REATE FALSE ISSUES TO DO BATTLE WITH

nier States Issues at take on Which Electors lust Decide.

TERING UPHEAVALS AVE DOMINION SOUND

's Shell Shock, Crerar's ental Perspiration, In- ented Issues.

RONTO, Oct. 28.—"I am not begging on my own behalf or half of any member of my gov- nt. I am here to lay before the great issues at stake on you must decide."

h these words Premier Meighen ed a speech delivered to near- 00 people gathered in Massey this evening—a speech in which oke in defense of the lines of which had actuated the gov- ent in the past, reaffirmed his in the fiscal program of mod- protection for Canada and de- his intention of following the e which the government had ed in tariff matters if returned wer.

e premier did not assume that overnment had come through the of war and the period of re- uction following it without some kes, but he insisted that the kes had been small, and the decisions of the government had wise and that the country af- assing through one of the most ering upheavals which the world experienced, was strong and hy. The enemies of the gov- ent, he insisted, were forced to e false issues in order to do e with the government. Therefore, verred, Mr. King was trying to ess the people with the terrific he suffered when he found Canada was receiving shells to h it was entitled, from England, "Mr. Crerar, after much mental piration, threw up his hands and ired that something must be ."

Contrasts Policies.

. Meighen contrasted the posi- of the government and those sed to the government. "We forward with a definite, consist- stand on every big issue before electors," he said. "We are op- d by an aggregation which is d on nothing between heaven earth save gaining power."

addition to that of Premier *hen speeches were delivered by* Edmund Bristol, minister with- portfolio; Dr. Edwards, minister ealth, immigration and coloniza- and Miss Adelaide Clayton. Sir ard Kemp introduced the prime ster in a short speech.

Accommodation Inadequate.

e hall, which is one of the larg- in the country, was quite inade- e to hold the crowd which sought ission, and the premier addressed rge overflow meeting from a bal- of the building before speak- to those inside. The street was ially lighted in order that he t see and be seen.

l. J. A. Currie and Col. Sheard addressed the overflow meet-

turned soldiers who had lost s in the war were given special ts, a section of the hall having reserved for their accommoda-

ERAR SPEAKS IN NOVA SCOTIA

s Government Enters the Movie Lists With Charlie Chaplin for Propaganda.

TIGONISH, N. S., Oct. 28.—Ca- an Press Staff oCrrespondent)— entry of Hon. T. A. Crerar into Nova Scotia political field took today at Antigonish in the con- enc y of Antigonish-Guysboro. hing on the formation of mer- in Canada, Mr. Crerar declared the entire people of Canada had ay more for cotton goods in or- that a few people might make profits and a few thousand people mployed sometimes at starvation s.

. Crerar claimed as before that government was spending huge in propaganda and asked where money was coming from. Cabinet sters in their desire for propa- a, he said, had even gone into movies along with Charlie Chap- and Mary Pickford. He denied in cooperating western farm- had any desire to increase prices e users of their grain. All that were doing was to cut out the ts of the middle man and lessen cost of marketing. The price of t was asked not by western ers, but by world conditions.

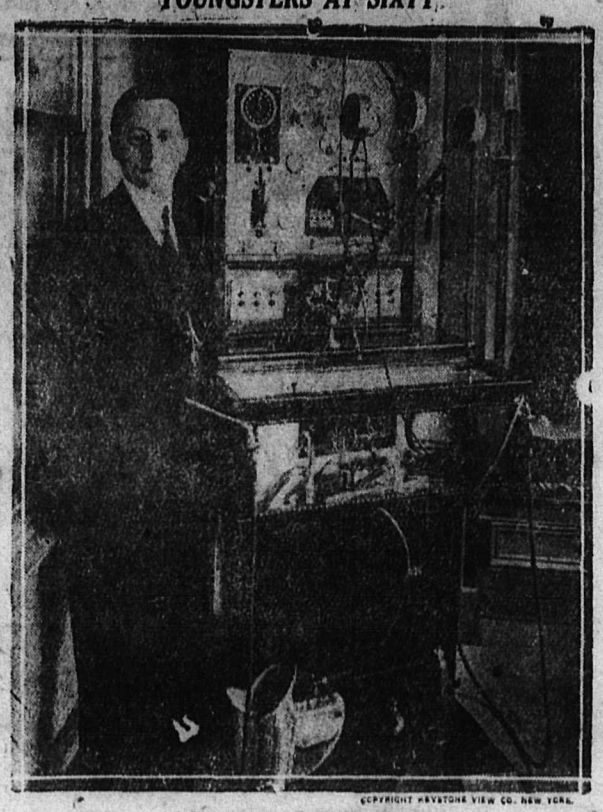
le Entente Postpones Delivery of Ultimatum for Surrender of Carl

BELGRADE, Oct. 28.—Delivery the little entente's ultimatum to dapest demanding the surren- r of former King Charles of ungary has been postponed, Ru- nia's adhesion not yet having en received. It was expected e ultimatum would be presented me time tomorrow.

YOUNGSTERS AT SIXTY



COPYRIGHT KEYSTONE VIEW CO. NEW YORK.

NEW RAYS RESTORE YOUTH

By application of his newly discovered invisible rays, that are produced by electricity, Dr. Richard Schleusner, of Paterson, N. J., has successfully restored youth to two sixty-year-old men by the means of direct stimulation of the pititular gland; no surgical operation being necessary. They were subject to a shower of rays, ten minutes each day, continuously for three months. The rays were directed at the pititular gland (which because of its position at the base and within the brain was considered by science impossible to stimulate). This gland is considered the main spring of youth and old age in men, the rays forced the gland to greater activity and cleared away the deposits of senility and replaced them with youth.

MUNICIPAL POLITICS OCCUPY BRITAIN; TAXATION AWAKES LETHARGIC ELECTORS

LONDON, Oct. 28.—(Canadian Press Cable.)—The municipal elections throughout the United Kingdom except in London, will take place next Tuesday. The apathy of the average English elector concerning local government used to be truly amusing, but with the local taxes imposed by many boroughs now aggregating more than 20 shillings in the pound, there has been something of a general awakening. Municipal anti-waste candidates as such, are comparatively few this year, simply because every candidate, barring the extreme Laborites, makes emphatic protest against waste. Labor again is making a determined effort all over the country to gain municipal seats, but in view of the demands *which had been made recently upon* the local council on behalf of the unemployed, it is doubtful whether Labor as a body will achieve much success in the elections.

It is asserted in many quarters *that Labor men on town councils* have shown themselves as impotent in constructive policies as the Labor group in parliament. Some few candidates have appeared in the big industrial centers proclaiming nothing more of a platform than that they represented the unemployed.

Ex-service candidates are again in evidence, but the peculiar grievances of this class have not hitherto appealed especially to the average municipal elector as such.

Middle Class Active.

The middle classes' union is putting forth many nominees. The middle classes' union, as the name implies, stands for that hitherto unorganized but numerous body comprising the smaller professional men and others like him whose incomes are often more limited than their responsibilities. The union, however, received a certain amount of criticism on the ground that it appears to preach class warfare, very similar to that for which the extreme Laborites have been condemned.

No Laborite was returned in Liverpool last year, and the Conservatives are making an effort to still further reduce Labor's local representation in Liverpool.

The Nationalist element, which is naturally strong in Liverpool, has definitely parted company with Liberalism in domestic affairs and is determined to increase its own council membership there. Not a single straight Liberal-Conservative candidate is in the fight in Liverpool.

Manchester has 76 candidates for 35 seats, 32 Conservatives, 10 Progressives, 17 Laborites, eight Liberals, two unemployed leaders and one Communist, the political complexion of the remainder being indefinite.

Worthiest Citizens Refuse.

Incidentally, one hears again this year the old complaint that many of the worthiest citizens refuse to come forward and take part in municipal affairs, the answer being that this class decline to associate themselves with the local representation when it is run on political lines. In Sheffield there is a kind of coalition which proclaims itself the Citizens' the local Labor caucus has captured party, but the cry is going up that this coalition. Glasgow Laborites are running candidates in 28 of the 30 wards, all but three of the retiring members being challenged. Two of three women members, who are seeking reelection, are unopposed. Taking the country, generally, however, women candidates are not numerous.

ONTARIO SWINGS OVER TO MEIGHEN POINTING TO GOVERNMENT MAJORITY

OTTAWA, Oct. 28.—With the closetoba, six in Alberta and Saskatchewan of the third week of the campaign po- and make a clean sweep in British Co- litical prophets in the capital are be- lumbia. ginning to make predictions as to the probable results. Headquarters of all three parties are, as usual, seeing a victory for their side, although it is significant that the Liberals, who at the outset were claiming a clear majority over all, are now whittling down their claim to the largest group, while on the other hand, the Meighen government headquarters declare that the government will have a majority of from 15 to 20 over all other parties.

This estimate, while declared by some to be oversanguine, is based largely upon evidence of a remarkable swing to the government in Ontario. Mr. Meighen's tour has, beyond question, been an enormous success. In less than two weeks he has gone from one end of the province to the other, addressing no fewer than 20 gatherings and reaching upward of 70,000 persons.

Meighen Makes Impression.

The prime minister has everywhere encountered enthusiastic receptions and his clear-cut declarations on the tariff and upon other public questions *are undoubtedly making a marked im*pression. Mr. King, on the other hand, has thus far held only three or four meetings in the province, and these in ridings held by the Liberals in the last parliament. Thus far in the campaign, *indeed, Mr. Meighen* has addressed three meetings for every one addressed by the opposition leader.

Government headquarters here closely in touch with every riding in the country declare that Mr. Meighen *will carry at least 60 seats in Ontario;* that he will more than break even in the maritime provinces; take from 15 to 20 seats in Quebec, eight in Mani-

Mr. King, they declare, and this claim is largely supported by more impartial observers, will not carry 12 seats between Ottawa river and the Pacific coast.

United States Increases Tariff.

One of the factors operating largely for the government's success is the news from Washington indicating that congress may still further heighten the American tariff against Canadian *goods. Senators of what is known as* the agricultural bloc have already decided on a schedule of rates on agricultural products which they will present to the senate finance committee. This schedule, according to the Amer*ican Associated Press, calls, in some* cases, for even higher rates than in the Fordney Tariff bill as it passed through congress.

On wheat they will ask that the 35-cent per bushel rate of the emergency *tariff be continued, that an increase* of 5 cent per bushel be made on the rate for barley, and that rates be placed on live stock about equal to the emergency rates. This, according to the Associated Press, "will probably

(Continued on Page Five)

WESTMINSTER GAZETTE NOW A MORNING PAPER

LONDON, Oct. 28.—The first issue of the Westminster Gazette as a morning paper is announced for November 7, the same title being retained. The political policies of the paper are moderate Liberal. In the original announcement of the change it was said that "the experiment has behind it very influential support."

FARRIS ASKS FOR SPECIFIC ACCUSATIONS

Says Ready to Investigate Bowser's Charges; Mothers' Pension Criticized.

HENNIGER DENIES HAS BROKEN OFF

Neelands Finds Fault With Government Attitude on Unemployment.

VICTORIA, Oct. 28.—Challenging W. J. Bowser, Conservative leader, to come forward with specific charges and not hide behind what he termed were nothing but mean insinuations trumped up with the object of giving Mr. Bowser opportunity to make a "grandstand play before the house," Hon. J. W. DeB. Farris attorney-general, roundly scored the opposition leader in the house this afternoon when he replied to the speech which Mr. Bowser made yesterday in support of his motion for the appointment of a select committee to investigate administration of the Liquor Control act.

The attorney-general made it clear that he is ready to have definite charges investigated to the full. He dealt at length with Mr. Bowser's allegation that an excessive price had been paid for the Campbell warehouse, that political friends of the government had profited through *the sale of liquor to the board, and* that there existed a "ring" composed of administration supporters who sold liquor to the board.

The debate on the address in reply to the speech from the throne was *continued in the house today by J.* McRae, Yale; R. R. Neelands, South Vancouver, and E. C. Henniger, of Grand Forks. Mr. Bowser will speak Monday afternoon.

Criticizes Mothers' Pensions

Mr. McRae criticized the administration of the Mothers' Pension fund and held that injustice had been done to women deserving of consideration. He protested against any additional taxation, claiming that taxes constituted a serious problem for the farmers in his riding.

Mr. Neelands found fault with the government for not giving sufficient attention to unemployment, and he voiced his objection to any move likely to result in the abolition of the exemption clause in income tax returns.

Mr. Henniger denied reports that he had broken with the government, and took issue with the Yale member respecting mothers' pensions, which, he said, had been administered satisfactorily. He referred to proposed amendments to the Liquor act.

"Last year the brewers and other *interests, by delegations and by tele*grams, pleaded that the poor returned man must have his beer," he asserted. "This year they are pursuing the same tactics by placing this demand for beer at the door of the poor working man."

He declared that employees of the liquor board were not to blame for the robbery at the Grand Forks vendor's store.

WILL GO AHEAD WITH WAGE CUTS

Cancelled Strike Has No Influence on Carriers' Reduction Plans.

CHICAGO, Oct. 28.—Railroad heads tonight decided the nation's carriers would go right ahead with the plans to seek new wage cuts through the railroad labor board hearings despite the announcement from the unions that their action in calling off the strike scheduled for Oct. 30 had been influenced by the board's announcement that pay reductions for any class would not be considered until working conditions for that *class had been settled.*

"The calling off of the strike will have no effect on the plans announced by the carriers Oct. 14 to seek immediate wage reductions so that rates could be reduced," said Samuel Felton, *president of the Chicago, Great* Western, and chairman of the Association of Western Railroad Executives. "I don't know how long, under the board's ruling, it will take to reach a decisive pay cut petition, *but these petitions undoubtedly will* be presented within a very short time. It will be up to the board to decide when action should be taken.

"I want to make it plain, however, that we will seek these reductions in accordance with the law, posting notices of cuts, then discussing them with the employees, and, if not agreement is reached, appealing to the board to settle the dispute."

LOOKING FOR MARKET FOR GRAIN SCREENINGS

FORT WILLIAM, Oct. 28.—The Fort William city council in special session tonight, decided to cooperate with any industry desiring to locate in the district and which can use elevator screenings. Screenings are used as livestock feed and chemicals and charcoal can be manufactured out of this part of the grain, it was said. Great quntities of screenings are now being burned or dumped into Lake Superior since the emergency tariff bill was put through in the United States. During the war screenings sold for more than $20 a ton.

