Missing Issue Sept. 8, 1922

ORE THAN SIX NATIONS SHOW DISARMAMENTS

eat Britain and Japan Cut Naval Strength More Than Half

AYTHAN DELEGATE ENTHRALS AUDIENCE

ampions Hottentots Demanding Investigation of Punitive Expedition

ENEVA, Sept. 8.—Reports prepted by the council of the League Nations on reduction of armaments this afternoon's session of the rd assembly of the league show At in more than six of the counes which furnished figures, restricn of military outlay has begun. Great Britain reported a reduction 55 per cent in naval tonnage; ance, 36 per cent; Italy 49 per nt, and Japan 59 per cent.

Reduce Land Forces

n land armaments, France reported reduction of 200,000 men under ns and shortening of the term of litary service by one-half. Sweden o reported cutting her military vice in two; Italy reduced the iod of service and suppressed 88 ttalions of infantry; Poland reced her army of a million men to out 260,000. Japan made reductions t failed to give figure, while itzerland reduced from 70 per cent 55 per cent the proportion of her n eligible for military service.

Delegate Bellegrade, of Hayti, took floor today and made the most quent speech of the session. He viewed the work of the council d demanded an investigation of the erations of a puntive expedition nt by the Southwest African tery, for which South Africa has e mandate.

Queries Mandatory Rights

The Haytian impressed the assemy as no other orator has done, hen he asked if it were possible at women and children could be aughtered by airplanes, bombs and achine guns operated by mandaries under the authority of the eague of Nations.

Delegate Bellegarde's speech was ased on the charge that the South frican authorities sent 350 men gainst some Hottentots who had reisted the payment of a heavy tax n dogs. As dogs are an important dunct to the Hottentots because all re engaged in sheep raising, the Atives were declared to have been bliged to sell their stock to pay the ax. According to an official report eceived by the League of Nations, e said, the puntive expedition killed 9 natives, severol of whom were omen and children. The report did ot mention any South African losses.

Radio Program for Tonight

Below is tonight's radio program to be broadcasted from The Daily News station, operated by the Canadian Auto & Electric company, from 8:30 to 9:30, Nelson time:

Good Night.

Miners' Union Leaders Confident Vote Will Favor New Agreement

WILKESBARRE, Pa., Sept. 8.—When the anthracite mine workers' tri-district convention adjourned late this afternoon to meet again tomorrow morning, the resolution calling for ratification of the new agreement with the operators was still the subject of lively discussion. Despite the the peace pact and repeated demands the pace pact and repeated demands that the convention vote down and send the scale committee back to negotiation of a new agreement with the presidents, the union leaders remained confident that the convention will vote in favor of the new agreement. The vote will be taken tomorrow.

CLAIM DEFEAT GRECIAN ARMY IS COMPLETE

Said to Have Lost More Than Half Effectives; Free in Disorder

GREECE DESIRES AN ARMISTICE

Allied High Commissioners Propose Prelminaries to Nationalists

ADANA, Sept. 8.—Advices received from Turkish Nationalist sources confirm the complete defeat of the Greek army. The army, which at the beginning of operations was estimated to aggregate 200,000 men, has lost more than half its effectives. The troops who are fleeing in disorder before the Kemalist cavalry amount hardly to 50,000.

Propose Four Parlers.

CONSTANTINOPLE, Sept. 8.—The allied high commissioners in informing the Angora government of the request of Greece for an armistice, proposed that the preliminaries be discussed at Yarimja, the British section of the occupied neutral zone on the Asiatic side, and that the commission consist of three officers eacn of the allied, Greek and Nationalist armies. The Angora government's reply has not been received.

Study the West for Benefit of Canadian Unity

CALGARY, Sept. 8.—"There should be no cleavage between east and west," declared Sir Arthur Currie, K. C. B., principal of McGill university and former commander of the Canadian corps, in speaking at a reception in his honor at the Calgary military institute, Friday afternoon. "The viewpoint should be a national viewpoint. The interests of the east and west may be differene in detail, but the principles are the same. Canadian opinion should allow no disagreement to darken that real unity.

"The object of the visit of the Montreal board of trade is to ascertain the conditions of the west, to come into contact with western opinion, and to take back that which will help in preserving Canadian unity," General Currie said.

Trades Union Congress Considers Scheme for Extending Labor Power

LONDON, Sept. 8.—A scheme for extending the powers of the general labor council in the tackling of labor disputes was debated at length by the trades union congress at Southport today.

The scheme provided for no intervention where a settlement by negotiation was possible and for the organization of all moral and financial assistance, where the policy of the employers forces a stoppage of work. Frank Hodges moved the rejection of the scheme owing to its impracticability and nonprogressive character.

Robert Smillie, president of the miners' federation; J. R. Clynes, M. P., and others, criticized the scheme, which eventually was shelved by a large majority.

Second Boy Dies From the Bite of Mysterious Insect

UKIAH, Cal., Sept. 8.—Robert Waugh, 7, is dead today, the second boy to succumb in Ukiah this week to poisonous insect bites, the nature of which is puzzling physicians here. The child, son of Mrs. Stella Waugh, was stung on the knee and died of a virulent blood infection which attending doctors said they were unable to diagnose. Last Tuesday Jack Ley, 14, expired afer being bitten by an insect while hunting near here with his father, Earl J. Ley.

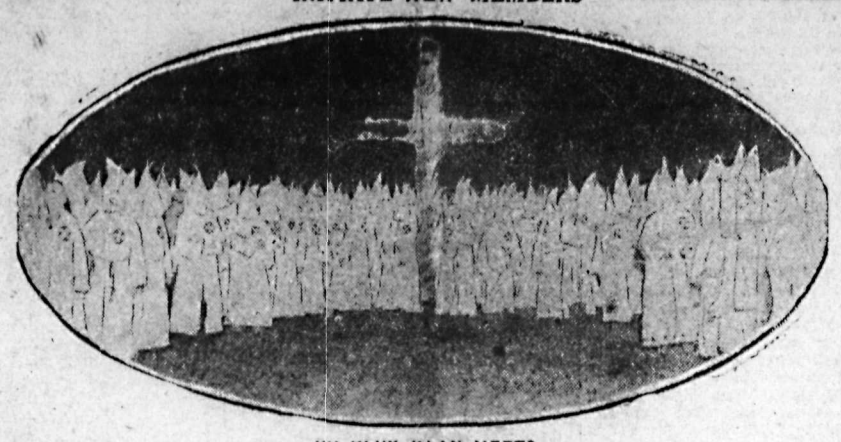
Italians Suggest Joint Conference of Greeks and Turks at Venice

ROME, Sept. 8.—The Italian foreign office continues to persuade France and Great Britain to invite Greece and Turkey to a joint conference to be held in Venice, according to an announcement made today. The purpose of the conference would be to discuss preliminaries for peace in the present Greco-Turkish conflict. An armistice or a truce is suggested by the Italian government during the period of the preliminary negotiations.

SEEK CONVICTION OF DYNAMITERS

BUFFALO, N. Y., Sept. 18.—The international Railway company today announced offers of rewards totalling $18,000 for the conviction of the perpetrators of dynamite outrages that have occurred on its lines since the carmen struck. The strike has been in effect since July 2. There have been no recent disorders.

INITIATE NEW MEMBERS



KU KLUX KLAN MEETS

In a Chicago suburb 4650 new Ku Klux Klan members were initiated the other night in the glare of a flaming cross.

OFFER REWARD FOR CAPTURE DEAD OR ALIVE

Criminal Terrorizes Seven; One Girl Dying From Fractured Skull

OLYMPIA, Wash., Sept. 8.—Murder will probably be added to the charges against an unknown man who terrorized four women and two boys at the point of a gun last night in the home of Mrs. Kate O'Hare, assaulted two girls, and left the whole seven bruised and hysterical. The youngest girl, Frances O'Hare, is dying tonight of a fractured skull. Posses are searching the countryside with bloodhounds. A reward of $500 for the capture of the man, dead or alive, is out.

Belgian Officials Take a Pessimistic View of Situation

BRUSSELS, Sept. 8.—The negotiations between the Belgians and Germans at Berlin for reparations guarantees are proceeding very unsatisfactorily, it was learned today in official circles. Belgian officials are decidedly pessimistic because the Germans have so far made no acceptable offer. It is the opinion in government quarters that Germany will only propose something tangible as a last resort and that the Belgians may be forced to threaten to leave Berlin before an acceptance of a German proposal will be made.

Nationals Repulse Irregulars' Attacks at Several Points

DUBLIN, Sept. 8.—Attacks on Nationals by Irregular forces were reported today at Beltra, county Sligo, in which the Irregulars were repulsed with the loss of one man killed.

Fighting between Nationals and Irregulars also occurred at Kanturk, county Cork, where two Nationals were killed and two others wounded. The Irregulars were reported to have sustained serious losses and to have been driven off.

Irregular activity continued during the day throughout county Donegal. A report reached Strabane this evening that five Irregulars were killed in a fight near Dunkinelly.

Calgary Churchmen Approve Conference to Stabilize Society

CALGARY, Sept. 8.—Leading churchmen of Calgary Friday heartily approved the suggestion made by Dr. Jewett of London, England, as quoted in dispatches, that a world conference of Christian leaders be held at once for the purpose of determining ways and means of averting a recurrence of world war.

Bishop William C. Pinkham, head of the Calgary diocese of the Church of England, not only approves, but suggests that the world conference be called in Canada, preferably the east because of its more central position. The meeting should be called as soon as conveniently possible, Bishop Pinkham said.

Bishop J. T. McNally, head of the Roman Catholic church here, expressed his entire approval of Bishop Pinkham's suggestion, saying he would favor any means of establishing stability of society.

Other prominent local ministers, as well as several laymen, stated they would give their unqualified support to the proposal.

ARRANGE COAL FOR FORD MOTOR WORKS

CINCINNATI, Sept. 8.—According to a telegram given out here late today by Ernest Beasley, president of the American Export & Inland Coal company, with offices in this city, an agreement has been entered into with representatives of Henry Ford of Detroit, by which a sufficient amount of coal will be forwarded to the manufacturing plants of the Ford company to obviate the shutdown that was scheduled for September 16.

Discuss Creation of Separate Branch to Deal With Fisheries

VANCOUVER, Sept. 8.—The advisability of creating a separate department of fisheries in Ottawa was discussed across the bench at this afternoon's sitting of the parliamentary committee, which is investigating conditions in British Columbia's fishing industry. Henry Doyle, vice-president of the Northern British Columbia Fisheries, limited, and Richard Bell-Irvng, speaking for the cannery interests, both submitted that the administration of Canadian fisheries should be in the hands of a separate department.

Commissioners Duff and Martell questioned the witnesses closely as to their ideas of how the administration should be constituted. Mr. Martell remarked that "it is a complex job for one man to look after both marine and fisheries in one department." He asked Mr. Doyle if the latter did not think "the department could be more competently handled if there was one branch devoted to the fishing industry in British Columbia and another looking after the fisheries on the Atlantic and inland waters."

Mr. Doyle agreed to the suggestion readily. He urged that the Dominion fisheries should be devoted to the propagation of fish rather than the restriction of fisheries. Speaking of W. A. Found, superintendent of fisheries, Mr. Doyle said "he is a good man, but he is a file man."

Calgary Entertains Montreal Board of Trade and Britishers

CALGARY, Sept. 8.—Citizens of Calgary Friday were hosts to more than 115 members of the Montreal Board of Trade and British parliamentary representatives. From the time when the visitors arrived here at 1 p. m. until midnight, they were kept busy following the extensive entertainment program arranged for their reception by Calgary citizens.

Indict Forty-eight Men for Complicity in Herrin Massacre

MARION, Ill., Sept. 8.—Forty-eight men have been indicted in connection with the Herrin mine massacre. A special grand jury late today returned 14 bills, including bills for rioting and conspiracy to kill. The jury then adjourned until Monday, September 18.

Pledge to Defend

PEORIA, Ill., Sept. 8.—Illinois miners in executive session here today pledged 1 per cent of their total earnings, or $250,000 a month, in defense of any members of the United Mine Workers of America who may be arrested for participating in the Herrin massacre.

Many Planes Reach Glasgow on Flight Around British Isles

CROYDON, England, Sept. 8.—Thirteen of 22 airmen who today started a race around the British Isles have reached Glasgow, where they will rest for the night, continuing the flight tomorrow.

Princess Leowenstein-Wertheim, who although 68 years old, entered a machine and accompanied its pilot during the flight, was among those reaching Glasgow.

Discover Large Body Nearly Pure Kaolin Near Williams Lake

WILLIAMS LAKE, B. C., Sept. 8.—The discovery of a large body of kaolin, containing less than 1 per cent dross, is reported a mile from this townsite. Kaolin is used in the manufacture of porcelain and as a filler in certain textiles.

ATHENS, Sept. 8.—Nikolas Kalogeropoulos has accepted the premiership which M. Protopapadakis resigned on Thursday.

GERMANS MAKE NEW PROPOSALS FOR GUARANTEE

Plan Provides Underwriting Syndicate of Industrial and Financial Interests.

BERLIN, Sept. 8.—Fresh proposals by Germany for guaranteeing the six months' treasury notes which are to be given Belgium as reparations in lieu of cash were submitted to M. Bemelmans and M. de Lacroix of the Belgian delegation by Dr. Hermes, the German minister of finance, this afternoon.

These were immediately relayed to Brussels. M. Bemelmans and De Lacroix decided that they were of such a nature as to necessitate the Belgian government assuming responsibility for their acceptance.

Unofficially, it was learned tonight that the plan provides for the formation of a huge underwriting syndicate, the nucleus of which would be composed of German industrial and financial interests, as the German government itself is not in a position to offer gold guarantees or negotiable securities to cover the entire issue of loans.

Fine Chiropractors for Violation of the Medical Act

VANCOUVER, Sept. 8.—Seven of the 11 chiropractors found guilty earlier in the week of violating the British Columbia Medical act were today fined $50 or one month in jail by Magistrate H. C. Shaw. Dr. Lovering, for the second offense, was fined $100 and costs or two months in jail. Sentences in the cases of Drs. Sturdy, Coats and Marshall, charged with third offenses, will be given on Monday.

CALGARY CASHIER AND CASH VANISH

CALGARY, Sept. 8.—Charles M. Holt, cashier of the wholesale branch of the J. Ashdown Hardware company, has disappeared, and three warrants charging him with theft and fraudulent conversion of trust funds have been sworn out against him.

Holt, who disappeared from the city last Saturday, was seen in Montana Monday, according to telegraph information received by the city police Thursday, and his arrest is expected at an moment. It is alleged that Holt took $400 belonging to the Employees' Benevolent Trust fund, of which he was secretary-treasurer when he left the city.

Unless United States Joins League Peru Will Stay Outside

LIMA, Peru, Sept. 8.—Peru does not intend to participate any further in the work of the League of Nations and will reconsider her decision only in case the United States decides to join the league, according to a statement by Foreign Minister Salomon today concerning Peru's failure to send delegates to the present assembly of the league.

STEAMER ARRIVALS

Melita, at Montreal, from Southampton.

Caronia, at Liverpool, from New York.

Seidlitz, at Bremen, from New York.

United States President's Wife Is Critically Ill

WASHINGTON, Sept. 8.—The condition of Mrs. Harding, wife of the president, was so serious tonight that "recovery is not yet assured," a statement issued at the White House at 9:30 o'clock tonight, by Brig.-Gen. C. E. Sawyer, the family physician, said.

