Russ Planes Aid Mongol Attack

Sinkiang Province Invaded After Warning to Free Troops Seized by Chinese Patrols; Civilians Strafed

By HAROLD K. MILKS

NANKING, June 11 (Wednesday) (AP)—Outer Mongolian troops with air support attacked the Sinkiang Province town of Peitashan last Friday in a dispute with the Chinese over the release of eight Mongolian soldiers seized by a Chinese patrol in previous border clashes, authoritative sources said today.

Two Chinese soldiers were reported killed and others injured in the assault, news of which was held up by Chinese censorship until today.

Reliable sources said the Mongolian commander attacked Peitashan after the expiration of a 48-hour ultimatum in which the Sinkiang Chinese were warned that force would be used unless the soldiers were released promptly.

Information from Tihwa, Sinkiang capital, said the Chinese garrison commander had ordered the Mongolians freed prior to the attack but that his instructions had failed to reach Peitashan ahead of the assault.

The Government-sponsored Chinese Central News Agency said earlier that four Russian planes supported the Soviet-dominated Mongolians "strafing troops and civilians" during a 20-mile penetration of Northwestern Sinkiang.

Nanking long has been hesitant to permit publication of reports critical of the Russians, with whom *it is negotiating to take over* administration of the treaty ports, Dairen and Port Arthur in Manchuria.

RUSS FRIENDSHIP SAID HUNGARY'S FIRST DESIRE

BUDAPEST, June 10 (AP) — Premier Lajos Dinnyes, personally chosen for his position by Soviet Lt.-Gen. V. P. Sviridov, announced today that "anti-democratic" elements would be purged from the Hungarian army, 80 per cent of whose officers, he said, have "fled to the West."

"First of all," he declared in a 75-minute address to the Hungarian National Assembly, Hungary wished to maintain friendship with "the Great Soviet Union."

Minister Meets Mining Men Here In Informal Talk

Hon. R. C MacDonald, B.C. Minister of Mines, Tuesday night met members of the Chamber of Mines of Eastern British Columbia informally at the Hume.

The Minister is making his annual tour of inspection of the district *in regard to mine rescue* competitions.

Earlier Tuesday a meeting was planned but it was decided to meet the minister at his hotel. It is possible that Mr. MacDonald will address a general meeting of the Nelson Board of Trade and the Chamber of Mines Wednesday night.

Mr. MacDonald said that prospecting and mining were on the increase throughout the province. He pointed out that labor conditions had improved from last year, especially in the Kootenays. Of the increase in operations in the Slocan silver belt Mr. MacDonald commented: "very justifiable."

From Nelson the minister will travel to Fernie, and Michel-Natal.

Mr. MacDonald was accompanied by H. C. Hughes, former mines *Inspector of Nelson, who was transferred to Victoria from here.*

Warns Against Gold Hoarding

OTTAWA, June 10 (CP)—Finance Minister Abbott in the Commons today issued a blunt warning to Canadian mining companies that the Government had power to force delivery of their gold to the Bank of Canada under heavy penalty but said he planned no immediate action with regard to McIntyre-Porcupine Mines, Ltd., which recently announced it was storing $5,900,000 of its gold.

The Finance Minister said companies could be forced to deliver their gold at a loss of more than $15 an ounce on the current price if compulsion was necessary and said he hoped there would be no continuance or extension of the practice of "hoarding" the precious metal.

STUDENT CONVICTED OF CAR THEFT

VANCOUVER, June 10 (CP) — Raymond Reid, 18-year-old student, was convicted on a charge of automobile theft here today after evidence disclosed that he had had two keys made for the car he allegedly stole. The youth was said to have kept the car in a garage he rented and had been driving it for 13 days. When recovered, the car bore license plates from another vehicle.

SEES SABOTAGE IN TIMING OF LOCKE NAMING

Time Sought to Educate Successor in Freight Rate Probe

"A DIRTY DEAL"

VANCOUVER, June 10 (CP) — W. F. McClintock, Chairman of the Transportation Bureau of the Canadian Manufacturers' Association, today issued a public statement asking the Transport Board to allow British Columbia an "extension of time to educate a successor" to C. H. Locke, lost as B.C. counsel through his appointment to the Supreme Court.

Mr. McClintock criticized the elevation of Mr. Locke to the Supreme Court *at this "crucial period"* in the freight rates probe and asked: 'Have you wondered why Ontario and Quebec have not taken any aggressive action against the railways' application?"

"Goods and foodstuffs made in Eastern Canada for sale in B.C. would have to stand this enormous increase. Yet Eastern interests are silent. It doesn't make sense, unless they know something we don't. What is it?

"STINKS"

"The Supreme Court had its vacancy *for 18 months. It doesn't* meet until next Autumn. Yet, on practically the eve of our opposition to the application, our legal representative, Mr. Locke, *is appointed* to the Court, leaving us high and dry.

"Call it what you like. Sabotage, double-crossing, jettisoning or anything.

"The whole thing stinks. That is not only my thought, but that of the ordinary man on the street. All quarters, except the railways, firmly admit that we have had a dirty deal."

Members of the Transport Board were expected to reach here Sunday night for hearing on the railways' application for the 30 per cent freight rate boost. The meetings are expected to last from June 16 to 20.

VICTORIA, June 10 (CP) — The legal firm of Locke, Lane, Guild & Sheppard will present British Columbia's case before the Board of Transport Commissioners at freight rate hearings in Vancouver next week. The work will be directed by C. K Guild, K.C., it was announced by Premier John Hart, today.

C. H. Locke, K.C., has relinquished his present connection with the case *as a result of his appointment to the* Supreme Court of Canada.

Associated with Mr. Guild in the presentation of British Columbia's *case will be Mr. C. W. Brazier, who* has been assisting Mr. Locke.

VANCOUVER, June 10 (CP) — Reginald T. Rose, Executive Secretary of the Vancouver Board of Trade, said today that hearings into the Canadian railways' application for a 30 per cent freight rate increase would be held here June 16 to 20.

Four members of the Board of Transport Commissioners and a *party of more than 30 railway and* provincial lawyers, experts and observers, will arrive in Vancouver during the weekend.

Donald Symmods Driver of Accident Car

Donald Symmonds was the driver of the car which went off the highway about 1½ miles West of Taghum last Friday, when three persons were seriously injured.

Previously it had been reported that Ralph Symmonds, a brother, was the driver. The Nelson Daily News apologies for this error and regrets and inconvenience caused as a result of the erroneous report.

The Symmonds brothers and Mrs. Mary Fitchett are still in Kootenay Lake General Hospital. They were injured when the car went down the bank for 85 feet after the driver swerved to avoid a boulder lying on the road. Their conditions were *reported Tuesday to be "steadily* improving."

RISING COSTS FORCE DRAW ON TREASURY

Another $2,650,000 Taken From B.C.'s Reserve

SPENDING PLAN

VICTORIA, June 10 (CP)—Rising costs were reported here today to be forcing "almost daily" drawing on the Provincial Treasury by a government striving to maintain a balance by dipping into reserves.

With the approval of the Legislature, the government appropriated $18,680,000, thinking that would be plenty for this year. In the two months since the legislature prorogued, it has committed itself to extract another $2,650,000, all to meet swollen costs for which budget provision could not be made. The additional appropriation brings the total to $21,330,000, or approximately the entire amount in the Treasury reserve before the last session.

However, not all on it will be spent this year, $5,000,000 being for *a three-year capital works program.* Budget surpluses anticipated for the next three years were being relied upon to maintain the reserve.

During the war when revenues were high with little in the line of capital works on which the province was permitted to spend its money, the revenue surplus account grew fatter yearly. It was allowed to accumulate by a cautious administration which knew it would be needed for post-war reconstruction and public investment.

Here is the way the major drawings are to be spent:

Under the Revenue Surplus Appropriation Act of this year:

1. $15,000,000 for a three-year program of construction and reconstruction of highways, bridges and ferries.

2. $2,680,000 in grants to municipalities as a result of agreed cancelation by the Dominion Government of part of British Columbia's long-standing relief debt. These payments will be made to municipalities as soon as Commons ratifies the agreement negotiated in Ottawa by Premier John Hart.

3. $1,000,000 (approximately) for old age pensioners under the provincial government's order granting a second $5 bonus.

Expenditures from surplus not provided for by legislation:

1. $2,150,000 (approximately) for additional payments to seven contractors on long-term highway projects to compensate them for unexpected labor and material costs resulting from provincial labor organization in 1946 and Dominion price orders.

2. $300,000 in tax relief to farmers to offset hardships caused by the new system on school financing. This plan, announced by Premier Hart last week, will not involve drawings on the surplus account as it stood at April 1, but will cut into this year's revenue and lower the expected surplus.

3. $200,000 for the province's quarter share of the $5-a-month boost in old age pensions, retroactive to May 1, *expected to be passed this session* by the Commons.

In addition, cost of pensions will be substantially increased as a result of new regulations recently gazetted which, while not increasing the amount of the pension, allow for it being granted to a much larger number of senior citizens, and wipe out many deductions previously made.

In his budget speech to the House in March, Finance Minister Anscomb did not disclose the total in the revenue surplus account. At March 31, 1946, it was $20,090,000, and appropriation from it approved by the legislature last year totalled $5,650,000, more than offset by an estimated $6,000,000 or $7,000,000 surplus from the succeeding year's operations.

So that the surplus fund when the *current fiscal year began must have* stood around $22,000,000, which sounds a lot, but dwindles in the light of recent commitments.

Favors Federal Control of Airport

VANCOUVER, June 10 (CP) — Mayor G. G. McGeer indicated today that he *favored the Federal* Government retaining control of the airport here so long as this city got back its $1,100,000 "investment"; the Government made a "substantial contribution" toward building a high-level bridge to connect the airport with downtown Vancouver and provided funds to equip the airport with modern facilities.

Final decision as to the control of the airport is expected to be made during Reconstruction Minister Howe's visit here after the House of Commons adjourns.

Woman Mariner Likes First Trip

VANCOUVER, June 10 (CP) — Tall, brunette Guadalupe Barreiro, only woman mariner of the Phillipine Republic, arrived here today aboard the freighter M. S. Nonsuco.

She is the Nonsuco's purser, and only female crew member. It was her first trip to sea, but she said she found life so pleasant that she may make seafaring her career.

Flashing-eyed Miss Barreiro is a graduate in commerce of the University of Santo Tomas at Manila and before donning a purser's cap *was Secretary to the President of* an air transport line.

Winnie Third on U.S. Pinup Boy List

NEW YORK, June 10 (CP) — Winston Churchill, former Prime Minister of Britain, rates third behind *Gen. MacArthur and Gen.* Eisenhower on a list of the 10 persons most popular with the people of the United States, Look Magazine *said today in disclosing the result* of a poll.

FRANCE TENSE AS GOVT, LABOR CLASH

Negotiations Fail; Ramadier Reiterates Stand

Union Challenged

PARIS, June 10 (CP) — The ominous rumblings of a threatened country-wide strike of French workers *deepened tonight as a* meeting between the French Government, the General Confederation of Labor and Union leaders of striking *railroadmen broke up without* reaching agreement.

"Negotiations have been broken off," a member of the Executive Committee of the G.C.L. said after a three-hour meeting with Premier Paul Ramadier, Jules Moch, Transport Minister; Daniel Mayer, Labor Minister; and Pierre Henri Teitgen, Vice-President of the Republic.

The meeting followed Ramadier's statement to the French National Assembly that he would not negotiate under the threat of strikes in public services and had reiterated the Government's determination to "maintain its authority."

SHUTDOWNS SPREAD

Tension was high as events reached a climax in Ramadier's wage and prices hold down battle against labor unrest this last month during which he had openely accused Communists, whose party leaders were ejected from the Cabinet over the issue last May 4, of "fomenting" strikes.

Ramadier earlier today had challenged the Feneral Confederation of Labor to come out in the open and state its position in regard to the railway strike and a mushrooming shutdown of gas and public utility plants that spread across the country like creeping paralysis.

The Government and Unions representing light, power and gas plant workers reached an agreement, however, at a night session on wage demands which threatened to shut down the country's utilities.

Vets Balk At Rent Boost

VANCOUVER, June 10 (CP) — The first large-scale rent strike in the history of Vancouver loomed here today with the announcement that veterans and their families living in the old Hotel Vancouver refused to pay a 10 per cent rental increase.

Previously it had been announced that the tenants would absorb the boost, imposed by the Citizens' Rehabilitation Council which runs the hostel, but today, Peter Canavan, Tenants Committee Secretary, said that 75 per cent of the 1200 families had signed a pledge refusing to pay the sum.

However, evidence that the veterans still were paying their rents came from Hon. H. H. Stevens, President of the Council.

"Up to Monday there were practically no arrears," Mr. Stevens said. "There are a few who have paid *something on account, but that is* not unusual."

F. C. Pauline, Hostel Manager, said the matter was "minor—created by a small group."

RUN ON JAM, BUTTER, BUT SUPPLY GOOD

Butter Price Up More Than Cent A Pound at Coast

ABBOTT WIRED

Rumors throughout Nelson Tuesday that butter, jam and other foodstuffs removed from the ration list Monday, were "cleared out" of stores, were groundless, a survey of dealers revealed Tuesday night.

While not all stores were checked, a representative group reported that while there had been a heavy demand for jams, and a fair call for butter, supplies were far from low. In fact, some dealers said they had "more butter than ever." Jam, however, was not as plentiful.

One groceryman said that his customers kept their butter purchases to the "usual pound or two" after he assured them he expected no increase in price. Other dealers also said that the thought of a price increase in butter apparently sent many to stores for extra butter.

The run on jam was expected, another storekeeper said, yet more orderly than he had expected.

VANCOUVER, June 10 (CP) — The price of butter was advanced more than one cent a pound today by some wholesalers here following lifting of price controls.

The action was taken after reports of similar steps on the Prairies became known.

"It didn't take them long to put their prices up after the order came out," one wholesaler said. He didn't know what action retailers would take.

Mrs. Mona Morgan, head of the Vancouver Housewives Consumers' Association, today announced that a telegram had been sent to Finance *Minister Abbott asking him to re*consider his action.

"High priced foods mean less and cheaper food in the home, therefore *causing a decrease in vitamins and* lowering of health standards," said the telegram.

Mrs. Morgan said that Mrs. Dorothy Richardson, Secretary of the Housewives group, and William White, President of the Vancouver Labor Council, will go to Ottawa when some 100 delegates from all over the Dominion gather to protest to the government over rising cost-of-living.

Immediate effect on other items decontrolled, was not known, but a slight price hike was foreseen. However, it is felt that prices will level off as soon as the initial spree is over.

NOVA SCOTIA MINERS TO GO BACK TO WORK

GLACE BAY, N.S., June 10 (CP) — The prolonged coal strike *in Nova Scotia pits was called to* an end tonight by President Freeman Jenkins of United Mine Workers (C.C.L.) District 26, who *said that 12,000 Union members* would be ready "to return to work Thursday or whenever the colleries are ready for operation."

He made the announcement after a series of conferences between mining heads of Dominion Steel and Coal Corporation and the Union's District Executive Board.

Okay Move to End U. S. Sugar Rationing

WASHINGTON, June 10 (AP) — The House Banking Committee approved today a measure to end sugar rationing for home consumption.

Chairman Wolcott (R-Mich) said that the decision was by an "overwhelming" vote although not unanimous.

JINNAH LIKELY HEAD FOR MOSLEM NATION

Lahore Favored as Pakistan Capital; Rioting Renewed

RAIDERS SOUGHT

NEW DELHI, June 10 (CP) — Observers reported tonight that Lahore, scene of fierce communal rioting in past months, probably *would become the capital of the* new Moslem nation of Pakistan, and that Mohammed Ali Jinnah, Moslem League President, would *almost certainly head the country's Government.*

The Working Committee of the Moslem League was called into session by Jinnah to select the site of the new capital but postponed decision today.

Most persons agree that Lahore, capital of the Punjab, had the best chance because of its central location in what will become the major part of Pakistan — Northwestern India.

NEW BLOODSHED

As Jinnah went ahead with his momentous work there were rapid developments in the Indian scene including renewed communal violence. A dispatch to the Indian News *Chronicle said* 32 persons were killed in a riot in Central United Provinces. One person was killed and six others injured in a bomb *explosion in Lahore, and a garden*er was fatally stabbed in the famous Lawrence Gardens of that city.

Allama Mashriqi, leader of the Khaksars (Moslem *semi-military* organization standing for a united India), was reported missing from his home in old Delhi. Armed with rifles, fixed bayonets and tear gas shells, police carried out a house-to-house search for Mashriqi and the Khaksars who Monday stormed the Hotel Imperial where the Moslem League Council was in session. One Khaksar was reported to have threatened Jinnah's life during the disturbance.

Announcement that Field Marshal Viscount Montgomery, Chief of Imperial General Staff, would arrive in New Delhi June 23 for a two-day visit was seen by a pro-Congress Party paper as a *move to straighten out the com*plicated problems likely to arise if there is a division of the Indian Army when the partitioning plan *goes into effect.*

HYDERBAD, India, June 10 (Reuters) — The Government of *the Nizam of Hyderabad — reputed* to be the richest man in the world —was understood today to have decided to declare Hyderabad an independent state. Hyderabad, largest Inian state next to Kashmir, has a population of 18,000,000, mainly Hindu.

Recapture Soldier

VANCOUVER, June 10 (CP) — A two-day hunt for Pte R. C. Johnson of New Westminster, who escaped from the Sea Island detention camp Sunday, ended today with his capture at Ladner, B.C. He was taken into custody by Provincial Police.

Army authorities said he would be charged with theft of a pistol, breaking arrest and absence without leave. The pistol was loaded *with blank cartridges.*

C.P.A. Seeks Southern B.C. Airline Licence

Approval for Capilano Airways Service on Application Reported; Under C.P.A. Direction

OTTAWA, June 10 (CP)—An official of the Air Transport Board said tonight the Board would meet in Nelson, B.C., July 18 to consider an application from Canadian Pacific Airlines to operate a flying service from Vancouver through Southern British Columbia.

The official said he did not know the details of the application and whether the Eastern terminus of the proposed Southern British Columbia service would be at Calgary or Lethbridge, Alta.

VANCOUVER, June 10 (CP)—The Vancouver Province in a news*page story today said that Capilano Airways Ltd., would be granted a* license to operate a *flight* between Vancouver and Lethbridge.

The paper said that Reconstruction Minister Howe had announced that a license would be granted to the firm as soon as it was applied for.

Serving Penticton, Brilliant, Kimberley, Kamloops and Kelowna in British Columbia's Okanagan and Kootenay District, the service would operate in conjunction with Canadian Pacific Airlines and under C.P.A. direction, the story said.

