VOL. 20. NELSON, B. C., SATURDAY MORNING, AUGUST 6, 1921 NO. 84.

UNITED STATES BLUE JACKETS MAKE MERRY

Vancouver En Fete for Visiting Fleet; Ball on Super Dreadnaught.

LEAVE EIGHTEENTH AMENDMENT ABOARD

Sailors Have Good Time Ashore; Plan to Entertain Officers.

VANCOUVER, Aug. 5.—Vancouver citizens made merry tonight in honor of a visit from their American cousins of the United States fleet. Traditional Vancouver weather did not seriously interfere with the holiday spirit. The rain ceased at sundown and the fun began. Sailormen to the number of 1750 roamed the streets on shore leave, or danced under the fairy lamps on a section of Hornby street, which had been reserved for the purpose. Eight fighting vessels and the hospital ship Mercy of the United States squadron rode at anchor in Burrard inlet, flashing their messages of peace to the town and each other. On board the flagship, the superdreadnaught Tennessee, a grand ball was in progress, at which hundreds of Vancouver people were guests.

Caledonian Games Begin.

The occasion is the annual Caledonian games, beginning Saturday, to which Pacific coast people from both sides of the line are coming in large numbers. When the civic officials had boarded the flagship to extend the city's welcome to the visitors a free exchange of civilities began, which will extend over the week-end.

Many functions are planned for the entertainment of officers at the homes of citizens, while less formal parties forming as the "gobs" wander about the friendly streets.

The seamen have left discipline and the eighteenth amendment behind, but there is little for the naval police to do, as they stroll about with their batons and good humored grins. Small boys from the Canadian training ships are standing ready to act as escorts to their older brothers in blue, and helping to find lodging for the night for those whose leave is extended until Saturday morning.

The fleet remains here until Monday.

Northcliffe Guest of Honor

The courtesy of the United States navy was extended to Viscount Northcliffe tonight. By special invitation of Captain R. H. Leigh he visited the Tennessee and was paid the honors accorded a distinguished guest. Captain Leigh is in command of the United States fleet which is visiting Vancouver, led by the flagship Tennessee.

Lord Northcliffe was preparing to go aboard the Canadian Australian liner Makura, on which he sails before daylight, for Australasia. The visit to the Tennessee was not a part of his program.

During the evening, however, Consul General F. M. Ryder, United States representative in Vancouver, brought an invitation from Captain Leigh, which was promptly accepted, and the British publisher was carried off to the harbor, where the Tennessee's cutter awaited him with a reception committee of visiting naval officers. On board the flagship he was made much of by Captain Leigh and his officers during a two-hour visit.

It was stated late tonight that a proposal was under consideration to escort the Maqura out of the harbor with two United States destroyers as a send off to Lord Northcliffe on the second stage of his round-the-world tour. No confirmation was forthcoming from the United States naval officials of this rumor.

FLASHES BY WIRE.

Armistice Day Suits France

PARIS, Aug. 5.—France, replying today to an inquiry made by the statedepartment at Washington, agreed to Nov. 11 as the date for the conference in Washington on disarmament and Far Eastern questions.

Prepares Alberta Cabinet Slate.

CALGARY, Aug. 5.—Premier-elect Greenfield announced tonight that he would present the slate of his cabinet to a conference of Farmer members to be held in Edmonton on Thursday morning next. If the conference approves of the slate, the personnel will be announced immediately and arrangements for taking over the government of the province will be made.

Toronto Gets Coal by Boat.

TORONTO, Aug. 5.—For the first time in history Nova Scotia coal has arrived in Toronto by boat. The steamship Cape Turrent brought 2300 tons. About $15,000,000 has been expended already on improvements to the Toronto harbor and the city is eagerly looking forward to the time when boats from salt water will be a common sight here.

Toronto Endorses Canadian Legion

TORONTO, Aug. 5.—The scheme to amalgamate all soldiers' organizations into one body to be known as the Canadian Legion of Veterans, was endorsed at a joint meeting of representatives of each of the local organizations tonight.

DRAFT UNIFORM LABOR PLATFORM

WINNIPEG, Aug. 5.—Drafting of a uniform political labor platform for the Dominion and the coordination of the various labor parties now in existence in the various provinces, probably will be taken up by some of the delegates attending the trades and labor congress convention here this month, according to Earnest Robinson, secretary of the Winnipeg Trades and Labor council.

With the congress out of the political field, the matter may be discussed at an informal session of delegates apart from the congress, Mr. Robinson said.

DAIL EIREANN WOULD INCLUDE ORANGE PARTY

Invite All Elected; Anxious to Embrace All Parties in Assembly.

LONDON, Aug. 5.—None of the imprisoned members of the Dail Eireann have as yet been liberated, but it is considered certain the government will place nothing in the way of their release and that they will be free to attend the sittings of the Dail Eireann when that body convenes to discuss the peace proposals.

Meetings of the Ulster cabinet and the Dail Eireann "cabinet" were held today. So far as is known, however, they were not directly connected with the hitherto unsuccessful efforts to bring about an agreement between the north and south, preliminary to a tripartie conference at London. The "republican cabinet" confined itself to consideration of the Dail Eireann meeting, while Lieut. Col. Spencer secretary to the Ulster cabinet announced at the conclusion of the deliberations, that the question of peace should be touched upon only incidentally. Notwithstanding the lack of definite action immediately connected with peace or of even a hint of the imminence of such action, confidence prevails in political circles in London that there is no likelihood of a breakdown in the negotiations.

Dail Eireann Meets

DUBLIN, Aug. 5.—A meeting of the Dail Eireann cabinet was held today at the Mansion House with Eamonn De Valera presiding. The forthcoming meeting of the Dail Eireann was discussed and the question of who will be entitled to attend was an interesting point raised.

After the last elections for northern and southern Ireland, the Sinn Fein party, anxious for the establishment of a national assembly, embracing all parties in Ireland, resolved to constitute the Dail Eireann from every man elected, including members of the Orange party and the Trinity college.

The Sinn Feiners, therefore, issued invitations to all those elected, asking whether they desired to join in the assembly. They received replies only from their own sympathizers, however, and now they have decided to send invitations only to those persons who have indicated their willingness to join the national body. Thus the Dail Eireann will consist of 132 persons who accepted the invitations.

TAXES HIT FAMOUS LIVERY COMPANIES

Fishmongers Company Curtails Dinners and Charities; Third Income Goes

LONDON, Aug. 5.—Among the notable victims of high taxation and high prices prevailing during and since the Great War, are the famous "livery companies" of the city of London. Several of these have recently been forced to sublet part of their premises.

A typical example is provided by the fate of the Fishmongers company at London bridge, of which Commander Sir T. Dawson, N.R., is the master, and Sir Wrench Towse the clerk. One-third of the annual income (£50,000) has been swallowed up in taxation. The company finds much less to spare for its well known charities, even after the most drastic economies. It now holds only two dinners annually, instead of 15, as before the war. Recently the company found itself unable to afford funds for the much needed re-decoration of the building.

POPE GREETS KNIGHTS.

SAN FRANCISCO, Aug. 5.—Greetings from Pope Benedict XV. were received at the final sessions of the annual international Knights of Columbus today through Cardinal Gasparri, papel secretary of state.

"The supreme pontiff received graciously the expression of filial devotion from the sterling order of 80,000 patriotic United States citizens, the Knights of Columbus," the message read.

"The magnificent work of the Knights of Columbus enjoys his constant blessing."

The last parties of Knights of Columbus delegates and visitors are expected to leave San Francisco tomorrow.

NEW GOVERNOR-GEN ERAL'S ENGLISH HOME

Hopes for Garden at Ottawa

Here are some pictures expressly taken for this paper, showing where Canada's new governor-general, Lord Byng, resides. The picture shows the south side of Thorpe Hall, Thorpe-le-Soker, Essex. The center picture shows a north view of the hall with water garden. The lower picture despicts the water garden made in 1920-1921 by Lady Byng. On the left is the latest photo of Lady Byng, wife of the governor-general. In her letter accompanying the photos Lady Byng says: "Here are the promised pictures of our little home. Being a very keen gardener, I am hoping to find a nice garden at Government House, Ottawa. Here we are just burnt to a cinder with the long drought and unusual heat."

FARMERS BACK UP RAINMAKER

Sign New Contract for Next Year; Will Choose Own Site Then.

MEDICINE HAT, Aug. 5.—The farmers in this district still have faiths in the powers of Charles A. Hatfield, the rainmaker. This was made manifest today when at a meeting of the United Agricultural association it was decided to engage Hatfield's services for next year. A new contract was agreed upon in which three inches of rain are allowed for natural precipitation during May, June and July, 1922, and Hatfield will receive $4000 an inch for every inch over three inches, and up to six inches, the maximum amount to be paid being $12,000.

Although entitled to the maximum of $8000 under his contract for this year the rainmaker reduced the amount about of $2500, stating that in view of the somewhat disappointing results of this year's operations, he would be satisfied with $5500. He explained his partial failure as being due to the fact that the location chosen by the association at Chappice lake was unsuitable, owing to the prevailing northwest winds in this district. Under his new contract he will choose his own site and is expected to locate about 60 to 70 miles northwest of this city.

By operating to the northwest Hatfield figures that the action of his chemicals will cause the clouds to discharge their contents in the Medicine Hat district, instead of drifting into Saskatchewan before unloading, as was the case this year. The rainmaker is still convinced that conditions in this district are favorable for his operations and with the knowledge he has acquired this year as to weather conditions and the trend of the atmosphere, he said he is confident he can produce more precipitation next year than called for in his new contract.

CREATE BIRD SANCTUARY

OTTAWA, Aug. 5.—Official notification of the creation of Last Mountain lake, in the province of Saskatchewan, into a bird sanctuary under the migratory birds act, appears in the current issue of the Canada Gazette. Shooting of game birds in the open season will be allowed on all portions of Last Mountain lake sanctuary except the islands north of and including Pelican island.

Question Right to Forbid Export of Nine Per Cent Beer Across Boundarry

WINDSOR, Ont., Aug. 5.—A test case to determine whether 9 per cent beer can legally be exported from Canada to the United States is to be made by Windsor license inspectors, following a seizure in Sandwich of a shipment of 100 cartons of beer consigned to five residents of Wyandotte, Mich. The local authorities will refer the case to the attorney general's department for settlement.

COLONIZING ASSOCIATION CALLS CONFERENCE ON PRAIRIE DROUGHT

CALGARY, Aug. 5.—The investigating committee brought together by the Western Canada Colonization association to inquire into the drought conditions in southern Alberta and southwestern Saskatchewan, have been in session here for the last two days, and have reported their findings.

The conference was attended by: W. H. Fairfield, superintendent of the Dominion Experimental station, Lethbridge, representing the Dominion government; F. H. Auld, deputy minister of agriculture for Saskatchewan; Perrin Baker, M. P. P. for Medinine Hat, representing the Alberta government (new and old); G. H. Hutton, superintendent of agriculture and animal industries; F. G. Stanley, supervisor of the Standard Bank of Canada, representing the Canadian Bankers' association; W. D. MacKay, provincial manager, Manufacturer Life association; Percy S. Saunders, manager Canadian Holt company, representing the Implement manufacturers and dealers, and M. A. Brown, vice-president, western Canada Colonization association.

Advantage of Rye Growing

The report of the committee deals also at length with the advantage of rye growing.

The opinions of prominent exporters and grain men are referred to. James Stewart, formerly head of the Canadian wheat board, and James Richardson & Sons, prominent rye exporters have both expressed the opinion that there will be a satisfactory market for many years to come for all the rye that can be grown in the southern areas.

At the closing session of the conference, the delegates present discussed fully the difficulties to be faced, particularly in southern Alberta, government urging that a royal commission be appointed without delay to inquire fully into the drought problems of southern Alberta and report on the advisability of making a soil survey, establishing additional experimenta stations, the appointment of district agricultural representatives and other important matters pertaining to the conditions that prevail.

