VOL. 21. NELSON, B. C., THURSDAY MORNING, MAY 4, 1922. NO. 11.

BOTH SIDES GROW TIRED OF TURMOIL

Agree to Cease Irish Hostilities Pending Peace Committee's Report

OPINIONS DIFFER ON MEANING OF PHRASE

Truce Does Not Imply Evacuation of Dublin Buildings Seized

DUBLIN, May 3.—The meeting of the Dail Eireann today was entirely concerned with the situation arising from the split in the Irish Republican army and ended with the creation of a committee of five from each side to inquire into the possibility for peace. With the unanimous approval of the members, it was agreed that neither side shall engage in hostilities, pending a report of the committee which, it is expected will be ready when the Dail resumes its sessions on Friday.

There was some scepticism tonight of the latest peace move proving more successful than other similar efforts, but there seems to be no doubt that the country has reached a point which is inclining the men on both sides of the controversy toward some form of agreement which will end the turmoil.

Choose Peace Committee

The "peace" committee chosen was made up as follows:

Sean Hayes, Patrick O'Malley, James Dwyer, Joseph McGuinness and Commandant Sean McKeown, for the Griffithites and Messrs. Tom Clarke, T. Rutledge, Liam Mellowes, Sean Taylor and Harry Boland, for the dissidents.

Eamonn de Valera, speaking on the suggestion for a truce, said:

"I believe it is possible to solve this question. I believe peace can be obtained and that if advantage is taken of our opportunities we can have a government in this country which will be a credit to the country and restore the reputation we had five or six months ago."

The new situation arose out of the negotiations which Michael Collins and Richard Mulcahy conducted a week ago with the dissident army forces. Three points were then laid down as a basis for peace.

Three Points of Peace

First—Acceptance of the fact that a majority of the people of Ireland want the Anglo-Irish treaty.

Second—That the agreed elections be held and,

Third—That a government be formed having the confidence of the whole country.

Different interpretations are placed on the expression "agreed elections" mentioned in the peace statement, but the favored interpretation, at least on the Republican side, is that there should be no elections, but an agreement to return without opposition all existing Dail members of both sides and form a coalition cabinet,

Meantime the truce does not imply the evacuation by the dissident forces of the Four Courts nor any other buildings they hold in Dublin or elsewhere. Today was devoted by the dissidents to strengthening their Dublin defenses with sandbags and installing several machine guns which now project from the windows of the Four Courts building.

Flashes By Wire

Only Two Casualties at Kilkenny

DUBLIN, May 3.—According to an official report issued at the Beggar's Bush barracks this evening, the only casualty mentioned as having occurred during the fighting in Kilkenny are two men wounded in rushing Ormonde castle. There is no confirmation from any source of the statement made today in the Dail by Commandment O'Hegarty of Cork, that 18 persons had been killed in Kilkenny.

Rev. Robertson Elected Moderator

VANCOUVER, May 3.—Rev. J. R. Robertson, pastor of St. David's church, South Vancouver, was tonight elected moderator of the Presbyterian synod of British Columbia. Previous to his coming to Vancouver 10 years ago he had held pastorates at Grand Forks, Revelstoke and Nanaimo.

Canadian Railways Contribute Toward Advertising Costs

OTTAWA, May 3.—The railways owned by the Canadian government paid $31,328 toward the cost of press advertising campaigns conducted by the Canadian Railway association during the past two years, it was stated in the house of commons this afternoon by the minister of railways in reply to G. G. Coote, Progressive, MacLeod.

LONDON, May 3.—A dispatch to the Exchange Telegraph from Dublin says the police barracks at Mullingar, occupied by Irish forces, was blown up tonight and that several buildings were burned or wrecked. No casualties are reported.

The dispatch adds that the occupants of the barracks left in lorries for Castle Pollard, chased by regular troops.

RUSSIA NOT WILD ABOUT PROPOSALS

Powers' Reconstruction Project Not Palatable to Bolsheviki Taste

FRANCE DETERMINES TO SUPPORT BELGIAN VIEW

Essential Points of Finance Code Limit Paper, Stabilize Gold

GENOA, May 3.—The Soviet plenipotentiaries are not delighted with the project of the powers for the reconstruction of Russia. Such is the brief summary emanating from Soviet sources of the Bolsheviki views on the memorandum on which Europe's statesmen have worked so laboriously.

The fact that the document does not mention recognition of the Soviet government and ignores the suggestion of governmental loans is said to displease the Communist leaders, who are now conferring in Moscow.

Belgium has not signed the memorandum and word was received here this evening that France had determined to stand by Belgium.

Plenary Session Satisfies.

All the leaders voiced satisfaction at today's plenary session, believing that it embodied the inauguration of far reaching efforts to improve the finances of Europe.

The financial code at Genoa has been written, declared Sir Laming Worthington Evans, chairman of the finance committee, and he believed it would prove as important as the historic Justinian civil code, the basis of world jurisprudence.

Limits Paper Money.

The essential points are limitation of the issue of paper money, fixing parity with gold, economizing the use of gold and coordination of gold. The United States, said the chairman, with almost half the world's gold could join in the future study of the problems without involving itself in political difficulties and could help Europe as well as herself.

The financial report, like the memorandum of the powers to the Russians, emphasizes that assistance to disorganized countries should take

(Continued on Page 2)

ASK ENOUGH TO PREVENT RAPID DETERIORATION

Request Funds for Preservation of Hudson's Bay Line in Manitoba

OTTAWA, May 3.—Expenditure of at least enough money to keep it from rapid deterioration is asked of the government on behalf of the Hudson's Bay railway by J. A. Campbell, ex-M. P. for Nelson, Man., and now commissioner for northern Manitoba.

Accompanying Mr. Campbell is O. D. Hill, representing boards of trade of northern Saskatchewan. They have been here for two days doing "missionary" work and it is yet undecided whether or not they will formally wait upon the government.

Mr. Campbell figures it will cost $100,000 this year to keep the lines in anything like repair.

There are 332 miles of steel laid and another 93 miles to lay before the road is completed. The road is graded all the way.

JUDGE CLEMENT DIES SUDDENLY

Suffers Second Paralytic Stroke While Dressing; Death Instantaneous

VANCOUVER, May 3.—Hon. H. P. Clement, justice of the supreme court of British Columbia, died suddenly this morning at his residence while dressing to attend court.

Some years ago he suffered a partial paralytic stroke, and a second one came this morning, accompanied by a hemorrhage of the brain, death being almost instantaneous.

William Henry Pope Clement was born at Vienna, Ont., in 1858, and graduated from Toronto university and Osgoode hall. He was called to the Ontario bar in 1880 and practiced in Toronto from 1898 to 1900. He was a member of the Yukon council and legal adviser to that body.

In 1901 he became a member of the British Columbia bar and took up his residence at Grand Forks. Four years later he was appointed judge for Yale county and in 1906 was elevated to the supreme court bench.

FRENCH PRESIDENT VISITS MOROCCO

TOURING FRENCH PROVINCES

President Millerand of France arriving in Morocco for a tour of the French provinces in northern Africa.

PRESIDENT BEATTY EXPLAINS CROWS NEST SCALE OF RATES

Introduced to Assist Prairie Colonizing, Now Results in Inequalities, Beatty Tells Shareholders; Optimistic of C. P. R. Future; In Spite of Decreased Earnings, Economies Result in Larger Surplus

MONTREAL, May 3.—The 41st annual meeting of the Canadian Pacific Railway company was held at noon today, when a large number of shareholders were present. The meeting was of a routine nature.

The address of President E. W. Beatty was as follows:

"The 41st annual report, which is now submitted for your consideration and approval, indicates in a vivid way the effect on your company's operations, of the acute depression through which the business of the country passed during 1921, and it is a matter of gratification that notwithstanding the decrease in gross earnings of $23,619,000, the economies which were effected resulted in somewhat increased net earnings, and, of course, a slightly larger surplus, after paying fixed charges and usual dividends on the preferred and common stocks. The results reflect great credit upon the ability of the officers and men of the company, and are also a tribute to the physical condition of the property, which permitted reduction of expenditures without in any degree affecting the efficiency with which traffic was moved. During the months of October and November especially the heavy grain traffic was transported most expeditiously, with distinct advantage to the company revenue.

Land Sales Small.

"The sales of agricultural lands were, as indicated in the report, small, due to the general depression and the absence of the immigration of agriculturists during the year.

Immigration Policy Needed.

"In my opinion, Canada cannot afford to be without a definite and forward immigration policy much longer. While it is urged that the depression, both in agriculture and in general industry, with consequent unemployment during the past winter, is a reason why active immigration measures should not be taken, it must not be forgotten that there are types of immigrants that can be readily obtained and brought to Canada without the possibility of adding to the burdens of the country. The immigration of young people of British stock can be accomplished without affecting in any material degree the existing situation respecting unemployment. The immigration of domestic servants in substantial numbers may reasonably be encouraged, and the immigration of agriculturists from northern Europe, Great Britain and the United States, who can only be secured in limited numbers, should be actively prosecuted. In addition, the government would, I think, be well warranted in framing a policy designed to permit more general immigration of carefully selected types from countries the people of which have heretofore come to this country and succeeded under Canadian conditions.

Company Has Colonized.

"It must no be forgotten that Canada's opportunities deserve widespread recognition, and even if adequate machinery is now begun to be set up it will not be until 1923 that the results of the government's activities will be felt. Unless we feel that the conditions in this country will not be improved for some considerable time to come it would appear that the preliminary steps to obtain immigration in numbers should be taken without further delay.

"The Canadian Pacific for many years has been the most active colonization agency in Canada. Settlers to the number of 54,000 have been placed upon its lands alone, and the cost of the company's activities in

(Continued on Page 2)

DUFF STIRS INTEREST IN SEA RACING

Asks Grant for International Deep Sea Fishing Vessel Contests

OTTAWA, May 3.—"It is advisable," moved William Duff, Liberal member be given to the promotion and mainracing between Canadian deep sea today, "that every possible assistance for Lunenburg, N. S., in the house tenance of international deep sea fishing vessels and deep sea racing vessels of other nations."

The house cheered when Mr. Duff spoke of the Canadian victory in the international races last year. This year, he said, the fishermen of Nova Scotia had built two more boats for the elimination contests; the Americans also had another two boats ready. It had become an international matter now; the interest far exceeded that in the local or provincial contests.

Would Stimulate Industry

Mr. Duff asserted that to make a small grant to the expenses of the Canadian boats in this international contest would be a stimulus to ship building and the fishing industry. The government granted $1000 for Alpine climbing; they might well make a small grant of $5000 for this purpose.

Hon. Ernest Lapointe, minister of marine and fisheries, promised careful consideration of the matter and proposed adjournment of the debate. This was accepted by Mr. Duff and carried without opposition.