Complications which developed yesterday and last night, the statement said, make Mrs. Harding's condition critical, it was added.

Free Staters Have Sharp Encounter With Rebels Near Dundalk

BELFAST, Sept. 8.—A stiff engagement between Free State forces and the rebels occurred at Castletown, near Dundalk. Rifle and revolver firing took place. Many prominent Irregulars were arrested and one was reported killed.

ANGORA STATES TURKISH TERMS FOR ARMISTIC

First Condition Evacuation Thrace; Second Depar[illegible] of Naval Units

PARIS, Sept. 8.—The Angora government will grant an armistice to the Greeks only if a request is made direct by the Greek generalissimo, according to Nationalist circles in Constantinople, says a dispatch to the Havas agency from Constantinople. The dispatch adds that an armistice would be subject to two conditions—first, the evacuation of Thrace, and second, the immediate departure of the Greek military and naval units in Constantinople. Permission to embark troops and material from Asia Minor would be subordinated to the above conditions.

Only Some Canadian Blundering Can Mess Up Embargo Lifting

TORONTO, Sept. 8.—Hon. Manning Doherty, minister of agriculture, discussed the British embargo on cattle in the course of his speech at the Canadian National exhibition directors' luncheon today and asserted that the only way in which the lifting of the British ban could now be messed up was by some Canadian blundering. He would reserve anything he course in the embargo battle, until it course in theembargo battle until it was lifted.

"It is only a matter of months now until the embargo is lifted without any strings or tails," he declared amid wild applause. He would not reply now to the unfair criticisms of men who know better regarding his part of the embargo fight.

"Those who want to hold the embargo are now grasping at straws and they would like to see a fight started among the Canadians."

Rural Postmen Want Contract System Ended

TORONTO, Sept. 8.—The Rural Mail Contractors' association of Canada wants the contract system abolished and a salary system of paying rural mail carrier substituted therefor. The association also wants indemnities paid to the mail carriers who, it is stated, carried out their contracts during the war and postwar period at a loss to themselves in consequence of the abnormally high cost of maintenance.

Resolutions calling for these reforms were passed at the association's annual meeting in this city yesterday. A resolution of censure of the post office department was passed in connection with a circular that was alleged to have been issued with a view to blocking the association's efforts to secure reforms.

Orange Grand Master Objects to Separate Schools in the West

SASKATOON, Sept. 8.—A claim that the federal government had exceeded its legal authority in making provision for separate schools in the western provinces was made by Hon. W. D. McPherson, minister in the Ontario cabinet and soveerign grand master of the Orange order in Canada, before a meeting of Saskatoon Orangemen tonight. He declared that the only provinces in which it was legally within the powers of the central authority to permit a dual school system were Ontario, Quebec, Nova Scotia and New Brunswick. The provinces later admitted to confederation were, according to the British North America act, he said, given full control of this phase of education.

Flashes By Wire

Evacuating Smyrna.

SMYRNA, Sept. 8.—The political and military authorities or Smyrna today began evacuating the town. Embarkations are under way from Vurla, Smyrna and Chesme.

Mysterious Fire at Shaunavon.

SHAUNAVON, Sask., Sept. 8.—Fire of mysterious origin which started at 11 o'clock tonight destroyed the garage and machine shop of John Bruce, causing a total loss of over $10,000. All the machinery, six automobiles, gas tanks and tractors were destroyed, besides the building.

LONDON, Sept. 8.—Official dispatches from Constantinople indicate the Turkish Nationalists have advanced to within about 25 miles of Smyrna and are rapidly advancing.

DUBLIN READY FOR OPENING OF PARLIAMENT

De Valera Followers Expected to Claim Existence of Dail Eireann

APPROACH TO LEINSTER HOUSE WELL GUARDED

Press Correspondents Plan Devious Routes for Dispatching Reports

DUBLIN, Sept. 8.—Many members of the new parliament arrived in Dublin today in readiness for the opening session tomorrow. The attendance is not expected to exceed 80. If any of the followers of Eamonn de Valera make their appearance it will probably be for the purpose of questioning the government regarding the exact status of the new parliament and to claim that the Dail Eireann still exists. A test case would be that of John Mahoney, who represented Fermanagh in the Dail, but cannot obtain a seat in the new parliament, the membership of which is confined to the 26 counties.

Members Liable to Arrest.

Among the prominent De Valerites seen in Dublin tonight were Count Plunkett, Lawrence Ginnell and Mary MacSwiney, sister of the late lord mayor of Cork. All three were returned at the last election and are entitled to sit in the parliament. But such of their colleagues are engaged in armed conflict against the government would be liable to arrests before they reach the parliament hall in Leinster house.

Approach to Leinster house is impossible for unauthorized persons.

Surprise Raid Impossible.

The building is so situated that no surprise raid on it is possible. Tickets of admission to the newspaper men are for one week only. After the formal election of a speaker and other officers tomorrow, the next issue is uncertain, whether it will be on Monday or on Tuesday.

The threatened strike of the postal workers, if it becomes effective, would delay reports of the sessions to the outside world. The correspondents, therefore are planning devious routes for their dispatches.

Stock Exchange Business Patchy, but Improving

LONDON, Sept. 8.—(By Canadian Press Cable.)—Although business on the stock exchange has been patchy during most of the week, prices on the whole have remained very regular and the market has maintained its renewed equanimity following last week's more or less successful handling of the reparations deadlock.

Industrial shares continue to attract notice, textile shares in particular showing some sharp advances in prices with textile machinery shares also moving forward sympathetictlly. Speculative buying is partly responsible for the recent cheerfulness in the textile market.

Signs of better export trade recently attracted comment from competent observers, notably as concerns Australia and New Zealand. This is due in a measure to the shipping of goods expressly ordered for the Christmas season.

Porbably with the holidays over and the prospects of the exchanges oscillating less violently, we shall see quite a revival of new debenture flotations.

Will Hear Action Designed to Unseat Moose Jaw Member

REGINA, Sept. 8.—The action to unseat R. M. Johnson, Progressive M. P. for Moose Jaw, will be heard next week at Moose Jaw. Since the decision of Mr. Justice Embury and Mr. Justice MacKenzie of the court of King's bench, that that court had no power to hear election appeals, it has been discovered that an amendment to the Judges act in Saskatchewan in 1916 gives them the necessary power and announcement to this effect was made today. The actual date of the hearing has not been given.

CANADIAN SHOPMEN TO SUSPEND ACTION

MONTREAL, Sept. 8.—Developments in the mooted strike of Canadian railway shopmen will be suspended until next Tuesday. The schedule committee which is considering the conciliation board award, which cut the men's pay until the United States situation is cleared, held two sessions today, but only decided to defer action for a few days. The executive carries a mandate from more than 95 per cent of the union membership to declare a strike.

ALBERT SOAPS LIMITED - MONTREAL

Mrs. Johnson's Idea of Prices

Mrs. Johnson of Prince Rupert says the improved Pacific Milk which they get now is much better than it was under our older method. She says that even though it is a bit higher in price, she much prefers to pay the difference, as the quality is so much richer.

If one stops to count the cost it is quite evident that 43 per cent of pure cream in each can of Pacific Milk does make it actually less expensive than it was, due, of course, to the increased quality.

'Seeded Draw' at Tennis Tourney Is Complete Success

PHILADELPHIA, Sept. 8.—The "seeded draw" came through with flying colors today in the opening play of the national lawn tennis singles championship tournament on the courts of the Germantown Cricket club. Of the recognized experts scattered through the upper and lower brackets with a view to the preventing of chance bringing them together to kill each other's prospects in early rounds, while players of less ability stepped through to later matches, only one went down to defeat. He was N. W. Niles of Boston, who fell before Willie E. Davis, a star of the California Tennis club of San Francisco.

Scores

William T. Tilden of Philadelphia defeated Alexander D. Thayer, also of Philadelphia, 6-0, 6-2, 6-2.

Gerald L. Patterson, Australia, defeated Charles C. Hubbell, Yonkers, N. Y., 6-0, 6-0, 6-2.

William M. Johnson, San Francisco, defeated Craig Biddle, Philadelphia, 6-3, 6-1, 6-4.

Pat O'Hara Wood, Australia, defeated Arthur Mathis, Philadelphia, 6-3, 6-4, 6-1.

J. O. Anderson, Australia, defeated Sydney Thayer, Philadelphia, 6-3, 3-6, 6-2, 6-4.

Zenzo Shimidzu, Japan, defeated Walter Westbrook, Detroit, 6-4, 7-5, 6-3.

S. Howard Voseli, Brooklyn, defeated Paul Cazy, Philadelphia, 6-1, 6-3, 6-4.

Manuel Alonzo, Spain, defeated Robert W. Gilmore, New York, 6-1, 6-1, 6-1.

OVER 20,000 GREEK PRISONERS

ANGORA, Sept. 8.—The statistics of the booty which has fallen into the hands of the Turks up to September 4 is given as 910 guns, 1200 automobile trucks; 200 automobiles, 5000 machine guns, 400 carloads of munitions, and 40,000 rifles. In addition, more than 20,000 Greeks have been made prisoner.

THE NORTH-WEST BISCUIT COMPANY LTD

Propose to Form New Professional League for West

MOOSE JAW, Sask., Sept. 8.—Plans are afoot for the formation of a new professional hockey league in Western Canada, according to a statement made tonight by Harry Mead, one of the directors of the Stadium, Limited, the new company which has taken over the Moose Jaw rink.

Mr. Mead, with John Whelan made application to the Western Canada hockey league for a Moose Jaw franchise in that organization. The application was slated for ratification at the annual meeting of the league, which was held in Calgary, but neither Mr. Mead nor Mr. Whelan had been advised today of the action taken.

Mr. Mead stated that he and Mr. Whelan have decided to turn their attention to the organization of a new professional hockey loop, with Winnipeg, Brandon, Moose Jaw and possibly other cities holding franchises.

Mr. Mead and Mr. Whelan expect to leave for Winnipeg and Brandon tomorrow morning to hold conferences with hockey impresarios in the two cities.

Government Circles More Optimistic on Railroad Situation

WASHINGTON, Sept. 8.—On the basis of personal reports to certain administration leaders, a more optimistic view of the railroad strike situation was apparent today in government circles than in the past week.

Several officials, who have been in close personal touch with strike developments, declared that settlement of the labor controversy on a number of roads was a "probable result of the series of conferences which they understood to be in progress in Chicago."

The extent to which the negotiations might go toward effecting a national settlement was not forecast in these circles, but the hope was expressed that a partial peace with "key" roads might serve, as was the case in the bituminous coal settlement.

SEIZED ON CHARGE OF CATTLE THEFT

SASKATOON, Sept. 8.—Coming to town to learn the facts about the imprisonment of his wife, who was recently given a two months' jail sentence, Joe Horelko, formerly a restaurant keeper in Melville, Sask., was seized by the police in Melville today on a charge of cattle stealing. The preliminary hearing was held today before Magistrate J. W. Matthew and Horelko was committed for trial at the Melville fall assizes. The information was sworn by W. L Arnold, owner of the cattle in question. Fifty-one head of cattle are alleged to have been stolen by accused. He was admitted to $2000 bail.

Leads India Irreconcilables

GANDHI

Intellectual leader of revolutionary India. "India for the Indians" is his motto. When recently his followers were released from prison they were garlanded and carried shoulder high about the streets of Delhi.

Nelson Dry Goods Co.

LADIES' WEAR SPECIALISTS

Serve Injunction on Strikers' Leader

CHICAGO, Sept. 8.—An informal meeting of the western railway executives with Daniel Willard, president of the Baltimore & Ohio; the return here from the east of B. M. Jewell, leader of the striking shopmen, and the failure of the roads to take any different action looking toward peace, marked the progress of the country-wide strike today.

As Mr. Jewell stepped from the train he was given official service of the temporary injunction issued against the shopmen by Federal Judge Wilkerson last Friday.

Mr. Jewell and the other leaders refused to comment on the situation in advance of the meeting Monday of the shopcrafts' policy committee of 90.

Six Meter Yachts Race at Oyster Bay for Championship

OYSTER BAY, N. Y., Sept. 8.—Eight six-meter yachts, four flying the Union Jack, and four the Stars and Stripes, will race on the Long Island sound course off here tomorrow in the first of a series of races for the possession of the British-American cup emblematic of the world's six-meter yacht championship. England won the trophy in the first international race last year, held in British waters.

Possession of title - championship will be decided on a team basis.

The resort hotel "just like home" usually is filled with badly spoiled children.

CLOGGED INTESTINES BREED POISONS LIKE A SWAMP BREEDS MOSQUITOES

All these poisons are absorbed straight into the blood, says Alice Landis Certified Nurse. Quickly lower the vitality and disease-resistance, rendering you easy prey to any ailment or disease.

Advises drinking alkaline medicinal water for quick results. Gives prescription for preparing it at home. How to flush the kidneys, gently stimulate the liver and thoroughly wash out the intestines.

Acids and poisons from the sour, fermenting mass with which the intestines become fouled are absorbed straight into the blood as surely as though injected by a hypodermic needle. Thousands of tiny intestinal glands which should be absorbing nourishment commence to throw virulent poisons into the blood stream. The liver and kidneys are unable to take care of all these rank bowel poisons, and therefore soon become clogged and deranged. With the nervous system and vitality depressed, the body deprived of sufficient nourishment, and the disease-resistance reduced far below the danger point, any ailment, from a common cold to influenza or pneumonia, is possible and even probable. Mental dulness, physical languor, coated tongue, bad breath, rheumatism, neuralgia, catarrh, dizziness, headache, backache, skin disorders, badder trouble and stomach complaints are only a few of the easily recognizable symptoms of constipation and the various organic derangements it causes. To correct such conditions you need not take strong cathartic pills to irritate the liver or force violent convulsive action of the intestinal walls, nor need you irritate the bowels with strong salts or grease them with oils. These processes are all very weakening and mean harmful reactions afterwards. Instead try washing out the intestines, flushing the kidneys and gently stimulating the liver with a mild and pleasant tasting, but astonishingly effective alkaline medicinal water such as you would drink at one of the world-famous hot alkaline mineral springs. There is no need of traveling to the springs, however, as you can get the same essential medicinal constituents (as ascertained by analysis) already compounded in the form of refined Alkia Saltrates, which any chemist can supply at slight cost.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Demands Additional Information Before Fixing Sheriff's Fee

Additional information was demanded by Mr. Justice W. A. Macdonald when application was made to fix the remuneration of James H. Doyle, sheriff of Nelson, in connection with the sale recently of assets of the Gibson Mining company, limited, says a Vancouver report.

Following protracted litigation between parties interested in the Kaslo mine, the company went into liquidation and a sale was ordered to satisfy creditors' claims. The mine sold for $76,000, and W. A. Canteon suggested that Sheriff Doyle's remuneration should be 5 per cent of that sum.

The matter was adjourned to September 14 to enable Sheriff Doyle, who was liquidator, to submit a complete statement.

On behalf of David K. May and Minnie M. May, application was advanced by B. O. Coughton to set aside the claim of a creditor against the company. The creditor was J. C. Roberts, who, before the registrar of the supreme court, proved for nearly $35,000. The claims of the Mays, other than $250 for Mrs. May, were disallowed by the registrar. Mr. Justice Macdonald refused to disturb that situation.

The mine was purchased by Mr. Roberts.

