

COBB SETS CAR OVER SALT FLATS AT OVER 400 M.P.H. FOR NEW MARKS

BONNEVILLE Salt Flats, Utah, Sept. 18 (AP) — John Cobb of London today held the world land speed record to 394.196 miles per hour.

Higher Prices to Prompt Wage Drives

Housewives, Civic, Labor Groups Join Rising Protest After Decontrol Move; Price Tags Change

By The Canadian Press New drives for higher wages may result from the rise in living costs touched off by the latest price decontrol order, labor union leaders say.

Earlier, C. H. Millard, National Director of the United Steelworkers of America (U.S.A.) said the rise of three to five cents in the bread price leaves labor no alternative, but to seek increased wages which will at least compensate for the increased cost of living.

As civic bodies, labor organizations and housewives joined in a clamor against word came from the restaurant owners that the bread price rise would spell the end of nickel buttered toast.

WASHINGTON, Sept. 18 (AP) — Senator Claude Pepper (Dem., Fla.) said today there is no hope for any effort to check rising living costs, and "the American people might just as well get ready for another recession."

TORONTO, Sept. 18 (CP) — Price of rye bread was expected to jump 100 per cent here tomorrow, affecting an estimated 50,000 people in Toronto.

MIAMI, Fla., Sept. 18 (AP) — Hurricane warnings already flying from Fort Lauderdale to Titusville, were ordered displayed Southward to include the Miami area tonight as a mighty tropical storm offered the threat of raking Florida with winds up to 160 miles an hour while its centre lay at sea or drifted slowly toward the mainland.

Winnipeg, Sept. 18 (CP) — Officials of Winnipeg Flyers, 1947 Western senior hockey finalists, said tonight they were attempting to arrange pre-season exhibition games with teams of the Western Canada League.

ERECT DAMS TO STEM JAPAN FLOODWATERS

2280 Reported Dead And Missing; Water Threatens Tokyo

DAMAGE HIGH TOKYO, Sept. 18 (AP) — Thousands of Japanese worked tonight erecting temporary dykes in an effort to stem floodwaters 20 miles North of Tokyo as unofficial estimates placed the number of dead and missing at 2280.

Earlier incomplete United States Military Government reports said the floodwaters, rising on the broad plain North of Tokyo in the wake of a typhoon, left nearly 1700 Japanese dead or missing and damaged some 100,000 houses.

WASHINGTON, Sept. 18 (AP) — From a United States Army plane dropping low over dirty brown floodwaters, I saw thousands of Japanese, strange to me, on broken levees and floodways.

By DUANE HENNESSY TOKYO, Sept. 18 (AP) — From a United States Army plane dropping low over dirty brown floodwaters, I saw thousands of Japanese, strange to me, on broken levees and floodways.

13 Doukhobors to Face Arson Trial, M. Verigin Direction Claimed

Thirteen Doukhobors Tuesday morning in a Nelson Provincial Police Court room were committed to trial before a court of higher jurisdiction after a preliminary hearing that lasted most of Monday and part of Tuesday.

Monday two men and a woman, George Barisoff, Mike Bayoff and Tina Rosenoff, were sentenced to seven years in the penitentiary after being convicted last week on the same charge.

John Marazoff, Helen Marazoff, Fred Bayoff, Alex Legebokoff, Fanny Storgoff, Mike Reibin, Vera Pankoff, Annie Koffinoff, Mrs. George (Grace) Barisoff, Zohar Barisoff, Alex Pankoff, Bill Olasoff and Helen Domoskoff were described by several in the courtroom as "hapless bunch of prisoners I've ever seen."

Three witnesses Wednesday told Stipendiary Magistrate William Irvine of seeing all the accused at the scene of the fire, several of them in the burned house and others in the yard.

Rossland Board Honors F. Peters On Departure

ROSSLAND, B.C., Sept. 16—F. S. Peters, former President and the member of longest standing in Rossland Board of Trade was honored by the organization upon his departure from the city. J. C. Urquhart presented Mr. Peters with a pen and pencil set at the regular meeting of the Board Thursday evening.

In accepting the gift, Mr. Peters told of his arrival in Rossland in 1894 and reminisced on the early days of the camp. He said it was with a great deal of regret that he and Mrs. Peters had decided to leave the City which had been their home for the past 50 years, but it was his intention to visit here often and attend as many meetings of the Board as he was able to.

Guest speaker at the meeting was H. W. Herridge, M.P. for Kootenay West. Mr. Herridge outlined briefly the proceedings of the last session of Parliament and told of the development being carried out in the Kootenays.

President G. W. Hertig conducted the business meeting and introduced Mr. Herridge. R. B. Wallace was named to fill a vacancy on the Executive Council and will act as Chairman of the Wholesale and Retail Committee. Harold Clegg of the Roads and Bridges Committee was instructed to draft a resolution urging an early improvement of the Southern route of the Trans-Canada Highway.

Acceptance of applications from T. G. Clark and H. W. Lefevre brought total membership of the Board to 80. The responsibility of canvassing the business section for the Chest Survey was accepted by the Retail Committee.

A. D. McCuaig, Here for 41 Years, Is Dead

Alexander Donald McCuaig, resident of Nelson since 1906, died at the Kootenay Lake General Hospital Tuesday morning.

He was born at Leaside, Colorado, in 1902 and when four years of age came directly to Nelson. He attended schools here and worked with Shorty Perasso, Nelson garage-man, for about 30 years. During the war he was on the Tadanac Police Force for one year and following his employment there spent a year on the Alaska Highway project, returning to Nelson in 1944.

He is survived by his mother, Mrs. Elsie McCuaig of Nelson, three sisters, Mrs. Fanny Perasso of Nelson, Mrs. Henrietta Norris of Edmonton, Mrs. Grace Poole of Trail; three brothers, Duncan at Aldergrove, serving in the R.C.N., and DeWitt and John of Nelson. Mr. McCuaig was predeceased by his father, Duncan McCuaig, in 1934, and by a sister, Isabelle, in 1932.

He was a member of the Clan McLeary Lodge at Nelson.

Windsor's Miss Row Sets Spanking Pace For Title Qualifiers

TORONTO, Sept. 16 (CP) — Perfect par figures over the tough Toronto Club course Monday gave Marjorie Row of the Essex Golf and Country Club, near Windsor, Ontario, medal honors in the qualifying round of the Canadian ladies open championship.

Miss Row, who rates as a leading contender for this first renewal of the Canadian title since 1938, took honors with a sparkling round of 39-39-78.

Anne Sharp of Welland, Ont., who took medal honors for a pair of 83's in the interprovincial team match last Saturday, failed to qualify today. She posted a 48-44-92, just one over the 91 required for the championship match-play test starting tomorrow.

Trailing medalist Row by three strokes were Mrs. Eddie Bush of Detroit and Mrs. Cecil Gooderham of Toronto. Mrs. Bush carded 41-40 for her 81 while Mrs. Gooderham posted 39-42.

Ada MacKenzie of the Toronto Ladies Club, oft times winner of the crown, qualified handsily with 84 while defending champion Mrs. F. J. Mulqueen of the Toronto club carded 85.

ADMITS PREVIOUS TESTIMONY FALSE

VANCOUVER, Sept. 16 (CP) — Mrs. Elaine Baker, attractive blonde police operative, testified in police court today that there were inaccuracies in the evidence she gave at the recent bootlegging trial of Joe Celona, where she appeared as a witness.

Mrs. Baker was testifying at the trial of Joe Philliponi, Ross Philliponi and Thomas Doucet, charged with keeping liquor for sale in a "palatial penthouse" in downtown Vancouver.

When asked by defence counsel if she had been telling the truth during the earlier trial, she replied: "No." Asked if she realized she might face a charge of perjury, the blonde operative answered: "Yes."

Celona was convicted last week of violations of the Liquor Act and fined \$500.

PIONEER ROSSLAND MAN IN MONTANA RECALLS HISTORY

ROSSLAND, B.C., Sept. 16 — While in a recent trip through Montana, we pulled up at a service station for a re-fill of gas at Dixon, and who should come out to serve us but one, Matt Sullivan, who used to live in Rossland 50 years ago. After learning this we were eager then to tell him of the 50th anniversary of the history of Rossland and was familiar with its anniversary celebration. In fact, he knew as much about it as we did.

He seemed to have a soft spot in his heart for Rossland and the old mining days, and spoke of his playing there.

He didn't forget mining when he left and followed it up wherever he went and finally located a bonanza of platinum and copper near Dixon.

RAID TURNS UP DRUGS

VANCOUVER, Sept. 16 (CP) — Steve Maxymuk, 24, and Jack Leith Thomson, 24, were remanded a week when they appeared in police court today charged with the possession of narcotics. They were arrested last night when police raided a house in Vancouver's Grandview district and seized narcotics with a black market value of \$15,000.

The narcotics were allegedly stolen in the robbery of the Langley Pharmacy in Langley Prairie, B.C., less than 24 hours before the pair were arrested.

Better Roads, Central Pension Fund Proposed at Annual W.I. Meeting

TRAIL, B.C., Sept. 16 — Welcoming members, delegates and guests gathered in the Presbyterian Church, Hall for the West Kootenay Women's Institute Conference. The President Mrs. Popoff spoke of the work of school nurses and how the various institutes could help in that type of social service. The President also urged revival of Institute work that had lapsed during the war.

H. W. Herridge, M.P. for Kootenay West, in an address praised the work of the Institutes throughout Canada remarking how "both sides of the country were aware of all activities and working towards a common goal."

Mrs. Chalmers of Thrums, member of the Federated Women's Institute of Canada, spoke of the recent Federated meeting in Halifax.

She referred to the "red condition and malnutrition that existed throughout the world today" and stated that 70,000 women belonged to the Women's Institute throughout the world and that all had great expectations toward bringing the world back to normal.

Still rising prices of commodities were discussed and how difficult it was for the housewife to meet increasing expenses.

Reports of the year's work were then read. The Institute heard from Balfour and Queen's Bay; Bonington and South Sloam; Crawford Bay, Creston, Fruitvale, Greenwood, Harrop, Kaslo, Lister and Hoscroft, Nelson Robeson Rock Creek, Salmo, Sloam, City, Thrums, Triangle, Willow Point, Wyndel and Trail.