SEEKS MORAL RATHER THAN CASH PROFIT

Manson Says Liquor Act to Control, Not Stimulate Consumption

VICTORIA, May 3.—Administration of the liquor law and the government general, is to be along the lines of liquor business in British Columbia under Hon. A. M. Manson, attorney-general is to be along the lines of moral profit rather than financial profit, Mr. Manson, discussing liquor policies in his office, said today. He explained that the government liquor act is a control measure and not a measure for stimulating the consumption of liquors. He said he had given no sanction for the establishment of a second liquor store in Victoria, designed to cater to the tourist traffic, as announced early this week from the board.

Militia Minister States First Contingent Nearly All Had Previous Training

OTTAWA, May 3.—Approximately 92 per cent of the first Canadian contingent which went overseas 1914, had received previous military trading. This statement was made by Hon. G. P. Graham, minister of militia, in the house of commons this afternoon in reply to a question by T. L. Church, Conservative, Toronto North.

Free State Troops Storm Last Kilkenny Stronghold of the Irish Irregulars

KILKENNY, May 3.—The battle in Kilkenny ended this evening. At 9 o'clock Ormonde castle, the last stronghold held by the irregulars, was stormed and captured by the Free State troops.

The irregular garrison surrendered and was marched, with its arms and ammunition, to the military barracks.

BOMBARDMENT DEPLETES BIG GUN SUPPLIES

Chinese Battle Sways to and Fro; Chang-Tso-Lin Recaptures Kuan

PEKING, May 3.—General Wu Pei Fu, commander of the Chi-Li forces, was reported this evening to have arrived near Machang, on the railroad south of Tien Tsin, to take command of the operations against the troops of Chang Tso-Lin on that section of the battle front.

Late reports are to the effect that Chang Tso-Lin is heavily reinforcing his troops in that region with men of all arms, and indications are that Machang soon will be the center of intense fighting. Artillery duels already have commenced over a wide front. General Wu, if he actually takes command there, will have facing him the 25-year-old son of Chang Tso-Lin.

Fight With Small Arms.

The heavy bombardment that has been in progress at various points has depleted the stores of big gun ammunition and the fighting is now mainly with machine guns and rifles.

At some places there has been a lull in the battle.

In the middle of the front troops of Chang Tso-Lin have recaptured Kuan. Wounded men from that region say the fighting was heavy during the past few days, often at close quarters. The tide of battle was continually changing until the arrival of Chang's reinforcements, which turned the scales.

Wu Pei Fu Reported Killed

PEKING, May 3.—The Chinese officials here have received a telegram from the headquarters of Chang Tso-Lin at Tien Tsin, saying that General Wu Pei Fu was killed in action near Machang.

The followers here of Wu Pei said that the report was intended to demoralize Wu Pei Fu's troops. The legations here discredited the report, but started an investigation. Their efforts to obtain confirmation from Machang thus far have failed.

SHIPPERS ASK FOR MILITARY

Request Marine Minister to Call Out Reserves for Montreal Harbor

MONTREAL, May 3.—A request that the militia reserves be called out to protect the harbor and to permit work to be carried on peaceably was wired to A. J. Johnson, deputy minister of marine and fisheries, by Thomas Robb, manager of the Shipping Federation of Canada, this afternoon, and was indorsed "on behalf of the respective steamship lines trading to the port of Montreal."

City and harbor police were much in evidence today and tonight, but there was no sign of a possible resumption of the rioting which occurred last night, in which two constables were shot.

BUDGET GIVES SATISFACTION

Concessions Practically Entirely Exempt Small Farmers From Income Tax

LONDON, May 3.—Agriculturists express satisfaction with the budget proposal, which is more than confirmed by a further study of the provisions threof. The concessions to the farmers mean that nearly every farmer with rent not exceeding £300 yearly will either be exempt entirely from paying income tax, or he will have to pay only a small sum when personal allowances for himself, his wife and children are considered.

The parliamentary agricultural committee is busying itself in an endeavor to secure further amelioration of the local assessments on agricultural land. Under the act of 1896 the treasury contributed half the local taxes on such land, the sum so collected, however, being fixed. Meantime the local taxes have risen so considerably that the exchequer now contributed considerably less than half the total.

SMUTS ADVISES BRITAIN TO ARM AT ONCE UNLESS LLOYD GEORGE WINS OUT AT GENOA

South African Premier Sees Danger of Europe Splitting Into Two Armed Camps if French and Russian Faith in Militarism Not Broken at Conference; Armageddon Would Become Only Goal of Western Civilization

CAPETOWN, May 3.—Lieut.-Gen. Jan C. Smuts, premier of the Union of South Africa, in a statement to the Cape Times on the subject of the Genoa conference, said he prayed for victory for Lloyd George, for if all that resulted from the conference was the Russo-German treaty and the division of Europe into two armed camps, Europe would irrevocably split and Genoa would become a new and fatal milestone in European policy.

General Smuts said that if the faith of France and Russia in militarism prevails against the future of Britain, former neutrals and many late enemies, for disarmament, which Britain is adopting on land and sea, it would yet prove a fatal blunder and it were far better for Britain to face realities at once and arm in her turn.

Unless Lloyd George could succeed in modifying the militarist policy of Poincare and Tchitcherin, disarmment must disappear throughout Europe and Armaggedon would become the only goal of western civilization.

ITALY CONCLUDES AGREEMENT WITH CONSTANTINOPLE TURKS

Concerns Concessions in Railways, Mines and Public Works in Asia Minor; Britain Unaware of Arrangements, Now Sends Note to Italian Government

LONDON, May 3.—Austen Chamberlain, government leader in the house of commons, told the house this afternoon in answer to questions, that the Italian government informed the British government on April 24 that it had concluded an agreement with the Turkish government at Constantinople, by which the latter undertook to examine Italian applications for certain concessions in railways, mines and public works in Asia Minor.

Mr. Chamberlain said Italy had given formal assurances that the agreement did not contain counter concessions or undertakings on the part of Italy and that the Italian government had promised to communicate the text of the agreement to the British government as soon as possible.

The British government, Mr. Chamberlain said, was informed at the time of the recent Paris conference of allied foreign ministers, that Turkey had made certain proposals to the Italian government and that Great Britain had advised Italy to proceed with extreme caution. He said he was not aware at that time that an agreement was about to be concluded. No further information regarding subsequent negotiations, he added, had been communicated to Great Britain and the British government had addressed a communication to representatives of the Italian government on April 27.

No Treaty with Angora

GENOA, May 3.—Regarding the alleged secret pact, between the Italian and Angora governments, the Italian spokesman said tonight that no pact treaty or agreement of any kind existed between Italy and Angora. About two months ago when Signor Schanzer, the Italian foreign minister, was in Paris for the meeting of the allied premiers, he received proposals from the Turkish government at Constantinople suggesting that an agreement on economic concessions be granted Italian firms in Asia Minor. Having nothing to conceal, the minister showed proposals to Premier Poincare and Lord Curzon, who made no objections to them.

Signor Schanzer replied favorably to the proposals and according to the spokesman, is awaiting a letter pledging the Turkish government to grant concessions agreed upon. When the letter arrives, it will be immediately communicated to France and Great Britain.

LIMITS AMOUNT FOR EMIGRATION

Money Resolution Under Empire Settlement Bill Passes Commons

LONDON, May 3.—(By Canadian Press Cable).—A money resolution to the Empire Settlement bill to assist emigration limiting the amount to be spent this year to £1,500,000 or £3,000,000 in any subsequent financial year, was carried unanimously in the house of commons, after hours of discussion occupied mainly by Labor members. The Laborites contended that the money should be spent in Great Britain. They urged in particular that people should not be forced to go to the dominions when they were ready to be settled on land at home.

M. S. Wintringham, Liberal, welcomed the scheme to financially aid emigration on behalf of women workers, including women war workers and including ex-service women who could not obtain employment.

In answer to a question, Col. L. G. Amery, secretary to the board of admiralty who had introduced the settlement bill, said he hoped some settlement would be worked out providing for assistance to men who already had gone to the dominions.

Lightning Strikes Man and Wife While Driving Home at Fort Lawrence

FORT LAWRENCE, N. S., May 3.—A lightning bolt struck Mr. and Mrs. Thompson of this place as they were driving home late last evening.

Today Mr. and Mrs. Thompson are dazed. They remember seeing the lightning strike the horse and travel toward them and after that they remember nothing. The horse is lame and dazed. Mr. Thompson has a narrow black burn right across his forehead.

LAYTON STILL BILLIARD CHAMP

SEDALIA, Mo., May 3.—Johnny Layton of this city retained the world's three-cushion billiard championship tonight by defeating Charles McCourt of Pittsburgh.

Excess baggage is charged at high rates on European railways.

Many insect-catching birds have bristles around their mouth.

PRESIDENT BEATTY EXPLAINS CROWS NEST SCALE OF RATES

(Continued From Page 1.)

land selling, irrigation and colonization since its incorporation has been extremely large, amounting in the aggregate to approximately $68,000,000, an amount in excess of the total expenditure on the Dominion government for immigration during that period.

"As forecasted in the address at the last annual meeting, reductions took place during the year in both rates of wages and in freight and passenger rates, the former which became effective July 16 last, was equivalent to a reduction of 9.03 per cent on then existing payrolls of the company. The demand for further freight rate reductions is still persistent throughout Canada and to the existing scale of rates is attributed much of the present slackness in business. It is, in my opinion, an entirely erroneous impression that the existing freight rates are the cause rather than the result of the present economic conditions, the most important of which from a transportation standpoint is the present scale of wages and working conditions which the railways were compelled by government authorities to accept during the war.

"It is the view of your directors, and it has been their view for some time, that the scaling downward of freight rates should be begun with reductions on basic commodities, especially in those industries which have felt the general depression most severely. Notwithstanding the willingness of the company to make sacrifices in their revenues in the hope that a lower scale of rates on basic commodities would give an impetus to business activity, they have been precluded from agreeing on a definite policy because of the approaching expiration on July 7 next of the provisions of the Railway act allowing the railway commission to make rates irrespective of agreements, statutory or other.

"In 1897 an agreement was made between this company and the government, and confirmed by parliament, whereby in consideration of the receipt by the company of a subsidy of $3,300,000 in aid of the construction of a railway to the Crows Nest and southern British Columbia reductions in rates on certain named commodities shipped from eastern Canada to points in the west and on grain to Fort William were exacted with the obvious intent of assisting the colonization of the prairie provinces.

Special Crows Nest Low Rates.

"The so-called Crows Nest rates on the commodities specified are from 19 per cent to 49 per cent lower than the rates at present being charged. The intention of parliament at that time undoubtedly was to create special rates which the company would be entitled to collect and which would be legal though not bearing a fair relation to other rates. At that time the Canadian Pacific operated about 7300 miles of railway, but in a desire to give equality of rates to territories contiguous to those mentioned in the statute though not supplied with railway facilities at the time the statute was passed, the company extended the application of rates to the lines subsequently constructed or acquired so that in 1918 the application of the rates had been extended to 3772 miles of railway.

Nationally Adopt C. P. R. Rates.

