NEW HOPES ARISE FOR INDIAN SOLUTION

U. S. WAR CHIEF AND F.D.R. AIDE FLY TO LONDON

Grand 1942 Strategy Discussed With Churchill
MASS INVASION SEEN BY PRESS

By WILLIAM J. HUMPHREYS
LONDON, April 8 (AP)—Gen. George C. Marshall, United States Army Chief of Staff, and Harry Hopkins, Chairman of Munitions Assignments and close aide of President Roosevelt, arrived in London today on a surprise mission by airplane and almost immediately conferred with Prime Minister Churchill.

Tonight Gen. Marshall told newspapermen that the purpose of the United States forces in Europe was to "expand." Hopkins said that President Roosevelt had entrusted him with some confidential matters on which to confer with Mr. Churchill.

British sources assumed their conferences in the main would deal with United Nations' grand strategy in the 1942 campaign, and some persons thought the trip might be of "critical importance."

The Marshall-Hopkins arrival followed closely upon reports in London papers that the British and United States forces eventually would strike together against Germany through France and that the bulk of the American Army was being trained for a mass invasion of the continent.

Some observers also suggested that naval strategy might hold a high place on the conference schedules. Admiral Harold R. Stark is due here soon to replace Vice-Admiral Robert Lee Gormley as chief of U.S. naval operations in European waters.

With the forces of the United Nations generally still on the defensive, an editorial in Lord Beaverbrook's Evening Standard attracted attention today.

HUNS FEAR RUSS

It said a "huge fear" of the "Eastern graveyard" prevailed "over every corner of Germany" in every corner of the continent, and demanded:

"When ever again shall such a fear possess the soul of the German soldier? How will the gods reward us if we fail to exploit the mighty labor of our ally (Russia) in these nine months of ceaseless fighting?"

Los Angeles Has 2-Hour Blackout

LOS ANGELES, April 8 (AP)—An all-clear signal at 10:34 p.m., tonight ended a blackout that had covered Los Angeles and Orange counties since 8:03 p.m.

Aviation plants in this area were blacked out, but crews continued work inside.

Radios were off the air at San Diego but the blackout had not been extended there. A Coast League baseball game was in progress.

CLAIM MINELAYER SUNK

TOKYO. (From Japanese broadcast, April 8 (AP)).—Domei claimed today that Japanese naval aircraft sank a 2000-ton minelayer in the harbor of Akyah, Burma, in an attack Monday.

This claim lacks confirmation.

Biggest Naval Battle in History "About to Blaze Up in Bengal Bay"

LONDON, April 8 (Thursday)—(CP).—Naval reporters here today said the "biggest naval battle in all history" seems about to blaze up in the Bay of Bengal between the Japanese and British fleets.

"The battle may already have begun," the Daily Sketch's correspondent said, and recalled that Sir Andrew Caldecott, Governor of strategic Ceylon off the Southern Indian coast, had told the people there Wednesday that "good news might be expected as an aftermath to the Easter Sunday raid" by the Japanese.

Dispatches appearing here agreed

BRITISH FIGHTER PLANES SWEEP COASTS

LONDON, April 8 (CP).—Squadrons of British fighter planes spread their wings in a wide sweep of the Calais and Boulogne areas of the German-occupied French coast today. Few German fighters were seen. One British plane which left its main formation was missing after the flight.

BRITISH TAKE UP BETTER POSITION ON BURMA FRONT

Continuous Front Is Formed for First Time in Drive

BURMESE STILL CAUSE TROUBLE

LONDON, April 8 (CP)—British forces in Burma occupied tactically improved positions North of Thayetmyo today after the latest withdrawal to a point in the narrowing Irrawaddy valley which offered prospects of a continuous front for the first time since the Japanese started their up-river drive.

This was the somewhat brighter picture after weeks of bitter fighting and withdrawals, and it was hoped the defenders would be able to check the invaders' rush toward the main Burmese oil fields around Mibou.

Before giving up Thayetmyo, British engineers demolished all installations in that area.

Establishment of a continuous front above Thayetmyo may prevent the Japanese from successful movements on the flanks to set up road blocks against British communications.

Many Burmese fifth columnists are reported to have been rounded up, but others are still causing trouble, burning and looting Chinese property and ambushing small, isolated Chinese units.

Among the prisoners recently taken by the Chinese was one German officer, according to a report from Chinese headquarters at the front.

Conservatives to Plan Help Win War Program Saturday

VANCOUVER, April 8 (CP).—Officials of the British Columbia Conservative Association and Committee members from all parts of the Province will discuss a "help win the war" program, at meetings here on Saturday. Hon. R. L. Maitland, K.C., provincial leader and other Conservative ministers in the British Columbia coalition government, will attend as will several members of parliament.

Conservative support for a "yes" vote in the manpower plebiscite April 27 will be discussed.

Three Killed in Brussels Fights

LONDON, April 8 (CP).—The British Broadcasting Corporation said today three British soldiers were killed and several others wounded in a number of skirmishes in Brussels. A large "V" was drawn on the back of one of the men, the BBC said.

That powerful units of the Japanese fleet are operating in the area, and said that the British units are tracking them down.

Informed sources declined to comment on a Rome radio assertion that a strong British naval formation rounded the Cape of Good Hope March 27 en route to the Indian Ocean.

The Daily Herald noted that strong Japanese units had moved into conquered Rangoon's harbor. Others were said to be at Port Blair in the Andaman Islands where United States Flying Fortresses bombed a cruiser last week.

JAPS TAKE ISLE FOR PROTECTION OF SOUTH BASES

In Air War, Aussies Report 157 Japs Shot Down

ALLIES HAMMER JAPS EVERY DAY

MELBOURNE, April 8 (Thursday) (AAP).—Japanese planes attempting to raid Port Moresby, in Southern New Guinea, yesterday were driven off by Allied fighters and several invading craft were damaged, it was announced today.

One Allied plane was shot another is missing but the pilot is safe.

By TOM YARBOROUGH Associated Press Staff Writer

SYDNEY, Australia, April 8 (AP).—The Japanese have landed on Manus Island in the Admiralty group, it was reported today, in an apparent design to protect their far-extended forces on New Guinea and New Britain to the South and Southeast, respectively.

Anticipating this move by a small occupation group, Australia had destroyed the airfield and everything else which might be of use to the Japanese at the landing port, Lorengau.

The point is 650 miles North of occupied Lae on the New Guinea coast and about an equal distance Northwest of Rabaul, New Britain. Lorengau's seizure strengthened the belief here that Rabaul was growing in importance to the Japanese hold in the entire Southwest Pacific area and that the invaders found they vitally needed further outposts for sea and air reconnaissance to protect Rabaul's supply lines.

An Australian war correspondent reported from Port Moresby that "excluding Allied air operations North of Australia yesterday and today we have destroyed or seriously damaged at least 157 Japanese aircraft in the past month in a brilliantly executed air offensive over a front extending from Timor to Rabaul."

"We are rapidly approaching the time," he said, "when the Japanese will have to decide whether they will be hurled out of the islands which they have occupied, or are willing to bleed their vital fronts of air power in a desperate effort to safeguard their meagre gains North of Australia."

Continuing to make the Japanese footholds as insecure as possible, Allied air forces reported that yesterday they hit five or six grounded enemy planes at Lae and shot another out of the air. At Keapang, in Japanese-occupied Netherlands Timor, the Royal Australian Air Force beat off three attempts at interception by Japanese fighters before dropping bombs on the target.

The Australian correspondent who told of recent Allied air successes against the Japanese described these successes as a result of "one of the most powerful and sustained air blitzes since the Pacific war began." It started with the Japanese landing at Lae and Salamaua, New Guinea, exactly a month ago today.

"Bad weather conditions have been the only factor that has stopped the Allies from hammering them every day," he continued.

"An examination of the air activity over Darwin, Timor, the Torres Strait, New Guinea and New Britain since the Lae landing March 8 shows that we have shot down on the ground 99 Japanese planes and damaged at least 58."

"It is only a few weeks since Japanese reconnaissance planes could come over Port Moresby and complete their jobs almost unchallenged."

Teachers Discuss Basic Wage Increase

VANCOUVER, April 8 (CP).—Delegates to the annual British Columbia Parent-Teacher Federation convention today discussed a resolution calling for a material increase in basic salaries of school teachers, then sent it back to the resolutions committee for clarification.

J. M. Thomas of Cobble Hill, himself a teacher, a parent and delegate to the P.T.A., said teachers were prepared to start on a small salary but not spend the rest of their life on it.

TROOPS DRILL IN BOMB-BATTERED STREETS
Suburban streets in Britain damaged by enemy bombing provide useful exercise grounds for army street fighting and street clearing demonstrations. A soldier with anti-tank rifle (nearest camera) is covering a street from a bombed house.

WAR MUNITIONS ALLOCATION HAS TO BE CHANGED

Not Blaming Canada Because Little Goes Australia

POOLING TROUBLE

OTTAWA, April 8 (CP)—Dr. Herbert V. Evans, Australian Minister of External Affairs, declared here today that Australia is not blaming Canada because "little or nothing" of Canada's war production has been applied to Australia's direct use.

"The plain fact is that Canada has fulfilled very heavy commitments to the United Kingdom and other countries," he said at a Press conference.

Here at the invitation of Prime Minister Mackenzie King for a two-day visit Dr. Evans came fresh from the organization meetings of the Pacific Council in Washington, a body which he said he believed would go a long way toward planning the most effective use against the enemy of the combined resources of the United Nations.

It was not a case of Canada or any other of the United Nations deciding where it would send its men or supplies, Dr. Evans told correspondents at the Press conference, held late today in the office of Sir William Glasgow, Australian High Commissioner to Canada.

"The problem is one of pooling and allocating on an impartial and objective basis. As a consequence no theatre of war can be considered piecemeal, but only in relation to the resources of the United Nations and to other theatres of war."

"So far this problem has not been solved. I believe that we shall completely overhaul the present methods of pooling and allocation as between the Governments so that the strategic authority will itself direct the principle of apportioning of munitions, supplies and shipping by reference solely to the supreme war requirement—defeating the enemy in every crucial theatre of operation."

IMPORTANT STEP

"While the problem has not yet been solved an important step forward has been taken in the establishment of the Pacific War Council in Washington and by Canada's active participation in its important deliberations."

Dr. Evans said Australia needed men and more than men, needed munitions, and he was confident machinery would be set up to provide a stream of supplies.

"As Mr. Churchill has said give us the materials and we will finish the job of knocking the Japanese out," he said.

Dr. Evans, who is a guest at Rideau Hall, home of the Governor General of Canada, spent the afternoon with Prime Minister Mackenzie King at a meeting of the Cabinet War Committee.

"I want to make it plain that Australia has much admiration for this Dominion's vigorous war effort," he said.

"Canada has already taken part

Athenians Remember Nazi Attack With Demonstrations

LONDON, April 8 (CP).—Athenians showed the Axis that they remember April 6, the date the Germans attacked Greece a year ago, with demonstrations in which a number of Italians were killed, according to reports reaching London tonight.

Despite heavy patrols of Italian carabinieri and German military police, walls of the Greek capital were plastered with old war posters and inscriptions hailing the R.A.F.

In the Pacific War, the part taken by the soldiers of Canada in the defence of Hong Kong will never be forgotten in Australia.

27 "Terrorists" Tried by Nazis

VICHY, April 8 (AP).—The German sponsored Paris newspaper Le Matin said today 27 persons were brought to trial there yesterday on charges of terrorist attacks against German occupation forces and "French political groups." The trials are expected to last a week.

Even as the case got under way, a new terrorist attack was reported in Tours where a bomb was hurled into a local headquarters of the National Popular Assembly Organization of Marcel Deast, proponent of collaboration with the Germans. The bomber escaped on a bicycle.

The interior of the building was wrecked, but no casualties resulted.

Creston-Erickson Declared Protection Spraying District

VICTORIA, April 8 (CP).—Creston-Erickson was declared a protection spraying zone, under the Plant Protection Act, by Provincial Order-in-Council today, requiring land owners to spray their fruit trees in the area, against pests.

6 Die, 45 Hurt in India Raids

NEW DELHI, India, April 8 (CP).—Five persons were killed and 40 injured at Visagapatnam and one was killed and five were injured at Cocanada during the Japanese air raids on India Monday, a communique said today.

Weather

Nelson enjoyed 104 hours sunshine Wednesday, while the high temperature for the 24 hours was 64 degrees, the fourth time in six days that this was the high mark, and the sixth straight day of it being in the 60's. The low point was 33 degrees.

Dropping during the night to a new low point for the season, 33 foot below the low water mark, the lake at Nelson was back at 70 foot at the noon hour, to make three successive days of 70 water level.

CAPTURED NAZI SAYS 139 TROOP PLANES DOWNED

Landing Fields Were Cemetery for Junkers

TWO TRANSPORTS SUNK BY FLEET

MOSCOW, April 8 (Thursday) (AP).—A dispatch from the Northwestern front today to the army newspaper Red Star quoted a captured German lieutenant as saying 139 German troop-carrying aircraft were destroyed in the three-day period of April 3-5—123 of them on the ground.

The German prisoner was identified as Oberleutnant Erich Frois. "Landing grounds in the neighborhood of Lake Ilmen became a cemetery for German Junkers 52s," he said, according to the Red Star correspondent. Frois was said to have witnessed several devastating raids carried out by the Soviet air force.

Other prisoners taken in the same area were quoted as saying the heavy aircraft had been transferred from France and North Africa in efforts to carry provisions to the encircled German 16th Army around Staryaya Russa.

The Soviet command announced late last night that 51 additional Nazi planes had been shot down in Tuesday's operations and that the Northern Red fleet had sunk two enemy transports in the Barents Sea, one of 3500 tons and the other of 10,500 tons.

Yesterday's Russian plane losses were put at 14. The new figure given for German aircraft destroyed brought their losses to 545 for a 10-day period.

Ration Books Not Needed for Buying Colored Gasoline

OTTAWA, April 8 (CP).—Housewives and others will not require ration books to buy the colored gasoline they will use to fuel heating, lighting, cooking, and washing appliances, it was announced today by the Department of Munitions and Supply.

A Departmental statement said Oil Controller G. R. Cottrell points out that the colored gasoline must not be employed in operation of any motor vehicle or any non-commercial marine engine. It is intended chiefly for use in farm tractors, stationary engines, and commercial marine engines.