A writer says the Turk is efficient. Piffle. After years of constant effort he hasn't yet exterminated the Armenians.

LEGAL NOTICES

TENDERS

Will be received by the undersigned for the building of a frame school house at Longbeach, B. C. All tenders must be in by September 26th. For specifications, etc., apply to

D. H. FERGUSON, Secretary,
Longbeach, B. C., R. R. 1.

ESCAPING GAS CAUSES BLAZE

Baker Street House Threatened by Fire; Candle Is Cause of Flames

Fire broke out about 7:25 o'clock yesterday evening in the basement of the residence occupied by Dr. J. H. Bennett, situated at 821 Baker street. Prompt action of the fire brigade was responsible for preventing serious damage.

Dr. Bennett and family had only recently moved into the house and last evening one of the younger members of his family smelled escaping gas in the basement. Not knowing the whereabouts of the electric light the youngster lit a candle and went in search of the leak. None the wiser after an examination the light was extinguished and the cellar left. A few minutes later smoke was noticed and upon looking into the cellar it was found to be ablaze.

Quick action by the fire brigade quelled the flames. Chemical extinguishers were used.

It is surmised that the flame from the candle ignited the small gas leak on the register on the basement wall. Heating the metal the solder was no doubt melted, allowing the flame to grow and spread to the building. Outside of a bad scorching no damage was done.

ARREST DOPE RING LEADER

WINNIPEG, Sept. 8.—Alleged by the police to be the leader of the biggest dope rings in Canada, Charles Lebansky, a local man, is under arrest here. He is said to have been in possession of a large quantity of cocaine and morphine when arrested. Selling narcotic illegity through an organization of agents, he is alleged to have had a large clientele in Winnepeg.

What Do You Think?

The Daily News invites letters from readers upon matters of public interest. A non-de-plume may, if desired, be employed, but every letter must be signed by the writer as a guarantee of good faith, though not necessarily for publication. Letters should be brief and must avoid personalities. The Daily News does not hold itself, in any way, responsible for the views of correspondents. Letters which contain advertising matter or propaganda which is classed as advertising will not be accepted under any circumstances.

Kokanee Peak Top of the World Gives Magnificent View

Kaslo, Sept. 8.

To the Editor of The Daily News:

Sir—Having noticed the interest taken by your paper in the trips made to Kokanee glacier by the Nelson Kokanee Mountaineering club, I thought possibly you would care to print an account of the trip made by a party of young people from Kaslo.

The trip was made from Kaslo by automobile as far as the Index mine, a distance of 15 miles. From there the boys of the party shouldered packs averaging 60 pounds and walked to the "Joker" mill site five miles further on. The advance party had the camp in shape by the time the fair members arrived and after a vigorous attack on the provisions an enjoyable evening was spent around the camp fire. Finally the party retired to secure a good night's rest; at least, the intentions were such, for contrary to expectations, the girls, who occupied a small cabin, found that they had several large bush rats for room mates. After an exciting rat hunt peace was restored, but when morning dawned they vowed that they had not slept a wink.

The start up the canyon was made at 6:45 a. m. The trail was in good condition, with the exception of a few windfalls, and after a two-hour leisurely climb the party arrived at Mansfield camp on the margin of two beautiful green lakes, above and to one side of which hung the edge of the glacier. cameras were brought out here and incidentally were kept in use from then on. Resuming the climb the party soon came out upon a rocky eminence, a little north from the head of Coffee creek. The view from this point was exceptionally fine. The Saw Tooth ridge to the east stood out, its every detail showing clearly against the sky. The head of Coffee creek was also a beauty spot of green verdure and ahead lay the main ice field of the glacier.

Wind Way Between Crevasses.

After deciding upon the course to be taken the party set out upon the ice, wending its way between the crevasses, the vast depth of which could not be ascertained. Precautions against accident were taken by roping together the first two members and the remainder followed in their footsteps. Thus we crossed the lower field, which was practically level going, and began the ascent to the summit. tA times it was necessary to pass over bridges of ice, two or three feet in width, the crevasses on each side being of enormous depth. As we neared the upper edge above which stood Kokanee peak the wind increased and many wished for warmer clothes. Lunch was eaten in a sheltered nook among the boulders below the peak and then the last few hundred feet were made with a rush.

From the summit the view was magnificent. It was indeed the top of the world and by means of the clinometer we ascertained out elevation to be greater than that of almost every mountain in sight, in particular Mount Loki, on the east side of Kootenay lake opposite Kaslo. We found the marks of the Nelson party who had been there a few weeks before and a small-necked bottle into which they had stuffed paper records. We would like to suggest that a larger bottle of the sealer type be used on the next trip in order that other people may satisfy their curiosity as to its contents.

Trip From Joker Easy.

Appearances from the summit indicated that the trip from the Joker, while slightly longer, is much easier than that from the Molly Gibson mine, and has the advantage of leading over the glacier instead of climbing directly to the summit, as is done from the other side.

When each of the three peaks had been visited the descent began and the party reached camp in two hours and forty minutes.

Camping at the mill site that night, after a tent had been pitched for the lady members to insure them of a night's rest free from the visitations of rats, the next day the party walked down to Zwicky and took the train to Kaslo.

Every member of the party reached the summit and great credit is due to the girls for their climbing ability. Everyone was well satisfied with the trip and wish to express their appreciation to the members of the Nelson club for their untiring efforts in making this beauty spot a park.

Another year we would like to cooperate with them and arrange to meet on the summit. Possibly the Slocan party would like to join us in this arrangement also.

Those making the trip were Misses I. Dedolph, H. Burkitt and A. Cockle, Messrs. D. McLellan, P. M. Elder, R. Strickland, W. Norman, B. F. Palmer, E. E. Zwicky and W. L. Cockle.

Yours, etc.
KASLO CLIMBER.

Chief Long Demolishes Troublesome Bees' Nest

A large hornets' nest was last evening destroyed by Chief of Police Thomas Long. For the past few weeks people walking over the crossing at the corner of Silica and Stanley streets have been stung by bees. Where the troublemakers dwelt was for some time a question, until they were discovered yesterday. Accordingly, the crossing was soaked with coal oil and the bees were burned out. Many people last night mistook Chief Long's fire for that for which the fire bell rang last evening.

Paris is showing embroidered dresses with the long waist line, flat bodice, bateau neck, fancy belt and the skirt draped on one side, and coat dresses are featured.

CLYDESDALES OF PEDIGREE FOR KOOTENAY

Old Country Breeders Take Heart From Demand; Crawford Bay Imports

GLASGOW, Aug. 11.—(By Mail)—Three particularly good Clydesdale stallions are being shipped this week to British Columbia. It gives heart to the home breeder to find a revival in the export trade. In addition to these horses leaving the country, fully a dozen more—males and females—will shortly be sent to New Zealand to join the stud of James Patrick, Outram, the gentleman who owned the famous Baron Bold.

The horses shipped to British Columbia are to the order of the Archibald McAlister, Crawford Bay, Kootenay lake, a son of the late Mr. James McAlister, Meikle Kilmery, Rothesay. One of them is Bute Crown (20521), a three-year-old, purchased from Mrs. McAlister, Meikle Kilmery. This is a big, weighty horse with a grand top, and having first rate limbs with flat, flinty bone, good feather, and the best of wide wearing feet. Bute Crown is a son of the well-known big horse, Gold Albert (18380), a get of the champion Signet (16816), out of Miss Mac (36506) by the famous breeding stallion, Montrave Mac (9358), for which Mr. William Dunlop, Denure Mains, Ayr, gave £1000, when a yearling.

Montrave Mac lived until he was in his 27th year. Gold Albert has been a successful show horse in his day, being second when a yearling at Dumfries in 1914, and second at Edinburgh, and first at Dalbeattie a year later. As a premium horse he has been exceedingly popular. He held the Turiff premium in 1916, that of Bute in 1917, the Machars of Wigtown in 1918, Fyvie and Strathlogie in 1919, and again in 1922; Southwest Durham in 1920, and Caithness in 1921.

Noted Sire

Bute Crown was out of Rosegay of Meikle Kilmery (13427), by the noted draught stallion Baron's Crown (13457), a son of the world famous Baron's Pride (9122), and a well-known prize winner at the Highland and Agricultural society show and other exhibitions in Scotland. He held premiums in the Stranraer, Bute and Strathmore districts. His granddam was got by the premium horse MacVinnie (9318), a son of the ever-famous champion horse Macgregor (1487). It will thus be seen that Bute Crown is not only a horse of high individual merit, but that his breeding leaves nothing to be desired.

Well-Known Prize Winner

Mr. McAlister has got from Mr. A. M. Montgomery of Netherhall, Castle Douglas, the noted prize stallion, Finmure Lens (20010) and the two-year-old colt Murie Hall (20681). The former was bred by Mr. George McHaig, Laigh Grange, Maybole, Ayrshire. He is four years old, and is by the celebrated Denmure Footprint (15203) out of Home Rule (53482) by the great breeding stallion, Archenflower (12007). The grand dam of Lens is Cleodora (13196), by the famous Baron of Bucklyvie, and in the pedigree there are several more dams of the best Clydesdale blood. Demure Lens has been a well-known prize winner. As a yearling he was third at Kilmarnock, Glasgow, and the Highland and Agricultural society's show at Edinburgh, and a year later he was first and champion at both Hamilton and Lanark. This year he was the Nairn premium horse. The sire of Lens is undoubtedly the greatest Clydesdale horse as a breeder which ever lived. His dam is a grand stamp as a mare. Her sire, Archenflower, was also the sire of the dam of Dunure Footprint. He is one of the best types of draught horses living, and has won many prizes in the best of company. Archenflower was got by the famous Montrose Mac, so that the pedigree of Mr. McAlister's new purchase is one containing the elements which make for high individual merit and the best of draught character.

The second animal bought by Mr. McAlister from Mr. Montgomery is the handsome fashionably-bred two-year-old Music Hall (20681). Bred by Mr. Robert Cochran, Portencaillie, he is b ythe celebrated Dunure Footprint (1503) out of the fine mare, Portencaillie Elsie (49918) by the grandly-bred stallion Dunure Stephen (17875), a Brydon Shield champion, and the sire of many prize winners. The sire of Dunure Stephen, as in the case of Dunure Footprint, was the great horse, Baron of Bucklyvie (11261), and his mother was one of the biggest and best mares of the breed—Minniewawa, a daughter of the invincible Hiawatha which won the Cawdor cup on four successive occasions. The grand-dam of Music Hall was Fern of Portencaillie (21137) by Baronson (1098), the sire of the Cawdor cup and Brydon shield champion Ozama. Nora MacGregor (14175), the great grand-dam of Music Hall, was by the champion Macgregor (1487), and his next dam, Lady Bay (10501), was a great breeding mare by the noted Merryton Prince of Wales (673).

There are three horses which should do much to maintain the reputation of the famous Scottish breed of draught horses in British Columbia. All will wish them the best of luck.

TO HOLD LARGE GAME BANQUET

Rod and Gun Club Will Bring Sporting Men Together; Discuss Game Laws

Shooting out of season, the competition for the largest fish caught this year, the fixing of fish laws, and numerous other subjects were discussed at a meeting of the Nelson and District Rod & Gun club held in the city hall last night.

Some time in the latter part of October all members and friends of the club, both from the city and outside, will hold a luncheon. If all plans are carried out, venison, duck and salmon will be on the menu and the luncheon will be for the purpose of putting the rod and gun club before the people and to interest them in just what way the organization is protecting the game of the district.

A special committee was named to arrange for the banquet.

James Robinson, the fish inspector, stated at the meeting that the laws in regard to red fish were being strictly adhered to this year. Every creek in the district had been visited and in no known cases have the red fish been tampered with.

In reference to this year's fishing the inspector stated that more fish were being caught at the Slocan Pool, Kaslo, Creston, Procter and in the Lardeau districts than were hooked last year. Char are quite plentiful all over the lakes and are at points playing havoc with other fish. In the Lardeau, especially, char are numerous, as well as at Midge creek, on the main lake.

A discussion of some length was indulged in by the members in regard to the closing of the fishing season a month earlier from that part of the river from Grohman creek to Taghum bridge, or possibly South Slocan. These waters, stated club members, are possibly the best spawning grounds on the Kootenay river, and if fishermen kept off these waters from the beginning of September it would help retain a larger number of fish in the river. This matter will be brought up again at a future meeting of the club.

Howard Bush, on behalf of the gun club, asked some assistance from the club for the shoot which will be staged in Nelson on the second day of the fair. Teams are expected from the Slocan, Kootenay lake points, Creston and Cranbrook. All assistance possible will be given by the rod and gun club in this venture.

George Steele, speaking of the pheasants which were distributed throughout the district, stated that they were doing nicely. The birds were distributed as follows:

Twelve birds to Mrs. James Johnstone on the north shore, 10 birds to Mr. Airey at McDonald's Landing, 10 birds to Riondel, and 10 birds to Crawford bay. Four are at present in the city, and will be distributed soon. Reports regarding the Hungarian partridges which were distributed some time ago, state that these birds are now thriving quite well at all points of distribution. Birds distributed at Willow Point had, however, turned out to be quail.

Piles which were to be driven at Irving creek will be put in place next week and W. S. King reported that the cabin at this point was in excellent shape. Visitors who use the cabin left it in good shape.

TRAIL PASTOR RECEIVES CALL WEST VANCOUVER

VANCOUVER, Sept. 8.—The call of the United church at West Vancouver to Rev. A. M. O'Donnell, Presbyterian minister at Trail, was approved as a regular gospel call at the afternoon session of the Westminster presbytery in St. John's church. The clerk was instructed to forward the call to the Kootenay presbytery and to make preparations for the introduction of the new minister at West Vancouver whenever the congregation is ready.

DISCOVER BODY OF REVELSTOKE VICTIM

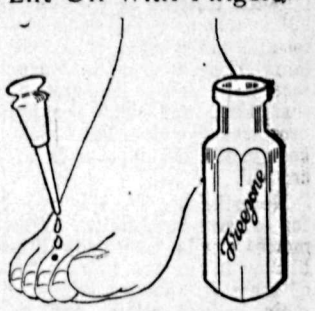
A dispatch from Revelstoke says that the body of Mrs. Thomas Steed, one of the victims of the auto accident at Summit Lake on Saturday, when a car fell over the embankment, was found yesterday by a diver at a depth of about 50 feet at the rear of the overturned car.

The diver who brought the body to the surface says that while he was below a slide occurred which may make it difficult for him to find the body of Miss Lister, matron of the hospital, who also was drowned. Mrs. Steed was a sister-in-law of Mrs. George Steed of Nelson.

The girl who likes to sit on her dad's knee and tell him about things never accepts an invitation to ride with a stranger.

CORNS

Lift Off with Fingers



Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Making Movies More Lifelike

In the early days of the movies a man in a Montreal "nickelodeon" became so excited on seeing the screen heroine fall into the clutches of the screen villain that he pulled out a pistol and blazed away at the villain. There was an illusion of reality in motion pictures at that time, and with the improvements which have since been made the illusion is increased.

Nevertheless, there is room for other betterments. The movies can be made more lifelike by taking the flatness out of them, by showing things in their natural colors, and by making the characters talk. Opinions will differ as to the relative importance of the three. It is likely that the movie producer would value most highly the first, and it is interesting to learn that a way has at last been found by which the desired effect can be produced.