These reports told of handicrafts being studied, Flower Shows, Sports Days, prizes for best projects given at schools. The work of the Health Nurse was constantly being praised and helped with a Baby Clinic being organized and well attended. Many reported on gifts to the new babies in the districts, sales tables at meetings, gifts to the crippled children, welcome to war brides tag-days. Lunch was served by the Trail Institute, 40 guests partaking.

Election of the new Board of Directors for 1947-48 was as follows: President, Mrs. Popoff, Sloam City; Vice-President, Mrs. Hankin, Willow Point; Secretary-Treasurer, Mrs. Custer, Nelson; Directors, Mrs. Henderson, Trail and Mrs. Serres, Harrop.

Mrs. Farris gave the gathering a pleasant interlude when she sang "The Rose of Tralee" and "The Lords Prayer".

The resolutions put before the meeting were:

Creston—That roads be put in shape as soon as possible between Creston and U. S. line because tourists often had turned back owing to their "bad" condition.

Crawford Bay—That all wage-earners over 21 years pay into a central fund from which pensions could be paid at 65 years of age.

Wyndel—That the Government be asked to take a firm stand when dealing with the Doukhorob question.

Mrs. Henderson of the Province Kitchen gave an interesting address on preserving of foods in the home.

Mr. Forrest showed the film "Frozen Freshness".

Mrs. Mathews of Trail gave a demonstration of weaving. On display were a number of beautiful woven articles and specimens of yard goods. A loom was set up and the working of this was explained for the interest of economy. Mrs. Mathews said in the home articles were shown woven from used sheets and bedspreads, thus putting back into the home this discarded of yesterday.

Mrs. Andersen of Grey Creek displayed articles woven from dyed silk stockings. These were in delightful colours and attracted a lot of attention.

SEA-GOING GALS FIND LIFE ON THE ROLLING DEEP "MARVELLOUS"

BP WILLIAM STEWART Canadian Press Staff Writer

MONTREAL, Sept. 16 (CP) — The blue-smoked Ladies of La Cordillera came to Montreal after six months' Atlantic, Mediterranean and Pacific Seafaring.

Pioneers at catering on British Merchant ships, the 14 girls did their job even when the 9,200-ton freighter was on beam-ends in bad weather.

"It's a marvellous life," said freckled Pearl Falconer of Aberdeen. "Even on our rough trip to Baltimore, I didn't take a minute off duty."

Though Scandinavian, Russian and Yugoslav ships have used women cooks and stewards for some years, the girls with La Cordillera who learned catering in Royal Navy messes during the war were the first to be employed as a group on a British Merchant vessel.

All former wrens, they cook, wait on the crew and the few passengers and do washing and cleaning. They have their own mess, deck space for recreation and a stowage room on the same terms as male crew members.

They have separate quarters on the boat deck with tidy double bunk cabins for senior and single girls for the juniors among them.

All are members of the British National Union of Seamen which insisted that they get the same rates of pay as would men doing the same work.

Aboard ship, the girls who wear rough blue smocks until teatime and then change to white, are under the eye of Mrs. Margareta Godfrey of London who said her rank is "Chief Steward" not "Chief Stewardess."

SEA-GOING GALS FIND LIFE ON THE ROLLING DEEP "MARVELLOUS"

SALMON PURCHASE SET

OTTAWA, Sept. 16 (CP) — Final agreement on the amount of British Columbia's canned salmon pack the United Kingdom will purchase this year was announced today by the Permanent British Food Mission here.

Neither the British Mission nor B.C. representatives who have been negotiating with them here would indicate the amount to be taken, but it presumably will be less than 40 per cent as a prior agreement for contract for this amount already has been cancelled because of Britain's dollar shortage.

SYDNEY, Australia (CP) — A Sydney optical inventor claims to have evolved a new-type screen which enables three-dimensional films to be viewed directly.

WAKE UP your DIGESTIVE TRACT

For Real Relief from Indigestion Due to Constipation

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking something for your stomach if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets lazy, food may fail to digest properly.

What you want for real relief is something to wake up your lower intestinal tract. Something to clean it out effectively—help Nature get back on her feet.

Get Carter's Pills right now. Take as directed. They gently and effectively wake up your digestive tract. This permits Nature's own digestive juices to mix better with your food. You get genuine relief from the constipation that is causing your indigestion so you can feel really good again.

Buy Carter's Pills today. 56¢. Wake up your intestinal tract for real relief from indigestion, caused by constipation.

Tells Methods of U.S. Parent-Teacher Groups in Promoting Child Welfare

The role that Parent-Teacher Association play in the United States was related to a large gathering of Nelson parents and teachers Tuesday evening by Mrs. Elva Kettlewell, who this summer studied psychology and public school guidance at the Coast.

Relaying what she had learned from the courses in their relations with parent-teachers work, Mrs. Kettlewell stated that love was the keynote of proper parenthood and tutorage. This could be attained, she pointed out, by sympathy and understanding on the part of parents, and by the teachers and principals knowing each pupil and so working in harmony with the parents.

The policy of schools in the big U. S. cities was to limit enrollment in the elementary schools to 500, thus enabling each student to become familiar to the teacher. Schools in Nelson District No. 7 have in most instances the advantages of adequate schooling facilities, she said.

The need for parents of the early grades P.T.A. organizations was brought to the fore across the Border, as well as the system of parents meeting periodically with teachers in the school rooms for greater co-operation in child education, the speaker added.

Health standards in the American schools were not on par with those of Canadian schools with regard to equal distribution of nursing staffs and clinic equipment, she said. Most of the technical health units were centralized in certain schools while others went without.

FAITH ESSENTIAL

Above all, she said, her course taught that parents and teachers must have a faith or "otherness" in life, if their duties toward the youth of the country were to be fulfilled. They should not disregard the "little things" that mould a child's future, she said. The many questions asked by children should be answered and not ignored. Creativeness should be treated as outpourings of a child's mentality rather than scoffed at from the viewpoint of an adult mind, and every child should be considered worthy of the best, Mrs. Kettlewell emphasized.

Richard Brown Wins \$200 Scholarship

Richard Brown, son of Magistrate and Mrs. William Brown of Nelson, has been awarded a \$200 Senior Matriculation scholarship by reversion. It was announced Tuesday.

The award winner, who graduated from Nelson Senior High School last June, left here Saturday morning to enter the University of British Columbia.

His parents received word of the scholarship Saturday afternoon in a wire from Charles B. Wood, Registrar of the U.B.C.

GOV'T WILL NOT LEVY 20 PER CENT TAX ON FOOTBALL

TORONTO, Sept. 16 (CP)—Football officials breathed easier today when word reached camps of the Interprovincial Rugby Football Union and the Ontario Rugby Football Union that their organizations were not liable for a 20 per cent Federal tax on gate receipts.

Gridiron bosses generally predicted an unfavorable decision would topple their house of high-priced cards as national revenue officials checked to see just how professional "amateur" football is in Eastern Canada.

But browns rapidly turned to smiles when Dave Sim, Deputy Minister of National Revenue, announced in Ottawa today that "both these leagues are recognized by the Canadian Rugby Union and therefore are not liable for the tax." Before the announcement club heads saw nothing but a collapse of the Fall pastime, if the tax went into effect.

Weather Station 600 Miles From Pole

EDMONTON, Sept. 16 (CP) — Canada will have most Northerly weather station in the world on completion of meteorological project on Eureka Sound just 600 miles from the North Pole. It was announced here today by A. T. Cowley, Director of Air Services for the Federal Transport Department.

The station is one of a chain being erected along the Arctic rim, at a cost of \$4,000,000.

Much more accurate weather forecasting will result from the new meteorological stations which in turn will be a great value in making air transport safer in all parts of the Dominion, he said.

Nelson Doctors to Coast Convention

Nelson doctors G. R. Barrett and R. B. Brummitt will attend the annual convention of the College of Physicians and Surgeons of British Columbia which opens at Vancouver Wednesday, it has been announced.

Some 400 doctors from points throughout the province are expected to attend.

REDS ATTACK BRITISH EXPORT PROGRAM

LONDON, Sept. 16 (Reuters) — Britain's new "one-third more for export" plan to beat the dollar famine crisis was attacked by British Communists today in a statement by the party's Executive Committee.

Declaring the report speech of the President of the Board of Trade Sir Stafford Crippis last Friday "a complete surrender" to demands of the Federation of British Industries and the National Union of Manufacturers, the statement said no concrete proposals were put forward for cutting overseas expenditure or the armed forces.

SUDDEN DEATHS

EDMONTON, Sept. 16 (CP) — Three sudden deaths were reported in Edmonton today.

Royal Canadian Mounted police said James O'Rourke, a miner, was killed when buried in a strip mine cave-in at Mountain Park, Alta., and Ronald McGinness of McMurray, Alta., was killed when run over by his father's truck.

Edmonton Police reported Herbert George Ward, 61, an employee of the Oliver-Mental Institute, was found dead in a stable at the Oliver Farm. Death was attributed to heart failure. No inquest will be held.

VICTORIA MAN TO NEW POST IN CANADIAN NAVY

OTTAWA, Sept. 16 (CP) — A naval captain who spent most of the war years afloat in Canada's fighting ships and later commanded the Cruiser H. M. C. S. Uganda, is the Dominion's new Deputy Chief of Naval personnel and Director of Naval Reserves.

He is Victoria-born Capt. Kenneth F. Adams and the Navy announced today he has succeeded Capt. Hugh F. Pullen, O. B. E., in the dual post following a year as Commander of the Uganda.

Capt. Pullen recently was appointed Captain "D" Canadian destroyer Flotilla, and Commanding Officer of the tribal class destroyer Nootka.

