VOLUME 30 FIVE CENTS PER COPY ELBON, BRITISH COLUMBIA, CANADA—THURSDAY MORNING, APRIL 10, 1941 NUMBER 303

BRITISH FORCES SPEEDING TO NORTH FRONT

C. M. & S. Profit \$9,062,226

Dividends \$7,367,000

Income Tax Is \$4,200,000

Gold and Mercury Profits in Year \$1,077,000

Net profit of the Consolidated Mining & Smelting Company in 1940 was \$9,062,226.86.
Dividends paid amounted to \$7,367,454.50.
Provision for income taxes was \$4,200,000.
Total development and exploration were shown as \$653,012.48.
Depreciation on plants was \$2,434,829.61; and mine depletion was \$1,217,897.80.

To cover abandonment of mining properties \$146,947.30 was written off to profit and loss account and \$311,660.26 to depletion reserve.
Balance owing the West Kootenay Power & Light Company was reduced by a further \$2,545,357.32, leaving the amount owing at the end of the year \$1,903,628.48.

For employees' pensions \$732,909.21 was appropriated.
These figures are from the Directors' report signed by E. W. Beatty, Chairman, and S. G. Blaylock, President, in the annual report of the company.

Income taxes amounted to \$1.28 a share on the issued capital. The rate of dividends was \$1 a share, plus \$1.25 a share as bonuses. Property buildings and equipment were shown as \$18,337,201.29. Total assets were \$59,055,329.19.

Surplus was \$22,194,794.46.
Total nominal capital was \$16,379,395.
During the year 4560 shares were issued to employees as bonus. Shares issued totalled 3,275,819 at the end of 1940.

1940 OPERATIONS
Dealing with operations in 1939, the report states:

SULLIVAN MINE AND CONCENTRATOR
Mining costs for the year were a little higher than for the year ending the 31st December, 1939. Milling costs, however, were lower, the result being that the cost of mining and milling in 1940 was exactly the same as in 1939. The grade of the ore extracted was slightly higher than in the previous year.

Only 248,000 cubic yards of back filling was placed. This quantity is not sufficient to take care of the ore milled. The surface gravel was thinner and further away from the collars of the filling raises. Another carryall has been purchased for 1941 as it is essential that the fill placed should be more than the ore removed. Some pillar mining has been continued with satisfactory results, and we expect a high percentage recovery of ore from this source.

Dust control is one of the big problems of this type of mining. Good ventilation has been maintained throughout the year. A definite drop has been shown in the dust count in the last two years.

One development has been kept ahead of production.
The Concentrator has demonstrated that it could handle a very much increased tonnage without any serious drop in the recoveries.

LEAD SMELTING
Costs for first part of the year were somewhat better than in 1939 but increased slightly towards the end of the year, mainly due to the increase in wages on account of the higher cost of living. Recoveries were good, being well above the average in all metals.

LEAD, SILVER AND GOLD REFINERIES
Operations in these plants have been very satisfactory during the year, costs and recoveries both being excellent. The higher grade of the silver produced has made this metal suitable for the mint and also for rolling sheet silver.

ZINC PLANT
Costs in the zinc plant were slightly higher than in 1939 due in the main to increased cost of supplies and labor. Recoveries were better than in 1939.

ANTIMONY PLANT
The initial troubles in starting this plant have been practically all overcome. The capacity of the plant has been brought up to 25 per cent

Tank and Machine Guns Protect the C. M. & S. Plant

"The Company has an armoured tank equipped with four machine guns and six rifles ready for action at any moment."

This statement appears under the heading "Security" in the annual report of C. M. & S. Co. directors, signed on behalf of the Board by E. W. Beatty, Chairman, and S. G. Blaylock, President.

"Your Company has been put to very heavy expense to guard your plants from sabotage," the report states. "It is difficult to decide how far the Company should go in this connection, and perhaps we have overdone it. No part of the boundaries of any of your plants is out of vision of at least one guard, day or night. The guards are all sworn in as special constables and have special uniforms, and must have a loaded rifle with them at all times. They have to be good shots and very active, and should be very efficient."

New Consolidated Pension Plan Aims at Greater Security

New pension plan for C. M. & S. Co. employees was instituted in 1940 "to provide greater security for the payment of pensions," state E. W. Beatty, Chairman, and S. G. Blaylock, President, in the annual Directors' report of the Company. A non-contributory employees' pension plan has been in force since 1926.

The report says: "A pension fund society was incorporated, the first funds of which were provided by transferring to it the employees' housing loans valued at \$1,389,810.80, bearing interest at five per cent. Four per cent of the payroll is turned over to the pension society each month. It is estimated that this will not be sufficient to cover the cost of pensions when the saturation point is reached."

"As your force has been growing steadily, four per cent is more than enough to meet the requirements at present. The pension society will pay the current pensions and add the excess to the pension fund until the fund is increased to the actuarial requirements to fully protect the pensions. It is also possible that from time to time further contributions may be made if it is thought desirable or necessary. A change was also made during the year to allow an employee the option of receiving the whole pension himself on his retirement or having this pension commuted into a smaller sum, half of which amount would be continued as a pension to his widow after his death until her remarriage or death."

Tadanac and Sullivan Mill Safety Record Reveals Improvement

"While the safety records at the Sullivan Mine were not nearly as good as in 1939, Tadanac and the Sullivan Mill were better," is noted in a report of safety work appearing in the annual Directors' report of the Consolidated Mining & Smelting Co.

The Sullivan Mill record "was extremely satisfactory—only 4 fatalities were lost per 1000 worked. The fact that there were only two fatalities in the entire operation at Kimberley and Trail, in spite of the increased number of workers, is most encouraging," the report continues.

Tadanac: 1939 1940
Fatalities 2 1
Shifts lost per 1000 worked 42 4.6
Sullivan Mill:
Fatalities 0 0
Shifts lost per 1000 worked 12 0.4
Sullivan Mine:
Fatalities 1 1
Shifts lost per 1000 worked 30 7.7

War Committee Works Smoothly

OTTAWA, April 9 (CP).—A Cabinet War Committee of 10 Ministers functions smoothly and harmoniously in directing Canada's war effort, Prime Minister Mackenzie King said at a Press conference today.

"I do not see how any other arrangement could function more satisfactorily," he said, commenting on the committee's work for the creation of an "Inner War Cabinet".

The Prime Minister said the War Committee was made up of himself, Resources Minister Cresser, Justice Minister Lapointe, Defence Minister Ralston, Air Minister Power, Navy Minister Macdonald, Munitions Minister Howe, Finance Minister Isley, War Service Minister Gardner, and Hon. Raoul Dandurand, Government Leader in the Senate, and Minister without portfolio. The Secretary is Arnold Heene, Clerk of the Privy Council.

West Kootenay Surplus \$1,285,566

Revenue Is \$4,168,660

West Kootenay Power & Light Company had a surplus of \$1,285,566.51 last year after deduction of operating expenses, bond interest, depreciation and income taxes.

After payment of the regular annual dividend of 7 per cent on the preferred shares, and dividend and bonus of 25 per cent on the common shares, aggregating \$1,563,000, there remained at the credit of earned surplus account, as at December 31, an amount of \$4,453,123.03.

These figures are from the annual Directors' report to shareholders of the Power Company, signed by E. W. Beatty, Chairman, and Lorne A. Campbell, President and Managing Director.

The report continues: "No. 2 plant extension has been completed and was put on the line April 1, 1940, but the increased power capacity of this extension cannot be put into service until it is operated through a full storage period. The usual storage period is from December 1 of one year to April 15 the following year."

Warns Russia

Prime Minister Churchill yesterday warned Russia that the Nazis probably would soon reach for the Ukraine granaries and the Caucasian oilfields. (For story see "Churchill", page eight.)

Heavy Damages to German Cities Reported, Britain

LONDON, April 9 (CP, Cable).—In a day-long series of offensive sweeps over the German-held Channel coast Royal Air Forces craft today attacked airbases, anti-aircraft ships, freighters, motor trucks and barges.

The daylight attacks followed a second successive night assault on the German naval base at Kiel in which R. A. F. bombers shattered dockyard structures and fired down upon rows of other buildings and warehouses in the town itself.

The hours-long Kiel raid, described as "even more impressive" than that of the preceding night, was coupled with other attacks by powerful R. A. F. formations at Bremerhaven, Emden and Rotterdam.

Details which have reached London from various sources relating operations since the beginning of attacks on Wilhelmshaven in mid-January indicated heavy damage on the Bauhafen dockyard services.

Gun stores suffered severely while damage caused in the town included several public buildings destroyed and naval barracks and buildings gutted by fire.

In December and January raids on Bremen inflicted heavy damage on factories and warehouses grouped around the upper series of docks. Several workshops of the Atlas Werke Shipyard where specialized equipment for the German Navy is manufactured, were demolished.

Factories in the Neustadt industrial area affected included the Francke Werke construction engineering firm engaged on large military orders. Technical schools in Kleinste Aile were partly burned out and damage was done to the Focke Wulf aircraft assembly plant.

Bremen's Deschimag shipyard, one of the most important private ship-building concerns in Germany, producing every class of warship except battleships, was repeatedly bombed.

Late Flashes

LONDON, April 10 (Thursday) (CP)—British bombers "successfully" attacked Berlin last night, the Ministry of information announced today.

NEW YORK, April 10 (Thursday) (CP)—The Berlin Radio admitted early today in a broadcast heard here by CBS that the Royal Air Force attacked Germany during the night. No mention was made of damage.

The radio claimed nine British planes were shot down, eight of them by night fighter craft.

Coast Cities to Stage Blackout

VICTORIA, April 9 (CP)—Victoria and Vancouver may cooperate in a joint blackout at a date to be set between May 15 and May 20, it was announced today by Attorney General Wismer, after talks with Mayor Andrew McGavin here and Mayor J. W. Cornett at Vancouver. The blackout will be optional, with authority to request full cooperation on the part of the public.

Dies in Car Crash

KAMLOOPS, B. C., April 9 (CP).—One man was killed and four women were injured, two seriously, when their car collided head-on with a Transport Department truck 10 miles East of Ashcroft on the Caribou Highway today. Ashcroft is 40 miles West of here.

Tough Battalions Reported Taking Up Defence Lines; Trapped Greeks Still Battle

Line Across Albania to Salonika Gulf Planned

BERNE, April 10 (Thursday) (AP)—Battalions of British flame-throwers, tanks and armored corps were said in dispatches reaching Berne early today to be rushing Northward from Piraeus, port of Athens, to a new defence line stretching from the Adriatic Sea across Albania and Greece to the Gulf of Salonika.

Reports from the belligerent countries told of plans for a line of defence from Chimsara, on Albania's Adriatic coast, to the vicinity of Kilros, on the Gulf of Salonika.

With the Italian and German armies expected to meet today near the Albanian frontier, Yugoslavia's army was reported attempting desperately to drive a wedge down Central Albania and establish contact anew with the Greeks near Lake Ochrida.

British troops were said to be already installed in the new line. German parachute troops were reported still landing in front of retreating Greek troops but they were said to have been killed rapidly or rounded up by "parashot" patrols.

Reports from Greece said British troops and supply ships from Africa were moving steadily into Southern Greek ports and it was expected the close of the campaign in Eritrea and Ethiopia would release large numbers of British Empire troops for service in Greece.

NAZI BOMBER TOLL MOUNTING

LONDON, April 10 (CP)—German bombers heavily attacked a West Midlands town and the Northeast coastal area of Britain during the night, but eight raiders were shot down, it was stated authoritatively today.

A total of 21 Nazi planes was claimed by the British in three nights. All eight downed last night were credited to night fighters.