"During the period subsequent to 1897 many thousands of additional miles of railway were constructed by other companies now included in the national railway system. The rates effective on this company's lines were naturally put into effect on the lines of these railways, so that it is safe to say that the so-called Crows Nest rates were in practice applied to five times the mileage in operation at the time the agreement was made. The Crows Nest scale of rates as applied literally would bring about an inequality of treatment between different parts of western Canada which must of necessity favor some districts against others which now enjoy relatively equal rates. The government desire to have the facts considered by a special committee of parliament, with particular reference to the operation cost of the railways and to the result of the application of the Crows Nest scale upon the revenues of the National railway and other railways.

Twice Review Scale.

"The situation has been twice reviewed by the late government, once in 1918, when the rates were suspended by order-in-council under the War Measures act because of the inability of the company (in view of the the heavy costs of operation otherwise to carry on successfully and to perform the transportation service so peculiarly essential at that time), and again in 1919, when power to deal with the rates irrespective of the provisions of special agreements was conferred upon the railway commission.

"In both instances the view of the government apparently was that parliament in establishing the Crows Nest rates had not in contemplation the extraordinary and abnormal conditions under which the operations of the railways have been carried on in recent years or the inequalities and discrimination which might be created under the scale of rates then imposed.

Costs Still Serious.

"While considerable progress has been made in reducing expenses there still exists a serious increase above prewar costs and the wage scales of 1921 are higher by percentages ranging from 82 per cent to 368 per cent than those existing in 1898 and in 1899, and the cost of principal commodities, including fuel and rails, is also substantially higher, the increase in the case of rails being 92.32 per cent and fuel 177 1-2 per cent. The operating ratio of the company in 1897 was 57.16 per cent, while for the year 1921 it was 82.28 per cent. The situation is one which should have frank recognition. The matter is in the hands of parliament, which can alone deal with it because of statutory restrictions.

Stability of Rates Important.

"I regard the stability of railway rates in Canada, even if readjustment downward are bound to continue until normal operating conditions are reached, as being of the greatest possible importance to all Canadian railways. For the past four years the extraordinary conditions which prevailed have compelled drastic economies and the conserving of the resources of the companies wherever possible. It is preventing increasing facilities and improvements and construction of new lines, because no company would be justified in spending freely for these purposes in the absence of adequate revenues. The large railway systems of Canada are, of course, the chief purchasers of material and supplies and to the extent to which their purchases for any purpose, including new construction, are prevented by the uncertainty of financial return, a return to prosperity is retarded.

Resumption Deferred.

"I had been hopeful that the present year would see a resumption of at least normal activity in maintenance and construction works, the necessity for which always prevails on a system the size of the Canadian Pacific; apparently, however, we have not reached the period at which we can say that large expenditures are warranted, especially in view of the freight rate situation. The steps preliminary to the readjustment of wages scales and working conditions are proceeding both in the United States and in Canada. The procedure being followed is that required by the agreements with the labor unions and by the laws of the United States and Canada. An early decision is hoped for in respect of some of the matters in dispute, but the proceedings are, of necessity, protracted and decisions are not, therefore, reached speedily.

Optimism Returning.

"Gross earnings on all Canadian roads still show substantial decreases under those of the corresponding period of 1921. Crop conditions, however, so far as they can be judged at this date are very favorable and there is a returning spirit of optimism and activity which should grow in volume if the agricultural prospects are realized.

"The company's taxation is not unnaturally increasing from year to year, approximately $10,000,000 having accrued in federal taxes during the last five and a half years. As indicated in the annual report, the finances of the company are in splendid condition and the credit of the company has been well maintained and is extremely high, and it is, I think, of national importance that it should be so maintained.

Supports Other Enterprises.

"While there are some serious and difficult problems yet to be solved, the general sentiment of the country shows a distinct improvement over that prevailing at the end of last year and the beginning of 1921. I am very hopeful that the importance of the transportation agencies of Canada being permitted to undertake their full share in the country's advancement will receive due recognition, and if it does I am confident that the return to normal conditions will be greatly accelerated. Your company will, as always, endeavor to perform its part with the purpose of advancing the expansion of the country agriculturally and industrially. Few institutions are so linked up with the prosperity of Canada as is the Canadian Pacific and its ability to maintain a high credit has in a large measure contributed to the support received by other Canadian enterprises. Its progression should be step by step with that of the country itself.

Deplores Loss of Director.

"Since the publication of the annual report the board has lost one of its members through the death of Sir John Eaton, who joined the directorate on the 8th day of December, 1919. Sir John Eaton was in the prime of life, a man of tremendous personal influence and of extraordinary generous qualities. His loss will be very much felt throughout Canada and particularly in the city of Toronto. His counsel and assistance was greatly appreciated by the board and his death is deeply deplored. The vacancy created by his death has not yet been filled.

Praises Loyalty of Staff.

"I can not speak too highly of the morale and efficiency of the officers and men of the company. A more loyal group of men does not, I think, exist in any corporation in the world."

The following directors whose term of office expired were reelected: Rt. Hon. Lord Shaughnessy, K. C. V. O.; Sir Thomas Skinner, Bart., and J. K. L. Ross.

At a meeting of the board, held immediately after the shareholders' meeting, the Rt. Hon. Lord Shaughnessy, K. C. V. O., was elected chairman of the company; E. W. Beatty, president, and Grant Hall, vice-president, and the following were appointed the executive committee: Richard B. Angus, E. W. Beatty, Grant Hall, Sir Herbert S. Holt, Sir Vincent Meredith, Sir Edmund B. Osler and Rt. Hon. Lord Shaughnessy, K. C. V. O.

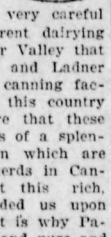
Locating the Factories



It was only after a very careful analysis of the different dairying districts in the Fraser Valley that we chose Abbotsford and Ladner as locations for our canning factories. If you know this country at all you are aware that these two towns are centers of a splendid dairy country, in which are some of the finest herds in Canada. It was to get this rich, pure milk that decided us upon these places, and that is why Pacific Milk is so rich and pure and good.

PIMPLES ON FACE

DIDN'T LIKE TO GO OUT

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying.

There is only one way to get rid of this obnoxious skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine

BURDOCK BLOOD BITTERS

and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.

Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes: "I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdock Blood Bitters and try it. I just took three bottles and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdock Blood Bitters chased them.'"

B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.

RUSSIA NOT WILD ABOUT PROPOSALS

(Continued from Page 1)

the form of private, not governmental credits.

No Difference With Poincare.

PARIS, May 3.—France sticks with Belgium on the policy toward the Soviet government and M. Barthou will return to Genoa on Friday, having the full approval of the government. This announcement was made this afternoon at the conclusion of the cabinet meeting.

M. Barthou made a complete statement of the actions of the French delegation at the Genoa economic conference and the ministers went over the text of the memorandum to the Soviet delegates. When the discussion was ended it was discovered that the seeming divergence between Premier Poincare had disappeared. This difference of opinion arose more from a misunderstanding of the method of procedure than from the principal involved.

Full Cabinet Behind Barthou.

M. Barthou has behind him the full cabinet in resisting any encroachment upon private property in Russia and has instructions to remain solidly in harmony with the Belgian delegation. The decision of the cabinet of the council is interpreted in official quarters as meaning that the provisional signature of the French delegation to the memorandum to the Soviets is null and void and that it would be necessary for the French and Belgian delegates to agree on some modifications concerning the article in question which would be acceptable to the British and Italian delegation before the French sign.

The cabinet will meet again at 10 o'clock tomorrow to consider the nonaggression pact and the guarantees to be included in this pact. Other economic questions raised at Genoa will be examined at a second meeting in the afternoon.

TO CONSIDER WOODSWORTH AMENDMENTS

Bill Proposes Repealing Immigration and Criminal Code Clauses

OTTAWA, May 3.—(By Canadian Press).—A special committee of the house of commons will be constituted to consider the bills introduced by J. S. Woodsworth, Labor, Winnipeg Center, to amend the Immigration act and the criminal code act. During the Winnipeg strike of 1919, amendments to the Immigration act and to that part of the criminal code relating to sedition were passed and were later the subject of criticism. Last year a bill was introduced for the purpose of repealing the amendments to the Immigration act, but it was defeated in the senate. This year Mr. Woodsworth introduced bills for the purpose of repealing the amendments to both the Immigration act and the criminal code act and these have both been referred to a special committee on the suggestion of the prime minister.

Legislation Dovetails

Speaking on this bill in the house of commons this afternoon, Mr. Woodsworth said there were three pieces of legislation which dovetailed into one another. These were the amendment to the Immigration act; the amendment to the criminal code regarding sedition, both passed in 1919, and the Naturalization act.

These three being read together had the effect of depriving a large section of the people of the right of trial by jury and also of restoring a condition which went back to a date before Magna Charta. They made it impossible for a man who was declared undesirable to secure a domicile in Canada, thus depriving him of the right to appeal to the courts against deportation. As a native born Canadian, Mr. Woodsworth appealed to other Canadians by birth to assist him removing this disability from British born residents of Canada. His bills have this object in view.

S. W. Jacobs, Liberal, George Etienne Cartier, interposed to point out that a man might be declared undesirable by the immigration authorities and not necessarily by the courts.

"Precisely," agreed Mr. Woodsworth.

Mr. Woodsworth added that it was obvious he was not advocating disbelief in organized government or attempting to shield those who disbelieved in organized government. It was not fair, however, to leave the question of who was desirable or undersirable in the hands of the immigration department. The decision was properly a matter for the courts.

The act as it stood also worked a grave injustice against Austrians born near the Russian border, and who, in reality were enemies of Austria a long time before Great Britain. Another objection that those who, by word or act created or attempted to create disorder in Canada, or belonged to, or were suspected of belonging to societies disbelieving in organized government, were liable to deportation. A man should only be condemned when he had committed an overt act. In Japan there were laws against dangerous thoughts.

Canada was nearing that point. Under the act, even a Scotchman or an Englishman was liable to deportation. Equal and fair opportunity should be given to foreign born Canadians as well as to native born.

HALIFAX EXPLOSION WRECKED HER NERVES

The reader will, no doubt, remember when a few years ago there was a collision in the Halifax, N. S., harbor and one of the munition ships was blown up, causing great loss of life and laying a portion of the city in ruins, and causing a great deal of suffering and distress among the inhabitants.

Mrs. Winfield Dill, now of Windsor, N. S., was living in Halifax at that time and went through this trying experience and the shock wrecked her nerves. She writes as follows: "I was living in Halifax at the time of the explosion, and it wrecked my nerves so that I could not do my housework. I would take such nervous spells that I would be under the doctor's care.

I saw Milburn's Heart and Nerve Pills advertised, so I took two boxes and they helped me so much I took six more, and now I am completely relieved. I can recommend them to anyone suffering from heart and nerve trouble."

To all those who suffer from nervous shock we would recommend our

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the entire nervous system and strengthen the weakened organs. Milburn's Heart and Nerve Pills are the original heart and nerve food, having been on the market for the past 27 years. Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

FRECKLE - FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—*double strength—from any druggist* and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

LEGAL NOTICES

WATER NOTICE

(2185)

PREPARE MEMORIAL PLANS FOR VERNON STREET SITE

Public Meeting Declares Funds Inadequate for Projected Shaft on Bluff; Orders Preparation of Data on Boulevard Site for Meeting a Week Hence.