STEAMER ARRIVALS

Famous Russian dancer, who de*clined to attend a civic* reception arranged for her in Ottawa. Mayor Plant and the controllers received a laconic message that she was indisposed.

UNITED STATES SURRENDERS TO MARSHAL FOCH

Famous French General Receives Triumphant Welcome in New York.

NEW YORK, Oct. 28.—New York surrendered to Marshal Foch today without striking a blow. Not since Armistice day has there been a demonstration on Broadway to compare with the reception accorded today to the conqueror of the German armies. From the Battery, where he was greeted by Governor Miller of New York state, to the city hall, where he was welcomed by Mayor Hylan, the great little man in horizon blue moved in a triumphant procession of many thousands.

By his side rode General Pershing, who, as leader of the United States forces in France, acted under Foch's *supreme command. To General Per*shing fell the honor of first welcoming the French marshal to the shores of the United States. Receiving the freedom of the city from the mayor, Marshal Foch continued his triumphal *entry, motoring along Fifth avenue to* the Pennsylvania station. All along the route and the station multitudes had assembled to cheer the visitor. Cheers were still resounding when the special train, taking the marshal to *Washington on the first leg of his* journey to Kansas City for the American Legion convention, pulled out of the terminal.

Begins 100 Miles at Sea.

The welcome to Marshal Foch began 100 miles out at sea. There the liner Paris, on which he was a passengr, was joined by 12 destroyers and a squadron of seaplanes. The steamship George Washington, on which General Pershing was returning from Europe, raced into port, passing the Paris in order that the United States general might be the first to welcome his commander in chief. At quarantine Marshal Foch was transferred to *a naval cutter, where he was greeted* by Ambassador Jusserand, Theodore Roosevelt Jr., assistant secretary of the navy, and others.

As the cutter passed Fort Jay guns of the fort thundered a general's sa*lute.*

Political Pot Steadily Boils

WESTBOUND GRAND TRUNK PASSENGER TRAIN LEAVES TRACK FALLS INTO DITCH

Men Wanted by Sheriff's Posse Remove Rails, Causing Crash; Details of Damage Lacking; Emergency Call for Physicians, Nurses and Ambulances; Reported to Have Gone Through Bridge Near Elba, Mich.

FLINT, Mich., Oct. 29.—Grand Trunk passenger train No. 5, westbound, was derailed near Elba, Mich., tonight, when persons for whom a sheriff's posse are searching removed a rail from the track. Three men were injured seriously and the entire train, with the exception of one Pullman car, was thrown into the ditch.

Grand Trunk officials here confirmed the report that the line had been blockaded west of Flint, but had no details of the wreck. They could not say whether the train reported to have gone through a bridge was a passenger train or a freight train. Train No. 15, a Chicago bound limited, reached Flint and was detoured via the Michigan Central to Detroit.

Call for Assistance.

FLINT, Mich., Oct. 29.—A Grand Trunk passenger train crashed through a bridge near Elba, Mich., 15 miles from here early today. A call for *assistance received at Flint re*quested that all available physicians, nurses and ambulances be sent. The number of persons injured or killed was not given in the message.

Earl of Ducie, Father of House of Lords, Dies in Gloucestershire Home

FALFIELD, Gloucestershire, England, Oct. 28.—Henry John Moreton, third early of Ducie, died here today. He was born in 1827 and was known as the "father of the house of lords," having been a member of that body for 68 years.

The earl lived through five reigns. The heir to the earldom is Berkeley Basil Moreton, colonial secretary and minister of public instruction in Queensland from 1885 to 1888. He is the fourth son of the third earl and was born in 1846.

REPORTS REVOLT IN BESSARABIA

Insurgents Blow Up Railway Bridge; Clash With Rumanian Army.

RIGA, Oct. 28.—A wireless message from Moscow announces a growing revolt against the Rumanian government in Bessarabia. At the station of Romanovtzky it says a sanguinary encounter took place recently between Bessarabian insurgents and Rumanian infantry and cavalry, culminating in the blowing up by the insurgents of an important railway bridge near Chernotch, in Bukowina. This resulted in a train wreck in which, according to the dispatch, many Rumanian soldiers were killed.

FLOODS HOLD UP TRAINS FOR EAST

Coquitlam River Overflows; Rains Aggravate Floods; Mudslides Occur.

VANCOUVER, Oct. 28.—Eastbound trains on the Canadian Pacific railway are held up at their starting point here tonight owing to floods in the Fraser valley. The Coquitlam river began to overflow yesterday and persistent rains have aggregated the floods until railway tracks are under water in many places and at least one one trestle has been swept away. Mudslides also add to the danger of operating trains until repairs can be effected and precautions taken against the subsidence of roadbeds. No serious property damage is reported as yet.

In the North Vancouver district the Capilano and Seymour creeks are badly swollen. Telephone communication is cut off with outlying districts *through fallen poles and a bridge over* Keith's creek on the road to Dollarton has been swept away. The Capilano creek has risen five feet in 24 hours. Part of the tracks of the Pacific Great Eastern is under water.

LOCATE REBELS' NEST IN WALES

Discover Organized System of Procuring War Supplies for Ireland.

LONDON, Oct. 28.—Startling evidence of a highly organized system of procuring arms and ammunition was given at Cardiff today when Joseph Connoly organizer of South Wales branches of the Irish Self Determination league was charged with unlawfully hearding revolvers and explosives.

The chief detective inspector gave evidence that when he entered the prisoners' lodgings he found revolvers and ammunition and a large quantity of high explosives. He also found a number of highly important documents a list of goods to be procured, including revolvers, machine guns and *ammunition. There was also a list of* ports at which presumably shipping could be obtained and plans of six powder magazines in the vicinity of Merthyr along with receipts signed by two men named Evans, who have been committed for trial on a charge of breaking into powder magazines at that town.

JAPANESE FREIGHTER FOUNDERS

Encounters Terrific Storm; Every Soul Aboard Saved by Rescue Ship.

SEATTLE, Oct. 28.—The Japanese freighter Fukui Maru, of the Yamashita Kaisen Kaisha, foundered and sank 350 miles from Cape Flattery at midnight Thursday. Her crew and several passengers were rescued by the American freighter West Ivan. None were lost.

Bound to Kobe, the Fukui Maru encountered a storm yesterday and turned back toward Seattle in a disabled condition, according to wireless dispatches. The storm continued and finally overwhelmed the freighter.

Gallant Rescues.

Battling against the storm Captain Harati drove the ship for Dutch Harbor with all her engine room power. The storm, however, continued to gain in violence, the wind, it is reported, exceeding a speed of 80 miles an hour, and late yesterday it became evident that the vessel was doomed.

The West Ivan went to the stricken vessel's rescue. Whether she raced to the rescue in response to a wireless S. O. S. call or happened along at the psychological moment and saw that the Japanese freighter was sinking has not yet been definitely learned.

It is presumed that the Fukui *sent out a wireless call for help and* that the Ivan picked it up.

Details of how Captain Fred Pearson, veteran skipper of the West Ivan, effected the rescue, have not yet been received, but the Fukui's men were transferred to the Amer*ican steamship in one of the most* savage upheavals of the elements ever known in that part of the Pacific. The Fukui foundered in latitude 52:29, longitude 155:37. Not a man was lost in the transfer from ship to ship. While the rescue was being made the West Ivan had to battle with the storm on her own account.

HINDENBURG'S AUNT DIES.

ROCHESTER, N. Y., Oct. 28.—Mrs. Emma von Saucken, aunt of Field Marshal von Hindenburg of the German army in the great war, and grandmother of two United States soldiers in the same war, died here today, aged 99 years. She was born in Danzig on September 29, 1822.

LAST CASE UNDER PROHIBITION ACT

VANCOUVER, Oct. 28.—While his fine was reduced to $300 Robert Smith, bartender, lost his appeal in county court today against a fine of $500 imposed in the police court some months ago on conviction under the old Prohibition act. Smith's was the last case pending under the Prohibition act.

Sentences of six months imprisonment were reduced to fines of $50 each in the cases of David Kirkwood, Archibald Campbell and A. S. Leclaire, charged with offenses under the Government Liquor act, following the precedent set in the appeal courts a fortnight ago in the appeal of James Fleming. All were stewards in clubs where beer was sold.

FACE DISFIGURED WITH PIMPLES

Itched and Burned. Scarcely Slept. Cuticura Heals.

"Pimples affected my face. They were large and always festered, and they were scattered all over my face. They afterwards turned into scales and when they fell off they left big marks until my face was disfigured. They itched and burned so that I scarcely slept at all.

"I had been bothered for nearly two months before I started using Cuticura, and after I had used three boxes of Cuticura Ointment with the Cuticura Soap I was completely healed." (Signed) Miss L. Burns, St. Bazile, Que., June 6, 1918.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes.

Soap 25c. Ointment 25 and 50c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, St. Paul St., Montreal.

Cuticura Soap shaves without mug.

BOARD COMPLETES HEARING EVIDENCE

Counsel Admits Some Reduction Justified, But Not on Lower Ratings.

OTTAWA, Oct. 28.—(Canadian Press)—The submission of evidence and data to the Canadian National arbitration board came to an end here this afternoon and the board will sit privately to consider its award next week. The evidence put in by A. R. Mosher, for the employees, and F. P. Brady for the Canadian National railways in support of their arguments against and for the reduction in wages, was summed up by its chiefs before the board. Mr. Mosher, while admitting that some reductions might be justified at the present time, held that the scale put into effect by the company was unfair to the lower paid classes of employees. Mr. Brady argued that the company must have the full amount of the reductions.

A flurry came in the proceedings just before the close of the sitting this afternoon, when Robert Dykes, a representative of the Canadian Brotherhood of Railway Employees, told the chairman that there were many ways in which the company could economize on operation costs without taking it all from the employees. There had been many appointments of inspectors, he said, since the government had taken over the railways. There were more officials now than before amalgamation and he believed there could be a saving.

Criticism Unfair.

Mr Brady declared that the criticism was unfair and unreasonable and that no railway in Canada was so under-officered as was the Canadian National railway system.

What officers had been appointed were necessary for the operation of the road and for seeing that equipment, etc., was kept clean and sanitary.

George Hodge, assistant to the vice-president of the Canadian Pacific, who was called this afternoon, gave specific information relative to the wages of the lower paid employees of the company and the reduction of wages by the C. P. R.

At the conclusion of Mr. Hodge's evidence, Rev. Byron Stauffer, chairman, asked Mr. Brady and Mr. Mosher to sum up their cases. Mr. Brady declared that he felt he had done enough and that special pleading was not worth the time it would take. He was ready to let the case rest with the board.

Mr. Mosher asked if this meant that Mr. Brady was binding the Canadian National railways to abide by the decision of the board.

"I did not mean any such thing," retorted Mr. Brady.

That railway wages in Canada had not advanced with the same rapidity as in the United States, contrary to popular belief, was stated by Mr. Mosher. Wage schedules were higher in the United States in 1918 and were higher yet. Further, when reductions were made in the United tSates, the railway employees had not lost certain privileges. United States railwaymen still received pay while absent from work through sickness. "If it was a matter of the employees being reduced below a decent standard of living in order that the Canadian National railways might succeed," Mr. Mosher declared, he would rather see the Canadian National "go to the wall."

Men and women would degenerate if their standard of living had to be lowered and there would be a far greater loss to the country than in the loss or failure of the railway system. It had not been shown, he argued, that these reductions were fair and equitable. The man who was earning only $100 per month could not stand a $20 reduction as compared with a 7 per cent reduction to the man earning $254. The unequal distribution of the decreases could not be justified.

McAdoo Award Political.

Mr. Brady, in his summing up, gave the board a history of the putting into effect on Canadian railways of the McAdoo award, which, he said, was "a political move prior to the presidential election in the United Sattes."

The Canadian railways had put the McAdoo award into effect and also all the supplements which, he said, "had made the mischief."

Giving these increases had cost the Canadian railways millions of dollars.

When the Chicago board had decreased wages, the Canadian railways followed suit, Mr. Brady said. The men were invited to meet the officers of ihs company and join in the distribution of the decrease, but they had failed to do so. The federated trades and section men, as well as the four running trades and the telegraphers, had accepted wage reductions, Mr. Brady declared, and part of Mr. Mosher's organization had signed an agreement with the Grand Trunk accepting the decrease. In the United States all the railway organizations had accepted the tentative agreements, subject to negotiation and only this branch represented by Mr. Mosher held out against the reduction.

Urges Delayed Reductions.

Robert Dykes of the C. B. R. E. urged that as the increases in Canada had been seven months behind those in the United States, so the reductions should be delayed. The Canadian National railways, he declared, could practice economy in more ways other than by cutting the wages of the lower paid employees. The officers of the company had not reduced their salaries. Pointing out economies which could be practiced, Mr. Dykes declared that many new positions had been created since the government took over the system. Yardmasters were kept at Kamsack, Dauphin and Calgary, where there was only one yard crew, who could be looked after by the station agent. At Calgary there had been two chief clerks and offices of inspector of stockyards, inspector of paint cars and inspector of fences.

Replying to a question by the chairman, Rev. Byron Stauffer, Mr. Dykes said he did not know where politics had anything to do with these appointments. He knew there were more officials now than before the amalgamation. These might be necessary, but he thought there might be a saving.

Board to Meet Privately.

The chairman then announced that the board would meet privately in Ottawa on Tuesday morning and would try to make a report to the minister of labor as early as possible. The issue appeared to be, he said, as to the amount of the reduction which should be made. The company said it must have the full award, while the employees, admitting that some reductions might be fair, quarreled with the schedule as drawn up by the company. It would materially assist the board if the representatives of both parties could lay before the board a statement showing which classes of employees, in their opinion, could best stand the reduction or which could least afford them.

Mr. Mosher said that while he could not sit down and name any classes and say that those could stand a reduction, he would place before the chairman what his organization thought was a fair schedule of reductions and promised to have this when the board met next week.

RING SWITCHER BOLTS.

WINNIPEG, Oct. 28.—Arthur Gordon of Toronto, on his way home from Vancouver with his wife and child, was arrested today on a charge of substituting a smaller and believed to be phoney diamond ring for a $600 ring he is alleged to have asked to see in a local jewelry store. When accused by the clerk of switching the rings he bolted, but was caught after a short chase.

MUNICIPAL

VOTERS' LIST

FOR 1922

LIST WILL CLOSE AT 5 P. M. MONDAY, OCTOBER 31

For the convenience of those who cannot register during the day time, the office will be open from 8 to 9 o'clock TONIGHT.

