He stated that already the miners are going into the hills, where the snow is going off.

MRS. THACKER DIES

ROSSLAND, March 31. — The death occurred yesterday of Mrs. Hacker, who had been ill for some time, at the home of her daughter, Mrs. J. Schmidt.

ROSSLAND LOCALS

ROSSLAND, March 31.—J. Kendrick, who has been here for the past week on account of his brother, Mr. Martin's illness, leaves Thursday morning for his home in Trinidad, Colo.

Mrs. S. Evans, who has been seriously ill with pneumonia, is reported much better today.

Mr. Thompson, government tax inspector, is in the city and leaves on Thursday for Nelson.

J. Armstrong, who is ill at his home with pneumonia, is reported better today.

Miss Georgina Martin will spend the Easter holidays in Spokane.

Miss V. Muddell will leave Friday to spend the holidays with friends in Kaslo.

Miss Margaret Fraser, of the teaching staff at Trail, will spend the holidays at her home here.

Mr. and Mrs. A. Page are ill at their home with influenza.

The Amazon has 2000 species of fish.

FAREWELL PARTY HELD AT CASTLEGAR

CASTLEGAR, March 30.—On Saturday last, through the kindness of Mrs. Thorpe, who lent the dining room at the hotel, the residents were able to entertain Mr. and Mrs. Lawrie to a farewell party. The arrangements were in the hands of Mrs. Hart, Mrs. Bastin and Miss Carter, and were excellent. Dancing was indulged in until twelve o'clock when an excellent supper was served and all left for home after wishing Mr. and Mrs. Lawrie a prosperous and happy time in their new home. Music was supplied by an orchestra composed of Joe and Harry Killough.

Dr. Thom, of Trail was a visitor today on professional business, there being several cases of sickness in the neighborhood.

Mr. Lamphear, whose house was recently destroyed by fire, is building a pretty bungalow on the site of his old house, and hopes to have it finished about the end of the month.

Mr. and Mrs. W. Lawrie expect to leave for their new home at Hammond in a few weeks time. Mr. Lawrie has been C.P.R. agent here for many years. He held many honorary positions here being a school trustee, honorary secretary of the Gun club and also of the Lawn Tennis club, and was the canvasser for the Victory Loan, for which the district won a flag. Mrs. Lawrie was president of the local Red Cross society during the war.

CONSOLIDATED HAS HOUSING SCHEME

TRAIL, March 30.—The housing situation in Trail is becoming very serious, there not being any empty houses in the city. Real estate is daily changing hands and is very much in the limelight. It is believed that many will take advantage of the new housing scheme which the Consolidated Mining & Smelting Company is arranging with its employees, of advancing them $2000 for the purpose of either building or buying.

Mr. and Mrs. Nicholas and daughter Gladys left last night for Vancouver where they will spend a few days before embarking for China, where they will make their home. A large number of friends were down to the station to bid farewell.

The local teachers are sending two delegates to the teachers' convention which meets during the Easter holidays at Cranbrook.

T. Binnie spent a few days at his home in Rossland.

J. C. Hanna of the smelter staff returned last evening from Victoria and other coast cities where he has been spending his holidays. Mrs. Hanna is remaining in Victoria for a while longer.

The Trail football club is getting busy, and already has been practicing on the park grounds. The team hopes to make a good showing in the Kootenay games this season.

Pat Cunningham, Jr., is in the city from Portland, Ore., visiting his parents.

C. Squires, of West Robson was in the city yesterday on business, returning the same evening.

The roof of the Baptist church is being reshingled.

R. C. Crowe, who has been at the coast on business, has returned to the city.

W. Crosby left last evening for Grand Forks, where with his family he will proceed to Spokane, where they will reside in future.

WANETA MAN IS GIVEN SURPRISE

WANETA, March 31.—A surprise party assembled on March 22 at the Adie ranch to celebrate the birthday of Henry M. Adie, when between music, dancing and dainty refreshments, all present enjoyed a pleasant evening.

On Friday evening, Mrs. A. G. Lang gave a dance to entertain some friends.

The early celandine, known to the children as the buttercup, is now blooming on the hillsides.

W. Pascoe, the Nelson builder, was a visitor here last week.

Mr. Lampman of Trail is in the valley to round up some horses which have been wintering on the range.

John Heintz brought in on his motor truck a load of calves for the Symonds ranch.

ROCK FALLS ON EDGEWOOD ROAD

EDGEWOOD, March 31.—The spring thaw recently severed a huge piece of rock from a rock bluff overhanging the falls road near Edgewood, causing it to fall into the roadway. Traffic had to be diverted on this account until a gang of men removed the obstruction after blasting it.

