Chinese Island Falls; Japs Drive at Port

CHUNGKING, July 12 (AP)—The Japanese have occupied Fuku Island, near Foochow in Fukien Province, and have started a pincer movement against Wenchow, one of the few important ports on the China Coast still in Chinese hands...

Japanese planes have been actively scouting Fukien Province in the last few days but Chinese sources said it was too early to predict whether the landing promised developments in that province.

Meanwhile, the Chinese announced their troops attacked Japanese positions south of Lihul and drove the Japanese out of several strategic points, inflicting several hundred casualties.

AUSSIE-SPARKED DESERT ARMIES HURL BACK NAZIS

2000 Prisoners Taken; Italians Terrified by Aussie Raids ALLIES DESTROY 15 TROOP PLANES

CAIRO, July 12 (AP)—The British army of the Nile, sparked by reinforcements of eager Australians, had driven the Axis Africa Corps 10 miles west of El Alamein today and consolidated its new hold in the Tel El Eisa sector of Egypt after capturing 2000 more German and Italian prisoners and destroying 18 tanks.

Mobile columns and artillery dealt with enemy tank sorties on the central sector of the 50-mile desert front which now lies 75 miles from the great naval base at Alexandria.

Guns and motor transport vehicles also were captured in the successful British drive along the Mediterranean.

Front dispatches said the retreat to the desert of these excellent fighting men after many months' absence already had terrified the Italians.

To the South and West of the Alamein line the South Africans, New Zealanders and other British units had thrown a line across the desert.

But fighting in that area was said to have diminished as German tank units shifted their weight northward to counter the British coastal spearhead.

British authorities said large-scale air battles developed as Rommel threw in "large formations of bombers and fighters" in an attempt to block the British advance, and that one clash with "some 40 German bombers and five bombers and 20 enemy fighters" took place.

Axis transport, including staff cars, was raked by Allied planes and five vehicles were known to have been destroyed.

The Allied Air Force has been hammering the tired and stalled Africa Corps and its tenuous, tattered supply lines mercilessly for 10 days or more, inflicting severe casualties in men and material.

The toll of the giant Junkers-52 in two days rose to at least 15. These are capable of carrying 40 to 60 troops. British authorities said they believed the Junkers were carrying specialists to Rommel. Thus it was conceivable that 600 or more highly trained Nazi troops had been destroyed in these air actions alone.

Negro Soldiers Run Amuck

FLAGSTAFF, Ariz., July 12 (AP)—Six negro soldiers armed with machine guns, automatic rifles and pistols terrorized the business district about 3 a. m. Saturday before one was shot and killed and another wounded.

Maj. H. C. Nichols, in command of negro troops on guard duty here, said police shot two of the soldiers and captured the others.

NEW DELHI, India, July 12 (CP)—The Royal Air Force continued its activity against Japanese forces moving toward India along the Chindwin River in Burma by attacking Kelewa and hitting a steamship south of Sittang, the British command announced today.

JAPANESE-HELD PRISONERS ARE MORE SATISFIED

OTTAWA, July 12 (CP)—A report from "Official Japanese Sources" made public tonight by the External Affairs Department asserts that prisoners of war at Hong Kong, including an estimated 1,800 Canadians, are satisfied with their food rations and that conditions in prison camps in the area generally are improving.

The report was the first direct word from official Japanese sources since the Far East Base, garrisoned by Canadian, British and Indian troops, fell to the enemy last Christmas day.

Acknowledging that an epidemic of dysentery had occurred among Indian soldiers in January and that cholera had afflicted some Japanese soldiers and civilians at Hong Kong in the middle of February, the report said measures had been taken to cope with these afflictions and that in both instances the number of cases had declined.

Number of wounded patients, the report added, had "satisfactorily" declined from a total figure of 1,150 in January to 391 by the middle of March.

The news of conditions at Hong Kong was relayed to Canada through the Argentine Government.

In its detailed account of conditions at various prison camps, including an example of food distribution at a camp identified as Camp Zantung, the Japanese report described transport difficulties as "acute" and contended that it had been "virtually impossible to bring supplies to Hong Kong in large quantities."

There had been no complaints about clothing, said the description from Japanese sources, although officers were required to pay for the clothing they needed. Other ranks were supplied without charge.

The External Affairs Department quoted the Japanese report as saying that "considerable difficulty" was at first experienced in supplying prisoners with adequate food because of the garrison's intensive "scorched earth" policy.

"For a time it was possible to supply only two rations," the Department said. "By the end of March, however, individual daily rations had been increased so that each man was receiving 1,130 grams (40 ounces) of rice, 470 grams (17 ounces) of fresh vegetables, 139 grams (five ounces) of meat—including fish and additional miscellaneous food."

Food rations were not identical in all camps but, the Japanese claimed, prisoners were given the same food as Japanese troops in the locality.

Nazis Have Plan for Suez Operation

CAIRO, July 12 (AP)—German technicians have a complete plan to take over and operate the Suez Canal which they had expected Marshal Erwin Rommel's desert troops to seize before the end of June, reliable informants said today.

Definite Split of Armies Threatened by Break-Through

Nazis Fast Gaining Position for Wheeling Movement to Southeastward Down Don Valley to Stalingrad

MOSCOW, July 13 (Monday) (AP)—German troops, sweeping through Kantemirovka and Lisichansk in their push toward the Caucasus, have rolled the Red Army back 70 more miles to Boguchar in the greatest penetration yet of Russian soil, the Soviets announced today.

Only in the Voronezh sector at the north end of the 200-mile Don Front were the Russians giving ground slowly. But the Russians admitted that the Germans in their great 1942 offensive were hammering at the gates of that city, too, which is a key point on the Moscow-Rostov railway.

The Kantemirovka-Lisichansk break-through definitely threatened to split the Central and Southern Armies and appeared to be the prelude to fighting for the rich Caucasus oil region.

The Red army was reported fighting a savage delaying action and taking an enormous toll of German men and machines.

But the emerging, critical fact here was that the Germans fast were getting into a position to wheel Southeastward down the Don Valley to Stalingrad astride the important Volga River linking the Caucasus with central Russia.

Boguchar is 50 miles East of a line drawn due north of Rostov, the Southern anchor of the Red line, which thus far has held the Germans pushing along the Sea of Azov. Rostov, which the Germans reached last year and then had to leave, was the previous high-water mark of Eastward invasion.

The crumbling of Voronezh, which the Germans had claimed they captured nearly a week ago, would release a still larger Nazi flood over the steppes of ancient Voronezh province and make the Red army's liaison still more difficult.

News dispatches telling of the grave position of the Red army in the Voronezh area said the Germans were throwing wave after wave of men and machine across the Don River which is only a few miles West of Voronezh.

The communique announcing the German penetration said today: "During July 12 our troops on the outskirts of Voronezh carried out fierce battles against the enemy. Our troops evacuated Kantemirovka and fought in the area of Boguchar. Our troops also carried out battles in the district of Lisichansk. On order of the command our troops evacuated Lisichansk in order to occupy new positions."

THOUSANDS FALL thousands of German troops fell on the front yesterday, 76 Nazi tanks were destroyed, and scores of airplanes were shot down.

250,000 Yugoslav Patriots Open Big Offensive Against Axis

ISTANBUL, Turkey, July 12 (AP)—Fearless Yugoslav patriots, 250,000 strong, have opened widespread offensive operations of their own with sharp, deadly assaults upon their would-be Axis "pacifier" in the South Serbian mountains and across the Croat frontier into Italy, official Yugoslav informants reported Saturday.

Under the command of Gen. Draza Mihailovic, these hardy men of the mountains are slugging it out with German, Italian, Bulgarian and Hungarian forces numbering upward of 100,000 in two major struggles which began late in June.

