C. M. & S. Proposes Increased Scale of Wages

TRAIL, B.C., May 10—Establishment of a new wage scale, giving Trail and Kimberley employees pay ranging from 87 cents an hour for common labor up to $1.29 through the various wage divisions, is proposed by the Consolidated Mining & Smelting Company of Canada Ltd. in its negotiations with the Trail and Kimberley locals of the International Union of Mine Mill & Smelter Workers.

These proposals were outlined in a Saturday release by the C. M. & S. which follows:

"In connection with negotiations now under way betwee nthe Consolidated Mining and Smelting Company of Canada Ltd., and the Trail and Kimberley Locals of the I.U.M.M. & S.W. the Company has made the following proposals:

"1. It is proposed to reinstate the common laborer classifications and progressively to increase each wage division above a common laborer by one-half cent per hour. In addition it is proposed to inncrease the interim adjustment by eight cents per hour. These changes will result in a wage scale as follows:

Present earnings per hour	Proposed earnings per hour
Common labor	$0.87
$0.82	$0.90½
(except common labor)	
.85	.94
.88	.97½
.91	1.01
.94	1.04½
.97	1.08
1.00	1.11½
1.03	1.15
1.06	1.18½
1.09	1.22
1.12	1.25½
1.15	1.29

"2. It is proposed to pay holiday pay to contractors on the basis of their average total earnings: in other words, the contractor's average contract earnings above day pay will be added to his present holiday pay.

"3. It is proposed to make provision for the payment of certain specialists' rates above the journeyman's rate (i.e. above $1.18½ per hour) to be given to certain employees in the tradesman's category in recognition of exceptional skill or ability. The application of these rates is to be determined by the Company."

Teeners Ask Herridge Aid in Bar Protest

TRAIL, B.C., May 9 (CP)—Trail Teen Town have forwarded to H. W. Herridge, M.P. for Kootenay West, a resolution protesting the increased price of chocolate bars and have asked the member to add his support in presenting it to Finance Minister Abbott.

The letter to Mr. Herridge said Teen Town had decided to boycott the sale of all bars at the eight-cents price unless it can be shown that the price advance was "absolutely essential."

To Provide for Dredging On Arrow Lakes

OTTAWA, May 9—Funds to permit operation of a dredge for the full low water period on the Arrow Lakes are being provided this year, E. P. Murphy, Deputy Minister of Public Works, has advised H. W. Herridge, M.P., Kootenay West.

Mr. Herridge brought to the attention of the Minister the necessity for continuous dredging during the low water period, if the channel was to remain in a satisfactory condition. For some years, he said, the dredging program has been somewhat restricted.

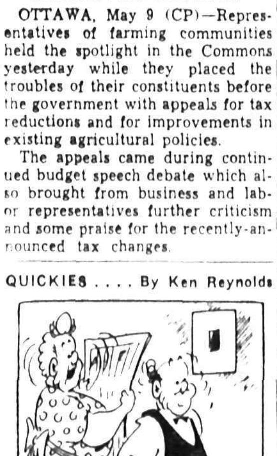
FARMERS APPEAL FOR LOWER TAXES

By D'ARCY O'DONNELL
Canadian Press Staff Writer

OTTAWA, May 9 (CP)—Representatives of farming communities held the spotlight in the Commons yesterday while they placed the troubles of their constituents before the government with appeals for tax reductions and for improvements in existing agricultural policies.

The appeals came during continued budget speech debate which also brought from business and labor representatives further criticism and some praise for the recently-announced tax changes.

QUICKIES . . . . By Ken Reynolds



"This must be Cleanup Week—I see in the News Want Ads they have specials on bath tubs!"

WEATHER COSTS GROWERS $30 MILLIONS

Warmer Days Seen For East; Maritime Flood Rise Halted

PACIFIC WINDS

By The Canadian Press

Flood threats were diminishing Saturday in New Brunswick and Quebec, while all Eastern Canada was promised warmer weather at last. The long-delayed arival of Spring appeared imminent, but not before it had extended cold wet weather to unseasonal length with possibility of serious crop damage.

Ontario Agriculture Minister T. L. Kennedy at Toronto said Friday night Ontario farmers possibly had lost between $30,000,000 and $40,000,000 in the total provincial crop return through the long set-back to normal operations.

"If we have growing weather in the next two weeks they might be able to hit a home run that will enable them to recoup some of their losses," he added.

That was generally the picture for all Eastern agriculturists in contrast to the West which has been enjoying an early Summer.

STREETS UNDER WATER

Cold weather Friday night appeared to have halted the flood rise in the St. John River in New Brunswick where floods had occurred in the last two days. On Fredericton streets bordering the river there was five feet of water Friday. Across the border in Maine 100 persons were forced to evacuate homes in the village of Fort Kent.

Several Summer houses at Ste. Anne de Bellevue in Quebec had flooded cellars from the rising waters of the Two Mountains River and Lake St. Francis. A stretch of 100 yards of highway also was flooded.

Montreal, like many other Eastern centres, had cold weather verging on freezing during the night with a promise of snowflurries later. Ottawa was sunny Friday but cold with temperatures in the 30's although warmer weather was promised for today.

A slight rise continued in the Ottawa and Gatineau Rivers around the capital with 50 homes on Gatineau Point surrounded by water. Some families have been evacuated from there.

FREIGHTER TIED UP

The latest and biggest ice field at the Lake Erie approach to the Welland Canal still held more than a dozen freighters Friday night, with another 36 vessels held in ice just outside Buffalo Harbor. The big U.S. Coastguard Icebreaker Mackinaw reached Lake Erie yesterday to attempt smashing the ice fields.

SHIPPING DAMAGED

VANCOUVER, May 9 (CP) — High winds buffeted shipping in the Gulf of Georgia today, causing damage to small craft and logging booms.

Shipping was warned to take shelter as strong Westerly winds, averaging 27 miles an hour, with gusts up to 42, whipped across the Gulf.

The big tug Mary Macken, owned by the Canadian Tugboat Co., lost 48 sections of a log boom, containing 2,500,000 feet, off the sandheads, 25 miles West of here. Lumber scows were swept ashore in English Bay here, and limbs were blown from trees in Sanley Park.

Cool breezes swept Vancouver, where sunshine flooded the city, Spring flowers blossomed, and the first roses of the season bloomed.

Nelway Offices Into Summer Schedule

Customs offices at Nelway have been changed to their Summer hours, members were advised at a meeting Friday of the Nelson Board of Trade. The offices are now open from 8 a.m. to 8 p.m., Standard Time. Previously they closed at 5 p.m.

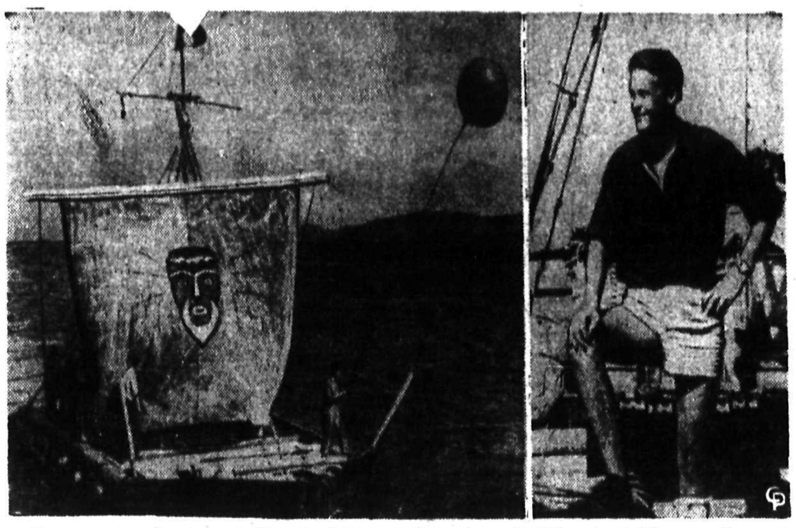
Carson to Address Spokane Chamber On B.C. Highways

Nelson Board of Trade members have been invited to attend a luncheon meeting of the Spokane Chamber of Commerce May 13 when Hon. E. C. Carson, Minister of Public Works, will speak on the British Columbia highway system. Members were invited through a letter from Spokane read Friday at a luncheon meeting in the Hume.

To Ask Weekly Grading for Nelson, Nelway Highway

Provincial Department of Public Works will be asked to grade the Nelson-Nelway road weekly until a proposed program of improvement is started. Travelling conditions on the road, it was said at the Friday meeting of the Nelson Board of Trade when the resolution was passed, were poor and grading would cause a noticeable improvement.

Star[t] ...000-Mile-Drift Over the Pacific



Six young Scandinavian scientists, headed by Thor Heyerdahl, right, are shown, left, on their raft, sending up a weather balloon as they set out from Lima, Peru, to test a theory. They believe that the South Sea islands of the Tuamotu Archipelago were first populated by primitive South American Indians who arrived there by drifting on rafts across the Pacific. The venture is called the "Kon-Tiki" expedition, Kon-Tiki being the name given by the ancient Peruvians to the sun god, whose head is painted on the sail of the 50 x 20 foot craft. The adventurers hope to reach the Marquesas Islands in 16 weeks.

THOUSANDS WALK OUT IN HAMBURG STRIKE

Demand Hamberg, Ruhr Be Declared Emergency Areas

WANT FOOD

HAMBURG, May 9 (Reuters)—Demands that Hamburg and the Ruhr be immediately declared emergency areas, and that hoarded food be distributed among the population, were made today by Adolf Kummerness, Chairman of Hamburg's Trades Union Council, as hundreds of thousands of men and women left their jobs in the city's first general strike since pre-Nazi days.

Reports from Frankfurt said workers in all public and private enterprises in Hanover started a five-hour strike at 1 p. m.

Strikers slowly marched up and down the streets carrying banners demanding more food and a crowd of 60,000 gathered near Central Railway Station to hear Kummerness.

There were shouts of protest when Wilhelm Doerr, Chairman of the German Employees' Union in the British zone, appealed to the workers to return to their factories and offices.

The demonstrators dispersed after the meeting. Thousands of other strikers preferred to sunbathe on the banks of Alster Lake.

As a military government conference held by the Regional Commissioner was discussing the strike, Lord Pakenham, Minister responsible for the administration of the British zone, was reported to have arrived at Duesseldorf for talks with British and German officials.

Military authorities advised British troops to stay away from the centre of the city. Trade union chiefs had warned all demonstrators to be orderly and discipline, however, and disturbances were not expected.

Employees of the German News Service were exempted from the stoppage, together with those of the gas, electricity and food industries.

A mass meeting later was to decide whether the workers should continue the strike.

Succeed in Electrocuting Negro Boy

ST. MARTINVILLE, La., May 9 (AP) — The State of Louisiana today succeeded in its second attempt to electrocute Willie Francis.

The stuttering 18-year-old Negro, convicted in a holdup killing, died calmly in St. Martin Parish Jail here today in the State's portable electric chair—the same chair from which he walked away May 3, 1946, after a loose connection had caused the current to be diverted from his body and into the ground.

Willie, who had practised walking the short "last mile" so that he could "die like a man," settled himself, smiling widely, into the chair at 12:02 p.m., C.S.T. The switch was thrown at 12:05. He was pronounced dead at 12:10, after receiving two shocks, one of half a minute and one of 15 seconds.

Thus ended a year-long battle over the State's legal and moral right to execute a prisoner after a first attempt had failed. The fight was taken vainly on Willie's behalf to the United States Supreme Court, three times to the Louisiana Supreme Court, and three times to the State Pardon Board.

With Willie there died an old legend, of uncertain origin but of widespread belief, that a condemned man's life would be spared if an accident stopped his execution.

Francis was convicted of murder in the killing of Andrew Thomas, a white druggist of St. Martinville, during a holdup that netted about $4 and a watch.

$400 Million Measure Back to Senate . . .

Right to Send Troops In Anti-Red Aid Upheld as Bill Okayed

WASHINGTON, May 9 (AP)—A precedent-shattering $400,000,000 measure to bolster Greece and Turkey against Communist domination was passed by the House tonight, 287 to 107.

On the final roll call, 127 Republicans and 160 Democrats voted for it. Against the measure were 93 Republicans, 13 Democrats and Rep. Vito Marcantonio (A.L.-N.Y.).

Congressmen of both parties guarded it successfully from all attempts to deny the administration the right to use troops and military material in the effort. Other attempts to limit the program also were defeated.

The measure returns now to the Senate, where it originally passed April 22 by a vote of 67 to 22, for action on minor changes made by the House of Representatives. If the Senate refuses to agree to the House changes, the bill will go to a conference committee for adjustment.

BEHIND SCHEDULE

Already the bill is a month and a half past the deadline the administration was reported originally to have set for its passage.

With official reports that the plight of Greece particularly is growing more acute daily as dollar credits are used up and British aid tapers off, the State Department already has made plans to start the American assistance flowing as soon as President Truman signs the bill.

Large Demand For Loggers

Total unplaced applicants at the National Employment Service in April numbered 227 against 115 vacant positions. With mining and logging operations getting back into full swing the demand for miners and loggers has increased, but the majority of applicants for jobs at Nelson have been "types that are too old for most work or are handicapped by some disability." There was a large demand for pit-prop cutters, pole cutters, fence post makers, etc.

Of the 227 unplaced applicants, 181 were men and 46 were women. One hundred jobs were open for men and 15 for women.

There were 172 active claims for unemployment insurance. Ten of these were from the armed services. Local applicants numbered 73, composed of 52 men and 21 women, while 77 men and 12 women were out-of-town claimants.

15 Foundlings Die of Disease

MONTREAL, May 9 (CP)—Fifteen foundlings, stricken by "some sort of influenza," died at a Montreal district institution during a recent three-week period, Dr. Arthur Chabot, District Medical Health Officer for the Provincial Government, disclosed today.

Thirty-two infants at the Gray Nunnery in suburban Notre Dame de Liesse were stricken, Dr. Chabot said. The last death occurred a little more than a week ago.

Dr. Chabot said none of the other 650 children, the majority of them illegitimate, at the institution were affected, and that there had been no recurrence of the disease.

Abandon Three Leads for Missing Craft

VANCOUVER, May 9 (CP) — Search for the missing Trans-Canada airliner which vanished April 29 with 15 persons aboard, dropped to routine proportions tonight as every possible lead proved negative.

VANCOUVER, May 9 (CP) — Three more possible leads into the disappearance of the missing Trans-Canada Airliner with 15 persons aboard were abandoned today.

Reports of oil and aluminum paint floating near Active Pass near Victoria were discounted by investigating naval officers who said the oil was from fish boats and the "paint" was bilge water.

The hunt moved into the 11th day with the abandoning of diving operations off Nanaimo and the recall of a seven-man search party which was combing the Lake Buntzen area.

Navy divers made 11 separate descents and spent nine hours scouring the saw-like floor of Georgia Straits, but reported "nothing there."

Votes for Non-Confidence Motions Would Wipe Out Tax Cuts—McCann

By GEORGE KITCHEN
Canadian Press Staff Writer

OTTAWA, May 9 (CP)—Revenue Minister McCann told members of the Commons today that if they voted for Opposition motions of non-confidence in the Government they would deny the people the income tax reductions announced in the budget.

Rising to take part in the budget debate, now in its fourth day, Dr. McCann referred to C.C.F. and Progressive Conservative motions before the House and said that if they passed it would mean the Government would be defeated and the budget provisions, scheduled to become effective July 1, would not be implemented.

CLAIMS ECONOMY

The Minister also denied charges made earlier by Hon. Earl Rowe (PC-Dufferin-Simcoe) of "inefficiency and reckless extravagance" in governmental expenditures and placed on record a statement in which he reported that the number of Government employees had been reduced from a wartime peak of 142,000 to 121,000. In 1939, the total was 52,000.

At the night sitting the Commons debated without issue a private bill to abolish appeals to the British Privy Council and accepted Senate amendments that will terminate the powers of the Canadian Wheat Board on Aug. 31, 1950, when the four-year wheat contract with the United Kingdom terminates.

Dr. McCann termed the budget a "popular budget" and said the Government had shown "courage and statesmanship" in its financial policy. General reaction to the budget, at least outside the House, had been favorable.

"I think it can be safely said that our middle-class population and people on fixed salaries benefitted less from war conditions and suffered more from war taxes than any other class. The budget is framed to ease the burden on those in this income category, which includes young professional and scientific men."

BUSINESS DOING WELL

Substantial relief had gone, too, to the wage earner whose reduction in taxes, in a "great many instances," would be the equivalent to a wage increase of 10 cents an hour.

It was true that there were "no immediate gifts" for business, although the excess profits tax would be removed at the year end. The corporation tax remained unchanged at 30 per cent.

"Business men may complain but they should try to remember that under existing taxes business has been going very well," he said.

2 Indian Prisoners Escape Nelson Jail

Police, in Wide Search for Fleeing Inmates, Seek Public Cooperation In Quick Reports of Any Thefts

Provincial Police Friday afternoon released news of the escape late Thursday afternoon of two Indian prisoners from the Provincial Jail at Nelson. The two prisoners are still at large.

