

Swarms of Planes Whip Axis Lines in Sicily

By RELMAN MORIN
Associated-Press War Correspondent

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 4 (AP)—Under cover of a shattering fire from naval artillery, hundreds of planes and massed field guns, British, Canadian and American forces again have torn miles-deep holes in the crumbling Mount Etna Line across the tip of Sicily.

Gaining as much as six miles in some sectors, Americans captured Catania on the North Coast, four miles beyond fallen San Stefano.

Canadians and Britons, fighting over bitterly-contested ground at the central hinge of the Axis line West of Mount Etna, gained "several miles" in a mighty push which threatened to fold up the entire Southern end of the enemy's position and envelop the large forces defending Catania on the East Coast.

Air Force Commanders turned the full power of their tactical fleet against the Axis defenses. Completely unopposed, swarms of planes of all types whipped back and forth across the Axis lines, bumping Germans from their pill-boxes and slashing their land convoys.

America torpedo boat squadrons cruising along the North Coast and light British naval forces patrolling Messina Strait virtually completed a circuit of blockade about the beleaguered Sicilian tip.

Blockbusters tumbled onto Naples' railway targets for the second successive night as R.A.F. Wellingtons fought through a blinding anti-aircraft defence to continue by night the Allied air offensive against the Mainland.

British naval forces poured a raking fire on the East coast road at Cape Molini, just North of Catania, and at Taormina, farther North, after fighting two sharp engagements with enemy motor torpedo boats in which one of the latter was put out of action.

American heavy cruisers, disclosed in action off Sicily for the first time, thundered in unison with destroyers at the North coast road and defence positions dug into the hills West of Cape Orlando, itself 18 miles East of the known position of American troops.

These were the highlights of the actions described in Allied Headquarters announcements today.

The Canadians have cemented their hold on Agrig, nine miles to the Northwest of Catenuova, after three places changed hands several times, the communique announced.

British and Canadian troops broke the back of an armored German counter-attack in this sector, and swept on for several miles over ground that was littered with German dead.

The lack of anything but patrol action directly South of Catania, pointed to the probability that the main attack on that Eastern anchor of the Mount Etna Line was swinging in a loop from the West.

After taking Centuripe, 20 miles Northwest of Catania, the Allied wedge had been shoved to within five miles of Aderno on the vital supply road skirting the Western base of Mount Etna.

A breakthrough to Aderno would squeeze all Axis traffic to Catania on the vulnerable East Coast road already hammered by British naval guns.

The German Hermann Goering and 15th Armored Divisions were putting up a suicidal defence to stop the push here, and a British officer said "they are fighting as hard as they ever fought anywhere."

But in several places the Allies reported an advance so rapid that the Germans were unable to collect and bury their dead.

To the North, where the American 7th Army had been strengthened by veterans from North Africa who took over from part of the battle-weary vanguard in Sicily, the situation was described as fluid, a term which might denote swift advance.

The exact battlelines East of Taormina were not known, but the Americans were known to be tramping doggedly toward Randazzo through broken ridges behind a massed artillery barrage which was cracking its targets with regularity and accuracy.

Discuss Plan to Exchange Badly Wounded Prisoners

LONDON, Aug. 4 (CP Cable)—Foreign Secretary Anthony Eden told the House of Commons today negotiations for the exchange of badly-wounded prisoners between Britain and Germany had been resumed.

He added that a suggestion for interned long-term prisoners in neutral countries, as in the first Great War, had been received from the Red Cross and was under consideration.

TURNER VALLEY OIL MAN KILLED

CALGARY, Aug. 4 (CP)—Prominently identified with Turner Valley oil field operations for 14 years, Newton Blaylock, 37, separator man for the Anglo-Canadian Oil Company, Ltd., suffered fatal injuries in an automobile accident near Longview, Tuesday night. He died in the High River Hospital early this morning.

German 6th Army Identified in Sicilian Fight

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 4 (AP)—The reconstituted German 6th Army named for the force destroyed or captured last year attempting to take Stalingrad, was reported today to have been identified in Sicily.

Sgt. Jack Polesie, reporter for Stars and Stripes, United States Army newspaper, said prisoners assigned 6th Army forces landed from barges at Cape Orlando, West of Messina, and the German 29th Motorized Division already had been in action.

BADOGGIO RULE BINDS ITALY CLOSER TO AXIS

Italians Will to Fight Seems to Be Stiffening ROUGH METHODS

LONDON, Aug. 4 (AP)—Italian declarations by Press and radio indicated today that Marshal Pietro Badoglio's regime was binding Italy closer to the Axis and stiffening the will to fight on.

While Italian newspapers carried articles rejecting the Allied demand for "unconditional surrender," Foreign Secretary Anthony Eden told the House of Commons that the Allies had offered no other peace terms.

Badoglio called his cabinet to meet tomorrow, but there was no indication that it was to discuss peace terms.

A Rome broadcast recorded by the Associated Press said the meeting would be an important one. Among matters to be considered was a commission to examine property acquired by political office holders between Oct. 22, 1942, and July 14, 1943.

Requisitioning of this property will be considered, Rome said.

The Daily Mail reported from the Italian frontier that Badoglio had forbidden Italians to listen to enemy radios, a decree announcing that heavy prison sentences would be inflicted on anyone caught listening to British, American or other enemy wireless programs.

Meanwhile, the Rome radio said the Italian cabinet met today to discuss the appointment of a new ambassador to the Vatican to replace Count Ciano, Mussolini's son-in-law.

Madrid dispatches said Italian travellers who had just left Rome reported that Badoglio had established a strong military dictatorship designed to fight on at the side of the Germans.

These travellers said the popular enthusiasm for peace had cooled off under the rough methods of Badoglio who had given his troops orders to shoot the leaders of peace demonstrations on sight.

They explained the Germans in their troop movements into Northern Italy had been extremely careful not to provoke the populace.

It was thought that Badoglio may have in mind to fight on in the hopes of obtaining better peace terms at a later date.

There was no indication of any weakening in Washington and London over the terms of unconditional surrender. Eden told Commons that the Allies had made no other offers, thus denying a German broadcast that President Roosevelt had offered a seven-point armistice proposal to Italy.

Algiers radio quoted dispatches from the Italian frontier as saying that groups of patriots in Milan and Turin demanded the abdication of King Victor Emmanuel and the resignation of Marshal Badoglio as Premier.

The radio also broadcast a report that German deliveries of coal and iron to Italy have been suspended since July 25.

A strike vote might result in Government seizure and operation of the roads for the duration.

Russ Forces Smash Into Orel City Street War Rages

By EDWARD D. BALL
Associated Press Staff Writer

LONDON, Aug. 5 (Thursday) (AP)—Russian forces smashed their way Wednesday into the City of Orel, strategic hinge of the Nazi Central and Southern Front defence systems, and began street fighting with a fanatic German holding force, a Soviet communique announced triumphantly today.

As the last thin lines of German defences crumpled, the Red Army swept from four to five miles along the front which now almost encircles the important Nazi stronghold, and captured more than 80 populated places.

A railway station four miles North of Orel and a large populated point only 2 1/2 miles South of the city fell before the onrushing Russians, said the Wednesday midnight communique, recorded by the Soviet Monitor.

Complete occupation of the city was imminent—climax to the Soviet power drive that began July 12 against one of Germany's pivots on the long Russian front. The Germans have already indicated that their main forces are attempting to retreat from the threatened city along the 13-mile-wide escape corridor still held open.

The break-through apparently came from the Northeast, where Russian columns were reported only a few miles from the city yesterday.

The Soviet advance took a terrible toll of German lives and weapons. Northeast of the city, the communique said, "the Germans continually threw their troops into counter-attacks supported by self-propelled guns, by tanks and planes."

Southwest of the city the Red forces took more than 40 populated points, one of which was stubbornly defended by the Germans, requiring particularly heavy fighting. But the Russians smashed the German garrison and occupied the point.

On another sector one Soviet unit pursuing the fleeing enemy killed more than 1000 Germans.

Orel is regarded in London as second only to Smolensk, in the Nazi East front wall and its loss apparently will force the Germans to fall back upon Bryansk, 80 miles along the railway to the West. It will also finally eliminate the last tentative German finger pointed at Moscow.

The city has been in German hands since October, 1941. That the Germans regard it as lost was seen in the failure of any mention of it in tonight's Berlin war comment on the Russian front.

Advances in the important Belgorod and Donets Basin fighting to the South of the Orel front were also reported by the Russians.

North in the Leningrad area activity was mainly artillery but one Soviet unit killed 700 Germans in one action.

