VOLUME 40 FIVE CENTE NELSON, BRITISH COLUMBIA, CANADA—THURSDAY MORNING, MARCH 5, 1942 NUMBER 248

DUTCH PREPARE TO MOVE TO WEST INDIES

RUSS SMASHING "REMNANTS" OF 16TH NAZI ARMY

Desperate Attempts to Ferry Supplies Made by Huns

51 BIG PLANES ARE DESTROYED

MOSCOW, March 5 (Thursday) (AP)—Russian troops are "destroying the remnants" of General Von Busch's 16th German army which numbered 96,000 men before it was trapped over a week ago at Straya Russa below Lake Ilimen, dispatches direct from that front said today.

This was the first time that Soviet dispatches used the term remnants in referring to the encircled Nazis who were reported desperately trying to gain air borne reinforcements, food and material.

An official report also said the Red army driving west on the central front toward Smolensk had broken into an important German defence zone.

The Staraya Russa dispatches stressed the fact that the Germans were using reserve transport planes from Denmark and Yugoslavia in their effort to ferry men and supplies to the 16th Nazi army.

In five days 51 of these were reported destroyed, and the crews and troops aboard some of them were captured.

The Russians also said they had discovered a "giant German glider capable of hauling 150 men, and towed by three planes," but said the gliders had not yet been used on the Soviet front. Just how the discovery was made was not disclosed.

The Moscow radio said that captured German prisoners who had gone without food for six days described the plight of their comrades as "catastrophic."

36,000 KILLED LONDON, March 5 (AP)—The surrounded German army of 96,000 in the Staraya Russa sector "has lost 36,000 killed since the attack began," the News-Chronicle reported today in a dispatch from its Stockholm correspondent.

He said that during a blinding snowstorm the trapped Germans were heavily shelled Wednesday and that attempts to fly supplies to the beleaguered troops had cost the Germans 300 planes in three days.

Officials Work to Coordinate Air Training Plan

OTTAWA, March 4 (CP)—Air officials representing the United Kingdom, United States and Canada are working on plans to coordinate air training on the North American continent, it was reported here today.

The immediate problem is to make maximum use of the Canadian and United States air training fields, sending United States student flyers to Canada when facilities are available and Canadians to United States training bases.

The feeling here is the entire British Commonwealth Air Training Plan will be joined with the United States Training Program maximum equipment and training facilities will be kept in full operation.

Three Bombs Fall on Outskirts of Honolulu

HONOLULU, March 4 (AP).—The army announced today that "what was believed to be an enemy plane flew over Oahu Island early today and dropped three medium sized bombs on the outskirts of Honolulu."
"The plane was flying at a high altitude," the announcement said. "Where it came from is not known. There were no casualties and no damage except a few broken windows."
It was believed the plane possibly was from a cruiser or other enemy vessel at sea.

LOAN OFFICIALS GOING ALL OUT FOR NEW MARK

Only Ontario, B.C. Yet to Reach Quotas

OTTAWA, March 4 (CP)—Although the nominal second Victory Loan objective of \$500,000,000 has been well exceeded, there is no let-up in enthusiasm or vigor of the drive anywhere in Canada as canvassers strive to reach the new \$200,000,000 objective, national loan headquarters said tonight.

The three-week drive ends next Saturday. With announcement this afternoon that Prince Edward Island had gone over the top, only Ontario and British Columbia among the nine provinces have yet to report reaching their nominal quotas.

"As with the Dominion itself, achievement of these provincial objectives in no way means that efforts to increase the total subscription are being relaxed," national headquarters said. "Rather, it is now definitely apparent in every province that work continues with renewed enthusiasm and vigor."

"Saskatchewan is now more than quarter way to doubling its first quota, and the others are equally earnest in responding to the appeal voiced yesterday by Finance Minister Hiley and G. W. Spinney, National War Finance Committee chairman, that the original \$500,000,000 objective be regarded as an instalment."

Loan officials announced that total subscriptions across Canada had passed the \$500,000,000 mark. At the close of business Tuesday night the total was \$415,298,727. A new cumulative total will be made public tomorrow.

VANCOUVER, March 4 (CP)—British Columbia and the Yukon today are slightly less than \$2,000,000 short of the area's \$42,000,000 quota in Canada's second Victory Loan drive with four days of the campaign left.

NAVY TAKES OVER SAN DIEGO YARDS

SAN DIEGO, Calif., March 4 (AP)—The United States Navy today took over construction work on naval mine sweepers and patrol craft in two San Diego shipyards affected by a dispute of A. F. L. caulkers.

MacArthur Bombers Smash 30,000 Tons of Jap Ships in Surprise Raid

WASHINGTON, March 4 (AP)—Sweeping over the mountains of Bataan in a sudden attack that caught the Japanese completely off guard, the small air force of General Douglas MacArthur destroyed over 30,000 tons of enemy shipping and set supply concentrations afire at Subic Bay, the War Department announced today.

Heavy explosions occurred after fires were started on the docks at Olongapo and Grande Island, indicating that ammunition dumps were destroyed in the swift raid.

WEST BANK OF SITTANG RIVER LOST TO BRITISH

Japs Reach Waw, 69 Miles by Road From Rangoon

BRITISH BURN MILITARY STORES

MANDALAY, Burma, March 4 (CP)—British forces have lost the West bank of the Sittang River near its mouth in the Gulf of Martaban and the Japanese have reached Waw, halfway between the river and Pegu and 60 miles by road from the semi-deserted capital of Rangoon, it was announced today.

A two-lane paved highway flanked with flat rice lands leads from Waw down to the Burmese capital.

The loss of the West bank of the Sittang deprived the British defenders of their strongest natural positions.

Communiqués gave no details of the British withdrawal, but the Japanese apparently used their familiar encircling tactics because they were reported last week to be massing heavy contingents 50 miles North of Waw and only 10 miles from the Burma Road to China.

Waw is only 15 miles by road East of Pegu, important Burma Road railway junction.

"The Japanese have crossed the Sittang. Our patrols are in contact with the enemy at Waw where a scorched-earth policy has been carried out."

"Rangoon remains quiet but there has been some lawlessness, especially against defenceless Indians at Hanthawaddy (down-river Rangoon suburb.)"

(A Rangoon communique said tank-supported British units had inflicted casualties on Japanese Northwest of Pegu.)

The reference to a scorched earth policy at Waw could have meant the destruction of military stores the defenders were unable to save.

Besides driving on Pegu, the Japanese now are expected to slash beyond that point in an attempt to cut the secondary Burma Road which runs Northwestward from Rangoon through Tharrawaddy to choleira-plagued Prome and the Irrawaddy oil fields.

Such a manoeuvre would split the British forces unless those in the Rangoon sector were able to withdraw Northwest and completely abandon Southern Burma.

Metal Shortage to Cramp Golfers' Style

OTTAWA, March 4 (CP)—The wartime shortage of metals is going to cramp the style of Canada's skiers, fishermen, golfers, especially golfers.

An order issued last week by J. R. Nicholson, Deputy Controller of Supplies, is the reason. It states expressly that metal ski poles, metal fishing poles, and metal shafts for golf clubs must go out of production.

And while the order doesn't say so, there won't be any metal available for the heads of golf clubs either, officials said.

CHILD DIES FROM BURNS

NANAIMO, B.C., March 4 (CP)—Burns suffered when a pan of hot water fell from the stove caused the death in hospital here today of Lorraine Beverley Urban, two-year-old daughter of Mr. and Mrs. Jack Urban.

Port Moresby Twice Attacked by Jap Bombers

CANBERRA, March 5 (Thursday) (CP)—Japanese planes attacked Port Moresby, New Guinea, off the Northern mainland early today but the raids were light and no casualties resulted. No casualties occurred in the raid on Port Darwin on the Northern coast yesterday.

BRITAIN BUILDS MANY PLANES IN OLD MINE AREAS

Thousands Working Underground in Secret Plants

PLENTY OF FRESH AIR FED WORKERS

By WILLIAM J. HUMPHREYS

LONDON, March 4 (AP).—Deep underground, deeper than German bombs ever blasted her island subsoil and rock, Britain is building aircraft.

In what were abandoned mines and quarries a short time ago, the invisible bombproof industry is operating on an expanding scale. A few of these secret plants already are in production, others under construction. The Ministry of Aircraft Production warily describes the total as "several," but says "thousands" of skilled men and women are employed.

Through a large glass window we watched girl clerks on the lower floor chalk new entries on large production charts. The figures gave the reader an instant picture of the plants' day-by-day output of secret parts.

