VOL. 20. NELSON, B. C., TUESDAY MORNING, FEBRUARY 14, 1922. NO. 247.

ENROL ALL EUROPEANS IN MADRAS

Indian Situation Menacing; All Whites Armed Special Constables.

TO DECIDE DATE FOR CIVIL DISOBEDIENCE

Noncooperationists Suspend Activities; Time Not Yet Opportune.

LONDON, Feb. 13.—The situation is regarded as so menacing that all Europeans in Madras, British India, are being enrolled as special constables by order of the government, according to a dispatch to the Daily Mail from Madras last Monday. The dispatch adds that it is understood the constables will be armed with military rifles and ammunition.

A communication issued by the Indian office concerning the resignation of the Indian national congress says the date for the commencement of civil disobedience is to be decided later by the committee of the congress. The Bombay Chronicle declares that at Guntur, where a movement for the non-payment of taxes was recently inaugurated, it has already been decided that the time for such action is not yet opportune. All the non-cooperation activities in the Gorakhpur district have likewise been suspended.

UNCLE JOE CANNON PROPOSES TO QUIT

WASHINGTON, Feb. 13.—Having served longer than any man ever elected to the United States congress, Representative Joseph G. Cannon, Illinois, announced today that he would not be a candidate to succeed himself next fall.

Mr. Cannon is approaching his 86th milstone. If his life is spared until the end of his term on March 4, 1923, he will have rounded out 46 years of service in the house.

He broke the record for actual service more than a year ago, and since that time, as he himself has explained, he has been running along on velvet.

FAVOR MAJORITY RULE IN IRELAND

DUBLIN, Feb. 13.—Michael Collins has received a message from Chicago which says:

"At a meeting of the presidents of 16 councils in the Second congressional district, representing over 18,000 members, expressions of opinion were unanimous for a majority rule in Ireland as in the United States, and for the support only of a government which received the sanction of the Irish people."

NATIONAL MORAL FIBRES LOOSEN

Taxation Burden Equal Evil to Destroyed Villages of France—Bonar Law.

LONDON, Feb. 13.—Right Hon. Bonar Law, in acknowledging the freedom of the city of Glasgow today, said that the people in this country and throughout the world were loosening in national moral fiber. The immense burden of taxation, he said, which, whatever economics are effected must remain, tended to prevent employment and was as great an evil in Great Britain as the evil that destroyed villages in France. Great Britain would overcome her difficulties, he said, not through the government, but by the steadfastness of her people.

Numerous interruptions by unemployed before Mr. Law spoke resulted in the police removing five from the hall.

HOPES FOR SOME ORANGE IN FLAG

Plunkett Concedes Irish Free State Entitled to Support of All Irishmen.

NEW YORK, Feb. 13.—Sir Horace Plunkett told a gathering here today that he believed the Irish Free State should receive the support of all Irishmen.

"In view of the splendid beginning of the world peace movement of Mr. Hughes, which was so ably seconded by Mr. Balfour," he said, "it would not matter whether it was called the Irish Free State or the Irish republic."

There was applause when Sir Horace said he regarded the possibility of a naval invasion of Great Britain from Ireland as extremely remote, but he did not blame the British people for safeguarding themselves against the possibility. He pleaded for Irish unity and said he hoped there would "be some Orange" in the Irish flag of the future.

ARREST NINE SHOPLIFTERS.

MONTREAL, Feb. 13.—It has been ascertained that during last Saturday afternoon no less than nine shoplifters were arrested in Almy's, Ltd., a large uptown department store. Goods valued at about $80 were found in their possession. The accused, seven women and two men, have been remanded for sentence.

WHERE PRINCESS WILL WED

WESTMINSTER ABBEY SANCTUARY

The photograph shows the sanctuary in Westminster Abbey, where Princess Mary and Lord Lascelles will kneel on February 28th, and rise man and wife.

SUGGESTS CHANGING GOVERNMENT REMEDY FOR CRUSHING TAXATION

LONDON, Feb. 13.—(By Canadian Press Cable.)—In the course of the debate in the house of commons on the Geddes economy recommendations J. Robertson, Labor member for Bothwell, criticized the allowances made to the royal family and the expenditure on the Prince of Wales' tours in India and Canada when so many women and children were starving. He said he was sure the royal family would be willing to economize.

R. J. Clynes, Labor member, strongly opposed economy at the expense of education and social reform.

Sir Donald MacLean, Liberal member, termed the admiralty circular criticizing the Geddes report as "unprecedented and unconstitutional." He also complained of the crushing burden of taxation and sugested that the best remedy was to change the government.

Austen Chamberlain, replying for the government, said he did not pretend that the government did not make mistakes. He dwelt on the reductions in expenditure already accomplished and declined to admit that the government was bound to reject the Geddes report as a whole or accept it.

He referred to considerations of which he held the Geddes committee could not be the judge and said that half the opposition speeches had directed to defeating rather than carrying out the Geddes recommendations.

AUSTRALIAN APPRAISES CONFERENCE

Lauds Improved Relations With States and Better Far East Outlook.

TORONTO, Feb. 13.—"Among the results of the Washington conference, I put first, an improvement in the relations between Great Britain and the United States, who stand closer today than since the revolutionary war of 1776, and second, the resolution on the Chinese question, which, coupled with a departure on Japan's part from her militaristic attitude, will have a great effect in preventing war in the east," was the summing up of the work of the conference made by Hon. Senator G. F. Pearce, Australian minister for home territories, speaking before the Canadian club today.

Senator Pearce stated that one reason for his visit to Canada was to confer with the Canadian government on the question of trade agreements with Australia.

RELEASE TWO CAPTURED MEN

Provisional Irish Government to Inquire Into Republican Commandant's Death.

DUBLIN, Feb. 13.—John Anderson of Caledonia and Joseph O'Donnell of Tyrone, captured during the fighting at the Clones station on Saturday, have been released, according to a statement made at Irish Republican army headquarters in Dublin tonight. It was added that the release of a number of captured men is expected shortly.

At headquarters it was stated that special constables of the northern government, operating across the border on Sunday evening, fired into the houses of farmers in county Monaghan.

A public inquiry into the death of Commandant Fitzpatrick of the Irish Republican army, who was killed during the fighting, is to be held by the provisional government at Clones tomorrow.

DRASTIC STEPS TO ELIMINATE BORER

OTTAWA, Feb. 3.—(By Canadian Press.)—Drastic steps to eliminate the European corn borer from the province of Ontario have been taken by the government on the recommendation of the minister of agriculture. Resolutions passed provide for quarantining a large number of counties and townships of western Ontario, and from these areas the removal of corn fodder or corn stalks, including broom corn, whether used for packing or other purposes, green sweet corn, roasting ears, corn on the cob or corn cobs, is prohibited.

DISMISS CHARGE OF MANSLAUGHTER

VALPARAISO, Ind., Feb. 13.—Charges of manslaughter against William S. Long of Jackson, Mich., and George F. Block of Michigan City, Ind., engineer and fireman on the Michigan Central train which collided with a New York Central train at Porter, Ind., last February, causing the deaths of 37 persons, were dismissed today in the circuit court here.

MANY GIRLS IN CASUALTY LIST

Belfast Snipers Active; Bomb in Weaver Street Causes Heavy Damage.

BELFAST, Feb. 13.—There was activity in Belfast tonight on the part of snipers. An unidentified man, picked up wounded, was taken to a hospital, but was found to be dead on his arrival there. Two constables were wounded in North Queens street. It is remarkable that a number of girls are on the casualty list.

The snipers were concealed. They fired in Royal avenue, the principal thoroughfare of the city, and tramcars had to dash past the danger spot.

A bomb was thrown in Weaver street. The number of persons injured was so large that two ambulances were required to take them to hospitals.

BELFAST, Feb. 13.—A bomb thrown in Weaver street tonight killed one child and so seriously wounded three other children that they are not expected to recover. There were numerous other casualties from the bomb, but as ambulances carried the injured to hospitals the exact number or the nature of their injuries is not known.

LONDON, Feb. 13.—The Belfast correspondent of the Press association says that the bomb explosion in Weaver street tonight caused 18 casualties among children.

DOCTOR DEAD DAYS BEFORE DISCOVERY

Wounds Self-Inflicted in Locked Bedroom; Sheriff's Men in Possession.

VICTORIA, Feb. 13.—Investigation into the death of Dr. David Labua, whose body was found propped up in bed at his home here Sunday, shows that death was instantaneous and self-inflicted. Apparently death took place about Wednesday or Thursday of last week.

Sheriff Richards recently placed his men in possession of Dr. Labau's suite pursuant to a judgment for costs, taken against the late doctor for divorce proceedings and in which the victim had failed in his attempt to secure a divorce from his wife.

The costs of the action, which were assessed against Dr. Labau, were not paid.

The sheriff's men were in possession of the suite for three days unaware that Dr. Labau's body lay in the locked bedroom.

SPECULATORS RETARD REAL DEVELOPMENT

Mining Men Discuss Higher Taxation to Force Open Dormant Mineral Areas.

NANAIMO DELEGATE LAUDS PROSPECTOR

Lieutenant-Governor Urges Need for Practical Federal Mines Minister.

VANCOUVER, Feb. 13.—The proposal that crown granted mineral areas in British Columbia should be heavily taxed to force owners to develop them or permit them to revert to the crown, was the principal subject of the opening day's discussion by the British Columbia division of the Canadian Institute of Mining and Metallurgy today. It finally was decided to submit the whole question to a committee, to be appointed by Col. J. E. Leckie, chairman, for consideration and report.

The proposal, which was advanced by F. W. Guernsey, was supported in a paper written by J. C. Harris and William Thomlinson, the latter of whom was absent on account of illness, and read by H. Mortimer Lamb. The principal argument for heavy taxation was the contention that mineral areas were held dormant by owners, who had received crown grants and did not work them preventing others doing so.

Taxation Discourages

S. P. Hill of Victoria opposed the suggestion, contending that prospectors, who had pioneered under hardships, were entitled to the lands they had discovered. The miner in British Columbia, he said, was surrounded with so much taxation that the prospector was discouraged from coming in. Mineral lands should not be made easily accessible to the "camp robber," who sat around the assessor's office waiting to snap up good properties.

Several other speakers followed, for and against the proposal. Dean Brock, of the University of British Columbia, said in support that the tying up of properties by speculators was the greatest evil of the mining industry. He contended there might have been enormous development at Rossland, where big companies wanted to develop the mines years ago, and were unable to get into the area held by speculators.

W. H. Brewer of Nanaimo spoke in eulogy of the diminution in the number of prospectors to be found in the province nowadays.

Diamond drilling was the subject of brief addresses by K. S. Robinson and H. R. Van Wagenson of Copper Mountain.

Major C. McLauria, superintendent of the Jericho beach air station, read a paper on the scope of the airplane and the hydro airplane in prospecting.

The delegates went on record as opposed to a proposal to admit "any person interested in mining" as a full fledged member of the institute, and declaring in favor of preservation of the present status of membership.

Industry Bears on Future

Development of the natural resources of British Columbia is a vastly more important thing than many other problems interesting the people of British Columbia just now, was the opinion of Lieutenant-Governor W. C. Nichol, in urging the need of a federal minister of mines, who would be a practical man and one who would give his time to the development especially of the mineral resources of the country. His honor, in formally declaring the convention open, drew attention to the important bearing the mining industry had to the future of British Columbia.

In submitting his report, Secretary H. Mortimer Lamb alluded to the meetings held by the various branches in British Columbia and also to the formation during the year of the mining industries council of British Columbia composed of the various organizations interested in mining.

Fleet Robertson, provincial mineralogist, tendered a report, dealing with the mineral production of British Columbia during 1921 in which he dealt with the output of each individual district, as well as mentioning the figures for the production of the province as a whole.

