BENNETT MUM AFTER LONG CABINET MEET

Stevens Almost Certain to Be One of Those to Go to London

SPEECH FROM THE THRONE IS SHORT

Preparations Being Completed for Opening of House Monday

OTTAWA, Sept. 5—(CP)—Premier R. B. Bennett had no official announcement to make tonight at the conclusion of lengthy sittings of the cabinet. The sessional program was under consideration, but disposition was made of certain other matters.

No official intimation of any nature has been made by the government in respect to the tariff measure to be introduced at the session of parliament opening on Monday. A rumor is that the bill may perhaps provide for an increase in the tariff schedules of ten per cent with a long list of exceptions. Undoubtedly, the measure will be brief in form.

The speech from the throne is understood to be practically completed. The document which will only be made public on Monday is said to stress the necessity of dealing with unemployment immediately and indicates the bringing down of a measure of tariff revision. It is not lengthy.

The Australian treaty was under discussion late today between Hon. H. H. Stevens, minister of trade and commerce, and L. R. McGregor, Australian trade commissioner. While no official statement was made, it is understood that new markets for additional Canadian products in Australia and for certain products of the Antipodes in Canada whose importation would not be injurious to products of this country were discussed. The interview is viewed as a preliminary to further discussions likely to take place in London with Premier J. A. Scullin of Australia when the Canadian delegates to the Imperial conference arrive. The Antipodean prime minister is now en route to England by way of the Suez canal and consequently will not touch Canada on his journey as is the intention of Premier Forbes of New Zealand, Premier Forbes is due in this country about the middle of the month and trade arrangements between his country and the Dominion will be the subject of discussion when he reaches the capital in the course of his journey. Mr. McGregor is the first trade commissioner for Australia to be located in Canada and he arrived here in June, last. His headquarters are in Toronto.

Canada's representatives to the Imperial conference, in addition to Premier Bennett, are almost certain to include Hon. H. H. Stevens and Hon. Hugh Guthrie, minister of justice. It is now possible that Hon. Alfred Duranleau, minister of marine, may be the nominee from Quebec in place of Hon. Maurice Dupre, solicitor general. In the event of the likely departure of Mr. Guthrie, the solicitor general has to remain in Canada to look after the legal administration of the country.

Another step toward the opening of the session was taken late tonight when a tentative plan of seating for the members was prepared. The prime minister will have as his desk mate Hon. Hugh Guthrie. Other cabinet ministers are being seated from a viewpoint of seniority in the front row and some immediately behind their colleagues close to the speaker's chair.

HALIFAX, N. S., Sept. 5.—Frederick W. Baer, Kansas City, was re-elected international president of the International Association of Fire Fighters at the conclusion of the annual convention here today. George J. Richardson, Vancouver, was reelected secretary. The two have held these offices consecutively for 11 years.

Buenos Aires Is in State of Siege

Conservatives Drew Nearly Two Million Votes at 1930 Polls

Liberals Had Million and Half, Much Larger Than When They Were Victorious in 1926; Total Vote Was 3,898,995

OTTAWA, Ont., Sept. 5.—(By the Canadian Press)—The total number of votes polled at the last Dominion election. Of this number 1,909,955 votes were cast for Conservative candidates and 1,741,860 for Liberals.

The remaining 274,180 votes included 60,924 for U.F.A., candidates, 59,155 for Liberal Progressives and the balance were divided among Progressives, Labor, Farmer Independents and Communists. The total vote cast in the general election of 1926 was 3,273,062. These figures, made available today, are the result of a check up of official returns based on the party alignments as designated by the Canadian Press.

COMPARISON

A comparison of the popular vote received by parties and groups in parliament during the last two general elections, follows:

	1930	1926
Conservatives	1,909,955	1,504,855
Liberal	1,741,860	1,421,804
Progressives	39,993	100,776
Lib. Progs	59,155	89,904
Labor	45,302	49,793
Independent	49,355	18,636
U. F. A.	600,924	60,740
Farmer	22,766	
Communist	5,685	

The 1930 figures do not include rejected ballots which amounted to 16,554 in the 1926 figures but which are not yet available in the last returns. It will be noted that general election exceeded that cast the total popular vote in the last in 1926 by 625,933. A feature of the official returns is the large increase in the total vote polled by Conservative candidates. It is interesting, however, to see by the figures that, although the Liberal government suffered defeat, its candidates polled a much higher vote this year than in 1926 when it attained office.

INDEPENDENTS INCREASE

Despite the fast that Henri Bourassa was returned by acclamation and consequently no figures from Labelle are included, the total vote polled by Independent candidates showed a substantial increase over 1926. An arresting feature of the official figures is the great decrease in the number of Progressive votes cast in the last election. Liberal Progressive votes were also considerably less.

Labor candidates received a slightly smaller vote this year and U. F. A. held practically steady. New classifications, the Farmer in Saskatchewan and the Communists appear in the 1930 returns but were not in evidence in 1926.

RESTRICTIONS ON SPRINKLING MAY BE NEEDED HERE

Water Supply in Critical Condition; Mayor Asks Cooperation

That the Nelson water supply was in such a similar critical condition as was experienced two weeks earlier last year was the statement made yesterday afternoon by Mayor R. D. Barnes. The city was yesterday using more water than was being supplied by the total flow of Five-Mile creek and the reservoir was practically empty.

Mayor Barnes further stated that in the event of a fire, especially in the upper reaches of the city, there would be no water available for fire-fighting.

He felt certain that much water was being used in the city for both sprinkling and domestic purposes that was not absolutely necessary. Rigid conservation in this regard until a break in the weather occurred might nurse the water supply along without making the enforcement of sprinkling restrictions a necessity.

MUST HAVE COOPERATION

In this regard he emphasized that if some visible means of cooperation in the conservation of the water supply was not noticed within a short time, for the good of the city as a whole, sprinkling restrictions would have to be enforced at the beginning of the week.

He felt certain, however, that the solicited cooperation would be forthcoming, and that sprinkling regulations would not have to be resorted to.

B. C. MINISTERS GO TO OTTAWA

VICTORIA, Sept. 5—Two members of the provincial government, Hon. N. S. Lougheed, minister of public works, and Hon. W. A. McKenzie, minister of labor, left today for eastern Canada on unemployment missions.

Mr. Lougheed will go to Ottawa to confer with the federal government on plans for meeting the unemployment situation in British Columbia during the coming winter. Mr. Lougheed is going east at the request of Premier S. F. Tolmie, now in Ottawa, but about to return to Victoria. He will carry on the discussion with the federal government which the premier intitiated. It is understood these will relate to the possibility of carrying out public works at the joint expense of the federal and provincial governments. Mr. Lougheed also hopes to attend the annual meeting of the Good Roads Association of Canada in Quebec on September 16.

Mr. McKenzie will attend the annual convention of the international employment services of America in Toronto. Representatives of labor departments from all over America will attend this meeting for a discussion of general employment problems.

ACCOUNTANTS ELECT

HALIFAX, N. S., Sept. 5.—Members of the Dominion Association of Chartered Accountants motored today to Wolfeville, where they, concluded their annual convention, and returned to Halifax tonight after having elected G. C. Rooke, of Regina, president; Arthur E. Cox, Saint John, vice-president, and W. G. Hodge, Moose Jaw, secretary-treasurer. The council remains the same. Next year the convention will he held at Regina.

MANY KILLED, EXPLOSION

WILLEMSTAD, Curacao, Sept. 5 (AP)—Many persons were killed and wounded and considerbale damage done here tonight in a tremendous explosion at the Shell Oil company's high vacuum plant.

RIOTS FOLLOW RESIGNATION OF PRESIDENT

Many Are Injured When Police Clash With Demonstrators

YRIGOYEN QUITS PRESIDENCY

News Breaks Like Bombshell; Troops Are Held in Barracks

MANY ARE WOUNDED

BUENOS AIRES, Sept. 5.—(AP) — Many persons were wounded tonight when police clashed with demonstrators at the intersection of Avendis Mayo and Peru.

DISORDERS BREAK OUT

BUENOS AIRES, Sept. 5.—(AP)—Disorders following the resignation this evening of President Hipolito Yrigoyen broke out along the Avenue de Mayo, one of the principal streets of Buenos Aires.

A decree declaring the state of siege was the first act of Vice-President Martinez, who took over power. President Yrigoyen resigned in favor of Martinez.

Juan de la Campa, minister of justice, represented the entire cabinet last night in urging the president to quit, saying the best interests of the nation demanded it.

LIKE A BOMBSHELL

BUENOS AIRES, Sept. 5.—(AP)—President Hipolito Yrigoyen, twice Argentina's chief of state, resigned office this evening.

The president, known as "Argentina's powerful man of the people," retired after a week of political agitation and student riots. He turned over the ship of state to Vice-President Enrique V. Martinez.

State of siege in Buenos Aires was immediately declared by the vice-president. Troops were held in barracks.

The news burst in the fever-heated city like a bombshell. Sirens screeched, bombs were exploded, and extra editions were rolled out by newspapers.

Yrigoyen had held an almost dictatorial power in Argentina since his election to the presidency in 1928, for the second term. His first term began in 1916.

Late this afternoon a mysterious order from government quarters to "stand by" reached high newspaper circles.

Then at a given signal "La Nacion" exploded bombs, the customary way of announcing extraordinary events.

A few minutes later the news spread like wildfire that Yrigoyen had resigned.

Dr. Martinez, who is 44 years old, is a physician of the province of Cordoba, which is the most important in Argentina outside of Buenos Aires.

COUPLE KILLED IN PEACE RIVER

VICTORIA, B. C., Sept. 5.—Provincial police today received word of the murder of a settler and his wife, Mr. and Mrs. Babchuk, in their homestead cabin on the North Pine river, north of Fort. St. John, in the Peace River district.

The victims were shot to death and a radio message this afternoon received from Prince Rupert stated that a coroner's jury had brought in a verdict of death by gunshot wounds at the hands of a person or persons unknown.

Sergeant Greenwood of the provincial police, in charge of the Fort St. John district, and Constable Greenwood are conducting an investigation and search for the murderer or murderers.

Police investigation led to the belief that the couple were slain three weeks ago.

The bodies remained undiscovered until this week.

JUSTICE TO LEAVE SOON FOR PRINCE RUPERT ENQUIRY

VICTORIA, B. C., Sept. 5.—Mr. Justice W. A. MacDonald, of the supreme court, will leave for Prince Rupert shortly to open an investigation into the case of Norman Watt, former government agent at the northern city, whose dismissal was questioned at the last session of the house. Mr. Justice MacDonald has been appointed as commissioner to inquire into all the circumstances of the case, implementing the promise of the government to hold such an inquiry.

The exact date of the inquiry has not yet been settled, but will be some time next week, it is understood by officials of the government.

SPEAKS AT NAKUSP

Rev. R. J. McIntyre, provincial organizer of the B. C. Prohibition association, who, speaking at Nakusp, declared: "Compulsion of social custom at marriages, christenings and other banquets, parties and clubs," was one of the problems that any move to control drink had to cope with.

HUGE CARGO OF WHEAT TO LEAVE VANCOUVER SOON

Totals 13,000 Short Tons, Largest Ever Shipped From Coast

VANCOUVER, Sept. 5—The largest single cargo of wheat ever taken on one ship from Vancouver to the orient will be loaded by the steamship Chief Capilano next week for Shanghai, it was announced this afternoon. The shipment will total 13,000 short tons, or approximately 420,000 bushels A second cargo has been booked for Vladivostok, a Japanese freighter being due here early next week to load. The Alberta wheat pool is loading both vessels.

In addition to the above charters, the wheat pool during the past week fixed four full cargoes of wheat for the United Kingdom and continent. It was also announced today that four other full cargoes had been fixed for the United Kingdom-Continent by private shippers.

With space already booked on regular liners, it is expected the wheat shipments to the United Kingdom and Continent for September will aggregate 14,000,000 bushels.

COSTE INVITED TO TORONTO

TORONTO, Sept. 5— Possibility that the two intrepid French fliers, Capt. Dieudonne Coste and Maurice Bellonte, may visit Toronto and the exhibition sometime tomorrow was created tonight when H. W. Waters, on behalf of the directorate of the Canadian national exhibition, extended them an official invitation to fly over the exhibition and receive a Canadian tribute for their achievement.

The invitation was wired to the two fliers at Louisville, Ky., whence they are scheduled to fly to New York.

FIRE HAZARD IS REDUCED

PORT ARTHUR, Ont., Sept. 5.—A rain of some proportions through the night and favorable general conditions since have once more reduced the forest fires hazard in Thunder Bay to a minimum. Some fires are yet burning but at the moment are not the menace they were early yesterday when high wind after days of dry weather had begun to drive them through the wood.

FRANCE READY TO NEGOTIATE FOR ARM LIMITATION

PARIS, Sept. 5.—(AP)—A correspondent of the Associated Press was informed by authoritative French sources tonight that France is ready to negotiate a general treaty for the limitation of armament, based on the existing strength of the French army.

This decision regarding land forces is contingent upon the maintenance of the Versailles Treaty intact. French opinion was described as increasingly disturbed over the demand of German nationalists for revision of the Versailles Treaty.

The existing strength of the French army, including home land and colonial troops, was given here as 522,000. The French said that British troops in the homeland, India and other colonies amounted to the same figure.

YORK CITIZENS TAKE ACTION IN INVESTIGATION

TORONTO, Sept. 5—Out of the many rumors in York township since the opening of the probe into the engineering department contracts, comes the definite news of action on the part of ratepayers. A score of residents gathered together Wednesday night and urged plans for a general ratepayers meeting to urge that the present investigation extend back to the year 1924 and not stop at 1925, and to form a permanent body of citizens to look after the affairs of the township.

DEMANDS OF GANDHI ARE MADE KNOWN

Wanted Government to Have Right Secede From Britain

REQUEST REFUSED BY THE VICEROY

Gives Reasons for Failure of Negotiations to End Disturbance

POONA, India, Sept. 5.—(AP)—Negotiations for cessation of India's civil disobedience campaign have broken down because Mahatma Gandhi demands a full National government, responsibility to the people of India, and with the right to secede at any time from the British Empire as the price of calling off the movement.

This the viceroy, Lord Irwin, refused to grant.

Sir Tej Bahadur Sapru and Mr. Jayakar, the peacemakers who delivered these terms from Gandhi and other imprisoned Nationalist chieftains to the viceroy, and returned with Lord Irwin's reply, tonight made public the full correspondence, after stating that their peace efforts had ended in complete failure.

The Nationalist leaders—Gandhi, the Pandits Notilal and Hawarhalal Nehru, Vallabhai Patel and Mrs. Sarojini Naidu—drafted their demands at conferences in Yeroda prison here.

In addition to the principal points mentioned for a National government, they stipulated as follows:

That the government should have control of defence forces as well as full economic control.

That it be given the right to refer to an independent tribunal such British claims and concessions, including the Indian public debt, as seemed to them unjust.

That political prisoners not found guilty of violence should be released their confiscated property restored and any fines paid be refunded.

That village officers who resigned with the start of the civil resistance movement and were dismissed should be reinstated if they so desired.

That all special restraining ordinances be repealed.

The only concessions Lord Irwin would make were assurances that restrictive ordinances would be withdrawn if the Nationalist program was called off, and that he was prepared to give the All-Indian National congress an adequate—but not a majority—representation at the round table conference.

He would give no guarantee of political prisoners being released.

THREE NEW CASES OF PARALYSIS ARE REPORTED, TORONTO

TORONTO, Sept. 5—Three new cases of paralysis were reported to the city department of public health this morning, making a total of 17 for the month. Dr. Gordon P. Jackson, M. O. H., stated that analysis of the cases showed that there were 11 cases in three families.

The chill in the morning air is welcomed by Dr. Jackson, who expected the disease will disappear with the advent of cold air.

DOZEN HURT IN WRECK

MERWIN, Mo., Sept. 5—A dozen persons were injured, two severely, when the engine and four cars of the "Flying Crow," nightbound Kansas City Southern passenger train from Port Arthur, Texas, were derailed and piled up across the tracks at a switch here late today.

REBELS ARE SHOT FROM CANNONS IN AFGHANISTAN

PESHAWAR, India, Sept. 5.—(AP)—Kabul reports today said that in executing rebels who took part in a recent uprising, the Afghân government was shooting them from cannons, two or three at a time, to save gunpowder.

Travellers said most of the ringleaders in the Kohistan outbreak had been rounded up and their trials had started. On one day 22 were sentenced to death. The death sentences were carried out the next day, all being blown out of cannon. The travellers said that Nadir Shah's position was more secure than before.

Dead Considered to Be More Fortunate Than the Homeless

SPOKANE MAN STABBED AS REFUSES DIME

SPOKANE, Wash., Sept. 5. — (AP) — A beggar asked James Sauild, 36, colored, for a dime early today. Sauild refused. The beggar drew a long knife and ripped Sauild's abdomen in six places. Five men saw the stabbing, but the beggar escaped. Sauild was operated on, and may die.

