MEIGHEN SLASHES FARMERS

Fines Tariff Question Down to Definite Issue of Protection or Free Trade

LOSES LIBERALS' TRACK IN DEMAGOGIC VERBIAGE

Says Crerar States Liberal and Farmers' Policies Practically Identical

SHERBROOKE, Que., Sept. 21 (Can. Press).—Right Hon. Arthur Meighen, premier of Canada, inaugurated his campaign in the eastern townships today, which included visits to Lennoxville, Compton, Stanstead, Coaticooke and Waterville, winding up the day's program by addressing a gathering of some 5000 here tonight.

The premier was given a rousing reception on his arrival at the armory, being accompanied by a large delegation, headed by a band and the boy scouts. Fireworks were set off all along the route of the parade. The premier was loudly applauded when he arose.

The chief theme of his address was relative to the tariff question while he absolutely denied charges that had been made that he was not a friend of the French Canadians.

Defines Tariff Issues

After stating that he saw little reason to defend the record of the government, the premier took up the tariff question. "You have two kinds of tariff and only two," he said. "You can have a tariff founded on one principle, that of protection, or on another principle, that of free trade. Great Britain had a free trade tariff for 60 years. She collected large revenues but she put a tax on nothing except on goods that could not be made in her own country. That was a free trade tariff. There was no protection about it. A protective tariff places a duty on imports not only for the sake of revenue, but as well to encourage production of goods at home instead of their importation.

Such a tariff Canada has had for 42 years, such a tariff the United States has had for 131 years, and such a tariff every great nation in the world today has except Great Britain alone.

Great Britain is now protecting and encouraging her home industry by a dozen or more different devices and, according to Dr. Beland, and other authorities just as good, may soon be using the tariff for protection as well.

Government Stands for Protection

"Now, I have set before you the

(Continued on Page Two)

CATCH GANG OF AUTO THIEVES

Shipped Stolen Cars for Sale in Norway, Sweden and Denmark

DETROIT, Sept. 21.—Charged with shipping more than $200,000 worth of automobiles, stolen in Detroit, through eastern ports to Scandinavian countries, six Detroit persons, one of them a woman, have been arrested here and are being held by federal authorities, it was announced today.

Three men now serving a sentence in the state penitentiary at Jackson, following their arrest several months ago, are alleged to have stolen the cars on the streets here during a period of a few months. The cars, it is said, were sent overland to eastern ports, by those now under arrest here, where they were shipped to Norway, Sweden and Denmark and sold.

Will Not Rescind Ratification of Tennessee Suffrage

WASHINGTON, Sept. 21.—Secretary Colby has refused to grant the request of anti-suffragists from Tennessee that he rescind his action in proclaiming ratification of the federal suffrage amendment on the basis of favorable action on the amendment by the Tennessee legislature.

STEAMER ARRIVALS

MONTREAL, Sept. 21.—Three liners arrive in port tonight with capacity passenger lists, on voyages which had been extended two or three days beyond scheduled dates by heavy fog encountered near the entrance to the Straits of Belle Isle. They were the Canada, the Scotian and the Saturnia. The Saturnia carried 250 cabin and 750 third class, and the Scotian 320 cabin and 989 third class passengers. Aboard the Canada were 92 cabin and 751 third class.

RAILWAYMEN WILL TRY TO AVERT STRIKE OF MINERS

LONDON, Sept. 22.—The railwaymen's delegates decided, after a long debate, to intervene in the hope of averting the miners' strike, according to the Daily Mail's labor writer, who adds:

"James Henry Thomas will probably propose to the meeting of the triple alliance Wednesday that a mediatory interview with the government be sought. If the railwaymen's proposed intervention fails, it is probable that the Labor party will try persuasive pressure on the miners and government, but much hope cannot be built on this."

NOMINATE AUSTRALIAN SUCCESSOR

Australian Navy Minister to Be High Commissioner in London

LONDON, Sept. 21 (Can. Associated Press).—The Times' corespondent in Melbourne says that Sir Joseph Cook, navy minister, will succeed Sir Andrew Fisher as Australian high commissioner in London.

Recently a special correspondent of the Times wrote:

"Confusion and uncertainty rule the federal politics of Australia. The party in power, the National party, is the survivor of a coalition formed by Premier W. H. Hughes, in the days when the conscription controversy tore him from the bosom of Labor and flung him into alliance with his life-long opponents, the Liberals led by Sir Joseph Cook. With the war over the bond of that union seems to grow increasingly irksome."

PREPARE FOR HURRICANE

New Orleans Weather Bureau Warns of Approaching Storm

NEW ORLEANS, Sept 21.—The New Orleans station of weather bureau at 10:30 o'clock notified Superintendent of Police Mooney that all persons in outlying suburbs should be warned that the tropical hurricane would strike the city within three hours. With the wind blowing a steady gale of 30 miles an hour and coming gusts from 50 to 60, merchants and the people in outlying districts began preparing to meet the hurricane fast approaching from the gulf. Plate glass windows throughout the business section were re-inforced, and any available metal shutters were placed over the windows. This was especially true in the old French quarter. Many sign boards were blown over throughout the city.

Galveston on Guard

GALVESTON, Texas, Sept. 21.—An exodus of approximately 4500 people, many of them out-of-town visitors, the shifting of all cars loaded with wheat and cotton to the mainland, the vacating of ground floors in the business district and the securing of all shipping in the harbor marked Galveston's preparations today in anticipation of the West Indies hurricane supposed to be sweeping down upon the Texas coast.

Tenders Close for Esquimalt Drydock Early in December

VICTORIA, Sept. 21.—Tenders for the construction of the new Esquimalt drydock will be returned to the federal department of public works on December 9 and "It is fair to expect that work should be started by the end of the years," Hon. Dr. Tolmie, minister of agriculture announced when opening the British Columbia Agricultural Fall fair at the Willows today.

MAY BLUNDER BUT IS NEVER INTIMIDATED

Wall Street Answers Red's Challenge by Resuming Day After Explosion

TORONTO, Sept. 21.—(Can. Press)—The Anglo-Saxon sometimes blunders, but he has never been intimidated said a message from the New York Chamber of commence to the congress of British Chambers of commerce, acknowledging the Empire business men's greeting to New York after the Wall street explosion.

New York's message, signed by D. P. Kingsley, president of the Chamber of commerce, told the British congress that New York had answered the challenge of the Reds with a complete resumption within 24 hours. Mr. Kingley's telegram was read to the morning session of the congress by Lord Desborough, the chairman.

It was greeted with applause.

REPORT RISING IN FORMOSA ISLAND

Japanese and Natives Clash; Burn Down Native Houses on Island

MONTREAL, Sept. 21.—The Montreal Star tonight publishes the following under date of Tokio: "A serious uprising is reported today in progress on the Island of Formosa.

"In fighting between Japanese and natives many Japanese are reported to have been killed and buildings belonging to natives were said to have been burned."

GUARD NEW YORK MUSEUM OF ART

Threatening Note Posted on Bulletin Board at Brooklyn

NEW YORK, Sept. 21. — Police were stationed about Brooklyn Museum of Arts today as a result of a threatening note which was posted on the bulletin board of the institution yesterday.

BOSTON MAYOR GETS WARNING

Treated Matter as Joke, but Will Turn It Over to the Police

BOSTON, Sept. 21. — A letter scrawled in red ink, and warning Mayor Peters that "You will get your medicine yet," was received by the mayor today. He treated it as a joke, but said he would turn it over to the police tomorrow.

POLICE STILL UNABLE TO SOLVE WALL STREET BOMBING OUTRAGE

NEW YORK, Sept. 21.—Department of justice and police officials admitted tonight that five and one-half days' investigations has failed to solve the mystery of the explosion in Wall street last Thursday, which cost 35 lives and property damage running into the millions. Officials generally agree that the explosion was carried into the district in an old wagon left standing at the curb in front of the assay office just before noon.

A warning that the court house was to be destroyed at two p.m. today, which was received in the mail yesterday by William H. Edwards, collector of international revenue, failed to develop, and confirmed the belief of the officials at the time it was received that it was either a hoax or the work of some letter-writing "crank."

INDUSTRIAL SITUATION ALARMING

Employees Uneasy; Mills Work Part Time Only; Unemployment Increasing

MASTER SPINNERS THREATEN LOCKOUT

Prepared to Lock Out All Operators If Oldham Strike Is Not Settled

LONDON, Sept. 21.—The National Union of Railwaymen meet today, but no statement was issued, and there will be a meeting of the triple alliance tomorrow to consider the situation arising out of the coal crisis deadlock.

Even without the miners' strike the industrial situation is serious.

Unemployment has largely increased in the month, due to many of the woolen and cotton mills and boot factories working part time and the cutting down of the staffs at shipyard and automobile works as a result of the falling off in orders, and the feeling among employers in other industries that owing to the decreased output they are unable to pay the present rate of wages.

The cotton industry today decided to call a meeting to consider the question of taking action unless the strike of the Oldham Spinners, which began yesterday, was settled.

This means that the employers will be prepared to lock out all the spinners in the country.

IRISH CONFLICTS STILL CONTINUE

Deaths and Injuries Reported From Many Points; Constables Take Reprisals

LONDON, Sept. 21. — Numerous clashes, resulting in deaths and serious injuries, continue in various parts of the country, latest reports received record the shooting of Sgt. Maguire, at Fairbairn, 11 miles east of Athlone, while making an arrest. Maghire was taken to a hospital in a critical condition.

Constable Donoghue was wounded from ambush at Newcastle, and died. A publican at Ballinglass was fired upon and wounded at the same time.

Two civilians, while passing the barracks in Abbeyfeale, county Limerick, failed to halt when challenged. The police fired, wounding both men.

Reprisals are General

BELFAST, Sept. 21.—Following a display by Ulster Volunteers today, armed and disguised men in uniform attacked several premises in Carrick-on-Shannon, County Leitrim, and caused considerable damage with rifle fire and bombs.

Reports from Scarff, County Clare, state that reprisals have been taken on that village for the wounding if two constables. Similar scenes occurred in Abbeyfeale, County Limerick, where the local temperance hall was burned, a drug store damaged, and the windows of houses smashed in reprisal for the death of a constable Saturday.

Hunger Striker is Weaker

LONDON, Sept. 21.—Mrs. MacSwiney, who visited her husband this evening, said that his condition was very bad indeed. He was in great pain and had not spoken all day. He was still conscious, however, and a late bulletin issued by the Irish Self-Determination league said:

"The mayor's condition is unchanged. He is still in a very prostrate condition, but still conscious."

A bulletin issued at 10 o'clock tonight says:

"The doctor after visiting the lord mayor, said he was in a very weak condition and advised his relatives not to speak to him or give him the slightest exertion."

SUICIDES OVER A MONTH AGO

Find Dead Body in Malakawa Shack of Long Missing Man

REVELSTOKE, Sept. 21.—Ernest G. Sederburg, 48, of Malakawa, committed suicide about Sept. 13 by shooting himself, the top of his head being blown off. The discovery has only just been made by neighbors, who made a search for him when his long absence aroused their suspicions. He lived alone in a shack.

