## MIGHTY RUSS TRAP CLOSING ON GERMANS

### Struggle for Air Supremacy Rages in Tunisia

Nazis Drain All European Sectors to Build Up Air Strength; Allied Chiefs Warn Fight to Be a Long One

By BLAKE SULLIVAN  
Associated Press Staff Writer  
LONDON, Nov. 23 (AP)—Allied operational chiefs in North Africa were striving tonight to bring additional planes, equipment and men to bear on the Tunisian front to cope with Axis armies entrenched in their Tunis-Bizerte arc with augmented forces.

In Oran Lt.-Gen. Mark W. Clark, Deputy American Commander in North Africa, warned that getting Tunisia from the Axis would be a "scrap," and a spokesman at Allied Headquarters would be "longer than expected" because of Axis plane and troop reinforcements in Tunisia.

The Germans were reported draining all other European sectors, including Russia, to build up their aerial strength in Tunisia, on Sicily and Sardinia, and the struggle for air supremacy over Tunisia was sharply intensified.

Combating problems of supply for their mechanized columns, Allied commands were building up a huge base at Oran and sending a stream of units Eastward in preparation for the final all-out assault on Tunis which was being delayed until allied aviation could take control of the air.

Adherence of Dakar and its sprawling, rich hinterland to the United Nations was recognized as a windfall for the Allies, but it was not expected to affect the immediate situation at Tunis.

**BAST BIZERTE AIRPORT**  
R.A.F. and American bombers rained tons of explosives on the vital Bizerte airport, where the Axis has been landing reinforcements, and shot down six more enemy troop transports ferrying troops across the narrow Sicilian straits. They made three sharp raids on Sicilian airbases and three on Tripoli in Italy's last remaining colony. The Tunis airport also was bombed.

An Allied communique said that investment of the Axis Tunisian fortifications "continued according to plan," with Allied fighter planes carrying out offensive sweeps ahead of the British-American advance and providing aerial protection for the columns of men, guns and tanks.

Contacts with enemy ground troops were described as "minor," though one encounter was on a sufficiently large scale for 40 Axis prisoners to be captured. Nine enemy aircraft were reported to have been shot down over the weekend in addition to those previously announced.

General Emile Bethouart reported to Allied headquarters as liaison officer for General Henri Giraud, Commander of French North African forces fighting with the Allies.

**FIGHTING "VIOLENT"**  
The Morocco radio said without confirmation from any other source that the British 1st army and its U.S. and Fighting French support had launched a full-weight attack against the Axis pocket in Northern Tunisia and quoted an Allied spokesman as saying the fighting was growing "more and more violent." London quarters said such an attack, if not under way, was imminent.

"Important" German and Italian reinforcements continued to pour into Bizerte and Tunis, the Paris radio reported.

A British column was reported by the Morocco radio to have clashed with Italian forces of the Axis Tunisian garrison South of Tunis and

### Marines Advance Slowly on Guadalcanal

WASHINGTON, Nov. 23 (AP)—United States ground forces are advancing slowly to the West despite stubborn enemy resistance on Guadalcanal the Navy reported today.  
No details of the extent of the advance were given. However, the Marines were reported well beyond and five miles West of Henderson airfield.

### AUSSIES ENTER GONA, U.S. FORCES ADVANCE

Japs, Unaided From Air or Sea, Put Up Desperate Fight

By C. YATES McDANIEL  
Associated Press Staff Writer  
**ALLIED HEADQUARTERS IN AUSTRALIA, Nov. 24 (Tuesday)**  
—(AP)—Australian troops entered the Japanese base of Gona on the New Guinea Northeast coast Monday and American forces captured Cape Endeladere to the East, but nevertheless the Japanese, fighting without aid of either air or naval support, are continuing their bitter, desperate resistance from their narrowed beachhead.

Australian patrols first entered Gona, 2 miles West of Buna and the main Japanese force, Nov. 22, followed yesterday by a larger force which according to latest reports was mopping up remaining pockets of Japanese resistance.

American troops pushing over mountain trails from the Southeast yesterday drove the Japanese from Cape Endeladere, at the Eastern end of the New Guinea coastal line, after smashing a series of strong enemy machine gun positions and disposing of tree-top snipers who attempted to impede the American advance.

The heaviest fighting now centres around Buna and its main landing strip, and around Banananda against which American troops are pressing through coconut groves along the coast and Australians are delving through sago palm swamps which flank the island side of the airfield and the coastal villages.

Continuing to sweep low over the Kumal River which bends to the Northwest around the battle area, Allied planes sank a number of rafts on which Japanese were attempting to escape after being cut off by the Allied three-pronged drive toward Buna.

One officer, Lieut. H. H. Hill, returned to the Allied lines today after parachuting from an Aircobra plane shot down Nov. 22 in a battle with Japanese fighters and dive bombers.

While ground forces maintained their advancing pressure against Buna yesterday, Australian-floored Lockheed-Hudsons and Brewster fighters attacked Bevo and Rai-men, two points on the Southeast coast of Portuguese Timor occupied by Japanese land forces several days ago.

Supported by Allied planes, the Australian left wing of the Allied advance entered Gona after several days of heavy fighting, then wheeled Southward along the coast toward Suananda, an intervening enemy-held point in the attempt to link up with an American army drive from the South.

The Southern wing of United States troops occupied Cape Endeladere in their advance to Buna, the communique said without giving any details of the operations.

The occupation of Gona now has definitely pinned the remaining Japanese against the sea, and they face annihilation.

**Paper Says Little Mooted as Conservative Head**  
LONDON, Ont., Nov. 23 (CP)—The London Free Press said in a newspaper story today the name of Elliott Little, who resigned last week as director of National Selective Service, is being mooted as a dark horse for the leadership of the Conservative party.

### BRITISH SMASH THROUGH AXIS REARGUARD

Drive on Towards El Agheila; Planes Raid Sicily

By PAUL LEE  
Associated Press Staff Writer  
CAIRO, Nov. 23 (AP)—The British 8th Army smashed through Axis rearguard resistance at Agedabia and was pressing on tonight within 70 miles of the El Agheila bottleneck between the sea and the inland salt marshes where the enemy may try one more desperate stand.

The British forces kept in contact with the withdrawing German and Italian forces. "Our troops successfully engaged the enemy and made progress in the neighborhood of Agedabia," a communique said. "Enemy troops in the South of the village were forced to withdraw."

With the 8th Army drawing close to El Agheila, the next two or three days are expected to disclose whether Marshal Rommel's last forces have enough strength and time to attempt a stand on the narrow front, or will continue their race along the coastal road toward Tripoli.

In London some British military observers predicted that Rommel's depleted strength and weakened air support would force him to continue the withdrawal, fighting only rear-guard actions.

Aerial activity over Libya was limited to fighter patrols because of continued bad weather, but other fighter and fighter-bomber formations—presumably based on Malta—kept up their bombing of Axis supply lines and carried the war again to the airbases of Sicily.

The Axis-held Tunisian naval base of Bizerte also was attacked Saturday night by bombers supporting the Allied ground offensive, and hits were scored on hangars and other buildings.

That same night twin-engine fighters attacked the Trapani airbase in Sicily, machine-gunning a large number of enemy planes on the ground, the communique said. Yesterday two other Sicilian airbases were attacked by fighter-bombers with good success. These were reported here to have been at Comiso and Gela.

Numerous attacks were made on enemy transport planes ferrying across the narrow middle straits of the Mediterranean. At least six such planes were shot down into the sea, the communique said. Only one British plane was lost from all operations.

**Nazis Start Rumor That Marshal Petain Arrested**  
NEW YORK, Nov. 23 (AP)—The German radio gave circulation tonight to a rumor that Marshal Petain had been arrested by denying a so-called radio report to that effect. To some observers this broadcast in itself served to cast doubt on the status of the aged French Chief of State.

The Berlin radio, as heard here by CBS, said: "While the Radio Cairo announced at 6:25 tonight that Marshal Petain has been arrested, the Marshal himself was making a cooperation broadcast to French West Africa."

**Italian Fleet Cut in Half; Still 8 Battleships, 27 Cruisers**  
By JERRY YAL  
NEW YORK, Nov. 23 (AP)—The Italian fleet, apparently one of the chief Axis weapons guarding against possible allied invasion of Europe from North Africa has had 173 warships sunk or damaged—about half its estimated combat force—a survey of official announcements showed today.

Despite heavy British and more recently American inroads on its shrinking power, the Italians still have eight battleships, mounting 13- to 15 inch batteries and displacing upwards of 24,000 tons; 27 cruisers, more than 100 destroyers and tor-

BAGGY PANTS AND TURBANS AID A.E.F.

Turbaned natives with baggy pants and the remnants of baggy pants aid men of the American Expeditionary force in getting equipment ashore during the occupation of North Africa. The natives were hired on the spot.

### Northern Hunters Have Year of Prosperity

OTTAWA, Nov. 23 (CP)—The evil axe goddess who makes crooked the flight of the hunter's bullet, and hides away the fox, the seal and the walrus in hungry seasons lifted her hand from the Eastern Arctic this year.

Maj. D. L. McKean, Superintendent of the Eastern Arctic who leads the annual Federal Government expedition to that region, said today the Indian and Eskimo fur hunters had enjoyed a year of prosperity.

Maj. McKean returned to Ottawa last Friday after a 12,000 mile journey in the Hudson's Bay Company supply ship Nascopie—nearly five months of almost constant travel.

### Radio Stations to Sound Air Raid Signal

VANCOUVER, Nov. 23 (CP)—British Columbia radio stations henceforth will play an important part in warning civilians of blackouts and air raids, A.R.P. Headquarters here announced today.

Warnings will be broadcast simultaneously with the sound of sirens and for this purpose special transcriptions have been recorded and the Province divided into four blackout areas, Victoria, Vancouver and surrounding centres are in area 1. The Kootenay District is in area 2.

With the approach of danger the CBC station in Vancouver, CBI, will be ordered to break off whatever program is in progress and play a numbered warning carrying the required message. Other stations will be linked into a giant network with CBC to send the warning to all parts of the Province.

### Cripps on New Anti-Sub Strategy Board

LONDON, Nov. 23 (CP)—Sir Stafford Cripps, who left the War Cabinet yesterday to become Minister of Aircraft Production, took on still another new job today, that of second in command of the Anti-Submarine Strategy Board which is undertaking "special new measures" to protect shipping.

Along with his new ministerial post Sir Stafford became Vice Chairman of the Committee on anti-submarine measures, of which Prime Minister Churchill is Chairman. He is also head of a new committee which is exploring use of radio in the anti-U-boat war.

These appointments followed Sir Stafford's own announcement in the House of Commons on Nov. 18, the day before he was designated for his new job, that special measures were being taken against the submarine menace.

### Stomach Ulcers Also Bother Italian Premier

NEW YORK, Nov. 23 (AP)—Premier Mussolini of Italy is considering an operation for stomach ulcers, reliable information from the continent said tonight.

### To Pay Cost of Taking Girls to East Plant

TORONTO, Nov. 23 (CP)—The National Selective Service Commission today announced that three rubber companies at Kitchener, Ont., had agreed to pay the entire cost of transporting 123 girls from Western Canada to work in the Kitchener plants.

When the girls arrived in Kitchener they were told they would have to pay half of transportation costs, they maintained. Three companies now have agreed to pay all costs.

Bar G. Sullivan, Superintendent of Selective Service said the commission is continuing its investigation of complaints by the Western girls they had been taken to Kitchener on promises of wages which had not been kept. He added that Labor Minister Mitchell is anxious that a "favorable settlement" be made in the dispute.

The commission said the three rubber companies had started to deduct a portion of the transportation cost from the pay of the girls.

### St. Nazaire Sub Base Raided by U. S. Bombers

LONDON, Nov. 23 (CP)—Flying Fortresses and big Liberator bombers of the United States Air Force raided the German submarine base at St. Nazaire heavily today, shooting down 15 attacking Germans in a follow-up of a strong British night raid on Stuttgart, arms and transportation centre in Southern Germany.

Four United States bombers were lost. "Many bursts were seen on the target," a joint communique by the Air Ministry and United States Army Air Force Headquarters said. "R.A.F. fighters made supporting and diversionary sweeps during the operation."

St. Nazaire is on the French coast near the mouth of the Loire, and has been a frequent target of Allied bombers.

### Drapeau to Oppose LaFleche in Outremont Election

MONTREAL, Nov. 23 (CP)—Gen. L. R. LaFleche, War Services Minister, will be opposed by Jean Drapeau, 26-year-old "draft-free candidate" in the Outremont Federal byelection Nov. 30. No other nominations were filed at the 2:30 p.m. deadline today.

### RADIO OFFICER CHANGES PLEA

MONTREAL, Nov. 23 (CP)—Brian P. Pettit, English-born radio officer of British Overseas Airways, changed his plea to "guilty" today in court of King's Bench on charges laid under the Defence of Canada Regulations and was remanded to Dec. 7 for judgment. He had pleaded "Not Guilty" to the charges Nov. 12 and was ordered to appear today for trial.

### Russ Push Across Volga Costs Nazis 50,000 Men

By HENRY C. CASSIDY  
Associated Press Staff Writer  
MOSCOW, Nov. 24 (Tuesday) (AP)—Russian troops in their great new Winter offensive have smashed across the Don River to a point approximately 100 miles northwest of Stalingrad in a great double-flanking movement that has cost the Germans 50,000 casualties and threatens to exterminate thousands of other Nazi soldiers stalled near the Volga River to the East, it was announced today.

A special communique—the second in two days—said the town of Chernyshevskaya, well inside the Don River Loop, had been taken in a 12-mile continuing advance.

This Red Army column apparently was the same that had occupied Serafimovich on the north side of the Don River Loop, and was striking southward to link up with other Red Army units now penetrating on the lower side of the Don River.

This southern Red Army in its effort to close a great pincer on the Nazi besiegers of Stalingrad also made a 12-mile advance during yesterday. Having occupied Abganetova, 40 miles southwest of Stalingrad, to cut a Nazi railroad supply line, they also took Aksai, a point 10 miles farther south, and other villages.

British observers in London estimated that between 300,000 and 400,000 German, Rumanian and Hungarian troops are in danger of being trapped by the Russian encirclement attempt.

To date the Russians said their four or five-day offensive had cost the Germans this toll: 25,000 dead, including 12,000 in Monday's operations alone; 24,000 prisoners, including 11,000 taken Monday.

Thus a grand total of 30,000 Nazi casualties in a vast Winter counter-offensive still in its early stages. In addition the special communique listed this booty taken: 553 German guns, 2,326 trucks, 1,200 railway cars, 2,825 machine-guns, 32 planes in working order, 35 tanks in full working order.