AGAIN TALK FROM TRAIN BY PHONE ACROSS ATLANTIC

Passenger in Speeding C. N. R. Coach Talks to 'Chief' in London

MONTREAL, Sept. 5—Trans-Atlantic telephone conversation from a moving train was again successfully demonstrated this afternoon between Toronto and Montreal when a conversation took place between a passenger sitting on train No. 14, the International Limited of the Canadian National Railways, and a gentleman seated in his office in London, England.

The caller was C. E. R. Sherrington secretary of the railway research service of the British Railways, who spoke to the chairman of the same organization in London, England, while the International Limited was travelling at a high speed between Toronto and Montreal.

The conversation was concerning the progress in technical and operating efficiency affected during the last three years by Canadian and United States railways.

The connection was 100 per cent perfect.

GENERAL McRAE GOING ENGLAND

VANCOUVER, B. C., Sept. 5.—The Vancouver Province publishes the following despatch from Ottawa today:

"General A. D. McRae is expected in Ottawa in about a month on his way to England. It is authoritatively stated that he declined several weeks ago to go to London as high commissioner for Canada in Britain. No appointment to that office has yet been made and it is possible that the office will not be filled until after the Imperial conference.

"No appointment to fill the vacancy of ambassador to the United States has yet been made, since the retirement of Hon. Vincent Massey.

"There is every expectation here that Hon. Herbert Marler, Canada's representative in Japan, will remain indefinitely in that office."

TWO LOSE LIVES IN NIAGARA

NIAGARA FALLS, Ont., Sept. 5.—A man and a woman, both unidentified, lost their lives in the Niagara river today. No one saw the man go over, but his body was recovered by the veteran riverman, William "Red" Hill. There were no marks of identification on his body.

Hundreds of tourists saw the woman pass over the brink of the falls on the United States side. The body floated for a few minutes in the river below, and then sank out of sight, and has not been recovered. Eye-witnesses claimed the woman held her hand over her nose and mouth as she went over the falls.

DIRIGIBLE LOS ANGELES IS NOT DAMAGED, REPORT

LAKEHURST, N. J., Sept. 5.—The navy dirigible Los Angeles returned to its hangar at 7 p. m. today from a trip over up-state New York. The ship was not damaged in the least, its officers said, contradicting rumors that its rudder was put out of commission on the flight.

Plight of 30,000 Destitute, Santo Domingo, Becomes Critical

400 BUILDINGS LEFT OF 10,000

City Was Struck First by One Arc, Then by the Other of Blast

(By Rene M. Lepervanche, Associated Press Correspondent)

(Copyright, 1930, and all rights reserved by the Associated Press)

SANTO DOMINGO, Dominican Republic, Sept. 5. — (AP)—Under martial law, this capital of the Dominican Republic, oldest white man's city in the Americas, lay in ruins today as the bodies of more than 1200 of its citizens, men, women and children, burned on great funeral pyres.

And to the north lay death and desolation, the extent of which could not be guessed, for all means of communication between this Caribbean seaport and the interior was wiped out by the hurricane that whiplashed the island on Wednesday, leaving it as though an earthquake had torn it asunder.

In a way the dead in the city and the numbered dead elsewhere were, at least momentarily, less to be pitied than the living; for their suffering was a least ended, whereas the plight of the 5000 injured and the 30,000 homeless and destitute was growing hourly more critical.

Of the city's 10,000 buildings but 400 were left in which to house the wounded and the weak, and today they began to stalk the littered streets.

Relief workers had time only for the living, and lest the horror of pestilence be added to the city's sorry burden of misfortune, an attempt at burying the dead was abandoned in favor of mass incineration.

RELIEF SHIPS ON WAY

And yet, despite the terrific loss in life and property—the damage within the city limits was roughly estimated at $20,000,000—hope flamed strongly in the survivors' hearts and was strengthened by reports that relief ships were on the way with food and medical supplies, doctors and nurses.

Food, because of its insufficiency, was being strictly rationed, and President Loenidas Trujillo himself worked in wreckage-heaped streets seeing that the most needy were first served and most carefully protected.

As is always in the case in the aftermath of disaster, there were during the first paralyzed hours after the hurricane some instances of looting, but today the city was under martial law and the relief work went forward in the chaotic city with perfect order.

Because others could not be spared and in order to utilize every available agency in at least preparing for the gigantic reconstruction program that will have to be put into effect to rebuild the city, prisoners were set to work today clearing the debris from the streets.

WILL TAKE MONTHS

Their task will take them weeks, and maybe months, for it is a colossal undertaking just to clear the ground for the Santo Domingo that is to be. Masonry and timbers lie everywhere in tangled heaps, mounds of wreckage from which bodies were still being recovered today. The city looks as though all its man-made structures had been scooped up in giants' hands, crumpled to worthlessness and tossed back upon the ground.

Declaring that the situation was disastrous and that 90 per cent of the city was destroyed, President Trujillo appealed by cable today for quick assistance from all friendly nations.

It was really two disasters that beat that city prostrate Wednesday afternoon. For first one arc of the whirling hurricane crashed across the city, and then, after an interval, the other half of the circle ripped across the town in the opposite direction and completed the havoc begun by the first blow.

The famous cathedral, which has stood against the hand of man and the hand of time for 400 years, and is a jewel of architecture, was among the buildings that escaped destruction.

The tomb of Christopher Columbus also escaped.

CITY CREATES A POWER CLASS FOR CHILLING FRUIT

Gives McDonald Jam Two Cent K.W.H. $100 Minimum for One Year

NO CHANGE IS MADE FOR POWER PURPOSES

Council Unable to Give a Special Minimum for Stevenson

A new classification under the city's industrial power rate schedule has just been made by the city authorities, to cover the case of power used to chill fruit.

The bill rendered to the McDonald Jam company for its first month's use of power in connection with its new plant for chilling fruit amounted to approximately $250, a figure the company protested against as prohibitive for the purpose in view.

This is the first use of power in Nelson for this industrial process, and the council has made a classification to cover it, and has worked out a rate of 2 cents per kilowatt hour with a minimum of $100 per month, this rate to be effective for one year, after which the situation can be surveyed again.

CAN'T MODIFY MINIMUM

Another user of power under the industrial schedule, H. E. Stevenson, made application for a special rate for a 10-h.p. motor in his blacksmith plant on Vernon street, the maximum being used perhaps an hour a day in connection with car springs, while for most purposes about two horse-power is used, with the result that his actual consumption amounts to only a small fraction of the monthly minimum of $20 for such a motor.

Mr. Stevenson stated he would be satisfied with either a minimum charge of $10 per month, or to pay for power actually used, but if the city held him to the existing rate he would be obliged to change to a gasoline engine.

The decision of the council's "committee of the whole" has been that this rate, which affects some score of industrial users, cannot be varied in an individual case, as such would create a precedent which would immediately be availed of by other industrial users who might be using less than the quantity paid for under the minimum clause. The city's position is that it has to be ready to furnish the maximum power, and that the minimum consumption fixed is reasonable.

Chanel's jersey frocks gained new effect through the buckles of brilliants which fastened the belts, also the soft ruffled details at necklines.

RADIO SIGNALS SENT ON HALF METER WAVE NOW

NEW YORK, Sept. 5.—Radio communication on ultra short waves below one meter has been achieved by Shintaro Uda of the college of engineering, Tohoku Imperial university, Sendai, Japan.

Using a wave length a half meter long, Uda was able to transmit and receive both telegraph and telephone signals over a distance of 10 kilometers, or approximately 6.2 miles.

A paper written by the experimenter and published by Proceedings of the Institute of Radio Engineers said that "this achievement is chiefly due to the development of a special reciver for such extremely short waves, and thus there remains no question of the possibility of the practical application of these extremely short waves."

MRS. G. A. FORBES OF PASSMORE IS CLAIMED, DEATH

Was Well Known in the District; Taught School at Waldo and Salmo

Following an acute heart attack, death claimed Mrs. George A. Forbes of Passmore yesterday. For many years she had suffered from heart trouble.

Mrs. Forbes, who was formerly Miss Bessie K. Dockendorff, was well-known in the district, having taught in Waldo, Salmo and Canyon City, successively, previous to her marriage in 1912.

She was born in North River, Prince Edward island in 1881, and received her training as teacher in Prince of Wales college, Charlottetown. For a number of years after her marriage, she lived in Alberta, moving to Passmore with her husband and family nearly seven years ago.

Besides her husband she is survived by five children, Howard, James, Margaret, Evelyn, and Enid, two sisters, Mrs. Heath McLean of West Newton, Massachusetts, who is in Passmore at the present time, and Mrs. Edgar Jamieson, who has recently moved from Passmore to Nelson; also one brother, Harold, engaged in farming at St. Boswell, Saskatchewan.

The funeral will be held in Nelson on Monday.

BEATEN UP

John Lang, a Toronto taxi driver, who was stopped by police when driving John Nevins, convicted bank bandit, and states he lost his job, his licence, and was beaten up by acting detective Tinsley.

DISTRICT FIRES TOTAL NOW 810

Gang of 25 Men Sent to Fire at Slocan Park; Backfiring Is Done

Yesterday 810 fires had been registered for the season throughout the district. Of this total 68 fires were still burning. New fires reported during the week numbered 69.

Smoke that drifted into the valley during the past few days came mostly from the backfiring that was done on the fire across the river from Slocan Park.

Yesterday 25 men were sent from Nelson to this fire which was being combatted previously by about 15 men.

The remainder of the district was reported in good condition.

Rossland City Social Events

ROSSLAND, B. C. Sept. 5—Mrs. E. T. Davies is visiting with her sister in Penticton.

Mrs. J. J. Cullinane left last evening for a visit with friends in Spokane.

Mr. and Mrs. R. H. Davies left Wednesday evening to spend the fortnight at their former home in Armstrong.

Mr. and Mrs. Alfred Endersby of Fruitvale are spending a few days in the city.

Mr. and Mrs. Gus Hansen have returned from a motor trip trip through Washington.

Mrs. Martin Morrell of Prince Coupe, a former resident of this city, who was called to Colville by the illness and death of her mother, is visiting in Rossland, the guest of her sister, Mrs. John Newman.

CHARLES SCANLAN VISITS IN TRAIL

TRAIL, B. C., Sept. 5.—Charles Scanlan until recently accountant of the local branch of the Canadian Bank of Commerce and now of Seattle, was a visitor to the city today. Mr. Scanlan drove from Seattle, leaving there at 5 o'clock last evening and arriving in Trail this morning at 9 o'clock.

Mr. Scanlan left early this afternoon for Nelson where he will visit for a few days with his father before leaving again for Seattle.

CONTROL OF DRINK DIFFICULT, SAYS PROHIBITION MAN

Speaking at Nakusp, Rev. R. J. McIntyre Tells of Obstacles

NAKUSP, B. C. Sept. 5—Rev. R. J. McIntyre, Provincial Organizer of the B. C. Prohibition Association arrived here from New Denver by Wednesday's train. He spoke in the afternoon to High and public school pupils.

In the evening he addressed a public meeting in the United Church, where he was greeted by an appreciative audience of both young and old. Introducing his subject, the speaker referred to early days in the Slocan district where he "pitched" for Sandon baseball team 28-years ago, and played hockey with the team which won B. C. Championship.

Mr. McIntyre gave a forceful, interesting address.

The liquor question was an ancient and a world problem. He cited examples of how every civilized country is attempting to condrink.

It is a different problem because it has to cope with:

1—A created appetite

2.—Ignorance and Prejudice.

3—Compulsion of social custom, at marriages, christenings and other banquets, parties and clubs.

4—A highly organized, wealthy traffic—the greed of getting rich.

5.—Government and political complications.

He spoke hopefully of the campaign of educating the youth, and mentioned Japan as one nation, where 10 million young people receive scientific temperance Mr. McIntyre was entertained by Mr. and Mrs. E. W. Somers intersection.

DR. J. P. GUSSIN RETURNS FROM MEDICAL MEETING

Does Research Work at Winnipeg General Hospital, Before Return

Dr. J. P. Gussin, who has just returned from the meeting of the British Medical association held last week in Winnipeg spent five days after the meeting concluded doing research work at the Winnipeg General hospital with which he was connected for some time.

Dr. Gussin last night reiterated the statements of his colleagues to the effect that the meeting at Winnipeg had been a decided success.

MRS. RUTHERFORD TO JUDGE SHOW AT TRAIL FAIR

TRAIL, B. C., Sept. 5—Mrs. William Rutherford of Nelson will judge the flower and vegetable show Tuesday next. W. J. Shepherd of Victoria, formerly of Nelson, had been slated for this work but was unable to come. Announcement to this effect was made this morning by George F. Reimann, secretary manager of the shows.

In addition to the donation of $25 by the City of Trail, the flower and vegetable show has received donations of $50 each from the Municipality of Tadanac and the Consolidated Mining and Smelting company.

In order to encourage exhibitors and the attendance of the public at the show neither entry fees nor admission fees are being charged. It will be of the first display of its kind to have been held in Trail in some years and it is anticipated that considerable further interest will be aroused in horticulture in Trail and district.

HEATING SYSTEM IS CONSTRUCTED TRAIL SMELTER

TRAIL, B. C., Sept. 5.—Construction work has been started on the steam pipe line for heating purposes from the boilers of the new slag, retreating plant of the Consolidated Mining & Smelting company at Tadanac, to the fertilizer plant at Warfield

This work will be pushed to completion in order that heat may be furnished the Warfield plant early in December.

The pipe line will be 7500 feet long and constructed of 10 inch pipe insulated throughout. In addition to the fertilizer plant it is planned by means of this line to heat various smelter units at Tadanac.

"With black pailletes revived—the new fall evening gowns live up to their responsibility for brilliance."

DISTRICT FIRES TOTAL NOW 810

Gang of 25 Men Sent to Fire at Slocan Park; Backfiring Is Done

Yesterday 810 fires had been registered for the season throughout the district. Of this total 68 fires were still burning. New fires reported during the week numbered 69.

Smoke that drifted into the valley during the past few days came mostly from the backfiring that was done on the fire across the river from Slocan Park.

Yesterday 25 men were sent from Nelson to this fire which was being combatted previously by about 15 men.

The remainder of the district was reported in good condition.

Social Events of Trail City

Rev. W. F. Price who has spent the last two months at Lloydminster, Alta., returned to Trail last night.

* * *

Mr. and Mrs. J. McAdam of Nelson are spending a few days visiting in the city.

* * *

Miss Foy Miles left last Friday for normal school at Victoria. She is staying a week with Mrs. B. Ramsden in Vancouver.

MERCURY CLIMBS STEADILY HERE

With the mercury still according a rise, a comparatively warm day was experienced here Friday. During the past few days a steady rise has been registered, after a week of cool weather. The maximum temperature yesterday was 86 degrees, a rise of three degrees over the previous day's maximum and the minimum was 48 as compared with 45 degrees on Thursday.

Humidity, was also considerable higher. At 8 a.m. it was 73, at 2 p.m., 34 and at 5 p.m., 57.

TO MEND TEARS

A good way of mending a tear in a tweed coat or skirt quickly and invisibly is to use a few needlefuls of human hair (supplied from combings.)

Writer Calls Them 'Doukaboors'

TORONTO, Ont., Sept. 5.—(By The Canadian Press)—An interview in Saturday Night takes up Marjorie Harrison's book, "Go West—Go Wise" and makes this note on some of her remarks: Toronto is the "city of efficiency" possessing "the most strategetic position of any city in the world," and 100 years from now it will be the world's most important city. The efficiency paean loses a little of its sweetness with a reference to complaints Miss Harrison heard many times from Canadian business men that their stenographers could not spell. She quotes a letter she received from the secretary of a hotel manager in which occurs this: "We cannot definately promise but will do our best after you reach hear." The author herself subsequently dealing with immigrants from Russia, refers to those strange and difficult people, "The Dukaboors and Menanites". Some spelling!

"Pottsfield Pickle: (Contributed by H. H.) In a large bowl place three pints of chopped red tomatoes, three pints of chopped green tomatoes, five red peppers (seeds thrown away) and three pints of chopped peeled onions; add one-half cup of salt and let stand overnight. Next day drain well before turning the mixture into the preserving kettle and adding two bunches of celery cut small, three pints of vinegar, one quart measure of granulated sugar, one-half teaspoon each of dry mustard and ground clove, and one cup of white mustard seed. Cook slowly one and one-half hours, stirring now and then. Turn into hot, sterilized jars and seal at once."

"Watermelon Rink Pickle: (Contributed by F. S.) Peel the rind, then cut into good sized pieces; cover with boiling water and simmer five hours, or till transparent adding a little more water as it boils away. Drain, and to the cooked rind add one pint of vinegar, one quart measure of granulated sugar, one teaspoon of whole cloves, and several short lengths of stick cinnamon tied in a tiny cheesecloth bag. Boil this mixture one and one-half hours, then let stand for several hours. Boil again—this time also for one and one-half hours—before turning into hot sterilized jars and sealing airtight."