It appeared that Gen. Mihailovic's forces are divided into two distinct fighting groups, one holding the mountain fortress in Southern Serbia and the other a fluid, roving band preying upon Axis communications in the North.

The operation suggested further that the patriot commander's strategy is aimed at inflicting the greatest damage possible on Axis supply lines to the Adriatic and Aegean, whence reinforcements flow to Field Marshal Erwin Rommel in Africa.

Say Nazis to Control French War Installations, Ports

MOSCOW, July 12 (AP)—The Moscow radio broadcast Saturday night a dispatch by the Soviet news agency Tass from Bern, Switzerland, reporting "competent French sources" had declared the Vichy government has agreed to give Germany control of all important war installations, railways and ports in unoccupied France.

The dispatch said the Germans in return have agreed to a request of the chief of government Pierre Laval to transfer French government offices from Vichy to Paris.

B. C. Conservatives Back Resolution Calling for National Gov't

KAMLOOPS, B. C., July 12 (CP)—The quarterly executive meeting of the British Columbia Conservative Association tonight endorsed a resolution calling for a national government at Ottawa after hearing Attorney General R. L. Maitland, Provincial Conservative Leader, declare that Canada "is out of step with its allies" because "we have a party government" Saturday night.

The resolution will be put before the annual meeting of the association in Victoria in October.

Mr. Maitland said each of the three parties had asked for a "yes" vote in the plebiscite, meaning only "Today, Canada is out of step with its allies," he said.

He said the war belongs not to any one party but to every last citizen. Those serving in the forces have the right to look for the things they need to fight with,

and the right to look to a government that is neither Conservative, Liberal nor C.C.F., but a government of all parties and all the people.

British Women Aged 42 Registered

LONDON, July 12 (AP)—All British women 42 years of age registered Saturday for war service, boosting the total of women registered to 8,000,000. They are being placed in Women's Auxiliary Services or war industries at the rate of between 15,000 and 30,000 a day.

VANCOUVER, July 12 (CP)—Funeral services will be held here today for William Henry Gallagher, 79, a member of Vancouver's original city council who died here Saturday. Mr. Gallagher was a pioneer real estate man who came to Vancouver when it was a small settlement.

Canadian Attack Force Carries Out Great Raid Manoeuvres

By ROSS MUNRO
Canadian Press War Correspondent
WITH A CANADIAN ATTACK FORCE AT A BRITISH PORT, July 12 (CP Cable)—The greatest raid and invasion manoeuvres ever held in European waters have been carried out by a Canadian attack force,

the Royal Navy and the Royal Air Force as a prelude to what may be major military operations on the European coast. For weeks a special force which included Canadian and armored regiments went through advanced combined operations training. Masses of armored fighting vehicles were landed from the sea in support of waves of assaulting infantry. Several times a huge armada of naval craft put to sea with the Canadian force aboard and full dress rehearsals of staggering dimensions were staged with raids on sections of the English coast. The exercises marked a long step forward in the varied training of the Canadians. As war correspondent with the force I saw the training in every detail and went to sea on mimic raids, landing with the infantry from blunt-nosed assault landing craft. On the raid manoeuvres the troop-carrying flotilla—the largest ever mustered for training—put to sea with a powerful naval force. There were mother ships for landing craft and fleets of "R-boats"—speedy infantry-carrying craft with sled-like bows for beach landings. There were numerous other types of ships. The convoy of fighting ships and men was the most impressive and encouraging evidence of offensive intention and power I have ever seen in training.

The Golden Text was: "Let a man examine himself, and so let him eat of that bread, and drink of that cup." (1 Cor. 11: 28). Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Jesus saith unto them, Come and dine. And none of the disciples durst ask Him, Who are thou? knowing that it was the Lord. This is now the third time that Jesus shewed himself to His disciples, after that He was risen from the dead" (John 21: 12 and 14). The Lesson-Sermon also comprised the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "This spiritual meeting with our Lord in the dawn of a new light is the morning meal which Christian Scientists commemorate. They bow before Christ, Truth, to receive more of his reappearing and silently to commune with the divine Principle, Love. They celebrate their Lord's victory over death, his probation in the flesh after death, his exemplification of human probation, and his spiritual and final ascension above matter, or the flesh when he rose out of material sight."

Rossland Anglicans Say Farewell to Archdeacon Catchpole and Wife; Departing for Kelowna

ROSSLAND, B. C., July 12—Friday evening a reception was held in the parlor of St. George's Anglican Church, honoring Ven. Archdeacon and Mrs. D. S. Catchpole, prior to their departure to Kelowna, where especially did he think of and pray for, every day, the boys who were serving their country.

His wife had been his tower of strength, Archdeacon Catchpole said, and without her comfort and cheer he would not have accomplished anything. Before bidding a formal adieu to his friends and flock, the Archdeacon mentioned how well he thought of his brother ministers in Rossland, mentioning the friendliness and kindness shown by Rt. Rev. A. K. MacIntyre V.G., Sisters of the Mater Misericordiae Hospital, Rev. Murray M. Cameron and Rev. C. H. Daly. Although regretting to leave his friends, Archdeacon Catchpole said he felt he had been in this parish long enough. He said he had often been told that he had done a good job in Rossland, but he stated the proof would be in how well his congregation would continue to support and work for the church after his departure. If they failed to carry on the work that he felt was necessary for the Anglican Church to do in Rossland, then he would feel he had failed.

Ven. Archdeacon Catchpole

The Archdeacon has been appointed rector of St. Michael and All Angels Church.

A short concert program was enjoyed which included two solos beautifully rendered by Mrs. W. G. Small, a former Rosslander now residing at Murray Drive, Trail. Her accompanist was Mrs. Cyril Selby, also of Trail. Mrs. H. S. Fowler, talented violinist, played Mexican and Negro folk songs; she was accompanied by Mrs. Sid Simcock, Sr. Miss Joyce Topfitt, gifted young pianist, played compositions by Mozart and Bach. L. E. E. Hamilton was chairman.

Following the concert H. W. Singer, People's Warden, read an embossed scroll, and presented Archdeacon Catchpole with a purse. Little Miss Joan Molyneux presented Mrs. Catchpole with a lovely bouquet of mixed flowers, in shades of pink and red, including roses, peonies, and snapdragons.

Archdeacon Catchpole thanked his congregation for the presentation and gave an informal, friendly talk. He told of his arrival in Rossland in 1929 on "Frankie" Stevenson's truck, his own car, having burned out its connecting rod when two miles out of Rossland, on the Trail road. Since his arrival 13 years ago Archdeacon Catchpole said \$3500 had been paid on the church and manse. Only a \$500 debt remained. The main satisfaction of having been the pastor of the Rossland Anglican Church had not been the accomplishing of these material things, but the spiritual. Those who had come back to the fold were his greatest satisfaction. He spoke of the number he had been privileged to give the sacrament of confirmation to, and of the great faith he would always have in those persons. The young people he had seen grow up these past 13 years would always have a place in his heart;

Mr. Finland's appointment became effective July 11 and his headquarters will be at No. 2 Air Observer School, at Edmonton, Alta.

Railway, Bus Traffic Is Still Heavy

Railway and bus traffic through Nelson continues heavy, with extra cars on railway trains and "doubleheaders" on bus runs to cope with the demand.

Sunday morning there were extra sleepers and coaches on the train arriving from the East, largely to accommodate travellers returning from the Calgary Stampede.

To meet the demand for accommodation on the excursion train from Trail to Lakeside Park, Nelson, the train on Sunday consisted of four coaches instead of three. Buses between Nelson and various district points are taxed to capacity and often two buses are necessary to carry the traffic offering.