A device has been invented and was demonstrated before scientific men at Chicago through which the impression of depth is given to the pictures and the figures made to stand out as those in still photographs do when viewed through a stereoscope.

Several processes through which movies are synchronized with phonographs and the characters thus made to talk have been invented, but they have not proved very satisfactory. Probably a large proportion of the movie enthusiasts would just as soon have the drama of the screen remain silent. For one thing, if the persons of the drama talked, it would necessarily entail the doing away with the music, which is an enjoyable feature of the movies as now operated.

But there are not likely to be two opinions concerning color. It is desirable that the natural hues of objects shall be seen in the pictures.

Dressed in Diamonds

Rio de Janeiro, travelers say, is dressed in diamonds. Some persons of importance cover themselves with stones of the first water, and others follow the example. Indeed, fashion, having placed the stones in rings, brooches, bracelets, necklaces and earrings, and on shoes, dresses, coats and hats, is hard pressed to find new places for them.

The only service of the diamond as an ornament is to set apart, to advertise the wealth of the owner, or, when used judiciously, to attract attention to or detract it from some characteristic of face or figure. Its rarity is its charm. In excess the diamond suggests vulgarity and loses both its intrinsic value and its distinguishing property.

Rio de Janeiro gets its diamonds from the state of Minas Geraes, where they are found among the pebbles on stream beds, consequently they are not so expensive there as in Canada.

Consolidated Rural Schools

The combination of good roads and motor transportation is beginning to give material aid to the advancement of education. A recent survey in the United States shows that the pupils of more than 18,000 schools in rural districts are now conveyed by motor bus from their homes to school and back on every working day throughout the scholastic year.

This triumph of transportation has made possible the consolidated rural school. The consolidated school combines several school districts into one and means a larger and better equipped school house. In the one-room school the same teacher teaches all subjects to all grades, but in the consolidated school each teacher gives instruction in only one or two grades. When several districts are malgamated, it obviously means fewer and more highly qualified teachers and better teaching.

Efficient Housekeeping

BY Laura A. Kirkman

PICKLES FOR THE WINTER TABLE.

Apple Chutney—Put into a bowl one pound of button onions, three cups of water and one cup of salt; cover and let stand for two days, changing the salt-and-water bath on the second morning. In another bowl soak for two days the following ingredients: One pound of green sour apples pared, cored and sliced, one pound of seeded raisins, one clove of garlic, two ounces of ginger root, two Chile peppers (or any hot peppers) which have been steamed and had their seeds removed, one tablespoon of crushed celery seed and one quart of cider vinegar. At the end of two days combine the brined, drained onions with the other mixture, put all through the food chopper at once, turn into your preserving kettle with one pound of brown sugar, and let simmer on a mild fire until the apples are tender. Then turn the mixture into hot, sterilized glass jars, partially seal, put the jars into your wash-boiler canner, in boiling water to within one-half inch of the jar tops, "process" for 15 minutes (to seal airtight), then remove jars, completely seal, cool and store.

Mushroom Ketchup—(Nice to use as a flavoring for soups, stews and sauces.) Run 20 pounds of mushrooms through the food chopper and mix them with one pound of salt; let them stand 12 hours, covered, then dar.nn. Keep the liquor drained from them, and add to each quart of it: One ounce bruised or ground ginger, one-half nutmet ground, one teaspoon of grated horseradish, one-half ounce of ground cloves, one-half ounce of all spice, one teaspoon of whole pepper, one sprig of mace chopped, two chopped onions, and a tiny bit of garlic; boil 15 minutes more, turn into hot, sterile catsup bottles, cork, and dip the neck of the bottle into melted paraffine.

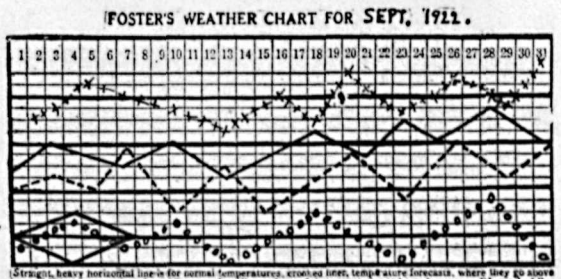
Sweet Pepper Chow-Chow—Put through the food chopper three pecks of sweet peppers stemmed and cleaned of their seeds, and one-half peck of peeled onions. Put these chopped vegetables into the preserving kettle with these ingredients: One gallon of vinegar, five tablespoons of salt, one cup of grated horseradish, four ounces mustard seed, three teaspoons of ground cinnamon, three cups granuluated sugar, two ounces crushed celery seed, and one teaspoon each of ground cloves, all spice and ginger. Let simmer for three hours, then turn into hot, sterilized glass jars, partially seal, and process in your wash boiler for 15 minutes; completely seal, cool and store. Th's recipe fills about 14 pint size jars.

Rummage Pickle—Put the following vegetables through your food chooper: Two quarts of green tomatoes stemmed, one quart of ripe tomatoes also washed and stemmed, two generous bunches of celery, four large onions pared, two each of sweet red and green peppers, stemmed and seeded and one quart of small green cucumbers. Place this chopped mixture in a large bowl, sprinkle with five tablespoons of salt, cover and let stand over night. In the morning drain well and add to the mixture one quart of vinegar, one pound of brown sugar, one small hot red pepper chopped and one tablespoon each of dry mustard and ground cinnamon. Let stand five hours covered, then pack it into hot, sterilized jars, partially seal. process for 15 minutes, completely seal and store.

All inquiries addressed to Miss Kirkman in care of the "Efficient Housekeeping" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question. Be sure to use YOUR full name, street number, and the name of your city and province.—The Editor.

Foster's Weekly Weather Bulletin

FOSTER'S WEATHER CHART FOR SEPT. 1922.



Straight, heavy horizontal line is for normal temperatures, crooked lines, temperature forecasts, where they go above normal line means warmer, below means cooler, diamonds are for severe storms and rain increase; solid, crooked line for all north of latitude 38 between meridian 90 and Rockies crest; broken line for south of 36, between meridian 90 and Rockies crest, also Louisiana and Mississippi; X line, east of meridian 90, north of 36; O ... line, north of 38 and west of Rockies crest.

WASHINGTON, Sept. 9.—No great change next 30 days, in crop weather for any part of the world. No severe storms are expected during balance of September; material crop weather changes cannot be expected when no severe storms are in sight. About the same kind of weather for next 30 days may be expected as occurred the past 30. In at least one-half of North America the kind of crops to put in for next year is of greater than usual importance, and the success or failure of crops in other countries has much to do in determining what crops should be cultivated in North America.

Condensed Forecasts.

This bulletin is for section 7 (see my sectional map), and the condensed forecasts are in the paragraph beginning with the numeral 7. The average temperatures of the warm waves and cool waves are given separately, and they make the total average above or below normal; the latter word means the average for 40 years.

Section 1—Highest temperatures September 18 and 23; average about normal; lowest 21 and 25; average above; total warmer than usual; no severe storms; less rain than the average of past three months.

6—Highest temperatures 22 and 28; average above; lowest 25 and 30; average above; total average warmer than usual; moisture will continue near average of past two months; no severe storms; no hurricanes.

2—Highest temperatures 20 and 25; average about normal; lowest 23 and 27; average above; total average warmer than usual; moisture less than average of season; no severe storms.

7—Highest temperatures 16 and 21; average near normal; lowest 19 and 23; average above; total warmer than usual; a little more moisture than the average of the past month; no severe storms.

3—Lowest temperatures 15 and 25; average about normal; lowest, 22 and 30; average about normal; total about normal; moisture a little better than for past month; no severe storms.

8—Highest temperatures 19 and 24; average about nuormal; lowest, 22 and 27; average about normal; total near normal; a little better moisture than for last 30 days; no severe storms.

4—Lowest temperatures 18 and 23; average normal; highest 20 and 26; average above; total warmer than usual; no severe storms; no hurricanes; moisture near average of past two months.

My section map locates the eight sections mentioned above. Free to subscribers of this paper. Send stamps to Foster's Weather Bureau, Washington, D. C.

Government agents officially report that Europe must buy from other countries 582,000,000 bushels of wheat, not including Russia; that Europe's wheat crop is 156,800,000 bushels short of last year's crop; that France is short 48,000,000, Italy 53,000 000, Germany 22,000,000, and that the smaller countries are short in proportion. This does not include rye, which is usually an important crop in that country.

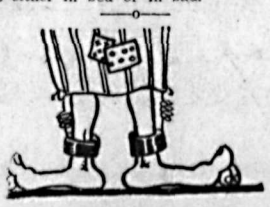
The Lighter Side

Happiness isn't so much a state of mind as a stomach condition.

—o—

After 11 p. m. the average husband is either in bed or in bad.

—o—



If the nightshirt is returning we trust it will have some attachment to keep it from rolling itself up about one's neck.

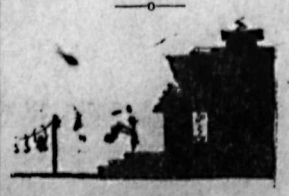
—o—

Mexico should take kindly to the Ford. She is accustomed to oil troubles and internal combusion.

—o—

After all, the division of the United States into groups is merely a further development of "splendid isolation."

—o—



At 20 she says she wouldn't marry for the world, but at 30 she marries for a small portion of it on a good residence street.

—o—

We shouldn't be too harsh. Adam might have lied to protect Eve if there had been any chance to get away with it.

—o—

When one neighbor plays a saxophone and another a phonograph, one reflects sadly that one might be happy with ether.

—o—

The style-makers say the short skirt isn't worn so much now, and this view can be sustained by any casual observer.

—o—

A wife doubtless has mental reservations when she has finished a day's hard work and expresses sympathy for her poor tired husband.

Ten Years Ago

(The Daily News, September 9, 1912)

Norbert Choquette, father of the Choquette brothers of this city, who has spent some months as their guest, left yesterday morning for his home in Quebec.

• • •

H. Geigerich, the Kaslo merchant, is a city visitor.

• • •

William Holmes will leave for Silverton today.

• • •

C. F. McHardy will leave shortly by horseback for a trip to Vancouver.

Every once in a while you see something original in a comic weekly that hasn't been printed in the newspapers weeks before.

The old-fashioned mother who worried about turning the baby's liver over now has a daughter who worries about the kids turning the flivver over.

Styles

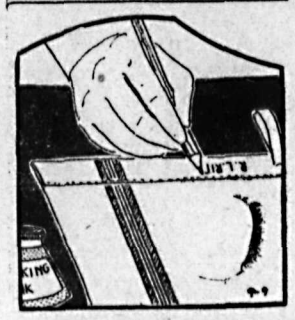
BY LENORE

There are delightful new shades of brown being featured in the early autumn things, and interesting new fabrics. After a season of so much black, these warm rich shades, cinnamon, rust and the reddish browns that appear in sumac in late October, are particularly pleasing.

As for the materials, there is a beautiful soft faille called Tangara in which the colors are exceptionally deep and rich because of the rib. Renee crepe is favored a lot, and many of the designers are using satin, which lends itself so well to the present demand for draped effects.

Speaking of drapes, it should be observed that the most pleasing and successful types are those where length of line is emphasized, as in the dress illustrated. This model, which is developed in brown satin, has dark green georgette for the lower part of the sleeves, and is embroidered with bronze beads.

The Housewife's Idea Box



To Prevent Marking Ink From Spreading.

When marking linens it is very difficult to prevent the ink from spreading. If you mark the name or initials in with pencil first, and then go over it with the ink, it will not spread.

THE HOUSEWIFE.

REGINA, Sept. 8.—Due to showers during the past three or four days, slight delays in harvesting operations at some points in the province have been reported to the provincial department of agriculture.

At Lloydminster, says the report, grain cutting is proceeding between showers and is now 80 per cent completed. At Weyburn, in the south, cutting is completed and the average yield of wheat is expected to be 30 bushels to the acre. With clear weather cutting will be completed in the Regina district next week, while threshing is expected to be general in other parts of the province.

Miss Mary Anderson, director of the women's bureau, United States department of labor, has more than 8,000,000 employees under her charge.

WEDDING RINGS

We have had several enquiries for wedding rings of 22 kt. gold, and are now making a specialty of making these up to order, in plain or engraved style.

Our wedding rings—in every modern style of natural, white or green gold, are not only of the finest quality and workmanship, but they are incomparable as to value.

We gladly send full particulars on request.

Snowy white without boiling

THAT dull, grey, streaky look that you always had to boil out of your clothes is never there when you use Rinso. It soaks the dirt, softens it, loosens it so thoroughly that it all runs away in the rinsing, leaving the clothes sweet, snowy-white and fresh as new.

It's because Rinso is the new, modern scientific washing preparation that works in an entirely new way. It washes by soaking. It is altogether different from ordinary soaps and washing powders. So, it should be used differently. *Do not pour Rinso itself into the tub.* Make your Rinso liquid first, as per directions.

IF YOU USE A WASHING MACHINE

Soak your clothes in the Rinso suds as usual—for one hour, two hours, overnight, or whatever time is convenient. Then add more Rinso solution and work the machine. Rinse and dry—you'll have a clean, sweet, snow-white wash.

SOCIAL CLUB ENJOYS DANCE

Opening of New School at Perry's Siding Scene of Great Frivolity

PERRYS SIDING, Sept. 6.—The Perrys Social club gave a very successful dance in the new school house to celebrate its completion on Friday, September 1. This building, which has been a long felt want, is a great asset to the district and it is without exception the finest building in the valley and does great credit to the designers and builders. In order to expedite the completion the residents turned out in force and have been working feverishly for the last two weeks. It is only fair to say that they gave their services free. There is also great praise due to the chairman of the board for the time, work and interest he has given in supervising the building.

Owing to the unavoidable absence of the honorary president of the club, W. Hunter, Esq., M. P. P., the ceremony of opening was somewhat curtailed this duty devolving on the president, F. J. Powell.

The singing of the "Maple Leaf" by all standing started the proceedings, after which the dancing became fast and furious. During the evening the secretary addressed a few remarks to the gathering and a splendid supper was served by the club committee, which was much enjoyed. Ice cream and ginger beer were also in evidence.

The club orchestra performed prodigies in the matter of supplying the music, and D. F. Peters of Appledale kindly relieved the orchestra on occasion, accompanied by Mrs. Gray. An enjoyable interval occurred when Mrs. Kirby Grenfell, a visitor at Appledale, rendered two songs. The guests numbered over 150, cars coming from Nelson, Slocan, Vallican and Appledale.

The gathering broke up at about 3 a. m., everybody declaring they had spent a most enjoyable time and congratulating Perry Siding on their possession of such a splendid school house.

Weddings

DAVIDGE-NATHORST.

CRESTON, Sept. 7.—Christ church was the scene of a second wedding within the past three weeks, the latest couple to be joined in holy wedlock being Mr. Davidge and Miss Nathorst, both of Wynndel, who were united in marriage on Tuesday afternoon by Rev. H. Varley. The happy couple left on the afternoon train on a honeymoon to points on Kootenay lake and on their return will reside at Wynndel.

NAKUSP GIRLS ENJOY INSTRUCTIVE TALKS

NAKUSP, Sept. 6.—Mrs. Crockett, Glenbank, entertained the members of the C. G. I. T. Thursday. During the afternoon she gave the third of her series of talks on art. These talks have been most interesting and instructive. After refreshments the evening was spent in contests and games.

Friday evening Miss Leota Buhl entertained the members of the C. G. I. T. at her home in honor of Miss Winnifred Keys, president of the class, who left for Victoria on Saturday to attend normal school.