The large site is a project of formidable dimensions requiring some 9000 laborers to convert it. When it is finished the underground workshops will occupy an area roughly three-quarters of a mile square and 3,000,000 cubic feet of fresh air will be drawn into the workings every minute.

The factory workers, whose number can be given only as "many thousands," will go to work on four 80-passenger elevators and two escalators. Ninety feet down they will step into a pleasant blending of coolness and safety.

The mine tunnels are already buttressed with steel and concrete. Bricks and plaster blot out the jagged mine walls. Everything has been brightly painted.

Over-all there is the soft daylight effect of fluorescent tubing, used throughout for illumination. The conveniences include tiled washrooms, lockers and a canteen.

Living accommodations for thousands are provided above ground. These quarters are dispersed within a convenient radius of the mine shafts. Each unit will house 100 or more.

There are spacious barracks for single workers, cosy cottages for couples. There are day nurseries for children, and movie and recreation halls for everybody.

Jap Island Raided by 30 Planes Says Tokyo Radio Report

NEW YORK, March 4 (AP)—Thirty planes, their nationality not specified, have raided Minami Torishima island in the Bonin Group about midway between Guam and the Japanese mainland, the Tokyo Radio said tonight in a broadcast heard by CBS.

The broadcast identified the island as the most remote of the Bonin Group some 1700 miles Southeast of Tokyo, and acknowledged that one building was destroyed and eight casualties suffered.

Seven of the raiders were shot down, Tokyo said.

Shipping Concerns, Operational Bases Begin Movement

Java Defenders Destroy Anything Valuable to Japs; Indies Command Changes Hand; Helfrich Has Special Mission

LONDON, March 4 (AP)—A mass movement of the main offices and foreign assets of Netherlands in the East Indies to the Netherlands West Indies was disclosed tonight as the Japanese appeared to be overrunning the last Netherlands strongholds in the Eastern hemisphere.

The move announced by the Aneta News Agency embraces arrangements endorsed by the Netherlands Government in London for the transfer of operational bases from Batavia to the comparative safety of the Netherlands colonies in the Western Hemisphere.

By the sudden move the Netherlands were preparing to abandon, for commercial purposes at least, all their principal colonial possessions except those in the lee of the United States.

Foremost among the concerns prepared to move their bases out of the Indies are shipping companies whose vessels have ranged over the world.

Arrangements have been made for the transfer of foreign assets held by the Netherlands East Indies and commercial enterprises in the East Indies.

By WITT HANCOCK, Associated Press Staff Writer

BANDUNG, Java, March 4 (AP)—The Japanese have thrown back the Allied tide in some sectors in their first advances of consequence since the beginning of the Java invasion, the Netherlands Command acknowledged today, and so imminent was this island's peril that the defenders already had completed most of the job of demolishing all upon it that would be of value to the enemy.

But, stripped though they were of much of the Indies Fleet strength and outnumbered aloft and aground, the Allied forces fought savagely on—holding the offensive in their unbroken aggressive spirit, tragically unable though they were to hold it in fact.

(The Netherlands Government in London announced a change in the Indies Command by which the Governor-General, Gen. A. W. L. Trjajada, Van Strakenburgh, Stachouwer, transferred command of the land fighting forces to Lt. Gen. Hein Ter Poorten, and Admiral C. E. L. Helfrich took "a special mission" Rear Admiral J. J. A. Van Stavert was named to command the remaining naval forces in Indian waters.)

(At the same time the Government called upon every Netherlands commander in Java and elsewhere in the Archipelago, even those cut off from help, to "fight on to the last.")

The afternoon communique from Indies Military Headquarters made no effort to conceal the rising nature of the crisis.

"About fighting in the invasion area of Java," this bulletin said, "it can only be reported today that our troops fight with stubborn resistance and in offensive spirit."

Fernie Pays Off Debt; Goes Back to Ratepayers Next Fall; Position Fine

VICTORIA, March 4 (CP)—Fernie, which passed into the hands of a Provincial receivership, in 1935 and that sum is on hand in the bank to take it when the actual transfer takes place.

Means to be given properties have been maintained, the electric light rate reduced, and the mill rate brought down from 30 mills to 25.

A small cash surplus is expected in Fernie's budget this year. Mr. Fernie expressed his appreciation to Fernie citizens in their steady cooperation in the work of the commission which is shortly to be discharged.

The first annual election for a new board is expected to take place under municipal management this Fall, at which time Fernie will be free of all debt, after the repayment of final relief loans from the Province.

Fuel Council Suggests Gas Price Boost

WASHINGTON, March 4 (AP)—Higher prices on gasoline, kerosene and fuel oil in the East and the closing of filling stations night and Sunday throughout the United States were recommended tonight by the Petroleum Industry War Council, advisory group of industry executives with official standing.

A committee representing the Council appealed to Leon Henderson, Price Administrator, for the price increase to cover higher transportation costs resulting from greater use of railroad tank cars instead of tank ships and Henderson took it under consideration.

It was understood that the increase sought on gasoline was 63 cent a gallon, or a four-cent boost on five gallons, the quantity commonly purchased by motorists.

Meanwhile Petroleum Coordinator Ickes ordered the huge Southwestern and Southwestern oil fields to reduce their March production of crude oil by 204,000 barrels daily from the \$2,062,200 barrels originally allotted. The aim is to bring production in line with the reduced transportation facilities and prevent a storage glut.

POSTMASTERS HAND IN 29 RESOLUTIONS

OTTAWA, March 4 (CP)—Executive members of the Canadian Postmasters' Association today placed before Postmaster General Mulock 29 resolutions dealing with subjects that varied from the size of greeting cards to remuneration paid to the wives of soldiers who are acting as postmasters in the absence of their husbands.

Give Commission Control of Japs

OTTAWA, March 4 (CP)—Complete control over Japanese in the protected area of British Columbia is given the newly-formed British Columbia Security Commission under an order-in-council tabled in the House of Commons today.

Chairman of the three-man commission is Austin C. Taylor of Vancouver.

The order defining the duties and powers of the commission, provides that it may require any person of the Japanese race in any protected area in British Columbia to remain at his place of residence or to move, either within or without the area.

Authority is also given the commission to "make orders respecting the conduct, activities and discipline" of any person evacuated under the regulations.

Strict Gas Rationing for Pleasure Motor-Boats Is Ordered by Ottawa

OTTAWA, March 4 (CP)—Drastic curtailment of use of motor-boats for pleasure has been ordered under the gasoline rationing scheme going into effect April 1 but fuel sufficient for the proved requirements of commercial operators will be allowed.

Gasoline to cover the "essential" transportation of seasonal residents who have no other means of transportation will also be provided, the Minister said.

For pleasure boats with outboard motors, gasoline available during the entire eight month period during 1-5-42, will range from 1 1/4 ration units of five gallons each to three units. Inboard motorboats used for pleasure will be allowed from two units to 18 units. In both cases the amount of gasoline varies with the horsepower of the motor.

"If the unit represents five gallons, the allowance will enable an inboard motorboat to run for approximately 15 hours, and an inboard motorboat for approximately 10 hours," a Munitions and Supply Department Statement said.

"The allowance to inboard motors is designed to permit owners of non-commercial marine engines in the 90-horsepower classification approximately the same quantity of gasoline in the three summer months as they could purchase for a car of equivalent horsepower in the same period.

All operators of non-commercial water craft also will require a licence, for which they will pay \$1. They will use coupons and will buy the graded gasoline that is sold for automobiles.

Commercial water craft are defined as water craft of any kind used for these purposes: ferrying for hire, fishing or guiding as a means of livelihood, freight carrying for hire, passenger carrying for hire, towing for hire, essential transportation for permanent residents not served by some alternative means of transportation, and government services, including life-saving, police and fire protection, dredging and salvaging.

Trail and Kimberley Accept Five Game Semi-Final Series Proposal

EDMONTON, March 4 (CP).—W. G. Hardy of Edmonton, past president of the Canadian Amateur Hockey Association, announced today that Kimberley Dynamos and Trail Smoke Eaters, which previously had refused to take part in the A.B.C. Senior Hockey League playoffs, have accepted a playoff proposal made by the C.A.H.A. with the cooperation of Calgary Stampede and Lethbridge Maple Leafs, the other playoff contenders. The proposal calls for five-game semi-final series between the clubs with all games being played in Al-

berta. Trail will meet Calgary next Saturday night in Calgary in the first game of their series—between the first and fourth place teams—and Lethbridge and Kimberley are expected to begin their series tomorrow night at Lethbridge. Dr. Hardy said Fred Cameron of Turner Valley, A.B.C. League President, will be in charge of the playoff schedule, naming the referees and other details. It is understood the R. C. teams will be granted a share of gate receipts of the Calgary and Lethbridge games.

