Blaylock Reports ...

Sullivan Mine Has New Vein of Higher Values

MONTEREAL, April 29 (CP)—The Dominion Government has been "very wise in granting certain tax savings in connection with exploration expenses incurred in searching for base metals and strategic minerals," S. G. Blaylock said in his presidential address today at the annual meeting of Consolidated Mining and Smelting Company of Canada, Limited.

Mr. Blaylock added: "However, the present level of the excess profits tax and price controls make it difficult for mining companies to increase production of base metals from established mines. While the excess profits tax exempts the profits derived from the operation of new mines, there is no relief in connection with any profits arising from increased production from mines which have been in operation for about a year or longer."

As the exploitation of any ore body is definitely a one-crop operation, Mr. Blaylock declared, "it is evident that there is little incentive to the mining industry to increase the production of established base metal mines."

Mr. Blaylock reported that profits of the Company for the first three months of 1943 were at the same rate as for the first quarter of 1942 and in fact were a little higher.

Commenting on diamond drilling being carried out at depth on the East side of the fault on the Eastern margin of the Sullivan base metal mine in British Columbia, Mr. Blaylock said that two drill holes indicated a vein about 40 feet thick, with values higher than those in the ore now being mined.

"These indications were of great importance, Mr. Blaylock stated, because any ore indicated East of this fault in the upper levels had been consistently low in grade.

Development results at the Red Rose tungsten mine continued to be very satisfactory, Mr. Blaylock remarked, and, owing to the importance of tungsten in the war effort, consideration was being given to another increase in production at this property.

Two of the new mercury prospects North of the Pinchi Lake property in British Columbia, promised to develop into good mines, Mr. Blaylock said.

Allied Bombers Raid Wilhelmshaven; Mines Laid in Baltic

LONDON, April 29 (CP)—R. A. F. bombers attacked the German naval base of Wilhelmshaven last night and also carried out unprecedented mining operations in Baltic waters.

Twenty-three bombers were reported missing from the missions, which marked the resumption of large-scale raids on the continent after a one-night lull.

The emphasis placed by the Air Ministry on the night's mining operations was taken as an indication

of a campaign to disrupt German submarine training in the Baltic and interfere with Nazi preparations for the next phase of the war on the Eastern front.

The Berlin radio acknowledged that "enemy" planes had dropped high explosives and incendiaries on the Northwest German coast during the night and claimed that eight of the raiders had been shot down.

The Germans also acknowledged that East Prussia had been bombed last night—an acknowledgement which was taken in London as an indication that the Russian Air Force had been busy again.

German planes meanwhile, were over Britain for the first time in four nights, but the raids were on a small scale.

Bombs were dropped at several places in Southern England but they caused little damage and no casualties. One enemy raider was reported shot down.

Hullfaxes and Wellingtons of the Canadian Bomber Group were engaged in mine-laying operations "on a very large scale, particularly in the Baltic Sea," the R. C. A. F. communiqué said. Three of the missing bombers are Canadian.

Canadians in the R. A. F. were included in the force which attacked Wilhelmshaven.

Today a dispatch from Folkestone said that big formations of high-flying bombers streamed across the Channel this morning in the direction of Abbeville and Boulogne, in Northern France, indicating a resumption of round-the-clock pounding of the continent.

Canada's Effort Now Equals That of Britain

TORONTO, April 29 (CP)—Canada's war effort, measured in terms of money, has now reached a pitch of intensity similar to Britain's. Hon. Ian Mackenzie, Minister of Pensions and National Health, told a service club in a Victory Loan address here today.

"Nobody considers that Britain's war effort is less than the maximum possible effort that the genius of her leaders is capable of organizing," he said.

Mr. Mackenzie reviewed the war expenditures, as itemized in the Dominion budget, drew a comparison between them and the British budget and detailed where Canada's money goes.

Mr. Mackenzie said dictators do not borrow from their subjects—they seize or confiscate.

"It is only in a freedom-loving land such as Canada, with free parliamentary discussion, with free election of governments, that it is possible to finance war by relying upon the free and voluntary subscriptions of the people."

Respirators for Children Arrive

VANCOUVER, April 29 (CP)—First supplies of the "Mickey Mouse" type respirator designed for children from two to 4½ years of age have arrived in British Columbia and are available to the public, the Provincial Civilian Protection Committee announced today.

In the centre of each mask at nose position, is a flat rubber nose-piece which vibrates violently when the air is expelled, distracting children from the discomfort and dislike of wearing the respirator.

The Committee sells the respirators at cost, as it does larger sizes for adults. It was announced today that at a later date it was anticipated that infants' gas bag respirators would be available.

HOT LUNCHEON ROLLS
1 cup milk, 1 cake compressed yeast, 3 to 4 cups flour, enriched, 2 tablespoons butter or margarine, 2 tablespoons sugar, 1/2 teaspoon salt.