The two men, William Francis Swanson and Eli Francis Alexander, got away when they were working in a woodshed, with access to the jail yard.

Serving a 15-month term on assault charges of grevious bodily harm, Swanson had been in jail two months. His co-prisoner, Alexander, was in on a nine-month charge of being drunk on a reserve. He had been in jail for three weeks.

Both came from the Indian reservation at Creston, and police here believed they would attempt to make their way back there and then to the United States. Persons with unoccupied homes and boathouses were asked to assist in their capture by reporting any thefts as soon as possible.

MAY SEEK CLOTHES

Dressed in prison garb at the time of their escape, the men had letters P and G, with a broad arrow between them, on the back of their shirts. Officers believe they will "probably attempt to obtain food and a change of clothing."

Police dragnets, through patrol and wireless, have been thrown around the district. Police across the Province have been warned to be on the lookout.

Swanson was described as five foot, 6½ inches tall, 28 years old and weighing 135 pounds. Alexander was said to be five foot seven, 28-years-old and 151 pounds.

The escape was discussed briefly at the Nelson Board of Trade Friday. One member expressed anxiety at the lack of early public notice that convicted men were at large. "I, for one, do not feel comfortable about not knowing of the escapes with my wife and children on the North Shore."

COAST WOMEN MAP BUYERS STRIKE STRATEGY

Communists Blamed For Parade, Buying Ban Opening Today

WEEK-LONG

VANCOUVER, May 9 (CP) — Hubby was forced to get his own dinner tonight, while the "little woman" attended a mass meeting called by the local branch of the British Columbia Housewives Consumers Association.

At the meeting final plans were made for the week-long buyers' strike against the high price of certain commodities which is slated to get under way across the Dominion tomorrow.

Thomas Braidwood, President of the Vancouver Board of Trade termed the proposed strike "an attempt by Communist-front organizations to gain leadership over many non-Communists."

"Sincere businessmen and labor leaders all are deeply concerned with the problem of the present inflationary trend," Mr. Braidwood said. He advocated a balanced wage rate as the best means of combatting it.

"We know that wartime controls and price ceilings produced shortages and artificial conditions that only open markets and more production can eventually cure."

Female pickets are slated to take their stand Saturday outside stores all over the city and a "placard parade" is planned to draw attention to the campaign. The boycott will be against butter, shortening, and lard.

A one-day strike against the purchase of any goods, held May 2, brought conflicting reports of success. Strike organizers said buying fell off, while storekeepers claimed people went downtown out of curiosity and stayed to buy.

Provincial Meet Of Canadian Legion Opens

VERNON, B. C., May 9 (CP) — Approximately 350 delegates from all Provincial points will discuss the 200 topics on the resolutions agenda of the 18th Provincial convention of the B. C. Command, Canadian Legion, which opens here tomorrow. One of the major topics will be the reorganization of Canada's peace time defence forces, while other questions affecting veterans of both Great Wars will be veterans' allowances, pension scales, housing, preference in the civil service and racial discrimination.

High officials of the Dominion and Provincial Governments and of the Dominion and B. C. Commands of the Legion will attend the five-day conference. Representing the Department of Veterans Affairs will be Lt.-Col. Blair M. Clerk, Superintendent of Rehabilitation, and Brig. W. H. Roaf, District Administrator. Public Works Minister Carson, will represent the Provincial Government. Alfred Watts, second Vice-President, and T. D. Anderson, Assistant General-Secretary, are the representatives of the Dominion Command. From the Alberta Command are S. C. Herbert, President, and J. Hartley, First Vice-President.

Three Nelson Legion Members Go to Vernon Convention

Three members of the Canadian Legion at Nelson are attending the Provincial Convention of the B. C. Command, Canadian Legion, opening at Vernon Saturday. They are President S. J. Newell, Secretary F. T. Griffiths and W. H. Burns.

Raise B. C. Wage For Hairdressers

VICTORIA, May 9 (CP)—Minimum wages of several thousand hairdressers in British Columbia have been raised $2.90 to $20 a week for full time experienced employees, under an order of the Board of Industrial Relations, effective Monday.

RUSS MARKET FOR BRITISH MACHINERY

MOSCOW, May 9 (Reuters) — A vast market for British machinery and industrial equipment may be opened up in Russia for the next 15 or 20 years as a result of preliminary talks for the reopening of British-Soviet trade which have just ended here.

TORONTO, May 9 (CP) — In a world "dominated by materialism atomic bombs cannot fail to go off," H. Birchard Taylor of Philadelphia, Pa., today told the annual meeting of the Engineering Institute of Canada.

Grand Forks Honors Memory of "Pop" Smillie as Guide of Youth

GRAND FORKS, B.C., May 9 — Memory of Robert Smillie, who died here suddenly Thursday, was paid high tribute in St. John's United Church in a memorial service this afternoon that was attended by the entire student body of Grand Forks High School and the faculty personnel.

They represented the school to which he had been literally drafted into action during war years after having retired at Nelson following long years of service at Nelson High School.

Rev. W. K. Selder of the United Church and Rev. A. K. Hickett of the Anglican Churches took part. Citizens generally filled the auditorium.

Robert Smillie not only "taught" pupils, he "guided them," took a personal interest in their welfare after they had left school, accepted leadership in organizations that would give the growing youth direction, and as result of intimate personal effort was endearingly and widely known as "Pop" Smillie to hundreds if not thousands of ex-pupils in the Kootenays and elsewhere. This was the pith of an eulogy by Mr. Selder, who told of "Pops" activities in the Boy Scouts, the Sunday School, as an elder and official in the church, as well as in Board of Trade and business life. He declared, "his leadership was always effective. His memory is one that will long remain green among youth of the Kootenays."

Burial will take place at Nelson on Saturday.

Seek $4500 Objective in Conquer Cancer Campaign in Nelson District

Preparations for the Conquer Cancer Campaign in Nelson from May 15 to May 31 are well under way, Campaign Manager George W. Pease said Thursday. Other British Columbia centers have already conducted drives, Nelson and Comox having arranged to hold theirs at later dates.

Objective for the Nelson District is a minimum of $4500.

An urgent appeal "for the kindness of service clubs and all citizens to do their utmost to help by offering their services as canvassers" was issued by the Nelson and District Committee.

"We most definitely must depend on the loyal support of all citizens to make a real and honest success of this campaign," the Committee said. Those making donations were protecting themselves as well as others.

Ladies willing to act as house to house canvassers are asked to notify Mrs. C. E. Lister, 420 Railway Street, Nelson. Donations can be made at the Imperial Bank. Campaign headquarters are at the Fink Building, 446 Ward Street.

Twelve reasons for the appeal are given:

1. Cancer kills more than 33 Canadians every day.
2. Young and old are victims.
3. One out of eight persons over 40 die of cancer.
4. Over 13,000 Canadians die annually from cancer.
5. As many as 6000 lives could be saved by early detection and treatment.
6. Thousands, who would otherwise die, are cured regularly where they have proper knowledge and treatment.
7. More children 5 to 19 years of age die each year from cancer than the deaths from the following combined: Scarlet fever, infantile paralysis, peritonitis, dysentery and diarrhoea.
8. Each province is in dire need of money for this work.
9. The money will be spent for the province in which it is collected.
10. In World War 2, 38,000 men of the armed services were killed and the war cost 19 billion dollars.
11. During the years of World War 2, 80,000 persons in Canada died of cancer, and we only spent 5 million dollars to fight cancer.
12. Any person in Canada might some day become a victim of cancer and that is the very reason that it is the duty of all to help to Conquer Cancer for the protection of all.

The funds of this Conquer Cancer Campaign will be used to build a 50 bed hospital in Vancouver for the treatment of cancer. The hospital is to replace a four-bed institution used now for research and treatment. The new hospital will cost $750,000. British Columbia donors are asked to raise a total of $340,000.

Look at This Man

BRANFORD, Conn., May 9 (AP) —Declaring that he felt his salary "sufficiently large for a small-town official," and that he was "perfectly satisfied with it," School Superintendent Raymond Pinkham asked the Board of Education to rescind its vote granting him a $500 increase.

The Board met him half way at its meeting last night, voting him a $250 boost which brings his annual salary to $5750.

Dr. F. W. Green, M.L.A. Cranbrook Is Patron of Home for Aged Appeal

Dr. F. W. Green, M.L.A. Cranbrook, has forwarded notice of his patronage of the Mount St. Francis appeal to Campaign Headquarters at Nelson. He is eleventh Patron of the campaign.

"The nature of my occupation brings me daily into contact with the aged, and makes me fully aware of the need of an institution such as Mount St. Francis situated in the Kootenays," he said.

"I wish this campaign to be highly successful," he added, on enclosing a check for furtherance of present subscriptions toward Kootenay Boundary's $40,000 objective.

Dr. Green is third member of the B.C. Legislature to support the drive, others being Hon. Frank Putnam, M.L.A. Nelson-Creston, and J. L. Webster, M.L.A. Trail-Rossland.

Over 100 Work Certificates Issued in April

Work certificates totalling 101 have been issued since April 1 on mining claims throughout the District. The heavy list of certifications is attributed to a hold-over from last year, as several applications made in 1946 were granted among the latest work certificates.

Largest number of the certificates issued were for claims in the Salmo-Ymir area, two Nelson men, D. P. McComb and A. L. Purdy, owning more than half of those on which assessment work had been completed. Others to residents in Kitchener, Salmo, Apex, Creston, Vancouver, Boswell, Taghum and Sheep Creek were issued at the Mining Recorder's Office at Nelson.

Work certificates were issued to:

D. P. McComb of Nelson on Gray Rock, Ararat, Virginia, Victoria, Nickle Plate Nos. 1, 2, 3, 4, Ell Tee, Queen Mary, Lost Cabin, Grand Pass, Dionne, Patricia, Hazel, Minto Fractional, Lost Cabin Fractional, Queen Mary Fractional, Ruth, Euphrates Fractional, Mount Hood, Euphrates, Rosa, California, Tigris, Minto and Blue Bell mineral claims.

Walter Belger of Kitchener on Empire State mineral claim.

A. L. Purdy of Nelson on Ville Nos. 1, 2, 3, 4, 5, 6, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28 and Ville No. 7 Fractional mineral claims.

Walter Andow of Salmo on Iron Duke and Lightning Creek mineral claims.

George A. Hunt of Kitchener on Rainbow, Storm and Sunshine mineral claims.

William Coles and W. H. Foster of Nelson on Good Hope mineral claim.

Frank O'Genski of Apex on Luck Frank mineral claim.

Richard B. Henley of Creston on McQuarry mineral claim.

L. A. Read of Trail on Lucky BBreak, You've Had It, Blue Rock, Mary Lou, Marjorie, Green Rock and Cabin Fractional mineral claims.

E. H. McDaniels of Nelson on Tanager, Tanager No. 2, Wren, White Skunk, Humming Bird and Water Mouse mineral claims.

Deanie R. Terzian of Nelson on Cosmic Ray No. 1 and 2 mineral claims.

Robert C. McCorkell of Vancouver on Fata mineral claim.

Mary Karpowich of Boswell on Santa Isa Bella and Rocko mineral claims.

Tony Sodja of Salmo on Butte, McCormick, Waneta and Billie Boy mineral claims.

A. Lepage on Marlene mineral claim.

Ronald H. Stewart on Hunter's Pride No. 1, Lucky Girl and Lucky Frank mineral claims.

T. J. Stevens of Taghum on Edna No. 1 mineral claim.

J. C. Hansen of Salmo on May Day Fractional mineral claim.

J. E. Hayden of Creston on Opal mineral claim.

F. J. Hemsworth of Sheep Creek on View Fractional, Alamo No. 2, Lost, Alamo, Bonanza, Camp Fractional, Slide and Wasp mineral claims.

330 Veterans Sought Jobs Here During April

A total of 330 veterans of two wars seeking jobs were interviewed during April by William Williams, Veterans Officer at Nelson. Of these two World War 1 men and four World War II were placed in jobs. Others were referred to the Training Councellor, the Welfare Board or the C.M.O., leaving 13 first war veterans and 46 second war veterans unplaced.

Demand for labor in mining, logging, road construction and the large building program in Nelson, has greatly improved the situation, Mr. Williams said in his monthly report. The housing picture, too, was improved with 20 veterans families being placed in wartime houses. Volume of work, however, was slightly decreased.

Amount of re-establishment credit used during the month was $14,244.71.

Entries for Garden Contest Arrive Steadily

Entries for the garden contest, sponsored annually by the Nelson Garden Club, are "coming in well," it was announced Friday. Awards are posted for the finest boulevards and vegetable, rock, lawn and general gardens gracing City homes and that are assets toward beautification of Nelson.

Deadline for entries is May 24. Shortly after that date the first round of judging will commence.

Official judges are H. H. Hiniti, J. A. Hamson and T. W. Kail.

Execute Seven Members of "Brodeum Gang"

COPENHAGEN, May 9 (Reuters) Seven members of Denmark's merciless "Brodeum Gang," who worked with the Gestapo during the occupation, were executed today. Brodeum, leader of the gang, confessed to committing 50 murders and being an accomplice in 100 others.

OFFICERS FOUND GUILTY OF BLACKMARKETING

MANILA, May 9 (AP) — Maj. Gen. George F. Moore said today that 145 U.S. Army personnel, including 13 officers and three Civil Service employees, had been found guilty of theft or blackmarketing offenses in the Philippines over a 15-month period from Jan. 1946 to April, 1947.

FRANCE FIRST TO BENEFIT FROM WORLD BANK

WASHINGTON, May 9 (AP)— The World Bank announced today its first loan, one of $250,000,000 to France which had applied for $500,000,000.

Lanskail to Attend Tourist Council

W. G. C. Lanskail, Secretary of the Nelson Board of Trade, May 14 will attend a meeting of the British Columbia Tourist Council at Vancouver. Mr. Lanskail was delegated to the conference at a luncheon meeting Friday in the Hume.

New Member of Board of Trade

Application of C. W. Appleyard, Nelson Real Estate Agent, for membership in the Board of Trade, was approved Friday at a luncheon meeting of the Board in the Hume.

TOAST and TEA
BY J. V. McAREE

Discussing the immemorial association of yew trees with churchyards in England, W. Beach Thomas says: "I have long felt that the theory they were planted for providing bows was absurd. In the first place you couldn't make a bow out of any form of branch-pruning, unless the branch was immense, and there is no evidence whatever, so far as I have heard, that these churchyard yews were mauled. The long bow needed old wood, only to be found in the right mixture of strength and elasticity in the trunk. The tree is in the tradition of mourning weeds, and was once almost the only British tree with evergreen foliage. Its length of life also suggested it as a symbol of eternity. In one of the loveliest villages I know—in Hertfordshire—yews were planted by man a hundred years ago as a hedge, and the planters did not make the almost universal mistake of our garden-designers of planting the bushes in close juxtaposition."

GETS C.P.R. AGRICULTURAL POST

TORONTO, May 9 — Frank E. Wolff has been appointed General Agricultural Agent for Eastern Lines of the Canadian Pacific Railway, it was announced here today by N. R. Crump, Vice-President and General Manager of Eastern Lines. Mr. Wolff, formerly assistant professor at the Ontario Agricultural College, Guelph, succeeds the late L. C. McOuat. Graduating from the Ontario Agricultural College in 1936 as a bachelor of science in agriculture, Mr. Wolff took one year's post-graduate study at the Royal Agricultural and Veterinary College of Copenhagen, Denmark.

Cardinal Lifted Iron Curtain In Toronto Talk

A speech of Cardinal McGuigan, who visits Nelson and Trail Monday and Tuesday, that attracted international attention was delivered to the Canadian Club in Toronto last year. His Eminence had recently returned from Rome where he had held intimate converse with Cardinals from all over the world, including those from the countries behind what Winston Churchill called the Iron Curtain. At that time the appeasement of Soviet Russia was much more in official favor than it is now.

Cardinal McGuigan spoke of the murder, robbery and rape that were so common in the occupied countries as to have taken on the appearance of normality. He commented sorrowfully on public men and newspapers featuring the political questions and ignoring the human ones. Iran with its oil wells was then much in the news. Cardinal McGuigan emphasized the need for concern about Red Armies quartered in Germany, Austria and Hungary because of what he had learned from his talks in Rome with prelates from those countries, and from Poland, Yugoslavia and Armenia.

There was a brighter picture which Cardinal McGuigan was able to show on his return from Europe and Great Britain. He told the Canadian Club in Toronto: "One of the discoveries I made on my trip was the general sense of the high place of Canada among the nations. Other Canadians who have gone abroad have made the same discovery and it has come to them with something of surprise. You have to go abroad to learn how greatly Canada is esteemed. I do not profess to be using the technical language of diplomacy but I would say that Canada is now ranked among the great powers of the world. And more than that, it is ranked preeminently among the good powers, whose strength is exercised in well-doing and on the side of justice."