Vichy Official Says Three Big Plants Damaged

VICHY, March 4 (AP).—Three of France's biggest motor and aircraft works were damaged severely by the tremendous British night bombardment of the German-occupied Paris industrial area, it was announced tonight by a high Vichy

Government official who watched the raid. Captain Jean Fontaine, naval officer and chief of Vice-Premier Darlan's secretariat, named the Renault, Saumon and Farman plants as heavily hit by Royal Air Force bombers which swooped so low he thought they might plunge through the roof of the fifth-floor apartment in the Auteuil section of Paris from which he witnessed the attack Tuesday night. (Coming through the Vichy censorship, Fontaine's account was highly unusual, since it identified the factories, acknowledged heavy damage, and admitted that Renault was working for the Germans.)

A Pimple Covered Face Kills Many a Romance
The lives of many young people are made miserable by the breaking out of pimples, and you probably know of cases where a promising romance has been spoiled by those red, white, festering and pus-filled sores on the face. The trouble is not so much physical pain, but the mental suffering caused by the embarrassing disfigurement which very often makes the sufferer ashamed to go out in company. The quickest way to get rid of pimples is to improve the general health by a thorough cleansing of the blood. Burdock Blood Bitters helps to cleanse the blood and with the blood cleansed the complexion should clear up.

Veterans Guard Host at Social
Men of No. 1 Platoon, 29 Company, Veterans Guard of Canada, were at home Wednesday night to their friends in Nelson—and they entertained one of the largest crowds to attend a social at the Nelson Armory in a long time. Their guests included Mayor and Mrs. N. C. Stubbs, the Women's Auxiliary to the Active Forces, Nelson Detachment of the Canadian Women's Training Corps, Lt. C. H. Hamilton and Mrs. Hamilton, a party from the Veterans Guard at Trail, Nelson Platoon of the Rocky Mountain Rangers, and individual friends. Included in the party from Trail were Lt. J. R. Jones, Lt. A. E. Rintoul, Sergeant-Major Burlan, Corporal Murray and Private Wishart. Cpl. A. Satchel, Chairman, and Pte. H. J. Sawtell had charge of arrangements, and every man in the Platoon assisted. For cards Sgt. Frank Lloyd, Corporal Satchel and Pte. Percy Cooper acted as masters of ceremonies. At the dance which wound up the evening's fun Albert Smith was pressed into service to call the turns in dances. A buffet supper was served at a long table in the Platoon dining hall, tables being loaded with sandwiches, pies, jelly tarts, doughnuts and so on. The men entertained the services of Mrs. H. H. Currie, Auxiliary President, and Mrs. F. Cameron to arrange the decorative daffodils, pussy willows and tapers. Prize winners were: Mrs. C. H. Hamilton, ladies' first; Mrs. M. Kubin, second; and Mrs. Olga Appel, consolation; Pte. A. C. Shanks, men's first; Pte. H. J. Sawtell, second; and Mayor N. C. Stubbs, consolation.

Big Blast Reported on Production Line at Burlington Plant
BURLINGTON, Ia., March 4 (AP).—Superintendent of safety, Harvey Jaeger reported a blast on a production line at the Burlington Ordnance plant tonight. All city fire equipment and ambulances were ordered to the plant, a 20,000 acre site approximately four miles from Burlington. Jaeger said "all indications look as if it was worse than the Siam Dec. 12." That explosion in a melt unit at the Shell loading plant claimed at least 12 lives.

Japs to Start Road Work as Soon as Frost Out of Ground
OTTAWA, March 4 (CP).—Japanese moved from the Pacific Coast will be at work on road projects in the Rocky Mountains as soon as the frost leaves the ground, officials said today. The first Japanese moved are being housed in railway work cars along the Jasper, Alta.-Prince George, B. C., and Jasper-Kamloops, B. C. railway lines. They are engaged in construction of camps which will accommodate 200 men each for the road improvement and construction program which will begin as soon as possible.

Magnesium Method Available to U.S.
OTTAWA, March 4 (CP).—An official of the National Research Council has revealed that a revolutionary method of reducing magnesium ore to metal, recently developed by Dr. Lloyd M. Plidgen, a Montreal scientist, has been made available to the United States Government. He said the new process which makes it possible for magnesium plants to be built 30 per cent faster than normally, will be used in "seven or eight plants" now being built in the United States.

Manpower Plebiscite Goes to the Senate; Turn to Post-War Plans

OTTAWA, March 4 (CP).— Debate on the manpower plebiscite was transferred to the Senate today when the House of Commons, after two divisions on amendments, gave the enabling bill third reading. A second feature of the sitting was a debate on legislation to ensure that service men can return to their civilian jobs after the war is over, in which John R. MacNicol (Con. Toronto-Davenport) made a plea for detailed planning to prevent a post-war depression. D. G. Ross (Con. Toronto-St. Paul's) and T. L. Church (Con. Toronto-Broadview) joined Mr. MacNicol in urging the government to make provision for post-war employment. This debate arose over second reading, moved by Labor Minister Mitchell, of a bill "to provide for

the reinstatement in civil employment of individuals who enlist for service in his majesty's forces." Division bells rang twice in quick succession on the plebiscite bill after State Secretary McLarty moved third reading. The first, on a motion by Jean Francois Poubil (Lib. Temiscouata) that the bill be not now read a third time but at "this day six months hence"—the traditional "six months' hoist"—was defeated 173 to 13. There was no debate on the first amendment but a discussion arose when Robert Fair (N.D. Battle River) moved that the bill be sent back to committee for an amendment which would give the vote to inmates of institutions for the poor in certain provinces. It was defeated 135 to 37.

Victoria Wins From Clippers
VICTORIA, March 4 (CP).—Victoria Bapeos remained in the running for the Pacific Coast intermediate Amateur Hockey playoff by defeating Nanaimo Clippers 5-3 here tonight. Nanaimo still has a one-game margin, having won the first two games of the best of five series. The fourth game will be played at the up-island city Friday. Bapeos got their first goal at the 6:12 mark. Jack Kilpatrick taking a pass from George Dunn to put the locals one up. Clippers pressed hard and at 16:09 Red Carr slammed the puck past Laurel Harney on a pass from Dave Mackay to even matters. Bapeos made it 3-1 in the second in 1:37, Lou scoring on a neat pass from Walter McIntyre. Both teams pressed hard in the final period, but the locals had the edge, putting across three goals to Clippers' two.

M.R.K. Bantams Retain Trophy
James Avis' M.R.K. Bantams retained custody of the Wood, Valance Bantam Hockey Cup for another year when they defeated the F.A.C. Bantams Wednesday evening 4-3, and took the playoff series with two games out of three. They lost the first game 5-3 last week, tied the series with a 4-0 win Monday, and then took the clean-up game. The F.A.C.'s, the strongest Bantam team the Fairview club has ever had in comparison with its rivals, previously eliminated the Dodge Bantams in a series that went to three games. The M.R.K. Bantams have now led the Bantam League for five of the seven years of Civic Centre hockey, and they have been awarded or have won the Cup four times. The first season it came to them retroactively on the strength of their twin wins having finished first and second, and three other years they have won it in competition. The other three years it was won by Panthers. Ross led the M.R.K. scoring with three goals and an assist, with Avis tallying twice and St. Dennis one, and Pickering getting an assist. Fisher, S. Duffy and E. Duffy each got an F.A.C. marker, and S. Duffy also got two assists. The only penalty went to Ross. Mac Norris was Referee, with Buzz MacDonald Judge of Play, and Bob Brooks Scorekeeper and Timekeeper. Teams were: M.R.K.—E. Hinton, D. Ross, K. St. Dennis, G. Avis, D. Speira, B. McKay, J. McDowell, R. Pickering, D. Loontjens, T. Waters, G. Morgan. F.A.C.—D. Morris, S. Fisher, J. Holmes, S. Duffy, E. Duffy, G. Brett, F. Brett, L. Grimwood, D. Colman, R. Lawrence, J. Todd.

Allen Learns to Swim Before Going Back to Job with Navy
MIAMI, Fla., March 4 (AP).—Larry Allen learned to swim, and today he is due in Washington as the first step of his return to duty as the Associated Press war correspondent with the British Mediterranean Fleet. Allen's determination to learn the art of aquatic locomotion was born of dire necessity. He has had three ships torpedoed under him, experienced 30 dive-bomber attacks, and last December slid feet first from the sinking British cruiser Galatea into the night-blackened waters of the Mediterranean with only an under-inflated life belt to support him.