Harding and Cox to Address Convention of Port Authorities

CHICAGO, Sept. 21.—Senator Harding and Governor Cox have been invited to address the ninth annual convention the American Association of Port Authorities which will open September 30, it was announced today.

A score of port authorities from Canada and England are to make addresses.

HE WOULD BE THE TROTSKY OF CANADA

Crown Closes Seditious Conspiracy Case Against Coyne at Edmonton

EDMONTON, Sept. 21.—The case for the crown in the seditious conspiracy charges against A. F. A. Coyne closed this afternoon after about a dozen witnesses had given testimony regarding the revolutionary tendencies of the accused in the fall of 1918.

Upon the application of the accused who asked for time to plan his cross-examination of one of the important witnesses for the crown, the case was adjourned until Thursday morning, when Coyne indicated he would call his witnesses.

Will Be First to Die

"If anyone gets killed in Canada for starting a revolution, I will be the first to die," was the statement attributed to Coyne by John Fischer of Ponoka this afternoon. He testified that Coyne said he had men in Russia studying Bolshevism and that he had plans for the taking of the city of Edmonton. Coyne claimed he would be backed by returned men and all he needed was leaders for them. In cross-examination, Fischer admitted he was a German citizen.

"The Trotsky of Canada, and the leader of the revolution," was the way Coyne put his position to Sam Dickau, according to the latter's statement. Dickau stated Coyne had come to his place near Ponoka talking revolution and tried to get a line on the farmers as to how they would feel towards it. He stated accused had talked about oil and about pistols he had ordered. In Cross-examination he said that it was pretty hard to believe that Coyne meant all he said.

He understood that the march on the parliament buildings was for no other purpose than to demand the right to sell oil shares in the province.

Munro Hunter, former manager of Hingston-Smith Arms company declared that he had not received orders for arms, although he had sold Coyne belts, revolvers, holsters, shell bags and ammunition, but there was nothing suspicious about that he thought.

BREAK PEACE NEGOTIATIONS

Poles and Lithuanians Cannot Agree on Retiring Lines

WARSAW, Sept. 21.—The peace negotiations between Lithuania and Poland have ben broken off and the Polish delegation has left Kalwary and is returning to Warsaw. Lithuania agreed to withdraw her troops behind the Fooh line, but insisted that the Poles retire to a similar distance behind the line they now occupy. To this the Poles refused to agree.

The announcement was made Monday that the council of the League of Nations had succeeded in getting Poland and Lithuania to agre to an immediate suspension of hostilities pending a settlement of their dispute.

DYNAMITE ALARMS MONTREAL SUBURB

Believed Intended to Wreck Caronier's Hotel; Arrest Suspect From U. S.

MONTREAL, Sept. 21.—A stick of dynamite was exploded in Cote street, St. Paul, a suburb of this city, on Saturday night believed to have been with the intent to bomb Cormier's hotel there. It only succeeded in destroying a wood gate adjoining the hotel and shaking the walls. No one was injured. Walter West, who stated he came from the United States, is held, and dynamite was found in his possession. No motive for the act has been established.

REDS EVACUATE CASPIAN PORT

LONDON, Sept. 22.—A Teheran, Persia, dispatch to the Daily Mail reports that the Bolshevik have completely evacuated the Caspain sea port of Baku.

LAST MINUTE DEVELOPMENT IS ONLY HOPE OF AVERTING PARALYZING MINERS STRIKE

Executive Report Nothing Achieved in Negotiations to Prevent Strike on Monday; Next Move Rests With Cabinet; Transport Workers and Railwaymen Stand in With Miners; Threatens All Industries

LONDON, Sept. 21.—Failing an eleventh hour development, virtually every coal mine in the United Kingdom will be idle next Monday, a meeting of the delegates from all districts having this afternoon accepted the report of the executive committee of the federation to the effect that nothing had been achieved by the negotiations to prevent a strike. The delegates, who number nearly 200, also endorsed the proposals which the executive made to Sir Robert Horne, president of the board of trade.

The next more, therefore, appears to be with the cabinet, which met today to receive Sir Robert Horne's report on his conferences with the miners' committee. It is considered possible that the cabinet may revise the decision of the president of the board of trade that the question of an increase of two shillings demanded by the miners on which the negotiations broke down must be referred to an independent tribunal.

Both Sides Are Firm

As the minister had frequently consulted with his colleagues, during the conferences, however, it is generally believed that they agree with him. It is unlikely that the miners will give way on their demands for an immediate increase of two shillings, for, from what can be gathered from the meeting of the miners' delegates today, they were not too pleased at the action of the executive in dropping their demand for a reduction in the price of domestic coal.

It is true that a few delegates were opposed to going to the length of striking, in view of public feeling against it, and there was a considerable minority which voted against the strike. But the majority favored forcing their demands by this means.

Would Paralyze Industry

A coal strike would in a very short time paralyze the industry of the country, but possibly this would ensue even before the factories were out of fuel, as the transport workers, who, with the miners and railwaymen form the triple alliance, the most powerful trade unionist organization in the country, at a meeting today endorsed the action of the miners' executive, and instructed their executive to recommend any action it deemed necessary.

Duke of Devonshire Finishes His Trip to Peace River Country

EDMONTON, Sept. 21. — His excellency, the Duke of Devonshire, governor-general of Canada, will return to Edmonton tomorrow night from the Peace River country. Following a dinner at Government House, he will leave on the midnight train for Jasper.

LONDON TAKES BOMB ATTACK PRECAUTIONS

Stock Exchange Bars Admission of Parcels and Closes One Exit

LODO, Sept. 21.—The authorities here are taking precautions against bomb outrages similar to those at New York and Genoa. The stock exchange today issued a notice that parcels must not be delivered at the exchange, but delivered at a nearby cloakroom. One of the exchange exits has also been closed.

Dismissed Professors Drop Libel Action Against Regina Paper

REGINA, Sept. 21.—Libel actions started against the Regina Morning Leader by Prof. McLaurin and Prof. Greenway, both of whom were dismissed from the University of Saskatchewan about a year ago, have been dropped.

In announcing the withdrawal of the cases at the opening of the court of King's Bench here today, it was state that both sides had agreed to pay the crown costs. The dismissed professors were asking $25,000 each.

AVERS FREE TRADE WOULD DESTROY INDUSTRIES PROTECTION HAS BUILT

Merchants' Spokesman Points to Danger of Foreign Exploitation of Natural Resources at Expense of Province; Dairy Farmers Strongly Support Present Tariff Wall

VANCOUVER, Sept. 21. — (Can. Press).—British Columbia farmers engaged in dairying are firmly opposed to any reduction in the present tariff way, according to the statement before the federal tariff commission today of J. W. Berry of the Fraser Valley Milk Producers association.

H. A. Stone, for the wholesale drygoods merchants, declared that any policy embracing the principles of free trade would result in the closing up of those manufacturing industries which protection has built up; the throwing open to the world of the great natural resources of British Columbia's forests, mines, fisheries and agriculture which would be generally shipped out of this country and returned with the costs of manufacturing and distributing added.

The commission heard the views of other branches of industry which favored making no change in the present policy.

The board will sit again in Vancouver on Friday morning when it will hear the views of the lumber and box making industries and any others who wish to tell their story. On Wednesday possibly Thursday, hearings will be held in Victoria.

"Tiger" Leaves Paris to Embark Upon Indian Hunting Trip

PARIS, Sept. 21.—M. Clemenceau left Paris this evening for Marseilles, where he will embark for India. The former premier will spend several weeks hunting.

FIX DATE FOR NORTH TORONTO BY-ELECTION

TORONTO, Sept. 21.—The Ontario government has decided to hold the northeast Toronto by-election on November 8, according to Hon. W. E. Raney, attorney-general of Ontario.

ANCHORED ISLANDS

It would be a great convenience if a few well-rooted islands were scattered about the North Atlantic, as well as in other frequented seas, *in places where nature unfortunately* has provided no landing spots in wide wastes of water. James M. Roberts, of St. Joseph, Mo., proposes to make good this deficiency by planting in appropriate oceanic localities what might be called artificial atolls, inasmuch as they will be ring-shaped, like the South Sea Islands so named. The artificial atoll will in effect be a midocean station for ships and aircraft. Held permanently in place by great steel *cables and huge anchors*, it will be sufficiently large to provide docks and drydocks for vessels, landing fields for airplanes and balloons, repair shops, storehouses for supplies and other conveniences. The great volume of water inclosed within the island ring will lend inertia to the latter, making it practically immovable by wind and waves, and thereby lessening the strain on the anchor cables. But the enclosed water space will find its most important usefulness as a harbor.

MILLERAND MAY MEET OPPOSITION

Constitution Reversion Declaration Exposes Opening for Attacks

PARIS, Sept. 21.—The indications tonight were that the election of M. Millerand to the presidency would not prove to be a walkover.

Most of the newspapers assert that the premier's declarations in accepting the candidacy, especially his references to revision of the constitution, has given the opposition an opening which it will not be slow to seize and has disquieted some of those who were inclined to support his election.

HUNGER STRIKE NO GOOD AFLOAT

Disgruntled Crew Find Two Days' Fasting Tactics Long Enough

NEW YORK, Sept. 21.—Nine stokers of the Norwegian freighter G. S. Gilbert while that vessel was in the Montreal harbor this week decided to emulate the Sinn Fein prisoners, and refused to eat for two days.

Captain Erickson, of the vessel, refused to give the men all the wages due them, because he feared they were planning to desert. But offered them ten dollars each. This they refused and informed the Captain that without pay they would not work, while he in his turn told them until the boilers were cleaned they would not get anything to eat.

Both sides remained firm until the end of the second day when the hunger strikers gave in and accepted the Captains offer.

WINNIPEG, Sept. 21.—The first convention ever held in Canada of the telegraph and telephone division of the American Railroad association will convene here Wednesday for a three-day session. The chief topics to be discussed will be the construction and maintenance of telegraph and telephone system and the reports of the committee.

MEIGHEN SLASHES FARMERS

(Continued From Page One)

two principles. If protection is right, then the latter tariff should be adopted. In the opinion of the government protection for this country is right, and indeed essential, and the adoption of any other principle will be false to the teaching of the past and would soon spell unemployment, hard times and a smaller and weaker Canada.

"That is the principle of the trade policy the government stands for," said the premier.

Continuing, the premier said: "The farmers' party propound the free trade tariff. Sometimes, when talking in eastern Canada they pretend they don't, but their platform says they do. Their leaders say they do. Their fathers and father confessors say they do, and I have lived among men in western Canada for 20 years, and right well I know they do. The leader of that party is Mr. Crerar. He has been preaching free trade doctrines for 20 *years and is preaching* them today.

Make Common Cause with Farmers

"On scores of platforms as well as in the commons, he has preached that industries that require the protection of a tariff are of no value to a country. A man who believes these doctrines, is a man who wants free trade. Furthermore, the leaders of the Mackenzie King Liberal party acknowledge they can be *nothing* alone, and are getting in behind the farmer group and making common *cause with the extreme* Farmer free traders.