The Red Air Force covered ground operations along the entire front. They destroyed about 200 trucks and bombed a large number of enemy tanks. Forty-four German planes were brought down in air combat.

Soviet planes raided railway junctions at Bryansk, Yusupovka, Il'vayskaya and Mga and enemy air-dromes Tuesday night, said a separate Moscow announcement.

The communique said that on Tuesday along the entire Russian front 236 German tanks were destroyed or disabled and 138 enemy planes shot down.

LONDON, Aug. 5 (Thursday).—The Germans admitted today that Orel, Nazi keystone defence city on the Russian front, had been evacuated, Reuters News Agency said.

The Board of Arbitration under Judge J. O. Wilson will convene Saturday and public hearing will begin Monday.

Key Italian Cities Turned Into Armed Nazi Camps

STOCKHOLM, Aug. 4 (AP)—The important Italian railway junctions of Verona and Bologna have been converted into key military transit centres by German forces preparing to defend Northern Italy, a traveller reaching here from Italy said today.

He described the two cities as "armed Nazi camps," and said troop trains were passing through them continually.

No Party Majority, Prog. Cons. 38, C. C. F. 33, Lib. 14

TORONTO, Aug. 4 (CP)—Nine years' Liberal Government in Ontario ended with today's Wartime Provincial Election and late returns indicated Lt.-Col. George A. Drew, 49-year-old Toronto lawyer who heads the Progressive Conservative Party in the Province, will be called to the Premiership.

But no one Party obtained a majority in the 90-seat House, and some form of Coalition Government seemed a probability. Col. Drew, with the largest Party group of about 40 members, was expected to be named Premier.

Defeat of the Liberal administration of Hon. Harry C. Nixon was decisive. Both the Progressive Conservatives and the C.C.F.—the latter under E. B. Jolliffe, Toronto lawyer and former Rhodes Scholar, at 34 the youngest of the party leaders—far exceeded the Liberals in members elected.

At dissolution of the Ontario Legislature the Liberal Party held a wide working majority with 59 members. The C.C.F., second-highest group in today's balloting, had only 19. There were two Liberal-Progressives and 10 seats were vacant.

All three party leaders were elected today—Mr. Nixon in Brant riding which he has represented continuously since 1919; Col. Drew in Toronto High Park and Mr. Jolliffe in York South.

Seven of the 11 retiring Cabinet Ministers were defeated. Ministers who lost out at the polls were:

Hon. William L. Houck, Minister without portfolio, defeated by Cyril Overall, C.C.F. in Niagara Falls.

Hon. T. B. McQuesten, Minister of Highways, defeated by Fred W. Warren, C.C.F., in Hamilton-Wentworth.

Hon. Harold J. Kirby, Minister of Health, defeated by Leslie Blackwell, Progressive Conservative, in Toronto Eglinton.

Hon. P. M. Dewan, Minister of Agriculture, defeated by T. R. Dent, Progressive Conservative, in Oxford.

Hon. Norman Hipel, Minister of Lands and Forests, defeated by Brieve Robinson, C.C.F., in Waterloo South.

Hon. Eric Cross, Attorney-General, defeated by Wallace W. Walsh, Progressive Conservative, in Haldimand-Norfolk.

Hon. Peter Heenan, Labor Minister, defeated by William Docker, C.C.F., in the Northwestern constituency of Kenora.

Besides Mr. Nixon, Cabinet Ministers re-elected were Works Minister Farquhar Oliver, at 30 the youngest member of the retiring cabinet, who ran in Grey South; Mines Minister Robert Laurier, who ran in Ottawa East; and Provincial Treasurer A. St. Clair Gordon on Kent West.

First seat to be conceded after the vote-counting started was Elgin, in Western Ontario, won by former Premier Mitchell Hepburn, running as an Independent Liberal and not opposed by an official Liberal candidate.

Voting was light—after a five-week campaign which was relatively quiet—perhaps because of inclement weather in many parts of the Province.

From the time the first returns began to roll in, C.C.F. and Progressive Conservative strength was demonstrated. The C.C.F., which had one member in the Legislature elected in 1934 but none in the last Legislature, elected in 1937, was particularly strong in industrial constituencies in Central and Western Ontario and at the Lakehead.

The C.C.F., as later returns came in, apparently was making a virtually clean sweep in Northern Ontario.

All but one of Mr. Nixon's Cabinet Ministers was in the running. Hon. Duncan McArthur, Minister of Education, died during the election campaign and was replaced in Ellice centre by O. E. Todd.

There were no major issues in this year's campaign which stirred comparatively little interest throughout Ontario. Mr. Nixon's Liberal platform was based largely on the nine-year record of Liberal administration.

Col. Drew sought support for a 22-point manifesto covering post-war reconstruction and maintenance of British institutions. Although he has been a personal critic of the Federal Government, his party's platform also called for cooperation in wartime.

The C.C.F. 15-point platform promised development of plans for employment for all after the war and social ownership and control of monopolies.

Arrangements made for taking the vote of Ontario residents serving outside the Province in the armed forces were made an election issue, particularly by Col. Drew.

Men and women in the forces were asked to name friends or relatives as proxies to vote in their behalf, if they were serving outside the Province. Col. Drew claimed the proxies were not getting back.

Servicemen in training camps or on active or operational duty in Ontario voted where they were stationed.

The total number eligible to vote by proxy has been set unofficially at around 115,000. Total number of Opiarians in the services is estimated at around 300,000 which would indicate a total possible Camp Vote of 185,000.

Four B. C. Youths Jailed on Thefts Near Kamloops

KAMLOOPS, B.C., Aug. 4 (CP)—Four youths, the oldest 19, were in jail today on theft charges arising from a two-week period during which they ranged the country Southwest of Kamloops, stealing horses and other equipment, cutting fences and wounding and killing a number of calves.

Sentences up to 18 months were imposed on Kenneth Pitt, 19, while two other youths were sentenced up to one year and the fourth was sent to industrial school.

A total of 13 charges were laid against all four in Vancouver.

Says deMarigny Told of Hatred Against Oakes

By E. V. W. JONES
Associated Press Writer

NASSAU, Bahamas, Aug. 4 (AP)—An American detective reported today that dashing Alfred de Marigny sat near the room where his father-in-law, Sir Harry Oakes, was brutally slain and told of his hatred for the 68-year-old multi-millionaire Canadian Baronet.

Testifying at a preliminary hearing for de Marigny, 35, charged with the murder, Capt. E. W. Melchen of the Miami Police quoted remarks he attributed to the prisoner in a long interview which occurred at Westbourne, the Oakes estate, the day after Sir Harry's burned and budgeoned body was found July 8.

"He told me of his marriage to Sir Harry Oakes' eldest daughter, Nancy," Melchen declared.

"He said Oakes was very bitter and hated him for marrying her."

"He told me of some heated arguments that he and Oakes had regarding operations performed or to be performed."

"I hated him because he was a stupid old fool who couldn't be reasoned with," de Marigny said.

"De Marigny said he had no interest in Nancy's finances," Melchen said, "and added that he could take care of her. He said he knew that Nancy would receive a full share of the estate, but that he had no interest in it."

NEW YORK, Aug. 4 (AP)—Nancy Oakes de Marigny, whose husband is charged at Nassau with the murder of her multi-millionaire father, Sir Harry Oakes, arrived here by plane from Miami today in a mission which she said was connected with her husband's defense.

LADY VOLUNTEER IS ENTHUSIASTIC AIDE, LOADING RUBBER CAR

One of the most enthusiastic workers when the I.O.D.E.-Red Cross Salvage Committee completed loading a car of rubber Tuesday night was a lady—the only lady who turned out in answer to the appeal for help.

"She was certainly a worker," commented R. B. (Jack) Morris Wednesday. "She was down in the hole pulling out old rubber boots and so on with all the pep and enthusiasm in the world. It wasn't the nicest part of the car-loading job, but that lady stayed right by it and really was a grand help."

Trail Patriotic Spends \$6863 In July

Subscriptions to the Trail District Patriotic and Welfare Society in July totalled \$5913.69. The Society also reported receipt of \$949.66 for the Greek War Relief Fund and \$16 for the Chinese War Relief Fund. These sums, together with refund of \$294.73 from the Trail Community Chest, made the month's total receipts \$10,162.48.

Disbursements reported by the Society in the month totalled \$6,863.68. These were made up as follows: Dominion of Canada Bonds, \$3000; Canadian Red Cross Society, \$1000; Greek War Relief Fund, \$1000; Trail Community Chest, \$500; Arthur Chapman Chapter I.O.D.E., \$150; J. H. Schofield Chapter, I.O.D.E., \$50; Victorian Order of Nurses, \$150; Salvation Army, \$250; Dominion of Canada Bonds purchased for the Canadian Red Cross Society, \$600; Chinese War Relief Fund, \$15; Administration \$68.68. Total disbursement \$6,863.68.