Crumble yeast into mixing bowl, add 1 tablespoon sugar and stir in milk which has been scalded and cooled to lukewarm, then blend in 1 cup flour. Cream fat with remaining sugar, add to butter, blending it in well, stir in egg beaten with salt. Stir in remaining flour, adding enough to make a soft dough. Turn onto a floured board and knead lightly until smooth, then return to bowl which has been lightly greased. Turn dough over in bowl and grease top, then cover and let rise until doubled in size. If the dough is to be baked immediately, turn onto a floured board, let stand 10 minutes, then shape into rolls and place on a greased sheet. Let rise until almost double in bulk and bake in hot oven (425 degrees F.) 20 to 25 minutes. If it is to be used as refrigerator dough, let rise, punch down, then cover lightly and store in refrigerator until needed. When you want to use it, remove to board, shape into rolls, let rise and bake.

Rossland Orders Street Work; Sells, Leases Lots

ROSSLAND, B.C., April 29 — Ald. A. C. Ridgers, Chairman of the Board of Works, reported that between April 11 and 28, 108 man days of work had been spent on city work.

On recommendation of the Board of Works, the Council authorized: Widening of the road South of the Irvin Hotel between Spokane and Washington Streets; Renewing the timber cribbing holding the bank on Le Roi Avenue below the Irvin Hotel; Regrading Park Street road from Coronation Heights Roadway to Trail Highway, eliminating two bad mud holes.

City Engineer, R. W. Haggan was asked to prepare a map showing city sewers.

LANDS TO CHANGE HANDS
Reporting for the Property Committee, Ald. Ridgers requested that H. Linquist be allowed to lease sections of lots adjoining his property at \$1 each per year, with the first option to buy, this on condition that he clear the lots within a reasonable time. They are situated on Le Roi Avenue.

Ald. Ridgers requested the Council to sell three lots to H. E. Nixon, of the four requested at last council meeting, at \$15 each; the buyer to pay cost of transfer. These lots are located on Cook Avenue West and above the High School, the condition of sale being that Mr. Nixon clear them within one year. The city wishes to retain one lot which might be used as a roadway.

The Property Committee recommended the city lease to H. E. Smith at \$1 each per year, lots located on the South side of Le Roi Avenue, between Washington and Spokane Streets, for which he applied on condition of clearing in a reasonable time.

Regarding the request of J. H. Eder to purchase one lot East of Butte Street the Property Committee recommended selling this lot at \$10 the buyer to pay cost of transfer and clear the land soon.

Bombs Dropped on Swedish Bases

STOCKHOLM, April 29 (AP) — The Foreign Office announced today that three bombs from an unidentified plane fell at 1 a.m. on the island of Verken outside the Swedish naval base of Karlskrona.

First reports said there were no damage of casualties.

The Anti-Aircraft Defence Command began an investigation of the bomb fragments in an effort to determine the nationality of the plane.

A communique said the plane came from the East, dropped a parachute flare and then dropped the bombs.

(Karlskrona lies on the Baltic 200 miles by rail South Southwest of Stockholm. It had been the headquarters of the Swedish Navy since 1800. The city has a navy arsenal and hospital. Its dry docks are cut out of solid granite.)

Dr. P. Watson, 30 Yrs. in Windermere, Dies at Cranbrook

INVERMERE, B. C. — Dr. P. Philip Watson Turnor, Windermere Valley resident for 30 years, died Friday at the St. Eugene Hospital at Cranbrook.

Dr. Turnor was well known here, being local telephone agent for some years previous to his retirement in 1938. During the First Great War he served the community as medical practitioner.

Born at Gibraltar in 1863, part of his childhood was spent at Bermuda. Later he attended Wellington College, England, and took his medical training at St. Georges Hospital, London. He received the L.R.C.P. in 1892 and the M.R.C.S. in 1893, practicing his profession in England for some years before coming to Canada. He was a Captain in the R.A.M.C.

In 1911 he came with his family to Wilmer, B. C., where he acquired land and lived for some years before moving to Invermere in 1918.

He is survived by his wife and two daughters, Miss Madeleine of Skookumchuck-in-the-Rockies and Miss Effie at home.

An uncle, Philip Turnor, was an astronomer with David Thompson's party and it is possible that he visited the Windermere Valley with the great explorer.

Few Serious Cases of Juvenile Delinquency in B. C.

VANCOUVER, April 29 (CP) — Due to abnormal war conditions, the present rate of juvenile delinquency in British Columbia is slightly higher than in normal times, R. W. Hughes, Chief Probationary Officer for Vancouver, told delegates to the B. C. Parent-Teacher Federation, during a round-table discussion of the problem of juvenile delinquency here.

Mr. Hughes pointed out that most cases of juvenile delinquency were not of a serious nature and could be traced directly to lack of discipline.