Considering the drop in the prices of metals he declared the showing made by British Columbia in producing over $28,000,000 worth of metals during the year was very encouraging and augured well for the future of the industry. He mentioned that coast mines were producing the greater part of the minerals placed on the market by British Columbia last year and also pointed out that the slackening up in the industry last year gave many miners the opportunity to do some prospecting and others development work, which would show results later on.

FLASHES BY WIRE

Fire Breaks Out on Launch.

CAMPBELL RIVER, Feb. 13.—J. Dwyer, a fisherman, was badly burned and lost nearly everything he possessed when a fire broke out in his launch in the Seymour Narrows last Tuesday.

Acting Premier Leaves for Revelstoke.

VANCOUVER, Feb. 13.—Hon. J. D. McLean, acting premier in the absence of Hon. John Oliver, left Vancouver tonight for Revelstoke, where Hon. Dr. W. H. Sutherland, minister of public works, is seeking reelection.

Protest May and December Marriage.

VIGO, Spain, Feb. 13.—Eight persons were wounded today, two of them seriously, as a result of a protest by the villagers of Bora against the marriage of 70-year-old Juan Tenorio Cortegosa with a 16-year-old girl.

Former Victoria Banker Dies.

VICTORIA, Feb. 13.—William Curtis Ward, a former manager of the Victoria branch of the Bank of British Columbia, now merged in the Canadian Bank of Commerce, died yesterday at Paso Robles, Cal., at the advanced age of 80 years.

REDUCING RISK OF WAR

BALFOUR SIGNS TREATIES

Arthur J. Balfour, head of the British delegation to the Washington conference, is here seen putting his signature to various treaties at the final session of the Washington conference on Monday.

SUGGESTS BRITISH MANUFACTURERS ESTABLISH FACTORIES IN CANADA

LONDON, Feb. 13.—(By Canadian Press Cable.)—Sir Augustus Nanton of Winnipeg, speaking at a Canadian gathering here, said that one of Canada's greatest needs was an increase of population. He regretted there was so little mutual trading between Canada and the United Kingdom. Canadian products, he said, came to the British Isles in very meager quantities.

The action of the United States in increasing her tariff against Canada, said Sir Augustus, rendering the time never more opportune for Great Britain to capture Canadian trade. A suggestion that British manufacturers should establish themselves in Canada with branch plants from which to handle world trade was made by Sir Augustus. These plants would give some of Britain's unemployed population work in the healthiest climate and this arrangement would, to some extent, lighten the drain on British coal.

It was an error, said the speaker, to think that immigration would take care of itself. He hoped that the governments of both countries would work together to prevent the foreign element in Canada increasing by an undue percentage. Sir Augustus said it is hoped to have adequate representation in London with the staff there properly housed.

HUNGER STRIKES TO CHEAT THE GALLOWS

CHICAGO, Feb. 13.—Harvey Church, condemned to be hanged next Friday for murder, must live to die on the gallows, county jail officials decided today, so they broke his hunger strike by forcibly feeding him through a tube. Church killed two automobile salesmen, whom he had lured to the basement of his home in order to gain possession of an expensive motor car.

STORM CRIPPLES SCHOONER AT SEA

Crew Abandons Vessel; Another Disabled Ship Makes for Bermuda.

ST. JOHNS, Nfld., Feb. 13.—Adding one more to the long list of losses to the Newfoundland fleet, the schooner Horma Strong was reported today abandoned at sea. Her crew landed safely at the Azores.

The vessel, which had crossed the Atlantic with a cargo of fish, was returning from Cadiz with salt when a storm crippled her. The schooner Czarina, another unit of the Newfoundland fleet, was also reported dismasted in midocean and making for Bermuda.

The coastal steamer Prosper, caught in the ice in Notre Dame bay during a storm several weeks ago, is still fast in the floe. In order to escape from the vessel the stewards and several other members of the crew picked their way over the ice to the shore, a distance of 20 miles, and followed the coast to St. Johns.

EQUAL FRANCHISE UNWISE SUBJECT

Inopportune to Reopen Question of Women's Votes, Says Lloyd George.

LONDON, Feb. 13.—(By Canadian Press Cable.)—Replying to questions whether the government intended to introduce a bill at this session of parliament enfranchising women on the same terms as men, Premier Lloyd George, in the house of commons today, said he did not think it wise to reopen the subject after so short an interval. The franchise question, he said, had been settled by general agreement by the last session of parliament.

The franchise now gives the vote to all men of 21 years and over who have lived in any constituency six months, and to all women of 30 years of age and over, subject to certain limitations.

STEAMER ARRIVALS

Nieuw Amsterdam, at New York, from Rotterdam.

Viedic, at Liverpool, from New York.

America, at Plymouth, from New York.

Arabic, at Alexandria, from New York.

Empress of Scotland, at Madeira, from New York.

GRIFFITH ANSWERS DE VALERA

Treaty Terms Only Possible Arrangement to Avoid Coercing Ulster.

DUBLIN, Feb. 13.—Arthur Griffith, president of the Dail Eireann, in a statement issued tonight replying to various assertions in Eamonn de Valera's speech of Sunday, declares that with respect to partition De Valera himself gave an undertaking not to coerce Ulster, and that the arrangement in the treaty was the only one that could be made without coercion.

De Valera was in full possession of it before the signing of the treaty, Mr. Griffith added, and made no objection.

On the question of the treaty itself Mr. Griffith quotes De Valera's statement that Sunday's meeting was to give the lie to the assertion that the Irish people of their own free will and accord signed the treaty and says there is only one adequate way whereby the people can show clearly whether they are for or against the treaty.

"The people will be given that opportunity at the earliest possible moment by an election," the statement continued. "They will decide and we shall abide by this decision."

Mr. Griffith's statement, which is set out in parallel columns with De Valera's assertions, also deals with the question of the oath, Imperial forces in Irish ports and financial contributions.

PATTULLO THINKS SUTHERLAND SURE

Minister of Lands Reviews Byelection Prospects Revelstoke and Omineca.

VICTORIA, Feb. 13.—Hon. T. D. Pattullo, minister of lands, returned to the parliament buildings today from Revelstoke. "Contrary to some forecasts made by the opposition, Dr. Sutherland's election in Revelstoke is assured by a large majority, that is, if there is a contest," said Mr. Pattullo in speaking of the prospects for the new minister of public works.

As for the political situation in the north, where the Hon. A. M. Manson, attorney-general, is seeking reelection, Mr. Pattullo said:

"The last word from Omineca came today and it was that it was partly likely that there would be a poll."

The Hon. J. D. MacLean, acting premier, left last night for Revelstoke, where he will speak this week in the interests of Dr. Sutherland.

Pope Will Hold First Consistory Next Month

LONDON, Feb. 13.—It is practically certain tht Pope Pius will hold his first consistory next month, says a Central News dispatch from Rome today.

ALARM GROWS OVER ULSTER BORDER RAIDS

Irish Situation Steadily Becomes Worse; Clones Outrage Aggravates.

INCREASE GARRISON TO FOURTEEN BATTALIONS

Belfast Shooting Affrays Cover Wide Area; Gunmen Keep Under Cover.

LONDON, Feb. 13.—The Irish situation since the raids over the Ulster border has steadily become worse and no effort is made of the alarm with it is viewed in official circles in London. Winston Spencer Churchill, secretary for the colonies, declared in the house of commons this afternoon the shooting of the Ulster special at Clones had locally aggravated the situation.

The Evening Standard asserts that Ireland is on the brink of civil war and quotes a memo of the government as saying that while the government hesitates to do anything which the Sinn Feiners could interpret as provocative, swift military preparations have already been made to prevent an armed invasion of Fermanagh and Tyrone.

In the light of the developments of the last few days much significance is attached to the suspension today of the evacuation of British troops from southern Irish ports. The Irish office explains that the suspension was ordered pending a decision regarding the extent of reinforcements to be sent to Ulster.

Sir James Craig, Ulster premier, announced tonight that the Ulster garrison of British troops was to be increased from 10 battalions, the previous number, to 14. The week-end rioting in Belfast was continued today, the death roll from Saturday being about 12 killed and 20 wounded. The curfew was reimposed tonight. The shooting affrays in Belfaast during the past 24 hours occurred over a widely extended area.

The gunmen have kept well under cover and the police and soldiers patrolling in armed cars are having difficulty in locating them.

Republicans Make Arrests.

DUBLIN, Feb. 13.—The Irish Republican army has made three arrests in connection with the killing of Lieutenant Brown, Michael Collins, head of the provisional government, said tonight.

It is reported that a large number of the kidnaped Ulster men have been removed from Ballybay to county Cavan.

OLIVER DUE AT OTTAWA.

OTTAWA, Feb. 13.—Premier John Oliver, British Columbia, and a delegation from his province, is scheduled to reach the capital tomorrow. The delegation will interview the government on the freight rates question and railway matters generally.

United States Treaty With Japan on Yap Goes to the Senate

WASHINGTON, Feb. 13.—The treaty between the United States and Japan fixing the status of the island of Yap and covering allocation of wireless and cable rights on and from that island was sent to the senate for ratification today by President Harding.

SUES FOR LIBEL

TORONTO, Feb. 13.—R. H. Ashton of Morrisburg today entered action at Osgoode hall to recover $7500 damages from the United Farmers' Cooperative company for alleged libel. The writs complain of an article appearing in the Farmers' Sun December 17. Mr. Ashton was formerly a director of the company.

The helicopter, a machine capable of vertical flight, with which British inventors have already attained partial success, has caused plans to be made by the government for a $200,000 competition, open to the world, for a further improved design. The conditions, which if met would make the helicopter practical and revolutionize the science of flying, are: It must be capable of rising to a height of 2000 feet under its own power, carrying one man and one hour's fuel supply. It must be able to remain stationary over a ground object for a half hour in a wind up to 20 miles an hour. It must be able to land safely in any wind up to 20 miles an hour without horizontal motion, and with the engine cut off, and must be able to maintain horizontal flight at a height of 2000 feet at a speed of not less than 60 miles an hour.

The earliest regular military organization is attributed to Sesostris, who flourished in Egypt about 16 centuries B. C.

KAMLOOPS, Feb. 13.—Edward Corning, resident of Kamloops for nearly 30 years, died here today at the age of 74. Mrs. D. F. Murray of Revelstoke and Mrs. Wells of Spokane are his daughters.

NERVOUS BREAKDOWN COULDN'T SLEEP NIGHTS

To those on the verge of a nervous breakdown the following symptoms present themselves: nervous headaches, a feeling of depression, fitful, disturbed, restless and unrefreshing sleep, often troubled with frightful dreams, avoidance of crowded places, dread of being alone, horror of society, etc.

When the nerves become affected in this way the heart generally becomes affected, too, and on the first signs of any weakness of the heart or nerves, flagging energy or physical breakdown do not wait until your case becomes hopeless, but get a remedy that will at once quieten the nerves, strengthen the heart and build up the entire system.

This you will find in

MILBURN'S HEART AND NERVE PILLS

Mrs. M. Damgand, Young's Cove Road, N. B., writes: "I was bothered very much with my heart and nerves; had nervous headaches and dizziness, could not sleep at nights, and my appetite was all gone. I was on a nervous breakdown when a neighbor told me to try Milburn's Heart and Nerve Pills. This I did, and before I had the second box used I was better and would advise anyone who has nerve trouble to take them."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A GREAT BOON

INTERMINABLE SPEECH WINS ADJOURNMENT

Conservative Member "Talks Out" Manitoba Land Question at Issue.

WINNIPEG, Feb. 13.—Attempts to get the provincial lands question brought to an issue in the legislature tonight were frustrated by W. J. Tupper, Conservative, who, after 10 o'clock, resorted to blocking tactics, engaged in what he indicated would be an interminable speech and eventually succeeding in geting the house to agree to adjournment of the debate.