Throughout Canada the gasoline for non-commercial marine engines will be the same unmarked gasoline as that sold for motor vehicles.

Norwegian Prince to Speak at Vancouver

VANCOUVER, April 8 (CP).—Crown Prince Olaf of Norway will address a board of trade luncheon here April 23 on the part Norway is playing in the war. On a lecture tour, the prince will be accompanied by Crown Princess Martha.

U.S. Envoy Holds Series of Meetings With All Leaders

Congress Party Working on New Formula on Defence; Seek Position Similar to Australian War Setup

By H. R. STIMSON Associated Press Staff Writer

NEW DELHI, April 9 (Thursday) (AP).—The prospect of an eventual settlement of the complicated Indian question remained bright today after President Roosevelt's special envoy, Louis Johnson, conferred at length last night with members of the All-India Congress Party.

Sir Stafford Cripps, Britain's envoy, and the Hindu leader of the Congress Party, Pandit Jawaharlal Nehru, both saw Johnson. Nehru saw the American twice, besides participating in a seven-hour party session, and then Johnson was closeted with Cripps.

M. K. Gandhi was understood to have been kept informed of developments.

Sir Stafford indefinitely postponed a press conference this morning, indicating the negotiations were not deadlocked.

The Congress Party was understood to be working on a new formula envisaging a position in India approximating that in Australia where Gen. Douglas MacArthur is Military Commander-in-Chief but where Australians still hold defence posts with clearly defined prerogatives and responsibilities.

Sir Stafford was reported to have handed a new defense formula to Mohammed Ali Jinnah, Moslem League President.

Chakravarti Rajagopalachari, former Premier of Madras, already had made a specific reference to the Australian analogy.

At any rate, authoritative quarters said it would be several days, if not a week, before the British negotiators finally learn the terms of both the Congress Party and the Moslem League.

The Congress Party is the most potent single group in the Indian political maze.

This group has opposed the British proposal to keep the defence of India in British hands, contending that despite the imminent danger of Japanese invasion Britain should turn the defence over to Indians as an evidence of good faith.

Today, however, Congress intimated that their committee discussions had been helped notably by information on the roles of the United States War Secretary and Army Command and that they now realized an Army must be under a Commander-in-Chief who

To Protect Rights of Individual in Selective Service Program

OTTAWA, April 8 (CP).—The Government's national service program will impose a measure of regimentation but will be applied in a democratic Canadian way with the rights of the individual protected as far as possible, Elliott M. Little, National Selective Service Director said tonight in an address over the national network of the Canadian Broadcasting Corporation.

Mr. Little summarized the manpower program in this sentence: "The whole purpose of selective service is to give each Canadian the job he or she can do best in this war."

Public employment offices will become increasingly important in the program, he said, asking both employers and workers to use these offices which would be increased and enlarged to aid in the selective service program.

"People are asking what they should do. While we are putting the program on its feet they should stick at their present work. A tremendous amount of time and energy is lost by people hopping about from one job to another, all too often just for the sake of change. The shift over to complete war production can only be made gradually."

"As additional workers are needed in war plants, we'll let you know. Total war meant a life and death struggle which must be fought in the factories producing weapons, in the fields growing food and on the battlefields wherever the enemy can be met."

Canada at present devoted 40 per cent of her national energy to production of the war on the production front, a big increase from the 10 per cent peak of the first Great War but still far below the 70 per cent in effect in Germany Mr. Little said.

"As a free people we don't like the idea of regimentation but we are beginning to wake up to the fact that we must accept a measure of regimentation in Canada temporarily if we are not to have slavery forced upon us permanently," he continued.

Clarifying the regulations on restricted industries and restricted occupations which apply to able-bodied men between the ages of 17 and 45, Mr. Little took bookkeeping as an example.

Bookkeeping was a restricted job whether it was in a munition plant or a confectionary shop.

"This does not mean that if you are a male bookkeeper between the ages of 17 and 45 and physically fit, you must quit your work. It means that you can't take such a job if one is open unless you have a permit."

Kimberley and Cranbrook Rotarians Join in Tribute, Farewell to Jones

CRANBROOK, B.C., April 8.—Members of Cranbrook and Kimberley Rotary Clubs and their wives gathered in the Masonic Hall here tonight to honor departing Rotarian E. S. Jones and his wife, who leave Thursday for their new home in New Westminster. It was also the twentieth anniversary of the Cranbrook Club.

H. A. McKowan, Cranbrook Club President, was Chairman.

Grate was said by Ven. Archdeacon Barker of Kimberley. Rotarian Callum Thompson led community singing. Welcome to the ladies was given by Mrs. McKowan, who gave numerous credit to the Rotary Annex for the forming of Rotary, their sole purpose being to get rid of their husbands on wash day, thus eliminating blue Monday.

Dr. F. W. Green presented a eulogy of roses to Mrs. Jones.

Messages and greetings were read by Secretary Walter Mansfield.

Charter members attending were presented by Mr. McKowan as follows: Dr. F. W. Green, C. J. Little, F. B. Miles, J. F. Scott, J. P. Sullivan, W. H. Wilson, Alan Graham, A. E. Jones, and W. E. Worden. The officers-elect of the Cranbrook club, who take office July 1, also were introduced. They were President, W. Mansfield; Vice-President, Angus MacPherson; Secretary P. Coe; Treasurer, J. Windsor; and Sergeant

at Arms, Stanley McNeil.

Dr. Green declared Mr. and Mrs. Jones had done much for the community and asserted the horrors of war could be avoided if there were more people of the Jones type exemplifying truth, friendship and charity, the fundamentals of Rotary.

Mickey Thomas of the Kimberley Club introduced musical numbers by the Kimberley Rotary Club quartette and songs by Miss M. Scott and Rotarian Callum Thompson.

H. B. McLeod, President of the Kimberley Board of Trade spoke briefly. Presentations were made by H.B. Banks on behalf of the Kimberley Club and C. J. Little on behalf of the Cranbrook Club.

Mr. Jones asserted there were no words in Webster's Dictionary to express the appreciation he and his wife felt for the kindness shown his family. He thanked the Kimberley Club for its kindness and said he had ordered "a house with 16 bedrooms" so their friends could visit them in New Westminster.

The Kuskanoos Chapter, I.O.D.E., catered.

Mrs. Callum Thompson was accompanied for the evening.

Following the dinner a dance was held in the hall to which all children of Rotarians were invited as were visiting men of the Active Service forces.

Reserves Verdict Le Driot Charges

OTTAWA, April 8 (CP)—Magistrate Glenn Strick today reserved judgment until April 18 in four charges under the Defence of Canada Regulations against the Ottawa French-language newspaper Le Driot.

The charges were laid by Justice Minister St. Laurent following publication by Le Driot of a news item dealing with British air raids on Renault Industries in the Paris suburbs and an article in the column "Day by Day" in which raids on Occupied France were discussed.

Your Key to Hearing Happiness

This is the title of a new illustrated booklet by the technicians of the BELL TELEPHONE LABORATORIES. It describes the new WESTERN ELECTRIC vacuum tube hearing aid. This is the world's fastest selling instrument and has restored hearing to thousands of men and women, young and old, taking them again into the glorious world of sound. Approved by the American Medical Association, Council on Physical Therapy, also Vancouver and Victoria Clubs for the Hard of Hearing. Mr. J. G. WALLACE, with 25 years experience with the deafened, will visit Vernon, Kelowna, Penticton, Trail, Nelson and Cranbrook to demonstrate this wonderful instrument. Meantime, fill in coupon below for preview literature.

Itching, Burning, Stinging Eczema or Salt Rheum

Eczema, or salt rheum as it is commonly called, is one of the most painful of all skin troubles. The intense burning, itching and smarting, especially at night, or when the affected part is exposed to heat, or the hands placed in hot water are most unbearable, and relief is gladly welcomed.

The relief offered by Burdock Blood Bitters is based on the knowledge that such ailments as eczema, and other skin troubles, are caused by an impure blood condition.

Bring about inner cleanliness by using B.B.B. to help cleanse the blood of its impurities.

Ask at any drug counter for B.B.B. Price \$1.00 a bottle.

BASE SMOTHERED

By The Canadian Press

A few weeks ago, Mrs. Holly Brousseau of Ottawa kissed her husband good-bye, bundled up her six-month-old daughter and caught a ship for her Canadian home where she thought she would find safety from the war for the baby.

The mother is now in Canada alone. The baby was buried at sea after it was smothered to death in its bunk one night when a coast belonging to one of Mrs. Brousseau's fellow passengers fell from its hook and covered the sleeping child.

Legion Members Urged to Work for "Yes" Vote

Already pledged to work for a "yes" vote in the manpower plebiscite to be taken this month, Nelson Branch of the Canadian Legion at its meeting Tuesday night heard appeals from both the Dominion and Provincial Commands for redoubled efforts. Members were urged not only to vote affirmatively themselves, but to influence everyone they could.

It was pointed out the Canadian Legion was blocked in its demand for an all-out Dominion-wide war effort under present conditions and that it could not press its demands until the government was released from its anti-conscription pledge.

The Legion's attitude, these appeals continued, was that the plebiscite was a matter of national concern not of political concern. There fore it regarded an affirmative vote as a first necessity.

The next Dominion convention of the Legion is scheduled for Winnipeg, May 28 to 30, and it is expected the Legion's plans to continue to urge a total war effort, based upon the result of the plebiscite, will be outlined then. James Spencer, former President of the Nelson branch, and now stationed in Winnipeg, will represent Nelson at the convention.

Dedication Services Week of April 19 Planned in Canada

TORONTO, April 8 (CP)—Plans to celebrate the week of April 19 with dedication services by all religious denominations throughout Canada were announced here tonight by Lieutenant-Governor Albert Matthews of Ontario, head of a committee comprising the nine Provincial premiers, heads of religious denominations and prominent educationalists and businessmen.

The announcement said the week would be called "the great crusade," and would be held in cooperation with similar observances in Great Britain, the United States, Australia, New Zealand and South Africa. Object of the movement was to "stimulate spiritual morale of English-speaking people of the world in their fight against base forces arrayed against Christian civilization."

Legion Will Forego Its Commemoration of Ypres This Year

There will be no celebration of Ypres Day this year by the Nelson branch of the Canadian Legion.

The Branch decided Tuesday night owing to the small number of veterans available to participate, and in deference to families suffering casualties in the war, to forego the annual commemoration of the Battle of Ypres—first battle of the First Great War in which the Canadian Expeditionary Force was engaged.

La Guardia Praises Canada War Effort

NEW YORK, April 8 (CP)—Mayor La Guardia, arriving by air today from Montreal where he presided over a meeting of the joint permanent defence board, praised the Canadian war effort in a Press interview at La Guardia airport.

He said many people outside Canada failed to realize that while the total population of Canada, is but little more than that of the metropolitan New York area, "their war production and effort is that of a country of 100,000,000 people."

Gambling Syndicate Did Big Business

NEW YORK, April 8 (AP).—Existence of a gambling syndicate in Brooklyn which did a \$100,000,000 business yearly by paying for police protection and operating "unabated and in open and flagrant violation of the penal laws" was charged today in presentments from two special Kings County Grand Jurors.

GREEK SHIP FOUNDERS

LONDON, April 8 (CP)—A Vichy news agency dispatch from Istanbul said today the Greek steamer Eudorani had foundered.

The agency said Eudorani went on the rocks in the vicinity of Kaali Island. Her port of origin was not given.

Lloyd's register and other shipping records fail to list a ship by that name.

Koolaree Camp Program Is Expanded; Young Married Folk Get Opportunity

West Kootenay Religious Education Council, under the leadership of R. Smille of Nelson, has set the dates for the 1942 camps at Koolaree. It is felt that this year there will be bigger demands for the camp due to the curtailment of travel, and increased working days due to the war, and that many parents will be glad of the opportunity to send their children to the camp.

Plans are also under consideration for a combined Young Adults and Young Peoples camp. Realizing that young married folk might appreciate the opportunity for a short inexpensive holiday amid ideal surroundings, and with congenial friends and leaders, the Council is studying plans for this camp with the utmost care.

The boys' camps will again be under the supervision of Fred Robins of Trail. Senior boys, (13 years and up), will go to camp on June 27, remaining until July 7. Junior Boys, 10, 11 and 12 years, go to camp July 7 to 17. Special provision will be made for the boys who will be going to the Cadet Camp at Vernon, so that they will not need to miss a year at Koolaree, which means so much to them in entering the camp fraternity. One of the features of the boys' camps will be the working out of a memorial to the boys who have entered the various services, and to the two who have already made the supreme sacrifice.

Girls' camps will be under the supervision of Miss Amelia Hanna

of Nelson, the directors to be named later. Intermediate girls, 12-14 years, will be in camp July 17 to 27th, followed by the senior girls, 15 and up, July 27 to Aug. 6. These camps are earlier than in previous years. Last year these camps contributed four alphas to the Red Cross and will again this year assume some responsibility for work contributory to the Red Cross.

YOUNG PEOPLE AND YOUNG ADULTS

The Young Peoples and Young Adults Camp has been moved to August 6 to 17. This is a popular camp for the old youth of the district, and this year the camp will welcome many young married couples to enjoy the happy days of fun and fellowship under capable leadership. Mrs. John Harrison is convener for the committee responsible for this camp.

As in past years the camp will be opened for the season by a work party comprised of members selected from the members of the 3K sisters and the Owls of Laska Fraternity. These are the honor organizations of the camp, into whose membership boys and girls are voted for years of attendance and meritorious conduct and service while at camp.

The business management of the camp will again be under the direction of Mrs. W. C. Kettlewell, Nelson, while the general supervision over all activities is in the hands of the executive, comprising R. Smille, J. B. McLennan, H. B. Gore, H. Radcliffe and S. C. Bushell of Nelson and Dr. J. S. Daly and Charles Daly and Dr. Edricott of Trail.

Rotter Is Fined on Two Charges of Over-Loading

SALMO, B. C., April 8.—Frank Rotter, well-known pole and lumber operator, was convicted before Stipendiary Magistrate Henry John Wednesday, on two charges of infringing the Highway Regulations, in consequence of two of his trucks on March 27 carrying more than 80 per cent pay loads on the Trail-Salmo Highway, on which Spring break-up restrictions were in effect.