The Weather

Forecasts:

Kootenay — Cloudy. Widely scattered rainshowers. Winds light. Little change in temperature. Sunday outlook clear becoming cloudy by noon.

Okanagan — Clear becoming cloudy along mountains by afternoon and late Saturday evening. Warmer.

Vancouver — Clear. Warmer. High Saturday Vancouver airport 65, Abbotsford airport 65. Sunday outlook overcast.

Poles, Pilings Scale Up Million Feet

The April timber scale, 9,339,055 feet board measure, recorded in the Nelson Forest District, was down 193,900 f.b.m. from the same period last year. On the whole, larch and fir scalings were below the 1946 figures, while cedar and hemlock scaled were up from 10,423 and 13,410 f.b.m. to 394,043 and 307,258, respectively, this year. During April 1946 no birch was scaled, but 24,952 f.b.m. were scaled in the preceding month.

The total sawlog scale for the first four months of 1947 stands at 47,757,055 f.b.m., or 5,871,721 f.b.m. above the gross cuttings at the end of April in '46.

Poles and pilings jumped from 104,140 lineal feet in April 1946 to 1,776,973 lineal feet in the last month. Mine timbers output, however, was about half that recorded last year with the other minor products falling in normal line.

The scalings follow:
Sawlogs in feet board measure:
Larch—3,830,915, 2,984,349.
Fir—3,149,769, 2,747,677.
Spruce—1,327,947, 1,684,369.
Yellow pine—673,132, 725,839.
Hemlock—10,423, 394,043.
Cedar—13,410, 307,258.
White pine—217,797, 163,020.
Cottonwood—156,033, 159,856.
Jackpine—78,232, 88,953.
Balsam—75,363, 58,739.
Birch—Nil, 24,952.
Total—9,532,955, 9,339,055.
Minor products:
Poles and piling—104,140 lineal feet, 1,776,973 lineal feet.
Mine timbers—636,902 lineal feet, 346,310 lineal feet.
Mine props—287 cords, 589 cords.
Hewn ties — 4,160 pieces, 7,685 pieces.
Cordwood — 1,527 cords, 1,224 cords.
Fence posts—967 cords, 1,403 cords.

Garden Club to Stage Spring Flower Show

Nelson Garden Club will present its first flower show of the 1947 season next Wednesday, when Spring blooms of all varieties will be exhibited for sale at the Canadian Legion Hall. The display will open at 1 p.m. and continue until 9:00 in the evening. Flower selections will include prize specimens of all May blossoms, but tulips will reign supreme.

In announcing the show, Garden Club officials point out that it will be entirely non-competitive and is merely being offered for display purposes.

Proceeds from flower sales at this and other Garden Club shows during the year will go to swell Mount Francis campaign funds.

Afternoon tea will be served by the Women's Auxiliary to the Canadian Legion.

Committee in charge consists of J. A. Hamson, Chairman, Mrs. C. D. Pearson, Miss Ann Bealby and T. W. Kail.

TRAILER FOR FERRY SOON READY FOR TRAFFIC

The trailer to carry excess traffic across the West Arm during the Summer months is under repair and will soon be attached to the Nelson ferry, the Board of Trade was informed Friday by wire from Hon. Frank Putnam, Minister of Agriculture. The Board earlier had asked that the Public Works Department ready the trailer for the coming season.

Roads and Bridges Committee will also ask that a paint job be done on the ferry and the restroom on the North Shore be renovated with a "more pleasing" color of paint.

Just Dirt, but It Isn't Free

OTTAWA, May 9 (CP)—Romeo Champagne of nearby Eastview found the "good earth" isn't free for the taking today when he appeared in suburban Eastview Police Court on a charge of stealing black earth valued at $5 from a vacant lot. Sentence was suspended. The lot, unfenced and without signs, was corporation-owned property and earth-removal was forbidden because a paved roadway was impaired by the digging.

26 Mineral Claims Filed

Twenty-six mineral claims, all in the Salmo-Sheep Creek District, were filed at Nelson Mining Recorder's Office during April and the first week in May. The claims were staked by five residents of Salmo, one of Nelson, one of Ymir and one of Vancouver.

Recorded claims were:

Black Rock No. 8, 13, Black Rock No. 9, 10, 11, and 12 Fractionals by A. L. Purdy of Nelson, on North and South sides of Sheep Creek.

Contact Fractional by Oscar Anderson of Ymir, bounded on the North by the Imperial, South by open ground, East by Emerald and West by Contact and Nevada mineral claims.

Cave by B. Feeney of Salmo, located one-half mile East of the mouth at the South Fork of the Salmo River.

Lucky Boy Fractional by J. B. Clubine of Salmo, bounded on the East by Lucky Boy and on other sides by open ground.

Victory No. 1 Fractional and Scott Fractional by Gerald M. Christie of Vancouver, in the vicinity of Victory, Last Chance, Hal No. 2 and Don Fractional mineral claims.

May No. 5, 6, Joker No. 10, Joker No. 11 Fractional and May No. 1 Fractional by Stanley J. Hunter of Salmo, situated approximately 7 miles South East of Salmo on Iron Mountain.

May No. 1, 2, 4, May Fractional, Joker No. 5, 6, 7, and 9 by John A. Mackenzie of Salmo, about 10 miles South East of Salmo in the vicinity of Iron Mountain.

Joker No. 8 and May No. 3 by James Crowe of Salmo, bounded by May and Joker mineral claims.

Lowly Nickel Brings Grand Larceny Charge

PATTERSON, Ky., May 9 (CP)—Things were going fine for David Nash, 48, until his pockets burst—then 2180 nickels clattered to the sidewalk yesterday at the feet of a policeman.

Nash, a Public Works Department employee, was accused by police of filching the nickels from the city's parking meters. He was charged with grand larceny for a hearing next week.

USE X-RAY IN OIL RECOVERY

PITTSBURGH, May 9 (AP)—The penetrating eye of X-Ray has been turned on the world's petroleum reservoirs to seek out more productive recovery methods.

The Gulf Oil Corporation announced today that its researchers at the Harmarville, Pa., Laboratory have applied X-Ray technique to oil recovery—and are bringing the oil fields to the scientist's bench to do it.

The announcement said the new development helps solve the riddle of how oil flows through the sand and rocks under any particular field and how it is affected by underground water and gas.

Developers of the technique believe it also will make possible reopening and additional recovery of oil from abandoned wells. Since X-Raying of entire fields would be impractical, researchers brought sections of the fields to the laboratory.

Festival to Be in Ottawa

LONDON, Ont., May 9 (CP)—The 1948 Dominion Drama Festival will be held at Ottawa, the Governors of the Festival announced last night. Dates for the festival will be decided later.

Increase Wages of Non-Union Workers

EUREKA, Calif., May 9 (AP) — Eight redwood lumber companies of Humbolt and Mendocino counties, involved in one of the country's longest major strikes, announced last night wage increases for 2,250 non-union workers who have been keeping the mills in operation despite A.F.L. lines.

A.F.L. lumber and sawmill workers herve been out since Jan. 14 1946 a single mill the Hammond lumber company has since signed an A. F. L. contract.

Operators of the eight firms announcing the new seven and a half cents an hour wage boost said the increase was three cents an hour higher than specified in the Hammond contract, and followed a pattern set by the douglas fir region of the Northwest.

Strike In Spain Appears Crushed

BILBOA, Spain, May 9 (AP) — Generalissimo Francisco Franco's Government appeared today to have crushed a general strike which virtually immobilized the vital steel industry in this area for eight days in the strongest demonstration by Spanish industrial workers since the Civil War.

Most workers returned to their jobs yesterday, penalized by loss of seniority and wage reductions.

These informants calculated that 30,000 of an estimated 45,000 workers in steel, heavy machinery, shipbuilding, mines and construction work stayed away from their jobs Monday and Tuesday. They attributed the collapse of the demonstration to failure of industrial workers in other sections of the country to back it up with sympathy walkouts.

The Civil Government declared however, that the strike reached its peak Wednesday and placed the number idle on that day at 11,000.

The Bilboa workers first left their jobs on May Day for a one-day demonstration. The government fired those who demonstrated and required them to apply to civil Governor Ganaro Riestra for reinstatement within eight days, with loss of seniority rights.

In protest against this order the workers struck in force last Monday.

(The Basque Government-in-exile in Paris estimated the number of strikers at 50,000 and charged last night that Spanish police had arrested 6000 of them. It said Spanish prisons were so full that Franco's men were using a bull ring as a jail.)

Informed sources here estimated 400 persons were under arrest in this area as a result of the strike. The Civil Government placed the number at 150.

Joins Staff of Island Newspaper

Cy Jackman, Coast newspaperman, left Nelson Friday for Duncan, Vancouver Island, to join the staff of the Cowichan Leader.

For many years a member of The Nelson Daily News editorial staff, and latterly for four years front-page editor of the Victoria Daily Colonist, Mr. Jackman had for the last two months been visiting his parents, Mr. and Mrs. E. T. Jackman, 87 High Street. He also spent a week in the Lardeau-Howser district.

Beauty Hints

By IDA JEAN KAIN

The Average Tired Business Woman Does Not Play Enough

We wouldn't know about the tired business man, but on the average the tired business woman doesn't play enough, and doesn't know how to relax after a day's work is done. Maybe that's because a woman has to work twice as hard to get 50 per cent of the credit. Well, that makes relaxing twice as important. It's wasted energy to keep the human engine in high gear when it should be idling.

If you're the go-getter type and geared for action it takes practice to learn to relax. But it gets progressively easier for the simple reason that relaxing helps you to avoid building tension during working hours, which makes it easier to relax.

The technique favored by the experts is to relax separate muscle groups. Now you may think it's not your muscles that need relaxing it's nerves, but relaxed muscles relax the nerves.

To ease into the relaxing, lie on a blanket on the floor or on the bed and close your eyes. Raise one arm off the bed, hold a split second, then let the arm drop down limply to the bed. Don't deliberately lower the arm . . . just let it drop, without muscular effort. Ty again; raise the arm, hold . . . drop, letting all the tension ooze out of that arm. Try a third time . . . the arm wil drop as if you had no control over it Repeat with the other arm . . . very slowly and effortlessly. Then both arms together. Don't hury . . . you can't hury and relax.

Now raise one shoulder up off the bed and let it drop limply back to the bed. Again, this time even more relaxed, and a third time. Repeat with the opposite shoulder . . . raise and just let go.

When you first start to practice relaxing, it may seem like a waste of time and effort, but before long the most delicious feeling of relaxation begins to steal over you. The above is enough for a beginning . . . but lie there fo twenty minutes, just letting go with your mind and your muscles. It's an excellent routine to practice before going to sleep at night . . . beats counting sheep. But don't hurry to bed! Many business women build up tension trying to get to bed early so they will be refreshed the next morning. Relax you'll sleep sounder.

Sitting in the sun is marvelously relaxing . . . fishing in a shady pool, or anything that takes you out in the fresh air is a wonderful tonic for tense nerves.

The Doctor

By HERMAN N. BUNDESEN, M.D.

Symptoms of Migraine Vary But All Are Distressing to the Patient

Migraine, that puzzling disorder which produces the most agonizing of all headaches, is mysterious also in this: It sends to some of its victims a forewarning of its coming. Others it strikes as if out of a blue sky. An attack may begin with the morning awakening or it may start suddenly and unexpectedly at any hour of the day.

In the first stage, headache is usually not present. Instead the afflicted person may feel dizzy, light-headed or sick to the stomach. Visual disturbances are common and of many different types Some patients become almost blind while others see only one-half of the objects they look at. Still others are tormented by flickering lights, or flashes of bright color. After ten to thirty minutes of this sort of thing the headache begins its sledge-hammer onslaughts.

A STABBING PAIN

The pain is like a deep stabbing or boring, spreading from the front of the head to the back. Sickness to the stomach becomes worse and there may be vomiting. The headache is made worse by movement noise or light.

In most instances the headache is limited to one side Sometimes there is flushing of one side of the face. After a varying period of time, the attack passes off leaving the patient tired and exhaused He often falls asleep and on awaking feels well again until another attack occurs. Such things as domestic and business worries and emotional upsets seem to be factors which aid in bringing on attacks.

EXACT CAUSE UNKNOWN

The axact cause of migraine is still not known. It has been ascribed to disturbances of the circulation of the brain, to allergy or over-sensitivity, to irritation of the nervous system as a result of eye strain, stomach upset and the like. In some cases it is thought that liver and gallbladder diseases may have some relationship to the sickness. The glands of internal secretion might also play a part in this disorder.

Mild attacks of migraine may be relieved with rest and the taking of some simple pain-relieving drug such as aspirin. In the more severe attacks the patient is put to bed in a darkened room. An ice bag may be applied to help the headache. A drug known as ergot amine tartrate given by injection into a muscle or taken by mouth, but only under doctor's direction, gives dramatic relief in some instances. If this drug fails attempts may be made tosecure sleep with any of the various preparations employed for this purpose which the physician will prescribe.

Love Problems

By JANE ATKINSON

Girl Wise in Deciding to Finish School Before Getting Married

Dear Miss Atkinson:

I am 16 years of age and very much in love with a boy 21, who has told me he also loves me very much. I have met his parents and they seem to like me very much and I think they are grand. His mother told me she was glad he had met someone like me, because shortly after he got out of service, he was going with a crowd that had a very bad inflence on him. But since he has been dating me, she says he is the boy he used to be again.

We would like very much to get married, but we have decided to wait until I get out of school and he has a steady job. I live with my uncle and aunt, who are very good to me. They have met "my young man," as they call him, and think very well of him.

Do you think I am doing right in waiting for awhile before getting married, or do you think it is a mere infatuation on my part?

"Undecided Connie."

Dear Connie:

I think you are doing exactly right in deciding to finish school and give your "young man" a chance to get settled in a good job. Those two things are important, and you will never be sorry if you wait to accomplish them before getting married.

your present feeling is, as you put it, "a mere infatuation," or the real thing. If you're merely infatuated, it will wear off in a comparatively short while; if it's something sounder, it will grow and deepen as time goes on and you get to know each other better.

UPPER STEWIACKE,N.S. (CP) —Three generations of the Cox family have managed the post office here consecutively for 109 years. First appointed—at £8($32) a year—was John Cox in 1838. He was succeeded by his son Francis in 1867, and his grandson James D. Cox in 1912. In 1945, the postmastership was taken over by Mrs. Cox' son-in-law, Harold Johnston.

Arithmetic Work May Be Confusing To the Child Who Is Just Learning

For a child to get on well in arithmetic, as in the intermediate grades, he must have mastered the skills of simple addition, subtraction, multiplication and division. Even then he can't go far without being able to press the right button—add at the right time, subtract when he should, and so on. Even while drilling formally on these skills the child may press the wrong button. Often parents will send me a page of number work by the child in which he added abstract numbers when he was supposed to subtract and vice versa. The child gets confused.

You can help him at home by setting the stage so he will feel calm and will work slowly and carefully. While practising him on adding or subtracting simple numbers, keep him for a period on the same process; avoid especially sudden shifting as in 8 plus 6 minus 3.

MULTIPLY OR DIVIDE

Confusion of multiplication with division comes most often with common fractions or denominate numbers. I remember my trouble as a schoolboy with knowing whether to divide or multiply in changing yards to feet or ounces to pounds—until my father helped me clear this matter up by doing some simple measuring in the kitchen and the workshop.

Encourage your child of school age, when he makes things from paper, cardboard, cloth or wood, to measure the parts with a ruler or tape measure. Thereby he can learn the foundation of common fractions —halves, fourths, eighths, thirds and so on. Likewise, he can learn basic common fractions as he follows carefully a recipe, measuring the parts or fractional parts of material used. Also from cooking and baking the child may easily learn the foundation od denominate numbers —relative value of ounces, pounds, pints and quarts.

WEIGHTS AND MEASURES

Through such ways of learning fractional values and relative measures and weights, he gets the basis of ratio, which requirement will be seriously needed for nearly all mathematical computations. A number of college professors of physics and biology have told me that the average college student doesn't have the simplest knowledge of ratio, so very essential in these sciences.

Some children who do well in mechanical operations with numbers have all sorts of trouble with verbal (reading) problems — with knowing which button to press — whether to add, subtract, divide or multiply. Either these children are very poor readers or are in such haste to attempt solution before getting the meaning.

Haste nearly always is manifest. Most trouble in arithmetic is emotional. Induce this child to take the time to read the problem carefully. Indeed, the biggest contribution a parent can make is to provide a serene atmosphere and to induce the child to be calm and careful (discussion in my bulletin, "Parents and the Child's Home Work" to be had in a stamped envelope). Unfortunately there has been so much drilling against the watch in many schools the the youngster tends to hurry and be jumpy over his lessons at home. (My "Home Helps in Arithmetic" may be had in a stamped envelope.)

Tasty Recipes

By BETSY NEWMAN

It's the little extras that add the fine touches to a meal, and that is why some restaurants that specialize in garnishes and relishes and such always have a waiting line, no matter how slow business may be with their competitors.

So today we offer some simple but mighty effective garnishes to point up the daily dinner menu.