British Airmen Here March 15; Billees Needed
Twenty-five Old Country airmen are expected to arrive here March 15 on leave. An appeal to Nelson and District citizens to open their homes to these men of the No. 34 S.F.T.S., Royal Air Force, at Medicine Hat has been extended by the Citizens Committee. It will be the largest group to visit here in some time, and arrangements for billeting are not yet complete. Mrs. George A. Hoover is Convener of the Billeting Committee.

Prairie Skaters on Trail Program
TRAIL, B.C., March 4.—Two prominent prairie figure skaters will perform at the two-day Trail Figure Skating Club carnival March 9 and 10. They are Shirley Martin and Muffy McHugh. Miss McHugh at one time held the Calgary open free skating championship, and has won many figure skating honors in the past few years. Since a lot she has been taking part in carnivals and fancy skating shows. Considerable prominence as a figure skater has also been won by Miss Martin. She has held junior, intermediate and free skating championships at Calgary, and paired with Miss McHugh once won the junior dancing.

Medicines

Action of Drugs Used for Heart

LOGAN CLENDENING, M. D. DRUGS ARE still the great remedy in medical treatment. The oldest book in the world, the Egyptian Ebers Papyrus, which is a medical treatise, mentions the use of castor oil and tells how many aster beans should be squeezed out for a good dose. This was thousands of years before we had any such new-fangled, vitamin-containing foods as broccoli, tomatoes, carrots, cantaloups, etc. Also long before water was used for the purpose either of treatment or ablation.

SLOGAN VALLEY COUPLE Mr. and Mrs. C. R. Burkitt of Appleton.

We can do nearly anything to the heart with medicine. We can make it go faster or slower. We can reduce the blood pressure or we can raise the blood pressure. We can increase the nourishment to the heart muscle, and so make it do more efficient work.

them into activity when they are sluggish, with cathartics. In stomach disease proper, we depend more on remedies which have a local action rather than general. This is probably because the commonest form of stomach discomfort are due to increased secretions of the gastric juice. Since the gastric juice is largely composed of acid, we can apply an alkali to neutralize it. We have a great many prime examples of these alkalis such as sodium bicarbonate, calcium carbonate, and the newer aluminum hydroxide.

QUESTIONS AND ANSWERS W. B. H.—"I. Is bread necessary in a normal diet? 2. Would a cup of fairly strong tea taken at four o'clock in the afternoon have any effect on the sleep of a person after 10 o'clock at night?" Answer: No, to both questions.

Children Family Quarrel a Normal Affair

By Garry Cleveland Myers, Ph.D. As Mrs. Myers and I go about meeting groups of parents and talking with them about their problems in the family we constantly hear the question asked about children arguing and fighting in the home. We always try to get the questioner to see that children naturally quarrel and that undue parental concern and interference cause them to quarrel more. The quarrelling usually arises from over-lapping of property rights or home duties, or from jealousies.

MOTHER'S LETTER One mother writes: "I have two children, a boy 13, and a girl 7 and they are good children at school and at play, but when they come home together, then the war is on. They fight every minute the two are together and I have tried to keep them from it but still they fight. I feel it is the older one's fault, more or less, as he seems to start it all. The girl had

No Refuge From Love

(Continued) The following day Molla telephoned Bryan. The little agent fumed and fumed, but Molla stood firm. "I am sorry, Mr. Bryan," she told him. "Surely an intelligent man like you would understand. But I promise I will give you definite word within six weeks." "Okay—okay. If that's the way it is, okay," he replied. "But promise me this, too. Some of the social big shots in town are whipping up a Red Cross charity ice show next week. Maybe you've heard about it. The money is going to be sent to Europe for refugee work. "So get this—it won't be any trouble at all to get you on that program. You won't refuse THAT, will you . . . and besides, we've got to keep you in the public eye. We've just got to." Molla's eyes glinted momentarily as his words came over the wire. "Yes, I will," she promised. "It's a good cause and I love to skate. I'll be glad to do it." Molla knocked on Tay's office door early the next morning. He looked up, pleasantly surprised, when she entered. "Would you—could you postpone our Saturday night engagement until the following week?" "Why, I guess so, if you insist. I won't even ask you the reason," he smiled. "Oh, but I want to tell you," she said quickly. "I'm going to skate in a Red Cross benefit show this Saturday at Madison Garden." "Madison Square Garden," he corrected, and then added enthusiastically. "Say, that's swell. We'll all have to go down and take a look. Dad, mother and all my friends. Got to show you off, you know." She laughed shortly. "I hope I do not disappoint them—or you." Eddie Bryan wasted little time. All the papers carried a story the following day of the latest addition to the Red Cross benefit ice performance. Two of the papers used Molla's picture again. Enid was thrilled. "Goah, this office hasn't

Space Exercising in Close Quarters

By IDA JEAN KAIN Modern apartments are so streamlined today that young women are complaining they haven't room to kick and are demanding more compact callisthenics. To meet this demand, I have worked out a set of exercises that don't require much more space than a handbox. If you can manage to clear a space six feet by four, you can do these: Position: Lie on back on floor, arms stretched straight up on floor overhead, legs straight down. Movement: Stretch right leg over the left, and at the same time, push up on floor with right arm. This gives your entire right side a thorough diagonal stretch. Relax and stretch the other side. Keep it up, very leisurely, for half a dozen counts. Position: Still on back, arms stretched up on floor, left knee flexed and foot on floor, other leg straight down. Movement: Flex right knee to chest and pull stomach muscles up. In Return to position and repeat five times, then switch to other knee. Position: The same as in exercise immediately above. Movement: This time swing the straight leg up to a right angle with the trunk. Lower and repeat six times. Then flex this knee and place foot on floor and have the other leg straight. Repeat six times. Position: The same. Movement: Swing straight leg and arm simultaneously and touch fingers to toes. Swing arm and leg on same side and keep elbow and knee straight. Position: Flop over face down.

Drinking Refuse to Allow Fiance in Home

By BEATRICE FAIRFAX Dear Miss Fairfax: I went with a girl for eight months and we fell in love with each other and became engaged. She lives at home with a brother and father, but lately they have forbidden me the house, saying I drink too much. I love my fiance so much that I promised her I'd give up my drinking. If I keep on going with her, her father says she'll have to get out of the house, and then she'll have no home at all. My job doesn't pay enough yet to marry, although I expect to get a raise very shortly. TOM. Why don't you write her father a letter and ask him to put you on probation for a given time. Then, if you keep straight and don't drink, perhaps they'll accept you as the girl's fiance. Don't think of marrying until your salary will enable you to have a home. It's a great mistake to marry on next to nothing. In the battle of Gettysburg six Confederate and five Federal generals were killed or fatally wounded.

Children My Choice Pacific

"The first time I ever used canned milk," writes Mrs. M. L. "I happened to buy Pacific. A questioning curiosity urged me to try them all. Finally I swung back to Pacific Milk. If you are seeking a good milk that actually goes farther, Pacific is almost sure to be your choice."

Space Ward on the Floor

Position: Lying on back on floor, arms flexed so you can push with your hands. Movement: Roll over on one side, back across the hips, and over on the other side. There's so much action in the exercises given above. But if you will do them accurately they will firm the midriff, slim the waist, streamline the hips and put you in good shape generally. Checks cashed through Canadian clearing centres in 1941 amounted to \$39,298,000,000 as compared with \$34,637,000,000 in 1940; a gain of 14 per cent.

FATHER OF AIRMAN GRAY WAS BROADCASTING FOR VICTORY LOAN NOT KNOWING SON HAD FALLEN

Twelve hours before he received the cable from London announcing the death in action of his airman son, Sgt. J. B. Gray, Jr., J. B. Gray of Nelson was broadcasting a speech over Radio CKLN advocating the purchase of Victory bonds. His son was killed during an action against the enemy on Feb. 27; Mr. Gray spoke over CKLN at 8:30 p.m., Feb. 27; the cable which brought the news of the death of the first city of Nelson boy to die in action in this war arrived early Feb. 28.

In his broadcast Mr. Gray said: "I wonder how many of us would like to change places with a soldier, sailor or air-man. How many of us have ever tried to put ourselves in the position of a young man when he makes the great decision to enlist and fight for the defence of his country and the protection of the dear ones he left at home.

"We cannot tell what his thoughts and motives are when he makes up his mind to join the fight for freedom. It may spring from the spirit of adventure which caused our forefathers to sail the seas and seek new lands and new opportunities. Or we can imagine that somewhere within the heart of these young men there is a stirring of a spirit that has come down to him from generations of men who in the past gave their all in the fight for freedom.