"Whereas, the amount subscribed for the Nelson war memorial is entirely inadequate for the proposed memorial which was voted to be placed on the Bluff;

"Therefore be it resolved, That a committee be appointed to go into the matter of placing a war memorial monument on the contemplated boulevard on Vernon street between Ward and Stanley, at a cost not to exceed the funds available, said committee to submit plans and prices at a meeting to be held in the council chamber, city hall, on Wednesday, May 11, at 8 p. m., for consideration of this scheme, and also to deal with the resignations of the chairman and vice-chairman of the standing war memorial committee."

No Dissenting Voice.

This resolution was adopted last night without a single dissenting voice at the public meeting held in the council chamber, under the chairmanship of Mayor C. F. McHardy, to discuss the course to be pursued in connection with the Nelson war memorial.

No opinnion, positive or negative, was expressed by the meeting, as to the desirability of holding another drive, to add to the funds in hand or assured—some $3000—and this will be one of the questions to be dealt with at the meeting next Wednesday. *It is believed by some* that a substantial sum could be added to the funds now in hand by reopening the subscription list.

It was explained by the mayor that the meeting was called to determine the next step to be taken regarding the war memorial, it being conceded that the sum so far placed at the disposal of the committee was insufficient for the proposed memorial on the Bluff.

In the discussion that followed quite a range of proposals was discussed.

A New Dugout.

Henry Waters suggested that a site on Front street, about where the Mar Sam laundry now is, could be secured, and a frame building for the veterans, in place of the Dugout, could be erected, as the war memorial. He said many citizens, including the members of his own family, would double their subscriptions for such a worthy cause.

If it should be the wish of the citizens, Mayor McHardy remarked, to devote the fund to a memorial of that nature, the city already owned the Kwong Wing Chong building, which could be made the basis of such a project, and remodelled in conformity with the requirements.

Joy Suggests Garden.

R. G. Joy enlarged on his recently described proposal for a garden on the group of lots on Front and Ward street, opposite the city hall, the garden to contain the war memorial, contending that for $3500 the property embracing the blacksmith shop, the isolation hospital and the tin shop could be obtained. Next to that property was the vacant land owned by the city.

It was immediately pointed out that a beauty spot on that site would look somewhat out of place if surrounded by Chinese laundries, and that to be worth while, the project should take in the entire block. Several of those present entered into a discussion of the details of making a beauty spot of this whole area.

George Horstead brought this discussion to a close by stating that, instead of producing a scheme that would cost less than the memorial on the Bluff, the advocates of the garden proposition were getting into a proposition that would run into $15,000 or $20,000.

On the question of this total, the mayor joined issue with him.

Mr. Joy stated that the desire was to see something concrete done to bring the memorial nearer to realization. It was nothing less than a disgrace to Nelson the way the war memorial had been allowed to drift along. The same thing had happened with the Houston memorial, that drifted for five years, till a group finally got together and said it must be built.

On Vernon Boulevard.

C. D. Blackwood asked what the possibilities of placing the memorial on Vernon street were. If placed in the boulevard in the Hume block, it would be excellently located, and he had no doubt Warden W. R. Jarvis of the provincial jail would see that this piece of boulevard was well kept up.

Mayor McHardy said this would be quite possible, and it was possibly the most feasible plan in sight. The boulevard would be 300 feet long and 30 feet wide, he said, with rounded ends. If the monument were placed in the middle of this boulevard, or perhaps, at the western end of it, with the captured guns suitably disposed around it, it would compose a very striking and effective memorial. Whatever would be necessary to give the memorial appropriate surroundings would naturally be undertaken by the council.

In this connection he mentioned that the boulevard would necessitate moving away the drinking trough from the John Houston monument, irrespective of whether the war memorial were placed in that vicinity or not, as the space where horses now stand when drinking will be part of the boulevard.

C. S. Simpson expressed the opinion that this was the best scheme, under the circumstances.

Another suggestion was propounded by Mr. Joy, to the effect that the provincial government be asked to grant permission for the war memorial to be placed in the court house grounds, in a semicircular recess from the sidewalk on Ward street.

It was pointed out that at Victoria, the memorial was placed in the grounds of the parliament buildings.

From this point on, practically all speakers favored having the memorial on Vernon street.

It was considered, however, that a final decision could not be made at this meeting, but that the matter should be gone into exhaustively, and drawings prepared, so that at the next meeting full data could be submitted to the meeting with regard to this practicable proposal.

In this connection, George Horstead, secretary of the standing war memorial committee, which was appointed last year, pointed out that in the plebiscite on the site and nature of the memorial, the two downtown projects together exceeded the vote for the Bluff.

The mayor explained that W. B. Bamford, who had resigned the chairmanship of the committee, had been called to Grand Forks, and that E. W. Widdowson, who had also resigned, had similarly been called out of the city.

Mr. Horstead moved and Mr. Blackwood seconded the resolution given above, which passed unanimously.

Blackwood and Horstead Named

The mayor appointed Messrs. Blackwood and Horstead the nuclus of a special committee on the Vernon street project, with power to add to their numbers.

Alderman L. H. Choquette intimated that the city's subscription of $250, made last year, was not final, and that, particularly in the matter of putting the chosen site in good shape, the city would do its part.

Alderman A. S. Horswill was strong for getting the memorial in being.

The meeting then adjourned, confident, that the war memorial was on the way to final realization.

After the meeting, Messrs. Blackwood and Horstead enlisted Mr. Joy on the special committ, and took up the committee's duties.

The committee decided to have A. Carrie, the architect, prepare a design for a monument suitable to the suggested site on the Hume block boulevard.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like cold cream, and physically."

LACROSSE MEN RALLY TO ORGANIZE LEAGUE

This afternoon will see three intermediate lacrosse teams lined up and organized into a city lacrosse league if present arrangements for the big rally of old players and intending players works out satisfactorily. Ever since the snow disappeared about 40 of the netted stick artists have been putting in periodic practices ready for the opening of the season. Organization has been put off pending the results of the financial drive for sport. It is expected that some announcement in regard to finances will be made at the meeting this afternoon, which will follow a brief practice match at the Recreation grounds.

TECHNICAL PAY UNDER REVIEW

Sergeant Hurst Says Every Male in Family "Shot to Hell"

OTTAWA, May 3.—The pensions and reestablishment committee sat till nearly midnight on the question of whether it would take up the matter of claims for payment of allowances and technical pay to soldiers in the C. E. F. In one instance, a case of technical pay was referred back to the department of militia as being outside the scope of the committee. In another group of cases relating to pay in lieu of quarters the matter was left over for further consideration, as it was stated that Hance Logan, Liberal member for Cumberland, N. S., wished to be heard.

The case of technical pay which was referred back was that of Sergt. Thomas Hurst of the 224th forestry battalion, Vancouver. He claimed that he had acted as car builder and in technical work in logging and that he was promised technical pay before he enlisted and his claim amounted to $5915.

"Every male in my family was in the war," he said picturesquely, "and we were all shot to hell, financially and physically."

FLORAL FETE NETS NEARLY FIVE HUNDRED

All St. Saviour's Organizations Combine to Secure Brisk Business

COUNTRY STORE IS GREAT ATTRACTION

Mysterious Parcels Sell Quickly; Concert and Dancing

St. Saviour's church Floral Fete held yesterday in Eagle hall was a gratifying success to all who joined in the movement to raise funds for the memorial hall.

At 3 o'clock crowds began to pour in and a brisk business was done at all of the brightly and tastefully decorated stalls.

Afternoon tea, at which coffee and doughnuts were a feature, was admirably handled by the Mothers' club, under the command of Mrs. Williams and Mrs. G. A. Hunter, with an army of willing assistants.

Roses and tulips were the floral feature of the tea tables. Four fancy work stalls; a delicatessen stall, and country store were controlled by the church helpers' circles. Clematis marked Mrs. D. A. McFarland's circle; Rambler roses, Mrs. Fred H. Graham's; Wistaria, Mrs. Armstrong's; and violets, Mrs. D. A. Thorpe's—all fancy work stalls. Daffodils denoted the delicatessen stall, conducted by Mrs. A. Jeffs and Mrs. S. J. Towgood, while Mrs. Frank Hawthorne and Mrs. C. I. Archibald ran the country store, without any floral aids, a constant stream of buyers rushing the mystery parcels vended.

Mrs. J. T. Andrews and Miss Beryl Graham for the Altar guild supervised the candy stall, under the sign of the buttercup, and in a lily decked bower Miss Glayds Thorpe dispensed ice creams.

Miss Ruth Armstrong and Miss G Hunter—Daughters of the King—were in charge of the fortune telling feature, where cards and palms vied in bids for favor from rival soothsayers. Chrysanthemums were the guiding flora.

Mrs. W. C. E. Kock and Miss Tinks Irvine — Sunday school—manipulated a gray goose which received dimes and delivered toys to the youngsters.

Evening Passes Merrily.

In the evening an excellent musical program was staged including orchestral numbers by the Nelson Symphony orchestra, songs by Gunner Graham, Edgar Mason, Mr. Cornish and C. Choyce; a daffodil dance by little Miss Ivy Walker; piano solo, beautifully rendered, by Master Jimmy Benson; a dramatic reading by Mrs. McBride, and a little sketch by Will Irvine's Cheer O Boys.

The musical program over, the rest of the evening was given up to a cheery informal dance.

About $500, it is estimated, was taken from all sources.

Mrs. Leslie Craufurd was in command of the entire fete, assisted by Mrs. Gordon Hallett.

URGES DIRECT NEGOTIATION

House Considers Appointment of Canadian Ambassador to Washington

OTTAWA, May 3.—Appointment of a Canadian representative at Washington is now receiving consideration at the hands of the Dominion government, Premier King stated in the house of commons today. The prime minister's statement was made in reply to urgent pleas by E. M. Macdonald, Liberal member for Pictou, N. S., that a Canadian minister should be appointed to Washington.

Mr. Macdonald brought up the question on a motion for production of documents relating to the petition of the eastern Lahave Transportation company and others, to the secretary of state for external affairs and replies thereto from the United States government. The case at issue, Mr. Macdonald said, was that of a Nova Scotia vessel sunk by an American vessel off Rhode Island. The fault lay with the American vessel, but the Canadian owners, under United States law could not sue through the courts. They had to act through the secretary for external affairs.

"There should be a more direct method of communication between Canada and the United States than the present one of going through the British embassy at Washington," Mr. Macdonald declared.

TRADES UNIONS WIRE PREMIER

Urge Full Political Recognition of Soviet Russia as Indispensable

LONDON, May 3.—The general council of the trades union congress and the executive committee of the Labor party, representing 6,000,000 workers, sent a telegram today to Lloyd George at Genoa urging that full political recognition of the Russian Soviet government was indispensible. The telegram declared the admission of Russia and Germany into the League of Nations would be a better guarantee for peace than any nonaggression pact that might be adopted at the Genoa conference.