"A large quantity of other weapons and military supplies has not yet been counted," the special announcement said. "We destroyed 70 planes, 157 tanks, and 180 guns."

**BERLIN WORRIED**  
(This huge Russian drive, apparently timed to coincide with German difficulties caused by the dispatch of reinforcements to Tunisia and Southern Europe after the allied invasion of North Africa, has Berlin worried, a study of German radio outpourings disclosed.)

The German High Command acknowledged heavy Nazi defensive fighting, but late Monday night the Berlin Radio admitted that "a gap" had been torn in Axis lines on the north side of the Don River Bend in the Serafimovich sector. The gap later was closed, however, the Germans insisted.)

The regular Monday midnight Soviet communique indicated the Germans already were in difficulties at Stalingrad itself because of the punishing Soviet flanking blows north and south of the city.

Both in the northern factory district of the Volga River city which has withstood a three-month Nazi siege and in the southern region Soviet troops were declared to be advancing, occupying "many enemy fortifications and strongholds."

"Hundreds of enemy dead remained on the battlefield," the communique said of the fight within the city.

Giving some details of the greater offensive this communique said: "Northwest of Stalingrad our troops continued advancing successfully. The enemy, in striving to stem the advance of Red Army units hurriedly sent up infantry and tank divisions and hurled them into action. A fierce battle ensued.

"Our tank men broke into the flank of the enemy troops and disorganized their defenses. Soviet infantry following the tanks went into attack and defeated the Hitlerites. Pursuing the enemy, our troops captured several populated places."

In addition to Chernyshevskaya and Aksai, the villages seized at both ends of the Red Army offensive were listed as Perelazovky, Pogodinsky, and Tundatova.

This encouraging feat of Soviet arms, sprung as Winter again was gripping the vast Russian front, extended deep into the Caucasus and also as far north as the Kalinin front northwest of Moscow. Nowhere were the Germans conceded to have wrung even a small success during yesterday's operations.

**Chile May Break Relations With the Axis**  
SANTIAGO, Chile, Nov. 23 (AP)—President Juan Antonio Rios of Chile declared today that Chile would break relations with the Axis "if the interests of the country and the American continent make it advisable."

This was the first Presidential statement directly referring to the possibility that Chile—with Argentina one of the only two Latin-American countries still dealing with the Axis—might finally take the step of severing diplomatic and economic relations with it.

ONLY 27 SHOPPING DAYS til Christmas

**W. Henderson of Cranbrook Is W.A.G. Graduate**  
LETHBRIDGE, Alta., Nov. 23 (CP)—Group Captain W. A. Jones, Commanding Officer at No. 8 Bombing and Gunnery School, R.C.A.F., Lethbridge, officiated at a graduation ceremony during the weekend when a class of wireless operator air-gunnery received their flying badges.  
The graduates included W. Henderson, Cranbrook.

**Paper Says Little Mooted as Conservative Head**  
LONDON, Ont., Nov. 23 (CP)—The London Free Press said in a newspaper story today the name of Elliott Little, who resigned last week as director of National Selective Service, is being mooted as a dark horse for the leadership of the Conservative party.

# Turner, Waters Charge Stibbs Dictating; Mayor Says It's Leading

Charges of dictatorship were hurled at Mayor N. C. Stibbs by Alderman George Turner and T. H. Waters, and an equally vigorous denial was shot back by His Worship, in a table-thumping windup of Monday night's City Council meeting.

The roaring finale came after a lengthy argument as to whether the city stinking funds should be turned over now to W. A. Gordon, City Treasurer and future City Clerk, or whether they should be turned over at the end of the year, when City Clerk W. E. Wasson retires. Mayor Stibbs said they should be turned over now; City Clerk Wasson insisted they were not held in the name of any individual but of the City of Nelson and Mr. Gordon could have access to them. Alderman Turner charged that as Finance Committee Chairman he had been ignored. The Mayor insisted it was his right to bring in a suggestion.

Alderman Ross Fleming and J. McKenna sponsored one motion to turn the stinking funds over to Mr. Gordon, then another to refer the question to the Finance Committee with power to act. Ald. E. A. Mann supported Alderman Turner in the contention that the Committee should deal with the question, describing it as "a routine matter". Ald. H. H. Hinnitt straightened things out by asking, in the midst of a

were made. He charged he had been ignored in this, though he was Chairman of the Finance Committee, and His Worship replied he had tried to contact Alderman Turner. He had consulted Alderman Hinnitt and Fleming, the other members of the Committee.

"That's not so bad," Alderman Turner said. He could see, he added, where a "most embarrassing situation" might arise if a committee was considering an appointment and the Mayor named someone else.

"That's not so bad," Alderman Turner said. He could see, he added, where a "most embarrassing situation" might arise if a committee was considering an appointment and the Mayor named someone else.

**UP TO THE MAYOR**

"Governing the City's business is up to the Mayor and it is perfectly within his rights to make suggestions on this or any other administrative matter," His Worship contended.

"But such matters are always recommended by a committee," said Alderman Turner. "In this matter the Committee was not consulted." His Worship declared that on many occasions the Council has on many occasions committees of the Council failed to notify him of meetings, though he was a member of all.

He urged that Mr. Teague should be "hired tonight" because of urgent work in the City Hall. It would be best for him to have some time in the City Hall before the change in clerks was made, so that he could become familiar with the work.

Other Council members felt immediate appointment was not urgent.

Mayor Stibbs asked Mr. Gordon whether he had interviewed Mr. Teague.

Mr. Gordon replied he had not interviewed him, though he had talked to him. He expressed the view that whoever was appointed should be getting acquainted with the water roll in order to take care of the January rush of those seeking water discount by prepayment.

Mr. Wasson felt there was not enough room in the City office at present.

**NOT TRUE, SAYS MAYOR**

"That's not true," the Mayor retorted.

Alderman Turner declared he had been told that Mayor Stibbs, on one occasion, said: "As long as I'm Mayor of this City I'll do as I damn please."

"Is that true?" Alderman Turner demanded.

"Yes, it is true, and I'll give you the date," shouted Alderman Waters. "I'll remember I told you that you had no right to order Public Works trucks..."

"I'm in charge here and I'll rule out anything not relevant to the question under discussion," His Worship interrupted.

"But it's correct," Alderman Waters insisted.

Then the motion to refer the question of turning over funds to the Committee was passed.

**TOO CUMBERSOME SLOW**

Alderman Fleming expressed the view it was not necessary to "refer everything to a committee," and declared "one of the troubles with City business is that it is too cumbersome, too slow." Nothing could take precedence over a decision in open Council, and if the Council had all the facts necessary to decide a question there was no reason to refer it to a committee.

Alderman Mann disagreed, declaring the Council gave too much time to "too much petty detail and not enough policy." He asserted: "Too many things are done in Committee of the Whole which should be done in the open, and too many petty things are handled which should have gone to a committee rather than the Council."

"That depends upon the nature of the request," Alderman Fleming held.

"If it's routine it should go to a committee," insisted Alderman Mann.

**SECOND CROSSING OF SWORDS**

This was the second crossing of swords by Mayor Stibbs and Alderman Turner. His Worship proposed earlier that John Teague should be appointed to the City staff in place of Reeve Harper, now in the Army, the appointment to date from December 1. He had told Mr. Teague to give notice to his present employer, he said.

Alderman Turner contended there was not enough room in the City offices until projected alterations

## Kidneys Must Clean Out Acids

Kidney acids, poisons and wastes in your blood are removed chiefly by your kidneys. Getting up nights, Burning Passages, Backache, Nervousness, Headache, Pains, Frequent Headaches, and feeling worn out, often are caused by Kidney and Bladder troubles. Urinary in such cases, the very first dose of **Uro-Tonic** gives relief to work helping the kidneys clean out excess acids and wastes. And this cleaning, purifying kidney action, in just a day or so, may easily make you feel younger, stronger and better than in years.

The iron diet money-back agreement on **Uro-Tonic** insures an immediate refund of the full cost unless completely satisfactory. You have everything to gain and nothing to lose under this money back offer. Get **Uro-Tonic** from your druggist today. Only 15c.

## CHANGE IN SERVICE Arrow Lakes

EFFECTIVE NOVEMBER 26

Owing to low water, through service will be cancelled and the following services will be established:

**S. S. COLUMBIA**  
Lv. Robson West 11:45 a.m. Thurs. and Mon. to Neudale. Lv. Neudale 8:00 a.m. Fri., Tues. to Robson West. Connecting with Train 12 for Nelson.

## Men, Women Over 40 Feel Weak, Worn, Old?

Want Normal Pap, Vim, Vitality? Does weak, rundown, exhausted condition make you feel frayed, old? Try **Oxtrax**. Contains general tonics, stimulants, often needed after 30 or 40. Supplies iron, calcium, phosphorus, vitamin B1. Helps you get normal pep, vim, vitality. Introducing size Oxtrax Tonic Tablets, only 35c. For sale at all good drug stores everywhere.

**Limit Canned Goods Sales**

OTTAWA, Nov. 23 (CP)—Sales of canned fruits and vegetables by canners and distributors in Canada will be limited to 75 per cent of stocks in their hands at Nov. 1, the Prices Board's Food Administration ruled in an order issued today.

The remaining 25 per cent must be held to the order of the Food Administrator.

The new restriction of sales applies to any fruit or vegetable product, or fruit or vegetable juice, packed and preserved in containers of 16 ounces or more, to jam, jelly, or marmalade in containers of two pounds or more, and to fruit for remanufacture, in quantities of 30 pounds or more. This year's pack subsequent to Nov. 1, also is covered by the restriction.

Included in the order under "distributors" are importers, brokers, wholesalers, jobbers, commission merchants, dealers or any person who maintains a central warehouse to service his own or other retail stores and who regularly sells or distributes commercially the products mentioned.

**SAYS C.C.F. DOES NOT BELIEVE IN COMMUNIST METHODS**

WINNIPEG, Nov. 23 (CP)—M. J. Caldwell, National Leader of the C.C.F. party, said today that his party does not believe in the methods of the Communist Party.

He was replying to a plea from Tim Buck, former General Secretary of the Communist Party of Canada, who at a public meeting here Sunday urged a united Labor movement and said both Communists and the C.C.F. must recognize that there is no room for narrow party interests.

**City's Tractor to Stay Longer at Bralorne**

Rental of the City's tractor to Bralorne Mines Ltd., for a further four or five weeks, for road making purposes, already granted in committee, was approved by the City Council Monday night.

**City Is Refused Priority for Ice Cleaner**

"Since it cannot be shown that a denial of your application would seriously interfere with the war effort," the City of Nelson application for a priority to obtain ice cleaning equipment for the Civic Centre cannot be approved.

This was the reply of E. A. Leslie, Acting Vancouver Representative of the Priorities Branch, Department of Munitions and Supply, to Nelson's application, his letter being read to the Council Monday night.

Mr. Leslie suggested that Nelson "endeavor to secure some substitute on second hand equipment to carry on with for the duration," and pointed out: "All tractors are urgently needed for direct war purposes at present."

Ald. George A. Turner expressed the belief, following a conversation with a member of the Civic Centre Commission, that ice cleaning by youths could be carried on for a time at least.

**Council Again Urges Action, Mountain Station Area Sewer**

Government action in installing a sewer system in the Mountain Station area will again be urged by the Nelson City Council.

When Ald. T. H. Waters asked at Monday's Council meeting whether anything more had been heard of this question, Mayor Stibbs replied he had been informed in September that the Government proposed to issue 10-year 4 per cent bonds to the value of \$17,000 to finance it. He had heard nothing since.

**City Urges Grant for Health Nurse Continue**

Nelson City Council will appeal to the Provincial Health Department to continue its grant for a public health nurse even though no qualified nurse of this type is available, in order that a nurse may be employed to guard the health of school children.

This action was decided upon on Monday night after Ald. Hinnitt, the Parks and Health Chairman, and Ald. George Turner, Finance Chairman, reported the School Board was making representations in the hope of being able to engage a nurse familiar with the work.

Alderman Turner contended that the Government viewpoint that it would contribute only when a qualified nurse was employed was "O.K." in normal times, but these are abnormal times. Without assistance it would be necessary to abandon this type of public health work, he stated.

**Chief McDonald Congratulated, Fire Prevention**

Congratulations of the City Council were added Monday night to those of the National Board of Fire Underwriters, New York, to Fire Chief G. A. McDonald for his report to the Board on Fire Prevention Week activities in Nelson.

Ald. E. A. Mann, Fire and Water Chairman, presented to the Council a letter received by the Chief from the Board, and stated it was unique in that the Board seldom wrote to an individual. This was the first time such a letter had come to Nelson, he said.

The Council's congratulations to the Chief were extended by Mayor Stibbs.

**Car of Rubber Loads Tomorrow; Room for More**

Fourth car of rubber salvage for the national war effort is to be loaded at Nelson beginning Wednesday, J. H. Aylwin, Chairman of the Salvage Committee of Nelson branch of the Red Cross, announced Monday night.

The City Council agreed at its meeting to load the car.

Last car out of Nelson, loaded by the city, weighed 34 tons and has brought the Red Cross \$236.70.

While the amount of rubber salvage on hand for the next car is not sufficient to make a large load Red Cross officials feel it is sufficient to warrant shipment. Receipt of three tons, mostly tires, from Creston Red Cross, contributed in large measure to the decision to ship now, and the recent rubber salvage matinee in Nelson swelled the amount on hand.

**Women's Hat Styles Frozen**

TORONTO, Nov. 23 (CP)—It took an international emergency to do it, but styles in women's hats are frozen.

Don't gloat though, men, for trimmings will be just as diverting—just as profuse—even plain screw—as before.

A Prices Board ruling effective the middle of the month freezes all new "blocks" which are used to shape the felt, the straw, the ribbon, or what have you, that make the basis for the hat.

The blocks are made of brass or wood and the Board feels a considerable amount of labor and material will be conserved in having milliners use their own blocks for the duration.

**Mr. and Mrs. Dey Lose Infant Son**

Paul, two-day-old son of Pte. and Mrs. Emil Dey, 913 Sixth Street, died late Sunday night at Kootenay Lake general Hospital. The funeral services are to be held here Tuesday.

The father, Pte. Dey, was a well-known employee of the Fink Furniture Store here before joining the Canadian Army. He is stationed at the Coast. Surviving, besides the parents, are the grandparents, Mr. and Mrs. G. W. V. Abbott, 2013 Stanley Street.

**Erroll Flynn's Trial Set for Jan. 11**

LOS ANGELES, Nov. 23 (AP)—Film actor Errol Flynn pleaded innocent today to charges of raping two under-age girls and requested, through his attorneys, the earliest possible trial.