Capilano Airways was formed by two R.C.A.F. veterans who have been negotiating an airmail contract. They planned to use two DC-4's carrying passengers and mail.

The story also said that the Air Transport Board would shortly hold a hearing at Nelson to hear any objections to the proposed air travel set up.

C.P.A. officials in Vancouver tonight said that they had no information regarding the proposed new air route.

Nelson welcomed the news that Capilano Airways, Ltd. likely would be granted a licence to operate a flight between Vancouver and Lethbridge. Acting Mayor T. D. Rosling stated that he greatly favored the Brilliant landing site as a convience to both Nelson and Trail. "I am thoroughly in favor of immediate air service," he said. Mayor T. H. Waters is in Vancouver.

Nelson Board of Trade President John Learmonth withheld comment pending a study of the announcement. It was recalled that the Board previously forwarded a resolution urging acceptance of the application to C. D. Howe, Minister of Transport.

C.P.R. officials here had no information on the matter.

FILES APPEAL ON MEDOS SENTENCE

VANCOUVER, June 10 (CP) — Counsel for Harry Medos, under sentence to hang July 30 for the murder of Constable Charles Boyes, slain in a bandit-police gun battle here Feb. 26, today filed notice of appeal and will seek a stay of execution.

B. M. Isman, Counsel for Medos, said that he would apply shortly to Mr. Justice A. M. Manson to set a new date for execution. He will also make application to transfer the appeal to the September sitting of the Appellate Court in Victoria as there is not sufficient time to prepare the case for the present *session.*

The appeal will be based on the grounds that the trial judge "wrongfully and unlawfully" admitted evidence, and that Medos was not given the benefit of a "reasonable doubt."

Ottawa Man Succeeds Wright As Chemical Head

BANFF, Alta., June 10 (CP) — Paul E. Gagnon, Governor of Laval University at Quebec, was elected President of the Chemical Institute of Canada at the annual meeting here today. He succeeds C. A. H. Wright.

T. W. Smith of Montreal was chosen Vice-President.

Delegates plan to leave by special train for an inspection of the Turner Valley oil field and then proceed to Trail, where they will visit the Consolidated Mining & Smelting Company's plant. Later they will go to the Pacific Coast, to see pulp and paper and mining plants.

SETBACKS ON TRANSPORT BILL

LONDON, June 10 (CP) — The Government today suffered three defeats in the House of Lords on one of its biggest nationalization measures, the Inland Transport Bill.

In the House of Commons, however, members voted 233 to 89 to approve the much-discussed tobacco *clause of the Government's Finance* Bill which raised tobacco taxes sharply. The bill boosts the cost of popular brand cigarets to three *shillings four pence (68 cents).*

Claims Settled

VANCOUVER, June 10 (CP) — Claims of Samuel E. Rose of Vancouver against Vancouver Exhibition Association have been settled for $4183, it was disclosed in Supreme Court today. Rose suffered a broken hip in Hastings Park in 1941 when he fell while approaching the race track.

Disguise Brings Fine

VANCOUVER, June 10 (CP) — A charge of "unlawfully wearing a disguise by night" against 43-year-old John Rockford of Vancouver was withdrawn in police court today for want of evidence.

Hams Want Towers

VANCOUVER, June 10 (CP) — "Ham" radio operators in Vancouver, now numbering about 350, today applied for relaxation of the Town Planning Commission's Zoning regulations to permit construction of a "few" 60-foot radio towers.

Office Staff at Work in Coast Laundry Strike

NANAIMO, June 10 (CP)—While 24 men and women pickets patrolled sidewalks in front of the large plate glass windows of the strike-bound Imperial Laundries here today, proprietors and office staff *could be seen working at various* types of machines.

(Also see page 2)

The strike began yesterday when 30 employees walked off the job in protest against dismissal of two women workers. It was seen as the *first test of B. C.'s new labor law* outlawing strikes without a government-sponsored vote, but Barrie Goult, chief executive officer of the *Labor Relations Board, said* the question of the legal status of the strike could not be decided until all details were known.

John and David Cook, proprietors, said that 20 persons were keeping essential work going at the laundry which included the laundering of a large quantity of "wet wash" which otherwise would spoil.

First labor comment on the walkout came from Nanaimo-Nanoose sub-local 1-80, I.W.A. which termed the laundry's actions as "direct employer interference in the affairs of trade union organization."

Await Ottawa Word To Size Up Jap Trade News

VANCOUVER, June 10 (CP) — News that the international trade door to Japan would be opened to private industry on a limited scale Aug. 15 met with a cautious reception here today.

The announcement was made in Washington by the War and State Departments.

"This may mean a lot for Van*couver and for Canada as a whole,"* one prominent export-import official said, "or it may mean very little."

R. M. Bryan, Board of Trade Foreign Trade Bureau Chairman, said there was a "certain amount of business" transacted between Japan and Canada now, but added: "It is all routed through the United States."

Before the war, Canada had a sizeable trade with the Orient out of Vancouver. Resumption of this trade would require the establish*ment of 400 private trade represen*tatives of Canadian firms in the commercial and industrial areas of Japan.

"Until an announcement is received from Ottawa stating the Government's policy we will not know our position," Mr. Bryan said.

SAYS GREEK COMMUNISTS SET FOR INVASION

ATHENS, June 10 (Reuters)—Constantin Tsaldaris, Greek Foreign Minister and Deputy Premier, *said tonight that "several* thousand irregulars massing on the Albanian, Yugoslav and Bulgarian frontiers are ready for invasion."

He described the situation as "serious" and said the irregulars were "Greek Communists" calling themselves *Greek "refugees."*

(See also story on page 3.)

Des Moines River Floods Ottumwa, Iowa

Flood waters of the Des Moines River sweep *through Ottumwa, Ia., even before the crest of the* flood has been reached. This is an air view of the intersection of Church and Davis Streets. Ottumwa *is a city of 32,000 population.*

Announce Dates for Koolaree; To Seek New Boats for Camp

With the camping season on the Kootenay's doorstep, sessions have been announced for boys and girls anticipating a holiday this Summer at Camp Koolaree, camping site eight miles East of Nelson.

The West Kootenay Religious Educational Council, sponsor of the inter-denominational camp for District youth, has plans for improving Camp Koolaree this year. Projects are being launched to secure suitable pleasure craft, including a boat with an outboard motor for crossing the Arm and smaller row boats to enable the boys and girls to ply the West Arm waters during their recreational time at the camp. It is also hoped that a sanitation system will be installed.

To avoid overcrowding, the number of entrants to each camp session has been limited to 70, hence application must be made early, it was pointed out. Sports, handicraft work, general camping activities, and periods for religious guidance conducted by ministers of the various Christian churches, are offered the youngsters.

In addition to a qualified director, the camp will be staffed by an experienced supervisor in first aid and life saving, a sports' director and group leaders.

Reduced travelling rates on the Canadian Pacific Railway will be available to campers 12 years and over going together at the same time, Rev. J. Rogers of Trail, Council Vice-President, has advised prospective entrants. Registrations may be placed with Floyd L. Irwin of Nelson, Business Manager, J. Bryden of Trail and C. Daly of Rossland. Nelson Chairman is Rev. G. G. McL. Boothroyd.

Camp dates follow:

Boys:

Senior camp — June 30 to July 10 (ages 13 and up).

Junior camp — July 10 to July 19 (ages 10 to 13). Director F. J. Robins.

Girls:

Intermediate camp — July 21 to July 30 (ages 12 and 13). Director Miss Frances Moran.

Senior camp — July 30 to August 9 (ages 14 and up). Director to be announced.

Should there be an overflow of entries for any one camp, a second camp may be held August 10 to 20.

More Nigerians Want Kootenay Pen Pals

Letters from pen pals in Lagos, Nigeria, have been scudding across the Atlantic to their destination in the Kootenays.

Recently the Daily News carried the names of three Nigerian youths who "wanted to correspond with pen pals of both sexes in Canada." At the turn of the year four other addresses were publicized and from the response it seems that a considerable colony of friends is being established in Nigeria by Kootenay pen pals for two more letters have been received from Lagos.

Their addresses follow: Sanni Kannike, 26 Odo Street, Obalende, Lagos, Nigeria, B.W.A., and Sumola Daudli, 40 Low Lane, Lagos, Nigeria, B.W.A.

Critics Wring Tears From Gloria Jean

LONDON, June 10 (AP)—Drama critics here made Gloria Jean cry today.

The 19-year-old Hollywood starlet made her British stage debut in International Variety at the London Casino last night, and the reviewers panned her because she sang "The Lord's Prayer."

Almost unanimously, they expressed the view that she shouldn't have sung anything at all, least of all a song which some of them said was in bad taste in a music hall atmosphere.

The former child star said she "cried all morning" over the clippings and thought the critics were beastly and unfair.

Miss Jean told reporters she would substitute another song.

Victoria Drill Team First on Portland Streets

PORTLAND, Ore., June 10 (AP).—The girls' drill team from Victoria, B.C., was the first organization to take to Portland streets today as the 39th annual Rose Festival began to get under way.

The drill team, a favorite here in past years, drew onlookers to the curbs as they marched through the business district to the City Hall Council Chambers where Mayor Earl Riley presented the key to the city.

Fink's Print Shop

Auction Collyer Relics

NEW YORK, June 10 (AP) — A typically bizarre assortment of the relics collected by the late Homer and Langley Collyer was sold under the auctioneer's hammer today to a 42nd Street "museum," which will feature the purchases along with such current attractions as a flea circus and a strong man's act.

The two-hour public sale disposed of a total of 150 lots, articles which were salvaged from the 136 tons of rubbish which the two brothers collected during half a century. The proceeds of the sale amounted to $1892.

Max Schaffer, whose "museum" depends upon curious sightseers for its trade, paid $300 for a catch-all collection which included a rocker crib, an ancient coffee grinder, an old school desk, two cornets and a bugle, and three rusty bayonets.

The recluse brothers died in the decaying brownstone family house on Upper Fifth Avenue. Langley was found dead there on April 8, his body buried under junk. Sixteen days earlier Homer's body had been found in the house.

Name Winners Of I.O.D.E. History Awards

Harry Clive, Junior Matriculation student, and Shirley McDonald, Senior Matriculation, were winners of the History awards given each year by Kokanee Chapter of the I.O.D.E., it was learned Tuesday at the monthly meeting. Mrs. George Lambert and Mrs. G. S. MacIntosh, Regent, will attend the graduation ceremonies at the High School Friday to present the awards.

There was considerable discussion on the making of beards for visitors during Jubilee Week, Aug. 3 to 9. The funds from the sale of facewear will go toward a float for the parade. Mrs. Lambert offered to act as Chairman.

Monthly parcels of food will be sent to families in Britain, it was decided. The parcels, which will contain both foodstuffs that are hard to obtain in England and ones which will supplement the strict ration, will be forwarded to the same persons each month. The organization will be given two names for their mailing list and may add another one later. A shipment of clothing, very likely the last, comprising 41 articles, had been sent to Vancouver from where it will be shipped to Britain.

The Chapter adjourned for its Summer session, and will re-convene in September.

Thousands in Gifts for Church

CALGARY, June 10 (CP)—One of the difficulties in the scarcity of ministers today is that there is a complete change in the whole business of life, Principal W. W. Bryden of Knox College told the Presbyterian General Assembly today.

"The whole matter of religion is a perplexity to them and there is almost a complete break-down in the Christian home. We can ill afford to stand still for a moment in regard to students for the ministry."

$40,000 BEQUEST

In presenting the report of the Board of Knox College, Prinicipal Bryden stated that a legacy of $40,000 had been received from the estate of the late Mrs. Catherine MacDonald. A further $50,000 will come from the estate of her daughter. A legacy of $4000 was received from the estate of the late Miss Christina Niven of Knox Church, Toronto.

BONUS

Professors and principals in Knox College and in Presbyterian College, Montreal, were granted a cost-of-living bonus of $20 a month by action of the General Assembly.

Rev. Donald Vance Wade, Minister of First Presbyterian Church, Verdun, Que., was appointed to the Chair of Philosophy of Religion and Christian Ethics in Knox College.

Publications Question Turned To Committee

CALGARY, June 10 (CP).—The General Assembly of the Presbyterian Church rejected today a plan to set up a board of publications and referred the whole question of publications to a consultative committee representing the various publishing boards of the Church.

No action was taken on the proposal that the Church should purchase Presbyterian Publications, which prints the Sunday School and Young Peoples' papers for the Church.

Rev. A. Neil Miller of Brampton, Ont., in recommending a board of publications, said "We are not concerned that the Church should go into the printing business, we are concerned that the Church should be a publisher."

Speaking for the Committee of the Presbyterian Record, Rev. Decourcy H. Rayner of Montreal pleaded for continuance of the official Church magazine under its own editor, and asked that Dr. John McNab be confirmed in this position, which he has filled for the last year. Dr. McNab was reappointed for another year.

It was agreed, in amendment to the Administrative Needs Committee proposal, to refer the whole matter to a committee that had been agreed upon in 1946, but not fully appointed.

M. W. M. S., the Board of Sabbath Schools and Young People's Societies Record Committee, the Board of Missions and the Secretary for Missionary Education will be represented on this Committee.

Rev. Mr. Miller was thanked, and will be given an honorarium, for his efficient work on the Administrative Needs Committee. His congregation at Brampton was thanked for permitting him to devote so much time to this special task. A message of appreciation was sent to Rev. Dr. Peter Dunn, Chairman of the Committee, now ill in Hamilton, Ont.

Not All Indian Reports Authentic

OTTAWA, June 10 (CP)—Thomas Reid (L., New Westminster) took exception today to a report appearing in the Vancouver Daily Province last week under the headline, "Squalor, Abject Poverty Found in Indian Shacks."

Speaking to the Joint Parliamentary Committee on Indian Affairs, Mr. Reid said "none of the conditions described in the story" were brought to his attention when he visited the region it outlined.

The story described alleged squalor and bad living conditions found among Indians at Chilliwack, B. C., by Gorg W. Fellowes, an English schoolteacher who worked there for a year.

Mr. Reid warned the Committee that newspapers and periodicals were quoting from the Committee's record of evidence without opportunity of rebuttal by members or departmental officials. Not all conditions described by various witnesses were authentic.

MINE OR NOT ABBOTT'S KEEPING MUM

OTTAWA, June 10 (CP) — Finance Minister Abbott isn't being drawn into any controversy over whether or not an oil well is a mine—not until he consults his experts, anyway.

In the Commons last night he was chided by A. L. Smith (PC-Calgary West) for a remark that a drilled oil well was not a mine. Mr. Smith, tongue in cheek, pointed out that oil is classified as a mineral which, though "it may be wrong in fact," was nevertheless the interpretation which the courts had given.

Smiling, Mr. Abbott said Mr. Smith might be "perfectly right."

"So far as I am aware," he added, "this is the first time the question was raised and I just gave my off-hand opinion. Perhaps an oil well is a mine."

Mr. Smith has argued in the Commons that oil wells should be classified as mines and eligible for the same income tax considerations.

Mr. Abbott's office today said the Calgary member and the Minister—good friends off the floor of the House—had been indulging in a little mutual rib-poking.

First Woman Heard By Transport Commissioners

By JOHN LEBLANC
Canadian Press Staff Writer

REGINA, June 10 (CP)—Diverse Saskatchewan interests appeared before a Board of Transport Commissioners today to contest increases in Canadian railway freight rates.

From spokesmen for the Province's farm women, its wholesale business and a big cooperative dealing in horses the Board heard that the rate hoists sought by the railways would have an inflationary effect generally and would strike harder at rail-dependent Saskatchewan more than at any other province. These submissions came as the Board sat here for the second day in its trans-Canada regional hearing on the railroads' application to rise freight rates by 30 per cent. The Regina sittings conclude tomorrow.

Today's session brought the first woman witness of the four-months-old rate case—Mrs. Mary C. Wade of Glenbush—representing the Saskatchewan Homemakers' Club who declared rate increases would reduce the standard of living on the farms of this Province. The clubs have a membership of 6500 women in rural Saskatchewan.

Cranbrook Man Found at Camp With Throat Cut

CRANBROOK, B.C. June 10 — A well known resident here for more than 40 years, Archie Elwell was found dead with his throat cut at the J.S.&B. lumber camp above Lamberton Saturday. It is believed to be suicide. He was 70 years old.

He was born and educated in England, and came to Canada soon after 1900 to live with his brother, the late Edward Elwell, who was one of the original partners in the Beale and Elwell business at Fort Steele and Cranbrook. He was a well known athlete as a young man, particularly in distance running.

During his long residence he has worked at various excavation and construction jobs, latterly for the city. At the time of his death he was timekeeper at the lumber camp. No relatives survive him in Canada, though it is believed he had relatives in England.

Toast and Tea

BY J. V. McAREE

From Amiel's Journal:—"Man defends himself as much as he can against truth, as a child does against a medicine, as a man of the Platomic cave does against the light. He does not willingly follow his path, for he has to be dragged along backward. The natural liking for the false has several causes; the inheritance of prejudices, which produced an unconscious habit, a slavery; the predominance of the imagination over the reason, which affects the understanding; the predominance of the will over the intelligence, which vitiates the character. A lively, disinterested persistent liking for the truth is extraordinary rare. Action and faith enslave though both of them in order not to be troubled or inconvenienced by reflection, criticism and doubt."

Conduct Last Rites for Mrs. Nelson

Mrs Marie Christina Nelson, who died here last Saturday, was laid at rest Tuesday afternoon. Funeral services were conducted from the Thompson Funeral Home, Rev. J. Hennig of St. John's Lutheran Church officiating.

"Nearer My God to Thee" was rendered by Mrs. J. Hennig and Miss Irma Arlt during the chapel services. Mrs. J. A. Fraser was organist.

The following friends acted as pallbearers: L. Carter, J. Chursinow, S. Catenacci, Harry Nelson, Carl Anderson and Allan Dunn.

Interment was in the Nelson Memorial Park.

Cranbrook Couple Wed

CRANBROOK, B.C. June 10—Of wide interest was the marriage at St. Mary's Rectory Saturday of Julia, only daughter of Mrs. Frank Provenzano and Gerald Armstrong, older son of Mr. and Mrs. Noble Armstrong of Chilliwack.

Armstrong of Chilliwack. The bride wire a classic gown of ivory satin and veil. He attendant was Mrs. Floyd Lauchlin while Peter Lazaruk of Revelstoke was grooms main. Only immediate relatives attended the ceremony.