Publicity Agent at Genoa Conference

MADEMOISELLE GOLDFORD
Official publicity agent attached to the Soviet delegation at the Genoa conference.

INDIAN POTLACH RAISES INQUIRY

Would-be Tribe Leader Gives Feast and Distrbutes Largess

OTTAWA, May 3.—The Potlach, a famous Indian institution, has been the subject of a special inquiry by the Dominion government. The inquiry was made by the anthropological division of the department of mines, but it does not make any recommendation regarding the Potlach or regarding an amendment to the Indian act to permit the Indians to carry on the practice.

The Potlach is a feast and distribution of largess by one aiming at the headship of a tribe. This information was given in the house of commons this afternoon by Hon. Charles Stewart, minister of Indian affairs, in reply to a question by L. J. Ladner, Conservative, Vancouver South.

Mr. Stewart stated further that there had been 50 convictions of Indians during the past six months in British Columbia for taking part in Potlaches. All have been released except four and the parole of three of these is now under consideration by the department of justice. The department now has before it a petition presented by certain British Columbia Indians asking for a commission to investigate the Potlach.

OUTRAGES CONTINUE IN NORTH IRELAND

BELFAST, May 3.—Numerous cases of arson and other outrages continue to be reported from various places. Two men were shot dead today on Coal island, presumably in reprisal for the burning of the home of a member of the Ulster special constabulary. Attempts were made today to burn three flax mills in the Limavady district of Londonderry and there were several attacks on barracks in South Derry.

The post office at Waterford and Clonmel were secured by armed civilians, entailing a cessation in the postal service, but the train service from Dublin to the south was resumed.

It is estimated that 1000 motor cars recently have been stolen in the counties of Londonderry, Tyrone and Donegal.

NEWSPAPER INTERESTS IN SESSION

Elect New Executive at Third Annual Convention at Montreal

MONTREAL, May 3.—About 60 representatives of proprietorial and business interests of newspapers throughout the Dominion assembled here today for the third annual convention of the Canadian Daily Newspaper association. Proceedings were opened by the retiring president, J. E. Atkinson, Toroto Star, who later installed as his successor in the chair, F. J. Burd, of the Vancouver Province. Other officers elected were: vice-president, T. H. Preston, Brantford Expositor; treasurer, N. T. Bowan, Toronto Telegram.

Directors—F. B. Ellis, St. John Globe; W. H. Dennis, Halifax Herald; Florina Fortin, L'Evenement, Quebec; L. J. Tarte, La Patrie, Montreal; Lord Atholstan, Montreal Star; J. R. Henderson, Montreal Gazette; P. D. Ross, Ottawa Journal; G. E. Scroggie, Toronto Mail and Empire; R. M. Glover, Peterboro Examiner; W. J. Taylor, Woodstock Sentinel-Review; R. N. Harris, Hamilton Herald; E. H. Macklin, Manitoba Free Press; C. A. Elvin, Saskatoon Star; J. H. Woods, Calgary Herald; F. F. Payne, Nelson News.

Sessions will continue tomorrow.

Lots of joy when you see CONSTANCE TALMADGE — Starland Monday and Tuesday.

Ban on False Trade Names

The decision of the United States supreme court sustaining the order of the federal trade commission to a hosiery company to desist from applying misleading names to its products is a victory for honest dealing. If the fundamental principle of the case is widely applied it will benefit both consumers and venders.

The concern in question has been engaged for some years in the manufacture of underwear. Its products have been labeled "natural merino," "gray wool," "natural wool," natural worsted" or "Australian wool," while as a matter of fact none of it has been all-wool and much of it contained only a small portion of wool, some as little as 10 per cent. The federal trade commission found that the practice constituted unfair trade competition and ordered it stopped, whereupon the company took the case to the supreme court on the ground that the commission had no right to interfere with its trade names.

It is manifest that a company which does not hesitate to deceive the public by giving the latter to understand through misleading trade names for its products that they are of better quality than is actually the case has an unfair advantage over more scrupulous concerns which will not lend themselves to such deception. The corporation which palms off cotton as wool can undersell the competitor which offers real wool. Of course, if the public detects the fraud the company guilty of it will have a hard time, for it will be under suspicion even if it amends its way. Ultimately the public always does make the discovery.

There are some trade names which, though originally misleading and probably intended to deceive, no longer do so. People are aware that certain furs bearing the names of highly prized animals never were found on the backs of these particular creatures, but came from other animals. Even in these cases it would be better if honesty were to prevail and the trade names at present used abandoned in favor of accurate ones.

Being Fair to the Fair Sex

In refreshing contrast to the current criticism, lay and clerical, of women young and old, their dress, morals and manners, are some remarks made in the latest issue of American Magazine. The writer of the article is so unlike most sons of Adam that, instead of fixing his attention exclusively on feminine sins and follies, real and imaginary, he insists that, if women have changed since the war, men have changed no less, and he cannot see why they are escaping not only denunciation, but even admonition. To prove that women have changed for the worse, he says, there is no definite statisticcal information available.

He admits, however, that even to the casual observer there is visible an alteration in them.

His own inclination is toward the belief that there has been no loss of morality by women—that they simply have become more indifferent to social opinion regarding their conduct. "It is this indifference," he says, "rather than a marked change in their manner of living, which has brought attention to the sex in the past few years." Then he adds: "A similar indifference on the part of men has not been remarked simply because man always has been arrogantly nonchalant in his breaches of the moral law. Besides, man's immorality, for some strange reason, never has been regarded as a source of social danger."

One seems to remember several references in the past to man's wickedness as socially perillous, but it is easy to see what the medical person is driving at and to appreciate the gratitude which the flapper and her elder sister should feel toward him for his defense—his attempt to be fair.

Efficient Housekeeping

by Laura A. Kirkman

LIVER AND KIDNEY IN THE SUPPER MENU

Liver and kidney cooked in a casserole make delicious supper dishes. A lamb's liver is considered by many housekeepers to be quite as delicate as calf's liver, and is most delicious when served as in the following menu:

Lamb's Liver en Casserole
Corn Muffins
Diced Fruit Topped With Meringue
Cocoa

Lamb's Liver en Casserole—Cut the liver in thick slices and cover these slices with boiling water; let stand five minutes then drain. Butter a casserole, or any baking dish, and arrange in the bottom a layer of uncooked vegetables consisting of sliced carrots, turnips and onions; add the slices of liver, a bouquet of herbs (parsley, savory and thyme), and pour over all one pint of stock made by seasoning a can of consomme with salt and pepper to taste, or by dissolving bouillon cubes in hot water. Sprinkle over the top a couple of pieces of cooked, crisp bacon finely chopped, cover the dish tightly, and place in a hot oven for two hours (perhaps a little shorter time). Remove from oven, stir into the dish two tablespoons of flour mixed to a paste with a little cold water, flavor with a teaspoonful of "kitchen bouquet" and serve at once in the dish in which it was baked.

Mock Kidney Pie
Quick Bisquit
Tea Raisin Tarts

Mock Kidney Pie—Remove the fat from a beef kidney and let stand overnight in cold water (to cover) containing one-fourth of a teaspoon of baking soda dissolved in it. In the morning drain, dry, and cut in small pieces, removing all strings. Fry these small pieces in two tablespoons of bacon fat with one-half onion finely minced. When delicately brown, add two tablespoons of flour, one-half cup of stock (made by dissolving one bouillon cube in hot water), and one cup of strained liquor from a can of tomatoes. Stir constantly till the sauce has thickened, and let simmer till the kidneys are tender. Then turn all into a baking dish or casserole, add four slices of crispy cooked bacon finely minced, and spread buttered bread crumbs over the top of the dish. Brown under the broiler, or place the dish in the top of a hot oven to brown. This "pie" will look as delicious as one with a pastry top, and taste fully as good.

Oatmeal cookies are delicious to serve with a little supper such as this. A reader friend has sent in the following—Cream together one cup of sugar, and one cup of shortening; stir in two eggs, two cups of oat-flakes, two cups of wheat flour, four tablespoons of sweet milk, one teaspoon each of ground cinnamon and soda, one-half teaspoon of salt and one cup of washed and chopped raisins. Drop this batter by large spoonfuls onto a greased pan, flatten out with a knife, and bake for *about eight minutes in a hot oven.*

Tomorrow—More Answered Letters.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use YOUR full name, street number, and the name of your city and state.—The Editor.

What the Press Is Saying

Community Music.

With a nucleus of resident musicians of recognized standing and of more than a local reputation, a lively local interest in music is pretty sure to deveop; casual concerts by touring celebrities exert no such influence. This is one of the most hopeful ways in which music clubs can carry out the excellent recommendation to "make music a vital part of the daily life of your community."—Springfield Republican.

The Inevitable.

Germany and Russia have both looked to the west for recognition and help. Failing, they have done what Senator Knox prophesied two years ago that they would do. They have come into agreement, but they have not come into alliance. There may be indeed a military alliance between them secretly made, but in spite of surface indications this is unlikely. The Germans do not want war and they know that Russian armies, no mater how great they may be, are not reliable fighting units. France, anticipating an alliance of Russia and Germany, has driven a wedge of bayonets between them by arming the people of Poland.—Syracuse Post-Standard.

The Why of the Open Door.

We demand an open door in China. Because we want to bring our civilization to China and gain credit for the fact that it makes her happier than she now is? Or perhaps because we want fresh fields for our adventurous spirit, a chance to distinguish ourselves with exploits, and profit ourselves with greater power? Or is it because we must have an outlet in China or our civilization is threatened? We want stability in Russia, the open door in Russia, peace and industry in Russia. Because these are the conditions which our civilization holds in high esteem and we would that Russia be blessed with them? Or is it because we must have room to push on in Russia or we are faced with collapse? Study this matter earnestly, reader. We are doing so.—The Villager.

Russia's Hope of Regeneration.

The Vatican has just obtained guarantees from the revolutionary government at Moscow which will permit Catholic missionaries to undertake the work of the moral and intellectual regeneration of those unfortunates in that country who need their services. For one chapter of the history of the Red Terror ought to be entitled "The Religious Decadence of the Muscovite Race." Philosophers and financiers have proved a failure in Russia, just as they have done in Germany, and as they fail in every other country in the world where the reign of the Golden Calf attempts to reduce the working classes to a hopeless slavery. Their bankruptcy has brought about shame, ruin and death. It will take years to relieve the terrible conditions from which two-thirds of Europe is suffering, but the eventual remedy is certain if they will go back to religion. —L'Evenement.

Will Do Plane Stuns for Movies

CAPT. HARRY C. G. MILLS

A cousin of Lord Lascelles, who has crossed the Atlantic to find some excitement. He will do airplane stunts for a movie concern.

The Lighter Side

In our own case a strike would be the triumph of a fishing hole over duty.

—o—

One of the infant republics is talking of prohibition. Oh, well; the good dry young.