Numerous casualties were feared in the West Midlands town which was pounded by fire and explosive bombs. On the Northeast coast, industrial and residential property damage was inflicted, but it was said casualties were not regarded as heavy in proportion to intensity of the raid.

This army fought, he said without hope of aid getting through to them from Western Greece.

Coventry Digs Out of Wreckage

COVENTRY, April 9 (AP).—This historic Midlands city coped today with new devastation wrought overnight by German bombers in the worst assault since the disaster of last Nov. 14.

The city still was unable to determine the toll of casualties or damage but sleepless volunteers set about the task of salvaging and rescue.

The assault lasted several hours. It was widespread, inflicting damage through the town and cleaving extensively through the residential sectors.

Telephone service was affected. Only curtailed service was available today.

Coventry counted among major property losses a celebrated hall of which only a hollow shell remains.

Heavy Losses Handed to Fast German Troops

ATHENS, April 10 (Thursday) (AP)—The Greek High Command announced today that Greek troops cut off in Eastern Macedonia by the German capture of Salonika were still holding out late yesterday afternoon.

These troops, estimated at 300,000 before the Nazi offensive began, "did not weaken their resistance on the frontier and held their lines intact according to information received during the afternoon."

The strong Greek fortress defences along the Bulgarian frontier at Rupel Pass and East of there on the Nevrokop Plateau. All this section was cut off by the German drive down the Vardar Valley to Salonika.

German troops, the communique said entered Salonika after delaying their advance Tuesday night in the Kilki district to the North.

The Athens Radio said "possibility of a Yugoslav retreat as well as the cutting off of Greek forces in Macedonia and Thrace had been foreseen by the Greek Command."

"The decisive battle will be given where strategic conditions demand it. The war goes on and will go on."

"We know how to fight and will not be influenced by unfavorable turns. Nothing can shake us until final victory."

In Albania, the Greek Command said, heavy losses were inflicted on the Italians during the repulse of Fascist local attacks.

The Yugoslav Legation announced that Yugoslav troops driving Southward from Scutari in Northern Albania had crossed the Drin River.

It was a race between the Yugoslavs and Greeks attempting to squeeze the Italians as the Germans drove Westward across Yugoslavia to make a junction with their Axis ally.

The Greek Government spokesman said a "Greek death army" holding firm in the Struma Valley Tuesday mowed down a large number of Germans who had arrived before the Greek forts believing the Greeks were wiped out.

"The Nazis retreated in confusion leaving large numbers of dead and wounded and abundant material, consisting mainly of hand grenades and portable wireless transmitters," he said.

Farther East of Kara Dagh, near the Bulgarian frontier, he said "our men launched a violent counter attack on German forces who had occupied heights there, and succeeded in throwing them back, inflicting heavy losses."

The Greeks, and apparently the Yugoslavs as well, fought an epic fight against expanding setbacks.

Yugoslavia, in a statement issued through her Athens legation, announced the German Air Force committed a cruel attack on Belgrade, the capital, last Sunday although it was cleared of all soldiers and declared to be an "open town."

Port of Piraeus Is Bombed by Nazis

NEW YORK, April 9 (AP).—The Port of Piraeus, Athens, outlet to the sea, and several other Greek ports have been bombed during the last few days, the Athens radio said in broadcasts heard here tonight.

Two German planes were shot down during the raids, said a summary of fighting since Sunday's invasion of Greece by the Germans. This broadcast was heard by NBC.

The Germans also were said to be bombarding Greece with propaganda leaflets urging the Greeks to hand their arms over to German soldiers.

This, the radio said, was termed an insult which made the Greeks more indignant.

At Piraeus, of greater importance since the fall of Salonika, the Germans sowed magnetic mines in the harbor, said a Ministry of Home Security broadcast recorded by the CBS.

The mines were dropped during raids last night and the night before.

A Yugoslav Legation announcement over the Athens radio, heard by NBC, said Yugoslav troops continuing their drive South of the occupied city of Scutari in Northern Albania, had crossed the Drin River.

The German Air Force heavily bombed the Yugoslav cities of Kragujevac, Kraljevo, Raska and Sjenica, the Yugoslavs said.

ANKARA, April 9 (AP)—The Yugoslav Legation tonight informed the Turkish Government that Bulgarian troops are participating in the German attack on Yugoslavia. The Legation cited Yugoslav "staff reports."

No mention was made as to whether the Bulgarians are taking part in the attack on Greece.

It was learned the Bulgarian Ambassador has "assured" Turkey the Bulgarians are not taking part in the attacks. Bulgarian circles described the reports as an attempt to force Turkey into the war against Bulgaria.

BERNE, April 9 (AP).—The Balkans today became the field of severe setbacks to the Allies when German forces, thrusting down the Vardar Valley, captured the Aegean sea port of Salonika and separated Greek troops between the Vardar and the Turkish frontier from their main forces.

As seen from this neutral European observation post, Yugoslavia appeared threatened with imminent partition because a strong German force was moving across Southern Yugoslavia toward Albania, intending to join forces with the Italians.

The main hope of the defenders seemed to lie in the fact strong British-Greek forces in the Grecian Peninsula, apparently based on a line from the Adriatic to the Aegean and under control of both seas, are believed ready to face the invaders.

The Germans moved with considerable speed in two main thrusts. One force swept down to the Aegean sea West of Salonika, seized that strategic port, which the Greeks did not defend, and thus forced surrender of an unestimated number of Greek forces.

At the same time, to the North, in Yugoslavia, other Nazi attacks Westward across the country, toward a junction with the Italians in Albania which appeared almost certain to be completed by tomorrow morning. By nightfall, the Germans were within 15 miles of the Albanian frontier.

Speaker, Who Went for Three Weeks, Stayed 3 Years, Tells Club of Denmark

Nelson Canadian Club audience Wednesday evening was carried on a delightful trip through the tourist wonderland of Copenhagen, Denmark, by Mrs. Gordon Downes of Victoria in her description of "My Three Years in Denmark".

The little country, now under the heel of the Nazi invaders, in penitence was a land of delight and revelations to the tourist, she said. Its amazing educational system, and cooperative movement, the spotlessness of its streets and buildings, and the pleasing manners of its charming and democratic people were all sources of wonder and interest.

Keenly interested in social study, Mrs. Downes went to Denmark for three weeks' study of the language, customs and history of Denmark. She stayed three years, proof enough of its appeal. Her departure from Denmark aboard an icebreaker as the threat of the Nazi invasion loomed over the country climaxed her time there. She had been home only a week when headlines told of the invaders occupying Copenhagen.

"Never fear," she said, "the sympathy of the Danes, and of Norwegians too, is with the British. They have great faith in the Empire, and I ask you to hope with me that soon we may write a new chapter of history telling how England justified the faith in her of that gallant little democracy."

Mrs. Downes described the social system built up in the state that in 1813 was completely bankrupt. It was its citizens the finest educational system in all Europe, state medical and hospital treatment, unemployment insurance, and a pension for all men and women on attaining 60 years of age.

LAND OF BICYCLES
One of the surprises greeting the tourist was the fact that the people were so much similar in appearance to Canadians or English. Another was the number of bicycles crowding the streets. In a country of three million people there was said to be nine million bicycles. Mrs. Downes explained this as "one for weekdays, one for Sundays, and one spare."

The Danes were a scrupulously clean people. Their streets and buildings, and even their decks shone spotlessly. They were also a people of charming and faultless manners, she said. Indeed, she said, the manners of North Americans seemed almost objectionable on some instances on her return.

"The most approachable Royal Family in Europe" was Mrs. Downes' description of the Danish Royal Family. She described the daily unattended ride of the ruling monarch, his everyday contacts with his people, and with children. Once noticing Mrs. Downes' daughter attempting to photograph him, the King stopped his horse, smiled, and saluted while the young lady snapped his picture.

Mrs. Downes also described the simple Lutheran Churches and other buildings—the Danes' food, language and interesting customs. She also told a little of their history and origin.

Miss Jocelyn Dyke completed the entertainment, playing two fine piano solos. Miss Enid Etter presided, and introduced the speaker.

First Service of Tenebrae Is Held
First service of Tenebrae in Holy Week was sung Wednesday evening at the Cathedral of Mary Immaculate. The service which signifies the grief of the Church during the period when Christ suffered and finally died, will be held again this evening and Good Friday evening.

Rev. M. J. Conroy of Creation delivered the sermon. Other priests from East Kootenay, Okanagan and Nelson District attended.

War Emergency Training Course at Nelson Opens April 21; 40 in Class

Prospect of Work for Graduates Is Good
First War Emergency Training course at Nelson will open April 21. With new equipment added, and an additional instructor engaged, a class of approximately 40 men will be organized.

B. B. Clark of the Junior High School Staff stated Wednesday that trainees had been selected from among 70 applicants, and that those selected would be notified by mail within the next few days. He added that trainees would be on probation for two weeks, and if they failed to measure up they would be released.

He will continue to receive applications in preparation for a second training course to follow the opening course if sufficient men are interested.

FAIREY IN NELSON
Organization proceeded rapidly after Col. F. T. Fairey, Organizer of Technical Education in British Columbia, visited Nelson between trains Tuesday night. He interviewed a number of applicants and met members of the School Board, completing arrangements for the course and arranging for additional visas and small tools to be placed in the metal working shop at the Junior High School to accommodate the class.

The work will be under the direction of B. B. Clark and A. J. Cornish of the School Staff, sharing instructional duties between them, and a third man on full time. The third instructor has not yet been appointed.

Men ranging in age from 18 to 54, excluding 21-year-olds who may be called for army training, will comprise the first class. When they have completed the course they will be subject to call to any part of the Dominion where trained men are needed, this being part of their agreement when they enroll.

Prospect for work is said to be good. One firm engaged in airplane construction has announced it will take 150 trained men each month for the next eight months, and has expressed a preference for men trained under the Government-sponsored plan.

Nelson is the sixth British Columbia City to participate in the War Emergency Training plan. Classes are in operation at Vancouver, New Westminster, Pemberton, Kelowna and Vernon.

Trail No. 2 Are Bowling Champs
TRAIL, B. C. April 9 — Trail Hotel No. 2 won the Trail men's bowling championship in the final playoff match at the Trail Memorial Hall, Wednesday night.

Mr. Bassett left Wednesday for the Coast en route to his new post. K. C. McCannell of Victoria, who has been Forester in charge of Provincial Parks, will arrive here toward the end of the month, probably about April 23, to become Assistant District Forester here.

Premier Changes Plans for Holiday
OTTAWA, April 9 (CP). — Prime Minister Mackenzie King told a Press conference late today that gravity of the war news from the Balkans had prompted him to make a last-minute change in his plans to leave this afternoon to visit President Roosevelt.

It is expected he will leave toward the end of the week. Mr. King assured the 20 correspondents who attended his conference that he had no "inside information" but had changed his plans entirely on the basis of news in the afternoon papers.

"I would not be happy away from Ottawa at this particular moment," the Prime Minister said. "We are at a time of great crisis," he said. "Events may move rapidly in the Balkans but in other parts of the world, I think that the people of Canada will continue, as they have been, to perform their tasks calmly. That is the best way to carry on at this time."

"I think we should all realize that what has occurred in the Balkans was always realized as quite possible. It would create an entirely wrong impression if we decided to call Parliament to deal with the situation in Greece as it is at this moment."

At Arrow Creek the grounds are unfenced and as there is no pound law it is felt little could be undertaken to advantage until a fence is provided. It is learned the parents are willing to help by providing the posts and other forest materials required for the sides and back of the school area, provided a wire fence is put in at the front. Miss Dobson and the pupils have a garden on the West side of the school where iris is growing.