The balance on hand at the end of July amounted to \$7,091.60, which with \$3000 in Dominion Bonds, made up current assets of \$15,091.60. Of this \$4000 has been allocated to the Red Cross.

The King Said 'No' When Huns Asked for Il Duce

MADRID, Aug. 4 (CP)—Ratcliff-Hermann Goering went to Rome last week, it was reported here tonight, and interviewed King Victor Emmanuel and Marshal Pietro Badoglio to ask that Mussolini be handed over to the Germans for safe-keeping.

An authoritative source, who cannot be named but whose information was backed by verbal reports of Italians here who were in Rome last week, gave this version of the visit:

Mussolini's fall so soon after the Verona meeting with Hitler so shocked Berlin that Goering was sent by Hitler to find out what happened.

Goering had a long talk with the King and Badoglio in the Royal Palace after which he was accorded full military honors by German and Italian Regular Army units.

The results of the conversation were strictly in the realm of conjecture, but reports agreed that Badoglio's answer to the request for Mussolini was that it was for the King to decide. The King, in turn, said no, explaining Mussolini was sufficiently protected where he was.

Upon Goering's insistence, the King still said no, adding that he had no intention of handing over the Duce to a belligerent power which might conceivably use him against the King's own idea of what was best for Italy.

After Goering left Rome, Badoglio, at the King's orders, kept Mussolini moving under heavy guard from one Royal property to another.

Summer Complaint

Few people, especially children, escape an attack of summer complaint during the hot weather.

Summer complaint begins with a profuse diarrhea, very often accompanied by vomiting and purging. The matter excreted from the stomach has a bilious appearance, and that from the bowels watery, whitish, ill-smelling, or even odorless.

When the children show any sign of looseness of the bowels the mother should administer a few doses of Dr. Fowler's Extract of Wild Strawberry so as to bring quick relief.

This medicine has been on the market for the past 94 years. Be-fuse substitutes. They may be dangerous.

Canadians Glad They're Not in Germans' Boots

By ROSS MUNRO
Canadian Press War Correspondent

WITH THE CANADIANS IN SICILY, July 31 (Delayed) (CP Cable)—Capturing important hills North and East of Catenanuova, Canadian and British infantry are fighting together to broaden the bridgehead over the dried bed of the Dittaino River while around Regaluto another Canadian and British force is pinching off the town.

(Regaluto fell to the Canadians and British August 2, Munro reported in a later dispatch.)

When Regaluto collapses Canadian and British troops will be in an excellent position to press Northwards, cutting into the Northern sector, where the Americans are going ahead strongly. It would also imperil the Germans holding the bridge around Catania.

Between the Canadian front line and Mount Etna lies some terrible country. In the wild, jagged foothills of Etna there are the towns of Centuripe and Aderno. Capture of these places would really crowd the enemy and cut the North and South roads West of Mount Etna. It would shatter the Germans' Etna line from the West.

(Centuripe fell to the British on Monday, after this dispatch was written, and Canadians and British are reported threatening Aderno after the capture of Regaluto.)

In the fighting in the Centuripe area during the past two days the Canadians and British have taken more than 100 German prisoners.

The bridgehead over the Dittaino, which flows Southeast along the general line of the 8th Army front to empty into the sea to the South of Catania, was achieved by artillery and infantry assault, but Royal Canadian Engineers played as important a role as anybody else.

It was the task of the sappers to get a roadway over the dried-out river bed after the Germans

had blown up the only bridge on the road, leading to Catenanuova. They started work two nights ago (July 29) and when daylight came they kept to the job although the Germans got the range of the gulch where they were working and sent mortar bombs bursting around it and machine-gun bullets kicking up dust and chipped rocks.

There was even some shellfire on these sappers, who were under command of Capt. Ian Pritchard of Kingston, Ont.

The enemy tried with everything available to stop the sappers from getting the roadway through for they knew that without a road the Canadians could not get vehicles and guns to the troops around Catenanuova.

In mid-afternoon I met Pritchard on the road. He looked exhausted. He was beginning to think they could not get the road through. But with superhuman effort they succeeded and by 7 o'clock last night guns, vehicles, Bren-carriers and tanks were going over through the gulch which had been such a barrier to progress.

Frontline infantrymen praise the Canadian gunnery every time I see them. You hear men watching artillery barrages saying "my God, I'm glad I am not in the Germans' boots."

At artillery headquarters I talked to Lieut. W. R. McIntyre of Moose Jaw, Sask. He said the Canadian and British gunners in their heaviest barrages have been covering a 1,000-yard front, dropping shells every 15 feet. This barrage has moved forward sometimes for five miles with its concentration of shells.

Even British deserters who fired at El Alamein, Mareth and Medjed El Bab in the African campaign lauded this joint effort of Canadian and British artillery.

Our gunners are not firing at extreme ranges either. In some cases they have been under mortar and machine-gun fire. On barrages and concentrations everyone works on the guns. Batmen, cooks and drivers pass ammunition.

A platoon of the Seaforths detailed to guard one battery position got enthusiastic and even passed ammunition.

In addition to artillery, Canadian light anti-aircraft regiments have been moving along the advance all the way from the beach.

Canadian anti-tank gunners move with the leading troops as well. So far there has not been much enemy tank opposition, at least in places where the six-pounders could fire, but the gunners are living in hopes. Meanwhile they take on pill boxes when they spot them.

2000 SOLDIERS TO HELP IN PRAIRIE HARVEST

VANCOUVER, Aug. 4 (CP)—A maximum of 2,000 soldiers will be detailed from the West Coast to assist in September "peak" harvesting in the four Prairie Provinces, T. B. Pickersgill, Representative of the Agriculture Division of the National Selective Service from Ottawa said today.

British Columbia alone could use 1,000 soldiers, according to the Hon. K. C. MacDonald, Minister of Agriculture.

Report U. S. Raid Wiped Out New Aluminum Factory

LONDON, Aug. 4 (CP)—A Norwegian spokesman said today information had been received that the American daylight raid on Heroya, Norway, July 24, wiped out the new Nazi aluminum factory there and destroyed other factory areas, a power station and two anti-aircraft batteries.

He said the director of the aluminum factory had reported its destruction was so complete it could not be rebuilt during the war. Forty-two persons were reported killed and 100 injured.

Says Canada's Post-War Plans Near Completion

VANCOUVER, Aug. 4 (CP)—The framework of Canada's program of rehabilitation has been nearly completed and awaits only the end of the war to be put into effect, Pension Minister MacKenzie said today on his arrival from Ottawa.

Mr. MacKenzie said all but three of the 14 Parliamentary Committees set up to study the problems have already reported and elaborate plans have been made for rehabilitating the troops as they return for overseas and providing adequate treatment for any who require it.

10,166 Aussie Soldiers Held Prisoner by Japs

SYDNEY, Australia, Aug. 4 (CP Cable)—Francis Forde, Australia's Army Minister, announced today that Japan has reported through the International Red Cross at Geneva that she holds prisoner 10,166 Australian soldiers, including 898 officers and 9308 other ranks.

The Japanese radio had reported another 3321 Australians as prisoners of war but as these have not been confirmed, the men are still listed as missing.

Those still reported missing and of whom no news at all had been received number 9996, including 234 officers and 9761 other ranks.

Split Liberals Draw Together Again in Britain

By SYDNEY GRUBSON
Canadian Press Staff Writer
LONDON, Aug. 4 (CP)—The Liberals of Britain, split into divided political camps since 1931, seemingly are drawing together again.

Leaders of the movement to cement Liberal strength under one banner are Ernest Brown and Sir Archibald Sinclair, respectively heads of the Liberal Nationals and straight Liberals, who walked opposite paths in the party's stormy days of 1931 and 1932.

Now they are together again in the Coalition Government, Brown as Minister of Health and Sir Archibald as Air Secretary.

Whether both sides can reach an agreement on policy remains to be seen.

Navy Casualties

OTTAWA, Aug. 4 (CP)—The Royal Canadian Navy in its 191st casualty list of the war today reported two deaths in Canada.

Assistant Cook J. O. McMahon, R.C.N.V.R., died at the Hotel D'Hotel Hospital, St. Basil, N. B., July 26 as the result of an accident.

Ordinary Seaman G. A. Mansell, R.C.N.V.R., was drowned at Port Arthur, Ont., Aug. 2.