W. E. WASSON, City Clerk.

Hallowe'en Church Tea at Mrs. Benson's Home to Have Spooky Flavor

To augment the funds for the Anglican church memorial hall, Miss Armstrong's circle of the Church Helpers is giving a Hallowe'en tea on Monday afternoon at Mrs. J. H. D. Benson's home, 203 Victoria street.

Besides tea, an entertaining musical program is arranged, at which Master Jimmy Benson, Nelson's boy wonder pianist, will render selections and will also do some clever impersonations. His histionically gifted little sister will supplement his efforts.

Mrs. Dr Gansner and Miss Margaret Wilson will also sing, supported by Miss Phyllis Whitebread on the violin.

Fortune Ttelling Extraordinary.

Rutsange M'Zwena, a real witch from Mashonaland, will read palms. Rutsange was given her title as an African chief by the sacred tribe of Rainmakers, but later she was initiated into the spooky rites of the native witch-doctors. She has danced the Kam-li-Du-Ra round blue flames with real witches, while the crocodile bones were thrown for her from the "Talking Rock of Lomagundi" and blue lightning crackled on the Hunyani.

She refused to join the witches' ring, and hence is traveling away from her own country, via Nelson, to state a case to the Inca Witches' union at the supreme cauldron of Popocatapetl. (That is what she says.)

Her revelations are said to be startling and uncanny, but a cup of strong tea will soon brace up any overstrung nerves.

Home cooking and candy will also be on sale to swell the funds

Social and Personal

J. T. Laidlow, the civil engineer, of Cranbrook, is a city visitor.

C. F. Pincott, the Rossland barrister, was among arrivals last night.

A. DeWolfe, of the C. P. R. engineering staff, came in from Cranbrook yesterday.

MISSIONARY TALKS ON KOREA AT ST. PAUL'S

Rev. Milton Jack of Hatzic, gave an interesting and instructicve talk on his work as a missionary in Korea at the Thanks offering meeting of the Women's Missionary society at St. Paul's church last night. He dwelt first on the habits and customs of the people, and then on the marvelous growth of Christianity in the last 12 years. He also told many stories of political and social unrest under Korean and Japanese rule Musical numbers were rendered by Mrs. J. Barr Stirling, Mrs. J. W. Crossley, A. McIntyre and F. Warner Smith. A collection amounting to $55 was taken up.

The timber for Solomon's temple was landed at Jaffa.

Correct Spooky Touch

HALLOWE'EN COSTUME.

A Hallowe'en suggestion is here shown by Miss Mary Miles Minter. The cusrtome gives the correct spooky touch in keeping with the occasion.

Metallic magnesium is being extensively used for insulator material.

A Michigan couple have had five children in one year.

Buy Hallam Furs By Mail—

Direct From "Trapper To Wearer"

It doesn't matter where you live in Canada, so long as His Majesty's mail will reach you, you can wear the latest styles and highest quality in fur coats or sets. Simply order by mail from HALLAM. The price is the same to everybody—everywhere. I pay all delivery charges.

All HALLAM Fur garments are high quality and wonderful value for the money—you can obtain them from me direct by mail at much lower prices than any furs elsewhere of the same quality—every HALLAM Fur garment is guaranteed.

DARK FITCH SET

This fur is very durable. The Cape is made from six large skins in a wide comfortable design trimmed with natural heads, tails and paws front and back as shown. About 12 inches wide on the shoulders, lined with brown crepe-de-chene with frill all around.

M 470 Delivered to You..$62.50

Muff in four stripe Canteen shape, velvet lined, crepe cuffs, wrist cord and ring, soft down bed.

M 471 Delivered to You..$50.00

Hallam Furs are an Economy

It used to be thought that furs were rather a luxury, but now the economical buyers have discovered that furs are a genuine economy as well as a necessity. A fur coat or set will last from five to fifteen years—to buy cloth coats to last this long would cost very much more than the furs in actual money. In addition to that, you always feel well dressed in furs, — always comfortable, — always warm.

Hallam Furs less than Half Price

You can obtain HALLAM furs this year at less than half the price that they were sold at last year. This is due partly to the drop in the price of raw skins, and to the fact that, as usual, I bought our furs at the very lowest ebb in the prices.

Why I Can Sell at Such Low Prices

In the first place, I buy the skins direct from the Trappers and Indians for cash, and am the largest cash buyer of furs in Canada. Then I sell direct to you for cash. This method saves you the various middlemen's profits, the fur dealer, the wholesaler and retailer, high store rent, sales clerks' salaries, bad accounts, etc.

Another big advantage is you can see the furs in your own home and can examine them at your leisure without being influenced by anxious sales clerks.

The coat and set illustrated in this advertisement are fair samples of HALLAM values, and will be sent you promptly on receipt of price.

If HALLAM furs do not please you in any way, you can simply send them back at my expense, and I will cheerfully return your money—you are not out one single cent.

You can be sure of satisfaction when you buy by mail from me. That is my guarantee.

Address in full as below:

John Hallam Limited

SATURDAY, OCT. 29, 1921.

The Kokanee Park Project.

The Kokanee Mountaineering club will have the people of the district solidly behind it in its campaign for the establishment of a Kokanee glacier provincial park reserve.

British Columbia wants tourists. It wants hundreds of thousands of them every year. It can offer them the finest scenery on the continent. It can offer them good hotels. It can offer excellent hunting. It can offer them first class railway service and in some districts good roads. But it must have more than this if the province is to reap the full benefit from its tourists attractions.

It must set aside provincial parks, it must add to their attractions in every possible way, it must make them accessible and it must let the world know that they await the tourist.

Kokanee is an attraction that it worth developing, from a general provincial as well as from a local viewpoint.

The Anglo-Saxon Nations Can and Should Dominate

Great Britain and the United States, working together, can make a success of the conference for the reduction of armaments.

They possess more power than another two nations in the world. They stand for moral forces in world politics as does no other nation. Their commercial interests are greater than those of any other powers. Their peoples feel at least as heavily, if not more heavily, the burden of taxation arising out of armament.

If they stand united and unflinching for reduction of armament, the rest of the nations at the conference must follow suit. There is no practical alternative.

But they must stand together. Never was it more necessary, excepting during the critical days of the great war, that the Anglo-Saxon race should present a solid front to the rest of the world.

Intolerable as An Alternative.

Hon. T. A. Crerar proposes a tax on land as a means to provide the revenue which Canada would require to replace customs revenue if the Crerar-Wood policy were adopted.

As Hon. James Wilson says, such a tax would be intolerable. It would be so intolerable that even Mr. Crerar, bewildered as he is by the theories which engross him, must have been particularly carried away by enthusiasm for free trade at the time he suggested it. Certainly he could never had thought the matter out and taken time to realize just what a Dominion tax on land, in addition to existing provincial and municipal taxes, would mean.

"Intolerable," in fact would not adequately describe such a tax.

Twenty Years Ago

From the Daily Miner, Oct. 29, 1901.

Mr. J. A. Irving, who returned from his eastern trip Monday evening, reports that business throughout Ontario was apparently good. The farming industry had greatly improved since his last visit, the farmers seeming to handle their land in a more business-like way. Farms which had been formerly given up to the raising of grain crops were now turned into dairy farms, the cheese factories taking a large portion at good prices. Everywhere the farmers were showing themselves adaptable to conditions and with better prices than had existed for some time and an air of prosperity was generally visible. In the cities conditions also were better, but taking it all into consideration Mr. Irving said he was glad to get back to the Kootenays.

* * *

Mr. and Mrs. Paul Johnson of Greenwood arrived on the train from the Boundary last night and are staying at the Phair.

* * *

Mr. Justice Irving left yesterday for Victoria, by way of Spokane, after attending to some business in the chambers in the morning.

Efficient Housekeeping

BY Laura A. Kirkman

HALLOWE'EN FUN FOR THE CONVALESCENT INVALID

Anybody who has ever been sick in bed knows that the *hardest time* to bear one's illness is on a holiday—when all the rest of the world is at play This Hallowe'en there are scores of convalescent invalids who are not able to accept invitations to parties or to enjoy the company of persons outside their own family, yet who would appreciate having their own *sickroom take on a "Hallowe'en"* appearance and would derive much pleasure in celebrating the occasion with some such simple game as that given below, which would not overtax their strength.

The decorations might be hung around the room when the invalid is taking a daytime nap; or the invalid's eyes might be bound with a silk handkerchief while the mysterious work of decorating is going on. A few bright pumpkin-faces (such as can be bought at any stationers' store) could be pinned to the window curtains. The lighting shades or bulbs could be gaily decked with orange and black so that when the lights were on, the room would be colored weirdly. Crepe paper streamers might be festooned here and there; and a real pumpkin, hollowed out, could stand on table or bureau as a Jack O'Lantern. *If some outside* friend of the invalid were to make this Jack O'Lantern, the invalid's enjoyment of it would be doubly keen; for when we are ill we are always pleased to know that our friends thing of us.

When the invalid awakes, or when the bandage is removed from his or her eyes, and the decorations have *been enjoyed, the following* game might be started:

The Witches Answers: From a child's copy of Mother Goose Rhymes trace *the picture of an old witch on* tissue paper; pin this piece of tissue to a piece of rather stiff cardboard and cut out around the witch figure. You can now color the cardboard with orange and black with a child's set of crayons. Place this witch on a large circular disc of stiff cardboard securing the two together by running a pin through the *middle of the witch-*figure and bending it flat on the under side of the cardboard disc. In this way, the witch will twirl around when spun with the finger. On the outside edges of the disc write, at intervals. "Soon" "In Two Weeks," "Good Things Ahead," "Keep Smiling," "Surprise Soon" and "Yes." Now on a sheet of paper write these sentences: "When Will I Get Well?" "When Will I Go to a Real Party?" "Is There Something Unexpected In Store For Me?" *(and any other sentences you like).* The invalid first reads aloud one of these sentences, then spins the witch on the dial; the top of her hat points to the answer on the outside of the disc when she stops spinning.

Following this game, a Jack Horner Pie, filled with messages from friends, could be "cut" by the invalid.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these colums in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. —The Editor.

Charlie's Aunt

MRS. MARKHAM.

Living in Colchester, England, is the great aunt of Charlie Chaplin. She is over eighty years old and is still hale and hearty. She receives $10 every week from the famous comedian.

The Lighter Side

Apartment dwellers realize that two pair make a full house and then some.

—o—

People who are worried by their surplus flesh can reduce it by finding something else to worry about.

—o—

The ground floor is always laid on sleepers, but this doesn't mean that sleepers get in on the ground floor.

—o—

A Montreal physician says some notes give all normal people pleasant thought Bank notes are like that.

—o—

When you try to get an idea into some heads you discover that peaceful penetration isn't always effective.

—o—

If there is any corrective value in suggestion, it might be well to place perpendicular steel bars on the windshields.

—o—

It may be all right to eliminate the flash of firearms, but what will wild west movies be if the hero can't flash a gun?

—o—

It is safe to say that a humorist has arrived when he writes a magazine article about the methods he used to reduce fat.

—o—

A writer says there are not enough homes for the feeble-minded. We are short of homes, it is true; but why be insulting about it?

—o—

The strange part of it is that a motorist can see a bent nail twenty yards ahead, but he can't see a pedestrian until he hits the radiator.

—o—

It may be that all good men are halted; but if only the good were hated, the world would be without malice for the first time in history.

FISHING WITH POISON.

Certain tribes of head-hunters in Borneo have a weird and unique *method of fishing.* They make a poison from the root of a vine and this they throw into the river and stupefy the fish. The fish are then caught in rudely constructed traps built across the river. In a few hours as many as a thousand fish will be caught by this means, the larger ones, on which the poison presumably does not have much effect, being speared as they rise to *the surface. Before* each fishing expedition an augury is taken. In the presence of the whole tribe a chief makes fire by pulling a piece of rattan (palm) around a bamboo stick to the ground. Should the rattan break before smoke ensues the undertaking is postponed for an hour or two. If the rattan breaks into two parts of equal length fish will not be caught. But if the right-hand piece *is longer* than the left all is well.

Daily Recipe

(Paste this in your cook book.)

RAISIN AND APRICOT PIE.

One and a half cups stewed dried apricots, one egg, one tablespoon cornstarch, one-half cup stewed seeded raisins, one cup sugar, one tablespoon lemon juice.

Place the fruits and the sugar with the lemon juice in a saucepan. Beat up the egg, blend the cornstarch in this with a little cold water. Stir this into the hot fruit and let simmer for several minutes. Pour into pastry-lined tin, cover with criss-cross strips of pastry, and bake in moderate oven until brown. This pie is also pleasing when covered with *meringue. In this* case heat two egg whites with sugar, pour over pie after baking, return to oven and bake until meringue is light brown. When using meringue omit criss-cross strips.

Ten Years Ago Today

From The Daily News, Oct. 29, 1911.

Colonel Wadmore, D. O. C., of Victoria, has returned from a visit of inspection to Rossland. He leaves this morning for Kaslo.

* * *

W. F. Tierney returned Saturday night from a visit to Three Forks, *where he made an inspection of* the construction of the line to Bear Lake, and registered at the Strathcona.

* * *

W. E. Newton, assayer at the Van-Roi mine, is in the city to meet his uncle, R. F. Green of Victoria. He is at the Strathcona.

* * *

John McRae, who has been farming in Ontario for some years, is revisiting *the city.*

* * *

W. T. Choate has returned from a hunting trip to the Kootenay flats, bringing with him 96 ducks. Archie Bishop and Alex Stewart, with whom he has been hunting, are still at the flats.

WHY SAILORS WEAR NAVY BLUE

Almost every country in the world clothes its sailors in blue, but it is not generally known how that color came *to be adopted.* It was about 170 years ago that the first bluejackets were evolved. It then became the uniform of the British royal navy. This was adopted in 1748 at the request of a number of naval captains. The seamen, at a meeting at Mill's coffee house in Scotland Yard, London, had decided that the navy ought to have its own uniform instead of wearing *either military dress or whatever* individual captains decided. They laid the suggestion before the admiralty

Styles

BY LENORE

PARIS.