MEAT GARNISH

For a delightful meat garnish make a syrup of 1½ c. sugar, ½ c. water, juice of a lemon and 2 cinnamon stickes. Wash three oranges, cut into thick slices. Place in hot syrup and boil gently until rind is clear. Do not cover. Chill the cooked orange slices in the syrup before serveng as a meat garnish.

Here's one that is good as a garnish with hot meats and equally fine served in a small nest of lettuce with dressing as a salad course. Cut 6 fully ripe peaches through the top just enough to remove stone. Fill cavity with paste that is made by mixing one c. cream cheese with tsp. cinnamon and small tsp. powered cloves.

FOR ROAST MEATS

Pineapple Paprika is a good pepper-upper for roast meats. Drain juice from canned pineapple slices. Dip slices in flour and froy quickly on both sides in table fat. Sprinkle liberally with paprika, and serve. Canned pears or peaches may be prepared in the same manner.

For another grand garnish, now that bananas are back, boil ¾ c. vinegar, 2 dozen whole cloves, 2½ c. sugar and one small stick of cinnamon until sugar is dissolved and syrup thick Drop 3 bananas in the hot syrup and boil for 2 min. Remove from fire and cool. If desired, the bananas may be cut into small pieces An excellent meat accompaniment.

Apple sauce is always good, but glorified apple sauce is something special with which to point up pork. Put a heaping cupful chopped apples into a saucepan. Add tbs arrowroot, a few grated rind of tbs lemon juice, gsated rind of a lemon, ⅛ tsp. cinnamon, 2 pinches of nutmeg and ½ c. cold water Cook all together for about 15 min., stirring occasionally.

3 REASONS WHY YOU ARE AHEAD WITH

THE HYDRAULIC FARM HAND

Full Hydraulic Control: Smoother, Safer

Lifts 1½ Tons

None Has Worn Out In 6 Years

1. The HYDRAULIC FARMHAND offers you the most important improvement ever built into a farm loader, the Bridge of Steel that levels all loads; plus wrist action, one-hand control, and 18 other advantages over other machines
2. FARMHAND dealers are selected for their reputations for giving service to farmers. Good dealers make good machines even better.
3. The FARMHAND is made by an old established manufacturer of precision-built machines

Excellent attachments for loading manure, gravel, etc.

Farmhand Fits All 2-Plow or Larger Tractors

Sold by . . . PINCHER FARM EQUIPMENT,

Rebuff Attempt to Block Jap Order

Tension in Atmosphere as Senators Argue Over State of Discrimination

OTTAWA, May 9 (CP).—The Senate's Banking Committee today rebuffed an attempt to cancel an order giving the Government another year's power over movement and labor of Japanese-Canadians after hearing Senator John Farris (L.-British Columbia) warn bluntly that its passage would bring the whole Japanese problem to an "acute" head.

By a vote of 11-4, the committee moved through the most contentious clause in its study of the Omnibus Controls Bill by defeating a motion of Senator Thomas A. Crerar (L—Manitoba) to wipe out an order which allows the Labor Minister to direct Japanese-Canadians where to live and to work and how much to be paid for another year.

There was some tension in the atmosphere after Senator Crerar objected to the order on the grounds that "its only basis for justification is expediency," that "this is precisely the way suppression of minorities started in other countries," and that "we can drift sort of easily into a state of mind where good, decent people get habituated to this sort of thing because their natural instincts of decency are weakened."

Senator Farris said Prime Minister MacKenzie King had given an unequivocal promise in the 1945 election on the Japanese question. The people had sent men to Parliament from that province on that promise.

"The Senate," he said, "had no right to intervene in issues on which the people have voted directly."

"Don't you think this is a dangerous precedent?" asked Senator W. A. Buchanan (L—Alberta).

B. C.'s PROBLEM

"The danger," said Senator Farris, "started long ago when, contrary to the wishes of the great majority of people in B. C. these people were brought in. I don't think the rest of Canada should be so 'hifalutin' in theories which apply to B. C. and not to the rest of Canada."

Senator John T. Haig, Progressive Conservative leader, admitting that he was "terribly worried" about the question, asked that the government be given a year to "clean this thing up." He asked that it find a solution because "none of us like discrimination."

Senator Cairine Wilson (L—Ontario) said he found it hard to accept the broad powers given the Labor Minister.

Appearing before the committee, Labor Minister Mitchell told her "there will be no compulsion other than moving them from the protected areas of B. C." Since the "desperate days" of the war when that movement took place, Canada had spent $14,000,000 in moving the Japanese across the Dominion despite opposition from "most of the premiers." When they're scattered they are only a drop in the bucket," he said, adding "in the long run the people of Canada will thank us for what we've done."

He gave assurance that the Japanese would receive "going wages" wherever they worked. There would be "no cheap labor." The Department got the "general impression that those Japanese who have left B. C. want to stay where they are."

Shortest Meet at Lake Success

LAKE SUCCESS, May 9 (CP) —The United Nations, which has earned something of a reputation for lengthy deliberations can act quickly, too, on occasion.

The U. N. today released the minutes of the shortest formal meeting in its records, that of the General Assembly's political committee Wednesday. The committee, under the chairmanship of Canada's L. B. Pearson, met at 5:30 p.m. The minutes:

"Chairman: 'The 49th meeting of the first (political) committee is called to order.

"'In view of the hour, I would merely like to find out whether the committee would prefer to continue working now or to adjourn until 11 a.m. tomorrow.'

"(No response.)

"Chairman: 'The sense of the committee seems to be in favor of an adjournment until tomorrow at 11 a. m., in this room.'

"(The meeting adjourned at 5:31 p. m.)"

Japs to Form Coalition Cabinet

TOKYO, May 9 (AP)—Japanese political leaders agreed today to form a coalition cabinet of the four principal parties but failed to determine the premiership or political complexion of the forthcoming government.

The Communists will be left out of the government. The agreement calls for a coalition of Liberal and Democratic parties which form the present government's Conservative majority in the diet; the Social Democratic party, which holds the plurality, and the People's Co-Operative party, a farm group.

Appeal for Merger To Overthrow Socialist Party

LONDON, May 9 (AP)— Chiefs of the Conservatives and Liberal Nationalists issued a joint statement today appealing for a merger of the two parties in an effort to overthrow Britain's Socialist Government in the 1950 elections.

The Conservatives hold 191 seats in the present House of Commons, the Liberal Nationals 13, and the Labor Party 394. The membership of the House totals 640.

The merger, proposed by Lord Woolton, Chairman of the Conservative party, and Lord Teviot, the Liberal National Chairman, would apply to England and Wales only, with Scottish organizations invited to enter a similar coalition.

Canada in Second Place Only to U. S. in Atomic Development

TORONTO, May 8 (CP)— Gen. A. G. L. McNaughton, Chairman of Canada's Atomic Energy Control Board said today that the Dominion had attained a position in atomic development second only to that of the United States in the war and announced that $150,000 will be granted three Canadian Universities for important atomic research studies in the fields of medicine, chemistry and other peacetime uses.

He made the announcement in an address prepared for delivery to the Engineering Institute of Canada in which he reviewed Canada's role in wartime atomic research, her hopes for future control and emphasized that her present research in this vast field is directed toward peaceful application of atomic energy.

Subject to ratification by Parliament, the one-time leader of the Canadian army said $87,500 would be granted to McGill University, which already has erected a new laboratory in which a 100,000,000 electron volt cyclotron is being constructed.

The University of British Columbia will receive $32,500 to assist in provision of a Van de Graaf generator and $30,000 will go to the University of Saskatchewan toward purchase of a 20,000,000 electron volt betatron.

Such equipment was not available at Canada's atomic energy pilot plant at Chalk River, Ont., and will put the universities "in a position to undertake important research studies which cannot now be carried out elsewhere in Canada."

The General said he would emphasize that Canadian research "is being devoted to the acquisition of fundamental knowledge in nuclear physics and towards the peacetime applications of atomic energy.

"However," the successful use of the atomic bomb during the war has shown that the Board cannot ignore the possible danger to our national security resulting from non-peaceful applications. Consequently, when the wartime controls over substances useful in the production of atomic bombs expired last month, the Board issued regulations controlling dealings in these substances to ensure that they did not fall into improper hands . . . ."

He reviewed Canada's part in wartime atomic development, her establishment of the Chalk River plant which now is under the direction of the National Research Council and said it was not generally known that metallic uranium was made in the National Research Council laboratories at Ottawa as far back as 1938.

"Thus, as a consequence of our war effort in the field of atomic energy, Canada attained a position in development which, while not in the same order of magnitude as that of the United States, was nevertheless second only to that country."

Will Elect New Bishop for Toronto

TORONTO, May 9 (CP)—Some 700 clergy and lay delegates of the Toronto Diocese of the Anglican Church will gather at St. James Cathedral here Monday to elect a new Bishop of Toronto in succession to the late Archbishop Derwyn T. Owen, who was Anglican Primate of all Canada. The Toronto Diocese, comprising 10 Central Ontario Counties, is the most populous Anglican Diocese in Canada.

CONSIDER AMNESTY FOR GUERRILLAS

Serious Objection To U.N. Taking Part In Greek Affairs

EMERGENCY MEET

ATHENS, May 9 (AP) — The Greek Cabinet was summoned into emergency session today to consider a proposal that amnesty be granted to all guerrillas, under supervision of the United Nations.

Informed sources said a virtual crisis was impending over the issue, since there was known to be some serious objection within the Government against any interference by the U. N. in the internal affairs of the country.

A high Government official, who declined to permit the use of his name, told The Associated Press that the suggestions had been transmitted by Mark F. Ethridge, Jr., American member of the U.N. Commission investigating guerrilla warfare in Greece, through Alexis Kyrou, liaison officer for the Commission.

Greek leaders said the proposal was not altogether clear to them, since the Greek Government has a standing amnesty for guerrillas who surrender and who have committed no common crimes. An American spokesman here said specific terms of the amnesty were not a question but that the United States' "concern is over the execution" of the amnesty.

(In Washington, diplomatic officials said there had been no American call for amnesty and that if there were one, it would be through the United States Ambassador to Greece, Lincoln MacVeagh, rather than through Ethridge, whose job is with the United Nations.)

Ferry Traffic at Nelson, Castlegar Up From 1946

That more persons are travelling in the Kootenays is shown in the Nelson-Castlegar ferry transportation April report. Round trips by the Nelson ferry in April were up from 1581 in 1946 to 2868 this year. Passenger cars during April numbered 10,090 against 7732 last year. Passengers carried were somewhat down, 28,951 from 32,291. Trucks carried hiked from 831 to 2868.

Round trips at Castlegar totalled 3146 in 1947 as compared to 3036 in April last year. During April, 1947, 45,184 passengers were carried, while last year in the same period the figure was 31,054. Passenger cars borne totalled 10,237 for the last months; 8443 were carried in April, 1946.

Nelson figures were:

Round trips	1,845
Passengers cars	10,090
Passengers	28,951
Trucks	2,868
Trailers	52
Motor buses	535
Motorcycles	90
Rigs	17
Freight, tons	1,198
Livestock	23

CASTLEGAR

Round trips	3,146
Passenger cars	10,237
Passengers	45,184
Trucks	5,458
Trailers	92
Motor buses	395
Motorcycles	81
Rigs	73
Freight, tons	2,856

High Commissioner

TORONTO, May 9 (CP) — The National Baseball Congress last night announced appointment of Charles Good, Sr., retired Toronto sports writer, as its High Commissioner for 1947. He succeeds his long time friend and contemporary, the late J. P. Fitzgerald, former sports editor of the Toronto Telegram. Mr. Good will rule on Congress problems in connection with its tournaments leading to the sand-lot baseball championship of Canada.

61-YEAR-OLD MAN WEDS 14-YEAR-OLD GIRL BECAUSE IT WAS "GOD'S WILL"

WINCHESTER, Tenn., May 9 — (AP) — A 61-year-old farmer-preacher said today his marriage to a 14-year-old school girl was "God's will," and "I love to do God's will regardless of men."

R. S. Holt, held in jail here under $6000 bond on charges of abduction and violating the age of consent brought by the girl's father, told reporters that his bride had turned against him.

"She has thwarted God's will," he cried, "and one of these days she's going to be sorry.

"Time and time again that woman swore she would die by my side. Her mammy and daddy just overpersuaded her."

The girl, Alline Rolman, returned to her parent's after Holt was arrested. He was bound over until August at a preliminary hearing yesterday.

Alline testified at the hearing that she and Holt first had sexual relations last October, when she was 13, in a graveyard across from school shortly after her eighth grade class was dismissed.

She said she married the bulky part-time Baptist preacher because "he told me I was his divine wife."

Grey-haired and bespectacled Holt said he divorced his wife of 40 years five days before he married Alline last Saturday night because "my first wife was not my divine wife—that's where I made my mistake."

Joe Rolman, Alline's father, told reporters his daughter was very religious-minded. He added:

"I'd rather have buried her from the hurt of it."

Seek to be Queen of the May

Candidates for May Queen at Kaslo's annual May 24 celebration are these three charming young misses. From left, they are Miss Shirley Thompson, Miss Dorothy Garrett and Miss Geraldine Gardner.

St. Lawrence Seaway Bill Is Introduced

Would Impose Tolls; Widen Channel to Permit Access by Ocean-Going Shipping

WASHINGTON, May 9 (AP).—Senator Arthur Vandenberg (Rep.-Mich.) introduced in the United States Senate today for himself and 14 other Senators bi-partisan legislation authorizing construction of the controversial St. Lawrence seaway and power development.

The measure, providing for imposition of tolls to make the multimillion dollar project self-liquidating, also was introduced in the House of Representatives by Chairman George Dondero (Rep., Mich.) of the Public Works Committee.

Ten other Republicans and four Democrats joined with Vandenberg in placing the measure before the Senate.

The legislation, virtually identical to that introduced by previous Congresses with the exception of the tolls feature, would authorize construction of a 27-foot channel from the head of the Great Lakes to the mouth of the St. Lawrence to permit access by ocean-going shipping.

It also would authorize construction of power-generating units in the International Rapids section of the St. Lawrence. An estimated 2,200,000 horsepower would be produced annually.

The power benefits would be shared equally between the United States and Canada.

Army engineers have estimated that total cost of the development would exceed $500,000,000. Both the United States and Canada would share in the cost.

Mount St. Francis Fund $7000 Short of Kootenay-Boundary Quota

Thirteen rural communities in East and West Kootenay Friday forwarded $263 to Mount St. Francis Campaign Headquarters in Nelson to bring total funds to $33,026. Little more than $7000 must be subscribed if Kootenay-Boundary's objective of $40,000 is to be attained.

While largest contribution list came from South Slocan, other points reporting were Brilliant, Crescent Valley, Appledale, Bonnington, Nakusp, Spillimacheen, Spokane, Windermere, Athalmer, Nelson, Creston and Invermere. In the Windermere Valley a total of $891 has been collected to date in the four centres of Spillimacheen, Invermere, Canal Flat and Athalmer.

Campaigning will continue until canvassers have completed work throughout the District.

Wheat, Oat, Potato Acreage Down; Barley, Rye, Flaxseed Increase

OTTAWA, May 9 (CP) — The Dominion Bureau of Statistics reported today that Canadian farmers have indicated they intend to seed 25,097,800 acres of wheat this year, a decline of 802,300 from the 25,900,100 acres seeded in the 1946 season.

The Spring wheat acreage, sown principally on the Prairie Provinces, will total 24,486,800 against 25,354,000 last year and the Fall wheat acreage, mainly an Ontario crop, will come to 611,000 compared with 546,100.

Barley acreage will jump from 6,730,500 to 7,808,400, while oats will decline to 12,642,500 from 13,162,700.

Total rye acreage will be 600,300, compared with 534,000. Spring rye will total 208,100 against 183,000, and Fall rye 392,000 against 351,000.

Flaxseed acreage was placed at 1,680,500 against 1,008,500. Summer fallow at 18,673,000 against 18,906,000 and potatoes at 504,100 against 520,600.

Ramadier Appoints Members to Vacant Cabinet Posts

PARIS, May 9 (AP)— Premier Paul Ramadier today named three Socialists and two members of the Mouvement Republicain Populaire to the Cabinet posts left vacant by ousted Communists.

The Socialists were Eugene Thomas, who became Communications Minister Daniel Mayer, Labor, and Paul Bechard, appointed Secretary of State attached to the Premier, presumably to handle the National Defence post.

The M. R. P. appointees were Robert Prigent, Public Health, and Jean Le Tourneau, Reconstruction. The latter is Commerce Minister also.

Enough ice exists in Antarctica to encase the entire earth in a layer 120 feet thick.

PARMALEE GETS 12 YEARS ON CHECK CHARGES

"Negligent, Sloppy Banking Methods Made It Possible"

25-YEAR RECORD

OTTAWA, May 9 (CP)—Lucius Albert (Christmas) Parmalee, internationally-known forger, was sentenced by Magistrate Glen Strike today to 12 years—to run concurrently—on each of four charges of passing forged checks totalling $17,000.