In entering his plea immediately upon arraignment, Flynn waived a five-day delay to which he was entitled. Superior Judge Edward R. Brand set the trial for Jan. 11.

Jerry Giesler, one of Flynn's lawyers, and Deputy District Attorney Thomas W. Cochran agreed the case probably will require two weeks for trial.

**Ralston May Retire From Cabinet, Become Chief Justice**

OTTAWA, Nov. 24 (Tuesday) (CP)—The Ottawa Journal said in a newspaper story today the tribute to Defence Minister Ralston paid at a dinner tendered by Defence Headquarters officers last night "is believed to foreshadow Mr. Ralston's retirement from the Cabinet to accept the post of Chief Justice of the Supreme Court of Canada." Mr. Ralston is 61.

The story added: "Should Mr. Ralston be offered and accept the judicial post, he would succeed Sir Lyman Duff, present Chief Justice of Canada. Sir Lyman celebrated his 77th birthday in October and is said by his associates of the court to have considered retirement for some time past."

**Permit Greyhound to Alter Terminal**

Issuing of a permit to Central Canadian Greyhound Lines Ltd., for alterations to the Greyhound bus terminal, corner of Kootenay and Baker Streets, was approved by the City Council Monday night.

**Institute Asks Sink Be Installed**

Request of the Women's Institute that the City install a sink at the Institute room, Civic Centre building, was referred by the City Council Monday night to City Engineer, H. D. Dawson, for a report.

**Dawson to Attend Engineers Meet**

City Council Monday night approved participation of City Engineer H. D. Dawson in a projected meeting of City Engineers in B. C. to be held in Vancouver next month.

**Weather**

Rain that cleared Nelson pretty well of the last vestiges of snow, except the upper sections, and also drove the snow line high up the sides of the surrounding mountains once more, measured 66 inch at Nelson for the 24 hours ending Monday at 5 p.m. Most of the rain was during the night and in the early forenoon. The temperature got up into the 40s for the first time in a week, the peak at Nelson being 42.5 degrees.

The lake along at 1 p.m. Monday at 5.53 feet above the low water mark. It was on Nov. 11 that for the first time this season the level dropped below six feet, the 1-p.m. reading on Remembrance Day being 5.96 feet.

**City Ready to Turn Over Gravel Hauling to Emerald Mine to Private Truck Operators**

City Council Monday night, approving action taken in Committee, set the rental for City trucks employed in hauling gravel for War-time Metals Ltd. at \$18 per eight-hour shift, plus costs of gasoline, oil and grease.

Later in the meeting Ald. T. H. Waters stated a trucker had complained to him that private operators did not have an opportunity to haul the gravel. The Alderman said the City was not in competition with them. He understood it was doing the hauling to help a war project.

Mayor N. C. Stibbs stated he had emphasized this when agreeing to the City doing the hauling, and, if other trucks were available the City should not haul another load. Alderman G. A. Turner voiced a similar opinion, adding that the City

was not making money on the job and was wearing out its equipment. City Engineer H. D. Dawson said he had been assured by Mr. Mason of War-time Metals Ltd. that neither private firms nor the Provincial Government had trucks available, and that he had personally checked with four trucking firms and had been informed they could not undertake to haul the gravel. He would have preferred to use the City equipment on City work but this had to be postponed. Other city employees had a similar experience, he said.

In answer to Mayor Stibbs he stated 14 yards more of gravel were to be hauled.

His Worship instructed him to tell truckers that if they wanted to take over, the City would not object.

**B. C. Church Heads Petition Hart to Cut Hours of Liquor Sale as Aid to National Morale**

The following letter to Premier John Hart, from the heads of four religious denominations in the Province, has been made available to the Daily News for publication:

To The Honourable The Premier of H.M. Government of British Columbia:

Dear Sir:—Representing a large total of citizens who are trying to keep public morale properly attuned for a maximum output of the energy needed for present war effort, we venture to address you, the Prime Minister, and your responsible Government, and humbly to ask for action to remedy the alarming increase, since the war began, in the amount spent in purchase and consumption of alcoholic liquors in the Province.

In 1940 the expenditure was only a little under \$15,000,000; in 1941 it rose to over \$17,500,000; and we understand, from a reliable source of information that the amount for 1942 will be over \$20,000,000.

It is reported that the Federal Government's action in forbidding any further manufacture of alcohol except for war purposes will have no effect for at least three years on the supply of spirituous liquors, as the stocks in process of maturing will last for this period.

It is a well proven fact that shorter hours of service, especially in places where liquor is consumed on the premises, is a great help to prevent drunkenness and excessive drinking.

We therefore request that due and

immediate steps be taken to provide the best remedy for this growing and insidious evil. Other provinces have already taken action.

We would suggest that full penalties be inflicted on conviction for illicit sale, to prevent any such increase through this channel as might be attempted when restrictions of legal sale are put in force.

We are aware that in one place in the Province both the Military Authorities and the local Police requested the earlier closing of beer parlors in that district but so far the advice and request have not been implemented by any Government Order.

We need not elaborate more fully the harm that is being done by many of young men and women, and we view with grave concern and alarm the longer continuance of existing conditions.

We feel that we are voicing the opinion of all loyal and high-minded citizens as well as of those whom we more directly represent, and beg to remain,

Yours very faithfully,  
W. M. DUKE,  
Archbishop of Vancouver.  
WALTER KOOTENAY,  
Anglican Archbishop and Metropolitan.  
J. B. SKENE,  
Past Moderator of the General Assembly of the Presbyterian Church of Canada.  
A. F. WHITEHOUSE,  
President of the B.C. Conference of the United Church of Canada.

**Schooner Lost in Collision**

LAHAV, N. S., Nov. 23 (CP)—Capt James L. Publicover, owner of the four-masted schooner Lillian E. Kerr, said tonight he had been advised the vessel had been lost in collision at sea with the probable loss of her crew of seven Nova Scotians.

While details were lacking, Capt. Publicover said the vessel sank after a collision at night with a steamer somewhere along the Atlantic coast. She was carrying coal from a United States port to Halifax.

**Mrs. Gordon Head of Rebekahs**

ROSSLAND, B. C., Nov. 23—Deborah Rebekah Lodge, No. 13, Thursday evening elected Mrs. Sadie Stevens Past Noble Grand; Mrs. Mildred Gordon, Noble Grand; Mrs. Hildegarde Erickson, Vice Grand; Mrs. Orma Bray, Recording Secretary; Mrs. Jessie Henderson, Financial Secretary; and Mrs. Alice Grubbs, Treasurer.

**Digestion — The Great Process of Life**

Acute indigestion may arise from over-eating or the use of food which is difficult to digest.

Pur chronic indigestion, which stays with you, causing sleepless nights, headaches, lividly pains and depressed spirits, is usually the result of torpid liver and constipation. The process of digestion is held up and the body is poisoned by accumulated waste matter.

The use of Dr. Chase's Kidney-Liver Pills helps to arouse the torpid liver to action, the bile flows freely to the intestines, stimulating these organs and soon everything is going fine. What a pleasure it is to enjoy your meals and feel that there will be no discomfort afterwards.

## Dr. Chase's Liver Pills

# Egg Prices Fixed by Board Order

OTTAWA, Nov. 23 (CP)—Specific price differentials between grades of eggs are established by the Prices Board in an order issued today and covering the period from now to Jan. 31, 1943.

By previous order, effective Aug. 10, maximum wholesale prices of Grade "A" large eggs were set for 11 principal Canadian markets and these continue in force under the new order. They range from 47 cents a dozen on prairie markets to 49¢ at Vancouver, 49½¢ at Toronto, 50¢ at Montreal and 50½¢ at Saint John, N.B., Halifax and Sydney, N.S.

It was understood the specific differentials were imposed because of the difficulty of maintaining a "proper relationship" between the prices of Grade "A" eggs and lower grades.

By the previous order the maximum prices of Grade "A" were specifically established and it was provided the prices of other grades should bear a proper relationship to this price. In effect, informed sources said, this meant that in some cities the prices of lower grades were inclined to creep upward until they were higher than what was considered their proper relationship to Grade "A."

Today's order specifies that the maximum wholesale price of Grade "A" medium eggs is not to be less than two cents a dozen lower than the price for Grade "A" large. The price for Grade "A" pullet's eggs is set at not less than five cents less than Grade "A" large; for Grade "B" eggs not less than eight cents less and Grade "C" eggs not less than 10 cents less than the Grade "A" large level.

Other grades or sub-grades are to be sold at wholesale prices bearing proper relationship to those set out above.

A charge of two cents a dozen above the maximum wholesale price for the particular grade may be added to the established prices when eggs are packed in cartons containing a dozen or half a dozen eggs.

The Board said that to this wholesale price a retailer may add the mark-up he used in the basic price period from Sept. 15 to Oct. 11, 1941, but this must not exceed 20 per cent of his selling price or eight cents a dozen, whichever is less.

Any seller of "quality premium" eggs may continue to sell at the premium he obtained in the basic period, but this is not to exceed four cents a dozen above the price for Grade "A" large. Quality premium eggs are defined as those marked to indicate their special quality as to weight and age which qualifies them for the premium in accordance with the recognized standard for Grade "A1" eggs.

## HOSMER

HOSMER, B.C.—Mrs. M. Sowchuck was a visitor in Michel on Thursday.

Mrs. McKerns of Calgary visited her daughter Miss Norma McKerns on her way to the Coast where she will spend the winter.

Mrs. Una Schram visited her daughter Mrs. Ed Pennington at Natal, for a week.

## Two More Polio Cases of Coast

VANCOUVER, Nov. 23 (CP)—Health authorities, reporting two more cases of poliomyelitis in Vancouver which brought the total for the lower mainland this year to 37, said today they hoped "the season" for the disease was nearly over.

## Wide Differences in Child Growth

By LOGAN CLENDENING, M. D.

After the age of four, you will find no reliable rules to guide you about the development of your children. Some are tall, some are short, some are fat, some are skinny, some are quick, some slow with their school work, some are silent, some loquacious, and yet all these varieties are quite normal.

Happy are children if parents during these years see their characteristics and within reasonable limits allow them to follow their respective bent.

Physically, a child from four to seven should grow about two or three inches a year, and gain from three to six pounds a year.

### CAPACITY FOR FOOD

The capacity of children of four to ten for stowing away food is the despair of aging gourmets who have to stop almost before they have begun to eat. A child psychologist, with the mathematical meticulousness that characterizes that species, records that at a birthday party of ten children, five and six years old, four and a half dozen sandwiches (ham, egg, cheese and jelly), two and a half glasses of milk apiece, a large piece of birthday cake apiece, a plate of low cream each and so much candy it couldn't be counted was consumed. And this was just a little extra light snack. They all went home and probably tore into quite a sizable supper.

I make no comments on the ethics or at least the good taste, of a child psychologist snooping on a quiet gathering of this kind, but it certainly shows that children of this age can handle adult-sized portions of food.

I am firmly convinced that a careful annual physical examination by a doctor, preferably the family doctor, should be made on children from the age of four to ten. Of course, they should be examined before that too, but up to the age of four they will probably be frequently sick and the doctor will see them fairly regularly anyhow.

From four to seven there are not likely to be any definite signs that take the child to the doctor, hence the examination is likely to be neglected. But these are the years when certain tendencies begin that develop into serious handicaps in adult life, an dthis is the time to check them.

## Precision... Follows Doctor's Orders for Daily Exercise

By IDA JEAN KAIN

Miss Veronica Lake, the girl who started this fashion of the one-eyed hair-do, has a 14-month-old baby and an 18½ inch waistline, and some ideas about keeping fit that I'd be glad to have any of you adopt.

If you are a mother, or expect to become one, you'll be interested in her program after the baby arrived. Within six short weeks she had her figure right back where it had always been—34-inch bust, that 18½-inch waist, and 34-inch hips. She is five feet, one inch tall and likes to keep her weight up around 105 pounds.

How did she get back into shape so quickly?

"I did the exercise my doctor gave me exactly the way he told me to do them, and exactly the

Blonde and beautiful Veronica Lake is busy these days, what with combining a screen career with homemaking but she still finds time for occasional relaxation.

number of times. I think most women are apt to do more, or less. It seems to me that precision is what counts. The exercises were easy. One that I liked best consisted merely in lying on my back on the floor and raising the head. I got so I could touch my chin to my chest. But I only tensed the muscles involved in raising my head forward and kept the rest of my body perfectly relaxed and I believe that is very important in doing any kind of exercise. It teaches muscular control so that it becomes possible to relax at will."

I asked Veronica how she kept her figure while she is making pictures and she gave me a tip for the business girl. At noon she goes to a dance studio and gets in 45 minutes of ballet.

"Other members of the cast think I'm crazy," she said with a smile. "but I work up a good perspiration, have a shower, and come back feeling brand-new while most of them

## Hints for Housewives

By BETSY NEWMAN

The principal thing to remember when you plan a vegetable plate is to vary the vegetables so there will be a variety of green and bland. Potatoes are bland, so is corn, all creamed vegetables are given that same mild taste, so if potatoes are used or corn pudding, serve something tart like Harvard beets, baked tomatoes, something crisp and green like cooked cabbage, or celery, and then a raw celery carrot or carrot stick, pickles, olives, etc. or even a fruit salad.

SLOCAN PARK, B.C.—Lac. Elmer Dams of the R.C.A.F. was a weekend guest of his grandmother, Mrs. A. D. Crebbin.

Mr. and Mrs. Ozeroff of Grand Forks has returned home after spending a couple of weeks with his daughter, Mrs. Sam Conkin.

Mrs. J. Straight of Kentucky spent a few days with her daughter, Miss J. Straight en route to Victoria.

Mrs. W. Fomenoff and daughter of Castlegar were recent guests of Mr. and Mrs. G. Padovitchoff.

Sam Reid was a recent visitor to Pastmore.

Miss Ellen Reid, who has been confined in Kootenay Lake General Hospital for an appendicitis operation has returned home to convalesce.

Recent visitors to Nelson included Mr. and Mrs. S. Reid; Mr. and Mrs. S. Conkin, Mr. and Mrs. Paul Ousehoff and Paul Markoff.

Miss Straight and Mrs. Straight spent Saturday in Nelson.

Gen. Chiang Kai-Shek as a youth studied military science in Tokyo and was a member of the Japanese Army.

## Former Moderator Dies at Coast

VICTORIA, Nov. 23 (CP)—Rev. John Smith Patterson, 87, former Moderator of the Presbyterian Synod in British Columbia, died here today.

Born in Leith, Scotland, Mr. Patterson held several pastorates on the prairies before coming to British Columbia. He was stationed at St. Andrew's North Vancouver, and St. Columbia and Livingstone in Vancouver before moving to Victoria 20 years ago.