Men are also engaged in clearing Eagle Creek to induce it to keep within bounds. Last year considerable damage was done to the property of Messrs. Calcutt & Harris, who are developing a sheep ranch in the vicinity of the creek. The approach to a bridge which crosses at this point, was swept away, leaving the bridge stranded and useless.

Lindsley Bros. are making preparations for handling a large number of poles in the Fire Valley, and camps are being installed for this purpose. A flum is to be constructed from a point above the falls to avoid the rapids here and other development is contemplated.

The tug Elco laid up yesterday at Edgewood for repairs to her rudder, which had been buckled through contact with ice encountered in the lake above Needles.

CARSON IN DANGER OF ASSASSINATION

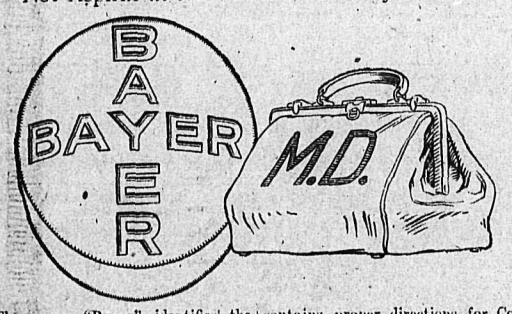
MONTREAL, March 31.—The Montreal Star tonight publishes the following cable from London:

During the debate on the Irish home rule bill today, Sir Edward Carson, the Ulster leader, said he had been warned by Scotland Yard that Clan-Na-Gael members had landed from the United States with the avowed intention of assassinating him.

Ancient Jews advertised by means of public criers.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"



The name "Bayer" identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada.

Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally.

Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

Guaranteed to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Weak, thin people—men or women—are nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and neurasthenia are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Eminent specialists state that the best nerve food is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

Weak, tired people regain strength and vigor; thinness and angularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health. Bitro-Phosphate the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gains of weight in a few weeks.

CAUTION:—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

MINARD'S LINIMENT

King of Pain

The old reliable remedy for Rheumatism and Neuralgia, Sore Throat, Sprains, Strains, Swelling of any sort and Bruises

RELIEVED THE PAIN

Miss Ruth Tarkington, 12 Trafalgar St., St Thomas, Ont. "My grandmother was subject to rheumatism and used to call me from my playmates to go to the druggists to get Minard's Liniment. I was often unwilling and declared I hated that old stuff, but I soon found out how good it was. I got neuralgia. Grandma came with the Liniment and applied it to my head and I was very much surprised to feel how quickly it relieved the pain."

Minard's Liniment Company
Limited

YARMOUTH NOVA SCOTIA

LEGISLATURE IS VERY BEHINDHAND

Government Business Only Half as Far Advanced as at This Date Last Year

VICTORIA, March 31.—Through failure of the government to have its legislative program anything like ready, and the delay that is still being experienced in the bringing down of bills which were promised for the early part of the sittings, the session of the legislature is dragging along. It is a certainty that the house will not rise until well on to April 17, despite the fact that night sittings have been inaugurated with the bringing down of the budget.

The arrival of the budget in the house was delayed, it is rumored, because of the strong objections some liberal members made in caucus to the proposed expenditure in their respective ridings. Having in mind the early advent of another general election, and the almost universal criticism which throughout the province has been directed at the lack of initiative on the part of the public works department in in the matter of road work and maintenance, the policy hitherto followed, having failed to produce results, those members wanted more money. They claimed less money spent on over-head administrative charges, and more on actual work, would strengthen their position with their electors. Just two months have been spent so far in dealing with about one-half the amount of actual business transacted in a similar period last year. Then, the end of the two months period saw the session ended, and the members on their way home. This year the house, in that time, is just beginning to get down to some real work. So far about 65 bills have been tabled, the great bulk of them being minor measures which required little real consideration.

Bowser Helps Shape Bill

Of the contentious measures, the Game act is now out of the way, after being materially amended and strengthened by reason of the opposition criticism. The elections bill is still in the committee stage, and here, again, the opposition criticism has resulted in many changes, especially in respect of greater safe-guards against election irregularities. The premier and the opposition leader have been working together amicably and energetically to whip the bill into shape, and by the time it is completed it will be a generally good measure, though so far the two most contentious points, the granting of the franchise to the Japanese veterans and the elimination of the provision making it possible to over-ride the comparison of signatures in the counting of the absentee ballots, have not been brought forward again.