The committee has made important recommendations to the banks and governments regarding seed supply, which, it is hoped, will be productive of the desired results.

ASKS EFFORTS TO PROMOTE SUCCESS

Northcliffe Emphasizes Importance Washington Disarmament Conference.

VANCOUVER, Aug. 5.—(By Canadian Press).—An eloquent plea that every effort be put forth to promote the success of the conference on disarmament at Washington, called by President Harding, was emphasized by Lord Northcliffe at the Canadian club luncheon here today. In his opinion the conference would be the most important in the history of mankind.

It is estimated that 1200 persons heard the address of the distinguished publisher. Seven hundred and fifty sat down at luncheon and spectators filled the galleries and corridors and filtered onto the floor between the tables.

In view of the extreme delicacy of the present situation when Great Britain, the United States and Japan are approaching the conference, Lord Northcliffe had prepared his speech in advance and with some apologies for the innovation, read from manuscript.

An international aspect was given the occasion by the presence of Captain R. H. Leigh, commander of the United States battleship Tennessee, and of Hon. F. M. Ryder, United States consul general, who sat at the head table.

H. Wickham Steed editor of the London Times, followed Lord Northcliffe with a brief address. His humorous explanation of the "unconscious inconsistency of the English," aroused the audience to a high pitch of enthusiasm.

Lord Northcliffe was heartily received. The whole tone of his address was pitched to drive home the vast, world reaching decisions which may come from the conference in Washington, and that the publisher expects something to emerge from the movement was indicated by the earnest way in which he urged the necessity of making it a success.

Scandinavian, at Antwerp from Montreal.

Finland at Antwerp from New York.

INVESTIGATE INTEGRITY OF ELEVATOR OFFICERS

WINNIPEG, Aug. 5.—The board of grain commissioners will investigate all matters within its jurisdiction which might affect the weight and grades of grain, also the integrity of its officers at all elevators, according to a letter made public today by R. J. Henderson from E. Hetherington, secretary of the board. The letter was in reply to one sent by Mr. Henderson to the board asking for an investigation into charges he made before the royal grain inquiry commission at Fort William some time ago.

Mr. Hetherington says he is also directed to state that the board "has no intention or desire nor would it have any right to eliminates any member of the board at such investigation.

EXPERTS FIND CASE IS TOO COMPLICATED

Hand Report on Upper Silesia to Supreme Council for Decision.

PARIS, Aug. 5.—The Havas Agency says it understands the commission of experts charged with a preliminary investigation into the question of the division of Upper Silesia has virtually ended its work. In view of the impossibility of reaching an unanimous agreement on the results of the plebiscite in Upper Silesia, the expert decided to deliver to the supreme council their report, showing the different solutions suggested and the favorable and unfavorable arguments raised during the discussions of the commission, leaving to the council the task of making a decision in the premises.

POLYGAMISTS LIVE HAPPILY

Thunder Bay Ojibway Indians Managae Dual Families Satisfactorily

PORT ARTHUR, Aug. 5.—Two Thunder Bay Indians, brothers, were found by Indian Agent W. R. Brown, during his recent trip to Long Lake, Ont., to have two wives and two groups of children. The first, Chief George Taylor, an Ojibway Indian, has seven children by his first wife and six by his second. Both wives and all their respective children live amicably together. His brother, also George Taylor, supports two wives and their children, numbering eight and five, respectively. The family of the second wife are all daughters. Mr. Brown said that all the children were well cared for and in a healthy condition.

UNEMPLOYED MEN RUSH FOR WORK

MONTREAL, Aug. 5.—Five hundred men left tonight for the west to work on Canadian Pacific railway section gangs. A notice asking for this number of hands was posted outside the employment office near the station last night and resulted in a regular riot, so eager were the hundreds of desperate men to secure work of any sort. The great mob surging through the door into the office gave many people the impression that the unemployed had taken matters into their own hands and were rioting.

UNANIMOUS ON MAIN LINES OF EMPIRE POLICY

Imperial Conference Clears Up Misunderstanding on Washington Conference.

SOUTH AFRICA DISSENTS ON INDIAN CITIZENSHIP

Refer Naval Defense and Imperial Communications to Various Parliaments.

LONDON, Aug. 5.—An official summary of the deliberations of the dominion premiers' conference, made public tonight, emphasizes the discussion of foreign policy which proved most fruitful and revealed an unanimous opinion as regards the main lines, and a deep conviction that the whole weight of the Empire should be concentrated behind a united kingdom and common action in foreign affairs.

The means of circulating information between Great Britain and the dominions was most carefully considered and it was the unanimous opinion that a policy of Empires could not adquately represent the democratic opinion of its peoples unless overseas representatives frequently associated with the imperial government in determining the course to pursue. All the members of the conference were keenly appreciative of the value of this meeting and urged that similar gatherings be as frequent as possible.

Meeting Epoch Making.

Premier Massey of New Zealand, when interviewed, declared that the conference of the dominion premiers had been epoch making, as the overseas premiers, for the first time, had joined in the government of the Empire as a whole. Very important matters had been dealt with and momentous decisions arrived at which would have far-reaching effect in the direction of Empire unity. "I am strongly of the opinion," he continued, "that the foundation of a system which will develop into a satisfactory form of government for the Empire, has been reached. When the public realizes the importance of what has occurred, they will consider the result has been good work well done."

Divide Reparations.

The conference agreed that the war reparations receipts should be apportioned as follows:

Great Britain, 86.85 per cent.
Minor colonies, .80 per cent.
Canada, 4.35 per cent.
New Zealand, 1.75 per cent.
Australia, 4.35 per cent.
South Africa, .60 per cent.
New Foundland, .10 per cent.
India, 1.20 per cent.

Pass Resolution on India.

As regards the position of British Indians, the following was resolved: "The conference reaffirms that each country of the British commonwealth should enjoy complete control over the composition of its own population from any other community, but reculation by restricting immigration ogpizes the incongruity between India as an equal member in the Empire and the existence of disabilities upon British Indians lawfully domiciled in some other parts of the Empire, and the conference is of the opinion that, in the interests of solidarity of the commonwealth, it is desirable that

WORK RUSHING ON SILVERSMITH MILL

That 35 men are working steadily on the remodelling and enlargement of the Silversmith mill at Sandon, was stated at the Hume last night by John B. White, president of the Silversmith mines, limited, who has just returned from an inspection of the work, accompanied by Mrs. White.

"We are spending $75,000 in these improvements, which were commenced about June 15, and we expect the mill will be ready for operation on Nov. 1, with a capacity of 150 tons of ore per day," said Mr. White.

The basis of the new mill is the mill recently purchased from Ivanhoe people. The building has been stripped, enlarged, and re-timbered throughout, and it will contain the plant of both the Ivanhoe mill, the old Silversmith mill, and also new machinery that is already on the ground.

There are two new pipe lines, one from Sandon and Carpenter creeks, one from Miller creek, and one from Tributary creek. The ore pocket at the upper terminal on the tenth level, of a 4700-foot tram, has been built, with a capacity of 250 tons, and a smaller one will be built at the lower terminal.

CITY ENGINEER GREEN TO MAKE GENERAL SURVEY OF NELSON'S REQUIREMENTS

A survey of Cottonwood creek, Anderson creek, and the creeks in the vicinity of Apex emptying into the Salmon river, from the point of view of their water possibilities; an investigation of Nelson's water requirements if the city should grow; and an examination of the city's intake and main pipe line, with a view to determining the nature of the improvement to be made to them, constitute one phase of a general survey which A. H. Greene, city engineer, is just starting for the city.

The city has never had such a water survey, and now that renewal of a portion of the city's water system is necessary, it is considered that the facts of the situation ought to be clearly known in order that the proposed improvement may be on the best lines.

A second phase of the general survey will be a complete topographical survey of Fairview, which the city council deems to be necessary from every point of view. Before sewer routes can be plotted, the levels of every street and lane, and of every block, must be known, for sewers operate by gravity and not by pressure. Before the cost of sewering that new section of the city can be worked out, the nature of the soils, and the presence or absence of rock must be exactly known. This same information will also form a basis for all future improvements in Fairview.

West Arm residents desire the city to provide them a power line. Mr. Greene is also to look into this question, with the aid of his transit, survey a route, and contribute toward securing an exact estimate of cost of the undertaking.

A fourth survey, less immediately pressing than the others, but equally important in the long run, will require the taking of some more levels in the city, to supplement those already on record, in order that the best routes for sewers, water mains and wires may be worked out against the time when services will be requiring renewal. The city's water system, for instance, has been serving for over 20 years, and some portions require renewal. Ultimately every foot of water mains will have to be replaced. Whether put into immediate use or not, it is pointed out that the ideal plan for these services should be in existence, so that renewals that are made would be made with the ideal plan in mind.

Mr. Greene Elaborates.

Discussing the necessity for this work, Mr. Greene estimates must keep him busy for at least six months, the city engineer said:

"If the people of Nelson stop to reflect on the situation, they will readily agree that, with betterments of the water system an immediate necessity, now is the time to look over the ground and plan in advance for the future. We should know just how much water is on the mountain. If the city grows to any size it will need every drop of water on the mountain. We should try to arrive at what our future requirements will be. The channel of Cottonwood creek has shifted some since our pipe line was laid, and it is generally agreed now that the creek bed was not the proper place for it. The question also arises at what point the water should be taken from Cottonwood creek, and whether the intake should be located much farther up, for at present a great deal of water flows by it. The possibility of adding to Cottonwood creek the water in Clearwater and Whitewater should be thoroughly investigated. It is even conceivable that the city might use some water from Giveout creek at certain seasons, should no ore mill be operating on it.

City Should Have a Plan.

"There never has been such a survey, and the city should not face the future without one. On whatever plan the immediate betterments are made, they should look to the future, and be consistent with what will be the requirements if the city grows.

"Ultimately, if the city grows, it will be necessary to have the water mains and sewers in the lanes instead of under the streets and for that purpose we require information on the lanes.

"As for the improvements that Fairview contemplates, not a step can be taken until the survey is made, for the improvements must be planned on exact knowledge.

"There is not a part of the general survey proposed that will not be inevitable sooner or later, and the great bulk of it is required right now."

Mr. Greene is already starting on his survey in connection with the water supply, commencing with the system as it exists in Cottonwood creek.

W. L. Affleck, his assistant, will collaborate in the work, particularly in Fairview.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

UNANIMOUS ON MAIN POLICY

(Continued from Page 1)

the rights of such Indians to citizenship should be recognized. Representatives of South Africa regret their inability to accept this resolution in view of the exceptional circumstances of the greater part of the union.

"Representatives of India, while appreciating the acceptance of the resolution, nevertheless feel bound to record profound concern for the position of Indians in South Africa and hope that by negotiations between India and South Africa a way can be found as soon as may be possible to reach a more satisfactory position.

"It was resolved that no advantage would be gained by holding the proposed constitutional conference which was recommended by the imperial war conference of 1920, although attaching great importance to continous consultation which was obtainable only by improved communications between the various parts of the Empire. It was the opinion of the overseas premiers that they should aim to meet annually.

Another resolution warmly thanked the British premier and his colleagues for the large amount of time given the overseas premiers, and declared that the meetings clarified the lines of communication in imperial foreign affairs and still more firmly established the free cooperation of the peoples of the commonwealth.

LONDON, Aug. 5.—That there existed some misconception of President Harding's invitation for a conference for the discussion of armament limitations and Pacific questions, is indicated by a summary of the proceedings of the imperial conference, issued this evening at the conclusion of the last session of that body. In accordance with the suggestion which was believed to have been made by the United States government that the conference on disarmament should be preceded by friendly conversations or consultations between the powers principally concerned in the future of the Far East and the Pacific, says the summary, the imperial conference, anxious that the Anglo-Japanese agreement should be substituted some larger arrangement between the three great powers concerned, namely, the United States, Japan and Great Britain, and holding the firm conviction that the later discussions on disarmament to which they attached transcendence, could best be made effective by a previous mutual understanding on Pacific questions between those powers, discussed these preliminary conversations or consultations, which the United States government had, in principle, agreed should be held in London.