He leaves his widow, two sons and a daughter, Mrs. R. A. Foulis of Point Grey.

## High School Girls... Taking Care of Youngsters May Be Your Job

By Garry Cleveland Myers, Ph.D.

To the high school girl who wishes to render a patriotic service now, let me offer a few more suggestions:

In addition to keeping yourself fit, morally and spiritually and physically, sharing unselfishly in the home and sacrifices, you can do a valuable service in helping to protect and care for younger children especially those whose mothers are working away from home.

In your immediate home neighborhood there may be some working mothers whose children under 10 or 12 have no one to tend them, supervise them or direct their play after school hours till their parents come home.

Many of these mothers would be more than happy to have a responsible person in their home a few hours each day after school.

## MANAGING CHILDREN

Of course you might not be able to manage some of the runabouts. Trust to skillful persuasion rather than to force. Your mere presence in the home will keep many a child from moral danger.

Then some working mothers on your street might be glad to have you love some of their children

to your home where you might engage them in quiet games, creative activities or read to them.

Before you offer to do this service, you would want to be sure that you could always be depended on to do what you know is right. Just to measure up to such responsibility will cultivate good character and citizenship qualities.

The use of coffee was forbidden shortly after its introduction in Cairo about 1863, because it was considered intoxicating.

"Build B. C. Payroll"

## Grand For "Flapjacks"

A trapper up the coast who walks "a hundred miles a week," all through the trapping season has Pacific Milk in every cabin. He says it makes grand "flapjacks," and he can't take tea without it. "A man needs the best to keep in health up here."

### "GRAPE-NUTS" FLAKES

"GRAPE-NUTS" FLAKES is a grand cereal for busy, hard-working Canadians. These crisp, golden brown flakes supply carbohydrates, proteins, iron, phosphorus and other food essentials that your body needs. They have a nut-sweet flavor all their own. And they're double baked for easy digestibility. Try the regular size or the giant economy size.

## "GRAPE-NUTS" FLAKES

## SERIAL STORY... MARK'S WIFE

By Marie Blizard

### CHAPTER TWENTY-EIGHT (Continued)

Ellen finished her lengthy conversation in which she promised someone unknown to Mrs. Linke that Mrs. Wister would guarantee the cottage to be in order by the fifteenth and had engaged a cook and housemaid.

She put down the telephone and picked up a watch of chintz. She'd forgotten to note that Mrs. Walker wanted new drapes for her upstairs rooms. And a teapot. And six pantie waists. She wrote the items down and turned her attention to Mrs. Linke.

"Ellen," Mrs. Linke sat back like a woman settling down for a nice, confidential talk, "did she say she was going to a Chamber of Commerce luncheon?" Her voice went up incredulously.

The girl nodded.

"Are you sure? Women don't go to those luncheons."

"I know they don't, Mrs. Linke. But Mrs. Wister is a special guest. They asked her to give a talk."

"The men did? Well! What would she have to talk about?"

"Woman's Initiative in Business," I believe."

Hattie said, "Oh."

"Mrs. Wister's an important business woman now, Mrs. Linke." Ellen pointed out proudly. "She's got work for lots of other people and built up several branches of her own business."

Marching down the street toward Drake's Inn, where the luncheon was to be held, Barbara Wister was trying to tell herself the same thing and not making a very convincing job of it. Already she could feel her throat tightening and she was quite sure that she never again would be able to establish communication between her mind and her voice.

There was a long line of cars double-parked, on the lawn beside the Inn and the sight of them prompted her to flee, a lovely thought to which she dared give no further consideration.

Howard Temple, treasurer of the bank and president of the Chamber, came down the steps to greet her. Back of him she saw what looked like endless legions of men.

"Oh, Lord," she thought "I hope I won't make a mess of it. If they're

bored, it's their own fault for asking me to talk about my little business and how they came to be."

She had a moment's respite when someone stopped Mr. Temple on his way to her, and in it she hastily reviewed those "little businesses." The nursery. She knew all about how that began. But the other things—they'd come about naturally, too.

Starting a little employment agency, beginning those bi-monthly buying trips to New York that were so financially successful, what with commissions from the shops and small fees for shopping, planning cruises and renting houses for people. They all began the same way—with impulsive offers to do favors for her customers. The customers themselves had started her businesses, offering to support her if she would turn favors into regular services.

The speech she had prepared didn't seem quite right to her at that moment. No, there was something else she must say—

Howard Temple was at her side, saying, "We've been waiting for you, Mrs. Wister."

"I'm terribly nervous. This is my first speech and I feel very humble about it."

Mr. Temple's round little face beamed at her. "My dear girl, if you are half the success to the ear that you are to the eye, it will be a remarkable occasion. . . . This way to our table."

She was the only woman in the crowded dining room and had no wish been granted her, she would have asked for the poison which had absolutely abandoned her when she became aware of all the eyes upon her.

# Party Dresses Out for the Duration

OTTAWA Nov 23 (CP)—Milady will have to forego that new evening dress and she probably won't have a new Easter bonnet next year under orders made public today by the Prices Board stipulating that no new styles will be manufactured for the duration.

Styles in general have been frozen of the present Fall and Winter season, or the Spring and Summer season of 1943—which means right now, said a Board announcement.

Two new orders covering the manufacture of women's misses' and children's wear are designed to conserve cloth, economize in production, eliminate waste of unnecessary services and release manpower and womanpower for the Armed Forces and war production.

In line with the Board policy of eliminating or curtailing non-essentials, J. A. Klein, Administrator of women's misses' and children's wear, ordered that manufacture of evening and dinner dresses and evening wraps and capes be halted.

Other luxury garments which will be discontinued include negligees and hostess gowns, couettes, skating skirts, play suits, riding breeches, golf jackets and bush coats.

The Board however announced the separate skirts, slacks, bathing suits, windbreakers, housecoats and takedown robes will provide ample and suitable wearing apparel for recreation and leisure.

The new orders, with one exception, are effective as from Nov. 17. The exception is that no new blocks for women's and children's hats may be made after Jan. 15 next.

Mr. Klein said that eliminations and restrictions imposed last March have already resulted in the saving of many thousands of yards of materials which have been put to useful war purposes.

"We must keep in mind," he said, "that we are fighting for our very liberty, and asking Canadian women to deprive themselves of a garment which is only used occasionally is certainly not asking for any great sacrifice."

The new order assures a straight silhouette of alhousette, devoid of skimpy effects and flattering to the figure, said the Board statement. Adequate provision is made for simple trimmings such as tucking and shirring, and a sufficient color range.

No garments other than women's or children's hats may be fashioned in more than four shades. And no chapeau may be made in more than six shades, if of straw, or in more than 10 if of felt and fabric. Fur trimmings on women's and misses' hats are out entirely.

The style range which was reduced for the Fall season of this year by one-third now has been cut to one-half.

The second of the two orders issued by the Administrator, with the concurrence of the Administrator of Retail Trade, provides that the number of samples shown by any manufacturer for any season shall not exceed 50 per cent of the number of samples shown by him for the corresponding season in 1941, and no manufacturer customarily selling by sample shall sell any garments in any style for

which he has not shown samples. While evening and dinner dresses are eliminated from manufacture, long gowns for brides only may continue to sweep gracefully toward the altar. Provision is made for bridal gowns to have a sweep not to exceed 144 inches and a length not greater than 60 inches for size 16.

Just as evening dresses will not be manufactured for grown-up party dresses are out for small girls.

One of the new orders specifies that no cloth of wool may be used to line any garment.

Certain new restrictions apply to nurses', maids', waitresses' and beauticians' uniforms. Eliminated from these are flaps on pockets, double-breasted styles, French cuffs on sleeves and double bodice or double sleeves.

Among the garments not formerly listed which now are covered by schedules are sportswear, bloomers, brassieres, corsets, scarves, infants' wear, boys' wash suits and women's and children's hats.

"These orders apply to home dressmakers as well as manufacturers, and any dressmaker not having a copy should apply to the Wartime Prices and Trade Board," an official stressed.

## Jean Paterson to Take N.C.O. Course

Making rapid progress since she enlisted, Private Jean Paterson of Nelson, daughter of Mrs. E. H. Paterson, is en route East to take a Canadian Women's Army Corps non-commissioned officers course at Macdonald College, St. Anne de Bellevue, Montreal.

Private Paterson enlisted in September, and left for the Coast early October.

Previous to enlisting she was Sergeant-Major of the Nelson Detachment of the Canadian Women's Training Corps, commanded by Miss Winnifred Kinahan, and was a familiar figure on parades. The C. W. T. C. is a voluntary civilian organization.

Since joining the C. W. A. C. she has been selected for a number of duties and in letters home ascribes this to the marching and drilling experience gained with the voluntary group in Nelson.

# NELSON SOCIAL

By MRS. M. J. VIGNEUX

**RETURNS TO CALGARY**  
• Mr. and Mrs. T. H. Glover, 812 Baker Street, had as guest Eric Willock of Birmingham, Eng., also William Wilson of Motherwell, Scotland, who have returned to Medicine Hat after a fortnight's holiday in the City.

• Recent shoppers in town included Mr. and Mrs. A. B. Macrone of Bonnington.

• Mrs. Kathleen Morris, who spent a month with her son and daughter-in-law, Mr. and Mrs. Charles Morris, Victoria Street, has returned to the home of her son and daughter-in-law, Mr. and Mrs. R. B. (Jack) Morris, Second Street.

• Miss Francis Ferraro, who attends Nelson Business College, spent the weekend with her uncle and aunt at Castlegar.

• William Brown, Jr., whose hand was caught in a job printing press at the plant of the Nelson Daily News early last week, and crushed and lacerated, left Kootenay Lake General Hospital Sunday for his home, 1423 Kootenay Street, where he will continue to receive treatment.

**MOVE FROM PRAIRIE**  
Mr. and Mrs. Alex M. Shields and family of Moose Jaw have arrived in Nelson and are taking up residence at 903 Josephine Street. Mr. Shields will assume his duties as C.P.R. District Freight Agent.

• Lieut. Barney Browne, who spent a few days at the home of his parents, Rev. and Mrs. F. Browne, New Denver, was in town en route to Saskatoon, Sask.

• Mrs. R. A. Grimes, Carbonate Street, entertained Mrs. Fred H. Graham's Circle of St. Saviour's Church Helpers yesterday afternoon.

Those attending included Mrs. H. J. Haylock, Mrs. S. P. Bostock, Mrs. H. B. Goss, Mrs. Stirling, Mrs. F. R. Fritchard, Mrs. Ernest Smith, Miss Margaret Taylor, Mrs. A. J. Cornish, Mrs. Graham, Mrs. George Horstead, Mrs. A. T. Horwill and Mrs. Hugh W. Robertson.

• Mrs. K. M. Spence of Trail visited Nelson yesterday.

• Shoppers in the city yesterday included Miss Florence Ridge, of Bonnington.

• Sgt. Wag "Ted" Rutherglen of the R.C.A.F. is visiting his mother, Mrs. E. D. Rutherglen.

**Nelson, Kaslo Beauties Shown in Films**  
J. (Jimmy) Vipond of Trail, formerly of Nakusp, showed beautiful colored films of Nelson and Kaslo and surrounding districts at the Monday luncheon of Nelson Rotary Club.

"In the Kootenays we have the finest subject matter," he said. "It's a wonderful country, and I'm proud to be able to take pictures of it."

His pictures began with scenes of Kootenay Lake, and Lakeside Park, showing the boating and swimming. Fairview, the West Arm of Kootenay Lake from Gyro Park, and Gyro Park itself, were all beautiful shots. Pictures of the business section of Nelson, the Civic Centre, the C.P.R. station gardens, and Nelson Golf Course proved to be ideal subjects.

Mr. Vipond showed scenes from many beautiful homes here, including those of Mr. and Mrs. Harold Lakes, Rosemont, Mr. and Mrs. Gordon Allan, Mr. and Mrs. J. H. Argyle, the North Shore home of George Horstead, and many scenes from the home of S. G. Blaylock.

Queen's Bay, Kaslo and Mirror Lake were all caught by the camera's eye, and were portrayed in the beauty of the mountains surrounding them. Fletcher Falls at Mirror Lake, the golf course just outside Kaslo, the Kaslo courthouse, and a typical Kootenay Lake sunset concluded the film.

Guests at the luncheon were John Cowan of Vancouver, Frank Rushton of Nakusp and Mr. Vipond.

President K. C. McCannel was in the chair.

## Service Clubs Aid Book Drive for Forces

In accordance with the request from the I.O.D.E. for assistance in providing the three branches of the armed forces in Canada with books Nelson Rotary Club is making a special effort during the week beginning Nov. 23 to gather books among members of the Club.

When the books have been collected Rotarians have been asked to leave them at to Ward Street offices of H. W. Robertson or at the office of Burns Lumber and Coal Company.

F. E. Osborne, Chairman of the Canadian Advisory Committee at Calgary, informed K. C. McCannel, President, of Nelson Rotary Club, that the I.O.D.E. had distributed over 178,000 books to the forces in 1941. Now the War Services Department have asked that order to redouble their efforts.

In order to do so it must have the assistance of other organizations.

**RETURNS TO COAST**  
• Lac. R. L. (Robert) Collinson, who spent a few days with his parents, Mr. and Mrs. A. I. Collinson, Hoover Street, left yesterday for the Coast.

• Duncan McCusig, R.C.N., is visiting his mother, Mrs. Elsie McCusig, Houston Street.

• Ac. J. Jack Reid left Monday morning for Edmonton after spending several days in Nelson on leave.

• Louis Choquette of Trail visited Nelson Monday.

• Lac. Joseph Boletti, R.C.A.F., is home on furlough, visiting his parents, Mr. and Mrs. V. Boletti, Fall Street.

• Mrs. K. M. Spence of Trail visited Nelson yesterday.

• Shoppers in the city yesterday included Miss Florence Ridge, of Bonnington.

• Sgt. Wag "Ted" Rutherglen of the R.C.A.F. is visiting his mother, Mrs. E. D. Rutherglen.

## Einar Domeij, in Navy Now, Has Oil Burns

"Explosion of oil with which he was experimenting severely burned Einar A. Domeij, 23, of H.M.C.S. Discovery, shortly before 2 o'clock this afternoon," reported the Vancouver Sun Saturday.

"Reports to the Vancouver Sun indicated that Domeij was conducting an experiment with Russian oil at 81 West King Edward, where he was staying.

"The mass exploded, and fire broke out.

"The flames were extinguished, but only after he had suffered severe burns on his right arm and on his back.

"Neighbors, attracted by the sound of the explosion, ran to the house and offered assistance.