Legion Claims Farmers Buy Land to Exempt Sons

REGINA, Aug. 4 (CP)—A request that the Federal Government reinstate Remembrance Day, Nov. 11, as a statutory holiday, with Thanksgiving Day observed on the same date was contained in a resolution passed at the Provincial convention of the Canadian Legion in Regina yesterday.

Delegates also requested revision and review of the exemption and deferment situation as regards young men engaged or presumably engaged in agriculture. The convention went on record as protesting and viewing with concern the system of blanket deferments for such men on grounds that the number granted exemption was not essential to the work on the farms for which exemptions had been granted and that some farmers had rented or bought additional lands with the sole purpose of gaining exemption for their sons.

Fail to Remove Staple From Vancouver Boy

VANCOUVER, Aug. 4 (CP)—A staple swallowed by Melvin Gilliland eight, son of Mr. and Mrs. Norman Gilliland, while playing at Star City, Sask., in April, 1942, has defied efforts of experts to dislodge it.

Using a bronchoscope ordered from Eastern Canada, surgeons Tuesday made a vain effort to dislodge it. His doctor said the attempt was unsuccessful "because the staple and straight parts of the points have become completely imbedded in inflammatory tissue. Further treatment is being considered. The child's condition is satisfactory."

Famed British Speed Pilot Dies

LONDON, Aug. 4 (CP)—Air Commodore A. H. Orlebar, 46, Deputy Chief of Combined Operations and one of Britain's most famed speed pilots, died last night. He had been unable to attend to his duties for some time because of illness.

He twice captained the champion British Schneider Cup teams—in 1920 and 1931—and set a world speed mark of 357.7 m.p.h. in 1929.

Malta Disclosed as Eisenhower's Headquarters for Sicilian Invasion; Maltese Troops Accompany Allies

By WELMAN MORIN
Associated Press Staff Writer

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 4 (AP)—The Island of Malta was disclosed today to have been Gen. Dwight D. Eisenhower's operational headquarters for the Allied attack on Sicily.

The General and his staff went there four days before the scheduled beginning of the offensive and he stayed in a palace built in 1640 by the knights of St. John. There he was a guest of Field Marshal Lord Gort, Governor General.

These facts were disclosed today as the Allied Commander-in-Chief paid special tribute to the Island's people, "the most bombed and shot on earth," to Lord Gort and to the Malta Air Force.

During Gen. Eisenhower's stay there, officers were placed in limestone tunnels, grim reminders of the year in which the Island was subjected to more than 2,000 air raids.

There were two raids during that time but one of the General's aides said neither produced as much discomfort as sand flies capable of producing a fever of 104 degrees. Several of his staff were laid low

that way while waiting for the invasion to begin.

"It is obvious to every individual in the Allied command that, except for the Malta Air Force and for the constructive accomplishments of the whole Malta command during the past year, the current attack could scarcely have been classed as a feasible one."

Covering the invasion of Sicily, Malta-based fighters shot down 208 enemy aircraft.

Before aiding in United Nations offensive operations, the Malta Air Command, coupled with the anti-aircraft defences, downed more than 1,000 Axis planes from the time the Island came on the direct firing line with the entrance of Italy into the war in June, 1940.

As the raids continued the people on Malta re-opened the tunnels hewed in the rocks centuries ago by the Phoenician galley slaves and dug new ones.

The day finally came when the Maltese, who had been through the worst the enemy could offer from the air, found themselves in the centre of the preparation for the big attack. Some units of the Maltese troops actually went with the Allied Forces into Italy.

Cathedral Bells Toll for Queen's Birthday

LONDON, Aug. 4 (CP)—The bells of St. Paul's Cathedral pealed a salute to Queen Elizabeth today as she celebrated her 43rd birthday quietly in the country with King George and the two Princesses Royal.

It was the first time since the start of the war that the Cathedral bells had been rung to celebrate a Royal birthday.

Says China Hopes Regain Manchuria Formosa After War

LONDON, Aug. 4 (CP)—T. V. Soong, Chinese Foreign Minister who is visiting Britain, told a press conference today that China expected Manchuria and Formosa to be returned to her after the war but that she had no territorial ambitions in Indo-China or Thailand.

He said the Chinese hoped Korea would become an independent nation. When asked about the Chinese attitude toward Hong Kong, the British Crown colony which the Japanese captured, he said he preferred "not to take notice of the question."

With Manchuria China expected to regain the Manchurian railways and "there would be no questions between Russia and China," he said.

Himmler Anxious Over Hitler's Health

LONDON, Aug. 3 (CP)—A Reuters dispatch from Stockholm quoted the unconfirmed report of the Berne correspondent of the Nya Dagligt Allehanda today that Hitler's health is giving cause for anxiety in Germany.

The correspondent wrote to the Swedish newspaper that Heinrich Himmler, head of all German Police organizations, "asked Hitler's physicians to give a true report which was 'very bad,' the Fuehrer often appears apathetic and depressed."

The correspondent added that "in Germany discussions about an eventual successor already have begun."

Canadian Pacific Uses Special Rolling Stock for Handling Mammoth Machines for War Plants

MONTREAL—Equipped to handle the ever-increasing flow of war freight the Canadian Pacific Railway has in its rolling stock special cars designed for the shipments peculiar to war, all difficult to handle at all vital to its place in producing vital synthetic rubber are 38 feet, eight inches long; eight feet, four inches wide and can carry a maximum load of 135 tons.

The depressed portion of the car measures 22 feet, seven inches of its length and puts the loading platform two feet, seven and three-eighths inches from the top of rail, a decided advantage in outside or odd-shaped war shipments which cannot be handled on ordinary equipment and still have clearance for bridges, signals and telegraph wires. In the rubber tank shipment two of these huge cars carried the load with a smaller car in the centre acting as an idler.

Special features offered by these largest Canadian Pacific depressed-centre flat cars include a body made of a single steel casting and all-steel floor sheets to give added strength. They have six-wheel trucks, instead of the four-wheel trucks common to most freight equipment, and are equipped with axles 6 1/2 inches by 12 inches—the largest available. Some of the passenger-type equipment on these trucks includes clasp brakes and separate journal boxes and equalizers. There are two air brake cylinders and hand brakes at both ends of the cars. Every four feet on the platforms provision is made for securing the cables and braces needed to strap special loads in place.

DEPRESSED CENTRE FLATS—Standouts for their size, these large depressed-centre flat cars still constitute only a small percentage of the rolling stock with which the Canadian Pacific is doing a magnificent war carrying job. For the entire system there are in constant service 77,710 pieces of rolling stock for freight—including the 4835 im-

Cost of Living Index Advances Slightly

OTTAWA, Aug. 4 (CP)—The Dominion Bureau of Statistics reported today that the cost-of-living index advanced from 118.5 points June 1 to 118.8 points July 2. The increase was insufficient to cause adjustment of cost-of-living bonuses which now remain unchanged for the next three-month period.

The bureau reported that foods continued to be mainly responsible for the advance in the index. Under the Government's wage stabilization policy cost-of-living bonuses are adjusted each quarter, but only if there has been a change of one full percentage point in the index since the last adjustment.

Canadian Wheat to Aid Calif. Dairymen

SACRAMENTO, Calif., Aug. 4 (AP)—The War Food Administration will supply 400,000 tons of Canadian wheat to California dairymen who are critically short of livestock feed, the State Department of Agriculture announced today.

It will be transported by barges from Vancouver to San Francisco and Los Angeles and will be delivered early in September, W. B. Woodburn, Chief of the State Bureau of Market Enforcement, has notified W. J. Cecil, Director of Agriculture.

SWEDISH MINISTER PRESENTS CREDENTIALS

OTTAWA, Aug. 4 (CP)—Assurance that Sweden is determined to guard its independence "and to carry on our belief in the dignity of the individual citizen," was given today by Per Wijkman, first Swedish Minister to Canada, when he presented his credentials to the Earl of Athlone, Governor General of Canada.

Canadian Pacific is getting out of its 5314 gondola-type cars—coal, ore and stone cars and gondolas proper—in handling the steel with which the hungry furnaces of munitions factories keep the attack rolling.

Depressed-centre flat cars have been used in the past in bringing here bulky machinery from the East for the latest power plants of the West Kootenay Power & Light Company, on the Kootenay River below Nelson.

Feeding the Enslaved as Farsighted War Strategy?

Ten million starving children and mothers in Axis-occupied France, Belgium, Holland and Norway can be fed without aiding the enemy if the United States and Great Britain will give the official permission necessary to start the huge relief program functioning, Howard E. Kershner, Executive Vice-President of the International Commission for the Assistance of Child Refugees, asserts in Collier's Weekly.