Dies After Four Days' Coma; Struck by Tree

CRESTON, B. C., July 12—Ager remaining unconscious for 102 hours following an accident last Monday morning, Lawrence Burton Huscroft died in Creston Valley Hospital at 5:30 Saturday morning. He was 23 years of age, and is the second son of Mr. and Mrs. J. Huscroft of Huscroft.

The accident occurred while Huscroft was bulldozing a trail at the Blue Jay Timber Limits on the Continental Mine road. A standing dead tree fell from the side and behind him, striking him on the head, and fracturing his skull. His father, working 30 feet away, tried to warn him, but to no avail.

He went half a mile to the camp to get help, and they brought him on a stretcher to Creston Valley Hospital. A specialist was rushed from Spokane Tuesday afternoon. He is survived by his father and mother, Mr. and Mrs. J. Huscroft, a sister, Irene of Vancouver, elder brother Elmer of Huscroft, Leonard, who is with the R.C.A.F., Calgary, and Ken, Don, Shirley and Mick of Huscroft. Funeral is on Monday at Creston.

BULLFROG SILENCER WANTED AT COAST

VANCOUVER, July 12 (CP)—Anybody looking for a job as bullfrog silencer? There's a call for one in Vancouver's Stanley Park, where open air concerts are held during the Summer. A particularly noisy bullfrog starts loose as soon as anyone starts to sing, creating such serious competition that during a recent concert by the singer John Charles Thomas the Board of Park Commissioners had to hire a man to whack the pond with a stick every time it showed signs of tuning up.

Russ News Calls for New Front

KUIBYSHEV, July 12 (AP)—The Moscow News called again today for the immediate establishment of a second front against Germany, declaring: "Hitler's back is his weakest spot—he should be struck there with all the might at our disposal." The editorial expressed bewilderment that a second front was not already visible, since the Anglo-Russian treaty is 46 days old. "Hitler's calculations are built upon deciding the issue before large scale operations on a second front can begin," the Moscow News said. It declared that all prerequisites are not victory.

In an interview, Maj.-Gen. Mikhail Gromov, who flew across the North Pole from Moscow to California five years ago, expressed pleasure at United States' plans to join the R.A.F. in bombing Germany.

U.S. Community Named Lidice

LIDICE, Ill., July 12 (AP)—Wendell Willkie today called upon the freedom-loving peoples of the world to remember Nazi-rased Lidice and banish "the madness of tyrants" from the earth.

He spoke at ceremonies during which this community of 100 new homes in the Hills north of Joliet was given the name Lidice in memory of the martyrs of Lidice, Czechoslovakia, a village destroyed by the Germans in reprisal for the slaying of Hitler's hangerman, Reinhard Heydrich.

Interpreting The War News

By KIRKE L. SIMPSON
Associated Press War Analyst

Hitler's mass offensive in Russia is so perilously close to cutting Red Armies of the South and of the Caucasus off from those of the North and East, that the time seems ripe for action elsewhere by 10th Axis and Allies to complement or counter the German successes. The danger of a German breakthrough from the Don to the Volga on a wide front is very real. Stalingrad, great industrial centre is on the Volga—and Hitler's headquarters claimed this weekend that his forces are within 80 miles of the city.

To the Southeast is the Caspian Sea. Should the Nazis drive through to the Sea they would cut off the great oil field of the Caucasus and isolate a great mass of the Red Army. Marshal Semeon Timoshenko's rail communications with the North have been broken. The right flank of his life line on the Upper Don stands threatened also with isolation from its Southern wing. Presumably he must look Eastward, beyond the Volga, for supplies and reinforcements for his left flank upon which defence of the Caucasus rests.

Therefore, the moment for which Japan has been waiting, to strike at Siberia, may be at hand. There seems little doubt that Red reserves from east of the Volga, perhaps even from the Siberian defence area, must be in motion southwestward to bolster the tottering front in the Ukraine. Chungking accounts have insisted for weeks that heavy Japanese forces were being mustered Northward for use in July against Siberia. It is there that the first "second front" of the 1942 campaign might develop on Japanese initiative to add to Russian peril before Anglo-American preparations are complete, for whatever attack from the West may be in the making. In another war sector a Nazi attack integrated with the offensive in Russia was stopped and there began a desperate race for British and Axis forces in Egypt to gather strength for offensive action. The comparative lull in the great desert battle ended when the British lunged at the Axis forces Friday and the front erupted into violent activity. The prizes at stake in Egypt—Alexandria, Cairo, the Suez Canal—urge the Axis to desperate attempts to seize them. They are all the more alluring in German eyes because of the deep inroads the Nazis have cut in Russian defenses. An Axis bid for Turkish submission to its rule and for Arab desertion of Britain and her Allies as well as for military and economic key points is afoot.

COMMUNIST ESCAPES THROUGH TUNNEL FROM GERMAN CAMP NEW YORK, July 12 (AP)—A brother of Maurice Thorez, French Communist leader, and 15 others escaped from a German concentration camp near Compiegne July 8 through a 45-yard tunnel they had dug under their barracks.

Americans Help to Defend Port Moresby

WASHINGTON, July 12 (AP)—The War Department disclosed today that American troops are taking part in the defence of Port Moresby, Southwest Pacific outpost on the island of New Guinea, at which the Japanese have long been hammering by air.

A brief announcement was limited to the mention of "soldiers," which did not disclose whether these included more than anti-aircraft gunners and ground crews for war planes.

American Army planes have been helping defend the base, which is North of Australia, for weeks.

Australian Units See Action Under Auchinleck

CANBERRA, Australia, July 12 (AP)—Prime Minister John Curtin announced yesterday that units of the Australian Imperial Force which had remained in the Middle East had gone into action under General Sir Claude Auchinleck, British Commander in Chief.

This Curtin said, constituted "a considerable reinforcement" for the British Eighth Army now engaged in the Battle of Egypt.

QUE-NIGHT FIGHTER WINS D.F.C. BAR

LONDON, July 12 (CP Cable)—Flt. Lt. R. C. Fumerton of Fort Coulogne, Que., R.C.A.F., night fighter serving in Malta, has been awarded a bar to his Distinguished Flying Cross.

Letson Inspects Unit He Once Commanded

DEBERT CAMP, N.S., July 12 (CP)—The Adjutant-General of the Canadian Army, Maj.-Gen. H. F. G. Letson, yesterday inspected a unit he once commanded, the British Columbia regiment, now part of an armored division training here.

The regiment, with headquarters at Vancouver, is now commanded by Lt.-Col. G. Carmichael of Vancouver, but it was Col. Carmichael's last parade. He leaves Monday for duty on the West Coast with the army's Pacific Command.

Maj. G. M. Letson, a brother of the Adjutant-General, will be acting Officer Commanding until a new chief has been appointed.

Maj.-Gen. Worthington, Divisional Commander, accompanied Gen. Letson on the inspection as their car approached the unit's track and wheeled vehicles were drawn up in formation of squadrons, spread out behind regimental headquarters, the tank of which was in the forefront.

Gen. Letson found many changes in his old outfit. When he commanded it, the B.C.R. was an infantry outfit. Early this year its conversion to an armored regiment was effected and since then its training has been directed to making it a tank force able to play a more vital part when the United Nations' shock forces tangle with the enemy.

Despite the changes, however, Gen. Letson recognized many old faces. Among the officers who were there when he commanded the unit were Col. Carmichael, Maj. Letson, Maj. D. J. Bartlett and Maj. D. Verchere.

The Adjutant-General found at least two of his former N.C.O.'s in the regiment during the course of his inspections. They were Sgdn. Sge.-Major Henry Peterson and Sgt.-Maj. David Bliss, both of Vancouver.

