GARSON LEADS COALITION IN LANDSLIDE MANITOBA VICTORY

Miners Split; 4000 Return to Pits

By The Canadian Press

While "June in October" weather prevailed across the Prairies, giving life to coal-short public buildings and homes, Western Canada miners Monday night were divided on the decision to return to work. Temperatures from Winnipeg to Vancouver ranged from 52 to 83 above.

An up-to-date compilation by headquarters of District 18 United Mine Workers of America (C.C.L.) at Calgary showed only 4,000 of the 9,000 miners on "holiday" have returned to work. The union executive said there were indications this number would be increased shortly.

Without waiting for the lead given them by Southern Alberta's miners who started the walkout Sept. 27 demanding double rations of "red" meat, men from other fields in Alberta and British Columbia decided at weekend meetings to call a halt to the walkout. The back-to-work movement started Monday.

OPERATIONS RESUME

But some mines resuming operations reported absentees among its underground personnel. All 10 Edmonton District mines were reopened and one, the Black Diamond, reported 60 per cent of its coal diggers were still out. Some of the Coal Branch mines in Northern Alberta also reported reduced staffs.

Miners rejecting proposals to resume work in Alberta included those at Drumheller, Coleman, Blairmore, Bellevue, Lethbridge and Shaughnessy. Workers who voted to return but did not take work action were at Michel and Fernie, B.C., and at Nordegg, Canmore, Saunders and Alexo, in Alberta.

Meanwhile, John Crawford, Chief Inspector of Mines for Alberta, told opening sessions of the three-day annual Western meeting of the Canadian Institute of Mining and Metallurgy at Edmonton that labor shortages and the strike of miners had accounted for a considerable setback in the Province's coal production.

Dutch Ready to Negotiate With Indonesians

By JACK SMITH

LONDON, Oct. 15 (AP)—The Netherlands Government was reported willing today to negotiate with Indonesian Nationalists in the rich Netherlands East Indies, where new violence was reported in the revolt against Dutch colonial rule.

"The old Dutch colonial system has to disappear," Lt. Hubertus J. van Mook, Lieutenant Governor was quoted as saying.

The Netherlands government, however, said the statement could not be interpreted as meaning that negotiations would be undertaken specifically with Soekarno, self-styled President of the "Indonesian Republic."

COLD SHOULDER SUGGESTION

A suggestion by Fenner Brockway, political Secretary to Britain's Independent Labor Party, that Parliament send a delegation to study the Indonesian situation met a cold reception in Amsterdam.

"We are not fond of intervention in our internal affairs and we feel ourselves completely capable of handling our internal difficulties," said H. A. Logemann, Minister of Overseas Territories.

A statement on the East Indies situation was expected tomorrow from Premier William Schermerhorn.

An Amsterdam dispatch said that A. W. L. Tjarda van Starkenborgh Stachouwer had resigned as Governor-General of the Dutch East Indies because he favored more drastic methods against Indonesian Nationalists than the Government intends to pursue.

HOPES FOR EARLY PEACE

Aneta said Dr. van der Mook expressed his views on negotiating with the Indonesians at a press conference, at which he also promised that Holland would keep a 1942 pledge by Queen Wilhelmina of self-government for the East Indies and independence within the Dutch commonwealth.

The New Delhi radio, heard in London, said Lt.-Gen. Sir William Slim, Commander of Allied land forces in Southeastern Asia, had arrived in Batavia and was in "great hopes" for an early peace.

Japs Confined to Ways of Peace—General

TOKYO, Oct. 16 (Tuesday) (AP)—Proclaiming the formal completion of Japan's demobilization, Gen. MacArthur said today it was unique in history and that Japan "no longer reckons as a world power, either large or small."

The dissolution of the once arrogant and victorious forces of empire was accomplished without fanfare and right on its Oct. 15 schedule, only six weeks after the Japanese surrender in Tokyo Bay. It was the end of a long and brutal cycle.

Gen. MacArthur, Supreme Allied Commander for the occupation forces, in a world-wide broadcast commemorating the event, hailed it as "extraordinarily difficult and dangerous," yet accomplished with unprecedented ease and speed and without the firing of a shot.

Henceforth, he said, Japan's "path in the future, if it is to survive, must be confined to the ways of peace."

For the first time in their tumultuous history, these islands were without an armed combat force, and already political figures were moving to effect the democratic revolutionary changes in national life dictated b ythe conquering Allies.

Nearly 4,000,000 soldiers and sailors in Nippon have been dismissed and sent home.

Some 3,800,000 others overseas have been mostly stripped of their weapons — except in a few cases where they are serving Allied purposes—and are being slowly brought back to Japan. The process will require an estimated three years, due to shortage of transportation.

Thirty-thousand Navy men are remaining on duty to man homebound shipping.

CONFIRM CRUELTY

A few thousand of the Army and Navy here will remain on active duty, serving the Allies.

The last equipment should be in American hands early in November.

The once great and proud Army and Navy Ministries as of today became civilian agencies, known merely as "Ministries for Demobilization." The officers and men who remain still wear their uniforms, solely because they have no other clothing and can get none. They retain no insignia and are known only as "liaison officers for demobilization."

The anti-climatic end of a military machine which for years had made all Asia shudder came even as new evidence was disclosed on the bloodthirsty methods it employed.

This was the use of living Allied prisoners as bayonet practice targets—an atrocity often reported in the past and now confirmed by Gen. [illegible] Headquarters.

Mine Safety Plan Yields 26 Per Cent Less Accidents

EDMONTON, Oct. 15 (CP)—Organization and function of an accident prevention and safety scheme through the 15 coal mines at Drumheller, in Southern Alberta, was given today by V. A. Cooney of the Drumheller mines, G. A. Vogan, Chief Engineer for Mannix Construction Company, and Prof. E. Stanfield, Chief Research Engineer and Secretary to the Alberta Research Council.

Speaking before the Western meeting of the Canadian Institute of Mining and Metallurgy, Mr. Cooney said there had been 26 per cent less accidents in the first six months of 1945 compared to 1944 with a resulting gain of 47,000 more working shifts in that period.

Pattern of the system was built on substantial incentive to the whole population of the mining area to use care and judgment in every undertaking of their duties. Competitions were arranged and prizes offered.

Plan of the safety-consciousness program extended far into the social life of the mining community, Mr. Cooney explained. Picnics and tournaments were arranged, school essay contests were launched; continuous publicity was extended throughout the season with emphasis on their 26 per cent reduction in accidents after this figure had been officially established.

EVATT SEES KING

LONDON, Oct. 15 (Reuters) — Dr Herbert V. Evatt, Australian Minister of External Affairs, saw the King at Buckingham Palace today before leaving Britain for Washington.

TO STAND TRIAL

BARRIE, Ont., Oct. 15 (CP) — Lloyd Wellington Simcoe, 17-year-old Indian from Rama Reserve, today was committed to stand trial on a charge of murdering Freeman Walker, 65-year-old night watchman at an Orillia plant on March 17.

SEND IN MORE TROOPS TO FACE REBELS

SAIGON, Indo-China, Oct. 15—(AP)—Troops of the famed French 2nd Armored Division poured into Saigon today as sporadic fighting continued between rebellious Annamese and British and French troops.

Additional reinforcements were expected within the next few days.

A British communique described the military situation as "troublesome but not serious."

"Indian troops, supported by armored cars, yesterday occupied three bridges Northwest of Govap against light opposition,' 'the communique said.

Some sporadic sniping was reported in factories and warehouses.

"Phulam village was occupied early this morning," the communique said. "All was quiet in the French sector last night."

Meanwhile, disarming of Japanese troops got under way in the narrow sectors manned by French and British, who up to now have been using the Japanese to preserve order.

Extend British Wartime Controls Over Opposition

LONDON, Oct. 15 (CP) — The House of Commons, beating off a vigorous attack by the Conservative Opposition, tonight voted 258 to 239 to extend the Labor Government's wartime controls for five years.

Earlier the House had rejected 256 to 185 a Conservative Party amendment limiting the wartime controls to a maximum of two years.

Anthony Eden, former Foreign Secretary, who led the vigorous Conservative fight in absence of the former Prime Minister, Winston Churchill, who is suffering from a cold, declared during the debate that the powers asked by the Labor Government "are such as no Government has ever asked for in times of peace."

Mr. Eden said he did not think any Government should ask the House for such powers "to interfere with the daily life of citizens" without reference to Parliament "after a reasonable interval."

Cries of "Vote, Vote!" rang through the House after Home Secretary Chuter Ede had replied for the Government.

"NOTHING MORE THAN A REICHSTAG"

The Conservatives then accused the Labor Party of "putting on the brake."

Victor Raikes, however, was allowed to speak for the Opposition, and he charged:

"If that which is to be done in this bill were to be carried over everything in this country, this Parliament would be nothing more than a Riechstag—and men and women will forget what freedom is."

Mr. Eden addressing the House said: "How long are these far-reaching powers to remain in force . . .? We are not disputing the need for the Government to retain for a period of transition from war to peace some powers for purposes connected with maintenance, control and regulation of supplies and services."

CREW ESCAPES DEATH IN FORCED LANDING

PRINCE RUPERT, B.C., Oct. 15 (CP)—Six members of the R.C.A.F. en route in a Norseman monoplane from Alliford Bay on the West coast of the Queen Charlotte Islands, miraculously escaped death or serious injury Sunday when the pilot, FO. R. A. Kirkwood of Vancouver made a forced landing in the rugged bush of Porcher Island, 27 miles Southwest of Prince Rupert.

"A Great Day for Democracy"

OTTAWA, Oct. 15 (CP) — John Bracken, National Progressive Conservative Leader, tonight informed the Commons of the re-election of the Manitoba Coalition Government which he headed before accepting his present post in 1942.

Just before the Commons adjourned, Mr. Bracken said the Coalition Government had elected 21 members and was leading in 15 other constituencies. The Opposition was leading in four.

"It has been a great day for democracy," said Mr. Bracken.

VOTE FAVORS STEPS TO BOOST USE OF PORT

OTTAWA, Oct. 15 (CP) — In a friendly division tonight the Commons voted 105 to 24 in favor of a resolution calling on the Government to consider steps to ensure maximum use of the port of Churchill and the Hudson Bay route or as an alternative to turn over administration of the Board to a Prairie Provinces Board.

The vote came after R. S. Moore (CCF—Churchill) declined to withdraw the resolution at the suggestion of Reconstruction Minister Howe.

Two Ministers took part in the debate, Mr. Howe, who as an engineer built the elevator at Churchill, and Transport Minister Chevrier. Both said the Government had done and would continue to do all possible to promote the use of the port.

Mr. Howe thought the suggestion that the port be turned over to a Board was not practicable but undertook, if a responsible body was willing to take on the job, to use his influence in Cabinet to obtain approval of a lease on the port to such a body for $1-a-year.

Labor Federation Seeks Talks With Ilsley

VANCOUVER, Oct. 15 (CP)—The British Columbia Federation of Labor (C.C.L.) today wired Acting-Premier J. L. Ilsley requesting a conference with him Oct. 19 during his visit to Vancouver. In the telegram Federation officials said they wished to discuss "matters of importance to British Columbia labor."

Harold Pritchett, Secretary-Treasurer of the Federation, said the organization wants to talk to Mr. Ilsley about union security, the 40-hour week, possible Government labor legislation on a national scale, and the strike in automobile company plants in Eastern Canada.