Busily Building at Slocan City

SLOCAN CITY, Sept. 8.—E. J. Grant has just about completed an addition to the residence of R. L. Reynolds on Arthur street. There is also an addition being built in the form of ante-rooms to the Orange hall. This work has been under the supervision of D. S. McVannel and will be completed in a day or so. The Orange hall has been used for a high school for the last two years and it is hoped that the work on the building will be completed by the time Mr. Davies, the high school teacher, reaches here, he having been delayed owing to a mishap to the ship on which he was returning after spending the summer holidays at his home in Wales. Word has been received from Mr. Davies by Mr. Gage, secretary of the school board, and it is expected he will arrive in a few days.

Obituary

LARSON.

CRANBROOK, Sept. 8.—The death occurred on Sunday last, September 3 of Mrs. Lily May Larson of Yahk, wife of Cecil Leroy Larson of that place. The late Mrs. Larson was in her 26th year, being born at Waneta, B. C., but spent the school years of her life at Nelson, where her parents, Mr. and Mrs. A. Manson, still reside. As a girl she attended public and high school there and later went to normal school at the coast, coming back to teach school in the Kotenays, having one term at Glenlily, near Yahk. In the summer of 1921 she was married at Spokane to Mr. Larson, and they since resided at Yahk. On August 22 she was brought in to the hospital here, and shortly afterward a baby girl was born, who still survives.

Until the end of last week it seemed that Mrs. Larson was making a good recovery, but a relapse set in and she passed away on Sunday from heart failure.

The funeral was held on Wednesday morning from the Cranbrook Baptist church, Rev. W. T. Tapscott officiating. The pallbearers were John Martin, Corporal Wilson, R. C. M. P.; H. Gray, C. R. Ward of this city and Messrs. W. H. Laird and G. Higginson of Yahk. In addition to the bereaved parents from Nelson two brothers, Robert and Alfred Manson, were also here to attend the funeral. A sister, Mrs. C. A. Anderson, resides at New Dayton, Alta., but was unable to attend the funeral.

Flowers were in evidence at the funeral from C. L. Larson, pillow; mother, father, brothers and sister, wreath; Corp. and Mrs. Dennison Wilson, spray; Yahk Ladies' guild, wreath; J. Grant, Yahk, wreath; Mrs. Larson, Yahk, wreath; Mr. and Mrs. Rattray, Yahk, heart; Kootenay garage, wreath; Yahk friends, wreath; Mrs. A. Cameron and Miss W. Johnson, Moyie, spray; Nurse Harrison, wreath; Mr. and Mrs. C. R. Ward, spray; Mr. and Mrs. C. A. Anderson, New Dayton, wreath; Mr. Johnson and family, Kitchener, spray; Miss Esther Erickson, Kitchener, spray; G. Swannell, Nelson, spray; Mr. and Mrs. Cox, Cranbrook, spray.

CRANBROOK NOTES

CRANBROOK, Sept. 8.—Mrs. L. R. Williams and little daughter, Ruth, went out on Saturday's train for Summerland, where they will spend the next two months visiting. They were accompanied as far as Castlegar by Mr. Williams, who spent the holiday with Mr. and Mrs. George Ross, returning to Cranbrook on Tuesday.

Mr. and Mrs. Hunter have moved from Cranbrook to Lumberton, going down by car on Thursday.

The members of the Rotary club went down to Spokane on Wednesday, where, with the clubs from Nelson and Fernie, they are being entertained by the Spokane club. They expect to be gone until the end of the week, some of them going by car and some by train.

W. D. Hill is spending a short time at Vancouver.

Miss Nina Finniss is home again after spending her holiday visiting relatives at the coast and Penticton.

Mrs. L. Lundy, who attended the Women's institute convention as a delegate, which was held in Nelson, came home the beginning of the week. She was accompanied by Mrs. Cook, who will visit her for a few days.

The city has received a check from Victoria for the sum of $1400, which is to be spent on the roads within the city limits. The money came from the motor licenses.

Dr. and Mrs. King and Dr. King's secretary, Mr. Heidman, spent the week-end here, going out to Vancouver on Wednesday.

Mr. and Mrs. J. Palmer, Mr. and Mrs. D. Gilroy, Miss Eastman and Miss Stanton were visitors over the holiday at the Sinclair Hot Springs.

Edward Hill is back again after spending a few days with his family in Nelson.

Mrs. W. R. Grubbe was hostess on Tuesday evening at a house dance, when she entertained members of the golf club.

One hundred and ten pupils have enrolled in the high school this year, the largest number Cranbrok has had. There are two first-year classes, with a combined enrolment of over 60.

SOUTH SLOCAN NOTES

SOUTH SLOCAN, Sept. 9.—Harold Frances of Nelson spent Labor day here, the guest of O. W. Humphry.

The public school opened on Tuesday with Miss M. Binnie as teacher and an enrolment of 13 children. The school has had many improvements made during the vacation, a well of spring water having been struck on the school grounds. The water has been piped and laid on to the building.

Miss H. Nelson of Nelson was the guest of Mrs. E. Watts for the week-end and left on Tuesday morning to take up her duties as school teacher at Glade.

Mrs. R. Binnie and Miss M. Binnie of Trail have leased the vicarage, which has had both the interior and exterior painted and decorated.

MIRROR LAKE NOTES

MIRROR LAKE, Sept. 6.—Mrs. Watson has sold her ranch here to P. G. Stagg of Procter, who expects to bring his family here in a few days to settle on the place.

Miss Annie Norman left Saturday for Rossland, where she has been appointed as teacher of the junior fourth class in the public school.

Fred Walton of Vancouver, who has been visiting at the home of Mrs. Norman, left on Saturday for Los Angeles, Cal., where he intends to continue his studies at the Bible Institute of that place.

Mrs. Bowker Sr. of London, Ont., is visiting at the home of her son, Gordon Bowker.

Miss Lillian Davis and her sister, Elva, of Bainbridge Island, Wash., are spending a few days with Emily Milton.

Miss Elsie Taylorson of Kaslo is the guest of Miss Emily Milton for a few days.

William Norman joined a party of Kaslo young people on Saturday for a mountain climb to Kokanee glacier by way of Kaslo and Meadow Creek.

Social Happenings In Nelson

During the absence of Mrs. M. J. Vigneux this column is being conducted by Miss Helen Gigot. All news of a social nature, including receptions, private entertainments, personal items, marriages, etc., will appear in this column. Telephone Miss Gigot.

Miss Enid Etter and Miss Eldridge were among those present at the tea cup shower given in honor of Miss Catherine Wallach at the home of Mrs. F. R. McCharles, Vernon street, on Thursday night.

• • •

Lorne Peck, son of Col. Cy Peck, M. P., is a city visitor, having motored from Abbotsford. He will remain a few days.

• • •

J. Ashcroft of Calgary, formerly a resident of this city, is spending a few days here renewing old acquaintances.

• • •

Mr. and Mrs. W. Powen leave this morning for their home in Fruitvale. Mrs. Powen arrived a few days ago from England.

• • •

Mrs. G. M. Mitchell, Miss D. Mitchell and Miss E. Squires of Midway are visitors in town for a few days.

• • •

W. J. Farmer of Castlegar spent yesterday in the city.

• • •

Maj. and Mrs. T. Hincks of Howser left on this afternoon's boat for their home. Mrs. Hincks arrived from England a few days ago and was met here by Major Hincks. Later they intend to go to Victoria, where they will spend the winter.

• • •

Mrs. E. Salmon, mother of H. C. C. Salmon, Fairview, has returned from a five months' trip to England.

• • •

R. M. Fullerton of New York is spending a few days in the city the guest of C. P. Lindsley, Victoria street.

• • •

Miss L. Waters left last night for Vancouver and Victoria, where she will spend her vacation.

• • •

Miss K. Roman is spending several weeks with Mr. and Mrs. E. Murphy on the north shore.

• • •

Charles Hanson is visiting the city from Poplar Creek. He came via Kaslo, where he attended the funeral of H. M. Denoreaz, who was buried on Sunday. Mr. Hanson reports fine fishing in the lake, his catch on Sunday totaling 23 fine trout.

• • •

Mrs. Charles Morris and two children have left for Moose Jaw, where they will visit Mrs. Morris sister, Mrs. W. Williams, for the next few weeks.

• • •

H. Jordan has returned from Seattle and intends to remain here permanently.

• • •

J. W. Nostiand of Poplar spent yesterday in town.

• • •

Mr. and Mrs. Fred Grant, who have been camping up the lake for the summer, have returned to the city.

• • •

R. H. Lockyer of Bonnington was a visitor in town yesterday.

• • •

Lawrence McPhail, 918 Silica street, has returned from Spokane, where he attended the fair.

• • •

S. S. Fowler, mining engineer, of Riondel, was in the city yesterday.

• • •

The tea hostesses at the tennis courts this afternoon will be Mrs. R. H. Louis and Mrs. Gordon Hallett.

• • •

A. Mallinson of Winnipeg, a former resident of Nelson, spent yesterday in town.

• • •

Mr. and Mrs. H. Johnstone and Mrs. Lee left last night for Midway.

• • •

W. P. Tierney, the Vancouver contractor, left last night for the coast.

• • •

Mrs. P. J. McKay left last night for Vancouver.

• • •

Mrs. W. F. Bissett arrived in the city last night from Vancouver, where she has spent the summer.

• • •

W. A. Buchanan of Slocan City, manager of the Meteor mine, was in town yesterday.

• • •

Mrs. S. Knapman and daughter left this morning for Blairmore after a week spent in the city.

• • •

Jack Davidson of Victoria, who has been visiting W. J. Sheppard for the past few weeks, left on the coast train last night for his home.

• • •

Mrs. J. H. Sopher and Miss Allyn Sopher of Vancouver, who have been the guests of Mr. and Mrs. F. J. Boles, Victoria street, leave this evening for the coast.

• • •

Rev. J. Barr Stirling has returned from the coast. Mrs. Stirling is recovering slowly and it will be a few weeks before she is able to return.

• • •

Mrs. E. D. West of 603 Kootenay street is in receipt of a letter from her mother, Mrs. Davis of Hillsborough, Wis., which tells of the family reunion of her mother's brother and sisters. Four of a family of six were present at this meeting, which took place at Corwith, Iowa. Mrs. Davis, age 70; her sister, Mrs. Douglass, Payette, Idaho, age 73; another sister, Mrs. Daniels, Corwith, Iowa, age 81, and a brother, Louis Hall, St. Paul, Minn., age 85, were reunited. Mr. Hall has seen 60 years of active railway service and retired but one year ago from service as a conductor. Other than failing eyesight his health is good. Mrs. West is justly proud of this record. Her mother's parents lived to be 87 and 93; her father's parents, 74 and 79. Her father a Dr. Hull, lived in good health to the age of 75. A stepfather, although 79 years of age, is still active as a railway dispatcher at Hillsborough, Wis.

• • •

Mr. and Mrs. J. J. Smith are leaving today for Portland, Ore.

• • •

Mrs. E. E. Smith of Portland, Ore., arrived in the city Wednesday night and is spending a few days visiting Mrs. G. L. Kemerling of the north shore, before leaving for a visit to Brooklyn, N. Y.

• • •

Miss V. I. Beaudro has returned after a visit to St. Paul and Winnipeg.

TRAIL NOTES

TRAIL, Sept. 7.—Guy Hopper has been engaged by the city as building inspector of the new high school which is being erected here.

Frank Dodge has gone to spend a vacation at Castlegar, where he will join Mrs. Dodge and family, who have been staying the summer there.

Miss Doreen StDenis is the guest of Mrs. Charles M. McNaughton at her residence on Columbia Heights.

W. Holdsworth has returned to Trail after a holiday spent at Willow Point and Nelson.

Mr. and Mrs. Monypenny, accompanied by Mrs. Kollmar, Miss Eileen Milligan and W. J. Cleave motored to Spokane for the holiday.

T. A. Mills has returned to Trail after spending a few days on his ranch at Willow Point.

E. T. Oliver is back from paying a visit at the coast. While away he was the guest of his uncle, Premier Oliver.

The Store for Quality

Meagher's

ROSSLAND SCOUTS CAMP IN CASTLEGAR MEADOWS

CASTLEGAR, B. C., Sept. 6.—A troop of Boy Scouts from Rossland enjoyed their remaining holidays before school started camping down in the meadows with their scoutmaster. They left for Rossland on Monday night's train.

Miss Ellen Russell, who has been visiting Hope McGauley for the past month, returned to her home in Slocan City this morning.

Mrs. Skinner of Nelson is the guest of her daughter and son-in-law here, Mr. and Mrs. John Lawson.

Mr. Billie and Miss Vera Walmsley of Greenwood, who have been visiting here for some time, left on Saturday for their home.

Miss Bertha Sheill of Needles returned to Castlegar on Friday's boat. She will resume her duties as junior school teacher in the Castlegar school tomorrow.

Miss Orpha McGauley will return to Trail tomorrow. She has spent two weeks' holidays at her home here.

Miss Hope McGauley returns to Nelson tomorrow to take up third year high school there.

Mr. and Mrs. A. Hebert and daughters leave Castlegar on Thursday for Quebec. Mr. Hebert has been employed by the Edgewood Lumber company as blacksmith for about two years.

The Misses Irene, Rosie, Cecile and Marie Hebert have attended the Castlegar school for a couple of terms and their companions will be sorry to see them leave.

R. McLennan will take Mr. Hebert's position with the Edgewood Lumber company.

SLOCAN CITY NOTES

SLOCAN, Sept. 6.—George R. Brown of Goldendale, Wash., one of the King Jack Mining company, arrived here on Tuesday evening, leaving on Wednesday morning for the property. Mr. Brown made a trip to the property early last spring and was greatly taken up with the prospects.

Patrick Maguire of the Ottawa mine went to Nelson in his car on Tuesday.

Miss Margaret Madden, who has been visiting with friends in Nelson for a week or so, arrived home in time for the opening of school.

Mrs. D. S. Scott paid a visit to relatives at Thrums during the week-end.

Mrs. D. S. Scott went to New Denver on Wednesday for the day.

Mrs. H. L. Fife returned home from Nelson on Sunday evening.

B. A. Carr went to Nelson on Tuesday in the jitney for a few days.

Mr. Hinton of the Nelson Iron works made a business trip to the scene of the Ottawa mill, which was destroyed by fire a few days ago.

Oliver Covington went to Nelson on Monday to attend high school. He was accompanied to Nelson by his mother, Mrs. J. O. Covington, and little brother Elmer Covington, making the trip in Thorpe's jitney.

George Long of the Meteor mine was a recent visitor to Nelson.

Mrs. R. E. McMillan was a visitor to Nelson Tuesday.

Miss M. Leavens of Vancouver arrived in the jitney on Monday evening to take charge of the junior grade classes in the public school. While F. A. McLellan of Victoria, who arrived on Friday, takes charge of the senior classes and the principalship of the school. The public school opened on Tuesday for the term with the usual good attendance.

BURTON NOTES

BURTON, Sept. 7.—Mrs. Stevens, Mrs. A. Burton and Mrs. Crowe were visitors to Edgewood on Labor day, attending the celebration and dance.

Rev. Dr. Ferguson took the service at the Presbyterian church on Sunday last. Dr. Ferguson left for Edgewood and other points on the down boat Monday.