"Whatever it is, it is a decision that involves high courage, fortitude, determination and an inflexible will to fight and triumph against the forces of oppression. Without doubt many of us have felt this same spirit stirring within us at some time or another. It annoys us occasionally not to be able to join in the battle. But I know that as loyal and true men and women of Canada you are already resolved to provide sufficient weapons for our men in the battle, in such vast quantities as will enable them to overwhelm the enemy. The job which you and I and everyone of us is called upon to do, which is no more than lending our money, is a job nevertheless that must be done. It takes money to keep our men in the field supplied with all they need in food, clothing and weapons. If you can think of Canada's need for money in these terms you will understand why it is imperative for all of us to lend our money to Canada and buy Vic-

Vegetable Market Strengthened by California Frost, Labor Scarcity

Owing to frost damage and scarcity of labor, the California market on vegetables was reported by the wholesalers Wednesday to be very strong. Considerable delays were occasioned during transit. The vegetables affected were head lettuce, celery, carrots, cabbage and cauliflower.

Onions are practically cleaned up also. Local supplies of potatoes and turnips are still sufficient for the demand and the orange market remains firm with little chance of reduction in price.

Potatoes suitable for seed should be available within the next week. Fertilizer stocks are now here and are beginning to move.

Easier lines of confectionary are expected in within the next week. These are difficult to procure because of the sugar rationing.

There is an advance in the butter and fresh lamb markets, and a decline in the egg market.

Carrot arrivals this week were one mixed car of wheat, crushed oats, oat chop, ground screenings, bran, shorts, and flour, one car of alfalfa, and one of California oranges.

Niven Article Tells Scotland of Nelson Plan

In the Glasgow Herald appears a large reproduction of a picture of Nelson and an article by Frederick Niven, which tells of the Nelson plan of entertainment of visiting airmen.

"Nelson reminded him of Arcturion at the head of Loch Long" is the caption below the picture.

"Nelson is yours, they are told" says the Niven article.

"It is no mere empty phrase. The Air Force uniform takes them free of charge on the street-car that goes twisting up and down through the little city on the mountain side, takes them free of charge into the movie-house, into badminton courts, skating rink or curling-rink, and to a performance at the theatre. Dr. Sparks Seeks Wider Experience in Edmonton Work

Wider experience in the examination and identification of tissues, malignant and otherwise, is the goal of Dr. F. P. Sparks, Nelson Medical Health Officer and Laboratory Director at Kootenay Lake General Hospital, in postgraduate work he is undertaking at the Alberta Provincial Laboratory, University of Alberta, Edmonton. Dr. Sparks is at Edmonton on six months leave of absence.

During his absence Dr. C. M. Robertson will act for the first three months and Dr. R. B. Brummitt for the second three months in the capacity of Medical Health Officer, and will take special calls to schools Communicable disease cases will be reported to Dr. Robertson during his term of service and to Dr. Brummitt during the second three months.

Arrangements have been made whereby pathological examinations ordinarily undertaken by Dr. Sparks at the hospital will be carried on during his absence, slides being prepared here and forwarded by mail or air mail for reading.

Nelson is the only centre in the Kootenays doing pathological examinations, much of the work coming from district points.

LONDON, March 4 (CP)—Lady Astor suggested today that members of Parliament—of which she is one—go home and let Prime Minister Churchill's new Government get on with its war work.

"We have done what the country wanted—kept the Prime Minister and changed the Government," Lady Astor said in a letter to the Times. "No mean performance."

Jap Sentenced to 6 Months in Jail On Curfew Charge

VANCOUVER, March 4 (CP)—Curfew regulations affecting all Japanese living on the Pacific coast will be strictly enforced, Magistrate Mackenzie admonished in city police court today when he sentenced Sotaro Sakai, 66, to six months in jail for being abroad between sunset and sunrise.

Constable J. Cotter, who arrested Sakai, testified the accused was one of five Japanese who emerged from the doorway of a building at 1 a.m. today. The other four men disappeared into an adjoining door but Sakai remained to lock the one from which the five emerged.

Sakai said that although the two doors bore different addresses they were in the same building and he believed it was not violating curfew regulations to go from one to the other.

He was the first Japanese to be sentenced under curfew regulations.

Nelson population is 5750 according to the preliminary 1941 census figures.

Wondering—Would you please tell me if a person aged 19 in December, 1941, is liable for the Dominion Income Tax?

Yes, is he earned over \$750 during the year.

Is a person liable for 1941 Income Tax if he enlisted in his majesty's armed forces in February, 1942?

Yes.

Reader, Nelson—Could you please give me the price of First Grade Butter and Grade A, and medium eggs at the Nelson Public Market for each month during 1941?

Prices on these products varied during each month in 1941. Following are the prices on the last Saturday of each month: January, Eggs, Grade A—33 to 35 cents, medium 30 cents; butter 30 cents. February—30, 27; 38. March—25, 23; 38. April—25, 23; 38. May—27, 24; 35. June—32, 28; 35. July—38, 35; 35. August—50, 45; 40. September—50, 48; 40. October, November and December—50, 48; 40.

B. Creston—Could you give me the proportions used in the old remedy of sulphur, molasses and cream of tartar?

One part of molasses to four parts sulphur. Dose is a dessert spoon to tablespoon.

J. M. Nakusp—Is there any penalty for a merchant selling cigarettes to a minor? What is the age limit?

It is a violation of the Tobacco Restraints Act of B. C. to sell cigarettes to a person under 16 years of age without a permit from their parents or guardian. The penalty is settled by the court according to the seriousness of the offense.

Opposes Placing Japanese Anywhere Near Trail Smelter

To the Editor:
 Sir—Did the people of Nelson ever think what they ask for, in wanting Japanese put in the Interior, outside of a few that would make a profit out of a few groceries? Do they know that the Japs would be placed within 25 miles of Trail munitions plant, that one explosion would cause a lot of deaths? Do they know that in one hour's work you could place death at the door of every man, woman and child in Sheep Creek and close down all mines?

Did you ever think what this means to Nelson? And not only to a few who seek large profits if Sheep Creek is closed down on account of danger. Selmo will also be a dead horse. How long will Nelson live, as a good amount of business comes from the district?

F. J. BOETTGER

MacArthur and His Men

(From Chicago Tribune)

The American who reads of General MacArthur, his men on the Bataan peninsula, and the Chicago captain who so far has killed 116 Japanese may be tempted to subscribe to some false conclusions. The evidence does not lead to the conclusion that one American is equal to 10 Japs.

General MacArthur is not an ordinary military leader. MacArthur had already been the top soldier in the United States before he ever went to the Philippines. Not only had he been chief of staff but he was one of the few American officers who had any conception of the kind of war that the future would bring. When the Germans staged their blitzkriegs in Poland and in the West most of the world was caught by surprise. They had foreseen nothing of the sort. But MacArthur had called the turn long before, in the years between 1930 and 1935, when he was chief of staff.

Unless, he said, "an effort is made to curb or combat the unabashed and unsound propaganda of the peace cranks . . . a score of nations will soon be ready for the sack of America." He foresaw that the coming war would be highly mechanized and submitted specification after specification detailing the sort of equipment and training that would be necessary to win such a war. He argued incessantly for tanks, trucks, motorized columns and a huge air force.

He was not heeded in his own country, and it is hardly because of the foresight of the United States Army that he is now in a place where he can interpose the only effective resistance the Japanese have yet encountered. When his term as chief of staff was over there was nowhere else for him to go. The Philippines, promised their independence and concerned with the problem of what would happen when they were on their own in 1945, offered MacArthur the job of organizing and training their own army. MacArthur resigned from the United States forces and went to the Philippines at President Manuel Quezon's invitation as field marshal of the Philippines.

The army of Filipinos he had expected to develop never grew to the size or proficiency that he had visualized. This was largely the fault of the Philippine government, which steadily cut down the appropriation of \$6,000,000 a year that had been promised. Again, when danger came ever closer, the funds for a general mobilization of the men MacArthur had trained appeared to have been withheld. The forces now fighting with MacArthur are understood to be largely composed of American regulars and the Philippine Scouts—a native constabulary chief engaged before the present war in putting down sporadic rebellions. The Scouts are, however, veteran troops with an average of from six to 12 years' training, and are much better trained than American conscripts.

Thus, a professional soldier of extraordinary gifts is leading a professional and highly trained army in Bataan. We must not be misled into the fallacious belief that raw recruits but recently called from civil life can, with short training and, often with inadequate weapons, march against the Japs and find them a pushover.