Others to whom the Adjutant-General spoke included Tprs. Larry Meaney, M. H. Carne, both of Nelson, B.C., Donald Gilbert, Salmon Arm, B.C., and Robert Cantelon, Vancouver, who used to drive a truck but likes tanks better.

Appeal to Frenchmen to Be Ready to Help Invaders

LONDON, July 12 (CP Cable)—In one of its periodic broadcast warnings to residents of French coastal areas, the BBC asked Frenchmen to be ready to handle a gun because when the right time comes Allied forces will invade the continent.

"When the time comes for British and Allied forces to effect a landing on French soil, let there be as many Frenchmen on shore as there can be to hold out a welcoming and helping hand to their liberators."

Says Australians and Americans Work in Close Unity

LOS ANGELES, July 12 (AP)—Sir Owen Dixon, Australian Minister to the United States, said yesterday that too much emphasis had been placed upon the minor differences in speech, habits and aspirations of Australians and Americans, but that despite this the troops of the two countries are mingling in "closest amity."

Sir Owen, who spoke at the opening of Australia's exhibit at the Los Angeles County Museum of History, Science and Art, also made it clear that American aid to Australia was not a one-way affair.

More R.A.F. Men in Canada

BY THE CANADIAN PRESS Right Rev. Col. C. A. Wells, former Anglican bishop of the Cariboo (B. C.) and principal Protestant chaplain of the Navy and Army in Canada and overseas, is back in Canada after spending three months with his flock in the United Kingdom.

Accompanied by Lt.-Col. Ross Flemington, his deputy overseas, Col. Wells said he found the Canadians "in very fine fettle and showing excellent esprit de corps."

The two chaplains were with a large new batch of Royal Air Force trainees now in Canada to earn their wings in British Commonwealth Air Training Schools.

Mixed in with the British trainees are a few Australian and New Zealand airmen here for the same purpose and a small group of Norwegians on their way to the Little Norway School at Toronto.

A few Canadian fliers, returning as instructors, a small group of Canadian soldiers, home on leave after more than two years in Britain, more than two score Atlantic ferry fliers, and about a dozen wives of R.A.F. instructors in Canada, some of them with their children, came to the Dominion with the novices.

A number of Canadian flying officers most of whom served in operational control at airports in England since last December, formed a group.

A few English naval ratings, their navy blue uniforms standing out in the mass of air force blue, said they thought they had come to Canada for some training although they were not sure.

Sqdn. Ldr. M. J. MacNeil is back in Canada after looking after the spiritual needs of men of the Royal Canadian Air Force overseas for more than two and a half years.

Sqdn. Ldr. MacNeil was the only member of the Jesuit Order overseas with the R.C.A.F., he said.

Nazi S. S. Leader's Death in Poland Remains Mystery

LONDON, July 11 (CP)—The death of a German SS leader in the Lublin district of Poland, Erich Gudarj, in unexplained circumstances, recently was disclosed in an obituary notice in the Krakauer Zeitung, the Polish Government said yesterday.

The death notice said that Gudarj lost his life in performance of his duties and Polish quarters here surmised that he might have been killed in a clash a fortnight ago between guerrillas and an SS detachment in woods near Zamosc.

laps in Europe Return Home Through Turkey

ANKARA, July 10 (Delayed) (AP)—Japanese Army and Navy observers, businessmen, special business agents and Government officials have started an exodus from Europe through Turkey, the only remaining Eastward route homeward without crossing the Russian-German front.

The departures were interpreted here as part of a Japanese program to bring home all useful Japanese not strictly needed in European posts to avert stranding in the event of an extension of the war.

Warns French Legion They May Be Moved

VICHY, July 12 (AP)—Jacques Benoit-Meehjn, Secretary of State in the Foreign Ministry, told members of the French Tricolor Legion on the Eastern front in a message yesterday that "tomorrow you perhaps will be elsewhere."

He didn't say just where the Legionaries might find themselves. When the French anti-Soviet "expeditionary force" was expanded into the Tricolor Legion last month the Nazi-controlled French press said it "will fight against American imperialism and Anglo-Saxon greed as well as the Russians."

HOUSE BODY ADOPTS NEW U. S. TAX PLAN

WASHINGTON, July 12 (AP)—The House of Representatives Ways and Means Committee, reversing itself repeatedly, adopted a new corporation tax structure today based on a flat 8 1/2 per cent profit tax and a combined normal tax and surtax of 45 per cent.

Says Conditions in Amboina Camp Are Terrible

LONDON, July 12 (CP)—Conditions in the concentration camp on the Japanese occupied island of Amboina, in the Netherlands East Indies, were described as "terrible" by a prominent Hollander who recently escaped.

Suffering among children was particularly acute because of insufficient milk, vegetables and meat, the Hollander said. Lack of medical and hygienic facilities were said to have caused a number of deaths, many by dysentery.

He accused Japanese soldiers of forcing Europeans to sell at the point of bayonet their watches, rings and such articles.

Japanese soldiers at night, the Hollander said, frequently enter the common sleeping quarters of the camp's inmates and flash lights in the faces of the women.

"The European women were not attacked, but many natives complain of assaults on their wives," he said.

F.B.I. Picks Up 138 German Aliens

NEW YORK, July 12 (AP)—The arrest of 138 German aliens, members of an organization which the United States Government said furnished money for the return to Germany of one of eight submarines to carry saboteurs who recently landed on American shores, was announced yesterday by the Federal Bureau of Investigation.

Those apprehended were 130 men and 8 women, picked up in raids which touched New York City, Long Island and Westchester County, the F.B.I. said.

The 158 were identified by P. E. Foxworth, assistant F.B.I. Director in charge of the New York office, as members of the German American Vocational League, or Deutsch-Amerikanische Berufsgemeinschaft.

Foxworth said the alleged saboteur now on trial before a military commission in Washington for whom the organization paid passage to Germany from this country in 1939 was Heinrich H. Heincke. The Nazi Labor Front obtained a job for him in Germany at that time, Foxworth added.

Five of those arrested admitted being members of the Nazi party in Germany, Foxworth said, and several others were employed in war production factories in this country.

ALTA. ELECTRICITY COSTS LOWEST

OTTAWA, July 12 (CP)—The Dominion Bureau of Statistics reported today that the index of the cost of electricity for domestic service in 1941 was lower in Alberta than in any other province.

Index costs for other provinces were: Prince Edward Island 94.12; Nova Scotia 95.99; Ontario 100.42; New Brunswick 104.47; Quebec 108.08; Manitoba 108.19; Saskatchewan 108.89; British Columbia 109.37.

American Raiders Blast Bases in Burma

NEW DELHI, India, July 12 (AP)—American planes, raiding far into Northern Burma from their Indian bases, repeatedly attacked the Japanese air field at Myitkyina during the last week, preventing the Japanese from repairing or using the runways.

Fighter pilots strafed the town and airport July 4 and July 6 and medium bombers attacked the airfield July 7 and July 8. The first bomber attack was made with "satisfactory results," it was said.

A railway bridge at Moguang, 20 miles Southwest of Myitkyina was damaged by a direct hit and a 10-car freight train was machine-gunned during these operations.

No losses in personnel or planes were suffered by the United States Air Corps during the operations despite monsoon storms and anti-aircraft fire.

Aliens Held for Reporting Brazil Plane Movements

RIO DE JANEIRO, July 12 (AP)—Charges that a former Italian consul at Natal and three Germans engaged in espionage reported the movements of planes over Northeastern Brazil were laid before the National Security Tribunal yesterday by a police prosecutor.