More than 150 guests attended the afternoon reception in the Knights of Pythias Hall, with the Canadian Daughters in charge of serving the luncheon. Assisting the bride and groom in receiving were Mrs. Provenzano and Mr. and Mrs. Armstrong. The bride and groom left by car on a three weeks' wedding trip to Banff, Waterton, and Vancouver Island and on their return will live at the Venezia Hotel.

The bride was born here and attended Cranbrook schools. She has been with the Trading Company staff for the past several months.

The groom grew up at Rossland and began service with the C.P.R. here four years ago. He returned to Cranbrook last fall after a year at Beavermouth.

Incorporation of Bill of Rights Called For

OTTAWA, June 10, (CP) — Alistair Stewart (CCF—Winnipeg North) yesterday tabled in the Commons a petition signed by an estimated 500,967 persons and calling for incorporation of a Bill of Rights into the Canadian Consitution.

He said the petition had been promoted by the Witnesses of Jehovah. While he did not agree with the religious views of the Witnesses he had consented to table their petition because an ordinary citizen did not have the right to make such a representation.

Mr. Stewart, in a statement released after he made the presentation, said that according to the last census there were about 7,000 Jehovah's Witnesses in Canada.

"It is obvious that over 490,000 other Canadians are in agreement that Canada should have a Bill of Rights," said Mr. Stewart.

The petition said that "recent experiences of Jehovah's Witnesses in the Province of Quebec prove that throughout the whole Domonion basic personal rights are open to attack and loss because of a failure to have them guaranteed by a written constitution.

Many Pay Last Tribute To George Sutcliffe

Funeral services for George Sutcliffe were held from the Thompson Funeral Home Tuesday afternoon, Rev. W. J. Silverwood of the Church of the Redeemer officiating.

There was a large attendance and many floral tributes.

Members of the Nelson Branch of the Canadian Legion attended the services in a body and formed open ranks to the hearse when the casket was borne from the chapel.

Hymns sung by the congregation were "Abide With Me" and "Rock of Ages." Mrs. J. A. Fraser was organist.

At the cemetery, the Legionnaires preceded the casket to its grave in the Returned Soldiers' Plot of Nelson Memorial Park. Legion burial ritual was read by Comrade A. Oliver, after which the members filed past the grave and deposited poppies on the casket.

Pallbearers were George Atkinson, Percy Craven, Fred Deacon, R. A. Dyke, David Meakins and A. T. Richards.

FINES FOR OBSTRUCTING

VANCOUVER, June 10 (CP) — Magistrate Mackenzie Matheson today fined six youths $10 each, with the alternative of 15 days in jail, after conviction of obstructing police officers.

NO BARGAIN

VANCOUVER, June 10 (CP) — John Waterfield, beer parlor waiter, didn't get the bargain he bargained for when he gave a patron $10 for a set of silverware as a present for his wife.

He was fined $50 in Police Court today on a charge of retaining stolen property.

HEADS SYMPHONY SOCIETY

VANCOUVER, June 10 (CP)—A. E. Grauer, President of the B.C. Electric Railway Co., today was elected President of the Vancouver Symphony Society succeeding Mrs. Ernest E. Buckerfield who headed the group for the last four years. The society was founded in 1918.

HALIBUT BOATS IN

VANCOUVER, June 10 (CP) — More than 550,000 pounds of halibut stocked warehouses lining Vancouver's harbor today following the post-season rush of boats home from the fishing grounds.

King Hopes to Hold Office "Some Little Time"

OTTAWA, June 10 (CP) — Prime Minister Mackenzie King was given a thunderous reception by members of the Commons today as he rose to reply to congratulations extended him on the occasion of his reaching the end of his 20th year as Prime Minister of Canada.

Mr. King, in thanking members "with all my heart," said he hoped to be in public office "some little time yet."

Killed by Falling Snag

PORT ALBERNI, June 10 (CP)—John F. H. Johnson, 50, power saw operator, was killed by a falling snag during logging operations yesterday at Bloedel, Stewart & Welch camp on Franklin River. Provincial Police said today. Police have been unable to locate any relatives. An inquest will be held.

SILENT ON PROPOSED CUT IN U. S. PURCHASES

LONDON, June 10 (CP)—Members of Parliament tried vainly in the Commons today to have Hugh Dalton, Chancellor of the Exchequer, and his colleagues give a hint of what purchases from the United States will be reduced to conserve dollars.

PORTLAND, Ore., June 10 (AP)—Ross McIntyre, 68, prominent Pacific Northwest business man and former head of the Macmar grocery chain.

Reject Motion For Grant to Indian Affairs

OTTAWA, June 10 (CP)— The joint Parliamentary Committee on Indian affairs today rejected as "not opportune" a motion recommending that "at least $15,000,000" be granted to the Indian affair branch this year.

The motion, claiming that Indians were in need of "immediate assistance," was placed before the committee by John Blackmore (SC—Lethbridge). Supporting Mr. Blackmore was G. H. Castleden (CCF—Yorkton).

Progressive Conservative and Liberal Committee members who opposed the measure said it failed to offer a plan by which the money could be spent. They proposed the committee defer any recommendations for expenditure until an interim or final report on its proceedings could be tabled in Parliament.

Mr. Blackmore argued that some money should be spent in order to give departmental officials the opportunity of showing what they could do with it. He said most members of the committee were agreed that expenditure in the past had been "woefully inadequate."

Thomas Reid (L—New Westminster) said the money question was "but one part" of the Indian problem.

"I don't want to be accused of being callous toward the Indian if I vote against it," he said. "There isn't a member of this committee who can tell right now just how much money is needed."

The committee supported by a show of hands a recommendation from the steering sub-committee that the motion was "not opportune."

Storm Downs Trees

MUSCATINE, Ia., June 10 (CP)—Tornadic winds, accompanied by hail, hit Muscatine today, knocking down trees, disrupting phone service and cutting off electricity to some sections of the city.

Three of the five city electrical circuits were put out of order by the storm but service was expected to be restored soon.

BUTTER OUTPUT OFF

OTTAWA, June 10 (CP) — Canadian output of creamery butter amounted to 31,269,000 pounds in May, a decline of 1.9 per cent from last years' production of 31,864,000, the Dominion Bureau of Statistics reported today. Production for the first five months of the year totalled 82,563,000 pounds compared with 81,753,000 in the similar period of 1946.

SCOUT OPPORTUNITIES

LONDON, June 10 (CP) — Opportunities for Empire newspaper men to train "in the methods and ideals of British journalism" are being investigated, Col. Hon. John J. Astor, publisher of The Times, told the 7th annual meeting of the Empire Press Union which re-elected him president.

CABBIES QUIT WHEEL

SEATTLE, June 10 (AP) — Five hundred taxicab drivers struck at 12.30 p.m. today after rejecting the employers' latest contract offer at a stop-work meeting, Secretary B. I. Bowen of the A.F.L.-Taxicab Drivers Union announced.

The Weather

President Truman Arrives in Ottawa

Throng on Hand to Greet Family in First Such Visit in Canadian History

By GEORGE KITCHEN
Canadian Press Staff Writer

OTTAWA, June 10 (CP). — President Truman of the United States arrived at 2:30 p.m. CDT today to begin a three-day "goodwill" visit to this capital, the first such state visit by a United States President in the histories of the two "good neighbors."

Tomorrow, Mr. Truman will address a joint session of the Canadian House of Commons and the Senate.

Accompanied by Mrs. Truman and their daughter Margaret, the President arrived aboard a special train from Washington which pulled to a slow stop at a temporary station erected at the spot where the Canadian National Railway tracks intersect picturesque Island Park Drive, on the city's outskirts.

It was a spot made historic by the arrival here in 1939 of the King and Queen to open the Royal visit in this capital.

The sun broke through an overcast sky and a roar of spontaneous greeting went up from a closely-packed throng as Mr. Truman stepped down upon a red plush carpet to be welcomed by the Governor-General, Prime Minister Mackenzie King and other State dignitaries.

Others in the welcoming party included the Viscountess Alexander, Hume Wrong, Canadian Ambassador to Washington, and Mrs. Wrong, Mrs. Louis St. Laurent, wife of Canada's Minister of External Affairs, Mrs. Ray Atherton, wife of the United States Ambassador to Canada, and Mayor Stanley Lewis of Ottawa and Mrs. Lewis.

Rt. Hon. Louis St. Laurent, Secretary of State for External Affairs, and other notables, extended an official welcome as the United States President arrived at Rouses Point, N. Y., at 11:20 a.m., aboard the 11-car special train.

St. Laurent was accompanied by Ray Atherton, United States Ambassador to Canada; W. H. Measures, Chief of Protocal for Canada; and three honorary aides-de-camp to the President. They boarded the train for the trip to Ottawa.

Ottawa is the only point where the President will make an official appearance. Apart from the speech, the Canadian program is designed principally to afford Truman and his family a period of relaxation and good fellowship.

Before leaving Washington, the President made known his intention of deferring until after the Canadian trip any decision on whether to veto the Income Tax Reduction Bill.

The President's address in Ottawa would provide an opportunity for any new expression on the international situation he might care to make. In any case it seemed likely that he would have something to say about the traditional friendship between Canada and the United States and their efforts for world peace and economic stability. Canada, like the United States, is a major producer of grain for needy areas.

Truman's first trip outside the United States after being President was to Potsdam in 1945 for his first and only "Big Three" conference. He took a vacation in Bermuda in 1946, and last March flew to Mexico City for a series of "good neighbor" trips designed to increase understanding and harmony among the United States and her neighbors to the North and South.

Canada, like the Latin American republics, has been designated to be brought into the hemisphere arms-standardization program which Truman has recommended to Congress. The Dominion and the United States already collaborate closely in the defence field through a joint board set up in wartime and continued in peacetime.

Later, Mr. Truman went to the Parliament Buildings, for his first official function of the three-day stay—the unveiling of portraits of Mr. King and Sir Robert Borden, the two wartime Canadian Prime Ministers.

Tonight the President, Mrs. Truman and Miss Truman were guests at a state dinner in Rideau Hall and later received guests at an official reception in the big ballroom of the old residence.

Declare War on Coast Vandals

VANCOUVER, B. C., June 10—(CP)—Police today declared war on youthful vandals whose activities in the last few weeks reached a new high here.

For the third week in succession, windows were shattered at the Pacific Paper Co. by boys who were said to have stoned the plant. The boys confined their activities to weekends, when no one is on duty.

A window was shattered in a downtown beer parlor, while a mirror was wrenched from the wall of a service station washroom. Several electric fixtures were damaged in the Hastings Park Clubhouse where a door was kicked in. Other youths smashed water pipes in a house under construction, and youthful ball players hurled a baseball through a window in a private home.

Police radio patrol cars were ordered to pay particular attention to congregations of youths and to break up any large street-corner gatherings.

GUERILLAS SUFFER HEAVY LOSSES

ATHENS, June 10 (AP)— Press dispatches from Northern Greece today said a guerrilla band trying to force its way back into the "mopped up" area of Agrafa under the reported leadership of "Gernarl Markos" had suffered heavy losses at the hands of Loyalist units, 41 being reported killed.

Official reports said 27 guerrillas were killed at Velestinon, East of Volos and fighting also was reported in Crete where six guerrillas and two soldiers were said to have been killed in an encounter on Mount Psyloritis.

Store Burns Hours After Trying to Get Insurance Co.

DEEP COVER, B.C., June 10 (CP) —A few hours after Frank Wilkinson tried without success to contact an insurance firm for coverage on the store he has operated for 10 days, fire broke out last night and damaged stock and personal effects to the extent of about $3,000 before flames were brought under control.

The fire was believed caused by defective wiring. Mr. Wilkinson with his wife and her mother were attending a rate-payers meeting in this North Shore centre when the fire broke out.

MEDALS ON WAY

OTTAWA, June 10 (CP)—Defence Minister Claxton said today that medals won during the war by Canadian servicemen are "on their way," but that owing to the shortage of highly-skilled labor in Britain, where all decorations for bravery and distinguished service are made, delay has been unavoidable.

More than half of the awards made to Canadian servicemen are still to come.

Campaign stars and medals are being manufactured at the Royal Canadian Mint, but distribution will only be started when sufficient quantities are available.

Predicts Increase In Paper Supply

TORONTO, June 10 (CP)— An increased supply of paper—and particular coated papers—was predicted for next Fall by Arthur P. Jewett Director of Sales of Provincial Paper Limited, in a talk to the Toronto Graphic Arts Association yesterday.

Troubles . . .

SEATTLE, June 9 (AP)—Troubles? Mrs. Louis Enfield knows what they are hers started Febuary 12 when her eldest son, Kenneth, 10 was struck by a coal truck. He was unconscious four days and spent several weeks recuperating.

While he was still in bed the baby of the family, Joyce, 16 months, pulled a cup of coffee onto herself and badly scalded one arm.

Things had hardly quieted down for the family when Mrs. Enfield's husband, Victor Enfield, a parts man for a motor company, had an accident at work and was knocked out.

Today her third child, Jack (Butch) Enfild was struck by an automobile on his way to school and suffered head and leg injuries.

Red-Dominated Hungarian Gov't Widens Cleanup

LONDON, June 10 (AP) — Dispatches from Budapest suggested today that the Communist-dominated Hungarian Government was widening its purge against dissident elements on several fronts.

The Communist newspaper Szabadsag said the "resistance certificates" of nearly 200 persons, including Government and church officials, would be reviewed by a special Committee under the Prime Minister's office.

Among those facing loss of these certificates, which indicate that the holders opposed the Germans during the war, were Dezso Sulyok, head of the Freedom Party, whose newspaper recently was banned; Assembly Speaker Bela Varga, a member of the Smallholders Party; and Josef Cardinal Mindszenty, Roman Catholic Primate of Hungary.

Others facing possible loss of their lands if the Committee should decide they did not work against the Nazis, Szabadsag said, were Lajos Shvoy, Roman Catholic Bishop of Szekesfehervar; Count Geza Teleki, former Minister of Education; and Bela Pedanyigulyas, head of the Smallholders' Party's Political Committee.

At the same time, the Hungarian People's Court announced that 43 "intellectuals", including doctors, lawyers and professors, would go on trial late this month on charges of conspiring to overthrow the Hungarian Republic.

The newspaper Vilag said Albert Szent-Gyorgi, a Nobel Prize winner for Vitamin C research, had recommended the expulsion of 12 scientists from the Hungarian Academy of Science on the ground they were "reactionaries".

Vilag also quoted Istvan Ries, Minister of Justice, as saying that a new election law was being written to govern the national election "scheduled for the first half of September" under which "enemies" of the State, and their relatives, would be disfranchised.

BUDAPEST, June 10 (CP) — A leading Hungarian Communist said today a letter had been found from Dean Acheson, former United States Undersecretary of State, "promising support" to former Premier Ferenc Nagy, whom the Communists have accused of plotting to overthrow the Republic.

Meanwhile Bela Bethan, Social Democrat President of the National Council of the People's Court, highest court in Hungary, recently attacked on the grounds "its sentences were too light," has gone on leave "for the time being."

He was to have presided at the next trials of persons accused of high treason.

Jozsef Reval, Communist Member of Parliament, writing in the Communist newspaper Szabadsag, said that Nagy had sent a letter to Acheson in January concerning the "Truman doctrine". This, he added, was months before the doctrine was promulgated and so labelled.

"Also found was Acheson's reply, promising support."

Coast Men Barely Escape Death

CHILLIWACK, B. C., June 10—(CP)—Charles Nazareno and Robert McGuire, Municipal Government employees barely escaped death or serious injury at this little Fraser Valley town late last night when a Works Department truck was struck by a Westbound Canadian National Railway passenger train.

The train hit the truck a few inches from the tailgate, swinging it around. Both men suffered bruises and slight lacerations.

Probe Death of 77-Year-Old Woman

VANCOUVER, B. C., June 10—(CP) — The City Coroner's Office here today was investigating the death of Mrs. Emily Starkey, 77-year-old widow who was found last night drowned at a Stanley Park beach.

Her body was discovered in three feet of water about 10 feet from shore several hours after she left the home of friends.

Police were endeavoring to locate a niece believed to be her only living relative, now located at Spokane.

GETS LIFE IN PRISON

PARIS, June 10 (Reuters)—Death sentences passed by the Court of Versailles on Admiral Jean Labore, Vichy Naval Commander who ordered the scuttling of the French fleet at Tougon, was yesterday commuted to life imprisonment. He was sentenced March 28.

Sleepy and Swede Reach Port Arthur

PORT ARTHUR, June 10 (CP) Cowboys Sleepy Frost and Swede Nilsson, who left Vancouver a year ago on horseback, carrying two bottles of Pacific Ocean water which they plan to empty into the Atlantic, today had reached the Port Arthur area.

Swede was still astride the black bronco on which he started, while his companion had traded mounts at Medicine Hat, Alta.

After a rest they will push on to Toronto by way of Hearst.

SUPREME COURT ORDERS NEW DEACON TRIAL

Was to Have Hung For Taxi-Driver Murder Jan. 16

BEFORE 3 COURTS

OTTAWA, June 10 (CP)—The Supreme Court of Canada, in a judgment handed down today, allowed the appeal of Lawrence Deacon of Winnipeg, set aside his conviction of murder, and ordered a new trial.

Deacon had been convicted and sentenced to be hanged for the murder of Johann Johnson, Winnipeg taxi-driver.

The decision of teh six supreme court judges was unanimous.

One of the most spectacular cases in the assizes, the Deacon trial came before three Manitoba courts. The preliminary hearing was held in Winnipeg Police Court a year ago. On Nov. 2, Deacon was found guilty by a court of King's Bench jury and sentenced to be hanged Jan. 16.

His counsel, E. J. McMurray of Winnipeg, took the case to the Manitoba Court of Appeal where a dissenting judgment gave Deacon the right to appeal to the Supreme court of Canada.

In custody since April 7, 1946, Deacon was detained with a Mrs Helen Berard by Winnipeg Police. During the trial Mrs. Berard testified Deacon had been present at a party in her home. She had argued with her husband and later met Deacon again outside the house.

Mrs. Berard saiy they had taken a taxi and headed toward suburban Tuxedo. There had been an argument in the cab after which she left. As she grasped the door handle, Mrs. Berard said, she saw Deacon's left arm raised and the driver slump over in the front seat.

She later attempted to reverse her testimony, saying she had seen another car come down the dark, deserted road and that it was in this automobile that the man had been slumped over. Mrs. Berard was then declared a "hostile witness" by the court.

Mr. Justice W. J. Major, trial judge, said her evidence was "one of the most amazing feats of mental gymnastic ever displayed in any court anywhere."