Lieutenant General Lesley McNair's recent warning should have prevented that misconception. He said that our present draft army could not be classed as first-line troops and that while they are capable of fighting creditably, they are as yet unready to fight without suffering excessive losses. We must reconcile ourselves to the fact that we are fighting a first-class army in the Japanese, and that there are no short cuts or miracles on the way to the final and conclusive defeat of the enemy.

Today's Horoscope

The prospects for the next 12 months are most propitious for those who celebrate birthdays today. This time is excellent for business, dealings in property, and with agents and lawyers, travel, secret matters, and love affairs. Inheritance is also shown. They have the talents to lead others. Sincere, purposeful efforts in business should win them executive positions. May and June are their most favorable months. The little one who is born on this date will be very fortunate in business when he or she grows up, and also in love. His or her intellectual and aspirational facilities will be of an exceptionally high order. Any chosen profession promises success.

Polliteness is not always the sign of wisdom, but the want of it always leaves room for the suspicion of folly.—Landon.

Back Up Our Men by Lending for War Costs

More than 500 men, considerably more, have enlisted from the Nelson area to fight in the air force, the army or the navy in this struggle for survival.

They are offering their lives in defense of Canada against the Axis Powers which would destroy the British Empire and are today threatening, and very directly threatening, Canada on both the Atlantic and Pacific.

Nelson Victory Loan committee is asking that the thousands of us who reside in this immediate Nelson district should lend to the government for expenditure in support of these men 500 times \$1000. That does not mean \$1000 for each subscriber; it is about \$250 a family average. Some can lend \$1000, some more, some are able to buy a \$50 or \$100 bond, some can buy for cash out of savings, some can buy on easy terms from the banks out of savings which they can make in the future.

Nearly all can help in this war effort. It is upon the thousands of small subscribers in Canada that the success of this loan depends.

Behind Our Fighting Men

Every day of this war, fighting men of our race, and of peoples and races allied with ours, are giving their lives heroically to stem the tide of aggression.

Our hearts are stirred from day to day by the battles in the sea lanes among the land masses and archipelagos of the Indian Ocean and of the Pacific—battles in which our crusaders for freedom are wreaking destruction from the air, from surface fleets, and from under-water craft, among the steel-protected convoys transporting brown soldiers by the scores of thousands to new landing places.

Wonderfully effective work is being done by the sea and air fleets of the United Nations, against at present superior air-power and sea-power, to send to the bottom substantial proportions of those convoys of men and of equipment, so that the outnumbered land forces, wherever they may be, may have the better chance to stand off the unclean brown flood.

In Australia, in the Australian Mandates, in Java and other countries of the Netherlands East Indies, in whatever is left to us of Malaya, on the river banks in Burma, the battle is going on incessantly on land, on sea, and in the air, while reinforcements are hurrying by many routes, to the Orient's widespread war zone.

And in Europe, in Africa, in Britain itself, where British boys, Canadian boys, Kootenay boys are giving, and have given their lives, the picture is the same.

They give their lives.

Are we making available our dollars?

Or are we just playing at it, giving token subscriptions?

There is ample proof, in the figures of earnings, that many here are still living in comfortable detachment from the war instead of studying how to save and lend dollars.

When dollars are tanks and guns and planes and ships and shells and bombs, when we refuse to let the Government use them, we are deserting those who represent us on the fighting front.

Press Comment

NEW ZEALAND "TAKES IT"

The drastic restrictions on the consumption of petrol are the community's most forceful reminder of the impact of the war in the Pacific. Until the present this country, in spite of the war, has suffered practically no loss in material comforts and conveniences. Now by an announcement overnight not only are the comforts of motor travelling gone for most, but business suffers heavily and many incomes will be reduced. This is a grave matter. But these are grave times and grave steps have to be taken.—Auckland N. Z. Times.

YOUR HOUSE AS SECURITY

Do we need to refer to the "collateral" behind these Victory Bonds, as we do in checking an industrial bond? Perhaps. Well the guarantee of payment, interest and principal, on the face of a Victory Bond, rests not only on Dominion Revenues, but is backed up by a mortgage on every asset in Canada—our natural resources, our natural production, our national income, our own houses, and all our possessions.—Val d'Or Star.

Looking Backward

10 YEARS AGO

(From Daily News, March 5, 1932)

Mr. and Mrs. A. D. McLeod have as their guest, Mrs. E. G. Montgomery who arrived from Kimberley.

W. S. Hefferman of Mirror Lake was in Nelson.

George Abey, Nakusp druggist who formerly resided at Kaslo, was a city visitor yesterday.

Mrs. R. Bradley of Nakusp entertained at the tea hour Wednesday afternoon. Among those present were Mrs. J. N. McLeod, Mrs. J. Thompson, Mrs. J. Pender and Mrs. R. Milne.

25 YEARS AGO

(From Daily News, March 5, 1917)

W. E. Zwicky of Kaslo was in Nelson on business connected with the Cork mine.

Frank Brooks and James Ains of Appledale left last week for Creston to join the Forestry Battalion.

Ald Arthur F. H. Meyer and Harry Ralph Bidder of Greenwood have been appointed to the boards of license commissioners and police commissioners for that city.

Capt. B. H. Olson, superintendent of the Balfour sanitarium, is visiting the city.

John B. Code of Mission City and Frank L. Cummins of Trail have been appointed justices of the peace.

40 YEARS AGO

J. Callahan transferred all his interest in the Humming Bird claim to M. O'Neill.

Mrs. Fred B. Wright of Kaslo arrived in Nelson yesterday and is the guest of Mrs. A. G. Shaw, Mill Street.

W. G. Gillett received intimation that his tender for the erection of the Nelson drill hall had been accepted.

Rev. J. H. White returned last night from the Boundary where he has been for the church.

Test Yourself

1. What is meant by Dead Sea Fruit or Apples of Sodom?
2. Who was Edward Teach?
3. Who wrote "The Lost Chord"?

TEST ANSWERS

1. Apple trees around the Dead Sea, bore lovely appearing fruit, rich, glossy, purplish-red in color, but filled with an intensely bitter, porous, easily pulverized substance, decidedly inedible. The term is applied to anything wonderful in contemplation but disappointing in result.

2. A pirate who was known as Black Beard because of his long black beard.
 3. Sir Arthur Sullivan.

PROVE DESTRUCTION IN MALAYA

Though British officials in Malaya have been criticized for the failure to carry out a scorched earth policy, the above photos prove that the destruction was carried out to a certain extent when possible. The upper photo shows a rubber plant and its supply of crude rubber blazing fiercely as British evacuate the vicinity. The lower photo shows Indian sappers preparing to destroy a bridge to slow up the Jap advance near Kuala Lumpur. Both these photos have been released by the British censor.

WAR URGENCY BEATS TIME AND TIDE

Time and tide—those two things wait for no man we're told, so the Zebulon Pike, a new freighter, was launched at 5 o'clock in the morning at Los Angeles because the next tide would be at 5 p.m. That would have meant a 12-hour delay in laying the keel for the next ship—and in this war time is of the essence. Place: California shipbuilding yard, Los Angeles.

SPORTS

Senior Finals Start in Trail Friday Night

British Columbia's junior hockey finals open at Trail Friday night when the Nelson Junior club travels to the Smelter City. The second game will be in Nelson Saturday night and if a third is necessary it will be played in Nelson Tuesday night.

Contestations to have the three played in Nelson failed, and Aitken, B.C.A.H.A. Secretary, and Nelson club officials Wednesday night of the present playoff umpeller, the Alberta winner,

Trail and Nelson have been idle since completion of their play in the Junior-Intermediate League and several changes have taken place in the Nelson Club. Everett Kuhn has left for the Coast and the Nelson club has been granted permission to bring up two juvenile players to replace Kuhn and Hilliard. Hilliard left earlier to join the B.C.A.F.

Coach Walter Wait has not indicated as yet what juvenile players will get the nod, but Red Wassick and Bill Holland were out to the Tuesday night junior practice.

More accidents occur in baseball than in any other sport, with Winter sports second.

Div. III Hoopster Win School Series

Div. III boys Wednesday lifted the High School Inter-Division Basketball crown when they edged out a 32-28 triumph over Div. I's finalists. The final was a replay of a game tied 30-30 between the two squads a week previous.

The Div. III won their game in the last half, having trailed 13-13 at half time. Roy Mann was the big gun of the winners' attack, and piled up 18 points of the 32.

Teams and scores were:
Div. I—Louis Gagnon 19, Paul Hloockoff 3, Oliver Laakso 4, Warren Ferguson, Martin McLennan 5, and Elmer Domeij 1-26.
Div. III—Frank Kennedy 4, Frank Christian, Roy Mann 16, Jim Ritchie 2, Bob Wilson 2, David Sieder 2-32.

