

World War I Deaths 62,817 ... Victory in Europe Cost Canada 38,718 War Dead

OTTAWA, Aug. 1 (CP)—Defence Headquarters announced tonight that Canada suffered 103,409 casualties in the Army, Navy and Air Force including 38,718 dead and 2,365 missing since war started to June 30.

To May 31, the month the war ended in Europe, the casualty total was 102,954, showing that in June 455 casualties were recorded. But an official said this did not mean there were that many casualties in June.

The total dead increased by 754 in June for a war total of 38,718 but the missing column was reduced by 501 to a total of 2,365, indicating a shift of names from the missing to the dead list.

This would result from investigations conducted after the end of the war of casualties previously reported missing but now confirmed as dead.

Casualty rates, which reached monthly totals of between 8000 and 10,000 in the crucial fighting between July and October last year, presumably will remain at a low rate until Canadian forces destined for the Pacific theatre all are in action against the Japanese. Henceforth there will be only the normal casualties of armed forces in training and in hospitals.

There are, however, a smattering of Canadian Army observers in the Pacific, some air force personnel serving with the R.A.F. and at least one ship, the Cruiser Uganda, has been reported in action.

24,089 MOVED IN FIRST GREAT WAR

In the 4½ years of the First Great War, Canadian casualties totalled 100,000 including 62,817 dead. Intake into the armed forces up to last March was estimated at more than 1,000,000 while in the last year a total of about 630,000 Canadians served.

The Army, not generally committed in the European theatre until D-day, June 6, 1944, had the heaviest casualty total at 80,196, including 32,004 dead. The R.C.A.F. had a total of 20,746 including 14,787 dead while the Navy had 2468 casualties, including 1927 dead.

Official casualty table, in order of Dead; Wounded; Missing and Prisoner Interned, follows:

	x	y	z
Navy	1,927	435	9
Army	32,004	51,460	261
RCAF	14,787	1,352	2,065

Total 38,718 53,341 2,365 9,079
(x—includes the following deaths from natural causes: Navy 150; Army 1455; and R.C.A.F. 341.)
(y—includes the following repatriated, liberated and escaped prisoners of war: Navy 95, Army 4995 and R.C.A.F. 2447.)

Claims Child Hung by Toes From Clothes Wringer

DUNDEE, Scotland, Aug. 1 (CP)—Twelve-year-old Norman Wilson testified in High Court today that his foster parents hung his 10-year-old brother, Harry, by his toes from a clothes wringer, pulled his lips with pliers, tied him naked to a chair and beat him, and locked him in a dark cupboard.

The foster parents, Mr. and Mrs. John Walton, are charged with cruelty to the two boys, who were put in their charge last year by the Fifeshire County Council. Both deny the charge.

Norman said that on one occasion both boys were beaten "for saying the same prayer over and over again."

"We knew only one prayer," he told the court.

The trial will be continued tomorrow.

Japs Know They Have Lost the War

HONOLULU, July 31 (AP)—The Japanese know they have lost the war, but it's not nearly over as far as can be seen now, Rear-Admiral William Blandy, newly-named commander of the United States Pacific Fleet's cruisers and destroyers, said today.

"They are hoping to beat down our resistance and our will to win," Admiral Blandy told a press conference. "The current idea on the mainland that the end of the war is just around the corner is bad business."

More optimistically Admiral Blandy said the Japanese Navy is about finished and that what remained could be knocked out by air.

THANKSGIVING ON OCTOBER 8

OTTAWA, Aug. 1 (CP)—Thanksgiving Day will be celebrated in Canada this year on Oct. 8, the second Monday in that month, it was announced today.

CHINESE CAPTURE ENEMY SUPPLY BASE

CHUNGKING, Aug. 1 (AP)—Chinese troops have captured the bomb-ravaged Japanese supply base of Pinglo in South-Central China and have hurled a new force at the former United States airfield at Lingling, 370 miles Southeast of Chungking, the Chinese High Command said today.

Pinglo, blasted repeatedly by American bombers and fighters, was one of the most important Japanese supply depots in Kwangsi Province. It was recaptured last Friday by Gen. Chiang Kai-Shek's troops who had been pushing for a month toward the highway centre from Luichow, 74 miles Southwest.

The Chinese drive toward Lingling threatened the Western flank of Tokyo's transcontinental corridor from Korea to Hong Kong. On the Eastern flank of the overland supply route, a fierce struggle continued in Kiangsi Province.

Columbia Basin Could Yield \$46,000,000 Yearly

GRAND COULEE, Wash., Aug. 1 (AP)—The vast Columbia Basin Reclamation project will produce a gross annual farm income as great as that of the entire State of Utah when its one million acres have been brought under irrigation, the Bureau of Reclamation said today.

Announcing publication of a formal report by a "Joint Investigations Committee," the Bureau said the area would provide farmers with a gross annual income of \$46,000,000 at pre-war price levels.

The report said that when the project is fully developed, the value of land, buildings, livestock, machinery and supplies on the 17,000 irrigated farms would total \$118,000,000. The present appraised value of the dry land, buildings and improvements, excluding machinery, livestock and supplies, is about \$18,000,000.

The investigators said yields would be 10 per cent greater in the Basin than in the average of six other Pacific Northwest projects where physical and climatic conditions are similar.

Construction of the project has been halted by the war but it is at the top of the list of work which the Bureau of Reclamation proposes to undertake in the postwar area.

Vancouver Looks for Record Tax Collection

VANCOUVER, Aug. 1 (CP)—City of Vancouver's 1945 tax collections may surpass the 1944 record when 95 per cent of the levy poured into the city coffers.

City Treasurer James Armstrong disclosed today that up to July 31, 1945, tax collections totalled \$10,848,784, including current taxes and arrears. This total is \$205,785 above the 1944 figure of \$10,643,001 at the seven-month mark.

However, the general levy for 1945 is up \$224,000 over last year, which may prevent the actual percentage of 1945 taxes collected from topping last year's percentage by a large margin.

There are also less arrears to collect this year because arrears collections were so good last year.

CUT OTTAWA STAFFS

OTTAWA, Aug. 1 (CP)—All three of the Armed Services are reducing both uniformed and civilian staffs stationed here as rapidly as possible to help relieve Ottawa's critical housing shortage which authorities say has reached the breaking point.

RECORD B-29 FLEET HITS JAPAN

6000 TONS OF BOMBS TUMBLE FROM 800 CRAFT

5 Centres Struck in Continuation of Elimination Raids

By MURLIN SPENCER

GUAM, Aug. 2 (Thursday) (AP)—The greatest force of Superforts ever to take to the air—800—extended the battering of Japan to four more cities and a vital petroleum centre today.

More than 6,000 tons of fire and demolition bombs, probably the greatest load of destructive power ever carried on a single air mission, poured down on the forewarned cities shortly after midnight.

They were among 12 industrial and transportation hubs notified only 24 hours earlier that they were on the B-29 schedule.

This new and smashing blow came as a flagship disclosed the United States 3rd Fleet had struck at hide-out Japanese submarines, destroying or damaging at least 10, after smashing about all that was left of the Japanese surface and air navy.

A communique, meanwhile, reported an American battleship bombarded Wake Island Wednesday and carrier planes also attacked the island.

RESCUE ISLANDERS
Simultaneously, Admiral Nimitz disclosed the rescue of 283 natives from the Japanese-held island of Jaluit in the Marshalls to the South of Wake on the same day.

Bombers and fighters of the Far East Air Force added to destruction on the Japanese mainland, it was announced today in Manila, by blasting shipping and installations on and around Kyushu Island Tuesday.

The B-29's, who previous record mission was by a force of 625, attacked the Honshu Island cities of Milo, Hachioji, Nagaoka and Toyama and petroleum plants at Kawasaki, near Tokyo.

The 800-plane mission was announced in the first communique of the United States Army Strategic Air Force.

1200 TO COME
The communique declared it was a "furthering" blow—other commanders have announced heavier ones are to come—to "bomb the Japanese Empire until its war lords are forced into unconditional surrender."

Lt-Gen. Barney M. Giles, Deputy Commander of the U.S.A.S.T.A.F., declared almost as the record flight started for Japan that "soon" armadas of 1200 planes would hit the enemy homeland.

Jail and Fine for Not Reporting Changed Address

VANCOUVER, Aug. 1 (CP)—Romeo T. Jolicœur, 29, was fined \$50 and sentenced to one month in jail by Magistrate H. S. Wood, today when he pleaded guilty to a charge of failing to notify his divisional registrar of his change of address. In the event of the fine not being paid he was ordered to serve one month additional.

On a second charge of having possession of a registration card not lawfully issued to him he was fined \$50 and one month in jail and an additional month if the fine is not paid. The time in custody on each charge to be consecutive.

\$5,000 PAID BY B.C.E.R. AFTER MAN'S DEATH

VANCOUVER, Aug. 1 (CP)—Compensation of \$5000 is being paid to Mrs. Marcia Krupp, English war wife, and \$1500 to her year-old baby by B. C. Electric Railway Co., for the loss of her husband, Michael Krupp, it was disclosed in Supreme Court today.

Mr. Justice A. M. Manson approved the settlement offered by the Company as a result of Krupp's death when hit by a live wire outside his home during a storm on March 31.

