HUN WARSHIPS OUT OF ACTION FOR MONTHS

MANDALAY HELD, JAP SPEARHEADS KEEP UP SPEED

Within 30 Miles of China's Yunnan Province

ALLIED POSITION SEEMS DESPERATE

LONDON, May 3 (CP) — The ashes of devastated Mandalay were held by the Japanese tonight as their mechanized spearheads pushed North toward China and West toward India in a great encircling move against the weary *outnumbered British and Chinese* defenders of Burma.

The Japanese thrust Northward from Lashio carried them within 30 miles of China's Yunnan Province, a Chungking communique said. Fierce fighting with heavy losses on both sides was in progress at Kweichieh, 58 miles from Lashio.

The Chinese High Command said the enemy pushed on to Mandalay after investing the railway town of Kyaukse, 35 miles South, on April 30.

A Chungking communique from the forces commanded by Lt.-Gen. Joseph W. Stilwell, U.S.A., said the Japanese entered Mandalay Friday and that savage fighting and great confusion raged in the rubble of the former capital of the Burmese kings.

The British account issued at New Delhi said vaguely that Chinese troops "are on both sides of the (Irrawaddy) river in the vicinity of Mandalay", but authoritative military quarters declared "it is apparent the Japanese control the Mandalay-Lashio Road" and that the Allied position is "very mucky indeed."

The Japanese radio attested to the thoroughness of the British scorched-earth policy by saying most steel bridges into the city were heaps of tangled ruin.

THREATEN INDIA

More ominously, the keynote of all the Japanese boasts was that "Mandalay had become an advance base for an attack on India." The shambles of Mandalay lie 200 miles across tortuous mountain country from the border of the great subcontinent of India.

The Chinese communique said the Japanese continued to drive Northward from Lashio, railhead of the Burma Road, but that Chinese forces holding Taunggyi, 170 miles to the Southwest, were continuing to harass the Japanese communication lines and rear.

There was a faint and desperate hope that these forces, pocketed between the Sittang and Salween Rivers, might exert sufficient pressure to isolate the more advanced Japanese. However, they appeared only strong enough to conduct guerilla warfare in which they are well schooled.

Competent London military quarters said the Japanese apparently had thrown out two powerful columns, one from the Lashio vicinity aimed at Bhamo 175 miles to the Northeast in the direction of India in an encircling move against British forces along the Chindwin River which flows into the Irrawaddy.

Bhamo is the Northernmost point of navigation on the Irrawaddy and the terminus of an ancient and important caravan road to Kunming, Chinese capital of Yunnan Province on the Burma Road.

Should the Japanese reach Bhamo, the British and Chinese positions in Burma would be rendered extremely critical, military sources said.

3 Soldiers Drown in Ontario

CHATHAM, Ont., May 3 (CP)—Three soldiers from No. 12 Basic Training Centre were drowned in the Thames River here Saturday in two canoe accidents.

The victims: Pte. Orville Henry Weeres, 19, of Orilla, Sask., Pte. William Liggins, 19, of Mazenod, Sas., and Pte. Jack Benjamin Barron of Montreal.

HUNS CLAIM 23 RUSS PLANES DESTROYED

BERLIN, May 3 (AP)—German dispatches claimed today 23 Russian planes were destroyed Thursday in the Lake Ilmen sector and a train loaded with tanks was blown up behind the Russian lines.

GENERAL WAVELL CONFERS WITH BURMA COMMANDER

With the fall of Burma feared near, an attack on India by the Japanese is expected in the near future. General Sir Archibald Wavell, right, commander-in-chief of armed forces in India, is shown here conferring with General T. J. Hutton, commander of the forces in Burma.

RUSS SWEAR TO MAKE 1942 YEAR OF NAZI DEFEAT

Soldiers and Civilians Pledged to Push Out Invader

FRONT IS STABLE

By HENRY C. CASSIDY

MOSCOW, May 3 (AP)—Red Army forces all along the 2000-mile front took oaths today to carry out Joseph Stalin's order to make 1942 the year of final defeat for the Germans amid indications the Russians are planning their *own Spring offensive.*

"Special conditions of Spring in which floods checked the advance of the Rer Army undoubtedly will change soon," said the official Communist newspaper Pravda. "Even more active military operations will begin."

Calling German threats of a *Spring offensive* "a jester's tale," the newspaper said:

"The Red Army will carry on the offensive in the Spring."

Premier Stalin's May Day order was read at meetings of troops, after which the men pledged themselves to fulfill its terms.

Southwestern front troops, guarding the approaches to the vital Caucasian oil riches, were reported to have "declared unanimously that their leader's order is al eading star for them in the forthcoming hot clashes with the German Fascist hordes."

Western front oaths were taken "to remain faithful to the country and *fight the enemy even harder* and fulfill the leader's order."

Similar meetings of civilians were held near the front lines, including regions in the Orel and Kharkov provinces where Spring reconstruction and planting is under way.

The front momentarily remained stable with the only actions characterized as local encounters. German efforts t thrust a wedge into one sector of the Western front Saturday night were reported repulsed. The Germans used tanks to support their infantry, indicating they were anxious to improve their positions even in these small scale engagements.

Jap Rangoon Base Hit Heavily by U.S. Bombers

WASHINGTON, May 3 (AP.) The War Department reported today that United States heavy bombers inflicted "severe damage" on Rangoon, base for the Japanese invasion of Burma, in a raid last Wednesday.

Advice of the raid was received in a delayed message from Maj.-Gen. Lewis H. Brereton, United States air commander in India.

U. S. Troops in East Mediterranean

CAIRO, May 3 (AP)—The presence of United States troops in the Eastern Mediterranean war theatre was announced Saturday by Major General Russell L. Maxwell, Chief of the U. S. North African mission but said they were entirely service personnel.

Giraud's Escape Engineered by Anti-Hitler Huns French Declare

VICHY, May 3 (AP)—Gen. Henri Honore Giraud, who escaped from a German prison and returned to unoccupied France through Switzerland was still in the unoccupied zone this morning, official sources said today.

LONDON, May 3 (CP) Cable)—Free French sources said tonight Vichy authorities would not dare to turn Gen. Henri Honore Giraud over to the Nazis and the widely read Reynolds News declared the general escaped with the connivance of the German High Command.

In its most prominently displayed front page story Reynolds said today that Giraud had been allowed to escape from the Koenigstein fortress where he had been held since the capitulation of France and that the German general staff now is "practically unanimous in its apposition to Hitler."

Quoting sources which in the past have proved reliable, Reynolds said in influential section of German industrialists is attempting to form a Catholic oposition to Hitler.

"Through German representatives in a neutral embassy these people have tried to make contact with the allies," the newspaper said, adding: "They are prepared to offer the restoration of democratic government after Hitler is overthrown."

Reynolds quoted a Swiss source as saying that Heinrich Himmler, chief of the Gestapo found a list of German generals and industrialists who were preparing to take over *from Hitler and negotiate for peace.* Hitler, the Swiss source said, was given the list before he made his birthday speech.

Propaganda being spread throughout *Germany that Hitler is about* to deal with capitalists, profiteers, and cowardly generals who are holding up the war effort, is regarded in some quarters as a preliminary to a new Nazi blood purge, the newspaper said.

It added that all these stories must be accepted with reserve because Hitler and Mussolini are quite capable of encouraging such rumors in order to cover preparations for a new attack but there is a great deal of evidence pointing to the conclusion that Hitler and Germany are facnig a grave internal crisis."

DEATH, DAMAGE TOLL MOUNTING IN STORM ZONES

20 Dead, 100 Hurt in New Series of Tornadoes

HIT 3 STATES

PAWHUSKA, Okla., May 3 — (AP.)—Storm-battered Northeast Oklahoma counted 20 persons dead or missing, up wards of 100 injured and tremendous property damage today in the wake of fierce spring tornadoes.

The twisters struck late Saturday about the time other tornadoes lashed three other states to the northeast. Three persons were killed and scores injured in Eastern Kansas; one woman was killed in central Missouri and 11 persons injured in central Illinois.

In Oklahoma the affected area was about 100 miles long and 50 miles wide bounded by Pawhuska *and Deweu on the North, Okemah* on the South, Pawnee on the West and Tulsa County on the East.

They came less than a week after another tornado, one of the worst in Oklahoma's history, devastated the boom town of Pryor, killing 61 *persons and wreaking property* damage estimated at 2,000,000 to $3,000,000.

Walter Johnson, State Commissioner of Public Safety, reported that the *situation was well in hand* throughout the storm area, thanks to aid by the Red Cross, American Legion, highway patrol units and hundreds of volunteer rescue workers.

Hardest hit was a negro farming *area in Okfuskee County,* where 12 persons perished in tornadic winds that smashed more than a score of homes, a store, two churches and a stone school *building.*

Pawhuska, a capital city of the *Osage Indian nation,* reported a death toll of three and 32 persons injured.

The most poignant human story of the storm came from Turley, farm *community in Northern Tulsa* county, where a baby was torn from her mother's arms and carried away by a flooded stream along with two more children.

U.S. Chief Confident Allied Naval Strength Will Rise

LONDON, May 3 (AP).—Admiral Harold R. Stark, Commander of U.S. Naval Forces in European waters, expressed confidence in his first press conference that Allied naval strength, despite losses, would rise steadily until it *overwhelms the* Axis.

"This year will be a tight year," said the former Commander of the U.S. Fleet, "but there will come a *time when we will be in a posi*tion to strike and carry through no matter what th. losses."

REPORT PLANES HIT COPENHAGEN IN WIDE ATTACKS

Docks, Airdrome in France Take Pounding

LUEBECK MAY HAVE BEEN HIT

LONDON, May 3 (CP)—British aircraft ranging over Copenhagen, capital *of Nazi-occupied Denmark* dropped bombs on that city and caused anti-aircraft batteries to fire for 45 minutes Saturday night it was reported today.

Meanwhile, the R. A. F. kept up its aerial offensive against Northern France with morning and afternoon forays. It was authoritatively stated four German fighter planes were destroyed over Northern France.

Today's daylight targets included Pas de Calais, docks at Dunkerque and an airdrome at Abbeville where bomb hits were scored on buildings and planes on the ground machine-gunned. In these attacks the R.A.F. lost three fighters.

The Germans raided one Southeast coast town in England just before dark, causing casualties and damage.

*The Copenhagen report was con*tained in a Reuters dispatch from Stockholm quoting Svenska Dagbladet. The dispatch said the explosions of anti-aircraft fire were heard 19 *miles away in Sweden.*

The Vichy radio reported that the British planes swept across Denmark during the night and drew sharp anti aircraft fire.

There were indications from Continental sources that British bombers flew wide over the continent Saturday night, from the Baltic to Italy but the British Air Ministry had no immediate announcement on such widespread raiding.

In Stockholm it was said that the anti aircraft fire was much more intense than two weeks ago when the guns blazed away at British planes passing Copenhagen en route home.

The various reports indicated that Luebeck might again have been a target. The Germans lent support to this theory by claiming that British bombers attempted to fly ino he Northern German coastal region but were forced to turn back.

Foreign planes flew over Swiss territory on three occasions during the night it was announced in Berne British planes usually take that route for raids on Italy.

The air ministry announced British bombers laid mines in enemy waters during the night and coastal command planes bombed and set on fire a large tanker off Alesund, in Norway. These planes also were said to have hit and set on fire a medium sized merchant vessel.

GREAT DAMAGE

Photos released Saturday night showed that the chimney top daylight bombing of the great M.A.N. diesel engine works at Augsburg, within 100 miles of Hitler's mountain headquarters, had left vast destruction two weeks ago.

Great bomb holes, some 80 feet wide, appeared in the roof of the plant, and the air ministry commented, "there is no doubt the interior of the building and its machinery were most severely damaged if not entirely wrecked."

Nine Army Fliers Die in Two Crashes

PENDLETON, Ore., May 3 (AP)—Two bombers crashed on training flights in the Pacific Northwest today, killing nine Army fliers and injuring three others.

One cracked up near McChord Field, Wash., carrying three occupants to death, and seriously injuring a four h.

The other, a four-motored Boeing flying fortress, smashed into the Blue Mountains 20 miles Southeast of here, killing six of the eight men aboard.

CHINESE AND U.S. AIRMEN BATTER NEW JAP BASE

Planes, Buildings and Fuel Dump Blasted

INDICATES NEW PLANE SUPPORT

By SPENCER MOOSA
Associated Press Staff Writer

CHUNGKING, May 3 (AP)—Bombers flown by Chinese airmen and fighter planes of the American Volunteer Group smashed with heavy and unexpected force today at Lashio, advance base for the Japanese East Burma Armies which now have struck within 30 miles of the border of Free China.

A.V.G. Headquarters said "A Chinese bombardment group" supported by units of the A.V.G. left fire and dreckage amidst parked planes and barrack buildings in the enemy-occupied Lashio airfields an blew up aa big gasoline storage dump.

To the Chinese defenders under *Lt.-Gen. Joseph W. Stilwell,* backed up now against the Yunnan Province border, the news of the raid meant one thing; China appears to be getting heavier air support.

MEANS MORE AID

This first official mention of a "Chinese Bombardment Group" seemed a definite indication that *reinforcements of heavy aircraft* have reached China, probably from India.

The A.V.G. announcement said neither the Chinese nor the Americans lost anything in men or equipmet in the Lashio raid. The official account read:

'A Chinese Air Force bombardment group supported by units of the A.V.G. heavily bombed Lashio this afternoon. Bombs were seen *to fall on the airdrome in the midst* of parked planes. Barracks buildings were set on fire and a large fuel dump blown up.

"Several American Volunteer Group planes swept low over the field and strafed the airdrome.

"No losses in aircraft or personnel were sustained by the attackers."

JAP SENTENCED FOR BREAKING CURFEW REGULATIONS

VANCOUVER, May 3 (CP) — Koichiro Takagaki, 40, Saturday was sentenced to two months in jail by Police Magistrate Mackenzie Mathison on a charge of failing to observe Japanese curfew regulations.

The Weather

Nelson had a great variety of weather at the weekend, with three wet days in succession. Friday had .10 inch rain, a temperature range from 43 to 62 degrees, and a gusty wind from the West that rose to 15 miles per hour. Saturday the mercury moved only *nine degrees,* from 40 to 49, while .42 inch of rain fell up to the 5 o'clock reading, which terminates the meteorological day. Snow mixed with the rain Sunday *forenoon, and the golf links* had three hours of snow falling, while the precipitation for the 24 hours was .98 inch. Sunday's extremes were 35 and 53 degrees, the day turning *fine in the afternoon.* In the three days the precipitation was exactly 1.50 inches.

During the same three days the lake had a slight recession and a partial recovery, Friday at noon it was 3.08 feet above the low water mark, a drop of .02 foot from the rise high point Thursday's 3.10 feet. Sturday's reading was 3.04 feet, and Sunday's 3.08 again.