Canyon Woman Hit by Stray Bullet

CRESTON, B.C., Oct. 15 — Mrs. F. Knott, Canyon resident, when travelling from her home to Creston by car, was hit by a reported 30-30 calibre bullet last Saturday about 7:10 p.m. The bullet penetrated the metal of the car, came through the cushion and hit Mrs. Knott, who was seated in the rear of the car, in the left hip in three places.

Dr. J. V. Murray, attending doctor, stated that he recovered the bullet fragments and that Mrs. Knott was doing well in the local hospital.

Provincial police reported the case was under investigation.

TO REVIEW PACKERS DISPUTE

WINNIPEG, Oct. 15 (CP) — E. Dawson, Manager of Burns and Company, Winnipeg plant, and Adam Borsk, Field Representative, United Packinghouse Workers of America (C.I.O.) will meet with Mr. Justice S. E. Richards here tomorrow to review the dispute which has threatened strike action in the company's five Western plants.

The meeting will be preliminary to a general conference of representatives of the company's plants and the Union at Regina, Prince Albert, Edmonton and Vancouver, in addition to Winnipeg.

MINISTER RETIRING

NEW YORK, Oct. 15 (CP) — Sir Gerald Campbell, British Minister in Washington and Special Assistant to the British Ambassador to the United States, is retiring at the end of October, aged 66, it was announced tonight. Sir Gerald, was United Kingdom High Commissioner in Canada from 1938 until 1941.

Vote Invaluable Encouragement Says Garson; C.C.F. Pleased at Increase

WINNIPEG, Oct. 15 (CP)—Premier Stuart S. Garson tonight termed the reelection of the Government Coalition in Manitoba as "another resounding victory for the robust good sense of the citizens of Manitoba."

"The Government sought support solely on the basis of its substantial achievements of the past . . . what we have won, we have won on a solid appeal which will stand the test of time."

Mr. Garson said the Government would face a task of great difficulty in solving post-war problems, and he added:

"In the discharge of that task nothing could be a more invaluable encouragement than the impressive vote of confidence we have just received from the people of Manitoba."

SEES FAVOR IN POPULAR VOTE

WINNIPEG, Oct. 15 (CP) — S. J. Farmer, Manitoba Leader of the C.C.F., said tonight that while his party was a "little disappointed" in the results of today's election in outside constituencies, "we are pleased that we have increased our membership in the House from three to about 10."

In a brief comment upon the result, which saw Premier Stuart Garson's Coalition forces returned by a sweeping majority, Mr. Farmer said the popular vote (for the C.C.F.) in Manitoba "seems to have increased considerably."

PREMIER S. S. GARSON
"Another resounding victory for the robust good sense of the citizens of Manitoba."

Survives Two Years in Land of Living Dead

By STANLEY MONCRIEFF
Canadian Press Staff Writer

SAN FRANCISCO, Oct. 15 (CP)—Twenty-six liberated Canadian prisoners of war, including one officer, were among hundreds of servicemen returned aboard the United States transport U.S.S. General Hawze, which docked here today.

Headed by Maj. M. T. G. MacAulay, M.M., of Quebec, who was the last Canadian officer to leave Manila, the group was carried immediately by ferry to Fort McDowell, an island in San Francisco Bay, where they will remain until transportation to British Columbia can be arranged.

One of the most spectacular stories of any Canadian returnee was partially revealed by Sgt. R. J. Routledge of Brandon, Man., and Victoria.

"I was sentenced to 15 years hard labor in the Stanley Japanese penitentiary," said Routledge. "But was released after serving more than two years in that hole, which is nothing more than a land of the living dead," he continued.

"While in the Shamshuipo prison camp at Kowloon, several of us, including a number of Canadian officers, were in on a racket of smuggling medicine and other things into camp," he said.

When asked what the "other things" were, Routledge said he was unable to explain them "because of military secrecy."

"On Dominion Day, 1943, the Nips caught four of us", continued Routledge. "Two of the men were shot within 48 hours after our capture and myself and the other man were sentenced to 15 years.

"The Japanese gendarmes tortured me unmercifully during the first five months. They were after the names of other members concerned in the racket," he said.

"I never thought I would live to see Canada again and I don't think I could have lasted much longer. I was plenty scared when I first went to the penitentiary but after a few beatings my fear changed to contempt, hatred and revenge and I somehow became almost immune to the horrible tortures."

HOSPITAL SLAUGHTER HOUSE

Sgt. C. Windson, Winnipeg, said: "Hospitalization was an unheard of thing in the prison camps. Amputations were made without anaesthetic in a hut that resembled a slaughter house more than a hospital."

"I only wish we could have rejoined a fighting unit after about two years in those torture-houses. We sure would have made a crack suicide squad and I'm positive we would all have enjoyed revenge.

MOVE TOWARD BUILDING OF ALBERTA DAM

OTTAWA, Oct. 15 (CP) — Hon. C. D. Howe, Minister of Reconstruction, announced the Government has taken steps toward construction of the St. Mary's River Dam in Southern Alberta.

GAS PIPELINE NOT FEASIBLE

WASHINGTON, Oct. 15 (CP) — Construction of a natural gas pipeline from Alberta to Western Ontario would not be feasible because it would cost between $75,000,000 and $100,000,000 and the market is insufficient to warrant this expenditure, Ralph Davis, Pittsburgh geologist, told the Federal Power Commission today.

WINNIPEG, Oct. 15 (CP) — Chosen for a second term the Manitoba Coalition Government of Premier Stuart S. Garson had a mandate to proceed with its post-war program of reconstruction following today's Provincial general election.

It was a landslide for Coalition supporters who had elected 36 candidates to the 55-member Legislature, and as counting discontinued for the night had a lead in eight constituencies.

The C.C.F. made its first bid for power in Manitoba and failed although it increased it representation in the Legislature and re-elected its leader, S. J. Farmer, in Winnipeg.

CCF LEADS IN SIX OF DOUBTFUL

Only one other anti-Coalition candidate was elected, Lewis St. George Stubbs, dougnty Independent, a member of the Legislature since 1936, and one of its most colorful debaters. He was reelected in Winnipeg.

In six of the 14 doubtful seats, the CCF had a lead and it had elected a second member in Winnipeg, Lloyd Stinson, editor of the Manitoba Commonwealth, a CCF publication.

Premier Garson headed the list of victorious Coalition candidates, winning a sweeping personal victory in Fairford, a constituency he has represented since 1936.

In a two-candidate contest Mr. Garson defeated a 64-year-old school teacher, G. W. Leonard, the CCF candidate.

ALL MINISTERS REELECTED

Mr. Garson also saw all of his Cabinet Ministers returned to office including the Manitoba Conservative leader, Hon. Errick Willis, Minister of Public Works, who was reelected by acclamation nomination day Oct. 5. The Social Credit member in the Cabinet, Hon. N. L. Turnbull, Minister without portfolio, was reelected in Hamiota. Hon. Robert Hawkins, speaker in the last House, was returned in Dauphin.

The Labor-Progressive party, with 13 candidates, the third largest group in the field, failed to elect a candidate up to midnight although its leader, W. A. Kardash, appeared to have a good chance of reelection in Winnipeg.

Two Independent CCF candidates, Dr. D. L. Johnson in Brandon and Berry Richards in The Pas were engaged in a close fight. Both were members of the last House and both were suspended from membership in the CCF. When they criticized its policies from the floor of the House early this year.

The Liberal-Progressive Party, under the leadership of Mr. Garson, have elected 20 members and is leading in five ridings. Eleven Conservatives have been elected and they hold a lead in two constituencies.

At dissolution the Government Coalition had 43 membes in the Legislature and anti-Coalition forces nine. Three seats were vacant.

RECOMMENDS BREAK WITH SPAIN

HAVANA, Oct. 15 (AP) — The Senate by an unanimous vote recommended today to President Ramon Grau San Martin that Cuba break relations with the Franco Government of Spain and recognize in its stead the Spanish Republican Government now exiled in Mexico City.

MAKES NEW YORK TO BERLIN FLIGHT

BERLIN, Oct. 15 (AP) — The first commercial airliner from the United States to Berlin since the war ended landed at Templehof airdrome last weekend. The plane, on a survey flight for regular passenger service, left Sunday for New York.

NATION-WIDE PACKINGHOUSE STRIKE LOOMS

TORONTO, Oct. 15 (CP) — Threat of a nation-wide packinghouse workers strike has spread to plants of Canada Packers Ltd., and Swift Canadian Company, with announcement today by Fred Dowling, Canadian director of the United Packinghouse Workers of America (CIO) that strike votes will be conducted in plants of these two firms.

The Federal Government has already taken over the five Western plants of the third big Canadian packing firm, Burns and Company, to avert a strike which loomed in those plants.

Dowling said today that strike votes will be conducted at the Swift Canadian plants at Toronto, St. Boniface, Man., and New Westminster, B. C., and in Canada Packers plants at Hull, Que., Toronto, Peterborough, St. Boniface, Edmonton and Vancouver.

The Union seeks a master agreement providing a 40-hour work week with no reduction from present pay for 48 hours. Announcing today the strike votes in Canada packers and Swift Canadian Company plants Dowling said Union wrote these firms more than a weeks ago asking them to enter negotiations but so far had not had any reply.

SEEK ASSISTANT DIRECTOR OF LAND CLEARING

VICTORIA, Oct. 15 (CP) — The Provincial Government Agriculture Department is calling for applications from an agricultural engineering graduate for appointment as assistant director of land clearing. Ex-servicemen will be given preference. Initial salary is $2700 rising to $3000.

Higgenson Murder Trial Opens

VANCOUVER, Oct. 15 (CP) — Trial of George R. Higgenson, 30, ex-serviceman, on a charge of murdering a four-month-old boy began in Supreme Court here today.

Crown Prosecutor Clarence Darling told the court that Higgenson and Mrs. Dorothy Rogers, mother of the baby, had been living in a room in downtown Vancouver and that Mrs. Rogers, formerly of Moose Jaw, Sask., had decided to return to the Prairies a few days before the child was found battered to death.

Mr. Darling said Higgenson was not the father of the child although the birth of the baby was registered under his name.

The baby was killed while Mrs. Rogers was absent from the room.

The trial is continuing.

Trail Junior High Athletes Largely Sweep West Kootenay Indoor Meet; Rossland Girls Take Three Events

TRAIL, B. C., Oct. 15—The gun fired, the crowd roared as their favorites whizzed around to hit the tape first. This was the scene at the Trail Rink Saturday night as the Trail Track and Field Association sponsored its second annual indoor track meet. Chief Marshal I. Jeffery and his staff of well chosen assistants handled their jobs like experts. Harry Rothery was at the "mike" calling the events and participants. Gerry Thompson and Carl Loeblich were kept busy recording the winners.

Although there were 172 entries on the program, quite a number of contestants were unable to attend, and substitutes were used, while some dropped out due to sore muscles or other reasons.

But the champs from the Butler Park track meet held in June repeated their performances, to win more crests.

The North reserved section was packed with Trail students, and the Rossland cheering section was situated in the South end of the rink.

Before the meet opened the Trail High School Band played a number of selections.

TIES IN YOUNGEST CLASS

There were ties in the first two classes. Harold Jordan and Gerald Babcock shared honors for the boys "12 and under" championship. In the girls division, Doreen Cumming and Donna Brennan were tied for first place. In the "14 and under" class, George Brownlie and Betty McNeil were boys and girls champs respectively. "Boys 16 and under" honors went to Ken Robertson. All these winners are from the Trail Junior High School.

Shirley Rolph of Rossland captured the women's open championship, and Eugene Catalano of Trail won the men's open title.

Each winner was presented with a crest by Mr. Jeffery, who thanked officials, participants and spectators for making the meet a success.

