JAP CRUISER HIT IN NEW ALLIED RAID

ADVANCE NAZI TROOPS MENACED BY RUSS CIRCLE

200,000 Reported to Be Surrounded in Vyazma Area
DOWN 44 PLANES

By EDDIE GILMORE
Associated Press Staff Writer
MOSCOW, March 18 (AP)—Digging deep into the German strongly-held Vyazma pocket, the Red Army tonight had encircled the Nazi's most advanced spearhead pointed at Moscow and put Hitler's great Vyazma garrison itself in a position of grave menaces.

(Stockholm reports estimated that 200,000 German troops were surrounded in the Vyazma-Rahnev pockets.)
The newly encircled garrison was at Gzhatsk, on the main Moscow-Minsk railroad and highway some 25 miles northeast of Vyazma and 100 miles west of Moscow. It was at Gzhatsk that the Germans fell back after their winter disasters at Moshalsk and Borodino and since then the Germans are known to have concentrated huge forces at both Gzhatsk and Vyazma.

Dispatches telling of the newest Red Army coup did not give the date of the entrapment, but apparently it was several days ago.
Tonight's communique said merely that nothing of importance had taken place at the front today, it announced the destruction of 44 German planes, as compared to 18 Russian planes lost yesterday.

The encirclement of Gzhatsk means the Moscow-Minsk highway is isolated between Gzhatsk and between Vyazma and Gzhatsk.
Soviet dispatches said Gzhatsk itself now was supplied only by air, and reported that one German transport plane carrying flour to the trapped garrison had been shot down.

Loss of the Gzhatsk and Vyazma garrison undoubtedly would materially alter Hitler's whole plan for a Spring onslaught.
It is from this Smolensk front that the German High Command must launch any western front offensive.

Says Minister Should Be Sacked

OTTAWA, March 18 (CP)—Conservative House Leader Hanson today criticized in the House of Commons a speech made by Fisheries Minister Michaud in the Quebec East by-election campaign last month and suggested he be "sacked"; if a press report of his speech were correct.
Mr. Hanson read two paragraphs from a report by The Canadian Press of Mr. Michaud's speech Feb. 7 in support of Justice Minister St. Laurent, a by-election candidate.

The first paragraph quoted Mr. Michaud as saying "we will have furnished enough provisions and arms by that time (March, 1943) to pay all debts that Canada owed to British capital."
The second read: "Being financially and economically free from Britain will mean, Mr. Michaud said, that we will be free to find markets where we wish. We will no longer have to import from British things that our workers can produce here."

"Frankly, Mr. Speaker," said Mr. Hanson, "I was astonished when I read that press report. Just what did the Minister mean? Are we not free and have we not always been free to find markets for our products whenever and wherever we wished?"

Hundreds of War Vehicles Destroyed in Raid on Renault

LONDON, March 18 (CP Cable)—The Press Association said today hundreds of new vehicles, tanks and aero engines were destroyed during the Royal Air Force raid on the Renault plant in Paris.
Attributing its information to reliable sources the agency said at least 75 per cent of the productive capacity of the sprawling factory was put out of action.

Britain Apologizes for Bombing of Turkish Town

LONDON, March 18 (CP).—The Foreign Office announced today it had expressed regret to the Turkish Government for the accidental bombing of the Turkish town of Milas last Sunday by the Royal Air Force.
Some pilots participating in a night raid on the Italian island of Rhodes got off course and bombed Milas in error, the Foreign Office said.

CANADA SETS UP UNIFIED DEFENCE FOR ALL FORCES

Commanders-in-Chief in Three Areas Take Over
By FRANK FLAHERTY
Canadian Press Staff Writer
OTTAWA, March 18 (CP).—In three strategic North American areas the Government has established unity of command over Canadian naval, air and military forces, Prime Minister Mackenzie King announced today in the House of Commons.

From now on the three services on the Atlantic and Pacific coasts and in Newfoundland will operate under a single commander-in-chief instead of under their own senior officers, acting independently but in consultation.
Mr. King said the senior members of the joint service committees in each area have been designated commander-in-chief. As it happens the senior members in the three independent areas are:

Maj.-Gen. W. H. P. Elkins becomes commander-in-chief, East coast; Maj.-Gen. R. O. Alexander becomes commander-in-chief, West coast; and Maj.-Gen. L. F. Page is designated as "commanding Newfoundland defences."
"The primary function of the commander-in-chief will be to co-ordinate the preparation and execution of defence plans of the three services in respect to such forces as may be allotted to his command by the chiefs of the respective services," said Mr. King.

More than a year ago the military forces on both the East and West coasts were organized in the Pacific and Atlantic commands and Gen. Elkins and Gen. Alexander were assigned to head them. They are responsible for all operations in their areas.

The senior naval officer associated with Gen. Elkins on the East coast is Rear-Admiral G. C. Jones, commanding officer Atlantic coast, and the senior air officer there is Air Vice-Marshal A. L. Cuffe, whose command includes the Canadian air establishment in Newfoundland, and who will thus be associated with General Page's command so far as air operations in Newfoundland are concerned.

Rear Admiral L. W. Murray, former deputy chief of the naval staff, is flag officer, Newfoundland force of the Royal Canadian Navy, and will thus be associated with Gen. Page in the Newfoundland command.
On the West coast Commander W. J. R. Beech is naval commanding officer and his forces will come under Gen. Alexander's command for strategic direction while the senior air officer there is Air Vice-Marshal L. F. Stevenson who recently returned from England where he was senior Canadian air officer. All three commanders-in-chief are permanent force officers and soldiers of wide experience.

In all three sectors in which unity of command now is established, cooperation with American forces will form an important part of the work of the commander-in-chief.

Mr. King's announcement is taken to mean that now the commander-in-chief who is an army officer may give an order to either the navy or the air force to perform a certain operation but may not tell the other service how it is to do the job.

VICTORIA, March 18 (CP)—J. H. McMullin, retired Commissioner of British Columbia Police, was advised by the Air Ministry today his son, Sgt. Observer Francis Hugh McMullin, 34, had been killed on active service overseas.

BRITAIN SHIPS 80 PER CENT TOTAL WAR PRODUCE

300 Ships Steadily Feed, Reinforce Armies in Year
MIDDLE EAST TO BE ACTIVE ZONE

By J. F. SANDERSON
(Canadian Press Staff Writer).
WASHINGTON, March 18 (CP).—Britain is shipping Overseas 80 per cent of her total military production and every soldier for whom shipping space is available, Viscount Halifax, British Ambassador to the United States, announced here tonight.

He made the disclosure in reply to those who talk about Britain keeping everything in her own island, behind a line of bayonets while other sectors of the global conflict are left to shift for themselves.
Lord Halifax declared that the striking power of the Bomber Command is being stepped up and that today Germany "is beginning to learn what heavy air attacks can mean to great centres of war production."

"As the weather gets better the German war machine will suffer more and more devastating attacks on its ports, factories, refineries and railroads," he said.
"One of the bombs we now use weighs nearly two tons. The Germans call it 'the block bomb' because it is powerful enough to knock out an entire block of buildings. And bigger bombs are on the way."

Lord Halifax said that he felt "pretty sure" that the hit-run raids by the Commandos and parachute troops would "increase in number and in strength."
"The Germans don't like these raids," he said. "They never know when or where we will strike, and they can never be sure just what our strength is going to be. That's one of the reasons why the Germans are keeping more and more troops idle in Western Europe."

He pointed at the Mediterranean area as vital to keep the door open into Russia and also to keep Germany and Japan from making contact. "Unless I'm much mistaken, the Middle East position is going to loom large in the news this Summer," he said.

On the British Isles, the Ambassador said, Britain has 2,000,000 home guards, "only part-time soldiers, whose full-time work is for the most part in war industries, and some 1,500,000 regular troops."

To keep armies fighting Overseas, to reinforce them and send them supplies, Britain has been using 300 ships in continuous employment for the past year, Lord Halifax said. To protect these ships, to maintain the supply lines to North America and to hunt out the enemy, the Royal Navy has been keeping 600 fighting ships at sea in all kinds of weather.

The Ambassador said twice as many tanks were being made as last August, three times as many as February, 1941 and five times as many as July and August, 1940.

Vancouver Will Start Collecting A.R.P. Funds Monday

VANCOUVER, March 18 (CP)—Volunteer collectors will start out on their rounds next Monday morning in the City's drive to raise \$200,000 for the financing of air raid precaution work here. All residents of the city will be asked to contribute.