The veteran woods operator pleaded not guilty, but Magistrate John convicted him on the evidence of Constable Payne of Salmo, as to the loads the trucks carried, and of W. R. Workman of Nelson, Assistant District Engineer, as to the restrictions in force, and as to them having been brought to Mr. Rotter's personal notice. It was understood that both Mr. Workman and Ernest Smith, District Engineer, individually notified Rotter of the restrictions.

Constable D. C. Georgeson, of the Highway Patrol, Trail, prosecuted, the charges being laid under section 33, part II, of the Highway Regulations.

Rotter was fined \$50 and costs on each of the two convictions. The restrictions on this highway are stated to be still in effect.

RUSSIANS DENY SWEDEN BOMBING

MOSCOW, April 8 (AP).—The Soviet Government has rejected a Swedish protest against the bombing of Haparanda last Thursday and informed the Swedish Government that Russian planes had nothing to do with any attack on the town near the Swedish-Finnish frontier, Tass reported today.

The Russian reply said the finding of Russian markings on bomb fragments and handbills were a sample of "the methods of provocation" tried repeatedly by the Germans.

Japs Claim 82,618 Prisoners on Java

TOKYO, (from Japanese broadcast), April 8 (AP)—Imperial headquarters said Japanese forces on Java had captured 82,618 prisoners. The report said 60,209 of the prisoners were Netherlands East Indies troops, 10,663 British, 4,890 Australian, and 683 American.

The Japanese said their cleanup on the island had netted them 177 planes, 1059 tanks and armored cars, and large quantities of artillery, small arms equipment.

Imperial headquarters claimed Japan's losses in the Java battle were 85 killed and 784 wounded.

NEGOTIATIONS P.C.E. REFUNDING CONTINUE

VICTORIA, April 8 (CP)—Pacific Great Eastern Railway refunding negotiations are continuing between British Columbia Treasury officials and two Toronto financiers, C. G. Fullerton of Ames & Company and A. G. A. Spence of Mills, Spence and Company.

Tuesday afternoon Mr. Fullerton and Mr. Spence conferred with Premier Hart, who is also Minister of Finance. They discussed financial details of the refunding with H. N. Wright, Deputy Finance Minister and J. V. Fisher, Assistant Deputy.

CHARGES VOTE FAKED

VICHY, April 8 (AP)—Baron de Bournat, deposed Governor of the French Islands of St. Pierre-Miquelon, charged today the December plebiscite conducted by the occupying force of Vice-Admiral Emile Muselier was "faked" and that less than a third of the inhabitants voted for the Free French.

De Bournat arrived in Vichy yesterday.

State Responsible for Schools Perry Tells Teachers

VANCOUVER, April 8 (CP)—Hon. H.G. Perry, Minister of Education, in an address to the opening session of the British Columbia Parents-Teachers' Federation here today said he had long advocated "that the provision for education of our children is a responsibility of the state, and not as a responsibility of the local community, which may have been all right in our pioneering days but now creates unfairness to the children of our rural areas."

Commenting on the health of children, the Minister said he would like to see pure milk as freely available in public schools as pure water.

He said he was strongly interested in establishment of a home economics course at the University of British Columbia but he said the Government did not control the university, although he had received every cooperation from university officials.

Action for Damages Against Savoy Hotel Court Dismissed by Court

VANCOUVER, April 8 (CP).—Mr. Justice Ellis in Supreme Court today dismissed an action of Mike Balan and his wife, Nettie, formerly of Nelson, to recover \$54.50 damages from Nelson Hotel Co., Ltd., for injuries alleged to have been sustained by Mrs. Balan on August 26, 1940, through a fall on a stairway of Savoy Hotel, Nelson. Gordon Rae was counsel for defendant. Plaintiffs did not appear for the trial.

To Further Cut Gasoline Supply

WASHINGTON, April 8 (AP).—A further sharp cut in the amount of gasoline available for motorists in the East and Pacific Northwest United States was forecast today, pending development of a card rationing system.

Oil industry sources said it was probable the supply for filling stations would have to be cut to 33 1-3 per cent below normal, and that the new cut would be effective within a week.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Forgotten "2d" For The Kind Of Relief That Helps Make You Rarin' To Go

More than half of your digestion is done below the belt—in your 13 feet of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.

What you may need is Carter's Little Liver Pills to give needed help to that "forgotten 13 feet" of bowels.

Take one Carter's Little Liver Pill before and one after meals. Take them according to directions. They help wake up a larger flow of the 8 main digestive juices in your stomach AND bowels—help you digest what you have eaten in Nature's own way.

Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—25¢.

Non-Essential Building Halted by U. S. Board

WASHINGTON, April 8 (AP).—The United States War Production Board tonight prohibited new construction of non essential residences, roads and commercial buildings, and indicated that projects already under way might be halted if the materials going into them could be used more effectively in the war program.

The order is effective tomorrow. Specifically it bans any residential construction other than maintenance and repair work if the cost is \$5000 or more, unless specific government permission is granted. Special permission must be obtained for new agricultural construction if the cost is more than \$1000.

No other types of construction, commercial, industrial, recreational, institutional highway or utilities whether publicly or privately financed may be started without permission if the cost of the project is more than \$5000.

The drastic action, which Board Chairman Donald Nelson had declared would virtually "suspend the civilian construction industry," does not apply to ordinary maintenance and repair work needed to restore a structure to "sound working condition."

JAPANESE FORCE ENTERS LORENGAU

SYDNEY, Australia, April 8 (CP).—The Japanese have landed a small occupation force at Lorengau, on Manus Island, one of the largest of the Admiralty group above New Guinea, dispatches from New Guinea reported today.

Lorengau is about 300 miles North of Lae, New Guinea port occupied by the enemy.

At Lorengau, the airdrome and everything else which might have been useful to the invader was reported destroyed before its capture.

Active Service Vote Results to Be Late

OTTAWA, April 8 (CP).—Julius Castonguay, chief plebiscite officer, said today he proposes to announce the results of the active service vote in the manpower plebiscite when returns from all special returning officers have been received, which might be some days after April 27, when ordinary voters cast their ballots.

In view of the large number of service voters in the United Kingdom it was possible several days would be required to complete the count there.

No Lack of Army Reinforcements

OTTAWA, April 8 (CP).—Suggestions the Canadian Corps Overseas or the Canadian Army now being formed lack reinforcements are without foundation, Defence Minister Ralston said at his press conference today.

He made the statement when questioned about recent criticism directed against the proposal to form an army Overseas by Hon. W. D. Herridge, former Canadian Minister at Washington who contended there were insufficient reinforcements.

Coast Steel Men to Vote on Shift Plan

VANCOUVER, April 8 (CP).—Membership of steel shipyard workers' unions on the Pacific coast will vote between now and next Sunday on the five day shift plan submitted to Federal Labor Minister Humphrey Mitchell, union officials said today.

Under the plan shipyard employees in all shipyards would work five shifts and lay off one, with no overtime. It is an alternative to the plan for a 24-hour day, seven day week worked out during Mr. Mitchell's recent trip to the coast.

Canadian Legation in Washington May Gain Embassy Status

OTTAWA, April 8 (CP).—Reports were heard in Ottawa today that the Canadian legation in Washington might soon be raised to the status of an Embassy, under an Ambassador who would be a member of the Cabinet.

It would be regarded as a promotion for any member of the Cabinet, with the exception of Prime Minister Mackenzie King, to be moved to Washington as an ambassador and this has given rise to speculation that Defence Minister Ralston would be deserving of such a promotion. However, this raises the point whether he could be spared from his present post.

Guerillas Organize On Pacific Coast; Train Commandos

OTTAWA, April 8 (CP)—Defence Minister Ralston announced at a press conference today that small guerrilla formations, which may eventually total 250 units, are being organized on the Pacific Coast.

While there had been indefinite statements in the past that such guerrilla tactics would be utilized in the defence set-up of the Dominion, Col. Ralston's announcement this morning was the first definite indication of the scope of these plans.

The men in the guerrilla groups will probably be called "Military Rangers." They will not wear uniforms but may be issued arms, but they will largely use their own firearms. They will not draw pay.

Maj. T. A. H. Taylor working directly under Maj.-Gen. R. O. Alexander, Commander-in-Chief on the West Coast, has been assigned the duty of organizing the units and is assisted by three other officers.

A report from Maj. Taylor said 40 units now are organized and perhaps 150 in all may be created. "They are not militia units," said the Minister. "The theory is that we reorganize them and help to train them. It ties in the initiative patriotism of people in out-of-the-way places."

NONE ON ATLANTIC

The Minister said a similar development on the Atlantic Coast is not contemplated because there are established Reserve Army units in all districts there. Men who want to serve can join these Army units. If any points are not served by Reserve units now, additional platoons and Sections can be organized and placed wherever it is desired.

Giving further detail about the West Coast development the Minister said Maj. Taylor is selecting

six field supervisors to assist in organizing the units. These men are being chosen with regard to their military experience and their knowledge of the bush.

The Minister said it is not proposed to provide instruction for the units. It was assumed the men knew all they needed to know about the kind of fighting they might be called upon to engage in as "local reception committees" for the Japanese.

They would receive any assistance needed to help them with organization and discipline from Army personnel and from the field supervisors.

OTTAWA, April 8 (CP)—A battle training school to give training in guerrilla and commando warfare is being organized by the National Defence Department and will be established somewhere "in the West," Defence Minister Ralston announced today.

The school will train officers and instructors who will go back to their own units with experience in commando and guerrilla tactics, the Minister told a press conference.

"Its purpose will be the toughening of men to perform whatever task may be required of them," Col. Ralston said.

Lt.-Col. Fred Scott, Calgary Highlanders officer who was in charge of the divisional battle training school in the United Kingdom, now is in charge of the senior officer school at Kingston, Ont., and his advice will be available in the establishment of the Western training school.

PARATROOP TRAINING

They will receive preliminary training for paratroop work as well. Col. Ralston said such paratroop training takes the form of hardening men for difficult duty.

He could not say whether Col. Scott would actually be in command of the Western training establishment and would not give the location likely to be chosen.

Col. Scott is a veteran of service with the cavalry and Royal Air Force in the First Great War. A Calgary lawyer in civil life, he was active in the militia during the years of peace and was called to active service soon after the outbreak of the present conflict.

It was expected the Canadian commando training would be on the same general lines of that in the United Kingdom, with the men gaining experience in finding their way through difficult country and making the best of short rations.

It was considered possible that National Defence authorities would decide that the mountain country of Alberta or British Columbia would provide good territory for training troops in commando and guerrilla tactics.

VICTORIA, April 8 (CP)—As soon as surfacing of the Malabar's new stretch is completed, about the end of the month, the highway will be opened to traffic, Public Works Minister Bruhn said today.

BUSES TO BE PAINTED

KHAKI, GREY COLORS
VICTORIA, April 8 (CP)—All new passenger buses in Canada in future will be khaki color, with grey roofs, Harold Hubbard, Vancouver Island Regional Transit Controller, has been advised by the Federal Transit Controller in Ottawa. When buses now in use need new paint they will be done in dark khaki and grey.

The names of the owner companies will be allowed to be displayed on the buses as briefly and inconspicuously as possible.

Billion a Month Production From Industry Expected

By DAVID J. WILKIE

DETROIT, April 8 (AP)—Armament production at the rate of better than \$1,000,000,000 a month will be the achievement of the United States' former automobile industry well before the year-end.

This became evident to a group of more than a score of newspaper and trade publication writers today as they began a two-day tour of the erstwhile automobile industry plants.

The correspondents included representatives of Reuters News Agency of London and of the London Times.

The writers, many of whom saw the industry close down its automobile assembly lines eight weeks ago, today saw aircraft assemblies, tanks, aviation engines, anti-aircraft cannon and other machines of war rolling out on a mass-production basis. The exact number of these weapons currently being produced cannot be disclosed for military reasons, but this month's volume in dollar value will come close to double that of last month.

Today's tour took the writers through factories of the Briggs Manufacturing Company, units of the Chrysler Corporation, the Hudson navy ordnance plant, the Chrysler tank arsenal, the Ford Pratt and Whitney engine plant and the giant Ford bomber plant soon to produce its first completed four-engine bomber.

Defence Regulation Case Against Coast Paper Is Adjourned

VANCOUVER, April 8 (CP)—Police Magistrate H. S. Wood today adjourned to April 15 the case of the Sun Publishing Company, Limited, which faces six charges under the Defence of Canada Regulations in connection with a series of three articles published in the Vancouver Sun March 13, 14 and 16 dealing with Pacific Coast defences.

The adjournment was granted at the request of crown counsel.

Four of the charges against the company are laid under Section 16 of the Defence of Canada Regulations dealing with "safeguarding information useful to the enemy" and the other two are under Section 39A, dealing with "printing, publishing, etc., material causing disaffection."

DEATHS

VICTORIA, April 8 (CP)—John A. Grant, 38, for 44 years credit manager of David Spencer, Limited, until his retirement two years ago. Born in Wallace, N. S., came to Victoria in 1882. His widow survives.

PALMDALE, Calif. (AP)—Carlyle Ellis, 43, veteran newspaperman, magazine editor, novelist and film producer.

A native of Toronto, Ellis was naturalized in 1917. He was a newspaper reporter in British Columbia before joining the staff of the New York World in 1901. Later he became the World's drama editor.

Survivors include his mother, Mrs. A. A. Ellis of Vancouver, B. C., and Mrs. Elizabeth Ellis of New Orleans, his former wife.

Russians Smash Strong Nazi Line

MOSCOW, April 8 (AP)—The Germans attacked Soviet positions in the Crimea with 100 tanks today but were trapped by furious Russian artillery fire and eventually turned back, the Moscow radio announced.

After several hours of vain attempts to break through the barrage, the German tanks still in operation retreated, leaving 22 machines and hundreds of dead on the battlefield, the radio said.

It was not announced whether the action was in the Svatlov (Western) or Kerch (Eastern) areas of the Crimea, where the Russians maintain their footholds.

NAZIS LOSE 162

The Soviet Information Bureau's mid-day communique repeated its familiar "no significant changes occurred at the front" but told of past operations in which 162 Germans were killed or wounded in various sectors of the long battlefield.