"Out of 78 girls and 814 boys charged with juvenile delinquency in 1941, less than 23 of each had to be sent to industrial schools," he said.

LONDON (CP) — Polish children separated by the Germans from their parents nearly 200 miles away arrived in Warsaw frost-bitten, diseased and lice-ridden, and it is believed their ultimate destination is Sobibor, notorious Nazi concentration camp, say Polish authorities.

NATIONAL SELECTIVE SERVICE

Men Born From 1902 to 1924 Must Prove Compliance With Mobilization Regulations When Asking Permits to Seek Employment

BY order of the Minister of Labour issued pursuant to National Selective Service Civilian Regulations, (P.C. 246, January 19, 1943) an important change is now made in regard to the issue by Employment and Selective Service Offices, of permits to seek employment.

After April 30, 1943, a permit to seek employment may be refused to any male person born in any of the years from 1902 to 1924, inclusive, who has reached age 19, unless such person presents satisfactory evidence that he has not contravened the provisions of National Selective Service Mobilization Regulations (that is, Military Call-up Regulations). Evidence required is to be in one of the following forms:

- (a) a certificate of discharge from His Majesty's Forces after service during the present war; or
- (b) a rejection slip issued by the Army on application for enlistment; or
- (c) a certificate of medical examination issued by the Registrar of a Mobilization Board; or
- (d) a postponement order certificate issued by the Registrar of a Mobilization Board; or
- (e) in the case of a male person born in any of the years from 1902 to 1916 inclusive, a statutory declaration on a form available in the employment office, that he is not a "single person" under Mobilization Regulations.

Documents referred to in (a), (b) and (c) above need be presented only the first time a permit is sought after April 30, 1943, unless subsequently asked for by a Selective Service Officer. Documents referred to in (d) and (e) above must be presented each time a permit is applied for.

Two points under the new Regulations are to be specially noted:

- (1) Male persons applying for permits by mail should forward with their applications the evidence required (except (a) above).
- (2) A Selective Service Officer MAY furnish a permit without first being handed evidence, where the applicant's services are required for immediate employment, or where a permit is asked for by mail, but in these cases the evidence must be presented to the Selective Service Officer later, usually WITHIN THREE DAYS of the issue of the permit.

All men, born from 1902 to 1924, who have reached age 19, are urged to co-operate with Employment and Selective Service Offices in this matter.

Help yourselves, help others applying for permits, help the Offices to function smoothly, by having your documents with you when needed.

"I reckon it's good manners, but it always sounds queer when folks leavin' the church stop to compliment the preacher like he was a public entertainer."

Contract... By Shepard Barclay

SAVE THE LONG TRUMPS

IT IS HIGHLY dangerous to ruff with a four-trump holding unless you also have four trumps opposite them. When there are only three in the dummy it will often pay you to conserve yours and let the opponents take an additional early trick so you can ruff with the shorter holding. The reason is that you wish to have enough trumps in one hand to care for four rounds of the suit, as a protection against a possible — yes probable — suit length of that size in the hand of one defender.

North was not to blame for South reaching a spade game, as the latter's rebid of diamonds certainly made it sound as if he had two five-card suits. As it develops, South could have made his precarious contract but fumbled one vital principle of play.

West took in the heart K and J and then led the Q which South ruffed with the spade 2. That beat him. He thus staked all on an even division of trumps and scored the Q, K and A learning the sad news that West had the 5 left while he himself had no more of the suit. Now hopefully he played clubs, but West ruffed the third one and scored the setting trick with the heart A. Then led a diamond South got that with the A, but then had to lose two more diamonds and was down three.

If South had let West hold the third heart, discarding a diamond, no matter what West led then to him if it was a heart the dummy could have ruffed, four trumps could have been taken plus five clubs, and the diamond A could even have been discarded on a club if South wanted to seem fancy.

One Quart Spirits or Dozen Pints of Beer a Month

VICTORIA, April 29 (CP).—Liquor Commissioner W. F. Kennedy announced today a monthly ration of one quart of spirits, or one dozen pints of beer or two quarts of wine for each permit holder, beginning Monday, May 3, and continuing until increased supplies are available on November 1.

All liquor stores will be closed today, Friday and Saturday in order to permit the staff to receive and arrange for sufficient supplies of merchandise to operate the new rations.

Stores will be open from 10 a.m. to 6 p.m., with the exception of the weekly half-holiday.

"To show how difficult it is to distribute present supplies," Mr. Kennedy said, "I am listing hereunder the liquor permits issued in this Province."

For fiscal year ending March 31, 1938, 193,074; 1940, 300,828; 1941, 229,841; 1942, 261,014.