GASOLINE SALES JUMP

VICTORIA, Aug. 1 (CP)—Sales to private gasoline users for June in the province were 4,268,816 gallons, an increase of 795,789 gallons over June of last year, and of 662,286 gallons over May, according to figures issued by the Coal and Petroleum Control Board today.

There was a decrease in sales for commercial purposes of 318,806 gallons, as 1,449,566 gallons were sold. Marine sales increased by 89,405 gallons to a total of 472,248 gallons, giving total sales of 6,230,728 gallons for all purposes, which is 568,388 gallons up over June, 1944.

Potsdam News Friday

COMMUNISTS PLEDGE AID TO LABOR GOV'T

LONDON, Aug. 1 (Reuters)—Britain's 60,000-strong Communist Party today pledged its whole-hearted support to the new Labor Government in "carrying out the great social changes and the policy of international cooperation for which the people voted with such decision and confidence."

The Communists, in a statement published today by their executive committee, added the warning that the "defeated Tories will do their utmost to frustrate the constructive work of the new Government" and "the people must remain on guard against acts of political and economic sabotage by the big capitalists, bankers and landlords."

This statement is made by a party which—although having only two members of 840 in the House of Commons—yields an influence in the organizations comprising the British Labor movement far out of proportion to either its individual membership or its negligible success in the recent general election.

Despite the strongest opposition by Labor and trade union leaders, individual Communists have risen to controlling positions in several national and local trade union organizations.

Strike May Close Evaporated Milk Plants at Coast

NEW WESTMINSTER, B.C., Aug. 1 (CP)—Large evaporated milk plants owned by Fraser Valley Milk Producers' Association will be forced to shut down by Saturday unless the strike of American Can Co., Ltd., employees at Vancouver is settled, W. L. Macken, F.V.M.P.A. President, said here.

Mr. Macken said in a service club address that 18 per cent of all milk produced in British Columbia is evaporated and placed in cans.

Round Up High Ranking Nazis

NEW YORK, Aug. 1—A BBC broadcast heard today by NBC said American forces in Bavaria had rounded up several more former higher ranking Nazis including Fritz Reinhardt, Secretary of State in the German Finance Ministry, and Emil Von Rintelen, who held the rank of Ambassador.

Seeks Establishment of Palestine as Jewish Homeland

LONDON, Aug. 1 (CP)—Dr. Chaim Weizmann, President of the World Zionist Organization, today called upon the Big Three at Potsdam to endorse the establishment of Palestine as a Jewish State and declared, "The need is imperative—we cannot wait."

In an address before the opening of the World Zionist Conference here, the 70-year-old Zionist leader asserted the establishment of a Jewish homeland and the immediate admission of hundreds of thousands of displaced European Jews to Palestine was "one of the fruits of victory" which the Jews had earned by their contribution to the Allied victory in Europe.

Big-3 Parley Winds Up in Cordial Ceremony

BY DANIEL DE LUCE

POTSDAM, Aug. 2 (Thursday) (AP)—Amid ceremonious farewells the Big Three conference ended at 1:30 a.m. today and a terse official statement said that the waiting world would receive a full report of the historic deliberations in a joint communique to be issued Friday.

The final session, held in a luxurious chamber of Caesarshof, former residence of ex-Grown Prince Friedrich Wilhelm of Germany, lasted two hours and was marked by an "atmosphere of great cordiality," an eyewitness said later.

Fifteen persons were seated at a round table and a total of 40 were in the conference room for the after-dinner meeting at which the phrasing of the final communique was agreed upon, the observer said.

SING MUTUAL PRAISE

This done, Prime Minister Attlee proposed a vote of thanks to Premier Stalin for the fine accommodations and to the Foreign Secretaries for their fine work.

Premier Stalin paid tribute to the British and American delegations, and especially to the Foreign Secretaries, and in the course of his remarks gave generous mention to Mr. Attlee, Mr. Truman, Foreign Secretary Bevin, Winston Churchill and Anthony Eden, former British Foreign Secretary, by name.

Mr. Truman also uttered high praises for the heads of the foreign offices of the three powers who daily had prepared the questions to be given consideration by the Big Three.

To the end the leaders of the world's three most powerful nations adhered to the self-imposed secrecy behind which they have worked here since July 7.

An Army Public Relations Officer said the official communique covering the actions of the conference would be made available to correspondents sometime tonight (Thursday) for study, but that release would be made simultaneously Friday in London, Washington, Moscow and Berlin.

The full score of what was accomplished may not be disclosed for a considerable time—perhaps not before a decisive turn is reached in the Japanese war.

In that respect, the Potsdam talks may be akin in tone to those at Tehran two years ago, where the coordinated blow from East and West against Germany were agreed upon.

\$85 Billion Budget Issued by U.S.

WASHINGTON, Aug. 1 (AP)—A revised federal budget of \$85,000,000,000 was issued today on the assumption the war in the Pacific will roar on until next Summer or longer.

Spending by the United States Government now is forecast at \$85,000,000,000 in the fiscal year 1946, which began a month ago. A record breaking \$100,000,000,000 was spent in fiscal year 1945.

EMPIRE'S KING, U. S. PRESIDENT TO MEET TODAY

PLYMOUTH, England, Aug. 1 (AP)—King George and President Truman will meet tomorrow at this ocean gateway to exchange greetings symbolic of the comradeship welded on battlefields by their fighting men.

The President plans to fly to Plymouth tomorrow from Potsdam. The King entrained from London tonight.

For Britain, tomorrow's meeting of the King and President will be far from the welcome she had hoped to extend to the American leader. Court functions will be eliminated due to demands of the Pacific war calling Mr. Truman home immediately.

The plans call only for Mr. Truman to lunch with the King aboard the famed battleship Renown, with His Majesty later being piped aboard the United States cruiser Augusta to inspect a guard of honor.

Queen Elizabeth will not accompany the King.

Mr. Truman will fly to Plymouth in the specially-constructed transport President Roosevelt used so often in his trips. He will board the Augusta, and about noon will transfer to the 32,000-ton Renown for lunch with the King. After he returns to the Augusta, the King will come aboard the American ship to take leave of the President. Then the Augusta and the United States cruiser Philadelphia will sail for the United States.

Several Killed by Lightning

MILWAUKEE, July 31 (AP)—Two teenage baseball players and their manager were killed and four others were injured tonight when struck by lightning while playing at a Milwaukee county field.

Capt. James Flatley of the Sheriff's Department said the dead were Peter Hillstrun, 16; William Simerline, 16; and Raymond Phillips, 40, the team manager. Richard Johnson, 16, was in hospital and three others were revived at the field.

Meal for Four Cost \$185, But It Doesn't Any More

PARIS, Aug. 1 (CP)—The meal for four cost \$185, but the Canadian Provost Corps men closed up one of Paris' worst black market restaurants and finally ate for nothing.

It was a raid on the Paradoux Restaurant on Boulevard Murat. Working in cooperation with the French Police Economique, Capt. Conrad Beaulne of Timmins, Ont., phoned his friend the Count de Sudor, invited two women companions, and booked a table at the high-priced eatery.

The bill for four came to 8,300 francs; that's about \$185. Just after Beaulne paid, the French police rushed in with L.-Cpls. Rene LaFlamme and John Dickinson (both of Montreal) and slapped the handcuffs on the proprietors.

Provosts LaFlamme and Dickinson, searching the Paradoux, found huge stocks of Army rations, thousands of Canadian and American cigarettes and several roasts of black market meat.

In court, the Paradoux was ordered closed for three years and the owner fined 2,600,000 francs.

Spread of Packers Strike Threatens

By The Canadian Press

One thousand employees of the Swift Canadian Company meat packing plant in Toronto will go out on strike Friday morning, unless the far-reaching packing strike in Canada Packers plants is settled before that time.

Members of the United Packinghouse Workers of America (U.P.W.A.), employed by Swifts voted unanimously last night to take sympathetic strike action.

The vote came only a few hours after Ontario Labor Minister Charles Daley opened discussions with U.P.W.A. leaders and J. S. McLean, President of Canada Packers, where the strike action started July 24.

Mr. Daley stepped into the dispute after negotiations between the company and union in Toronto had broken down completely and sympathy strikes were in effect in four other cities and new strikes were threatening.

OTHERS MAY WALK OUT TODAY
With 6300 Canada Packers employees already idle, more than 2500 union members in Winnipeg, Regina, Saskatoon, Prince Albert and Moose Jaw, Sask., are preparing to walk out today.

If a settlement is not reached, approximately 10,000 packing house workers in nine cities will be on strike by Friday.

Informed that the Winnipeg strikes called for this morning would start as scheduled, Fred Dowling, National Director of the U.P.W.A., said last night "if the Western plants go out, the situation will be pretty close to a general strike in the meat packing industry."

He added, however, that he would "wait and see" whether the Western strikes are called, inferring possible postponement until the Daley conference is completed.

The opening discussion between Mr. Daley and the affected parties adjourned late yesterday with no statement issued, although Sam Hughes, union organizer for the U.P.W.A., quoted the union's National Director, Fred Dowling, as saying the first question "didn't get anywhere."

One union official estimated the Toronto Canada Packers—"by far the largest of them all"—is at least 80 per cent tied up.

Today's strike action in Western Canada will bring in two plants of Swift Canadian in Winnipeg and Moose Jaw, and three of Pat Burns and Company, who with Canada Packers form the "Big Three" of the Canadian meat packing industry.