"Quince Preserves: Boil four pounds of granulated sugar with four cups of water for five minutes cut into eighths after being pared. then add one-half peck of quinces Cook till tender (light brown in covering with paraffine when cold." color) and turn into jelly tumblers,

NELSON SCOUTS WIN SECOND IN FIRST AID WORK

TRAIL, B. C., Sept. 5.—Trail's Boy Scout entry in the Wallace Nesbitt Jr. first aid competition won third place in British Columbia, only a few points behind the first and second teams.

Brttannia high school juniors Vancouver, were first with 109 points; No. 1 Troop Boy Scouts of Nelson was second with 104; and No. 1 Troop Boy Scouts of Trail third with 94.

The remaining three teams were far behind. Juniors of Cassidy having 69; No. 1 juniors of Nanaimo 56; and No. 2 juniors of Nanaimo 51.

Ernie Cook is first aid instructor of Trail Scouts.

CHINESE ACCIDENT VICTIM REPORTED DOING FINE HERE

Sedo Ying, Chinese pedestrian who was run down on Baker street Thursday afternoon, sustaining painful injuries, is now in the hospital and is reported to be doing fine. He is resting well and quick recovery is expected.

Sedo Ying was run down by a motor cycle driven by Pete Selinger, when he became confused in the traffic at the intersection of Baker and Kootenay streets.

NOISES DISTURB WO KEE'S CALM

Wo Kee, a Chinese merchant on Hall street, has lodged a complaint against "irresistible noises" emitted by a house on Lake street. It is in the hands of the police commission.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. K. C. Muir, 823 Latimer street, announce the engagement of their daughter, Margaret G. Richmond Muir, to William G. Morrison, of Nelson, only son of Mr. and Mrs. W. A. Morrison, New Westminster.

Dark-brown stockings with neither too brown nor too yellow a hue will be the most popular this fall with the black ensemble.

MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips Milk of Magnesia.

This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour-belching, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, children's diseases.

A teaspoonful of Phillips Milk of Magnesia does the work of half a pint of lime water in neutralizing cow's milk for infant feeding and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book "Useful Information." It will be sent you, FREE. Write the Chas. H. Phillips Chemical Co., Windsor, Ont.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years.

OCEAN FLYERS TAKE REST AT KENTUCKY CITY

Huge Crowds Cheer Coste on His Return From Dallas, Texas

LOUISVILLE, Ky., Sept. 5—Greeted by the cheers of thousands of citizens and the shrieking of factory whistles, Captain Dieudonne Coste and Maurice Bellonte, Paris-to-New York-to-Dallas fliers, swept out of a murky sky and landed on Bowman field here at 6:41:35 p.m. (C.S.T.) tonight.

As the wheels of their plane touched ground for the third time in America, a crowd of approximately 6,000 persons surged forward, shouting a noisy welcome. The fliers had left Dallas, Texas, at 12:30 p.m.

The Frenchmen, obviously tired from their Paris to New York flight, and the subsequent non-stop flight from New York to Dallas had requested through their manager, Rene Racover, that no entertainment be provided for them here. Plans for a banquet and other forms of reception were abandoned, and the only official ceremony was the greeting of a welcoming committee headed by Major William Harrison.

JOINT HIGHWAYS RESEARCH BODY IS UNDER WAY

REGINA, Sask., Sept. 5.—(CP)—Steps toward the formation of a joint highways research bureau for the three prairie provinces were taken at a meeting here today between Hon. W. R. Clubb, Manitoba minister of public works; H. S. Carpenter, Saskatchewan deputy minister of highways, and C. A. Davidson, Alberta highway commissioner.

The decision reached by the three roads officials was that such a bureau is desirable, although further consideration should be given the matter before it is definitely established. A central bureau office for the western provinces was favored.

The meeting was held in connection with the concluding sessions of the North West Highways association, at which C. T. Bates, South Dakota highway commissioner, was elected president of the body and W. W. Perrie, Saskatchewan, secretary.

The next meeting of the association will be held in Rapids City, South Dakota, in 1931.

NEW MINISTER PLEDGES SELF HELP FARMERS

TORONTO, Ont., Sept. 5.—(CP)—In the first public address he has made since assuming the portfolio of agriculture in the Bennett cabinet, Hon. Robert Weir pledged himself to promotion of the welfare of the farmers of Canada as diligently as he had his own farm.

Mr. Weir addressed the directors of the Canadian National exhibition at their luncheon and made the announcement the Dominion government would complete the coliseum with a horse stable wing as soon as the other interested parties had guaranteed their contributions.

He assured his audience the government at all times would do all in its power to make this fair and the royal winter fair ever greater and remarked on the changing viewpoint of urban and farm dwellers.

"Formerly, he said, the city folk had felt a certain superiority, and the farmer had thought he was the foundation of it all. They both now realized they were completely complementary.

'THIEVES MARKET' IS GONE

MEXICO CITY, Sept. 5.—One of this capital's tourist attractions, known to visitors as the "thieves' market," but unknown as such to the natives, has gone. The government condemned the site for the new supreme court building.

For more than 200 years the block has been a place of barter and sale. Legend has it that it came into existence as a place for disposal of loot but of late years it was used as a place of legitimate second-hand trade. Tourists who looked for what the guide books called the "thieves' market" seldom found a native who knew what was wanted.

Sowing from 6 to 9 pounds per acre of the best grade mangel seed and thinning the plants out to nine inches apart gives the highest yield per acre according to field husbandry experts of the Dominion department of agriculture. These deductions were arrived at after a series of studies in planting and thinning carried out over a period of five years.

St. Paul's United Church of Canada

Rev. T. J. S. Ferguson, B. A., Minister.
F. E. Wheeler, Organist and choir master.

Morning theme: "The Faith that Saves."
Evening theme: "A Great Jewish Scientist and His Discoveries."
This is the first of a series on great lives from the different races. These stories will be enhanced by music from the nations represented.
Sunday night, the organist will play as offertory the Hebrew melody, "Kol. Midre" used in the synagogue. The anthem will be the Hebrew, "Break Forth into Joy."
Sunday School 10 a.m.
Ladies Aid Meet Monday, September 8th at 3 p.m. in the vestry. Important business.
Wednesday, September 17th. An evening of fun for all in St. Paul's Hall. Keep this date.

IS ENGAGED

Interesting camera study of Jane Norton, eldest daughter of Mrs. Porter Norton of Buffalo, who is engaged to marry Douglas R. Clarke, youngest son of the late Lionel H. Clarke, former lieutenant-governor of Ontario, and Mrs. Clarke, the wedding to take place shortly.

SOCKEYE TREATY IN REAL DANGER

Such Is Statement Following Meeting in United States City

VANCOUVER, Sept. 5—The Fraser river international sockeye salmon treaty is in real danger of being killed by the action of United States seine boat operators offering reservations to their approval at a hearing in Seattle yesterday before United States Senators Wesley Jones and C. Dill, it was stated here today by Richard J. Gosse, executive head fo the British Columbia Packers, limited, who attended the hearing.

The United States seine men asked that control of fishing gear be taken out of the hands of the proposed international commission, as provided in the treaty, and that the prohibition of seine fishing on the high seas be removed. The latter refers to the inclusion of the Swiftsure Banks at the south end of Vancouver island in prohibited territory. Canadian observers expressed the opinion that these reservations might not be acceptable to the Canadian parliament, if the treaty, already ratified by Canada should be reopened.

CLUB BOASTS FIRST GLIDERPORT

ST. LOUIS, Sept. 5.—Now comes the "gliderport" and St. Louis lays claim to the first one in the world. Differing from the level airports of motored aviation, the "gliderport," a new term in aeronautics—utilized hills and a valley three-fourths of a mile long.

The tract, situated in the suburbs of the city near Creve Couer lake, was selected by the St. Louis Glider association because of the nature of the hills and valley and the favorable way in which winds strike. Called "the world's first exclusive gliderport," it is named after Harry Kuchins, the city's gliding pioneer who first created interest here in motorless planes more than a year ago.

Lambert field was the scene of the first glider flights and it was there that Colonel Charles Lindbergh made his first non-motored flight in a ship now owned by Kuchins and being used by members of the association. When a level field proved unsatisfactory, Kuchins and other enthusiasts tried out two other fields before locating and leasing the present "gliderport."

Kuchins heads the St. Louis Glider association, a non-profit organization in charge of contests, licenses and other activities for all clubs in the city. Fees are utilized for new equipment and before the summer is over the members expect to have 10 gliders in operation.

VOTE DECIDES NEGRO MAY EAT, ICELAND CAFE

REYKJAVIK, Iceland, Sept. 5.—Negros scored a victory in Iceland when the guests of Reykjavik's leading hotel voted 338 to 19 in favor of permitting them to use the restaurant.

The vote was taken when the manager asked a negro to leave the dining room. Some of the guests disagreed with the action and the ballot was cast to decide the question.

QUEEN IS GIVEN ANTIQUE VASE

LONDON, Sept. 5.—(By The Canadian Press)—When Queen Mary opened the Bethlehem Royal hospital recently the architect asked the Queen if she would accept a special momento instead of the customary golden key, and her majesty was obviously delighted as she was handed an antique Chinese vase which she had admired on a previous visit to the old hospital.

The new hospital buildings are situated in two hundred acres of parkland at Monk's Orchard. Among the buildings are a science and treatment laboratory given by Lord Wakefield, a chapel and organ given by Lady Wakefield, and a $25,000 recreation hall given by Lady Cooper in memory of her husband, the late Sir Edward Cooper.

Princess Elizabeth has begun morning music lessons, which she enjoys, and she has taken her scale book with her to Glamis Castle, where she plays on her mother's piano, and it is said Princess Elizabeth is anxious to play her first piece to the Queen on her return to London in the late autumn, while it is added Princess Mary's sons are quite experienced pianists, and they inherit their gifts from their mother, who is the most musical of all the members of the royal family.

ESTIMATES NOT TO BE EXCEEDED

Heads of City Departments Are Advised Must Get Authorized

"No exceeding of esitmates" is the word that has gone out at the city hall, to the heads of departments. No department may at its own pleasure go beyond the figure allotted to it, but must get the permission of the council before committing the city to uncontemplated expenditure.

The notification to the heads of departments is a consequence of the following recommendation from the civic finance committee, which was unanimously adopted by the city council Tuesday night.:

"Your finance committee would draw the attention of the council to the statement of expenditure submitted to them, with particular reference to those departments where the expenditure has reached such proportions that the estimates are liable to be exceeded, and would recommend that the heads of all departments be notified that the estimates for the year as adopted must not be exceeded unless authority so to do has first been obtained from the council."

HUGE LAND PLANE MAY BRING CHEAP EXPRESS, FREIGHT

DESSAU, Germang, Sept. 5.—The world's largest land plane, the Junkers G-38, will be put to work as a German freighter. Designed to carry 42 passengers, a crew of seven, and 6600 pounds of cargo the giant monoplane has been groomed for service on commercial air trails by its first cross-country flights.

The ship is seen by Prof. Hugo Junkers, its designer, as a realization of a problem on which he has worked for 20 years — economical and dependable air transportation of large loads over long distances. Surpassed in size only by the Dornier flying boat, DO-X, the freighter is an approximation of the "ideal "flying wing". Its four motors are built into the single wing which is accessible almost to the extreme tips.

Aside from two cabins in the fuselage, passengers, pilot room and cargo and fuel spaces are located in the all-metal wing. The engines are accessible from within for servicing during flight. To support the normal flying weight of 23 tons on the ground, a landing gear of two wheels mounted in tandem on each side represents a new departure.

A telegraphic device allows the pilot, who is relieved of the care of the power plant, to communicate with the chief mechanic. There are two complete systems for fighting fires, one operated electrically or automatically when a fuse melts, and another by a hand valve. The ship is of all-metal construction and has a cruising speed of 106 miles an hour. Its wing spread is 144.35 feet, less than 14 feet shorter than the span of the DO-X.

SECOND LONGEST AIR MAIL LINE NOW OPERATING

OAKLAND, Calif., Sept. 5.—Inauguration of the first border-to-border Pacific coast air line makes it possible to travel from San Diego, a few miles north of the Mexican boundary, to Seattle in less than 13 hours.

The 1100-mile mail route of the Pacific Air Transport has been extended to San Diego from Los Angeles, making it the second longest mail-passenger route in the country, 1204 miles, compared with the Oakland-Chicago run of 1943 miles.

'ENOCH ARDEN' WIFE IS BACK AFTER 18 YEARS

NEW BERN, N. C., Sept. 5.—What might have been a modern Enoch Arden triangle with the sex of the principal characters reversed, came to light here recently.

About 18 years ago Mrs. Asa Ipock left her husband and children. Seventeen years her husband waited and watched for his wife to return. A year ago he married again. Now the first wife has come home and Mr. Ipock faces a charge of bigamy in the superior court.

Pacific Milk Did Wonderful

A patron of Pacific Milk who lives at Revelstoke, writes:

"I put my baby on the bottle at the age of three months. I tried every milk in town but with poor results. I was then advised by a friend whose baby was on Pacific Milk and doing well. I tried it out and she took to it right away. She began to pick up, and has been doing wonderful ever since. She is now seven months old and weighs 22½ lbs."

MAIL BY SUBWAY

WASHINGTON, Sept. 5.—Shooting cans of mail through underground tubes from airport to post-office is the proposal of four congressmen for speeding up the air mail.

Awaiting action in the session beginning in December are four house bills which would provide systems of pneumatic tubes to replace motor trucks which often must weave through miles of heavy traffic. The post office department however, has withheld backing of underground carriers until airports and air mail service are more permanent.

HOUSES HARD TO SELL

Houses may have sound timbers and built into them the best of workmanship, but if the exetrior lines are old, the siding weather-beaten and unpainted, the interior lacking in all of those modern contrivances that make for the comfort and convenience of the housewife, they are avoided

POULTRY INDUSTRY HAS HUGE INCOME

WASHINGTON, September 5.—An annual income of more than $1,00,000,000,000 now is produced by the United States poultry industry, representing 10 per cent of the total farm income.

A survey of the department of agriculture shows this country to be the home of one-third of the world's poultry population.

There are more than 6,000,000 separate flocks in the United States, including about 442,000,000 chickens.

Apply Minard's every day and rub it in well with the finger tips. It penetrates and heals. Removes inflammation.

A remedy for every pain.

MINARD'S "KING OF PAIN" LINIMENT

WOMAN APPOINTED MANAGER, OPERA

MILAN, Italy, Sept. 5.—(By The Canadian Press)—Signorina Anita Colombo has been appointed directoress of La Scala Opera House. The appointment of a woman to manage the fortunes of one of the most famous opera houses in the world has come as a bombshell to Italian musical circles. Sex equality is scoffed at here and the news of a woman's invasion of one of man's greatest strongholds has caused much astonishment.

BUILDING PROGRESS IN THE CITY

Building in Nelson continues to move ahead. Nelsonites do not notice the general building progress and growth as do former residents who have come back to the city on vacation trips.

Nelson's building program is not confined to any one section of the city. All portions are benefitting.

Building this year has been brisk in the business section and several large structures have just been completed or are in the course of completion.

In the upper sections of the city new homes are going up rapidly. In Fairview, especially, is an extensive program of home building being carried out.

All of this is a good sign. It is a sign of progress in the city. It is a sign of faith in the future. It means that there is money in Nelson being spent for the good of the city.

An interesting feature of the building program in Nelson is the fact that all new homes now going up are being built substantially and modernly. Nelson has always been known as a city of homes and new additions in the residential sections, along with those in the business sections, give Nelson residents all the more opportunity to be proud of this city of ours.

Pretty and substantially built homes, large and becoming business blocks, cement streets and sidewalks that are permanent, well kept gardens and lawns, excellent schooling accommodations, scenic attractions and Nelson's geographic situation, certainly make it the "hub of the Kootenays", a city of progress.

BLACK AS SPEAKER WILL BE POPULAR

Choice of Premier R. B. Bennett of George Black of the Yukon as speaker of the house of commons will be met with favor across the Dominion, and more so in western Canada where the member for the Yukon is so well known.

The new speaker enters upon his new duties not as a novice by any means. He has had nine years in the Dominion house, having been elected first in 1921 for Yukon, and having been re-elected in the general elections of 1925 and 1926 and again this year.

Mr. Black began his political career as a member of the Yukon council in 1905. He first took a try at Dominion politics in 1909 when he was defeated in a deferred election in Yukon. In 1920, after serving overseas, he ran as a candidate for the B. C. provincial house but met a similar fate. Coming back as a candidate in the general election of 1921 he was elected and has remained Yukon's member ever since.

TWENTY YEARS AGO

(From The Daily News of September 6, 1910)

Born September 2, to Mr. and Mrs. Selwin G. Blaylock, the former being superintendent at the St. Eugene mine, Moyie, a daughter.