TOAST-TEA

Of friends and secrets, Owen Feltham wrote two hundred and forty years ago:—"Though a friend be but the duplicate of a man's self, yet there may often happen secrets to one, that may not be convenient to divulge to the other. If he be such that the disclosure of them to a friend shall not only not benefit him, but shall bring grief upon him, I cannot think it an act of friendship to impart them. He that gives his friend uneasiness when he needs not in his enemy, or at least is less his friend than he might be. . . . But if in some things he be reserved I shall suppose it is for his own safety, as well as my ease. I will be willing to know as far as he would have me; but I would not draw anything from him which he may not be ready to communicate. If he be one whom I value, I ought not to wrong him so much as to wrest that from him that might cause him afterwards to repent or fear. . . . If he be not to be valued, I will never engage myself so much as to be made conscious of his concealments."

Fire Warning to Slavs Upon Entering Trieste

Fire Destroys Coast Warehouse, Fuel Plants

VANCOUVER, Sept. 16 (CP) — Two Vancouver fuel plants, a warehouse and an estimated \$45,000 in property and fuel were destroyed in a spectacular hour-long blaze in the False Creek industrial area late last night.

It was the second big fire to hit the district in three weeks. Earlier this month, three buildings were destroyed by fire in a nearby section of the area.

Burned to the ground were the plants and fuel stocks of the Sun Coal and Garvin Fuel and Ice companies and the warehouse of the Ducek Motors, which with Morrow Coal and Ice Co. Ltd., all occupied a 150-yard long one-story frame building.

Two spectators, Mr. and Mrs. Norval Torrence were taken to hospital after being knocked down when a hose exploded. Mr. Torrence suffered only slight injuries while his wife suffered possible back injuries.

Two firemen suffered minor hand injuries in the fire of unknown origin which is believed to have started in the Ducek section of the building and to have been well under way before it was noticed.

Leg Amputated After Sullivan Mine Accident

KIMBERLEY, B. C., Sept. 16 — Walter Johnson, 19, had to have a leg amputated below the knee Saturday, following an accident in the Sullivan mine here about 8 a.m. The accident occurred when a rock fell on him. His other leg was also injured and is in a cast.

Mr. Johnson was a prominent athlete while at the Kimberley High School, from which he graduated last year.

Tug Sails With Cargo of Chemical Warfare Ammunition

VICTORIA, Sept. 16 (CP) — The R.C.N. tug *Heatherton* sailed from Esquimalt last night with a barge carrying approximately one-third of the 600 tons of mustard gas and other chemical warfare ammunition which is being disposed of by the Canadian Army in the first chemical warfare ammunition disposal project since that off the coast of Nova Scotia in February, 1948.

A special train, complete with military guard, was provided to transport the supplies from a location in Central Canada to Esquimalt which is serving as a base for the dumping operations.

The material is being loaded aboard a 300-ton dump scow and towed 87 miles to sea off Clayoquot Sound for dumping.

As the ammunition is all loaded in shells and other types of metal containers, it will sink easily in the deep water, with no danger of its becoming a hazard to fishermen's nets. In time, the containers will rust through, releasing the lethal liquids gradually and harmlessly.

Sirens Blare in Jewish Festival

JERUSALEM, Sept. 16 (AP) — Alarm sirens blared today for the third time since the beginning of the Jewish New Year festival of Rosh Hashonah.

The informants said a new explosion was heard near the Jewish Agency and a second at the North-western outskirts of Jerusalem. Eight explosions blasted the peace of the holiday in the city during the night. Police were unable to trace the source of the disturbances.

Meanwhile, the Arab higher executive cancelled a scheduled one-hour strike of Palestine Arabs in sympathy with the Egyptian case against Britain in the United Nations. The Executive said that, instead a general strike would be called in all Arab countries to coincide with the presentation of the Palestine Arab case to the U. N. against partitioning of the Holy Land.

Would Have American Programs Supplied To Private Stations

ATLANTIC CITY, Sept. 16 (CP) — Joseph Sedgwick of Toronto, Counsel for the Canadian Association of Broadcasters, said today he felt American radio networks should supply their programs to private stations in Canada rather than to the publicly-owned CBC stations.

GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS, CRANKY, TIRED-OUT

Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and "dragged out"—at such times? Then do try Lydia E. Pinkham's

Lydia E. Pinkham's VEGETABLE-COMPOUND

"Jump Guns" to Occupy Treaty-Gained Lands; Credits Action of U. S. Troops

TRIESTE, Sept. 16 (AP)—Allied Military Government Headquarters said today that American troops manning an outpost on the provisional frontier between Yugoslavia and the new Free State of Trieste brought up a tank and fired a warning burst of machine gun fire to discourage a Yugoslav attempt to cross the line this morning.

"It was touch and go at that outpost for a while," commented a high A.M.G. officer. He credited the "highly disciplined" American troops with having conducted themselves in such a manner as to permit the incident to end without serious consequences.

Gov't Posts Rewards for Three Convicts

OTTAWA, Sept. 16 (CP)—Rewards of \$1000 each were offered today by the Federal Government for information leading to the capture of Ulysses Lauzon, Donald (Mike) McDonald and Nicholas (Nick) Minille, who escaped from Kingston Penitentiary Aug. 18.

A circular issued from R.C.M.P. headquarters said the rewards would be paid by Maj.-Gen. R. B. Gibson, Federal Commissioner of Penitentiaries. It bore photographs and other descriptions of the three men.

A precautionary note to police officers warned that the convicts probably were in the possession of firearms, including a sub machine-gun.

It also noted that Windsor, Ont., police hold warrants for the arrest of Lauzon and McDonald for the \$40,000 bank robbery there Aug. 22, four days after their escape from penitentiary.

Aim to Keep Unemployment Down to Minimum

OTTAWA, Sept. 16 (CP) — Judge W. J. Lindal of Winnipeg, Chairman of the National Employment Committee, said today he felt that the Employment Insurance Commission should be more than a "glorified employment office."

At the opening of a two-day meeting of the committee, Judge Lindal said he felt the aim of the Commission should be to keep unemployment down to its minimum.

"Unemployment insurance is part of the whole employment scheme of the country—the last part if you will—and the operation of it is just as important as the operation of every other part. The employed worker cannot feel secure unless he knows that an efficient administration is set up to assist him if he should become unemployed."

Judge Lindal said one of the things the committee found study was the question of whether or not unemployment insurance benefits should be paid during a strike or lock-out.

SPRAY ORCHARDS FROM HELICOPTER

OTTAWA, Sept. 16 (CP)—Orchard pest control in British Columbia is taking to the air.

Agriculture Department officials reported today that an Okanagan Valley organization is experimenting with a helicopter to assist it as a means of applying insecticides to fruit trees.

The tests are being made under the supervision of the Dominion Entomological and Chemical Laboratory at Summerland, B. C., and the Canadian Army Experimental station at Suffield, Alta.

The helicopter has several advantages over fixed-wing aircraft. It is less dangerous to work, can travel at much lower speeds and yet still treat a 10-acre orchard in a few minutes and can land in a small clearing. The down-draft from the rotors produces a "rebound" which improves underleaf coverage.

SERVICEMEN SEEK MORE ALLOWANCES

By D'ARCY O'DONNELL
OTTAWA, Sept. 16 (CP)—Canada's servicemen, too, are feeling the pinch of higher living costs and the Defence Department, which will launch a recruiting drive this month, has under review the possibility of increasing subsistence allowances. It was learned today. However, it is not known when a decision will be reached.

The allowances—food and lodging—have been under review for some time because of the effect of rising living costs on members of the permanent armed forces, most of whom still are stationed outside permanent department quarters.

LONDON (CP) — A bangle "lost" for 40 years was recently claimed from the Great Western Railway yest property office.

Plan Increased Superannuation For Employees

Municipalities Endorse Seven Resolutions

MEDICAL SCHOOL

HARRISON HOT SPRINGS, B.C., Sept. 16 (CP)—The 44th annual convention of the Union of B. C. municipalities today endorsed a plan to give municipal employees increased superannuation. The report, product of a two-year study by a special committee headed by Mayor Percy George of Victoria, provided a scale of approximately \$40 per month for 20 years service, plus \$1 a month extra for each succeeding year.

Mayor George said it remained to be seen if the Provincial Government would attach a third 1/4 per cent to that already voted by the employers and the employees through payroll deduction.

The present base is \$30 per month plus \$1 for each year served over 20. An amendment by a Mayor John Loutet of North Vancouver, suggesting that the report be submitted for study by individual councils, was defeated after Acting-Mayor Charles Jones of Vancouver stated that the convention should go on record now with an opinion, after the extensive work put in by Mayor George's Special Committee.

Seven resolutions were disposed of during the morning session, with delegates unanimously in favor of having a Food Inspector appointed for Prince Rupert, B.C.

Carried unanimously was a resolution favoring three amendments to the Municipal Superannuation Act.

1. To bring all municipalities into the system.

2. To secure retention of superannuation rights on transferring from municipal to Provincial service and from Provincial to municipal service.

3. To increase the death benefit payable in the event of death in service of an employee between minimum and maximum retiring age.

Yesterday's opening sessions were featured by an indication of possible additional grants from the Provincial Government to cities and municipalities, made by Mines and Municipalities Minister R. C. MacDonaid.

Fifteen resolutions were disposed of yesterday. Principle among these was the Kelowna suggestion that the necessary steps be taken to provide facilities for setting up a medical school in British Columbia. The resolution was passed unanimously after Acting-Mayor Charles Jones of Vancouver amended it to remove a clause stating that the proposed school be built at the University of British Columbia. (See story page 3).

New York Voting System in Contest

By PAT USSHER
Canadian Press Staff Writer
NEW YORK, Sept. 16 (CP) — New York's decade of voting for a municipal government under the proportional representation system headed today towards a November test at the polls with politicians sharply divided on its merits.

The major political parties, particularly the Democrats who have dominated the Civic administration for a number of years, are anxious for repeal of proportional representation. Minor parties, which under the voting system introduced in 1937 have succeeded in winning council seats, would like it retained.

A referendum on a proposal to abolish the system now is assured, probably with voting on election day, Nov. 4, on this question. "Shall proportional representation be repealed?"

LONDON (CP) — Lucy Shubert, 82, who transformed a heap of rubble into a flower garden, won second prize in a contest.

Warn U.N. Split Must Be Stopped

Opening Session of General Assembly Faces Showdown of Russ Obstructionism

By GLYDE BLACKBURN
Canadian Press Staff Writer

NEW YORK, Sept. 16 (CP)—The opening meeting of the United Nations General Assembly was convened today amid solemn warnings that the growing split between Russia and the Western powers must be stopped at all costs.