Entries were made from 12 schools—Grand Forks, Rossland MacLean, Rossland Junior High, Rossland Senior High, East Trail, Tadanac, Trail Central, Trail Junior High, Trail Senior High, Nelson St. Joseph's Academy, Fruitvale and Castlegar United High.

Results were as follows:

TOAST and TEA

BY LA MARIE

We were in a Toronto broadcasting station one evening when the feature of the program in which we were interested was to be an interview with a well-known sportsman. He owned a large stable of horses and had been a winner of the King's Plate. Previous to the broadcast he and the man who was to interview him had met and discussed what was to be said. The interviewer had then written out the script in the form of question and answer. Three quarters of an hour before the interview was to go on the air, the sportsman arrived and in a few minutes the interviewer burst out of the room in which they were rehearsing and gasped "Why, he can't read!" It was true. Here was a man in his fifties who had been born and brought up in Ontario, had made a success of his own business, had achieved wealth and celebrity and could not read, though he could write his name. But he was quick-witted, and in half an hour had memorized his answers so that the program went on without a hitch.

B.C. ELECTION PERSONALITIES

Copyright by Karsh

HON. R. L. MAITLAND, K.C.

By The Canadian Press

R. L. Maitland, K.C., better known as "Pat" is one of British Columbia's finest orators who has won high honors in his profession of the law.

He was born in Ingersoll, Ont., moved to Vancouver when he was one year old and received his education in the coast city. Two years after he was called to the British Columbia bar in 1913 he was named Vancouver city prosecutor.

Mr. Maitland first offered himself as a candidate in the Provincial field in 1924 as a Conservative and was defeated. Four years later he tried again and was successful. He retired from political life in 1933 when Premier S. F. Tolmie formed a union government, but came back again in 1937, heading the poll in Vancouver Point Grey. It was with Maitland that Premier John Hart negotiated to bring about a Coalition of Liberal-Progressives and Conservatives when no party received a majority in the 1941 elections.

Rossland Man in Sea Rescue

VANCOUVER, Oct. 15 (CP) — A veteran of six torpedoings, who three years ago lay paralyzed in hospital for 15 months, was the first man to try for shore when the S.S. Westbank Park crashed on the rocks of Magdalena Bay in Southern California, a week ago, it was disclosed here tonight.

He was 23-year-old Stan Haigh, who served six years in the Royal when she was torpedoed in Scapa Navy and was on the Royal Oak Flow.

With two of his buddies, Ken Wilkinson, 23, Newport, Mon, England and Irwin Plamer, 19, of Rossland, B.C., Haigh was mainly responsible for the rescue of the Vancouver vessel's crew of 49, all of whom arrived here today by train from San Pedro.

Wilkinson, who brought a second line ashore assisted by Plamer, said in an interview that he volunteered because "Stan told me to see his mother and father if he didn't make it . . . that got me. I thought if he goes I should go, too."

"Someone had to help Ken, so I went," Plamer said.

Haigh saw five naval craft torpedoed from under him after the Royal Oak, and was discharged from the Royal Navy three years ago. He spent nine months in a naval hospital and six in a civilian naval hospital and six in a civilian hospital, his legs paralyzed from injuries in the last torpedoing.

It took four hours to bring the Westbank's crew ashore in an improvised bosun's chair. All were heavily coated with oil and two suffered from shock and exposure.

Haigh volunteered to try the 100-yard swim through boiling seas covered with a heavy oil slick.

B.C. LOAN QUOTA FOR C.P.R. OVER MILLION

VANCOUVER, B.C., Oct. 15 — Well over a million dollars is the objective set for British Columbia by the Canadian Pacific Railway in the 9th Victory Loan, it was announced here today when committee representatives from all parts of the Province met to prepare for the forthcoming drive.

Kenneth Henderson, Executive Chairman of the National War Finance Committee, Ottawa, stressed the far reaching effects that a successful Loan this year will bring, and the benefits to Canada and to the individual Canadian.

W. M. Mather, C.P.R. Vice-President of Western Lines; Norman Whittall, Chairman for the Payroll Division, National War Finance Committee, and George H. Baillie, C.P.R. General Superintendent, Vancouver and local Vice-Chairman for the Victory Loan, spoke to the representatives.

It was stated that employees of the C.P.R. now hold an average of $700 in Victory Bonds, paid for in previous years.

Kaslo Japs Troublesome, Tells Court

VANCOUVER, Oct. 15 (CP)—Japanese evacuees at Kaslo, B. C., had an "irresponsible nature and were antagonistic towards occidentals," N. Clifford, a former foreman for the B. C. Security Commission, said in Exchequer Court today.

Mr. Clifford told Mr. Justice Sidney Smith that the Japanese Commission "had had considerable trouble with them."

This evidence came up following a hearing of the C.P.R. train crew and others present, April 18, 1944, when Charles Martelle Murray, a conductor of Nelson, was crushed between a box car and a pile of cordwood when he was "spotting" cars at Hunter Siding, 12 miles from New Denver.

Mr. Murray died shortly after the accident.

The wood, stacked by Japanese evacuees under direction of the B. C. Security Commission, was closer to the tracks than called for by regulations, Mr. Clifford said.

The C.P.R. is seeking damages, amounting to $7626, for the death of the conductor.

"Party First, Country Second Winch Lead"

CRANBROOK, B.C., Oct. 15—Hon. R. L. Maitland, Attorney General, speaking here tonight on behalf of Dr. F. W. Green, Coalition candidate for Cranbrook, vigorously denied the recent contention of Harry Gammon, Cranbrook CCF candidate, that Dr. Green represented "monopolies and big business."

"Neither big business or monopolies have much to do with the life of a man who had dedicated 47 years of his life and services to his community," he said.

He reiterated his claim, recently denied by Mr. Winch, that in the Provincial Legislature Mr. Winch and the CCF had refused to subject the interests of their own party to unite with other provincial parties for concentration of a united war effort. He termed Mr. Winch "a young man with a shocking memory and a horrible imagination." He said Mr. Winch had consistently led his provincial followers on the basis of "party first, country second."

Commenting on the record of the Coalition Government, he cited direct quotations of two CCF members in public addresses, Herbert Gargrave and Arnold Webber that "this is the best government this province ever had." Then he cited a brief to the government in August, 1944, presented by the International Union of Mine, Mill and Smelter Workers that the Union "is proud of the fact that B. C. has had better labor relations than any other Province in Canada," and a further brief to the government last September from the B. C. Federation of Labor resolving that the Federation "compliments the Provincial Department of Labor for having improved the condition of the working people of the province."

Ten million dollars is now available for B. C. road work, he said, with obtaining of labor and equipment the only deterrent to its immediate application to highway construction and repair. On proper road communications and electrification depend decentralization of provincial industry which he strongly advocated.

FORESEES BENEFITS

Dr. Green outlined general progressive legislation accomplished during his term as member, particularly in health and welfare. He said implementation of the Electric Power Act will place electrification within reach of the rural areas of this riding, citing Kootenay Orchard and St. Mary's Prairie in particular.

Preferences for Servicemen Talked by City

If the suggestion that preferences be given returned men in the matter of light rates and other City departments passed, it should be done in an orderly manner, Alderman B. C. Affleck told the City Council Monday night. The suggestion was made when the Council dealt with an application for light service by a Nelson soldier who had spent five years overseas and who told the Council in his application that "this is your chance" to help servicemen. A committee to draw up a reasonable program should be formed, Ald. Affleck said. If preference was given to one, it should be given to all and not handled spasmodically.

The question was referred to a Committee of the Whole Council.

When Ald. Affleck asked what the Rehabilitation Council was doing for servicemen, Acting Mayor T. H. Waters explained that reorganization of the Council was being carried out. The original Council had done much work and had received commendation from the Government, but it had been dealing with the future.

The future was now here, he said, and a big job lay ahead of the Council. He said that while Capt. G. C. Wallach, Veterans Officer, dealt with the men who wanted vocational training under Government plans, the Rehabilitation Council would have to deal with the men who came home without definite plans and who wanted advice on their future. A meeting was to be held Wednesday night at which it was expected organization of an active Council would be completed.

Council Favors Sale of Vernon Lots to Garage

Recommendation of the Finance Committee that the seven Vernon Street lots sought by Queen City Motors for construction of a new garage be sold, was approved on a vote by the City Council Monday night.

The recommendation suggested sale at $100 each of the lots to Queen City Motors provided that building be started by Dec. 1 and that the purchasers bear the entire cost of building a retaining wall meeting City Engineer H. D. Dawson's approval.

Acting Mayor T. H. Waters said that the principal reason the Committee recommended sale was to get something done to the street, which is breaking down in this area, just East of the Public Market.

Lone dissenter was Aldermanu B. C. Affleck, who declared the sale should not be made in view of the fact that a majority of ratepayers voted in favor of the site when marking the recent questionnaire dealing with location of the City Hall. He felt that the Council was being inconsistent and acting in an *undemocratic manner.*

If money could be raised to build a garage, the City Council could raise money to build a new City Hall, he stated. "I would like to see this Council act in a democratic way for once anyway," he said.

Aldermen H. H. Hinitt, J. E. McKenzie and G. R. Clerihew voted in favor of sale of the lots. Ald. Allan, Finance Committee Chairman, was not present.

Ald. McKenzie moved acceptance of the recommendation of sale, stating that he felt that it would be some time before the proposed City Hall could be constructed, but that the garage would be built very soon, thereby overcoming the retaining wall problem quickly.

Ald. Hinitt expressed sympathy with Ald. Affleck's views "from a moral standpoint", but felt that either the City had to get busy and build an expensive retaining wall or the sale should be made relieving the City of the job.

Authorize Dawson to Engage Assistant Engineer

Power to act in engaging an assistant was given City Engineer H. D. Dawson by the City Council Monday night following discussion of preparation of plans for public work construction throughout Nelson.

Acting Mayor T. H. Waters renewed discussion begun two weeks ago on need of such plans. When Mr. Dawson said that he had a program lineup started but that he was working at full pressure on various City matters, several members urged that he strive to find an assistant at once so that he could turn more attention to the plans.

Need for street repairs, water pipe replacements and improvements so that new streets could be opened was stressed by the Council.

Dies With Cry of "Vive La France" . . .

Laval Attempts Suicide Before Paying Penalty

By MEL MOST

PARIS, Oct. 15 (AP)—Pierre Laval was executed as a traitor to France today after failing to cheat the firing squad by swallowing poison.

The man who collaborated with the Germans as chief of government in old Marshal Petain's Vichy regime died from a coup de grace, fired through his ear, when a volley from the firing squad did not kill him.

Doctors restored the swarthy traitor from effects of poison taken four hours earlier. He was led to the courtyard of the bleak old Fresnes prison and died with a cry of "Vive la France" on his lips.

He was refused a final request to give the order for his own death to the execution squad.

REFUSES BLINDFOLD

Laval refused a proferred blindfold and faced his executioners.

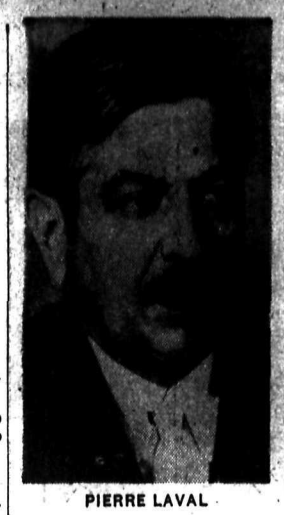
These were his last words:

"It is not the soldiers' fault. They know not what they do. Vive, la France!"