Big Ships Facing Extensive Repairs; Eugen Hit by Sub

Gneisenau and Scharnhorst Also May Have Suffered New Blows in Kiel Bombings; Puts Hitch Into Hitler Plans

By J. WES GALLAGHER
Associated Press Staff Writer

LONDON, May 3 (AP)—*The elusive German battleships* Gneisenau and Scharnhorst and the heavy cruiser Prinz Eugen are definitely out of action and must undergo extensive repairs, British authorities announced today. A heavy blow has thus been struck to Axis hopes for simultaneous world-wide attacks against the fleets of the United Nations.

Breaking the reserve they had shown since the three ships challenged the Royal Navy by sailing through the English Channel in February, the Admiralty and the Royal Air Force *said the Nazi warships had been grievously hurt by torpedo* and bombing attacks in the Channel fight, by mines laid by British planes and by British submarine action.

The joint announcement after the previous rese ve was taken to indicate that knowledge of the damage was absolut , certain and that the ships would not see action for a long time.

Instead of the formidable armada *of six* powerful warships ready for a smash at the British and United States fleets, Hitler now has, according to the best available reports, only three warships at Trondheim, occupied Norwegian port, ready for a fight. These are the battleship Tirpitz, 35,000 tons, the pocket battleship Admiral Scheer, 10,000 tons, and the Admiral Hipper, sistership of the Prinz Eugen.

The announcement said the Gneisenau is at Gdynia, former Polish port, the Scharnhorst in the dockyard at Kiel, German naval base which the R.A.F. has pounded extremely hard, and the Prinz Eugen at Trondheim.

GROUND EUGEN

Reports from Norwegian sources said the Prinz Eugen had been grounded by the stern to keep her afloat.

In brief, *Britain gave this* account of what happened to the three ships after they dashed from Brest, Feb. 11:

The trio, object of many raids by the R.A.F. during their stay in the occupied French port, sailed in an *effort to concentrate with other* German surface ships at Trondheim.

***On Feb. 1* the *Germans* announced that the battleships had t their base on the Atlantic supply route for "further operation duties"—but more than two months later aerial reconnaissance by the R.A.F. has established that both the powerful ships are still in dockyard.**

The Gneisenau is severely damaged along "the whole length of her forecastle and needs extensive repairs."

NEW DAMAGE

In addition to the damage suffered during the attempted concentration in the Channel battle in February, it is probable "that further damage was caused by mines laid by our aircraft."

"It also seems probable that both the Scharnhorst and Gneisenau received additional damage between Feb. 25 and Feb. 28 during our bombing raids on the dockyard at Kiel. During these raids a liner used as a naval depot ship was also set on fire."

The Prinz Eugen made it safely *to Germany but later,* on her way to Trondheim, was attacked off Kristiansund, Norway, by the submarine Trident.

"Though not sunk, it was evident that she was severly damaged. Reconnaissance has also shown that though she did reach Trondheim, the after part of this enemy cruiser needs very considerable repair."

The communique *did not take into* consideration any damage which might have been done the Scharnhorst and Prinz Eugen by heavy R.A.F. attacks on Kiel and Trond*heim late in April.*

The knocking out of three of Hitler's most powerful ships threw a monkey wrench into any plans he might have had to put his battlefleet into the North Atlantic in an attack on the Allied supply line to *Northern Russia.*

Many naval experts have been expecting Hitler, Mussolini and Premier Gen. Hidedki Tojo to order their combined naval forces into action simultaneously this Spring in a move coordinated with a German *land attack in Russia.*

Under this plan, while Hitler attacked in the North Atlantic, the Italian fleet would engage the British and American Mediterranean forces and the Japanese would drive into the Indian Ocean and *toward Australia in the Pacific.*

"Such an effort would strain the Allied nations' sea power to the utmost," one source conceded, "not to mention the havoc it might cause to supply lines to Russia, the Far East and Australia."

REDUCED POWER

Even though the British and United States navies must keep powerful units on watch on the ships at Trondheim, the potential strikin gpowe. of the Axis has been greatly reduced and the strain eased in the event of any such combined attacked, well informed sources *agreed.*

Although the amount of damage on the Prinz Eugen was not mentioned, these sources said a torpedo hit on the after part of the vessel, which was believed delivered by the Trident, would mean a dockyard job and there are no such facilities in Trondheim.

"She probably will have to be patched up temporarily and taken to Germany for repairs," one source *said.*

Important Sub Base Hit by R.A.F.

CAIRO, May 3 (AP.)—The important Axis submarine base at *Porto Laki Bay on Lero Island* near Turkey and airdromes on nearby Rhodes and in occupied Greece were hit hard by the R.A.F. Friday ight, British authorities announced today.

The attacks were described as "effective."

Judge Robertson, Senior B.C. County Court Judge, Dies; Known in Nelson

VICTORIA, May 3 (CP)—Judge H. E. A. Rbertson, 71-year-old jurist who came to British Columbia in 1893 to practise law and eventually became Senior County Court Judge in the Province, died today after an illness of some weeks.

A native of Victoria, he was the son of Hon. Alexander Rocke Robertson of the Supreme Court of British Columbia. Educated here and at Collegiate Institute, Chatham, Ont., where his mother moved after the death of his father in 1881.

Judge Robertson studied law at *Osgoode Hall and returned to Vic*toria in 1893 to practise. In 1915 he was appointed County Court Judge in Cariboo County, making his home in Prince George, B. C.

In 1898 he went to the Klondyke, returning to Vancouver in 1903, remaining in practise, there until his appointment as County Court Judge for the Cariboo.

Surviving are his widow, three sons, John S., of Calgary, Seymour and Hal with the forces; and four daughters, the Misses Jean and Adelaid of Vancouver, Miss Elizabeth Robertson and Mrs. Joseph Barnes of Victoria.

Dr. Herman N. Robertson, Victoria, and Dr. A. Rocke Robertson, Soap Lake, Wash., and Mr. Justice H. B. Robertson of the British Columbia Supreme Court, Victoria, are brothers.

Funeral services will be held here Tuesday.

Judge Robertson was well-known in Nelson. He spent a summer here recently and Mrs. Robertson has visited Nelson on many ocasions. Their daughters, Mrs. Joseph Barnes and Miss Jean, and son Seymour resided at Nelson for several years.

Lions Club Blossom Carnival to Mark Creston's 50th Anniversary; Over 40 Sections for Big Parade

CRESTON, B. C., May 3—May 8 and 9 are the dates chosen for the Creston Lions Club first Apple Blossom Carnival. As this year marks the 50 Anniversary of the founding of Creston, the two events are being celebrated at the same time.

No effort is being spared to make the Carnival an outstanding success. A large entry has been secured for each of the over 40 divisions in the parade, which is to open the Carnival.

Commencing at 2 p.m. on Friday, May 8, the parade is arranged to depict the various phases of Creston's growth since the first settler came to the Valley 50 years ago. Merchants and various organizations of Creston are combining their efforts to make the parade a colorful spectacle. Floats, beautifully decorated with apple blossoms, covered wagons, decorated teams, a forestry display, an agricultural exhibit of some 10 large machines used on the flats, marching units, and at least two bands, all entered in the parade, point to one of the most thrilling displays in the history of the district. The Bugle Band of the Women's Auxiliary Corps from Cranbrook promises to be one of the features of the day.

SPORTS ALSO

Following the parade, sports will be held on the Exhibition Grounds, featuring a tractor race designed to test the qualities and skill and daring of the competent drivers of these machines.

On Friday and Saturday evenings entertainments, games of skill, and dancing will take place in the Exhibition Hall.

With the Valley's orchards showing the most prolific and colorful display of blossoms that have been seen for several years, May 8 and 9 promise to be one of the most pleasant celebrations in Creston's history.

9 British Fliers Reach Sweden in Thrilling Escape

LONDON, May 4 Monday (CP Cable)—Nine British airmen, one believed to be a Canadian, have arrived at the Swedish border after a trek over the mountains from the region of Tronheim, Norway where they were shot down in a May 28 raid.

The fliers were members of two bomber crews. They said they had spent more than three days and nights plowing through the deep snow of the mountain passes. Swedish newspapers said their exploit was almost superhuman.

A dispatch to the Daily Telegraph said the man believed to be a Canadian was Pilot Officer Hewitt.

The Daily Mail said the group included two Canadians, Hewitt and a pilot officer named MacIntyre.

The Mail added they were all interned at Falun in Central Sweden and that there was a possibility they might be released if it could be established they were "escaped prisoners of war."

Malta Defenders Hit Three Planes

VALETTA, May 3 (CP)—One Axis plane was downed and two more believed damaged today in two light raids which caused a few casualties and slight civilian damage.

Wilmot, Bacon Take Gray Creek's Salvage to Nelson

GRAY CREEK, B. C.—A load of rubber, metal and glass salvage was taken to Nelson Red Cross quarters from Gray Creek by Fred Wilmot and J. D. Bacon.

U.S. Has 5486 Dead and Missing in Naval Warfare

WASHINGTON, May 2 (AP)—The United States Navy announced today the loss of 5,486 dead and missing in the first four months of naval warfare.

The casualty recapitulation, first of the war, included marine and coast guard personnel as parts of the Navy and covered the period from Dec. 7 to April 15 inclusive. It gave this summary: dead 2991, missing 2495, wounded 907, total 6393.

The four-month total was half again as large as the casualty figure for the entire First Great War, when some 3500 officers and men were killed in action or lost.

Warns Germans Planning Blow

LONDON, May 3 (CP.)—A Canadian Broadcasting Corporation commentator, analyzing Hitler's Reichstag speech last Sunday as an Axis-concocted "army game" designed to screen bold strategic moves, said tonight Germany "may attempt a smashing blow at Britain any time now—perhaps tonight."

The commentator, Bob Bowman of Ottawa, said in the CBC's "Canadian News Review" broadcast a Berlin-dictated invasion attempt may be "the big story behind the news" this week.

Bowman, recently returned to Britain, declared talks with the managing editor of a British newspaper convinced him that when Hitler "stood up and hinted at impending defeat" in his Reichstag speech, he was "only trying to pull the wool over our eyes." Bowman did not identify the British editor.

"It's just the old army game," he said.

Three Jap Bombers Hit, Transports Pounded by Allies

UNITED NATIONS HEADQUARTERS, Australia, May 4 (Monday) (CP)—Allied fighters shot down three Japanese bombers and one fighter yesterday over Port Moresby, New Guinea, damaged two enemy transports at Rabaul, New Britain, on Saturday and damaged another enemy craft at Bougainville in the Solomon Islands yesterday, Allied Headquarters announced.

Obal of Nelson Gets 14-pounder; Elder a 9-Pound

Max Obal of Nelson and Nels G. Elder of Trail and Nelson were the first under the tape with trout catches in the 1942 season on Kootenay Lake Sunday. Both entered their catches in the Gyro Trout Derby.

Obal boasted the biggest of the day, a 14 pound, 1½ ounces beauty, off the Lime Quarry. Elder's catch was a nine pound, 10 ounce trout, made off the Chimneys at Smelter Bay. The big fish was caught on a Glendon Stewart No. 5, while Elder used a Gibbs one-eyed wiggler.

Unpleasant weather called a halt to the plans of many for the first weekend on the main lake, and the number of boats out was limited. The gasoline situation of course affected the number of power craft out.

Eli Sutcliffe Is Laid at Rest

Eli Sutcliffe of Ymir, Kootenay oldtimer, was laid at rest Sunday after funeral services from the Thompson Funeral Home. Services both at the chapel and at the graveside in Ancient Order of Forester's plot in Nelson Memorial Park, were conducted by Rev. J. G. Holmes.

"Lead Kindly Light" and "Abide With Me" were the hymns sung.

Pallbearers were Ernest Marsden, Frank Marsden, Edwin C. Sutcliffe, James Robertson, Percy Halliwell, and A. E. Cuthbert.

Mr. Sutcliffe, former resident of Nelson, Sandon and Kaslo, died Friday.

JUNE CALL UP TO TAKE IN ABOUT 7000 MEN

OTTAWA, May 3 (CP)— Quota for the June call-up for compulsory training will be approximately the same as May when 7,000 men were ordered to report for training, it was learned Saturday.

Machinery for putting the draft on a lottery basis has not yet been set up and the men to be called in June will be selected as previously by regional draft boards.

Those eligible for call are unmarried and childless widowers between 21 and 30 years of age. It is expected a number will be men who were previously called out for one month's training and subsequently returned to civilian life.

Nazis Execute 70 Czechs, 16 Persons in Poland

LONDON, May 4 (Monday) —(CP.)—The Moscow radio reported today that 70 Czechs taken to Germany for forced labor had been shot after a strike in the plant where they were working.

Some of the Czechs protested to the plant manager over their treatment at the hands of German guards the Moscow account said, and they were arrested. Then all foreign workers in the establishment struck.

That night, it continued, Gestapo agents burst into the Czechs' living quarters and summarily executed 70 men on the spot.

The Moscow radio also reported that the Germans had shot 16 persons in Ilna, Poland, on charges of creating an anti-German organization.

Trail C.C.F. Club Holds Whist

TRAIL, B. C., May 3—Fourteen tables of partner whist were in play at the C.C.F. Club's whist drive Friday night in Elks Hall. A change was introduced in the distribution of prizes, as two first prizes and two consolation prizes were awarded. Mr. and Mrs. W. S. Ross, and Mrs. L. D'Archangelo and R. Bunting, were winers of the first prizes, and Mrs. C. A. Burnett and K. Pople, and Mrs. Sines and M. Spence, won the consolation prizes. Mrs. G. Walker won a special prize. A drawing on a quilt made by the Shavers Bench ladies yielded $80, which has beer donated to the Russian Red Cross by the club.

A short talk was given urging voters to send in the form which has appeared in the papers appealing for a total war effort, to their representative at Ottawa. Refreshments and music completed the evening's entertainment.

James Burkitt of New Denver Is Laid at Rest

NEW DENVER, B. C., May 3.—Funeral of the late James Topping Burkitt was conducted from the United Church Friday afternoon. Rev. O. Grondahl officiated.

Mr. Burkitt passed away at his home in New Denver on April 28 at the age of 84 years. He was born in Heham, Northumberlad, England, but came out to Canada at an early age.

He was a charter member of the Key City Oddfellows Lodge at Cranbrook.

Besides his wife, he leaves two daughters, Mrs. L. M. Thomas Cornwall, England, and Mrs. Helen L. Trickett, New Denver; three sons, Joseph Burkitt, Field, George Burkitt, New Denver and C. Roy Burkitt, Prince George, B. C. and 12 grandchildren.

Hymns sung at the funeral were "Work for the Night Is Coming", and "Abide With Me".

Members of the Oddfellows Lodge from Slocan, N. Tattrie, D. Tattrie, Mr. Rae, P. McQuire, A. Clough, E. Graham, were allbearers.

New Fire Whistle at Trail Works by Compressed Air

TRAIL, B. C., May 3—A new fire whistle is replacing the old siren at the City Fire Hall. It is operated from an air tank and air compressor, and will be coded to correspond with fire signals in various locations of the city. Fire Chief McDonald states that it is a big improvement over the siren, as this will enable the Department to have a closer knowledge of the location of a fire.