The debate had reached an interesting stage when it was resumed. The main resolution, proposed by the premier, provided for foreclosure on lands purchased on a large scale if arrears of principal and interest were not paid within six months. There was an amendment by F. J. Nixon, in the resolution, but condemning the government for its past policy, and there was an amendment to the amendment, proposed by P. A. Talbot and L. A. Verandrye, providing for special consideration for municipalities affected.

VETERANS' SECRETARY READY TO EXPLAIN

VICTORIA, Feb. 13.—"I am quite prepared to make any explanations that may be required when the Dominion executive of the G. W. V. A. meets on March 7 and will be there, and, if necessary, submit evidence to show that my action was in the interests of the G. W. V. A., and had no partisan significance," is the reply that C. G. MacNeil, Dominion secretary of the G. W. V. A., made this afternoon to criticism of the Nova Scotia provincial executive of the G. W. V. A. of his interview to the press, charging the "Quebec bloc" with conspiracy to hand the National railways over to the Canadian Pacific railway and Montreal financil interests.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Is Aching or Bladder Bothers, Drink Lots of Water and Eat Less Meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

AGRA CROWDS GREET PRINCE

Friendly Reception Is Agreeable Surprise; General Trend Favorable.

LONDON, Feb. 13.—A dispatch to the London Times from Agra, dated Monday, says the reception of the Prince of Wales there was an agreeable surprise. Although the hartal was almost complete and everything closed in the town, in the outlying districts the bazaars and shops were open. A crowd of 3000 persons was about the station when the prince arrived and many thousands elsewhere.

Sometimes the crowds were unusually demonstrative.

This unexpected friendly local atmosphere must not, the dispatch adds, be taken as indicating the condition of the people in the whole area of the united provinces is other than very serious, although it is true the general trend of incidents during the past fortnight have been distinctly favorable.

BRITISH SEAMAN ADRIFT IN BOAT

Huge Wave Sweeps Man and Lifeboat Away From Ship; Has Food and Water.

NEW YORK, Feb. 13.—Somewhere on the Atlatnic about 500 miles from New York—if his luck has held—John Brickner, a British seaman, is bobbing about in a lifeboat, waiting out his sixth night in the hope of rescue.

The story of his loss in a high gale and a heartbreaking game of hide and seek his little bark had with his would-be rescuers was brought to port today by Captain Walter Beckwith of the setamship Gaffney.

The storm broke on the morning of February 8, Captain Beckwith said, with a 110-mile wind which quickly lashed the sea into a fury. Brickner was sent with another seaman to make fast the lifeboats. Swinging on the out-turned davits, Brickner dropped into one of the boats to make fast a line when a huge wave swept the boat away.

Captain Beckwith quickly turned the Gaffney about and began a struggle to get a line to the lifeboat, missing time after time by a few feet. The boat was lost once in a rain squall, only to be discovered and lost again. Nightfall put an end to the search and the Gaffney steamer went on to port, first broadcasting a radio message asking all ships to look out for the lost seaman.

The lifeboat was stocked with food and water and Brickner was warmly clad, so that Captain Beckwith thinks he has a fair chance of rescue if his little boat weathered the gale.

JOINT COMMISSION MEMBERS RESIGN

British Government Makes Appointments on Canadian Recommendations.

OTTAWA, Feb. 13.—It was understood here tonight that the resignations of members of the Canadian section of the international joint commission were in the hands of the prime minister. These members, C. A. Magrath, chairman, and H. A. Powell and Sir William Hearst. The British government makes the appointments to the commission because its existence arises out of an international treaty, but the appointments are made on the recommendation of the Canadian government. Mr. Magrath and Mr. Powell were appointed in 1911 and Sir William Hearst in 1920, when he succeeded P. B. Mignault, K. C., on the elevation of the latter to the supreme court.

It was understood in semi-official circles that one of the new appointees would be a French-Canadian and that Mr. Magrath would likely be returned to his post as chairman.

SUSPEND RETURN OF CROWN FORCES

Will Resume Withdrawals From Ireland When Ulster Reinforcements Decided.

LONDON, Feb. 13.—It was said today at the Irish office that the concentration of crown forces near the Irish ports and the assembling of transports to bring them to England was continuing, but that embarkation had been temporarily suspended to enable the commanders to determine how many reinforcements were required in Ulster and what units had been sent there.

When these matters were determined, it was added, the withdrawals from the south will be resumed.

STRONG BEER TO COMBAT SPIRITS

Moderation League to Submit Proposals to Alberta Cabinet Tomorrow.

EDMONTON, Feb. 13.—Representatives of the Moderation league will interview the provincial cabinet Wednesday morning to make the following requests:

That the sale of strong beer be permited as the only practicable way of combatting illicit sales of hard liquor; that the sale of liquor be taken from drug stores, the prescription system be abolished and liquor be sold by some permit system through government vendors.

ZAM-BUK

THE MAGICAL SKIN BALM.

LIKE the lost precious balms of ancient Rome, Zam-Buk is of rare herbal origin. These herbal extracts endow it with a special power over the human skin.

Zam-Buk is a concentrated healer, soother, antiseptic, and germicide.

Its pure and powerful herbal essences swiftly take pain and inflammation out of a Cut, Scald or Burn, and heal any sore place neatly.

Owing to its extraordinary refinement, Zam-Buk soaks through to the tissues *below* the upper skin, and draws out disease. It is ideal for Eczema, Salt-Rheum, Ring-worm, Scalp Sores, Leg Ulcers, painful Swellings, Poisoned Wounds, and for Piles.

Zam-Buk's wonderful success is mainly due to its ingenuity in destroying all harmful germ-life, and replacing diseased and damaged tissue with fine new healthy skin.

50c. Box 3 for $1.25.

TO OBTAIN A FREE SAMPLE BOX! Forward 1c. Stamp (for return postage) and name and date of this paper to Zam-Buk Co., Toronto.

PROTEST AGAINST STEAMSHIP RATES

Congress Receives Complaints of Excessive Charges Between Seattle and Alaska.

WASHINGTON, Feb. 13.—Strong protests against what are claimed to be excessive freight and passenger rates from Alaska to Seattle and other United States Pacific ports were received today by members of congress. They were sent by the territorial legislature and by private citizens. John E. Ballaine of Seattle, who is prominently identified with the Alaska trade, presented objections to the present rates to the interstate commerce commission of the senate and house. There is a strong movement here to have the United States board turn over certain ships for the Alaska trade.

SEATTLE EDITOR DIES SUDDENLY

FIRE LOSSES SHOW STRIKING INCREASE

MONTREAL, Feb. 13.—An analysis of losses caused by fire in this city show that approximately $260,000 per week, or more than $37,000 a day, has been the toll exacted by outbreaks since January 1. These figures constitute a striking comparison with those of last year, when the weekly average was $91,000, or $13,000 a day.

BLIZZARD PARALYZES TRAFFIC.

150-MILE-HOUSE, B. C., Feb. 13.—Trafic in the northern part of the Cariboo is paralyzed following the worst blizzard seen here in years. Snowdrifts five feet high and a temperature of 6 below have left the roads impassable for the next week or so.

DOMINION C.B.Q. TABLETS

ARE GOOD FOR A COLD

When your cold clings like a leech and your friends ask "How are you?" your invarisble reply is "Rotten, thanks?"—because you have not taken the right steps to allay your ailment.

DOMINION C.B.Q. Tablets are good for a cold; in a short time they will bring your condition back to normal, and you will feel "Fine, thanks" once again! They are also highly recommended to relieve Headaches, and Neuralgia.

DOMINION C.B.Q. Tablets (Cascara, Bromide and Quinine) are pleasant to take and always give immediate relief.

At all druggists—in the Red Box.

MURDERER GOES ON HUNGER STRIKE

TORONTO, Feb. 13.—David Harri, Armenian, under sentence of death for the murder of a compatriot, Philip Osian, is on a hunger strike in the Toronto jail.

She Has Used Them and Is Well Again

WHY WOMEN PRAISE DODD'S KIDNEY PILLS

The Healthy, Happy Woman Is the One Whose Kidneys Are Healthy. Dodd's Kidney Pills Make Healthy Kidneys.

NOTRE DAME DES QUINZE, Que., Feb. 13—(Special)—"Yes, I have used Dodd's Kidney Pills and with good results. I am now well again."

In these few words Mlle. Aline G. Perreault, well-known and highly respected here, tells the story that is coming from women all over Canada. They have suffered and found relief. They are praising Dodd's Kidney Pills.

For being purely and simply a kidney remedy Dodd's Kidney Pills strike directly at the seat of woman's troubles, the kidneys.

The woman with healthy kidneys is the healthy woman. The weak, sickly woman whose footsteps drag and who carries with her everywhere a weight of weariness and pain should look to her kidneys.

Ask your neighbors if Dodd's Kidney Pills are not the greatest of all kidney remedies.

ACTRESS TELLS SECRET

Tells How to Darken Gray Hair With a Home-Made Mixture.

Joicey Williams, the well-known American actress, recently made the following statement about gray hair and how to darken it, with a home-made mixture:

"Anyone can prepare a simple mixture at home that will gradually darken gray, streaked or faded hair, and make it soft and glossy. To a half-pint of water add 1 ounce of bay rum, a small box of Orlex Compound, and ¼ ounce of glycerine.

These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It does not color the scalp, is not sticky or greasy and does not rub off."

Thousands with Bad Colds!

Everywhere you meet them—coughing, sneezing, gasping—the host who need Peps, to kill the germs that are taken in as you *breathe*.

As Peps dissolve in the mouth, they give off pleasant yet powerful fumes that are carried with the breath into every corner of the chest and lungs.

Germs lodging in the throat and breathing passages are quickly exterminated; inflammation and soreness is soothed and healed and breathing is made easy.

The comforting soothing action of Peps is in strong contrast to that of common tablets containing formalin and other crude drugs which irritate and inflame the throat and breathing passages.

For coughs, colds, chills, grippe, sore throat, bronchitis, and chest weaknesses of young and old, Peps are the unique, safe and speedy remedy. Therefore insist on PEPS—"A Pine Forest in Every Home." All dealers 50c. box, 3 for $1.25. For SAMPLE send 1c. stamp to Peps Co., Toronto.

MOTHER!

Open Child's Bowels with "California Fig Syrup"

Hurry, mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

GRATEFUL TO BRITISH COLUMBIA

We like to have folks say things such as Mrs. A. L. Makern has written.

She says, in substance, that if all British Columbia products were as superior as Pacific Milk there would be little need to ask people to insist upon having them. They would not accept anything else.

Mrs. M. has tried every kind of canned milk, but always goes back to Pacific "more grateful than ever to the wonderful province which produces it."

CENTRAL FARMERS' INSTITUTE TALKS COOPERATIVE MOVEMENT

Marketing Through Okanagan Organization Will Be a Success, Declares Grand Forks Fruit Man; Gathering Representing West Kootenay and Boundary Demands Lower Freight and Express Rates; Asks Retention of Anti-Dumping Clause, and Proposes Parliamentary Agent for Agriculture.

Cooperative purchasing for all the agricultural organizations of the West Kotenay district was one of the possibilities largely discussed at the all-day sessions at the Y. M. C. A. yesterday of the Central Farmers' institute for district H, district F being also included. While no resolution upon this subject was adopted, speaker after speaker urged that an endeavor be made to coordinate the coperative purchasing of various institutes, fruit growers' associations and United Farmer coperatives, through the Central institute. Reports showed that a great deal of cooperative purchasing was already going on, each section on its own, and with a great variety of practice, and, in some instances, organizations of different kinds bucking each other.