BABY KILLED BY BUS

PORT COQUITLAM, B.C., April 9 (CP)—Gordon Lorne Laughlin, three-year-old son of Mr. and Mrs. H. L. Laughlin of Carbon, Alta., was killed instantly today when he fell from his parents' automobile on the Loughheed Highway near here and was struck by a bus travelling in the opposite direction.

LACROSSE MEN MEET TONIGHT TO ORGANIZE

Nelson's lacrosse players will meet tonight at the Savoy Hotel to discuss the possibility for the coming year. Harold Leung, Manager of last season's senior club, has extended an invitation to all players of the gutted stick game, both veterans and young hopefuls, to be on hand to discuss this year's prospects and to take some action.

Already players and followers of the game have organized in Trail and Rossland, and the old standbys here feel the urge to get going.

Nelson will be searching for much new talent. Especially will they seek to find a way to replace Davie Gibson, the defender of Nelson's goal in years past.

On hand and "zarin" to go are Bill Townsend, Bud Cooper, Reg Miller, Pele Bonnevillie, Ian Dingwall and several others of the stars of former years. Al Hooker and Jack Bishop seem a little dubious about it all at present, but may later change their minds.

There are a lot of young fellows who have added height and weight in the past year or so. These are the lads who will be called on to bring home the bacon for Nelson if there is a club. It'll likely be decided very soon.

Bassett Honored Eye of Departure to Victoria Post

E. W. Bassett, Assistant District Forester here for the past two years, and now being transferred to Victoria to be assistant to Forester E. E. Gregg, who is in charge of forest protection for the Province, was presented with a fountain pen and desk set by the staff of the Forest Branch here when he severed his connection with the Kootenay-Boundary District Tuesday afternoon.

The presentation was made by District Forester E. E. Allen. Mr. Bassett left Wednesday for the Coast en route to his new post. K. C. McCannell of Victoria, who has been Forester in charge of Provincial Parks, will arrive here toward the end of the month, probably about April 23, to become Assistant District Forester here.

Creston School Grounds Dressed

CRESTON, B. C.—Trustees H. A. Powell, D. Bradley and Supervising Principal E. Marriott, have completed a survey of the grounds of schools in Creston Valley United School District and as Grounds Committee Chairman, Mr. Bradley is preparing a report.

At Wynndel, Principal Art Rutledge and his assistant, Miss D. Walker, with the help of the school boys, have started beautifying the grounds. This year there is a fine showing of bloom in crocus and tulips, and some shade trees have been planted, including the Corcoran oak which has been nursed along by W. J. Cooper since its arrival in 1937. It is proposed to put in a lawn on the West side of the grounds to be backed by native flowering trees such as syringas and spires, and other shrubs, and the flagpole will be shifted.

The school's water supply will be improved. It is possible central heating may be installed at Mid-Summer.

At Arrow Creek the grounds are unfenced and as there is no pound law it is felt little could be undertaken to advantage until a fence is provided. It is learned the parents are willing to help by providing the posts and other forest materials required for the sides and back of the school area, provided a wire fence is put in at the front. Miss Dobson and the pupils have a garden on the West side of the school where iris is growing.

Creston Lady at Missionary Meet

VICTORIA, April 9 (CP). — Increase in membership and in the money raised by the Provincial Women's Missionary Society of the Presbyterian Church in Canada was recorded in reports read at today's session of the annual meeting. Mrs. W. H. MacInnes, Vancouver, presiding. The treasurer's report, read by Mrs. K. A. Jackson, shows a total of \$5,963.00, this amount being an increase over 1939.

KISS-YOUR TIRED FEELING GOODBYE!
Painless Many Suffer Low Blood Count—And Don't Know It.
The best thing about low blood count is that you can catch about as much as you ever did—even look healthy and strong, yet you may feel as if you had lead in your legs, dopy, tired and peevish.
Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you spring power.
Get Dr. Williams' Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then, with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams' Pink Pills today. (Advt.)

British Rear Guard Faces Stiff Warfare on Libyan Front

CAIRO, April 9 (AP)—Britain announced the virtual wind-up of the East African campaign today with the capture of the Red Sea Port of Massawa, in Italian Eritrea, but acknowledged the rear guard of the Imperial Forces in Libya was "heavily engaged all day" Tuesday against Eastward-moving Axis armored units.

The Germans and Italians claimed the capture of Derna, Libya, and the German Command claimed six British generals and 2600 men had been taken prisoners at El Mechili, 50 miles Southwest of Derna. These claims were without British confirmation.

The British announcements said numerically superior German and Italian troops were engaging the Imperial forces, but that the Royal Air Force was maintaining a continuous attack on concentrations of men.

LONDON, April 9 (AP)—Lord Moyne, colorful Secretary and leader of the House of Lords told the Upper Chamber today that the British forces in North Africa have "re-established themselves in force in the strong fortifications of Tobruk" in Eastern Libya.

He said he believed that "the fall-back of our advanced troops was a small price to pay for the decision to stand by Greece by diverting some of our army and resources."

OTTAWA, April 9 (CP)—The Dominion Bureau of Statistics said today a steady advance in Canada's wartime economy has given the Dominion a status among the nations of the world which it otherwise "could not have attained in generations."

In the first two months of the year, the bureau said, business operations showed a 15.5 per cent gain compared with the same period last year. In the two months the bureau's index of the physical volume of business averaged 128.3 against 111.2 in January and February, 1940.

Highlighted by an increase of 148.8 per cent in award of construction contracts all economic divisions participated in the expansion. Steel ingot production increased 17 per cent, while the employment index rose 17.8 per cent to 134.9.

War Gives New Status to Canada

OTTAWA, April 9 (CP)—The Dominion Bureau of Statistics said today a steady advance in Canada's wartime economy has given the Dominion a status among the nations of the world which it otherwise "could not have attained in generations."

In the first two months of the year, the bureau said, business operations showed a 15.5 per cent gain compared with the same period last year. In the two months the bureau's index of the physical volume of business averaged 128.3 against 111.2 in January and February, 1940.

Highlighted by an increase of 148.8 per cent in award of construction contracts all economic divisions participated in the expansion. Steel ingot production increased 17 per cent, while the employment index rose 17.8 per cent to 134.9.

Production of cars and trucks of all kinds totaled close to 47,000 units compared with 35,000—an increase of 32.5 per cent. With Canada's hog population steadily increasing, hog slaughtering jumped 39 per cent.

There appears now to be no doubt but that the new season of production will be reached without the occurrence of any serious shortage of supply.

OTTAWA, April 9 (CP)—The War-time Price and Trade Board said today it seems certain the threatened serious butter shortage in Canada will not materialize.

"In response to the board's request and with the cooperation of hotels, restaurants, institutions and individual consumers, considerable waste of butter appears to have been avoided," the board said in its quarterly summary for the period Jan. 1 to March 31.

"There appears now to be no doubt but that the new season of production will be reached without the occurrence of any serious shortage of supply."

CORRECT CONSTIPATION NATURALLY!

Stop "Dosing" Yourself!
LONDON, Canada—Lack of the right kind of "bulk" in your meals is a common cause of constipation. Try getting this needed "bulk" with KELLOGG'S ALL-BRAN.

ALL-BRAN'S a delicious cereal to eat with milk or cream and fruit, or in tender, tasty muffins. Enjoy it every morning. Drink plenty of water, too, and don't forget ALL-BRAN doesn't work like purgatives. It takes time. In two convenient sizes at your grocer's, or in individual serving packages at restaurants. Made by Kellogg's in London, Canada. (Advt.)

Currant and Gooseberry Fly Likely to Appear Soon; Poison Bait Spray Must Be Applied Early and Repeated

Spray Is Effective Only Against the Adult Fly

Accurate timing and repeated sprays are necessary to control the currant and gooseberry maggot. The spray, a poison bait, must be applied to attract the adult fly before it begins to lay eggs, and should be applied at weekly intervals. Appearance of the flies is expected soon, states E. C. Hunt, District Horticulturist.

"Currant and gooseberry maggot is quite prevalent most years where gooseberries and currants are grown," he said. "The adult is a fruit fly about the size of common house fly, but its body is much longer. The body, head, and legs are yellow, and the wings are marked with four dusky bands. Each fly is capable of laying about 200 eggs. Usually one egg is laid in a berry, but occasionally more than one are found.

"However, there is only one generation a year, and the pupae live in the soil 16 months of the year. The larvae enter the soil to a depth of 1 to 1 1/2 inches, where they soon molt and change to puparia. Inside the puparia they change to pupae and remain in this condition until the following Spring, when they emerge as flies.

SPRAY FORMULA

"Currant and gooseberry fruit flies will soon appear," he warned. "Growers should use the following recommended poison bait spray as the most effective spray for the control of this pest: Arsenate of lead, three ounces; cheap molasses, 1 quart; water to make, three gallons.

"About half a point of this spray to each bush is required.

"Since the eggs of the currant fruit flies are laid under the epidermis of the fruit, no spray can be effective against the larvae. Sprays are directed against the flies before they lay their eggs.

"The flies begin laying the eggs about two weeks after they emerge from the soil. It is necessary, therefore, to begin spraying within one week after the flies begin to emerge. Since the flies also emerge over a period of about one month, it is necessary to apply more than one spray.

WEEKLY SPRAYS

"The time to apply the first spray is just as soon as the gooseberries begin to set. Sprays should be applied at weekly intervals, beginning one week after the first application and continuing to within two to three weeks of the time harvesting begins. Sprays should be repeated after rains. Interplanted trees and shrubs that are near the currant and gooseberries should also be sprayed. The spray should be thorough and applied on both sides of the foliage.

"Growers who have only a few bushes of gooseberries or currants can protect them by covering them with cheesecloth to keep out the flies. This must be done before the flies emerge. The cheesecloth should be tied to the crown of the bush above the soil and the entire plant covered in such a manner that the flies will not have access to the berries," Mr. Hunt advised.

"Poultry should be encouraged to run in gooseberry and currant plantings as soon as the fruit is harvested. They will destroy many of the infested berries on the ground, as well as pupae which may be con-

CATARRH SPOILS SLEEP

Insert a little Buckler's White Balm in each nostril night and morning. This will reduce swollen membranes, keep charged nostrils clear, encourage healthy sleep or double your money back. 25c and 50c.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pints of bile into your bowels daily. If this bile is not flowing freely, your food does not digest. It just decays in the bowels, gas builds up your stomach, you get constipated, harmful poisons go into the body, and you feel sour, weak and the world looks pink.

A more powerful movement doesn't always get the bile flowing freely and make you feel "so and so." Harshness and greed, they make the bile flow freely. They do the work of salivators but have no salivators in them. Ask for Carter's Little Liver Pills by name! It stubbornly refuses anything else.

Do You Suffer From Headaches?

It is hard to struggle along with a head that aches and pains all the time. A headache need not be an illness in itself, but it may be a warning symptom that there is intestinal sluggishness within.

To help overcome the cause of headache it is necessary to eliminate the waste matter from the system. Burdock Blood Bitters helps to remove the cause of headaches by regulating the digestive and biliary organs, neutralizing acidity, regulating the constipated bowels and toning up the sluggish liver, and when this has been accomplished the headaches should disappear.

cealed in trash under the currant and gooseberry bushes and in the soil. Frequent cultivation or stirring of the soil will expose many pupae to the weather and will assist poultry to find them.

"Harvesting the fruit as soon as possible will assist in reducing wormy fruit."