A trial of the new whistle was made Saturday at 5:50, and was reported to have been heard clearly in different localities in the city. The air compressor tank required 3½ hours to fill on Saturday, and the whistle operated on 130 pounds pressure. The minimum pressure to operate the whistle is 90 pounds., and the maximum is 300 pounds. It will be tested for small leaks in the pipes and connections during the next day or two, but it is not expected to be used officially until the electrical parts are received. It was operated by hand for the trial test.

40 to 50 Nazis Die in Train Wreck

NEW YORK, May 3 (AP)—Between 40 and 50 Germans have been killed in a train wreck in Occupied France, reliable reports reaching New York said tonight. German authorities arrested a large number of hostages, according to these reports. The wreck, it was reported, occurred near Rouen, the scene of a wreck a week ago.

Allies Strike at Jap Base; Down 15 Enemy Planes

UNITED NATIONS HEADQUARTERS, Australia, May 3 (CP)—United States and Australian bombers struck hard at the main Japanese base at Raboul in New Britain, hitting a transport directly, damaging another and capsizing a tender while in scattered air battles the Allies accounted for 15 enemy planes, Gen. MacArthur's Headquarters announced today.

Of eight Japanese planes which rose to the challenge at Rabaul, off Australia's Northeast Coast, two were destroyed and four others were damaged.

Allied fighters intercepted 16 Japanese Zero fighters which attacked the airdrome at much-bombed Port Moresby in Southern New Guinea Saturday and destroyed four and damaged two.

Three enemy flying boats moored at Salamaua, across the jungle-clad mountains from Port Moresby, were destroyed in an Allied raid, Thursday, the communique disclosed.

JAPS ON MOVE

AN ADVANCED ALLIED BASE IN AUSTRALIA, May 3 (CP) — Strong Japanese forces are moving up the Markham Valley of New Guinea again and although the Allied forces have not yet made contact with them a Japanese attempt to take Port Moresby is believed imminent.

Cripps Wants People's World

LONDON, May 3 (CP.)—Sir Stafford Cripps, deputy leader of the British House of Commons, said tonight in a radio address that Britons "want to see a post-war world consciously planned for the interest of the masses of the people."

"This is in reality a people's war, a people's war of liberation," Sir Stafford said. "Therefore we all claim the right to have a say in what shall happen after the war."

He spoke of the new "spirit of equality" engendered among free peoples by the war and declared:

"This new spirit of equality must find practical expression. We must begin to work out its implications, must work them out calmly so they can be applied after the war.

"As comrades we have fought the war; as comrades too let us plan the peace."

East Trail Church Circles Have Work Sale and Tea

TRAIL, B. C., May 3—A successful Spring sale and tea was held Saturday in the East Trail United Church hall by the combined circles of the church. The attractive individual tables were covered with dainty table cloths and decorated with Spring flowers. The serving table was covered with a lovely lace cloth and centred with a silver basket of flowers. Mrs. J. L. Clerihue and Mrs. T. F. Cullen received the guests, and Mrs. J. Minion and Mrs. F. Wilby poured for the first hour and Mrs. A. G. Monkhouse and Mrs. R. Maize poured for the second hour. Serviteurs at the tea tables were Mrs. J. S. Ross, Mrs. F. Miles, Mrs. J. D. Askew, Mrs. O. Pasquill and Mrs. O. G. Robinson, Mrs. W. E. Benton, Mrs. A. Adie, and Mrs. S. T. Crowe were in charge of the home cooking table, Mrs. J. Ink and Mrs. O. Porter were in charge of the fancywork table, and Mrs. G. King and Mrs. S. A. Parker sold the aprons. Mrs. J. A. Downey and Mrs. V. Lennox managed the kitchen duties.

Northern Polls Go Affirmative

TRAIL, B. C., May 3.—The last of the balloting reports for this district in the manpower plebiscite of April 27 were received Friday. They are:

Ferguson 9 yes and 1 no; Trout Lake, 20 yes and 4 no; Galena Bay, 15 yes and 3 no.

Coast Woman Killed in Collision

VANCOUVER, May 3 (CP).—Mrs. Grace C. Lacey, 35, of nearby Burnaby was killed and Donald E. McLeod, New Westminster, B. C., injured early today when their automobile collided with a Great Northern freight train in Vancouver's East End District.

Urge Trail Have Sand Ready Against Bombs; Blackout Likely; New Quarters

TRAIL, B. C., May 3—Air Raid Precautions Organization has sent notices of request to all store and hall owners in this district to provide sand and shovels, and personnel for fighting incendiary bombs. The sand may be obtained from the city warehouse, and the necessary containers should be installed without delay. Householders are requested to study carefully the blackout regulations recently published in the newspapers, as it is quite probable that the Pacific cast may require a blackout test of this district in the near future.

The Chief of Police will deliver a lecture to the police wardens of the A.R.P. next Friday on their duties as auxiliary policeman. The Fire Chief will talk to the auxiliary firemen at the same time.

NEED VOLUNTERS

The A.R.P. is badly in need of more volunteers for all branches of its work, in order to reach the high standard of efficency it is striving to attain.

Construction of new quarters for Division 1 is being commenced immediately at the 1300 Block on the Esplanade. This will be correctly constructed, half-way below ground level with the portion above ground properly sand-bagged, and will be large enough to accommodate the entire personnel of this division, which at present is 55. Independent lighting will be installed for use during blackouts. The present quarters in the basement of the City Hall will be used as the general headquarters and control room of the A.R.P. when the new post is completed.

First aid pracuce took place at the post in the basement of the City Hall at the weekly meeting of Division 1. The incendiary fighters had a work-out with the stirrup pumps. Eventually it is hoped, there will be more stirrup pumps for adequate distribution to the householders. The patrolling wardens met and discussed various problems concerning the communication of incidents at the post and messenger service between the sub-districts and the post.

Metal Dealings Are Put Under Strict Control

OTTAWA, May 3 (CP.)—All dealings in scrap zinc, copper, tin, brass, aluminum and other non-ferrous metals are now under strict control, the Department of Munitions and Supply announced today.

The new order is designed to make sure that non-ferrous scrap is all channelled into war production or into essential production related to the war.

Effective April 30 all non-ferrous scrap dealers buying or selling scrap to smelters, foundries or ingot makers, must obtain a licence. Smelters and ingot makers must also be licensed. Foundries will require no licence, but must buy only from licence holders.

The order sets a price ceiling on all non-ferrous scrap metal on the basis of the maximum prices obtained between Sept. 15 and Oct. 11, 1941.

Scrap collection by national and civic salvage organizations, including the Red Cross, are not affected by the order.

Poles Celebrate Anniversary

OTTAWA, May 3 (CP.)—Poland has lost her freedom, but Polish people fight on—and throughout the world today they celebrated in exile their national holiday, anniversary of the setting up 151 years ago of a democratic parliament in Poland.

In Canada, the Canadian Broadcasting Corporation saluted Poland with a Sunday afternoon program, with Victor Podoski, Polish Minister to Canada, and Maj.-Gen. Bronislaw Duch, officer commanding Polish armed forces, the speakers.

Allied Airmen Fire on Planes Flying High Over East Port of Townsville

UNITED NATIONS HEADQUARTERS, Australia, May 3 (CP)—Gen. Douglas MacArthur's Headquarters announced today two suspicious planes which flew far down Australia's East Coast over the port of Townsville were fired on by anti-aircraft batteries yesterday while Allied airmen again were raining bombs on the enemy airdrome at Gasmata, New Britain. As Australian and American planes kept up their daily assaults on Japanese bases threatening Australia, a correspondent of the Melbourne Herald warned the Allied Air Force is facing heavy odds and urgently needs more planes, men and bombs in order to keep strategic Port Moresby, New Guinea, secure.

The planes sighted over Townsville, 700 miles South of Cape York, Australia's Northernmost area, were not identified and the communique said attempts to intercept them were unsuccessful.

The planes were at an altitude of about 30,000 feet in a cloudless sky—ideal for aerial photography or scouting. The region around Twnsville immediately was put on the alert for a possible air raid or invasion attempt.

Gasmata lies about 240 miles NorthEast of Lae, Japanese air base on the New Guinea coast at which Australian and American airmen have struck repeatedly during the last week. Together the two bases give the enemy a measure of control over the 100 miles wide passage between New Guinea and New Britain, strategic gateway to the waters immediately North of Australia.

The bulletin announcing the Gasmata raid also reported destruction of two Japanese planes over New Guinea.

SOMEWHERE IN ENGLAND, —May 3 (CP Cable)—Brig. A. G. Bradbrooke of Calgary, back in england from the Middle East where he spent six weeks as the first Canadian Army observer at the pbint, is en route to Canada to take command of the new tank brigade to which he was appointed several months ago.

Newspaper Made in Canada Cabled Across Ocean to Soldiers In Britain

TORONTO, May 3 (CP)— First issue of a trans-Atlantic tabloid newspaper for Canada's Armed Forces Overseas was delivered Saturday in England. The four-page weekly—packed with Canadian news—was written, edited and made up in Toronto but printed in London's Fleet Street.

Entire content of "The Canadian Press News" was cabled at the Empire penny press rate, inaugurated last October. The Canadian Government pays the cost of editorial work, cable tolls and printing. The Canadian Press does the job, giving its news services free but exercising full authority in selection of the stories used.

Top play in the first issue went to the story on the Dominion Plebiscite which rated a two-column heading and a one-column box score analysis of the vote.

Page two carried three columns of news briefs from Quebec printed in French, and a few "stop press" bulletins. Page three carried regional news briefs. There were 63 of these in the first issue, datelined from service men's home towns as far apart as Vancouver and Glace Bay.

The back page is the sport page and the first issue ran an unusually interesting budget. It covered the Stanley Cup, Allan Cup and Memorial Cup finals, the opening of the baseball season and a basketball roundup.

No cable words are wasted in the long-distance makeup instructions. Each item is topped by its heading with a code number which indicates page, position and type size.

On page one of the first issue a joint message from Defence Minister Ralston, Air Minister Power and Navy Minister Macdonald says: "The Canadian Press News comes to you Canadians overseas in the hope that it will fill a long-felt need with news of Canada and what the home folks are doing and saying and thinking while you are away."

Selecting and editing of the copy for the forces' paper is supervised by Gillis Purcell, General Superintendent of the Canadian Press, who worked out technical details of the remote control makeup. Purcell was in the Canadian Army Overseas last year.

SENIOR CANADIAN OFFICER PROMOTED

OTTAWA, May 4 (CP)—Appointments of promotions for six senior officers of the Canadian Army were announced today by Defence Minister Ralston. They included:

Lt.-Col. H. A. P. Francis, 46, of Vancouver, assistant adjutant and quartermaster general of a Canadian armored division becomes a director in the branch of the adjutant general at National Defence Headquarters with rank of colonel;

Lt.-Col. J. F. A. Lister, 34, of Quebec, chief instructor at the Royal Military College at Kingston, Ont., becomes assistant adjutant and quartermaster general of an armored division succeeding Col. Francis.

Col. R. Eric Smythe, 47, of Merriton, Ont., commandant of the Hamilton-Niagara area, becomes a director in the branch of the adjutant-general at defence headquarters. He is suceeeded as commandant by Brig. G. E. McQuaig whose appointment was announced a few days ago.

Maj. J. P. McSloy, St. Catharines, Ont., becomes director of Ordnance Service (General Stores) in the branch of the Master General of the Ordnance at Defence headquarters with rank of Colonel.

JAPS SAY RUSSIAN SHIP SUNK BY ALLIED SUB

TOKYO, May 3 (AP)—The Tokyo radio declared Saturday the 4761-ton Russian merchant ship Angristroi was torpedoed last night by a United States submarine or one of its Allies and left in a sinking condition off the Southwest coast of Kyushu, Southernmost of the main Japanese islands.

The radio said the 2539-ton Japanese steamer Calcutta Maru also was sunk by a submarine in nearby waters.

There has been no confirmation of this Tokyo report from any Russian or other non-Axis source.

Whether true or false, of course, such a story would serve Japanese propaganda purposes not only as an attempt to provoke Russian-American friction but also to picture Russian ships as trading in Japanese waters.

Planes in Action in Libya Area

CAIRO, Egypt, May 3 (AP) — Libyan front operations yesterday were dismissed by British General Headquarters yesterday with a one-sentence communique which said: During the day our patrols had occasional brushes with enemy patrols."

Fighter aircraft, however, were active throughout the day. Between Agedabia and Bengasi, in Western Cirenaica, these craft turned their machine guns on a column of enemy trucks, gasoline trailers and other motorized transports.

Thursday night-Friday morning bombers attacked the port of Bengasi and Berka and Martuba.

Axis pressure on Malta eased some what. One German bomber and one fighter was destroyed by anti aircraft fire while British fighters shot down an additional enemy fighter. No British aircraft were lost through out the Middle East area.

HUNS SURRENDER AFTER FIRING PLANE

LISBON, May 3 (AP)—Six members of a crew of a German bomber which made a forced landing on a beach at Apulai, near Espozende on the Northwest coast of Portugal, set their plane afire and surrendered last night to authorities in a nearby town.

Japs Refuse to Cooperate on Prisoner Plans

LONDON, May 3 (CP)—The British Broadcasting Corporation reported today that action to aid prisoners of war in Jap hands had been held up through the refusal of the Japanese to cooperate.

A scheme whereby supplies of food and clothing would be distributed to the prisoners is still to be put into effect as the consent of the Japanese cannot be obtained. Some supplies have been distributed by the efforts of the local missionaries who used the materials sent to them.

The Rusisan government has offered to place the trans-Siberian railway at the disposal of the British government for the transportation of the necessary supplies but so far the Japs have remained obdurate.

LONDON, May 3 (CP) — The Moscow radio quoted the Stockholm newspaper Aftongitningen as saying German soldiers helped 900 Russian war prisoners to escape from internment in the Oslo and Christiansund areas of Norway.

Another 64 Russians were said to have escaped from a camp in Ostland Province.

All India Congress Turns Down Moslem League Claim

ALLAHABAD, India, May 3 (CP) —A Committee of the All-India Congress Party, dominant Indian political group, rejected by 120 votes to 15 today a resolution sponsored by Chakravarthi Rajagopalachariar, a former President of the party, acknowledging the Moslem League's claim for separation.

CONNECTICUT FIRES UNDER CONTROL

BOSTON, May 3 (AP)— After battling through the night against flames that threatened to break out all over the Eastern section of Connecticut, firemen and volunteers yesterday brought under control the latest of a dozen woodland blazes that have caused more than $2,000,000 damage in New England in the past two days.

Congress Urges India to Resist Jap Invasion

ALLAHABAD, India, May 3 (AP) —The All-India Congress urged the Japanese threatened people today to resist any invasion with non-violent non-cooperation.

"In case invasion takes place it must be resisted. Such resistance can only take the form of non-violent non-cooperation as the British government prevented organization of National defences by the people in any other way.