SMASHING DRIVE

LONDON, April 8 (CP)—Soviet

forces have smashed across the Upper Dnieper River in a furious final drive to pinch off the Vyazma-Gzatsk-Rubov bulge toward Moscow. Soviet dispatches relayed by Stockholm said today.

This crossing, between Dorogobuzh and Durovo, was a striking achievement, these dispatches said, since the Germans had established vast fortifications along the river.

The Red Army appeared intent upon utilizing the brief period remaining before the Spring thaw to crush Nazi armies in the Central front and to prepare to meet a later German offensive from the direction of Smolensk which is 30 miles West of the point where Dnieper was reported crossed.

The German corridor of escape from Vyazma to Smolensk has been narrowed to 30 miles with Soviet guns raking the main highway and rail routes, Stockholm informants said. In addition, the Russians were reported threatening Durovo, vital rail junction about midway between Smolensk and Vyazma, from its Southern and Southwestern suburbs.

Japs Drive Bataan Defenders Back

WASHINGTON, April 8 (AP)—A general withdrawal of the American-Filipino forces in Bataan to new defensive positions because of Japanese penetration of their line was announced today by the United States War Department.

The troops under Lt. Gen. Jonathan M. Wainwright withdrew last night "to a previously prepared defensive position," a communique said, in order to rectify the penetrated line.

UNDER CONSTANT ATTACK

Officials said there were no immediate indications of the extent of the withdrawal, but it apparently was accomplished in orderly fashion. The Japanese, with greatly superior forces numerically, have been hammering constantly at the line since Saturday, supported by tanks, heavy artillery fire, and aerial bombardment and strafing of the defending troops.

A break-through in the line has been expected by officials here since the major assault started five days ago, and apparently Gen. Wainwright had prepared a new line before the concentrated assaults of the enemy could convert the break into a disastrous rout.

The communique also confirmed previous dispatches from India reporting that seven American Army heavy bombers carried out a successful raid April 8 on the harbor of Rangoon, Burma, damaging docks and port facilities and starting three large fires.

125,000 Axis Men In Libya Offensive

By DREW MIDDLETON

LONDON, April 8 (AP)—Axis forces numbering 125,000 desert-wise troops were reported in motion across the Libyan desert today against British lines in what may be the opening of a Spring drive to conquer Egypt and smash through East of Suez toward Russia's Southern flank.

The action came as the German Air Force lashed with rising fury at Malta and Alexandria with fire and explosive.

The tiny island fortress and Egypt's chief port and base of the British Mediterranean fleet—keys to Britain's dominance of the Mediterranean—each reported the worst raids of the war on Saturday as Axis bombers set the stage for the first great land campaign of 1942.

At present Marshal Erwin Rommel commands two German armored divisions, one Italian armored division and six infantry divisions in the desert.

AXIS GAINS

Thirty squadrons of all types of aircraft are believed by informed quarters here to provide air support for the Axis offensive.

While the Axis claimed initial gains in the Libyan theatre 100 miles Southwest of Tobruk, the British Command at Cairo said only that "our fighting patrols again were active in the Libyan desert yesterday."

But a military informant in London added cautiously: "There is some increased activity in Libya which we may hear more about."

The vanguard of the Axis Army in the desert is three columns paced by about 100 tanks, British informants said.

This is the first hint of large-scale action since the Germans recaptured Benghazi late in January and forced the British forces back more than 200 miles to a line subsequently stabilized along a front running from El Gazala, on the coast 40 miles West of Tobruk, to Bir Hachim, some 50 miles inland.

R.A.F. headquarters at Cairo announced that British bombers and fighters blasted Axis concentrations deep behind the front yesterday in Cirenaica. At Alexandria, R.A.F. defenders downed two Axis raiders last night.

If the desert action is the beginning of a grand Axis offensive it is expected here that Axis invasion troops assembled in Crete, Greece and the Dodecanese Islands may be used for flank attacks on Alexandria and Cairo by sea and air.

Both the German and Italian communiques said British advance forces had been pushed back in the new surge of desert fighting. Neither communique went into detail. The Germans identified the scene of the action only as "Southeast of El Mechili."

B. C. Teachers to Join Federal Body to Work for Bonus

VANCOUVER, April 8 (CP)—The British Columbia Teachers' Federation will join the Canadian Teachers' Federation in an attempt to obtain a coal-of-living bonus for all teachers in the Dominion "wherever the local or provincial endeavor has failed."

Delegates to the Federation's annual meeting here went on record as supporting its stand today following session last night and yesterday in which A. T. Alsbury, Vancouver, was elected to the Presidency. L. B. Stubbs, Kelowna, Past President of the Okanagan Valley Teachers' Association, was named to the Vice-Presidency.

In other resolutions the convention called on teachers to vote "yes" in the manpower plebiscite.

COFFEE PORT IS GUTTED BY FIRE

SAN SALVADOR, El Salvador, April 8 (AP)—The coffee port of Acajula, 2500 population, was almost destroyed yesterday in the greatest fire this country has experienced in a century. The post-office, military headquarters, telephone office, barracks and customs offices were among the buildings destroyed in the four-hour fire. Damage was estimated at about \$1,000,000, but no loss of life was reported.

RUBBER MOVES AGAIN

AS SHORT STRIKE ENDS
AKRON, O., April 8 (AP)—A "wildcat" strike in a 440-worker fabricating department of Goodyear Tire and Rubber Co. ended today, restoring the flow of rubberized material to several thousand Goodyear employees producing war products. The sit-down, involving pay rates, lasting about 12 hours. Conditions of the resumption were not announced.

Col. Sparling Is Commander of B. C. Reserve

OTTAWA, April 8 (CP)—Appointment of brigade commanders for Reserve Army brigade groups in eight of the 11 military districts in Canada was announced today by Defence Minister Ralston.

The new commanders are:

Military District No. 1 (London, Ont.)—Col. W. G. Haggarty, No. 31 Reserve Brigade group;

M.D. No. 2 (Toronto)—Col. J. W. G. H. Van den Berg, No. 32 Reserve Brigade group;

M.D. No. 4 (Montreal)—Lt.-Col. Paul Genier, No. 34 Reserve Brigade group;

M.D. No. 6 (Halifax)—Lt.-Col. W. D. Simpson, No. 36 Reserve Brigade group;

M.D. No. 7 (Saint John, N.B.)—Lt.-Col. P. E. McLaughlin, No. 37 Reserve Brigade group;

M.D. No. 10 (Winnipeg)—Lt.-Col. R. G. Graham, No. 38 Reserve Brigade group;

M.D. No. 11 (Victoria)—Col. A. W. Sparling, who has been Brigade Commander of the reserve group in this area for some time.

M.D. No. 12 (Regina)—Lt.-Col. M. J. Quinn, No. 40 Reserve Brigade group.

Three of the brigade commanders—Col. Haggarty, Col. Van den Berg and Col. Sparling—won the Distinguished Service Order during the First Great War.

How Your Body ... Dyspepsia Any Disturbance of Digestive Tract

By Logan Glendening, M.D.

Dyspepsia may be defined in a way as any disturbance of digestion.

Digestion starts in the mouth, depends on good teeth, then depends on the swallowing power of the pharynx and then is continued in the stomach and intestines with continued help of the pancreas and its juices. All of these processes may be attacked by infection especially emotional disturbances or intrusions of the mind.

The intestines are constantly filled with germs of all kinds, it is not surprising that a great deal of the trouble that reaches the liver by way of the portal vein should be due to the gall bladder and the gall stones. These liver stones are often found in the gall bladder and they arrive in the gall bladder as a result of an inflammation of the lining of this organ.

Thus we have the formation of gall stones. A germ lies on the wall of the gall bladder and the gall bladder secretes a mucous to surround the stone and this acts as a foreign body on which the salts of the gall bladder are deposited. If you see a stone of a gall stone cut across the middle it shows rings like the rings of a tree, which mark the successive deposits of layers of these bile salts.

After the stones have formed, they cause all kinds of trouble, making a person uncomfortable in the region of the stomach with gas, flatulence, nausea and actual gall stone colic. Thus we see various normal functions of the digestive tract may be turned away and these upsets lead to one form or another of the common symptom, dyspepsia.

Answer—Umbilical hernia occurs two periods of life, one in the early born in which the cause is due to non-closure of the navel.

Answer—Genuine influenza is very contagious in any form. Other types of pneumonia have not been found to be very contagious. For instance, other members of the household where a pneumonia patient is being nursed or hospital attendants do not often catch the disease, there is no question that the invasion of sputum particles and bacteria from the patient's breath is infectious to people. For this reason the pneumonia patient's bed should be protected by sheets and curtains should wear gauze masks.

Even though the ground was not turned up last fall for growing vegetables this Spring, good vegetables can still be grown if the ground is given proper treatment in the fall.

The vegetable garden, to be complete, should have a small patch of herbs. Many herbs are annuals and can easily be grown from seed.

Fruitvale Auxiliary Has Successful Sale

FRUITVALE, B.C.—The Women's Auxiliary of St. John's Church held a successful East home cooking sale Saturday afternoon in Miss B. V. Blomfield's store.

Miss Blomfield won the pair of embroidered pillow cases, donated by Mrs. J. Watson.

Mrs. F. M. Barrett, Mrs. J. Coomes and Miss Blomfield were in charge.

Herbs Make Fine Garden Edgings

By DEAN HALLIDAY

The small vegetable garden planted close to the house can be just as neat and attractive as a flower garden. Herbs add interest as well as usefulness and when planted along each side of the walk are very effective. Herbs suitable for edging are oregano, burnet, parsley, dwarf basil and dwarf lavender. Taller herbs can also be used to outline or border the vegetable beds but they should be kept clipped and bushy.

PARSLEY USED TO EDGE VEGETABLE BEDS.

As illustrated in the Garden Graph, parsley is decorative and valuable for garnishing and flavoring. The ruffled or extra triple curled are perhaps the most decorative, having tightly curled leaves.

Parsley is extremely slow in germinating and many gardeners prefer to buy it already started in flats. Set the plants six to eight inches apart.

Three Squares Count Calories to Lose Weight

By IDA JEAN KAIN

Science has found a method by which you can eat three meals a day and lose two pounds a week. This diet prevents both actual and hidden hunger and builds up your strength as you get rid of the useless fat.

Stored fat, whether an extra 10 pounds or 30, represents excess food. Food is fuel and is neither burned for energy or stored away as body fat. The amount of fuel contained in any food is expressed in terms of calories, or heat units.

Each 4320 calories above the number you need make one pound of solid flesh. If you are to lose weight, you must turn part of the stored fat back into energy and to do this you must take fewer calories than you use. That lets nature draw on the stored fat to supply the necessary fuel for energy. The result is you lose weight.

On a diet as low as 1000 calories a day, every food should have a purpose—to furnish protection and to give satiety to the diet. If you will follow the basic list given here in planning your three meals a day you will get everything you need. And if you do not add more than 100 to 200 calories to the daily list, you will lose your two pounds per week. Here is the list:

Orange juice or 1/4 grapefruit, or 8 oz. tomato juice, 55 calories. Eggs, boiled, poached or scrambled—75. Whole wheat bread, 100 per cent, or enriched bread, 3 slices, each 1/4 inch thick, 150. Butter, 3 pats, 150. Lean meat, fish, fowl, 50c., broiled, baked or boiled, and with every bit of fat trimmed off. Meat organs once a week. Cooked vegetables. One of these: green leafy or yellow, 100. Raw vegetable salad, mixed with Reducer's French Dressing, 25. A second fruit, 50. Skimmed milk, 2 glasses, or 1 glass and 1 oz. yellow cheese, 180.

Wartime Hints English Recipe for Sugarless Steamed Pudding

BREAKFAST

Apple Juice, Scrambled Eggs, toast, Conserve, Tea Coffee

LUNCH OR SUPPER

Baked Beans, Head Lettuce Salad, Stewed Fruit, Butterscotch Biscuits, Tea, coffee.

DINNER

Shoulder lamb chops. Mint jelly, mashed potatoes, green beans, sugarless pudding, tea, coffee.

Make an ordinary tea biscuit

dough and roll it out to a quarter inch thickness, spread with half the butterscotch mixture and roll up like a jelly roll. Cut in half inch slices. Place the rolls cut side down and bake in a hot oven for 15 minutes. Reduce the heat to 375 degrees F. and flash baking.

BUTTERSCOTCH MIXTURE

1/4 cup softened butter, 1-1/2 cup of brown sugar, 1-3/4 cup corn syrup. Cream the butter, add the sugar and corn syrup and blend well. It makes 18 biscuits.

SUGARLESS PUDDING

1/4 cup of stone raisins, 1 cup of suet, 1 cup flour, salt, 1 egg, 1/2 cup milk.

Cut the raisins in half, chop the suet finely, sift the flour and salt and stir in the egg well beaten, and then add the milk and raisins and suet and stir. Grease a mould and fill it not more than three quarters full with the mixture. Cover with greased paper and steam for three hours, then turn out and serve. Like most steamed puddings this needs a sauce. Try heating the extra juice, there usually is some from a bottle of preserves, or the red juice of damson plums. You can thicken it with corn starch if you prefer it that way.

Mothers ...

Train Children to Self-Reliance

The other day I got a letter from a girl, asking me to help to find her a job.

She said, as I knew perfectly well, having known her from the time she was five years of age, that she had had absolutely no training of any sort but that she'd take any job that would keep a roof over her head and feed her two children and herself.

Memory flashed back twenty years, when I got this girl's letter, and I remembered hearing her mother say, "Don't wash the dishes, darling; it'll spoil your hands—just leave them for mother."

Mother was one of those groveling, self-effacing parents who spent all of her time holding a joystick under the nose of an average girl whose dotting parents regarded her as a female deity. She had never had very much in life herself, this woman who made a complete fool of her daughter in the mistaken belief that if the girl was never taught to do anything useful, she'd never have to do anything useful. The mother believed someone would always be found to substitute and do the homely chores of life for her daughter.

But somehow or other, this cock-eyed philosophy didn't work out. The girl, not particularly pretty or attractive, grew up with an inflated ego. She imagined, from the spoiling she got at home, that she was some sort of privileged person and that the world would bend a knee before her.

And then nature took a hand in Marilyn's fate. She married a good-looking young man with really nothing to recommend him but more than average good looks. He was as selfish and as ill-adjusted to life as she was. He deserted her, leaving Marilyn with two children.