Major Burde's bill to provide an eight-hour day in the saw-mills of the province was given the six months hoist moved by the attorney-general last week, but not until after an acrimonious debate during which the Speaker threatened to "name" the member for Alberta, whose repeated breaches of the rules of order brought down upon the head of the soldier member the resentful criticism of the premier.

Government Ranks Divide

A feature of the debates in the house of late has been the effort made by some of the smaller fry on the government side to throw upon the opposition the blame for the delay in getting ahead with the session's business. The opposition is wont to taunt the government with the evident lack of aggressive leadership which, did it exist, would have resulted in much greater progress. The retort is that the opposition has shown itself devoid of anything in the way of constructive criticism, and were it doing its duty, it would bring forward helpful suggestions. The fact is that with a few exceptions, opportunities for opposition criticism have been curtailed this session for the simple reason that so far government policies have been distinguished by their absence. Outside of the debate on the address, and those on the Elections, Game and Mineral bills, there has so far been a dearth of real live opportunities for the opposition to seek to secure the government scalp.

The fact is, as the opposition leader, Mr. Bowser, has pointed out on more than one occasion, the government has been entrusted with the administration of the public affairs, and in its hands rests the authority and the financial means for enacting a program of value to the country. While, he promised them, the opposition was at all times ready to assist in developing a real progressive policy, it objected having to shoulder responsibilities which the government accepted when it took office. The fact was, Mr. Bowser, suggested, the government besides losing the confidence of the country was losing the support of its own followers in the house, a fact made patent by the growing disposition of Lizeral members to vote with the opposition and to criticize their own leaders. The apparent lack of harmony in the government ranks was only the surface indication, he considered, of the inability of the administration to work out policies of a progressive nature, and the opposition did not consider it to be any part of its duty to bear the blame for the incapacity of the occupants of the government benches.

CIVIL SERVANTS TO HAVE WAGE RAISE

WINNIPEG, March 31.—Authoritative information received at the parliament buildings today was to the effect that the provincial fair wage schedule to be drawn up in the immediate future which will set the wages of all workers employed on government construction work will average from 20 to 25 per cent increase. The schedule is not limited to the government construction work, but is also adopted generally by the city of Winnipeg and the school board.

GREAT LAKES TO OPEN APRIL 10

CHICAGO, March 31.—Navigation on the Great Lakes will open about April 10, the weather bureau announced today.

CHILDREN'S COUGHS QUICKLY CURED

It is very hard to keep the children from taking cold. They will run out of doors not properly wrapped—play too hard and become overheated—get their feet wet—kick the bed clothes off at night.

There is nothing so good for children's coughs, colds, croup, whooping cough or bronchitis as Dr. Wood's Norway Pine Syrup. It is so pleasant to the taste the youngsters take it without any fuss, and at the same time its promptness and effectiveness in loosening the phlegm, and healing the lungs and bronchial tubes are such that the cough is checked before any serious trouble can possibly develop.

Mrs. Harold Acker, Lake Pleasant, N.S., writes:—"I have three children, the eldest eight years and the baby ten months old. They all had a bad cough. I knew of quite a few persons who had used Dr. Wood's Norway Pine Syrup with good results so I got three bottles. I am glad I did so as it is a sure cure for coughs and colds. A home where there are children should never be without it. I highly recommend it to those who need a quick cure."

Price 25c. and 50c, at all dealers. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

NEW POSTOFFICE IS BOULDER MILL

Summer Service in West Arm Starts Today; Daily Delivery to Cedar Point

With today, the lumber community on Boulder creek attains a position on the postal map. The new postoffice will be known as Boulder Mill. Hitherto the mill and camps of the O'Neil, Irvine & Mann Lumber company have received their mail by way of Salmo.

Summer mail service goes into effect today, which means, for the West Arm, an improved service. There will be a daily service between Nelson and Cedar Point, but beyond that point to Molly Gibson the service will continue tri-weekly.

METHODIST FUNCTION DISCOUNTS EASTER

Easter was discounted at the tea and sale of work held at the Methodist church by the Ladies' Aid yesterday afternoon, when new bonnets and gowns widely displayed the trend of fashion. About $50 was realized as the afternoon's proceeds.

MRS. FOSTER TALKS ON WIDOW'S PENSIONS

MONTREAL.—Chairman Maxwell—"This comrade here has the floor."

Voices—"The lady, Mr. Chairman, the lady."

Chairman Maxwell—"I beg your pardon. The lady comrade has the floor."