We may not bend the knee to the aggressor nor obey any of his orders. We may not look to him for favors nor fall to his bribes. If he wishes to take possession of ouh homes and our fields we must refuse to give them up even if we have to die in an effort to resist him."

This was the policy advocated by Mohandas K. Gandhi, leader and past president of the Congress.

The resolution said this in reference to the mission of Sir Stafford cripps seeking an agreement on an independence formula:

"It is significant and extraordinary that India's inexhaustible manpower should remain untapped while India develops into a battle ground between foreign armies fighting on her soil or frontiers and her defences not supposed to be a subject fit for popular control."

Spray to Prevent Blight on Celery

By DEAN HALLIDAY

Celery plants respond to transplanting by growing faster and producing better stalks. When transplanting celery, set the plants a little deeper than they formerly stood.

Early blight on celery

Leaf blight however is an enemy of celery which must be watched for it is very destructive to the plant. Leaf blight on celery causes the leaves to shrivel, as shown in the illustration. It also causes decay of the stalks when they are banked or placed in storage.

Leaf blight can be prevented by early spraying with Bordeaux mixture. Once the blight infects celery the plant cannot be held under control by the use of Bordeaux. When blight is present, the celery must be sprayed every 10 days until it is ready for bleaching.

For Ten Years . . .

Repulsed In Law Makes Trouble

By BEATRICE FAIRFAX

Dear Miss Fairfax:

Mine is a long story, but I will begin with what is troubling me at the present, as it relieves me just to put it on paper.

I have an in-law who made it plain to me that he likes me. But when I repulsed his attentions he began to make trouble for me, and has been at it for over ten years. I have two little boys of eight and six. My husband and I get along all right when this relative of his isn't bothering us.

It may sound strange to you, but every day I hope my husband will join the Army so that I will be forced to work and maybe make a happy life for my little boys and myself. My husband gets into awful tempers sometimes and throws around furniture — I don't know whether it's wise to hide such things from the little ones or let them see what can happen to an uncontrolled temper.

Please let me know what to do as I am about at my wit's end.

"Confused"

Haven't you been too easy with this trouble-making in-law? Why not tell him to keep out of your house and out of your life? If your husband feels called upon to defend his brother and charge you with unfriendliness to his family, be frank. Tell him the whole story as you've told me. I can't see why you've let this situation go on for ten years. This type of shadow-boxing is a mistaken solution for peace at any price.

The Moslem University of Al-Azhar in Cairo, Egypt, was founded in 970.

Career . . .

Working Girl Has No Right to Let Herself Get Fat

By IDA JEAN KAIN

Stoutness is no particular handicap in a man's career. It is apt to be viewed as a sign of prestige and proof that he is getting on in the world. But with a woman, it is just a sign she is getting on in years and is giving up hopes of romance.

Every girl who gets anywhere starts off with ability, some training, a trim figure, and the fresh go to work may count for most in the upclimb a girl's a fool to discount entirely her personal appearance. The woman who maintains a neat and tidy waistline and a superbly erect posture carries an air of alertness that is recognized and appreciated.

You may get by but you won't get as far as you should without some regard for calorie control and calisthenics. Your diet should be the protective kind that makes for much reserve energy along with slimness. You have to eat and you might as well eat the right kind of foods. There's no law compelling you to exercise. But if you skip it altogether, you will gradually lose out in looks and efficiency. When your muscles get soft, your mind is apt to go stale.

Next to the war, what goes on in research laboratories is the most exciting news of the day. In fact, it is war news when a scientist states that a treatment may be evolved by which parachute troops are assured of an "adequate diet" of cellulose, leaves and grass when the necessary food is not to be obtained.

Your think that's far-fetched? It is reported that the Germans are using a somewhat similar procedure for their fighting forces.

This particular research has been concerned with two of the B vitamins which are of personal interest to all of us because they are involved in the search for the cure for baldness.

No matter how important the loss of your hair may be to you, it is an incidental issue. The effect of the lack of one or both of these factors may have on your nervous system is more important.

When a little mouse is deprived of inositol, he turns into a snarly, evil-tempered, half-sick animal who gradually becomes paralyzed and who dies just when he should be in the prime of his life. You can stretch your imagination from mice to men and grasp the significance of such an experiment.

Science turns a cooly skeptical eye on any "miracle vitamin." The loss of hair might be caused by the lack of sufficient cystine, the protein component of hair and nails. Likewise, graying of the hair might be caused by a copper deficiency. But the search goes on.

Official Frills Out But No Law Against Handwork

By DENISE DALTROFF
(Canadian Press Staff Writer).

LONDON, (CP).—It looks now as though the war is going to bring forth a renaissance of the embroidery craft at which earlier generations of British women were so skilled.

This suggestion stems from new Board of Trade orders banning frills of all kinds on underwear and nightwear and a general recognition that come what may, women want to be dainty.

If they can't purchase embroidered underclothes they'll do the embroidery work themselves and, though embroidery silks are scarce ordinary cottons can be used quite suitably. Outmoded crocheted lace will probably return to fashion along with completely home made underwear.

The government edict is that underwear and nightwear must be less frivolous, that manufacturers and dressmakers, working towards a saving of labor and materials, must no longer trim these garments with lace, embroidery, applique work or any kind of decoration.

The restrictions on unessential work applies both to utility and non-utility clothing, utility clothing having been introduced some six months ago. It ranges from underwear to top coats and, while shops may still sell non-utility wear, it must not exceed more than two thirds of the stock.

The quality, variety of materials and designs and the reasonable price—a suit of utility cloth costs about $23—have been a pleasant surprise to women who were expecting coarse, high-checked underwear and dresses and coats made only in a few styles.

The Board of Trade prohibited the addition of capes to dresses and coats and trimmings of fur, silk, velvet or leather. Skirts are shorter to save material. Seventeen inches from the ground is the new length. They must be made with no more than six seams, one pocket, two box pleats or four knife pleats and only three buttons. Zippers and metal fasteners are severely rationed. For garments of women, materials such as lock-knit and circular knitted rayon a maximum yardage for each dress has been applied.

SERIAL STORY . . . . . By JERRY BRONDFIELD

No Refuge From Love

CHAPTER THIRTY-FIVE

"My dear," said Agatha Whitworth, leading Molla from the dining room after dinner, "I wanted to talk to you about the wedding."

"The wedding?"

"Yes, of course," Agatha smiled. "The first week in May is only a little more than two months away, you know, and there is ever so much to be done. Arrangements, the guests, the attendants, and a dozen other things."

Agatha settled herself into a gold wing-back chair. It made Molla think of a willful, despotic queen about to hand down a decree.

"I thought it would be best to have the ceremony right here in the garden. That would be so much more private and pretty, don't you think?"

Molla hesitated for a moment. "Yes, perhaps you are right. But as long as you wished to make it private I would prefer it really that way with just you and Mr. Whitworth present. I don't think I would like a huge spectacle. Tay and I are agreed upon that."

Agatha was just a little short of horrified. "Heavens, child, you can't possibly mean that. This must be an event. Anyway," she added hastily, "Taylor has nothing whatsoever to do with the plans. They are entirely up to me. And you, of course," she added hastily.

Yes, of course, Molla thought. Tay had nothing to do with it. He was just another performer in the huge three-ring circus who had to jump when Agatha, the ringmaster, cracked her whip.

"Mus. it be very lavish?" Molla asked. "I should hate—"

"Not lavish, my dear—merely beautiful, with everything correct. You just leave it to me. Now that I know you are in full agreement, I can go to work immediately."

Molla almost winced. Full agreement! She almost regretted that Agatha had had a change of heart toward her. A cold and hostile Agatha Whitworth would have been only too glad, perhaps, to make the wedding as private and secluded as possible.

Neil Lundquist waded into the stream almost to the top of his hip boots. He watched the dredging crew at work and then turned to an army engineer who had followed him.

"With luck, and if we don't have a freezing spell, we can start pouring concrete in a couple of days, captain."

"Good," the army officer said. "By the way, we're taking no chances. There'll be an extra detail on duty when the stuff starts coming in. You're going to mix it yourself, aren't you?"

Neil nodded. "Every bit of it."

"It'll be a wonderful thing if it stacks up the way you folk claim it will. I know certain foreign gentlemen who would greatly enjoy using it for gun emplacements, bunkers and other military applications," the army engineer said grimly.

A short while later Neil put through his daily call to New York. Burton Whitworth was out of the office, so he spoke to Tay.

"It's going fine up here," he said. "Expect to start pouring the stuff in a couple of days. Anything new there I ought to know?"

"Nothing of a business nature," Tay told him, "but here's something you ought to know. Molla and mother have completed the wedding arrangements: It'll be the morning of May 5. And say, old boy, there's no time like the present to tell you—you're going to be my best man, you know, so don't make any dates for the day you won't want to break."

The words burned through Neil's ears and into his brain. "Hey!" he heard Tay yelling at the other end. "What's the matter? Did you hear me?"

"Yes, I heard you," Neil said, recovering finally. "But—well, I'm afraid I'll have to pass up the honor. I expect to be down in Panama then on one of those other projects," he lied. Anyway, Neil told himself grimly, he'd make certain he would be somewhere equally remote.

(To be continued).

SILVERTON

SILVERTON, B. C.—Mrs. Frank Mills has returned from Nelson.

Mrs. R. Welch entertained in honor of her son Tookie's 6th birthday on Monday. Guests were Francis and June Nelson, Snookie Gordon, Lawrence and George Fairhurst, Jean and Bud Leask, Tookie and Barbara Welsh.

Mrs. Loris Ryans returned to Nelson after visiting her parents, Mr. and Mrs. Cooper.

Mr. and Mrs. William Taylor and son Arthur Paul returned to Cranbrook after visiting Mr. and Mrs. Arthur Ham.

The Anglican Women's Guild a successful sale Friday in the Municipal Hall.

Mr. and Mrs. R. Welsh had as their guest Mr. Welsh's father, P. Welsh of Roseberry.

Medical Civilian Defense Increases Need for Doctors

The work of the medical boards for civilian defence seems to me to fall into three categories. First: there is the supply of civilian physicians for the ordinary normal needs of civilian medical practice; second: there are the two possibilities of an emergency among civilians, one due to an outbreak of an epidemic of infectious disease and the other due to injuries from bombing or a military attack.

The most pressing of these is the first. Although our complacency has had a number of jolts, the possibility of bombing or a military attack is still fairly remote, but with as many as from 40 to 80 per cent of freshman medical students being signed up for the Army or Navy service, it means that for eight years the number of physicians who enter civilian practice will be greatly reduced.

MILITARY NEEDS

This will not be greatly helped even if the medical schools increase their output. The increased output will be needed for military and naval service. For some time, however, there will probably be no dislocation of normal medical attendants, and the procurement and assignment committees will allow the population to use its own family medical adviser as much as possible.

QUESTIONS AND ANSWERS

T. R.:—Could the partition in the nose (septum) be removed and if so, would it be dangerous?

Answer: This is one of the frequent surgical operations and does not carry with it any special danger.

F. R.:—Is inflammatory rheumatism the same as rheumatic fever? Does swelling of the ankles indicate a weak heart? Does inflammatory rheumatism always damage the heart?

Answer: Inflammatory rheumatism and acute rheumatic fever are the same thing. Swelling of the ankles may be caused by a great number of things that have nothing to do with the heart, such as, for instance, varicose veins. Inflammatory rheumatism does not always damage the heart, but does so in a very large number of cases.

Make Surprise Sugarless Cake

By KATHARINE BAKER

Every day new ways are being found to help us meet the sugar rationing and still satisfy our family's sweet tooth.

Just surprise the family some day with this Prune Spice Sugarless Cake,—a favorite with the men of the house. The surprise of course, will be in explaining after they have insisted on a second helping, that it contains no sugar.

Extra care in making this new type of cake will reward you with finer results. First, choose your ingredients wisely; select a fine cake flour, one that you know is of uniform quality, and be sure to sift it before measuring. Follow the directions accurately. Second, and equally important, you must beat your cake well at each stage of mixing. This is important with any cake and results, good or bad, can depend on the beating.

PRUNE SPICE SUGARLESS CAKE

2¼ cups finely sifted cake flour, 2¼ teaspoons double-acting baking powder, ¼ teaspoon salt, 1¼ teaspoon cinamon, ¼ teaspoon nutmeg, ¼ teaspoon cloves, ½ cup butter or other shortening, 1 teaspoon grated lemon rind, 1 cup light corn syrup, 2 eggs, unbeaten, ½ cup milk, 1 teaspoon vanilla.

Sift flour once, measure, add baking powder, salt, and spices, and sift together three times. Cream shortening with lemon rind; add syrup gradually, beating well after each addition. Add one quarter of flour and beat until smooth and well blanded. Add eggs one at a time beating well after each. Add remaining flour in thirds, alternately with milk in halves, beating very well after each addition. For best results, beat cake very well at each stage of mixing. Add vanilla. Bake in two greased 8-inch layer pans in moderate oven (375 degrees F.) 30 minutes, or until done. Spread Prune Filling between layers and whiped cream, flavored with vanilla, on top of cake.

PRUNE FILLING

Place 3½ tablespoons cornstarch in top of double boiler. Add 1 cup prune juice gradually, then dash of salt, 2 teaspoons lemon juice, 1 teaspoon grated orange rind, and ¾ teaspoon grated lemon rind. Mix thoroughly. Cook over direct heat until thickened, stirring constantly. Add 2 tablespoons corn syrup and 1 cup chopped cooked prunes and mix well. Then cook over boiling water 12 minutes, stirring occasionally. Cool. Add 1-3rd cup chopped nut meats, if desired.

Kaslo Church Ladies Hold Tea, Sale

KASLO, B. C.—The Women's Association of St. Andrew's United Church held a successful bake sale and tea. In charge of baking were Mrs. Wilson, Mrs. G. Webster, Mrs. Paterson. Mrs. Wellington and Mrs. Horner had charge of tea arrangements and Mrs. S. H. Green was general convener.

Don't add sugar or other sweet to tomato juice or tomatoes. Such disguises their true flavor. Add seasoning, but not a sweet.

Speech . . .

Baby Talk Not Good for Child

By Garry Cleveland Myers, Ph.D.

"Baby talk is probably responsible for a fourth of the incorrect speech in young children." This is the opinion of a woman connected with the public school system.

She also said that children are encouraged to cling to errors because parents think it is cute and they think the child will outgrow it.

Here I might add that many children would not use baby talk if they did not first hear it from parents. Let me urge parents and teachers, as they try to help the child learn correct sounds instead of wrong ones that they be careful not to make him feel ashamed of his mistakes.

LONGBEACH

LONGBEACH, B.C.—Mrs. Burrard A. Smith spent a day at Queens Bay.

These days it's up to every girl to make the nice things in her wardrobe *last*—especially stockings. For stocking runs soon make a dent in your thrifty war-time budget.