"He was taken to Shaughnessy Military Hospital in a Kingsway ambulance."

Domeij, a Nelson boy, the son of Mr. and Mrs. A. E. Domeij, left only a few weeks ago to enlist in the Navy. He was a pharmacist for Mann-Rutherford.

Mr. Domeij wired Vancouver Monday afternoon to obtain details of his son's condition. The fact that the family received no notification of the accident argues that Einar's condition was not regarded as serious.

## Rotary to Give Proceeds Ice Show to Queen's Fund

Members of Nelson Rotary Club Monday were unanimous in the decision to turn over the greater part, if not all, of the proceeds from the ice review sponsored annually by Rotary, to the Queen's Canadian Fund.

# SAFeway Homemakers' Guide

Your family will enjoy the Family Circle \* About guaranteed-fresh produce \* Ida launches her big idea

## Your family will enjoy the Family Circle

The Family Circle Magazine written for YOUR reading pleasure

EACH WEEK gives you an insight into Hollywood... character sketches of the stars, days on the lots, previews of the currently released screen attractions.

EACH WEEK includes a short story... the light, not-too-long kind that's a bit of all right.

EACH WEEK Julia Lee Wright's article gives you helpful hints on how to make better use of the food you buy—as well as recipes and menus that have been thoroughly tested by the Homemakers' Bureau.

EACH WEEK Sue Sutton gives you recipes and tempting menus that fit your budget as well as your family's fancies.

The Bureau  
The Homemakers' Bureau includes two completely equipped testing kitchens that would please every housewife, a modern photographic studio with graceful dining room appointments, one of the world's largest cookbook libraries with more than 8000 volumes readily available, and has a competent staff of more than 80 trained experts in the fields of nutrition, cooking, entertaining, etiquette, and general home-making. Their job is to help you with your problems.

**CANADIAN DISHES**  
This week many of your own favorite Canadian dishes, tested by the Bureau, appear in the Family Circle Magazine. Out every Thursday—free at Safeway.

**Safeway Homemakers' Bureau**  
Box 518, Vancouver

Nelson's 10,000 Heavy Machine-Guns

"Enough steel can be salvaged from an old automobile to make 25 heavy machine-guns."

So says the Department of Munitions and Supply in a publicity release from Ottawa entitled, "Save Scrap."

Now if only Ottawa would act on this knowledge, so kindly made available to this district, and take measures to utilize the old car bodies, of which there must be hundreds of thousands scattered through Canada not immediately adjacent to steel foundries!

Just think! One thousand heavy machine-guns potentially in every collection of 40 discarded cars!

Suppose there are 400 old cars buried in Nelson's dumps and fills. They are the equivalent, in steel content, of 10,000 heavy machine-guns.

Probably these mines of old steel will be the last source to which the Government will turn, for the indispensable raw material for manufacture of these and other indispensable war equipment.

But, at the rate the country is being drained of iron and steel scrap of more convenient form for shipping, the Government will have to do something about scrapped cars, or see the steel industry go short of raw material for essential purposes.

Glass Partitions

The new kind of portable interior wall made of glass blocks which has been devised by one of the large glass companies offers so many solutions for knotty problems of the home that every family will want to have a set lying about ready for use, states the New York Times.

The householder will be free, according to our news story, to move the wall about "to fit visitors and whims." This is an exciting discovery, because it makes it possible to shut the slightly tedious Aunt Carrie off by herself when she comes for an indeterminate stay in a crowded home. This gets her out of somebody's bedroom or off the couch in the parlor, and may even be better for Aunt Carrie herself, whether she appreciates it or not.

To suggest it, may be inviting a storm from child psychologists, but a little private room will now be available where Johnny can be sent when he needs to consider in solitude for a few moments his lapses in behavior. Or where mother can seclude herself in solitude if she prefers.

Utility is stressed for the portable wall, but another idea inevitably occurs to the mind. Winston Churchill is said to have a hobby of building brick or stone walls. Here is material for an indoor pastime with which to pass the hours when books and other amusements pall and man wants to make something with his hands. It is as "simple as a child building a house of blocks." The only carpentry is the frame, and this itself is prefabricated. There is no mess of mortar and, in short, father has a new amusement for long winter months—unless Mr. Henderson gets to the store first with his priorities.

Test Yourself

- 1. What is the capital of Liberia, Negro republic?
2. For whom was the capital named?
3. Which is longer, the Burma Road from Lashio to Kunging, or the new Alaskan Highway?

TEST ANSWERS

- 1. Monrovia
2. United States President James Monroe
3. The new Alaskan Highway

Etiquette Hints

When two or three women and one man are together, the women should not talk merely of feminine subjects such as recipes, dress, hair, etc. and bore their male companion.

Words of Wisdom

A little more of the same kind of things would be the wisest man—Aron

Questions? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service.

Information, Trail—If a person bought a house on the installment plan before June, 1942, would he be able to put the mortgage down as a tax exemption when the new tax form is made up for his employer in September 1943?

Deductions are allowed from the compulsory savings portion of the tax payable, if a house purchased after June 23, 1942, had a first mortgage registered prior to that date.

H. F. Trail—Where would I write for a birth certificate in Saskatchewan?

D. K. LaPlante, Supervisor Office of Registrar General, Department of Public Health, Regina, Sask.

Where would I write to get information about naturalization papers?

Write W. J. Sturgeon, Court Registrar, Nelson.

If a single woman does domestic work and wages are about \$60 per month, including board and room, how much would she pay on tax and compulsory savings?

Total tax payable on a single person's income of \$60 per month would be \$2.50 a month, of which \$2.25 would be the savings portion.

F. W. Chapman Camp—What is the amount of the cost of living bonus an employer pays his employee per day in any trade? When did the bonus first come into effect?

The compulsory bonus to be paid by an employer is 60 cents a week if a male under 21 years of age or a female the amount to be paid is 24 per cent, with a ceiling of 60 cents a week. The compulsory bonus is based on the rise in the index since October 1, 1941. Several types of employment are exempt from the cost of living bonus, such as domestic help, municipalities, and institutions operating on a non-profit basis.

J. S. Wyndal—Could you please tell me if there is any place where one could have made small, odd shaped wooden parts for toys? I would require only a few pieces.

Write Leo Whitelock, 308 Victoria Street, Nelson giving him details of what you wish done.

A Reader, Kimberley—May Christmas parcels be sent duty free from Canada to relatives in the U. S. Army?

Parcels to soldiers in Canadian units serving in the U. S. are duty free but not when they are members of the U. S. Army.

Looking Backward

10 YEARS AGO

(From Daily News, Nov. 24, 1932)

H. L. Miller was appointed trustee of the Nakusp development district to succeed the late J. J. Edwards.

Mrs. M. LaRue of Nakusp has left for Vancouver to visit her daughter Mrs. Stafford Cox. Major J. W. Clark entertained the Baptist young people with lantern slides and a lecture on the B. C. waterways system Tuesday.

25 YEARS AGO

(From Daily News, Nov. 24, 1917)

At the Victory Loan meeting at Wardner last night speakers from Cranbrook were E. J. Spruell, A. A. Markinson, E. H. McPhee, and R. T. Williams.

J. W. Britton of Harrop was in Creston Monday.

W. T. Chapman, who has been in Grand Forks for the past two weeks visiting his brother, Horace B. Chapman, left Wednesday for San Francisco en route to China, where he is the professor at Wenchow College, and is now returning after a year's furlough in England.

40 YEARS AGO

(From Daily News, Nov. 24, 1902)

S. S. Taylor returned last night after a prolonged visit in the East.

Alfred Over of the Roseland Farming World came over yesterday to attend the Board of Trade meeting.

As the school office yesterday certificates of work were issued to J. Hargreaves on the Athol.

W. C. Baily of Nelson has completed the construction of a grain tramway at Wenslow, Wash.

Today's Horoscope

The planets who have little to do are said to have troubled lives, but will achieve success because of their power of application, their tenacity and industry. They have artistic temperaments, like music and are sincere in their affections. During the next year they are confined not to any form of new friendships through opportunities or sudden friendships. If they take this advice they will enjoy great happiness and much success. Exceptional artistic, musical and psychic abilities will be developed by the child who is born on this date. He or she will achieve recognition through peaceful, artistic conduct and goodness are attended. The child will be very highly strung.

War—25 Years Ago

By The Canadian Press

Nov. 24, 1917—British troops took the village of Beaulieu and surrounding heights in drive toward Cambrai. Gen. H. C. O. Plumer appointed to command British troops in Italy and Gen. Sir William Marshall assumed command of Anglo-Indian army in Mesopotamia.

ANCIENT METHOD

The British have revealed that the first news from the Dieppe raiders was sent back by two carrier pigeons, which covered 27 miles in 32 minutes. The reason for this sort of communication was the necessity of maintaining radio silence during the early part of the operation. This is more evidence that all the advances of technology have not eliminated ancient methods—Baltimore Sun.

Canada's MacCrimmons

By H. J. HOGG

From the lonely Isle of Skye to the foothills of the Rocky Mountains is a far cry, but there extends from the one to the other in an unbroken chain of several generations of Canadian Scots a most romantic story. The MacLeods of MacLeod (than which no prouder title) had from many generations as their family pipers the great MacCrimmon family, reputed to be always the finest pipers known, and who established what was perhaps the first music school in the world at Borrastrig in Skye, from which they sent out finished pipers to all the clans.

From Ian Odhar in 1600 to 1747, when an act of parliament abolished these hereditary occupations, the MacCrimmons were the pipers of MacLeod. On the abolishment of their position, the MacCrimmons had to seek new fields and pastures, and history records a long line of gallant soldiers. One, Malcolm MacCrimmon came to Canada, settled in the West, and was a member of the U. S. Canadian boundary survey party. His son, Mr. Roderick MacCrimmon, settled at Scottford, Fort Saskatchewan, and now in the third generation Malcolm Roderick MacCrimmon, recently a piper in the Calgary Highlanders, and now on active service with the Canadian troops in England, has been proclaimed Chief Elect of the MacCrimmon Society, Honorary Piper to the MacLeods of MacLeod at Dunvegan, and a Life Governor of the Royal Caledonian Schools.

It is chains like these that bind Canada and all the other members of our great Commonwealth closer to the old land than any charters, edicts, or laws could ever hope to do. And it is to be hoped that when this trouble is over, and the Scots Regiments discard their battle dress for all the glory of their kilts and plaids, their sporrans and skein dhuis, to swing down the length of the Unter den Linden in a triumphal march, there will be a MacCrimmon there to pipe them on.

Press Comment

STUDENT HARVESTERS WERE TOO YOUNG

The harvest excursion experiment would have had happier results if more care had been taken in selecting the boys sent from the East to help in taking off the western crop. Under-sized high school boys of 15 and 16 are not suited for the heavy work of pitching bundles. This should have been obvious to the persons responsible for sending them West.

Despite some bungling, the scheme has helped materially in easing the strain caused by a combination of an abundant crop and a shortage of labor.

The short notice given to the Calgary Unemployment Insurance officials makes it evident that the plan was hurriedly and loosely organized. The Western offices did a good job of distributing the "green" harvesters to the districts where they were most needed. National Selective Service officers in the East should benefit from this year's experience and show more judgment in their choice of harvest helpers to be sent West if a similar situation develops next fall.

A small percentage of the 800 students from Ontario and Quebec, sent to the Calgary area, were physically incapable of standing up under the heavy work in connection with the harvest. Arrangements have been made to send these boys back East.

They will no doubt understand they were "miffed" in this particular job. The majority of students will return to their studies physically hardened and with a welcome "take" of cash. They will be glad of the assistance they were able to give and thrilled by the experience.

It is not immediately apparent why Alberta and Manitoba University students were not called upon to a greater extent, although many of these are working on the farms of relatives and friends—Calgary Albertan.

MRS. ROOSEVELT'S VISIT TO GREAT BRITAIN

Mrs. Roosevelt has returned to Washington after a four weeks' tour of Great Britain. Her tremendous energy and keen power of observation were never more in evidence than during this tour. She visited many parts of the United Kingdom, conferred with numerous prominent persons, inspected several phases of the British war effort, including war industries, attended many functions, public and semi-private, and took everything in a magnificent stride.

All the while she found time to record her impressions day by day for trans-Atlantic publication. Typical of her unvarying activity is her own record of her movements last Saturday, her last full day overseas. In the forenoon she went to a studio to make a recording. On her return to her London apartment she had a long talk with Mr. Bevin and Mr. Ince. There followed a visit from and discussion with the High Commissioners of four Dominions and Field Marshal Smuts. Later she called in at the British Speaking Union and met a number of distinguished guests. She then inspected a contributing post from which gifts from the English-speaking unions in the United States are issued.

It was announced at the time she left for Britain that her chief purpose was to visit all the American soldier camps there and in Northern Ireland. There is the suggestion in some quarters today that this was a part of the elaborate and successful camouflage built up to deceive the Axis as to the real objective of these trips, many of whom are now in North Africa.

Early in her visit, many of them must have been on the way to Gibraltar and she never saw them and never expected to see them for she invariably was let into the secret of the Allied High Command. At any rate her trip across the Atlantic served several useful purposes, including the increase in the United States of knowledge of Britain's gigantic and unswerving war effort—Calgary Herald.

DEFLATED BENITO

Not long ago, when he regarded himself as the rock of the world, Mussolini talked of how he meant to restore the glories of the Roman Empire. He is not crowing now. The truth about Mussolini is that he has become nothing but a deflated gas bag—San Francisco Telegram.

TODAY'S News Pictures

Cranbrook Brother Sister in Uniform

Pte. J. E. Stone, left, is stationed at Red Deer, Alta., with the Royal Canadian Army Service Corps, and his sister, Pte. Mae Stone of the Canadian Women's Army Corps, up to now at Vancouver, but now en route to Quebec for a special course. They are the son and daughter of Mr. and Mrs. W. D. Stone of Cranbrook, and nephew and niece of Mr. and Mrs. S. S. Simpson of Nelson.

Gen. E. R. Fitzpatrick, 22, in anti-aircraft unit overseas. Pte. Thomas Fitzpatrick, 21, is with a Forestry unit overseas.

Waldo Family Gives Four Brothers to Army

These two young men are sons of Mr. and Mrs. R. Fitzpatrick of Waldo. Two other brothers are also wearing Army uniform—James, 24, in the same overseas Forestry unit as Thomas; and Samuel, 20, who is with an artillery unit at Vernon.

TRAIL MAN OVERSEAS

Sgt. J. M. Wood, son of Mr. and Mrs. James Wood, 1582 Cedar Avenue, Trail, arrived overseas this month to serve as an R.C.A.F. air gunner. In Trail he was a member of the Rover Scouts and a Cub Leader.