The 1947 session, facing an agenda crowded with critical problems, began at 11:09 a.m. under chairmanship of Oswaldo Aranha of Brazil, hold-over President of the special Palestine session held last Spring.

The Assembly faced what seemed an inevitable showdown over Russian obstructionism which has dominated the organization's deliberations ever since they began two years ago.

Delegates from the 55 member countries went out to the converted world's fair building full of fears and apprehensions, but determined to be optimistic that the peace-keeping agency could be made to work.

LAURENT WORRIED
Canada's delegation leader, Louis St. Laurent, Secretary of State for External Affairs, admitted he was worried but determined in his belief that success could be attained.

"There are important divisions of opinion that might make our hopes of success look pretty flimsy," he said in an interview.

"But there is a world-wide demand for a strong and efficient organization for peace and we

RESTAURANTS TO SEEK D.P.'s FOR EMPLOYMENT

WINNIPEG, Sept. 16 (CP)—The Canadian Restaurant Association is considering making application for displaced personnel from Europe to work in restaurants in the Dominion. Managing Director George S. Hougham of Toronto told the organization's annual meeting here yesterday.

183,000,000 bushels of wheat; 90,000,000 shell eggs, and 363,000,000 pounds of ham and bacon.

He said "With a population of 12,000,000 we'd rather feed Britons in Canada than here and we are making an all-out effort this year to get as many British immigrants as possible."

The minister, who attended meetings of the United Nations' Food and Agriculture organization at Geneva, last week-end was the guest of the King at Balmoral Castle after ceremonies at which he was installed as a member of the Imperial Privy Council.

7 Burn to Death

BENTON, Ark., Sept. 16 (AP) — Seven persons burned to death today when flames destroyed their three-room dwelling four miles West of here in the Quachita foothills.

Coroner J. P. Sims said ruins of a small liquor still were found in the room where the blaze apparently started. The blaze spread so rapidly and burned so fiercely that it apparently was fed by a high volatile fuel.

TO CARRY FIGHT FOR GERMAN PACT ROLE TO LONDON

By ROSS MUNRO
OTTAWA, Sept. 16 (CP)—Canada is as firmly determined as ever to fight for adequate participation in drafting the German peace settlement when the tangled issue is reopened at a meeting scheduled for London next month.

The failure to gain ground on this claim at the Council of Foreign Ministers meeting in Moscow last Spring hasn't discouraged the Foreign Affairs authorities here. The Government is not going to allow this urgent question of participation to go by default and will press hard again, it was learned here.

The deputies of the C.F.M. are supposed to meet in London next month and the top subject on their agenda is procedure, which focuses on this question of participation by states like Canada in the treaty-making.

Canada probably will vigorously re-state its case for participation to the deputies if she gets the chance and at any rate a strong lobby is bound to be carried out during the London session by Canada, Australia, New Zealand and other middle powers which feel strongly that the Council is not giving them a fair voice in the German settlement.

Expect Appointment Of Minister to Norway This Week

OTTAWA, Sept. 16 (CP) — The appointment of E. J. Garland as new Canadian Minister to Norway is expected to be announced this week.

This appointment will create a new full-time Canadian diplomatic post in Oslo, with Mr. Garland succeeding Dr. Henry Laureys, who has been Minister to both Norway and Denmark, living in Oslo. Dr. Laureys now will go to Copenhagen as Minister to Denmark solely.

Long-time Member of Parliament for Bow River Constituency in Alberta, from 1921 to 1935, Mr. Garland joined the External Affairs Department in 1940, and for nearly seven years has been Secretary of the Canadian High Commissioner's Office in Dublin.

TEACHER SAVES STUDENTS WHEN ROOF COLLAPSES

MIDVALE, Utah, Sept. 16 (AP) — The roof on the West Jordan Junior School collapsed today less than five minutes after an alert teacher had noticed it sagging and sounded a fire drill alarm.

Nearly 400 students marched to safety and were standing in the school yard when the roof fell in. None was hurt.

"The purest form in which tobacco can be smoked"

SWEET CAPORAL CIGARETTES

See how perfect a post-war cigarette can be

and six out of the preceding 10 years for franchise. Other qualifications refer to literacy and residence in the division for which the candidate stands. Twenty members are to be elected and 10 nominated by the various groups, including recognized trade unions, who are to nominate two members, with the possibility of an increased allocation later. For the Chinese electorate there are to be six wards on the island and four on the mainland, and for the non-Chinese electorate there is to be a single constituency with 10 seats. Special provision is to be made for due representation of the Portuguese and Indian communities.

The revised Legislative Council is to have seven official and eight unofficial members. Two unofficial members will be directly nominated by the Municipal Council and one each by the Hong Kong General Chambers of Commerce and the unofficial justices of the peace. An interesting point regarding this new colonial constitution—as also in the case of Malaya as well as India and Burma—is the long time taken to work it out. The result of these two years of consultations, however, is that it will come into force with a maximum degree of agreement of the Hong Kong as a whole.

Letters to the Editor

Letters may be published over a nom de plume, but the actual name of the writer must be given to the Editor as evidence of good faith. Anonymous letters go in the waste paper basket.

Department Favors Community Use of Schools

To the Editor: Sir—Mr. White is not quite correct in his assumption that community halls can be built out of school funds. The Department of Education is not interested in community halls as such, but it is very much interested in the use of the schools for community purposes.

Educators have long deplored the fact that expensive school buildings are used for only about 25 hours a week. They feel that after the regular school sessions the buildings should be used for adult education and community projects.

Other countries have gone far with this idea. Denmark's rural high schools have long been a model to the world and Britain has in use rural community schools for children and adults—far ahead in design and equipment of anything at present built in B. C.

If Taglum is like other schools, gaining in school population, it may soon need an addition to its school building. In that case the Department of Education will be entirely sympathetic to any design which will permit effective use of the building by the community for adult education in arts and crafts or anything else they may desire. As the teaching of "Health" stands first on our curriculum, so the Department also looks with favor on the use of the schools for games and recreative pastimes.

If Mr. White wishes to go further in the matter he should organize a Parent-Teacher Association to study the question in all its aspects.

The Nelson Parent-Teacher Association will be only too glad to help, as will the Secretary B. C. Parent-Teacher Federation, 1300 Robson Street, Vancouver.

F. B. PEARCE,
President, Nelson P.T.A.

Looking Backward

10 YEARS AGO
From The Daily News, Sept. 16, 1937
Dr. F. M. Auld of Nelson yesterday was elected Second Vice-President of the British Columbia Medical Association.

Mr. and Mrs. Robert Waldie of Robson were city visitors yesterday.

Mrs. John Moe and family have taken up residence at 716 Carbonate Street.
The home of John Bell at the corner of Gore and Kootenay Streets, has been completed by contractor John Burns.

Today's Horoscope

You are the type of person who considers both sides of a question before making any decision, because of your analytical turn of mind. Painstaking, reliable and competent, you will be successful in whatever you do. You enjoy travelling, good literature and strive to better yourself. Your home life will be happy and contented. This day is good for all matters that require secrecy or finesse. Much will depend upon your own actions as to the degree of happiness and success attained in your next year. Eschew all ill-advised love adventures, doubtful friendships, get-rich-quick schemes and ultra-modern projects. Born on this date a child will have many chances of success, but may suffer loss and disappointment through unwise speculation and false friends.

??-Questions?? ANSWERS

Open to any reader. Names of persons asking questions will not be published. There is no charge for this service. Questions WILL NOT BE ANSWERED BY MAIL except when there is obvious necessity for privacy.

S. N. F. Nelson—What is the date for Thanksgiving Day this year?
Monday, October 13.

Curious, Salmo—How much did the Nelson Civic Centre cost? 2. What is the circulation of the Nelson Daily News? How far does it go?
A pamphlet issued by the Civic Centre lists the cost at \$285,000. Daily News circulation is 7247. The bulk of this number is distributed to the area between Midway and the Alberta boundary, although considerable papers are sent to West Coast ports and several copies are sent overseas daily.

G. V. Nelson—In regard to schools, would you tell me what operations are under the jurisdiction of the local School Board and what are under the Provincial Government?
At present, most School Boards, or larger unit boards, are responsible for operating the schools. They appoint and discharge teachers; fix salaries; erect, maintain and operate school buildings. Provincial departmental regulations, however, limit the range of eligible teachers, and Boards of Reference specify acceptable grounds for dismissal. Most provinces have established minimum salaries and there are regulations concerning the erection of schools. Courses of study are authorized by the Provincial Departments of Education but allow for some election of subjects in the high-school grades by the teacher and the School Board.

ALBRAND, Martha—Whispering Hill. New fiction:
The story of a passionate and beautiful woman whose possessive love destroyed her husband, and almost destroyed her son.

BERCOVICI, Konrad—The Exodus.
Here the centuries are swept away, and one of the great adventures of all time is presented as a living picture. Moses, as a boy in the fabulous palace of the Pharaohs, watched over tenderly as befitted a prince of Egypt—as he discovers his own family—as he flees the city, promising in the bewildered anger of youth, to return to lead his people out of their bondage in a strange land. This is Moses, the man of destiny, who achieved a lasting place in the history of the world—but more than any of these, it is Moses the simple man, moving with dignity and compassion among his people. Here are pages of the Bible brought to life.

BRIGHT, Robert—The Oilivers.
The story of an artist and his family existing pleasantly on a small income in a seaside villa in France, until a wealthy American woman decided to sponsor him, when family life began to disintegrate. There is an excellent characterization of the child Lisa, who eventually brought the parents together again.

BRULLER, Jean (Vercors)—Three short novels
These stories by the now-famous, but not so long ago unknown, French author are not just "more war stories," he tells us. They are concerned with the fate of the whole world. The characters are not only moving heroes of a story, they are symbols—the solemn, urgent symbols of a humanity which has not yet emerged from nightmare.

COLES, Manning—A Brother for Hugh
Another thrilling Hambleton story for the mystery fans.