Here's a way to avoid runs! Dip stockings in Lux every night—soon as you take them off. Lux keeps stocking threads e-l-a-s-t-i-c so that they *stretch* under strain instead of popping into runs. It removes the perspiration acids which cause holes in stocking feet. A daily dip in Lux will help to make your stockings last for simply ages. So start your daily dipping tonight!

Hints for Housewives

By BETSY NEWMAN

In our eagerness to make our allotment of sugar do, let us not forget our program of balanced meals, including the foods most likely to keep us and our families fit to do our work.

TODAY'S MENU

Breakfast

Corn or whole wheat cereal, milk
Poached eggs toast jam
Coffee Milk

Luncheon

Fish Salad creamed leftover potatoes stewed prunes, whole wheat bread butter tea milk.

Dinner

Baked Liver
Baked or Scalloped Potatoes
Stewed Tomatoes
Mixed Spring Salad
Fruit Whip Sweet Crackers
Tea or Coffee

FRUIT WHIP

1½ cups fruit pulp, 2 tablespoons lemon juice, ¼ cup sugar, ¾ cup irradiated evaporated milk.

Combine fruit pulp with sugar and let stand to dissolve sugar, stirring occasionally. Chill evaporated milk thoroughly and whip until stiff add lemon juice and whip fold into cold fruit pulp. Serve with or without custard sauce. It may be frozen in the refrigerator, and apricots, rasberries, prunes, apricots, plums, or strawberries may be used.

BAKED LIVER

1½ pounds unsliced liver, 1 tablespoon flour, ½ teaspoon salt, 2 slices bacon, 1 cup water, 1 small onion, 1 carrot, 1 stalk celery, 1 sprig parsley.

Pour boiling water over liver, skin, and trim if necessary. Rub in flour and salt, and with toothpicks pin strips of bacon across top. Add water. Lay liver on vegetables and bake at 325-350 F. for about 1½ hours. Taste frequently and add water as needed. Cover if too dry Strain vegetables from liquor and pour over liver when served. Young beef, calf, lamb or young pork liver may be used. Calf's liver is too tender to be skinned. Serves 6.

Jap Raiders Claim Bengal Port of Akyab Damaged

SAN FRANCISCO, May 3 (AP)—Tokyo radio asserted today that Akyab, strategic port city on the Bay of Bengal, was raided for the first time Friday by Japanese naval aircraft which dropped tons of bombs. Considerable damage was claimed.

Named Chief of Creston ARP

CRESTON, B. C.—Cpl. D. W. Taylor of the A.R.P. branch of the Provincial Police addressed an audience of over 500 citizens in the High School Auditorium on Tuesday evening. Col. Mallandaine, Chairman of the Creston District Civilian Defence, introduced the speaker.

Cpl. Taylor told of the air raids in London and other war torn countries of Europe, explaining how the A.R.P. operated and the work they did. The motion pictures he showed on the screen gave a more realistic idea of the meaning of air raids and war, and impressed the audience with the necessity of organized protection.

Cpl. Taylor's address and the motion picture came just at the right time to give the necessary punch to assure support for local effort in A.R.P. work. A.R.P., properly organized and operated, can just about save the situation no matter how bad conditions might get.

For some time, local efforts have been directed to the formation of an A.R.P. organization and the district has been allocated from Kitchener to Boswell, with Col. E. Mallandaine as Chairman and W. McL. Cooper as Chief Warden.

Creston now has the skeleton structure on which to build a complete A.R.P. organization. Those heading the various committees are as follows: Chairman, Col. E. Mallandaine; Chief Warden, W. McL. Cooper; casualty services, Dr. Murray, assisted by Miss M. Miles, R.N.; fire, M. R. Joyce, Creston Fire Chief; public utilities, Bud Andrews, of the West Kootenay Power & Light Co.; telephones, A. W. Millin, of the Kootenay Telephone Co.; Creston water supply, William Ferguson; Erickson water supply, L. T. Leveque; Creston Red Cross, Mrs. T. W. Bundy.

The school children are being organized and drilled in Air Raid Precautions under the supervision of S. Graham, High School Principal and E. Merriot, Elementary School Supervisor. Country school children will be trained also.

First aid, gas and demolition squads are being organized and will receive training in a short time.

KIMBERLEY

KIMBERLEY, B. C.—A marriage was solemnized April 29, between Jean Ellen Smyth, only daughter of Mr. and Mrs. G. Smyth of Kimberley and Pte. Richard Fredrick John Walkley, fourth son of Mrs. J. Walkley and the late Mr. Walkley of Cranbrook.

The ceremony was performed at the United Church by Rev. S. T. Galbraith. Mrs. H. Almack, Jr., played the wedding music.

The young bride, given in marriage by her father, made a charming picture in her wedding gown of white georgette over taffeta, with a long sleeved jacket embroidered with silk braid. Her circular net veil, held in place by two white flowers, fell into folds to her waist. She wore white sandals and carried a bouquet of pink roses and calla lilies.

The bride's sister-in-law, Mrs. Ivan Smyth was matron of honor. She chose a gown of green nile net over taffeta and wore a bandeau, decorated with gold leaves in her hair. Her bouquet was of pink and white carnations.

The groom's brother, Harry Walkley, was best man.

The bridegroom's little nieces, Marie and Corinne Gorneau, were flower girls. They were dressed in pink and blue flowered muslin dresses and matching bonnets.

Following the ceremony a reception was held at the home of the bride's parents. A decorated three-tiered wedding cake graced the bride's table. The room was decorated in pink and white.

Later on Mr. and Mrs. Walkley left to spend their honeymoon at Sinclair. The bride wore a navy tailored suit with a rose blouse and hat.

On their return they will proceed to Vancouver where Mr. Walkley is stationed with the Canadian Army.

Mrs. G. Plant has returned home from Vancouver where she has been visiting for a few weeks.

Mrs. W. Saulds, Mrs. F. Smith and Mrs. R. Dicken were joint shower hostesses last Thursday at the home of the former, honoring Mrs. F. Hopkins, nee Bessie Glennie.

At the conclusion of a delicious supper the guest of honor was handed a lucky spool of thread, which when rewound, revealed an assortment of lovely linens and blankets.

German Prisoner Caught in Texas; Compatriot Held

ETROIT, May 3 (AP)—John S. Bugas, agent in charge of the Federal Bureau of Investigation here, said today that Lieut. Peter Krug, Nazi flier who fled from a Canadian war prisoners camp and crossed into the United States at Detroit, was captured Friday night in San Antonio, Texas.

Krug, the F.B.I. agent said, registered at a small San Antonio hotel whose owner became suspicious and called police. The fugitive Nazi made no attempt to resist, Bugas said, when two F.B.I. men and two San Antonio detectives burst into his room.

Krug escaped from a prison camp at Bowmanville, Ont., on April 16 with Erich Bohle, another German flier. Bohle was recaptured at Niagara Falls, N.Y., but Krug made his way to Windsor, Ont., where he stole a small boat and rowed across the Detroit River.

F.B.I. agents said the flier went to the home of Mrs. Marguerita Bertelmann, who communicated with Max Stephan, operator of a restaurant on Detroit's East Side. Stephan, German native who is a naturalized citizen, was quoted by F.B.I. agents as saying he fed Krug, gave him money, took him on a round of the beer gardens and finally, on Sunday, April 19, put him on a bus for Chicago. Stephan is held under $35,000 bond on charges of harboring an enemy alien.

SAN ANTONIO, Tex., May 3 (AP)—Heel clicking Lieut. Hans Krug, 22-year-old Nazi bomber pilot who escaped from a Canadian prisoner-of-war camp, was captured here last night.

He was arrested by two Federal Bureau of Investigation agents and city detectives in a small hotel where he had been spotted by the manager whose name was withheld.

Apporently awakened by the insertion of a passkey into the door of his room, the young pilot, who was shot down over England at the mouth of the River Thames, at first refused to take down the latch chain he had fastened before retiring.

But when the officers explained that they were making a check and wanted to talk to him, he opened the door.

M. W. Acers, special agent in charge of this F.B.I. district, announced Krug's capture.

"You must remember my position as an officer," Acers quoted the young German as he was being fingerprinted.

Krug also objected to being photographed. Told by officers that the pictures they had of him were not good, he replied:

"It is good for me that the picture is bad."

The photos were made, however, and he was questioned all night. He did not admit his identity until 1:15 a. m., Acers said.

Krug, son of a civil engineer, might have been in Mexico in another day or so if he had not been captured. He apparently planned to swim the Rio Grande, for his papers—forged in the name of a carpenter purportedly from the fire-gutted French liner Normandie—would not have put him by border officials, Acers said.

FERNIE FAMILY IN UNIFORM

From left — Aircraftman Jack Minton, Miss Mildred Minton and Leading Aircraftman Douglas Miton, sons and daughter of Mrs. Harold Minton, formerly of Nelson. T. S Shorthouse, Nelson, is their uncle. Miss Minton is a member of Fernie Detachment of the Canadian Women's Training Corps.

Bill Straelow Likes Life in Canadian Air Force

Ac. 1 William Straelow, son of Mr. and Mrs. Tom Straelow of Glade, was in Nelson on Saturday at the conclusion of leave which he has spent at Glade and Brilliant.

Aircraftman Straelow is in the medical service at a bomber school at Calgary.

Before enlisting for active service he spent some years at Vancouver in the First Aid Department of British Columbia's Workmen's Compensation Board.

He enoys his life in the R.C.A.F., he said.

King and Queen Visit Bombed Bath Area

BATH, May 3 (CP)—Climbing over heaps of rubble, the King and Queen made a pilgrimage of mercy yesterday such as they have been spared for months during the German Air Force's raiding lull.

Their Majesties paid a surprise visit to bombed Bath, one of the historic towns hit in Gaering's "guidebook blitz."

"We were anxious to come and see how you are all getting on," said the King to one grey-haired woman.

"It's terrible," said the Queen as they stood on a hillside surveying the wreckage which hundreds of troops were working to clear.

The Royal route through the charred ruins had to be changed once because of the danger from falling masonry.

Since Confederation in 1867 Canada has had 39 bank mergers.

Kinette Air Raid Shelter Tea Is Great Success

"Come and spend an hour in the Air Raid Shelter" was the call Saturday afternoon when the newly organized Kinette Club staged a novel tea in an imitation Air Raid Shelter. Keeping as closely as possible to the theme, sirens were sounded periodically, a First Aid Booth was on display, and miniature sandbags were distributed holding a lucky number for a prize drawn for during the afternoon.

The committee in charge of publicity were Mrs. J. B. Stark and Mrs. H. A. D. Greenwood. Convener of refreshments was Mrs. P. C. Richards, assisted by Mrs. A. S. Aitken, Mrs. E. Rolph, Mrs. H. A. Lethbridge, Mrs. J. Rich and Mrs. G. F. Allan. The decorations were convened by Mrs. Ray Shaw, assisted by Mrs. T. A. Carew, Mrs. W. A. Duckworth, Mrs. A. Stringer, Mrs. T. McGovern and Mrs. Finley Jameson.

Kootenay Ideal Location for Military Hospitals

Involved in rehabilitation of men discharged from the services of Canada will be an accentuated need for hospital and sanitarium accommodation.

Not only men who are suffering from the effects and after-effects of wounds, but the very large number who will require medical attention as a consequence of the heavy strain of active service in the army, navy and air force must be cared for.

We had experience in the last war. This experience will be repeated but probably on a greater scale in this struggle and especially after it is over.

In its plans for new hospitals and sanitaria, the Department of Pensions at Ottawa should consider the advantages of the lake districts of British Columbia as sites—Arrow, Kootenay and Slocan Lakes Districts all offer admirable climate and ideal surroundings for patients requiring hospital treatment and particularly for convalescents.

Book Notes

Nelson Municipal Library

"KHAKI AND GOWN",
by Field Marshal Lord Birdwood.

The autobiography of a distinguished modern military career in India, South Africa, in France, Flanders and Gallipoli. Rather more than nine-tenths "Khaki" and rather less than one-tenth "Gown".

"ISLES OF SPICE",
by Frank Clune.

A firsthand study of the Dutch East Indies and Northern Australia. The products of these exotic islands are coveted by East and West. This chatty and informative book supplies historical backgrounds and explains conditions underlying today's events.

"WESTWARD AMERICA",
by Howard R. Driggs.

Dedicated to the heroic men and women who carried civilization across the continent, this book contains 40 chapters of humanized history from first-hand sources. How the Santa Fe, Oregon, Mormon and other famed trails were opened is illustrated in color by the artist. William Henry Jackson, who himself journeyed from the Atlantic to the Pacific 75 years ago.

"THE CHILDREN",
by Nina Federova.

The author of "The Family" adds another wise book of human relations. Lida and her mother are in Tientsin, a nephew is in Russia; Dima is in England; and Lida's hope lies with the young American boy, Jimmy.

"OUR ENEMY, JAPAN",
by Wilfrid Fleisher.

A useful guide to the economic, military and naval strength of Japan.

"THE LONG ALERT",
by Philip Gibbs.

The story of a Canadian in the British army in England, and of the time when Britain could only stand and wait.

"TWO SURVIVED",
by Guy Pearce Jones.

Seven men in an open boat eluded a Nazi raider after their vessel was torpedoed in mid-Atlantic; of the seven, two survived to reach the Bahamas. This is the account of their ordeal.

"ORIENTAL DIVISION G-2",
by VanWyck Mason.

Three "Captain North" intrigues of the Far East—"The Sulu Sea Murders", "The Fort Terror Murders", and "The Shanghai Bund Murders".

"THE MAN WHO CHANGED HIS PLEA",
by E. P. Oppenheim.

The return of Martin Brockenhurst to Scotland Yard reopens a complicated case and produces some revelations.

"GARDENS FOR VICTORY",
by Jean-Marie Putnam and Lloyd C. Cosper.

"A very practical book to help your garden, however modest, produce continuous supplies of nutritious food, properly selected, on the smallest space, in the shortest time, for the least cost."

"BLACK MARTINIQUE—RED GUIANA",
by Nicol Smith.

Possessed of an enormous curiosity, the author of "Burma Road" searches out tales that are bizarre, romantic and even spooky.

"THEY CALLED ME CASSANDRA",
by Genevieve Tabouis.

The memoirs of Madame Tabois, who,in more than two decades of journalism, has known most of the great statesmen of Europe, and has spoken frankly of many of them.

H. S., Nelson—What code, Morse or Continental, is used by the R.C.A.F. in communication between plane and ground by radio?

Continental, which is the same as International Morse, is used. International Morse, of course, is a different code to the Morse used on land telegraph lines on this continent.

J. W. J., Trail—Could you please give me the address of the Barber's Association in Saskatchewan and Washington, D. C.

Write R. W. Morrow, Secretary B. C. Barber's Association, 441 Seymour Street, Vancouver.

I. G. W., Renata—Where could I send a newly composed song to be published.

Canada Music Sales Ltd., Toronto.

D. T., Nelson—Would you kindly advise where a plan or blueprint for actual size "Piper Cub Airplanes" can be procured?

We doubt whether it would be possible to obtain plans for the Piper plane, but we suggest you write National Aeronautical Association, Willard Hotel, Washington, D. C.