Captured shortly after he made the haul at four Ottawa banks, Parmalee last week pleaded guilty to the charges.

Magistrate Strike passed sentence after the small, sad-eyed little man, told the court in a low voice how he had passed checks totalling $61,000 in the last 25 years.

He has passed bogus checks totalling that amount in United States and Canada, he said, and had paid a penalty of 7½ years in jail.

BANKS NEGLIGENT

Parmalee also disclosed to a somewhat-incredulous courtroom that he had planned to "try his luck in Montreal banks" if he failed in Ottawa, and said the "banks were very negligent" in Ottawa for letting him pass the checks.

He indicated he felt he had done a good turn since the banks would be more careful in the future and "benefit in the long run." However, he modestly denied he was an international forger and added: "It was a simple thing to do. Anyone who had worked in a bank could have done it."

Referring occasionally in his statement to handwritten notes which he held in a shaky hand, the man who never passed a check for less than $3000 chided the press.

ATTACKS REPORTERS

"Negligent and sloppy banking methods have made it possible for anyone to duplicate the things I have done during the last 25 years, and, because of that the press has wrongfully labelled me a master forger and master criminal," he said.

"Why such publicity was given to a matter of this kind I do not know, but it was altogether too much.

"They,"—he waved his hand towards newspaper reporters—"have based their reports on misconceptions and falsehoods which have been exaggefated, probably with the intent of furthering their careers in the field of journalism."

He asked for clemency "in view of my health" and because I never in my life have committed any violence."

Crown Attorney Raoul Mercier asked for a heavy penalty so that "this gentleman of undoubted ability" be prevented from any future operations.

Magistrate Strike then pronounced sentence of 12 years concurrent on each charge. Parmalee accepted it with a small sigh and a brief nod of his bald head.

He showed no emotion as he tucked his notes back in his pocket and was hustled from the courtroom.

Britain Tries to Regain Pre-War Supremacy of Sea

By JACK SMYTH

LONDON, May 9 (Reuters)—Britain, having fallen behind the United States in the list of great mercantile powers, is trying to regain her position as the world's biggest carrier of passengers and goods by sea routes.

Along with foregin commitments the target figure for deliveries from her shipyards in 1947 is 1,250,000 gross tons.

While this addition will be infinitesimal compared with the difference between United States tonnage of 50,389,000 and Great Britain's tonnage of 24,099,600, no true picture can be gained of the mercantile listing at the end of the current year until the United States finally decides on its back-to-peacetime merchant navy strength.

But even accounting for the Government's recent decision to allow the maximum amount of its precious dollar reserves — $100,000,000 — to be spent on the purchase of 142 of the 229 ships now on charter here from the United States, it will, in the opinion of experts, still be many years before Britain regains her pre-war supremacy of the sea.

Natal Couple Wed Quietly

NATAL, B.C., May 9 — A quiet and interesting wedding took place at the St. Michael's Church at Michel on Saturday, May 3 when Marie Vivian Larson, youngest daughter of Alex Larson of Natal, became the bride of Robert Owen Doratty, second eldest son of Mr. and Mrs. B. Doratty of Natal. The wedding ceremony was officiated by Father E. Brophy of Michel.

The bride, who was given in marriage by her father, wore a white slipper satin gown. The fitted bodice was festened down the back with tiny self-covered buttons and lily-point sleeves tapered over her wrists. Her floor-length veil was held in place with a heart shaped crown. She carried a bouquet of cala lilies and deep red roses. The bridesmaid was Miss Margaret Klemak of Natal while Amelio De Anna of Natal supported the groom.

A reception was held at the home of the groom's parents. The bride's table was centred with a three tier wedding cake.

The toast to the bridge and groom was proposed by Father Brophy.

A honeymoon will be spent at *Calgary after which the young* couple will return to Natal where the groom is employed at the Michel mines.

Long Distance 'Phone Workers Honor Pickets

NEW YORK, May 9 (AP) — Groups of long distance telephone employees returning to work following settlement of the long lines phase of the United States-wide strike refused today to cross picket lines of other unions still on strike.

The workers were members of the American Union of Telephone Workers, whose 20,000 members from coast to coast were slated to begin returning to work at 6 a.m. in the various time zones across the country, but remained "pledged to honor the picket lines of any affiliated union."

Rossland Welfare Tops Target

ROSSLAND, B. C., May 8 — Bert McCoy, Chairman of the Rossland Welfare Society Camapign Committee, reported that the quota of $14,000 had been reached Thursday night. The city had been pretty well covered, but 60 per cent of the business section had yet to be heard from, he said. The campaign continues Friday and Saturday.

Rossland W.M.S. Adds to Donation To Mount St. Francis

ROSSLAND, B.C., May 9 — The Catholic Women's League meeting held Tuesday night in the Parish Hall was well attended *In response to the invitations issued.*

The members made a second donation to the Mount St. Francis Fund bringing their total donation to $50.

Mrs. J. Milligan, who is leaving the city in the near future to reside elsewhere, was presented with a farewell gift with the good wishes of the members for health and happiness in her new home.

A social time was enjoyed with games and contests conducted by Driscoll and Mrs. L. Brown. Re-Dricoll and Mrs L. Brown. Refreshments were served by Mrs. T. S. Knight assisted by the members of the Executive.

Those present were Mrs. H. L. Christian, Mrs. J. B. Page, Mrs. J. Shannon, Mrs. H. Shannon, Mrs. H. Bailey, Mrs. P. Prestley, Mrs. J. D. Mitchell, Mrs. L. Nicholson, Mrs K. Comesotti Mrs. B. CARDIFF, Wales (CP)—Immediate steps are being taken to divert British ships from breaking-up yards on the Continent to South Wales.

Kaslo to Seek Information On Memorials

KASLO, B. C., May 9— Kaslo War Memorial Committee meeting in the council chambers of the City Hall elected as Secretary Mr. H. Clarke.

Ideas for a suitable memorial were presented and fully discussed.

The committee decided to invite *each organization to send two rep*resentatives to present the ideas of their respective societies at a meeting to be held in June.

The Secretary was instructed to write to various centres for information regarding their type of memorial. From these sources the *committee will be enabled to decide* on a suitable "Living Memorial" to the Kaslo and District men who fell in World War II.

WOULD TREAT "BLUE BABIES" AT VANCOUVER

VANCOUVER, May 9 (CP)—E. S. Winn, President of the Children's Hospital here, last night took exception to the practice of sending children to United States hospitals for treatment, particularly "blue babies."

"It is time people of British Columbia knew there are surgeons and instruments capable of the most delicate and difficult operations," he said. "There are several surgeons in the city who can undertake blue baby operations."

RECORD BORDER CROSSINGS

VANCOUVER, May 9 (CP) — Border crossing officials are getting set for one of the biggest years in tourist history. They report that in April more than 69,000 people from British Columbia blitzkrieged Blaine, Wash. en route to the United States compared to 37,000 in April, 1946.

Coast Outside Civic Employees Refuse Wage Increase Offer

VANCOUVER, May 9 (CP)—Outside Civic Employees' Union last *night rejected a wage increase offer* of eight cents an hour retroactive to March 1.

Wednesday City Hall Employees *and Firefighters Union accepted a* $10 monthly wage boost, also retroactive to March 1. The 1100 outside employees were believed to have objected mainly to the raise not being retroactive to Jan. 1.

NAND SING HINDU, DIES AT CRANBROOK

CRANBROOK, B.C., May 9 — Nand Sing, age 67, Hindu employee of the Galloway Lumber Company for a considerable time, died in the hospital here.

He was born in India and apparently had no relatives in this province. The body was shipped to Vancouver for funeral services at the Sikh Temple there followed by cremation.

BELFAST (CP)—New industries in Northern Ireland have absorbed more than 13,000 workers.

KASLO

KASLO, B. C.—*The Down Town* Circle of St. Andrew's United Church met at the home of Mrs. G. S. Baker on Wednesday afternoon, *and members received some gener*ous donations of material which were distributed among the members to be made into aprons. Those *present were Mrs. Carlson, Mrs. W.* L. Billings, Mrs. A. L. MacPhee, Mrs. J. Tonkin Sr., Mrs. Greenswords, Mrs. P. Amas, Mrs. Shimotakahara, Mrs. H. Beck, Mrs. J. R. Tinkess, Mrs. S. Stocking, Mrs. J. Strachan Sr., and Mrs. G. S. Baker. Tea was served by the hostess as*sisted by Mrs. J. R. Tinkess.*

Miss Helga Augustine of Vancouver is visiting her parents Mr. and Mrs. A. Augustine.

SLOCAN CITY

SLOCAN CITY, B. C.—Rev. Bishop Embling of New Denver baptised the seven month old son of Mr. and Mrs. Anderson. The baby was named Allen Edward and the sponsors were Mr. and Mrs. Howard Parker.

A pretty wedding ceremony at St. Mary's Catholic Church April 27 was conducted by Rev. Father Malone, *when Florence Doreen Marchi of* Slocan City, became the bride of Sidney Paterson. The church was prettily decorated for the occasion *and the bride was given in mar*riage by her father. She looked lovely in her floor length white sheer dress featuring long sleeves *embroidered with tiny bow knots* and wearing a halo shaped hat and embroidered floor length veil. She Carried a bouquet of pink carna*tions. The bride's attendants were* Mrs. A. Graffi of Nelson. The groom was supported by Jack Boudier of Slocan City. A dinner was served at *the home of the bride's parents fol*lowed by an open reception in the afternoon and evening. The bride and groom spent a honeymoon in *Spokane. Out-of-town guests were* Mr. and Mrs. Cecchini, Mr. and Mrs. A. Graffi and June of Nelson, Mr. and Mrs. C. Bortolussi and children *of Trail, J. Gerarde of Zincton and* J. Trinca of Nelson.

CANBERRA (CP) — Australia imported 79,000,000 pounds of tobacco last year and produced 10,000,000 at home. Most of the imported leaf came from the United States.

KASLO AID PLANS HOSPITAL DAY

KASLO, B. C., May 9—Ladies' Aid of the Kaslo Victorian Hospital at a meeting at the home of Mrs. J. E. Papworth acknowledged the *gifts of the I. O. D. E., Canadian Le*gion W. A., St. Andrew's United Church Service Club, Evening Branch of St. Mark's Church W. A., Kaslo, and District Women's Institute and the Ladies in Riondel, who donated fully equipped bed side trays for 12 private wards in the hospital.

The Secretary was instructed to write Mrs. H. Currie, expressing appreciation to the people of Ainsworth for a donation of the proceeds of a dance and raffle amounting to $46.

Mrs. C. Bowker, Secretary of the *Sunshine Committee, read a report* showing that the bereaved and sick members had been remembered and also read letters of appreciation *from the recipients.*

Mrs. Single of the Buying Committee, was instructed to purchase a complete bed for the nurses' home.

It was decided to hold the deferred Hospital Ball in the Drill Hall.

Arrangements were completed for *Hospital Day May 11, when visitors* will be able to note the many improvements made in the hospital by the I. O. D. E. and the Hospital Ladies' Aid.

Refreshments were served by the tea hostesses Mrs. Shephard and Mrs. G. Armstrong.

NEW DENVER

NEW DENVER, B. C., William Rutherford had a very pleasant surprise on Tuesday when he had as his guests his son-in-law and daughter Mr. and Mrs. F. S. Willis of Trail and their son-in-law and daughter Mr and Mrs. L. F. Wright and their daughter Marney Wright of Vancouver, representing four generations. Mr. Willis and Mr Wright while in town also visited the Lucky Jim Mine Zincton on a business trip.

James A. Green on May 15 will attend the graduation of his son Fred J. Green at U.B.C. Vancouver.

Miss M. H Butlin and her guests Mr and Mrs. A. C. Cretnay and their grandchild Shirley Anne Banton visited the formers niece Mr. and Mrs. W. Jupp and son Garry at Nakusp.

Mrs. Archie Greenlaw of Lardeau is visiting her mother and brother Mrs. E. F. Angrignon and Fred Angrignon.

LONDON (CP)—Helicopter air craft, with special features R.A.F. research has shown necessary, will likely be used in furture air-sea rescue operations.

Kaslo Ladies Plan Golf Opening May 18

KASLO, B. C., May 9— Ladies' Auxiliary of the Kaslo Golf and Country Club at its annual meeting laid plans for the official opening of the club to be held May 18.

It was also announced that the West Kootenay Ladies' Golf Tournament will be held in Nelson on June 21 and 22.

The Ladies decided to serve tea at the official opening when mixed foursome's will be played.

*Officers elected were Honorary-*President, Mrs. E. H. Latham, President, Mrs. E. K. South, Vice-President, Miss Spencer-Smith, Mirror *Lake, Secretary-Treasurer, Mrs. H.* L. Clarke. Tea Convener Miss E. Gregerich, Membership Committee, Mrs. L. D. Besecker. Match com*mittee, Mrs. E. K. South.*

Mrs. Fyfe, Sheffler Win Kaslo Cribbage

KASLO, B. C., May 9—Evening Branch of St. Mark's Church W. A. meeting at the home of Mrs. William Hendren on Tuesday night heard a report on the successful cribbage tournament held during the Winter months.

Prizes for high scores were awarded to Mrs. S. E. Fyfe and A. Sheffler, while Mrs. J. E. Papworth and L. Scapple captured the second prizes.

GLADDEN HER HEART WITH Flowers

..ON MOTHER'S DAY

MAY 11th

All the warmth and richness of childhood memories centre around one person—"Mom". Next Sunday is "her" day. Fresh, colourful flowers will make it a day of beauty—one that she will always remember. For flowers will tell her in a lovely, fragrant way that you cherish all the understanding, love and happiness that you both have shared.

Unity in Fight Against Misuse of Narcotics

In considering the report of the United Nations Commission on Narcotic Drugs, the Council adopted a number of resolutions endorsing recommendations and resolutions which the Commission had passed with a view to maintaining and strengthening the machinery for international narcotics control. The Council noted that 49 members of the United Nations had, by March 14, signed the Protocol of December 11, 1946, which amended existing international agreements, conventions, and other instruments on narcotic drugs, in order to implement the transfer to the United Nations of powers exercised by the League of Nations in respect of narcotics control.

The Council, further, requested the Secretary-General to invite all parties to these various instruments which are not United Nations members to become parties to the new Protocol at an early date. Franco Spain was expected from this invitation.

Noting the urgency of re-establishing and, where necessary, improving narcotics control in countries directly affected by the war, the Council approved the Commission's decision to ask these countries to resume full international collaboration at the earliest possible date, and to offer them technical assistance on request with a view to re-establishing national controls at pre-war levels. In order to improve control generally, the Council directed the Secretary-General to prepare an analytical survey of legislation on narcotic drugs in countries which are parties to the various conventions, so as to ascertain whether such legislation accords with the conventions; and to undertake revision of the list of narcotic drugs which come within the scope of the conventions.

As a start toward limiting production of raw materials, the Secretary-General was directed also to circularize a questionnaire on raw opium, prepared by the Commission for transmission to the governments concerned. The drafting of a similar questionnaire on the coca leaf, for consideration at the next Commission session, was also approved. With regard to the smoking of prepared opium, the Council instructed the Secretary-General to invite all countries where such a practice is still legal to prohibit it, along with manufacture and traffic for that purpose. He was also instructed to remind parties to the 1925 Convention that it obliges them to send certain statistics of drugs and estimates of drug requirements to the Permanent Central Opium Board and the Supervisory Body.

The Council resolved that the occupying powers should be invited to take the necessary measures as soon as possible for establishing effective narcotics control throughout Germany.

As for Japan which, the Commission reported, had in the past willfully violated its treaty obligations with respect to the drug traffic the Council decided to recommend to the governments which would negotiate peace treaties with Japan that the treaties should provide for the most stringent control in Japan of all transactions regarding narcotics, this control to be under the supervision of "such control authorities as may be established by the peace treaties, and of the United Nations, whose expert bodies will be available to give such information and advice as may be requested."

The Council gave its approval, for the present, to a procedure suggested by the Commission for making appointments to the Permanent Central Opium Board, and filled a temporary vacancy on the Board by appointing Professor J. Bougault, a distinguished French pharmacologist.

It also invited the Secretary-General to initiate studies with a view to amending or deleting a provision of the 1925 Convention that requires that Permanent Central Opium Board members shall not hold any office which puts them in a position of direct dependence on their governments. The President of the Council expressed the opinion that the Secretary-General would have the benefit of the Commission's advice in this matter.

Finally, in view of the numerous functions and duties which must be performed as the consequence of the international agreements on narcotic drugs and of the General Assembly's and the Council's decisions, and in view of the urgency of fully re-establishing international control of narcotics, the Council recommended that the General Assembly ensure that the Commission on Narcotic Drugs and the Secretary-General are supplied with all the budgetary means required for the efficient discharge of the functions and duties of the United Nations in this field.

Lance H. Whittaker

A PROUD RECORD

It is 30 years ago this year that the Western Federation of Miners went on strike at the plants of the Consolidated at Trail. Since that time there has not been a work stoppage of a single day at the great smelter.