The four, all in custody, are Guglielmo Lettieri, the former consul and resident of Brazil for 30 years; Ernst Walter Luck, German steamship agent; and Hans Werberling and Richard Robert Burgers.

IMPERIAL POLICIES

Gives 1000 more men "something to look forward to"

● Among the 8,000 who bought Imperial Life policies in 1941 are more than 1,000 men who realized the truth of the saying that "man is the architect of his own fortunes." They acted and—thanks to Imperial policies—they will be "their own boss" a few years from now.

Their policies will mature when they are 50 - 55 - 60 - 65 - and at various ages in between; then—a regular income for the rest of their days—time for hobby, play, or work, as they wish. Meanwhile their families or dependents are protected "whatever happens."

These 1,000 men now walk with a more buoyant step, for the burden of the future sits lightly on their shoulders. They, indeed, "have something to look forward to."

To an increasingly large cross-section of the people of Canada, The Imperial Life is "my insurance company."

Koolaree Chatter Hellcats Top Campers on First Day

CAMP KOOLAREE, Wednesday dawned clear and warm on a bunch of excited and anxious youngsters. We had the pleasure of viewing some odd sleeping positions. The lads did very well for the first night.

We got started on our regular camp routine. Our young campers are very quick and keen. The highlight of the day was the enthusiasm shown when cleaning cabins, making beds and washing dishes. Incidentally, everything and every one gets wet. Ask Hartley of the Whirlwinds, Dave Glover of the Hellcats or McLuckie of the Eagles.

HELLCATS HIGH

The afternoon was taken up with canteen, squad patrols, and with swimming. The honors of the day fell to the Hellcats under the able guidance of Squadron Leader Jackie Gray. Nice going gang. We see you are still undefeated in softball, too.

The day drew to a close around a large crackling camp fire. We were entertained by the Bryan boys and their trumpets, and David Glover and his accordion. We have a good boys' choir too, that stole the show. Our tiring, full day closed with the friendly circle and singing of "Abide With Me," and a lusty—"Thanks for the Day, Comrade."

Make Better Jams and Jellies

Use CERTO - it gives SURE RESULTS

Short Boil Saves Time and Effort.
More Jam or Jelly from the Same Amount of Fruit.
Natural Fresh Taste and Color.
No Fear of Failures.

CERTO Makes All Fruits Jell Perfectly Quick—Easy—Economical

SHORT BOIL—For jam you need only a one to two-minute, full rolling boil—for jelly a half minute to a minute.

MORE JAM OR JELLY—So very little juice has time to boil away that you get up to two-thirds more jam or jelly from the same amount of fruit.

BETTER TASTE AND COLOR—In this short boil the fresh flavor and natural fruit color stay in the fruit.

CERTO is Pectin Extracted from Fruit

When pectin is used in making jam and jelly, the Wartime Prices and Trade Board Order No. 150 allows you to use sugar not in excess of one and one-quarter pounds of sugar for each pound of fruit. On the basis that "fruit" means "unprepared" fruit, this allows you to make your jams and jellies the Certo way which gives you approximately two-thirds more jam or jelly from the same amount of fruit.

Look for Book of 72 Tested Recipes under the label of every Certo bottle.

Traffic Safety at Lakeside Park

Nelson's principal place of assembly for several months each year is Lakeside Park and its approaches, and everything possible ought to be done to safeguard against traffic accidents of all kinds.

Many steps have been taken for traffic safety. Cars may not park on the road to the ferry, or at the Park entrance, or on the new roadway that skirts the Park on the South side, for there is ample parking space in the allotted area that was once the zinc smelter site. Cars may not enter the park and truck deliveries have to be made in a certain way. The railway crossing is commodious. There is a bicycle rack. Generally speaking the lay-out is admirable.

But there are some shortcomings that are a distinct hazard, although undoubtedly developed with the best of motives.

Hazard No. 1 is the row of trees planted on the portion of the C.P.R. right-of-way which was lent to the City for car parking purposes, before the City had made the deal with the Provincial Government for the old smelter site.

Now the C.P.R. spends scores of thousands of dollars every year keeping crossings clear and keeping rights-of-way clear so that the engine crews can have a clear vision ahead. With the best motives in the world, those trees were planted as a part of the Park improvement program in the recent past. It was a laudable act, or would have been had it been performed anywhere else but in a public passage.

No one can imagine the C.P.R. consenting to a grove being reared on its right-of-way, to interpose between train and the approach to a crossing; and no one can imagine the citizens consenting to such an obstruction even if the C.P.R. could be induced to allow the nullification of its standing safety regulations. Considering the congestion common at this crossing, the thing to be done is plainly indicated—removal of the saplings in infancy.

Hazard No. 2 is the free access to the track from the South side of the Park since the new grading at the West side buried a section of the South woven wire fence, and the heavy shrub cover on the embankment. Small kiddies could wander up to the track by the diagonal clinker paths, and be quite invisible from the ground below, or at any rate, be hardly noticeable. Sightliness should come after safety, and the City and the C. P. R. between them should see that the embankment for the entire length of the Park is kept denuded, as at one time it was. The existing woven wire fence should be promptly extended, to restore the barrier, with only the necessary gate openings.

Hazard No. 3 is also the result of a laudable impulse to beautify. It is the flower bed that has been planted along Nelson Avenue, around the City light-pole West of the Street Railway Waiting Room. Once again, a flower bed is an excellent thing in its place, but a public passage is not its proper place. The effect of this triangular bed is to force persons to go around that area. Those coming from the Park to the street car, or those disembarking from the street car and going to the Park are restricted to a gravel walk a few feet wide. People hurrying from adjacent points along Nelson Avenue are forced out of their way, perhaps finding their shortest approach is to circumnavigate the street car.

There should not be artificial barriers between the public on a street, and the public conveyance they have to take. Public passage should be wide and clear. Forcing the public through a bottleneck is unnatural, and wasteful. It means a slower clearance of ar-

Questions ? ? ANSWERS

Open to any reader. Names of persons asking questions will not be published.

Reader, Nelson—To settle an argument, please tell me when the German battleship, Bismarck was sunk?

The Bismarck was sunk May 27, 1941 in the Northern Atlantic.

W. H. Rossland—Please tell me what proportions of sand and lime I should use to make a good chimney mortar, also whether it is necessary to use cement?

A strong chimney cement is made by mixing four parts lime, one cement and six of sand.

F. D. Kaslo—I am putting away my car for the duration of the war. Where can I sell my tires?

You can dispose of them to any authorized tire dealer.

S. T. Creston—Would you please tell me how to wax flowers?

Dip the flowers in melted paraffin, which should be just hot enough to maintain its fluidity. The flowers should be dipped one at a time, held by the stalks, and moved about for an instant to get rid of air bubbles.

D. R. Wynndel—Where must I send war savings certificates to be cashed?

National War Savings Committee, care of Bank of Canada, Ottawa.

Reader, Trail—What does a person have to do regarding having a poem copyrighted, and what about using a pen name?

Write to the Commissioner of Patents and Copyrights, Department of the Secretary of State, Ottawa, and he will give you all necessary details.

1. What military island, in New York harbor, was bought from the Indians for \$1.65?
2. Are soft shell crabs and hard shell crabs different species?
3. How much copper do you think there is in a penny?

TEST ANSWERS

1. Governor's Island.
2. No. To grow larger, a hard shell crab must first shed his soft shell to grow a new one, a hard shell. Soft shell crabs are those caught during this period of moulting, which occurs in the Summer.
3. Ninety-five per cent, with tin and zinc making up the other five per cent.