Half a dozen smaller companies will also be affected by strikes called by U.P.W.A. locals.

Conducting a Whirlwind Campaign, No Doubt

ALEXANDRIA, Ont., Aug. 1 (CP)—Dr. Richard Monahan of Sharbot Lake, Ont., once opponent of Prime Minister Mackenzie King in the Aug. 6 Gleanery by-election, paid another flying, speechmaking visit to Alexandria today but left most of his time for the women in front row.

Spurred to the rear seats of his car while a woman in front row read a prepared speech over the loud speaker on top of the auto, Dr. Monahan sped through Alexandria at such a rate that no more than one sentence of the address was heard by any one person.

VANCOUVER HAS ENOUGH MEAT FOR "DAY OR TWO"

VANCOUVER, Aug. 1 (CP)—Re-decorations. A decorated pink and sufficient to last a day or two but the present strikes in packing plants could cause a shortage by the end of the week, a survey of butchers showed today.

Bacon and smoked meats are especially short, together with pork and good quality beef. Most butchers have enough veal to last for a while longer.

Survives Quarter Mile Fall Into Ocean

WITH U.S. 3RD FLEET OFF JAPAN, July 31 (AP)—Lieut. Alvin E. Levenson was blown out of his airplane in a mid-air collision, then survived a quarter-mile free fall into the ocean.

Levenson said today he was piloting a Helldiver when his airplane collided with another and exploded. Hurling from his cockpit he fell 1200 to 1500 feet into the ocean when his parachute failed to open, striking in a sitting position. He stayed afloat three hours until a Naval patrol craft rescued him.

After Levenson returned to his carrier, he found he had a severed tendon in his left foot, a cut muscle in his arm and was suffering from burns and shock.

No Rehabilitation Worry When Servicewomen Wed

VANCOUVER, Aug. 1 (CP)—Matrimony will help in easing the problem of rehabilitation for ex-servicewomen. G. M. Morrison, Supervisor of Veterans' Placement Operations, Unemployment Insurance Commission, Ottawa, said at the B. C. conference of Citizens' Rehabilitation today.

Mr. Morrison said that at Brandon, Man., 26 women have been discharged from the forces. Twenty of them were married and only six asked for jobs.

Veterans to Replace 12 Coast Temporary Police

VANCOUVER, Aug. 1 (CP)—Twelve "temporary" Vancouver constables have been given dismissal notices to make way for regular members of the force who will be discharged from the armed services shortly. Since the war started about 80 men have been employed as temporary constables.

Fighters Keep Flames From Water Supply

PORTLAND, Aug. 1 (AP)—Wrecks fighting the major outbreak of the great Tillamook country forest fire in Northwestern Oregon reported today that the Forest Grove water supply was safe—for the time being.

They checked the advance of flames that threatened the city water reservoir and wooden pipes leading to it from the mountains. But a growing East wind and continued lowering humidity made new outbreaks there and on other sectors a probability.

Meanwhile, nearly 1000 replacement troops were sent to the front to relieve men who have been on the front two or three weeks.

Although aerial reconnaissance is blocked by smoke, fighters estimated more than 135,000 acres have been blackened by the series of fires. They are close together and are inside a perimeter that surrounds nearly 220,000 acres.

DELAY LAND BUYING SOLDIERS ARE URGED

VANCOUVER, Aug. 1 (CP)—Soldier settlers should delay buying land as long as possible because of inflated values, E. B. Reid, Public Relations Director, for Department of Veterans' Affairs told the Provincial Rehabilitation Conference here today.

Many citizens are buying farm and country homes to dodge income taxes and this has boosted prices, he said.

Under the Veterans Land Act, the settler has a 47 per cent equity in his farm at present inflated values, Mr. Reid said, but there was danger that a recession would leave the veteran with "100 per cent debt" instead of only 53 per cent.

TOAST-TEA

Bill Dickey, formerly of the Yankees, and now in the United States Navy, was one of the greatest catchers in baseball history. He was also one of the most tactful of professional athletes, rivaling Joe Louis for top honors. His longest recorded speech was when he accepted a plaque awarded the best player of the year by the Baseball Writers. Dickey said: "It shores is pretty much obliged." The night the last World Series in which he was to take part ended, all the players fell of the water wagon with resounding splashes. In the course of the evening an officer in uniform whom Dickey had not seen in twenty years, slapped him on the back and said "Remember me, Bill!" Bill regarded him for a moment and then remarked: "Don't recall the name at the minute. But you sure were a sucker for a high curve inside."

Home Building Ranks in Importance With Munition Manufacture—Hsley

OTTAWA, Aug. 1 (CP)—Steps being taken by the government to speed up housing construction were reviewed in a joint statement issued tonight by Finance Minister Hsley, Reconstruction Minister Howe and Labor Minister Mitchell.

"We regard the expediting of this program, which will provide many homes for returning veterans, as ranking in importance to the production of munitions for the war against Japan," Mr. Howe said.

"It is the government's intention to see that new homes to be available to veterans either by government action or private building. Until such time as private capital can undertake construction of low cost of veterans and their families, low-rental homes, especially for the Wartime Housing Ltd., a crown company, will undertake to provide them."

DEPENDS ON LABOR

Reasonably priced homes for sale to veterans rank next to low-rental homes under Finance Minister Hsley's plan of integrated housing development. Such homes will be built to the extent that materials and labor are available after meeting the primary need for low rental accommodation.

No restrictions now exist on the manufacture of building materials and equipment and the Labor Department has undertaken a survey to obtain information on both housing shortages and shortages of building tradesmen. The joint statement of the whole key to increased production of new homes rests in the flow of labor into the building supplies factories and into the building trades.

"Shortages of building workers are being felt pretty well across Canada," Mr. Mitchell said. "White

the present housing situation is of very pressing urgency—particularly to provide homes for veterans—the Labor Department feels that with the cooperation of workers and contractors the situation can be met."

Mr. Howe said substantial quantities of scarce sheet steel were being made available for manufacture of furnaces and stoves and everything possible was being done to step up the output of suitable lumber. Certain building materials—particularly hardwood flooring and finishing lumber—continued in a short supply and substitute flooring might have to be used in many instances.

STEP UP OUTPUT

The Prices Board has reported an increased production in plumbing supplies and a good supply of cement, stone and gravel, asbestos, and paint now was available. Bricks continued in short supply but this condition was expected to improve. "Electrical equipment, with the exception of electric stoves, is adequate and the production of stoves is increasing," the statement continued. "Building hardware in general is improving, and although cast iron soil pipe is still very scarce, the industry has been given the highest labor priority and as more labor becomes available the supply will ease. Substitutes are available for wooden shingles, which are in short supply, while production of roofing paper is increasing. The Prices Board also looks forward to an increase this fall in the manufacture of furnaces and heating stoves."

Control permits for home building are being issued freely, subject to square feet area and material restrictions. The control is also continuing to restrict the installation of extra bathrooms and other facilities not immediately necessary and is not granting permits for the construction of Summer cottages.

Nakusp Red Cross Plans Jam Project

NAKUSP, B.C.—The July meeting of the Nakusp Red Cross society was held in the K.P. Hall Thursday afternoon with Mrs. Rushton presiding.

The making of jam products was again under discussion. The proceeds for the Thrift Shop reported \$38.75 had been raised during the month of July and asking for further donations of books and clothing. A vote of thanks was extended to Mrs. G. P. Horsley for the delightful piano recital given by her pupils in aid of Red Cross funds.

The sum of \$20 was received from the Nakusp Red Cross Society for the "jam" project. Afternoon tea was served at the close of the meeting. Mrs. Rushton and Mrs. McCulloch were tea hostesses.

DR. G. W. REA PRESIDENT OF TRAIL RIDERS

BANFF, Alta., Aug. 1.—Dr. George W. Rea of the University of Saskatchewan at Saskatoon, was elected President of the Trail Riders of the Canadian Rockies, at a pow-wow concluding the 22nd annual camp of the international association of horsemen and nature lovers at Baker Creek, 12 miles North of Lake Louise. Dr. Rea succeeds Keith E. Hoffmeyer, Indianapolis, who led the parties of riders to the Baker Creek camp July 20-24 and July 27-31. Baker Creek was a fixed camp, marking a departure from the former custom of having progressive camps through the Rockies, and this year also saw the innovation of two camps instead of one to take care of riders from all parts of the U.S.A. and Canada.

New Vice-Presidents elected were J. O. Munnell, K.C. of Toronto; Dr. Harold W. Price, Calgary, and Miss Helen Harbison, Philadelphia. H. Travers Coleman, Winnipeg, was re-elected Secretary-Treasurer, and editor of the official bulletin. Added to the Council were Elizabeth Baunt, Toronto; Ethel Knight, Banff; Mrs. Ruth Mill, Hollywood; C. C. Jock Smith, Vancouver; Eaton Cromwell, New York; Dr. E. L. Myer, Moose Jaw, and Miss Rosalind Fisch, Minneapolis. Miss Kay Spaulding, Calgary, was added to the executive committee.

Japs Raid Aussie Positions

MANILA, Aug. 1 (Thursday) (AP)—Japanese planes lightly raided Australian positions at Miri and Brunel Bay, Northwest Borneo, on Tuesday, but caused no damage, a communique said today. This was the first reported Japanese aerial attack on either area since Australian troops landed there June 10. Mean time, long range patrols of the Australian 7th and 9th Divisions probed Japanese defences in the Balikpapan and Brunel Bay sectors, extending their gains further inland.