The 12 riflemen fired.

Laval fell only to his knees.

An officer rushed up immediately, aimed his revolver into Laval's ear and fired. The coup de grace



PIERRE LAVAL

dispatched Laval at 12:32 p.m. and he fell dead into the dirt of the courtyard.

The man who before the war had thrice been Premier of France and a dozen times a member of cabinets was condemned by the high court of justice last week—the same court which condemned former Marshal Petain and Joseph Darnand, the head of the Vichy militia.

Petain's sentence was commuted to life imprisonment and disgrace; Darnand stood before a firing squad only a few days before Laval.

A coffin lay near the spot where Laval had pitched forward in death. The body was placed in it swiftly and loaded into a hearse. Three official cars bearing the prefect of police, the Attorney General and the local Police Commissioner accompanied the hearse from the gates of the prison.

The little procession went to nearby Thiais cemetery and there Lavals' coffin was lowered into the ground, close to the grave of Darnand.

Next to Laval's plot was a grave marked:

"Here lies an unknown collaborator."

Grave diggers immediately began covering Laval's coffin with dirt. About 25 spectators watched silently.

The grave was left unmarked.

It was believed, however, that his family will be given the right to move the body or place a tombstone over it.

No medical report was released immediately concerning the exact condition of Laval when he was executed. Two men had supported him on his last walk to face the firing squad.

Doctors worked on Laval with a stomach pump for two hours before the decision was made to proceed with the execution.

No demonstrations occurred around Fresnes. Heavy cordons of police lined all approaches to the prison.

When the sound of firing was heard from the prison, a stir went through the crowd.

The execution of the former Vichy chief of government, whose death was as sensational as his turbulent political career, was formally announced by the Ministry of Justice.

MADE NO FINAL STATEMENT

Laval refused to accept a blindfold and met his end facing the 12-man firing squad, the announcement said. He made no final statement.

Quick action by prison physicians apparently was responsible for the failure of Laval's attempt to cheat the firing squad. The execution originally had been scheduled for 9 a.m. (2 a.m., CST) at Fort Chatillon, but officials decided against moving Laval to the fort after his suicide attempt.

Laval made his desperate bid to thwart the fate decreed for him when officials entered his cell at 8 a.m. to remove him to Fort Chatillon. Robert Amor, director of French prisons, said Laval was lying on his cot when Prosecutor Andre Mornet and other officials entered.

Guessing their purpose — condemned prisoners in France are not told of the hour set for their execution until the last moment—Laval huddled down in the bed clothes and while under cover slipped a poison capsule into his mouth.

A moment later he tumbled to the floor writhing in agony and prison physicians quickly went into action, with stomach pumps and emetics, struggling to restore Laval to a condition in which he could be placed before the firing squad.

The 62-year-old Laval was convicted by a high French tribunal last Tuesday for intelligence with the enemy and plotting against the security of France.

LAST MINUTE ATTEMPT FAILS

A last minute attempt by defence counsel to win a new trial failed yesterday when Gen. de Gaulle declined to intervene.

In accordance with French procedure, however, Laval was not informed that this last plea had failed and he did not know the time had come for him to die until the officials entered his cell this morning.

Arch-collaborationist Pierre Laval headed the French government twice in peacetime before he made a third rise to power during the war by courting Germany.

Often expressing publicly a hope for a German victory, Laval fell quickly from his status of wartime chief of a conquered state to that of a condemned prisoner after the Allies liberated France in the Fall of 1944, and he was unsuccessful in attempts to flee from justice.

Acting under Nazi pressure, aged Marshal Henri Phillipe Petain made Laval chief of the French government in 1940, and he quickly put into effect a number of Nazi-inspired anti-Semitic and forced labor laws.

In a broadcast to the French people Laval said peace in Europe could grow only out of friendship between France and Germany.

When Vichy was threatened, he moved the collaborationist government to Paris, then to Belfort and finally made a feeble effort to organize a pro-German French government in Sigmaringen, in Southern Germany.

That failing because of Allied military successes, Laval went into flight, returning only to become a key defendant in war crimes trials.

Laval returned to France in American military custody after surrendering at Linz, Austria, July 31, 1945.

Many German Prisoners Married by Proxy . . .

Detention in Canada Has Brought Light to P.O.W.'s

By GEORGE A. YACKULIC
Canadian Press Correspondent

LETHBRIDGE, Oct. 15 (CP)—Detention in Canada has brought much enlightenment and a broader understanding of the world to thousands of German prisoners of war, and many of them no longer wish to return to their homeland.

There are also large numbers of German captives in the Dominion who have no desire whatever to leave this continent. Many of their relatives and friends have enjoyed success in Canada and the United States and, seeing a great future in store for these countries, the captives are anxious to remain here.

Their repatriation is obligatory under terms of the Geneva convention.

As in other prisoner of war camps across Canada, those in the Lethbridge camp have been steadily, though often unconsciously, gaining a more realistice view of the countries which were their enemies at war.

Thousands of the captives are finding a world in sharp contrast to that which was painted for them by their Nazi leaders.

For one things they have branded as falsehoods many of the things they religiously believed while under the Nazi yoke, and they have accepted as authentic much of what they formerly ridiculed as "lies from Allied propagandists."

With Germany's armed forces out of existence, many captives who had made the Wehrmacht, Luftwaffe or Navy their career are wondering what they will do if they return to the homeland.

In the same predicament are many whose civilian employment was destroyed by the war.

"No! No! I don't want to go back to Germany," one captive said. "Sure, I want to stay in Canada and work here. This country has not been bombed to pieces like Germany. I would like to hear about my family soon and settle down more. I do not know if they are living or dead or where they are because no letters have come since April."

Many more explained, however, that the sooner they get back to Germany the better they'll like it. "We are all worried about our families, our homes and our jobs," a spokesman for a group stated. "Until we find out what has happened, we do not know what we can do."

MARRIED BY PROXY

"Have many of the men in this camp been married by proxy?" I asked a captive who seemed to be well posted on prisoners of war in the Lethbridge establishment.

"Yes, at least 10 per cent of the men have been married by proxy since they were captured," he replied, adding that the percentage might be more than 25 per cent of the men who were unmarried when captured.

"Some of the boys have never even seen the girls they married and they are worrying about what kind of wives they are going to go to."

Canadian Delegation at Paris for I.L.O. Conference Opening

PARIS, Oct. 15 (CP) — A 14-member Canadian delegation, including three Provincial Labor Ministers, is here for a three-week conference of the International Labor Organization opening today at which important decisions will be taken affecting the future of the organization.

The I.L.O., established in 1919 as part of the League of Nations setup, is expected formally to sever its ties with the old League and to decide whether to go on record as approving a new relationship with the United Nations organization.

ONLY INTERNATIONAL LABOR ASSOCIATION

The I.L.O., which has the headquarters of its permanent secretariat in Montreal, is the only international Labor Association in which the representatives of workers and employers enjoy equal status with those of Governments and at this conference the Canadian Government, Canadian labor and Canadian employers all are represented.

The head of the Government delegation is Gray Turgeon, former Liberal Member of Parliament for Cariboo. The others are Alfred Rive, V. C. Phelan and T. L. Carter, all of Ottawa. The three Provincial Labor Ministers are Antonio Barrette of Quebec, Charles Daley of Ontario and C. C. Williams of Saskatchewan. It is the first time three Provincial Labor Ministers have attended an I.L.O. conference. Jean Pierre Despres of Quebec is here with Mr. Barrette.

Employers' delegates are Harry Taylor of Toronto and Allan Ross of Ottawa. The workers are represented by J. A. D'Aoust of Montreal, Birt Showler of Vancouver, both Vice-Presidents of the Trades and Labor Congress of Canada; Norman Dowd of Ottawa, Executive Secretary of the Canadian Congress of Labor, and Alfred Charpentier, President of the Canadian and Catholic Confederation of Labor.

NUMEROUS PROBLEMS

Numerous problems face the conference over a possible tie-up with the United Nations organization. The chief one is the fact that Russia is not a member of the I.L.O., having withdrawn when the Soviet left the League several years before the war.

The invitation to Russia to attend the conference brought no response, doubtless due to Moscow's hostility to the old League and its organizations. When the I.L.O. breaks with the League, which will shortly be wound up anyway, Russia may modify her attitude.

NO DISCRIMINATION IN ISSUING BUILDING PERMITS

OTTAWA, Oct. 15 (CP) — State Secretary Martin said today in a return tabled in the Commons that because housing accommodation is short in practically all parts of Canada no attempt has been made to discriminate between localities in the issuance of licences for house construction.

A. M. Nicholson (CCF—Mackenzie) has asked what criteria had been applied to ensure that the 50,000 houses to be built in Canada within one year after VE-Day, May 8, would be in the localities and for families, whose needs were greatest, the families, including veterans'

27 Per Cent of Returning Unit N.R.M.A. Men

OTTAWA, Oct. 15 (CP) — N.R.M.A. personnel made up 27 per cent of the Saskatoon Light Infantry when that unit returned to Canada with the 1st Division, State Secretary Martin said today in a report tabled in the Commons.

That percentage was the highest but every other infantry battalion, the one armored unit and nearly all of the artillery units had N.R.M.A. soldiers in their ranks when they reached Halifax wearing the red patch.

All but two of the infantry battalions had more than 10 per cent of their strength made up of these soldiers, Mr. Martin said in reply to questions by R. J. Henderson (PC—Lambton-Kent).

Second highest percentage was that of the Seaforth Highlanders of Canada with 19.5 per cent and behind them the Princess Patricia's Canadian Light Infantry with 18.5 per cent.

Mr. Martin said it was not possible to say the percentage of N.R.M.A. personnel in units yet to arrive "until sailing lists are complete."

Units designated for return before Oct. 15 were the 77th and 92nd Field Batteries and the 1st Heavy Anti-aircraft Battery, although that "information is subject to change."

Kimberley to Establish Public Health Unit

CRANBROOK, B.C. — City Council representatives here have endorsed a plan which originated at Kimberley and is being developed through efforts of the Kimberley City Council to establish a Provincial District Public Health Unit in East Kootenay to include all the Western half of the District, similar to a unit now operating successfully in the North Okanagan.

As outlined by Alderman F. P. Levirs of Kimberley, the unit would consist of a full-time medical officer who will be a physician, public health nurses strategically located through the big district, a sanitary inspector and a statistical clerk.

At present each centre handles its own public health problem on a basis of part-time employees, with the school nurses in the various centres including public health work in their agenda. Kimberley's public health situation is particularly difficult.

Because of its huge industry it has become the largest community in East Kootenay and the various housing centres which comprise it were joined last year when it was incorporated as a city. However, wartime shortages have prevented its being equipped with city utilities and it has no sewage system. Mr. Levirs said his city is solidly supporting establishment of the new unit.

Efforts are being made to enlist participation of the Village of Creston and the communities of the Windermere Valley in the unit, as well as the rural areas around these East Kootenay centres. If their support is forthcoming the proposed unit will be about 150 miles long and about 100 miles wide.

Kimberley Man Weds English Girl

KIMBERLEY, B.C. — A pretty wedding was solemnized at the home of Mr. and Mrs. H. A. D. Marchant October 10 when Priscilla McGowan, eldest daughter of Lieut.-Col. and Mrs. T. B. Cunningham of Cornwall, England, became the bride of Douglas S. Corrie of Kimberley, third son of Mr. and Mrs. A. Corrie of Michel. Rev. S. T. Galbraith officiated.

The bride's wedding gown was fashioned in pink jersey with matching hat and accessories. Her corsage was of pink Talisman roses.