That is a proud record.

It is a proud record for the management of the world's largest metallurgical and chemical enterprise; it is an even prouder record for the men who have worked in the metal sheds, at the lead wells, at the controls of the amazing acid plants and at the ordinary, everyday jobs of ditch-digging and lumber carrying . . . for it is these men who have made Consolidated what it is.

It is doubtful whether another enterprise of 5000 people anywhere in Canada—or on this continent—can boast the record of cooperation and progress of the management and men of the plants at Trail. During the hundreds of wartime and postwar strikes that broke out like a rash over Canada and the United States, nothing of the kind was heard from Trail. The great pulsating industrial heart of British Columbia kept beating out a rhythm that spelled death for the enemies of democracy and life for the light of freedom. Each day during six years of war, without a single stoppage or delay, a train-length of box cars rolled out of the Tadanac yards loaded with lead and zinc which found a target in Africa, Italy, Germany or the Pacific Islands.

On the side of the management it is recorded for all time that this tremendous production went out to the world battlefields at a price fixed at the beginning of hostilities—a price that saved the Government of the United Kingdom $100,000,000. It is recorded also that wages rose during the same period until they stand today at least 15 cents an hour higher than the highest average wage paid in any Province in Canada. That highest average wage is the British Columbia average, 83 cents an hour. The Consolidated MINIMUM is 82 cents an hour.

Unfortunately, in combination with the shorter working time requested by the representatives of the workmen, that high wage level today is not adequate. It must be raised—and if the management policy of past years is any criterion at all, it will be raised. The road ahead may be paved with difficulties and adjustments both in the technical field and in the sphere of human relations, but Consolidated people have had long experience with similar trials. There is no reason to believe that the proud record of industrial peace cannot be maintained intact for another 30 years or longer.

Looking Backward

10 YEARS AGO

From The Daily News of May 10, 1937

The Nelson school track meet will be held at the Recreation Grounds, May 22. Teachers in charge of training the sportsters are: High School, Derek Tye; Junior High, Douglas Chamberlain and P. C. Richards; Hume School, George Wallach; Central, Monty Morley.

At a meeting of the Nelson Aerie No. 22, Eagles, Monday night, F. W. Johnson was elected President and Harry Wassick Secretary.

N. C. K. Hallam left this city for England yesterday.

25 YEARS AGO

From The Daily News of May 10, 1922

The Nelson District Rod and Gun Club held a special meeting last night. President G. W. Steele presided.

Yesterday's Senior City Soccer League clash, Bankers vs Corinthians ended in a draw 1-1. Both goalies, Notman for the Corinthians and Middleton of the Bankers, played an outstanding game.

Mr. and Mrs. M. Scally left for Vancouver last night.

40 YEARS AGO

From The Daily News of May 10, 1907

F. E. Simpson, Provincial Grand Master of British Columbia, I.O.O.F., of Cranbrook, passed through Nelson yesterday.

The monthly meeting of the University Club was held in St. Paul's Church Hall last night. C. M. Fraser presided.

At the regular weekly shoot of the Nelson Gun Club yesterday afternoon, the following scores were made, at 50 birds: Mawdsley, 37; Tierney, 26; Bishop, 32.

Words of Wisdom

Half the spiritual difficulties that men and women suffer arise from a morbid state of health.—H. W. Beecher.

? ? Questions ? ?
ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except when there is obvious necessity for privacy.

A. L., Fernie—I wonder if you could tell me how to make paint stay on galvanized iron?

For making paint adhere to galvanized iron, there has been recommended a wash consisting simply of dilute hydrochloric acid, which produces chloride of zinc, that in combination with the oxygen of the air is said to produce a film upon which oil color takes as good a hold as it would upon ordinary sheet iron.

Curious, Rossland—Could you tell me the origin of the word boycott, used extensively at the present time?

Captain Boycott was the English agent of Lord Erne in Ireland in 1881. He incurred the ill will of the tenants. As a result the population for miles around refused to deal with him in any way.

Reader, Nelson—Would you please give me the address of the Pepsi-Cola Company?

Pepsi-Cola Co. of Canada, Limited, 825 Querbes Ave., Outremont, Montreal 8, Que. Branch offices and factories, Ottawa and Winnipeg.

Today's Horoscope

You are a persistent person, mentally alert, level-headed, and never let failure or adversity deter your effort or lessen your spirit. You are courteous, diplomatic and gracious, never showing your true feelings unless they are pleasant. The day's influences are rather doubtful, but gain through another is possible. Avoid hasty actions. In your next year do not be improvident or over-generous, and guard against disputes with womenfolk. Prefer requests and push business to the utmost. The results will be gratifying. Lucky in many ways will be the child who is born on this date, attaining recognition and success early in life. Many sterling qualities and much talent will be evidenced.

HOROSCOPE FOR SUNDAY

Strong both mentally and physically, you are versatile, energetic and artistic. You enjoy reading very much. You are good-natured, happy in your home life, popular and accepted as a pleasant and reliable person. You will be successful in an executive position. The day is good for personal interests, affairs of the heart, entertainment, artistic pursuits. An opportunity will come, but with some delay or objections. Your year is indicative of trouble and loss through law, property, insurance, or unwise investment, although help will come from an unexpected source. Your health may also be indifferent. The child who is born today will not be very fortunate, ill-health, delays, disappointments and lack of sympathy of relatives retarding progress and happiness.

Test Yourself

1. Why are some paintings called murals?
2. What painter is recognized by his ballet dancers?
3. Has the greatest inspiration for painting been religion, political propaganda, or scenes of everyday life?

TEST ANSWERS

1. The name comes from a Latin word meaning wall; they are paintings on walls.
2. Edgar Degas, French artist.
3. Religion.

Etiquette Hints

When the bride plans to be married in a travelling suit or afternoon dress, the wedding is definitely informal. There is no elaborate ceremony, the bride does not usually carry a bouquet, but wears a corsage.

Press Comment

CONGRATULATIONS TO NELSON

Congratulations go to the City of Nelson on its Golden Jubilee this year. British Columbia has great pride in the "Queen of the Kootenays," a title of graciousness that she has borne for 50 years. But this wide esteem does not rest solely on the charm of the city and its hospitable people, but also on the importance of Nelson as the hub of industrial activity in the Interior and the possession of a vigorous and enterprising community spirit.

Nelson had its birth in the traditions of the tough, gold-hunting days of the West. When a number of prospectors halted one day to throw rocks at groundhogs one of them noticed he was throwing high-grade ore. They staked the famous Silver King mine there, rock mining developed, and the town of Nelson was born.

It was the first of several successful mines discovered in that part of the Kootenays which gave birth to several other towns.

Add to the storied past, a thriving present and promising future, the almost lavish endowments of Nature, and you have a most favored city to which in its fiftieth year are offered the warmest wishes.—Vancouver Province.

WITHOUT FEAR OR FAVOR

All of us have heard skeptical persons question the axiom that Canadian law is no respecter of persons. Wealth and position, such persons say, plead powerfully in our courts.

Some recent prosecutions—and convictions—show how little basis there is for this skepticism. A member of Parliament was sent to prison for six years in the "spy" trials. A prominent lawyer, a King's Counsel and a man of standing an influence, was convicted of assaulting his secretary and sentenced to six months' imprisonment. Finally, a judge was convicted by a jury of driving while drunk and of careless driving, has received a sentence of 30 days in prison and a fine of $250.

Appeals have been entered, or are being entered, in all these cases, but that does not affect the point that judges and juries met their painful duty without fear or favor.—Ottawa Journal.

BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

CHOICE OF BAD LEADS

EXCEPT after something unusual has occurred during the bidding, the worst lead generally against a No Trump game contract is the suit which had been bid by the player that winds up as the dummy. This risks establishing it before its side entry or entries can be removed. The next worst suit to open, as a rule, is the one which the declarer had bid, if any. This puts any honors held by your partner under the hammer. Better than either of these, in most cases, is some unbid suit, even if it is topped by honors in a tenace position, such as an ace-queen or king-jack.

North: ♠K 10 6 ♥10 2 ♦K Q 5 4 2 ♣10 4 3

West: ♠8 7 5 4 ♥None ♦J 10 8 7 3 ♣K J 7 6

East: ♠Q 3 ♥K Q J 9 7 4 3 ♦9 ♣Q 9 8

South: ♠A J 9 2 ♥A 8 6 5 ♦A 6 ♣A 5 2

(Dealer: South. East-West vulnerable.)

South	West	North	East
1♣	Pass	1♦	1♥
1♠	Pass	2♦	2♥
2 NT	Pass	3 NT	

West considered himself on the spot. Unable to lead his partner's suit, he applied a process of elimination to the others. Diamonds would be very very bad, he reckoned, and might result in setting up in the dummy the tricks which would make the contract. He didn't like to lead spades because South had bid them. That left only clubs, but South had bid those, too, and there was West with tenace honors which he did not like to endanger by an underlead.

Among all these choices, he settled on spades, and so led right into South's tenace, putting East's Q under the guillotine. That gave South his game at once, with four tricks in spades assured, plus three in diamonds and two with his other aces.

As modern bidding is done by fine players, the club opening could have been disregarded by West and the suit treated as if it had never been bid. South had shown a No Trump style of distribution with his calls, including positively a spade suit. The spade lead therefore was extremely risky. In this case a club lead would have been quite logical, the 6. Even the diamond lead would have been less dangerous, in view of the kind of suit West held. But the club would have to find East with only the Q to keep it from being costly, and if he had the A, with the Q in South's hand, it could have been the killer.

Notice that, with either a club or diamond lead, South would have had to guess the right way to play the spades; if he finessed West for the Q, he would have been set.

* * *

Your Week-End Question

In the effort to run your long suit in an otherwise worthless hand against a No Trump game contract, what one of the early tricks is usually the most important to take if you can? Why is that the case?

Movie Gossip

"Henry V" Has 47-Week Showing in New York; Breaks Every Long-Run Record

By RON GADSBY
Canadian Press Staff Writer

Those rooting for the success of English films — and who isn't — will be interested to know that every existing long-run record for the showing of a movie in New York City was broken by the 47-weeks showing of the Laurence Olivier technicolor production of Henry V. The record speaks volumes for the success of English films which have become the seventh — should we say, Ranking — industry in the United Kingdom monetary returns, both domestic and foreign.

Doubtless, Oilver is one of the greatest living actors, and his supporters will thrill at the news that he has begun production of the Shakespearean play, "Hamlet." There has been much talk about the impending effort with every major actress in England biting their nails and consulting the nearest tea-cup reader to learn whether or not they would have the choice role of "Phelia." The issue has been settled and Jean Simmons, 17-year-old beauty who had a minor role in "Johnny in the Clouds" when only 14, will get the part.

And speaking of J. Arthur Rank, he will visit Toronto on May 17 for his "first holiday in seven years." His visit will be short but he will take time out to address the Century Bible Class of Timothy Eaton Memorial Church. Somehow, thanks to Hollywood, you don't associate film producers with bible classes but Rank is a leader in his church in London.

"The ideal Mr. and Mrs." of the movies—Myrna Loy and William Powell—are soon to be seen together again in an M. G. M. release called "Song of the Thin Man." It will be their sixth appearance in the Thin Man series which began back in 1934, believe it or not.

Highland Silver Strikes Rich Vein On Rambler Claim

Discovery of a high-grade vein in the lowest level of the workings on its Rambler claim at Beaverdell is reported by Highland Silver Mines, Ltd. An 18-inch section of four feet of vein-zone material recovered from diamond drill hole D-9-A has been found to assay 0.01 ounces gold, 151 ounces silver, 2.40 per cent lead and 10.80 per cent zinc per ton. Value of contained metals at present prices is calculated at $143 a ton.

The mineralization consists of heavy galena and sphalerite plus lesser amounts of pyrite, ruby silver and native silver. The Northern Miner states. Before the assay was made the native silver was screened from the sample to ascertain the percentage occurring in that state and the amount found in sulphides. The results showed 36.3 ounces as native and 134.7 ounces in the sulphides.

Because the vein was intersected at an angle of 45 degrees the true width of the high grade mineralization has been calculated at 13 inches, which is slightly greater than the average width of vein on Wallace Mountain. The Company's engineers consider the four-foot vein zone a favorable structural condition with promise of wider high grade mineralization at other points.

On the recommendation of B. I. Nesbitt, Consulting Geologist, a crosscut has been started to intersect the vein and permit drifting. The strike was made at 88 feet from the main drift in the lowest workings.

The property is already equipped with an ore bin at the portal of the main drift, from which transportation is afforded by truck over the 4½ miles to Beaverdell.

MUCH WORK NEEDED TO APPLY ATOMIC POWER

By JACK GRAY
Canadian Press Staff Writer

TORONTO, May 9 (CP)—Atomic materials, which may yield "approximately 3,000,000 times the energy from the combustion of an equal weight of coal," require a tremendous amount of work on their application before they can heat the cities of the world.

Engineer E. J. Wiggins of Canada's Chalk River, Ont., atomic energy project, made this clear yesterday as he told the Engineering Institute of Canada at its annual meeting that when atomic heating arrives "we can postpone for a very long time any fear of exhaustion of the world's power resources."

"The advantages of nuclear power are few in number but of extraordinary importance," said Mr. Wiggins. "We can state them simply as the very high ratio of energy production to fuel consumption and the flexibility of control of energy production."

He listed disadvantages of nuclear power as the large size of the atomic pile units "which can normally be built only in a few selected localities;" the massive shields required for protective personnel from dangerous radiations (some of the shields weigh tons); and the necessity of separating and disposing of the highly radioactive by-products of atomic fission.

The high cost of building these plants was another troublesome feature, apart altogether from the international aspects which at present impose rigid security controls until some workable international agreement comes into effect.

"The upshot of this situation is that we are never likely to have free participation by private industry in all phases of nuclear energy," said Mr. Wiggins. "Future progress, as for example the development of 'denatured' fissionable material which can be used for power production but not for atomic weapons, may permit free activities in some fields."

Some Foods Cause Allergic Reactions In Nervous System

BUFFALO, N. Y., May 8 (AP)—Allergies from foods and other substances which made children violently ill-tempered, surly or disobedient were reported to the New York State Medical Society's annual meeting today by Dr. T. Wood Clarke of Utica, N. Y.

Dr. Clarke, a pediatrician and allergist, described several cases in which children became happy and well-balanced after the allergy was discovered and corrected. Their allergies were caused by some kinds of food, pollen, or dust.

These, he said, were cases in which allergic reactions occur within the brain or central nervous system. They may result in muscle spasm, fluid in the brain producing headaches, vomiting, dizziness, convulsions, and psychotic changes in the mentality.

Dr. Clarke told of a 15-year-old boy who had frequent temper outbursts, and attacks resembling "petit mal" epilepsy. His family showed a history of asthma and hay fever. Tests showed the boy was sensitive to oats and wheat, and when these were removed from his diet the boy's "entire attitude toward life changed."

A 13-year-old boy, expelled from school as incorrigible, also suffered from hay fever. Foods to which he was sensitive were removed from his diet, Dr. Clarke said, and the boy returned to school. Later the diet changes were apparently abandoned and the boy again became incorrigible, he added.

TREATS FACIAL DISFIGUREMENTS WITH SANDPAPER

MEMPHIS, Tenn., May 9 (AP)—Facial disfigurements now can be removed with ordinary sandpaper and without the necessity of skin grafts, a Philadelphia surgeon says. Dr. P. C. Iverson told the American Association of Plastic Surgeons yesterday that he developed the new method while treating soldiers injured by explosions during the war.

Americans Design Fleet for Attacking Cities

By ROBERT M. FARRINGTON

WASHINGTON, May 7 (AP) — The Navy Department is slowly unfolding the blueprint for a radically new fleet, designed for attacking cities and land bases rather than fighting other ships.

What the fleet will look like some years from now remains to be seen. The best information points to an eventual lineup something like this:

Instead of the battleship, a heavily-armored guided missile ship that can take a pounding to get home powerful attacks on cities and industrial centres hundreds of miles from the Coast (the Navy is currently converting two big ships to fire guided missiles.)

Instead of a cruising ship, a fast raiding ship firing a barrage of big rockets in bombardment of shore points.

Instead of the carrier, a fast intercepter ship with pilotless aircraft to destroy enemy missiles aimed at the United States. Carriers as known today may be employed as a "coastal defence" several hundred miles off home shores.

Instead of the destroyer, "an attack-killer" class which would have high-speed, automatic-firing guns, and plenty of anti-submarine equipment.

Submarines may become specialized for cargo carrying, scouting, attack, ice patrol, and atom-weapon launching. (The Navy last week announced proposed conversion of existing submarines to cargo and troop carriers and for Arctic patrols.)

The Senate yesterday completed Congressional action to permit the Navy to spend $30,000,000 on two experimental submarines.

Meanwhile, W. John Kenney, Assistant Secretary of the Navy, reported the planning of radical changes in warship design and said: "The future ship may have few exposed personnel and instruments. It is quite possible that no man will be in sight at battle stations underway."