Average Rainfall For Port Angeles Not 141 Inches

PORT ANGELES, Wash. June 10 (AP)—Up in arms the Chamber of Commerce formally protested yesterday against a statement in John Gunther's new book: "Inside the U.S.A.," that the "annual rainfall of the city of Port Angeles is 141 inches."

The average annual rainfall here is only 28 inches, Leon G. Sutton, retired former government meteorolgist, said. He dug through 50 years records to find out.

STUDY BASIC HERD SUGGESTIONS

OTTAWA, June 10 (CP)—Finance Minister Abbott said yesterday in the Commons he was sure a solution would be found "in the very near future" to Opposition suggestions that farmers be allowed to establish "basic" herds for income tax purposes.

Speaking as the House studied clause-by-clause a bill implementing budget tax changes, he said the suggestions were "under very active consideration."

Urge Closer Liaison Between U. S. Canadian Broadcasters—Jasper Meet

JASPER, Alta., June 10 (CP).—Closer liaison between Canadian and United States broadcasters was urged today by John J. Gillin of Omaha, Neb., addressing delegates to the annual meeting of the Canadian Association of Broadcasters.

Gillin, a director of the United States National Association of Broadcasters, suggested that a joint committee of the Canadian and United States Associations be established to discuss mutual problems and direct progress in the international broadcasting field.

Gillin referred to regulations restricting broadcasting in both countries.

"We must work together and it is our duty to fight restrictions which prevent us from giving the radio public the kind of programming we know they want and we know they should have. We must demand full freedom of speech on the air and we must never stop fighting until we get it."

Douglas Scott of Toronto, C.A.B. Director of Broadcast Advertising, told the meeting it is established that advertised goods are dependable goods because their maker is willing to stake his reputation and his whole future business on the claims he makes before thousands of witnesses every day.

"This provides a degree of public satisfaction and protection of which the public will not easily deprive itself." Advertising created mass demand and consequent mass production which meant lower cost to consumers. Advertising had established markets where no markets had previously existed and had made possible the development of new products and services which had led to better living and a happier civilization.

Call Probe Into Report That U. S. Redeemed Millions of Dollars of German Money Printed By Russians

By EDWIN B. HAAIKINSON

WASHINGTON, June 10 (AP) — Three Republican Senators called today for a full-scale investigation into reports that the United States has redeemed millions of dollars worth of German occupaiton money printed by Russian authorities.

The three, Styles Bridges of New Hampshire, Homer Ferguson of Michigan and William Knowland of California, told a reported in separate interviews that they understand the plates to print the German marke were given to the Russians by American officials.

Among other uses for the occupation money was to pay allied troops.

Earlier reports have said that the Russian soldiers, drawing large amounts of back pay, paid fabulous black market prices to American soldiers for such items as wrist watches and trinkets.

The Americans, in turn, converted the occupation marks into dollars.

The trade became so brisk that American authorities resorted to several methods for discouraging the marks-to-dollars conversion. Finally a script system was devised to replace the occupation currency.

A United States War Department statement April 21, prompted by reports that the loss to the Treasury on these black market dealings might exceed $500,000,000, acknowledged that the army has accumulated a surplus of German currency.

Bridges, Chairman of the Senate Appropriations Committee, said "My information is that between $400,000,000 and $900,000,000 worth of this money has been, or is being redeemed with American dollars.

"I have been told that this redemption is being carried as a hidden deficit and some Senate Committee certainly must look into this."

No "Mating" of C.C.F., L.P.

VANCOUVER, June 10 (CP). — Harold E. Winch, C.C.F. house leader and Frank McKenzie, provincial secretary, said in an interview here today that there would be no "political mating" between the C.C.F. and the Labor-Progressive Party, either to fight the Provincial Government's Bill 39 or to attempt to defeat the Coalition Government.

Bill 39 is the controversial labor bill passed at the last session of the Legislature which provides penalties for illegal lockouts or strikes.

Such a merger, Mr. Winch said, was "merely another endeavor for the L. P. P. to revive the old 'united front' and ignores the fact that in the last general election it was proved that they canno elect a candidate in any provincial riding.

"If they are really sincere in wishing to defeat the Coalition, they will throw their weight behind the C. C. F."

"All such proposals ignore the profound differences between the C. C. F. and the L. P. P.," Mr. McKenzie said.

Mr. Winch added: "It all boils down to this. The C. C. F. cannot subscribe to Communistic tactics or principles."

Kinettes Plan Tea for Jubilee Queen Candidates

In honor of the six candidates for the title of Nelson Jubilee Queen, the Nelson Kinette Club will hold a garden tea Sunday, June 22. Plans for the tea, to be held at the home of Mrs. H. A. D. Greeenwood, 201 Behnsen Street, were completed at a meeting Monday night at the home of Mrs. W. C. Hancock, 1223 Ward Street.

Candidates are Miss Bunty Waters, Miss Colleen Hyssop, Miss Ruby Jarbeau, Miss Eleanor Maglio, Miss Bunty Paterson and Miss Dot Wallace.

Labor Council Asks No Vote on Victoria Transit Franchise

VICTORIA, June 10 (CP). — The Victoria Labor Council (C.C.L.) has called on organized labor in Victoria to vote "no" in the plebiscite to approve the city transit franchise.

Reasons for not supporting the proposed franchise were:

1. The agreement terms did not provide for payment by the Company of sufficient funds to offset damage to streets by buses.

2. There was no guarantee the 6-cent fare structure would continue.

3. No guarantee was provided that modern equipment would be used.

4. Ratepayers have not had an opportunity to vote on public ownership.

TWO MARINE MISHAPS AT VANCOUVER

VANCOUVER, B. C., June 10—(CP)—Two marine mishaps, involving three vessels, featured the harbor scene here during the last 24 hours.

Two barges owned by the H. R. MacMillan Export Co. broke loose today under a high wind and were carried into the main stream. They were picked up by a tug before any damage was done.

A United States freighter, Ireland-bound Ben Grierson, was refloated late yesterday after having been stuck three hours on a North Shore mud bank.

No one was injured and no damage suffered by any of the vessels.

Campaign Recruits For Monarchist Movement in Spain

MADRID, June 10 (Reuters) — Don Juan's spporters in Spain have launched a big, well-organized campaign to secure recruits for the Monarchist movement among Army officers.

Ten pamphlets, published anonymously but understood to have been written by a distinguished, retired military figure, are being distributed in all barracks.

Jews Release Kidnapped Men

By CARTER L. DAVIDSON

JERUSALEM, June 10 (AP)—Two British officers kidnapped yesterday by extremists were released unharmed today at Kiriat Shaul as a British military cordon prepared to search that Jewish colony.

A Government announcement said the two men walked toward the British troops after the cordon had been thrown around the colony, which is near the all-Jewish city of Tel Aviv.

The search of the area went on as scheduled.

Military patrols had been scouring the area since the two were seized at a crowded swimming pool at Ramat Gan.

Haganah, a moderate Jewish underground organization, publicly appealed to Palestine Jewry to help in tracing the victims.

The Palestine Government immediately issued an official announcement that it was refraining from any action "which would hamper the Jewish community in meeting the call" of Haganah.

The statement said that the Government "takes a most serious view of this (kidnapping) outrage and notes that the Jewish community has been called upon to secure the immediate release of the men."

The kidnapped policemen were Sgt. E. P. Hackett of London and Constable P. C. Ward of Dublin.

The kidnappers' escape truck was found before dawn today a short distance from Hertzlia, near Kiriat Shaul.

Kiriat Shaul is a Jewish colony North of Ramat Gan. It lies only a short distance from the factory building where Judge Ralph Wyndham was released by Irgun Zvai Leumi underground members last January after they had held him a week as hostage for the life of Dov Bela Gruner, a condemned Irgunist later hanged in Acre Prison.

Five Jews now are on trial before a military court in Jerusalem on charges of participating actively in the assault on Acre Prison May 4, which freed more than 200 Jewish and Arab prisoners.

Colorado Potato Beetle Makes Progress in U.K.

By JAMES McCOOK
Canadian Press Staff Writer

LONDON, June 10 (CP) — The Colorado potato beetle, unwelcome import from the United States, appears to be making progress in the United Kingdom despite publicity warnings that it is the most dangerouts flying threat since the buzz bomb.

An Agriculture Ministry statement said more than 100 beetles were found between May 31 and June 6, chiefly in London and its suburbs and the Kent coastal area. This is an increase over past years, but the Ministry said there is not an "outbreak" yet. The beetles were discovered singly and appeared to have reached the country in ships.

Public cooperation in fighting the beetle was invited, with quick reports of suspicious insects. Only by prompt action in fighting the outbreaks "will it be possible to avert the serious situation which would follow the establishment of the beetle on a large scale in the country's potato crop," said the Ministry.

For years the Ministry has invited Britons to send in any yellowish beetle about half an inch long with black stripes, as the Colorado type appears. So enthusiastic has the hunt become that questions are asked in Parliament about delays in getting inspectors or police to the homes or fields were suspect insects have been seen.

Ships at sea send wireless messages to shore when they spot what appear to be Colorado bettles in their cargoes. Officials examine minutely acre after acre of land where outbreaks are feared.

There have been occasional outbreaks in the United Kingdom since 1901, but the present invasion has been assisted by unusually warm weather in late May and early June and is looked on as serious in a year when every potato is needed to maintain British rations.

Efficiency Needed for Dietitians Today

OTTAWA, June 10 (CP) — The dietitian of today must use efficiency as a weapon of retrenchment to meet the "alarming" rise in costs on the food and labor fronts.

That was the warning the Canadian Dietetic Association got from a Toronto Nutritionist, Violet Ryley, last night as she said at present there was no "riskier" line of business than the food business and it was the duty of every dietitian to offset these costs by efficiency.

This 12th annual meeting of the C.D.A. has seen more than 200 food experts from hospitals, restaurants, and government departments acros the dominion discussing ways and means of improving the diet of the Canadian public.

There's more to being a dietitian than figuring out budgets and concocting menus, members learned as they heard addresses by food authorities working in widely different fields.

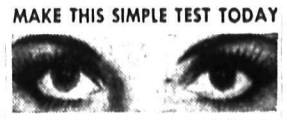
Is this your WIFE'S-EYE VIEW?

Not a particularly prize specimen the little woman has to look at.

Perhaps Feen-a-mint will help you. It's the modern chewing laxative—deliciously mint-flavored, with a gentle, yet really effective, laxative action. Won't upset the stomach or interfere with sleep when taken at bedtime. Millions turn to Feen a mint. Get it at any drug counter.

How to give TIRED EYES a quick rest

MAKE THIS SIMPLE TEST TODAY



EYES TIRED? Soothe and refresh them in seconds with two drops of safe, gentle Murine in each eye. You get—

QUICK RELIEF. Instantly your eyes feel refreshed. Murine's skilful blend of 7 ingredients cleanses and soothes eyes that are tired from overwork or exposure to sun, wind and dust.

MURINE FOR YOUR EYES

Don't Let SUMMER COUGHS COLDS SPOIL YOUR FUN

Do as thousands are doing—take BUCKLEY'S MIXTURE and enjoy every minute.

WAKE UP your DIGESTIVE TRACT

For Real Relief from Indigestion Due To Constipation

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking something for your stomach if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets lazy, food may fail to digest properly.

What you want for real relief is something to wake up your lower intestinal tract. Something to clean it out effectively—help Nature get back on her feet.

Get Carter's Pills right now. Take as directed. They gently and effectively wake up your digestive tract. This permits Nature's own digestive juices to mix better with your food. You get genuine relief from the constipation that is causing your indigestion so you can feel really good again.

Buy Carter's Pills today. 35c. Wake up your intestinal tract for real relief from indigestion caused by constipation.

X-Ray of the Spine Helps to Diagnose Cause of Sciatica

The pain of sciatica is one of the most clearly defined and best recognized in the whole list of aches that flesh is heir to.

In other words there is no guess work about it. If you have sciatica you are going to know it by the heavy gnawing sensation which usually starts in the lower part of the back and follows the course of the great sciatic nerve down the back of the thigh and leg to the foot.

PRESSURE REVEALS TENDERNESS

Pressure reveals that there is tenderness, not only over the lower parts of the back but also in the muscles of the thigh and leg.

After the conditions has continued for some time, these muscles may grow flabby and become smaller in size. There may also be some disturbances of the reflexes. The pain becomes worse when there is any movement which stretches the nerve. Thus, bending the hip with the knee straight is painful, so that a patient with sciatica usually sits with his knees slightly bent. In practically all cases, when the sciatica starts, there are pain and stiffness of the lower part of the spine, and many patients have suffered previous attacks of "lumbago."

CAUSE OF SCIATICA

When it comes to the cause of sciatica, the picture is not so clear. One of the common causes is what is known as protuded intervertegral disks. The intervertebral disks are pieces of cartilage which act as cushions between the small bones of the spine. When they protude they ae out of place. According to Dr. Arthur S. Bundell Bankart of England, in about three or four out of each hundred cases of siatica, protusion of these disks is the cause.

In making a diagnosis of protruded disks, an X-ray of the spine *is of course helpful. When the* X-ray is taken, a substance known as iodized oil may be injected into the spinal canal to make the protuded disk more visible in the X-ray plate.

ANOTHER CAUSE

Another common cause of sciatica is arthritis of the lower part of the spine, that is inflammation of the joints in this area. Dr. Bankart thinks that is the most *commown cause of sciatica*, particularlky of the type which so frequently afflicts middle-aged and elderly persons.

In this condition, also, X-ray examination of the spine is helpmaking a diagnosis. In treatingsciatica due to arthritis, rest in bed, perhaps wearing a cast to lesson movement of the joints, heat, masage and excercise all are of benifit.

Actual inflammation of the sciatica nerve may occur in occasional instances due to infection and other causes, and of course this will lead to the pain of sciatica. As a general rule, this is a mild condition and clears up with rest.

Beauty Hints

By IDA JEAN KAIN

Age Isn't "Arch Enemy of Women", To Keep Healthy Is to Stay Young

American women are growing up on the subject of age. A recent national poll of motion picture actresses, conducted by a magazine, establishes Ingrid Bergman, Greer Garson, Bette Davis, Claude Colbert and Irene Dunne as the five favorites.

One of these actresses is past 30, one 40, and three over 40. It's a healthy sign when American women vote middle aged actresses as tops in Hollywood, the very place where aging has been frowned upon. And not only does it prove that a woman can be more fascinating at 40 plus, but definitely shows that age isn't the arch enemy of womankind. So why do so many women wish to be younger?

Of course, I'm not implying that actresses don't put up strong resistance against looking and feeling middle-aged. Not one of the five favorites named would put up with a double chin, or let middle age spread catch up with her. And fat, the bugaboo of middle age, would not be tolerated. They keep normal weight and slim in the middle. They use every means to extend their best years. And why not? To keep healthy, physically and mentally, is to stay young . . .

The beauty moral? All the dreaded changes that come with middle age need not unless we let them. It's high time we changed our thinking. The middle spread is not inevitable, and the added years should bring more charm, not less.

I believe that our national tendency to worship lovely youth has made it difficult for women to take full advantage of the years after 28, and keeps us from realizing that middle age, or the years from 40 to 60 can be the best.

No woman should ever wish to be younger. That is the same as cheating herself out of valuable experience . . . experience she has worked for and earned. That would be going backward!

As one actress expressed it, time isn't passing, it's arriving. So look at the plus qualities. If we keep vigorously young in spirit, and savor life right now, today, we can stay far younger than by trying to hang on to youth for dear life!

Love Problems

By JANE ATKINSON

Better Advice Can Be Given When Letters Are Concisely Written

Some of my readers write me very long letters about trifles that could be described in a few sentences.

Some of them write a couple of short paragraphs about an obviously complicated problem, omitting so many essential facts that it is impossible to get any clear picture of the situation and hence, to offer any helpful advice.

Then there are the correspondents *who make such requests as this:* "Please do not publish my letter; just print an answer to it," while still others plead for a personal reply by mail—and then neglect to give me their full names and addresses, so that, however much I should like to send them one, there is no way in which I can do it.

Finally, there are the ones who want an answer in the paper by the next day, or at most, within two or *three days.*

Now I am anxious to answer, either in print or personally, just as many letters from readers as I possibly can. If there are any readers who have written me and received no reply, either in my column or by letter, it is probable that some one of the reasons connected with what I have just been saying is responsible. So perhaps it will help if I explain some of these points a little more fully.

In the first place, it will greatly facilitate the matter of reply if you will keep your letter as brief as is consistent with the nature of your problem. And on the other hand, if the problem involves a number of angles, each of which has a very direct bearing on working out a possible solution, don't leave them out. Put in all necessary facts—then let it go at that.

How are you going to tell whether you should write a few sentences or a longer letter?

Well, that's something for you to use your head about. If it's just a simple question you have to ask, don't wrap it up in a lot of unimportant details. For example, you can find out whether or not I think you have reason to believe that a young man may be interested in you by telling me how he behaves toward you. I don't need a history of all the young men in whom you've been interested through the years and a statement of how he compares in your estimation with each of them, nor a complete description of the party at which you met him, his personal appearance, or his business career. Just let me know what he does to make you think he may be keeping an eye on you, and you'd *be surprised how the probable facts* show through what you say!

As for the occasions that demand a longer letter, these usually concern problems in which the immediate crisis is the result of things that have been piling up over a long period of time. Where this is so, try to put down the things that stand out in your memory as happenings that, following one after the other, have finally brought you to the point where you felt you had to seek advice.

Then there's the matter of asking me to publish just an answer to your letter, without the letter itself. If you make such a request, it simply means that I cannot answer you at all. For a great many people read this column, and if what is printed in it makes sense to only one of them—the one to whom I am giving an answer—it wouldn't be fair to the rest.

Remember too, that yours is only one of a vast number of letters coming to my desk in a steady stream from all over the country, and I must try to answer them in their order. So it is almost impossible for me to get any given letter into print by some specified date.

If your problem is urgent, or too intimate for you to want it printed, or you must have an answer in the very near future, then write me a letter in care of this newspaper, being very careful to give me your name and full address and I will be glad to write you a personal letter.

Let me repeat: I want to answer, in print or by letter, any of you who care to write to me. Please make it possible for me to do so.

Three New Appointments to Library Commissions

VICTORIA, June 10 (CP)—Three new appointments to the Public Library Commission and the Provincial Library were announced today by Provincial Government officials.

J. G. Chope of Cambridge was appointed to the Provincial Library staff and Ronald Ley of Exter joined the Library Commission.

Janet Cook of Montreal goes to the Commission staff this week.