Their attendants were Mrs. Dorothy Marchant and Stan Shayler, the bridesmaid being Miss Shirley Corrie.

Following the ceremony a reception was held at the Home Inn. The banquet room was decorated with seasonable flowers. Mr. and Mrs. Corrie left to spend their honeymoon at Coast points. They will reside in Kimberley.

W.I. Discusses Better Pavilion

SOUTH SLOCAN, B.C.—October meeting of the Bonnington and South Slocan Women's Institute in the Community Hall heard a report of the military whist held, which realized $21. This amount was voted as a donation to the Salvation Army drive.

Plans for the improvement of the pavilion at the sports field, with better facilities for serving meals were discussed. Mrs. E. J. McGregor was named convener of a committee with Mrs. John O'Genski and Mrs. H. H. James to report on the matter.

A motion to purchase 50 chairs for the Hall was carried and the Secretary was instructed to get prices.

A letter from Mrs. Chalmers, President of the District Board, asking that 10 cents per capita be voted to carry on the Board meetings, was passed.

It was arranged to have a shower of flower vases at the next meeting for the children's ward at the Kootenay Lake Hospital.

Mrs. D. J. Davis gave a splendid report of the district convention held in Nelson, which she attended as a delegate, and also read an encouraging article on the achievements of other Institutes.

The meeting concluded with a treasure hunt, arranged by Mrs. J. Murray, and won by Mrs. R. Mullov. Mrs. John O'Genski and Mrs. G. Topliss were hostesses for tea.

Kaslo Women's Clubs Honor Three Departing Members

KASLO, B.C.—The members of the Canadian Legion Auxiliary and the I.O.D.E. met in the Legion Club Rooms Friday to honor Mrs. Daem and Mrs. Smythe, who are leaving Kaslo to reside elsewhere, and Mrs. Whittaker, who is going on an extended visit to the States.

The room was tastefully decorated with Autumn flowers, and a delightful lunch was served, Mrs. Stocking poured for the I.O.D.E. and Mrs. Tonkin for the Legion Auxiliary. Mrs. Single, Mrs. Stevenson and Mrs. McCartnay were serviteurs and Mrs. Horner was in charge of the kitchen.

After tea, on behalf of the organizations, Mrs. Single presented Mrs. Daem and Mrs. Whittaker each with gifts. As Mrs. Smythe was not able to attend, Mrs. Chandler offered to send her gift to her.

In a few well-chosen words the two ladies expressed their thanks.

Those present were Mesdames Chandler, Meers, Amas, Browell, Gardner, McCartnay, Billings, Stocking, Short, Baker, Webber, Single, Horner, Stevenson, Tonkin, Riddel, C. Lind, Daem, Whittaker and Miss Meers and Miss Geigerich.

Kimberley Block Changes Owners

KIMBERLEY, B. C. — Leo Johnson and Roy Scott of the Leroy Beauty Parlor and Barber Shop have purchased the former Beale and Elwell Block on Spokane Street, owned previously for a short time by A. Falkus. Extensive changes are being made in the interior to make it a modern shop.

BECCLES, England (CP) — The congregation of the strict Baptist Church in this Suffolk town met to pray that their homeless pastor, Rev. R. B. Hewitt, might get a house. A short time later the clergyman received an offer of accommodation from a man who had no connection with the church.

Kaslo W.A. to Raise Money for Sterilizer

KASLO, B.C.—At the annual meeting of the Kaslo District Women's Auxiliary to the Victoria Hospital held in the Nurses Home Thursday, the President, Mrs. Chandler, told members that the needs of war work had abated and it was felt that more time could be given to the work for the hospital.

With Mrs. Latham in the chair, officers elected were: Mrs. Chandler, President; Mrs. Latham, First Vice-President; Mrs. Besecker, Second Vice-President; Mrs. Tonkin, Secretary; Mrs. Papworth, Treasurer; Mrs. Browell and Mrs. Single, buyers; Mrs. C. Bowker, Sunshine Secretary. A hearty vote of thanks was tendered the retiring officers.

A pressing need of the hospital, Mrs. Chandler said, was a new sterilizer, and she warned the executive and members that there was much work ahead.

The members decided to put on some activities to raise the amount of money in their current account from $260 to $300 and donate it to the Board of Directors for a sterilizer.

An afternoon tea and musical with a card party in the evening was planned, to take place at the home of Mrs. Glaholm. Miss Giegerich was named convener of the music, Mrs. Moryson, convener of refreshments, and Mrs. Sandilands, convener of cards.

A delicious tea was served.

Members Hear of Life on Trinidad

WILLOW POINT, B.C.—Life on the Island of Trinidad, its customs, climate and its people was vividly described by Mrs. C. Lamont at the Willow Point Women's Institute Thursday afternoon.

Trinidad, a small island of about 2000 square miles, lying off the North coast of South America was the home of Mrs. Lamont for six years. She related many personal incidents which though tragic at the time now seemed funny.

Thanks was tendered Mrs. Lamont, Mrs. J. Gilroy voicing the appreciation of those present.

Mrs. B. Townshend reported on the proposed Red Cross bridges. Cigarettes will be sent the boys still overseas.

Mrs. Hankin reported on the sale table. Letter of acknowledgement from Mrs. E. Shannon for baby gift was read. A letter from a former member, Mrs. G. Findlater, now of Castlegar, sent greetings.

Miss Ross, Secretary, was instructed to pay the per capita fee, 10 cents a member and 24 members.

Members had canvassed the district for the Salvation Army. A generous response was shown by the large quantity of articles of clothing brought to the meeting. Mrs. J. Learmonth was in charge of the packing and a large shipment is expected.

Mrs. Townshend and Mrs. Shannon were the tea hostesses.

WARDNER WOMAN LAID AT REST

Jap "Rescue" of Hitler Misfired

LONDON, Oct. 15 (CP)—A Reuters News Agency dispatch from Tokyo tonight said a former Japanese Navy staff officer had "told details of a plan for Hitler to escape to Japan with Eva Braun."

The dispatch said a Japanese officer attended a "secret meeting in Tokyo on March 3, 1945 when final arrangements were made for the 'rescue' of Hitler and his former secretary whom he is reported to have married shortly before the fall of Berlin."

The dispatch continued:

"Hitler had promised the Japanese that if they provided a safe refuge for himself and Eva Braun he would give them plans which he guaranteed would win the war in the Pacific, the Japanese officer said.

"Hitler also asked for and was given an assurance by the Japanese Imperial Staff that after the Japanese had conquered Australia and America they would help him regain control of Europe so that between them Germany and Japan could rule the world."

The Navy officer said at Hitler's request, apparently because he had reached the stage where he could trust no one in Berlin, a Japanese submarine was sent to pick him up.

"The submarine left Yokohama at dawn March 5, and headed for Hamburg. It never reached its destination and its fate is still unknown," the dispatch said.

LONDON (CP) — Dr. Henry G. Purchase, 72, Liberal M.P. for the Kennington division of Lambeth from 1918 to 1922, has died.

Says American Slang Sneaks Into Scottish Dialect

By JOHN DAUPHINEE
Canadian Press Staff Writer

American slang is sneaking into the Scottish dialect and the Burns Federation, celebrating its Diamond Jubilee this year, has declared war to the finish against the invader.

The latest communique comes from Thomas Johnston, former Secretary of State for Scotland. At Federation Headquarters in Glasgow he pronounced:

"The cinema and Hollywood with its slang are rapidly affecting the speech form of our generation. And I believe that the advocates of the Scots dialect will win."

Critics elsewhere in the Old Country have viewed the Federation's existence as a manifestation of parochialism. The Federation itself contends the world will lose something if Scotland becomes merely a postal district. It is determined to preserve the Burns tradition and his poetry — to hand on to future generations the Scottish tongue and Scottish literature.

The work it has done already has earned the praise of the Glasgow Herald's editorial writers.

BURNS SEEN IN PROPER PLACE

"Burns now is seen in his proper place in the tradition of Scots vernacular poetry, and as an inspirational fount for the English and continental poets," they wrote.

Scenery wins: Those who care for the beauty of England have won a major victory — the famous view of Durham's Cathedral and Castle, set grandly on a rock girded by the River Wear, will not be blotted out by a new power plant.

It was touch and go for months. The argument grew so heated that a special inquiry was held by the Ministry of Town and Country Planning and the Electricity Commissioners.

The power company's contention was twofold: that the plant was so well designed that it would be "a great credit to the whole district"; and that there was no other place in the country to get sufficient power.

But the matter never came to a showdown. The planning people decided they didn't like the proposal and the electricity commissioners thought the plant should be built. Now the company has found another place to build and everyone is happy.

How to make a meal with tasty sandwiches

By using a filling of meat and/or vegetables between slices of bread a sandwich becomes a well-balanced plate that will satisfy the sharpest appetite. May we suggest by way of a delicious, out-of-the-ordinary dish . . .

BAKED LUNCHEON SANDWICH

8 slices bread
½ lb. sliced American cheese
1 tsp. prepared mustard
2 tbsps. shortening
2 tbsps. all-purpose flour
1 cup milk
½ tsp. salt
3 tbsps. chili sauce

Toast bread. Place cheese slices on four slices of the toast and spread with mustard. Top with remaining toast and cut in halves lengthwise. Place in well-greased square baking pan (8x8x2). Make white sauce: Melt shortening, blend in flour. Add milk gradually, stirring constantly. Cook until thickened, about 5 minutes. Add salt and chili sauce. Pour over cheese sandwiches. Bake in moderate oven (350° F) 15 minutes. Serve hot.

SAUTED SUPPER SANDWICH

Serve with green salad

1 cup ground bologna or lunchmeat
1½ tsps. finely chopped onion
1½ tsps. prepared mustard
1½ tsps. lemon juice
1 hard cooked egg
¼ cup finely chopped celery
¼ cup mayonnaise or salad dressing
12 slices bread
2 eggs
2 tbsps. milk
¼ tsp. salt

Mix bologna or lunchmeat, onion, mustard, lemon juice, chopped egg, celery and mayonnaise or salad dressing together. Spread generously between slices of bread; cut in half diagonally. Dip sandwiches in beaten egg mixed with milk and salt; saute in hot melted shortening or drippings. Serves 6.

MYSTERY SANDWICH

Combine 2 cups shredded cabbage with 2 cups lunchmeat cut in strips, 3 hard cooked eggs chopped, and 3 sliced pickled onions. Season with salt and pepper to taste; add mayonnaise or salad dressing to moisten. Spread between thinly sliced buttered bread. Makes 10 to 12 sandwiches.

NOTE: A delicious double decker can be made with this combination by using a slice of American cheese for the top deck with a garnish of sliced tomatoes.

BAKED BEAN SANDWICH

Use ½ cup heated baked beans to spread between each two slices rye bread. Top each sandwich with ½ cup cole slaw.

Canada Needs a Separate Minister of External Affairs

Canada needs a full time Foreign Minister. As the Minister of External Affairs, the Prime Minister is capable and has had much experience. In expressing the need of this country for a minister holding a separate portfolio of foreign affairs no criticism of Mr. Mackenzie King's work in that department is implied. It is generally recognized that he has represented Canada ably. But no one man can fully successfully act as head of Canada's government and also devote the time and thought now required by external affairs. We should have a man who can concentrate his energies on the job.

Canada, in world councils, is properly fighting for adequate recognition of the middle and small size nations. That fight cannot adequately be prosecuted on a part-time basis.

Australia has recognized that fact, and has kept itself and its views to the front through Dr. Evatt, its dynamic spokesman in foreign affairs.