SAYS AUSTRALIA NEEDS MORE OF CANADA GOODS

Howe Says Supplies Allocated by Britain
SYDNEY, March 18 (CP Cable).—The Sydney Daily Telegraph today headlined an editorial based on Canada's exports of arms and other goods during February with these words:
"These figures don't make sense."
Detailing figures for exports to Egypt, India, Russia, Iraq and Australia the editorial pointed out that although the British figures included foodstuffs they were nonetheless "staggering."

"In arms alone Egypt received 10 times more than Australia," said the editorial. "Whoever is responsible for the allocation of Canada's war output has lost his sense of values. Nobody has suggested that Australia should be given priority and Britain must have the best share of all production. Russia, India, Egypt and China must have a good share but the flow of production should be dictated by the urgency of the situation in the various war theatres."

"Australia can no longer look to Britain for substantial supplies because the Navy has its hands full. Britain sent the battleships Prince of Wales and Repulse to Singapore. If these had been supported by an adequate screen of fighter planes the battle of the Pacific might have developed differently. Britain today has no naval help to spare after holding the Atlantic and the Mediterranean, and helping Russia is protecting Britain."

"Those who dispose of the Empire's production should realize our hands are also full. A London Times statement that the Pacific battle is a race between American reinforcements to Australia and the Japanese advance ignores the fact that Canada is also a Pacific country. Australians simply won't understand why a Pacific country and a sister dominion should be sending 18 times more war material to Egypt than to Australia."

"You would imagine that Canada would put first things first. The United States is wholeheartedly committed to making Australia a major base for operations against Japan. She is doing so because she knows the West coast of America would be wide open to attack if Australia fell. The West coast means Canada."

"Australia's defeat would mean the end of the British Empire in the Pacific. That is why Canada's export figures for February don't make sense."

OTTAWA, March 18 (CP)—Canada's output of war material to Allied Nations is allocated by Britain, Munitions Minister Howe said tonight in commenting on a Sydney Daily Telegraph editorial criticizing

Minns Returning Officer in United Kingdom for Vote

OTTAWA, March 8 (CP)—Lt. Col. E. H. Minns, Ottawa, former Assistant Dominion Franchise Commissioner, has been appointed special returning officer in the United Kingdom for the Active Service vote in the manpower plebiscite April 27.
Col. Minns will be assisted by Capt. J. R. Giffoux, Strathmore, Que., business man who served in the First Great War.

Four U. S. Planes Crash in Flames

LIMA, O., March 18 (AP)—Four United States planes crashed in flames six miles east of Lima shortly before noon today. There apparently were no survivors.
Byron Heffner, farmer, said he saw one plane fall on his farm and burst into flames.
Two other planes fell about 100 yards apart a half mile east of the Heffner farm.

The fourth plane landed in the McClure woods a mile south of the Heffner farm and also burst into flames.
Within an hour, the troops poured down the gangways and marched three abreast to camp sites. A surprised populace cheered, quickly got out flags and bunting.

Founder of Liberal Nationals Resigns

LONDON, March 18 (CP Cable)—Sir Murdoch MacDonald, septuagenarian Member of Parliament, has resigned from the Liberal National Parliamentary Party, which was a monument to his independence of political action.
The step on the part of the white-haired, 76-year-old member for Inverness, who founded the Parliamentary Group in 1931 among Liberals favoring support of the National Government, followed by a few weeks the resignations of Edgar Granville, Sir Henry Morrison-Jones and Leslie Hore-Belisha, outspoken critics of the Government.

Only Seven Million Drawn in Draft

WASHINGTON, March 18 (AP)—The United States first draft lottery of the war, a step toward classification of about 2,000,000 men for possible military service, ended today, a little more than 12 hours after it started.
Only 6,998 numbers, two less than was planned, were drawn from the oversized draft guldish bowl.

AUSSIES GRIN AS U. S. TROOPS SLASH RED TAPE

"There's a War on," Officials Are Told
GREAT SECRETARY OVER LANDINGS
By TOM YARBROUGH
Associated Press Staff Writer
SYDNEY, March 18 (AP).—American officers and soldiers began cutting through red tape and showing their traditional mechanical ingenuity on this continental fortress today — to the delight of Australians.
The dramatic headlines about the arrival of the Yanks gave Australian morale its biggest boost of the war, even though most Australians had known about some landings for weeks.

The first transports, laden with planes and equipment, were unloaded before only a handful of waterside workers, police, militia and residents of the dock area — in marked contrast to the noisy welcomes given peacetime visits of United States naval units.
Within an hour, the troops poured down the gangways and marched three abreast to camp sites. A surprised populace cheered, quickly got out flags and bunting.

But the policy of secrecy of anti-Japanese preparations was quickly imposed, and after convoys went without greeting and without mention in the newspapers.
A joking remark, frequently heard before the official announcement, expressed the public attitude: "Hello mister! Is it an official secret how you like it here?"

A customs officer explained that clearance was necessary for certain material, and "if we air-mail Canberra (the capital) to-night we should have a reply say on . . ."
An officer broke in. "Say, haven't you got a phone?"
Yes—there was a phone.
"Hop to it buddy, you're holding up the American army."

"There's a war on," said another American, who refused to be balked by the fact that power and light wires prevented big bombers from being moved into a hangar.
Tractor, saws, timber and men were mustered.
Taxes are expensive, and Americans greatly appreciate that the street cars cut their fares to a penny for uniformed men.
When they were comfortably housed and well fed at huge camps in the interior, most men appeared well pleased with Australia. Said one California: "After finishing the Japs I think I will marry an Australian beauty and settle down here."

23 Sunk, Damaged and Installations Hit in Earlier Raid

Jap Planes Raid Tulagi, Government Seat Solomon Islands; Airdromes in Timor Successfully Raided
CANNBERRA, March 19 (Thursday) (AP)—United Nations' bombers raiding Rabaul, New Britain Island, scored a direct hit on the stern of a heavy Japanese cruiser, Prime Minister John Curtin announced today.

SAN FRANCISCO, March 18 (AP)—United Nations' planes scored a direct hit on a Japanese heavy cruiser in a new daylight attack on Rabaul, New Britain, said an Australian communique heard here tonight.
"A direct hit on the stern of a Japanese heavy cruiser was followed by a rising column of smoke," said the broadcast, by Radio Melbourne.

"Near misses were observed on four other large vessels."
"Reconnaissance was made on the other parts of New Britain area. Enemy reconnaissance at Papua and New Guinea was continued throughout the day."

The communique added that Allied planes again attacked Kupang, in Netherlands Timor, and "a large number of bombs was dropped with successful results. Hits were observed on runways and hangars."
"Only one Allied plane was lost from the entire day's operations, the Communique said.

CANNBERRA, March 18 (CP)—Japanese planes twice raided Tulagi, the Government seat on Florida Island in the Solomon Group, yesterday, Prime Minister John Curtin announced today.
"Three enemy flying boats raided Tulagi in the early morning," the announcement said, "and dropped 18 bombs from 7,000 feet, damaging one flying boat."

"Several persons, possibly natives, were killed when Florida was bombed. There was slight damage to property."
"The second attack on Tulagi was made by four Japanese flying boats and five heavy bombers which dropped bombs in the sea."
"There are no reports of damage or casualties."

WASHINGTON, March 18 (AP)—American-Australian air forces striking with relentless fury at Japanese invasion bases in New Guinea have sunk or damaged 23 enemy ships, including 12 warships, and wrecked numerous shore installations in one of the greatest aerial actions of the war in the Western Pacific, Allied forces lost one plane. (Also see page 3).

The victory was announced by the United States Navy today, and authorities acclaimed it as fresh, vivid evidence of the growing power of aircraft concentrations in the Australian area and a clear indication of the defence-by-attack which the Japanese must face there.

Charges Against Vancouver Paper Handled by Lawyer

OTTAWA, March 18 (CP)—Justice Minister St. Laurent said today he had referred to Charles H. Locke, Vancouver lawyer, for action the matter of certain articles appearing in the Vancouver Sun, dealing with Pacific Coast defences. Any details as to what proceedings were proposed should more properly be announced by Mr. Locke, the Minister said.
The censor here studied the articles and made a report to State Secretary McLarty who referred the matter to the Justice Department.

Egg-Drying Plant to Be Set Up for B. C.

CLOVERDALE, B.C., March 18 (CP)—An egg-drying plant to process eggs into powder form for shipment to Britain will be established in British Columbia.
Announcement of this was made to Cloverdale poultrymen by W. A. Brown of the Federal Department of Agriculture, who is at present on the Coast making arrangements for the shipment of eggs in the shell to the powder.