The broader aspect of cooperation arose at the morning session, at which Mayor C. F. McHardy welcomed the delegates. J. Bailey of Chilliwack, president of the advisory board, spoke on the subject of cooperation, and C. E. Whitney-Griffith of Metchosin, secretary of the advisory board, made an illuminating address upon the workings of that body. Mr. Bailey argued that an effort should be made to bring the farm producer and the city consumer closer together. Under present conditions, he said, the consumer was paying enough, but the producer was not getting enough, because cost of carriage was to high. There should be an adjustment which would assure a living to those on the land.

At the afternoon session Mr. Whitney-Griffith urged the Central institute to call a meeting of cooperators and see what could be done toward arranging central buying.

O. U. G. Doing Well.

That the Kotenay orchardists who handed their apple crop over to the Okanagan United Growers to market will find that their move was a wise one was asserted by J. T. Lawrence of Grand Forks. Mr. Lawrence said some offered the criticism that Mr. Lowe, the $10,000 a year manager, had been found wanting under the test of the depression. As a matter of fact, when the market broke Mr. Lowe ceased to make sales at the low figures, but consigned the shipments to agents of the O. U. G., who held them until the market advanced. There were 44 cars of Grand Forks apples now in storage in New York and other United States cities, the Canadian prairie and the old country, and prices were now coming up. On the whole, Mr. Lawrence said, the shipments from the Kootenay had averaged a little better price than those from the Okanagan, and the Kotenay on the past year's crop was getting the long end of the stick.

The O. U. G., he claimed, had made a far better showing than any other organization, or than any individual. It was handling about 50 per cent of the provincial croup. When the growers put its figures up to 75 per cent it would be in a position to control the price. While he himself did not intend to sign up again until the full results of the year's operations were known, he had no doubt but that the growers of the Grand Forks district as a whole, including himself, would sign up for five years. An incidental result of the five-year contract, Mr. Lawrence said, was that the banks would accept it as security for loans.

A large number of important resolutions were adopted, one or two of them fully drafted, but the most of them in the form of suggestions, to be duly elaborated.

Freight Rates and Anti-Dumping.

On the motion of S. Smart of Kootenay River institute the advisory board was asked to act in conjunction with the British Columbia Fruit Growers' association in endeavoring to secure a reduction in freight and express rates upon fruit.

On Boswell's motion the Central institute protested against the Vancouver board of trade proposal for the removal of the anti-dumping clause, "as this regulation is of more value to the fruit growers than a protective tariff, owing to the method of application."

A Grand Forks resolution objected to the changes in the taxation regulations, which made the taxes payable on April 30, abolished the discount, and made it possible to put up a man's property for sale two and a half months after the taxes became due. This was adopted, with the added suggestion that the taxes become payable in August.

Want Parliamentary Agent.

It was contended that agriculture suffered from having no special representatives watching its interests in taxation and other maters in the legislature, and the secretarey was instructed to get in touch with all agricultural organizations throughout the province, and to suggest joint action to secure a parliamentary agent whose duties would be to safeguard the interests of agriculture.

At the suggestion of the Kootenay River institute the advisory board was asked to take up very strongly the matter of importation of butter and eggs from foreign countries into this province, "these importations being responsible for the appalling low price of these commodities prevailing at the present time."

Passmore secured the passage of a resolution asking that "a proportion of the taxes collected in a district be spent in that district."

A Robson resolution asked a higher bounty on coyotes.

Districts to Revert.

Owing to the advisory board representative for district F, which includes Trail and Rossland and the Boundary, not having attended the meetings of the board or put in reports, it was concluded by the department that the district had disbanded and the constituent institutes were instructed to meet with district H, the West Kootenay. These very much alive constituent institutes yesterday expressed a desire to be reestablished as a district and the meeting passed a resolution favoring this move.

A resolution of more local application instructed the secretary to write agricultural bodies within district H, asking if their milk producers are making complaints as to cream shortages, with a view to an inquiry being made by the Central institute, supposing the complaints are numerous enough, as to the party or parties at fault.

Mr. Whitney-Griffith announced that $30,000 had been appropriated to continue the stumping powder service to the ranchers this year.

Officers Elected.

J. T. Webster of Robson will guide the destinies of the Central institute, as president, for 1922; T. A. Wheildon of Kotenay River was elected vice-president; O. B.. Appleton of Proctor was chosen as representative on the advisory board, and H. Fairbank of Queens Bay was continued in office as secretary-treasurer.

Votes of thanks to the visiting advisory board members, for their presence and addresses, were extended on motion of Mr. Lawrence of Grand Forks and Ed Roach of Rossland.

Those present were: J. Bailey, Chilliwack; C. E. Whitney-Griffith, Metchosin; J. T. Lawrence, Grand Forks; Ed Roach, Rossland; F. Fellows, Nakusp; O. B. Ballard and J. T. Webster, Robson; T. A. Wheildon, T. H. Negus and S. Smart, Kootenay River; W. H. Saunders, Passmore; W. Billington, H. F. Orchard and W. Stevens, Shirley; W. Calbick and C. H. Gansner, Nelson United Farmers' Cooperative; J. F. Layson and D. Beattie, Nelson; A. G. R. Strickland and O. B. Appleton, Procter; H. Fairbank, Queens Bay; Captain F. J. Oatts, Boswell.

Personal Mention

F. E. Oborne, the Robson apiarist, was a Nelson visitor yesterday.

A. Wallach was out yesterday for the first time in two weeks, having strained the cartilage of his knee.

John D. MacLeod of Prince Rupert, who has been visiting his mother, Mrs. J. MacLeod, Kerr Apartments, left for Vancouver last night.

Little Miss Ivy Walker gave a very pretty interpretive dance at the social of the G. W. V. A. Ladies' auxiliary Saturday night at the Dugout.

Among those who will leave today for Spokane, in time for the second day of the Northwest Mining convention, are Mr. and Mrs. H. A. Johnstone.

J. G. Whiteacre of Vancouver, western general manager of the Mason & Risch Piano company, spent yesterday in the city on business in connection with the local show rooms of the company.

Fred A. Starkey, H. E. Dill and W. J. Richards left yesterday morning, via the Great Northern, for Spokane, to the Northwest Mining convention, which opens its sessions of five days today.

SNOWFLAKE MINSTRELS INCLUDE GOOD TALENT

Unquestionably the production of the Nelson "Snowflake Minstrel" troupe, which is now getting into the dress rehersal stage, should be one of the finest productions ever staged locally, for the troupe embraces possibly the most talented aggregation of fun makers ever assembled here. The latest addition is Teddy Mason, the veteran minstrel man, whose appearances in the past have been entertaining to a degree.

Arrangements are going along splendidly, rehersals being frequent and well attended, and advance bookings numbering over a hundred seats indicating there will be a record house. The city council, and the delegates to the convention of the Associated Boards of Trade of Eastern British Columbia have arranged to attend in a body. The performance will be for one night only.

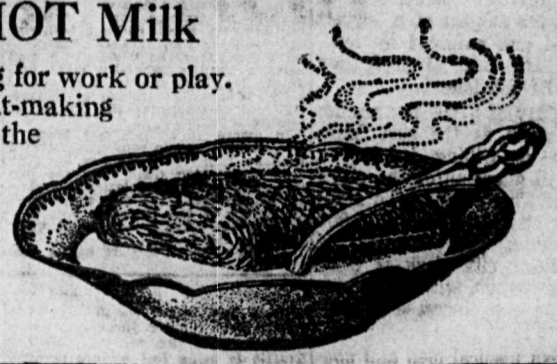
A manufacturing plant at Anaconda, Mont., produces 400 tons of arsenic a month.

Better Breakfasts Build Better Bodies

Breakfast is the most important meal of the day. Your day's work is done in the forenoon—if you have been wise enough to eat a breakfast that is easily digested and full of nourishment. Start the day right by eating

Shredded Wheat
With HOT Milk

Nothing more nourishing or satisfying for work or play. It supplies the tissue-building, heat-making elements that fortify the body against the disease germs that lie in wait for the poorly nourished body. The ideal food for the hurry-up breakfast or the hurry-up luncheon. A better balanced food than eggs or potatoes and costs much less.



Policyholders of the Mutual Life of Canada Enjoy a Record Year of Financial Prosperity

Striking Statements from Addresses

Mr. Hume Cronyn, President:—

"From time to time we have evidence that the gospel of mutuality is leading the insurance world into the higher paths of an ideal system. The latest convert, The Provident Life and Trust, of Philadelphia, following the notable examples of the Metropolitan, Prudential, Equitable and Home, has announced its intention of redeeming its stock and turning over to its policyholders one hundred and twenty millions of assets and over half a billion of business. Thus does this firmly established and well managed concern bear testimony to the strength of altruistic cooperation."

Mr. R. O. McCulloch, 1st Vice-President:—

"This Company has always had complete faith in our Great West and nothing in the present situation shakes our confidence in its tremendous agricultural possibilities and its ultimate progress and development. We recognize that the West is going through a period of adversity but it will survive this setback as its people are industrious, stout-hearted and confident. We know that our agricultural prosperity is necessary for the growth and development of Canada and our policy, as far as we can follow it, consistent with the principle of safety, is to continue to invest in first mortgages on improved Western farms."

Mr. C. M. Bowman, Chairman of the Executive:—

"The bond purchases made during 1920 and 1921, many of them being of unusually long term and high interest yield and representing fully sixty per cent. of the Company's total bond holdings, will be an important factor in connection with the return from invested funds for many years, thus enabling participating policyholders of the Mutual Life to look forward with confidence to the future."

Mr. Charles Ruby, General Manager:—

"No finer demonstration could be desired of the solid foundation upon which a well managed life insurance company rests than this quick rebound from the financial strain occasioned by the late war and influenza epidemic. Nor could there well be a better augury in regard to dividends to policyholders in the coming years. While there may always be discussion on the general topic of whether the participating or the nonparticipating system in life insurance is the better plan for an applicant, the experienced holders of participating policies in the Mutual Life of Canada, at any rate, will have no difficulty in satisfactorily settling the question so far as they are concerned."

Unprecedented Profit Earnings

A REMARKABLE increase in the surplus earnings of the Mutual Life Assurance Company of Canada was shown by the Fifty-Second Annual Statement, as presented at the Annual Meeting of the policyholders held in the Head Office of the Company at Waterloo, Ontario, on Thursday, February 2nd.

The entire net profits, or Surplus earnings of the year's operations will be, as usual, ultimately distributed to the policyholders of the Mutual in cash or applied to the reduction of their premiums or added to the face values of the policies, as per policyholders' individual option. Three factors have combined to bring about this red-letter year in the annals of the Company.

1. Decrease in Expense Ratio

The percentage of the Total Income required for operating expenses was reduced from 20.45% in 1920 to 18.60% in 1921.

2. Increase in Interest Earnings

The average rate of interest earned by the investments of the Company shows an increase from 6.41% in 1920 to 6.60% in 1921.

3. Highly Favorable Mortality

The mortality rate of 1921 was the lightest experienced by the Company in recent years, being relatively 20% less than in 1920.

Surplus Earnings of $2,243,038, being $46.47 per $1,000 of Total Assets

The combined effect of these three different factors in the Company's experience for 1921 was to increase the surplus earnings

from $38.67 per $1,000 of assets to $46.47 per $1,000

The most significant item in the annual reports of a life insurance company doing business on the participating plan is not the amount of Surplus shown by the Balance Sheet but the Surplus Earnings for the year.

Salient Points from the 1921 Report

Income,	$11,059,484	Assets,	$ 48,211,204
Paid to Policyholders	$ 3,872,874	Busines in Force,	$228,697,353
General Surplus Funds,	$5,790,520.70

Anomalies in Rates of Pay

Manchester, England, was denied the right to buy space in the British medical journals for the purpose of advertising a vacancy in the post of medical health officer. Manchester is almost the subject of a boycott planned and enforced by leaders of the medical profession in the British Isles.