"Make it with lace" has become as popular a catch phrase in the French dressmaking world as our own familiar "Say it with flowers." The Government has urged the use of hand-made laces to rehabilitate the French lace industry, and although we have *had an entire* Summer of dresses in which lace was the foundation, it again appears prominently in the Winter fashions. There are extravagant looking creations with exquisite silk

lace dyed in brilliant colors. Black, too, is used, and so are neutral colors, in charming, dignified styles that are soft and beautiful for the older woman.

One of the most attractive of these is of silver gray silk lace of substantial texture, combined with faille silk of the same color, and trimmed with *black fur. The sketch illustrates* how harmoniously the materials are combined. A panel of the silk divides the lace tunic in the back, and the wide sleeves are finished with a straight wide cuff of black Georgette.

PATTERN NO. 295

A pattern for the above model (No. 295) can be obtained in sizes 34, 36 or 38, by sending to LENORE, 8 West 40th St., NEW YORK CITY, your name, address, and 50 cents in postage stamps. *Be sure to keep this newspa*per clipping of the sketch and description of the garment to use as a working model when the pattern reaches you—which will be within two weeks' time.—The Editor.

board, and after a little delay for consideration were invited to confer upon the style and color to be adopted.

While engaged in discussing the subject the Duke of Bedford, first lord of the admiralty, entered and announced that the King had decided upon the uniform to be used in the royal navy. His majesty had seen the Duchess of Bedford riding in the park, clad in a becoming blue dress, primly trimmed with white and gold braid, and, admiring the costume, fixed upon *it for the navy.*

It was a happy choice and the navy had good reason to be thankful to the *clever lady who influenced the King to* make his decision, which has been adopted by the naval powers of the world.

ROYALTY AND PIPE SMOKING.

The Prince of Wales' loss and recovery of his cherished pipe suggests that he may be the first King of England to smoke a pipe in public. In the early Victorian era a pipe was still considered an abomination. King Edward, as a young man, had some difficulty in asserting his right to cigars, and Windsor castle had no smoking *room for a long period. As* King Edward VII. he rarely smoked anything in public except a cigar, though it is remembered that he broke down the long "port" sessions after dinner by introducing cigarettes even in places where smoking had been taboo, King George keeps his pipe for his private room.

Tadpoles treated with thyroxin turned into matured frogs almost at once.

FOSTER'S WEEKLY WEATHER BULLETIN

This weather chart is for your vicinity. Dates of month are at top. Warm waves are expected to reach *your vicinity near dates where crooked* line goes to tops; cooler than usual where they go to low points. Storm waves follow warm waves. Severe storms and increase of precipitation are indicated by widening of the zigzag temperature line.

WASHINGTON, D. C., Oct. 29.—We are into a new weather deal that will continue five or six months. During the first month of these weather periods not much change from *the previous period, usually occurs,* but two severe storms in the coming November, during the weeks centering on 14 and 28, will cause a greater change than is usual for the first month of this kind of weather period.

I am compelled to frequently repeat that all these storms move eastward are not in the direction that the wind blows. Storms are divided into warm waves, storm waves, cool waves.

First third of November temperatures will average a little above normal, second below and last third more above normal than the first; the month from about to above. Generally precipitation will be less than usual, greatest during the weeks centering on 14 and 28. Locations of moisture will not change much from average of past four months. Highest temperatures of November will reach meridian 90 near 3, 8, 13, 23, 30; lowest near 6, 11, 16, 26, Dec. 1.

A warm wave is due on meridian 90 *near Nov. 3, followed by moder*ate storms and cool wave, then another similar series reaching meridian 90 near Nov. 8, then in the next series look out for the blizzard.

ASTRONOMER SEES LUNAR VEGETATION

Asserts Rapid Foliage Growth, Blizzards and Snow Storms Prove Life.

Professor William Henry Pickering, one of the world's leading astronomers and an authority on lunar and Martian phenomena, has just completed a series of telescopic observations at the Harvard station at Mandeville, *Jamaica, which, he asserts, prove* beyond a doubt that life exists on the surface of the moon.

Professor Pickering makes no reference to a possibility that men or women or intelligent beings dwell on the mountain sides, in the villages or within the hidden lunar caves and fastnesses.

He bases his assertions as to moon life on a series of telescopic photographs of a crater on the moon's surface, known as Eratesthenes 11, with *circumference of 37 miles.* The photographs cover a period from August, 1920, to February, 1921, and disclose more detail, Professor Pickering asserts, than would be shown on the entire surface of the planet Mars.

Hundreds of reproductions were made of different sections of this great moon crater. Scientific examination of the photographic plates proves with *irrefutable certainty,* Professor Pickering asserts, that vast fields of foliage spring up with almost unbelievable rapidity when day begins to dawn on the lunar planet, that these wide sweeps of flora come to full blossom and then disappear, vanishing completely in a maximum period of eleven and in some places a less number of days.

The Harvard astronomer's moon plates disclose not only the presence of vegetation on the moon, but reveal other phenomena. Studies of the *photographs disclose* that great blizzards and snow storms sweep across portions of the moon, that volcanic eruptions are frequent there, that fields of moisture, or mist and fog appear and disappear and that clouds abound.

We find there a living world, lying at our very doors, where life in some respects resembles that on Mars, but *it is entirely unlike anything on our* planet, says Professor Pickering, a world which the astronomical profession in general, for the past 50 years, has utterly and systematically neglected and ignored—The New York Times.

Suggests Armored Cars to Protect Banks and Messengers at Winnipeg

WINNIPEG, Oct. 28.—An armored car to protect banks and bank messengers when engaged in transporting large quantities of money was recommended to the police commission by Chief C. N. Newton. The matter will be taken up with the Bankers' association.

The car would be equipped with riot guns. Part of its duty would be to protect the clearing house each morning when the chief daily transaction are being carried out.

Dark-eyed people have varying amounts of yellowish-brown pigment in front of the iris.

IT IS NOT SO!

There is no more calamitous statement than "A diamond is a diamond." Because while everyone desires the diamond they purchase to be of the finest quality, there are many grades on the market, only a small proportion being the highest.

Be sure that your diamond is the best possible by selecting a Birks'—*the very highest quality.*

Rinso

RINSO—not a cake soap, nor a chip soap, nor a washing powder, but pure granules so rich in cleaning value that dirt is loosened while the clothes are soaking. Yet so harmless that your things are as safe in the RINSO suds as in pure water alone.

Even the washboard wears out! What about your clothes?

RINSO is different from anything ever before produced—

It is fine granules of purest and highest-quality ingredients ever used in a family laundry soap.

It cleans by soaking in the rich foaming RINSO suds for a few hours and then thorough rinsing in either warm or cold water. Even the worst spots, the collar bands, cuff edges or hems, need only a slight rubbing between the hands to make them, too, perfectly clean.

Just soak the clothes with Rinso. A few hours later rinse them thoroughly in either warm or cold water. That's all. They're clean.

LEVER BROTHERS LIMITED TORONTO

If you have a washing machine—

Soak the clothes overnight in the usual Rinso way. The cleansing suds loosen every bit of dirt. In the morning operate the machine for a few minutes and the clothes are perfectly clean—even the most soiled spots.

CRANBROOK ASPIRES TO CULT OF MUSIC

CRANBROOK, Oct. 27.—A movement has been put on foot to organize a musical society in Cranbrook. It is hoped to interest enough people of vocal and orchestral ability to be able to put on performances by local talent at some later date.

Most cities of the size of Cranbrook and even smaller ones, have a musical organization of some kind and the lack of one here is keenly felt by true lovers of good music.

CRAWFORD BAY NOTES

CRAWFORD BAY, Oct. 27. — The Harvest Festival service held on Sunday at which Rev. J. S. Mahood officiated, was very well attended and the church effectively decorated with fruit, vegetables and flowers.

At the invitation of the Crawford Bay Women's Institute, Mrs. Garland Foster, of Nelson, has been giving a series of very interesting lectures here during the last two days her subjects being child's welfare, basketry and weaving.

Miss Warren, of Downton, (Wiltshire), England, arrived on the 20th inst and is the guest of Major and Mrs. J. S. Gooch.

O. H. Burden, A. Watson and A. C. Houghton, have gone duck shooting at Kootenay Flats.

Mrs. D. Dale spent several days in Nelson last week, as the guest of Mrs. Cornall.

Mrs. M. M. Fraser, of Kootenay Bay, left on Saturday for Edinboro, Scotland, with her guest, Miss and Miss Blair. Mrs. Fraser expects to return in a few months time. The farewell dance given in their honor came off at the Crawford Bay Hotel on the twelfth.

Numerous smoke clouds daily rising in every direction here during the past few weeks, indicate unusual land clearing activity.

CONCERT HELPS SCHOOL FUNDS

Dance Follows Fine Program Enjoyed by a Crowded House.

CAMP LISTER, Oct. 27.—A bumper crowd turned out from all ends of the valley to attend the concert and dance held in the local school house at 8 o'clock Saturday evening. Cars came out from Creston and Canyon and at the commencement of the program it was hardly possible to secure standing and briefly explained that the concert room.

Alfred R. Webb acted as chairman had been held for the purpose of raising funds to carry on the operation of the public school. This area still being held by the government it was not taxable and the school was being financed by voluntary contribution and concerts. He praised the committee, Mrs. Vincent Lidicoatt, Mrs. Jack Johnstone and H. Brown, for their untiring efforts to make the concert a success.

He spoke also of the difficulties faced by a school board who have no taxes to finance their operations and if the work of A. W. Atkins and Mrs. Millington.

The program which followed was one of local talent and the quality was proven by the fact that practically every item was encored. The concert commenced with a pianoforte selection by Mr. Fred Bagshaw, followed by Mr. Brown, violin solo; Mrs. George Jacks, recitation; J. W. Jory, clarinet solo; E. Langstone, vocal solo; H. and T. Newbury, guitar duet, and Mrs. Jeane Johnstone, vocal solo; J. Findlay Jr., cornet solo;; A. W. Atkins, vocal solo; H. Brown, vocal solo; Mrs. George Jacks, recitation; Mrs. J. Johnstone and J. Jory, vocal duet; Messrs. Brown and Yerbury brothers, selection, instrumental trio, and Fred Kunst, vocal solo.

A dance followed until the hour of midnight.

Appreciation is felt to Mrs. James Jory and Miss C. I. Campion of Nelson for their kindness in accompanying the artists, and to Mrs. James Garland of Creston for her excellent music during the dance.

The sum of $60 has been turned over to the school board from the concert proceeds.

CAMP LISTER NOTES

CAMP LISTER, Oct. 27.—The local sawmill has resumed operations, now the water has commenced rising in the damsite.

James Jory's carpenter gang, which has just finished the new store, has moved to the Bunting place on section 7.

A. W. Brain is under the weather this week, being attended by Dr. Henderson of Creston.

The Literary, Musical and Dramatic club held a successful meet on Wednesday evening, when the resolution "City life is better than country life," was debated. Mrs. Alfred R. Webb took the chair during the debate, while Ernest Langstone handled the city debaters and Mr. Atkins the country ones. The country people were given the decision.

The Literary, Musical and Dramatic club will hold a mock trial on Wednesday evening next in the schoolhouse at 7:30 p. m. The best debaters have been enlisted and this promises to be the finest verbal combat ever held in the settlement.

Mumps are having a good run, a large number of children in the south end of the valley being down with them.

Catarrhal Deafness and Head Noises

TELLS SAFE, SIMPLE, WAY TO TREAT AND RELIEVE AT HOME.

If you have catarrh, catarrhal deafness or head noises caused by catarrh of if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmint (Double Strength). Take this home and add to it ¼ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are symptoms which suggest the presence of catarrh and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

ULSTER OPPOSES INTERFERENCE

Interest Centers on Irish Debate in Commons Monday; Asquith to Speak.

LONDON, Oct. 28.—Formal meetings of the Irish conference and of the committee entrusted with the task of finding a formula for further negotiations between the parties temporarily are in obeyance, but formal negotiations through certain channels will continue and week-end meetings of the British representatives are likely to be held at Chequers Court, where Lloyd George is to spend the week-end.

Interest now centers on Monday's debate in the house of commons, of which the Irish question will be the subject. Mr. Asquith will speak, as will representatives of both the Liberal and Labor groups. The minority supporting the vote of censure of the government is expected to be very small. On the ground that Sir James Craig, the Ulster premier, assented to initiating the Irish negotations, which the vote intends to censure, the Ulsterites will abstain from voting.

Ulster Opposes Interference

Ulster's demand is that she be allowed to work her parliament and the Ulsterites will oppose any interference with the status granted this body.

Should the prime minister in his speech indicate any yielding to the Sinn Fein demands concerning Ulster, the latter's representatives have made it know that they will take a hostile attitude. The attorney general for Ireland, Thomas Brown, is an Ulster member, and it is believed he would resign from the ministry in protest.

Burn Police Barracks.

BELFAST, Oct. 28.—Police barracks at Passage, county Waterford, vacated Wednesday, were burned this morning by a number of men who invaded the village.

They warned the villagers in the vicinity of the barracks to seek safety and then sprinkled petrol about and set fire to the barracks. The men threatened penalties to any one who gave information concerning the affair.

MURDOCK ENDORSE WINNIPEG STRIKE

Expression of Dissatisfaction; King Does Not Oppose Farmers as Farmers

STOUFVILLE, Ont., Oct. 28.—(By Canadian Press staff correspondent.)—James Murdock, who was last night nominated by the Liberal party for the South Toronto riding, was the first speaker here this afternoon at Hon. Mackenzie King's meeting.

Once the war was over, Mr. Murdock said, there came the great problem, not only of taking care of the returned soldiers, but of the common people. The Winnipeg strike in 1919 was not a revolution against all government, as had been said, but an expression of dissatisfaction with the existing government.

The trouble came to an end and out of it grew the board of commerce to check gross profiteering. Mr. Murdock said in spite of his own work in Cleveland he had, after much persuasion, felt that the work on the board meant real work in the interest of the common people.

Ottawa Lukewarm

Ottawa, however, he said, seemed to have not merely a lukewarmness toward the efforts of the board, but a silent opposition. Finally there came the time when he was called before an aged and venerable gentleman, who gave him an hour and a quarter's gentle scolding and made it very clear that he, Mr. Murdock, must not antagonize those interests upon which the government had always counted for support, and so from then on the clamps were put on a little harder. Obstacles were quietly put in the way of the board's doing those things for which it was formed to do.

There was nothing for him to do but resign the position, notwithstanding the sacrifice he must make, said Mr. Murdock. He could have nothing to do with the "contemptible farce" which the cabinet was carrying on to fool the people of Canada. It was nothing less, he said, than covertly stealing from the common people.