Offer to Discuss Agenda.

"When it transpired," continues the summary, "that there was some misunderstanding as to the nature of the suggested preliminary conversations, the British government, in a desire to remove any possible misconception, and to meet what it believed to be the United States view, vonluntereed to attend a meeting on the other side of the Atlantic, at which the agenda of the Washington conference could be discussed.

"Premier Lloyd George, Marquis Curzon and the Dominion premiers were prepared to attend such a meeting if invited by the United States government. Japan also had signified her willingness to attend. The United States government did not favor the idea, which, accordingly was dropped.

"At no stage was it suggested that the result of such consultation should either anticipate the work or tie the hands of the Washington conference. On the other hand the imperial conference made the proposal because it was anxious to remove every possible obstacle from the path of the Washington meeting, which it desired to see attended with complete success."

Unanimous on Main Lines.

The summary declares that the greater part of the proceedings of the imperial conference relating to foreign affairs and defense was of a confidential character, but that the discussions revealed a unanimous opinion as to the main lines to be followed by the British policy, and a deep conviction that the whole weight of the Empire should be concentrated behind a united kingdom and common action in foreign affairs. Frequent consultations were decided upon.

The matter of naval defense was left to the various parliaments, as was the question of imperial communication. It was decided to improve the wireless link while the various governments recommended the introduction of uniform legislation regarding bills of lading. Any assistance given by the governments for the reduction of rates for press messages, it was agreed, should be directed as not to affect the qualy of he news service or the freedom of the newspapers so served.

Recognition of Indians.

A resolution was passed, with South Africa dissenting, the summary says, that the rights of British Indians to citizenship should be recognized. Representatives of the Indians expressed their profound concern at the condition of Indians in South Africa, and their hopes that by negotians between the governments of Indian and South Africa, some way might be found to make their position more satisfactory.

A meeting of a committee of prerepresentatives of the patents offices of the dominions will be held in London, and it was decided to consider the practicability of instituting a system for granting patents which would be valid throughout the Empire. It was agreed that, in view of the consultations of the premiers, no advantage was to be gained by holding the proposed constitutional conference.

McDonald, manager of the McDonald Jam company, is suffering from a scalded foot, in the Kootenay Lake General hospital, as the result of an accident in the factory Thursday, when a valve that releases hot water was turned when he was in the way of the stream, in the act of adjusting a retort.

HOW TO END ACHING FEET

New-day treatment keeps feet in perfect condition

A little book, entitled "The Proper Care of the Feet," is helping a good many people to free themselves from the nervous strain and constant annoyance of paining feet.

It shows simple ways to keep the feet in proper condition—how to overcome excessive perspiration, how to soothe aching muscles and tendons, how to reduce swelling, how to get instant relief from corns and how to end them, in fact, this little book is all that its name infers: "The Proper Care of the Feet."

This booklet accompanies each box of Blue-jay Foot Treatment, which may be obtained at your druggist, or a free copy of the booklet will be sent if you write to Bauer & Black, Limited, Toronto.

CHANGE IN SERVICE SLOCAN BRANCH

NELSON-SLOCAN CITY

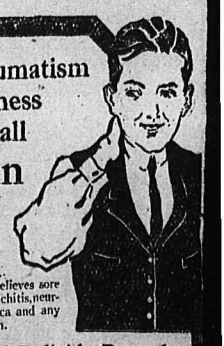
Effective Aug. 1st

Nelson-Slocan City service will be three times a week, Monday, Wednesday, Friday instead of previous daily except Sunday service.

J. S. CARTER,

DIST. PASS. AGT., NELSON.

Rheumatism Stiffness and all **Pain**



Minard's Liniment has given satisfaction for three generations. It quickly relieves sore throat, bronchitis, neuralgia, sciatica and any kind of pain.

An Old Reliable Remedy

Mrs. S. Fawcett, Hamilton St., Collingwood, Ont., writes,—Minard's Liniment surely is an old reliable remedy. I always keep a bottle in the house and have recommended it to quite a number of my friends, to whom it gave great relief. In most cases it was used as a cure for rheumatism.

Minard's King of Pain Liniment

Yarmouth Nova Scotia.

RAILWAY BOARD STATES REASONS

Complete Text of Slocan Decision Received by Commissioner Starkey

A copy of the decision of the railway commission in the Slocan branch service case, which is now in effect in the form of a tri-weekly service, has been received by Fred A. Starkey, commissioner of the Associated Boards of Trade of Eastern British Columbia. The decision was written by Hon. F. B. Carvell, chief commissioner, and was concurred in by Commissioner A. C. Boyce, and its tenor is that the line was not paying the C. P. R., that all similar lines in the district were operated only tri-weekly, and that the actual disturbance of business by the reduction asked by the C. P. R. would be very slight.

The full text of the decision is as follows:

First Application Refused

"In the summer of 1920, the C. P. R. Co. gave notice of their intention to reduce the daily, except Sunday, train service from Nelson to Slocan City and return to a tri-weekly service. As the proper notice was not given, and the Nelson board of trade and other interested bodies protested strenuously, the change was not authorized by the board.

"When the board was in Nelson, in the month of October, last, the case was presented by the railway company and was seriously opposed by interested parties all along the line, the result being that the application was refused.

"When the board met at Nelson, on the 15th day of April, last, another application was presented by Mr. Peters, general superintendent of the Canadian Pacific Railway company for the province of British Columbia, to the same effect. The public was represented by Mr. Starkey, commissioner for the Associated Boards of Trade of Eastern British Columbia.

"This train runs between Slocan City and Nelson daily and returns, the distance from Slocan City to South Slocan being 32 miles. It then runs over the main line of the Crow's Nest C. P. R. from South Slocan to Nelson, a distance of 12¼ miles. No question arises about the service on the main line, because other trains will take care of the business. It becomes purely a question of the service on the 32 miles from South Slocan to Slocan City. All other lake and rail services in that portion of British Columbia are tri-weekly.

Suggests Freight no Criterion

"According to the evidence furnished, the total earnings from the branch line to ultimate destination average $8195 per month. This, however, would not give a very clear idea of the amount of business, because it would include ore for the Trail smelter and lumber going to eastern ponts. The passenger business on the branch itself amounted to $901.30 per month, and, in my judgment, this would be a fair indication of the amount of business being done.

"Mr. Peters contended that the actual cost of operating the train, covering only wages, engine, oil and fuel, without any charge for overhead, maintenance, or agency expenses, amounted to $1943.20 per month. It is evident, therefore, that the business on the Slocan branch at the present time is not a paying one, and it seemed to me at the hearing that the real question was to what extent would the public or business be inconvenienced by a reduction in the service.

"I asked the question of Mr. Starkey a number of times, but, as I read the evidence, his one answer was that it would discourage the people, perhaps preventing new settlers from settling in the district, etc. He produced a witness, a William C. Koch, evidently an old-timer of the Kootenay district. Mr. Koch lives in Nelson, but stated that, at one time, he had operated a mill on the branch. He was unable to give any evidence which would show sho to hat would show to what extent the business of the community would be inconvenienced excepting on general principles that it would be better to have a daily train than a tri-weekly one; but, before concluding his evidence, when I asked him if he had anything else to urge as to what would be the disadvantage to the business of the community, he stated as follows:

"'We have a good automobile road. I would not like to have any reduction except for a limited time. Do not cut them off so that they will stay off forever. If the lumber business starts up in another year or six months, it will be quite convenient to have a daily train.'

Dairy Not Incommoded

"The only actual evidence which was offered was on account of the milk supply coming from the branch into the city of Nelson. It was stated by Mr. Starkey that about 11,000 pounds of cream came from the Slocan branch in the month of May and 4000 and odd in the month of March. According to a statement filed by the Curlew Creamery company, the amount of cream actually received from the Slocan branch for nine months, July, 1920, to March, 1921, was 39,425 pounds. It appeared, however, that practically the whole of this cream came from the Crescent dairy, which is about 2½ miles from South Slocan. They have a truck and sometimes deliver the cream themselves, and, as there is a daily train from South Slocan to Nelson on the main line, in my opinion a reduction in this train would not be a very great hardship to that particular industry.

"Other than this, I was unable to obtain any evidence against the application based upon business conditions, except, of course, the natural resentment of al the people of the curtailment of railway accommodation.

"Therefore, considering the financial position of the road and the small amount of actual business inconvenience which will be caused by the change, I think the decision of this board should be reversed, and an order should issue allowing the C. P. R. Co. to reduce the Slocan-to-Nelson service to three times a week until further order."

REPRESS FAKE PROPAGANDA.

PARIS, Aug. 5.—Repression of "false" propaganda circulated by steamship companies for the purpose of stimulating immigration is demanded by a resolution adopted by the international immigration commission of the League of Nations in session at Geneva, says a Havas dispatch from that city.

The resolution also calls for more stri regulations of agencies dealing with emigrants.

SECURE DATA ON RATE EQUALIZING

Commissioner Starkey and Board of Trade Will Aid; Ask Nelson Sitting.

Data relating to Kootenay manufactures, the present markets in which they are sold, and the possible markets in which they might compete if British Columbia freight rates were on the same basis as those of the prairie, will be secured by the freight and transportation committee of the Nelson board of trade, and Fred A. Starkey, commissioner of the Associated Boards of Trade of Eastern British Columbia, acting in collaboration. Mr. Starkey will send out questionnaires to the industries in the district at large, and the freight and tarnsportation committee will distribute them to all the large shippers of Nelson. This line of action was decided at a joint meeting held last night, over which G. A. Brown, chairman of the freight and transportation committee, presided, the others present being Mr. Starkey, W. M. Walker and E. W. Widdowson.

This information, when secured, will be supplied to G. G. McGeer, the special counsel retained by the province to submit the province's case for equalization with the prairie, to the railway commission, Mr. McGeer having asked for this assistance.

The railway commission, which, at the sitting here in the spring, claimed it must have the British Columbia case complete by the middle of July, has now advised Mr. McGeer that it will hold a session at the coast, probably as late as October. Mr. McGeer, in a letter to Commissioner Starkey, just received, asks whether a separate session here would be desirable, and Mr. Starkey in replying, is urging that the commission be advised to take this course.

LACROSSE SENIORS AND INTERMEDIATES MIX

A lacrosse match between two city teams is called for tomorrow morning at 10 o'clock. Manager Joe Hawkins is of the opinion that he can cull out an intermediate team of young bloods that will be able to whip the seniors into a cocked hat. He has 10 youngsters that are game to try anyway and Manager Joe believes that by the time he has sicked the intermediates on to the seniors twice a week for the next two weeks he will have at least one team that can stem the run of victories that has attended the Rossland-Trail team's career this year.

Who the intermediates are is not known, but they will face off the following lineup of seniors: Goal, A. A. Perrier; point, A. Flumerfelt; coverpoint, A. Williamson; first defense, G. Benwell; second defense, E. Murphy; center, J. Curran; second home, L. McKinnon; first home, W. Ferguson; outside home, N. Richardson; inside home, H. Ferguson.

JULY ENDS WITH HEAVY RECEIPTS

Nearly Thirteen Tons of Ore Taken by Trail in Final Ten Days.

Receipts at the Trail smelter for the last 10 days of July amounted to 12,761 tons of ore, of which 12,496 tons was from properties of the Consolidated Mining & Smelting company of Canada, 231 was from the Surprise mine of the Republic camp, and 34 was from the Sally mine at Beaverdell.

With these figures, the total receipts at Trail for the current year rise to 243,143 tons.