R. Walters, the chief inspector for the Kootenays of the Okanagan United Growers, inspected the Burton packing plant and some of the orchards of the organized growers this week.

W. Stack of Outcott Landing is a visitor to Burton. Mr. Stack is arranging with the Burton Growers' exchange to pack and sell his apple crop.

RAINS DELAY HAYING.

CRESTON, Sept. 7.—Showery weather has prevailed since Thursday last, with the result that haying operations on the flats have been seriously interfered with and very little compensating advantage gained in that the rainfall has not been heavy at any one time. The wetness, however, seems to have been just what was wanted to start the color coming in the late fall apples which is very welcome in view of the fact tht Wealthies will start moving this week.

YMIR NOTES

YMIR, Sept. 6.—Mrs. Burgess and Miss M. Burgess went to Nelson on Wednesday evening and returned home on Friday morning.

Mrs. William Clark arrived from Nelson on Saturday morning, where she had been to meet her daughter, Miss Bessie Clark, who is matron of the Vernon hospital, and came via Nelson to spend her annual holiday with her parents at Ymir.

Mrs. Blatchford arrived on Monday morning from Huntingdon, B. C. to take charge of the Ymir public school.

Mrs. J. M. Gille and family left on the Monday morning train for Spokane, where they will make their future home.

Cranbrook Rotary Crowd Takes Part in Spokane Meeting

SPOKANE, Wash., Sept. 6.—Seventeen Rotarians are here from Cranbrook to attend the intercity Rotary meet, which opened today. Some of the Cranbrook delegation arrived by motor and some by rail.

Among those who motored were Frank Marsh, president, and W. H. Wilson, vice-president of the Cranbrook club, and their wives, together with the Wilsons' young son. "I have never seen the roads in better shape than they are now," said Mr. Wilson, who was at the wheel. "We left Cranbrook at 20 minutes to 7 and we got in here at 5 o'clock this afternoon."

Others from Cranbrook are Mr. and Mrs. Charles Little, Mr. and Mrs. George Robson, Mr. and Mrs. M. A. Beale, Mr. and Mrs. J. P. Fink, Vincent Fink, Leo Sullivan, Jack Delaney, Bert Jones and Alan Graham.

Among the arrivals yesterday was District Governor Frank Lamb, who drove from Nelson.

SUNDAY SCHOOLS HOLD A COMBINED PICNIC

CRESTON, Sept. 7.—Both the Methodist and Presbyterian Sunday schools had their annual picnic at different locations along Goat river on Monday afternoon, and as the rain held off until almost 6 p. m. a fairly satisfactory day was enjoyed by the large turnout of children. There were sports and games and a substantial supper, with an added feature at the Methodist gathering of a field taffy pull.

NELSON, B. C.

TORTURED BY KIDNEY TROUBLE

Quickly Relieved By Short Treatment With "FRUIT-A-TIVES"

MADAM LALONDE

170 CHAMPLAIN St., MONTREAL, P.Q.

"I am writing to tell you that *I owe my life to "Fruit-a-tives"*. This fruit medicine relieved me when I had given up all hope of recovering my health.

"I suffered terribly from *Kidney Trouble, Dyspepsia and Weakness.* I had these troubles for years and all the medicine I took did not do me any good.

"I read about "Fruit-a-tives" and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength.

"I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness will take "Fruit-a-tives" to recover their health".

JEANNETTE LALONDE.

50c a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Expect Record Year at University of British Columbia

Public and high schools throughout the province are now settled down to business and are preparing for a strenuous year's work. The next institution in the province to commence activities will be the University of British Columbia.

Last year the enrollment at the university was beyond all expectations, and more students than there was room for applied for admission. The registration for 1921-22 was as follows:

Faculty of Arts and Science

	Women	Men	Total
First year	155	180	335
Second year	77	83	160
Third year	67	53	120
Fourth year	40	38	78
			693

Faculty of Applied Science

	Women	Men	Total
First year	1	68	69
Second year	0	60	60
Third year	0	40	40
Fourth year	1	27	28
			197

Double Course

	Women	Men	Total
Fifth year	0	1	1
			1

Nursing

	Women	Men	Total
First year	9	0	9
Second year	7	0	7
			16

Faculty of Agriculture

	Women	Men	Total
First year	4	29	33
Second year	0	14	14
Third year	0	12	12
Fourth year	1	9	10
			69

Graduates

	Women	Men	Total
Arts and science	18	13	31
Applied science	0	3	3
Agriculture	0	4	4
			38

A grand total of 1014 students attended the classes.

A session of short courses for the term was also held, 217 students taking advantage of these courses, divided as follows:

Summer school	134
Public health nursing	14
Botany	64
Mining	5

This year a larger number of students is expected than ever before in the history of the university, which is increasing in popularity every term.

Students attending the university are all eligible for the various student activities and athletics.

In order that the activities of the student body may be effectively carried out the Alma Mater society has been organized with a governing executive called the students' council. This council controls all activities of the societies subsidiary to the Alma Mater society. Students upon entering the university have opportunity to participate in all lines of sport, debating and public speaking, and various other activities.

Has Weekly Paper

During the term two publications are put out, the Ubyssey and the Annual. The former is a weekly publication, the staff being composed of students selected by a voluntary competition. The Annual is published at the close of the spring term.

Various clubs and societies are active throughout the year. In the Players' club those whose talents lie in the direction of the drama may find medium of expression. The Musical society includes the Men's Glee club, the Women's Glee club, and the University orchestra.

For those interested in public speaking and debating there are the Men's Literary society and the Women's Literary society, the Agriculture Discussion club, and Sigma Delta Kappa society.

The Chemistry society, the Engineering Discussion club, and the Social Science club offer a field for discussion of scientific and social problems.

Women's Athletics

The Women's Athletic association comprises all the women's athletic clubs of the university. Prominent among them is the Women's Basketball club, the Women's Gymnasium club, the Women's Grass Hockey club, and the Women's Swimming club. Last year the Ice Hockey club was inactive owing to the impossibility of securing the arena.

Men's Athletics

The Men's Athletic association endeavors to foster all branches of clean and manly sport.

The season for the Rugby club begins with the opening of the fall term. Practics are held and three teams are chosen, one for the McKechnie Cup league, provincial; one for the Miller Cup league, Vancouver, and one for the Intermediate league, also of Vancouver.

The basketball season follows that of rugby. Three teams are chosen and entered in the various city leagues.

The Soccer club enters a team in one of the city leagues. The team is chosen early in the fall.

The Track club takes charge of all field events, its big features being the annual track meet and the arts' 20 relay race.

The Rowing club is affiliated with the Vancouver Rowing club, and retains its identity as a university club.

The Ice Hockey club selects teams each year and enters these in the city series.

The Outdoors club takes charge of all picnics, hikes, mountain climbing, excursions, and outdoor parties.

The tennis tournament takes place after the opening of the fall term, and the championship games are played in men's and women's singles and doubles, and also mixed doubles.

The Badminton club holds practices and games in the evenings throughout the winter.

The boxing and the swimming clubs meet once a week during the winter, under capable instructors.

The Lacrosse club carries on throughout the summer, and is chiefly for those who are in the city during that time.

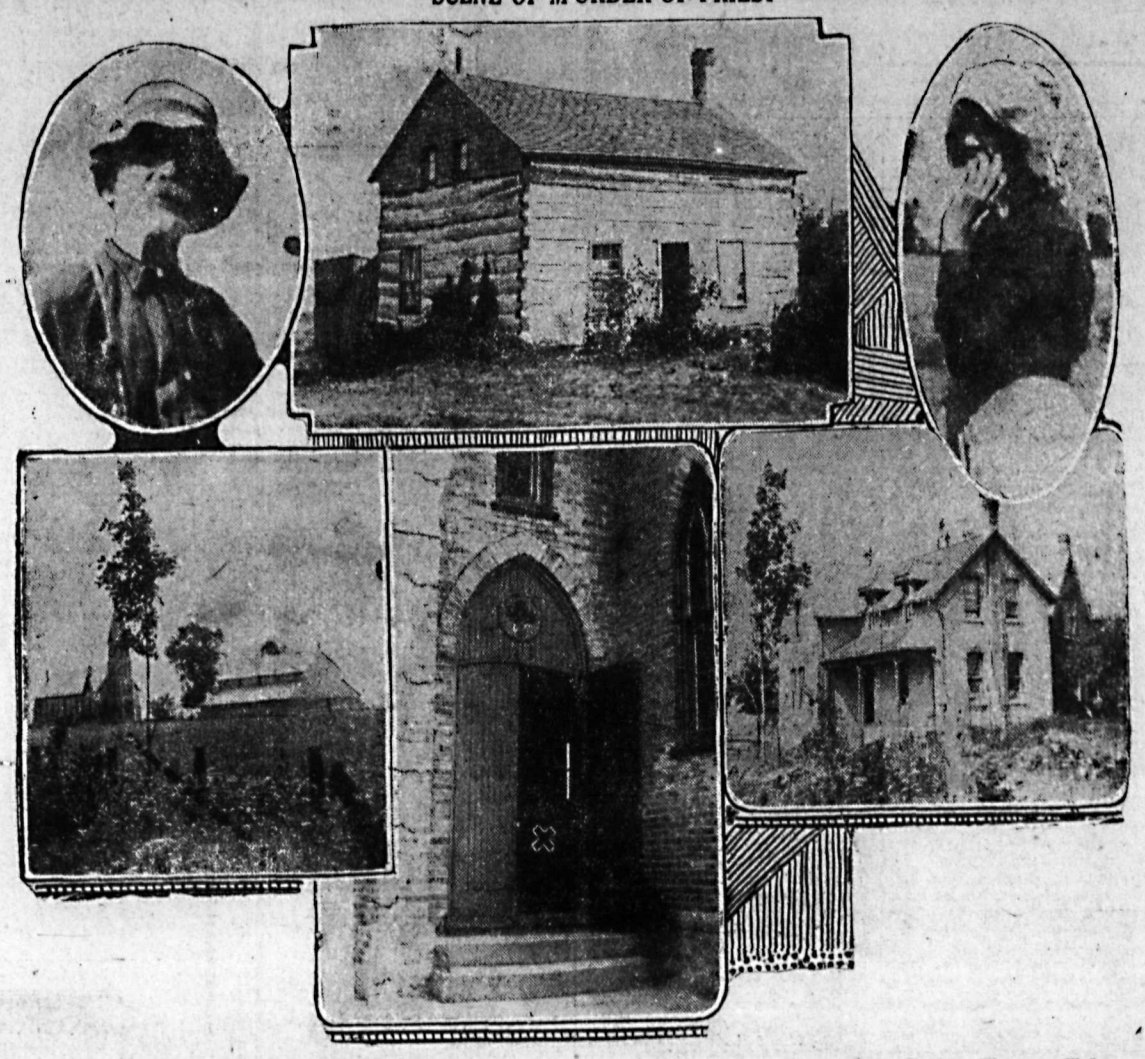
Alumni Association

This organization was formed in May, 1917. It is composed of honorary, active and associate members. Honorary membership includes all members of the faculty. Actice membership includes all associate members who have paid their annual fee. All graduates of the university automatically become associate members on graduating.

The purpose of the association is to further the interests of the university and the alumni. To accomplish this purpose the association aims to keep its members interested in the university and the Alma Mater, so that they may know their college not only as it was, but as it is, and can be.

There are several subsidiary organizations within the association, such as: The Curtain club, which offers a field to graduates who are interested in the drama; the Alumni Employment bureau, whose aim is to help provide employment for undergraduates and graduates, and the Alumni Athletic club, which aims to foster sport at the university, and to give the Alumni an opportunity of continuing in various sports after leaving the university.

SCENE OF MURDER OF PRIEST



The central scene above is the Roman Catholic mission church at Proton, Ontario, where Rev. Father Thomas Clohecy was shot and fatally wounded. John Cosgrove, a deaf-mute, aged 34, is under arrest, charged with the murder of the priest. The upper pictures are those of Cosgrove's parents, and his home. On the right is shown the home of Michael Connelly, 200 yards from the church, to which Father Clohecy staggered after being shot and in which he died.

Even the Reds Feel the Need of Some Church

MOSCOW, Sept. 8.—(Associated Press)—The "red clergy" led by a group of young men, held its first congress to establish e new "live" church." It was contended that the church must be brought nearer to the masses, and that the "new church" should be as "simple and as humble was Christ himself."

The aims of the "red clergy,' so-called because of its acknowledgement of the social revolution and the Soviet Internationale, include liquidation of the superiority of the regular clergy in Russian church affairs, doing away with the reactionary section of higher clergy who, it is claimed, are still hoping for a coup d'etat to sweep them into power again, and preparation of an all Russian conclave at which a successor to Patriarch Tichon is to be elected.

The "red clergy" group, headed by Archbishop Antonin, and a number of young Moscow and Petrograd clergymen, came into existence as a result of a split among the Russian Orthodox clergy, brought about soon after the confiscation of church treasures was started by Soviet government officials.

Because of the opposition which developed among the ruling church authorities, a number of the clergy were prosecuted in various parts of Russia, even Patriarch Tichon himself having been placed on trial. Many sentences of death were imposed ,some of which were carried into effect, and various other archbishops, bishops and clergymen were given jail sentences. Realizing that the conflict between the state and ence of the church itself, the group the church threatened the very existof young clergymen took the initiative and demanded the abdication of Patriarch Tichon. The patriarch yielded to the demands, and immediately afterward the movement of the "live church" was inaugurated.

The new movement, first of all, is against supporters of the old Bizantine church service which demands splendor in all its glory. It is contended that the costly mitres of gold studded with jewels, the magnificent vestments, the priceless rugs are too significant of aristocracy. "In all this splendor,' claim the young clergymen, "little room is left for the light of Christs mrey and love." The church must be brought nearer to the masses—it should be "proletarzed." And it is on these grounds that the "red clergy' have recognized the revolution, its results, and the Internationale.

The "live church' proposed also to clear the churches and parish councils of counter revolutionary clergy and to remove the vow of celibacy for bishops.

Mutual Trade Vital Both to Canada and the United Staets

WASHINGTON, Sept. 8.—(By Canadian Press.)—Numerous United States merchants are already putting out advertising telling their customers they had better buy before the new tariff bill goes into effect; that the new tariff law will greatly increase prices and that the wise man and the wise woman will take time by the forelock and buy before the increase takes place.

Advertisements of this kind, as a matter of fact, are appearing in papers that circulate freely in Washington. At least one Washington tailor has been putting out advertising in the local newspapers in which he tells graphically of the prospective rise in the prices of woolens and hence of clothing, due to the new tariff.

Whatever view one takes as to the merits of the new tariff measure, it is plain that the airing of such views to the public on a wide scale is not calculated to make the reaction on the bill when it becomes law any more favorable to it. Republican leaders do not conceal their dislike of such predictions. They fear that such forecasts will have serious political results for them in November, even though the bill has not yet gone into operation.

Republican members of the house who have lately been in their districts, by reason of the house recess of a month, bring back many reports to the effect that the tariff bill has few friends among the voters. Many of the rank and file of the Republicans are viewing the bill with apprehension and look for it to increase the cost of living. Although no such forceful fight was made on the pending bill in congress as was made on the Payne-Aldrich bill in 1909—a bill which helped to wreck the Republican party, lose it the house in 1910 and split it—reports indicate there is less support for the present bill on the part of the public than there was for the Payne-Aldrich bill. In other words, the enactment of the McCumber-Fordney bill may be followed by a political upheaval as great as the 1909 upheaval.