'They don't do it in places like Sherbrooke, they do not do much in this province, but they are doing it wherever they think it pays. If it were not for the fact that Mackenzie King had said so many contradictory statements on the tariff question, all depending on the audience he was addressing, *I would* quote him as an authority, because more than once he said the Liberal *policy and the Farmer policy* were practically identical.

"I have sought to impress on this audience what the Farmer party stands for, and what a considerable section at least of the Liberal party stands for, because the real opposiston to the present government on this tariff issue is the Farmer party, and the section of the Liberal party that has practically merged with the Farmers. We have therefore a clear-cut issue.

"*I have tried to follow the* windings in and out of the Liberal leader in his endeavor to yoke up with the Farmers' party and have lost track of them in a maze of demagogic verbiage that means nothing at all, or anything you like to call it.

"At one time you find the leader with his eyes on Mr. Crerar and the free trade vote preaching in the old Cobden temple, thundering out the old gospel offree trade as they have it *in England.* At other times you find him in industrial centers espousing a circuitous theory of microscopic differentials hidden away under an avalanche of words."

"Do we want free trade in this country or do we not? It does not matter how Mr. King may hedge, it does not matter how frequently Dr. Beland may declare his adherence to the *principle of protection, it does* not matter how vigorous the Liberal newspapers of this province protest they are not free traders, the fact remains that the majority of the opposition government is composed of free traders, the big farmer organization that wants control of this country has declared for the free trade principle and against protection.

"If I could tell you what the policy of Mr. King is on this tariff issue, I would do so. I could prove it to be anything at all according to which of his speeches I quoted. If you asked him whether he is in favor of free trade or protection he would tell you he is in favor of neither.

A man who is not in favor of either has no principle at all because there is no other principle to which he can cling. *A man who says* he is in favor of neither and that it is not a question of free trade or protection, that man is a fiscal humbug. Think of the spectacle of a leader of a party asked whether he believes in protection or in free trade, throwing his hands in the air and telling you that he wants tariff reform."

LIBERAL LEADER ARRANGES TOUR

To Visit Nelson Oct. 15, Thence Via Cranbrook Back East

VANCOUVER, Sept. 21.—Following his visit to Victoria next Monday, and Vancouver on Tuesday and Wednesday, the Hon. W. L. MacKenzie King's western itinerary, as announced today, will be as follows:

Thursday, Sept. 30, the tour of Vancouver harbor and visit to New Westminster, leaving at night for Prince Rupert; October 2, meeting at Prince Rupert; Oct. 4, arrive at *Edmonton;* Oct. 6, public meeting at Edmonton; Oct. 7, leave for Camrose, Wetaskiwin and Calgary; Oct. 9, arrive at Calgary; Oct. 11, public meeting at Calgary; Oct. 12, leave for Kamloops, where a meeting will be held before the train pulls out for Sicamous, Penticton and Nelson; Oct. 15, arrive at Nelson; Oct. 16, meeting at Nelson; *Oct. 18,* meeting at Cranbrook; Oct. 19, meeting at Lethbridge; Oct. 20, meeting at Medicine Hat; Oct. 22, meeting at Regina.

NICOL THOMPSON HAS THE FIGURES

Will Substantiate Iron and Steel Market Opinion With List of Users

VICTORIA, Sept. 21.—Apropos of the statement made by Nicol Thompson at the sitting of the tariff commission in Vancouver yesterday, indicating that there is already an awaiting market for fifteen hundred tons of British Columbia iron and steel daily, it is understood that the report, which he will make to the provincial department of industries, will give the detailed list of all the users visited by him in California and the average amount they would be prepared to purchase from a British Columbia plant.

PROPOSE NOW TO ABOLISH TIPPING

VANCOUVER, Sept. 21.—Tipping will be discussed by the legal legislative bureau of the local Board o trade on Friday next, with a view to the Dominion government being asked to pass legislation making it a crime.

STUDY EFFECTS OF TOTAL ABSTINENCE

WASHINGTON, Sept. 21.—Prohibition in the United States has attracted the attention of the world, Sir Auckland Geddes, British ambassador declared in addressing the opening session today of the fifteenth international congress against alcoholism.

In support of its proceedings had been requested by the British government, and that the governments of other nations were making studies of the socialogical and economic effects of total abstinence.

Sir Auckland make his statement in responding for Canada, Australia and several other British Dominions, on the roll call of the nations. Three departments of his *government were "intensely interested in* the work of the congress," Sir Auckland said, and named them as the home office, the board of trade, and the ministry of health.

McADOO STARTS SPEECH MAKING

NEW YORK, Sept. 21.—William G. McAdoo, former secretary of the United States treasury will enter the *Democratic National Campaign* with a speaking tour that will carry him to the Pacific coast. He will make speeches in many large cities, it was announced today.

Prohibition Party's Presidential Candidate Opposes Wilson League

CHICAGO, Sept. 21.—A. S. Watkins, *prohibition party candidate for* president, in what was announced as the only extended speech in Chicago during his campaign last night declared that the liquor question "still was the most vital problem before the American people," urged support of a league of nations but not the Wilson league," and advocated a fair tribunal with the public on it to settle disputes between capital and labor.

Discussing the league of nations, he said: "We must remember that the statements of George Washington *against entangling alliances* are entirely irrelevant today because of the changes in the circumstances of the world. We don't want the Wilson league—the plan of 'Pike's Peak or bust' with no reservations—but we do want some sort of federation of nations."

A Great Shoe

For the Great Outdoors

Shoes are like men for the service they render, some are cheap, while others are dear. The men who buy "HARTT" shoes realize this, and are money in pocket because of it.

Every "HARTT" shoe carries a double guarantee. Our own and that of a reliable maker.

CAN'T BE BEAT DECLARES BAILY

Eats Anything, Sleeps Like a Log and Feels Fine Since Taking Tanlac

"No, sir, I couldn't ask to feel better than I do since taking Tanlac and it does me good to tell other people about this medicine," was the statement made recently by D. Bailey, a well known sawmill owner residing at 1824 Pandora street, Vancouver, B.C.

"I had such a bad case of indigestion that I had to force myself to go to the table. In fact I dreaded to eat, for I would be in misery with my stomach afterwards. I had awful cramps in my stomach and gas would form and cause such a pressure in my chest and around my heart that I thought I would suffocate. My back also troubled me terribly, for the pains were so cutting I could hardly lace up my shoes, and if I was standing up and tried to stoop over I got so dizzy I would nearly fall over. Nervous spells often came on me and caused a dull headache and sometimes my head felt so heavy I could hardly hold it up. Constipation bothered me a great deal and I had to take a laxative every few days. What little sleep I got was not restful and when I got up every morning I felt like I had just finished a hard day's work.

"A number of my friends had taken Tanlac and were so well pleased with it that I finally decided to take their advice and give it a trial. If I had searched the whole world over I don't believe I could have found a better medicine than Tanlac, for it went straight to the spot and I am now enjoying the best of health and am feeling strong and healthy like a man ought to feel. And eat? Why, my appetite is so fine I can hardly eat enough and the beauty of it is that nothing at all disagrees with me. I can bend over or stoop down as much as I please without a pain or ache in my back and I have not had a headache or dizzy spell since I finished my first bottle of Tanlac. I am free from constipation and nervousness and at night I sleep like a log. Without a doubt Tanlac can't be beat and I am always ready to speak a good word for it."

Tanlac is sold in Nelson by Canada Drug & Book Store, and by the leading druggist in every town. Advt.

BALFOUR MOVE ORDER IS CANCELLED MAYOR CALLS MEETING OF PROTEST

Asked by numerous citizens to call a public meeting to protest against the proposed removal of the patients from Balfour sanatorium to Tranquille sanatorium against their wishes, Mayor J. A. McDonald last night announced that he had acceded to the request, and that a meeting for that purpose would be held in the city council chamber at 8 o'clock tomorrow night.

Patients Win Point

While Nelson sympathizers with the Balfour boys were planning for this public demonstration to the department that the community lines up with the boys, and opposes the abandonment of the sanatorium, officials of the department were burning up the wires, and the move order dated for today was cancelled, pending the arrival on the scene of Major A. P. Procter, provincial head of the department of soldiers civil re-establishment, to hold an inquiry. Word of this cancellation was received in the city from Balfour yesterday afternoon, and it was stated that the patients were elated at the turn affairs have taken.

"Public sympathy with the returned men at Balfour," in their stand against summary ejectment, without their plea for an argument of the case being considered, will be universal," declared a member of the local G.W.V.A. last night. "The boys took the only possible course that could win for them. The idea that because they were overseas they have no rights that are considered to belong to the humblest citizen, and that they should be willing to be shifted like furniture, at three days' notice, without their petition being answered, will not appeal to anybody, except possibly to the type of official that was responsible for issuing the order while the matter was before the premier for decision. Had they yielded, their case would have been lost."

"Life in surroundings and under conditions that breed contentment is the greatest factor that doctors seek for in the treament of tuberculosis," declared a citizen well versed in institutional work, yesterday. "On the medical side, I think there is no argument for it. "If the men enjoy themselves at Balfour, and would be discontented at Tranquille, Balfour is the place for them. The only point to be argued is that of finance, and plenty of people will say that that really is a minor point in comparison with restoring these men, and other veterans who have tuberculosis, to health."

Veterans Go to Headquarters

No time was lost by the local G.W.V.A. in getting busy on the case. Within a few hours of the Balfour boys' appeal being put up to the executive, a long night letter was flashing over the wires to Ottawa, to the secretary of the Dominion command of the organization, containing a case for presentation to the chief authorities of the department of soldiers' civil re-establishment. Through the Dominion command's permanent representative at Ottawa, the local branch has frequently got quick adjustment of pension matters, and hope is entertained that the viewpoint of the Balfour patients, and of their returned comrades, will soon be in the possession of those responsible for the direction of the department's policy.

A Canadian Press dispatch from Vancouver last night, quoting Major Procter, now on his way here, showed that that official was apparently unaware that the patients and the department in Ottawa were in direct communication, and that the assistant director at Ottawa had pointed out to the patients he consequences that would follow persistence in their refusal to obey the move order. This dispatch, dated Vancouver, reads:

Official Gives Interview

"Major A. P. Procter, on being asked for an opinion on last night's Nelson dispatch, stated that there was absolutely no truth in the allegation that the patients at Balfour had been warned that if they resisted the orders for their movement to Tranquille they would be treated as deserters.

"'No orders would be sent to Balfour from Ottawa without coming through me,' said Major Procter, 'and when I was informed of the wish of the patients at Balfour to see me before their removal was effected, I wired that no steps were to be taken until my arrival. I am leaving today for Balfour.'

"'The removal,' he added, 'is being undertaken in the interests of national economy.'"

The Nelson G.W.V.A. has communicated with the Trail branch on the subject of supporting the Balfour returned men in their attitude.