Kenney said that the new types will incorporate lessons of the atom bomb test at Bikini and the ice menace of the polar regions.

A Navy Department official said the "limited" expedition to the Arctic will establish a Canadian-American weather-reporting station near the magnetic pole.

It was recalled that Reconstruction Minister Howe announced in the Commons in Ottawa last March that the Domniion plans to establish nine new weather stations in the Arctic within the next three years. Mr. Howe said then that the United States would assist the Dominion in establishing the stations.

SYDNEY, Australia (CP)—On instruction of the Waterside Workers' Federation wharf laborers refuse to load soap, soap powder or tallow for eport until a romestic shortage was overcome.

LUSTERLITE

MODERN AND COLORFUL!

Beautify your bathroom or kitchen walls with Lusterlite! Made in large sheets, plain or tiled it can be easily and quickly applied to either new or old wall surfaces. Lusterlite comes in eight smart colors and the hard gleaming surface will not chip, fade or crack. Long-wearing and economical, Lusterlite is washable, and will make your rooms modern and colorful.

Stampeders Have Question To Answer Against Royals Tonight

TORONTO, May 9 (CP) — The question of whether Calgary Stampeders can come up with a second straight win and force a seventh and deciding game in their Allan Cup final against Montreal Royals will be answered Saturday night in the sixth clash of the country's two sectional champions for the Canadian senior hockey crown.

For the first time since they hooked up with the Royals in the defence of the title they won out West last year, the Stampeders in the fifth game Wednesday night showed the form that won them the Western championship as they registered a sparkling 1-0 win to cut the Royals' lead in games to 3-2 and prolong the series for at least another tilt.

Unmistakeably the superb goaltending of Russ Dertell made the big difference in Calgary's showing in their last outing but the lineup change that Coach Jack Arbour came up with also had a lot to do with their win. The grey-haired Calgary pilot replaced Defenceman Art Shoquist with Bud Emery and his presence undeniably was a vast improvement in their rearguard.

In three of the games, especially the first which they lost 7-3 and the third which they dropped 7-0, the Stampeders were weak in clearing the rubber from around the net. That trouble was absent in the last game with Emery behind the blueline.

But most of the burden in keeping the Royals from administering the knockout drop will be on Dertell's shoulders. If he can come through with an effort like the last game, that may be all the spark his teammates need to score another triumph.

While Dertell has looked bad in a couple of the games, the stylish Gerry McNeil in the Montreal net has yet to come up with a poor game. The Stampeders have been able to score only nine goals against him in five games against 19 for Royals.

FANS WITH WESTERNERS

As the Stampeders, like the Royals, put time today in waiting for the next battle, which if the Westerners win will send the clubs back to Montreal for the seventh game Monday, their coach was not saying much about his team's chances. However, he did note that "they've seem to be a much better club in the last two games."

Toronto fans in all the games here have been yelling themselves hoarse in pulling for the Stampeders. With the Royals on top 3-1 before the last game, interest in the series dwindled and only some 5100 were on hand for that tilt. The Stampeders win boosted their stock and a bigger crowd will be out rooting for them tomorrow night.

Runless Wonders Skim Through With Another 1-Run Win and Take Lead

By STEVE ROBERTSON
Canadian Press Staff Writer

Chicago White Sox have scored three runs in their last 34 innings, but they're leading the American League.

Reminiscent of the "hitless wonders" of another era, the Sox squeaked through a 1-0 victory Sunday, dropped two shutout decisions, and came back Friday to edge Detroit Tigers 2-1 to take a one-game lead over the losers. It was the 11th Sox win in 18 games.

Orval Grove's seven-hit pitching and Murrell Jones' eighth-inning single scoring Don Kolloway with the winning run were the game's highlights.

A six-inning relief stint by Rookie Clint Hartung yielded only two hits and no runs, but New York Giants dropped a 6-2 decision to Boston Braves who wreaked their mayhem earlier at the expense of Bill Voiselle and Mike Budnick.

Hartung, the much-publicized all-rounder, showed a neat curve and effective fast ball and gave up only three walks. Johnny Mize's ninth homer of the season for the Giants also went for a lost cause.

POOR START

Johnny Vandermeer, once noted for his two consecutive no-hitters and impressive strikeout record, had a dismal first start of the season as he yielded five hits and four runs in the sixth inning in Cincinnati Reds' 5-1 loss to Chicago Cubs.

WHIP LEADERS

Pitchers held the spotlight in the International League as Rookie Johnny Van Cuyk held the league-leading Jersey City Giants to four hits in Montreal's 6-3 victory and Lefty Bob Kuzava of Baltimore threw a six-hit shutout at Rochester Red Wings to give the Orioles a 3-0 win.

Montreal's Walt Sessi clouted two homers and Roy Campanella added one to supply Royals' offensive power while Jack Graham got a four-bagger for the losers.

Brooklyn Dodgers dropped all the way from first to third place when Philadelphia Phillies nipped them 6-5 in 11 innings in a night game. Emil Verban's double drove home Andy Seminick with the winning marker.

Larraine Day's Mexican Divorce "A Nullity"

LOS ANGELES, May 9 (AP)—Larraine Day's California divorce from J. Ray Hendricks was upheld today by a Superior Court Judge, who commented, however, that he considers their subsequent Mexican decree "a nullity."

Judge Ingall Bull dismissed an order by a colleague, Judge George A. Dockweiler, to show cause why the decree Dockweiler granted last January should not be set aside on grounds of fraud and collusion.

Immediately after receiving the Mexican divorce, Miss Day was married to Leo Durocher, then a Brooklyn baseball manager, in Texas.

Yes, we have a good stock of bicycle spokes, softball equipment, fishing tackle.

Assault Wins Handicap

BALTIMORE, May 9 (AP)—King Rach's Assault, the 1946 triple crown winner, breezed to a half-length victory today in the 443rd running of the Dixie Handicap at Pimlico, and moved into third place in the all-time turf money-winning list.

Cricket Results

LONDON, May 9 (Reuters)—today's cricket results:

At Lords: Marylebone Cricket Club vs Surrey, drawn. Surrey first innings, 209, all out; second innings, 370, all out; Gregory 104. M.C.C. first innings, 269, all out; second innings, 228 for eight.

Cambridge vs South Africa. South Africa won by innings and 153 runs. Cambridge first innings, 116, all out; second innings, 101, all out. South Africa, first innings, 370, all out; Viljoen 128.

Member Feels Time Not Right for Olympic Games

OTTAWA, May 9 (CP) — T. L. Church (PC-Toronto Broadview) said today in the Commons that the 1948 Olympic Games should be called off because such games "cause more disunion than union."

He said the games should at least be postponed until 1950 because of the conditions in Britain and Europe. He noted that the Government was going to contribute $17,500 toward the Olympics.

The Government, he said, should not pay the money. Anyone who wanted to go to the Olympics should pay their own way. He did not know how Britain would find food or shelter for those who wanted to attend the Olympics.

Ships were not available to bring British immigrants to Canada, but they were to be available to carry the Olympic competitors.

FIELD OF 11 FOR PREAKNESS

BALTIMORE, May 9 (AP) — Amid last-minute support for Faultless to give Jet Pilot and Phalanx a real "rassle" for the pot, a field of 11 three-year-olds was entered today for tomorrow's 57th running of the Preakness.

Headed by the first five finishers in last week's Kentucky Derby—Jet Pilot, Phalanx, Faultless, On Trust and Cosmic Bomb, in that order — the three-year-olds will run for the glory, the necklace of black-eyed susans and a pay check that will be just about within income tax range of $100,000.

Among the other six is Cornish Knight, owned by E. P. Taylor, Toronto industrialist, and another front-runner of uncertain staying ability. Secnav. Cornish Knight, a 20-to-one shot overnight, was entered by Trainer A. E. Alexandra but the jockey assignment for the Canadian-owned colt was left blank.

Others assigned to the event include pint-sized Bullet Proof, the Virginia-bred who was a mud-weary seventh in the Derby; Riskolater who was 11th; Contest, a green but giant-sized Texas-owned stepper, and King Bay, the undertaker's horse from Louisville with the express-train speed.

Juniors To Play Senior Nine

Nelson baseball fans, who turned out in force last Sunday to witness the Trail-Nelson Senior doubleheader, will be in for another ball treat this Sunday with the Seniors taking on the Fairview Athletic Club's Nelson Juniors.

The Seniors unable to bring in either Northport or Colville teams finally accepted the Junior challenge which was issued earlier in the week by President Van Linden.

The Juniors, who boast one of the smoothest working infields in the Kootenays, will likely have a dark horse to do the hurling chores. It is even said that the confident kids were willing to spot the Senior Club six runs in the opening frame, but President A. S. "Major" Wallach won't bet wooden money on his Club even with a six run handicap.

The Junior Club have plenty of youth and hustle from fourteen-year-old Jimmy Todd to their new second baseman Red Koehle. Brown Bear Koehle, younger brother of Red will likely be on the receiving end behind the plate. Big lanky Herb Pitts, rated as one of the top first sackers in the District, will be tending to that spot on Sunday. Red Koehle who starred down at the Coast last year for Nanaimo will be at second. Bob Porteous, another youngster from the Coast who joined the Juniors at the close of last season, is termed by Junior officials the best shortstop in the City.

Bob McNabb, who performed like a veteran for the Senior Club last Sunday, will be back handling the hot spot for the Juniors. In the field Jimmy Todd, the youngest member, but with them for the past three years, is to the spectators the little fellow in left field who gathers in the big hits. Bob Hallbauer, a big left hand hitter, is a capable centre fielder. Denny Colman and Bob Pitts will likely share the right field pasture. Colman joined the Club late last year and is another one of the Club's many left hand hitters who can really drive the ball. Pitts besides playing in the field is also a capable infielder and when at the plate leads the club in drawing walks.

ROOKIE HURLERS

Ron Brown and Al Hood are the Club's rookies. Both are hurlers. Brown, a right hander, and Hood, a southpaw, are slated for pinch hitters if they don't do any mound work.

The Senior Club is expected to field much the same club as that which put up such tough opposition to the Trail Seniors last week. They have three capable hurlers in veteran Jack Brown, Johnny Verigan and their rookie southpaw Ken St.Denis. Ron Nash is slated for his old spot behind the plate. Spence Tatchell, the Club's power hitter, will likely take over the injured Johnny Lang's first base position. Andy Anderson, veteran second baseman who is gradually rounding into shape, will hold down second. Don Porteous, brother of the Junior's shortstop, looks after that section for the Seniors. Bob Collinson, who performed most of last season at third, will likely be handling that position again. In the field there are several efficient players available. Steve Krizan will get the nod for the left field, Abrosimo will be in centre field and Ernie Colman in right field.

STAN MUSIAL SUFFERS ACUTE APPENDICITIS

NEW YORK, May 9 (AP) — Stan Musial, great first baseman of St. Louis Cardinals, was found today to be suffering with acute appendicitis. He will probably undergo an operation immediately.

Dr. C. L. Palmer recommended that he undergo the operation here at once, but Musial insisted upon returning to St. Louis.

Set Kids on Crows

REGINA, May 9 (CP)—Crows and magpies have another hazard today with announcement of a bounty and contest for children who kill the maurauders with 10 top prizes of an air trip around Northern Saskatchewan.

AUSSIE WINS

SOUTHPORT, England, May 9 (AP)—Norman Von Nida, who plays golf in his native Australia during the Souther Hemisphere Summer and then tours the English Summer circuit, won the Dunlop-Southport professional golf tournament today with a 285.

DETROIT, May 9 (AP)—Michigan's Upper Peninsula will put in a bid for the Winter portion of the 1952 Olympic Games when Detroit submits an invitation for the competition June 14.

Detroit's bid will be made at the same time at a meeting of the Olympic Committee at Stockholm, Sweden.

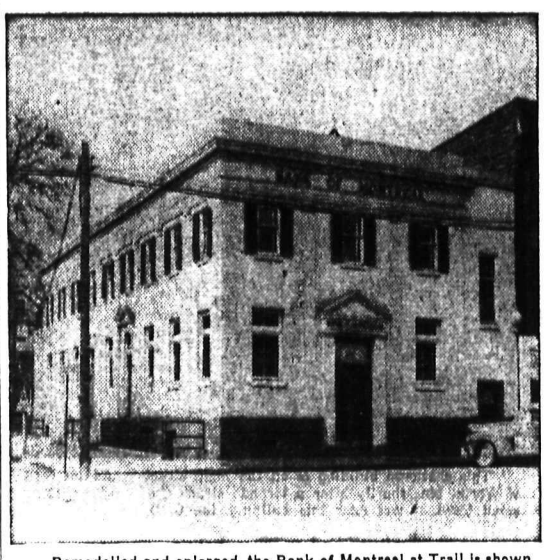
2000 Square Feet of Space Gained In Renovation of Bank at Trail

TRAIL, B. C., May 9—Some 2000 additional square feet of space is afforded in the banking room and basement of the renovated Bank of Montreal building here. Alterations have been under way for the past year and are now complete.

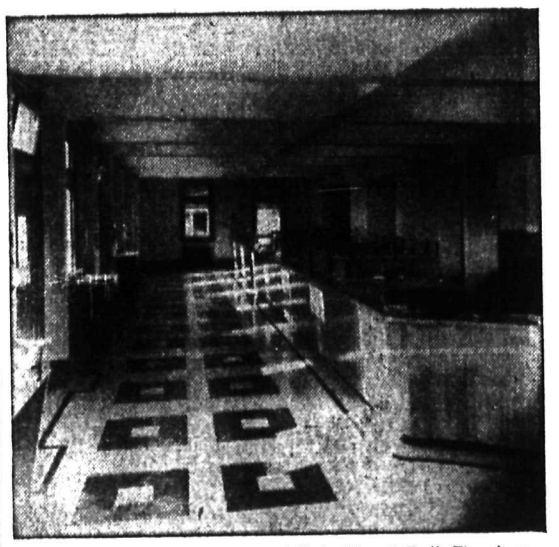
Hubert Radcliffe, Manager, expects to have a number of Bank of Montreal executives from Vancouver Saturday for inspection and official opening of the remodelled quarters.

A new low-type counter line has been installed and light oak furniture replaces the old fittings. Modern in every detail, with new lighting and heating equipment, the branch is later to be equipped with an up-to-date air conditioning unit.

The removal of the columns that stood in the centre of the banking room, and the laying of the rubber tile floor have contributed to giving the bank a pleasant, bright appearance.



Remodelled and enlarged, the Bank of Montreal at Trail is shown above as it now appears. The operations, which have been proceeding at the branch for the past year, are now completed. The alterations are designed to provide a more modern office and pleasant surroundings for customers and staff.



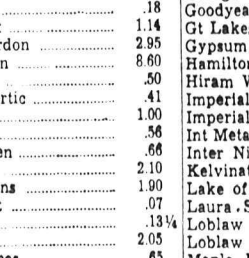
The Bank of Montreal's remodelled office at Trail. The above reproduction shows the interior of the enlarged branch, with its modern fittings and lighting equipment.

Trail Residents

A Warm WELCOME *now awaits you*

at our remodelled office

at the Corner of Bay Ave. & Helena St.



. . . we'd like you to drop in and inspect our remodelled premises.

Yes, at last, the dust and dirt have disappeared . . . the merry ring of hammers and the cheerful churning of the cement mixer are no longer heard. We realize how inconvenient you have found it to bank with us during the period of alterations — and we would like to express our appreciation for your patience and never-failing good humour during these months of change.

Now that the work is complete we think you will find a real satisfaction banking in our modern quarters.

Here, in Trail, as in hundreds of towns and cities, large and small, across the Dominion, our aim is to provide you with the same helpful banking service that we have been giving Canadians for the past 129 years.