SAWMILLS TAKE BOMBERS 18-1 AT CRANBROOK

CRANBROOK, B.C., Aug. 1.—Sawmills took a pushover 18-1 win from Bombers tonight in a sloppy display of softball. Millers' big inning was the opening, when they established a 7-run lead, mostly in errors, then widened it every inning but one. Bombers' only run was made by their first batter, Doug Mitchell, in the first play of the game.

Leahy Unable to Appear...

Believes Petain Acted in Best Interest of France

PARIS, Aug. 1 (AP) — Admiral William D. Leahy, Chief of Staff to President Truman, expressed the belief that Marshal Petain always acted in the best interests of France in a letter read today at the treason trial of the old soldier.

UNABLE TO APPEAR
As read in court the letter of Admiral Leahy, now attending the Big Three conference at Potsdam,

expressed "high regard" for Marshal Petain and said he was unable to appear as a witness because of his position. He had been U. S. Ambassador to the Vichy Regime of Marshal Petain until the Germans took over the uncoupled portions of France in November, 1942, when North Africa was invaded by the Allies.

The old soldier's counsel said that Pierre Laval, described yesterday as Marshal Petain's "evil genius," would be summoned as a witness.

As Gen. Maxime Weygand returned for further cross-examination, bearded Prosecutor Andre Mornet demanded that "we return to the essential facts of the Petain trial" and avoid a repetition of yesterday's session when Gen. Weygand, Marshal Petain and former Premier Paul Reynaud engaged in bitter recriminations.

"This is not a trial of the armistice," said the prosecutor who sent Mata Hari before a firing squad in the First Great War. "The armistice is only a preface to the accusation. Petain's treason would have been impossible without it. His treason began on July 11, 1940, when he plotted against the Republic. At that moment Petain outrageously violated his responsibilities to the Republic."

PRESENT DOCUMENTS
Once again, he promised that written documents — unknown to most people — would be presented, constituting "the true basis for this action."

Admiral Leahy's letter, dated July 22, was in reply to Marshal Petain's request that he return to France as a witness.

The Admiral wrote he recalled that on many occasions he had heard Marshal Petain express a desire to see the Nazis overwhelmed.

After the letter was read, Chief Judge Paul Mongibeaux asserted: "There is one sentence against Petain in that letter."

The defence protested and Judge Mongibeaux did not explain the sentence to which he referred.

TAKE ACTION
Admiral Leahy's letter said that while he was Ambassador to France "You did, on occasion at my request, take action in opposition to the desires of the Axis and favorable to the Allied cause."

"On every instance when you failed to accept my recommendations to oppose the Axis powers by refusing their demands, you stated the reason was that such positive action by you would result in additional oppression of your people by the invaders," the Admiral continued.

"I had then, as I have now, the conviction that your principal con-

cern was the welfare and protection of the helpless people of France. It was impossible for me to believe that you had any other concern.

"However, I must in all honesty repeat my opinion, as expressed to you at the time, that positive refusal to make any concessions to Axis demands, while it might have brought immediately increased hardship to your people, would in the long run have been advantageous to France."

(It was to this last passage that the Judge apparently alluded.)

Judge Paul Mongibeaux and M. Mornet both attempted to prevent a continuance of the running debate between Gen. Weygand and M. Reynaud, but it broke again after Armand du Chayla, Minister to Luxembourg, testified briefly. He was counsellor of the French Embassy in Madrid while Marshal Petain was Ambassador and he denied the old soldier had plotted with Gen. France.

As he finished, Gen. Weygand and M. Reynaud both rose. The little general, who commanded French forces at the time of the collapse, declared:

"Reynaud made some grave accusations against Marshal Petain and myself yesterday. I demand the right to reply."

The court, instead, allowed M. Reynaud to begin a statement which he said was "proof that Petain and Weygand put their ambitions ahead of their country."

"From the day he took the Supreme Command, Weygand thought of using his power for political aims," M. Reynaud—who appointed Gen. Weygand a month before the armistice—said, "Gen. Maurice Gamelin told me of Weygand's attitude when he took command."

SECRET OF FOCH
Gen. Weygand burst into laughter when M. Reynaud asserted that on the day he assumed command, he went to see Gen. Gamelin, his predecessor, and told him, "I have the secret of Foch." Gen. Weygand was Chief of Staff to Marshal Foch, hero of the First Great War.

M. Reynaud continued that Gen. Gamelin told him Gen. Weygand had said: "We must finish with these politicians. One is no better than the other."

Spectators laughed. M. Reynaud looked displeased.

M. Reynaud asserted Gen. Weygand, when asking for an armistice, declared: "We must keep the Army intact to maintain order within the country." He quoted Gen. Weygand as saying: "The Ministers of the Cabinet are crazy. They have understood nothing. We will have to arrest them."

A murmur of protest swept the audience when M. Reynaud declared:

"Petain and Weygand had the same object—to force France to capitulate. We are in the presence of a General who wanted an armistice at any price."

REGRETTABLE LACK OF COURAGE
When Gen. Weygand was allowed to speak, he said:

"Gamelin was not the type of man I would have for a confidant. Reynaud, at the moment when his feeble shoulders were unable to bear the heavy burden, called on Petain and me. When he disagreed with us, he always had the right to dismiss us. Instead, he resigned. At the moment when he was placed in the most difficult position any Premier could have been in, he showed a regrettable lack of courage."

Judge Mongibeaux sharply ordered both Gen. Weygand and M. Reynaud to withdraw and said: "This incident is closed."

Gen. Hering, former Military Governor of Paris, took the stand to give a "personal portrait" of Marshal Petain. He testified it was impossible to compete with Germany's progress in war construction because of outdated industrial machinery, Parliamentary disputes and lack of decision.

NOT INTERESTED
As he appraised the Marshal, five jurors began reading newspapers, one started a crossword puzzle, two fell asleep and two more leaned back in their chairs staring at the ceiling.

"Petain's main idea was always to keep the Germans out of North Africa," Gen. Hering said. "His policies permitted our Anglo-American Allies to arm themselves. Even the Germans called him an old fox."

Speaking of Gen. de Gaulle, present head of the French Government, Gen. Hering said:

"I appreciate his good qualities, but they do not make me forget the great importance of the things Petain gave to France. De Gaulle and Petain had complementary roles. We can thank God we had them both."

Judge Mongibeaux interposed to ask why Marshal Petain permitted General de Gaulle to be condemned to death. Defence Council said Marshal Petain opposed the action.

Bernard Chaudet 34, official of the Federation of Resistance Organizations, demanded the right to speak. He said the men who fought clandestinely during the occupation "are convinced that Petain voluntarily tracked us down and handed us over to the Germans."

"The greatest treason Petain has committed is the horrible suspicion he has planted in the hearts of Frenchmen," M. Chaudet concluded.

Gen. Alphonse J. Georges, Commander of French Forces in the field during 1939 and 1940, then testified about the military situation just before the armistice.

Gen. Georges, second only to Gen. Gamelin and then Gen. Weygand in French command, supported previous testimony of Gen. Weygand about the military situation and said:

"Churchill promised us one division in two or three days and others at some unspecified time."

Cross-examined by the judge, he said he knew of the controversy between Gen. Weygand and M. Reynaud over the armistice, but that "Weygand took the only possible action."

"A military surrender would have been infamous and contrary to all

Four-Year-Old Found After Missing 3 Weeks

MERIDIAN, Miss., Aug. 1 (AP)—Detective Chief T. D. Arbour said today police had recovered four-year-old Peter Watson of Crystal Beach, Ont., who had been reported missing from Buffalo, N. Y., since July 3, and the object of a wide search.

Chief Arbour said the boy was found today at a bus station here in the care of a woman Chief Arbour listed as Mrs. Evada Florence Jones 24. He said Mrs. Jones was being detained under a fugitive warrant pending the arrival of Buffalo officers.

He said Mrs. Jones told him the child's mother, Mrs. Evada Watson, 40 of Crystal Beach, had given her custody of the boy for 30 days, about July 1 and she was preparing to leave for Baltimore with him today.

Meantime Detective Chief Thomas V. Meegan at Buffalo said a warrant charging kidnapping had been filed against the woman there under the name of Mrs. Mary Taylor, in connection with the disappearance of the boy.

Death Total Rises to 14

NEW YORK, Aug. 1 (AP)—The toll in the crash of a B-29 bomber into the Empire State Building on Saturday rose to 14 today with the death of Joseph C. Fountain, 47, a national Catholic Welfare Council employee who received burns trying to aid other workers in the office to safety.

Fountain survived 96 hours, during which he received 25 blood plasma injections. More than 600 persons responded to a plea for donations for him.

A message of condolence from Pope Pius to the families of the victims was read by Archbishop Amleto Cicognani, Apostolic delegate at Washington, at a solemn requiem high mass at St. Patrick's Cathedral for Welfare Office victims.

Will Not Upset Election

OTTAWA, Aug. 1 (CP) — Election experts, commenting on a statement by A. C. Smith, Saskatchewan organizer of the C.C.F. that a letter was going forward to Jules Castonguay, Chief Electoral Officer, asking for an investigation into alleged irregularities in Melville constituency in the recent Dominion elections, said today that such an investigation would not upset an election.