The receipts in detail are as follows:

OLD FRIENDS BURY EARLY RESIDENT

Body of Late Charles West Receives Fitting Honors; Military Rites

War artist, Kootenay old-timer, earliest rancher on the West Arm, the late Charles W. West, received fitting honors yesterday, his body being laid to rest in the Nelson city cemetery, in the presence of many Nelson old-timers, members of the G. W. V. A., a large number of residents of Willow Point, and a few friends from Trail.

A funeral service took place at Trail early in the morning, the Trail G. W. V. A. providing an escort to the station. When the train arrived here at 9:50 o'clock, an escort from the Nelson G. W. V. A. met it, and formed part of the cortege, marching with arms reversed. The pallbearers were J. J. Campbell and E. H. H. Applewhaite, Willow Point; H. Selous and George Johnstone, Nelson; M. S. Davys, Kaslo, and T. Munro Cairns, Trail.

Ven. Archdeacon Graham, rector of St. Saviour's church, officiated at the grave, intoning the beautiful burial service of the Angelican church. At its conclusion, the rifles of the G. W. V. A. firing party, under Stanley Bostock, rang out with the soldier's tribute of three volleys, and Bugler Fred Hartwig sounded the Last Post.

Floral offerings were received from Mr. and Mrs. Kenneth Metcalf, Mr. and Mrs. M. S. Davys, Mr. and Mrs. James Campbell, Mr. and Mrs. William Rutherford, Mr. and Mrs. C. Holmberg, Mrs. G. G. Dickson, Mr. and Mrs. Thomas Airey, Mr. and Mrs. H. A. Masters, Mr. and Mrs. J. J. Campbell, Mr. and Mrs. E. H. H. Applewhaite, Mr. and Mrs. T. Munro Cairns, the Trail G. W. V. A. Ladies' Auxiliary, the mechanical and electrical staff of the Consolidated Mining & Smelting company of Canada, Mr. and Mrs. T. A. Mills, of Trail

MOTHERS

WATCH YOUR TEETHING BABIES

THOUSANDS OF THEM DIE EVERY SUMMER

When the baby starts to cut its teeth, then is the time the poor mother is under the stress of great anxiety. The child's bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints manifest themselves; the gums become swollen, cankers form in the mouth, any in many cases the child wastes to a shadow, and very often the termination is fatal.

On the first indication of any looseness of the bowels, give a few doses of

DR. FOWLER'S
EXTRACT OF
WILD STRAWBERRY

and thus, perhaps, save your baby's life.

For the past 76 years "Dr. Fowler's" has been used by mothers for teething babies so you do not experiment with a new and untried remedy which might be dangerous to your darling's health.

Price 50c. a bottle; put up by The T. Millburn Co., Limited, Toronto, Ont.

LEAVE FOR SOCCER PICNIC TOMORROW

For once at peace with all the world and dressed like white men, between 50 and 60 members of the Nelson senior football club, their wives, families, and it is whispered lady friends, will leave on the Crow boat tomorrow morning for Proctor for the "soccer" picnic. They are due to spend the day at Proctor, on the beach, on the lake with line and reel, propping up the goal posts, or it may be chasing the elusive sphere around the main streets of the outlet city. Races are to be run, too, mostly, be it said, by the ladies of the party and the children. Dinner and supper is also to be one of the features of the affair, with Referee Draper to superintend the cutting up. The whole lineup is due to return to the city in the evening. The kickoff is called for 6:30 o'clock.

MOVIE FIRE THREATENS TOWN

SAN DIEGO, Aug. 5.—Fire which started in a a theater in which a film of the Dempsey-Carpentier fight was being shown tonight threatened to destroy the town of Ti Juana, Mexico, 18 miles from here. Government and municipal officers were destroyed before the fire was controlled. Damage is estimated at $100,000.

Please Send Us Money Is Red Russia's Appeal to Capitalist Countries

Before the war Russia was one of the great wheat producing countries of the world. It raised enough grain to feed its hundreds of millions of population and to export supplies sufficient to feed half of Europe besides.

Today Russians are starving. The Soviet government says that the famine is confined to a small area, but the fact that the rest of Russia cannot feed the sufferers and that foreign peoples are being pleaded with for donations gives the lie to the claim that the famine is not serious.

Once more it is driven home to the Russian people and the rest of the world that socialistic theories when put into practice are as lacking in nourishment as they are helpless in the management of industry.

Britain Slices Another Half Billion Off Debt.

A reduction of over £130,000,000 in the debt owed by Great Britain to eight foreign countries, including the United States, is indicated by returns of the British treasury, covering foreign fiscal operations in the financial year ending March 31 last. The amount repaid in the United States was more than half of the total repayments.

The detailed figures disclose the individual reductions to have been as follows (calculated at par of sterling or as collateral given):

	Debt reduction 1920-21
United States—	
Demand notes	£ 3,292,000
Other debt	70,778,000
Canada	20,080,000
Japan	7,170,000
Argentina	19,200,000
Uruguay	5,954,000
Holland	743,000
Spain	2,500,000
Fiji	434,000

Offsetting this reduction there was an increase of £13,000,000 in the loans of other allied governments to Great Britain, leaving a net reduction during 1921 of British debt owed abroad of £117,151,000.

A reduction of half a billion dollars in debt is a performance worth while.

Here's An Idea for City Fathers.

Winnipeg has imposed a dollar a year license on cats and thereby raised new and vexing questions.

But what privileges does the license carry? Does it give the unfeathered songster the right to mount the backyard fence at midnight and fill the air with music? Will the boots and language hurled in his general direction by men who claim the right to sleep be in defiance of the city statute?

All attempts at producing revenue may be more or less justified at times of financial crises. But anything that gives the midnight cat an official standing in the community must be viewed with suspicion almost amounting to alarm.

What the Press Is Saying

The Trouble With the Dollar.

Each month the dollar is worth a little more; but the trouble is that each month its seems to be a little harder to get.—St. Paul Pioneer Press.

Defense Not Defiance.

The British determination to continue the construction of capital ships has an especial significance in view of the coming conference at Washington. It proves that the English government not only considers that the capital ship is still necessary to an up-to-date navy, but that it holds equally firm to the belief that the British Empire will need a modern navy for some time to come—Boston Transcript.

Efficient Housekeeping

BY Laura A. Kirkman

A SUNDAY NIGHT TEA

A good home Sunday Night Tea is the following:

Deviled Tomato on Toast
Tiny One-Egg Muffins
Iced Cocoa Angel Food Cake
Peach Mousse

Deviled Tomato on Toast: Turn 1 can of tomatoes into the top of a double boiler and let heat, then add ½ onion grated, 2 tablespoons of melted butter, 1½ teaspoon salt, 1 tablespoon sugar and 3 eggs which have been well beaten but not seperated. Stir prepare two pieces of toast for every until the eggs have thickened the mixture slightly, then turn it into a covered vegetable dish or tureen. Previous- person to be served, and place these pieces on a platter on the supper table alongside the covered dish containing the deviled tomato. Have a pile of empty plates before you. To serve each person, take up a piece of the toast with your fork, dip it into the tomato in the tureen, turning it over in the liquid so that it will become well moistened, then place it on an empty plate with the fork; pour a ladle of the liquid over this moistened piece of toast and serve. The extra pieces of toast will remain on the platter until each person is ready for a second helping, when he will pass up his empty plate and be served as before.

Angel Food Cake: Beat the whites of 8 eggs until frothy; add to them 1 teaspoon cream of tartar and continue beating until stiff, then add 1 cup of sugar very gradually, beating constantly. Mix together ¾ cup of flour and 1-3 teaspoon salt and fold these into the egg-whites. Last add ¾ teaspoon of vanilla and turn into an unbuttered angel cake pan. Bake 45 minutes (possibly 50) in a moderate oven. After it has risen and begins to brown, cover it with a buttered piece of paper.

Peach Mousse: Dissolve 1 tablespoon of gelatine in ¼ cup of cold water. Heat it with ¾ cup of powdered sugar until dissolved. Then cool the mixture and strain it into 2 cups of stiffly-whipped cream. Beat in 2 cups of raw peach pulp. turn into wet mold, and pack the mold in equal parts of ice and salt, allowing it to stand in this way from 3 to 4 hours.

Devils Food Cake is also delicious to serve with the mousse. To make this cake cream ½ cup butter and add gradually 1 cup of sugar. Beat the yolks of 4 eggs until thick and add to them another cup of sugar. Now combine these two separate mixtures in a medium-size mixing bowl and add to the bowl alternately 1 cup of sweet milk and 1 2-3 cups of flour which has been sifted with 5 teaspoons of baking powder and ¼ teaspoon of salt. Add the whites of 4 eggs beaten stiff, 4 squares of unsweetened chocolate melted, and ¾ teaspoon of vanilla. Turn into an angel cake pan and bake 50 minutes in a modearte oven.

It is desired to serve sandwiches instead of the muffins called for in the above menu, the following are a good choice:

Sandwiches: Cook until thick ½ cup each of chopped seedless raisins and chopped walnuts, 1-3 cup of sugar, and ½ cup of boiling water, then flavor with 1 tablespoon of lemon juice ora few drops of lemon extract. When it cools it is ready to spread on the bread.

American Cheese Sandwiches: Cut crusts from thin, stale pieces of white bread and place between each two slices thinly-sliced mild American cheese, sprinkling the cheese with salt and cayenne to suit liking. Saute these sandwiches in a frying pan in butter until delicately browned on both sides. This melts the cheese slightly and makes a delicious sandwich.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

The Lighter Side

Rents won't come down until buildings go up.

—o—

It is usually a mistrial if it is a trial of a Miss.

—o—

If an excuse sounds too darned reasonable, it is usually a lie.

—o—

The sooner Heinie toes the mark, the sooner the world will heel the breach.

—o—

Most of the road accidents are occasioned by an admixture of gasoline and solid ivory.

—o—

There are two classes of men: those who don't expect something for nothing, and suckers.

—o—

The Greeks may not be able to beat the Turks, but they are the only people on earth who can polish an apple until it looks like ten cents worth.

—o—

The fact may not be significant, but you have never seen a bald-headed man who was a scrapper.

—o—

Civilized peoples: Those that tax themselves heavily to provide weapons to destroy civilization.

—o—

The motorist has learned to carry a few spare tires. The pedestrian must learn to carry a few spare-ribs.

—o—

About the only consoling feature in the general mess of things is the fact that His mercy endureth forever.

—o—

The reason some men manage to get along without working is because of that other kind is born every minute.

The idea of two hearts beating as one is romantic, but unfortunately two mouths can't eat as one.

—o—

In a small town an important citizen is one who has eight or ten thousand dollars invested in first mortages.

—o—

It is difficult to decide which has received greater benefit from modern styles, the jokesmith or the mosquitoes.

—o—

The successful man who scorns publicity always has a few spare photographs of himself when the reporter calls.

—o—

All nations struggle to win foreign markets; and then the winner is a "sinister menace to the peace of the world."

—o—

Another advantage enjoyed by the married woman is that her husband keeps her posted concerning all the new gossip.

—o—

General Dawe's musical composition is called "Melody in A Major." It must have been written before he reduce batting averages, also.

—o—

A clergyman says a return to the old-fashioned ball would reduce immorality. A return to the old-fashioned emery ball would doubtless reduce batting averages.

Daily Recipe

CHEESE FRITTERS

(Paste this in your Cook Book)

One-quarter pint water, half ounce butter, one and a half ounces flour, one ounce cheese, two eggs, pepper, salt and cayenne.

Boil water and butter in pan, remove from fire and sprinkle in flour. Stir quickly over fire till boiling. Boil 3 to 4 minutes. Cool and add yolks of egg. Beat well, add grated cheese and seasonings. Beat whites of egg till stiff and fold in lightly. When the mixture is cold, drop in teaspoonfuls into smoking hot fat. Fry till golden brown and serve immediately.

Twenty Years Ago Today

(From the Tribune, August 7, 1901.)