Parties Means to an End.

Hon. Mackenzie King said that it had been found parties were only a means to an end. He believed that all friends of real progress should unite and present one undivided front to the enemy of progress.

Women were today a new political force in Canada. Mr. King said that far from having a right to plume themselves upon giving the women the vote, the present government had deliberately taken away their vote by the Wartimes Election act.

The Liberal platform of 1919, said Mr. King, took full account of the needs of the farmers. Practically since 1917 he had been a candidate for North York. He was not in the riding opposing farmers as farmers, but he was opposing any class standing for the rights of a class whether they were exploiting the people in the way Mr. Murdock had spoken of, whether they were representing the interests of one section of the people instead of the people as a whole.

Mr. King quoted from a letter written him by Dr. Michael Clark, who had just accepted Liberal nomination in MacKenzie.

"I have now come to see that a well-balanced Liberalism is the only hope for the country between the new Toryism and the old, for what is Toryism and what has it always been? Simply class rule with a view to securing special privileges."

Attacks Railway.

Speaking of the National railways, the Liberal leader said that it had been found that there was an interlocking of directorates which would wreck any concern. Vast contracts for insurance and equipment had been given to companies, directors of which were also directors of the Canadian National railways.

Mr. Crerar said the Liberal leader desired publicity for campaign funds. The Liberal party had shown itself solidly for this reform when the matter came up in the house. The Progressives had no monopoly in this respect.

Comparing the platforms of the Progressives, the National Council of Women, the Labor platform and of the Great War Veterans' association, Mr. King said that where the aims for improvement seemed to outdistance those of the Liberals, it was only in matters which were quite beyond practical success. There were two houses of parliament, and Mr. King said that in future it would be a real impossibility to get anything through the senate, filled as it was with appointees of Mr. Meighen.

ONTARIO SWINGS OVER TO MEIGHEN

(Continued from Page 1)

mean that rates on agricultural products about on a level with the present emergency scale will be forced into the tariff law, thus aiming a hard blow at agricultural importations from Canada."

Upsets Crerar-King View.

This development so completely impeaches the agrarian and Liberal platforms, which would tear down Canadian tariff walls regardless of what Washington does, that it is having a disastrous effect upon the Crerar-King campaign.

Mr. Meighen will conclude his Ontario tour Wednesday next and will then invade Quebec. He will spend about a week in the French Canadian province, after which he will swing westward, spending a week in British Columbia and then working his way back through the prairie provinces to conclude his campaign with one week of intensive speechmaking in Ontario.

LEGAL NOTICES

IN THE SUPREME COURT OF BRITISH COLUMBIA.
In Bankruptcy.

IN THE MATTER OF THE BANKRUPTCY OF GEORGE SMITH VANSTONE, DEBTOR.

TO GEORGE SMITH VANSTONE:

TAKE NOTICE that a bankruptcy petition has been presented against you in the Supreme Court of British Columbia in bankruptcy by the Bank of Montreal, and that the Court has ordered that the sending of a copy of the petition, together with copy of the Order for Substituted Service by registered post addressed to Mrs. J. Harty, 6 Madison Street, Newton, New Jersey, U. S. A., and the publication of this notice in the "Nelson Daily News" for two issues shall be deemed to be service of the petition upon you; and further take notice that the said petition will be heard by this Court on the 14th day of November, A. D. 1921, at the hour of eleven o'clock in the forenoon, on which day you are required to appear, and if you do not appear the Court may adjudge you bankrupt and may make a receiving order against you in your absence, on such proof of the statements in the petition as the Court shall think sufficient.

The petition can be inspected by you on application at my office.

Dated this 28th day of October, A. D. 1921.

T. M. BOWMAN,
Registrar.

MINERAL ACT

Certificate of Improvement

NOTICE

RED ROCK, RENO, LATHAM, CURLEW and DANDY Mineral Claims situate in the Nelson Mining Division of West Kootenay District.

At head of Fawn Creek, about twelve miles from Salmo.

TAKE NOTICE that I, CLARENCE A. POOL, acting as agent for Reno Gold Mines, Ltd., Free Miner's Certificate No. 39418C, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.

Dated this 10th day of October, A. D. 1921. (6947)

LOWER FREIGHT RATES SUGAR BEET CARLOADS

OTTAWA, Oct. 28.—(By Canadian Press.)—A general reduction of from 1 cent to 6 1-2 cents per 100 pounds on the railway freight charges on sugar beets will become effective on November 1, according to a judgment issued today by the Dominion board of railway commissioners in the application of the Dominion Sugar company, Wallaceburg, Ont., for a reduction in the rates charged by the railway companies on car loads of sugar beets to Wallaceburg.

This judgment effects the freight tariffs of the following railway companies:

Pere Marquette railway; Michigan Central railway; Grand Trunk railway; Canadian Pac. railway and the C. W. & L. E. Railway.

The new schedule is worked out on a mileage basis with an ascending tariff chargeable for each 100 pounds according to distance hauled.

TOKIO DICTATES CHINESE POLICY

Northcliffe Avers Washington Delegates Under Sway of Japanese Politicians.

LONDON, Oct. 28.—"The influence of Japan is considered to be sufficiently powerful to divert China as a nation from a straightforward attempt to state her case at the Washington conference," declares Lord Northcliffe in a signed Hongkong dispatch to the London Times, relating to interviews he has had with officials of the Republican government of South China.

Lord Northcliffe says that in the absence of President Sun Yat Sen, he interviewed Dr. Wu Ting Fang and other officials of the government which has its seat in Canton and claims to represent the views of more than 130,000,000 Chinese in the provinces of Yuan, Kwei-chow-Kwang, Tai, Kwang Tung and Sze Chuan, and is not under the sway of Japanese politicians.

"Pending recognition of its national status by the world powers," the dispatch continues, "President Sun Yat Sen's government declines to accede to the request made by the Peking government that it should send Wu Chao Chu, son of Dr. Wu Ting Fang, to Washington as its delegate, because the other Chinese delegates are the fettered nominees of the pro-Japanese clique which forms the Peking administration.

"President Sun Yat Sen claims that the delegates from Peking will only act in conformity with instructions which have been dictated by Tokio. Competent foreign authorities agree that there is some foundation for this contention. Whatever may be said as to the extent of the authority of President Sun Yat Sen's government, I consider it to be of vital importance to register this attitude."

ADMIRAL BEATTY RECEIVES OVATION

Public Enthusiasm Tremendous; Very Different to Official Reception.

NEW YORK, Oct. 28.—(By Canadian Press).—Admiral Lord Beatty who was given a remarkable ovation when he spoke at the Pilgrim society banquet last night, had another demonstration today of the esteem in which he is regarded by the people of New York. When the British admiral visited the floor of the New York stock exchange, trading was practically suspended while the members cheered him.

The welcome which has been extended to Earl Beatty by the public generally has been in direct contrast to the unenthusiastic tenor of the "Official" welcome extended by Mayor Hylan on his arrival. When he arose to speak last night, he was given a tremendous reception. It was several minutes before he was able to begin his speech. Later there was another spectacular outburst of applause when Rear Admiral Rodman of the United States navy; said:

"There is no question in my mind that our two nations will stand together and that they will always fight together."

Thousands of small union jacks were flung into the air and waved for five minutes amid tumultous cheering as the two admirals stood facing each other at the speaker's table.

CARNEGIE MEDALS FOR HEROES.

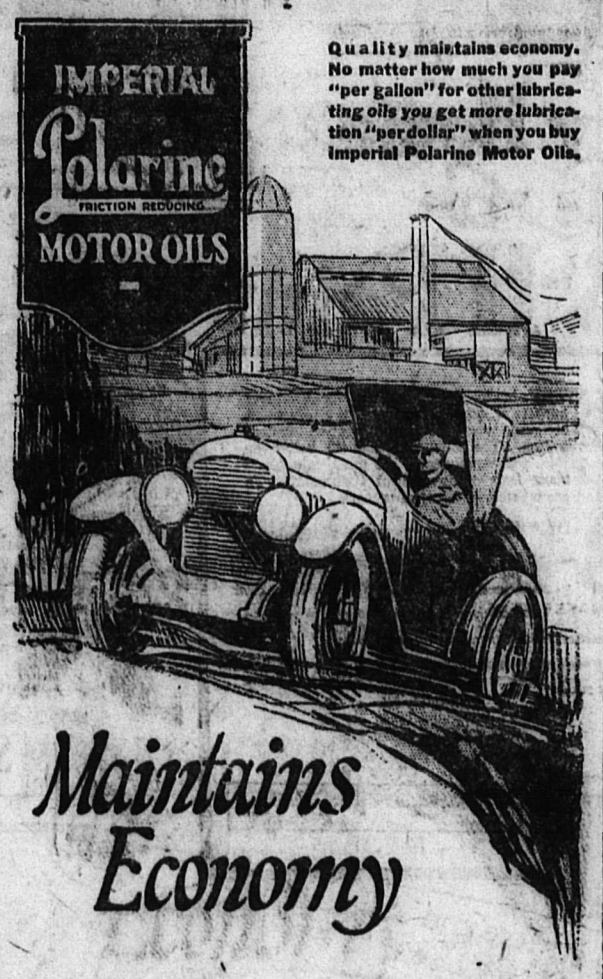
PITTSBURG, Oct. 28.—Among the 27 persons formally recognized by the Carnegie Hero Fund commission here today were William McRae, of Bonshaw, P. E. I., who was drowned while trying to save a companion at Westville, P. E. I., on August 16, 1920, and Cuthbert A. Fleming, of Alsask, Sask., for saving two boys from drowning at Empress, Alta., on July 18, 17920. Bronze medals were awarded.

That Brisk, Rich Flavour

found in every cup of the genuine

"SALADA" TEA

is the true flavour of the perfectly preserved leaf. This unique flavour has won for Salada the largest sale of any tea in America. 1029



Quality maintains economy. No matter how much you pay "per gallon" for other lubricating oils you get more lubrication "per dollar" when you buy Imperial Polarine Motor Oils.

Maintains Economy

IMPERIAL Polarine Motor Oils save many thousands of dollars every year for Canadian motorists because of reduced operating expenses.

Imperial Polarine Motor Oils cut down repair and maintenance costs, reduce fuel bills and insure you for all time against excessive depreciation and repair expenses. Imperial Polarine quality ***maintains economy*** all along the line.

Judged by quality—gauged by actual miles of perfect lubrication each gallon will give, and by real motoring satisfaction, Imperial Polarine is the least expensive motor lubricant that you can obtain. The more carefully you check up costs, the more thoroughly convinced you will be of the advantages of using Imperial Polarine Motor Oils ***exclusively.***

Standardize on the ***correct grade*** of Imperial Polarine Motor Oils. Consult our Chart of Recommendations at your dealer's or write to 56 Church Street, Toronto, for our interesting booklet, "Automotive Lubrication."

IMPERIAL OIL LIMITED

Branches in all Cities

For a Clean, Efficient Motor

Clean out your crank-case every thousand miles or less. Imperial Oil dealers displaying the sign shown on the right, will flush your crank-case with Imperial Flushing Oil, a specially prepared cleansing agent for crank-case cleaning purposes. You save money in longer life and more efficient service from your motor by using this service.

NELSON

WIFE ROBUST AGAIN; CLERGYMAN THANKS INTERNAL BATHING

From grateful women in all parts of America come letters telling of the benefits derived from Internal Bathing with the J. B. L. Cascade.

Thousands of other women, if the could see these letters, would quickly discard the medicine bottle and look to the real cause of their troubles. Ninety-five per cent of human ills are attributed to accumulated waste in the colon or lower intestine. Warm water, properly used with the J. B. L. Cascade will remove the cause of your troubles.

A Winnipeg clergyman writes: "My wife is naturally sensitive having her name appear in public print, yet is anxious that others should know what the J. B. L. Cascade has done for her. It has really given her a new lease of life. For years she had been doctoring for constipation, which became worse each year. Since using the J. B. L. Cascade first about four years ago, she has not been sick a day, and has become robust and strong again. Should any person wish this letter confirmed, you are at liberty to give my name in private."

The J. B. L. Cascade is an invention for internal bathing perfected by Dr. Charles A. Tyrell, of New York. It is shown and explained at Canada Drug & Book Co., Nelson, B. C.

Ask for booklet explaining all about Internal Bathing and what it has done for others. It is free, or write to Tyrell Hygenic Institute, 163 College Street, Toronto.

IT NEVER CHANGES

British Columbia dairy herds are among the finest in America. Buyers of purebred stock come to this province from everywhere to buy cows from the Fraser valley dairymen.

Pacific Milk is the only milk put up in this province and its uniform high quality is due to the high standard maintained by the dairymen.

No matter how the label on a can may read, there is only one milk put up in British Columbia—and it has never changed.

PACIFIC MILK COMPANY
LIMITED

The Kootenay Veteran

Appearing Weekly.

The G. W. V. A. is an organization of the returned soldiers of Canada.

Its aims are:

- To enshrine the memory of those who died.
- To maintain the ties of comradeship.
- To cherish in loving care the widow and the orphan.
- To assure due provision for the sick and disabled.
- To lend the strength of numbers to the cause of the weak.
- To hold aloft the torch of unselfish service.
- To perpetuate British ideals.

'Shun!

Branch correspondents kindly have copy in at first of each week. What are your regular meeting dates?

Veterans who have constructive ideas that might benefit the returned men or the Association, please loosen up.

Convention Appeals for Limitation of Armaments

On the subject of disarmament the Port Arthur convention passed the following resolution:

"The members of the Great War Veterans' association, in annual convention assembled, view with deep satisfaction the movement inaugurated by President Harding toward disarament.

"We woud assure the leaders of this splendid step toward world peace that the ex-service men of this association support to the limit of their ability the movement for limitation of armaments.

"We believe that the time has come for a real trial of Christian principles in the realm of politics. We further suggest to the churches of Canada that special prayers for the success of the conference be offered on the Sunday nearest to the date of the conference, and that sermons and addresses bearing on the subject be given by the laity of our churches. We give utterance to this resolution because we believe that the happiness and peace of the world will only be reached by striving for the ideal long ago expressed, when men turn their swords into plowshares and their spears into pruning forks, so that we may keep faith with those who sleep where poppies grow in Flanders Fields."