Never before had a comrade of the feminine persuasion stood up to address a convention of the Great War Veterans association until Mrs. W. G. Foster, of Nelson, B.C., arose. Immediately the hubbub of irregular debate and impromptu caucusing ceased and the house became as still as a listening post. Mrs. Foster came to the front of the hall and spoke on equalizing pensions, the cloud of black lisse draperies framing her head and shoulders, adding its silent eloquent appeal. "It is very painful for me to have to speak on pensions," Mrs. Foster admitted, "but in view of the recent discussion, it is impossible for me to forego my duty in that respect.

Willing to Forego

"I want to say that we officers' widows have asked permission to go without our pensions, so that the widows of private soldiers might have more; but we found it was a contract made by the government with the men who went, and is based on the old British Pensions act. I would like to see pensions made equal."

Speaking on the clause protesting against deducting of pensions for pensioners resident in the United Kingdom, Mrs. Foster declared that, as the mothers sent their boys from Canada when they were getting Canadian wages, those mothers were entitled to the Canadian rate of pensions, irrespective of where they lived.—Toronto Telegram.

SINN FEINERS DENY CHARGES

LONDON, March 31.—The statement that Lord Mayor MacCurtain was murdered after his expulsion from the Irish Republican Brotherhood, according to the Dublin correspondent of the London Times, is denounced with indignation by Sinn Feiners in Cork and Dublin, and, indeed by the whole Nationalist press. The Freeman's Journal says that the story was invented in order to throw the public off the track, and repeats its conviction that the lord mayor was murdered by men who believed they were thus helping the British cause in Ireland. Prof. Stockley, of Cork, against whose life a recent attempt was made, declared that he never attended a meeting of any private society with the lord mayor and that he knew nothing about a membership of the brotherhood.

Arthur Griffith, acting head of the Sinn Fein, describes the report as a falsehood. He asks the public to wait until the inquest is ended and says that patience will be rewarded. The crown has taken no action on the report, and the concluding statement of the inquest are being followed by the public with extreme interest.

WORLD ASKS FOR AN ACCOUNTING

TORONTO, darch 31.—The World Newspaper company, limited, desires a reference to J. A. Cameron, master in chambers on April 7, to appoint a permanent liquidator. The company as at present organized was incorporated in 1902, with a capital of $200,000. The whole capital, 3000 shares of a par value of $100 each, was in the name of Catharine C. MacLean, now dead, and her heirs are believed to be the equitable owners.

John Lang, the circulation manager of the World, is the petitioner for the winding up. He claims The World is insolvent, that its debts are about $500,000, that it is indebted to him personally for $1900 for which he has no security, and that an assignment has been made to G. T. Clarkson.

Samoan babies often learn to swim before they learn to walk.

REPORT OF DOMINION AGRICULTURE MINISTER

Poultry culling demonstrations that have been carried on by the federal livestock branch have clearly proved that it is possible to take out from 4 to 6 per cent of the stock in the average farm flock and still leave the farmer with as many eggs per day as he was getting before.

An equally valuable service of the federal livestock branch is the grading of market wool. According to the report of the minister for the fiscal year 1918-19, approximately 4,550,000 pounds of wool were systematically graded and sold cooperatively.

These are only examples of the service of the federal department of agriculture, which has branches and divisions for the advancement of practically every phase of farming and gardening. This report, which is obtainable from the publications branch, Ottawa, covers the work of the whole department for the twelve-month period.

SLOCAN INSTITUTE FORFEITS POWERS

Notice is contained in the current number of the British Columbia Gazette that the Slocan Valley Farmers' institute, having failed for six consecutive months to do business, has forfeited its corporate powers, and will be wound up.

The same issue contains notice of the incorporation of the British Columbia Honey Producers' association.

Tenders are called for the erection of a two-room school at Kimberley.

DANISH GENERAL STRIKE IS ON

COPENHAGEN, March 31. — The president of the association of Danish trades unions told the correspondent today that the general strike order was effective immediately but that it was left to the various labor unions to carry it into effect at their own convenience. The strike must be effective, he added, not later than next Tuesday morning.

MISSISSIPPI FAILS TO RATIFY SUFFRAGE

JACKSON, Miss., March 31.—The Mississippi house of representatives today again refused to ratify the suffrage amendment by a vote of 94 to 23. The measure passed the senate yesterday, the action was positive and regarded as final. A motion to disagree with the senate's resolution favoring ratification has been carried.

The origin of the Irish setter is unknown.