—o—

A man is old when foot comfort seems of greater importance than tickling his vanity.

—o—

The man in the smoker who scolds because women smoke is the one whose pipe smells like that.

—o—

Too many people think they can't be their brother's keeper without putting a ring in his nose.

—o—

A prominent cartoonist errs in giving Noah a bald head. If he had been bald the two flies never would have survived the cruise.

—o—

About the only change in woman is that she has learned to be the keeper of her own conscience.

—o—

These warm days remind us that in a few weeks that kind of folks will be bragging about their daily baths.

—o—

And yet, if all available water power was converted into electrical energy, the coal bin would be a hasbin.

—o—

News item, 1976: The movies have outgrown the notion that the efforts of an amateur to hit a golf ball are funny.

—o—

One reason why the old-timers were hardy was that mothers had no booklets entitled "Care of the Infant."

—o—

At that, wine, women and song was a combination little more objectionable than shoe polish, flappers and jazz.

—o—

Scientific terms are all right, but none has been able to improve upon the old-fashioned description of a "misery" in the back.

—o—

We have a feeling that if the world should stand at the judgment bar just now it couldn't do better than enter a plea of insanity.

The word atonement appears but once in the New Testament.

Styles

BY LENORE

A fashion this season in which many of the smart frocks find their inspiration is the semi-draped skirt. In the attractive crepe dress illustrated, the effect is moderate and entirely practical, one end of the skirt width being merely allowed to fall in graceful cascades at the side. A crushed girdle of

self-material is fastened with a steel medallion, and a smaller medellion fastens the bodice at the neck.

Although the low waistline has never been as exaggerated in America as it has been in Paris, it is nevertheless, worn sufficiently low to make all but the slimmest women cautious as to its arrangement. Consider the ungainliness, for example, of too much stomach! Especially in those dresses where a girdle is eliminated entirely, and the material is crushed and drawn tightly across the abdomen. Or is there anything more unpleasant than the corset protruding in the front? So many of the styles are built around the low waistline as a motif, that it is safe to say it will be worn by many who shouldn't. In which case, all that may be suggested is to drape the girdle as loosely as possible.

East or West—Eddy's Best—*since 1851!*

The Chemist proves Eddy's are non-poisonous

EDDY-TORIAL

The great industries and public utilities of to-day are the servants employed by modern society to serve itself.

Eddy's is an all-Canadian institution.

It is owned by Canadians, operated by Canadians, employs only Canadian capital, and its profits are kept in Canada for the development of other Canadian industries.

That it has attained national importance is proof that it has performed a needed service in an acceptable manner.

Always, everywhere in Canada ask for Eddy's Matches.

Time was when matches *were* poisonous. Time was when there *was* danger to health of employees in the match-making process.

But Eddy enterprise put a full stop to both risks—and that was long before the Government wisely made it illegal to manufacture poisonous matches, on January 1st, 1915.

There are people who still believe matches are poisonous. How welcome the assurance of the Eddy Company that in all their different kinds of matches there cannot be found a single match-head harmful to health!

Every facility and resource that Eddy has is utilized so that each Eddy user can say—and mean it—that every Eddy match serves him best and costs him little.

Eddy's is the Canadian word for matches—120,000,000 matches a day—safe in manufacture, safe in use.

EDDY'S MATCHES

Canada

Soak coloured things half an hour (white things one hour, two hours, over night or whatever time is convenient) in Rinso suds.

Soak the Dirt out.

THERE is such a simple easy way of washing rompers, school ginghams, play clothes, etc., that you won't mind how many there are—thanks to Rinso.

First, make the wonderful Rinso liquid. Take half a packet of Rinso, thoroughly dissolve it in cool water, and add two quarts of boiling water. Then lay your clothes to soak in the tub of cool or lukewarm water. After one, two or three hours or in the morning give them a thorough rinsing and the dirt just runs away. No need to rub on the wash board so that holes come and colour goes.

Rinso is a wonderful product, scientifically made to wash clothes by soaking — different from soaps, chips and washing powders, and used differently.

Do not put Rinso into the tub from the package, but make the Rinso liquid first.

IF YOU USE A WASHING MACHINE

Follow directions as above. After soaking the clothes wring them into machine, add enough fresh Rinso liquid, operate and rinse, and you will have the sweetest, cleanest clothes you ever saw.

At All Grocers Rinso Made by the makers of LUX

IMPERIAL FRUIT SHOW IS EARLY

Proposal Nipped in Bud Was to Drop Best British Columbia Varieties This Year

In an apple supplement to the Commercial Intelligence Journal, issued by the department of trade and commerce, the following is reported as to the Imperial fruit show for 1922:

"A meeting of the subcommittee in charge of details in connection with the Imperial fruit show has been held.

"It was announced by the Daily Mail that the show would be held again in the Crystal Palace, and that the dates would be the same as last year, that is, from October 27 to November 4. A strong protest was made on behalf of Canada against such an early date, and it was pointed out that British Columbia in particular would be handicapped to the point of being scarcely able to participate. In this connection it was stated that before last season it had never been possible to place any British Columbia apples, except Wealthy and McIntosh Red, on the market commercially before November 8, and that the fact that a good showing was made last year should not be taken as an indication for the future, as last season was abnormally early and such a season is not likely to recur in the next 10 years. Last season, British Columbia Jonathans were on the market commercially in the middle of October, three weeks earlier than had ever happened before.

In reply, it was stated that the interests of English apples, which had contributed far the larger portion of the entries, would best be served by holding the show on October 20, and that the date suggested was a concession to Canadian requirements. Finally the Daily Mail stated that October 27 to November 4 was the only possible date, in view of the fact that the Crystal Palace was engaged for a poultry show during the week immediately following.

Varieties Retained.

"A reduction in the number of classes in the United Kingdom and overseas sections was proposed, and the United Kingdom classes were cut down to eight instead of 14. As the entries for Jonathans, Spitzenberg and Newtowns had been very few, it was suggested that these should be dropped. It was pointed out on behalf of Canada that the 14 varieties in the overseas section were designed to cover five fruit provinces, and that no single province was in a position to compete in all classes, as all varieties were not produced in all provinces in commercial quantities. With reference to the suggestion as to dropping Jonathans, Spitzenbergs and Newtowns it was pointed out that these were the principal British Columbia commercial varieties, and that province could not compete at all if these were dropped. It was finally agreed that the full 14 classes should be retained as last year. The British Empire section is to be the same as last year.

"Some discussion took place as to the judging, and it was conceded that last year's results were unsatisfactory, and that steps should be taken to prevent a repetiion of similar conditions. It was tentatively proposed tht the intercountry judging should be in the hands of a board of three, consisting of one judge from a neutral country, one Canadian expert box judge, and one of the box pack demonstrators of the English ministry of agriculture. The suggestion of the ministry was that the neutral should be an Australian. It was pointed out, on behalf of Canada, that American judges, on account of their wide experience of apple shows, and their special knowledge of the box pack in the Canadian and British standard pack, were much more likely to provide the necessary competence. It was also pointed out that the Australian box is of different dimensions to ours, being a heavy, rigid box without bulge, that they do not use the county system, that they frequently use excelsior in their pack, and that therefore unless an Australian judge happened to be specially acquainted with the American and Canadian box pack, he might provide neutrality without the fullest degree of necessary expert competence. The Daily Mail, however, was emphatic against selecting a United States judge, desiring to confine the show, in every way, within the British Empire. The matter, however, is to come up for further discussion.

Pears and Grapes.

"Classes have been made for the exhibition of pears and grapes from Canada. These will be open to any variety. The pears are to be in half-boxes. The grape package has not been decided upon. The suggestion is that it shall be the South African box, with excelsior packing, 16 inches by 11 1-2 inches by 6 inches. If Canadian shippers desire any other package, their views will undoubtedly prevail, as the competition is confined entirely to Canada.

DOUBLE CROP IS GARDENERS' AIM

Successful Sowings Should Be Made of Various Garden Vegetables

There are so many different phases of work to be considered in connection with the planting of a garden that one needs to have a thorough grasp of the proper procedure. The first operation to be conducted when weather conditions are right, is the preparation of the soil. Where the soil is of a sandy nature, there is little danger of injuring its physical make-up, but if the soil is of clay texture, working while too moist will cause puddling which would render the soil lumpy for that season. However, the cultivation given the garden prior to sowing the seed should be thorough in every respect, because upon this tillage will depend, to a very great degree, the success or failure of the garden, says T. F. Ritchie, assistant in vegetable growing, Ottawa, in an experimental farm note.

To obtain the maximum returns from any garden, it is necessary to employ successional sowings of such crops as peas, beans, beets, carrots, radish and lettuce. The sowings should be regulated at intervals of a week or ten days apart so as to have a succession of tender fresh vegetables available throughout the season. The first sowings should be made as early as weather and soil conditions will permit and continued in succession until the last week of June.

Regarding the sowing of the seed, one must be careful to regulate the depth in accordance with the season of the year. During the early part of the season, shallow planting is essential to quick germination, but as the season advances and the soil becomes warmed to a greater depth, it will be found necessary to increase the depth in the ground to which the seed is placed, bearing in mind, of course, that large and small seeds must be planted in depth in accordance with their size.

Use Catch Crops

Whether the garden be large or small, the ambition of every gardener should be to obtain the most from the given area. This can be done by a system of double cropping, or catch cropping, using such quick maturing crops as radish and lettuce. The early maturing crops are sown between the rows of cabbage, cauliflower, tomatoes and potatoes, or as markers in the rows with the seed of slow germinating sorts such as parsnips or beets, and are ready for use and gone before the standard crops require the space for their development.

A few suggestions regarding the mode of procedure in connection with the growing of successional crops might not be amiss. In the first place, let us consider peas. The first early sowing should be made using a smooth seeded variety such as Alaska or Early Morning Star. This type of pea can be sown very early when conditions for the wrinkled sorts would be entirely undesirable. It may be necessary to make a couple of sowings of the smooth sorts before it would be possible to sow the wrinkled peas. For the successional sowings of a wrinkled variety, use Thomas Laxton; this early sort has been found very desirable and possesses all around good qualities. If, however, a dwarf variety is desired, English Wonder is recommended, followed by American Wonder. With beans it has been found much better to use some early sort such as Round Pod Kidney Wax for a golden podded sort, and Early Red Valentine if a green podded variety is desired. Beans cannot be planted very early, therefore, the range of the season is not so great as in the case of the peas. Other recommended varieties are: beet, Detroit dark red; carrots, Chantenay; raddish, scarlet turnip white tip; lettuce, Grand Rapids.

All plants that are to be transplanted, should be hardened off well in a cold frame prior to planting in the open. Select only the stockiest, well grown plants. Choose a dull day for planting or the evening toward sundown. In setting out all classes of plants, it is very important that the earth be firmly pressed about the roots. If loose planting is practised, the roots of the plants cannot form proper contact with the soil to obtain plant food and moisture.

Avoid crowded conditions in the garden. While it is desired to crop the land intensively, yet good judgment must be the guide in order to prevent strangulation of one plant by another, or making conditions congenial for the development of fungous diseases.