COSTAIN, Thomas—The Moneyman.
Charles VII was king... The French courtiers were adroit conspirators, but the real power behind the throne was the king's mistress, Agnes Sorel. Into this tapestry of royal splendor comes a new figure, Jacques Coeur, a commoner, a financial wizard, who rose to be the King's Moneyman. By the author of The Black Rose.

DALE, Frances—My Seed—Thy Harvest
"Wealth demands experienced handling," says the author. "Money in the hands of the inexperienced is a potent weapon for tragedy and neglect." How these points are made constitutes a story of considerable power, richly and tenderly characterized, containing within the narrative a very urgent appeal for those whom it sets out to defend. My Seed, which is part one, opens at the beginning of the century in the household of the Dinglebys, parvenues of singular unpleasantness, gathered in Sir Josiah Dingleby's house to attend his funeral. The central character of part two is Geraldine, idealist dreamer and romanticist, in whose gentle hands the fruit of the seed becomes less bitter.

TEST YOURSELF
1. In mythology, who was Brynhild or Brunhilde?
2. Which Bronte sister was the author of "Wuthering Heights"?
3. Who was Kate Greenaway?

TEST ANSWERS
1. A Valkyrie, daughter of Odin, who was condemned to become a mortal because she disobeyed Odin.
2. Emily Bronte.
3. An English artist famed for her illustrations in children's books.

ETIQUETTE HINTS
The typewriter should never be used to answer a formal invitation, but in informal correspondence it is allowable. Sign yourself in long hand, however.

WORDS OF WISDOM
Malice sucks up the greater part of her own venom, and poisons herself.—Montaigne.

Movie Gossip

Believes Jack Carson One of Greatest Dressing Room Comics in Business

By RALPH DIGHTON
HOLLYWOOD, Sept. 17 (AP)—You may not think Jack Carson is funny—and even Jack will admit you could be right—but around town he's known as one of the greatest "dressing room comics" in the business.
That's a left-handed compliment. That's like saying your collier would be a great racehorse if only he were a horse. In the dressing room or during rehearsals, Carson is irrefragable. But on the screen his gags have all the spontaneity of a bankers' board meeting.
Jack has fallen back on the old reliable dodge of being the butt of his own jokes. Let a blind man step on a banana peel and somebody is bound to laugh. The guy who laughs

can also be found laughing at Carson's screen gags.
I stopped by the "April Showers" set to see Carson in a vaudeville routine with 12-year-old Bobby Ellis. They had been dancing all morning, but when Carson stepped down of the stage it was as if he hadn't been dancing at all. It was more like he had been wrestling hogs.
When he got his breath back, he pointed to little Bobby, still dancing away on the stage, and said, "would you believe it, that kid didn't know how to dance six weeks ago. I helped him all I could, and he still learned to dance. He'll probably steal my show."
Which would be an understatement of the first magnitude. People

are always stealing shows from Carson. In "Romance in High C" the theft, committed by new comer Doris Day, assumed the proportions of grand larceny.
"And she," said Jack, "isn't even supposed to be an actress. She sings."
GRIM PORTENT
If you think a recession isn't on the way—and you'd have to hunt hard in this town to find somebody who thinks it isn't—look what Marsha Hunt and Gail Patrick have found: The 1946 wardrobe being designed for them to wear in "End of the Rainbow" coincide exactly with the styles in two top-flight fashion mags of 15 years ago. And 1933, in case you've forgotten, was the blackest year of the great toboggan.
GODHURST, Kent, Eng. (CP)—Marp Hoppe, 85, who has picked hops annually in the Kentish fields for 70 years, went as usual this year in a party from London's East End.
The typewriter was invented by a Dane, Malling Hansen.

Leonard Greensword is a patient in Kaslo Victoria Hospital.

Mr. and Mrs. J. R. Tinkens returned from a short holiday in Vancouver. They were accompanied by Mrs. Tinkens' parents, Mr. and Mrs. W. L. Billings, who spent an extended holiday at the Coast.

George Murchison of Trail spent a few days with his father, William Murchison.

Pacific Milk
 Irradiated and Vacuum Packed

Sugarless BUT Sweet

MAGIC Honey Pound Cake

1 1/2 c. seedless raisins 2 1/2 tsp. Magic Baking Powder
 1/4 c. shortening 1/2 tsp. salt
 1/4 c. honey 1/2 tsp. vanilla extract
 2 eggs, well beaten 3/4 tsp. lemon extract
 2 1/2 c. sifted all-purpose flour

Rinse raisins; drain; dry on towel—cut fine with scissors. Work shortening with spoon until fluffy and creamy; gradually add honey, while continuing to work with a spoon. Add beaten eggs, and blend. Gradually stir in sifted dry ingredients; beat with spoon until smooth. Add extracts, raisins; stir to blend. Bake in greased, lightly floured 9" x 5" x 3" pan at 300° F. for 2 hours.

From INFANCY to OLD AGE

human need is mercifully served by **THE SALVATION ARMY**

Whether it be the unwanted babe, the neglected or homeless waf, the erring or unfortunate man or woman, or the aged person forgotten in the sunset of life... there is help and hope for the asking through The Salvation Army.

It is the understanding heart and the human touch that make The Salvation Army so powerful an agency in reclaiming human lives.

And it is YOUR dollars that make this great work possible.

HELP THE HELPLESS! GIVE Generously

SAYS PARENTS KNEW OF ROMANCE

SANTA ANA, Calif., Sept. 16 (AP) — Round-faced, chubby Louise Overall, taking the stand in her own defense at her trial on murder charges, testified yesterday that her romance with George (Bud) Gullum was helped along by her mother's interest, and that her entire family was aware they were engaged.

Completely composed, the 18-year-old heiress to some \$500,000 or more from the estate of her dead parents—killed in a blast aboard their yacht six months ago to the day—said Gullum was invited to dinner and on galling trips by her parents and that, last Christmas, she displayed at a family gathering her new diamond ring.

To save the eyes and avoid harmful glare, light should come over the shoulder and care should be taken not to cast the shadow of the body, or any part of it, on the work at hand, authorities say.

LIMIT SCOPE ELDONA PROBE

TORONTO, Sept. 16 (CP) — The Ontario securities commission's investigation regarding Eldona Gold Mines, Ltd., will be confined to the trading in Eldona shares on the Toronto Stock Exchange during July, August and September, it was announced today.

A commission statement said: "The purpose of the investigation is to determine whether there has been any illegality or breach of existing regulations in such trades. 'No complaints have been received by the commission regarding the management of the mine property and so far as the commission is aware the progress reports published by the management have been factual and accurate.'"

BARCLAY ON BRIDGE

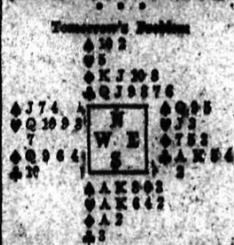

By Shepard Barclay

"The Authority on Automobiles"

NO TIME TO STOP BUFFS LEADING a trump, in order to prevent the declarer from ruffing out in the dummy his own losers in a side suit, is often a sound defensive measure.

suit which East had bid, and in each case East played his A. Then both defenders shifted suits on the return.

At the other table, upon winning the opener with his ace of clubs, East noted the dangerous long club suit in the dummy.

What bidding change two different leads to game at the table of a hand completely seal it.

Youth Diseases Current Problems At Convention

KASLO, B.C. Sept. 16—Pastor F. T. Balmer of Kaslo reported that 2000 Seventh-Day Adventist youth volunteered their services as foreign missionaries in a colorful panorama of missions attracting an audience of 15,000 which climaxed the Adventist Youth Congress held in San Francisco September 3 to 7.

discussed such current problems as: 1. Temperance—pledged themselves to continue their fight against liquor and tobacco; 2. Juvenile delinquency—agreed to help preach Christianity to 28 million young people in North America who do not attend church;

SPORTS

Dodgers Within Four Games of Flag, Whip Reds While Cards Fall

By The Canadian Press
Brooklyn's pennant-bound Dodgers whipped Cincinnati Reds 7-3 Tuesday to stretch their National League lead to 8 1/2 games over the slipping St. Louis Cardinals.

OUT OF CELLAR

Philadelphia Phillies bounced out of the National League cellar as Blix Donnelly scattered nine Pittsburgh hits to beat the Pirates 4-1 before 2568 fans.

COLCHESTER, England (CP)

Director of the new Colchester Repertory Company is Rt. Rev. F. D. V. Narborough, Bishop of Colchester.

Briton Provides Only Surprise Of Ladies Golf

TORONTO, Sept. 16 (CP)—First round match play in the Canadian ladies open golf championship ran true to form today as virtually all pre-tournament favorites posted easy wins.

BALL SCORES

Table of baseball scores for American League and National League games, including teams like St. Louis, New York, and Philadelphia.

\$83,580 Collected for Expenses of Athletes

TORONTO, Sept. 16 (CP)—A total of \$83,580 has been collected to date as Canada's contribution towards expenses of her athletes in the 1948 Olympics, the Canadian Olympic Association announced today.

Juniors to Play for Western Boxla Title

VANCOUVER, Sept. 16 (CP)—A 15-man British Columbia Junior Lacrosse team will leave here Saturday for the Western Canada Box Lacrosse Junior Championship finals opening in Winnipeg one week from today.

Anybody's Job 1948 Card Starling Roles

ST. LOUIS, Sept. 16 (AP)—Coveted starting roles on St. Louis Cardinals' pitching staff will be thrown wide open at next year's Spring training, Manager Eddie Dyer said today.

Nelson Golfers In Championship Play on Weekend

Douglas Dunbar, 1946 champ of the Nelson Golf and Country Club, Saturday and Sunday will defend his title in the annual club championship play. The two-day tournament will be played in flights of eight.

GRAVESEND, England (CP)

Three dog licenses were offered to the three oldest dogs in best condition in a dog show.

Believes His Bums Could Take Yankees

By BOB BURNS
CINCINNATI, Sept. 16 (AP)—White-haired Burt Shotton, Brooklyn stop-go manager by Brooklyns last Spring, insisted today he doesn't share the general opinion that the Dodgers are a shoo-in for the National League pennant but said "I've got my own ideas in this league I don't see why we can't take the Yankees in the World Series."