CANADIAN AGE KILLED

Flying Officer George Pepper, D.F.C. of Belleville, Ont., who was considered one of the best night fighters in England, has been killed in action. In a recent Nazi raid over Britain he was credited with shooting down three out of four German planes destroyed.

SON AND BROTHER OF NELSON WOMEN AMONG HEROES OF ORAN

Captain Frederick Thornton Peters of the Royal Navy, above, killed in a plane crash at Plymouth, Devon, was the son of Mrs. Peters and the brother of Mrs. E. E. L. Dewdney of Nelson. He was born in 1890.

When the invasion of North Africa began Captain Peters was in command of one of the cutters which crashed the defences of Oran Harbor. His ship was blown to pieces by land guns, but he was thrown off the bridge and was picked up. General Dwight Eisenhower recommended him for the American Distinguished Service Cross. As a midshipman he was decorated by the King of Italy. In the First Great War he won the Distinguished Service Order and Distinguished Service Cross.

GERMANS SURRENDER IN MOROCCO

German members of the Armistice Commission at Fedala, Morocco, are shown under arrest as they walk between rows of American soldiers after the city had fallen to the invading U. S. troops.

BRITISH GENERAL INSPECTS FIGHTING FRENCH

Photograph shows General H. R. L. G. Alexander inspecting speedy Bren gun carriers and their Fighting French crew in Libya. These Frenchmen fighting the Axis under the Tri-Color may soon have their numbers raised by thousands.

# Call Out for Hockey Recruits; to Form Teams

Teams for Nelson's Commercial Hockey League will likely be lined up Thursday preparatory to opening the season's schedule, President Walt Wait said Monday.

A full turnout of players for the practice tonight, and for practices during the rest of the week has been called to give an idea of the strength of the prospective lineup. The aim is to ice three teams of uniform strength to assure good, even hockey.

Practices previously this season have drawn between 25 and 30 players. There is still considerable talent hidden among the ranks of hockey players of seasons not so far gone, the puck officials are confident, and they have hopes of bringing it all to light to assure the three-team set-up.

# Lenard Captures O.R.F.U. Scoring Title

TORONTO, Nov. 23 (CP)—Long Al Lenard, ace backfielder of the Hamilton Wildcats, captured the Ontario Rugby Football Union scoring title by the slim margin of three points, it was shown tonight in the Union's scoring statistics, tabulated by The Canadian Press.

Lenard's margin of superiority came with a field goal he kicked in the third quarter of the final O. R. F. U. game of the season between Wildcats and Toronto Navy, giving him a total of 54 points for the season.

In second place came Pit Lt. Eddie Thompson, backfield star for the R.C.A.F. Hurricanes, who ran wild against Kitchener-Waterloo Panthers Saturday to score 18 points, with three touchdowns which he converted himself. The day's work brought Thompson's total to 51—just three behind Lenard.

The scoring statistics demonstrate Lenard's value to the third-place Wildcats for his 54 points is almost half of Hamilton's total of 119 for the season. Lenard won the Eastern scoring title last season with 39 points.

Annis Stukus of the lowly Oakwood Indians ranked third among the scorers with 34 points. He racked up six Saturday with two field goals.

Behind him came three players who failed to enter the scoring column in the wind-up games, Ed Jakubowski of Balmly Beach with 31, G.S. Hugh Cuddle of Navy with 30 and P.O. Jack Alexander of R. C. A. F. with 24.

In seventh place came Sammy Sward of Balmly Beach with 21 points, 15 of them picked up by kicking singles. No other kicker in the league came close to matching his total.

LEO CARBOL

GUS PURPUR

AUD TUTTEN

## NEW HAWKS GREW UP IN MINOR LEAGUES

Instead of dipping into the teen-aged ranks, Coach Paul Thompson of the Chicago Black Hawks has plucked his newcomers from the American Association. Aud Tutten comes from the Hawk Kansas City Farm Club while Leo Carbol is another veteran of the minors, hailing from St. Louis. Gus Purpur is another newcomer.

# Demarco Climbs to Top Spot

NEW HAVEN, Conn., Nov. 23 (AP)—Tallying five goals and seven assists in one week, Abe Demarco of Providence Reds vaulted from 10th to first place in the individual scoring race of the American Hockey League.

Official statistics released today at League headquarters here show that Demarco, with twice the 12 points which placed him 10th in the race last week, had three more points than Wally Kilrea of Hershey, the runner-up.

Kilrea was not listed among the 10 highest scorers last week.

The race between Buck Jones of Providence and Roger Jenkins of Hershey for distinction as the League's No. 1 bad boy continues, but Jones with 28 penalty minutes retains his two-point lead over Jenkins.

CALGARIAN DISPLAYS KOOTENAY TROUT

Mrs. D. McEllan, 604 Fourteenth Avenue East, Calgary, shows two Kootenay Rainbow, the one weighing 9 1/2 pounds and the other 1 1/2, taken on a trolling trip with Mr. and Mrs. William Brown, 708 Third Street.

# Boston Leads Football Poll

NEW YORK, Nov. 23 (AP)—Boston College, which has held recognition as the best team in the East during recent weeks, today climbed on top to beat Auburn and Georgia Tech in the latest issue of the United States in the opinion of 118 grid experts.

Boston hopped from third to the top while blasting its neighborhood rival, Boston University, 37-0 Saturday and Georgia, the No. 1 team for a month, was sidetracked by Auburn, 27-13.

The standings of the top 16 teams (first-place votes in parentheses, points figured on 10-9-8-7 etc. basis):

Boston College (47) 1078; Georgia Tech (50) 1044; Ohio State (16) 904; Wisconsin (2) 894; Georgia (1) 616; Tulane (1) 577; Alabama 288; Notre Dame 281; Michigan 279; Tennessee 197.

# Bruce of Montreal Army Leading Quebec Goal Race

MONTREAL, Nov. 23 (CP)—Lieut. Gordie Bruce of Montreal Army is leading the Quebec Senior Hockey League race, closely pursued by his team-mate Lieut. Allan Kuntz and Johnny Mahaffy of Royals, official league figures showed tonight.

Bruce has compiled 16 points on 12 goals and four assists, for a one-point margin over Kuntz, with seven goals and eight assists, and Mahaffy, with six goals and nine assists.

ARMSTRONG TO FIGHT NEW YORK WELTER

SAN FRANCISCO, Nov. 23 (AP)—Signing of Henry Armstrong, former triple boxing champion, and Saverio Turillo, New York Welterweight, for a 10-round bout here Dec. 14, was announced today by matchmaker Benny Ford.

# Rosland Plans Open House 'Spiel' Martin Prexy

ROSSLAND, B.C., Nov. 23—Thursday evening Robert Donaldson was elected Patron of the Rossland Curling Club, Roy Stevens Honorary President, Herb Martin, President, Robert Crawford 1st Vice-President and Dave Tweed 2nd Vice-President. The executive committee is composed of Kenneth Martin, William Pollock, T. H. Yolland, R. J. Boyle, J. C. Urquhart and J. A. Wright.

Ice committee is Kenneth Martin and T. H. Yolland. Classification committee is R. Crawford, Roy Stevens, Mayor J. E. Gordon and R. J. Boyle.

An open house bonspiel will be held as soon as the ice is ready, announced V. M. Van. The weather will determine the date.

# Williams and Pesky Enter Naval Pre-Flight School

CHICAGO, Nov. 23 (AP)—The American League Service Bureau said today the names of Ted Williams and Johnny Pesky of Boston Red Sox had been placed formally on the league's "National defence service list" with their entrance into the Amesherst, Mass., Naval Pre-Flight school.

Williams won the American League batting title last summer for the second straight year, with an average of .356, and Pesky was runner-up with .331.

This brings to 22 the number of former American League players now in the armed forces.

# Griffiths Says Baseball Has Fighting Chance

WASHINGTON, Nov. 23 (AP)—Silver-haired Clark Griffith, 73-year-old major-domo of sports in the capital whose lobbying efforts gave baseball a stay of execution from July to Labor Day, 1918, is going to the annual major league meeting at Chicago next month in the full expectation that the national game will escape wartime extinction.

Griffiths admits that priorities on strategic materials used in baseballs plus the constant drain on manpower and the acute transportation situation have posed tougher problems than those of the first Great War but he thinks that baseball has a fighting chance to complete the 1943 season.

"There's only one way of looking at the whole question," he said. "We stand ready to cooperate with the government. That is baseball's wartime policy. Last year, it was the government's wish that baseball be played and I think it is still the government's wish that it be continued."

"The people want baseball," Griffiths declared. "The soldiers want it. The war workers want it. The youngsters want it."

As for his own Washington Senator, who have lost Sid Hudson, Walter Masterson, Bruce Campbell and Al Evans since the close of the season, Griffith wants a minimum of 60 night games next year.

"We had 21 night games last year, and every one of them drew good crowds. I say let us play 'em at night from June to Labor Day."

# COMPANY ELECTS

ROSSLAND, B.C., Nov. 21—F. S. Peters was named President of the Rossland Curling Club Ltd. Thursday evening. Roy Stevens was elected Vice-President and V. M. Van Secretary-Treasurer. Directors for the coming term included R. J. Boyle, R. W. Timms, Sam Patterson, Roy Stevens, J. A. Wright and F. S. Peters.

# Trail Curling Club Draw

TRAIL, B.C., Nov. 23—Draw for the Trail Curling Club's President vs Vice-President Competition follows:

Tuesday:

6:30 p.m.—D. Forrest vs W. H. Baldrey; H. T. Beckett vs W. McLeary; M. M. Batorac vs W. H. Robertson; W. H. Sheppard vs C. Strachan.

8:30 p.m.—W. Brady vs M. M. O'Brien; F. J. Glover vs G. W. Weir; F. J. Plester vs T. A. Rice; A. E. Calvert vs J. A. Wright.

Wednesday:

6:30 p.m.—F. Strachan vs H. H. Miller; D. McDonald vs W. Brown; W. L. Wood vs J. H. Woodburn; D. McLennan vs D. Wetmore.

8:30 p.m.—J. Devito vs G. F. Reimann; G. Bumpfrey vs A. M. Chesner; R. Dockerrill vs T. H. Weldon; R. C. McGerrigle vs E. W. Haslewood.

Thursday:

6:30 p.m.—T. Damour vs F. Wendell; R. McGhie vs C. D. Stuart; H. A. McLaren vs A. Crichton; J. H. Leckie vs A. E. Allison.

8:30—A. Woolf vs V. E. Ferguson; W. L. Wood vs A. C. Allison; J. Campbell vs D. Balfour; W. Brown vs W. P. Robertson.

# Tungsten's Superlative Qualities Make It Essential for War

Requirements of tungsten for strictly military purposes may, in the near future, be several times those for tool steels, says V. L. Eardley-Wilmet of the Federal Department of Mines and Resources. This, he explains, accounts for the present feverish search for the ores of tungsten—a search which only two years ago was comparatively insignificant in Canada.

Today, this authority remarks, more attention and widespread interest is being given to tungsten than to almost any other metal and the necessity of saving every possible pound for its ore cannot be too urgently stressed.

HIGH MELTING POINT

Before the outbreak of the war about all the laymen vaguely knew of tungsten was that it is used for lamp filaments, but little thought was given as to why it is so useful for it is a metal of many superlatives. It has the highest melting point (3350 degrees C.) of all metals. When worked it becomes so elastic and ductile that it can be drawn into wire finer than any other metal and as such it retains its rigidity at higher temperatures than any other metal and also has a lower vapour pressure. Further—it has the highest tensile strength (up to 600,000 pound per sq. inch of any known metal. At ordinary temperatures it is not affected by acids, including aqua regia and is soluble only in a mixture of hydrofluoric and nitric acids.

Advantage is taken of these outstanding qualities in the use of tungsten in parts of scientific instruments, in radio and wireless apparatus and for many other purposes. As to lamps, a little goes a long way, as one tone of tungsten will make filaments for nearly a hundred million lamps.

FORMS ALLOYS READILY

Tungsten forms alloys readily with such metals as nickel, cobalt, molybdenum, chromium, iron, manganese, vanadium, and titanium. Prior to the war over 90 per cent of the world tungsten was used in

(the steel industry, mainly in the making of high speed tool steels. The extreme hardness and toughness imparted by this metal and which are maintained even when the steel is heated to a high temperature, are essential qualities for the tools used in the shaping of instruments of war. Alloy steels containing tungsten are being extensively used in making armour plates, other military equipment.

At high temperatures in the electric furnace, tungsten combines with carbon to form a carbide of extreme hardness which is used for tips of cutting tools, dies, and various other applications. The requirements of tungsten for strictly military purposes may, in the near future, be several times those for tool steels.

# Beazley Named Most Valuable

CHICAGO, Nov. 23 (AP)—Johnny Beazley, St. Louis Cardinals pitcher who is a private in the United States air force, today was named the most valuable rookie of 1942 in a poll of the Chicago chapter of the Baseball Writers Association of America.

Beazley received 192 votes, drawing 11 first-place ballots, two seconds and one fourth.

Johnny Pesky of Boston Red Sox, was runner-up with 136 votes, followed by Vernon Stephens of St. Louis, Browns, 112 points.

Beazley will receive the J. Louis Comiskey Memorial award, named for the late owner of Chicago White Sox. Lou Boudreau, now Manager of Cleveland Indians, won it two years ago, the first time it was awarded, then Harold Heiser of Brooklyn Dodgers received it last year.

# Player Limits Reduced to 14

BOSTON, Nov. 23 (AP)—The National Hockey League's Board of Governors voted in special session today to reduce their club player limits from 15 to 14 men as a wartime measure.

It was also decided to suspend the existing rule requiring a minimum of 12 players on each club for the duration of the war.

The meeting also discussed minor rules and decided that henceforth after intentional offside, faceoffs would be at the circles five feet from the blue line instead of at that marker; the area in which play could continue after an official was struck by a puck would be extended from the centre zone to each penalty shot line, and a face-off would be required anytime a player handled a puck less than three seconds and dropped it anywhere but directly at his own feet.

# Drillon Again Top Scorer

By The Canadian Press

Gordie Drillon recapturing the lead among National Hockey League scorers when he scored twice for Montreal Canadiens against Chicago Black Hawks, Sunday night, Toronto Maple Leafs scored 14 goals in weekend games and as a result, two Leafs were showing among the leaders. Sweeney Schriner moved into a three-way tie for second place with Lynn Patrick and Phil Watson of Rangers.