The vitally-needed food can be supplied without cost to Americans because, Kershner says, there is sufficient funds of these four countries frozen in the United States to pay for it.

"Today we are winning the war but losing the peace," writes Kershner, whose conclusions are based on his experiences and observations while acting as director of relief in Europe for the American Friends' Service Committee from 1939 to 1942. "We are allowing the freedom-loving peoples of the occupied countries to be decimated by starvation while the Germans are being well fed. No matter what the peace terms, a well-fed Germany will have a postwar advantage over the tubercular, starvation-reduced malnutrition victims of the occupied countries."

"An effort could be devoted to saving these children without depriving us or our Allies of anything. Shipping is not a problem, for neutral ships which cannot be hired for the war effort are available to transport food from South America or the United States to the children of occupied countries, as neutral ships now are taking food from Canada to Greece."

Mr. Kershner reviews past and present European relief requirements, the extraordinary precautions taken between 1939 and 1942 to see that no food sent into France went to the Germans, and then states bluntly:

"The Germans have never taken any of our food; neither have they taken an equivalent amount of French food."

"I would not advocate sending food to the children of Europe if I thought it would prolong the war or send more of our sons to their death. Happily, what I propose would not only save the children but would give courage and strength to our Allies and friends and greatly enhance the possibilities of satisfactory post-war reconstruction. It is good charity, and best of strategy. In my opinion, it would shorten the war."

There is much to be said for the Kershner viewpoint. Could not the United Nations do for Norwegians, Belgians and French, for example, what Canada is doing to relieve starvation in Greece?

Mr. Kershner probably takes an over-optimistic view as to the availability of shipping and to the immunity of food shipments from attack or looting by the enemy.

Corruption Grows Among Nazi Officials

In our democracies we occasionally get corruption, but the remedy is peaceful, orderly and swift. We vote the rogues out of office.

In a dictatorship there is no such remedy. An able man who was three times mayor of Nelson and who knew something of weaknesses in democracy used to say with a touch of cynicism that he could see merits in dictatorships, but "dictatorship had to be tempered by assassination". A dictator and the bureaucracy of little dictators who enforce his wishes inevitably become corrupt as they remain in power. There is no way in which to exercise the evil except to turn their own bloody weapons against them.

Italian Fascism rapidly became corrupt. A less easy going people would have rid itself of Benito Mussolini and his thieving officials years ago. In Germany while the Goerlings and the Goel-

bels have been stealing public funds and sending the money abroad almost from the day they crashed their way into power the rank and file of the Nazis were kept under strong discipline. There was comparatively little grafting by the smaller fry.

The inevitable concomitant of abused power is now occurring. In a 350-word article the Polish underground newspaper "WRN" devoted otherwise entirely to an optimistic view of the war situation appears a significant sentence:

"At the same time, the huge administrative apparatus of occupation is in the grip of corruption, bribery, plunder and theft."

There is little left to steal from the Poles. The corruption is now extending to grafting by one German upon another. The whole Nazi political machine is beginning to be destroyed by the canker of its own corruption.

The Polish paper speaks of conditions within the occupation administration, but beyond question the same corruption is rapidly growing within Germany itself.

As fear of defeat grows, as Nazi officialdom begins to see that doom is inescapable, German morale will the more quickly deteriorate. We can only gain victory by defeating the armed forces of the enemy, but breakdown of his home front can contribute to that defeat.

Rubber After the War

Those most closely in touch with the rubber situation are predicting that the huge installations of synthetic rubber plants which are being made in the United States and Canada will find plenty of demand for their product after the war.

They believe there will be such an increase in demand for rubber that it will require the product of both rubber plantation in Asia and factory in North America and Europe to meet it.

Before the war, the United States annually consumed 10 pounds per capita, Russia less than one-third of a pound and China less than one-thirtieth. Both Russians and Chinese are learning rapidly to travel on rubber tires. It is upon the potential demand from countries which in prewar days used comparatively few automobiles that rubber authorities depend to keep busy the synthetic plants in addition to those which process the natural rubber.

Press Comment

ONE PASSPORT—FREEDOM

In a recent speech, and in impressive words, Foreign Secretary Anthony Eden gave a most fitting summation of the purpose of the United Nations:

"No one flag," said Eden, "no one government, no one language unite the people of our great alliance."

"We have one passport, freedom; one objective, victory, total and unmistakable; and one purpose, a just, and lasting peace."

Perhaps one of the outstanding blazes on the trail toward the second World War was the violation of treaties by the aggressor nations. Eden warned of the necessity to scotch this evil in future:

"We must, therefore, be ready to protect and maintain whatever settlement we devise, and one thing, I am sure, is above all essential. Never again must the civilized world be ready to tolerate unilateral infraction of treaties. For that would be to sap the whole foundation of the secure international life which it is our principal purpose to restore."

When the post-bellum line is set up, the first bandit nation which violates it must be arrested immediately. Three world wars in one lifetime are unthinkable, and need not take place. If there shall prevail an informed and righteous determination to maintain peace—by force, if necessary.—Montreal Daily Herald.

MUDDLE OF MAN-POWER

The manpower problem is occupying a good deal of attention in the House of Commons, and, despite all explanations made by the Minister of Labor, there are evidences of muddling and delays. Mr. Humphrey Mitchell describes the manner in which the problem has been handled in the country as "the best that can be devised." In that case there are weaknesses in the governmental system that call urgently for redress, for the best the Minister of Labor has been able to do has left the situation confused and inadequate in bringing about a solution of a problem that has been urgent for many months past.—Victoria Colonist.

N. S. Castle—Could you tell me names and addresses of a few of the larger shoe manufacturing companies in Canada?

Scott McHale Ltd., London, Ont.; Teirault Shoe Manufacturers, Montreal, Que.; Savage Shoe Co., Ltd., Preston, Ont.; Perth Shoe Co., Perth, Ont.

A. B. Nelson—When did the first street car run in Nelson?

Dec. 13, 1899.

M. P. Lourdes Camp—Would you supply recipes to use up thick sour milk to advantage outside cottage cheese?

Sour Milk Pie—1 1/2 large cups sour milk, 1 large cup sugar, 1 egg, spice and salt to taste; set on stove until it comes to a boil; makes two pies; bake with two crusts; make the crust the same as for apple pie.

Sour Milk Doughnuts—2 eggs, 1 cup sugar, 1 cup sour milk, 1/2 teaspoon salt, 1/2 teaspoon soda, 2 teaspoons baking powder, 1/2 teaspoon nutmeg, 1/2 teaspoon cinnamon, 4 to 5 cups flour; 1/2 tablespoons melted shortening. Beat the eggs until light and add sugar and sour milk. Sift salt, soda, baking powder, and spices with 3 cups of the flour and add to the first mixture. Add enough more flour to make a dough just stiff enough to handle. Add shortening. Roll dough to about a third of an inch in thickness. Cut with a doughnut cutter and fry in deep fat. Time in cooking, 3 min. each. Temperature, 370 degrees. Makes 3 doz. doughnuts.

Sour Cream Cookies—1/4 cup shortening, 1 cup sugar, 2 eggs, 1/2 cup sour cream, 1 teaspoon baking powder, 1/2 teaspoon soda, 1 teaspoon vanilla. Cream shortening and add sugar. Add beaten eggs, cream, and remaining dry ingredients sifted together. Add vanilla. Chill the dough, roll to about 1/4 inch in thickness and cut with a cookie cutter. Place on greased baking sheets and bake in a moderate oven. Time in baking, 12 minutes. Temperature, 350 degrees. Makes 4 1/2 dozen cookies.

Boiled Salad Dressing—1/2 tablespoon salt; 3 tablespoons sugar, 1 tablespoon flour (heaping); 1/4 teaspoon dry mustard and a few grains of cayenne pepper, all mixed well together. Add yolks of 2 eggs beaten to a cream. Stir well. Add 2 tablespoons melted butter and 1 cup sour milk. Cook in double boiler, stirring all the while for two or three minutes. Then add 1/4 cup vinegar a little at a time, testing to see when enough has been put in to suit the taste.

Sour milk may also be used in any chocolate cake recipe. Substitute sour milk for sweet milk and use baking soda instead of baking powder. In using the sour milk substitution it may be necessary to use a little more than the amount of sweet milk called for, and also a little more baking soda.

Today's Horoscope

If you have a birthday today you are mentally alert, quick-witted, fond of a good laugh and have the capacity for entertaining others. Follow your ambitions steadfastly to success. Trust your own judgment. You have precise and fastidious tastes. Early this morning you may have an inspired idea how to earn more by helping others to increase their income. Decide to speed up production, and to get the most satisfactory cooperation possible from public officials. Figure out where you can find suitable advice about a safe investment for your surplus cash.