* * *

In the rock drilling contest, the main item on the Labor Day sports program at Trail yesterday, Johnson and Erickson carried off the honors, drilling 42 5-16 inches. Tierney and Carmichael of Republic, Wash., carried off second money.

* * *

Blake Wilson and John A. Gibson left yesterday for Orient, Wash., where Mr. Wilson is interested in the First Thought mine.

* * *

Work on the new government road between Slocan Junction and Bonnington Falls began yesterday under Foreman Gerald Ashley.

* * *

Finding the mountain to the south of Nelson somewhat dull on Labor Day, a black bear of unusual proportion made his way down the hill to the head of Stanley street. Here he upset a party of holiday makers on their way to town, when he dashed across a garden in an attempt to escape the bullets of one of the party.

"How do you like my new perfume, Cyrano?"

That Body of Yours

By JAS. W. BARTON, M.D.

THE FASTING CRAZE

It is rather comforting to know that this craze for fasting is passing away.

In one way this would appear to be unfortunate because the United States secretary for agriculture, tells us that the reason the farmer has a surplus of food stuffs is because health writers have been advising the public not to eat so much.

However one of the reasons that fasting is not so popular as it was a year or two ago is because of the disastrous effect it has had on many individuals who have tried it.

Unfortunately it was mostly on our women folk who tried the fasting—young women still in their teens wishing to maintain a boyish figure, and women between thirty and forty years of age who felt that they were growing too stout.

A short fast of a day or two can be quite helpful, not because it cleanses the entire system as many think, but for the time being no more food is eaten.

However a prolonged fast can do real harm, because with no food going into the system, there is not the impulse for the wastes in the intestine to move along.

Fasting causes stagnation of the entire intestinal tract. The bile becomes thickened and the intestinal canal has decomposing mucous and other wastes, which are actually absorbed by the blood.

Another point to remember about fasting is that you need about 80 per cent of the food usually eaten to keep the body processes going. If you don't eat, the body doesn't stop working; your heart beats, the blood circulates, the lungs breathe air in and out; your skin perspires and the kidneys and other organs continue to work.

Where do they get the fuel to do this work if you don't eat?

They take it from your body, and they not only take your fat tissue but they use up all the other tissues also. According to Dr. K. Von Noorden, the percentage loss of tissues may amount to 95 per cent of the fat, 40 to 45 per cent of the muscles, heart glands, and blood, and 10 to 15 per cent of the bones.

Your system may not be able to withstand the loss of these valuable tissues of the body.

A short fast of two days, then cutting down 10 to 15 per cent on the food intake is a more sensible method of reducing weight.

Remember, impulses that propel food and wastes down the intestine should always occur after eating a meal.

If you don't eat regularly, even if the meal is small, you lose the benefit of these impulses.

PASTOR PREACHES, HEN LAYS

Just after the pastor of a church in the Highlands of Scotland had started to preach on a recent communion Sunday, a hen in the loft started to cackle. Interrupting the discource the good man left the pulpit and went to the loft to expel the intruder. The hen eluded all efforts to catch it, and deciding between pulpit and pullet, the pastor returned to continue his sermon which continued to be punctuated by cackles. At the conclusions of the service an egg was duly collected from the loft.

TEN YEARS AGO

(From The Daily News of September 6, 1920)

The unveiling of a monument to George Etienne Cartier took place yesterday at Quebec.

* * *

M. Brooks of Nelson and Sidney Cox of Vernon, who are doing natural history research work in the Queen Charlotte islands, put arsenic in their biscuit flour, thinking it was four, recently. They have been very sick but are recovering.

* * *

At the Trail flower show yesterday Harold Selous of Nelson captured first prize for the best collection of flowers. He captured 13 firsts, five seconds and one third. R. V. Ramsden and A. W. Wigg were also among the prize winners.

* * *

As a result of Douglas Cummins' livery auto going over the bank about half a mile this side of Slocan City yesterday, Andrew Spiers and his young child were seriously hurt.

FORECAST OF THE WEEK'S WEATHER

By Foster

WASHINGTON, Sept. 6 —Storm wave of mild intensity, expected to cross continent in a central transcontinental storm path during week centering on September 2, will be a cool storm center and will be followed by general a cold wave centering on 6; this cool wave is not expected to cause unseasonable temperatures in any area of continent, but will probably cause some light frost and hail in northern spring wheat belt. September is expected to average above normal temperatures for the month for the continent, the principal period of low temperatures and heaviest precipitation expected to center on 26. Excepting the northwest and the central Atlantic coast, drouth was expected to be broken in all areas during last week of August and precipitation to increase during month of September crop conditions are expected to make a gradual but steady improvement during September. Storm wave of moderate force, expected to cross continent during week centering on 10, will move well into the south and cause the greatest extremes above normal temperatures of the month. No extremely cold or cool waves will be expected during September 1 to 20; temperature extremes of month will be caused by high temperatures near 10 and low temperatures near 26. Northern crops that get through last week of August without frost damage, will not likely be damaged by low temperatures before storm wave of September 22 has passed.

Crop yields of spring wheat belt are now proving the value of my advice to fallow all possible lands for 1930 harvest. I advise the same for 1931 harvest, believing that season will especially favor crops on land that has been fallowed and otherwise well cultivated. Crops that were sown or planted on stubble or poorly cultivated land are hardly paying expenses; in fact, thousands of acres of such crops were not worth harvesting this year.

RAIN MAKING

There is an old saying, 'A drowning man will grasp at a straw! Some kind hearted soul sent Alexandria, Va., a city and vicinity now ruined by drouth, 200 pounds of a mysterious rain making powder. So far, that powder has not been used, as there is no suitable spray available for spraying it upon the heavy rain clouds that have been passing over. It is an established fact that electrified sand and certain chemicals will precipitate the moisture from clouds upon which they are sprayed, but it hardly seems possible, in this age, that people would expect such precipitation to continue. Drouth is caused by the electro-magnetic condition of area, or rather the atmosphere of that area; such a condition will not be changed until the electro-magnetic condition of the area is changed. Planetary position establish the electro-magetic condition that causes drouth.

London notes that more and more does the old-fashioned description of peers' widows as "dowagers" pass from use, for whereas 20 year ago it was a usual term ladies who are widows now preface their titles with their Christian names and the latest to announce this is the widow of the late Marquis of Dufferin, who desires to be known as "Brenda Marchioness of Dufferin and Ava."

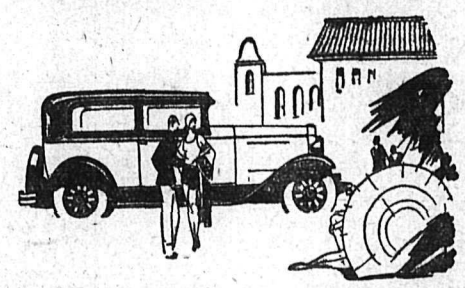
OLDSMOBILE

EARNS YOUR CONFIDENCE



YOUR first appraisal of Oldsmobile leaves you with a friendly feeling of confidence towards this high-spirited car whose very lines suggest staunch build and absolute dependability.

But not until you have driven it ten thousand miles or more . . . under every motoring condition . . . and in all kinds of weather . . . will you fully realize how Oldsmobile earns and keeps your confidence.

You will discover that Oldsmobile, like a true friend, becomes even more trustworthy . . . that it inspires deeper confidence the longer it serves you. Like thousands of other Oldsmobile owners, you will learn that its dependability is based not alone on the time-proven soundness of Oldsmobile design, but also on such mechanical refinements as a mighty 62-horsepower engine mounted on rubber . . . long, flexible springs controlled by hydraulic shock absorbers . . . big, weatherproof, four-wheel brakes . . . and a sloping, non-glare windshield.

An opportunity to prove how Oldsmobile earns confidence awaits you at our showrooms. Drive Oldsmobile yourself, and let this splendid car demonstrate for itself the qualities owners everywhere claim for it. Ask about the General Motors Owner Service policy, most complete in the automobile industry, and about GMAC, General Motors' own plan of deferred payments.

• • •

Mrs. D. Corbet has taken up residence in the Annable block.

• • •

Holy Rosary cathedral in Vancouver was the scene of a quiet wedding Wednesday morning, when Frances Mary Fabiola, daughter of Mr. and Mrs. T. L. Drummond, 955 Thurlow street, was married to Basil Joseph Walsh of Tadanac, British Columbia, son of the late Mr. and Mrs. Daniel Walsh of Perth, Ont. The groom is superintendent of the cadmium plant at the Tadanac smelter.

The bride entered the church on the arm of her mother, and the bridal party ascended to the sanctuary, where Rev. Father W. L. McKenzie performed the marriage ceremony, which was followed by a nuptial mass.

Simplicity marked the bride's costume, which was of apricot blonde triple chiffon sleeveless dress. The ankle-length skirt was fashioned on long circular drape lines and the bodice was made of a deep yoke of needle-run lace, over which was worn a bolero coat of the same material. A flat crepe tight-fitting hat with drooping bow of the same color at the back and morzie pumps to match completed the ensemble. She carried sweetheart roses and lily of the valley.

Miss Marion Joan Drummond, sister of the bride, was her only attendant, and was prettily gowned in a sleeveless printed chiffon dress of peach beige background, with large flowers of American Beauty shade. This was worn with a net ruffled waist-length coat and tight-fitting flat crepe hat, modelled with a back drape and morzie pumps, all of light American Beauty rose. Her bouquet was of sweetheart roses.

Chisholm Fraser of Trail, British Columbia, acted as groomsman.

Following the ceremony a wedding breakfast was served at the home of the bride's parents.

Mr. and Mrs. Walsh left by C.N.R. boat and will honeymoon in Victoria, Portland and Seattle. They will reside in Tadanac, British Columbia.

For travelling Mrs. Walsh chose a silk travel tweed suit in dark brown tones with hat, purse and shoes to match, and carried a dark-flecked brown-fitted coat with lynx collar and cuffs.

Mrs. Walsh is a sister of Mrs. F. Dennison, Carbonate street, who formerly resided in Cranbrook.

• • •

Captain and Mrs. Walter Wright, Terrace apartments, have as their guests Mrs. Wright's mother and sister, Mrs. W. Williams and Mrs. Fred Stevenson of Edgewood.

AINSWORTH SCHOOL REPAIRED

AINSWORTH, B. C. Sept. 5—The Ainsworth School reopened on Tuesday morning with Miss Elsie Truscott of Nelson as teacher. The school, has been thoroughly repaired during the holidays, John Burns & Son, contractors of Nelson having charge of the work.

WHY are some women so patient with pain? Shopping with a head that throbs. Working when they ache all over. Sometimes it's hours before they take Aspirin and get relief! Most men take these tablets the moment that some sudden ache or pain threatens their comfort and so should you. Aspirin is perfectly harmless; it cannot depress the heart. The tablets stamped Bayer are always genuine Aspirin; always the same, always *safe*. So it isn't sensible to suffer with a headache, a cold, neuralgic pains, or anything else that these tablets relieve almost as soon as swallowed. Buy by the bottle and save money. Any drugstore has the 100-tablet size.

TRADE MARK REG. BAYER ASPIRIN

WIDE VARIETY IS SPICE OF ART EXHIBITION OPENING, TORONTO; RECORD NUMBER WORKS ON VIEW

All of Canada Is Represented at Canadian Art Show in East

TORONTO, Ont., Sept. 5—(Written for The Canadian Press by Jehanne Bietry Salinger)—The public opening of the Canadian Art Show at the National Exhibition marks an important mile-stone in the art of the country. The whole Dominion is represented with six of the provinces the more prominent and much may be found to gratify artists and those who believe in the personality of Canadian art.

For the first time in its half-century history the art section of the C N E. has assembled a thousand works including paintings in oils and water colors, black and whites and sculpture.

Five of the rooms of the art pavillion have been hung with pictures which offer the most interesting panorama of Canadian country and life. Giving relief to this display are some 32 peices of sculptre by Quebec and Ontario artists which represent various phases of plastic development.

OVER 170 SMALL PICTURES

More than 170 small pictures describe and express in an intimate manner what the more ambitious paintings have attempted on a larger scale. Four hundred and fifty prints represent the art of etching, wood engraving, lino cutting lithography. Here, as in other sections of the exhibition, the entire Dominion is represented.

The artists who make the most important contribution to the prints' room are H. Eric Bergman, of Manitoba, who has a strong group of wood blocks both in black and white and in color.

George Broomfield of Toronto, with his imaginative ghost trees and two other lino blocks; Rody Kenney Courtice with her delightfully naive acquatints, pleasing though a trifle clumsy. Clarence Gagnon, Arline Genereux, Katherine Gray, Edwin Holgate, Ivan Neilson, all from the province of Quebec, all contribute refreshing works to the exhibitions, W. J. Phillips' work is merely descriptive but all of it is characterized by a zest which is stimulating. He delves into humor and he enters the field of lyric and romance with his "White Wilderness" and "Dying Pines."

Mary Wrinch, of Toronto, has a fine collection of flower studies in colored wood blocks and Wm. P. Weston, of British Columbia, give valuable impressions of totem poles of the coast.

FRENCH-CANADIAN NOTE

The water colors which are shown in the Graphic Arts Building, together with photograph prints and a collection of photographs contributed by the Toronto Chapter of the Ontario Association of Architects, have been, like most of the pictures and other art work exhibited, selected from the most important annual shows held throughout the contry last year. Some of the best work in this medium is by Charles Comfort of Toronto who has two delicate figure studies in this collection, Frank Carmichael and A. JJ. Casson both of whom are also Ontario artists and prominently known for their equarelles; Paul Caron of Quebec who brings a genuine note of French-Canadianism to the show with his colloquial style; Paul Alfred with his interesting tempera of a small hotel in a little Canadian town; F. H. Brigden who has a poetical brush; F. H. McGillavray of Ottawa who contributes the most interesting studies of types in the whole section with her old sea captain and her two studies of young destitutes, Francis Taylor and W. J. Phillips, both of Winnipeg also have fine water colors to offer and so has Sheldon Williams of Saskatchewan. The most important work has been contributed here by Andre Lapine who has attempted to create a big painting in water color and has succeeded to a great extent in "At The Studio Window."

LEAD IN OIL PAINTINGS

Ontario and Quebec take the lead in the galleries where the large oil paintings and sculpture are shown. They not only predominate by the number of their contributions but by the decided Canadian flavor of the work they present. Among the Ontario contributors we recognize the familiar names which fill the catalogues of the yearly exhibitions of the most important art associations of the province, such as George Reid who remains "old school" with courage and is represented by a large historical picture "Champlain At Quebec," Chas. Jefferys who has also gone to the past of Canada for his inspiration of the decoration destined for Chateau-Laurier, Indians at the Falls on the Ottawa; E. Wyly Grier the Royal Canadain Academician who shows one more of his popular portraits; and all the pleiad of landscapists and portrait painters such as J. E. H. MacDonald who has a handsome decorative landscape in one of the main rooms, Arthur Lismer, A. Y. Jackson, Y. Mackague, K. Forbes, and many others. Two foreign painters recently acquired to Canada make a notable showing. They are Yiulia Biriukova who has here a portrait of J. E. H. MacDonald which is one of the finest contributions to the show and N. Hornyansky with his "Lumber People," a composition which is nothing short of a work of great breath.

From Quebec has come a flavor of the soil, a genuine art expression strongly related to the environment and the background of the artists and Horatio Walker, as old fashioned as he may seem, as he may be, paint the Habitant with a real understanding. Their landscapes and country scenes are touching in their true appreciation of the primitive beauties they describe.

A retrospective show of some of the ancestors of Canadian art in which the public will be able to see examples of the work of Kreighoff, Jacobi, Paul Peel, Blair Bruce Sagen, Fraser and Tom Thompson. These establish, so to speak, the genealogy of Canadian art and retrace the racial influences which are still to be found in the art of today in this country.

HE LIKES HIS PIPES

Pipe-Major W. C. K. Mackie (above), pride of the Scottish company of Volunteers, Hong Kong, travelled 5000 miles across the sea from China to compete with Scottish, American and Canadian pipers at the Banff Highland gathering, August 29 to September 1. A veteran piper in the British army in India and China, the enthusiastic pipe-major was a passenger on the new Canadian Pacific liner, Empress of Japan, on her recent first voyage across the Pacific when she lowered the best existing speed mark by more than four hours.

MRS. WORDEN PAYS VISIT TO YMIR

YMIR, B. C. Sept. 5—Mr. and Nelson were recent visitors to Ymir.

Rev. and Mrs. H. W. Osinald left Wednesday morning for their new charge at Powell River after being much feted by their many friends and wellwishers on the eve of their departure.

YOUTH'S PROBLEMS ARE OUTLINED AND REMEDY SUGGESTED

"Both Boys and Girls Have to Wait Overlong for Marriages"

BOSTON, Sept. 5.—In addition to the fact that "both girls and boys have to wait overlong for their marriages," Alfred Worcester, M.D., of the department of hygiene at Harvard university, claims another reason for the "too previous awakening of the sex-urge can be found in the incitement of modern novels and the stage to say nothing of modern dancing and petting parties."