INITIAL SHOOT OF TRAP SEASON

Seven Shotgun Artists Have a Practice Shoot at the Local Traps

Seven trap-shooting enthusiasts of the Nelson Rod and Gun club, armed with shot-guns and ammunition in plenty, hiked over to the C.P.R. flats yesterday afternoon and held their initial shoot of the season. For about two hours they blazed away in great style, some of them bringing down a fair number of the clay pigeons.

In the first series G. A. Potter was high man with 22 birds, L. Drake coming second with 21. G. Lapointe was high in the second series with 22 birds and G. A. Potter was second with 19. G. A. Potter held high score for the shoot with 41 hits.

The following were the scores:

	1st Series.	2nd Series.	Total
G. Lapoint	18	22	40
G. Long	17	15	32
D. P. Graham ...	15	17	32
A. Greenwood ..	8	14	22
H. Bush	20	18	38
L. Drake	21	18	39
G. A. Potter	22	19	41

The water moccasin is the deadliest snake in North America.

Almost all accordians are made in Paris.

THE LOVELIEST CURLY HAIR—SO EASY TO HAVE

Such pretty waves and curls, having all the appearance of "Nature's own"—yes, you can have them, easily, quickly, if you will just apply plain liquid silmerine before doing up your hair. The hair will have such a lively lustre and wholesome beauty. And it will be fine and fluffy when combed out.

If you will get a bottle of liquid silmerine at any drug store and follow the accompanying directions, you will be simply delighted with the result—which will be in evidence within three hours, and which will last a long time. The hair will be quite manageable, no matter in what fashion it is worn. The liquid, which is perfectly harmless, will be appreciated also as a splendid dressing for the hair.

GRIP-FIX ALLAYS 'FLU SYMPTOMS

Get It in Capsule Form From Your Druggist; No Substitute Does the Same Work

While the Spanish Influenza prevails the best plan is to play safe. Have two or three boxes of Grip-Fix in your home and you can laugh at colds and 'flu because you have right there the treatment that does the trick.

The best thing that doctors can do in 'flu cases, is to allay the different symptoms as they appear. There is no specific against the disease and the treatment of individual symptoms is the uniform method employed in nearly all cases.

The symptoms of cold and 'flu are nearly identical. In a great many instances medical men themselves can not distinguish between them. For many years, Grip-Fix has been relieving colds in a single night. The medicine is in capsule form and gives prompt results. Grip-Fix is swift, safe and sure.

Grip-Fix is compounded of Phenacetin, Quinine, Salol, Caffein Citrate, Cascara and Camphor Monobromate. These drugs constitute the standard prescription that most doctors use for the alleviation of a cold.

Ask your druggist for Grip-Fix and be sure you get the original. There's nothing else like it. Sells for 35 cents per box at all drug stores.

MRS. HANBUR LIKES IT

SEATTLE AND OTTAWA GRAPPLE TONIGHT FOR PREMIER HONORS IN HOCKEY; USE N.H.L. RULES

ORONTO, March 31.—Ottawa and ttle meet in the fifth game and l one for the cup at the arena orrow night amid great doubt as the outcome. Each team has a game playing under the s of its own association and each has also been successful once le playing under strange rules. herefore the fact that tomorrow's he is to be played under National key league rules, is no deterrent those who predict a victory for Pacific coast champions. Furrmore, they point out, virtuallly ry member of the Seattle team at one time or another, played er eastern rules. The champions the Pacific coast team further e their reputations on their favtes as a last ditch team. In ir own league they came back won the last game when every had conceded it to Vancouver. morrow the chances are more ual and they look for a repetition their last game at home. The Ottawas conclude that the reit of this important and to-be- historic game is as uncertain as any game ever was in advance and an indication of that fact is that no line could be obtained tonight on the probable betting odds. The teams will lineup practically as on Tuesday, with the possible exception of Darragh who, after the fourth game, returned to Ottawa. It was not known tonight if he would be here tomorrow night.

EDMONTON SHOW IN FULL SWING

EDMONTON, March 31.—Wednesday night's program at the Edmonton horse show brought out a fair audience in spite of the fact that the weather was cold with a keen wind blowing. Lady Matthias, shown by the lieutenant governor, has again won her old honors in the carriage class, Miss Della Lemon, England's pride, taking second. Five teams contested for the high stepping prize, Miss Lemon's Prince, England's Pride and Mary Maid winning first place and Princess of Mance and Duchess of Mance, shown by the Mance farming company, showing splnedid form at second place.