If a commissioner appointed by Mr. Castonguay found irregularities in Melville, all that could be done would be to prosecute those responsible for the irregularities. Any attempt to void an election has to be taken under the reconverted Elections Act, and is a procedure before the courts in which the chief electoral officer has no part.

The recount in Melville gave Agriculture Minister Gardiner a majority of 28 over H. J. Benson, C.C.F. candidate. Should Mr. Smith seek to test the validity of the election it would be necessary to proceed by petition before the courts after putting up a deposit of \$1000 as security for costs, this official said.

our military traditions," Gen. Georges said.

Gen. Georges said Mr. Churchill told him the French armistice had done Britain "good service." He recalled a conversation with Mr. Churchill at Marrakech Aug. 1, 1944, in which he said the Prime Minister declared:

"In June, 1940, after the battle of the North, England had no arms, no tanks and few guns. The armistice did us a good service. If the enemy had gone through North Africa and attacked Egypt, we could not have stopped them."

FIVE YEARS IMPRISONMENT

Gen. Paul Vautier followed Gen. Georges to the stand and said he had just returned from five years imprisonment in Germany. He said he served Marshal Petain for five years in a military capacity and was with him in Spain.

He cited the Marshal's work in building up the Army, especially in aviation and said the Marshal demanded in 1933 the building of 1,000 bombers.

Interpreting THE WAR NEWS

BY JAMES D. WHITE
Associated Press Staff Writer

Did Japan's Premier Suzuki reject the Allied surrender ultimatum outright?

Study what he said and you may question the general assumption that he did.

He probably meant to give the impression—that would be for the Japanese people and anyone else interested in believing him.

For Allied governments, however, his remarks contain overtones which easily can add up to this: "Yours of July 28th received and contents noted. No reply now due to pressure of business, etc."

What Suzuki actually may have said was filtered through the Tokyo radio Monday. The broadcast was heard by the Federal Communications Commission and released in part by the United States Office of War Information. Assuming the O.W.I. gave out all important parts, here's the gist of what Suzuki said of the solemn Anglo-American-Chinese warning to surrender now before it's too late:

Cool Off After Mopping Pavement

PICKERING, Ont., July 31 (CP)—Chief Constable John Irvine calls it "country justice."

It went into effect when he found two couples splattering themselves and the buildings of Pickering with eggs and bottles.

"I made them get a mop and pail from the hardware store," the Chief said. "I had them scrub the streets and made them get down on their hands and knees to make sure they got the last traces off the pavement."

After that, he said, they "cooled off."

Believe Wide Agreements Reached

BY JOHN KIMCHE
Associated Press Staff Writer

LONDON, Aug. 1 (Reuters) — There is widespread satisfaction in London at the prospect of a considerably wider margin of agreement at Potsdam than was thought possible when the conference was interrupted last Wednesday.

When the meeting marked time to enable the then Prime Minister Churchill and Labor Leader Attlee to return to London, it was understood in diplomatic quarters that substantial deadlock prevailed almost over the entire field of discussions.

The main differences were believed over the future administration of Germany and Poland's frontier on the Oder and Neisse. Strong differences had also arisen in the discussions on reparations where the interpretation of what the Russians called "war booty" was believed to be one of the main stumbling blocks.

The question at issue was whether machinery and cattle, removed from both enemy and liberated countries by the Russians, was to be deducted from the Russian claim of compensation. The Russian view, it is believed, is that war booty taken in the course of battle has nothing to do with reparations.

The third major issue discussed prior to Mr. Churchill's departure from Potsdam was the Russian claim for the revision of the convention regarding control of the Dardanelles. The Russians, according to informed diplomatic quarters, put forward two separate claims.

The first proposed a revision of the Montreux convention to which all non-enemy signatories would be parties. This proposal would rectify a number of points in the control of the Dardanelles which have become outdated but did not propose any startling changes.

NO FINAL AGREEMENT ON DARDANELLES

It was the second Soviet proposal regarding the Straits, according to these reports, that created the deadlock. This is said to have proposed a bi-lateral treaty between the Soviet and Turkish Governments in which the Turkish Government would provide bases for the Soviet Union on Turkish soil. The British and American view, it is believed, was that such a matter was of concern to all the powers and should not be negotiated with Turkey alone.

Some of these deadlocks have been overcome, according to well-informed quarters. Agreement has been reached on the future administration of Germany and also on Germany's Eastern frontier with Poland.

The Polish deputation was heard by the three Foreign Secretaries and afterwards, it is reported, Foreign Commissar Molotov strongly supported the Polish claim which included the city of Stettin. According to reliable information agreement has been reached in Potsdam on this frontier, but it is not clear yet whether this applies to the full Polish claim or not.

It is believed that no final agreement has been reached on the Straits question and on the reparations settlement and that discussions will continue between the Foreign Secretaries—State Secretary Byrnes, Foreign Secretary Bevin and Mr. Molotov—who in any case will in future take over much of the work previously delegated to the Big Three themselves, according to informed Labor circles in London.

Bingham to Succeed Bailey at Camp Borden

OTTAWA, Aug. 1 (CP) — Command of the Canadian Armored Corps training establishment at Camp Borden will be taken over by Brigadier John F. Bingham, 33, of Winnipeg and Victoria, on his return shortly from overseas, Defence Headquarters announced today.

Brig. Bingham, a permanent force officer who was a lieutenant in 1939, succeeds Col. C. E. Bailey who has retired to civilian status.

The new Borden commandant became a captain with the Lord Strathcona's Horse in 1940 and was made a major overseas the following year. In 1942, he was second in command of the 1st Armored Regiment (Royal Canadian Dragoons) and later assumed command with the acting rank of Lieutenant Colonel.

In 1944, he was transferred to the command of the 12th Armored Regiment (Three Rivers, Que.), and later, with the acting rank of Colonel, to be second-in-command of the 2nd Canadian Armored Brigade.

His promotion to the acting rank of Brigadier coincided with his appointment as Commander of the 2nd Canadian Armored Brigade and by December last year he was appointed Brigadier Royal Armoured Corps at headquarters of the 1st Canadian Army in Northwest Europe. Confirmation in the rank of Brigadier came in April of this year.

Docking at Quebec Saves Time for Returning Men

MONTREAL, Aug. 1 (CP) — Transport Controller Lockwood said in a statement today that "the saving in the turn-around of sleeping car equipment fully justified the handling" of the troopship Stratheden at Quebec.

The statement was issued shortly after Mr. Lockwood returned from Quebec where the Stratheden arrived Monday night to become the first returning troopship to dock there in this war. It added that the Stratheden was "the forerunner of quite a number of ships that are now scheduled to come to Quebec for the balance of the shipping season."

U.S. Air Force to Give London Farewell Salute

LONDON, Aug. 1 (AP) — The U. S. 8th Air Force, which flew in and out of England for nearly three years, but seldom over London, will give Londoners a farewell salute today by demonstrating its combat flying formation that baffled the Germans.

Never Relax in Gopher Destruction

EDMONTON, Aug. 1 (CP)—J. H. Brown, Director of Rocky Mountain Spotted Fever and Sylvatic Plague Survey, said here last night that Alberta farmers must never relax their vigilance in the destruction of gophers.

He said potential threat of an outbreak of sylvatic plague, also called bubonic plague or "black death," is a serious reality in this province, where an area of 2000 miles in the South central and Southeastern sections are known to contain gophers with the plague germ. He added that this is the largest single block of country on the continent that has been found to harbor germ-infested animals.

The common rat is also a carrier of plague germs, Mr. Brown said. An inquiry conducted by the Department of Health revealed that rats are steadily approaching Alberta at the rate of about three miles a year from Central Saskatchewan.

Asks All Poles Abroad to Come Home

LONDON, Aug. 1 (CP)—The new Polish government, in a radio broadcast today from Warsaw, asked all Polish citizens now abroad to come home at once and said Poles who fought in the war would be "accepted and admired as heroes."

"Now that a government has been formed that is recognized as the legal representative of the Polish Republic by all major powers, every Pole, for whom the most important thing is the future of his country, must submit himself to the only legal Government," the broadcast said.

The Polish Government will provide necessary facilities to get to Poland, the broadcast added.

B.C. Police Will Handle Vernon Case

VERNON, B.C.—Sgt. R. S. Nelson of the Vernon Provincial Police Department will handle the Crown's case at a preliminary hearing of a manslaughter charge against Thomas Higgins in Salmon Arm this week. Higgins was charged in connection with Dorothy Kahn of Salmon Arm, who met death when an automobile driven by Higgins careened off the highway.

Lien Act Effective September 1

VICTORIA, Aug. 1 (CP) — Warehousemen's Lien Act, passed at the last session of the Legislature, will come into effect in British Columbia Sept. 1, by proclamation, Hon. R. L. Maitland, K. C., Attorney-General, said today.

Mr. Maitland explained the Act will place a warehouseman's receipt in the category of a negotiable instrument, and will facilitate commercial transactions.

The new B. C. legislation has been drafted along the line of uniform legislation prepared by the conference on uniformity of the Canadian Bar Association, seeking uniform law throughout Canada on this subject.