Cranbrook Watches Amalgamation Issue

Cranbrook Branch

Members of the local branch are eagerly awaiting the return from Port Arthur of Comrade Ray Johnson, our delegate. He is expected back with the rest of the delegates sometime this week. A resume of the doings of the convention by one who has had the opportunity of obtaining his information at first hand will certainly be interesting. The press reports of the convention have not supplied nearly all the information which every member of the association would like to obtain. The question of amalgamation still seems an open one although the fact of the G. W. V. A. meeting the other bodies half way ought to help to disabuse the minds of those people who from various motives have accused our organization with the endeavor to prevent the affiliation of all the various soldier association. The matter when put up to the members of the various bodies should be rapidly settled. The greatest amount of criticism appears to have come from men who are entirely without the fold of any club and will probably remain there whatever the result.

Preparations for the distribution of poppies on Nov. 11th are being pushed, and by the end of this week our committee in charge of the 'Poppy Day," Comrades Ashworth, Childs and Kay, expect to have everything ready for the big push. This opportunity to give concrete evidence of the feelings of the people toward the fallen comrades who rest beneath the very ground where the originals of the silk poppies to be sold, will no doubt be taken full advantage of, and the Cranbrook Branch of the G. W. V. A. means to make the movement to have Armistice Day a "Day of Reverend Memory" and the wearing of the Poppy, The Memorial Flower a real one, so far as our District is concerned. We have ordered somewhere around 3500 of both small and large flowers and are going to see that every one finds a resting place in some coat or dress or home.

The G. W. V. A. Armistice Day dance is being again held this year in the Auditorium. It was at first intended to hold the affair in our own hall but the concensus of opinion seems to be tht our floor will not begin to hold the crowd that is confidently expected to be there. The G. B. C. X. Y. Z. c'ub, a local club composed of the young girls of the city are taking over the entire arrangements in connection with the dance. Their connection with it place absolutely at rest all fears as to the success of the night. The last three big dances which have been such successes were handled by this club. Their capabilities in this line of entertainment are a local proverb, so that any one coming to our affair an Nov. 11th, can be assured of the best evening's pleasure of the year.

The canteen question is again becoming an issue now that the legislature is in session at Victoria. The hope is that the act wi'l be amended to allow beer to be sold. If this hope becomes a reality it will lift from our shoulders a great deal of worry over the question of finaninc our club the coming winter.

Our drive to bring all the members of our Branch up to date has met with ready response. The letter which was sent out to every member setting forth the standing, requirements and work of the association has awakened many of our sleeping members to the fact that the G. W. V. A. is a real live body working tooth and nail for everything they can get to make the lot of the returned man an easier one than it would have been without such work, and so the due book is beginning to take on a cheery look. Still we shall not be satisfied until we can see it actually beaming with satisfaction that no one is still behind in his fees.

Zone Representative to Visit Proctor

PROCTOR, Oct. 26.—The local G. W. V. A. is expecting a b'g turnout of veterans to hear Comrade Currie, Kootenay zone representative, at their next regular meeting on October 30. Comrade Currie is just back from the Dominion convention at Port Arthur and his speech is sure to be of interest to veterans.

Arrangments are completed by the ladies' auxiliary of the G. W. V. A. for 'poppy day."

FIGHT PROPERTY TAX

VICTORIA, Oct. 28.—The Victoria city council decided today to join forces with the Vancouver council and business interests in the fight against continuance of the provincial personal property tax.

More than 1,000,000 acres of rubber plantations are under cultivation in the Dutch East Indies.

AMALGAMATION DECISION OF RECENT . . . . . GREAT WAR VETERANS' CONVENTION WILL BECOME HISTORIC EPISODE

A subject of deliberation in one way and another for four days, the issue of amalgamation was the overshadowing one at the great G. W. V. A. convention at Port Arthur. When finally the convention voted upon the issue, and expressed its willingness to go into a temporary federation of ex-service men's organizations with amalgamation definitely in view, the decision came as a thunderous "aye," only a couple of votes being cast against the motion.

Inter-Organization Conference Meets

For eight hours on the Sunday preceding the opening of the convention, specially appointed representatives of the Great War Veterans' association, the Army and Navy Veterans in Canada, the Grand Army of United Veterans, and the Imperial Veterans in Canada—the four bodies with a Dominion organization—and the temporary executive of the Canadian Legion, wrestled with the question. It was found that all the organizations were at one as to vital aims, but the conferees soon came to the conclusion that at present it was not possible to pour all the organizations into a mould and pour them out as a solid body.

A federation, therefore, appeared to them the obvious step, pending the solution of the difficulties standing in the way of actual amalgamation.

The exact formula in which the conclusion of the inter-organization conference should be presented to the various conventions took some framing, in order to make it acceptable to the G. A. U. V. representatives. Political action, though not referred to in the constitution of the G. A. U. V., has nevertheless been that organization's special tenet, and the G. A. U. V. delegation of four was willing to sink political action without trace in a federation avowedly entered upon as a phase in the development of amalgamation. If, however, this associating of organizations was to be a federation pure and simple with no ultimate merger in view, the G. A. U. V., while ready to federate, insisted on retaining complete liberty of action within the federation.

While all the conferees found themselves in agreement on the advisability of amalgamation by the federation route, no vote was taken on this point, but a report was prepared, inviting the conventions of the great organizations to express their preference as between (a) "amalgamation and affiliation," (b) "federation leading to malgamation," and (c) any other type or means of unification that could be suggested.

British Columbia's Attitude.

When the convention was called to order Monday it was rumored that amalgamation was to be reported against and federation was to be recommended and, with the knowledge that some of the fraternal delegates had already caught their trains, and others who had delivered brief fraternal addresses, were awaiting theirs the British Columbia delegation as a salid block demanded that the fraternal delegates be held and those who had left urged to return, in order to publicly discuss the issue in the hearing of the convention. The storm raised by British Columbia arrested the demobilization of the fraternal delegates, but the province's demand that amalgamation be placed first on the agenda was not honored. When the procedure committe made its first report on Tuesday morning, it relegated amalgamation to the tail of the procession, behind such subjects as unemployment, housing and organization. As the reports of those subjects were for the most part not ready, the kindly intentions of the procedure committee were frustrated, and the great topic of the convention was reached that afternoon.

Some misguided delegates with an enthusiasm for forms of procedure wanted the resolution reported by the conference accepted as all the report that could be expected, but this obstruction was brushed aside and the convention asked the association's representatives at the conference, President R. B. Maxwell and Secretary-Treasurer C. G. MacNeil, to state the grounds on which the union, and that it would cheerfully go out of business if necessary to further that object.

Views of Other Organizations.

The principal delegates who spoke were President McNicol and Secretary J. Fred Marsh of the G. A. U. V.; President Gafin Jones of the Army and Navy Veterans, and President Berg and Secretary Vaughan of the Imperial Veterans. All appeared absolutely sincere.

The head of the Army and Navy Veterans stated his organization was in fact a federation of episodes in the history of the Empire, from the "Men of '66" on, and that it had gone through amalgamations already. His membership was willing to give and take in order to secure union. President Berg of the Imperial Veterans, said his membership favored unity, but he appeared to think it necessary that the amalgamated organization should have a Canadian branch and an imperial branch. While this idea of two branches was never argued out on the floor of the convention, it was common comment among the members that Secretary MacNeil regularly handled a larger volume of claims respecting imperials than did the Imperial Veterans themselves, and that there was no need to perpetuate such a division.

Secretary Marsh Storm Center.

Secretary Marsh of the G. A. U. V. was, to a large extent, the hero of the long drawn out and highly controversial debate. He was the target for countless questions, many of them conveying insinuations, and thoroughly convinced the mass of the delegates that he was playing square and also had nothing unsavory to answer for. It was in Ontario that the rub came, where the relations between one of the organizations that went into the composition of the G. A. U. V., and the G. W. V. A. were most bitter.

Representative Ontario delegates expressed a desire for unity and a willingness to bury the hatchet, but pleaded that the "sores were still too raw" for a closer union at the moment than federation.

The debate brought out the fact that not only in Toronto, but in numerous other Ontario cities, and in Winnipeg, New Westminster and Victoria, among western centers, mass meetings of returned men, as often as not called by the president of the local G. W. V. A., had demanded amalgamation. The Victoria branch wired to the convention that it would secede if amalgamation was rejected.

Alberta delegates were the only

DYED HER DRESS AND CHILD'S COAT

Package of "Diamond Dyes" makes any Garment or Drapery Like New.

Don't wonder whether you can dye or tint successfully. Just buy "Diamond Dyes"—no other kind—and follow the simple directions in every package. Then perfect home dyeing is guaranteed even if you never have dyed before. Worn faded dresses, skirts, waists, coats, sweaters, stockings, draperies, hangings, everything, become like new again. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

WHAT DID BETTY BUY?

COPY OF BETTY'S LETTER

Dear Mr. Simpson

You know Clara Green, don't you? WELL SHE WANTED TO BE A NURSE. What do you think of that? OF COURSE SHE WAS SIMPLY TRYING TO APE A SISTER OF MINE. However she left for Toronto taking her maid Topsy to carry her luggage. When they got to the station the train was pulling out. THEY RAN SO FAST TOPSY RUPTURED A BLOOD VESSEL IN HER LEG. However Clara got on the train alright. Then what do you think happened? SHE TUMBLED AND FELL PEL-MEL ON HER BAGGAGE. Isn't that funny? I BET SHE WANTED TO BAN A NASTY ENGINEER FOR JERKING THE TRAIN SO. She soon got herself in order and reached her seat safely. SHE TOOK OUT A BOOK BY CHARLES LAMB READ A PAGE AND FELL ASLEEP. On arriving in Toronto she woke with a start, and hurried off. Her baggage was heavy and looked a burden. A NICE CHAP PLEADED TO HELP HER She refused to let him as he was a stranger. But after walking two blocks she was tired out THEN SHE THOUGHT HERSELF A SIMPLE MONSTER FOR REFUSING HIS HELP. She finally reached the Training School and registered. But she did n't like it a bit. She felt very blue. IN FACT AT HER DINNER SHE ATE A VERY LITTLE. She fought with her room mate. IN A FIT OF JEALOUSY OR ANGER SHE LEFT. However before going home she bought a new dress at Smith's store. When she tried it on it didn't fit. SO SHE TOOK IT TO SMITH'S ALTERATION ROOM FOR CHANGES. Even then it didn't fit, and she wouldn't keep it. SO APPLYING FOR REFUND SHE GOT HER MONEY BACK. Then she took the next train for home. Isn't that an interesting story?

Betty Beatty.

PUZZLE

FIND ABOVE THE NAMES OF 12 ARTICLES SCLD IN A GROCERY STORE

John Simpson was amazed when he read the above letter, which Betty Beatty had handed him. "Our order is in that letter" said Betty. "I've hidden the name of each article I've come to buy in each of the underlined entences. Puzzle it out and I'll tell you the quantities." "Well" said Mr. Simpson "I can't find the name of a single article in my store, that is mentioned in your note." "Of course you can't" said Betty. But here's the clue. In each underlined sentence I've hidden one name. It is only the name of a grocery, fruit or vegetable and there is just one thing is each sentence. The letters aren't jumbled and all you have to do is to find the right letter to start on. For instance, if you start on the letter "B" in the fifth word of the first underlined sentence you will quickly see B-L-A-N. That's the name of one of the things I want. There are twelve items altogether, and the name of each one is hidden in one of the underlined sentences. So now what do I want to find the names and you get the order."

John Simpson puzzled the letter out and got the order. Can you do as well? If you can mail your answers at once Over $2500.00 in prizes and rewards is being given. Remember there are no trade mark name or products at any particular manufacturer In many cases, as in the first underlined sentence, the single name as "Bean" and not the plural "Beans" is used. Be very careful, therefore, if you find the names to spell them exactly as they appear in the sentence.

WIN! $2500.00 in Prizes

THE PRIZES

1st. Prize- Ford, Sedan, Value $990.00
2nd. Prize- Ford Touring, Value $565.00

3rd. Prize - $200.00	14th. Prize - $5.00

THIS GREAT CONTEST IS ABSOLUTELY FREE OF EXPENSE

There is nothing to pay—nothing to buy!

This wonderful Contest is nothing more nor less than a great advertising and introduction campaign. It is absolutely free of expense. You may enter and win the best of the prizes without spending a single cent of your money. You do not have to buy anything, or subscribe to anything, in order to compete.

The Contest is conducted by the Continental Publishing Co. Limited, one of the strongest and best known publishing houses in Canada. That is your guarantee that the prizes will be awarded with absolute fairness and squareness.

Three independent judges, having no connection of any kind with this firm, will judge the answers at the close of the Contest, and award the prizes. Contestants must agree to abide by their decisions.

In sending your solution use one side of the paper only, and put your name and address (stating whether Miss, Mrs., Mr. or Master) in the upper left hand corner. If you wish to write anything but your answers use a seperate sheet of paper.

The answers gaining 240 points will win first prize. You get 110 points if you find all the words correctly(10 points for each correct answer, excepting 1 which is given and 20 points will be given for general neatness, punctuation and spelling, 10 points for handwriting and 100 points for fulfilling a simple condition of the Contest. This condition is only that you assist in this big advertising campaign by showing a copy of Everywoman's World, Canada's greatest Magazine (which we will send you post paid) to just four friends or neighbors, who will appreciate this really worth while Canadian publication and want it to come to them every month. You will easily fulfill this simple condition in a few minutes of your spare time. The Contest will close at 6 p.m. June 30th. 1922. Immediately after which the judges will start to judge the answers and award the prizes.

DONT DELAY! Send your answer today. This announcement may not appear in this paper again.

Address The Contest Manager, Department 283 Continental Publishing Co. Limited, Toronto, Ont.

FOR INDIGESTION, GAS, SOUR, ACID STOMACH, TAKE "DIAPEPSIN"

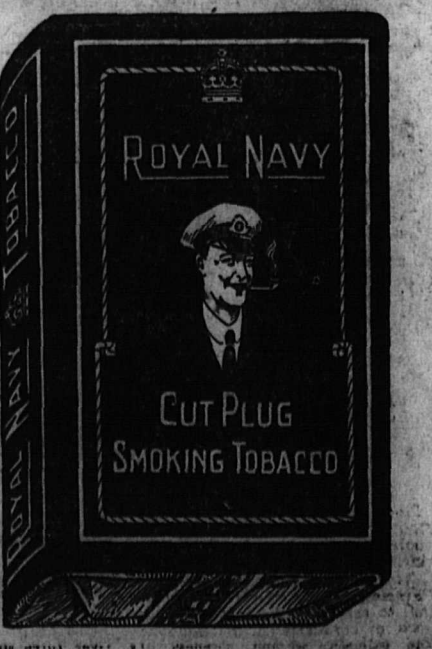
"Pape's Diapepsin" is the quickest, surest relief for Indigestion, Gases, Flatulence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only few cents at drug store. Millions helped annually.