EDMONTON BALL TOSSERS WINNERS

EDMONTON, March 31.—Edmonton defeated Calgary in the final game of the elimination series for the provincial basketball championship here tonight 62 to 34, in a brilliant game

Lethbridge plays the Edmonton team on April 3 in the play off for the Alberta title.

CHARGES AGAINST TEAM OWNERS DENIED

NEW YORK, March 31.—John A. Heydler, president of the national league, in a letter to Lee Magee's attorney today, reiterated his denial that Magee had filed any charges against team owners or supplied any names of players whom Magee accused of gambling on games in which they played.

NELSON TO HAVE BIG SPORT SEASON

Baseball and Lacrosse Being Talked; Cricket Week Possible

All indications point to a very active season in sport in Nelson.

All the old base-ball players and fans are anxious to see some good baseball played in the city this year. Lacrosse, the national game, has also its coterie of young devotees, who are equally anxious to start something in their line. While track events, running and jumping, are also likely to attract considerable following. There is also talk of a cricket week.

The local Y. M. C. A. has already two sets of base-ball outfits on order which are likely to arrive in the next week, and is contemplating making the initial steps towards the organization of a city base-ball league, with an eye towards the ultimate formation of a West Kootenay league, to include all the district towns on this side of the line, and, if possible, a number of others across the border.

There is plenty of promising material in the city with which to support two or three base-ball and lacrosse teams. The high school has a large number of young fellows who will be anxious to get into the game with both feet. And round and about the city offices, railway shops, and stores in the city there is any amount of red blooded active men able to give a good account of themselves and hold their ends up on the diamond, or with the lacrosse stick.

Apparently there will be no need for the games to suffer this year on account of a lack of outside opponents. Trail has already organized a base-ball club, and other towns are expected to fall in line shortly, and there is no reason why inter-city meets of an athletic nature may not be of frequent occurance this spring and summer.

In addition to base-ball, Y.M.C.A. officials hope to organize teams for tack work in running and jumping and to do their part towards making the athletic side of the Nelson fair attractions thoroughly representative of all sorts of sporting events, with entries from all over the Kootenay. The fair board is prepared to meet sporting enthusiasts half way in the matter, and will no doubt arrange for the best possible showing of athletic events it is possible to stage.

LOOKS FOR OLYMPIC MEN IN PROVINCE

VANCOUVER, March 31.—According to word received here, Walter Knox, of Orillia, who is to prepare the Canadian track and field teams for the Olympic games at Antwerp, Belgium will visit British Columbia cities next month for the purpose of looking over Olympic material.

SHERRY WANTS TO MEET 'EM ALL

CHICAGO, March 31.—Jack Sherry, who claims the championship of Western Canada and Alaska, and who has come out of the far northwest in quest of gold and glory which are to be picked up on the mat, has joined the list of the challengers of Joe Stetcher. Sherry has been tackling the coast grapplers, and is rapidly making an enviable reputation for himself. He will probably reach the east in the near future intent upon obtaining a match with the titleholders. According to advices from San Francisco, he is more than willing to wreste Jim Londos, "Strangler" Lewis, or any of the other big fellows in the event that Stetcher is not disposed to take him on at this time.

FORT WILLIAM BEAVERS DEFEATED

TORONTO, March 31.—Fort William Beavers, who have been urgently requesting an opportunity to enter the competition for the Ontario Hockey Association memorial cup, emblematic of the Ontario Association championship of Canada had their chance tonight and were defeated by the Toronto Canoe Club, winners of the Ontario Hockey Association memorial cup by 11 to 2.

CHET NEFF WINS FROM ANDERSON ON POINTS

PRICE RUPERT, March 31.—Chet Neff was given the decision over Harry Anderson of Vancouver on points, in a fifteen round bout here tonight.

HEAVYWEIGHT CHAMP IS KNOCKED OUT

KENOSHA, Wis., March 31.—Tony Melchoir, of Chicago, knocked out Jack Doyle, claimant to the heavyweight championship of Canada, in the first round of a scheduled 10 round bout here tonight.

Flint is the only stone capable of being worked into variety of shapes by chipping and flaking.

Printed Butter Wrappers

Either With Your Name or With the Words

Dairy Butter

According to the Dominion government regulations all farmers who sell butter either to stores or privately are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words

"DAIRY BUTTER"

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces and in default of same a fine of from $10 to $30 for each offense is imposed. Whey butter must be so labelled even when mixed with dairy butter and dairy butter retains its label even though it be mixed with the creamery product.

If you have your own name or brand on your wrappers you gain valuable advertising for your butter. It causes people to ask for the same brand again.