Two Opposition Groups Support Gift Resolution

OTTAWA, March 18 (CP).—Finance Minister Halsey's legislation authorizing an outright gift of \$1,000,000,000 in war supplies from the Canadian people to the United Kingdom was presented to the House of Commons today and received support from two opposition groups.
Conservative House Leader Hanson expressed "the hope and wish that this measure will receive the unanimous support of this House and of the country."

M. J. Coldwell, acting House Leader of the C.C.F., said his group would support the legislation which represented "assistance to the hard-pressed British people."
"But Victor Quelch (N. D. Acadia) speaking for the New Democracy group, said that while he had no objection to giving Britain \$1,000,000,000 the goods should not be bought from the United States, and that all the United Nations should pool their resources without thought of loans or interest."

Mr. Halsey described the gift proposal in detail when he moved the necessary resolution which precedes the enabling bill.
In addition to the outright gift of materials, the bill authorizes the Minister to transform into a long term loan, without interest until after the war, \$300,000,000 worth of the accumulated sterling balances the Dominion has in London.

Cancel 15 Per Cent Duty On Apples

OTTAWA, March 18 (CP)—Customs Commissioner H. D. Scully announced today that Revenue Minister Gibbon has ordered cancellation of the 15 per cent duty on apples effective March 16.
It was the first time in three years that the duty value on apples has been lowered.

The order, made necessary by the shortage of apples for home consumption because of increased export demand, will mean a reduction in duty of 50 cents a bushel.

The Weather

Due to war conditions, the Dominion Meteorological Bureau has discontinued issuing weather reports for British Columbia and for the portion of Eastern Canada east of Montreal.
Level of the West Arm at Nelson Wednesday was 132 feet above the low water mark, a drop of 13 feet from Tuesday.

Earnest Battle for Central Burma on; Strong Jap Force Pushes North

NEW DELHI India, March 18 (CP)—The battle for Central Burma, its oil reserves and its approaches to India, was on in earnest tonight with sharp fighting between British forward troops and a strong Japanese force pushing northward up the main road toward Toungoo.

The scene of the action was South of Kanyutwin, a railroad town 40 miles South of Toungoo and more than 100 miles North of Japanese-held Rangoon. The British advance forces, having pulled back about 30 miles from their former positions on the East wing of their line, at about the point where it makes contact with Chinese troops, were fighting; a series of delaying actions.

These took the shape of jungle ambushes set by the British forward units.

Still farther East, in direct support of the Chinese, section of the line, American volunteer group pilots flying from Southern Yunnan Province of China blasted at enemy troops and trucks on the banks of the River Sittang and inflicted heavy losses on Japanese mechanical units.

A semi-official Chinese report said two other American fliers fired nine Japanese fighter planes, four bombers and two transports, riddling several others with machine-gun fire, in a fierce raid at dawn today on enemy air fields near Moulmein, in Lower Burma.

"Open House" will prevail for the balance of the week, beginning today, at the Skating Rink and the Curling Rink, whose ice has been rented by the City from the Civic Centre Commission, following the practice of the last few years.

In the case of the Skating Rink, the periods scheduled for public skating will be free, this including periods on all three days, and on two of the nights. The Figure Skating Club will also have a skating "Kid" hockey will carry on as scheduled by the Nelson Amateur Hockey Association, with the annual Juvenile Cup Winner vs. All-Stars Friday, and with a double-header with the Rossland Bantams and Midgets Saturday night, the Rosslanders meeting Nelson's Bantam Reys and Midget Reys, no admission being charged, Saturday morning will be scheduled for practice or scratch hockey games for all boys of Bantam or near-Bantam age, who turn out with skates and sticks.

At the Curling Rink, "Open House" will be in evidence all three afternoons until it is finished Friday night. That is as far as anything has been scheduled.

McTaggart Leaves to Take Training

LA. G. A. McTaggart, Officer Commanding No. 1 platoon, 29th company Veterans Guard of Canada at Nelson, left Wednesday night for Trail, en route to the Coast for a training course.

He was succeeded in command by Lt. R. R. Jones, who came to Nelson from company headquarters at Trail.

Lieutenant Jones, who was commissioned in the Canadian Railway Troops in the first Great War, joined the Veterans Guard at Vancouver when the unit was organized, and was assigned to the Kootenay company, then known as 11c. He served as a corporal with 11c company until receiving a commission, when he was transferred to the 29th company.

While in Nelson Lieutenant McTaggart was a popular officer. He was a member of the Public Relations Committee for the Victory Loan campaign, and served as aide to his honor, W. C. Woodward, Lieutenant-Governor of B. C., during his visit to Nelson.

Lieutenant McTaggart first came to Nelson in 1935, in connection with mining.

Says 16,000 Civilians Killed in Kharkov

MOSCOW, March 18 (AP)—Russian dispatches from the Southwestern front late today said the Germans recently had killed 16,000 civilians in Kharkov, bringing the total of slain civilians in that city to 30,000 since the German occupation began.

The dispatches said Kharkov lacked food, heat and light and that the only habitable places were occupied by the Germans.

23 Jap Ships Hit . . .

U. S. and Aussies Smash Japanese Forces Attempting Invasion Near Salumaua

WASHINGTON, March 18 (AP)—The United States Navy announced today that a Japanese invasion force concentrated near Salumaua and Lae, New Guinea, had been smashed by American and Australian air forces with the sinking or damaging of 23 Japanese vessels including 12 warships.

"The heavy losses inflicted on the enemy by the combined American and Australian forces were accomplished with the loss of but one plane."

Reporting on activities in other areas it was disclosed that the American submarine Shark has been overdue in the Western Pacific for more than a month and "must be presumed to be lost." Next of kin of those aboard the Shark, including Lt. Cmdr. Louis Shane, Jr. of Tacoma, Wash., have been notified of the loss of the vessel.

Further, the communique disclosed that the American submarine Sea Lion had been so damaged at Cavite, in the Philippines, as to necessitate her demolition to prevent her use by the enemy in event of capture, and the U. S. destroyer L-190-ton First Great War type ship, was demolished at the Dutch Indies base of Surabaya to prevent her falling into the hands of the enemy. There were no personnel casualties in the cases of the Sea Lion and the Stewart.

In the American-Australian raid on the Jap forces at New Guinea, the Navy reported, ships "sunk" and "probably sunk" were two heavy cruisers, one light cruiser, five transports or cargo ships, one gunboat, one destroyer, and one minesweeper—a total of 11 consisting of 8 warships and 3 other ships.

In addition two destroyers were listed as "possibly sunk." Ships damaged were listed as one cruiser, one large destroyer, two transports which suffered direct bomb hits, one troop ship, three transports, and

aircraft tender, one gunboat—a total of 10, consisting of four warships and six others.

Moreover the Allied attackers demolished "many small boats," probably motor boats, and three enemy seaplanes were shot down and shore installations including aircraft runways and anti-aircraft batteries were damaged.

The terrific blow delivered against the Japanese at New Guinea raised to 174 the number of Japanese ships of all types which have been sunk or damaged by United States Army and Navy action and, in this last case, with the help of Australian forces. This figure does not include damage and sinkings inflicted by British, Dutch or Australian forces in previous actions.

Loss of the Shark, Sea Lion and Stewart raised to five the number of United States warships announced as lost in the Western Pacific fighting, the loss of the cruiser Houston and the destroyer Pope having been announced Saturday.

20 Million Bushels is Flaxseed Quota

OTTAWA, March 18 (CP)—Flaxseed production of 20,000,000 bushels in 1942, compared with 6,473,000 bushels last year, is being aimed at by the Dominion Government, Agriculture Minister Gardiner said today.

He said the program is being encouraged because normal sources of imported vegetable oils have been cut off by war in the Pacific.

Two U. S. Merchant Ships Torpedoed

WASHINGTON, March 18 (AP)—The Navy announced today two United States merchant vessels have been torpedoed off the Atlantic coast.

The brief announcement gave no details and described the ships merely as "two additional U. S. merchant vessels."

Technocracy Is Taking on New Life Again in U. S.

NEW YORK, March 18 (CP)—A uniformed membership using a special salute . . . fleets of gray-painted automobiles in some cities . . . an emblem called the monad symbol . . . a busy propaganda machine putting out six magazines and 10 pamphlets calling for abolition of the price system.