Etiquette Hints

There are people who arrive at a friend's home around dinner time and then hang around until they are asked to join the family. Don't do this if you wish to be considered well-mannered.

Verse

THE INVASION ARMY (A Marching Song)

Strike! Fire! Bomb and Blast! To total war they go, To smash the world's enslavers, To crush a fiendish foe. Out to break the yoke of those Beneath the tyrant's rod; An army of deliverers— The battle-axe of God.

We fight for life and country, For all we hope to be; That all men still may live as men In peace and liberty.

To guard the things we honor, The faith by which we live, Our children's happy laughter, The joys that home can give.

To liberate the prisoners; To let the fallen stand, That peoples now condemned to die May repossess their land. Out to break the yoke of those Beneath the tyrant's rod; An army of deliverers, The battle-axe of God.

Germany Invades, Finds Russia Is Not Ready.

CHAPTER 4

One day later in the year than Napoleon, Hitler invaded Russia, June 22, 1941. Beyond that much as they were to be compared, there was little comparison between the campaigns of the nineteenth-century French emperor and the twentieth-century German Fuehrer. For Napoleon marched to Moscow with a mobile column, turned around and marched back again. Hitler flung himself on Russia with a huge force, stopped short of Moscow, and hung on for a fight to the finish.

When it began, that fateful Sunday at 4 a.m., one hundred and seventy divisions, numbering more than two million men, with ten thousand tanks and ten thousand planes, were unleashed against the Soviet Union. With them, death and devastation stalked onto the steppes of Southern, the forests of Western, the tundra of Northern Russia.

The invasion caught the Soviets by surprise. Despite all alarms and warnings, they were not ready. Unexpectedly, bombs showered down on Kiev, Sebastopol, Kaunas, Zhilomir, and other important cities of the rear. Shells rained on Brest-Litovsk, Belostok, and other towns on the frontier. Border posts were rapidly overwhelmed. So complete was the surprise that junior pilots rushed about their airports, seeking superior officers for orders to take off, while they themselves were being bombed. And many of the highest officers of the army and navy and officials of state were away from their posts on vacation.

It was not until 5:30 a.m., one hour and a half after the invasion, that Graf von der Schulenburg called on Foreign Minister Molotov at the Kremlin to inform him that Germany had started war on the Soviet Union because of Red Army concentrations opposite the German border. It was not until 12:15 p.m., that the Russian people heard, in a broadcast by Molotov, that they had been attacked without previous demands, without a declaration of war.

The confusion was complete. The Red Army admitted June 23 the fall of Brest-Litovsk. It fell only the next day. A washerwoman, dropping her laundry and drying her hands when she saw the Germans, took a rifle, helped one border post stand off the enemy, then went back to a garrison and brought reinforcements. For a day that post held. The 99th Red Army Infantry Division, commanded by Colonel Jacob Kreuzer, retreated from Przemysl, in Old Poland, then pushed back and recaptured the town. They held until ordered to withdraw. But all around them the Soviet frontiers fell.

Behind the frontier, loudspeakers blared orders: mobilization of men between twenty-three and thirty-five years old in the fourteen Western military districts, air-raid and anti-gas precautions, a state of siege throughout European Russia. That night, as they had in all other cities of Europe, the lights of Russia were blacked out.

And so, all unwilling, Russia became Armageddon.

I had what seemed at first to be the very bed, but what turned out to be the very good, luck to witness the outbreak of the war, not from Moscow, but from the peaceful sunlit terrace of the Riviera Hotel at Sochi.

It was a beautiful Sunday, warmed by the rain, freshly washed by the rain, after a tempest the previous day. The Black Sea dashed briskly against the breakwater across the concrete walk. The war had been on for hours, but I had no remembrance of it, as I sat on the hill above the beach and watched the waves.

A telegram had come for me that morning from Moscow, saying: "Plane immediately." Idly I wondered what the reason for it was, personal or business. Witt Hancock, my predecessor in Moscow, had been planning vaguely to come through Moscow if he were ordered home from his post in Turkey. In that case I had left word I would re-

Is there a list of employee types that give a foreman a headache? —A Foreman.

There are eight kinds of employees which could be included in such a list. There is not sufficient space here to tell you what to do with each type as nearly every employee must be handled as a separate entity. Here they are:

- 1. Over confident.
2. Unsettled.
3. Resentful.
4. Unteachable.
5. Backward.
6. Self conscious.
7. Unwilling.
8. Bossy.

It has also been discovered that the occasional one gets the employee who is the quarrelsome type, the grouchy, the worrier, the clock watcher, or one of the antisocial type. Most of these can be weeded out by the employment department. If they do slip by and are employed, it is up to the foreman to make them efficient!

I should think I might take the train today." The officer nodded, and said, "You might."

The baggageman remained at the station, already filling up with anxious crowds; to buy the ticket and I walked back to the hotel.

In the streets squads of men were marching in civilian clothes. Houses were being bulwarked. Troops passed in trucks. The town was emptying of all except women and children.

I could not help but compare this to the France I had seen less than a year before. There was no rush of refugees on the road. In fact, as I was still to find out, it was very difficult to move at all. There was no mass crisis of nerves; the war of nerves had never reached this remote, stolid people.

If the Russian people are ever defeated, I thought, it will not be because of nerves.

On the way to the hotel I asked

a man what the morning's radio news had been. "We are attacking," he said. TO BE CONTINUED

LEBBUTT-STANTON

A wedding of interest to many took place July 30, at the Nelson Court House when Magistrate Cartmel united in marriage Mrs. A. Stanton of Trail and Harold Lebbutt of Vancouver. The bride looked charming in a pin stripe blue serge suit with hat of royal blue and knit gloves and corsage of roses and sweet peas. The bride's attendant, Mrs. C. J. Stanton, chose a dress of powder blue silk with white accessories. The bride's son, James Stanton, supported the groom. The wedding breakfast was held at the home of Mr. and Mrs. Charles J. Stanton, 1007 4th Street, Nelson, where relatives and a few friends gathered to wish them all happiness. A hand crocheted lace cloth adorned the bride's table which was centered with a three tiered wedding cake. Mr. and Mrs. Lebbutt will reside in Trail.

CANNED TOMATO JUICE
Allow about 4 pounds firm, fully ripe red tomatoes for each quart jar. Wash, remove stems and any hard or green spots. Cut into eighths and simmer very gently, stirring occasionally until soft. Put at once through a fine sieve to remove seeds and skin, then bring juice to a boil and pour immediately into hot sterilized jars and seal. Tomato juice does not require processing. The large yellow tomatoes also make excellent juice.

SCOTCH MEAT BALLS
One pound ground raw beef, 1/4 cup quick cooking oats, 1 teaspoon salt, 1/4 teaspoon pepper, 1 tablespoon onion, 1/4 cup cold water, 2 tablespoons butter or shortening. Add oats to ground beef (other ground meat may be used instead of beef if desired) salt, pepper, and

chopped onion. Add water. Mix well with kitchen fork. Make into 24 small or 12 large balls and saute in butter until well browned all over, 10 to 15 minutes. Remove to platter. Add 1/4 cup water to pan, boil, season, and pour over balls. Garnish with chopped parsley. Serves 6 to 8.

HONEY STRIPS
1 cup shortening, 1 cup honey, 1/4 teaspoon salt, 1/4 teaspoon allspice, 1/4 teaspoon cinnamon, 1/4 teaspoon cloves, 2 teaspoons baking powder, 3/4 to 3/8 cups sifted flour.
Heat shortening and honey together and boil for 1 minute. Remove from heat, add salt and spices and cool to huke-warm. Stir soda with 1 cup of the flour and add; gradually stir in remaining flour. With a cookie press and bar plate No. 1 form strips the full length of an ungreased cookie sheet and bake at from 350 to 375 degrees F., from 8 to 10 minutes. Or shape into a roll, wrap in waxed paper, and chill overnight, slice quite thin, and place a shelled pecan nut in centre of each cookie and bake. When done out into desired lengths as taken from the oven and immediately remove to wire rack to cool. These cookies are excellent for sending to men in camp, as they do not break up easily.

RIGHTS AND WRONGS

WHAT IS right and what is wrong, what is ethical and what is unethical, what is sportsmanlike and what is not—all of these are dealt with as "proprietaries" of the game in the new Laws of Contract Bridge. Here are official guides which any player should know:

While it is improper to play out of turn, carelessly or otherwise, it is proper for a defender to play out of turn, if declarer has played from both hands.