Additional Stock Markets

Table of stock market prices for Vancouver stocks, including companies like Bayonne, B R Cons, and Cariboo Gold.

SCOTTISH OUSTS CARSTEEL

WINNIPEG, Sept. 16 (CP)—Winnipeg Scottish defeated Montreal Carsteel 1-0 here tonight in the deciding game of a best-of-three series for the right to meet Vancouver St. Andrews in the Canadian soccer finals.

Interior Vegetable British Columbia Marketing Board

Marketing regulations applicable to the marketing of produce in the interior of British Columbia. Producers and others concerned are asked to note the following cities of Nelson, Rossland and Trail, effective as from September 15th, 1947.

NOTICE

Through these regulations it is our intention of ensuring (1) a fair share of the market for each produce (quality being equal), (2) fair returns for producers.

TODAY'S News Pictures

Olympic Torch Practice

In preparation for the 1948 Olympics in London, these runners are carrying torches in long jaunts across the English countryside. They are deciding the type of torch which will be run from Greece to London's Empire Stadium on July 29, 1948.

9328
SIZES
14-20
22-42

Marian Martin

A NEW LINE ON YOU
Very very smart! Pattern 9328 is just the casual sophisticated frock you want for Fall. Three pleats below that new sideline closing. No side placket makes easy sewing. This pattern gives perfect fit, is easy to use. Complete, illustrated Sew Chart shows you every step. Pattern 9328 comes in sizes 14, 16, 18, 20; 32, 34, 36, 38, 40, 42. Size 16 takes 3 3/4 yards 39-inch.

702

Sandra Wheeler

GIFT TO MAKE NOW
For that little Birthday Girl, a precious rag doll! Pinaflore Polly, this one is called—she has yarn hair, braided; movable arms, legs. Fifteen-inch doll to dress and undress! Pattern 702 has pattern and directions for doll and clothes. Laura Wheeler's new, improved pattern makes needlework so simple with its charts, photos, concise directions.

Send TWENTY-FIVE CENTS in coins (stamps cannot be accepted) for each pattern to Nelson Daily News, Pattern Dept., 206 Bakery Street, Nelson, B.C. Print plainly PATTERN NUMBER, your NAME and ADDRESS.

AUNT HET

By ROBERT QUILLLEN

We keep foolish ideas because we don't test 'em. Lots o' men over sixty work steeper and better than youngsters, but employers don't know it and won't try to find out.

SALLY'S SALLIES

"I don't know how pleased she was when I told her she didn't look older than her daughter because I was watching the daughter's face."

Did Anyone Think of a Pick-me-up

Here's a day that will long be remembered on the Bowery in New York City. Two of the drab street's habitués rust to salvage a mixture of Scotch, rye, bourbon and gin leaking from a liquor truck that had crashed into a street pillar. Immediately after the accident men poured from lodging houses with all kinds of cups, bottles and pans to take advantage of the liquid bonanza.

Tells of Tame Atomic Bomb

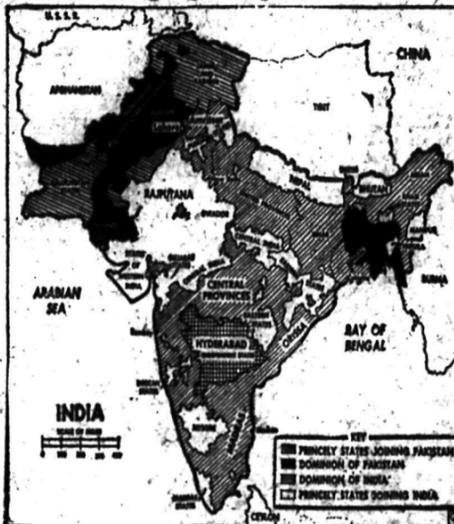

Dr. Norris E. Bradbury, (above), Director of the Los Alamos, N. M., Scientific Laboratory of the Atomic Energy Commission, has revealed how a "Tama" atom bomb developed for research into ways of getting power from nuclear fission has been in successful operation since Nov., 1946. — AP Wire-photo.

Menaced

Jane Loranger, 27 (above), of Sacramento, Calif., U. S. Information Service employee in New Delhi, India, escaped injury and possible death when a Sikh mob held up the train in which she was riding and killed 16 persons aboard.—AP Wire-photo.

Changing Map of India

Partitioned country is the new India with departure of the British because of the varied Princely States and current independence of their rulers. Two main divisions of the nation are the Dominion of India with 300,000,000 Hindus and Pakistan with 60,000,000 Muslims. Whereas the Hindoo State covers the largest area, Pakistan is divided into two separate parts, with the predominantly Moslem Princely States of Jammu and Kashmir as probable annexes in the near future. All other Princely States, with the exception of Hyderabad (centre), which thus far has indicated it will remain independent, are expected to join the Hindoo Dominion.

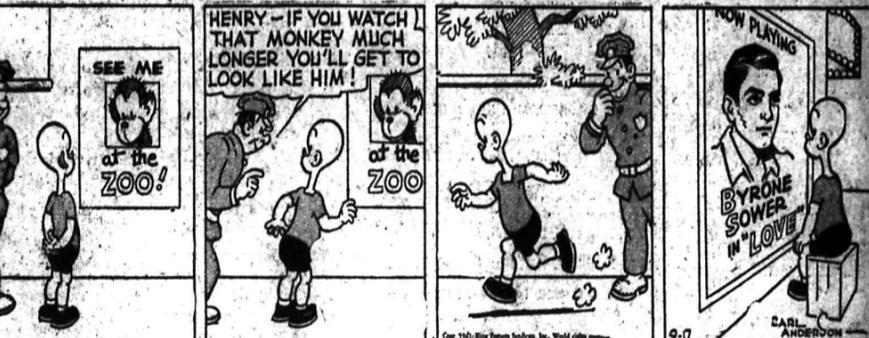

BROKEN HILL, South Africa, (CP) — At the meeting of the Central Province African Provincial Council here the secretary for native affairs submitted proposals to amend the existing witchcraft ordinance. As the law stands at present any native who says of another that he is a witch or a wizard can be punished. Some people thought that because of this Africans were afraid to report cases of witchcraft to the government and, in desperation, they sometimes killed the alleged witch who was affecting them.

ONCE DOCTOR-SPOUSE 25 YEARS A PRIEST
VAUDREUIL, Que. (CP) - A former Montreal doctor who became a Roman Catholic priest after 24 years in the medical profession and after 19 years of married life has just celebrated, at Constable, N.Y., the 25th anniversary of his ordination. He is Abbe Charles Emery Campeau, a native of this town at the west end of the island of Montreal and now priest of St. Francois d'Assise parish at Constable. Abbe Campeau practised medicine in Montreal and during that time married and had a son.
Six years after his wife died, however, he turned from the medical profession to the church and was ordained in Montreal in 1922.

British Rugby Results

LONDON, Sept. 16 (Reuters) - Rugby games played today in the United Kingdom resulted as follows:

RUGBY UNION
Redruth 0, Swansea 9.
RUGBY LEAGUE RESULTS
Yorkshire cup first round, second leg:
Batley 3, Hull 6; Batley eliminated.
Keighley 8, Hunslet 13; Hunslet eliminated.

COUPLE MARK 50TH ANNIVERSARY AT CRANBROOK

CRANBROOK, B. C., Sept. 16 - Mr. and Mrs. A. Blair marked their fiftieth wedding anniversary here Wednesday with a re-union of their family at an evening party at the home of Mr. and Mrs. Edgar Davis on Armstrong Avenue.

They were married in Scotland in 1897, and came to this district in 1911. Mr. Blair was railway car repairman at Kingsgate until 1931, when they moved to Cranbrook and have made their home on St. Joseph's Street ever since.

Attending the reunion were: Mrs. Davis, Mrs. Ben Bartholemew, Mrs. James Reekie, Cranbrook, Mrs. Nettie Fredericks, Salem, Ore., and Mrs. John Kimbrough, Costa Mesa, California, and also eight of their 10 grandchildren and two of their four great-grandchildren. Other guests were Mr. and Mrs. David Frame and Mr. and Mrs. James Brookes.

TWO HELD AT COAST ON CHARGES OF POSSESSING NARCOTICS

VANCOUVER, Sept. 16 (CP) - Two men are held here today on charges of being in possession of narcotics, following their arrests by Royal Canadian Mounted Police last night. They are Steven Maxymuk, 24, and Jack Leith Thompson, 30.

Market Trends

NEW YORK (AP) - Stocks turned to the recovery side with a number of leaders ahead major fractions to more than a point.

MONTREAL (CP) - Mines showed strength in livelier dealings. Industrials were very quiet and changes in those groups were evenly distributed.

LONDON (CP) - A sharp drop in British Government bonds which followed sale of gold to the United States featured trading. Prices opened 1/2 lower, sagged under increased selling and closed weak.

TORONTO (CP) - Industrials lagged but trade in mining issues was brisk on rising prices as Eldona continued to feature the action on about 400,000 shares for gains up to 19 cents. Senior and junior producers in the golds were firm while a handful of speculators were in the profit column. Western oils eased off slightly.

CHICAGO (AP) - Grain futures prices reversed moving sharply lower on persistent selling which trade authorities said was prompted by a government request that Marvin requirements be about doubled on speculative transactions.

Calgary Livestock

CALGARY, Sept. 16 (CP) - No livestock sales or deliveries today. Only two head of cattle on offer. No prices established.

Emerald Miners Get Wage Raise

VANCOUVER, Sept. 16 (CP) — Signing of two new contracts Monday between C.I.O.—C.M.L. miners at Salmo and A.P.L.—T.L.C. tugboat employees with their respective employers, brightened British Columbia's labor picture.

James Thompson, Canadian Seamen's Union official said between 600 and 700 tugboat men will get a blanket wage raise of \$15 a month across the board; eight days off per month, and 75-cents-an-hour for overtime in the new contract effective to July 1, 1948. Signed with 11 Vancouver and one Victoria tugboat firm.

The contract, he said, established for the first time, a minimum wage of \$117.50 per month for deckhands, and \$125 for cooks, and will call for \$40,000 in retroactive pay to July 1.