Other Boards May Act

Now that the intention of the department to close the sanatorium has become evident, it is probable that the boards of trade throughout this district, if not throughout the interior generally, will take up the question, and urge the retention of the institution, for the treatment of all tubercular returned men within the province.

ALL IS SET FOR A SPLENDID FAIR

Amusement Features of High Order; Many Meets Will Take Place

All reports submitted to the fair board, at the general meeting last night, indicated that preparations for the big three-day fair next week are complete to the last detail.

Fireworks to the extent of $1000 worth are now in Nelson, awaiting release by the customs department, assuring the finest displays of fireworks ever seen in Nelson.

The mardi gras promises to be a riot of color and comedy the final night, when clown, princess, knight, page and every conceivable character, many times multiplied, will turn the packed building and grounds into a carnival, and the ground will be carpeted with confetti.

Music will be dispensed by both the G.W.V.A. band and the Kootenay Kilties.

The vaudeville program will include the Kilties, the Cadets, and other local troupes, and individual performers.

Under the auspices of the city the racetrack is being put into first-class shape. Word was received from R. S. Bevan, of Creston, that Chief Goodain was bringing three Indian running horses from Creston and two from Bonners Ferry. The race program extends over three days, and the second day will have Indian events, which include horseback wrestling and squaw bareback races.

Many Distinct Exhibits

There are many district exhibits coming in.

Both the Farmers institutes and the Women's institutes have big competitons also.

Something like 20 returned men from different parts of the Kootenay will have exhibits in the competiton for soldier ranchers under the soldier settlement board.

The West Kootenay Poultry & Pet Stock association has assurances of exhibits from the Crow, Kaslo, Trail and Rossland, the Arrow Lakes, and the Boundary, and it also expects a large juvenile show.

A large manufacturing section will be one of the year's features.

Nelson's first livestock section also promises a fine list of entries.

With heavy entry lists expected in practically all departments of the fair, it is a certainty that there will not be a vacant inch of space in the big pavilion, this applying to the fruit, vegetable and flower sections, as well as to the arts and crafts sections.

Long List of Events

The Kootenay Football league final between Trail and Nelson will bring in many sport followers.

On the final day, the field day of the schools of the Kootenay will be held.

For two days the registered shoot under the direction of the Nelson and District Rod and Gun club will assemble shotgun artists from this province, Alberta and the northwestern States.

The Nelson G.W.V.A. has invited a G.W.V.A. conference during the fair to discuss organization matters.

It was decided that the finance committee should begin its canvass for subscriptions today.

M. H. Baskin was unanimously elected a director to fill the vacancy caused by the death of the late N. M. Cummins.

Those present were President Fred A. Starkey, Mrs. C. V. Gagnon, George Horstead, F. J. Boles, J. W. Holmes, Alf. Wood, A. Wigg, W. R. Jarvis and A. D. Emory.

The lord lieutenant's letters which were stolen from the Rotunda rink, Dublin, recently, were returned to the vice-regal lodge a few days later.

DIES ON TRAIN EN ROUTE HERE

Mr. Dill Summoned While Coming to Visit Sons; Wife With Him

Death intercepted W. E. Dill, of Toronto, on board the Crow train yesterday morning, en route for Nelson, where he was to visit his sons, H. E. Dill and A. J. Dill. Word of the tragedy was wired to her sons yesterday by Mrs. Dill, who was with her husband when he succumbed.

Mrs. Dill disembarked, with the body of her husband, at Fernie, where a coroner's jury decided that the immediate cause of death was acute heart failure. She will arrive in Nelson tonight.

The late Mr. Dill, who was 80 years of age, was about to pay his second visit to Nelson, having been here on a visit to his sons about eight years ago.

Besides his wife and the two sons in Nelson, the late Mr. Dill is survived by two other sons, and two daughters. Frank resides at Vancouver, Edward and Arthur at Enderby, and Charles at Regina. The two daughters are Mrs. Robert McMullen, of Mount Forest, Ont.; and Mrs. Arthur Howard, of Lindsay, Ont.

ARREST NEGRO ON BURGLARY CHARGE

WINNIPEG, Sept. 21.—Frank Mann, a negro, who, according to a statement by the police, is alleged to have robbed between 15 and 20 Winnipeg families, mostly wealthy persons away from their homes for the summer, has been arrested by the city police. Between $6000 and $8000 worth of jewels, silverware and other stolen property was recovered from Mann, it is said.

Mann entered no plea today and was remanded for a week.

MUNICIPAL BURDENS GRAVE IN ENGLAND

LONDON, Sept. 21 (Can. Associated Press). — Municipal burdens throughout England, but especially in London, are increasing alarmingly. The rates in the boroughs this year show a greater rise than for the whole of the 10 years past. The levy on the ratepayers will in some cases be over 20 shillings in the pound with a prospect of 30 shillings being soon reached or exceeded.

Say You Want "Diamond Dyes"

Don't Spoil or Streak your Material in a Poor Dye

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

DIVIDE CITY INTO FORTY PRECINCTS

Prohibitionists Plan Literature Foray; Meetings for Many Points

A comprehensive campaign to precede the prohibition referendum was outlined Monday night at a meeting of the People's Prohibition Party, at which Mayor J. A. McDonald presided.

It was decided to arrange meetings at Proctor, Taghum, Bonnington, and possibly Castlegar, the last named being contingent on the Trail executive not covering that point. Points on the Great Northern, and adjacent thereto, will also be covered, and meetings will be held at Ymir, the Yankee Girl mine, Boulder Mill, Salmo, the Emerald mine, and the Nugget mine. The arrangement of meetings in Nelson was left to the executive.

Committees were provisionally named to deal with the departments of literature, finance and newspaper advertising.

It was decided to divide Nelson, Fairview and Rosemont into 40 precincts, for the purpose of literature distribution.

IOWA MINERS REJECT TERMS

Discredit Contract Agreed by Their Own Committee With Owners

DES MOINES, Iowa, ept. 21.—Coal miners of the Iowa district of the United Mine Workers this afternoon voted to reject the wage contract agreed upon two weeks ago by their own committee and a committee representing the Iowa Coal Operators' association.

TEN MOTHERS ASK FOR GRANT

Local Advisory Board to Forward Applications Under New Pensions Act

Ten applications for assistance under the Mother's Pension act, recently put into force by the provincial legislature, have been passed by the local advisory board, and will be forwarded to the superintendent of neglected children at Vancouver, according to Mrs. A. E. Crease, of this city, chairman of the local board.

Under the provisions of the act assistance may be granted under the Mother's pension scheme to a mother with a child, or with children under the age of 16 years, and who is a widow and indigent; a married woman with her husband an inmate of a penal institute institution or a public hospital for the insane; a married woman whose husband is unable to support her through accident or sickness, if such accident or sickness resulted while resident in this province; a deserted wife; or, any other person whose case is decided to come, under the provisions of the act, by the superintendent of neglected children for the province.

In every case the applicant must be a British subject who has resided at least 18 months in this province with her children, and who is without adequate means of support for herself and children. The maximum grant of assistance allowed under the act is fixed at $42.50 per month for a mother with one child, with an additional maximum grant of $7.50 for each child in excess of that number. In fixing the amount of the grant the regulations state that the amount will not be affected by the earnings of the mother herself, providing her occupation does not interfere with her properly caring for the children.

The local advisory board, which consists of Mrs. E. A. Crease, Mrs. A. L. McCulloch, and Mrs. W. Futherford, was appointed on Aug. 20, under an order-in-council passed by the executive committee of the provincial government, to act in an advisory capacity and to cooperate with the authorities handling the scheme. Its territory is confined to Nelson and district, and its duties are to verify as far as possible all statements made on the application form by the applicant, before forwarding it to the authorities. Applications forms have now been received by John Cartmel, government agent, for issue.

MISSING PROCTOR MAN'S BOAT FOUND

Bernard Fletcher's Craft Discovered Near Kootenay Bay by Search Party

A phone message from Proctor stating that the battered wreck of the rowboat in which Bernard T. Fletcher, the missing Proctor man, set out for a day's fishing 12 days ago, had been found, was received by Ernest Gammon, provincial chief of police, late yesterday afternoon.

The wreck was found on the beach about one mile from Kootenay Bay by a search party under H. W. King, provincial constable, which left for Proctor on Monday.

UNKNOWN CAUSE STARTS FIRE IN SASKATCHEWAN

HERBERT, Sask., Sept. 21.—Fire from unknown cause destroyed the Saskatchewan Cooperative Elevator company's plant here last night and 10,000 bushels of wheat were destroyed. The fire started 10 minutes after the manager, D. C. Herbert, had left, and for a time seriously threatened the Imperial Oil company's tanks and interior elevator.

Slocan Mines Declared Fair

NOTICE

The undersigned Mining Companies propose resuming work on their respective properties on May 16th under a wage scale agreed upon between themselves and the Slocan branches of the International Union of Mine, Mill & Smelter Workers, which wage scale provides for an increase of 75 cents per day in wages and an increased deduction of 25 cents per day for board at the boarding houses of the companies.

For particulars respecting schedule of wages and conditions of employment, apply to representatives of the International Union of Mine, Mill & Smelter Workers, or to the representatives of the said Mining Companies.

Balfour Boys a Happy Family

One of the striking features of the sanatorium at Balfour, where the patients are fighting so hard to stay, is the splendid morale of the men and staff.

The spirit of the patients and staff has from the time of the opening of the sanatorium always been excellent. They have seemed as one great happy family, sensibly amenable to the necessary discipline of such a resort, but always cheerful and in the best of spirits.

Credit for this condition is due to the staff, to the patients themselves and to the ideal surroundings. It is a place men can be as contented as is possible for those not in possession of their health. The delightful scenery, the water of the West Arm and main lake and the opportunities for open air amusements which do not require too much physical exertion all contribute to make the patients desire to remain at Balfour.

One is not surprised that they do not care to go to Tranquille and it is gratifying to learn that department officials have canceled, for the time at least, their order to a number of men to go to Kamloops. A thorough investigation into all the circumstances can hardly fail to convince the department that the men are taking the right view of the case.

True Efficiency

A word may lose its value by over-use. One which has been over-cultivated, to the loss of its real meaning is "efficiency." Efficiency means the shortest and quickest way of doing a thing. It has a double value, a quadruple value, an unlimited value. It is not something to be reserved for comprehension of the elect. It is not a thing to be called scientific management and used as a bugaboo. It is, on the contrary, nothing but common sense applied to every-day affairs. The doing of a thing in a better, quicker, and more economical way than at present, the doing of a thing in the right way, the easy, the adept, the direct and natural way, rather than in the careless, slovenly, wrong, or round-about way. Efficiency is the duty not alone of every man to himself, but every man to his neighbor. It is a slogan that means prosperity, and a watchword of honest effort and well-directed energy.

The one comprehensive word covering efficiency in its fullest and broadest sense is "results," not the initial result but the final result, says the Monteray Times. The unit measure is but the starting point, but the combination of units brings about a complete and finished article of efficiency. Figures having but a relative value should always be measured by results. The unit having but an initial value should be combined with other units, and compressed into a complete and finished whole.