While it is reprehensible to allow partner's hesitation, remark or manner to influence a call, lead or play, it is proper to draw inferences from an opponent's gratuitous hesitation, remark or manner, but such inferences are drawn at one's own risk.

It is proper to warn partner against infringing a law of the game; for example—against revoking, or against calling, leading or playing out of turn; except that it is illegal for dummy to warn declarer against leading from the wrong hand.

While it is proper to keep silent in regard to irregularities, subject to penalty, committed by one's side (including established revokes), all four players are equally responsible to see that each hand plays a card, and but one, to each trick, and should forthwith correct such an irregularity.

It is improper to employ an unusual convention in play without informing the opponents of its significance.

It is improper to use, in calling, a convention the significance of which has not been announced. The term "convention" covers a call designed to convey an arbitrary or artificial meaning, or used by a player with the assurance that his partner will not accept it in its natural sense. Such a call is not subject to penalty (as an informative remark).

It is necessary that a convention so used should be fully understood by the other side, and players using convention calls should be ready to reply fully to a proper inquiry by an opponent as to their meaning and use. Should it be necessary to make such an inquiry during the auction, the partner of the player who has made the convention call should reply. The maker of the call may be requested to leave the table while the answer is given.

The committee of any association, tournament or club, or a group of persons playing Contract Bridge, may prohibit or restrict the use of conventions which are both generally unrecognized and sufficiently intricate to cause unreasonable delay.

Bystanders or members not playing should refrain from making gratuitous remarks. They should not call attention to any irregularity or mistake, or speak on any question of fact or law except when requested to give an opinion.

Guernsey Nags in Daily Double

CHICAGO, Aug. 4 (AP)—Stars at Night and Malhigh, carrying the colors of W. W. Guernsey of Kansas City, Mo., made up a \$1050 daily double payoff at Washington Park today.

Trainer M. C. Goodsell saddled both horses and William Bailey rode both. Stars at Night and Malhigh were bred by Guernsey and are out of the same mare, Maiden's Ballet.

Stars at Night won the first race by two lengths and paid \$81.20, \$36.80 and \$14.2. Malhigh's prices were \$23.8, \$12.3 and \$6.60.

Pitching, Hitting Combination Senators Secret

WASHINGTON, Aug. 4 (AP)—There's really no mystery about the current success of the Washington Senators. It's merely a case of the pitchers pitching and the hitters hitting at the same time—synchronization, so to speak.

"It looks as though we're finally getting the most out of the power on the club," Manager Ossie Bluege commented last night.

Bluege, freshman pilot of the Senators, took his second-place crew on the road today for one of the toughest out-of-town assignments ever dealt a ball club. Washington plays 29 of its next 32 games on the road.

Enthusiasm here for the current edition of the Senators, which has brought near-record crowds to the ball park, started early in the season, and lasted while the team stayed in or around first and second place.

But fans stayed away from the ball park in droves when the breaks changed at the mid-way mark. Both the hitting and the pitching flopped, and the team did likewise—down to fifth place.

Last week the team, and the crowds began to change for the better. Good hurling by Dutch Leonard, Milo Candini, Rae Scarborough, Early Wynn and Milt Haflinger was in tune with lustrous hitting by Stan Spence, Gerry Friddy, Jimmy Vernon, George Case, Gene Moore, Jake Early and the rest.

Hartford, Conn., was first settled by Dutch from New Amsterdam.

Cards and Yanks Can Lose Leads Only by Miracle

NEW YORK, Aug. 4 (AP)—Most of the major league baseball clubs pause today and tomorrow to catch their breath; and recent developments indicate that's all they will catch. Only a miracle, it now appears, will enable them to catch the St. Louis Cardinals and New York Yankees.

What were still fairly tight races at the time of the all-star game have developed into one-team parades in both leagues. The Cards and Yanks, making the most of their home stands, now are enjoying juicy leads.

Today the Cards are 11 1/2 games in front of Pittsburgh, which replaced the Dodgers in second place, and the Yanks are eight games ahead of the second-place Washington Senators.

The Dodgers open their home stand Friday, a forlorn bedraggled bunch of players with a place in the first division, let alone second place, anything but a certainty.

They are in third place, 13 games off the pace, and only a game ahead of the Cincinnati Reds. Their road trip, climaxed by the loss of four straight games to the Cards, was a woeful tour, enlivened only by brawls and abrupt changes in personnel. They won't be the same old Dodgers when they return to Ebbets Field.

Meanwhile the Cards sailed along at a merry clip, winning 15 of 31 games.

The Yankees' home stand was just as successful, McCarthy's musketeers taking 14 of 20 contests.

Market Trends . . .

LONDON, Aug. 4 (CP)—The closing tone was generally firm although volume was reduced. There was evidence of traders switching to Home Rails on yield considerations after profit taking checked the upward trend in industrials. Kaffirs and diamonds eased but oils rallied to finish mostly unchanged.

British funds held steady. French and Chinese railroad bonds were firm.

NEW YORK—Shares of Blue Chip rating led another recovery. Several of the higher priced investment issues pushed up 1 to 3 or more points at the best but most were somewhat under the highs.

Among Canadian issues Canadian Pacific and Lake Shore were up 1/4 while Hiram Walker dropped 1/4. Dome Mines was unchanged.

CHICAGO—Grains moved within an extremely narrow range, traders finding nothing in the news to create strong price trends.

At the close wheat was unchanged to 1/4 higher, September \$1.44 1/4-1/2, oats were unchanged to 1/4 higher, September 70, and rye was up 1/4-1/2, September \$1.01 1/4-1/2.

Signs Indicate Oakes Tried to Escape Murderer

By E. V. W. JONES Associated Press Staff Writer

NASSAU, Bahamas, Aug. 4 (AP)—A Miami police officer told today of signs which indicated that 66-year-old Sir Harry Oakes, his clothing afire, attempted to break loose from his attacker the night he was bludgeoned and burned to death.

Capt. E. W. Melchen, one of two officers summoned from Miami, Fla., by the Duke of Windsor to help investigate the slaying, was the first witness today at a preliminary hearing for Sir Harry's son-in-law, Alfred de Marigny, who is charged with the murder of the multi-millionaire gold miner.

"It appeared," Melchen told Magistrate F. E. Field, "that Sir Harry first was set afire while he lay on the floor not far from his bed. "Apparently he managed to get through the bedroom door into the hall.

Lord Halifax Passes Through Kingsgate; Presented With Fish

KINGSGATE, B.C.—Lord Halifax, accompanied by Lady Halifax and his son Lieut. Wood made a very brief stay on his way to Spokane from Nelson. Unfortunately for a number of people who had risen to meet the train the hour was too early for any of the party to be around and the sightseers had to be content with a look at the private coach.

President E. S. MacPherson of the S.I. Railroad came with his private car from Spokane to meet Lord Halifax. He was accompanied by Mrs. MacPherson.

Joe Brogen, Canadian Customs officer here left an exceedingly nice mess of fish with the chef on the private car for His Excellency's breakfast.

Legion Appeals for Names of Boys in Armed Services

CRESTON, B.C.—Canadian Legion officials of Post 29 are appealing to the Kitchener-Crawford Bay District citizens, for names of men and women who enlisted in the Canadian Armed Forces, for the purpose of making a plaque which will be dedicated, and placed in a public centre, so that all may examine it.

The local Canadian Legion is asking that names and surnames, unit, rank, regimental number, year of enlistment, be printed plainly and turned into the Creston Review offices before August 31st 1943, so that work may begin immediately on the plaque.

East Kootenay Power Earnings \$41,090

MONTREAL, Aug. 4 (CP)—East Kootenay Power Company Limited today reported net earnings in June at \$41,090, compared with \$38,739 in the corresponding month in 1942.

Gross earnings increased \$2,155 at \$65,884 and operating expenses were down \$196 at \$24,774. Net earnings for the three months ended June 30, were \$2289 higher at \$118,570.

Retail Trade Shows Slight Increase

OTTAWA, Aug. 4 (CP)—Retail trading in Canada showed a slight increase in June, the Dominion Bureau of Statistics reported today. Composite indexes of sales based on returns from 12 lines of business, on the basis of 100 for 1936-1939, stood at 106.5 for June compared with 102.8 for May and 104.5 for June, 1942.

An outstanding feature of the June retail trade statistics was the "pronounced" increase over June last year in the Prairie Provinces, the Bureau said.

Interpreting The War News

By KIRKE L. SIMPSON Associated Press War Analyst

A perilous and precipitate Nazi flight from the whole Southern perimeter of the Mount Etna bastion in Sicily appears inevitable, if indeed it has not already started.