Dr. Worcester was speaking on education of the affections at a meeting held under the auspices of the Girls Friendly society, conducted in connection with the national conference of social service of the Episcopal church. The mating instinct, Dr. Worcester maintained, should not be stifled but during the period before marriage should be directed into motherly service in the case of girls and, in the case of boys, into channels of chivalrous conduct "that foreshadow the father's protecting care".

"Such employment must of course be understood as only temporary," Dr. Worcester said, "for no normal girl or boy must ever deliberately decide against marrying."

CHILDISH IGNORANCE

"Not by the practically impossible preservation of childish ignorance but only by a truer interpretation of the sex-urge will its problems ever be solved," Dr. Worcester said.

"Girls as well as boys," he insisted, "have far more education and training in the right use of their brains and hands than they have of their hearts. This is their misfortune."

"Petting, so-called," said Dr. Worcester, "deserves a moment's consideration because it is the subject of frequent questions by young folks who honestly want to know how far it is allowable that affection for each other be given expression.

"There is no short and easy answer to the question. What is harmless for one may be harmful for another.

"A satisfactory answer to this question about petting, as well as to every other question concerning the true relation of the sexes, can be found only by application of the two great principles of kinship and trusteeship. No man or woman is an independent creature; each is responsible for the other's welfare, both temporal and eternal.

RESPONSIBLE TO CREATOR

"Moreover, both are alike responsible to our creator for the safeguarding of the human life stream, for the passing on to future generations unimpaired what has been received from unnumbered preceding generations. Our question thus considered becomes simplified.

"Instead of searching for the right pathway out the maze of bewildering rules and customs, men and women have only to ask themselves if the conduct to which they incline would be mutually helpful or harmful as regards these great responsibilities.

"It is because perfect marriage depends upon faithful sex trusteeship that, in this difficult period of enforced celibacy, no conduct can be approved which jeopardizes the chances of such a marriage. And in this respect the man and woman are under exactly the same personal obligation, and both alike are also responsible for each other."

"So long," he said, "as it is considered immodest for a girl to admit having any longing for a lover who may become her husband and the father of her babies, she is practically obliged to stifle her best self. Her usefulness is thus impaired. The success of conscientious girls in such concealment leads their boy friends to believe that only girls of a lower class can be responsive to their advances.

"This surrender of the field by girls who only pretend to be cold blooded is the more ignominous because it is made to rivals who having forfeited their capability for real love, have become adepts in the pretense of it."

MOVIES SHOWN AT AINSWORTH

AINSWORTH, B. C. Sept. 5—A party consisting of Rev. Dr. Osterhout, Rev. George B. Kinney and Rev. J. Herdman spent Tuesday in Ainsworth. They are making a tour of the Kootenay Lake in the new Mission boat "The Broadcaster" which is in Mr. Kinney's charge.

On Tuesday evening Mr. Kinney gave a moving picture entertainment in the church to a very appreciative audience. Addresses were given by Dr. Osterhout and Rev. Mr. Herdman. The pictures were mostly local scenes, many of them being taken along the route of the new railway line which is in course of construction between Procter and Kootenay Landing. Others showed a party of mountaineers conducted by Mr. Kinney, to Kokanee Glacier. Several views around the Molly Gibson Mine and mill showing the men at work proved very interesting.

Two comic films were shown which were very amusing, especially for the children.

A collection was taken during the evening, the proceeds of which will be used to make further films to aid Mr. Kinney in his useful and interesting work. In closing Dr. Osterhout asked the blessing and Mr. Kinney thanked all for their help and support.

BABY IS BURIED NEAR HER FATHER AT AINSWORTH

AINSWORTH, B. C. Sept. 5—The funeral of the infant daughter, Florence, of Mrs. Henderson and the late J. Henderson took place on Tuesday afternoon. Rev. R. L. Best of Kaslo being in charge. The baby is survived by the mother, brothers and sisters. After the service in the church the final serivce was held at the cemetary where the baby's Father was buried just three weeks ago.

LONE SHEPHERDESS CARES FOR HURT AIR MAIL PILOT

She Dresses His Wounds and Directs Him Out of the Wilderness

MENDOZA, Argentina, Sept. 5—Succored by a lonely shepherdess, Henri Guillaumet, French air mail aviator, endured the hardships of a plane crash, fall down a precipice, an Andean blizzard starvation and days without sleep, and lived to tell the tale.

An airplane brought him here from a mountain village, Pareditas, where he was dicovered by a provincial police official, more dead than alive. He had been missing for a week, and a widespread international search for him would have been abandoned in the belief that he was dead and his body and plane buried in the snows which have fallen in the Andes for days.

A medical examination revealed that the flier was suffering from various injuries, principally severe bruises, incurred when he lost his footing on a mountainside glacier and tumbled 400 feet down a precipice. Guillaumet set out from Santiago de Chile with mail and cargo for Mendoza, Argentine border city. The trip under any circumstances is difficult and dangerous due to the high peaks of the Andes which must be surmounted. On this trip the aviator tried vainly to rise above them, but his wings gathered so much snow that his plane finally was weighted down and he made a forced landing on the side of a winter-swept mountain.

PLANE PASSES OVER

The plane turned over and was destroyed, but Guillaumet crawled out of the wreckage unhurt. The blizzard still raged so he spent the night beneath the wings of his plane, remaining awake so as not to freeze to death. The following day the weather cleared somewhat and he saw an airplane fly high over him. He signalled but apparently his frantic motions were not perceived.

Next day he started to march through the mountains toward Mendoza, hardly hoping he would ever reach there alive. It was then he slipped on the ice and fell 15 meters down a precipice, losing what provisions he had with him and receiving injuries which made every minute until his rescue one of suffering.

Half starved and afraid to sleep he marched on the fourth and fifth days over mountains and through snow-filled valleys, until the sixth day he stumbled into the presence of a lonely shepherdess tending her flock on the hillsides not many miles from Pareditas. She was amazed but dressed his wounds, gave him food and found him a place to sleep.

Her ministrations partially restored Guillaumet and gave him strength to go further. She directed him toward Pareditas where he finally was discovered by a provincial policeman, who notified authorities and brought a plane there to carry him back to Mendoza.

Chilean, Argentine, and United States private and military pilots aided in the search for Guillaumet, scanning hundreds of miles of territory on either side of the Cordilleras. News of his safety was greeted jubilantly both here and in Chile, where his disappearance has been a news sensation of the past few days.

THIEVES LIKE SPARE WHEELS, FERNIE AUTOS

FERNIE, B. C., Sept. 5—There has been an epidemic of petty theiving in the town lately. Among other things, the thieves have a special penchant for automobile spare wheels and tires. They removed the fifth wheel with tire from the back of Alfred Cummings' car as it stood out in front of his house the night following Labor Day and performed a like service the same night for a car standing in front of the Waldorf hotel.

A short time ago theives removed the magneto, the gasoline and the tools from the government road truck as it stood by the side of the road.

It is thought these operators are local people.

Castor oil is considered to be an excellent preservative for leather and shoes treated with this will last longer.

Absorbine Jr
THE ANTISEPTIC LINIMENT

TIRED, aching, burning feet . . . how miserable they can make you feel! But you need not suffer any longer from your feet . . . after the day's work, the dance, or hike, or game, rub them with Absorbine, Jr., the antiseptic liniment. It stimulates circulation, relieves congestion, relaxes the overworked muscles of the feet and legs and takes out the aches and tired feeling. A small quantity in the bath, or a vigorous rub-down after the bath with Absorbine, Jr., produces a restful and soothing effect on the entire body. Buy a bottle to-day . . . rub your feet every night before retiring . . . and soon the trouble will disappear for good. Greaseless and stainless. $1.25 — at your druggist's. 124

Rub Away Aches and Pains with Absorbine Jr THE ANTISEPTIC LINIMENT

For DIARRHOEA There's Nothing to Equal

This valuable preparation has been on the market for the past eighty years, and holds a reputation second to none for the relief of all bowel complaints.

Price, 50c. a bottle at all druggists or dealers; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

PIMPLES BADLY AFFECTED FACE

Ashamed to Go Out. Lasted a Year. Cuticura Healed.

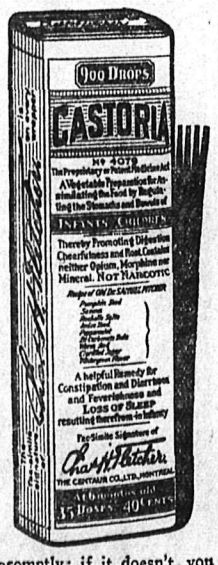
"My face was badly affected with pimples. When they first started they looked red and were hard. Later they became larger and soon began to fester me by itching. I scratched them which only caused more pimples. They disfigured my face so that I was ashamed to go out. The trouble lasted about a year.

"I read an advertisement for Cuticura Soap and Ointment so purchased some, and within two weeks there was a great improvement. I continued using them and within a month my face was completely healed." (Signed) Miss Katherine Khnasen, Box 59, Conquest, Sask.

Use Cuticura to clear your skin.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Samples each free. Address Canadian Depot: J. T. Wilt Company Limited, Montreal. Cuticura Shaving Stick 25c.

For any BABY



We can never be sure just what makes an infant restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as Baby has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes constipation. Or diarrhea—a condition that should always be checked without delay. Just keep Castoria handy, and give it promptly. Relief will follow very promptly; if it doesn't, you should call a physician.

All through babyhood, Castoria should be a mother's standby; and a wise mother does not change to stronger medicines as the child grows older. Castoria is readily obtained at any drugstore, and the genuine easily identified by the Chas. H. Fletcher signature that appears on every wrapper.

McBAIN LAKE IS POPULAR

MCBAIN LAKE, B. C. Sept. 5—McBain Lake is continuing its popularity well into September this year several parties having signified their intention of occupying cottages during September.

Miss Isabel Frame, Miss Kate Dallas and party of Cranbrook have taken the Potter cottage on Cummings' side the lake for a week beginning Labor Day.

Mr. and Mrs. Albin Vansacker of Fernie a bride and groom of the month, will occupy Dixie Lodge for the first week of September.

Mr. and Mrs. Frank Fuhr of Fernie have taken a cottage at Cummings Cabin Camp for the second week of September and will have as their guests Mrs. Fuhr's sister and brother-in-law, Mr. and Mrs. W. T. Webb and their daughter Norma of Saskatoon, where Mr. Webb is city editor of the Star-Phoenix, Mr. and Mrs. Fuhr met the Saskatoon party at Calgary and motored them to eFrnie on Labor Day. They will spend a three weeks vacation in the mountains, the first week in Fernie and the concluding week in Nelson with Mr. Webb's parents Mr. and Mrs. Nicholson.

MRS. LINDSTROM BACK AT SALMO

SALMO, B. C. Sept. 5—Mrs. F. Lindstrom and children Shirley and Neomi returned home Wednesday after a two week's vacation spent with relatives in Seattle and Bellingham.

Carl W. Lindow spent Tuesday in Nelson.

W. W. Wilde arrived home from Vancouver where he has been for the past six months.

H. Lakes of Nelson passed through town Wednesday on his way to the Reeves-MacDonald Mines.

Mr. and Mrs. Walter Shiell were Trail visitors Wednesday.

S. A. Curwen of Ymir was a Salmo visitor Wednesday.

Mr. and Mrs. G. G. Fair were business visitors to Nelson Wednesday.

More than 480 tobacco brokers in Japan are to be forced out of business when the governments starts its direct selling method, effective July 1, 1931.

IT'S WISE TO CHEVROLET *CHOOSE A SIX*

2,000,000 Six-Cylinder Chevrolets now on the road

SINCE January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any manufacturer of sixes has ever built in an equal length of time.

Such record-breaking public preference shows how buyers of low-priced cars are demanding the advantages of six-cylinder design. These 2,000,000 people decided on Chevrolet largely because of the following facts:

Chevrolet is Smoother

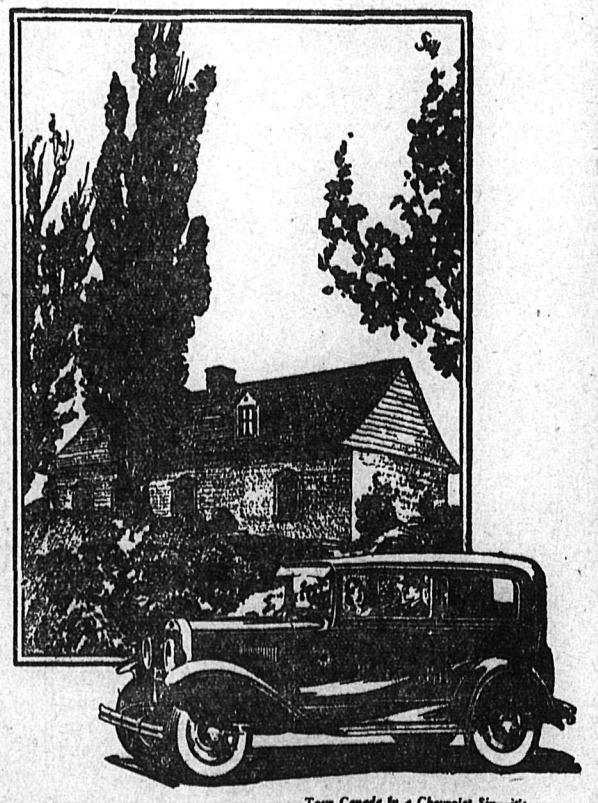
A six-cylinder engine is smoother, quieter, more flexible—free from annoying vibration—requires less gear-shifting. And Chevrolet gives you a dependable, 50-horsepower, six-cylinder power plant!

More Comfortable, Smarter

Chevrolet is the lowest-priced Six which offers you a rugged full-length chassis with modern semi-elliptic spring suspension—big bodies with form-fitting seats—the style and luxury advantages of Body by Fisher.

Easy to Buy and Own

The Chevrolet Six is priced as low as $635, at the factory. And you will find it costs no more for operation or upkeep than any other car of comparable quality on the road. You may purchase through the G M A C, General Motors' own deferred payment plan. The General Motors Owner Service Policy will safeguard your investment. See your Chevrolet dealer now.



ROADSTER or PHAETON

$635

The Sport Roadster	$715

George Young Wins Three-Mile Swimming Race, Toronto

BREAKS RECORD SET IN 1929 BY MARVIN NELSON

Stanley Pritchard Is Second, 100 Yards Behind Toronto Boy

CROWD ACCLAIMS CATALINA CHAMP

Bill Saldo, Jr. of New York Is Third, 500 Yards Behind Second

LAKE FRONT, Toronto, Sept. 5—(CP)—Before many thousands of his fellow citizens lining the shore, George Young, Toronto, partially redeemed himself for his failure in the men's 15-mile marathon held on August 27, by giving a remarkable demonstration of swimming prowess to easily win the men's open sprint race of three miles staged by the Canadian national exhibition inside the Seawall here this evening.

Stroking with a smooth, powerful crawl, Young took the lead at the start, shook off repeated challenges from Stanley Pritchard, speedy Buffalo natator, who likewise failed in the marathon and who put up a terrific battle with Young for two laps. The latter, however, drew away gradually and won by more than 100 yards.

By his victory Young enriched himself to the extent of $300 offered as first prize, and by swimming the distance in one hour, 18 minutes, 33 2-5 seconds, slashing one minute and three seconds from the record set last year by Marvin Nelson, Fort Dodge, Iowa, who won this year's marathon and rich prize of $10,000.

Pritchard, who finished second tonight, also swam a splendid race to win the second prize of $200.

Bill Saldo, Jr., New York, captured third place and $100 by crossing the line about 500 yards behind Pritchard.

When Young and Pritchard climbed out of the water on the finishing float, the crowd roared acclaim. Young, winner of the Catalina swim, was the cause of the major part of the demonstration. Stepping to the microphone he said: "Well, folks, if you are satisfied, I am."

Pritchard modestly declined, remarking to newspapermen: "This is George's night."

Alfred Sulley, Toronto, who swam a courageous race in last month's long grind and finished eighth, just out of the money was more successful this time, and annexed the fourth prize of $75.

The remaining prize winners in order of fifish were:

Fifth—T. K. Kindall, Toronto, $40.

Sixth—Eddie Meyers, New York $30.

Seventh—Mengie Delarte, Los Angeles, $20.

This was a consolation affair for competitors who failed to secure any slice of the prize money in the 15-mile marathon.

POLO TEST TO START TODAY

NEW YORK, Sept. 5.—For the tenth time since 1886, Great Britain and the United States will send their foremost riders galloping into action tomorrow for the international cup, emblem of polo supremacy and one of the world's classic trophies of sport.

Official announcement by the rival captains late today confirmed the opening lineups as follows:

United States; Eric Pedley of California, No. 1; Earle A. S. Hopping of New York, No. 2; Captain Thomas Hitchcock, jr., of New York, No. 3; Frederick Winston Churchill Guest of New York, back.