This is expressed in the necessity for each unit of efficiency standing elbow to elbow, and shoulder to shoulder, to the next unit of efficiency, thereby making a compact and invincible whole proof aganist the onslaught of competitors, with whatever organization they must have at variance with our own.

TEN YEARS AGO TODAY

From the Daily News, Sept. 22, 1910

Great excitement has been aroused in the Creston district by the discovery of rich placer gold deposits in the bed of the Goat river. Ira Beam, an old-time prospector and gold miner is the lucky discoverer of these claims.

* * *

I. G. Nelson hs returned to the city from a trip to Osoyoos Coal Mining company's property near Princeton.

TWENTY YEARS AGO TODAY

From the Tribune, Sept. 22, 1900

Sheriff Tuck has seized the Sylvia mineral claim on the summit of Jim Crow mountain and the Royal Irish at the head of Sandy Creek to satisfy a judgment of $134 secured by John Hirsch against R. G. O'Driscoll.

* * *

Property owners on the north side of Vernon street, between the Economist office and the Grand Central Hotel, are pleased that the city council has recognized that they are part of the population of the city.

* * *

J. R. Hunter and C. F. McHardy have taken over the business conducted by the Nelson Hardware company, and will carry on the business under the old firm name.

DAILY NEWS RECIPE

Paste this in your cook book

Caramel Cake

Boil together for twenty minutes one-half cup molasses, one cup sugar, two one-half cups milk, cool and then add two tablespoons melted butter, two eggs well beaten, two teaspoons baking powder, and about two cups of flour or enough to make the mixture drop from the spoon. (Sent by English Lassie, Sask).

Sackatchewan Farmers Invest Six Millions This Year in Tractors

SASKATOON, Sept. 21 (Associated Press).—Farmers of Saskatchewan have invested more than six million dollars in new tractors this year, according to the estimate of managers of Saskatoon branch houses of big implement firms. It is stated by them that roughly two thousand new tractors have been turned over to purchasers during the 1920 season, at an average cost of $3000 per machine.

LODGE JEWELS

WHEN requiring the Jewels for your Lodge or Order, let us send you particulars and prices We make a very large proportion of the jewels for British Columbia Lodges, and would suggest that for your requirements in the near future you write at once. STYLES

By LENORE

Latest Solutions of the Clothes Problem

Buy in haste, repent at leisure. It adds greatly to the tranquility of mind to plant out beforehand a strict scheme for the season's wardrobe with due regard for the climate of a particular locality and individual environment. Then the several items should be acquired gradually, and after the multitude of "advance fashion" have had an opportunity to crystalize into definite tendencies.

A gown that fits well into the average woman's wardrobe is sketched above and may be made of navy blue or black satin. Dainty cream batiste, lace edged and trimmed with tiny pearl buttons, is a soft and becoming finish with a colorful note in the soft blue ribbon girdle.

Will Help Finance Manitoba's Livestock Exhibits at Chicago

WINNIPEG, Sept. 22 (Can. Press).—Announcement is made that the provincial government will make a liberal contribution towards financing exhibits of Manitoba livestock at Chicago next December.

FIND DEPOSITS OF SODIUM SULPHITE

VICEROY, Sask., Sept. 22.(Can. Press).—Sodium sulphite has been discovered north of here, and a number of claims have been staked out. Analysis of the mineral by the government analyst gives a return of 98 per cent pure sodium sulphite, exactly the same return as the Ceylon deposit. A syndicate has been formed to develop the property and there are thousands of tons of the mineral in sight.

TOLD IN RHYME

CANADIAN BORN

We first saw light in Canada, the land beloved of God;
We are the pulse of Canada, its marrow and its blood;
And we, the men of Canada, can face the world and brag
That we were born in Canada, beneath the British flag.

Few of us have the blood of kings, few are of courtly birth,
But few are vagabonds or rogues of doubtful name and worth;
And all have one credential that entitles us to brag—
That we were born in Canada, beneath the British flag.

We've yet to make our money, we've yet to make our fame,
But we have gold and glory in our clean colonial name;
And every man's a millionaire if he can only brag
That he was born in Canada, beneath the British flag.

No title and no coronet is half so proudly worn,
As that which we inherited as men Canadian born.
We count no man so noble as the one who makes the brag
That he was born in Canada, beneath the British flag.

The Dutch may have their Holland, the Spaniard have his Spain,
The Yankee to the south of us, must south of us remain;
For not a man dare lift his hand against the men who brag
That they were born in Canada, beneath the British flag.

—Pauline Johnson.

FINDS CORKSCREW EMBEDDED IN SPUD

REGINA, Sept. 21 (Can. Press).—Who opened a bottle in the potato patch of Augustus H. Ball, deputy minister of education, and threw away the corkscrew? While digging up his spuds, recently, Mr. Ball turned out one with a corkscrew embedded in it—and now he would like to locate the one in which the companion flack is embedded. All efforts that end so far proved futile. At present it is in the keeping of W. H. Munro, assistant legislative librarian, who is wondering whether it would be more appropriate to petrify it or pickle it. A permanent home will probably be found for it among the perfectly sober and respectable curios which have been collected in the provincial natural history museum.

POULTRY NOTES

Don't raise mongrels and scrub fowls. Possibly there is money in growing this kind of stuff, but there is a great deal more money to be made growing standard bred fowls.

Don't put all sizes, shapes and colors in one lot for market; learn to grade them so they will look as much like one hen laid them as possible.

Charcoal is one of the essential "little things" in the ration of both chicks and old fowls. It is a valuable corrector of bowel and stomach disorders.

Don't allow your hens to eat decayed flesh of any kind unless you want them to get the limberneck. Many fowls die from this trouble.

Don't let the mites and lice get the upper hand about your place. They will cause untold trouble and loss of both young and old stock.

Don't allow a dirty or a stale egg to go into your market basket, no matter how high eggs are or how much you need the money.

Don't be afraid to work with your poultry the year round. It is the only road to success. No matter what other duties are, the poultry should not be neglected.

Postpone Peace Arch Opening Because of Prohibition Plebescite

VICTORIA, B.C., Sept. 22 (Can. Press).—Because Oct. 20 has been set as the date of the prohibition plebiscite in British Columbia the ceremonies planned for the dedication of the Peace Arch over the Pacific highway at Blaine, Washington state, will have to be postponed. Invitations for the Peace Arch celebration had already been sent out for Oct. 20, but these will be cancelled.

ALLIANCE OPPOSES SUNDAY SHOOTING

VICTORIA, Sept. 21 (Can. Press).—Absolute ban on Sunday shooting, hunting and gaming in the woods and fields of British Columbia, is the aim of members of the Lord's Day Alliance, whose representative has placed demands before Premier John Oliver and members of the provincial government. The government is considering the matter.

WOULD PRESERVE NORTH FOR HUNTERS' PARADISE

REGINA, Sept. 22 (Can. Press).—The vast hinterland of northern Canada should be preserved in its entirety, a sanctuary for wild animals, a trappers' and hunters' paradise, in the opinion of H. A. Conway, inspector of Indian agencies in the far north. Mr. Conway has recently returned from a trip through the North West Territories that took him 1900 miles north of Edmonton, or 1500 miles north of a railway line.

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-tives"

LITTLE BRAS D'OR, C. B.

"I was a terrible sufferer from *Dyspepsia and Constipation* for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, *a friend told me to try "Fruit-a-tives"*. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

MANITOBA LAND SALES APPROACHING BOOM YEAR

WINNIPEG, Sept. 22 (Can. Press).—Activity in the sale of property in Manitoba is reaching the total of the 1912 boom, according to the amount of general fees paid into the land titles offices, Robert Drummond, comptroller-general, announces. For the eight months ending August 31, 1920, the land titles offices of the province of Manitoba have collected more than $280,000 in general fees, he said. The total amount collected for general fees in 1912, the big year in real estate, was $294,005.

POPULAR BRIDE WEDS AT NAKUSP

In Brilliant Setting Miss Gardiner Links Fortunes With J. W. Dugan

NAKUSP, Sept. 21.—A very happy occasion was the wedding of Miss Henrietta Maude Gardiner of Glenbank, Nakusp, and John William Dugan of Trail, last Wednesday.

The gathering was the largest of its kind in the history of Nakusp, testifying to the popularity of the bride, who has lived here since childhood. The ceremony took place at the home of the bride's parents (Mr. and Mrs. G. H. Gardiner) the large residence being tastefully decorated for the occasion.

Rev. J. S. Allen officiated in the presence of 75 invited guests.

The bride, attired in a handsome dress of white satin rousaine and Georgette bridal veil and orange blossoms, carrying a bouquet of white roses, carnations and maidenhair fern, was given away by her father. The bridesmaids were her sisters, the misses Amy and Hildred Gardiner, who wore dresses of pink silk, empire style, and bearing bouquets of pink sweet peas. Miss Elizabeth Gardiner, another sister, was a flower girl and carried a basket of roses. The bride's cousin, Mr. Frederick Kirk, was the groomsman. Miss Joan Gardiner of New York, an aunt of the bride who arrived for the occasion, played Mendelsohn's Wedding March.

The groom's present to the bride was a gold wrist watch, to the bridesmaids gold brooches, and to the groomsman a gold tiepin and cuff links.

After the ceremony luncheon was served to all present.

For travelling the bride wore a dress of French blue, and a black velvet hat. The bridal party was driven by auto to the steamer, where a large gathering attended to wish them God speed amid tumultous whistling of the steamer, locomotive and industrial sirens.

After the honeymoon, which will be spent at Spokane, Mr. and Mrs. Dougan will reside at Trail. Among the numerous gifts to the happy couple were presents from:

Mrs. G. H. Gardner, Yarmouth, N.S.; Mr. and Mrs. Lindsay Gardner, Yarmouth, N.S.; Mr. and Mrs. Charles Cann, Yarmouth, N.S.; Mrs. E. H. Lovitt, Yarmouth, N.S.; Miss J. F. Gardner, New York; Hunter Gardner, Yarmouth; Mr. and Mrs. A. Mahoney, St. John; Mr. and Mrs. H. McComill Banff; Pearl McKim, Nelson; Mr. and Mrs. Grant, Nelson; Mr and Mrs. Bergstrum, Nelson; Mrs. Palethorpe and Miss Winnie, Nelson; Miss Doris Walker, Vancouver; Mr. and Mrs. Parkinson, New Denver; Mr. and Mrs. Tricket, New Denver; Mr. E. Alland and Miss Hilda, Yarmouth; Mrs. Ethel Kelly, Yarmouth; Mr. and Mrs. Edwards; Mr. and Mrs. Islip; Dr. and Mrs. McLean; Mr. and Mrs. B. Atkinson; Miss Lipoul; Mr. Crowell; Mr. and Mrs. Carlson; Capt. Leary; U. P. Calhuon; G. Harvey Smith; Mr. Allan and Misses Allan; Mr. and Mrs. Johnson; Mr. and Mrs. Woods; Mr. and Mrs. Powell; Mr. and Mrs Lakue; Buesnel Brothers; Mr. and Mrs. A. A. Moul; Mr. and Mrs. A. J. Moul; Mr. and Mrs. Howe; Mr. and Mrs. Bill; Mr. and Mrs. Kirk and family; Mr. and Mrs. Kerridge; Mr. and Mrs Gregory; Mr. and Mrs. Bailey; Mr. and Mrs. Bailey; Mr. and Mrs. Dennison; Mr. and Mrs. Bowes; Mr. and Mrs. Stevenson; Miss M. Bill; Miss Rose and Mr. Lawrence; Father and Mother; Sisters Amy, Hildred and Helen; Brother Smith; Mrs. Stitt.