I wrote to Marilyn and advised her to take vocational training. She'd kept house after a fashion. If she could be taught to do something along domestic lines really well, she could perhaps get a job. She enlisted in a hotel training class with the idea of learning how to make good salads and desserts.

Meantime, the grandmother is taking charge of Marilyn's two little girls, but their mother is seeing to it that they are not being brought up as she was. They help to wash the dishes, even if it is hard on their hands.

Tall-growing plants, such as corn, pole beans and tomatoes, should be placed where they will not shade smaller growing crops.

Relieves distress from MONTHLY FEMALE WEAKNESS

Lydia E. Pinkham's Vegetable Compound not only helps relieve monthly pain but also weak, nervous feelings—due to monthly functional disturbances. It helps build up resistance against distress of "difficult days." Made in Canada.

Hints for Housewives

By BETSY NEWMAN

TODAY'S MENU

Beef Stew with Carrots, Onions, Turnips, Potatoes, Orange and Grapefruit Salad, Rice Ring with Honey Custard Sauce, Tea or Coffee

BEEF STEW

Two pounds beef stew meat, 4 cups boiling water, 1 small bay leaf, salt, pepper.

Many cuts of meat are suitable for stews, so choose between flank, neck shank, chuck, heel of round and brisket. You can brown the meat which has been cut in pieces suitable for serving or you can wipe the meat, put in a saucepan, pour in the water and simmer gently (never boil) until meat is tender. If you decide to brown it first, roll pieces in seasoned flour and brown in a little hot fat, or you can brown it as is. An hour before the meat is done, put in the bay leaf, and half an hour before serving drop in the vegetables, cut in pieces or not, as you choose.

You can make dumplings if you wish to stretch the stew, or you can put the whole thing into a casserole after it is cooked, and make a pie crust or baking powder biscuits to cover, and bake until crust is done. If you serve the stew plain one meal, make a meat pie next day of what's left.

ORANGE AND GRAPEFRUIT SALAD

One orange, 1 grapefruit, water-cress, salted nuts.

Wash a bunch of watercress, arrange on salad plates, put alternate sections of oranges and grapefruit on watercress, sprinkle chopped salted nuts on top and serve with French dressing.

Rice Ring with Honey Custard Sauce

Two thirds cup milk, 1 egg yolk, 1 1/2 tablespoons honey, few grains salt.

Scald milk and pour over egg yolk mixed with honey and salt. Return to double boiler, stir and cook until mixture thickens. Strain and chill. Make a ring of cooked rice and chill. Pour custard in centre of ring and serve.

SERIAL STORY By JERRY BRONDFIELD

No Refuge From Love

Enid fell back onto the bed and roared. "That kills me! And just what makes you think old Mrs. Vanderdrip Whitworth would favor me with an invitation?" She held up her wrist. "No matter how you slash it, the stuff in here still will run red. They're going to be standing at the door with a knife to tap all the veins that enter to see that they're just the right shade of blue."

"I see," Molla said and after a long silence. "But anyway, you'll help me shop for a gown, won't you?" Enid nodded. "That's one thing I can do without having to wear my pedigree on my back like a hunter's license."

They arranged with Miss Crump to get an afternoon off together. Molla counted the thumps on her fingers. "Gowns, shoes, wrap—umm, will I be broke, as you Americans say."

"We Americans, you mean. You're included now, you know. Anyway, it won't be so bad. I know a small shop where you can get the darlings gown for only \$13.95. Really, if you were to get it in one of those Fifty-seventh street swank salons it would cost you a hundred without batting an eye."

Enid, you're fooling."

Twenty minutes later Molla stood before a mirror, her slim figure enchanting in a black silk crepe gown with a gold lame jacket with long sleeves. A low, heart-shaped neckline drew an admiring and approving glance from both Enid and the salesgirl.

"Ummm," Enid said, "There's an adjective for you, but I don't have it at my command."

Molla smiled happily. "I'll take it," she said.

"Have it sent out," Enid said. "No use carrying it around."

"And now, just for the devil of it, I want to show you that very same gown on Fifty-seventh street. Come on, we're only 10 minutes away."

"Some place, eh?" Enid said in a low tone as they entered the shop. "There's more plush, white leather and debutantes per square inch than in any spot on the street. Here—over here."

A salesgirl approached them as they walked up to an exact duplicate of Molla's gown on a clay mannikin.

"May I help you?" The salesgirl eyed them smilingly, yet appraisingly.

"We were merely looking at this gown," Enid said. "May we have it modeled?"

"Of course. Just be seated. It will take only a few minutes."

They sank into a deep, modernistic love seat covered with pale blue leather. "Didn't I tell you?" Enid murmured. "That price tag reads \$125."

Molla was just about to reply, but a voice behind her stopped her.

"Why, my dear Molla, this is a pleasure. I never expected to find you here. Remember me, Sue Trelawney? We met at that night club."

Enemy Within Brands School Sororities as Anti-Democratic

By Garry Cleveland Myers, Ph.D.

YOU MUST have read in the papers about the suicide of Ruth Livingston, the 18-year-old high school girl of White Plains, N.Y. According to the news report, the girl had brooded over the fact that four members of her sorority had intimidated they would blackmail her younger sister from membership, her other sister having been blackballed from the same sorority a year earlier.

Whether the tragic death of Ruth Livingston can be charged to the accused sorority or not, thousands of parents all over America can testify that indescribable suffering has come to high school boys and girls who have failed to make one of these organizations.

Almost a year ago I visited that high school, enquired into its activities program and its ways of practicing democracy, coming away with assurance that I had witnessed democracy at its best.

Some school authorities forbid sororities and fraternities to operate in the school. Some state legislatures have outlawed them. In spite of such prohibitions, these high school secret societies go on flourishing outside the school. Most of them operate as local chapters of a national body which only Congress could forbid. But Congress is too busy finding ways and means of saving our democracy from its enemies without, to deal with enemies of democracy within. Anyway this is really a parent problem. A board of education, state legislature or the Congress of the United States, could no more forbid high school youths from joining such organizations than from joining the Presbyterian or Catholic Church. The Constitution would not permit such forbidding.

ONLY PARENTS CAN ACT

Suppose the charters of the national sororities and fraternities were revoked. Then how could they be kept from organizing locally? Only by parents.

SOLVING PARENT PROBLEMS

Q. My boy 9 does well in arithmetic and spelling and works hard

at them, but he is a poor reader and won't work much at it unless driven to do so. How may I get him to try harder at his reading?

A. Like that boy, you and I work with most zeal at those things we do well and with less zeal at what we do poorly. Your problem is to help him gain more at practicing on materials much easier than those for his grade. Let me send you, without cost, my "Home helps for poor readers." Just write me at 235 East 45th Street, New York City, enclosing a self-addressed envelope with a three-cent stamp.

Q. What do you think of the argument that if you restrain a child you hamper his self-expression and, therefore, his development of personality?

A. I think it is silly. Self-expression which interferes with the rights of others is a curse to the unrestrained child as well as to others he may meet.

Q. When is rote learning useful in study?

A. In learning to spell certain words often used in any subject, in learning the few necessary facts and symbols of this subject, and in mastering outstanding facts expressed in your own words after you have read a paragraph or chapter, as in history or science. In the last named case, it usually is wasteful to learn by heart such facts in the language of the book. Anyone

may have, without cost, a copy of my "Tips to Students," by writing me at 235 East 45th Street, New York City, enclosing a stamped, self-addressed envelope.

SLOCAN VALLEY W.I. PLANS WHIST, DANCE

PASSMORE, B. C.—Preceded by handicraft when a woollen comforter was made for Britain, the Slocan Valley Women's Institute met, Mrs. S. Reid presiding.

Arrangements were made for a whist drive and dance. Mrs. W. R. Perry and Miss Perry who will leave shortly to reside in Nelson were the recipients of a souvenir from each member.

PIPING HOT EDWARDS

The crowning glory!

It's loyal to you, this Edwards! Every cupful, every pound has the same magnificent quality and matched flavor. Luxury coffee, but not expensive! Your grocer buys it efficiently, saves you many a penny. Use Edwards regularly. We guarantee you won't be disappointed.

HAM LUNCHEON MOUSSE

2 pkg. lime-flavored gelatin 1/4 tsp. Worcestershire sauce
2 pkg. lemon-flavored gelatin 2 cups bottled ham in strips
1 cup prepared mustard 1/4 cup celery finely sliced
1 tsp. prepared horseradish 1 cup whipping cream
1 cup mayonnaise

Dissolve lime gelatin in 2 cups hot water; add 2 cups cold water. Pour into 3-quart ring mold; chill until set. Dissolve lemon gelatin in 2 cups hot water; add 2 cups cold water, mustard, horseradish, Worcestershire. Chill until syrupy. Beat with rotary beater to whipped cream consistency. Fold in ham, celery, mayonnaise and whipped cream. Pour mixture over lime gelatin; chill until firm. Unmold to serve. Top with stuffed eggs.

Spectacular is the word for this brilliant, hearty salad. Yet for 12 guests it is thrifty entertaining. That's also true of Edwards coffee. No finer blend packed, yet you save money using it!

Buy extra **WAR SAVINGS STAMPS** with what you save!

Edwards' no-waste distribution, direct from roaster to grocer, avoids unnecessary in-between expenses and the savings are passed on to you!

EDWARDS Coffee

SOLD BY **SAFEWAY STORES, LTD.**

Try serving fewer rich desserts and fewer richly frosted cakes these days. Canned fruits and dried fruits need little if any extra sweetening. Custards and milk pudding are other desserts that do not call for a lot of sugar.

Always Smart! NAILHEADS

Remember that nail-heads go smartly wherever you go this Spring—shopping, Red Cross, or parties.

Nakusp Miss Weds G. W. Elliot; Will Reside in Nelson

NAKUSP, B. C.—A pretty Easter wedding was solemnized in Nakusp April 6 at the home of Mr. and Mrs. F. Johnson when their elder daughter Beatrice Emily, became the bride of George Wesley, only son of Mr. and Mrs. A. E. Elliot of Nelson. Rev. F. W. Daglish officiated.

The bride, given in marriage by her father was charming in an afternoon frock of blue triple sheer which she wore with a hat of dusky rose, and a corsage bouquet of pale pink roses. Miss Freda Johnson, sister of the bride, was the only attendant. She wore a dusky rose frock with a flower cap of rose and blue and a corsage bouquet of pink carnations.

Joseph Miller supported the groom.

The reception rooms were pretty with early Spring flowers. The wedding cake centered the bride's table which was covered with a beautiful lace cloth. Rose colored tapers in silver sconces completed the appointments. To receive the guests, Mrs. Johnson, mother of the bride wore a gown of black sheer with a corsage bouquet of deep pink carnations. Assisting in serving were Mrs. O. Salstrom, Miss C. Salstrom, Mrs. J. Norris and Miss J. Cann.

14 Babies Examined at Institute Clinic

Dr. C. M. Robertson examined 14 babies at the Women's Institute Baby Clinic Wednesday, four of the babies being newcomers to the clinic.

The committee in charge was Mrs. J. C. Robinson, Mrs. F. E. Wheeler, Mrs. R. Ketter and Mrs. W. Postlethwaite.

ACCRA, Africa. (CP).—The legislative council of the Gold Coast unanimously voted an interest-free loan of £300,000 (about \$13,500,000) to Great Britain.

NELSON SOCIAL

By MRS. M. J. VIGNEUX

PARISOTTO-MISURACA

The Cathedral of Mary Immaculate was the scene of a charming wedding ceremony Tuesday morning at 10:30, when Rev. Father Frank united in marriage Esther Misuraca, third daughter of Mr. and Mrs. Anthony Misuraca, and Louis Parisotto of North Italy. For her bridesmaids the bride chose Miss Rita Fumigalli, c. Blaismore and Miss Gloria Angerilli of Trail, while the groom was supported by J. Valutini and Domonic Postella, both of Trail. The pretty bride looked lovely in her ivory bridal dress, floor-length, made on princess lines with flowing train and a long white sash draped over her shoulders. Her bouquet was a spray of Easter lilies. Miss Fumigalli chose a dainty shell pink floor-length georgette frock made in jacket style, a matching chapel veil caught by a gardenia and carried a spray of Spring flowers. Miss Angerilli wore a turquoise georgette featuring a sheer bodice and full skirt, and white chapel length veil. Her accessories were in white and she carried a spray of Spring blooms. Following the wedding breakfast at the home of the bride's parents, the bridal party departed for Trail where they enjoyed a luncheon in the Colombo Hall after which a reception and dance for about 150 guests took place. The bride and groom left for Nelson later, then left yesterday morning to spend their honeymoon in Calgary, and on their return plan to make their home in Roseland.

HERE FROM NEW DENVER
• Thomas Mills of New Denver is visiting Nelson for a few days.
• Louis Houde was in town from Sheep Creek yesterday. He was accompanied here by Mrs. Houde, who is a patient in Kootenay Lake General Hospital.

WOMEN'S CLOTHES MAY BE SHORTER, BUT NOT FULLER

WASHINGTON, April 8 (CP).—The United States War Production Board, turning stern stylists for American women, decreed today that, for the duration of the war, dresses can be shorter and shorter, or tighter and tighter—as fashion dictates—but neither long nor fuller than now worn.

Or, milady's wardrobe can remain about the same, in cut and design, as it is at present.

Such frills as French cuffs on sleeves, balloon sleeves and patch pockets of wool are eliminated entirely.

After Aug. 17, retailers may not sell suits and coat ensembles of more than two pieces at one unit price.

John McGinn Is Now Overseas

A cable was received Wednesday by Mr. and Mrs. D. McGinn, Rosemont that their son Gnr. John McGinn had arrived safely in England. Gnr. McGinn enlisted last October.

HOW TO PREVENT MANY COLDS

Nelson Daily News

Established April 22, 1902.

British Columbia's

Most Interesting Newspaper

Published every morning except Sunday by the NEWS PUBLISHING COMPANY, LTD. (INC.) 208 Baker St. Nelson, British Columbia. MEMBER OF THE CANADIAN PRESS AND THE AUDIT BUREAU OF CIRCULATIONS.

THURSDAY, APRIL 9, 1942.

Goods to Russia

When British and Russian naval forces shepherded a convoy of supplies through to Russia in safety, they proved a number of points.