'ROYAL NAVY' CUT PLUG

BEST VALUE FOR 15¢

FINEST QUALITY

Rich-Ripe-Mellow Virginia Tobacco



Makes a Family Supply of Cough Remedy

Really better than ready-made cough syrups, and saves about $2. Easily and quickly prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a 16-oz. bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is 16 ounces of really better cough syrup than you could buy ready-made and saves easily $2. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, hoarseness and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Baby's Own Soap

face, hands & body lather them freely with Baby's Own Soap

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

RAILWAY BOARD SITS HERE TODAY

Commissioners Arrive; Four Applications Up for Hearing, Including Freight Rate

Four matters will come up for the attention of the board of railway commissioners for Canada at its sittings in the city hall, which begin at 10 o'clock this morning. The commissioners arrived by private car last night from the coast.

There will be further hearing of the aplication of the province for a reduction in freight rates. G. G. McGeer, of McGeer & McGeer, Vancouver, who will represent the attorney-general, arrived last night.

The Great Northern railway application for permission to discontinue service of their Red Mountain branch will be heard. E. H. McNeil, K. C., of Vancouver, who arrived last night is retained by the company. A number of Great Northern officials will attend the hearing, including J. M. Doyle, superintendent of the Spokane division; A. M. Anderson, right of way agent of Spokane; G. Lantry, assistant divisional superintendent, and W. H. Fortier, treasurer of the Nelson & Fort Sheppard railway.

The case of C. I. Archibald, the lumberman, vs. the Great Northern railway will be up.

An application for a reduction of British Columbia Telephone company's rates in this district will be made. Lieut.-Commander R. Burke, V. C., of Nine Mile, and Fred A. Starkey, commissioner of the Associated Boards of Trade of Eastern British Columbia, will appear.

AMALGAMATION DECISION WILL BECOME HISTORIC

(Continued from Page Six.)

ones to express perfect contentment with conditions as they exist, the G. W. V. A. being the only soldiers' organization in that province and having a large and aggressive membership.

Can Not Be Forced.

Two points were emphasized by Secretary MacNeil—that there had been unfailing cooperation between the Dominion commands of the major organizations, and that amalgamation could not be forced if even a few branches stood out. The opinion was also expressed that ultimately amalgamation would have to be brought into effect by vote of the membership of the organizations concerned.

Hundreds of speeches were made during the two sessions over which the debate extended and probably 50 different delegates placed their views on record.

Early in the debate there was a motion to federate "under the constitution of the British Empire Service league"—whatever that might mean—but it was decided to let federating with that league be a question by itself. Later in the week the constitution of that league was submitted for consideration and was adopted, and the G. W. V. A. officially affiliated with it.

Finally the convention applied the cloture to the amalgamation debate at noon Wednesday, and the vote was taken. "Big Bill" Irwin of Edmonton, one of the alternative chairmen, who had presided over most of the debate, put the question and when the delegates affirmed their practically unanimous desire for a federation leading up to amalgamation by a roar of "ayes," Chairman Irwin turned to Fraternal Delegate Marsh and said: "There, sir, is your answer!"

The Resolution.

The resolution adopted was as follows:

"That this convention is in favor of a nonsectarian, nonpartizan federation of ex-service men's organizations in Canada, so that by conjoint action the interests of those who have made sacrifices in the great war may be protected and advanced, each organization in such federation maintaining its own individual identity; and instructs its officers to take all possible steps toward the formation of such a federation.

And further, that such a federation may lead to ultimate amalgamation, we authorize our Dominion Command to take part in any conference which may be arranged with such amalgamation in view."

Three conventions of as many great organizations in little more than as many weeks have passed upon or will pass upon this issue.

If all three pronounce in a similar way concerted action on ex-service men's problems in Canada will almost certainly come into being at once.

FARMER-LABOR GROUP NAMES DELEGATES

At a large meeting of the supporters of the Farmer-Labor movement on Wednesday evening, the following delegates were elected to represent the Nelson electoral district at the convention to be held in Eagle hall, commencing at 11 o'clock Tuesday morning: J. Kilby, J. A. Kinney, L. W. Humphrey, J. Bradshaw, C. H. Sewell, F. Phillips, W. T. Choate, George Turner, Thomas Royan, E. N. McBeth, J. Long, Walter Shackleton, T. L. Bloomer, W. J. McKim. The Prospectors association will also send a delegate. F. Simonds will be the secretary of the convention, without voting power except as a proxy.

It is expected each Farmers local will send an additional delegate over and above their propriation of representation in the six electoral districts in view of the scattered and wire spread territory embracing the farmers.

PROMINENT LIBERALS COME HERE FRIDAY

Word was received here by the Nelson Liberal association yesterday that the visit of Major General Victor Odlum, M. A. Macdonald, M. P. P., and Dr. J. H. Hamilton, of Revelstoke, in confiection with the Liberal party campaign, has been postponed from November 2 until Friday, November 4.

THREE BUSINESS HOUSES.

SANDY LAK, Man., Oct. 28.—Fire early this morning completely destroyed three places of business here causing a loss of $25,000.

Over three hundred languages are spoken in India.

RENO COMPANY INCORPORATED

Officers Believe Very Promising Gold Property Will Shortly Be Big Producer.

The Reno Gold Mines Ltd., of Sheep Creek, has been incorporated with a capital of $1,000,000 in dollar shares, of which 500,000 have been placed in the treasury. The officers are: W. B. Pool, president and general manager; Thomas Kilpatrick, vice president; Clarence Poo', treasurer; James O'Shea, secretary and solicitor; Michael O'Donnell, director and the superintendent of development work.

This property has six veins that have been prospected sufficiently to prove the Reno has great potentiality. No. 1, or the main vein, has been traced 1700 feet. It has a width of three feet. Its assayed values in gold average $30. Four assays recently taken showed gold values of $66.20, $213.40, $146.80 and $87.80. For over 100 feet a shoot has been defined carrying well over $100 a ton in gold. The other three veins show very similar potentialities.

The owners of this promising gold property are offering for sale a limited issue of shares. In doing so they feel they are placing before Nelson citizens the opportunity to invest in a property that will shortly be one of the big gold producers of the district. Sale of the company's stock has been certified by A. G. Langley, the government engineer.

The management desires the assistance of Nelson citizens in their efforts to bring to fruition a property that will assist in making a prosperous Nelson. The shares, which are nonassessable, are being offered at 25 cents a share.

Legs of the centipede move in groups, producing a waving of the body.

Leather plus Rubber

The ideal combination for soles and heels—leather next to the foot — rubber next to the ground.

—Phillips' Military Soles and Heels turn the trick—give you an ideal sole—make your shoes last twice as long—give double the satisfaction.

Can be Attached to Any Shoe

Fifteen Million Sets of Phillips' Military Soles and Heels were sold in Great Britain last year.

BRINGS SHIPPING TO A STANDSTILL

Fog Off Cape Flattery Holds Up Incoming Vessels; Delays Japanese Delegates.

VICTORIA, Oct. 28.—For settled down over the Straits of Juan de Fucca and the vicinity of Cape Flattery early this evening and brought incoming shipping to a standstill. Three vessels bound for this port reported tonight by wireless that they were fog bound.

The Nippon Yusen Kaisha liner Kashima Maru, already delayed for more than a day by the tumultous behaviour of the Pacific during the past two weeks, at 8:30 tonight was still off Swiftsure lightship, 10 miles off Cape Flattery, waiting for the fog to lift from the entrance to the straits. She carries the Japanese delegates to the disarmament conference.

ALL APPROVED SHIP PROGRAM

Ballantyne Quotes Speeches Proving Opponents' Support of Merchant Marine.

MONTREAL, Oct. 28.—That the Canadian government merchant marine steamships, with a dead weight tonnage of approximately 380,725 tons, built at an average cost of $191.90 per ton, had received the unanimous approval of parliament, not one voice having been raised against one of its provisions, and had in particular been given the express approval of Hon. Rodolphe Lemieux and Hon. W. S. Fielding, was the statement today of Hon. C. C. Ballantyne, minister of marine and fisheries, speaking at a meeting of the women electors in the St. Lawrence-St. George division here.

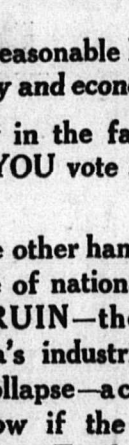
Mr. Ballantyne quoted the speeches of Messrs. Lemieux and Fielding, complimenting them and the government on the shipbuilding program when, in March, 1913, Sir Robert Borden announced that an appropriation of $25,000,000 had been authorized in that connection.

MOTHER! MOVE CHILD'S BOWELS WITH 'CALIFORNIA FIG SYRUP'

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

THIN, FADED HAIR NEEDS "DANDERINE" TO THICKEN IT



35 cents buys a bottle of "Danderine." Within ten minutes after the first application you can not find a single trace of dandruff or falling hair. Danderine is to the hair what fresh showers or rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping your hair to grow long, thick and luxuriant.

Girls' Girls. Don't let your hair stay lifeless, colorless, thin, scraggy. A single application of delightful Danderine will double the beauty and radiance of your hair and make it look twice as abundant.

Why Do You Coddle Corns?

Simple Touch Can End Them and at Once

WHY pare a corn and keep it? Why pad it and let it remain? Or why treat it in old ways, harsh, crude and uncertain?

Millions have found a new way. It is Blue-jay—the plaster or the liquid. A touch applies it, and the pain stops instantly. Then the whole corn quickly loosens and comes out.

The way is gentle, scientific, sure. A famous expert evolved it. A world-famed surgical dressing house produces it.

It is freeing thousands of people—why not you? Try it on one corn and you will always let it end yours. Start tonight.

Your druggist has

danger!

Canada has a momentous decision to make.

In no previous election has there been a more vital, clean-cut issue affecting the future of every individual Canadian and indeed the future of the Country.

The people are asked to decide between Reasonable Protection and Free Trade, between continued Prosperity and economic Ruin.

Everyone should look the facts squarely in the face—free from partisan bias or class prejudice—for as YOU vote so must YOU accept the consequences of your vote.

On the one hand there is the unassailable truth that Canada has enjoyed PROSPERITY during the past half century, due entirely to its policy of upholding a reasonable protective tariff, and to the diligence and industry of its people.

In view of present world-wide conditions of Uncertainty, Unrest, and Unemployment — the inevitable aftermath of War—Protection is needed today more than ever before. In fact, Protection, coupled with unflinching courage by the People and a strong, stable Government is the only hope Canada has of emerging from the crisis with its strength and economic liberty unimpaired.

On the other hand there is the spectre of national and individual RUIN—the spectre of Canada's industrial and economic collapse—a collapse certain to follow if the people adopt the Free Trade policies of Crerar, or the wobbling, indefinite tariff proposals of King.

Should Meighen fail to obtain a clear working majority Crerar and King will combine to destroy the Fiscal policy that has made Canada industrially great. Business stagnation would be sure to follow and the country would be set back twenty years.

Under Free Trade the Canadian dollar would depreciate still more, Canadian industries would be driven to the United States, thousands of Canadian men and women would be deprived of their employment, and the Canadian farmer would lose his home market.

At this critical time Canada should vote for a leader who knows where he is going and why.

TAKE NO CHANCES

Meighen will lead us through

A 2.

The National Liberal and Conservative Party Publicity Committee.

Markets and Finance

MARKET RESPONDS TO STRIKE CONGE

Leading Rails Score Gains; Relaxed Money Accelerates Bull Movement.

NEW YORK, Oct. 28.—The market today responded to the abandonment of the proposed railroad strike by an active session in which sales approximated one million shares and leading rails, industrials and many specialties scored extreme gains of 1 to 3 points.

Steels, equipments, motors, coppers and a wide variety of miscellaneous issues contributed their share to the day's large and diversified operations.

Domestic oils, the feature of the past few days, contributed to the forward movement, California issues again being most prominent. Realizing of profit taking sales made little impression until the final hour, when reactions of 1 to 2 points resulted in an easy close.

Relaxed money conditions accelerated the upward movement, call money declining from 6 per cent to 5 per cent at midday. In private negotiations loans were made at as low as 4 1-2 per cent, 30 and 60 day accommodations also showing slight concessions.

All the important foreign exchanges were lower, with declines of 3 to 10 points for the more active continental remittances, excepting the French rate, which was steady.

Railroads bonds also strengthened on the strike settlement and domestic industrials were moderately better.

Victory notes were at highest quotations of the year and most Liberty bonds closed at advances.

Total sales, $14,850,000.

DOMINION TRADE.

WINNIPEG, Oct. 28.—"Improvement in wholesale circles maintained," "slight improvement this week," "expansion continues." These three expressions of opinion are found in advices from the east and would seem to be a reflection of business conditions there, states the weekly trade report of the Canadian Creditmen's Trust association.

Montreal advices state that little change has taken place in business conditions during the last week. The movement of wholesale trade is mostly confined to sorting orders. Retail trade is reported to be generally fair. Failures for the week number 17, with liabilities totaling $450,000.

Reports from Toronto and Ontario generally convey opinion that manufacturers and wholesalers find the improvement in business maintained. Retail business is fairly active and is expected to become more so with the colder weather. Grocers, drygoods, boots and shoes and furniture houses report business satisfactory.

Winnipeg and the west, while finding business on the upgrade, is marking time to a certain extent with continued wet weather. During the past week trade has been quiet and collections slow. Retail trade is showing a slight improvement with the expected advent of more seasonable weather and an improvement is reported in ladies' wear, drygoods and boots and shoes.

Saskatchewan wholesale trade found a still further improvement in business conditions this week, but retail trade is reported to be slower, with farmers holding back from purchases. Collections are slow.

DOMINION LIVESTOCK

WINNIPEG, Oct. 28.—Offerings in the yards up to the week ending October 27 totaled 7392 cattle, 1425 calves, 2669 sheep and 1811 hogs, while during the same period 66 calves and 2117 cattle were recieved on through billing. Receipts up to 9 a. m. today were 950 cattle and 110 hogs.