Subscriber, Nelson—Could you give me the cause and remedy of brittle finger nails?

There are various causes of brittle finger nails—lack of calcium, vitamin deficiencies, nervous diseases. We advise you to consult a doctor for full information.

Reader, Fernie—Could you please tell me how to kill hop vine?

Cut the vine back to the base and dig up the roots or apply a mixture made from one pound of white arsenic, one pound of caustic soda and one gallon water mixed, heated and used at strength of one pint per gallon of water. Tis mixture is of course, poisonous.

Mrs. H. W. S. — Burton has kindly written giving another method for extracting juice from carrots, requested by C. S., Trail.

Take firm carrots, either new or old, scrape and clean them, but do not peel. Grate carrots over a clean cloth, which has first been dipped in cold water and wrung dry. (A clean sugar bag does very well). Take up the cloth by the four corners and firmly squeeze or wring out the juice into a cup. One good sized carrot will make half a cup of juice.

NO PEACE IN DEFEAT

Hitler, needing another victory badly, has beaten France again. What else can Marshal Petain's announcement of collaboration with Pierre Laval mean? "Today, in a moment as decisive as that of June, 1940, I again find myself with him.—55 June, 1940, brought France the saddest moment of its history, unless this moment in 1942 is sadder still.

There must be more disillusioned people in France today than at the moment of French defeat before German arms. In 1940 disillusion was confined to that section of Frence opinion that had been deceived into thinking France strong. Now it includes even those who knew France was weak but imagined that in acknwledging that fact they could somehow find a rest from national responsibility.

It has not been possible. Even had Britain fallen as many Frenchmen expected it to, in a few weeks after June, 1940, France could have found no security or comfort in a Nazi victory. Back of Petain's words stands the fact of France's continuing tragedy, the lesson of which is plain to all free peoples: that there is no peace in defeat, only more defeat.—Christian Science Monitor.

SALES TAX POOR INFLATION CURB

To Canadians it must seem odd to have the Minnieapolis Tribune and Star Journal suggesting a sales tax to stop inflation in the United States.

A sales tax no doubt, helps to curb inflation; absorbs a certain amount of purchasing power. It cannot stop people who have money from buying goods, or from seeking goods when goods are scarce—which is what brings inflation.

Canada has an 8 per cent sales tax; which is pretty high. It wasn't stopping threatened inflation. All that it meant, in fact, was that prices to the consumer were 8 per cen higher than they would have been without the tax. That didn't stop from bidding higher and higher for goods that were getting scarcer.

There are only two ways of checking inflation when goods become scarce and money plentiful. They are: (1) Rationing the goods, thus stopping demand for them; or (2) establishment of a price ceiling.

Canada, with its 8 per cent sales tax, has chosen the last method. And it seems to be working. — Ottawa Journal.

Today's Horoscope

Geniality, originality and mental sharpness are the outstanding characteristics of the persons who have birthdays today. They have wit and humor, have many stauch friends, and the ability to adapt themselves to changes in fortune and environment. Sudden annoyance and somewhat heavy expenditures on pleasure and through friends are probable for them in the next year. Much good fortune may also be expected, however. They should plan and build for the future. Born today a child will be highly successful with property, land, antiques, literature and uncommon pursuits, it is prophesied. A false friend may cause trouble, however.

Prideaux Advocates Interning Japanese

To the Editor:

Sir—Having read on the front page of the Vancouver Daily Province, dated April 27, 1942, that 30 Japanese have arrived in Grand Forks to live at Alpine Inn, Christina Lake, for the duration of the war, and, as I am familiar with the conditions in Southern British Columbia, have decided to publish a few facts that our Government, or the B. C. Security Commission, may have overlooked?

The following are seven locations called to our attention:

First—Hope and Princeton: There are some 260 alien enemies living under pleasant conditions along the Hope-Princeton Highway; in fact, in an area set aside, and named manning park.

Second—Greenwood's mayor and Council have offered the facilities of that town to the Japanese. Remember, all those who travel over the B. C. Southern Highway have no alternative but must pass through that Japanese community.

Third—Kaslo and New Denver are two of the scenic beauty spots of British Columbia, with exceptional ideal climate. These two towns guard both the Kootenay and Slocan Lakes, where industry and pleasure abound.

Fourth—Sandon is located between the two towns mentioned above, and up a canyon where snow slides occur. It can be easily guarded at Three Forks, the entrance to the canyon. I am of the opinion it is the only safe place of these mentioned for the Japanese to be located.

Fifth—Alpine Inn is another beauty spot on Christina Lake that has fallen into Japanese hands. It is within rifle range of another Summer resort—Little Tadanac—where some officials of the Consolidated Mining & Smelting Company, Trail, B. C., have built their Summer homes, just across the lake from Alpine Inn.

Any B. C. road map will show these locations to be near our most important industries. Mining, smelting, power plants, railroads, air ports, towns, farms and forest.

I am 100 per cent in favor of a resolution that was passed by a body of prominent men in Princeton last week, to have a detachment of militia stationed here, but I pointed out the cost of such a move, because, if we need to be guarded against the Japanese and other alien enemies, then the other towns will require the same protection.

Far safer and cheaper, if our Government would intern our enemies and be safe, than for the people to want to profit temporarily from the money our Government is giving the Japanese.

The Prairies is the suitable location for internment camps.

"Better to be sure than sorry."

GILBERT PRIDEAUX.

Princeton, B. C., April 29, 1942.

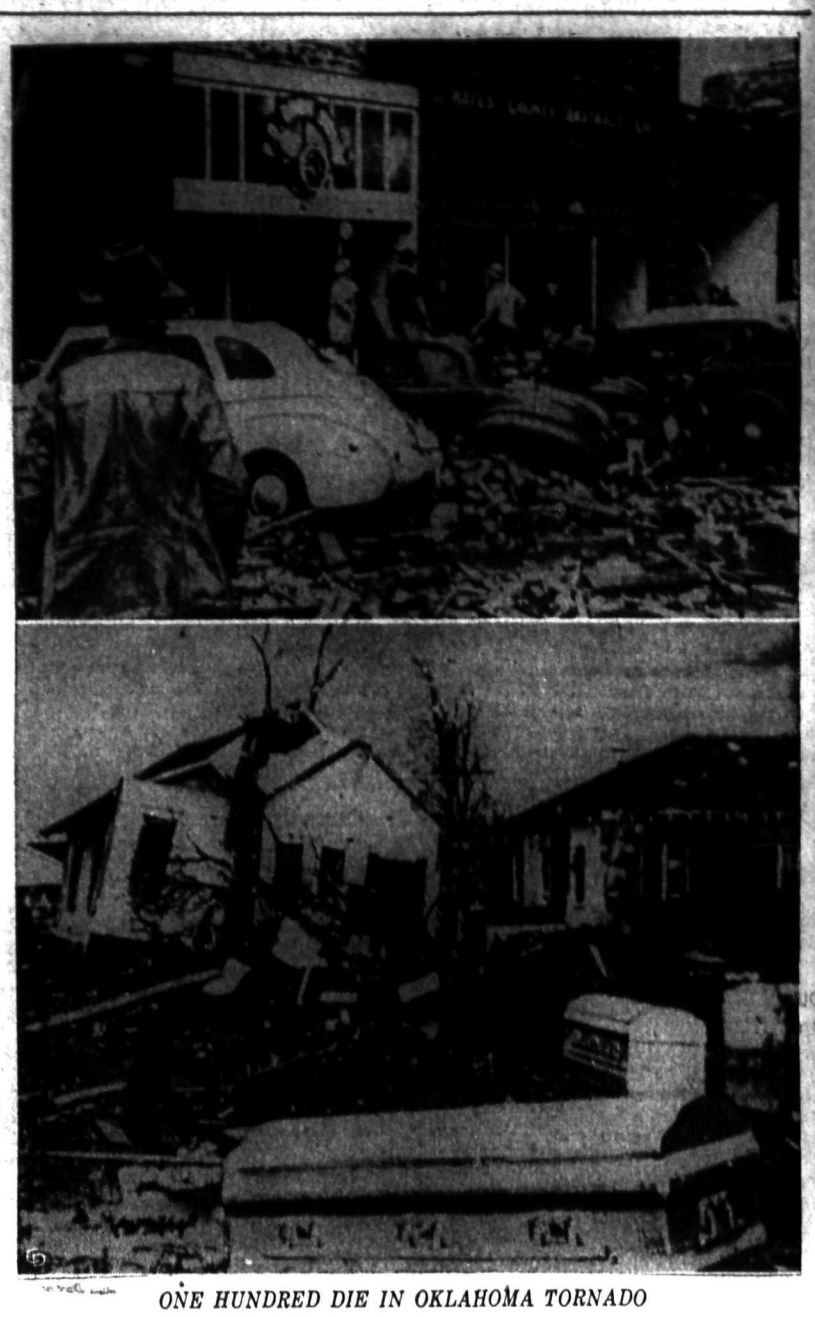
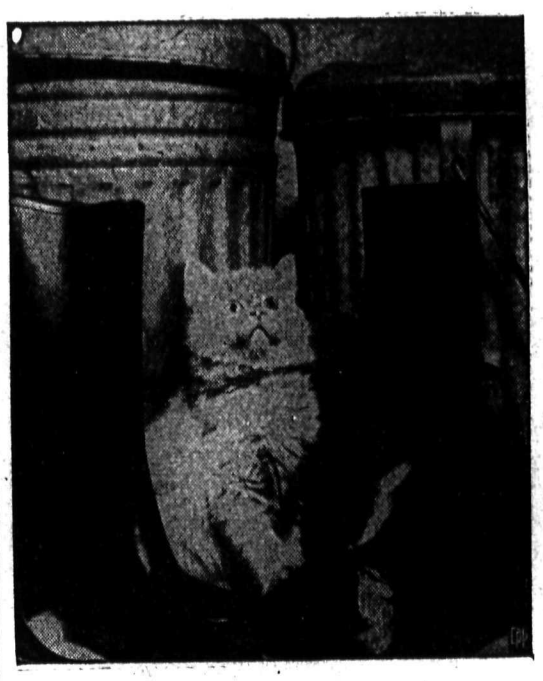
This photograph shows the actual tornado, a maelstrom of destructive whirlwinds, sweeping through Claremore, Oklahoma, on its way to Pryor which suffered the full brunt of the tornado.



ONE HUNDRED DIE IN OKLAHOMA TORNADO

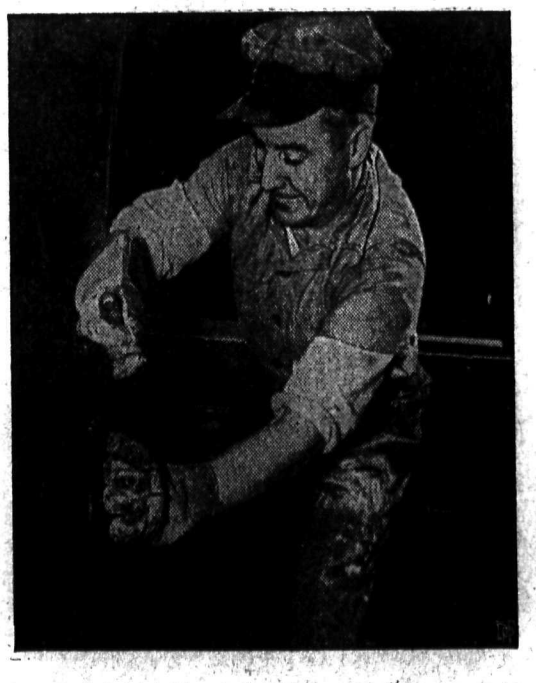
Tornadoes gathered and ripped through two Oklahoma counties killing at least 100 and injuring hundreds more. This is at Pryor, growing because of the war. At the top, autos, nosed into the curb, were demolished, as were the buildings behind them. At the bottom, whirlwinds hurtled caskets into an empty lot. The house in the background has been knocked askew.

Where Canada's Salvage Rubber Goes



Modern Puss-in-Boots stands guard over the most important salvage item in wartime—rubber. Canadian rubber plants need 50,000,000 pounds of rubber articles.

In a reclamation plant a de-beading machine removes the wire from the rim of a salvaged tire.



Reclaimed rubber is forced through fine screens to eliminate metal particles. It rolled into sheets of hair-breadth thinness then pressed into strips of raw rubber.

Tires for 25-pounder guns come from salvaged rubber. An aircraft tire requires hundreds of pounds of rubber. A Canadian corvette uses the rubber equivalent of more than 150 auto tires.

Dominoes Capture Dominion Hoop Title; Beat Oilers 40-33 in Last Tilt

By ALAN DUCKET
Canadian Press Staff Writer

MONTREAL, May 3 (CP)—Victoria Dominoes left for home tonight with the Montreal Trophy, emblematic of the Dominion Senior basketball title, after capturing the championship here last night with a 40-33 win over Montreal Oilers in the fourth game of the Dominion Senior best-of-five final. They won the series three games to one.

It didn't take the Western champions long before they took a commanding lead in the opening half and from there on they coasted to an easy victory.

Playing Coach Johnny Ferraro was the leading scorer last night. Ferraro, a star football player with Montreal teams for the last half dozen years, tallied 17 points, seven field goals and three free shots. Art Chapman, the opposing Coach, led Dominoes with nine points, four field goals and one free throw.

Chuck Chapman opened the score for Victoria with less than a minute gone in the opening with a free shot, but two quick baskets by Ferraro shot the Montrealers into a 4-1 edge which was stretched to 6-1 as Ferraro and Bob Irwin shot in a free throw apiece.

The Dominoes started to roll then and before many minutes had elapsed they took a lead which they never yielded.

After the Western champs had taken a 10-3 advantage, sucessive baskets by Chuck Chapman and Norm Baker gave them a 14-9 lead which Ronnie Wilson of the Oilers cut down to 14-11 wit ha long shot.

The Dominoes slowly increased their edge as the first half was in its last stages and as half-time whistle sounded they held a 21-14 lead.

Chuck Chapman and Baker shot the Westerners into a 21-14 advantage as the final session got underway but Wilson snapped in two baskets for the Oilers.

The teams split the scoring about evenly from then on. Although they put on a determined offensive towards the end of the tilt, the Montrealers shot wide of the basket repeatedly.

Dominoes lost Chuck Chapman and Baker for committing four fouls with only a few seconds remaining in the game but two replacements, Don Woodhouse and Alan Wright worked in well on the Victoria defence.

Arsenal Plays to Scoreless Draw With Brantford

Four Teams Qualify for League Cup Semi-Finals

LONDON, May 3 (CP Cable)—Before a great crowd of 41,000, one of the biggest since the war started, Arsenal and Brentford played a scoreless draw Saturday in their semi-final of the London football war cup competition.

The Stamford Bridge game produced a hero in Marks, England's international goalkeeper, who saved Arsenal from defeat with three sensational saves. Tom Scott at fullback also was outstanding for Arsenal. The teams will meet again May 16 with the winner playing Portsmouth May 30 in the cup final.