Primarily, the engagement was proof that the British, Americans and Canadians are sending assistance to Russia. Guns, munitions, tanks and other equipment have been going to the Eastern Front. Possibly the Russians would like supplies in greater quantities, but the shipments have been going steadily.

The Germans were anxious to close the Northern route through the Arctic to Murmansk. Berlin knows that the United Nations are supporting Russia and that is the seaway which is being used as a supply line. Submarines and other Nazi naval craft have been ordered to do their utmost to sink the transports.

The Nazis also fear the Russians. After the beating his troops took last Fall and Winter, Hitler is not so sure of himself. He realizes that a well-equipped Russian army can win the war in the East.

The possession of seapower is enabling our side to get supplies through to the different fronts. That has given us an advantage Hitler would have liked to have. His lack of seapower has handicapped him, even as it defeated Napoleon.

Looking Backward

10 YEARS AGO

(From Daily News, April 9, 1932)

Principal Roy Johnson, who spent Easter with his parents in Nelson, returned to Sidsar to resume school duties.

The Floyd brothers, Greenwood, are driving their flock of sheep and lambs, about 1000 head, to the Midway flats, where the feeding is more plentiful.

Mr. and Mrs. J. Fred Hume of "Killarney on the Lake" have as their guests their daughter, Mrs. C. Franklin Magre, and their son, Jack Hume, of Moscow.

Miss Hazel Fuller, who spent the holidays in Kaslo with Mr. and Mrs. D. A. McKenzie, has returned to teaching duties at Salmo.

25 YEARS AGO

(From Daily News, April 9, 1917)

Pte. J. E. Thompson arrived in Cascade Thursday from Victoria.

J. B. Hawley of Almsworth reached the city yesterday.

Mr. and Mrs. W. R. Salisbury of Salmo are in Nelson.

D. P. Fraser, principal of the Fort Steele school, left for Fernie for the Easter holidays.

40 YEARS AGO

(From Daily Miner, April 9, 1902)

Charles A. Sandiford states that a new company has been formed in England to work the Wakefield.

Father Welch of Rossland paid a visit to Father Ferland Thursday.

J. A. Smith of Rossland, a former Nelson resident, was in town yesterday.

Marshall Griffin, who has been in the roadmaster's office at Nelson, was transferred to the steamer Minto, where he will act as freight clerk.

Today's Horoscope

The outstanding trait of today's birthday child is a deep love for family and friends. He or she is diligent in their work, self-dependent and very practical. For the next year, success in art, music or literature is promised, and such a person will receive much financial help and pleasant surprises. A domestic matter may cause some concern. The child who is born on this date will have a thirst for knowledge of all kinds, and will be highly intellectual, possessing great breadth of vision and unusual talents. Good fortune seems assured.

War—25 Years Ago

By The Canadian Press

April 9, 1917—Canadian troops captured Vimy Ridge and 9000 prisoners at the battle of Arras started on the Western front: British attacked between Lens and St. Quentin. British hospital ship Salta mined in English Channel. Brazil severed relations with Germany.

Test Yourself

1. What country was formerly known as Mesopotamia?
2. What is the relationship between the present king of England, George VI, and Queen Victoria?
3. What is the literal meaning of the French expression, "beau geste"?

TEST ANSWERS

1. Iraq.
2. She was his great grandmother.
3. A fine gesture or action.

Questions ? ? ANSWERS

Open to any reader. Names of persons asking questions will not be published.

H. D. Nelson—How much gasoline may I buy for my pleasure motorboat per month? Months do not enter into the question, but only the full season of nine months. Category A craft are those used for pleasure.

In the case of Category A outboards, an engine of 2 h.p. and under is allowed 1 1/4 units for the entire season; over 2 but not over 5 h.p., 2 units; over 5 but not over 10 h.p., 3 1/2 units; and 10 h.p., 5 units.

Scale for Category A inboards is: 10 h.p. and under, 2 units; over 10 but not over 20, 3 units; over 20 but not over 30 h.p., 4 units; over 30 but not over 40 h.p., 5 units; over 40 but not over 50 h.p., 6 units; over 50 but not over 60 h.p., 7 units; over 60 but not over 70 h.p., 8 units; over 70 but not over 80 h.p., 10 units; over 80 but not over 90 h.p., 12 units; over 90 but not over 100 h.p., 14 units; over 100 but not over 125 h.p., 16 units; over 125 h.p., 18 units.

The allowance for category B pleasure motorboats, which refers solely to those providing "essential transportation for seasonal residents where no alternative form of transportation exists," is "gasoline up to proved normal requirements."

For either of these categories, the engine owner must obtain a gasoline licence and ration coupon book from G. R. Cottrell, Oil Controller for Canada, 11 King Street West, Toronto.

D. E. Cranbrook—How can I make a pattern transfer paper?

Put a mixture of six parts lard and one part beeswax into thin white paper with sufficient lamp black to give a good color. Apply the mixture warm, but not in excess.

Reader, Robson—Who is the M.L.A. for Banff?

The member for the Banff-Cochrane constituency is Frank Laut of Crossfield, Alta. He is an Independent.

What is the population of Cologne, Germany, where the R.A.F. has raided recently?

At the last census in 1939 the population was 798,426.

Destroyer Rating

By W. H. PUGSLEY

The complement of a destroyer is about three times that of a corvette or minesweeper. We carried eight officers and 166 ratings.

Most of the O.D.'s were new in our ship. During the short refit, many of the old crew, now rated "A.B.'s"—able-bodied seamen—had been drifted off, some to leave with their experience the crews of new ships just commissioning, others to take course to qualify for higher specialist ratings.

As replacements, a flock of "jeeps", ordinary seamen who had just finished their shore training, had been drafted aboard.

All of these lads were young, keen, willing, enthusiastic, hardworking, and ready for anything. Never, even under the most trying circumstances of which there were many—were they anything but cheerful.

The "fore lower" is where you begin your life at sea in a destroyer. As it is so far forward and so far down in the hull, the motion of the ship is very pronounced.

Our destroyer carries a proud ship's company.

ONCE LOST HER BOW

They have a right to be proud. A year ago a torpedo ripped into the fore part of the ship's hull, blowing away the bow, but her crew kept the ship afloat and brought her safely into port where the damage could be repaired.

Then she went back to her convoy job.

Recently this same destroyer ran into a hurricane while homeward bound. Battered and leaking, her boats smashed and her life rafts gone, short of provisions and fuel, and her crew exhausted, she still came through and steamed smartly into her base port.

Not a man had been lost overboard in the storm, nor even anyone seriously injured.

How many of our "O.D.'s" (ordinary seamen), newly come to the ship, and for whom this and for whom this had been their first introduction to the real meaning of life at sea—how many of them longed for a draft ashore after this experience? Not one.

Because this location is so un-"de luxe", it is reserved for the least important of all ratings, the O.D.'s. When you've done your nine months (including four months seafaring), and can pass professionally in the things a seaman must know, you too will be rated "A.B.", and graduate to the more spacious upper mess deck.

When I first went on board, I too was assigned to the "fore lower", being an ordinary seaman.

The first few days after I joined the ship were spent in harbor. During this period we worked about the ship in the morning and afternoon, and were allowed ashore two or three nights out of four, depending on how the watches were being run. We turned out each morning at 0630, lashed and stowed hammocks, sat down to breakfast at seven, and fell in for work at eight.

All the seamen ratings, that is, those who worked principally on the upper deck, then mustered in the waist of the ship, along the port and starboard sides.

NO SCARCITY OF WORK

The "Buffer"—a petty officer whose official status was that of Boy's Mate—mounted the walkway over the torpedo tubes, called us to attention, and reported us all present to the first lieutenant, who then gave the Buffer any special instructions he might have regarding work he wanted done.

Make no mistake, they could always find something for you to do, and when you had done it you were supposed to come back and ask for more. Otherwise you were liable to be "run in" on a charge of "skulking", that is, not working.

Other ships, then on convoy assignments, frequently did a month or more at sea, broken only by a day on one side re-fuelling, and at the most three to four days in port at the other side while waiting for another convoy. Sometimes they didn't get more than a day at

Cripps Called the Turn on Hitler's Break

"Four months before it happened Sir Stafford Cripps called, almost to the weak, the date of Hitler's attack upon Russia which stunned Europe with surprise," reveals Walter Duranty, noted author and for many years New York Times correspondent in Moscow, in an article appearing in the current issue of Liberty Magazine.

Duranty relates that at the end of February 1941, at a time when there were no signs of any rift in Russo-German relations, Sir Stafford amazed a group of newspapermen at a press conference in Moscow with his prophecy. The then British Ambassador to the U.S.S.R. told the newspapermen that he expected Hitler's attack, "Because the rate of Soviet industrial progress is so high and is rising so fast that Hitler won't dare wait beyond the early summer."

The Ambassador, Duranty states in the article, debated his opinions on Russia with Arthur Cholerton, Moscow correspondent for the London Daily Telegraph, and told Cholerton, "You underestimate the Russians, as does the rest of the world. I think that you've lived here too long; you've seen so much of the earlier period of mess and muddle that you fail to appreciate how fast they're now going ahead. It's the same with most foreigners here, your colleagues and mine, too. They cannot understand that everyone, even children learn much in eight years. In a sense the Russians were children, and peasants from the fields cannot and do not become mechanics overnight. There's also another point: this country has had to lift itself by its boot straps. Foreign engineers and technicians gave useful aid, but most of them were limited by the skill and courage of their interpreters. What this country lacked was competent Russian teachers. Until the last five years you might say that the blind were leading the blind. But when the change came, five or six years ago, it did come with a vengeance, when for the first time technical and professional schools were staffed and directed by men who knew what they were teaching and how to teach it."

Press Comment

"IT ISN'T FAIR TO MACARTHUR"

A great deal has been written about General MacArthur since his appointment as Commander-in-Chief of the United Nations Forces in Australasia—much of it thoroughly well merited praise; some of it plain hysteria, and some of it sheer nonsense. General MacArthur may well pray to be saved from his friends if the latter sort of thing goes on.

Hero-worship is inevitable in a case of this kind, is understandable, and, within limits, does no harm. But it is likely to do a good deal of harm if writers will persist in trying to convince the public that because General MacArthur has been appointed Commander-in-Chief of the war in the Pacific is as good as won. General MacArthur himself would be the first to decry such blind optimism. Indeed, he lost no time upon his arrival in Melbourne on Saturday last in doing so, for immediately he had shaken hands with welcoming officials, he read a statement to the assembled newspaper men which is well worth reproducing here in part. He said:

"I have great confidence in the ultimate success of our joint forces.

"But success in modern war requires more than courage—it requires careful preparation.

"This means furnishing sufficient troops and sufficient material to meet the unknown strength of the potential enemy.

"No general can make something from nothing.

"My success or failure will depend on the primary resources which the respective governments can place at my disposal."—Montreal Star.

NEW LIBERAL GROUP

Premier Mitchell F. Hepburn of Ontario will not lose any sleep worrying about the proposed new Independent Liberal Association being formed in this Province. Its avowed purpose is to get rid of Mr. Hepburn as the Liberal leader. Its membership includes Liberals, who were formerly colleagues of the Premier, but who either walked the plank voluntarily, or were beheaded because they did not fit into the Hepburn pattern.

These groups of malcontents usually do little more than cause a flurry of gossip. Sometimes they hold meetings and gain a scattered following. But, as a general rule, they fizzle out like a Roman candle in the rain.

Money is needed by any political group and the people who can put up the heavy cash always want to feel they will have some chance of a return on their investment. They are not easily persuaded to back a political movement that is a rebel force opposing anyone as deeply entrenched as Mr. Hepburn. Without funds any political party has a hard struggle.

Mr. Hepburn has many political enemies in Ontario. But, he also has many friends. And, he is shrewd in his appeals to the people. He is not going to be displaced just because a few of his former associates decide to form their own party.—Windsor Star.

Words of Wisdom

To rejoice in another's prosperity, is to give content to your own lot; to mitigate another's grief, is to alleviate or dispel your own. — Tryon Edwards.

Etiquette Hints

Even if you, a high school boy, do think you are a hit with the girls, don't fail to get up when a girl enters a room. Your popularity will last longer if you are polite.

either end of the trip—and only a few hours shore leave.

If you were unlucky enough to be duty that night, you just didn't get ashore at all—somebody had to stay and each must take his turn.

TODAY'S News Pictures

BOMB-BATTERED MALTA CAPITAL CARRIES ON

Here is a view of Kingsway, main street of Valetta, the capital of Malta, Britain's tough little island in the Mediterranean, showing shops, residences, churches and other buildings that have been wrecked by Axis bombs in the hundreds of raids on the island. During recent weeks the dive bombings of Malta have been intensified, but the Axis has paid a big price in planes.

ON NEW ALASKA HIGHWAY

United States engineers who are carving out the new highway to Alaska are shown taking time out for chow at a field kitchen. All food and other supplies come from the U. S. It may be Spring back home, but the vernal season comes much later here, so hot dishes are the order of the day.

FIGHTING JAPS IN THE PACIFIC

His hat on backwards, and cotton stuffed in his ears to protect them from injury during firing of heavy guns the captain of this U. S. warship is seen on the bridge during a hot engagement with Japanese forces. Two men on left are navy fliers. They are part of a task force of the U. S. Pacific fleet somewhere in the Pacific.

MOTHER RECEIVES SONS V.C.

Among the recipients of awards at a recent investiture at Buckingham Palace, was Mrs. Esmonde, mother of Lieut.-Commander Esmonde, who was killed when he led the Swordfish attack on the German cruisers in the English Channel, and for which he was awarded the V.C. Mrs. Esmonde is shown with her other two sons, Captain Patrick Esmonde and Pilot-Officer Owen Esmonde, leaving the palace after receiving her son's V.C.

BLIND MAN WORKS ON R.A.F. PLANES

T. W. Chamberlain, a British ex-serviceman who was blinded in the last war, is shown with his guide dog, Tessa, who takes him to work at a warplane factory. Chamberlain is employed as an inspector of aircraft parts.

Detroit Hopes to Close Series at Home; Grosso Nearing Goal Marks

DETROIT, April 8 (AP)—The eminently successful Detroit Red Wings returned today to home ice where tomorrow they resume their best of seven game series with the twelfth-place Toronto Maple Leafs for the Stanley Cup, symbol of hockey's world championship.