For Parents

By GARY CLEVELAND MYERS

The Value of a College Education Missed by Many Bright Students

There are many bright boys *and girls about to graduate from* high school, who won't go to college. Many of them won't go for want of funds. Some of them won't go for want of ambition in themselves and their parents.

Some parents who read this column may have gained a higher education, even though they grew up on a remote farm or in a village; and their parents may not have had much money. If such was your experience you recall that some of your high school pals made as good school records as you did, or even better, yet never went on to college.

THE GI BILL

Young men and women who served in the armed forces are going to college now, who would have been denied this privilage but for the GI Bill of Rights. Must we have another war in order to provide such oportunities?

With rising costs at college and the ease of getting jobs which pay well, the proportion of promising youths who should go to college next fall but won't, will be unusually high, no doubt, and especially among farm youths. For some time to come farm prices may be comparatively high. Besides, it may not readily occur to the farm youth and his parents that a higher education would be valuable to him should he return to the farm.

MANY BRIGHT YOUTHS

Think of thousands of bright youths on the farm whose parents easily could finance them at college if only these parents had vision and ambition. The Tennessee mother who wrote the following does have ambition and vision.

"My seventeen-year-old son is graduating from high school. He wants to go to college. He and I live with my mother on a farm. She wants him to take over her farm but that does not appeal to him. If he goes to college it will be necesary for him to work. I can not pay all his expenses; however, I can help him some.

GOOD SCHOLASTIC RECORD

"His scholastic record has been very good in algebra, geometry, Chemistry and physics but ordinary in English and agriculture. He think he should attend college? If in electrical engineering. Do you think he should attend college. If so what course of study should he follow?"

I wrote this mother I hoped she would be willing to make sacrifices to help that lad go to college provided he proved he also could help himself; that with his good record in mathematics, Physics and chemistry, he seems to have a good preparation for entering an engineering college; that she might be able to gain considerable information about such schools through the high school principal who also might help find *where scholarships are available.*

I wish I knew how to prevail on men and women with considerable money to leave a pile of it for scholarships for bright deserving youths. It would be wonderful if some wealthy person were to establish a national fund for this purpose, to which many others would add liberally from time to time. A foundation of half a billion dollar for such puruose would do a lot to conserve and develop the talents of many deserving youths and to lift the educational level of our Nation.

He-b-aiM

"Variety, the Spice of Life"

CAPETOWN (CP) — When the Cape Town Castle was about to sail recently, a young woman passenger discovered at the bottom of the gangway that her escort had no permit to go on board.

"Well," she said, "this is goodbye, darling."

"Yes, darling, this is good-bye," he answered.

Behind them stood a large crowd, waiting to go on board.

"Hurry up," said one man, "I want to go up and see my daughter."

The two had a long farwell kiss, to the accompaniment of whistles and hoots from passengers on deck.

Some time later passengers going down the gangway found themselves held up again by the same young woman going through the same performance—with another escort.

TABLE FARM DELIVERY STRIKE RESOLUTION

SASKATOON, June 10 (CP) — A resolution favoring withholding of farm products from markets until more consideration is given by the Federal Government to securing "fair prices" was tabled yesterday at the Saskatoon District convention of the United Farmers of Canada, Saskatchewan section.

George Wright, U.F.C. President, said, referring to a 30-day farm delivery strike last year, that "we gained ground last Fall but we might antagonize some people if we pass this resolution."

LONDON (CP) — Sir Malcolm Campbell's speed boat Blue Bird has a new jet engine producing 3000 horsepower, a force never before considered for so tiny a craft. Sir Malcolm's earlier speed record was 141.7 miles per hours achieved with a 1900 horsepower engine.

Tasty Recipes

By BETSY NEWMAN

If you are a small family, leg of lamb may be what you are longing for, but maybe you are too timid to invest in so much meat at one time. Never mind, that is where the meat magic comes in, for lamb makes specially luscious second and even third day dishes. You'll have meat to slice and serve in the gravy; meat to dice to put with rice, bread-crumbs or cooked vegetables as stuffing for tomato or green pepper cups; meat to put into a fine pie topped with mashed potato or biscuit crust.

LAMB AN ASSET

Any of these pot-roast ways makes left-over lamb an asset for the menu-maker. So, far good measure, is our version of lamb left-over, a lovely Lamb Pie!

For 6 servings cook 12 small onions in boiling salted water until tender (about 30 min.) Add one c. each diced celery, cubed carrots and cubed peper during the last 15 min; drain. Combine hot, cooked vegetables with 3 c. left-over cooked lamb and one c. lamb gravy; add salt and pepper to taste; pour into greased casserole. Top with 3½ c. hot mashed pootatoes, brush with melted table fat; bake at 350 F. for 30 min. until lightly browned.

Roast breast of lamb makes mighty fine eating. Have your butcher bone a breast of lamb, then roll it. Season meat with salt and pepper; place in rack in shallow baking pan. If desired, a few slices of onion may be placed on top of roast, or stick *in several slivers of garlic.* Bake at 325 F. allowing 35 min. per pound until tender or about 2¼ hours in all.

One hour before meat is done, add a dozen scrubbed whole baby carrots and 4 or 5 peeled potatoes, to bake with meat. Baste several times during baking. Thicken some of the liquid in the baking pan for gravy, being careful to control the amount of fat to have a tasty non-greasy gravy.

How about stuffed shoulder chops for dinner tonight? For 4 servings have 4 lamb shoulder chops clut 2-inches thick and have blade bones removed. Using a sharp knife, make a pocket in each chop. Soak 2½ c. stale bread crumbs in ½ c. condensed tomato soup; mix with 2 tbsp. grated onion, one slightly beaten egg, tsp. salt and ¼ tsp. pepper.

Stuff mixture into chops; plance on rack in shallow baking pan, season with salt and pepper and top each chop with ½ slice bacon. Bake at 325 F. for about 1½ hours until tender.

$500,000 Housing Project Abandoned With High Costs

NEW WESTMINSTER, B. C., June 10 (CP)—W. L. Inglis, District Manager for Housing Enterprises, Ltd., said here today that high construction costs had forced abandonment of a $500,000 housing project, but Mr. Inglis said that "exhorbitant" bids for construction were such that economic rentals could not be set.

It's Long-it's Low-and you'll love it!

Young or old, you thrill to the sparkle of its massive grille, easily, clearly, the smartest on the road.

Grandson or grandpa, you take in the flowing sweep of those follow-through fenders—and unerringly spot in them the style-note destined to key the whole trend of car design.

Note that bonnet . . . sturdy, streamlined cradle for a massive Fireball valve-in-head straight-eight that wakes with a purr, pulses with power, fairly pleads for the privilege of taking you places.

Take in the great and gracious room so cunningly provided under sweeping roof lines . . . the wide, deep-cushioned seats.

Watch a Buick on the road—marvel at the down-to-earth sureness of low-slung weight, the easy rippling stride of a car cradled all around on soft coil springs.

Handling? A dream. Controls? Light as a kite. Value? Match a Buick point by point againt the field. Nowhere today does a dollar buy a bigger measure of fineness and quality—or as great assurance of long and happy returns on your investment.

* * * *

So many people want Buick, and only Buick, that the demand continues far ahead of our ability to deliver. But this big, brawny beauty deserves your last ounce of patience . . . so while you wait, depend on your Buick Dealer's expert service to keep your present car on the road.

MCKAY - HOOKER

A wedding of interest to Nelson and District residents was solemnized in Victoria May 26 when Jean Cameron Hooker, formerly of Nelson, and Harry Cartmell McKay, were united in matrimony in Oak Bay United Church. The bride is the youngest daughter of Mr. and Mrs. John Charles Hooker, now living in Victoria, while the groom is the only son of Mr. and Mrs. Walter McKay of Michel, B. C. Given in marriage by her father, the bride was charming in white embossed silk nylon net over taffeta, fashioned with lily point sleeves, sweetheart neckline and full skirt. Her floor-length veil was held in place by a net halo, she wore a double strand of pearls, and carried a bouquet of red roses entwined with lily of the valley and fern to complete her ensemble. Miss Bessie Hooker, sister of the bride, was Maid of Honor and Miss Joyce Colman, also formerly of Nelson, bridesmaid. Charles Cossen acted as best man and Bert Wood was usher. The reception was held at the bride's home where the couple welcomed the guests. The wedding table was centered with the three-tiered cake embedded in white tulle decorated with red rosebuds and lighted by white tapers. George Morgan toasted the bride. Assisting in serving were Miss Kathleen Cory, Thelma Thompson, Nancy Stephenson and Mrs. C. Adam. For a honeymoon trip up the Island the bride chose a chocolate brown suit with turquoise blue hat and blouse, and snakeskin accessories with mauve orchid corsage. Mr. and Mrs. McKay will make their home in Victoria.

● Mrs. G. S. MacIntosh, 1023 Stanley Street, has returned from a trip to Calgary, Edmonton and points East. She also attended the annual convention of the Canadian National Institute for the Blind at Vancouver.

● Miss Mary Kubin has gone to Spokane where she will train as a nurse at the Sacred Heart Hospital. Miss Kubin was accompanied by her mother, Mrs. M. Kubin, Carbonate Street, who will return this week.

● W. Rutherford of New Denver, formerly of Nelson, was a guest Sunday of Rev. W. J. Silverwood, 521 Fourth Street, enroute from Trail to the Slocan.

● Mr. and Mrs. Jack Wood, 314 Gore Street, were pleasantly surprised by a number of their friends on their Silver Wedding Anniversary. Court whist was enjoyed for a while, followed by a sing-song and refreshments. The guests of honor and friends who were present at their wedding were seated at a table covered with a lovely lace cloth, centered by a decorated wedding cake which was flanked by pink candles. A presentation of a lovely silver rose bowl was made by D. A. Proudfoot on behalf of those present. Mr. Proudfoot claimed to have known the "bride" longer than any present, apart from her sister. Mr. Wood then expressed their appreciation and said that although the last 25 years were very happy ones, a lot of it was due to the friends they had made. The invited guests included Mr. and Mrs. Harry Dronsfield, Mr. and Mrs. Bert Rowley, Mr. and Mrs. Victor Graves Mr. and Mrs. Thomas Willette, Mr. and Mrs. D. H. Proudfoot, Mr. and Mrs. Alfred Wood, Mr. and Mrs. Wilfred Wood, Mr. and Mrs. Jasper Gamble, Miss Phyllis Shumaker, Miss Norma Wood, John Lang, Fred Scaia of Trail and Mrs. Joseph Scaia of Silverton, sister of Mrs. Wood who came to Nelson for the occasion.

● Mrs. W. J. Silverwood, 521 Fourth Street, left Saturday for Summerland, where she will be a guest for several weeks of Mrs. H. A. Solly.

MAGIC'S RICH
Chocolate Dips!

● Cream ½ c. shortening and ½ c. sugar. Add 1 egg; beat. Add 2 tbs. grated orange rind and 2 tsps. orange juice. Sift together 1¼ c. sifted all purpose flour, ½ tsp. salt, 1½ tsps. Magic Baking Powder; add. Mix. Chill. Roll dough thin; cut according to directions below. Bake in 375°F. oven, 10 min.

Crescent Cookies: Follow above recipe, cut with crescent cutter. Bake. Spread with melted sweet chocolate, sprinkle with finely chopped walnut meats.

Filled Cookies: Follow above recipe, cut with round cutter. Cut smaller round from center of ½ the rounds. Bake. Then spread plain round with melted sweet chocolate; top with doughnut round.

Coconut Sticks: Follow above recipe, cut in strips 3" by ¾". Brush with milk; sprinkle with cocoanut. Bake. Dip ends in melted sweet chocolate.

Pecan Squares: Follow above recipe, cut dough in 2" squares with pastry wheel. Place ½ pecan meat in center of each. Bake. Dip corners in melted sweet chocolate.

MAGIC BAKING POWDER

Tells of Tricks of Hardware Trade

R. B. Morris Monday night enlightened the Gyro Club with an interesting treatise on tricks of the hardware trade. His comments pertaining to paint and brushes aroused queries from the club members who apparently were contemplating interior decoration.

"There is not such thing as cheap paint" he told the meeting. "The only way a paint may be successfully tested is through application and measurement of the time its stands up."

Mr. Morris cited several experiences that he had had following complaints. Ninety-nine times out of a hundred the failure of a paint job was attributable to some other element than the paint, it was found. On one occasion the speaker was called to a residence where the floor was still tacky three days after the paint had been applied. Following investigation it was found that only the portion of the front room floor leading from the kitchen remained wet. This, Mr. Morris explained, was due to the wax being carried from the linoleum in the kitchen.

Good quality paint brushes were manufactured from hog's hair, Mr. Morris informed. In normal times the bristles were imported from China, Russia and France. During the war some companies flew the hair straight from China, hence the high cost of brushes.

It was explained that hog bristles had a special faculty for "flagging," enabling them to absorb paint. The bristles often had two or three ends and thus were able to carry a generous amount of paint.

Horse hair had been tried as a substitute but had proven to be a poor spreader when compared to the hog-hair brush. The horse hair was of uniform diameter and those who had used brushes manufactured from it have found that the paint ran off the brush, the speaker said.

Mr. Morris also had words of advise for the maintenance of brushes beginning from the time they were bought from the store. The common practise was to start painting as soon as the brush was unwrapped. To obtain maximum service the brush should stand in raw oil for 48 to 72 hours. In this way the bristles got an inner coating of oil through which the paint could not penetrate.

Paint brushes should never be kept in water, it was said. The hair became thoroughly saturated with water and did not dry. They then could not carry a sufficient quantity of paint to do a smooth job.

Mart Gormley, Treasurer of the Gyro Club for the past year, was given a parting souvenir of his services by H. Lupton. Mr. Gormley, employed with the B.C. Forest Service at Nelson, is moving to Vancouver to assume the post of District Assistant Forester.

Silver Spoon for First Baby Christened at Font

CASTLEGAR, B.C., June 10 — The evening branch of St. Alban's guild met at the home of Mrs. W. O. Dwitle on Friday night . In the absence of Mrs. J. R. Killaugh. Mrs. Dwitle was in the chair.

Several points of interest were discussed and it was decided to give a silver spoon to the first child to be christened at the "Memorial Font."

Mrs. Taylor and Mrs. Bell were elected to a committee to purchase material to be given out and turned in finished for the fall meeting. The flower chart was made by Miss Pearce and will be placed in the church.

Caring for the altar for the month of June will be Mrs.. G. Gren and Mrs. Killough.

Mrs. W H. Reed displayed some of her leather work. Mrs. Reed voluteered to start a class if enough were interested before she returns to the coast in the fall.

Refreshments were served by hostess, assisted by Mrs. Petts. Members present were Mr. S. T. Horwill, Mrs. Wade, Mrs. W. R. Kerr, Mrs. Batchelor, Mrs. G. H. Wanless Mrs C. Bell, Mrs. G. Green, Mrs. J. P. Taylor, Mrs. W. H. Reed and a visitor of the afternoon branch Mrs. C. W. Pitts.

KASLO

KASLO, B. C.—Mr. and Mrs. Harold Koenders and son of Trail were the guests of Mrs. Koender's sister and brother-in-law, for a few days this week.

Miss Irene McGillivray, B. C. Telephone agent at Trail, is visiting her mother Mrs. M. McGillivray.

Mrs. J. Papworth left for Penticton to represent Sunrise Rebekah Lodge No. 62 at the I. O. O. F. convention. Enroute Mrs. Papworth visited friends in Nelson for a few days.

A. Carney Sr., left for Penticton where he will represent Sunshine Lodge No. 57 at the I.O.O.F. convention.

Mrs. Logus was a guest of Mrs. J. Leveque for a few days en route to her home in Poplar, from Nelson.

LAKE STUDENT ATHLETES COMPETE FRIDAY

BOSWELL, B. C., June 10—Kootenay Lake Inter-School Sports will be held at Boswell on Friday with children from Boswell, Crawford Bay, Gray Creek, La France, Sanca and Sirdar competing.

The program will commence at 10:30 a. m., with intervals for lunch and tea.

Tea will be served and proceeds given to the Junior Red Cross Funds.

Principal Mrs. Mona Thompson of Boswell School is in charge of all arrangements at that point.

FRIENDS FAREWELL N. DENVER COUPLE

NEW DENVER, B. C., June 10 — Twenty-five friends gathered at the home of Mr. and Mrs. Frank Fraser on Saturday evening to give them a surprise farewell party. Music, singing and games and contests were enjoyed. Refreshments were served.

L. R. Campbell gave an address Mrs. Fred B. Tessman on behalf of all present, presented Mr and Mrs. Fraser with a gift. Mr. and Mrs. Frank Fraser and family leave shortly for Salmon Arm.

SANDOWN, Isle of Wight (CP)— Pog, a 12-months-old spaniel, fell 200 feet over a cliff, and was found on the rocks below uninjured, though badly shaken

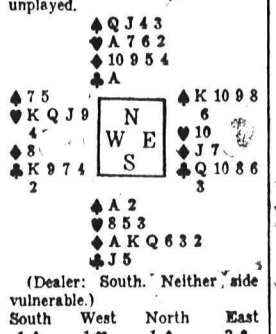
BARCLAY ON BRIDGE

By Shepard Barclay

"The Authority on Authorities"

A LOSER ON A LOSER

ONE NEAT play seldom employed except by the very finest players consists of tossing a sure losing card on another sure losing card. By so doing, the declarer is sometimes able to score one more trick than could be made in any other way, especially if the defender who wins that particular trick is then obliged to make a return which presents a gift trick to him. Ordinarily, when you see this play made, it is because the declarer has either a definite or a probable reading of the outstanding cards up to then unplayed.



(Dealer: South. Neither side vulnerable.)

South	West	North	East
1 ♦	1 ♥	1 ♠	2 ♣
3 ♦	4 ♣	5 ♣	Pass
5 ♦	Pass	5 ♥	Pass
6 ♦	Dbl	Rdbl	

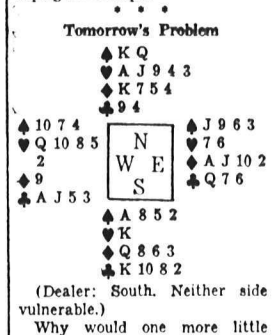
At first glance it looked like a hopeless cause to South when he saw the dummy. West's lead of the heart K had seemed to promote two quick winners in that suit for the defense. But the declarer found a way to pull through successfully.

He won that trick with the A and immediately tested the greatest danger in the hand by leading the spade Q, prepared to let it go through if not covered. East, however, put on the K and the A won. Next came two diamond tops, a lead to the club A, the spade J and a ruff of the spade 3. It was how pretty likely East had only black cards left. If so, the contract could be made. The club J was ruffed in the dummy, and the crucial play tried.