A move in what promises to be a big mining suit will be made at Vancouver on Tuesday, when the Star Mining & Milling company as the owners of the Hebe fractional and Rabbit Paw mining claims will apply to the courts for an injunction restraining the Slocan Star Mining company from mining certain ore which, it is claimed, belongs to the plaintiff company.

* * *

M. S. Davys, who was formerly superintendent of the Silver King mine, is at present serving as consulting engineer for the Hewitt mine in the Slocan, in the place of Trafford Wynn, who is at present on a trip of inspection to mining properties in South Africa.

* * *

R. M. Macdonald yesterday applied to Judge Forin for letters of administration to issue to John Mackenzie in the estate of his son, Alexander Mackenzie of Kaslo, who died intestate. The estate was returned as valued at $525. The order for administration was made.

* * *

H. J. Evans, doing business as H. J. Evans & Co., has decided to close out at Nelson and move to Vancouver. Mr. Evans began business in Nelson about five years ago as a wholesale liquor and commission merchant.

* * *

Nelson people who like baseball as a game will remember Kelly of the Spokane team who, played here last summer. An effort was made to secure Kelly for Nelson, but Spokane evidently made a more attractive offer and he was installed as manager of the Spokane team.

* * *

R. A. C. McNally, the Rossland mining machinery man, is at the Phair.

* * *

A. T. Garland, the Kaslo merchant, and Miss Harris, daughter of Mrs. Jennie Harris of Kaslo, are to be married at the Hume hotel, August 10.

CURIOUS FISH

The swell fishes of tropic coast waters have the power of suddenly inflating the body with water or air until they assume an approximately globular form several times the normal diameter, which must be discerting to any enemy about to seize one, The porcupine fish, in addition to doing this, has the body everywhere covered with long, sharp pines which project in every direction like the quills of a hedgehog. The trunk fishes, instead of being protected in this way, have the body encased in a bony shell, like a turtle In the East Indies there are rectangular species, but our are all three-conered, beechnut shaped. They go by various names—cuckold, shellfish, and so forth, the cowfish being a species with two hornlike spines projecting from its forehead. They are excellent eating, cooked in the shell like a lobster. The back muscles of the swell fishes are sometimes eaten, but make a risky delicacy, as there are well authenticated instances of severe poisoning from eating these fishes. The poison seems to be localized in the viscera and to permeate the rest of the fish after death.

Styles

BY LENORE

What to wear that part of the season when the Summer is not quite ended and Autumn not yet begun, may be solved by a frock of Canton crepe, crepe meteor, or crepe de chine. The color may be black, dark blue or brown. A most satisfactory design for the purpose is the model shown today, with its pretty lattice work on the bodice. This is a very new and individual note that is borrowed from advance fall suggestions. The undervest and inner cuffs are of chenille dotted Georgette, ecru, with spots to match the color of the frock, and the edges are picot edged, or they may be delicately finished with a binding of the silk.

Another attractive plan for this frock is a combination of serge and silk, preferably navy blue, with vest in cherry red, henna, castor, gray or white. And there are many arguments in favor of using two or three vests in one's favorite colors.

PATTERN NO. 226

A pattern for the above model (No. 226) can be obtained in sizes 34, 36 or or 40, by sending to The Daily News, Nelson, B. C., your name, address, the number of this pattern and the size required, and 25 cents in postage stamps. Be sure to keep this newspaper clipping of the sketch and description of the garment to use as a working model when the pattern reaches you—which will be within two weeks' time.—The Editor.

Told in Rhyme

There Shall Be No More Sea.

There shall be no more sea!
Then presently
We shall turn listless eyes
On Paradise,
And carelessly behold
Jasper and beaten gold,
Aimlessly up and down
The streets of God's tall town
That was not built by hands,
Throughout untroubled lands
Where glassly rivers flow.
Our restless feet will go;
And to the crystal walls,
Whence the sight falls
And falters in the bright
Incredible light,
We shall come wistfully
Straining our eyes to see,
Wonderfully small and far,
How shall we sing

Our sea-enameled star.
God's praises, wearying
For the wind and the fog and the brave
Thunder of wave upon wave,
For salt upon our lips
For sound and sight
And the excellent beauty of ships
Of all our old delight?

God, whom our fathers wrought
Out of their travailing thought,
Deal with us generously—
Give us our sea!

—Anne Atwood Dodge.

REVIVE DOLLY VARDEN

ALICE ARM — Preparations are now in full swing for resumption of active mining operations at the famous Dolly Varden mine, which has been idle since last December. The railway is being re-opened and the trains are being prepared to again take up their runs between the mine and wharf, a distance of 18 miles.

FOSTER'S WEEKLY WEATHER BULLETIN

WASHINGTON, August 6. — The drouth that has struck eastern Canada, particularly Quebec, Labrador and *some spots east of great lakes in* America, is the same drouth that has ruined parts of northerwestern Europe, including Great Britain and parts of France and Russia. I was not sure the drouth would reach eastern parts of this continent and therefore did not include the latter in my drouth forecasts, but the drouth for western Europe was well advertised. I expect August to be the most disastrous month of that great drouth and that the drouth will end during the week centering on Oct. 1. The strange thing about these drouths is that the same planetary forces that cause the drouths on land also cause the evaporations of sea water that waters the land where the drouth does not exist. The north Atlantic high barometer has great influence in carrying that moisture — this season — but, strange fact, the Moon causes that great, so-called high shift to north and south in an apparent irregular way. This last great discovery was made by an eminent French astronomor. A lack of means has prevented the complete working out of this drouth knowledge.

Following some lower than usual temperatures a storm center will push a great high temperature wave southward and it will cover Alaska, northern Rockies, northern Pacific slope and northern plains section. Generally warmer weather always precedes the eastward movement of these storm centers and this one, as it moves southeastward, will cross meridian 90 near Aug. 14 and will reach Atlantic coast near 17. Temperatures of this storm period will average near normal but, for lack of severe storms, rainfall will be deficient. Mexico, west of the Rockies, seems to be most favored. First half of September promises severe storms and an increase of rains which, in a large part of this continent, will be favorable to sowing winter grain. At least two-thirds of the winter wheat lands of North America will produce good winter count of dry weather the coming fall or during next year's crop-season. I cannot give full details for every locality through these bulletins I can say, however that the demand will be unusually great because of failures in other countries.

Foster's aphorisms: Guessing at cropweather causes greater financial losses than wars The Moon makes and locates our tides; why should it not also our temperatures, rains, drouths? If the moon, through its electro-magnetism, affects our tides and weather why should not the planets have similar effects?x Great astronomers say that Venus affects our tides by affecting the Moon's motion; why should Jupiter and other planets not have similar effects? Jupiter is 1400 times larger and Venus a little smaller than the earth.

In that great grain crop of 1922 some farmers will find fat pocketbooks. Whoever holds the agricultural land will rule the government of this continent Go slow in swapping your farm for one in some other section or country. In all sections of this country crops of the next twenty-five years will average about the same as for the past ewenty-five years. For 1922 cropweather the moisture will come from east of Cuba. South America will get a drouth during our Summer and their winter of 1922. North Africa will get a drouth dur? ing early part of its 192 cropseason.

Ten Years Ago Today

From The Daily News, Aug. 7, 1911

Within two weeks 500 men will be at work grading the new C. P. R. spur from Three Forks to the Lucky Jim mine, said W. P. Tierney, railroad contractor, at the Strathcona last night.

* * *

John Keen of Kaslo will be the returning office for this district for the Dominion election on September 21, according to an unofficial statement given out last night.

* * *

Mr. and Mrs. H. C. Mall left for Victoria on Saturday night.

* * *

H. C. Hopgood of Salmo is at the Hume.

* * *

W. J. McKim of Fairview on Saturday purchased from C. F. McHardy of Crescent Valley a carload of livestock, consisting of a pure bred bull and a number of milk cows.

LOOKS FOR WHEAT FIELDS

SASKATOON,—Paul D. Sheridan O'Leary, of San Sebastian, Nicaragua, who passed through here recently, said he had been commissioned by South American capitalists to inquire into and report fully upon a proposal to produce wheat on an extensive scale in western Canada, areas that will probably aggregate 30,000 acres or more.

Mr. Sheridan said that his principals had come to the conclusion that raising the staple product of wheat is worth trying. "But they first want certain data," he continued. You see these people, practically all of us in Central America, and the adjoining portions of South America are in coffee and sugar extensively. The bottom has suddenly dropped out of the sugar and coffee. Coffee that was bringing 15 cents at the wharf now has dropped to about 2½ cents; sugar which was bringing 20 cents at the wharf has dropped to about 3 cents.

"New fields of enterprise look inviting to these South American capitalists. They have been so greatly impressed by Canada that they mean to have a try at it. They propose to work upon organized lines a very considerable wheat growing project, buying the land, certainly, but organizing the development upon an extensive scale that perhaps is more frequently observed in Southern American than in Western Canada."

Mr. Sheridan said that his chief trouble up to now was that the practical farmers he had met in this country did not keep costs. He said they could not tell him what it costs them to produce an acre of wheat. He expects the big agricultural colleges in the west to furnish him that data.

MILES AND MILES OF LITERATURE

OTTAWA,—During 1920 the publications branch of the department of agriculture circulated 2,262,850 publications. This total was made up of 15,719 reports, 234,314 bulletins, 712,911 seasonable hints 117,629 pamphlets, 168,155 circulars, 27,058 leaflets, 922,316 announcements and 64,745 agriculture Gazettes in addition to posters and mailing lists.

This mass of matter, supposing each publication numbered 20 pages, says a statement issued from the agriculture department, would if the pages were placed end on end reach 5,700 miles, and in close formation would cover an area of 360 acres. Agriculture literature is distributed to some 222,000 persons and is printed in both English and French.

Plant B. C. Grown Trees Only

THE BRITISH COLUMBIA NURSERIES CO., LIMITED, have by careful and efficient management built up a large business during the past ten years, and are now the largest growers of nursery stock in Western Canada.

A large assortment of very fine fruit trees and small fruit plants are now growing in our nurseries at Sardis, which are being offered to planters at very reasonable prices.

The quality of these trees and plants are of high order, being propagated from specially selected trees of known productiveness.

We are growing a very fine lot of roses of leading varieties which have bloomed this season in the nurseries and will give good results when transplanted into your garden or lawn.

We invite correspondence from intending planters and urge the placing of orders early in the season.

CRESTON NOTES

CRESTON, Aug. 4.—Miss Alice Carr of the telephone central staff is back on duty again after a two weeks' holiday with friends at Nelson and Yahk.

E. L. T. Taylor left on Sunday for Palliser, B. C., where he will take in the annual camp of the Alpine club at that point.

Gerald Timmons and Art Bruce are visitors with Spokane friends a few days this week.

Mrs. Swanson and her guest, Mrs. Gladder of Spokane, along with Mr. and Mrs. Cook, were week-end guests of Mr. and Mrs. Loasby at Sirdar.

Mrs. Coffey of Fernie is a visitor with Creston friends at present and is a guest of Mrs. George Johnson.

Ollie Harris, who has spent the past month on his claihs in the Ainsworth section, spent a few days in town this week.

Ted Mawson got away on Monday to Regina, Sask., and will spent the next few mnoths helping with the Saskatchewan harvest and threshing.

Mr. Brousson left the latter part of the week to spend part of August with friends at Winnipeg and other Manitoba points.

Nurse Amy Ebbutt of Lethbridge, Alta., arrived on Sunday for a month's holiday with her parents, Mr and Mrs P. G. Ebbutt.

Miss Phyllis Lyne is home from Corvallis, Ore., where she has just completed a successful four-year course in the state agricultural college in that city.

F. Wells arrived from Lethbridge, Alta., on Monday and has taken charge of the old Hatfield barber shop.

E. A. Vachon got away on Monday to Salmo, to which point he has been transferred to take charge of provincial police work. His successor, H. McLaren of Salmo, arrived also on Monday to take charge of his new post at Creston.