Thus the New York Herald Tribune described today the reinvigorated Technocracy movement in the United States. It says Technocracy, Inc., the "economic cure-all that mushroomed and died 10 years ago," has "poked the public eye again, this time with a new set of trappings and mystery which give it the tone of an incipient Fascist movement."

Technocracy, Inc. has been banned in Canada on grounds it advocates overthrow of the Government by force. Howard Scott, Director in Chief of Technocracy, was quoted by the Herald Tribune as saying in an interview yesterday that the organization closed 208 clubs in Canada in June, 1940, following the ban.

MacArthur Has Tough Job Ahead to Defend Australian Shores

BY JOHN M. HIGHTOWER
Associated Press Staff Writer

WASHINGTON, March 18 (AP)—Gen. Douglas MacArthur is facing an extremely formidable task in directing the battle for Australia, military experts here declared today in cautioning against a wave of false optimism.

The odds, they point out, are still heavy in the enemy's favor, however much the United Nations may have been heartened by arrival of American ground troops and air force units in considerable strength or by MacArthur's dramatic shift from Bataan to Supreme Command of United Nations forces in Australia.

In all analyses of the situation, the most these authorities would venture was that the Japanese would be in for the fiercest campaign of the war if they attempt to smash Australia as they have smashed Singapore and the Netherlands East Indies.

The expectation is that the enemy

will risk the campaign. If the Japanese do not attempt it, or if they make the attempt and fail, then the great island continent down under remains in the hands of the United Nations as the Southern jumping-off point for a major offensive once sufficient men and material have been massed.

If MacArthur can hold Australia for such a day, the experts said, the Australian, British, American and Netherlands fighting men serving in his command have a long and costly job ahead, with plenty of reverses to match the successes they may win.

The strategy the task calls for goes well with MacArthur's military temperament. It is the strategy of a dynamic defence—striking out as hard and as often as possible at the enemy. The Australians already have put it into effect, hammering away savagely from the air at the Japanese footholds in nearby islands to keep potential invading forces off balance.

3000 B. C. Japs to Work, Ont. Camps

VANCOUVER, March 18 (CP)—Labor Minister Mitchell, said today arrangements had been completed for the transfer of 3,000 male Japanese nationals from the British Columbia coastal defence zone to Northern Ontario for work in the forests.

Premier Hepburn of Ontario said at Toronto today that British Columbia Japanese might be brought into Ontario for work if Federal authorities would take responsibility for policing them and Ontario were assured there would be no charge to the province or communities affected.

Mr. Mitchell said the Japanese would go to work in pulp mills and logging camps in Northern Ontario at points far removed from any city. The 3,000 will represent almost half the male Japanese national population of the province.

Official Royal Canadian Mounted Police records showed that before the evacuation of Japanese from the Pacific coast

was ordered there were approximately 7,500 Japanese nationals resident in British Columbia, the majority of them along the coast. More than 1,000 of them have already been sent to road work camps, chiefly near the Alberta-British Columbia border.

Mr. Mitchell said he had received word yesterday from Hon. Peter Heenan, Ontario Minister of Lands, that the Eastern province would be willing to take from 2,000 to 3,000 Japanese nationals.

Japanese have been active in the British Columbia logging industry for many years. It is unknown whether loggers and millworkers will be given preference in the movement of the Japanese to Ontario. Details are now being worked out by the Department of Labor, the Ontario Government and the British Columbia Security Commission which is handling the removal of Japanese from the Pacific coast.

Two Torpedoes Make Direct Hits on U. S. Vessel

NORFOLK, Va., March 18 (AP)—Three enemy submarines, one large and two small, pocketed a medium size American merchant ship off the Atlantic coast early Sunday and sent her to the bottom with two torpedoes placed accurately in the engine room.

Six members of the crew lost their lives in the attack, the Fifth Naval District said in announcing the sinking today. Thirty-three survivors landed at Morehead City, N. C., after being adrift on life rafts from three to nine hours.

The loss of life resulted from the second torpedo which struck just below one of the life boats as it was lowered into the water.

The submarine that fired the second torpedo was about 280 yards from the ship, Captain Theodore Bockhoff reported. "They could see us as plainly as we could see them, and they knew that the lifeboat was being lowered," the Captain said. He added that "both torpedoes were placed very accurately in the engine room."

Pownall To Command Army at Ceylon

COLOMBO, Ceylon, March 18 (CP)—Lt. Gen. Sir Henry Pownall has assumed command of the army on this strategic island off India's Southeast coast.

Vice-Admiral Sir Geoffrey Layton, who has assumed command of land, air and sea forces here, told a press conference "we are faced with the very obvious danger of attack from an extremely efficient enemy," but that there was "no need of fear of panic."

BELIEVES GOV'T INTENDS TO BUILD ON RESERVE DESPITE PETITION

VANCOUVER, March 18 (CP)—Mayor J. W. Beaverbrook Will Carry on in U. S.

LONDON, March 18 (CP)—Lord Beaverbrook is being sent to the United States to aid in pooling war resources of the United Nations, Clement Adee, Dominion Secretary, announced in the House of Commons today.

The announcement dispelled recent doubts whether Lord Beaverbrook would continue to lend his talents in war production after his rejection of a place in the War Cabinet.

In addition to his work on pooling resources, it was explained Lord Beaverbrook would perform "such other duties as may be entrusted to him from time to time by the War Cabinet."

Lord Beaverbrook will act "on behalf of the War Cabinet" under the general direction of Mr. Lytton. He will not be a Cabinet Minister nor will he perform any diplomatic functions, which will be left to British Ambassador, Viscount Halifax.

First Regulates Intake of Water

LOGAN CLENDENING, M.D.

Our need for water is very delicately regulated by one of the most sensitive sensations of the body, thirst. Thirst tells us how much water we ought to take in, to the exact point. People write asking me whether it does any harm to drink too much water—more than thirst demands—and people say that they are practically never thirsty.

In answer to the last, it is of course true that all our food contains water, some of it as much as 90 per cent, and certain people take this food-water very avidly so that the demand for water in a pure form is not very great. The milk and coffee and other beverages we consume at the table supply water.

As far as drinking water after meals has been quenched, it is probable that no one is harmed by an excess of water in the body. Experiments made by Dr. Rowntree years ago show that the body gets rid of excessive water and every living cell protects itself from an excess of water content. They sap up water when they are depleted, but the

No Refuge From Love

CHAPTER FIFTEEN (Continued)

Again Molla paused, that reflective expression flitting over her face.

"Then, in the Summer of 1939, he wanted me to marry him. I believe I would have—but he wanted to leave the country, for Austria. I refused.

"When I refused, he changed his mind about leaving the country. At least, I thought he changed his mind. Then came the war. I saw less and less of Kurt, and somehow I was glad.

"The war came close. You know what happened. We were invaded. Our lives were changed overnight. And one of those who played a big part in preparing for that invasion was Kurt Wilhelm."

Molla's eyes glistened momentarily. "I can forgive him for not forgetting he was a German, but I and my family, my friends, can never forgive him for turning on those who gave him a home when he needed it."

She shrugged. "Still, his wasn't the only case, here were many, of course."

"It was a bitter blow when the truth was discovered. It was all the worse for me because I was afraid of what people might think."

"Kurt did not remain in Oslo after that. We found out he was recalled to Berlin. It took my mother a year to convince me I must leave Norway and go to America. But before I left we heard that Kurt had been captured in France. He was in uniform so could not be shot as a spy. Instead, we found out later, he was sent to a prison camp in Canada."

Neil nodded. "Good place for him."

"Except that he no longer is

body cells do not store water. When water is forced, however, there ensues a condition known as water intoxication which is practically always fatal.

There are a great many peculiar things about water, however, which we do not understand. A gentleman writes me, for instance, that he is subject to migraines headaches and that when he knows one is coming on, he refuses to drink any water at all for a day or two and can often ward off a headache, preventing it altogether. This is true, according to him, with a number of chronic conditions and other forms of headache. I should like to hear if my readers have had any similar experience.

The only exception I know to the statement that the body cells do not store water is seen in a condition of reducing for obesity and overweight. People on a reduction diet go along for several days, usually about ten, without loss of weight and then suddenly begin to lose rapidly.

This has been ascribed to water retention that occurs in the fat cells. The fat may be removed but the water remains, so the person loses no weight. Suddenly the cells let go their excess water and a sudden falling off of weight occurs. So in a reduction cure do not be disappointed if you don't lose much the first few days.