Great Britain; Gerald Balding, No. 1; Lewis L. Lacey, No. 2; Captain C. T. I. (Pat) Roark, No. 3; Lieut. Humphres Guinness, back.

NATIONAL MEN'S SINGLES TENNIS STARTS TODAY

NEW YORK, Sept. 5—The national men's singles tennis championships get under way at Forest Hills tomorrow with a first round clash between Jean Borotra of France and Berkeley Bell of Austin, Tex., expected to provide most of the fireworks.

The first day's schedule of 21 first round matches will cut the field of 95 by about one third.

The luck of the draw was all against Boratra, favored with Big Bill Tilden to reach the final round. Not only was he pitted against such a formidable first round opponent as Bell but probably will be forced to meet another "first ten" player in the second round, Fritz Mercur of Bethlehem, Pa.

WINS GOLF TITLE

HALIFAX, N. S., Sept. 5—(CP)—Gerald Mileke, of Halifax, captured his seventh maritime amateur golf championship in nine years of competition here today, defeating his younger brother Frank in 36 hole final by 7 and 6 to play.

Gerald outplayed his brother from start to finish.

NOTHING NEW IN BOYD'S PLANS

MONTREAL, Sept. 5. — Nothing new was reported tonight in the plans of Captain Boyd and Lieut. Harry Connor, who intend to take off from here for London, England, via Harbor Grace, Nfld., when weather conditions are favorable.

KOOTENAY GARAGE, Tom Sargent, Studebaker and Durant Service

Sport Column

"Red Grange will have another fling at professional football. The famous red-head of the gridiron, who has failed to get very familiar with the goal posts on the professional field, signed up for another season with the Chicago Bears Football league. Grange has been training in California and says he is in the best shape since he left Illinois.

TEN YEARS APART

Just 10 years ago Bill Tilden finally fought his way to the front of American tennis by stopping Little Bill Johnson at Forest Hills, L. I., in one of their always bitter duels, says Grantland Rice in the Spotlight, Spokesman-Review, Spokane.

Ten years later he returns to the same scene to defend the title he won back a year ago against a flock of younger stars who are coming forward, year by year. Tilden can spot most of these youthful challengers from 10 to 15 years. But he will still be the favored entry against the field, the hardest single man to beat.

Tilden was no youthful prodigy when he finally broke through. He was then past 26 and had been playing high grade tennis for five or six years. His remarkable stamina has been one of the reasons for his 1930 career, for only an iron horse could have gone through the long campaign Tilden has faced since January and still maintain his present pace. His tennis ability was never in doubt. But few believed any competitor, who had been around as long as the tall Philadelphian, could have put in so many months of hard play without breaking down.

Modern tennis is no dancing act. It is largely smash and speed, stamina and condition, as well as skill in stroking. It is a hard day's grind. Yet only the strongest sort of tennis will be enough to crowd the veteran back in what may be his last championship stand. Maybe.

CHICAGO'S BORROWED TEAM

Chicago leads the National and their success is largely borrowed from other Nationals. No fewer than six gentlemen wearing Chicago uniforms, players and coaches, went to them at one time or other from New York. Wilson, home run leader of the league and top in runs, batted in, is an ex-Giant; Cuyler, stolen base ace of the league, is a former Pittsburgher.

GEHRIG GOING GOOD

Mr. Gehrig is basking in a lot of American league sunlight these days for New York. He leads the league in batting, in runs batted in and in hits. His side-kick, Ruth, still tops the home-runners, and run scorers.

"SAD SLIM" AGAIN

"Sad Sam" Jones, a youth of 38 and a big league experience of 15 years, recently tamed Philadelphia Athletics. Sam began his career with Cleveland and he cost them $800 to buy. Since then he served with Boston, New York and St. Louis and is now with Washington. Seven years ago Sam shut Athletics out without a hit or a run, but Athletics at that time were largely hitless and still more runless.

FAST TIMES MADE AT GRAND CIRCUIT

SYRACUSE, N. Y., Sept. 5—Getaway day of the Grand Circuit races at the state fair today saw the fastest heat, the fastest race and one surprising upset.

When Prince W., driven by Will Hodson, covered the three heats of the Buffalo road drivers' 2:16 pacing stake in 3:03¾, 2:04 and 3:03¼ he turned in the three fastest consecutive heats of the week, his final one also being the fastest single mile covered in a race. He was the favorite and never was bothered.

The upset came in the American horse breeder futurity when Protector took both heats from Charlotte Hanover, which Monday set a record for two year old fillies. The champion won third money.

AUSSIES GAIN A DRAW

LONDON, Sept. 5.—(C P cable)—The match between the Australians and an English eleven at Folkestone was today left drawn. The scores were: England, 403 for eight wickets, declared, and 46 runs for one wicket; Australia, 432 (Bradman 63, Jackson 78, A. Beckett 53).

Yorkshire and the M. C. C. drew at Scarborough with scores of: M. C. C., 337 for seven wickets, declared, and 130 for four wickets (Duleepsinhji, 58); 253 and 258 for three wickets, declared (Sutcliffe, 102, not out, Layland, 51, not out).

DIOLITE PROVES FAVORITE

DONCASTER, England, Sept. 5—(CP cable)—Diolite, Sir Hugo Hirat's good gold Diophon out of Needle Rock, is favorite for the St. Leger, the fifth and last of the season's classics for three year olds, to be run over the mile and six furlongs course here next Wednesday. The turf fraternity is supporting Diolite on the supposition that he is in top form after a late training campaign.

CARNERA TO MEET SPANIARD SOON

NEW YORK, Sept. 5.—Primo Carnero, Italian giant, and Paulino Uzcudun, of Spain, signed articles today for a 10-round bout somewhere in Europe the last week in October or the first week in November, Jeff Dickson, European promoter, announced here. The bout probably will take place either in France or Spain, Dickson said.

BASEBALL LORDS GATHER DISCUSS WORLD SERIES

CHICAGO, Sept. 5—Representatives of the Chicago, New York, St. Louis and Brooklyn clubs in the National league and of Philadelphia and Washington of the American league, today were invited by Commissioner Kenesaw H. Landis for a pre-world series conference in Chicago, Sept. 8.

The conference, an annual affair for pennant contenders will decide dates and other matters for the 1930 world series.

In accordance with organized baseball policy the first two games of the fall baseball classic will be played in the home park of the American league pennant winners, as Chicago of the National league got the first two games of the 1929 series.

YACHT QUEST IS SOLD FOR $6000

TORONTO, Sept. 5—The yacht, Quest, challenger for Canada's cup, was sold by auction last evening to R. C. Davison, well known realtor, of Toronto. The auction price paid by Mr. Davison was $6,000 although the boat was built at a cost of $14,000. The rules under which the ship was sold were that the buyer must be a member of the Royal Canadian Yacht club and the yacht must remain in the club and be sailed in at least 50 per cent of all club races for the period of the next five years.

PERFCT PLAY IS WINNER

WINNIPEG, Sept. 5—The Green Brier stable was the feature at the Polo park's sixth day of racing today; perfect play winning the Selkirk handicap, one mile and 70 yards in a thrilling finish with Formic and Lancer. The three-year-old son of Fair Play set a new track record, 1.43 2-5; the previous mark of 1.44 having been made by his stable mate, McGonigle on Saturday. Hot Whittier, won the Marlborough, juvenile feature in fast time.

SARAZEN WINS GOLF TROPHY

SALISBURY PLAINS, N. Y., Sept. 5.—Scoring a 70 on the last round, Gene Sarazen, stocky professional from Flushing, N. Y., today won the $5000 J. J. Lannin Memorial open golf championship with a 72-hole total of 287.

Runner-up with 288 was Walter Kozak of Douglaston, N. Y., who shot rounds of 69 and 71 today and held the lead until Sarazen's fourth round 70 pushed him into second place.

Third honors went to a young Britisher from Clement, N. J., Charles Lacy, whose first round 69 aided him in scoring an aggregate of 290. His last round 71 beat par by one stroke.

JUNIOR CHAMPIONS

PHILADELPHIA Pa., Sept. 5. — The Maglowe sisters, Helen and Mercedes, of Los Angeles, Calif., today won the national junior girls' tennis doubles championship at the Philadelphia Cricket club.

Old Time Methods Prove Harder

By AL DEMAREE
(Former Pitcher New York Giants)

Many fans are growing tired of the continual bombardment of home runs in modern baseball to the exclusion of many of the old-time finer points of baseball.

Base-running has almost become a lost art.

Why not bring back some of the old pitching rules of fifty years ago. In those days the pitcher bent over and sized up the batter from between his legs. Then he suddenly whirled and with a hop, skip and jump, hurled the ball at the unfortunate batter from a distance of only forty-five feet.

A batter could not take his base by being hit by a pitched ball, and the pitchers of that period usually took several pot shots at his anatomy if he was a dangerous hitter and there were runners on base. This was known as "softening up" the batter and usually succeeded.

But even in those days of yore there were "three hundred" hitters.

BEATS JOE WRIGHT

Bob Pearce, brilliant Australian sculler, who defeated Joe Wright of Toronto, former Diamond Sculls winner, in the special quarter mile sculling race over a course in front of Toronto Exhibition Park in Lake Ontario, Thursday evening. Pearce's margin at the finish was three-quarters of a length.

FEW VETERANS ON WASHINGTON TEAM

Heavy Schedule and New Type of Play Faces Rugby Squad

UNIVERSITY OF WASHINGTON, SEATTLE, Washington, Sept. 5.—Washington this fall will enter a new grid era.

Under the colors of an entirely new coaching regime, the University of Washington Huskies will step into the 1930 gridiron facing the toughest football schedule ever undertaken in the Husky's football history.

And when the Husky schedule is described as tough it is exactly that for the North men have seven conference games to handle in the two months season, plus two other contests with non-conference teams. For the first time in its history Washington will meet all three California members of the conference—Stanford, California and U. S. C.—in one season, as well as entertain four of the five northern division members, Northern division teams played this year are Montana, Idaho, Oregon and Washington State College.

Jimmy Phelan coach of the Purdue eleven which last year won the Big Team Championship, and now head of football affairs at Washington is the man on whom the burden of this heavy schedule will fall.

A NEW COMER

A newcomer to the Northwest, brought to Washington following the resignation of Enach Bagshaw last winter, Phelan has had only limited opportunity to settle into his new environment and to instill into the former Husky lettermen who will be the backbone of his 1930 squad the principals of a playing system which differs radically from that formerly practiced here.

At the conclusion of spring practice following his arrival, Phelan and his assistants—Dan Lamont, line coach, formerly of Loyola, Chicago; Eddie Collins, end coach, from Notre Dame; Pest Welch, freshman coach, former Purdue star; Cotton Wilcox, backfield coach, formerly freshman coach at Purdue—reported fair progress on the part of the Washington candidates. Lack of material suitable to the Phelan system was definitely decried. The intensive and protracted spring session however did result in definite progress in assimilating the Notre Dame system that Phelan teaches.

In place of the power type of play associated with Washington teams for years, Northwest fans this yeor will see the beginnings of an open system of play, with the famous Notre Dame shift the outstanding noticeable variation, as the team moves into action.

HIS FIRST BATTLE

Coach Jimmy's first battle a non-conference mix with Whitman two weeks after the practice season opens, will give football enthusiasts their first view of the new style, fast, open-playing, deceptive football that the former members of the Big Ten Conference will bring to Washington.

In spite of their many deficiencies Phelan has great confidence in his men, who have had practically to relearn all their football tactics under his supervision. The spirit of the Washington squad will be at an unusually high point— as is unquestionably shown by the remarkable interest already being shown by players and fans alike.

Speed will be the ideal of the 1930 gridsters, and a turf field and light silk outfits will be vital factors in attaining that goal.

The new style in gridiron togs which Phelan will innovate at Washington on his first squad will include gold silk pants, gold wool shirts, natural tan-colored helmets and purple and gold sox-all to allow for a maximum of speed and to take advantage of the protection added by Washington's new turf field.

Few men built and trained to function perfectly in his system will be available to Phelan when his first practice opens.

The best spot in Phelan's backfield will of course be Merle Hufford, the sophomore sensation of last year who flashed to all Coast honors in his first season of varsity competition. Washington will probably have a new signal caller this year in the person of Bill Marsh, the 195 pound young giant who was last year's full back, and who was shifted to quarterback by Phelan during spring practice. For other lettermen in the backfield, Phelan has only two candidates—Jack Patrick, last year's quarterback and Bill Mittlestedt, who saw service at quarterback last season until forced out by injuries.

For his line Phelan has only two lettermen in the end posts—Roy Squires and Clarence Pautzke, both of whom showed to advantage during the spring session, and who it is believed will carve posts for themselves on the regular varsity this fall. At tackle the new coach finds three lettermen from last year. The tackles who will be back are Gob Wentworth, out for his last year of varsity play, Al Holmes, this year's captain, and Paul Schwegler, the Husky sophomore last year who won all coast honors.

TWO MORE LETTERMEN

In the guard posts Phelan will have only two lettermen back—Lee Shelton and Bob Foster. What can be expected of Shelton is an unknown quantity at this time as he was unable to take part last spring in the spring drills. Foster, however, was out for the entire session, and made excellent progress in mastering Pehlan's fundamentals.

For centers Phelan will be forced to rely nearly entirely upon sophomore material from last year's freshman squad, as the only letterman he has available at that position in Sam Kraetz, who won his letter at the center post two years ago.

For material that is hand shaped to his liking Phelan is at a loss. His big problem this year is to whip what he can out of last year's handful of veterans, and then build a support for them from the sophomore material available.

BERMUDA YACHTMEN VICTORIOUS

OYSTER BAY, N. Y., Sept. 5.—Bermuda's yachtsmen won a four-corner race with England, Scotland and the United States on Long Island sound today.

The Bermuda team of two six meter boats won with a total of 11 points with the United States second with 10¼, England third with eight, and Scotland last with six.

DOES MILE IN FAST TIME

INDIANAPOLIS, Ind., Sept. 5. — The fastest mile of the week was paced today at the closing of the Grand Circuit meet at the Indiana state fair by winning in the 2:06 Lockerbie Hotel pace. Sep Palin sent the gelding around in 2:01 flat in the second heat of the race, which he won with three straight victories.

In the first heat at the quarter he was clocked in 29¼ seconds, also the fastest quarter of the meeting.

IS ONTARIO CHAMP

TORONTO, Ont., Sept. 5.—Phillip Farley, Cedar Brook Golf and Country club, today captured the annual Ontario junior golf championship with cards of 73 and 75 for the course of the York Downs Golf and Country club. Farley defeated Jack Nash, London Hunt club, by three strokes.

Are you annoyed by a squeaking floor Why not take out the sqeak? Find out just where it is, then apply a little liquid glue in the crack between the boards. Use a knife blade, dipping it in the glue and carefully putting it in the cracks and moving it back and forth a bit so the glue reaches the spot and sticks.

TO ATTEMPT TO CROSS CANADA BY MOTOR CAR

Medal at Stake for First to Do So Without Leaving Country

H. F. NEEDHAM OF TORONTO TO TRY

Trip Must Be Entirely in Car Without Aid of Boat, Raft

TORONTO, Ont., Sept. 5.—(CP)—A feat which hitherto has been considered impossible—driving an automobile from Halifax to Vancouver without leaving Canadian territory—is now about to be seriously attempted. Nobody up to the present time has really organized an all-Canada coast-to-coast motoring effort, and few optimists who actually made the start came to speedy grief in northwestern Ontario bad-lands. There is still a total distance of more than 600 miles between existing sections of transcanada highway, and motor cars seeking to go from coast to coast have always had to detour into United States territory to avoid these gaps, which occur in sections of the country wholly made up of muskeg, densely wooded slopes, lakes and rivers and rocky outcroppings.

MEDAL UP 14 YEARS

For 14 years the Rutherford gold medal, hung up by the British Columbia Automobile club for the first motorist to make the transcanada trip without leaving Canadian soil, has been unclaimed, and it began to look as if there would be no aspirant for the decoration until the highway builders, at a cost as high as $20,000 a mile, should finished their proposed work. Now, however, a determined assault is to be made by an experienced trailbreaker in a powerful car on the natural barrier of northwestern Ontario rocks that so far have turned aside all attempts to win the medal. A young Toronto man, Healy F. Needham, well known as a trail-breaker in western Canada and a former automobile editor of several western journals, has organized an effort to cross Canada from coast to coast without entering the United States, and his bid for the Rutherford medal will start at Halifax soon. He is hopeful that he will accomplish his purpose in about 10 weeks' time.

MAJOR CONDITIONS

The major restrictive conditions upon which the award of the Rutherford medal is to be made are as follows:

1—An automobile shall be driven the entire distance between Halifax, Nova Scotia, and Vancouver, British Columbia, solely under its own power.

2—That no boat, float, raft or any other type of water craft shall be used to transport the car.

3—That the journey shall be made in one continuous trip.

4—That the car shall not be driven or transported through foreign territory.

5—That the car shall not be driven on any railroad right-of-way other than directly across it.