U.S. Navy Aid May Be Given Britain

WASHINGTON, April 9 (AP)—An outspoken suggestion by the chief of the Maritime Commission that the United States might help Britain combat Nazi convoy raiders aroused fresh discussion here today of the possibility of an early government move toward giving Britain naval assistance.

The Commission Chairman, Rear Admiral Emory S. Land, U.S.N., retired, compared German submarine attacks on British shipping to a bonfire and said Americans should ask themselves whether they could not "give greater help by aiding the British to put out the fire than by concentrating our efforts on feeding it with fuel."

Britain's losses are now occurring at a rate close to 5,000,000 tons a year, he said, adding: "It is obvious that large as the British merchant marine was before the war, it cannot long withstand such losses."

Land, President Roosevelt's key man in shipping phases of the U.S. defence program, spoke over the radio last night. Earlier in the day Mr. Roosevelt had disclosed to his Press conference plans to add 59 seized Danish ships, totalling approximately 135,000 tons, to the American merchant marine.

The President will ask Congress tomorrow for funds to purchase these vessels, which probably will be turned over to Britain eventually.

War Services Fund Nears Objective

TORONTO, April 9 (CP)—National campaign headquarters announced today contributions to the Canadian War Services Fund so far are reported as \$5,003,156. Objective of the drive is \$5,000,000.

Three Provinces, Prince Edward Island, Quebec and Saskatchewan, exceeded their quotas.

Reports by Provinces to date with the quota bracketed (the totals for Quebec and Ontario are exclusive of Toronto and Montreal and these two cities are shown separately):

Alberta \$80,000 (\$125,000); Alberta South \$90,000 (\$120,000); British Columbia \$380,000 (\$500,000); Manitoba \$240,000 (\$260,000); New Brunswick \$150,000 (\$180,000); Nova Scotia \$241,500 (\$244,000); Ontario \$1,171,295 (\$1,470,000); Prince Edward Island \$41,000 (\$33,500); Quebec \$580,000 (\$275,400); Montreal \$1,105,000 (\$920,000); Saskatchewan \$240,311 (\$240,000).

Hungarian Consul Urges Countrymen Give Loyalty Here

WINNIPEG, April 9 (CP)—Dr. Louis Stelle, Hungarian Consul whose withdrawal from Canada has been ordered by the Dominion Government, urged in an interview as he prepared for departure that his countrymen in Canada "give their entire loyalty to Canada," the land of their adoption.

"I have found that the vast majority of the Hungarian population of Western Canada, 85 per cent of which are farmers and agriculturists possess a burning loyalty to their adopted country," the Consul said.

Freighter Crew Tells Story of Sub Attack

AN EAST COAST CANADIAN PORT, April 9 (CP)—Crewmen of a big British freighter lying at anchor in this harbor told today the story of several enemy submarines which rose to the surface in the midst of their convoy, sank eight or nine vessels, launched a torpedo at a British warship and then disappeared.

They said they believed the warship was damaged but that she was able to proceed on her way from the scene of the attack, off Free-town, Sierra Leone, Africa. Their own ship made this port after the assault.

Crewmen declined to talk further about the incident.

Need Police Permit to Leave Hungary

BUDAPEST, April 9 (AP)—The Hungarian Government announced that after today foreigners would not be allowed to leave Hungary without a police permit.

The British Minister and legation staff, along with most British subjects, are planning to leave Budapest by special train for Moscow tomorrow as a result of Britain's severance of diplomatic relations.

Two air raid alarms sounded here this morning. A communique said a Yugoslav plane was downed on Hungarian territory yesterday.

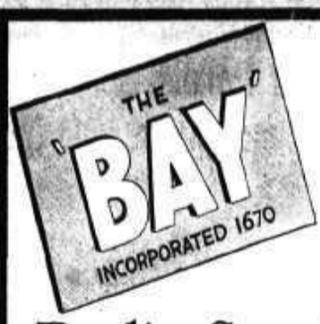

COL. WOODWARD REFUSES TO MAKE ANY COMMENT

VANCOUVER, April 9 (CP)—Col. W. C. Woodward, Executive Assistant to Hon. C. D. Howe, Minister of Munitions, today refused to make any comment on the progress of Canada's industrial war effort when he reached here today from Ottawa. He expects to remain here several months, looking after private business interests.

Atlantic Seaboard Bristles With Guns but Job Never Done Says Commander

By DOUG HOW Canadian Press Staff Writer

HALIFAX, April 9 (CP)—Intently, the man in uniform leaned over his desk and answered the reporter's question: "Have you perfected your defences?"

"My boy," he corrected, "in this work your job is never finished."

With that thought in mind, 37-year-old Maj.-Gen. W. H. P. Elkins has molded—and is molding—the defences of that part of North America which will be called on to withstand the first shock of any enemy attempt at invasion of this hemisphere.

To the Press, Gen. Elkins allows himself only the statement that "There has been a decided expansion in the security measures in Canada's Eastern defences."

The Maritime resident knows that the Atlantic seaboard, as a strategic outpost, fairly bristles with cannon and hard steel.

In a certain port town, the most striking sight is a convoy pluming off to Britain with supplies and the people are used to seeing men and ships of many lands, united in warring for a common cause.

Let's Go to "The Bay" and See What's New

NELSON SOCIAL

By MRS. M. J. VIGNEUX

At the Church of the Redeemer, Fairview, Rev. W. J. Silverwood united in marriage Wednesday, April 9, Helen Margaret, only daughter of Mr. and Mrs. Stanley Dawson, South Slokan, and Sapper Edward Hammond Trevelyn John, second son of Mr. and Mrs. Henry John, Saimo. The ceremony at 8:30 o'clock was witnessed by Miss Winifred Ridge of South Slokan and Wilfred Hearn of Saimo. Guests besides the parents of the bride and groom were Mr. and Mrs. Alan John, David John, Martin John, Peter John, Miss Anneley, all of Saimo, and Mr. and Mrs. Russell, Mrs. W. Walkley, Mrs. B. I. Baker, Mrs. J. D. Yeatman of South Slokan. Following the wedding breakfast at Grenfell's Cafe, the bride and groom departed for Vancouver, where the groom is stationed. For her wedding Mrs. John chose an ensemble of Air Force blue, matching hat and a bouquet of roses and carnations.

L. Fogie of Sheep Creek spent Tuesday in Nelson.

Pte. A. J. Choquette, who spent a week in the city leaves today for Vancouver.

Mrs. Tyerman of Nakusp is a guest of Mr. and Mrs. Herbert Harrop, Fairview.

Mr. and Mrs. H. G. Rempel and son Harry of Sheep Creek spent yesterday in town.

Mrs. A. Nelson and daughter Evelyn of Fruitvale left yesterday after a couple of days in the city.

Mr. and Mrs. Arthur Lakes and Mike, Terrace Apartments, are leaving today to spend Easter in Spokane.

Mrs. Charles Swan and infant son left Kootenay Lake General Hospital Tuesday for their home.

Mr. and Mrs. C. W. Gagnon, Siles Street, will have as guests at Easter their son and daughter-in-law, Mr. and Mrs. James H. Gagnon and daughter Mary Ann of Trail.

Mrs. Jack Fingland, who will be leaving shortly to join her husband in New York, visited yesterday in Trail at the home of Mr. and Mrs. J. J. Fingland.

Vimy Veteran Will Be Speaker at Board of Trade Luncheon Today

"Canada Faces the Crisis," will be the subject of Capt. Francis M. Hann, Vice-President and Managing Director of Hobson Christie & Co. Ltd., an old established insurance house of Western Canada and the Yukon, when he speaks at the Nelson Board of Trade luncheon today. Captain Hann is the officer in charge of the Anti-Sabotage Committee at Vancouver.

Serving in the First Great War, Captain Hann was wounded at Vimy Ridge. He was the officer chosen to represent the Third Canadian Division at commemoration of a memorial at Mons in 1938.

C. S. Squires Is Buried at Robson

ROBSON, B. C. — Many friends gathered in the Robson Church on Tuesday afternoon to bury tributes to C. S. Squires, who died April 5. The B. C. Fruit Growers' Association was represented by A. F. Mitchell and the Trail Board of Trade by J. L. Crowe, W. A. Curran, K. M. Spence and Dr. C. A. H. Wright.

The service was conducted by the Rev. T. J. S. Ferguson of Nelson. Hymns sung were "Unto the Hills Do I Lift Up My Longing Eyes" and "Fight the Good Fight."

Interment was in Mountain View Cemetery. Rev. W. A. Mayne of the Trail Baptist Church conducted the service at the graveside.

Pallbearers were T. E. Osborne, A. F. Mitchell, E. T. Waldie, S. H. Humphries, of Robson, R. Foxall of Nelson and K. A. Margeson of Trail.

Clouds Over Nelson Bring Threat of Rain

A return of the Spring rains of last week threatened Nelson again Wednesday. Rain clouds blacked out the sun for all but three hours, but no rain fell.

Temperature range was 27 degrees, the extremes being 65 and 38 degrees.

WINGHAM, England, (CP). — Bedridden for 30 years with paralysis, Bill Bowden was able to walk 10 days after the explosion of a German bomb had rocked his house.

Nelson Street Program Is in Full Swing; New Water Mains Complete

Nelson's street program is in full swing. The report of H. D. Dawson, City Engineer, to the City Council Tuesday, to the City Council Tuesday night for the two weeks ending April 7, showed work under way throughout the City, not only on streets but also on sewers, street railway, waterworks, parks and cemeteries, and so on. His report follows:

GRADING

The work of excavating and re-travelling on Carbonate Street between Josephine and Hill Streets, has been completed. We constructed concrete curb on the North side and have also fixed up the boulevard on that side. The grade will be steam rolled and the surfaces made ready for asphalt. We have graded practically all the streets and alleys throughout the City after the Spring break-up and since April 2nd the steam roller has been in commission, operating along the newly graded streets.

On Hall Mines Road we have carried out some minor repairs to part of the retaining wall supporting the roadway, have gravelled same and provided means for better taking care of storm waters.

WATERWORKS

We have completed the installation of new mains, etc., on Falls, Innes and Gore Streets. A small amount of backfilling and attention to the settling in ditches remains. Two hydrants found to be in poor locations were removed and re-installed to better advantage. In some cases house services have been transferred to the new mains, in others portions of the old mains have been kept alive and the house services supplied on them.

Clouds Over Nelson Bring Threat of Rain

A return of the Spring rains of last week threatened Nelson again Wednesday. Rain clouds blacked out the sun for all but three hours, but no rain fell.

"Duffy" Stewart Joins Air Force

A former popular Nelson athlete who showed his prowess in nearly every sport in the Lakeside City, Lorne (Duffy) Stewart has enlisted in the Air Force and is now training at Brandon to be a pilot. His sister, Mrs. Eddie McGregor of Bonnington, said Wednesday.

Son of former Nelson Chief of Police and Mrs. Alex Stewart, now residing at Vancouver, "Duffy" attended Washington State College at Pullman, Wash., and Dalhousie University at Halifax. Then he spent two or three years in South America, then a year at Santa Monica, Calif.

He returned to B. C. to visit his parents at the Coast for a month, and then two weeks ago joined the Air Force.

of Olivet," as Christ neared Jerusalem and was being acclaimed by the people as the Saviour. Mr. Beattie then sang "Like a Fair Vision" and Mr. Stringer "O Jerusalem" as the party viewed the beautiful city and Christ thought of what the future had in store for Him. Mr. Beattie told what happened in the Temple when Christ entered the temple and said to "them that bought and sold therein," "My house shall be called a house of prayer, but ye have made it a den of robbers."