The question whether the Republican leaders will let the tariff bill go into effect before the November elections continues to be widely discussed. Opinion among Republicans *in congress is divided on whether it* is politically safe to let it go into effect before the elections are held. While there is no final decision, it is well known that the opponents of passage before the elections are becoming increasingly active. Furthermore, the bill is in conference, with over 2400 amendments to be considered, and the friends of delay can easily hatch up schemes for holding the bill back and delaying it if they set out to do so. In the last few days they have shown strong symptoms of being bent on blocking an early agreement and barring passage of tariff revision until the elections have been held in November.

Rodier's new cloaky fabrics, so smart in Paris, have the quilted effects that were so popular last season without being actually quilted by stitching, and the design is raised in the weaving.

BRITISH MINE OUTPUT LOW

American Colliers Dig Many More Tons a Year Than Those Overseas

A comparison of American and British figures for coal production shows that the average mine worker in the United States produces more than 700 tons yearly, while the output in the United Kingdom is at present reported to be only about 223 tons per worker, the National Bank of Commerce in New York says in its magazine, Commerce Monthly, for September.

"A substantial increase in the productivity of British miners has been effected since the British coal strike of 1921," Commerce Monthly says. "In 1913 the average annual output per worker employed was 258 gross tons; and in 1915 it was increased to 265 tons. Following that year, however, the average output dropped steadily until for the year 1920 it amounted to no more than 182 tons, but the current output of coal is reported to be at an annual rate of about 223 tons per worker. While this is still below the prewar rate, it represents a considerable increase over previous post-par years.

"The average output per man in the United States is in striking contrast to that in the United Kingdom. The 1913 average, for the United States, was no less than 681 tons, and it was steadily increased to 768 otns for the year 1918, declining to 743 tons in 1920, the latest available year.

"This striking difference is due largely to the greater use of machine mining in the United States. Prior to the war less than 9 per cent of British output was machine mined, against 43 per cent for the United States. Since then there has been some increase in the use of machines in the United Kingdom, particularly in the Scottish fields, where about one-quarter of the output is now mined by machine. In the Welsh fields, however, only 2 per cent of the output is machine mined.

"The relatively limited use of machine methods iin the United Kingdom is in part ascribed to hostility of the workers, who fear displacement, but in good measure it is said to be due to the physical characteristics of many British mines, which render the adoption of machine mining impractical or difficult."

WET WEATHER DELAYS MANITOBA THRESHING

WINNIPEG, Sept. 8.—Wet Weather has prevailed generally over Manitoba for the greater part of the week and threshing operations were delayed on that account. Grain cutting is practically completed in this province. There are indications tonight of clear, cool weather, and if this forecast is correct it is thought that ltitle damage to the unthreshed crop will have resulted from the rains of the past four days.

Find Dead Body of Prospector Partly Eaten by Wild Animals in Wood

PRINCE RUPERT, Sept. 8.—The body of Joe Lapple, an old prospector, was found in the woods today. It had been partly eaten by wild animals. He disappeared last winter from Terrace and apparently lost himself in the woods.

Advise Purchasing Before New Tariff Comes Into Effect

NTW YORK, Sept. 8.—(Canadian Press)—Trade between Canada and the United Staets is vital to the prosperity of both countries, Faris R. Russell, vice-president of the National Bank of Commerce, believes. Next to the United Kingdom, Canada is *the foremost foreign buyer in the* markets of the United Staes, while imports into the United States from Canada are not exceeded in value by imports from any other country except in occasional years from Cuba.

"By the accepted tests of greatness, *Canada now ranks as one of the foremost nations of the world,*" Mr. Russell says in the September number of the bank's magazine, Commerce Monthly. "It is immensely rich in natural resources. Its government is stable, its population is *thrifty and energetic, and its business* leadership has been proved to be of the imaginative type requisite for the organization of modern industry. The banking and currency system is among the best and transportation facilities, both within the country and with other countries, are equalled in adequacy only by those of the United States.

"Four-fifths of all the foreign trade of Canada is carried on with *the United Kingdom and the United* States. Considerably more than half of total imports into Canada have long come from the United Staets, the proportion being slightly in excess of two-thirds in the last 12 months period ending June 30, 1922.

"A clear realization of the character of the national consciousness of Canada is the first step toward an understanding of the international position and relationship of the country. *What ever the technical term* which may be applied to the political status of Canada, in effect it is a proud and vigorous nation, sure of its future, rejoicing in its *share in the leadership of the world,* and also rejoicing in its place as an integral part of the British Empire.

"Canada is in that stage of economic development when population is small in relation to natural resources, and when exports of raw materials *must pay for imported capital to* develop them. Insofar as Canada is a producer of raw materials which the United Staes does not produce in quantities sufficient for domestic consumption, this country is a heavy buyer in the Canadian market. With few notable exceptions, however, the United States is a heavy exporter of exactly those classes of raw materials and food products which make up the bulk of Canadian export trade.

"*Despite the growth of manufactures* economically speaking Canada is a new country and the domestic industries are not able to meet its rapidly expanding requirements for manufactured goods which constitute a large proportion of Canadian imports. At the same time Canadian manufacturers have aldeady proved themselves able to market successfully a wide range of products in overseas markets. This situation *results primarily from the fact that* the main industrial areas are southwestern Quebec and southeastern Ontario and manufacturers there are more advantageously placed in relation to markets outside of Canada than they are in relation to many sections of the Canadian market, which can buy better in the United States, the character of demand being practically identical in the two countries.

"Today Canada is probably the most favorable field in the world for investment, comparable only with the United Staes in the era of its most rapid physical development, from the close of the Civil war to *the opening of the present century.* Although as is the case in all new countries capital must be sought beyond its borders, the capital accumulation of Canada is very great.

"Capital not supplied by Canadians has been secured chiefly from investors in the United Kingdom and the United States. From 1915 to 1921 Canadian governmental and corporate securities amounting to $1,194,000,000 were floated in the United States. *In addition to industrial se*curities and government bonds, some United States capital is invested in industrial undertakings not represented by securities issues, and it seems probable that the net total of United States investments in Canada must now be as much as $1,500,000,000.

"Both Canada and the United States possess the incomparable advantages of having developed in the period *of modern transportation* with the result that national mindedness has extended the width of a continent. This is one of the secrets of their greatness, and is the basis of the outlook of their business men.

"The two countries have identical *standards of living and methods of* production, and there is no material difference between their distance to the main markets. Except as affected by climate, thereis no marked difference in the character of the natural resources of the two countries, or their products. In a general sense, their development has been and will continue to be along parallel lines and in overseas markets they are rivals. In so far as there is trade *between the two countries in prod*ucts of a non-competitive character, proximity makes each the cheapest source of supply for the other. A large part of the trade between them has its origin in the same factors as those which cause goods to move freely across the boundaries of contiguous states of the United States and provinces of Canada.

Board Stands Pat on Segregation of Chinese and Whites

VICTORIA, Sept. 8.—While leading Chinese have retained W. J. Taylor, K. C., to force the school board to scrap its plan to segregate Chinese from white pupils, the board has no intention of abandoning its policy, which school trustees believe, has *the overwhelming support of* the electors.

This was made clear by school board members today and it was declared that the strike of Chinese students, who refused to attend their classes early this week, was failing. For that reason the school board is standing pat.

Intend to Open Up Yellow Pine Forests in Eastern Oregon

WASHINGTON, Sept. 8.—By Canadian Press.)—According to an announcement just made by the department of agriculture, a vast timber area in eastern Oregon is to be opened for permanent development. The announcement, which is of interest to lumber and timber men in Canada, as well as the United States, says the "largest compact body of yellow pine owned by the government is to *be opened for sale and development.*"

The department says that this is in line with the federal policy of putting the forests of our country to their highest use, instead of locking up valuable timber resources so that they are of no benefit to the American people.

This new timber region is on the watershed of the Silvies river in the Malheur national forest of eastern Oregon. It covers an area of 550,000 *acres, and contains nearly seven bil*lion feet of mature saw timber.

Government foresters have worked out a plan of management for this stand of timber that provides a continuous perpetual supply of raw material for a lumber manufacturing industry to be located in the vicinity of Burns, Ore., and capable of using from 50 to 60 million feet of logs annually.

The first sale to be made in this region will be that of the Bear valley unit, which is estimated to contain 890 million feet of saw timber. This timber is being offered for development under forest service regulations that will insure continuous production for all time.

Another announcement of the department, relating to the same timchance is to be offered to lumberber region, says a perpetual logging men. The announcement states that a logging chance on which 50 to 60 million board feet of timber can be cut annually for all time is the unparalleled offer to American lumbermen by the forest service, department of agriculture. This means that the *industry established to utilize this* timber will never have to be moved, and that it will always be assured of an ample supply of raw material.

The first block of this timber to be placed on the market is located on the Bear valley watershed of the Silvies river, Malheur national forest, near Burns, Ore. The stand is estimated to contain 890 million feet of western yellow pine, Douglas fir and *lodgepole pine, which will be opened* for logging development under government regulations.

Tributary to the Bear valley area are virgin forests containing over six billion feet of mechantable timber, which will be available for future cutting. These timber units contain the finest and most extensive forests of yellow pine owned by the government. They will be so developed, federal experts say, that under the *plan of management proposed the for*ests will produce an inexhaustible supply of timber.

Husband and Wife Nearly Dead With CHOLERA

The chief symptoms of cholera are vomiting, and pufgings occur either simultaneously or alternately, and are usually sudden and very violent, and *the matter ejected from the stom*ach has a bilious appearance and a nasty, bitter taste.

On the first symptoms appearing, Dr. Fowler's extract of Wild Strawberry should be taken, and the trouble checked before it becomes serious.

Mrs. Isaac Smith, Campbellton, N. B., writes: "We have been using Dr. Fowler's Extract of Wild Strawberry for cholera. My husband and I were pretty nearly dead with it until we started to use your medicine, and thanks to it, we found great relief and are recommending to all our friends."

Seventy-seven years reputation stands behind "Dr. Fowler's," therefore you are not experimenting with some new and untried remedy when you get it.

Price, 50c per bottle; put up only by The T. Milburn company, limited, Toronto, Ont.

SECURITY—THE DOMINION OF CANADA

Descriptive booklet may be obtained by applying to the Postmaster or by writing, postage free, to S. T. Bastedo, Superintendent Dominion Government Annuities, Ottawa. When writing, kindly state sex, and age or ages last birthday.

Haig & Haig — A LITTLE AND GOOD — MOTTO

This motto will gradually find its way on to our stationery and our labels. It will become a distinguishing mark as well as a slogan

"Let a man think as he will, but he shall command no other man to think it"

John Drinkwater

puts these words into the mouth of Oliver Cromwell. Here is a great maxim that the world needs to learn, and particularly that the democratic world needs to learn now.

John Drinkwater may drink water or he may drink Haig & Haig Whisky, or, indeed, anything that he wants to drink, and let no man presume to say he shall do otherwise.

There are some things that we must not decide by a majority vote. One of these things is whether or not you, and we, and John Drinkwater shall, or shall not, drink water.

Being free people, we do not need other opinions on this. Our own opinion is all that matters.

. . . . . .

HAIG & HAIG are publishing this advertisement throughout the world. They have two objectives:—

(1) To stem the tide of democratic tyranny;

(2) To forward their own business interests. They believe that they are sending all over the world the best Whisky that goes from Scotland.

Haig & Haig Five Stars Scots Whisky

No Haig & Haig Whisky is being exported in Decanter bottles.
We find it necessary to make this statement because our House was, at one time, a user of this bottle. After long experience we find that it is not a good bottle. It is easily broken, and the sizes frequently vary, to the detriment of the buyers. We discontinued its use in the interests of our customers. We sell the same high-class quality Whisky in this bottle. We have one quality only.

Markets and Finance

Prices Again Advance on Brisk Demand for Investment Securities

NEW YORK, Sept. 8.—Extensive short covering, coupled with a brisk investment demand for selected stocks, resulted in another substantial advance in prices today.

Several new favorites were brought to the front, including United Cigar Stores, which was pushed up 2½ points on sales of only 200 shares; Tobacco Products preferred, which soared up 7 points on published reports of the benefits likely to accrue to holders of United Retail stock.

Equipments were the favorites in the industrial division, gains of 1 to nearly 4 points being recorded by American Locomotive, American Car & Foundry, Railway Steel Spring and Baldwin.

Total sales were 1,000,000 shares.

Call money opened at 4 per cent and held at that figure.

Foreign exchanges were steady.

Montreal List

MONTREAL, Sept. 8.—A burst of activity in National Breweries, which featured nearly one-third of the total turnover, marked the trading in listed shares today.

Canada Cottons was the outstanding feature with an advance of 5 points, closing at 109½, with a turnover of 415 shares.

Riordon preferred closed down at 10, with a turnover of 150 shares. Bell Telephone, Montreal Power, Sherwin-Williams preferred and Tucketts all scored new high levels.

The volume of trading in bonds took a leap forward, due mainly to the large block of 1922 Victories sold.

Toronto Board

TORONTO, Sept. 8.—The mining stocks were uppermost in the trading here today. The listed department presented little out of the ordinary.

Canadian General Electric common was fairly active, but was somewhat unsteady, fluctuating between a high of 83 and a low of 81½, and closing at 82¼, down ⅞.

C. P. R. was up 1½ to 148¾, coincident with the renewed interest in rails in New York.

There was fair trading in banks and a decided upward trend was noticeable in this group.

Victory bonds also inclined to higher levels.

OTTAWA, Sept. 8.—Incorporation has been granted to the British Columbia Pilotage association, limited, British Columbia, $25,000.

Shaved lamb is to be very smart for short jackets.

Wholesale Business Is Keeping Steady Throughout West

WINNIPEG, Sept. 8.—(By Canadian Press.)—This week's trade report of the Canadian Credit Men's Trust association is in substance as follows:

Manufacturers and wholesalers in the east are finding a steady improvement in business and there has been more activity in the retail trade than for some time past, owing, no doubt, to the end of the holiday season. There is quite a lot of building going on in both Montreal and Toronto, and the unemployment question is getting to be very much less serious.

Conditions west of the lakes have been somewhat interfered by rain, which has delayed threshing. Wholesale business is keeping steady. Retail business leaves a good deal to be desired, though in certain lines more business is being done.

Collections are somewhat on the slow side.

Canada Bonds

WINNIPEG, Sept. 8.—Bid prices for Dominion war issues:

Victory loans—1922, $100.00; 1923, $99.85; 1927, $100.65; 1933, $102.10; 1937, $105.35; 1924, $99.50; 1934, $100.25.

War loans—1925, $97.90; 1931, $98.00; 1937, $100.00.

Montreal Produce

MONTREAL, Sept. 8.—Produce prices unsettled and weaker.

Cheese—Finest easterns, 15½c to 15¾c.

Butter—Choicest creamery, 35¼c.

Eggs—Selected, 35c.

Potatoes—Per bag, car lots, 60c to 65c.

Minneapolis Grain

MINNEAPOLIS, Sept. 8.—Flour, 15c higher at $6.55 to $6.75.

Bran—$15.00.

Wheat—No. 1 northern, $1.06¾ to $1.14¾.

Corn—No. 3 yellow, 57½c to 58c.

Oats—No. 3 white, 32c to 33c.

Flax—No. 1, $2.36.