Player	G	A	Pts
Drillon, Canadiens	7	7	14
Schriner, Toronto	7	6	13
Patrick, Rangers	5	8	13
Watson, Rangers	3	10	13
Bentley, Chicago	3	9	12
O'Connor, Canadiens	3	9	12
Bruneteau, Detroit	7	4	11
Hextall, Rangers	7	4	11
Apps, Toronto	6	5	11

# Sports Roundup

By HUGH FULERTON, Jr. Associated Press Sports Writer

NEW YORK, Nov. 23 (AP)—When Bummy Davis whacked Red Doty at Boston Friday night, a group of Waacs were ringside guests of the fight club.—Which shows how careful you have to be about spelling these days.

SUN BOWL FOOTBALL Will Be Played

EL PASO, Tex., Nov. 23 (AP)—The annual Sun Bowl football game was off again today after being cancelled because of the war.

The Bowl committee decided to hold the annual New Year's Day game on the condition that all proceeds other than team expenses go to some Army or Navy relief fund.

The committee spokesman said the Bowl selections may be made either from top-ranking service teams, from a service team and the Border Conference football champion, or from two collegiate elevens.

# Seek Way to End Confusion on Boxing Titles

NEW YORK, Nov. 21 (AP)—In an effort to avoid dual championships, President Abe J. Greene of the National Boxing Association said today he plans to confer with the New York State Athletic Commission on a practical way of settling the confusion arising out of the recent retirement of Champion Sammy Angott.

Greene points out that in the N.B.A.'s last ratings, Alie Stolz and Tippy Larkin were classified as "regional contenders."

"Since then Beau Jack has whipped Stolz and moved up in the picture."

NOTRE DAME'S STAR HOBBIES

NOTRE DAME, Ind., (CP)—Most of Notre Dame's football players prefer outdoor sports as hobbies, but a number go in for more intellectual pursuits.

# Junior Board to Lease Rossland Rink

ROSSLAND, B.C., Nov. 23—An application was received by the City Council at a meeting tonight from the Rossland Junior Board of Trade asking permission to lease the skating rink for the coming season. Ald. William Cunningham and Ald. Fred Attridge were named a committee to draw up a lease similar to that of other years.

# TORONTO (CP)—Jimmy Trotter, one of Moose Jaw's younger hockeyists, has joined the Navy. After a season in Saskatchewan junior ranks, Green, 19-year-old forward broke into senior company with Hollinger Greenhorns of the Northern Ontario Hockey Association, and last season played with Sydney Monarchs in the Cape Breton League.

# "We'll hold your place"

IN EVERY city, town and village throughout Canada today there are gaps where once were young men. They heard a call and put on navy blue, khaki, horizon blue, and they have gone, answering a call...

They are missed—missed not only in their homes but also in the business places which once they filled.

They have gone from every institution in Canada; but from none more than from the chartered banks. There is hardly a branch office from coast to coast which is not today the poorer—and the prouder—for those who thus laid down their pens.

But every branch manager, as he shook parting hands, had this consolation: he could say, "We'll hold your place. It will be waiting for you when you come back. That is a pledge."

So it is the part of those who remain to serve their country in such a way that the promise may be kept: "We'll hold your place."

There were 14,433 single and married men from 18 to 45 years of age employed by the Chartered Banks at the outbreak of war. 5,053—or 35% of them had joined the armed forces by October 31st, 1942; 1,243 others who joined bank staffs since war began have also enlisted.

**Contract...** By *Shepard Barclay*

**BLACKWOOD PLUS SENSE.** INTELLIGENT conventions like the Blackwood method of slam bidding were never meant by their originators to be a substitute for common sense. Rather, they are intended as an aid to it. If your partner is using Blackwood, please realize that there are hands on which you should probe for the possibility of a slam by some other method. Most emphatically in this class are some of the deals which favor you with terrific long-suit and short-suit values.

Hearts to show two aces, poor North was in a quandary. Indeed, he didn't know which two aces South held. If hearts and diamonds, even a grand slam might be in the cards. But if South had the two minor aces, there might not even be a small slam. Taking a chance, North bid 6-Spades, and was down two tricks when East led the heart J.

After South's 3-Spades, North should have invited slam by bidding his blank club suit—a particularly enlightening bid if you are using Blackwood, as it betokens extreme distribution and asks your partner what aces he has elsewhere. South in this case would have shown his diamond A. North then should sign off at 4-Spades, and put it up to South if he had a second-round stopper in hearts to bid small slam, an invitation which he would have refused by passing the 4-Spades. With the heart A instead of the club A, South should have then bid grand slam, if his main other strength were outside of the club suit.

**Dealer: North. Both sides vulnerable.**

North	East	South	West
1 ♠	Pass	1 ♣	Pass
4 NT	Pass	5 ♣	Pass
6 ♠			
2 ♠	Pass	3 ♣	Pass
4 ♣	Pass	4 ♣	Pass
4 ♣			

How much better the second bidding is on this deal! The first table bidding is what actually occurred in a rubber game. As soon as North heard about his partner's strong support for spades, he properly became slam-minded. But see what he did about it. By force of habit, he used his Blackwood 4-No Trumps to ask South how many aces he had.

After South answered with 5-

### Market Trends . . .

LONDON, Nov. 23 (CP)—The stock market closed with a firm undertone today although trading dwindled after execution of orders accumulated over the weekend.

In the foreign list a feature among European bonds was strength in German issues, while Australians also rose. British funds were maintained at the close.

NEW YORK—More good war news, especially the big Russian offensive at Stalingrad, served to lower stocks with an armament rating today but many leaders in the peace division did little more than display mild resistance.

Both Alaska Juneau and Dome Mines touched new highs for the year in the forefront of the session but failed to follow through.

TORONTO—Gold shares were in active demand. Trading maintained a fairly active tempo and volume was around 210,000 shares.

MONTREAL—Individual securities staged rallies.

Canada Northern Power, Montreal Power and Quebec Power edged up a bit in utilities and Brazilian was a loser.

Gold was stronger and industrials irregular in transfers up to the fifth hour on the curb market.

VANCOUVER—The stock market turned stronger with gold, base metals and oils showing firmness.

Bayonne up 2 at 4, Cariboo up 5 at 5, Hedley Masco up 3 at 3, Kootenay Belle up 1 at 20, Pioneer up 8 at 1.23.

WINNIPEG—Wheat trade was quiet with only minor quantities of the December future changing hands. The December position closed unchanged at 90 1/2 cents a bushel.

A large local buyer took oats and barley futures while spreading in oats involved sales of the December position against purchases of the May.

CHICAGO—Reversing Saturday's advance, rye today led a general grain price retreat with losses amounting to more than a cent a bushel at times.

Wheat closed 3/4 cent lower than Saturday.

### "Soul and Body" Is Church Theme

Christian Science Churches all over the world had for the subject of their Lesson-Sermon on Sunday "SOUL AND BODY."

The Golden Text was: "Know ye not that ye are the temple of God, and that the Spirit of God dwelleth in you?" (1 Cor. 3: 16.)

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "This I say then, Walk in the Spirit, and ye shall not fulfil the lust of the flesh." (Gal. 5: 18.)

The Lesson-Sermon also included the following passage from the Christian Science textbook, "Science and Health with Keys to the Scriptures" by Mary Baker Eddy: "We must destroy the false belief that life and intelligence are in matter, and plant ourselves upon what is pure and perfect. Paul said, 'Walk in the Spirit, and ye shall not fulfil the lust of the flesh.' Sooner or later we shall learn that the fetters of man's finite capacity are forged by the illusion that he lives in body instead of Soul, in matter instead of in Spirit."

### Imperial Bank Profits Less; Assets Greater

TORONTO, Nov. 23 — Imperial Bank of Canada financial statement for the year ended Oct. 31, 1942, shows profits of \$850,149, a reduction of about \$36,000 after providing for Dominion taxes higher by \$48,000 over the year before. Total assets are substantially increased, standing at \$243,562,471 compared with \$208,867,330 a year ago.

The increase in total assets is in the highly liquid assets, currency or its equivalent, and in holdings of Dominion and provincial securities maturing in less than two years. Current loans at \$75,468,640 are lower than last year by \$4,130,654, a condition ascribed to the lateness of Western harvests and consequent retarded demand for grain loans.

With the reduction in dividend rate common to the banks, the requirement under this head by Imperial in the year under review was \$685,000 compared with \$700,000 formerly. The amount written off bank premises is the same as formerly, \$150,000, and the balance carried to profit and loss is \$21,149, compared with \$22,191 a year ago. The balance forward now is \$19,991, compared with \$68,842.

There is a great increase in deposits. Deposits not bearing interest now total \$82,122,050, an increase of more than \$28,000,000, while deposits bearing interest are up nearly \$5,000,000 to \$100,378,231. Provincial deposits are up about \$5,000,000 and Dominion deposits up about \$1,000,000. Thus total deposits have grown to \$217,352,816, compared with \$179,329,435 a year ago. Total liabilities other than to shareholders are now \$225,160,921, compared with \$157,430,382 formerly.

With the substantial increase in Government securities and similar assets, the liquidity of the bank is enhanced over the previous year. The ratio of liquid assets to total liabilities to the public is now 70 per cent, compared with approximately 80 per cent a year ago.

### Calgary Livestock

CALGARY, Nov. 23 (CP)—Week cattle 1080, calves 71, hogs 210, sheep 545. Today, 23 cattle.

Medium to good steers 9-9.75, good butcher heifers 9-9.50, common to medium 8-8.75. Good cows 7.50-8, common to medium 6-7, canners and cutters 4.50-5.50. Medium to good calves 8-9.50. Good stocker and feed steers 9-9.50, common to medium 8-8.75.

Hogs Saturday 15.50 for B-1 yards and plants, sows 9.75-9.85 live weight at yards. 11.80-12.50 dressed weight yards and plants. Good lambs 10.25-10.50.

### STOCKHOLM (CP)—In an effort

to stimulate the fishing industry the Government has announced that Swedish fishermen will receive an exemption of 30 per cent of the war profits tax on surplus income.

### Bank of Commerce Total Assets Reach New High

The highest total assets in its 70 years' history are reported by The Canadian Bank of Commerce in its annual statement covering the financial year which ended 31st October last. Total assets amounted to \$88,090,544, or 16 per cent higher than those of a year ago, namely, \$761,497,978. Total quick assets, comprising cash and items readily convertible into cash, amounted to \$591,303,300, compared with \$427,452,071 in 1941. Current quick assets represent 70.70 per cent of total liabilities to the public, compared with 69.28 per cent a year ago.

Cash and bank balances totalled \$147,996,232, an increase of \$28,739,605, and representing 17.71 per cent of total liabilities to the public, compared with 16.79 per cent last year. The most important change was a rise of \$15,507,232 in deposits with the Bank of Canada, which amounted to \$68,271,434.

Total security holdings stood at \$416,952,558, an increase of \$129,051,892, or nearly 45 per cent over a year ago. The major item was Dominion and Provincial Government securities maturing within two years and with a market value of \$252,701,841, compared with \$99,238,393 a year ago. Government securities with longer maturity fell from \$137,475,207 to \$119,779,224. Canadian municipalities from \$8,424,829 to \$5,847,659, public securities other than Canadian from \$28,945,912 to \$26,799,824, and all other securities from \$12,816,324 to \$9,823,709. Call loans in Canada fell from \$8,445,204 to \$6,619,936, while those outside rose from \$11,927,373 to \$18,734,573.

On the liabilities side of the balance sheet total deposits amounted to \$792,559,584, an increase of \$124,334,333, or 16 per cent over a year ago. The largest item was interest-bearing deposits by the public, amounting to \$379,220,492, an increase of \$27,791,536. An even greater increase, one of \$96,333,073, is shown in non-interest-bearing deposits, which stood at \$418,401,097.

The net profit for the year is \$2,836,053 (as compared with \$3,013,153 in 1941) and after providing for dividends of \$2,250,000, transfer to Staff Pension Fund of \$258,705 and writing \$350,000 off bank premises the balance carried forward in Profit and loss account is \$371,510. The net profits are after provision for Dominion Government taxes amounting \$1,830,858, of which \$46,707 is refundable under the provisions of the Excess Profits Tax Act.

### Bus Industry to Advise on 50-Mile Limit

TORONTO, Nov. 23—A largely attended meeting of the executive of the Dominion Association of Motor Coach Operators was held today in Toronto at which the recent order of the Transit Controller, limiting bus travel to fifty miles, was fully discussed.

The Association felt that it was essential that the industry continue to cooperate as fully as possible with the Government in all matters relative to its present national emergency.

The order under review, however, was considered too drastic to meet all essential public requirements without substantial amendment in many obvious instances.

The Association appreciated, however, that the terms of the Order provided for its variations as and when required, and that the Government had signified its willingness to appoint a committee to be nominated by the Association to act in an advisory capacity with the Transit Controller, as to such variations.

The Association is submitting therefore, to the Government, the names of certain of its members to act in such capacity.

### CONDENSED BALANCE SHEET, 31st OCTOBER, 1942

The General Manager,  
Imperial Bank of Canada,  
TORONTO

We report that we have examined the above condensed Balance Sheet as at 31st October, 1942, and have compared it with the books at the Head Office and with the certified returns from the branches. We have obtained all the information and explanations that we have required and in our opinion the transactions of the Bank which have come under our notice have been within the powers of the Bank. In our opinion the above Balance Sheet discloses the true condition of the Bank, and is as shown by the books of the Bank.

### Sask. University Students Must Leave for Army

SASKATOON, Nov. 23 (CP)—The National War Services Board of Saskatchewan, today ended its questioning of Saskatchewan university students who had defaulted in military training and ordered an undisclosed number to cease their studies and report to a basic training centre for compulsory service.

Some of the students have already left the University. Others will leave later. Sixty students were questioned.

# Stuttgart Is Given Lashing From the Air

LONDON, Nov. 23 (CP)—The German industrial and communications centre of Stuttgart was attacked last night by a strong force of British bombers, and the Air Ministry said that low-level observation showed that the results were good.

"Ten of our bombers are missing," the Ministry said.

Canadians participated in the Stuttgart raid.

The bombers were reported by Sgt. Robert Donald of Calgary to have "started gorgeous fires."

An R.C.A.F. communique issued late today said no Canadian aircraft was missing.

Fighter Command aircraft attacked freight trains in Northern France and fired an Axis supply ship in the English Channel, further blows against Hitler's crippled transport systems.

The Berlin radio quoted a DNE dispatch which said incendiary bombs had caused slight damage in one town of Southern Germany, but did not identify the target.

The capital of Wurttemberg province, Stuttgart is approximately 400 miles Southeast of Dover. A centre of aviation and electrical industries, it was attacked three nights in succession by the R.A.F. last May.

Submarine and aircraft engine plants are located at Stuttgart. It contains the headquarters of such

concerns as Bosch, makers of ignition parts; Daimler-Benz, which manufactures planes and truck motors; and Hirth, which makes precision equipment.