The chorus followed by singing "Another temple awaits thee, Lord Divine" as His worshippers sought to be cleansed and helped.

Back on the Mount of Olivet, Mr. Beattie sang "Not of this world the Kingdom of our Lord," the chorus then recounting Christ's lonely return over the Mount, followed by Mr. Beattie telling how He was despised and rejected of men. Supported by the chorus, Mr. Stringer sang, "Come Unto Him, all ye that labor and He will give you rest. The first part closed with the singing of the hymn, "Just As I Am, Without One Plea."

COMMANDMENT OF LOVE
Mr. Warner recounted what transpired at the supper of the Passover, when Jesus knew "His hour was come, that He should depart out of this world into the Father's." A new commandment gave I unto you that ye love one another, even as I have loved you, so love ye one another. By this shall all men know that ye are mine, if ye have love one to another.

After the chorus rendered, "O Thou whose Sweet Compassion," Mr. Warner told how Christ showed His human nature by asking God if He really had to die, Jesus saying, "O My Father, if it be possible, let this cup pass from Me; nevertheless not as I will but as Thou wilt."

The hymn, "Thy will be done" was sung by the chorus, in which His tired disciples went to sleep, while "silent Angels beheld His agony of prayer, and His soul foresaw the cruel scorn, the brutal scourge, the crown of thorns and darker than Gethsemane, the shadow of the accursed tree."

Then while Christ was still telling His Father to do His will, regardless of Christ's own, a great multitude with swords, staves and torches came into the garden of Gethsemane, seized Jesus, bound Him, and led Him away, while all His disciples forsook Him and fled.

Taking over from the chorus, Mr. Pagdin then sang the heart-rending "O" as Christ was left alone with His enemies, despised, rejected and forsaken. "Ye who sin, and ye who sorrow, ye who in temptation fell" were reminded by the soloist that Christ had gone through this for them.

CRUCIFIXION ORDERED
In the tumult in the Judgment Hall, Pilate finally gave in to the cries of the people to sentence Christ the administrator saying, "Take ye Him and crucify Him; for I find no fault in Him at all." In this dramatic incident, Mr. Stringer took the role of the chorus, sang the march to Calvary, and Mr. Stringer related the actual crucifixion in a memorable fashion. The chorus closed with "Drop, Sacred Head, upon that breast divine, the strife is o'er, the victory is Thine." Christ had come to die that erring souls might live in sinless joy, where God's blessed mansions shone.

Mr. Halloran conducted the cantata, and accompanied the soloists on the electric organ, loaned by J. T. Andrews. For the choruses, Rev.

Foster Hillard provided the organ accompaniment.

Singers participating in the cantata—Soprano—Mrs. E. Ambrose, Mrs. R. E. Greer, Mrs. L. Dickinson, Mrs. A. Dolphin, Miss M. Feeney, Mrs. A. Foster, Miss Amelia Hanna, Mrs. J. C. Hiescher, Mrs. J. C. British in Different Position Than When Nazi Forces Invaded Norway

By the Canadian Press

A year ago today (Wednesday), Nazi troops occupied Denmark and invaded Norway in a lightning move to which this week's invasion of Yugoslavia and Greece, ending nine months of stalemate in continental Europe, bears a striking parallel.

The Denmark-Norway drive proved to be a stroke to safeguard Germany's flank for the attack on France through the Low Countries a month later.

The Yugoslav-Greece drive today could be a similar feint to safeguard the German flank for an open attack on Turkey, with the Suez Canal and Egypt as the ultimate objective.

Then, as now, Germany engaged two adversaries at once on their soil with Britain coming to aid.

Then, as now, Germany charged Britain with "impairing the neutrality" of the countries invaded. The Scandinavian-Balkan parallel narrowly missed being coincidental. Denmark capitulated; Yugoslavia was on the verge until an internal coup d'etat last month ousted the men who favored giving in to Germany. Norway fought; Greece is fighting.

One major difference between the Scandinavian and the Balkan campaigns is in the British position. Britain had no troops in Norway when a startled world learned Germany had seized Denmark and had broken the back of resistance in Norway. Today a large British force is in Greece.

social evening, a fancy tea cloth will be raffled in aid of the Institute Overseas Fund.

The daily tea was served by Mrs. F. Easby, assisted by Mrs. G. Grieve.

Mrs. Mitchell of Boswell Buried; Once of Nelson

BOSWELL, B. C.—On April 4 the funeral of Mrs. W. Mitchell, who died April 1, took place. She died at the home of her son-in-law and daughter, Mr. and Mrs. S. J. Cummings, Silver Birch Ranch, Goat Creek.

Mrs. Mitchell lived for many years in Nelson, but, since returning from nursing, had made her home with Mr. and Mrs. Cummings. She had been ill for a long time. The funeral service at the Boswell Memorial Hall was conducted by Rev. Father Cooney.

Fruitvale Institute Plans Social Evening
FRUITVALE, B.C.—Mrs. F. Easby was hostess to members of the Women's Institute when business matters were discussed and plans made for a social evening to be held in the near future for Fruitvale ladies who have helped in sewing and knitting for air raid victims.

The sum of \$2.50 was donated to the Junior Baseball Club. At the

In the North Sea, the British Navy was open to air, surface and submarine attacks from nearby German bases and suffered. Now the Germans have air forces in the Mediterranean area, but the Italian Navy on which the Nazis might have counted to replace the German Navy has been hit so hard its power can be discounted.

Churchill Warns Russia Nazis May Soon Grab for Ukraine and Caucasus Oil

Everything Still Turns on Battle of Atlantic, Says Premier — Eire Unwise to Stay Out — Announces Fall of Salonika, and British Capture of Massaua — French Must Keep Warships in N. Africa, or Else! Germany Now Getting Worst of Air Raids—Tough Fighting to Come in North Africa

By HAROLD FAIR
Canadian Press Staff Writer

LONDON, April 9 (CP Cable)—The entry of German troops into Greece's back door port of Salonika was disclosed by Prime Minister Churchill today to a crowded House of Commons which also heard him warn Soviet Russia that the Nazis probably soon would reach for the Ukrainian granaries and the Caucasian oilfields.

In his first war review since the Prime Minister spoke 50 minutes, telling of the scope taken by the battles raging in the Balkans and Libya, coupled with the warning that "We must meet much harder and severe fighting not only for the defence of Britain but for the defence of Egypt."

To aid this battle, the Prime Minister said the United States had handed over to Britain 10 speedy armed revenue cutters and he also voiced an implied plea to the United States to take steps to safeguard her war shipments to Britain.

At the same time he voiced hope Eire would yet realize it is in interest to make available her fields and ports for British operations in the Atlantic.

The words of the Prime Minister were heard by J. W. Dulaney, Eire Commissioner, who sat in the

House of Commons with Hon. Vincent Massey, Canadian High Commissioner and his colleagues, Sunley Bruce, Australia, and S. F. Watson, South Africa.

The immediate occasion of the Prime Minister's speech was a resolution of thanks to the armed forces.

Mr. Churchill declared there are increasing signs that Germany would pounce on the wheat lands of Russia's Ukraine. He also:

1. Announced British capture of the Eritrean port of Massaua and virtual completion of the conquest of Italian East Africa.
2. Disclosed that 10 United States Coast Guard cutters had been turned over to Britain for the Battle of the Atlantic and would soon be operating against German submarines.
3. Appended anew for use of ports and air fields in Eire in guard Britain's Northwestern approaches.
4. Told France she would be blockaded strictly and that British guns would resist any Vichy attempt to transfer French naval vessels from Africa to Metropolitan France where Hitler could get them.
5. Said that "heavy losses" due to German planes, submarines and cruisers would cripple the British merchant marine disastrously without the "Atlantic United States building program" which would give Britain "several million tons" of shipping next year.
6. Announced that the Royal Air Force had grown to such an extent that some raids on Germany had "exceeded in severity" anything the Germans had done in any single raid on England.

The Prime Minister said that before the Battle of Greece opened Gen. Sir John Dill, British Chief of the Imperial General Staff, Gen. Sir Archibald Wavell, Commander-in-Chief in the Middle East, and the Greek Commander, Gen. Papagos, advised their Governments that a "sound military plan giving a good prospect of success could be made."

He added: "It remains to be seen how well these opposing risks and duties have been judged, but I am sure there is no less likely way of winning the war than to adhere pedantically to the maxim of 'Safety First'."

He forecast "hard and severe fighting" against the German armored column operating in North Africa, and revealed that capture

of Cherch in Italian Eritrea cost Britain 4000 casualties.

Mr. Churchill shocked the House into complete silence with the announcement of the German entry into Salonika. But he drew cheer after cheer with the disclosures of the capture of Massaua and of increasing U.S. aid.

A dramatic moment came near the end of his speech when he turned to his right, looked up at the diplomatic gallery where Soviet Ambassador Malisky was leaning over the rail, and declared:

"There are many signs that point to a Nazi attempt to secure the granaries of the Ukraine and the oil fields of the Caucasus."

He pictured this attempt as part of a drive to amass tremendous resources for war to the death against the English-speaking world.

Then he half turned to face U.S. Ambassador Winant and two other key officials in the U.S. plans to aid Britain—President James Conant of Harvard University and Averell Harriman, Mr. Roosevelt's "Dellie Express" and said:

"Once we have gained the Battle of the Atlantic and are certain of the constant flow of American supplies which are being prepared for us, then however far Hitler may go, or whatever new millions and scores of millions he may lay in misery, then it is sure that armed with the sword of retributive justice we shall be on his track."

In the Battle of the Atlantic Mr. Churchill said Britain already is confident of coping with air attacks on shipping in the Western approaches.

"I hope eventually," he said, "that the inhabitants of the sister isle (Eire) may realize that it is as much in their interests as it is in ours that their ports and air fields should be available for naval and air forces which must operate ever further into the Atlantic."

Mr. Churchill significantly declared in his report on operations in East Africa that "The Red Sea has been virtually cleared of enemy warships, which is a matter of considerable and even far-reaching convenience."

The United States has been reported ready to declare the Red Sea open to U.S. vessels carrying war supplies for the British Middle East forces and their Allies in the Balkans, as soon as that body of water is cleared of belligerent activity.

The Prime Minister said joyfully that the Army commanded by the Duke of Aosta, Mussolini's Viceroy in Ethiopia, is "retreating into the mountains where it is being attended to by the patriot forces of Ethiopia."

He predicted the "complete destruction and capture of all Italian forces in Ethiopia."

Then his mood changed to one of wrath as he outlined German penetration into the Balkans and the final development of the Balkan campaign.

He said that Greece, Turkey and Yugoslavia early this year with the "90 or 70 divisions" at their dis-

posal might well have halted the Germans. Foreign Secretary Anthony Eden and Sir John Dill went to Athens and Ankara to "see if anything could be done to form a defensive front but the Yugoslav Government of the ousted Regent, Prince Paul, refused to permit them to go to Belgrade.

Germany meanwhile massed 25 divisions in Bulgaria and other borders in Hungary for a push against Greece and to the South-east. Mr. Churchill said, "Greece prepared to stand alone if necessary, entered into a military agreement with Britain early in March and the movement of British and Imperial troops began to take place."

Then, suddenly, the "people of Yugoslavia saw their peril and with a universal spasm of revolt resolved at the 11th hour to guard their freedom and honor with their lives."

"A box constrictor who had already covered his prey with his coils, Mr. Churchill said, "Greece, prepared to stand alone if necessary, entered into a military agreement with Britain early in March and the movement of British and Imperial troops began to take place."

"A frightful vengeance was vowed against the Southern Slav... Hungary was offered large territorial gains to become an accomplice in assault upon a friendly neighbor."