Girl Asks Why She Never Gets Date

By BEATRICE FAIRFAX

You may count on that old maxim: A pretty face is the best introduction. An unlimited number of girls never seem able to manage more than a single date from one man. Volumes have been written on the subject. Charm schools have been set up. Lessons in personality have been given.

Still these solitaires, who dress well, have good backgrounds, sit in desolation and see homely girls going out and having a good time.

The stay-at-home girl consoles herself by saying the reason for her unpopularity is that she refuses to pet. But that doesn't solve the riddle because the easy petters, while they are likely to enjoy a good deal of brief attention, don't hold up well.

The other day I got a letter from a girl who never manages a date. She told me all the usual things; that she had a very good position and that as far as she could see, the only cause of her unpopularity was that she wore glasses. She had trouble making friends, and her acquaintances never invited her to their homes. She felt left out of everything.

She went on to say that she could probably get a "pick-up" but, "I'm not of that type. I come from a good family and we have a beautiful home, but it just makes me discouraged to sit at home and see all the rest of the girls go out with their boy friends. I've heard people say that such a girl has an attractive personality. I don't think the most handsome soldier would look at me. Are my troubles the result of wearing glasses?"

Distinctly, the trouble is not because this girl wears glasses. Smart-looking glasses add piquancy to a good many girls.

If this girl had sent her address,

it's possible I could have given her a few suggestions. Her whole letter was revealing, but there was no identification beyond the city in which she lives.

I have a very large collection of letters from dateless girls, or the one-date girl who never gets a return engagement. Let's swap Mary Jane's troubles with those of Ann Eliza, and see if we can't get some working basis as to why girls are unpopular. Here's a chance for all girls, popular and unpopular, to write in. We'll see what comes of it.

Streamline . . . Regular Exercise Keeps You Young

By IDA JEAN KAIN

So you've slimmed two inches off the waist and three off the hips! And you feel so slim and young again that your mind is made up never, never to let your figure get sloppy again! Good for you.

You won't need to do all the exercises it took to whittle off the inches, just the ones which meet your particular needs. You will probably need a couple of exercises to keep a willow waist, so as to twist and bend easily. And, a pair of streamliners for hips and thighs, just in case! Here is a simple for these measurements:

Human Nature . . . Peace Wrecked by Third Child

By Garry Cleveland Myers, Ph.D.

Whether 2 or 30 the peace between two persons may easily be destroyed by a third. Ever so many parents suppose that their child and his playmates are peculiar problems, since, although they play happily together as just two, a quarrel begins at once when they are joined by a third.

"Our son, 3 1/2, has two playmates aged 3 and 4 1/2 years whom he plays with constantly. Until recently our son and the three-year-old played together beautifully until the 4 1/2 year old appeared and immediately trouble followed, such as pulling a hat off, pulling hair, and snatching a toy or calling names. Now, our son, who has a hero worship idea of the 4 1/2 year old is doing to the 3-year-old.

THE DOCTOR'S REPLY

It is most natural that your son should torment the younger playmate on arrival of the older one. This is not so much from imitation as to prove to himself he is braver, since he gets the worst of it from the older playmate. If the older child is not too much stronger your best solution is to reduce your/ed to stand up for his rights. Adding more playmates to the gang should help.

NOW, THE HIPS

Position: Lying on left side on the floor, right hand on floor in front for support legs stretched down.

Movement: Shuttle legs back and

forth in a wide, scissor-like action, keeping both legs well of the floor for freedom of motion. Change sides between each 25 counts. From the same position on the side, make a wide circle with the legs, swinging from the hips. That takes in both hips and thighs! Change sides between each 12 counts in leg circling and gradually work up to 100.

At the finish, shake legs vigorously from hips to rid these muscles of tension. Then take a good, thorough stretch followed by relaxing, to loosen up all your muscles and leave you feeling rested.

Something Big has happened in Canadian flour milling

Now a **WHITE FLOUR** offers a good proportion of the **VITAMIN B COMPLEX** of wheat

Our new "Cold Roll" Milling Method leaves in most of the **Wheat Germ** with its natural vitamin B content and its food-enriching Flavor!

Our new Vitamin B Kitchen Craft White Flour contains not less than 360 International Units of B₁ (thiamin) per pound. It also offers more riboflavin—more of all the vitamin B complex.

These are not vitamins added to the flour. They are the unremoved vitamins natural to whole wheat.

You'll prefer this fine, all-purpose flour for the delicate wheasty flavor it gives to your breads...cakes...to everything you bake. You'll find even its color is not the "chalk" white of regular "patent" flour, but a richer, creamier type white.

By all means try this new Vitamin B Kitchen Craft White Flour. It is milled in Canada from fine Canadian wheats solely for home-type baking and is guaranteed to give you fine results always. And guaranteed to keep at least two years under normal storage conditions.

CRANBROOK

CRANBROOK, B. C. — Christ Church was the scene of a very pretty wedding Sunday morning, when Lorna Mary, daughter of Sgt. and Mrs. H. N. Wood of Cranbrook, became the bride of Gilbert Albert, son of Mr. and Mrs. G. Pelton of Cranbrook. The bride was given in marriage by her father and was dressed in a dark tailored suit with white sheer blouse and a large black hat. She wore beige gloves and her shoes were black pumps. Pinned to her suit was a lovely corsage of roses, and she carried a white prayer book used by her mother at her wedding. Rev. R. Harrison was officiating clergyman. Only the immediate families were present and tea was served in the afternoon with a few relatives present. Mr. and Mrs. Pelton will reside in Kimberley where the groom is employed by the B.C. Police. John Jamison who has been in the hospital at Vancouver, arrived home Friday and will resume his duties at the Canadian Bank of Commerce. Miss Frances Carver left for Calgary Friday where she will enlist with the R.C.A.F. (W.D.) She was accompanied by her brother, Kenny Carver. H. J. Irving of Canal Flats was in town Saturday. Po. P. C. Edwards of Cranbrook visited in town over the weekend. He received his wings at Calgary, March 12. Aw. J. P. Ward, daughter of Mr. and Mrs. C. R. Ward, visited her home at the week-end. She is stationed at McLeod with the R.C.A.F. (W.D.). W. Mitchell, R.C.A.F. Instructor at Edmonton was in town Thursday. Miss Hazel Simpson left Thursday evening for Calgary and will be the R.C.A.F. While here she was Sgt. Major of the C.W.T.C. Mrs. Ernie Strong of Kimberley visited Mr. and Mrs. A. E. Jones, Thursday. Malcolm McPhee, son of Mr. and Mrs. E. H. McPhee left Friday for Calgary where he took his medical examination for the R.C.A.F. Rev. and Mrs. T. Johnstone were guests of Sgt. and Mrs. H. N. Wood, Sunday. They were en route to Vancouver, B.C.

Wartime Hints Washing Machine May Soon Become Prize Possession

Washing machines are largely made of steel—so are shells and tanks and guns. Rubber, aluminum and bronze are also used in their makeup and an electric motor makes them work. All these materials are needed for munitions. But even if the materials were not needed the skilled labor that goes into their manufacture would be because every pair of hands is required to provide Canada's armed forces with weapons of war. Because of all these things a washing machine in wartime is a precious possession and cannot easily be repaired or replaced. Here are some rules to observe in taking care of the machine you have: (1) Don't overload or wash too long. Follow carefully the manufacturer's directions as to the size of the load and the length of the washing period. This will save energy and avoid overloading the motor. (2) Keep very clean. Rinse after use and dry the tub if it is made of metal. If it has a wooden tub keep a little clean water in it between washings days. (3) Release pressure on the wringer rolls directly after use, and wipe them with a damp cloth. If stained, clean with kerosene and then rinse with soapy water. Don't put too much clothing through the wringer at once, and fold buttons and buckles inside the garments. (4) Follow the manufacturer's directions for oiling the motor, and other parts. Don't oil too liberally. (5) Never start the motor with the washer or wringer in gear.