Permits issued in January 1942 and 1943 totalled 63,773 and 167,546 respectively; February 39,680 and 78,723; March 30,388 and 47,487; April 17,303 and 38,823 (April 30th). A total of 251,014 for the last fiscal year compares with 314,490 from Jan. 1 to April 30, 1943.

Each purchaser of liquor will be required to present not only his liquor permit but also the national registration certificate, or in the case of the armed forces, the usual identification papers furnished them from their headquarters.

Hotel operators selling beer for consumption off the premises are being advised that on and after Monday May 3 these sales will be restricted to six bottles to one purchaser and not more than one dozen to any one person in a month. No beer may be sold from the licensed premises and delivered in a carton similar to that in which it is received.

"While the Board does not wish to deprive those living in the outlying districts of this Province," Mr. Kennedy said, "it is considered that due to the present shortage such sales should be on a service basis only and limited to the quantity allowed through liquor stores and the balance served in the regular way on the licensed premises."

**Camsell and Hart
 Discuss Mining
 in Northern B. C.**

VICTORIA, April 29 (CP).—Dr. Charles Camsell, Deputy Minister of Mines and Resources, today discussed with Premier-Hart developments in Northern British Columbia, Alaska and the Yukon.

From here Dr. Camsell will proceed to Portland to consult with J. C. Bettie, Director of the North Pacific planning project.

Japs Building Navy Base and Two Airfields in China

CHUNGKING, April 29 (AP).—The Japanese are building a new naval base and two large airfields in China, a spokesman for the Chinese army told a press conference today.

The invaders, alarmed at the increasing menace to their shipping by Allied submarines, he said, have begun construction of a naval base at a recently-occupied island north-east of Foochow.

The enemy is building one large airfield near the Burma Road town of Langling, possibly for intensified action against air bases in South China, and another near the Yangtze port of Ichang, presumably for operations against Chungking, the spokesman reported.

He linked the Japanese drive against the Taiheng mountains with the enemy's "repeatedly-announced intention of converting North China into a base for his operations in the Pacific."

**Mrs. D. Lindgren
 Dies at Kimberley**

KIMBERLEY, B. C., April 29.—Mrs. Dagmar Lindgren, age 37, wife of Neil Lindgren of this community, died in hospital here following an illness of only a few days.

She was born at Cranbrook and attended school there, graduating from the Cranbrook High School. She completed her nurses training at St. Eugene Hospital there and was a registered nurse. She practiced nursing at various Kootenay points prior to her marriage when she came here to live.

She is survived by her husband and daughter.

She was the only daughter of Mr. and Mrs. Hennig Anderson, who survive her at Cranbrook.

Claim U. S. Builds Base in North to Attack Japan

LONDON, April 29 (AP).—The Berlin radio said today the Japanese are speeding construction of a giant Alaskan airbase for "more than a thousand four-engine bombers" and declared "it is assumed in Tokyo that the Americans intend to attack the Japanese mainland via the Aleutian and Kurile Islands."

There was no Allied confirmation of such construction.

The Berlin report described the American base as located at Anchorage.

Unions Attack Plan That Has Profited Workers

MONTREAL, April 29 (CP).—S. G. Blaylock, President of Consolidated Mining & Smelting Company of Canada Ltd., told shareholders at its annual meeting today that "recent labor legislation and the lack of definite wage labor policies on the part of the Dominion and Provincial Governments are forcing labor into the hands of the International unions."

Mr. Blaylock said: "In our case our Cooperative Committee System, which has given so much satisfaction over the 23 years of its existence, is being attacked from every possible angle."

"It would be most unfortunate if this system, which is actually a 100 per cent collective bargaining arrangement, is broken up. As the result of our scheme of cooperative Committees, our workmen have gained the greatest security, the best wages and the fullest protection of any comparable industry in Canada."

 The War News**

By GLENN BABB
 Associated Press War Analyst

The presence of Generals Stilwell and Chennault in Washington may mean the early implementation of President Roosevelt's promise after his return from Casablanca that "important actions will be taken in the skies over China—and over Japan itself."

Whatever the specific reasons for this journey halfway around the globe of the American Commanders at grips with the enemy in the theatre nearest his homeland, there is no doubt that it will intensify his fear of new blows against Tokyo and the rest of his home islands. This probably will mean feverish attempts by the Japanese Command to anticipate or prevent such assaults. These may take the form of new offensives in East-Central China such as that of last Summer.

General Chiang Kai-shek's announcement that the Japanese "slaughtered every man, woman and child" in areas in which some of the fliers who bombed Tokyo in 1942 landed, supplies the missing pieces in the jigsaw puzzle of the 100-day campaign the Japanese waged in Chekiang and Kiangsi Provinces. This was part of the savage reaction which led to the execution of some of the American fliers who fell into Japanese hands.

The purpose of that campaign was something of a mystery at the time. There was some Japanese talk of cutting a swathe through Southeast China which