NAKUSP NOTES

NAKUSP, Sept. 21. — The many friends of Mrs. T. H. Bowes of Greenbank, will regret to learn of the death of her mother, Mrs. S. Arnett of Sprucedale, Ont., which took place recently. The deceased lady, who was 81 years of age, had lived in Nakusp for four years, returning last year.

COUNTY COURT IS HELD AT CRESTON

CRESTON, Sept. 21.—Judge J. A. Forin, of Nelson, presided over a sitting of the county court here today, Registrar T. M. Bowman also being present.

The only case for hearing was that of *Long vs. Falkner, the plaintiff*, R. J. Long, claiming damages from Louis Falkner for damage to an auto. The defendant did not have his witnesses present, and the case was adjourned, the defendant agreeing to pay the expenses for the day.

Major C. B. Garland appeared for the plaintiff. The defendant being unrepresented.

Six applicants were granted naturalization papers.

GETS TWO YEARS FOR CHECK FRAUD

VICTORIA, Sept. 21.—A. L. Coleman, who was arrested here on Friday afternoon on a charge of obtaining goods by means of a fraudulent check, was this morning sentenced to serve two years in the penitentiary by Magistrate Jay in the city police court.

ITALY HAS SURPLUS OF MEN

A correspondent, recently returned from abroad, says Italy has an overplus of men and wants to send 800,000 of its population to Canada and the United States. Many of them are persons from this side who went home to fight for their native country. It is said to be to Italy's advantage to send them to foreign countries now, because they send their savings back to those they leave behind.

IMPERIALISM IS DOMINANT NOTE

London Delegate to Commerce Congress Dwells on Canada's Progress

TORONTO, Sept. 21.—Imperialism was the dominating note in the speeches at a banquet here tonight given by the Toronto board of trade to the delegates of the ninth congress of Chambers of Commerce of the British Empire. More than 500 delegates to the congress and members of the local board of trade were present.

Stanley McHim, London, Eng., in proposing a toast to the Dominion of Canada, spoke of the marvellous progress made in Canada since his previous visit to the Dominion, 30 years ago. He said he had been greatly impressed during his present visit with the enterprise, self-reliance, keenness and unity of the men who had received the overseas delegation to the congress.

He declared that Canada was a wonderful asset to the British Empire and the development of this country would make it one of the brightest jewels in the Empire's crown.

Remembers British Treatment of Canadian Soldiers

Sir George Foster, minister of trade and commerce for the Dominion, said the warm welcome given the visiting delegates was a feeble attempt to repay the British for the kind manner in which they had treated the Canadian soldier during the war.

Referring to Canada's resources, Sir George said: "No one of us knew the potentialities of Canada. We Canadians are surprised at the possibilities of our country ourselves. We are, in God's providence, the trustees of this heritage, and it is a great trust for the future."

Sir George said its message to the rest of the Empire is:

"We will join you, hand in hand, shoulder to shoulder, step by step, and march forward towards the progress of the Empire and the world."

STUNG TWICE BY CONFIDENCE MEN

Pete Olson Gets Lesson in Exchange on Visit to Winnipeg

WINNIPEG, Sept. 21.—Pete Olsen, of Fargo, N.D., arrived in the city Saturday with $225 in his inside pocket. Pete had heard of the temporary advance of American money and proceeded to take advantage of it. In a hotel he was telling the loungers how much he expected to make, when a stranger in the group told him he was wrong. "You'll do well if you get 10 per cent on such a large sum," he told Pete.

This obliging stranger told him as a special favor he personally would exchange the money for him. This was agreed to, the basis of exchange being ten per cent. The stranger then took Pete's money and counted. Then he hesitated and said, "Well, I want a little for my trouble—I'll give you eight per cent."

This Pete declined, saying he would attend to the exchange himself. The stranger then went away. Counting over his roll a few minutes later Pete found he was shy $40 and commenced to raise a commotion in the hotel rotunda. Coming to Winnipeg he had met a man who gave his name as Cyril Winze on the train. Mr. Winze now appeared on the scene and sympathised with Pete. "I wish I had thought of it when they were together on the train," said Winze, "give me the money you have and let me handle the exchange for you." Pete at first demurred but ultimately consented, keeping however $2.25 of the amount for emergency. Mr. Winze went to attend to the business and Pete still waits for his returns.

Detectives were looking for Winze all day today but failed to find him.

GAS EXPLODES AT BROCKVILLE

Spontaneous Combustion Is Cause of Serious Fires and Damage

OTTAWA, Sept. 21.—A special dispatch to the Ottawa Journal from Brockville, Ont., says:

"A terrific explosion, which blew out the front of the store of George Fox, in the Galla building on King street, followed by a fire which burned for several hours, wrought damage to property and contents estimated at between $40,000 and $50,000. The printing plant of Farrow brothers, next door, was butted and both sides of the Galla building, the stores of F. Stayner, druggist, and W. J. Sheridan, tinsmith, suffered heavy losses by smoke and water.

"The fire is supposed to have started by spontaneous combustion and spread to a quantity of gasoline or benzine, said to be on the premises, which caused the explosion."

The surveyed area of land in Manitoba, Saskatchewan and Alberta amount to 199,439,436 acres. Alberta leads with 85,148,000 acres.

"The Little Nurse for Little Ills"

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum

TO REGAIN A HEALTHY GIRLISH COMPLEXION

If you would have a clear, fresh, girlish complexion, one ounce of *ordinary mercolized wax* will aid you in this direction more than shelves full of cosmetics. It produces a natural beauty. This wax, procurable at any drugstore, completely absorbs a bad complexion, revealing the healthy young skin underneath. Its work is done so gradually, day by day, that no inconvenience is caused. The wax is applied at night, like cold cream, and removed in the morning with *soap and water*.

Another valuable rejuvenating treatment—this for wrinkles—is to bathe your face in a solution of powdered saxolite, one ounce, dissolved in a half pint of witch hazel. This has a remarkable action in smoothing out the lines and "firming up" the loose tissue.

Is Economical. The Coupons which it carries -- redeemable for useful articles -- are a further economy.

AN UNFAILING WAY TO BANISH HAIRS

(Beauty Notes)

Ugly hairy growths can be removed in the privacy of your home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.

If You Enjoy Good Coffee DO THIS—

Order some "SEAL BRAND" made from the choicest upland berries, grown in luxurious tropic hills, full of spicy nourishment and stimulating fragrance—the beans cleaned, blended and roasted with rare skill.

SEAL BRAND

Then in making, allow a tablespoonful of coffee to each cup desired, pour boiling water on it, simmer five minutes, clear with a dash of cold water.

Your dealer sells "SEAL BRAND", whole, ground, and fine ground, in ½, 1 and 2-lb. tins, hermetically sealed, so that the coffee reaches you rich in its original strength.

CHASE & SANBORN MONTREAL.

WORRY AND WRINKLES

Despondency is a thing of evil results. Worry produces nothing but wrinkles and wretchedness. Let the reader put a note on her bureau, on her desk, and at the head of her bed, just two words,

"Don't Worry"

Worry is the greatest foe to the happiness of any household. An anxious, despondent face, a fretful, complaining voice, will make every one uncomfortable.

A woman's nerves are more ...ly the cause of worry than outside troubles. The nerves are to ... woman's body the telegraph system which surely warns her of any ...rouble in the feminine make-up. Doctor Pierce's Favorite Pre...cription is the ideal woman's tonic for such conditions. When a ...oman complains of backache, dizziness or pain—when everything looks black before her eyes—a dragging feeling, or is troubled ...ith nervousness, she should turn to this "temperance" herbal tonic, ...nown as Dr. Pierce's Favorite Prescription. It can be obtained in ...lmost every drug store in the land and the ingredients are printed ...n plain English on the wrapper. Put up in tablets or liquid. Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., will send a trial size of "Favorite Prescription" tablets for 10c. Also write Dr. Pierce for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever.

INDUSTRIALS FALL ON MOTOR REPORT

Fords to Return to Pre-War Prices; Oils and Equipments Slump

NEW YORK, Sept. 21. — Stocks were subjected to intermittent selling pressure today, the professional element almost as a whole extending their short commitments as a result of developments which seemed to foreshadow further industrial readjustment. Foremost among these was the suspension of dividends on the common stock of the Central Leather company. Yet another significant development was the announcement that the Ford Motor company had cut the price of its products to a pre-war basis.

Motor shares and their subsidiaries, especially the latter, were among the heaviest features of the session. Extreme declines in these issues, the heaviest being rubber specialties, ranged from two to seven points.

Oils, which derive much of their support of stability from the motor industry, also fell back, the low grade steels particularly, and equipments were susceptible to the same influences, though in minor degree.

Rails had the occasional periods of activity and strength.

Sales amounted to 700,000 shares.

Money on call again held at seven per cent and time funds ruled at recent rates, despite another drain on local bank reserves for government payments later in the week. Exchange on London and Paris was moderately reactionary.

The bond market was active and firm, including liberty issues, with mixed changes in the foreign groups.

Total sales $12,300,000.

Old U. S. bonds unchanged on call.

WINNIPEG MAKES CHICAGO THINK

Dominion Wheat Stock Send Prices Down With a Heavy Thud

CHICAGO, Sept. 21.—Big receipts at Winnipeg, together with a persistent decline in the value of corn here brought about severe setbacks today in wheat prices.

The close was heavy, 7¼ to 8¼ cents net lower, with December 2.32 to 2.32½ and March 2.26½.

Corn finished ⅞ to 2⅞ cents down; oats off 2⅜ to 2½, and provisions at a setback of 50 cents to $1.25.

TORONTO BOARD

TORONTO, Sept. 21.—Papers and Atlantic Sugar kept a firm front on the exchange and brought another day of substantial advances. The activity of Spanish River and Brompton was even more pronounced than on the preceding day and the theory that United States investors were increasing their holdings was again put forth.

Although Spanish common was not active here, and the preferred only to a slight degree, the latter gained almost five points here, closing at 130⅝.

Brompton kept fairly even, closing here at 83¾. In the specialties Sugar had another heavy day, but its change was only ⅜ at the close of 148⅜. British Columbia Fishing had a pronounced recovery, selling at 50 and making a gain of eight points.

Weakness in Dominion Steel was a surprise, the stock dropping two points to 54. Steel of Canada preferred was also off by one point.

Total trading—11,353 listed shares; $9700 war bonds.