"MY BANK" TO A MILLION CANADIANS

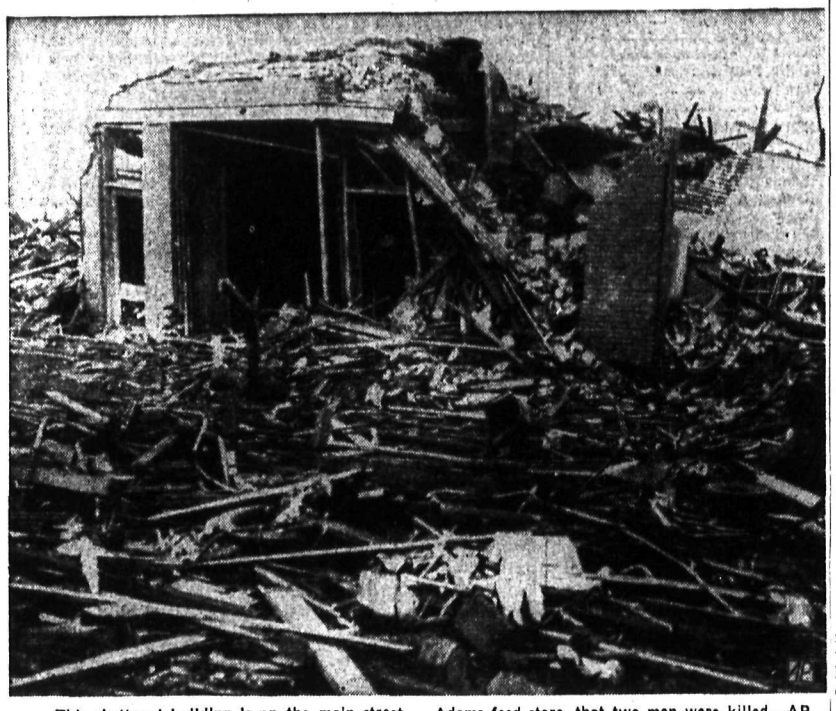
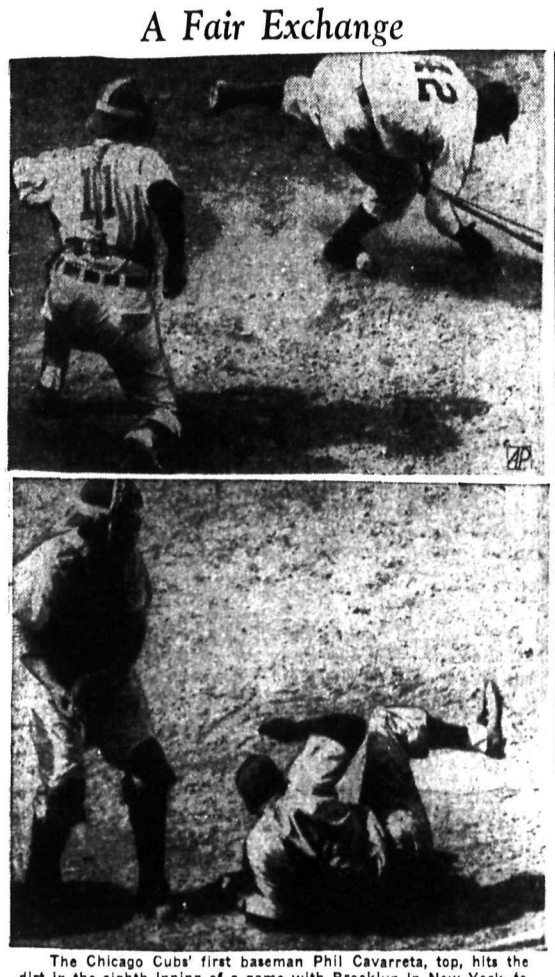
TODAY'S News Pictures

Missouri Town Hit by Tornado



This shattered building is on the main street of Worth, Mo., shortly after a tornado struck the small town. It was near this building, the C. B. Adams feed store, that two men were killed.—AP wirephoto.

A Fair Exchange



The Chicago Cubs' first baseman Phil Cavarreta, top, hits the dirt in the eighth inning of a game with Brooklyn in New York, to dodge a close pitch by Dodger Hurler Joe Hatten. Catcher Bruce Edwards holds the ball. Jackie Robinson, below, Dodger first baseman, goes down after he is hit by one of Cub Pitcher Paul Erickson's tosses. The Brooklyns won, 10 to 6.—AP wirephoto.

Love Prisoner

Margaret Brooks, 17, sits in jail at New Rochelle, N.Y., charged with being a wayward minor by Detective Louis Benedetto who arrested her as she stepped from a plane at the Newark, N.J., airport toward the arms of a man Benedetto identified as John Hoffman, 28, of New Rochelle. The girl arrested at the request of her father, intended the flight from California to end in marriage, Benedetto said.—AP wirephoto.

Vancouver's Musical Barber to Tour Prairies; Rehearsed With Kids

VANCOUVER, (CP) — Vancouver is losing one of its more colorful citizens and a landmark in Carrall Street will soon be just a place to get a haircut.

For Alexander Boytzun — entertainer, wrestler, musician, magician and barber—is leaving his barber shop. Come spring, Boytzun will go on a two-year concert tour of Alberta and Saskatchewan, alternately performing on his violin and mystifying the audience with his magician's art.

But the customers who came in, not only to get the "works" but to hear Boytzun discuss music, or wrestling or the art of legerdemain will miss their versatile friend.

They remember how Boytzun, using one of his barber chairs for a podium, rehearsed a group of youthful musicians, directing them through the intricacies of the most difficult classics.

The rehearsals took place usually on Wednesday afternoon when the barber shop was closed to the public. This young musical group the average age was 12—later became well known as the Ukrainian ensemble.

Though Boytzun is a magician of some note and a one-time Canadian middleweight wrestling champion, he gets more pleasure from remembering that he was once a member of the Vancouver symphony.

His cherished violin—which he hopes is a 1726 Stradivarius—was given to him by an 80-year-old woman, who had been impressed by the work he was doing teaching young boys and girls to appreciate and play good music.

If you question the authenticity of his "1726 Stradivarius," he will probably say: "Once I went to see Yehudi Menuhin when he was playing at one of the local theatres. I was with him for about an hour. I played on his violin. He played on mine. He had this to say of my Stradivarius:"

"'Boytzun,' he said, 'what does it matter if it is really a Stradivarius that you have here. You have a beautiful instrument. It has everything.'"

"That is the way I feel about it myself. Would knowing for certain that it was genuine give it a more beautiful tone?"

Boytzun satisfied his early ambition to be a musician by practising surreptitiously on his brother's $2.50 violin. After learning to play by ear, his talent was discovered and he graduated to his own violin and proper lessons.

Marian Martin

COAT OF THE YEAR

It's the Coat of the Season! The reason? Pattern 9452 sews easily—whether it flaunts a jaunty flare or has a drawstring waistline. Everyone wants it, anyone can make it!

This pattern gives perfect fit, is easy to use. Complete, illustrated Sew Chart shows you every step.

Pattern 9452 comes in sizes 12, 14, 16, 18, 20; 30, 32, 34, 36, 38, 40, 42. Size 16, shortie, 2⅝ yds. 54-in.

Send TWENTY-FIVE CENTS in coins (stamps cannot be accepted) for this pattern to Nelson Daily News, Needlecraft Dept., 266 Baker St., Nelson, B. C. Print plainly PATTERN NUMBER, your NAME and ADDRESS.

Laura Wheeler

PUBLIC NOTICE

GOVERNMENT LIQUOR ACT

NOTICE OF APPLICATION FOR CONSENT TO TRANSFER OF BEER LICENCE

Notice is hereby given that, on the 13th day of May next, the undersigned intends to apply to the Liquor Control Board for consent to transfer of Beer Licence Number 7621 and issued in respect of premises being part of a building known as the New Grand Hotel, at Nelson, British Columbia, upon the lands described as Lots 5 and 6 and Parcel "A", of Lot 4, Block 2, Nelson City Official Plan, Nelson Land Registration District, in the Province of British Columbia, from Peter Kapak and Lena Kapak to Samuel Peter Soloway, of the said City of Nelson, the transferee.

Dated at Nelson, B. C., this 12th day of April, 1947.

SAMUEL PETER SOLOWAY
Applicant and Transferee.

LAND REGISTRY ACT
(Section 160)

IN THE MATTER OF That part of Lot 385, Kootenay District described D.D. 23787-I.

Proof having been filed in my office of the loss of Certificate of Title *No. 3090-A to the above mentioned* lands in the name of James Sutherland Chisholm Fraser and bearing date the 18-1-1904. I HEREBY GIVE NOTICE of my intention at the expiration of one calendar month from the first publication hereof to issue Provisional Certificate of Title in lieu of such lost Certificate. Any person having any information with reference to such lost Certificate of Title is requested to communicate with the undersigned.

DATED AT NELSON, B. C., this 9th day of April, 1947.

A. W. IDIENS,
Registrar.

Date of first publication, April 12, 1947.

NOTICE

Wanted—Sealed *tenders for the* purchase of Block 50, Plan 650, Castlegar, B. C. Save and except North corner and West corner, and containing approximately 9 acres.

Tenders to be in the hands of the Secretary, Castlegar School District No. 9, on or before 6:00 p.m. May 20th, 1947.

Highest or lowest tenders not necessarily accepted.

C. H. KING.
Sec.-Treas.

Market Trends

NEW YORK, May 9 (AP)—Assorted stock market leaders managed to edge forward although the losing ranks were widely populated.

TORONTO, May 9 (CP)—Industrials *turned irregular while golds* and base metals were off and Western oils ahead. Trading generally was dull, with volume substantially *below yesterday at about 800,000* shares.

MONTREAL, May 9 (CP)—There *was no definite* trading direction in dull dealings. Adjustments ranged from fractions to more than a point, but volume was light and trading mainly selective.

LONDON, May 9 (Reuters) — A small improvement was noted in closing dealings after stocks had eased back on profit taking, but the late firmness did not bring about much expansion in volume.

Calgary Livestock

CALGARY, May 9 (CP)—Practically no fresh cattle on offer; these being cleaned up at steady prices. Good to choice butcher steers and heifers a shade firmer for the week.

Thursday's receipts: 230 cattle, 11 calves, 636 hogs, 22 sheep. This morning 13 cattle, 11 hogs.

Hogs sold Thursday at $20.25 for A's at yards and plants. Sows $13.25 live weight.

Good to choice butcher steers 14.50-15.25; common to medium 11.50-14.00. Good to choice butcher heifers 13.50-14.75; *common to medium* 10.50-13.25.

Good to choice fed calves 14.25-15.00. Good cows 10.50-11.00. Canners *and cutters* 6.00-8.00.

Good bulls 10.50-11.50. Good to choice veal calves 13.00-14.00.

Good stocker and feeder steers 12.00-12.50.

Good lambs 13.25. Good ewes 7.00-7.25.

NEW YORK, May 9 (CP)— The Canadian dollar was up ⅛ at a discount of 8⅛ per cent in terms of United States funds. The pound sterling was unchanged at $4.02¾.

Still Unsafe On Atomic Target Ships

WASHINGTON, MAY 9 (AP) — Ten months after the Bikini atom bombs *tests the target ships still* are "unsafe for permanent occupancy."

The United States navy so reported today in announcing that most of the big vessels which survived the twin blasts last year will be towed without crews to Hawaii and the west coast this Summer for study.

Official emphasized, however, the heavy radioactive contamination will not endanger the populations of either Pearl Harbor, San Francisco or Bremerton, Wash., where the studies will be carried on.

They are part of the Navy's intensive research program which already has resulted in drastic changes in ship resign thories.

A battleship, a cruiser, two submarines and two transport already have made the long voyage from Kwajalein in the Central Pacific where *the target ships have been* anchored since last fall.

The announcement said the decontamination study is one of the navy's most important projects in preparing against atomic warfare.

"Until these radioactive materials are removed by means of decontamination methods, the ships will be unsafe for permanent occupancy," the announcement said, "but personnel can work on board them and stay for a limited period provided certain special safety precautions . . . are followed."

The lingering radioactive effects of atomic bombs has forced a complete revision by the navy in ship design, navigation and fighting ideas.

The target ship top structures were *badly battered. Also* the spray of radioactive water which may be expected to follow an atom bomb burst means exposed gun positions, lookouts and navigation bridges must go.

Complete air conditioning and a complicated system of filters in the ventilators will protect crews from radioactive air and sea water, the planners believe.

All these changes add up to a ship shaped like a big submarine, but staying on the surface.

OUT TO ROUT MACKENZIE KING

VANCOUVER, May 9 (CP) — The sphere of operations of Vancouver's one-man New Democracy Party is going to be shifted shortly to Halifax.

W. R. Smith, Party leader, organizer, and perennial candidate in elections of all kinds here for the past few years, has announced his intention of contesting the Federal byelection in Halifax in July.

"The Democratic Party is the only answer to the economic crisis that is arising in Canada," he said, "I am *out to rout Mackenzie King.*"

Mr. Smith, a native son of Halifax who came West in 1910 to become a building contractor, said he would take all his party headquarters paraphernalia in his car, which had been overhauled to make the trip back to the Maritimes.

"The only thing I fear," he said confidently, "is that I will be elected in Halifax and have to stay there."

Parents, Teachers From Washington, B.C. To Gather Here for Border Conference; Many Noted Speakers

With "Education for Living" the theme of the Eastern Border Conference, Parent-Teacher Association members from British Columbia and Washington will gather in Nelson May 16 and 17 to hear speakers from both the P. T. A. and the Washington Congress of Parents and Teachers. A. Foster, Nelson President, will be Chairman.

H. L. Campbell, Assistant Superintendent of Education and Chief Inspector of Schools will give the keynote address Friday morning after greetings have been extended by Mayor T. H. Waters, F. A. Jewett, Schools Inspector, E. E. Hopwood, Chairman, Nelson School Board, Mrs. M. D. Kennedy, Washington Congress and Mrs. C. W. Mellish, B. C. Parent-Teacher Federation.

Mrs. Kennedy and Mrs. Mellish will later speak on "What Does P. T. A. Stand For."

During the afternoon session Friday, Mrs. R. Breshears, Vice-President of the Washington Congress will be Chairman, while Professor F. Argue, Department of Education, U. B. C., will speak on "The Layman's Role in Public Education." A luncheon in the hall of St. Paul's United Church will open the meeting.

Under the direction of two chairmen, President-elect of the Congress and Mrs. C. G. McCall, Corresponding Secretary for the B. C. Parent-Teachers, an "Information Please" on P. T. A. procedure will be conducted.

A conference dinner in the hall of Trinity United Church, highlighted by an address by Rev. W. J. Silverwood on "A Minister Looks on Life" is planned to conclude the day.

Fifteen minutes of music, followed with a talk by Mrs. Pearl Wanamaker, Superintendent of Public Instruction for Washington, and President of the National Education Association, on "P.T.A. — A Link in World Understanding," are the opening features Saturday morning.

"Small Fry," a Washington National Film Board showing, and a discussion on family life will close the Conference at noon.

A luncheon and a social event are also planned.

Building Costs, Rentals Reduce Building of Homes in Canada

By The Canadian Press

A Coast-to-Coast survey by the Canadian Press today showed a sharp decline in building of homes, coincident with an upsurge of building activity, in the commercial and industrial classes.

Various reasons, chiefly the high cost of building materials and reluctance to build at prevailing rentals, were advanced. There appeared to be no regional pattern in the figures collected in the survey but a marked contrast between home building and construction of non-residential structure was evident throughout.

In such widely separated cities as Kitchener and Regina the number of building permits issued for homes in the first four months of 1947 was less than one-third of the number issued in the same period last year. Issuance of permits dropped in Kitchener from 105 to 33 and in Regina from 258 to 66. Industrial building in Kitchener, valued at $83,380 in the first four months of 1945, more than doubled to this year's $173,218, and in Regina increased from $440,658 to $816,750.

These figures were the extremes, with the other cities showing the same trend.

W. D. Hurst, Winnipeg's city engineer and building commissioner, told the Canadian Press that investors are reluctant to build for rental because rents are frozen. Mr. Hurst said that housing now is priced out of the reach of most people.

Housing Enterprises Limited at Montreal announced a few days ago it might have to abandon its project for construction of 1100 houses for veterans on recently acquired suburban property if building costs continue their upward trend.

Officials of a theatre corporation in Regina which has deferred building of a $300,000 theatre in that city give as their reasons scarcity of materials and labor and a "tendency towards much higher building costs than elsewhere in Canada."

The sponge was once believed to be a combination of both plant and animal.

Canadian Pucksters Like Wembley Where Dinner Served During Game

By JACK SULLIVAN
Canadian Press Staff Writer

LONDON, May 9 (CP)—Ottawa All-Stars, although defeated 4-3 in their first hockey game on British soil, are the hit of the town.

The Canadian club, coached by Ottawa's likeable Jack Wilkinson, pre-war favorite of English fans, was "fighting mad" after the loss to a Wembley team Wednesday, but the blow was softened by British hospitality. They have so many social engagements that a few of the Ottawa players are wondering if they are over here to play hockey or sip tea.

Wilkinson is shaping up as a goodwill ambassador for Canada. Old-time fans remember his bone-crushing bodychecks and as a result invitations for Wilkinson and his players to attend various functions are pouring in so fast he's thinking of plugging his hotel telephone.

"The boys will be getting down to the real thing tomorrow," said Wilkinson. "They missed six hours' sleep on the plane coming over, five of them were on their first air trip and were pretty nervous, and none had ever played before in an arena with the sun pouring in through a glass-topped roof."

Wilkinson promised that the team will be a "different bunch" in its next game May 17.

The players agreed that Wembley Arena had the best ice they had ever seen and that it was the "nicest" rink in which they had played. They were impressed with one section given over to flower-decked restaurant tables whence spectators follow play during dinner and where a 14-piece orchestra entertains between periods.

The team is scheduled to return to Canada at the end of June, but if differences between hockey governing bodies for Britain and Scotland are ironed out they will go to Scotland to play games at Ayr.

The mountain goat is not a goat but an antelope.

Wolves are believed to have disappeared from England before Tudor times.