Brandon Workers Plan Strike

BRANDON, Man., Aug. 1 (CP)—Workers at the Brandon Packers Ltd., employing about 100 men, plan a walkout for next Monday unless a settlement of the strike of packing house workers in Toronto is settled, company officials reported today.

Plant officials ordered a halt in the delivery of all livestock until the situation is clarified. The bulk of the Brandon plant's business is for overseas shipment.

How Buffalo Was Protected

BUFFALO, N. Y., Aug. 1 (AP) — The U. S. Army has permitted disclosure of how Buffalo was protected against possible Nazi air raids until the danger vanished.

In 1943 and 1944, the city bristled with more than 85 anti-aircraft installations manned by 2000 troops, the Buffalo Evening News disclosed yesterday. The Army had required secrecy because Buffalo's defensive units were shifted to offensive duty overseas.

Had they come, Nazi raiders would have been met with 2200 tons of explosives every 60 seconds, the newspaper said.

No "Soft" Peace for the Japanese

The bestial delight of the Japanese in their "victories" and raping and murder in the unprovoked war against the Chinese, in the treacherous attack on Pearl Harbor while Japanese diplomats lulled American sentiment by peace pretences in the negotiations at Washington, and in the murder of thousands of American, British, Dutch, Bavarian and Filipino prisoners of war and civilians, has changed to efforts to obtain a soft peace from the Allies. While their opponents were weak the Japanese behaved like the savages they are; now that the tables are turned they are appealing for "liberal" peace terms. The Japanese navy has been wiped out or neutralized by the tremendous American naval-air campaigns, aided recently by the British. Their air force is either short of fuel or of pilots, or has lost its aggressive spirit, as many more planes are being destroyed on the ground than in the air. The Japanese army is still tremendous in numbers, and can still be made to fight to the death, but without naval protection against landings or effective air coverage its fate is inevitable.

Japanese cities are being flattened from the air. The huge properties and the great industrial families which now control the Japanese government are being destroyed. The men in the government, or who control the government, now that the navy and air force have been whipped and the army cannot hope to win, realize they must make peace or suffer the complete destruction of the industries out of which their wealth has been built. They have failed in their attempts to enslave the Orient and further increase their wealth, and now want to save what can yet be saved out of the disaster they have brought upon themselves and Japan.

Their false penitence will deceive no one. Nothing less than total and unconditional surrender will be accepted by the people whom the Japanese have so terribly injured.

Family Allowances in Great Britain

The British Family Allowance Bill will provide a minimum of five shillings (about \$1.12) per week to all children under 15, commencing with the second child. All families will be eligible.

In several important respects, the British Family Allowance Act differs from the Canadian. The latter provides a more generous per family allowance, and it is payable to all children in the family, under 16 years of age. The British act exempts the first child. The money is to be paid to the mother in practically all parts of Canada, whereas in Britain the act specifies that the money "shall belong to the man, although the allowance may be receivable by the man or the wife if they are living together."

There are differences in the nationality and residence requirements in the two countries. The British law limits the allowance to children resident in Great Britain, one of whose parents is a British subject born in Britain, and thus excludes not only aliens, but also families of English parents born overseas, and naturalized aliens. Under the Canadian act all children are included if they have lived in Canada from birth, or if they have been resident for three consecutive years immediately before the date of registration. In Canada the allowance is payable also to servicemen's children who were born overseas and who are now living in Canada.

Under the Canadian act, family allowances are payable to children of servicemen in receipt of aid under the Dependents' Allowance Act, or to families with children under 16 in receipt of unemployment insurance or Dominion pensions. The British bill provides that the allowance may be reduced or withheld from families receiving service allowance for children.

No duplication of payment is permissible of allowances to children under existing insurance schemes (Workmen's Compensation Acts, Unemployment Insurance and the Contributory Insurance Act). Furthermore, the British family allowance payments will be taken into account in fixing the amount of other allowances on proof of need. In Canada, it is up to the Provincial Governments to decide to take action in respect to such duplication of income aids. The Federal Government has issued regulations to prevent duplication of benefits in the case of families seeking exemption for dependants under the income tax act. Family allowances in Britain are subject to income tax, but not in Canada.

While providing the cash allowance, the British Government has promised to extend free milk and lunches to all children in state-aided schools. These supplementary allowances "in kind" will, to some extent, increase the value of the cash allowances. In both countries the allowances will be paid out of the general revenue fund of the nation. The estimated annual expenditure in Canada is to be \$250,000,000 a year, covering about 3,250,000 children in families with incomes below \$3,000 a year. Britain will spend a total of \$509,000,000 in cash allowances, free milk and free lunches at school for an estimated 4,400,000 children under the school-leaving age of 15. If the age for leaving school were to be raised to 16, the expenditure on family allowances would rise by £2,500,000 (or about \$11,125,000 at the present Canadian exchange rate).

Soldier of Fortune

By GERALD S. REES

The tumult and the shouting dies for a gallant warrior-statesman, as Parliamentary whiplights in the Old Land promise a socialist-Commonwealth of millennial vision for its war-weary inhabitants. This is twilight-time for a world-wide public figure of balanced boldness and tenacious toughness—"One who never turned his back but marched breast forward . . . never doubted clouds would break . . . or right would triumph," through the severest ordeal of his beloved little island's thousand-year-old history. "London calling; Ladies and Gentlemen, the Prime Minister." No more shall we visualize in Downing Street the familiar, bulky and endearing figure of Churchill of England, and the broadcasting voice will be some other than that of the calm and courageous descendant of Marlborough. The broad sweep of latter-day history—defeat, disaster and victory—was reduced by him from great issues to simple terms understandable to the "man in the street," through Homeric utterances in silver-toned and memorable phrases. His wrath against the common enemy—awe-inspiring in itself—bore no small-man malice, but chivalry of the hearty warrior.

HAIL AND FAREWELL

A prophetic vein stressed his speeches. Recall the immemorial challenge when Britain stood alone without sword or buckler—"We shall fight . . . until in God's good time, the New World . . . steps forth to the rescue and liberation of the Old." One added, then, the silent benediction, "For ever and ever, Amen!" Thus the Empire chieftain held high a lighted lamp, though neither lamp nor oil were alone of his making. Another *Leotidas* at Passa of Thermopylae, he carried it proudly aloft, and stimulated a deepening world-conscience that a moral purpose, calling for continuous self-sacrifice in the common weal, was ever the cement of civilization.

He radiated an habitual vision of greatness, becoming without doubt the architect and contriver of the Grand Alliance. His valiant efforts will be written in letters of gold upon the never-fading scroll of human endeavor, and his niche in history is firmly assured.

H.M.S. GREAT BRITAIN

No fortuitous happening brought him to the helm of the Ship of State as Britannia surged starkly into the severest storm that was to sink it without trace ("Spurlos versenkt!"). Almost, but not quite!

Remember far days of a blunt bewilderment—the "phony war"—when at long last British Tories shook themselves awake, arose, and in dire distress shouted to the man who, a voice in the wilderness—had persistently preached the perils of impending war with Nazified Germany—"Speak for England!" they cried: Churchill spoke and flung the gauntlet full in the face of Der Fuehrer, and the real war was on!

Mayhap what has now taken place in the Halls of Westminster is a part-repercussion of those umbrella-waving and warring days! A tower of strength in a stricken season, "W.C." rose to the war with an immense spirit, like William III, his happiness increased with danger! He was the resurrected spirit of Elizabethan England, perennially youthful, and in this our day, and in time to come will be confirmed. "Here was a man, take him all in all, we shall not look upon his like again!"

Aristocratic in lineage, he was and is democratic in spirit. It is written that during the darkest days of the Battle of Britain, he said to an American visitor, "I am nothing. But the people . . . Have you seen the people? They suffer so and never a whimper!"

V. R. Fernie—What is the difference between condensed and evaporated milk?

It is a difference of sugar content and method of preparation. Condensed milk is preserved by adding sugar before evaporating. Evaporated milk is made by evaporating part of the water and preserving by heat after the product is in the final container.

R. D. P. Kimberley—Could you please give me the address of a dealer or distributor who handles parts for the American Austin automobile?

We would suggest you write to Fred Deely, Ltd., Broadway, Vancouver, who will be able to give you the information you require.

Reader, Ymir—Can you tell me how to can tomatoes so that they will retain their color?

Choose firm, well grown but not over-ripe tomatoes, and if possible can them the day they are picked. Scald and skin the tomatoes and pack them in clean tested jars, adding a teaspoon of salt to each quart. Seal and cook for 30 minutes at a continuous boil in a hot water bath. Be sure to have jars completely immersed in water.

A Reader, Nelson—Would you kindly advise whether I need a passport for a week's vacation in the United States? I was born in Sweden but have my naturalization papers. I have no birth certificate.

No, you would not need a passport. All that would be necessary would be your naturalization papers and proof of your identity. You also need a Form H, obtained from the bank, for taking money into the United States.

Says Mutiny Charged Soldier Not Drunk Man

By ROSS MUNRO
Canadian Press Staff Writer

ALDERSHOT, England, August 1 (CP Cable)—Trial of Pte. Lloyd States of New Glasgow, N. S., before a Canadian general court-martial, on charges arising out of riots here early last month, ended late today, and Maj. G. M. Graham, of Halifax, Judge Advocate-General, announced the findings of the court were subject to confirmation and would be promulgated later.