Steers—Choice, $4.75 to $5.00; fair to good, $3.75 to $4.50; medium, $3.00 to $3.50; common, $2.25 to $2.75.

TORONTO BOARD

TORONTO, Oct. 28.—Interest today centered chiefly in the paper stocks, though here and there gains were made in other cases, making a day of all round advances. Among the papers attention centered to a great extent on Brompton, which sold up to 25 3-4, with a gain of over 2 points. Spanish preferred was nearly 2 points higher, but old Riordon common declined a point to 4.

The steel stocks also benefited by the change, particularly Steel of Canada, which moved up to 63. Canadian General Electric advanced a point to 95 1-4. Consumers' Gas, Car and Foundry preferred, Canada Bread, Atlantic Sugar and Canadian Pacific were other stocks to advance.

Victory bonds were steady and bank stocks were almost neglected.

MONTREAL LIST

MONTREAL, Oct. 28.—Practically the entire list moved upward on the stock exchange today. The papers took the leadership both in volume and strength. Riordon was the only loser, with a fall of a point to 4.

The biggest gain was one of 7 points in Ogilvie to 184. Asbestos preferred made a notable advance of 6 1-4 to 80 1-4 and the common gained 3 1-2 to 62.

The steels were quiet, but a brisk demand for Steel of Canada advanced the price 2 1-4 points to 63. Dominion Iron preferred jumped 5 1-2 points to 62, but the common was down 1-4 to 63 1-4.

Losses took in a point in Winnipeg railway at 37; Toronto Railway sold 1-2 point lower at 69 3-4.

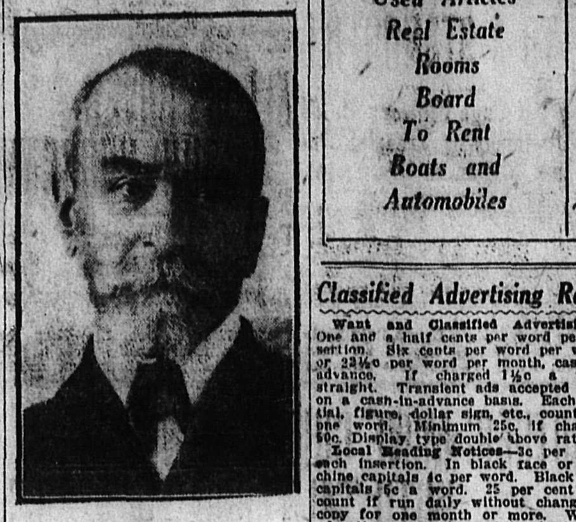
Bank of Montreal sold 2 points higher at 212, a new high for the year.

Bond business was fairly active, with prices firm.

Total sales, listed, 13,530; bonds, $192,950.

A twin tube tunnel 1500 feet long has recently been completed under the river Elbe at Hamburg, Germany.

French Delegate



M. JUSSERAND

Who will be one of the delegates for France at the Washington conference.

CANCELLED STRIKE SWINGS WHEAT UP

CHICAGO, Oct. 28.—Wheat took an upward swing in price today, helped by the calling off of the railway strike.

Closing quotations, although unsettled were 1 1-2c to 2 1-2c net higher, with December $1.08 to $1.08 5-8 and May $1.13 1-8 and $1.13 1-4.

Corn ganied 1 1-8c to 1 1-2c and oats 7-8c to 1 1-8c.

Provisions were 25c down to 5c up.

MINNEAPOLIS GRAIN

MINNEAPOLIS, Oct. 28.—Flour unchanged to 15c lower at $7.25 to $7.40; shipments, 77,288 barrels.

Bran—$12.50.

TORTURED BY KIDNEY TROUBLE

Quickly Relieved By Short Treatment With "FRUIT-A-TIVES"

MADAM LALONDE

170 CHAMPLAIN St., MONTREAL, P.Q.

"I am writing to tell you that *I owe my life to "Fruit-a-tives"*. This fruit medicine relieved me when I had given up all hope of recovering my health.

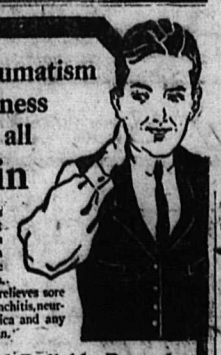
"I suffered terribly from *Kidney Trouble, Dyspepsia and Weakness*. I had these troubles for years and all the medicine I took did not do me any good.

"I read about "Fruit-a-tives" and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength.

"I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness will take "Fruit-a-tives" to recover their health".

JEANNETTE LALONDE.

50c a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.



Rheumatism Stiffness and all Pain

Minard's Liniment has given satisfaction for three generations. It quickly relieves sore throat, bronchitis, neuralgia, sciatica and any kind of pain."

An Old Reliable Remedy

Mrs. S. Fawcett, Hamilton St., Collingwood, Ont., writes,—Minard's Liniment surely is an old reliable remedy. I always keep a bottle in the house and have recommended it to quite a number of my friends, to whom it gave great relief. In most cases it was used as a cure for rheumatism.

THAT CENTRE COLLEGE TEAM AGAIN

By Wood Cowan

The "[illegible] are once more at the gates of Cambridge—and the heart of every football fan, outside of o'd Harvard itself, is with them.

When the wonder eleven from Danville held the brawny Bostonians at the end of the half last year all hats were off to this little group of athletes who represented a college where the entire enrolment was [illegible] 300! By simply overpowering them physically Harvard managed to win, 31 to 14. It was Centre's first defeat since 1917.

We have not heard very much about the Colone's this season, but reports from Danville, Ky., have it that Centre's aggregation is a better all-around outfit than that of last season, and tha "Bo" McMillin is exceeding himself his season—that he is a veritable whirlwind, a team in himself.

Walter Camp's all-American quarter of 1919 dazzled the Crimson with his open field running, forward passing and generalship. This year still finds him at quarter and he should be better than ever.

Norris Armstrong, another back-field man, who has been a running mate with McMillin the past three years, is captain of this colorful squad, and with these and other veterans in their lineup the "Yellow-jackets" can be relied upon to extend the Crimsons to their limit if they succeed in keeping their inter-scholastic football record clean.

Long Jim Barnes Beats Ceecil Leitch, Making New Record

NEW YORK, Oct. 28.—Jim Barnes, United States open golf champion, defeated Miss Cecil Leitch of Great Britain, 3 and 1, this afternoon, after granting her six bisques. In so doing Barnes set a new course record of 68 at the Pelham Country club links.

OFFICIAL HANDICAPPER LORD HIGH EXECUTIONER

LONDON, Oct. 28.—The Free handicap is run over the six furlong Brethy stakes course and is open to all two year olds. No entrance money is collected. The official handicapper for the jockey club, T. F. Dawkins, allots the weights, giving what, in his opinion, is the proper weight that any entrant should carry. Top weight is therefore alloted to the horse that Mr. Dawkins believes to be the best two year old of the season.

OUTCLASSES MORAN

BUFFALO, Oct. 28.—Captain Bob Roper, of Chicago, knocked out Frank Moran, of Pittsburg, in the sixth round of a scheduled 12 round bout here tonight. Moran was outclassed throughout.

Total of 61,859,000,000 cigarettes were manufactured in the United States last year.

Jerusalem was entirely deserted for a stretch of 70 years.

SUPER WOMAN DRIVES SUPER MAN TO SUPERLATIVE RECORD BREAKING GOLF

NEW YORK, Oct. 28.—A super-woman of the links forced super-male golfer to unwonted heights to surpass her today at the Pelham Country club. James Barnes, United States champion, defeated Miss Cecil Leitch, woman champion of Great Britain, Fronce and Canada, by three and one in an exhibition match in which he granted her six bisques. To overcome this handicap, he played such remarkable golf that he made the 6149-yard course in 68, six strokes under par and four under the previous course record set by himself. Miss Leitch had a medal of 82, the best a woman had ever done on the course, three strokes under the card that won the qualifying medal in the recent women's national championship. Miss Leitch played with Barnes in the afternoon after defeating Miss Alexa Stirling, former national champion, by two up.

The English woman's card in the morning was six strokes higher than her record in the afternoon. Miss Leitch's victory over Miss Stirling was her third this year and her first in the United States.

HOCKEY OFFICIALS OUTLINE CAMPAIGN

Organize Dominion Registration Committee; Adjust B. C. Handicap.

TORONTO, Oct. 28.—With one of the most representative hockey gatherings in the history of the Canadian Amateur Hockey association, an executive meeting was held here today at which plans for the season's campaign were outlined by President W. R. Granger, of Montreal, and adopted by the various representatives of affiliated branches. The outstanding feature of the meeting was the organization of a Dominion registration committee with a chief registrar.

This is an innovation in amateur hockey and will enable the various branches to obtain the standing and status of the various players from the central branch, which will be situated at Toronto for the present.

The newly appointed registration committee will have power to investigate the standing of any player who is given a player's certificate by the provincial body under whose jurisdiction he is playing. All applications for certificates must be made to the provincial bodies and a copy of the application whether granted or rejected, must be forwarded to the control office.

Curb Tourist Players

This will have the desired effect of placing a greater curb on the tourist players. The registration committee shall consist of five, two members from the east, two from the west and the president. These appointed for the first season were:

W. A. Hewitt, Toronto, registrar; Murray Thomppson, Saskatoon, A. E. Coo, Winnipeg Sheriff Paxton, Whitby, and President W. R. Granger.

A resolution giving the president greater power to act in the taking of a small or telegraphic vote was passed.

With a view of controlling the financial division of gates and to ascertain the amount earned each season by senior clubs, the executive of the association will have access to the books of each club. It was decided to enforce the residence rule more rigidly. On the request of Guy Suckling, who represented the British Columbia branch, the executive arranged a draw for the elimination competitions, under which British Columbia will be assured of the greater part of travelling expenses.

B. C. Handicapped

Mr. Suckling suggested that British Columbia had always been handicapped by the high traveling expenses and that, in his opinon, the resolution passed would assure the branch of competing in the elimination contests.

Under the revised constitution players for college teams will be allowed to play for the Allan cup in only one association and must declare for which association they will play when the schedule season is commenced. The constitution was also revised so that delegates to the annual meeting must be executive officers of the branch which they represent, while delegates to all executive meetings shall be executive officers of the branch which they represent. Proxies will not be recognized. It was decided that the traveling expenses of delegates to the executive as well as the annual meetings, would be paid by the association.

Arrange Allan Cup Draw

The meeting arranged the Allan cup draw. In the elimination contests, British Columbia will play off with Saskatchewan; Thunder Bay with Manitoba, the winner to play off in home and home games.

Quebec winners will play off with Ottawa federation in home and home games, O. H. A., to play off with intercollegiate winners, the winners to play off with the winners of the Quebec-Ottawa game. The western inter-collegiate union will be included in the eliminations this season. Should Saskatchewan or Manitoba win, they will play off with the provincial champion, and in case of Alberta winning, they will draw a bye to be scheduled later. Those in attendance were:

President W. R. Granger, Montreal; A. E. Copeland and W. A. Hewitt, O. H. A.; A. E. Coo, Manitoba; Murray Thompson, Saskatchewan; Guy Suckling, British Columbia; F. W. Smith, Ottawa and Secretary J. W. Morrison.

SAILOR FREIDMAN BEATS ERNIE RICE

NEW YORK, Oct. 28. — Sailor Friedman, of Chicago, tonight defeated Ernie Rice, English lightweight champion, in the seventh round of a scheduled 15-round bout in Madison Square Garden when Rice's seconds tossed a towel into the ring.

Rice weighed 137 pounds and Friedman 139.

As a result of Friedman's victory, his manager said an immediate effort would be made to sign the Cicago boxer and Champion Benny Leonard for a championship bout.

FOOTBALL HOLDS SWAY BACK EAST

Argos Meet Senators Today; McGill Encounters Toronto Varsity.

OTTAWA, Oct. 28.—(Canadian Press)—The Argonauts of Toronto and the Ottawa Senators lock horns tomorrow in an important fixture of the Big Four inter-provincial Rugby football union at Lansdowne park.

Heralded as one of the greatest scoring machines produced in eastern Canada in recent years, and led by the great Lionel Conacher, the oarsmen arrived in the capital tonight full of confidence that they can win tomorrow's game.

The Senators, greatly improved since the opening of the season, have been training faithfully for the struggle and are called, locally, to win.

Little interest attaches to the Tiger-M. A. A. A. in Montreal. The Hamilton team is generally expected to win easily.

The second big football contest which will keep the wires hot in eastern Canada and in which there is a lot of interest all over the country, is the return match between McGill and Toronto Varsity in the latter city. In their last meeting the teams played wonderful football to a draw of 4-4. A win for Varsity tomorrow would result in a three-cornered tie in the inter-collegiate series.

The standing of the league is as follows:

	W.	L.	For	Agt.
Argonauts	4	0	128	27
Ottawas	3	1	69	32
Tigers	1	3	42	65
M. A. A. A.	0	4	17	130

Inter-Collegiate.

	W.	L.	D.	For	Agt.
McGill	1	0	1	29	5
Queens	1	1	0	10	30
Varsity	0	1	1	9	13

The new battleship Tennessee has a record of stopping and reversing in three minutes.

An airplane service line is contemplated to carry to and from the diamond mines of the Congo region.

MAN FOR SALE

"Ex-sailor, young physically fit, willing to obey every command for the rest of my life, of the person who will pay the stipulated price. No offer less than $3000 accepted." Such was an advertisement which recently appeared in the New York Tribune and which appears to be entirely genuine. The sailor in question, J. Hardy, requires the money in order to repay his debt to the woman who brought him up after his own mother's death, and who is left in poor circumstances. Prices have gone up since the War, for an Englishman who offered himself for sale a few years ago asked only £200. But he was not quite so reckless as Sailor Hardy, for he offered himself only for a limited space of time. "Man for Sale," his advertisement ran. "A cheerful English business man having serious need for £200 before December 15th is prepared to place his entire services at the complete disposal of any person or company. For the space of twelve months he will do anything and everything desired to further the interests or comfort of his employer. Anyone securing him will never regret their bargain." Still another advertisement of a similar order was from a poet and dramatist aged twenty-four, who offered himself "as an investment on these terms. That in consideration of receiving £300 a year, he shall for nine years yield seventy-five per cent. of all profits earned by his are." Some might be inclined to say that this was rather a case of purchasing a pig in a poke, for even the great Tennyson received only $55 for his first volume of poems.