At the Canadian Exploration Ltd. operations at Salmo Emerald Tungsten Mine, 125 members of the International Union of Mine, Mill and Smelter Workers gained a wage increase of 12 1/2-cents-an-hour in a new contract signed in the department office of the Labor Relations Board.

Their contract also provides for double time on statutory and other holidays, shift differential and paid vacations.

Institute Hears Pollo Lecture

NEW DENVER, B.C., Sept. 16 — New Denver Women's Institute at the September meeting in the Legion Hall heard Mrs. Henry Kellall report for the Visiting Committee, and Mrs. James A. Greer give a report on the District Women's Institute rally. Mrs. W. G. Balmain thanked all for making the day a success.

Under the sponsorship of the Home Economics Committee, Mrs. John Taylor and Mrs. Allen Roberts undertook to teach grades 7 and 8 cooking and sewing.

A tag day for the blind was planned for early October.

Mrs. William and Mrs. May Crellin were welcomed as new members and Mrs. Harry Mott of New Denver and Miss N. E. Aylin of Trail as visitors.

Dr. A. J. Venables gave a very interesting lecture on pollyomyelitis, after which the hostesses, Mrs. A. E. Latio and Miss Florence A. Moss served refreshments. Tables were centred with various Autumn flowers.

PRICE POLICY ASKED ON OATS AND BARLEY

WINNIPEG, Sept. 16 (CP) — West Linn Elevators Association, today sent a telegram to Prime Minister MacKenzie King urging the government to announce its price policy on oats and barley for the balance of the current crop year.

Removal of price ceilings "on virtually all the things that the farmer must buy and the retention of ceilings on things the farmer must sell is obviously unfair to the farmer," the telegram said.

It urged that farmers be permitted to sell their grain and other commodities at market values and that "the government's policy, farmers that there is any change in the price policy throughout the 1947-48 crop year proper compensation will be provided for farmers who have already marketed their 1947 coarse grain crop."

Old District Mines Holding Up Ore Shipments; New Discoveries Few

By A. W. DAVIS

The ore shipments to Trail from outside properties, for the week ending September 8th, 1947, show the following mines as having shipped ore or concentrates to the Smelter, during that period: the California, Britannia, Lucky Jim, McAllister, Michaels Mines, Ottawa, Silver Giant, Western Exploration Company and the Whitewater. This list was taken at random just what happened to be the last weekly statement by the Smelter—and one thing, in particular, stands out, and that is that they are nearly all old properties, dating back to around 50 years ago.

Only two of them are of a somewhat later vintage and they are gone too recent, at that. One of these two, Michaels Mines Ltd., was started, at a rough guess, 12 or 15 years ago. The mine lies in the Pend d'Oreille country. There is a silver, lead, zinc showing exposed there and, while small at present, the area is a promising one and further prospecting might increase its importance. The other, of the two referred to, is the Mammoth Mine, at Silverton, in the Slokan, not specified in this list, but which comprises part of the holdings of the Western Exploration Company (on the list), which is also operating the adjoining Standard Mine, a big dividend payer in early days. Some 15 years ago, R. A. Grimes, now of Nelson, noticing a similar vein intersection on the surface, on this Mammoth ground, at that time partly unworked, and the obtaining in the nearby Standard Mine, drove a shallow tunnel there and opened up an important silver, lead, zinc orebody. He was lucky, at that, as if this tunnel had been 60 feet higher, he would have missed the ore, which did not go up quite that far; although it was followed 700 feet down on the dip.

But, by and large, the situation is a disturbing one and one cannot get around the fact that it is, apart from the Sullivan Mine, which is in a class of its own and the main meal ticket for the whole country, still the old original properties, which are keeping the ball rolling in the Kootenays, at the present moment.

Did the original prospectors, who overran the country, when the first rush was over, cover everything and just leave to the future generations the task of playing around with these original mines and, through increased geological knowledge and improved mining and milling methods, keeping the mining industry afloat, or concern? Probably not, for there are tremendous areas, in the Kootenays, with nothing against them geologically, which were barely overrun in the past, if they were that, and which for many years have been completely ignored and neglected. The prevailing glacial drift has undoubtedly covered up a lot of orebodies, only those, mainly at higher levels, being located by the early day prospectors, who picked off everything in plain sight and left a lot of potentially good ground for a future generation.

The old time prospector is an almost extinct species. Of course we still have ground Nelson, our own particular Jack Mulholland, but, by his own admission, he is over 80 years of age, and while he still takes gamely to the hills, you cannot go on forever, as he would be the first to admit.

Here is what H. S. Gamble, a pioneer mining man of the Kootenays, and perhaps closer to the prospector and his problems than many of these high placed individuals in the mining world, has to say:

"The gambling element is now almost entirely missing and where a man, in the past, could get a grubstake from a hundred people, he will only get a very occasional backer now, and that, furthermore, the big companies, now in the field, will not take the same chances as did the old time smaller operators."

Another thing that there is altogether too much stress on education these days, and that too many of the younger generation are looking for white collar jobs. He also thinks that these blue sky laws are killing off all initiative and that, while a number of crooks made money out of various stock promotions in the past, once in a while a new mine would be brought in, which would more than compensate for previous losses. Well, the recent killing of this \$363,000 bylaw, for a school at Salmo, should have a soothing effect on this particular individual, anyway.

Looking at things more seriously, the attempt to solve this problem above discussed, should have the careful attention of the mining operators, taking in, as well, the numerous officials of the Department of Mines at Victoria; for surely there should be some way of getting back into the groove again, before these old mines of ours have actually, like old soldiers, entirely faded away.

Agging Sisters Forced From Home, In Serious Condition

PITTSBURGH, Sept. 16 (AP) — Two aged and enfeebled sisters, forcibly removed by police from their junk-littered apartment, were reported in serious condition from malnutrition today.

For 10 days the once-prosperous seamstresses Frances Bittner, 89, and Molly Bittner, 91, had proudly shunned offers of kindly neighbors to feed and aid them.

Police who broke into the apartment last night, found one entirely helpless, the other barely able to move. Neither weighed more than 65 pounds.

The sisters had lived in seclusion since the death of a third sister, Rose, three years ago. During that period their apartment gradually filled with an accumulation of newspapers, cans, junk, and odds and ends reminiscent of the Langley Collyer case in New York.

"They were too proud to ask for help," said the sisters' lawyer. "I think their only income was their old age pensions."

Taffrie, Bullin Golf Winners at N. Denver Tourney

NEW DENVER, B.C., Sept. 16 — Miss Olive Taffrie and J. W. Bullin emerged as victors of the primary competitions of the Slokan Lake Golf Club's annual tournament here, Sunday. Under ideal weather conditions, the men played 27 holes and the women 18, and at the conclusion cups and prizes were presented by Mrs. A. J. Roberts and ice cream was served.

Miss Taffrie won the Neil Taffrie Cup, while runnerup was Mrs. A. J. Roberts. Miss Vera Bullin took third place and Miss Florence Moss earned the title of "most honest golfer."

The Eddy Graham Cup went to Mr. Bullin, with runnerup being J. Teir, Ed Kennett and Denis Clark. Mr. Teir was first and Mr. Clark second in the playoffs. Fred Angrignon was the most honest golfer among the men.

GOV'T MACHINES CLEAR WOODS IN EAST KOOTENAY

CRANBROOK, B. C., Sept. 16 — Shipped to Jaffray district from Creston last weekend, two provincial Department of Agriculture T.D.18's with clearing blades have started work, with expectations that around 300 acres of wilderness will be cleared and prepared for production over the next two months. At Creston over 800 acres were cleared in Camp Lister district.

Making available these government owned machines is part of the department's policy to encourage production. Services of the machines are obtained through application to the provincial agriculturalist's office here, with around September 22 closing date for receiving applications.

Demonstrations with the equipment started early this week and have attracted attention from all over the Jaffray district.

Clearing speed depended on the type of growth, with a rate ranging from two acres an hour on simple brush, to two days an acre for heavy growth with complicated roots.

To insure wide distribution of services of the machine, time limits have been set, with one-third cash payment covering maximum 48 hours work, one-half cash payment covering maximum 80 hours of work and full cash payment covering maximum 133 hours of work.

The word gospel formerly meant good story or glad tidings.

New Violently Radioactive Element Described

By ALTON L. BLAKELEE

NEW YORK, Sept. 16 (AP) — A strange new metal that seethes and bubbles and emits a soft glow was described for the first time today to the American Chemical Society.

This metal is curium, element 96, the heaviest known element. It is man made, it no longer exists in nature, and is the most violently radioactive solid ever isolated.

Prof. Isadore Perlman of the University of California announced that a tiny amount of curium, smaller than a grain of sand, had been produced for the first time in pure form. There is just enough to see it with the naked eye. And this strange grain amount now represents the total world supply.

Curium is one of four man-made metals discovered during the atom bomb project. The others are plutonium, the super-explosive for atom bombs, americium and neptunium.

All four probably existed naturally on earth millions of years ago when the planet was younger, and much hotter. But because of their radioactivity they broke down or decayed into other elements.

This tiny bit of pure curium has a slight yellowish cast, Dr. Perlman said. It is kept in a solution, and it tears apart the hydrogen and oxygen in the water, making these gases bubble off.

If enough of the curium were concentrated, it would probably melt by itself. It would be warm to touch. But touching it might be fatal. Even if an extremely tiny amount entered the body, it would cause eventual death due to its extreme radioactivity.

No uses are yet foreseen for curium, partly because of the terrific difficulty of making it in any quantity.

Libithia was the Roman goddess of funerals.

HIT TRAIL AGAIN

QUEBEC, Sept. 16 (CP) — Two Western "cowboys" on a trip across Canada on horseback, hit the trail again today on their way to Halifax.

Leslie Frost and Nils Nilsson, of Calgary, arrived here yesterday on their "Spook" and "Fokjen" and attracted considerable attention with their gaudy cowboy trappings.

The pair who left Vancouver in May, 1946, with \$10 in their pockets, hope to reach the East coast city in mid-October.

Urges Action for Increased Pensions For Disabled Vets

OTTAWA, Sept. 16 (CP) — Maj.-Gen. C. B. Price, Dominion President of the Canadian Legion, in a letter to Prime Minister King made public yesterday said government failure to increase the pension rates for disabled veterans had caused "bitter disappointment and much resentment" among Canadian veterans and urged immediate action in the matter.