South led the spade 4 from dummy, putting on the heart 5 and leaving him only the heart 8 and trumps. East sure enough had only black cards, and it made no difference which he returned, as both North and South were now void of black cards. East picked a club, whereupon South discarded his last heart and ruffed in the dummy, which left him nothing in his own hand except good trumps.

• • •

Tomorrow's Problem



(Dealer: South. Neither side vulnerable.)

Why would one more little heart in South's hand be doubly important for No Trump play?

NEW DENVER

NEW DENVER, B. C.—Miss Lessels Balbirnie, accompanied by Esther Gardner of Blewett, spent the long weekend at the former's parents Mr. and Mrs. W. G. Balbirnie and brother Less. They also visited Mr. and Mrs. W. J. Balbirnie and family.

Miss Florence A. Moss returned to her home after spending the weekend in Rossland guest of Mrs. A. McAuley and Mr. and Mrs. E. Beaulieu.

Mr. and Mrs. J. Sucee after a week's holidays guest of Mrs. C. J. Sinclair, returned to their home in Trail.

Mrs. J. Kaucher returned to her home from the Kootenay Lake General Hospital in Nelson.

Mr. and Mrs. E. J. Leveque of Kaslo visited Mrs. E. F. Angrignon and son Fred Angrignon.

Eugene Nesmith of Trail was the weekend guest of his uncle and aunt Mr. and Mrs. L. R. Campbell and cousin Donald Campbell.

Mr. and Mrs. J. St. Thomas were guests on Sunday of their son-in-law and daughter Mr and Mrs. Charlie Kennett.

Mr. and Mrs. Ken Allen of the Lucky Jim Mine, Zincton, visited friends in New Denver.

Norman Clifford, his mother, Mrs. E. Clifford and his daughter, Miss Betty Clifford of Slocan City have taken up residence in New Denver at Denver Siding.

Miss N. E. Aylwin on the post office staff at Trail spent the weekend guest of her mother Mrs. M. E. Aylwin and brother Charlie Aylwin and in visiting other relatives.

Mrs. George Pumphrey returned to her home in Rosebery from Edmonton

Mr. and Mrs. Charles Kennett had as their weekend guests the latter's sister, Mr. and Mrs. R. Bennett and son Bobbie of Perry's Siding.

PORTSMOUTH, England (CP)— Captain W. G. Agnew, commander of H. M. S. Vanguard in which the Royal Family visited South Africa, presented the National Union of Seamen with seeds from the people of South Africa for planting at the Seamen's Home at Alford.

Kaiteur Falls in British Guiana is 4½ times as high as Niagara.

Chess Matches To Be Held in Jubilee Week

It seems that everything that is possibly contestable will be brought into the limelight during the jubilee celebrations. The latest addition to the program is an inter-city chess match which will see experts from Trail, Rossland, Kimberley and Nelson solving the weighty problems of chess.

T. C. Middleton, President of the Nelson Chess Club, said Monday that funds may be set aside to attract contestants by way of prizes, but if the Jubilee Committee does not make a contribution the chess match will be held regardless.

Entries from four cities are assured and more are expected as the word gets around. Chess players say that since the game is highly individualistic, champions are likely to turn up from the most remote locality.

UNVEIL PICTURE HONORING KASLO CHURCH PIONEERS

KASLO, B. C., June 10—Sunday morning St. Andrew's United Church was crowded for a special service at which a picture was unveiled in memory of the Pioneer men and women of the church.

The service was conducted by Rev. C. O. Richmond, and special music by the Senior and Junior choirs including a solo by Miss Geraldine Gardner.

Mr. J. Paterson gave a short statement regarding the memorial picture. While Miss Roberta Thompson unveiled the picture the congregation sang the well known hymn, "For All the Saints who from their Labours Rest."

A communion service concluded the service. At a later date a plaque will be hung in which the names of the pioneers of the church will be inscribed.

Robson Junior High Pupils Surprise Teacher

ROBSON, B.C. June 10 — Miss Blair, teacher at the Robson High School Saturday night responded to a knock at her door and was "surprised" by the pupils of her class who were making the call on the occasion of the teacher's birthday.

Before the dancing and games began, Mary Salikin, stepped forward to present Miss Blair with a gift on behalf of the class.

The pupils present were Pete Plotnikoff, Mary Salikin, Merion Swiheurt, Mary Sopow, Ave Pedersen, June Sherbako, Connie Carlson, Roy Peterson, Lloyd Swiheurt, Biarne Aasland, Jim McMartin, Viola Bartsoff, Kenneth Lins, Elsie Tripper, Anita Simechew, Alice Wanjoff, Hazel Allerin, Mickey Bartsoff, Iver Astrom, Bill Nevakshonoff.

Boswell Growers Told About Cherry Processing

BOSWELL, B. C., June 10 — A special meeting of the Boswell Fruit Growers heard A. Binny of B. C. Tree Fruits speak on the processing of cherries.

Nearly 100 per cent of the local ranchers attended.

J. Fels, B. C. Tree Fruits representative at Creston, Mr. Ward and Mr. MacDonald of the Wynndel Co-Operative also spoke on various matters pertaining to cherries. President A. Mackie of the Boswell Growers introduced the speakers.

Another Name for Uganda Bell

VANCOUVER, June 10 (CP) — The ships bell of the cruiser H. M. C. S. Uganda, already inscribed with nine names, will have a 10th added shortly—that of six-months old John Frederick Horsey.

The baby son of Major and Mrs Rowland Horsey of West Vancouver was christened aboard the warship here yesterday. Capt. Kenneth Adams, Uganda commanding officer, is the baby's uncle and godfather.

The ceremony was performed in a portion of the captain's quarters which had been transformed into a chapel, and the holy water for the christening was contained in an inverted ship's bell, mounted on a stand.

Coveys of bob white quail break up in April, and calling and pairing begins. Some green foods and insects become available at this time, and in May nesting begins. An average clutch is 14 eggs laid at one day intervals. Incubation is 23 days

ANNOUNCEMENT

To our Family of Friends and Customers:
I wish to take this opportunity of announcing the change of name, from R & R Grocery to KARY'S GROCETERIA.

I wish, also, at the same time, to thank our many friends and customers most sincerely for their much appreciated patronage, while doing business under the name of the R & R Grocery, and the system of Credit and Delivery.

On June 12th, 1947, we are changing to a policy of Cash and Carry. In doing so, it will be our endeavor to give you a more modern and better service, combined with lower prices.

With this change of policy, R & R Grocery, on June 12th, will be known as KARY'S GROCETERIA.

Yours sincerely
JOS. KARY.

CASTLEGAR

CASTLEGAR B.C.,—J. Rosiansic attended the Catholic Womens League Convention in Grand Forks.

Mr. and Mrs. F. Fomenoff have returned from Vancouver.

The pupils of the Castlegar Elemetary School entertained at a delightfully arranged tea and display of their school work, in the Community Hall on Friday afternoon. The wall and side tables were arranged in various grades, making a very interesting display great interest was shown in drawing and the minature house building. The attractively set serving table with its center piece of roses flanked by tall tapers was presided over by Mrs. E. G. Smith, Mrs. W. Robinson, Mrs. L. A. Quayle, Mrs S. Hampshries, Mrs. R. White, and Mrs. J. G. Craft. The individual tea tables were gay with their vases of roses and the servitures looked smart in their white crisp aprons with green ruffles and minature hats to match. These were Nettie Broodman, Lorraine Martini, Patsy Rigby, Geraldine DeFoe Marcia Bell, Vera Shlakoff, Alice Sopou, Susan Spencer, Maxin Burrows and Helen Shewchuk. Dupring serving of tea three delightfull numbers were rendered by grades 3, 4, 5. "Early One Morning," "Now is the Month of May" and "The Old Women and the Peddler," Directed by Miss Lorraine Cook. The culinary arrangements were under the direction of Miss Betty Cape and Miss Dorothy Smith. assisted by Mary McKenzie, Fay Raketti, Florence Gunderson, Molly Muryluk and Dora Horkoff. Fire tender was Reni Manarin. Inspector E. C. Clay was a guest during the afternoon.

Inviting Disaster

There will be little surprise at the announcement of Reconstruction Minister Howe that Canada's 80,000-unit home-building objective may not be reached this year. In spite of the fact that supplies are more freely available now than at any time since the end of the war, and more men are employed in the construction industry, it has been apparent for some weeks that building in general, and home building in particular, has bogged down miserably, says the Toronto Globe and Mail.

A good many reasons have been advanced for this anomalous state of affairs. The immediate cause, of course, is cost. Building materials have risen in price as much as 70 per cent since 1939. Wages have gone up 45 per cent in the same period. To this already heavy cost burden has been added the weight of "invisible costs"— lower productivity per worker, the necessity of paying some workmen even when they are doing no work, costly delays at critical stages of construction. The upshot is that the $5000 house has become virtually non-existent and builders have lost the incentive to build, since they know in advance that the product will be beyond the reach of the very people they are trying to build for.

But these high costs are only symptoms of the disease that has blighted housing hopes throughout Canada. The real trouble is much deeper and more disturbing than mere dollars and cents. Basically, it stems from an altered sense of human values. Whether it is the hurry and confusion of the times or a general feeling of frustration, the world has turned to pleasure-seeking with an avidity scarcely equalled in history.

The pride of achievement that our fathers knew is strangely missing today. In its place has arisen a "social consciousness" that expresses itself in a universal demand for more of everything, without any companion thought of giving more of anything. The militant and honest slogan of "a full day's pay for a full day's work," with which organized labor once rallied its forces and won a long fight for humane employment conditions, has been replaced by the cry of "more for less"—the eternal call of the sirens.

The original goal of the 40-hour week was more leisure for the working man, but, having won that leisure, man has switched his whole viewpoint and approach to living. The emphasis is now on leisure and not on labor; the job is something that must be quickly hurdled so that idle hours may be more thoroughly enjoyed. In consequence, good workmanship has ceased to be the badge of honor that was, and, indeed, the man who shows pride in the job he is doing is almost regarded as suspect.

Morally, this is a tragic misconception. Economically, too, it can be just as dangerous. Unless the workman's philosophy changes of its own accord, it will soon be all too apparent that he is outsmarting himself. For, just as building has bogged down because many people can no longer buy the product of the builder's labor, so will high prices take the edge off today's business prosperity in many other fields.

It would be a great misfortune if it took a depression to bring back a proper perspective and appreciation of the part work must play in the lives of all of us, but that is the alarming possibility we face. Depressions are not made by economists, or bankers, or big businessmen, they occur when economic values get out of balance. Before we find ourselves floundering in another one let us ... each have a conscience ... whether ... are ... the ... est values ... real prosperity is made.

Lance H. Whittaker

ON LEAD FOR JAPAN

One of my most energetic correspondents is Mr. W. H. Foster, of Victoria Street, in Nelson. Mr. Foster takes me to task for a piece of a few weeks ago on 30 years of industrial peace at Trail.

Unfortunately, his letter contains too many arguments to deal with them all in one column. At the risk of being bracketted with Mr. R. J. Templeton (who is evidently a pillar of free enterprise), I would like to examine just a sentence or two where Mr. Foster takes me *back to Consolidated's prewar shipments of* base metals to Japan. (This is offered in contrast to the C. M. & S. war contract, which I said had saved the British Government something in the neighborhood of $100,000,000.)

I may be wrong, but I am not yet cynic enough to believe that foreign policy is dictated to our Government by what is referred to as the "vested interests". The products turned out by the Consolidated, or any similar corporation for that matter, are very much at the disposal of the people through their Government. Plenty of evidence is available to support this idea. Practically the entire chemical fertilizer production of Consolidated is being sold according to Government edict right now (see Consolidated's annual report to its shareholders, 1946).

Time has proved that metal made in Trail took many *lives on the Pacific isles*, but it must be remembered that many of the world's greatest statesmen could not believe a Japanese war possible until the morning of December 7, 1941. The shock of the Japanese attack on Pearl Harbor was not confined to the U. S. State Department or the management of the Consolidated Mining and Smelting Company—it was a shock to practically the entire people of this continent.

If the shipment of lead and zinc to Japan in 1938-39 contributed to the Japanese entry into the war, then a great majority of the people of Canada must be considered as war criminals, for their representatives at Ottawa did little to halt the Western flow of metal.

The responsibility of determining a foreign policy and program is the responsibility of men trained in that field, with sources of information at their fingertips; the business of industrialists is production and distribution of commodities. The Canadian Government exercises a considerable degree of control over exports and imports, and the Canadian Government—with all its imperfection—is, in the last analysis, the voice of the Canadian people.

Looking Backward

10 YEARS AGO

From The Daily News of June 11, 1937

The Nelson Maple Leafs defeated the Rossland Redmen 10-9 in a League game played in Nelson Thursday night. The Nelson team consisted of Gibbons, DesBrisay, Horswill, Townsend, Whitfield, Kelly, Egan, Bonneville, Smith, DeVoin, Paterson, Bishop and Cooper. Referees were Ken Paul and Bob Paterson.

Dr. Robert M. Perdue of Trail, oldtimer who had a colorful career throughout Western Canada, and whose history is the story of the growth of the West, died yesterday.

25 YEARS AGO

From The Daily News of June 11, 1922

Jack Mulholland killed a large grizzly on Cultus Creek after a close tangle with Mr. Bruin.

At the convocation of the Toronto University to be held today, Miss Isabel Forin will receive her Bachelor of Arts degree.

At a meeting of the Cranbrook Odd Fellows, R. P. Moffatt was installed as Noble Grand of the lodge.

40 YEARS AGO

From The Daily News of June 11, 1907

The smaller street car was equipped with a powerful headlight last night, and a trial trip was made over the line to test it out.

A new strike has been made at the Kaslo Mine at the 200-foot level at which eight feet of ore that prevailed at the 100-foot level has been uncovered.

Officers elected by the Knights of Pythias include A. Thomas, R. J. Steel, T. J. Reisterer, R. G. Joy, G. M. Gunn, H. E. Douglas, G. M. Johnston, J. D. Pitchford and L. K. Larron.

Today's Horoscope

You are an omniverous reader, intellectual and a sparkling conversationalist. Your judgment is good and you never act in haste. You have great personal pride, like to dress well and have a sincere devotion for your family. You form and keep friendships easily and will be very happy. The day's augurs are adverse. Early gains or advantages could be lost before the day is over. Taking chances would probably prove quite expensive. A sense of well-being and happiness pervades you during your next year. Your affairs prosper, but watch expenditure. Beneficial changes, many successful ... and business expansion are portended. Born today a child will be fortunate ... and exhibit many fine characteristics and much talent. Extensive travel is ...

Interested, Kaslo—Could you kindly inform me if there is a Sears and Roebuck mail order house in Vancouver? *If there is,* could a person order articles there without having to pay duty charges?

The Sears Roebuck Company opened a small mail order branch in Vancouver June 10. It is necessary to pay duty charges.

K. I. M., Kimberley—Could you please tell me what to do to get rid of a musty smell in my refrigerator, caused by food?

A small saucer of air slaked lime set in the bottom of the refrigerator will absorb odors caused by food.

C. A. A., Creston—Would you tell me where I could obtain my birth certificate? I was born in Sweden.

Write to the Vital Statistics Branch, Parliament Buildings, Stockholm, Sweden.

Municipal Library Notes

NON-FICTION:

GIBBS, Philip: Pageant of the Years: An Autobiography.

"Much has happened in his immensely varied life; a great deal of it is matter of considerable intrinsic importance, and he knows how to tell the tale in such a way as to maintain the interest. Delightfully written, with the vigor, color and conviction, and that keen human sympathy which also has consistently characterized his work."

LEIGHTON, Clare: Tempestuous Petticoat.

Clare Leighton's portrait of her mother could well hang in the gallery next to Clarence Day's portrait of his father. In a full-bodied and delightful character study of an indomitable woman, the author has attained as well a fine and flavorsome appraisal of the Edwardian era. Tempestuous Petticoat should have a permanent place among books dealing with the manners of a vanished age.

GILMAN, Coburn, Editor: Weekend Book of Travel.

Voyages of discovery, adventure and romance throughout the seven seas. Illustrated with photographs. Compiled by the editor of "Travel" Magazine.

PEATTIE, Roderick: Struggle on the Veld.

South Africa is today a very unremote, explosive mixture of jarring races. Peattie, noted author and editor, formerly head of O.W.I. activities in South Africa, analyzes its political, social, racial and economic problems. His interest, fortunately, is in people, and he presents them as they are . . . he has so organized his story of South Africa today that it covers all important factors which make the Union what it is, a land of contrasts and problems, of hospitality and unforgettable charm.

HERSEY, John: Hiroshima.

The story of six human beings who survived the explosion of the atom bomb over Hiroshima. This is the complete text of the brilliant report to which the New Yorker devoted its entire issue of Aug. 31, 1946.

SCHUSCHNIGG, Kurt von: Austrian Requiem.

"Drama and tragedy deserving the pen of the greatest novelists and playwrights of our time . . . a valuable psychological document, and one of the most moving love stories of our day."

BERNHEIM, Bertram M.: Surgeon's Domain.

Dr. Bernheim says he entered surgery by the back door. By graduation time a pretty girl had promised to be his wife, and hospitals frowned on married internes. And he wasn't *among the top 10 men in his class (to whom* appointments to the John Hopkins Hospital go). Moreover he failed to get an appointment through competitive examination elsewhere. So, instead of taking two to four years to become a surgeon through apprenticeship in a recognized hospital, he took nearly 10, including a year in Germany, and a non-paying job under a famous doctor. Then World War I came along, and he worked in the front line without benefit of specialists and consultants, and incidentally learned a lot about surgery. An informal and lively book, part autobiography, part commentary. A Surgeon's Domain is good reading.

FELDT, Commander Eric A.: The Coastwatchers.

This is the story of a secret and highly *unorthodox military unit which, out of the* foresight of the Australian Navy, and the determination of a handful of enemy-surrounded planters, missionaries, Government officers and miners, grew into the organization that supplied information from the heart of Japanese-occupied tropical islands in the Southwest Pacific. They did not win the war, but they did hasten the victory, and it is a stirring narrative.

Press Comment

TEACHING NOT NEEDED

Much comment has been excited in the press by the speech of Rabbi Rabinowitz in Toronto in which he asserted that the British soldiers now in Palestine "are being briefed in anti-Semitism and taught by their officers that the Hebrew is their enemy." There is unfortunately no need for these men to be taught by their officers that some Hebrews are their enemies. When you are a member of a military force, and certain persons are systematically taking potshots at you and leaving dynamite under your barrack, it is extraordinarily difficult not to regard those persons as your enemies.—Toronto Saturday Night.