The findings will relate to five charges, the court earlier in the day having thrown out the charge of having caused mutiny. Remaining charges are: Endeavoring to persuade others to join in mutiny, causing riotous damage July 4 and 5, and inciting others to damage property those two nights.

STATES WAS NOT DRUNK

A Canadian Lieutenant-Colonel had testified that States was not drunk the second night of the riots and was not the Negro soldier who tried to strike him.

"A colored soldier in the crowd who was under the influence of drink tried to hit me a vicious blow but I was able to avoid it," said Lt.-Col. W. G. Myatt of Edmonton. He said the soldier was similar to States but was not States.

Myatt said he took States with him to various repatriation centres here during his inquiries, and "I decided to release him after proving to my own satisfaction he was not on the street after 10:15 P. M. July 5. The Negro we were looking for was decidedly drunk, and States wasn't drunk."

Myatt gave evidence at the afternoon session of the court-martial of three Canadian soldiers charged in connection with the two-night riots in this garrison town. He was called to the stand as the defence for States opened.

The other defendants are Sgt. Emmanuel Schuler, Burnsville, Sask., and Pte. I. L. MacIntyre, St. Avars, P. E. I. Exact nature of charges against them has not yet been announced, but they are believed similar to those against States.

Testifying in his own behalf today, States said: "I have a father who is blind and my mother cannot work," he told the court. "I am their sole support and I want to get back home to straighten things out before going to the Far East."

The court's decision on the charge of causing mutiny was taken at the end of the morning session during which the prosecution completed its case against States. The defence then submitted that "mutiny can only be against military authority and military property," and argued that no mutiny had taken place.

Previously two Aldershot policemen had testified that States was one of the men responsible for the damage done in the downtown Aldershot area on those nights.

States is the first of three soldiers charged with mutiny to appear before the court-martial. The other two are Sgt. Emmanuel Schuler of Burnsville, Sask., and Pte. I. L. MacIntyre of St. Avars, P. E. I. The maximum penalty for mutiny is death.

Detective Constable Roy Burns related how on July 5 a group of soldiers picked up broken chairs and threw pieces of broken chairs and bottles at windows of the amusement arcade.

"States joined with the other soldiers," Burns testified. "I did not hear States say anything, but he left no doubt in my mind that he was egging them on to cause more damage. He was gesticulating and assisting in throwing bottles."

Burns told how soldiers smashed windows along Union and Wellington Streets, and in reply to a question by Capt. N. J. McNeill of Calgary, Prosecutor, he said the damage was done by "Canadian soldiers led by States."

Detective Constable Noel Kidd of Aldershot in describing the July 5 disturbances said: "I saw States and two other men with a long wooden beam battering against the doors of the amusement arcade. The others were rolling out milk churns and throwing these against the main entrance."

At the end of the prosecution's case against Pte. States, Defence Counsel Maj. J. R. Hyde of Montreal submitted that no case had been established against the Nova Scotia Negro soldier on four of the six charges he faces—those of causing mutiny, endeavoring to persuade others to join the mutiny, causing riotous damage and inciting to cause damage.

Maj. Hyde said, "Col. Calder (Lt.-Col. J. A. Calder of Montreal, who said he had tried to restrain the troops) did not exercise his lawful military authority to give a direct order to carry out any specific act, and therefore no mutiny took place. Mutiny can only be against military authority and military property."

PARLIAMENT MUST BE STREAMLINED OR LOSE PUBLIC RESPECT—THURTELL

By JOHN DAUPHINÉE
(Canadian Press Staff Writer)
LONDON, Aug. 1 (CP)—Ernest Thurtell, veteran Labor member of Parliament for Shoreditch constituency in London, has written his memoirs and one of his main points is a belief that Parliament must be streamlined or run the risk of losing public respect.

Mr. Thurtell, re-elected in the July 5 election, wrote mainly from back-bench experience in the Commons although he was a junior Minister in the wartime Coalition Government.

"Can Parliament, back on the old party basis, and back to the old traditional pacetime method of opposing government business by

The meeting demanded equal pay and job opportunities for women.

London Plans \$900,000,000 Reconstruction

By FRED BACKHOUSE
Canadian Press Staff Writer

LONDON, Aug. 1 (CP)—London's town planning experts today are wrestling with the details of a grandiose plan to reconstruct the city and greater administrative county of London at an estimated cost of £200,000,000 (\$900,000,000) for the first 10 years.

Described by Lewis Silkin, Chairman of the London County Council's Town Planning Committee, as "the biggest thing of its kind ever attempted in history . . . a task almost beyond imagination," the project's broad principles already have been approved.

Whenever the details are ready they must be passed by the council, which will then move to obtain needed wider powers for carrying out large-scale replanning, and, most important, raise the money for the huge task.

It is expected that major financial aid will come from the state. Meanwhile, the committee has called for an immediate expenditure of some £50,000,000 for an attack on four main London problems—traffic congestion, bad housing, intermingling of housing and industry, and lack of open spaces.

Draft of the main plan, which is virtually the first instalment of the whole even larger scheme for the county of London proposed by Professor Patrick Abercrombie, covers: Roads: Extensive road works in addition to the county plan for ring and radial roads entailing tunnels under Hyde Park and the Thames.

Spaces: Acquisition of open spaces to provide at least 2½ acres for every 1000 persons. To do this the Council must purchase about 3000 acres—"itself a staggering achievement."

Population: Creation of three to five principal density zones, decreasing from the centre at the rate of 200, 136 and 70 persons per acre. This would mean the accommodation outside the county of 600,000 people who might otherwise have lived in London.

(London's pre-war population was about 4,500,000, and the present figure is 2,500,000. Adoption of the density and open space proposals would result eventually in the creation of proper living conditions for some 3,500,000.)

Traffic: Priority schemes include cloverleafs at three congested centres and a new tunnel under the Thames.

Homes: A large proportion of flats in the inner density zones is contemplated. Community: Emphasis is placed on "community living." The committee approves of communities of 60,000 to 100,000 people, with neighboring units of from 8000 to 10,000.

Industrial location is left to be handled nationally.

Temporary Leave for 4,000 Men for Railroad Work

WASHINGTON, Aug. 1 (CP)—John W. Snyder, War Mobilization Director, said today the War Department has arranged for a temporary furlough for 4,000 men to the railroad industry.

The furlough of 4,000 former railroad men, together with the Army plans to expedite release of former rail workers from the Army to move from 25,000 to 30,000 men a month across country by plane. Snyder said, should "ease the strain on the roads and provide needed manpower."

Laval to Defend Himself

PARIS, Aug. 1 (Reuters)—Shortly before leaving Spain, Pierre Laval told Spaniards that his "sudden decision to return to France" was to defend himself and accuse others an Agence Francaise de Presse dispatch from San Sebastian said today.

"I retain knew very well that when the Germans arrested Leon Blum, Daladier and Reynaud, and it was with the intention of shooting them, the former Vichy Chief of Government was quoted as saying:

"I was I and I alone who persuaded the Germans to spare them. I am tired of always being accused. I am going to shoulder my responsibilities and defend myself."

SHIPBOARD LIFE CONFUSING TO RETURNING GEN. CRERAR

By FRANK LOWE
Canadian Press Staff Writer

ABOARD THE ILE DE FRANCE, Aug. 1 (CP Cable)—Even the cruise to home and retirement can't shake Gen. Crerar loose from the habit of long hours of hard work daily.

By the second day at sea, the General had settled into the routine of shipboard life, but while nearly 10,000 troops who had fought under his command were spending their time looting on the decks and in quarters, the Canadian Commander was wading through a mass of paper work.

Gen. Crerar's batman, Cpl. Tom MacDonald, Kingston, Ont., wakes his chief as usual at 6:45 a.m., with a cup of tea. Like the rest of the

troops, the General takes his place in line to eat at 9 a.m., each morning. Like them, too, he only gets two meals a day—the second at 7 p.m.

The two meals daily, however, is no hardship for either the general or his troops. The food is really Canadian and lots of it.

Gen. Crerar made a quick trip through the mammoth transport to see that his men were fed and housed adequately.

It was not a formal inspection more an exploratory tour to familiarize himself with the ship. But, like everyone else, the General returned more confused than when he started.

"Well," he said, "it's all very efficient no doubt, but if you don't give me a map, I'll still get lost."

House of Commons In for First Time

LONDON, Aug. 1 (CP)—The House of Commons dominated for the first time in its long history by a Labour majority, assembled in Westminster today for routine organization—and cheered Winston Churchill who has stepped from the role of Prime Minister to Leader of the Opposition.

The business of law-making will not begin until after the King formally opens parliament Aug. 15 with his speech enunciating the Labor Government's program.

There have been two previous Labor governments in Britain's history, but never before has the party begun an administration with such a strong majority in the House or with greater opportunity to begin the Socialization of Britain.

Prime Minister Atlee's Government holds 388 seats in the new Parliament. The Conservatives, led by Mr. Churchill, have 193 and may be able to muster an opposition totaling some 210 votes.

There are 325 new members in the House of 640 seats and many had difficulty finding the chamber where the first organizational meeting was held. It was expected the House would spend three days administering oaths, electing a new Speaker and completing other organizational details.

Some of the 23 new women members of the House put in their appearance early.