"Count Teleki (Premier of Hungary) preferred to take his own life rather than join in such a deed of shame."

"Heavy forward movement of German armies was set in motion. The open city of Belgrade was laid in ashes and at the same time a tremendous drive by German armed forces was launched."

Mr. Churchill throughout his speech wove into it references to aid and sympathy from the United States. One of the most pointed of these was when he warned that the Royal Navy would resist any movement of French warships from Africa to France.

"Such movements," he warned, "would alter the balance of naval power and would thus prejudice the interests of the United States as well as our own."

LONDON, April 9 (CP)—Prime Minister Churchill told the House of Commons today the United States is sending Britain 10 Coast Guard cutters to be used against Nazi submarines.

Laughter interspersed cheers as Mr. Churchill commented: "These vessels originally were designed to serve an even higher purpose."

Mr. Churchill said: "I am authorized to say that 10 United States revenue cutters, fast vessels of about 2000 tons displacement with fine armament and a wide range of endurance, have already been placed at our disposal by the United States Government and will soon be in action."

TRAIL, B. C., April 9—The report of C. P. Coates, Trail City Engineer, for March shows considerable work done to prevent storm water damage. Prompt action by T. McCoin, City Foreman, and regular employees of the Works Department, prevented damage from the heavy rainfall on March 1 from spreading, although considerable damage was done to the city streets and private property. All open drains and culverts were cleared and kept open.

MANUFACTURE CONCRETE PIPE
Concrete pipe for a 24-inch extension storm sewer to be run along property recently acquired by the city from the Kootenay Breweries Ltd., is now being made. Installation of this pipe will prevent the recurring damage caused when gravel and sand washes down the creek which runs through between Binnis Street and Rossland Avenue.

Work has been done in the area on the hillside behind Binnis and Buckna Streets in order to prevent storm water damage. Two lateral flumes were constructed on the undeveloped lane at the rear of Binnis Street to lead storm water into the new storm sewer and flume on Buckna Street, and 300 feet of 12 by 12 creosoted timber flume was built on a badly eroded portion of the stream which flows into the ditch on Hendry Street. Twelve creosoted timber dams were built in the channel above the flume in order to check the velocity of the water.

TIMBER FLUME
A 12 by 12 creosoted timber flume was built from Warren Street down to "A" Street to connect with streams running under Warren Lane and the stream bed at this point was lined with rock on both sides and bottom. A stone-lined open culvert with timber grid top was built on "A" Street in order to catch storm water, and the creek bed at this point was improved.

The storm water sewers and creek diversions made during the Fall and Winter of 1938-39 continue to function satisfactorily Mr. Coates states. No trouble was encountered in the East Trail area.

The Board of Works had authorized the demolition of the crib on Binnis Street, and this work is now in hand, and the eight-inch water main has been moved over into its new position, earth excavated from this job is being dumped upon Lot 28 in order to support the old crib, which is about to collapse at this point.

Construction of the Daniel Street retaining wall is continuing, and, to date, 195 loads of rock have been placed, weighing approximately 40 tons.

All surface drains and catch basins were cleaned. Sewers and manholes were inspected, cleaned and flushed. All unpaved streets were graded and debris removed.

Trees, donated by the C. M. & S. Company and planted on Ravine Street and the bank below Binnis Street, numbered 2663.

SUSPEND TOURIST INFORMATION CARDS
OTTAWA, April 9 (CP)—An official of the National Revenue Department said today suspension has been ordered of a practice in force since the beginning of the month whereby United States tourists coming to Canada for 48 hours or less were asked to fill out forms detailing their expenditures in the Dominion.

Prepare to Print 80,000,000 Jobless Insurance Stamps

OTTAWA, April 9 (CP)—Arrangements have been made for the printing of 80,000,000 stamps required for the first year of operation of the Unemployment Insurance Scheme, A. MacNamara, Acting Chairman of the Unemployment Insurance Commission, said today.

The Act will be brought into force in the coming Summer, but no exact date could yet be announced, Mr. MacNamara said.

The stamps will be placed on the insurance books of employees and will be attached by employers who may purchase them at post offices by arrangement between postal officials and the Commission. After the stamps are purchased by the employer, approximately half the cost will be collected from the employee.

During the time of employment the employees' book showing condition of the stamp purchases will remain in the hands of the employer, but may be examined by the employee when he will take his book with him.

Mr. MacNamara said eight classes of stamps would be printed, each representing the joint contribution of employer and employee for one week. They will be printed that they may be divided into daily sections and one of any six working days may be indicated if required for record purposes.

The stamp will be about the size of the air mail stamps now used in Canada. Each class of stamps will be of a different color, indicating the range of values.

Italian Troops Still Guard U.S. Embassy

ROME, APRIL 9 (AP)—Italian troops continued to stand guard over the United States Embassy today as rumors circulated that Mussolini might call his ambassador back from Washington because of the "sequestration" of Italian ships in United States ports.

Amid indications of rising Fascist irritation, an authoritative source declared the Italian Government had withdrawn Admiral Alberto Lais, naval attaché at the Embassy in Washington, under protest that the United States action was unfriendly and illegal.

COAST SERVICE GROUP STARTS JOB DRIVE

VANCOUVER, April 9 (CP)—Girls coming from the Prairies here are snapping up jobs "within a week" and preventing Vancouver-born residents from finding positions other than housework. Mrs. Ames B. Lumsden, President of the Vancouver Girls' Service Group, protested to City Council last night.

BALKAN EVENTS SPEED U.S. ENVOY'S RETURN

VICHY, France, April 9 (AP)—Admiral William Leahy, United States Ambassador, is expected to return to Vichy tomorrow, cutting short his visit to the Riviera because of events in the Balkans.

Admiral Leahy was in Monte Carlo today, after a visit to Toulon, where he witnessed Red Cross distribution of a ship's cargo of milk from the United States.

Salmo Boosts War Savings Certificate Purchases in March

Salmo District purchased War Savings Certificates to the value of \$3136 in March. The War Savings Committee for the district, which includes Ymir, Erie, Sheep Creek and Salmo, reported a total of 594 subscribers in the month.

The total of \$3136 is described as "a little better than February sales which made a record of 2 1/2 times the quota."

NO PLANS TO INCREASE AUSTRALIAN FORCES SERVING OVERSEAS

SYDNEY, Australia, April 9 (CP Cable)—Army Minister Percy Spender announced today the Australian Government at present does not intend to increase the strength of the Australian Imperial Force serving overseas though this decision may be reviewed in the light of later developments.

AIR MARSHALL BISHOP TO VISIT LOS ANGELES

OTTAWA, April 9 (CP)—The Royal Canadian Air Force announced today that Air Marshal W. A. Bishop will leave soon for Los Angeles where he will address a Chamber of Commerce meeting April 17.

Demand Recall of American Attache in Rome Embassy

WASHINGTON, April 9 (AP)—Italy today demanded the recall of the United States Assistant Military Attache in Rome in apparent retaliation for the action by the United States in forcing the withdrawal of the Italian naval attaché from this country.

The State Department announced that the Italian Government had made the request for the withdrawal of the Italian Naval attaché from this country.

The State Department announced that the Italian Government had made the request for the withdrawal of Captain C. Bentley in the same note in which it complied with the American request for withdrawal of Admiral Alberto Lais, the Italian Naval Attache here.

RELIGIOUS BATTLE CAUSE OF MURDERS

TORONTO, April 9 (CP)—Three murders among Eskimos in the bleak Becher Islands of Hudson Bay climaxed a battle between two families over the question "when

CONSTIPATION A LIFELONG STRUGGLE

Relief Found at Last
With perfect frankness a woman correspondent writes:—

"I have suffered from constipation as long as I can remember, and taken all sorts of things—which in some cases seemed to do good at first, but afterwards to have no effect. Then I thought I would try Kruschen in my tea every morning, and I have done so for over a year. I am pleased to say after the first month I had no more trouble with constipation and I have felt very fit."—(Mrs.) G. M. S.

Kruschen helps to maintain a condition of internal cleanliness. The several salts in Kruschen stimulate the organs of elimination to smooth, gentle action. Your system is thus kept clear of clogging waste and poisonous impurities.

(Adv.)

Round up Ogden's for a Real Smoke

Take a tip from old timers who have been rolling their own for twenty years or more. Their brand is Ogden's and they wouldn't think of smoking anything else. They like it because it has a taste you can't match—a taste which comes from its distinctive blend of choice, ripe tobaccos. Try it. You'll find it's not just another tobacco—it's Ogden's!

Only the best cigarette papers—
"Vogue" or "Chantecler"—
are good enough for Ogden's

IMPERIAL BANK'S USEFULNESS TO CANADIAN BUSINESS

GEARING CANADA'S INDUSTRIES TO CANADA'S UNITED WAR EFFORT

We Canadians, a small population in a large Country wealthy with natural resources, will produce an enormous share of the war's necessities. It is right that we should do so, and inevitable that we must do so. The circulation of hundreds of millions of dollars through war orders distributed as widely as possible among the industries of Canada will effect tremendous activities in business.

Many small firms, travelling along with a steady output and gradual normal growth, have suddenly been confronted with urgent orders beyond their usual capacity. Expansion of manufacturing facilities becomes instantly imperative. Materials in greater than normal variety and volume have to be procured immediately. Credit is required far in excess of usual business requirements.

Imperial Bank of Canada will gladly do its part in Canada's war effort by financing war industries and business generally of every useful and productive kind. Funds are available. Consult our nearest manager.

Regina Whips Lethbridge 4-2 to Go Ahead in Western Puck Final

MOOSE JAW, Sask., April 9 (CP)—Regina Rangers, striking the first break of the game, scored three goals in little more than two minutes and masterfully protecting their lead, defeated Lethbridge Maple Leafs 4-2 here tonight to move ahead 2-1 in the best of five Western Canada senior hockey final.

The teams move to Calgary for the fourth game Saturday and the fifth, if necessary Monday. Rangers won the first 1-0 Saturday at Saskatoon and dropped a 3-1 duel at Regina Monday.

Rangers took complete command from the drop of the puck tonight, were up 3-1 after a wild scoring second period that produced nine minor penalties and clinched the verdict on a picture play in the third after Leafs' second goal.

Herzlie Gruhn, who starred with L. Boniface, Seals, 1938 Memorial Cup champions, led Regina Metallurg's Rangers to victory against another Detroit-trained team who played the same hockey style but just couldn't get organized against the speedier, more aggressive victors.

Gruhn scored unassisted and made the play for Stan Bladin's clincher in the third period. Sooty Cameron

H Sinclair Heads Cranbrook Tennis

CRANBROOK, B.C.—The Cranbrook Tennis Club held its opening meeting in the City Hall Tuesday, with Harold Sinclair in the chair.

Harold Sinclair was re-elected president of the club and Owen Haley re-elected secretary. Honorary presidents nominated were A. Roworth and A. McGrath. Mrs. M. Wallinger was elected vice-president and Miss M. Stone, Miss J. Glenning, Mrs. G. Moffat and Miss E. Johnstone, Ladies Committee. Those on the general executive are S. Moffat, J. Sims, Faulkner, Dr. Sullivan and H. Neilson. It was suggested that the executive meet with the Junior Tennis Club and arrange to have a representative attend the senior meetings. The opening date of the club is to be decided by the executive.

meet MR.

LENNY MERULLO

JUNIOR ROYALS DOWN OSHAWA

TORONTO, April 9 (CP)—Hopes held by Oshawa General for a third straight Memorial Cup received a rude jolt tonight when the Canadian junior titleholders went down 7-4 to Montreal Royals in the third game of their best-of-five series for the Eastern Canada championship.