Today's Horoscope

The person observing a birthday today has a keen mind and ability for rapid and accurate thought, and a tendency to reach decisions without hesitation. He or she is fond of travel and reading, and is devoted to loved ones. The next year will be an active and busy one, which promises gain in business or through agents, correspondence, literary activities and travel. This person should, however, be on the watch against trickery. Love affairs prosper during this time. The child who is born on this date will be fortunate, independent, self-confident, industrious, ambitious and affectionate, well fitted for public life, but liable to secret enmity.

JUSTICE FOR TEACHERS

The Montreal Protestant Central School Board, which controls finances, has done an act of simple justice by deciding to increase the salaries of some teachers earning less than \$1400 by \$100 a year instead of \$50, as originally intended. These yearly increments are a contractual obligation of the school boards. Finance distress has made it impossible to provide them for some time, and the teachers have had to suffer hardship. Now some, at least, will benefit, and it is to be hoped an arrangement can be made for the others.—Montreal Star.

iving crowds, and a hazard for persons catching the street car as their attention will be fixed on the bottleneck instead of on approaching traffic.

The attractive Waiting Room, with its surrounding flower beds, is an appropriate ante-chamber to Nelson's Wonderful Lakeside Park, known far and wide for its beauty and its facilities of all kinds, from beaches to picnic equipment. The public will cheerfully forego this additional flower-bed, in the interests of safety and convenience. What it wants at that particular point is street.

Pooling of Prospects and Equipment to Develop Base Metals, Urges Prospector

To the Editor:

Sir—Contracts for delivery of "critical and strategic minerals" are as elusive as proverbial non-existent "pot of gold at the foot of a rainbow." Much is being written about what is going to be done to meet what is only too well known a fact—the actual shortage of vital minerals at this stage of the war (nearly thirty-three months old)—and which was foreseen by many, years in advance of its beginning.

Contracts of definite, decisive and specific nature entailing speedy delivery to United Nations (R.F.C. all the lead, zinc, copper, scheelite, iron, etc., that they may call for, is what is wanted, immediately; or there will be more Tobruk, Sevastopol, Hong Kong, Singapore and Dunkirk chapters of unpleasant reading for our children and grandchildren to ask us many unanswerable questions about.

As a prospector, I hereby call upon volunteers from among the owners in control of critical and strategic minerals of any and all types to organize in each B.C. mining division by placing their holdings in a common pool, along with their assets of equipment, and providing for their liabilities for the duration and one year beyond in which to provide for liquidations and readjustments. The pools should function as limited liability mining partnerships under our dual Mineral Acts (originally designed by prospectors of the time) and be managed by our own geological and engineering advice and business directors, with vital minerals to be delivered immediately.

A publicity agent and provisional provincial secretary should be on the job. Much good spade-work has been done already by Mr. Sidney Norman and his supporting organizations, and much time can be saved by his work becoming the foundational data upon which to build up or from which to gather coldly calculated conclusions as to wherein lie the causes of delays in action and how best to remove the obstructions and, if necessary, bring to public view the obstructionists for public opinion to appraise, as it will some day.

Such an organization should stand on its own feet, formulate its own policy, constitution, rules, regulations and ethics with the primary objective being the immediate undelayed delivery of critical and strategic minerals to the United States.

Here, it may be noted that the new wartime regulations are preparing the means for such an organization to commandeer what it may need for that objective.

Pending such an organization move, may it be suggested that inquiries be made at Victoria and Ottawa to ascertain how many and what potential producers of lead, zinc, copper, scheelite, iron, etc., in Nelson and Cranbrook Sheet Maps have been included in Dr. Walker's "omnibus report." How many copper mines are potentially in Nelson Sheet Map? Who knows? This writer will contract to guide a writer of Mr. S. Norman's class over at least ten from which ample tonnage for a copper stock of creditable size could be smelted and iron (hematite) in volume for a Bessemer plant, Dr. Young's negative report notwithstanding.

PROSPECTOR.

Press Comment

AFTER TWO YEARS

After two years of Vichy there is still a persistent disposition in the United States to view that Government through rose-colored spectacles, to disregard any evidence—even that presented by Pétain's own words—that conflicts with the official version of the old Marshal as a solitary hero wrestling with Hitler for the soul of France. The intrusion of the Free French, really fighting and really dying to restore their native land is, not unnaturally, regarded by those upholding the former viewpoint as a sort of impertinence—it spoils the picture.—New York Herald Tribune.

RUSSIAN RELIEF

Despite the \$10,000 raised at the Aid-to-Russia rally Monday, this city still is a long way from the \$600,000 goal set by the Chicago Committee on Russian War Relief. Progress of the drive is much slower than is usual in such campaigns—doubtless the result of what remains of the old distrust of things Russian. Today the Russians are our allies. Were it not for their fight the war might well be over now.—Chicago Sun.

ERDIE LOMBARDI, VETERAN CATCHER ENJOYING A BIG SEASON WITH THE BOSTON BRAVES

Bears Boasting Stirnweiss as 'Another Gordon'

George Stirnweiss has stirred up more excitement among Newark fans than did the renowned Joe Gordon.

Veteran baseball men say the Newark Bears have "another Gordon" for the Yankees in the chunky son of a Bronx policeman who first crashed the headlines as a remarkable back for North Carolina.

Stirnweiss demoralizes the opposition with his speed.

On one occasion, Stirnweiss stole second, and when the ball was thrown into center field, did not stop running until he scored. He has stolen 27 bases already. Last year the International League leader had no more than 24, by Paul Campbell of the Royals.

Stirnweiss, 5-feet 8 and weighing 173 pounds, is batting .307. He beats out bunts and has good power, the latter proved by his seven triples. He is a right-hand batter.

Stirnweiss plays anywhere in the infield, and fans suspect that he'll wind up at third base for the New Yorks, with Gerry Priddy devoting his entire time and attention to first base. That is provided there is professional baseball next spring and the young men are still available.

Apache Sets New Track Record

By SID FEDER

Associated Press Sports Writer

NEW YORK, July 12 (AP)—Shut out declined the issue in the rich Empire City handicap Saturday because of an off-track and maybe it was lucky he stayed home.

Trainer Sunny Jim Fitzsimmons sent his "Comeback Kid", Apache, out to the wars, and the tall son of Alcazar not only grabbed off the \$20,100 winners purse, but romped to a new track record.

Apache, under Jimmy Stout's easy ride, hit the wire in 1:56 flat for the mile and three-sixteenths that lopped three-fifths of a second off the mark Tola Rose set up only a week ago in upsetting Whirlaway.

Apache galloped home three lengths in front of Joseph M. Roebling's Lochinyar before a crowd of \$21,462. Warren Wright's Col. Teddy coming from last place, was third, another three lengths farther back. Vagrancy finished fourth.

Salmonbellies Beat Wallaces 14-10 to Strengthen Place

NEW WESTMINSTER, B.C., July 12 (CP)—New Westminster Salmonbellies closed with a five-goal drive in the final quarter tonight to defeat Wallace's united 14-10 and consolidate their second-place position in the standings of the Inter City Box Lacrosse League.

The Fishmen began with a rush, outscoring Wallace's 5-0 in the first quarter, but were outscored 5-1 by Uniteds in the second quarter to end the half with but a one-goal edge. The third quarter ended with the score deadlocked at 9-9 but Salmonbellies closing rush proved too much for Wallace to match.

Bert Houston and Kit Ropley led Salmonbellies' scorers with three goals each and Red Phillips was best for Wallace, also with three.

Suffolk Downs Race Brings \$65,000 into Relief Fund

BOSTON, July 12 (AP)—Loveday, Mrs. William R. Flemming's 5-1 betting choice, captured the \$10,000 added 5-1 betting choice, captured the \$10,000 added Hannah Dustin handicap at Suffolk Downs Saturday before a throng which contributed more than \$65,000 to the United States Army-Navy Relief Fund.