Miss Lily Barner has just returned froma two weeks' holiday visit with friends at Kitchener.

LISTER NOTES

LISTER, Aug. 4.—James Jory has moved his gang of workmen over to the Charles Davis place on section 7, whose house is to be completed right away.

A meeting of the settlers of the district was held in the schoolhouse on Saturday night, with Robert Milner occupying the chair. The session was taken up with a discussion of the terms of the agreement of sale which will be submitted to Hon. E. D. Barrow for approval, on the occasion of his visit here this week.

William Hurl is unanimously conceded to have won first place as a grower of feed. He has four acres sown to oats, peas and alsike clover and is harvesting a crop that will run eight tons to the acre. In places some of it measured five feet high. Mr. Hurl's place is about the lowest-lying lot in the area and, with an abundance of moisture, careful planting and cultivation, the crop is well deserved. Previous to coming here Mr Hurl had much farming experience in Saskatchewan.

C. H. Phillips is a business visitor at Kimberley this week. Peter McKay is also away on a business trip to the same point.

Dave Fraser is busy on the erection of a one-room log shack on his location here.

Cutting the oat crop for green feed is the feature of farm operations at present. A couple of outside parties are here with teams and mowers cutting on the percentage basis.

Harry Brown is away on a trip to Palouse county, Washington, where he is working at harvesting operations. He states there are more than enough men there now to take care of all the work offering.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

TRY A CLASSIFIED AD.

NEW FINNY TRIBE INVADES KOOTENAY

Small Mouth Black Bass Appear; Strawberries Over; Kuskanook Calls.

CRESTON, Aug. 4.—C. H. Robinson of Nelson, the Dominion fishery inspector for the Kootenay country, was here on an official visit on Tuesday and made a most interesting discovery during his stay. The local Indians, who are the only ones who fish the Kootenay river, have just begun to make catches of small-mouth black bass, the first time in the history of the stream that this species of the finny tribe have been taken. These have apparently found their way downstream from Bonners Ferry, Idaho, at which point several thousand bass fry were deposited about five years ago. Some samples of bass as heavy as two pounds have lately been offered for sale in town by the Indians. Mr. Robinson finds that the fishery laws are well observed in this district, about the only complaints being heard as to some fishermen bringing home trout smaller than the law prescribes, eight inches.

Raspberry shipping will about finish this week and, on the whole, the export of this fruit should be well up to the average. While July has been dry it has been no worse than the same month in other years, and in spite of the lack of showers berries on areas that have been well fertilized have shown exceptionally fine yields in every case. While prices will likely be quite satisfactory the market has suffered the past ten days, due to selling agencies at Armstrong and Salman Arm shipping to prairie points on consignment, which broke the otherwise excellent market rather badly for a time.

J. A. Bryan, who closed up the Creston cafe about three months ago in order to take the position of cook at the sawmill boarding house at Lister, moved back to town early in the week, the mill having shut down a few days ago. There is a stock of almost 250,000 feet piled up, which will take care of soldier settlement building operations for some time to come.

The eastbound train stops that have been made at Reed & Mather's and the Smith crossing at Alice Siding since the middle of June, to expedite fruit shipping at points between Creston and Wynndel, were cut out on Tuesday, and the ranchers in that area now have to drive to town with express shipments. At the two points the loading has averaged at least 100 crates a day, practically all strawberries and raspberries.

Mr. Asher, Creston's photographer, who is supplying the Methodist pulpit for six weeks during the holiday of Pastor Knox, introduced something novel in connection with his address on Sunday night, preaching from a text tha tthe Young People's society had selected, and which was only handed him as he entered the pulpit to take the service that same evening.

Any auto owner who can not be located on Wednesday afternoons or Sundays is most likely to be found at Kuskanook this summer. With the new road and wharf complete Kuskanook is providing a great picnic and fishing spot, no less than 30 Creston citizens alone spending last Sabbath there, and an average of three tourist autos being loaded westbound every day in the week.

After an absence from the homeland for at least 30 years, Alex. Duperry left this week for an extended visit with former day friends at several points in Switzerland. In the past quarter century Mr. Duberry has developed 80 acres of logged-off land which originally cost him less than $500, and has sold it in orchard tracts more or less fully planted for a total sale was a couple of months ago, when Frank Celli of Coleman, Alta., purchased 23 acres at a price in the neighborhood of $17,000.

NEW POLICE OFFICER MAKES SMART DEBUT

CRESTON, Aug 4.—Provincial Police Officer H. McLaren, who only took over the work here on Monday, made quite a clever capture at the eastbound train today, when on rather meagre information on which to identify suspects supplied by the Nelson police, he nabbed Harvey Long and Melville Orsen, who are wanted at Nelson for the theft of a gold watch and chain. The pair stepped off the train here and proceeded to the Chinese restaurant for dinner, Mr. McLaren following them and taking them into custody when they had completed the noonday repast. When searched the missing watch and chain, valued at $100, was found in the top coat pocket of one of the men. The pair were taken back to Nelson this afternoon by officer McLaren.

CASTLEGAR NOTES

CASTLEGAR, Aug. 5.—Miss Helen Hay is visiting friends in Trail for a time.

Donald Pratt, who has been visiting friends in Crescent Valley, returned home today.

Mrs. John Lawson was the hostess at a party given last evening at her home. The evening was spent in card playing and music. About 11 o'clock dainty refreshments were served and the party broke up soon after, every one having spent a most enjoyable evening.

S. S. McDiarmid and his surveying party are now surveying at Syringa creek and vicinity.

Misses Rosie and Irene Hebert returned home today after spending the week with friends at Crescent Valley.

Mrs. Fogarty of Nelson is visiting friends here for a time.

Captain James Davidson, the ferryman, reports that a large number of cars and passengers have crossed on the ferry during the past month. He has been kept quite busy, both day and night. The numbers of tourists are increasing.

SLOCAN CITY NOTES

SLOCAN CITY, Aug. 5.—Miss Marjory Pendry of New Denver is spending a few days holidaying with friends in town.

H. L. Fife and J. T. Tipping motored to Nelson on Thursday with Patrick Maguire.

George S. Henderson motored in from Castlegar on Thursday evening.

Miss Mildred Manhart returned home from Trail on Wednesday, where she ha sspent a portion of her holidays with relatives.

Mrs. George Long went up to the Lilly B. Mine on Thursday for a ten days' outing. Mr. Long and partners are doing development work on the property.

Miss Orpha Manhart left on Wednesday to visit relatives in Trail for a few weeks.

All the available men of the place have been taken out to the Little Slocan to fight fire.

Harold Russel was a recent visitor to Nelson.

WINNIPEG COURSE FOR CHAMPIONSHIP

Anticipate Record Entries for Event; Many Notable Golfers Will Compete.

WINNIPEG, Aug. 5.—(By Canadian Press).—That the Canadian amateur golf championship to be held over the course of the Winnipeg Club during the week commencing August 22, will have a record entry, is the opinion of President Middlemass of the Manitoba golf association, who is in charge of affairs at this end. Most of the prominent golfers of Canada and many noted players from the United States, will take part in what should be one of the greatest fields that ever started out for the Canadian championship. Entries will close at noon on Friday, Aug. 19, and the draw made for the opening event of that afternoon. Among the notables who may be present is "Chick" Evans of Chicago, United States champion, he has been invited, but has not stated definitely yet whether or not he will be able to be presen.

Noted Players to Compete

George C. Lyon, the veteran Toronto player and ex-champion, will be here, and G. B. Grier of Montreal, the present champion, will be here to defend his title, while Marcus Greer, of Grandmere, Que., will also be present. The three Thompson brothers from Toronto and Matt Thompson, of Winnipeg, have signified their intention of competing. The Hamilton club will also send representatives. The fact that the event is held in the west has created unusual interest in western cities, as there will be seven or eight entries from Saskatoon, 6 from Regina and 5 to 20 from Calgary, while several from Edmonton have promised to attend. Nothing definite has been heard from the coast cities as yet. From Duluth there will be eight to 10 and about the same from Minneapolis. One entry has been received from Seattle.

Contestants must play with standard balls and it is possible the balls will be weighed. Clubs will not be barred.

AUSTRALIANS WIN TENNIS DOUBLES

British Win Two of First Three, But Antipodeans Corral Next Two.

PITTSBURG, Aug. 5. — Australia took the lead in the Davis Cup tennis matches today by winning the doubles on the grass courts of the Allegheny Country club, 4-6, 9-7, 4-6, 6-2, 6-4.

Todd and Anderson represented Australia and Turnbull and Woosman represented Great Britain. The play today gives the Australians their position because they were the stronger team in the last two sets. After the British had taken the lead, two sets to one, the Australians were able to win three sets out of five.

REGINA RACING

REGINA, Aug. 5.—Despite the fact that the track was slow and mushy, the harness and running race horses made this afternoon pleasant for a big crowd of spectators, who looked on as the racing program was completed, all except the free for all. The big race was not started as the drivers did not want to put their valuable horses on the slippery and uncertain footing.

Summary

2:24 trot, purse $800. Minor Direct won; Sysler Bellmar, second; Sonoma Harvester, third. Time, 2:19¼.

2:20 pace, purse $500, (Consolation). Zena Gano, won; Nellie, J., second; Miss Ethel, third. Time, 2:24½.

Seven furlongs running purse $300, Kakimine, won; Prairie, second; Belle of the Kitchen, third. Time, 1.38.

One mile running, purse $250. Belle Benmore, second; Bill Deitchman, of the Kitchen, won; Benmore, second; Bill Deithchman, third. Time, 1:54.

Four and a half furlongs running, purse $250. Welga, won; Veneta, second; Clover Leaf Filly, third. Time, 1:02.

NEW YORK, Aug. 5. — Tentative plans for the proposed world's heavyweight bout between Jack Dempsey and Jess Willard were discussed today by Tex Richard, promoter, and Ray Archer, Willard's manager. Another meeting was arranged for next week.

HILLCREST-CROWS NEST BALL GAMES

Double Header at Wycliffe and Cranbrook Leaves the Honors Divided.

CRANBROOK, July 30.—Hillcrest, Alta., playing a picked team from the Crows Nest Pass league, defeated the Wycliffe-Cranbrook nine here this evening, 6-1. The visitors crossed the plate four times in the ninth, but as the game was called in that inning the score reverted to the eighth.

Pendergast hurled a fine game for the miners, striking out 13 in eight innings. Clemie proved to be the Hillcrest "Babe," making a homer and a three-bagger. Adamson, for the home taem, played his position well at third, picking up several hot ones off the infield and doing fine work behind the bat when Catcher McTeer twisted an ankle sliding home, his injury putting him out for the remainder of the game.

Batteries—Pendergast and Clark; Bamford, McTeer and Adamson.

Umpires—McIntyre, Burgess, Seaman (bases).

Hillcrest had the tables turned on them here today, to the tune of an 8-2 score in favor of the locals. Classy pitching by Ault, who allowed but few hits, and those of the scratchiest variety, coupled with consistent hitting by the entire team, was largely responsible for the victory. In this as in the evening game, the team work of the local squad proved a great advantage over the visitors. Three double plays in four innings of today's games with a far greater number of assists to their credit in both games, showed their superiority in this respect.

Mulholland, Hillcrest's expert southpaw, was hit hard in the third and was pulled after Crerar's perfect sacrifice had brought in one run and McTeer's double accounted for two more. Pendergast, who replaced Mulholland, was hit as hard in the fourth, Crerar's double bringing in two more with McTeer following up with his second two-base hit and scoring another run. Two more runners crossed the plate in the fifth, making a total of eight. Hillcrest scored their first run in the initial inning, Hughes doubling and coming home from second on Odell's two-bagger. Their second and last run was scored by Pendergast in the third, who made the trip from third base on a pass ball and a wild peg. The visitors played fine ball in the last three innings in an effort to score, but failed to work in another run.