When Mr. Churchill arrived in the House he was given a tremendous welcome. Every Conservative and Nationalist in the House jumped to his feet and cheered. As he took his place the members started singing "For he's a Jolly Good Fellow."

While the chamber was echoing from the cheers for Mr. Churchill, George Griffiths, Labor member for Hemsforth, arose and began singing "The Red Flag," which has been sung at hundreds of Labor gatherings over the years.

Uncertainly at first, and then with a will, government members joined in.

Clifton Brown, former Conservative Speaker, was named Speaker-Elect, by Neil McLean, Labor member for Gavin, who had been chosen to nominate a Speaker.

The House of Lords also assembled.

Canadian Flour Arrives in Berlin

LONDON, Aug. 1 (CP Cable)—Hamburg radio said today the first supplies of Canadian flour are arriving in the British occupied zone of Berlin. Six and a half tons already have arrived while 20,000 tons more are expected.

Halifax Not a Protected Area

OTTAWA, Aug. 1 (CP)—Orders making Halifax a protected area under the Defence of Canada Regulations have been revoked, the Justice Department said today.

The regulations provide that areas may be specified as "protected" for security reasons and police and mi-

itary authorities are given special jurisdiction in such areas.

One of Canada's real musical personalities is Louis Walzman, above, musical arranger at the CBC's Toronto studios. He was born more than 81 years ago, in the same house in Salzburg where Wolfgang Mozart first saw the light of day. He came to this continent fifty years ago, and has become a figure in Canadian musical life through his arrangements and original compositions. Many of Canada's leading young musicians and composers owe much of their success to his help and encouragement in launching them on their careers.

BRITAIN'S NEW PRIME MINISTER, RT. HON. CLEMENT R. ATTLEE

1000-ISLAND DRESSING: Kim Hunter at Alexander Bay, N.Y., introduces her own version of Thousand Island dressing in this new and attractive beach outfit. Flowered cotton bra top and ample skirt over white swim trunks are topped off by a big white straw hat.

"SPY" IS FRIEND: Posing as a friend of the Nazis, while actually serving as a U.S. counter spy, Eric S. Erickson (above), Brooklyn-born Swedish oil magnate, has been revealed as one of the master-minds behind the Allied bombings of Europe. Wined and dined by high Nazi officials, he learned of important targets and tipped off the Allied bomber commands. The destruction of the Mercedes plant at Stuttgart, where robot instruments were made, was arranged by Erickson. On the night of the raid he was invited to tour the plant and barely got away before Allied bombers wiped it off the map.

IT'S MR. AND MRS. GROUCHO MARX NOW: Groucho Marx, 54, screen and radio comedian, and Catherine Gorey, 24, screen actress, are shown following their marriage in Hollywood. The couple were married at the apartment of Film Actress Gloria Stuart. Both have been previously married.

ARTIST DISPLAYS UNFINISHED LAST F.D.R. PORTRAIT: The final unfinished portrait of the late President Franklin D. Roosevelt, which was being painted at Warm Springs, Georgia, when he suffered his fatal seizure, is unveiled at a New York department store. Elizabeth Shoumatoff, who painted the portrait, stands beside it.

FOR YEAR 'ROUND USE: Crochet this pillbox in slipper stitch of straw material for warm days; make one of cordette for Fall and Winter; matching bag. 66 The side-crown of pillbox is made of 2 1/2-inch crocheted squares. Hat and bag are so smart, so easy. Pattern 818 has directions.

Ignored Strippers Replace Clothes, Doukhobor Picnic

When their stripping tactics brought no response or sign from their fellows, a small group of Sons of Freedom shamefacedly donned their robes at the annual "Burning of Arms" Doukhobor celebration at nearby Shoreacres today.

During the picnicking and games that marked the gatherings of Doukhobors from throughout the District five to 10 of the radicals doffed their clothes. Picnic fun and ball games proceeded uninterrupted. Ignored and falling to create the embarrassment they aimed at, the troublemakers replaced their garments.

The "Burning of Arms," celebrated by numerous Doukhobors from Brilliant, Crescent Valley, and from all through the Valley is an annual

Laval Plotted British-Vichy War Says Paper

LONDON, Aug. 1 (CP)—A British white paper issued tonight asserted that Pierre Laval plotted in the Fall of 1940, with German approval, to involve Britain in war with the Vichy French Government.

The document declared that Sir Samuel Hoare, (now Lord Templewood), British Ambassador to Madrid, cabled the Earl of Halifax, then British Foreign Secretary, that Laval intended to use the French fleet and military units in recovering French colonies which had declared for Gen. De Gaulle's Free French regime.

Sir Samuel said he obtained the information from the French Ambassador.

Britain had promised, the paper said, to support Gen. De Gaulle and if the French and British fleets had come into conflict the then Vichy Premier would have claimed it was an act of aggression by the British Fleet.

"The Ambassador," Sir Samuel cabled, "regards the plan as not only very mean, but very clever. He agreed with me that if it was carried out it would undoubtedly mean war between Great Britain and Vichy."

The paper also makes reference to Prof. Louis Rougier, author of the recently published book, "Les Accords Petain-Churchill," who alleged that the British Government concluded a secret agreement with Marshal Petain in the Autumn of 1940.

The document quoted a dispatch from Winston Churchill to the British Ambassador in Paris, July 13, 1945, saying: "It is now desirable to publish a fuller account of contacts with Vichy . . . to insure that public opinion in this country and still more in France and the United States should not be misled by a distorted version of facts put out by Rougier."

Mr. Churchill, in the House of Commons, July 12, and the Foreign Office July 17, denied Prof. Rougier's allegation. The book was published in Montreal.

observance dating back to 1895. In the Summer of that year the Doukhobors who were taking refuge in Caucasus burned their farms as an indication of their sincerity in their pacifist beliefs. Following this they became victims of a series of persecutions which finally led to their immigration to Canada in 1899.

20 Fires Burning in Kootenay-Boundary; Howser Fire Controlled

There are 20 fires burning in the Nelson Forest District at present, one of these being the large fire at Howser Lake, reported Tuesday by Forest Service officials after their flight to the Lardeau District by sea-plane. This fire, along with 10 other smaller fires in the Kaslo District, is now quiet.

The Tarrys fire down the river from Nelson, is under control, as are two fires in the Nakusp District, two in the Kettle Valley District and one reported in the Fernie District, Wednesday.

Two fires in the Creston area, and one in the Golden area were also

quiet on Wednesday, and one new fire was reported in the Ladro vicinity.

Altogether there are 20 fires burning in the Nelson Forest District at present, bringing the total for the week ending with Wednesday to 71, and the total for the season to 231. Last year only eight fires were burning at this time and only 30 had been reported during the week. The total fires for the season were higher, however, being placed at 274.

Of the 71 fires during the past week, 34 were in the East Kootenay, 32 in the West Kootenay, and five in the Boundary.

S. Slocan W. A. Entertains War Brides

SOUTH SLOCAN, B. C. — St. Matthew's Women's Auxiliary entertained at a garden party Friday evening at the home of Mr. and Mrs. Percy O. Bird at South Slocan in honor of the four English war brides who recently arrived from England. The guests, numbering over fifty, were entertained with bridge, whist, bingo and lawn bowling. Colored lights were festooned on the lawn and in the sunken garden it looked like fairy land.

Dainty refreshments were served by the ladies of the W.A. Mrs. Turner Lee gave the address of welcome. Mrs. Harmon responded for the brides. Mrs. Bird, assisted by Miss Murray and Miss B. Jones, presented each bride with a casserole and a gorgeous bridal bouquet.

Mrs. Bird, President of the W.A. was general convener, assisted by Mrs. A. J. Cleaton. Mrs. D. F. Dairs received the guests and introduced the brides.

The following ladies acted as serviteurs: Mesdames J. Murray, W. P. Rogers, G. Toffiss, Fenwick, G. Bodinger, Cleaton, Miss Bernice Jones and Miss Mollie Murray.

The party closed with the singing of one verse of "Blest Be the Tie That Binds."

Those attending were Mr. and Mrs. A. J. Cleaton, Mrs. T. Lee, Mr. and Mrs. Tealman, Sr., Mrs. M. Yeatman, Mrs. Harmon, Mrs. Elsdon, Mrs. A. Lees, Vancouver, Mrs. M. Over 100 Attend Funeral of George Horstead

"With the passing of George Horstead, Nelson lost one of its best-known old timers."

Speaking to over 100 present, including members of the Nelson District Oldtimers Association, who attended in a body, Rev. J. G. Holmes, Rector, paid final tribute on Wednesday afternoon, at the funeral services held in St. Saviour's Pro-Cathedral, to a man who he said was "widely known, and popular with young and old."

"A week ago today," Mr. Holmes said, "he acted in his official capacity at the annual reunion of the Nelson Oldtimers. We can thank God he was spared prolonged illness and suffering."

Mr. Horstead, who was a Nelson business man for over 40 years, died Sunday, aged 72.

Two hymns were sung, "Unto the Hills Around," and "Abide With Me."

Howard Bush, W. R. Jarvis, Alfred Jeffs, E. Kelter, D. H. Proudfoot and Roy Sharp were honorary pallbearers, while the active pallbearers were William Brown, H. H. Hinitz, Fred Irvine, C. F. Hunter, L. A. McPhail and D. D. Townsend.

C. C. Halleran was the organist. Interment was in Nelson Memorial Park.