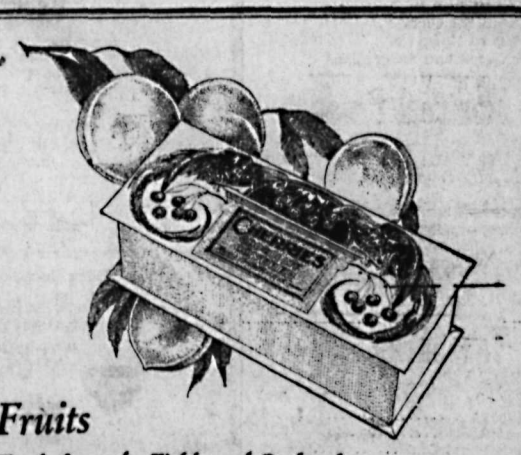
Unemployed Women Raid Relief Office and Refuse to Leave

VANCOUVER, May 3.—The daily demonstration promised by Vancouver's unemployed in their campaign for civic relief today took the form of a raid of the city relief office by 30 unemployed women. They occupied the main room of the building and steadily refused to leave unless relief was given to them. The police were called out and the women were herded out of the building.

They did not attempt any violence, but one of them leaped into the patrol wagon which had brought the police detachment and had to be forcibly ejected from it. Unemployed men did not parade today.



Fruits

Fresh from the Fields and Orchards

During the summer months huge crates of freshly-picked fruits arrive at Moir's factory, and thus at fragrant maturity are pressed and preserved for use in Moir's candies.

Thus it is that the fresh flavor of the sun-ripened fruit is retained in Moir's Raspberry Fondants, Strawberry Creams and Velvas.

These and other luscious fruit juices together with pure cream, butter, sugar, mellow honey, full-meated nuts and rich smooth chocolate are moulded together into the most delightful confections you ever tasted.

Moir's is a candy you'll be proud to bring to wife, sweetheart or friend.

OIL STRONG ON NEGATIVE MART

Motors and Industrials Fall Off; Little Demand for Rails

NEW YORK, May 3.—Apart from the oils, which monopolized the greater part of speculative attention, together with several independent steels, shippings and coppers, today's stock market session was more or less negative in its net results.

Under guidance of Associated Oils, which registered a further gain of 6 3-4 points, or a total of 13 3-4 for two days, various issues of that group changed hands in enormous lots at advances of 3 to 6 points.

Other individual features of strength included Bosch Magneto, Stromberg Carburetor, Mercantile Marine common and preferred and several of the food and chemical specialties.

There was a marked falling off in the demand for motors, equipments and affiliated industrials, which gave pronounced weight to the March-April rise.

Rails figured to a smaller degree than before, although the later dealings were characterized by some inquiry for Pacific, New York Central, New Haven and several of the grangers, Omaha making a 6-point gain.

Sales amounted to 1,350,000 shares.

For the third consecutive day British exchange moved counter to the general trend of international remittances. Sterling held at $4.43 1-4 for demand bills, but allied exchanges, German marks and the more important neutrals eased 1 to 8 points.

EARNINGS DECREASE CANADIAN PACIFIC ..

MONTREAL, May 3.—Canadian Pacific railway earnings for the week ending April 30 were $3,356,000, a decrease of $793,000.

REMUNERATIVE POSSIBILITIES IN RAIL BONDS

Canadian Northern Debentures Down to 36; Mature in 1930

LONDON, May 3.—Investment possibilities in Canadian Northern railway 5 per cent income debentures are being discussed in financial circles here. Many investors who bought them at about 100 and now see them quoted at 36, with interest in arrears since 1914, are wondering if the obligation to redeem the stock in 1930 will be met. This question apparently depends upon the words printed on the bond itself. Competent critics advise the purchase of this stock now, as it may prove remunerative.

WHEAT GAINS FAIL TO HOLD

CHICAGO, May 3.—Announcement of vessel charters for the shipment of 800,000 bushels of wheat out of Chicago by lake routes gave an upward swing to wheat prices today, but many of the gains failed to hold.

The market closed unsettled at the same as yesterday's finish, to 1 3-8c higher, with May $1.44 7-8 to $1.45 and July $1.28 1-2 to $1.28 5-8. Corn closed 5-8c to 1c up; oats at an advance of 1-8c to 1-2c, and provisions were unchanged to 35c up.

SILVER FIRMER

NEW YORK, May 3.—Silver, 68⅞c.

At London—Standar copper, spot, £60 5s; futures, £60 17s 6d.

Electrolytic—Spot, £25; futures, £67.

Tin—Spot, £150 2s 6d; futures, £151 10s.

Lead—Spot, £23 15s; futures, £22 17s 6d.

Zinc—Spot, £27 7s 6d; futures, £27 5s.

Montreal List

MONTREAL, May 3.—The paper stocks were again outstanding in today's trading on the local stock exchange. Improvement in activity and a number of substantial gains were recorded and 11 new highs were reached.

Spanish preferred led in activity and reached a new high of 96 1-2, closing at that price, up 2 1-2 points. Bell Telephone led in the matter of price gains, recording a net advance of 4 1-2 points to 113 3-4, after touching a new high of 114. Brompton came third with a new high of 33 1-2 and closing at 32 3-4 for a net gain of 1-4.

The greatest loss was in Asbestos, which closed at 56, a net decline of 1 1-2.

Montreal Tramways was down a point to 145.

Toronto Board

TORONTO, May 3.—Heavy advances in Abitibi common, Bell Telephone and the Canada Steamship issues were the features of the trading in today's market. An advance of 4¼ points in Bell Telephone to 113½ was the outstanding feature. The public expressed further approval of the new financing plans of the Canada Steamship lines. The common advanced 1½ to 24½ and the preferred 1¾ to 55¼.

Tucketts common advanced 3 points to 43. Abitibi common was in demand and advanced to a new high at 57, up 1⅞ points. Canadian General Electric common advanced 3 points to 95. International Petroleum led the advance in oils in the unlisted section, moving up 1⅜ to 24½.

WINNIPEG CASH GRAIN UOTATIONS

Wheat—No. 1 hard, $1.46⅞; No. 1 $1.42⅜; No. 3 northern, $1.35⅝; No. northern, $1.46⅝; No. 2 northern, 4, $1.20; No. 5, $1.09; No. 6, 99c; feed, 87c; track, $1.46⅝.

Oats—No. 2 C. W., 54c; No. 3 C. W., 50¼c; extra No. 1 feed, 50½c; No. 1 feed, 48¾c; No. 2 feed, 46c; rejected, 44½c; track, 53.

Barley—No. 3 C. W., 69c; No. 4 C. W., 67c; rejected, 61c; feed, 60c; track, 69c.

Rye—No. 2 C. W., $1.06⅝.

CANNOT TRACE OWN PRESIDENT

BERLIN, May 3.—(Associated Press).—Not even President Ebert is exempt from the exasperating delays or failure to deliver mail which occur here as in all other countries.

A letter addressed to the "Reich's president, Berlin" was recently returned to the sender by the post office with a label attached stating, "without address or particulars the addressee cannot be traced in Berlin."

WOODEN LEG SPLASHES.

SPARTANBURG, S. C., May 3.—The storied "uses of adversity" proved anything but sweet for Alexander Ballenger, a one-legged Spartanburg negro. When a faint and muffled "splash, splash" was heard to accompany him recently as he hobbled down Main street a policeman took him in. At the station a cache in his wooden leg was found to contain a pint of liquor. He was fined $100 for transporting intoxicants.

BRINGING UP FATHER By Wood Cowan

FASHIONABLE MODISTE TELLS OF BIG CHANGE

General Breakdown Entirely Overcome by Tanlac and Nerves Steady as a Clock; Digestion Now Perfect

"I suffered a general breakdown about a year ago and until the time I started taking Tanlac I was in miserable health," said Mrs. John North, well-known dressmaker of 631 Prior Street, Vancouver, B. C.

"I was so nervous I was almost hysterical and suffered terribly from headaches. Heartburn bothered me a great deal and I had terrible pains in my stomach. I lost so much energy and strength that I was almost a wreck.

"But I am happy to say that things are different now. I am not in the least bit nervous and sleep well every night. My appetite is so good that I can eat anything. Tanlac has given me back my health and I would be ungrateful not to tell everybody I can about it."

Tanlac is sold by all good druggists.

REARRANGE BASEBALL SCHEDULES

Western Section Withdraws From East Kootenay League

FERNIE, May 3.—Owing to the withdrawal of the western section of the East Kootenay Baseball league, it has been necessary to rearrange the schedules. Wardner has been taken from the eastern section and placed in the central section for this season. Michel and Natal, however, sent a representative to the executive meeting of the East Kootenay league held at Cranbrook Sunday last and requested permission to enter a team to represent these two towns in the eastern section. This was granted and the formal entry of Michel has been received and accepted. Messrs. McLeod and Jerue of Fernie were authorized to draw up a schedule for the eastern section and the following has been submitted and approved:

Name of home team appears first.

May 14—Fernie vs. Waldo; Michel vs. White Spruce.

May 21—White Spruce vs. Fernie; Waldo vs. Michel.

May 28—White Spruce vs. Waldo; Michel vs. Fernie.

June 4—Fernie vs. Michel; Waldo vs. White Spruce.

June 11—Fernie vs. White Spruce; Michel vs. Waldo.

June 18—Waldo vs. Fernie; White Spruce vs. Michel.

June 25—Fernie vs. Waldo; Michel vs. White Spruce.

July 9—White Spruce vs. Fernie; Waldo vs. Michel.

July 16—Fernie vs. Michel; Waldo vs. White Spruce.

July 23—White Spruce vs. Waldo; Michel vs. Fernie.

July 30—Fernie vs. White Spruce; Michel vs. Waldo.

August 6—Waldo vs. Fernie; White Spruce vs. Michel.

FAVORITES FOR GREAT JUBILEE

Backers Give Roman Bachelor and Silver Image Equal Chance

LONDON, May 3.—(By Canadian Press Cable.)—The great jubilee handicap for 3-year-olds and up over the Jubilee course of one mile and a quarter will be run at Kempton park next Saturday. N. Bachelor's 5-year-old Roman Bachelor, carrying 120 pounds, has been installed a joint favorite with W. B. Parr's Silver Image, with 5 to 1 against quoted tonight. Roman Bachelor will be called upon to concede some 16 pounds to the Parr colt.

Eight to 1 is quoted on James White's Granely, the winner of the Lincolnshire. Monarch is quoted at 11 to 1 against; Franklin, second in last year's St. Leger, is quoted at 10 to 1; Polemarch, winner of last year's St. Leger, and Evander are both quoted at 100 to 8; Lord Jersey's 3-year-old Scamp, 20 to 1. Of the 57 horses nominated 13 declared forfeit on publication of the weights, which were as follows on the horses quoted above:

Roman Bachelor, 120 pounds; Silver Image, 104; Granely, 96; Monarch, 115; Franklin, 115; Polemarch, 114; Evander, 107; Scamp, 103.