Prices

PRINTED WITH NAME OF FARMER OR BRAND NAME
200, Paper and Printing $2.50
500, Paper and Printing $3.50

OUR MEN'S OWN STORE
Resolved: To Buy Where Buying is to My Advantage

Men's Suits— $23.50 TO $52.00
Boys' Suits— $8.50 TO $24.50

Price Means Nothing Today in Clothing
We mean you may easily pay $10.00 more than necessary because the cost of your clothing today all depends where the cloth that goes into its make up was purchased. If on a high market, your clothing must cost you more; if a low market was taken advantage of, you pay less. We are confident our clothing was purchased when the market was advantageous to you. All we ask for is a comparison.

We Offer You Higher Qualities for Lower Prices

MANY SOLDIERS ARE EMPLOYED

Employment Situation Much Improved; Voluntary Increases in Wages

OTTAWA, March 31 (Canadian Press). — Improvement in the employment situation and voluntary increase in wages are features shown in the weekly report of the information and service branch of the department of soldiers' civil reestablishment.

There has been a decrease of 2000 in the number of unemployed exservice men reported, the total now unplaced being recorded at 2200. During the week employment was found for 3251 former members of the Canadian forces.

Voluntary increases in wages are recorded at various points in Ontario and British Columbia. The information and service officials report increasing demand for labor and a general improvement in employment conditions.

Up to date 141,212 applications for employment have been successfully placed through the efforts of the information and service branch.

Sphagnum bogs are remarkable as peat formers.

CLEMENTS GUILTY OF MANSLAUGHTER

WINNIPEG, March 31. — Jack Clements, another of the accused in the trio accused of the murder of W. J. Deforge last October, was found guilty of manslaughter by a jury this afternoon. A recommendation for mercy was added to the verdict. Elnick has been found guilty of manslaughter in the same case, and Harold Burdie has yet to be tried. The latter will also face a perjury charge for his evidence at the trial of the other two.

WOMAN'S BODY FOUND IN WELL

SASKATOON, March 31.—Martin Lishinsky, a farmer of Hoodoo, 15 miles east of Wakaw, was arrested by provincial police today, charged with killing his wife. Her body was found in a 75-foot well on their farm.

TO BRING BACK DIRIGIBLE R-38

NEW YORK, March 31.—Three naval officers and 18 enlisted men who have been training in the use of dirigibles at the naval air station at Rockaway N.Y., will sail for England April 5, on the transport Princes Matoika, to bring back the dirigible R-38, sister ship to the R-34, the first flier lighter than air to cross the Atlantic, it was announced here today. The R-38, which is being built for the United States navy will attempt the trans-Atlantic flight this summer.

FAREWELL FOR HARRY BALLANTYNE

VANCOUVER, March 31.—Directors of the Vancouver, Victoria and New Westminster branches of the Young Men's Christian Association tonight tendered a send off banquet to Harry Ballantyne, for the last seven years territorial secretary for Alberta and British Columbia. Mr. Ballantyne is leaving to become territorial secretary for Ontario and Quebec with headquarters in Toronto.

SHUT DOWN NAVAL YARD THIS MONTH

VICTORIA, B.C., March 31.—The esquimalt naval yard has received orders not to take on repair work after April 15 when the machinery will be tallowed, the packing removed, boiler emptied, and other preparations made for the shutting down of the yard. By the end of April practically everybody will be out of the yard and the equipment will lie idle.

The small steamer Restless is to be turned over to the hydrographic survey, according to the latest orders. This boat was recently laid up after being in use as an examination ship at the entrance of Esquimalt harbor during the war. The Restless will be utilized for survey work in addition to the steam Lillooet.

DRYDOCK MAY BE BUILT AT KINGSTON

KINGSTON, March 31.—The Collingwood Shipbuilding company is planning to build a drydock here 750 feet long, which would be able to accommodate vessels 600 feet in length. Two years would be required for construction, it is said.

LABOR WILL KEEP QUIET GOOD FRIDAY

TORONTO, March 31.—Labor organizations of this city will not hold a demonstration on Good Friday as requested by the political defence committee of Winnipeg, but it is probable that the suggested demonstration will be held later.

BOWLERS AND TOSSERS COMING

Two Teams From Cranbrook Will Contest With Local Association Teams

A weekend of exciting sport is promised this week, when two teams from Cranbrook, one of bowlers, and the other the Cranbrook senior basket-ball team will visit the city to contest with the Y.M.C.A. bowlers and senior basket-ball team.