Mr. King has material in his Cabinet for the post. Either Brooke Claxton or Mr. Abbott, for example, might prove an excellent choice.

Recovering Dutch Art From the Thieves

No less than 20,000 paintings stolen from Holland and hidden in Germany have been recovered and are being returned to their rightful owners. According to Lieutenant Charles Kuhn, U.S.N.R., former professor at Harvard University and now in charge of the recovery and protection of art treasures in the American zone of occupation in Germany, more than 500 caches of art objects have been discovered thus far in the Wiesbaden area alone, and more are brought to light every day. If conditions in the depositories are satisfactory, the treasures are permitted to remain there temporarily because of transportation shortages.

Lieutenant Kuhn explained that to transfer the famous Mannheimer Collection from its hiding place in a German monastery to Munich, the service of dozens of trucks were required. Both the Mannheimer Collection and the equally famous Goudstikker Collection which was also found in Germany are in Munich awaiting return to Holland. The great library of the New or Literary Club of The Hague and the priceless Rosenthaliana Library of Amsterdam's Municipal University (Hebraica and Judaica) have also been recovered.

A New Red Cross Service

Official announcement of the launching of a new "Hospital Arts and Crafts Service" as a part of its post-war program was made by the National Headquarters of the Canadian Red Cross.

The Department of Veterans' Affairs, it was stated, had accepted the Canadian Red Cross offer to inaugurate this Service, as it was felt that the many men in D.V.A. hospitals for long periods of convalescence would benefit both mentally and physically from some form of congenial occupation, such as leather work, weaving, clay-modelling, etc., which is now under the general direction of the Department's occupational therapists, with whom the Red Cross will work in fullest co-operation.

As a groundwork for this Service, Miss Ethel Leacock, for 23 years instructor of Arts and Crafts in Ottawa high schools, was loaned to the Canadian Red Cross to make an intensive survey from coast to coast of the need for this service among D.V.A. hospital patients.

As a result of this survey, it was found that not only was there an extensive field for this work, but that many outstanding artists and craftsmen in cities across Canada had expressed their willingness to give generously of their time and talent to this Service.

The Department of Veterans' Affairs felt, it was stated, that the best possible experts should be secured to give general supervision to this work as well as to teaching crafts to men who desire and have ability to make real progress in any particular craft.

Miss Vera Carpenter, who served as Red Cross Senior Welfare Officer at No. 14 Canadian General Hospital in Italy for a year, and prior to that as a member of the Transport Section of the Canadian Red Cross Corps for three years in Canada, will give national direction to the new service. Handicraft work in all Canadian hospitals in Britain and on the battlefronts, it was recalled, was a major project of the Canadian Red Cross during the war, and is still being carried on intensively overseas. Members of the Canadian Red Cross Corps are actively interested in this new voluntary work of the Society, which is already started in a number of D.V.A. hospitals throughout Canada.

ON THE SIDE

By E. V. DURLING

With my frailty don't upbraid me,
I am a woman as you made me;
Careless doubting or despairing,
Rashly trusting, idly fearing.
If obtaining. Still complaining;
If consenting. Still repenting.
—Congreve.

Avoid employing beautiful girls. When a beautiful girl is promoted it makes all the other girls jealous and decreases their efficiency. Such is the advice of a business efficiency expert. This seems a silly suggestion. In any event it is unfair to beautiful girls. I have instructed our Horses and Women Department to campaign against the aforementioned efficiency man's idea. In the meanwhile any feminine office worker who can't get a job because she is too beautiful has my heartfelt sympathy. In fact, she is welcome to call at the office and cry on my shoulder.

ASKING

Queries from clients. Q. Isn't it ridiculous to claim the color of a woman's eyes have any relation to her character. A. The color of a woman's eyes is not an infallible character test. Still it is worthy of note that most women with green eyes are unusually intelligent and those with brown eyes are usually flirtatious. Q. What do you think of a husband who wants his eggs boiled five minutes? A. What's wrong with that? I like mine boiled five minutes, too. Maybe your husband and I have a lot in common. Ask him if he ever tried pistaschio ice cream on apple pie. Q. My mother is wild about Walter Pidgeon. Who is your mother's favorite film star. A. My mother passed on a few years ago. Her favorite film star was Robert Taylor.

BRIEFLY

What are the first three words in the Bible? If you can't answer that your old Sunday school teacher certainly should be ashamed of you. . . A synthetic blonde dove into a Hollywood swimming pool and when she emerged her hair had turned green. The chlorine in the water in the pool is said to have been the cause of this distressing and embarassing transformation.

ALMOST CONFIDENTIAL

The Duchess of Windsor has her hair dressed three times a day. However, that is not the record. Lady Daisy Fellows has her hair dressed 10 times a day. So states Antoine, the internationally known hair stylist. . . No gray horse ever won the Kentucky Derby and no left-handed man has ever won a U. S. National Golf championship. No man born a twin has ever won a heavyweight boxing championship or written a successful play. The man born a twin rarely becomes an outstanding success. If you can name 12 great men who were born one of twins I may buy you a stogie. I may even send you a good smoke if you can name six.

Etiquette Hints

At the "wedding breakfast" the bride's mother sits at the head of the bridal table, the bridegroom's father at her right, the clergyman at her left; the bride's father sits at the opposite end of the table with the bridegroom's mother at his right. The bride and groom sit at one side of the table, the bride on her husband's right, the maid of honor on his left. Other guests may be seated as you like.

Verse

THE MASTER PAINTER

I watched God painting a picture today—
His canvas, wide as the valley, spread
For countless miles; far up, away
Where the hills, white minarets, lift their heads
Like aged men of God—to pray.

His pigment, the sunshine and Autumn rain,
For His brush, the wind by the glacier chilled.
His palette, the breast of the Kootenay;
O'er its limpid surface the colors spilled
In a clamorous, rollicking roundelay.

So oft repeated, but never the same,
A sweep of ochre, a dash of blue;
Oriolen and scarlet flame;
Sundrenched notes of a million hues
Singing the Glory of His Name.

I felt the deep hush of Eternity,
As shadows crept soft as unspoken prayer.
My spirit knelt in humility;
Then, the Painter noticed that I was there
And smiling, He gave the picture to me.

G. H., Nelson — Please advise if fruit trees can be pruned in the Autumn without damage to the trees.

Yes, but must be done after foliage comes off and in the late Fall and on full-bearing trees, 10 years or over in age.

C. C., Nelson — Must a person pay a month's rent in advance?

Not necessarily. It all depends on the arrangements that are made between the landlord or landlady before the occupants move in. If the landlord wanted the rent paid in advance it would have to be one.

Curious, Nelson — Who is responsible for having a chimney cleaned? The owner or the tenant?

The owner is responsible for having the chimney cleaned.

Miss R. W. — Would you please tell me the name of the theme song on the Charlie McCarthy program?

It is a made up theme song.

Pays Tribute to Late Tom Hunter

To the Editor:

Sir:—As a friend and neighbor of the late Mr. Tom Hunter, who for many years was a resident of Vallican, I would like to pay my little tribute! I am sure that all those who had the pleasure of Tom Hunter's acquaintance will agree with me when I say that Tom Hunter was a very excellent man and public servant.

He was a friend to all men—an enemy to none!

A FRIEND.

Looking Backward

10 YEARS AGO

(From Daily News, October 16, 1935)

British tanks, bombers, artillery and munitions continue to arrive at the Libya border while the fleet units at Alexandria are engaged in manoeuvres. Ramsay MacDonald, however, denies that this is in preparation for war. "Every move the Government makes is for peace," he said in London.

25 YEARS AGO

(From Daily News, October 16, 1920)

A plane on a trans-Canada flight landed at Merritt yesterday, the aviators—Gen. A. K. Tylee and Capt. G. A. Thompson—deciding to remain overnight owing to heavy fog in the Coquihalla Pass.

Prohibitionists and Moderationists met in debate at the Opera House last night, Mayor McDonald presiding. Mrs. McKay and Principal Vance of Vancouver urged retention of the existing Act; C. R. Hamilton, K.C., championed Moderation.

40 YEARS AGO

(From Daily News, October 16, 1905)

Dr. A. M. Lowe of Spokane is taking charge of Dr. Morrison's practice during the latter's absence from town.

James Johnstone will be glad to receive any first class winter pears to include with his own shipment for exhibition in London, England.

Today's Horoscope

Determination, courage, coolness in every situation, and thoroughness are the keynotes of the character of the person who celebrates a birthday today. You are generous, sympathetic and emotional. You have a keen mind for success in intellectual pursuits. Today keep your eyes open for an opportunity that may be right under them, and which you have not noticed before. By being the early bird, you may catch a profitable little business worm of an idea.

MONDAY'S HOROSCOPE

You are capable, honest, and always concerned for the welfare of others. You should enjoy moderate success in life, but you must be more forceful, more practical, more alert to opportunities as they occur. Today, you should put your mind on gainful occupations. Now is the time to go to market and sell your wares. Dress them up in the best way that you can, and drive a sound bargain. Go forth with confidence.

Words of Wisdom

Nothing can work me damage except myself. The harm that I sustain I carry about with me, and am never a real sufferer but by my own fault.—St. Bernard.

C.C.F. Believes In Freedom, Fair Play—Harding

NAKUSP, B.C.—Randolph Harding, C.C.F. candidate for the Kaslo-Slocan riding made his first speech to a Nakusp audience Friday night.

Mr. Harding was introduced by Chairman Frank Tracey, Nakusp High School teacher, as one who was well known and respected by Kootenay people. Mr. Harding opened his remarks by explaining the letters C.C.F. as meaning Cooperative Commonwealth Federation, which the speaker said was as an essential to democracy.

Rumors were, the speaker said, that if the C.C.F. Party was elected, the people's homes, land, etc., including the churches, would be taken over by the party. There was no truth in the statements, the C.C.F. believed in freedom and British fair play.

Mr. Harding also spoke of the soldiers' vote and said every man and woman who had given service should have the vote. Speaking of agriculture he said "We can prevent a depression if we are given a chance to watch prices, 'floor' as well as 'ceiling.'

"We believe people are human beings," said the speaker, "and we are not always thinking of the almighty dollar."

Mr. Harding spoke of the rural electricity, which the C.C.F. Party had always fought for. He outlined the successful electric system, which is publicly owned in Ontario. He stated that all electric powers, great as well as small, should be taken over.

Education, Mr. Harding said, should be free. Many children were held back for lack of funds. School taxes, he said, should come out of general revenue.

If politics were taken out of public works and a commission were established "we could have better roads than we have. The revenue from tourists would amply pay for them," he said.

Mr. Harding said the Party supported improved old age pensions plan, which would be better named "retirement allowances," and a socialized health plan.

In regard to health insurance, the speaker said, "If the Federal Government won't bring in health insurance, the provincial must do so."

TOURIST REVENUE CLIMBS

CRANBROOK, B.C. — Seventeen active electrical services have been added to the city rolls so far this year, the Electrical Department reports, with 23 connections and 16 disconnections for September. Electricity consumption continued its twenty-fifth consecutive month of increase at 183,280 kilowatt hours compared with 168,000 for the same month last year. Efficiency for the month was 83.17 per cent compared with an average of 86.54 per cent.

Receipts at the City Tourist Camp for the three months' operations this year were $4482.70 compared with $3006.75 in 1944. A daily surplus runoff of 2,549,000 gallons at the reservoirs was reported as satisfactory.

Thirteen building permits were issued during the month to an estimated value of $7260.

Social assistance costs in September for 25 individuals were $507 compared with $660.50 for last September and the city's share of the cost was $101.