One Paris house is featuring the picturesque eighteenth century gown with long tight bodice and long full skirt for evening.

BRINGING UP FATHER By George McManus

News of Sport

ESTABLISH NEW TRACK RECORDS

Beats Broad Jump by Over Foot; New Marks for Hop, Step and Jump and Walk

WEEQUAHIC PARK, NEWARK, N. J., Sept. 8.—Establishmenut of three new championship records in the running broad jump, the hop, step and jump, and the three-mile walk, today marked the national A. A. U. junior track and field championship.

De Hart Hubbard, negro, of Cincinnati, and a freshman last year at the University of Michigan, set a new record for the broad jump, doing 24 feet 3½ inches, as compared with the former record of 23 feet 1 inch set in 1914 by H. T. Worthington of the Boston Athletic association. A. J. Plansky of the Boston Knights of Columbus hopped, stepped and jumped 46 feet 9¾ inches to beat the record of 46 feet 7½ inches set in 1920 by K. Gest of New York.

Charles Foster of the Detroit Y. M. C. A. negotiated the three-mile walk in 23 minutes 39 9-10 seconds. The former record of 23 minutes 57 seconds was set in 1920 by L. Laboitz of New York.

Foley Gets Best of Battle With Manila Fighter

VANCOUVER, Sept. 8.—Vic Foley of Vancouver was given the decision at the end of 10 rounds here tonight over Brownie Villan of Manila. The early rounds were comparatively even, but Foley had much the better of the latter. The bell apparently saved Villan in the seventh and eighth, but he was clever enough to finish out the bout. They were bantaweights.

Johnny Colclough of Vancouver won a technical knockout over Cecil Miller of Spokane. Miller was no match for Colclough and the former's seconds threw in a towel in the fourth round. They are lightweights.

Bob Webster of Vancouver won a six-round decision from Owen Roberts of Seattle. It was a slow uninteresting bout with Webster doing most of the fighting.

Harry Anderson of Vancouver was given a four-round decision over Jack Farmer of Winnipeg. They are lightweights.

Charlies Hardcastle of Vancouver won on a foul from Panta Colima of Manila in the second round.

Boston	41	80	.338

Phillies Hit Hard

PHILADELPHIA, Sept. 8.—Hard hitting and excellent pitching by Meadows enabled Philadelphia to defeat New York City today 8 to 4 and even the series.

	R.	H.	E.
New York	4	10	3
Philadelphia	8	15	0

Batteries—Nehf and Smith; Meadows and Henline.

Cubs Stage Rally

PITTSBURGH, Sept. 8.—An eighth-inning rally by Chicago, which netted four runs, upset the Pirates' chance to gain a notch on New York in the pennant race. The score was 10 to 7.

	R.	H.	E.
Chicago	10	15	0
Pittsburgh	7	13	1

Batteries—Aldridge, Cheeves, Kaufman and O'Farrell, Wirts; Hamilton, Carlson, Brown, Morrison and Gooch.

Hornsby Challenges Homer Record

CINCINNATI, Sept. 8.—Pfeiffer's pitching stopped the Reds after the first inning today and St. Louis won 6 to 1. Hornsby made his 35th home run of the season with no one on base in the fourth.

St. Louis	6	8	2
Cincinnati	1	6	3

	R.	H.	E.

Batteries Pfeiffer and Clemons; Couch, Gillespie and Hargrave.

CUBS RALLY IN EIGHTH INNING

Spoil Pirates' Chance to Gain an Giants; Phillies Win; Cardinals Beat Reds

Browns Fall in Race

ST. LOUIS, Sept. 8.—St. Louis dropped to second place in the American league pennant race today by losing to Detroit 8 to 3, while New York defeated Washington 8 to 1. New York is now in the lead by half a game. Ken Williams knocked his 36th homer of the season, regaining the major league home run lead. It was the fourth homer by Williams in the last four games. George Sisler got two hits out of the three times up, making 37 straight games in which he has hit safely. This is only three under the modern major league record. Bobby Veach clouted two four-base hits with a man on each time. Both were off Shocker.

	R.	H.	E.
Detroit	8	13	2
St. Louis	3	5	3

Batteries—Johnson, Olson and Bassler; Shocker, Wright and Severeid.

Indians Lose Again

CHICAGO, Sept. 8.—Chicago made it two straight from Cleveland today, winning 7 to 2.

	R.	H.	E.
Cleveland	2	8	2
Chicago	7	13	1

Batteries—Boone, Lindsay and Sewell; Leverett and Yaryan.

Senators Out of Luck

NEW YORK, Sept. 8.—The Yanks slugged Walter Johnson hard today and easily defeated Washington in the first game of a two-game series, 8 to 1.

	R.	H.	E.
Washington	1	9	4
New York	8	13	1

Batteries—Johnson, Erickson and Picinich; Mays and Schang.

Athletics Lose Out

BOSTON, Sept. 8.—Boston made but four hits off Hasty today, but defeated Philadelphia 2 to 1.

The visitors' run came in the first after J. Harris' two-base muff, Miller's single and a wild pitch. Collins' single in the sixth followed by two errors by Galloway, gave Boston a run and the Red Sox scored again in the seventh on J. Harris' double, a fielders' choice and O'Rouke's single.

	R.	H.	E.
Philadelphia	1	6	2
Boston	2	4	1

Batteries—Hasty and Bruggy; Perkins, Collins and Ruel.

Ninety-two Ladies Enter for Golf Championship

TORONTO, Sept. 8.—With ninety-two ladies competing, play for the 17th annual ladies' open golf championship of Canada will be commenced Monday on the grounds of the Toronto Golf club and will continue throughout the week. In addition to the leading Canadian players, Miss Edith Leitch of England and Mrs. Alexia Stirling of the United States are entered. There will be three consolation matches. The championship consolation composed of the 16 players who are beaten in the first round of the championship, and two consolations composed of players returning the third and fourth 16 ground scores made in the qualifying round.

In all domestic disputes every wife gets the next to the last word, for the last belongs to every husband—when he tells her that of course she'll insist on having it!

Postpone' Boxing Bouts Scheduled for Ebbet's Field

NEW YORK, Sept. 8.—Boxing bouts headed by the Jackson-Marks, scheduled for tonight at Ebbett's field, today were postponed indefinitely to prevent any further dispute with the state athletic commission. Although the commission yesterday filed the suspension of the Ebbetts-McKeevey company, the organization which arranged the program, formal notice had not been received by the company.

Deadlock Ended; All Serene Again in Hockey Ranks

CALGARY, Sept. 8.—Everything is serene in professional hockey ranks, as the deadlock that existed Thursday night after a seven-hour session was broken after another two hours' deliberation Friday morning, when a new agreement was arranged between the National Hockey league and the Western Canada Hockey league.

The question of territorial rights and the signing of new players which caused the breach, was amicably settled with Frank Calder, president of the N. H. A., conceding practically everything that the prairie loop asked for.

The agreement is just about the same as that existing last winter and which does not expire until October 6. The Western Canada league clubs can sign up players in the United States as well as in the Dominion from Ontario west, with the exception of a few star amateurs whom the N. H. A. has placed on its reserve list.

The new agreement also calls for the Stanley cup finals in the Western Canada league once every three years, although it will be 1924 before the prairie circuit will stage the big hockey classic, and then only if artificial ice is available.

The securing of the new agreement or the renewal of the old agreement was a gain for the Western Canada league and it will in no way handicap the N. H. A. as they have a big territory with only four professional clubs to build up each season.

The Pacific Coast league will benefit most of all, as instead of its border line being at Kenora, Ont., the Patricks will be extended the same privileges as the prairie circuit. The coast league, in the many years that it has been in existence, has not developed any players of note and if they had to carry on as usual, they would have been up against it, especially if they had been forced to compete with the prairie loop for material. Now that the territory has been widened all leagues will be able to secure all the players they wish.

LATEST BETTING ON THE ST. LEGER

LONDON, Sept. 8.—(By Canadian Press Cable)—Following are the latest betting qnotations on the St. Leger, which will be run on September 13:

Six to one against Vilars and Preston Grande; 13 to 2 against Ramus and Fred Powers; 10 to 1 against Diligence; 100 to 8 against Buck's Hussar; 100 to 7 against Coroyrian, all taken and offered.

HAT MODES FOR FALL EMPHASIZE AN ORIENTAL SPLENDOR AND AN HISTORIC SIGNIFICANCE

Catherine of Russia might have inspired the striking tiara turbans—or the incomparable Pavlowa herself, the modes Ballet Russe that millinery lists emphasize for Fall. Egyptian toques—Persan turbans, adeptly swathed—dashing dress Hats adopted from court modes of France during the empire—these are Hat modes for Fall, 1922.

LETTERS SHOW DIFFERENCE IN NATIONALITIES

Captain Armstrong Presents Two Letters, One From Egyptian, One from Douk

An interesting example of English as it is written is contributed by Captain F. P. Armstrong of the government service. One especially, from a hopeful Egyptian, rich in oriental imagery, the other from a sturdy Douk, lacking polish, but very explicit, and as samples of the models of expression of the widely different races. The two documents following have a refreshingly original charm:

Ahmed Zeidan Is Polite.

Sir, Captain of Inland water May God prolong your. I take the liberty to offer my injustice to your equity, hoping to pay your kind attention to know the reason I the unders'gned, Ahmed Ziedan Reis of the steamer soldier No. 1.

the subject

On the date 7 the October while it was 5 o'clock eve the steamer was loading sugar at Hamadish and sailed to Mash el Kadima and arrived at 7 to 40 Minutes. I told the engineering to prevent coal to anchor the steamer to morning. There was two British soldiers dec'ded to leave to Boulac, but according to order I *could not agree with their opinion* as orders from 6 a. m. to 6 p. m., but they compelled for sail, at last on our way in the sea they began to turn the rudder and one of them saying, I am captain and by this way I could not prevent them untill the steamer arrived the Bridge of Gizeh and coll'ded with, that was the reason, you can take evidence from the engineer of the steamer and Bash Reis After unloading I received my salary the half month of October, and eight days after, then I received notice of discharge and that is wrongfully, as the reason of that colliede is the soldiers, and on other hand I passed five year in the service of the Brit'sh Authority at Canal Suez and Port Said, Ismaila and the Nile without committing any fault and you have seen that a poor one like me will do h's best in his duty as I have six children.

I know the new comer Re's which he is now in my place, he is the reason in my charge for some false citation he charged me, and he had done so to obtain his purpose to be in my place

I beg to inform you that that man has much antecedents. I mention that he was engaging in a steamer named Bisles, express Nile Company, and make collieded in the bridge of Zamalac and make a great deal of damage and loss about £ E 1800 fine to the comp and that is the reason of his charge which carried him to engage in the British Authority. I hope to replace me in my place or in any vacant situation, as I am poor, having a large family and there is no other trade to live but this trade of sea.

I have a full hope of your kind helpness. I am, sir

Your obedient servant,
AHMED KIEDAN,

Shows Material Mind

March 25, 1922.

C. R. Hamilton,

Dear Sir:—

Mr. Armstrong which fix the warfses he took a horse and he went to Nelson, he said that I tell Mr. Hamilton that I took a horse and I'll pay him for a horse did he paid you or told you that he took a horse and we worked for them we pulled poles off the earth he said I'll tell him about that too and I'll pay him for work. Please tell us did he told or paid you for that. Yours truly

PETE HWOSHKI.

But he came back now.

RUN ON REICHSBANK

BERLIN, Sept. 8.—Crowds again today besieged the Reichsbank to obtain cash. Many persons waited for hours in line and then were disappointed, as they only received a fraction of what they were entitled to on the Reichsbank checks.

Notices posted in the principal banks attribute the scarcity in currency to the printers' strike, but the belief prevails that it is due largely to the hoarding of notes.

FROST PAYS FIRST VISIT OF SEASON

EDMONTON, Sept. 8.—One frost this season. It came Thursday morning, when the temperature dropped to 30 degrees. Since then, both days have been raw and cold, although the mercury has stayed several degrees above the freezing point at night.

Wheat is practically all cut in this district and threshing is about half completed. It is hard in texture and local farmers are expecting it to grade number two at the lowest. Oats are poor, taking the area in its entirety, although Lesser Stave points report plenty of good crops.

RAILWAY CHIEF DIES.

ST. PAUL, Minn., Sept. 8.—J. T. Clark, 70, president of the Chicago, St. Paul, Minneapolis & Omaha railroad, died suddenly at his home here tonight.

Mr. Clark's death ended an active railroad career of more than 50 years, most of which were spent in executive positions with the Chicago & Northwestern and the Omaha lines.

He was born in Auburn, N. Y., November 20, 1953, and received his early education in the public schools there. His first railway job was as a messenger with the Illinois Central, whose services he entered in 1870.

Liberals Choose Lawyer to Contest Provincial Legislative Byelection

REGINA, Sept. 8.—At a Liberal convention tonight, Donald A. McNiven, lawyer, of this city, was selected as the Liberal candidate to contest the byelection to be held here September 26 to fill the vacancy in the local legislature caused by the elevation of Hon. William Martin to the bench.

PRIZEFIGHTS BECOMING POPULAR IN MEXICO

MEXICO CITY, Sept. 8.—(By Associated Press.)—As recently as three years ago a former heavyweight boxing champion attempted to make boxing popular in Mexico City and failed. Today the sport is intensely popular and the bouts which are held regularly every Friday night in Mexico City attract crowds that fill the Fronton, a huge structure in which the Spanish game of pelota is played.

The promoters are so enthused over the prospects of the fight game here that they are planning a combination gymnasium and arena, and they have already set up a school for boxers in which Mexican youths are given free instruction in fisticuffs. These students, in return for this instruction, furnish all the preliminaries to the main bouts and that they do well is attested by the fact that the popular verdict so far has always been that the youngsters are better than the older principals.

Invitations have been sent to several well known boxers in the United States inquiring as to terms for a fight here, and the word has evidently been passed around that the game is looking up in Mexico, because during the past few weeks theer has been a great invasion of "ham and egg" fighters who are perfectly willing to be mauled around for a few rounds for a few regular meals.

Persons who have watched boxing rise and fall in popular fancy here say there is more interest now than ever before. For the first time Mexican boys are being taught to box and their cleverness is undisputed. The Mexican spectators are also commencing to learn the game, and the job of a referee is not the hazardous task it was a few years ago when an unpopular decision usually meant gunplay.

CONDITIONS GOOD IN SASKATCHEWAN

SASKATOON, Sept. 8.—Harvest conditions continue excellent in central and northern Saskatchewan. While local showers have occasioned some slight delays during the past two weeks, wheat is now all cut, oats 75 per cent cut and threshing is progressing well, about 25 per cent being done. The labor supply is adequate.

INVESTIGATE COTTON MARKETING

WASHINGTON, Sept. 8.—A broad investigation by the senate agricultural committee into the methods and practices employed in the marketing of cotton was ordered by the senate today in the adoption of the resolution by Secretary Smith, democrat, South Carolina, which seeks to determine whether there is interference with the law of supply and demand in the cotton market.

ZBYSZKO WINS ON FOUL.

QUEBEC, Sept. 8.—The wrestling bout at the exhibition grounds here tonight between Stanislaus Zbyszko and Charlie Cutler was awarded to Zbyszko ona foul after 47½ minutes of wrestling.

LONDON, Sept. 8.—The Greek high commissioner, M. Stergiadis, today handed over Smyrna to the allied consuls. Allied naval detachments were landed Thursday.