With the score 8-2 the game was called at the end of the eighth to enable the Hillcrest team to make the road trip to Cranbrook in time to catch the eastbound train. Both of these games were well attended and the gate was very satisfactory. It was good ball and well worth watching on both occasions, the only marring incidents being two rather hot disputes with the umps—one for each game.

Batteries—Mulholland and Brown; Pendergast and Clark, Musser, Ault and McTeer.

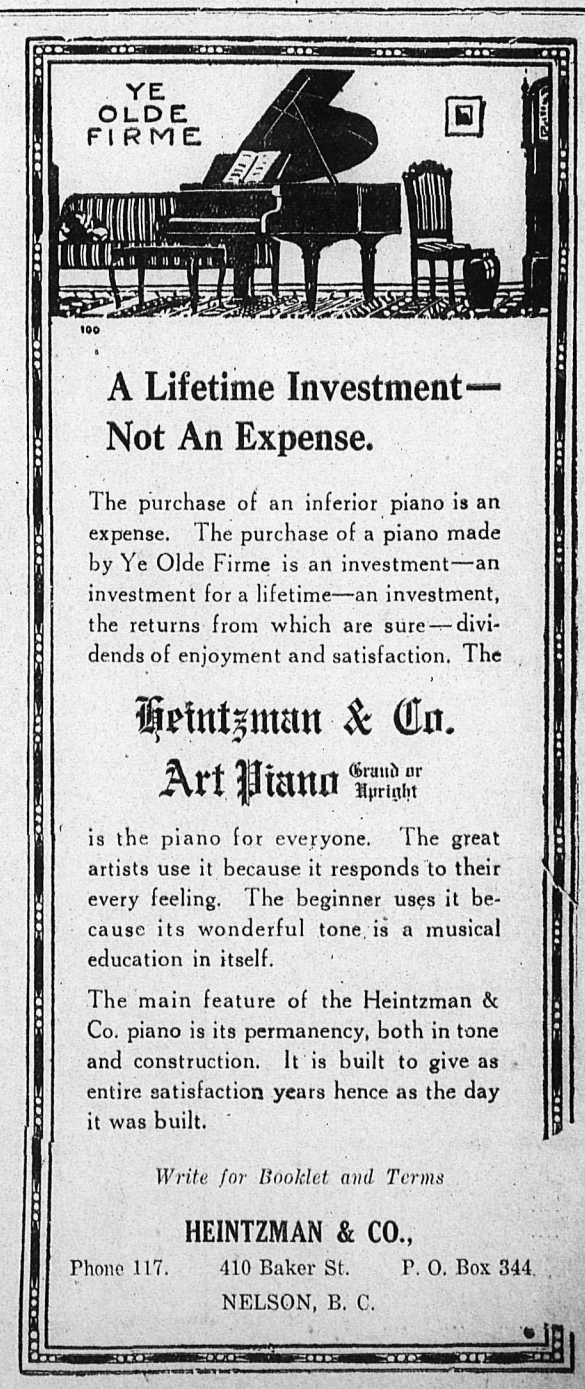
Umpire—Burgess.

SCHNECTADY, N. Y., Aug. 5.—George Duncan and Abe Mitchell, British professionals, were beaten in a 36-hole exhibition golf match at the Mohawk Golf club today by William M. Patten, Mohawk, and Jerome D. Travers, Upper Montclaire, four times amateur champion, by a score of 5 up and 4 to go.

GIRLS! LEMON JUICE BLEACHES FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard, White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of the best freckle and tan lotion and complexion whitener.

Massage this sweetly fragrant lemon lotion into the face, neck, arms and hands each day and see how freckles and blemishes bleach out and how clear, soft and rosy-white the skin becomes.



A Lifetime Investment—Not An Expense.

The purchase of an inferior piano is an expense. The purchase of a piano made by Ye Olde Firme is an investment—an investment for a lifetime—an investment, the returns from which are sure—dividends of enjoyment and satisfaction. The

Heintzman & Co.

Art Piano Grand or Upright

is the piano for everyone. The great artists use it because it responds to their every feeling. The beginner uses it because its wonderful tone is a musical education in itself.

The main feature of the Heintzman & Co. piano is its permanency, both in tone and construction. It is built to give as entire satisfaction years hence as the day it was built.

Markets and Finance

GENERAL SLUMP ON WALL STREET

Profit Taking on Rails and Bear Pressure Forces the Prices Down.

NEW YORK, Aug. 5.—Further profit taking, coupled with renewed selling, caused a general scaling down of prices on the stock exchange today. Although the volume of offerings was not large and movements in most cases were limited to moderate proportions, the recessions continued without interruption to the close.

Total sales, 460,000 shares.

Profit taking was active among the railroad stocks. Oils, steels, equipments and coppers were all under pressure, and there was selling of motors and tires. Among the specialties United Drug was again under attack and sold down to a new low point for the year at 52¾.

Sugars made little response to continued firmness in the market for refined sugar, although these shares were comparatively steady. Passing of the quarterly dividend of 2½ per cent by Manila Sugar had been forecasted. The stock recently has been under steady pressure, which forced it down to 32, as compared with the year's high of 89½.

Call money continued on its higher basis, renewing and ruling at 6 per cent.

Early stability in the bond market was replaced by a general sagging tendency in which losses running to a point were registered in issues which have been strong recently. Pennsylvania general 4½s and St. Louis & San Francisco mortgages were especially weak.

Liberty 3½s rose 74 points to $88.98, but reacted later, closing at a loss, as did other government issues. In the foreign division Paris 6s advanced to par. Total sales, 9,975,000.

DOMINION TRADE.

WINNIPEG, Aug. 5.—(By Canadian Press.)—With a realization by merchants that manufacturers' prices have arrived at the low level at which they can safely buy for the future, retailers who can pay cash or obtain the necessary credit of wholesalers have opened up to some extent and business in the fall, especially in the west, is expected to show much improvement in several lines, says the weekly trade report of the Canadian Creditmen's Trust association.

Montreal and Quebec province advices are generally much the same as those of last week. Manufacturing, wholsale and jobbing trades are quiet and though sorting orders are rather plentiful in many lines very few orders are being booked ahead. Retail trade has looked up during the past 10 days, especially in boots and shoes and drygoods, and indications point to retailers having to stock up in the very near future.

Toronto and Ontario reports indicate that the wholesale trade is more active and orders are coming in more freely, but these are not large. Among the lines showing improvement are drygoods, ladies' wear, millinery, boots and shoes and musical instruments, the gradual increase leading one to believe that if it is maintained dealers can not be found short on stock toward the fall. Retail trade is reported a little more active.

Winnipeg wholesalers vary in the reports. Drygoods men are receiving a number of sorting orders. Boots and shoes are more active, as are also underwear and hosiery. Hardware is quiet, excepting in light household and sporting goods. Increased building activity reported in newspapers is not reflected in orders. Retail trade is normal for the time of year, with many families away. Saskatchewan wholesalers have an increased demand for goods and for extended credit. Big business will come with the fall, they say.

DOMINION LIVESTOCK.

WINNIPEG, Aug. 5.—Receipts up to the week ending Thursday amounted to 1802 cattle, 437 calves, 1496 sheep and 1587 hogs, with 229 additional cattle on through billing. Receipts up to 9 a. m. today were 330 cattle, 60 hogs and 6 sheep.

Steers—Choice, $6.00 to $6.50; fair to good, $4.50 to $5.75; common, $3.00 to $3.50.

Butcher heifers—Choice, $5.50 to $6; fair to good, $4.00 to $5.25.

Butcher cows—Choice, $5.25 to $5.50; fair to good, $3.50 to $5.00; canners and cutters, $1.00 to $2.00.

Bulls—Good, $3.00 to $3.50; common, $2.00 to $2.50.

Oxen—Good, $4.00 to $4.50; medium, $3.00 to $3.50; common, $1.50 to $2.50.

Feeder steers—Choice, $4.00 to $4.50; fair to good, $3.00 to $3.75.

Stocker steers—Choice, $3.25 to $3.75; fair to good, $2.50 to $3.00.

Stocker heifers—Choice, $3.00 to $3.50; fair to good, $2.25 to $2.75.

Calves—Choice, $9.00 to $10.00; good, $7.00 to $8.50; common, $4.00 to $6.00.

Lambs—Fair to good, $8.00 to $9.50; common, $5.00 to $6.50.

Hogs—Selects, $14.25; heavies, $11.25 to $13.25; lights, $14.00; sows, $8.25 to $10.25; stags, $6.00 to $8.00.

TORONTO BOARD.

TORONTO, Aug. 5.—Prices again ruled strong on the local stock exchange today, 30 issues being traded in, and of these 14 showed advances, 10 declines, while six held unchanged.

Possibly the outstanding issues were General Electric and Consumers' Gas. The former was active and moved up 2¼ points to 93¾. Consumers' Gas sold up 2 points to 75.

Brazilian closed at 24, a gain of a fraction. Steel of Canada common advanced 2 points to 51. Dominion Canners common gained 2 points to 25.

The paper stocks were inactive and Abitibi sold 2 points down to 30½.

Spanish issues were stronger.

Victory bonds generally were stronger, gains being shown by the 1922, 1923, 1934 and 1937, while the 1934 and 1933 held unchanged.

MINNEAPOLIS GRAIN.

MINNEAPOLIS, Aug. 5.—Flour, 15c to 25c lower at $8.25 to $8.50 a barrel. Shipments, 59,030 barrels.

Bran—$16.00.

Wheat—No. 1 northern, $1.30¼ to $1.31¼.

Corn—No. 3 yellow, 50c to 51c.

Oats—No. 3 white, 30c to 31c.

WHEAT PRICES TUMBLE DOWN

CHICAGO, Aug. 5.—Wheat prices tumbled lower in price today, influenced more or less by assertions that the present movement to market is limited only by the supply of railroad cars available.

The close was heavy, 2¼c to 3¼c net lower, with September $1.18¼ to $1.18½ and December $1.21¾ to $1.22.

Corn lost 1⅛c to 1½c and oats ¾c to 1¾c.

Provisions finished unchanged to 52c lower.

EGG MARKET.

OTTAWA, Aug. 5.—Reports would indicate that some country dealers are holding back egg shipments in anticipation of a further advance.

Toronto—Firm; straight receipts at country points, 34c to 35c.

Montreal—Firm; country shippers quoting 30c to 35c.

Winnipeg—Jobbers quoting 28c f. o. b. straight receipts.

Alberta and Saskatchewan—Unchanged.

Vancouver—Local fresh laid country points, 40c to 42c.

Chicago—Easy and unchanged.

New York—One-half cent advance.

MONTREAL LIST.

MONTREAL, Aug. 5.—The feature of the transactions today was the 12-point advance in Ames Holden preferred, which losed at 36. Another feature was the 5-point advance of Detroit United. Of the weaker stocks the most notable was Montreal Cotton, which fell 6 points to 65, while British Columbia Fishing touched a nwe low level at 30.

Papers were irregular. Some firmness was shown in Atlantic Sugar when it carried up 2s. Small dealings in Canadian General Electric carried the stock up 2⅞ points to 94. Smelters advanced 1¾ to 15¾. Dominion Textile lost 3⅜ points to 131⅝.

Business in bonds showed increased activity and prices were irregular.

BROTHERHOODS POOL RESOURCES

Determine to Fight Railway Wage Cut; Apply for Conciliation Board.

TORONTO, Aug. 5.—(By Canadian Press.)—Four big railway brotherhoods in Canada have united and pooled their resources to resist the wage cut which has gone into effect on the Canadian lines, it was announced tonight. The brotherhoods are:

The Order of Railway Conductors, the Order of Railway Telegraphers, the Brotherhood of Engineers and Firemen and the Brotherhood of Railway Trainmen.

A board of conciliation has been applied for at Ottawa and the railwaymen have named David Campbell, solicitor of Regina, formerly president of the Order of Railway Telegraphers, as their representative. The decision to take joint action is unprecedented and reveals a determination to press the fight against the wage cut.