In familiar surroundings the upstart Detroit Club, fifth place finisher in the regular National Hockey league season, hope to close out the series here with victories tomorrow and Sunday. If the series is extended, the fifth game will be played at Toronto next Tuesday, the sixth here April 16 and the seventh at Toronto April 18.

There was no talk of another trip to Toronto among Manager Jack Adams and his crew. Over a three month stretch Detroit has been unbeaten in 12 home games, so the Red Wings seemingly hold all the trump cards over Toronto.

With all seats in Olympia Stadium sold several days ago for both Thursday and Sunday games, a record crowd of nearly 14,000 is expected tomorrow.

With such high scorers as Gordon Drillon, Syl Apps, and Sweeney Schriner still sniping at Johnny Mowers, Detroit's sophomore goalie the Leafs can not be counted out of the picture. Yet the principal Toronto objective appears to be the stopping of Don Grosso, 163-pound centre, who bagged a pair of goals in each of the first two games.

Grosso now has eight goals for the League playoffs to match the modern record set by Cecil Dillon of New York Rangers in 1931. He needs one more goal to tie and two more to surpass the record held by Clarence (Babe) Dye of Toronto 1922 cup triumph.

With 11 points Grosso also is near the three year old playoff scoring record of 14 points by Bill Cowley of Boston Bruins.

Detroit is shooting for its first cup since its double triumph in 1936 and 1937. Toronto, always a top contender in the regular season, hasn't gained possession of the trophy since 1932.

Montreal Juveniles Play Without Loss

MONTREAL, April 8 (CP)—The Westmount Golden Eagles have just completed a season with Provincial Juvenile title in their possession and what they think is some kind of a record.

Captain Doug Alexander said today his team went through the hockey season without a loss. They were held to a draw twice by the Notre Dame de Grace Royals—the team they defeated to win the Montreal City championship. In their 20-game season, they scored 100 goals compared to 20 goals scored against them.

Nelson Hot for Masters' Golf; Hogan Favorite

AUGUSTA, Ga., April 8 (AP)—Byron Nelson has found his range—and maybe that's a preview of the 1942 Augusta Masters' golf tournament opening here tomorrow.

The tall Toledo pro, picked by his colleagues last week as most likely to win the tournament, as he did in 1937, wound up practice today with 68-71-71—210 for three rounds. That's shooting any day for the par-72 Augusta National course, and a stroke-a-round better than he posted for the same distance when the chips were down in 1941.

He fired a 70 in the final round, catching Craig Wood at the turn, then dropping to second place when Wood laid down a paralyzing 34 for the last nine holes to win the 286 against Nelson's 283.

It's traditional that newcomers never challenge for the championship, let alone win it, and 1942 looks like no upset. Chick Harbert and Chandler Harper, sensations of the Winter golf tour, had their troubles with the difficult course. Best play of the time-up rounds has been by old stand-bys like 1935's champion, Gene Sarazen, who was two up on Nelson in nine holes today; Henry Picard, who shot a second successive 68; Ben Hogan, with 68; and veteran Jimmy Hines and Sam Byrd whose 65's led the preliminary practice scores. Unofficial odds made Hogan a betting favorite at 5 to 1, and bracketed Nelson, Wood and Sam Snead next at 6 to 1.

Johnston Refuses Offer for Simon to Battle Lou Nova

NEW YORK, April 8 (AP)—Jimmy Johnston said today he has refused, at least temporarily, an offer for Abe Simon to fight Lou Nova in Washington, May 30, and that he wants at least \$25,000 for Bob Pastor to tangle with either Mello Bettina or Booker Beckwith in Chicago.

Billy Rand, Chicago promoter, wired a \$15,000 guarantee offer for Pastor to meet the winner of Friday's Bettina-Beckwith bout in Chicago. Johnston said he advised Rand it would have to be \$25,000 with an option of 40 per cent of the gate.

Johnston said Nova's manager, Ray Carlen, had been "trying to dictate the time and place" for the Simon-Nova fight.

"I don't think Nova is a big enough attraction to try to dictate terms," he said. "Certainly Pastor and Simon are bigger."

SPORTS

PROMISING ROOKIE

Ed Levy, first baseman, New York Yankees, competing with Buddy Hassett for the first base job vacated when Jimmy Sauer went into the service, comes up from Kansas City where he has been a star for several years. Hit over 300 for that club. He was known as Ed Whitner last year, but has changed back to Levy.

Kimberley-Cats May Draw 3000

REGINA, April 8 (CP)—A crowd of 3,000 or more is forecast for tomorrow night when Kimberley Dynamiters and Port Arthur Bears resume their Allan Cup semifinal series on Regina ice.

Dynamiters took the first game at Calgary 2-1 and after tomorrow's tieup the teams move on to Port Arthur to complete the best-of-five round.

Always popular with Regina fans, the Bears may attract a larger crowd than expected although ticket sales were only fair on the eve of the game. Dynamiters bring playing-coach Ralph Redding, who played for Regina's Junior champions in 1930, Lyall Swaney and Sully Sullivan, who were also stars on Regina teams before moving to Kimberley.

Former Ring Champ of Britain Retires

LONDON, April 8 (CP)—Eddie Phillips, one of Britain's top light boxers for the last 10 years, has retired from the ring.

Former light-heavyweight champion of Britain, Phillips has had no action since the war began and decided to quit fighting when he found he couldn't get into condition for a scheduled bout with Al Robinson, husky young heavy-weight.

Phillips, who won the light-heavyweight title from Tommy Farr in 1935, had his last fight in July, 1939, when he knocked out Jack Doyle, the Irish heavy-weight, in the first round.

He lost his title to Len Harvey, present light-heavy and heavy-weight champion, in 1938, suffering a spine injury from which he never fully recovered.

Pacific Coast Ball Results

Portland 1 5 0
Los Angeles 3 5 1
Hilcher, Singleton (8) and Leo; Vichor; Mallor; and Todd.
Hollywood 3 7 3
Sacramento 4 5 0
Gay and Brenzel; Wicker and Mueller.

BOXING RESULTS

By The Associated Press
New York—Jimmy Hatcher, 100% Lake City, S.C., outpointed Pete Scalzo, 134%, New York (8).
New York—Jack Lomotto, 100%, New York, knocked out Lou Schwartz, 100, Brooklyn (9).
New Haven, Conn.—Alie Stolz, 133%, Newark, outpointed Sonoka Lacey, New Haven (8).
New Orleans—Also Spoldi, 138%, New York, outpointed Harry Weirly, 145%, New Orleans (10).

U.S. SHIP TORPEDOED OFF ATLANTIC COAST

WASHINGTON, April 8 (AP)—The United States Navy announced today that a United States merchant vessel of medium size had been torpedoed off the Atlantic coast and a small freighter had been shelled.

Both actions took place several days ago, the Navy said.

Oshawa Captures Eastern Junior Title 4th Time

TORONTO, April 8 (CP)—Oshawa Generals won the Eastern Canadian Junior Hockey championship for the fourth time in five years tonight, beating Montreal Royals 6-4 to take the best-of-seven series in four straight.

The victory, giving Oshawa their revenge for last year's beating from Royals in the final, qualified the Generals to travel West for the Memorial Cup series against Portage La Prairie or Edmonton.

The Royals got off on the wrong foot tonight, spotting Generals a two-goal lead in the first period that they wiped out once only to have Generals establish it again. Only the work of their brilliant goalie, Jean Paul Renaud, kept the Montrealers in the fight until late in the third period.

M. Dingwall and D. Waterer Top Five Pin Scores

M. Dingwall's 217 single and D. Waterer's 391 aggregate were top individual scores in Tuesday night's matches of the Nelson Ladies' Five-Pin League, played at the Gelinas alleys.

Scores were:
MAPLE LEAFS
A. Shorthouse 150 193-349
J. Gentles 150 195-345

MUST TREAT NORWAY CLERGY AS TRAITORS

LONDON, April 8 (CP)—Vidkun Quisling, puppet Premier of German-occupied Norway, has declared the Norwegian clergymen who recently resigned en masse "must be treated as traitors," a dispatch of the (free) Norwegian Telegraph Agency said today.

Quisling, reportedly enraged by the resignations, was quoted by the Norwegian Telegraph Agency as saying of the clergymen: "their attitude is compelling us to annihilate them together with those who have followed them."

With Regards Likely Winner in Derby is Belief of Longden

NEW YORK, April 8 (AP)—Johnny Longden wouldn't be surprised if the understatement of the year turns out to be the name of T. D. Grimes' Kentucky Derby hope, With Regards.

The little jockey from Cardston, Alta., feels that With Regards, who has the Arkansas Derby to his credit this year in the string of six straight successes he began last July, has a good chance of taking the \$50,000 jackpot May 2.

Johnny should know, because he piloted the rapid-running bargain baby—Grimes picked up With Regards for less than \$1,000—in eight of his nine trips to the post.

Babe Ruth Goes to Hospital in Critical Condition

HOLLYWOOD, April 8 (AP)—George Herman Ruth, the mighty Babe of baseball's hall of fame, lies critically ill in Hollywood hospital tonight—just how dangerously so, his physicians hesitated to say.

Suffering from recurring chills and high fever, the all-time home run champion of the old New York Yankees machine was carried on a stretcher this morning from his hotel suite to the hospital.

"Up to now," said Dr. R. Nichols Smith, "we don't know exactly what is wrong with him, but it appears to be a pulmonary, or lung, condition."

Ruth has been in Hollywood eight weeks, playing the film role of Babe Ruth in a story about his former teammate, the late Lou Gehrig.

"He is responding nicely, but for a man who was as dangerously ill as he was when he first came to the hospital, it is too early right now to say that he might not suddenly take a turn for the worse," Dr. Smith said.

Terriers Two Up on Edmonton in Western Final

WINNIPEG, April 8 (CP)—Portage La Prairie's red-hot Terriers stretched their winning streak to 21 games here tonight when they defeated Edmonton Maple Leafs 6-4 in the second game of the best-of-five Western Canada Junior Hockey final.

Playing before 3,000 fans both teams battled desperately throughout. The score at the end of the first period was 1-1. Edmonton went ahead 3-2 at the end of the second, with Terriers coming from behind to take the contest 6-4.

Joe Bell, fast-skating Terrier forward was the hero of the Manitoba win, scoring four goals, with Billy Gooden and Len Bend counting the others. Johnny Baird, with two, Bing Merluk and John Datschak counted for Edmonton.

Dodgers Team to Beat Despite Loss of Players; New Men Balance Team

By JUDSON BAILEY
Associated Press Sport Writer

NEW YORK, April 8 (AP)—The best-looking ball club in the South, not even excepting New York Rangers, was Brooklyn's dazzling Dodgers.

Other clubs admitted this, but pointed out that pennants are not won in the grapefruit games. The truth of this statement is being bitterly brought home to Brooklyn.

Within the last few days, illness has forced two of the Dodgers' mainstays, Dolph Camilli and Billy Herman, to enter hospital at Baltimore for treatment; both Pete Reiser and Pee Wee Reese have married and Reiser has been classified 1A and may be drafted soon.

Under these circumstances the national league race must be considered wide open again. The Dodgers, however, still are the team to beat and unless disaster strikes they are capable of retaining their national League championship.

This is the way the senior circuit will finish in the judgment of this writer:

1. Brooklyn; 2. St. Louis; 3. Cincinnati; 4. Pittsburgh; 5. Chicago; 6. New York; 7. Boston; 8. Philadelphia.

The Dodgers have been tremendously strengthened by the addition of Arky Vaughan at third base and Augie Galan in the outfield. They have good pitching and a well-

balanced array of veterans at every position.

CARDS MISS MIKE

The Cardinals are fast and flashy. However, the Redbirds are going to miss the explosive strength of Big John Mike, who batted in 109 runs last season even though he was hurt.

The Cardinals are good, but not quite as poised as the Dodgers.

The stock of the Reds has gone up since they bought Gerald Walker to plug the hole in left field, but they still cannot compare with either the Dodgers or Cardinals in the outfield, the infield or the catching.

Fourth place in the National League, as in the American, may be decided by default. Pittsburgh bagged it last year and has slightly the best of the argument again this season, but both Chicago and New York are bidders.

The Giants have made the greatest effort of any club in the league to improve themselves—naming a new manager and buying players right and left. If they come through in time, the club might move into the first division again.

Neither the Braves nor the Phils have a chance of improving their positions of last year, unless the roof collapses above them.

Blue eyes in a white cat are often an indication of defective hearing.

"You always look slick as a whistle—
What can I do for my tough bristle?"
"The Blue Gillette will end your trouble.
With speed and ease it whisks off stubble!"

Tough beard comes off like fuzz, because Blue Gillette Blades have the keenest, smoothest-shaving edges that have ever been produced.

Colorful Stitchery

Colorful Stitchery

"We're looking very pretty, so go right ahead and embroider our picture! Be sure to use colorful floss for the posies." Pattern 234 contains a transfer pattern of a picture 15x10 1/2 inches; illustrations of stitches; materials required.

Send twenty cents for this pattern to The Nelson Daily News, Needlecraft Dept., Nelson. Write plainly: pattern number, your name and address. Pattern will be mailed to your home within 10 days.

Marian Martin

HERE'S A TRIM TWO-PIECE

An "Investment Fashion" for Spring and Summer is the two-piece that goes everywhere smartly, that does "double-duty" with other costumes. Pattern 9027 by Marian Martin makes this chic frock, with a new hip-length blouse and a simple skirt. The neckline of the blouse may be round or square; the front yoke, the back bodice and the short sleeves (except the cuffs) may be of contrast. Notice the jaunty inset belt; youthful! A long-sleeved blouse is optional.

Pattern 9027 may be ordered only in misses' and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28 and 30. Size 16 requires 3 1/2 yards 35 inch fabric.

Send twenty cents for this Marian Martin pattern. Be sure to write plainly your SIZE, name, address and style number.

Send your order to The Daily News. Pattern will be sent to your home within 10 days.

Yesterday's Cryptogram: NOW STRONG AN INFLUENCE WORKS IN WELL-PLACED WORDS!—CHAPMAN

Cryptograms are quotations of famous persons written cipher. A substitute character has replaced the original letter. For instance, an "R" may substitute for the original "E" throughout the entire cryptogram, or a "BB" may replace an "LL." Find the key and follow through to the solution.