There were two aircraft arrivals and two departures at the City Airport.

Kimberley Lodge Has Successful Tea

KIMBERLEY, B.C.—The annual tea and bazaar held by Harmony Chapter of the Eastern Star Lodge under the supervision of Mrs. H. Howe was a successful affair. Mrs. Mark Beduz, Mrs. A. Sholemer, Mrs. G. McFarlane and Mrs. R. Johnson were kept busy throughout the afternoon attending the patrons of the tea tables. The display of home cooking quickly disappeared as visitors purchased the tempting array.

Those in charge were Mrs. T. Crossley and Mrs. J. Ellis, cooking stall; sale of work Mrs. H. S. Andrews, Mrs. C. McKay and Mrs. W. Thompson; culinary arrangements, Mrs. O. McWhirter, assisted by several others.

RAILROADERS WANT PACIFIC STANDARD TIME

CRANBROOK, B.C. — Changing of city time from Mountain Standard to Pacific Standard to conform with the time observed by the railway throughout the Province was asked by a delegation of railwaymen to the recent City Council meeting. The delegation was informed that the city, in line with other B.C. municipalities East of Yahk, believed Mountain Standard suitable in view of hours of daylight, especially with regard to school hours.

School Board estimates and plans for the proposed new school building will be submitted later this month and considered by the Council in the line of extraordinary expenditure for possible municipal election purposes at a special meeting November 2.

To become effective October 15, the Gasoline Shops Early Closing Bylaw, dealing with hours of sale for gasoline and motor oil was given final reading, along with a bylaw setting aside an additional $12,000 for the Waterworks Improvement Reserve Fund.

Kimberleyite Weds Marysville Girl

KIMBERLEY, B.C. — The home of the bride's parents was beautifully decorated with seasonable flowers Friday when Rev. T. E. Roulston united in marriage Jean Elizabeth, only daughter of Mr. and Mrs. J. G. Hodgson of Marysville and Aubrey John Lloyd, only son of Mr. and Mrs. Wallace of Kimberley.

Given in marriage by her father, the bride made a charming picture in her floor length gown of ivory satin, her tulle veil arranged in Mary Queen of Scots headdress. Her bouquet was of red roses and fern.

Attendants were Miss Marny Mahaffey and Garnet Blaine. Wedding music was by Mrs. Mahaffey at the piano and Mrs. Thelma Douglas, who sang "Because." The reception was held at the home of the bride's parents.

CONSIDER some of the improvements that have come to us through chemistry in recent years.

Our automobiles have run on tires that lasted longer because of rubber chemicals. They have been given new and longer-lasting beauty with better finishes, such as "Duco" and "Dulux". Gears have been case hardened by means of chemicals; and moulded plastic parts have been used for new, attractive interior trim.

Chemistry has given us nylon yarn, too; vastly better paints, varnishes and lacquers for our homes; and light, tough, transparent "Lucite". Chemical research has found a way to make textiles water repellent. The list goes on and on.

Most assuring of all, is the fact that our chemists are still at work seeking ways to make old products better and to discover new products that will contribute to the welfare and comfort of Canadians in the years to come. *Chemistry never stands still.*

ARE PACKED

hotels here are filled with and newspapermen who rt F.A.O.'s progress on its s of raising nutritional lev- asing food production, bet- stribution, bettering rural nditions, promoting inter- policies for provision of ral credit and others.

Britain, United States, Russia, China, Canada and he other nations which at- he food and agricultural e at Hot Springs, Va., in ng of 1943 where F.A.O. elved, will send delegates.

TASKS WILL BE GREAT AND DIFFICULT

F.A.O.'s tasks will be great and difficult. There may be controversies, such as admittance of Argentina, great South American food producing country. But, as Canada's Agricultural Minister Gardiner said in a national radio address last night, the delegates will go about their task with clear vision and firm purpose to rid the world of the tyranny of hunger.

Some countries are sending delegations of as many as 30 and some will include heads of agricultural organizations, like H. H. Hannam, President of the Canadian Federation of Agriculture, who has been named to the Canadian delegation.

F.A.O. will have no legislative powers and will not be a relief agency. It will merely make recommendations on its various studies. Besides food, it will be concerned with fisheries, forestry and primary forest products, such non-food agricultural products as cotton, wool, linen and silk.

F.A.O. is expected to spend about $5,000,000 yearly for the first five years of its work.

COYOTES HUNT DUCKS, SIRDAR

SIRDAR, B.C.—Renovation work on Mr. Heaps' house has now been completed and many improvements effected. Mike Colombo, local contractor, was in charge of brick work.

Coyotes are again active, especially since the arrival of so many ducks. Their activities seem to be mostly confined to the shores of the lake in quest of wounded ducks and geese.

Few deer are seen now on the flats although a few are still seen around some of the ranches.

All tourist parks on this side of the lake are doing business at full capacity and this year is expected to exceed any preceeding year.

Guatemala is the Northernmost of the Central American states.

DUCK LAKE COVERED WITH WILDLFOWL

SIRDAR, B.C.—With the constant influx of ducks during the past 10 days the waters of Duck Lake can be said to be literally covered with them and mud hens. The latter always take a position closer to shore than the ducks. The latter can be seen forming in long lines and in bunches all over the Lake.

Hawks are beginning to appear in numbers now having followed the ducks to this area.

Court Room Filled With Laughter . . .

Says She Permitted Prisoners to Attack Camp Spy

By CHARLES CHAMBERLAIN

LUENEBERG, Oct. 15 (AP) — A blonde S.S. woman's testimony that she permitted prisoners to attack a camp spy brought laughter from the audience and a court threat to carry on the Belsen war crimes trial behind closed doors today.

Herta Ehlert, 40-year-old supervisor at Belsen, had testified that the camp spy, Helena Kopper, falsely reported three prisoners possessed concealed jewelry. When a search showed there was no jewelry, the Ehlert woman angrily confronted the prisoners with their accuser.

With gestures, the S.S. woman described how the prisoners flailed the spy with their fists. A ripple of laughter swept the court-room.

A few mintes earlier the 45 S.S. men and women guards accused of atrocities at the Oswiecim and Belsen concentration camps had witnessed a 20-minute Soviet documentary film showing the condition of 2,000 Jews found at Oswiecim by liberating Red Army forces.

The film pictures a score of twins who were to have been used for experimental purposes, 108 child prisoners, the gas chamber and the crematorium.

The defendants watched intently throughout the film — all except Irma Grese, accused of being one of the cruellest of the defendants. She looked away to whisper comments to the Ehlert woman who sat beside her.

Seek Hunters Who Dumped 3 Deer and Moose

NEW WESTMINSTER, B.C., Oct. 15 (CP) — Police here were looking today for the hunters who returned from the Cariboo and threw 800 pounds of meat — three deer and one moose on the city dump. Police said they believe the animals were shot in the Interior and brought down here. The meat was spoiled.

Nelson Advisory Committee to CNIB Hears Reports

The Nelson section of the Kootenay Regional Advisory Committee to the Canadian National Institute for the Blind met Friday night at the City Hall. D. B. Lawley, Supervisor of Field Services for the Institute was present.

J. A. Ballantyne was chairman, and others present representing Nelson service clubs and organizations were B. B. Stallwood, Mayor N. C. Stibbs, J. R. McLennan, F. H. Smith, Mrs. H. Mackenzie, Mrs. H. E. Thain, Mrs. F. E. Wheeler, Mrs. W. O. Rose, and Mrs. G. S. Blaney, P. W. Ogilvy, a colleague of Mr. Lawley, was also present.

Mrs. MacIntosh was chosen as convener of the coming tag day, and a letter campaign was referred to by Mr. Ballantyne. This is a letter going around to citizens asking for their support. There was a slight error in the letter. Contributions to the fund are exempt from Income Tax purposes and official receipts will be mailed to donors.

WILDFOWL AT SIRDAR

SIRDAR, B.C.—Although wildfowl is now plentiful the past week has seen only a few parties in the field from this point, the mild weather probably having a bearing on this condition. It is expected the Nelson and district sportsmen will be on the scene shortly.

Louis nded that school in 1810. terested in music and felt f music notation that the d read with their fingers. From this notation came the Braille system.

Dr. Armitage, a leading physician of London, met Louis Braille in 1835 and took the system to London. In 1859 the first book for the blind rolled off the press. It was the Holy Bible, consisting of 39 volumes.

Afterwards the works of Shakespeare, Sir Walter Scott's novels, Dickens, Thackeray and others were put into print for the blind. Francis Campbell, a native Tennessean, met Dr. Armitage in London, and after seeing some of the blind in Britain gave up his career as a pianist to try and uplift the blind. He became a doctor, and was later knighted. Sir Arthur Pearson, who lost his sight, designed his own printing presses for the Braille books.

Schools for the blind were later instituted in Canada. "Each province looks after its own blind children," he said. Soldiers were looked after by the government, and a workman who was blinded received 65 per cent of the wages he previously earned through Workmen's Compensation. Blind people received old age pension when 40.

"It is healthy that a good deal of the incomes should come from voluntary giving," he said. "There are 300 persons across Canada giving their time and their devotion to the institute. This is something the government can never give us.

RETURNS TO TRAIL JOB

"There were 80 Canadians blinded in this war. One young man in Trail took basic training with us, and then went back to his job in the plant that he had before the war. Another young man from Trail who is blind is still overseas."

In the absence of President A. H. Allan, Vice-President John Erb was in the chair. Other guests were P. W. Ogilvy, an associate of Mr. Lawley's and L. J. Batley of Calgary, formerly of Nelson.

Names of those on the Rotary Christmas Seal Committee were announced by J. H. Coventry. They were W. G. Harold, R. Sinclair, R. Hood and L. Peerless with J. H. Coventry as Chairman.

J. Ridlands, British Vice-Consul of Spokane, who has just returned from a trip to England, is to address the Club shortly, it was announced.

"We're Responsible for His Tomorrow"

"ONE war with Germany each generation!" Is that what we intend to accept in our minds? Where will this boy be at twenty? In Europe again, in khaki or blue?

No. This time, Canadians, and all the allies, are determined that peace will endure. To take practical steps to ensure it, our fighting forces are on duty today with the army of occupation, doing their part to make certain this peace will work. By its very presence in Germany, our army is helping to protect the hopes we all share for our children.

In addition, we must co-operate with our allies in bringing help to liberated countries. Production for this purpose, together with production on the backlog of home requirements, will ensure a high level of employment in Canada.

This great effort takes all the money we can lend. To maintain our forces in Europe and to provide the essentials to European recovery, demands millions of dollars.

There will be only one Victory Loan in the next 12 months. Because of that, the objective for the 9th Victory Loan will be higher than ever before. For that very reason, you are asked to buy double the amount this time—the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

TRIUMPH AND MENACE: The figure of Nelson, atop the Trafalgar Victory column, still looks down triumphantly on the menace that failed—the V-2 rocket, super terror weapon that the Nazis devised and hurled against London. Harmless now, the rocket bomb, is the chief exhibit in Trafalgar Square in the Thanksgiving savings week drive.

MR. MOLOTOV MAKES A CALL: Rt. Hon. Ernest Bevin, British Secretary of State for Foreign Affairs, is shown, left, with Russia's Commissar of Foreign Affairs, Vyacheslav Molotov, as they left the British Foreign Office after a visit by the Soviet stateman. Molotov was in London attending the conference of Foreign Ministers. They had a set-too at one meeting.