The bowlers, consisting of five men, will bowl three games as soon as they arrive in the city on Friday night, and another three games on Saturday afternoon. On their last visit here they were defeated by their local opponents, but completely turned the tables when the local line-up visited cranbrook. The games will be played on the Y.M.C.A. alleys, which will be arranged to seat about 100 people, provision being made for the ladies. Considerable enthusiasm is exhibited amongst the local boys at the prospects of the coming contest.

At 7 o'clock sharp on Saturday night, the Cranbrook basket-ball line-up will meet the local seniors on the gymnasium floor. Excitement is rife over this game also, it being the first basket-ball match with an outside team to be staged for a considerable time past.

After the games a dance will be given for the visiting teams at the K. P. Hall as a wind up to their visit, and everything is being done to ensure them a good time while in the city.

BLAST ROCKS TO CLEAR ANCHORAGE

Anticipating the spring rise in the lake, William Holmes, of the Dominion department of public works, was busy blasting the larger rocks on the lake shore around the anchorage of the dredge, near the boathouses yesterday. By breaking up the larger rocks in the right of way, it is hoped to prevent the rise in the water drifting the dredge upon the rocks and thereby causing warpage.

SLOCAN PARK LAND DEAL

Alexander Smith, the Slocan Park rancher, has bought a tract of 15 acres adjoining his 10-acre ranch, from the Kootenay Slocan Frit company. The deal was completed on behalf of the company by Dr. N. Wolverton on Tuesday.

British investments in Mexico are estimated at half a billion dollars.

PASSENGER AGENTS ARE ENTERTAINED

Pleasant Function on S.S. Nasookin; Tourists Will Be Sent Here

Piloted by J. S. Carter, district passenger agent at Nelson, the party of touring C.P.R. passenger traffic experts, now on the home stretch of the dominion tour, arrived in Nelson by the Kettle Valley train last night.

The party was met at the station by a local delegation, and transferred at once to the Nasookin, where Mr. Carter was host at a party, to the visitors and to the board of trade committee.

Those composing the touring party were W. H. Snell, general passenger agent at Montreal; G. A. Walton, and R. G. McNeillie, respectively general passenger agent and assistant general passenger agent at Winnipeg; T. J. Wall, general agent of the passenger department at Chicago; M. E. Malone, general agent of the passenger department at Cincinnati; J. E. Proctor, district passenger agent at Calgary; G. D. Brophy, district passenger agent at Banff; E. D. Holland, secretary of party, Montreal.

The local men at the function were J. R. Hunter, F. A. Starkey, F. J. Boles, F. W. Sterling, F. D. Henderson, G. S. Rees, F. D. Conway, and J. S. Wallace.

A very informal program, made up of toasts and songs, passed a couple of hours agreeably.

Pleasant program

Mr. Carter presided as toastmaster, and particularly outdid himself in his felicitious reference to the visitors, whose toast he proposed.

This toast was responded to by Messers. Walton, McNeillie, Wall and Proctor. Mr. Walton, as general agent at Winnipeg, intimated that he and his associates would feel a new zeal in routeing tourist parties through this wonderful section of the dominion. Mr. Wall, general agent at Chicago, regretted that the time at the disposal of the party did not admit of a full day being spent at Neson, but he declared that what he and others to whom this trip was a revelation had seen on the Kettle Valley line was sufficient, without further investigation being necessary, to make them enthusiastic boosters for the Kootenay. He would personally urge all tourists he should come in contact with, to stop at Nelson and not merely pass through, for the lake region was a veritable wonderland.

Warm applause greeted these declarations.

Mr. Sterling responded to a toast to the C.P.R. freight department, and Mr. Hunter, for the board of trade, and Mr. Starkey, for the Associated Boards of Trade, also spoke in appreciation of the visitors, and of the hope entertained that they would, through the knowledge gained on this trip, become enthusiastic tourist traffic builders for the district.

Three members of the party were located at Nelson as representatives of the passenger department, in the past, Messrs. Malone, Proctor, and McNeillie.

After the function on the Nasookin was over, the entire party, visitors and citizens, called on The Daily News, and the visitors were fitted out with souviners from the mechanical department, in the form of metal slugs bearing their names and addresses.

Clothes that point the way to Easter Smartness

Nothing so definitely reflects a man's good taste and grooming as the appropriateness of his attire—especially at Eastertime.
And to remind you that Easter is just around the corner, we mention that by selecting early you will allow good time for pressing up, and any other little details necessary to have your new "outfit" ready for you in ample time.
Come in first thing and see the classy models for spring wear.