Loveday scored by one-half length over Merry-Ho Stable's spiral' pass, while John L. Kelly's Red Moon was third, a length behind.

Macon Brought Up by Brooklyn

CINCINNATI, July 12 (AP)—Brooklyn Dodgers moved Saturday to eliminate their shortage of left-handed pitchers by obtaining the Southpaw Max Macon from their Montreal farm in the International League for an unannounced amount of cash. Macon has won eight games and lost four with Montreal this season.

It was considered probable that Linwood (Schoolboy) Rowe, veteran right-hander who was purchased from Detroit this season, would be sent to Montreal.

RIPPLE GOES TO LEAFS

ROCHESTER, N.Y., July 12 (AP)—Jimmy Ripple, veteran major league outfielder, was traded by Rochester Red Wings to Toronto Maple Leafs of the International League Saturday, President Oliver French of the Wings said Toronto will send Pitcher Bill Beckman, a righthander, and infielder Jo Mack here in exchange.

New Mile Mark Equalled

STOCKHOLM, Sweden, July 2 (AP)—That 4:06.2 clocking for the mile which Gunder Haegg established just eight days ago already has been equalled.

Arne Anderson, who ran second to Haegg on July 2, was clocked at the same figure Friday night.

In the race in which Haegg set the present unofficial world mark, Anderson galloped the distance in 4:06.4 to equal Sydney Wooderson's accepted record that had stood since 1937.

Trail Eagles Take Spiffires Nine 11-10, 13-4 in Double Bill Here

Trail Eagles softball squad left the Recreation Grounds Sunday evening twice victors over the Nelson Spiffires. In an early afternoon game they sank their claws into the Spiffires for a close 11-10 win, while in the evening game they scalped the Lakesiders 13-4.

The opener was a free-hitting display. The Spiffires were up 5-4 in the fourth, but the Smelter lads brought two runs across the platter in the sixth to set up a lead their never lost.

FOWLER TRIUMPH

The second was a real victory for Fowler, Trail hurler, though he was replaced in the eighth by Mondaldi. Fowler clinched it in the fourth and fifth chapters when he struck out three twice in a row. While he was taking them out one, two, three, his mates were busy running up a 9-2 lead, which the Spiffires never once threatened.

Long Shot Wins at Arlington

CHICAGO, July 12 (AP)—A little brown filly named Fad, winner of one of her two previous starts, galloped to an amazingly easy triumph in the \$35,000 Arlington Lassie States Saturday and paid off at the longest odds in the 14-year history of the race for two-year-old fillies.

Overlooked in the betting, Fad, owned by R. W. McIlvain, Chicago Oil executive, finished six lengths in front of Hal Price Headley's Askmenow, one of four fillies the turfmen sent out in an attempt to triumph. Miss Barbara, entry of Louis B. Mayer, Motion Picture Producer, was third, and Who Me, another Headley racer was fourth in a field of 13.

Fad returned \$50, \$20, and \$9.80. She carried Jockey Arthur Craig over the six furlongs in 1:13 3-5 and won \$25,980.

Askmenow returned \$9.20 and \$4.60, with Miss Barbara paying \$5.20 to show. Easy Loss finished 11th.

Says Byron Nelson Greatest Golfer

ST. PETERSBURG, Fla., July 12 (AP)—Byron Nelson, the master of the long irons, got another vote today for the mythical title of the world's greatest golfer.

Jess Sweetser, who's seen them come and go since the days he ruled the Amateur roost in the early 20's, said the Toledo, O., star is "simply unbeatable when his putts are dropping."

Sweetser, first American-born golfer to win the British amateur title, was quick to explain why he placed Nelson ahead of Ben Hogan, the Hershey, Pa., pro who won the Vardon trophy last year.

"Nelson and Sam Snead (who's now in the United States Navy), take to the game more naturally than Ben does," he declared.

WINS ONTARIO GOLF

BRANTFORD, Ont., July 12 (CP)—Jack Nash of London, Ont., yesterday defeated Phil Farley of Toronto one up to win the Ontario Golf Association, Amateur title here for the second time.

Hustlers Trounce Lumberjacks 12-2 in Trail Softball

TRAIL, B. C., July 12—Harris Hustlers beat Merry's Lumberjacks 12-2 in a Men's Softball League game Sunday at Victoria Park.

Hustlers got away to an early lead with two rounds in the first, added three in the third, then carried on with two in the fourth, one in the sixth and four in the eighth. These counts were based on 10 hits and four Lumberjack errors.

While they were collecting these runs the Hustlers played errorless ball and chucked in a double play, and behind seven-hit pitching held Lumberjacks to lone runs in the fifth and eighth.

Graham of Hustlers fanned three and allowed two walks while Benoit of the Jacks struck out one and walked five.

Benoit and Bilesky each hit for three bags. Morris garnered a two-bagger, Bilesky two, and Graham one.

The double play was Dimock to Bilesky to Dimock.

Lineups:
Lumberjacks: H. Rothery c, D. Scodgillar 2b, J. Morris 3b, J. Benoit p, Bill Dimock ss, E. Crowder lf, T. Harrison of, Anderson rf, Smith lf.

Hustlers—Stanton 2b, Bilesky ss, Barrs Dimock 1b, rGraham p, Barr lf, McLeod c, Pagnan 3b, Howard lf, Burke rf.

Abbott Wins at Spokane

SPOKANE, Wash., July 12 (AP)—Soldier B. Patrick Abbott, a one time Hollywood small part actor now doing his stinging in the army, won the Western amateur golf championship today with a 7 and 6 victory over Bruce McCormick, Los Angeles fireman, in the 36-hole finals.

Abbott, one of the country's top-notchers since he won the national public links crown in 1926, had things his own way from the time he won the third hole this morning by dropping a 28-foot putt for a birdie 2. He was headed only once during the week-long tournament, yesterday when he lost the second hole of his 36-hole semi-final to Harry Givan of Seattle. He went on to whip Givan 8 and 7.

Expect About 60,000 Men Will Be Called in August, September

OTTAWA, July 12 (CP)—The number of men called up during July, August and September probably will total 60,000 or better, about equal to the total number drafted into the army since last October when it was decided to hold trainees for home defence duties after they completed four months' training, it was understood today.

The July requisition from the National Defence Department was set at 15,000 men and the August call was boosted to 25,000. It was said on good authority that the intention is to call another 25,000 in September, with the likelihood that in subsequent months the call would be reduced again to around 15,000.

The heavy drain on manpower for the services and war industry is known to be the subject of cabinet discussion, and there have been suggestions the situation is so critical that one minister should be given complete authority to deal with it.

A survey of unemployment recently was carried out by the Unemployment Insurance Commission. The final results of the survey have not yet been made public.

But Labor Minister Mitchell has said unemployment is at the irreducible minimum. "It is understood he feels now the situation is acute enough to warrant stiffer steps to cope with it."

On Monday, Elliott M. Little, Director of National Selective Service, is to address an Ottawa Service Club. He probably will have something to say on the manpower problem since the provision of men for vital industry is his responsibility.

TRAPPING THE UNWARY

NO WEAPON is more lethal than a "trap pass" when you are opposed to optimistic bidders. It requires will power sometimes to refrain from bidding a strong hand, but if you feel sure that doing so will cause your opponents to keep on bidding, and get away beyond their depth, it may pay heavy dividends. When they finally get the auction up to heights which their cards do not justify, then you crack it with a double.

It calls upon anybody's self-control to pass that North hand, even if he knows the other pair as a bunch of persistent bidders. It also requires confidence in one's own partner, to be sure he will keep it open if East passes.