West Bromwich, Wolverhampton, Sunderland and Grimsby Town qualified for the semi-finals of the football league war cup. The semi-finals will be played on a home-and-home basis with games on May 9 and 16.

BEAT EVERTON 5-1

West Bromwich scored a smashing victory today over Everton by 5-1 before a crowd of 34,000 to win the total-goal series 6-2. Sunderland defeated Bradford 1-0 a week ago and squeezed into the semi-finals by holding Bradford to a 2-2 tie today. West Bromwich and Sunderland will meet in one semi-final round.

Grimsby Town, beaten 1-0 a week ago by Norwich City, came back to win 2-0 and capture the round 2-1. Wolverhampton Wanderers lost 1-0 to Manchester City but advanced through last week's 2-0 victory.

Results of games in the football league championship race left Blackpool and Manchester City tied for the lead with 25 points each, two more than Liverpool.

Blackpool trounced Rochdale 5-1 while Manchester edged Oldham 2-1.

Glasgow Rangers defeated Celtic 2-0 in their Scottish Southern league cup semi-final and meet Morton in the final next Saturday.

CRAWFORD BAY RANCHER IN MIDDLE EAST

B. S. Westbury, for some years a rancher at Crawford Bay and who left for England five or six years ago, is now a major in the British army stationed in the Middle East. To the right in the above picture is Lieutenant R. Fettah, an Arab, who is serving with the British forces. In a letter to O. B. Appleton of Sunshine Bay, Major Westbury comments on the fact that while by profession he is a farmer, though in recent years he has been in the wholesale fruit business in England, he has spent seven years of his life in the army. He served in the Great War.

Warmerdam Vaults to New Mark of 15 Feet 6⅞ Inches

BERKELEY, Calif., May 3 (AP)—Cornelius Warmerdam soared to a new world record Saturday by pole vaulting 15 feet 6⅞ inches, bettering all existing marks.

Although Warmerdam has a higher jump, 15 feet 7¼ inches, it was made indoors in Boston, eb. 14.

It cracked the mark he set last June 6, of 15 feet 5¾ inches.

St. Louis Hands 'Dem Bums' Two Wild Beatings

Pirates Divide Two With Braves; Reds Lose to Giants

ST. LOUIS, May 3 (AP)—"Dem Bums" from Brooklyn busted into the St. Louis Gas House Gang's ballwick today and in two typical "other side of the railroad track" games limped out on the short end of 14-10 and 4-2 scores, the second being called at the end of 5½ innings because of darkness. The first game lasted three hours and six minutes.

Just an inkling of what 23,871 fans witnessed in this first clash of the 1942 season between the Dodgers and the Cardinals:

Five men, including both managers, tossed from the field during the two games; 14 extra base blows, including three home runs and a triple; a parade of 10 pitchers in both games, and a hitting attack by Cardinal Ken O'Dea that accounted for seven runs.

First:

Brooklyn	10	12	2
St. Louis	14	11	0

Wyatt, Head (1), Chipman (4), Allen (5) and Sullivan, Owen (6), Dapper (8); Gumbert, Beazley (4), White (5) and O'Dea.

Second:

Brooklyn	2	5	0
St. Louis	4	4	1

Higbe, French (4) and Dapper; Lanier and W. Cooper.

SPLIT TWO GAMES

PITTSBURGH, May 3 (AP) — Pittsburgh Pirates ran a winning streak to three straight today by cuffing Boston Braves 6-2 in the opener of a National League doubleheader but the roof fell in on them in the second game as the Braves romped to a 12-3 victory. The Braves were docile enough in the opener as Big Max Butcher scattered seven singles. In the nightcap the Braves unloosed a 14-hit attack.

SPLIT DOUBLEHEADER

CHICAGO, May 3 (AP) — The Cubs and Phils divided honors in a National League doubleheader today, Chicago winning the first game 9-1 and losing the second 8-1.

The Cubs blasted four Philadelphia pitchers for a total of 14 hits in the first game while Bill Lee, who turned in his third victory of the season, limited the Phils to six hits.

Robe Melton won his second game of the season in the nightcap.

First:

Philadelphia	1	6	0
Chicago	9	14	1

Hughes, Beck (6), Nahem (7), Masterson (8) and Warren; Lee and McCullough, Scheffing (8).

Second:

Philadelphia	8	11	0
Chicago	1	5	2

Melton and Livingston; Bithorn, Botty (1), Flores (7), Fleming (9) and McCullough, Scheffing (8).

BOXING RESULTS

Philadelphia — Johnny Craven, 146½, Philadelphia, outpointed Pedro Tomez, 148½, Philadelphia (8).

Hollywood—Petey Scalzo, 134½, New York, won by technical knockout over Toby Vigil, 134, Los Angeles (9).

LONDON, (CP) — British Army hero James Pomfret, 22-year-old formy Army boxing champion who had intended to turn professional after the war, wore his artificial arm for the first time at his marriage in London. He recently was mentioned in dispatches for bravery and cleverness after losing his arm on a solo scouting expedition in Libya.

THEY CALL IT SKULL PRACTICE

Ouch!—Billy Holm, Angel catcher, registers pain as he is beaned sliding into third base in the fourth inning at Ontario, Cal. Rip Russell of the Chicago Cubs is looking for the ball. Holm, hurt, stayed in the game. The Angels won, 9 to 3.

Spokane and Coast Golfers Even in Spokane Card

SPOKANE, Wash., May 2 (AP)—Corporal Bud Ward and his golfing partner, professional Neil Christian, birdied the 18th hole today to wind up an exhibition match all even with amateur Kenneth Black and professional Freddie Wood of Vancouver, B. C.

The match was played for the benefit of the second air force athletic fund. A return engagement is set for Vancouver May 16 with the Canadian Red Cross as beneficiary.

Ward and Christian had a best ball of 65, and the Wood-Black combination had 66. Par for the Manito Country Club course is 72.

Corporal Bud, National Amateur King, had an unofficial 68, Wood a 70, Black a 71 and Christian a 72.

LONDON, (CP). — Sgt. Gnr. Al Capaone of the R.A.F., known throughout Britain as the "miracle boxer" because he overcame the handicap of a deformed foot, was awarded the D.F.M. recently for heroism during an all-night attack on German industrial centres.

Frisch and Lopez Receive Fines

NEW YORK, May 3 (AP)—Ford Frick, President of the National League, has imposed fines of $50 each on Frankie Frisch, Manager of Pittsburgh Pirates, and Al Lopez, the Pirates' veteran catcher for their part in a ninth-inning argument with Umpire Larry Goetz during Friday's Pittsburgh-Brooklyn game.

The argument began when Goetz called Billy Herman of the Dodgers safe at home plate on a close play.

Boston Breaks Up Cleveland's Winning Streak

Yanks Win 2 Games to Creep Up on Detroit

BOSTON, May 3 (AP)—Boston Red Sox, aided by some jittery work afield by the opposition, snapped Cleveland's 13-game winning streak today, defeating the American League-leading Indians 8-4 for Charlie Wagner's third straight victory.

The Sox grabbed a pair of unearned runs in the first inning with twoout and then piled up six more in the fifth.

Cleveland	4	13	3
Boston	8	10	0

Smith, Gromek (5), Embree (7), Krakauskas (8) and Desautels, Denning (6); Wagner and Peacock.

SPLIT WITH A's

PHILADELPHIA, May 3 (AP)—After winning the first game 8-7 Detroit Tigers made only two hits off Phil Marchildon and lost the second half of a double-header today to the Athletics 1-0. Al Benton and Hal Newhouser yielded only three hits in losing the nightcap.

Rudy York made two home runs on successive times at bat, his third and fourth circuit blows in two straight games, to help the Tigers win the opener.

First;

Detroit	8	15	1
Philadelphia	7	12	1

White, Henshaw (4), Gorsica (7) and Tebbetts, Parsons (8); Knott, Harris (7), Beckman (9) and Hayes, Wagner 7).

Second;

Detroit	0	2	0
Philadelphia	1	3	1

Benton, Newhouser (8) and Tebbets; Marchildon and Wagner.

SPLIT DOUBLEHEADER

WASHINGTON, May 3 (AP) — Southpaw Al Hollingsworth hurled effectively in the pinches to give St. Louis a 5-1 victory over Washington in a nightcap of the American League doubleheader today after the Browns had dropped the opener 9-8.

St. Louis clinched the nightcap in the fifth inning when two walks, a pair of infield rollers, Rick Ferrill's single and George McQuinn's triple produced three runs.

Stan Spence's triple in the ninth drove in two runs to give the Senators the opener, a sloppy contest in which 34 players took part.

First:

St. Louis	8	14	1
Washington	9	12	0

Galehouse, Biscan (2), Whitehead (7), Pyle (8), Trotter (9) and Swift, Ferrell (9); Hudson, Sundra (7), Newsome 8) and Early, Evans 9).

Second:

St. Louis	5	8	1
Washington	1	9	0

Hollingsworth and Ferrell; Zuber, Masterson 6), Carrasquel (6) Cathey (9) and Evans.

BEAT SOX TWICE

NEW YORK, May 3 (AP)—New York Yankees took both ends of a doubleheader from Chicago White Sox today, winning the first game 6-4 and the second 3-1 to move within half a game of second-place Detroit deeper into the cellar.

Singles by Frank Crosetti and Tommy Henrich, an infield out and an error by Myril Hoag generated a Yankee run in the first inning of the second game. Two more crossed in the fourth on a triple by Bill Dickey, a wild pitch, a hit batsman and an error by Mike Tresh.

A four-run outburst climaxed by Charlie Keller's home run with one on in the third clinched the curtain raiser for the Yankees.

First;

Chicago	4	11	2
New York	6	11	1

Smith, Haynes (8) and Turner; Ruffing, Murphy (8) and Rosar.

Second:

Chicago	1	7	2

King's Horses Win First Races for Royal Stables

SALIBURY, England, May 3 (CP) — The King's horses, Sun Chariot and Big Game, brought the Royal Stable its first victories of the season to the cheers of a Salisbury race track crowd Saturday.

Big Game, a Derby favorite, broke the track record. Both three-year-old fillies were in seven-furlong tests and were ridden by Gordon Richards, many times Britain's champion jockey, who is making a comeback after fracturing his leg last Spring.

The fiery Sun Chariot, beaten in her first start of the season last week, won the Sarum Stakes comfortably, edging out Federion.

The unbeaten Big Game took the Salisbury Stakes, breaking by 4-5ths of a second the previous record of one minutes 30 and 2-5ths seconds.

Shut Out Captures Kentucky Derby; Alsab and Valdina Orphan Are Next

By SID FEDER
Associated Press Sport Writer

LOUISVILLE, Ky., May 3 (AP)—A dream came true along Churchill Downs' stretch Saturday as a chocolate son of a great chocolate daddy won the richest Kentucky Derby of them all.

Eleven years after a last-minute breakdown robbed his daddy, Equipoise, of his chance at the necklace of roses, Mrs. Payne Whitney's Shut Out ran his heart out in a mighty stretch struggle to win for his famous father.

All the long way down the stretch he went all out, and finally hit the wire 2¼ lengths in front of Alsab, little juvenile champion of last year.

It was a double barrelled triumph for the "bum" of Mrs. Whitney's Greentree stable, whose name was wished on him because of the fact his owner is a Brooklyn Dodger fan. For even as the field of 15 paraded to the post the Greentree stable bosses still regarded Ekky's son as only its second best bet, not the equal of his mate Devil Diver.

The bettors, who poured $631,196 into the mutuel machines on the Derby alone, made the entry favorite at $5.80 for $2 because of what they thought of the diver.

The Greentree combination returned $3.40 to place and $3 to show. Alsab paid off $6.20 and $4.80 while a $2 ticket on Valdina Orphan who finished third, and his stablemate, Hollywood, was good for $5.20.

The last quarter mile got the diver and he faded to sixth place, trailing not only the first three home but also the high speed rheumatic With Regards, who set the early pace, then wound up fourth and First Fiddle, who was fifth.

Back of the Diver came such other high and mighty pre derby standard bearers as Hollywood in ninth place and Apathe in 11th. Far down the track at the finish came Requested, who never got in it and was erased up to 14th place.

But despite the defeat of all these the flying son of the chocolate soldier warmed the hearts of the whole crowd. They knew, every one in the get together variously estimated at from 80,000 to 100,000 that this spittin' image of the big hoss of another day was winning this one for daddy.

That was the big thing, even more than the $64,225 pay check he picked up in this 68th and most valuable of all derbies for the necklace of roses that goes, by tradition, to the winner, or the $5000 gold cup that is also in the prize package.

Just 11 years ago, Ekky came up as the big hoss in the derby for Mrs. Whitney's nephew, Cornelius (Sonny) Whitney. Then the morning of the big race word came that he had a kidney trouble that comes to horses from over eating. He was scratched. But Saturday Shut Out evened things up.

Trail Hustlers, Lumberjacks Tie 3-3 In Exhibition

TRAIL, B. C., ay 3—First exhibition game of senior men's softball here ended in a tie 3-all when the Hustlers and Merry's Lumberjacks met in Victoria Park grounds Sunday.

The players were not all members of the two teams, as some of the regular players understood the game was called off because of the day-long rain. A small crowd watched a close game on the west grounds.

The lineups were:

Hustlers: Fulthorte, p, J. McLeod, c, D. Scodellaro, 1b; T. Harrison, 2b; D. McIntyre, cf; J. Marshall, lf; Underwood, rf; A. Clough, 3b; H. Rothery, ss.

Lumberjacks: F. DeFoe, p; J. Burrows, c; J. Jarrett, 1b; D. Baril, 2b; K. Stanton, 3b; J. Bilesko, ss; F. Barnes, lf; B. Burke, cf; Dunlop, rf.

Pitcher Fulthorpe struck out 8, walked two, and allowed nine hits, while Defoe struck out eight, walked three and allowed 8 hits. Burke got the only two-base hit of the game.

Another exhibition of men's team will be played Wednesday.

Japan Still Worried Over Identity of Bombers Which Raided Tokyo

By J. F. SANDERSON
(Canadian Press Staff Writer).

WASHINGTON, May 3 (CP).—For two weeks the military rulers of Japan and the Japanese people, themselves, have been left to worry about one of the major mysteries of the war: Whose planes bombed Tokyo the night of April 18?

The Tokyo announcement merely referred to "enemy bombers" and Washington has been mum ever since, admitting nothing.

Even President Roosevelt has been coy about it, stating in his broadcast this week that it had been reported from Japan "that the first time in history that Japan has suffered such indignities."

Washington has maintained silence about the raid—neither admitting nor denying they were American planes—for what are believed to be psychological reasons. Men who are familiar with the Japanese people say they have almost a morbid fear of attack from the air and it is to capitalize this national psychosis that Washington has never made an official admission about the Tokyo raid.

The policy seems to be: "Let the Japanese worry and fret about that raid. Let them figure out where the planes came from, how they got to Tokyo and where they went after they dropped their bombs. As for us, we'll tell them nothing."