To achieve escape to the doubtful Messina "coffin corner," enemy forces on the South slopes of the great volcano and on the Catania Plain must pass across the whole British front from West to East, then up the narrow Eastern coastal corridor, beset by mass air bombardment and the cross fire of British field and naval guns. It is either that or surrender for the main weight of Axis armor in Sicily as the crunching American-Canadian attack in the centre cuts them off from Northward flight around the inshore rim of the mighty mountain.

West of Regalbuto, the Canadians are reported virtually in field-gun range of Aderno on the road and rail routes encircling the inshore flank of Mount Etna. Above them American forces seem almost to be closing on Bronte Village.

The combined drive is hacking open a 15-mile gap in the only escape road for the foe not under direct British sea and ground fire. Over the whole Sicilian battle theatre, Allied planes are pouring a pulverizing rain of bombs night and day.

It appears more than possible that the battle of Messina Peninsula, like the Battle of Etna, will be over almost before it begins. The Messina "coffin corner" could become overnight a springboard for Allied invasion of the Italian mainland instead of a dubious escape route for Axis forces in Sicily.

London advices harp heavily on an impending Allied jump from Sicily to the mainland, obviously both to prepare home front opinion for that, and to add to the strain on Italian war nerves in hope of inciting a peace revolt against the Badoglio regime. They hint that landings on the Italian "boot" may come before Sicily is completely mopped up.

There are many indications that the next break in the campaign against Italy is expected within days, perhaps before the weekend. Foreign Secretary Eden has added his voice to that of Prime Minister Churchill, President Roosevelt and Gen. Eisenhower in urging Italian capitulation to avert dire consequences. Like Mr. Roosevelt, Mr. Eden informed Parliament of Allied readiness to accept surrender from any Italian hands, virtually urging Badoglio's overthrow if he continues to hesitate or traffic with the Nazis.

13 Forest Fires Burning in the Kootenay-Boundary; 101 More Fires This Season Than in 1942

Thirteen forest fires were burning in Kootenay-Boundary Wednesday, but all were under control, most were small, and the largest were at a low ebb. One of the 13 was in East Kootenay, six were in West Kootenay, and six were in the Boundary.

The fire report for the week, made up Wednesday, showed a total of 40 new fires in the week. Of these 13 occurred in East Kootenay, 13 in West Kootenay and nine in the Boundary.

To date this season there have been 188 forest fires in Kootenay-Boundary. East and West Kootenay have each had 82, and the Boundary 24.

In the corresponding week last year five fires were burning. Twenty-four outbreaks occurred in the week, and the total for the season was 87. This season's total is 101 more than at the same time last year.

New Kimberley School District Elects Trustees, Votes \$70,000 for Year

KIMBERLEY, B. C., Aug. 4—First meeting of the ratepayers of the newly-created Kimberley United Rural School District was held this evening at 7:30 p.m. at the High School. This newly consolidated school district includes Kimberley, Chapman Camp, Marysville, and Meadowbrook.

The purpose of the meeting was to elect five trustees and to vote a sum of money for estimated expenditures for the coming year.

Nominations for trustees resulted in the following being elected by acclamation. P. J. McKim, R. L. Bullen, A. Watkins, W. Bentley of Kimberley; and D. Hall of Marysville. The three former were previous members of the Kimberley School Board. Mr. Stanley Norton was reelected auditor.

In regard to estimated expenditures for the coming year, Chairman G. L. Knighton said the sum of \$70,000 would be needed. Following discussion the meeting unanimously adopted a resolution that the sum of \$70,000 be authorized for the coming year on a mill rate of 16. It was pointed out to those present that it will be necessary to purchase a school bus this year and to provide for upkeep and salary of driver.

Canadians in Sicily Have Proven Themselves Worthy Comrades

LONDON, Aug. 4 (CP Cable)—The Evening Standard said today "the Canadians after three weeks under fire have proved themselves worthy comrades and rivals of their fighting kinmen" (the British 8th Army).

In this manner the paper led off today's editorial, which was completely devoted to a tribute to Canada and the part Canadians are playing in the war.

The editorial added: "Already the story of the capture by the Canadians of Agira, which led them to Regalbuto, ranks among the epics of freedom's struggle. The Canadians met the pick of experienced Nazi divisions in difficult, mountainous country and smashed their way into the city through the most formidable defences yet encountered in Sicily.

"The present victories gild with glory the patient record of the men who formed a hard core of Great Britain's defence during the weary months after Dunkerque. We owe much to the Army whose Overseas Commanders are the youngest in all the Allied Forces and whose leader in Sicily, Gen. Guy Simonds, is 39. (Average age of the Canadian Overseas Commanding Generals is 45.)

"The world will owe it more in the great and terrible times that lie ahead."

The paper also praised the feats of the Royal Canadian Navy, the Canadian Merchant Navy, the R.C.A.F., the Canadian Army Tunnellers who went to Gibraltar and the British Commonwealth Air Training Plan in Canada, the Dominions war production of food and weapons and the taxpayers' contribution.

The Standard continued: "Canada, too, is an intimate link with America. She shares the enterprise of the Alaska Highway. In proportion to population, she ranks with America at the donor's end of Lease-Lend."

"Britain, Russia, Australia, New Zealand—all have shared Canada's generosity, made possible by a war mobilization as complete as though the citizens of Montreal were in the front line and given without thought of cash reward or of reimbursement. "Canada chose freely and gladly to offer all she had to sustain the Mother Country and smash Fascism. To recall that fact is to be reassured about the quality of kinship that must never perish from the earth."

Cranbrook Tourist Camp Does Capacity Business

CRANBROOK, B. C., Aug. 4—Apparently the characteristic Western Canadian urge to travel just won't be suppressed. Twice in the past week the City Tourist Camp has done capacity business in a season when tourist travel is presumably at the all-time minimum.

Prior to 1941 the half dozen camps of the community could not handle all the traffic which in a fortnight swelled the resident population from early June to late September. In 1942 traffic plummeted. Before then accommodation at the city camp could only be secured through advance reservation.

This season it appeared unlikely the camp would make more than a few dollars, but tourists keep coming. Alberta plates show who is the best customer. Several parties have stayed at the camp for their entire vacations. Most of the cars carry AA stickers which shows how carefully the 120 gallons have been preserved for a single holiday fling.

Special appeals have been made to campers to extinguish all campfires completely, and to travellers to extinguish all matches and cigarettes before throwing them out.

The special restrictions and controls will be continued until weather conditions warrant their removal.

SPECIAL FIRE PATROLS IN EAST KOOTENAY

CRANBROOK, B.C.—Maximum fire hazard in the district's forests have resulted in special patrols on the job in various points of East Kootenay, while some lakes have been forbidden to fishermen until the hazard is allayed.

In Cranbrook district two special fire patrols are on the job, one for about 12 miles along Gold Creek Eastward toward Baker Mountain, and a second on Matthew Creek in the St. Mary's Lake district.

Special appeals have been made to campers to extinguish all campfires completely, and to travellers to extinguish all matches and cigarettes before throwing them out.

The special restrictions and controls will be continued until weather conditions warrant their removal.

Traffic Through Kingsgate Down in July

KINGSGATE, B. C. — Traffic through the port for the month of July showed a little reduction on the railroad while the highway as usual showed almost a blank compared with the year before. 132 cars were cleared at the port mostly U. S. Government loads. 1078 cars were manifested on other Canadian ports and there were 983 export loads.

The biggest falling off was in the coal shipments. Cars travelling on the highway North were 131 Canadian, 118 U. S. South there were 147 Canadian and 128 U. S. Passengers South were 1991 and North 1907. It is rather interesting to contrast these figures with those of 1941 which were 1078 Canadian, 332 U. S. 1470; South, Canadian 187, U. S. 1725. Passengers North 7690, South 7195.

Butter and Cheese Stocks Show Large Increases

OTTAWA, Aug. 4 (CP)—Creamery butter stocks in nine principal Canadian cities totalled \$9,915,961 pounds at the close of business Aug. 1, the Dominion Bureau of Statistics said today.

This was an increase of 15,100,000 pounds compared with Aug. 1, 1942, and was 13,700,000 pounds more than in the same cities a month previous.

The report is based on stocks in Quebec, Montreal, Toronto, Winnipeg, Regina, Saskatoon, Edmonton, Calgary and Vancouver.

Dairy butter also increased from 30,626 on July 1 to 147,830 pounds on Aug. 1. Cheese stocks totalled 33,199,746 pounds as compared with 45,600,000 pounds on July 1, 1942 and 24,800,000 on July 1, 1943.