The city is also an important railway junction. The raid last night was its 16th of the war. The British description of R.A.F. bomber squadrons as "a strong force" generally means a formation of hundreds of the four-motored explosive carriers had been used.

At least two Canadians were on special reconnaissance duties during the Stuttgart attack, one of them being Sgt. Donald and the other H. K. Stinson of Toronto, captain of a bomber which remained over the city during most of the operation.

Stinson said many fires were burning when he left and one of them was "really a huge inferno." His aircraft returned with 25 holes punched by what apparently was a German anti-aircraft battery.

Pit. Sgt. Ed Webster of Vancouver, a bomb stimer making his first trip was unharmed by the experience which he described simply as a "rain dog."

Another Lancaster of which Pit. Sgt. Fred Kruger of Bode, Man., was captain fought a duel with six batteries and searchlights on its homeward journey. Its gunners, Sgt. Charles Trudell of Windsor, Ont., and Sgt. Larne Thompson of Toronto, extinguished at least one light.

In the fighter attack on the Netherlands Flt. Lt. Ian Arthur of Winnipeg and P. John Robert Spatell of Kitchener, Ont., smashed up a train, some barges and a hot South of the Frisian Islands near Hargen and Petten. It was Spatell's first operational trip and he returned with two holes in his aircraft.

## New Fernie Mine to Produce 4000 Tons Coal Daily

Installation of a new colliery near Fernie by Crow's Nest Pass Coal at a cost of around \$1,250,000, is one of the major undertakings in B. C. mining in the present year. The new colliery is being planned for an output of 2000 tons a shift or 4000 tons a day of 16 hours. The first output will be conveyed to the Coal Creek tipple to supplement the No. 1 East production. Later, as the new colliery is developed and a new tipple is constructed, No. 1 East output will be conveyed to it to supplement the Elk River valley output. The idea is to finally abandon the No. 1 East Mine.

The new coal seams start from outcroppings near Morrissey where the first stakes were located in the Crow's Nest Pass coal field and slope to where the new tunnels are being opened. This is about 800 feet above the floor of the valley.

**HIGHLY MECHANIZED**

The new mines will be mechanized to a much greater degree than has even been attempted in the West before. It is estimated that it will take electricity to the extent of 4000 horsepower to operate them. Coal will be let down the mountain by two 1000 unit retarding conveyors operated by a 50 h.p. motor. A 14 inch cable with 12-inch buttons at intervals of four feet will regulate the flow of the coal. The cable will have a speed of 125 feet per minute.

A new preparation plant will be installed. It will be 100 feet by 100 feet, 67 feet high, it will take coal from 7 inches to one-eighth of an inch in size. There will be seven loading tracks, three loading booms and three boxcar loaders. It will take 800 hp. to operate this preparation plant. The building will be constructed with steel frames. This cost of the mechanized equipment for this plant is estimated at \$350,000. A machine shop 60 by 100 feet, office and warehouse and lamp house, 60 x 100 feet, 1 feet high, are all part of the new construction and will cost \$115,000.

A railroad spur and yard covering 12,000 feet and a 75-foot steel bridge across Coal Creek will also be constructed.

## U. S. Bombers Smash Haiphong Docks; Big Vessel Sunk

With the American Air Force in China, Nov. 23 (AP)—A U. S. bomber and fighter mission has smashed the dock and warehouse at Haiphong in Japanese-occupied Indo-China yesterday and on the way down the coast sank a big Japanese ship of 12,000 tons which probably was a troop transport but may have been an aircraft carrier.

I saw the bombs go down on the big gray ship, surprised at anchor close by an island eight miles out in the Gulf of Tonkin. One 500-pounder apparently dropped down a hatch and she blew up.

The explosion blew out the right side of her stern, three other direct hits smashed directly on her deck, other near misses sent up geysers alongside, and as we left the vessel was afire and sinking rapidly.

The fighter escort dived, machine-gunned and did a little dive bombing as well.

Two other ships, one of 6000 to 8000 tons and the other of about 1500 tons, also were badly damaged in the raid, and the 14 tons of bombs and 6000 rounds of ammunition that were used on the spray devastation in the Haiphong dock area.

A Vichy broadcast quoting Japanese dispatches from Indo-China said 43 persons were killed and 41 injured at Haiphong.

Early today in retaliation the Japs made a raid on an airfield in Kwangai province but without doing much damage.

American night fighters went up and shot down two of the bombers and possibly a third when a flight of three was intercepted.

One U. S. plane was lost but the pilot is safe.

Brig. Gen. Claire Chennault, Commander of the American air force in China, had expected the Jap attack and laid a trap.

All American planes returned except one from the Haiphong raid despite heavy calibre anti-aircraft fire which bounced the big bombers around as they made their runs over the big ship at 14,000 feet.

A pursuit plane was forced to land in Chinese territory but the pilot of that plane too is safe.

## Gyros Present Farewell Gift to Arthur Smith

A farewell gift was presented to Arthur Smith, who leaves shortly for Calgary, by the Nelson Gyro Club Monday night. F. H. Smith made the presentation on behalf of the Club, voicing regret that they were losing a member, but offering the Club's congratulations on promotion in his work.

Mr. Smith for some time has served as Treasurer, and his duties for the balance of his term will be taken over by F. H. Smith, a former Treasurer.

District Governor Leslie Reid of Trail conducted the initiation of Joseph Longden as a member. Neils Eider, Fred Clark, and James Vipond of the Trail Gyro Club and ac. Frank Hulms of Medicine Hat were guests.

John Robert Spatell of Kitchener, Ont., smashed up a train, some barges and a hot South of the Frisian Islands near Hargen and Petten. It was Spatell's first operational trip and he returned with two holes in his aircraft.

## Salmo Tungsten Discovery Likely to Be Best Tungsten Deposit on Continent Vancouver Board Is Told

Giving a Vancouver Board of Trade audience an insight into the achievements of Canada's mining industry in wartime, Robert A. Bryce, president of the Canadian Institute of Mining and Metallurgy, lifted the curtain of wartime secrecy only sufficiently to let it be known that at Salmo there is being prepared for production what has every indication of being the best tungsten deposit on the North American continent. It is not only high-grade but gives promise of large tonnage, he said.

In reviewing what the mining industry had accomplished, both in producing war metals and strategic minerals and in providing men for technical wartime services and for the fighting forces, Mr. Bryce, who is chairman of the Wartime Metals Advisory Board, did not overlook the problems of the industry. He is a consulting mining engineer of long standing and is president of Manassas Gold Mines. His message to the gold mining industry was that these mines have likely seen the worst of their labor shortage trouble. In his opinion the gold mining situation is as bad as it is going to be for some time.

**WARTIME ROLE**

In reviewing the wartime role of

the Canadian mining industry, Mr. Bryce said representatives of the industry throughout Canada had approached the government in the first week of the war with an offer of its services. The industry was told to produce all the base metals possible and all the gold possible as well. The government pressed for maximum gold output to help balance its international accounts. The speaker paid tribute to the base metal mines of the country. These companies had expanded production and depleted ore reserves, selling their output at pre-war prices. In addition they had through research, introduced new products. In this connection he instanced particularly the output of tin by Cons. M. & S. Company at Kimberley and the vast expansion by International Nickel at Sudbury.

When the war took a turn for the worse after Pearl Harbor the country looked to the mines of Canada to find strategic minerals. Within the past year metals had been found never before known to exist in Canada. Barite is now being produced in Nova Scotia and shipped to U.S.A. and to Jamaica.

In Quebec the great aluminum industry has expanded tens of millions on expansion and has developed an interior route to bring its bauxites from South America. An additional 1,000,000 horse power is being developed in a new hydro plant to meet the needs of this industry. In Quebec also has been developed a molybdenum mine second only to the Climax operation in U.S.A.

**MICA DISCOVERY**

In Northern Ontario at North Bay has been found the most remarkable mica discovery in North America of a type most desired for the electrical industry. This means a new commercial enterprise for Canada.

Dr. Bryce told also of the great magnesium deposit at Renfrew and of the installation of a 10,000,000 plant using the process developed by Dr. Leslie Pigeon. Three of the biggest magnesium plants in U.S.A. he said, are copying this process.

In Manitoba a chromite discovery looked important. The ore appeared to be what he termed a "difficult mixture" but he had faith the technicians would work a process to make a commercial enterprise for production of a very necessary mineral.

In B.C. the performance of Cons. M. & S. Co. in producing mercury had established a very important industry for war and peace, making Canada independent of foreign sources.

In referring to the tungsten discovery at Salmo now being prepared for production Mr. Bryce credited Dr. J. F. Walker, deputy minister of mines, with drawing attention of the metals controller and the Metals Advisory Board to the important possibilities of this occurrence.

## Job Seekers Must Show Proof of Call Up Exemption

OTTAWA, Nov. 23 (CP)—Men seeking employment through National Selective Service will have to produce proof they have completed compulsory military training. Labor Minister Mitchell announced today.

This, he said, in a statement, will be one of the results of coordination of the mobilization branch of the War Services Department with National Selective Service.

Mr. Mitchell announced the transfer of the mobilization branch to National Selective Service will take place on Dec. 1, as previously planned, and thereafter will be coordinated with other selective service work under supervision of Arthur MacNamee, Associate Deputy Minister of Labor.

"This will be an effective method of discovering men who are delinquent in this respect," said Mr. Mitchell.

"It is also the intention to ask employers to check over their payrolls and satisfy themselves that employees have complied with these regulations. Procedures will be worked out in detail at once by Maj. Gen. H. J. Riley and Maj. Gen. T.L. Tremblay in cooperation with officials of the employment service."

## Tungsten Ores are Being Treated in British Columbia

Following are some of the British Columbia plants in which tungsten ores are being, or will in future be treated:

War Metals Research Board, University of B. C., Vancouver.

Department of Mines, Victoria, in cooperation with War Metals.

Red Rose (C. M. & S. Co.), Hazelton.

Bralorne Gold Mining Co., Bridge River.

Columbia Tungsten at Wells (mill not in operation, but may be modified and used for customs ore from Cariboo mines).

C. M. & S. Co., small unit at Kimberley.

Regal Silver at Albert Canyon, near Revelstoke (small underground mill).

Emerald Mine near Salmo (probably to be erected in near future).

## Gyros See Films District Beauty

Scenic beauty of the Kootenay was portrayed in fine colored slides by Gyro James Vipond of Trail to the Nelson Gyro Club Monday night. Scenes of the Gyro Park at Nelson and at Trail, of the Gyro Pool at Cranbrook, and of the Nelson Club's Trout Derby as well as of many district beauty spots were thrown on the screen.

Adding greatly to the entertainment were two splendid piano duets by Miss Jean Erskine and Robert Emory. A. C. Emory was Program Chairman.

Interpreting The War News

By **KIRKE L. SIMPSON**  
Associated Press War Analyst

Even before the allied offensive in Africa reaches its crisis, a synchronized Russian thrust in the Don-Volga corridor has put Hitler on notice anew that his greatest immediate danger lies there, in the East.

By his own admission, that Volga bastion, the Stalingrad salient, is vital to the whole concept of his Russian campaign. If it falls an Axis Winter retreat in Russia fraught with deadlier peril than that of last year would seem inevitable. And Russian claims of startling advances on both sides of Stalingrad to threaten entrapment of the whole Nazi siege army in the Don-Volga corridor go unchallenged by Berlin.

It may take time for the Anglo-American offensive across the Mediterranean to attain their first objectives completely. If the Russians succeed in closing the huge trap they have sprung on the foe in the Stalingrad salient, however, the collapse of Hitler's whole East front from the Don-Donets basin to the central Caucasus could follow within days.

His retreat may already have started in Russia a week earlier this Winter than it did last year on Nov. 29 at Rostov, Moscow versions of a deadly pincer movement already across main Axis road and rail supply lines far in the rear of the Stalingrad front itself sound convincing. They are specific, not general, and picture the two prongs of the great trap converging across the Steppes and less than 50 miles from a junction.

Soon or late, there seems small chance of an Axis escape from utter disaster in Africa. Just where and how Rommel has elected to make his last stand or attempt flight by sea cannot yet be certainly discerned.

There are indications that British forces hard on his heels are already thrusting at his El Aghella defence line both frontally and around its Southern flank where Free French forces from Lake Chad are also coming up. The Anglo American siege of Bizerte and Tunis is impending to the West if not already set. Free African forces are rendering the allies vitally important aid in delaying or preventing a consolidation of Axis troops for a defensive stand in either direction.

And Dakar apparently has been taken beyond reach of the Axis. Admiral Darlan, who went over to the Allies after the North African occupation said in a broadcast from Algiers that all of French West Africa including the port of Dakar has placed itself freely under my order."

A number of advantages can accrue from this. Dakar ceases to be a potential springboard for an Axis jump across the South Atlantic or a base for its raiders, the port can be of value for supplying allied ships and planes which control the South Atlantic and the manpower and resources of West Africa can be added to the growing pool of United Nations strength.

If only as a new example of co-ordinated United Nations offensive action on a world-wide military game board the Russian advance West of Stalingrad is notable. It is timed to catch the foe in process of the readjustment of his forces necessitated by the double-headed African campaign. If it succeeds, however, Nazi losses in men and war gear in the Stalingrad salient probably would greatly exceed those in Africa and Hitler's grip on a treasure house of war resources in the Ukraine and Caucasus would be loosened if not broken at a blow.

## W. Hopkins of Cranbrook Dies

CRANBROOK, B. C., Nov. 23 (CP)—William Hopkins, 31, resident of Cranbrook for 27 years and a former accountant, died in the tourist camp cottage in which he had his home. He was an adopted son of David Hopkins of Ta Ta Creek.

During his youth Hopkins was an enthusiastic hockey player but during a game in Ottawa received such severe injuries he lost the use of an eye and a leg and eventually his hearing. A daughter, Mrs. Arthur Nicol, Jr., lives in Calgary.

## A. McPHAIL, B.C. PIONEER DIES

KIMBERLEY, B. C., Nov. 23 (CP)—Alex McPhail, 77, pioneer British Columbian who was a former stage driver in the Cariboo, is dead here. Until recently he was a resident of Quesnel. He leaves his widow, a son Richard and two daughters, Mrs. Leclerc of Vancouver and Mrs. Ingram of Wells, B. C.

## ROSSLAND TO BUY MOVIE PROJECTOR

ROSSLAND, B. C., Nov. 23—A projection sound machine complete with accessories, valued at approximately \$600, is to be purchased without delay. It was decided tonight by the Rossland City Council. The decision was made following the study of descriptive matter pertaining to projection machines.