To understand Japan's fear of bombing, it is necessary to remember that the Japanese literally live in houses of tinder—dwellings of bamboo and paper.

Because of this the Japanese militarists began to drill the people in air raid precautions long before any other country went in for them. But more than that—and this accounts for the psychological tinge to the whole account of the Tokyo raid—they promised the Japanese people they would carry the war far beyond the range of bombers.

The military leaders of the United Nations would be the first to admit the Japanese have carried the war far beyond the shores of Japan. But the Tokyo raid has demonstrated that Japan's cities are still within bomber range.

Apart altogether from the firetrap features of Japanese cities, Japan's wartime industry is concentrated in a small area and to destroy it or cripple it would be destroy Japan's ability to make war.

CONTRACT . . . By Shepard Barclay

ACCEPTING A BEATING

CAN YOU imagine a tournament being won because the winning declarer deliberately and intentionally allowed himself to be beaten in a contract? That can really be the finest match point bridge, if he reckons the chances are overwhelmingly in favor of his being beaten two tricks in case he tries a highly improbable play to make his contract. In rubber bridge, the same declarer should attempt almost any kind of play —no matter how unlikely—to make the contract, rather than accept a defeat.

East refrained from doubling, because he was pleased with the contract, and then led the spade K. When West played the encouraging 7, East followed with the A, and then the J.

North's natural play here in rubber bridge is to take the trick with the Q, as there are still two aces out against him, and then try to embarrass his opponents by running diamonds.

When that style of play was tried in the duplicate where this hand was dealt, East won the tenth trick with the club A and led the spade 5 to West's 9, enabling the latter to return a heart up to the A-Q, thereby setting the contract two tricks.

At one table, however, the declarer was Edward Lasker, of the Whist club in New York, who brings to the bridge table the same acumen which makes him one of the greatest radio experts of the advertising world. When he saw West's encouraging high-low cards on the first two spade tricks, he read them as indicating a holding of four headed by the 9. He therefore realized that if he took the third lead, the spade J, with his Q, East would later be able to put West into the lead to go through his heart K. So he let the J win. East now had no way to set the contract more than one trick, as he could never give West the lead. He therefore cashed the heart A and club A, setting the contract one trick, after which Mr Lasker got all of the rest.

ELECTRIC RANGES 'FROZEN' IN U.S.

WASHINGTON, May 3 (AP) — The United States War Production Board Saturday froze all stocks of domestic electric ranges in the hands of manufacturers, distributors, and retail dealers.

The order prohibits production of such stoves after June 1, except to fill top military priority ratings.

Colombia is the only South American country with a seacoast on both the Atlantic and Pacific oceans.

Officials Oppose Freezing of Labor

OTTAWA, May 3 (CP) — General freezing of labor, reported the subject of widespread rumor in British Columbia is not regarded as a possibility in official circles.

It is known that some of those taking a leading part in instituting national selective service are strongly opposed to freezing on any general scale and are convinced that both workers and employers would suit from action which would not only prevent a worker from changing his job but which would also prohibit discharges.

Under present regulations, except those employed in agriculture, may change their jobs at will provided they comply with the National Selective Service Regulations which require special permits before able-bodied men between the ages of 17 and 45 may enter specified restricted industries.

Male agricultural workers may not change their occupation, except to take seasonal work in a primary industry or to enlist, unless they obtain permission from a selective service officer.

Calgary Steel Plant Producing at Full Capacity

CALGARY, May 3 (CP)—H. L. Smith, Plant Superintendent of the Calgary Rolling Mills of the Dominion Bridge Company, Ltd., said today the plant is producing steel at full capacity and said C. E. Johnston, New Democracy Member of Parliament for Bow River, erred in a statement made in the House of Commons concerning the Calgary plant.

SAYS STANDARD OIL WOULDN'T DARE REFUTE CHARGES

WASHINGTON, May 3 (AP) — Irving Lipkowitz of the Justice Department's anti-trust division told the Senate Patents Committee today that officers of the Standard Oil Company of New Jersey did not dare appear before the committee and try to refute his charges that their agreement with a huge German trust had retarded synthetic production of acetic acid in the U. S.

Market Trends . . .

NEW YORK, May 3 (AP)—Buying in Saturday's short stock market stretch again centred on utilities and specialties with most industrials and rails ignored. Small minus signs were well distributed at the close.

TORONTO—Stocks were slightly stronger, utilities and foods posted a margin of gains over losses and other industrial groups held steady.

Crows Nest coal weakened 1½ to 33.

MONTREAL— Light trading followed a narrow channel, changes were fractional.

VANCOUVER— Trading turned more active on the short Saturday session with 11,975 shares changing hands. Kootenay Belle moved up 1½ to 19 and Premier was up one at 45.

WINNIPEG — Business was exceedingly light with minor mill demand and unconfirmed report of export noted in the market news. The wheat futures closed unchanged at May 79¼ cents a bushel and July at 80⅝.

A fairly large export shipment, presumably for a neutral country, was reported during the session but it was not confirmed.

CHICAGO—Chalking up gains of more than a cent a bushel, wheat prices extended the recovery touched off by announcement of the 1942 loan rate.

Civil Defence Forces Drafted Into Industry

By ALAN RANDAL
Canadian Press Staff Writer

LONDON, May 3 (CP)—Underscoring the need for still greater production as the corollary of any offensive against the continent, Britain is drafting 83,000 men from the Civil Defence forces and placing them in expanding war industry.

Part-time personnel, called up by the Government will fill gaps in the defence lineup under direction of Home Security Minister Herbert Morrison.

Announcing the decision to reduce Civil Defence forces by one third, Mr. Morrison said his intention was to use the men of A.R.P. staffs and casualty clearing and rescue squads for "offensive action instead of defensive thinking."

Full-time civilian defence workers who are not released for work in war industry will be required to do such work as snow-removal and coal delivery where able. Persons released will be obliged to return to whole-time Civil Defence in the event of heavy air raids.

For nearly a year this army of potential workers has had little to do while across the Channel the heavy industry on which the German Army relies has taken such a pounding from the Royal Air Force that some 1,500,000 Germans have been "pinned down" or immobilized for defence work.

Part of those part-time workers are to be conscripted to fill the gaps in the defence services will be women and hardship tribunals will be set up in every locality to hear appeals by women who claim that for health or exceptional personal hardship reasons they are unable to take up the work.

Prizes of War Goods Are Auctioned to Bermuda Women

HAMILTON, Bermuda, May 3 (CP Cable)—Articles ranging from valuable essential oils to women's silk stockings are being auctioned off here as British authorities cash in on goods seized as prize of war and condemned as such by the Courts.

The hodge-podge of wares that confronts buyers was seized mostly from ships calling here for examination before passage through the British blockade of Europe. The piece de resistance at yesterday's auction proceedings consisted of 750 pairs of women's silk and nylon stockings, knocked down at prices about double the peacetime figures.

Investiture Two New Rovers; Gifts for 2 in R.C.A.F.

Investiture of two new Rovers was conducted last week by the Captain Scott Rover Crew, meeting at the home of Rev. W. J. Silverwood. The two new members were Bob Percival and James Hoover.

James Cornfield, who left Wednesday morning for the R.C.A.F. at Calgary, was presented with a farewell gift by the Crew. He also received a Thanks badge from the Nelson District Boy Scout Association. Both these presentations were made at a later meeting at the home of Norman May.

Two presents, one from the Crew and the others a Thanks badge from the Association were to be sent to Pilot Officer G. R. Bone, now with the R.C.A.F. at Trenton.

Trail, Rossland Legions Guests Trail Auxiliary

TRAIL, B. C., May 3 — A social evening was held in the Legion rooms at the Memorial Hall Thursday night by the Ladies Auxiliary to Canadian Legion Branch No. 11, when their guests were the ladies auxiliary and Legion men of Rossland, and also Branch No. 11. Four new member were received.

The President, Mrs. Dave Forrest, welcomed the guests. Short addresses were given by Mrs. T. Woods and Mrs. J. Wright of the Rossland Ladies Auxiliary.

The program consisted of a banjo and accordian selection by J. Thomson and Frank Tough, song by Mrs. Charles Conroy, dances by Miss Iona Langridge, duet by Miss Gloria Watson and Mrs. M. Wilson, piano duet and song by Mrs. Bob Watson, baritone solo by Lieut. Allen Roughton, two comic songs by Pte. Reid, and recitations by Thomas Nixon.

Refreshments were served, and the evening concluded with a singsong and dancing.

Fighter Pilots at Coast Would Like More Action

By C. F. MORIARITY
Canadian Press Staff Writer

A WEST COAST CANADIAN PORT, May 3 (CP)—Action-hungry fighter pilots, some of whom fought with distinction in the Battle of Britain, are manning a Pacific Coast Defence Station with itching trigger fingers.

"It rather gets you, this game," said Flt. Lt. H. T. Mitchell, D.F.C., of Port Hope, Ont., a member of the "Thunderbird" squadron stationed here. "We'd like to go anywhere for action. If it ever comes here we are ready and the boys will give a good account of themselves. They are a grand bunch and rarin' to go—and they can go, believe me."

The squadron is commanded by Sqdn. Ldr. A. . Newsbitt, D.F.C., 27, Montreal-born investment dealer who joined the Royal Canadian Air Force in 1930 and went overseas in June, 1940, just in time for the Nazi air blitz on the British Isles. Another veteran of the Battle of Britain is Flt. Lt. J. W. Kerwin, 23, of Toronto, credited with three Nazi planes before he was shot down himself in September, 1940.

The fighter squadron is named after the Thunderbird, which in the mythology of the Coast Indians was regarded as ruler of the skies. Its pilots average 22 years of age and hail from Ontario, Manitoba, Saskatchewan, British Columbia and the United States.

Keen as ginger, all the pilots are beginning to find the Pacific Coast too pacific for ther fighting taste. They like the scenery and they like the people, but Flt. Lt. Kerwin summed it up with:

"I'm looking forward to action in a different sphere. I crave a change of scenery—the Far East or somewhere else, unless, of course, we can get it here."

S.O.S. Club Dance Adds 75 to Fund

TRAIL, B. C., May 3—An exceptionally large crowd attended the monthly dance in Elks Hall Thursday night by the S.O.S. Club, which organized in January for the purpose of helping to keep Trail's boys overseas in cigarettes. Each month 15,000 cigarettes are purchased and sent to 50 consecutive names on the list of Trail boys overseas, and the balance of the proceeds is deposited in a fund so that every Trail boy will receive an additional 300 cigarettes at Christmas from the Club.

Thursday's entertainment cleared $75, and $37.50 was deposited in the Christmas fund and the other $37.50 is being used to buy cigarettes for another 50 names. A door prize was won by Cecelia Palek.

Punishment Theme of Lesson-Sermon

"Everlasting Punishment" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday.

The Golden Text was: "The Lord is known by the judgment which he executeth: The wicked is snared in the work of his own hands" (Psalms 9: 16).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: And the prayer of faith shall save the sick, and the Lord shall raise him up; and if he have committed sins, they shall be forgiven him" (James 5: 15).

The Lesson Sermon also included The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Suffer no claim of sin or of sickness to grow upon the thought. Dismiss it with an abiding conviction that it is illegitimate, because you know that God is no more the author of sickness than He is of sin. You have no law of His to supoprt the necessity either of sin or sickness, but you have divine authority for denying that necessity and healing the sick."

Snow, Rain Balk Tourney Golfers

Rain on Saturday and 3½ hours of snow on Sunday discouraged play in the men's and ladies' respective Get Acquainted tournaments at the Nelson Golf & Country Club. The ladies' event, slated to get under way Sunday, was called off until May 10, while only one game was played in the men's competition.

A. H. Allen and A. T. McCulloch defeated W. A. Duckworth and Harold Long in a consolation flight second round match to advance to the semis. They will meet Don Maddocks and T. R. Wilson to battle for a place in the final. In the other half of the semi, William Barrett and Walter Wait are matched against S. Addison and W. R. Grubbe.

In the final of the men's championship flight John Cartmel and L. V. Clark are awaiting an opponent from the semi-final, which will match Vic Owe and Lloyd Wilkins against the winner of a E. A. Murphy and Nelson Colville-R. L. McBride and Fred Chapman game. Cartmel and Clark took out Cece Hughes and Les Bartlett in the semi-final.

Snow from 7 a.m. until 10:30 a.m. and showers until noon put an end to all thought of tournament play Sunday morning, but the golfers turned out with the afternoon sunshine for friendly matches.

Pte. Ernest Blunt Spends Weekend at the Golf Links

Pte. Ernest Blunt, well-known to Nelson golfers, spent the weekend on leave at Nelson, and during his stay enjoyed a round at the Golf & Country Club. He plans to return to Vernon today.

Pte. Blunt, who spent four summers at the golf course as assistant to his brother, Charles Blunt, pro and caretaker, was called up under the Resources Mobilization Act in February. He was the guest of his brother while here.

India Congress Split on War Effort Policy

LONDON, May 3 (CP) — The British Broadcasting Corporation said Saturday that their correspondent Mr. Kenard in New Delhi, reported that there was now little chance of the Indian Congress throwing itself into the car effort, although some of the members are in favor of an all-out war effort and are thus creating a split in Congress.

Interpreting

The War News

By EDWARD E. BOMAR
Associated Press War Analyst

Japan's sweep through Burma arouses concern that the invaders may push on toward Chungking in a supreme drive to knock China out of the war.

Such a scheme cannot be ruled out as a possibility, but preponderant military opinion is that the Japanese objective in the Burma campaign is limited for the time being to locking the back door to China.

To the victory-flushed conquerors of Malaya, Java, the Philippines, and now of Burma, the urge must be strong to try to wind up the "China incident" forthwith.

In three months they have fought some 400 miles through steaming Burma and have advanced beyond Lashio, the Western terminus of the Burma Road, almost to the China frontier.

Ahead 600 miles or less is the vital South China terminal city of Kunming which could be attacked most effectively from Indo-China. Once in Kumming, the invaders would threaten the Chinese capital of Chungking from the South as well as from North China.

Burma itself is an uninviting invasion gateway to China, as evidenced by the monumental task of building and maintaining the perilous Burma Road.

The most likely immediate prospect for Burma seems to be that the Japanese will make their hold secure, improve the Lashio air base and try by bombs to hamper the Herculean task of putting through the new Assam Road from India to China, some 400 miles North of the Burma Road.

Retaining the initiative, Japan can still keep the United Nations guessing where the next blow will be struck. Just now a thrust by sea and air to try to cut the United States-Australia supply lifeline appears threatened. Signs are lacking of any immediate attempt to invade India, although it is obviously too early to assume that the Japanese tide has reached its flood in Southeast Asia.

Altogether, it seems logical to expect under the circumstances that while large enemy land forces will betied up indefinitely in conquered areas of Asia and the South Seas, the main Japanese armie will be retained in the North—inflicting new wounds on long-suffering China and awaiting the signal for a struggle with Russia.