A salary of $7500 per annum was named as the sum Manchester is willing to pay a qualified guardian of the city's health. The salary of the Manchester city engineer is $15,000 per annum. The salary of the Manchester city clerk is $12,500 per annum, with the promise of an early increase to $15,000.

British medical men and specialists in the prevention of disease insist that their noble calling is flouted and the medical scientists of the British Isles insulted by Manchester's offer of the $7500 salary to a medical health officer. Manchester is asked to explain why the chief guardian of a great community's health should be offered a salary of $7500 per annum by a city that pays $15,000 per annum to the chief administrator of that city's works department and promises $15,000 per annum to the city clerk—the chief custodian of the Manchester records and archives.

It does seem rather absurd, but anomalies in rates of pay in all classes of work are plentiful. All pay should be, although it very often is not, based upon the value that can be given for it. Probably the main reason for so many inequalities lies in differing opinions of value.

Monuments to Mark Notable Effects at Sea

In France, Canada and the United States within the last month three movements have been started to erect memorials of men and events chiefly connected with the sea and with nautical affairs.

The French plan is for a floating monument to those who lost their lives through the sinking of the Lusitania. This is to take the form of a sculptured group of symbolic figures to be mounted on a floating structure anchored off the coast of Ireland and connected with the shore by cables so the memorial can be lighted at night.

The Canadian scheme is for the erection of a monument on the bank of the St. Lawrence at Quebec in honor of Abraham Martin, the first Scotchman and King's pilot to arrive from England and act as pilot on the St. Lawrence river. The American proposal is to build a lighthouse in Santo Domingo in honor of Columbus.

If the French plan is carried out the memorial will be the first thing of its kind known to the sea, and it will be a reminder of the Lusitania tragedy to all those who pass it. A memorial to a pilot is an act of graciousness from the shore-keeping folk well worth while. In America contributions to the same object are preserved in the pages of Mark Twain and John Hay.

Christopher Columbus has an unofficial lighthouse monument on Salvador or Watlings island, for it is one of the legends of the West Indies that the Watlings island light stands "300 feet from the spot where Columbus is supposed to have landed." New York has done its part in contributing to unusual nautical monuments through the memorial at the Battery to the wireless men who lost their lives at sea.

What the Press Is Saying

Railways Under Government Ownership.

There is evidence all over the Union that producers are today gravely hampered by the high transport charges. In some directions the rates are already strangling industry, and the railway men will never convince the public that further increases would be fair or in the national interest. Traffic is being lost simply because the railway charges eat up all the profit on commodities sent to the market. The issue is not one affecting the railway employes alone. It is a national one, because it has a distinct bearing upon the present condition and the future prospects of nearly every enterprise in the Union. Railway rates which are too high mean diminishing industries and decreased employment.—Johannesburg Times.

The Lightly Taxed Hun.

The real secret of the trouble is that the clause in the Versailles treaty has never been enforced which lays down that "the German scheme of taxation is to be fully as heavy proportionately as that of any of the allied powers." If it had been, we should not have had the exchange chaos, and 2,000,000 unemployed would not be walking the streets here because the produce of British labor is undersold by unfair German competition. Our income tax—not the German one—would be cut in half because the people who made the war would be made to pay as they should for the enormous damage and misery which they caused.—London Daily Mail.

Efficient Housekeeping

By Laura A. Kirkman

ANSWERED LETTERS

Constant Reader—"Will you please tell me the number of calories needed by a dainty little girl of three, a man 40 years old whose work is mental, and a woman who does her own housework? Also please tell me of a way to keep my bungalow smelling sweet. When making coffee or cooking steak I always lower my kitchen windows from the top and later burn incense, but the air still smells stale."

Answer—A child of three daily needs 1300 calories; a man weighing about 150 pounds and at sedentary work requires 2433 calories a day; and a woman weighing about 123 pounds and doing her housework should have 2245 calories every 24 hours. If you would like to have a book which gives calorie charts for all ages of individuals at all kinds of work, send me a stamped and self-addressed envelope and I will tell you from which publisher you can buy this book by mail.

I will also gladly send you my multigraphed article on "The Composition of the Various Foods" with lists of proteins, starches, fats and vitamines separately and explains how to obtain a well-balanced menu without bothering over calories. For, if each meal contains these four food-elements, a well person's appetite generally takes care of the proper amount that should be eaten, without the trouble of measuring food to determine the number of calories it contains.

In regard to airing your home, I would advise you to raise your kitchen windows from the bottom a little, as well as dropping them from the top; this gives perfect circulation, the stale air going out at the top while fresh air enters at the bottom.

Subscriber—"Can a rubber hot water bottle be mended?"

Answer—Some druggists sell a rubber cement, but, although this is splendid for other rubber articles, it is not often successful with a hot water bottle.

An Appreciative Reader—"Please, please print in your column directions for knitting a skating cap. My daughter needs one."

Answer—I cannot always comply with such a request, but it just happens that I have the following:

Girl's Knitted Skating Cap—Buy 2 balls of navy blue floss, 1 ball each of old gold and Oregon green, and bone or celluloid needles, size 3.

Band—Using green, cast on 100 sts, k 1 row and p 1 row for 3 inches; change to old gold, k 1 row and p 1 row; with blue k 1 row and p 1 row for 1 inch; repeat the old gold stripe; with green k 1 row and p 1 row for 1 inch and change to blue for top of cap.

Top—Work 1 inch of plain knitting. Next row increase 1 st in every fifth st, 3 ribs plain, again 1 row of increasing in every fifth st. Then k plain until blue measures 12 inches. Now sew up seam, turn back band and sew to lining where plain blue knitting commences. Again turn back and catch. Sew top of cap with seam in center, then turn corners in to form a mitre, pull point down to band and fasten with a pompom of the three colors.

Tomorrow—Some Good Hot Breads.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

The Lighter Side

An egg a day keeps the hatchet away.

Evolution: Dreadnaught; naughty; naught.

"France needs a leader who can take punishment." Well, there's Carpentier.

We can afford to cheer up now. The first 300 crises are the worst.

Some married women are unhappy, and some learn to consider themselves martyrs.

It isn't the surf of the matrimonial sea that causes the wrecks, but the surfeit.

All the down-and-outer asks is a chance to help himself. Just leave the cellar door unlocked.

Some conscientious people define wickedness as anything that promises enjoyment.

The income tax exemption appears to have given new impetus to the fresh heir crusade.

"Police in quest of speeders."—Headline. Inquest is usually suggested by speeders.

Styles

BY LENORE

If it is dark and has a touch of red, it is smart. So Dame Fashion says about the new spring frock. Here is another one of those straight shoulder-to-hem dresses that is being shown by a certain well-known French designer, and it is one of those dependable

sort of dresses that will be smart for street wear without a wrap all through the spring.

The red here is introduced in a novel trimming made of narrow black silk braid from each flat loop of which dangles a tiny red bell. Small ball buttons may be used in the same way. The braid is looped at intervals of two inches, and the two rows alternate so the little bells are an inch apart. For the belt the same idea is used, and this is made large enough so it may be adjusted pretty well down to the hips. The little collar behind and the sleeves are faced in red, and silk braid is added both around the sleeves and in a graceful arrangement on the skirt.

Daily Recipe

SWEET JUNKET.

Ingredients: One cup milk, half a cup honey or sirup, half a junket tablet, a few grains of salt, and same of nutmeg or cinnamon. Method: Warm the milk to about the temperature of the body, crush the tablet, and add it with the other ingredients to the milk. Pour into dishes and place in a warm (not hot) place to harden. Cool before serving. Serve with cream or crushed fruit.

TAYLOR MURDER STILL MYSTERY

No Clew to Who Fired Fatal Shot; Woman Inquirer Withholds Name.

LOS ANGELES, Feb. 13.—The investigation of the slaying of William Desmond Taylor, motion picture director, reached a stage today which was described by officials directing the inquiry as one of "waiting for the unexpected." It was frankly admitted that no progress had been made in the direction of establishing who fired the shot which killed the director in his home on the night of February 1.

The only action taken at the district attorney's office, where the inquiry has been centralized, was the interviewing of a young woman late in the afternoon, who called with a request that she might see some of the investigators. She left about 15 minutes later after having been taken to the office of District Attorney Thomas Lee Woolwine. She declined to give her name. Persons who saw her said she was no one connected prominently with the motion picture industry. No statement was given out concerning her call by the district attorney's office a the time.

Mr. Woolwine said he had checked up "countless" clues which had been brought to his attention, without definite results.

LEAVES ESTATE TO WIDOW AND NEPHEW

VICTORIA, Feb. 13.—The will of Hon. T. W. Patterson, railroad builder, Liberal member for The Islands in the provincial legislature and from 1909 to 1914 lieutenant-governor of the province, who died last August, divides an estate valued at $695,054 between his widow and a nephew, A. D. Patterson, M. P. P. for Delta. The latter receives the late Mr. Patterson's 320-acre farm, Delta, valued at $237,000, and the widow the balance of the estate. The will was entered for p bate today.

THE FINEST

A TRIAL PACKAGE WILL CONVINCE YOU

When you haven't met for a long time, both naturally wonder what changes Time has wrought. Keep that schoolgirl complexion and he will say the years have left you unchanged.

Still—That Schoolgirl Complexion

When must beauty cease? Never, if you know how to keep it. The charm of beautiful maturity may rival that of early youth if wholesome, ever alluring freshness is not allowed to fade.

A firm, fine skin, smooth and free from blemishes, makes every woman seem young. Every woman can have such a complexion—the secret is simple, the means within the reach of all.

Cleopatra kept her youth

She reached the height of her fame and beauty when some women imagine they must fade and grow old, keeping her youthful charms and freshness by the same simple means which we recommend today.

Cosmetic cleanliness was a daily rite, and the cleansers employed were palm and olive oils. This kept her complexion fresh and smooth, stimulated to healthful functioning.

Most facial disfigurements result from clogging accumulations which collect on the skin, fill up the pores and cause coarseness, blackheads and blotches.

Wash your face every day and these ills won't afflict you.

Use gentle means

The kind of washing we mean is gentle, soothing, cleansing with the modern blend of palm and olive oils.

Its action is mild and the profuse creamy lather seems lotion-like. It leaves the skin wonderfully smooth and fresh while removing every trace of soil.

Such cleansing is most beneficial and prepares the skin for cold cream if you need it and the touch of rouge and powder most women use.

Neck, arms and shoulders should receive the same beautifying treatment, for they are conspicuous as the face for complexion beauty or the lack of it. Use Palmolive for bathing and let it do for your body what it does for your face. The price allows it.

Why the low price

This modest sum is possible through gigantic production which keeps the Palmolive factories working day and night and the importation of the bland mild oils in tremendous volume.

Thus this finest facial soap, which if made in small quantities would cost at least 25 cents, is offered at the price of ordinary soap.

MAY DAY DREAM DELIGHTS ROBSON

Operetta Pleases; Thirty Performers Stage Picturesque Entertainment.

ROBSON, Feb. 13.—On Friday, February 10, the operetta, "A May Day Dream" (Ashton), was produced at Robson under the direction of Mrs. Stuart McDiarmid. The main room of the packing house was converted into a theater, whose capacity was taxed by the large audience, which was drawn from the whole district.

This picturesque and charming play, in a very pretty woodland stage-setting, was entirely free from dull moments, and may be said to have captured and held its hearers to the end. The second scene being a moonlight revel of the fairies, with bright music and dancing, was particularly effective. In this scene, the principal part, that of the Queen of the Fairies, was taken by Miss G. Ross of Castlegar, whose charming voice and stage presence won the applause of the audience. Possessing a soprano voice of fine quality, which shows the effects of training, Mrs. Ross will always be sure of a welcome in Robson.