Officials were Doug Winlaw, referee; Roy Temple, umpire; Isabelle Kaye, scorer; and Joan Carew, timekeeper.

Panthers Exit Juvenile Cup

Panther Juveniles bowed out of the Juvenile Hockey Cup picture Tuesday night when they were defeated 15-0 by the F.A.C. Juveniles. In a game the Panthers had already lost when they took the ice with a borrowed player in goal, Red Wassick, M.R.K. defenseman. As they had failed to field a team for the cup game scheduled early last week, which the Nelson Amateur Hockey Association ruled was won by the F.A.C.'s by default, Tuesday night's game gave the F.A.C.'s the series. The M.R.K.-F.A.C. war will open Friday, for a best-of-three for the Cup.

Bob Noakes got five goals and three assists, Christian two goals and six assists, Gallicano four goals, Norris three goals and an assist, and Milne a goal and an assist. Milne visited the penalty box twice, and Gallicano and Bob Noakes once each, all being F.A.C.'s. Slim Porter was Referee, Buzz MacDonald Judge of Play, and Bob Brooks Scorekeeper and Timekeeper. Teams were:
F.A.C.—J. Houston, F. Christian, J. Kubin, J. Gallicano, J. Milne, M. Norris, F. Doyle, R. Noakes.
Panthers—Red Wassick, R. Morrow, D. Potosky, C. Noakes, Bud Whitfield, J. Steed, J. Maglio.

Fistic Show to Aid Families of Soldiers

NEW YORK, March 4 (AP)—Mike Jacobs is contemplating holding a giant fistic carnival this summer with the proceeds to go to the needy families of the men serving with Gen. Douglas MacArthur on the Bataan Peninsula.

Jacobs is considering putting on at least two title matches. Involving such champions as light heavyweight King Gus Lesnevitch; middleweight champion Tony Zale; Red Cochrane, welterweight titleholder; or Sammy Angott, lightweight ruler.

Manitoba Pushed Out of Unbeaten Class by B. C.

QUEBEC, March 4 (CP)—The Manitoba rink, skipped by J. Ken Watson, suffered its first defeat in the Macdonald's Brier Tankard play for the Canadian Curling Championship here tonight.

In the sixth round, the Winnipeggers were defeated by Donald Campbell and his British Columbia four from Vancouver. The score was 13-11.

John Slavik of Viking, Alta., lost a 14-13 decision to the Ontario rink skipped by Gordon Campbell of Hamilton.

Saskatchewan was beaten by Prince Edward Island, 10-7; Northern Ontario lost to New Brunswick 10-8, and Nova Scotia beat Quebec 7-6.

In fifth round matches Manitoba defeated Quebec 8-7.

Ontario dropped from the unbeaten class when Donald Campbell of British Columbia outskipped his brother, Gordon Campbell of Hamilton Thistles, 14-6. Alberta turned back Northern Ontario 10-8; New Brunswick won 13-7 over Saskatchewan; and Prince Edward Island won a 13-7 decision over Nova Scotia.

Jimmies, Police Off to Creston for Title Play

TRAIL, B.C., March 4—Jimmies West Kootenay ladies' Senior B basketball champs, and Tedano Police are off on the title trail again Friday. Both teams go to Creston, the Jimmies to meet the Creston ladies in the opener of a two-game series for the Interior championship, and the Police to battle the Creston men for the Kootenay men's Senior B title and the Blylock Bowl.

Second game of the ladies series will be played Saturday.

Norgan Is Dominion Curling President

QUEBEC, March 4 (CP)—George Norgan of Vancouver today was elected to succeed Premier Campbell of Prince Edward Island as President of the Dominion Curling Association at its annual meeting here. Included on the executive were: L. S. Herchmer, Crow's Nest Pass Curling Association; Donald Campbell, British Columbia Curling Association.

Nelson Leads First Round of Golf Open

ST. PETERSBURG, Fla., March 4 (AP)—Byron Nelson, the lean, eagle-eyed Texan now playing out of Toledo, O., today flashed the form that has made him a money winner in his last 90 tournaments and the result was a four under par 34-34-66 to lead the first round of the 72-hole \$5,000 St. Petersburg Open.

His fine performance was only one stroke better than that of the veteran Billy Burke of Belleair, Fla.; also a former National Open king, and Al Broach, the bespectacled pro of Farmingdale, N. Y., who holds the Metropolitan P.G.A. title.

It's a Great SPRING

It's funny how all of a sudden Spring is here and every little gurgle of a stream or soft blossom-scented breeze becomes the prime interest of our lives. And have you noticed that with the coming of Spring you invariably adopt a complete new outlook and attitude? This proves that even though we're complicated, "multi-worried" humans we're still a part of Nature's plan . . . that we, too, blossom out under the caress of a luxuriously soft Spring sun.

Spring puts us in the mood for fundamentals . . . makes us more aware of the things that are close to us. We want to get out in the yard and play with the dog . . . have fun with the kids . . . we want to fix up the garden . . . we want to build things, do things . . . we want to put on fresh clothes and take long, slow walks through sun-flecked woods and sun-drenched meadows.

And Spring is that time of year when the Nelson stores are full of new things, the things that make life more enjoyable, new clothing, footwear, furniture, foodstuffs, etc. There are new cars to be seen in the Nelson garages, the Nelson builders have new ideas for your home, in fact Spring can be enjoyed to the utmost when you visit the shopping centre of the Interior.

DRESS HAS TWO-PIECE EFFECT
Marian Martin

PATTERN 9018
For all your important afternoon affairs, you need one smart new frock—one that looks like a two-piece is the current favorite. Marian Martin brilliantly interprets this vogue in Pattern 9018. The bodice has the new slightly extended shoulders, the front seam is trimmed with button two-somes, and has a notch-like opening at the high neckline, or tiny revers. You may omit the peplum if you like, or make it detachable by stitching it to the belt. One of the new novelty pins would be stunning on the bodice—it is optional. Make the sleeves the new three-quarter length, long, or short. You'll find this frock so easy to stitch up with the Sew Chart.

Pattern 9018 may be ordered only in misses' and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40. Size 16 requires 3 1/2 yards 36 inch fabric.

Send twenty cents for this Marian Martin pattern. Be sure to write plainly your **SIZE**, name, address and style number.

Send your order to The Daily News. Pattern will be sent to your home within 10 days.

Former Persian Shah May Make Home in Canada

OTTAWA, March 4 (CP)—The Canadian Government has granted permission for the former Shah of Persia and his family to come to Canada it was learned today but so far the External Affairs Department have not been advised that he is on his way to this Dominion.

His name is Reza Khan Pahlava and he was deposed after British troops entered his country last Summer, his son taking his place. Since then the whereabouts of the deposed monarch has been a secret but Canada was asked if it would be willing to have him moved to Canada. Canada made no objection.

The ex-Shah was offered the choice of several countries none of which he was enthusiastic about but thought Canada's climate might be something like the uplands of Persia. The permission was given several weeks ago but since then no action has been taken. Officials here thought the plan had been dropped until the German radio yesterday said he had landed in Canada.

The Department has no advice to that effect but expects soon to have advice as to his whereabouts.

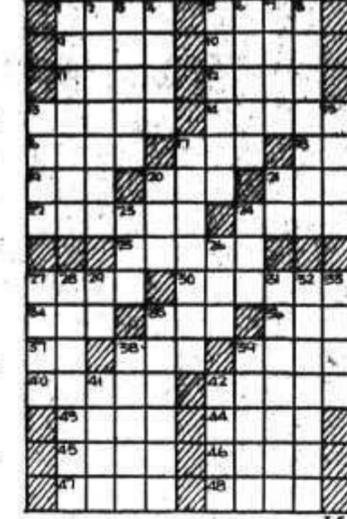

President Teddy Roosevelt used to gather stamps for young friends who were collectors.

Kamloops Asks Japs Be Put Under Guard

KAMLOOPS, B. C., March 4 (CP)—A mass meeting of citizens of this Interior city last night adopted a resolution asking the Federal Government to put Japanese removed from the coast area in Dominion Government work camps under armed guard. The resolution also asked that no person of Japanese origin be permitted to buy, lease, rent or otherwise acquire land or business in any part of Canada.

Yesterday's Cryptogram: IN ORDER NOT TO DISPLEASE TOO MUCH ONE MUST SUBMIT TO BE FREQUENTLY BORED—VOLTAIRE

Cryptograms are quotations of famous persons written cipher. A substitute character has replaced the original letter. For instance, an "R" may substitute for the original "E" throughout the entire cryptogram, or a "BB" may replace an "LL". Find the key and follow through to the solution.