The decision to apply for the board of conciliation was reached after a 10-day conference at Montreal between the brotherhood chairmen and the international presidents.

The situation created by the decision of the companies to enforce the wage cut was fully considered and two lines of action decided on—to apply for a board of conciliation or take a "vote" of the men, which meant the taking of a strike vote. The decision to ask for the board of conciliation was reached early yesterday morning. Several of the chairmen reached the city last night, but declined to discuss what had occurred in Montreal.

MONTREAL, Aug. 5.—The first break away from the closed shop system of employees among the play houses of Montreal has been made by the Gaiety theater, a burlesque house, B. M. Garfield, its manager, today announced he would run the theater asan apen shop hereafter, giving preference to returned soldiers in the men employed as stake hands.

Corporation of the City of Nelson

The following Rules and Regulations of the Corporation of the City of Nelson, governing the use of water by the inhabitants of the City and of the localities adjacent thereto, are hereby brought into force as from this date and to remain in force until further notice:—

1. The hours between which water may be used for any of the purposes following shall be as follows:—

(a) For the sprinkling of lawns and gardens between the hours of Six and Nine o'clock p. m.

(b) For the springling of Streets, Alleys and Sidewalks between the hours of Seven and Nine o'clock a. m.

2. No person shall with a lawn sprinkler or otherwise water any adjoining or other premises to or than that for which he has paid the regular garden or lawn rate.

3. All water used for the above purposes shall be used by garden hose or lawn sprinkler only.

4. When any alarm of fire has sounded and during the continuance of any fire within the corporate limits of the City of Nelson, or during the progress of any fire in any of the localities adjacent thereto, any person using water for any purposes mentioned in Paragraph 1 hereof shall at once cease using same until such time as the first has been extinguished.

5. Any person guilty of an infraction or violation of any of the foregoing regulations shall in addition to all other penalties imposed by the Water Rates Bylaw, be liable to have his water supply cut off without notice.

By Order,
W. E. WASSON,
City Clerk.

BRINGING UP FATHER By George McManus

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-TIVES"

MRS. M. J. GORSE

3928 Union St., Vancouver, B.C.

"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. *I had pains low down in the back and sides of the body.* I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.

Then, I started taking 'Fruit-a-tives'; and from the outset, I felt better, and *this medicine has completely relieved* me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. *I am free of pain* and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-tives'."

MRS. M. J. GORSE.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited Ottawa, Ont.

SAYS CHARLIE SHERWIN'S PET BIRD IS SWALLOW

Replying to the recent concentrate from C. F. Sherwin's brain-mill, on the glories of Kootenay lake angling, one of the victims of Mr. Sherwin's thrusts, a man of Sterling character, who recently left the vast spaces of northern Alberta for the area of vast moisture at the coast, comes back with the following rejoinder:

"Our walrus friend at Riondel is some punster, and none are FOWLER than those on a person's name, and they, like his ore, are low grade, and also like his ore, it's 18 to one that he has become so KEEN from rubbing up against EMORY.

"It's like shaking a red WRAGGE in a RAMS-DEN to say these things, and I'm no HUMEADORER, but it doesn't take a SHERLOCK HOLMES to find out what I'm HINTON at.

"The kind of QUARTZ Charlie samples makes him easily Lead, and he finds it hard to Concentrate. After the last Lode he STUBBS his FOOT against the WHITEHOUSE GRANAT, but in spite of the PAYNE he took HARTIN ROSE, SMILLIE & WEIRY, MADDEN all as he was.

"SWALLOWS are Charlie's favorite BIRD, and they are served in BOLES where he's BORDEN. After the last flock he was heard to say thickly, 'O SHEA.BOYER SHORE TOWGOOD.'"

COLVILLE BALL TEAM VOICES APPRECIATION

As the Colville ball team stepped on the Great Northern train to return to Colville yesterday morning, Manager J. T. Raftis, while expressing verbally the appreciation of the Colville team of the entertainments provided in their honor, not forgetting the serenade of the Kootenay Pipe band, he handed the following letter to E. L. Buchanan, of the Nelson ball club:—

"On behalf of each member of the Colville Baseball team. I desire to extend to you as manager of the Nelson team and to the people of Nelson team and to the people of Nelson our sincere appreciation of the generous hospitality and kind treatment we have all received in your city. The motor boat trip, the auto ride to Slocan and the dance at which we were guests, are events which have made our trip a real vocation and have confirmed our convictions of Canadian hospitality."

"We also wish to congratulate your people for being true sportsmen during a ball game standing for clean sport and cheering the visitors as well as the home boys when a good play is made."

"We wish you to know that we deeply appreciate these things and trust that we may have the honor to return in part your many kindnesses whenever your team visits Colville."

"Wishing your ball team all success, on behalf of Colville."

JOHN T. RAFTIS, Mgr.

ENGLISH CRICKET

BATTLE TO SECOND PLACE IN LEAGUE

Corinthians Now Lead Saints in Daily News Cup Series

CITY LEAGUE STANDING

Teams	P.	W.	D.	L.	Pts.
McLearies	5	6	2	1	14
Corinthians	9	4	2	3	10
St. Saviour's	9	4	0	5	8
High School	5	0	0	5	0

Winning over St. Saviour's by a score of 3 goals to 1 in yesterday's senior city soccer league clash at the recreation grounds, the Corinthians battled their way into second place in the running for The Daily News cup, shelving the Saints to third. Play was of a determined character and fairly even, although in spots it was patchy with long high passes taking away from the pepe of the game. The Saints were again a man shp, Hartland being their only fullback.

The Game

J. Ball opened the scoring about half way through the first hilf, with a hot shot at short range taken during a scrimmage around the Saint's goal. The score stod at 1 goal for the Corinthians at half time.

In the second, Middleton was called on to save two hot ones from Bartholomew and Cartwright in a well developed attack by the Saints shortly after faceoff. Metcalf cleared in great shape to Ward, who registered a good try on Bostock. The Saints were playing well up the field along with Bartholomew playing a great game to support Hartland. A clearance by Hartland gave Ward two more long shots, the second being on the return from Bostock, who saved easily.

Graves missed the chance of the game to score when Bolton beat J. Morris twice on the dribble, and sent a nice long low pass square across the goal mouth to left wing. Graves, up to the ball, failed to connect. The attack was again pressed by the Saints and Middleton cornered to save a difficult shot from Wheeler. Graves long shot for goal later was cleverely headed to wing by Tyler, but Middleton was put to it to save on the ground when Wheeler again shot on the return to center. Middleton again saved a difficult one, this time from Bartholomew, before the pressure let up.

The ball was put clear by Metcalf to Ward, who, unassisted, beat Hartland, taking the ball well in, and scored the Corinthian's second goal. The Corinthians added another goal when Adams trapped a pass from Bradley neatly, and shot on the instant, the ball passing Bostock with a yard to start.

The Saints' only goal was scored in the last quarter of an hour. Tyler intercepted a wing shot at the Corinthians' post, but was slow in clearing. Bolton rushed the ball and forced it through the posts.

The teams were:

Corinthians—Goal, T. Middleton; backs, C. W. Tyler and E. Metcalf; halves, A. Lane, N. B. Bradley and J. Morris; forwards, G. Morris, T. Boyd, J. Ball, J. Adams and C. Ward.

St. Saviour's—Goal, S. Bostock; backs ..... and C. Hartland; halves, D. Gough, A. Bartholomew, E. Squires; forwards, H. Bolton, W. Cartwright, H. Wheeler, M. Bath and V. Graves.

Referee—J. Draper.

COLEMAN SETTLES HASH OF FERNIE

Five Innings Blank; Then Vistors Get Busy; No Stolen Bases Throughout

FERNIE, Aug. 4.—In one of the fastest ball games played on the local diamond this season Coleman, the Crow league champs, took Fernie into camp Wednesday evening by a score of five runs to one. Siler, pitching for Coleman, seemed to be able to hold the Fernie swatsmen from getting in their usual long drives and the Coleman infield had the bulk of the fielding. The Coleman batting was the feature of the game. They collected 11 clean hits off Callihan, four of them being for extra bases.

During the first five innings neither side managed to get a run across the plate. Coleman opened the scoring in the fifth, when they got in three earned runs, and added single runs in the sixth and seventh. Fernie narrowly evaded ash utout by rallying in the ninth inning and getting their only run across.

One remarkable feature of the game was that neither side had a stolen base registered against them. Pitcher Siler incurred the displeasure of Umpire Jerue, who announced that although he had several times warned Siler, the pitcher continued to use the spitter and shine ball, banned by organized baseball. Score:

										R.	H.	E.
Coleman.	0	0	0	0	3	1	1	0	0	5	11	4
Fernie...	0	0	0	0	0	0	0	0	1	1	4	0

BABE ONE BEHIND HOME RUN RECORD

NEW YORK, Aug. 5.—Babe Ruth fell behind his 1920 home run record for the first time this season when he failed to get a circuit drive in the game between New York and Detroit. Ruth made his 39th home run of the 1920 season exactly a year ago. Ruth made his 38th home run day before yesterday.

SULLIVAN CLUB WANTS FIXTURE

Keen to Meet Nelson City on Tour; Will Enter Hockey Field Later.

A sports club, known as the "Sullivan Recreation club", has blossomed into existence among the mining fraternity at Kimberley and is out to make a showing in the Kootenay athletic world during the remainder of the summer and through the winter months. At present it has a very strong football team according to word received here from Alec. F. Perry, secretary-treasurer of the club. Mr. Berry states the Sullivan boys are keenly anxious to give the Nelson City team, now assured champions of the West Kootenay league, a game, should the Nelson boys put on their proposed soccer tour.

Keen to Meet Nelson Team

"A meeting with the Nelson team is a very keen thing at Kimberley," to quote Mr. Berry, who states that perhaps the offer of a game at Cranbrook might also help to put the Nelson team on tour. Negotiations to that effect are under way.

The Sullivan club intends to make a clean up in the hockey field also, it is stated. A strong hockey team is practically assured to them since there are quite a number of ex-players from the Kootenay and Boundary leagues working at the mine. Consequently, the club feels able to enter and glad to help to promote an East Kootenay Hockey league.

The club is anxious to ascertain what cups an East Kootenay hockey team would be eligible for at the Rossland Carnival.

The following is the report of a soccer match between teams representing the Sullivan mine and the Tunnel camp, the Tunnel being the lower workings near Kimberley townsite, and the Sullies being the up hill crowd. The game came off on Sunday, evening at the Kimberley recreation grounds.

The Game

The ball was kicked off in good style and in a few minutes was rebounding from the Tunnel's teams' cross bar from a shot by Smith and was promptly netted by Radford. Give and take play followed, then in a forward rush by the Mine team McLean seized an opportunity to score a second goal.

At half time the Mine was leading 2-Nil.

The kick-off for the second half, found the Tunnel eleven determined to equalize the score. They kept the mine defense busy for a long period. A break away by Mine forwards from a scrimmage in front of their goal and the wing centering, enabled Smith to score the third goal.

The Tunnel recovering in good style soon scored their first goal from a hard tustle in the goal mouth. From there on the ball was alternately up and down the field. Just before the end the mine scored a fourth goal from a penalty. Final score, Mine 4; Tunnel.

Spectators from Kimberley were unaminous that this was the best game of the season.

SCARDALE, N. Y., Aug. 5.—The towing dirigible H-15, which escaped from the Rockaway naval air station early this afternoon, came down undamaged here shortly after 6 o'clock, having covered about 50 miles.

Stanley Street

Do I Enjoy It?

Well say, you might as well ask me if I enjoy my dinner. Say, I wouldn't give up my bike riding ever if I had to give up eating. What kind of a wheel do I ride? Why a C. C. M. Redbird of course. Some jim dandy bike that is. I got mine from Choyce and I'm going to get a new one when I've got enough saved up.