Mrs. J. T. Webster made a very lovely Queen of the May, who was captured by the fairies under the spell cast by Puck, as a sprightly imp of mischief. Puck, as portrayed by Mr. Webster, was more than the average amateur's accomplishment.

Comedy Enlivens

The comedy features were furnished by that grotesque pair, Clementine and Gregory, portrayed by Miss E. Gagnon of Nelson, and O. B. Ballad of Robson. These "twins" kept their audience in gales of laughter with their funny antics and chatter. Mr. Irwin was a very effective Genius of the Ring. The choruses of fairies and school children were tuneful and catchy.

The orchestral accompaniment, under the leadership of Mr. J. Johnston, with Mr. Nelson of Fernie at the piano, was the complement the play required to make a memorable picture. In a company of 30, necessary for this production, there was no weak part and a standard for future productions has been established. The proceeds were turned over to the Women's Institute for the piano fund.

AINSWORTH NOTES

AINSWORTH, Feb. 13.—All the residents of Ainsworth were sorry to hear of the death of Dr. Hartin. He was a friend and physician of many here and will be missed by all who knew him.

Mrs. Austin was a Nelson visitor on Saturday between boats.

Mrs. Grant King was a visitor to Nelson over the week-end.

Mr. J. McDougall, manager of the Spokane mine, returned Monday night from Spokane, after an absence of several weeks.

The Thimble Circle held their usual weekly meeting at the home of Mrs. W. E. Lane on Wednesday afternoon. An interesting talk on the "Work of the Blind" occupied part of the afternoon, after which Mrs. Steel and Mrs. Lane played a pianforte duet. Mrs. Lane served tea. There were not a full number of members present as the roads were in very bad condition owing to the warmer weather.

RAISE FUNDS FOR COMMUNITY STABLE

FRUITVALE, Feb. 13.—An enjoyable whist drive and dance was held in the Public hall on Friday last. Prizes were won by A. Webster and Mrs. Knowler, second prizes going to Mrs. George Ross and D. Wick. Dancing started at 10 o'clock and with such lively music none could help having a jolly time.

Supper was served by the members of the Women's institute.

Music was furnished by Messrs. Bell, Christie, Mason and Hillman and Mrs. Gardiner.

Glen Wick acted as floor manager.

The men from the camp at Parks attended the dance, also friends from Waneta and Northport. Proceeds will be devoted to the fund for building a community stable.

WILL SUPPORT TRAINED NURSE

Women's Institutes Votes Financial Aid Toward Project; Dance Brings Dollars

WILLOW POINT, Feb. 13.—The monthly meeting of the Women's institute was held at the house of Mrs. Masters, on Thursday afternoon. Mrs. Applewhaite was in the chair. The subject of a trained nurse for outlying districts again came up for discussion, after a letter on the subject, from Mrs. Garland Foster, had been read by the secretary.

It was finally decided that financial aid should be given from the society toward the salary of a trained nurse to serve an outlying district, where it is impossible to have patients taken into town for treatment, but it was thought impracticable for any nurse to serve ten settlements, as the distances are so great between each.

The secretary reported that the fancy dress dance had brought in $31.45. After expenses were paid $25.10 remained to go toward the building fund.

The program for the next meeting, was then arranged. Mrs. Malcolm Heddle agreed to give a demonstration on the making of puff paste.

Members have been requested to bring hints on the subject of spring cleaning.

Questions may also be asked by means of a question box.

Business having been finished, a short piano recital was given by Mrs. H. M. Greenwood's pupils. Mrs. Bayley also gave one of her charming songs.

Following is the program:

Consolation ..... Medelssohn
Master Howard Bayley
Minuet in G ..... Beethoven
Miss Gabrielle Taylor
Tarentelle ..... Zilcher
Miss Louise Palmer
Song—Mifany ..... Mrs. Bayley
Shepherds All and Maidens Fair..Nevin
Norwegian Bridal March ..... Greig
Mrs. N. M. Greenwood

The meeting was then adjourned and tea was served by Mrs. Maguire and Mrs. Valentine.

HEATER RECLINES; CURTAINS BLAZE

Mrs. McCarthy's Cottage, Opposite Shipyards, Furnishes Run for Brigade.

An overheated heater in the cottage occupied by Mrs. John McCarthy, opposite the shipyards gave Mrs. McCarthy's son, Rege, some moments of excitement at 5:20 o'clock yesterday afternoon, and gave the fire department a run to Fairview. The heater ignited the window curtains, and burned paper on the walls and ceiling, doing damage estimated at $10 or $15.

The brigade took down the motor chemical, the fire being beyond the hydrant zone, but a few pails of water sufficed to put out the blaze.

Mrs. McCarthy was out of the city yesterday.

CHOQUETTE LEADS LOCAL RETAILERS

Merchants' Association Elects Officers; Discuss Recent Deluge of Canvassers.

Alderman L. H. Choquette was chosen to head the local branch of the Retail Merchants' association of Canada at the adjourned annual meeting held in the board of trade rooms last night. The election of officers for the year was the only real business of the session. The other officers elected were: First vice-president, I. G. Nelson; second vice-president, W. Walker; treasurer, R. Andrew; honorary secretary, Ross Fleming. E. F. Gigot was again elected secretary.

Afterward the meeting was closed, but the members present stayed to discuss in general terms various matters pertaining to retailers with a view to bringing them up the next business session. The questions of combatting what was termed the nuisance of the recent deluge of canvassers was a big topic.

Those present were: L. H. Choquette, W. Walker, J. M. Ludwig, I. G. Nelson, W. S. King and Secretary E. F. Gigot.

HYPNOTISM BASIS OF MURDER TRIAL

Barry to Stand Trial for Killing Child; Mother Involved.

EDMONTON, Feb. 3.—John Barry went north in the custody of Alberta provincial police constables this afternoon to stand trial at Peace River on a charge of murder and to figure in the role of the accused in what the police declare to be one of the most peculiar cases in the history of police annals.

Barry, a man of 32 years of age, a farmer of the Peace River district and said to be an old-timer, will stand trial for alleged murder of 7-year-old Ludwig Sabbe, who, the police allege, was suffocated in a slough and later carried by Barry and the dead boy's mother, Mrs. Sabbe, and dropped in the waters of the Northpart river, where his remains were finally discovered by Constable Faulkner.

Mrs. Sabbe's alleged implication in the crime is attributed by the police to auto-suggestion or hypnotism on the part of Barry, and this will be the stand of the prosecution in their endeavor to convict Barry on the charge of murder.

The mother of the dead child declared to the police that Barry, with whom she admitted having illicit relations, placed his hand on her and she became hazy and that Barry had such power over her that he could compel her to do anything he suggested.

WRECKAGE FOUND AT CRAWFORD BAY

Launch in Which Missing Physician Embarked Had Life Preservers.

Finding of charred wreckage near Crawford Bay, by the steamer Moyie Sunday afternoon, is the only additional clue reported since Sunday, to the fate of Dr. George C. Read of Kaslo, who embarked from Kaslo for Ainsworth Friday afternoon at 2:30 in C. F. Sherwin's big motor launch, Ella Poppin, and has been missing since he passed out of sight of Mirror Lake.

The wreckage in this case consists of the covering of the bow, which is burned through Where this was washed ashore is at least 12 miles from where other burned wreckage was found at North Bay, above Riondel, and several miles from that at Coffee creek, on the west side of Kootenay lake.

It is now stated that the launch contained life-preservers, so there is a considerable probability that the physician's body may be found, assuming that he had time to make use of one, when the launch caught fire.

O. Strathearn, the Kaslo forest ranger, was patrolling the shore line all day yesterday in his launch, without further results, reports from Kaslo state.

POLICE SEARCH FOR MURDER SUSPECTS

EDMONTON, Feb. 13.—George Popvich lies dead in the Smoke Lake district along the line of the St. Paul de Metis railway and Alberta provincial police constables are searching every likely source for the arrest of two men who are alleged to have beaten the deceased to death.

News of the reported murder reached local headquarters of the Alberta provincial police this morning and Superintendent Bryan immediately dispatched detective reinforcements to the scene. Detectives Irvine and Elock took the morning train to join in the chase for the suspected murderers.

Vancouver School Board Estimates Involve Nearly Quarter Million Increase

VANCOUVER, Feb. 13.—Estimates of the Vancouver school board call for a substantial increase in expenditure, chiefly on account of increased salaries to teachers. The estimates call for $1,955,362, an increase of nearly $250,000 over last year.

ASK RESTORATION OF ARBITRARIES

Maritime Industries Cannot Compete With West Without Relief, Is Claim.

MONTREAL, Feb. 13.—A meeting was held this afternoon by representatives of maritime province interests with reference to their application to the board of railway commissioners for the restoration of the arbitraries, which were in effect on the railways prior to the eastern rates case, when these arbitraries were abrogated by decision of the railway board of 1915, and were later accentuated by the percentage increases which have been in effect since that time. The meeting was preparatory to the presentation of the application of the maritime interests in conjunction with the hearing to be held by the railway commission at Ottawa next Wednesday in connection with the equalization of western and eastern freight rates. Hon. R. E. Finn, minister without portfolio, representing the Nova Scotia government, stated today that unless the arbitraries were reestablished it would be impossible for maritime province industries to compete with western industries and that industrial chaos would follow unless "we are granted this rate relief."

The delegates will proceed to Ottawa tomorrow.

COTTON MILL HANDS STRIKE

New Hampshire and Rhode Island Mills Suspend Operations.

BOSTON, Feb. 13.—Cotton mill operatives in New Hampshire and Rhode Island, with few exceptions, were on strike today in protest against wage reductions averaging 20 per cent and the restoration of the 54-hour week. There were no disturbances in either state.

Many of the New Hampshire mills suspended operations before noon, when it was seen that the plants could not be run with the workers who reported.

The number of employees thrown out of work by the almost general strike in New Hampshire were estimated at between 25,000 and 30,000. In Rhode Island the list of persons affected by strikes was brought to more than 20,000 with the closing of three departments of the Jenckes Spinning company's plant at Pawtucket, necessitated by defections to the ranks of the strikers.

The situation in Rhode Island marked time today, with the state guardsmen, who have been ordered to be in readiness for possible duty, still in their armories.

POLO PONY FALLS BACK ON PRINCE

Injury Only Slight; British Heir Rides Three Placed Horses in Races After.

LONDON, Feb. 13.—The Prince of Wales narrowly escaped injury at Gwalior, Central India, last Saturday, when his polo pony reared and fell backward, says a dispatch to the London Times today from its correspondent who is with the prince on his Indian tour. The prince was knocking the ball about the polo grounds, riding a pony which objected to approaching a dead ball. He tried to urge the animal up to a ball lying in the middle of the field when the pony reared and fell. The prince was able to slip out from under his mount, only slightly shaken.

As evidence that he was only slightly injured the prince that same afternoon rode in four races, finishing, respectively, second, third, fourth and unplaced.

The Times' correspondent, in another message filed today just before the arrival of the prince's party at Agra, in the United provinces, said they expected to find a complete hartal upon their arrival there. Police officers on their way to Agra had told the correspondent that for some days past national volunteers and non-cooperators from Agra had been driving over the country roads visiting all villages and preaching sedition.

MUTUAL LIFE GOING STRONG

Favorable Factors Operate to Maximum Benefit of Insurance Company.

The 52nd Annual Statement of the business of the Mutual Life of Canada has just been published, and the policyholders of the company may well congratulate themselves on the results of the last year's operations.

The statement shows that the surplus earnings have been the largest in the history of the company, and when we remember what a record the Mutual Life has already achieved this statement cannot fail to be impressive.