Royals walked 10-3 in the second game, thus took a 2-1 lead in games in the series. They won the first contest here last Saturday night by the same score as they triumphed tonight. The fourth game will be played here Saturday.

Royals' lineup for the series were Grant Morrison and Bobby Carragher, with two aces, Buddy Farmer, Jim Planche and Ken Modell. High goal scorer was Ron Nelson, who fired three goals for Royals. The other Oshawa tally went to Norm McAtee.

Fight Plans for Joe Louis Change

ST. LOUIS, April 9 (AP)—There was quite a scrambling today of plans that promoter Mike Jacobs and Bomber Joe Louis had all lined up for the busiest summer a heavyweight boxing champion has ever faced.

Out of Tony Musto's gallant nine-round stand against Louis here last night, and the way Buddy Baer made Roy-Poly Tony Galento boller "uncle" in Washington, came a complete switch in the lineup. Here is how Jacobs and Louis' managers tentatively have agreed to go on with Joe's fight-a-month campaign:

1. Buddy Baer in Washington in May.
2. Abraham Simon, originally the May opponent in a rematch of a 12-round go with the Bomber in Detroit, in June in New York.
3. Billy Conn, the light-heavyweight king, in July, probably in New York.
4. Old Man Pat in August, because Joe wants a month off to play golf, especially in a tournament he's arranging for his dude ranch in Michigan.
5. Tony Musto, conqueror of Max Baer and given a good chance by many to dethrone Louis, in September.

Winnipeg Juniors Ahead of Quakers

WINNIPEG, April 9 (CP)—Winnipeg Rangers took a 2-1 lead in games in the best-of-seven Western junior hockey final with Saskatoon Quakers here tonight in a bitterly-contested battle here tonight 3-1.

The Rangers won the first game here last Friday 4-4 but Saskatoon squared the series Monday 4-1. The teams now move to Saskatoon where they continue the series on Saturday with games Monday, Wednesday and Friday of next week as necessary.

Joe Cronin Gets a New Headache in His Young Third Sacker, Jim Tabor

(By Doug Vaughan in the Windsor Evening Star)

It has been said that Joe Cronin would win an American League pennant with his Boston Red Sox if his pitching staff would only produce. Those who don't think much of square-jawed Joe as a manager say that Cronin has the pitchers but doesn't know how to handle them. They, who like Joe, say that the Red Sox are unfortunate in not having any high class mound artists.

But his pitching staff isn't the only part of his club that gives Cronin many a sleepless night. He has a couple of real problem children in Ted Williams and Jim Tabor. Williams, the outfielder, and Tabor, the third baseman, have probably given Joe more headaches than the rest of the club combined. And it looks as if they still are.

The latest explosion found Cronin's wrath directed at Tabor. The third baseman was recently suspended for breaking training rules. It was not the first time. Jim has only two seasons of big league play behind him, but he is a hard-to-handle guy and it isn't unlikely, according to the word we got, that he will be traded.

Baseball Throw by Edmonton Girls Recognized Record

WINNIPEG, April 9 (CP)—The intermediate women's baseball throw record of 213 feet 8 1/2 inches set by June Casagrove of Edmonton in the Alberta track and field meet at Edmonton last Sept. 28 has been approved by the Women's Amateur Athletic Federation of Canada and the Amateur Athletic Union of Canada.

Miss Lillian Cox of Winnipeg, chairman of the Women's Record Committee, announced today.

The former record of 202 feet seven inches was held by Edith McBurney of Montreal.

ELKO ORGANIZES WAR SERVICE DRIVE

ELKO, B. C.—Mr. Conick, Mr. Clower, Mr. Clower Jr., and Ben Drew of Fernie were in Elko on behalf of the Canadian War Service Fund. A meeting was held and Mrs. Baudry was elected chairman. Mrs. B. Grady, Secretary-treasurer. Mrs. W. Wilkinson and Mrs. G. Todhunter, canvassers.

H. S. McCreath Heads Creston Reclamation

CRESTON, B.C.—Shareholders of Creston Reclamation Company, Ltd., had the annual meeting at the company's office, Creston, Saturday. The retiring President, Frank Putnam, M.L.A., presided. The financial statement for 1940-41 was presented, and was approved by the meeting.

Directors for the ensuing year are R. B. Staples, Robert Cheyne, H. S. McCreath, Frank Putnam, M.L.A., and Frank V. Staples, with Mr. McCreath named President at a meeting of the directors held after the annual meeting had adjourned.

The Creston Reclamation Company, Ltd., shareholders are the original owners of the 7500 acre tract on which was dyked in 1934-35 and sold to operators, who subsequently were incorporated as Creston Dyeing District.

The Philadelphia National League baseball team is considering a plan to play double headers every Sunday and leave Monday open.

Lakeview Tennis Club Plans Its Opening Sunday

Despite the unsettled weather of the past few days, preparations for the opening of the Lakeview Tennis Club season at its courts in Fairview are virtually complete.

For some days now, Don Gibbon and Art Matheson, two of the more energetic members of the club have been at work on the courts, and they report that the courts, having had a full season's play in 1940 to improve the surface after several years' idleness, are in much better condition than a year ago. They have straightened up the fence, and have put the tapes down and set up the nets.

Fifty members are already assured, and last year's membership when the club was first organized is expected to be surpassed. The calibre of the play undoubtedly will also be improved, because many of last year's players were beginners. But the fine work of the club and of the coaches last year was reflected by the annexation of two titles by Nelson in the West Kootenay Junior tennis tournament at Trail. Ernie Colman captured the boys' title, and Wally Matheson and Bud Smith were the class in the boys' doubles events. All were rookies.

Policy of the club in stressing singles will again be carried out this summer, with the bulk of the coaching being done by the veterans of the Civil Service Club, mainly Art Hodson and Russell Clark.

The club also anticipates a strong senior section. Les Jeffries is President this year and Miss Blanche Beatty Secretary-Treasurer.

SEIZED LINER'S CREW ESCAPES TAMPICO

TAMPICO, Mexico, April 9 (AP)—German sources here reported tonight that six officers from the seized and expropriated German liner Oritoco escaped to sea late last night in a 30-foot motor built during their months of refuge in this port.

New York Rangers Plan Team Shakeup

SOUTH MOUNTAIN, Ont., April 9 (CP)—Coach Frank Boucher of New York Rangers said today a player shakeup is planned for his National Hockey League outfit for the 1941-42 season but that nothing definite has been decided yet.

Boucher, reached at the chicken farm here, added he probably would confer later on the team's personnel with Manager Lester Patrick, now in Florida.

Boucher said he was without information on a report that Wilbert (Dutch) Hiller, Ranger left wing, had been sold to Detroit Red Wings at the N.H.L.'s \$5000 waiver price.

Hiller said last night at Kitchener, Ont., he had learned of the sale but that he had received no official notification from Rangers.

MONTREAL SHUTS OUT SYDNEY 2-0

MONTREAL, April 9 (CP)—Backed by Big Bill Durnan's stellar netminding job, Montreal Royals shut out Sydney Millionaires, 2-0, before a crowd of 7628 here tonight to take a one-game lead in their best-of-five Eastern Senior Hockey final.

The Quebec champions, flashing a fleet and better-organized attack throughout, concentrated their scoring punch within six minutes of the start of the second period. After a break gave Johnny Acheson the first goal, little Pete Morin made it 2-0 at 5:36 of the frame.

The victory left the Royals needing only a draw in the fifth match here on Saturday to eliminate the Maritime title holders and advance into the Allan Cup final with the Western champions. Royals lead the series 2-1 in games while the other match was a tie.

Durnan, goalie of the champion Kirkland Lake Blue Devils last season, turned in a great game for his shutout, but goalie Bill Dickie in the opposition nets was a hero in his team's loss. With Royals getting for the better of the chances, Dickie rose to sensational heights time and again to keep the score from mounting.

Bowling Scores

Canadian Legion bowlers drew first blood in their four-match tournament against Gelinus Bowling Club teams when J. H. Allen's quarter won by 296 pins over Johnny Aurelio's squad from Gelinus. Total pins count in the series.

Scores follow:

Detroit Lineup Is Overhauled

DETROIT, April 9 (CP)—The Red Wings, down two games in the Stanley Cup series with the Boston Bruins, arrived home with their opponents today and announced a revised lineup for the third tilt of the best-of-seven series tomorrow night.

Art Ross, Brain Manager, stepped from the brain with a prediction "we expect to take the series in five games." He said he expects the two games here, Thursday and Saturday, would be split and that "we'll win the Cup in Boston next Tuesday."

Manager Jack Adema of the Wings expressing confidence his team will play better on home ice, said Harold Jackson, young defenceman from Windsor, Ont., will be replaced by Centre Alex Motter, with Kenny Kirea taking over Motter's position up front.

Eddie Wares, right wingman, is not expected to play tomorrow night because of recurrence of an old shoulder injury. Eddie Brunette will sub for Wares who is expected to be in the lineup Saturday.

The Bruins also have their injury troubles. Centre Mill Schmidt is bothered with a charley horse and Centre Art Jackson is suffering from a twisted right knee. Both will play

Iron Stones, Wooden Stones, and Granite, Veteran Curler Atwood Has Used Them All

Boundary Man Active Curler for Over Half Century

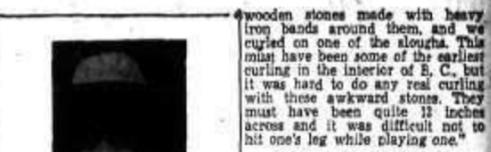

Whether it's early days and curling, or curling in the early days in B. C. or the early days of B. C. curling—Gilston A. S. Atwood of Grand Forks is a man. He has played the game for more than 50 years, in Quebec, Ontario and British Columbia, and his recollections of the curling game are bits of history. He played 22-2nd games with heavy iron stones in Montreal; went to Kelowna to build houses that were among the first on this Okanagan townsite and stayed to curl with wooden stones weighted with iron bands; and moved on to Greenwood and then to Grand Forks when mines were active and smelters were humming in these Boundary towns.

Premier Montreal Club

"The Montreal Curling Club was the premier club in Montreal," he recalls, "having some particularly fine skippers. Dave Williamson, R. W. Tyre and B. M. Riddell, to mention some of them. I think that Dave Williamson was the best player I have ever seen. He played a tremendously fast stone and was very accurate. I saw him hit a stone (iron) dead centre and follow it up just a few feet on to the ice. He could draw to the next stone after a fast one, draw to the button. R. W. Tyre was a famous draw shot and played the draw game altogether."

16-End, 22-End Games

"Curlers had to be able to 'take it' in those days," Mr. Atwood recalls, "we played 16 ends in a game, but there was one cup given many years previously which called for 22 ends. Each of the four clubs in Montreal at that time used to put four rinks in this competition. It was fortunate being chosen by R. M. Riddell to play second for him in two consecutive years when he was chosen to

G. A. S. ATWOOD

He went to Greenwood in the Fall of 1899, and when "a rink was built in 1901 or 1902 we had many a fine game with Phoenix, Morfin and Dr. Boucher being two of their best skippers on those early days.

"I came to Grand Forks in 1903," he continued, "It was not until 1909 that the curling rink was built. The Grand Forks smelter was running then and we had a large enthusiastic membership. Norman McInnes was, I think, the best curler we have ever had, certainly the most successful skip. He seldom failed to return home without a trophy when he attended outside bonapetes. Among the prominent skips of by-gone days were Dick Gardner, A. S. McKlin, J. D. Campbell and C. F. R. Pincoff. Today a younger generation, of whom I might mention Oscar Penney, Leo Mills and Keith Pincoff, are taking up the burden.