FEW CHANGES

Mr. Needham will drive a stock model of an eight-cylinder Canadian car, on which no changes have been made, except an additional gasoline tank with a capacity of 30 gallons, portions of the fenders and running board removed, all ignition raised above the level of the floor boards and the battery raised higher by six inches.

The special equipment to be carried by the car leaves nothing to be desired and a casual glance into the rear tonneau gives the impression of a cross between a surveyors' work car and a road contractor's tool wagon. Among the instruments and tools carried are a transit, prismatic compass, chain and tapes. In another compartment will be found pick-axes, sledge-hammers, crowbars, axes, crosscut saws, hand saws ,pulleys and tackle, and a host of other necessary road blazing tools including 300 feet of steel cable which will be used for swinging temporary bridges across streams.

The route to be taken by Mr. Needham is from Halifax, N. S., thence through Moncton, Fredericton, Quebec, Montreal, Hull, Ottawa, North Bay and Cochrane to the end of the roads and highways at Hearst, Ontario. From Hearst, the "Bad Lands" commence, and Mr. Needham will push his car through westerly to Nakina, and thence south-easterly to Longlac. From this railroad town the car will be driven around Long lake to its southerly tip.

After leaving the town of Longlac, Mr. Needham will be out of touch with civilization until Nipigon is reached. This section of the country is uninhabited, with the exception of a few Indians and the occasiona trapper or prospector. While in this region, efforts will be made to keep in touch with him by airplane.

EVERY DRIVING HAZARD

It is in this section of Ontario that Needham will meet with every kind of driving hazard. There are mountains, marshes, muskegs, forests, gorges, chasms and rocky outcroppings, to be contended with and overcome. After leaving the Twin Cities at the head of the lakes, Needham will swing northwesterly over the last few miles of road before blazing a long trail again through the forests, marshes and mountains to Dinorwic. A few winter roads and tote trails will be used in this area.

From Dinorwic to Dryden there is a provincial highway to follow, and after Dryden, trails and concession lines offer an outlet to Kenora, a line will be made through to Ingolf at the Ontario boundary. It is estimated that when Ingolf is reached a mileage of approximately 900 miles will have passed under the wheels of the car from Hearst, Ontario, of which at least 150 miles will have been made over roadbeds. It will also mean that the "big barrier" to transcanada motoring will be conquered.

After leaving Ingolf an effort will be made to link up with the Winnipeg-Whitemouth trail that leads to the western metropolis.

On the prairies, calls will be made at the principal cities on both main lines, and will include Brandon, Regina, Saskatoon, Edmonton and Calgary. To cross the Rockies, the roads through Banff, Revelstoke, Golden, Kamloops, will be taken with the wind-up at Vancouver—the end of a long, long trail.

It is estimated by Mr. Needham that it will take nine or 10 weeks to cross from coast to coast of which six weeks will be spent in northern Ontario.

Babe Has Ups and Downs in Golf

By AL DEMAREE
(Former Pitcher New York Giants)

Many fans have asked me just what kind of a golfer Babe Ruth really is. In answering this question I will say that Ruth is at times a very good golfer and at other times a very poor golfer. By that I mean that he is the world's most inconsistent golfer. I have seen him shoot a 94 in the morning and come back in the afternoon with a 77 over the same course and the next day reverse his high and low score. He hits a terrific tee shot when he hits them, but is inclined to slice with all his irons.

While Ruth can hit home runs with fifty thousand maniacs yelling in unison at him he likes quiet when putting. One day he had to hole a difficult sidehill putt for a win. Just as he started to stroke the ball a wood-pecker in a tree nearby started to do his stuff.

"Hey, you long-necked so-and-so," yelled Babe, stopping his stroke, "Don't you ever get a headache?"

12 CANADIANS IN U. S. AMATEUR GO

NEW YORK, Sept. 5.—(CP) — Twelve Canadian amateur golfers, headed by the champion, C. Ross Sommerville, London, are entered for the 34th amateur championship of the United States, the entry list, announced by the United States Golf association today, reveals.

The championship will be decided over the course of the Marion Cricket club, Haverford, Pa., September 22-27.

In addition to Sommerville, the Canadians are: J. B. Nickles, Montreal; Don C. Carrick, Toronto; J. Watson Quille, Montreal; Joseph Thompson, Hamilton; Nicol Thompson, jr., Toronto; J. A. Cameron, Laval-Sur-Le-Lac; Pohn D. Nash, London; J. G. Boeckh, Toronto; Gordon Taylor, jr., Toronto; G. H. Turpin, Montreal; F. G. Hoblitzel, Toronto.

Six British players, including Cyril J. H. Tolley, twice British amateur champion, are entered.

Bobby Jones, trying to make a grand slam in clubs, will lead the war for the outstanding stars.

ROYAL CLUB WINS

MONTREAL, Sept. 5—The Royal St. Lawrence Yacht club sailors finished first and third in the second of a three-race series against the White Bear Yacht club, of St. Paul, Minn., and practically made certain of retaining the Royal St. Lawrence trophy annually competed for by the two clubs, tomorrow's race will conclude the series.

JACK THOMPSON LOSES TITLE TO TOMMY FREEMAN

Welterweight Champion of Few Months Surprised at Decision

BOUT GOES TO FULL 15 ROUNDS

Spectators Convinced That Thompson Had Margin in Nine Rounds

(By Charles W. Dunkley, Associated Press Sports Writer)

LEAGUE PARK, Cleveland, Ohio, Sept. 5—They have just finished crowning Tommy Freeman, hairy chested Cleveland veteran, welterweight champion of the world.

Freeman was awarded the title tonight by Referee Patsay Haley, white haired veteran of New York, at the end of 1 ounds of fighting with Young J. Thompson, Oakland, Calif., ne; ho was defending his title the first time since he won i n Jackie Fields in Detroit, fou nths ago.

Haley did not ..itate an instant in reaching his verdict after the last punch went flying through the air. He unhesitatingly grabbed Freeman's gloved right first and raised it in victory.

Thompson, the dethroned champion, stood in his corner, stunned by the verdict. He could not believe his eyes. Freeman was just as much surprised as the losing champion.

The spectators gasped at the swiftly moving drama going on in the ring and then cut loose with a mighty roar to greet the new champion of the welterweights. They have accepted Freeman as their citizen, although the new champion was born in Hot Springs, Ark.

Haley probably reached his decision on Freeman's dogged aggressiveness, although the spectators, at least those in the ring side seats, were convinced that Thompson had the margin in the nine rounds on his masterly boxing skill. Thompson floored the new champion for a count of six with two ripping left hooks to the jaw in the second round and had him in distress at the end of the tenth when he landed a hard right to the jaw, just before the bell, that made Freeman's knees buckle.

Freeman made his big drive for the crown with the beginning of the twelfth round, he found Thompson, a tiring champion as this section began. Thompson in the previous round had worn himself to the point of exhaustion by his aggressive attack.

When the twelfth started his punches began to lack steam and his speed apparently left him.

Thereafter, Freeman began to score effectively with lefts to the face and caused the champion to miss frequently.

Haley, the referee, said he based his decison on the fact that Freeman landed the cleaner punches and scored more frequently.

He credited Freeman with winning eight rounds, five going to Thompson and two being even.

U. S. WINS GOLF TROPHY

TORONTO, Sept. 5—(CP)—Duplicating their decisive triumph in the international triangular competition yesterday, the representative team of senior golfers from the United States, overwhelmed 15 veteran Canadian devotees of the game in the 13th renewal of the Canada-United States team match. The visitors compiled a total of 25 points against 11 for the Canadians.

By their victory the Americans retained possession of the Duke of Devonshire trophy, enblematic of the seniors' team championship of the North American continent.

The World's —Delight—

PART THREE

CHAPTER III

Alone in her private carriage which was drawn up before the stage entrance, Dolores signaled the coachman.

"At random for half an hour," she called. "Then back to the hotel—but be there sharply on time."

The driver touched his glistening hat, and the imposing pair of white horses started off. After a performance it was often Dolores' pleasure to jog through forsaken by-streets as a relief from a loquacious world that was too much with her. At this hour, the night people of London still moved in crowds through the Strand and Piccadilly Circus; and the driver, understanding her preference, soon turned aside from the brighter lights, glowing and phantomesque in the city's deepening mist, aside from all the shop windows and street markets, to rumble down interminable chasms of dark houses.

Through the window Dolores watched, her face pale and reflective, and only once, early in this haphazard journey, did a smile return to her deserted lips. That was when they passed a corner were once, years before she was born, a draper's clerk had planned bravely and barrenly—the red-haired little draper's clerk who had been her father; the emigre that she had never known, and only by seeking had come wistfully to conceive. After the smile, she shivered in the warmth of her cloak; sometimes she was uncomfortable when alone as if in the presence of an acquaintance she did not like; she was often glad to be rescued from herself. Tonight, she should have gone with Lord Darnton and his party, but that engagement—still to be kept—

The jolting of her fine carriage was almost as uncomfortable as the bad-wagon of her circus long ago. These London streets were uneven and rutted and the view from the window like a parade of contradictions. One moment they fumbled through a mean street, yet scarcely had they turned a corner before they were lurching between great palaces with gardens laid out at great cost behind iron chevaux de frise; the fashionable quarters of that day were surrounded and intersected with slums. Presently they were in Belgrave Square, inclosed by its breastworks of large and stolid mansions; then on into a street of less pretentious homes with small, old-fashioned window-panes, glazed in purple, behind which were lamps still lighted even at this midnight hour.

Shut in to herself, it was easy for Dolores to be melancholy. All these homes—not one door of which would open to her, "the creature"; to her who had lived for so long in tents, covered wagons, hotels and dressing-rooms that the very notion of a home seemed like a distortion from the normal.

At the stealthy approach of this lethal self-condolence, she sat up in straight resolution, and with an ironic shake of her head she dismissed her despair. What would she be doing with a home, anyway? By the time the carriage halted at the Westminster Hotel, a sprightly expectancy had returned to Dolores' face, and the familiar vital buoyancy to her walk.

Elsbeth, her silent black woman, who had come to her, like a gift, from the mother of Lotta Crabtree, was waiting in the old-fashioned drawing room of her suite. This reception-room was a depressing and enormous chamber, stuffed with pieces by the French ebenistes—Dolores called them "banker's furniture"—pieces made even heavier by other and older English specimens, covered with faded brown silk; a room with mirrors on which fruits were painted in unnatural colors and with brackets of fantastic bric-a-brac in its corners. But against all this Philistinism Dolores had prevailed with legions of fresh flowers.

"Any message?" she inquired, hastening into her bedroom, where Elsbeth began immediately to unfasten her dress. No word had come, and Dolores said no more; soon she was wrapped in her white, furry robe, and seated at a writing-table in the front room. For a while she busied herself in signing drafts; some went to orphan asylums that had appealed to her charity—the generosity of Adah Menken to such institutions was already a legend. Another check was made out to Mrs. McCord in New Orleans—but with it was inclosed no letter to the mother she had never forgiven. And a third check went to a hospital in Paris where a clown from the States lay sick with a fever—

"What time is it, Elsbeth?" asked Dolores, looking up with the air of one startled and recalled suddenly to realities.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that West Kootenay Power & Light Co. Ltd. whose address is Rossland, B. C. will apply for a license to take and use 10,000 gals. per day and to store 100,000 gallons of water out of Falls Creek which flows south-easterly and drains into Kootenay River about 300 feet north of the south-east corner of Lot 7066, Kootenay District.

The storage-dam will be located in Falls Creek about 2100 feet upstream from the Kootenay River.

The capacity of the reservoir to be created is about 100,000 gallons and it will flood about 0.10 acres of land. The water will be diverted from the stream at a point about 2000 feet west and 1200 feet north of S. E. corner of Lot 7066, at storage dam, and will be used for domestic purpose upon the lands described as D. L. 7066 Kootenay District.

This notice was posted on the ground on the 23rd day of August 1930.

A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Nelson, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. within thirty days after the first appearance of this notice in a local newspaper.

FERNIE SCHOOL IS OVERCROWDED

Suggest Turn Away Pupils from Corbin and Coal Creek Areas

FERNIE, B. C., Sept. 5—The Fernie school board met on Wednesday evening in the Council chambers. The principal item of business was the overcrowding of high school classes in grades IX and X, and a very large prospective receiving class in the Central school.

High school opened with 36 boys and 38 girls in grade IX and 37 pupils in grade X.

Principal Roger Pepper who was present stated that these class were too large for efficient teaching.

Several students in Grade IX and X come from Coal Creek and Corbin, and the question arose whether the board should .Allow their attendance under the crowded condition of the school. After considerable discussion and the hearing of representatives from both these towns, the final decision was postponed until next week. It was the wish of the board to take these children from neighbouring towns of this addition of numbers would not greatly lower the efficiency of the school. The board will not hire an extra teacher on account of extra cost and considerable changes that would be necessary in making room for another class, as all rooms in the school are now occupied.

Miss Dickens' receiving class in the central school had 45 pupils present at the opening day. This number was considered too many for one teacher. As there is room in the Anne school, some of the children in this class living nearest this school will be sent there. Birth certificates have been required from all new pupils entering the receiving class.

NO "SHIRKERS"

The question of some high school children who attend and do not conscientiously try to keep up with the work of the classes was discussed and the following resolution was passed "Any pupil who falls behind in his or her high school work will be requested to leave the school."

The large high school attendance this year was thought by the board to be the result of the hard times prevailing. As there is no work to be had at present for boys of high school age, they prefer to attend school than remain idle at home.

Miss Barton's appointment to the school staff for 12 months and Miss Nicolette's appointment for the place of teachers on leave for these periods.

Accounts amounting to $1397.62 were authorized paid. Those present were Chairman Herchmer and Trustees Asselstine, Phillips and Cummings.

Approximately 1,000 farmers in Portugal took courses in scientific agriculture this year.

Java, with a population of 690 per square mile, is the most densely populated body of land in the world.

SHARP ADVANCE IN WHEAT PRICES FOLLOWS BIG ORDERS AT CHICAGO

losing Quotations Generally Two Cents or More Above Previous Day

CHICAGO, Sept. 5— Pessimism nished from the Chicago wheat today as future deliveries wheeled into line behind an excellent mand for cash wheat and began counter assault against the onsh of lower prices. With Europan countries taking 1,500,000 bushs of cash wheat for export and mestic interests buying 127,000 shels more, most of it destined r mills, traders on the board trade took heart and started ying.

The result of this activity was a arp advance in prices, with closg quotations generally 2 cents more a bushel above yesterday's nish. Unexpected strength in Livpool, largely because of active overing by professional sellers id also because of dry weather mplaints from Argentina, helped return confidence to traders. orn was less fortunate and had a ard time staying above yesterday's ose.

Wheat closed firm at almost the p most futures reached, 1⅞ to cents a bushel net higher than e previous close. Corn finished nchanged to ⅞c lower, oats ⅛ to c, rye 1⅜ to 2¼c higher, and ovisions showing a 15 to 35c ivance.

OGILVIE FLOUR PAY $5 BONUS

MONTREAL, Sept. 5—In declaring e regular quarterly dividend of per share today, the directors of gilvie Flour Mills announced that bonus of $5 per share would be id. This compared with the bonus $17 paid last year and $15 in 28.

NO PROMISE OF CUT IN BREAD PRICES, TORONTO

TORONTO, Ont., Sept. 5 — The cut in bread prices from 11 cents to 10 cents; about two months ago; leaves it at the lowest level it can be expected to reach in Toronto during the coming winter according to bakers in the city who have commented upon the proposal to inquire into the cost of bread.

It is contended by the bakers that it is economically impossible to bring about any further reduction. The mere fact that the price of flour has continued to decline does not justify any further cutting of bread, one baker said, since other factors entering into the reduction exercise a large measure of control over prices.

PRICES FIRM, TORONTO LIST

TORONTO, Ont., Sept. 5. —Prices on the Toronto stock exchange remained firm today in a session of lighter trading although there was a net loss in Brazillan traction of 1⅛ to 35⅜.

International Nickel was prominent among the issues to advance with a gain of 3-8 to 24¾. Noranda was more active than in recent weeks and closed at 23.00 to show a net gain of 60.

Special strength was again shown in Domestic Power Utilities. Canada Power was up 1¼ to 10; Montreal Power two to 60; Shawinigan gained 1-4 to 69¾ and Bell Telephone to 151 1-2. C. P. R. took on one to 181; the new being off 1-4 to 45 1-2.

A number of the steel issues went up with the Canadian Power Utilities. Canada Car gained 1 1-2 to close at 33 1-2; the preferred gaining one to 27¼. Page-Hersey took on 1-2 to 85 1-2. Dominion Bridge 1-2 to 65 and National Steel Car three to 51.

WHOLESALE PRICE OF FLOUR DROPS 50 CENTS, BARREL

A decline of 50 cents a barrel in the wholesale price of flour was announced here Tuesday by local wholesalers.