CONTRACT . . . By Shepard Barclay

WHICH ARE YOU USING?
NOBODY can say arbitrarily that one language is definitely better than another. It is the same with bidding systems, which are practically nothing but languages whereby you can tell your partner what you hold, and he can tell you. The most important thing is for you to know what language he is speaking, and to understand it, and for him to do likewise. Otherwise you will have some funny disasters—that is funny to the enemy.

Perhaps the lesson of the deal is this—if you are with a new partner and don't know how he handles No Trump bids, open with 1-Club as North did at Table 4. You are less likely to get into trouble then, as there is not so much difference in the ways responses are handled to suit bids as those to No Trumpers.

At Table No. 5, the No Trump bid was by a man used to making them only on very big hands. If the partner's hand is worth anything at all, he must show it by jumping to three in a major. If he goes only to two, it is to say the hand is worthless, as the original bidder passes. South didn't know that, or would have bid 3-Spades.

Note how differently the other tables handled it—no two exactly alike. Of course, those who bid the game in either spades or No Trumps made it easily, by playing the spade suit correctly, leading the Q toward the A when both 10 and 9 are held.

If West leads the club 2, how should South plan the play of this deal in match point duplicate at a contract of 6-Spades?

TWO MORE NELSON YOUTHS TO TRAIN FOR AIR FORCE

Robert Proudfoot, son of Mr. and Mrs. Proudfoot of Nelson has been accepted by the R.C.A.F. for air crew. He is to be trained for pilot or observer and will leave for Calgary about the middle of March.

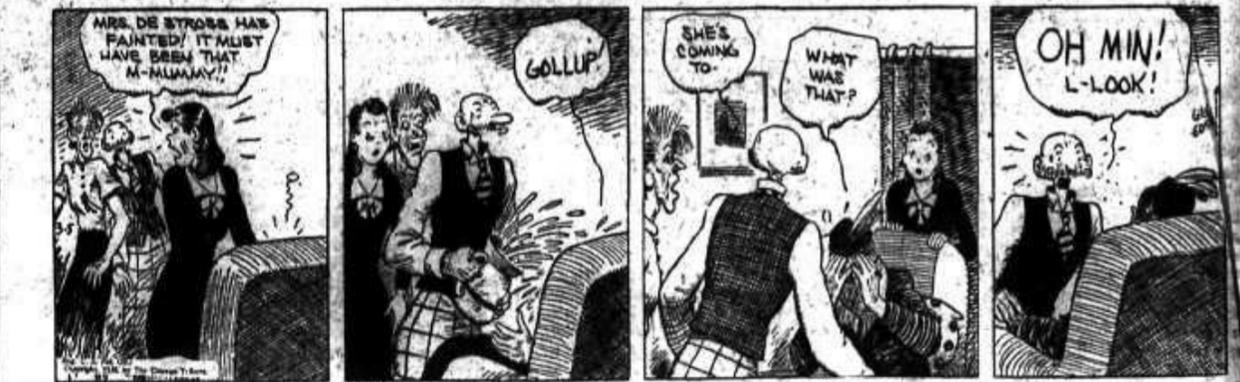

Peter Robinson, another Nelson youth, son of Mrs. D. Robinson, Fairview, has also been accepted by the R.C.A.F. to train for aerial mechanic. He plans to leave about the end of April.

Jap Families Leave by Cars Seek New Homes

VANCOUVER, March 4 (CP)—Japanese spokesmen said today that several Japanese families have left and are leaving the coastal defence zone by cars, trucks and train with the sanction of authorities, seeking places to settle East of the Cascade Mountains.

Japs Hold Vital Areas in South

LOS ANGELES, March 4 (AP).—Southern Californians, who long have known that Japanese had infiltrated into defence vital areas, had that fact emphasized with startling clarity today. District Attorney John Dookweiler's office exhibited a map showing Japanese hold leases on land in or adjoining nearly every strategic region hereabouts.

Japanese, alien as well as American-born, leased all of the strategic shoreline of the Palos Verdes Hills. Some outposts of the harbor defence setup are in that area. Land under lease includes beaches which could be used for military landings, largely concealed by cliffs.

Other Japanese leases include land in or adjoining these vital regions: Every railway line in Los Angeles County. Owens Valley Aqueduct, which furnishes water to Los Angeles and many other cities in the country. Every major highway. Power line rights of way. Vultee, Douglas and Lockheed aircraft factories.

Heart of the Signal Hill oil field and adjacent to Long Beach municipal airport. Virtually every major refinery and oil tank farm in the harbor area. The map also showed that Japanese hold a mile-square, flat, semi-desert tract Northwest of Lancaster which could be converted into a military flying field.

Jap Raiders Strike at Darwin

SYDNEY, March 4 (CP)—The Japanese have carried out another air raid on Darwin, on the North coast of Australia, Prime Minister John Curtin announced today.

The raiders were enemy "P" naval fighter planes and reported some damage but no casualties. The waterfront and R. A. A. F. installations were machine-gunned in the early afternoon.

The new raid on the far Northern harbor, of potential importance to the United Nations fleet in the Pacific, followed two enemy air assaults yesterday on the Australian mainland.

First 'Ram' Tanks Land in England

SOMEWHERE IN ENGLAND, March 4 (CP Cable).—The first "Ram" tanks have arrived in England from Canada.

The speedy, heavily-armed cruiser tanks, designed by Maj. Gen. F. F. Worthington of the Canadian Army and made in Canadian factories, are to be used by Canadian armored formations Overseas.

BICYCLE OWNERS MUST HAVE 1942 LICENCES NOW

Bicycle licenses of 1941 expired March 1, and all bicycle owners who have not yet taken out a license are asked to get them immediately. Chief of Police G. R. Bone stated Wednesday that all cyclists not having licenses will be checked up. They are also asked to turn in their old licenses when buying new ones.

Urges United Nations to Follow Russia's Example

LONDON, March 4 (CP). — Sir Stafford Cripps, leader of the House of Commons, appealed to the United Nations to follow the "all-out" example of Russia in the world fight against Nazism and Fascism in a broadcast speech to the United States today. "We now are all allies together to drive aggression and Fascism from the world," Sir Stafford declared.

Interpreting The War News By KIRKE L. SIMPSON Associated Press War Analyst Sharp blows struck at the Japanese by American forces in the Pacific theatre, ashore and afloat, do little immediately to relieve the gathering gloom as to Java's fate, but they definitely serve notice on Tokyo of what the future holds. The operations were offensive in nature, they further whittled at enemy resources in shipping and air power already heavily strained to maintain a vast battle-front. On Luzon, Gen. Douglas MacArthur's plan-side force landed on its Bataan refuge to send three big enemy cargo craft to the bottom of Subic Bay. Somewhere "West of the Gilberts" a naval task force blasted 16 of 18 attacking Japanese bombers from the sky. The loss of two naval fighter planes and one pilot were the only American casualties. The achievement of MacArthur's few planes furnished a thrilling counterpart for the gallant stand of his American-Filipino troops on Bataan. Aside from the fact that it knocked out three more enemy surface ships, however, it is only a minor incident of the struggle. The sea action has another significance. "West of the Gilberts" covers a vast swathe of sea. To the Northwest lie the stepping-stone islands of Japan's mandate outposts, the "stationary plane carriers" around which her offensive strategy is built. The planes brought down by American naval guns and air fighters probably came from there. Appearance of an American naval task force in that region means carrying the fight to the foe. There is no word as to its mission. Presumably it was to knock out other Japanese island bases which menace Pacific supply lines. With the Java defence in dire straits, the security of those routes is increasingly vital if the United Nations front is compelled to fall back on Australia. That also was the purpose of the American attacks in the Marshall and Gilbert groups. There is still little to indicate that a major American flanking thrust into the China Sea at the jugular vein of the Japanese conquest drive is impending. Japanese efforts to bolster defence of that flank were obvious, however, in new attacks on Zamboanga on the Southwest tip of Mindanao. The location of other new enemy operations in the Southern Philippines, on the islands of Ebu and Negros, have the same meaning. They lie North of Mindanao on the North side of the inside passage from the Pacific to the China Sea. Tokyo apparently expects an early American move to reestablish air and submarine base sites in the lower Philippines from which to press flanking attacks on Japanese communication lines in the China Sea. The appearance of a naval task force West of the Gilberts and its striking success in beating off and destroying a land-based bomber attack must brighten that expectation.