Free Admission For Armed Forces at P.T.A. Affairs

ROSSLAND, B. C., March 17 — Reports by committee conveners on recent activities were heard at the Parent-Teacher Association meeting in the Court House Monday night. Mrs. H. Fleury reported that E. J. Gibney was meeting students in connection with the suggested formation of a school band. She also reported on the concert Friday in the High School auditorium, which featured Frank Hoesk and Donald Brown. She mentioned that 450 students were given an opportunity to hear the artists at a free performance Friday afternoon. Appreciation of Mrs. Fleury's part in arranging the concert was voiced by Mrs. R. Morin and Mrs. R. W. Hagon. Mrs. K. Martin reported on her and H. E. Smith's meeting with the Rossland Soldiers' Cheer Fund regarding the welcoming of soldiers home on leave. She said the P.T.A. would continue to furnish cigarettes to these boys on the eve of their departure until a program is worked out by the Cheer Fund. Mrs. E. V. McGauley reported progress in connection with the purchase of a cup to be posted in the Kootenay Musical Festival. This trophy is to be awarded to the Rossland competitor securing the highest aggregate marks in the under 18 years bracket. ARMED FORCES FREE The meeting approved a motion providing that any member of the armed forces may attend without payment any P.T.A. function held while he is home on leave. Mrs. J. A. Thomson answered an enquiry about the fine arts exhibition and tea to be held by the Association April 24 and 25, stating that it would extend over two days in order to give students an opportunity to attend the exhibition on April 24. On April 25 the exhibition would be open to the public and tea would be served. W. M. Gibson showed the meeting slide pictures of his trip to Mount Sinai in 1927.

Will It Mean More Suits?

Further details on the clothing restrictions which will go into effect in Canada a month hence contain one item which is certain to provoke some controversy, and this is the elimination of what is known to the trade as the two-pants suit. After April 10 only one pair of trousers will go with each suit.

This is in line with restrictions decreed in the United States a short while back, but cannot be justified by that alone. The two-pants suit has been popularized on grounds of economy, for the reason that one coat of any quality at all will wear out at least two pairs of trousers of the same material. If this is so—and experience has convinced many that it is—it means that in the long run the new ruling will defeat its purpose by wasting more than it will conserve.

The decision, possibly, was reached after careful scientific study which showed it to be the sane course to follow. And, again, perhaps it was not.

Unless this section of the decrees is going to economize cloth, it should be eliminated. If it makes two coats grow where one grew before, it will mean waste.

Bootlegger in Britain

From London come reports that the scarcity of liquor supplies has finally resulted in a thriving bootlegging movement with skyrocketing prices, says Newsweek. In an England that has always been meticulous about the quality of its liquor, labels now often mean nothing—a bottle offered for sale as Pomard, a Burgundy wine, for instance, bore the label "Grand Vin de Bordeaux."

Worst of all, regiments that for many years have boasted of the superb port and sherry served in their messes are finding it difficult to replenish their supplies since imports have been severely cut.

Gin, one time favorite of chat ladies and in the wardrooms of British warships, seems to be the scarcest of all spirits. Britons now have to pay as much as \$7 a fifth. Good Scotch is just as scarce, and even bad whisky is costly. Production is down to about one-ninth of what it used to be, and much of this is exported to the United States to obtain essential foreign exchange.

The price is supposed to be about \$3.50 a bottle, but prices run as high as \$5 and \$7 and even \$10 in night clubs for poor quality stuff. Bars do their own rationing, with a double whisky the limit for a patron. About half the time even the Press bar in the Ministry of Information runs out of Scotch.

Although widespread bootlegging is something new for Britain, speakeasies aren't. As a result of early closing times of pubs and bars, London has for years had "bottle" clubs where drinks are sold after hours—at a high profit. Just now these are flourishing although even they are sometimes caught short of supplies—with the result that when a Briton plans a late party he usually takes care to reserve a supply of drink as well as his table.

Bristles Frozen

The pig is again in the news. Not for his bacon this time, but for his bristles. The War-time Prices and Trade Board has found it necessary to freeze all existing stock in Canada, and drastically to curtail their use for the manufacture of civilian goods.

An acute shortage of brooms and brushes need not be feared however, for manufacturers are already working on substitutes. Nylon fibres can be used for hair and tooth brushes, and a mixture of horse hair from the tails of Canadian horses is proving a most satisfactory way of eking out the precious bristles. There will be fewer types of brushes, but the price range will be unaltered, and the cheaper varieties retained to avoid hardship to anyone.

As to why this is all necessary when hog production in Canada is actually increasing, the answer is that the Canadian porker is reared almost entirely for his flesh value and slaughtered before his bristles are mature. The bristly bristle is imported from China and the U.S.S.R. where hogs are allowed to live longer and attain a more venerable appearance.

Etiquette Hints

If you are a guest of honor at a dinner in a man's home, don't try to help in last-minute preparations unless your hostess wants you to. She usually has matters well in hand, unless she is very inexperienced. It is nice to offer to help her clear away and wash the dishes, however, unless she is the type that doesn't like to have outsiders' aid in such matters.

M. W. Cranbrook—I would like to know what real public holidays there are and if the day after Christmas is a public holiday, also, the day after New Year's Day, Good Friday and Easter Monday?

Public Statutory holidays observed throughout Canada are as follows: Sundays, New Year's Day, Good Friday, Victoria Day, Dominion Day, Labor Day, Thanksgiving Day, Remembrance Day and Christmas Day. In addition, Boxing Day (the day after Christmas) is a public holiday in B. C. When the above days fall on a Sunday the following day is observed as the holiday.

A. M. Riandel—Will you please tell me to whom I could write for first aid lessons to be sent out to me, so I could learn them at home, and send the answers in to be corrected? There are no first aid classes held near here?

There is no special correspondence course in first aid. Dr. C. M. Robertson, instructor of St. John's Ambulance Courses in first aid, suggests that you could obtain a first aid book and study the lessons at home. Two practices would be held in Nelson before the examinations which you would have to attend. You would also have to pay the registration fee of \$1.25. For further information write Dr. C. M. Robertson or C. O. Anderson, Nelson.

T. S. Trail—Would you please tell me what income tax a single man earning \$1390 in 1941 and supporting his mother in another province, should pay?

Your personal exemption is \$750. For your mother you can claim, if she is actually dependent, the amount you have contributed, but not exceeding \$400. The tax on the balance of your income is 15 per cent. You require Form T1—Special which can be obtained at post offices.

L. R. M. Creston—Is a person employed by a lumber industry entitled to the cost of living bonus?

Yes, on any increase in cost of living over the October 1, 1941, basic figure. The first period of three months, October, November and December showed a decrease in cost of living, so no bonus is yet payable. The next period, which may or may not show an increase, is for the months of January, February and March. A bonus based on this period, if there is a point of more net increase in cost of living over the October 1 figure, will be payable on the first pay day after March 5.

L. J. B. Nelson—Could you please tell me if there is any law against the changing of a surname if not done for criminal purposes but merely in a casual manner to simplify daily usage? Is one compelled to have this gazetted and done by a lawyer? Are any contracts like marriage certificates or buying a car licence valid if contracted under a changed name?

Since the outbreak of the present war, under the Change of Names Act, it is now necessary to have legal permission to change one's name. Formerly a name was changed by deed poll. We advise you to consult a lawyer, or make application to the Registrar of Births, Deaths and Marriages, Parliament Buildings, Victoria.

Today's Horoscope

A birthday today means that you have a sweet, pleasant disposition which should win you friends and a loyal, loving mate. You are generous, but too sensitive to adversity. In the year to come, avoid quarrels and impulsive actions. If you heed this warning, much happiness and success are prognosticated. You will gain in diverse ways during this time, including possible inheritance. Born on this date a child will experience much good fortune often gaining in secret ways and through strangers and old people generally. His or her life will be happy, but subject to occasional unexpected business worries.

Letters to the Editor

Letters may be published over a nom de plume, but the actual name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Britain's Part Not "Lamentably Small"

To the Editor:
 Sir—The Nelson Advertiser regularly flutters on verandah floor of the writer's hillside hacienda, most irregularly he scans it, but a last-week editorial is a sufficient travesty of truth-telling to challenge candid corrections. Words neither win or lose wars, but exert a wise or unwise mental influence. This is surely no time for unbalanced or back-biting babbling when the enemy is at the gate, but rather for timely restraint and exercise of communal charity in public utterance. Judging from hostile comment aroused by the editorial: "A Much Needed Action," self-interest calls for an editorial "amende honorable."

Space permits me but part-rebuttal, that will cover the penultimate paragraph, which reads: "When one considers the part taken by Australia, Dutch, Canada and the balance of the world, Britain's part appears lamentably small. Her actual achievements have been sporadic, as witnessed by her African campaign, and in Greece, and other parts of the world."

The Advertiser editor has doubtless been impressed with Canada's war effort through the monthly mass of free literature issued by Ottawa authorities, at heavy cost to taxpayers, wherein they ceaselessly pat themselves on the back: one "customer" in a single day received four booklets, weighing over 10 ounces.