JAPS ROUNDED UP BY BRITISH IN HONG KONG: This is the end of a round-up in Hong Kong dockyard area. Japs face the Tommy-guns of British Marines and sailors as Hong Kong is taken over by a task force from the British Pacific Fleet under command of Rear Admiral C. H. J. Harcourt, after nearly four years in Jap hands. Snipers inside the dockyard had to be silenced.

AIR CHIEF GREETS GENERALS AFTER JAPAN FLIGHT: General of the Army Henry H. Arnold, Commander of the U. S. Army Air Forces, greets the three Generals who with veterans of the Western Pacific air war completed a 6500-mile flight from Japan to Washington with only one stop at Chicago for refuelling. Left to right are Maj.-Gen. Curtis E. Lemay who landed in 29 hours, 18 minutes; Brig.-Gen. Emmett O'Donnell who made the fastest flying time, 28 hours and three minutes; Arnold, and Lieut.-Gen. Barney Giles, who was second, in 28 hours, 40 minutes.

Brown Bomber Signs to Meet Conn in $3 Million Title Clash

BY JACK HAND

NEW YORK, Oct. 15 (AP)—Joe Louis signed on the dotted line today for the championship's share of a $3,000,000 heavyweight title fight with Billy Conn next June and then hied himself home to pack for a golfing vacation in Los Angeles.

As unconcerned as though he had stopped in to change a dime for a subway ride to Harlem, the Brown Bomber calmly posed with Promoter Mike Jacobs amidst a flurry of photographers' flash bulbs reminiscent of the "good old days."

RICHEST GATE

Jacobs said Conn would be in town Wednesday when he hoped to sew up the other half of the contract that would set up the richest gate in the history of boxing.

"I expect it will do $3,000,000 at the gate and I wouldn't want to try to guess what the figure might be if you counted in movies, radio and television," stated Uncle Mike. "Those engineers tell me they may have television perfected enough by that time to pipe the fight right onto movie house screens. If that is so, your guess on the gate is as good as mine."

There will be no tuneup scraps for Louis before the Conn battle and there will be none for the popular Irish challenger from Pittsburgh if Jacobs has his way. That little matter will be attended to Wednesday in the office of the Twentieth Century Sporting Club.

Separate exhibition tours of Europe may be arranged by Lew Burston, Jacobs' overseas representative, but it is considered more likely that the champ will be booked through the best fight towns in the United States in a series of exhibition matches.

Market Trends . . .

NEW YORK — Steels, Rails and Specialties led the stock market on another selective advance with many favorites touching highest levels since early 1937.

CHICAGO—Grain futures ran into a sizable stumbling block on their long upward path. Wheat fell more than 2 cents a bushel at times and corn and rye more than a cent. Oats were off fractionally most of the session.

Wheat dipped on profit-taking and slackened demand due to disappointing export reports from Washington. Oats and rye advanced slightly to new seasonal peaks in early dealings. Oats then weakened under long liquidation and rye dropped in sympathy with wheat.

Wheat closed 1⅝ to 2⅜ cents lower, corn was down ⅛ to 1¼, oats were off ⅝ to 1¼, rye was 1 to 2⅜ cents lower, and barley was unchanged to 1¾ off.

VANCOUVER—Powell River sold 100 shares at 25.00 for a gain of 1.50 featuring a morning of brisk trading on the stock exchange as 68,100 shares changed hands.

TORONTO—Industrial stocks appeared in the exchange market to extract some comfort from the recent tax changes and quite a lengthy list added points or sizeable fractions to last week's final prices. The group was up nearly a point in the index at the close.

LONDON—The stock market was quiet with operators awaiting the new budget before starting widespread activity.

WINNIPEG—Rye futures prices on the grain exchange were most irregular. In the early part of the session seasonal highs were registered under commission house and local demand. Toward the end of the session, prices at Chicago broke sharply and the Winnipeg market followed with selling showing considerable expansion. Trading was moderately active.

Final prices were 1¼-2 cents lower with Oct. $1.73½B; Dec. $1.69-1.69¼; May $1.69A and July $1.62¼-⅜.

There was no export business in Canadian grain reported.

MONTREAL—All pivotal groups moved up in the indices in transactions on the stock exchange and curb market in the first trading sessions after the bringing down of the budget.

Voters Ponder Platforms

By The Canadian Press

Manifestos of the three major parties, contestants in the forthcoming B.C. elections, are being studied by citizens preparing to cast their ballots Oct. 25.

43-POINT PROGRAM

Pledging a "new deal" in distribution of education costs, adjustment of provincial-municipal relations and large expenditures in developing British Columbia resources, the Coalition Government of Liberals and Conservatives has announced a 43-point program on which it is appealing to the electors.

Premier Hart said the election offered the people a clear-cut choice between a government of action prepared to march forward within bounds of free enterprise and personal initiative or "an experiment in Socialism."

Planks in the platform included:

Reduction of taxes on real property, extension of financial aid to municipalities and equalization of tax incidence of education costs.

Appointment of a committee of experts to study the financial relationship between provinces, cities and municipalities, to ascertain if there is fair divsion of responsibility.

Increasing the $10,000,000 now available to the B.C. Power Commission so that it can carry out a power program that will revolutionize farming methods and establish a vast power reserve for industrial development.

Pressing of negotiations for extension of the Pacific Great Eastern Railway and development of the resources of Northern B.C.

Carrying out of a Royal Commission's recommendations on forestry to perpetuate the industry on sound economic lines.

Aiding municipalities financially in connection with the Dominion Government slum-clearance low-rental housing program.

A $10,000,000 provincial highway program and pressing for Dominion approval of British Columbia's $210,000,000 highway proposal so that it may be included in the Federal Government public improvement plan.

Carrying out further projects of the Government's $30,000,000 immediate post-war program as soon as labor and materials are available.

Implementing of the report of Dr. M. A. Cameron of the University of B.C. who in 1944 was appointed Commissioner to investigate education problems. The report calls for establishment of a uniform basis for taxation and setting up a commission to equalize assessments.

PUBLIC OWNERSHIP AS FAR AS POSSIBLE

The Cooperative Commonwealth Federation platform calls for a program of public ownership as far as that is possible.

It recognizes that complete socialization is not now feasible due to provincial jurisdictional limitations, but proposes to extend public ownership to natural resources, public utilities and industries essential for maintenance of employment, protection of living standards and provision of social services.

Initial measures would provide for provincial ownership and development of electricity, of provincial communication and transportation facilities and of breweries and distilleries.

As a step toward ultimate public ownership of forest resources, the party would permit no further alienation of crown timber, impose charges on the industry necessary to extend forest services and provide greater returns to the government.

For agriculture, the C.C.F. would cooperate with organized farmers and growers and take practical rteps to ensure them a larger share of the consumer's dollar by eliminating many handling charges.

Rights of labor organizations would be extended and working conditions improved, including vacations with pay to all workers and reduced working hours as productive capacity and economic factors make this possible.

Another plank favors a health insurance policy covering all citizens, improved old-age pensions and increased mothers' allowances. It promises adequate housing and hospitalization facilities for aged and handicapped persons.

Equitable adjustment of freight rates is also favored.

WOULD SEEK NEW INDUSTRIES

The Labor Progressive Party in its manifesto pledges continued operation of all state war plants for peacetime production and establishment of a heavy steel industry in British Columbia.

It favors building a network of highways to be coordinated with the proposed United States highway program for Alaska, and would press the Federal Government to establish a 300-ship Canadian merchant marine to be built partially in British Columbia yards.

For agriculture the L.L.P. proposes to put a floor under prices of all farm commodities and to protect farmers and ranchers by law against evictions, foreclosures and crop failures.

It proposes immediate construction of 20,000 homes in the province, with the setting of price ceilings on city residential buildings; clearance of slum areas and replacement by low-rental homes or apartment buildings.

Other plans include: minimum wage of 55 cents an hour, free medical dental and optical treatment in schools, abolition of provincial poll tax and sales tax; proportional representation in provincial elections; and repatriation of all Japanese-Canadians who wish to return to Japan.

Seek Action on Power Plant

Action on proposed changes in the City power plant was demanded by members of the City Council Monday night. Decision was made to wire a Coast electrical engineer to come to the city at his earliest convenience to study the plant situation and to make recommendations as to how best to increase the plant's efficiency.

It was also decided to write L. A. Campbell, President and Managing Diector of the West Kootenay Power & Light Co. Ltd., to see if a written report on condition of some of the present equipment could be obtained for presentation at the Council meeting next Monday.

Aldermen B. C. Affleck, H. H. Hinitt and T. H. Waters, who was Acting Mayor in the absence of Mayor N. C. Stibbs, expressed impatience at the delay in getting action on the matter. The question had been raised eight or nine months ago, it was stated.

The Council is seeking to determine whether a fourth power unit is required or whether new machinery should replace units already in the plant. A money bylaw was passed several years ago to provide for this work which was delayed because of the war's intervention.

STUDENTS OF CASTLEGAR TOUR WARFIELD PLANTS

CASTLEGAR, B.C.—The students of the Castlegar United High School enjoyed a tour through the ammonia, phosphate, ammonium sulphate, storage and shipping plants in Warfield.

H. Simpson showed the students many interesting phases of producing fertilizers.

They also witnessed how liquid air freezes objects in a few seconds

A school bus and a private car were used to convey the students.

Castlegar Transportation Holds Social

CASTLEGAR, B.C., Oct. 16—The Castlegar Cooperative Transportation Society held its annual social and dance which was well attended.

John Dalziel was master of ceremonies. He opened the program with two songs. Other entertainers were Donna Muirhead, Nettlie Broadman, George Landis, Mrs. S. Gallo, Jurick the magician and S. Turner.

Dancing follower. At midnight lunch was served and then the dance continued until the early hours.

Peter Obetkoff won a beautiful lamp.

A couple from Trail won prizes for the "spot dance." Donald Wallace and Isobel McClure won prizes for the second "spot dance."

East Kootenay V-Loan Quota Is $1,425,000

CRANBROOK, B. C. — Quotas for the six sub-units comprising the East Kootenay Victory Loan unit for the campaign coming up October 23 have been announced here, totalling $1,425,000 compared with the Spring campaign quota of $1,100,000 when $1,425,000 was actually subscribed. This Ninth Victory Loan quota is highest for East Kootenay in the history of war finance.

Kimberley tops the quotas at $385,000 compared with its Spring quota of $310,000 when $338,000 was subscribed. Cranbrook is next at $325,000 compared with $245,000 in the Spring campaign when $367,750 was subscribed. Fernie is third with a quota of $295,000 compared with its Spring qouta of $230,000 when $296,000 was subscribed. These three are municipalities.

In the village category Creston's quota has been set at $260,000 compared with its Spring quota of $190,000 when $267,000 was subscribed. In the Michel-Natal subunit the quota is $85,000 compared with the Spring quota of $70,000 when subscriptions were $91,600. Windermere's quota has been set at $65,000 compared with its Spring quota of $55,000 when subscriptions totalled $65,000.

J. J. West of Vancouver and W. L. Clark of Kimberley continue as organizers for the East Kootenay unit, and have opened the unit's headquarters and accounting office here in a room in the Armories where they have a staff of a statistical clerk and a secretary.

Each of the six sub-units at present is drawing up its own staff of volunteer workers including chairman, secretary, sales manager and crew of salesmen.

RANGERS SIGN LAPRADE

WINNIPEG, Oct. 15 (CP)—Edgar Laprade, considered to be one of the best centre-ice prospects in years, has finally been signed to a New York Ranger contract, Lester Patrick announced today.

Laprade was starring for Port Arthur Bearcats in January, 1939, when he was first put on the Ranger list.