By the Starting Gate

That Chicago man who won a department store contest by smoking his pipe for 87¾ minutes from one lighting (*See Monday's Daily News,* Page 1) did not, I imagine, set a record, except perhaps a local one.

Rookers' Clubs in Holland, and their counterparts in London, have held these smoking contests for many decades, and I imagine have set records that should take some beating. I recall reading an account of one such contest close to 45 years ago, in World Wide Magazine.

Some clubs permit the contestants to bring their own pipes; others hand around new clay pipes. In all cases the quarter-ounce, or other small portion, of tobacco is weighed out to each contestant, who is also given two matches. A two-minute period is allowed for lighting up, but almost invariably the entire assemblance, seated around the walls of the hall, waits till the last quarter *minute, and then all elbows are* crooked simultaneously to light up. Usually some smarty, who cuts his time down to a few seconds, fails to get lighted before the gong, and affords a laugh by being counted out.

There is a judge for each group of five smokers, and as each judge faces his group of silent men, who are conserving their respective vital *sparks by not drawing except for* the purpose of keeping their sparks alive, he may require any man he suspects to be sparkless, to produce a small puff.

The last man in the room able to produce a puff is the winner.

RODDY THE ROOKIE

Roddy McDowall, whose love af*fair at 16—at which age he solemnly* achieved manhood with all its responsibilities—was one of the engaging elements in the technicolor, "Holiday in Mexico," seen here two or three weeks ago, put on quite a show in manfully smoking the meerschaum pipe that was a birthday gift to him from his beloved. His prospective father-in-law passed his tobacco-pouch over, and the *young he-man stuffed the pipe full* and was soon smoking prodigiously, his head almost obscured in the cloud of dense fume he succeeded in producing. No doubt with keen sympathy, the audience watched his countenance gradually register awareness that all was not physically well with him.

It was a good stunt, and yet not at all true to life. No uncoached beginner ever packed his pipe solid enough at the first try, nor wreathed his head in smoke at the first try. If Roddy had used half a box of matches in keeping his first pipeful alight, it would have been truer, as well as funnier. Either Roddy had personally mastered pipe-smoking, was extensively coached in packing his pipe, or used tobacco specially doctored to produce a suffocating cloud of smoke.

The fade-out showed him suffering qualms which all of us smokers, male or female, could well imagine from personal memory.

OLD HOSS

Weather Experts Peak Ahead Only 24 Hours

ROSSLAND, B.C., June 10—The guest speaker at the monthly meeting of the Rossland Canadian Club was Professor George H. T. Kimble, professor of geography at McGill University and Director of Meteorological Service at the McGill Observatory.

President H. Bayley said that *Professor Kimble had served five* years on the staff of the University College Hull and from 1936 to 1939 was lecturer in the Department of Geography at the University of Reading. In 1939 he volunteered for work with the British Naval Metetorological Services, serving first as a Lieutenant then as a Lieutenant Commander, for over five years he was engaged on invasion weather projects in European and Far Eastern theatres. In 1944 he got an overseas asignment which took him around the world in 80 days, beating Jules Verne by a matter of minutes.

Professor Kimble said he had chosen as his subject "Weather" as it was the Anniversary of D Day and weather had played an great role in planning for D Day.

Weather played a most vital role in the affairs of mankind. It was an important factor in battle and also important factor in planning all strategic events great use was made of the Meteorologists weather reports. He said Germany had very efficient meteorologists, whose weather forcasts assisted them greatly in their maneouvers. The Japs were not as skilled in their forcasts while the Allies were every bit as weatherwise as was their enemies.

Professor Kimble explained the routine that the forcasters used in making his forcasts, synoptic charts or bird's eye views were made at certain times of a large area then all observations of conditions like velocity of wind etc. were shown on the chart to make a basic pattern. He said that in Peace Time it was easy to forcast weather as *it was internationalized, that every* country or district reports the prevailing weather conditions; while during hostilities the prevailing weather conditions were kept secret. As a rule the weather conditions in the Atlantic area today would prevail in France tomorrow so the enemy could plan accordingly.

He explained how reconnaissance flights were made by the air force over the Atlantic to learn the conditions in that area also the use of radio and ballons etc. and the use of weather records many years back in charting the weather. He explained the work and investigation followed in planning for D Day he said that the original plan had been for June 5th but weather conditions were not favorable but June 6 conditions were. He said the next feasable date would have been June 18.

24 HOURS LIMIT

He said that no forcaster would commit himself to forcast definitely more than 24 hours ahead. He said that forcasting was still in the primitive stages after 50 years intensive investigations.

Glycerine is a colorless liquid, 26½ per cent heavier than water.

Movie Gossip

M.G.M. Puts Most Ambitious Effort Into Production of "Joan of Lorraine"

By RON GADSBY
Canadian Press Staff Writer

It could be the influence of the English success "Henry V" or maybe it's just a good idea, but M.G.M. is putting on one of its most ambitious efforts in the production of "Joan of Lorraine." Ingrid Bergman will play Joan of Arc.

It is expected four months will be required to complete the "shooting."

Hundreds of extras will be engaged in the battle scene to be filmed in California's San Fernando Valley.

A special suit of armor, constructed of magnesium has been designed for Bergman and authentic dresses of the period are being made by a *battery of seamstresses.*

GOOD DRAINING

Who could forget the washroom attendant in "Gilda". Steven Geray was his name and the personal triumph he scored in that movie stood out like a flowered hat on the lady in front. In a new production by Columbia, "When a Girl's Beautiful," Geray will have one of the four leading roles and will work with Adele Jergens.

A WORTHY NOTE

Have you noticed the increasing diligence with which the big producers devote themselves to musical backgrounds for the better pictures? The problem of scoring mood music requires a maximum of attention *to cutting, timing and patience* but the results are worth the effort. Too few movie patrons detach themselves from rigid attention to the picture to listen to the music. Try it sometime. You will probably be pleasantly surprised and if you remember it is dubbed in after (cape) the film is cut, you will be amazed.

Optimistic About Housing In Germany

BERLIN, June 10 (Reuters) — If housing reconstruction and repairs in the British Zone of Germany continue at the present rate, it will take until the year 2121 for Germans to reach a housing standard equivalent to that planned for Britain by next year.

The present rate will, however be speeded up. But few officials either Allied or German, are optimistic of the *1948 British housing* standard being reached in Germany before about 1990.

About 750,000 Germans in the British Zone live in what is described as "emergency accommodation."

First priority goes to miners, especially those in the Ruhr Valley. Experts believe that on a long-term view, the interests of the 23,000,000 inhabitants on the British Zone will best be served by deliberately favoring the mining community in the matter of housing.

On 5,500,000 homes — the official term is "dwelling units" — which existed in 1939 in the geographical area which is now in the British Zone, 1,600,000 were damaged beyond repair.

Apart from the problem of their replacement, to keep the position at its 1939 level, 100,000 dwelling units a year would need to be built or made habitable. The present housing drive is making available 75,000 units. But against this must be set a continuing increase in population, as more and more refugees come in from the East.

LONDON (CP)—D. R. Collins, one of Britain's leading perfume manufacturers, will visit the St. Lawrence Valley and "believes that if he can capture the unique atmosphere of the valley in Spring it might very well form the basis of a new perfume to add to his famous series," a trade announcement said.

School Handiwork To Be Exhibited

A school display of handicraft, sponsored by the Parent-Teacher Association, will be shown in the *Nelson Armories Friday and Saturday.* It is the third annual display of its kind to be exhibited here.

Selected from high grade work done at the Hume, Central, Junior and Senior High Schools, the display will feature woodwork, metalwork, drawing, art work, dressmaking and handwriting.

The display will be on view Friday from 3 p.m. to 10 p.m. and *Saturday from 10 a.m. to 10 p.m.*

There are more than 450,000 species of insects.

● Think of the terrifying speed of fire . . . the intense heat of flames. Then consider the walls and ceilings of your home. Are they fire hazards? Would their wooden framework ignite quickly if fire broke out . . . spread destruction before help could arrive?

GYPROC Fire-Protective WALLBOARD, like plaster, fights fire . . . protects the flammable wood behind walls and ceilings . . . holds back the flames and prevents them from spreading.

Because it is made of Gypsum, GYPROC WALLBOARD won't burn. It provides each room with a shield of protection against spreading fire . . . gives help time to arrive.

Build fire protection into your walls and ceilings with GYPROC Fire-Protective WALLBOARD.

OVERSEAS CRICKET

TOTTINGHAM, Eng., June 10 (Reuters) — South Africa tonight held a powerful margin over England in the first test cricket match of the season with the Dominion eleven leading by 47 runs as England neared completion of its second innings.

With six wickets standing, England had 486 runs and South Africa 533 for its first innings only. In the first innings England got 207 and in the second 278 for four. After a strong second innings start, South Africa's bowlers went to work and stopped Len Hutton, Cyril Washbrook, Bill Edrich and H. E. Dollery.

Silverton Trims N. Denver Nine

NEW DENVER, B.C., June 10 — Keeping eight New Denver hits well scattered while his mates pounded two New Denver chuckers for 11 hits, George (Dutch) Groenhousen, Silverton right-hander, pitched his team to a 7-3 win over the New Denver club in a regular league game.

New Denver threatened to take over the lead many times, leaving *11 men stranded on the paths, but* found Groenhousen and the Silverton infield too tight when the chips were down.

Groenhousen struck out six men, while Tateishi and Hyashi for New Denver struck out nine. Harding and G. Nelson collected three-baggers for Silverton, while 'Red' Bates got a three-bagger for New Denver. There was one double play—Hyashi to Thring to Yamada. Harding, Silverton second baseman, had a perfect day at the bat collecting four hits in four trips to the plate.

Lineups:

New Denver—C. Yamada, W. Tateishi, p. 2b; W. Thring, 1b; C. Hyashi, 2b, p; D. Crellin, ss; Q. Forsythe, 3b; W. Bates, lf; T. Takanaka, cf; R. Butler rf.

Silverton—J. Fairhurst, c. G. Groenhousen, p; W. Graham, 1b; R. Harding, 2b; D. Hambly, ss; W. Postlethwaite, 3b; J. Lisk, lf. G. Nelson, cf; J. Hambly, rf.

League standing:

Slocan City	1.000
Silverton	.666
New Denver	.000

Leading hiters:

Harding, Silverton	1.000
Avis, Slocan City	.500
L. Hufty, Slocan City	.444
T. Graham, Slocan City	.428
G. Nelson, Silverton	.428
T. Takanaka, New Denver	.400

Pitching—T. Graham, Slocan City, 2-0.

Stolen bases—Postlethwaite, Silverton; Avis, Slocan City, and Fairhurst, Silverton, 3 each.

TO RAISE CASH FOR U. S. OLYMPIC TEAM

SUN VALLEY, Idaho, June 10 (AP) — Representatives of Pacific Coast Conference voted unanimously today to adopt the National Collegiate Athletic Association's proposed plan to raise $150,000 toward the expenses of the 1948 U.S. Olympic team.

CAMBRIDGE IVY SHRIVELS AT SIGHT OF YANKEE VICTORS' CRICKET

CAMBRIDGE, England, June 10 (AP) — Amid cultured murmurs of "kill the umpire" from Britons and raucous shouts of "Oh, oh, well played" from the Americans, a United States men's team from Cambridge defeated a British girls team from Oxford at cricket today but lost ignominously at baseball.

The Americans tripped over the wickets. They lost their straw hats and gave a cricket performance that threatened to shake the ivy-covered walls of this 700-year-old university. Yet they won, 56-52.

But when it came to their own game, described in the official program as "a variation of the children's game, rounders," the Americans took a 14-9 drubbing despite their use of Sharma's Douglas, daughter of American Ambassador Lewis W. Douglas, as a pinch-hitter in the third and final inning.

Some 5000 spectators flocked to the vast athletic field for the fun.

-and Like's last — "international test" match" between the two countries.

"MOIDER DE BUM"

A troupe of American girl cheer leaders led by Miss Douglas, drew cheers from the crowd with such yells as:

"Oh, well played sir. Oh, well played. Sir, give a small sip on [illegible]."

American players who didn't wear the standard straw hat, gay blazer and white flannels, dressed up as Uncle Sam, George Washington, Stonewall Jackson and a couple of red indians.

The British spectators quickly got the point of American ball park humor.

"Take him out," they shouted in baritone whispers. Then, gaining confidence, "Murder de bum."

The English organizing union, sponsor of the affair, said it was just another move toward bettering Anglo-American understanding.

Bluebird Goes Into Water Today

LAKE CONISTON, Westmorland, Eng., June 10 (AP) — Sir Malcolm Campbell tested the jet motors of his Bluebird II again tonight and later said everything was in readiness for his runs on this five-mile body of water to better his own world speedboat record of 141.7 miles per hour.

The record was set here Aug. 19, 1939.

The Bluebird, now resting on a truck, probably will be put in the water tomorrow. Sir Malcolm said he may make a practice run then if conditions are good. The actual test, however, will not be made until Thursday, or until every factor is perfect with no wind and not a ripple on the water.

"I am taking no unnecessary chances, even though I am a fatalist," said the 62-year-old Scotsman.

A's Again Clip Tigers

By STEVE ROBERTSON
Canadian Press Staff Writer

Collecting 14 hits, including three home runs, Philadelphia Athletics came from behind twice Tuesday to take their second straight American League victory from the League-leading (though faltering) Detroit Tigers 9-8.

Meanwhile, the second-place New York Yankees were defeating Chicago White Sox 5-3 to pull within half a game of the Detroit crew. At St. Louis the Browns edged Washington Senators 2-1 and Boston Red Sox downed Cleveland Indians 3-2.

At Detroit, Eddie Joost, Elmer Valo and Hank Majeski each poled his fourth homer of the season as the A's took the decision with a four-run uprising in the seventh.

Eddie Mayo's three-run homer and another by Roy Cullenbine for two more counters weren't enough to match the surprising A's in the up-and-down affair in which the lead changed hands four times. Bob Savage, third of four Philadelphia hurlers, got credit for the win while Freddie Hutchinson was tagged for the loss.

Over in the senior circuit, Billy Rigney's "blooper" infield single with the bases crammed in the 12th inning gave New York Giants a 3-2 victory over Pittsburgh Pirates. With the triumph came a full-game lead in the League race over Brooklyn Dodgers and Boston Braves, tied for second.

Other activity saw Cincinnati Reds win the opening game of a twin-bill with the Dodgers 3-1 behind the five-hit pitching of lanky Ewell Blackwell but the Brooks came from behind to take the night-cap 6-5.

Meanwhile Boston edged Chicago Cubs 2-1 and St. Louis Cardinals took an easy one from Philadelphia Phillies 8-2.

To Captain Runners

SOUTH BEND, Ind., June 10 (AP) — Ernest J. McCullough, quarter-miler from Calgary, will captain Notre Dame's 1948 track team, Coach Elvin R. (Doc) Handy announced today after a poll of 1947 monogram winners.

The 22-year-old runner, beaten only once during the outdoor campaign, also was a member of the Irish mile relay team. He was a member of the Royal Canadian Navy Volunteer Reserve during the war.

South Slocan Winds Up Bowling With Gala Supper, Presentation of Prizes

SOUTH SLOCAN, B.C., June 10—The closing party for the Bowling Clubs of No. 3 Plant Ladies Teen-Agers and Men, was a military whist held in No. 3 Plant Hall and conducted by J. D. Yeatman.

Twelve tables were in play, with the winners Mr. and Mrs. A. Dunsmore and Mr. and Mrs. P. Horlick carrying off the trophies. The consolation prizes went to Mr. and Mrs. J. Ridge and Mr. and Mrs. D. McDonald.

Supper was served by members of the Ladies Bowling Club, assisted by several of the teen-agers with Mrs. D. McIvor as convener. After supper the bowling prizes were presented. Mrs. J. Street, President and Miss Gwen Macrone, Secretary presented the ladies prizes, Bob Dunsmore presented the prizes to the Teen-Agers and A. Macrone, President of the Men's Club and Grant Tindale, Secretary, presented the men's prizes.

Ladies prizes were as follows —

High team — M. Woodford, E. Marshall, W. Jones and B. Ridge.

Runner up — H. Street, L. Powell M. Bland and M. Bird.

Doubles — L. Powell and S. Hammond. Runner up — O. Muir and W. Jones.

High aggregate — L. Powell (764) Runner up — H. Street (724). High single — M. Woodford (310). Runner up — G. Macrone (297).

Total pins for the season — G. Macrone with 12,439 pins. Runner up — H. Street with 11,984 pins.

The men's bowling prizes —High single, J. Ostlin, high aggregate, J. Ostlin; total pins, A. Macrone, Foursome, G. Tindale, E. Stone, R. Johnson and C. Johnson. Doubles, P. Horlick and F. Garrett. Singles, R. Mulloy.

Bowling winners (Teen-Agers):

Winning team — Keith Loewen, Ken Mulloy, Jean Gilker, Matthew Dunsmore, Roy James, Diane Samson.

High single, Gilbert Helbecque; Runner up of high single, Matthew Dunsmore; high aggregate, Gilbert Helbecque; runner up of high aggregate, Keith Loewen.

Doubles, Keith Loewen, Diane Samson. Runner up of doubles, Gilbert Helbecque, Cyril Rogers. Booby prize, Ronald Jacobson.

The Ladies Bowling Club entertained the pin setters at a jolly party. The ladies set up the pins for the young guests who were divided into four groups with a high single score's prize won by George McDougall (124), Doris Greavison (164), Bob McDougall (205), and Geoffrey Davis (289). A sumptuous lunch was served at the close of the games.

Ted Williams Still Top Vote-Getter

CHICAGO, June 10 (AP)—Ted Williams, lanky Boston Red Sox batting staar, still was the top vote-getter as the second tabulation in the all-star baseball poll was released today.

Williams polled 948 votes from the 2,365 early ballots forwarded by a few centres. The fans' voting is being sponsored by the Chicago Tribune and 192 newspapers, radio stations and magazines in the United States, Canada, Hawaii, and Panama.

The fans' votes will determine the starting lineups, with the exception of th pitchers, for the National and American leagues in the 14th all-star encounter in Wrigley Field July 8. The vote ends June 26.

The slugging Walker brothers, Dixie of Brooklyn Dodgers, and Harry of Philadelphia Phillies also were among the favorites in the opening returns.

In the second-day tabulation, Lou Boudreau, Cleveland's manager and shortstop, dropped from first place to second as Luke Appling, Chicago White Sox veteran, surged ahead, only players polling more than 900 votes besides Williams and Joe Dimaggio, New York Yankees centre fielder, with 922, and Johny Mize, New York Giants first baseman, with 907.