The business of the company is now more than $228,000,000, having increased by $22,000,000 during the year that has past. Another such year will place the company among those having a quarter of a billion dollars of business in force.

But the amount of business written, although satisfactory, is less important than the financial results attained.

Surplus is mainly acquired through the operation of three factors, namely—a low expense ratio, high interest earnings and low mortality. Now it happened that in the year 1921 all these factors operated so as to produce maximum results. The expense ratio, that is the ratio of expense to income, fell from 20.45 per cent to 18.60 per cent. This means that the company's affairs have been economically handled.

Investments Well Placed

The investments were so carefully placed that the interest earnings have risen from 6.41 per cent to 6.60 per cent, that is to say the interest earned on invested assets was on the average 6.60 per cent during the year. Considering the variety of securities the company handles, this average interest rate is exceptionally good. The third feature is notable, because intelligent observers had predicted a heavy mortality in the years immediately following the war. That forecast has proven to be incorrect, and the disbursements for death claims during 1921 were only 41 per cent of the amount that the standard tables of mortality might have led them to expect.

Thus we have in the experience of the Mutual Life during the past year three potent factors at work to increase the profits of the company by the largest amount that has ever been earned in the company's fifty-two years of beneficient work. The company being established on a purely mutual basis, makes this result all the more interesting, because the whole of the surplus is used either to reduce premiums, to increase the amount of the insurance or is paid in cash.

Assets Increased Over $5,000,000,

The statement shows that for every $1000 of invested assets, the company this year has earned $46.47, as against $38.67, in the preceding year, a truly astonishing result. The assets amount to $48,211,203.98, having increased over the preceding year by $5,363,926.73.

By every test the Mutual Life of Canada is in a stronger position today than it has ever been before, and this is saying a good deal, for every one of its fifty-two years has witnessed steady progress, not only in financial standing, but also in the extent of the company's operations. It has been a wonderful year for the policyholders of this popular Canadian Company.

The real test of a life insurance company operating on the participating plan, is its surplus earnings from year to year, and the Mutual has achieved a remarkable record in this respect.

BOND DEALERS' AGENT VISITS

Reports Proposed Saskatchewan Legislation to Intervene When in Arrears.

TORONTO, Feb. 13.—L. A. Winter, who was appointed by the Bond Dealers' association to visit certain municipalities of Alberta and Sasktachewan in connection with their failure to meet obligations to debenture-holders reported to representatives of bond dealers this afternoon. Mr. Winter visited McLeod and Beverley and Beverley school district in Alberta; Swift Curren, Melville and North Battleford school district, in Saskatchewan, all of which are in arrears.

Mr. Winter stated that he had been informed by a prominent member of the Saskatchewan government that a bill will be introduced to give powers to the local government board to intervene in cases like the present difficulty in Swift Current and a new clause inserted to the effect that on a resolution of the municipal council the local government board may stay all proceedings until it had held an investigation. Such a bill would involve municipal moratoria in the province of Saskatchewan and any municipality in financial difficulties could stay proceedings on the part of the creditors.

TORONTO BOARD

TORONTO, Feb. 13.—The local stock exchange was devoid of feature today. The failure of a Montreal investment house while not unexpected, exerted a depressing influence.

Brazilian again supplied a large portion of the turnover, closing slightly down, however, at 31¾. Bell Telephone closed up 1½ at 105.

Bank of Commerce at 182 was 3½ down, Hamilton at 171 was 1½ down while Imperial showed further strength at 170½ and Royal at 199 was unchanged. Toronto General Trusts closed 5 up at 105.

MONTREAL PRODUCE

MONTREAL, Feb. 13.—Produce prices unchanged.

Cheese—Finest easterns, 17½c to 18c.

Butter—Choicest creamery, 33c to 34c.

Potatoes—Per bag, car lots, $1.20 to $1.25.

Czecho-Slovakia Asks Postponement of Genoa Conference Three Weeks

LONDON, Feb. 13.—Postponement of the Genoa conference for three weeks is asked in a note handed to the Italian foreign office today by the minister of Czecho-Slovakia, acting on behalf of the states created from former Austrian territory, says an Exchange Telegraph dispatch from Rome today.

CONSIDER LOWER BROKERAGE RATE

MONTREAL, Feb. 13.—In order to facilitate local trading in shares of the Canadian Pacific railway, which has practically ceased on the stock exchange on account of the comparatively high interest charged by brokers compared with New York, the members of the Montreal stock exchange will hold a meeting on February 24 to discuss amending the bylaw fixing the interest brokers must charge clients at 7½ per cent. The amendment would allow brokers to charge the New York money rate when it is lower than the local minimum.

DOMINION LIVESTOCK

WINNIPEG, Feb. 13.—Receipts in the yards up to 9 a. m. today were 170 cattle and 500 hogs.

Steers—Choice, $5.75 to $6.00; fair to good, $4.50 to $5.50.

Butcher heifers—Choice, $5.00 to $5.50; fair to good, $3.75 to $4.75.

Butcher cows—Choice, $4.50 to $4.25; fair to good, $3.00 to $3.75.

Bulls—Good, $2.75 to $3.25.

Oxen—Good—Good, $3.50 to $4.50.

Feeder steers—Choice, $4.00 to $4.25; fair to good, $3.00 to $3.75.

Stocker steers and heifers—Choice, $3.00 to $3.50; fair to good, $2.50 to 2.75.

Calves—Choice, $8.00 to $9.00; good, $3.00 to $7.00.

Sheep—Good, $4.00 to $6.00.

Lambs—Good, $7.00 to $9.00.

Hogs—Selects, 11.25; heavies, $7.25 to $9.25; lights, $10.00 to $10.25.

TORONTO, Feb. 13.—Cattle receipts, 2832; heavy beef steers, $7.00 to $8.00; butcher steers, Choice, $7.75; good, $6.00 to $6.50.

Cattle receipts, 275; all sold at 50c reduction. Tops were few at $13.30.

Sheep receipts, 688; lambs, from $10.00 $13.00.

Hog receipts, 1900; fed and watered, $13.00.

CANADA BONDS

WINNIPEG, Feb. 13.—Bid prices for Dominion war issues:

Victory loans—1922, $99.80; 1933, $99.70; 1927, $101.10; 1933, $102.65; 1937, $104.70; 1924, $99.25; 1934, $99.70.

War loans—1923, $98; 1931, $97.80; 1937, $100.

METAL MARKET

LONDON, Feb. 13.—Standard copper—Spot, £61 15s; futures, £62 15s.

Electrolytic—Spot, £67; futures, £69.

Tin—Spot, £153 5s; futures, £155 5s.

Lead—Spot, £22 5s; futures £21.

Zinc—Spot, £24 5s; futures, £25.

MONTREAL LIST

MONTREAL, Feb. 13.—The total volume of business on the local stock exchange today fell to a point below the trading of any full day's session for the entire year 1921. The dealing was largely in small lots and there was neither trend nor tone to the market, the price changes being irregular and in all but two or three cases, fractional.

Brazilian was the most active stock on the list, 231 shares changing hands. The stock opened unchanged at 31¾ and sold off to 31.

The only feature in bonds was a 50c decline in Victory loans of 1927, which sold at 101.

Consider Cattle Embargo in Relation to Ireland

LONDON, Feb. 13.—(By Canadian Press Cable.)—Replying to a question in the house of commons today as to whether the embargo on cattle would apply to cattle from the Irish Free State, Premier Lloyd George said he had no reason to think that the restrictions referred to would apply to cattle from Ireland, but the question whether legislaion was necessary to remove any doubt on this point was under consideration. In any case, the premier added, the power of the minister of agriculture to prohibit the landing of such cattle if necessary, would not be affected.

Dispatches from Scotland show that the retention of the cattle embargo is regarded with considerable less favor there than in England. It is asserted that the Scottish farmers have always prided themselves on the superiority of their husbandry over England and the variance in agricultural opinion between the two countries on the embargo is said to reflect their respective standards in agriculture. It is pointed out that the promoters of the repeal of the embargo have in the past blamed the Irish members of parliament, whose voting strength was considered a factor which it was impossible for the government to ignore.

Whether this factor will be removed by Ireland's new status seems to be a matter still to be settled.

The association which is conducting the agitation against the embargo has called another meeting for February 20.

OTTAWA, Feb. 13.—Right Hon. Arthur Meighen has returned to the capital from the south.

ENTER PROVINCIAL POLITICAL FIELD

Saskatchewan Grain Growers Likely to Follow Lead of Alberta and Manitoba.

REGINA, Feb. 13.—(By Canadian Press.)—It is the belief in well informer circles here that the delegates to the annual meeting of the Saskatchewan Grain Growers' association, which opens tomorrow, will arrive at a definite decision to enter provincial politics as an organization, following the precedent of the sister associations in Alberta and Manitoba. The question has been before the last two conventions, but there was much difference of opinion on each occasion as to the course which should be taken. In the meantime the political strength of the Saskatchewan organized farmers was demonstrated in the recent federal election, and it is claimed that sentiment among the rank and file of the grain growers' association is decidedly in favor, at this time, of following up their recent federal success by going into politics provincially.

A large number of resolutions on the matter have been presented by various locals and the question may be debated on Wednesday. No provincial political platform is in existence, of course, and it is suggested that if the convention decides on the principle of political action, it will be left to the directors or to a special committee to draft a statement of policy. This platform then would be considered by the locals during the coming year and presented for formal official adoption at the convention of 1923. A provincial election is not in sight and it is considered that there are good reasons why the procedure outlined would be preferable to the adoption of a definite platform by this convention without detailed consideration by the membership at large.

It is expected that the convention will also ask for the appointment of a federal wheat control board, falling in line with the sentiment of the Manitoba and Alberta farmers. There may be a movement to exclude from executive office in the association members of the legislature and of parliament.

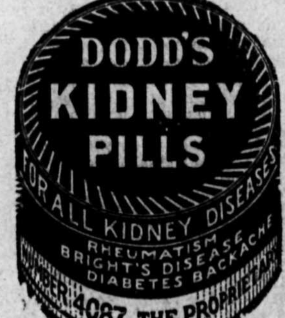
The executive committee was in session all day considering the business of the convention. Discussion of the association's trading activities will be taken up in a private session tomorrow morning and the convention will be opened formally in the afternoon, to continue until Friday.

SUPPORT CAMPAIGN AGAINST PROFANITY

MONTREAL, Feb. 13.—Assurance was given by Premier Taschereau, who visited the government offices over the week-end, that the courts of this province would support a campaign against profanity and blasphemy and that he himself was in hearty sympathy with any movement that would have as its object the eradication of this evil. This was in answer to a request by a delegation from the Catholic Commercial Travelers' association that the government should take steps to stop blasphemy in the province.

ESCAPING STEAM CAUSES DEATH

WEYBURN, Sask., Feb. 13.—That he had met his death by steam escaping from a radiator in his room at a hotel here was the verdict following an investigation into the death of Gordon E. Mullins Sunday. Mullins, who was 27 years of age, played hockey with the Weyburn team in the senior Saskatchewan hockey league last year.



FIFTEEN BOILS ON NECK AT ONE TIME

Any one who has suffered from boils can sympathize with poor old Job.

There was no Burdock Blood Bitters in those days, so Job had to suffer in silence. Nowadays no one need endure the misery of boils.

Boils are simply evidences of the bad blood within coming to the surface and just when you get rid of one another seems ready to take its place and prolong your misery.

All the poulticing and lancing you may do will not stop more coming.

What you have to do is to take

BURDOCK BLOOD BITTERS

and the blood will be cleansed of all its impurities, and then every boil will disappear.

Mr. Roy McSwain, High Bank, P. E. I., writes: "I was troubled with boils for some time and had as many as fifteen on my neck at once. After taking one bottle of Burdock Blood Bitters they commenced to get better, and after I had taken two bottles I was relieved of them and felt much better. I think B. B. B. is a grand blood medicine, and can recommend it highly."