Hogs—Selects 21.00; heavies 18.00; lights 20.00 to 21.00; sows 16.00; stags 13.00.

MONTREAL LIST

MONTREAL, Sept. 21. — Buyers were again aggressive on the local stock exchange today. Chief interest was divided among the Asbestos corporation issues and the pulp and paper stocks. Asbestos common, on talk of a coming bonus distribution, figured in a rise to par, an extreme advance of 8½ points, but yielded over two points of this under profit-taking later, closing at 97¾. The preferred touched 107 and closed at 108.

Spanish River common rose to 125, a net gain of 2¼ points, at which it closed, and the preferred rose 3 points to 131½, shading this figure fractionally in closing transactions.

Brompton opened at 83½, fell to 82, and rallied to 83, leaving the net result of nearly 3000 shares traded at an unchanged price.

Abitibi opened at 84 and closed at 83¼. Provincial paper, in light trading, rose 4½ points to 117.

Breweries common ranged between 67 and 68, closing at 67¾, and Atlantic Sugar closed at 143½ unchanged.

Total sales—Listed 22,528, bonds $22,100.

MONTREAL PRODUCE

MONTREAL, Sept. 21.—Produce market unchanged.

Cheese, finest easterns, 25.

Butter, choicest creamery 57¾ to 58¾.

Eggs, fresh 66.

Potatoes, per bag, car lots 1.65.

The juice of the pawpaw fruit preserves meat.

NOT IMPRESSED WITH ESQUIMAUX

Still Use Bow and Arrow; Like Canned Goods; Suffer From Cold

EDMONTON, Sept. 22. — (Can. Press).—Arthur Thompson, American prospector from the Arctic coast recently arrived here from the country of the Esquimaux which stretches from Herschell Island to the Coronation Gulf, and in an interview detailed the latest data regarding the habits and customs of the most northerly Canadians.

Very little snow was experienced on the Mackenzie river delta last winter, while the natives of this region have waxed fat and wealthy by reason of the prevailing prices of furs at the northern outposts, Mr. Thompson stated.

The Esquimaux of the Mackenzie river district appear to be especially well-to-do, and own a number of schooners which they operate up and down the river to the islands in the Arctic sea, and have the reputation of being fair sailors.

Mr. Thompson was prospecting and trading as far east as the Coronation Gulf and in this neighborhood was in contast with the supposed blonde Esquimaux, but as far as he could see there was but little difference between these natives an those further west, they appear to have the same features, the only difference of note being that their eyes were of a lighter color.

In common with other tribes, these Esquimaux are described as being extremely childish and simple, and as companions on a long winter hibernacion they are not at all to be desired.

Many of these tribes still use the bow and arrow. Fire-arms are, however, gradually making their appearance, but on the whole the Esquimaux are poor hunters and by no means comparable to the Indians. The dialects of the various tribes differ, but all are able to understand one another, while they all unite in one particular trait, that of appreciation of the white man's grub, and whether it be tinned peaches or pork and beans that forms the menu, anything which comes in a can is regarded as the manna from the gods.

Contrary to the general belief, Mr. Thompson says, the Esquimaux suffer from the cold more than do the whites, one reason being that their headgear exposes the entire face and their features are constantly being frost bitten.

EGG MARKET

OTTAWA, Sept. 21.—There is an easier undertone to the egg situation. The outlook is somewhat dull at present, but with the continued falling off in receipts, no serious decline is anticipated. Ontario country track shippers report paying farmers and stores 56 to 58 for straight receipts and making sales at 58 to 60 f.o.b., cases returnable.

Toronto jobbing specials 73 to 75, extras 67 to 68; firsts 62 to 63; seconds 50 to 53. Sale of export packed storage firsts reported at 68 f.o.b. country.

Montreal firm and unchanged. Winnipeg unchanged.

Car of storage seconds rolling Sudbury at 55 f.o.b. Winnipeg. The trade report a surplus of 10,000 to 15,000 cases of storage over anticipated consumptive demands.

Saskatchewan receipts light, prices unchanged.

Calgary unchanged. Chickens 35; fowl 25.

Edmonton firm and unchanged.

British Columbia, fresh 71 to 73; specials 73.

Alberta extra jobbing 70; firsts 63, seconds 50.

The kingfisher lines its nest with fish bones.

FIND SALTIEST LAKE IN WORLD

Saskatchewan, Across Alberta Border, Has Shallow Lake Rich in Salt

CALGARY, Sept. 22.—(Can. Press) —A salt lake, believed to be the saltiest in the world, has been discovered at Seniac, Sask., 180 miles northeast of Calgary, just across the Alberta boundary. It was discovered by a Calgary geologist when a search for potash was being made. The lake is 185 acres in area and is owned by five Calgary residents.

The lake, which is only 18 inches deep, is fed by living salt springs and its level is maintained no matter how much is taken out, which would indicate that the pressure from the source of supply is heavy and that such source must be of practically inexhaustible volume. Four wells were sunk this year and they have produced very satisfactory results. One is a flowing well with 53 percent salt saturation.

EXPLORE NORTHERN MANITOBA BY CANOE

WINNIPEG, Sept. 21. — (Can. Press). — Four hundred miles by canoe in the wilds of northern Manitoba has been the experience of two Winnipeg men, R. F. McWilliams and Prof. R. C. Wallace, commissioner of northern Manitoba, who returned recently from the Hudson Bay. The trip started at Norway house, and the route down the Hayes river was that taken by the Selkirk setlers. Two Indians piloted the canoes.

ALBERTA ASSISTS FARMER VETERANS

CALGARY, Sept. 21.—(Can. Press) —Two thousand returned soldier farmers, occupying 480,000 acres of choice Alberta land, have been placed by the local branch of the Soldier Settlement Board since February, 1919. The sum of $11,286,000 has been loaned to the settlers for the purchase of the land, stock and equipment.

GROW SUNFLOWERS FOR ALBERTA SILOS

EDMONTON, Sept. 22 (Canadian Press).—Alberta should not be in need of information as to the growing of sunflowers after this year, since most extensive experiments are being carried on by the field husbandry department of the University of Alberta. Sunflowers, 30 to 35 tons to the acre are being harvested there now and put into big silos and other cutting experiments will include the packing of ensilage at a more mature date, and mixed with corn, etc.

Where the stalks are not too high the ordinary corn harvester can do the work very effectively, but where it reaches a height of ten to twelve feet and more, the stuff is top heavy and has to be handled by other means.

It is very interesting to note the advance in growth of the sunflowers over the corn. For the sake of record sunflowers and corn were planted side by side on the same date, and there is twice the tonnage of sunflowers as of the corn. There is also the additional advantage that the sunflowers stand more frost, both at the beginning of the growth and at the latter part.

VOTES FUNDS FOR TRAVELING LIBRARY

REGINA, Sept. 22. (Can. Press).—The sum of $10,000 has been set aside by the provincial government for the extension of the travelling library system of this province.

DETROIT, Sept. 21.—A ninth inning rally gave Detroit a 12 to 11 victory over Washington today.

	R.	H.	E.
Washington	11	16	0
Detroit	12	20	1

Batteries—Erickson, Bono, Courtney and Gharrity; Conkwright, Baumgarten, Bogart and Manion.

CLEVELAND, Sept. 21.—The Cleveland Indians batted three pitchers hard, will today and won the last game of the season from the Red Sox 12 to 1. It was the Indians seventh straight victory and they will enter the series with the Chicago White Sox Thursday with a lead of one and a half games in the American leagune pennant race. Tomorrow is an off day for both teams.

Sam Jones, premier of the Boston pitchers, was the first to feel the effects of the Indians bats. He was driven from the box in the third inning, when Cleveland bunched three singles and three duobles.

	R.	H.	E.
Boston	1	7	0
Cleveland	12	17	1

Batteries—Jones, Harper, Hoyt and Schang; Coveleskie, Morton and ONeill.

CHICAGO, Sept. 21.—Bagging 18 hits off three pitchers, the Chicago White Sox today won their sixth straight game in the American league pennant chase, defeating Philadelphia in the third and final game of the series 9 to 2, thereby keeping pace with Cleveland.

Eddie Ciotte displayed better form against the Athletic today than any of the bames he previously pitched.

Although hit 11 times, Ciotte managed to keep them scattered and was given spectacular support.

	R.	H.	E.
Philadelphia	2	11	1
Chicago	9	18	0

Batteries—Perry, Rommell, Naylor and Perkins; Ciotte and Schalk.

ST. LOUIS, Sept. 21.—New York batted hard today and won from St. Louis 8 to 3. The victory gave the visitors two out of three Ruth led the attack with a single, a double and a triple With thre runs, he made his total for the season 151. St. Louis could do little against Shawkey except in the second inning, when three bunched hits accounted for two runs.

	R.	H.	E
New York	8	18	1
St. Louis	3	10	0

Batteries—Shawkey and Hannah; Bayne, Burwell, Boehler and Severoid.

BREAKS MOTORCYCLE RECORDS WHOLESALE

LONDON, Sept. 21.—(Canadian Associated Press)—At Brooklands today J. S. Molroyd established 31 new motorcycle records, including two world's records, namely, 600 miles in 11 hours, 57 minutes, 11 4-5 seconds and 602 miles, 6-58 yards in 12 hours.

LADY GOLFERS GATHER FOR THE CHAMPIONSHIP

HAMILTON, Sept. 21.—Of the 32 players who qualified today in a round of 18 holes preliminary play for the first round of the Canadian Ladies golf championship, 11 are from Toronto and vicinity, nine represent Montreal clubs, four are from Ottawa, three from Hamilton, and Baltimore, Atlanta, Halifax, Vancouver and Murray Bay are represented by one each. The players enjoyed ideal weather for the opening day of the tournament.

WHOOPS FOR CANADA'S WORLD OPPORTUNITY

VANCOUVER, Sept. 22 (Can. Press).—A clarion call to Canada to take advantage of the present world opportunity and win over the wealth and industrial genius of America to the development of her natural resources of mine and forest and field and scenery, was sounded by Miss Agnes C. Laut, the well-known writer and investigator, who visited here recently.

"Does Canada realize that she stands at a critical peak in her life and must either go forward to make her production catch up with the inflated currency or go downward and be pounded by the process of deflating the dollar?" asked Miss Laut.

"Where is the United States going ot invest her surplus wealth. She can't lend to Europe, which already is $9,000,000,000 in her debt. There is hardly a safe place for money in Europe. Canada presents the great opportunity for the investment of money in a land of great natural resources and facility for transportation, so long as capital is assured of comparative security. There is where Canada is to have a chance of a century if her statesmen are alive to their opportunity."

Fear of nationalization of railroads and other enterprises, and ordinary "fear of the dark" is holding back investment from Canada, says Miss Laut, who also believes the policy should be adopted of extending large facilities to developing companies and of giving them the lightest possible taxation until such time as they are marketing their products.

Miss Laut, who for the past 20 years has lived in the United States, was born in Ontario, and still retains her Canadian nationality. She has been making a leisurely trip across Canada since June 1.