CONTRACT ... By Shepard Barclay

THE TIME TO BE WARY "LOOSE TALK MAY COST LIVES," according to a series of posters being distributed by the Ambulance Corps. It is true, because we are up against dangerous enemies prepared to take advantage of any opportunity we present them. By the same token, careless overalls may cost a bridge player plenty of points if he is up against highly competitive opponents ready to double him when he sticks his neck out. In fact, the more highly competitive they are, the more careful he had better be in his bidding.

At several duplicate tables, West tried that diamond overall after South's spade bid and escaped punishment because North was bent on his side playing the hand. In one case he immediately bid 2-No Trumps over it and in another 2-Clubs. In still another, North passed on his first turn and South bid 2-Hearts. All of these resulted in No Trump contracts by North and South, nobody managing to make game. At another table, North let South play it at spades, following his partner's rebid, and they failed to make game.

Power Shortage Forces U. S. A. to Choose Between Metals and Paper

WASHINGTON, April 8 (AP)—A serious power shortage in Canada is forcing the United States to choose between increased shipments of aluminum, carbide, magnesium and nickel required for American war industries and maintaining its imports of newsprint from the Dominion. It was learned today.

The decision has been put up to the War Production Board by Canadian authorities who have frankly told American officials they cannot have the increased shipments of wartime metals they require and maintain the volume of newsprint because power resources in Canada will not permit both to be done.

At Arcadia, Que., Canada is producing 43 per cent of the aluminum manufactured in North America. Production in this plant, the largest in the world has been doubled since the outbreak of war and still the United States wants more aluminum.

At the same time Canada is starting a big magnesium program with one plant in Quebec already in production and another in Ontario being built.

Carbide is being produced in big volume in Shawinigan, Que., but, like aluminum and magnesium, the United States wants more Canadian production to be used in its \$20,000,000,000 war program. As explained here, the result of Canada's wartime industrial development has been to produce a power shortage, particularly in Quebec and Ontario.

Canada is willing to ship more aluminum, magnesium and carbide to the United States but it can be done only by shutting down some non-essential plant such as a newsprint mill and by diverting the power to the metals plant.

Aluminum, magnesium and carbide require vast quantities of hydroelectric power in their manufacture. So does newsprint.

H. J. Symington, Canadian Power Controller, has held at least three conferences here with officials of the War Production Board and the Federal Power Commission in an effort to persuade them to choose between newsprint production and the metals required in the American war effort.

For many years Canadian pulp mills, some of them owned by American newspapers, have supplied the bulk of the newsprint imported by the United States. This has been one of Canada's most lucrative trades, involving millions of dollars a year.

Hull Recovers

WASHINGTON, April 8 (AP)—Secretary of State Cordell Hull has recovered from an illness which forced him to go South in February for a rest. He will resume the functions of his office soon. Acting Secretary Sumner Welles said today.

Spring Conditions in Trail Kept Engineering Force Busy in March

TRAIL, B.C., April 8 — Dealing largely with spring conditions, particularly severe flooding, the March report made by City Engineer P. F. Goates to the City Council Tuesday night was as follows:

SPRING WATER
Spring runoff and storm water—Rain and wet snow which fell between March 1 and March 10 caused some damage from the resultant runoff. However, as there has been no snow on the benches the annual spring runoff was exceptionally light.

On March 3 all the City works crew were employed clearing ditches, dunes and storm sewers, and constructing a temporary flume over a bad cave-in on the creek which runs through Block 71, D. L. 230, above Warren Street.

On March 3 heavy rain caused a washout on the hillside above Coleman Street, which plugged the culvert on Coleman Street, diverting the water across Blinn Street and LeRose Street, choking the intake to the storm sewer. Considerable mud and rock were deposited on Blinn and LeRose Streets. The same storm carried blocks of ice and frozen dirt down the creek bed, choking the intake of storm sewer at junction of Buckner and Blinn Streets. No damage was done as the water entered the storm sewer on Blinn Street through an emergency grating and drain which was installed last year for this purpose.

The storm sewer draining the Central School grounds was heaved out of place on the hillside at rear of City Hall, and repaired.

Installation of New Transformers at City Substation Is Now Nearing Completion; Last Equipment Is Here

With the last of the necessary equipment now on hand, installation of a new bank of transformers which will greatly increase the efficiency of electrical distribution in Nelson is well on its way to completion. Owing to war priorities there were repeated delays in the arrival of various parts of the equipment and in one or two instances it was necessary to ship around for material.

Installation has been carried out by the city's maintenance crew. As work was interrupted by delays the men transferred to their regular maintenance work, thus avoiding heavy extra expense which might have been caused by the delays if a special crew had been engaged.

D. Barlett of Vancouver, Canadian General Electric engineer in charge made a progress inspection at the weekend and upon completion of work at Trail in which he is now engaged, probably in 10 or 12 days, he will come to Nelson to direct the completion of the job.

K. H. Simpson, Superintendent of the City's electrical distribution system, Wednesday described the installation as "an outdoor substation consisting of three up to date transformers of 333 kilowatt capacity each, with an outdoor switch house. All cables are now in place and the men at present are putting on pole-headers," he added.

Two customer's feeder lines tied into the new transformers through the switch house will provide separate circuits for Fairview and for

Interpreting The War News

By KIRKE L. SIMPSON
Associated Press War Analyst

The first phase of Hitler's promised great Spring-Summer offensive to win the war this year is in progress in Libya and the Central and Eastern Mediterranean although its exact pattern cannot yet be discerned.

The rising fury of Axis air attacks on Malta and Alexandria chimes in with London and Cairo indications that Nazi-Fascist armies in Libya are again on the march against Egypt. But it is in Russia, not Egypt or the Mediterranean, that Hitler has pledged a knock-out blow this year.

That raises a question as to the actual objective of the renewed Nazi drive in Libya. British sources estimate the strength of the Axis army in Libya at around 125,000 men. This does not seem sufficient to break through the forces guarding Egypt, even if withdrawal of Australian units for home defence has reduced British strength.

Without the elimination of Malta as a sea and air base from which Britain can prey on communication lines on the enemy in Libya, there seems small chance of a new Axis

Subs Claim 16 Allied Ships

BERLIN, (From German broadcast), April 8 (AP)—A special German High Command communique claimed today that German submarines have sunk 16 enemy merchant ships totalling 104,000 tons in continued attacks against American and British supply shipping in the Atlantic Ocean.

Thirteen ships were sunk off the American coast and the remainder off Africa, the communique added. These claims lack confirmation.

Export Clearances of Wheat Down

OTTAWA, April 8 (CP)—Overseas export clearances of Canadian wheat totalled 2,082,856 bushels in the week ended March 31, compared with 5,301,434 bushels in the corresponding week last year, the Dominion Bureau of Statistics reported today.

Accumulated total for the period Aug. 1, 1941, to March 31 was 99,774,469 bushels compared with 88,728,987 bushels a year ago.

Canadian wheat in store for the period ending March 31 was 62,020,832 bushels compared with 479,388,441 bushels the week of April 4, 1941.

Customs-Excise Revenue Increases

OTTAWA, April 8 (CP)—The Department of National Revenue announced today customs-excise revenue for March amounted to \$55,879,399, a net increase of \$8,215,808 compared with March, 1941, when collections totalled \$47,663,592.

Receipts for March were: Customs duties \$10,890,037; decrease \$2,157,111; excise taxes \$35,183,844; increase \$7,068,875; excise duties \$9,949,829; increase \$1,203,722; sundry collections \$46,887; increase \$487.

Markin of Shoreacres Pleads Guilty to Two Registration Charges

Appearing before Stipendiary Magistrate John Carmel Wednesday morning on two charges under the National Registration Act, Tim Markin of Shoreacres pleaded guilty to both, receiving three months suspended sentence on one and being fined \$10 and \$5.25 costs on the other.

The suspended sentence was on a charge of failing to ask a man for his registration card before employing him, and the fine was for employing an unregistered person.

Trail Legion Wants No Japs West Kootenay

TRAIL, B. C., April 8—Branch No. 11 of the Canadian Legion met Monday night made a vigorous protest against bringing Japanese into the restricted areas of West Kootenay. Support in this movement has been asked of W. K. Ealing, M. P. H. W. Herridge, M.L.A., and Legion Branch at Rossland and Nelson. A committee was formed to organize a local body which will handle a publicity campaign to impress the public with the importance of the coming Plebiscite Vote. It consists of Rev. M. W. Lees, R. B. Mullaney, Rev. E. H. Lewis, George Reimann, O. J. Wilson, and J. A. Callen. A meeting is called for Thursday night when representatives of the Board of Trade, Junior Chamber of Commerce, Workmen's Committee, Liberal Association, Conservatives, and C.C.F. body, will meet to discuss forming a committee organization.

The Legion went on record as offering all facilities of the Legion in Trail to Major W. H. Shanks and his Company of Veterans Guard of Canada newly arrived in Trail.

Reserve Training to Be Realistic

TORONTO, April 8 (CP)—A more interesting and more realistic training program toward Canada's newly-enlarged Reserve Army into a tough, hard-hitting force will be introduced soon, Maj.-Gen. B. W. Browne, newly-appointed Director-General of the Reserves, said in an interview today.

The policy on training is being sent out to district officers commanding. Gen. Browne said, and "it is being left in their hands to see that the training now is more realistic and interesting."

Enlistment in the Reserves must increase and all units must be brought up to full war strength at once, said the new Army head. He hoped employers would urge their workers to join up as they had urged them to buy Victory Bonds.

Gen. Browne saw a place of value in the Reserves for veterans of the First Great War under the age of 50 who can meet the physical requirements. He intimated that district officers commanding would give special consideration in individual cases of those over 50 with special qualifications such as physical training instructors.

Alexandria Again Bombed as Previous Dead are Mourned

ALEXANDRIA, Egypt, April 8 (AP).—This Mediterranean naval port was bombed again early today after its worst air attack of the year yesterday when 52 persons were killed and 80 injured.

The follow-up assault was light, however, the Government said, with only a few bombs dropped, no casualties and only insignificant damage.

As the Government acted quickly to care for the victims of the earlier bombing, Premier Mustapha Nahas Pasha broadcast to Alexandrians that "this is a day of national mourning for the whole country."

An estimation committee received orders to estimate property losses quickly so the Government could pay in full from credit of enemy property seized in Egypt.

Urge Individuals Be Forced in to British War Jobs

LONDON, April 8 (CP).—A special Parliamentary Committee recommended today sterner compulsion to force individuals into jobs in which they would be most useful in Britain's war-time industry.

These suggestions came from the select committee on national expenditures:

1. Fuller use of punitive powers against absenteeism and idleness.
2. "Compulsory methods" to force employers to use "the proportion of women considered appropriate," and greater use of part-time women workers.
3. Addition standardization of design and elimination of unnecessary grades in manufacturing.

"The whole production effort has till now carried with it too much of a stamp and character of improvisation," the committee said.

"Some 188,000 are unemployed a great many employed on work which is either of no essential value or could be improved and organization could be accomplished with less labor..."

6 Norway Ships Sunk Say Nazis

BERLIN, (From German broadcast), April 8 (AP)—German quarters claimed today six of 10 Norwegian vessels which attempted to break out of the Swedish port of Goteborg last week were sunk by German naval and air forces and two others fled back to Swedish territorial waters.

This report, if true, would mean that two ships eluded the German blockade.

U. S. War Production Board Suggests 20,000 Tons of Treasury Silver Be Used Instead of Copper, New Plants

TORONTO—James A. White, Director of Rocky Mountain Metals Foundation, Washington, D. C., formerly for 13 years secretary to the late Senator Key Pittman and more recently an assistant secretary of the Department of State, has notified Sidney Norman, who is in Toronto for a few days, that the War Production Board has made definite recommendations to the Treasury Department to release at least 20,000 tons of silver bullion now in storage for use as raw materials in the new Government-owned aluminum and magnesium plants soon to be built.

The same agency has also recommended substitution of silver for 21,000 tons of copper for similar installations in plants under consideration and, in addition, suggests that 19,000 tons of copper could be reclaimed by replacing existing installations in privately-owned aluminum plants and points out the possibility of substituting silver for copper in industrial plants and central power plants to the extent of an additional 20,000 tons.

Under the present laws, the U. S. Treasury is prohibited from selling silver at less than the coinage value of \$1.29 an ounce and there is not the slightest doubt but that an attempt to enact legislation removing that inhibition would precipitate a bitter fight by Western States. It has been proposed, therefore, that some form of leasing be devised, by which the Government would undertake to restore the amount loaned at a definite price, just as was done in the first World War, when Britain borrowed 200,000,000 ounces for emergency monetary use in India.

On February 25 last, the Treasury held 2,680,053.096 ounces of silver (approximately 120,210 short tons, avoirdupois), which 1,148,375,933 ounces (47,849 tons), was represented by silver certificates equal to 16 per cent of currency in circulation; 374,023,410 ounces (15,584 tons) by silver dollars and 1,362,632,737 ounces (56,777 tons) by bullion. In addition, there were 50,871,850 silver dollars in circulation and 347,544,855 worth of subsidiary silver coins, the grand total value of all silver, counting bullion at \$1.29 an ounce, reaching over \$4,300,000,000, equal to about 32 per cent of the total currency in circulation at the time.

Since January, 1934, actual seigniorage or profit, accruing to the Government, up to February 25, 1942, had reached \$681,800,000, and, if the bullion on hand were converted into dollars or silver certificates, the grand total would reach \$1,089,000,000.

WITHDRAWAL IS SAME OLD STORY

LONDON, April 8 (CP).—The British withdrawal from Promote to new positions North of Thayetmyo on the Burma front is "the same old story of the last two or three weeks," a military commentator said today.

"The Japanese attack with superior forces," he said. "We stay as long as we can, inflict as much loss as we can, gain as much time as we can, and then go back to the next suitable position."

At present, he said, there is a pause in fighting while the Japanese re-form.

NEW DELHI, April 8 (CP).—British authorities today reported there was no change in the situation on the Irrawaddy front in Burma, where the Japanese have pushed beyond Promote on their march toward the Burmese oil fields.

A communique said a town in North Burma was bombed yesterday. No details were available but the report said as far as was known there were no damage or casualties.

In South Africa the Mongoose is domesticated and risks farms of rats, mice and snakes.