American Women In Fourth Round For Golf Title

GULLANE, Scotland, June 10 (AP)—Mrs. Babe Didrikson Zaharias of Denver and Ruth Woodward of Fall River, Mass., fought their way into the fourth round of the British Women's amateur golf championship today as their fellow American, Helen Sigel of Philadelphia, bowed out in a third-round match.

Playing true to form, the highly favored babe had little difficulty in polishing off Mrs. Val Reddan, former Irish champion, 6 and 4.

Miss Woodward, however, ran into tough going, and barely eked out a 1-up victory over Catherine Park of Scotland.

Miss Sigel, playing with a wrist injury, was the victim of a 3 and 2 defeat of Miss M. G. Smyth, Irish internationalist.

Matches today will cut the field to eight for Wednesday's quarter—and semi-finals. The championships will be decided Thursday.

SEARCH FOR MAN WITH LONGEST "LINE" IN TOWN

VANCOUVER, B. C., June 10—(CP)—Police here today were looking for the man with the longest "line" in town, following the theft of two reels of electrical cable from a power substation in the Marpole District. The reels, each containing 600 feet of copper wire, weighed a total of 1500 pounds.

NO SERIOUS HURT FROM BAT SPLINTER

PHILADELPHIA, June 10 (AP) — Lynwood (Schoolboy) Rowe, veteran Phillies' pitching ace, escaped serious injury Monday when he was struck on the elbow by a flying fragment from Stan Musial's broken bat. But he will be out of action for at least a week.

X-ray studies disclosed that Rowe suffered a painful laceration of the elbow. There was no bone bruise or break and no damage to the ulnar nerve as originally feared.

CANADIAN DOLLAR UP

NEW YORK, June 10 (CP)—The Canadian dollar was up ¼ at a discount of 7 13-16 per cent in terms of United States funds. The pound sterling was up 1-16 at $4.02 13-16.

World's Fastest Is Now Mel Patten

The latest sprinter to hold the title of "world's fastest human" is tall, slim Mel Patten of the University of Southern California, who sped over the 100 yards in record-tying time of 9.4 recently at Modesto, California. The sprinter thus equalled the world's record held jointly by Frank Wykoff, Jesse Owens and Clyde Jeffrey. His coaches expect he will break the record.

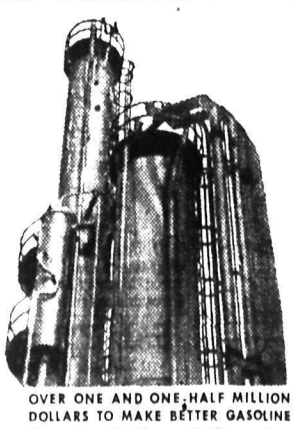
Entrance to Stanley Park, Vancouver, B.C.


OVER ONE AND ONE-HALF MILLION DOLLARS TO MAKE BETTER GASOLINE
The new Shellburn Refinery has behind it the technical "know-how" obtained by Shell from operating refineries throughout the world. Through world-famous Shell Research British Columbians may now enjoy new driving pleasure with Shell Gasolines—motor fuels produced by British Columbians especially to meet B.C.'s driving conditions.
SHELL GASOLINES
are specially blended to meet B.C. conditions
You hear down on the gas for the long uphill climb . . . and the motor responds with a deeper note of extra power—smooth, steady, knockless!
Shell Gasolines are made right here in B.C. at the new Shellburn Refinery. They are specially blended to meet British Columbia's driving conditions . . . with quicker starting *in B.C.*—powerful pickup *in B.C.*—extra miles *in B.C.*—"mountain goat" hill climbing *in B.C.*
As you know, gasoline is one of the most sensitive of products—it is sensitive to temperature, humidity, altitude. Shell Gasolines from the Shellburn Refinery are road-tested here from sea to mountain top—our proving ground!
Your car performs *best* in B.C. with gasoline made specially *for* B.C.
YOU CAN BE SURE OF SHELL

TODAY'S News Pictures

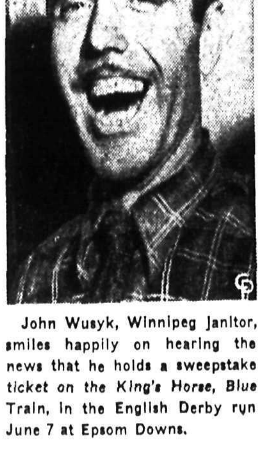
Seaplane Victim

Lloyd E. Young, 29, of Long Branch, Ont., was one of four men who died when a seaplane plunged into the choppy St. Lawrence River opposite Montreal. He was a geologist, employed by a Toronto mining firm. The plane was on a routine flight from the Lake St. John mining section of Quebec preparatory to leaving for Northern Labrador.

French Flags Presented to Museum

French veterans of World War I stand at attention holding regimental flags of World War II, during the presentation of the flags in an impressive ceremony in the courtyard of the Invalides War Museum. Eighty flags in all were presented to the War Museum.

Ticket



John Wusyk, Winnipeg janitor, smiles happily on hearing the news that he holds a sweepstake ticket on the King's Horse, Blue Train, in the English Derby run June 7 at Epsom Downs.

Explosion Wrecks Apartment Building

Firemen are shown searching the ruins of the South Denver, Colo., apartment house for possible victims of a terrific explosion which completely wrecked the structure, killing at least three persons and injuring eight others. The blast was blamed by police on escaping gas.

Canine Explorer

Two-year-old "Toddy" Dustin, of Chevy Chase, Md., is bestowing an enthusiastic hug on her favorite pooch, "Rickey"—a flying husky of the Byrd Antarctic expeditions—on his arrival in Washington by plane from Boston. "Rickey" was born 13 years ago in the Antarctic and was back there on the recent Byrd expedition. He came to Washington with "Toddy's" dad, Lieut.-Cmdr. F. G. Dustin, an aide to Admiral Byrd.

Defy Strikers-Dig Kin's Grave

After having crossed a picket line of striking gravediggers, the Rev. Laurence Blackburn (right), Rector of St. Anne's Episcopal Church, Lowell, Mass., and his brother, Wallace M. Blackburn, of Dearborn, Mich., are shown digging a grave for their mother, Mrs. Ora E. Blackburn, 72, in a Cleveland, Ohio, cemetery.

Market Trends

NEW YORK—Stocks moved narrowly upward in sluggish session. Total transfers were in the neighborhood of 600,000 shares.

MONTREAL — Losses, ranging from an eighth of a point and a quarter, predominated in all active groups.

TORONTO — Prices generally were soft in active trade as mining issues showed consistent weakness. Western oils were irregular.

LONDON—After a quiet opening most issues continued dull with little support offered.

VANCOUVER, June 10 (CP). — Oils hit a forward pace again while mines edged up slightly. Industrials were unchanged.

Calgary Livestock

CALGARY, June 10 (CP)—Very few cattle on offer. Butcher cattle under pressure.

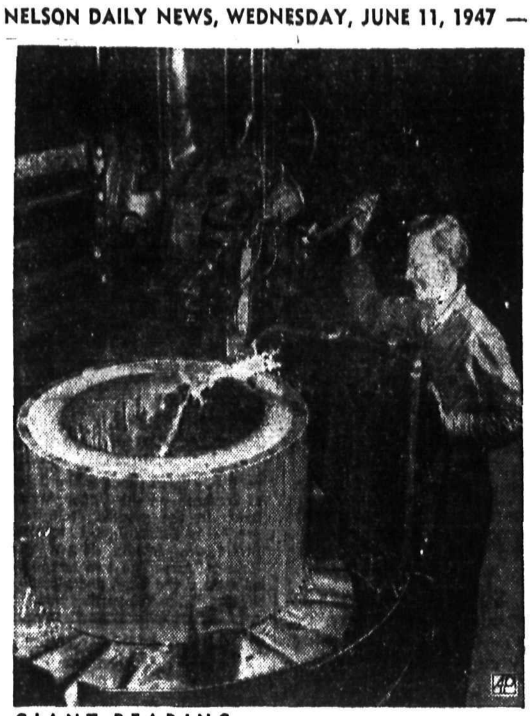
Monday's receipts: 54 cattle, 81 hogs.

A few hogs sold Monday at $20.50 for A's at yards and plants. No sows sold.

Good butcher steers, $15 to $15.50; common to medium, $12.50 to $14.50.

Good cows, $11 to $11.50; common to medium, $8.50 to $10.75. Canners and cutters, $5.50 to $8.

Good to choice veal calves, $13 to $14; common to medium, $10 to $12.50.



GIANT BEARING — John Ostlund, expert grinder in the SKF plant at Philadelphia, works on the largest spherical roller bearing ever made in the U. S. This unit weighs 5,100 pounds. It's for a Niagara, Wis., paper mill.

District Forest Scalings Soar; Fir, Larch High

Scalings in the Nelson Forest District during May were over 2,000,000 feet-board-measure than during the same month last year, statistics from the B. C. Forest Service at Nelson show. In May, 1946 the total was 14,672,643 f.b.m. as compared with 12,108,156 f.b.m., in May last year. The new figures brought the total scale to 62,430,008, almost 10,000,000 more than the first five months of 1946.

Fir, with 4,332,306 f.b.m., although slightly lower than the previous year, in May, was the highest in scalings. In the minor products, mine timbers were tops, with 399,045 lineal feet, compared to 1,307,443, proving it a considerable drop from the past year.

Total scale in f.b.m., was:

SAWLOGS	1946	1947
Fir	4,434,751	4,332,306
Larch	2,380,232	3,666,425
Spruce	1,007,793	2,085,509
Yellow Pine	1,606,423	1,730,293
Hemlock	558,474	922,027
White Pine	592,940	663,628
Cedar	990,311	593,718
Cottonwood	450,574	516,440
Jackpine	33,671	92,066
Balsam	57,987	47,787
Birch		2,452
MINOR PRODUCTS		
Poles, Piling (lineal feet)	116,882	189,590
Mine Timbers (lineal feet)	1,307,443	399,045
Mine Props (cords)	1,200	626
Hewn Ties	7,968	7,398
Cordwood (cords)	950	782
Fence Posts (cords)	8,105	8,627

Shoot Grizzly

This grizzly bear was shot recently by E. B. Gates of the Gates of St. Leon on the Upper Arrow Lake. In the picture, from left, are Philip Gates, E. B. Gates, Bill Swain Jr., Arnold Jensen and Robert Gates. The two last-named spotted the bear, and all helped drag it the 100 yards home.

New Nakusp Fire Truck

NAKUSP, B.C., June 8—Citizens were aroused to action recently when the fire siren sounded and the new fire truck with the volunteer fire brigade turned out for inspection in the centre of town.

Happily as it turned out no fire was in evidence but visiting engineers D. Ford and E. Rose of Vancouver were giving voluntary fire inspection to fire fighting equipment, water supply, etc., for the benefit of the public.

Pictured above is the new fire truck which was bought by the citizens of Nakusp and District by volunteer subscription.

"Kangaroo" People Still Exist, Claims Explorer

By WILLIAM STEWART
Canadian Press Staff Writer

SYDNEY, Australia, (CP) — Stories of a mysterious Aboriginal people living among the sandhills of Central Australia have been revived by Fred Brakeley, veteran explorer and adventurer who believes they might descended from a marsupial people of long ago.

Blakeley who roamed remote parts of Australia for 30 years, tells of encountering the athletic, copper-coloured natives in 1930 when he led an exploration party to the heart of the continent about 1,800 miles northwest of Sydney.

"They resemble our general type of Aboriginal only remotely," says the explorer. "Their noses are inclined to flatness, but yet have Hebraic characterists, their hair is wavy with none of the negroid crinkle."

Apart from the sandhill natives' remarkable powers of endurance and observation, Blakeley says he was struck by the peculiar muscle development of their midriff."

He says he thought at first the "spare-tire" about their waists might be some kind of energy store giving them their strenght and agility while they went without food two or three days.

Blakeley tells that he later asked the late Sir Colin McKenzie who was head of the Australian Institute of Anatomy, if the natives bulging waist muscles could not have been inherited from ancestors who carried their young in pouches in the manner of such marsupials as the Australian Kangaroo.

He says Sir Colin replied: It seems etorodianry, but to the scientist nothing is impossible."

Blakeley describes the sandhill natives as no darker than white Australians who spend their time in the sun. He says the sandhill women "with their rather proud poise and gait, dark tan and general air of Importance woul be a sensation on city bathing beaches."

Three sandhill "king" tribes each specialize in the respective roles of labor, scouting and hunting and every 300 or 400 years produce a male chile who becomes proficient in all three and rules the tribes as "Overlord."

Tribal legend, according to Blakely, is that an Overlord remains with the natives as their leader for 150 or 200 years and then "departs to seek new wisdom and to wait while the tribes create a new body fit to receive his spiritual regality on his return to earth."

All sandhill men carry crescent-shaped bean-wood sticks into which small holes have been cut out with flint.

"To the white eyes, these little holes are that and no more," says Blakeley. "Under a magnifying glass each little hole assumes its own character some have twopoints, some three jutting out from them, and so on.

Each little flint- made hole tells a part of the life story of the member of the people of the sandhills to whom the stick belongs. Greater sticks,ages old maybe, tell the history of the tribes. I have to know that these stickes tell a story, to him who is able to read them, of ages before the world as we know it had its being."

Yesterday's Kids Boost Boys' Club

WINDSOR, Ont., (CP) — Nine small boys sat on a dusty curb in downtown Windsor on a summer day in 1918 and pondered the adventurous, favourite question of most small bays—"what'll we do today?" They decided on baseball. With the enthusiasm of 12-year-olds they tangled with a well-drilled team at Assumption College. Who won, nobody remembers.

But people do recall that game as the uncertain start of the Mic-Mac Athletic Club, now a well-established organizzation through whose afforts scores of Windsor boys now have the answer to "what'll we do today?" The club's main project for the last two years has been juvenile basebell—10 teams of 15, 16 and 17-year-olds slugging it out three nights a week in five city parks.

Now, almost 29 years after its street-corners start, the Mic-Mac club is a group of professional and business men, industrialists, working men, ministers, priests. They have one ting in common—they think "kids are teddific."

The original Mic-Mac team was a success. Its name is attributed to the late Raymond (Doc) O'Brien to whom it meant the fighting spirit of a storied Indian tribe It was a 12-year-old's choice—and it stuck.

STARRED IN FOOTBALLL

During the 1920s and the 1930s the club's black-and-white colors were synonymous with the best in Windsor football, baseball and hockey. Then Mic-Mac teams dropped from the city's competition as most of the players retired from active sport. For several years thhe only activity was an annual reunion.

In 1942, Louis (Tubby) Harris, a top-notch lineman on many a Mic-Mac football team in independent and Onterio Rugby Football Union competition, suggested a return to ective operation. Warren (Slim) Bolton, another formerly well-known athlete, agreed to help give it a try.

After two years of planning there were 90 active Mic-Macs. When they launched the baseball project in 1945. mor than 400 boys turned out—and 10 sponsors came along with uniforms.

Says Bolton,now president of the club: "We started off on a financial shoestring and, frankly we still operate that way. The $4 membership fees aren't enough and bad weather has played havoc with a couple of our money-raising schemes.

"But here's where we've made the idea work. The Mic-Macs themselves devote all kinds of time to the boys—as managers and coaches and general enthusiasts. When baseball bats were scarce, Mic-Macs on the road would buy them in twos and threes to make sure the league had enough. They offer their cars. And they turn out to the parks to show the boys what they know about baseball. Good publicity helped us get across the idea that the Mic-Macs are doing something worthwhile. That means support from the public."

Coal Creek Leads Fernie Football League

FERNIE, B.C., June 10.—Results of weekend games of the Fernie City Football League were:

West Fernie 1, Northend 1.
Annex Legion 1, Michel 2.

Coal Creek is heading the loop, closely followed by Michel. The League standing is as follows:

	W.	L	T	P
Coal Creek	3	0	0	6
Michel	2	1	0	4
Northend	1	1	1	3
West Fernie	1	1	1	3
Annex Legion	0	4	0	0

Defence Asks Recess In International War Crimes in Japan

TOKYO, June 10 Tuesday (AP) —The defence asked the international war crimes court today for a six weeks' recess beginning JPune 23 "for preparation of the re-mainder of the defendant's case. Chief Justice Sir William Webb said it would be taken under consideration.

Both prosecution and defence staffs are known to favor a vacation recess during the hot Summer, but the Chief Trial Prosecutor Frank S. Tavenner. Roanoke, Va., said he would object unless the defence would agree to revise procedure and incorporate the Pacific War phase of its testimony into individual defences by the 25 accused Japanese.

Freight Rate Rise Would Harm Horse Industry

By JOHN LEBLANC
Canadian Press Staff Writer

REGINA, June 10 (CP)—Western Canada's horse raising industry would be discouraged by freight rate increases, the Horse Co-Operative Marketing Association contended before the Board of Transport Commissioners today.

The Association, which has 15,000 farmer members in the Prairie Provinces and British Columbia, submitted a brief opposing increases as the national freight rate inquiry entered the second day of Western regional hearings.

The brief was read by L. B. Thomson, Superintendent of the Dominion Experimental Farm at Swift Current, Sask., where the Association operates a plant for the processing of horse meat. Mr. Thomson is a Director of the Co-Operative.

The brief said it had set up a unique enterprise, which served to assimilate the West's surplus of horseflesh and supply a demand in other parts of the country for such products as horsehide, and, outside the country, food. The Association's whole economic policy had been based on existing freight rates.

"We believe," the brief said, "that it is not in the public interest to discourage an industry which is supported by about 15,000 farmers and ranchers of Western Canada, and which is instrumental to some degree in aiding the solution of an economic problem."

On the present basis, the industry could be operated successfully with a "reasonable return" to owners of horses. Also it had proven a profitable connection for industries in the past through the sale of supplies, and it provided heavy revenues to the railways.

Future railway business would be still heavier the Association said, as it was planned to expand the Swift Current plant to produce a "substantial" additional tonnage.

Freight charges paid by the Association last year amounted to $619,000, and this year the railways were likely to collect more than $1,000,000 if the organization could continue under existing rates.

LONDON (CP) For the first time since it was introduced after the war 999 telephone number giving an immediate police connection, went out of action. Only one incident was known to have occurred during the time.

OBSTREPEROUS MOUNT— Jockey Al Scotti hits the dirt as his mount, Burra Peg, breaks through the starting gate at Atlantic City. Scotti, who narrowly missed being trampled, remounted and rode the race.