"All going strong?"

"But there are still a good many old stagers such as E. C. Henniger, M.L.A., Charlie Clark, John Donaldson, J. R. McDonald and Billy Pearson, all going strong."

While the veteran has many fine memories of curling in another day, he is not content to sit back and think about them. He's curling still. "This year, in spite of mild weather, we had a good season, there being a renewal of much of the enthusiasm of bygone years. I think that the prospects are bright for a good live club for many years to come."

IT'S AN OLD ENGLISH CUSTOM

Mr. Atwood's recollections travelled afield a bit when he mentioned Thomas Spence, "who, it may interest your readers to know was at one time President of a Republic with headquarters at Portage la Prairie. He was a member of the Manitoba Legislature and strongly sympathized with the half-breed settlers who had decided grounds for their grievances after being robbed of their lands by speculators who had pulled with the Government," said Mr. Atwood. "They formed a Republic and wrote to Queen Victoria for her permission. When she refused to grant it, they just dissolved the Republic. It existed about two or three months."

It was at Kelowna that the Grand Forks man became acquainted with wooden curling "stones," about 1905.

HILLER GOES TO DETROIT LINEUP

DETROIT, April 9 (CP)—Detroit Red Wings of the National Hockey League disclosed today they had obtained Wilbur (Dutch) Hiller, speedy left winger, from New York Rangers for the \$5000 waiver price.

Hiller, formerly a high-scoring member of the Rangers' Phil Watson-Bryan Hexall line, had a poor season this year, partly because of an early-season foot injury.

He is believed to have quarrelled with Manager Lester Patrick immediately after Rangers were eliminated by Detroit in the first round of the Stanley Cup playoffs.

He will join his new club next Autumn.

Joe Louis Gets 17 Grand for Musto Go

ST. LOUIS, April 9 (AP)—Joe Louis was paid \$17,466.32 for the sixteenth successful defence of his heavyweight boxing title last night. Tony Musto, the defeated challenger, was laid 15 per cent, or \$2,550.70.

Mike Jacobs, co-promoter, announced the gross receipts as \$52,592.50 and the official paid attendance as 17,472.

A total of \$3,021.19 was paid in Federal, state, city and sales taxes.

TODAY'S GUEST STAR

Zipp Newman, Birmingham News: "Fans hereabouts thought Joe E. Brown's idea of a National Connie Mack Day was a swell one. . . Now if the Athletics would catch the spirit and make it Connie Mack Day, it would suit lots more fans."

Raymond Protest Is Thrown Out

VANCOUVER, April 8 (CP)—Charlie McLachlan, Vice-President of the Canadian Basketball Association, said here today that the protest of Raymond Union, Jan. 25, against Winnipeg's St. Andrews' victory in the Western Canada senior men's semi-final in Raymond last night had been disallowed.

The protest was filed by J. G. Snow, Manager of Raymond, who stated that a basket scored by his team should have been allowed. The disputed field goal would have made the final score 34-34, necessitating a fourth game in the series.

Soft-Bodice Afternoon Dress

Marian Martin
PATTERN 9651

Of course you must have one very feminine afternoon frock. This lovely style, Pattern 9651, is expertly designed by Marian Martin to slim... soften... minimize your figure. The panels down both the front and back, and the slanting hip-seams, all combine to give smooth, slenderizing fit. A high-pointed seam in front holds up the soft gathers through the bodice panels, keeping your waist trim. You may have an all-around sash or just a brief sash and bow in front, as shown. Carry through that nice V-line of the neck with tiny buttons, and do add lace edging. A sheer flower print or a soft crepe would be just the thing for this graceful, long or short-sleeved style.

Pattern 9651 may be ordered only in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 3 1/2 yards 39 inch fabric and 1 1/2 yards lace edging.

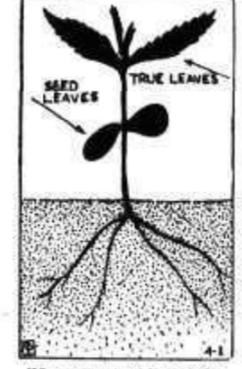

Send twenty cents for this Marian Martin pattern. Write plainly your size, name, address, and style number.

Send your order to The Daily News, Pattern Department, Nelson. Pattern will be mailed to your home within 10 days.

Time to Move the Garden Seedlings

By DEAN HALLIDAY

Experience soon teaches the amateur gardener that vegetable seedlings when widely spaced in flats are heavy-stemmed, full-leaved, dark in color and well-rooted. These plants will start off better and give better returns after being planted outdoors.

When to transplant vegetable seedlings

As illustrated in the Garden-Graph when the "true leaves" make their appearance on the seedlings, it is time for their first transplanting. True leaves are usually the second pair of leaves to appear, as the first pair is called the "seed leaves."

The first transplanting should be from one flat to another. Place the transplanted seedlings two inches apart, each way.

The second transplanting can be into another flat spaced four inches apart each way, or, better still, into paper pots or other individual containers.

CONTRACT . . . By Shepard Barclay

DON'T DOUBLE SLAMS

IN RUBBER bridge there is nothing more foolish than doubling a hostile slam contract, which you expect to set a trick or two, unless your holding is such that you are absolutely certain to beat it, regardless of what declarer does. By means of your double, you increase the points gained by your side, if you do set it, by a very small amount. Against this is the fact that your double stands to increase the declarer's score by much more if he makes the contract. But more important still is the help your double gives him in showing him how to play the hand. If you use the double of a slam as a lead-director, of course that is a different proposition.

West decided to lead the diamond J, won by the dummy's K. South then led the club J from dummy, and when East ducked he let it ride, dropping the 10. His club A next disposed of the K, and he gave up one trick. Without the double, natural play would have been to play the A on the first round of trumps, which would have lost the contract.

West decided to lead the diamond J, won by the dummy's K. South then led the club J from dummy, and when East ducked he let it ride, dropping the 10. His club A next disposed of the K, and he gave up one trick. Without the double, natural play would have been to play the A on the first round of trumps, which would have lost the contract.

(Dealer: South. North-South vulnerable.)

South	West	North	East
1 ♠	1 ♠	Pass	3 ♠
4 ♠	Pass	Pass	4 ♠
Pass	Pass	5 ♠	Pass
Pass	5 ♠	6 ♠	Dbl

North, who knew the opposing pair pretty well, and likewise his own partner, played a great game of possum by waiting as he did before speaking at all. He knew his very conservative partner had a pile of strong cards and distribution to stick in that "reverse" bid of hearts at the four level.

(Dealer: West. East-West vulnerable.)

If West leads the club 3 to East's K and the declarer ducks the trick, what should East return in an effort to prevent an overtrick at 4-Spades?

COULD REINFORCE SINGAPORE QUICKLY

SINGAPORE, April 9 (AP)—Vice-Admiral Sir Geoffrey Layton, Commander of the China station of the Royal Navy, declared today Singapore could accommodate "any part of the American fleet, tomorrow, if the occasion demanded," but said if trouble arose he would get "powerful naval reinforcements and get them quickly, regardless of whether the United States comes in with us."

AUSTRALIANS ASKED TO SMOKE LITTLE LESS

CANBERRA, April 9 (AP)—The Customs Ministry today asked Australians to smoke a little less than usual and requested retailers to prevent abnormal tobacco sales to individuals. The move is designed to prevent a drain on dollar exchange and to ensure that Australian troops abroad get full supplies of tobacco.

Ten Coast Guard Cutters Released by U.S. to Britain

WASHINGTON, April 9 (AP) — The release of 10 United States coast guard cutters to Britain was announced today at the White House.

Stephen Early, presidential Press Secretary, told reporters the coast guard vessels had not yet been delivered to the British but were being prepared for the transfer under terms of the lease-lend bill.

He said he preferred not to disclose the names of the cutters but said they were built from 1928 to 1932.

The vessels will help replenish Britain's vital forces used for maintaining her trans-Atlantic supply lines, but whether additional armed craft will be transferred to England was not indicated.

The cutters are armed but Early said he thought they had little more than one-pound cannons mounted on them. He said he doubted that additional armament would be placed on the ships before the transfer.

Burial Service Held for Loring Christie in U.S.

WASHINGTON, April 9 (CP) — In the presence of many diplomatic and governmental leaders, the body of Loring Christie, Canadian Minister to the United States who died yesterday in New York, was placed in the main receiving vault at Arlington National Cemetery here today.

Monsignor Buckley, Rector of St. Matthews Cathedral conducted a simple burial service, a military guard fired a salute and a bugler from nearby Fort Meade sounded the Last Post.

The chief mourners were Mrs. Christie, a son Paul, a student at the University of Toronto, and sister, Mrs. Stewart Bates of Shawinigan Falls, Que.

Garden Club Again Plans Contests for Boulevard and Garden Prizes; Bedford, Read and Brown Officers

Marking its first year's operation a success, the Nelson Garden Club organized Wednesday night for the 1941 season, planning to carry on similarly with a city beautification campaign based on prizes for boulevards and gardens. Classes probably be the same as last year. It was indicated, possibly with the addition of a children's competition. City cooperation was assured by Mayor N. C. Stibbs.

S. G. Blaylock was elected Honorary President, and Mayor Stibbs and Ald. G. M. Benwell, Parks Chairman, Honorary Vice-Presidents.

J. E. Bedford was named President, A. S. Read Vice-President and George A. Brown Secretary. Named on the Executive were Charles Morris, John Draper Stanley Hall and H. H. Hiltl. A Ladies' Committee consisting of Mrs. John Draper, Mrs. F. E. Wheeler, Mrs. George Schupe and Mrs. J. E. Bedford was elected.

URGENT POLE LINES IN LANES

Holding that city beautification would be speeded greatly if electric light and telephone lines were removed to lanes, the Club decided to ask the City Council to place new pole lines in lanes; and where lines were being renewed, to move them into lanes where practical.

Vandalism was again discouraging gardeners endeavoring to improve boulevards and gardens, members reported. They agreed that the best hope of checking it was to make an example of anyone caught destroying flowers or interfering with the work of gardeners.

Warm tribute to the improvements obtained last year by the better-boulevard and better-garden campaign carried out by the Junior Chamber of Commerce and the Garden Club was voiced by Mayor N. C. Stibbs.

ELKO

ELKO, B. C.—Mr. and Mrs. C. Grover of Kimberley were weekend guests of Mrs. Grover's parents, Mr. and Mrs. J. A. Sheridan.

Rossland Club Hears Lecture on Copenhagen

ROSSLAND, B. C., April 9 — A fascinating tour through the quaint Danish City of Copenhagen was taken by the Rossland Canadian Club when Mrs. Gordon Downes spoke to it Monday evening in the Court House.

During the imaginary tour of the capital of Denmark, Mrs. Downes told her listeners of the interesting sights that might be seen by the traveller. She described the King's Palace, which is really four buildings built on the four corners of a square. About a hundred years ago four Danish nobles asked for the privilege of building their homes in Copenhagen. This was granted provided they added to the architectural beauty of the city. So they built their four identical homes on the four corners of this square. One of these buildings is now used by the King, one by the Crown Prince, one as a guest house, and one for the soldiers of the Palace guard.

The democratic habits of the Royal Family were stressed by the speaker, who mentioned seeing the Crown Prince in his naval uniform going to work on a bicycle, and the King taking his customary morning ride through the streets minus any attendants. However on his birthday the children of Copenhagen always greet the King as he goes for this ride through the streets, and present him with nosegays of flowers, which the tall King must bend almost double to accept from them.