A new season in canned peas to commence the latter part of the week was also announced by the wholesalers. Both sugar and fruit jars are reported to be moving freely, indicating that housewives are preparing for the winter.

EARLY LOSSES OF WEEK WIPED OUT, NEW YORK MARKET

Net Gains Range From 2 to 3 Points; Wheat, Cotton, Bonds, Better

NEW YORK, Sept. 5. — (By John L. Cooley, Associated Press Financial Writer) — The stock market outdid itself today by advancing with only one minor interruption. Net gains of two to three points eliminated most of the week's earlier losses and there was a small increase in the volume of trading.

Wheat, cotton and bonds also improved, so that it was a reasonably satisfactory day for the optimists. Corn eased and crude rubber features touched a new low for the four consecutive day, but Wall street was more encouraged than discouraged by the general action of the speculative markets.

The rally in stocks was largely based on technical considerations for the shorts apparently preferred to take their profits, if any. Liquidation had encountered resistance in the previous session of the week, and the more promising reports from wholesale and retail trade satisfied the bears that little was to be gained for the moment from further selling.

The market made most of its rise by noon. Earlier buying covered the merchandising, industrial, amusement and specialty shares, neglecting the utilities, oils and coppers. At the appearance of profit taking around the start of the final hour, however, operators for the advance brought forward the utility and food stocks as new leaders and bullish interest in the entire list was revived, although not all of the closing prices were the day's best.

The rally in wheat ranged from 1¾ to 2⅛ cents and was based on covering inspired by reports of a better export demand.

NORANDA UP 75, TORONTO MARKET

TORONTO, Sept. 5—Sales volume and prices improved on the Standard Mining exchange today. Arno, Buchingham, Oriole and Algonquin were the active leaders in the sales movement. Arno and Algonquin each made fractional gains, Buckingham was unchanged and Oriole sold down 23c closing at $1.

Improved trading featured the movement in Noranda and under accumulation it rose 75c to ????? Nickel moved in a narrow circle and closed up 25c at $24.25; Coast Copper in a 10 share sales lost 15c, closing at a new low of $7.35. The general movement on base metal stocks was featureless with price changes practically at a standstill.

CABBAGES AND CUCUMBERS ON TRAIL MARKET

TRAIL, B. C., Sept. 5—Pickling cabbage and pickling cucumbers made their appearance at the local market this morning. They sold fairly well.

Beef was new, replacing the pork offered last week. Chicken and duck sold exceptionally well.

Transcendant crabapples, dropped sharply in price, being quoted at 4 cents for a 20 pound crate. Hyslops should be on the market next week.

Huckleberries appeared for the second time and sold fast. They were brought here from Sandon by Doukhobors.

Sage was among herbs offered this morning.

LOCAL MINING COMPANY NAMES ITS DIRECTORS

At a meeting of the Golden Age Mining company here recently, Edward Terzian of Spokane was chosen president. Sarkis Terzian of Nelson was appointed vice-president and manager and Fred A. Starkey secretary. Emilo Pisaplo of Trail, E. H. Hosner and J. Fearey, both of Portland, were elected as directors of the company.

NO DELAY IN HARVESTING

WINNIPEG, Man., Sept. 5.—(CP)—Wheat now being threshed on the prairies is grading between number one and four to a great extent, says the weekly crop report of the Canadian Bank of Commerce issued here today. Good weather has been general in the west, the report adds, and harvesting is going forward with but little delay by rain.

Wheat cutting is completed in Manitoba and nearly finished in Saskatchewan and Alberta with yields ranging from 20 bushels to the acre in this province to 25 in some parts of Saskatchewan.

The report estimated the wheat yield in northern Alberta where better than an average crop is being harvested, at about 25 bushels to the acre.

JUDAS GOAT HAS A RIVAL

JONESVILLE, La., Sept. 5.—The Judas goat of the packing centers has competition in the "hawg hounds" of Catahoula parish, one of Louisiana's chief pork producers. Droves of hogs run wild in the woods and rounding them up would be impossible without the hounds which literally load the pigs to the slaughter.

When the time arrives for roundup, the owner simply releases one or more dogs. A dog selects the leader of a drove, worries him into a fighting frenzy and then leads him to the place of the roundup. The drove follows.

Shooting golf ball into tree at Salem, Ore. Ken Brown, two came down; one had been there some time.

PRICES CONTINUE TO CLIMB ON THE MONTREAL MARKET

Montreal Power Active Leader, Gaining 3 1-2; Brazilian Second

MONTREAL, Sept. 5— For the fifth successive session stocks advanced on the local market today, with net gains at the close ranging from a fraction to 7 points, and the average more than a point higher.

The usual favorites, Nickel and Brazilian, while continuing fairly active were not as much to the forefront as the utilities.

Montreal Power was active leader, with sales in 10,824 shares, and closed at 61½, up 3½. Brazilian was second, with trading in 6,558 shares, and closed at 35¼, off 1¼. Nickel, which was third in volume with sales in 5,442 shares, closed at 24¼, up ¼.

Weakness in the St. Lawrence Paper issues was a feature, St. Lawrence Corporation selling at 6, a new low level, off 1½; St. Lawrence Paper common selling at 6½, off 2¾; and St. Lawrence Paper preferred, 1¼ lower at 62½.

Among closing prices were National Steel Car, 2½ higher at 53½, Shawinigan 3 higher at 70, Power Corporation 1½ higher at 70½; Dominion Bridge, 1¾ higher at 66; Dominion Glass, 7 higher at 15½; Winnipeg Electric, a point higher at 37½.

EGG MARKETS

OTTAWA, Ont., Sept. 5. — Canadian egg markets are working firmer as receipts continue to decline and with the good demand for the top grades.

Toronto—This egg market continues firm on the higher grades and further advances are looked for. Seconds continue slow. Dealers are quoting country shippers for ungraded eggs extras 31 to 32, firsts 28 to 29, seconds 22 to 24, delivered, cases returned.

Montreal—Egg receipts here yesterday were 736 cases as compared to 1441, cases on the corresponding day last year. The market is firm with an active demand for actual consumptive requirements, especially top grades. Eggs are jobbing on spot today between dealers at extras 37 to 38, firsts 31 to 32, seconds 25 to 26.

Vancouver — With the slowing up of receipts and a good demand prevailing both locally and from outside points, this egg market has advanced on both buying and selling prices. Wholesalers are paying producers for ungraded eggs extras 30 to 31, firsts 27 to 28 pullet extras 24 to 25, peewees 16. Wholesale prices to retailers are extras 34 to 35, firsts 32, pullet extras 29, peewees 21.

Saint John — The local egg market continues quiet and unchanged with some advance in prices looked for but not yet materialized. Prices to retailers are extras 36 to 38, firsts 34 to 35, seconds 27 to 29.

There is a fair demand for large birds on the poultry market but many of the current arrivals are thin and unfinished.

Chicago Spot 26, Nov. 28 3-8.

Farthing Awarded In Damage Suit

SHANKLIN, Isle of Wight, Sept. 26.—(By The Canadian Press)—Before the Lord Chief Justice and a special jury in the King's Bench division the hearing was resumed of the libel action brought by Miss Mollie Frances Hunt of Elm Grove, Guernsey, suing through her aunt, Mrs. H. A. Hobson, as her next friend, against Miss Kathleen May Damon, the head mistress of a girls' school at Upper Chine, Shanklin.

Miss Hunt complained that she was wrongfully expelled from the school by Miss Damon, who afterwards wrote to her mother and aunt alleging that she had been guilty of disobedience and disloyalty. Miss Damon denied the allegations and pleaded that the words complained of were true and written without malice or a privileged occasion. A farthing's damages for the plaintiff was the decision of the judge and jury.

ANNOUNCEMENT OF AIR MAIL ROUTE IS VERIFIED HERE

Fred A. Starkey Receives Information from Post Master General

Official verification of the announcement of the southern air mail route through British Columbia via the Crows Nest Pass has been chosen by the Dominion government, was received by Fred A. Starkey, commissioner of the assgciated Boards of Trade of Eastern British Columbia, in a letter received from the assistant deputy postmaster, writing for the post master general, recently.

Mr. Starkey received the information in reply to several letters written by him to the post master general. Although the location of the route has been made no official date as to the commencement of the service has yet been made. For some time the survey of the province has been under way and technical officers are now working on the details of the route.

Many important centers will be benefitted by the location of the route and although Nelson has not an airport, it will be benefitted indirectly.

In his letter the assistant deputy post master stated:

"I have been requested by the postmaster general to acknowledge receipt of your letter with further reference to a resolution passed at the 30th annual convention of the Associated Boards of Trade of Eastern British Columbia, with regard to the establishment of an air mail service over the southern route between the prairie provinces and the Pacific coast.

In reply I beg to inform you that the district in question has been fully inspected and it has been practically decided to follow the southern route via the Crows Nest Pass. Technical officers are, I understand, already working on the details, and while I am unable at the moment to advies you as to the probable date of commencement of the aid mail service, you may rest assured that the matter is not being overlooked."

125 VARIETIES OF APPLES ON THIS ONE TREE

MARTINEZ, Calif., Sept. 5. — A tree with approximately 125 varities of apples on it has been grown near here by George Upham. It took 12 years of experiments to obtain the phenomenon.

Upham has been grafting branches to the original tree since 1918. In the spring the grafted limbs bud at different times with blossoms in dozens of shades.

AMY JOHNSON HAS RECEIVED SEVEN WATCHES, SYDNEY

SYDNEY, Australia, Sept. 5.—(By The Canadian Press)—"Johnnie", as the Australians have nicknamed their pet heroine, Amy Johnson, has received seven watches since her arrival here, each one a piece of beautiful workmanship. She was also given a handsome Australian opal necklet. "Johnnie" was delighted with the gift, and said she would never part with it. Forthwith she placed it around her neck.

'GOSSIP STONE' GIVES WARNING

MULHOUSE, France, Sept. 5.—The famous "gossip-stone" still warns idle talkers as they pass the ancient, frescoed city hall. This stone, a mask that weighs 25 pounds, is in the historical museum, but a duplicate hangs on the end of the city hall, with a warning inscription. Its significance is evident from the big tongue hanging out.

Centuries ago gossips were punished by being compelled to walk the streets wearing the heavy stone mask. Its use is recorded as far back as 1551 and as late as 1781.

MODERN PORTIA

TORONTO, Ont., Sept. 5.—(By The Canadian Press)—Assistance of a fair Portia helped Judge Morson dispose of an action in division court recently. A woman sued a cleaner's company for $30, alleging that her coat sent there for cleaning had been returned stained and with several holes. His Honor thought they looked like moth holes, but plaintiff disagreed. Miss V. L. Parsons, barrister, was asked to examine the garments. "They look like moth holes," she opined. "Of course, said Judge Morson, "Judgement for the defendant with costs."

A total of 1,052 automobiles, abandoned or forgotten on the streets of Paris, France, are now in the hands of the prefecture officials awaiting the return of the owners.

RENEWED INTEREST OF FOREIGN BUYERS HELPS WHEAT, WINNIPEG

WINNIPEG, Sept. 5—(CP)— renewed interest on the part of foreign buyers, after many weeks of inactivity, boosted wheat prices here today.

Cables from Liverpool indicated a brighter condition overseas, and exporters took a million and a half bushels of wheat from this country alone overnight.

At the close values were 1¾ to 2⅛ cents above Thursday's final quotations, the December future scoring the greatest gain to finish at 87 to 87¼. October closed out at 84½ and May at 93⅛ cents.

Deliveries to country elevators continue heavy, six million bushels being reported today.

The cash wheat market livened up for the first time in weeks, while the coarse grain markets were more active, all following the wheat futures into higher ground.

PROVISION AT BAY PORT FOR MONSTER ELEVATOR, PLAN

Elevator at Churchill Will Have Capacity of 10 Million Bushels

CHURCHILL, Man., Sept. 5.—(CP)—Ten million bushels of grain elevator capacity—ultimately—is being provided for at Churchill, whence a goodly portion of the west's crop is expected to flow Europe-ward next season. The bin now under construction at the bay port for the Dominion government will have a total capacity of 2,500,000 bushels, of which 500,000 bushels capacity is in the work house.

Of extremely modern reinforced concrete construction throughout, the elevator being built is located some 600 feet back from the deep water dock being constructed, and is parallel to the dock. The location is approximately at low-tide shore line, where action of the tide-water draws the frost from the ground and enable piles to be driven to rock.

23 GRAIN SPOUTS

Three grain boats will be afforded berthage along the 1500 feet of dock gallery—in all, 23 grain spouts are spaced at 65-foot centers. Each hour with four streams of grain moving, 80,000 bushels can be loaded. As far as unloading is concerned, 400 cars on four through tracks of ample length will be able to be dumped daily into the gaping bins, meaning that about half a million bushels can be poured into the elevator daily. Grain will be delivered from the elevator to the deep-water dock by a four-belt conveyor system.

Foundation of the elevator will contain 7700 piles, to be cut off at mean tide level and capped with the concrete mattress of the elevator structure. After piles are driven, the area of the building will be filled with gravel up to the level of the pile cut-off. Basements of all buildings will be protected with a membrane water-proofing above the level of high tide.

HUGE ELEVATOR

Towering 207 feet above the tops of the piles, the elevator work house is to be 190 feet long by 80 feet wide, fully equipped; provision is also made for subsequent installations. The storage annex is to be 290 feet long by 100 feet wide, built end-on to the work house. A continuous working grain dryer, with 1000-bushel-per-hour capacity, will be housed in a separate building between the work house and the storage annex.

At one end of the workhouse is the office building, to contain the elevator offices, millwright shop, dining and rest rooms for the staff and quarters for the inspection department. A complete millwright shop is provided to handle elevator repairs. Electric power for the grain elevator dock facilities and for the town of Churchill will be generated by a modern plant now under construction.

As progress of the dock structure will permit, cargo sheds and a coal-handling plant will be constructed. All harbor developments are being constructed by the engineering staff of the department of railways and canals with Col. A. E. Dubuc, chief engineer, and D. W. MacLachlan, engineer-in-charge.

Grain elevator, dock galleries and power plants are designed by and built under the supervision of C. D. Howe and company, consulting engineers of Port Arthur, Ont. General contract for the grain elevator has been awarded to Carter-Halls-Aldinger company, limited, of Winnipeg, Man.

BRITISH COTTON INDUSTRY FACES SERIOUS CRISIS

MANCHESTER, England, Sept 5—The Lancashire cotton industry, which draws most of its raw material from the southern United States and exports it as manufactured textiles to the near and far east, is face to face with the gravest crisis of its histroy. The plight of the once vast industry is fully revealed in a government report, drawn up after months of investigation, which tells the industry, without mincing words, that it must reorganize or get out of business.

While trade statistics show that the world each year is using more cotton goods than before the war, Lancashire's share of the trade has declined dangerously. A year ago the little cotton spinning town of Burnley had only 5261 unemployed cotton operatives. Today the figure is 15,000. The unemployed of Blackburn jumped from 7448 last year to 27,000 today, while the unemployed at Preston increased from 8819 to 13,868.

In 1913 the Lancashire cotton trade sold the world seven billion yards of piece goods. In 1929 it sold only 3,750,000,000 yards and this year is selling even less. While Lancashire's sales have been reduced by half, foreign competitors have been making cotton goods cheaper and just as good as Lancashire and putting them on the market more attractively. The Japanese, particularly, have almost supplanted the British in the China market and are rapidly driving the Lancashire product even out of India.

In effect, the British government has told the Lancashire spinners that they must abandon their historic "Wait till they come to us" marketing system and adopt the American "make them buy" methods. Also that the surviving mills must be equipped with up-to-date machines and grouped in amalgamations.

We Know the New

CAPITOL THEATRE

Policy of Daily Matinees Will Be Popular

On and after Monday, September 8th The Capitol Theatre will run Daily Matinees starting at 2 p.m. for the benefit of all those who cannot attend in the evening.

We know the children have been yelling their parents to distraction, and how often do we hear mothers say, "I wish school was started again," and when school opens they sigh with relief.

There are plenty of parents who are unable to attend night shows on account of young children, but under our new policy of running daily matinees they will now be able to see all shows.

Parents can now arrange, starting Monday, September 8th, to have their holidays by attending the Capitol Theatre Matinees while the children are working at school, and those who must be home when the children return from school by being in at the start of the show can be home at 4 o'clock.

IMPORTANT NEWS

Send the children to the Saturday Matinee starting at 2 o'clock. We have something very interesting to tell them.

Mothers can always depend that the children will be well looked after, and everything done that will make them happy and contented.

To the people of Salmo, Ymir, South Slocan, Procter, Harrop, Long Beach, Crawford Bay, Queen's Bay, Ainsworth, Kaslo, Slocan Valley and other places, we know this will be glad news.

After you have done your shopping, spend two hours at the Capitol Theatre where you will always see the best of entertainment. The management will always advise you when Stages leave Nelson for the different places.

DAILY MATINEES AT 2 P. M. START MONDAY, SEPT. 8th.