DOROTHY THOMPSON'S TRIBUTE

Let me quote a recent tribute to Britain by the one and only Dorothy Thompson: "Not quite two years ago, the islanders had the Hun at the Channel watergate—47,000,000 people on a little island, who could starve in a fortnight; for a year and a half, they held the world at bay alone. Fifty thousand of them died—right in England; I can't remember that anybody whimpered!—Let us give due recognition to the spirit of June, 1940, that looked into the abyss and did not falter, and that, unfaltering still, gazes, comprehends and fights on—"

Britons overseas cannot forget those fateful days when Britain miraculously received home the bulk of its fighting forces from off the Dunes of Dunkerque by grace of their "polyglot pawnshop navy," as one wag called it.

Winston Churchill, the resurrected spirit of Elizabethan England, then uttered the historic words, "We have the honor to stand alone!" And thus it was Britain alone under the blitz, battered but buoyant, grim but gay, her ramparts of the sea and beneath her soft standing in ashes but not in sackcloth behind misty skies, took it bloodily on the chin till she was rocked backward on her feet! Civilization and Christianity then had one actual champion, and she saved the world from pagan Nazism, and is still holding the pass, for Britain yet remains the ultimate bastion for the Western Hemisphere. Truly her finest hour.

PREFER FREEDOM

Her people prefer roast beef to rice, and free exercise to the dragging reluctant steps of serfs and slaves. They will die on their feet rather than live on their knees. With America, the motherland is having her Valley Forges in Second Armageddon. She suffers, as all democracies, with ineptitude in high places and political Pollyannas. Her Valley Forge will ultimately lead to triumph, and all the snows of yesteryear will melt away, for the knight-hood of her common people is in full flower, assembled in the lordly fellowship of a common sacrifice. As Kipling once truly wrote: "There is no break in the line—no loads are missing!" They are behaving these days very much as the kings of Shakespeare's plays. The London Times writes editorially, "The mood of this nation is a grim desire for sterner and sharper strokes of self-sacrifice, an increased submission to deprivation and curtailment. The people of Britain are working and fighting as never before in their history."

In this hour, as the clock ticks off the fateful seconds of this year of destiny, let us salute them all in the cheery words of Gilbert Chesterton:

"Rise up and let the trumpet blow
 When its gallant to be gay
 Tell the whole world it shall not know,
 Our future until we turn at bay!"

When the last criticism of the Homelanders has been voiced, no one will question that they are a peculiar people in the Biblical sense of the word, and, hard hammered on the anvil of time, are bonny fighters to boot, with a sheer bull-dog tenacity that brooks no final defeat!

LET CANADA NOT LAG

On the far-flung fields of battle, even as in the first World War, they are holding high the torch flung to them from falling hands; they kept it brightly burning through the dark days when the lights of the world were being extinguished one by one, by the fullest measure of self sacrifice. They will not shrink their personal Calvaries in service of the highest that can be known in this crusade for freedom which is a symbol of the invincible free heart of man.

May we here in this Canada of ours not lag in treading the same Glory Road in equal measure. There is no detour along this highway, and journey's end will see us with but little margin to spare. Under God, it will be enough!
 G. S. REES.

Calgary Takes 2-1 Lead In Series by Beating Leafs In Rugged Hockey

CALGARY, March 18 (CP)—Calgary Stampede, leaders of the A.B.C. Senior Amateur Hockey League for the most of the regular season, jumped back into the lead in their best-of-five final series with Lethbridge Maple Leafs here tonight by stopping the Southern Albertans 4-3 in a rugged battle. A sellout crowd of more than 5,200 fans saw Stampede assume a 2-1 lead in games as result of the triumph.

Tied 1-1 at the end of the first period, Stampede assumed a 3-2 lead by the end of the second after Leafs had gained a brief 2-1 margin earlier in the frame, then scored the lone goal of the third period to win 4-2.

Cairns, French, Grant and Sprout tallied for the Calgary sextet while Slobodian and Rimstad netted the Lethbridge goals.

The Clubs clash Saturday night at Lethbridge in the fourth game with the fifth, if necessary, in Calgary the following Monday.

Johnston Cocky at Simon Show

SUMMIT, N.J., March 18 (AP)—Manager Jimmy Johnston strutted with his derby cocked at a jaunty angle today following Abe Simon's display of fine left-jabs in preparation for his title bout with champion Joe Louis for the Army Emergency Relief at Madison Square Garden, March 27.

Ample Abe went five rounds against Gene Mickens and Johnny Shkor. He drew blood from the nose of the former and smashed away at the latter's face and ribs.

Bear Cats Take Third of Series

PORT ARTHUR, March 18 (CP)—Port Arthur Bear Cats, senior hockey champions of Thunder Bay, took a commanding lead in their best-of-five Allan cup series over Winnipeg Navy Chippewas at Manitoba tonight by winning the third encounter 4-3.

The head of the lakes former Canadian champions won the opener 4-1 and the second game ended in a 3-1 draw. Fourth game will be played here Friday.

Formal Notes Exchanged Between Canada and U.S. on Alaska Highway

OTTAWA, March 18 (CP)—After the war the Alaska Highway in Canada will become part of the Canadian Highway System subject to the understanding there shall be no discriminatory conditions as between Canadian and United States civilian traffic, notes exchanged by Ottawa and Washington revealed today.

The notes were issued by Prime Minister Mackenzie King who announced March 6 that the Canadian Government had approved a United States offer to undertake the building of the Highway from Fort St. John, B.C., to Alaska.

A Canadian note, dated March 18, set forth it was understood that the United States would carry out the necessary surveys for which preliminary arrangements had already been made. Construction of a pioneer road by U.S. Engineer troops for surveys and initial construction would also be undertaken.

The United States will also arrange for completion of the Highway under contracts made by the U.S. Public Roads Administration and awarded with a view to the "execution of all contracts in the shortest possible time without regard to whether the contractors are Canadian or American."

The United States will maintain the highway until the end of the war and for six months thereafter unless the Canadian Government prefers to assume responsibility for the maintenance of the Canadian section at an earlier date.

The Canadian Government will acquire rights of way for the road in Canada, including the settlement of all local claims in this connection. The title will remain in the Crown in the Right of Canada of the Province of British Columbia, as appears most convenient.

Canada will waive duties and

transit or similar charges on shipments from the United States to be transported over the Highway to Alaska or southbound to the United States.

Duties on equipment and supplies to be used in construction will be waived. Steps will be taken to facilitate admission into Canada of U.S. citizens who may be engaged on construction or maintenance.

Practical details of the arrangement will be worked out by direct contact between appropriate Government Agencies, subject when desirable to confirmation by subsequent change of notes.

The United States note, signed by J. Pierrepont Moffat, American Minister to Canada, said Washington authorities were convinced of the urgent necessity for construction of the road as a defence measure.

CONTRACT ...

By Shepard Barclay

THIS RABBIT HAD TO
ONE COTTONFIELD hand said as saw a rabbit climb a tree. "Go on," his friend ejaculated, "how can a rabbit climb a tree?" And the answer was: "This rabbit had to." So it is with some contracts. If your partner gets you into an absurdly high one, or if you do it yourself, you may find yourself in a position where you have to make some kind of funny play, or at least try, unless you intend to surrender without a fight.

to use the Blackwood convention. The 6-No Trumps declarer got the same lead as did the 3-No Trumpers, so far as suit was concerned, a heart, though it was the K against his aim and the 2 against the mere games. The other declarers simply ran ten consecutive tricks, seven clubs and two spades, after taking the heart A.

The slam declarer had to take twelve consecutive tricks, however, and saw only one hopeful way to do it — if West held both the Q and 10 of spades. So after the heart A, he led the spade J. West covered and the K won. To his hand he came with a club and led the spade 9. West saw that covering this would end any guess, so played the 4. South let the 9 go through, and it won. Then the 7 to the A dropped the last two spades, and the 8 was good. With five tricks now in, there was nothing left to do but cash that last spade and run six more clubs, then give up the diamond K.

Yukon and NWT to Be Exempt From Gas Rationing

OTTAWA, March 18 (CP) — The Yukon and the Northwest Territories will be exempt from gasoline rationing, it was announced today by Minister of National Defence.

Mr. Howe said total sales in those areas are too small to justify the expensive administrative machinery which would be necessary in applying the rationing system.

The first order issued by G. C. Cottrill, Oil Controller, prohibited the establishment of new service stations or the installation of additional pumps or tanks. This order will prevent setting up of new stations in communities in the Northwest Territories North of the borders of the Prairie Provinces.