When West rebid at 2-Clubs, North passed again because he felt sure his partner would double or bid if East passed this time. His faith was rewarded when East

himself kept it open with that call of 2-Hearts, which sounded like music to North's ears. He doubled this because he was willing to play against anything into which the opponents might flee. And of course he had no problem about doubling 2-No Trumps.

The spade 7 was led to the Q and A, and the 10 covered by the J was allowed to win, the 9 then knocking out the K. Sorely beset, East called the club 8, North playing low and South winning with the 9, to take two more spades, then lead the diamond 2 to the A. The club Q came back to the A, the diamond K won, then the club J lost to the K, and the 10 also scored. Declarer got the last two tricks, but had lost eight and was down three for a loss of 800 points, which could not have been scored except for North's trap passing.

Birtles of Ymir Now Is Serving at Medicine Hat School
Blanchard George Birtles of Ymir is now at No. 34 Service Flying Training School at Medicine Hat, serving as an airframe mechanic.
Birtles, son of Mr. and Mrs. Albert G. Birtles of Ymir, offered his services to the Royal Canadian Air Force in February, and was called the following month, arriving at the Recruiting Centre March 19.
He was formerly a mill operator at the Ymir Yankee Girl.

Whirlwinds Win Field Day Events at Camp
CAMP KOOLAREE — Grumpy Robins roused the boys to the "tune of pick up those Cracker Jack Boxes youse guys or else." Saturday B. B. Livingstone, B. B. meaning Bribe and Beat, stepped in to give the boys setting up exercises at a fast clip thus saving the day for democracy.
The mail sack is getting heavier as the boys are getting answers to their mail, the odd parcel with what Johnny forgot or the tinnies come in goodly numbers. So with the flags raised and mail distributed the boys are off to the dining hall for breakfast.
The council had to go into a huddle this morning to revamp the schedule seeing as how these little fellows have been taking too long to wash their dishes. Dish washing with 'these boys sounds something like the lines of a certain Negro spiritual which read "Sometimes I'm up, sometimes I'm down." At least that is the way the inspectors find it, good marks one meal, terrible the next.

Projects Progress
The project groups are making good headway, Don Stainton and Stuart Jamieson are completing their belts under Ernie Ball's supervision. Gaurie Garvin and crew of handcrafters under Pop McKenzie have put rustic door handles on the latrines and made other improvements. A large group are working with birch bark, while the first aiders are almost ready to show their ability. Work on the chapel seats will be completed by Sunday.
Looks like the fleet is in as one sees five boats and a canoe lining the beach. The commodore Cammie McKenzie has his hands full seeing that all get equal use of these boats. It's a banner year for the boys to be able to enjoy so much swimming and boating, not to forget the fishing. The Isaac Waltons arrived at Campfire with a couple of dozen or more grayling, suckers and trout, the latter in the minority. Chief among these fishermen were John Michaely and Tommy Bryan.
Campfire programs are proving ever popular and every night is a talent parade from the scribes through to the staff. Mr. Robins, Sr. sang, "Old Black Joe," and had the boys sing the chorus; Dave Glover played "Kiss Me Good Night, Sergeant Major," and had the boys join in the chorus. A scribe report from the Squadron Leaders and Commodore McKenzie and Marshall McDonald brought considerable amusement to the camp. An advertisement in their column run, "Do you want to loosen your neck joints? You do! Well, just watch a fast game of ping pong. This is guaranteed to work."
Field day events found the squadrons in close competition. The Whirlwind Squadron of Les Rogers' took first place with 15 points, followed by the Defiants of Hugh Urquhart and the Hellcats of Jackie Gray.
The Flying Tigers entertained the boys at Campfire with the skit "No trains today" but it was the scribes, Pilot Officers, Dougie Robertson, Keith Jamieson, Dick Radcliffe, H. Wright, Dave Glover and Bob Vallance that really stole the show.

Kimberley Cadets Go to Vernon
KIMBERLEY, B. C.—Members of the Kimberley Cadet Corps left last weekend for Camp Vernon for a week's training. They were William Muir, Ronald Fabro, Fred Miles and Alan Bond.

Cadet Camp at Vernon Grand Holiday But No Frolic, Nelson Lads Find; Manoeuvres to Marches Fill the Day
Nelson's High School and Junior High School Cadets returned Sunday night from their camp. They spent last week under canvas at Vernon. Except for rain Saturday, hot Summer weather prevailed through the week.
It was a grand camp, a great experience and a splendid holiday—but the Cadets found it was no frolic. From the day of their arrival, when they were outfitted, until breakup on Saturday they found before them a syllabus that kept them on the go continuously with field manoeuvres, route marches, drill periods and lecture periods. They were introduced to army fatigue duty, in kitchen and elsewhere.
There were many highlights in the week. Living alongside soldiers and being themselves part of the picture was one of them. Seeing the ceremony of retreat and the changing of the guard, with the band of the Irish Fusiliers playing, was another.
But the enthusiastic young student soldiers were probably more keenly interested in the displays of new arms and lectures on them; and in lectures and demonstration of means of army transportation using everything from motorcycles to "jeeps" and trucks. Some of the Cadets enjoyed rides. They also saw a motorcycle demonstration.
Route marches started fairly easily, but by the end of the week the Cadets were putting in seven to eight miles. They generally managed to finish the march on the beach of Kalamalka Lake, and the swimming was "ultra."
On Friday they practiced ceremonial drill in preparation for inspection by Brigadier Coboon, but Saturday's rain spoiled it. Instead the Brigadier visited the Cadet and spoke to the lads.
NO SERIOUS MISHAPS
There were no serious accidents, but the usual run of minor mishaps. Most of the Cadets showing up on sick parade did so to receive treatment for foot blisters, and one or two for sunburn treatment.
And there were many comic incidents, the climax probably being Friday night when the canvas of several tents tightening under the rain, poles snapped and the canvas came down on the young fellows asleep in the tents.
The camp was under command of Capt. H. P. Thompson, the officer who inspected Cadets in this district in May; and under the direction of Sergeant-Major Henry and Sgt. W. P. F. Nicholson. Sgt. Nicholson accompanied Captain Thompson on the inspection here in May; and Sergeant-Major Henry was with Major W. B. Critchley for the 1941 inspection.
Besides Roy Temple of the High School and Principal Floyd L. Irwin of Nelson Junior High, instructors attending included R. Thorsentson, Princeton; L. E. Morrissey, Merritt; and Edward Gleave, Kelowna.

Duckworth, Wilki Former Winners Tie in Golf
Three former winners, W. A. Duckworth, Lloyd Wilkins and Bud Greenwood, tied for No. 1 spot in the Nelson Golf and Country Club's weekly medal sweep Sunday. Duckworth carded a 73-67, Lloyd Wilkins an 81-14-67 and Greenwood an 87-20-67.
Another former winner, L. A. McPhail, with an 84-14-70 was alone in second place. A rainy morning cut down the early entry for the weekly divot drama, but the sunshine brought out the golfers in the afternoon and the "kitty" grew. Prizes of golf balls are provided from the entry "kitty".
Greenwood was playing with a reduced handicap, his 26 having been cut to 20 by the Match Committee . . . and still his play was good enough for a win.
Sunday guests at the Club included H. W. Matthews, N. C. P. Graves, W. R. Hornsey, all of Vancouver, T. Clarke of Kamloops, Mr. and Mrs. S. A. Walker of Kelowna, W. E. Vance of Trail, W. E. Williamson of Irricain, Alta., J. W. McBride of Edmonton, D. R. Miller of Moose Jaw, and L. D. Dougan of Toronto.