CLAIMS DISCOVERY OF PEST EXTERMINATOR

VANCOUVER, Sept. 22 (Can. Press).—A Vancouver man claims he has discovered the only sure way of defeating the hordes of Bolshevik caterpillars which threaten the tree life of this country in the spring, and he has formally applied to the provincial government for the $3,000,000 reward which he believes the government is offering for the elimination of all pests.

Government officials, who will not reveal the man's name, are now investigating the discoveries which they think may prove valuable. A foreigner with meagre knowledge of English, it is thought that he mistranslated some government announcement into the promise of a huge reward.

Letters have been received from Private Charles Gordon, of Brierley Hill, Staffs, who fought in the war and was presumed dead by the war office last September. He is in France and has been suffering from loss of memory.

RESUME KOREAN PLOT CHARGES

Conspiracy Case Thrown Out by Lower Tribunal Carried to Appeal Court

SEOUL, Korea, Sept. 21.—The trial of persons accused of conspiring for Korean independence which was thrown out of the lower court on technical grounds, has been resumed in the court of appeals.

Quiet is being maintained in the city of Seoul, but the authorities admit that considerable unrest prevails in North and South Phyong-Yang provinces.

FERNIE PIONEER DRUGGIST DIES

FERNIE, Sept. 21.—A. W. Bleasdell, druggist, and one of the city's most highly respected residents of long standing, died this evening in Fernie hospital after a brief illness. Deceased was one of the pioneers of the Crows Nest Pass, coming to Macleod, Alta., over thirty years ago, from there he moved to Fort Steele, where he operated a store for some time, thence to this city, where he has resided continuously for twenty-four years. He was twice mayor of the city and has always taken an active part in matters of general welfare and progress of the community. He is survived only by a daughter-in-law, Mrs. William Bleasdell, of Montreal, and five grandchildren, and his sister-in-law, Mrs. Alice Wilson Young, of Seaforth, Ont.

JUMPS FROM TRAIN; KILLED INSTANTLY

SASKATOON, Sept. 21.—Leaping from the side of a G.T.R. locomotive that was travelling at 50 miles an hour, an unidentified man, apparently a foreigner, committed suicide near Arrow River, Manitoba, Monday, according to members of the train crew on arrival here. At a water tank a man climbed aboard the pilot of the engine, and when the train had gathered top speed, he crawled along the footboard and jumped. He was instantly killed.

LIVE WIRE KILLS SASKATOON MAN

SASKATOON, Sept. 21.—When he came in contact with a live wire while working at the top of a 40-foot pole here this afternoon, Leslie Tamblyn, a lineman employed by the city, was electrocuted. He died as he reached the hospital. The shock threw the man completely over the cross arm of the pole and his body was badly burned. Tamblyn's mother and brother live in Spokane. Another brother resides in Vancouver.

ESTIMATES BRITAIN'S GRAIN REQUIREMENTS

OTTAWA, Sept. 21.—An estimate of Great Britain's probable requirements in imports of wheat, barley and oats during the next twelve months furnished the department of trade and commerce by Trade Commissioner Harrison Watson, gives the following totals:

Wheat, 217,500,000 bushels; barley, 50,000,000 bushels; oats 10,000,000 bushels. The estimates are based on the forecast of the United Kingdom yields, which have still to be confirmed by actual results.

The yearly income of manual workers in Vienna is given in an official table as follows, the figures representing kronen: Hotel porters and shoemakers, 100,000; journeyman shoemaker, 90,000; gentlemen's tailors, 80,000; university professors, (2 years' service), 40,000; director, Vienna municipality, 37,000; high law court officials, 25,000; day labor in gas works, 25,000; navvies, 22,000; lamplighters, 20,000; assistant doctors, 15,00. Before the war the value of a kronen was approximately 20 cents; now its buying power is about 1-3 of a cent.

CHINA SUPPLIES TOY TRADE

Puzzles are no longer China's chief contribution to the world's amusement. The old Asiatic empire, whose emblem is itself a toy—a fire-spitting dragon—has gone into the business of supplying the world's toy market, evidently with an intention of capturing the trade lost by Germany, and on the whole the toys are more ingenious than the German article, for the Chinaman or Japanese have learned to imitate nothing that he does not try to improve. The Anglo-Saxon doll made in China, for instance, goes in for rather flamboyant coloring effects. Its complexion would arouse envy in any European doll denied the use of cosmetics. As for dresses, a Chinese doll would make a Sicilian girl in her gayest colors appear to be in mouring.

STAR DUST CARPETS SEA

To an enormous extent the bed of the ocean is covered with lava and pumice stone, and the floor of the ocean is covered in many parts with the dust of meteorites. These bodies whirl about in the heavens like miniature comets, and are for the most part broken into inumerable fragments. It has been lately discovered that this cosmic dust forms layers at the bottom of the deepest seas. Between Honolulu and Tahiti, at a depth of 2350 fathoms—over two miles and a half—a vast layer of this material exists. Falling upon land this impalpable dust is indistinguishable; but accumulating for centuries in the sea depths, it forms a wondrous story of the continuous bombardment of this plant by cometary bodies.

Three prominent Detroit women observed the admission of their sex to national suffrage by serving as members of a jury to investigate the death of a city fireman.

A Bruise or a Bump

feels lots better after being bathed with "ABSORBINE JR."

This antiseptic liniment goes deep into the tissues—makes the afflicted parts thoroughly aseptic—destroys disease germs—takes out the soreness and heals.

Toronto can always count on the C.P.R. to provide a unique and attractive exhibit for the Toronto Fair, and this year if anything the C.P.R. Exhibit has surpassed all previous records for originality and artistic execution. In order to visualise the romance as well as the majestic scenery of the Canadian Pacific Rockies, a Sun Dance Lodge based upon a Stony Indian model has been reconstructed and decorated with Indian relics and sporting trophies—fine heads and priceless skins. The Exhibit is under the direction of Mr. Norman Luxton, editor of the "Crag and Canyon" of Banff who has spent most of his life on the trails and passes of the Rockies, camping, fishing and hunting, and who is also an authority on Indian art. He is assisted by his wife, daughter of the late Rev. John McDougall, one of the earliest missionaries in Western Canada, and herself the first white woman born in Alberta.

The first thing noticed on entering the C.P.R. Exhibit is the huge Sun Burst which throws its rays around the gigantic Lodge in which are garnered the side scenes portraying in miniature form some of the gorgeous settings which none but the Canadian Pacific Rockies can produce. The roof of the Indian Lodge is hand painted with symbolic writings and signs typical of the Rocky and Plains Indians. The side embellishments are finished in white birch, the bark of which was always a favorite with the Indian not only for the construction of his canoe but for the building of a camp fire. On each side of the entrance, office accommodation has been worked into the setting where information of every description can be obtained and telegraph service is also installed. This has the tepee finish and real Indian tepee poles transported from the West for the purpose have been used. The lighting effect of these interiors with miniature Indian tepees as shades produces an effect of entrancing beauty.

The scene from Sulphur Mountain overlooking Banff Springs Hotel in the foreground, and the beautiful Rundle and Tunnel Mountains, and the stretch of the Bow River in the background is highly realistic. A fine model of the C.P.R.'s famous hostelry built specially for the occasion is shown electrically illuminated and gives the visitor the impression that he is paying a visit to Banff instead of sweltering under the atmosphere of an exhibition. The Banff Hot Springs, famous for their health giving qualities were known to the Red men long years ago and accidentally discovered by some engineers when surveying for the C.P.R. The huge swimming tank hidden from the view, but situated directly in front of the hotel has a depth of water of from three to eight feet, and is one of the great summer attractions. The Bow River scene in the back of the picture reminds one of an opal with its pale green color, and its ever changing fires. The scene cannot be eclipsed for grandeur, although Lake Louise depicted on the other side of the tent certaintly gives it a close running. This panorama is the representation of what meets the eye of the tourist looking for the grandeurs of Lake Louise from almost any spot behind the Chateau with a glimpse of the wonderful lake and gigantic glacier and mountains in the rear. The Victoria Glacier which forms the background feeds the lake which is shown by real water, while the towering peaks of Mount Lefroy and Mount Aberdeen are observed in the distance. The frieze of Indian decorations and the magnificent transparencies lend a perfect finish to the whole Sun Dance Lodge effect. The remaining sides of the "Lodge" are of typical white birch interspersed with panelling of real Indian mats made from cedar bark, and there are many reproductions in miniature of the famous Totem poles from Alert Bay. There is also on exhibition a very valuable collection of Indian relics from the West Coast, all of which are original, and many over a hundred years old. They include eating and cooking utensils made of wood and whalebone, bows and arrows, coffins and tom-toms, cedar chests and model Indian houses. The illumination effect is perfect comprising some five hundred lights. The panoramas were executed by Mr. Hal Ross Perrigard, assisted by Mr. A. Robinson, and the decorations by Mr. Perrigard assisted by Mr. James Crockart, all Canadian. The models were made by Henry Morgan & Co. of Montreal. The C.P.R. Exhibit is not only an historical representation but educational from every viewpoint.

TO OPEN NIGHT SCHOOL CLASSES

Board Will Arrange Commercial and Mining Courses—Mr. Kyle Speaks

That a course of night school instruction in commercial subjects, metallurgy, and blow-pipe analysis will be offered at the Nelson high school during the fall and winter months, was the decision arrived at at a meeting of the school board last evening, following an address to the board by John Kyle, of Victoria, supervisor of technical education for British Columbia, who inspected the technical equipment and classes of the local schools yesterday and Monday.

Mr. Kyle commended the appliances at the schools, and stated that good results were being obtained from the manual training classes, but urged that the appliances and school buildings should be put to more general use.

To enlarge the field of technical education in this city on the lines now adopted by progressive cities throughout the province, he urged that night school classes be immediately put into operation. Such schools would be of immense value to boys and girls after leaving school and entering gainful occupations. The aim of the classes should be to impart technical knowledge in a practical manner in a workshop or commercial atmosphere as the case might be.

Night classes could be started with English and arithmetic, and could branch out into commercial subjects and subjects intimately connected with the mining industry, such as metallurgy and blow-pipe analysis. Dressmaking and cooking could also be taught to girls.

The object later, Mr. Kyle said, should be to start full technical classes and ultimately embody a technical course in the high school curriculum as the accumulated equipment warranted such a course, generous provision for grants towards teachers' salaries and towards equipment had been made by the government, which together with a small tuition fee, such as is generally made, would materially reduce the cost of operation.

Mr. Kyle also spoke of the correspondence courses of instruction now being given by the education department to children in isolated localities that could not attend the schools.

New Science Teacher

A wire from Miss Kathleen Falconer, of Powell River, accepting the appointment of science teacher at the high school at a salary of $1800 a year was received. Miss Falconer will succeed A. E. Martin, who resigned from that position to assume a position at the provincial normal school.

It was mentioned on a recent Sunday at the Church of St. Magnus the Martyr, London Bridge—one of the city churches it is proposed to abolish—that the vaults contain the ashes of Miles Coverdale, whose translation of the Bible in 1535 was the first complete version to be published in English.