REGINA, May 3.—Derailment of C. N. R. passenger train No. 6, Regina to Winnipeg, at Fairlight, Sask., early this morning, completely blocked the Canadian National line between Regina and Winnipeg for more than 12 hours today. According to meager news of the wreck received here, no persons were injured.

Aluminum has been substituted for copper.

More than 45,000 auto tourists visited Utah during 1921.

QUINN SHINES FOR RED SOX

Scores Three of Eight Against Blanked Senators; Athletics Beat Yanks

AMERICAN LEAGUE.

	Won.	Lost.	Pct.
St. Louis	12	6	.667
New York	12	7	.632

DILIGENCE LONG SHOT FOR DERBY

Bets Taken at 66 to 1; St. Louis Still Blue Ribbon Favorite

LONDON, May 3.—(By Canadian Press Cable.)—Latest betting on the derby, which is to be run at Epsom on May 31, shows little or no change in the standing, with Lord Queensborough's St. Louis, the winner of the 2000 guineas stakes, maintaining his place as public favorite, with odds of 9 to 2 against being quoted tonight. Sol Joel's Pondoland retains second place in the public fancy, at 9 to 1 against. Sir Ernest Paget's Reecho is quoted at 10 to 1, Captain Cuttle at 100 to 6 against, Bucks Hussar at 20 to 1 against and Steam Pat 22 to 1 against. Bets have been taken and more offered at these quotations. Captain Greer's colt Diligence was quoted at 66 to 1 against and some bets were taken at this figure.

JOE KIRKWOOD UP TO TRICKS

Can Do Wonderful Things at Golf; Boomerang Stunt Is Specialty

CHICAGO, May 3.—There are tricks in all trades and it is the general belief that the people on this side of the boundary are familiar with them all, but when it comes to golf tricks Joe Kirkwood, the Australian open champion, can show United States golfers something. The Australian star is touring the United States with the intention of trying for the United States open title at Chicago this summer. His unique feats have aroused no little interest among the golfers he has already met.

Kirkwood can perform seemingly impossible tricks with a golf ball and a putter, mashie or driver. He can drop a half dozen balls in a straight line and with a mashie pitch the farthest one into the hole precisely and thus continue down the line until all disappear within the 4 1-4-inch can. He also can putt his ball against and from the lip of the cup, driving the near ball away and holding his own. However, he can use neither of these stunts in competition. He performs them at calculated distances, so that long practice and a delicate touch make the work exact, while in a regular round the ball must be played from all sorts of positions on the 120-foot square green. If he could have a stymie of three or four feet laid for him at every hole he would bless the recent restoration of that play and hole without difficulty.

The Australian champion also can curve his ball around another by putting english on it with a straight-faced putter, but his truly native trick is the boomerang ball. In this piece of legerdemain he cuts, or gives the ball so much back spin that the pellet is hurled high in the air only to fall at his feet. This is an exaggeration of the cut pitch played by all experts.

Competition Is Different.

Kirkwood is good at that, but the same reasons prevent him being more successful than other players when it comes to competition. He can discover the cut necessary to bring the ball back to him, but when it comes to estimating the back spin necessary to drop it dead to the pin from varying distances that must be measured by the eye he is up against a different proposition.

Another stunt that theoretically calls for perfect play is to drive a ball off a watch face or from beneath the foot of a person, but that merely requires exactness in the trajectory of the club, and a slice or hook might result if the club head followed or preceded the hands, respectively.

Kirkwood also can put an extended slice or hook on a ball, a play that is also used by Jock Hutchison, British open champion; James Barnes, United States open title holder, and many other members of the professional golfing circle, as well as prominent amateurs.

Pastor Vanishes

REV. WILLIAM LEACH

Who disappeared after conducting a prayer meeting in the Methodist church at Peoria, Illinois, on April 12, after remarking to one of his church officers that he felt tired. He has not been seen since. He is well known in Toronto, where he was accustomed to visit during the summer months.

An important island in West Africa has the odd name "Banana."

The Aztecs called the Creator Taoti.

FURTHER CONFUSES THE LIST OF PEERS

LONDON, May 3.—Sir Arthur Balfour's acceptance of elevation to the house of lords as Earl Balfour of Whittingehame adds to an already confused list of British peers.

There was already a Lord Balfour of Burleigh, two Lords Morley—the viscount and the earl—two Lords Cobham, two Lords Ashton, a Lord Curzon in both houses (the commoner having the courtesy title of viscount), Lord Midleton and Lord Middleton, Lord Lindsay and Lord Lindsey, Lord Longford and Lord Langford, Lord Terrington and ord Torrington.

Commenting on Sir Arthur's admission to the house of lords, the Observer said:

"Having entered on the slippery slope of accepting titles, Sir Arthur Balfour now finds himself doomed to the house of lords, the destiny equally of success and failure in politics. It is a pity we cannot find a way of distinguishing between those who are made peers because of their eminent services and those who have been made peers because their services were not eminent. Is there any other institution in the Empire thus curiously recruited from the top and from the bottom?"

1670 Anniversary Sale 1920

THE SEAL OF QUALITY

Every day of this Sale is an important one. Don't miss any of our days or you may be missing the best part of the Birthday Celebration

Men's Department

WILL RELAUNCH ROWING CLUB

Nelson Scullers Organize Tonight; Have Eyes on Possible Forthcoming Regattas

Some action will be taken in regard to getting data on forthcoming regattas in which Nelson rowing crews can participate at the annual meeting of the Nelson Rowing club at the club float this evening, it is expected. For a number of years there has not been the interest in Nelson's pioneer sport, nor the actual and prospective membership that there is this spring, according to the secretary, A. B. Gilker. With the promise of immediate good rowing weather it is proposed to organize the club tonight, to elect a coach, to get a line on all possible rowing meets this summer and to lay plans for keeping the crews in good shape to take up serious training for events promising honors and silverware.

PREMIER OLIVER TAKES CROW BOAT

Premier Oliver, who arrived in Nelson Tuesday night by the Kettle Valley train, from Penticton, and was the guest overnight of his sister, Mrs. John Bell, left yesterday morning by the Crow boat for Cranbrook, to return here at the end of the week.

The premier was accompanied to Nelson by his wife, who is remaining here while he is on the Crow.

RANGERS HEAD JUNIOR LEAGUE

Win Comfortably From Mountain Wolves in Interesting Soccer Clash

JUNIOR CITY LEAGUT

	Won	Lost	Pct.
Rangers	2	0	4
Shamrocks	1	0	2
Hotspurs	1	1	2
M. Wolves	0	2	0
Cadets	0	1	0

Winning their battle against the Mountain Wolves with a score of 4–0, the Rangers started out to head the junior city soccer league yesterday afternoon. They were a bit too much for the plucky little Wolves to handle, and were better able to negotiate the heavy ball and the slippery field that appeared following the rain.

As far as good soccer went, the Rangers had nothing on the midgets in blue. There was lots of good effort on both sides toward the combination game and team work. But the superior weight and speed of the Rangers told early. Bradshaw opened the scoring, and shot the second goal for the Rangers. Wier, the center, advanced the lead to three in the first half.

In the second the Wolves made fine efforts to score, and encouraged by a dozen or more senior players succeeded in getting dangerously close on several occasions. Their weight, however, was not sufficient to press home the attacks. Weir shot the final goal for the Rangers on a pass from Madden.

The teams were:

Rangers—Goal, C. Reiley; backs, C. Young and H. Simms; halves, E. Wasson, G. Long and A. Eldridge; forwards, J. Madden, A. Wallach, J. Weir, W. Bradshaw and E. Thorpe.

Mountain Wolves—Goal, W. Freno; backs, A. Jeffs and E. Jeffs; halves, G. Houston, G. McLeary and E. Brown; forwards, P. O'Neil, J. Wallach, E. Whitfield, G. Wallach and G. Campion.

Referee—H. Bolton. Coaches—Rangers, E. Metcalf; Mountain Wolves, A. Wallach.

Personal Mention

E. A. Hill, the Cranbrook merchant, and Mrs. Hill, are Nelson visitors.

George Tuckett, the New Denver merchant, is a business visitor to Nelson.

Oscar V. White, manager aof the Silversmith mine, is a visitor from New Denver.

Sidney Leary, the Nakusp lumberman, came in on the Kettle Valley train last night.

Miss Joyce McLeod of Grand Forks is visiting in Nelson, as the guest of Miss Pauline Sloan.

Charles O. Rodgers, manager of the Canyon City Lumber company, came in from Creston, yesterday.

Dr. Douglas Cawson, medical officer in Fernie district for the department of soldiers' civil reestablishment, arrived in the city with Miss Jean Cawson last night.

John R. Cassin, president of the California Mining company, is up from Spokane for a visit of some days to the company's property adjacent to Nelson. He will go up to the California mine today.

A. H. W. Crossley, of the West Kootenay Equipment company, has just completed the removal of his extensive stock of mining machinery, belting and sawmill machinery from his former business premises on Kootenay street to larger quarters, the Riblet warehouses on Front street.

J. W. Eastman of Vancouver, provincial pathologist, and E. C. Hunt, provincial horticulturist for the Nelson district, have just completed a tour of East Kootenay warning farmers of the danger to their crops of the Colorado potato bettles, which has already made its appearance at Newgate and other points. They addressed various gatherings at Wardner, Newgate, Baynes Lake and Creston, and outlined what preventive measures should be adopted to prevent the spread of the past.

Blanket tossing is a favorite sport among many of the Eskimos.

Paris' population has grown only 20,000 in the past 10 years.

CONVENTION IS NEXT FOR VETS

Nelson Branch Appoints Resolutions Committee; Dominion Day Activities

Preparations for the coming provincial convention at Penticton were initiated by the Nelson G. W. V. A. last night, which appointed a resolutions committee, whose duty it will be to prepare resolutions on matters the branch wishes to bring before the association at large. D. O. Thomas, W. J. Sturgeon and J. J. Currie were appointed the committee. It is expected the convention will be held about the middle of June.

It was decided that the branch should send a delegate, as usual, but choice of the delegate was postponed.

Matters connected with the Dominion day celebration are now looming large and it was announced that the ways and means committee would map out the program at a meeting tomorrow.

A special vote of thanks was extended to Joe Holland, who, as marshal of the Ypres day parade, handled things in an especially competent way.

W. J. Sturgeon, first vice-president, was in the chair.

RAILWAY MECHANICS RESUME WINTER HOURS

Dissatisfied with the three-day experiment of retaining C. P. R. time and going to work one hour earlier in order to conform with the general work and business hours in the city, the C. P. R. roundhouse, backshop and carshop crews will resume their previous hours of going to work this morning. Representatives of the men on the grievance committee yesterday conferred with the master mechanic and got permission to revert to the C. P. R. working hours in force during the winter.

The office staffs and other men not employed in the three departments mentioned are not affected by the decision. They will continue beginning their working day one hour earlier on C. P. R. time than during the winter.

Torricelli invented the barometer in the seventeenth century.