The letter said that veteran pensioners and their dependents have had no increase for more than 25 years, that they "cannot make ends meet on their monthly stipend" and pointed out legion representations had been made to the government last November and again in May.

"The veteran body does not understand why the government, by its decisions or actions, should have assisted many other groups to secure higher incomes to offset living costs, while those who sacrificed the most in our war effort should be left to struggle with the problem unsaid," the letter said.

It added that an expression of views from Legion branches all over Canada indicated a general conviction and that "action should be taken on order-in-council if necessary to provide for an adjustment in pension rates to offset increased living costs."

By the Starting Gate

... Aerial Ladder Symbol of Progress ... The Man Who Crouched in a Window

It was probably 25 years ago that the late A. S. Horswill, at that time serving one of his many terms as an alderman, spent a long and watchful evening behind the scenes and in the basement dressing rooms of the Nelson Opera House. I spent a good portion of the evening there myself. The auditorium was packed, and something very special was going on upon the stage, some amateur production that employed a large number of young people.

What Mr., or Alderman, Horswill was doing, was a patrol to all parts of what he considered the danger zone, where live cigarettes might be lurking. "Young people are thoughtless, it is strictly against the rules to smoke here, but some are doing it; my own children are as bad as the rest," he remarked to me. He had spent many years as a volunteer fireman, knew what could happen if a cigarette butt with some life in it were tossed aside into a dark corner, among under-dry work, painted curtains and screens and so on. I felt pretty nearly as keenly about it as he did, though with less experience. What could happen was as plain as if told by letters a foot high.

Everything came out all right, but no thanks to either the design of the building, its frame construction, nor the young folks who thought it clever to break the rules. When the historic old structure years later went up in smoke it burned like a tinder box.

AERIAL LADDER A HIGH-LIGHT

One of the memories of Nelson's Jubilee Week Cavalcade that will probably remain longest with many, is a mental picture of the Fire Department's aerial ladder, like a silvery beam or shaft in the spotlight, which illustrated one of the last steps in Nelson's "50 years of progress" that was being depicted. Rising out of the dark night, nearly perpendicular, a fireman standing on each of its three sections, it traced a circle in the air as the truck's mechanism slowly revolved it at a graduated speed.

Nelsonites could well be proud at the spectacle it presented, district and other visitors could admire the beautiful piece of apparatus, and all alike could imagine the contingency in which the important fact would be, not its looks, but its efficient performance in saving life. Even those who opposed its purchase must at last have conceded its desirability. It was the visible assurance that there was no part of any building in Nelson that was beyond immediate access by a rescue squad.

Many years ago I saw an aerial ladder in action for rescue purposes during a fire. It was in Winnipeg, about 1909.

Fire apparatus in those days was still horse-drawn, and this applied to the aerial truck, which was a new acquisition. I had seen it demonstrated, and was acquainted with the veteran fireman, of No. 1 Fire Hall, who headed its crew. While it was certainly the newest thing of its kind, it could not compare in mechanical efficiency and ease of operation with the one Nelson boasts today.

The day I saw it in serious action was a day in the dead of Winter. As I remember it, I and other report-

Couple United in Balfour Nuptials

BALFOUR, B. C., Sept. 16 — St. Michael and All Saints Church was the scene of a very pretty wedding at 7 p.m., Sept. 1, when Rev. M. C. T. Percival united in marriage, Anne Grace, second daughter of Mr. and Mrs. C. J. McDonald, and Clifford Elmer MacGillivray, only son of Mr. and Mrs. A. E. MacGillivray of Balfour. The church was nicely decorated with early Autumn flowers.

The bride entered the church on the arm of her father to the strains of Lohengrin's Wedding March, played by Mrs. B. A. Moon of Calgary.

She looked lovely in a street length rayon pique peplum dress with matching accessories, wearing a corsage of salmon pink gladioli. Miss June MacGillivray, sister of the groom was bridesmaid. A. J. McDonald of Lardo, brother of the bride, supported the groom as best man.

A reception was held in Woodland Hall for relatives and many friends of the bride and groom.

The bride's table with many wedding gifts, was decorated with pink and white streamers, wedding bells and flowers and was centered with a beautiful three tiered wedding cake. H. Hudson proposed the toast to the bride, to which the groom responded. After delicious refreshments were served, the young couple left to spend their honeymoon at Ainsworth Hot Springs. The rest of the evening was enjoyed by dancing.

Out of town guests included Mr. and Mrs. Stanley Whittaker of Kimberley, Mrs. Olive Coplin and son Wayne of Calgary, Mr. Betty Milton of Manitoba, Mr. and Mrs. R. Olson, Nelson, Miss Isabelle McKay, Nelson, Mr. G. Gamble Nelson, Miss Lillian Crossley, Nelson, Mr. and Mrs. B. A. Moon and son Warren of Calgary, Mr. and Mrs. L. Grivell of Moyie.

Fight Between Communism, Anti-Red Forces Going to Be Tough for Italy

By DEWITT MACKENZIE AP Foreign Affairs Analyst

As the signs read the battle is about to be joined between the Eastern bloc (headed by Russia) and the Western bloc (led by the United States) to determine whether Italy shall become another satellite of the Soviet Union or whether she shall be an independent democracy.

It's an ironic circumstance that this fresh tribulation should descend on the beaten and distraught Romans just as the signing of the peace treaty by the Allies formally marked the end of the Second World War for Italy. Stripped of much money and territory and, what hurts worst, of her position as a great power, her government now is facing a fight for its life with a powerful Communist party.

The Allies signed treaties with four other states besides Italy—Finland, Hungary, Romania and Bulgaria. All except Italy already are

within the Russian zone of influence. That circumstance isn't a happy omen for Italy. It means that the forthcoming fight between Communism and the anti-Red forces is going to be a tough one.

DRIVE SPURRED

It long has been obvious that Italy was one of the nations specially marked out for Communization, and the big Red party in that country has been doing yeoman's work in preparing the ground for a coup. Recently this preparation has been spurred because of the advent of the Marshall Plan for European rehabilitation, which has as one of its objects to help countries like Italy defend themselves against aggressive Communism.

With the hope of forcing the issue in Italy before the Marshall Plan can become effective, the Communists are adopting drastic measures. Sunday, on the eve of the formal ratification of the Italian peace treaty, Palmiro Togliatti, Italian Communist leader, made a bitter speech in which he charged America with "working eagerly to prepare a new war." He also criticized President Truman and Pope Pius.

STRIKES THREATEN

While this speech was being delivered the country was being torn by labor troubles which Premier Alcide de Gasperi's Christian Democratic party charges were inspired by leftists. Harvests were threatened by a strike of 1,000,000 farm laborers. Leaders of 850,000 metal workers announced that they would begin a 48 hour strike today.

And on Sept. 8 Togliatti was quoted in press dispatches from Modena to Rome newspapers as declaring before a partisan rally: "We shall call the Italian people to fight for liberty which is threatened by the Government."

It is worthy of note that the United States and Britain must withdraw their occupation troops from Italy within 90 days of the signing of the peace treaty, thus leaving the government to look after itself. Moreover, Moscow has let it be known that there is a Molotov rehabilitation plan ready for the relief of those who desire it. This is bolstered by the announcement of a bumper Russian grain harvest—the Soviet Union being virtually the only area in all Europe where crops haven't failed or been bad. So the word has gone out that Russia will be able to provide bread for the needy.

France being another country in which Russia is particularly interested, the French Communists also have been redoubting their efforts to gain control. Russia has let it be known that the proposed Franco-Italian customs union is regarded with disfavor in Moscow, and is holding out the prospect of wheat for France which is short of bread. Thus the war of the aims in Europe is rushing towards what looks to be a climax. The economic crisis will bring the thing to a head soon if nothing else does.

ers were covering a meeting of one of the civic committees, in the City Hall committee-room, when we became aware that a crowd was collecting in Market Square. We went to the Western entrance, and in the center of William Avenue the aerial ladder truck was planted.

Attention of the crowd appeared to be directed toward a shirt-sleeved man crouching on the stone sill of one of the deeply recessed windows of the top story—the fourth or fifth story—while on the roof above were grouped five or six assorted men of various sizes and ages, in shirt-sleeves and leather aprons. At first I wondered what was up, as the fireman in charge of the aerial squad mounted the ladder, as it was being extended and swung toward the building.

Then black smoke began to billow out the window over the crouching man, who kept his face as low as possible.

Something went wrong with the aerial, and the ground crew were afraid to swing it over to the window, so the squad boss, who should never have left the ground, descended. What was wrong was that the horse-drawn truck had not been clamped stationary. This adjustment was made, and the squad boss sent up another man, and this time the ladder was extended practically its full length, and at an angle of about 45 degrees, and was swung around to the window embrasure.

This happened none too soon, as the black smoke was engulfing the crouching man. He made the top rungs of the ladder with the help of the fireman, and the pair of them descended safely.

I later contacted the rescued man, and got the story of the fire from him. He was the foreman of a saddlery factory, and at the time of the outbreak was on the top floor. The fire originated on the floor below, there being a burst of flame in the prevalent lint from the felt used, as someone apparently stepped on a match-head on the floor.

There was just time for the top floor crew to rush toward a ladder leading to a roof hatch. Owing to the time taken in getting a crippled workman up, the foreman, who was last man, was driven back by the flames, and forced to take to the window.

Except for the crows caught by the coatless men who escaped to the roof, no one suffered physically. The fire was drowned out without difficulty once the Fire Brigade could turn its attention to it, but there was heavy water damage to stock, while the exterior appearance of the brick building with stone facings was but slightly affected.

SAFE EXIT PROVIDED.

If there had not been the aerial, the trapped foreman would have been forced by the flames to jump to a net held by a ring of firemen. With a perfect jump, it would have worked; but he might have struck the web at an angle, and been pitched out. With the aerial, he was taken from his perilous momentary perch expeditiously and safely, in spite of the job being botched at first.

Value of the newly acquired aerial ladder was proven then and there.

—Old Hoss