Rear Gunner Sole Survivor as Bomber Crashes Mountain

LONDON, March 18 (CP) — Six airmen were killed when a Wellington bomber crashed on the Mourne Mountains, near Newcastle in County Down, Ireland, last Monday afternoon.

The rear gunner, who was burned badly, was the sole survivor.

U.S. Army Bomber Crashes, Two Killed

BARTON, W. Va., March 18 (AP) — A twin-engine United States Army bomber crashed and burned on Burner Mountain today with a loss of at least two lives after it roared down a narrow highland valley with a motor missing. U. S. Forest Ranger W. L. Maul reported.

More Air Support Goes to Jap Forces Fighting in Burma

LONDON, March 18 (CP)—Although the situation on the Burma land front "has not been altered," a military commentator warned today the Japanese troops in Burma had received "strong reinforcements" in planes and personnel which were released by their victory in Java.

While praising selection of Gen. Douglas MacArthur as United Nations Supreme Command in the Southwest Pacific, he cautioned against "expecting a big offensive the day after his appointment," and warned the British press not to "exaggerate reports of the number of American troops landed in Australia."

British Aircraft Workers Took Day Off to Attend Races

LONDON, March 18 (CP Cable)—Five hundred aircraft factory workers who took a day off without permission cost the nation four fighter planes, Col. J. J. Llewellyn, Minister of Aircraft Production, told the House of Commons today.

Replying to Col. Arthur Evans, Conservative, South Cardiff, who asked if the Minister were aware that upwards of 500 personnel of a factory near London quit work in order to go to greyhound races, Col. Llewellyn confirmed the absenteeism though he did not know how many, if any, went to the races.

"The Works Production Committee is giving its attention to absenteeism in general in this country and a National Service officer is dealing with this particular case," the Minister added.

U.S. Merchant Ship Torpedoed by Sub Off Atlantic Coast

CHARLESTON, S. C., March 18 (AP)—The sixth United States Naval District Public Relations office said today a merchant ship was torpedoed by a submarine off the Atlantic coast at 1:22 a. m. E. D. T. last Sunday after being lighted up by red and green Very lights from the submersible.

The ship carried a crew of 36 including the master.

Three were killed and five listed as missing, three of whom were reported picked up by a rescue craft. The other two were presumed hit while in a lifeboat. Fifteen were injured and nine of these still are in a hospital here.

Gets 23 Months For Posing As Man

MONTREAL, March 18 (CP)—A two-year deception has its climax today when Antoinette Arsenault of Ottawa, who masqueraded as a male and who went through a "marriage" ceremony with another woman, was sentenced to 23 months in jail on each of two counts to which she had previously pleaded guilty. The sentences are to run concurrently.

COMMANDOS BRING BACK PRISONERS AFTER DARING RAID

Two Nazi prisoners are searched by a parachute trooper on the left, and three Commandos. These German soldiers were taken prisoner in a raid on the Nazi-held portion of France, in which the English landed parachute troops along with heavily armed infantry forces.

Here are some of the cheering sailors aboard a British ship, welcoming the return of British parachute troops. The parachute troops are shown in a small landing craft as they speed back across the English Channel.

Farewell Dance Given Servolds at South Slokan

SOUTH SLOCAN, B. C.—A delightful farewell dance was given in No. 3 Plant Hall by the staff of the West Kootenay Power and Light Company in honor of Mr. and Mrs. A. W. Servold, prior to their leaving to make their home in California.

Mr. Servold has been connected with the West Kootenay Power and Light Co. for the past 14 years and since the Corra Linn plant was completed was one of the operators.

A delicious supper was served under the charge of Mr. and Mrs. H. McDougall and the wives of the operators.

John Hawkins arranged the entertainment which included a song composed by J. P. Gilker and himself entitled "We Live on the Sunny Side" which was sung by a quartette of the operators.

A presentation of an electric razor was made to Mr. Servold and a ladies hand bag to Mrs. Servold, John Batley doing the honors on behalf of the staff.

Mr. Servold responded on behalf of his wife and himself.

The guests included Mr. and Mrs. W. W. Bennett, Mr. and Mrs. W. J. Lindale, Mr. and Mrs. C. H. Bland, Mr. and Mrs. W. P. Rogers, Mr. and Mrs. J. Batley, Mr. and Mrs. W. A. MacCabe, Mr. and Mrs. H. H. SALMO, B. C.—Word has been received of the death of Wendell Grutchfield, son of Mr. and Mrs. Stanley Grutchfield of Colville, Wash., and formerly of Salmo. He was born at Ymir, July 4, 1923. He died March 7 at Edgcliffe Sanitarium where he had been a patient for the past four months.

He is survived by his parents, two sister, Mrs. Stanley Bebbington of Salmo and Mrs. John Eddy of Vancouver, and a brother, Victor of Colville. He was the grandson of Mrs. Grutchfield and the late Mr. Grutchfield of Salmo, and of Mr. Shrum and the late Mrs. Shrum of Ymir. He was also a nephew of Mr. and Mrs. Carl W. Lindow of Salmo.

Interment was in Highland Cemetery at Colville.

Revelstoke Asks Data on Nelson Airmen Scheme

Enquiries concerning the organization of Nelson's scheme to entertain Old Country airmen while on leave have been received by the Citizens' Committee from the Revelstoke Board of Trade. Mrs. G. G. Lambert, Secretary, is preparing information on the plan to be sent to Revelstoke.

A letter from Revelstoke, received first by W. G. C. Lanskall of the Nelson Board of Trade and turned over to Mrs. Lambert, intimated that a similar scheme might be initiated there. Mrs. Lambert had previously received a request from a Moose Jaw air training school, asking if Nelson could receive men on leave from that school, and this will also be turned over to Revelstoke.

Interpreting The War News

By KIRKE L. SIMPSON Associated Press War Analyst

At least one deadly tentacle of the Japanese invasion octopus reaching out toward Australia has been lopped off in New Guinea waters.

That does not mean that the enemy attempt to seize the New Guinea bridgehead for a drive at Australia itself has been halted. It does mean, however, that invaluable time has been gained for Gen. Douglas MacArthur and the Allied Forces.

And given time and American equipment, their ability not only to hold Australia secure but to use it as the springboard for an ultimate wide-ranging air, sea and land counter-attack to smash Tokyo's dream of conquest is unquestionable.

Navy announcement in Washington that Australian-American war forces had smashed a powerful Japanese invasion flotilla on the East coast of New Guinea to sink or damage 20 enemy craft including 12 warships is significant. That is the most damaging blow Japan has suffered in the war, not exception the naval action in Macassar Strait.

The havoc wrought by American-

Netherlands sea and air forces to transport and cargo craft was greater in the Macassar action; but that to enemy warcraft in the New Guinea attack makes it outrank Macassar in military importance. The warships and transports which were seriously damaged, as well as those sunk, can be written off the war ledger indefinitely. They were struck 3000 miles farther from home or from repair bases available to the Japanese than those at Macassar.

The Allied air fleet which dealt the blow presumably was not the most numerous and powerful with which the Japanese had yet to fight. It escaped with a single plane casualty. The implication is either that the attack completely surprised the enemy, or that the Allied bombers were fully fighter-protected.

In either case, the Australian-American war fellowship has achieved against Japan for the first time at least local air control. It not only spotted the enemy invasion fleet but carried the battle to it.

That is the penalty Japan is paying for too swift extension of her attack front beyond the shelter of her land-based air power. Without that "umbrella" the cover of which has been outrun in a desperate effort to balk American bolstering of Australian defenses, the invasion fleet in New Guinea waters was at the mercy of Allied fighter-protected bombers flying from the mainland.

Diversion of naval vessels from other sea fronts to convey new invasion armadas Southward must dangerously thin out protection of vital Japanese communication lines in the China Sea. American sea and air power unquestionably is being groomed to strike there in due course.

Mother Receives V.C. Award To Son

LONDON, March 18 (CP).—The mother of Lt.-Cmdr. Eugene Edmonde who was killed while leading six swordfish torpedo bombers against German warships in the Strait of Dover Feb. 12 has received from the King the Victoria Cross awarded her son.

She was wheeled into Buckingham Palace in a chair pushed by two sons. His Majesty, who had handed Edmonde the Distinguished Flying Cross a few days before he met his death, asked Mrs. Edmonde how many sons she had in the armed forces.

"Four now, your Majesty" was the quiet reply.

Mrs. Edmonde was brought from Ireland by plane. She returned the same day. News of the ceremony, withheld for security reasons was released today.