For the past 45 years B. B. B. has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

BRINGING UP FATHER — By George McManus

You May Be Starving In The Midst of Plenty

To Be Plump, Radiant and Attractive Your Body Cells Must Extract Every Particle of Nourishment from the Food You Eat.

TANLAC ASSISTS NATURE IN THIS AS NOTHING ELSE CAN

THE wondrous grace of softly blending curves, the enchantment of virile, palpitant flesh, the lure of dimpling skin and the irresistible magnetism of a body radiant with health and energy give to the normally filled-out woman an attractiveness and charm that is denied to her thin, angular, ungraceful sisters.

But, fortunately, emaciation is never natural. It is always the result of starvation. No matter how much the very thin person may be in the habit of eating, and no matter how excellent her food may be, she is in a half-starved condition. It is not the quantity of food eaten, but the quantity made use of by the body, that counts. When digestion is incomplete, when the assimilative organs fail to do their duties, one may starve in the midst of plenty.

What, then, should the thin, angular woman or man do to obtain real nourishment from food? This query has been answered by hundreds of thousands of people who have found that the use of the famous reconstructive tonic—Tanlac—so tones up and invigorates the whole digestive system, as well as the other vital organs of the body, as to promptly end the condition.

Improvement becomes noticeable at once. The appetite becomes keen and healthy, color creeps into faded cheeks, sparkle returns to dull eyes, energy replaces lassitude and the unsightly angles of form give way to softly rounding curves as each body cell receives its needed nourishment.

If you are thin, do not envy the plump, radiant woman who seems to have all mankind at her feet. Remember, you can quickly become as she is. The wonderful medicine—Tanlac—is available to all who are thus handicapped. It has already made thousands of thin, frail women perfectly healthy and of normal weight, and it is only waiting for you to give it the opportunity to render you the same service. And Tanlac will not make you abnormally fleshy—it is not a mere flesh-builder. Tanlac simply puts the system into normal conditions and Nature then builds the body to be the thing of grace and beauty and virile efficiency that it was intended to be. You will learn the truth of this by trying Tanlac.

Purchase Tanlac from any druggist. Do it today, and make a start toward health and greater beauty.

Tanlac is sold in Nelson by the Canada Drug & Book Co., and by leading druggists everywhere.

BRITISH LOAN BOOSTS CROWN

VIENNA, Feb 13.—The full effect of the British loan of £2,000,000 to Austria was reflected on the stock exchange market today when the crown rose to 6000 to the dollar and other values rose equally.

Arbor day was inaugurated by the Nebraska state board of agriculture in 1874.

HARRY HOLMES SEATTLE STAR GOAL TENDER

Millionaires Win Furiously Contested Match; Two Periods Scoreless.

VANCOUVER, Feb. 13.—After a furiously contested match, in which the goal tending of Harry Holmes, Seattle star, was easily the feature, the Vancouver Millionaires finally won by a score of 2-0. Counting the two former games, when Holes shut out the puck completely, this constitutes a total of 168 minutes during which the Seattle man kept his nets safe.

Skinner scored Vancouver's first goal in 8:20 of play in the third period. Adams carried the rubber through and shot. Holmes saved the shot, but Skinner caught the rebound an dscored. The second goal was a swift shot for the uper left hand corner of the net from Mackay's stihk. It just grazed the uprights and gaves Holmes no chance to save. Briden, who played center, exhibited splendid hockey for Seattle. Walker, Seattle's rover, was unable to play, owing to blood poisoning in his left hand. Seattle collected the only two penalities. Outside of these the game was very clean and fast throughout.

Lineup.

Vancouver.	Position.	Seattle
Lehman	Goal	Holmes
Cook	Defense	Rowe
Duncan	Defense	Rickey
Mackay	Rover	Foyston
Adams	Center	Briden
Skinner	Right	Morris
Harris	Left	Riley
Parkes	Reserve	Fraser
Desireau	Reserve	

Referee—Ion.

Summary.

First period—No score.
Second period—No score.
Third period—1, Vancouver, Skinner, 8:20; 2, Vancouver, Mackay, 5:47.
Final score—Vancouver, 0; Seattle, 0.

RAGING BENGALS BATTLE TO HEAD

Beat Crescents; Single Point Separates Them From Regina and Edmonton.

MOOSE JAW, Feb. 13.—Calgary's raging Bengals came out of the jungle with bared fangs and sharpened claws and the lowly Moose Jaw Crescents felt the fury of their attack to the tune of 4 to 2 here tonight. As a result the Calgary team is resting at the top of the heap once more, with three of their remaining five games to be played at home. Their lead is small, a single point separating them from Regina and Edmotnon, but it is a lead none the less and Barney Stanley and his confident cohorts expect to keep that advantage on Wednesday night, when they play Regina in the capital city.

A sterling offensive in the first period of the game, which netted them a pair of counters, proved Calgary's saving and the undoing of the home team.

Stanley, Oliver and Gardiner were the shining lights for the victors, while Newell and Asseltine played the best for the home team.

Summary.

First period—1, Calgary, Martin, 4:57; 2, Calgary, Stanley, 14:43.
Second period—3, Moose Jaw, Newell from Crawford, 3:45; 4, Calgary, Stanley from Dea, :45; 5, Moose Jaw, Campbell from Newell, 3:50.
Third period—6, Calgary, Oliver from Dutton, 17:30.
Final score, Calgary 4, Moose Jaw 2.

ONE ROUND SUFFICES.

MONTREAL, Feb. 13.—Eugene Brosseau, former middleweight champion of Canada, knocked out Steve Choynski of Buffalo in the first round of their scheduled 10-round bout at the Monument Nationale here tonight.

TIE WITH SELKIRK FOR SECOND PLACE

WINNIPEG, Feb. 13—In the poorest game of the season, Winnipegs tied with Selkirk for second place in the race for the Manitoba Senior Hockey league here tonight by defeating the Falcons, 13 to 4.

RAILROADERS AND SHIPPERS CLASH

The clash between the Shippers, who on Saturday accepted the C. P. R. challenge, is on for this afternoon at 6:30 o'clock. The Railroaders were apparently looking for trouble when they issued that schedule, but it was hardly likely they anticipated the consignment they have to bump up against.

The teams will be:

Shippers	Position	C. P.R.
Choquette	Goal	Scanlan
Desireau	Defense	McKinnon
Lapointe	Defense	Oliver
Bush	Center	Notman
McCandlish	L. Wing	Hunter
W. Marquis	R. Wing	J. Marquis
———	Spare	Johnson

CALGARY QUARTET ENTERS THE FINALS

WINNIPEG, Feb. 13.—By administering an overwhelming defeat to the Cavers rink of Morris, Man., in tonight's bonspiel play, Jack Miller's Calgary quartet entered the finals of the J. P. Robertson memorial trophy, the secondary visitors' event. The score was 14 to 5. Just who will be the opponents of the Alberta aggregation in the final has not yet been decided, the upper half of the draw being in the eights. Carefoot of Arcola, Sask., entered the eights tonight by defeating Fraser of Gilbert, Man., 10 to 8.

All westerners have been eliminated from the Purity Flour secondary open event, Cochran of Rouleau, Sask., being defeated by Hain, Winnipeg, in the eights this afternoon.

SPORTING BRIEFS

Settle Ski Jumping Dates.

SARANAC LAKE, Feb. 13.—The international ski jumping championships will take place here February 20 and at Lake Placid February 21 and 22.

Boxer Still Unconscious.

ELWOOD, Ind., Feb. 13.—Physicians attending Roy Mudd, 24, local boxer, who has been unconscious for two days following injuries received in a boxing contest here with Eddie Mullen of Muncie, reported no change in the young man's condition tonight. No official action has been taken against Mullen pending the outcome of Mudd's injuries.

Retains Racquet Championship.

TUXEDO PARK, Feb. 13.—Clarence C. Pell, amateur racquet champion of the United States and Canada, retained his title today by defeating Hewitt Morgan of the New York Tennis and Racquet club, 3 to 2.

Saskatoon Nationals Win.

SASKATOON, Feb. 13.—University of Saskatchewan suffered their second reverse in the Saskatoon-Prince Albert Hockey league here tonight, when they were defeated after a whirlwind battle, by the Nationals of Saskatoon, 3 to 2. Varsity has completed their schedule and at present they head the league with seven wins and two losses.

Fifth Battalion in Running.

SASKATOON, Feb. 13.—The Fifth battalion improved their position in the league standing, and made it possible for them to tie with the University of Saskatchewan, when they defeated the Prince Albert Shamrocks in Prince Albert tonight, 8 to 3. Should the Fifth battalion win all their remaining games they will be tied with the varsity. A playoff would then be necessary.

PILE UP POINTS IN SIX-DAY RACE

CHICAGO, Feb. 13.—Piling up points with regularity in the sprints, the teams of Ernest Kosler of Chicago, and Reggie McNamara of Newark, N. J., at 11 o'clock were firmly entrenched at the end of the first day's racing of the six-day bicycle race with 93 points.

Carl Stockholm of Chicago, and Alfred Brenda of Australia were second with 76. William Hanley of San Francisco, and Alex McBeth of Australia were third with 61, and William Coburn of St. Louis, teamed with Dave Lands of Newark, was fourth with 53.

The riders had covered 449 miles, three laps, at 11 o'clock, the 26th hour. Antonio Oliverri of Italy was carried from the track late tonight after one of his tires had exploded, causing him to crash with Grenda.

Hudson's Bay Company

New Goods

Are rolling in daily. Many cases from Europe are just being put into stock. It will repay you to thoroughly investigate the values on these imported shipments as they come direct to us from the actual makers, and we have only the freight and duty to pay.

We know the values are in the goods and they are all marked to sell at Hudson's Bay low prices for highest grade merchandise. They cannot be duplicated.

FRENCH CALL OFF FOOTBALL MATCH

LONDON, Feb. 13.—(By Canadian Press Cable.)—The English Football association has received a letter from the French association declaring that, in the opinion of the latter body, the time is inopportune for a match between French amateurs and a team of amateur-professional Englishmen. A French-English match had been fixed for February 28 at Paris.

J. C. Wall, secretary of the English association, stated in an interview that the match had been definitely arranged in June last and that it was understood at the time that the English team would include amateurs and professionals.

LOCAL BOWLING TOURNEY SCORES

Last night's bowling in the Y. M. C. A. club tourney, resulted in a comfortable victory for Hunt's quartet over Buchanan's by 66 pins margin. Buchanan was high aggregate scorer with 557. Johnson, with consistent good bowling, amassed 527. Buchanan also won the high individual at 207.

The scores were:

Buchanan vs. Hunt.

J. Gansner	117	100	110	327
J. Notman	130	130	130	390
W. Graves	143	132	134	409
E. L. Buchan	207	147	203	557
Total				1683
J. Tallyn	154	99	111	364
F. McDonald	125	130	139	394
H. Johnson	164	183	180	527
E. C. Hunt	165	121	178	464
Total				1749

WOMAN OPPOSES SOLDIERS' BONUS

NEW YORK, Feb. 13.—Alice H. Robertson, representative in congress from Oklahoma, declared today in an address to the Women's Republican club that she was opposed to the soldier bonus.

Soldiers demanding a bonus, she said, lacked the patriotism of Americans who fought in the revolution, in the civil and the Spanish American war.

"Those veterans," she said, "did not put a price on their patriotism."

HOME OFFICE BARS GERMAN PUGILISTS

LONDON, Feb. 13.—(By Canadian Press Cable.)—The home office refuses ot allow German boxers to appear before the public in England. German middle and lightweight champions were signed to appear in London on February 20 and 25, respectively.
